

CODE OF FEDERAL REGULATIONS

Title 26

Internal Revenue

Part 1 (§§ 1.140 to 1.169)

Revised as of April 1, 2022

Containing a codification of documents
of general applicability and future effect

As of April 1, 2022

Published by the Office of the Federal Register
National Archives and Records Administration
as a Special Edition of the Federal Register

U.S. GOVERNMENT OFFICIAL EDITION NOTICE

Legal Status and Use of Seals and Logos

The seal of the National Archives and Records Administration (NARA) authenticates the Code of Federal Regulations (CFR) as the official codification of Federal regulations established under the Federal Register Act. Under the provisions of 44 U.S.C. 1507, the contents of the CFR, a special edition of the Federal Register, shall be judicially noticed. The CFR is prima facie evidence of the original documents published in the Federal Register (44 U.S.C. 1510).

It is prohibited to use NARA's official seal and the stylized Code of Federal Regulations logo on any republication of this material without the express, written permission of the Archivist of the United States or the Archivist's designee. Any person using NARA's official seals and logos in a manner inconsistent with the provisions of 36 CFR part 1200 is subject to the penalties specified in 18 U.S.C. 506, 701, and 1017.

Use of ISBN Prefix

This is the Official U.S. Government edition of this publication and is herein identified to certify its authenticity. Use of the 0-16 ISBN prefix is for U.S. Government Publishing Office Official Editions only. The Superintendent of Documents of the U.S. Government Publishing Office requests that any reprinted edition clearly be labeled as a copy of the authentic work with a new ISBN.

*To cite the regulations in
this volume use title,
part and section num-
ber. Thus, 26 CFR
1.141-0 refers to title 26,
part 1, section 141-0.*

Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16.....	as of January 1
Title 17 through Title 27.....	as of April 1
Title 28 through Title 41.....	as of July 1
Title 42 through Title 50.....	as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, April 1, 2022), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.

Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a “List of CFR Sections Affected” is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

“[RESERVED]” TERMINOLOGY

The term “[Reserved]” is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a “[Reserved]” location at any time. Occasionally “[Reserved]” is used editorially to indicate that a portion of the CFR was left vacant and not dropped in error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

- (a) The incorporation will substantially reduce the volume of material published in the Federal Register.
- (b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.
- (c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-741-6000 or write to the Director, Office of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001 or e-mail fedreg.info@nara.gov.

SALES

The Government Publishing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call toll-free, 866-512-1800, or DC area, 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2104, 24 hours a day. For payment by check, write to: US Government Publishing Office – New Orders, P.O. Box 979050, St. Louis, MO 63197-9000.

ELECTRONIC SERVICES

The full text of the Code of Federal Regulations, the LSA (List of CFR Sections Affected), The United States Government Manual, the Federal Register, Public Laws, Public Papers of the Presidents of the United States, Compilation of Presidential Documents and the Privacy Act Compilation are available in electronic format via www.govinfo.gov. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800, or 866-512-1800 (toll-free). E-mail, ContactCenter@gpo.gov.

The Office of the Federal Register also offers a free service on the National Archives and Records Administration’s (NARA) website for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s website at www.archives.gov/federal-register.

The eCFR is a regularly updated, unofficial editorial compilation of CFR material and Federal Register amendments, produced by the Office of the Federal Register and the Government Publishing Office. It is available at www.ecfr.gov.

THIS TITLE

Title 26—INTERNAL REVENUE is composed of twenty-two volumes. The contents of these volumes represent all current regulations codified under this title by the Internal Revenue Service, Department of the Treasury, as of April 1, 2022. The first fifteen volumes comprise part 1 (Subchapter A—Income Tax) and are arranged by sections as follows: §§1.0–1.60; §§1.61–1.139; §§1.140–1.169; §§1.170–1.300; §§1.301–1.400; §§1.401–1.409; §§1.410–1.440; §§1.441–1.500; §§1.501–1.640; §§1.641–1.850; §§1.851–1.907; §§1.908–1.1000; §§1.1001–1.1400; §§1.1401–1.1550; and §1.1551 to end of part 1. The sixteenth volume containing parts 2–29, includes the remainder of subchapter A and all of Subchapter B—Estate and Gift Taxes. The last six volumes contain parts 30–39 (Subchapter C—Employment Taxes and Collection of Income Tax at Source); parts 40–49; parts 50–299 (Subchapter D—Miscellaneous Excise Taxes); parts 300–499 (Subchapter F—Procedure and Administration); parts 500–599 (Subchapter G—Regulations under Tax Conventions); and part 600 to end (Subchapter H—Internal Revenue Practice).

The OMB control numbers for title 26 appear in §602.101 of this chapter. For the convenience of the user, §602.101 appears in the Finding Aids section of the volumes containing parts 1 to 599.

For this volume, Cheryl E. Sirofchuck was Chief Editor. The Code of Federal Regulations publication program is under the direction of John Hyrum Martinez, assisted by Stephen J. Frattini.

Title 26—Internal Revenue

(This book contains part 1, §§ 1.140 to 1.169)

	<i>Part</i>
CHAPTER 1—Internal Revenue Service, Department of the Treasury (Continued)	1

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY (CONTINUED)

EDITORIAL NOTE: IRS published a document at 45 FR 6088, Jan. 25, 1980, deleting statutory sections from their regulations. In Chapter I cross-references to the deleted material have been changed to the corresponding sections of the IRS Code of 1954 or to the appropriate regulations sections. When either such change produced a redundancy, the cross-reference has been deleted. For further explanation, see 45 FR 20795, Mar. 31, 1980.

SUBCHAPTER A—INCOME TAX (CONTINUED)

Part		Page
1	Income taxes (Continued)	5

SUPPLEMENTARY PUBLICATIONS: *Internal Revenue Service Looseleaf Regulations System, Alcohol and Tobacco Tax Regulations, and Regulations Under Tax Conventions.*

EDITORIAL NOTE: Treasury Decision 6091, 19 FR 5167, Aug. 17, 1954, provides in part as follows:

PARAGRAPH 1. All regulations (including all Treasury decisions) prescribed by, or under authority duly delegated by, the Secretary of the Treasury, or jointly by the Secretary and the Commissioner of Internal Revenue, or by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury, or jointly by the Commissioner of Internal Revenue and the Commissioner of Customs or the Commissioner of Narcotics with the approval of the Secretary of the Treasury, applicable under any provision of law in effect on the date of enactment of the Code, to the extent such provision of law is repealed by the Code, are hereby prescribed under and made applicable to the provisions of the Code corresponding to the provision of law so repealed insofar as any such regulation is not inconsistent with the Code. Such regulations shall become effective as regulations under the various provisions of the Code as of the dates the corresponding provisions of law are repealed by the Code, until superseded by regulations issued under the Code.

PAR. 2. With respect to any provision of the Code which depends for its application upon the promulgation of regulations or which is to be applied in such manner as may be prescribed by regulations, all instructions or rules in effect immediately prior to the enactment of the Code, to the extent such instructions or rules could be prescribed as regulations under authority of such provision of the Code, shall be applied as regulations under such provision insofar as such instructions or rules are not inconsistent with the Code. Such instructions or rules shall be applied as regulations under the applicable provision of the Code as of the date such provision takes effect.

PAR. 3. If any election made or other act done pursuant to any provision of the Internal Revenue Code of 1939 or prior internal revenue laws would (except for the enactment of the Code) be effective for any period subsequent to such enactment, and if corresponding provisions are contained in the Code, such election or other act shall be given the same effect under the corresponding provisions of the Code to the extent not inconsistent therewith. The term "act" includes, but is not limited to, an allocation, identification, declaration, agreement, option, waiver, relinquishment, or renunciation.

PAR. 4. The limits of the various internal revenue districts have not been changed by the enactment of the Code. Furthermore, delegations of authority made pursuant to the provisions of Reorganization Plan No. 26 of 1950 and Reorganization Plan No. 1 of 1952 (as well as redelegations thereunder), including those governing the authority of the Commissioner of Internal Revenue, the Regional Commissioners of Internal Revenue, or the District Directors of Internal Revenue, are applicable to the provisions of the Code to the extent consistent therewith.

SUBCHAPTER A—INCOME TAX (CONTINUED)

PART 1—INCOME TAXES (CONTINUED)

Sec.

1.141-0 Table of contents.

TAX EXEMPTION REQUIREMENTS FOR STATE AND LOCAL BONDS

1.141-1 Definitions and rules of general application.

§ 1.141-0 Table of contents.

This section lists the captioned paragraphs contained in §§1.141-1 through 1.141-16.

§ 1.141-1 Definitions and rules of general application.

- (a) In general.
- (b) Certain general definitions.
- (c) Elections.
- (d) Related parties.
- (e) Partnerships.

§ 1.141-2 Private activity bond tests.

- (a) Overview.
- (b) Scope.
- (c) General definition of private activity bond.
- (d) Reasonable expectations and deliberate actions.
 - (1) In general.
 - (2) Reasonable expectations test.
 - (3) Deliberate action defined.
 - (4) Special rule for dispositions of personal property in the ordinary course of an established governmental program.
 - (5) Special rule for general obligation bond programs that finance a large number of separate purposes.
- (e) When a deliberate action occurs.
- (f) Certain remedial actions.
- (g) Examples.

§ 1.141-3 Definition of private business use.

- (a) General rule.
 - (1) In general.
 - (2) Indirect use.
 - (3) Aggregation of private business use.
- (b) Types of private business use arrangements.
 - (1) In general.
 - (2) Ownership.
 - (3) Leases.
 - (4) Management contracts.
 - (5) Output contracts.
 - (6) Research agreements.

Internal Revenue Service, Treasury

§ 1.141-0

- (7) Other actual or beneficial use.
- (c) Exception for general public use.
 - (1) In general.
 - (2) Use on the same basis.
- (3) Long-term arrangements not treated as general public use.
 - (4) Relation to other use.
 - (d) Other exceptions.
 - (1) Agents.
 - (2) Use incidental to financing arrangements.
 - (3) Exceptions for arrangements other than arrangements resulting in ownership of financed property by a nongovernmental person.
 - (4) Temporary use by developers.
 - (5) Incidental use.
 - (6) Qualified improvements.
 - (e) Special rule for tax assessment bonds.
 - (f) Examples.
 - (g) Measurement of private business use.
 - (1) In general.
 - (2) Measurement period.
 - (3) Determining average percentage of private business use.
 - (4) Determining the average amount of private business use for a 1-year period.
 - (5) Common areas.
 - (6) Allocation of neutral costs.
 - (7) Commencement of measurement of private business use.
 - (8) Examples.

§ 1.141-4 Private security or payment test.

- (a) General rule.
 - (1) Private security or payment.
 - (2) Aggregation of private payments and security.
 - (3) Underlying arrangement.
 - (b) Measurement of private payments and security.
 - (1) Scope.
 - (2) Present value measurement.
 - (c) Private payments.
 - (1) In general.
 - (2) Payments taken into account.
 - (3) Allocation of payments.
 - (d) Private security.
 - (1) In general.
 - (2) Security taken into account.
 - (3) Pledge of unexpended proceeds.
 - (4) Secured by any interest in property or payments.
 - (5) Payments in respect of property.
 - (6) Allocation of security among issues.
 - (e) Generally applicable taxes.
 - (1) General rule.
 - (2) Definition of generally applicable taxes.
 - (3) Special charges.
 - (4) Manner of determination and collection.
 - (5) Payments in lieu of taxes.
 - (f) Certain waste remediation bonds.
 - (1) Scope.
 - (2) Persons that are not private users.
 - (3) Persons that are private users.
 - (g) Examples.

§ 1.141-5 Private loan financing test.

- (a) In general.
- (b) Measurement of test.
- (c) Definition of private loan.
 - (1) In general.
 - (2) Application only to purpose investments.
 - (3) Grants.
 - (4) Hazardous waste remediation bonds.
 - (d) Tax assessment loan exception.
 - (1) General rule.
 - (2) Tax assessment loan defined.
 - (3) Mandatory tax or other assessment.
 - (4) Specific essential governmental function.
 - (5) Equal basis requirement.
 - (6) Coordination with private business tests.
 - (e) Examples.

§ 1.141-6 Allocation and accounting rules.

- (a) Allocation of proceeds to expenditures, projects, and uses in general.
 - (1) Allocations to expenditures.
 - (2) Allocations of sources to a project and its uses.
 - (3) Definition of project.
 - (b) Special allocation rules for eligible mixed-use projects.
 - (1) In general.
 - (2) Definition of eligible mixed-use project.
 - (3) Definition of qualified equity.
 - (4) Same plan of financing.
 - (c) Allocations of private payments.
 - (d) Allocations of proceeds to common costs of an issue.
 - (e) Allocations of proceeds to bonds.
 - (f) Examples.

§ 1.141-7 Special rules for output facilities.

- (a) Overview.
- (b) Definitions.
 - (1) Available output.
 - (2) Measurement period.
 - (3) Sale at wholesale.
 - (4) Take contract and take or pay contract.
 - (5) Requirements contract.
 - (6) Nonqualified amount.
- (c) Output contracts.
 - (1) General rule.
 - (2) Take contract or take or pay contract.
 - (3) Requirements contract.
 - (4) Output contract properly characterized as a lease.
 - (d) Measurement of private business use.
 - (e) Measurement of private security or payment.
 - (f) Exceptions for certain contracts.
 - (1) Small purchases of output.
 - (2) Swapping and pooling arrangements.
 - (3) Short-term output contracts.
 - (4) Certain conduit parties disregarded.
 - (g) Special rules for electric output facilities used to provide open access.
 - (1) Operation of transmission facilities by nongovernmental persons.

§ 1.141-0

- (2) Certain use by nongovernmental persons under output contracts.
- (3) Ancillary services.
- (4) Exceptions to deliberate action rules.
- (5) Additional transactions as permitted by the Commissioner.
- (h) Allocations of output facilities and systems.
 - (1) Facts and circumstances analysis.
 - (2) Illustrations.
 - (3) Transmission and distribution contracts.
 - (4) Allocation of payments.
 - (i) Examples.

§ 1.141-8 \$15 million limitation for output facilities.

- (a) In general.
- (1) General rule.
- (2) Reduction in \$15 million output limitation for outstanding issues.
- (3) Benefits and burdens test applicable.
 - (b) Definition of project.
 - (1) General rule.
 - (2) Separate ownership.
 - (3) Generating property.
 - (4) Transmission and distribution.
 - (5) Subsequent improvements.
 - (6) Replacement property.
- (c) Examples.

§ 1.141-9 Unrelated or disproportionate use test.

- (a) General rules.
- (1) Description of test.
- (2) Application of unrelated or disproportionate use test.
 - (b) Unrelated use.
 - (1) In general.
 - (2) Use for the same purpose as government use.
 - (c) Disproportionate use.
 - (1) Definition of disproportionate use.
 - (2) Aggregation of related uses.
 - (3) Allocation rule.
 - (d) Maximum use taken into account.
 - (e) Examples.

§ 1.141-10 Coordination with volume cap. [Reserved]

§ 1.141-11 Acquisition of nongovernmental output property. [Reserved]

§ 1.141-12 Remedial actions.

- (a) Conditions to taking remedial action.
 - (1) Reasonable expectations test met.
 - (2) Maturity not unreasonably long.
 - (3) Fair market value consideration.
 - (4) Disposition proceeds treated as gross proceeds for arbitrage purposes.
 - (5) Proceeds expended on a governmental purpose.
- (b) Effect of a remedial action.
 - (1) In general.
 - (2) Effect on bonds that have been advance refunded.
 - (c) Disposition proceeds.

26 CFR Ch. I (4-1-22 Edition)

- (1) Definition.
- (2) Allocating disposition proceeds to an issue.
- (3) Allocating disposition proceeds to different sources of funding.
- (d) Redemption or defeasance of non-qualified bonds.
 - (1) In general.
 - (2) Special rule for dispositions for cash.
 - (3) Anticipatory remedial action.
 - (4) Notice of defeasance.
 - (5) Special limitation.
 - (6) Defeasance escrow defined.
 - (e) Alternative use of disposition proceeds.
 - (1) In general.
 - (2) Special rule for use by 501(c)(3) organizations.
 - (f) Alternative use of facility.
 - (g) Rules for deemed reissuance.
 - (h) Authority of Commissioner to provide for additional remedial actions.
 - (i) Effect of remedial action on continuing compliance.
 - (j) Nonqualified bonds.
 - (1) Amount of nonqualified bonds.
 - (2) Allocation of nonqualified bonds.
 - (k) Examples.

§ 1.141-13 Refunding issues.

- (a) In general.
- (b) Application of private business use test and private loan financing test.
 - (1) Allocation of proceeds.
 - (2) Determination of amount of private business use.
- (c) Application of private security or payment test.
 - (1) Separate issue treatment.
 - (2) Combined issue treatment.
 - (3) Special rule for arrangements not entered into in contemplation of the refunding issue.
 - (d) Multipurpose issue allocations.
 - (1) In general.
 - (2) Exceptions.
 - (e) Application of reasonable expectations test to certain refunding bonds.
 - (f) Special rule for refundings of certain general obligation bonds.
 - (g) Examples.

§ 1.141-14 Anti-abuse rules.

- (a) Authority of Commissioner to reflect substance of transactions.
- (b) Examples.

§ 1.141-15 Effective/applicability dates.

- (a) Scope.
- (b) Effective dates.
 - (1) In general.
 - (2) Certain short-term arrangements.
 - (3) Certain prepayments.
 - (4) Certain remedial actions.
 - (c) Refunding bonds.
 - (d) Permissive application of regulations.
 - (e) Permissive retroactive application of certain sections.

Internal Revenue Service, Treasury

§ 1.141-1

- (1) In general.
- (2) Transition rule for pre-effective date bonds.
- (f) Effective dates for certain regulations relating to output facilities.
 - (1) General rule.
 - (2) Transition rule for requirements contracts.
 - (g) Refunding bonds for output facilities.
 - (h) Permissive retroactive application.
 - (i) Permissive application of certain regulations relating to output facilities.
 - (j) Effective dates for certain regulations relating to refundings.
 - (k) Effective/applicability dates for certain regulations relating to generally applicable taxes and payments in lieu of tax.
 - (l) Applicability date for certain regulations related to allocation and accounting.
 - (1) In general.
 - (2) Refunding bonds.
 - (3) Permissive application.
 - (m) Permissive retroactive application of certain regulations.
 - (n) Effective/applicability dates for certain regulations relating to certain definitions.

§ 1.141-16 Effective dates for qualified private activity bond provisions.

- (a) Scope.
- (b) Effective dates.
- (c) Permissive application.
- (d) Certain remedial actions.
- (1) General rule.
- (2) Special rule for allocations of non-qualified bonds.

[T.D. 8712, 62 FR 2283, Jan. 16, 1997, as amended by T.D. 8757, 63 FR 3259, Jan. 22, 1998; T.D. 8941, 66 FR 4664, Jan. 18, 2001; T.D. 9016, 67 FR 59759, Sept. 23, 2002; T.D. 9085, 68 FR 45775, Aug. 4, 2003; T.D. 9150, 69 FR 50066, Aug. 13, 2004; T.D. 9234, 70 FR 75031, Dec. 19, 2005; T.D. 9429, 73 FR 63374, Oct. 24, 2008; T.D. 9741, 80 FR 65642, Oct. 27, 2015; T.D. 9777, 81 FR 46591, July 18, 2016]

TAX EXEMPTION REQUIREMENTS FOR STATE AND LOCAL BONDS

§ 1.141-1 Definitions and rules of general application.

(a) *In general.* For purposes of §§ 1.141-0 through 1.141-16, the following definitions and rules apply: The definitions in this section, the definitions in § 1.150-1, the definition of placed in service in § 1.150-2(c), the definition of reasonably required reserve or replacement fund in § 1.148-2(f), and the definitions in § 1.148-1 of bond year, commingled fund, fixed yield issue, higher yielding investments, investment, investment proceeds, issue price, issuer, nonpurpose investment, purpose in-

vestment, qualified guarantee, qualified hedge, reasonable expectations or reasonableness, rebate amount, replacement proceeds, sale proceeds, variable yield issue and yield.

(b) *Certain general definitions.*

Common areas means portions of a facility that are equally available to all users of a facility on the same basis for uses that are incidental to the primary use of the facility. For example, hallways and elevators generally are treated as common areas if they are used by the different lessees of a facility in connection with the primary use of that facility.

Consistently applied means applied uniformly to account for proceeds and other amounts.

Deliberate action is defined in § 1.141-2(d)(3).

Discrete portion means a portion of a facility that consists of any separate and discrete portion of a facility to which use is limited, other than common areas. A floor of a building and a portion of a building separated by walls, partitions, or other physical barriers are examples of a discrete portion.

Disposition is defined in § 1.141-12(c)(1).

Disposition proceeds is defined in § 1.141-12(c)(1).

Essential governmental function is defined in § 1.141-5(d)(4)(ii).

Financed means constructed, reconstructed, or acquired with proceeds of an issue.

Governmental bond has the same meaning as in § 1.150-1(b), except that, for purposes of § 1.141-13, governmental bond is defined in § 1.141-13(b)(2)(iv).

Governmental person means a state or local governmental unit as defined in § 1.103-1 or any instrumentality thereof. It does not include the United States or any agency or instrumentality thereof.

Hazardous waste remediation bonds is defined in § 1.141-4(f)(1).

Measurement period is defined in § 1.141-3(g)(2).

Nongovernmental person means a person other than a governmental person.

Output facility means electric and gas generation, transmission, distribution,

and related facilities, and water collection, storage, and distribution facilities.

Private business tests means the private business use test and the private security or payment test of section 141(b).

Proceeds means the sale proceeds of an issue (other than those sale proceeds used to retire bonds of the issue that are not deposited in a reasonably required reserve or replacement fund). Proceeds also include any investment proceeds from investments that accrue during the project period (net of rebate amounts attributable to the project period). Disposition proceeds of an issue are treated as proceeds to the extent provided in § 1.141-12. The Commissioner may treat any replaced amounts as proceeds.

Project period means the period beginning on the issue date and ending on the date that the project is placed in service. In the case of a multipurpose issue, the issuer may elect to treat the project period for the entire issue as ending on either the expiration of the temporary period described in § 1.148-2(e)(2) or the end of the fifth bond year after the issue date.

Public utility property means public utility property as defined in section 168(i)(10).

Qualified bond means a qualified bond as defined in section 141(e).

Renewal option means a provision under which either party has a legally enforceable right to renew the contract. Thus, for example, a provision under which a contract is automatically renewed for 1-year periods absent cancellation by either party is not a renewal option (even if it is expected to be renewed).

Replaced amounts means replacement proceeds other than amounts that are treated as replacement proceeds solely because they are sinking funds or pledged funds.

Weighted average maturity is determined under section 147(b).

Weighted average reasonably expected economic life is determined under section 147(b). The reasonably expected economic life of property may be determined by reference to the class life of the property under section 168.

(c) *Elections*. Elections must be made in writing on or before the issue date and retained as part of the bond documents, and, once made, may not be revoked without the permission of the Commissioner.

(d) *Related parties*. Except as otherwise provided, all related parties are treated as one person and any reference to “person” includes any related party.

(e) *Partnerships*. A partnership (as defined in section 7701(a)(2)) is treated as an aggregate of its partners, rather than as an entity.

[T.D. 8712, 62 FR 2284, Jan. 16, 1997, as amended by T.D. 9234, 70 FR 75032, Dec. 19, 2005; T.D. 9741, 80 FR 65643, Oct. 27, 2015; T.D. 9777, 81 FR 46592, July 18, 2016]

§ 1.141-2 Private activity bond tests.

(a) *Overview*. Interest on a private activity bond is not excludable from gross income under section 103(a) unless the bond is a qualified bond. The purpose of the private activity bond tests of section 141 is to limit the volume of tax-exempt bonds that finance the activities of nongovernmental persons, without regard to whether a financing actually transfers benefits of tax-exempt financing to a nongovernmental person. The private activity bond tests serve to identify arrangements that have the potential to transfer the benefits of tax-exempt financing, as well as arrangements that actually transfer these benefits. The regulations under section 141 may not be applied in a manner that is inconsistent with these purposes.

(b) *Scope*. Sections 1.141-0 through 1.141-16 apply generally for purposes of the private activity bond limitations under section 141.

(c) *General definition of private activity bond*. Under section 141, bonds are private activity bonds if they meet either the private business use test and private security or payment test of section 141(b) or the private loan financing test of section 141(c). The private business use and private security or payment tests are described in §§ 1.141-3 and 1.141-4. The private loan financing test is described in § 1.141-5.

(d) *Reasonable expectations and deliberate actions*—(1) *In general*. An issue is an issue of private activity bonds if the issuer reasonably expects, as of the

issue date, that the issue will meet either the private business tests or the private loan financing test. An issue is also an issue of private activity bonds if the issuer takes a deliberate action, subsequent to the issue date, that causes the conditions of either the private business tests or the private loan financing test to be met.

(2) *Reasonable expectations test*—(i) *In general.* In general, the reasonable expectations test must take into account reasonable expectations about events and actions over the entire stated term of an issue.

(ii) *Special rule for issues with mandatory redemption provisions.* An action that is reasonably expected, as of the issue date, to occur after the issue date and to cause either the private business tests or the private loan financing test to be met may be disregarded for purposes of those tests if—

(A) The issuer reasonably expects, as of the issue date, that the financed property will be used for a governmental purpose for a substantial period before the action;

(B) The issuer is required to redeem all nonqualifying bonds (regardless of the amount of disposition proceeds actually received) within 6 months of the date of the action;

(C) The issuer does not enter into any arrangement with a nongovernmental person, as of the issue date, with respect to that specific action; and

(D) The mandatory redemption of bonds meets all of the conditions for remedial action under § 1.141-12(a).

(3) *Deliberate action defined*—(i) *In general.* Except as otherwise provided in this paragraph (d)(3), a deliberate action is any action taken by the issuer that is within its control. An intent to violate the requirements of section 141 is not necessary for an action to be deliberate.

(ii) *Safe harbor exceptions.* An action is not treated as a deliberate action if—

(A) It would be treated as an involuntary or compulsory conversion under section 1033; or

(B) It is taken in response to a regulatory directive made by the federal government. See § 1.141-7(g)(4).

(4) *Special rule for dispositions of personal property in the ordinary course of*

an established governmental program—(i) *In general.* Dispositions of personal property in the ordinary course of an established governmental program are not treated as deliberate actions if—

(A) The weighted average maturity of the bonds financing that personal property is not greater than 120 percent of the reasonably expected actual use of that property for governmental purposes;

(B) The issuer reasonably expects on the issue date that the fair market value of that property on the date of disposition will be not greater than 25 percent of its cost; and

(C) The property is no longer suitable for its governmental purposes on the date of disposition.

(ii) *Reasonable expectations test.* The reasonable expectation that a disposition described in paragraph (d)(4)(i) of this section may occur in the ordinary course while the bonds are outstanding will not cause the issue to meet the private activity bond tests if the issuer is required to deposit amounts received from the disposition in a commingled fund with substantial tax or other governmental revenues and the issuer reasonably expects to spend the amounts on governmental programs within 6 months from the date of commingling.

(iii) *Separate issue treatment.* An issuer may treat the bonds properly allocable to the personal property eligible for this exception as a separate issue under § 1.150-1(c)(3).

(5) *Special rule for general obligation bond programs that finance a large number of separate purposes.* The determination of whether bonds of an issue are private activity bonds may be based solely on the issuer's reasonable expectations as of the issue date if all of the requirements of paragraphs (d)(5)(i) through (vii) of this section are met.

(i) The issue is an issue of general obligation bonds of a general purpose governmental unit that finances at least 25 separate purposes (as defined in § 1.150-1(c)(3)) and does not predominantly finance fewer than 4 separate purposes.

(ii) The issuer has adopted a fund method of accounting for its general governmental purposes that makes tracing the bond proceeds to specific

expenditures unreasonably burdensome.

(iii) The issuer reasonably expects on the issue date to allocate all of the net proceeds of the issue to capital expenditures within 6 months of the issue date and adopts reasonable procedures to verify that net proceeds are in fact so expended. A program to randomly spot check that 10 percent of the net proceeds were so expended generally is a reasonable verification procedure for this purpose.

(iv) The issuer reasonably expects on the issue date to expend all of the net proceeds of the issue before expending proceeds of a subsequent issue of similar general obligation bonds.

(v) The issuer reasonably expects on the issue date that it will not make any loans to nongovernmental persons with the proceeds of the issue.

(vi) The issuer reasonably expects on the issue date that the capital expenditures that it could make during the 6-month period beginning on the issue date with the net proceeds of the issue that would not meet the private business tests are not less than 125 percent of the capital expenditures to be financed with the net proceeds of the issue.

(vii) The issuer reasonably expects on the issue date that the weighted average maturity of the issue is not greater than 120 percent of the weighted average reasonably expected economic life of the capital expenditures financed with the issue. To determine reasonably expected economic life for this purpose an issuer may use reasonable estimates based on the type of expenditures made from a fund.

(e) *When a deliberate action occurs.* A deliberate action occurs on the date the issuer enters into a binding contract with a nongovernmental person for use of the financed property that is not subject to any material contingencies.

(f) *Certain remedial actions.* See § 1.141-12 for certain remedial actions that prevent a deliberate action with respect to property financed by an issue from causing that issue to meet the private business use test or the private loan financing test.

(g) *Examples.* The following examples illustrate the application of this section:

Example 1 Involuntary action. City B issues bonds to finance the purchase of land. On the issue date, B reasonably expects that it will be the sole user of the land for the entire term of the bonds. Subsequently, the federal government acquires the land in a condemnation action. B sets aside the condemnation proceeds to pay debt service on the bonds but does not redeem them on their first call date. The bonds are not private activity bonds because B has not taken a deliberate action after the issue date. See, however, § 1.141-14(b), *Example 2*.

Example 2 Reasonable expectations test—involuntary action. The facts are the same as in *Example 1*, except that, on the issue date, B reasonably expects that the federal government will acquire the land in a condemnation action during the term of the bonds. On the issue date, the present value of the amount that B reasonably expects to receive from the federal government is greater than 10 percent of the present value of the debt service on the bonds. The terms of the bonds do not require that the bonds be redeemed within 6 months of the acquisition by the federal government. The bonds are private activity bonds because the issuer expects as of the issue date that the private business tests will be met.

Example 3 Reasonable expectations test—mandatory redemption. City C issues bonds to rehabilitate an existing hospital that it currently owns. On the issue date of the bonds, C reasonably expects that the hospital will be used for a governmental purpose for a substantial period. On the issue date, C also plans to construct a new hospital, but the placed in service date of that new hospital is uncertain. C reasonably expects that, when the new hospital is placed in service, it will sell or lease the rehabilitated hospital to a private hospital corporation. The bond documents require that the bonds must be redeemed within 6 months of the sale or lease of the rehabilitated hospital (regardless of the amount actually received from the sale). The bonds meet the reasonable expectations requirement of the private activity bond tests if the mandatory redemption of bonds meets all of the conditions for a remedial action under § 1.141-12(a).

