## Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

|                                |                 |
|--------------------------------|-----------------|
| Title 1 through Title 16.....  | as of January 1 |
| Title 17 through Title 27..... | as of April 1   |
| Title 28 through Title 41..... | as of July 1    |
| Title 42 through Title 50..... | as of October 1 |

The appropriate revision date is printed on the cover of each volume.

### LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

### HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, April 1, 1999), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

### EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

### OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

#### OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

#### CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I), and Acts Requiring Publication in the Federal Register (Table II). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

#### REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

### ARRIVAL AND ENTRY OF VESSELS

#### § 4.0 General definitions.

For the purposes of this part:

## United States Customs Service, Treasury

## §4.1

(a) *Vessel*. The word *vessel* includes every description of water craft or other contrivance used or capable of being used as a means of transportation on water, but does not include aircraft. (19 U.S.C. 1401.)

(b) *Vessel of the United States*. The term *vessel of the United States* means any vessel documented under the laws of the United States.

(c) *Documented*. The term *documented vessel* means a vessel for which a valid Certificate of Documentation, form CG 1270, issued by the U.S. Coast Guard is outstanding. Upon qualification and proper application to the appropriate Coast Guard office, the Certificate of Documentation may be endorsed with a: (1) Registry endorsement (generally, available to a vessel to be employed in foreign trade, trade with Guam, American Samoa, Wake, Midway, or Kingman Reef, and other employments for which another endorsement is not required), (2) coastwise endorsement (generally, entitles a vessel to employment in the coastwise trade, and other employments for which another endorsement is not required), (3) Great Lakes endorsement (generally, entitles a vessel to engage in the coastwise trade on the Great Lakes and their tributary and connecting waters, in trade with Canada, and in other employments for which another endorsement is not required), (4) fishery endorsement (generally, subject to federal and state laws regulating the fisheries, entitles a vessel to fish within the Exclusive Economic Zone (16 U.S.C. 1811) and landward of that zone and to land its catch) or (5) recreational endorsement (entitles a vessel to recreational use only). Any other terminology used elsewhere in this part to describe the particular documentation of a vessel shall be read as synonymous with the applicable terminology contained in this paragraph. Generally, any vessel of at least 5 net tons and wholly owned by a United States citizen or citizens is eligible for documentation except that for a coastwise, Great Lakes, or fisheries endorsement a vessel must also be built in the United States. Detailed Coast Guard regulations on documentation are set forth in Title 46, Code of Federal Regulations, §67.01–67.45.

(d) *Noncontiguous territory of the United States*. The term *noncontiguous territory of the United States* includes all the island territories and possessions of the United States, but does not include the Canal Zone.

(e) *Citizen*. The word *citizen* is as defined by the U.S. Coast Guard for purposes of vessel documentation (see subpart 67.03 of title 46, Code of Federal Regulations.)

(f) *Arrival of a vessel*. The phrase “arrival of a vessel” means that time when the vessel first comes to rest, whether at anchor or at a dock, in any harbor within the Customs territory of the U.S.

(g) *Departure of a vessel*. The phrase “departure of a vessel” means that time when the vessel gets under way on its outward voyage and proceeds on the voyage without thereafter coming to rest in the harbor from which it is going.

### §4.1 Boarding of vessels; cutter and dock passes.

(a) When any vessel which might have on board any article subject to Customs treatment comes within the limits of any port of entry or within Customs waters, Customs officers may board the vessel to inspect its manifest and other documents and papers and to examine, inspect, and search the vessel and the persons and articles on board.<sup>1</sup>

<sup>1</sup>“Any officer of the customs may at any time go on board of any vessel or vehicle at any place in the United States or within the customs waters \* \* \* and examine the manifest and other documents and papers and examine, inspect, and search the vessel or vehicle and every part thereof and any person, trunk, package, or cargo on board, and to this end may hail and stop such vessel or vehicle, and use all necessary force to compel compliance.” (19 U.S.C. 1581(a))

“If the master of any vessel shall obstruct or hinder, or shall intentionally cause any obstruction or hindrance to any officer in lawfully going on board such vessel, for the purpose of carrying into effect any of the revenue or navigation laws of the United States, he shall for every such offense be liable to a penalty of not more than \$2,000 nor

Except as provided in paragraph (a) of this section, boarding of a vessel arriving at a Customs port directly from another port in the United States shall not be required.

(c)(1) No person, with or without the consent of the master, except a pilot in connection with the navigation of the vessel, personnel from another vessel in connection with the navigation of an unmanned barge, an officer of Customs or the Coast Guard, an immigration or health officer, an inspector of the Animal and Plant Health Inspection Service of the U.S. Department of Agriculture, or an agent of the vessel or consular officer exclusively for purposes relating to Customs formalities, shall go on board any vessel arriving from outside the Customs territory of the United States without permission of the port director or the Customs officer in charge until the vessel has been taken in charge by a Customs officer.

(2) A person may leave the vessel for the purpose of reporting its arrival as required by law (see §4.2), but no other person, except those designated in paragraph (c)(1) of this section, shall leave any vessel arriving from outside the Customs territory of the United States, with or without the consent of the master, without the permission of the port director or the Customs officer in charge until the vessel has been properly inspected by Customs and brought into the dock or anchorage at which cargo is to be unladen and until all passengers have been landed from the vessel (19 U.S.C. 1433).

(3) Every person permitted to go on board or to leave without the consent of a Customs officer under the provisions of this paragraph shall be subject

to Customs and quarantine regulations.

(4) The master of any vessel shall not authorize the boarding or leaving of his vessel by any person in violation of this paragraph.

(d) A port director, in his discretion may issue a cutter pass on Customs Form 3093 to permit the holder to board an incoming vessel after it has been inspected by the quarantine authorities and taken in charge by an officer of the Customs, as follows: (1) To persons on official business; (2) to news reporters, newspaper photographers, photographers of established motionpicture companies, and broadcasters of established radio broadcasting companies; and (3) in cases of special exigency in which the port director is satisfied as to the urgent need for the boarding and that its allowance will not result in undue interference with the performance of official business.

(e) No person in charge of a tugboat, rowboat, or other vessel shall bring such conveyance alongside an incoming vessel heretofore described and put on board thereof any person, except as authorized by law or regulations.

(f) [Reserved]

(b) For the purposes of the vessel entry requirement in this section and §4.9, a “foreign port or place” includes a hovering vessel, as defined in 19 U.S.C. 1401(k), and any point in the Customs waters beyond the territorial sea or on the high seas at which a vessel arriving in a port or place in the U.S. has received merchandise, or a vessel on the high seas when the vessel arriving in the U.S. is returning from that vessel on the high seas after having transported merchandise out of the U.S. to the vessel on the high seas and there transshipped the merchandise to that vessel.

(c) For purposes of the vessel entry requirement in this section and §4.9, a “foreign port or place” shall include a vessel on the high seas when the vessel arriving in the U.S. is returning from the vessel on the high seas after having—

However, if any cargo is on board, the master or commander of each such vessel arriving from abroad shall file a Cargo Declaration, Customs Form 1302, or an equivalent form issued by the Department of Defense, in duplicate. #### §4.7 Inward foreign manifest; production on demand; contents and form.

(a) The master of every vessel arriving in the United States and required to make entry shall have on board his

If it is in a foreign language, an English translation shall be furnished with the original and with any required copies. The manifest shall consist of a Master's Oath on Entry of Vessel in Foreign Trade, Customs Form 1300, a General Declaration, Customs Form 1301, and the following documents: (1) Cargo Declaration, Customs Form 1302, (2) Ship's Stores Declaration, Customs Form 1303, (3) Crew's Effects Declaration, Customs Form 1304, or, optionally, a copy of the Crew List, Customs and Immigration Form I-418, to which are attached crewmember's declarations on Customs Form 5129, (4) Crew List, Customs and Immigration Form I-418, and (5) Passenger List, Customs and Immigration Form I-418. Any document which is not required may be omitted from the manifest provided the word "None" is inserted in item 17-22 of the General Declaration, as appropriate. If a vessel arrives in ballast and therefore the Cargo Declaration is omitted, the legend "No merchandise on board" shall be inserted in item 13 of the General Declaration.

(b) The original and one copy of the manifest shall be ready for production on demand. The master shall deliver the original and one copy of the manifest to the Customs officer who shall first demand it. If the vessel is to proceed from the port of arrival to other United States ports with residue foreign cargo or passengers, an additional copy of the manifest shall be available for certification as a traveling manifest (see §4.85). The port director may require an additional copy or additional copies of the manifest, but a reasonable time shall be allowed for the preparation of any copy which may be required in addition to the original and one copy.

(c) No Passenger List or Crew List shall be required in the case of a vessel arriving from Canada, otherwise than by sea, at a port on the Great Lakes or their connecting or tributary waters.

(d)(1) The master or owner of—

(ii) A documented vessel with a fishery license endorsement which has a permit to touch and trade (see §4.15) or a vessel with a fishery license endorsement lacking a permit to touch and trade but intended to engage in trade— at the port of first arrival from a foreign country shall declare on Customs Form 226 any equipment, repair parts, or materials purchased for the vessel, or any expense for repairs incurred, outside the United States, within the purview of section 466, Tariff Act of 1930, as amended (19 U.S.C. 1466). If no equipment, repair parts, or materials have been purchased, or repairs made, a declaration to that effect shall be made on Customs Form 226.

(2) If the vessel is at least 500 gross tons, the declaration shall include a statement that no work in the nature of a rebuilding or alteration which might give rise to a reasonable belief that the vessel may have been rebuilt within the meaning of the second proviso to section 27, Merchant Marine Act, 1920, as amended (46 U.S.C. 883), has been effected which has not been either previously reported or separately reported simultaneously with the filing of such declaration. The port director shall notify the U.S. Coast Guard vessel documentation officer at the home port of the vessel of any work in the nature of a rebuilding or alteration, including the construction of any major component of the hull or superstructure of the vessel, which comes to his attention unless the port director is satisfied that the owner of the vessel has filed an application for rebuilt determination as required by 46 CFR 67.27-3.

(3) The declaration shall be ready for production on demand for inspection and shall be presented as part of the original manifest when formal entry of the vessel is made.

## § 4.7a

## 19 CFR Ch. I (4–1–99 Edition)

### § 4.7a Inward manifest; information required; alternative forms.

The forms designated by § 4.7(a) as comprising the inward manifest shall be completed as follows:

(a) *Ship's Stores Declaration.* Articles to be retained aboard as sea or ship's stores shall be listed on the Ship's Stores Declaration, Customs Form 1303. Less than whole packages of sea or ship's stores may be described as "sundry small and broken stores."

(b) *Crew's Effects Declaration.* (Customs Form 1304). (1) The declaration number of the Crew Member's Declaration, Customs Form 5129, prepared and signed by any officer or crewmember who intends to land articles in the United States, or the word "None," shall be shown in item No. 7 on the Crew's Effects Declaration, Customs Form 1304 opposite the respective crewmember's name.

(2) In lieu of describing the articles on Customs Form 1304, the master may furnish a Crew List, Customs and Immigration Form I-418, endorsed as follows:

I certify that this list, with its supporting crewmembers' declarations, is a true and complete manifest of all articles on board the vessel acquired abroad by myself and the officers and crewmembers of this vessel, other than articles exclusively for use on the voyage or which have been duly cleared through Customs in the United States.

(Master.)

The Crew List on Form I-418 shall show, opposite the crewmember's name, his shipping article number and, in column 5, the declaration number. If the crewmember has nothing to declare, the word "None" shall be placed opposite his name instead of a declaration number.

(3) For requirements concerning the preparation of Customs Form 5129, see subpart G of part 148 of this chapter.

(4) Any articles which are required to be manifested and are not manifested shall be subject to forfeiture and the master shall be subjected to a penalty equal to the value thereof, as provided in section 584, Tariff Act of 1930, as amended.

(c) *Cargo Declaration.* (1) The Cargo Declaration, Customs Form 1302, shall list all the inward foreign cargo on board regardless of the port of dis-

charge. The block designated "Arrival" at the top of the form shall be checked. The name of the shipper shall be set forth in the column calling for such information and on the same line where the bill of lading is listed for that shipper's merchandise. When more than one bill of lading is listed for merchandise from the same shipper, ditto marks or the word "ditto" may be used to indicate the same shipper. The cargo described in column Nos. 6 and 7, and either column No. 8 or 9, shall refer to the respective bills of lading. Either column No. 8 or column No. 9 shall be used, as appropriate. The gross weight in column No. 8 shall be expressed in either pounds or kilograms. The measurement in column No. 9 shall be expressed according to the unit of measure specified in the Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202).

(2)(i) When inward foreign cargo is being shipped by container, each bill of lading shall be listed in the column headed "B/L Nr." in numerical sequence according to the bill of lading number. The number of the container which contains the cargo covered by that bill of lading and the number of the container seal shall be listed in column No. 6 opposite the bill of lading number. The number of any other bill of lading for cargo in that container also shall be listed in column No. 6 immediately under the container and seal numbers. A description of the cargo shall be set forth in column No. 7 only if the covering bill of lading is listed in the column headed "B/L Nr."

(ii) As an alternative to the procedure described in paragraph (i), a separate list of the bills of lading covering each container on the vessel may be submitted on Customs Form 1302 or on a separate sheet. If this procedure is used:

(A) Each container number shall be listed in alphanumeric sequence by port of discharge in column No. 6 of Customs Form 1302, or on the separate sheet; and

(B) The number of each bill of lading covering cargo in a particular container, identifying the port of lading, shall be listed opposite the number of the container with that cargo in the column headed "B/L Nr." if Customs

## United States Customs Service, Treasury

## §4.7a

Form 1302 is used, or either opposite or under the number of the container if a separate sheet is used.

(iii) All bills of lading, whether issued by a carrier, freight forwarder, or other issuer, shall contain a unique identifier consisting of up to 16 characters in length. The unique bill of lading number will be composed of two elements. The first element will be the first four characters consisting of the carrier or issuer's four digit Standard Carrier Alpha Code (SCAC) assigned to the carrier in the National Motor Freight Traffic Association, Inc., Directory of Standard Multi-Modal Carrier and Tariff Agent Codes, applicable supplements thereto and reissues thereof. The second element may be up to 12 characters in length and may be either alpha and/or numeric. The unique identifier shall not be used by the carrier, freight forwarder or issuer for another bill of lading for a period of 3 years after issuance. Customs processing of the unique identifier will be limited to checking the validity of the Standard Carrier Alpha Codes (SCAC) and ensuring that the identifier has not been duplicated within a 3-year period. Carriers and broker/importers will be responsible for reconciliation of discrepancies between manifests and entries. Customs will not perform any reconciliation except in a post-audit process.

(3) For shipment of containerized or palletized cargo, Customs officers shall accept a Cargo Declaration which indicates that it has been prepared on the basis of information furnished by the shipper. The use of words of qualification shall not limit the responsibility of a master to submit accurate Cargo Declarations or qualify the oath taken by the master as to the accuracy of his declaration.

(i) If Cargo Declaration covers only containerized or palletized cargo, the following statement may be placed on the declaration:

The information appearing on the declaration relating to the quantity and description of the cargo is in each instance based on the shipper's load and count. I have no knowledge or information which would lead me to believe or to suspect that the information furnished by the shipper is incomplete, inaccurate, or false in any way.

(ii) If the Cargo Declaration covers conventional cargo and containerized or palletized cargo, or both, the use of the abbreviation "SLAC" for "shipper's load and count," or an appropriate abbreviation if similar words are used, is approved: *Provided*, That abbreviation is placed next to each containerized or palletized shipment on the declaration and the following statement is placed on the declaration:

The information appearing on this declaration relating to the quantity and description of cargo preceded by the abbreviation "SLAC" is in each instance based on the shipper's load and count. I have no information which would lead me to believe or to suspect that the information furnished by the shipper is incomplete, inaccurate, or false in any way.

(iii) The statements specified in paragraphs (c)(3) (i) and (ii) of this section shall be placed on the last page of the Cargo Declaration. Words similar to "the shipper's load and count" may be substituted for those words in the statements. Vague expressions such as "said to contain" or "accepted as containing" are not acceptable. The use of an asterisk or other character instead of appropriate abbreviations, such as "SLAC", is not acceptable.

(d) *Crew List*. The Crew List shall be completed in accordance with the requirements of the Immigration and Naturalization Service, United States Department of Justice (8 CFR part 251).

(e) *Passenger List*. (1) The Passenger List shall be completed in accordance with §4.50 and with the requirements of the Immigration and Naturalization Service, U.S. Department of Justice (8 CFR part 231), and the following certification shall be placed on its last page:

I certify that Customs baggage declaration requirements have been made known to incoming passengers; that any required Customs baggage declarations have been or will simultaneously herewith be filed as required by law and regulation with the proper Customs officer; and that the responsibilities devolving upon this vessel in connection therewith, if any, have been or will be discharged as required by law or regulation before the proper Customs officer. I further certify that there are no steerage passengers on board this vessel (46 U.S.C. 151-163).

## §4.8

## 19 CFR Ch. I (4-1-99 Edition)

(2) If the vessel is carrying steerage passengers, the reference to steerage passengers shall be deleted from the certification, and the master shall comply with the requirements of §4.50.

(3) If there are no steerage passengers aboard upon arrival, the listing of the passengers may be in the form of a vessel “souvenir passenger list,” or similar list, in which the names of the passengers are listed alphabetically and to which the certificate referred to in paragraph (e)(1) of this section is attached.

(4) All baggage on board a vessel not accompanying a passenger and the marks or addresses thereof shall be listed on the last sheet of the passenger list under the caption “Unaccompanied baggage.”

### §4.8 Preliminary entry.

Preliminary entry allows a U.S. or foreign vessel arriving under circumstances which require it to formally enter, to discharge cargo, passengers, or baggage prior to making formal entry. The granting of preliminary entry may be accomplished electronically pursuant to an authorized electronic data interchange system, or by other means of communication approved by the Customs Service. Preliminary entry must be made in compliance with §4.30 of this part. The granting of preliminary vessel entry by the Customs Service may be conditioned upon the presentation of a completed Customs Form 1300 (Master's Certificate on Preliminary Entry) to Customs during discretionary vessel boarding, or upon the filing with Customs of a Customs Form 1300 or its equivalent by electronic or other means in instances where vessels are not boarded.

[T.D. 96-11, 61 FR 2414, Jan. 26, 1996]

### §4.9 Formal entry.

(a) Section 4.3 provides which vessels are subject to formal entry and which

are exempt from formal entry requirements. The formal entry of an American vessel from a foreign port or place (see §4.3(b) of this part) shall be in accordance with section 434, Tariff Act of 1930 (19 U.S.C. 1434). The term “American vessel” means a vessel of the United States (see §4.0(b)), as well as, when arriving by sea, a vessel entitled to be documented except for its size (see §4.0(c) of this part). The formal entry of a foreign vessel arriving within the limits of any Customs port shall be in accordance with section 434, Tariff Act of 1930 (19 U.S.C. 1434). The required oath on entry shall be executed on Customs Form 1300.

(b) Upon the entry of an American vessel, the master shall present to the port director, in addition to the Crew Lists required under §4.7(a), the certified copy of the Crew List on Customs and Immigration Form I-418 obtained, in accordance with the provisions of §4.68(a), upon the last previous clearance outward from the United States. The master shall deposit the vessel's document with the port director before or at the time of entry. The document may be returned upon request to the master of a vessel of less than 100 gross tons engaged in taking out fishing parties.

(c) The master of any foreign vessel shall exhibit the vessel's document to the port director on or before the entry of the vessel. After the net tonnage has been noted, the master may deliver it to the consul of the nation to which such vessel belongs, in which event he shall file with the port director the certificate required by section 434, Tariff Act of 1930 (19 U.S.C. 1434). If not delivered to the consul, the document shall be deposited in the customhouse. Whether delivered to the foreign consul or deposited at the customhouse, the document shall not be delivered to the master of the foreign vessel until clearance is granted under §4.61. It shall not be lawful for any foreign consul to deliver to the master of any foreign vessel the register, or document in lieu thereof, deposited with him in accordance with the provisions of section 434 of this Act until such master shall produce to him a clearance in due form from the director of the port where

such vessel has been entered. Any consul offending against the provisions of this section shall be liable to a fine of not more than \$5,000. (Tariff Act of 1930, section 438, as amended; 19 U.S.C. 1434).

(d) The master of every vessel required to make entry shall present on entry the pratique required by the pertinent regulations of the United States Public Health Service and shall pay all required fees and penalties incurred.

(e) The master, licensed deck officer, or purser may appear in person at the customhouse to enter the vessel; or the required oaths, related documents, and other papers properly executed by the master or other proper officer may be delivered at the customhouse by the vessel agent or other personal representatives of the master.

(f) Any master who fails to make entry as required by this section or who presents any document required by this section which is forged, altered, or false, may be liable for certain civil penalties, as provided under 19 U.S.C. 1436, in addition to other penalties applicable under other provisions of law. Further, any vessel used in connection with any such violation is subject to seizure and forfeiture.

### § 4.10 Request for overtime services.

Request for overtime services in connection with entry or clearance of a vessel, including the boarding of a vessel in accordance with § 4.1 shall be made on Customs Form 3171. (See § 24.16 of this chapter regarding pleasure vessels.) Such request for overtime services must specify the nature of the services desired and the exact times when they will be needed, unless a term special license (unlimited or limited to the service requested) has been issued (see § 4.30(g)) and arrangements are made locally so that the proper Customs officer will be notified during official hours in advance of the rendering of the services as to the nature of the services desired and the exact

times they will be needed. Such request shall not be approved (previously issued term special licenses shall be revoked) unless the carrier complies with the provisions of paragraphs (l) and (m) of § 4.30 regarding terminal facilities and employee lists, respectively, and the required cash deposit or bond, on Customs Form 301, containing the bond conditions set forth in § 113.64 of this chapter, has been received. Separate bonds shall be required if overtime services are requested by different principals.

[T.D. 72-189, 37 FR 13975, July 15, 1972, as amended by T.D. 84-213, 49 FR 41163, Oct. 19, 1984; T.D. 92-74, 57 FR 35751, Aug. 11, 1992]

### § 4.11 Sealing of stores.

Upon the arrival of a vessel from a foreign port, or a vessel engaged in the foreign trade from a domestic port, sea stores and ship's stores not required for immediate use or consumption on board while the vessel is in port and articles acquired abroad by officers and members of the crew, for which no permit to land has been issued, shall be placed under seal, unless the Customs officer is of the opinion that the circumstances do not require such action. Customs inspectors in charge of the vessel, from time to time, as in their judgment the necessity of the case requires, may issue stores from under seal for consumption on board the vessel by its passengers and crew. (See § 4.39.)

### § 4.12 Explanation of manifest discrepancy.

(a)(1) Vessel masters or agents shall notify the port director on Customs Form 5931 of shortages (merchandise manifested, but not found) or overages (merchandise found, but not manifested) of merchandise.

(2) Shortages shall be reported to the port director by the master or agent of the vessel by endorsement on the importer's claim for shortage on Customs Form 5931 as provided for in § 158.3 of this chapter, or within 60 days after the date of entry of the vessel, whichever is later. Satisfactory evidence to support the claim of nonimportation or of proper disposition or other corrective action (see § 4.34) shall be obtained by the

#### §4.13

#### 19 CFR Ch. I (4-1-99 Edition)

master or agent and shall be retained in the carrier's file for one year.

(3) Overages shall be reported to the port director within 60 days after the date of entry of the vessel by completion of a post entry or suitable explanation of corrective action (see §4.34) on the Customs Form 5931.

(4) The port director shall immediately advise the master or agent of those discrepancies which are not reported by the master or agent. Notification may be in any appropriate manner, including the furnishing of a copy of Customs Form 5931 to the master or agent. The master or agent shall satisfactorily resolve the matter within 30 days after the date of such notification, or within 60 days after entry of the vessel, whichever is later.

(5)(a) Unless the required notification and explanation is made timely and the port director is satisfied that the discrepancies resulted from clerical error or other mistake and that there has been no loss of revenue (and in the case of a discrepancy not initially reported by the master or agent that there was a valid reason for failing to so report), applicable penalties under section 584, Tariff Act of 1930, as amended (19 U.S.C. 1584), shall be assessed (see §162.31 of this chapter). For purposes of this section, the term "clerical error" is defined as a non-negligent, inadvertent, or typographical mistake in the preparation, assembly, or submission of the manifest. However, repeated similar manifest discrepancies by the same parties may be deemed the result of negligence and not clerical error or other mistake. For the purpose of assessing applicable penalties, the value of the merchandise shall be determined as prescribed in §162.43 of this chapter. The fact that the master or owner had no knowledge of a discrepancy shall not relieve him from the penalty.

(b) Except as provided in paragraph (c) of this section, a correction in the manifest shall not be required in the case of bulk merchandise if the port director is satisfied that the difference between the manifested quantity and the quantity unladen, whether the difference constitutes an overage or a shortage, is an ordinary and usual difference properly attributable to absorption of moisture, temperature,

faulty weighing at the port of lading, or other similar reason. A correction in the manifest shall not be required because of discrepancies between marks or numbers on packages of merchandise and the marks or numbers for the same packages as shown on the manifest of the importing vessel when the quantity and description of the merchandise in such packages are correctly given.

(c) Manifest discrepancies (shortages and overages) of petroleum and petroleum products imported in bulk shall be reported on Customs Form 5931, if the discrepancy exceeds one percent.

#### §4.13 Alcoholic liquors on vessels of not over 500 net tons.

(a) When a vessel of not over 500 net tons which arrives from a foreign port or a hovering vessel has on board any alcoholic liquors, a certificate respecting the importation of any spirits, wines, or other alcoholic liquors on board, other than sea stores, shall be delivered to the appropriate Customs officer with the inward foreign manifest. Each such certificate shall consist of a declaration of the master of the vessel, together with the certificate of a consular officer of the United States or other authorized person, and shall cover only one shipment from one consignor to one consignee or firm of consignees. The document shall be in substantially the following form:

The provisions of this paragraph, read together with those of § 91.4, title 22, Code of Federal Regulations, constitute the joint regulations contemplated for issuance by the Secretary of State and the Secretary of the Treasury under section 1707, title 19, United States Code.

(b) When any shipment of spirits, wines, or other alcoholic liquors found on board a vessel not exceeding 500 net tons is not accompanied by a certified declaration as described in paragraph (a) of this section but is shown to have

a bona fide destination outside the United States, the master shall furnish a landing bond on Customs Form 301, containing the bond conditions relating to international carriers set forth in § 113.64 of this chapter in an amount equal to twice the potential duty liability with an authorized corporate surety.

(c) The condition of the landing bond shall be satisfied by the delivery to the port director within 6 months from the date of the bond of a landing certificate or certificates of a revenue officer of the country of destination showing that all the alcoholic liquors have been landed at their foreign destination.

### § 4.14 Foreign equipment purchases by, and repairs to, American vessels.

(a) *Dutiability of foreign repairs and equipment purchases*—(1) *Items subject to duty.* The equipment, or any part thereof, including boats, purchased for, or the repair parts or materials to be used, or the expenses for repairs made, including the cost of labor incurred, outside the United States, upon any vessel documented under the laws of the United States with a registry, coastwise trade license, or Great Lakes license endorsement, or intended to be employed in such trade, are dutiable at the rate of 50 percent ad valorem on the actual cost in the country where the items are purchased or the repairs are made. Liability for declaration, entry, and payment of duties accrues at the time of the first arrival of the vessel in a port of the United States. For the purposes of this section, equipment, repair parts or materials purchased, or repairs made, in American Samoa, the Guantanamo Bay Naval Station, Guam, Puerto Rico, or the U.S. Virgin Islands are not considered to have been purchased or made outside the United States.

(2) *Dutiable costs on specific types of vessels*—(i) *Fishing vessels.* Documented vessels of the United States with a fishery license endorsement having a permit to touch and trade (see § 4.15)

#### §4.14

#### 19 CFR Ch. I (4–1–99 Edition)

and documented vessels with a fishery license endorsement which lack a permit to touch and trade are subject to this section.

(ii) *Government-owned or chartered vessels.* Vessels owned or chartered by the United States Government, if documented with a registry, coastwise trade, or Great Lakes trade endorsement, or if undocumented, intended to engage in foreign, coastwise or Great Lakes trade, are subject to this section. See paragraph (b)(2)(i) of this section with respect to entry procedures for Government vessels.

(iii) *Vessels outside U.S. for two years or more—(A) Requirements for declaration and entry of dutiable items.* If a vessel which is documented with a registry, coastwise trade, or Great Lakes trade endorsement is operated in international or foreign waters two years or more after its last departure from the U.S., the only dutiable items are fish nets and nettings whenever purchased and any other items purchased or repairs made during the first six months after the vessel's last departure from the U.S. Under these circumstances, only those items (with the exception of fish nets and nettings) purchased and repairs made outside the U.S. during the first six months after the vessel's last departure from the U.S. shall be declared and entered. Fish nets and netting purchased or repaired outside the U.S. shall be declared and entered whether or not purchased or repaired during the first six months after departure.

(B) *Exception.* The provisions of §4.14(a)(2)(iii)(A) do not apply to a vessel designed and used primarily for transporting passengers and property if such vessel departed the U.S. for the sole purpose of obtaining equipment, parts, materials, or repairs.

(iv) *LASH Barges.* Lighter-boards (LASH) barges (see §§4.81 and 4.81a) and similar vessels documented with a registry, coastwise trade, or Great Lakes trade endorsement or, if undocumented, intended to engage in such trade, are subject to this section.

(b) *Declaration and repair entry—(1) Declaration.* Upon first arrival of the vessel in the United States, the owner or master shall declare on Customs Form 226 all equipment, parts, or mate-

rials purchased, and all repairs made, outside the United States. Except as provided in §4.14(a)(2)(iii)(B), the declaration is required regardless of the dutiable status of such items or expenses. The declaration shall be ready for production on demand and for inspection by the boarding officer and shall be presented as part of the original manifest when formal entry of the vessel is made. Estimated duties shall be deposited or a bond on Customs Form 301, containing the bond conditions set forth in §113.64 of this chapter shall be filed before the departure of the vessel, except as provided in paragraph (b)(2)(i) of this section. The amount of the bond shall be determined by the port director as provided in §113.13 of this chapter. See paragraph (g) of this section for applicable penalties.

(2) *Entry.* All equipment, parts, or materials purchased for, and all repairs made outside the United States to, any vessel subject to the provisions of this section shall be entered on Customs Form 226 by the master or owner of the vessel. The entry shall be filed with the appropriate Customs officer at the port of first arrival within five working days after arrival. The Customs officer with whom the entry is filed shall forward it to the appropriate vessel repair liquidation unit. The party filing the entry shall mark it to indicate whether it is a full and complete account or an incomplete account. See paragraph (g) of this section for applicable penalties.

(i) *Entry procedures for vessels owned or chartered by the United States.* Whenever the appropriate Customs officer determines that a Government-owned or chartered vessel subject to the provisions of this section (see paragraph (a)(2)(ii)) is being operated by an agency of the United States, or that a Government-owned or chartered vessel is being operated by a private party for an agency of the United States under an agreement that obligates the Government agency to pay any duty on the costs of repairs or purchases, the vessel shall be allowed to depart the port of first arrival without depositing estimated duties or furnishing a bond to cover estimated duties. In all other cases, the vessel shall be treated as though privately owned.

(ii) *Time period for submitting evidence of cost.* Whenever a repair entry is submitted as a full and complete account, the entry papers shall include evidence showing the cost of each item listed on the entry. If a repair entry is submitted as an incomplete account, the evidence must be submitted within 90 days from the date of the vessel's arrival, except that evidence of estimated foreign shipyard cost in the possession of or known to the vessel operator must be submitted at the time entry is made. If before the end of the 90-day period, the party that is required to furnish the evidence of cost submits a written request for an extension of time beyond the 90-day period, together with a satisfactory explanation of the delay, to the appropriate vessel repair liquidation unit, that unit may grant an additional 30-day extension of time to submit cost evidence. Any request for a further extension of time to furnish evidence of cost shall be submitted to the appropriate vessel repair liquidation unit, which shall transmit the request to Headquarters, U.S. Customs Service, Attention: Entry Procedures and Carriers Branch, for approval. If the costs shown on the complete account differ from the costs declared on the entry, the appropriate Customs officer may permit amendment of the entry.

(A) *Investigation to obtain evidence.* If the required evidence is not furnished timely, or is of doubtful authenticity, the appropriate vessel repair liquidation unit shall use all available means to obtain the necessary information and may refer the matter to the Office of Investigations. If an investigation is conducted, the Office of Investigations shall obtain all available evidence on the cost of the repairs and any evidence with respect to the reason for the party's failure to submit the evidence in a timely fashion.

(B) *Concurrent time period for submission of costs and filing application for relief.* The 90-day time period to submit evidence of cost on the entry is concurrent with the 90-day time period to submit an application for relief under paragraph (d)(1)(ii) of this section and will not operate to provide additional time to submit an application for relief. A request for additional time to

submit evidence of cost may include a request for additional time to submit an application for relief.

(c) *Remission or refund of duty—(1) Vessel repair liquidation units.* Vessel Repair Liquidation Units (VRLUs) are located in New York, New York; New Orleans, Louisiana; and San Francisco, California. The New York unit processes and liquidates vessel repair entries filed at ports on the Great Lakes and on the Atlantic Coast of the U.S. north of, but not including Norfolk, Virginia. The New Orleans unit processes and liquidates vessel repair entries filed at ports on the Atlantic Coast of the U.S. from Norfolk, Virginia, southward, and all U.S. ports on the Gulf of Mexico, including ports in Puerto Rico. The San Francisco unit processes and liquidates vessel repair entries filed at all ports on the Pacific Coast of the U.S., including those in Alaska and Hawaii. After entries are processed and liquidated, bulletin notices of liquidation are returned to original ports of entry for posting.

(2) *Authority.* In cases in which both clearly applicable Headquarters precedent exists, and the resulting refund or remission of duty will be less than \$50,000, the proper VRLU may approve or deny Applications for Relief. In cases in which clearly applicable precedent does not exist, or the resulting refund or remission will be \$50,000 or greater, the Application for Relief will be referred for action to the Entry and Carrier Rulings Branch, Customs Headquarters.

(3) *Basis for remission or refund.* Remission or refund of duty is authorized if good and sufficient evidence is furnished which shows any of the following circumstances exist:

(i) *Stress of weather or other casualty.* The vessel, while in the regular course of its voyage, was compelled, by stress of weather or other casualty, while outside the United States, to purchase such equipment or make such repairs, to secure the safety and seaworthiness of the vessel to enable it to reach its port of destination in the United States. However, only the duty on the cost of the minimal repairs needed for the safety and seaworthiness of the vessel is subject to remission or refund. For the purposes of this section, the

term “casualty” does not include any purchases or repairs necessitated by ordinary wear and tear, but does include a part’s failure to function if satisfactory evidence shows that the specific part was repaired or serviced immediately before starting the voyage from the United States port and that the part failed to function within six months of such repair or servicing.

(ii) *United States parts and equipment installed with American labor.* The equipment, equipment parts, repair parts or materials used on the vessel were manufactured or produced in the United States and purchased by the owner of the vessel in the United States, and the labor necessary to install such equipment or to make such repairs was performed by residents of the United States or by members of the regular crew of the vessel.

(iii) *Dunnage.* The equipment, equipment parts, materials or labor were used as dunnage for cargo, or for the packing or shoring thereof, or in the erection of temporary bulkheads or other similar devices for the control of bulk cargo, or in the preparation (without permanent repair or alteration) of tanks for the carriage of liquid cargo.

(d) *Procedure for remission or refund of duties—(1) Application for relief—(i) Form and contents.* The application for relief need not be in any particular form. The application for relief should allege that an item or a repair expense covered by the entry is not subject to duty under paragraph (a) of this section, or that the articles purchased or the repair expenses are within the provisions of paragraph (c) of this section, or that both conditions are present. The application for relief also shall certify that all foreign equipment, parts, or materials purchased for, and all foreign repairs made to, the vessel within one year immediately preceding the application have been declared as required by this section, or the application shall be deemed incomplete. The application for relief shall be signed by the master, owner, or operator of the vessel, or their authorized agent. If the application for relief is filed by a corporation, it shall be signed by an authorized corporate officer.

(ii) *Place and time of filing.* The application for relief shall be filed with the

appropriate Customs officer at the port where the vessel repair entry was made or with the appropriate vessel repair liquidation unit (see paragraph (c)(1) of this section). If filed at the port where the entry was made, the Customs officer who receives the application shall promptly forward it, together with his comments, if any, to the appropriate vessel repair liquidation unit. The application for relief, with supporting evidence, shall be filed within 90 days from the date of first arrival of the vessel. However, if good cause is shown, the appropriate vessel repair liquidation unit may authorize one 30-day extension of time to file beyond the 90-day filing period.

(iii) *Supporting evidence.* Unless such evidence is already filed with Customs, each application for relief shall include duplicate copies of the following evidence, in addition to any other documents the applicant wishes to submit in support of the application:

(A) All itemized bills, receipts, and invoices covering items specified in paragraph (a)(1) of this section, segregating the cost of those items for which relief is sought from all other items listed in the vessel repair entry.

(B) Full and complete photocopies of the relevant parts of the vessel’s logs.

(C) Photocopies of any American Bureau of Shipping or other classification society report of the cause and type of damage and the nature of the remedial action taken, together with photocopies of any certifications of seaworthiness.

(D) A certification by the master or other responsible vessel officer with personal knowledge of the facts relating to the relief sought, including, but not limited to, details of the claimed stress of weather or other casualty, when and where it occurred, the damages due to such stress of weather or other casualty, and the place and date where the vessel was repaired or the equipment for the vessel was purchased.

(E) A certification by the master as to whether the repairs or equipment purchases were necessary for the safety and seaworthiness of the vessel to enable it to reach its port of destination in the United States.

(F) A written description of the circumstances involved by the master or other responsible vessel officer having knowledge of the facts when remission or refund is sought under the provisions of paragraph (c)(3)(ii) (relating to the use of American equipment and labor) or (c)(3)(iii) (relating to dunnage) of this section.

(G) In the case of LASH barges and similar unmanned vessels, the evidence required in paragraphs (d)(1)(iii) (B), (D), (E), and (F) of this section may be omitted, and in lieu thereof, the owner or operator of each vessel shall submit evidence showing that: (1) The vessel was inspected immediately prior to its lading aboard the vessel which transported it to a foreign port on the voyage in which the damage occurred, (2) the vessel was then found to be in seaworthy condition, (3) the damage was discovered during the course of the foreign voyage, and (4) the repairs were necessary for the safety and seaworthiness of the vessel to enable it to reach its port of destination in the United States.

(iv) *Documentary evidence.* All documents submitted in support of an application must be certified by the master or owner of the vessel to be originals or copies of originals. If a vessel is owned or operated by a corporation, the master or an authorized corporate officer shall certify the documents. Documents in a foreign language shall be accompanied by an English translation that is certified for accuracy by the translator.

(v) *Action.* Within 60 days after receipt of an application for relief by a vessel repair liquidation unit, the appropriate vessel repair liquidation unit shall either approve or deny the application for relief or forward it to Headquarters, U.S. Customs Service, Attention: Entry Procedures and Carriers Branch, for advice, as provided in paragraph (c)(2) of this section. The appropriate vessel repair liquidation unit shall give prompt written notice of any final decision to the party who submitted the application. The notice shall advise the party of its right to petition for review of the decision under paragraph (d)(2) of this section. If the entry has been liquidated, reliquidation is required.

(vi) *Suspension of liquidation.* If an application for relief has been filed within the time period provided in paragraph (d)(1)(ii) of this section, liquidation of the vessel repair entry shall be suspended until 30 days after the date of the written notice provided for in paragraph (d)(1)(v) of this section.

(2) *Petition for review on a denial of an application for relief—(i) Form.* If an applicant is dissatisfied with the decision on its application for relief, the applicant may file a petition for review of that decision. The petition for review need not be in any particular form. The petition for review must identify the decision on the application for relief and must detail the exceptions taken to that decision. The petition shall be signed by the master, owner, or operator of the vessel, or their authorized agent. If the petition for review is filed by a corporation, it must be signed by a duly authorized corporate officer.

(ii) *Place and time of filing.* The petition for review shall be addressed to the Commissioner of Customs and shall be filed with the appropriate vessel repair liquidation unit within 30 days after the date of the written notice to the party of the decision on the application for relief, as provided in paragraph (d)(1)(v) of this section. However, if good cause is shown, the appropriate vessel repair liquidation unit may authorize one additional 30-day extension of time.

(iii) *Action.* The appropriate vessel repair liquidation unit promptly shall transmit a copy of the petition for review, any comments and recommendations he may have on the petition for review, and the entire file on the application for relief to Headquarters, U.S. Customs Service, Attention: Entry Procedures and Carriers Branch, for decision. After notification of the decision by Headquarters, the appropriate vessel repair liquidation unit shall give written notification of that decision to the party who filed the petition for review. The notice will inform the party that no further suspension of liquidation will be permitted.

(iv) *Suspension of liquidation.* If an original petition for review is filed within the time provided for in paragraph (d)(2)(ii) of this section, liquidation of the vessel repair entry shall be

suspended further until the vessel repair liquidation unit notifies the party who filed the petition of the decision on the petition. Following notification of the Headquarters decision to the party who filed the petition, the vessel repair liquidation unit shall promptly initiate liquidation of the entry in accordance with that decision.

(e) *Liquidation of vessel repair entries, time limits.* If evidence of cost is available and the appropriate vessel repair liquidation unit receives written notification from the master, owner, or operator of the vessel, or their authorized agent, that an application for relief will not be filed, the vessel repair liquidation unit promptly shall initiate liquidation of the entry. In all other cases in which the evidence of cost is available, the entry may be liquidated 60 days after arrival of the vessel, or at the expiration of any extension of time granted under paragraph (b)(2)(ii) of this section to furnish evidence of cost, unless an application for relief is filed timely as provided in paragraph (d)(1)(ii) of this section. If an application for relief is filed timely, the vessel repair entry may be liquidated 30 days after the date of the written notice to the party who filed the application for relief, as provided in paragraph (d)(1)(v), unless a petition for review is filed timely under paragraph (d)(2)(ii) of this section. If a petition for review is filed timely, the vessel repair entry may be liquidated after the date of the notification of the decision on the petition to the party who filed the petition.

(f) *Protests.* Following liquidation of an entry, a protest under part 174 of this chapter may be filed against the decision to treat an item or a repair as dutiable under paragraph (a) of this section, or against the decision denying the remission or refund of vessel repair duties under paragraph (c) of this section.

(g) *Penalties—(1) Failure to report, enter, or pay duty.* If the owner or master of a vessel subject to the provisions of paragraph (a) of this section willfully or knowingly neglects or fails to report, make entry, and pay duties as required, or if he makes any false statement in respect of the purchases or repairs described in this section

without reasonable cause to believe the truth of the statements, or aids or procures the making of any false statement as to any material matter without reasonable cause to believe the truth of the statement, the vessel, with its tackle, apparel, and furniture, or a monetary amount up to the value thereof as determined by the Secretary of the Treasury, to be recovered from the owner, shall be subject to seizure and forfeiture.

(2) *False declaration.* If any person required to file a declaration on Customs Form 226, by paragraph (b)(1) of this section, or to file an entry on Customs Form 226, by paragraph (b)(2) of this section, willfully and knowingly provides any false information, or willfully and knowingly omits any required information, that person shall be subject to the criminal penalties provided for in 18 U.S.C. 1001.

#### §4.15 Fishing vessels touching and trading at foreign places.

(a) Before any vessel documented with a fishery license endorsement shall touch and trade at a foreign port or place, the master shall obtain from the port director a permit on Customs Form 1379 to touch and trade.

When a fishing vessel departs from the United States and there is an intent to stop at a foreign port (1) to lade vessel equipment which was preordered, (2) to purchase and lade vessel equipment, or (3) to purchase and lade vessel equipment to replace existing vessel equipment, the master of the vessel must either clear for that foreign port or obtain a permit to touch and trade, whether or not the vessel will engage in fishing on that voyage.<sup>28</sup> Purchases

The duty may be remitted if it is established that the purchases resulted from stress of weather or other casualty.

(b) Upon the arrival of a documented vessel with a fishery endorsement which has put into a foreign port or place, the master shall report its arrival, make entry, and conform in all respects to the regulations applicable in the case of a vessel arriving from a foreign port.

## TONNAGE TAX AND LIGHT MONEY

### § 4.20 Tonnage taxes.

(a) Except as specified in § 4.21, a regular tonnage tax or duty of 9 cents per net ton, not to exceed in the aggregate 45 cents per net ton in any 1 year, shall be imposed at each entry on all vessels which shall be entered in any port of the United States from any foreign port or place in North America, Central America, the West Indies, the Bahama Islands, the Bermuda Islands, the coast of South America bordering on the Caribbean Sea (considered to include the mouth of the Orinoco River), or the high seas adjacent to the U.S. or the above listed foreign locations, and on all vessels (except vessels of the U.S., recreational vessels, and barges, as defined in § 2101 of Title 46) that depart a U.S. port or place and return to the same port or place without being entered in the United States from another port or place, and regular tonnage tax of 27 cents per net ton, not to

## § 4.20

## 19 CFR Ch. I (4-1-99 Edition)

exceed \$1.35 cents per net ton per annum, shall be imposed at each entry on all vessels which shall be entered in any port of the United States from any other foreign port. In determining the port of origin of a voyage to the United States and the rate of tonnage tax, the following shall be used as a guide:

(1) When the vessel has proceeded in ballast from a port to which the 27-cent rate is applicable to a port to which the 9-cent rate applies and there has laden cargo or taken passengers, tonnage tax upon entry in the United States shall be assessed at the 9-cent rate.

(2) The same rate shall be applied in a case in which the vessel has transported cargo or passengers from a 27-cent port to a 9-cent port when all such cargo or passengers have been unladen or discharged at the 9-cent port, without regard to whether the vessel thereafter has proceeded to the United States in ballast or with cargo or passengers laden or taken on board at the 9-cent port.

(3) The 27-cent rate shall be applied when the vessel proceeds from a 9-cent port to a 27-cent port en route to the United States under circumstances similar to paragraph (a) (1) or (2) of this section.

(4) If the vessel arrives in the United States with cargo or passengers taken at two or more ports to which different rates are applicable, tonnage tax shall be collected at the higher rate.

(b) The tonnage year shall be computed from the date of the first entry of the vessel concerned, without regard to the rate of the payment made at that entry, and shall expire on the day preceding the corresponding date of the following year. There may be 5 payments at the maximum (27 cent) and 5 at the minimum (9-cent) rate during a tonnage year, so that the maximum assessment of tonnage duty may amount to \$1.80 per net ton for the tonnage year of a vessel engaged in alternating trade.

(c) A vessel shall also be subject on every entry from a foreign port or place, whether or not regular tonnage tax is payable on the particular entry, to the payment of a special tonnage tax and to the payment of light money at the rates and under the circumstances specified in the following table:

| Classes of vessels                                                                                                                                                                                | Rate per net ton |                   |                   |

<sup>2</sup> This special tax and light money do not apply if the vessel is documented as a vessel of the United States before leaving the port.

<sup>3</sup> This does not apply if the vessel is under a certificate of protection and the owner or master files with the port director the oath required by 46 U.S.C. App. 129. An unrecorded bill of sale is not such a document as will exempt a vessel from the payment of light money under 46 U.S.C. App. 128, and the recording of such bill of sale after the arrival of the vessel is not sufficient to relieve it from the payment of the tax.

<sup>3a</sup> The Democratic People's Republic of Korea (North Korea), does not ordinarily permit vessels of the United States to enter and trade.

<sup>4</sup> This is to be collected on each entry of a vessel from such a port or place.

(d) Tonnage tax shall be imposed upon a vessel even though she enters a port of the United States only for orders.

(e) The fact that a vessel passes through the Panama Canal does not affect the rate of tonnage tax otherwise applicable to the vessel.

(f) For the purpose of computing tonnage tax, the net tonnage of a vessel stated in the vessel's marine document shall be accepted unless (1) such statement is manifestly wrong, in which case the net tonnage shall be estimated, pending admeasurement of the vessel, or the tonnage reported for her by any recognized classification society may be accepted, or (2) an appendix is attached to the marine document showing a net tonnage ascertained under the so-called "British rules" or the rules of any foreign country which have been accepted as substantially in accord with the rules of the United States, in which case the tonnage so shown may be accepted and the date the appendix was issued shall be noted on the tonnage tax certificate, Customs Form 1002, and on the master's oath, Customs Form 1300. For the purpose of computing tonnage tax on a vessel with a tonnage mark and dual tonnages, the higher of the net tonnages stated in the vessel's marine document or tonnage certificate shall be used unless the Customs officer concerned is satisfied by report of the boarding officer, statement or certificate of the master, or otherwise that the tonnage mark was not submerged at the time of arrival. Whether the vessel has a tonnage mark, and if so, whether the mark was submerged on arrival, shall be noted on Customs Form 1300 by the boarding officer.

(g) The decision of the Commissioner of Customs is the final administrative decision on any question of interpretation relating to the collection of tonnage tax or to the refund of such tax when collected erroneously or illegally, and any question of doubt shall be referred to him for instructions.

(h) Any person adversely affected by a decision of the Commissioner of Customs relating to the collection of tonnage tax, or to the refund of such tax when collected erroneously or illegally, may appeal the decision in the Court of

International Trade provided that the appeal action is commenced in accordance with the rules of the Court within 2 years after the cause of action first accrues.

### § 4.23 Certificate of payment and cash receipt.

Upon each payment of tonnage tax or light money, the master of the vessel shall be given a certificate on Customs Form 1002 on which the control number of the cash receipt (Customs Form 368 or 368A) upon which payment was recorded shall be written. This certificate shall constitute the official evidence of such payment and shall be presented upon each entry during the tonnage year to establish the date of commencement of the tonnage year and to insure against overpayment. In the absence of the certificate, evidence of payment of tonnage tax shall be obtained from the port director to whom the payment was made.

### § 4.24 Application for refund of tonnage tax.

(a) The authority to make refunds in accordance with section 26 of the Act of June 26, 1884 (46 U.S.C. 8) of regular tonnage taxes described in § 4.20(a) is delegated to the Directors of the ports where the collections were made. If any doubt exists, the case shall first be referred to Headquarters, U.S. Customs Service for advice.

(b) Each application for refund of regular or special tonnage tax or light money prepared in accordance with

#### §4.30

#### 19 CFR Ch. I (4-1-99 Edition)

this section shall be filed with the Customs officer to whom payment was made. After verification of the pertinent facts asserted in the claim, the application shall be forwarded with any necessary report or recommendation to the appropriate port director. Applications for refund of special tonnage tax and light money (see §4.20(c)) with the reports and recommendations submitted therewith shall be forwarded by the port director to the Commissioner of Customs for decision. Any refund authorized by the Port Director under paragraph (a) of this section or any refund of special tonnage tax or light money authorized by the Commissioner of Customs shall be made by the appropriate Customs officer. The records of tonnage tax shall be clearly noted to show each refund authorized.

(c) The application shall be a direct request for the refund of a definite sum, showing concisely the reasons therefor, the nationality and name of the vessel, and the date, place, and amount of each payment for which refund is requested. The application shall be made within 1 year from date of the payment. A protest against a payment shall not be accepted as an application for its refund.

(d) When the application is based upon a claim that more than five payments of regular tax at either the 2-cent or the 6-cent rate have been made during a tonnage year, the application shall be supported by a statement from the appropriate Customs officer at the port where the application is submitted and from the appropriate Customs officer at each port at which any claimed payment was made verifying the facts and showing in each case whether refunds have been authorized.

(e) The application shall include a certificate by the owner or by the owner's agent that payment of tonnage tax at the applicable rate has been or will be made for each entry of the vessel on a voyage on which that rate is applicable before the end of the current tonnage year, exclusive of any payment which has been refunded or which may be refunded as a result of such application.

(f) The owner or operator of the vessel involved, or other party in interest, may file with the port Director a peti-

tion addressed to the Commissioner of Customs for a review of the port director's decision on an application for refund of regular tonnage tax. Such petition shall be filed in duplicate within 30 days from the date of notice of the initial decision, shall completely identify the case, and shall set forth in detail the exceptions to the decision.

#### LANDING AND DELIVERY OF CARGO

#### §4.30 Permits and special licenses for unloading and lading.

(a) Except as prescribed in paragraph (f), (g), or (k) of this section or in §123.8 of this chapter, and except in the case of a vessel exempt from entry or clearance under 19 U.S.C. 288, no passengers, cargo, baggage, or other article shall be unladen from a vessel which arrives directly or indirectly from any port or place outside the Customs territory of the U.S., including the adjacent waters (see §4.6 of this part), or from a vessel which transits the Panama Canal and no cargo, baggage, or other article shall be laden on a vessel destined to a port or place outside the Customs territory of the U.S., including the adjacent waters (see §4.6 of this part) if Customs supervision of such lading is required, until the port director shall have issued a permit or special license therefore on Customs Form 3171 or electronically pursuant to an authorized electronic data interchange system or other means of communication approved by the Customs Service.

(1) U.S. and foreign vessels arriving at a U.S. port directly from a foreign port or place are required to make entry, whether it be formal or, as provided in §4.8, preliminary, before the port director may issue a permit or special license to lade or unlade.

(2) U.S. vessels arriving at a U.S. port from another U.S. port at which formal entry was made may be issued a permit or special license to lade or unlade without having to make either preliminary or formal entry at the second and subsequent ports. Foreign vessels arriving at a U.S. port from another U.S. port at which formal entry was made

may be issued a permit or special license to lade or unlade at the second and subsequent ports prior to formal entry without the necessity of making preliminary entry. In these circumstances, after the master has reported arrival of the vessel, the port director may issue the permit or special license or may, in his discretion, require the vessel to be boarded, the master to make an oath or affirmation to the truth of the statements contained in the vessel's manifest to the Customs officer who boards the vessel, and require delivery of the manifest prior to issuing the permit.

(b) Application for a permit or special license shall be made by the master, owner, or agent of the vessel on Customs Form 3171, or electronically pursuant to an authorized electronic data interchange system or other means of communication approved by the Customs Service, and shall specifically indicate the type of service desired at that time, unless a term permit or term special license has been issued. Arrangements, in the case of a term permit or term special license, shall be made locally so that the proper Customs officer will be notified during official hours in advance of the rendering of the services as to the nature of the services desired and the exact times they will be needed. An agent of a vessel may limit his application to operations involved in the entry and unlading of the vessel or to operations involved in its lading and clearance. Such limitation shall be specifically noted on the application.

(c) The request for a permit or a special license shall not be approved (previously issued term permits or special licenses shall be revoked) unless the carrier complies with the provisions of paragraphs (l) and (m) of this section regarding terminal facilities and employee lists, and the required cash deposit or bond has been filed on Customs Form 301, containing the bond conditions set forth in § 113.64 of this chapter relating to international carriers.<sup>62</sup>

<sup>62</sup> "Before any such special license to unlade shall be granted, the master, owner, or agent of such vessel or vehicle, or the person in charge of such vehicle, shall be required to deposit sufficient money to pay, or to give a bond in an amount to be fixed by

When a carrier has on file a bond on Customs Form 301, containing the bond conditions set forth in § 113.63 of this chapter relating to basic custodial bond conditions, no further bond shall be required solely by reason of the unlading or lading at night or on a Sunday or holiday of merchandise or baggage covered by bonded transportation entries. Separate bonds shall be required if overtime services are requested by different principals.

(d) Except as prescribed in paragraph (f) or (g) of this section, a separate application for a permit or special license shall be filed in the case of each arrival.

(e) Stevedoring companies and others concerned in lading or unlading merchandise, or in removing or otherwise securing it, shall ascertain that the applicable preliminary Customs requirements have been complied with before commencing such operation, since performance in the absence of such compliance render them severally liable to the penalties prescribed in section 453, Tariff Act of 1930, even though they may not be responsible for taking the action necessary to secure compliance.

(f) The port director may issue a term permit on Customs Form 3171, which will remain in effect until revoked by the port director, terminated by the carrier, or automatically cancelled by termination of the supporting continuous bond, to unlade merchandise, passengers, or baggage, or to lade merchandise or baggage during official hours.

(g) The port director may issue a term special license on Customs Form 3171, which will remain in effect until

the Secretary conditioned to pay, the compensation and expenses of the customs officers and employees assigned to duty in connection with such unlading at night or on Sunday or a holiday, in accordance with the provisions of section 5 of the act of February 13, 1911, as amended (U.S.C. 1952 edition, title 19 sec. 267). In lieu of such deposit or bond the owner or agent of any vessel or vehicle or line of vessels or vehicles may execute a bond in an amount to be fixed by the Secretary of the Treasury to cover and include the issuance of special licenses for the unlading of such vessels or vehicles for a period not to exceed one year. \* \* \* (Tariff Act of 1930, section 451, as amended, 19 U.S.C. 1451)

<sup>63-66</sup> [Reserved]

revoked by the port director, terminated by the carrier, or automatically cancelled by termination of the supporting continuous bond, to unlade merchandise, passengers, or baggage, or to lade merchandise or baggage during overtime hours or on a Sunday or holiday when Customs supervision is required. (See §24.16 of this chapter regarding pleasure vessels.)

(h) A special license for the unloading or lading of a vessel at night or on a Sunday or holiday shall be refused by the port director if the character of the merchandise or the conditions or facilities at the place of unloading or lading render the issuance of such special license dangerous to the revenue. In no case shall a special license for unloading or lading at night or on a Sunday or holiday be granted except on the ground of commercial necessity.

(i) The port director shall not issue a permit or special license to unlade cargo or equipment of vessels arriving directly or indirectly from any port or place outside the United States, except on compliance with one or more of the following conditions:

(1) The merchandise shall have been duly entered and permits issued; or

(2) A bond on Customs Form 301, containing the bond conditions set forth in §113.64 of this chapter relating to international carriers, or cash deposit shall have been given; or

(3) The merchandise is to be discharged into the custody of the port director as provided for in section 490(b), Tariff Act of 1930.

(j) Bonds are not required under this section for vessels owned by the United States and operated for its account.

(k) In the case of vessels of 5 net tons or over which are used exclusively as pleasure vessels and which arrive from any country, the port director in his discretion and under such conditions as he deems advisable may allow the required application for unloading passengers and baggage to be made orally, and may authorize his inspectors to grant oral permission for unloading at any time, and to grant requests on Customs Form 3171 for overtime services.

(l) A permit to unlade pursuant to this part 4 or part 122 of this chapter shall not be granted unless the port director determines that the applicant provides or the terminal at which the applicant will unlade the cargo provides (1) sufficient space, capable of being locked, sealed, or otherwise secured, for the storage immediately upon unloading of cargo whose weight-to-value ratio renders it susceptible to theft or pilferage and of packages which have been broken prior to or in the course of unloading; and (2) an adequate number of vehicles, capable of being locked, sealed, or otherwise secured, for the transportation of such cargo or packages between the point of unloading and the point of storage. A term permit to unlade shall be revoked if the port director determines subsequent to such issuance that the requirements of this paragraph have not been met.

(m) A permit to unlade pursuant to this part 4 or part 122 of this chapter shall not be granted to an importing carrier, and a term permit to unlade previously granted to such a carrier shall be revoked, (1) if such carrier, within 30 days after the date of receipt of a written demand by the port director, does not furnish a written list of the names, addresses, social security numbers, and dates and places of birth of persons it employs in connection with the unloading, storage and delivery of imported merchandise; or (2) if, having furnished such a list, the carrier does not advise the port director in writing of the names, addresses, social security numbers, and dates and places of birth of any new personnel employed in connection with the unloading, storage and delivery of imported merchandise within 10 days after such employment. If the employment of any such person is terminated, the carrier shall promptly advise the port director. For the purposes of this part, a person shall not be deemed to be employed by a carrier if he is an officer or employee of an independent contractor engaged by a

### § 4.31 Unlading or transshipment due to casualty.

(a) When any cargo or stores of a vessel have been unladen or transshipped at any place in the United States or its Customs waters other than a port of entry because of accident, stress of weather, or other necessity, no penalty shall be imposed under section 453 or 586(a), Tariff Act of 1930, if due notice is given to the director of the port at which the vessel thereafter first arrives and satisfactory proof is submitted to him as provided for in section 586(f), Tariff Act of 1930, as amended, regarding such accident, stress of weather, or other necessity. The port director may accept the certificates of the master and two or more officers or members of the crew of the vessel, of whom the person next to the master in command shall be one, as proof that the unlading or transshipment was necessary by reason of unavoidable cause.

(b) The port director may then permit entry of the vessel and its cargo and permit the unlading of the cargo in such place at the port as he may deem proper. Unless its transportation has been in violation of the coastwise laws, the cargo may be cleared through Customs at the port where it is discharged or forwarded to the port of original destination under an entry for immediate transportation or for transportation and exportation, as the case may be. All regulations shall apply in such cases as if the unlading and delivery took place at the port of original destination.

[28 FR 14596, Dec. 31, 1963, as amended by T.D. 95-77, 60 FR 50010, Sept. 27, 1995]

### § 4.32 Vessels in distress; landing of cargo.

(a) When a vessel from a foreign port arrives in distress at a port other than that to which it is destined, a permit to land merchandise or baggage may be issued if such action is necessary. Merchandise and baggage so unladen shall be taken into Customs custody and, if it has not been transported in violation of the coastwise laws, may be entered and disposed of in the same manner as any other imported merchandise or may be reladen without entry to be carried to its destination on the vessel from which it was unladen, subject only to charges for storage and safe-keeping.

(b) A bond on Customs Form 301, containing the bond conditions set forth in § 113.64 of this chapter relating to international carriers shall be given in an amount to be determined by the port director to insure the proper disposition of the cargo, whether such cargo be dutiable or free.

[28 FR 14596, Dec. 31, 1963, as amended by T.D. 84-213, 49 FR 41164, Oct. 19, 1984]

### § 4.33 Diversion of cargo.

(a) *Unlading at other than original port of destination.* A vessel may unlade cargo or baggage at an alternative port of entry to the port of original destination if:

(1) It is compelled by any cause to put into the alternative port and the director of that port issues a permit for the unlading of cargo or baggage; or

(2) As a result of an emergency existing at the port of destination, the port director authorizes the vessel to proceed in accordance with the residue cargo bond procedure to the alternative port. The owner or agent of the vessel shall apply for such authorization in writing, stating the reasons and agreeing to hold the port director and the Government harmless for the diversion.

(b) *Disposition of cargo or baggage at emergency port.* Cargo and baggage unladen at the alternative port under the circumstances set forth in paragraph (a) of this section may be:

(1) Entered in the same manner as other imported cargo or baggage;

#### §4.34

#### 19 CFR Ch. I (4–1–99 Edition)

(2) Treated as unclaimed and stored at the risk and expense of its owner; or

(3) Reladen upon the same vessel without entry, for transportation to its original destination.

(c) *Substitution of ports of discharge on manifest.* After entry, the Cargo Declaration, Customs Form 1302, of a vessel may be changed at any time to permit discharge of manifested cargo at any domestic port in lieu of any other port shown on the Cargo Declaration, if:

(1) A written application for the diversion is made on the amended Cargo Declaration by the master, owner, or agent of the vessel to the director of the port where the vessel is located, after entry of the vessel at that port;

(2) An amended Cargo Declaration, under oath, covering the cargo, which it is desired to divert, is furnished in support of the application and is filed in such number of copies as the port director shall require for local Customs purposes; and

(3) The certified traveling manifest is not altered or added to in any way by the master, owner, or agent of the vessel. When an application under paragraph (c)(1) of this section is approved, the port director shall securely attach an approved copy of the amended manifest to the traveling manifest and shall send one copy of the amended Cargo Declaration to the director of the port where the vessel's bond was filed.

(d) *Retention of cargo on board for later return to the United States.* If, as the result of a strike or other emergency at a United States port for which inward foreign cargo is manifested, it is desired to retain the cargo on board the vessel for discharge at a foreign port but with the purpose of having the cargo returned to the United States, an application may be made by the master, owner, or agent of the vessel to amend the vessel's Cargo Declaration, Customs Form 1302, under a procedure similar to that described in paragraph (c) of this section, except that a foreign port shall be substituted for the domestic port of discharge. If the application is approved, it shall be handled in the same manner as an application filed under paragraph (c) of this section. However, before approving the applica-

tion, the port director is authorized to require such bond as he deems necessary to insure that export control laws and regulations are not circumvented.

#### §4.34 Prematurely discharged, overcarried, and undelivered cargo.

(a) *Prematurely landed cargo.* Upon receipt of a satisfactory written application from the owner or agent of a vessel establishing that cargo was prematurely landed and left behind by the importing vessel through error or emergency, the port director may permit inward foreign cargo remaining on the dock to be reladen on the next available vessel owned or chartered by the owner of the importing vessel for transportation to the destination shown on the Cargo Declaration, Customs Form 1302, of the first vessel, provided the importing vessel actually entered the port of destination of the prematurely landed cargo. Unless so forwarded within 30 days from the date of landing, the cargo shall be appropriately entered for Customs clearance or for forwarding in bond; otherwise, it shall be sent to general order as unclaimed. If the merchandise is so entered for Customs clearance at the port of unloading, or if it is so forwarded in bond, other than by the importing vessel or by another vessel owned or chartered by the owner of the importing vessel, representatives of the importing vessel shall file at the port of unloading a Cargo Declaration in duplicate listing the cargo. The port director shall retain the original and forward the duplicate to the director of the originally intended port of discharge.

(b) *Overcarried cargo.* Upon receipt of a satisfactory written application by the owner or agent of a vessel establishing that cargo was not landed at its destination and was overcarried to another domestic port through error or emergency, the port director may permit the cargo to be returned in the importing vessel, or in another vessel owned or chartered by the owner of the importing vessel, to the destination

shown on the Cargo Declaration, Customs Form 1302, of the importing vessel, provided the importing vessel actually entered the port of destination.<sup>67</sup>

(c) *Inaccessibly stowed cargo.* Cargo so stowed as to be inaccessible upon arrival at destination may be retained on board, carried forward to another domestic port or ports, and returned to the port of destination in the importing vessel or in another vessel owned or chartered by the owner of the importing vessel in the same manner as other overcarried cargo.

(d) *Application for forwarding cargo.* When it is desired that prematurely landed cargo, overcarried cargo, or cargo so stowed as to be inaccessible, be forwarded to its destination by the importing vessel or by another vessel owned or chartered by the owner of the importing vessel in accordance with paragraph (a), (b), or (c) of this section, the required application shall be filed with the local director of the port of premature landing or overcarriage by the owner or agent of the vessel. The application shall be supported by a Cargo Declaration, Customs Form 1302, in such number of copies as the port director may require. Whenever practicable, the application shall be made on the face of the Cargo Declaration below the description of the merchandise. The application shall specify the vessel on which the cargo was imported, even though the forwarding to destination is by another vessel owned or chartered by the owner of the importing vessel, and all ports of departure and dates of sailing of the importing vessel. The application shall be stamped and signed to show that it has been approved.

(e) *Manifesting prematurely landed or overcarried cargo.* One copy of the Cargo Declaration, Customs Form 1302, shall be certified by Customs for use as a substitute traveling manifest for the prematurely landed or overcarried

cargo being forwarded as residue cargo, whether or not the forwarding vessel is also carrying other residue cargo. If the application for forwarding is made on the Cargo Declaration, the new substitute traveling manifest shall be stamped to show the approval of the application. If the application is on a separate document, a copy thereof, stamped to show its approval, shall be attached to the substitute traveling manifest. An appropriate cross-reference shall be placed on the original traveling manifest to show that the vessel has one or more substitute traveling manifests. A permit to proceed endorsed on a General Declaration, Customs Form 1301, issued to the vessel transporting the prematurely landed or overcarried cargo to its destination shall make reference to the nature of such cargo, identifying it with the importing vessel.

(f) *Residue cargo procedure.* A vessel with prematurely landed or overcarried cargo on board shall comply upon arrival at all domestic ports of call with all the requirements of part 4 relating to foreign residue cargo for domestic ports. The substitute traveling manifest, carried forward from port to port by the oncarrying vessel, shall be finally surrendered at the port where the last portion of the prematurely landed or overcarried cargo is discharged.

(g) *Cargo undelivered at foreign port and returned to the U.S.* Merchandise shipped from a domestic port, but undelivered at the foreign destination and returned, shall be manifested as "Undelivered-to be returned to original foreign destination," if such a return is intended. The port director may issue a permit to retain the merchandise on board, or he may, upon written application of the steamship company, issue a permit on a Delivery Ticket, Customs Form 6043, allowing the merchandise to be transferred to another vessel for return to the original foreign destination. No charge shall be made against the bond on Customs Form 301, containing the bond conditions relating to international carriers set forth in § 113.64 of this chapter. The items shall be remanifested outward and an explanatory reference of the attending

#### §4.35 Unlading outside port of entry.

(a) Upon written application from the interested party, the port director concerned, if he considers it necessary, may permit any vessel laden with merchandise in bulk to proceed, after entry, to any place outside the port where the vessel entered which such port director may designate for the purpose of unlading such cargo.

(b) In such case a deposit of a sum sufficient to reimburse the Government for the compensation, travel, and subsistence expenses of the officers detailed to supervise the unlading and delivery of the cargo may be required by the port director.

(a) When pursuant to section 457, Tariff Act of 1930, customs officers are placed on a vessel which has retained merchandise on board more than 25 days after the date of the vessel's arrival, their compensation and subsistence expenses shall be reimbursed to the Government by the owner or master.

(c) When cargo is manifested "for orders" upon the arrival of the vessel, no amendment of the manifest to show another port of discharge shall be permitted after 15 days after the date of the vessel's arrival, except as provided for in §4.33.

(d) All reimbursements payable in accordance with this section shall be paid or secured to the port director before clearance is granted to the vessel.

#### §4.37 General order.

(a) Any merchandise or baggage regularly landed but not covered by a permit for its release shall be allowed to remain at the place of unlading until the fifteenth calendar day after landing. No later than 20 calendar days after landing, the master or owner of the vessel or the agent thereof shall notify Customs of any such merchandise or baggage for which entry has not been made. Such notification shall be provided in writing or by any appropriate Customs-authorized electronic data interchange system. Failure to provide such notification may result in assessment of a monetary penalty of up to \$1,000 per bill of lading against the master or owner of the vessel or the agent thereof. If the value of the merchandise on the bill is less than \$1,000, the penalty shall be equal to the value of such merchandise.

(b) Any merchandise or baggage that is taken into custody from an arriving carrier by any party under a Customs-authorized permit to transfer or in-bond entry may remain in the custody of that party for 15 calendar days after receipt under such permit to transfer or 15 calendar days after arrival at the port of destination. No later than 20 calendar days after receipt under the permit to transfer or 20 calendar days after arrival under bond at the port of destination, the party shall notify Customs of any such merchandise or baggage for which entry has not been made. Such notification shall be provided in writing or by any appropriate Customs-authorized electronic data interchange system. If the party fails

to notify Customs of the unentered merchandise or baggage in the allotted time, he may be liable for the payment of liquidated damages under the terms and conditions of his custodial bond (see § 113.63(c)(4) of this chapter).

(c) In addition to the notification to Customs required under paragraphs (a) and (b) of this section, the carrier (or any other party to whom custody of the unentered merchandise has been transferred by a Customs authorized permit to transfer or in-bond entry) shall provide notification of the presence of such unreleased and unentered merchandise or baggage to a bonded warehouse certified by the port director as qualified to receive general order merchandise. Such notification shall be provided in writing or by any appropriate Customs-authorized electronic data interchange system and shall be provided within the applicable 20-day period specified in paragraph (a) or (b) of this section. It shall then be the responsibility of the bonded warehouse proprietor to arrange for the transportation and storage of the merchandise or baggage at the risk and expense of the consignee. Any unentered merchandise or baggage shall remain the responsibility of the carrier, master, or person in charge of the importing vessel or the agent thereof or party to whom the merchandise has been transferred under a Customs authorized permit to transfer or in-bond entry, until it is properly transferred from his control in accordance with this paragraph. If the party to whom custody of the unentered merchandise or baggage has been transferred by a Customs-authorized permit to transfer or in-bond entry fails to notify a Customs-approved bonded warehouse of such merchandise or baggage within the applicable 20-calendar-day period, he may be liable for the payment of liquidated damages of \$1,000 per bill of lading under the terms and conditions of his international carrier or custodial bond (see §§ 113.63(b), 113.63(c) and 113.64(b) of this chapter).

(d) If the bonded warehouse operator fails to take possession of unentered and unreleased merchandise or baggage within five calendar days after receipt of notification of the presence of such merchandise or baggage under this section, he may be liable for the payment

of liquidated damages under the terms and conditions of his custodial bond (see § 113.63(a)(1) of this chapter).

(e) In ports where there is no bonded warehouse authorized to accept general order merchandise or if merchandise requires specialized storage facilities which are unavailable in a bonded facility, the port director, after having received notice of the presence of unentered merchandise or baggage in accordance with the provisions of this section, shall direct the storage of the merchandise by the carrier or by any other appropriate means.

(f) Whenever merchandise remains on board any vessel from a foreign port more than 25 days after the date on which report of arrival of such vessel was made, the port director, as prescribed in section 457, Tariff Act of 1930, as amended (19 U.S.C. 1457), may take possession of such merchandise and cause it to be unladen at the expense and risk of the owners of the merchandise. Any merchandise so unladen shall be sent forthwith by the port director to a general order warehouse and stored at the risk and expense of the owners of the merchandise.

(g) Merchandise taken into the custody of the port director pursuant to section 490(b), Tariff Act of 1930, as amended (19 U.S.C. 1490(b)), shall be sent to a general order warehouse after 1 day after the day the vessel was entered, to be held there at the risk and expense of the consignee.

[T.D. 98-74, 63 FR 51287, Sept. 25, 1998]

#### § 4.38 Release of cargo.

(a) No imported merchandise shall be released from Customs custody until a permit to release such merchandise has been granted. Such permit shall be issued by the port director only after the merchandise has been entered and, except as provided for in § 141.102(d) or part 142 of this chapter, the duties thereon, if any, have been estimated and paid. Generally, the permit shall consist of a document authorizing delivery of a particular shipment or an electronic equivalent. Alternatively, the permit may consist of a report which lists those shipments which have been authorized for release. This alternative cargo release notification may

be used when the manifest is not filed by the carrier through the Automated Manifest System, the entry has been filed through the Automated Broker Interface, and Customs has approved the cargo for release without submission of paper documents after reviewing the entry data submitted electronically through ABI and its selectivity criteria (see §143.34). The report shall be posted in a conspicuous area to which the public has access in the customhouse at the port of entry where the cargo was imported.

(1) Where the cargo arrives by vessel, the report shall consist of the following data elements:

- (i) Vessel name or code, if transmitted by the entry filer;
- (ii) Carrier code;
- (iii) Voyage number, if transmitted by the entry filer;
- (iv) Bill of lading number;
- (v) Quantity released; and
- (vi) Entry number (including filer code).

(2) Where the cargo arrives by air, the report shall consist of the following data elements:

- (i) Air waybill number;
- (ii) Quantity released;
- (iii) Entry number (including filer code);
- (iv) Carrier code; and
- (v) Flight number, if transmitted by the entry filer.

(3) In the case of merchandise traveling via in-bond movement, the report will contain the following data elements:

- (i) Immediate transportation bond number;
- (ii) Carrier code;
- (iii) Quantity released; and
- (iv) Entry number (including filer code).

When merchandise is released without proper permit before entry has been made, the port director shall issue a written demand for redelivery. The carrier or facility operator shall redeliver the merchandise to Customs within 30 days after the demand is made. The port director may authorize unentered merchandise brought in by one carrier for the account of another carrier to be transferred within the port to the lat-

ter carrier's facility. Upon receipt of the merchandise the latter carrier assumes liability for the merchandise to the same extent as though the merchandise had arrived on its own vessel.

(b) When packages of merchandise bear marks or numbers which differ from those appearing on the Cargo Declaration, Customs Form 1302, of the importing vessel for the same packages and the importer or a receiving bonded carrier, with the concurrence of the importing carrier, makes application for their release under such marks or numbers, either for consumption or for transportation in bond under an entry filed therefor at the port of discharge from the importing vessel, the port director may approve the application upon condition that (1) the contents of the packages be identified with an invoice or transportation entry as set forth below and (2) the applicant furnish at his own expense any bonded cartage or lighterage service which the granting of the application may require. The application shall be in writing in such number of copies as may be required for local Customs purposes. Before permitting delivery of packages under such an application, the port director shall cause such examination thereof to be made as will reasonably identify the contents with the invoice filed with the consumption entry. If the merchandise is entered for transportation in bond without the filing of an invoice, such examination shall be made as will reasonably identify the contents of the packages with the transportation entry.

(c) If the port director determines that, in a port or portion of a port, the volume of cargo handled, the incidence of theft or pilferage, or any other factor related to the protection of merchandise in Customs custody requires such measures, he shall require as a condition to the granting of a permit to release imported merchandise that the importer or his agent present to the carrier or his agent a fully executed pickup order in substantially the following format, in triplicate, to obtain delivery of any imported merchandise:

The pickup order shall contain a duly authenticated customhouse broker's signature, unless it is presented by a person properly identified as an employee or agent of the ultimate consignee. When delivered quantities are verified by a Customs officer, he shall certify all copies of the pickup order, returning one to the importer or his agent and two to the carrier making delivery.

(d) When the provisions of paragraph (c) of this section are invoked by the port director and verification of delivered quantities by Customs is required, a permit to release merchandise shall be effective as a release from Customs custody at the time that the delivery of the merchandise covered by the pickup order into the physical possession of a subsequent carrier or an importer or the agent of either is completed under the supervision of a Customs officer, and only to the extent of the actual delivery of merchandise described in such pickup order as verified by such Customs officer.

#### § 4.39 Stores and equipment of vessels and crews' effects; unloading or lading and retention on board.

(a) The provisions of § 4.30 relating to unloading under a permit on Customs Form 3171 are applicable to the unloading of articles, other than cargo or baggage, which have been laden on a vessel outside the Customs territory of the United States, regardless of the trade in which the vessel may be engaged at the time of unloading, except that such provisions do not apply to such articles which have already been entered.

(b) Any articles other than cargo or baggage landed for delivery for consumption in the United States shall be treated in the same manner as other imported articles. A notation as to the landing of such articles, together with the number of the entry made therefor, shall be made on the vessel's store list, but such notation shall not subject the articles to the requirement of being included in a post entry to the manifest.

(c) Bags or dunnage constituting equipment of a vessel may be landed temporarily and reladen on such vessel under Customs supervision without entry.

(d) Articles claimed to be sea or ships' stores which are in excess of the reasonable requirements of the vessel

on which they are found shall be treated as cargo of such vessel.

(e) Under section 446, Tariff Act of 1930, port directors may permit narcotic drugs, except smoking opium, in reasonable quantities and properly listed as medical stores to remain on board vessels if satisfied that such drugs are adequately safeguarded and used only as medical supplies.

(f) Application for permission to transfer bunkers, stores or equipment as provided for in the proviso to section 446, Tariff Act of 1930, shall be made and the permit therefor granted on Customs Form 3171.

#### §4.40 Equipment, etc., from wrecked or dismantled vessels.

Ship's or sea stores, supplies, and equipment of a vessel wrecked either in the waters of the United States or outside such waters, on being recovered and brought into a United States port, and like articles landed from a vessel dismantled in a United States port shall be subject to the same Customs treatment as would apply if the articles were landed from a vessel arriving in the ordinary course of trade. Parts of the hull and fittings recovered from a vessel which arrived in the United States in the course of navigation and was wrecked in the waters of the United States or was dismantled in this country are free of duties and import taxes, but if such articles are recovered from vessels outside the waters of the United States and brought into a United States port, they shall be treated as imported merchandise.

#### §4.41 Cargo of wrecked vessel.

(a) Any cargo landed from a vessel wrecked in the waters of the United States or on the high seas shall be subject at the port of entry to the same entry requirements and privileges as the cargo of a vessel regularly arriving in the foreign trade. In lieu of a Cargo Declaration, Customs Form 1302, to cover such cargo, the owner, underwriter (if the merchandise has been abandoned to him), or the salvor of the merchandise shall make entry on Customs Form 7501, and any such applicant shall be regarded as the consignee

of the merchandise for Customs purposes.<sup>76</sup>

(b) All such merchandise shall be taken into possession by the director of the port where it shall first arrive and be retained in his custody pending entry. If it is not entered by the person entitled to make entry, or is not disposed of pursuant to court order, it shall be subject to sale as unclaimed merchandise.

(c) If such merchandise is from a vessel which has been sunk in waters of the United States for 2 years or more and has been abandoned by the owner, any person who has salvaged the cargo shall be permitted to enter the merchandise at the port where the vessel was wrecked free of duty upon the facts being established to the satisfaction of the director of the port of entry.<sup>77</sup> Any other such merchandise is subject to the same tariff classification as like merchandise regularly imported in the ordinary course of trade.

(d) If the merchandise is libeled for salvage,<sup>78</sup> the port director shall notify the United States attorney of the claim of the United States for duties,

<sup>76</sup> “\* \* \* The underwriters of abandoned merchandise and the salvors of merchandise saved from a wreck at sea or on or along a coast of the United States may be regarded as the consignees.” \* \* \* (Tariff Act of 1930, sec. 483; 19 U.S.C. 1483)

<sup>77</sup> “Whenever any vessel laden with merchandise, in whole or in part subject to duty, has been sunk in any river, harbor, bay, or waters subject to the jurisdiction of the United States, and within its limits, for the period of two years and is abandoned by the owner thereof, any person who may raise such vessel shall be permitted to bring any merchandise recovered therefrom into the port nearest to the place where such vessel was so raised free from the payment of any duty thereupon, but under such regulations as the Secretary of the Treasury may prescribe.” (Tariff Act of 1930, sec. 310; 19 U.S.C. 1310)

<sup>78</sup> Salvors have an uncertain interest in the goods salvaged, dependent upon the decree of a competent tribunal, and have a presumptive right without such decree to possession of merchandise salvaged by them from abandoned wrecks. The salvors are entitled in either case to make entry of derelict or wrecked goods.

Upon departing the vessel, such individuals shall immediately report to a designated Customs location together with all of their accompanying articles.