Example 4 Dispositions in the ordinary course of an established governmental program. City D issues bonds with a weighted average maturity of 6 years for the acquisition of police cars. D reasonably expects on the issue date that the police cars will be used solely by its police department, except that, in the ordinary course of its police operations, D sells its police cars to a taxicab corporation after 5 years of use because they are no longer

suitable for police use. Further, D reasonably expects that the value of the police cars when they are no longer suitable for police use will be no more than 25 percent of cost. D subsequently sells 20 percent of the police cars after only 3 years of actual use. At that time, D deposits the proceeds from the sale of the police cars in a commingled fund with substantial tax revenues and reasonably expects to spend the proceeds on governmental programs within 6 months of the date of deposit. D does not trace the actual use of these commingled amounts. The sale of the police cars does not cause the private activity bond tests to be met because the requirements of paragraph (d)(4) of this section are met.

[T.D. 8712, 62 FR 2284, Jan. 16, 1997, as amended by T.D. 8757, 63 FR 3260, Jan. 22, 1998; T.D. 9016, 67 FR 59759, Sept. 23, 2002]

§ 1.141-3 Definition of private business use.

(a) *General rule*—(1) *In general*. The private business use test relates to the use of the proceeds of an issue. The 10 percent private business use test of section 141(b)(1) is met if more than 10 percent of the proceeds of an issue is used in a trade or business of a nongovernmental person. For this purpose, the use of financed property is treated as the direct use of proceeds. Any activity carried on by a person other than a natural person is treated as a trade or business. Unless the context or a provision clearly requires otherwise, this section also applies to the private business use test under sections 141(b)(3) (unrelated or disproportionate use), 141(b)(4) (\$15 million limitation for certain output facilities), and 141(b)(5) (the coordination with the volume cap where the nonqualified amount exceeds \$15 million).

(2) *Indirect use*. In determining whether an issue meets the private business use test, it is necessary to look to both the indirect and direct uses of proceeds. For example, a facility is treated as being used for a private business use if it is leased to a nongovernmental person and subleased to a governmental person or if it is leased to a governmental person and then subleased to a nongovernmental person, provided that in each case the nongovernmental person's use is in a trade or business. Similarly, the issuer's use of the proceeds to engage in a series of financing transactions for

property to be used by nongovernmental persons in their trades or businesses may cause the private business use test to be met. In addition, proceeds are treated as used in the trade or business of a nongovernmental person if a nongovernmental person, as a result of a single transaction or a series of related transactions, uses property acquired with the proceeds of an issue.

(3) *Aggregation of private business use*. The use of proceeds by all nongovernmental persons is aggregated to determine whether the private business use test is met.

(b) *Types of private business use arrangements*—(1) *In general*. Both actual and beneficial use by a nongovernmental person may be treated as private business use. In most cases, the private business use test is met only if a nongovernmental person has special legal entitlements to use the financed property under an arrangement with the issuer. In general, a nongovernmental person is treated as a private business user of proceeds and financed property as a result of ownership; actual or beneficial use of property pursuant to a lease, or a management or incentive payment contract; or certain other arrangements such as a take or pay or other output-type contract.

(2) *Ownership*. Except as provided in paragraph (d)(1) or (d)(2) of this section, ownership by a nongovernmental person of financed property is private business use of that property. For this purpose, ownership refers to ownership for federal income tax purposes.

(3) *Leases*. Except as provided in paragraph (d) of this section, the lease of financed property to a nongovernmental person is private business use of that property. For this purpose, any arrangement that is properly characterized as a lease for federal income tax purposes is treated as a lease. In determining whether a management contract is properly characterized as a lease, it is necessary to consider all of the facts and circumstances, including the following factors—

(i) The degree of control over the property that is exercised by a nongovernmental person; and

(ii) Whether a nongovernmental person bears risk of loss of the financed property.

(4) *Management contracts*—(i) *Facts and circumstances test*. Except as provided in paragraph (d) of this section, a management contract (within the meaning of paragraph (b)(4)(ii) of this section) with respect to financed property may result in private business use of that property, based on all of the facts and circumstances. A management contract with respect to financed property generally results in private business use of that property if the contract provides for compensation for services rendered with compensation based, in whole or in part, on a share of net profits from the operation of the facility.

(ii) *Management contract defined*. For purposes of this section, a management contract is a management, service, or incentive payment contract between a governmental person and a service provider under which the service provider provides services involving all, a portion of, or any function of, a facility. For example, a contract for the provision of management services for an entire hospital, a contract for management services for a specific department of a hospital, and an incentive payment contract for physician services to patients of a hospital are each treated as a management contract.

(iii) *Arrangements generally not treated as management contracts*. The arrangements described in paragraphs (b)(4)(iii)(A) through (D) of this section generally are not treated as management contracts that give rise to private business use.

(A) Contracts for services that are solely incidental to the primary governmental function or functions of a financed facility (for example, contracts for janitorial, office equipment repair, hospital billing, or similar services).

(B) The mere granting of admitting privileges by a hospital to a doctor, even if those privileges are conditioned on the provision of de minimis services, if those privileges are available to all qualified physicians in the area, consistent with the size and nature of its facilities.

(C) A contract to provide for the operation of a facility or system of facilities

that consists predominantly of public utility property, if the only compensation is the reimbursement of actual and direct expenses of the service provider and reasonable administrative overhead expenses of the service provider.

(D) A contract to provide for services, if the only compensation is the reimbursement of the service provider for actual and direct expenses paid by the service provider to unrelated parties.

(iv) *Management contracts that are properly treated as other types of private business use*. A management contract with respect to financed property results in private business use of that property if the service provider is treated as the lessee or owner of financed property for federal income tax purposes, unless an exception under paragraph (d) of this section applies to the arrangement.

(5) *Output contracts*. See § 1.141-7 for special rules for contracts for the purchase of output of output facilities.

(6) *Research agreements*—(i) *Facts and circumstances test*. Except as provided in paragraph (d) of this section, an agreement by a nongovernmental person to sponsor research performed by a governmental person may result in private business use of the property used for the research, based on all of the facts and circumstances.

(ii) *Research agreements that are properly treated as other types of private business use*. A research agreement with respect to financed property results in private business use of that property if the sponsor is treated as the lessee or owner of financed property for federal income tax purposes, unless an exception under paragraph (d) of this section applies to the arrangement.

(7) *Other actual or beneficial use*—(i) *In general*. Any other arrangement that conveys special legal entitlements for beneficial use of bond proceeds or of financed property that are comparable to special legal entitlements described in paragraphs (b)(2), (3), (4), (5), or (6) of this section results in private business use. For example, an arrangement that conveys priority rights to the use or capacity of a facility generally results in private business use.

(ii) *Special rule for facilities not used by the general public.* In the case of financed property that is not available for use by the general public (within the meaning of paragraph (c) of this section), private business use may be established solely on the basis of a special economic benefit to one or more nongovernmental persons, even if those nongovernmental persons have no special legal entitlements to use of the property. In determining whether special economic benefit gives rise to private business use it is necessary to consider all of the facts and circumstances, including one or more of the following factors—

(A) Whether the financed property is functionally related or physically proximate to property used in the trade or business of a nongovernmental person;

(B) Whether only a small number of nongovernmental persons receive the special economic benefit; and

(C) Whether the cost of the financed property is treated as depreciable by any nongovernmental person.

(c) *Exception for general public use—*(1) *In general.* Use as a member of the general public (general public use) is not private business use. Use of financed property by nongovernmental persons in their trades or businesses is treated as general public use only if the property is intended to be available and in fact is reasonably available for use on the same basis by natural persons not engaged in a trade or business.

(2) *Use on the same basis.* In general, use under an arrangement that conveys priority rights or other preferential benefits is not use on the same basis as the general public. Arrangements providing for use that is available to the general public at no charge or on the basis of rates that are generally applicable and uniformly applied do not convey priority rights or other preferential benefits. For this purpose, rates may be treated as generally applicable and uniformly applied even if—

(i) Different rates apply to different classes of users, such as volume purchasers, if the differences in rates are customary and reasonable; or

(ii) A specially negotiated rate arrangement is entered into, but only if the user is prohibited by federal law

from paying the generally applicable rates, and the rates established are as comparable as reasonably possible to the generally applicable rates.

(3) *Long-term arrangements not treated as general public use.* An arrangement is not treated as general public use if the term of the use under the arrangement, including all renewal options, is greater than 200 days. For this purpose, a right of first refusal to renew use under the arrangement is not treated as a renewal option if—

(i) The compensation for the use under the arrangement is redetermined at generally applicable, fair market value rates that are in effect at the time of renewal; and

(ii) The use of the financed property under the same or similar arrangements is predominantly by natural persons who are not engaged in a trade or business.

(4) *Relation to other use.* Use of financed property by the general public does not prevent the proceeds from being used for a private business use because of other use under this section.

(d) *Other exceptions—*(1) *Agents.* Use of proceeds by nongovernmental persons solely in their capacity as agents of a governmental person is not private business use. For example, use by a nongovernmental person that issues obligations on behalf of a governmental person is not private business use to the extent the nongovernmental person's use of proceeds is in its capacity as an agent of the governmental person.

(2) *Use incidental to financing arrangements.* Use by a nongovernmental person that is solely incidental to a financing arrangement is not private business use. A use is solely incidental to a financing arrangement only if the nongovernmental person has no substantial rights to use bond proceeds or financed property other than as an agent of the bondholders. For example, a nongovernmental person that acts solely as an owner of title in a sale and leaseback financing transaction with a city generally is not a private business user of the property leased to the city, provided that the nongovernmental person has assigned all of its rights to use the leased facility to the trustee for the bondholders upon default by the

city. Similarly, bond trustees, servicers, and guarantors are generally not treated as private business users.

(3) *Exceptions for arrangements other than arrangements resulting in ownership of financed property by a nongovernmental person*—(i) *Arrangements not available for use on the same basis by natural persons not engaged in a trade or business.* Use by a nongovernmental person pursuant to an arrangement, other than an arrangement resulting in ownership of financed property by a nongovernmental person, is not private business use if—

(A) The term of the use under the arrangement, including all renewal options, is not longer than 100 days;

(B) The arrangement would be treated as general public use, except that it is not available for use on the same basis by natural persons not engaged in a trade or business because generally applicable and uniformly applied rates are not reasonably available to natural persons not engaged in a trade or business; and

(C) The property is not financed for a principal purpose of providing that property for use by that nongovernmental person.

(ii) *Negotiated arm's-length arrangements.* Use by a nongovernmental person pursuant to an arrangement, other than an arrangement resulting in ownership of financed property by a nongovernmental person, is not private business use if—

(A) The term of the use under the arrangement, including all renewal options, is not longer than 50 days;

(B) The arrangement is a negotiated arm's-length arrangement, and compensation under the arrangement is at fair market value; and

(C) The property is not financed for a principal purpose of providing that property for use by that nongovernmental person.

(4) *Temporary use by developers.* Use during an initial development period by a developer of an improvement that carries out an essential governmental function is not private business use if the issuer and the developer reasonably expect on the issue date to proceed with all reasonable speed to develop the improvement and property benefited by that improvement and to

transfer the improvement to a governmental person, and if the improvement is in fact transferred to a governmental person promptly after the property benefited by the improvement is developed.

(5) *Incidental use*—(i) *General rule.* Incidental uses of a financed facility are disregarded, to the extent that those uses do not exceed 2.5 percent of the proceeds of the issue used to finance the facility. A use of a facility by a nongovernmental person is incidental if—

(A) Except for vending machines, pay telephones, kiosks, and similar uses, the use does not involve the transfer to the nongovernmental person of possession and control of space that is separated from other areas of the facility by walls, partitions, or other physical barriers, such as a night gate affixed to a structural component of a building (a nonpossessory use);

(B) The nonpossessory use is not functionally related to any other use of the facility by the same person (other than a different nonpossessory use); and

(C) All nonpossessory uses of the facility do not, in the aggregate, involve the use of more than 2.5 percent of the facility.

(ii) *Illustrations.* Incidental uses may include pay telephones, vending machines, advertising displays, and use for television cameras, but incidental uses may not include output purchases.

(6) *Qualified improvements.* Proceeds that provide a governmentally owned improvement to a governmentally owned building (including its structural components and land functionally related and subordinate to the building) are not used for a private business use if—

(i) The building was placed in service more than 1 year before the construction or acquisition of the improvement is begun;

(ii) The improvement is not an enlargement of the building or an improvement of interior space occupied exclusively for any private business use;

(iii) No portion of the improved building or any payments in respect of the improved building are taken into

account under section 141(b)(2)(A) (the private security test); and

(iv) No more than 15 percent of the improved building is used for a private business use.

(e) *Special rule for tax assessment bonds.* In the case of a tax assessment bond that satisfies the requirements of § 1.141-5(d), the loan (or deemed loan) of the proceeds to the borrower paying the assessment is disregarded in determining whether the private business use test is met. However, the use of the loan proceeds is not disregarded in determining whether the private business use test is met.

(f) *Examples.* The following examples illustrate the application of paragraphs (a) through (e) of this section. In each example, assume that the arrangements described are the only arrangements with nongovernmental persons for use of the financed property.

Example 1. Nongovernmental ownership. State A issues 20-year bonds to purchase land and equip and construct a factory. A then enters into an arrangement with Corporation X to sell the factory to X on an installment basis while the bonds are outstanding. The issue meets the private business use test because a nongovernmental person owns the financed facility. See also § 1.141-2 (relating to the private activity bond tests), and § 1.141-5 (relating to the private loan financing test).

Example 2 Lease to a nongovernmental person. (i) The facts are the same as in *Example 1*, except that A enters into an arrangement with X to lease the factory to X for 3 years rather than to sell it to X. The lease payments will be made annually and will be based on the tax-exempt interest rate on the bonds. The issue meets the private business use test because a nongovernmental person leases the financed facility. See also § 1.141-14 (relating to anti-abuse rules).

(ii) The facts are the same as in *Example 2(i)*, except that the annual payments made by X will equal fair rental value of the facility and exceed the amount necessary to pay debt service on the bonds for the 3 years of the lease. The issue meets the private business use test because a nongovernmental person leases the financed facility and the test does not require that the benefits of tax-exempt financing be passed through to the nongovernmental person.

Example 3. Management contract in substance a lease. City L issues 30-year bonds to finance the construction of a city hospital. L enters into a 15-year contract with M, a nongovernmental person that operates a health maintenance organization relating to the treat-

ment of M's members at L's hospital. The contract provides for reasonable fixed compensation to M for services rendered with no compensation based, in whole or in part, on a share of net profits from the operation of the hospital. However, the contract also provides that 30 percent of the capacity of the hospital will be exclusively available to M's members and M will bear the risk of loss of that portion of the capacity of the hospital so that, under all of the facts and circumstances, the contract is properly characterized as a lease for federal income tax purposes. The issue meets the private business use test because a nongovernmental person leases the financed facility.

Example 4. Ownership of title in substance a leasehold interest. Nonprofit Corporation R issues bonds on behalf of City P to finance the construction of a hospital. R will own legal title to the hospital. In addition, R will operate the hospital, but R is not treated as an agent of P in its capacity as operator of the hospital. P has certain rights to the hospital that establish that it is properly treated as the owner of the property for federal income tax purposes. P does not have rights, however, to directly control operation of the hospital while R owns legal title to it and operates it. The issue meets the private business use test because the arrangement provides a nongovernmental person an interest in the financed facility that is comparable to a leasehold interest. See paragraphs (a)(2) and (b)(7)(i) of this section.

Example 5. Rights to control use of property treated as private business use—parking lot. Corporation C and City D enter into a plan to finance the construction of a parking lot adjacent to C's factory. Pursuant to the plan, C conveys the site for the parking lot to D for a nominal amount, subject to a covenant running with the land that the property be used only for a parking lot. In addition, D agrees that C will have the right to approve rates charged by D for use of the parking lot. D issues bonds to finance construction of the parking lot on the site. The parking lot will be available for use by the general public on the basis of rates that are generally applicable and uniformly applied. The issue meets the private business use test because a nongovernmental person has special legal entitlements for beneficial use of the financed facility that are comparable to an ownership interest. See paragraph (b)(7)(i) of this section.

Example 6. Other actual or beneficial use—hydroelectric enhancements. J, a political subdivision, owns and operates a hydroelectric generation plant and related facilities. Pursuant to a take or pay contract, J sells 15 percent of the output of the plant to Corporation K, an investor-owned utility. K is treated as a private business user of the plant. Under the license issued to J for operation of the plant, J is required by federal

regulations to construct and operate various facilities for the preservation of fish and for public recreation. J issues its obligations to finance the fish preservation and public recreation facilities. K has no special legal entitlements for beneficial use of the financed facilities. The fish preservation facilities are functionally related to the operation of the plant. The recreation facilities are available to natural persons on a short-term basis according to generally applicable and uniformly applied rates. Under paragraph (c) of this section, the recreation facilities are treated as used by the general public. Under paragraph (b)(7) of this section, K's use is not treated as private business use of the recreation facilities because K has no special legal entitlements for beneficial use of the recreation facilities. The fish preservation facilities are not of a type reasonably available for use on the same basis by natural persons not engaged in a trade or business. Under all of the facts and circumstances (including the functional relationship of the fish preservation facilities to property used in K's trade or business) under paragraph (b)(7)(ii) of this section, K derives a special economic benefit from the fish preservation facilities. Therefore, K's private business use may be established solely on the basis of that special economic benefit, and K's use of the fish preservation facilities is treated as private business use.

Example 7. Other actual or beneficial use—pollution control facilities. City B issues obligations to finance construction of a specialized pollution control facility on land that it owns adjacent to a factory owned by Corporation N. B will own and operate the pollution control facility, and N will have no special legal entitlements to use the facility. B, however, reasonably expects that N will be the only user of the facility. The facility will not be reasonably available for use on the same basis by natural persons not engaged in a trade or business. Under paragraph (b)(7)(ii) of this section, because under all of the facts and circumstances the facility is functionally related and is physically proximate to property used in N's trade or business, N derives a special economic benefit from the facility. Therefore, N's private business use may be established solely on the basis of that special economic benefit, and N's use is treated as private business use of the facility. See paragraph (b)(7)(ii) of this section.

Example 8. General public use—airport runway. (i) City I issues bonds and uses all of the proceeds to finance construction of a runway at a new city-owned airport. The runway will be available for take-off and landing by any operator of an aircraft desiring to use the airport, including general aviation operators who are natural persons not engaged in a trade or business. It is reasonably expected that most of the actual use

of the runway will be by private air carriers (both charter airlines and commercial airlines) in connection with their use of the airport terminals leased by those carriers. These leases for the use of terminal space provide no priority rights or other preferential benefits to the air carriers for use of the runway. Moreover, under the leases the lease payments are determined without taking into account the revenues generated by runway landing fees (that is, the lease payments are not determined on a "residual" basis). Although the lessee air carriers receive a special economic benefit from the use of the runway, this economic benefit is not sufficient to cause the air carriers to be private business users, because the runway is available for general public use. The issue does not meet the private business use test. See paragraphs (b)(7)(ii) and (c) of this section.

(ii) The facts are the same as in *Example 8(i)*, except that the runway will be available for use only by private air carriers. The use by these private air carriers is not for general public use, because the runway is not reasonably available for use on the same basis by natural persons not engaged in a trade or business. Depending on all of the facts and circumstances, including whether there are only a small number of lessee private air carriers, the issue may meet the private business use test solely because the private air carriers receive a special economic benefit from the runway. See paragraph (b)(7)(ii) of this section.

(iii) The facts are the same as in *Example 8(i)*, except that the lease payments under the leases with the private air carriers are determined on a residual basis by taking into account the net revenues generated by runway landing fees. These leases cause the private business use test to be met with respect to the runway because they are arrangements that convey special legal entitlements to the financed facility to non-governmental persons. See paragraph (b)(7)(i) of this section.

Example 9. General public use—airport parking garage. City S issues bonds and uses all of the proceeds to finance construction of a city-owned parking garage at the city-owned airport. S reasonably expects that more than 10 percent of the actual use of the parking garage will be by employees of private air carriers (both charter airlines and commercial airlines) in connection with their use of the airport terminals leased by those carriers. The air carriers' use of the parking garage, however, will be on the same basis as passengers and other members of the general public using the airport. The leases for the use of the terminal space provide no priority rights to the air carriers for use of the parking garage, and the lease payments are determined without taking into account the revenues generated by the parking garage.

Internal Revenue Service, Treasury

§ 1.141-3

Although the lessee air carriers receive a special economic benefit from the use of the parking garage, this economic benefit is not sufficient to cause the air carriers to be private business users, because the parking garage is available for general public use. The issue does not meet the private business use test. See paragraphs (b)(7)(ii) and (c) of this section.

Example 10. Long-term arrangements not treated as general public use—insurance fund. Authority T deposits all of the proceeds of its bonds in its insurance fund and invests all of those proceeds in tax-exempt bonds. The insurance fund provides insurance to a large number of businesses and natural persons not engaged in a trade or business. Each participant receives insurance for a term of 1 year. The use by the participants, other than participants that are natural persons not engaged in a trade or business, is treated as private business use of the proceeds of the bonds because the participants have special legal entitlements to the use of bond proceeds, even though the contractual rights are not necessarily properly characterized as ownership, leasehold, or similar interests listed in paragraph (b) of this section. Use of the bond proceeds is not treated as general public use because the term of the insurance is greater than 200 days. See paragraphs (b)(7)(i) and (c)(3) of this section.

Example 11. General public use—port road. Highway Authority W uses all of the proceeds of its bonds to construct a 25-mile road to connect an industrial port owned by Corporation Y with existing roads owned and operated by W. Other than the port, the nearest residential or commercial development to the new road is 12 miles away. There is no reasonable expectation that development will occur in the area surrounding the new road. W and Y enter into no arrangement (either by contract or ordinance) that conveys special legal entitlements to Y for the use of the road. Use of the road will be available without restriction to all users, including natural persons who are not engaged in a trade or business. The issue does not meet the private business use test because the road is treated as used only by the general public.

Example 12. General public use of governmentally owned hotel. State Q issues bonds to purchase land and construct a hotel for use by the general public (that is, tourists, visitors, and business travelers). The bond documents provide that Q will own and operate the project for the term of the bonds. Q will not enter into a lease or license with any user for use of rooms for a period longer than 200 days (although users may actually use rooms for consecutive periods in excess of 200 days). Use of the hotel by hotel guests who are travelling in connection with trades or businesses of nongovernmental persons is not a private business use of the hotel by

these persons because the hotel is intended to be available and in fact is reasonably available for use on the same basis by natural persons not engaged in a trade or business. See paragraph (c)(1) of this section.

Example 13. General public use with rights of first refusal. Authority V uses all of the proceeds of its bonds to construct a parking garage. At least 90 percent of the spaces in the garage will be available to the general public on a monthly first-come, first-served basis. V reasonably expects that the spaces will be predominantly leased to natural persons not engaged in a trade or business who have priority rights to renew their spaces at then current fair market value rates. More than 10 percent of the spaces will be leased to nongovernmental persons acting in a trade or business. These leases are not treated as arrangements with a term of use greater than 200 days. The rights to renew are not treated as renewal options because the compensation for the spaces is redetermined at generally applicable, fair market value rates that will be in effect at the time of renewal and the use of the spaces under similar arrangements is predominantly by natural persons who are not engaged in a trade or business. The issue does not meet the private business use test because at least 90 percent of the use of the parking garage is general public use. See paragraph (c)(3) of this section.

Example 14. General public use with a specially negotiated rate agreement with agency of United States. G, a sewage collection and treatment district, operates facilities that were financed with its bonds. F, an agency of the United States, has a base located within G. Approximately 20 percent of G's facilities are used to treat sewage produced by F under a specially negotiated rate agreement. Under the specially negotiated rate agreement, G uses its best efforts to charge F as closely as possible the same amount for its use of G's services as its other customers pay for the same amount of services, although those other customers pay for services based on standard district charges and tax levies. F is prohibited by federal law from paying for the services based on those standard district charges and tax levies. The use of G's facilities by F is on the same basis as the general public. See paragraph (c)(2)(ii) of this section.

Example 15. Arrangements not available for use by natural persons not engaged in a trade or business—federal use of prisons. Authority E uses all of the proceeds of its bonds to construct a prison. E contracts with federal agency F to house federal prisoners on a space-available, first-come, first-served basis, pursuant to which F will be charged approximately the same amount for each prisoner as other persons that enter into similar transfer agreements. It is reasonably expected that other persons will enter into similar agreements. The term of the use

under the contract is not longer than 100 days, and F has no right to renew, although E reasonably expects to renew the contract indefinitely. The prison is not financed for a principal purpose of providing the prison for use by F. It is reasonably expected that during the term of the bonds, more than 10 percent of the prisoners at the prison will be federal prisoners. F's use of the facility is not general public use because this type of use (leasing space for prisoners) is not available for use on the same basis by natural persons not engaged in a trade or business. The issue does not meet the private business use test, however, because the leases satisfy the exception of paragraph (d)(3)(i) of this section.

Example 16. Negotiated arm's-length arrangements—auditorium reserved in advance. (i) City Z issues obligations to finance the construction of a municipal auditorium that it will own and operate. The use of the auditorium will be open to anyone who wishes to use it for a short period of time on a rate-scale basis. Z reasonably expects that the auditorium will be used by schools, church groups, sororities, and numerous commercial organizations. Corporation H, a nongovernmental person, enters into an arm's-length arrangement with Z to use the auditorium for 1 week for each year for a 10-year period (a total of 70 days), pursuant to which H will be charged a specific price reflecting fair market value. On the date the contract is entered into, Z has not established generally applicable rates for future years. Even though the auditorium is not financed for a principal purpose of providing use of the auditorium to H, H is not treated as using the auditorium as a member of the general public because its use is not on the same basis as the general public. Because the term of H's use of the auditorium is longer than 50 days, the arrangement does not meet the exception under paragraph (d)(3)(ii) of this section.

(ii) The facts are the same as in *Example 16(i)*, except that H will enter into an arm's-length arrangement with Z to use the auditorium for 1 week for each year for a 4-year period (a total of 28 days), pursuant to which H will be charged a specific price reflecting fair market value. H is not treated as a private business user of the auditorium because its contract satisfies the exception of paragraph (d)(3)(ii) of this section for negotiated arm's-length arrangements.

(g) *Measurement of private business use—(1) In general.* In general, the private business use of proceeds is allocated to property under § 1.141-6. The amount of private business use of that property is determined according to the average percentage of private busi-

ness use of that property during the measurement period.

(2) *Measurement period—(i) General rule.* Except as provided in this paragraph (g)(2), the measurement period of property financed by an issue begins on the later of the issue date of that issue or the date the property is placed in service and ends on the earlier of the last date of the reasonably expected economic life of the property or the latest maturity date of any bond of the issue financing the property (determined without regard to any optional redemption dates). In general, the period of reasonably expected economic life of the property for this purpose is based on reasonable expectations as of the issue date.

(ii) *Special rule for refundings of short-term obligations.* For an issue of short-term obligations that the issuer reasonably expects to refund with a long-term financing (such as bond anticipation notes), the measurement period is based on the latest maturity date of any bond of the last refunding issue with respect to the financed property (determined without regard to any optional redemption dates).

(iii) *Special rule for reasonably expected mandatory redemptions.* If an issuer reasonably expects on the issue date that an action will occur during the term of the bonds to cause either the private business tests or the private loan financing test to be met and is required to redeem bonds to meet the reasonable expectations test of § 1.141-2(d)(2), the measurement period ends on the reasonably expected redemption date.

(iv) *Special rule for ownership by a nongovernmental person.* The amount of private business use resulting from ownership by a nongovernmental person is the greatest percentage of private business use in any 1-year period.

(v) *Special rule for partners that are nongovernmental persons—(A)* The amount of private business use by a nongovernmental person resulting from the use of property by a partnership in which that nongovernmental person is a partner is that nongovernmental partner's share of the amount of use of the property by the partnership. For this purpose, except as otherwise provided in paragraph (g)(2)(v)(B)

of this section, a nongovernmental partner's share of the partnership's use of the property is the nongovernmental partner's greatest percentage share under section 704(b) of any partnership item of income, gain, loss, deduction, or credit attributable to the period that the partnership uses the property during the measurement period. For example, if a partnership has a nongovernmental partner and that partner's share of partnership items varies, with the greatest share being 25 percent, then that nongovernmental partner's share of the partnership's use of property is 25 percent.

(B) An issuer may determine a nongovernmental partner's share of the partnership's use of the property under guidance published in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter).

(vi) *Anti-abuse rule.* If an issuer establishes the term of an issue for a period that is longer than is reasonably necessary for the governmental purposes of the issue for a principal purpose of increasing the permitted amount of private business use, the Commissioner may determine the amount of private business use according to the greatest percentage of private business use in any 1-year period.

(3) *Determining average percentage of private business use.* The average percentage of private business use is the average of the percentages of private business use during the 1-year periods within the measurement period. Appropriate adjustments must be made for beginning and ending periods of less than 1 year.

(4) *Determining the average amount of private business use for a 1-year period—*

(i) *In general.* The percentage of private business use of property for any 1-year period is the average private business use during that year. This average is determined by comparing the amount of private business use during the year to the total amount of private business use and use that is not private business use (government use) during that year. Paragraphs (g)(4) (ii) through (v) of this section apply to determine the average amount of private business use for a 1-year period.

(ii) *Uses at different times.* For a facility in which actual government use

and private business use occur at different times (for example, different days), the average amount of private business use generally is based on the amount of time that the facility is used for private business use as a percentage of the total time for all actual use. In determining the total amount of actual use, periods during which the facility is not in use are disregarded.

(iii) *Simultaneous use.* In general, for a facility in which government use and private business use occur simultaneously, the entire facility is treated as having private business use. For example, a governmentally owned facility that is leased or managed by a nongovernmental person in a manner that results in private business use is treated as entirely used for a private business use. If, however, there is also private business use and actual government use on the same basis, the average amount of private business use may be determined on a reasonable basis that properly reflects the proportionate benefit to be derived by the various users of the facility (for example, reasonably expected fair market value of use). For example, the average amount of private business use of a garage with unassigned spaces that is used for government use and private business use is generally based on the number of spaces used for private business use as a percentage of the total number of spaces.

(iv) *Discrete portion.* For purposes of this paragraph (g), measurement of the use of proceeds allocated to a discrete portion of a facility is determined by treating that discrete portion as a separate facility.

(v) *Relationship to fair market value.* For purposes of paragraphs (g)(4) (ii) through (iv) of this section, if private business use is reasonably expected as of the issue date to have a significantly greater fair market value than government use, the average amount of private business use must be determined according to the relative reasonably expected fair market values of use rather than another measure, such as average time of use. This determination of relative fair market value may be made as of the date the property is acquired or placed in service if making this determination as of the issue date

is not reasonably possible (for example, if the financed property is not identified on the issue date). In general, the relative reasonably expected fair market value for a period must be determined by taking into account the amount of reasonably expected payments for private business use for the period in a manner that properly reflects the proportionate benefit to be derived from the private business use.

(5) *Common areas.* The amount of private business use of common areas within a facility is based on a reasonable method that properly reflects the proportionate benefit to be derived by the users of the facility. For example, in general, a method that is based on the average amount of private business use of the remainder of the entire facility reflects proportionate benefit.

(6) *Allocation of neutral costs.* Proceeds that are used to pay costs of issuance, invested in a reserve or replacement fund, or paid as fees for a qualified guarantee or a qualified hedge must be allocated ratably among the other purposes for which the proceeds are used.

(7) *Commencement of measurement of private business use.* Generally, private business use commences on the first date on which there is a right to actual use by the nongovernmental person. However, if an issuer enters into an arrangement for private business use a substantial period before the right to actual private business use commences and the arrangement transfers ownership or is an arrangement for other long-term use (such as a lease for a significant portion of the remaining economic life of financed property), private business use commences on the date the arrangement is entered into, even if the right to actual use commences after the measurement period. For this purpose, 10 percent of the measurement period is generally treated as a substantial period.

(8) *Examples.* The following examples illustrate the application of this paragraph (g):

Example 1. Research facility. University U, a state owned and operated university, owns and operates a research facility. U proposes to finance general improvements to the facility with the proceeds of an issue of bonds. U enters into sponsored research agreements with nongovernmental persons that result in private business use because the sponsors

will own title to any patents resulting from the research. The governmental research conducted by U and the research U conducts for the sponsors take place simultaneously in all laboratories within the research facility. All laboratory equipment is available continuously for use by workers who perform both types of research. Because it is not possible to predict which research projects will be successful, it is not reasonably practicable to estimate the relative revenues expected to result from the governmental and nongovernmental research. U contributed 90 percent of the cost of the facility and the nongovernmental persons contributed 10 percent of the cost. Under this section, the nongovernmental persons are using the facility for a private business use on the same basis as the government use of the facility. The portions of the costs contributed by the various users of the facility provide a reasonable basis that properly reflects the proportionate benefit to be derived by the users of the facility. The nongovernmental persons are treated as using 10 percent of the proceeds of the issue.

Example 2. Stadium. (i) City L issues bonds and uses all of the proceeds to construct a stadium. L enters into a long-term contract with a professional sports team T under which T will use the stadium 20 times during each year. These uses will occur on nights and weekends. L reasonably expects that the stadium will be used more than 180 other times each year, none of which will give rise to private business use. This expectation is based on a feasibility study and historical use of the old stadium that is being replaced by the new stadium. There is no significant difference in the value of T's uses when compared to the other uses of the stadium, taking into account the payments that T is reasonably expected to make for its use. Assuming no other private business use, the issue does not meet the private business use test because not more than 10 percent of the use of the facility is for a private business use.

(ii) The facts are the same as in *Example 2(i)*, except that L reasonably expects that the stadium will be used not more than 60 other times each year, none of which will give rise to private business use. The issue meets the private business use test because 25 percent of the proceeds are used for a private business use.

Example 3. Airport terminal areas treated as common areas. City N issues bonds to finance the construction of an airport terminal. Eighty percent of the leasable space of the terminal will be leased to private air carriers. The remaining 20 percent of the leasable space will be used for the term of the bonds by N for its administrative purposes. The common areas of the terminal, including waiting areas, lobbies, and hallways

Internal Revenue Service, Treasury

§ 1.141-4

are treated as 80 percent used by the air carriers for purposes of the private business use test.

[T.D. 8712, 62 FR 2286, Jan. 16, 1997, as amended by T.D. 8967, 66 FR 58062, Nov. 20, 2001; T.D. 9741, 80 FR 65643, Oct. 27, 2015]

§ 1.141-4 Private security or payment test.

(a) *General rule*—(1) *Private security or payment*. The private security or payment test relates to the nature of the security for, and the source of, the payment of debt service on an issue. The private payment portion of the test takes into account the payment of the debt service on the issue that is directly or indirectly to be derived from payments (whether or not to the issuer or any related party) in respect of property, or borrowed money, used or to be used for a private business use. The private security portion of the test takes into account the payment of the debt service on the issue that is directly or indirectly secured by any interest in property used or to be used for a private business use or payments in respect of property used or to be used for a private business use. For additional rules for output facilities, see § 1.141-7.

(2) *Aggregation of private payments and security*. For purposes of the private security or payment test, payments taken into account as private payments and payments or property taken into account as private security are aggregated. However, the same payments are not taken into account as both private security and private payments.

(3) *Underlying arrangement*. The security for, and payment of debt service on, an issue is determined from both the terms of the bond documents and on the basis of any underlying arrangement. An underlying arrangement may result from separate agreements between the parties or may be determined on the basis of all of the facts and circumstances surrounding the issuance of the bonds. For example, if the payment of debt service on an issue is secured by both a pledge of the full faith and credit of a state or local governmental unit and any interest in property used or to be used in a private business use, the issue meets the private security or payment test.

(b) *Measurement of private payments and security*—(1) *Scope*. This paragraph (b) contains rules that apply to both private security and private payments.

(2) *Present value measurement*—(i) *Use of present value*. In determining whether an issue meets the private security or payment test, the present value of the payments or property taken into account is compared to the present value of the debt service to be paid over the term of the issue.

(ii) *Debt service*—(A) *Debt service paid from proceeds*. Debt service does not include any amount paid or to be paid from sale proceeds or investment proceeds. For example, debt service does not include payments of capitalized interest funded with proceeds.

(B) *Adjustments to debt service*. Debt service is adjusted to take into account payments and receipts that adjust the yield on an issue for purposes of section 148(f). For example, debt service includes fees paid for qualified guarantees under § 1.148-4(f) and is adjusted to take into account payments and receipts on qualified hedges under § 1.148-4(h).

(iii) *Computation of present value*—(A) *In general*. Present values are determined by using the yield on the issue as the discount rate and by discounting all amounts to the issue date. See, however, § 1.141-13 for special rules for refunding bonds.

(B) *Fixed yield issues*. For a fixed yield issue, yield is determined on the issue date and is not adjusted to take into account subsequent events.

(C) *Variable yield issues*. The yield on a variable yield issue is determined over the term of the issue. To determine the reasonably expected yield as of any date, the issuer may assume that the future interest rate on a variable yield bond will be the then-current interest rate on the bonds determined under the formula prescribed in the bond documents. A deliberate action requires a recomputation of the yield on the variable yield issue to determine the present value of payments under that arrangement. In that case, the issuer must use the yield determined as of the date of the deliberate action for purposes of determining the present value of payments under the

arrangement causing the deliberate action. See paragraph (g) of this section, *Example 3*.

(iv) *Application to private security*. For purposes of determining the present value of debt service that is secured by property, the property is valued at fair market value as of the first date on which the property secures bonds of the issue.

(c) *Private payments*—(1) *In general*. This paragraph (c) contains rules that apply to private payments.

(2) *Payments taken into account*—(i) *Payments for use*—(A) *In general*. Both direct and indirect payments made by any nongovernmental person that is treated as using proceeds of the issue are taken into account as private payments to the extent allocable to the proceeds used by that person. Payments are taken into account as private payments only to the extent that they are made for the period of time that proceeds are used for a private business use. Payments for a use of proceeds include payments (whether or not to the issuer) in respect of property financed (directly or indirectly) with those proceeds, even if not made by a private business user. Payments are not made in respect of financed property if those payments are directly allocable to other property being directly used by the person making the payment and those payments represent fair market value compensation for that other use. See paragraph (g) of this section, *Example 4* and *Example 5*. See also paragraph (c)(3) of this section for rules relating to allocation of payments to the source or sources of funding of property.

(B) *Payments not to exceed use*. Payments with respect to proceeds that are used for a private business use are not taken into account to the extent that the present value of those payments exceeds the present value of debt service on those proceeds. Payments need not be directly derived from a private business user, however, to be taken into account. Thus, if 7 percent of the proceeds of an issue is used by a person over the measurement period, payments with respect to the property financed with those proceeds are taken into account as private payments only to the extent that the present value of

those payments does not exceed the present value of 7 percent of the debt service on the issue.

(C) *Payments for operating expenses*. Payments by a person for a use of proceeds do not include the portion of any payment that is properly allocable to the payment of ordinary and necessary expenses (as defined under section 162) directly attributable to the operation and maintenance of the financed property used by that person. For this purpose, general overhead and administrative expenses are not directly attributable to those operations and maintenance. For example, if an issuer receives \$5,000 rent during the year for use of space in a financed facility and during the year pays \$500 for ordinary and necessary expenses properly allocable to the operation and maintenance of that space and \$400 for general overhead and general administrative expenses properly allocable to that space, \$500 of the \$5,000 received would not be considered a payment for the use of the proceeds allocable to that space (regardless of the manner in which that \$500 is actually used).

(ii) *Refinanced debt service*. Payments of debt service on an issue to be made from proceeds of a refunding issue are taken into account as private payments in the same proportion that the present value of the payments taken into account as private payments for the refunding issue bears to the present value of the debt service to be paid on the refunding issue. For example, if all the debt service on a note is paid with proceeds of a refunding issue, the note meets the private security or payment test if (and to the same extent that) the refunding issue meets the private security or payment test. This paragraph (c)(2)(ii) does not apply to payments that arise from deliberate actions that occur more than 3 years after the retirement of the prior issue that are not reasonably expected on the issue date of the refunding issue. For purposes of this paragraph (c)(2)(ii), whether an issue is a refunding issue is determined without regard to § 1.150-1(d)(2)(i) (relating to certain payments of interest).

(3) *Allocation of payments*—(i) *In general*. Private payments for the use of property are allocated to the source or

different sources of funding of property. The allocation to the source or different sources of funding is based on all of the facts and circumstances, including whether an allocation is consistent with the purposes of section 141. In general, a private payment for the use of property is allocated to a source of funding based upon the nexus between the payment and both the financed property and the source of funding. For this purpose, different sources of funding may include different tax-exempt issues, taxable issues, and amounts that are not derived from a borrowing, such as revenues of an issuer (equity).

(ii) *Payments for use of discrete property.* Payments for the use of a discrete facility (or a discrete portion of a facility) are allocated to the source or different sources of funding of that discrete property.

(iii) *Allocations among two or more sources of funding.* In general, except as provided in paragraphs (c)(3)(iv) and (v) of this section, if a payment is made for the use of property financed with two or more sources of funding (for example, equity and a tax-exempt issue), that payment must be allocated to those sources of funding in a manner that reasonably corresponds to the relative amounts of those sources of funding that are expended on that property. If an issuer has not retained records of amounts expended on the property (for example, records of costs of a building that was built 30 years before the allocation), an issuer may use reasonable estimates of those expenditures. For this purpose, costs of issuance and other similar neutral costs are allocated ratably among expenditures in the same manner as in § 1.141-3(g)(6). A payment for the use of property may be allocated to two or more issues that finance property according to the relative amounts of debt service (both paid and accrued) on the issues during the annual period for which the payment is made, if that allocation reasonably reflects the economic substance of the arrangement. In general, allocations of payments according to relative debt service reasonably reflect the economic substance of the arrangement if the maturity of the bonds reasonably corresponds to the reasonably

expected economic life of the property and debt service payments on the bonds are approximately level from year to year.

(iv) *Payments made under an arrangement entered into in connection with issuance of bonds.* A private payment for the use of property made under an arrangement that is entered into in connection with the issuance of the issue that finances that property generally is allocated to that issue. Whether an arrangement is entered into in connection with the issuance of an issue is determined on the basis of all of the facts and circumstances. An arrangement is ordinarily treated as entered into in connection with the issuance of an issue if—

(A) The issuer enters into the arrangement during the 3-year period beginning 18 months before the issue date; and

(B) The amount of payments reflects all or a portion of debt service on the issue.

(v) *Allocations to equity.* A private payment for the use of property may be allocated to equity before payments are allocated to an issue only if—

(A) Not later than 60 days after the date of the expenditure of those amounts, the issuer adopts an official intent (in a manner comparable to § 1.150-2(e)) indicating that the issuer reasonably expects to be repaid for the expenditure from a specific arrangement; and

(B) The private payment is made not later than 18 months after the later of the date the expenditure is made or the date the project is placed in service.

(d) *Private security—(1) In general.* This paragraph (d) contains rules that relate to private security.

(2) *Security taken into account.* The property that is the security for, or the source of, the payment of debt service on an issue need not be property financed with proceeds. For example, unimproved land or investment securities used, directly or indirectly, in a private business use that secures an issue provides private security. Private security (other than financed property and private payments) for an issue is taken into account under section 141(b), however, only to the extent it is provided,

directly or indirectly, by a user of proceeds of the issue.

(3) *Pledge of unexpended proceeds.* Proceeds qualifying for an initial temporary period under § 1.148-2(e)(2) or (3) or deposited in a reasonably required reserve or replacement fund (as defined in § 1.148-2(f)(2)(i)) are not taken into account under this paragraph (d) before the date on which those amounts are either expended or loaned by the issuer to an unrelated party.

(4) *Secured by any interest in property or payments.* Property used or to be used for a private business use and payments in respect of that property are treated as private security if any interest in that property or payments secures the payment of debt service on the bonds. For this purpose, the phrase any interest in is to be interpreted broadly and includes, for example, any right, claim, title, or legal share in property or payments.

(5) *Payments in respect of property.* The payments taken into account as private security are payments in respect of property used or to be used for a private business use. Except as otherwise provided in this paragraph (d)(5) and paragraph (d)(6) of this section, the rules in paragraphs (c)(2)(i)(A) and (B) and (c)(2)(ii) of this section apply to determine the amount of payments treated as payments in respect of property used or to be used for a private business use. Thus, payments made by members of the general public for use of a facility used for a private business use (for example, a facility that is the subject of a management contract that results in private business use) are taken into account as private security to the extent that they are made for the period of time that property is used by a private business user.

(6) *Allocation of security among issues.* In general, property or payments from the disposition of that property that are taken into account as private security are allocated to each issue secured by the property or payments on a reasonable basis that takes into account bondholders' rights to the payments or property upon default.

(e) *Generally applicable taxes—(1) General rule.* For purposes of the private security or payment test, generally applicable taxes are not taken into ac-

count (that is, are not payments from a nongovernmental person and are not payments in respect of property used for a private business use).

(2) *Definition of generally applicable taxes.* A generally applicable tax is an enforced contribution exacted pursuant to legislative authority in the exercise of the taxing power that is imposed and collected for the purpose of raising revenue to be used for governmental or public purposes. A generally applicable tax must have a uniform tax rate that is applied to all persons of the same classification in the appropriate jurisdiction and a generally applicable manner of determination and collection.

(3) *Special charges.* A special charge (as defined in this paragraph (e)(3)) is not a generally applicable tax. For this purpose, a special charge means a payment for a special privilege granted or regulatory function (for example, a license fee), a service rendered (for example, a sanitation services fee), a use of property (for example, rent), or a payment in the nature of a special assessment to finance capital improvements that is imposed on a limited class of persons based on benefits received from the capital improvements financed with the assessment. Thus, a special assessment to finance infrastructure improvements in a new industrial park (such as sidewalks, streets, streetlights, and utility infrastructure improvements) that is imposed on a limited class of persons composed of property owners within the industrial park who benefit from those improvements is a special charge. By contrast, an otherwise qualified generally applicable tax (such as a generally applicable ad valorem tax on all real property within a governmental taxing jurisdiction) or an eligible PILOT under paragraph (e)(5) of this section that is based on such a generally applicable tax is not treated as a special charge merely because the taxes or PILOTs received are used for governmental or public purposes in a manner which benefits particular property owners.

(4) *Manner of determination and collection—(i) In general.* A tax does not have a generally applicable manner of determination and collection to the extent that one or more taxpayers make any

impermissible agreements relating to payment of those taxes. An impermissible agreement relating to the payment of a tax is taken into account whether or not it is reasonably expected to result in any payments that would not otherwise have been made. For example, if an issuer uses proceeds to make a grant to a taxpayer to improve property, agreements that impose reasonable conditions on the use of the grant do not cause a tax on that property to fail to be a generally applicable tax. If an agreement by a taxpayer causes the tax imposed on that taxpayer not to be treated as a generally applicable tax, the entire tax paid by that taxpayer is treated as a special charge, unless the agreement is limited to a specific portion of the tax.

(ii) *Impermissible agreements.* The following are examples of agreements that cause a tax to fail to have a generally applicable manner of determination and collection: an agreement to be personally liable on a tax that does not generally impose personal liability, to provide additional credit support such as a third party guarantee, or to pay unanticipated shortfalls; an agreement regarding the minimum market value of property subject to property tax; and an agreement not to challenge or seek deferral of the tax.

(iii) *Permissible agreements.* The following are examples of agreements that do not cause a tax to fail to have a generally applicable manner of determination and collection: an agreement to use a grant for specified purposes (whether or not that agreement is secured); a representation regarding the expected value of the property following the improvement; an agreement to insure the property and, if damaged, to restore the property; a right of a grantor to rescind the grant if property taxes are not paid; and an agreement to reduce or limit the amount of taxes collected to further a bona fide governmental purpose. For example, an agreement to abate taxes to encourage a property owner to rehabilitate property in a distressed area is a permissible agreement.

(5) *Payments in lieu of taxes.* A tax equivalency payment or other payment in lieu of a tax ("PILOT") is treated as a generally applicable tax if it meets

the requirements of paragraphs (e)(5)(i) through (iv) of this section—

(i) *Maximum amount limited by underlying generally applicable tax.* The PILOT is not greater than the amount imposed by a statute for a generally applicable tax in each year.

(ii) *Commensurate with a generally applicable tax.* The PILOT is commensurate with the amount imposed by a statute for a generally applicable tax in each year under the commensurate standard set forth in this paragraph (e)(5)(ii). For this purpose, except as otherwise provided in this paragraph (e)(5)(ii), a PILOT is commensurate with a generally applicable tax only if it is equal to a fixed percentage of the generally applicable tax that would otherwise apply in each year or it reflects a fixed adjustment to the generally applicable tax that would otherwise apply in each year. A PILOT based on a property tax does not fail to be commensurate with the property tax as a result of changes in the level of the percentage of or adjustment to that property tax for a reasonable phase-in period ending when the subject property is placed in service (as defined in § 1.150-2(c)). A PILOT based on a property tax must take into account the current assessed value of the property for property tax purposes for each year in which the PILOT is paid and that assessed value must be determined in the same manner and with the same frequency as property subject to the property tax. A PILOT is not commensurate with a generally applicable tax, however, if the PILOT is set at a fixed dollar amount (for example, fixed debt service on a bond issue) that cannot vary with changes in the level of the generally applicable tax on which it is based.

(iii) *Use of PILOTs for governmental or public purposes.* The PILOT is to be used for governmental or public purposes for which the generally applicable tax on which it is based may be used.

(iv) *No special charges.* The PILOT is not a special charge under paragraph (e)(3) of this section.

(f) *Certain waste remediation bonds—(1) Scope.* This paragraph (f) applies to bonds issued to finance hazardous waste clean-up activities on privately

owned land (hazardous waste remediation bonds).

(2) *Persons that are not private users.* Payments from nongovernmental persons who are not (other than coincidentally) either users of the site being remediated or persons potentially responsible for disposing of hazardous waste on that site are not taken into account as private security. This paragraph (f)(2) applies to payments that secure (directly or indirectly) the payment of principal of, or interest on, the bonds under the terms of the bonds. This paragraph (f)(2) applies only if the payments are made pursuant to either a generally applicable state or local taxing statute or a state or local statute that regulates or restrains activities on an industry-wide basis of persons who are engaged in generating or handling hazardous waste, or in refining, producing, or transporting petroleum, provided that those payments do not represent, in substance, payment for the use of proceeds. For this purpose, a state or local statute that imposes payments that have substantially the same character as those described in Chapter 38 of the Code are treated as generally applicable taxes.

(3) *Persons that are private users.* If payments from nongovernmental persons who are either users of the site being remediated or persons potentially responsible for disposing of hazardous waste on that site do not secure (directly or indirectly) the payment of principal of, or interest on, the bonds under the terms of the bonds, the payments are not taken into account as private payments. This paragraph (f)(3) applies only if at the time the bonds are issued the payments from those nongovernmental persons are not material to the security for the bonds. For this purpose, payments are not material to the security for the bonds if—

(i) The payments are not required for the payment of debt service on the bonds;

(ii) The amount and timing of the payments are not structured or designed to reflect the payment of debt service on the bonds;

(iii) The receipt or the amount of the payments is uncertain (for example, as of the issue date, no final judgment has

been entered into against the nongovernmental person);

(iv) The payments from those nongovernmental persons, when and if received, are used either to redeem bonds of the issuer or to pay for costs of any hazardous waste remediation project; and

(v) In the case when a judgment (but not a final judgment) has been entered by the issue date against a nongovernmental person, there are, as of the issue date, costs of hazardous waste remediation other than those financed with the bonds that may be financed with the payments.

(g) *Examples.* The following examples illustrate the application of this section:

Example 1. Aggregation of payments. State B issues bonds with proceeds of \$10 million. B uses \$9.7 million of the proceeds to construct a 10-story office building. B uses the remaining \$300,000 of proceeds to make a loan to Corporation Y. In addition, Corporation X leases 1 floor of the building for the term of the bonds. Under all of the facts and circumstances, it is reasonable to allocate 10 percent of the proceeds to that 1 floor. As a percentage of the present value of the debt service on the bonds, the present value of Y's loan repayments is 3 percent and the present value of X's lease payments is 8 percent. The bonds meet the private security or payment test because the private payments taken into account are more than 10 percent of the present value of the debt service on the bonds.

Example 2. Indirect private payments. J, a political subdivision of a state, will issue several series of bonds from time to time and will use the proceeds to rehabilitate urban areas. Under all of the facts and circumstances, the private business use test will be met with respect to each issue that will be used for the rehabilitation and construction of buildings that will be leased or sold to nongovernmental persons for use in their trades or businesses. Nongovernmental persons will make payments for these sales and leases. There is no limitation either on the number of issues or the aggregate amount of bonds that may be outstanding. No group of bondholders has any legal claim prior to any other bondholders or creditors with respect to specific revenues of J, and there is no arrangement whereby revenues from a particular project are paid into a trust or constructive trust, or sinking fund, or are otherwise segregated or restricted for the benefit of any group of bondholders. There is, however, an unconditional obligation by J to pay the principal of, and the interest on, each issue. Although not directly

pledged under the terms of the bond documents, the leases and sales are underlying arrangements. The payments relating to these leases and sales are taken into account as private payments to determine whether each issue of bonds meets the private security or payment test.

Example 3. Computation of payment in variable yield issues. (i) City M issues general obligation bonds with proceeds of \$10 million to finance a 5-story office building. The bonds bear interest at a variable rate that is recomputed monthly according to an index that reflects current market yields. The yield that the interest index would produce on the issue date is 6 percent. M leases 1 floor of the office building to Corporation T, a nongovernmental person, for the term of the bonds. Under all of the facts and circumstances, T is treated as using more than 10 percent of the proceeds. Using the 6 percent yield as the discount rate, M reasonably expects on the issue date that the present value of lease payments to be made by T will be 8 percent of the present value of the total debt service on the bonds. After the issue date of the bonds, interest rates decline significantly, so that the yield on the bonds over their entire term is 4 percent. Using this actual 4 percent yield as the discount rate, the present value of lease payments made by T is 12 percent of the present value of the actual total debt service on the bonds. The bonds are not private activity bonds because M reasonably expected on the issue date that the bonds would not meet the private security or payment test and because M did not take any subsequent deliberate action to meet the private security or payment test.

(ii) The facts are the same as *Example 3(i)*, except that 5 years after the issue date M leases a second floor to Corporation S, a nongovernmental person, under a long-term lease. Because M has taken a deliberate action, the present value of the lease payments must be computed. On the date this lease is entered into, M reasonably expects that the yield on the bonds over their entire term will be 5.5 percent, based on actual interest rates to date and the then-current rate on the variable yield bonds. M uses this 5.5 percent yield as the discount rate. Using this 5.5 percent yield as the discount rate, as a percentage of the present value of the debt service on the bonds, the present value of the lease payments made by S is 3 percent. The bonds are private activity bonds because the present value of the aggregate private payments is greater than 10 percent of the present value of debt service.

Example 4. Payments not in respect of financed property. In order to further public safety, City Y issues tax assessment bonds the proceeds of which are used to move existing electric utility lines underground. Although the utility lines are owned by a non-

governmental utility company, that company is under no obligation to move the lines. The debt service on the bonds will be paid using assessments levied by City Y on the customers of the utility. Although the utility lines are privately owned and the utility customers make payments to the utility company for the use of those lines, the assessments are payments in respect of the cost of relocating the utility line. Thus, the assessment payments are not made in respect of property used for a private business use. Any direct or indirect payments to Y by the utility company for the undergrounding are, however, taken into account as private payments.

Example 5. Payments from users of proceeds that are not private business users taken into account. City P issues general obligation bonds to finance the renovation of a hospital that it owns. The hospital is operated for P by D, a nongovernmental person, under a management contract that results in private business use under § 1.141-3. P will use the revenues from the hospital (after the required payments to D and the payment of operation and maintenance expenses) to pay the debt service on the bonds. The bonds meet the private security or payment test because the revenues from the hospital are payments in respect of property used for a private business use.

Example 6. Limitation of amount of payments to amount of private business use not determined annually. City Q issues bonds with a term of 15 years and uses the proceeds to construct an office building. The debt service on the bonds is level throughout the 15-year term. Q enters into a 5-year lease with Corporation R under which R is treated as a user of 11 percent of the proceeds. R will make lease payments equal to 20 percent of the annual debt service on the bonds for each year of the lease. The present value of R's lease payments is equal to 12 percent of the present value of the debt service over the entire 15-year term of the bonds. If, however, the lease payments taken into account as private payments were limited to 11 percent of debt service paid in each year of the lease, the present value of these payments would be only 8 percent of the debt service on the bonds over the entire term of the bonds. The bonds meet the private security or payment test, because R's lease payments are taken into account as private payments in an amount not to exceed 11 percent of the debt service of the bonds.

Example 7. Allocation of payments to funds not derived from a borrowing. City Z purchases property for \$1,250,000 using \$1,000,000 of proceeds of its tax increment bonds and \$250,000 of other revenues that are in its redevelopment fund. Within 60 days of the date of purchase, Z declared its intent to sell the property pursuant to a redevelopment plan and

to use that amount to reimburse its redevelopment fund. The bonds are secured only by the incremental property taxes attributable to the increase in value of the property from the planned redevelopment of the property. Within 18 months after the issue date, Z sells the financed property to Developer M for \$250,000, which Z uses to reimburse the redevelopment fund. The property that M uses is financed both with the proceeds of the bonds and Z's redevelopment fund. The payments by M are properly allocable to the costs of property financed with the amounts in Z's redevelopment fund. See paragraphs (c)(3) (i) and (v) of this section.

Example 8. Allocation of payments to different sources of funding—improvements. In 1997, City L issues bonds with proceeds of \$8 million to finance the acquisition of a building. In 2002, L spends \$2 million of its general revenues to improve the heating system and roof of the building. At that time, L enters into a 10-year lease with Corporation M for the building providing for annual payments of \$1 million to L. The lease payments are at fair market value, and the lease payments do not otherwise have a significant nexus to either the issue or to the expenditure of general revenues. Eighty percent of each lease payment is allocated to the issue and is taken into account under the private payment test because each lease payment is properly allocated to the sources of funding in a manner that reasonably corresponds to the relative amounts of the sources of funding that are expended on the building.

Example 9. Security not provided by users of proceeds not taken into account. County W issues certificates of participation in a lease of a building that W owns and covenants to appropriate annual payments for the lease. A portion of each payment is specified as interest. More than 10 percent of the building is used for private business use. None of the proceeds of the obligations are used with respect to the building. W uses the proceeds of the obligations to make a grant to Corporation Y for the construction of a factory that Y will own. Y makes no payments to W, directly or indirectly, for its use of proceeds, and Y has no relationship to the users of the leased building. If W defaults under the lease, the trustee for the holders of the certificates of participation has a limited right of repossession under which the trustee may not foreclose but may lease the property to a new tenant at fair market value. The obligations are secured by an interest in property used for a private business use. However, because the property is not provided by a private business user and is not financed property, the obligations do not meet the private security or payment test.

Example 10. Allocation of payments among issues. University L, a political subdivision, issued three separate series of revenue bonds during 1989, 1991, and 1993 under the same

bond resolution. L used the proceeds to construct facilities exclusively for its own use. Bonds issued under the resolution are equally and ratably secured and payable solely from the income derived by L from rates, fees, and charges imposed by L for the use of the facilities. The bonds issued in 1989, 1991, and 1993 are not private activity bonds. In 1997, L issues another series of bonds under the resolution to finance additional facilities. L leases 20 percent of the new facilities for the term of the 1997 bonds to nongovernmental persons who will use the facilities in their trades or businesses. The present value of the lease payments from the nongovernmental users will equal 15 percent of the present value of the debt service on the 1997 bonds. L will commingle all of the revenues from all its bond-financed facilities in its revenue fund. The present value of the portion of the lease payments from nongovernmental lessees of the new facilities allocable to the 1997 bonds under paragraph (d) of this section is less than 10 percent of the present value of the debt service on the 1997 bonds because the bond documents provide that the bonds are equally and ratably secured. Accordingly, the 1997 bonds do not meet the private security test. The 1997 bonds meet the private payment test, however, because the private lease payments for the new facility are properly allocated to those bonds (that is, because none of the proceeds of the prior issues were used for the new facilities). See paragraph (c) of this section.

Example 11. Generally applicable tax. (i) Authority N issues bonds to finance the construction of a stadium. Under a long-term lease, Corporation X, a professional sports team, will use more than 10 percent of the stadium. X will not, however, make any payments for this private business use. The security for the bonds will be a ticket tax imposed on each person purchasing a ticket for an event at the stadium. The portion of the ticket tax attributable to tickets purchased by persons attending X's events will, on a present value basis, exceed 10 percent of the present value of the debt service on N's bonds. The bonds meet the private security or payment test. The ticket tax is not a generally applicable tax and, to the extent that the tax receipts relate to X's events, the taxes are payments in respect of property used for a private business use.

(ii) The facts are the same as *Example 11(i)*, except that the ticket tax is imposed by N on tickets purchased for events at a number of large entertainment facilities within the N's jurisdiction (for example, other stadiums, arenas, and concert halls), some of which were not financed with tax-exempt bonds. The ticket tax is a generally applicable tax and therefore the revenues from this tax are not payments in respect of property used for a private business use. The receipt of the

Internal Revenue Service, Treasury

§ 1.141-5

ticket tax does not cause the bonds to meet the private security or payment test.

[T.D. 8712, 62 FR 2291, Jan. 16, 1997, as amended by T.D. 9429, 73 FR 63374, Oct. 24, 2008]

§ 1.141-5 Private loan financing test.

(a) *In general.* Bonds of an issue are private activity bonds if more than the lesser of 5 percent or \$5 million of the proceeds of the issue is to be used (directly or indirectly) to make or finance loans to persons other than governmental persons. Section 1.141-2(d) applies in determining whether the private loan financing test is met. In determining whether the proceeds of an issue are used to make or finance loans, indirect, as well as direct, use of the proceeds is taken into account.

(b) *Measurement of test.* In determining whether the private loan financing test is met, the amount actually loaned to a nongovernmental person is not discounted to reflect the present value of the loan repayments.