(b) *Arrival of vessel not reported.* Individuals on vessels, which have not reported their arrival to Customs in accordance with 19 U.S.C. 1433 and § 4.2 of this part, shall immediately notify Customs and report their arrival together with appropriate information regarding the vessel, and shall present themselves and their accompanying ar-

ticles at a designated Customs location.

However, in that case, the cargo information must be incorporated by a suitable reference on the face of the Customs Form 1302-A such as "Cargo as per attached commercial documents."

#### COASTWISE PROCEDURE

#### §4.80 Vessels entitled to engage in coastwise trade.

(a) No vessel shall transport, either directly or by way of a foreign port, any passenger or merchandise between points in the United States embraced within the coastwise laws, including points within a harbor, or merchandise for any part of the transportation between such points, unless it is:

(1) Owned by a citizen and is so documented under the laws of the United States as to permit it to engage in the coastwise trade;

(2) Owned by a citizen, is exempt from documentation, and is entitled to or, except for its tonnage, would be entitled to be documented with a coastwise license or, where appropriate, a Great Lakes license endorsement.

(3) Owned by a partnership or association in which at least a 75 percent interest is owned by such a citizen, is exempt from documentation and is entitled to or, except for its tonnage, or citizenship of its owner, or both, would be entitled to be documented for the coastwise trade. The term "citizen" for vessel documentation purposes, whether for an individual, partnership, or corporation owner, is defined in 46 CFR 67.3.

(b) *Penalties for violating coastwise laws.* (1) The penalty imposed for the illegal transportation of merchandise between coastwise points is forfeiture of the merchandise or, in the discretion of the port director, forfeiture of a monetary amount up to the value of the merchandise to be recovered from the consignor, seller, owner, importer, consignee, agent, or other person or persons so transporting or causing the

merchandise to be transported (46 U.S.C. 883).

(2) The penalty imposed for the unlawful transportation of passengers between coastwise points is \$200 for each passenger so transported and landed (46 U.S.C. 289).

(c) Any vessel of the United States, whether or not entitled under paragraph (a) of this section to engage in the coastwise trade, and any foreign vessel may proceed between points in the United States embraced within the coastwise laws to discharge cargo or passengers laden at a foreign port, to lade cargo or passengers for a foreign port, in ballast, or to transport certain articles in accordance with § 4.93. Cargo laden at a foreign port may be retained onboard during such movements. Furthermore, certain barges of United States or foreign flag may transport transferred merchandise between points in the United States embraced within the coastwise laws, excluding transportation between the continental United States and a noncontiguous point in the United States embraced within the coastwise laws, in accordance with § 4.81a.

(d) No vessel owned by a corporation which is a citizen of the United States under the Act of September 2, 1958 (46 U.S.C. 883-1) shall be used in any trade other than the coastwise trade and shall not be used in that trade unless it is properly documented for such use or is exempt from documentation and is entitled to or, except for its tonnage, would be entitled to a coastwise license, or where appropriate, a Great Lakes license endorsement. Such a vessel shall not be documented for nor engage in the foreign trade or the fisheries and shall not transport merchandise or passengers coastwise for hire except as a service for a parent or a subsidiary corporation as defined in the aforesaid Act or while under demise or bareboat charter at prevailing rates for use otherwise than in trade with noncontiguous territory of the United States to a common or contract carrier subject to Part III of the Interstate Commerce Act, as amended (49 U.S.C. 901 through 923), which otherwise qualifies as a citizen of the United States under section 2 of the Shipping Act, 1916, as amended (46 U.S.C. 802),

and which is not connected, directly or indirectly, by way of ownership or control with such owning corporation.

(e) No vessel which has acquired the lawful right to engage in the coastwise trade, by virtue of having been built in or documented under the laws of the United States, shall have the right to engage in such trade if it thereafter has been sold or transferred foreign in whole or in part or placed under foreign registry, or, if of more than 500 gross tons, has been rebuilt unless the entire rebuilding, including the construction of any major components of the hull or superstructure of the vessel, was effected within the United States, its Territories (not including trust territories), or its possessions. However, no rebuilt vessel shall be deemed to have lost its coastwise privileges within the meaning of the above if rebuilt within the United States, its Territories (not including trust territories), or its possessions under a contract executed before July 5, 1960, if the work of rebuilding commenced not later than 24 months after such date.

(f) No foreign-built vessel owned and documented as a vessel of the United States prior to February 1, 1920, by a citizen nor one owned by the United States on June 5, 1920, and sold to and owned by a citizen, shall engage in the American fisheries, but it is otherwise unlimited as to trade so long as it continues in such ownership (section 22, Merchant Marine Act, of June 5, 1920; 46 U.S.C. 13). No foreign-built vessel which is owned by a citizen, but which was not so owned and documented on February 1, 1920, or which was not owned by the United States on June 5, 1920, shall engage in the coastwise trade or the American fisheries. No foreign-built vessel which has been sold, leased, or chartered by the Secretary of Commerce to any citizen, shall engage in the American fisheries, but it is otherwise unlimited as to trade so long as it continues in such ownership, lease, or charter (section 9 of the Act of Sept. 7, 1916, as amended, 46 U.S.C. 808). A vessel engaged in taking out fishing parties for hire, unless it intends to proceed to a foreign port, is considered to be engaged in the coastwise trade and not the fisheries.

#### § 4.80a

#### 19 CFR Ch. I (4–1–99 Edition)

(g) Certain vessels not documented under the laws of the United States which are acquired by or made available to the Secretary of Commerce may be documented under section 3 of the Act of August 9, 1954 (50 U.S.C. 198). Such vessels shall not engage in the coastwise trade unless in possession of a valid unexpired permit to engage in that trade issued by the Secretary of Commerce under authority of section 3(c) of the said Act.

(h) A vessel which is at least 50 percent owned by a citizen as defined in 46 CFR subpart 68.05, and which, except for citizenship requirements, is otherwise entitled to be documented with a coastwise endorsement, may be documented with a limited coastwise endorsement, provided the vessel is owned by a not-for-profit oil spill response cooperative or by one or more members of such a cooperative who dedicate the vessel to the use of the cooperative (46 U.S.C. 12106(d)). Notwithstanding 46 U.S.C. App. 883, a vessel may be documented with such a limited endorsement even if formerly owned by a not-for-profit oil spill response cooperative or by one or more members thereof, as long as the citizenship criteria of 46 CFR subpart 68.05 are met. A vessel so documented may operate on the navigable waters of the United States or in the Exclusive Economic Zone only for the purpose of training for oil spill cleanup operations; deploying equipment, supplies and personnel for cleanup operations; and recovering and/or transporting oil discharged in a spill. Such vessel may also engage in any other employment for which a registry, fishery, or Great Lakes endorsement is not required, and may qualify to operate for other purposes by meeting the applicable requirements of 46 CFR part 67.

(i) Any vessel, entitled to be documented and not so documented, employed in a trade for which a Certificate of Documentation is issued under the vessel documentation laws (see § 4.0(c)), other than a trade covered by a registry, is liable to a civil penalty of \$500 for each port at which it arrives without the proper Certificate of Documentation. If such a vessel has on board any foreign merchandise (sea stores excepted), or any domestic tax-

able alcoholic beverages, on which the duty and taxes have not been paid or secured to be paid, the vessel and its cargo are subject to seizure and forfeiture.

#### § 4.80a Coastwise transportation of passengers.

(a) For the purposes of this section, the following terms will have the meaning set forth below:

(1) *Coastwise port* means a port in the U.S., its territories, or possessions embraced within the coastwise laws.

(2) *Nearby foreign port* means any foreign port in North America, Central America, the Bermuda Islands, or the West Indies (including the Bahama Islands, but not including the Leeward Islands of the Netherlands Antilles, i.e., Aruba, Bonaire, and Curacao). A port in the U.S. Virgin Islands shall be treated as a nearby foreign port.

(3) *Distant foreign port* means any foreign port that is not a nearby port.

(4) *Embark* means a passenger boarding a vessel for the duration of a specific voyage and *disembark* means a passenger leaving a vessel at the conclusion of a specific voyage. The terms *embark* and *disembark* are not applicable to a passenger going ashore temporarily at a coastwise port who reboards the vessel and departs with it on sailing from the port.

(5) *Passenger* has the meaning defined in § 4.50(b).

(b) The applicability of the coastwise law (46 U.S.C. 289) to a vessel not qualified to engage in the coastwise trade (i.e., either a foreign-flag vessel or a U.S.-flag vessel that is foreign-built or at one time has been under foreign-flag) which embarks a passenger at a coastwise port is as follows:

(1) If the passenger is on a voyage solely to one or more coastwise ports and the passenger disembarks or goes ashore temporarily at a coastwise port, there is a violation of the coastwise law.

(2) If the passenger is on a voyage to one or more coastwise ports and a nearby foreign port or ports (but at no

other foreign port) and the passenger disembarks at a coastwise port other than the port of embarkation, there is a violation of the coastwise law.

(3) If the passenger is on a voyage to one or more coastwise ports and a distant foreign port or ports (whether or not the voyage includes a nearby foreign port or ports) and the passenger disembarks at a coastwise port, there is no violation of the coastwise law provided the passenger has proceeded with the vessel to a distant foreign port.

(c) An exception to the prohibition in this section is the transportation of passengers between ports in Puerto Rico and other ports in the U.S. on passenger vessels not qualified to engage in the coastwise trade. Such transportation is permitted until there is a finding under 46 U.S.C. 289c that a qualified U.S.-flag passenger vessel is available for such service.

(d) The owner or charterer of a foreign vessel or any other interested person may request from Headquarters, U.S. Customs Service, Attention: Entry Procedures and Carriers Branch, an advisory ruling as to whether a contemplated voyage would be considered to be coastwise transportation in violation of 46 U.S.C. 289. Such a request shall be filed in accordance with the provisions of part 177, Customs Regulations (19 CFR part 177).

#### **§ 4.80b Coastwise transportation of merchandise.**

(a) *Effect of manufacturing or processing at intermediate port or place.* A coastwise transportation of merchandise takes place, within the meaning of the coastwise laws, when merchandise laden at a point embraced within the coastwise laws ("coastwise point") is unladen at another coastwise point, regardless of the origin or ultimate destination of the merchandise. However, merchandise is not transported coastwise if at an intermediate port or place other than a coastwise point (that is at a foreign port or place, or at a port or place in a territory or possession of the United States not subject to the coastwise laws), it is manufactured or proc-

essed into a new and different product, and the new and different product thereafter is transported to a coastwise point.

(b) *Request for ruling.* Interested parties may request an advisory ruling from Headquarters, United States Customs Service, Attention: Entry Procedures and Carriers Branch, as to whether a specific action taken or to be taken with respect to merchandise at the intermediate port or place will result in its becoming a new and different product for purposes of this section. The request shall be filed in accordance with the provisions of part 177 of this chapter.

#### **§ 4.81 Reports of arrivals and departures in coastwise trade.**

(a) No vessel which is documented with a coastwise license or registry endorsement or is owned by a citizen and exempt from documentation, and which is in ballast or laden only with domestic products or passengers being carried only between points in the United States shall be required to report arrival or to enter when coming into one port of the United States from any other such port, except as provided for in sections 4.83 and 4.84, nor to obtain a clearance, permit to proceed, or permission to depart when going from one port in the United States to any other such port except when transporting merchandise to a port in noncontiguous territory.<sup>111</sup>

(b) When the facts are as above stated except that the vessel is carrying bonded merchandise, the master shall report its arrival as provided for in § 4.2.

(c) [Reserved]

(d) The traveling Crew's Effects Declaration, Customs Form 1304, or Customs and Immigration Form I-418 with attached Customs Form 5129, referred to in § 4.85 (b), (c), and (e) shall be deposited with the port director upon arrival at each port in the United States and finally surrendered to the appropriate Customs officer or director of

the port where the vessel first departs directly for a foreign port.

(e) Before any foreign vessel shall depart in ballast, or solely with articles to be transported in accordance with §4.93, from any port in the United States for any other such port, the master shall apply to the port director for a permit to proceed by filing a General Declaration, Customs Form 1301, in duplicate. If a vessel is proceeding in ballast and therefore Cargo Declaration, Customs Form 1302, is omitted, the word “None” shall be inserted in item 17 of the General Declaration and the words “No merchandise on board” shall be inserted in item 13 of the General Declaration. However, articles to be transported in accordance with §4.93 shall be manifested on Cargo Declaration, as required by §4.93(c). Three copies of the Cargo Declaration shall be filed with the port director. The required master’s oath shall be executed on the Master’s Oath on Entry of Vessel in Foreign Trade, Customs Form 1300 (see §4.63(a)). When the port director grants the permit by making an appropriate endorsement on the General Declaration, (see §4.85(b)), the duplicate copy, together with two copies of the Cargo Declaration covering articles to be transported in accordance with §4.93, shall be returned to the master. The traveling Crew’s Effects Declaration Customs Form 1304 and all unused crewmembers’ declarations on Customs Form 5129 shall be placed in a sealed envelope addressed to the appropriate Customs officer at the next intended domestic port and returned to the master for delivery. The master shall execute a receipt for all unused crewmembers’ declarations which are returned to him. Immediately upon arrival at the next United States port the master shall report his arrival to the port director. He shall make entry within 48 hours by filing with the port director the permit to proceed on General Declaration received at the previous port, a newly executed General Declaration, a Crew’s Effects Declaration of all unentered articles acquired abroad by crewmembers which are still on board, a Ship’s Stores Declaration Customs Form 1303 in duplicate of the stores remaining on board, both copies of the Cargo Declaration covering arti-

cles transported in accordance with §4.93, and the document of the vessel. The required master’s oath shall be executed on The Master’s Oath on Entry of Vessel in Foreign Trade (see §4.63(a)). The traveling Crew’s Effects Declaration and all unused crewmembers’ declarations on Customs Form 5129 returned at the prior port to the master shall be delivered by him to the appropriate Customs officer.

(f) The master, licensed deck officer, or purser who enters or clears a vessel, or who obtains permission for a vessel to depart, when required under the provisions of this section or of §§4.82, 4.84, 4.85, 4.87, 4.89, or 4.91 of the regulations of this part, may appear in person at the customhouse for that purpose, or any required oaths, related documents, and other papers properly executed by the master or other proper officer may be delivered at the customhouse by the vessel agent or other personal representative of the master.

(g) In lieu of the procedures stated in §§4.85 and 4.87 and at the option of the owner or operator, unmanned non-self-propelled barges specifically designed for carriage aboard a vessel and regularly carried aboard a vessel in the foreign trade, hereinafter referred to as LASH-type barges, may move under a simplified permit-to-proceed procedure as follows:

(1) At the port where a LASH-type barge begins a coastwise movement with inward foreign cargo, a permit to proceed on Customs Form 1301 must be obtained. The required oath shall be executed on Customs Form 1300. A single permit to proceed may be used for all the barges proceeding to the same port of unlading in the same town. An inward foreign manifest of the cargo in each barge, destined to the port of unlading shown on the permit to proceed, must be attached to each permit and a Customs Form 7512–C must be prepared for each permit. At the port of unlading of the barge, report of arrival and entry must be made immediately upon arrival to the appropriate Customs officer by presentation of the permit to proceed, manifests, Form 7512–C obtained at the preceding port, a new master’s oath, and a new General Declaration (Customs Form 1301). If only

part of the inward foreign cargo is unladen, a new permit to proceed must be obtained, the inward foreign manifests shall be attached to it, the master's oath shall be filed, a new Form 7512-C shall be prepared.

(2) At the port where a LASH-type barge begins a coastwise movement with export cargo, a permit to proceed on Customs Form 1301 and a master's oath must be presented to the appropriate Customs officer. A single permit to proceed and master's oath may be presented for all the barges proceeding from the same port of lading in the same tow. Required shipper's export declarations for LASH-type barges must be filed at the port where the barges will be taken aboard a barge-carrying vessel. Where a complete manifest is not available at the port of lading, the permit to proceed must include a statement that a complete manifest and shipper's export declaration for each barge will be filed at the port where the barge will be taken aboard a barge-carrying vessel, and that port must be identified in the statement. At the next port, a report of arrival must be made immediately upon arrival and entry must be made within 48 hours by presentation of the permit to proceed received upon departure from the prior port, a newly executed General Declaration (Customs Form 1301), and a master's oath.

(3) When foreign LASH-type barges are proceeding between ports of the United States under paragraph (e) of this section, a single permit to proceed may be used for all the barges proceeding to the same port in the same tow.

(4) In lieu of the master of the towing vessel executing and delivering documents required under permit-to-proceed procedures (see §4.81(f)) at the port where a LASH-type barge begins a coastwise movement, the master of the towing vessel may designate in writing the owner or operator of the barges as his representative with authority to execute and deliver such documents at the customhouse. The owner or operator of the barges may designate representatives to perform such functions at ports or places where permit-to-proceed documents must be delivered. Documents obtained from Customs of-

ficers at one place by such a representative may be forwarded by any suitable means to the representative who must present them to Customs officers at another place, the only requirement being that the forms are properly completed and are presented within the prescribed time periods. Moreover, instead of a written designation from each master of a towing vessel, a blanket designation in writing from the owner or operator of one or more towing vessels on behalf of masters of their towing vessels, designating the owner or operator of the barges to be the representative of the master for purposes of executing and delivering permit-to-proceed documents, is authorized.

(5) [Reserved]

(6) When a LASH-type barge is proceeding to a place in the United States that is not a port of entry, §101.4(a) and (b) of this chapter are applicable. No merchandise shall be unladen from a LASH-type barge until a permit or special license therefor is obtained in accordance with §4.30 except that a single permit to unlade may be used for all barges that arrived at the port of unlading in the same tow.

(a) A LASH-type barge (as defined in §4.81(g)) documented as a vessel of the United States but not qualified to engage in the coastwise trade or a LASH-type barge of a nation found to grant reciprocal privileges to United States-flag LASH-type barges may transport inward foreign and export cargo between points embraced within the coastwise laws of the United States after the merchandise has been transferred to it from another LASH-type barge owned or leased by the same owner or operator. This section is not applicable to transportation between

the continental United States and non-contiguous States, districts, territories, and possessions embraced within the coastwise laws. The permit to proceed shall include a statement that the unqualified LASH-type barge is owned or leased by the owner or operator of the LASH-type barge from which the merchandise was transferred.

#### §4.82 Touching at foreign port while in coastwise trade.

<sup>112</sup>“Any vessel, on being duly registered in pursuance of the laws of the United States, may engage in trade between one port in the United States and one or more ports within the same, with the privilege of touching at one or more foreign ports during the voyage, and land and take in thereat merchandise, passengers, and their baggage, and letters, and mails. All such vessels shall be furnished by the collectors of the ports at which they shall take in their cargoes in the United States, with certified manifests, setting forth the particulars of the cargoes, the marks, number of packages, by whom shipped, to whom consigned, at what port to be delivered; designating such merchandise as is entitled to drawback, or to the privilege of being placed in the warehouse; and the masters of all such vessels shall, on their arrival at any port of the United States from any foreign port at which such vessel may have touched, as herein provided, conform to the laws providing for the delivery of manifests of cargo and passengers taken on board at such foreign port, and all other laws regulating the report and entry of vessels from

(b) The master shall also present to the port director a coastwise Cargo Declaration in triplicate of the merchandise to be transported via the foreign port or ports to the subsequent ports in the United States. It shall describe the merchandise and show the marks and numbers of the packages, the names of the shippers and consignees, and the destinations. The port director shall certify the two copies and return them to the master. Merchandise carried by the vessel in bond under a transportation entry and manifest, Customs Form 7512, shall not be shown on the coastwise Cargo Declaration.

Vessels which are boarded on the St. Lawrence River by Canadian authorities for the purposes of inspecting the vessel and taking a passing report are not deemed to have touched at a foreign port, provided that no ship's stores are landed or taken aboard and no other business is transacted at the port or place of boarding.

(b) A vessel in the coastwise trade only, which is proceeding from a port of the United States on the Great Lakes via the Hudson River and otherwise than by sea, may operate under a document with a Great Lakes license endorsement and shall not be subject to the requirements for clearance, report of arrival, or entry.

granted in accordance with the applicable provisions of § 4.61 of the regulations of this part, except that the Customs Form 1378 shall be modified by striking out "to a foreign port" and substituting "to noncontiguous territory of the United States" or "to the United States," as the case may be, unless the vessel is simultaneously engaged in one or more of the transactions listed in § 4.90(a) (4), (5), or (6) of the regulations of this part. In the latter case, clearance shall be granted only on Customs Form 1301; § 4.90(b) of the regulations of this part. When merchandise is laden on a foreign vessel in noncontiguous territory other than Puerto Rico, for transportation on that vessel to a port in any State, the District of Columbia, or noncontiguous territory, and when this transportation is not forbidden by the coastwise laws, the merchandise may be laden and shipped without shipper's export declarations.

(b) The master of every foreign vessel arriving at a port in any State or the District of Columbia or in noncontiguous territory of the United States from a port in noncontiguous territory to which the coastwise laws do not apply (e.g., Virgin Islands and American Samoa), or arriving at any port in noncontiguous territory to which the coastwise laws do not apply from any place embraced within the coastwise laws, shall immediately report its arrival and make entry for the vessel within 48 hours after its arrival.

(c)(1) A vessel which is not required to clear but which is transporting merchandise from a port in any State or the District of Columbia to any noncontiguous territory of the United States (excluding Puerto Rico), or from Puerto Rico to any State or the District of Columbia, or any other noncontiguous territory, shall not be permitted to depart without filing a complete manifest, when required by regulations of the Bureau of the Census (15 CFR part 30), and all required Shipper's Export Declarations, unless before the vessel departs an approved bond is filed for the timely production of the required documents, as specified in 15 CFR 30.24. Requests for permission to

However, if the request is to depart prior to the filing of the required manifest and export declarations, permission shall not be granted unless the appropriate bond is on file. In the latter case, the Customs officer shall keep a simplified record of the necessary information in order to assure that the manifest and export declarations are filed within the required time period. The Master's Oath on Entry of Vessel in Foreign Trade, Customs Form 1300 (see §4.63(a)), required at the time of clearance is not required to be taken to obtain permission to depart.

(2) A vessel which is not required to clear but which is transporting merchandise from a port in any State or the District of Columbia to Puerto Rico shall file a complete manifest, when required by the regulations of the Bureau of the Census (15 CFR part 30), and all required Shipper's Export Declarations within one business day after arrival, as defined in §4.2(b) of this part, with the appropriate Customs officer in Puerto Rico. If the complete manifest and all required Shipper's Export Declarations are not filed with the appropriate Customs officer within that time frame, an appropriate bond shall be filed with the Customs officer for the timely production of the required documents as specified in 15 CFR 30.24. In these instances when a bond is filed, the Customs officer shall keep a simplified record of the necessary information in order to ensure that the manifest and export declarations are filed not later than the seventh business day after arrival in Puerto Rico.

(d) Upon arrival of a vessel of the United States at a port in any State, the District of Columbia, or Puerto Rico from a port in noncontiguous territory other than Puerto Rico, the master shall immediately report its arrival and shall prepare, produce, and file a Cargo Declaration in the form and manner and at the times specified in §§4.7 and 4.9 but shall not be required to make entry. If the vessel proceeds directly to another port in any State, the District of Columbia, or Puerto Rico, the master shall prepare,

produce, and file a Cargo Declaration in the form and manner and at the times specified in §4.85 but no permit to proceed on the General Customs Declaration, Customs Form 1301, shall be required for the purposes of this paragraph. No cargo shall be unladen from any such vessel until Cargo Declarations have been filed and a permit to unlade has been issued in accordance with the procedure specified in §4.30.

(e) No vessel shall bring guano to the United States from a guano island appertaining to the United States (see 48 U.S.C. 1411) unless such a vessel is entitled to engage in the coastwise trade.

(f) No vessel owned by a corporation which qualifies as a citizen under the Act of September 2, 1958 (46 U.S.C. 883–1) shall, while under demise or bareboat charter from such corporation, be granted clearance or permitted to depart in trade with noncontiguous territory.

### GENERAL

#### § 4.94 Yacht privileges and obligations.

(a) Any documented vessel with a pleasure license endorsement, as well as any undocumented American pleasure vessel, shall be used exclusively for pleasure and shall not transport merchandise nor carry passengers for pay. Such a vessel which is not engaged in any trade nor in any way violating the Customs or navigation laws of the U.S. may proceed from port to port in the U.S. or to foreign ports without clearing and is not subject to entry upon its arrival in a port of the U.S., provided it has not visited a hovering vessel, received merchandise while in the customs waters beyond the territorial sea, or received merchandise while on the high seas. Such a vessel shall immediately report arrival to Customs when arriving in any port or place within the U.S., including the U.S. Virgin Islands, from a foreign port or place.

(b) A cruising license may be issued to a yacht of a foreign country only if it has been made to appear to the satisfaction of the Secretary of the Treasury that yachts of the United States are allowed to arrive at and depart from ports in such foreign country and to cruise in the waters of such ports without entering or clearing at the customhouse thereof and without the payment of any charges for entering or clearing, dues, duty per ton, tonnage, taxes, or charges for cruising licenses. It has been made to appear to the satisfaction of the Secretary of the Treasury that yachts of the United States are granted such privileges in the following countries:

(c) In order to obtain a cruising license for a yacht of any country listed in paragraph (b) of this section, there shall be filed with the port director an application therefor executed by either the yacht owner or the master which shall set forth the owner's name and address and identify the vessel by flag, rig, name, and such other matters as are usually descriptive of a vessel. The application shall also include a description of the waters in which the yacht will cruise, and a statement of the probable time it will remain in such waters. Upon approval of the application, the port director will issue a cruising license in the form prescribed by paragraph (d) of this section permitting the yacht, for a stated period not to exceed one year, to arrive and depart from the United States and to cruise in specified waters of the United States without entering and clearing, without filing manifests and obtaining or delivering permits to proceed, and without the payment of entrance and clearance fees, or fees for receiving manifests and granting permits to proceed, duty on tonnage, tonnage tax, or light money. The license shall be granted subject to the condition that the vessel shall not engage in trade or violate the laws of the United States in any respect. ### § 4.96 Fisheries.

(a) As used in this section:

(1) The term "convention vessel" means a Canadian fishing vessel which, at the time of its arrival in the United States, is engaged only in the North Pacific halibut fishery and which is therefore entitled to the privileges provided for by the Halibut Fishing Vessels Convention between the United States and Canada signed at Ottawa, Canada, on March 24, 1950 (T.D. 52862);

(2) The term "nonconvention fishing vessel" means any vessel other than a convention vessel which is employed in whole or in part in fishing at the time of its arrival in the United States and

(i) Which is documented under the laws of a foreign country,

(ii) Which is undocumented, of 5 net tons or over, and owned in whole or in part by a person other than a citizen of the United States, or

(iii) Which is undocumented, of less than 5 net tons, and owned in whole or in part by a person who is neither a citizen nor a resident of the United States;

(3) The term "nonconvention cargo vessel" means any vessel which is not employed in fishing at the time of its arrival in the United States, but which is engaged in whole or in part in the

transportation of fish or fish products<sup>131a</sup> and

(i) Which is documented under the laws of a foreign country or

(ii) Which is undocumented and owned by a person other than a citizen of the United States;

(4) The term “treaty vessel” means a Canadian fishing vessel which at the time of its arrival in the United States is engaged in the albacore tuna fishery and which is therefore entitled to the privileges provided for by the treaty with Canada on Pacific Coast Albacore Tuna Vessels and Port Privileges, entered into force at Ottawa, Canada, on July 29, 1981 (T.D. 81–227); and

(5) The term “fishing” means the planting, cultivation, or taking of fish, shell fish, marine animals, pearls, shells, or marine vegetation, or the transportation of any of those marine products to the United States by the taking vessel or another vessel under the complete control and management of a common owner or bareboat charterer.

(b) Except as otherwise provided by treaty or convention to which the United States is a party (see paragraphs (d) and (g) of this section), no foreign-flag vessel shall, whether documented as a cargo vessel or otherwise, land in a port of the United States its catch of fish taken on board such vessel on the high seas or fish products processed therefrom, or any fish or fish products taken on board such vessel on the high seas from a vessel engaged in fishing operations or in the processing of fish or fish products. (46 U.S.C. 251). This prohibition applies regardless of the intended ultimate disposition of the fish or fish products (e.g., it applies to transshipments from the foreign vessel to another vessel in United

States territorial waters; it applies to landing for transshipment in bond to Canada or Mexico; it applies to landing for exportation under bond; and it applies to landing in a Foreign Trade Zone). However, the prohibition is limited to fish, or fish products processed therefrom, taken on board the foreign vessel on the high seas.

(c) A vessel of the United States to be employed in the fisheries must have a Certificate of Documentation endorsed with a fishery license. “Fisheries” includes processing, storing, transporting (except in foreign commerce), planting, cultivating, catching, taking, or harvesting fish, shellfish, marine animals, pearls, shells, or marine vegetation in the navigable waters of the United States or the exclusive economic zone.

(d) A convention vessel may come into a port of entry on the Pacific coast of the United States, including Alaska, to land its catch of halibut and incidentally-caught sable fish, or to secure supplies, equipment, or repairs. Such a vessel may come into any other port of entry or, if properly authorized to do so under §101.4(b) of this chapter, into any place other than a port of entry, for the purpose of securing supplies, equipment, or repairs only, but shall not land its catch. A convention vessel which comes into the United States as provided for in this paragraph shall comply with the usual requirements applicable to foreign vessels arriving at and departing from ports of the United States.

(e) A nonconvention fishing vessel, other than a treaty vessel, may come into a port of entry in the United States or, if granted permission under §101.4(b) of this chapter, into a place other than a port of entry for the purpose of securing supplies, equipment, or repairs, but shall not land its catch. A nonconvention fishing vessel which comes into the United States as provided for in this paragraph shall comply with the usual requirements applicable to foreign vessels arriving at and departing from ports of the United States.

(f) A nonconvention cargo vessel, although not prohibited by law from coming into the United States, shall not be permitted to land in the United States its catch of fish taken on the

<sup>131a</sup> Except as otherwise provided by treaty or convention to which the United States is a party, no foreign-flag vessel shall, whether documented as a cargo vessel or otherwise, land in a port of the United States its catch of fish taken on board such vessels on the high seas or fish products processed therefrom, or any fish or fish products taken on board such vessel on the high seas from a vessel engaged in fishing operations or in the processing of fish or fish products.” (46 U.S.C. 251)

high seas or any fish or fish products taken on board on the high seas from a vessel employed in fishing or in the processing of fish or fish products, but may land fish taken on board at any place other than the high seas upon compliance with the usual requirements. Before any such fish may be landed the master shall satisfy the port director that the fish were not taken on board on the high seas by presenting declarations of the master and two or more officers or members of the crew of the vessel, of whom the person next in authority to the master shall be one, or other evidence acceptable to the port director which establishes the place of lading to his satisfaction.

(g) A treaty vessel may come into a port or place of the United States named in Annex B of the Treaty with Canada on Pacific Coast Albacore Tuna Vessels and Port Privileges to land its catch of albacore tuna, or to secure fuel, supplies, equipment and repairs. Such a vessel may come into any other port of entry or, if properly authorized to do so under § 101.4(b) of this chapter, into any place other than a port of entry, for the purpose of securing supplies, equipment, or repairs only, but shall not land its catch. A treaty vessel which comes into the United States as provided for in this paragraph shall comply with the usual requirements applicable to foreign vessels arriving at and departing from ports of the United States.

(h) A convention vessel, a nonconvention fishing vessel, a nonconvention cargo vessel, or a treaty vessel, which arrives in the United States in distress shall be subject to the usual requirements applicable to foreign vessels arriving in distress. While in the United States, supplies, equipment, or repairs may be secured, but, except as specified in the next sentence, fish shall not be landed unless the vessel's master, or other authorized representative of the owner, shows to the satisfaction of the port director that it will not be possible, by the exercise of due diligence, for the vessel to transport its catch to a foreign port without spoilage, in which event the port director may allow the vessel upon compliance with all applicable requirements, to land, transship, or otherwise dispose of its

catch. Nothing herein shall prevent, upon compliance with normal Customs procedures, a convention vessel arriving in distress from landing its catch of halibut and incidentally-caught sable fish at a port of entry on the Pacific coast, including Alaska; a foreign cargo vessel arriving in distress from landing its cargo of fish taken on board at any place not on the high seas; or a treaty vessel arriving in distress from landing its catch of albacore tuna at a port of entry on the Pacific coast, including Alaska.

#### **§7.3 Duty-free treatment of goods imported from insular possessions of the United States other than Puerto Rico.**

(a) *General.* Under the provisions of General Note 3(a)(iv), Harmonized Tariff Schedule of the United States (HTSUS), the following goods may be eligible for duty-free treatment when imported into the customs territory of the United States from an insular possession of the United States:

(1) Except as provided in Additional U.S. Note 5 to Chapter 91, HTSUS, and except as provided in Additional U.S. Note 2 to Chapter 96, HTSUS, and except as provided in section 423 of the Tax Reform Act of 1986, as amended (19 U.S.C. 2703 note), goods which are the growth or product of any such insular possession, and goods which were manufactured or produced in any such insular possession from materials that were the growth, product or manufacture of any such insular possession or of the customs territory of the United States, or of both, provided that such goods:

(i) Do not contain foreign materials valued at either more than 70 percent of the total value of the goods or, in the case of goods described in section 213(b) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(b)), more than 50 percent of the total value of the goods; and

(ii) Come to the customs territory of the United States directly from any such insular possession; and

(2) Goods previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation, provided that:

(i) The goods were shipped from the United States directly to the insular possession and are returned from the insular possession to the United States by direct shipment; and

(ii) There was no remission, refund or drawback of such duties or taxes in connection with the shipment of the

goods from the United States to the insular possession.

(b) *Origin of goods.* For purposes of this section, goods shall be considered to be the growth or product of, or manufactured or produced in, an insular possession if:

(1) The goods are wholly the growth or product of the insular possession; or

(2) The goods became a new and different article of commerce as a result of production or manufacture performed in the insular possession.

(c) *Foreign materials.* For purposes of this section, the term “foreign materials” covers any material incorporated in goods described in paragraph (b)(2) of this section other than:

(1) A material which was wholly the growth or product of an insular possession or of the customs territory of the United States;

(2) A material which was substantially transformed in an insular possession or in the customs territory of the United States into a new and different article of commerce which was then used in an insular possession in the production or manufacture of a new and different article which is shipped directly to the United States; or

(3) A material which may be imported into the customs territory of the United States from a foreign country and entered free of duty either:

(i) At the time the goods which incorporate the material are entered; or

(ii) At the time the material is imported into the insular possession, provided that the material was incorporated into the goods during the 18-month period after the date on which the material was imported into the insular possession.

(d) *Foreign materials value limitation.* For purposes of this section, the determination of whether goods contain foreign materials valued at more than 70 or 50 percent of the total value of the goods shall be made based on a comparison between:

(1) The landed cost of the foreign materials, consisting of:

(i) The manufacturer’s actual cost for the materials or, where a material is provided to the manufacturer without charge or at less than fair market value, the sum of all expenses incurred in the growth, production, or manufac-

ture of the material, including general expenses, plus an amount for profit; and

(ii) The cost of transporting those materials to the insular possession, but excluding any duties or taxes assessed on the materials by the insular possession and any charges which may accrue after landing; and

(2) The final appraised value of the goods imported into the customs territory of the United States, as determined in accordance with section 402 of the Tariff Act of 1930, as amended (19 U.S.C. 1401a).

(e) *Direct shipment*—(1) *General.* For purposes of this section, goods shall be considered to come to the United States directly from an insular possession, or to be shipped from the United States directly to an insular possession and returned from the insular possession to the United States by direct shipment, only if:

(i) The goods proceed directly to or from the insular possession without passing through any foreign territory or country;

(ii) The goods proceed to or from the insular possession through a foreign territory or country, the goods do not enter into the commerce of the foreign territory or country while en route to the insular possession or the United States, and the invoices, bills of lading, and other shipping documents show the insular possession or the United States as the final destination; or

(iii) The goods proceed to or from the insular possession through a foreign territory or country, the invoices and other shipping documents do not show the insular possession or the United States as the final destination, and the goods:

(A) Remained under the control of the customs authority of the foreign territory or country;

(B) Did not enter into the commerce of the foreign territory or country except for the purpose of sale other than at retail, and the port director is satisfied that the importation into the insular possession or the United States results from the original commercial transaction between the importer and the producer or the latter’s sales agent; and

### §7.3

### 19 CFR Ch. I (4-1-99 Edition)

(C) Were not subjected to operations in the foreign territory or country other than loading and unloading and other activities necessary to preserve the goods in good condition.

(2) *Evidence of direct shipment.* The port director may require that appropriate shipping papers, invoices, or other documents be submitted within 60 days of the date of entry as evidence that the goods were shipped to the United States directly from an insular possession or shipped from the United States directly to an insular possession and returned from the insular possession to the United States by direct shipment within the meaning of paragraph (e)(1) of this section, and such evidence of direct shipment shall be subject to such verification as deemed necessary by the port director. Evidence of direct shipment shall not be required when the port director is otherwise satisfied, taking into consideration the kind and value of the merchandise, that the goods qualify for duty-free treatment under General Note 3(a)(iv), HTSUS, and paragraph (a) of this section.

(f) *Documentation.* (1) When goods are sought to be admitted free of duty as provided in paragraph (a)(1) of this section, there shall be filed with the entry/entry summary a properly completed certificate of origin on Customs Form 3229, signed by the chief or assistant chief customs officer or other official responsible for customs administration at the port of shipment,

showing that the goods comply with the requirements for duty-free entry set forth in paragraph (a)(1) of this section. Except in the case of goods which incorporate a material described in paragraph (c)(3)(ii) of this section, a certificate of origin shall not be required for any shipment eligible for informal entry under §143.21 of this chapter or in any case where the port director is otherwise satisfied that the goods qualify for duty-free treatment under paragraph (a)(1) of this section.

(2) When goods in a shipment not eligible for informal entry under §143.21 of this chapter are sought to be admitted free of duty as provided in paragraph (a)(2) of this section, the following declarations shall be filed with the entry/entry summary unless the port director is satisfied by reason of the nature of the goods or otherwise that the goods qualify for such duty-free entry:

No drawback may be allowed under section 313 of the Tariff Act of 1930, as amended (19 U.S.C. 1313), on goods manufactured or produced in the United States and shipped to any insular possession. #### §7.4 Watches and watch movements from U.S. insular possessions.

(a) The issuance of an International Trade Administration Form ITA-360, Certificate of Entitlement to Secure the Refund of Duties on Watches and Watch Movements, by the Department of Commerce, authorizes a producer of watches in the U.S. insular possessions to file requests with Customs for the refund of duties paid on imports of watches, watch movements (including solid state watches and watch movements), and watch parts (excepting separate watch cases and any articles containing any materials to which rates of duty set forth in Column 2, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) apply). The amount of the refund requested may be up to the value specified in the certificate, provided that the articles for which refunds are requested were entered during a 3-year period beginning 2 years before the date of issuance of the Form ITA-360 certificate from the Department of Commerce.

(b) The Form ITA-360 may not be used to secure refunds. To secure a refund, the party requesting the refund of duties (claimant) must present to

Customs Form ITA-361, Request for Refund of Duties on Watches and Watch Movements, properly executed, and authenticated by the Department of Commerce.

(c) By completing Form ITA-361, the insular producer may either:

(1) Transfer its entitlement, in whole or in part, to any other party for any consideration agreed to by the insular producer and the transferee, or

(2) Request the refund of duties to itself.

(d) A claimant must file Form ITA-361 with Customs at the same port where the watch import entry was originally filed and duties paid. The documentation accompanying Form ITA-361 shall include a copy of the import entry, providing proof that duty was paid on the watches and watch movements.

(e) When requesting the refund of duties on Form ITA-361, the claimant also must complete and submit to Customs the declaration on the form which reads as follows:

I declare that the information given above is true and correct to the best of my knowledge and belief; that no notices of exportation of articles with benefit of drawback were filed upon exportation of this merchandise from the United States; that no liquidated refunds on the articles relating to the present claim have been paid; and that no protest or request for litigation for refund of duties paid and herewith claimed has been made.

(f) A fee of 1 percent will be deducted from each refund request as reimbursement to salaries and expenses of those Customs personnel processing the request.

(g) Form ITA-360 expires 1 year from its date of issuance. Any refund request on Form ITA-361 made by either the insular producer itself or any transferee named on Form ITA-360 must be filed within this 1-year period. This expiration date applies equally to all refund requests, whether a single request for the entire amount specified in the Form ITA-361 certificate or multiple requests for partial amounts. Refund requests will be accepted until either the amount specified in the certificate is depleted or until the certificate expires 1 year from its date of issuance.

## §7.11

(h) Customs will process only those refund requests made in accordance with the joint rules of the Departments of Commerce and the Interior governing the issuance and handling of certificates and the transfer of entitlements as contained in 15 CFR part 303.

(b) In any case in which the value of the returned articles exceeds \$2,000 and the articles are not clearly marked with the name and address of the U.S. manufacturer, the port director may require, in addition to the declarations required in paragraph (a) of this section, such other documentation or evidence as may be necessary to substan-

tiate the claim for duty-free treatment. Such other documentation or evidence may include a statement from the U.S. manufacturer verifying that the articles were made in the United States, or a U.S. export invoice, bill of lading or airway bill evidencing the U.S. origin of the articles and/or the reason for the exportation of the articles.

(c) A certificate from the master of a vessel stating that products of the United States are returned without having been unladen from the exporting vessel may be accepted in lieu of the declaration of the foreign shipper required by paragraph (a)(1) of this section.

(d) If the port director is reasonably satisfied, because of the nature of the articles or production of other evidence, that the articles are imported in circumstances meeting the requirements of subheading 9801.00.10 or 9802.00.20, HTSUS, and related section and additional U.S. notes, he may waive the requirements for producing the documents specified in paragraph (a) of this section.

under subheading 9802.00.20, HTSUS, the requirements of paragraphs (a) and (c) of this section are applicable except that the declaration by the foreign shipper provided for in paragraph (a)(1) to the effect that the articles “are returned without having been advanced in value or improved in condition by any process of manufacture or other means” shall be crossed out, and the entrant shall show on the declaration provided for in paragraph (a)(2) that the subject articles when exported were of U.S. manufacture and are returned after having been exposed, or exposed and developed, and, in the case of motion picture films, that they will not be used for commercial purposes.

(g) *Aircraft and aircraft parts and equipment.* (1) In the case of aircraft and aircraft parts and equipment returned to the United States under subheading 9801.00.10, HTSUS, by or for the account of an aircraft owner or operator and intended for use in his own aircraft operations, within or outside the United States, the entry summary may be made on Customs Form 3311. The entry summary on Customs Form 3311 shall be executed by the entrant and supported by the entry documentation required by §142.3 of this chapter. If the Customs officer is satisfied that the articles are products of the United States, that they have not been improved in condition or advanced in value while abroad, and that no drawback has been or will be paid, the other documents described in this section shall not be required, and no bond need be filed for their production.

(2) The entrant shall show on Customs Form 3311:

(i) The name and address of the aircraft owner or operator by whom or for whose account the articles are returned to the United States, in the block headed “Articles Returned To (Name and Address)”;

(ii) The name of the importing vessel or conveyance,

(iii) The date of its arrival,

(iv) A description of the articles,

(v) The value of the articles, and

(vi) That the articles are intended for use by the aircraft owner or operator in his own aircraft operations.

(3) If Customs Form 3311 is filed at time of entry, it shall serve as both the entry and the entry summary.

(h) *Nonconsumable vessel stores and equipment.* (1) In the case of nonconsumable vessel stores and equipment returned to the United States under subheading 9801.00.10, HTSUS, the entry summary may be made on Customs Form 3311. The entry summary on Customs Form 3311 shall be executed in duplicate by the entrant and supported by the entry documentation required by §142.3 of this chapter. Before an entry summary on Customs Form 3311 may be accepted for nonconsumable vessel stores and equipment, the Customs officer shall be satisfied that:

(i) The articles are products of the United States.

(ii) The articles have not been improved in condition or advanced in value while abroad.

(iii) No drawback has been or will be paid, and

(iv) No duty equal to an internal revenue tax is payable under subheading 9801.00.80, HTSUS.

(2) The documentation described in paragraph (a) of this section shall not be required in connection with an entry for nonconsumable vessel stores and equipment on Customs Form 3311.

(3) To satisfy the Customs officer that no drawback has been or will be paid on the articles in connection with their removal from the United States, the master of the vessel or other person having knowledge of the facts shall furnish a written declaration which may be made on the reverse side of Customs Form 3311 showing that the articles were:

(i) Exported as stores or equipment on a United States vessel or a vessel operated by the United States Government,

(ii) Not landed in a foreign country, except for any needed repairs, adjustments, or refilling and return to the vessel from which landed or,

(ii) The date of its arrival,

(iii) A description of the articles, and

(iv) The value of the articles.

(5) If Customs Form 3311 is filed at time of entry, it shall serve as both the entry and the entry summary.

(i) When the total value of articles of claimed American origin contained in any shipment does not exceed \$250 and such articles are found to be unquestionably products of the United States and do not appear to have been advanced in value or improved in condition while abroad and no quota is involved, free entry thereof may be made under subheading 9801.00.10 on Customs Form 3311, executed by the owner, importer, consignee, or agent and filed in duplicate, without regard to the requirement of filing the documentation provided for in paragraph (a) of this section, unless the Customs officer has reason to believe that Customs drawback or exemption from internal revenue tax, or both, were probably allowed on exportation of the articles or that they are otherwise subject to duty. The entrant shall show on Customs Form 3311 the name of the importing conveyance, the date of its arrival, the name of the country from which the articles were returned to the United States, and the value of the articles. The entrant shall also produce evidence of his right to make entry (except as provided in §141.11(b) of this chapter). If the Customs officer is not entirely certain that the articles to be entered under this paragraph by a nominal consignee are products of the United States, the actual owner or ultimate consignee thereof may be required to execute a Customs Form 3311.

(j) In the case of products of the United States, when the aggregate value of the shipment does not exceed \$10,000 and the products are imported—

(1) For the purposes of repair or alteration, prior to reexportation, or

(2) After having been either rejected or returned by the foreign purchaser to the United States for credit, free entry thereof may be made under subheading 9801.00.10, HTSUS, on Customs Form 3311 (a Customs Form 7501 must be submitted as well for such articles as provided in §143.23(h) of this chapter), executed by the owner, importer, consignee, or agent and filed in duplicate, without regard to the requirement of filing the documentation provided for in paragraph (a) of this section, unless

the Customs officer has reason to believe that Customs drawback or exemption from internal revenue tax, or both, were probably allowed on exportation of the articles or that they are otherwise subject to duty. The person making entry shall show on Customs Form 3311 the name of the importing conveyance, the date of its arrival, the name of the country from which the articles were returned to the United States, and the value of the articles. The person making entry shall also produce evidence of his right to make entry (except as provided in §141.11(b) of this chapter). If the Customs officer is not entirely certain that the articles to be entered under this paragraph by a nominal consignee are products of the United States, the actual owner or ultimate consignee thereof may be required to execute a Customs Form 3311.

### § 10.3 Drawback; internal-revenue tax.

(a) Except as prescribed in §10.1(f) or in paragraphs (c) and (f) of this section, no free entry shall be allowed under Chapter 98, Subchapter 1, Harmonized Tariff Schedule of the United States (HTSUS), in the final liquidation of an entry unless the port director is satisfied by the certificate of exportation or other evidence or information that no drawback was allowed in connection with the exportation from the United States, and unless no internal-revenue tax is imposed on the importation of like articles not previously exported from the United States or, if such tax is being imposed at the time of entry for consumption or withdrawal from warehouse for consumption, the port director is satisfied that an internal-revenue tax on production or importation was paid in respect of the imported article before it was exported from the United States and was not refunded. Except as provided for in §10.1(f), when it is impracticable, because of the destruction of Customs

records or other circumstances, to determine whether drawback was allowed, or the amount of drawback allowed, with respect to an article established to be a returned product of the United States which has not been advanced in value or improved in condition while abroad, there shall be assessed on the returned article an amount of duty determined as follows:

(1) If there is any likelihood that drawback was allowable on the exportation of like articles at any time when the imported article may have been exported from the United States, the estimated amount of any drawback which would have been allowable if duty had been paid on any foreign merchandise likely to have been used in the manufacture of the returned article at the rate or rates applicable to such foreign merchandise on the date of importation of the returned article (see paragraph (b) of this section), and

(2) If there is any likelihood that a refund or remission of tax was allowed on the exportation of the returned article, the amount of any internal-revenue tax which would be payable at the time of importation if the returned article were wholly of foreign origin, but in no such case shall there be assessed more than an amount equal to the duty and tax that would apply if the returned article were wholly of foreign origin and originally imported. (See § 10.7(a).) Except as provided for in § 10.1(f), if the imported article is of a kind which would be subject to an internal-revenue tax if of foreign origin and payment of an internal-revenue

tax before exportation without refund thereof is not established, duty shall be assessed on the imported article in an amount equal to the internal-revenue tax imposed at the time of entry for consumption or withdrawal from warehouse for consumption on like articles of foreign origin, plus the amount of any drawback allowed on the exportation of the article from the United States; but if no drawback was allowed, the duty equal to internal-revenue tax shall be the total duty to be assessed. If an allowance of drawback on the exportation from the United States of the imported article is established, duty shall be assessed in an amount equal to such drawback, plus an amount equal to any internal-revenue tax which may be assessable in accordance with this paragraph; but in no case shall duty equal to drawback, or to drawback and internal-revenue tax, be assessed in an amount in excess of the ordinary Customs duty and internal-revenue tax applicable to like articles of foreign origin. In any case, where payment of internal-revenue tax before exportation without refund thereof is established, no duty equal to an internal-revenue tax currently in force shall be assessed.

(b) In the absence of satisfactory evidence as to the nonallowance of drawback or the amount thereof allowed on the following articles of American manufacture or production, duty shall be assessed thereon in the amounts respectively indicated, the amount shown in each case being considered the fair average amount of drawback allowed on such articles:

(1) Any article of a kind which would be admitted free of duty otherwise than under Chapter 98, Subchapter 1, HTSUS, if of foreign origin;

(2) Substantial containers or holders of domestic manufacture, including shooks and staves when returned as boxes or barrels, when in use at the time of importation as the usual containers of merchandise;

(3) Any article provided for in subheadings 9801.00.70 or 9801.00.80, HTSUS, with respect to which the port director has determined that the collection of duty under such subheadings 9801.00.70 or 9801.00.80, HTSUS, would involve an expense and inconvenience to the Government disproportionate to the probable amount of such duty; and

(4) Other articles of domestic manufacture which are in use at the time of importation as the usual coverings or containers of merchandise not subject to an ad valorem rate of duty, and which have not been advanced in value or improved in condition while abroad by any process of manufacture or other means.

(d) Articles manufactured or produced in the United States in a Customs bonded warehouse and exported shall be subject on reimportation to a duty equal to the total duty and internal-revenue tax, if any, imposed at the time of entry for consumption or withdrawal from warehouse for consumption with respect to the importation of like articles not previously exported from the United States.

(f) Tobacco products and cigarette papers and tubes classifiable under subheading 9801.00.80, HTSUS, may be released from customs custody without the payment of that part of the duty attributable to the internal-revenue tax for return to internal-revenue bond

### § 10.4 Internal-revenue marks; erasure.

Internal-revenue brands or marks on casks or other containers previously exported from the United States must be erased at the importer's expense under Customs supervision before their delivery from Customs custody.

### § 10.5 Shooks and staves; cloth boards; port director's account.

(a) Shooks and staves produced in the United States and returned in the form of complete boxes or barrels in use as the usual containers of merchandise are exempt from any duties imposed by the tariff laws upon similar containers made of foreign shooks or staves, provided their identity is established under the regulations in this part.

(b) The term "shook" embraces only shooks which at the time of exportation from this country are ready to be assembled into boxes or barrels without further cutting to size; except that box shooks may be exported in double lengths and cut abroad. The number of boxes made from such shooks which may be imported into this country free of duty cannot exceed the number of complete sets of shooks exported.

(c) [Reserved]

(d) An exporter of shooks or staves in respect of which free entry is to be claimed when returned as boxes or barrels shall file in triplicate with the director of the port of exportation, at least 6 hours before the landing of the articles on the exporting vessel, a Certificate of Registration, Customs Form 4455.

(e) The Certificate of Registration, CF 4455, shall be completed in triplicate by the port director after verification from the manifest of the exporting vessel and the return of the

lading officer. The original shall be forwarded by the port director to the consignee. The duplicate copy shall be given to the exporter and the triplicate copy shall be retained.

(f) Whenever boxes or barrels alleged to have been manufactured from American shooks or staves are shipped to the United States from a person abroad other than the one to whom they were exported from the United States, the importer shall be required to obtain from the foreign consignee to whom the shooks or staves were originally exported from this country the certificate or certificates, Customs Form 4455, covering the exportation of the shooks or staves from the United States, or an extract therefrom signed by such consignee, showing the number of shooks or staves covered by such certificate or certificates, together with the number of superficial feet of such shooks or staves. Such Form 4455, or extract therefrom, shall be filed by the importer in connection with the entry of the boxes or barrels.

(g) Accounts shall be kept by the director of the port of exportation of the shooks and staves as to each exportation thereof and as to the returns thereof in boxes, barrels, etc. Notifications of such returns shall be given to the port of exportation by the director of the port of importation. When returns in the form of boxes, barrels, etc., entirely account for the shooks and staves exported as shown on the appropriate Customs Form 4455, the port director maintaining the account shall so inform the port director making inquiry about the merchandise being imported and alleged to contain shooks or staves covered by the particular exportation.

(h) A record of cloth boards of domestic manufacture exported to be wrapped with foreign textiles shall be kept by the port director in a similar manner as for shooks and staves. Cloth boards of domestic manufacture are conditionally free of duty under Chapter 98, subchapter 1, Harmonized Tariff Schedule of the United States (HTSUS). If such boards are advanced in value or improved in condition while

abroad, free entry shall be denied on importation.

### § 10.6 Shooks and staves; claim for duty exemption.

An importer, seeking an exemption from duty on account of boxes or barrels made from American shooks or staves, must make such a claim on Customs Form 4455 at the time of filing the entry. Upon receipt, from the director of the port of exportation of the shooks and staves, of corroboration that the records of exportation do not conflict materially with such a claim, the exemption may be allowed. If the claim for an exemption is disallowed in full or in part, the importer may file a request within 15 days of the date of the port director's notice to him of any disallowance, for referral of the question to the Commissioner of Customs for review.

### § 10.7 Substantial containers or holders.

(a) Substantial containers or holders, which are products of the United States, which are of the usual and ordinary types used in the shipment or transportation of goods, which are reusable for such purposes, and which are imported containing or holding merchandise, shall be entered under the general regulations governing the free entry of domestic products exported and returned. When such containers or holders are imported not containing or holding merchandise they may be admitted without entry if readily identifiable as products of the United States.

(b) Substantial containers or holders, which are of foreign production and previously imported duty paid, which are of the usual or ordinary types used in the shipment or transportation of goods, which are reusable for such purpose, and which are imported containing or holding merchandise, shall be exempt from duty if (1) exported in accordance with the regulations contained in § 10.5 (d) and (e), and (2) there

is filed in connection with the entry a certificate of the foreign shipper in the form prescribed by paragraph (c) of this section.

(c) The certificate to be furnished by the foreign shipper for the use of the director of the port of entry shall be in the following form:

I, \_\_\_\_\_, of \_\_\_\_\_, do hereby certify that to the best of my knowledge and belief the substantial containers and holders mentioned in (the annexed invoice) (invoice No. \_\_\_\_\_ of \_\_\_\_\_, 19—) \* are of the manufacture of \_\_\_\_\_ and were exported from the United States at the port of \_\_\_\_\_, per S.S. \_\_\_\_\_ on \_\_\_\_\_, 19—, and that the same are being returned to the United States (empty) filled with \_\_\_\_\_ (holdings \_\_\_\_\_).\*

(d) The port director, after verification of the foreign shipper's certificate with the records of the director of the port of exportation in this country, shall allow free entry to the extent the basis for such allowance is verified. The procedure in the last two sentences of § 10.6 shall be applicable.

(e) If claim for exemption from duty for such containers or holders of foreign production previously imported duty paid is made at the time of entry, the certificate of the foreign shipper may be accepted if produced at any time prior to the liquidation of the entry.

(f) When such containers or holders of foreign production previously imported duty paid are reimported empty, they may be admitted without entry if readily identifiable as having been previously imported duty paid.

ations and which are claimed to be subject to duty only on the value of the repairs or alterations performed abroad under subheading 9802.00.40 or 9802.00.50, Harmonized Tariff Schedule of the United States (HTSUS):

(1) A declaration from the person who performed such repairs or alterations, in substantially the following form:

The cost or value of the repairs or alterations outside the United States, which is to be set forth in the invoice and entry papers as the basis for the assessment of duty under subheading 9802.00.40 or 9802.00.50, HTSUS, shall be limited to the cost or value of the repairs or alterations actually performed abroad, which will include all domestic and foreign articles furnished for the repairs or alterations but shall not include any of the expenses incurred in this country whether by way of engineering costs, preparation of plans or specifications, furnishing of tools or equipment for doing the repairs or alterations abroad, or otherwise.

(1) The articles were exported within 3 years after the date of the previous importation.

(2) The articles were not advanced in value or improved in condition by any process of manufacture or other means while abroad.

### § 10.10 [Reserved]

#### ARTICLES ASSEMBLED ABROAD WITH UNITED STATES COMPONENTS

### § 10.11 General.

(a) Sections 10.12 through 10.23 set forth definitions and interpretative regulations adopted by the Commissioner of Customs pertaining to the construction of subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) and related provisions of law. These provisions concern claims for the exemption from duty provided by subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), for American-made fabricated components

which are returned to the United States as parts of articles assembled abroad. The examples included in these sections describe specific situations in which the exemption may or may not be applicable. The definitions and regulations that follow are promulgated to inform the public of the constructions and interpretations that the United States Customs Service shall give to relevant statutory terms and to assure the impartial and uniform assessment of duties upon merchandise claimed to be partially exempt from duty under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), at the various ports of entry. Nothing in these regulations purports or is intended to restrict the legal right of importers or others to a judicial review of the matters contained therein.

(b) Section 10.24 sets forth the documentary requirements applicable to the entry of assembled articles claimed to be subject to the exemption provided under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202). Allowance of an importer's claim is dependent upon meeting the statutory requirements for the exemption under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) and his complying with the documentary requirements set forth in § 10.24.

[T.D. 75–230, 40 FR 43021, Sept. 18, 1975, as amended by T.D. 89–1, 53 FR 51247, Dec. 21, 1988; T.D. 97–82, 62 FR 51769, Oct. 3, 1997]

### § 10.12 Definitions.

As used in §§ 10.11 through 10.24, the following terms shall have the meanings indicated:

(a) *American-made*. The term “American-made” is used to refer to a product of the United States as defined in paragraph (e) of this section.

(b) *Assembly*. “Assembly” means the fitting or joining together of fabricated components.

(c) *Exemption*. “Exemption” means the deduction of the cost or value of products of the United States which were assembled abroad in accordance with the requirements of subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202),

from the full value of the assembled article.

(d) *Fabricated component*. “Fabricated component” means a manufactured article ready for assembly in the condition as exported except for operations incidental to the assembly.

(e) *Product of the United States*. A “product of the United States” is an article manufactured within the Customs territory of the United States and may consist wholly of United States components or materials, of United States and foreign components or materials, or wholly of foreign components or materials. If the article consists wholly or partially of foreign components or materials, the manufacturing process must be such that the foreign components or materials have been substantially transformed into a new and different article, or have been merged into a new and different article.

[T.D. 75-230, 40 FR 43021, Sept. 18, 1975, as amended by T.D. 89-1, 53 FR 51247, Dec. 21, 1988]

**§ 10.13 Statutory provision: Subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202).**

Subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS), (19 U.S.C. 1202), provides that articles assembled abroad in whole or in part of fabricated components, the product of the United States, which (a) were exported in condition ready for assembly without further fabrication, (b) have not lost their physical identity in such articles by change in form, shape, or otherwise, and (c) have not been advanced in value or improved in condition abroad except by being assembled and except by operations incidental to the assembly process such as cleaning, lubricating, and painting, are subject to a duty upon the full value of the imported article, less the cost or, if no charge is made, the value of such products of the United States. The rate of duty which is assessed upon the dutiable portion of the imported article is that which is applicable to the imported article as a whole under the appropriate provision of the HTSUS (19 U.S.C. 1202) for such article. If that provision requires a specific or com-

pound rate of duty, the total duties assessed on the imported article are reduced in such proportion as the cost or value of the returned United States components which qualify for the exemption bears to the full value of the assembled article.

*Example 1.* A transistor radio is assembled abroad from foreign-made components and American-made transistors. Upon importation, the transistor radio is subject to the ad valorem rate of duty applicable to transistor radios upon the value of the radio less the cost or value of the American-made transistors assembled therein.

*Example 2.* A solid-state watch movement is assembled abroad from foreign-made components and an American-made integrated circuit. If the movement in question is subject to the specific rate of duty of 75 cents if the value of the assembled movement is \$30, and if the value of the American-made integrated circuit is \$10, then the value of the integrated circuit represents one third of the total value of the assembled article and the duty on the assembled article will be reduced by one third (\$.25). Therefore, the duty on the assembled movement is 50 cents.

[T.D. 75-230, 40 FR 43021, Sept. 18, 1975, as amended by T.D. 89-1, 53 FR 51247, Dec. 21, 1988]

**§ 10.14 Fabricated components subject to the exemption.**

(a) *Fabricated components, the product of the United States*. Except as provided in § 10.15, the exemption provided under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202), applies to fabricated components, the product of the United States. The components must be in condition ready for assembly without further fabrication at the time of their exportation from the United States to qualify for the exemption. Components will not lose their entitlement to the exemption by being subjected to operations incidental to the assembly either before, during, or after their assembly with other components. Materials undefined in final dimensions and shapes, which are cut into specific shapes or patterns abroad are not considered fabricated components.

*Example 1.* Articles identifiable in their exported condition as components or parts of the article into which they will be assembled, such as transistors, diodes, integrated circuits, machinery parts, or precut parts of

## § 10.15

## 19 CFR Ch. I (4–1–99 Edition)

wearing apparel, are regarded as fabricated components.

*Example 2.* Prestamped metal lead frames for semiconductor devices exported in multiple unit strips in which the individual frame units are connected to each other, or integrated circuit wafers containing individual integrated circuit dice which have been scribed or scored in the United States, are regarded as fabricated components. The separation of the individual frames by cutting, or the segmentation of the wafer into individual dice by flexing and breaking along scribed or scored lines, is regarded as an operation incidental to the assembly process.

*Example 3.* Wires of various type, electrical conductors, metal foils, insulating tapes, ribbons, findings used in dressmaking, and similar products, which are in a finished state when exported from the United States, and are ready for use in the assembly of the imported article, are regarded as fabricated components if they are only cut to length or subjected to operations incidental to the assembly process while abroad.

*Example 4.* Uncut textile fabrics exported in bolts from which wearing apparel components will be cut according to a pattern are not regarded as fabricated components. Similarly, other materials, such as lumber, leather, sheet metal, plastic sheeting, exported in basic shapes and forms to be fabricated into components for assembly, are not eligible for treatment as fabricated components.

(b) *Substantial transformation of foreign-made articles or materials.* Foreign-made articles or materials may become products of the United States if they undergo a process of manufacture in the United States which results in their substantial transformation. Substantial transformation occurs when, as a result of manufacturing processes, a new and different article emerges, having a distinctive name, character, or use, which is different from that originally possessed by the article or material before being subject to the manufacturing process. The mere finishing or modification of a partially or nearly complete foreign product in the United States will not result in the substantial transformation of such product and it remains the product of a foreign country.

*Example 1.* A cast metal housing for a valve is made in the United States from imported copper ingots, the product of a foreign country. The housing is a product of the United States because the manufacturing operations performed in the United States to produce

the housing resulted in a substantial transformation of the foreign copper ingots.

*Example 2.* An integrated circuit device is assembled in a foreign country and imported into the United States where its leads are formed by bending them to a specified angle. It is then tested and marked. The imported article does not become a product of the United States because the operations performed in the United States do not result in a substantial transformation of the foreign integrated circuit device.

*Example 3.* A circuit board assembly for a computer is assembled in the United States by soldering American-made and foreign-made components onto an American-made printed circuit board. The finished circuit board assembly has a distinct electronic function and is ready for incorporation into the computer. The foreign-made components have undergone a substantial transformation by becoming permanent parts of the circuit board assembly. The circuit board assembly, including all of its parts is regarded as a fabricated component, the product of the United States, for purposes of subheading 9802.00.80, HTSUS (19 U.S.C. 1202).

[T.D. 75–230, 40 FR 43022, Sept. 18, 1975, as amended by T.D. 89–1, 53 FR 51247, Dec. 21, 1988]

### § 10.15 Fabricated components not subject to the exemption.

Fabricated components which are not products of the United States are excluded from the exemption. In addition, the exemption is not applicable to any component exported from the Customs territory of the United States:

(a) From continuous Customs custody with remission, abatement, or refund of duty;

(b) With benefit of drawback;

(c) To comply with any law of the United States or regulation of any Federal agency requiring exportation; or

(d) After manufacture or production in the United States under subheading 9813.00.05, HTSUS (19 U.S.C. 1202).

*Example.* Partially completed components of an electric motor are imported in several separate shipments and are entered under a temporary importation bond to be manufactured into finished motors under the provisions of subheading 9813.00.05, HTSUS (19 U.S.C. 1202). The components are completed and assembled into finished electric motors. The finished motors are exported and are assembled abroad into electric fans which are subsequently imported into the United States. Irrespective of the fact that the assembly of the motors might involve such a substantial change that the motor could be

considered a product of the United States, no exemption may be given for the value of the electric motors, since they were exported after manufacture or production in the United States under the provision of sub-heading 9813.00.05, HTSUS (19 U.S.C. 1202).

[T.D. 75-230, 40 FR 43023, Sept. 18, 1975, as amended by T.D. 89-1, 53 FR 51247, Dec. 21, 1988]

### § 10.16 Assembly abroad.

(a) *Assembly operations.* The assembly operations performed abroad may consist of any method used to join or fit together solid components, such as welding, soldering, riveting, force fitting, gluing, laminating, sewing, or the use of fasteners, and may be preceded, accompanied, or followed by operations incidental to the assembly as illustrated in paragraph (b) of this section. The mixing or combining of liquids, gases, chemicals, food ingredients, and amorphous solids with each other or with solid components is not regarded as an assembly.

*Example 1.* A television yoke is assembled abroad from American-made magnet wire. In the foreign assembly plant the wire is despoiled and wound into a coil, the wire cut from the spool, and the coil united with other components, including a terminal panel and housing which are also American-made. The completed article upon importation would be subject to the ad valorem rate of duty applicable to television parts upon the value of the yoke less the cost or value of the American-made wire, terminal panel and housing, assembled therein. The winding and cutting of the wire are either assembly steps or steps incidental to assembly.

*Example 2.* An aluminum electrolytic capacitor is assembled abroad from American-made aluminum foil, paper, tape, and Mylar film. In the foreign assembly plant the aluminum foil is trimmed to the desired width, cut to the desired length, interleaved with paper, which may or may not be cut to length or despoiled from a continuous length, and rolled into a cylinder wherein the foil and paper are cut and a section of sealing tape fastened to the surface to prevent these components from unwinding. Wire or other electric connectors are bonded at appropriate intervals to the aluminum foil of the cylinder which is then inserted into a metal can, and the ends closed with a protective washer. As imported, the capacitor is subject to the ad valorem rate of duty applicable to capacitors upon the value less the cost or value of the American-made foil, paper, tape, and Mylar film. The operations performed on these components are all ei-

ther assembly steps or steps incidental to assembly.

*Example 3.* The manufacture abroad of cloth on a loom using thread or yarn exported from the United States on spools, cops, or pirns is not considered an assembly but a weaving operation, and the thread or yarn does not qualify for the exemption. However, American-made thread used to sew buttons or garment components is qualified for the exemption because it is used in an operation involving the assembly of solid components.

(b) *Operations incidental to the assembly process.* Operations incidental to the assembly process whether performed before, during, or after assembly, do not constitute further fabrication, and shall not preclude the application of the exemption. The following are examples of operations which are incidental to the assembly process:

- (1) Cleaning;
- (2) Removal of rust, grease, paint, or other preservative coating;
- (3) Application of preservative paint or coating, including preservative metallic coating, lubricants, or protective encapsulation;
- (4) Trimming, filing, or cutting off of small amounts of excess materials;
- (5) Adjustments in the shape or form of a component to the extent required by the assembly being performed abroad;
- (6) Cutting to length of wire, thread, tape, foil, and similar products exported in continuous length; separation by cutting of finished components, such as prestamped integrated circuit lead frames exported in multiple unit strips; and
- (7) Final calibration, testing, marking, sorting, pressing, and folding of assembled articles.

(c) *Operations not incidental to the assembly process.* Any significant process, operation, or treatment other than assembly whose primary purpose is the fabrication, completion, physical or chemical improvement of a component, or which is not related to the assembly process, whether or not it effects a substantial transformation of the article, shall not be regarded as incidental to the assembly and shall preclude the application of the exemption to such article. The following are examples of operations not considered incidental to

## 19 CFR Ch. I (4–1–99 Edition)

the assembly as provided under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202):

(1) Melting of exported ingots and pouring of the metal into molds to produce cast metal parts;

(2) Cutting of garment parts according to pattern from exported material;

(3) Painting primarily intended to enhance the appearance of an article or to impart distinctive features or characteristics;

(4) Chemical treatment of components or assembled articles to impart new characteristics, such as showerproofing, permapressing, sanforizing, dying or bleaching of textiles;

(5) Machining, polishing, burnishing, peening, plating (other than plating incidental to the assembly), embossing, pressing, stamping, extruding, drawing, annealing, tempering, case hardening, and any other operation, treatment or process which imparts significant new characteristics or qualities to the article affected.

(d) *Joining of American-made and foreign-made components.* An assembly operation may involve the use of American-made components and foreign-made components. The various requirements for establishing entitlement to the exemption apply only to the American-made components of the assembly.

*Example.* Diodes are assembled abroad from American-made components. The process includes the encapsulation of the assembled components in a plastic shell. The plastic used for the encapsulation is in the form of a pellet, and is of foreign origin. After the prefabricated diode components are assembled, the assembled unit is placed in a transfer molding machine, where, by use of the pellet, molten epoxy is caused to flow around the perimeters of the assembled components, forming upon solidification a plastic body for the diode. Upon importation, exemption may be granted for the value of the American-made components, but not for the value of the plastic pellet. If the plastic pellet used for encapsulation was of United States origin, its value would still be a part of the dutiable value of the diode, because the plastic pellet is not a fabricated component of a type designed to be fitted together by assembly, but merely a premeasured quantity of material which was applied to the assembled

unit by a process not constituting an assembly.

(e) *Subassembly.* An assembly operation may involve the joining or fitting of American-made components into a part or subassembly of an article, followed by the installation of the part or subassembly into the complete article.

*Example.* Rolls of foil and rolls of paper are exported and cut to specific length abroad and interleaved and rolled to form the electrodes and dielectric of a capacitor. Following this procedure, the rolls are assembled with cans and other parts to form a complete capacitor. The foil and paper are entitled to the exemption.

(f) *Packing.* The packing abroad of merchandise into containers does not in itself qualify either the containers or their contents for the exemption. However, assembled articles which otherwise qualify for the exemption and which are packaged abroad following their assembly will not be disqualified from the exemption by reason of their having been so packaged, whether for retail sale or for bulk shipment. The tariff status of the packing materials or containers will be determined in accordance with General Rule of Interpretation 5, HTSUS (19 U.S.C. 1202).

## § 10.17 Valuation of exempted components.

The value of fabricated components to be subtracted from the full value of the assembled article is the cost of the components when last purchased, f.o.b. United States port of exportation or point of border crossing as set out in the invoice and entry papers, or, if no purchase was made, the value of the components at the time of their shipment for exportation, f.o.b. United States port of exportation or point of border crossing, as set out in the invoice and entry papers. However, if the appraising officer concludes that the cost or value of the fabricated components so ascertained does not represent a reasonable cost or value, then the value of the components shall be determined in accordance with section 402 or section 402a, Tariff Act of 1930, as amended (19 U.S.C. 1401a, 1402).

## § 10.24

### § 10.18 Valuation of assembled articles.

As in the case of the appraisalment of any other import merchandise (see subpart C of part 152 of this chapter), the full value of assembled articles imported under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202), is determined in accordance with 19 CFR 152.100 *et seq.*

[T.D. 87-89, 52 FR 24445, July 1, 1987, as amended by T.D. 89-1, 53 FR 51248, Dec. 21, 1988]

### §§ 10.19—10.20 [Reserved]

### § 10.21 Updating cost data and other information.

When a claim for the exemption is predicated on estimated cost data furnished either in advance of or at the time of entry, this fact should be clearly stated in writing at the time of entry, and suspension of liquidation may be requested by the importer or his agent pending the furnishing of actual cost data. Actual cost data must be submitted as soon as accounting procedures permit. To insure that information used for Customs purposes is reasonably current, the importer shall ordinarily be required to furnish updated cost and assembly data at least every six months, regardless of whether he considers that significant changes have occurred. The 6-month period for the submission of updated cost or other data may be extended by

the port director if such extension is appropriate for the type of merchandise involved, or because of the accounting period normally used in the trade, or because of other relevant circumstances.

[T.D. 75-230, 40 FR 43025, Sept. 18, 1975]

### § 10.23 Standards, quotas, and visas.

All requirements and restrictions applicable to imported merchandise, such as labeling, radiation standards, flame-retarding properties, quotas, and visas, apply to assembled articles eligible for the exemption in the same manner as they would apply to all other imported merchandise.

[T.D. 75-230, 40 FR 43025, Sept. 18, 1975]

### § 10.24 Documentation.

(a) *Documents required.* The following documents shall be filed in connection with the entry of assembled articles claimed to be subject to the exemption under subheading 9802.00.80, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202).

(1) *Declaration by the assembler.* A declaration by the person who performed the assembly operations abroad shall be filed in substantially the following form:

I, \_\_\_\_\_, declare that to the best of my knowledge and belief the \_\_\_\_\_ were assembled in whole or in part from fabricated components listed and described below, which are products of the United States:

| Marks of identification, numbers | Description of component | Quantity | Unit value at time and place of export from United States <sup>1</sup> | Port and date of export from United States | Name and address of manufacturer |

<sup>1</sup>In accordance with U.S. Note 4 to Subchapter II of Chapter 98, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202).

Description of the operations performed abroad on the exported components (in sufficient detail to enable Customs officers to determine whether the operations performed are within the preview of subheading 9802.00.80, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) (attach supplemental sheet if more space is required)):

|---------|-----------|
| Date    | Signature |

(2) *Endorsement by the importer.* An endorsement, in substantially the following form, shall be signed by the importer:

I declare that to the best of my knowledge and belief the (above), (attached) declaration, and any other information submitted herewith, or otherwise supplied or referred to, is correct in every respect and there has been compliance with all pertinent legal notes to the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202).

## § 10.25

## 19 CFR Ch. I (4–1–99 Edition)

| Date    | Signature |

(b) *Revision of format.* In specific cases, the port director may revise the format of either of the documents specified in paragraph (a) of this section and may make such changes as conditions warrant, provided the data and information required to be supplied in these documents are presented. For example, if the components were furnished by the importer, the information on components may be supplied as part of the importer's endorsement, rather than as part of the assembler's declaration.

(c) *Reference to previously filed documents.* In lieu of filing duplicate lists of components and descriptions of assembly operations with each entry, the documents specified in paragraph (a) of this section may refer to assembly descriptions and lists of components previously filed with and approved by the port director, or to records showing costs, names of manufacturers, and other necessary data on components, provided the importer has arranged with the port director to maintain such records and keep them available for examination by authorized Customs officers.

(d) *Waiver of specific details for each entry.* There are cases where large quantities of United States components are purchased from various sources or exported at various ports and dates on a continuing basis, so that it is impractical to identify the exact source, port and date of export for each particular component included in an entry of merchandise claimed to be subject to the exemption under subheading 9802.00.80, HTSUS (19 U.S.C. 1202). In these cases, specific details such as the port and date of export and the name of the manufacturer of the United States components may be waived if the port director is satisfied that the importer and assembler have established reliable controls to insure that all components for which the exemption is claimed are in fact products of the United States. These controls shall include strict physical segregation of United States and foreign components, as well as records of United States components showing quantities,

sources, costs, dates shipped abroad, and other necessary information. These records shall be maintained by the importer and assembler for 5 years from the date of the released entry in a manner so that they are readily available for audit, inspection, copying, reproduction or other official use by authorized Customs officers.

(e) *Waiver of documents.* When the port director is satisfied that unusual circumstances make the production of either or both of the documents specified in paragraph (a) of this section, or of any of the information set forth therein, impractical and is further satisfied that the requirements of subheading 9802.00.80, HTSUS, and related legal notes have been met, he may waive the production of such document(s) or information.

(f) *Unavailability of documents at time of entry.* If either or both of the documents specified in paragraph (a) of this section are not available at the time of entry, a bond on Customs Form 301 containing the bond conditions set forth in § 113.62 of this chapter for the production of the document(s) may be given pursuant to §§ 113.41–113.46 and 141.66 of this chapter.

(g) *Responsibility of correctness.* Subject to the civil and criminal sanctions provided by law for false or fraudulent entries, the importer has the ultimate responsibility for supplying all information needed by the Customs Service to process an entry, and for the completeness and truthfulness of such information. If certain information cannot be supplied by the assembler, it must be provided by the importer.

### § 10.25 Textile components cut to shape in the United States and assembled abroad.

Where a textile component is cut to shape (but not to length, width, or both) in the United States from foreign fabric and exported to another country, territory, or insular possession for assembly into an article that is then returned to the United States and entered, or withdrawn from warehouse, for consumption on or after July 1,

1996, the value of the textile component shall not be included in the dutiable value of the article. For purposes of determining whether a reduction in the dutiable value of an imported article may be allowed under this section:

(a) The terms “textile component” and “fabric” have reference only to goods covered by the definition of “textile or apparel product” set forth in § 102.21(b)(5) of this chapter;

(b) The operations performed abroad on the textile component shall conform to the requirements and examples set forth in § 10.16 insofar as they may be applicable to a textile component; and

(c) The valuation and documentation provisions of §§ 10.17, 10.18, 10.21 and 10.24 shall apply.

**§ 10.26 Articles assembled or processed in a beneficiary country in whole of U.S. components or ingredients; articles assembled in a beneficiary country from textile components cut to shape in the United States.**

(a) No article (except a textile article, apparel article, or petroleum, or any product derived from petroleum, provided for in heading 2709 or 2710, Harmonized Tariff Schedule of the United States (HTSUS)) shall be treated as a foreign article or as subject to duty:

(1) If the article is assembled or processed in a beneficiary country in whole of fabricated components that are a product of the United States; or

(2) If the article is processed in a beneficiary country in whole of ingredients (other than water) that are a product of the United States; and

(3) Neither the fabricated components, materials or ingredients after their exportation from the United States, nor the article before its importation into the United States, enters into the commerce of any foreign country other than a beneficiary country.

(b) No article (except a textile or apparel product) entered, or withdrawn from warehouse, for consumption on or after July 1, 1996, shall be treated as a foreign article or as subject to duty:

(1) If the article is assembled in a beneficiary country in whole of textile components cut to shape (but not to

length, width, or both) in the United States from foreign fabric; or

(2) If the article is assembled in a beneficiary country in whole of both textile components described in paragraph (b)(1) of this section and components that are products of the United States; and

(3) Neither the components after their exportation from the United States, nor the article before its importation into the United States, enters into the commerce of any foreign country other than a beneficiary country.

(c) For purposes of this section:

(1) The terms “textile article”, “apparel article”, and “textile or apparel product” cover all articles, other than footwear and parts of footwear, that are classifiable in an HTSUS subheading which carries a textile and apparel category number designation;

(2) The term “beneficiary country” has the meaning set forth in § 10.191(b)(1); and

(3) A component, material, ingredient, or article shall be deemed to have not entered into the commerce of any foreign country other than a beneficiary country if:

(i) The component, material, or ingredient was shipped directly from the United States to a beneficiary country, or the article was shipped directly to the United States from a beneficiary country, without passing through the territory of any non-beneficiary country; or

(ii) Where the component, material, ingredient, or article passed through the territory of a non-beneficiary country while en route to a beneficiary country or the United States:

(A) The invoices, bills of lading, and other shipping documents pertaining to the component, material, ingredient, or article show a beneficiary country or the United States as the final destination and the component, material, ingredient, or article was neither sold at wholesale or retail nor subjected to any processing or other operation in the non-beneficiary country; or

#### **TEMPORARY IMPORTATIONS UNDER BOND**

### **§ 10.31 Entry; bond.**

(a)(1) Entry of articles brought into the United States temporarily and claimed to be exempt from duty under Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States (HTSUS), unless covered by an A.T.A. carnet or a TECRO/AIT carnet as provided in part 114 of this chapter, shall be made on Customs Form 3461 or 7533, supported by the documentation required by § 142.3 of this chapter. However, when § 10.36 or § 10.36a is applicable, or the aggregate value of the article is not over \$250, the form prescribed for the informal entry of importations by mail, in baggage, or by other means, may be used. When entry is made on Customs Form 3461 or 7533, an entry summary, Customs Form 7501, shall be filed within 10 days after time of entry, in accordance with subpart B, part 142 of this chapter.

(2) If Customs Form 7501 is filed at time of entry, it shall serve as both the entry and entry summary, and Customs Form 3461 or 7533 shall not be required. Customs Form 7501 shall be in original only, except for entries under subheading 9813.00.05, HTSUS, which require a duplicate copy for statistical purposes. When articles are entered under an A.T.A. carnet or a TECRO/AIT carnet, the importation voucher of the carnet shall serve as the entry.

(3) In addition to the data usually shown on a regular consumption entry summary, each temporary importation bond entry summary shall include:

(i) The HTSUS subheading number under which entry is claimed.