(c) *Definition of private loan*—(1) *In general.* Any transaction that is generally characterized as a loan for federal income tax purposes is a loan for purposes of this section. In addition, a loan may arise from the direct lending of bond proceeds or may arise from transactions in which indirect benefits that are the economic equivalent of a loan are conveyed. Thus, the determination of whether a loan is made depends on the substance of a transaction rather than its form. For example, a lease or other contractual arrangement (for example, a management contract or an output contract) may in substance constitute a loan if the arrangement transfers tax ownership of the facility to a nongovernmental person. Similarly, an output contract or a management contract with respect to a financed facility generally is not treated as a loan of proceeds unless the agreement in substance shifts significant burdens and benefits of ownership to the nongovernmental purchaser or manager of the facility.

(2) *Application only to purpose investments*—(i) *In general.* A loan may be either a purpose investment or a nonpurpose investment. A loan that is a nonpurpose investment does not cause the private loan financing test to be met. For example, proceeds invested in

loans, such as obligations of the United States, during a temporary period, as part of a reasonably required reserve or replacement fund, as part of a refunding escrow, or as part of a minor portion (as each of those terms are defined in § 1.148-1 or § 1.148-2) are generally not treated as loans under the private loan financing test.

(ii) *Certain prepayments treated as loans.* Except as otherwise provided, a prepayment for property or services, including a prepayment for property or services that is made after the date that the contract to buy the property or services is entered into, is treated as a loan for purposes of the private loan financing test if a principal purpose for prepaying is to provide a benefit of tax-exempt financing to the seller. A prepayment is not treated as a loan for purposes of the private loan financing test if—

(A) Prepayments on substantially the same terms are made by a substantial percentage of persons who are similarly situated to the issuer but who are not beneficiaries of tax-exempt financing;

(B) The prepayment is made within 90 days of the reasonably expected date of delivery to the issuer of all of the property or services for which the prepayment is made; or

(C) The prepayment meets the requirements of § 1.148-1(e)(2)(iii)(A) or (B) (relating to certain prepayments to acquire a supply of natural gas or electricity).

(iii) *Customary prepayments.* The determination of whether a prepayment satisfies paragraph (c)(2)(ii)(A) of this section is generally made based on all the facts and circumstances. In addition, a prepayment is deemed to satisfy paragraph (c)(2)(ii)(A) of this section if—

(A) The prepayment is made for—

(1) Maintenance, repair, or an extended warranty with respect to personal property (for example, automobiles or electronic equipment); or

(2) Updates or maintenance or support services with respect to computer software; and

(B) The same maintenance, repair, extended warranty, updates or maintenance or support services, as applicable, are regularly provided to non-governmental persons on the same terms.

(iv) *Additional prepayments as permitted by the Commissioner.* The Commissioner may, by published guidance, set forth additional circumstances in which a prepayment is not treated as a loan for purposes of the private loan financing test.

(3) *Grants*—(i) *In general.* A grant of proceeds is not a loan. Whether a transaction may be treated as a grant or a loan depends on all of the facts and circumstances.

(ii) *Tax increment financing*—(A) *In general.* Generally, a grant using proceeds of an issue that is secured by generally applicable taxes attributable to the improvements to be made with the grant is not treated as a loan, unless the grantee makes any impermissible agreements relating to the payment that results in the taxes imposed on that taxpayer not to be treated as generally applicable taxes under § 1.141-4(e).

(B) *Amount of loan.* If a grant is treated as a loan under this paragraph (c)(3), the entire grant is treated as a loan unless the impermissible agreement is limited to a specific portion of the tax. For this purpose, an arrangement with each unrelated grantee is treated as a separate grant.

(4) *Hazardous waste remediation bonds.* In the case of an issue of hazardous waste remediation bonds, payments from nongovernmental persons that are either users of the site being remediated or persons potentially responsible for disposing of hazardous waste on that site do not establish that the transaction is a loan for purposes of this section. This paragraph (c)(4) applies only if those payments do not secure the payment of principal of, or interest on, the bonds (directly or indirectly), under the terms of the bonds and those payments are not taken into account under the private payment test pursuant to § 1.141-4(f)(3).

(d) *Tax assessment loan exception*—(1) *General rule.* For purposes of this section, a tax assessment loan that satisfies the requirements of this paragraph

(d) is not a loan for purposes of the private loan financing test.

(2) *Tax assessment loan defined.* A tax assessment loan is a loan that arises when a governmental person permits or requires property owners to finance any governmental tax or assessment of general application for an essential governmental function that satisfies each of the requirements of paragraphs (d) (3) through (5) of this section.

(3) *Mandatory tax or other assessment.* The tax or assessment must be an enforced contribution that is imposed and collected for the purpose of raising revenue to be used for a specific purpose (that is, to defray the capital cost of an improvement). Taxes and assessments do not include fees for services. The tax or assessment must be imposed pursuant to a state law of general application that can be applied equally to natural persons not acting in a trade or business and persons acting in a trade or business. For this purpose, taxes and assessments that are imposed subject to protest procedures are treated as enforced contributions.

(4) *Specific essential governmental function*—(i) *In general.* A mandatory tax or assessment that gives rise to a tax assessment loan must be imposed for one or more specific, essential governmental functions.

(ii) *Essential governmental functions.* For purposes of paragraph (d) of this section, improvements to utilities and systems that are owned by a governmental person and that are available for use by the general public (such as sidewalks, streets and street-lights; electric, telephone, and cable television systems; sewage treatment and disposal systems; and municipal water facilities) serve essential governmental functions. For other types of facilities, the extent to which the service provided by the facility is customarily performed (and financed with governmental bonds) by governments with general taxing powers is a primary factor in determining whether the facility serves an essential governmental function. For example, parks that are owned by a governmental person and that are available for use by the general public serve an essential governmental function. Except as otherwise provided in this paragraph (d)(4)(ii),

commercial or industrial facilities and improvements to property owned by a nongovernmental person do not serve an essential governmental

function. Permitting installment payments of property taxes or other taxes is not an essential governmental function.

(5) *Equal basis requirement*—(i) *In general.* Owners of both business and non-business property benefiting from the financed improvements must be eligible, or required, to make deferred payments of the tax or assessment giving rise to a tax assessment loan on an equal basis (the equal basis requirement). A tax or assessment does not satisfy the equal basis requirement if the terms for payment of the tax or assessment are not the same for all taxed or assessed persons. For example, the equal basis requirement is not met if certain property owners are permitted to pay the tax or assessment over a period of years while others must pay the entire tax or assessment immediately or if only certain property owners are required to prepay the tax or assessment when the property is sold.

(ii) *General rule for guaranties.* A guarantee of debt service on bonds, or of taxes or assessments, by a person that is treated as a borrower of bond proceeds violates the equal basis requirement if it is reasonable to expect on the date the guarantee is entered into that payments will be made under the guarantee.

(6) *Coordination with private business tests.* See §§ 1.141-3 and 1.141-4 for rules for determining whether tax assessment loans cause the bonds financing those loans to be private activity bonds under the private business use and the private security or payment tests.

(e) *Examples.* The following examples illustrate the application of this section:

Example 1. Turnkey contract not treated as a loan. State agency Z and federal agency H will each contribute to rehabilitate a project owned by Z. H can only provide its funds through a contribution to Z to be used to acquire the rehabilitated project on a turnkey basis from an approved developer. Under H's turnkey program, the developer must own the project while it is rehabilitated. Z issues its notes to provide funds for construction. A portion of the notes will be retired using the H contribution, and the balance of the notes

will be retired through the issuance by Z of long-term bonds. Z lends the proceeds of its notes to Developer B as construction financing and transfers title to B for a nominal amount. The conveyance is made on condition that B rehabilitate the property and reconvey it upon completion, with Z retaining the right to force reconveyance if these conditions are not satisfied. B must name Z as an additional insured on all insurance. Upon completion, B must transfer title to the project back to Z at a set price, which price reflects B's costs and profit, not fair market value. Further, this price is adjusted downward to reflect any cost-underruns. For purposes of section 141(c), this transaction does not involve a private loan.

Example 2. Essential government function requirement not met. City D creates a special taxing district consisting of property owned by nongovernmental persons that requires environmental clean-up. D imposes a special tax on each parcel within the district in an amount that is related to the expected environmental clean-up costs of that parcel. The payment of the tax over a 20-year period is treated as a loan by the property owners for purposes of the private loan financing test. The special district issues bonds, acting on behalf of D, that are payable from the special tax levied within the district, and uses the proceeds to pay for the costs of environmental clean-up on the property within the district. The bonds meet the private loan financing test because more than 5 percent of the proceeds of the issue are loaned to nongovernmental persons. The issue does not meet the tax assessment loan exception because the improvements to property owned by a nongovernmental person are not an essential governmental function under section 141(c)(2). The issue also meets the private business tests of section 141(b).

[T.D. 8712, 62 FR 2296, Jan. 16, 1997, as amended by T.D. 9085, 68 FR 45775, Aug. 4, 2003]

§ 1.141-6 Allocation and accounting rules.

(a) *Allocations of proceeds to expenditures, projects, and uses in general*—(1) *Allocations to expenditures.* The allocations of proceeds and other sources of funds to expenditures under § 1.148-6(d) apply for purposes of §§ 1.141-1 through 1.141-15.

(2) *Allocations of sources to a project and its uses.* Except as provided in paragraph (b) of this section (regarding an eligible mixed-use project), if two or more sources of funding (including two

or more tax-exempt issues) are allocated to capital expenditures (as defined in § 1.150-1(b)) for a project (as defined in paragraph (a)(3) of this section), those sources are allocated throughout that project to the governmental use and private business use of the project in proportion to the relative amounts of those sources of funding spent on the project.

(3) *Definition of project*—(i) *In general.* For purposes of this section, *project* means one or more facilities or capital projects, including land, buildings, equipment, or other property, financed in whole or in part with proceeds of the issue.

(ii) *Output facilities.* If an output facility has multiple undivided ownership interests (respectively owned by governmental persons or by both governmental and nongovernmental persons), each owner's interest in the facility is treated as a separate facility for purposes of this section, provided that all owners of the undivided ownership interests share the ownership and output in proportion to their contributions to the capital costs of the output facility.

(b) *Special allocation rules for eligible mixed-use projects*—(1) *In general.* The sources of funding allocated to capital expenditures for an eligible mixed-use project (as defined in paragraph (b)(2) of this section) are allocated to undivided portions of the eligible mixed-use project and the governmental use and private business use of the eligible mixed-use project in accordance with this paragraph (b). Qualified equity (as defined in paragraph (b)(3) of this section) is allocated first to the private business use of the eligible mixed-use project and then to governmental use, and proceeds are allocated first to the governmental use and then to private business use, using the percentages of the eligible mixed-use project financed with the respective sources and the percentages of the respective uses. Thus, if the percentage of the eligible mixed-use project financed with qualified equity is less than the percentage of private business use of the project, all of the qualified equity is allocated to the private business use. Proceeds are allocated to the balance of the private business use of the project. Simi-

larly, if the percentage of the eligible mixed-use project financed with proceeds is less than the percentage of governmental use of the project, all of the proceeds are allocated to the governmental use, and qualified equity is allocated to the balance of the governmental use of the project. Further, if proceeds of more than one issue finance the eligible mixed-use project, proceeds of each issue are allocated ratably to the uses to which proceeds are allocated in proportion to the relative amounts of the proceeds of such issues allocated to the eligible mixed-use project. For private business use measured under § 1.141-3(g), qualified equity and proceeds are allocated to the uses of the eligible mixed-use project in each one-year period under § 1.141-3(g)(4). See *Example 1* of paragraph (f) of this section.

(2) *Definition of eligible mixed-use project.* *Eligible mixed-use project* means a project (as defined in paragraph (a)(3) of this section) that is financed with proceeds of bonds that, when issued, purported to be governmental bonds (as defined in § 1.150-1(b)) (the applicable bonds) and with qualified equity pursuant to the same plan of financing (within the meaning of § 1.150-1(c)(1)(ii)). An eligible mixed-use project must be wholly owned by one or more governmental persons or by a partnership in which at least one governmental person is a partner.

(3) *Definition of qualified equity.* For purposes of this section, *qualified equity* means proceeds of bonds that are not tax-advantaged bonds and funds that are not derived from proceeds of a borrowing that are spent on the same eligible mixed-use project as the proceeds of the applicable bonds. Qualified equity does not include equity interests in real property or tangible personal property. Further, qualified equity does not include funds used to redeem or repay governmental bonds. See §§ 1.141-2(d)(2)(ii) and 1.141-12(i) (regarding the effects of certain redemptions as remedial actions).

(4) *Same plan of financing.* Qualified equity finances a project under the same plan of financing that includes the applicable bonds if the qualified equity pays for capital expenditures of the project on a date that is no earlier

than a date on which such expenditures would be eligible for reimbursement by proceeds of the applicable bonds under § 1.150-2(d)(2) (regardless of whether the applicable bonds are reimbursement bonds) and, except for a reasonable retainage (within the meaning of § 1.148-7(h)), no later than the date on which the measurement period begins.

(c) *Allocations of private payments.* Except as provided in this paragraph (c), private payments for a project are allocated in accordance with § 1.141-4. Payments under an output contract that result in private business use of an eligible mixed-use project are allocated to the same source of funding (notwithstanding § 1.141-4(c)(3)(v) (regarding certain allocations of private payments to equity)) allocated to the private business use from such contract under paragraph (b) of this section.

(d) *Allocations of proceeds to common costs of an issue.* Proceeds used for expenditures for common costs (for example, issuance costs, qualified guarantee fees, or reasonably required reserve or replacement funds) are allocated in accordance with § 1.141-3(g)(6). Proceeds, as allocated under § 1.141-3(g)(6) to an eligible mixed-use project, are allocated to the uses of the project in the same proportions as the proceeds allocated to the uses under paragraph (b) of this section.

(e) *Allocations of proceeds to bonds.* In general, proceeds are allocated to bonds in accordance with the rules for allocations of proceeds to bonds for separate purposes of multipurpose issues in § 1.141-13(d). For an issue that is not a multipurpose issue (or is a multipurpose issue for which the issuer has not made a multipurpose allocation), proceeds are allocated to bonds ratably in a manner similar to the allocation of proceeds to projects under paragraph (a)(2) of this section.

(f) *Examples.* The following examples illustrate the application of this section:

Example 1. Mixed-use project. City A issues \$70x of bonds (the Bonds) and finances the construction of a 10-story office building costing \$100x (the Project) with proceeds of the Bonds and \$30x of qualified equity (the Qualified Equity). To the extent that the private business use of the Project does not exceed 30 percent in any particular year, the Qualified Equity is allocated to the private

business use. If private business use of the Project were, for example, 44 percent in a year, the Qualified Equity would be allocated to 30 percent (\$30x) private business use and proceeds of the Bonds would be allocated to the excess (that is, 14 percent or \$14x), resulting in private business use of the Bonds in that year of 20 percent (\$14x/\$70x). Conversely, if private business use of the Project were 20 percent, Qualified Equity would be allocated to that 20 percent. The remaining Qualified Equity (that is, 10 percent or \$10x) would be allocated to the governmental use in excess of the 70 percent to which the proceeds of the Bonds would be allocated.

Example 2. Mixed-use output facility. Authority A is a governmental person that owns and operates an electric transmission facility. Several years ago, Authority A used its equity to pay capital expenditures of \$1000x for the facility. Authority A wants to make capital improvements to the facility in the amount of \$100x (the Project). Authority A reasonably expects that, after completion of the Project, it will sell 46 percent of the available output of the facility, as determined under § 1.141-7, under output contracts that result in private business use and it will sell 54 percent of the available output of the facility for governmental use. On January 1, 2017, Authority A issues \$60x of bonds (the Bonds) and uses the proceeds of the Bonds and \$40x of qualified equity (the Qualified Equity) to finance the Project. The Qualified Equity is allocated to 40 of the 46 percent private business use resulting from the output contracts. Proceeds of the Bonds are allocated to the 54 percent governmental use and thereafter to the remaining 6 percent private business use.

Example 3. Subsequent improvements and replacements. County A owns a hospital, which opened in 2001, that it financed entirely with proceeds of bonds it issued in 1998 (the 1998 Bonds). In 2017, County A finances the cost of an addition to the hospital with proceeds of bonds (the 2017 Bonds) and qualified equity (the 2017 Qualified Equity). The original hospital is a project (the 1998 Project) and the addition is a project (the 2017 Project). Proceeds of the 2017 Bonds and the 2017 Qualified Equity are allocated to the 2017 Project. The 2017 Qualified Equity is allocated first to the private business use of the 2017 Project and then to the governmental use of the 2017 Project. Proceeds of the 2017 Bonds are allocated first to the governmental use of the 2017 Project and then to the private business use of that project. Neither proceeds of the 2017 Bonds nor 2017 Qualified Equity is allocated to the uses of the 1998 Project. Proceeds of the 1998 Bonds are not allocated to uses of the 2017 Project.

[T.D. 9741, 80 FR 65643, Oct. 27, 2015]

§ 1.141-7 Special rules for output facilities.

(a) *Overview.* This section provides special rules to determine whether arrangements for the purchase of output from an output facility cause an issue of bonds to meet the private business tests. For this purpose, unless otherwise stated, water facilities are treated as output facilities. Sections 1.141-3 and 1.141-4 generally apply to determine whether other types of arrangements for use of an output facility cause an issue to meet the private business tests.

(b) *Definitions.* For purposes of this section and § 1.141-8, the following definitions and rules apply:

(1) *Available output.* The available output of a facility financed by an issue is determined by multiplying the number of units produced or to be produced by the facility in one year by the number of years in the measurement period of that facility for that issue.

(i) *Generating facilities.* The number of units produced or to be produced by a generating facility in one year is determined by reference to its nameplate capacity or the equivalent (or where there is no nameplate capacity or the equivalent, its maximum capacity), which is not reduced for reserves, maintenance or other unutilized capacity.

(ii) *Transmission and other output facilities—(A) In general.* For transmission, distribution, cogeneration, and other output facilities, available output must be measured in a reasonable manner to reflect capacity.

(B) *Electric transmission facilities.* Measurement of the available output of all or a portion of electric transmission facilities may be determined in a manner consistent with the reporting rules and requirements for transmission networks promulgated by the Federal Energy Regulatory Commission (FERC). For example, for a transmission network, the use of aggregate load and load share ratios in a manner consistent with the requirements of the FERC may be reasonable. In addition, depending on the facts and circumstances, measurement of the available output of transmission facilities using thermal capacity or transfer capacity may be reasonable.

(iii) *Special rule for facilities with significant unutilized capacity.* If an issuer reasonably expects on the issue date that persons that are treated as private business users will purchase more than 30 percent of the actual output of the facility financed with the issue, the Commissioner may determine the number of units produced or to be produced by the facility in one year on a reasonable basis other than by reference to nameplate or other capacity, such as the average expected annual output of the facility. For example, the Commissioner may determine the available output of a financed peaking electric generating unit by reference to the reasonably expected annual output of that unit if the issuer reasonably expects, on the issue date of bonds that finance the unit, that an investor-owned utility will purchase more than 30 percent of the actual output of the facility during the measurement period under a take or pay contract, even if the amount of output purchased is less than 10 percent of the available output determined by reference to nameplate capacity. The reasonably expected annual output of the generating facility must be consistent with the capacity reported for prudent reliability purposes.

(iv) *Special rule for facilities with a limited source of supply.* If a limited source of supply constrains the output of an output facility, the number of units produced or to be produced by the facility must be determined by reasonably taking into account those constraints. For this purpose, a limited source of supply shall include a physical limitation (for example, flow of water), but not an economic limitation (for example, cost of coal or gas). For example, the available output of a hydroelectric unit must be determined by reference to the reasonably expected annual flow of water through the unit.

(2) *Measurement period.* The measurement period of an output facility financed by an issue is determined under § 1.141-3(g).

(3) *Sale at wholesale.* A sale at wholesale means a sale of output to any person for resale.

(4) *Take contract and take or pay contract.* A take contract is an output contract under which a purchaser agrees

to pay for the output under the contract if the output facility is capable of providing the output. A *take or pay contract* is an output contract under which a purchaser agrees to pay for the output under the contract, whether or not the output facility is capable of providing the output.

(5) *Requirements contract*. A *requirements contract* is an output contract, other than a take contract or a take or pay contract, under which a nongovernmental person agrees to purchase all or part of its output requirements.

(6) *Nonqualified amount*. The nonqualified amount with respect to an issue is determined under section 141(b)(8).

(c) *Output contracts*—(1) *General rule*. The purchase pursuant to a contract by a nongovernmental person of available output of an output facility (output contract) financed with proceeds of an issue is taken into account under the private business tests if the purchase has the effect of transferring the benefits of owning the facility and the burdens of paying the debt service on bonds used (directly or indirectly) to finance the facility (the benefits and burdens test). See paragraph (c)(4) of this section for the treatment of an output contract that is properly characterized as a lease for Federal income tax purposes. See paragraphs (d) and (e) of this section for rules regarding measuring the use of, and payments of debt service for, an output facility for determining whether the private business tests are met. See also § 1.141-8 for rules for when an issue that finances an output facility (other than a water facility) meets the private business tests because the nonqualified amount of the issue exceeds \$15 million.

(2) *Take contract or take or pay contract*. The benefits and burdens test is met if a nongovernmental person agrees pursuant to a take contract or a take or pay contract to purchase available output of a facility.

(3) *Requirements contract*—(i) *In general*. A requirements contract may satisfy the benefits and burdens test under paragraph (c)(3)(ii) or (iii) of this section. See § 1.141-15(f)(2) for special effective dates for the application of this paragraph (c)(3) to issues financing fa-

cilities subject to requirements contracts.

(ii) *Requirements contract similar to take contract or take or pay contract*. A requirements contract generally meets the benefits and burdens test to the extent that it contains contractual terms that obligate the purchaser to make payments that are not contingent on the output requirements of the purchaser or that obligate the purchaser to have output requirements. For example, a requirements contract with an industrial purchaser meets the benefits and burdens test if the purchaser enters into additional contractual obligations with the issuer or another governmental unit not to cease operations. A requirements contract does not meet the benefits and burdens test, however, by reason of a provision that requires the purchaser to pay reasonable and customary damages (including liquidated damages) in the event of a default, or a provision that permits the purchaser to pay a specified amount to terminate the contract while the purchaser has requirements, in each case if the amount of the payment is reasonably related to the purchaser's obligation to buy requirements that is discharged by the payment.

(iii) *Wholesale requirements contract*—(A) *In general*. A requirements contract that is a sale at wholesale (a *wholesale requirements contract*) may satisfy the benefits and burdens test, depending on all the facts and circumstances.

(B) *Significant factors*. Significant factors that tend to establish that a wholesale requirements contract meets the benefits and burdens test include, but are not limited to—

(1) The term of the contract is substantial relative to the term of the issue or issues that finance the facility; and

(2) The amount of output to be purchased under the contract represents a substantial portion of the available output of the facility.

(C) *Safe harbors*. A wholesale requirements contract does not meet the benefits and burdens test if—

(1) The term of the contract, including all renewal options, does not exceed the lesser of 5 years or 30 percent of the term of the issue; or

(2) The amount of output to be purchased under the contract (and any other requirements contract with the same purchaser or a related party with respect to the facility) does not exceed 5 percent of the available output of the facility.

(iv) *Retail requirements contract.* Except as otherwise provided in this paragraph (c)(3), a requirements contract that is not a sale at wholesale does not meet the benefits and burdens test.

(4) *Output contract properly characterized as a lease.* Notwithstanding any other provision of this section, an output contract that is properly characterized as a lease for Federal income tax purposes shall be tested under the rules contained in §§1.141-3 and 1.141-4 to determine whether it is taken into account under the private business tests.

(d) *Measurement of private business use.* If an output contract results in private business use under this section, the amount of private business use generally is the amount of output purchased under the contract.

(e) *Measurement of private security or payment.* The measurement of payments made or to be made by nongovernmental persons under output contracts as a percent of the debt service of an issue is determined under the rules provided in §1.141-4.

(f) *Exceptions for certain contracts—(1) Small purchases of output.* An output contract for the use of a facility is not taken into account under the private business tests if the average annual payments to be made under the contract do not exceed 1 percent of the average annual debt service on all outstanding tax-exempt bonds issued to finance the facility, determined as of the effective date of the contract.

(2) *Swapping and pooling arrangements.* An agreement that provides for swapping or pooling of output by one or more governmental persons and one or more nongovernmental persons does not result in private business use of the output facility owned by the governmental person to the extent that—

(i) The swapped output is reasonably expected to be approximately equal in value (determined over periods of three years or less); and

(ii) The purpose of the agreement is to enable each of the parties to satisfy different peak load demands, to accommodate temporary outages, to diversify supply, or to enhance reliability in accordance with prudent reliability standards.

(3) *Short-term output contracts.* An output contract with a nongovernmental person is not taken into account under the private business tests if—

(i) The term of the contract, including all renewal options, is not longer than 3 years;

(ii) The contract either is a negotiated, arm's-length arrangement that provides for compensation at fair market value, or is based on generally applicable and uniformly applied rates; and

(iii) The output facility is not financed for a principal purpose of providing that facility for use by that nongovernmental person.

(4) *Certain conduit parties disregarded.* A nongovernmental person acting solely as a conduit for the exchange of output among governmentally owned and operated utilities is disregarded in determining whether the private business tests are met with respect to financed facilities owned by a governmental person.

(g) *Special rules for electric output facilities used to provide open access—(1) Operation of transmission facilities by nongovernmental persons—(i) In general.* The operation of an electric transmission facility by a nongovernmental person may result in private business use of the facility under §1.141-3 and this section based on all the facts and circumstances. For example, a transmission facility is generally used for a private business use if a nongovernmental person enters into a contract to operate the facility and receives compensation based, in whole or in part, on a share of net profits from the operation of the facility.

(ii) *Certain use by independent transmission operators.* A contract for the operation of an electric transmission facility by an independent entity, such as a regional transmission organization or an independent system operator (*independent transmission operator*), does

Internal Revenue Service, Treasury

§ 1.141-7

not constitute private business use of the facility if—

(A) The facility is owned by a governmental person;

(B) The operation of the facility by the independent transmission operator is approved by the FERC under one or more provisions of the Federal Power Act (16 U.S.C. 791a through 825r) (or by a state authority under comparable provisions of state law);

(C) No portion of the compensation of the independent transmission operator is based on a share of net profits from the operation of the facility; and

(D) The independent transmission operator does not bear risk of loss of the facility.

(2) *Certain use by nongovernmental persons under output contracts*—(i) *Transmission facilities*. The use of an electric transmission facility by a nongovernmental person pursuant to an output contract does not constitute private business use of the facility if—

(A) The facility is owned by a governmental person;

(B) The facility is operated by an independent transmission operator in a manner that satisfies paragraph (g)(1)(ii) of this section; and

(C) The facility is not financed for a principal purpose of providing that facility for use by that nongovernmental person.

(ii) *Distribution facilities*. The use of an electric distribution facility by a nongovernmental person pursuant to an output contract does not constitute private business use of the facility if—

(A) The facility is owned by a governmental person;

(B) The facility is available for use on a nondiscriminatory, open access basis by buyers and sellers of electricity in accordance with rates that are generally applicable and uniformly applied within the meaning of § 1.141-3(c)(2); and

(C) The facility is not financed for a principal purpose of providing that facility for use by that nongovernmental person (other than a retail end-user).

(3) *Ancillary services*. The use of an electric output facility to provide ancillary services required to be offered as part of an open access transmission tariff under rules promulgated by the FERC under the Federal Power Act (16

U.S.C. 791a through 825r) (or by a state regulatory authority under comparable provisions of state law) does not result in private business use.

(4) *Exceptions to deliberate action rules*—(i) *Mandated wheeling*. Entering into a contract for the use of electric transmission or distribution facilities is not treated as a deliberate action under § 1.141-2(d) if—

(A) The contract is entered into in response to (or in anticipation of) an order by the United States under sections 211 and 212 of the Federal Power Act (16 U.S.C. 824j and 824k) (or a state regulatory authority under comparable provisions of state law); and

(B) The terms of the contract are bona fide and arm's-length, and the consideration paid is consistent with the provisions of section 212(a) of the Federal Power Act.

(ii) *Actions taken to implement non-discriminatory, open access*. An action is not treated as a deliberate action under § 1.141-2(d) if it is taken to implement the offering of non-discriminatory, open access tariffs for the use of electric transmission or distribution facilities in a manner consistent with rules promulgated by the FERC under sections 205 and 206 of the Federal Power Act (16 U.S.C. 824d and 824e) (or comparable provisions of state law). This paragraph (g)(4)(ii) does not apply, however, to the sale, exchange, or other disposition (within the meaning of section 1001(a)) of transmission or distribution facilities to a nongovernmental person.

(iii) *Application of reasonable expectations test to certain current refunding bonds*. An action taken or to be taken with respect to electric transmission or distribution facilities refinanced by an issue is not taken into account under the reasonable expectations test of § 1.141-2(d) if—

(A) The action is described in paragraph (g)(4)(i) or (ii) of this section;

(B) The bonds of the issue are current refunding bonds that refund bonds originally issued before February 23, 1998; and

(C) The weighted average maturity of the refunding bonds is not greater than the remaining weighted average maturity of the prior bonds.

(5) *Additional transactions as permitted by the Commissioner.* The Commissioner may, by published guidance, set forth additional circumstances in which the use of electric output facilities in a restructured electric industry does not constitute private business use.

(h) *Allocations of output facilities and systems—(1) Facts and circumstances analysis.* Whether output sold under an output contract is allocated to a particular facility (for example, a generating unit), to the entire system of the seller of that output (net of any uses of that system output allocated to a particular facility), or to a portion of a facility is based on all the facts and circumstances. Significant factors to be considered in determining the allocation of an output contract to financed property are the following:

(i) The extent to which it is physically possible to deliver output to or from a particular facility or system.

(ii) The terms of a contract relating to the delivery of output (such as delivery limitations and options or obligations to deliver power from additional sources).

(iii) Whether a contract is entered into as part of a common plan of financing for a facility.

(iv) The method of pricing output under the contract, such as the use of market rates rather than rates designed to pay debt service of tax-exempt bonds used to finance a particular facility.

(2) *Illustrations.* The following illustrate the factors set forth in paragraph (h)(1) of this section:

(i) *Physical possibility.* Output from a generating unit that is fed directly into a low voltage distribution system of the owner of that unit and that cannot physically leave that distribution system generally must be allocated to those receiving electricity through that distribution system. Output may be allocated without regard to physical limitations, however, if exchange or similar agreements provide output to a purchaser where, but for the exchange agreements, it would not be possible for the seller to provide output to that purchaser.

(ii) *Contract terms relating to performance.* A contract to provide a specified amount of electricity from a system,

but only when at least that amount of electricity is being generated by a particular unit, is allocated to that unit. For example, a contract to buy 20 MW of system power with a right to take up to 40 percent of the actual output of a specific 50 MW facility whenever total system output is insufficient to meet all of the seller's obligations generally is allocated to the specific facility rather than to the system.

(iii) *Common plan of financing.* A contract entered into as part of a common plan of financing for a facility generally is allocated to the facility if debt service for the issue of bonds is reasonably expected to be paid, directly or indirectly, from payments under the contract.

(iv) *Pricing method.* Pricing based on the capital and generating costs of a particular turbine tends to indicate that output under the contract is properly allocated to that turbine.

(3) *Transmission and distribution contracts.* Whether use under an output contract for transmission or distribution is allocated to a particular facility or to a transmission or distribution network is based on all the facts and circumstances, in a manner similar to paragraphs (h)(1) and (2) of this section. In general, the method used to determine payments under a contract is a more significant contract term for this purpose than nominal contract path. In general, if reasonable and consistently applied, the determination of use of transmission or distribution facilities under an output contract may be based on a method used by third parties, such as reliability councils.

(4) *Allocation of payments.* Payments for output provided by an output facility financed with two or more sources of funding are generally allocated under the rules in § 1.141-4(c).

(i) *Examples.* The following examples illustrate the application of this section:

Example 1 Joint ownership. Z, an investor-owned electric utility, and City H agree to construct an electric generating facility of a size sufficient to take advantage of the economies of scale. H will issue \$50 million of its 24-year bonds, and Z will use \$100 million of its funds for construction of a facility they will jointly own as tenants in common. Each of the participants will share in the ownership, output, and operating expenses of

the facility in proportion to its contribution to the cost of the facility, that is, one-third by H and two-thirds by Z. H's bonds will be secured by H's ownership interest in the facility and by revenues to be derived from its share of the annual output of the facility. H will need only 50 percent of its share of the annual output of the facility during the first 20 years of operations. It agrees to sell 10 percent of its share of the annual output to Z for a period of 20 years pursuant to a contract under which Z agrees to take that power if available. The facility will begin operation, and Z will begin to receive power, 4 years after the H bonds are issued. The measurement period for the property financed by the issue is 20 years. H also will sell the remaining 40 percent of its share of the annual output to numerous other private utilities under contracts of three years or less that satisfy the exception under paragraph (f)(3) of this section. No other contracts will be executed obligating any person to purchase any specified amount of the power for any specified period of time. No person (other than Z) will make payments that will result in a transfer of the burdens of paying debt service on bonds used directly or indirectly to provide H's share of the facilities. The bonds are not private activity bonds, because H's one-third interest in the facility is not treated as used by the other owners of the facility. Although 10 percent of H's share of the annual output of the facility will be used in the trade or business of Z, a nongovernmental person, under this section, that portion constitutes not more than 10 percent of the available output of H's ownership interest in the facility.

Example 2 Wholesale requirements contract. (i) City J issues 20-year bonds to acquire an electric generating facility having a reasonably expected economic life substantially greater than 20 years and a nameplate capacity of 100 MW. The available output of the facility under paragraph (b)(1) of this section is approximately 17,520,000 MWh (100 MW $\times$ 24 hours $\times$ 365 days $\times$ 20 years). On the issue date, J enters into a contract with T, an investor-owned utility, to provide T with all of its power requirements for a period of 10 years, commencing on the issue date. J reasonably expects that T will actually purchase an average of 30 MW over the 10-year period. The contract is taken into account under the private business tests pursuant to paragraph (c)(3) of this section because the term of the contract is substantial relative to the term of the issue and the amount of output to be purchased is a substantial portion of the available output.

(ii) Under paragraph (d) of this section, the amount of reasonably expected private business use under this contract is approximately 15 percent (30 MW $\times$ 24 hours $\times$ 365 days $\times$ 10 years, or 2,628,000 MWh) of the available output. Accordingly, the issue

meets the private business use test. J reasonably expects that the amount to be paid for an average of 30 MW of power (less the operation and maintenance costs directly attributable to generating that 30 MW of power), will be more than 10 percent of debt service on the issue on a present-value basis. Accordingly, the issue meets the private security or payment test because J reasonably expects that payment of more than 10 percent of the debt service will be indirectly derived from payments by T. The bonds are private activity bonds under paragraph (c) of this section. Further, if 15 percent of the sale proceeds of the issue is greater than \$15 million and the issue meets the private security or payment test with respect to the \$15 million output limitation, the bonds are also private activity bonds under section 141(b)(4). See § 1.141-8.

Example 3 Retail contracts. (i) State Agency M, a political subdivision, issues bonds in 2003 to finance the construction of a generating facility that will be used to furnish electricity to M's retail customers. In 2007, M enters into a 10-year contract with industrial corporation I. Under the contract, M agrees to supply I with all of its power requirements during the contract term, and I agrees to pay for that power at a negotiated price as it is delivered. The contract does not require I to pay for any power except to the extent I has requirements. In addition, the contract requires I to pay reasonable and customary liquidated damages in the event of a default by I, and permits I to terminate the contract while it has requirements by paying M a specified amount that is a reasonable and customary amount for terminating the contract. Any damages or termination payment by I will be reasonably related to I's obligation to buy requirements that is discharged by the payment. Under paragraph (c)(3) of this section, the contract does not meet the benefits and burdens test. Thus, it is not taken into account under the private business tests.

(ii) The facts are the same as in paragraph (i) of this *Example 3*, except that the contract requires I to make guaranteed minimum payments, regardless of I's requirements, in an amount such that the contract does not meet the exception for small purchases in paragraph (f)(1) of this section. Under paragraph (c)(3)(ii) of this section, the contract meets the benefits and burdens test because it obligates I to make payments that are not contingent on its output requirements. Thus, it is taken into account under the private business tests.

Example 4 Allocation of existing contracts to new facilities. Power Authority K, a political subdivision created by the legislature in State X to own and operate certain power generating facilities, sells all of the power from its existing facilities to four private utility systems under contracts executed in

1999, under which the four systems are required to take or pay for specified portions of the total power output until the year 2029. Existing facilities supply all of the present needs of the four utility systems, but their future power requirements are expected to increase substantially beyond the capacity of K's current generating system. K issues 20-year bonds in 2004 to construct a large generating facility. As part of the financing plan for the bonds, a fifth private utility system contracts with K to take or pay for 15 percent of the available output of the new facility. The balance of the output of the new facility will be available for sale as required, but initially it is not anticipated that there will be any need for that power. The revenues from the contract with the fifth private utility system will be sufficient to pay less than 10 percent of the debt service on the bonds (determined on a present value basis). The balance, which will exceed 10 percent of the debt service on the bonds, will be paid from revenues derived from the contracts with the four systems initially from sale of power produced by the old facilities. The output contracts with all the private utilities are allocated to K's entire generating system. See paragraphs (h)(1) and (2) of this section. Thus, the bonds meet the private business use test because more than 10 percent of the proceeds will be used in the trade or business of a nongovernmental person. In addition, the bonds meet the private security or payment test because payment of more than 10 percent of the debt service, pursuant to underlying arrangements, will be derived from payments in respect of property used for a private business use.

Example 5 Allocation to displaced resource. Municipal utility MU, a political subdivision, purchases all of the electricity required to meet the needs of its customers (1,000 MW) from B, an investor-owned utility that operates its own electric generating facilities, under a 50-year take or pay contract. MU does not anticipate that it will require additional electric resources, and any new resources would produce electricity at a higher cost to MU than its cost under its contract with B. Nevertheless, B encourages MU to construct a new generating plant sufficient to meet MU's requirements. MU issues obligations to construct facilities that will produce 1,000 MW of electricity. MU, B, and I, another investor-owned utility, enter into an agreement under which MU assigns to I its rights under MU's take or pay contract with B. Under this arrangement, I will pay MU, and MU will continue to pay B, for the 1,000 MW. I's payments to MU will at least equal the amounts required to pay debt service on MU's bonds. In addition, under paragraph (h)(1)(iii) of this section, the contract among MU, B, and I is entered into as part of a common plan of financing of the MU facilities. Under all the facts and circumstances,

MU's assignment to I of its rights under the original take or pay contract is allocable to MU's new facilities under paragraph (h) of this section. Because I is a nongovernmental person, MU's bonds are private activity bonds.

Example 6 Operation of transmission facilities by regional transmission organization. (i) Public Power Agency D is a political subdivision that owns and operates electric generation, transmission and distribution facilities. In 2003, D transfers operating control of its transmission system to a regional transmission organization (RTO), a nongovernmental person, pursuant to an operating agreement that is approved by the FERC under sections 205 and 206 of the Federal Power Act. D retains ownership of its facilities. No portion of the RTO's compensation is based on a share of net profits from the operation of D's facilities, and the RTO does not bear any risk of loss of those facilities. Under paragraph (g)(1)(ii) of this section, the RTO's use of D's facilities does not constitute a private business use.

(ii) Company A is located in D's service territory. In 2004, Power Supplier E, a nongovernmental person, enters into a 10-year contract with A to supply A's electricity requirements. The electricity supplied by E to A will be transmitted over D's transmission and distribution facilities. D's distribution facilities are available for use on a non-discriminatory, open access basis by buyers and sellers of electricity in accordance with rates that are generally applicable and uniformly applied within the meaning of § 1.141-3(c)(2). D's facilities are not financed for a principal purpose of providing the facilities for use by E. Under paragraph (g)(2) of this section, the contract between A and E does not result in private business use of D's facilities.

Example 7 Certain actions not treated as deliberate actions. The facts are the same as in *Example 6* of this paragraph (i), except that the RTO's compensation is based on a share of net profits from operating D's facilities. In addition, D had issued bonds in 1994 to finance improvements to its transmission system. At the time D transfers operating control of its transmission system to the RTO, D chooses to apply the private activity bond regulations of §§ 1.141-1 through 1.141-15 to the 1994 bonds. The operation of D's facilities by the RTO results in private business use under § 1.141-3 and paragraph (g)(1)(i) of this section. Under the special exception in paragraph (g)(4)(ii) of this section, however, the transfer of control is not treated as a deliberate action. Accordingly, the transfer of control does not cause the 1994 bonds to meet the private activity bond tests.

Example 8 Current refunding. The facts are the same as in *Example 7* of this paragraph (i), and in addition D issues bonds in 2004 to

currently refund the 1994 bonds. The weighted average maturity of the 2004 bonds is not greater than the remaining weighted average maturity of the 1994 bonds. D chooses to apply the private activity bond regulations of §§ 1.141-1 through 1.141-15 to the refunding bonds. In general, reasonable expectations must be separately tested on the date that refunding bonds are issued under § 1.141-2(d). Under the special exception in paragraph (g)(4)(iii) of this section, however, the transfer of the financed facilities to the RTO need not be taken into account in applying the reasonable expectations test to the refunding bonds.

[T.D. 9016, 67 FR 59759, Sept. 23, 2002; 67 FR 70845, Nov. 27, 2002]

§ 1.141-8 \$15 million limitation for output facilities.

(a) *In general*—(1) *General rule.* Section 141(b)(4) provides a special private activity bond limitation (the \$15 million output limitation) for issues 5 percent or more of the proceeds of which are to be used to finance output facilities (other than a facility for the furnishing of water). Under this rule, an issue consists of private activity bonds under the private business tests of section 141(b)(1) and (2) if the nonqualified amount with respect to output facilities financed by the proceeds of the issue exceeds \$15 million. The \$15 million output limitation applies in addition to the private business tests of section 141(b)(1) and (2). Under section 141(b)(4) and paragraph (a)(2) of this section, the \$15 million output limitation is reduced in certain cases. Specifically, an issue meets the test in section 141(b)(4) if both of the following tests are met:

(i) More than \$15 million of the proceeds of the issue to be used with respect to an output facility are to be used for a private business use. Investment proceeds are disregarded for this purpose if they are not allocated disproportionately to the private business use portion of the issue.

(ii) The payment of the principal of, or the interest on, more than \$15 million of the sale proceeds of the portion of the issue used with respect to an output facility is (under the terms of the issue or any underlying arrangement) directly or indirectly—

(A) Secured by any interest in an output facility used or to be used for a

private business use (or payments in respect of such an output facility); or

(B) To be derived from payments (whether or not to the issuer) in respect of an output facility used or to be used for a private business use.

(2) *Reduction in \$15 million output limitation for outstanding issues*—(i) *General rule.* In determining whether an issue 5 percent or more of the proceeds of which are to be used with respect to an output facility consists of private activity bonds under the \$15 million output limitation, the \$15 million limitation on private business use and private security or payments is applied by taking into account the aggregate nonqualified amounts of any outstanding bonds of other issues 5 percent or more of the proceeds of which are or will be used with respect to that output facility or any other output facility that is part of the same project.

(ii) *Bonds taken into account.* For purposes of this paragraph (a)(2), in applying the \$15 million output limitation to an issue (the later issue), a tax-exempt bond of another issue (the earlier issue) is taken into account if—

(A) That bond is outstanding on the issue date of the later issue;

(B) That bond will not be redeemed within 90 days of the issue date of the later issue in connection with the refunding of that bond by the later issue; and

(C) 5 percent or more of the sale proceeds of the earlier issue financed an output facility that is part of the same project as the output facility that is financed by 5 percent or more of the sale proceeds of the later issue.

(3) *Benefits and burdens test applicable*—(i) *In general.* In applying the \$15 million output limitation, the benefits and burdens test of § 1.141-7 applies, except that “\$15 million” is applied in place of “10 percent”, or “5 percent” as appropriate.

(ii) *Earlier issues for the project.* If bonds of an earlier issue are outstanding and must be taken into account under paragraph (a)(2) of this section, the nonqualified amount for that earlier issue is multiplied by a fraction, the numerator of which is the adjusted issue price of the earlier issue as of the issue date of the later issue, and the denominator of which is the

issue price of the earlier issue. Pre-issuance accrued interest as defined in § 1.148-1(b) is disregarded for this purpose.

(b) *Definition of project*—(1) *General rule.* For purposes of paragraph (a)(2) of this section, *project* has the meaning provided in this paragraph. Facilities that are functionally related and subordinate to a project are treated as part of that same project. Facilities having different purposes or serving different customer bases are not ordinarily part of the same project. For example, the following are generally not part of the same project—

(i) Generation, transmission and distribution facilities;

(ii) Separate facilities designed to serve wholesale customers and retail customers; and

(iii) A peaking unit and a baseload unit (regardless of the location of the units).

(2) *Separate ownership.* Except as otherwise provided in this paragraph (b)(2), facilities that are not owned by the same person are not part of the same project. If different governmental persons act in concert to finance a project, however (for example as participants in a joint powers authority), their interests are aggregated with respect to that project to determine whether the \$15 million output limitation is met. In the case of undivided ownership interests in a single output facility, property that is not owned by different persons is treated as separate projects only if the separate interests are financed—

(i) With bonds of different issuers; and

(ii) Without a principal purpose of avoiding the limitation in this section.

(3) *Generating property*—(i) *Property on same site.* In the case of generation and related facilities, *project* means property located at the same site.

(ii) *Special rule for generating units.* Separate generating units are not part of the same project if one unit is reasonably expected, on the issue date of each issue that finances the units, to be placed in service more than 3 years before the other. Common facilities or property that will be functionally related to more than one generating unit must be allocated on a reasonable

basis. If a generating unit already is constructed or is under construction (the first unit) and bonds are to be issued to finance an additional generating unit (the second unit), all costs for any common facilities paid or incurred before the earlier of the issue date of bonds to finance the second unit or the commencement of construction of the second unit are allocated to the first unit. At the time that bonds are issued to finance the second unit (or, if earlier, upon commencement of construction of that unit), any remaining costs of the common facilities may be allocated between the first and second units so that in the aggregate the allocation is reasonable.

(4) *Transmission and distribution.* In the case of transmission or distribution facilities, *project* means functionally related or contiguous property. Separate transmission or distribution facilities are not part of the same project if one facility is reasonably expected, on the issue date of each issue that finances the facilities, to be placed in service more than 2 years before the other.

(5) *Subsequent improvements*—(i) In general. An improvement to generation, transmission or distribution facilities that is not part of the original design of those facilities (the original project) is not part of the same project as the original project if the construction, reconstruction, or acquisition of that improvement commences more than 3 years after the original project was placed in service and the bonds issued to finance that improvement are issued more than 3 years after the original project was placed in service.

(ii) *Special rule for transmission and distribution facilities.* An improvement to transmission or distribution facilities that is not part of the original design of that property is not part of the same project as the original project if the issuer did not reasonably expect the need to make that improvement when it commenced construction of the original project and the construction, reconstruction, or acquisition of that improvement is mandated by the federal government or a state regulatory authority to accommodate requests for wheeling.

(6) *Replacement property.* For purposes of this section, property that replaces existing property of an output facility is treated as part of the same project as the replaced property unless—

(i) The need to replace the property was not reasonably expected on the issue date or the need to replace the property occurred more than 3 years before the issuer reasonably expected (determined on the issue date of the bonds financing the property) that it would need to replace the property; and

(ii) The bonds that finance (and refinance) the output facility have a weighted average maturity that is not greater than 120 percent of the reasonably expected economic life of the facility.

(c) *Example.* The application of the provisions of this section is illustrated by the following example:

Example. (i) Power Authority K, a political subdivision, intends to issue a single issue of tax-exempt bonds at par with a stated principal amount and sale proceeds of \$500 million to finance the acquisition of an electric generating facility. No portion of the facility will be used for a private business use, except that L, an investor-owned utility, will purchase 10 percent of the output of the facility under a take contract and will pay 10 percent of the debt service on the bonds. The nonqualified amount with respect to the bonds is \$50 million.

(ii) The maximum amount of tax-exempt bonds that may be issued for the acquisition of an interest in the facility in paragraph (i) of this *Example* is \$465 million (that is, \$450 million for the 90 percent of the facility that is governmentally owned and used plus a nonqualified amount of \$15 million).

[T.D. 9016, 67 FR 59763, Sept. 23, 2002]

§ 1.141-9 Unrelated or disproportionate use test.

(a) *General rules*—(1) *Description of test.* Under section 141(b)(3) (the unrelated or disproportionate use test), an issue meets the private business tests if the amount of private business use and private security or payments attributable to unrelated or disproportionate private business use exceeds 5 percent of the proceeds of the issue. For this purpose, the private business use test is applied by taking into account only use that is not related to any government use of proceeds of the issue (unrelated use) and use that is related but disproportionate to any gov-

ernment use of those proceeds (disproportionate use).

(2) *Application of unrelated or disproportionate use test*—(i) *Order of application.* The unrelated or disproportionate use test is applied by first determining whether a private business use is related to a government use. Next, private business use that relates to a government use is examined to determine whether it is disproportionate to that government use.

(ii) *Aggregation of unrelated and disproportionate use.* All the unrelated use and disproportionate use financed with the proceeds of an issue are aggregated to determine compliance with the unrelated or disproportionate use test. The amount of permissible unrelated and disproportionate private business use is not reduced by the amount of private business use financed with the proceeds of an issue that is neither unrelated use nor disproportionate use.

(iii) *Deliberate actions.* A deliberate action that occurs after the issue date does not result in unrelated or disproportionate use if the issue meets the conditions of § 1.141-12(a).

(b) *Unrelated use*—(1) *In general.* Whether a private business use is related to a government use financed with the proceeds of an issue is determined on a case-by-case basis, emphasizing the operational relationship between the government use and the private business use. In general, a facility that is used for a related private business use must be located within, or adjacent to, the governmentally used facility.

(2) *Use for the same purpose as government use.* Use of a facility by a non-governmental person for the same purpose as use by a governmental person is not treated as unrelated use if the government use is not insignificant. Similarly, a use of a facility in the same manner both for private business use that is related use and private business use that is unrelated use does not result in unrelated use if the related use is not insignificant. For example, a privately owned pharmacy in a governmentally owned hospital does not ordinarily result in unrelated use solely because the pharmacy also serves individuals not using the hospital. In addition, use of parking spaces in a garage

by a nongovernmental person is not treated as unrelated use if more than an insignificant portion of the parking spaces are used for a government use (or a private business use that is related to a government use), even though the use by the nongovernmental person is not directly related to that other use.

(c) *Disproportionate use*—(1) *Definition of disproportionate use.* A private business use is disproportionate to a related government use only to the extent that the amount of proceeds used for that private business use exceeds the amount of proceeds used for the related government use. For example, a private use of \$100 of proceeds that is related to a government use of \$70 of proceeds results in \$30 of disproportionate use.

(2) *Aggregation of related uses.* If two or more private business uses of the proceeds of an issue relate to a single government use of those proceeds, those private business uses are aggregated to apply the disproportionate use test.

(3) *Allocation rule.* If a private business use relates to more than a single use of the proceeds of the issue (for example, two or more government uses of the proceeds of the issue or a government use and a private use), the amount of any disproportionate use may be determined by—

(i) Reasonably allocating the proceeds used for the private business use among the related uses;

(ii) Aggregating government uses that are directly related to each other; or

(iii) Allocating the private business use to the government use to which it is primarily related.

(d) *Maximum use taken into account.* The determination of the amount of unrelated use or disproportionate use of a facility is based on the maximum amount of reasonably expected government use of a facility during the measurement period. Thus, no unrelated use or disproportionate use arises solely because a facility initially has excess capacity that is to be used by a nongovernmental person if the facility will be completely used by the issuer during the term of the issue for more than an insignificant period.

(e) *Examples.* The following examples illustrate the application of this section:

Example 1. School and remote cafeteria. County X issues bonds with proceeds of \$20 million and uses \$18.1 million of the proceeds for construction of a new school building and \$1.9 million of the proceeds for construction of a privately operated cafeteria in its administrative office building, which is located at a remote site. The bonds are secured, in part, by the cafeteria. The \$1.9 million of proceeds is unrelated to the government use (that is, school construction) financed with the bonds and exceeds 5 percent of \$20 million. Thus, the issue meets the private business tests.

Example 2. Public safety building and courthouse. City Y issues bonds with proceeds of \$50 million for construction of a new public safety building (\$32 million) and for improvements to an existing courthouse (\$15 million). Y uses \$3 million of the bond proceeds for renovations to an existing privately operated cafeteria located in the courthouse. The bonds are secured, in part, by the cafeteria. Y's use of the \$3 million for the privately operated cafeteria does not meet the unrelated or disproportionate use test because these expenditures are neither unrelated use nor disproportionate use.

Example 3. Unrelated garage. City Y issues bonds with proceeds of \$50 million for construction of a new public safety building (\$30.5 million) and for improvements to an existing courthouse (\$15 million). Y uses \$3 million of the bond proceeds for renovations to an existing privately operated cafeteria located in the courthouse. The bonds are secured, in part, by the cafeteria. Y also uses \$1.5 million of the proceeds to construct a privately operated parking garage adjacent to a private office building. The private business use of the parking garage is unrelated to any government use of proceeds of the issue. Since the proceeds used for unrelated uses and disproportionate uses do not exceed 5 percent of the proceeds, the unrelated or disproportionate use test is not met.

Example 4. Disproportionate use of garage. County Z issues bonds with proceeds of \$20 million for construction of a hospital with no private business use (\$17 million); renovation of an office building with no private business use (\$1 million); and construction of a garage that is entirely used for a private business use (\$2 million). The use of the garage is related to the use of the office building but not to the use of the hospital. The private business use of the garage results in \$1 million of disproportionate use because the proceeds used for the garage (\$2 million) exceed the proceeds used for the related government use (\$1 million). The bonds are not private activity bonds, however, because the

disproportionate use does not exceed 5 percent of the proceeds of the issue.

Example 5. Bonds for multiple projects. (i) County W issues bonds with proceeds of \$80 million for the following purposes: (1) \$72 million to construct a County-owned and operated waste incinerator; (2) \$1 million for a County-owned and operated facility for the temporary storage of hazardous waste prior to final disposal; (3) \$1 million to construct a privately owned recycling facility located at a remote site; and (4) \$6 million to build a garage adjacent to the County-owned incinerator that will be leased to Company T to store and repair trucks that it owns and uses to haul County W refuse. Company T uses 75 percent of its trucks to haul materials to the incinerator and the remaining 25 percent of its trucks to haul materials to the temporary storage facility.

(ii) The \$1 million of proceeds used for the recycling facility is used for an unrelated use. The garage is related use. In addition, 75 percent of the use of the \$6 million of proceeds used for the garage is allocable to the government use of proceeds at the incinerator. The remaining 25 percent of the proceeds used for the garage (\$1.5 million) relates to the government use of proceeds at the temporary storage facility. Thus, this portion of the proceeds used for the garage exceeds the proceeds used for the temporary storage facility by \$0.5 million and this excess is disproportionate use (but not unrelated use). Thus, the aggregate amount of unrelated use and disproportionate use financed with the proceeds of the issue is \$1.5 million. Alternatively, under paragraph (c)(3)(iii) of this section, the entire garage may be treated as related to the government use of the incinerator and, under that allocation, the garage is not disproportionate use. In either event, section 141(b)(3) limits the aggregate unrelated use and disproportionate use to \$4 million. Therefore, the bonds are not private activity bonds under this section.

[T.D. 8712, 62 FR 2297, Jan. 16, 1997]

§ 1.141-10 Coordination with volume cap. [Reserved]

§ 1.141-11 Acquisition of nongovernmental output property. [Reserved]

§ 1.141-12 Remedial actions.

(a) *Conditions to taking remedial action.* An action that causes an issue to meet the private business tests or the private loan financing test is not treated as a deliberate action if the issuer takes a remedial action described in paragraph (d), (e), or (f) of this section with respect to the nonqualified bonds and if all of the requirements in para-

graphs (a) (1) through (5) of this section are met.

(1) *Reasonable expectations test met.* The issuer reasonably expected on the issue date that the issue would meet neither the private business tests nor the private loan financing test for the entire term of the bonds. For this purpose, if the issuer reasonably expected on the issue date to take a deliberate action prior to the final maturity date of the issue that would cause either the private business tests or the private loan financing test to be met, the term of the bonds for this purpose may be determined by taking into account a redemption provision if the provisions of § 1.141-2(d)(2)(ii) (A) through (C) are met.

(2) *Maturity not unreasonably long.* The term of the issue must not be longer than is reasonably necessary for the governmental purposes of the issue (within the meaning of § 1.148-1(c)(4)). Thus, this requirement is met if the weighted average maturity of the bonds of the issue is not greater than 120 percent of the average reasonably expected economic life of the property financed with the proceeds of the issue as of the issue date.

(3) *Fair market value consideration.* Except as provided in paragraph (f) of this section, the terms of any arrangement that results in satisfaction of either the private business tests or the private loan financing test are bona fide and arm's-length, and the new user pays fair market value for the use of the financed property. Thus, for example, fair market value may be determined in a manner that takes into account restrictions on the use of the financed property that serve a bona fide governmental purpose.

(4) *Disposition proceeds treated as gross proceeds for arbitrage purposes.* The issuer must treat any disposition proceeds as gross proceeds for purposes of section 148. For purposes of eligibility for temporary periods under section 148(c) and exemptions from the requirement of section 148(f) the issuer may treat the date of receipt of the disposition proceeds as the issue date of the bonds and disregard the receipt of disposition proceeds for exemptions based on expenditure of proceeds under

§ 1.148-7 that were met before the receipt of the disposition proceeds.

(5) *Proceeds expended on a governmental purpose.* Except for a remedial action under paragraph (d) of this section, the proceeds of the issue that are affected by the deliberate action must have been expended on a governmental purpose before the date of the deliberate action.

(b) *Effect of a remedial action*—(1) *In general.* The effect of a remedial action is to cure use of proceeds that causes the private business use test or the private loan financing test to be met. A remedial action does not affect application of the private security or payment test.

(2) *Effect on bonds that have been advance refunded.* If proceeds of an issue were used to advance refund another bond, a remedial action taken with respect to the refunding bond proportionately reduces the amount of proceeds of the advance refunded bond that is taken into account under the private business use test or the private loan financing test.

(c) *Disposition proceeds*—(1) *Definition.* *Disposition proceeds* are any amounts (including property, such as an agreement to provide services) derived from the sale, exchange, or other disposition (disposition) of property (other than investments) financed with the proceeds of an issue.

(2) *Allocating disposition proceeds to an issue.* In general, if the requirements of paragraph (a) of this section are met, after the date of the disposition, the proceeds of the issue allocable to the transferred property are treated as financing the disposition proceeds rather than the transferred property. If a disposition is made pursuant to an installment sale, the proceeds of the issue continue to be allocated to the transferred property. If an issue does not meet the requirements for remedial action in paragraph (a) of this section or the issuer does not take an appropriate remedial action, the proceeds of the issue are allocable to either the transferred property or the disposition proceeds, whichever allocation produces the greater amount of private business use and private security or payments.

(3) *Allocating disposition proceeds to different sources of funding.* If property

has been financed by different sources of funding, for purposes of this section, the disposition proceeds from that property are first allocated to the outstanding bonds that financed that property in proportion to the principal amounts of those outstanding bonds. In no event may disposition proceeds be allocated to bonds that are no longer outstanding or to a source of funding not derived from a borrowing (such as revenues of the issuer) if the disposition proceeds are not greater than the total principal amounts of the outstanding bonds that are allocable to that property. For purposes of this paragraph (c)(3), principal amount has the same meaning as in § 1.148-9(b)(2) and outstanding bonds do not include advance refunded bonds.

(d) *Redemption or defeasance of nonqualified bonds*—(1) *In general.* The requirements of this paragraph (d) are met if all of the nonqualified bonds of the issue are redeemed. Proceeds of tax-exempt bonds must not be used for this purpose, unless the tax-exempt bonds are qualified bonds, taking into account the purchaser's use of the facility. Except as provided in paragraph (d)(3) of this section, if the bonds are not redeemed within 90 days of the date of the deliberate action, a defeasance escrow must be established for those bonds within 90 days of the deliberate action.

(2) *Special rule for dispositions for cash.* If the consideration for the disposition of financed property is exclusively cash, the requirements of this paragraph (d) are met if the disposition proceeds are used to redeem a pro rata portion of the nonqualified bonds at the earliest call date after the deliberate action. If the bonds are not redeemed within 90 days of the date of the deliberate action, the disposition proceeds must be used to establish a defeasance escrow for those bonds within 90 days of the deliberate action.

(3) *Anticipatory remedial action.* The requirements of paragraphs (d)(1) and (2) of this section for redemption or defeasance of the nonqualified bonds within 90 days of the deliberate action are met if the issuer declares its official intent to redeem or defease all of

the bonds that would become nonqualified bonds in the event of a subsequent deliberate action that would cause the private business tests or the private loan financing test to be met and redeems or defeases such bonds prior to that deliberate action. The issuer must declare its official intent on or before the date on which it redeems or defeases such bonds, and the declaration of intent must identify the financed property or loan with respect to which the anticipatory remedial action is being taken and describe the deliberate action that potentially may result in the private business tests being met (for example, sale of financed property that the buyer may then lease to a nongovernmental person). Rules similar to those in § 1.150-2(e) (regarding official intent for reimbursement bonds) apply to declarations of intent under this paragraph (d)(3), including deviations in the descriptions of the project or loan and deliberate action and the reasonableness of the official intent.

(4) *Notice of defeasance.* The issuer must provide written notice to the Commissioner of the establishment of the defeasance escrow within 90 days of the date the defeasance escrow is established.

(5) *Special limitation.* The establishment of a defeasance escrow does not satisfy the requirements of this paragraph (d) if the period between the issue date and the first call date of the bonds is more than 10½ years.