(ii) A statement of the use to be made of the articles in sufficient detail to enable the port director to determine whether they are entitled to entry as claimed, and

### **19 CFR Ch. I (4-1-99 Edition)**

(iii) A declaration that the articles are not to be put to any other use and that they are not imported for sale or sale on approval.

(b) The port director, if he is satisfied as to the importer's identity and good faith, may admit a vehicle or craft brought in by a nonresident to take part in a race or other specific contest for which no money purse is awarded, under the provisions of subheading 9813.00.35, HTSUS, without formal entry or security for exportation. If at the time of arrival it appears that the article is likely to remain in the United States beyond 90 days, formal entry and bond shall be taken.

(c) When any article has been admitted without formal entry or security for exportation and the importer thereafter desires to prolong his stay beyond 90 days, an entry covering the article and security for its exportation shall be accepted at any port where the article may be presented for entry. The time during which the imported article may remain in the United States under the entry shall be computed from the date of its original arrival in the United States. The estimated duties for the purpose of fixing the amount of any bond required by paragraph (f) of this section shall be the estimated duties which would have been required to be deposited had the article been entered under an ordinary consumption entry on the date of the original arrival.

(d) [Reserved]

(e) The entry or invoice shall: (1) Describe each article in detail; (2) set forth the value of each article; and (3) set forth any marks or numbers thereon or other distinguishing features thereof. In the case of a vehicle, aircraft, or pleasure boat entered under subheading 9813.00.05, HTSUS and § 10.36a, the registration number, and engine or motor number, and the body number (if available) shall also be shown on the entry. Examination of the imported articles shall be made whenever the circumstances warrant, and occasionally in any event to an extent which will enable the Customs officer to determine that the importation is in agreement with the invoice or entry as to identity and quantity and for the purpose of accepting the entry under the applicable provisions of

Chapter 98, Subchapter XIII, HTSUS. No examination for the purpose of appraisal and no appraisal of the articles shall be made.

(f) With the exceptions stated herein, a bond shall be given on Customs Form 301, containing the bond conditions set forth in §113.62 of this chapter, in an amount equal to double the duties, including fees, which it is estimated would accrue (or such larger amount as the port director shall state in writing or by the electronic equivalent to the entrant is necessary to protect the revenue) had all the articles covered by the entry been entered under an ordinary consumption entry. In the case of samples solely for use in taking orders entered under subheading 9813.00.20, HTSUS, motion-picture advertising films entered under subheading 9813.00.25, HTSUS, and professional equipment, tools of trade and repair components for such equipment or tools entered under subheading 9813.00.50, HTSUS, the bond required to be given shall be in an amount equal to 110 percent of the estimated duties, including fees, determined at the time of entry. If appropriate a carnet, under the provisions of part 114 of this chapter, may be filed in lieu of a bond on Customs Form 301 (containing the bond conditions set forth in §113.62 of this chapter). Cash deposits in the amount of the bond may be accepted in lieu of sureties. When the articles are entered under subheading 9813.00.05, 9813.00.20, or 9813.00.50, HTSUS without formal entry, as provided for in §§10.36 and 10.36a, or the amount of the bond taken under any subheading of Chapter 98, Subchapter XIII, HTSUS, is less than \$25, the bond shall be without surety or cash deposit, and the bond shall be modified to so indicate. In addition, notwithstanding any other provision of this paragraph, in the case of professional equipment necessary for carrying out the business activity, trade or profession of a business person, equipment for the press or for sound or television broadcasting, cinematographic equipment, articles imported for sports purposes and articles intended for display or demonstration, if brought into the United States by a resident of Canada or Mexico and entered under Chapter 98, Subchapter

XIII, HTSUS, no bond or other security shall be required if the entered article is a good originating in Canada or Mexico within the meaning of General Note 12, HTSUS.

(g) Claim for free entry under Chapter 98, Subchapter XIII, HTSUS may be made for articles of any character described therein which have been previously entered under any other provision of law and the entry amended accordingly upon compliance with the requirements of this section, provided the articles have not been released from Customs custody, or even though released from Customs custody if it is established that the original entry was made on the basis of a clerical error, mistake of fact, or other inadvertence within the meaning of section 520(c)(1), Tariff Act of 1930, as amended, and was brought to the attention of the Customs Service within the time limits of that section. If an entry is so amended, the period of time during which the merchandise may remain in the Customs territory of the United States under bond shall be computed from the date of importation. In the case of articles covered by an informal mail entry, such a claim may be made within a reasonable time either before or after the articles have been released from Customs custody.

(h) After the entry and bond have been accepted, the articles may be released to the importer. The entry shall not be liquidated as the transaction does not involve liquidated duties. However, a TIB importer may be required to file an entry for consumption and pay duties, or pay liquidated damages under its bond for a failure to do so, in the case of merchandise imported under subheading 9813.00.05, HTSUS, and subsequently exported to Canada or Mexico (see §181.53 of this chapter).

The examination may be made by an inspector who is qualified, in the opinion of the port director, to determine the amount of the bond required by § 10.31(c) to be filed in support of the entry. If the articles are a commercial traveler's samples and exceed \$500 in value, a special Customs invoice or a descriptive list shall be furnished.

(b) When the proprietor or manager of a theatrical exhibition arriving from abroad who has entered his scenery, properties, and apparel under subheading 9813.00.65, HTSUS, contemplates side trips to a contiguous country with the exhibition within the period of time during which the merchandise may remain in the Customs territory of the United States under bond, including any lawful extension, a copy of the entry covering the effects and a copy of a descriptive list of such effects or invoice furnished by him may be certified by the examining officer and returned to the proprietor or manager for use in registering the effects with the Customs officers at the port of exit, and in clearing them through Customs on his return. Cancellation of the bond shall be effected by exportation in accordance with the provisions of § 10.38 at the time the theatrical effects are finally taken out of the United States before the expiration of the period of time during which the merchandise may remain in the Customs territory of the United States under bond, including any lawful extension. Similar treatment may be accorded articles entered under other subheadings in chapter 98, subchapter XIII, HTSUS, upon approval by Headquarters, U.S. Customs Service.

(c) When a commercial traveler contemplates side trips to a contiguous

country within the period of time during which the merchandise may remain in the Customs territory of the United States under bond, including any lawful extension, a copy of his baggage declaration and a copy of the descriptive list or special Customs invoice furnished by him may be certified by the examining officer and returned to the traveler for use in registering the samples with Customs officers at the port of exit, and in clearing them through Customs upon his return. Cancellation of the bond shall be effected by exportation in accordance with the provisions of §10.38 at the time the samples are finally taken out of the United States before the expiration of the period of time during which the merchandise may remain in the Customs territory of the United States under bond, including any lawful extension.

(d) The privilege of clearance of commercial travelers' samples or professional equipment, tools of trade, and repair components for such equipment or tools imported for his own use by a nonresident sojourning temporarily in the United States on a baggage declaration under bond without surety or cash deposit shall not be accorded to a commercial traveler or such nonresident who, through fraud or culpable negligence, has failed to comply with the provisions of such a bond in connection with a prior arrival.

Such a commercial traveler or nonresident shall be required to file a formal entry under subheading 9813.00.20 or subheading 9813.00.50, HTSUS with a bond supported by a surety or cash deposit in lieu of surety.

**§10.36a Vehicles, pleasure boats and aircraft brought in for repair or alteration.**

(a) A vehicle (such as an automobile, truck, bus, motorcycle, tractor, trailer), pleasure boat, or aircraft brought into the United States by an operator of such vehicle, pleasure boat, or aircraft for repair or alteration (as defined in §§10.8 and 181.64 of this chapter) may be entered on the operator's baggage declaration, in lieu of formal

entry and examination, and may be passed under subheading 9813.00.05, Harmonized Tariff Schedule of the United States (HTSUS), at the place of arrival in the same manner as passengers' baggage. When the vehicle, aircraft, or pleasure boat to be entered is being towed by or transported on another vehicle, the operator of the towing or transporting vehicle may make entry for the vehicle, aircraft or pleasure boat to be repaired or altered. The bond, prescribed by §10.31(f), filed to support entry under this section shall be without surety or cash deposit except as provided by this paragraph and paragraph (d) of this section. The examination may be made by an inspector who is qualified to determine the amount of such bond to be filed in support of the entry. The privilege accorded by this paragraph shall not apply when two or more vehicles, pleasure boats, or aircraft are to be entered by the same importer under subheading 9813.00.05, HTSUS, at the same time. In that event, the importer must file a formal entry supported by bond with surety or cash deposit in lieu of surety.

(b) Each vehicle, pleasure boat, or aircraft to which paragraph (a) of this section is applicable shall be identified on the operator's baggage declaration, which must include the data prescribed in paragraphs (a) and (e) of §10.31.

(c) Exportation shall be effected in accordance with the provisions of §10.38.

(d) The privilege of clearance of a vehicle, pleasure boat, or aircraft brought in by the operator of such vehicle, pleasure boat, or aircraft, for repair or alteration on his baggage declaration under bond without surety or cash deposit shall not be granted to an individual who has failed to comply with the provisions of such a bond in connection with any prior arrival. Such individual shall be required to file a formal entry under subheading 9813.00.05, HTSUS, with a bond supported by a surety or cash deposit in lieu of surety.

### **§ 10.37 Extension of time for exportation.**

The period of time during which merchandise entered under bond under chapter 98, subchapter XIII, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), may remain in the Customs territory of the United States, may be extended for not more than two further periods of 1 year each, or such shorter period as may be appropriate. Extensions may be granted by the director of the port where the entry was filed upon written application on Customs Form 3173, provided the articles have not been exported or destroyed before the receipt of the application, and liquidated damages have not been assessed under the bond before receipt of the application. Any untimely request for an extension of time for exportation shall be referred to the Director, Commercial Rulings Division, Customs Headquarters, for disposition. Any request for relief from a liquidated damage assessment in excess of a Fines, Penalties, and Forfeitures Officer's delegated authority shall be referred to the Director, International Trade Compliance Division, Customs Headquarters, for disposition. No extension of the period for which a carnet is valid shall be granted.

### **§ 10.38 Exportation.**

(a) Articles entered under chapter 98, subchapter XIII, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202) may be exported at the port of entry or at another port. An application on Customs Form 3495 shall be filed in duplicate with the port director a sufficient length of time in advance of exportation to permit the examination and identification of the articles if circumstances warrant such action and, in such event, the applicant shall be notified on a copy of Customs Form 3495 where the articles are to be sent for identification. If a carnet was used for entry purposes, the reexportation

voucher of the carnet shall be filed, in addition to Customs Form 3495, and the carnet shall be presented for certification.

(b) All expenses in connection with the delivery of the articles for examination, the cording and sealing of such articles, and their transfer for exportation shall be paid by the parties in interest.

(c) If exportation is to be made at a port other than the one at which the merchandise was entered, the application on Customs Form 3495 shall be filed in triplicate. There shall also be filed with the application a certified copy of the import entry or a certified copy of the invoice used on entry.

(d) If the goods are examined at one port and are to be exported from another port, they shall be forwarded to the port of exportation under a transportation and exportation entry. In such cases Customs Form 3495 shall be filed in triplicate. Articles entered under a carnet shall not be examined elsewhere than at the port from which they are to be exported.

(e) If the articles are to be exported by mail or parcel post, the package containing the articles must be mailed under Customs supervision after examination. Waiver of the right to withdraw the package from the mails shall be endorsed on each package to be so exported and signed by the exporter.

(f) Whenever the circumstances warrant, and occasionally in any event, port directors shall cause the fact of exportation to be verified by the Office of Enforcement in harmony with the procedures provided for in §§ 18.7 and 191.61 of this chapter.

(g) Upon the presentation of satisfactory evidence to the director of the port at which samples were entered under subheading 9813.00.20, HTSUS, or professional equipment or tools of trade were entered under subheading 9813.00.50, HTSUS, that such articles cannot be exported for the reason that they have been seized (other than by seizure at the suit of private persons), the requirement of exportation shall be

suspended for the duration of the seizure. The articles shall be exported promptly after release from seizure.

#### § 10.39 Cancellation of bond charges.

(a) Charges against bonds taken pursuant to Chapter 98, Subchapter XIII, Harmonized Tariff Schedule of the United States, (HTSUS), may be canceled in the manner prescribed in § 113.55 of this chapter. A completed re-exportation counterfoil on a carnet establishes that the articles covered by the carnet have been exported, and no claim shall be brought against the guaranteeing association under the carnet for failure to export, except under the provisions of § 114.26 of this chapter. In the case of articles entered under subheading 9813.00.30, HTSUS, which are destroyed because of their use for the purposes of importation, the bond charge shall not be canceled unless there is submitted to the port director a certificate of the importer that the articles were destroyed during the course of a specifically described use, and the port director is satisfied that the articles were so destroyed as articles of commerce within the period of time during which the articles may remain in the Customs territory of the United States under bond (including any lawful extension). Bonds covering articles entered under other provisions of law shall not be canceled upon proof of destruction, except as provided for in paragraph (c) of this section, unless the articles are destroyed under Customs supervision in accordance with section 557, Tariff Act of 1930, as amended, and § 158.43 of this chapter.

(b) Where exportation has been made at a port other than the port of entry, the bond may be canceled upon the certificate of lading received from the port of exportation, showing that such exportation was made within the period of time during which the articles may remain in the Customs territory of the United States under bond. In addition, the port director may require the production of a landing certificate

signed by a revenue officer of the country to which the merchandise is exported.

(c) When articles entered temporarily free of duty under bond are destroyed within the bond period by death, accidental fire, or other casualty, petition for relief from liability under the bond shall be made to the United States Customs Service. The petition shall be accompanied by a statement of the importer, or other person having knowledge of the facts, setting forth the circumstances of the destruction of the articles.

(d)(1) If any article entered under Chapter 98, subchapter XIII, HTSUS, except those entered under a carnet, has not been exported or destroyed in accordance with the regulations in this part within the period of time during which the articles may remain in the Customs territory of the United States under bond (including any lawful extension), the Fines, Penalties, and Forfeitures Officer shall make a demand in writing under the bond for the payment of liquidated damages equal to double the estimated duties applicable to such entry, unless a different amount is prescribed by § 10.31(f). The demand shall include a statement that a written petition for relief from the payment of the full liquidated damages may be filed with the Fines, Penalties, and Forfeitures Officer within 60 days after the date of the demand. For purposes of this section, the term estimated duties shall include any merchandise processing fees applicable to such entry.

(2) If articles entered under a carnet have not been exported or destroyed in accordance with the regulations in this part within the carnet period, the port director shall promptly after expiration of that period make demand in writing upon the importer and guaranteeing association for the payment of liquidated damages in the amount of 110 percent of the estimated duties on the articles not exported or destroyed. The guaranteeing association shall have a period of 6 months from the date of claim in which to furnish proof of the exportation or destruction of the articles under conditions set forth in the Convention or Agreement under which the carnet is issued. If such

**§ 10.39****19 CFR Ch. I (4-1-99 Edition)**

proof is not furnished within the 6-month period, the guaranteeing association shall forthwith pay the liquidated damages provided for above. The payment shall be refunded if the guaranteeing association within 3 months from the date of payment furnishes the proof referred to above. No claim for payment under a carnet covering a temporary importation may be made against the guaranteeing association more than 1 year after the expiration of the period for which the carnet was valid.

(3) Demand for return to Customs custody. When the demand for return to Customs custody is made in the case of merchandise entered under Chapter 98, subchapter XIII, HTSUS (19 U.S.C. 1202), liquidated damages in an amount equal to double the estimated duties on the merchandise not returned shall be demanded, except that in the case of samples solely for use in taking orders, motion-picture advertising films, professional equipment, tools of trade, and repair components for professional equipment and tools of trade, the liquidated damages demanded shall be in an amount equal to 110 percent of the estimated duties.

(e) If there has been a default with respect to all the articles covered by the bond and a written petition for relief has been timely filed as provided in part 172 of this chapter, it shall be reviewed by the Fines, Penalties, and Forfeitures Officer if the full amount of the claim does not exceed \$100,000 and by the Director, International Trade Compliance Division, Office of Regulations and Rulings, Customs Headquarters, if the full amount of the claim exceeds \$100,000. If the full amount of liquidated damages demanded does not exceed \$100,000 and the Fines, Penalties, and Forfeitures Officer is satisfied that the importation was properly entered under Chapter 98, subchapter XIII, and that there was no intent to defraud the revenue or delay the payment of duty, the port director may cancel the liability for the payment of liquidated damages as follows:

(1) If evidence is furnished which satisfies the Fines, Penalties, and Forfeitures Officer that the article would have been entitled to free entry as domestic

products exported and returned had the evidence been furnished at the time of entry, without the collection of liquidated damages.

(2) If the article has been exported or destroyed under Customs supervision but not within the period of time during which the articles may remain in the Customs territory of the United States under bond, upon the payment of such lesser amount as the port director may deem appropriate under the law and in view of the circumstances, or without the collection of liquidated damages if the Fines, Penalties, and Forfeitures Officer is satisfied that the delay in exportation or destruction was for the benefit of the United States or was occasioned wholly by circumstances reasonably beyond the control of the parties concerned and which could not have been anticipated by a reasonably prudent person.

(3) If the article was exported or destroyed within the period of time during which the articles may remain in the Customs territory of the United States under bond but not under Customs supervision and satisfactory documentary evidence of actual exportation, such as a foreign landing certificate, or of death or other complete destruction, such as a veterinarian's certificate or certificates of two disinterested witnesses, are furnished together with a complete explanation by the applicant of the failure to obtain Customs supervision, upon the payment of such lesser amount as the Fines, Penalties, and Forfeitures Officer may deem appropriate under the law and in view of the circumstances, or without the collection of liquidated damages if the port director is satisfied that the merchandise was destroyed under circumstances which precluded any arrangement to obtain Customs supervision. Satisfactory documentary evidence of exportation, in the case of carnets, would include the particulars regarding importation or reimportation entered in the carnet by the Customs authorities of another contracting party, or a certificate with respect to importation or reimportation issued by those authorities, based on the particulars shown on a voucher which was detached from the carnet on importation or reimportation into

their territory, provided it is shown that the importation or reimportation took place after the exportation which it is intended to establish.

(4) Upon the payment of an amount equal to double the duty which would have accrued on the articles had they been entered under an ordinary consumption entry, or equal to 110 percent of such duties where that percentage is prescribed in §10.31(f), if such amount is determined to be less than the full amount of the bond.

(f) If there has been compliance with the terms of the bond with respect to part of but not all the articles covered thereby and a written petition for relief is filed as provided in part 172 of this chapter, and if that part of the liability for liquidated damages which represents double the duty or 110 percent of the duty, as required under §10.31(f), on the articles in respect of which there has been a default does not exceed \$100,000, the Fines, Penalties, and Forfeitures Officer may cancel the total liability for payment of liquidated damages in any amount upon the payment of an amount equal to double the duty or 110 percent of the duty, as appropriate, on the articles in respect of which the default occurred, or, under the circumstances enumerated in paragraphs (e)(1), (2), or (3) of this section, upon payment of such lesser amount as the Fines, Penalties, and Forfeitures Officer may deem appropriate, provided the Fines, Penalties, and Forfeitures Officer is satisfied that the importation was properly entered under Chapter 98, subchapter XIII, and that there was no intent to defraud the revenue or delay the payment of duty.

(g) *Anticipatory breach.* If an importer anticipates that the merchandise entered under a Temporary Importation Bond will not be exported or destroyed in accordance with the terms of the bond, the importer may indicate to Customs in writing before the bond period has expired of the anticipatory breach. At the time of written notification of the breach, the importer shall pay to Customs the full amount of liquidated damages that would be assessed at the time of breach of the bond, and the entry will be closed. The importer shall notify the surety in

writing of the breach and payment. By this payment, the importer waives his right to receive a notice of claim for liquidated damages as required by §172.1(a) of this chapter.

(h) If the petitioner is not satisfied with the port director's action under this section and submits a supplemental petition, both the original and the supplemental petitions shall be transmitted to the designated Headquarters official with a full report on the case.

#### § 10.40 Refund of cash deposits.

(a) When a cash deposit is made in lieu of surety, it shall be refunded to the person in whose name the entry is made upon exportation in compliance with §10.38.

(b) If any article entered under Chapter 98, subchapter XIII, Harmonized Tariff Schedule of the United States, is not exported or destroyed within the period of time during which articles may remain in the Customs territory of the United States under bond (including any lawful extension), the port director shall notify the importer in writing that the entire cash deposit will be transferred to the regular account as liquidated damages unless a written application for relief from the payment of the full liquidated damages is filed with the port director within 60 days after the date of the notice. If such an application is timely filed, the transfer of the cash deposit to the regular account as liquidated damages shall be deferred pending the decision of the Headquarters, U.S. Customs Service or, in appropriate cases, the port director on the application.

#### § 10.41a Lift vans, cargo vans, shipping tanks, skids, pallets, and similar instruments of international traffic; repair components.

(a)(1) Lift vans, cargo vans, shipping tanks, skids, pallets, caul boards, and cores for textile fabrics, arriving (whether loaded or empty) in use or to be used in the shipment of merchandise in international traffic are hereby designated as “instruments of international traffic” within the meaning of section 322(a), Tariff Act of 1930, as amended. The Commissioner of Customs is authorized to designate as instruments of international traffic, in decisions to be published in the weekly Customs Bulletin, such additional articles or classes of articles as he shall find should be so designated. Such instruments may be released without entry or the payment of duty, subject to the provisions of this section.

(2) Repair components, accessories, and equipment for any container of foreign production which is an instrument of international traffic may be entered or withdrawn from warehouse for consumption without the deposit of duty if the person making the entry or withdrawal from warehouse files a declaration that the repair component was imported to be used in the repair of a container of foreign production which is an instrument of international traffic, or that the accessory or equipment is for a container of foreign production which is an instrument of international traffic. The port director must be satisfied that the importer of the repair component, accessory, or equipment had the declared intention at the time of importation.

(3) As used in this section, “instruments of international traffic” includes the normal accessories and equipment imported with any such instrument which is a “container” as defined in Article 1 of the Customs Convention on Containers.

(b) The reexportation of a container, as defined in Article 1 of the Customs Convention on Containers, which has become badly damaged, shall not be required in the case of a duly authenticated accident if the container (1) is subjected to applicable import duties and import taxes, or (2) is abandoned free of all expense to the Government or destroyed under Customs supervision at the expense of the parties concerned, following the procedure outlined in §158.43(c) of this chapter. Any salvaged parts and materials shall be subjected to applicable import duties and import taxes. Replaced parts which are not reexported shall be subjected to import duties and import taxes except where abandoned free of expense to the Government or destroyed under Customs supervision at the expense of the parties concerned.

(c) The instruments of international traffic designated in paragraph (a) of this section may be released in accordance with the provisions of that paragraph only after the applicant for such release has filed a bond on Customs Form 301, containing the bond conditions set forth in §113.66 of this chapter. The required application may be filed at the port of arrival or at a subsequent port to which an instrument shall have been transported in bond or to which a container shall have been moved under cover of a TIR carnet (see part 114 of this chapter) showing the characteristics and value of the container on the Goods Manifest of the carnet. If the container is listed on the Goods Manifest of the carnet, the application may be filed at the port of arrival or at the subsequent port. If the container is not listed on the Goods Manifest, the application shall be filed at the port of arrival. When the application is filed at a port other than the port at which the bond is on file, the following procedure applies:

(1) When the application is filed before the fact of approval of the applicant's bond has been established, the applicant must submit with the application, or the Customs officer to whom the application is made must obtain, evidence that a current bond is on file at another port. That evidence may consist of a certified copy of the bond, or any other evidence which will sat-

isfy the Customs officer to whom the application is made that a current bond is on file at another port.

(2) If the application is filed after the fact of approval of the applicant's bond has been established, a certified copy of that bond need not be filed at the port of release. Upon determination by the appropriate Customs officer that the fact of approval of the applicant's bond has been established, and the bond has not been subsequently discontinued, the instruments of international traffic will be released as provided for in paragraph (a) of this section.

(3) Upon the request of the applicant, the appropriate Customs officer at the port at which the instruments of international traffic are to be released will determine whether or not the fact of approval of the applicant's bond has been established. If the approval has not been established, the Customs officer with whom the application has been filed will advise the applicant of the nature of the evidence required to establish the fact that a current bond is on file at another port.

(d) If an instrument of foreign origin, or of United States origin which has been increased in value or improved in condition by a process of manufacture or other means while abroad, is released under this section and is subsequently diverted to point-to-point local traffic within the United States, or is otherwise withdrawn in the United States from its use as an instrument of international traffic, it becomes subject to entry and the payment of any applicable duties. An instrument of United States origin which has not been increased in value or improved in condition by a process of manufacture or other means while abroad and which is released under this section shall not be subject to entry or the payment of duty if it is so diverted or otherwise withdrawn.

(e) The person who filed the application for release under paragraph (a)(1) of this section shall promptly notify a director of a port of entry in the United States as defined in Section 401(k), Tariff Act of 1930, as amended, (1) that the container is to be abandoned or destroyed, as described in paragraph (b) of this section, or (2) that

**§ 10.41a**

**19 CFR Ch. I (4–1–99 Edition)**

the instrument is the subject of a diversion or withdrawal as described in paragraph (d) of this section, in which event he shall file with the port director a consumption entry for the instrument and pay all import duties and import taxes due on the container or instrument at the rate or rates in effect and in its condition on the date of such diversion or withdrawal.

(f)(1) Except as provided in paragraph (j) of this section, an instrument of international traffic (other than a container as defined in Article 1 of the Customs Convention on Containers that is governed by paragraphs (g) (1)–(3) of this section) may be used as follows in point-to-point traffic, provided such traffic is incidental to the efficient and economical utilization of the instrument in the course of its use in international traffic:

(i) Picking up and delivering loads at intervening points in the United States while en route between the port of arrival and the point of destination of its imported cargo; or

(ii) Picking up and delivering loads at intervening points in the United States while en route from the point of destination of imported cargo to a point where export cargo is to be loaded or to an exterior port of departure by a reasonably direct route to, or nearer to, the place of such loading or departure.

(2) Neither use as enumerated in paragraph (f)(1)(i) or (ii) of this section constitutes a diversion to unpermitted point-to-point local traffic within the United States or a withdrawal of an instrument in the United States from its use as an instrument of international traffic under this section.

(g)(1) Except as provided in paragraph (j) of this section, a container (as defined in Article 1 of the Customs Convention on Containers) that is designated as an instrument of international traffic is deemed to remain in international traffic provided that the container exits the U.S. within 365 days of the date on that it was admitted under this section. An exit from the U.S. in this context means a movement across the border of the United States into a foreign country where either:

(i) All merchandise is unladen from the container; or

(ii) Merchandise is laden aboard the container (if the container is empty).

(2) The person who filed the application for release under paragraph (a)(1) of this section is responsible for keeping and maintaining such records, otherwise generated and retained in the ordinary course of business, as may be necessary to establish the international movements of the containers. Such records shall be made available for inspection by Customs officials upon reasonable notice.

(3) If the container does not exit the U.S. within 365 days of the date on which it is admitted under this section, such container shall be considered to have been removed from international traffic, and entry for consumption must be made within 10 business days after the end of the month in which the container is deemed removed from international traffic. When entry is required under this section, any containers considered removed from international traffic in the same month may be listed on one entry. Such entry may be made at any port of entry. Under 19 U.S.C. 1484(a)(1)(B), the importer of record is required, using reasonable care, to complete the entry by filing with Customs the declared value, classification and rate of duty applicable to the merchandise. The importer of record must use the value of the container as determined in accordance with section 402, Tariff Act of 1930 (19 U.S.C. 1401a), as amended by the Trade Agreements Act of 1979 (TAA).

(h) For failure promptly to report the diversion or withdrawal or promptly to make the required entry and pay the duties due, the applicant shall be liable for the payment of liquidated damages equal to the domestic value of the instrument established in accordance with Section 606, Tariff Act of 1930.

(i) When an instrument of international traffic, as provided in paragraph (a) of this section, is returned to the United States and released in accordance with the provisions of that paragraph, any repairs which may have been made to the instrument while it was abroad are not subject to entry or the payment of duty whether the instrument is of foreign or domestic manufacture, whether it left the United States empty or loaded, and

## United States Customs Service, Treasury

## § 10.41b

whether or not the repairs made abroad were in contemplation when the instrument left the United States.

(j) Containers and other articles designated as instruments of international traffic in accordance with this section are nevertheless subject to the application of the coastwise laws of the United States, with particular reference to Section 883, Title 46, United States Code (see § 4.93 of this chapter).

### **§ 10.41b Clearance of serially numbered substantial holders or outer containers.**

(a) The holders and containers described in this section may be released without entry or the payment of duty, subject to the provisions of this section.

(b) Subject to the approval of a port director pursuant to the procedures described in this paragraph, certain foreign- or U.S.-made shipping devices arriving from Canada or Mexico, including racks, holders, pallets, totes, boxes and cans, need not be serially numbered or marked if they are always transported on or within either intermodal and similar containers or containers which are themselves vehicles or vehicle appurtenances and accessories such as twenty and forty foot containers of general use and "igloo" air freight containers. The following or similar notation shall appear on the vehicle or vessel manifest in relation to such shipping devices which are exempt from serial numbering or marking requirements pursuant to this paragraph: "The shipping devices transported herein, which are not serially numbered or marked, have been exempted from such requirement pursuant to an application approved under 19 CFR 10.41b(b)." Also, pallets and other solid wood shipping devices must be accompanied by an importer document, to the extent that this is required by the U.S. Department of Agriculture, Animal and Plant Health Inspection Service, attesting to the admissibility of such devices as regards

plant pest risk, as provided for in 7 CFR 319.40-3.

(1) An importer or his agent, regardless of whether the importer is the owner of the foreign- or U.S.-manufactured shipping devices, may apply to a port director of Customs at one of the importer's chiefly utilized Customs ports or the port within which the importer's or agent's recordkeeping center is located for permission to have such shipping devices arriving from Canada or Mexico released without entry and payment of duty at the time of arrival and without the devices being serially 13 numbered or marked. Application may be filed in only one port. Although no particular format is specified for the application, it must contain the information enumerated in paragraph (b)(2) of this section. Any duty which may be due on these shipping devices shall be tendered and paid cumulatively at the time specified in an approved application, which may be either before or after the arrival of the shipping devices in the U.S. (such as, at the time a contract, purchase order or lease agreement is issued).

(2) The application shall:

(i) Describe the types of shipping devices covered, their classification under the Harmonized Tariff Schedule of the U.S. (HTSUS), their countries of origin, and whether and to whom required duty was paid for them or when it will be paid for them, including duties for repair and modifications to such shipping devices while outside the U.S.;

(ii) Identify the intended ports where it is anticipated the shipping devices will be arriving and departing the U.S., as well as the particular movements and conveyances in which they are intended to be utilized;

(iii) Describe the applicant's proposed program for accounting for and reporting these shipping devices;

(iv) Identify the reporting period (which shall in no event be less frequent than annual), as well as the payment period within which applicable duty and fees must be tendered 14 (which shall in no event exceed 90 days following the close of the related reporting period);

(v) Describe the type of inventory control and recordkeeping, including

**§ 10.41b**

**19 CFR Ch. I (4–1–99 Edition)**

the specific records, to be maintained to support the reports of the shipping devices; and

(vi) Provide the location in the United States, including the name and address, where the records supporting the reports will be retained by law and will be made available for inspection and audit upon reasonable notice. (The records supporting the reports of the shipping devices must be kept for a period of at least 3 years from the date such reports are filed with the port director.)

(3) The application shall be filed along with a continuous bond containing the conditions set forth in § 113.66(c) of this chapter. If the application is approved by the port director and the conditions set forth in the application or of the bond are violated, the port director may issue a claim for liquidated damages equal to the domestic value of the container. If the domestic value exceeds the amount of the bond, the claim for liquidated damages will be equal to the amount of the bond.

(4) The port director receiving the application shall evaluate the program proposed to account for, report and maintain records of the shipping devices. The port director may suggest amendments to the applicant's proposal. The port director shall notify the applicant in writing of his decision on the 15 application within 90 days of its receipt, unless this period is extended for good cause and the applicant is so informed in writing. Approval of the application by the port director with whom it is filed shall be binding on all Customs ports nationwide.

(5) If the decision is to deny the application, in whole or in part, the port director shall specify the reason for the denial in a written reply, and inform the applicant that such denial may be appealed to the Assistant Commissioner, Office of Field Operations, Customs Headquarters, within 21 days of its date. The Assistant Commissioner's decision shall be issued, in writing, within 30 days of the receipt of the appeal, and shall constitute the final Customs determination concerning the application.

(6) If the application is approved, an importer may later apply to amend his

application to add or delete particular types of shipping devices listed in the application in which the procedures set forth in the application may be utilized. If a requested amendment to an approved application should be denied, or if an approved application should be revoked, in whole or in part, by the port director, the procedures described in paragraph (b)(5) of this section shall apply.

(7) Application for and approval of a reporting program shall not limit or restrict the use of other alternative means for obtaining the release of holders, containers and shipping devices.

(c) In the case of serially numbered holders or containers of United States manufacture for which free clearance under subheading 9801.00.10, Harmonized Tariff Schedule of the United States, is claimed, the owner shall place thereon the following markings:

(1) 9801.00.10, unless the holder or container has permanently attached thereto the manufacturer's metal tag or plate showing, among other things, the name and address of the manufacturer who is located in the United States.

(2) The name of the owner, either positioned as indicated in the example below, or elsewhere conspicuously shown on the holder or container.

(3) The serial number assigned by the owner, which shall be one of consecutive numbers and not to be duplicated. For example: 9801.00.10 \* \* \* Zenda \* \* \* 2468.

(d)(1) In the case of serially numbered holders or containers of foreign manufacture, other than those provided for in paragraph (d)(2) of this section, for which free clearance under the second provision in subheading 9803.00.50, HTSUS (19 U.S.C. 1202), is claimed, the owner shall place thereon the following markings:

(i) 9803.00.50.

(ii) The district and port code numbers of the port of entry, the entry number, and the last two digits of the fiscal year of entry covering the importation of the holders and containers on which duty was paid.

(iii) The name of the owner, either positioned as indicated in the example below, or elsewhere conspicuously shown on the holder or container.

(iv) The serial number assigned by the owner, which shall be one of consecutive numbers and not to be duplicated. For example: 9803.00.50 \* \* \* 10-1-366-63 \* \* \* Zenda \* \* \* 2468.

(2) In the case of substantial holders or containers of either U.S. or foreign manufacture, specially designed and equipped to facilitate the carriage of goods by one or more modes of transport without intermediate reloading, each having a gross mass rating of at least 18,120 kilograms, for which duty-free entry is requested under either the first or the second proviso in subheading 9803.00.50, HTSUS (19 U.S.C. 1202), is claimed, only the following clear, conspicuous and durable markings are required to be on the container:

(i) The identity of the owner or operator of the container.

(ii) The serial number assigned by the owner or operator of the container, which shall be one of consecutive numbers and shall not be duplicated.

(e) The prescribed markings shall be clear and conspicuous, that is, they shall appear on an exposed side of the holder or container in letters and figures of such size as to be readily discernible. The markings will be stricken out or removed when the holders or containers are taken out of service or when ownership is transferred, except that appropriate changes may be made if a new owner wishes to use the holders and containers under this procedure.

(f) The owner shall keep adequate records open to inspection by Customs officers, which shall show the current status of the serially numbered holders and containers in service and the disposition made of such holders and containers taken out of service.

(g) Nothing in this procedure shall be deemed to affect:

(1) The requirements for outward or inward manifesting of such holders or containers. The manifests will show for each holder or container its markings as provided for herein.

(2) The requirements of the Department of Commerce on exportation with respect to the filing of "Shipper's Export Declaration," Form 7525-V.

(3) The treatment of articles covered herein under the coastwise laws of the

United States, with particular reference to section 883, Title 46, United States Code.

(h) If the holder or container and its contents are to move in bond or under cover of a TIR carnet (see part 114 of this chapter) from the port of arrival intact, the holder or container shall appear on the inward foreign manifest so as to be related to the cargo contained therein and will be released under this procedure at a subsequent port. If the holder or container is to move in bond or under cover of a TIR carnet from the port of arrival not intact with its contents, the holder or container may appear on the inward foreign manifest separate from and not related to the cargo contained therein and will be released under this procedure at the port of arrival before it moves forward and will not appear on the in-bond document.

(i) A continuous bond containing the conditions set forth in §113.66 of this chapter shall be filed with the port director. If the conditions are violated the port director shall issue a claim for liquidated damages equal to the domestic value of the holder or container established in accordance with section 606, Tariff Act of 1930, as amended (19 U.S.C. 1606). If the domestic value exceeds the amount of the bond the claim for liquidated damages will be equal to the amount of the bond.

(b) The following evidence shall be filed in connection with the entry: A declaration in the following form by the artist who produced the article, or by the seller, shipper or importer, showing whether it is original, or in the case of sculpture, the original work or model, or one of the first twelve castings, replicas, or reproductions made from the original work or model; and in the case of etchings, engravings, woodcuts, lithographs, or prints made by other hand-transfer processes, that they were printed by hand from hand-etched, hand-drawn, or hand-engraved plates, stones, or blocks:

(d) Artists' proof etchings, engravings, woodcuts, lithographs, or prints made by other hand-transfer processes should bear the genuine signature or mark of the artist as evidence of their authenticity. Claim for free entry under Chapter 98, Subchapter XII may be made for articles of the character described therein which have been previously entered under any other provision of law and the entry amended accordingly upon compliance with the requirements of this section, provided the articles have not been released from Customs custody.

(b) The port director may require a copy of the charter or other evidence of the character of the institution for which the articles are imported, and may also require the production of the original of any order given by such society or institution to any importing agent or dealer for such articles. The society or institution shall file, within 6 months after the date of filing the entry, any document or proof demanded by the port director in connection with the entry.

#### § 10.53 Antiques.

(a) Articles accompanying a passenger and entitled to entry under the passenger's declaration and entry, or articles entered under an informal entry which are claimed to be free of duty under subheading 9706.00.00, Har-

monized Tariff Schedule of the United States (HTSUS), may be admitted free of duty upon the execution of a declaration on the face of the entry provided that the passenger or person filing the informal entry is the owner of the articles and that they are for his personal use and not for sale or other commercial use and provided the Customs officer concerned is satisfied that the articles are of the requisite age.

(b) Antiques of the age prescribed by subheading 9706.00.00, HTSUS, or admitted under the provisions of paragraph (e) of this section, shall be admitted free of duty though repaired or renovated. If, however, an antique has been repaired with a substantial amount of additional material, without changing the original form or shape, the original and added portions shall be appraised and reported as separate entities and the basis for such report shall be plainly indicated on the invoice by the appraiser. In such cases duty shall be assessed on the portion added. If the repairs consist of an addition to an article of a feature which changes it substantially from the article originally produced, or if the antique portion has otherwise been so changed as to lose its identity as the article which was in existence prior to the time prescribed in subheading 9706.00.00, HTSUS, the entire article shall be excluded from free entry under subheading 9706.00.00, HTSUS.

(c) Except for furniture admitted under the provisions of paragraph (e) of this section, furniture claimed to be free of duty under subheading 9706.00.00, Harmonized Tariff Schedule of the United States (HTSUS) may be entered for consumption at any port of entry within the customs territory of the United States. Furniture as used in this section of the regulations is defined as 'movable articles of convenience or decoration for use in furnishing a house, apartment, place of business or accommodation'. This definition embraces most articles claimed to be free of duty as antiques.

(d) A claim for the free entry of an article under subheading 9706.00.00, HTSUS on the basis of antiquity may be made on the entry, or filed after entry at any time prior to liquidation of the entry, provided the article has

## § 10.54

not been released from Customs custody or it has been found upon examination before such release to be described in subheading 9706.00.00, HTSUS.

(e) Antique articles otherwise prohibited entry by the Endangered Species Act of 1973 (16 U.S.C. 1521, *et seq.*) may be entered if:

(1) The article is composed in whole or in part of any endangered or threatened species listed in 50 CFR 17.11 or 17.12,

(2) The article is not less than 100 years of age,

(3) The article has not been repaired or modified with any part of any such endangered or threatened species, on or after December 28, 1973,

(4) The article is entered at a port designated in § 12.26 of this chapter,

(5) A Declaration for Importation or Exportation of Fish or Wildlife (USFWS Form 3-177) is filed at the time of entry with the port director who will forward the form to the U.S. Fish and Wildlife Service, and

(6) The importer meets the requirements of paragraph (a) of this section.

(f) The additional duty imposed by additional U.S. Note 2, Chapter 97, HTSUS, shall apply to any article which is imported for sale and claimed, either at the time of entry or at a later date, to be free of duty under subheading 9706.00.00, HTSUS, if such article is later found to be unauthentic in respect of the antiquity claimed as a basis for such free entry, unless the claim under subheading 9706.00.00, HTSUS, is withdrawn in writing before the examination of the article for the purpose of appraisement or classification has begun.

(g) The additional duty provided for in additional U.S. Note 2, Chapter 97, HTSUS shall not be assessed if the importer established by evidence satisfactory to the port director that the article was not imported for sale. In the case of any article imported in a passenger's baggage or entered under an informal entry, the Customs officer concerned may accept the statement of the owner that the article was not imported for sale if he is satisfied of the truth of such statement.

(1) Operating on a regular schedule in a class of trade which entitles it to the privilege;

and any other part of the United States or between Alaska and any other part of the United States;

(3) Departing in ballast (without cargo or passengers) from one port for another, domestic or foreign, for the purpose of lading passengers or cargo at the port of destination for carriage in a class of trade specified in section 309(a), Tariff Act of 1930, as amended, for which class of trade the vessel is suitable and substantially ready for service with necessary fittings, outfit, and equipment already installed on its departure in ballast, and from which it is not diverted prior to carriage of passengers or cargo in such trade. A written declaration of the owner or agent of the vessel may be required in connection with the withdrawal, certifying to the vessel's suitability and substantial readiness with necessary fittings, outfit, and equipment already installed on its departure in ballast for service in a class of trade specified in section 309 and agreeing to notify the port director if it is laid up or diverted from such class of trade prior to the carriage of cargo or passengers in such trade.

(b) A withdrawal of articles may not be made under section 309, Tariff Act of 1930, as amended, for use on a trial or test trip of a vessel preparatory to its actually engaging in trades.

(c) The classes of articles which may be withdrawn as provided for by section 309, Tariff Act of 1930, as amended, include the containers in which the articles are withdrawn and laden even though for tariff purposes the containers are classifiable separately from their contents, except unusual containers within the purview of General Rule of Interpretation 5, Harmonized Tariff Schedule of the United States (HTSUS).

(d) For the purpose of allowing the privileges of section 309, Tariff Act of 1930, as amended, to aircraft as provided for therein, an aircraft shall be deemed to be a vessel within the meaning of each provision of this section and of §§ 10.60 through 10.64 which may be applied to aircraft.

(e) A documented vessel with a fisheries license endorsement and foreign fishing vessels of 5 net tons or over may be allowed to withdraw distilled

spirits (including alcohol), wines, and beer conditionally free under section 309, Tariff Act of 1930, as amended (19 U.S.C. 1309), if the port director is satisfied from the quantity requested, in the light of (1) whether the vessel is employed in substantially continuous fishing activities, and (2) the vessel's complement, that none of the withdrawn articles is intended to be removed from the vessel in, or otherwise returned to, the United States without the payment of duty or tax. Such withdrawal shall be permitted only after the approval by the port director of a special written application, in triplicate, on Customs Form 5125, of the withdrawer, supported by a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter executed by the withdrawer. Such application shall be filed with Customs Form 7501 or 7512, as the case may be. The original and the triplicate copy of the application, after approval, shall be stamped with the withdrawal number and date thereof and shall be returned to the withdrawer for use as prescribed below. Approval of each such application shall be subject to the condition that the original and the triplicate copy shall be presented thereafter by the withdrawer or the vessel's master to the port director within 24 hours (excluding Saturday, Sunday, and holidays) after each subsequent arrival of the vessel at a Customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the articles until the port director is satisfied that all of them have been consumed on board, or landed under Customs supervision, and takes up the original application. (The withdrawer shall retain the triplicate copy as evidence of consumption on board or landing under Customs supervision.) The approval shall be subject to the further conditions that any such withdrawn article remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the district director for the port or place of arrival shall deem necessary and that failure to comply with the conditions upon which a conditionally free withdrawal is approved shall subject the total quantity of withdrawn articles to

### § 10.60 Forms of withdrawals; bond.

(a) Withdrawals from warehouse shall be made on Customs Form 7501. Each withdrawal shall contain the statement prescribed for withdrawals in § 144.32 of this chapter and all of the statistical information as provided in § 141.61(e) of this chapter. Withdrawals from continuous Customs custody elsewhere than in a bonded warehouse shall be made on Customs Form 7512, except as provided for by paragraph (h) of this section. When a withdrawal of supplies or other articles is made which may be used on a vessel while it is proceeding in ballast to another port as provided for by § 10.59(a)(3), a notation of this fact shall be made on the withdrawal and the name of the other port given if known.

(b) If the withdrawal is made by other than the principal on the warehouse or rewarehouse entry, as the case may be, the assent of such principal shall be endorsed on the withdrawal, unless the principal has otherwise authorized such withdrawal in writing.

(c) A bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter shall be taken when the withdrawal from warehouse is made by a person other than the principal on the warehouse or rewarehouse entry, as provided for in paragraph (b) of this section.

(d) Except as otherwise provided in § 10.62b, relating to withdrawals from warehouse of aircraft turbine fuel to be used within 30 days of such withdrawal as supplies on aircraft under § 309, Tariff Act of 1930, as amended, when the supplies are to be laden at a port other than the port of withdrawal from warehouse, they shall be withdrawn for transportation in bond to the port of lading. Three copies of the manifest on Customs Form 7512, in addition to six copies of the withdrawal on Customs Form 7501, shall be required. The procedure shall be the same as that prescribed in § 144.37 of this chapter (the six copies of Customs Form 7501 taking the place of the entry copies of Customs Form 7512).

(e) No bond shall be required in the case of war vessels.

(f) Unless transfer is permitted under the provisions of paragraph (h) of this section, when articles are withdrawn from continuous Customs custody elsewhere than in a bonded warehouse for lading at the port of withdrawal, the procedure provided for in § 18.25 of this chapter shall be followed, except that the bond required shall be on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter. Unless transfer is permitted under the provisions of paragraph (h) of this section, when articles are withdrawn from continuous Customs custody elsewhere than in a bonded warehouse for lading at another port, the procedure set forth in § 18.26 of this chapter shall be followed, except that the withdrawal when filed shall be supported by a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter. There shall be such examination of the articles as may be necessary to satisfy the port director that they are subject to the privileges of section 309, Tariff Act of 1930, as amended, and that the value and quantity declared for them are correct.

(g) A withdrawal under § 10.59(e) shall be supported by a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter.

(h) If a request is made for permission to transfer supplies or stores from one vessel to another which would be entitled to withdraw them free of duty and tax under section 309 or 317, Tariff Act of 1930, as amended, the port director in his discretion may permit the articles to be so transferred under Customs supervision under a permit on Customs Form 3171 in lieu of a formal withdrawal under the pertinent statute. In such a case, the pertinent statute shall be indicated by an endorsement made on the permit by the port director.

#### § 10.62 Bunker fuel oil.

(a) *Withdrawal under section 309, Tariff Act of 1930, as amended (19 U.S.C. 1309).* Except as otherwise provided in § 10.62b, relating to withdrawals from warehouse of aircraft turbine fuel to be used within 30 days of such withdrawal as supplies on aircraft under section 309, Tariff Act of 1930, as amended (19 U.S.C. 1309), when all the bunker fuel oil in a Customs bonded tank is intended only for lading duty free as supplies on vessels under section 309 at the port where the tank is located, delivery of the oil, by Customs bonded carrier, cartman, or lighterman (including bonded pipelines), under withdrawals on Customs Form 7506, either single or blanket, may be made without the presence of a Customs officer. When a blanket withdrawal is filed and a partial release takes place, the partial release procedure set forth in § 19.6(d) of this chapter shall be followed for each

partial release. However, each abstract copy of Customs Form 7501 shall include the following additional information:

(1) Type of oil withdrawn.

(2) Number or other identification of sales order therefor.

(3) Name of bonded carrier, date it received oil.

(4) Receipt signed by master or other person in charge of delivering conveyance identified by number, or name, and if Customs bonded lighterman or cartman, by the carrier's license number.

(5) Name and location of vessel obtaining oil.

(6) Quantity and identification of each type of oil received with date, and signature and title of receiving officer. If all the oil is laden on the receiving vessel at the port of withdrawal via pipeline from the bonded storage tank, paragraphs (a) (3) and (4) of this section shall be deemed to be inapplicable.

(b) If a blanket free withdrawal of bunker fuel oil is filed, to comply with Bureau of the Census requirements the withdrawal on Customs Form 7501 shall be endorsed "Estimated Withdrawals" and limited to the aggregate quantity and value of fuel oil which it is estimated will be physically removed from Customs bond during the calendar month in which the withdrawal is filed for lading on vessels entitled to duty-free vessel supplies under section 309 of the Tariff Act of 1930, as amended.

(c)(1) As an incident of the delivery of fuel oils classifiable at different rates of duty to a vessel or vessels under section 309 of the tariff act, the port director may, when necessary to enable a supplier to meet fuel specifications, permit the blending of the oils in the delivering conveyance or in other suitable facilities after withdrawal from the bonded tanks, upon the condition that, to the extent of the amount of oil withdrawn classifiable at the higher rate, duty at the higher rate will be paid on any portion of the blended fuel oil not delivered within a reasonable time to a qualified vessel. The withdrawer shall be required to file a withdrawal for consumption for the excess quantity withdrawn. For example, if the quantity withdrawn consists of

## § 10.62a

1,500 barrels of bunker C fuel oil classifiable at the rate of one-eighth cent per gallon and 500 barrels of diesel oil classifiable at the rate of one-fourth cent per gallon but only 1,400 barrels of the blended oil are actually laden as fuel supplies on qualified vessels, withdrawals for consumption are required for 500 barrels of diesel oil at the higher rate and for 100 barrels of bunker C fuel oil at the lower rate.

(2) *Delivering transferer receipt.* The receipt of the delivering carrier on a copy of Customs Form 7501 for fuel oil which has been blended under paragraph (c)(1) of this section with components classifiable at different rates of duty shall show, for each warehouse entry number and withdrawal number involved, the types and quantity of oil received.

(d) Fuel oil withdrawn as vessel supplies at one port may be laden at another port on a vessel or vessels entitled to the free withdrawal privileges of section 309 of the tariff act, under procedures prescribed in this section, provided the movement to the receiving vessel or vessels is under the bond of a qualified carrier as described in § 18.1(a) of this chapter. In such cases, the provisions of § 10.60(d) of this chapter shall be deemed inapplicable.

(e) If a vessel not entitled to duty-free withdrawal of supplies from Customs bonded warehouses under section 309 of the Tariff Act of 1930, as amended, should be supplied with fuel oil from a Customs bonded tank described in paragraph (a) of this section because of an emergency, a duty paid withdrawal therefor shall be filed on the first day that the customhouse is open for the general transaction of business after the day on which the oil is laden on the using vessel. If there should be willful or repeated instances of late filing of a duty-paid withdrawal in such cases, the port director shall require a duty-paid withdrawal to be filed prior to the removal of fuel oil from the bonded tank.

(f) When the procedures prescribed in this section are followed, representatives of the port director will from time to time verify various withdrawals against all pertinent records, including financial records, of the withdrawers, deliverers, and receivers of the oil. The withdrawer shall main-

### § 10.62a Blanket withdrawals for certain merchandise.

(a) *Generally.* Under this section, a blanket withdrawal on Customs Form 7501 may be filed for all or part of any merchandise withdrawn from warehouse except fuel oil covered under § 10.62, for use on qualified vessels. Such a withdrawal shall be made only for lading on board vessels at the port where the warehouse is located. The procedure for the blanket withdrawal and partial releases after the initial release are the same as those provided in § 19.6(d) of this chapter, except as noted in paragraph (b).

(b) *Partial release.* A partial release on Customs Form 7501, in duplicate, or in triplicate if an extra copy is required by the port director, shall be presented to the warehouse proprietor and placed in the proprietor's permit file folder under the partial release procedure set forth in § 19.6(d) of this chapter, as merchandise is needed for delivery to a using vessel. The original of the partial release document shall accompany the merchandise for delivery to the Customs officer who will supervise lading, or if a Customs officer does not physically supervise lading, to the master of the vessel. The original shall be returned to the proprietor for record purposes after the Customs officer or master of the vessel, as appropriate, has certified lading of the goods described in the document.

### § 10.62b Aircraft turbine fuel.

(a) *General.* Unless otherwise provided, aircraft turbine fuel withdrawn from a Customs bonded warehouse for use under section 309, Tariff Act of 1930, as amended (19 U.S.C. 1309), may

be commingled with domestic or other aircraft turbine fuel after such withdrawal only if such commingling is approved by the appropriate Customs official for the port where the commingling occurs. The appropriate Customs official may approve such commingling if the fueling system in which the commingling will occur contains adequate physical safeguards to prevent the possible unauthorized entry into the Customs territory of the bonded fuel. Such commingled fuel must be accounted for in the same 24-hour period in which it was commingled and must be—

(1) Exported within that 24-hour period;

(2) Used under section 309 within that 24-hour period; or

(3) Entered or withdrawn for consumption, with duty deposited, as required under the applicable regulations (see part 144 of this chapter).

(b) *Duty-free withdrawal from warehouse of aircraft turbine fuel under section 557(a), Tariff Act of 1930, as amended (19 U.S.C. 1557(a)).* Turbine fuel intended for use as supplies on aircraft under section 309, Tariff Act of 1930, as amended, and withdrawn from a Customs bonded warehouse shall be entitled to the privileges provided for in section 309 if an amount equal to or exceeding the quantity of such fuel is established, as provided for in paragraph (c) of this section, to have been used on aircraft qualifying for the privileges provided for in section 309 within 30 days after the withdrawal of the fuel from the Customs bonded warehouse. Withdrawal of aircraft turbine fuel under this paragraph shall be in accordance with the procedures in §§ 10.59 through 10.64, unless otherwise provided in this section. Withdrawals under this paragraph shall be annotated with the term “Withdrawal under 19 CFR 10.62b(b)”.

(c) *Establishment of use of fuel by qualifying aircraft.* (1) The person withdrawing aircraft turbine fuel under paragraph (b) of this section shall establish that an aircraft qualifying for the privileges provided for in section 309, Tariff Act of 1930, as amended, used fuel in an amount equal to or exceeding the quantity of the fuel withdrawn which is not entered and upon which duties are not paid by submitting to

Customs, within the time provided in paragraph (d) of this section, either—

(i) Records prepared in the normal course of business effecting the transfer to identified (*e.g.*, by aircraft company name, flight number, flight origin and destination, and date of flight) aircraft of fuel in an amount equal to or exceeding the quantity of the fuel withdrawn which is not entered and on which duties are not paid and objective evidence that the aircraft to which the fuel was transferred were actually used in trade qualifying for the privileges provided in section 309, Tariff Act of 1930, as amended; or

(ii) A certification (documentary or electronic) that:

(A) All of the fuel withdrawn was intended for use on aircraft entitled to the privileges provided for in section 309;

(B) Within 30 days of the date of withdrawal from warehouse, an amount of fuel equal to or exceeding the quantity of the fuel withdrawn which is not entered and on which duties are not paid was transferred as supplies to aircraft entitled to the privileges provided for in section 309;

(C) All of the aircraft, to which the fuel which is not entered and on which duties are not paid was transferred as supplies, were used in a trade provided for in section 309; and

(D) The person making the certification possesses evidence (documentary or electronic) available for Customs inspection at a named place which supports each of the above statements.

(2) Upon request by Customs, the person who submits the certification provided for in paragraph (c)(1) of this section shall promptly provide the evidence required to support the claim for treatment under this section (including the records described in § 10.62b(c)(1)(i)) and §§ 10.62 and 19.6(d) and each of the statements in the certification.

(d) *Time for establishment of use of fuel by qualifying aircraft.* The person withdrawing aircraft turbine fuel under paragraph (b) of this section shall submit the records or certification provided for in paragraph (c) of this section by the 40th day after the date of withdrawal of the fuel unless the fuel

was withdrawn under a blanket withdrawal under paragraph (g) of this section. If the fuel was withdrawn under a blanket withdrawal, the person withdrawing aircraft turbine fuel under this section shall submit the records or certification provided for in paragraph (c) of this section by the 40th day after all of the fuel covered by the blanket permit to withdraw has been withdrawn.

(e) *Treatment of turbine fuel withdrawn but not used on qualifying aircraft within 30 days.* If turbine fuel is withdrawn from a Customs bonded warehouse under paragraph (b) of this section but fuel in an amount less than the quantity withdrawn is established to have been used within 30 days of the date of withdrawal from warehouse on aircraft qualifying for the privileges provided for in section 309, Tariff Act of 1930, as amended, a withdrawal for consumption shall be filed and duties shall be deposited for the excess of fuel so withdrawn over that used on aircraft so qualifying. Such withdrawal shall be filed and such duties shall be deposited by the 40th day after the date of withdrawal of the fuel in accordance with the procedures in §144.38 of this chapter. Interest shall be payable and deposited with such duties, calculated from the date of withdrawal at the rate of interest established under 26 U.S.C. 6621.

(f) *Liquidated damages.* Failure to account for turbine fuel withdrawn under paragraphs (b) through (h) of this section shall result in liquidated damages against the person withdrawing the turbine fuel, as provided for under §113.62 of this chapter. Such failure to account for turbine fuel includes:

(1) The failure to timely file the withdrawal for consumption and payment of duty, with interest, on the quantity of fuel so withdrawn in excess of the quantity of fuel established to have been used on qualifying aircraft within 30 days of withdrawal, as provided for in paragraph (e) of this section;

(2) The failure to timely file the evidence or certification establishing such use of the fuel which is not entered and on which duties are not paid, as provided for in paragraph (c) of this section; or

(3) The failure to promptly provide the evidence required to support the claim for treatment under paragraph (b) of this section, upon request by Customs, as provided for in paragraph (c)(2) of this section.

(g) *Blanket withdrawals.* Blanket withdrawals, as provided for in §§10.62 and 19.6(d), may be used for withdrawals from warehouse under section 557(a), Tariff Act of 1930, as amended, and paragraphs (b) through (h) of this section, under the procedures provided in §§10.62 and 19.6(d) except that—

(1) Application by the withdrawer for a blanket permit to withdraw shall be on the warehouse entry, or on the warehouse entry/entry summary when used as an entry, annotated with the words “Some or all of the merchandise will be withdrawn under blanket permit per §§10.62, 10.62b, and 19.6(d).”;

(2) Turbine fuel withdrawn under a blanket permit as authorized in this paragraph may be delivered at a port other than the port of withdrawal;

(3) Customs acceptance of a properly completed application for a blanket permit to withdraw, on the warehouse entry or warehouse entry/entry summary, will constitute approval of the blanket permit to withdraw;

(4) A copy of the approved blanket permit to withdraw will be delivered to the warehouse proprietor, whereupon fuel may be withdrawn under the terms of the blanket permit;

(5) The withdrawal document to be placed in the proprietor’s permit file folder (see §19.6(d)(2)) will be a commercially acceptable document of receipt (such as a “withdrawal ticket”) issued by the warehouse proprietor, identified with a unique alpha-numeric code and containing the following information:

- (i) Identity of withdrawer;
- (ii) Identity of warehouse and tank from which fuel is withdrawn;
- (iii) Date of withdrawal;
- (iv) Type of merchandise withdrawn; and
- (v) Quantity of merchandise withdrawn.

(6) The date of withdrawal, for purposes of calculating the 30-day period in which fuel must be used on qualifying aircraft under this section, shall be the date on which physical removal

of the fuel from the warehouse commences;

(7) The blanket permit summary prepared by the proprietor as provided for in § 19.6(d)(4) shall be prepared when all of the fuel covered by the blanket permit has been withdrawn and shall account for all merchandise withdrawn under the blanket permit, as required by § 19.6(d)(4), by stating, in summary form, the unique alpha-numeric codes and information required in paragraph (g)(5) of this section, as well as the identity of the warehouse entry to which the withdrawal is attributed;

(8) The certification on the blanket permit summary (see § 19.6(d)(4)) shall be that the merchandise listed thereunder was withdrawn in compliance with §§ 10.62, 10.62b, and 19.6(d); and

(9) The person withdrawing aircraft turbine fuel under these blanket procedures shall submit the records or certification provided for in § 10.62b(c) by the 40th day after all of the fuel covered by the blanket permit has been withdrawn (see § 10.62b(d)). At the discretion of the port director for the port where blanket withdrawal was approved, submission of the records and evidence required to establish use of the fuel on qualifying aircraft may be required to be submitted electronically, in a format compatible with Customs electronic record-keeping systems.

(h) *Recordkeeping.* The person withdrawing aircraft turbine fuel from warehouse under this section is subject to the recordkeeping requirements in 19 U.S.C. 1508 and 1509, as provided for in part 162 of this chapter.

#### **§ 10.63 Landing of supplies and stores from receiving vessel in the United States.**

Supplies or stores laden on a vessel duty and tax free under section 309, Tariff Act of 1930, as amended, may be landed under Customs supervision under proper permit, the same as if they had been laden in a foreign country. See § 4.39 of this chapter. Except when transfer to another vessel entitled to the free withdrawal privilege is permitted under the original withdrawal under section 309, Tariff Act of 1930, as amended, the landed articles

shall be treated as an importation from a foreign country.

(a) Except as stated below, a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter may be credited or canceled in respect of such articles upon the vessel's departure from the port of lading in a class of trade or business entitling the articles to exemption from duty and tax under the statute. The withdrawer shall cause the merchandise to be delivered to the lading vessel, and shall provide such evidence of lading as required by the port director within 30 days after lading, except as provided in this section. If the vessel is not operated by the United States and proceeds in ballast from the port where the articles are laden to another port to lade passengers or cargo for carriage in a class of trade specified in section 309, Tariff Act of 1930, as amended, the bond may be credited or canceled upon the filing with the director of the port of withdrawal within 3 months after the date of withdrawal of a proper declaration as prescribed below. The declaration shall be executed by one of the following who has knowledge of the facts:

(1) The operations manager or port captain for the vessel on which the articles are laden but not a representative of the supplier.

(2) The master or other officer of the vessel on which the articles are laden. The declaration shall be in substantially the following form:

(Operations manager, port captain, master, or other officer) of the vessel \_\_\_\_\_ declare that I have knowledge of the facts set forth herein, and that upon the lading of the articles described below covered by withdrawal No. \_\_\_\_\_, filed at \_\_\_\_\_ (Name of port), the vessel then proceeded in ballast to \_\_\_\_\_ (Name of port) to lade cargo or passengers; that the vessel was suitable for service in the class of trade checked below with fittings, outfit, and equipment for such trade already installed when it so departed in ballast; and that upon arrival it proceeded to engage in the carriage of cargo

(b) A declaration as to the intended business or trade of a vessel may, in the discretion of the port director, be accepted in lieu of a declaration prescribed in paragraph (a) of this section when the amount of duty or tax, or both, involved in a single lading is less than \$100.

**§ 10.64a [Reserved]**

**§ 10.65 Cigars and cigarettes.**

(a) Imported cigars and cigarettes in bonded warehouse or otherwise in Customs custody, and such articles manufactured with the use of imported materials in a bonded manufacturing warehouse of class 6, may be withdrawn under section 317, Tariff Act of 1930, as amended, for consumption beginning beyond the 3-mile limit or international boundary, as the case may be, (1) on vessels actually engaged in the foreign, intercoastal, or non-contiguous territory trade within the purview of § 10.59(a); (2) on vessels departing from the port where the withdrawal is made directly for a foreign port, a port on the opposite coast, or a port in one of the possessions of the United States; or (3) on vessels of war or other governmental activity.

(b) The privilege shall not be granted to vessels stationed in American waters for an indefinite period without sailing schedules, nor shall it be grant-

ed to aircraft of foreign registry of a country for which there is not in effect a finding and advice by the Department of Commerce under section 309(d), Tariff Act of 1930, as amended, that such country allows privileges to aircraft registered in the United States substantially reciprocal to those described in section 317, Tariff Act of 1930, as amended. See section 10.59(f).

(c) With the following additions and exceptions, the same procedure shall be followed as in the case of withdrawals under section 309(a), Tariff Act of 1930, as amended.

(1) No bond shall be required in the case of vessels operated by the United States Government.

(2) When a shipping case containing cigars and cigarettes is made up of a number of units, each in a separate package, such units may be withdrawn separately, provided each unit is marked and numbered for identification and contains not less than 250 cigars or 1,000 cigarettes. In the case of imported cigars and cigarettes so packed, only one unit from each shipping case shall be opened for examination, unless the port director shall deem it necessary for the protection of the revenue to examine a greater quantity. Imported tobacco products on which the duty or internal-revenue tax has been paid may not be withdrawn under section 317, Tariff Act of 1930, as amended, with a drawback of such duty or internal-revenue tax.

(3) When all the units in such shipping case are not to be withdrawn at the same time or for use on the same vessel, a blanket withdrawal may be filed for the entire case in lieu of a separate withdrawal for each unit. In such event, the withdrawal shall be retained by the warehouse proprietor until delivery receipts are obtained for the entire quantity covered by the withdrawal, provided the total period of time prior to delivery to the using vessel or aircraft does not exceed 5 years. A bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter, when required, shall be filed at the time of or prior to the removal of any of the merchandise from the warehouse for delivery to the vessel on which it is to be used.

(4) Merchandise for which blanket withdrawals are filed shall be stored in a separate room or enclosure in a bonded warehouse under separate locks, and the merchandise clearly marked to show that it has been withdrawn. If, at the time of any such inventory, any merchandise is missing and not properly accounted for, duties shall be paid thereon before any further withdrawals are permitted.

(5) The declaration of use, when required, shall include a statement that consumption of the articles covered by the withdrawal did not begin until the withdrawing vessel or aircraft had proceeded beyond the 3 mile limit or the international boundary.

THEATRICAL EFFECTS, MOTION-PICTURE FILMS, COMMERCIAL TRAVELERS' SAMPLES, AND TOOLS OF TRADE

**§ 10.68 Procedure.**

(a) Theatrical scenery, properties, and effects, motion-picture films (including motion-picture films taken aboard a vessel for exhibition only during an outward voyage and returned for the same purpose during an inward voyage on the same or another vessel), commercial travelers' samples, and professional books, implements, instruments, and tools of trade, occupation, or employment (see §148.53 of this chapter), of domestic or foreign origin, taken abroad may be returned without formal entry and without payment of duty if an exportation voucher from a carnet, when applicable, or an application on Customs Form 4455 was filed, and the merchandise was identified as set forth in §10.8, before exportation of the articles. Articles exported under cover of an A.T.A. carnet (where the carnet serves as the control document) may, in accordance with this paragraph, be returned without entry or the payment of duty. If Customs Form 4455 is utilized, commercial travelers' samples, professional books, implements, instruments, and tools of trade, occupation, or employment may be returned with either an informal entry or a declaration on Customs Form 3299; theatrical scenery, properties, and effects and motion-picture films may be returned only with an informal entry. When articles other than those exported by mail or parcel post are examined and registered at one port and exported through another port, the port director may require proof of exportation in those cases where the carnet or Customs Form 4455 does not reflect that these articles were exported under Customs supervision. In the case of commercial travelers' samples taken

abroad for temporary use, except where exportation involves certification of a carnet, port directors may waive examination of the samples at the time of exportation. When motion-picture films are to be taken aboard a vessel for exhibition only during an outward voyage and are to be returned for the same purpose during an inward voyage on the same or another vessel, port directors may waive examination and supervision at the time of exportation. When theatrical scenery, properties, and effects are taken abroad in sealed carload lots by rail for temporary use, the cars must be sealed by U.S. Customs officers for entry at any Canadian or Mexican port where U.S. Customs officers are stationed. Application and examination before the time of exportation is waived if a Customs Form 4455 is filed with the U.S. Customs officer in the appropriate Canadian or Mexican port, and that officer examines the articles before they are released from foreign customs custody by the foreign customs officer.

(b) When any such articles are to be returned to the United States from a contiguous foreign country in which a United States Customs officer is stationed, the articles may be presented to such officer with the duplicate copy of the application for examination and comparison with the descriptive list. Upon completion of such examination, the packages containing the articles shall be corded and sealed or forwarded in cars sealed by Customs officers and shall be manifested in the same manner as personal baggage. Articles so treated shall be released upon arrival in the United States and removal of the seals by Customs officers.

(c) When commercial travelers' samples consisting of raw cotton are taken to and returned from Canada, the application on Customs Form 4455 shall be executed in triplicate, two copies thereof to be returned to the traveler for surrender to the Customs officer on the return of the samples from Canada.

Descriptive lists of samples taken to Great Britain and Ireland by commercial travelers of the United States under the joint declarations of December 3 and 8, 1910 (State Department treaty series 552), shall be required in triplicate, verified by the affidavit of the commercial traveler before a Customs officer, and shall show that the samples are for use as models or patterns for the purpose of obtaining orders and not for sale and that the lists contain a full description of the articles. One copy shall be retained and the others shall be delivered to the commercial traveler—one for the identification of the samples on their return to the United States and one for the use of the foreign customs authorities. The latter copy must have been attested by a consular officer of the country concerned in the United States.

### **ANIMALS AND BIRDS**

CROSS REFERENCE: For regulations with respect to recognition of breeds and purebred animals, see 9 CFR part 151.

### **§ 10.70 Purebred animals for breeding purposes; certificate.**

(a) In connection with the entry of purebred animals for breeding purposes under subheading 0101.11.00, Harmonized Tariff Schedule of the United States (HTSUS), no claim for free entry shall be allowed in liquidation of the entry until the port director has received from the Department of Agriculture a certificate that the animal is purebred of a recognized breed and duly registered in a book of record recognized by the Secretary of Agriculture for that breed. Importers are required by regulation of the Department of Agriculture to make application for a certificate of pure breeding to the U.S. Department of Agriculture, Animal and Plant Health Inspection Service, Veterinary Services, on ANH Form 17-338 before the animal will be examined as required by 9 CFR 151.7. Application for the certificate must be executed by the owner agent, or importer and filed at a

port of entry designated in the regulations of the Department of Agriculture for the importation of animals (9 CFR 92.3). However, applications for certificates for dogs (other than dogs for handling livestock regulated under 9 CFR 92.18) and cats may be filed either at a designated port of entry or at any other port where Customs entry is made. The regulations of the Department of Agriculture prescribing the requirements for the issuance of certificates of pure breeding provide that all animals imported under such regulations must be accompanied to the port at which examination is to be made by certificates of pedigree and transfer of ownership in order that identification may be accomplished, and that, if such animals are moved from such port prior to the presentation of such certificates and transfers, such action shall constitute a waiver of any further claim to certification under such regulations.

(b) In the cases of cats and dogs arriving at Canadian border ports, Customs officers and employees are hereby authorized and directed to make the examination required by such regulations of the Department of Agriculture. Customs officers and employees are also authorized and directed to make such examinations at the ports of New York and Boston, provided the dog or cat is brought into the United States by a passenger. At all airports, Customs officers shall make the examination of dogs and cats, whether or not accompanied by the owners, if there is no inspector of the Department of Agriculture stationed there or on duty at the time of arrival.

### **§ 10.71 Purebred animals; bond for production of evidence; deposit of estimated duties; stipulation.**

(a) The animal may be released from Customs custody upon the furnishing by the importer of a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter for the production within 6 months of (1) a certificate of pure breeding issued

by the Department of Agriculture, and (2) the declaration required by § 10.70(a) submitted in letter form if such declaration was not filed at the time of entry. The release of the animal from customs custody requires the presentation of the pedigree certificate and evidence of transfer of ownership in accordance with the regulations of the Department of Agriculture mentioned in § 10.70(b).

(b) Charges against the bond shall be canceled only upon the production of the required evidence or on payment of duties.

(c) In cases where the pedigree certificate and evidence of transfer of ownership have been presented in accordance with the regulations of the Department of Agriculture, the importer, if he so elects, may, in lieu of giving a bond, deposit estimated duties and file a stipulation with the port director within 10 days after the date of entry to produce the declaration and certificate of pure breeding within 6 months from the date of entry, whereupon the liquidation of the entry shall be suspended. (See § 113.42 of this chapter.)

(d) If the pedigree certificate and evidence of transfer of ownership were not presented in accordance with such regulations of the Department of Agriculture, a deposit of estimated duties, in addition to the regular entry bond, shall be required.

(e) When a passenger arriving in the United States with one or more dogs or cats and with the required certificates of pedigree and transfers of ownership in his possession furnishes a properly executed declaration as required by § 10.70(a) along with an application to the Department of Agriculture on ANH Form 17–338 for a certificate of pure breeding, the entry of the animal(s) as duty-free under subheading 0106.00.50, Harmonized Tariff Schedule of the United States (HTSUS), may be made on the passenger's baggage declaration if the value of the animals does not exceed \$500. In such case the entry shall be supported by a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter for the production within 6 months of a certificate of pure breeding. ### **SALT FOR CURING FISH**

## **§ 10.80 Remission of duty; withdrawal; bond.**

Imported salt in bond may be used in curing fish taken by vessels licensed to engage in the fisheries, and in curing fish in the shores of the navigable waters of the U.S., whether such fish are taken by licensed or unlicensed vessels, and upon proof that the salt has been used for either of such purposes, the duties on the same shall be remitted. (Section 313(e), Tariff Act of 1930, 19 U.S.C. 1313(e)). Imported salt entered for warehouse may be withdrawn under bond for use in curing fish. Upon proof that the salt has been so used, the duties thereon shall be remitted. In no case shall the quantity of salt withdrawn exceed the reasonable requirements of the case. Withdrawal shall be made on Customs Form 7501. Each withdrawal shall contain the statement prescribed for withdrawals in §144.32 of this chapter. When the withdrawal is made by a person other than the importer of record, a bond on Customs Form 301, containing the bond conditions set forth in §113.62 of this chapter for the production of proof of proper use shall be filed. (b) If desired, salt to be used in curing fish on shore at another port than that in which it is warehoused in bond may be withdrawn under a transportation entry and shipped in bond to the other port at which it is to be used, where it may be entered on Customs Form 7501 which shall show withdrawal of the salt for use in curing fish. Thereupon, and upon the filing of a bond on Customs Form 301, containing the bond conditions set forth in §113.62 of this chapter, such salt may be used without being sent to a bonded warehouse or public store. In such a case the proof of use shall be filed at the latter port.

The port director may require additional evidence in corroboration of the proof of use produced.

## AUTOMOTIVE PRODUCTS

**§ 10.84 Automotive vehicles and articles for use as original equipment in the manufacture of automotive vehicles.**

(a)(1) Certain motor vehicles and motor vehicle equipment are eligible for duty-free entry as proclaimed by the President under the Automotive Products Trade Act of 1965. The articles designated for such duty-free treatment are defined in General Note 3(c)(iii), HTSUS (19 U.S.C. 1202). Specifically, such articles are those designated [as “Free (B)”] in the “Special” subcolumn in Chapter 87, HTSUS, and must qualify as “Canadian articles” as defined in General Note 3(c)(iii)(A)(1), HTSUS. To claim exemption from duty under the Automotive Products Trade Act of 1965, an importer must establish, to the satisfaction of the appropriate Customs officer, that the article in question qualifies as a “Canadian article” for purposes of General Note 3(c)(iii)(A)(1), HTSUS. The Customs officer may accept as satisfactory evidence a certificate executed by the exporter as set forth in paragraph (b) of this section, subject to any verification he may deem necessary. Alternatively, the Customs officer may determine that under the circumstances of the importation a certificate is unnecessary.

(2) Under the United States-Canada Free-Trade Agreement and implementing legislation (Pub. L. 100-449, 102 Stat. 1851) a manufacturer of motor vehicles may elect to average, over its 12-month financial year, its calculation of the value-content requirement for vehicles in establishing its eligibility for tariff preference. Requirements for averaging are set forth in §10.310 and 10.311.

(b)(1) When all materials used at any stage in the production of the imported article are wholly obtained or produced in Canada or the United States, or both, a certificate in the following form may be accepted as evidence that the commodity is a “Canadian article”:

## § 10.84

## 19 CFR Ch. I (4–1–99 Edition)

All materials contained in the product covered by the \_\_\_\_\_ (Describe the invoice, bill of lading, or other document or statement identifying the shipment) annexed or appended to this certificate of Canadian origin at the time it was subscribed were wholly obtained or produced in Canada or the United States, or both. No materials other than those which were wholly obtained or produced in Canada or the United States, or both, were incorporated into this product or any of its components at any stage of production or in the production of any intermediate product used at any stage in the chain of production in Canada or the United States, or both.

(2) When any material used at any stage in the production of an imported article or any of its components is not wholly obtained or produced in Canada or the United States, or both, a certificate in the following form may be accepted as evidence that the commodity is nevertheless a “Canadian article”:

The product covered by the \_\_\_\_\_ (Describe the invoice, bill of lading, or other document or statement identifying the shipment) annexed or appended to this certificate of Canadian origin at the time it was subscribed is an originating good so as to be a Canadian article. There were used in its production in Canada \_\_\_\_\_ (Description sufficient for tariff classification of the materials, and number of units) of third country materials of which the price paid was \_\_\_\_\_ per unit of quantity, plus \_\_\_\_\_ which represents all costs incurred in transporting the materials to the location of the producer and the duties, taxes, and brokerage fees on the materials, if such costs were not included in the price paid.

(3) If such Customs officer is satisfied that the revenue will be protected adequately thereby, he may accept in lieu of the certificate specified in paragraph (b)(2) of this section a certificate in the following form when the merchandise covered thereby has been produced with third country material but is an originating good under a specific rule of origin for the merchandise:

The product covered by the \_\_\_\_\_ (Describe the invoice, bill of lading, or other document or statement identifying the shipment) annexed or appended to this certificate of Canadian origin at the time it was subscribed is an originating good so as to be a Canadian article. There were or may have been used in its production in Canada or the United States, or both, materials of a third country.

It is impractical to ascertain the exact number of units of third country material, if any, used in its production or the price paid (and other costs required to be included in the price paid) of such materials but to the best of (my) (our) (its) knowledge the materials are described (sufficient for tariff classification purposes) as follows: \_\_\_\_\_.

(4) The certificates described in paragraphs (b)(2) and (b)(3) of this section shall not be accepted if the statements therein make it evident that the importation is not a “Canadian article” within the meaning of General Note 3(c), HTSUS.

(5) If more than one kind of article is covered by a certificate provided for in paragraph (b) (1), (2), or (3) of this section, the information required by the certificate shall be shown with respect to each kind. When more than one kind of material, other than originating material, is used in the production of an article covered by such a certificate, the certificate shall state the number of units, a description sufficient for tariff classification purposes, the price paid, and, if not included in the price paid, the costs incurred in transporting the materials to the location of the producer and duties, taxes and brokerage fees paid in Canada and/or the United States on the material, per unit of each kind of materials.

(6) A certificate conforming to paragraph (b) (1), (2), or (3) of this section shall be accepted as evidence of the facts alleged therein only if:

(i) There is annexed thereto a copy of the commercial invoice or bill of lading covering the articles or other documentary evidence which identifies the article to which the certificate pertains,

(ii) The certificate is signed by the manufacturer or producer of the article to which it pertains, or by the person who exported the articles from Canada, and

(iii) It clearly appears that such copy or other documentary evidence was annexed to the certificate when it was signed.

(c) In lieu of the certification in paragraph (b) (1), (2), or (3) of this section, a manufacturer of motor vehicles who claims a preference under the United States-Canada Free-Trade Agreement and elects to average pursuant to § 10.310(a), shall be subject to the

**United States Customs Service, Treasury**

**§ 10.90**

requirements of §§ 10.301 to 10.311 of this part.

(d) When an importer makes an entry, or withdrawal from warehouse, for consumption of articles for use as “original motor-vehicle equipment” as that term is defined in General Note 3(c)(iii), HTSUS, he shall file in connection therewith his declaration that the articles are being imported for use as original equipment in the manufacture in the United States of the kinds of motor vehicles specified in the General Note and furnish the name and address of the motor vehicle manufacturer. A copy of the written order, contract, or letter of intent shall be attached to the importer’s declaration except that if the port director is satisfied that a copy of the written order, contract, or letter of intent will be made available by the importer or ultimate consignee for inspection by customs officials upon request during a period of 3 years from the date of such entry or withdrawal from warehouse, the production of such documents will not be required. Proof of use need not be furnished.

(e) If, after a Canadian article has been accorded the status of original motor-vehicle equipment, it is decided to divert the article from its intended use in the manufacture in the United States of motor vehicles, the importer or other person deciding to divert the article from such intended use shall give notice in writing of the decision to the director of the port where entry was made or where the offices of the importer are located and either make arrangements for its destruction or exportation under Customs supervision or pay duties in accordance with General Note 3(c)(iii)(B)(2), HTSUS. If such article is not destroyed or exported under Customs supervision or the duties paid, the article, or its value, shall be subject to forfeiture.

**MASTER RECORDS, AND METAL  
MATRICES**

**§ 10.90 Master records and metal matrices.**

(a) Consumption entries covering importations under subheading 8524.99.20, HTSUS, shall be filed at a port in the Customs district in which the factory where the articles will be used is located.

(b) The invoice filed with the entry shall contain or be supported by a detailed statement of the cost of production, in the country where made, of each master record or metal matrix covered thereby.

(c) A bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter shall be filed for importations under this section.

(d) Entries already filed and future entries shall be liquidated in due course without the assessment of duty, but liability on bonds given with the entries shall be discontinued with respect to any article covered thereby only upon payment of liquidated damages in an amount equal to the duties which would have accrued had the master records or metal matrices been imported for use otherwise than in the manufacture of sound records for export purposes, or upon satisfactory proof that the master records or metal matrices obtained therefrom have been exported or destroyed under Customs supervision, and that all sound records made with the use of such articles have been exported.