(6) *Defeasance escrow defined.* A defeasance escrow is an irrevocable escrow established to redeem bonds on their earliest call date in an amount that, together with investment earnings, is sufficient to pay all the principal of, and interest and call premium on, bonds from the date the escrow is established to the earliest call date. The escrow may not be invested in higher yielding investments or in any investment under which the obligor is a user of the proceeds of the bonds.

(e) *Alternative use of disposition proceeds—(1) In general.* The requirements of this paragraph (e) are met if—

(i) The deliberate action is a disposition for which the consideration is exclusively cash;

(ii) The issuer reasonably expects to expend the disposition proceeds within two years of the date of the deliberate action;

(iii) The disposition proceeds are treated as proceeds for purposes of section 141 and are used in a manner that does not cause the issue to meet either the private business tests or the private loan financing test, and the issuer does not take any action subsequent to the date of the deliberate action to cause either of these tests to be met; and

(iv) If the issuer does not use all of the disposition proceeds for an alternative use described in paragraph (e)(1)(iii) of this section, the issuer uses those remaining disposition proceeds for a remedial action that meets paragraph (d) of this section.

(2) *Special rule for use by 501(c)(3) organizations.* If the disposition proceeds are to be used by a 501(c)(3) organization, the nonqualified bonds must in addition be treated as reissued for purposes of sections 141, 145, 147, 149, and 150 and, under this treatment, satisfy all of the applicable requirements for qualified 501(c)(3) bonds. Thus, beginning on the date of the deliberate action, nonqualified bonds that satisfy these requirements must be treated as qualified 501(c)(3) bonds for all purposes, including sections 145(b) and 150(b).

(f) *Alternative use of facility.* The requirements of this paragraph (f) are met if—

(1) The facility with respect to which the deliberate action occurs is used in an alternative manner (for example, used for a qualifying purpose by a nongovernmental person or used by a 501(c)(3) organization rather than a governmental person);

(2) The nonqualified bonds are treated as reissued, as of the date of the deliberate action, for purposes of sections 55 through 59 and 141, 142, 144, 145, 146, 147, 149 and 150, and under this treatment, the nonqualified bonds satisfy all the applicable requirements for qualified bonds throughout the remaining term of the nonqualified bonds;

(3) The deliberate action does not involve a disposition to a purchaser that finances the acquisition with proceeds

of another issue of tax-exempt bonds; and

(4) Any disposition proceeds other than those arising from an agreement to provide services (including disposition proceeds from an installment sale) resulting from the deliberate action are used to pay the debt service on the bonds on the next available payment date or, within 90 days of receipt, are deposited into an escrow that is restricted to the yield on the bonds to pay the debt service on the bonds on the next available payment date.

(g) *Rules for deemed reissuance.* For purposes of determining whether bonds that are treated as reissued under paragraphs (e) and (f) of this section are qualified bonds—

(1) The provisions of the Code and regulations thereunder in effect as of the date of the deliberate action apply; and

(2) For purposes of paragraph (f) of this section, section 147(d) (relating to the acquisition of existing property) does not apply.

(h) *Authority of Commissioner to provide for additional remedial actions.* The Commissioner may, by publication in the FEDERAL REGISTER or the Internal Revenue Bulletin, provide additional remedial actions, including making a remedial payment to the United States, under which a subsequent action will not be treated as a deliberate action for purposes of § 1.141-2.

(i) *Effect of remedial action on continuing compliance.* Solely for purposes of determining whether deliberate actions that are taken after a remedial action cause an issue to meet the private business tests or the private loan financing test—

(1) If a remedial action is taken under paragraph (d) of this section, the amount of private business use or private loans resulting from the deliberate action that is taken into account for purposes of determining whether the bonds are private activity bonds is that portion of the remaining bonds that is used for private business use or private loans (as calculated under paragraph (j) of this section);

(2) If a remedial action is taken under paragraph (e) or (f) of this section, the amount of private business use or private loans resulting from the

deliberate action is not taken into account for purposes of determining whether the bonds are private activity bonds; and

(3) After a remedial action is taken, the amount of disposition proceeds is treated as equal to the proceeds of the issue that had been allocable to the transferred property immediately prior to the disposition. See paragraph (k) of this section, *Example 5*.

(j) *Nonqualified bonds*—(1) *Amount of nonqualified bonds.* The nonqualified bonds are a portion of the outstanding bonds in an amount that, if the remaining bonds were issued on the date on which the deliberate action occurs, the remaining bonds would not meet the private business use test or private loan financing test, as applicable. For this purpose, the amount of private business use is the greatest percentage of private business use in any one-year period commencing with the one-year period in which the deliberate action occurs.

(2) *Allocation of nonqualified bonds.* Allocations of nonqualified bonds must be made on a pro rata basis, except that, for purposes of paragraph (d) of this section (relating to redemption or defeasance), an issuer may treat any bonds of an issue as the nonqualified bonds so long as—

(i) The remaining weighted average maturity of the issue, determined as of the date on which the nonqualified bonds are redeemed or defeased (determination date), and excluding from the determination the nonqualified bonds redeemed or defeased by the issuer in accordance with this section, is not greater than

(ii) The remaining weighted average maturity of the issue, determined as of the determination date, but without regard to the redemption or defeasance of any bonds (including the nonqualified bonds) occurring on the determination date.

(k) *Examples.* The following examples illustrate the application of this section:

Example 1 Disposition proceeds less than outstanding bonds used to retire bonds. On June 1, 1997, City C issues 30-year bonds with an issue price of \$10 million to finance the construction of a hospital building. The bonds have a weighted average maturity that does

not exceed 120 percent of the reasonably expected economic life of the building. On the issue date, C reasonably expects that it will be the only user of the building for the entire term of the bonds. Six years after the issue date, C sells the building to Corporation P for \$5 million. The sale price is the fair market value of the building, as verified by an independent appraiser. C uses all of the \$5 million disposition proceeds to immediately retire a pro rata portion of the bonds. The sale does not cause the bonds to be private activity bonds because C has taken a remedial action described in paragraph (d) of this section so that P is not treated as a private business user of bond proceeds.

Example 2. Lease to nongovernmental person. The facts are the same as in *Example 1*, except that instead of selling the building, C, 6 years after the issue date, leases the building to P for 7 years and uses other funds to redeem all of the \$10 million outstanding bonds within 90 days of the deliberate act. The bonds are not treated as private activity bonds because C has taken the remedial action described in paragraph (d) of this section.

Example 3. Sale for less than fair market value. The facts are the same as in *Example 1*, except that the fair market value of the building at the time of the sale to P is \$6 million. Because the transfer was for less than fair market value, the bonds are ineligible for the remedial actions under this section. The bonds are private activity bonds because P is treated as a user of all of the proceeds and P makes a payment (\$6 million) for this use that is greater than 10 percent of the debt service on the bonds, on a present value basis.

Example 4. Fair market value determined taking into account governmental restrictions. The facts are the same as in *Example 1*, except that the building was used by C only for hospital purposes and C determines to sell the building subject to a restriction that it be used only for hospital purposes. After conducting a public bidding procedure as required by state law, the best price that C is able to obtain for the building subject to this restriction is \$4.5 million from P. C uses all of the \$4.5 million disposition proceeds to immediately retire a pro rata portion of the bonds. The sale does not cause the bonds to be private activity bonds because C has taken a remedial action described in paragraph (d) of this section so that P is not treated as a private business user of bond proceeds.

Example 5. Alternative use of disposition proceeds. The facts are the same as in *Example 1*, except that C reasonably expects on the date of the deliberate action to use the \$5 million disposition proceeds for another governmental purpose (construction of governmentally owned roads) within two years of receipt, rather than using the \$5 million to

redeem outstanding bonds. C treats these disposition proceeds as gross proceeds for purposes of section 148. The bonds are not private activity bonds because C has taken a remedial action described in paragraph (e) of this section. After the date of the deliberate action, the proceeds of all of the outstanding bonds are treated as used for the construction of the roads, even though only \$5 million of disposition proceeds was actually used for the roads.

Example 6. Alternative use of financed property. The facts are the same as in *Example 1*, except that C determines to lease the hospital building to Q, an organization described in section 501(c)(3), for a term of 10 years rather than to sell the building to P. In order to induce Q to provide hospital services, C agrees to lease payments that are less than fair market value. Before entering into the lease, an applicable elected representative of C approves the lease after a noticed public hearing. As of the date of the deliberate action, the issue meets all the requirements for qualified 501(c)(3) bonds, treating the bonds as reissued on that date. For example, the issue meets the two percent restriction on use of proceeds of finance issuance costs of section 147(g) because the issue pays no costs of issuance from disposition proceeds in connection with the deemed reissuance. C and Q treat the bonds as qualified 501(c)(3) bonds for all purposes commencing with the date of the deliberate action. The bonds are treated as qualified 501(c)(3) bonds commencing with the date of the deliberate action.

Example 7. Deliberate action before proceeds are expended on a governmental purpose. County J issues bonds with proceeds of \$10 million that can be used only to finance a correctional facility. On the issue date of the bonds, J reasonably expects that it will be the sole user of the bonds for the useful life of the facility. The bonds have a weighted average maturity that does not exceed 120 percent of the reasonably expected economic life of the facility. After the issue date of the bonds, but before the facility is placed in service, J enters into a contract with the federal government pursuant to which the federal government will make a fair market value, lump sum payment equal to 25 percent of the cost of the facility. In exchange for this payment, J provides the federal government with priority rights to use of 25 percent of the facility. J uses the payment received from the federal government to defease the nonqualified bonds. The agreement does not cause the bonds to be private activity bonds because J has taken a remedial action described in paragraph (d) of this section. See paragraph (a)(5) of this section.

Example 8. Compliance after remedial action. In 2007, City G issues bonds with proceeds of \$10 million to finance a courthouse. The bonds have a weighted average maturity

that does not exceed 120 percent of the reasonably expected economic life of the courthouse. City G enters into contracts with non-governmental persons that result in private business use of 10 percent of the courthouse per year. More than 10 percent of the debt service on the issue is secured by private security or payments. In 2019, in a bona fide and arm's length arrangement, City G enters into a management contract with a non-governmental person that results in private business use of an additional 40 percent of the courthouse per year during the remaining term of the bonds. City G immediately redeems the nonqualified bonds, or 44.44 percent of the outstanding bonds. This is the portion of the outstanding bonds that, if the remaining bonds were issued on the date on which the deliberate action occurs, the remaining bonds would not meet the private business use test, treating the amount of private business use as the greatest percentage of private business use in any one-year period commencing with the one-year period in which the deliberate action occurs (50 percent). This percentage is computed by dividing the percentage of the facility used for a government use (50 percent) by the minimum amount of government use required (90 percent), and subtracting the resulting percentage (55.56 percent) from 100 percent (44.44 percent). For purposes of subsequently applying section 141 to the issue, City G may continue to use all of the proceeds of the outstanding bonds in the same manner (that is, for the courthouse and the private business use) without causing the issue to meet the private business use test. The issue continues to meet the private security or payment test. The result would be the same if City G, instead of redeeming the bonds, established a defeasance escrow for those bonds, provided that the requirement of paragraph (d)(5) of this section is met. If City G takes a subsequent deliberate action that results in further private business use, it must take into account 10 percent of private business use in addition to that caused by the second deliberate act.

[T.D. 8712, 62 FR 2298, Jan. 16, 1997, as amended by T.D. 9741, 80 FR 65644, Oct. 27, 2015]

§ 1.141-13 Refunding issues.

(a) *In general.* Except as provided in this section, a refunding issue and a prior issue are tested separately under section 141. Thus, the determination of whether a refunding issue consists of private activity bonds generally does not depend on whether the prior issue consists of private activity bonds.

(b) *Application of private business use and private loan financing test—(1) Allocation of proceeds.* In applying the

private business use test and the private loan financing test to a refunding issue, the proceeds of the refunding issue are allocated to the same expenditures and purpose investments as the proceeds of the prior issue.

(2) *Determination of amount of private business use—(i) In general.* Except as provided in paragraph (b)(2)(ii) of this section, the amount of private business use of a refunding issue is determined under § 1.141-3(g), based on the measurement period for that issue (for example, without regard to any private business use that occurred prior to the issue date of the refunding issue).

(ii) *Refundings of governmental bonds.* In applying the private business use test to a refunding issue that refunds a prior issue of governmental bonds, the amount of private business use of the refunding issue is the amount of private business use—

(A) During the combined measurement period; or

(B) At the option of the issuer, during the period described in paragraph (b)(2)(i) of this section, but only if, without regard to the reasonable expectations test of § 1.141-2(d), the prior issue does not satisfy the private business use test, based on a measurement period that begins on the first day of the combined measurement period and ends on the issue date of the refunding issue.

(iii) *Combined measurement period—(A) In general.* Except as provided in paragraph (b)(2)(iii)(B) of this section, the *combined measurement period* is the period that begins on the first day of the measurement period (as defined in § 1.141-3(g)) for the prior issue (or, in the case of a series of refundings of governmental bonds, the first issue of governmental bonds in the series) and ends on the last day of the measurement period for the refunding issue.

(B) *Transition rule for refundings of bonds originally issued before May 16, 1997.* If the prior issue (or, in the case of a series of refundings of governmental bonds, the first issue of governmental bonds in the series) was issued before May 16, 1997, then the issuer, at its option, may treat the combined measurement period as beginning on the date (the transition date) that is the earlier of December 19, 2005 or the

first date on which the prior issue (or an earlier issue in the case of a series of refundings of governmental bonds) became subject to the 1997 regulations (as defined in § 1.141-15(b)). If the issuer treats the combined measurement period as beginning on the transition date in accordance with this paragraph (b)(2)(iii)(B), then paragraph (c)(2) of this section shall be applied by treating the transition date as the issue date of the earliest issue, by treating the bonds as reissued on the transition date at an issue price equal to the value of the bonds (as determined under § 1.148-4(e)) on that date, and by disregarding any private security or private payments before the transition date.

(iv) *Governmental bond.* For purposes of this section, the term *governmental bond* means any bond that, when issued, purported to be a governmental bond, as defined in § 1.150-1(b), or a qualified 501(c)(3) bond, as defined in section 145(a).

(v) *Special rule for refundings of qualified 501(c)(3) bonds with governmental bonds.* For purposes of applying this paragraph (b)(2) to a refunding issue that refunds a qualified 501(c)(3) bond, any use of the property refinanced by the refunding issue before the issue date of the refunding issue by a 501(c)(3) organization with respect to its activities that do not constitute an unrelated trade or business under section 513(a) is treated as government use.

(c) *Application of private security or payment test—(1) Separate issue treatment.* If the amount of private business use of a refunding issue is determined based on the measurement period for that issue in accordance with paragraph (b)(2)(i) or (b)(2)(ii)(B) of this section, then the amount of private security and private payments allocable to the refunding issue is determined under § 1.141-4 by treating the refunding issue as a separate issue.

(2) *Combined issue treatment.* If the amount of private business use of a refunding issue is determined based on the combined measurement period for that issue in accordance with paragraph (b)(2)(ii)(A) of this section, then the amount of private security and private payments allocable to the refund-

ing issue is determined under § 1.141-4 by treating the refunding issue and all earlier issues taken into account in determining the combined measurement period as a combined issue. For this purpose, the present value of the private security and private payments is compared to the present value of the debt service on the combined issue (other than debt service paid with proceeds of any refunding bond). Present values are computed as of the issue date of the earliest issue taken into account in determining the combined measurement period (the earliest issue). Except as provided in paragraph (c)(3) of this section, present values are determined by using the yield on the combined issue as the discount rate. The yield on the combined issue is determined by taking into account payments on the refunding issue and all earlier issues taken into account in determining the combined measurement period (other than payments made with proceeds of any refunding bond), and based on the issue price of the earliest issue. In the case of a refunding of only a portion of the original principal amount of a prior issue, the refunded portion of the prior issue is treated as a separate issue and any private security or private payments with respect to the prior issue are allocated ratably between the combined issue and the unrefunded portion of the prior issue in a consistent manner based on relative debt service. See paragraph (b)(2)(iii)(B) of this section for special rules relating to certain refundings of governmental bonds originally issued before May 16, 1997.

(3) *Special rule for arrangements not entered into in contemplation of the refunding issue.* In applying the private security or payment test to a refunding issue that refunds a prior issue of governmental bonds, the issuer may use the yield on the prior issue to determine the present value of private security and private payments under arrangements that were not entered into in contemplation of the refunding issue. For this purpose, any arrangement that was entered into more than 1 year before the issue date of the refunding issue is treated as not entered into in contemplation of the refunding issue.

(d) *Multipurpose issue allocations*—(1) *In general.* For purposes of section 141, unless the context clearly requires otherwise, § 1.148-9(h) applies to allocations of multipurpose issues (as defined in § 1.148-1(b)), including allocations involving the refunding purposes of the issue. An allocation under this paragraph (d) may be made at any time, but once made, may not be changed. An allocation is not reasonable under this paragraph (d) if it achieves more favorable results under section 141 than could be achieved with actual separate issues. Each of the separate issues under the allocation must consist of one or more tax-exempt bonds. Allocations made under this paragraph (d) and § 1.148-9(h) must be consistent for purposes of sections 141 and 148.

(2) *Exceptions.* This paragraph (d) does not apply for purposes of sections 141(c)(1) and 141(d)(1).

(e) *Application of reasonable expectations test to certain refunding bonds.* An action that would otherwise cause a refunding issue to satisfy the private business tests or the private loan financing test is not taken into account under the reasonable expectations test of § 1.141-2(d) if—

(1) The action is not a deliberate action within the meaning of § 1.141-2(d)(3); and

(2) The weighted average maturity of the refunding bonds is not greater than the weighted average reasonably expected economic life of the property financed by the prior bonds.

(f) *Special rule for refundings of certain general obligation bonds.* Notwithstanding any other provision of this section, a refunding issue does not consist of private activity bonds if—

(1) The prior issue meets the requirements of § 1.141-2(d)(5) (relating to certain general obligation bond programs that finance a large number of separate purposes); or

(2) The refunded portion of the prior issue is part of a series of refundings of all or a portion of an issue that meets the requirements of § 1.141-2(d)(5).

(g) *Examples.* The following examples illustrate the application of this section:

Example 1. Measuring private business use. In 2002, Authority A issues tax-exempt bonds that mature in 2032 to acquire an office

building. The measurement period for the 2002 bonds under § 1.141-3(g) is 30 years. At the time A acquires the building, it enters into a 10-year lease with a nongovernmental person under which the nongovernmental person will use 5 percent of the building in its trade or business during each year of the lease term. In 2007, A issues bonds to refund the 2002 bonds. The 2007 bonds mature on the same date as the 2002 bonds and have a measurement period of 25 years under § 1.141-3(g). Under paragraph (b)(2)(ii)(A) of this section, the amount of private business use of the proceeds of the 2007 bonds is 1.67 percent, which equals the amount of private business use during the combined measurement period (5 percent of $\frac{1}{3}$ of the 30-year combined measurement period). In addition, the 2002 bonds do not satisfy the private business use test, based on a measurement period beginning on the first day of the measurement period for the 2002 bonds and ending on the issue date of the 2007 bonds, because only 5 percent of the proceeds of the 2002 bonds are used for a private business use during that period. Thus, under paragraph (b)(2)(ii)(B) of this section, A may treat the amount of private business use of the 2007 bonds as 1 percent (5 percent of $\frac{1}{5}$ of the 25-year measurement period for the 2007 bonds). The 2007 bonds do not satisfy the private business use test.

Example 2. Combined issue yield computation.

(i) On January 1, 2000, County B issues 20-year bonds to finance the acquisition of a municipal auditorium. The 2000 bonds have a yield of 7.7500 percent, compounded annually, and an issue price and par amount of \$100 million. The debt service payments on the 2000 bonds are as follows:

Date	Debt service
1/1/01	\$9,996,470
1/1/02	9,996,470
1/1/03	9,996,470
1/1/04	9,996,470
1/1/05	9,996,470
1/1/06	9,996,470
1/1/07	9,996,470
1/1/08	9,996,470
1/1/09	9,996,470
1/1/10	9,996,470
1/1/11	9,996,470
1/1/12	9,996,470
1/1/13	9,996,470
1/1/14	9,996,470
1/1/15	9,996,470
1/1/16	9,996,470
1/1/17	9,996,470
1/1/18	9,996,470
1/1/19	9,996,470
1/1/20	9,996,470
	199,929,400

(ii) On January 1, 2005, B issues 15-year bonds to refund all of the outstanding 2000 bonds maturing after January 1, 2005 (in the aggregate principal amount of \$86,500,000).

Internal Revenue Service, Treasury

§ 1.141-13

The 2005 bonds have a yield of 6.0000 percent, compounded annually, and an issue price and par amount of \$89,500,000. The debt service payments on the 2005 bonds are as follows:

Date	Debt service
1/1/06	\$9,215,167
1/1/07	9,215,167
1/1/08	9,215,167
1/1/09	9,215,167
1/1/10	9,215,167
1/1/11	9,215,167
1/1/12	9,215,167
1/1/13	9,215,167
1/1/14	9,215,167
1/1/15	9,215,167
1/1/16	9,215,167
1/1/17	9,215,167
1/1/18	9,215,167
1/1/19	9,215,167
1/1/20	9,215,167

Date	Debt service
	138,227,511

(iii) In accordance with § 1.141-15(h), B chooses to apply § 1.141-13 (together with the other provisions set forth in § 1.141-15(h)), to the 2005 bonds. For purposes of determining the amount of private security and private payments with respect to the 2005 bonds, the 2005 bonds and the refunded portion of the 2000 bonds are treated as a combined issue under paragraph (c)(2) of this section. The yield on the combined issue is determined in accordance with §§ 1.148-4, 1.141-4(b)(2)(iii) and 1.141-13(c)(2). Under this methodology, the yield on the combined issue is 7.1062 percent per year compounded annually, illustrated as follows:

Date	Previous debt service on refunded portion of prior issue	Refunding debt service	Total debt service	Present value on 1/1/00
1/1/00				(\$86,500,000.00)
1/1/01	6,689,793		6,689,793	6,245,945.33
1/1/02	6,689,793		6,689,793	5,831,545.62
1/1/03	6,689,793		6,689,793	5,444,640.09
1/1/04	6,689,793		6,689,793	5,083,404.58
1/1/05	6,689,793		6,689,793	4,746,135.95
1/1/06		9,215,167	9,215,167	6,104,023.84
1/1/07		9,215,167	9,215,167	5,699,040.20
1/1/08		9,215,167	9,215,167	5,320,926.00
1/1/09		9,215,167	9,215,167	4,967,898.55
1/1/10		9,215,167	9,215,167	4,638,293.40
1/1/11		9,215,167	9,215,167	4,330,556.57
1/1/12		9,215,167	9,215,167	4,043,237.15
1/1/13		9,215,167	9,215,167	3,774,980.51
1/1/14		9,215,167	9,215,167	3,524,521.90
1/1/15		9,215,167	9,215,167	3,290,680.46
1/1/16		9,215,167	9,215,167	3,072,353.70
1/1/17		9,215,167	9,215,167	2,868,512.26
1/1/18		9,215,167	9,215,167	2,678,195.09
1/1/19		9,215,167	9,215,167	2,500,504.89
1/1/20		9,215,167	9,215,167	2,334,603.90
	33,448,965	138,227,511	171,676,476.00	0.00

Example 3. Determination of private payments allocable to combined issue. The facts are the same as in *Example 2*. In addition, on January 1, 2001, B enters into a contract with a nongovernmental person for the use of the auditorium. The contract results in a private payment in the amount of \$500,000 on each January 1 beginning on January 1, 2001, and ending on January 1, 2020. Under paragraph (c)(2) of this section, the amount of the pri-

vate payments allocable to the combined issue is determined by treating the refunded portion of the 2000 bonds (\$86,500,000 principal amount) as a separate issue, and by allocating the total private payments ratably between the combined issue and the unrefunded portion of the 2000 bonds (\$13,500,000 principal amount) based on relative debt service, as follows:

Date	Private payments	Debt service on unrefunded portion of prior issue	Debt service on combined issue	Percentage of private payments allocable to combined issue	Amount of private payments allocable to combined issue
1/1/01	\$500,000	\$3,306,677	\$6,689,793	66.92	\$334,608
1/1/02	500,000	3,306,677	6,689,793	66.92	334,608

Date	Private payments	Debt service on unrefunded portion of prior issue	Debt service on combined issue	Percentage of private payments allocable to combined issue	Amount of private payments allocable to combined issue
1/1/03	500,000	3,306,677	6,689,793	66.92	334,608
1/1/04	500,000	3,306,677	6,689,793	66.92	334,608
1/1/05	500,000	3,306,677	6,689,793	66.92	334,608
1/1/06	500,000		9,215,167	100.00	500,000
1/1/07	500,000		9,215,167	100.00	500,000
1/1/08	500,000		9,215,167	100.00	500,000
1/1/09	500,000		9,215,167	100.00	500,000
1/1/10	500,000		9,215,167	100.00	500,000
1/1/11	500,000		9,215,167	100.00	500,000
1/1/12	500,000		9,215,167	100.00	500,000
1/1/13	500,000		9,215,167	100.00	500,000
1/1/14	500,000		9,215,167	100.00	500,000
1/1/15	500,000		9,215,167	100.00	500,000
1/1/16	500,000		9,215,167	100.00	500,000
1/1/17	500,000		9,215,167	100.00	500,000
1/1/18	500,000		9,215,167	100.00	500,000
1/1/19	500,000		9,215,167	100.00	500,000
1/1/20	500,000		9,215,167	100.00	500,000
	\$10,000,000	\$16,533,385	\$171,676,476		\$9,173,039

Example 4. Refunding taxable bonds and qualified bonds. (i) In 1999, City C issues taxable bonds to finance the construction of a facility for the furnishing of water. The bonds are secured by revenues from the facility. The facility is managed pursuant to a management contract with a nongovernmental person that gives rise to private business use. In 2007, C terminates the management contract and takes over the operation of the facility. In 2009, C issues bonds to refund the 1999 bonds. On the issue date of the 2009 bonds, C reasonably expects that the facility will not be used for a private business use during the term of the 2009 bonds. In addition, during the term of the 2009 bonds, the facility is not used for a private business use. Under paragraph (b)(2)(i) of this section, the 2009 bonds do not satisfy the private business use test because the amount of private business use is based on the measurement period for those bonds and therefore does not take into account any private business use that occurred pursuant to the management contract.

(ii) The facts are the same as in paragraph (i) of this *Example 4*, except that the 1999 bonds are issued as exempt facility bonds under section 142(a)(4). The 2009 bonds do not satisfy the private business use test.

Example 5. Multipurpose issue. (i) In 2017, State D issues bonds to finance the construction of two office buildings, Building 1 and Building 2. D expends an equal amount of the proceeds on each building. D enters into arrangements that result in private business use of 8 percent of Building 1 and 12 percent of Building 2 during the measurement period under § 1.141-3(g) and private payments of 4 percent of the 2017 bonds in respect of Building 1 and 6 percent of the 2017 bonds in re-

spect of Building 2. These arrangements result in a total of 10 percent of the proceeds of the 2017 bonds being used for a private business use and total private payments of 10 percent. In 2022, D purports to make a multipurpose issue allocation under paragraph (d) of this section of the outstanding 2017 bonds, allocating the issue into two separate issues of equal amounts with one issue allocable to Building 1 and the second allocable to Building 2. An allocation is unreasonable under paragraph (d) of this section if it achieves more favorable results under section 141 than could be achieved with actual separate issues. D's allocation is unreasonable because, if permitted, it would allow more favorable results under section 141 for the 2017 bonds (that is, private business use and private payments that exceed 10 percent for the 2017 bonds allocable to Building 2) than could be achieved with actual separate issues. In addition, if D's purported allocation was intended to result in two separate issues of tax-exempt governmental bonds (versus tax-exempt private activity bonds), the allocation would violate paragraph (d) of this section in the first instance because the allocation to the separate issue for Building 2 would fail to qualify separately as an issue of tax-exempt governmental bonds as a result of its 12 percent of private business use and private payments.

(ii) The facts are the same as in paragraph (i) of this *Example 5*, except that D enters into arrangements only for Building 1, and it expects no private business use of Building 2. In 2022, D allocates an equal amount of the outstanding 2017 bonds to Building 1 and Building 2. D selects particular bonds for each separate issue such that the allocation does not achieve a more favorable result

than could have been achieved by issuing actual separate issues. D uses the same allocation for purposes of both sections 141 and 148. D's allocation is reasonable.

(iii) The facts are the same as in paragraph (ii) of this *Example 5*, except that as part of the same issue, D issues bonds for a privately used airport. The airport bonds, if issued as a separate issue, would be qualified private activity bonds. The remaining bonds, if issued separately from the airport bonds, would be governmental bonds. Treated as one issue, however, the bonds are taxable private activity bonds. Therefore, D makes its allocation of the bonds under paragraph (d) of this section and § 1.150-1(c)(3) into 3 separate issues on or before the issue date. Assuming all other applicable requirements are met, the bonds of the respective issues will be tax-exempt qualified private activity bonds or governmental bonds.

Example 6. Non-deliberate action. In 1998, City E issues bonds to finance the purchase of land and construction of a building (the prior bonds). On the issue date of the prior bonds, E reasonably expects that it will be the sole user of the financed property for the entire term of the bonds. In 2003, the federal government acquires the financed property in a condemnation action. In 2006, E issues bonds to refund the prior bonds (the refunding bonds). The weighted average maturity of the refunding bonds is not greater than the reasonably expected economic life of the financed property. In general, under § 1.141-2(d) and this section, reasonable expectations must be separately tested on the issue date of a refunding issue. Under paragraph (e) of this section, however, the condemnation action is not taken into account in applying the reasonable expectations test to the refunding bonds because the condemnation action is not a deliberate action within the meaning of § 1.141-2(d)(3) and the weighted average maturity of the refunding bonds is not greater than the weighted average reasonably expected economic life of the property financed by the prior bonds. Thus, the condemnation action does not cause the refunding bonds to be private activity bonds.

Example 7. Non-transitioned refunding of bonds subject to 1954 Code. In 1985, County F issues bonds to finance a court house. The 1985 bonds are subject to the provisions of the Internal Revenue Code of 1954. In 2006, F issues bonds to refund all of the outstanding 1985 bonds. The weighted average maturity of the 2006 bonds is longer than the remaining weighted average maturity of the 1985 bonds. In addition, the 2006 bonds do not satisfy any transitional rule for refundings in the Tax Reform Act of 1986, 100 Stat. 2085 (1986). Section 141 and this section apply to determine whether the 2006 bonds are private activity bonds including whether, for purposes of § 1.141-13(b)(2)(ii)(B), the 1985 bonds satisfy the private business use test based on

a measurement period that begins on the first day of the combined measurement period for the 2006 bonds and ends on the issue date of the 2006 bonds.

[T.D. 9234, 70 FR 75032, Dec. 19, 2006, as amended by T.D. 9741, 80 FR 65645, Oct. 27, 2015]

§ 1.141-14 Anti-abuse rules.

(a) *Authority of Commissioner to reflect substance of transactions.* If an issuer enters into a transaction or series of transactions with respect to one or more issues with a principal purpose of transferring to nongovernmental persons (other than as members of the general public) significant benefits of tax-exempt financing in a manner that is inconsistent with the purposes of section 141, the Commissioner may take any action to reflect the substance of the transaction or series of transactions, including—

(1) Treating separate issues as a single issue for purposes of the private activity bond tests;

(2) Reallocating proceeds to expenditures, property, use, or bonds;

(3) Reallocating payments to use or proceeds;

(4) Measuring private business use on a basis that reasonably reflects the economic benefit in a manner different than as provided in § 1.141-3(g); and

(5) Measuring private payments or security on a basis that reasonably reflects the economic substance in a manner different than as provided in § 1.141-4.

(b) *Examples.* The following examples illustrate the application of this section:

Example 1. Reallocating proceeds to indirect use. City C issues bonds with proceeds of \$20 million for the stated purpose of financing improvements to roads that it owns. As a part of the same plan of financing, however, C also agrees to make a loan of \$7 million to Corporation M from its general revenues that it otherwise would have used for the road improvements. The interest rate of the loan corresponds to the interest rate on a portion of the issue. A principal purpose of the financing arrangement is to transfer to M significant benefits of the tax-exempt financing. Although C actually allocates all of the proceeds of the bonds to the road improvements, the Commissioner may reallocate a portion of the proceeds of the bonds to the loan to M because a principal purpose of the financing arrangement is to transfer to

M significant benefits of tax-exempt financing in a manner that is inconsistent with the purposes of section 141. The bonds are private activity bonds because the issue meets the private loan financing test. The bonds also meet the private business tests. See also §§ 1.141-3(a)(2), 1.141-4(a)(1), and 1.141-5(a), under which indirect use of proceeds and payments are taken into account.

Example 2. Taking into account use of amounts derived from proceeds that would be otherwise disregarded. County B issues bonds with proceeds of \$10 million to finance the purchase of land. On the issue date, B reasonably expects that it will be the sole user of the land. Subsequently, the federal government acquires the land for \$3 million in a condemnation action. B uses this amount to make a loan to Corporation M. In addition, the interest rate on the loan reflects the tax-exempt interest rate on the bonds and thus is substantially less than a current market rate. A principal purpose of the arrangement is to transfer to M significant benefits of the tax-exempt financing. Although the condemnation proceeds as proceeds of the issue because a principal purpose of the arrangement is to transfer to M significant benefits of tax-exempt financing in a manner inconsistent with the purposes of section 141. The bonds are private activity bonds.

Example 3. Measuring private business use on an alternative basis. City F issues bonds with a 30-year term to finance the acquisition of an industrial building having a remaining reasonably expected useful economic life of more than 30 years. On the issue date, F leases the building to Corporation G for 3 years. F reasonably expects that it will be the sole user of the building for the remaining term of the bonds. Because of the local market conditions, it is reasonably expected that the fair rental value of the industrial building will be significantly greater during the early years of the term of the bonds than in the later years. The annual rental payments (net of operation and maintenance expenses) as of the issue date, however, is approximately 25 percent of the present value of debt service on the issue. Under § 1.141-3, the issue does not meet the private business tests, because only 10 percent of the proceeds are used in a trade or business by a nongovernmental person. A principal purpose of the issue is to transfer to G significant benefits of tax-exempt financing in a manner inconsistent with the purposes of section 141. The method of measuring private business use over the reasonably expected useful economic life of financed property is for the administrative convenience of issuers of state and local bonds. In cases where this method

is used in a manner inconsistent with the purposes of section 141, the Commissioner may measure private business use on another basis that reasonably reflects economic benefit, such as in this case on an annual basis. If the Commissioner measures private business use on an annual basis, the bonds are private activity bonds because the private payment test is met and more than 10 percent of the proceeds are used in a trade or business by a nongovernmental person.

Example 4. Treating separate issues as a single issue. City D enters into a development agreement with Corporation T to induce T to locate its headquarters within D's city limits. Pursuant to the development agreement, in 1997 D will issue \$20 million of its general obligation bonds (the 1997 bonds) to purchase land that it will grant to T. The development agreement also provides that, in 1998, D will issue \$20 million of its tax increment bonds (the 1998 bonds), secured solely by the increase in property taxes in a special taxing district. Substantially all of the property within the special taxing district is owned by T or D. T will separately enter into an agreement to guarantee the payment of tax increment to D in an amount sufficient to retire the 1998 bonds. The proceeds of the 1998 bonds will be used to finance improvements owned and operated by D that will not give rise to private business use. Treated separately, the 1997 issue meets the private business use test, but not the private security or payment test; the 1998 issue meets the private security or payment test, but not the private business use test. A principal purpose of the financing plan, including the two issues, is to transfer significant benefits of tax-exempt financing to T for its headquarters. Thus, the 1997 issue and the 1998 issue may be treated by the Commissioner as a single issue for purposes of applying the private activity bond tests. Accordingly, the bonds of both the 1997 issue and the 1998 issue may be treated as private activity bonds.

Example 5. Reallocating proceeds. City E acquires an electric generating facility with a useful economic life of more than 40 years and enters into a 30-year take or pay contract to sell 30 percent of the available output to investor-owned utility M. E plans to use the remaining 70 percent of available output for its own governmental purposes. To finance the entire cost of the facility, E issues \$30 million of its series A taxable bonds at taxable interest rates and \$70 million series B bonds, which purport to be tax-exempt bonds, at tax-exempt interest rates. E allocates all of M's private business use to the proceeds of the series A bonds and all of its own government use to the proceeds of the series B bonds. The series A bonds have a weighted average maturity of 15 years, while the series B bonds have a weighted average maturity of 26 years. M's payments under the take or pay contract are expressly

determined by reference to 30 percent of M's total costs (that is, the sum of the debt service required to be paid on both the series A and the series B bonds and all other operating costs). The allocation of all of M's private business use to the series A bonds does not reflect economic substance because the series of transactions transfers to M significant benefits of the tax-exempt interest rates paid on the series B bonds. A principal purpose of the financing arrangement is to transfer to M significant benefits of the tax-exempt financing. Accordingly, the Commissioner may allocate M's private business use on a pro rata basis to both the series B bonds as well as the series A bonds, in which case the series B bonds are private activity bonds.

Example 6. Allocations respected. The facts are the same as in *Example 5*, except that the debt service component of M's payments under the take or pay contract is based exclusively on the amounts necessary to pay the debt service on the taxable series A bonds. E's allocation of all of M's private business use to the series A bonds is respected because the series of transactions does not actually transfer benefits of tax-exempt interest rates to M. Accordingly, the series B bonds are not private activity bonds. The result would be the same if M's payments under the take or pay contract were based exclusively on fair market value pricing, rather than the tax-exempt interest rates on E's bonds. The result also would be the same if the series A bonds and the series B bonds had substantially equivalent weighted average maturities and E and M had entered into a customary contract providing for payments based on a ratable share of total debt service. E would not be treated by the Commissioner in any of these cases as entering into the contract with a principal purpose of transferring the benefits of tax-exempt financing to M in a manner inconsistent with the purposes of section 141.

[T.D. 8712, 62 FR 2301, Jan. 16, 1997]

§ 1.141-15 Effective/applicability dates.

(a) *Scope.* The effective dates of this section apply for purposes of §§ 1.141-1 through 1.141-14, 1.145-1 through 1.145-2, and 1.150-1(a)(3) and the definition of bond documents contained in § 1.150-1(b).

(b) *Effective dates*—(1) *In general.* Except as otherwise provided in this section, §§ 1.141-0 through 1.141-6(a), 1.141-9 through 1.141-12, 1.141-14, 1.145-1 through 1.145-2(c), and the definition of bond documents contained in § 1.150-1(b) (the 1997 regulations) apply to bonds issued on or after May 16, 1997, that are subject to section 1301 of the Tax Reform Act of 1986 (100 Stat. 2602).

(2) *Certain short-term arrangements.* The provisions of § 1.141-3 that refer to arrangements for 200 days, 100 days, or 50 days apply to any bond sold on or after November 20, 2001 and may be applied to any bond outstanding on November 20, 2001 to which § 1.141-3 applies.

(3) *Certain prepayments.* Except as provided in paragraph (c) of this section, paragraphs (c)(2)(ii), (c)(2)(iii) and (c)(2)(iv) of § 1.141-5 apply to bonds sold on or after October 3, 2003. Issuers may apply paragraphs (c)(2)(ii), (c)(2)(iii) and (c)(2)(iv) of § 1.141-5, in whole but not in part, to bonds sold before October 3, 2003 that are subject to § 1.141-5.

(4) *Certain remedial actions*—(i) *General rule.* For bonds subject to § 1.141-12, the provisions of § 1.141-12(d)(3), (i), (j), and (k), *Example 8*, apply to deliberate actions that occur on or after January 25, 2016.

(ii) *Special rule for allocations of non-qualified bonds.* For purposes of § 1.141-12(j)(2), in addition to the allocation methods permitted in § 1.141-12(j)(2), an issuer may treat bonds with the longest maturities (determined on a bond-by-bond basis) as the nonqualified bonds, but only for bonds sold before January 25, 2016.

(c) *Refunding bonds.* Except as otherwise provided in this section, the 1997 regulations (defined in paragraph (b)(1) of this section) do not apply to any bonds issued on or after May 16, 1997, to refund a bond to which those regulations do not apply unless—

(1) The refunding bonds are subject to section 1301 of the Tax Reform Act of 1986 (100 Stat. 2602); and

(2)(i) The weighted average maturity of the refunding bonds is longer than—

(A) The weighted average maturity of the refunded bonds; or

(B) In the case of a short-term obligation that the issuer reasonably expects to refund with a long-term financing (such as a bond anticipation note), 120 percent of the weighted average reasonably expected economic life of the facilities financed; or

(ii) A principal purpose for the issuance of the refunding bonds is to make one or more new conduit loans.

(d) *Permissive application of regulations.* Except as provided in paragraph (e) of this section, the 1997 regulations

§ 1.141-15

26 CFR Ch. I (4-1-22 Edition)

(defined in paragraph (b)(1) of this section) may be applied in whole, but not in part, to actions taken before February 23, 1998, with respect to—

(1) Bonds that are outstanding on May 16, 1997, and subject to section 141; or

(2) Refunding bonds issued on or after May 16, 1997, that are subject to 141.

(e) *Permissive application of certain sections*—(1) *In general.* The following sections may each be applied by issuers to any bonds:

(i) Section 1.141-3(b)(4);

(ii) Section 1.141-3(b)(6); and

(iii) Section 1.141-12.

(2) *Transition rule for pre-effective date bonds.* For purposes of paragraphs (e)(1) and (h) of this section, issuers may apply § 1.141-12 to bonds issued before May 16, 1997, without regard to paragraph (d)(5) thereof with respect to deliberate actions that occur on or after April 21, 2003.

(f) *Effective dates for certain regulations relating to output facilities*—(1) *General rule.* Except as otherwise provided in this section, §§ 1.141-7 and 1.141-8 apply to bonds sold on or after November 22, 2002, that are subject to section 1301 of the Tax Reform Act of 1986 (100 Stat. 2602).

(2) *Transition rule for requirements contracts.* For bonds otherwise subject to §§ 1.141-7 and 1.141-8, § 1.141-7(c)(3) applies to output contracts entered into on or after September 19, 2002. An output contract is treated as entered into on or after that date if it is amended on or after that date, but only if the amendment results in a change in the parties to the contract or increases the amount of requirements covered by the contract by reason of an extension of the contract term or a change in the method for determining such requirements. For purposes of this paragraph (f)(2)—

(i) The extension of the term of a contract causes the contract to be treated as entered into on the first day of the additional term;

(ii) The exercise by a party of a legally enforceable right that was provided under a contract before September 19, 2002, on terms that were fixed and determinable before such date, is not treated as an amendment of the contract. For example, the exer-

cise by a purchaser after September 19, 2002 of a renewal option that was provided under a contract before that date, on terms identical to the original contract, is not treated as an amendment of the contract; and

(iii) An amendment that increases the amount of requirements covered by the contract by reason of a change in the method for determining such requirements is treated as a separate contract that is entered into as of the effective date of the amendment, but only with respect to the increased output to be provided under the contract.

(g) *Refunding bonds for output facilities.* Except as otherwise provided in paragraph (h) or (i) of this section, §§ 1.141-7 and 1.141-8 do not apply to any bonds sold on or after November 22, 2002, to refund a bond to which §§ 1.141-7 and 1.141-8 do not apply unless—

(1) The refunding bonds are subject to section 1301 of the Tax Reform Act of 1986 (100 Stat. 2602); and

(2)(i) The weighted average maturity of the refunding bonds is longer than—

(A) The weighted average maturity of the refunded bonds; or

(B) In the case of a short-term obligation that the issuer reasonably expects to refund with a long-term financing (such as a bond anticipation note), 120 percent of the weighted average reasonably expected economic life of the facilities financed; or

(ii) A principal purpose for the issuance of the refunding bonds is to make one or more new conduit loans.

(h) *Permissive retroactive application.* Except as provided in paragraphs (d), (e) or (i) of this section, §§ 1.141-1 through 1.141-6(a), 1.141-7 through 1.141-14, 1.145-1 through 1.145-2, 1.149(d)-1(g), 1.150-1(a)(3), the definition of bond documents contained in § 1.150-1(b) and § 1.150-1(c)(3)(ii) may be applied by issuers in whole, but not in part, to—

(1) Outstanding bonds that are sold before February 17, 2006, and subject to section 141; or

(2) Refunding bonds that are sold on or after February 17, 2006, and subject to section 141.

(i) *Permissive application of certain regulations relating to output facilities.* Issuers may apply each of the following sections to any bonds used to finance output facilities:

- (1) Section 1.141-6;
- (2) Section 1.141-7(f)(3); and
- (3) Section 1.141-7(g).

(j) *Effective dates for certain regulations relating to refundings.* Except as otherwise provided in this section, §§1.141-13, 1.145-2(d), 1.149(d)-1(g), 1.150-1(a)(3) and 1.150-1(c)(3)(ii) apply to bonds that are sold on or after February 17, 2006, and that are subject to the 1997 regulations (defined in paragraph (b)(1) of this section).

(k) *Effective/applicability dates for certain regulations relating to generally applicable taxes and payments in lieu of tax—(1) In general.* Except as otherwise provided in paragraphs (k)(2) and (k)(3) of this section, revised §§1.141-4(e)(2), 1.141-4(e)(3) and 1.141-4(e)(5) apply to bonds sold on or after October 24, 2008 that are otherwise subject to the 1997 Regulations (defined in paragraph (b)(1) of this section).

(2) *Transitional rule for certain refundings.* Paragraph (k)(1) does not apply to bonds that are issued to refund bonds if—

- (i) Either—

(A) The refunded bonds (or the original bonds in a series of refundings) were sold before October 24, 2008, or

(B) The refunded bonds (or the original bonds in a series of refundings) satisfied the transitional rule for projects substantially in progress under paragraph (k)(3) of this section; and

(ii) The weighted average maturity of the refunding bonds does not exceed the remaining weighted average maturity of the refunded bonds.

(3) *Transitional rule for certain projects substantially in progress.* Paragraph (k)(1) of this section does not apply to bonds issued for projects for which all of the following requirements are met:

(i) A governmental person (as defined in §1.141-1) took official action evidencing its preliminary approval of the project before October 19, 2006, and the plan of finance for the project in place at that time contemplated financing the project with tax-exempt bonds to be paid or secured by PILOTs.

(ii) Before October 19, 2006, significant expenditures were paid or incurred with respect to the project or a contract was entered into to pay or incur significant expenditures with respect to the project.

(iii) The bonds for the project (excluding refunding bonds) are issued on or before December 31, 2009.

(l) *Applicability date for certain regulations relating to allocation and accounting—(1) In general.* Except as otherwise provided in this section, §§1.141-1(e), 1.141-3(g)(2)(v), 1.141-6, 1.141-13(d), and 1.145-2(b)(4), (b)(5), and (c)(2) apply to bonds that are sold on or after January 25, 2016, and to which the 1997 regulations (as defined in paragraph (b)(1) of this section) apply.

(2) *Refunding bonds.* Except as otherwise provided in this section, §§1.141-1(e), 1.141-3(g)(2)(v), 1.141-6, and 1.145-2(b)(4), (5), and (c)(2) do not apply to any bonds sold on or after January 25, 2016, to refund a bond to which these sections do not apply, provided that the weighted average maturity of the refunding bonds is no longer than—

(i) The remaining weighted average maturity of the refunded bonds; or

(ii) In the case of a short-term obligation that the issuer reasonably expects to refund with a long-term financing (such as a bond anticipation note), 120 percent of the weighted average reasonably expected economic life of the facilities financed.

(3) *Permissive application.* Except as otherwise provided in this section, issuers may apply §§1.141-1(e), 1.141-3(g)(2)(v), 1.141-6, and 1.145-2(b)(4), (b)(5), and (c)(2), in whole but not in part, to bonds to which the 1997 regulations apply.

(m) *Permissive retroactive application of certain regulations.* Issuers may apply §1.141-13(d) to bonds to which §1.141-13 applies.

(n) *Effective/applicability dates for certain regulations relating to certain definitions.* §1.141-1(a) applies to bonds that are sold on or after October 17, 2016.

[T.D. 8757, 63 FR 3265, Jan. 22, 1998, as amended by T.D. 8941, 66 FR 4670, Jan. 18, 2001; T.D. 8967, 66 FR 58062, Nov. 20, 2001; T.D. 9016, 67 FR 59765, Sept. 23, 2002; T.D. 9085, 68 FR 45775, Aug. 4, 2003; T.D. 9234, 70 FR 75035, Dec. 19, 2005; 71 FR 1971, Jan. 12, 2006; T.D. 9429, 73 FR 63375, Oct. 24, 2008; T.D. 9741, 80 FR 65645, Oct. 27, 2015; 80 FR 74678, Nov. 30, 2015; T.D. 9777, 81 FR 46592, July 18, 2016]

§ 1.141-16 Effective dates for qualified private activity bond provisions.

(a) *Scope.* The effective dates of this section apply for purposes of §§1.142-0

§ 1.142-0

through 1.142-2, 1.144-0 through 1.144-2, 1.147-0 through 1.147-2, and 1.150-4.

(b) *Effective dates.* Except as otherwise provided in this section, the regulations designated in paragraph (a) of this section apply to bonds issued on or after May 16, 1997 (the effective date).

(c) *Permissive application.* The regulations designated in paragraph (a) of this section may be applied by issuers in whole, but not in part, to bonds outstanding on the effective date. For this purpose, issuers may apply § 1.142-2 without regard to paragraph (c)(3) thereof to failures to properly use proceeds that occur on or after April 21, 2003.

(d) *Certain remedial actions*—(1) *General rule.* The provisions of § 1.142-2(e) apply to failures to properly use proceeds that occur on or after August 13, 2004 and may be applied by issuers to failures to properly use proceeds that occur on or after May 14, 2004, provided that the bonds are subject to § 1.142-2.

(2) *Special rule for allocations of nonqualified bonds.* For purposes of § 1.142-2(e)(2), in addition to the allocation methods permitted in § 1.142-2(e)(2), an issuer may treat bonds with the longest maturities (determined on a bond-by-bond basis) as the nonqualified bonds, but only with respect to failures to properly use proceeds that occur on or after May 14, 2004, with respect to bonds sold before August 13, 2004.

[T.D. 8712, 62 FR 2302, Jan. 16, 1997, as amended by T.D. 9150, 69 FR 50066, Aug. 13, 2004]

§ 1.142-3 Refunding issues. [Reserved]

[T.D. 8712, 62 FR 2302, Jan. 16, 1997, as amended by T.D. 9150, 69 FR 50066, Aug. 13, 2004]

§ 1.142-1 Exempt facility bonds.

(a) *Overview.* Interest on a private activity bond is not excludable from gross income under section 103(a) unless the bond is a qualified bond. Under section 141(e)(1)(A), an exempt facility bond issued under section 142 may be a qualified bond.

Under section 142(a), an exempt facility bond is any bond issued as a part of an issue using 95 percent or more of the proceeds for certain exempt facilities.

(b) *Scope.* Sections 1.142-0 through 1.142-3 apply for purposes of the rules for exempt facility bonds under section 142, except that, with respect to net proceeds that have been spent, § 1.142-2 does not apply to bonds issued under section 142(d) (relating to bonds issued to provide qualified residential rental projects) and section 142(f) (2) and (4) (relating to bonds issued to provide local furnishing of electric energy or gas).

(c) *Effective dates.* For effective dates of §§ 1.142-0 through 1.142-2, see § 1.141-16.

[T.D. 8712, 62 FR 2302, Jan. 16, 1997]

§ 1.142-2 Remedial actions.

(a) *General rule.* If less than 95 percent of the net proceeds of an exempt facility bond are actually used to provide an exempt facility, and for no other purpose, the issue will be treated as meeting the use of proceeds requirement of section 142(a) if the issue meets the condition of paragraph (b) of this section and the issuer takes the remedial action described in paragraph (c) of this section.

(b) *Reasonable expectations requirement.* The issuer must have reasonably expected on the issue date that 95 percent of the net proceeds of the issue would be used to provide an exempt facility and for no other purpose for the

entire term of the bonds (disregarding any redemption provisions). To meet this condition the amount of the issue must have been based on reasonable estimates about the cost of the facility.

(c) *Redemption or defeasance*—(1) *In general.* The requirements of this paragraph (c) are met if all of the nonqualified bonds of the issue are redeemed on the earliest call date after the date on which the failure to properly use the proceeds occurs under paragraph (d) of this section. Proceeds of tax-exempt bonds (other than those described in paragraph (d)(1) of this section) must not be used for this purpose. If the bonds are not redeemed within 90 days of the date on which the failure to properly use proceeds occurs, a defeasance escrow must be established for those bonds within 90 days of that date.

(2) *Notice of defeasance.* The issuer must provide written notice to the Commissioner of the establishment of the defeasance escrow within 90 days of the date the escrow is established.

(3) *Special limitation.* The establishment of a defeasance escrow does not satisfy the requirements of this paragraph (c) if the period between the issue date and the first call date is more than 10½ years.

(4) *Special rule for dispositions of personal property.* For dispositions of personal property exclusively for cash, the requirements of this paragraph (c) are met if the issuer expends the disposition proceeds within 6 months of the date of the disposition to acquire replacement property for the same qualifying purpose of the issue under section 142.

(5) *Definitions.* For purposes of paragraph (c)(4) of this section, *disposition proceeds* means disposition proceeds as defined in § 1.141-12(c).

(d) *When a failure to properly use proceeds occurs*—(1) *Proceeds not spent.* For net proceeds that are not spent, a failure to properly use proceeds occurs on the earlier of the date on which the issuer reasonably determines that the financed facility will not be completed or the date on which the financed facility is placed in service.

(2) *Proceeds spent.* For net proceeds that are spent, a failure to properly use proceeds occurs on the date on which

an action is taken that causes the bonds not to be used for the qualifying purpose for which the bonds were issued.

(e) *Nonqualified bonds*—(1) *Amount of nonqualified bonds.* For purposes of this section, the nonqualified bonds are a portion of the outstanding bonds in an amount that, if the remaining bonds were issued on the date on which the failure to properly use the proceeds occurs, at least 95 percent of the net proceeds of the remaining bonds would be used to provide an exempt facility. If no proceeds have been spent to provide an exempt facility, all of the outstanding bonds are nonqualified bonds.

(2) *Allocation of nonqualified bonds.* Allocations of nonqualified bonds must be made on a pro rata basis, except that an issuer may treat any bonds of an issue as the nonqualified bonds so long as—

(i) The remaining weighted average maturity of the issue, determined as of the date on which the nonqualified bonds are redeemed or defeased (determination date), and excluding from the determination the nonqualified bonds redeemed or defeased by the issuer to meet the requirements of paragraph (c) of this section, is not greater than

(ii) The remaining weighted average maturity of the issue, determined as of the determination date, but without regard to the redemption or defeasance of any bonds (including the nonqualified bonds) occurring on the determination date.

[T.D. 8712, 62 FR 2302, Jan. 16, 1997, as amended by T.D. 9150, 69 FR 50067, Aug. 13, 2004]

§ 1.142-3 Refunding Issues. [Reserved]

§ 1.142-4 Use of proceeds to provide a facility.

(a) *In general.* [Reserved]

(b) *Reimbursement allocations.* If an expenditure for a facility is paid before the issue date of the bonds to provide that facility, the facility is described in section 142(a) only if the expenditure meets the requirements of § 1.150-2 (relating to reimbursement allocations). For purposes of this paragraph (b), if the proceeds of an issue are used to pay principal of or interest on an obligation other than a State or local bond (for example, temporary construction

financing of the conduit borrower), that issue is not a refunding issue, and, thus, § 1.150-2(g) does not apply.

(c) *Limitation on use of facilities by substantial users*—(1) *In general.* If the original use of a facility begins before the issue date of the bonds to provide the facility, the facility is not described in section 142(a) if any person that was a substantial user of the facility at any time during the 5-year period before the issue date or any related person to that user receives (directly or indirectly) 5 percent or more of the proceeds of the issue for the user's interest in the facility and is a substantial user of the facility at any time during the 5-year period after the issue date, unless—

(i) An official intent for the facility is adopted under § 1.150-2 within 60 days after the date on which acquisition, construction, or reconstruction of that facility commenced; and

(ii) For an acquisition, no person that is a substantial user or related person after the acquisition date was also a substantial user more than 60 days before the date on which the official intent was adopted.

(2) *Definitions.* For purposes of paragraph (c)(1) of this section, *substantial user* has the meaning used in section 147(a)(1), *related person* has the meaning used in section 144(a)(3), and a user that is a governmental unit within the meaning of § 1.103-1 is disregarded.

(d) *Effective date*—(1) *In general.* This section applies to bonds sold on or after July 8, 1997. See § 1.103-8(a)(5) for rules applicable to bonds sold before that date.

(2) *Elective retroactive application.* An issuer may apply this section to any bond sold before July 8, 1997.

[T.D. 8718, 62 FR 25506, May 9, 1997]

§ 1.142(a)(5)-1 Exempt facility bonds: Sewage facilities.

(a) *In general.* Under section 103(a), a private activity bond is a tax-exempt bond only if it is a qualified bond. A qualified bond includes an exempt facility bond, defined as any bond issued as part of an issue 95 percent or more of the net proceeds of which are used to provide a facility specified in section 142. One type of facility specified in section 142(a) is a sewage facility. This

section defines the term *sewage facility* for purposes of section 142(a).

(b) *Definitions*—(1) *Sewage facility defined.* A sewage facility is property—

(i) Except as provided in paragraphs (b)(2) and (d) of this section, used for the secondary treatment of wastewater; however, for property treating wastewater reasonably expected to have an average daily raw wasteload concentration of biochemical oxygen demand (BOD) that exceeds 350 milligrams per liter as oxygen (measured at the time the influent enters the facility) (the *BOD limit*), this paragraph (b)(1)(i) applies only to the extent the treatment is for wastewater having an average daily raw wasteload concentration of BOD that does not exceed the BOD limit;

(ii) Used for the preliminary and/or primary treatment of wastewater but only to the extent used in connection with secondary treatment (without regard to the BOD limit described in paragraph (b)(1)(i) of this section);

(iii) Used for the advanced or tertiary treatment of wastewater but only to the extent used in connection with and after secondary treatment;

(iv) Used for the collection, storage, use, processing, or final disposal of—

(A) Wastewater, which property is necessary for such preliminary, primary, secondary, advanced, or tertiary treatment; or

(B) Sewage sludge removed during such preliminary, primary, secondary, advanced, or tertiary treatment (without regard to the BOD limit described in paragraph (b)(1)(i) of this section);

(v) Used for the treatment, collection, storage, use, processing, or final disposal of septage (without regard to the BOD limit described in paragraph (b)(1)(i) of this section); and

(vi) Functionally related and subordinate to property described in this paragraph (b)(1), such as sewage disinfection property.

(2) *Special rules and exceptions*—(i) *Exception to BOD limit.* A facility treating wastewater with an average daily raw wasteload concentration of BOD exceeding the BOD limit will not fail to qualify as a sewage facility described in paragraph (b)(1) of this section to the extent that the failure to satisfy

the BOD limit results from the implementation of a federal, state, or local water conservation program (for example, a program designed to promote water use efficiency that results in BOD concentrations beyond the BOD limit).

(ii) *Anti-abuse rule for BOD limit.* A facility does not satisfy the BOD limit if there is any intentional manipulation of the BOD level to circumvent the BOD limit (for example, increasing the volume of water in the wastewater before the influent enters the facility with the intention of reducing the BOD level).

(iii) *Authority of Commissioner.* In appropriate cases upon application to the Commissioner, the Commissioner may determine that facilities employing technologically advanced or innovative treatment processes qualify as sewage facilities if it is demonstrated that these facilities perform functions that are consistent with the definition of sewage facilities described in paragraph (b)(1) of this section.

(3) *Other applicable definitions*—(i) *Advanced or tertiary treatment* means the treatment of wastewater after secondary treatment. Advanced or tertiary treatment ranges from biological treatment extensions to physical-chemical separation techniques such as denitrification, ammonia stripping, carbon adsorption, and chemical precipitation.

(ii) *Nonconventional pollutants* are any pollutants that are not listed in 40 CFR 401.15, 401.16, or appendix A to part 423.

(iii) *Preliminary treatment* means treatment that removes large extraneous matter from incoming wastewater and renders the incoming wastewater more amenable to subsequent treatment and handling.

(iv) *Pretreatment* means a process that preconditions wastewater to neutralize or remove toxic, priority, or nonconventional pollutants that could adversely affect sewers or inhibit a preliminary, primary, secondary, advanced, or tertiary treatment operation.

(v) *Primary treatment* means treatment that removes material that floats or will settle, usually by screens or settling tanks.

(vi) *Priority pollutants* are those pollutants listed in appendix A to 40 CFR part 423.

(vii) *Secondary treatment* means the stage in sewage treatment in which a bacterial process (or an equivalent process) consumes the organic parts of wastes, usually by trickling filters or an activated sludge process.

(viii) *Sewage sludge* is defined in 40 CFR 122.2 and includes septage.

(ix) *Toxic pollutants* are those pollutants listed in 40 CFR 401.15.

(c) *Other property not included in the definition of a sewage facility.* Property other than property described in paragraph (b)(1) of this section is not a sewage facility. Thus, for example, property is not a sewage facility, or functionally related and subordinate property, if the property is used for pretreatment of wastewater (whether or not this treatment is necessary to perform preliminary, primary, secondary, advanced, or tertiary treatment), or the related collection, storage, use, processing, or final disposal of the wastewater. In addition, property used to treat, process, or use wastewater subsequent to the time the wastewater can be discharged into navigable waters, as defined in 33 U.S.C. 1362, is not a sewage facility.

(d) *Allocation of costs.* In the case of property that has both a use described in paragraph (b)(1) of this section (a sewage treatment function) and a use other than sewage treatment, only the portion of the cost of the property allocable to the sewage treatment function is taken into account as an expenditure to provide sewage facilities. The portion of the cost of property allocable to the sewage treatment function is determined by allocating the cost of that property between the property's sewage treatment function and any other uses by any method which, based on all the facts and circumstances, reasonably reflects a separation of costs for each use of the property.