RATE OF DUTY DEPENDENT UPON  
ACTUAL USE**§ 10.131 Circumstances in which applicable.**

The provisions of §§ 10.131 through 10.139 are applicable in those circumstances in which the rate of duty

applicable to merchandise is dependent upon actual use, unless there is a specific provision in this part which governs the treatment of the merchandise. However, specific marking or certification requirements, such as those for bolting cloths in section 10.58, may be applicable to merchandise subject to the provisions of sections 10.131-10.139.

**§ 10.132 [Reserved]****§ 10.133 Conditions required to be met.**

When the tariff classification of any article is controlled by its actual use in the United States, three conditions must be met in order to qualify for free entry or a lower rate of duty unless the language of the particular subheading of the Harmonized Tariff Schedule of the United States applicable to the merchandise specifies other conditions. The conditions are that:

(a) Such use is intended at the time of importation.

(b) The article is so used.

(c) Proof of use is furnished within 3 years after the date the article is entered or withdrawn from warehouse for consumption.

[T.D. 71-139, 36 FR 10726, June 2, 1971, as amended by T.D. 89-1, 53 FR 51252, Dec. 21, 1988]

**§ 10.134 Declaration of intent.**

A showing of intent by the importer as to the actual use of imported merchandise shall be made by filing with the entry for consumption or for warehouse a declaration as to the intended use of the merchandise, or by entering the proper subheading of an actual use provision of the Harmonized Tariff Schedule of the United States (HTSUS) and the reduced or free rate of duty on the entry form. Entry made under an actual use provision of the HTSUS may be construed as a declaration that the merchandise is entered to be used for the purpose stated in the HTSUS, provided the port director is satisfied the merchandise will be so used. However, the port director shall require a written declaration to be filed if he is not satisfied that merchandise entered under an actual use provision will be

### § 10.135 Deposit of duties.

When the requirement of § 10.134 has been met the merchandise may be entered or withdrawn from warehouse for consumption without deposit of duty when proof of use will result in free entry, or with deposit of duty at the lower rate when proof of use will result in a lower rate of duty.

### § 10.136 Suspension of liquidation.

### § 10.137 Records of use.

(b) *Retention of records.* The importer shall retain records of use or disposition for a period of 3 years from the date of liquidation of the entry.

(c) *Examination of records.* The records required to be kept by paragraph (a) of this section shall be available at all times for examination and inspection by an authorized Customs officer.

[T.D. 71-139, 36 FR 10726, June 2, 1971]

a certificate executed by (1) the superintendent or manager of the manufacturing plant, or (2) the individual end-user or other person having knowledge of the actual use of the imported article. The certificate shall include a description of the processing in sufficient detail to show that the use contemplated by the law has actually taken place. A blanket certificate covering all purchases of a given type of merchandise from a particular importer during a given period, or all such purchases with specified exceptions, may be accepted for this purpose, provided the importer shall furnish a statement showing in detail, in such manner as to be readily identified with each entry, the merchandise which he sold to such manufacturer or end-user during such period.

### § 10.139 Liquidation.

(a) *In general.* Upon satisfactory proof of timely use of the merchandise for the purpose specified by law, the entry shall be liquidated free of duty or at the lower rate of duty specified by law. When such proof is not filed within 3 years from the date of entry or withdrawal from warehouse for consumption, the entry shall be liquidated dutiable under the appropriate subheading of the Harmonized Tariff Schedule of the United States.

(b) *Exception for blackstrap molasses.* An entry covering blackstrap molasses, as hereinafter defined, may be accepted and liquidated with duty at the lower rate after the filing of the declaration of intent required by § 10.134 and the deposit of estimated duties required by § 10.135 without compliance with §§ 10.136, 10.137, and 10.138. ### IMPORTATIONS NOT OVER \$200 AND BONA FIDE GIFTS

#### § 10.151 Importations not over \$200.

Subject to the conditions in § 10.153 of this part, the port director shall pass free of duty and tax any shipment of merchandise, as defined in § 101.1 of this chapter, imported by one person on one day having a fair retail value, as evidenced by an oral declaration or the bill of lading (or other document filed as the entry) or manifest listing each bill of lading, in the country of shipment not exceeding \$200, unless he has reason to believe that the shipment is one of several lots covered by a single order or contract and that it was sent separately for the express purpose of securing free entry therefor or of avoiding compliance with any pertinent law or regulation. Merchandise subject to this exemption shall be entered under the informal entry procedures (see subpart C, part 143, and §§ 128.24, 145.31, 148.12, and 148.62, of this chapter).

#### § 10.152 Bona-fide gifts.

Subject to the conditions in § 10.153 of this part, the port director shall pass free of duty and tax any article sent as a bona-fide gift from a person in a foreign country to a person in the United States, provided that the aggregate fair retail value in the country of shipment of such articles received by one person on one day does not exceed \$100 or, in the case of articles sent from a person in the Virgin Islands, Guam, and American Samoa, \$200. Articles subject to this exemption shall be entered under the informal entry procedures (see subpart C, part 143, and §§ 145.32, 148.12, 148.51, and 148.64, of this chapter). An article is "sent" for purposes of this section if it is conveyed in any manner other than on the person

or in the accompanied or unaccompanied baggage of the donor or donee.

[T.D. 94-51, 59 FR 30293, June 13, 1994]

#### § 10.153 Conditions for exemption.

Customs officers shall be further guided as follows in determining whether an article or parcel shall be exempted from duty and tax under § 10.151 or § 10.152:

(a) A "bona fide gift" for purposes of § 10.152 is an article formerly owned by a donor (may be a commercial firm) who gave it outright in its entirety to a donee without compensation or promise of compensation. It does not include articles acquired by purchase, barter, promissory exchange, or similar transaction, nor does it include articles said to be "given" in conjunction with a purchase, barter, promissory exchange, or similar transaction, such as a so-called bonus article.

(b) A parcel addressed to a person in the United States from an individual in a foreign country which contains a gift should be clearly marked on the outside to indicate that it contains a gift. Such marking is not conclusive evidence of a gift nor is the absence of such marking conclusive evidence that an article is not a gift. Ordinarily an article not exceeding \$100 in fair retail value in the country of shipment sent from a person in a foreign country to a person in the United States (\$200, in the case of an article sent from a person in the Virgin Islands, Guam, and American Samoa) will be recognizable as a gift from the nature of the article and obvious facts surrounding the shipment.

(c) A parcel addressed to a person in the United States from a business firm in a foreign country would ordinarily not contain a gift from a donor in the foreign country. When such a parcel in fact contains an article entitled to free entry under § 10.152, the parcel should be clearly marked to indicate that it contains such a gift and a statement to this effect should be enclosed in the parcel.

(d) Consolidated shipments addressed to one consignee shall be treated for purposes of §§ 10.151 and 10.152 as one importation. The foregoing shall not apply to shipments of bona fide gifts

## § 10.171

## 19 CFR Ch. I (4–1–99 Edition)

consolidated abroad for shipment to the United States when:

(1) The consolidation for shipment to the United States is in a cargo van or similar containerization which is consigned to a common carrier, freight forwarder, freight handler, or other public service agency for distribution of the gift packages;

(2) The separate gifts not exceeding \$100 in fair retail value in the country of shipment (\$200, in the case of articles sent from persons in the Virgin Islands, Guam, and American Samoa) included in the consolidated shipment are before shipment individually wrapped and addressed to the donee in the United States;

(3) Each gift package is marked on the outside to indicate that it contains a gift not exceeding \$100 in fair retail value in the country of shipment (\$200, in the case of packages sent from persons in the Virgin Islands, Guam, and American Samoa); and

(4) Each gift package is separately listed in the name of the addressee-donee on a packing list, manifest, bill of lading, or other shipping document.

(e) No alcoholic beverage, perfume containing alcohol (except where the aggregate fair retail value in the country of shipment of all merchandise contained in the shipment does not exceed \$5), cigars, or cigarettes shall be exempted from the payment of duty and tax under § 10.151 or § 10.152.

(f) The exemptions provided for in § 10.151 or § 10.152 are not to be allowed in respect of any shipment containing one or more gifts having an aggregate fair retail value in the country of shipment in excess of \$100 (\$200, in the case of articles sent from persons in the Virgin Islands, Guam, and American Samoa), except as indicated in paragraph (d) of this section. For example, an article ordinarily subject to an ad valorem rate of duty but sent as a gift, if the fair retail value exceeds the \$100 (or \$200) exemption, would be subject to a duty based upon its value under the provisions of section 402 or 402(a), Tariff Act of 1930, as amended (19 U.S.C. 1401a or 1402), even though the dutiable value is less than the \$100 (or \$200) exemption.

(g) The exemption referred to in § 10.151 is not to be allowed in the case

of any merchandise of a class or kind provided for in any absolute or tariff-rate quota, whether the quota is open or closed. In the case of merchandise of a class or kind provided for in a tariff-rate quota, the merchandise is subject to the rate of duty in effect on the date of entry.

#### § 10.171 General.

(a) *Statutory authority.* Title V of the Trade Act of 1974 as amended (19 U.S.C. 2461–2465) authorizes the President to establish a Generalized System of Preferences (GSP) to provide duty-free treatment for eligible articles imported directly from designated beneficiary developing countries. Beneficiary developing countries and articles eligible for duty-free treatment are designated by the President by Executive order in accordance with sections 502(a)(1) and 503(a) of the Trade Act of 1974 as amended (19 U.S.C. 2462(a)(1), 2463(a)).

(b) *Country defined.* For purposes of §§ 10.171 through 10.178, except as otherwise provided in § 10.176(a), the term “country” means any foreign country, any overseas dependent territory or possession of a foreign country, or the Trust Territory of the Pacific Islands. (ii) *Retention of records and submission of declaration.* The information necessary for preparation of the declaration shall be retained in the files of the party responsible for its preparation and submission for a period of 5 years. In the event that the port director requests submission of the declaration during the 5-year period, it shall be submitted by the appropriate party di-

rectly to the port director within 60 days of the date of the request or such additional period as the port director may allow for good cause shown. Failure to submit the declaration in a timely fashion will result in a denial of duty-free treatment.

effect shall be included on the commercial invoice provided to Customs.

(b) *Shipments covered by an informal entry.* Although the filing of the declaration provided for in paragraph (a)(1)(i) of this section will not be required for a shipment covered by an informal entry, the port director may require such other evidence of country of origin as deemed necessary.

(c) *Verification of documentation.* Any evidence of country of origin submitted under this section shall be subject to such verification as the port director deems necessary. In the event that the port director is prevented from obtaining the necessary verification, the port director may treat the entry as dutiable.

### § 10.174 Evidence of direct shipment.

(a) *Documents constituting evidence of direct shipment.* The port director may require that appropriate shipping papers, invoices, or other documents be submitted within 60 days of the date of entry as evidence that the articles were “imported directly”, as that term is defined in § 10.175. Any evidence of direct shipment required by the port director shall be subject to such verification as he deems necessary.

(b) *Waiver of evidence of direct shipment.* The port director may waive the submission of evidence of direct shipment when he is otherwise satisfied, taking into consideration the kind and value of the merchandise, that the merchandise clearly qualifies for treatment under the Generalized System of Preferences.

### § 10.175 Imported directly defined.

Eligible articles shall be imported directly from a beneficiary developing country to qualify for treatment under the Generalized System of Preferences. For purposes of §§ 10.171 through 10.178 the words “imported directly” mean:

(a) Direct shipment from the beneficiary country to the United States without passing through the territory of any other country; or

(b) If the shipment is from a beneficiary developing country to the U.S. through the territory of any other country, the merchandise in the shipment does not enter into the commerce of any other country while en route to the U.S., and the invoice, bills of lading, and other shipping documents show the U.S. as the final destination; or

(c) If shipped from the beneficiary developing country to the United States through a free trade zone in a beneficiary developing country, the merchandise shall not enter into the commerce of the country maintaining the free trade zone, and

(1) The eligible articles must not undergo any operation other than:

(i) Sorting, grading, or testing,

(ii) Packing, unpacking, changes of packing, decanting or repacking into other containers,

(iii) Affixing marks, labels, or other like distinguishing signs on articles or their packing, if incidental to operations allowed under this section, or

(iv) Operations necessary to ensure the preservation of merchandise in its condition as introduced into the free trade zone.

(2) Merchandise may be purchased and resold, other than at retail, for export within the free trade zone.

(3) For the purposes of this section, a free trade zone is a predetermined area or region declared and secured by or under governmental authority, where certain operations may be performed with respect to articles, without such articles having entered into the commerce of the country maintaining the free trade zone; or

(d) If the shipment is from any beneficiary developing country to the U.S. through the territory of any other country and the invoices and other documents do not show the U.S. as the final destination, the articles in the shipment upon arrival in the U.S. are imported directly only if they:

(1) Remained under the control of the customs authority of the intermediate country;

(2) Did not enter into the commerce of the intermediate country except for the purpose of sale other than at retail, and the port director is satisfied that

the importation results from the original commercial transaction between the importer and the producer or the latter's sales agent; and

(3) Were not subjected to operations other than loading and unloading, and other activities necessary to preserve the articles in good condition; or

(e)(1) Shipment to the U.S. from a beneficiary developing country which is a member of an association of countries treated as one country under section 502(a)(3), Trade Act of 1974, as amended (19 U.S.C. 2462(a)(3)), through the territory of a former beneficiary developing country whose designation as a member of the same association for GSP purposes was terminated by the President pursuant to section 504, Trade Act of 1974, as amended (19 U.S.C. 2464), provided the articles in the shipment did not enter into the commerce of the former beneficiary developing country except for purposes of performing one or more of the operations specified in paragraph (c)(1) of this section and except for purposes of purchase or resale, other than at retail, for export.

(2) The designation of the following countries as members of an association of countries for GSP purposes has been terminated by the President pursuant to section 504 of the Trade Act of 1974 (19 U.S.C. 2464):

### §10.176 Country of origin criteria.

duty-free entry under the Generalized System of Preferences ("GSP"). However, duty free entry under GSP may be accorded only if: (i) The sum of the cost or value of the materials produced in the beneficiary developing country or any two or more countries which are members of the same association of countries which is treated as one country under section 502(a)(3), Trade Act of 1974, as amended (19 U.S.C. 2462(a)(3)), plus (ii) the direct costs of processing operations performed in such beneficiary developing country or member countries, is not less than 35 percent of the appraised value of the article at the time of its entry into the customs territory of the United States.

(b) [Reserved]

(c) *Merchandise grown, produced, or manufactured in a beneficiary developing country.* Merchandise which is wholly the growth, product, or manufacture of a beneficiary developing country, or an association of countries treated as one country under section 502(a)(3) of the Trade Act of 1974 as amended (19 U.S.C. 2462(a)(3)) and §10.171(b), and manufactured products consisting of materials produced only in such country or countries, shall normally be presumed to meet the requirements set forth in this section.

### §10.177 Cost or value of materials produced in the beneficiary developing country.

(a) *"Produced in the beneficiary developing country" defined.* For purposes of §§10.171 through 10.178, the words "produced in the beneficiary developing country" refer to the constituent materials of which the eligible article is composed which are either:

(1) Wholly the growth, product, or manufacture of the beneficiary developing country; or

(2) Substantially transformed in the beneficiary developing country into a new and different article of commerce.

(b) *Questionable origin.* When the origin of an article either is not ascertainable or not satisfactorily demonstrated to the port director, the article shall

## § 10.178

## 19 CFR Ch. I (4–1–99 Edition)

not be considered to have been produced in the beneficiary developing country.

(c) *Determination of cost or value of materials produced in the beneficiary developing country.* (1) The cost or value of materials produced in the beneficiary developing country includes:

(i) The manufacturer's actual cost for the materials;

(ii) When not included in the manufacturer's actual cost for the materials, the freight, insurance, packing, and all other costs incurred in transporting the materials to the manufacturer's plant;

(iii) The actual cost of waste or spoilage (material list), less the value of recoverable scrap; and

(iv) Taxes and/or duties imposed on the materials by the beneficiary developing country, or an association of countries treated as one country, provided they are not remitted upon exportation.

(2) Where the material is provided to the manufacturer without charge, or at less than fair market value, its cost or value shall be determined by computing the sum of:

(i) All expenses incurred in the growth, production, manufacture or assembly of the material, including general expenses;

(ii) An amount for profit; and

(iii) Freight, insurance, packing, and all other costs incurred in transporting the materials to the manufacturer's plant.

If the pertinent information needed to compute the cost or value of the materials is not available, the appraising officer may ascertain or estimate the value thereof using all reasonable ways and means at his disposal.

### **§ 10.178 Direct costs of processing operations performed in the beneficiary developing country.**

(a) *Items included in the direct costs of processing operations.* As used in § 10.176, the words “direct costs of processing operations” means those costs either directly incurred in, or which can be reasonably allocated to, the growth, production, manufacture, or assembly

of the specific merchandise under consideration. Such costs include, but are not limited to:

(1) All actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training, and the cost of engineering, supervisory, quality control, and similar personnel;

(2) Dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise;

(3) Research, development, design, engineering, and blueprint costs insofar as they are allocable to the specific merchandise; and

(b) *Items not included in the direct costs of processing operations.* Those items which are not included within the meaning of the words “direct costs of processing operations” are those which are not directly attributable to the merchandise under consideration or are not “costs” of manufacturing the product. These include, but are not limited to:

(1) Profit; and

(2) General expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions, or expenses.

(b) The provisions of this section may be applied to:

### CERTAIN FRESH, CHILLED, OR FROZEN BEEF

#### § 10.180 Certification.

(a) The foreign official's meat-inspection certificate required by U.S. Department of Agriculture regulations (9 CFR 327.4) shall be modified to include the certification below when fresh, chilled, or frozen beef is to be entered under the provisions of subheadings 0201.20.10, 0201.30.02, 0202.20.02, 0202.20.10, Harmonized Tariff Schedule of the United States (HTSUS). The certification shall be made, prior to exportation of the beef, by an official of the government of the exporting country and filed with Customs with the entry

summary or with the entry when the entry summary is filed at the time of entry. The requirements of this section shall be in addition to those requirements contained in 9 CFR 327.4. Appropriate officials of the exporting country should consult with the U.S. Department of Agriculture as to the beef grades or standards within their country that satisfy the certification requirement. Exporters or importers of beef to be entered under the provisions of subheadings 0201.20.10, 0201.30.02, 0202.20.02, 0202.20.10, HTSUS, should consult with the U.S. Department of Agriculture prior to exportation in order to insure that the beef will satisfy the certification requirements. This certification is relevant only to U.S. Customs tariff classification and is not applicable to marketing of beef under U.S. Department of Agriculture grading standards, a matter within U.S. Department of Agriculture's jurisdiction.

#### CERTIFICATION

I hereby certify to the best of my knowledge and belief that the herein described fresh, chilled, or frozen beef, meets the specifications prescribed in regulations issued by the U.S. Department of Agriculture (7 CFR 2853.106 (a) and (b)).

(b) Appropriate officials of the following countries have agreed with the U.S. Department of Agriculture as to the grades or standards for fresh, chilled, or frozen beef within their respective countries which will satisfy the certification requirements of paragraph (a) of this section: Canada.

#### WATCHES AND WATCH MOVEMENTS FROM U.S. INSULAR POSSESSIONS

#### §§ 10.181—10.182 [Reserved]

#### CIVIL AIRCRAFT

#### § 10.183 Civil aircraft, flight simulators, parts for civil aircraft, and parts for flight simulators.

(a) *Definition.* "Civil aircraft", when used in this section, means all aircraft other than aircraft purchased for use by the Department of Defense or the United States Coast Guard.

(b) *Admission free of duty.* Civil aircraft parts for civil aircraft certified for use in accordance with the provisions of General Note 3(c)(iv), Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202), flight simulators, and parts for flight simulators, may be admitted free of duty upon compliance with the provisions of this section.

(c) *Documentation*—(1) *Generally.* Each entry summary for civil aircraft, flight simulators, civil aircraft parts, or flight simulator parts shall be filed with a copy of the written order, contract, or any additional documentation Customs shall require, to verify the claim for admission free of duty unless the port director is satisfied that the documents will be available for inspection for five years from the time of entry, as provided by part 162 of this chapter. “Time of entry” is defined in § 141.68 of this chapter. Proof of end use of the civil aircraft, flight simulators, civil aircraft parts, or flight simulator parts need not be furnished. If the port director determines that documentation necessary to verify the claim for entry free of duty is not available at the time of filing the entry summary, the importer may enter the civil aircraft, flight simulator, civil aircraft part, or flight simulator part and post a bond for the missing document in accordance with §§ 141.66 and 141.91 of this chapter. The fact that a civil aircraft, flight simulator, civil aircraft part, or flight simulator part has previously been exported with benefit of drawback does not preclude free entry under this section and Chapter 88, HTSUS.

(2) *Civil aircraft parts.* At the time of filing the entry summary, the importer of civil aircraft parts shall submit a certificate in substantially the form described in paragraph (d)(1) of this section. As an alternative, an importer who expects to file more than one entry for civil aircraft parts during any 12 month period may submit a blanket certification in substantially the form described in paragraph (d)(2) of this section with the director of each port where civil aircraft parts are to be entered under the provisions of General Note 3(c)(iv), HTSUS. Upon approval by the port director, the blanket certification shall be valid for a period of one

year from the date of approval. The blanket certification may be renewed for additional one year periods upon written request to each concerned port director. The certification may not be treated as a missing document for which a bond may be posted. Failure to provide the certification at the time of filing the entry summary or to have an approved blanket certification on file with the director of the port where the entry summary is filed shall result in a dutiable entry.

(d) *Certification*—(1) *Entry-by-entry certification.* If the certification is to be filed with each entry summary, it shall be substantially in the following form and may be stamped, typed, or printed on the entry summary or submitted as a separate document:

ENTRY-BY-ENTRY CERTIFICATION FOR  
CIVIL AIRCRAFT PARTS

I certify that:

(1) The aircraft part(s) specifically identified in the entry summary has (have) been imported for use in civil aircraft and, to the best of my knowledge and belief, will be so used.

(2) (Check the appropriate box(es))

☐ (b) The article(s) specifically identified in the entry summary has (have) been approved for use in civil aircraft by \_\_\_\_\_, the airworthiness authority in the country of exportation. This approval is recognized by the FAA as an acceptable substitute for FAA approval.

☐ (c) An application for approval for use in civil aircraft for the article(s) specifically identified in the entry summary has been submitted to, and accepted by, the Administrator of the FAA.

(2) *Blanket certification.* The certification may be in the form of a blanket certification which shall be valid for a period of one year from the date of approval by the director of the port where the civil aircraft parts will be entered. The blanket certification may

be renewed for additional one-year periods upon written request to each concerned port director. If a blanket certification is used it shall be substantially in the following form.

I, \_\_\_\_\_,

(iii) Tuna, prepared or preserved in any manner, in airtight containers.

(iv) Petroleum, or any product derived from petroleum, provided for in Chapter 27, Harmonized Tariff Schedule of the United States (HTSUS).

(v) Watches and watch parts (including cases, bracelets and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material which is the product of any country with respect to which HTSUS column 2 rates of duty apply.

## § 10.192

## 19 CFR Ch. I (4-1-99 Edition)

(vi) Sugars, sirups, and molasses, provided for in subheadings 1701.11.00 and 1701.12.00, HTSUS, to the extent that importation and duty-free treatment of such articles are limited by Additional U.S. Note 4, Chapter 17, HTSUS.

(vii) Articles subject to the provisions of the subheadings of Subchapter III, from the beginning through 9903.85.21, Chapter 99, HTSUS, to the extent that such provisions have not been modified or terminated by the President pursuant to section 213(e)(5) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703(e)(5)).

(viii) Merchandise for which duty-free treatment under the CBI is suspended or withdrawn by the President pursuant to sections 213 (c)(2), (e)(1), or (f)(3) of the Caribbean Basin Economic Recovery Act (19 U.S.C. 2703 (c)(2), (e)(1), or (f)(3)).

(3) *Wholly the growth, product, or manufacture of a beneficiary country.* For purposes of § 10.191 through § 10.198, the expression “wholly the growth, product, or manufacture of a beneficiary country” refers both to any article which has been entirely grown, produced, or manufactured in a beneficiary country or two or more beneficiary countries and to all materials incorporated in an article which have been entirely grown, produced, or manufactured in any beneficiary country or two or more beneficiary countries, as distinguished from articles or materials imported into a beneficiary country from a non-beneficiary country whether or not such articles or materials were substantially transformed into new or different articles of commerce after their importation into the beneficiary country.

(4) *Entered.* For purposes of § 10.191 through § 10.198, the term “entered” means entered, or withdrawn from warehouse for consumption, in the customs territory of the U.S.

[T.D. 84-237, 49 FR 47993, Dec. 7, 1984, as amended by T.D. 89-1, 53 FR 51252, Dec. 21, 1988]

### § 10.192 Claim for exemption from duty under the CBI.

A claim for an exemption from duty on the ground that the CBI applies shall be allowed by the port director only if he is satisfied that the require-

ments set forth in this section and § 10.193 through § 10.198 have been met. Duty-free treatment may be claimed at the time of filing the entry summary by placing the symbol “E” as a prefix to the HTSUS subheading number for each article for which such treatment is claimed on that document.

[T.D. 84-237, 49 FR 47993, Dec. 7, 1984, as amended by T.D. 89-1, 53 FR 51252, Dec. 21, 1988; T.D. 94-47, 59 FR 25570, May 17, 1994]

### § 10.193 Imported directly.

To qualify for treatment under the CBI, an article shall be imported directly from a beneficiary country into the customs territory of the U.S. For purposes of § 10.191 through § 10.198 the words “imported directly” mean:

(a) Direct shipment from any beneficiary country to the U.S. without passing through the territory of any non-beneficiary country; or

(b) If the shipment is from any beneficiary country to the U.S. through the territory of any non-beneficiary country, the articles in the shipment do not enter into the commerce of any non-beneficiary country while en route to the U.S. and the invoices, bills of lading, and other shipping documents show the U.S. as the final destination; or

(c) If the shipment is from any beneficiary country to the U.S. through the territory of any non-beneficiary country, and the invoices and other documents do not show the U.S. as the final destination, the articles in the shipment upon arrival in the U.S. are imported directly only if they:

(1) Remained under the control of the customs authority of the intermediate country;

(2) Did not enter into the commerce of the intermediate country except for the purpose of sale other than at retail, and the port director is satisfied that the importation results from the original commercial transaction between the importer and the producer or the latter’s sales agent; and

(3) Were not subjected to operations other than loading and unloading, and other activities necessary to preserve the articles in good condition.

**§ 10.194 Evidence of direct shipment.**

(a) *Documents constituting evidence of direct shipment.* The port director may require that appropriate shipping papers, invoices, or other documents be submitted within 60 days of the date of entry as evidence that the articles were “imported directly”, as that term is defined in § 10.193. Any evidence of direct shipment required shall be subject to such verification as deemed necessary by the port director.

(b) *Waiver of evidence of direct shipment.* The port director may waive the submission of evidence of direct shipment when otherwise satisfied, taking into consideration the kind and value of the merchandise, that the merchandise was, in fact, imported directly and that it otherwise clearly qualifies for treatment under the CBI.

**§ 10.195 Country of origin criteria.**

(a) *Articles produced in a beneficiary country—(1) General.* Except as provided herein, any article which is either wholly the growth, product, or manufacture of a beneficiary country or a new or different article of commerce which has been grown, produced, or manufactured in a beneficiary country, may qualify for duty-free entry under the CBI. No article or material shall be considered to have been grown, produced, or manufactured in a beneficiary country by virtue of having merely undergone simple (as opposed to complex or meaningful) combining or packaging operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article. Duty-free entry under the CBI may be accorded to an article only if the sum of the cost or value of the material produced in a beneficiary country or countries, plus the direct costs of processing operations performed in a beneficiary country or countries, is not less than 35 percent of the appraised value of the article at the time it is entered.

(2) *Combining, packaging, and diluting operations.* No article which has undergone only a simple combining or packaging operation or a mere dilution in a beneficiary country within the meaning of paragraph (a)(1) of this section shall be entitled to duty-free treatment

even though the processing operation causes the article to meet the value requirement set forth in that paragraph.

(i) For purposes of this section, simple combining or packaging operations and mere dilution include, but are not limited to, the following processes:

(A) The addition of batteries to devices;

(B) Fitting together a small number of components by bolting, glueing, soldering etc.;

(C) Blending foreign and beneficiary country tobacco;

(D) The addition of substances such as anticaking agents, preservatives, wetting agents, etc.;

(E) Repacking or packaging components together;

(F) Reconstituting orange juice by adding water to orange juice concentrate; and

(G) Diluting chemicals with inert ingredients to bring them to standard degrees of strength.

(ii) For purposes of this section, simple combining or packaging operations and mere dilution shall not be taken to include processes such as the following:

(A) The assembly of a large number of discrete components onto a printed circuit board;

(B) The mixing together of two bulk medicinal substances followed by the packaging of the mixed product into individual doses for retail sale;

(C) The addition of water or another substance to a chemical compound under pressure which results in a reaction creating a new chemical compound; and

(D) A simple combining or packaging operation or mere dilution coupled with any other type of processing such as testing or fabrication (e.g., a simple assembly of a small number of components, one of which was fabricated in the beneficiary country where the assembly took place).

The fact that an article or material has undergone more than a simple combining or packaging operation or mere dilution is not necessarily dispositive of the question of whether that processing constitutes a substantial transformation for purposes of determining the country of origin of the article or material.

## § 10.196

## 19 CFR Ch. I (4–1–99 Edition)

(b) *Commonwealth of Puerto Rico and U.S. Virgin Islands.* For purposes of determining the percentage referred to in paragraph (a) of this section, the term “beneficiary country” includes the Commonwealth of Puerto Rico and the U.S. Virgin Islands. Any cost or value of materials or direct costs of processing operations attributable to the Virgin Islands must be included in the article prior to its final exportation from a beneficiary country to the U.S.

(c) *Materials produced in the U.S.* For purposes of determining the percentage referred to in paragraph (a) of this section, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered may be attributed to the cost or value of materials produced in the customs territory of the U.S. (other than the Commonwealth of Puerto Rico). In the case of materials produced in the customs territory of the U.S., the provisions of § 10.196 shall apply.

(d) *Textile components cut to shape in the U.S.* The percentage referred to in paragraph (c) of this section may be attributed in whole or in part to the cost or value of a textile component that is cut to shape (but not to length, width, or both) in the U.S. (including the Commonwealth of Puerto Rico) from foreign fabric and exported to a beneficiary country for assembly into an article that is then returned to the U.S. and entered, or withdrawn from warehouse, for consumption on or after July 1, 1996. For purposes of this paragraph, the terms “textile component” and “fabric” have reference only to goods covered by the definition of “textile or apparel product” set forth in § 102.21(b)(5) of this chapter.

(e) *Articles wholly grown, produced, or manufactured in a beneficiary country.* Any article which is wholly the growth, product, or manufacture of a beneficiary country, including articles produced or manufactured in a beneficiary country exclusively from materials which are wholly the growth, product, or manufacture of a beneficiary country or countries, shall normally be presumed to meet the requirements set forth in paragraph (a) of this section.

(f) *Country of origin marking.* The general country of origin marking require-

ments that apply to all importations are also applicable to articles imported under the CBI.

[T.D. 84–237, 49 FR 47993, Dec. 7, 1984; 49 FR 49575, Dec. 20, 1984, as amended by T.D. 95–69, 60 FR 46197, Sept. 5, 1995; T.D. 95–69, 60 FR 55995, Nov. 6, 1996]

### § 10.196 Cost or value of materials produced in a beneficiary country or countries.

(a) *“Materials produced in a beneficiary country or countries” defined.* For purposes of § 10.195, the words “materials produced in a beneficiary country or countries” refer to those materials incorporated in an article which are either:

(1) Wholly the growth, product, or manufacture of a beneficiary country or two or more beneficiary countries; or

(2) Subject to the limitations set forth in § 10.195(a), substantially transformed in any beneficiary country or two or more beneficiary countries into a new or different article of commerce which is then used in any beneficiary country in the production or manufacture of a new or different article which is imported directly into the U.S.

*Example 1.* A raw, perishable skin of an animal grown in one beneficiary country is sent to another beneficiary country where it is tanned to create nonperishable “crust leather”. The tanned product is then imported directly into the U.S. Because the material of which the imported article is composed is wholly the growth, product, or manufacture of one of more beneficiary countries, the entire cost or value of that material may be counted toward the 35 percent value requirement set forth in § 10.195.

*Example 2.* A raw, perishable skin of an animal grown in a non-beneficiary country is sent to a beneficiary country where it is tanned to create nonperishable “crust leather”. The tanned skin is then imported directly into the U.S. Although the tanned skin represents a new or different article of commerce produced in a beneficiary country within the meaning of § 10.195(a), the cost or value of the raw skin may not be counted toward the 35 percent value requirement because (1) the tanned material of which the imported article is composed is not wholly the growth, product, or manufacture of a beneficiary country and (2) the tanning operation creates the imported article itself rather than an intermediate article which is then used in the beneficiary country in the

production or manufacture of an article imported into the U.S. The tanned skin would be eligible for duty-free treatment only if the direct costs attributable to the tanning operation represent at least 35 percent of the appraised value of the imported article.

*Example 3.* A raw, perishable skin of an animal grown in a non-beneficiary country is sent to a beneficiary country where it is tanned to create nonperishable "crust leather". The tanned material is then cut, sewn and assembled with a metal buckle imported from a non-beneficiary country to create a finished belt which is imported directly into the U.S. Because the operations performed in the beneficiary country involved both the substantial transformation of the raw skin into a new or different article and the use of that intermediate article in the production or manufacture of a new or different article imported into the U.S., the cost or value of the tanned material used to make the imported article may be counted toward the 35 percent value requirement. The cost or value of the metal buckle imported into the beneficiary country may not be counted toward the 35 percent value requirement because the buckle was not substantially transformed in the beneficiary country into a new or different article prior to its incorporation in the finished belt.

*Example 4.* A raw, perishable skin of an animal grown in the U.S. Virgin Islands is sent to a beneficiary country where it is tanned to create nonperishable "crust leather", which is then imported directly into the U.S. The tanned skin represents a new or different article of commerce produced in a beneficiary country within the meaning of § 10.195(a), and under § 10.195(b), the raw skin from which the tanned product was made is considered to have been grown in a beneficiary country for the purpose of applying the 35 percent value requirement. The tanned material of which the imported article is composed is considered to be wholly the growth, product, or manufacture of one or more beneficiary countries with the result that the entire cost or value of that material may be counted toward the 35 percent value requirement.

(b) *Questionable origin.* When the origin of a material either is not ascertainable or is not satisfactorily demonstrated to the port director, the material shall not be considered to have been grown, produced, or manufactured in a beneficiary country.

(c) *Determination of cost or value of materials produced in a beneficiary country.* (1) The cost or value of materials produced in a beneficiary country or countries includes:

(i) The manufacturer's actual cost for the materials;

(ii) When not included in the manufacturer's actual cost for the materials, the freight, insurance, packing, and all other costs incurred in transporting the materials to the manufacturer's plant;

(iii) The actual cost of waste or spoilage (material list), less the value of recoverable scrap; and

(iv) Taxes and/or duties imposed on the materials by any beneficiary country, provided they are not remitted upon exportation.

(2) Where a material is provided to the manufacturer without charge, or at less than fair market value, its cost or value shall be determined by computing the sum of:

(i) All expenses incurred in the growth, production, or manufacture of the material, including general expenses;

(ii) An amount for profit; and

(iii) Freight, insurance, packing, and all other costs incurred in transporting the material to the manufacturer's plant.

If the pertinent information needed to compute the cost or value of a material is not available, the appraising officer may ascertain or estimate the value thereof using all reasonable ways and means at his disposal.

**§ 10.197 Direct costs of processing operations performed in a beneficiary country or countries.**

(a) *Items included in the direct costs of processing operations.* As used in § 10.195 and § 10.198, the words "direct costs of processing operations" mean those costs either directly incurred in, or which can be reasonably allocated to, the growth, production, manufacture, or assembly of the specific merchandise under consideration. Such costs include, but are not limited to the following, to the extent that they are includable in the appraised value of the imported merchandise:

(1) All actual labor costs involved in the growth, production, manufacture or assembly of the specific merchandise, including fringe benefits, on-the-job training, and the cost of engineering, supervisory, quality control, and similar personnel;

**§ 10.198**

**19 CFR Ch. I (4-1-99 Edition)**

(2) Dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise;

(3) Research, development, design, engineering, and blueprint costs insofar as they are allocable to the specific merchandise and;

(4) Costs of inspecting and testing the specific merchandise.

(b) *Items not included in the direct costs of processing operations.* Those items which are not included within the meaning of the words “direct costs of processing operations” are those which are not directly attributable to the merchandise under consideration or are not “costs” of manufacturing the product. These include, but are not limited to:

(1) Profit; and

(2) General expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, and salesmen’s salaries, commissions, or expenses.

**§ 10.198 Evidence of country of origin.**

(a) *Shipments covered by a formal entry—(1) Articles not wholly the growth,*

*product, or manufacture of a beneficiary country—(i) Declaration.* In a case involving an article covered by a formal entry which is not wholly the growth, product, or manufacture of a single beneficiary country, the exporter or other appropriate party having knowledge of the relevant facts in the beneficiary country where the article was produced or last processed shall be prepared to submit directly to the port director, upon request, a declaration setting forth all pertinent detailed information concerning the production or manufacture of the article. When requested by the port director, the declaration shall be prepared in substantially the following form:

**CBI DECLARATION**

(ii) *Retention of records and submission of declaration.* The information necessary for preparation of the declaration shall be retained in the files of the party responsible for its preparation and submission for a period of 5 years.

In the event that the port director requests submission of the declaration during the 5-year period, it shall be submitted by the appropriate party directly to the port director within 60 days of the date of the request or such additional period as the port director may allow for good cause shown. Failure to submit the declaration in a

timely fashion will result in a denial of duty-free treatment.

(iii) *Value added after final exportation.* In a case in which value is added to an article in a bonded warehouse or in a foreign-trade zone in the Commonwealth of Puerto Rico or in the U.S. after final exportation of the article from a beneficiary country, in order to ensure compliance with the value requirement under § 10.195(a), the declaration provided for in paragraph (a)(1)(i) of this section shall be filed by the importer or consignee with the entry summary as evidence of the country of origin. The declaration shall be properly completed by the party responsible for the addition of such value.

(2) *Merchandise wholly the growth, product, or manufacture of a beneficiary country.* In a case involving merchandise covered by a formal entry which is wholly the growth, product, or manufacture of a single beneficiary country, a statement to that effect shall be included on the commercial invoice provided to Customs.

(b) *Shipments covered by an informal entry.* Although the filing of the declaration provided for in paragraph (a)(1)(i) of this section will not be required for a shipment covered by an informal entry, the port director may require such other evidence of country of origin as deemed necessary.

(c) *Verification of documentation.* Any evidence of country of origin submitted under this section shall be subject to such verification as the port director deems necessary. In the event that the port director is prevented from obtaining the necessary verification, the port director may treat the entry as dutiable.

#### ANDEAN TRADE PREFERENCE

SOURCE: Sections 10.201 through 10.208 appear at T.D. 98-76, 63 FR 51292, Sept. 25, 1998, unless otherwise noted.

#### § 10.201 Applicability.

Title II of Pub. L. 102-182 (105 Stat. 1233), entitled the Andean Trade Preference Act (ATPA) and codified at 19 U.S.C. 3201-3206, authorizes the President to proclaim duty-free treatment for all eligible articles from any bene-

ficiary country, to designate countries as beneficiary countries, and to proclaim duty reductions for certain goods not eligible for duty-free treatment. The provisions of §§ 10.202-10.208 of this part set forth the legal requirements and procedures that apply for purposes of obtaining such duty-free or reduced-duty treatment for articles from a beneficiary country which are identified for purposes of such treatment in General Note 11, Harmonized Tariff Schedule of the United States (HTSUS), and in the "Special" rate of duty column of the HTSUS.

#### § 10.202 Definitions.

The following definitions apply for purposes of §§ 10.201 through 10.208:

(a) *Beneficiary country.* Except as otherwise provided in § 10.206(b), the term "beneficiary country" refers to any country or successor political entity with respect to which there is in effect a proclamation by the President designating such country or successor political entity as a beneficiary country in accordance with section 203 of the ATPA (19 U.S.C. 3202).

(b) *Eligible articles.* The term "eligible" when used with reference to an article means merchandise which is imported directly from a beneficiary country as provided in § 10.204, which meets the country of origin criteria set forth in § 10.205 and the value-content requirement set forth in § 10.206, and which, if the requirements of § 10.207 are met, is therefore entitled to duty-free treatment under the ATPA. However, the following merchandise shall not be considered eligible articles entitled to duty-free treatment under the ATPA:

(1) Textile and apparel articles which are subject to textile agreements;

(2) Footwear not designated on December 4, 1991, as eligible for the purpose of the Generalized System of Preferences under Title V, Trade Act of 1974, as amended (19 U.S.C. 2461-2466);

(3) Tuna, prepared or preserved in any manner, in airtight containers;

(4) Petroleum, or any product derived from petroleum, provided for in headings 2709 and 2710, Harmonized Tariff Schedule of the United States (HTSUS);

## § 10.203

## 19 CFR Ch. I (4–1–99 Edition)

(5) Watches and watch parts (including cases, bracelets, and straps), of whatever type including, but not limited to, mechanical, quartz digital or quartz analog, if such watches or watch parts contain any material which is the product of any country with respect to which HTSUS column 2 rates of duty apply;

(6) Sugars, syrups, and molasses classified in subheadings 1701.11.03, 1701.12.02, 1701.99.02, 1702.90.32, 1806.10.42, and 2106.90.12, HTSUS;

(7) Rum and tafia classified in subheading 2208.40.00, HTSUS; or

(8) Articles to which reduced rates of duty apply under section 204(c) of the ATPA (19 U.S.C. 3203(c)) (see § 10.208).

(c) *Entered.* The term “entered” means entered, or withdrawn from warehouse for consumption, in the customs territory of the United States.

(d) *Wholly the growth, product, or manufacture of a beneficiary country.* The expression “wholly the growth, product, or manufacture of a beneficiary country” has the same meaning as that set forth in § 10.191(b)(3) of this part.

### § 10.203 Eligibility criteria in general.

An article classifiable under a subheading of the Harmonized Tariff Schedule of the United States for which a rate of duty of “Free” appears in the “Special” subcolumn followed by the symbol “J” or “J\*” in parentheses is eligible for duty-free treatment, and will be accorded such treatment, if each of the following requirements is met:

(a) *Imported directly.* The article is imported directly from a beneficiary country as provided in § 10.204.

(b) *Country of origin criteria.* The article complies with the country of origin criteria set forth in § 10.205.

(c) *Value content requirement.* The article complies with the value content requirement set forth in § 10.206.

(d) *Filing of claim and submission of supporting documentation.* The claim for duty-free treatment is filed, and any required documentation in support of the claim is submitted, in accordance with the procedures set forth in § 10.207.

### § 10.204 Imported directly.

In order to be eligible for duty-free treatment under the ATPA, an article

shall be imported directly from a beneficiary country into the customs territory of the United States. For purposes of this requirement, the words “imported directly” mean:

(a) Direct shipment from any beneficiary country to the United States without passing through the territory of any non-beneficiary country; or

(b) If shipment from any beneficiary country to the United States was through the territory of a non-beneficiary country, the articles in the shipment did not enter into the commerce of the non-beneficiary country while en route to the United States, and the invoices, bills of lading, and other shipping documents show the United States as the final destination; or

(c) If shipment from any beneficiary country to the United States was through the territory of a non-beneficiary country and the invoices and other documents do not show the United States as the final destination, then the articles in the shipment, upon arrival in the United States, are imported directly only if they:

(1) Remained under the control of the customs authority in the intermediate country;

(2) Did not enter into the commerce of the intermediate country except for the purpose of sale other than at retail, and the articles are imported into the United States as a result of the original commercial transaction between the importer and the producer or the latter’s sales agent; and

(3) Were not subjected to operations in the intermediate country other than loading and unloading, and other activities necessary to preserve the articles in good condition.

### § 10.205 Country of origin criteria.

(a) *General.* Except as otherwise provided in paragraph (b) of this section, an article may be eligible for duty-free treatment under the ATPA if the article is either:

(1) Wholly the growth, product, or manufacture of a beneficiary country; or

(2) A new or different article of commerce which has been grown, produced, or manufactured in a beneficiary country.

(b) *Exceptions.* No article shall be eligible for duty-free treatment under the ATPA by virtue of having merely undergone simple (as opposed to complex or meaningful) combining or packaging operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article. The principles and examples set forth in § 10.195(a)(2) of this part shall apply equally for purposes of this paragraph.

**§ 10.206 Value content requirement.**

(a) *General.* An article may be eligible for duty-free treatment under the ATPA only if the sum of the cost or value of the materials produced in a beneficiary country or countries, plus the direct costs of processing operations performed in a beneficiary country or countries, is not less than 35 percent of the appraised value of the article at the time it is entered.

(b) *Commonwealth of Puerto Rico, U.S. Virgin Islands and CBI beneficiary countries.* For purposes of determining the percentage referred to in paragraph (a) of this section, the term “beneficiary country” includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and any CBI beneficiary country as defined in § 10.191(b)(1) of this part. Any cost or value of materials or direct costs of processing operations attributable to the Virgin Islands or any CBI beneficiary country must be included in the article prior to its final exportation to the United States from a beneficiary country as defined in § 10.202(a).

(c) *Materials produced in the United States.* For purposes of determining the percentage referred to in paragraph (a) of this section, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered may be attributed to the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico). The principles set forth in paragraph (d)(1) of this section shall apply in determining whether a material is “produced in the customs territory of the United States” for purposes of this paragraph.

(d) *Cost or value of materials—(1) “Materials produced in a beneficiary country*

*or countries” defined.* For purposes of paragraph (a) of this section, the words *materials produced in a beneficiary country or countries* refer to those materials incorporated in an article which are either:

(i) Wholly the growth, product, or manufacture of a beneficiary country or two or more beneficiary countries; or

(ii) Substantially transformed in any beneficiary country or two or more beneficiary countries into a new or different article of commerce which is then used in any beneficiary country as defined in § 10.202(a) in the production or manufacture of a new or different article which is imported directly into the United States. For purposes of this paragraph (d)(1)(ii), no material shall be considered to be substantially transformed into a new or different article of commerce by virtue of having merely undergone simple (as opposed to complex or meaningful) combining or packaging operations, or mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article. The examples set forth in § 10.196(a) of this part, and the principles and examples set forth in § 10.195(a)(2) of this part, shall apply for purposes of the corresponding context under paragraph (d)(1) of this section.

(2) *Questionable origin.* When the origin of a material either is not ascertainable or is not satisfactorily demonstrated to the appropriate port director, the material shall not be considered to have been grown, produced, or manufactured in a beneficiary country or in the customs territory of the United States.

(3) *Determination of cost or value of materials.* (i) The cost or value of materials produced in a beneficiary country or countries or in the customs territory of the United States includes:

(A) The manufacturer’s actual cost for the materials;

(B) When not included in the manufacturer’s actual cost for the materials, the freight, insurance, packing, and all other costs incurred in transporting the materials to the manufacturer’s plant;

(C) The actual cost of waste or spoilage, less the value of recoverable scrap; and

(D) Taxes and/or duties imposed on the materials by any beneficiary country or by the United States, provided they are not remitted upon exportation.

(ii) Where a material is provided to the manufacturer without charge, or at less than fair market value, its cost or value shall be determined by computing the sum of:

(A) All expenses incurred in the growth, production, or manufacture of the material, including general expenses;

(B) An amount for profit; and

(C) Freight, insurance, packing, and all other costs incurred in transporting the material to the manufacturer's plant.

(iii) If the pertinent information needed to compute the cost or value of a material is not available, the appraising officer may ascertain or estimate the value thereof using all reasonable ways and means at his disposal.

(e) *Direct costs of processing operations*—(1) *Items included.* For purposes of paragraph (a) of this section, the words *direct costs of processing operations* mean those costs either directly incurred in, or which can be reasonably allocated to, the growth, production, manufacture, or assembly of the specific merchandise under consideration. Such costs include, but are not limited to the following, to the extent that they are includable in the appraised value of the imported merchandise:

(i) All actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training, and the cost of engineering, supervisory, quality control, and similar personnel;

(ii) Dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise;

(iii) Research, development, design, engineering, and blueprint costs insofar as they are allocable to the specific merchandise; and

(iv) Costs of inspecting and testing the specific merchandise.

(2) *Items not included.* For purposes of paragraph (a) of this section, the words “direct costs of processing operations” do not include items which are not directly attributable to the merchandise under consideration or are not costs of manufacturing the product. These include, but are not limited to:

(i) Profit; and

(ii) General expenses of doing business which either are not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions, or expenses.

(f) *Articles wholly the growth, product, or manufacture of a beneficiary country.* Any article which is wholly the growth, product, or manufacture of a beneficiary country as defined in § 10.202(a), and any article produced or manufactured in a beneficiary country as defined in § 10.202(a) exclusively from materials which are wholly the growth, product, or manufacture of a beneficiary country or countries, shall normally be presumed to meet the requirement set forth in paragraph (a) of this section.

**§ 10.207 Procedures for filing duty-free treatment claim and submitting supporting documentation.**

(a) *Filing claim for duty-free treatment.* Except as provided in paragraph (c) of this section, a claim for duty-free treatment under the ATPA may be made at the time of filing the entry summary by placing the symbol “J” as a prefix to the Harmonized Tariff Schedule of the United States subheading number applicable to each article for which duty-free treatment is claimed on that document.

(b) *Shipments covered by a formal entry*—(1) *Articles not wholly the growth, product, or manufacture of a beneficiary country*—(i) *Declaration.* In a case involving an article covered by a formal entry for which duty-free treatment is claimed under the ATPA and which is not wholly the growth, product, or manufacture of a single beneficiary country as defined in § 10.202(a), the exporter or other appropriate party having knowledge of the relevant facts in

the beneficiary country as defined in § 10.202(a) where the article was produced or last processed shall be prepared to submit directly to the port director, upon request, a declaration setting forth all pertinent detailed information concerning the production or manufacture of the article. When requested by the port director, the declaration shall be prepared in substantially the following form:

(ii) *Retention of records and submission of declaration.* The information necessary for the preparation of the declaration shall be retained in the files of the party responsible for its preparation and submission for a period of 5 years. In the event that the port director requests submission of the declaration during the 5-year period, it shall be submitted by the appropriate party directly to the port director within 60 days of the date of the request or such additional period as the port director may allow for good cause shown. Failure to submit the declaration in a timely fashion will result in a denial of duty-free treatment.

(iii) *Value added after final exportation.* In a case in which value is added to an article in the Commonwealth of Puerto Rico or in the United States after final exportation of the article from a beneficiary country as defined in § 10.202(a), in order to ensure compliance with the value requirement under § 10.206(a), the declaration provided for in paragraph (b)(1)(i) of this section shall be filed by the importer or consignee with the entry summary. The declaration shall be completed by the

party responsible for the addition of such value.

(2) *Articles wholly the growth, product, or manufacture of a beneficiary country.* In a case involving an article covered by a formal entry for which duty-free treatment is claimed under the ATPA and which is wholly the growth, product, or manufacture of a single beneficiary country as defined in § 10.202(a), a statement to that effect shall be included on the commercial invoice provided to Customs.

(c) *Shipments covered by an informal entry.* The normal procedure for filing a claim for duty-free treatment as set forth in paragraph (a) of this section need not be followed, and the filing of the declaration provided for in paragraph (b)(1)(i) of this section will not be required, in a case involving a shipment covered by an informal entry. However, the port director may require submission of such other evidence of entitlement to duty-free treatment as deemed necessary.

(d) *Evidence of direct importation—(1) Submission.* The port director may require that appropriate shipping papers, invoices, or other documents be submitted within 60 days of the date of entry as evidence that the articles were “imported directly”, as that term is defined in § 10.204.

## § 10.208

(2) *Waiver.* The port director may waive the submission of evidence of direct importation when otherwise satisfied, taking into consideration the kind and value of the merchandise, that the merchandise was, in fact, imported directly and that it otherwise clearly qualifies for duty-free treatment under the ATPA.

(e) *Verification of documentation.* The documentation submitted under this section to demonstrate compliance with the requirements for duty-free treatment under the ATPA shall be subject to such verification as the port director deems necessary. In the event that the port director is prevented from obtaining the necessary verification, the port director may treat the entry as fully dutiable.

### § 10.208 Duty reductions for certain products.

(a) *General.* Handbags, luggage, flat goods, work gloves, and leather wearing apparel that were not designated on August 5, 1983, as eligible articles for purposes of the Generalized System of Preferences under Title V, Trade Act of 1974, as amended (19 U.S.C. 2461–2466), are not eligible for duty-free treatment under the ATPA. However, any such article from a beneficiary country may be subject to a reduced rate of duty set forth in the Harmonized Tariff Schedule of the United States in the applicable “Special” subcolumn followed by the symbol “J” in parenthesis, provided the article is a product of any beneficiary country. For purposes of this section, an article is a “product of” a beneficiary country if the article is either:

(1) Wholly the growth, product, or manufacture of a beneficiary country; or

(2) A new or different article of commerce which has been grown, produced, or manufactured in a beneficiary country.

(b) *Filing reduced-duty claim.* A claim for reduced-duty treatment under the ATPA may be made at the time of filing the entry summary or other entry document by placing thereon the symbol “J” as a prefix to the Harmonized Tariff Schedule of the United States subheading number applicable to each article for which reduced-duty treat-

ment is claimed and by placing thereon the reduced duty rate applicable to each such article.

(c) *Verification of reduced-duty claim.* Any claim for reduced-duty treatment under this section shall be subject to such verification as the port director deems necessary. In the event that the port director is prevented from obtaining the necessary verification, the port director may treat the entry as dutiable at the applicable non-ATPA rate.

### UNITED STATES-CANADA FREE TRADE AGREEMENT

SOURCE: Sections 10.301 through 10.311 issued by T.D. 89–3, 53 FR 51766, Dec. 23, 1988, unless otherwise noted.

### § 10.301 Scope and applicability.

The provisions of §§ 10.302 through 10.311 of this part relate to the procedures for obtaining duty preferences on imported goods under the United States-Canada Free-Trade Agreement (the Agreement) entered into on January 2, 1988, and the United States-Canada Free-Trade Agreement Implementation Act of 1988 (102 Stat. 1851). The United States and Canada agreed to suspend operation of the Agreement with effect from January 1, 1994, to coincide with the entry into force of the North American Free Trade Agreement (see part 181 of this chapter) and, accordingly, the provisions of §§ 10.302 through 10.311 of this part apply only to goods imported from Canada that were entered for consumption, or withdrawn from warehouse for consumption, during the period January 1, 1989, through December 31, 1993. In situations involving goods subject to bilateral restrictions or prohibitions, or country of origin marking, other criteria for determining origin may be applicable pursuant to Article 407 of the Agreement.

[T.D. 96–35, 61 FR 19835, May 3, 1996]

### § 10.302 Eligibility criteria in general.

Subject to the more specific explanations of the criteria in §§ 10.303 and 10.305 of this part, goods classifiable under an HTSUS heading or subheading for which the symbol “CA” appears in the “special” column are eligible for a preference if:

## United States Customs Service, Treasury

## § 10.305

(a) *Originating goods.* The goods originate in Canada or the United States, or both, and

(b) *Direct shipment required.* Except as provided in §10.306(b), are directly shipped to the United States from Canada.

### § 10.303 Originating goods.

(a) *General.* For purposes of eligibility for a preference under the Agreement, goods may be regarded as originating goods if:

(1) *Wholly of Canadian or United States origin.* The goods are wholly obtained or produced in the Territory of Canada or the United States, or both, as set forth in General Note 3(c), HTSUS;

(2) *Transformed with a change in classification.* The goods have been transformed by a processing which results in a change in classification and, if required, a sufficient value-content, as set forth in General Note 3(c), HTSUS; or

(3) *Transformed without a change in classification.* An assembly of goods, other than goods of chapters 61 to 63 of the HTSUS, which does not result in a change in classification because the goods were imported in an unassembled or disassembled form and classified as the goods, unassembled or disassembled, pursuant to General Rule of Interpretation 2(a), HTSUS, or because the tariff subheading for the goods provides for both the goods themselves and their parts, shall nonetheless be treated as originating goods if:

(i) The value of originating materials and the direct cost of assembling in Canada or the United States, or both, as defined in §10.305 constitute not less than 50 percent of the value of the goods when exported to the United States;

(ii) The assembled goods are not subsequently processed or further assembled in a third country; and

(iii) The goods satisfy the requirement in §10.306.

(b) *Originating materials.* For purposes of this section and §10.305, the term “materials” means goods, other than those included as part of the direct cost of processing or assembling, used or consumed in the production of other goods, and the term “originating” when used with reference to such materials

means that the materials satisfy one of the criteria for originating goods set forth in paragraph (a) of this section.

(c) *Change in classification.* For purposes of paragraph (a) of this section, the expression “change in classification” means a change of classification within the Harmonized Commodity Description and Coding System (Harmonized System) as published and amended from time to time by the Customs Cooperation Council.

(d) *Articles of feather.* The goods are eligible to be treated as originating in Canada pursuant to General Note 3(c)(vii)(R)(12)(ee), HTSUS.

[T.D. 92-8, 57 FR 2453, Jan. 22, 1992]

### § 10.304 Exclusions.

(a) *Changes based on simple processing.* No goods shall be considered originating for purposes of eligibility under the Agreement if they have merely undergone simple packaging or simple combining operations, or have undergone mere dilution with water or with another substance that does not materially alter the characteristics of the goods.

(b) *Other excluded processing.* No goods shall be considered to be originating merely by virtue of having undergone any process or work in which the facts clearly justify the presumption that the sole object was to circumvent the provisions of Chapter 3 of the Agreement.

### § 10.305 Value content requirement.

(a) *Direct cost of processing or assembling.*

(1) *Definition.* For purposes of applying a specific rule of origin under the Agreement which requires a value content determination, the terms “direct cost of processing” and “direct cost of assembling” mean the costs directly incurred in, or that can be reasonably allocated to, the production of goods, including:

(i) The cost of all labor, including benefits and on-the-job training, labor provided in connection with supervision, quality control, shipping, receiving, storage, packaging, management at the location of the process or assembly, and other like labor, whether provided by employees or independent contractors;

(ii) The cost of inspecting and testing the goods;

(iii) The cost of energy, fuel, dies, molds, tooling, and the depreciation and maintenance of machinery and equipment, without regard to whether they originate within the territory of the United States or Canada;

(iv) Development, design, and engineering costs;

(v) Rent, mortgage interest, depreciation on buildings, property insurance premiums, maintenance, taxes and the cost of utilities for real property used in the production of the goods; and

(vi) Royalty, licensing, or other like payments for the right to the goods.

(2) *Exclusions from direct costs of processing or assembling.* Excluded from the direct costs of processing or assembling are:

(i) Costs relating to the general expense of doing business, such as the cost of providing executive, financial, sales, advertising, marketing, accounting and legal services, and insurance;

(ii) Brokerage charges relating to the importation and exportation of goods;

(iii) Costs for telephone, mail, and other means of communication;

(iv) Packing costs for exporting the goods;

(v) Royalty payments related to a licensing agreement to distribute or sell the goods;

(vi) Rent, mortgage interest, depreciation on buildings, property insurance premiums, maintenance, taxes, and the cost of utilities for real property used by personnel charged with administrative functions; and

(vii) Profit on the goods.

(3) *Interpretation—(i) Indirect materials.* Under the definition of “materials” set forth in § 10.303(b), certain types of materials are treated as direct costs of processing or assembling under paragraph (a) of this section. This applies principally to materials used or consumed indirectly in the production of exported goods, where no portion of those materials is physically incorporated in the exported goods. In addition to the items specified in paragraph (a)(1)(iii) of this section, such materials include items such as gloves and safety glasses worn by production workers, tape used in painting processes, and tools, materials and spare

parts used in the repair and maintenance of machinery and equipment used in the production of the exported goods. Such materials are to be distinguished from waste and spoilage specified in paragraph (b)(1)(ii)(C) of this section, which relate to materials that are physically incorporated in the exported goods.

(ii) *Directly incurred.* In order for costs incurred by a production facility to be treated as direct costs of processing or assembling, those costs must be directly incurred in the production of the exported goods and not merely associated with the production facility as peripheral costs necessary to operate the facility. In addition to the exclusions set forth in paragraph (a)(2) of this section, such peripheral costs include labor costs for nurses tending to employees, for accounting personnel involved in physical inventory taking, for personnel responsible for purchasing or requisitioning materials to be used or consumed in the production process, and for second level supervisors and above who are not directly involved in the production process.

(iii) *Labor costs.* Under paragraph (a)(1)(i) of this section, labor costs includable as direct costs of processing or assembling are limited to labor provided by the producer’s employees or by independent contractors. Thus, for example, where processing operations are performed on components in the United States and those components are sold to a manufacturer in Canada where they are incorporated in goods exported to the United States, the cost of those processing operations in the United States cannot be separately counted as a direct cost of processing attributable to the finished goods exported to the United States.

(iv) *Interest expense.* *Bona fide* interest payments on debt of any form, secured or unsecured, undertaken on arm’s length terms in the ordinary course of business to finance the acquisition of fixed assets such as real property, a plant, and/or equipment used in the production of goods in the territory of Canada or the U.S. are includable in the direct cost of processing or direct cost of assembling. Interest will be treated as a direct cost of processing or assembling, but only that portion of

the interest which is related to a fixed asset directly used in the production of the goods exported; thus, where a entire production facility is covered by a mortgage and incorporates both production and administrative or other general expense space, an appropriate allocation must be made in order to ensure that only that portion of the interest allocated to the production area is counted toward the value-content requirement. Interest expenses attributable to general and administrative costs or expenses, including interest on funds borrowed to meet the payroll of personnel directly involved in the production of goods, are not considered direct costs of processing or assembly.

(b) *Value of originating materials*—(1) *Definition.* The term “value of materials originating in the United States or Canada or both” means the aggregate of:

(i) The price paid by the producer of exported goods for materials originating in either the United States or Canada, or both, or for materials imported from a third country used or consumed in the production of such originating materials; and

(ii) When not included in that price, the following costs related thereto:

(A) Freight, insurance, packing and all other costs incurred in transporting any of the materials referred to in paragraph (b)(1)(i) of this section to the location of the producer;

(B) Duties, taxes and brokerage fees on such materials paid in the United States, or Canada, or both;

(C) The cost of waste or spoilage resulting from the use or consumption of such materials, less the value of renewable scrap or by-product; and

(D) The value of goods and services relating to such materials determined in accordance with subparagraph 1(b) of Article 8 of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade.

(2) *Directly attributable.* Whenever a value-content determination is required by the rules of the Agreement and whenever originating materials and materials obtained or produced in a third country are used or consumed together in the production of goods in the United States or Canada, the value of originating materials may be treat-

ed as such only to the extent that the value is directly attributable to the goods under consideration.

(3) *Interpretation.* (i) *Price paid.* As provided in paragraph (b)(1) of this section, the “price paid” for materials by the producer of exported goods forms the basis for determining the value of such materials when incorporated in the exported goods. The actual price paid for such materials will determine the value of those materials for purposes of the value-content requirement, even though a relationship between the producer and the seller of the materials may have influenced the price, except where the price did not include items specified in paragraph (b)(1)(ii) of this section that relate to the materials. The following examples will illustrate these principles. Notwithstanding these examples, the totality of the facts must be examined in each case to determine whether § 10.304(b) is applicable.

*Example 1.* Non-originating materials are sold by Company X (a foreign corporation located outside the United States or Canada) to Company Y (a Canadian corporation) for \$100; Company X also sold identical materials to Company Z (a U.S. corporation) for \$200 which was the price Company Z had paid to Company X for similar materials prior to implementation of the Agreement; and those non-originating materials sold by Company X to Company Y are then incorporated by Company Y into goods exported to the United States. In this case the \$100 price paid by Company Y to Company X constitutes the value of those materials for purposes of the value-content requirement.

*Example 2.* Company X purchased materials for \$100, added a four percent mark-up to the price paid to defray purchasing expenses, and then sold the marked-up materials to Company Y (a Canadian corporation) which incorporated the materials in goods exported to the United States. In this case the \$104 price paid by Company Y to Company X constitutes the value of the materials for purposes of the value-content requirement.

*Example 3.* Company X (a foreign corporation located outside the United States) sold non-originating materials to Company Y (a U.S. corporation) for \$200, and Company Y then sold those materials for \$100 to Company Z (a Canadian corporation) which incorporated the materials in goods which were imported into the United States by Company P (the U.S. parent company of Company Y). In this case, in accordance with paragraph (b)(1)(ii)(D) of this section, \$100 would be added to the price paid by Company

## § 10.306

## 19 CFR Ch. I (4–1–99 Edition)

Z for purposes of the value-content requirement because the materials were sold at a reduced cost within the meaning of subparagraph 1(b) of Article 8 of the Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade.

(ii) *Originating materials for which no price paid.* In cases involving a vertically integrated producer (that is, an entity which produces goods for export from materials which that producer has also made) a “price paid” for such originating materials normally does not exist. Even in the absence of a “price paid”, such a vertically integrated producer may still claim the materials as originating materials for purposes of qualifying the finished goods exported to the United States as goods originating in Canada. However, under paragraph (b)(1)(i) of this section the value of those materials for purposes of applying the value-content requirement is limited to the price paid for those materials imported from the third country plus any costs added thereto under paragraph (b)(1)(ii) of this section. The following examples will illustrate these principles.

*Example 1.* If an automobile producer in the United States or Canada fabricates body panels wholly from third country steel coil, those body panels can qualify as originating materials without having to satisfy a value-content requirement because steel coil is classified in chapter 72 of the Harmonized System and body panels are classified in chapter 87 and the change in classification rules in chapter 87 do not incorporate a value-content requirement in this context. Thus, the producer can claim the body panels fabricated from the third country steel as originating materials for purposes of the value-content requirement applicable to the finished automobile which will be exported to the United States. The value of those originating materials is the price paid for the steel coil imported from the third country and used or consumed in the production of the body panels.

*Example 2.* An automobile exporter in Canada purchases and imports body panels fabricated in a third country in order to join them with vertically (locally) fabricated body panels to form an automobile body. If the body qualifies as an originating material, the exporter has two options. Under the first option, the exporter can claim the body as originating material, in which case the value of originating material is the price paid for the foreign body panels. Under the second option, the exporter may elect not to claim the body as originating material; but,

rather, the exporter may claim as originating material any domestic steel coil used in producing the vertically (locally) fabricated body panels, in which case the value of originating material is the price paid for the domestic steel coil.

(c) *Value of goods when exported.* The term “value of the goods when exported to the United States” means the aggregate of:

(1) The price paid by the producer for all materials, whether or not the materials originate in the United States, or Canada, or both, and, when not included in the price paid for the materials, the following costs related thereto:

(i) Freight, insurance, packing, and all other costs incurred in transporting all materials to the location of the producer;

(ii) Duties, taxes, and brokerage fees on all materials paid in the United States, or Canada, or both;

(iii) The cost of waste or spoilage resulting from the use or consumption of such materials, less the value of renewable scrap or by-product; and

(iv) The value of goods and services relating to all materials determined in accordance with subparagraph 1(b) of Article 8 of the Agreement on Implementation of Article VII of the General Agreement on Tariffs Trade; and

(2) The direct cost of processing or the direct cost of assembling the goods.

[T.D. 92–8, 57 FR 2453, Jan. 22, 1992; 57 FR 4793, Feb. 7, 1992, as amended by T.D. 92–98, 57 FR 46504, Oct. 9, 1992]

### § 10.306 Direct shipment to the United States.

Goods shall be considered as directly shipped to the United States from Canada for the purpose of eligibility for preferences under the Agreement only under the following circumstances:

(a) *Through shipment.* The goods have been shipped directly from Canada to the United States without passage through the territory of any third country; or

(b) *Shipment through a third country.* The goods were shipped through the territory of a third country but:

(1) The goods did not enter the commerce of any third country;

(2) The goods did not undergo any operation other than unloading, reloading, or any operation necessary to transport them to the United States or to preserve them in good condition; and

(3) All shipping and export documents show the United States as the final destination.

#### § 10.307 Documentation.

(a) *Claims for a preference.* A preference in accordance with the Agreement may be claimed by including on the entry summary, or equivalent documentation, the symbol “CA” as a prefix to the subheading of the HTSUS under which each eligible good is classified.

(b) *Failure to claim a preference.* Failure to make a timely claim for a preference under the Agreement will result in liquidation at the rate which would otherwise be applicable.

(c) *Documentation showing origin.* A claim for a preference under the Agreement shall be based on the Exporter’s Certificate of Origin, properly completed and signed by the person who exports or knowingly causes the goods to be exported from Canada. The Exporter’s Certificate of Origin must be available at the time the preference is claimed and shall be presented to the port director upon request.

(d) *Exporter’s Certificate of Origin—(1) General.* The Exporter’s Certificate of Origin shall be prepared on Customs Form 353. In lieu of the Customs Form 353, the exporter may use an approved computerized format or such other format as is approved by the Headquarters, U.S. Customs Service, Office of Trade Operations, Washington, DC 20229. Alternative formats must contain the same information and certification set forth on Customs Form 353.

(2) *Blanket certifications.* A blanket Exporter’s Certificate of Origin, not to exceed a period of 12 months, issued for goods claimed as originating goods under the Agreement, can only be used if the certifying exporter is able to verify that the goods in each shipment to be covered by the blanket certification actually qualify for treatment under the Agreement. A blanket certification does not allow an exporter to average its costs over the blanket cer-

tification period in order to establish that the exported goods meet the criteria for originating goods under the Agreement. Under § 10.308, the exporter must retain supporting records that will permit a review of the eligibility of the goods in each shipment covered by a blanket certification.

(e) *Exceptions to documentation requirements.* Exceptions to the foregoing documentation requirements may be authorized at the discretion of the port director in the following circumstances:

(1) *Exception for informal entries.* As set forth in paragraphs (e)(1) (i) and (ii) of this section, an Exporter’s Certificate of Origin may be waived in connection with an entry entitled to informal entry procedures as authorized in §§ 143.21 and 143.22 of this chapter if:

(i) *Commercial goods which qualify for informal entry.* The invoice, or an appropriate Customs release document, for commercial goods which qualify both for informal entry and a preference must include the following statement, on the invoice or appropriate Customs document:

and that they otherwise qualify for a preference in accordance with the Agreement.

[T.D. 89-3, 53 FR 51766, Dec. 23, 1988, as amended by T.D. 92-8, 57 FR 2455, Jan. 22, 1992]

### § 10.308 Records retention.

(a) *Importer.* The importer of record shall retain the exporter's certificate of origin required by § 10.307(d) for a period of 5 years and it must be made available upon request by the appropriate Customs official.

(b) *Exporter.* Any person who exports, or who knowingly causes to be exported, any merchandise to Canada shall make, keep, and render for examination and inspection, such records (including certifications of origin or copies thereof), which pertain to such exportation for a period of 5 years from the date of exportation. In the event that the appropriate Customs official requests submission of the records, they shall be submitted directly to the requesting official.

### § 10.309 Verification of documentation.

Any evidence of country of origin or of direct shipment submitted in support of a preference under the Agreement shall be subject to such verification as the appropriate Customs official may deem necessary. ### § 10.310 Election to average for motor vehicles.

(a) *Election.* In determining whether a motor vehicle is originating for purposes of the preferences under the Agreement or a Canadian article under the Automotive Products Trade Act of 1965 (APTA), a manufacturer may elect to average, over its 12-month financial year, its calculation of the value-content requirement for vehicles of the same class or sister vehicles which are assembled in the same plant as provided for in the Agreement. A manufacturer must declare its election to average before the importation of any vehi-

cles produced within the identified 12-month period. The election to average is subject to the conditions and requirements set forth in §§ 10.310 and 10.311.

(b) *Effect of election.* An election to average shall be binding at the time of the first entry of vehicles for which the election has been made and shall remain binding for the plant for the entire period covered by the election. If a manufacturer's annual report, required by § 10.311, does not verify the claim that the vehicles are originating goods under the Agreement or Canadian articles under APTA, or if a manufacturer otherwise fails to comply with the reporting requirements, entries of the vehicles identified in the averaging declaration will be subject to liquidation in accordance with the rate of duty which would otherwise apply.

(c) *Election in lieu of certificate of origin.* In lieu of the Exporter's Certificate of Origin required in § 10.307(c), an importer of vehicles covered by an election to average under this section may have its claim for preference based on a copy of the declaration of election.

[T.D. 89-3, 53 FR 51766, Dec. 23, 1988, as amended by T.D. 92-8, 57 FR 2455, Jan. 22, 1992]

than 20 years prior to importation, and except carpets, rugs, mats, and upholsteries, shall have affixed thereto a stamp, tag, label, or other means of identification, as required by the Wool Products Labeling Act of 1939 (54 Stat. 1129; 15 U.S.C. 68 *et seq.*) and the rules and regulations promulgated thereunder by the Federal Trade Commission (16 CFR part 300). The term "wool product" means any product, or any portion of a product, which contains, purports to contain, or in any way is represented as containing wool, reprocessed wool, or reused wool.

(b) If imported wool products are not correctly labeled and the port director is satisfied that the error or omission involved no fraud or willful neglect, the importer shall be afforded a reasonable opportunity to label the merchandise under Customs supervision to conform with the requirements of such act and the rules and regulations of the Federal Trade Commission. The compensation and expenses of Customs officers and employees assigned to supervise the labeling shall be reimbursed to the Government and shall be assessed in the same manner as in the case of marking of country of origin, § 134.55 of this chapter.

(c) Packages of wool products subject to the provisions of this section which are not designated for examination may be released pending examination of the designated packages, but only if there shall have been filed in connection with the entry bonds on Customs Form 301, containing the bond conditions set forth in § 113.62 and/or § 113.68 of this chapter, as appropriate, in such amount as the port director may require.

(d) The port director shall give written notice to the importer of any lack of compliance with the Wool Products Labeling Act of 1939 in respect of an importation of wool products, and pursuant to § 141.113 of this chapter shall demand the immediate return of the involved products to Customs custody, unless the lack of compliance is forthwith corrected.

(e) If the products covered by a notice and demand given pursuant to paragraph (d) of this section are not promptly returned to Customs custody

**§ 11.12a****19 CFR Ch. I (4–1–99 Edition)**

and the port director is not fully satisfied that they have been brought into compliance with the Wool Products Labeling Act of 1939, appropriate action shall be taken to effect the collection of liquidated damages in an amount equal to the entered value of the merchandise not redelivered, plus the estimated duty thereon as determined at the time of entry, unless the owner or consignee shall file with the appropriate Customs officer an application for cancellation of the liability incurred under the bond upon the payment as liquidated damages of a lesser amount than the full amount of the liquidated damages incurred, or upon the basis of such other terms and conditions as the Secretary of the Treasury may deem sufficient. The application shall contain a full statement of the reasons for the requested cancellation and shall be in duplicate.

(f) If any fraudulent violation of the act with respect to imported articles comes to the attention of the port director, the involved merchandise shall be placed under seizure, or a demand shall be made for the redelivery of the merchandise if it has been released from Customs custody, and the case shall be reported to the Federal Trade Commission, Washington, D.C.

The term “fur product” means any article of wearing apparel made in whole or in part of fur or used fur; except that such term shall not include such articles as the Federal Trade Commission shall exempt by reason of the relatively small quantity or value of the fur or used fur contained therein.

(b) If imported fur products are not correctly labeled and the port director is satisfied that the error or omission involved no fraud or willful neglect, the importer shall be afforded a reasonable opportunity to label the merchandise under Customs supervision to conform with the requirements of such act and the rules and regulations of the Federal Trade Commission. The compensation and expenses of Customs officers and employees assigned to supervise the labeling shall be reimbursed to the Government and shall be assessed in the same manner as in the case of marking of country of origin, § 134.55 of this chapter.

(c) Packages of fur products subject to the provisions of this section which are not designated for examination may be released pending examination of the designated packages, but only if there shall have been filed in connection with the entry bonds on Customs Form 301, containing the bond conditions set forth in § 113.62 and/or § 113.68 of this chapter, as appropriate, in such amount as the port director may require.

(d) The port director shall give written notice to the importer of any lack of compliance with the Fur Products Labeling Act in respect of an importation of fur products, and pursuant to § 141.113 of this chapter shall demand the immediate return of the involved products to Customs custody, unless the lack of compliance is forthwith corrected.

(e) If the products covered by a notice and demand given pursuant to paragraph (d) of this section are not promptly returned to Customs custody and the port director is not fully satisfied that they have been brought into compliance with the Fur Products Labeling Act, appropriate action shall be taken to effect the collection of liquidated damages in an amount equal to the entered value of the merchandise not redelivered, plus the estimated duty thereon as determined at the time of entry, unless the owner or consignee shall file with the appropriate Customs officer an application for cancellation of the liability incurred under the bond upon the payment as liquidated damages of a lesser amount than the full

amount of the liquidated damages incurred, or upon the basis of such other terms and conditions as the Secretary of the Treasury may deem sufficient. The application shall contain a full statement of the reasons for the requested cancellation and shall be in duplicate.

(f) If any fraudulent violation of the act with respect to imported articles comes to the attention of a port director, the involved merchandise shall be placed under seizure, or a demand shall be made for the redelivery of the merchandise if it has been released from Customs custody, and the case shall be reported to the Federal Trade Commission, Washington, DC 20580.

An invoice or other paper, containing the specified information may be used in lieu of a label where the textile product is not in the form intended for sale, delivery to, or for use by the ultimate consumer. Rule 31 of the Federal Trade Commission (16 CFR 303.31).

(b) If imported fiber products are not correctly labeled and the port director is satisfied that the error or omission involved no fraud or willful neglect, the importer shall be afforded a reasonable opportunity to label the merchandise under customs supervision to conform with the requirements of such Act and the rules and regulations of the Federal Trade Commission. The compensation and expenses of Customs officers and employees assigned to supervise the labeling shall be reimbursed to the Government and shall be assessed

Washington, DC 20240, or his authorized representative. If any such prohibited specimen is imported, or if any species or subspecies of other live or dead fish or wildlife, including any parts, products, or eggs thereof, appearing on the Endangered Species List published by the U.S. Fish and Wildlife Service, is imported, Customs release of the prohibited specimen or endangered fish or wildlife shall be refused unless there has been issued and presented in connection with entry a proper U.S. Fish and Wildlife Service permit authorizing the import transaction. In the absence of such permit, injurious specimens prohibited entry shall be required to be immediately exported or destroyed. Changes in injurious species and endangered species or subspecies which are prohibited or restricted importation may be published from time to time in 50 CFR part 13—Importation of Wildlife or Eggs Thereof or in part 17—Conservation of Endangered Species and Other Fish or Wildlife. Unreleased species or subspecies of live or dead endangered fish or wildlife, including parts, products, or eggs thereof, shall remain under detention subject to seizure and delivery to an appropriate regional director or other agent of the U.S. Fish and Wildlife Service for disposition as appropriate pursuant to 50 CFR part 17.

(2) Fish and eggs of salmonids of the fish family Salmonidae are prohibited entry into the United States for any purpose unless such importations are by direct shipment, accompanied by the signed certification of a qualified fish pathologist in substantially the form as prescribed in 50 CFR 13.7. The following are excepted from the certification requirements:

(i) Salmon landed in North America and brought into the United States for processing or sale;

(ii) Any salmonid caught in the wild in North America under a sport or a commercial fishing license; and

(iii) Fish or eggs of the family Salmonidae when processed or prepared in accordance with 50 CFR 13.7(c), or otherwise exempted from the requirement of certification.

(3) Regulations (50 CFR part 17) require the importer or his agent to file a Declaration for the Importation of

Fish or Wildlife, unless it is an import transaction exempted from the requirement by 50 CFR part 13 or part 17. Such declaration on U.S. Fish and Wildlife Service Form 3-177, available to importers through Customs ports of entry, shall be filed with the appropriate Customs officer at the port of entry conducting the actual Customs clearance and release of the declared fish, wild mammal, or bird, amphibian, reptile, mollusk, crustacean, or dead body or egg thereof. The declaration on Form 3-177 shall show the common and scientific names, number, and country of origin of all species or subspecies declared, designate and identify any species listed on the U.S. List of Endangered Foreign Fish and Wildlife, 50 CFR part 17, appendix A, and indicate whether any species is subject to laws and regulations in any foreign country regarding its taking, transportation, or sale. See paragraph (g) of this section for special documentation requirements.

(4) Federal agencies, subject to requirements in paragraph (a)(2) of this section, may import solely for their own use live wildlife except migratory birds, or their eggs, without a permit from the U.S. Fish and Wildlife Service, upon filing the declaration on Form 3-177. Importation of bald or golden eagles, or their eggs is prohibited.

(5) Customs entry for consumption or bonded warehousing of fish and wildlife, as defined in 50 CFR 17.2 (e) and (f), intended for importation into the United States, or admission into a foreign trade zone, shall be filed at a port of entry among those designated for Customs entry in 50 CFR part 17, appendix B. However, Customs entry for consumption or bonded warehousing of shipments subject to emergency diversion or otherwise authorized under regulations or by permit issued by the U.S. Fish and Wildlife Service pursuant to 50 CFR part 17, appendices B and C, may be filed for examination and release at the ports of entry so named or permitted, but no consumption or bonded warehouse entry shall be filed or accepted at an undesignated port for any endangered species or subspecies permitted importation pursuant to 50 CFR 17.12 except in the case of an emergency

diversion of live endangered fish or wildlife accepted for such entry in accordance with item 2(b) of 50 CFR part 17, appendix B. Importations of fish and wildlife subject to regulations of the U.S. Fish and Wildlife Service which arrive from abroad at any place in the United States not designated as an authorized port for Customs entry, unless occurring under conditions or circumstances in which Customs entry for consumption or bonded warehousing and final clearance has been authorized by U.S. Fish and Wildlife Service regulations or permit, may be entered only for immediate transportation without appraisal for movement under Customs bond to one of the designated ports of entry. Customs entry, release, and delivery of any shipment of shellfish and fishery products defined in 50 CFR 17.2(j) imported for commercial purposes is authorized at any port of entry, except insofar as such items include any species or subspecies which appears on the Endangered Species List in 50 CFR part 17, appendix A.

(b) Permits are required for the importation of wild animals and birds as follows:

(1) Wild birds protected by the Migratory Bird Treaty Act (16 U.S.C. 703 through 711) and the regulations promulgated thereunder (50 CFR part 10), may be imported from foreign countries for scientific, propagating, or other limited purposes only under permits issued by the U.S. Fish and Wildlife Service, United States Department of the Interior, Washington, DC, 20240. State game departments, municipal game farms or parks, and public museums, zoological parks or societies, and scientific or educational institutions may import migratory birds without a permit. Such migratory birds, when imported from Mexico, must be accompanied by Mexican export permits (50 CFR 16.3 and 16.5).

(2) Game mammals (antelopes, mountain sheep, deer, bears, peccaries, squirrels, rabbits, and hares), protected by the Migratory Bird Treaty Act (16 U.S.C. 703 through 711), dead or alive, or their parts or products, must be accompanied by Mexican export permits (50 CFR 15.3) when imported from Mexico.

(3) Wild ruminants (all animals which chew the cud, such as cattle, buffaloes, sheep, goats, deer, antelopes, camels, llamas, and giraffes) and swine (various varieties of wild hogs), except from Canada and certain northern States of Mexico may be imported only under a permit from the Animal and Plant Health Inspection Service, Veterinary Services, United States Department of Agriculture, Washington, DC 20250. Such permits must be obtained before the animals are shipped from the country of exportation. All wild ruminants and swine must be inspected at designated ports of entry by veterinarians of the Animal and Plant Health Inspection Service, Veterinary Services, United States Department of Agriculture.

(4) Psittacine birds, which include all birds commonly known as parrots, Amazons, African grays, cockatoos, macaws, parrotlets, beebees, parakeets, lovebirds, lorries, lorikeets, and all other birds of the order Psittaciformes, when destined for a zoological park or medical research institution without having had prior confinement and treatment abroad at an approved treatment center, and psittacine birds taken out of the United States but inadmissible under paragraph (c) of this section, may be imported when accompanied by a permit issued by the Surgeon General. Application for such a permit may be made to the Chief, Foreign Quarantine Program, National Communicable Disease Center, U.S. Public Health Service, Atlanta, Ga. 30333, or to a Public Health Service quarantine station established at a port of entry in the United States.

(5) Ducks, geese, swans, turkeys, pigeons, doves, pheasants, grouse, partridges, quail, guinea fowl, and pea fowl, except from Canada, may be imported only under a permit from the Animal and Plant Health Inspection Service, Veterinary Services, United States Department of Agriculture, Washington, DC 20250. Such permits must be obtained before the birds are shipped from the country of origin. Such birds from Canada must be accompanied by a certificate issued by a Canadian Government veterinarian. All such birds must be inspected at designated ports of entry by veterinarians

of the Animal and Plant Health Inspection Service, Veterinary Services, United States Department of Agriculture.

(c) Psittacine birds as defined in paragraph (b)(4) of this section, not to exceed two such birds by members of a family comprising a single household in any 12-month period, may be imported under prescribed conditions (see 42 CFR 71.164(e)) without permit and without prior confinement and treatment, to be kept as pets by the owner, who will be required to comply with the Foreign Quarantine Regulations of the U.S. Public Health Service. Birds taken out of the United States and being returned may be admitted, without permit, upon full compliance with prescribed conditions of those regulations for admission of birds imported as pets. No such birds shall be released until the importer has complied with applicable requirements of the Public Health regulations.

(d) Cats, dogs, and monkeys are subject to the Foreign Quarantine Regulations of the United States Public Health Service, Department of Health, Education, and Welfare, Washington, D.C. Such animals shall not be released until the Public Health regulations are complied with by the importer.

(e) If a shipment contains migratory birds for which a permit is required by the Fish and Wildlife Service of the Department of the Interior, and such permit is not at hand when the birds arrive, an examination thereof shall be made at once by the port director and any duties estimated to be due shall be collected. A stipulation shall be filed with the port director within 24 hours of the entry to produce the necessary permit within 30 days from the date of entry, whereupon final liquidation shall be suspended until the permit is produced or the 30-day period expires. The shipment may be immediately released if a bond is filed with the port director on Customs Form 301, containing the bond conditions set forth in §113.62 of this chapter, in an amount equal to the entered value plus estimated duties. If the bond conditions are violated the port director shall issue a claim for liquidated damages under the bond. In lieu of filing a bond

the merchandise may be left in Customs custody at the risk and expense of the importer pending issuance of the permit.

(f) If the permit referred to in paragraph (e) of this section is refused by the Fish and Wildlife Service, or if the permit is not produced within the said 30 days, the port director shall promptly recall the property, if delivered under bond, and shall require its immediate exportation at the expense of the importer or consignee.

(g)(1) All import shipments of fish and wildlife subject to the regulations or permit requirements of the U.S. Fish and Wildlife Service, published pursuant to the Endangered Species Act of 1973, 16 U.S.C. 1531, or other statutory authority, shall be subject to examination or inspection by that agency's officer serving the port of entry, for determination as to permissible release or such other disposition as he may direct. Customs officers performing examinations of such fish and wildlife in accordance with regulations of the U.S. Fish and Wildlife Service in 50 CFR part 10 and parts 13 through 17, shall release shipments only upon submission by the importer of evidence sufficient to establish compliance with those regulations, any applicable permit requirements, and compliance with applicable identification and package or container marking requirements as specified by 50 CFR 17.6(a) and 17.9. In case of doubt as to whether fish, birds, or other wildlife belong to prohibited or endangered species or subspecies or whether an entry permit is required, or in case of suspicion on the part of officers of the Customs that the species sought to be entered are prohibited or endangered species or subspecies imported under other names or descriptions, the importation shall be refused Customs release, and the importer shall be responsible for concluding arrangements acceptable to the regional director or other agent of the U.S. Fish and Wildlife Service for proper handling, custody, and care, at the importer's expense and risk, of the unreleased fish, birds, or other wildlife. No Customs disposition of the importation shall be concluded pending the determination by the U.S. Fish and Wildlife Service of the true nature of the spe-

cies or subspecies. In case of refusal or neglect of the importer or consignee, or agent of either, to have the identity so established, final disposition of the importation shall be required as determined by the U.S. Fish and Wildlife Service. In addition to U.S. Fish and Wildlife Service Form 3–177, required to be filed as prescribed in 50 CFR 17.4 upon entry of importations of fish and wildlife, entrants shall present appropriate foreign export permits, other acceptable foreign documentary evidence of lawful taking, transportation, or sale, or appropriate American consular certificates upon importation of fish and wildlife species or subspecies subject to such documentation requirements of 50 CFR 17.4 (c) and (d).

(2) Any antique article imported under § 10.53(g) of this chapter shall be entered at one of the following ports:

Boston, Massachusetts  
New York, New York  
Baltimore, Maryland, Philadelphia, Pennsylvania  
Miami, Florida, San Juan, Puerto Rico  
New Orleans, Louisiana  
Houston, Texas  
Los Angeles, California  
San Francisco, California  
Anchorage, Alaska, Honolulu, Hawaii  
O'Hare International Airport, Chicago, Illinois

(h) All invoices of animals and birds shall specify the species covered thereby and the number of each species. In the event of the return to the port director of any importation under the bond given under paragraph (e) of this section, if the number and species of birds does not correspond with the description stated in the invoice and if no satisfactory explanation of any discrepancy is furnished, a claim for liquidated damages shall be issued under the bond.

(i) The privilege of entry for immediate transportation granted by section 552, Tariff Act of 1930, shall not be allowed for importations of fish, birds, or other wildlife which are confirmed at the port of first arrival or discharge to be injurious prohibited species, or which require permits issued prior to importation, or which are subject to quarantine regulations or inspection at the ports of first arrival or discharge or other specified place of veterinary inspection. However, entry for immediate

transportation properly is allowed for any importation of fish, birds, or other wildlife which at the place of first arrival or discharge is not confirmed to be an injurious prohibited specie and which, following compliance with any applicable quarantine regulations or required veterinary inspection, is being transported by means of an in-bond movement to a port of entry designated in 50 CFR part 17, appendix B, for Customs entry (see paragraphs (a) and (b) of this section). Ports of designated entry, inspection, quarantine, and related enforcement procedures covering certain animals and poultry and certain animal and poultry products imported into the United States are regulated by requirements and standards prescribed in regulations of the Secretary of Agriculture, Department of Agriculture (see 9 CFR parts 92-96; 19 CFR 12.8 and 12.24).

(j) Wild animals and birds shall be imported under humane and healthful conditions, due regard being given to the accommodations and facilities necessary for the species transported.

(k) When any Customs officer has good reason to believe that wild animals or birds have been imported under inhumane or unhealthful conditions in violation of 18 U.S.C. 42, an immediate investigation shall be made to ascertain whether they have in fact been transported under such conditions. The investigation shall determine the provisions made on the vessel or other conveyance for the accommodation of the animals or birds, the suitability of the boxes, cages, stalls, etc., the space, ventilation, and protection from the elements accorded the animals or birds, the facilities for cleaning, feeding, watering, bedding, and such other services as may be required for the species imported. The investigation shall also determine the physical condition of such animals or birds and the ratio of dead, crippled, diseased, or starving animals or birds. If necessary, officers of the Animal and Plant Health Inspection Service, Veterinary Services, or Fish and Wildlife Service, or other officers or experts, may be called upon to assist customs officers in the matter.

(l) Unless the port director is satisfied that the provisions of 18 U.S.C. 42 have not been violated, he shall report

the matter to the United States attorney for appropriate action.

### UNFAIR COMPETITION

## § 12.39 Imported articles involving unfair methods of competition or practices.

(a) *Determinations of the International Trade Commission.* Under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), unfair methods of competition and unfair practices in the importation or sale of articles, the effect or tendency of which is to destroy, substantially injure, or prevent the establishment of an efficiently and economically operated United States industry, or to restrain or monopolize trade and commerce in the United States, are unlawful. After an investigation of an alleged violation of section 337, the U.S. International Trade Commission ("the Commission") may determine that section 337 has been violated. The Commission also may determine during the course of its investigation that there is reason to believe that a violation of section 337 exists. The Commission's determination in either case is effective on the date of its publication in the FEDERAL REGISTER and is referred to the President, who may disapprove the determination for policy reasons on

or before the close of a 60-day period beginning on the day after the day he receives a copy of the determination. A Commission determination disapproved by the President shall have no force or effect as of the date the Commission is notified of his disapproval. If the Commission's determination is not disapproved by the President during the 60-day period, or if he notifies the Commission before the close of the period that he approves the determination, the determination becomes final on the day after the close of the period or the day of the notification, whichever is earlier.

(b) *Exclusion from entry; entry under bond; notice of exclusion order.* (1) If the Commission finds a violation of section 337, or reason to believe that a violation exists, it may direct the Secretary of the Treasury to exclude from entry into the United States the articles concerned which are imported by the person violating or suspected of violating section 337. The Commission's exclusion order remains in effect until the Commission determines, and notifies the Secretary of the Treasury, that the conditions which led to the exclusion no longer exist, or until the determination of the Commission on which the order is based is disapproved by the President.

(2) During the period the Commission's exclusion order remains in effect, excluded articles may be entered under a single entry bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter in an amount determined by the International Trade Commission. However, on or after the date that the Commission's determination of a violation of section 337 becomes final, as set forth in paragraph (a) of this section, articles covered by the determination shall be refused entry.

(3) Port directors shall notify each importer or consignee of articles released under bond pursuant to paragraph (b)(2) of this section when the Commission's determination of a violation of section 337 becomes final and that entry of the articles is refused. The importer or consignee shall export or destroy the released articles under customs supervision within 30 days after the date of notification. The port

director who released the articles shall assess liquidated damages in the full amount of the bond if the importer or consignee fails to export or destroy the released articles under Customs supervision within the 30-day period.

(4) In addition to the notice given to importers or consignees of articles released under bond, port directors shall provide written notice to all owners, importers or consignees of articles which are denied entry into the United States pursuant to an exclusion order that any future attempt to import such articles may result in the articles being seized and forfeited. Copies of all such notices are to be forwarded to the Commercial Enforcement, Trade Compliance Division, at Customs Headquarters, and to the Office of The General Counsel, USITC, 500 E Street, SW., Washington, DC 20436 by port directors.

(c) *Seizure and Forfeiture Orders.* (1) In addition to issuing an exclusion order under paragraph (b)(1) of this section, the Commission may issue an order providing that any article determined to be in violation of § 337 be seized and forfeited to the United States. Such order may be issued if:

(i) The owner, importer, or consignee of the article previously attempted to import the article or like articles into the United States;

(ii) The article or like articles were previously denied entry into the United States by reason of an exclusion order issued under paragraph (b)(1) of this section; and

(iii) Upon such previous denial of entry, the port director of the port in which the entry was attempted had notified the owner, importer, or consignee of the article in writing of both the exclusion order and that seizure and forfeiture would result from any further attempt to import the article or like articles into the United States.

(2) Upon receipt of any seizure order issued by the Commission in accordance with this paragraph, Customs shall immediately notify all ports of entry of the property subject to the seizure order and identify the persons notified under paragraph (b)(4) of this section.

(3) The port director in the port in which the article was seized shall issue a notice of seizure to parties known to

## 19 CFR Ch. I (4–1–99 Edition)

have an interest in the seized property. All interested parties to the property shall have an opportunity to petition for relief under the provisions of 19 CFR part 171. All petitions must be filed within 30 days of the date of issuance of the notice of seizure, and failure of a claimant to petition will result in the commencement of administrative forfeiture proceedings. All petitions will be decided by the appropriate Customs officer, based upon the value of the articles under seizure.

(4) If seized articles are found to be not includable in an order for seizure and forfeiture, then the seizure and the forfeiture shall be remitted in accordance with standard Customs procedures.

(5) Forfeited merchandise shall be disposed of in accordance with the Customs laws.

(d) *Certain importations by or for the United States.* Any exclusion from entry under section 337 based on claims of United States letters patent shall not apply to articles imported by and for the use of the United States, or imported for, and to be used for, the United States with the authorization or consent of the Government.

(e) *Importations of semiconductor chip products.* (1) In accordance with the Semiconductor Chip Protection Act of 1984 (17 U.S.C. 901 *et seq.*), if the owner of a mask work which is registered with the Copyright Office seeks to have Customs deny entry to any imported semiconductor chip products which infringe his rights in such mask work, the owner must obtain a court order enjoining, or an order of the U.S. International Trade Commission (USITC), under section 337, Tariff Act of 1930, as amended (19 U.S.C.1337), excluding, importation of such products. Exclusion orders issued by the USITC are enforceable by Customs under paragraph (b) of this section. Court orders or exclusion orders issued by the USITC shall be forwarded, for enforcement purposes, to the Director, International Trade Compliance Division, U.S. Customs Service, Washington, DC 20229.

(2) The port director shall enforce any court order or USITC exclusion order based upon a mask work registration in accordance with the terms of such order. Court orders may require

either denial of entry or the seizure of violative semiconductor chip products. Forfeiture proceedings in accordance with part 162 of this chapter shall be instituted against any such products so seized.

(3) This regulation will be effective against all importers regardless of whether they have knowledge that their importations are in violation of the Semiconductor Chip Protection Act of 1984 (17 U.S.C. 901 through 904).

### § 12.39a Registered patent owners; import survey.

(a) When the owner of a patent registered in the United States believes that merchandise is being imported into the United States which infringes such patent, an application for a survey to assist the patent owner in taking appropriate action may be made. The purpose of the survey is to provide the patent owner with the names and addresses of importers of merchandise which appears to infringe the registered patent.

(b) The application may be made by letter addressed to the Commissioner of Customs, U.S. Customs Service, Washington, DC 20229. It shall state the name and address of the patent owner; and if available, a description of the merchandise believed to infringe the registered patent and the country of manufacture of the merchandise. A certified copy of the patent registration issued by the Patent and Trademark Office showing ownership to be in the name as claimed, 3 additional copies of the patent registration for Customs files, and a check or money order to cover the fee prescribed by § 24.12(a)(3) of this chapter for the survey selected shall be submitted with the application.

(c) Surveys will be made for periods of 2, 4 or 6 months at the option of the applicant.

### IMMORAL ARTICLES

#### **§ 12.40 Seizure; disposition of seized articles; reports to United States attorney.**

(a) Any book, pamphlet, paper, writing, advertisement, circular, print, picture, or drawing containing any matter advocating or urging treason or insurrection against the United States or forcible resistance to any law of the United States, or containing any threat to take the life of or inflict bodily harm upon any person in the United States, seized under section 305, Tariff Act of 1930, shall be transmitted to the United States attorney for his consideration and action.

(b) Upon the seizure of articles or matter prohibited entry by section 305, Tariff Act of 1930 (with the exception of the matter described in paragraph (a) of this section), a notice of the seizure of such articles or matter shall be sent to the consignee or addressee.

(c) When articles of the class covered by paragraph (b) of this section are of small value and no criminal intent is apparent, a blank assent to forfeiture, Customs Form 4607, shall be sent with the notice of seizure. Upon receipt of the assent to forfeiture duly executed, the articles shall be destroyed if not needed for official use and the case closed.

(d) In the case of a repeated offender or when the facts indicate that the importation was made deliberately with intent to evade the law, the facts and evidence shall be submitted to the United States attorney for consideration of prosecution of the offender as well as an action in rem under section 305 for condemnation of the articles.

(e) All cases in which articles have been seized pursuant to 19 U.S.C. 1305(a) should be referred to the U.S. Attorney, for possible institution of condemnation proceedings, within 4 days, but in no event more than 14 days, after the date of Customs initial examination. The referral to the U.S. Attorney should be initiated simultaneously with the mailing to the importer of the seizure notice and the assent to forfeiture form. If the importer declines to execute an assent to forfeiture of the articles other than those mentioned in paragraph (a) of this section and fails to submit, within 30 days

after being notified of his privilege to do so, a petition under section 618, Tariff Act of 1930 (19 U.S.C. 1618), for remission of the forfeiture and permission to export the seized articles, then the U.S. Attorney, who has already received information concerning the seizure pursuant to this paragraph, may proceed with the condemnation action.

(f) If seizure is made of books or other articles which do not contain obscene matter but contain information or advertisements relative to means of causing unlawful abortion, the procedure outlined in paragraphs (b), (c), (d), and (e) of this section shall be followed.

(g) In any case when a book is seized as being obscene and the importer declines to execute an assent to forfeiture on the ground that the book is a classic, or of recognized and established literary or scientific merit, a petition addressed to the Secretary of the Treasury with evidence to support the claim may be filed by the importer for release of the book. Mere unsupported statements or allegations will not be considered. If the ruling is favorable, release of such book shall be made only to the ultimate consignee.

(h) Whenever it clearly appears from information, instructions, advertisements enclosed with or appearing on any drug or medicine or its immediate or other container, or otherwise that such drug or medicine is intended for inducing unlawful abortion, such drug or medicine shall be detained or seized.

(c) Any objectionable film shall be detained pending instructions from Headquarters, U.S. Customs Service or a decision of the court as to its final disposition.

### MERCHANDISE PRODUCED BY CONVICT, FORCED, OR INDENTURED LABOR

#### § 12.42 Findings of Commissioner of Customs.

(a) If any port director or other principal Customs officer has reason to believe that any class of merchandise which is being, or is likely to be, imported into the United States is being produced, whether by mining, manufacture, or other means, in any foreign locality with the use of convict labor, forced labor, or indentured labor under penal sanctions so as to come within the purview of the first sentence of section 307, Tariff Act of 1930, he shall communicate his belief to the Commissioner of Customs. Every such communication shall contain or be accompanied by a statement of substantially the same information as is required in paragraph (b) of this section, if in the possession of the port director or other officer or readily available to him.

(b) Any person outside the Customs Service who has reason to believe that merchandise produced in the circumstances mentioned in paragraph (a) of this section is being, or is likely to be, imported into the United States and, if the production is with the use of forced labor or indentured labor under penal sanctions, that merchandise of the same class is being produced in the United States in such quantities as to meet the consumptive demands of the United States may communicate his belief to any port director or the Com-

missioner of Customs. Every such communication shall contain, or be accompanied by, (1) a full statement of the reasons for the belief, (2) a detailed description or sample of the merchandise, and (3) all pertinent facts obtainable as to the production of the merchandise abroad. If the foreign merchandise is believed to be mined, produced, or manufactured with the use of forced labor or indentured labor under penal sanctions, such communication shall also contain (4) detailed information as to the production and consumption of the particular class of merchandise in the United States and the names and addresses of domestic producers likely to be interested in the matter.

(c) If any information filed with a port director pursuant to paragraph (b) of this section does not conform with the requirements of that paragraph, the communication shall be returned promptly to the person who submitted it with detailed written advice as to the respects in which it does not conform. If such information is found to comply with the requirements, it shall be transmitted by the port director within 10 days to the Commissioner of Customs, together with all pertinent additional information available to the port director.

(d) Upon receipt by the Commissioner of Customs of any communication submitted pursuant to paragraph (a) or (b) of this section and found to comply with the requirements of the pertinent paragraph, the Commissioner will cause such investigation to be made as appears to be warranted by the circumstances of the case and the Commissioner or his designated representative will consider any representations offered by foreign interests, importers, domestic producers, or other interested persons.

(e) If the Commissioner of Customs finds at any time that information available reasonably but not conclusively indicates that merchandise within the purview of section 307 is being, or is likely to be, imported, he will promptly advise all port directors accordingly and the port directors shall thereupon withhold release of any such merchandise pending instructions from the Commissioner as to whether the

merchandise may be released otherwise than for exportation.

(f) If it is determined on the basis of the foregoing that the merchandise is subject to the provisions of the said section 307, the Commissioner of Customs, with the approval of the Secretary of the Treasury, will publish a finding to that effect in a weekly issue of the Customs Bulletin and in the FEDERAL REGISTER.

(g) Any merchandise of a class specified in a finding made under paragraph (f) of this section, which is imported directly or indirectly from the locality specified in the findings and has not been released from Customs custody before the date of publication of such finding in the FEDERAL REGISTER shall be considered and treated as an importation prohibited by section 307, Tariff Act of 1930, unless the importer establishes by satisfactory evidence that the merchandise was not mined, produced, or manufactured in any part with the use of a class of labor specified in the finding.

(h) The following findings made under the authority of section 307, Tariff Act of 1930 are currently in effect with respect to the merchandise listed below:

### § 12.43 Proof of admissibility.

(a) If an importer of any article detained under § 12.42(e) or (g) desires to contend that the article was not mined, produced, or manufactured in any part with the use of a class of labor specified in section 307, Tariff Act of 1930, he shall submit to the Commissioner of Customs within 3 months after the date the article was imported a certificate of origin in the form set forth below, signed by the foreign seller or owner of the article. If the article was mined, produced, or manufactured wholly or in part in a country other than that from which it was exported to the United States, an additional certificate in such form and signed by the last owner or seller in such other coun-

(b) The importer shall also submit to the Commissioner of Customs within such 3-month period a statement of the ultimate consignee of the merchandise, showing in detail that he had made every reasonable effort to determine the source of the merchandise and of every component thereof and to ascertain the character of labor used in the production of the merchandise and each of its components, the full results of his investigation, and his belief with respect to the use of the class of labor specified in the finding in any stage of the production of the merchandise or of any of its components.

(c) If the certificate or certificates and statements specified in paragraphs (a) and (b) of this section are submitted within the time prescribed and the Commissioner finds that the merchandise is admissible, the port director concerned will be advised to that effect, whereupon he shall release the merchandise upon compliance with the usual entry requirements.

### § 12.44 Disposition.

Merchandise detained pursuant to § 12.42 may be exported at any time before it is deemed to have been abandoned as hereinafter provided for. If it

## § 12.45

has not been exported within 3 months after the date of importation, the port director shall ascertain whether the proof specified in § 12.43 has been submitted within the time prescribed in that section. If the proof has not been so submitted, or if the Commissioner of Customs advises the port director that the proof furnished does not establish the admissibility of the merchandise, the port director shall promptly advise the importer in writing that the merchandise is excluded from entry. Upon the expiration of 60 days after the delivery or mailing of such advice by the port director, the merchandise shall be deemed to have been abandoned and shall be destroyed, unless it has been exported or a protest has been filed as provided for in section 514, Tariff Act of 1930.

## § 12.45 Transportation and marketing of prison-labor products.

If any apparent violation of section 1761 or 1762, title 18, United States Code, with respect to any imported article comes to the attention of a port director, he shall detain the article and report the facts to the appropriate United States attorney. If the United States attorney advises the port director that action should be taken against the article, it shall be seized and held pending the receipt of further instructions from the United States attorney or the court.

stamps may be admitted to entry. Printed matter containing illustrations or reproductions not executed in accordance with such exceptions shall be treated as prohibited importations. If no application for exportation or assent to forfeiture and destruction is received by the port director within 30 days from the date of notification to the importer that the articles are prohibited, the articles shall be reported

albums (but not for advertising purposes, except illustrations of stamps and paper money in philatelic or numismatic advertising of legitimate numismatists and dealers in stamps or publishers of or dealers in philatelic or numismatic articles, books, journals, newspapers, or albums). Illustrations permitted by the foregoing provisions of this section shall be made in accordance with the following conditions—

(i) All illustrations shall be in black and white, except that illustrations of postage stamps issued by the United States or by any foreign government may be in color;

(ii) All illustrations (including illustrations of uncanceled postage stamps in color) shall be of a size less than three-fourths or more than one and one-half, in linear dimension, of each part of any matter so illustrated which is covered by subparagraph (A), (B), (C), or (D) of this paragraph, except that black and white illustrations of postage and revenue stamps issued by the United States or by any foreign government and colored illustrations of canceled postage stamps issued by the United States may be in the exact linear dimension in which the stamps were issued; and

(iii) The negatives and plates used in making the illustrations shall be destroyed after their final use in accordance with this section.

(2) The making or importation, but not for advertising purposes except philatelic advertising, of motion-picture films, microfilms, or slides, for projection upon a screen or for use in telecasting, of postage and revenue stamps and other obligations and securities of the United States, and postage and revenue stamps, notes, bonds, and other obligations or securities of any foreign government, bank, or corporation. No prints or other reproductions shall be made from such films or slides, except for the purposes of paragraph (1), without the permission of the Secretary of the Treasury.

For the purposes of this section the term “postage stamp” includes “postage meter stamps.” (18 U.S.C. 504).

ENTRY OF MOTOR VEHICLES, MOTOR VEHICLE ENGINES AND NONROAD ENGINES UNDER THE CLEAN AIR ACT, AS AMENDED

### § 12.73 Motor vehicle and engine compliance with Federal antipollution emission requirements.

(a) *Applicability of EPA requirements.* This section is ancillary to the regulations of the U.S. Environmental Protection Agency (EPA) issued under the Clean Air Act, as amended (42 U.S.C. 7401 *et seq.*), and found in 40 CFR parts 85 and 86. Those regulations should be consulted for more detailed information concerning EPA emission require-

ments. The requirements apply to imported motor vehicles, but do not apply to separately imported non-chassis mounted engines to be used in light-duty trucks or other light-duty vehicles. Other separately imported engines for heavy-duty motor vehicles are covered, and all references in this section to motor vehicles should be deemed to include motor vehicles as well as these heavy-duty engines. Nothing in this section should be construed as limiting or changing in any way the applicability of the EPA regulations.

(b) *Importation of complying vehicles—*  
(1) *Labeled vehicles.* Vehicles which in their condition as imported are covered by an EPA certificate of conformity and which bear the manufacturer's label showing such conformity and other EPA-required information shall be deemed in compliance with applicable emission requirements for the purpose of Customs admissibility and entry liquidation determinations. This paragraph does not apply to importations of ICI's covered by paragraph (d) of this section.

(2) *Pending certification.* Vehicles otherwise covered by paragraph (b)(1) of this section which were manufactured for compliance with applicable emission requirements, but for which an application for a certificate of conformity is pending with the EPA may be conditionally released from Customs custody pending production of the certificate of conformity within 120 days of release.

(c) *Importation of vehicles previously in compliance—*(1) *Vehicles of returning residents.* Vehicles of residents returning from Canada, Mexico or other countries as EPA may designate are not covered by this section.

(2) *Vehicles of commuting nonresidents and tourists.* A port director through the issuance of an appropriate means of identification to be affixed to a vehicle may waive all of the requirements of this section for a nonresident regularly crossing the Canadian or Mexican border, or waive the requirements for Mexico or Canadian-registered vehicles of tourists or other travelers.

(3) *Participants in EPA-approved catalytic converter or oxygen sensor control programs.* Further evidence of emissions compliance will not be required

for catalytic converter or oxygen sensor-equipped vehicles imported for participating in EPA-approved catalytic converter or oxygen sensor control programs and subject to the requirements of those programs.

(4) *Previously labeled, modified or imported vehicles.* Any other vehicle of United States or foreign origin manufactured with a catalytic converter or oxygen sensor, or any previously imported vehicle subsequently modified with a catalytic converter or oxygen sensor, will not be deemed in compliance with applicable emission requirements if used outside of the United States, Canada, Mexico, or other countries as EPA may designate, until the catalytic converter and/or oxygen sensor is replaced. Conditional release from Customs custody for the purpose of the modification is subject to a 120-day period for completion. Subject to special documentation at the time of export from the United States and approval and other requirements of EPA, replacement of a catalytic converter or oxygen sensor may be avoided if the equipment is disconnected before export from the United States and reconnected after subsequent importation.

(d) *Importation of vehicles by ICI's.* Except for motor vehicles imported in the applicable circumstances covered by paragraphs (c), (e), (f), (g) or (h) of this section, an individual or business other than an independent commercial importer (ICI) holding a currently valid EPA certificate of conformity may not enter a motor vehicle to which EPA emission requirements apply. An ICI, subject to the more specific definition in EPA regulations, is an importer which does not have a contract with a foreign or domestic motor vehicle manufacturer for distributing products into the United States market. However, a motor vehicle may not be conditionally admitted unless it falls within one of the categories provided for in 40 CFR 85.1505 or 85.1509. Before the vehicle is deemed to be in compliance with applicable emission requirements and, therefore, finally admitted into the United States, the ICI must keep the vehicle in storage for a 15-working day period. This period follows notice to EPA of completion of the compliance work to give EPA the opportunity to

conduct confirmatory testing and inspect the vehicle and records. The 15-working day period is part of the 120-day period in which an ICI must bring the vehicle into emissions compliance. Individuals and businesses not entitled to enter nonconforming motor vehicles may arrange for their importation through an ICI certificate holder. In these circumstances, the ICI will not act as an agent or broker for Customs transaction purposes unless otherwise licensed or authorized to do so.

(e) *Exemptions and exclusions from emission requirements based on age of vehicle.* The following motor vehicles, except as shown, may be imported by any person and do not have to be shown to be in compliance with emission requirements or modified before entitled to admissibility:

(1) Gasoline-fueled light-duty trucks and light-duty motor vehicles manufactured before January 1, 1968;

(2) Diesel-fueled light-duty motor vehicles manufactured before January 1, 1975;

(3) Diesel-fueled light-duty trucks manufactured before January 1, 1976;

(4) Motorcycles manufactured before January 1, 1978;

(5) Gasoline-fueled and diesel-fueled heavy-duty engines manufactured before January 1, 1970; and

(6) Motor vehicles not otherwise exempt from EPA emission requirements and more than 20 years old. Age is determined by subtracting the year of production (as opposed to model year) from the year of importation. The exemption under this subparagraph is available only if the vehicle is imported by an ICI.

(f) *Exemption for exports.* A motor vehicle intended solely for export to a country not having the same emission standards applicable in the United States, and both the vehicle and its container bear a label or tag indicating that it is intended solely for export, is exempt from applicable United States emission requirements. 40 CFR 85.1709.

(g) *Exemptions for diplomats, foreign military personnel and nonresidents.* Subject to the condition that they are not resold in the United States, the following motor vehicles are exempt from applicable emission requirements:

## § 12.73

## 19 CFR Ch. I (4–1–99 Edition)

(1) A motor vehicle imported solely for the personal use of a nonresident importer or consignee and the use will be for a period not to exceed one year; and

(2) A motor vehicle of a member of the armed forces of a foreign country on assignment in the United States, or of a member of the personnel of a foreign government on assignment in the United States or other individual who comes within the class of persons for whom free entry of motor vehicles has been authorized by the Department of State in accordance with general principles of international law. For special documentation requirements see paragraph (i)(4) of this section.

(h) *Exemptions and exclusions based on prior EPA authorization.* The following motor vehicles are exempt or excluded from applicable emission requirements if prior approval has been obtained in writing from EPA:

(1) *Importations for repairs.* Any motor vehicle which is imported solely for repairs or alterations and which is not sold, leased, registered or licensed for use or operated on public roads or highways in the United States. 40 CFR 85.1511(b)(1);

(2) *Importations for testing.* Any motor vehicle imported solely for testing. Test vehicles may be operated on and registered for use on public roads or highways provided that the operation is an integral part of the test. 40 CFR 85.1511(b)(2). This exemption is limited to a period not exceeding one year from the date of importation unless a request is made under 40 CFR 85.1705(f) for a one-year extension;

(3) *Prototype vehicles.* Any motor vehicle imported for use as a prototype in applying for EPA certification. 40 CFR 85.1511(b)(3) and 85.1706. In the case of an ICI, unless the vehicle is brought into conformity within 180 days from the date of entry it shall be exported or otherwise disposed of subject to paragraph (1) of this section;

(4) *Display vehicles.* Any motor vehicle which is imported solely for display and which will not be sold, leased, registered or licensed for use on or operated on the public roads or highways in the United States. 40 CFR 85.1511(b)(4);

(5) *Racing cars.* Any motor vehicle which qualifies as a racing vehicle

meeting one or more of the criteria found at 40 CFR 85.1703(a), and which will not be registered or licensed for use on or operated on public roads or highways in the United States. See also 40 CFR 85.1511(c)(1);

(6) *National security importations.* Any motor vehicle imported for purposes of national security by a manufacturer. 40 CFR 85.1511(c)(2), 85.1702(a)(2) and 85.1708; and

(7) *Hardship exemption.* Any motor vehicle imported by anyone qualifying for a hardship exemption. 40 CFR 85.1511(c)(3).

(i) *Documentation requirements—(1) Exemption for manufacturers.* The special documentation requirements of this paragraph do not apply to the entry of any motor vehicles shown to be in compliance with applicable emission requirements under paragraph (b)(1) of this section relating to labeling.

(2) *Declarations of other importers.* Release from Customs custody shall be refused with respect to all other entries unless there is filed with the entry in duplicate a declaration in which the importer or consignee declares or affirms its status as an original equipment manufacturer, an ICI holding an applicable certificate of conformity, or other status, and further declares or affirms the status or condition of the imported vehicles and the circumstances concerning importation including a citation to the specific paragraph or subparagraph in this section upon which application for conditional or final release from Customs custody is applied for.

(3) *Other documentation and information.* An importer's declaration shall include or be submitted with the following further information and documentation:

(A) The importer's name and address and telephone number;

(B) Identification of the vehicle or engine number, the vehicle owner's taxpayer identification number, and his or her current address and telephone number in the United States if different than as provided for in paragraph (3)(A) of this paragraph;

(C) Identification, where applicable, of the place where the vehicle will be stored until EPA approval of the importer's application to EPA for final

admission as required for vehicles imported under 40 CFR 85.1505, 85.1509, or 85.1512 having reference to certain importations under paragraphs (c)(4) or (d)(1) of this section;

(D) Authorization for EPA enforcement officers to conduct inspections or testing otherwise permitted by the Clean Air Act and regulations promulgated thereunder;

(E) Identification, where applicable, of the certificate of conformity by means of which the vehicle is being imported;

(F) The date of manufacture of the vehicle;

(G) The date of entry;

(H) Identification of the vessel or carrier on which the merchandise was shipped;

(I) The entry number where applicable;

(J) Where prior EPA authorization is required for an exemption or exclusion, a copy of that authorization; and

(K) Such other further information as may be required by the EPA or the Customs Service.

(4) *Documentation from diplomats and foreign military personnel.* For entries for which an exemption is claimed under paragraph (g)(2) of this section, there must also be attached to the declaration required under paragraph (i)(2) of this section a copy of the motor vehicle importer's official orders, if any, or if a qualifying member of the personnel of a foreign government on assignment in the United States, the name of the embassy to which the importer is accredited.

(j) *Release under bond.* If a declaration filed in accordance with paragraph (i)(2) of this section states that the entry is being filed under circumstances described in either paragraph (c)(4), (h)(1), (h)(2), (h)(3) or (h)(4) of this section, the entry shall be accepted only if the importer or consignee gives a bond on Customs Form 301, containing the bond condition set forth in § 113.62 of this chapter for the production of an EPA statement that the vehicle or engine is in conformity with Federal emission requirements. Within the period in paragraph (h)(2), (h)(3) or (c)(4) of this section, or in the case of paragraph (h)(1) or (h)(4) of this section, the period specified by EPA in

its authorization for an exemption, or such additional period as the port director may allow for good cause shown, the importer or consignee shall deliver to the port director the prescribed statement. If the statement is not delivered to the director of the port of entry within the specified period, the importer or consignee shall deliver or cause to be delivered to the port director those vehicles which were released under a bond required by this paragraph. In the event that the vehicle or engine is not redelivered within five days following the date specified in the preceding sentence, liquidated damages shall be assessed in the full amount of the bond, if it is a single entry bond, or if a continuous bond is used, the amount that would have been taken under a single entry bond.

(k) *Notices of inadmissibility or detention.* If a motor vehicle is determined to be inadmissible before release from Customs custody, or inadmissible after release from Customs custody, the importer or consignee shall be notified in writing of the inadmissibility determination and/or redelivery requirement. However, if a motor vehicle cannot be released from Customs custody merely because the importer has failed to attach to the entry the documentation required by paragraph (i) of this section, the vehicle shall be held in detention by the director of a period not to exceed 30 days after filing of the entry at the risk and expense of the importer pending submission of the missing documentation. An additional 30-day extension may be granted by the port director upon application for good cause shown. If at the expiration of a period not over 60 days the documentation has not been filed, a notice of inadmissibility will be issued.

(l) *Disposal of vehicles not entitled to admission.* A motor vehicle denied admission under any provision of this section shall be disposed of in accordance with applicable Customs laws and regulations. However, a motor vehicle or engine will not be disposed of in a manner in which it may ultimately either directly or indirectly reach a consumer in a condition in which it is not in conformity with applicable EPA emission requirements.

## § 12.74

## 19 CFR Ch. I (4–1–99 Edition)

(m) *Prohibited importations.* The importation of motor vehicles otherwise than in accordance with this section and the regulations of EPA in 40 CFR parts 80, 85, 86 and 600 is prohibited.

[T.D. 88–40, 53 FR 26240, July 12, 1988]

### § 12.74 Nonroad engine compliance with Federal antipollution emission requirements.

(a) *Applicability of EPA regulations.* The requirements governing the importation of nonroad engines subject to conformance with applicable emissions standards of the U.S. Environmental Protection Agency (EPA) are contained in EPA regulations, issued under the Clean Air Act, as amended (42 U.S.C. 7401 *et seq.*). These EPA regulations should be consulted for detailed information as to the admission requirements for subject nonroad engines, as follows:

(1) For nonroad compression-ignition engines at or above 37 kilowatts, see 40 CFR part 89, subpart G;

(2) For nonroad spark-ignition engines at or below 19 kilowatts, see 40 CFR part 90, subpart G; and

(3) For marine spark-ignition engines, see 40 CFR part 91, subpart H.

(b) *Admission of nonconforming nonroad engines.* (1) *EPA declaration required.* EPA Form 3520–21, “Importation of Nonroad Engines and Nonroad Engines Incorporated Into Nonroad Equipment or Vehicles, Subject to Federal Air Pollution Regulations”, must be completed by the importer and retained on file by him before making a customs entry for such nonroad engines/equipment/vehicles.

(2) *Retention and submission of records to Customs.* Documents supporting the information required in the EPA declaration must be retained by the importer for a period of at least 5 years in accordance with § 162.1c of this chapter and shall be provided to Customs upon request.

(c) *Release under bond.* (1) *Conditional admission.* If the EPA declaration states that the entry for a nonconforming nonroad engine is being filed under one of the exemptions described in paragraphs (c)(3)(i) through (c)(3)(iv) of this section, under which the engine must be conditionally admitted under bond, the entry for such engine shall be

accepted only if a bond is given on Customs Form 301 containing the conditions set forth in § 113.62 of this chapter for the presentation of an EPA statement that the engine has been brought into conformity with Federal emissions requirements.

(2) *Final admission.* Should final admission be sought and granted pursuant to EPA regulations for an engine conditionally admitted initially under one of the exemptions described in paragraphs (c)(3)(i) through (c)(3)(iv) of this section, the importer or consignee shall deliver to the port director the prescribed statement. The statement shall be delivered within the period authorized by EPA for the specific exemption, or such additional period as the port director of Customs may allow for good cause shown. Otherwise, the importer or consignee shall deliver or cause to be delivered to the port director the subject engine, either for export or other disposition under applicable Customs laws and regulations (see paragraph (e) of this section). If such engine is not redelivered within 5 days following the allotted period, liquidated damages shall be assessed in the full amount of the bond, if a single entry bond, or if a continuous bond, the amount that would have been taken under a single entry bond (see 40 CFR 89.612–96(d), 90.613(c) & (d), 91.705(c) & (d)).

(3) *Exemptions.* The specific exemptions under which a nonconforming nonroad engine may be conditionally admitted, and for which a Customs bond is required, are as follows:

(i) Repairs or alterations (see 40 CFR 89.611–96(b)(1), 90.612(b)(1), 91.704(b)(1));

(ii) Testing (see 40 CFR 89.611–96(b)(2), 90.612(b)(2), 91.704(b)(2));

(iii) Precertification (see 40 CFR 89.611–96(b)(3), 89.906); and

(iv) Display (see 40 CFR 89.611–96(b)(4), 90.612(b)(3), 91.704(b)(3)).

(d) *Notice of inadmissibility or detention.* If an engine is found to be inadmissible either before or after release from Customs custody, the importer or consignee shall be notified in writing of the inadmissibility determination and/or redelivery requirement. However, an engine which cannot be released merely due to a failure to furnish with the entry any documentary

information as required by EPA shall be held in detention by the port director for a period not to exceed 30 days after filing of the entry at the risk and expense of the importer pending submission of the missing information. An additional 30-day extension may be granted by the port director upon application for good cause shown. If at the expiration of a period not over 60 days the required documentation has not been filed, a notice of inadmissibility will be issued.

(e) *Disposal of engines not entitled to admission; prohibited importations.* A nonroad engine denied admission under EPA regulations shall be disposed of consistent with such EPA regulations and in accordance with applicable Customs laws and regulations. The importation of nonroad engines otherwise than as prescribed under EPA regulations is prohibited.

[T.D. 98-50, 63 FR 29122, May 28, 1998]

MOTOR VEHICLES AND MOTOR VEHICLE  
EQUIPMENT MANUFACTURED ON OR  
AFTER JANUARY 1, 1968

**§ 12.80 Federal motor vehicle safety standards.**

(a) *Standards prescribed by the Department of Transportation.* Motor vehicles and motor vehicle equipment manufactured on or after January 1, 1968, offered for sale, or introduction or delivery for introduction in interstate Commerce, or importation into the United States are subject to Federal motor vehicle safety standards ("safety standards") prescribed by the Secretary of Transportation under sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966, as amended (15 U.S.C. 1392, 1407) ("the Act"), and set forth in 49 CFR part 571. A motor vehicle ("vehicle") or item of motor vehicle equipment ("equipment item"), manufactured on or after January 1, 1968, is not permitted entry into the Customs territory of the United States unless (with certain exceptions set forth in paragraph (b) of this section) it is in conformity with applicable safety standards in effect at the time the vehicle or equipment item was manufactured.

(b) *Requirements for entry and release.* (1) Unless the requirement for filing is

waived by the port director as provided for in paragraph (f) of this section, each vehicle or equipment item offered for introduction into the Customs territory of the United States shall be denied entry unless the importer or consignee files with the entry a declaration, in duplicate, which declares or affirms one of the following:

(i) The vehicle or equipment item was manufactured on a date when no applicable safety standards were in effect.

(ii) The vehicle or equipment item conforms to all applicable safety standards (or, the vehicle does not conform solely because readily attachable equipment items which will be attached to the vehicle before it is offered for sale to the first purchaser for purposes other than resale are not attached) and bears a certification label or tag to that effect permanently affixed by the original manufacturer to the vehicle or to the equipment item, or to the outside of the container in which the equipment item is delivered, in accordance with regulations issued by the Secretary of Transportation (49 CFR parts 555, 567, 568 and 571) under section 114 of the Act (15 U.S.C. 1403).

(iii) The vehicle or equipment item was not manufactured in conformity to all applicable safety standards, but it has been or will be brought into conformity. Within 120 days after entry, or within a period not to exceed 180 days after entry, if additional time is granted by the Administrator, National Highway Traffic Safety Administration ("Administrator, NHTSA"), the importer or consignee will submit a true and complete statement to the Administrator, NHTSA, identifying the manufacturer, contractor, or other person who has brought the vehicle or equipment item into conformity, describing the exact nature and extent of the work performed, and certifying that the vehicle or equipment item has been brought into conformity, and that the vehicle or equipment item will not be sold or offered for sale until the Administrator, NHTSA, issues an approval letter to the port director stating that the vehicle or equipment item described in the declaration has been brought into conformity with all applicable safety standards.

## § 12.80

## 19 CFR Ch. I (4–1–99 Edition)

(iv) The vehicle or equipment item is intended solely for export, and the vehicle or equipment item, and the outside of the container of the equipment item, if any, bears a label or tag to that effect.

(v) The importer or consignee is a nonresident of the United States, is importing the vehicle or equipment item primarily for personal use for a period not exceeding 1 year from the date of entry, will not sell it in the United States during that period, and has stated his passport number and country of issue, if he has a passport, on the declaration.

(vi) The importer or consignee is a member of the armed forces of a foreign country on assignment in the U.S. or is a member of the personnel of a foreign government on assignment in the U.S. or other individual who is within the class of persons for whom free entry of vehicles has been authorized by the Department of State in accordance with general principles of international law, is importing the vehicle or equipment item for purposes other than resale; and a copy of his official orders, if any, is attached to the declaration (or, if a qualifying member of the personnel of a foreign government on assignment in the U.S., the name of the Embassy to which he is accredited is stated on the declaration).

(vii) The vehicle or equipment item is imported solely for the purpose of show, test, experiment, competition (a vehicle the configuration of which at the time of entry is such that it cannot be licensed for use on the public roads is considered to be imported for the purpose of competition), repair or alteration, and the statement required by 19 CFR 12.80(c)(2) or (c)(3) is attached to the declaration.

(viii) The vehicle was not manufactured primarily for use on the public roads and is not a “motor vehicle” as defined in section 102 of the Act (15 U.S.C. 1391).

(ix) The vehicle is an “incomplete vehicle” as defined in 49 CFR part 568.

(2) A vehicle imported solely for the purpose of test or experiment which is the subject of a declaration filed under paragraph (b)(1)(vii) of this section may be licensed for use on the public roads for a period not to exceed 1 year

from the date of importation if use on the public roads is an integral part of the test or experiment. The vehicle may be licensed for use on the public roads for one or more further periods which, when added to the initial 1 year period, shall not exceed a total of 3 years, upon application to and approval by the Administrator, NHTSA.

(c) *Declaration; contents.* (1) Each declaration filed under paragraph (b)(1) of this section shall include the name and address in the United States of the importer or consignee, the date and the entry number (if applicable), the make, model, and engine and body serial numbers, or other identification number (if a vehicle), or a description of the item (if an equipment item), and shall be signed by the importer or consignee.

(2) Each declaration filed under paragraph (b)(1)(vii) of this section which relates to a vehicle or equipment item reported for the purpose of show, competition, repair, or alteration shall have attached a statement fully describing the use to be made of the vehicle or equipment item and its ultimate disposition.

(3) Each declaration filed under paragraph (b)(1)(vii) of this section which relates to a vehicle imported solely for the purpose of test or experiment shall have attached a statement fully describing the test or experiment, the estimated period of time necessary to use the vehicle on the public roads, and the disposition to be made of the vehicle after completion of the test or experiment.

(4) Any declaration filed under paragraph (b)(1) of this section may, if appropriate, relate to more than one vehicle or equipment item imported on the same entry.

(d) *Declaration; disposition.* The port director shall forward the original of each declaration submitted to him under paragraph (b)(1) of this section as soon as practicable to the Director, Office of Vehicle Safety Compliance, National Highway Traffic Safety Administration, Washington, DC 20590.

(e) *Release under bond.* (1) If a declaration is filed under paragraph (b)(1)(iii) of this section, the entry shall be accepted only if the importer or consignee gives a bond on Customs Form 301, containing the bond conditions set

forth in §113.62 of this chapter. An approval letter shall be issued upon approval by the Administrator, NHTSA, of the conformity statement submitted by the importer or consignee as provided for in paragraph (b)(1)(iii) of this section. The approval letter shall be forwarded by the Administrator, NHTSA, to the port director with a copy to the importer or consignee. Upon receipt of the approval letter the port director shall cancel the charge against the bond.

(iii) All vessels engaged in the carrying of six or fewer passengers (see section 4.80 of this chapter on prohibitions against foreign vessels transporting passengers in the coastwise trade).

(2) For purposes of §12.85 the term "boat" does not include:

(i) Foreign vessels temporarily using waters subject to U.S. jurisdiction.

(ii) Military or public vessels of the United States, except recreational type public vessels.

(iii) Any marine safety article, accessory, or equipment intended for use by a person on board a boat (excluding radio equipment).

(4) The term "product" as used in this section, includes the terms "boats" and "associated equipment" as defined in paragraphs (a) (1), (2), and (3) of this section.

(b) *Evidence of compliance with boating standards or regulations as condition of entry.* A product for which entry is sought into the Customs territory of the United States will, subject to the exceptions specified in paragraph (c) of this section, be denied entry unless accompanied by evidence of compliance with standards or regulations as follows:

compliance certification label or hull identification number affixed, as is required by subparts B and C, 33 CFR part 181, if they fall within one of the following categories, and if the conditions for entry and release specified for each category of product are met:

(1) *Products manufactured before standards or regulations in effect.* For certain products manufactured before an applicable standard or regulation was in effect, a declaration will be filed in accordance with the requirements of paragraph (d) of this section. The declaration will state that the product was manufactured before the applicable standard or regulation was in effect. If the port director believes that it is necessary in a particular case, he may communicate with the nearest Coast Guard district commander by the most expedient means to request that the Coast Guard determine that alteration of the product is not required.

(2) *Products exempted from standards or regulations by Coast Guard Grant of Exemption.* For certain products specifically exempted from applicable standards or regulations by a Coast Guard Grant of Exemption, a declaration will be filed in accordance with paragraph (d) of this section. The importer or consignee shall attach to the declaration a description of use for which the product is being imported, the time period estimated for completion, and disposition to be made of the product after completion. Entry under this paragraph may be authorized for a period not to exceed 1 year from the date of importation. However, this period may be extended at the discretion of the port director for one or more additional periods which, when added to the initial 1-year period, shall not exceed a total of 3 years.

Prescribed standards shall not apply to any electronic product intended solely for export if:

(1) Such product and the outside of any shipping container used in the export of such product are labeled or tagged to show that it is intended for export, and

(2) Such product meets all the applicable requirements of the country to which it is intended for export.

(See 21 CFR, chapter I, subchapter J.)

(b) *Requirements for entry and release.* Electronic products subject to standards in effect under section 358 of the Act (42 U.S.C. 263f), when offered for importation into the customs territory of the United States, shall be refused entry unless there is filed with the entry, in duplicate, a declaration (FDA Form FD 2877) verified by the importer of record which identifies the products and affirms:

(1) That the electronic products were manufactured before the date of any

If the notice so requires, the owner or importer of record shall hold the

shipment of which the sample is typical and not release the shipment until notice of the results of the tests of the sample from the Secretary of Health and Human Services stating the product fulfills the requirements of the Act.

(d) *Release under bond.* If a declaration filed in accordance with paragraph (b) of this section states that the entry is being made under circumstances described in paragraph (b)(4) of this section, the entry shall be accepted only if the owner or importer of record gives a bond on Customs Form 301, containing the bond conditions set forth in §113.62 of this chapter, for the production of a notification from the Secretary of Health and Human Services or his designee, in accordance with 21 CFR 1005.23, that the electronic product described in the declaration filed by the importer of record is in compliance with the applicable standards. The bond shall be in an amount deemed appropriate by the port director. #### § 12.120 Definitions.

Except as otherwise provided below, the terms used in §§ 12.121 through 12.127 have the meanings set forth for those terms in TSCA.

(a) *Article*—(1) *Article* means a manufactured item which:

(i) Is formed to a specific shape or design during manufacture,

(ii) Has end use functions dependent in whole or in part upon its shape or design during the end use, and

(iii) Has either no change of chemical composition during its end use or only those changes of composition which have no commercial purpose separate from that of the article and that may occur as described in § 12.120(a)(2); except that fluids and particles are not considered articles regardless of shape or design.

(2) The allowable changes of composition, referred to in § 12.120(a)(1), are those which result from a chemical reaction that occurs upon the end use of other chemical substances, mixtures, or articles such as adhesives, paints, miscellaneous cleaners or other household products, fuels and fuel additives, water softening and treatment agents, photographic films, batteries, matches, and safety flares in which the chemical substance manufactured upon end use of the article is not itself manufactured for distribution in commerce or for use as an intermediate.

(b) *Chemical substance in bulk form* means a chemical substance (other than as part of a mixture or article) in containers used for purposes of transportation or containment, provided that the chemical substance is intended to be removed from the container and has an end use or commercial purpose separate from the container.

#### § 12.121 Reporting requirements.

(a) *All chemical substances in bulk or mixtures.* The importer of a chemical substance, imported in bulk or as part of a mixture, shall certify to the director of the port of entry that the chemical shipment is subject to TSCA and complies with all applicable rules and orders thereunder, or is not subject to

TSCA. The importer, or his authorized agent, shall sign one of the following statements:

I certify that all chemical substances in this shipment comply with all applicable rules or orders under TSCA and that I am not offering a chemical substance for entry in violation of TSCA or any applicable rule or order thereunder.

I certify that all chemicals in this shipment are not subject to TSCA.

The certification, which shall be filed with the director of the port of entry before release of the shipment, may appear as a typed or stamped statement:

(1) On an appropriate entry document or commercial invoice, or on a preprinted attachment to such entry or invoice.

(2) On the commercial invoice or an attachment to the invoice, in the event of release under a special permit for an immediate delivery, as provided for in § 142.21 of this chapter, or entry, as provided for in § 142.3 of this chapter.

(b) *Chemical substance or mixture as part of articles.* Each importer of a chemical substance or mixture as part of an article shall meet the reporting requirements set forth in paragraph (a) of this section only if required by a rule or order under TSCA.

(c) *Facsimile signatures.* The certification statements in paragraph (a) of this section may be signed by means of an authorized facsimile signature.

#### § 12.122 Detention of certain shipments.

(a) The director of the port of arrival shall detain, at the importer's risk and expense, shipments of chemical substances, mixtures, or articles:

(1) Which have been banned from the customs territory of the United States by a rule or order issued under section 5 or 6 of TSCA (15 U.S.C. 2604 or 2605) or

(2) Which have been ordered seized because of imminent hazards as specified under section 7 of TSCA (15 U.S.C. 2606).

(b) The director of the port of entry shall detain shipments of chemical substances, mixtures, or articles at the importer's risk and expense, in the following situations:

(1) Whenever the Administrator has reasonable grounds to believe that the shipment is not in compliance with

### § 12.123

### 19 CFR Ch. I (4–1–99 Edition)

TSCA and notifies the port director to detain the shipment.

(2) Whenever the port director has reasonable grounds to believe that the shipment is not in compliance with TSCA; or

(3) Whenever the importer fails to certify compliance with TSCA as required by § 12.121.

(c) Upon detention of a shipment, the port director shall give prompt notice to the Administrator and the importer. The notice shall include the reasons for detention.

(d) A detained shipment shall not be held in the custody of the port director for more than 48 hours after the date of detention. Thereafter, the shipment shall be promptly turned over to the Administrator for storage or disposition as provided for in §§ 12.127 and 127.28(i), unless previously released to the importer under bond as provided in § 12.123(b). Notice of intent to abandon the shipment by the importer shall constitute a waiver of all time periods specified in parts 12 and 127.

#### § 12.123 Procedure after detention.

(a) *Submission of written documentation.* If a shipment is detained by a port director under § 12.122, the importer may submit written documentation to the Administrator with a copy to the port director within 20 days from the date of notice of detention, to show cause why the shipment should not be refused entry. If an importer submits that documentation, the Administrator shall allow or deny entry of the shipment within 10 days of receipt of the documentation, and in any case shall allow or deny entry of the shipment within 30 days of the date of notice of detention.

(b) *Release under Bond.* The port director may release to the importer a shipment detained for any of the reasons given in § 12.122 when the port director has reasonable grounds to believe that the shipment may be brought into compliance, or when the port director deems it appropriate under § 141.66 of this chapter. Any such release shall be conditioned upon furnishing a bond on Customs Form 7551, 7553, or 7595 for the return of the shipment to Customs custody. The bond shall be for the full amount required in

§ 113.14 of this chapter. If a shipment of chemical substance, mixture, or article is released to the importer under bond, the shipment shall be held intact and shall not be used or otherwise disposed of until the Administrator makes a final determination on entry as provided for in paragraph (c) of this section.

(c) *Determination by the Administrator.* After consideration of the available evidence and within 30 days from the notice of detention, the Administrator shall notify the port director and the importer of his decision either to permit or refuse entry of the shipment. If the Administrator finds that the shipment is in compliance with TSCA, the port director shall release the shipment to the importer. If the Administrator finds that the shipment is not in compliance, the port director shall:

(1) Refuse delivery to the importer, giving reasons for such refusal, or

(2) If the shipment has been released on bond, demand its redelivery under the terms of the bond, giving reasons for such demand. If the merchandise is not redelivered within 30 days from the date of the redelivery notice, the port director shall assess liquidated damages in the full amount of the bond.

#### § 12.124 Time limitations and extensions.

(a) *Time limitations.* The importer of a shipment of chemical substances, mixtures, or articles which has been detained under § 12.122 shall bring the shipment into compliance with TSCA or export the shipment from the customs territory of the United States within 90 days after notice of detention or 30 days of demand for redelivery, whichever comes first.

(b) *Time extensions.* The port director, upon notification by the Administrator, may grant an extension of not more than 30 days if, due to delays caused by the Environmental Protection Agency or the Customs Service:

(1) The importer is unable, for good cause shown, to bring a shipment into compliance with the Act within the required time period; or

(2) The importer is unable to export the shipment from the customs territory of the United States within the required time period.

**§ 12.125 Notice of exportation.**

Whenever the Administrator directs the port director to refuse entry under § 12.123 and the importer exports the non-complying shipment within the 30 day period of notice of refusal of entry or within 90 days of demand for redelivery, the importer shall give written notice of the fact of exportation to the Administrator and the port director. The importer shall include the following information in the notice of exportation:

- (a) The name and address of the exporter or his agent;
- (b) A description of the chemical substances, mixtures, or articles exported;
- (c) The destination (country);
- (d) The port of arrival at the destination;
- (e) The carrier;
- (f) The date of exportation; and
- (g) The bill of lading or the air way bill number.

**§ 12.126 Notice of abandonment.**

If the importer intends to abandon the shipment after receiving notice of refusal of entry, the importer shall present a written notice of intent to abandon to the port director and the Administrator. Notification under this section is a waiver of any right to export the merchandise. The importer shall remain liable for any expense incurred in the storage and/or disposal of abandoned merchandise.

**§ 12.127 Decision to store or dispose.**

(a) A shipment detained under § 12.122 shall be considered to be unclaimed or abandoned and shall be turned over to the Administrator for storage or disposition as provided for in § 127.28(i) of this chapter if the importer has not brought the shipment into compliance with TSCA and has not exported the shipment within time limitations or extensions specified according to § 12.124. The importer shall remain liable for any expenses in the storage and/or disposal of abandoned merchandise.

## TEXTILES AND TEXTILE PRODUCTS

**§ 12.130 Textiles and textile products country of origin.**

(a) *General.* Textile or textile products subject to section 204, Agricultural

tural Act of 1956, as amended (7 U.S.C. 1854), include merchandise which is subject to the provisions of the International Arrangement Regarding Trade in Textiles (The Multi-Fiber Arrangement).

(1) Is in chief value of cotton, wool, or man-made fibers, or any textile fibers subject to the terms of any textile trade agreement, or any combination thereof; or

(2) Contains 50 percent or more by weight of cotton or man-made fibers, or any textile fibers subject to the terms of any textile trade agreement; or

(3) Contains 17 percent or more by weight of wool; or

(4) If in chief value of textile fibers or textile materials, contains a blend of cotton, wool, or man-made fibers, or any textile fibers subject to the terms of any textile trade agreement, or any combination thereof, which fibers, in the aggregate amount to 50 percent or more by weight of all component fibers.

(b) *Country of origin.* For the purpose of this section and except as provided in paragraph (c), a textile or textile product, subject to section 204, Agricultural Act of 1956, as amended, imported into the customs territory of the United States, shall be a product of a particular foreign territory or country, or insular possession of the U.S., if it is wholly the growth, product, or manufacture of that foreign territory or country, or insular possession. However, except as provided in paragraph (c), a textile or textile product, subject to section 204, which consists of materials produced or derived from, or processed in, more than one foreign territory or country, or insular possession of the U.S., shall be a product of that foreign territory or country, or insular possession where it last underwent a substantial transformation. A textile or textile product will be considered to have undergone a substantial transformation if it has been transformed by means of substantial manufacturing or processing operations into a new and different article of commerce. However, the origin of products of Canada and Mexico, and the origin of textile and apparel products covered by § 102.21

of this chapter, are determined pursuant to the procedures set forth in part 102 of this chapter.

(c) *Articles exported for processing and returned*—(1) *Applicability to U.S. articles sent abroad.* Chapter 98, Subchapter II, Note 2, Harmonized Tariff Schedule of the United States, provides that any product of the U.S. which is returned after having been advanced in value or improved in condition abroad, or assembled abroad, shall be a foreign article for the purposes of the Tariff Act of 1930, as amended. In order to have a single definition of the term “product of” and, therefore, a single country of origin for a textile or textile product, notwithstanding paragraph (b), merchandise which falls within the purview of Chapter 98, Subchapter II, Note 2, Harmonized Tariff Schedule of the United States, may not, upon its return to the U.S., be considered a product of the U.S.

(2) *Applicability to U.S. insular possession products processed outside the insular possession.* Unless otherwise required by law, the rules of origin applicable to products of the U.S. shall also apply to products of insular possessions of the U.S. Accordingly, notwithstanding paragraph (b) of this section, for purposes of section 204, Agricultural Act of 1956, as amended, products of insular possessions of the U.S., if imported into the U.S. after having been advanced in value, improved in condition, or assembled, outside the insular possessions shall not be treated as products of those insular possessions.

(d) *Criteria for determining country of origin.* The criteria in paragraphs (d) (1) and (2) of this section shall be considered in determining the country of origin of imported merchandise. These criteria are not exhaustive. One or any combination of criteria may be determinative, and additional factors may be considered. However, the origin of products of Canada and Mexico, and the origin of textile and apparel products covered by § 102.21 of this chapter, are determined pursuant to the procedures set forth in part 102 of this chapter.

(1) A new and different article of commerce will usually result from a manufacturing or processing operation if there is a change in:

(i) Commercial designation or identity,

(ii) Fundamental character or

(iii) Commercial use.

(2) In determining whether merchandise has been subjected to substantial manufacturing or processing operations, the following will be considered:

(i) The physical change in the material or article as a result of the manufacturing or processing operations in each foreign territory or country, or insular possession of the U.S.

(ii) The time involved in the manufacturing or processing operations in each foreign territory or country, or insular possession of the U.S.

(iii) The complexity of the manufacturing or processing operations in each foreign territory or country, or insular possession of the U.S.

(iv) The level or degree of skill and/or technology required in the manufacturing or processing operations in each foreign territory or country, or insular possession of the U.S.

(v) The value added to the article or material in each foreign territory or country, or insular possession of the U.S., compared to its value when imported into the U.S.

(e) *Manufacturing or processing operations.* (1) Except for products of which the origin is Canada or Mexico and except for textile and apparel products (the origin of such products is determined pursuant to the procedures set forth in part 102 of this chapter), an article or material usually will be a product of a particular foreign territory or country, or insular possession of the U.S., when it has undergone prior to importation into the U.S. in that foreign territory or country, or insular possession any of the following:

(i) Dyeing of fabric and printing when accompanied by two or more of the following finishing operations: bleaching, shrinking, fulling, napping, decatizing, permanent stiffening, weighting, permanent embossing, or moireing;

(ii) Spinning fibers into yarn;

(iii) Weaving, knitting or otherwise forming fabric;

(iv) Cutting of fabric into parts and the assembly of those parts into the completed article; or

(v) Substantial assembly by sewing and/or tailoring of all cut pieces of apparel articles which have been cut from fabric in another foreign territory or country, or insular possession, into a completed garment (e.g. the complete assembly and tailoring of all cut pieces of suit-type jackets, suits, and shirts).

(2) An article or material usually will not be considered to be a product of a particular foreign territory or country, or insular possession of the U.S. by virtue of merely having undergone any of the following:

(i) Simple combining operations, labeling, pressing, cleaning or dry cleaning, or packaging operations, or any combination thereof;

(ii) Cutting to length or width and hemming or overlocking fabrics which are readily identifiable as being intended for a particular commercial use;

(iii) Trimming and/or joining together by sewing, looping, linking, or other means of attaching otherwise completed knit-to-shape component parts produced in a single country, even when accompanied by other processes (e.g. washing, drying, mending, etc.) normally incident to the assembly process;

(iv) One or more finishing operations on yarns, fabrics, or other textile articles, such as showerproofing, superwashing, bleaching, decatizing, fulling, shrinking, mercerizing, or similar operations; or

(v) Dyeing and/or printing of fabrics or yarns.

(f) *Declaration of manufacturer, producer, exporter, or importer of textiles and textile products.* All importations of textiles and textile products subject to section 204, Agricultural Act of 1956, as amended, shall be accompanied by the appropriate declaration(s) set forth in paragraph (f)(1) or (f)(2) of this section. Textiles or textile products subject to section 204 include that merchandise described in § 12.130(a). All importations of textiles and textile products not subject to section 204 shall be accompanied by the declaration set forth in paragraph (f)(3) of this section. The declaration(s) shall be filed with the entry. The declaration(s) may be prepared by the manufacturer, producer, exporter or importer of the textiles and textile products. If multiple manufac-

turers, producers, or exporters are involved, a separate declaration prepared by each may be filed. A separate declaration may be filed for each invoice which is presented with the entry. The determination of country of origin, other than as set forth in paragraph (g) of this section, will be based upon information contained in the declaration(s). The declaration(s) shall not be treated as a missing document for which a bond may be filed. Entry will be denied unless accompanied by a properly executed declaration(s)

(1) *Single foreign territory or country, or U.S. insular possession.* Textiles or textile products which are wholly the growth, product, or manufacture of a single foreign territory or country, or insular possession of the U.S., or assembled in a single foreign territory or country, or insular possession of the U.S. of fabricated components which are in whole the product of the U.S. and/or the single foreign territory or country, or insular possession of the U.S. shall be identified in a declaration which is substantially in the following form:

(g) *Incomplete or insufficient information.* If the port director is unable to determine the country of origin of an article from the information set forth in the declaration, the declarant shall submit such additional information as requested. Release of the article from Customs custody will be denied until the determination is made based upon the information provided or the best information available. In this regard if incomplete or insufficient information is provided, the port director may consider the experience and costs of domestic industry in similar manufacturing or processing operations.

(h) *Shipments covered by an informal entry.* While a declaration is not required for shipments covered by an informal entry, the port director may require such other evidence of the country of origin as deemed necessary. The filing of the appropriate declaration will be required in a case involving consolidation of individual shipments under §§ 12.131 and 143.22 of this chapter.

(i) *Date of exportation.* For quota, visa or export license requirements, and statistical purposes, the date of exportation for textiles or textile products, subject to section 204, Agricultural Act of 1956, as amended, shall be the date the vessel or carrier leaves the last port in the country of origin, as defined by this section. Contingency of diversion in another foreign territory or country shall not change the date of exportation for quota, visa or export license requirements or for statistical purposes.

over \$250, shall not be entered under the informal entry procedures set forth in subpart C, part 143 or procedures set forth in § 141.52 of this chapter. Port directors shall refuse separate informal entries and require a formal entry and visa or export license, as appropriate, for all such merchandise. A consignee for purposes of this section is the ultimate consignee and does not include a freight forwarder or Customs broker not importing for its own account.

#### **§ 12.132 Textile and apparel goods under the North American Free Trade Agreement.**

(a) *Country of origin declaration.* The provisions of § 12.130(f) of this part regarding submission of a country of origin declaration shall apply to all textile and apparel goods which are subject to the provisions of Annex 300-B of the North American Free Trade Agreement (NAFTA). Although a separate country of origin declaration shall not be required for such goods for NAFTA purposes, the following additional requirements shall apply for purposes of this section:

(1) All commercial importations of textile and apparel goods shall be accompanied by the appropriate declaration;

(2) A declaration by each U.S., Canadian, and/or Mexican manufacturer or producer of the goods, and, if there are multiple manufacturers or producers, a separate declaration by each manufacturer or producer shall be furnished by the importer. Packaging operations shall not be considered manufacture or production for purposes of this paragraph; and

(3) If the port director is unable to determine the country of origin of the goods because the information contained in a declaration is incomplete, the shipment to which that declaration pertains shall not be entitled to preferential tariff treatment or any other benefit under the NAFTA for which it would otherwise be eligible.

(b) *Certificate of eligibility.* In connection with a claim for NAFTA preferential tariff treatment involving non-originating textile and apparel goods subject to the tariff preference level provisions of appendix 6.B. to

### SOFTWOOD LUMBER FROM CANADA

#### § 12.140 Entry of softwood lumber from Canada.

The requirements set forth in this section are applicable for as long as the Softwood Lumber Agreement, entered into on May 29, 1996, by the Governments of the United States and Canada, remains in effect.

(a) *Encumbrance regarding export permit and export fee.* In the case of softwood lumber first manufactured into a product classifiable in subheading 4407.10.00, 4409.10.10, 4409.10.20, or 4409.10.90, Harmonized Tariff Schedule of the United States (HTSUS), in the Province of Ontario, Quebec, British Columbia, or Alberta, the requirement that the Government of Canada issue an export permit and collect the appropriate export fees under the Softwood Lumber Agreement attaches to and encumbers the product when it is imported into the United States. Such imported merchandise remains subject to the encumbrance until the Government of Canada issues an export permit and collects the appropriate fees. The merchandise shall be released by Customs subject to the following conditions: The importer of record assumes an obligation to ensure within 20 working days of release that such export permit is issued by the Government of Canada and to provide sufficient information to satisfy U.S. Customs that the encumbrance no longer attaches or, if the merchandise remains encumbered at the expiration of 20 working days, to pay any liquidated

damages assessed under the Customs bond.

(b) *Reporting requirements.* Except as otherwise provided in paragraph (d) of this section, in the case of a softwood lumber product classifiable in HTSUS subheading 4407.10.00, 4409.10.10, 4409.10.20, or 4409.10.90 that is imported from Canada and that was manufactured (that is, subjected to any processing operation other than mere loading, unloading or processing necessary to maintain the condition of the product) in Canada, whether or not such product was previously subjected to any processing operation outside Canada, the following information shall be included on the entry summary, Customs Form 7501, or on an electronic equivalent:

(1) The Canadian province or territory in which the product was first manufactured; and

(2) In the case of a product first manufactured into a product classifiable in HTSUS subheading 4407.10.00, 4409.10.10, 4409.10.20, or 4409.10.90 in the Province of Ontario, Quebec, British Columbia, or Alberta:

(i) The export permit number issued by the Government of Canada for the product; and

(ii) An indication of the export fee payment status of the product for which the permit was issued according to the following categories:

the Governments of Canada and the United States. If the issued permit pertains to this category, the specific quarterly period shall also be indicated on the Customs Form 7501 or electronic equivalent.

(c) *Untimely issuance of export permit.* If an export permit for the product has not been issued by the Government of Canada on or before the required date for filing the entry summary documentation as provided in § 142.12(b) or § 142.23 of this chapter, the importer shall have a maximum of 10 additional working days to file the entry summary documentation setting forth all of the information specified in paragraph (b)(2) of this section. ### MERCHANDISE SUBJECT TO ECONOMIC SANCTIONS

#### **§ 12.150 Merchandise prohibited by economic sanctions; detention; seizure or other disposition; blocked property.**

(a) *Generally.* Merchandise from certain countries designated by the President as constituting a threat to the national security, foreign policy, or economy of the United States shall be detained until the question of its release, seizure, or other disposition has been determined under law and regulations issued by the Treasury Department's Office of Foreign Assets Control (OFAC) (31 CFR Chapter V).

(b) *Seizure.* When an unlicensed importation of merchandise subject to OFAC's regulations is determined to be prohibited, no entry for any purpose shall be permitted and, unless the immediate reexportation or other disposition of such merchandise under Customs supervision has previously been authorized by OFAC, the merchandise shall be seized.

(c) *Licenses.* OFAC's regulations may authorize OFAC to issue licenses on a case-by-case basis authorizing the importation of otherwise prohibited merchandise under certain conditions. If such a license is issued subsequent to the attempted entry and seizure of the merchandise, importation shall be conditioned upon the importer:

(1) Agreeing in writing to hold the Government harmless, and

(2) Paying any storage and other Customs fees, costs, or expenses, as well as any mitigated forfeiture amount or monetary penalty imposed or assessed by Customs or OFAC, or both.

(d) *Blocked property.* Merchandise which constitutes property in which the government or any national of certain designated countries has an interest may be blocked (frozen) pursuant to OFAC's regulations and may not be transferred, sold, or otherwise disposed of without an OFAC license.

**Pt. 18**

(e) *Additional information.* For further information concerning importing merchandise prohibited under economic sanctions programs currently in effect, the Office of Foreign Assets Control of the Department of the Treasury should be contacted. **GENERAL PROVISIONS**

**§ 18.1 Carriers; application to bond.**

(a)(1) Merchandise to be transported from one port to another in the United States in bond, except as provided for in paragraph (b) of this section, shall be delivered to a common carrier, contract carrier, freight forwarder, or private carrier bonded for that purpose, but such merchandise delivered to a common carrier, contract carrier, or freight forwarder may be transported

with the use of facilities of other bonded or nonbonded carriers. For the purposes of this section, the term “common carrier” means a common carrier of merchandise owning or operating a railroad, steamship, pipeline, or other transportation line or route. Only vessels entitled to engage in the coastwise trade (see § 4.80 of this chapter) shall be entitled to transport merchandise under this section.

(2) Merchandise to be transported from one port to another in the United States under cover of a TIR carnet (see part 114 of this chapter), except merchandise not otherwise subject to Customs control, as provided in §§ 18.41 through 18.45, shall be delivered to a common carrier or contract carrier bonded for that purpose, but the merchandise thereafter may be transported with the use of other bonded or nonbonded common or contract carriers. The TIR carnet shall be responsible for liability incurred in the carriage of merchandise under the carnet, and the carrier's bond shall be responsible as provided in § 114.22(d) of this chapter.

(3) Merchandise to be transported from one port to another in the United States under cover of an A.T.A. or TECRO/AIT carnet (see part 114 of this chapter) shall be delivered to a common carrier or contract carrier bonded for that purpose, but the merchandise thereafter may be transported with the use of other bonded or nonbonded common or contract carriers. The A.T.A. or TECRO/AIT carnet shall be responsible for liability incurred in the carriage of merchandise under the carnet, and the carrier's bond shall be responsible as provided in § 114.22(d) of this chapter.

(b) Pursuant to Public Resolution 108, of June 19, 1936, (19 U.S.C. 1551, 1551a) and subject to compliance with all other applicable provisions of this part, the port director, upon the request of the party in interest, may permit merchandise entered and examined for Customs purposes to be transported in bond between the ports named in the resolution by bonded cartmen or lightermen duly qualified in accordance with the provisions of part 112 of this chapter, if the port director is satisfied that the transportation of such

merchandise in this manner will not endanger the revenue.

### § 18.2 Receipt by carrier; manifest.

(a)(1) *Merchandise other than from warehouse or foreign trade zone delivered to bonded carrier.* Except as set forth in paragraphs (a)(2) and (a)(3) of this section, within 5 working days after presentation of an entry for merchandise to be transported in-bond, the forwarding carrier shall take receipt of the merchandise if no other entry is filed. If the forwarding carrier fails to take receipt of the merchandise within the prescribed period, the transportation entry shall be canceled and the merchandise shall be treated as unclaimed as of the date of original arrival.

(2) When merchandise is delivered to a bonded carrier for transportation in-bond, the merchandise shall be laden on the conveyance under supervision of a Customs officer unless—

(i) The transporting conveyance is not to be sealed with Customs seals, or

(ii) The lading inspector accepts the check of the carrier as to the merchandise laden. The carrier's receipt shall be given immediately to the lading inspector on the Customs in-bond document (the appropriate Customs Form 7512, or the carnet) covering the merchandise. In the case of a carnet, the receipt shall be given on the appropriate vouchers in the following form:

Received the cargo listed herein for delivery to Customs at the indicated port of destination or exportation, or for direct exportation.

Name of Carrier (or Exporter) \_\_\_\_\_  
Attorney-in-fact or Agent of Carrier (or Exporter) \_\_\_\_\_

Date \_\_\_\_\_

(3) *Merchandise delivered from warehouse.* When merchandise is delivered from a warehouse to a bonded carrier for transportation in bond, supervision

## § 18.2

## 19 CFR Ch. I (4–1–99 Edition)

of lading shall be accomplished in accordance with the procedure set forth in § 19.6(b) of this chapter.

(4) *Merchandise delivered from foreign trade zone.* When merchandise is delivered from a foreign trade zone to a bonded carrier for transportation in bond, supervision of lading will be accomplished in accordance with the procedure set forth in § 146.71(a) of this chapter.

(b) A Customs in-bond document, containing a description of the merchandise, and Customs control card (Customs Form 7512–C), shall be prepared by the carrier or any of the parties named in § 18.11(b), whenever merchandise is being transported in bond. The Customs in-bond document thus prepared shall then be signed by the carrier or any of the parties named in § 18.11(b). All copies of the in-bond document shall be signed by the importing carrier or his agent and the in-bond carrier or his agent to indicate the quantity delivered for transportation in bond. When there is no discrepancy between the quantity manifested by the importing carrier and the quantity delivered to the in-bond carrier, the port director may authorize waiving the signature of the parties in interest as to delivered quantities. Quantities of goods transported in bond from a Customs bonded warehouse shall be accounted for under the procedures set forth in § 19.6 of this chapter. Except as prescribed in subpart D of part 123 of this chapter, relating to merchandise in transit through the United States between ports in contiguous foreign territory, a separate set shall be prepared for each entry and, if the consignment is contained in more than one conveyance, a separate set shall be prepared for each conveyance.

(c)(1) After the merchandise has been laden and the in-bond carrier or his agent has receipted the in-bond document, Customs Form 7512 (in duplicate), together with either the related Customs Form 7512–C (destination) or the carnet (which cannot be used in conjunction with Customs Form 7512–C) shall be delivered as a manifest to the conductor, master, or person in charge to accompany the merchandise to its port of destination or exportation. If more than one conveyance is

used to transport the merchandise, the Customs Form 7512–C (destination) shall accompany the first conveyance, and two copies of Customs Form 7512 shall accompany each conveyance as a manifest of the merchandise transported by that conveyance. A TIR carnet (see § 18.3(b)) shall not be used if more than one conveyance is required.

(2) Except transit air cargo provided for in § 122.118 of this chapter, bonded merchandise destined to a final port of destination in the United States, or for export from the United States, shall be delivered to Customs at the port of destination or exportation within 30 days after the date of receipt by the forwarding carrier at the port of origin, if transported on land. If the merchandise is transported on board a vessel engaged in the United States coastwise trade, delivery to Customs at the port of destination or exportation shall be within 60 days after the date of receipt by the forwarding carrier at the port of origin. Failure to deliver the merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to applicable penalties (see § 18.8).

(d) Promptly, but no more than 2 working days after the arrival of any portion of the in-bond shipment at the port of destination, the delivering carrier shall surrender the in-bond manifest (the in-bond document and related Customs Form 7512–C (destination) or the carnet) to the port director as notice of arrival of the merchandise. If the in-bond manifest is lost in transit, the in-bond carrier shall report the arrival of the merchandise within the prescribed period and shall be responsible for obtaining copies of the original in-bond manifest. Failure to surrender the in-bond manifest or report the arrival of bonded merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to applicable penalties (see § 18.8).

**§ 18.3 Transshipment; transfer by bonded cartmen.**

(a) When bonded merchandise in one conveyance is to be transshipped under Customs supervision to another single conveyance while en route to the port of destination or exportation, the in-bond document which accompanied the merchandise shall be presented to the port director at the place of transshipment for execution of a certificate of transfer thereon. The in-bond document shall be returned to the carrier to accompany the merchandise to the port of destination or exportation. Except as provided in paragraph (c) of this section, merchandise covered by a TIR carnet shall not be transshipped if the transshipment involves the unloading of the merchandise from a container or road vehicle.

(b) When bonded merchandise, other than merchandise covered by a TIR carnet, is to be transshipped to more than one conveyance, the carrier or any of the parties named in § 18.11(b) shall prepare for each such conveyance two additional copies of the Customs Form 7512 which accompanied the merchandise to the place of transshipment. The Customs Form 7512 and Customs Form 7512-C (destination) which accompanied the shipment to the place of transshipment shall be presented to the port director there. The Customs officer supervising the transshipment shall execute a certificate of transfer on all copies of the Customs Form 7512. The original copies of the Customs Form 7512 and the related Customs Form 7512-C (destination) shall be delivered to the conductor, master, or person in charge of the first conveyance. Two additional copies of the Customs Form 7512 shall be delivered to the person in charge of each additional conveyance in which the merchandise is forwarded for delivery to the director of the port of destination or exportation.

(c) Merchandise covered by a TIR carnet may be transshipped in a case involving the unloading of the merchandise from a container or road vehicle only if the transshipment is necessitated by casualty en route. In the event of transshipment, a TIR approved container or road vehicle shall be used if available. If the trans-

shipment takes place under Customs supervision, the Customs officer shall execute a certificate of transfer on the appropriate TIR carnet voucher.

(d) If it becomes necessary at any point in transit to remove the Customs seals from a conveyance or container containing bonded merchandise for the purpose of transferring its contents to another conveyance or container, or to gain access to the shipment because of casualty or for other good reason, and it cannot be done under Customs supervision because of the element of time involved or because there is no Customs officer stationed at such point, a responsible agent of the carrier may remove the seals, supervise the transfer or handling of the merchandise, seal the conveyance or container in which the shipment goes forward, and make appropriate notation of his action on the conductor's or master's copy of the manifest, or the outside back cover of the TIR carnet, including the date, serial numbers of the new seals applied, and the reason therefor. This authorization shall not apply in any case not involving a real emergency.

(e) All transfers to or from the conveyance or warehouse of merchandise undergoing transportation in bond shall be made under the provisions of part 125 of this chapter and at the expense of the parties in interest, unless the bond of the carrier on Customs Form 301, containing the bond conditions set forth in § 113.63 of this chapter or a TIR carnet is liable for the safekeeping and delivery of the merchandise while it is being transferred.

[T.D. 71-70, 36 FR 4486, Mar. 6, 1971, as amended by T.D. 82-204, 47 FR 49368, Nov. 1, 1982; T.D. 84-212, 49 FR 39046, Oct. 3, 1984; T.D. 84-213, 49 FR 41168, Oct. 19, 1984; T.D. 89-1, 53 FR 51254, Dec. 21, 1988]

**§ 18.4 Sealing conveyances and compartments; labeling packages; warning cards.**

(a)(1) Conveyances or compartments in which carload lots of bonded merchandise are transported shall be sealed with commercial shipper seals, Customs red in-bond seals, or other accepted seals. High-security Customs seals will be required on carload or containerized shipments where the Customs officer reviewing the in-bond

#### § 18.4

#### 19 CFR Ch. I (4-1-99 Edition)

entry determines it is required to adequately protect the revenue and prevent violations of Customs laws. The bonded carrier will provide Customs with the necessary seals. When the compartment or conveyance cannot be effectively sealed, as in the case of merchandise shipped in open cars or barges, or on the decks of vessels, or when it is known that any seals would necessarily be removed outside the jurisdiction of the United States for the purpose of discharging or taking on cargo, or when it is known that the breaking of the seals will be necessary to ventilate the hatches, or in other similar circumstances, such sealings may be waived with the consent of the carrier and an appropriate notation of such waiver shall be made on the manifest. The Commissioner of Customs may authorize the waiver of sealing of conveyances or compartments in which bonded merchandise is transported in other cases when in his opinion the sealing thereof is unnecessary to protect the revenue or to prevent violations of the Customs laws and regulations.

(2) The port director shall cause a Customs seal to be affixed to a container or road vehicle which is being used to transport merchandise under cover of a TIR carnet unless the container or road vehicle bears a customs seal (domestic or foreign). The port director shall likewise cause a Customs seal or label to be affixed to heavy or bulky goods being so transported. If, however, he has reason to believe that there is a discrepancy between the merchandise listed on the Goods Manifest of the carnet and the merchandise which is to be transported, he shall cause a Customs seal or label to be affixed only when the listing of the merchandise in the carnet and a physical inventory agree.

(b) Ports at which the facilities are insufficient to maintain continuous customs supervision over vessels arriving with bonded cargo while the bonded merchandise is not under Customs seals shall permit the vessels to proceed to destination without further sealing and notation to this effect shall be made on the manifest.

(c)(1) Merchandise not under bond may be transported in sealed convey-

ances or compartments containing bonded goods when destined for the same place or places beyond, but not when intended for intermediate places.

(2) Merchandise moving under cover of a carnet may not be consolidated with other merchandise.

(d) The seals to be used in sealing conveyances, compartments, or packages must meet Customs standards provided in §24.13a of this chapter, and may be obtained in accordance with §24.13 of this chapter.

(e) Except as otherwise provided for in this paragraph, packages shipped in bond or by a carrier permitted to transport articles under the last sentence of section 553 of the tariff act, as amended, shall be corded and sealed or, in lieu thereof, the carrier shall furnish and attach to each such package a warning label on bright red paper, not less than 5 by 8 inches in size, containing the following legend in black or white lettering of a conspicuous size:

#### U.S. CUSTOMS

This package is under bond and must be delivered intact to the Customs officer in charge at the port of destination or to such other place as authorized by Customs.

WARNING. Two years' imprisonment, \$5,000 fine, or both, is the penalty for unlawful removal of this package or any of its contents.

Transportation Entry No. \_\_\_\_\_; From \_\_\_\_\_ To \_\_\_\_\_; This package to be delivered to Customs at \_\_\_\_\_ (If other than port of destination)

A carrier at its option may omit the last three lines of the above legend from the warning label but if not omitted the information called for must be filled in. If the size of the package renders the use of a 5 × 8 inch warning label impracticable because of lack of space, a 3 × 5 inch label may be used. A high visibility, pressure-sensitive warning label, whether as a continuous series in tape form or otherwise, but not less than 1½ by 3 inches in size, may be used on any size package. Such cording and sealing or labeling of the packages so shipped is not required either when the packages are transported in a conveyance or compartment sealed with Customs seals, or when the sealing of the conveyance or compartment in which the packages

are transported is waived under paragraph (a) or (b) of this section. When the packages are shipped in a railroad car the sealing of which is practicable but which is not sealed because merchandise not being transported in bond is or may be carried in the same car, the packages being transported in bond shall be corded and sealed or labeled.

(f) The warning label, when used, shall be pasted securely on the package under Customs supervision as close as practicable to the mark or number on the package. Additional labels may be required by the port director in such places on the package as he shall specify in any case where he is of the opinion that one is not adequate.

(g) When, in the case of crates and similar packages, it is impossible to attach the warning labels by pasting, bright red shipping tags of convenient size, large enough to be conspicuous and containing the same legend as the labels, shall be used in lieu of labels. Such tags shall be wired or otherwise securely fastened to the packages in such manner as not to injure the merchandise.

(h) Bonded carriers shall furnish and securely attach to the side doors of cars, to the doors of compartments, and on vehicles carrying bonded merchandise which are secured with Customs seals, bright red cards, 8 by 10¼ inches in size, which shall be attached near such seals and on which shall be printed in large, clear, black letters the following:

United States Customs. Two years' imprisonment, or \$5,000 fine, or both, is the penalty for the unlawful removal of United States Customs seals on this car, vehicle, or compartment. United States Customs officers only are authorized to break these seals.

(2) Containers carrying merchandise covered by a TIR carnet shall be accepted for transport under Customs seal (see §18.4) if (i) durably marked with the name and address of the owner, particulars of tare, and identification marks and numbers, (ii) constructed and equipped as outlined in Annex 6 to the TIR Convention, as evidenced by an accompanying unexpired certificate of approval in the form prescribed by Annex 8 to that Convention, or by a metal plate showing design type approval by a competent authority, and (iii) if the container or road vehicle hauling the container has affixed to it a rectangular plate bearing the letters "TIR" in accordance with Article 31 of the TIR Convention.

(b) Road vehicles carrying merchandise covered by a TIR carnet shall be accepted for transport under Customs seal if (1) durably marked with the name and address of the owner, particulars of tare, and identification marks and numbers, (2) constructed and equipped as outlined in Annex 3 to the TIR Convention, as evidenced by an accompanying unexpired certificate of approval in the form prescribed by Annex 5 to that Convention, or by a metal plate showing design type approval by a competent authority, and (3) if the road vehicle has affixed to it a rectangular plate bearing the letters "TIR" in accordance with Article 31 of the TIR Convention.

## 19 CFR Ch. I (4-1-99 Edition)

(c) The port director may refuse to accept for transport under Customs seal a container or road vehicle bearing evidence of approval if, in his opinion, the container or road vehicle no longer meets the requirements of the applicable Convention.

(d) Containers or road vehicles which are not approved under the provisions of a Customs Convention may be accepted for transport under Customs seal only if the port director at the port of origin is satisfied that (1) the container or road vehicle can be effectively sealed and (2) no goods can be removed from or introduced into the container or road vehicle without obvious damage to it or without breaking the seal. A container or road vehicle so accepted shall not carry merchandise covered by a TIR carnet.

[T.D. 71-70, 36 FR 4486, Mar. 6, 1971, as amended by T.D. 89-1, 53 FR 51254, Dec. 21, 1988]

### § 18.5 Diversion.

(a) Merchandise forwarded under any class of transportation entry may be diverted to any port other than the port named in the entry at the option of the consignee or agent. Except as provided for in paragraphs (c), (d), (e) and (f) of this section, prior application or approval of such diversion is not required.

(b) The director of the port to which merchandise is diverted may permit merchandise in transit under bond under any class of transportation entry to be entered at his port for consumption, warehouse, exportation, further transportation in bond, or under any provisions of the tariff laws.

(c) When merchandise which has been delivered to the director of the port of original destination or port of diversion under any class of transportation entry is to be forwarded to another port or returned to the port of origin, a new transportation entry shall be required. If the merchandise is moving under cover of a carnet, the carnet may be accepted as a transportation entry.

(d) If it is desired to split a shipment at a port of destination and to enter a portion for consumption or warehouse and forward the balance in bond, or to divert the entire shipment or a part thereof to more than one port, the director of the port where diversion

takes place shall complete the original transaction and shall require the filing of a new transportation entry or entries for the portion or portions forwarded. In the case, however, of merchandise being transported under cover of a carnet, splitting up of a shipment shall not be permitted.

(e) The diversion of shipments in bond which are subject on importation to restriction or prohibition under quarantines and regulations of the Agricultural Research Service of the Department of Agriculture shall be allowed only upon written permission or under regulations issued by the agency concerned.

(f) The diversion of in-bond shipments, which contain textiles or textile products subject to section 204, Agricultural Act of 1956, as amended (7 U.S.C. 1854), during the in-bond movement shall be allowed only upon the prior written permission of the director of the port of origin.

[T.D. 71-70, 36 FR 4487, Mar. 6, 1971, as amended by T.D. 82-116, 47 FR 27261, June 24, 1982; T.D. 84-207, 49 FR 38247, Sept. 28, 1984; T.D. 85-38, 50 FR 8723, Mar. 5, 1985]

### § 18.6 Short shipments; shortages; entry and allowance.

(a) When there has been a short shipment and the short-shipped packages are subsequently received, they may be forwarded only under a new transportation entry referenced to the original entry.

(b) When there is a shortage of one or more packages, or nondelivery of an entire shipment, or delivery to unauthorized locations, or delivery to the consignee without the permission of Customs, the port director may demand return of the merchandise to Customs custody. The demand shall be made no later than 30 days after the shortage, delivery, or nondelivery is discovered by Customs. The demand for the return of the merchandise to Customs custody shall be made on the bonded carrier, cartman, or lighterman identified on the Transportation Entry and Manifest of Goods Subject to Customs Inspection and Permit, Customs Form 7512, the Transit Air Cargo Manifest (TACM), or other appropriate document. The demand for the return of

the merchandise shall be made on Customs Form 4647, Notice of Redelivery, or other appropriate form or by letter. A copy of the demand with the date of mailing or delivery noted thereon, shall be retained by the port director and made part of the in-bond entry record. Entry of the merchandise may be accepted if the merchandise can be recovered intact without any of the packages having been opened. In such cases, any shortage from the invoice quantity shall be presumed to have occurred while the merchandise was in the possession of the bonded carrier.

(c) If the merchandise cannot be recovered intact, as specified above, entry shall be accepted in accordance with § 141.4 of this chapter for the full manifested quantity unless a lesser amount is otherwise permitted in accordance with subpart A of part 158. Except as provided in paragraph (d) of this section, if the merchandise is not returned to Customs custody within 30 days of the date of mailing or date of delivery of the demand for redelivery, there shall be sent to the initial bonded carrier a demand for liquidated damages on Customs Form 5955-A, in the case of nondelivery of an entire shipment or on Customs Form 5931, in the case of a partial shortage.

(d) If merchandise covered by a carnet cannot be recovered intact, as specified in paragraph (b) of this section, entry shall not be accepted; there shall be sent to the appropriate guaranteeing association a demand for liquidated damages, duties, and taxes as prescribed in § 18.8(e); and, if appropriate, there shall also be sent to the initial bonded carrier a demand for any excess, as provided in § 114.22(d) of this chapter. Demands shall be made on the forms specified in paragraph (c) of this section.

(e) An allowance in duty on merchandise reported short at destination, including merchandise found by the appraising officer to be damaged and worthless, and animals and birds found by the discharging officer to be dead on arrival at destination, shall be made in the liquidation of the entry.

(f) In the case of shipments arriving in the United States by rail or seatrian which are forwarded under Customs in-bond seals under the provisions of sub-

part D of part 123 of this chapter, and § 18.11, or § 18.20, a notation shall be made by the carrier or shipper on the in-bond manifest, Customs Form 7512, to show whether the shipment was transferred to the car designated in the manifest or whether it was laden in the car in the foreign country, which shall be named.

[T.D. 71-70, 36 FR 4487, Mar. 6, 1971, as amended by T.D. 82-116, 47 FR 27261, June 24, 1982; T.D. 82-158, 47 FR 37881, Aug. 27, 1982; T.D. 84-213, 49 FR 41168, Oct. 19, 1984; T.D. 85-180, 50 FR 42517, Oct. 21, 1985; T.D. 97-82, 62 FR 51770, Oct. 3, 1997]

#### **§ 18.7 Lading for exportation, verification of.**

(a) Promptly, but no more than 2 working days, after arrival of any portion of the in-bond shipment at the port of exportation, the delivering carrier shall surrender the in-bond manifest (the in-bond document and related Customs Form 7512-C (destination) or the carnet) to the port director as notice of arrival of the merchandise. If the in-bond manifest is lost in transit, the in-bond carrier shall report the arrival of the merchandise within the prescribed period and shall be responsible for obtaining copies of the original in-bond manifest. Failure to surrender the in-bond manifest or report the arrival of bonded merchandise within the prescribed period shall constitute an irregular delivery and the initial bonded carrier shall be subject to applicable penalties (see § 18.8).

(b) The port director shall require only such supervision of the lading for exportation of merchandise covered by an entry or withdrawal for exportation or for transportation and exportation as is reasonably necessary to satisfy him that the merchandise has been laden on the exporting conveyance.

(c) Whenever the circumstances warrant, and occasionally in any event, port directors shall request the Office of Enforcement to check export entries and withdrawals against the records of the exporting carriers. Such check or verification shall include an examination of the carrier's records of claims and settlement of export freight charges and any other records which may relate to the transaction. The exporting carrier shall maintain these

records for 5 years from the date of exportation of the merchandise.

[28 FR 14755, Dec. 31, 1963, as amended by T.D. 79–159, 44 FR 31967, June 4, 1979; T.D. 84–212, 49 FR 39047, Oct. 3, 1984; T.D. 91–77, 56 FR 46114, Sept. 10, 1991]

### **§ 18.8 Liability for shortage, irregular delivery, or nondelivery; penalties.**

(a) The initial bonded carrier shall be responsible for shortage, irregular delivery, or nondelivery at the port of destination or exportation of bonded merchandise received by it for carriage. An acceptable proof of proper delivery of bonded merchandise to Customs at the port of destination or exportation is a properly receipted copy of the in-bond document (the appropriate Customs Form 7512 or 7520, or the carnet). When sealing is waived, any loss found to exist at the port of destination or exportation shall be presumed to have occurred while the merchandise was in the possession of the carrier, unless conclusive evidence to the contrary is produced.

(b) Carriers shall be liable for payment of liquidated damages under the carriers bond for any shortage, failure to deliver, or irregular delivery, as provided in such bond.

(c) In addition to the penalties described in paragraph (b) of this section, the carrier shall pay any internal-revenue taxes, duties, or other taxes accruing to the United States on the missing merchandise, together with all costs, charges, and expenses caused by the failure to make the required transportation, report, and delivery.

(d) In any case in which liquidated damages imposed in accordance with this section do not aggregate over \$100,000 and the Fines, Penalties, and Forfeitures Officer is satisfied by evidence submitted to him with an application for relief from the payment thereof filed as provided in part 172 of this chapter that any shortage, irregular delivery, nondelivery, or any failure to obtain Customs supervision was without any intent to evade any law or regulation, the Fines, Penalties, and Forfeiture Officer may cancel such claim upon the payment of any lesser amount or without the payment of any amount, as he may deem appropriate

under the law and in view of the circumstances.

(e)(1) The domestic guaranteeing association shall be jointly and severally liable with the initial bonded carrier for duties and taxes accruing to the U.S., and any other charges imposed, in lieu thereof, as the result of any shortage, irregular delivery, or nondelivery at the port of destination or port of exit of merchandise covered by a TIR carnet. The liability of the domestic guaranteeing association is limited to \$50,000 per TIR carnet for duties, taxes, and sums collected in lieu thereof. Penalties imposed as liquidated damages on the initial bonded carrier, and sums assessed the guaranteeing association in lieu of duties and taxes for any shortage, irregular delivery, or nondelivery shall be in accordance with this section. If a TIR carnet has not been discharged or has been discharged subject to a reservation, the guaranteeing association shall be notified within 1 year of the date upon which the carnet is taken on charge, including time for receipt of the notification, except that if the discharge shall have been obtained improperly or fraudulently the period shall be 2 years. However, in cases which become the subject of legal proceedings during the above-mentioned period, no claim for payment shall be made more than 1 year after the date when the decision of the court becomes enforceable.

(2) Within 3 months from the date demand for payment is made by the port director as provided by § 18.6(d), the guaranteeing association shall pay the amount claimed, except that if the amount claimed exceeds the liability of the guaranteeing association under the carnet (see § 114.22(d) of this chapter), the carrier shall pay the excess. The amount paid shall be refunded if, within a period of 1 year from the date on which the claim for payment was made, it is established to the satisfaction of the Commissioner of Customs that no irregularity occurred. The Fines, Penalties, and Forfeitures Officer may cancel liquidated damages assessed against the guaranteeing association to the extent authorized by paragraph (d) of this section.

(3) The domestic guaranteeing association shall be jointly and severally

liable with the initial bonded carrier for pecuniary penalties, liquidated damages, duties, and taxes accruing to the United States and any other charges imposed as the result of any shortage, irregular delivery, or nondelivery at the port of destination or port of exit of merchandise covered by an A.T.A. or TECRO/AIT carnet. However, the liability of the guaranteeing association shall not exceed the amount of the import duties by more than 10 percent. If an A.T.A. or TECRO/AIT carnet is unconditionally discharged with respect to certain goods, the guaranteeing association will no longer be liable on the carnet with respect to those goods unless it is subsequently discovered that the discharge of the carnet was obtained fraudulently or improperly or that there has been a breach of the conditions of temporary admission or of transit. No claim for payment shall be made more than one year following the date of expiration of the validity of the carnet. The guaranteeing association shall be allowed a period of six months from the date of any claim by the port director in which to furnish proof of the reexportation of the goods or of any other proper discharge of the A.T.A. or TECRO/AIT carnet. If such proof is not furnished within the time specified, the guaranteeing association shall either deposit or provisionally pay the sums. The deposit or payment shall become final three months after the date of the deposit or payment, during which time the guaranteeing association may still furnish proof of the reexportation of the goods to recover the sums deposited or paid.

**§ 18.9 Examination by inspectors of trunk line associations or agents of the Interstate Commerce Commission.**

(a) Upon presentation of proper credentials showing the applicant to be a representative of the Trunk Line Association, the Interstate Commerce Commission, the Joint Rate Inspection Bureau of Chicago, or the Southern

Weighing and Inspection Bureau of Atlanta, inspectors of Customs in charge shall permit such applicant to open and examine packages containing in-bond merchandise described in the manifest in general terms for the purpose of ascertaining whether the merchandise is properly classified under the interstate commerce laws.

(b) The opening and examination of such packages shall be without expense to the Customs Service or the owner of the goods and shall be done in the presence of a Customs officer. The contents of the cases shall not be removed or disturbed further than is necessary to ascertain the character thereof. The Customs officer shall require the packages to be securely closed, and shall note on the manifest the packages so inspected, the date, and by whom inspected.

**§ 18.10 Kinds of entry.**

(a) The following entries and withdrawals may be made for merchandise to be transported in bond:

(1) Entry for immediate transportation without appraisalment.

(2) Warehouse or rewarehouse withdrawal for transportation.

(3) Warehouse or rewarehouse withdrawal for exportation or for transportation and exportation.

(4) Entry for transportation and exportation.

(5) Entry for exportation.

(b) The copy of each entry or withdrawal made in any of the classes named in paragraph (a) of this section which is retained in the office of the forwarding port director shall be signed by the party making the entry or withdrawal. In the case of shipments to the Virgin Islands (U.S.) under paragraph (a), (3), (4), or (5) of this section, one additional copy of the entry or withdrawal on Customs Form 7512 shall be filed and shall be mailed by the receiving port director to the port director, Charlotte Amalie, St. Thomas, Virgin Island (U.S.). Before shipping merchandise in bond to another port for the purpose of warehousing or rewarehousing, the shipper should ascertain whether warehouse facilities

#### § 18.10a Special manifest.

(a) *General.* Merchandise for which no other type of bonded movement is appropriate (e.g., prematurely discharged or overcarried merchandise and other such types of movements whereby the normal transportation-in-bond procedures are not applicable) may be shipped in bond from the port of unloading to the destination shown on the importing carrier's manifest (manifested port) when authorized by the port director having custody of the merchandise. For this purpose, Custom's Form 7512 prepared in quadruplicate shall be used as a special manifest.

(b) *Manifest procedures.* (1) Written application shall be made to the port director where the merchandise is being held for permission to return it as a bonded shipment under a special manifest to the manifested port, including to the port of diversion (see section 4.33 of this chapter), when different from the original manifested port.

(2) The application and accompanying completed Customs Form 7512 shall identify the prematurely discharged or overcarried merchandise on the inward manifest of the importing carrier; and also identify the date and entry number of any entry made at the manifested port covering the merchandise to be returned, if known. If the port director is satisfied that the merchandise will be delivered to Customs custody at the manifest port before expiration of 90 days from the date of the entry identified, or 90 days from the date of the importing carrier's arrival at the manifested port when no entry is identified, the port director may approve the shipment under a special manifest.

### 19 CFR Ch. I (4-1-99 Edition)

#### IMMEDIATE TRANSPORTATION WITHOUT APPRAISEMENT

#### § 18.11 Entry; classes of goods for which entry is authorized; form used.

(a) Entry for immediate transportation without appraisement may be made under section 552, Tariff Act of 1930, (1) for any merchandise, except explosives and prohibited merchandise, upon its arrival at a port of entry, or (2) for merchandise in general-order warehouse at any time within 6 months from the date of importation.

(b) Entry for immediate transportation without appraisement may be made by (1) the carrier bringing the merchandise to the port of arrival, (2) the carrier who is to accept the merchandise under its bond or a carnet for transportation to the port of destination, or (3) any person shown by the bill of lading or manifest, a certificate of the importing carrier, or by any other document satisfactory to the port director, to have a sufficient interest in the merchandise for that purpose.

(c) Before a shipment covered by an entry for immediate transportation, including a carnet, or a manifest of baggage shipped in bond (other than baggage to be forwarded in bond to a Customs station—see § 18.13(a)), shall be allowed to be transported directly to a place of deposit outside a port of entry for examination and release as contemplated by section 484(f), Tariff Act of 1930, as amended, the consent of the director of the port of entry designated in the transportation entry or baggage manifest (or in the event of diversion under § 18.5, for the port of destination of the merchandise or baggage) must first be secured. Before consent may be given, the importer must furnish such port director with a stipulation that, promptly upon the arrival of any part of the merchandise or baggage at the place of deposit, he will file an entry for the shipment at the port of entry designated in the transportation entry or baggage manifest (or in the event of diversion under § 18.5, at the port of

destination of the merchandise or baggage) and will comply with the provisions of § 151.9 of this chapter.

(d) Carload shipments of livestock shall not be entered for immediate transportation without appraisement unless they will arrive at destination before it becomes necessary to remove the seals for the purpose of watering and feeding the animals, or unless the route be such that the removal of the seals and the watering, feeding, and re-loading of the stock may be done under Customs supervision.

(e) Entries for immediate transportation without appraisement covering merchandise subject to detention of supervision by any Federal agency shall contain a sufficient description of the merchandise to enable the representative of the agency concerned to determine the contents of the shipment. Such merchandise covered by quarantines and regulations administered by the Bureau of Entomology and Plant Quarantine shall be forwarded under such entries only upon written permission of or under regulations issued by that Bureau. Entries for immediate transportation without appraisement covering textiles and textile products subject to section 204, Agricultural Act of 1956, as amended (7 U.S.C. 1854), shall be described in such detail as to enable the port director to estimate the duties and taxes, if any, due. The port director may require evidence to satisfy him of the approximate correctness of the value and quantity stated in the entry (e.g. Detailed quantity description, 14 cartons, 2 dozen per carton); Detailed description of the textiles or textile products including type of commodity and chief fiber content (e.g., men's cotton jeans or women's wool sweaters); Net weight of the textiles or textile products (including immediate packing but excluding pallet); Total value of the textiles or textile products; Manufacturer or supplier; Country of origin; Name(s) and address(es) of the person(s) to whom the textiles and textile products are consigned; Harmonized code tariff number (when available).

(f) One or more entire packages of merchandise covered by an invoice from one consignor to one consignee may be entered for consumption or

warehouse at the port of first arrival, and the remainder entered for immediate transportation without appraisement, provided all the merchandise covered by the invoice is entered simultaneously and any carnet which may cover such merchandise is discharged as to that merchandise.

(g) Several importations may be consolidated in one immediate transportation without appraisement entry when bills of lading or carrier's certificates name only one consignee at the port of first arrival. However, merchandise moving under cover of a carnet may not be consolidated with other merchandise.

(h) Either Customs Form 7512, a carnet, or an air waybill (see § 122.92 of this chapter), shall be used as a combined transportation entry, invoice, and manifest. If Customs Form 7512 is used, a minimum of three copies shall be required at the port of origin. The port director, however, may require additional copies of Customs Form 7512 or the Goods Manifest of the carnet for use in connection with the delivery of the merchandise to the bonded carrier. In lieu of additional copies of the Goods Manifest, the port director may accept copies of a bill of lading covering the merchandise. The merchandise shall be described in such detail as to enable the port director to estimate the duties and taxes, if any, due. The port director may require evidence to satisfy him of the approximate correctness of the value or quantity stated in the entry. If a TIR carnet is used, and the duties and taxes estimated to be due exceed the maximum liability of the guaranteeing association under the carnet, the provisions of § 114.22(d) of this chapter shall apply.

(i) The value stated on the entry at the port of first arrival is not binding on the ultimate consignee making entry at the port of destination and does not relieve the importer of the obligation to show the correct value on entry.

#### § 18.20 Entry procedure; forwarding.

(a) When an importation is entered for transportation and exportation, except as provided for in subparts D, E, F and G of part 123 of this chapter (relating to merchandise in transit through the U.S. between two points in contiguous foreign territory), a carnet, three copies of an air waybill (see § 122.92 of this chapter), or four copies of Customs Form 7512 shall be required. The port director, however, may require additional copies of Customs Form 7512 or the Goods Manifest of the carnet for use in connection with the delivery of the merchandise to, the bonded carrier. (b) Except in respect to merchandise covered by a carnet (see § 18.1(a) (2) and (3)), in places where no bonded common carrier facilities are reasonably available and merchandise is permitted to be transported otherwise than by a bonded common carrier, the port director may permit entry in accordance with the procedure outlined in paragraph (a) of this section if he is satisfied that the revenue will not be endangered. A bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter in an amount equal to double the estimated duties shall be required when the port director deems such action necessary. exported directly without transportation to another port, four copies of Customs Form 7512 shall be filed. If a TIR carnet covers the merchandise which is to be exported directly without transportation, the carnet shall be discharged or canceled, as appropriate (see part 114 of this chapter), and four copies of Form 7512 shall be filed. The port director may require an extra copy or copies of Form 7512 to be furnished for use in connection with delivery of the merchandise to the carrier named in the entry. If an A.T.A. carnet covers the merchandise which is to be exported directly without transportation, the carnet shall be discharged by the certification of the appropriate transportation and reexportation vouchers by Customs officers as necessary.

(b) A bond on Customs Form 301, containing the bond conditions set forth in § 113.63 of this chapter, shall be required. (See also § 158.45 of this chapter.)

(c) If the merchandise has been landed or is transferred from one vessel to another and has not been entered for consumption or, in the case of goods entered for consumption and rejected, such export declaration as required by § 30.3(a)(2) of the Foreign Trade Statistics Regulations (15 CFR 30.3(a)(2)) shall be filed.

(d) If the merchandise is exported in the importing vessel without landing, a representative of the exporting carrier who has knowledge of the facts shall certify that the merchandise entered for exportation was not discharged during the vessel's stay in port. A charge shall be made against the continuous bond on Customs Form 301, containing the bond conditions set forth in § 113.64 of this chapter, if on file, or if a continuous bond is not on file, a single entry bond containing the bond conditions set forth in § 113.64 shall be required as in the case of residue cargo for foreign ports. If the merchandise is covered by a TIR carnet, the carnet shall not be taken on charge (see § 114.22(c)(2) of this chapter).

(e) The principal on any bond filed to guarantee direct exportation shall cause the merchandise to be exported and provide such evidence of exportation as required by the port director

(f) Gunpowder and other explosive substances, the deposit of which in any public store or bonded warehouse is prohibited by law, may be entered on arrival from a foreign port for immediate exportation in bond by sea, but shall be transferred directly from the importing to the exporting vessel.

#### § 18.26 Indirect exportation.

(a) When merchandise of the character enumerated in § 18.25(d) is to be transported in bond to another port for exportation, it may be entered for transportation and exportation in accordance with the procedure in § 18.20. Upon acceptance of the entry by Customs and acceptance of the merchandise by the bonded carrier, the bonded carrier assumes liability for the transportation and exportation of the merchandise. In the case of merchandise prohibited entry by any Government agency, that fact shall be prominently noted on Customs Form 7512 for the information of the director of the port of exportation. If the merchandise was imported under cover of a TIR carnet, the carnet shall be discharged or canceled at the port of importation and the merchandise transported under an entry on Customs Form 7512 (see § 18.25). If merchandise has been imported under cover of an A.T.A. carnet to be transported in bond to another port for exportation, the appropriate transit voucher shall be accepted in lieu of Customs Forms 7512. One transit voucher shall be certified by Customs officers at the port of importation and a second transit voucher, together with the reexportation voucher, shall be certified at the port of exportation.

(b) The merchandise shall be forwarded in accordance with the general provisions for transportation in bond, §§ 18.1 through 18.8.

(d) *Procedures when there is more than one carrier (i.e., transfer of the merchandise)—(1) Pipeline as initial carrier.* When a pipeline is the initial carrier of bonded merchandise and the merchandise is transferred to another conveyance (either a different mode of transportation or a pipeline operated by another operator), the procedures in § 18.3 and paragraph (c) of this section shall be followed, except that—

(i) When the merchandise is to be transferred to one conveyance, a copy of the bill of lading or equivalent document issued by the pipeline operator to the shipper shall be delivered to the person in charge of the conveyance for delivery, along with the in-bond document, to the appropriate Customs official at the port of destination or exportation; or

### § 19.1 Classes of customs warehouses.

(a) Customs warehouses shall be designated according to the following classifications:

(1) *Class 1.* Premises owned or leased by the Government and used for the storage of merchandise undergoing examination by the Customs Officer, under seizure, or pending final release from Customs custody. Unclaimed merchandise stored in such premises shall be held under “general order.”

When such premises are not sufficient or available for the storage of seized and unclaimed goods, such goods may be stored in a warehouse of class 3, 4, or 5. So far as such warehouses are used for this purpose, they shall be designated “bonded stores.” If there are no warehouses of these classes available, the port director may, with the approval of Headquarters, U.S. Customs Service, rent suitable premises for the storage of seized and unclaimed goods.

(2) *Class 2.* Importers’ private bonded warehouses used exclusively for the storage of merchandise belonging or consigned to the proprietor thereof. A warehouse of class 4 or 5 may be bonded exclusively for the storage of goods imported by the proprietor thereof, in which case it shall be known as a private bonded warehouse.

(3) *Class 3.* Public bonded warehouses used exclusively for the storage of imported merchandise.

(4) *Class 4.* Bonded yards or sheds for the storage of heavy and bulky imported merchandise; stables, feeding pens, corrals, or other similar buildings or limited enclosures for the storage of

imported animals; and tanks for the storage of imported liquid merchandise in bulk. If the port director deems it necessary, the yards shall be enclosed by substantial fences with entrances and exit gates capable of being secured by the proprietor’s locks. The inlets and outlets to tanks shall be secured by means of seals or the proprietor’s locks.

(5) *Class 5.* Bonded bins or parts of buildings or of elevators to be used for the storage of grain. The bonded portions shall be effectively separated from the rest of the building.

(6) *Class 6.* Warehouses for the manufacture in bond, solely for exportation, of articles made in whole or in part of imported materials or of materials subject to internal-revenue tax; and for the manufacture for home consumption or exportation of cigars in whole or tobacco imported from one country.

(7) *Class 7.* Warehouses bonded for smelting and refining imported metal-bearing materials for exportation or domestic consumption.

(8) *Class 8.* Bonded warehouses established for the purpose of cleaning, sorting, repacking, or otherwise changing in condition, but not manufacturing, imported merchandise, under Customs supervision and at the expense of the proprietor.

(9) *Class 9.* Bonded warehouse, known as “duty-free stores”, used for selling, for use outside the Customs territory, conditionally duty-free merchandise owned or sold by the proprietor and delivered from the Class 9 warehouse to an airport or other exit point for exportation by, or on behalf of, individuals departing from the Customs territory for destinations other than foreign trade zones. Pursuant to 19 U.S.C. 1555(b)(8)(C), “Customs territory”, for purposes of duty-free stores, means the Customs territory of the U.S. as defined in § 101.1(e) of this chapter, and foreign trade zones (see part 146 of this chapter). All distribution warehouses used exclusively to provide individual duty-free sales locations and storage cribs with conditionally duty-free merchandise are also Class 9 warehouses.

(b) The whole or a part of any warehouse of class 1, 2, 3, 4, 5, 6, or 7 may be

## § 19.2

designated a constructive manipulation (class 8) warehouse when the exigencies of the service so require.

### GENERAL PROVISIONS

#### § 19.2 Applications to bond.

(a) *Application.* An owner or lessee desiring to establish a bonded warehouse facility shall make written application to the director of the port nearest to where the warehouse is located, describing the premises, giving its location, and stating the class of warehouse desired. If required by the port director, the applicant shall provide a list of names and addresses of all officers and managing officials of the warehouse and all persons who have a direct or indirect financial interest in the operation of the warehouse facility. Except in the case of a class 2 or class 7 warehouse, the application shall state whether the warehouse facility is to be operated only for the storage or treatment of merchandise belonging to the applicant or whether it is to be operated as a public bonded warehouse. If the warehouse facility is to be operated as a private bonded warehouse, the application also shall state the general character of the merchandise to be stored therein, and provide an estimate of the maximum duties and taxes which will be due on all merchandise in the bonded warehouse at any one time. A warehouse facility will be determined by street address, location, or both. For example, if a proprietor has two warehouses located at one street address and three warehouses located at three different street addresses the two located at one address would be considered as one warehouse facility and the three located at three different addresses would each be considered as separate warehouses facilities. The applicant must prepare and have available at the warehouse a procedures manual describing the inventory control and recordkeeping system that will be used in the warehouse. A certification by the proprietor that the inventory control and recordkeeping sys-

tem meets the requirements of § 19.12 will be submitted with the application. The physical security of the facility must meet the approval of the port director.

(b) The applicant shall submit evidence of fire insurance coverage on the proposed warehouse. If the applicant does not have fire insurance for the proposed warehouse, he shall submit a certificate signed by an officer or agent of each of two insurance companies stating that the building is acceptable for fire-insurance purposes. The application shall also be accompanied by a blueprint showing measurements, openings, etc., of the building or space to be bonded. If the warehouse to be bonded is a tank, the blueprint shall show all outlets, inlets, and pipe lines and shall be certified as correct by the proprietor of the tank. A gauge table showing the capacity of the tank in United States gallons per inch or fraction of an inch of height, certified by the proprietor to be correct, shall accompany the application. When a part or parts of a building are to be used as the warehouse, there shall be given a detailed description of the materials and construction of all partitions. When the proprietor is the lessee of the premises covered by the application and bond, he shall furnish a stipulation concurred in by the sureties, agreeing that, prior to the expiration of the lease covering the premises without renewal thereof, he will transfer any merchandise remaining in the bonded warehouse to an approved bonded warehouse, pay all duties, charges, or exactions due on such merchandise, or otherwise dispose of such merchandise in accordance with the Customs laws and regulations. If the application is for a Class 9 warehouse (duty-free store), the applicant shall furnish the following documents:

(1) A map showing the location of the facilities to be bonded in respect to the port of entry and distances to all exit points of purchasers of conditionally duty-free merchandise;

(2) A description of the store's procedures, which includes inventory control, recordkeeping, and delivery methods. These procedures must be set forth in the proprietor's procedures manual. Such manual and subsequent changes

therein must be furnished to the port director upon request. The procedures in the manual shall provide reasonable assurance that conditionally duty-free merchandise sold therein will be exported;

(3) If an airport duty-free store, a description of the store's procedures for restricting sales of conditionally duty-free merchandise to personal-use quantities; and

(4) A statement by an authorized official of the appropriate state, local or other governmental authority administering the exit point facility that the applicant duty-free store is authorized to deliver conditionally duty-free merchandise to purchasers at or through that exit point facility. A separate statement shall be required for each government's authority having jurisdiction over exit point facilities through which the duty-free store intends to deliver merchandise to purchasers. If the merchandise will be delivered through an exit point which is not under the jurisdiction of a governmental authority, the applicant will provide a statement to that effect.

(c) On approval of the application to bond a warehouse of any class, except class 1, a bond shall be executed on Customs Form 301, containing the bond conditions set forth in §113.63 of this chapter.

(d) [Reserved]

(e) Any proprietor of a bonded warehouse may be required on 10 days' notice from the port director to furnish a new bond on Customs Form 301, containing the bond conditions set forth in §113.63 of this chapter; and if he fails to do so, no more goods shall be sent to the warehouse and those therein shall be removed at the expense of such proprietor. A new bond is required if the bonded warehouse is substantially altered or rebuilt.

(f) As a condition of approval of the application, the port director may order an inquiry by a Customs officer into the qualification, character, and experience of the applicant (e.g. personal history, financial and business data, credit and personal references), and into the security, suitability, and fitness of the facility. The port director may require an individual applicant to submit fingerprints on Standard Form

87 at the time of filing the application, or in the case of applications from a business entity, may require the fingerprints, on Standard Form 87, of all officers and managing officials of the business entity.

(g) The port director shall promptly notify the applicant in writing of his decision to approve or deny the application to bond the warehouse. If the application is denied the notification shall state the grounds for denial. The decision of the port director will be the final Customs administrative determination in the matter.

### **§ 19.3 Bonded warehouses; alterations; relocation; suspensions; discontinuance.**

(a) *Alterations or relocation.* Alterations to or relocation of a warehouse may be made with the permission of the director of the port nearest to where the facility is located.

(b) *Suspensions.* The use of all or part of a bonded warehouse or bonded floor space may be temporarily suspended by the port director of a period not to exceed one year on written application of the proprietor if there are no bonded goods in the area. Upon written application of the proprietor and upon the removal of all nonbonded goods, if any, the premises may again be used for the storage of bonded goods. If the application is approved, the port director shall indicate the approval by endorsement on the application. Rebonding will not be necessary as long as the original bond remains in force.

(c) *Discontinuance.* If a proprietor wishes to discontinue the bonded status of the warehouse, he shall make written application to the port director. The port director shall not approve the application until all goods in the warehouse are transferred to another bonded warehouse without expense to the Government. To reestablish the bonded warehouse, application shall be

### § 19.3

### 19 CFR Ch. I (4–1–99 Edition)

made and approved under the provision of § 19.2 of this chapter.

(d) *Employee lists.* The port director may make a written demand upon the proprietor to submit, within 30 days after the date of demand, a written list of the names, addresses, social security numbers, and dates and places of birth of all persons employed by the proprietor in the carriage, receiving, storage, or delivery of any bonded merchandise. If a list has been previously furnished the proprietor shall advise the port director in writing of the names, addresses, social security numbers, and dates and places of birth of any new personnel employed by him in the carriage, receiving, storage, or delivery of bonded merchandise within 10 days after such employment. For the purpose of this part a person shall not be deemed to be employed by a warehouse proprietor if he is an officer or employee of an independent contractor engaged by the warehouse proprietor to load, unload, transport, or otherwise handle bonded merchandise.

(e) *Revocation or suspension for cause.* The port director may revoke or suspend for cause the right of a proprietor to continue the bonded status of the warehouse for any ground specified in this paragraph. An action to suspend or revoke the right to operate a bonded warehouse shall be taken in accordance with the procedures set forth in paragraph (f) of this section. If the bonded status is revoked or suspended for cause, the port director shall require all goods in the warehouse to be transferred to a bonded warehouse without expense to the Government. The bonded status of a warehouse may be revoked or suspended for cause if:

(1) The approval of the application to bond the warehouse was obtained through fraud or the misstatement of a material fact;

(2) The warehouse proprietor refuses or neglects to obey any proper order of a Customs officer or any Customs order, rule, or regulation relative to the operation or administration of a bonded warehouse;

(3) The warehouse proprietor or an officer of a corporation which has been granted the right to operate a bonded warehouse is convicted of or has committed acts which would constitute a

felony, or a misdemeanor involving theft, smuggling, or a theft-connected crime. Any change in the employment status of the corporate officer, (e.g., discharge, resignation, demotion, or promotion) prior to conviction of a felony or prior to conviction of a misdemeanor involving theft, smuggling, or a theft-connected crime, resulting from acts committed while a corporate officer, will not preclude application of this provision;

(4) The warehouse proprietor does not provide secured facilities or properly safeguard merchandise within the bonded warehouse;

(5) The warehouse proprietor fails to furnish a current list of names, addresses, and other information required by § 19.3(d);

(6) The bond required by § 19.2(c) or (d) of this chapter is determined to be insufficient in amount or lacking sufficient sureties, and a satisfactory new bond with goods and sufficient sureties is not furnished within a reasonable time;

(7) Bonded merchandise has not been stored in the warehouse for a period of 2 year; or

(8) The warehouse proprietor or an employee of the warehouse proprietor discloses proprietary information in, or proprietary information contained on, documents to be included in the permit file folder to an unauthorized person.

(9) The proprietor of a Class 9 warehouse is or has been unable to provide reasonable assurance that conditionally duty-free merchandise is or was exported in compliance with the regulations of this part.

(f) *Procedure for revocation or suspension for cause.* The port director may at any time serve notice in writing upon any proprietor of a bonded warehouse to show cause why his right to continue the bonded status of his warehouse should not be revoked or suspended for cause. Such notice shall advise the proprietor of the grounds for the proposed action and shall afford the proprietor an opportunity to respond in writing within 30 days. Thereafter, the port director shall consider the allegations and responses made by the proprietor unless the proprietor in his response requests a hearing. If a hearing is requested, it shall be held

before a hearing officer designated by the Commissioner of Customs or his designee within 30 days following the proprietor's request. The proprietor may be represented by counsel at such hearing, and all evidence and testimony of witnesses in such proceedings, including substantiation of the allegations and the responses thereto shall be presented, with the right of cross-examination to both parties. A stenographic record of any such proceeding shall be made and a copy thereof shall be delivered to the proprietor of the warehouse. At the conclusion of the hearing, the hearing officer shall promptly transmit all papers and the stenographic record of the hearing to the Assistant Commissioner, Office of Field Operations or designee together with his recommendation for final action. The proprietor may submit in writing additional views or arguments to the Assistant Commissioner, Office of Field Operations or designee following a hearing on the basis of the stenographic record, within 10 days after delivery to him of a copy of such record. The Assistant Commissioner, Office of Field Operations or designee shall thereafter render his decision in writing, stating his reasons therefor. Such decision shall be served on the proprietor of the warehouse, and shall be considered the final administrative action.

(g) *Review by the Court of International Trade.* Any proprietor adversely affected by a decision of the Assistant Commissioner, Office of Field Operations or designee may appeal the decision in the Court of International Trade.

#### **§ 19.4 Customs and proprietor responsibility and supervision over warehouses.**

(a) *Customs supervision.* The character and extent of Customs supervision to be exercised in connection with any warehouse facility or transaction provided for in this part shall be in accordance with §101.2(c) of this chapter.

Independent of any need to appraise or classify merchandise, the port director may authorize a Customs officer to supervise any transaction or procedure at the bonded warehouse facility. Such supervision may be performed through periodic audits of the warehouse proprietor's records, quantity counts of goods in warehouse inventories, spot checks of selected warehouse transactions or procedures or reviews of conditions of recordkeeping, storage, security, or safety in a warehouse facility.

(b) *Proprietor responsibility and supervision—(1) Supervision.* The proprietor shall supervise all transportation, receipts, deliveries, sampling, recordkeeping, repacking, manipulation, destruction, physical and procedural security, conditions of storage, and safety in the warehouse as required by law and regulations. Supervision by the proprietor shall be that which a prudent manager of a storage and manipulation facility would be expected to exercise.

(2) *Customs access.* The warehouse proprietor shall permit access to the warehouse and present merchandise within a reasonable time after request by any Customs officer.

(3) *Safekeeping of merchandise and records.* The proprietor is responsible for safekeeping of merchandise and records concerning merchandise entered in Customs bonded warehouses. The proprietor or his employees shall safeguard and shall not disclose proprietary information contained in or on related documents to anyone other than the importer, importer's transferee, or owner of the merchandise to whom the document relates or their authorized agent.

(4) *Records maintenance—(i) Maintenance.* The proprietor shall:

(A) Maintain the inventory control and recordkeeping system in accordance with the provisions of §19.12 of this part;

(B) Retain all records required in this part and defined in §163.1(a) of this chapter, pertaining to bonded merchandise for 5 years after the date of the final withdrawal under the entry; and

(C) Protect proprietary information in its custody from unauthorized disclosure.

#### § 19.4

#### 19 CFR Ch. I (4–1–99 Edition)

(ii) *Availability.* Records shall be readily available for Customs review at the warehouse. In addition, a proprietor may keep records at another location for Customs review, but only if the proprietor first receives written approval for such storage from the port director.

(5) *Record retention in lieu of originals.* A warehouse proprietor may, in accordance with § 163.5 of this chapter, utilize alternative storage methods in lieu of maintaining records in their original formats.

(6) *Warehouse and merchandise security.* The warehouse proprietor shall maintain the warehouse facility in a safe and sanitary condition and establish procedures adequate to ensure the security of all merchandise under Customs custody stored in the facility. The warehouse construction will be a factor that will be considered by the port director in deciding whether to approve the application. The facility shall be built in such a manner as to render it impossible for unauthorized personnel to enter the premises without such violence as to make the entry easy to detect. If a portion of the facility is to be used for the storage of non-bonded merchandise, the port director shall designate the means for effective separation of the bonded and non-bonded merchandise, such as a wall, fence, or painted line. All inlets and outlets to bonded tanks shall be secured with locks and/or in-bond seals.

(7) *Storage conditions.* Merchandise in the bonded area shall be stored in a safe and sanitary manner to minimize damage to the merchandise, avoid hazards to persons, and meet local, state, and Federal requirements applicable to specific kinds of goods. Doors and entrances shall be left unblocked for access by Customs officers and warehouse proprietor personnel.

(8) *Manner of storage.* Packages shall be received in the warehouse and recorded in the proprietor's inventory and accounting records according to their marks and numbers. Packages containing weighable or gaugeable merchandise not bearing shipping marks and numbers shall be received under the weigher's or gauger's numbers. Packages with exceptions due to damage or loss of contents, or not iden-

tical as to quantity or quality of contents shall be stored separately until the discrepancy is resolved with Customs. Merchandise received in the warehouse shall be stored in a manner directly identifying the merchandise with the entry, general order, or seizure number; using a unique identifier for inventory categories composed of fungible merchandise accounted for on a First-In-First-Out (FIFO) basis; or using a unique identifier for inventory categories composed of fungible merchandise accounted for using another approved alternative inventory method.

(i) *Direct identification.* The warehouse proprietor shall mark all shipments for identification, showing the general order or warehouse entry number or seizure number and the date of the general order, entry, or delivery ticket in the case of seizures. Containers covered by a given warehouse entry, general order or seizure shall not be mixed with goods covered by any other entry, general order or seizure. Merchandise covered by a given warehouse entry, general order or seizure may be stored in multiple locations within the warehouse if the proprietor's inventory control system specifically identifies all locations where merchandise for each entry, general order or seizure is stored and the quantity in each location. The proprietor must provide, upon request by a Customs officer, a record balance of goods, specifying the quantity in each storage location, covered by any warehouse entry, general order, or seizure so a physical count can be made to verify the accuracy of the record balance.

(ii) *FIFO.* A proprietor may account for fungible merchandise on a First-In-First-Out (FIFO) basis instead of specific identification by warehouse entry number, provided the merchandise meets the criteria for fungibility and the recordkeeping requirements contained in § 19.12 of this part are met. As of the beginning date of FIFO procedures, each kind of fungible merchandise in the warehouse under FIFO shall constitute a separate inventory category. Each inventory category shall be assigned a unique number or other

identifier by the proprietor to distinguish it from all other inventory categories under FIFO. All of the merchandise in a given inventory category shall be physically placed so as to be segregated from merchandise under other inventory categories or merchandise accounted for under other inventory methods. The unique identifier shall be marked on the merchandise, its container, or the location where it is stored so as to clearly show the inventory category of each article under FIFO procedures. Merchandise covered by a given unique identifier may be stored in multiple locations within the warehouse if the proprietor's inventory control system specifically identifies all locations where merchandise for a specific unique identifier is stored and the quantity in each location. The proprietor must provide, upon request by a Customs officer, a record balance of goods, specifying the quantity in each storage location, covered by any warehouse entry, general order, seizure, or unique identifier so a physical count can be made to verify the accuracy of the record balance.

(iii) *Other alternative inventory methods.* Other alternative inventory systems may be used, if Customs approval is obtained. Importers or proprietors who wish to use an alternative inventory method other than FIFO must apply to Customs Headquarters, Office of Regulations and Rulings, for approval.

(9) *Miscellaneous responsibilities.* The proprietor is responsible for complying with requirements for transport to his warehouse, deposit, manipulation, manufacture, destruction, shortage or overage, inventory control and record-keeping systems, and other requirements as specified in this part.

[T.D. 97-19, 62 FR 15834, Apr. 3, 1997, as amended by T.D. 98-22, 63 FR 11825, Mar. 11, 1998; T.D. 98-56, 63 FR 32944, June 16, 1998]

#### § 19.5 [Reserved]

#### § 19.6 Deposits, withdrawals, blanket permits to withdraw and sealing requirements.

(a)(1) *Deposit in warehouse.* The port director may authorize the deposit of merchandise in designated bonded warehouses, without physical super-

vision by a Customs officer. Goods for which a warehouse or rewarehouse entry has been accepted, according to the procedures in part 144, subpart B, of this chapter, shall be examined or inspected at the place of unloading, bonded warehouse, or other location as ordered by the port director. When merchandise is deposited in a proprietor's warehouse or is accepted and receipted for by a proprietor or his agent for transport to the proprietor's warehouse, the proprietor will be responsible for the quantity and condition of merchandise reflected on entry documentation adjusted by (i) any allowance made under part 158, subparts A and B, of this chapter by the port director, and (ii) any discrepancy report made jointly on the appropriate cartage documents as set forth in §125.31 of this chapter by the warehouse proprietor and the bonded carrier or licensed cartman or lighterman delivering the goods to the warehouse, or an independent weigher, gauger, measurer, and signed by an authorized representative of the above within 15 calendar days after deposit. A copy of any joint report of discrepancy shall be made within five business days of agreement and provided to the port director on the appropriate cartage documents as set forth in §125.31 of this chapter. If the proprietor of the bonded warehouse transports the goods to the warehouse, no discrepancy report shall be necessary.

(2) *Allowance after deposit.* After merchandise has been deposited in the warehouse the proprietor's liability may be further modified by any adjustment for duties allowed by the port director for concealed shortages (i.e., §158.5(a)), casualty loss (i.e., part 158, subpart C), destruction (i.e., §158.43), or manipulation (i.e., §19.11, 19 U.S.C. 1562).

(b)(1) *Withdrawal and removal from warehouse.* The port director may authorize the withdrawal and removal of merchandise, without physical supervision or examination by a Customs officer under permit issued under the procedure set forth in §144.39 of this chapter. When a withdrawal or removal is not physically supervised by a Customs officer, the warehouse proprietor will be relieved of responsibility only

## § 19.6

## 19 CFR Ch. I (4–1–99 Edition)

for the merchandise in its warehouse in the condition and quantity as shown on the application for withdrawal or removal. In the case of merchandise to be carted or transported in bond from the warehouse, the proprietor will be relieved of responsibility only if it receives the signed receipt on the withdrawal or removal document of the carrier named in the document. The proprietor's responsibility may be adjusted by any discrepancy report made jointly by the warehouse proprietor, and the licensed cartman or lighterman, bonded carrier, weigher, gauger, or measurer and signed by the authorized representative of the above within 15 calendar days after removal from the warehouse. The adjustments shall be noted on the permit copy of the withdrawal or removal document. A copy of any joint report of discrepancy shall be promptly provided to the port director.

(2) *Retention in warehouse after withdrawal.* Merchandise for which a permit for withdrawal has been issued, whether duty-paid or not, need not be physically removed from the warehouse. However, such merchandise must be segregated or physically marked to maintain its identity as merchandise for which a withdrawal permit has been issued. Duty-paid or unconditionally duty-free merchandise which has been withdrawn, but not removed, from a warehouse is no longer deemed to be in Customs custody. All other goods which have been withdrawn, but not removed, remain in Customs custody until the end of the 5-year warehouse entry bond period.

(c) *Customs determination of liability.* When a Customs officer physically supervises the deposit or removal of merchandise under paragraphs (a)(1) or (b)(1) of this section, the Customs officer's report of merchandise received or removed shall be determinative of the quantity and condition of merchandise received or removed from the warehouse for Customs purposes.

(d) *Blanket permits to withdraw—(1) General.* (i) Blanket permits may be used to withdraw merchandise from bonded warehouses for:

(A) Delivery to individuals departing directly from the Customs territory for exportation under the sales ticket pro-

cedure of §144.37(h) of this chapter (Class 9 warehouses only);

(B) Aircraft or vessel supplies under §309 or 317, Tariff Act of 1930, as amended (19 U.S.C. 1309, 1317); or

(C) The personal or official use of personnel of foreign governments and international organizations set forth in subpart I, part 148 of this chapter; or

(D) A combination of the foregoing.

(ii) Blanket permits to withdraw may be used only for delivery at the port where withdrawn and not for transportation in bond to another port, except for a withdrawal for transportation to another port by a duty-free sales enterprise which meets the requirements for exemption as stated in §144.34(c) of this chapter. Blanket permits to withdraw may not be used for delivery to a location for retention or splitting of shipments under the provisions of §18.24 of this chapter. A withdrawer who desires a blanket permit shall state in capital letters on the warehouse entry, or on the warehouse entry/entry summary when used as an entry, that "Some or all of the merchandise will be withdrawn under blanket permit per section 19.6(d), C.R." Customs acceptance of the entry will constitute approval of the blanket permit. A copy of the entry will be delivered to the proprietor, whereupon merchandise may be withdrawn under the terms of the blanket permit. The permit may be revoked by the port director in favor of individual applications and permits if the permit is found to be used for other purposes, or if necessary to protect the revenue or properly enforce any law or regulation Customs is charged with administering. Merchandise covered by an entry for which a blanket permit was issued may be withdrawn for purposes other than those specified in this paragraph if a withdrawal is properly filed as required in subpart D, part 144, of this chapter.

(2) *Withdrawals under blanket permit.* Withdrawals may be made under blanket permit without any further Customs approval, and shall be documented by placing a copy of the withdrawal document in the proprietor's permit file folder. Each withdrawal shall be filed on Customs Form 7501 and shall be consecutively numbered,

prefixed with the letter “B”. The withdrawal shall specify the quantity and value of each type of merchandise to be withdrawn. Each copy shall bear the summary statement described in § 144.32(a) of this chapter, reflecting the balance of merchandise covered by the warehouse entry. Any joint discrepancy report of the proprietor and the bonded carrier, licensed cartman or lighterman, or weigher, gauger, or measurer for a supplementary withdrawal shall be made on the copy and reported to the port director as provided in paragraph (b)(1) of this section. A copy of the withdrawal shall be retained in the records of the proprietor as provided in § 19.12(d)(4) of this part. Merchandise shall not be removed from the warehouse prior to the preparation of the supplementary withdrawal. If merchandise is so removed, the proprietor shall be subject to liquidated damages as if it were removed without Customs permit.

(3) *Withdrawals under blanket permit from duty-free stores.* Withdrawals under blanket permit from duty-free stores shall be made on the sales ticket described in § 144.37(h) of this chapter. The sales ticket need not contain the summary statement described in § 144.32(a) of this chapter, since the information required is included in the sales ticket register. The sales ticket shall be serially numbered as provided in § 144.37(h)(2) of this chapter.

(4) *Withdrawals under blanket permit for aircraft or vessel supplies.* Multiple withdrawals under a blanket permit for aircraft or vessel supplies, if consigned to the same daily aircraft flight number or vessel sailing, may be filed on one Customs Form 7512; however, an attachment form, developed by the warehouse proprietor and approved by the port director may be used for all withdrawals. This attachment form shall provide a sufficient summary of the goods being withdrawn, and shall include the warehouse entry number, the quantity and weight being withdrawn, the Harmonized Tariff Schedule of the United States number(s), the value of the goods, import and export lading information, the duty rate and amount, and any applicable Internal Revenue tax calculation, for each warehouse entry being withdrawn. A copy of

Customs Form 7512 and the summary attachment must be attached to each permit file folder unless the warehouse proprietor qualifies for the permit file folder exemption under § 19.12(d)(4)(iii) of this part.

(5) *Blanket permit summary.* When all of the merchandise covered by an entry on which a blanket permit to withdraw was issued has been withdrawn, including withdrawals made for purposes other than duty-free store delivery, vessel or aircraft supply, or diplomatic use, the proprietor shall prepare a report on a copy of Customs Form 7501, or a form on the letterhead of the proprietor, which provides an account of the disposition of the merchandise covered by the blanket permit. The form shall bear the words “BLANKET PERMIT SUMMARY” in capital letters conspicuously printed or stamped in the top margin. On the form, the proprietor shall certify that the merchandise listed thereunder was withdrawn in compliance with § 19.6(d), and shall account for all of the merchandise withdrawn under blanket permit by HTSUS (Harmonized Tariff Schedule of the United States) number, HTSUS quantity (where applicable) and value. If applicable, the account shall separately list and identify merchandise withdrawn for

- (i) Duty-free store exportation,
- (ii) Vessel or aircraft supply use, and
- (iii) Personal or official use of persons and organizations set forth in subpart I, part 148, of this chapter. If all of the merchandise was withdrawn under the sales ticket procedure of § 144.37(h) of this chapter, the sales ticket register may be substituted for the blanket permit summary. The form will be placed in the permit file folder and treated as provided in § 19.12(a) of this part.

(e) *Affixing or breaking of seals.* The port director may authorize a warehouse proprietor to: (1) Break Customs in bond seals affixed under § 18.4 of this chapter, or under any Customs order or directive, on any vehicle or container of goods entered for warehouse upon arrival of the vehicle or container at the warehouse; or (2) affix Customs in bond seals to any vehicle or container of goods for which a withdrawal document has been approved for movement

## § 19.7

in bond. The affixing or breaking of seals so authorized, shall be deemed to have been done under Customs supervision. The proprietor shall report to the port director any seal found, upon arrival of the vehicle or container at the warehouse, to be broken, missing, or improperly affixed, and hold the vehicle or container and its contents intact pending instructions from the port director.

### § 19.7 Expenses of labor and storage.

(a) All merchandise deposited in public stores or in bonded warehouses shall be held liable for the expenses of labor and storage chargeable thereon at the customary rates and for all other expenses accruing upon the goods.

(b) The rates of storage and labor shall be agreed upon between the importer and the warehouse proprietor, but in case of disagreement the port director may, with the consent of all parties in interest, determine the rates to be charged.

(c) Except in cases provided for by § 141.102(d) of this chapter, when merchandise is stored in a public store under a warehouse entry, general order, or otherwise, the charges for storage due the Government shall be paid before the packages are delivered. The charges shall be based upon the existing bonded warehouse tariff of the port for storage and labor.

Importers may, upon application approved by the port director on Customs Form 3499 examine, sample, and repack<sup>12</sup> or transfer merchandise in bonded warehouse. Where there will be no interference with the orderly con-

### § 19.9 General order, abandoned, and seized merchandise.

(a) *Acceptance of merchandise.* A proprietor of a general order warehouse shall accept general order, abandoned, or seized goods and articles into the warehouse only upon order of the port director on Customs Form 6043 (Delivery Ticket), as presented by the cartman or lighterman. A joint determination shall be made by the warehouse proprietor and the cartman or lighterman of the quantity and condition of the goods or articles so delivered to the warehouse. Any discrepancy between the quantity and condition of the goods and that reported on Customs Form 6043 shall be reported to the port director within two business days of agreement.

(b) *Recording and storing.* General order, abandoned, and seized goods and articles shall be recorded and stored in the warehouse as prescribed by § 19.12.

(c) *Release of merchandise.* Merchandise in general order may be released by the warehouse proprietor, after Customs inspection or examination as ordered by the port director, to the person named in a release order under § 141.11 of this chapter. The release may only be made by the proprietor upon presentation of a permit to release or delivery authorization signed by the appropriate Customs officer on Customs Form 3461, 7501, 368 or 368A or other Customs form as designated by the port director. General order goods which have been unclaimed under § 127.11 of this chapter, voluntarily abandoned, or seized and forfeited may be released for transfer to the place of sale upon presentation to the warehouse proprietor of an approved copy of Customs Form 5251 (Order to Transfer Merchandise for Public Auction (Sale)), and an approved copy of Customs Form 6043 (Delivery Ticket). The quantity and condition of the goods so transferred shall be determined jointly by

the proprietor and the cartman or lighterman picking up the goods for delivery to the place of sale. Any discrepancies shall be noted on the delivery ticket, a copy of which shall be sent to the port director within two business days of agreement. Seized goods that are released for a purpose other than sale may be released from warehouse only upon such written terms and conditions as directed by the port director.

#### MANIPULATION IN BONDED WAREHOUSES AND ELSEWHERE

#### § 19.11 Manipulation in bonded warehouses and elsewhere.

(a) So far as applicable, the general provisions of the regulations governing warehouses bonded for the storage of imported merchandise shall apply to bonded manipulation warehouses and to other designated places of manipulation.

(b) Merchandise to be manipulated under section 562, Tariff Act of 1930, as amended, may be entered on Customs Form 7501 and sent directly to a storage-manipulation warehouse.

(c) Warehouse proprietors shall not allow manipulation of any merchandise without a prior permit issued by the port director, except as provided in paragraph (h) of this section. Merchandise entered for warehouse may be transferred to a storage-manipulation warehouse; or merchandise entered for storage-manipulation warehouse may be transferred after manipulation to the storage portion of the same warehouse, to another storage warehouse, or to a manufacturing warehouse of class 6.

(d) The application to manipulate, which shall be filed on Customs Form 3499 with the port director having ju-

risdiction of the warehouse or other designated place of manipulation, shall describe the contemplated manipulation in sufficient detail to enable the port director to determine whether the imported merchandise is to be cleaned, sorted, repacked, or otherwise changed in condition, but not manufactured, within the meaning of section 562, Tariff Act of 1930, as amended. If the port director is satisfied that the merchandise is to be so manipulated, he may issue a permit on Customs Form 3499, making any necessary modification in such form. The port director may approve a blanket application to manipulate on Customs Form 3499, for a period of up to one year, for a continuous or a repetitive manipulation. The warehouse proprietor must maintain a running record of manipulations performed under a blanket application, indicating the quantities before and after each manipulation. The record must show what took place at each manipulation describing marks and numbers of packages, location within the facility, quantities, and description of goods before and after manipulation. The port director is authorized to revoke a blanket approval to manipulate and require the proprietor to file individual applications if necessary to protect the revenue, administer any law or regulation, or both. Manipulation resulting in a change in condition of the merchandise, which will make it subject to a lower rate of duty or free of duty upon withdrawal for consumption, is not precluded by the provisions of such section 562.

(e) No merchandise shall be manipulated elsewhere than in a bonded warehouse unless the merchandise has been regularly entered for consumption or warehouse and is of a class entitled to the warehousing privilege under section 557, Tariff Act of 1930, as amended.

(f) Upon compliance with the provisions of paragraph (d) of this section, manipulated merchandise may be further manipulated before withdrawal in cases where the port director is satisfied that this will not endanger the revenue or interfere with the efficient conduct of Customs business. The merchandise remaining in the warehouse shall be properly repacked after each manipulation.

## § 19.12

(g) Except as provided in §144.38 of this chapter, manipulated merchandise may be withdrawn under any form of withdrawal, but no withdrawal shall be accepted for less than an entire re-packed package. Each type of withdrawal filed shall contain a summary statement indicating the quantity in the warehouse account after manipulation and immediately before the withdrawal, the quantity withdrawn on the particular withdrawal, and the quantity remaining in the warehouse after the withdrawal. When merchandise covered by a consumption entry is manipulated elsewhere than in a bonded warehouse and thereafter withdrawn for consumption, the withdrawal shall be on Customs Form 7501 and shall be liquidated in accordance with §159.9 of this chapter.

(h) Merchandise which has been entered for warehouse and placed in a Class 9 warehouse (duty-free store) may be unpacked into its smallest irreducible unit for sale without a prior permit issued by the port director. The port director may issue a blanket permit to a duty-free store for up to one year permitting the destruction of merchandise covered by any entry and found to be nonsaleable, if the merchandise to be destroyed is valued at less than 5 percent of the value of the merchandise at time of entry or \$1,250, whichever is less, in its undamaged condition. Such permit may be revoked in favor of a permit for each entry and/or destruction whenever necessary to assure proper destruction and protection of the revenue. The proprietor shall maintain a record of unpacking merchandise into saleable units and destruction of nonsaleable merchandise in its inventory and accounting records.

## 19 CFR Ch. I (4-1-99 Edition)

### ACCOUNTS

#### § 19.12 Inventory control and record-keeping system.

(a) *Systems capability.* The proprietor shall maintain either manual or automated inventory control and record-keeping systems or combination manual and automated systems capable of:

(1) Accounting for all merchandise transported, deposited, stored, manipulated, manufactured, smelted, refined, destroyed in or removed from the bonded warehouse and all merchandise collected by a proprietor or his agent for transport to his warehouse. The records shall provide an audit trail from deposit through manipulation, manufacture, destruction, and withdrawal from the bonded warehouse either by specific identification or other Customs authorized inventory method. The records to be maintained are those which a prudent businessman in the same type of business can be expected to maintain. The records are to be kept in sufficient detail to permit effective and efficient determination by Customs of the proprietor's compliance with these regulations and correctness of his annual submission or reconciliation;

(2) Producing accurate and timely reports and documents as required by this part; and

(3) Identifying shortages and overages of merchandise in sufficient detail to determine the quantity, description, tariff classification and value of the missing or excess merchandise so that appropriate reports can be filed with Customs on a timely basis.

(b) *Procedures manual.* (1) The proprietor shall have available at the warehouse an English language copy of its written inventory control and record-keeping systems procedures manual in accordance with the requirements of this part.

(2) The proprietor shall keep current its procedures manual and shall submit to the port director a new certification at the time any change in the system is implemented.

(c) *Entry of merchandise into a warehouse—(1) Identification.* All merchandise collected by a proprietor or his

agent for transport to his warehouse shall be receipted. In addition, all merchandise entered in a warehouse will be recorded in a receiving report or document using a Customs entry number or unique identifier if an alternate inventory control method has been approved. All merchandise will be traceable to a Customs entry and supporting documentation.

(2) *Quantity verification.* Quantities received will be reconciled to a receiving report or document such as an invoice with any discrepancy reported to the port director as provided in § 19.6(a).

(3) *Recordation.* Merchandise received will be accurately recorded in the accounting and inventory system records from the receiving report or document using the Customs entry number or unique identifier if an alternative inventory control method has been approved.

(d) *Accountability for merchandise in a warehouse—(1) Identification of merchandise.* The Customs entry number or unique identifier, as applicable under § 19.4(b)(8), will be used to identify and trace merchandise.

(2) *Inventory records.* The inventory records will specify by Customs entry number or unique identifier if an alternative inventory control method is approved:

(i) The location of the merchandise within the warehouse;

(ii) Except for merchandise in general order, the cost or value of the merchandise, unless the proprietor's financial records maintain cost or value and the records are made available for Customs review; and

(iii) The beginning balance, cumulative receipts and withdrawals, adjustments, destructions, and current balance on hand by date and quantity.

(3) *Theft, shortage, overage or damage.* Any theft or suspected theft or overage or any extraordinary shortage or damage (equal to one percent or more of the value of the merchandise in an entry or covered by a unique identifier; or if the missing merchandise is subject to duties and taxes in excess of \$100) shall be immediately brought to the attention of the port director, and confirmed in writing within five business days after the shortage, overage,

or damage has been brought to the attention of the port director. An entry for warehouse must be filed for all overages by the person with the right to make entry within five business days of the date of discovery. The applicable duties, taxes and interest on thefts and shortages so reported shall be paid by the responsible party to Customs within 20 calendar days following the end of the calendar month in which the shortage is discovered. The port director may allow the consolidation of duties and taxes applicable to multiple shortages into one payment; however, the amount applicable to each warehouse entry is to be listed on the submission and shall specify the applicable duty, tax and interest. These same requirements shall apply when cumulative thefts, shortages or overages under a specific entry or unique identifier total one percent or more of the value of the merchandise or if the duties and taxes owed exceed \$100. Upon identification, the proprietor shall record all shortages and overages in its inventory control and recordkeeping system, whether or not they are required to be reported to the port director at the time. The proprietor shall also record all shortages and overages as required in the Customs Form 300 or annual reconciliation report under paragraphs (f) or (g) of this section, as appropriate. Duties and taxes applicable to any non-extraordinary shortage or damage and not required to be paid earlier shall be submitted to the port director at the time the Warehouse Proprietor's Submission, Customs Form 300 is due or at the time the certification of preparation of the annual reconciliation report is due, as prescribed in paragraphs (g) and (h) of this section, or at any time prior to the annual filing of the CF 300 or certified annual reconciliation. Discrepancies found in a Class 9 warehouse with integrated locations as set forth in § 19.35(c) will be the net discrepancies for a unique identifier (see § 19.4(b)(8)(ii) of this part) such that overages within one sales location will be offset against shortages in another location that is within the integrated location. A Class 9 proprietor who transfers merchandise between facilities in different ports

without being required to file a rewarehouse entry in accordance with § 144.34 of this chapter may offset overages and shortages within the same unique identifier for merchandise located in stores in different ports (see § 19.4(b)(8)(ii) of this part).

(4) *Permit file folders*—(i) *Maintenance*. Permit file folders shall be maintained and kept up to date by filing all receipts, damage or shortage reports, manipulation requests, withdrawals, removals and blanket permit summaries within five business days after the event occurs. The permit file folders shall be kept in a secure area and shall be made available for inspection by Customs at all reasonable hours.

(ii) *Review*. When the final withdrawal of merchandise relating to a specific warehouse entry, general order or seizure occurs, the warehouse proprietor shall: review the permit file folder to ensure that all necessary documentation is in the file folder accounting for the merchandise covered by the entry; notify Customs of any merchandise covered by the warehouse entry, general order or seizure which has not been withdrawn or removed; and file the permit file folder with Customs within 30 calendar days after final withdrawal, except as allowed by paragraph (b)(4)(iv) of this section. The permit file folder for merchandise not withdrawn during the general order period shall be submitted to the port director upon receipt from Customs of the Customs Form 6043.

(iii) *Exemption to maintenance requirement*. Maintenance of permit file folders will not be required, if the proprietor has an automated system capable of: satisfactorily summarizing all actions by Customs warehouse entry; providing upon demand by Customs an entry activity summary report which lists all individual receipts, withdrawals, destructions, manipulations and adjustments by warehouse entry and is cross-referenced to the source documents for each transaction; and maintaining source documents so that the documents can be readily retrieved upon request. Failure to provide the entry activity summary report or documentation supporting the entry activity summary report upon demand by the port director or the field director of

regulatory audit could result in reinstatement by the port director of the requirement to maintain the permit file folder for all warehouse entries. When final withdrawal is made, the proprietor must submit the entry activity summary report to Customs. Prior to submission, the proprietor must ensure the accuracy of the summary report and assure that all supporting documentation is on file and available for review if requested by Customs.

(iv) *Exemption to submission requirement*. At the discretion of the port director, a proprietor may be allowed to furnish formal notification of final withdrawal in lieu of the requirement to submit the permit file folder or entry activity summary within 30 calendar days of each final withdrawal. If approved to use this procedure the proprietor could be required by the port director to submit permit file folders or entry activity summaries on a selective basis. Failure to promptly provide the permit file folder or entry activity summary upon request by the port director or the field director of regulatory audit could result in withdrawal of this privilege.

(5) *Physical inventory*. The proprietor shall take at least an annual physical inventory of all merchandise in the warehouse, or periodic cycle counts of selected categories of merchandise such that each category is counted at least once during the year, with prior notification of the date(s) given to Customs so that Customs personnel may observe or participate in the inventory if deemed necessary. If the proprietor of a Class 2 or Class 9 warehouse has merchandise covered by one warehouse entry, but stored in multiple warehouse facilities as provided for under § 144.34 of this chapter, the facility where the original entry was filed must reconcile the on-hand balances at all locations with the record balance for those entries with merchandise in multiple locations. The proprietor shall notify the port director of any discrepancies, record appropriate adjustments in the inventory control and record-keeping system, and make required payments and entries to Customs, in accordance with paragraph (d)(3) of this section.

(e) *Withdrawal of merchandise from a warehouse.* All bonded merchandise withdrawn from a warehouse will be accurately recorded within the inventory control and recordkeeping system. The inventory control and recordkeeping system must have the capability to trace all withdrawals back to a Customs entry and to ultimate disposition of the merchandise by the proprietor.

(f) *Special provisions for use of FIFO inventory procedures—(1) Notification.* A proprietor who wishes to use FIFO procedures for all or part of the merchandise in a bonded warehouse shall provide the port director a written certification that: The proprietor has read and understands Customs FIFO procedures set forth in this section; the proprietor's procedures are in accordance with Customs FIFO procedures, and the proprietor agrees to abide by those procedures; and the proprietor of a public warehouse will obtain the written consent of any importer using the warehouse before applying FIFO procedures to their merchandise.

(2) *Qualifying merchandise.* FIFO inventory procedures may be used only for fungible merchandise. For purposes of this section, "fungible merchandise" means merchandise which is identical and interchangeable for all commercial purposes. While commercial interchangeability is usually decided between buyer and seller or between proprietor and importer, Customs is the final arbiter of fungibility in bonded warehouses. The criteria for determining whether merchandise is fungible include, but are not limited to, Governmental and recognized industrial standards, part numbers, tariff classification, value, brand name, unit of quantity (such as barrels, gallons, pounds, pieces), model number, style and same kind and quality. Fungible textile and textile products which are withdrawn from a Class 9 warehouse may be accounted for using FIFO inventory procedures, inasmuch as such articles would be exempt from textile quotas.

(3) *Merchandise specifically excluded.* FIFO procedures cannot be applied to the following merchandise, as well as any other merchandise which does not

comply with the requirements of paragraph (f)(2) of this section:

(i) Merchandise subject to quota, visa or export restrictions chargeable to different countries of origin;

(ii) Textile and textile products of different quota categories;

(iii) Merchandise with different tariff classifications or rates of duty, except where the difference is within the merchandise itself (such as kits, merchandise in unusual containers) or where the tariff classification or dutiability is determined only by conditions upon withdrawal (for example, withdrawal for vessel supplies, bonded wool transactions);

(iv) Merchandise with different legal requirements for marking, labeling or stamping;

(v) Merchandise with different trademarks;

(vi) Merchandise of different grades or qualities;

(vii) Merchandise with different importers of record;

(viii) Damaged or deteriorated merchandise;

(ix) Restricted merchandise; or

(x) General order, abandoned or seized merchandise.

(4) *Maintenance of FIFO.* FIFO procedures used for merchandise in any inventory category, must be used consistently throughout the warehouse storage and recordkeeping practices and procedures for the merchandise. For example, merchandise may not be added to inventory by FIFO but withdrawn by bypassing certain inventory layers to reach a specific warehouse entry other than the oldest one. However, this does not preclude the use of specific identification for some merchandise in a warehouse entry and FIFO for other merchandise, so long as they are segregated in physical storage and clearly distinguished in the inventory and accounting records.

(5) *FIFO recordkeeping.* In the inventory and accounting records, the proprietor shall establish an inventory layer for each warehouse entry represented in each inventory category. The layers shall be established in the order of time of acceptance of the entry or by the date of importation of merchandise covered by each applicable warehouse entry. There shall be no

mixing of layering both by time of acceptance and date of importation in the same warehouse. Records for each layer shall, as a minimum, show the warehouse entry number, date of acceptance, date of importation, quantity and unit of quantity. They shall also show for each entry the type of warehouse withdrawal number or other specific removal event charged against the entry, by date and quantity. Each addition to or deduction from the inventory category shall be posted in the appropriate inventory category within 2 business days after the event occurs. All FIFO records and documentation shall consistently use the same unit of quantity within each inventory category.

(6) *Entry requirements.* Warehouse entries covering any merchandise to be accounted for under FIFO must be prominently marked “FIFO” on the face of the entry document. The entry document or an attachment thereto shall show the unique identifier of each inventory category to be accounted for under FIFO, the quantity in each inventory category and the unit of quantity.

(7) *Receipts.* Any shortages, overages, or damage found upon receipt shall be attributed to the entry under which the merchandise was received. FIFO procedures will not take effect until the merchandise is physically placed in the storage location for the inventory category represented in the entry.

(8) *Manipulation.* When manipulation results in a product with a different unique identifier, the inventory and accounting records shall show the quantities of merchandise in each inventory category appearing in the product covered by the new unique identifier. The withdrawal shall show the unique identifiers of both the materials used in the manipulation and the product as manipulated. The quantities of the original unique identifiers will be deducted from their respective warehouse entries on a FIFO basis when the resultant product is withdrawn.

(9) *Discontinuance of FIFO.* A proprietor may voluntarily discontinue the use of FIFO procedures for all or part of the merchandise currently under FIFO by providing written notification to the port director. The notification

shall clearly describe the merchandise, by commercial names and unique identifiers, to be removed from FIFO. Following notification, the merchandise shall be segregated in both the record-keeping system and the physical location by warehouse entry number and the quantities so removed shall be deducted from the appropriate FIFO inventory category balances. Merchandise so removed shall be maintained under the specific identification inventory method. FIFO procedures which were voluntarily discontinued may be reinstated, but not for merchandise covered by any warehouse entry for which FIFO was discontinued.

(g) *Warehouse proprietor submission.* Except as otherwise provided in paragraph (h) of this section or § 19.19(b) of this part, the warehouse proprietor shall file with the field director of regulatory audit within 45 calendar days from the end of his business year a Warehouse Proprietor’s Submission on Customs Form 300. If the proprietor of a Class 2 or Class 9 warehouse has merchandise covered by one warehouse entry, but stored in multiple warehouse facilities as provided for under § 144.34 of this chapter, the CF 300 shall cover all locations and warehouses of the proprietor. An alternative format may be used for providing the information required on the CF 300, if prior written approval is obtained from the field director of regulatory audit.

(h) *Annual reconciliation—(1) Report.* Instead of filing Customs Form 300 as required under paragraph (g) of this section, the proprietor of a class 2, importers’ private bonded warehouse, and proprietors of classes 4, 5, 6, 7, 8, and 9 warehouses if the warehouse proprietor and the importer are the same party, shall prepare a reconciliation report within 90 days after the end of the fiscal year unless the field director authorizes an extension for reasonable cause. The proprietor shall retain the annual reconciliation report for 5 years from the end of the fiscal year covered by the report. The report must be available for a spot check or audit by Customs, but need not be furnished to Customs unless requested. There is no form specified for the preparation of the report.

(2) *Information required.* The report must contain the company name; address of the warehouse; class of warehouse; date of inventory or information on cycle counts; a description of merchandise for each entry or unique identifier, quantity on hand at the beginning of the year, cumulative receipts and transfers (by unit), quantity on hand at the end of the year, and cumulative positive and negative adjustments (by unit) made during the year. If the proprietor of a Class 2 or Class 9 warehouse has merchandise covered by one warehouse entry, but stored in multiple warehouse facilities as provided for under § 144.34 of this chapter, the reconciliation shall cover all locations and warehouses of the proprietor at the same port. If the annual reconciliation includes entries for which merchandise was transferred to a warehouse without filing a rewarehouse entry, as allowed under § 144.34, the annual reconciliation must contain sufficient detail to show all required information by location where the merchandise is stored. For example, if merchandise covered by a single entry is stored in warehouses located in 3 different ports, the annual reconciliation should specify individually the beginning and ending inventory balances, cumulative receipts, transfers, and positive and negative adjustments for each location.

(3) *Certification.* The proprietor shall submit to the field director of regulatory audit within 10 business days after preparation of the annual reconciliation report, a letter signed by the proprietor certifying that the annual reconciliation has been prepared, is available for Customs review, and is accurate. The certification letter must contain the proprietor's IRS number; date of fiscal year end; the name and street address of the warehouse; the name, title, and telephone number of the person having custody of the records; and the address where the records are stored. Reporting of shortages and overages based on the annual reconciliation will be made in accordance with paragraph (d)(3) of this section. Any previously unreported shortages and overages should be reported to the port director and any unpaid du-

ties, taxes and fees should be paid at this time.

(i) *System review.* The proprietor shall perform an annual internal review of the inventory control and record-keeping system and shall prepare and maintain on file a report identifying any deficiency discovered and corrective action taken, to ensure that the system meets the requirements of this part.

(j) *Special requirements.* A warehouse proprietor submission (CF 300) or annual reconciliation must be prepared for each facility or location as defined in §§ 19.2(a) and 19.35(c) of this part. When merchandise is transferred from one facility or location to another without filing a rewarehouse entry, as provided for in § 144.34(c) of this chapter, the submission/reconciliation for the warehouse where the entry was originally filed should account for all merchandise under the warehouse entry, indicating the quantity in each location.

#### MANUFACTURING WAREHOUSES

### § 19.13 Requirements for establishment of warehouse.

(a) Buildings or parts of buildings and other enclosures may be designated as bonded manufacturing warehouses if the port director is satisfied that their location, construction, and arrangement afford adequate protection to the revenue. Such warehouses shall be used solely and exclusively for the purpose for which they are bonded. The general provisions pertaining to warehouses for the storage of bonded merchandise shall, so far as relevant, apply to bonded manufacturing warehouses.

(b) Application for the establishment of such a warehouse shall be made to the director of the port where the premises are situated, setting forth the size, construction, and location of the premises, the manufacture proposed to be carried on, and the kinds of materials intended to be stored and used therein.

(c) The procedure outlined in § 19.2 with respect to the application to bond the premises and the execution of the bond shall be followed.

### **§ 19.13a**

(d) A list of all articles intended to be manufactured in the warehouse shall be filed with the port director. Such list shall set forth the specific names under which the articles are to be exported and under which they will be known to the trade, and shall show the names of all the ingredients entering into the manufacture of such articles, with the quantities of such ingredients or materials as may be dutiable or taxable.

(e) Proprietors of such warehouses are required to conform strictly to the formulas filed with the bond, or subsequently, and in no instance shall an article be permitted to be manufactured in or withdrawn from the warehouse which does not contain all the ingredients and in the quantities specified in the formula for the manufacture of such article, or which contains any ingredient not specified in the formula.

(f) Manufactured articles shall be marked with the trade name of the goods and may be marked, in addition, with the formulas and with such insignia or name as may be indicated or desired by the purchaser, if such additional marking will in no manner conflict with the requirements of the formula or present or create a false or misleading statement or impression.

(g) *Secure storage.* Each bonded manufacturing warehouse shall have a secured area separated from the remainder of the premises to be used exclusively for the storage of imported merchandise, domestic spirits, and merchandise subject to internal-revenue tax transferred into the warehouse for manufacture. A like area shall be provided to be used exclusively for the storage of products manufactured in the warehouse. The area shall be secured to prevent any unauthorized person from having access thereto and the goods therein shall be arranged in a manner to assist a Customs officer in making the required examination or taking samples for analysis. The areas for storage of bonded material and manufactured products shall be secured in accordance with the standards prescribed in § 19.4(b)(6) of this part. The proprietor shall mark each package with the correct warehouse entry number and date until manufacturing takes place. After manufacture, the proprietor

shall mark each package of the finished product with the warehouse entry number and date.

(a) Record all transfers from any storage area to a manufacturing area, and record all transfers from a manufacturing area to a finished product storage area, in the proprietor's inventory control and accounting records;

(b) Take an annual physical inventory of the merchandise as provided in § 19.12(d)(5) in conjunction with the annual submission required by § 19.12(g); and

(c) Record all manufacturing operations performed within the warehouse with sufficient detail to determine whether there has been compliance with the manufacturing formula filed with Customs and to permit Customs to audit use and disposition of the merchandise.

Such form shall be prepared in 5 copies and shall contain all of the statistical information as provided in § 141.61(e) of this chapter. without appraisalment entry or warehouse withdrawal for transportation, whichever is applicable.

(b) *Bond required.* Before the transfer of the merchandise to the manufacturing warehouse is permitted, a bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter shall be required.

(c) *Domestic merchandise.* When the proprietor of any bonded manufacturing warehouse desires to receive therein any domestic merchandise, except merchandise subject to internal-revenue tax, to be used in connection with the manufacturer of articles permitted to be manufactured in such warehouse, including packages, coverings, vessels, and labels used in putting up such articles, an application in the following form shall be sent to the port director for approval and after approval retained by the warehouse proprietor:

(a) Except cigars manufactured in bond and supplies for vessels, no articles or materials received into a bonded manufacturing warehouse or articles manufactured therefrom shall be withdrawn or removed therefrom except for direct exportation or transportation and exportation in bond to a foreign country. The exportation or shipment shall in every case be under the supervision of Customs.

(b) The coverings or containers of imported articles or materials, whether or not subject to duty apart from their contents, are not "articles or materials" within the meaning of section 311, Tariff Act of 1930, as amended, and need not be exported, but may be withdrawn from the warehouse for consumption under Customs Form 7501 upon payment of the duties applicable to such coverings or containers in their condition as withdrawn.

(c) Labels, coverings, and empty containers imported to be used in putting up the manufactured articles, if subject to duty or tax, constitute "articles or materials" within the meaning of section 311, Tariff Act of 1930, as amended, but may be withdrawn for consumption upon payment of all applicable duties and taxes.

(d) When waste or a byproduct is withdrawn for consumption, Customs Form 7501 shall be used, modified as necessary and describing in detail the waste or byproduct and the imported

material from which it was produced. Such waste or byproduct shall be appraised at its wholesale value at the time of withdrawal in the principal markets of the country from which the material was imported, determined in accordance with the provisions of section 402, Tariff Act of 1930, as amended. Upon payment of the duty, the withdrawal permit shall be issued for delivery and a proper credit given upon the manufacturer's bond.

(e) Each withdrawal covering the items which are permitted to be withdrawn for consumption shall contain a summary statement thereon, showing for each class of merchandise the quantity on hand in the account, the quantity covered by the withdrawal presented, and the quantity remaining in the warehouse account, if any.

(f) The general procedure covering warehouse withdrawals for exportation shall be followed in the case of articles withdrawn for exportation from a bonded manufacturing warehouse, except that in the case of flour each copy of Customs Form 7512 shall bear the following legend:

Produced from wheat imported after September 15, 1930, without payment of duty thereon. Must not be exported to Cuba without permission from the director of the port of withdrawal.

(g)(1) Articles may be withdrawn for transportation and delivery to a bonded storage warehouse at an exterior port under the provisions of section 311, Tariff Act of 1930, as amended (19 U.S.C. 1311), for the sole purpose of immediate export, except for distilled spirits which may be withdrawn under the provisions of section 311 for transportation and delivery to any bonded storage warehouse for the sole purpose of immediate export, or may be withdrawn pursuant to section 309(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1309(a)). Such withdrawal shall be affected on Customs Form 7512, as provided for in § 144.36 of this chapter. A rewarehouse entry shall be made in accordance with § 144.34(b) of this chapter, supported by a bond on Customs Form 301, containing the bond conditions set forth in § 113.63 of this chapter.

(2) Domestic distilled spirits transferred from a Customs bonded manu-

facturing warehouse, class 6, to a Customs bonded storage warehouse, class 2 or 3, in accordance with section 311, Tariff Act of 1930, as amended (19 U.S.C. 1311), shall be rewarehoused in accordance with the procedure for withdrawal and rewarehousing set forth in paragraph (g)(1) of this section. For other regulations concerning the entry and withdrawal of distilled spirits, see § 144.15 of this chapter.

(h) No merchandise manufactured in a bonded manufacturing warehouse may be withdrawn by a person other than the manufacturer either from the manufacturing warehouse or from a warehouse where the merchandise is stored awaiting direct exportation, unless an authorization of the manufacturer is endorsed on the face of the withdrawal, or the manufacturer previously and in writing has transferred the right of withdrawal.

(i) When spirits and wines are withdrawn for shipment to Puerto Rico under section 311, Tariff Act of 1930, as amended, the procedure outlined in § 7.1 of this chapter shall be followed.

(j) As proof of manufacture and exportation, the manufacturer, within 6 months from the date of demand by the port director, shall file in the case of each transaction or period of manufacture a statement certified by the warehouse proprietor showing the date and number of the bond, the quantity and identity of the dutiable or taxable merchandise used, and the quantity and description of the articles into which it has been manufactured, together with the quantities of any byproducts and waste produced. In the case of articles manufactured with the use of distilled spirits, the statement shall also be verified by the foreman or chemist of the factory and shall show the number of packages of spirits used, the marks and numbers, the number of wine, proof and taxable gallons, and the degree of proof.

(k) The same proofs of exportation shall be required as in the case of other warehouse withdrawals for exportation.

(l) When the fact of exportation of all the products has been established by such proofs and any byproducts and waste have been exported or released for consumption, the bond given by the

manufacturer, or the charges against his bond, shall be canceled.

(m) Shortage, irregular delivery, and nondelivery occurring with respect to merchandise withdrawn from bonded manufacturing warehouse while it is under transportation in bond shall be charged against the bonded carrier.

#### § 19.16 [Reserved]

##### SMELTING AND REFINING WAREHOUSES

#### § 19.17 Application to establish warehouse; bond.

(a) *Application.* Application for the bonding of a plant of a manufacturer engaged in the smelting or refining, or both, of metal-bearing materials as provided for in section 312, Tariff Act of 1930, as amended, to reduce the metal content thereof to an unwrought metal, or metal in the form of oxides or other compounds which are obtained directly from the treatment of the dutiable materials provided for in chapters 26 and 71 through 83, Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), shall be made by the manufacturer, to the director of the port nearest in which such plant is situated, giving the location of the premises and setting forth the work proposed to be carried on therein.

(b) [Reserved]

(c) *Discontinuance.* At the request of the proprietor the bonded status of the warehouse may be discontinued at any time provided the port director approves such discontinuance and the proprietor complies with directions of the port director with respect to the disposition of merchandise which may remain in the warehouse. The number of warehouses covered by a blanket smelting and refining bond may be reduced by discontinuance without necessitating a new bond unless the proprietor so desires.

(d) Upon the importation at any seaboard or frontier port of the United States of metal-bearing materials in

any form intended for a bonded smelting or refining warehouse situated at some other port of entry, they may be forwarded under an immediate transportation without appraisement entry.

(e) *Bond.* Upon the arrival of imported metal-bearing material in any form for the purpose of being smelted or refined, or both, in bond at a port where a bonded smelting or refining warehouse is established, it shall be entered for warehouse. A bond on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter shall be on file. The port director shall thereupon issue a permit to the inspector to send such metal bearing materials from the importing vessel or vehicle by designated bonded vessels or vehicles to the smelting and refining warehouse named in the entry.

(f) Bonded metal-bearing materials shall be kept separate and distinct from nonbonded material until they have been sampled and weighed. The proprietor shall maintain a report of sampling, weighing, and assay of each shipment of bonded materials received into the warehouse for 5 years after liquidation of the warehouse entry for shipment.

(g) *Statement of inventory and bond charges.* Where two or more smelting and refining warehouses are included under one blanket smelting and refining bond, an overall statement shall be filed by the principal named in the bond with each Field Director, Regulatory Audit, involved by the 28th of each month, showing the inventory as of the close of the preceding month, of all metals on hand at each plant covered by the blanket bond and the total of bonded charges for all plants. Each port director at whose port a plant or plants are located shall be responsible for the determination as to the correctness of the inventory report insofar as the amounts held at plants under his jurisdiction are concerned. All discrepancies which cannot be reconciled by the port director shall be reported to Headquarters, U.S. Customs Service. If Headquarters finds that the aggregate quantity of dutiable metal at the several plants does not equal the quantity

## § 19.18

charged against the blanket bond, duties shall be collected for the quantity determined to be deficient.

### **§ 19.18 Smelting and refining; allowance for wastage; withdrawal for consumption.**

(a) Except where absolute deductions have been allowed in the liquidation of the entry for losses on copper, lead, and zinc content of metal-bearing materials, pursuant to Chapter 26, Additional U.S. Note 1, Harmonized Tariff Schedule of the United States (see § 151.55 of this chapter), the actual percentage of losses by weight shall be allowed if more than 90 percent by weight of:

(1) The zinc content initially treated at any lead plant, (2) the copper content of the imported materials treated at any zinc plant, or (3) the copper, lead, or zinc content of the imported material initially treated at any plant other than a copper, lead, or zinc plant is lost in processing such materials. Such actual percentage of losses by weight of the metal content shall be that shown by the manufacturer's annual statement. Such losses shall be applied in the liquidation of the entry to materials entered for consumption or for warehouse, during a 12-month period beginning on the first day of the month nearest to 90 days after the close of the manufacturer's fiscal year immediately preceding such 90-day period, provided the importer makes claim therefor in writing at the time the merchandise is entered. No further wastage shall be allowed. The full dutiable contents of such metal-bearing materials, as ascertained by commercial assay made by the Government chemists, less the wastage allowance (including dutiable metals entirely lost in smelting or refining, or both), shall constitute the quantity of dutiable metal which must be either exported, duty-paid, or transferred to another bonded warehouse in order to secure the cancellation of the charge made against the proprietor's bond as shown

## 19 CFR Ch. I (4-1-99 Edition)

by the warehouse or rewarehouse entry account.

(b) Upon the withdrawal for consumption of metal so smelted or refined, or both, duty shall be collected thereon without the allowance for wastage, except where the metal was transferred to a bonded Customs warehouse other than a smelting warehouse and withdrawn therefrom for consumption. However, duty-paid warehouse withdrawals for consumption may be filed with regard to metal which will be physically withdrawn in the form of smelted or refined products whether at the time of the filing of the withdrawal papers the dutiable metal covered by the bond charge being cancelled by the withdrawal is in the form of ores, concentrates, crude metals, or intermediate products. If the warehouse withdrawal for consumption covers a product which does not sustain the full wastage allowable (see § 19.22) prior to being physically released from Customs custody, a proportionate part only of such wastage may be allowed. The warehouse withdrawal and delivery permit shall state the estimated amount of the dutiable metal contained in the products, and the warehouse withdrawal shall specify the applicable wastage. A quantity of dutiable metal equivalent to the smelted or refined products covered by each withdrawal for consumption must be actually on hand at the plant or plants covered by the bond at the time of filing the withdrawals; but neither the actual ability to withdraw smelted or refined products from the warehouse nor the actual physical condition described in the withdrawal will be required at the time of filing the withdrawal.

[28 FR 14763, Dec. 31, 1963, as amended by T.D. 73-175, 38 FR 17446, July 2, 1973; T.D. 82-90, 47 FR 20753, May 14, 1982; T.D. 89-1, 53 FR 51254, Dec. 21, 1988]

### **§ 19.19 Manufacturers' records; annual statement.**

(a) Every manufacturer engaged in smelting or refining, or both, shall immediately notify the director of the port nearest which the plant is located of any material change in the character of the metal-bearing materials smelted or refined and of any change in the methods of smelting or refining.

## United States Customs Service, Treasury

## § 19.21

Each plant for which any of the deductions provided for in Chapter 26, Additional U.S. Note 1, Harmonized Tariff Schedule of the United States, is to be claimed shall maintain complete smelting and refining records showing the receipts and disposition of each shipment of materials received in the plant. If losses are to be claimed under paragraph (c) of said headnote, a record shall be kept which will become a part of the annual statement described in paragraph (b) of this section. These records shall be retained for a period of not less than 5 years. In the case of records forming the basis of such an annual statement, the period for retention shall run from the date of the related annual statement. All such records shall be made available to the port director for such inspection and verification as he may deem advisable.

(b) Every manufacturer engaged in smelting or refining, or both, shall file with the Field Director, Regulatory Audit of the port nearest which the plant is located an annual statement for the fiscal year for the plant involved not later than 60 days after the termination of that fiscal year. The annual statement for the smelting or refining warehouse or both, shall be in lieu of the warehouse proprietors submission required by § 19.12. No specific form is prescribed in which such statement shall be prepared. As basic information, the statement shall show the quantities of metal-bearing materials on hand at the beginning of the period and the dutiable contents thereof; the quantities of metal-bearing materials received during the period and the dutiable contents thereof; the total metal-bearing materials to be accounted for and the dutiable contents thereof; the quantities of metal-bearing materials on hand at the end of the period and the dutiable contents thereof; and the quantities of metal-bearing materials worked during the period and the dutiable contents thereof. The statement of the quantity of metal-bearing materials worked during the period shall show the quantity of foreign material and the quantity of domestic material put in process during the smelting operations. The statement shall contain such further information concerning the quantities and

kinds of metals and intermediary products produced at the plant as will show the wastage sustained in the smelting and refining operation.

[T.D. 67-139, 32 FR 8134, June 6, 1967, as amended by T.D. 82-204, 47 FR 49374, Nov. 1, 1982; T.D. 89-1, 53 FR 51254, Dec. 21, 1988]

### **§ 19.20 Withdrawal of products from bonded smelting or refining warehouses.**

(a) *For exportation.* The general procedure governing warehouse withdrawals for exportation shall be followed in the case of the withdrawal for exportation of dutiable metal from a bonded smelting or refining warehouse.

(b) *For transfer to another bonded warehouse.* (1) Withdrawal for transfer to another bonded warehouse shall be at the risk and expense of the applicant, and the general regulations governing the transfer of bonded merchandise from one warehouse to another or the transfer of imported materials from a bonded storage warehouse to a bonded manufacturing warehouse shall be followed so far as applicable.

(2) In the case of transportation to another port, the transportation entry shall show the quantity of metal withdrawn the wastage applicable thereto, and the imported material from which such metal was produced, together with any dutiable metal charged on entry.

### **§ 19.21 Smelting and refining in separate establishments.**

(a) If the operations of smelting and refining are not carried on in the same establishment, the smelted and unrefined products obtained from the smelting of imported materials in a bonded smelting warehouse may be removed therefrom for shipment to a bonded refining warehouse located at the same or another port under the general procedure for transfer from one bonded warehouse to another.

(b) When the transfer is to a bonded refining warehouse located at another port, the smelted and unrefined products or bullion obtained from the smelting of the imported material shall be weighed, sampled, and assayed before withdrawal, the sampling to be performed under Government supervision in accordance with § 19.4 and the

## § 19.22

commercial practice in effect at the plant. A report of sampling, weight, and assay of transferred material shall be maintained for 5 years after liquidation of the warehouse entry.

(c) The withdrawal for transportation shall show the gross weight of the smelted and unrefined products withdrawn, the weight of the dutiable metal contained therein, the wastage applicable thereto and the duties properly chargeable on the withdrawn products as shown by the import entry.

(d) The rewarehouse entry covering the smelted and unrefined products at the bonded refining warehouse to which they are transferred shall be made out in accordance with the weights and duties shown on the withdrawal for transportation.

(e) Upon withdrawal of the metal from the bonded refining warehouse for export, the warehouse account of the refining warehouse shall be credited with the amount of metal so withdrawn, plus the refining wastage prescribed for said refining warehouse, plus the smelting wastage prescribed for the bonded smelting warehouse in which the smelted and unrefined products were produced, together with the amount of any dutiable metals entirely lost in the smelting or refining, or both. However, when the metal is withdrawn for consumption, duty shall be collected on an amount of metal-bearing materials in their condition as imported equivalent to that from which such metal would be producible. No allowance for either smelting or refining wastage shall be permitted, except where the metal is withdrawn from a Customs warehouse other than a bonded smelting and refining warehouse.

[28 FR 14763, Dec. 31, 1963, as amended by T.D. 82-204, 47 FR 49374, Nov. 1, 1982; T.D. 84-213, 49 FR 41170, Oct. 19, 1984]

### **§ 19.22 Withdrawal of metal refined in part from imported crude metal and in part from crude metal produced from imported materials.**

Upon withdrawal for exportation of metal from a bonded warehouse engaged in refining, or smelting and refining, part of which metal was obtained from imported crude metal and part from crude metal produced by smelting imported materials, the ware-

## 19 CFR Ch. I (4-1-99 Edition)

house account shall be credited with the quantity of metal so withdrawn, plus (a) the refining wastage allowance prescribed for that establishment, and (b) the smelting wastage allowance prescribed for the establishment in which the imported materials were smelted, and (c) any dutiable metals shown on the warehouse entry or the rewarehouse entry filed at the first-mentioned warehouse which have been lost and are attributable to the exported product. However, upon withdrawal of such refined metal for consumption, no allowance shall be made for wastage except where the withdrawal is made from a bonded Customs warehouse other than a bonded smelting and refining warehouse.

### **§ 19.23 Withdrawal for exportation from one port to be credited on warehouse entry account at another port.**

On exportation of metal pursuant to the provisions of section 312(b)(1), Tariff Act of 1930, as amended, the general procedure covering warehouse withdrawals for exportation shall be followed. The proprietor of the plant from which the withdrawal is made shall prepare a sufficient number of copies of withdrawals on Customs Form 7512, in addition to any other copies required by the regulations, to enable the director of the port of withdrawal to forward a copy to the director of each other port where credit is to be applied. Such withdrawals shall designate the plant or plants which are to receive the credit, shall specify the warehouse entry number or numbers to which the credit is to be applied, and shall state the quantity of dutiable metal which is to be applied to each warehouse entry specified, and when any of the credits specified represent the last withdrawal against a particular warehouse entry, the words "final withdrawal" shall be shown on the withdrawal. When two or more plants nearest a given port are designated to receive credit, sufficient copies of the withdrawals shall be prepared to cover each such plant and entry. If at the time of withdrawal the warehouse proprietor does not know the plants or warehouse entry numbers which are to be credited with the withdrawal, or the metallic content of the

dutiable metal being exported, the preparation of the before-mentioned copies of Customs Form 7512 may be postponed for a period of not longer than 30 days from the date of the movement of the dutiable metal from the plant. In such cases, a so-called memorandum withdrawal, in the number of copies provided for in §144.37 of this chapter, may be used in the first instance for the purpose of obtaining the required Customs record of the exportation of the dutiable metal under Customs supervision. All memorandum withdrawals shall be conspicuously endorsed "Memorandum Withdrawal."

[28 FR 14763, Dec. 31, 1963, as amended by T.D. 73-175, 38 FR 17447, July 2, 1973; T.D. 89-1, 53 FR 51254, Dec. 21, 1988]

**§ 19.24 Theoretical transfer without physical shipment of dutiable metal.**

(a) Transfer may be made from one port of entry to another by a withdrawal for transportation and rewarehouse executed in regular form without physical shipment of the metal, provided enough like metal in any form is on hand at the establishment to which the theoretical transfer is made to satisfy the new bond obligations.

(b) The wastage allowance established for the plant from which the original withdrawal for transportation was made shall be shown on the transfer withdrawal and set up as a part of the charge against the bond at the plant to which the metal was theoretically transferred. Such wastage shall govern and be the basis for allowance when metal is withdrawn from the plant where the theoretical rewarehousing was affected.

**§ 19.25 Credit to be applied under various forms of withdrawals.**

(a) The warehouse entry account of the plant designated in the withdrawal to receive credit for the exportation shall be credited with the following:

(1) The quantity of dutiable metal exported.

(2) The wastage in effect on the date of entry at the plant of initial treatment of such materials.

(3) The proportion of any other dutiable metals in the importation being credited which were lost at the said

plant in the production of a quantity of dutiable metal equal to that exported.

(b) If credit is being applied to a charge set up by a theoretical transfer under § 19.24 at the plant designated in the withdrawal to receive the credit, the wastages to be applied shall be those set up at such plant in connection with the theoretical transfer, irrespective of the date of the withdrawal.

(c) On the transfer of dutiable metal to a bonded storage warehouse, credit shall be applied at the plant designated in the withdrawal to receive the credit in the manner provided for in paragraph (a) of this section with respect to withdrawals for exportation. The charge so credited at the plant shall be set up on the warehouse entry account of the storage warehouse to which the dutiable metal has been transferred. In the case of the withdrawal of dutiable metal for transfer to a bonded manufacturing warehouse, credit shall be applied in the same manner at the plant designated in the withdrawal to receive the credit, but the charge set upon the warehouse entry account of the bonded manufacturing warehouse shall be limited to the quantity of dutiable metal transferred to such warehouse.

SPACE BONDED FOR THE STORAGE OF  
WHEAT

**§ 19.29 Sealing of bins or other bonded space.**

The outlets to all bins or other space bonded for the storage of imported wheat shall be sealed by affixing locks or in bond seals to the rope or chain which controls the gear mechanism for opening the outlets, or such other method which will effectively prevent the removal of, or access to, the wheat in the bonded space except under such supervision as required by §§ 19.4 and 101.2(c) of this chapter.

[T.D. 82-204, 47 FR 49374, Nov. 1, 1982, as amended by T.D. 98-22, 63 FR 11825, Mar. 11, 1998]

**§ 19.30 Domestic wheat not to be allowed in bonded space.**

The presence of domestic wheat in space bonded for the storage of imported wheat shall not be permitted.

## **§ 19.31**

### **§ 19.31 Bulk wheat of different classes and grades not to be commingled in storage.**

All wheat shall be stored by class and grade according to the Official Grain Standards of the United States or the official standards of the Canadian Board of Grain Commissioners, in bins, compartments, or other enclosed spaces identified by clearly distinguishable insignia securely affixed thereto, so as to facilitate the maintenance of identity of the wheat. There shall be no mixing or commingling of different classes or grades of wheat in the same bin, battery of bins, or other bonded space. If the wheat is stored in bags or other transportation containers, such bags or containers shall be so marked and so placed in the warehouse that the identity of the wheat will not be lost while in storage, to permit easy access to all lots, and to facilitate inspecting, sampling, and the identification of each lot.

CROSS REFERENCE: For regulations relating to the Official U.S. Standards for Grain, see 7 CFR part 810.

### **§ 19.32 Wheat manipulation; reconditioning.**

(a) The mixing, blending, or commingling of imported wheat and domestic wheat, or of imported wheat of different classes and grades, as an incident of transportation or as an incident of exportation under transportation and exportation entries, direct export entries, or withdrawals for exportation shall not be permitted. Applications for permission to manipulate wheat under the provisions of section 562, Tariff Act of 1930, as amended, shall be approved only after the concurrence of all interested Federal agencies has been furnished by the applicant.

(b) Where it is found that elevating, screening, blowing, fumigating, or drying of the wheat is essential to keep it in condition, the proprietor of the warehouse shall submit an application in writing to the port director. All such operations shall be performed under Customs supervision adequate to preclude unauthorized access to the wheat.

## **19 CFR Ch. I (4–1–99 Edition)**

### **§ 19.33 General order; transportation in bond.**

The provisions of §§ 19.29 through 19.32 shall be applicable to those parts of any premises in which imported wheat is stored in a general-order status, or stored pending exportation under an entry for exportation or for transportation and exportation.

### **§ 19.34 Customs supervision.**

Port directors shall exercise such supervision and control over the transactions covered by §§ 19.29 through 19.32 as will insure that there will be no unauthorized access to the imported wheat and no unauthorized mixing, blending, or commingling of such imported wheat. Importers, exporters, proprietors of Customs bonded warehouses, bonded common carriers, and others handling imported wheat in continuous Customs custody shall maintain such records as will enable Customs officers to verify the handling to which the imported wheat has been subjected, and to establish whether there has been a proper accounting to Customs for any increase in the quantity of the wheat or shortages resulting from shrinkage or other factors. These records shall be retained for a period of 5 years from the date of the transaction. Port directors shall from time to time request the appropriate Customs officer to examine such records of importers, exporters, warehouse proprietors, bonded common carriers, and others handling such wheat in continuous Customs custody as may be deemed necessary to ascertain whether there has been any failure to comply with the applicable Customs laws and regulations.

### **DUTY-FREE STORES**

SOURCE: Sections 19.35 through 19.39 were issued by T.D. 92–81, 57 FR 37698, Aug. 20, 1992, unless otherwise noted.

### **§ 19.35 Establishment of duty-free stores (Class 9 warehouses).**

(a) *General.* A class 9 warehouse (duty-free store) may be established for exportation of conditionally duty-free

merchandise by individuals departing the Customs territory, inclusive of foreign trade zones, by aircraft, vessel, or departing directly by vehicle or on foot to a contiguous country. Such articles must accompany the individual on his person or in the same aircraft, vessel, or vehicle in which the individual departs. “Conditionally duty-free merchandise” means merchandise sold by a duty-free store on which duties and/or internal revenue taxes (where applicable) have not been paid. Except insofar as the provisions of this section and §§ 19.36–19.39 are more specific, the procedures for bonded warehouses apply to duty-free stores (Class 9 warehouses).

(b) *Location.* A class 9 warehouse may be established or located only (1) within the same port of entry from which a purchaser of duty-free store merchandise departs the Customs territory, or (2) within 25 statute miles from the exit point through which the purchaser of duty-free store merchandise departs the Customs territory.

(c) *Integrated locations.* A Class 9 warehouse with multiple noncontiguous sales and crib locations (see § 19.37(a) of this part) containing conditionally duty-free merchandise and requested by the proprietor may be treated by Customs as one location if:

(1) The proprietor can provide Customs upon demand with the proper on-hand balance of each inventory item in each storage location, sales room, crib, mobile crib, delivery cart, or other conveyance or noncontiguous location; and

(2) The recordkeeping system is centralized up to the point where a sale is made so as to automatically reduce the sale quantity by location from centralized inventory or inventory records must be updated no less frequently than at the end of each business day to reflect that day’s activity.

(d) *Exit point.* The exit point referred to in paragraph (b) of this section means an area in close proximity to an actual exit for departing from the Customs territory, including the gate holding area in the case of an airport, but only if there is reasonable assurance that conditionally duty-free merchandise delivered in the gate holding area will be exported from the Customs territory. The exit point in the case of

a land border or seaport duty-free store is the point at which a departing individual has no practical alternative to continuing on to a foreign country or to returning to Customs territory by passing through a U.S. Customs inspection facility. The port director’s decision as to what constitutes the exit point or reasonable assurance of exportation in a given situation is final.

(e) *Notice to customers.* Class 9 warehouse proprietors shall display in prominent places where they will be noticed and read by customers signs which state clearly that any conditionally duty-free merchandise purchased from the store:

(1) Has not been subjected to any U.S. Federal duty or tax;

(2) If brought back to the United States must be declared and is subject to U.S. Federal duty and tax with personal exemption; and,

(3) Is subject to the customs laws and regulations, including possible duties and taxes, of any foreign country to which it is taken.

(f) *Security of sales rooms and cribs.* The physical and procedural security requirements of § 19.4(b)(6) of this part shall be applied to the security of the sales rooms and cribs by the port director. The proprietor shall establish procedures to safeguard the merchandise so as to accommodate the movement of purchasers and prospective purchasers of conditionally duty-free merchandise contained in duty-free sales rooms and cribs.

(g) *Approval of governmental authority.* If a state or local or other governmental authority, incident to its jurisdiction over any airport, seaport, or other exit point facility, requires that a concession or other form of approval be obtained from that authority with respect to the operation of a duty-free store under which merchandise is delivered to or through such facility for exportation, merchandise incident to such operation may not be withdrawn for exportation and transferred to or through such facility unless the operator of the duty-free store demonstrates to the port director that the

concession or approval required for the enterprise has been obtained.

[T.D. 92–81, 57 FR 37698, Aug. 20, 1992, as amended by T.D. 97–19, 62 FR 15839, Apr. 3, 1997]

### § 19.36 Requirements for duty-free store operations.

(a) *Withdrawals.* Merchandise withdrawn under the sales ticket procedure in § 144.37(h) of this chapter may be delivered only to individuals departing from the Customs territory for exportation or to persons and organizations for use as specified in subpart I, part 148, of this chapter. Withdrawals of other kinds may be made from Class 9 warehouses, but only through separate withdrawals (or withdrawals under blanket permit for vessel or aircraft supplies) under an approved permit of the port director as provided in § 144.39 of this chapter.

(b) *Procedures required.* Each duty-free store shall establish, maintain, and follow written procedures to provide reasonable assurance to the port director that conditionally duty-free merchandise purchased therein will be exported from the Customs territory. A copy of any change in the procedure will be provided to the port director before it is implemented. However, receipt by Customs of the procedures of any change thereto shall not be construed as approval by Customs of the procedures. The port director is responsible for ensuring that each enterprise has established guidelines with Customs and is complying with those guidelines, giving assurance that proper supervision exists when delivery is made to the purchaser at or before the exit point. The port director may at any time require any change in the procedures deemed necessary for assurance of exportation.

(c) *Personal-use restrictions.* Any duty-free store which delivers conditionally duty-free merchandise to purchasers at an airport exit point shall establish, maintain, and enforce written restrictions on the sale of conditionally duty-free merchandise to any one individual to personal-use quantities. Personal-use quantities means quantities that are only suitable for uses other than resale, and includes reasonable quantities for household or family consump-

tion as well as for gifts to others. Proprietors will not knowingly sell or deliver conditionally duty-free merchandise in any quantity to any individual for the purpose of resale. A copy of the restrictions and of any change thereto shall be provided to the port director prior to implementation. However, receipt of the written restrictions by Customs shall not be construed as approval by Customs of the restrictions. The port director may require any change in the restrictions deemed necessary to conform to the personal-use quantity restriction of this section.

(d) *Reimported merchandise.* Merchandise purchased in a duty-free store is not eligible for exemption from duty, or tax where applicable, under chapter 98, subchapter IV, Harmonized Tariff Schedule, if it is brought back to the United States after exportation. To enforce this restriction, the port director may require the proprietor to mark or otherwise place a distinguishing identifier on individual items of merchandise to indicate the items were sold in a U.S. duty-free store, if a pattern is disclosed in which such items are being brought back to the United States without declaration. A pattern of undeclared reimportations means a number of instances over a period of time and not isolated instances of unrelated violations. Any such marking required by the port director will be inconspicuous to the purchaser and will not detract from the value of the merchandise. The marking requirement will be limited to the items or types of merchandise noted in the pattern, and will not be extended to all merchandise of the responsible store proprietor unless all or most items are part of the pattern.

(e) *Merchandise eligible for warehousing.* Only conditionally duty-free merchandise may be placed in a bonded storage area of a Class 9 warehouse. However, domestic merchandise and merchandise which was previously entered or withdrawn for consumption, may be brought into the bonded sales or crib area of a Class 9 warehouse for display and sale, and in the case of a crib, for delivery to purchasers. However, such merchandise must be either identified or marked “DUTY-PAID” or “U.S.-ORIGIN”, or similar markings,

as applicable, so that Customs officers can easily distinguish conditionally duty-free merchandise from other merchandise in the sales or crib area.

(f) *Sale of merchandise.* Conditionally duty-free merchandise for exportation at airport or seaport exit points may be sold and delivered only to purchasers who display valid tickets, or in the case of chartered or for-hire flights that have not issued tickets, other proof of impending departure from the Customs territory, and to crewmembers who have been engaged for a flight or voyage departing directly from the Customs territory with no intermediate stops in the U.S.

(g) *Inventory procedure.* Duty-free store proprietors shall maintain, at the duty-free store or at another location approved by the port director, a current inventory separately for each storage area, crib, and sales area containing conditionally duty-free merchandise by warehouse entry, or by unique identifier where permitted by the port director. Proprietors shall assure that Customs has ready access to those records, and that the records are stored in such a way as to keep transactions of multiple facilities separated. The inventory shall be reconcilable with the accounting and inventory records and the permit file folder requirements of § 19.12 (d), (e) and (f) of this part. Proprietors are subject also to the recordkeeping requirements of other paragraphs of § 19.12, as well as those of §§ 19.6(d), 19.37(d), 19.39(d) of this part, and 144.37(h)(3) of this chapter.

### § 19.37 Crib operations.

(a) *Crib.* A crib means a bonded area, separate from the storage area of a Class 9 warehouse, for the retention of a supply of articles for delivery to persons departing from the United States. It shall be located beyond the exit point, unless exception has been made under § 19.39 (a) and (b) of this part. The crib may be a permanent location or a mobile facility which is periodically moved to a location beyond the exit point. The quantity of goods in the crib may be an amount requested by the

proprietor which is commercially necessary for the delivery operations for a period, if approved by the port director. The port director may increase or decrease the quantity as deemed necessary for the protection of the revenue and proper administration of U.S. laws and regulations, or may order the return to the storage area of goods remaining unsold.

(b) *Delivery and removal of merchandise.* Conditionally duty-free merchandise shall be delivered to the crib, or removed from the crib for return to the storage area, under the procedures in subpart D, part 125, and § 144.34(a), of this chapter, or under a local control system approved by the port director wherein any discrepancy found in the merchandise will be treated as if it occurred in the bonded warehouse. If delivery is made by licensed cartman, cartage vehicles shall be conspicuously marked as provided in § 112.27 of this chapter.

(c) *Delivery vehicles.* Vehicles, including mobile cribs, containing conditionally duty-free merchandise for delivery to or from a crib shall carry a listing of the articles contained therein. The proprietor shall provide, upon request by Customs, a transfer document sufficient to account for each movement of inventory among its locations. The merchandise in the vehicles shall be subject to inspection by Customs.

(d) *Retention of records.* Class 9 warehouse proprietors shall maintain records of conditionally duty-free merchandise transported beyond the exit point and returned therefrom, and Customs permits for such movements, for not less than 5 years after exportation of the articles. Such records need not be placed in permit file folders but must be filed by date of movement, destination site and warehouse entry number or by unique identifier where permitted by the port director (see § 19.36(g)).

for exportation shall be exported only under Customs supervision as provided in this section and § 19.39 of this part. General Customs supervision shall be exercised as provided in § 19.4 of this part and § 101.2(c) of this chapter, and may consist of spot checks of exportation transactions, examination of articles being exported, and audits of the proprietor's records.

(b) *Supervision of ATF bonded exports.* Customs officers may conduct general supervision of exportations of cigarettes and cigars from ATF export bonded warehouses (see 27 CFR part 290) in conjunction with exportation from duty-free stores.

[T.D. 92–81, 57 FR 37698, Aug. 20, 1992, as amended by T.D. 98–22, 63 FR 11825, Mar. 11, 1998]

#### § 19.39 Delivery for exportation.

(a) *Delivery to land border locations—*  
(1) *Land border locations.* Land border location means an exit point (see § 19.35(d)) from which individuals depart to a contiguous country by vehicle or on foot by bridge, tunnel, highway, walkway, or by ferry across a boundary lake or river, but not including departure to a contiguous country by air or sea. Deliveries from a duty-free store for exportation from such locations shall be made to the purchaser only beyond the exit point, except as specified in paragraph (a)(2) of this section.

(2) *Delivery at or before exit point.* Delivery of such merchandise may be made at or before the exit point of any location approved by Customs as of August 23, 1988. In such cases, delivery shall be done under the physical supervision of a Customs officer, or in accordance with established guidelines as required by § 19.36(b) of this part. The officer shall sign the sales ticket certifying exportation and return it to the proprietor for retention in the files. The port director may also require that the warehouse proprietor have the person receiving the article sign the same copy to certify receipt.

(b) *Delivery to seaport locations—*(1) *Seaport location.* Seaport location means an exit point (see § 19.35(d)) from which conditionally duty-free merchandise is delivered to departing individuals for exportation by vessel of more than 5 net tons which is departing directly

from the Customs territory to touch and trade in a foreign country. Deliveries for exportation from such locations may be made only beyond the exit point, except as specified in paragraph (b)(2) of this section.

(2) *Delivery at or before exit point.* Delivery of such merchandise may be made at or before the exit point in the case of any locations approved by Customs as of August 23, 1988. In such cases, delivery shall be done under the physical supervision of a Customs officer, or in accordance with established guidelines as required by § 19.36(b) of this part. The officer shall sign the sales ticket certifying exportation and return it to the proprietor for retention in the files. The port director may also require that the warehouse proprietor have the person receiving the article sign the same copy to certify receipt.

(c) *Delivery to airport locations.* Airport location means an exit point from which conditionally duty-free merchandise is delivered to departing individuals for exportation on a scheduled, chartered, or “for-hire” airline. Delivery of conditionally duty-free merchandise to be exported from such locations may be made by one of the following five procedures:

(1) *Delivery in sterile area.* A sterile area is an area that is within the airport and to which access is restricted to those passengers departing from Customs territory. In such cases, delivery will be made directly to the purchaser (or a family member or companion travelling with the purchaser) for carrying aboard the aircraft. This method of delivery is not authorized if there is any mixture in the sterile area of individuals arriving from a foreign country, or individuals arriving or departing on a domestic flight, with individuals departing for foreign;

(2) *Passenger delivery.* Merchandise may be delivered by the cartman or duty-free store operator to the purchaser (or a family member or companion travelling with the purchaser) at or beyond the exit point for the flight. The port director may require the exit point to be delimited by marking of its boundaries, or require proper supervision in accordance with established guidelines as required by

§ 19.36(b) of this part, if needed for reasonable assurance that conditionally duty-free merchandise will be exported with the purchaser or a family member or companion.

(3) *Aircraft delivery.* The merchandise will be delivered by a licensed cartman for lading as baggage directly on the aircraft on which the passenger will depart. The airline will release the merchandise to the purchaser when the aircraft has departed for its foreign destination;

(4) *Unit-load delivery.* Merchandise may be sold to passengers departing from the United States at a prior port of boarding on flights proceeding to a foreign destination which are required to clear with intermediate stops in the United States, provided that all of the following conditions are met:

(i) Sales may be made only to passengers holding a through ticket on the same flight, with no stopover privileges in the United States, to a foreign destination;

(ii) Merchandise shall be placed on the aircraft on which the passenger departs the United States for carriage as passenger baggage;

(iii) Merchandise shall be placed in a container sealed with Customs seals. The sealed container(s) may be placed in the baggage compartment or on the passenger deck of the aircraft. Containers stowed in baggage compartments may, with Customs permission, be transferred to the passenger deck at an intermediate or final stop in the United States. The seal numbers shall be placed on the face of the aircraft general declaration;

(iv) A lading manifest list, in duplicate, of conditionally duty-free merchandise sold to passengers aboard the particular flight will be prepared by the proprietor. An authorized airline representative will sign for receipt, with one copy to be retained by the airline for presentation to Customs as requested at the intermediate or final port, and the duplicate copy to be returned to and retained by the proprietor for record purposes;

(v) The seals shall not be broken nor shall any of the purchases be delivered until the aircraft is secured for departure to its foreign destination at the last port. In the event that the seals

are broken before that time, or the merchandise is not exported for any reason and not returned to Customs custody, demand shall be made against the importation and entry bond of the importer of record;

(5) *Cancelled or aborted flights or no-show passengers*—(i) *Cancelled or aborted flights.* The proprietor shall, upon request, make available to Customs the purchaser's name, the purchaser's airline ticket number and the identity and quantity of the merchandise delivered by the proprietor to the purchaser (if the merchandise was delivered to the airline rather than the passenger, the name of the airline employee to whom the merchandise was delivered), and the date and time of that delivery in lieu of retrieving the merchandise for safekeeping until the purchaser actually departs.

(ii) *No-show passengers.* A proprietor who delivers merchandise directly to an airline for delivery to a passenger who does not board the flight shall establish a procedure to obtain redelivery of that merchandise from the airline.

(d) *Lading manifest lists; certificate of exportation.* The proprietor shall retain copies of lading manifest lists and certificates of lading for exportation in its files for not less than 5 years after exportation by warehouse entry number or by unique identifier where permitted by the port director (see § 19.36(g)).

(e) *Delivery method.* Delivery of conditionally duty-free merchandise to persons for exportation will be made by licensed cartmen or bonded carriers under the procedures in subpart D, part 125, and § 144.34(a), of this chapter, or under a local control system approved by the port director wherein any discrepancy found in the merchandise will be treated as if it occurred in the bonded warehouse.

(f) *Return of merchandise to stock.* Whenever merchandise is withdrawn under the sales ticket procedure of § 144.37(h) of this chapter, but is undeliverable or is rejected by the purchaser, the merchandise may be returned to the duty-free store and the records, including the sales ticket and

(b) Alterations to or relocation of a container station may be made with the permission of the director of the port in which the facility is located, or if not within a port's limits, nearest to where the facility is located. An application to alter or relocate a container station shall be accompanied by the fee required by paragraph (c) of this section.

(c)(1) Customs shall charge a fee to establish, relocate or alter a container station, and publish a general notice in the FEDERAL REGISTER and Customs Bulletin setting forth a fee schedule, to be revised periodically to reflect increased costs, to establish, relocate or alter the container station. The published revised fee schedule shall remain in effect until changed.

(2) The fee, rounded off to the nearest dollar, shall be calculated in accordance with §24.17(d) of this chapter. The fee shall be based upon the amount of time the average service requires of

**§ 19.44 Carrier responsibility.**

(a) If merchandise is transferred directly to a container station from an importing carrier, the importing carrier shall remain liable under the terms of its bond for the proper safekeeping and delivery of the merchandise until it is formally receipted for by the container station operator.

(b) If merchandise is transferred directly from a bonded carrier's facility to a container station or is delivered directly to the container station by a bonded carrier, the bonded carrier shall remain liable under the terms of his bond for the proper safekeeping and delivery of the merchandise until it is formally receipted for by the container station operator.

(c) In either case under paragraph (a) or (b) of this section, the importing carrier and the bonded carrier, as applicable, shall be responsible for assuring that the provisions of subpart A, part 158 of this chapter, relating to quantity determinations, and discrepancy reporting and accountability are followed.

(d) The importing carrier and the bonded carrier, as applicable, shall indicate concurrence in the transfer of

the merchandise either by signing the application for transfer or by physically turning the merchandise over to the operator.

(e) The importing carrier and the bonded carrier, as applicable, shall be responsible for ascertaining that the person to whom a container is delivered for transfer to the container station is an authorized representative of the operator.

(f) The importing carrier and the bonded carrier, as applicable, shall furnish an abstract manifest showing the bill of lading number, the marks and numbers of the container, and the usual manifest description for each shipment in the container.

(g) If a container station operator chooses to collect merchandise from within the boundaries of the district (see definition of "district" at § 112.1) in which the container station is located and transport the merchandise to his container station, the container station operator must formally receipt for the merchandise at the time of collection, and he becomes liable under his bond for proper safekeeping of the merchandise at that time.

**§ 19.45 Transfer of merchandise, approval and method.**

Approval of the application by the port director shall serve as a permit to transfer the container and its contents to the station. Except when the container station operator is moving the merchandise to his own station by his own vehicle, the merchandise may only

be transferred to a container station by a bonded cartman or bonded carrier. The station operator, cartman or carrier shall receipt for the merchandise on both copies of the application.

[T.D. 74-54, 39 FR 4876, Feb. 18, 1974]

### § 19.46 Employee lists.

A permit shall not be granted to an operator to transfer a container or containers to a container station, if the operator, within 30 calendar days after the date of receipt of a written demand by the port director, does not furnish a written list of names, addresses, social security numbers, and dates and places of birth of persons employed by him in connection with the movement, receipt, storage or delivery of imported merchandise. Having furnished such a list, no new permit shall be issued to an operator who has not within 10 calendar days after the employment of any new personnel employed in connection with the movement, receipt, storage, or delivery of imported merchandise, advised the port director in writing of the names, addresses, social security numbers, and dates and places of birth of such new employees. The operator shall, within 10 calendar days, advise the port director if the employment of any employee is terminated. A person shall not be deemed to be employed by an operator if he is an officer or employee of an independent contractor engaged by the operator to move, receive, store, deliver, or otherwise handle imported merchandise.

### § 19.47 Security.

The space to be used for the purposes of breaking bulk and delivering cargo shall be properly secured against access by unauthorized persons, including persons not on the list of current employees furnished to the port director by the container station operator, the principal on the bond, as required by § 19.46. A suitable working and office space for the use of Customs officers and employees performing functions in the area shall also be provided.

### § 19.48 Suspension or revocation of the privilege of operating a container station; hearings.

(a) *Grounds for suspension or revocation.* The port director may revoke or

## 19 CFR Ch. I (4-1-99 Edition)

suspend the privilege of operating a container station if:

(1) The privilege was obtained through fraud or the misstatement of a material fact;

(2) The container station operator refuses or neglects to obey any proper order of a Customs officer or any Customs order, rule, or regulation relative to the operation of a container station;

(3) The container station operator or an officer of a corporation which has been granted the privilege of operating a container station is convicted of or has committed acts which would constitute a felony, or a misdemeanor involving theft, smuggling, or a theft-connected crime. Any change in the employment status of the corporate officer (e.g., discharge, resignation, demotion, or promotion) prior to conviction of a felony or prior to conviction of a misdemeanor involving theft, smuggling, or a theft-connected crime, resulting from acts committed while a corporate officer, will not preclude application of this provision;

(4) The container station operator fails to retain merchandise which has been designated for examination;

(5) The container station operator does not provide secure facilities or properly safeguard merchandise within the container station;

(6) The container station operator fails to furnish a current list of names, addresses, and other information required by § 19.46; or

(7) The bond required by § 19.40 is determined to be insufficient in amount or lacking sufficient sureties, and a satisfactory new bond with good and sufficient sureties is not furnished within a reasonable time.

(b) *Notice and appeal.* The port director shall suspend or revoke the privilege of operating a container station by serving notice of the proposed action in writing upon the container station operator. The notice shall be in the form of a statement specifically setting forth the grounds for revocation or suspension of the privilege and shall be final and conclusive upon the container station operator unless he shall file with the port director a written notice of appeal. The container station operator may file a written notice of appeal from the revocation or suspension

within 10 days following receipt of the notice of revocation or suspension. The notice of appeal shall be filed in duplicate and shall set forth the response of the container station operator to the statement of the port director. The container station operator, in his notice of appeal, may request a hearing.

(c) *Hearing on appeal.* If a hearing is requested, it shall be held before a hearing officer designated by the Secretary of the Treasury or his designee within 30 days following application therefor. The container station operator shall be notified of the time and place of the hearing at least 5 days prior thereto. The container station operator may be represented by counsel at the revocation or suspension hearing. All testimony in the proceeding shall be subject to cross-examination. A stenographic record of any such proceeding shall be made and a copy thereof shall be delivered to the container station operator. At the conclusion of such proceeding or review of a written appeal, the hearing officer or the port director, as the case may be, shall forthwith transmit all papers and the stenographic record of any hearing, to the Commissioner of Customs, together with his recommendation for final action. Following a hearing and within 10 calendar days after delivery of a copy of the stenographic record, the container station operator may submit to the Commissioner of Customs, in writing, additional views and arguments on the basis of such record. If neither the container station operator nor his attorney appear for a scheduled hearing, the hearing officer shall conclude the hearing and transmit all papers with his recommendation to the Commissioner of Customs. The Commissioner shall thereafter render his decision, in writing, stating his reasons therefor, with respect to the action proposed by the hearing officer or the port director. Such decision shall be transmitted to the port director and served by him on the container station operator.

[T.D. 73-286, 38 FR 28289, Oct. 12, 1973, as amended by T.D. 88-63, 53 FR 40219, Oct. 14, 1988]

#### **§ 19.49 Entry of containerized merchandise.**

Merchandise not entered within the lay order period, or extension thereof, shall be placed in general order. The importing carrier shall issue carrier's certificates for individual shipments in a container. Entries covering merchandise transferred to a container station shall clearly show that the merchandise is at the container station.

### §24.1 Collection of Customs duties, taxes, and other charges.

(a) Except as provided in paragraph (b) of this section, the following procedure shall be observed in the collection of Customs duties, taxes, and other charges (see §111.29(b) and 141.1(b) of this chapter):

(1) Any form of United States currency or coin legally current at time of acceptance shall be accepted.

(2) Any bank draft, cashier's check, or certified check drawn on a national or state bank or trust company of the United States or a bank in Puerto Rico or any possession of the United States if such draft or checks are acceptable for deposit by a Federal Reserve bank, branch Federal Reserve bank, or other designated depository shall be accepted.

(3)(i) An uncertified check drawn by an interested party on a national or state bank or trust company of the United States or a bank in Puerto Rico or any possession of the United States if such checks are acceptable for deposit by a Federal Reserve bank, branch Federal Reserve bank, or other designated depository shall be accepted if there is on file with the port director a bond to secure the payment of the duties, taxes, or other charges, or if a bond has not been filed, the organization or individual drawing and tendering the uncertified check has been

approved by the port director to make payment in such manner. In determining whether an uncertified check shall be accepted in the absence of a bond, the port director shall use available credit data obtainable without cost to the Government, such as that furnished by banks, local business firms, better business bureaus, or local credit exchanges, sufficient to satisfy him of the credit standing or reliability of the drawer of the check. For purposes of this paragraph, a custom-house broker, not licensed in the district (see definition of "district" at §111.1) where an entry is filed, is an interested party for the purpose of Customs acceptance of such broker's own check, provided the broker has on file the necessary power of attorney which is unconditioned geographically for the performance of ministerial acts. Customs may look to the principal (importer) or to the surety should the check be dishonored.

(ii) If, during the preceding 12-month period, an importer or interested party has paid duties or any other obligation by check and more than one check is returned dishonored by the debtor's financial institution, the port director shall require a certified check, money order or cash from the importer or interested party for each subsequent payment until such time that the port director is satisfied that the debtor has the ability to consistently present uncertified checks that will be honored by the debtor's financial institution.

(4) A U.S. Government check endorsed by the payee to the U.S. Customs Service, a domestic traveler's check, or a U.S. postal, bank, express, or telegraph money order shall be accepted. Before accepting this form of payment the Customs cashier or other employee authorized to receive Customs collections shall require such identification in the way of a current driver's license issued by a state of the United States, or a current passport properly authenticated by the Department of State, or a current credit card issued by one of the numerous travel agencies or clubs, or other credit data, etc., from which he can verify the identity and signature of the person tendering such check or money order.

## United States Customs Service, Treasury

## § 24.1

(5) The face amount of a bank draft, cashier's check, certified check, or uncertified check tendered in accordance with this paragraph shall not exceed the amount due by more than \$1 and any required change is authorized to be made out of any available cash funds on hand.

(6) The face amount of a U.S. Government check, traveler's check, or money order tendered in accordance with this paragraph shall not exceed the amount due by more than \$50 and any required change is authorized to be made out of any available cash funds on hand.

(7) Credit or charge cards, which have been authorized by the Commissioner of Customs, may be used for the payment of duties, taxes and/or other charges at designated Customs-serviced locations. Payment by this manner is limited to non-commercial entries and is subject to ultimate collection from the credit card company. Persons paying by charge or credit card will remain liable for all such charges until paid. Information as to those credit card companies authorized by Customs may be obtained from Customs officers.

(8) Participants in the Automated Broker Interface may use statement processing as described in §24.25 of this part. Statement processing allows entry/entry summaries and entry summaries to be grouped by either importer or by filer, and allows payment of related duties, taxes and fees by a single payment, rather than by individual checks for each entry. The preferred method of payment for users of statement processing is by Automated Clearinghouse.

(b) At piers, terminals, bridges, airports and other similar places, in addition to the methods of payment prescribed in paragraph (a) of this section, a personal check drawn on a national or state bank or trust company of the United States shall be accepted by Customs inspectors and other Customs employees authorized to receive Customs collections in payment of duties, taxes, and other charges on noncommercial importations, subject to the identification requirements of paragraph (a)(4) of this section and this paragraph. Where the amount of the check is over \$25, the Customs cashier or other employee

authorized to receive Customs collections shall ensure that the payor's name, home and business telephone number including area code, and date of birth are recorded on the instrument. In addition, one of the following shall be recorded on the instrument: The payor's social security number, current passport number, or current driver's license number including issuing state. A personal check received under this paragraph and a United States Government check, traveler's check, or money order received under paragraph (a) of this section by such Customs inspectors and other Customs employees shall also be subject to the following conditions:

(1) Where the amount is less than \$100 and the identification requirements of paragraph (a)(4) of this section have been met, the Customs employee accepting the check or money order shall show his name and badge number on the collection voucher and on the reverse side of the check or money order as well as the serial number of the voucher or other form of voucher identification so that the check or money order can be easily associated with the voucher. This information shall be shown immediately above the space where the endorsement stamp will be placed.

(2) Where the amount is \$100 or more, in addition to the requirements of paragraph (b)(1) of this section the Customs employee accepting the check or money order shall obtain the approval of the Customs officer in charge who also shall personally verify the identification data and indicate his approval by initialing the collection voucher below the signature of the Customs employee who approved the receipt of the check or money order.

(3) A personal check tendered in accordance with this paragraph shall be accepted only when drawn for the amount of the duties, taxes, and other charges to be paid by such check.

(c) Checks on foreign banks, foreign travelers' checks, and commercial drafts or bills of exchange subject to acceptance by the drawees shall not be accepted.

(d) Checks and other negotiable papers covering duties, taxes, and other

## § 24.2

Customs charges shall be made payable to the United States Customs Service.

(e) Any person who pays by check any duties, taxes, fees or other charges or obligations due the Customs Service which are not guaranteed by a Customs bond shall be assessed a charge of \$30.00 for each check which is returned unpaid by a financial institution for any reason, except the charge will not be assessed if it is shown that the maker of the check was not at fault in connection with the return of the check. This charge shall be in addition to any unpaid duties, taxes and other charges.

### § 24.2 Persons authorized to receive Customs collections.

Port directors, Customs cashiers, Customs inspectors, Customs dock tellers, and such other officers and employees as the port director shall designate shall receive Customs collections.

### § 24.3 Bills and accounts; receipts.

(a) Any bill or account for money due the United States shall be rendered by an authorized Customs officer or employee on an official form.

(b) A receipt for the payment of estimated Customs duties shall be provided a payer at the time of payment if he furnishes with his payment an additional copy of the documentation submitted in support of the payment. The appropriate Customs official shall validate the additional copy as paid and return it to the payer. Otherwise, a copy of the document filed by the payer and the payer's cancelled check shall constitute evidence of payment.

(c) A copy of a Customs bill validated as paid will not normally be provided a payer. If a bill is paid by check, the copy of the Customs bill identified as "Payer's Copy" and the payer's cancelled check shall constitute evidence of such payment to Customs. Should a

payer desire evidence of receipt, both the "U.S. Customs Service Copy" and the "Payer's Copy" of the bill and, in the case of payments by mail, a stamped, self-addressed envelope, shall be submitted. The "Payer's Copy" of the bill shall then be marked paid by the appropriate Customs official and returned to the payer.

(d) Every payment which is not made in person shall be accompanied by the original bill or by a communication containing sufficient information to identify the account or accounts to which it is to be applied.

(e) All other bills for duties, taxes, or other charges are due and payable upon the bill date appearing on the bill. A bill for increased or additional duties determined to be due upon a liquidation or reliquidation is due 15 days from the date of such liquidation or reliquidation.

[28 FR 14808, Dec. 31, 1963, as amended by T.D. 74–73, 39 FR 7782, Feb. 28, 1974; T.D. 79–221, 44 FR 46813, Aug. 9, 1979; T.D. 86–178, 51 FR 34959, Oct. 1, 1986]

### § 24.3a Interest charges on certain bills; notice to principal and surety.

(a) *Due date of Customs bills.* Customs bills for Supplemental duties (additional duties assessed upon liquidation or reliquidation), reimbursable services (such as provided for in §§ 24.16 and 24.17), and miscellaneous amounts (bills other than duties, taxes, reimbursable services, liquidated damages, fines, and penalties) shall be due as provided for in § 24.3(e).

(b) *Assessment of interest charges—(1) Bills for reimbursable services and miscellaneous amounts.* If payment is not received by Customs on or before the late payment date appearing on the bill, interest charges will be assessed upon the delinquent principal amount of the bill. The late payment date is the date 30 calendar days after the interest computation date. The interest computation date is the date from which interest is calculated and is initially the bill date.

(2) *Bills for supplemental duties.* The due date for increased or additional duties, determined to be due upon a liquidation or reliquidation, is 15 days from the date of such liquidation or reliquidation. If such duties are not paid

within 30 days after their due date (the 45th day), they shall be considered delinquent and bear interest from the due date.

(c) *Interest rate and applicability.* (1) The percentage rate of interest to be charged on such bills will be based upon the semiannual rate(s) established under sections 6621 and 6622 of the Internal Revenue Code of 1954 (26 U.S.C. 6621, 6622). The current rate of interest will appear on the Customs bill and may be obtained from the IRS or the Customs Accounting Services, Indianapolis, Indiana. Customs will also publish the current interest rate in the Customs Bulletin and FEDERAL REGISTER on a semiannual basis.

(2) The percentage rate of interest applied to an overdue bill will be adjusted as necessary to reflect any change in the annual rate of interest.

(3) Interest on overdue bills will be assessed on the delinquent principal amount by 30-day periods. No interest charge will be assessed for the 30-day period in which the payment is actually received at the "Send Payment To" location designated on the bill.

(4) In the case of any late payment, the payment received will first be applied to the interest charge on the delinquent principal amount and then to payment of the delinquent principal amount.

(5) The date to be used in crediting the payment is the date on which the payment is received by Customs.

(d) *Notice*—(1) *Principal.* The principal shall be notified at the time of the initial billing, and every 30 days after the due date until the bill is paid or otherwise closed. The following elements will normally appear on the bill:

- (i) Principal amount due;
- (ii) Interest computation date;
- (iii) Late payment date;
- (iv) Accrual of interest charges if payment is not received by the late payment date;
- (v) Applicable current interest rate;
- (vi) Amount of interest owed;
- (vii) Customs office where requests for administrative adjustments due to billing errors may be addressed; and
- (viii) Transaction identification (e.g., entry number, reimbursable assignment number).

(2) *Surety.* (i) Customs will report outstanding bills on a Formal Demand on Surety for Payment of Delinquent Amounts Due, for bills more than 30 days past due (approximately 60 days after bill due date), and every month thereafter until the bill is paid or otherwise closed. The following elements will normally appear on the report:

- (A) Principal amount due;
- (B) Interest computation date;
- (C) Late payment date;
- (D) Accrual of interest charges if payment is not received by the late payment date;
- (E) Applicable current interest rate;
- (F) Amount of interest owed;
- (G) Principal's name and address;
- (H) Customs office where requests for administrative adjustments due to billing errors may be addressed; and

(I) Transaction identification (e.g., entry number, reimbursable assignment number).

(ii) Upon the written request of a surety, Customs will provide the surety a notice containing the billing information at the time of the initial billing to its principal.

#### § 24.4 Optional method for payment of estimated import taxes on alcoholic beverages upon entry, or withdrawal from warehouse, for consumption.

(a) *Application to defer.* An importer, including a transferee of alcoholic beverages in a Customs bonded warehouse who wishes to pay on a semi-monthly basis the estimated import taxes on alcoholic beverages entered, or withdrawn from warehouse, for consumption by him during such a period may apply by letter to the director of each port at which he wishes to defer payment. If the importer desires the additional privilege of depositing estimated tax payments on an extended deferred basis, it must be specifically requested. An importer who receives approval from a port director to defer such payments may, however, continue to pay the estimated import taxes due at the time of entry, or withdrawal from warehouse, for consumption.

(b) *Deferred payment periods.* A period shall commence on October 24 and run through October 31, 1965; thereafter the

periods shall run from the 1st day of each month through the 15th day of that month, and from the 16th day of each month through the last day of that month. An importer may begin the deferral of payments of estimated tax to a Customs port in the first deferral period beginning after the date of the written approval by the port director. An importer may use the deferred payment system until the port director advises such importer that he is no longer eligible to defer the payment of such taxes.

(c) *Content of application and supporting documents.* (1) An importer must state his estimate of the largest amount of taxes to be deferred in any semimonthly period based on the largest amount of import taxes on alcoholic beverages deposited at that port in such a period during the year preceding his application. He must also identify any existing bond or bonds that he has on file at the port and shall submit in support of his application the approval of the surety on his bond or bonds to the use of the procedure and to the increase of such bond or bonds to such larger amount or amounts as may be found necessary by the port director.

(2) Each application must include a declaration in substantially the following language:

I declare that I am not presently barred by any port director from using the deferred payment procedure for payment of estimated taxes upon imports of alcoholic beverages, and that if I am notified by a port director to such effect I shall advise the director of any other port where approval has been given to me to use such procedure.

(d) *Use of deferred payment method.*

(1) The port director will notify the importer, or his authorized agent if requested, of approval.

(2) An importer who has received approval to make deferred payments retains the option of deferring or depositing the estimated tax on imported alcoholic beverages until the entry or withdrawal is presented to the cashier for payment of estimated duties. At the time the importer presents his entry or withdrawal for consumption to the cashier together with the estimated duty, he must either pay the estimated tax or indicate on the entry or

withdrawal that he elects to defer the tax payment.

(e) *Tax deferment procedure.* If the importer elects to defer the tax payments, he shall enter on each copy of the entry or withdrawal the words "Tax Payment Deferred," adjacent to the amount shown on the documents as estimated taxes, before presentation to the cashier.

(f) *Payment procedure—(1) Billing.* Each importer who has deferred tax payments on imported alcoholic beverages will be billed on Customs Form 6084, United States Customs Service Bill, at the end of each tax deferred period for all taxes deferred during the period. Each bill will identify each tax amount deferred and the related entry numbers. These bills must be paid in fully by the last day of the next succeeding deferral period.

(2) *Interest on overdue accounts.* When any bill for deferred taxes is not paid within the period specified in subparagraph (f)(1) of this section, interest thereon from the date following the end of the specified period to the date of payment of the bill shall be assessed, collected, and paid in the same manner as the basic tax. The rate of interest to be assessed shall be 7 percent per annum or such other rate as is established by the Secretary of the Treasury or his delegate in accordance with 26 U.S.C. 6621(b).

(g) *Restrictions on deferring tax deposits.* An importer may not on one entry, or withdrawal from warehouse for consumption, deposit part of the estimated tax and defer the balance of the tax. The estimated tax on each entry or withdrawal must be either fully paid or deferred.

(h) *Termination of deferred payment privilege.* (1) When any bill on Customs Form 6084 for deferred taxes is not paid within the period specified in paragraph (f) of this section, a demand for payment shall be made to the surety on the importer's bond. If in the opinion of the customs officer concerned such failure to make timely payment of estimated deferred taxes warrants the withdrawal of the tax deferral privilege, he will advise the importer of the withdrawal of such privilege. In all instances of failure to pay timely the deferred taxes on alcoholic beverages

withdrawn from warehouse for consumption, further withdrawals from the warehouse entry on which the tax is delinquent will be refused until payment is made of the amount delinquent.

(2) The termination at any port of the tax deferral privilege for failure to pay timely any deferred estimated tax shall be at the discretion of the Customs officer concerned. Termination of the privilege for any other reason shall be subject to the approval of the Commissioner of Customs. Notice of termination of the tax deferral privilege at any port will be disseminated to all other Customs ports.

(3) Renewal of the tax deferral privilege after it has been withdrawn at any port may be made only upon approval of the Commissioner of Customs.

(i) *Duration of deferred payment privilege.* The deferred payment privilege once approved by the port director will remain in effect until terminated under the provisions of paragraph (h) or the importer or surety requests termination.

(j) *Entries for consumption or warehouse after an importer is delinquent.* An importer who is delinquent in paying deferred taxes may make entries for consumption or for warehousing, or withdrawals for consumption from warehouse entries on which no delinquency exists, upon deposit of all estimated duties or taxes.

(k) *Rate of tax.* The estimated taxes must be paid on the basis of the rates in effect upon entry, or withdrawal from warehouse, for consumption, unless in accordance with section 315 of the Tariff Act of 1930, as amended, another date is applicable and not on the basis of the rates of tax in effect on the date deferred payment is made.

#### § 24.5 Filing identification number.

(a) *Generally.* Each person, business firm, Government agency, or other organization shall file Customs Form 5106, Notification of Importer's Number

or Application for Importer's Number, or Notice of Change of Name or Address, with the first formal entry which is submitted or the first request for services that will result in the issuance of a bill or a refund check upon adjustment of a cash collection. A Customs Form 5106 shall also be filed for the ultimate consignee for which such entry is being made. Customs Form 5106 may be obtained from any Customs Office.

(b) *Preparation of Customs Form 5106.*

(1) The identification number to be used when filing Customs Form 5106 shall be:

(i) The Internal Revenue Service employer identification number, or

(ii) If no Internal Revenue Service employer identification number has been assigned, the Social Security number.

(2) If neither an Internal Revenue Service employer identification number nor a Social Security number has been assigned, the word "None" shall be written on the line provided for each of these numbers on Customs Form 5106 and the form shall be filed in duplicate.

(c) *Assignment of importer identification number.* Upon receipt of a Customs Form 5106 without an Internal Revenue Service employer identification number or a Social Security number, an importer identification number shall be assigned and entered on the Customs Form 5106 by the Customs office where the entry or request for services is received. The duplicate copy of the form shall be returned to the filing party. This identification number shall be used in all future Customs transactions when an importer number is required. If an Internal Revenue Service employer identification number, a Social Security number, or both, are obtained after an importer number has been assigned by Customs, a new Customs Form 5106 shall not be filed unless requested by Customs.

(d) *Optional additional identification.* Customs Form 5106 contains blocks for a two-digit suffix code which may be written in as an addition to the Internal Revenue Service employer identification number to provide optional additional identification. The two-digit suffix code may be used by a business firm having branch office operations to

## § 24.11

permit the firm to identify transactions originating in its branch offices, or by vessel owners to permit them to identify transactions associated with particular vessels. A separate Customs Form 5106 shall be required to report the specific suffix code and the name and address for each branch office or vessel to be identified. Transactions may be associated with a specific branch office or vessel by reporting the appropriate identification number, including the two-digit suffix code, on Customs Form 7501 or the request for services. Suffix codes may be either numeric, alphabetic, or a combination of both numeric and alphabetic, except that the letters O, Z, and I may not be used. The blocks may be left blank if the firm or vessel owner has no use for them and a "00" suffix will be automatically assigned.

(e) *Retention of importer identification number.* An importer identification number shall remain on file until 1 year from the date on which it is last used on Customs Form 7501 or a request for services. If not used for 1 year and there is no outstanding transaction to which it must be associated, the importer identification number will be removed from Customs files. To engage in future transactions described in paragraph (a) of this section, the person, business firm, Government agency, or other organization, previously covered by an importer identification number, must file another Customs Form 5106.

(f) *"Freezing" importer identification information.* Those importers identifying Customs transactions through the procedure specified in paragraph (d) of this section and desiring to ensure that they receive such Customs transaction notifications as may be issued may request Customs to "freeze" the name and address information, regardless of what is shown on the Customs Form 5106 or request for services, by designating the name and title/position of the individual in their company authorized to effect name/address changes to the Importer's Record Number (IRN) identification information, and specifying the IRNs and suffixes to be frozen and the mailing address and/or physical location address of the company where Customs notifi-

Participation in the "Freeze" Program is voluntary. Requests to participate should be sent to: U.S. Customs Service, Accounting Services—Accounts Receivable, 6026 Lakeside Boulevard, Indianapolis, Indiana 46278, Attn: Freeze Program.

### § 24.11 Increased or additional duties or taxes; notice to importer.

(a) Any increased or additional duties or taxes found due upon liquidation shall be billed to the importer of record or to the actual owner when there shall have been filed:

(1) A declaration of the actual owner on Customs Form 3347 in accordance with section 485(d), Tariff Act of 1930, and the regulations in this part; and

(2) A bond as required by § 141.20 on Customs Form 301, containing the bond conditions set forth in § 113.62 of this chapter.

(b) In any case in which an owner's declaration has been filed timely but the bond has not been filed timely, and the port director is of the opinion that because of special circumstances the collection of the increased or additional duties should be effected under the timely owner's declaration, he shall report the facts to Headquarters, U.S. Customs Service and await instructions.

### § 24.12 Customs fees; charges for storage.

(a) The following schedule of fees prescribed by law or hereafter in this paragraph shall be made available to the public at all Customs offices. When payment of such fee is received by a Customs employee a receipt therefor shall be issued.

(1) [Reserved]

(2) No fee will be charged for furnishing an official certificate if the request is made to Customs at the time

the entry summary is filed. However, Customs shall charge and collect a fee of \$10.00 for each hour or fraction thereof for time spent by each clerical, professional or supervisor in finding the documents and furnishing an official certification if the request is made after the entry documents are filed, plus a charge of 15 cents per page for photocopying. The fee may be revised periodically by publication of a general notice in the *FEDERAL REGISTER* and *Customs Bulletin* setting forth the revised fee. The published revised fee shall remain in effect until changed.

(3) A Customs fee shall be collected for furnishing the names and addresses of importers of merchandise appearing to infringe a registered patent. This information will be furnished for a 2-month period at the fee of \$1,000; a 4-month period at the fee of \$1,500; or a 6-month period at the fee of \$2,000. (See § 12.39a of this chapter.)

(b) [Reserved]

(c) The rates charged for storage in Government-owned or rented buildings shall not be less than the charges made at the port by commercial concerns for the storage and handling of merchandise. Except as to an examination package covered by an application for an entry by appraisement, storage shall be charged on any examination package for any period it remains in the appraiser's store after 2 full working days following the day on which the permit to release or transfer was issued. As to an examination package covered by an application for an entry by appraisement, storage shall be charged for any period it remains in the appraiser's store after 2 full working days following the day of issuance to the importer of oral or written notice of the amount of duties or taxes required to be deposited or that the package is ready for delivery. If the port director finds that circumstances make it impractical to remove examination packages from the appraiser's store within the 2-day period, he may extend the period for not to exceed 3 additional working days, without storage charges. In computing the 2 working days, and any authorized extension, (1) the day on which the permit to release or transfer is issued, or the day on which the notice is issued of the

amount of duties or taxes that shall be deposited or that the package is ready for delivery, whichever is applicable, (2) Saturdays, (3) Sundays, and (4) National holidays, shall be excluded.

(d) Pursuant to the progressive clearance procedures set forth in § 122.88 of this chapter, when airlines commingle domestic (stopover) passengers who have already cleared Customs at their port of arrival and are continuing on to another U.S. destination, with international passengers who are arriving at their port of arrival and have not yet cleared Customs, a progressive clearance fee of \$2.00 per domestic (stopover) passenger reinspection in the U.S. will be charged by Customs to the affected airlines to offset the additional cost to Customs of reinspecting passengers who have already been cleared. The fee is in addition to any other charges currently incurred, such as overtime services, but will not apply to passengers reinspected on an overtime basis if the cost of performing such reinspection is reimbursed to Customs in accordance with 19 U.S.C. 1451. The fee will not apply to the reinspection of non-revenue producing passengers, including but not limited to, employees of the carrier and their dependents, deadhead crew, employees of other carriers who may be assessed a service charge by the transporting carrier, and other persons to whom the carrier is authorized to provide free transportation pursuant to 14 CFR part 233. The airline industry will be notified at least 90 days in advance of the date of any change in the amount of the fee necessitated by either an increase or decrease in costs to Customs, but no new fee shall take effect before January 1, 1986.

#### **§ 24.13 Car, compartment, and package seals; kind, procurement.**

(a) Customs seals accepted pursuant to § 24.13a of this chapter shall be used in sealing openings, packages, conveyances, or articles requiring the security provided by such sealing.

(b) Red in-bond and high security red in-bond seals used for sealing imported merchandise shipped between ports in the United States shall be stamped “U.S. Customs in Bond.” Uncolored seals used to seal containers of commercial traveler’s samples transiting the United States as provided by § 123.52 of this chapter shall be stamped “Canada-United States Customs.” [U.S. Transit], and uncolored seals used to seal containers of commercial traveler’s samples transiting the United States as provided by § 123.52 of this chapter shall be stamped “Canada-United States Customs.” Blue in-transit seals used to seal merchandise transiting foreign territory or waters between ports in the United States as provided in § 123.24 of this chapter shall be stamped “U.S. Customs In-Transit.” Yellow in-transit seals used on rail shipments of merchandise and on containers of commercial traveler’s samples transiting Canada between U.S. ports as provided in §§ 123.24 and 123.51 of this chapter shall be stamped [U.S. Customs]

[Can. Transit] for use on railroad cars, and “United States-Canada Customs” for use on samples. Uncolored seals used for Customs purposes other than for (1) shipping in bond, (2) shipping by other than a bonded common carrier in accordance with section 553, Tariff Act of 1930, as amended, or (3) shipping in transit shall be stamped “U.S. Customs.” All seals (except uncolored in-transit seals on containers of commercial traveler’s samples and seals for use on airline liquor kits) shall be stamped with the name of the port for which they are ordered. Each strap seal shall be stamped with a serial number. Each automatic metal seal shall be stamped with a symbol number and, when required, with a serial number.

(c) *Purchase of seals.* Bonded carriers of merchandise, commercial associations representing the foregoing or comparable organizations approved by the port director under paragraph (f) of this section, a foreign trade zone operator and bonded warehouse proprietors may purchase quantity supplies of in-bond and in-transit seals from manufacturers approved under the provisions of § 24.13a. The order shall be prepared by the purchaser and, except as

hereinafter noted, shall be confined to seals for use at one port and shall specify the kind and quantity of seals desired, the name of the port at which they are to be used, and the name and address of the consignee to whom they are to be shipped. Seals for use on airline liquor kits need not specify the name of the port at which they are to be used, and orders for such seals need not be confined to seals for use at one port. Carriers and bonded warehouse proprietors may purchase small emergency supplies of in-bond and in-transit seals from port directors, who will keep a supply of such seals for this purpose. An order for green or uncolored in-transit seals shall be submitted to the office of the Director of Customs-Excise Inspection, Ottawa, Canada, for approval and forwarding to the manufacturer. An order for green strap-in bond seals for use on railroad cars must stipulate that the seals are to be consigned to the collector of customs and excise in Canada at the port indicated on the seals for entry purposes and storage under Customs lock and key.

(d) The manufacturer or supplier shall ship the seals to the consignee named in the order and shall advise the director of the port to which the seals are shipped as to the kind and quantity of seals shipped, the name of the port (where required), serial numbers, and symbol number (where required) stamped thereon, the name and address of the consignee, and the date of shipment.

(e) [Reserved]

(f) *Port director approval required.* In-bond seals may be purchased only by a foreign trade zone operator or Customs bonded warehouse proprietor, a customs bonded carrier, a nonbonded carrier permitted to transport articles in accordance with section 553, Tariff Act of 1930, as amended (19 U.S.C. 1553) or in the case of red in-bond and high security red in-bond seals, the carrier’s commercial association or comparable representative approved by the port director. In-transit seals may be purchased by a bonded or other carrier of merchandise or, in the case of blue in-

transit seals, by the carrier's commercial association or comparable representative approved by the port director. Except for uncolored in-transit seals, uncolored Customs seals may not be purchased by private interests and shall be furnished by port directors for authorized use without charge. In-bond and in-transit seals sold by port directors shall be charged for at the rate of 10 cents per seal, except for high security red in-bond seals which shall be charged for at the current manufacturer's list price for the quantity purchased.

**§ 24.13a Car, compartment, and package seals; and fastenings; standards; acceptance by Customs.**

(a) *General standards.* The seals and fastenings, together, shall

- (1) Be strong and durable;
- (2) Be capable of being affixed easily and quickly;
- (3) Be capable of being checked readily and identified by unique marks (such as a logotype) and numbers;
- (4) Not permit removal or undoing without breaking, or tampering without leaving traces;
- (5) Not permit use more than once; and
- (6) Be made as difficult as possible to copy or counterfeit.

(b) *Seal specifications.* (1) The shape and size of the seal shall be such that any identifying marks are readily legible.

(2) Each eyelet in a seal shall be of a size corresponding to that of the fastening used, and shall be positioned so that the fastening will be held firmly in place when the seal is closed.

(3) The material used shall be sufficiently strong to prevent accidental breakage, early deterioration (due to weather conditions, chemical action, etc.) or undetectable tampering under normal usage.

(4) The material used shall be selected with reference to the sealing system used.

(c) *Fastening specifications.* (1) The fastening shall be strong and durable and resistant to weather and corrosion.

(2) The length of the fastening used shall not enable a sealed aperture to be opened or partly opened without the seal or fastening being broken or otherwise showing obvious damage.

(3) The material used shall be selected with reference to the sealing system used.

(d) *Identification marks.* (1) If the seal is to be purchased and used by U.S. Customs, the seal or fastening, as appropriate, shall be marked to show that it is a U.S. Customs seal by application of the words "U.S. Customs" and a unique identification number on the seal.

(2) If the seal is to be used by private industry (i.e., a shipper, manufacturer, or carrier), it must be clearly and legibly marked with a unique company name (or logotype) and identification number.

(e) *Customs acceptance.* Seals will be considered as acceptable for use and/or purchase by U.S. Customs as soon as the manufacturer attests that the seals have been tested and meet or exceed the standards provided in paragraphs (a) through (d) of this section, and will continue to be considered acceptable until such time as it is demonstrated that they do not meet the standards. A manufacturer may attest to the qualification of a specific seal, or to an entire product line of seals as of a certain date. Any addition of a seal to a group of seals attested to as a group would require specific acceptance of that seal by Customs.

(f) *Testing.* All testing of seals deemed necessary before Customs acceptance will be done by the manufacturer or by a private laboratory, and not by Customs. However, Customs reserves the right to test, or to have tested, seals that have been accepted by Customs.

(g) *Records.* The manufacturer's attestation that a seal meets or exceeds the standards specified in this section and, if deemed necessary by Customs, the seal test record shall be sent to the

### § 24.14 Salable Customs forms.

(a) Customs forms for sale to the general public shall be designated by the Commissioner of Customs, or his delegate. Customs forms which are designated as salable shall meet the following conditions: (1) The form is distributed to private parties for use in completing customs transactions; (2) the quantity used nationwide annually is sufficient to justify the administrative costs involved in selling the form and accounting for the collections involved therein, or the form is primarily for the use of a special group; (3) distribution is or can generally be made in lots of 100 or more; (4) the form is normally distributed to commercial concerns (customhouse brokers, freight forwarders, vessel agents, carriers, regular commercial importers, etc.) rather than to or for the use of individuals or others (tourists, churches, schools, occasional importers, etc.) for non-commercial purposes.

(b) The price of each salable Customs form shall be established by the Commissioner of Customs, or his delegate, and shall be adjusted periodically as the varying costs of printing and distribution require. A list of salable customs forms showing the price at which each is sold shall be prominently posted in each customhouse in a location accessible to the general public.

(c) Customs forms for sale to the general public, except unusually large or otherwise unsuitable forms, shall normally be prepared in units containing 100 copies. If a completely prepared bill or receipt is presented by the purchaser at the time of the purchase, the port director's paid stamp shall be impressed thereon; otherwise, no receipt shall be given.

## 19 CFR Ch. I (4-1-99 Edition)

### § 24.16 Overtime services; overtime compensation and premium pay for Customs Officers; rate of compensation.

(a) *General.* Customs services for which overtime compensation is provided for by section 5 of the Act of February 13, 1911, as amended (19 U.S.C. 267), or section 451, Tariff Act of 1930, as amended (19 U.S.C. 1451), shall be furnished only upon compliance with the requirements of those statutes for applying for such services and giving security for reimbursement of the overtime compensation, unless the compensation is nonreimbursable under the said section 451, or section 53 of the Airport and Airway Development Act of 1970, as amended (49 U.S.C. 1741). Reimbursements of overtime compensation shall be collected by the port director from the applicants for the services. Customs Officers entitled to overtime compensation and premium pay, pursuant to the provisions of the Customs Officer Pay Reform legislation (19 U.S.C. 261 and 267, as amended), shall not receive pay or other compensation for that work under any other provision of law. Reimbursable overtime services shall not be furnished to an applicant who fails to cooperate with the Customs Service by filing a timely application therefor during regular hours of business when the need for the services can reasonably be foreseen, nor in any case until the maximum probable reimbursement is adequately secured.

(b) *Definitions.* For purposes of this section, the following words and phrases have the meanings indicated:

(1) *The Act* refers to Part II, Subchapter D of the Omnibus Budget Reconciliation Act of 1993, Public Law 103-66.

(2) *Administrative workweek* means a period of seven consecutive calendar days beginning Sunday and continuing through the following Saturday.

(3) *Base pay* means the rate of pay fixed by law or administrative action for the position held by the Customs Officer.

(4) *Callback* means the irregular or occasional overtime work performed by a Customs Officer either on a day when

work was not regularly scheduled for that officer or which begins at least one hour after the end of the officer's regularly-scheduled tour of duty and ends at least one hour before the beginning of the following regularly-scheduled assignment and requires the officer to return to a place of work.

(5) "Commute compensation" means the compensation which a Customs Officer is entitled to receive, in excess of the officer's base pay, for returning to work, under certain conditions, to perform an overtime work assignment. Commute compensation, within the limits prescribed by the Act, shall be treated as overtime compensation, and is includable for Federal retirement benefit purposes.

(6) *Continuous assignment* means the grouping of multiple overtime assignments, performed by the same Customs Officer(s), which are separated by periods of non-work, into a single unit for computation of pay purposes.

(7) *Customs Officer* means only those individuals assigned to position descriptions entitled "Customs Inspector," "Supervisory Customs Inspector," "Canine Enforcement Officer," or "Supervisory Canine Enforcement Officer."

(8) *Fiscal year pay cap* refers to the statutory maximum, in effect for the year involved, in overtime and premium pay a Customs Officer shall receive in that fiscal year. This aggregate limit may be waived by the Commissioner of Customs or his/her designee in individual cases in order to prevent excessive costs or to meet emergency requirements of the Customs Service.

(9) *Holiday* means any day designated as a holiday by a Federal statute or declared by an Executive order.

(10) *Intermittent employee* is a non-full-time employee who does not have a regularly-scheduled tour of duty.

(11) *Majority of hours*, within the context of night work differentials, means more than half of the hours of the daily regularly-scheduled tour of duty.

(12) *Night work* means regularly-scheduled work performed by a Customs Officer on tours of duty, in which a majority of the hours worked occur between the hours of 3:00 p.m. and 8:00 a.m.

(13) *Overtime pay* means the compensation which a Customs Officer is entitled to receive, in excess of the officer's base pay, for performing officially-assigned work in excess of the 40 hours of the officer's regularly-scheduled administrative workweek or in excess of 8 hours in a day, which may include commute compensation as defined at paragraph (b)(5) of this section. Overtime pay, within the limits prescribed by the Act, is includable for Federal retirement benefit purposes.

(14) *Premium pay differential* means the compensation which a Customs Officer is entitled to receive, in excess of the officer's base pay, for performing officially-assigned work on holidays, Sundays and at night. Premium pay is not includable for Federal retirement benefit purposes.

(15) *Regularly-scheduled administrative workweek* means, for a full-time employee, the 40 hour period within an administrative workweek within which the employee is regularly scheduled to work, exclusive of any overtime; for a part-time employee, it means the officially prescribed days and hours within an administrative workweek during which the employee is regularly scheduled to work.

(c) *Application and bond.* (1) Except as provided for in paragraphs (c)(2) and (4) of this section, an application for inspectional services of Customs Officers at night or on a Sunday or holiday, Customs Form 3171, supported by the required cash deposit or bond, shall be filed in the office of the port director before the assignment of such officers for reimbursable overtime services. The cash deposit to secure reimbursement shall be fixed by the port director or authorized representative in an amount sufficient to pay the maximum probable compensation and expenses of the Customs Officers, or the maximum amount which may be charged by law, whichever is less, in connection with the particular services requested. The bond to secure reimbursement shall be on Customs Form 301, containing the appropriate bond conditions set forth in subpart G, part 113 of this chapter (see §§ 113.62, 113.63, 113.64 and 113.73), and in an amount to be fixed by the port director, unless another bond containing a provision to

secure reimbursement is on file. A bond given on Customs Form 301, containing the appropriate bond conditions set forth in subpart G, part 113 of this chapter (see §§ 113.62, 113.63, 113.64 and 113.73), to secure the payment of overtime services rendered private aircraft and private vessels shall be taken without surety or cash deposit in lieu of surety, and the bond shall be modified to so indicate.

(2) Prior to the expected arrival of a pleasure vessel or private aircraft the port director may designate a Customs Officer to proceed to the place of expected arrival to receive an application for night, Sunday, or holiday services in connection with the arrival of such vessel or aircraft, together with the required cash deposit or bond. In each such case the assignment to perform services shall be conditional upon the receipt of the appropriate application and security. Where the security is a cash deposit, the receipt may be properly inscribed to make it serve as a combined receipt for cash deposit in lieu of bond and request for overtime services, in lieu of filing a request for overtime services on Customs Form 3171.

#### REQUEST FOR OVERTIME SERVICES

Permit Number \_\_\_\_\_

I hereby request overtime services on \_\_\_\_\_, 19\_\_\_\_, at \_\_\_\_\_ a.m., p.m., in connection with the entry of my aircraft (vessel).

\_\_\_\_\_  
(Pilot, Owner, or Person in Charge)

(3) An application on Customs Form 3171 for overtime services of Customs Officers, when supported by the required cash deposit or a continuous bond, may be granted for a period not longer than for 1 year. In such a case, the application must show the exact times when the overtime services will be needed, unless arrangements are made so that the proper Customs Officer will be notified timely during official hours in advance of the services requested as to the exact times that the services will be needed.

(4) Inspectional services will be provided to owners or operators of aircraft without charge for overtime on Sundays and holidays between the hours of 8:00 a.m. and 5:00 p.m. Applications for

inspectional services for aircraft during those hours shall be filed as set forth in paragraph (c)(1) of this section, but without cash deposit or bond.

(d) *Work Assignment Priorities.* The establishment of regularly-scheduled administrative tours of duty and assignments of Customs Officers to overtime work under this section shall be made in accordance with the following priorities, listed below in priority order:

(1) *Alignment.* Tours of duty should be aligned with the Customs workload.

(2) *Least Cost.* All work assignments should be made in a manner which minimizes the cost to the government or party in interest. Decisions, including, but not limited to, what hours should be covered by a tour of duty or whether an assignment should be treated as a continuous assignment or subject to commute compensation, should be based on least cost considerations. However, base pay comparison of eligible employees shall not be used in the determination of staffing assignments.

(3) *Annuity integrity.* For Customs Officers within 3 years of their statutory retirement eligibility, the amount of overtime that can be worked is limited to the average yearly number of overtime hours the Customs Officer worked during his/her career with the Customs Service. If the dollar value of the average yearly number of overtime hours worked by such Customs Officer exceeds 50 percent of the applicable statutory pay cap, then no overtime earning limitation based on this annuity integrity provision would apply. Waivers concerning this annuity integrity limitation may be granted by the Commissioner of Customs or the Commissioner's designee in individual cases in order to prevent excessive costs or to meet emergency requirements of Customs.

(e) *Overtime Pay.* (1) A Customs Officer who is officially assigned to perform work in excess of the 40 hours in the officer's regularly-scheduled administrative workweek or in excess of 8 hours in a day shall be compensated for such overtime work performed at 2 times the hourly rate of the officer's base pay, including any locality pay, but not including any premium pay differentials for holiday, Sunday, or night work.

(2) The computation of the amount of overtime worked by a Customs Officer is subject to the following conditions:

(i) *Overtime that is less than one hour.* A quarter of an hour shall be the smallest fraction of an hour used for paying overtime under this subpart.

(ii) *Absence during overtime.* Except as expressly authorized by statute, regulation, or court order (i.e., military leave, court leave, continuation of pay under the workers compensation law, and back pay awards), a Customs Officer shall be paid for overtime work only when the officer reports as assigned.

(f) *Special provisions relating to overtime work on a callback basis—(1) Minimum duration and callback requirements.* Any work for which overtime pay is authorized and for which the Customs Officer is required to return to a place of work shall be treated as being at least 2 hours in duration, but only if such work begins at least 1 hour after the end of any previous regularly-scheduled work assignment and ends at least 1 hour before the beginning of the following regularly-scheduled work assignment. An unpaid meal period shall not be considered a break in service for purposes of callback.

(2) *Commute compensation—Eligibility.* A Customs Officer shall be compensated for overtime when the officer is called back and officially assigned to perform work that:

(i) Is in excess of the 40 hours in the officer's regularly-scheduled administrative workweek or in excess of 8 hours in a day;

(ii) Begins at least 1 hour after the end of any previous regularly-scheduled work assignment;

(iii) Commences more than 2 hours prior to the start of the officer's next regularly-scheduled work assignment;

(iv) Ends at least 1 hour before the beginning of the officer's next regularly-scheduled work assignment; and,

(v) Commences less than 16 hours after the officer's last regularly-scheduled work assignment. The 16 hours shall be calculated from the end of the Customs Officer's last regularly-scheduled work assignment.

(3) *Commute compensation—Amount.* Commute compensation under this section shall be in an amount equal to 3

times the hourly rate of the Customs Officer's base pay for a one hour period, which includes applicable locality pay, but does not include any premium pay differentials for holiday, Sunday or night work. The Customs Officer shall be entitled to this amount for an eligible commute regardless of the actual commute time. However, an unpaid meal period shall not be considered a break in service for purposes of commute compensation.

(4) *Maximum Compensation for Multiple Assignments.* If a Customs Officer is assigned to perform more than one overtime assignment, in which the officer is required to return to a place of work more than once in order to complete the assignment, and otherwise satisfies the callback requirements of paragraph (f)(1) of this section, then the officer shall be entitled to commute compensation each time the officer returns to the place of work provided that each assignment commences less than 16 hours after the officer's last regularly-scheduled work assignment. However, in no case shall the compensation be greater than if some or all of the assignments were treated as one continuous callback assignment.

(g) *Premium pay differentials.* Premium pay differentials may only be paid for non-overtime work performed on holidays, Sundays, or, at night (work performed, in whole or in part, between the hours of 3:00 p.m. and 8:00 a.m.). A Customs Officer shall receive payment for only one of the differentials for any one given period of work. The order of precedence for the payment of premium pay differentials is holiday, Sunday, and night work.

(1) *Holiday differential.* A Customs Officer who performs any regularly-scheduled work on a holiday shall receive pay for that work at the officer's hourly rate of base pay, which includes authorized locality pay, plus premium pay amounting to 100 percent of that base rate. Holiday differential premium pay will be paid only for time worked. Intermittent employees are not entitled to holiday differentials.

(i) When a holiday is designated by a calendar date, for example, January 1, July 4, November 11, or December 25, the holiday will be observed on that

date regardless of Saturdays and Sundays. Customs Officers who perform regularly-scheduled, non-overtime, tours of duty on those days shall be paid the holiday differential. Holidays not designated by a specific calendar date, such as President's Day (the third Monday in February), shall be observed on that date, and Customs Officers who perform regularly-scheduled, non-overtime, work on those days shall be paid the holiday differential.

(ii) Inauguration Day (January 20 of each fourth year after 1965), is a legal public holiday for the purpose of the Act. Customs Officers whose duty locations are in the District of Columbia, or Montgomery and Prince George counties in Maryland, or Arlington and Fairfax counties in Virginia, or in the cities of Alexandria and Falls Church in Virginia, who perform regularly-scheduled, non-overtime, work on that day shall be paid the holiday differential. When Inauguration Day falls on Sunday, the next succeeding day selected for the public observance of the inauguration of the President is the legal public holiday.

(iii) If a legal holiday falls on a Customs Officer's regularly-scheduled day off, the officer shall receive a holiday "in lieu of" that day. Holidays "in lieu of" shall not be granted for Inauguration Day. A Customs Officer who works on an "in lieu of" holiday shall be paid the holiday differential.

(iv) If a Customs Officer is assigned to a regularly-scheduled, non-overtime, tour of duty which contains hours within and outside the 24-hour calendar day of a holiday—for example, a tour of duty starting at 8 p.m. on a Monday holiday following a scheduled day off on Sunday and ending at 4 a.m. on Tuesday—the Customs Officer shall receive the holiday differential (up to 8 hours) for work performed during that shift. If the Customs Officer is assigned more than one regularly-scheduled, non-overtime, tour of duty which contains hours within and outside the 24-hour calendar day of a holiday—for example, a tour of duty starting at 8 p.m. on the Wednesday before a Thursday holiday and ending at 4 a.m. on Thursday with another regularly-scheduled, non-overtime, tour of duty starting at 8 p.m. on the Thursday holiday and

ending at 4 a.m. on Friday—the management official in charge of assigning work shall designate one of the tours of duty as the officer's holiday shift and the officer shall receive holiday differential (up to 8 hours) for work performed during the entire period of the designated holiday shift. The Customs Officer shall not receive holiday differential for any of the work performed on the tour of duty which has not been designated as the holiday shift but will be eligible for Sunday or night differential as appropriate.

(v) Customs Officers who are regularly scheduled, but not required, to work on a holiday shall receive their hourly rate of base pay for that 8-hour tour plus any Sunday or night differential they would have received had the day not been designated as a holiday. To receive holiday pay under this paragraph, the Customs Officer must be in a pay status (at work or on paid leave), either the last work day before the holiday or the first work day following the holiday.

(vi) A Customs Officer who works only a portion of a regularly-scheduled, non-overtime, holiday shift will be paid the holiday differential for the actual hours worked and the appropriate differential (Sunday or night) for the remaining portion of the shift such officer was not required to work. The night differential premium pay shall be calculated based on the rate applicable to the entire shift.

(2) *Sunday differential.* A Customs Officer who performs any regularly-scheduled work on a Sunday that is not a Federal holiday shall receive pay for that work at the officer's hourly rate of base pay, which includes authorized locality pay, plus premium pay amounting to 50 percent of that base rate. Sunday differential premium pay will be paid only for time worked and is not applicable to overtime work performed on a Sunday. A Customs Officer whose regularly-scheduled work occurs in part on a Sunday, that is not a Federal holiday, and in part on the preceding or following day, will receive the Sunday differential premium pay for the hours worked between 12:01 a.m. and 12 Midnight on Sunday. Intermittent employees are not entitled to Sunday differentials.

(3) *Night work differentials.* A Customs Officer who performs any regularly-scheduled night work shall receive pay for that work at the officer's hourly rate of base pay, including locality pay as authorized, plus the applicable premium pay differential, as specified below, but shall not receive such night differential for work performed during overtime assignments. When all or the majority of the hours of a Customs Officer's regularly-scheduled work occur between 3 p.m. and 8 a.m., the officer shall receive a night differential premium for all the hours worked during that assignment. Intermittent employees are not entitled to night differentials.

(i) *3 p.m. to Midnight.* If more than half of the hours of a Customs Officer's regularly-scheduled shift occur between the hours of 3 p.m. and 12 Midnight, the officer shall be paid at the officer's hourly rate of base pay and shall also be paid a premium of 15 percent of that hourly rate of base pay for all the hours worked.

(ii) *11 p.m. to 8 a.m.* If more than half of the hours of a Customs Officer's regularly-scheduled shift occur between the hours of 11 p.m. and 8 a.m., the officer shall be paid at the officer's hourly rate of base pay and shall also be paid a premium of 20 percent of that hourly rate of base pay for all the hours worked.

(iii) *7:30 p.m. to 3:30 a.m. Shift.* If the regularly-scheduled shift of a Customs Officer is 7:30 p.m. to 3:30 a.m., the officer shall be paid at the officer's hourly rate of base pay and shall also be paid a premium of 15 percent of that hourly rate of base pay for the work performed between 7:30 p.m. and 11:30 p.m. and 20 percent of that hourly rate of base pay for the work performed between 11:30 p.m. and 3:30 a.m.

(iv) *Work Scheduled During Two Differential Periods.* A Customs Officer shall only be paid one night differential rate per regularly-scheduled shift, except as provided for in paragraph (iii) above. A Customs Officer whose regularly-scheduled work occurs during two separate differential periods shall receive the night differential premium rate which applies to the majority of hours scheduled.

(v) *Night Work Which Occurs in Part on a Sunday.* When a Customs Officer's regularly-scheduled shift occurs in part on a Sunday, the officer shall receive Sunday differential pay for those hours of the work which are performed during the 24 hour period of the Sunday, and the night differential pay for those hours which do not fall on the Sunday. For example, a Customs Officer who is assigned and works a shift which starts at 8 p.m. Sunday and ends at 4 a.m. Monday, shall receive 4 hours of Sunday premium pay and 4 hours of night pay. The night differential pay shall be calculated based on the rate applicable to the particular tour of duty.

(h) *Limitations.* Total payments for overtime/commute, and differentials for holiday, Sunday, and night work that a Customs Officer is paid shall not exceed any applicable fiscal year pay cap established by Congress. The Commissioner of Customs or the Commissioner's designee may waive this limitation in individual cases to prevent excessive costs or to meet emergency requirements of the Customs Service. However, compensation awarded to a Customs Officer for work not performed, which includes overtime awards during military leave or court leave, continuation of pay under workers compensation law, and awards made in accordance with back pay settlements, shall not be applied to any applicable pay cap calculations.

#### § 24.17 Reimbursable services of Customs employees.

(a) Amounts of compensation and expenses chargeable to parties-in-interest in connection with services rendered by Customs employees during regular hours of duty or on Customs overtime assignments (19 U.S.C. 267, 1451), under one or more of the following circumstances shall be collected from such parties-in-interest and deposited by port directors as repayments to the appropriation from which paid.

(1) When a Customs employee is assigned on board a vessel or vehicle under authority of section 457, Tariff

**§ 24.17****19 CFR Ch. I (4–1–99 Edition)**

Act of 1930, to protect the revenue, the owner or master of such vessel or vehicle shall be charged the full compensation and authorized travel and subsistence expenses of such employee from the time he leaves his official station until he returns thereto.

(2) When a Customs employee is assigned on board a vessel under authority of section 458, Tariff Act of 1930, to supervise the unlading of such vessel, the master or owner of such vessel shall be charged the full compensation of such employee for every day consumed in unlading after the expiration of 25 days after the date of the vessel's entry.

(3) When a Customs employee is assigned under authority of section 304, Tariff Act of 1930, as amended, to supervise the exportation, destruction, or marking to exempt articles from the duty provided for in such section, the importer of such merchandise shall be charged the full compensation and authorized travel and subsistence expenses of such employee from the time he leaves his official station until he returns thereto.

(4) When a Customs employee is assigned pursuant to § 101.4 of this chapter to a Customs station or other place which is not a port of entry for service in connection with the entry or clearance of a vessel, the owner, master, or agent of the vessel shall be charged the full compensation and authorized travel and subsistence expenses of such employee from the time he leaves his official station until he returns. When a Customs employee is so assigned to render service in connection with the entry or delivery of merchandise only, the private interest shall be charged only for the authorized travel and subsistence expenses incurred by such employee from the time he leaves his official station until he returns thereto except that no collection need be made if the total amount chargeable against one importer for one day amounts to less than 50 cents (see § 101.4(b) of this chapter). Where the amount chargeable is 50 cents or more, but less than \$1, a minimum charge of \$1 shall be made.

(5) When a Customs employee is assigned under authority of section 447, Tariff Act of 1930, to make entry of a vessel at a place other than a port of

entry or to supervise the unlading of cargo, the private interest shall be charged the full compensation and authorized travel and subsistence expenses of such employee from the time he leaves his official station until he returns thereto.

(6) [Reserved]

(7) When a Customs employee is assigned on any vessel or vehicle, under authority of section 456, Tariff Act of 1930, while proceeding from one port to another, the master or owner of such vessel or vehicle shall be charged the full compensation and authorized travel and subsistence expenses of such employee from the time he leaves his official station until he returns thereto, or, in lieu of such expenses, the master or owner may furnish such employee the accommodations usually supplied to passengers.

(8) When a Customs employee is assigned under authority of section 562, Tariff Act of 1930, as amended, to supervise the manipulation of merchandise at a place other than a bonded warehouse, the compensation and expenses of such employee shall be reimbursed to the Government by the party in interest. A Customs officer so assigned is not acting as a customs warehouse officer, since the services have no connection with a customs bonded warehouse.

(9) When a Customs employee is assigned to supervise the destruction of merchandise pursuant to section 557(c), Tariff Act of 1930, as amended, at a place where a Customs employee is not regularly assigned, the full compensation and expenses of such employee shall be reimbursed to the Government by the party in interest.

(10) When a Customs employee is assigned to supervise the labeling of imported merchandise in accordance with the provisions of §§ 11.12(b), 11.12a(b), 11.12b(b) of the regulations of this chapter or the removal or obliteration of prohibited markings and trade marks from merchandise which has been detained or seized in accordance with the provisions of §§ 11.13(c) and 11.17(b) of the regulations of this chapter or to supervise the exportation or destruction of any such merchandise, the compensation and expenses of such Customs employee shall be reimbursed

to the Government by the party in interest.

(11) When a Customs employee is assigned to supervise examination, sampling, weighing, repacking, segregation, or other operation on merchandise in accordance with §§ 151.4, 151.5, 158.11, 158.14, and 158.42 of this chapter, the compensation and other expenses of such employee shall be reimbursed to the Government by the party-in-interest except when a warehouse proprietor is liable therefor.

(12) When a Customs employee is assigned to a centralized hub facility for the purpose of processing express consignment shipments under part 128 of this chapter, the compensation (including overtime) and expenses of such employee shall be reimbursed to the Government by the centralized hub facility.

(13) When a Customs employee is assigned to an express consignment carrier facility for the purpose of processing express consignment shipments under part 128 of this chapter, the cost (including overtime) of the inspectional services provided by such employee shall be reimbursed to Customs by the express consignment carrier facility.

(14) When a Customs employee is assigned to provide Customs services at an airport or other facility under 19 U.S.C. 58b, the facility shall reimburse to the Government an amount equal to the salary and expenses of such employee (including overtime) plus any other expenses incurred in providing those Customs services at the facility.

(b) When a Customs employee is assigned to render services the nature of which is such that the private interest is required to reimburse the Government for his compensation and on the same assignment performs services for which compensation is not reimbursable, a charge shall be made to the private interest for the full compensation of the Customs employee unless the time devoted to each class of service can be clearly segregated.

(c) The charge for any service enumerated in this section for which expenses are required to be reimbursed shall include actual transportation expenses of a Customs employee within the port limits and any authorized

travel expenses of a Customs employee, including per diem, when the services are performed outside the port limits irrespective of whether the services are performed during a regular tour of duty or during a Customs overtime assignment. No charge shall be made for transportation expenses when a Customs employee is reporting to as a first daily assignment, or leaving from as a last daily assignment, a place within or outside the port limits where he is assigned to a regular tour of duty. No charge shall be made for transportation expenses within the port limits or travel expenses, including per diem, outside the port limits in connection with a Customs overtime assignment for which reimbursement of expenses is not covered by this section.

(d) *Computation charge for reimbursable services.* The charge to be made for the services of a Customs employee on a regular workday during his basic 40-hour workweek shall be computed at a rate per hour equal to 137 percent of the hourly rate of regular pay of the particular employee with an addition equal to any night pay differential actually payable under 5 U.S.C. 5545. The rate per hour equal to 137 percent of the hourly rate of regular pay is computed as follows:

## § 24.18

## 19 CFR Ch. I (4–1–99 Edition)

(1) The charge to be made for the reimbursable services of a Customs employee to perform on a holiday or outside the established basic workweek shall be the amount actually payable to the employee for such services under the Federal Employees Pay Act of 1945, as amended (5 U.S.C. 5542(a), 5546), or the Customs overtime laws (19 U.S.C. 267, 1451), or both, as the case may be. When such services are performed by an intermittent when-actually-employed employee, the charge for such services shall be computed at a rate per hour equal to 108 percent of the hourly rate of the regular pay of such employee to provide for reimbursement of the Government's contribution under the Federal Insurance Contributions Act, as amended (25 U.S.C. 3101, *et seq.*), and employee uniform allowance. The time charged shall include any time within the regular working hours of the employee required for travel between the duty assignment and the place where the employee is regularly employed excluding lunch periods, charged in multiples of 1 hour, any fractional part of an hour to be charged as 1 hour when the services are performed during the regularly scheduled tour of duty of the officer or between the hours of 8 a.m. and 5 p.m. on weekdays when the officer has no regularly scheduled tour of duty. In no case shall the charge be less than \$1.

(2) The necessary transportation expenses and any authorized per diem expenses of a Customs employee assigned to perform reimbursable services at a location at which he is not regularly assigned shall be reimbursed by the responsible party.

(3) When a Customs employee is regularly assigned to duty at more than one location, the charge for his compensation and transportation expenses in going from one location to another shall be equitably apportioned among the parties concerned. However, no charge shall be made for transportation expenses when a Customs employee is reporting to as a first assignment, or leaving from as a last assignment, a place where he is regularly assigned to duty.

(4) Upon a failure to pay such charges when due, or to comply with the applicable laws and regulations, the port di-

rector shall report the facts to the Accounting Services—Accounts Receivable, which shall take appropriate action to collect the charges.

(e) The reimbursable charge for customs overtime compensation shall be computed in accordance with § 24.16.

(f) *Medicare Compensation Costs.* In addition to other expenses and compensation chargeable to parties-in-interest as set forth in this section, such persons shall also be required to reimburse Customs in the amount of 1.35 percent of the reimbursable compensation expenses incurred. Such payment will reimburse Customs for its share of Medicare costs.

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 24.17, see the List of CFR Sections Affected in the Finding Aids section of this volume.

### **§ 24.18 Preclearance of air travelers in a foreign country; reimbursable cost.**

(a) Preclearance is the tentative examination and inspection of air travelers and their baggage at foreign places where U.S. Customs personnel are stationed for that purpose.

(b) At the request of an airline, travelers on a direct flight to the United States from a foreign place described in paragraph (a) of this section may be precleared prior to departure from such place. A charge based on the excess cost to Customs of providing preclearance services as defined in paragraph (c) of this section shall be made to the airline.

(c) The reimbursable excess cost is the difference between the cost of examining and inspecting air travelers and their baggage upon arrival in the United States assuming no preclearance was provided, and the cost of providing preclearance for air travelers at the place of departure. Such excess cost shall include all items attributable to the preclearance operation. This does not include the salary of personnel regularly assigned to a preclearance station other than approved salary differentials related to the foreign assignment and the salary of relief details made necessary by reason of the nature of the operation. In

addition, such cost shall include the following allowances and expenses:

- (1) Housing allowances;
- (2) Post of duty allowances;
- (3) Education allowances;
- (4) Transportation cost incident to the assignment to the foreign station and return, including transportation of family and household effects;
- (5) Home leave and associated transportation costs; and
- (6) Equipment, supplies and administrative costs including costs of supervising the preclearance installation.

(d) The reimbursable excess cost described in paragraph (c) of this section shall be determined for each preclearance installation. On the basis of the excess cost figure for each installation, the excess cost of providing preclearance service for a biweekly pay period shall be determined. The initial schedule of biweekly excess cost will be based on the actual excess cost for fiscal year 1969. Thereafter, a quarterly (ending with the pay period closely corresponding to June 30, September 30, December 31, and March 31) cost analysis will be conducted and the schedule of biweekly excess costs will be adjusted so that the current biweekly excess cost schedule will reflect the actual excess costs of the previous quarter. Such schedules of biweekly costs for each installation shall be published in the FEDERAL REGISTER. The biweekly excess cost in effect at an installation at the time the charge is made shall be used in calculating the prorated charge for preclearance service for each airline in accordance with paragraph (e) of this section.

(e) The charge to each airline for preclearance service shall be its prorated share of the applicable excess cost prorated to the aircraft receiving such services during the billing period on the following basis:

- (1) Five percent shall be distributed equally among the airlines serviced.
- (2) Ten percent shall be distributed proportionately as the number of clearances serviced bears to the total number of clearances.
- (3) Eighty-five percent shall be distributed proportionately as the number of passengers and/or crew serviced for each airline bears to the total number of passengers and/or crew serviced.

(f) Customs services for which overtime compensation is provided for by section 5 of the Act of February 13, 1911, as amended (19 U.S.C. 267), and the expenses recovered thereunder are governed by § 24.16 and are in no way affected by this section. (63 Stat. 290; 31 U.S.C. 483a)

### § 24.22 Fees for certain services.

(a) *Definitions.* For purposes of this section:

(1) The term *vessel* includes every description of watercraft or other contrivance used or capable of being used as a means of transportation on water but does not include any aircraft.

(2) The term *arrival* means arrival at a port of entry in the customs territory of the United States or at any place serviced by any such port of entry.

(3) The expression *calendar year* means the period from January 1 to December 31 of any particular year.

(4) The term *ferry* means any vessel which is being used to provide trans-

portation only between places that are no more than 300 miles apart and which is being used to transport only:

(i) Passengers, and/or

(ii) Vehicles, or railroad cars, which are being used, or have been used, in transporting passengers or goods.

(b) *Fee for arrival of certain commercial vessels.*

(1) *Vessels of 100 net tons or more.*

(i) *Fee.* Except as provided in paragraphs (b)(2) and (b)(4) of this section, a processing fee in the amount of \$397 shall be tendered by the master, licensed deck officer, or purser upon arrival of any commercial vessel of 100 net tons or more which is required to enter under § 4.3 of this chapter or upon arrival of any U.S.-flag vessel of 100 net tons or more proceeding coastwise under § 4.85 of this chapter. The fee shall be collected for each arrival regardless of the number of arrivals taking place in the course of a single voyage.

(ii) *Fee limitation.* No fee or portion thereof shall be collected under paragraph (b)(1)(i) of this section for the arrival of a vessel during any calendar year after a total of \$5,955 in fees has been paid under paragraphs (b)(1)(i) and (b)(2)(i) of this section for all arrivals of such vessel during such calendar year, provided that adequate proof of such total payment is submitted to Customs.

(2) *Barges and other bulk carriers from Canada or Mexico.*

(i) *Fee.* A processing fee of \$100 shall be tendered upon arrival of any barge or other bulk carrier which arrives from Canada or Mexico either in ballast or transporting only cargo laden in Canada or Mexico. The fee shall be collected for each arrival regardless of the number of arrivals taking place in the course of a single voyage. For purposes of this paragraph, the term “barge or other bulk carrier” means any vessel, other than a ferry, which is not self-propelled or which transports fungible goods that are not packaged in any form.

(ii) *Fee limitation.* No fee or portion thereof shall be collected under paragraph (b)(2)(i) of this section for the arrival of a barge or other bulk carrier during any calendar year after a total of \$1,500 in fees has been paid under

paragraphs (b)(1)(i) and (b)(2)(i) of this section for all arrivals of such vessel during such calendar year, provided that adequate proof of such total payment is submitted to Customs.

(3) *Prepayment.* The vessel operator, owner or agent may at any time prepay the maximum calendar year amount specified in paragraph (b)(1)(ii) or (b)(2)(ii) of this section or any remaining portion thereof if individual arrival fees have already been paid on the vessel for that calendar year. Prepayment may be made at a Customs port office or may be mailed to: U.S. Customs Service, Accounting Services, P.O. Box 68907, Indianapolis, Indiana 46268. In a case involving prepayment of the remaining portion of a maximum calendar year amount, certified copies of receipts (Customs Form 368 or 368A) issued for individual arrival fee payments during the calendar year shall accompany the payment. Where prepayment is made by mail, the payment shall be accompanied by a letter which sets forth the name of the vessel covered by the payment, the calendar year to which the payment applies, a return address, and any other information required under paragraph (i)(1) of this section.

(4) *Exceptions.* The following vessels are exempt from payment of the fees specified in paragraphs (b)(1) and (b)(2) of this section:

(i) Foreign passenger vessels making at least three trips a week from a port in the United States to the high seas and returning to the same U.S. port without having touched any foreign port or place, even though formal entry is still required;

(iii) Any government vessel for which no report of arrival or entry is required as provided in §4.5 of this chapter; and

(iv) A ferry.

(c) *Fee for arrival of a commercial truck.*

(1) *Fee.* The driver or other person in charge of a commercial truck shall, upon arrival, proceed to Customs and tender the sum of \$5 for the services provided. The fee shall not apply to any commercial truck which, at the time of arrival, is being transported by

any vessel other than a ferry. For purposes of this paragraph, the term “commercial truck” means any self-propelled vehicle, including an empty vehicle or a truck cab without a trailer, which is designed and used for the transportation of commercial merchandise or for the transportation of non-commercial merchandise on a for-hire basis.

(2) *Fee limitation.* No fee shall be collected under paragraph (c)(1) of this section for the arrival of a commercial truck during any calendar year once a prepayment of \$100 has been made and a decal has been affixed to the vehicle windshield as provided in paragraph (c)(3) of this section.

(3) *Prepayment.* The owner, agent or person in charge of a commercial truck may at any time prepay a fee of \$100 to cover all arrivals of such commercial truck during a calendar year or any remaining portion of a calendar year. Prepayment may be made at a Customs port office or by mail in accordance with paragraph (i)(1) of this section, and each prepayment shall be accompanied by a properly completed Customs Form 339, Annual User Fee Decal Request. Once the prepayment has been made under this paragraph, a decal will be issued for placement in the lower left hand corner of the vehicle windshield to show that the vehicle is exempt from payment of the fee for an individual arrival during the applicable calendar year or any remaining portion thereof.

(d) *Fee for arrival of a railroad car.*

(1) *Fee.* Except as provided in paragraph (d)(6) of this section, a fee of \$7.50 shall be charged for the arrival of each loaded or partially loaded passenger or commercial freight railroad car. The railroad company receiving a railroad car in interchange at a port of entry or, barring interchange, the company moving a car in line haul service into the customs territory of the United States, shall be responsible for payment of the fee. Payment of the fee shall be made in accordance with the procedures set forth in paragraph (d)(3) or (d)(4) of this section. For purposes of this paragraph, the term “railroad car” means any carrying vehicle, measured from coupler to coupler and designed to

operate on railroad tracks, other than a locomotive or a caboose.

(2) *Fee limitation.* No fee shall be collected under paragraph (d)(1) of this section for the arrival of a railroad car during any calendar year once a prepayment of \$100 has been made as provided in paragraph (d)(3) of this section, provided that adequate records are maintained to enable Customs to verify any such prepayment.

(3) *Prepayment.* As an alternative to the payment procedures set forth in paragraph (d)(4) of this section, a railroad company may at any time prepay a fee of \$100 to cover all arrivals of a railroad car during a calendar year or any remaining portion of a calendar year. Each prepayment, accompanied by a letter setting forth the railroad car number(s) covered by the payment, the calendar year to which the payment applies, a return address, and any additional information required under paragraph (i)(1) of this section, shall be mailed to: Accounting Services—Accounts Receivable, P.O. Box 68907, Indianapolis, Indiana 46268.

(4) *Statement filing and payment procedures.* (i) The Association of American Railroads (AAR), the National Railroad Passenger Corporation (AMTRAK), and any railroad company preferring to act individually, shall file monthly statements with Customs, and shall make payment of the arrival fees to Customs, in accordance with the procedures set forth in paragraphs (d)(4) (ii) and (i) of this section. Each monthly statement shall indicate:

(A) The number of railroad cars subject to the arrival fee during the relevant period;

(B) The number of such railroad cars pulled by each carrier; and

(C) The total processing fees due from each carrier for the relevant period.

(ii) AMTRAK and railroad companies acting individually shall file each monthly statement within 60 days after the end of the applicable calendar month, and the fees covered by each statement shall be remitted with the statement. Monthly statements prepared by the AAR on behalf of individual railroad companies shall be filed within 60 days after the end of the applicable calendar month, and each rail-

To permit certification, supporting evidence that the entity donating the cargo is a nonprofit organization or cooperative should be included along with supporting evidence that the cargo was intended for humanitarian or development assistance overseas. A description of the cargo listed in the shipping documents and a brief summary of the intended use of the goods, if such use is not reflected in the documents, are acceptable evidence for certification purposes. Copies of the Harbor Maintenance Fee Quarterly Summary Report, Customs Form 349, should be attached for each quarter that a refund is requested.

(ii) Each nonprofit organization or cooperative claiming the exemption under this subpart shall maintain documentation pertaining to the exemption for a period of 5 years. The documentation shall be made available for inspection by Customs in accordance

with the provisions of §§162.1a through 162.1i of this chapter.

(d) *Special rules*—(1) *Intraport*. The fee is not to be assessed on the mere movement of commercial cargo within a port.

(2) *Same vessel, same cargo*. If a fee is assessed when cargo is loaded on a vessel, the unloading of the same cargo from that vessel is not subject to the fee. If a fee is assessed when cargo is unloaded from a vessel, the reloading of the same cargo on that vessel is not subject to the fee.

(3) *De minimis for individual shipments*. The fee shall not be assessed on loadings or unloadings of cargo in which:

(i) *For imported cargo*: The shipment would be entitled to be entered under informal entry procedures as provided for in §143.21 of this chapter.

(ii) *For domestic cargo*: The value of the shipment does not exceed \$1,000.

(4) *De minimis for quarterly payments*. Quarterly payment is not required if the total value of all shipments for which a fee was assessed for the quarter does not exceed \$10,000.

(e) *Collections*—(1) *Domestic vessel movements*—(i) *Time and place of liability*. Subject to the exemptions and special rules of this section, when cargo is loaded on a commercial vessel at a port within the definition of this section to be transported between ports in the U.S. or is unloaded from a commercial vessel at a port within the definition of this section after having been transported between ports in the U.S., the shipper (the person or corporation who pays the freight) of that cargo is liable for the payment of the port use fee at the time of unloading. The fee will be imposed only once on a movement pursuant to paragraph (d)(2) of this section. The fee is to be based upon the value of the cargo as determined by standard commercial documentation where such documentation is available. Otherwise, the value is to be determined under 19 U.S.C. 1401a as if it were imported merchandise. The Vessel Operation Report (Army Corps of Engineers Form 3925) is to be completed and submitted to the Army Corps of Engineers in accordance with the procedures set forth in 33 CFR Ch. II, part 207. The shipper's name, either the internal revenue service or social secu-

rity number of the shipper and the tax exemption code (as it appears in the Vessel Operation Report instructions) claimed for the shipment are to be included on the Vessel Operation Report.

(ii) *Fee payment*. The shipper whose name appears on the Vessel Operation Report shall pay the accumulated fees on a quarterly basis in accordance with paragraph (f) of this section by mailing a check or money order payable to the U.S. Customs Service for all fees for which he is liable for the quarter and a Harbor Maintenance Fee Quarterly Summary Report, Customs Form 349, to U.S. Customs Service, P.O. Box 70915, Chicago, Illinois 60673-0915.

(2) *Import vessel movements*—(i) *Time and place of liability*. Subject to the exemptions and special rules of this section, when imported cargo is unloaded from a commercial vessel at a port within the definition of this section, and destined for either consumption, warehousing, or foreign trade zone admission, the importer of that cargo, or in the case of foreign trade zones, the person or corporation responsible for bringing merchandise into the zone, is liable for the payment of the port use fee at the time of unloading. The fee is based on the U.S. Customs appraised value of the shipment pursuant to 19 U.S.C. 1401a, the same basis as that used for duty payment. The fee shall be collected on all formal entries, including warehouse entries and temporary importation under bond entries, and admissions into foreign trade zones.

(ii) *Fee payment*. The port use fee on unloading of imported cargo shall be paid in accordance with the normal Customs collection procedures set forth in §§24.1 and 141.1 of this chapter, except as provided for merchandise admitted into foreign trade zones in paragraph (e)(3)(iii) of this section. The U.S. Customs Entry Summary Form (Customs Form 7501), is to be completed with the amount of the fee shown and identified on the form. The fee shall be paid by the importer by adding it to any normal duty, tax or fee payable at the time of formal entry processing.

If no other duty, tax, or fee is imposed on the shipment, and the fee exceeds \$3, a check or money order for the

amount of the fee shall be attached to the Customs entry forms submitted.

(iii) *Foreign trade zones.* In cases where imported cargo is unloaded from a commercial vessel at a port within the definition of this section and admitted into a foreign trade zone, the applicant for admission (the person or corporation responsible for bringing merchandise into the zone) who becomes liable for the fee at the time of unloading pursuant to paragraph (e)(3)(i) of this section, shall pay all fees for which he is liable on a quarterly basis in accordance with paragraph (f) of this section by mailing a check or money order payable to the U.S. Customs Service for all fees for the quarter and a Harbor Maintenance Fee Quarterly Summary Sheet, Customs Form 349, to U.S. Customs Service, P.O. Box 70915, Chicago, Illinois 60673–0915. Fees shall be paid for all shipments unloaded and admitted to the zone, or in the case of direct deliveries under §§ 146.39 and 146.40 of this chapter, unloaded and received in the zone under the bond of the foreign trade zone operator.

(3) *Passengers*—(i) *Time and place of liability.* Subject to the exemptions and special rules of this section, when a passenger boards or disembarks a commercial vessel at a port within the definition of this section, the operator of that vessel is liable for the payment of the port use fee. The fee is to be based upon the value of the actual charge for transportation paid by the passenger or on the prevailing charge for comparable service if no actual charge is paid. The vessel operator on each cruise is liable only once for the port use fee for each passenger.

(ii) *Fee payment.* The operator of the passenger-carrying vessel shall pay the accumulated fees on a quarterly basis in accordance with paragraph (f) of this section by mailing a check or money order payable to the U.S. Customs Service for all fees for which he is liable for the quarter and a Harbor Maintenance Fee Quarterly Summary Report, Customs Form 349.

(4) *Refund and supplemental payment.* Where a refund is requested or a supplemental payment is made, a Harbor Maintenance Fee Amended Quarterly Summary Report, Customs Form 350,

should be mailed to the U.S. Customs Service, P.O. Box 70915, Chicago, Illinois 60673–0915, along with a copy of the Harbor Maintenance Fee Quarterly Summary Report, Customs Form 349, for the quarter(s) in which the refund is requested or a supplemental payment is made.

(f) *Quarterly payments.* All quarterly payments required by this section must be received no later than 31 days after the close of the quarter being paid. Quarterly periods end on the last day of March, June, September, and December.

(g) *Maintenance of records.* Each importer, applicant for admission of cargo into a foreign trade zone, shipper and cruise vessel operator affected by this section shall maintain all such documentation necessary for Customs to verify the accuracy of fee computations and to otherwise determine compliance under the law. Such documentation shall be maintained for a period of 5 years from the date of fee calculation. The affected parties shall advise the Director, Accounting Services—Accounts Receivable, P.O. Box 68903, Indianapolis, Indiana 46268, of the name, address, and telephone number of a responsible officer who shall be able to verify any records required to be maintained under this paragraph. The Director of Accounting Services, shall be promptly notified of any changes in the identifying information submitted. The records shall be maintained and made available for inspection, copying, reproduction or other official use by Customs in accordance with the provisions of §§ 162.1a through 162.1i of this chapter.

(h) *Penalties/liquidated damages for failure to pay harbor maintenance fee and file summary sheet.* (1) *Amount of penalty or damages.* Any party (including the importer, or shipper) who fails to pay the harbor maintenance fee and file the summary sheet at the time specified by regulation shall incur a penalty equal to the amount of liquidated damages assessable for late filing of an entry summary pursuant to the provisions of § 142.15 of this chapter. An importer shall be liable for payment of liquidated damages under the basic importation and entry bond, for failure to

pay the harbor maintenance fee, as provided in such bond.

(2) *Application for relief.* The party shall follow the procedures set forth in part 171 of this chapter in filing an application for relief. Any application to cancel liquidated damages incurred shall be made in accordance with part 172 of this chapter.

(3) *Mitigation.* Any penalty assessed under this provision shall be mitigated in a manner consistent with guidelines published pursuant to the provisions of § 172.22(d)(1) of this chapter relating to cancellation of claims for liquidated damages for late filing of entry summaries. Any liquidated damages assessed under this provision shall be mitigated in a manner consistent with guidelines published by the authority of the Commissioner of Customs for cancellation of claims for untimely payment of estimated duties, taxes and charges.

(i) *Privacy Act notice.* Whenever an identification number is requested on the summary sheets provided for in paragraph (e) of this section, the disclosure of the social security number is mandatory when an internal revenue service number is not disclosed. Identification numbers are solicited under the authority of Executive Order 9397 and Pub. L. 99-662. The identification number provides unique identification of the party liable for the payment of the harbor maintenance fee. The number will be used to compare the information on the summary sheets with information submitted to the government on other forms required in the course of shipping or importing merchandise, which contain the identification number, *e.g.*, Vessel Operation Report, to verify that the information submitted is accurate and current. Failure to disclose an identification number may cause a penalty pursuant to paragraph (h) of this section. The above information is set forth pursuant to the Privacy Act of 1974 (Pub. L. 93-579).

#### § 24.25 Statement processing and Automated Clearinghouse.

(a) *Description.* Statement processing is a voluntary automated program for participants in the Automated Broker Interface (ABI), allowing the grouping of entry/entry summaries and entry summaries on a daily basis. The related duties, taxes and fees may be paid with a single payment. The preferred method of payment is by Automated Clearinghouse (ACH) debit or ACH credit, except where the importer of record has provided a separate check payable to the "U.S. Customs Service" for Customs charges (duties, taxes, or other debts owed Customs (see § 111.29(b) of this chapter)). A particular statement payment must be accomplished entirely through ACH or completely by check or cash. A mixing of payment methods for a single statement will not be accepted. ACH debit (see paragraph (b)(2) of this section) is an arrangement in which the filer electronically provides payment authorization for the Treasury-designated ACH processor to perform an electronic debit to the payer's bank account; ACH credit is described in § 24.26. The payment amount will then be automatically credited to the account of the Department of the Treasury. If a filer chooses to use statement processing for entries of quota-class merchandise and other special classes of merchandise designated by Customs Headquarters under § 142.13(c) of this chapter, he must also use statement processing as a normal course of business for the largest possible portion (see § 24.25(d)) of his eligible non-special class entries; further, he must use the ACH payment mechanism to pay all his ABI statements containing entries for quota-class merchandise. In no circumstance will check or cash be acceptable for payment of ABI statements containing entries for quota-class merchandise.

(b) *How to elect participation—(1) Statement processing.* An ABI filer must notify Customs in writing of the intention to utilize statement processing.

(2) *Automated Clearinghouse debit.* If an ABI filer pays his statements through ACH debit, rather than by check, he must provide to Customs the bank routing number and the bank account number for each account from

which ACH payments are to be electronically debited. Upon the determination by Customs that the ABI filer has the necessary software to participate and otherwise qualifies to participate in ACH, Customs shall assign a unique identifying payer's unit number to the participant and the Treasury-designated ACH processor. This unique number assigned by Customs will alert the ACH processor as to which bank and account to issue the electronic debit. If a client of a ABI filer opts to pay Customs charges from his own account through an ABI filer, the client must provide directly to Customs the bank transit routing number and the bank account number for each of his accounts from which ACH payments can be electronically debited. Customs will then assign a unique payer's unit number to each of his accounts and provide the assigned unit number directly to the client and the Treasury-designated ACH processor. The client would then provide the appropriate payer's unit number to his broker to pay his statements through ABI. It is the responsibility of the participant to ensure that all bank account information is accurate and that the correct unique payer's unit number is utilized for each ACH transaction.

(c) *Procedure for filer.* (1) The filer shall transmit entry/entry summary and entry summary data through ABI indicating whether payment for a particular entry summary will be by individual check or by using statement processing. If statement processing is indicated, the filer shall designate whether the entry summary is to be grouped by importer or broker, and shall provide a valid scheduled statement date (within 10 days of entry, but not a Saturday, Sunday or holiday).

(2) Customs shall provide a preliminary statement to the ABI filer on the scheduled statement date. The preliminary statement shall contain all entry/entry summaries and entry summaries scheduled for that statement date. The preliminary statement shall be printed by the filer, who will review the statement entries and the statement totals, assemble the required entry summaries as listed in the statement, and present them to Customs with the preliminary statement. This presentation must be

made within 10 working days after entry of the merchandise. If a filer elects to perform deletions from the preliminary statement (other than items related to special classes of merchandise provided for in §142.13(c) of this chapter), the filer shall notify Customs in such manner as designated by Customs Headquarters. Any entry number deleted from a statement may be paid by an individual check or scheduled for another statement by transmitting the entry summary data through ABI with a future payment date.

(3) The ABI filer using statement processing is responsible for ensuring that payment is made within 10 days of the entry of the related merchandise.

(4) When payments are made through ACH, Customs shall, upon acceptance of the ACH debit payment authorization or ACH credit payment, identify the preliminary statement as paid and shall post the appropriate amounts to the related entries. The final statement generally shall be available to the filer the day following the acceptance of the ACH payment; this final statement may be utilized as evidence that statement payment has occurred through an ACH transaction. In other instances, a cancelled check may serve as evidence of payment.

(d) *Choice of excluding certain entries from statement processing.* An ABI filer using statement processing, generally, has the right to inform Customs electronically whether he desires that a particular entry summary be paid by individual payment or through statement processing. If a filer opts to use statement processing for entry/entry summaries for quota-class and other special classes of merchandise defined in §142.13(c) of this chapter, he shall use statement processing in the normal course of business for the largest possible portion of his eligible non-special class entries also; further, he shall pay for these entry/entry summaries through ACH. If a filer opts to use statement processing and, therefore, ACH for entry/entry summaries for special classes of merchandise defined in §142.13(c) of this chapter, these entry/entry summaries cannot be deleted from a statement. A filer who excludes or deletes entries from the statement

process and ACH should be prepared to articulate a sound business reason why these exclusions or deletions have occurred. If Customs believes that a broker is using ACH for his quota-class entries and not using statement processing and ACH for the largest possible portion of his eligible non-special class entries, the ABI participant may be consulted by Customs as to why he has not used statement processing and ACH for certain entries. If Customs is not satisfied, after such consultation, that there were sound articulable business reasons for the exclusion or deletion of non-special class entries, Customs may disqualify the participant from using statement processing/ACH for quota-class entries.

(e) *Scheduled statement date.* Entry/entry summaries and entry summaries must be designated for statement processing within 10 working days after the date of entry. It is the responsibility of the ABI filer using statement processing to ensure that the elected scheduled statement date is within that 10-day timeframe. Customs will not warn the filer if the scheduled statement date given is late.

[T.D. 89-104, 54 FR 50497, Dec. 7, 1989, as amended by T.D. 98-51, 63 FR 29125, May 28, 1998]

#### § 24.26 Automated Clearinghouse credit.

(a) *Description.* Automated Clearinghouse (ACH) credit is an optional payment method that allows a payer to transmit statement processing payments (see § 24.25) or deferred tax payments (see § 24.4) or bill payments (see § 24.3) electronically, through its financial institution, directly to the Customs account maintained by the Department of the Treasury.

(b) *Enrollment procedure.* A payer interested in enrolling in the ACH credit program must indicate such interest by providing the following information to the Financial Management Services Center, U.S. Customs Service, 6026 Lakeside Boulevard, Indianapolis, Indiana 46278: Payer name and address; payer contact name(s); payer telephone number(s) and facsimile number; payer identification number (importer number or Social Security number or Customs assigned number); and 3-digit

filer code.

(c) *Routing and format instructions.* Following receipt of the enrollment information, the Financial Management Services Center will provide the payer with specific ACH credit routing and format instructions and will advise the payer that the following information must be provided to its financial institution when originating its payments: Company name; company contact person name and telephone number; company identification number (coded Internal Revenue Service employer identification number or DUNS number or Customs assigned number); company payment description; effective date; receiving company name; transaction code; Customs transit routing number and Customs account number; payment amount; payer identifier (importer number or Social Security number or Customs assigned number or filer code if the payer is a broker who is the importer of record); document number (daily statement number, entry or warehouse withdrawal number for a deferred tax payment, or bill number); payment type code; settlement date; and document payment amount.

(d) *Prenotification procedure.* Before effecting any payments of funds through the ACH credit process, the payer must follow a prenotification procedure, involving a non-funds message transmission through its financial institution to the Customs account, in order to validate the routing instructions. When the routing instructions are validated, the Financial Management Services Center will notify the payer that the prenotification transaction has been accepted and that payments may be originated on or after the tenth calendar day following the prenotification acceptance date.

(e) *Payment origination procedures.* (1) *General.* Once the payer has received authorization to begin originating ACH credit payments under paragraph (d) of this section, the payer, through its financial institution, must originate each payment transaction to the Customs account no later than one business day prior to the payment due date. The payer's account will be charged by the financial institution on the settlement date identified in the

transaction. The payer is responsible for following the routing and format instructions provided by Customs and for ensuring the accuracy of the information when originating each payment. Improperly formatted or erroneous information provided by the payer will delay the prompt posting of the payment to the receivable.

(2) *Procedures for daily statement filers.* The procedures set forth in § 24.25(c) for ABI filers using statement processing remain applicable when payment is effected through ACH credit. However, when the ABI filer is a customs broker who is not the importer of record and thus is not responsible for the payment, the ABI filer must provide the statement number and statement amount to the importer of record at least one business day prior to the due date so that the importer of record can originate the payment.

(f) *Date of collection.* The date that the ACH credit payment transaction is received by Customs shall be the collection date which equates to the settlement date. The appropriate daily statement or entry or warehouse withdrawal or bill shall be identified as paid as of that collection date.

(g) *Removal from the ACH credit program.* If a payer repeatedly provides improperly formatted or erroneous information when originating ACH credit payments, the Financial Management Services Center may advise the payer in writing to refrain from using ACH credit and to submit its payments by bank draft or check pursuant to § 24.1 or, in the case of daily statement payments, to use the ACH debit payment method under § 24.25.

**§ 24.32 Claims; unpaid compensation of deceased employees and death benefits.**

(a) A claim made by a designated beneficiary or a surviving spouse for unpaid compensation due an officer or employee at the time of his death shall be executed on standard Form 1153, Claim of Designated Beneficiary and/or Surviving Spouse for Unpaid Compensation of Deceased Civilian Employee. A claim made by anyone other than a designated beneficiary or surviving spouse for unpaid compensation

due an officer or employee at the time of his death shall be executed on standard Form 1155, Claim for Unpaid Compensation of Deceased Civilian Employee. The claims shall be forwarded to the Customs office where the deceased was employed.

(b) Claims for death benefits, either in the form of an annuity or lump-sum payment of the amount to the credit of the deceased officer or employee in the Retirement and Disability Fund shall be executed on standard Form 100, Application for Death Benefit, and forwarded together with a certified copy of the public record of death directly to the Office of Personnel Management, Washington, DC 20415.

**§ 24.34 Vouchers; vendors' bills of sale; invoices.**

(a) Vouchers or invoices for transportation and related services which are intended for payment from official funds shall contain the following certification signed by the claimant:

I certify that the above bill is correct and just and that payment has not been received.

Vouchers, vendors' bills of sale, or invoices for purchases or services other than personal do not require the foregoing certification.

(b) Every voucher shall be in the name of the person or persons furnishing the service or supplies, except in the case of a service or supplies paid for in an emergency by a Customs officer or employee, in which case the voucher may be in the name of the officer or employee who made the payment.

(c) The signature of a claimant made by a mark shall be attested in each case by a disinterested witness.

(d) The dates appearing on vouchers and on receipts filed in support thereof shall always be the actual dates of the transactions recorded or action taken thereon. As many copies in memorandum form, duly authenticated if desired, may be prepared as administrative or other requirements demand.

(e) When an erasure, interlineation, or change of any kind is made in a voucher after it has been certified by the claimant, such correction or

change shall be initialed and dated by the claimant.

(f)(1) Vouchers for passenger transportation furnished Customs officers or employees on Government transportation requests, standard Form 1169, and vouchers for transportation of freight and express furnished on Government bills of lading, standard Form 1103, issued by Customs officers or employees shall be rendered on Public Voucher for Transportation Charges, standard Form 1171 or 1113, respectively, to the Customs office to be billed as indicated on the transportation request or bill of lading.

(2) Charges for freight or express must not be included on the same vouchers with charges for passenger transportation. The words "Passenger," "Freight," or "Express," as the case may be, should be printed or otherwise placed by the carrier immediately above the title of the voucher form. Original Government bills of lading, standard Form 1103, or transportation requests, standard Form 1169, or certificates in lieu thereof, standard Forms 1108 or 1172, respectively, shall be attached to these vouchers.

#### **§ 24.36 Refunds of excessive duties, taxes, etc.**

(a) When it is found on liquidation or reliquidation of an entry that a refund of excessive duties or taxes, or both, is due, a refund shall be prepared in the name of the person to whom the refund is due, as determined by paragraphs (b) and (c) of this section. If an authority to mail checks to someone other than the payee, Customs Form 4811, is on file, the address of the payee shall be shown as in care of the address of the authorized persons. If a power of attorney is on file, the address of the payee may be shown as in care of the address of such attorney, if requested. A Form 4811 received by Customs will not be effective if a Customs transaction requiring the use of the owner's importer number has not been made within 3 years from the date the Form 4811 was filed or if there is no unliquidated entry on file to which such number is to be associated.

(b) Refunds of excessive duties or taxes shall be certified for payment to the importer of record unless a trans-

feree of the right to withdraw merchandise from bonded warehouse is entitled to receive the refund under section 557(b), Tariff Act of 1930, as amended, or an owner's declaration has been filed in accordance with section 485(d), Tariff Act of 1930, or a surety submits evidence of payment to Customs, upon default of the principal, of amounts previously determined to be due on the same entry or transaction. The certification of a refund for payment to a nominal consignee may be made prior to the expiration of the 90-day period within which an owner's declaration may be filed as prescribed in section 485(d) of the Tariff Act, provided the nominal consignee waives in writing his right to file such declaration. If an owner's declaration has been duly filed, the refund shall be certified for payment to the actual owner who executed the declaration, except that, irrespective of whether an owner's declaration has been filed, refunds shall be certified for payment to a transferee provided for in section 557(b), Tariff Act of 1930, as amended, if the moneys with respect to which the refund was allowed were paid by such transferee. If a surety submits evidence of payment to Customs, upon default of the principal, for an amount previously determined to be due on an entry or transaction the refund shall be certified to that surety up to the amount paid by it or shall be applied to other obligations of the surety.

(c) If the nominal consignee has become bankrupt, refunds of duties or internal revenue taxes on merchandise entered in the name of such nominal consignee for the account of the actual owner shall be withheld from payment pending the receipt of a claim therefor and the establishment of rights thereto, unless the declaration of the actual owner has been filed with the port director under section 485(d), Tariff Act of 1930.

(d) The authority of port directors to make refunds pursuant to paragraphs (a), (b), and (c) of this section of excessive deposits of alcohol or tobacco taxes, as defined in section 6423(e)(1), Internal Revenue Code of 1954 (26 U.S.C. 6423(e)(1)), is confined to cases of the types which are excepted from the application of section 6423, Internal

## § 24.70

## 19 CFR Ch. I (4–1–99 Edition)

Revenue Code of 1954 (26 U.S.C. 6423). The excepted types of cases and, therefore, the types in which the port director is authorized to make refunds of such taxes are those in which:

(1) The tax was paid or collected on an article imported for the personal or household use of the importer;

(2) The refund is made pursuant to provisions of laws and regulations for drawback;

(3) The tax was paid or collected on an imported article withdrawn from the market, returned to bond, or lost or destroyed, when any law expressly provides for refund in such case;

(4) The tax was paid or collected on an imported article which has been lost, where a suit or proceeding was instituted before June 15, 1957;

(5) The refund of tax is pursuant to a claim based solely on errors of computation of the quantity of the imported article, or on mathematical errors in computation of the tax due;

(6) The tax was paid or collected on an imported article seized and forfeited, or destroyed, as contraband;

(7) The tax was paid or collected on an imported article refused admission to Customs territory and exported or destroyed in accordance with section 558, Tariff Act of 1930, as amended;

(8) The refund of tax is pursuant to a reliquidation of an entry under section 520(c)(1), Tariff Act of 1930, as amended, and does not involve a rate of tax applicable to an imported article; or

(9) The tax was paid or collected on a greater quantity of imported articles than that actually imported and the fact of the deficiency is established to the port directors' satisfaction before liquidation of the entry becomes final.

(e) In any instance in which a refund of an alcohol or tobacco tax is not of a type covered by paragraph (d) of this section the following procedure shall apply:

(1) The port director shall issue a notice of refund for duty only and shall place the following statement on the notice of refund issued for duty: "Claim or refund of any overpayment of internal revenue tax on this entry must be executed and filed with the assistant regional commissioner (alcohol, tobacco and firearms) of the internal revenue region in which the claimant

is located, in accordance with internal revenue regulations (Title 26 of the Code of Federal Regulations)." On request of the claimant, the port director shall issue a certified statement on Customs letterhead identifying the entry, showing the amount of internal revenue tax deposited with respect to each entry for which a claim on internal revenue Form 843 is to be made, and showing the date of issuance of the notice of refund of duty.

(2) The claim shall be executed on internal revenue Form 843 (original only) which may be procured from offices of the Internal Revenue Service and shall be filed with the assistant regional commissioner (alcohol, tobacco and firearms) of the internal revenue region in which the claimant is located. The certified statement shall be attached to and filed in support of such claim which may include refunds under more than one entry but shall be limited to refunds under entries filed at the same port and the same internal revenue region. The data to be shown on the claim shall be as prescribed in internal revenue regulations, with the exception that any data on the certified statement also required to be shown in the claim need not be restated in the claim.

(3) The date of allowance of refund or credit in respect of such tax for the purposes of section 6407, Internal Revenue Code of 1954 (26 U.S.C. 6407) shall be that date on which a claim is perfected and the refund is authorized for scheduling under the applicable internal revenue regulations.

### § 24.70 Claims; deceased or incompetent public creditors.

(a) Claims for amounts due individual deceased public creditors of the United States (except civilian officers and employees subject to the provisions of section 61f–61k, Title 5, United States Code), should be made on standard Form No. 1055—Revised. Such claims include claims for payments due deceased contractors for articles furnished or services performed, and

## United States Customs Service, Treasury

## § 24.73

claims for payments due deceased importers or owners of merchandise on account of refunds of excessive duties, or taxes, or for payment of drawback, etc. Claims for payment of Government checks drawn on the Treasurer of the United States or other authorized Government depositary to the order of such public creditors, which cannot be paid because of the death of the payee, should be stated on standard Form 1055—Revised. Information should be furnished regarding the disposition of these checks in case they are not in possession of the claimant, otherwise they should accompany the claim.

(b) No form is prescribed for use of a guardian or committee of an estate of an incompetent in making claim for sums due from the United States. Such guardian or committee may submit in letter form, over his address and signature, an application for amounts due an estate of an incompetent, setting forth the incompetent's connection with the United States Customs Service. This application should be supported by a short certificate of the court showing the appointment and qualification of the claimant as guardian or committee. In case the total amount due the estate of the incompetent is small, and no guardian or committee of the estate has been or will be appointed, the application may be submitted by the person or persons having care or custody of the incompetent, or by close relatives who will hold any amount found due for the use and benefit of the incompetent. Applications for recurring payments need not be accompanied by an additional certificate of the court, but should be supported by a statement that the appointment is still in full force and effect. All Government checks drawn on the Treasurer of the United States or other authorized Government depositary to the order of individuals which cannot be paid because of incompetency of the payee should accompany the claim, otherwise an explanation should be given as to the disposition of the check.

(c) Claims for payments due deceased or incompetent contractors should be submitted to the Customs field officer at whose order the articles were furnished or services performed. Claims

for refunds of excessive duties, or taxes, or for payment of drawback and other similar claims due deceased or incompetent public creditors shall be submitted to the port director. The Customs field officer may grant necessary assistance to claimants to insure proper execution of standard Form 1055—Revised in the case of deceased public creditors, and in the case of incompetent public creditors to insure submission of the application in proper form. The port director shall settle the claim unless there is a doubtful question of fact or law, in which case the claim shall be forwarded to the Accounting Services Division, Accounts Receivable Group, Indianapolis, Indiana, with originals or certified copies of any necessary documents and with an appropriate report and recommendation.

When an importer of record or other party has a judgment or other claim allowed by legal authority against the United States, and he is indebted to the United States, either as principal or surety, for an amount which is legally fixed and undisputed, the port director shall set off so much of the judgment or other claim as will equal the amount of the debt due the Government.

## PART 54—CERTAIN IMPORTATIONS TEMPORARILY FREE OF DUTY

METAL ARTICLES IMPORTED TO BE USED IN REMANUFACTURE BY MELTING, OR TO BE PROCESSED BY SHREDDING, SHEARING, COMPACTING, OR SIMILAR PROCESSING WHICH RENDERS THEM FIT ONLY FOR THE RECOVERY OF THE METAL CONTENT

Sec.

54.5 Scope of exemptions; nondeposit of estimated duty.

54.6 Proof of intent; bond; proof of use; liquidation.

AUTHORITY: 19 U.S.C. 66, 1202 (General Note 20, Section XV, Note 5, Harmonized Tariff Schedule of the United States), 1623, 1624.

METAL ARTICLES IMPORTED TO BE USED IN REMANUFACTURE BY MELTING, OR TO BE PROCESSED BY SHREDDING, SHEARING, COMPACTING, OR SIMILAR PROCESSING WHICH RENDERS THEM FIT ONLY FOR THE RECOVERY OF THE METAL CONTENT

### §54.5 Scope of exemptions; nondeposit of estimated duty.

(a) Except as otherwise provided in this section, articles predominating by weight of metal to be used in remanufacture by melting, or to be processed by shredding, shearing, compacting, or similar processing which renders them fit only for the recovery of the metal content, and actually so used, shall be entitled to free entry upon compliance with §54.6, if entered, or withdrawn from warehouse for consumption, during the effective period of subheadings 9817.00.80 and 9817.00.90, Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202). This provision does not apply to:

- (1) Articles of lead, zinc, or tungsten;
- (2) Metal-bearing materials provided for in section VI, Chapter 26 or subheading 8548.10, HTSUS; or
- (3) Unwrought metal provided for in Section XV, HTSUS."

(b) No deposit of estimated duty shall be required upon the entry, or withdrawal from warehouse for consumption, of the articles described in paragraph (a) of this section if the port director is satisfied at the time of entry, or withdrawal, by written declaration of the importer that the merchandise is being imported to be used in remanufacture by melting, or to be processed

by shredding, shearing, compacting, or similar processing which renders it fit only for the recovery of the metal content.

[T.D. 80-151, 45 FR 38041, June 6, 1980, as amended by T.D. 87-75, 52 FR 20067, May 29, 1987; T.D. 89-1, 53 FR 51254, Dec. 21, 1988; T.D. 98-4, 62 FR 68165, Dec. 31, 1997]

### §54.6 Proof of intent; bond; proof of use; liquidation.

Articles predominating by weight of metal, described in §54.5(a) shall be admitted free of duty upon compliance with the following conditions:

(a) There shall be filed in connection with the entry a statement of the importer consistent with the requirements of §10.134 of this chapter.

(b) If the articles are entered for consumption or warehouse, a bond shall be filed on Customs Form 301, containing the bond conditions set forth in §113.62 of this chapter. Withdrawals from warehouse shall be made on Customs Form 7501. The liquidation of the consumption or warehouse entry shall be suspended pending proof of use or other disposition of the articles within the time prescribed in paragraph (c) of this section.

(c) Within 3 years from the date of entry, or withdrawal from warehouse for consumption, the importer shall submit to the director of the port of entry, a statement from the superintendent or manager of the plant at which the articles were used in remanufacture by melting, or were processed by shredding, shearing, compacting, or similar processing which rendered them fit only for the recovery of the metal content, showing:

- (1) The name and location of the plant;
- (2) The entry number, date, and port of entry (if the person making the statement is not in possession of this information, a reference to invoices, purchase orders, or other documents which will identify the shipment with the entry may be substituted);
- (3) The date or inclusive dates of the remanufacture or processing of the articles; and
- (4) A description of the remanufacture or processing in sufficient detail to enable the port director to determine whether it constituted a use in

remanufacture by melting, or processing by shredding, shearing, compacting, or similar processing which rendered the articles fit only for the recovery of the metal content. In appropriate cases, the remanufacture or processing of the articles covered by more than one entry may be included in one statement. The statement shall be based on adequate and carefully kept plant and import records which shall be available during normal business hours to any Customs officer. The importer and plant manager shall maintain the import and plant records for 5 years from the date of the related entry of the merchandise. The burden shall be on the importer or plant manager to keep these records so that the claim of actual use can be established readily.

(d) If satisfactory proof of use of the articles in remanufacture by melting, or in processing by shredding, shearing, compacting, or similar processing which rendered them fit only for the recovery of the metal content, is furnished within the prescribed time, the entry shall be liquidated without the assessment of duty on the covered articles. If proof is not filed within 3 years from the date of entry, or withdrawal from warehouse for consumption, or the use does not warrant the classification claimed, the entry shall be liquidated without any exemption from duty under subheading 9817.00.80 or 9817.00.90, HTSUS.

As used in this section, the phrase “in connection with the entry” means any time before liquidation of the entry or within the period during which a reliquidation may be completed (§113.43(c)). Therefore, a claim for free entry under subheading 9817.00.80 or 9817.00.90, HTSUS, supported by a statement of intent may be filed at any time before liquidation of the entry or within the period during which a valid reliquidation may be completed.

### § 101.1 Definitions.

As used in this chapter, the following terms shall have the meanings indicated unless either the context in which they are used requires a different meaning or a different definition is prescribed for a particular part or portion thereof:

*Customs station.* A “Customs station” is any place, other than a port of entry, at which Customs officers or employees are stationed, under the authority contained in article IX of the President’s

## § 101.1

## 19 CFR Ch. I (4-1-99 Edition)

Message of March 3, 1913 (T.D. 33249), to enter and clear vessels, accept entries of merchandise, collect duties, and enforce the various provisions of the Customs and navigation laws of the United States.

*Customs territory of the United States.* “Customs territory of the United States” includes only the States, the District of Columbia, and Puerto Rico.

*Date of entry.* The “date of entry” or “time of entry” of imported merchandise shall be the effective time of entry of such merchandise, as defined in § 141.68 of this chapter.

*Date of exportation.* “Date of exportation” or “time of exportation” shall be as defined in § 152.1(c) of this chapter.

*Date of importation.* “Date of importation” means, in the case of merchandise imported otherwise than by vessel, the date on which the merchandise arrives within the Customs territory of the United States. In the case of merchandise imported by vessel, “date of importation” means the date on which the vessel arrives within the limits of a port in the United States with intent then and there to unlade such merchandise.

*Duties.* “Duties” means Customs duties and any internal revenue taxes which attach upon importation.

*Entry or withdrawal for consumption.* “Entry or withdrawal for consumption” means entry for consumption or withdrawal from warehouse for consumption.

*Exportation.* “Exportation” means a severance of goods from the mass of things belonging to this country with the intention of uniting them to the mass of things belonging to some foreign country. The shipment of merchandise abroad with the intention of returning it to the United States with a design to circumvent provisions of restriction or limitation in the tariff laws or to secure a benefit accruing to imported merchandise is not an exportation. Merchandise of foreign origin returned from abroad under these circumstances is dutiable according to its nature, weight, and value at the time of its original arrival in this country.

*Importer.* “Importer” means the person primarily liable for the payment of any duties on the merchandise, or an

authorized agent acting on his behalf. The importer may be:

- (1) The consignee, or
- (2) The importer of record, or
- (3) The actual owner of the merchandise, if an actual owner’s declaration and superseding bond has been filed in accordance with § 141.20 of this chapter, or
- (4) The transferee of the merchandise, if the right to withdraw merchandise in a bonded warehouse has been transferred in accordance with subpart C of part 144 of this chapter.

*Port and port of entry.* The terms “port” and “port of entry” refer to any place designated by Executive Order of the President, by order of the Secretary of the Treasury, or by Act of Congress, at which a Customs officer is authorized to accept entries of merchandise to collect duties, and to enforce the various provisions of the Customs and navigation laws. The terms “port” and “port of entry” incorporate the geographical area under the jurisdiction of a port director. (The Customs ports in the Virgin Islands, although under the jurisdiction of the Secretary of the Treasury, have their own Customs laws (48 U.S.C. 1406(i)). These ports, therefore, are outside the Customs territory of the United States and the ports thereof are not “ports of entry” within the meaning of these regulations).

*Principal field officer.* A “principal field officer” is an officer in the field service whose immediate supervisor is located at Customs Service Headquarters.

*Service port.* The term “service port” refers to a Customs location having a full range of cargo processing functions, including inspections, entry, collections, and verification.

*Shipment.* “Shipment” means the merchandise described on the bill of lading or other document used to file or support entry, or in the oral declaration when applicable.

## § 101.3

### § 101.2 Authority of Customs officers.

(a) *Supremacy of delegated authority.* Action taken by any person pursuant to authority delegated to him by the Secretary of the Treasury, whether directly or by subdelegation, shall be valid despite the existence of any statute or regulation, including any provision of this chapter, which provides that such action shall be taken by some other person. Any person acting under such delegated authority shall be deemed to have complied with any statute or regulation which provides or indicates that it shall be the duty of some other person to perform such action.

(b) *Consolidation of functions.* Any reorganization of the Customs Service or consolidation of the functions of two or more persons into one office which results in the failure of a designated Customs officer to perform an action required by statute or regulation, shall not invalidate the performance of that action by any other Customs officer.

(c) *Customs supervision.* Whenever anything is required by the regulations in this chapter or by any provision of the customs or navigation laws to be done or maintained under the supervision of Customs officers, such supervision shall be carried out as prescribed in the regulations of this chapter or by instructions from the Secretary of the Treasury or the Commissioner of Customs in particular cases. In the absence of a governing regulation or instruction, supervision shall be direct and continuous or by such occasional verification as the principal Customs field officer shall direct if such officer shall determine that less intensive su-

pervision will ensure proper enforcement of the law and protection of the revenue. Nothing in this section shall be deemed to warrant any failure to direct and furnish required supervision or to excuse any failure of a party in interest to comply with prescribed procedures for obtaining any required supervision.

(b) *List of Ports of Entry and Service Ports.* The following is a list of Customs Ports of Entry and Service Ports. (1) The good is wholly obtained or produced;

(2) The good is produced exclusively from domestic materials; or

(b) Except for a good that is specifically described in the Harmonized System as a set, or is classified as a set pursuant to General Rule of Interpretation 3, where the country of origin cannot be determined under paragraph (a) of this section:

(1) The country of origin of the good is the country or countries of origin of the single material that imparts the essential character to the good, or

(2) If the material that imparts the essential character to the good is fungible, has been commingled, and direct physical identification of the origin of the commingled material is not practical, the country or countries of origin may be determined on the basis of an inventory management method provided under the appendix to part 181 of this chapter.

(c) Where the country of origin cannot be determined under paragraph (a) or (b) of this section and the good is specifically described in the Harmonized System as a set or mixture, or classified as a set, mixture or composite good pursuant to General Rule of Interpretation 3, the country of origin of the good is the country or countries of origin of all materials that merit equal consideration for determining the essential character of the good.

(d) Where the country of origin of a good cannot be determined under paragraph (a), (b) or (c) of this section, the country of origin of the good shall be determined as follows:

(1) If the good was produced only as a result of minor processing, the country of origin of the good is the country or countries of origin of each material that merits equal consideration for determining the essential character of the good;

(2) If the good was produced by simple assembly and the assembled parts that merit equal consideration for determining the essential character of the good are from the same country, the country of origin of the good is the country of origin of those parts; or

(3) If the country of origin of the good cannot be determined under paragraph (d)(1) or (d)(2) of this section, the country of origin of the good is the last country in which the good underwent production.

## § 102.15

foreign materials that do not undergo the applicable change in tariff classification set out in § 102.20 or satisfy the other applicable requirements of that section when incorporated into a good shall be disregarded in determining the country of origin of the good if the value of those materials is no more than 7 percent of the value of the good or 10 percent of the value of a good of Chapter 22, Harmonized System.

(b) Paragraph (a) of this section does not apply to a foreign material incorporated in a good provided for in Chapter 1, 2, 3, 4, 7, 8, 11, 12, 15, 17, or 20 of the Harmonized System.

(c) Foreign components or materials that do not undergo the applicable change in tariff classification set out in § 102.21 or satisfy the other applicable requirements of that section when incorporated into a textile or apparel product covered by that section shall be disregarded in determining the country of origin of the good if the total weight of those components or materials is not more than 7 percent of the total weight of the good.

## 19 CFR Ch. I (4-1-99 Edition)

any other applicable requirements of those sections merely by reason of one or more of the following:

(a) A change in end-use;

(b) Dismantling or disassembly;

(c) Simple packing, repacking or retail packaging without more than minor processing;

(d) Mere dilution with water or another substance that does not materially alter the characteristics of the material; or

[T.D. 96-48, 61 FR 28956, June 6, 1996]

## § 102.18 Rules of interpretation.

(a) When General Rule of Interpretation (GRI) 2(a) is referred to in § 102.20 as an exception to an allowed change in tariff classification, this means that such change will not be acceptable for purposes of that section if the change results from the assembly of parts into an incomplete or unfinished good which is classifiable in the same manner as a complete or finished good pursuant to GRI 2(a).

(b) (1) For purposes of identifying the material that imparts the essential character to a good under § 102.11, the only materials that shall be taken into consideration are those domestic or foreign materials that are classified in a tariff provision from which a change in tariff classification is not allowed under the § 102.20 specific rule or other requirements applicable to the good. For purposes of this paragraph (b)(1):

(i) The materials to be considered must be classified in a tariff provision from which a change in tariff classification is not allowed under the specific rule or other requirements applicable to the good under consideration. For example, in the case of a good classified in HTSUS subheading 8607.11 (the rule for which specifies a change to subheading 8607.11 from any other subheading, except from subheading 8607.12, and except from subheading 8607.19 when that change is pursuant to GRI 2(a)), the only materials that may

be considered for purposes of identifying the materials that impart the essential character to the good are those that are classified in subheadings 8607.11, 8607.12 and, if the tariff shift is pursuant to GRI 2(a), 8607.19;

(ii) Materials that may be considered include materials produced by the producer of the good and incorporated in the good. For example, if a producer of a good purchases raw materials and converts those raw materials into a component that is incorporated in the good, that component is a material that may be considered for purposes of identifying the materials that impart the essential character to the good, provided that the component is classified in a tariff provision from which a change in tariff classification is not allowed under the specific rule or other requirements applicable to the good; and

(iii) If there is only one material that is classified in a tariff provision from which a change in tariff classification is not allowed under the § 102.20 specific rule or other requirements applicable to the good, then that material will represent the single material that imparts the essential character to the good under § 102.11.

(2) For purposes of determining which one of two or more materials described in paragraph (b)(1) of this section imparts the essential character to a good under § 102.11, various factors may be examined depending upon the type of good involved. These factors include, but are not limited to, the following:

(i) The nature of each material, such as its bulk, quantity, weight or value; and

(ii) The role of each material in relation to the use of the good.

[T.D. 96-48, 61 FR 28957, June 6, 1996]

#### § 102.19 NAFTA preference override.

(a) Except in the case of goods covered by paragraph (b) of this section, if a good which is originating within the meaning of § 181.1(q) of this chapter is not determined under § 102.11(a) or (b) or § 102.21 to be a good of a single NAFTA country, the country of origin of such good is the last NAFTA country in which that good underwent production other than minor processing, provided that a Certificate of Origin (see § 181.11 of this chapter) has been completed and signed for the good.

(b) If, under any other provision of this part, the country of origin of a good which is originating within the meaning of § 181.1(q) of this chapter is determined to be the United States and that good has been exported from, and returned to, the United States after having been advanced in value or improved in condition in another NAFTA country, the country of origin of such good for Customs duty purposes is the last NAFTA country in which that good was advanced in value or improved in condition before its return to the United States.

[T.D. 96-48, 61 FR 28957, June 6, 1996]

#### § 102.20 Specific rules by tariff classification.

The following rules are the rules specified in § 102.11(a)(3) and other sections of this part. Where a rule under this section permits a change to a subheading from another subheading of the same heading, the rule shall be satisfied only if the change is from a subheading of the same level specified in the rule.

**Notes:** 1. Chemical reaction origin rule—

Any good of Chapters 28, 29, 31, 32 or 38, except a good of heading 3823, that is the product of a chemical reaction shall be considered to be a good of the country in which the reaction occurred.

A chemical reaction is defined as a process in which chemical bonds in molecules are broken and new chemical bonds are formed between the fragmented molecules and/or added elements so that one or more of the original bonds no longer link the same chemical element/s or functional group/s.

Notwithstanding any of the line-by-line rules, the “chemical reaction” rule may be applied to any good classified in the above chapters.

2. Separation prohibition—

A foreign material/component will not be deemed to have satisfied all applicable requirements of these rules by reason of a change from one classification to another merely as the result of the separation of one or more individual materials or components from a man-made mixture unless the isolated material/component, itself, also underwent a chemical reaction.