(e) *Effective date*—(1) *In general.* This section applies to issues of bonds issued after February 21, 1995.

(2) *Refundings.* In the case of a refunding bond issued to refund a bond to which this section does not apply, the issuer need not apply this section to that refunding bond. This paragraph

§ 1.142(a)(6)–1

26 CFR Ch. I (4–1–22 Edition)

(e)(2) applies only if the weighted average maturity of the refunding bonds, as described in section 147(b), is not greater than the remaining weighted average maturity of the refunded bonds.

[T.D. 8576, 59 FR 66163, Dec. 23, 1994, as amended by T.D. 9546, Aug. 19, 2011]

§ 1.142(a)(6)–1 Exempt facility bonds: solid waste disposal facilities.

(a) *In general.* This section defines the term solid waste disposal facility for purposes of section 142(a)(6).

(b) *Solid waste disposal facility.* The term *solid waste disposal facility* means a facility to the extent that the facility—

(1) Processes solid waste (as defined in paragraph (c) of this section) in a qualified solid waste disposal process (as defined in paragraph (d) of this section);

(2) Performs a preliminary function (as defined in paragraph (f) of this section); or

(3) Is functionally related and subordinate (within the meaning of § 1.103–8(a)(3)) to a facility described in paragraph (b)(1) or (b)(2) of this section.

(c) *Solid waste*—(1) *In general.* Except to the extent excluded under paragraph (c)(2) of this section, for purposes of section 142(a)(6), the term *solid waste* means garbage, refuse, and other solid material derived from any agricultural, commercial, consumer, governmental, or industrial operation or activity if the material meets the requirements of both paragraph (c)(1)(i) and paragraph (c)(1)(ii) of this section. For purposes of this section, material is solid if it is solid at ambient temperature and pressure.

(i) *Used material or residual material.* Material meets the requirements of this paragraph (c)(1)(i) if it is either used material (as defined in paragraph (c)(1)(i)(A)) of this section or residual material (as defined in paragraph (c)(1)(i)(B) of this section).

(A) *Used material.* The term *used material* means any material that is a product of any agricultural, commercial, consumer, governmental, or industrial operation or activity, or a component of any such product or activity, and that has been used previously. Used material also includes animal waste

produced by animals from a biological process.

(B) *Residual material.* The term *residual material* means material that meets the requirements of this paragraph (c)(1)(i)(B). The material must be a residual byproduct or excess raw material that results from or remains after the completion of any agricultural, commercial, consumer, governmental, or industrial production process or activity or from the provision of any service. In the case of multiple processes constituting an integrated manufacturing or industrial process, the material must result from or remain after the completion of such integrated process. As of the issue date of the bonds used to finance the solid waste disposal facility, the material must be reasonably expected to have a fair market value that is lower than the value of all of the products made in that production process or lower than the value of the service that produces such residual material.

(ii) *Reasonably expected introduction into a qualified solid waste disposal process.* Material meets the requirements of this paragraph (c)(1)(ii) if it is reasonably expected by the person who generates, purchases, or otherwise acquires it to be introduced within a reasonable time after such generation, purchase or acquisition into a qualified solid waste disposal process described in paragraph (d) of this section.

(2) *Exclusions from solid waste.* The following materials do not constitute solid waste:

(i) *Virgin material.* Except to the extent that virgin material constitutes an input to a final disposal process or residual material, solid waste excludes any virgin material. The term *virgin material* means material that has not been processed into an agricultural, commercial, consumer, governmental, or industrial product, or a component of any such product. Further, for this purpose, material continues to be virgin material after it has been grown, harvested, mined, or otherwise extracted from its naturally occurring location and cleaned, divided into component elements, modified, or enhanced, as long as further processing is

required before it becomes an agricultural, commercial, consumer, or industrial product, or a component of any such product.

(ii) *Solids within liquids and liquid waste.* Solid waste excludes any solid or dissolved material in domestic sewage or other significant pollutant in water resources, such as silt, dissolved or suspended solids in industrial waste water effluents, dissolved materials in irrigation return flows or other common water pollutants, and liquid or gaseous waste.

(iii) *Precious metals.* Except to the extent that a precious metal constitutes an input to a final disposal process and/or an unrecoverable trace of the particular precious metal, solid waste excludes gold, silver, ruthenium, rhodium, palladium, osmium, iridium, platinum, gallium, rhenium, and any other precious metal material as may be identified by the Internal Revenue Service in future public administrative guidance.

(iv) *Hazardous material.* Solid waste excludes any hazardous material that must be disposed of at a facility that is subject to final permit requirements under subtitle C of title II of the Solid Waste Disposal Act as in effect on the date of the enactment of the Tax Reform Act of 1986 (which is October 22, 1986). See section 142(h)(1) of the Internal Revenue Code for the definition of qualified hazardous waste facilities.

(v) *Radioactive material.* Solid waste excludes any radioactive material subject to regulation under the Nuclear Regulatory Act (10 CFR 1.1 *et seq.*), as in effect on the issue date of the bonds.

(d) *Qualified solid waste disposal process.* The term *qualified solid waste disposal process* means the processing of solid waste in a final disposal process (as defined in paragraph (d)(1) of this section), an energy conversion process (as defined in paragraph (d)(2) of this section), or a recycling process (as defined in paragraph (d)(3) of this section). Absent an express restriction to the contrary in this section, a qualified solid waste disposal process may employ any biological, engineering, industrial, or technological method.

(1) *Final disposal process.* The term *final disposal process* means the placement of solid waste in a landfill (in-

cluding, for this purpose, the spreading of solid waste over land in an environmentally compliant and safe manner with no intent to remove such solid waste), the incineration of solid waste without capturing any useful energy, or the containment of solid waste with a reasonable expectation as of the date of issue of the bonds that the containment will continue indefinitely and that the solid waste has no current or future beneficial use.

(2) *Energy conversion process.* The term *energy conversion process* means a thermal, chemical, or other process that is applied to solid waste to create and capture synthesis gas, heat, hot water, steam, or other useful energy. The energy conversion process begins at the point of the first application of such process. The energy conversion process ends at the point at which the useful energy is first created, captured, or incorporated into the form of synthesis gas, heat, hot water, or other useful energy and before any transfer or distribution of such synthesis gas, heat, hot water or other useful energy, regardless of whether such synthesis gas, heat, hot water, or other useful energy constitutes a first useful product within the meaning of paragraph (e) of this section.

(3) *Recycling process*—(i) *In general.* The term *recycling process* means reconstituting, transforming, or otherwise processing solid waste into a useful product. The recycling process begins at the point of the first application of a process to reconstitute or transform the solid waste into a useful product, such as decontamination, melting, repulping, shredding, or other processing of the solid waste to accomplish this purpose. The recycling process ends at the point of completion of production of the first useful product from the solid waste.

(ii) *Refurbishment, repair, or similar activities.* The term *recycling process* does not include refurbishment, repair, or similar activities. The term *refurbishment* means the breakdown and reassembly of a product if such activity is done on a product-by-product basis and if the finished product contains more than 30 percent of its original materials or components.

(e) *First useful product.* The term *first useful product* means the first product produced from the processing of solid waste in a solid waste disposal process that is useful for consumption in agricultural, consumer, commercial, governmental, or industrial operation or activity and that could be sold for such use, whether or not actually sold. A useful product includes both a product useful to an individual consumer as an ultimate end-use consumer product and a product useful to an industrial user as a material or input for processing in some stage of a manufacturing or production process to produce a different end-use consumer product. The determination of whether a useful product has been produced may take into account operational constraints that affect the point in production when a useful product reasonably can be extracted or isolated and sold independently. For this purpose, the costs of extracting, isolating, storing, and transporting the product to a market may only be taken into account as operational constraints if the product is not to be used as part of an integrated manufacturing or industrial process in the same location as that in which the product is produced.

(f) *Preliminary function.* A *preliminary function* is a function to collect, separate, sort, store, treat, process, disassemble, or handle solid waste that is preliminary to and directly related to a qualified solid waste disposal process.

(g) *Mixed-use facilities*—(1) *In general.* If a facility is used for both a qualified solid waste disposal function (including a qualified solid waste disposal process or a preliminary function) and a non-qualified function (a mixed-use facility), then the costs of the facility allocable to the qualified solid waste disposal function are determined using any reasonable method, based on all the facts and circumstances. See § 1.103-8(a)(1) for allocation rules on amounts properly allocable to an exempt facility. Facilities qualify as functionally related and subordinate to a qualified solid waste disposal function only to the extent that they are functionally related and subordinate to the portion of the mixed-use facility that is used for one or more qualified solid waste disposal functions (includ-

ing a qualified solid waste disposal process or a preliminary function).

(2) *Mixed inputs*—(i) *In general.* Except as otherwise provided in paragraph (g)(2)(ii) of this section, for each facility (or a portion of a mixed-use facility) performing a qualified solid waste disposal process or a preliminary function, the percentage of the costs of the property used for such process that are allocable to a qualified solid waste disposal process or a preliminary function cannot exceed the average annual percentage of solid waste processed in that qualified solid waste disposal process or that preliminary function while the issue is outstanding. The annual percentage of solid waste processed in that qualified solid waste disposal process or preliminary function for any year is the percentage, by weight or volume, of the total materials processed in that qualified solid waste disposal process or preliminary function that constitute solid waste for that year.

(ii) *Special rule for mixed-input processes if at least 65 percent of the materials processed are solid waste*—(A) *In general.* Except as otherwise provided in paragraph (g)(2)(ii)(B) of this section, for each facility (or a portion of a mixed-use facility) performing a qualified solid waste disposal process or preliminary function, if the annual percentage of solid waste processed in that qualified solid waste disposal process or preliminary function for each year that the issue is outstanding (beginning with the date such facility is placed in service within the meaning of § 1.150-2(c)) equals at least 65 percent of the materials processed in that qualified solid waste disposal process or preliminary function, then all of the costs of the property used for such process are treated as allocable to a qualified solid waste disposal process. The annual percentage of solid waste processed in such qualified solid waste disposal process or preliminary function for any year is the percentage, by weight or volume, of the total materials processed in that qualified solid waste disposal process or preliminary function that constitute solid waste for that year.

(B) *Special rule for extraordinary events.* In the case of an extraordinary event that is beyond the control of the

operator of a solid waste disposal facility (such as a natural disaster, strike, major utility disruption, or governmental intervention) and that causes a solid waste disposal facility to be unable to meet the 65 percent test under paragraph (g)(2)(ii)(A) of this section for a particular year, the percentage of solid waste processed for that year equals—

(1) The sum of the amount of solid waste processed in the solid waste disposal facility for the year affected by the extraordinary event and the amount of solid waste processed in the solid waste disposal facility during the following two years in excess of the amount required to meet the general 65 percent threshold for the facility during each of such two years; divided by

(2) The total materials processed in the solid waste disposal facility during the year affected by the extraordinary event. If the resulting measure of solid waste processed for the year affected by the extraordinary event equals at least 65 percent, then the facility is treated as meeting the requirements of the 65 percent test under paragraph (g)(2)(ii)(A) of this section for such year.

(iii) *Facilities functionally related and subordinate to mixed-input facilities.* Except to the extent that facilities are functionally related and subordinate to a mixed-input facility that meets the 65 percent test under paragraph (g)(2)(ii) of this section, facilities qualify as functionally related and subordinate to a mixed-input facility only to the extent that they are functionally related and subordinate to the qualified portion of the mixed-input facility that is used for one or more qualified solid waste disposal functions (including a qualified solid waste disposal process or a preliminary function).

(h) *Examples.* The following examples illustrate the application of this section:

Example 1. Nonqualified Unused Material—Cloth. Company A takes wool and weaves it into cloth and then sells the cloth to a manufacturer to manufacture clothing. The cloth is material that has not been used previously as a product of or otherwise used in an agricultural, commercial, consumer, governmental, or industrial operation or activity, or as a component of any such product or ac-

tivity. Accordingly, the cloth is not solid waste.

Example 2. Residual Material—Waste Coal. Company B mines coal. Some of the ore mined is a low quality byproduct of coal mining commonly known as waste coal, which cannot be converted to energy under a normal energy-production process because the BTU content is too low. Waste coal has the lowest fair market value of any product produced in Company B's coal mining process. Waste coal is solid waste because it is residual material within the meaning of paragraph (c)(1)(i)(B) of this section and Company B reasonably expects to introduce the waste coal into a solid waste disposal process.

Example 3. Virgin Material—Logs. Company C cuts down trees and sells the logs to another company, which further processes the logs into lumber. In order to facilitate shipping, Company C cuts the trees into uniform logs. The trees are not solid waste because they are virgin material within the meaning of paragraph (c)(2)(i) of this section that are not being introduced into a final disposal process within the meaning of paragraph (d)(1) of this section. The division of such trees into uniform logs does not change the status of the trees as virgin material.

Example 4. Qualified Solid Waste Disposal Process—Landfill. Company D plans to construct a landfill. The landfill will not be subject to the final permit requirements under subtitle C of title II of the Solid Waste Disposal Act (as in effect on the date of enactment of the Tax Reform Act of 1986). As of the issue date, Company D expects that the landfill will be filled entirely with material that will qualify as solid waste within the meaning of paragraph (c) of this section. Placing solid waste into a landfill is a qualified solid waste disposal process. The landfill is a qualified solid waste disposal facility.

Example 5. Qualified Solid Waste Disposal Process—Recycling Tires. Company E owns a facility that converts used tires into roadbed material. The used tires are used material within the meaning of paragraph (c)(1)(i)(A) of this section that qualifies as solid waste. Between the introduction of the old tires into the roadbed manufacturing process and the completion of the roadbed material, the facility does not create any interim useful products. The process for the manufacturing of the roadbed material from the old tires is a qualified solid waste disposal process as a recycling process and the facility that converts the tires into roadbed material is a qualified solid waste disposal facility. This conclusion would be the same if the recycling process took place at more than one plant.

Example 6. Qualified Solid Waste Disposal Process—Energy Conversion Process. Company F receives solid waste from a municipal garbage collector. Company F burns that solid

waste in an incinerator to remove exhaust gas and to produce heat. Company F further processes the heat in a heat exchanger to produce steam. Company F further processes the steam to generate electricity. The energy conversion process ends with the production of steam. The facilities used to burn the solid waste and to capture the steam as useful energy are qualified solid waste disposal facilities because they process solid waste in an energy conversion process. The generating facilities used to process the steam further to generate electricity are not engaged in the energy conversion process and are not qualified solid waste disposal facilities.

Example 7. Nonqualified Refurbishment. Company G purchases used cars and restores them. This restoration process includes disassembly, cleaning, and repairing of the cars. Parts that cannot be repaired are replaced. The restored cars contain at least 30 percent of the original parts. While the cars are used material, the refurbishing process is not a qualified solid waste disposal process. Accordingly, Company G's facility is not a qualified solid waste disposal facility.

Example 8. Qualified Solid Waste Disposal Facility—First Useful Product Rule—Paper Recycling. (i) Company H employs an integrated process to re-pulp discarded magazines, clean the pulp, and produce retail paper towel products. Operational constraints on Company H's process do not allow for reasonable extraction, isolation, and sale of the cleaned paper pulp independently without degradation of the pulp. Company H further processes the paper pulp into large industrial-sized rolls of paper which are approximately 12 feet in diameter. At this point in the process, Company H could either sell such industrial-sized rolls of paper to another company for further processing to produce retail paper products or it could produce those retail products itself. In general, paper pulp is a useful product that is bought and sold on the market as a material for input into manufacturing or production processes. The discarded magazines are used material within the meaning of paragraph (c)(1)(i)(A) of this section. Company H's facility is engaged in a recycling process within the meaning of paragraph (d)(3) of this section to the extent that it repulps and cleans the discarded magazines generally and further to the extent that it produces industrial-sized rolls of paper under the particular circumstances here. Specifically, taking into account the operational constraints on Company H's facility that limit its ability reasonably to extract, isolate, and sell the paper pulp independently, the first useful products within the meaning of paragraph (e) of this section from Company H's recycling process are the industrial-sized rolls of paper. The portion of Company H's facility that processes the discarded magazines and produces industrial-

sized rolls of paper is a qualified solid waste disposal facility, and the portion of Company H's facility that further processes the industrial-sized rolls of paper into retail paper towels is not a qualified solid waste facility.

(ii) The facts are the same as in paragraph (i) of this *Example 8*, except that Company H is able reasonably to extract the cleaned paper pulp from the process without degradation of the pulp and to sell the cleaned paper pulp at its dock for a price that exceeds its costs of extracting the pulp from the process. Therefore, the paper pulp is the first useful product within the meaning of paragraph (e) of this section. As a result, the portion of Company H's facility that processes the discarded magazines is a qualified solid waste disposal facility, and the portion of Company H's facility that produces industrial-sized rolls of paper is not a qualified solid waste disposal facility. If, however, the only reasonable way Company H could sell the pulp was to transport the pulp to a distant market, then the costs of storing and transporting the pulp to the market may be taken into account in determining whether the pulp is the first useful product.

Example 9. Preliminary Function—Energy Conversion Process. (i) Company I owns a paper mill. At the mill, logs from nearby timber operations are processed through a machine that removes bark. The stripped logs are used to manufacture paper. The stripped bark has the lowest fair market value of any product produced from the paper mill. The stripped bark falls onto a conveyor belt that transports the bark to a storage bin that is used to store the bark briefly until Company I feeds the bark into a boiler. The conveyor belt and storage bin are used only for these purposes. The boiler is used only to create steam by burning the bark, and the steam is used to generate electricity. The stripped bark is solid waste because it is residual material within the meaning of paragraph (c)(1)(i)(B) of this section and Company I expects to introduce the bark into an energy conversion process within a reasonable period of time. The creation of steam from the stripped bark is an energy conversion process that starts with the incineration of the stripped bark. The energy conversion process is a qualified solid waste disposal process. The conveyor belt performs a collection activity that is preliminary and that is directly related to the solid waste disposal function. The storage bin performs a storage function that is preliminary and that is directly related to the solid waste disposal function. Thus, the conveyor belt and storage bin are solid waste disposal facilities. The bark removal process is not a preliminary function because it is not directly related to the energy conversion process and it does not become so related merely because it results in material that is solid waste.

(ii) The facts are the same as in paragraph (i) of this *Example 9*, except that the stripped bark represents only 55 percent by weight and volume of the materials that are transported by the conveyor belt. The remaining 45 percent of the materials transported by the conveyor belt are not solid waste and these other materials are sorted from the conveyor belt by a sorting machine immediately before the stripped bark arrives at the storage bin. Fifty-five percent of the costs of the conveyor belt and the sorting machine are allocable to solid waste disposal functions.

Example 10. Preliminary Function—Final Disposal Process. Company J owns a waste transfer station and uses it to collect, sort, and process solid waste. Company J uses its trucks to haul the solid waste to the nearest landfill. At least 65 percent by weight and volume of the material brought to the transfer station is solid waste. The waste transfer station and the trucks perform functions that are preliminary and directly related to the solid waste disposal function of the landfill. Thus, the waste transfer station and the trucks qualify as solid waste disposal facilities.

Example 11. Mixed-Input Facility. Company K owns an incinerator financed by an issue and uses the incinerator exclusively to burn coal and other solid material to create steam. Each year while the issue is outstanding, 40 percent by volume and 45 percent by weight of the solid material that Company K processes in the conversion process is coal. The remainder of the solid material is either used material or residual material within the meaning of paragraph (c)(1)(i) of this section. Sixty percent of the costs of the property used to perform the energy conversion process are allocable to a solid waste disposal function.

(i) *Effective/Applicability Dates—(1) In general.* Except as otherwise provided in this paragraph (i), this section applies to bonds to which section 142 applies that are sold on or after October 18, 2011.

(2) *Elective retroactive application.* Issuers may apply this section, in whole, but not in part, to outstanding bonds to which section 142 applies and which were sold before October 18, 2011.

(3) *Certain refunding bonds.* An issuer need not apply this section to bonds that are issued in a current refunding to refund bonds to which this section does not apply if the weighted average maturity of the refunding bonds is no

longer than the remaining weighted average maturity of the refunded bonds.

[T.D. 9546, 76 FR 51881, Aug. 19, 2011; 76 FR 55255, Sept. 7, 2011]

§ 1.142(f)(4)-1 Manner of making election to terminate tax-exempt bond financing.

(a) *Overview.* Section 142(f)(4) permits a person engaged in the local furnishing of electric energy or gas (a local furnisher) that uses facilities financed with exempt facility bonds under section 142(a)(8) and that expands its service area in a manner inconsistent with the requirements of sections 142(a)(8) and (f) to make an election to ensure that those bonds will continue to be treated as exempt facility bonds. The election must meet the requirements of paragraphs (b) and (c) of this section.

(b) *Time for making election—(1) In general.* An election under section 142(f)(4)(B) must be filed with the Internal Revenue Service on or before 90 days after the date of the service area expansion that causes bonds to cease to meet the requirements of sections 142(a)(8) and (f).

(2) *Date of service area expansion.* For the purposes of this section, the date of the service area expansion is the first date on which the local furnisher is authorized to collect revenue for the provision of service in the expanded area.

(c) *Manner of making election.* An election under section 142(f)(4)(B) must be captioned “ELECTION TO TERMINATE TAX-EXEMPT BOND FINANCING”, must be signed under penalties of perjury by a person who has authority to sign on behalf of the local furnisher, and must contain the following information—

- (1) The name of the local furnisher;
- (2) The tax identification number of the local furnisher;
- (3) The complete address of the local furnisher;
- (4) The date of the service area expansion;
- (5) Identification of each bond issue subject to the election, including the complete name of each issue, the tax identification number of each issuer, the report number of the information return filed under section 149(e) for each issue, the issue date of each issue,

the CUSIP number (if any) of the bond with the latest maturity of each issue, the issue price of each issue, the adjusted issue price of each issue as of the date of the election, the earliest date on which the bonds of each issue may be redeemed, and the principal amount of bonds of each issue to be redeemed on the earliest redemption date;

(6) A statement that the local furnisher making the election agrees to the conditions stated in section 142(f)(4)(B); and

(7) A statement that each issuer of the bonds subject to the election has received written notice of the election.

(d) *Effect on section 150(b).* Except as provided in paragraph (e) of this section, if a local furnisher files an election within the period specified in paragraph (b) of this section, section 150(b) does not apply to bonds identified in the election during and after that period.

(e) *Effect of failure to meet agreements.* If a local furnisher fails to meet any of the conditions stated in an election pursuant to paragraph (c)(6) of this section, the election is invalid.

(f) *Corresponding provisions of the Internal Revenue Code of 1954.* Section 103(b)(4)(E) of the Internal Revenue Code of 1954 set forth corresponding requirements for the exclusion from gross income of the interest on bonds issued for facilities for the local furnishing of electric energy or gas. For the purposes of this section any reference to sections 142(a)(8) and (f) of the Internal Revenue Code of 1986 includes a reference to the corresponding portion of section 103(b)(4)(E) of the Internal Revenue Code of 1954.

(g) *Effective dates.* This section applies to elections made on or after January 19, 2001.

[T.D. 8941, 66 FR 4671, Jan. 18, 2001]

§ 1.143(g)-1 Requirements related to arbitrage.

(a) *In general.* Under section 143, for an issue to be an issue of qualified mortgage bonds or qualified veterans' mortgage bonds (together, mortgage revenue bonds), the requirements of section 143(g) must be satisfied. An issue satisfies the requirements of section 143(g) only if such issue meets the

requirements of paragraph (b) of this section and, in the case of an issue 95 percent or more of the net proceeds of which are to be used to provide residences for veterans, such issue also meets the requirements of paragraph (c) of this section. The requirements of section 143(g) and this section are applicable in addition to the requirements of section 148 and §§ 1.148-0 through 1.148-11.

(b) *Effective rate of mortgage interest not to exceed bond yield by more than 1.125 percentage points—(1) Maximum yield.* An issue shall be treated as meeting the requirements of this paragraph (b) only if the excess of the effective rate of interest on the mortgages financed by the issue, over the yield on the issue, is not greater over the term of the issue than 1.125 percentage points.

(2) *Effective rate of interest.* (i) In determining the effective rate of interest on any mortgage for purposes of this paragraph (b), there shall be taken into account all fees, charges, and other amounts borne by the mortgagor that are attributable to the mortgage or to the bond issue. Such amounts include points, commitment fees, origination fees, servicing fees, and prepayment penalties paid by the mortgagor.

(ii) Items that shall be treated as borne by the mortgagor and shall be taken into account in calculating the effective rate of interest also include—

(A) All points, commitment fees, origination fees, or similar charges borne by the seller of the property; and

(B) The excess of any amounts received from any person other than the mortgagor by any person in connection with the acquisition of the mortgagor's interest in the property over the usual and reasonable acquisition costs of a person acquiring like property when owner-financing is not provided through the use of mortgage revenue bonds.

(iii) The following items shall not be treated as borne by the mortgagor and shall not be taken into account in calculating the effective rate of interest—

(A) Any expected rebate of arbitrage profit under paragraph (c) of this section; and

(B) Any application fee, survey fee, credit report fee, insurance charge or

similar settlement or financing cost to the extent such amount does not exceed amounts charged in the area in cases when owner-financing is not provided through the use of mortgage revenue bonds. For example, amounts paid for Federal Housing Administration, Veterans' Administration, or similar private mortgage insurance on an individual's mortgage, or amounts paid for pool mortgage insurance on a pool of mortgages, are not taken into account so long as such amounts do not exceed the amounts charged in the area with respect to a similar mortgage, or pool of mortgages, that is not financed with mortgage revenue bonds. For this purpose, amounts paid for pool mortgage insurance include amounts paid to an entity (for example, the Government National Mortgage Association, the Federal National Mortgage Association (FNMA), the Federal Home Loan Mortgage Corporation, or other mortgage insurer) to directly guarantee the pool of mortgages financed with the bonds, or to guarantee a pass-through security backed by the pool of mortgages financed with the bonds.

(C) The following example illustrates the provisions of this paragraph (b)(2)(iii):

Example. Housing Authority X issues bonds intended to be qualified mortgage bonds under section 143(a). At the time the bonds are issued, X enters into an agreement with a group of mortgage lending institutions (lenders) under which the lenders agree to originate and service mortgages that meet certain specified requirements. After originating a specified amount of mortgages, each lender issues a "pass-through security" (each, a PTS) backed by the mortgages and sells the PTS to X. Under the terms of the PTS, the lender pays X an amount equal to the regular monthly payments on the mortgages (less certain fees), whether or not received by the lender (plus any prepayments and liquidation proceeds in the event of a foreclosure or other disposition of any mortgages). FNMA guarantees the timely payment of principal and interest on each PTS. From the payments received from each mortgagor, the lender pays a fee to FNMA for its guarantee of the PTS. The amounts paid to FNMA do not exceed the amounts charged in the area with respect to a similar pool of mortgages that is not financed with mortgage revenue bonds. Under this paragraph (b)(2)(iii), the fees for the guarantee provided by FNMA are an insurance charge because the guarantee is pool mortgage in-

surance. Because the amounts charged for the guarantee do not exceed the amounts charged in the area with respect to a similar pool of mortgages that is not financed with mortgage revenue bonds, the amounts charged for the guarantee are not taken into account in computing the effective rate of interest on the mortgages financed with X's bonds.

(3) *Additional rules.* To the extent not inconsistent with the Tax Reform Act of 1986, Public Law 99-514 (the 1986 Act), or subsequent law, § 6a.103A-2(i)(2) (other than paragraphs (i)(2)(i) and (i)(2)(ii)(A) through (C)) of this chapter applies to provide additional rules relating to compliance with the requirement that the effective rate of mortgage interest not exceed the bond yield by more than 1.125 percentage points.

(c) *Arbitrage and investment gains to be used to reduce costs of owner-financing.* As provided in section 143(g)(3), certain earnings on nonpurpose investments must either be paid or credited to mortgagors, or paid to the United States, in certain circumstances. To the extent not inconsistent with the 1986 Act or subsequent law, § 6a.103A-2(i)(4) of this chapter applies to provide guidance relating to compliance with this requirement.

(d) *Effective dates*—(1) *In general.* Except as otherwise provided in this section, § 1.143(g)-1 applies to bonds sold on or after May 23, 2005, that are subject to section 143.

(2) *Permissive retroactive application in whole.* Except as provided in paragraph (d)(4) of this section, issuers may apply § 1.143(g)-1, in whole, but not in part, to bonds sold before May 23, 2005, that are subject to section 143.

(3) *Bonds subject to the Internal Revenue Code of 1954.* Except as provided in paragraph (d)(4) of this section and subject to the applicable effective dates for the corresponding statutory provisions, an issuer may apply § 1.143(g)-1, in whole, but not in part, to bonds that are subject to section 103A(i) of the Internal Revenue Code of 1954.

(4) *Special rule for pre-July 1, 1993 bonds.* To the extent that an issuer applies this section to bonds issued before July 1, 1993, § 6a.103A-2(i)(3) of this chapter also applies to the bonds.

§ 1.144-0

26 CFR Ch. I (4-1-22 Edition)

§ 1.144-0 Table of contents.

This section lists the captioned paragraphs contained in §§ 1.144-1 and 1.144-2.

§ 1.144-1 Qualified small issue bonds, qualified student loan bonds, and qualified redevelopment bonds.

- (a) Overview.
- (b) Scope.
- (c) Effective dates.

§ 1.144-2 Remedial actions.

[T.D. 8712, 62 FR 2303, Jan. 16, 1997]

§ 1.144-1 Qualified small issue bonds, qualified student loan bonds, and qualified redevelopment bonds.

(a) *Overview.* Interest on a private activity bond is not excludable from gross income under section 103(a) unless the bond is a qualified bond. Under section 141(e)(1)(D), a qualified small issue bond issued under section 144(a) may be a qualified bond. Under section 144(a), any qualified small issue bond is any bond issued as a part of an issue 95 percent or more of the proceeds of which are to be used to provide certain manufacturing facilities or certain depreciable farm property and which meets other requirements. Under section 141(e)(1)(F) a qualified redevelopment bond issued under section 144(c) is a qualified bond. Under section 144(c), a qualified redevelopment bond is any bond issued as a part of an issue 95 percent or more of the net proceeds of which are to be used for one or more redevelopment purposes and which meets certain other requirements.

(b) *Scope.* Sections 1.144-0 through 1.144-2 apply for purposes of the rules for small issue bonds under section 144(a) and qualified redevelopment bonds under section 144(c), except that § 1.144-2 does not apply to the requirements for qualified small issue bonds under section 144(a)(4) (relating to the limitation on capital expenditures) or under section 144(a)(10) (relating to the aggregate limit of tax-exempt bonds per taxpayer).

(c) *Effective dates.* For effective dates of §§ 1.144-0 through 1.144-2, see § 1.141-16.

[T.D. 8712, 62 FR 2303, Jan. 16, 1997]

§ 1.144-2 Remedial actions.

The remedial action rules of § 1.142-2 apply to qualified small issue bonds issued under section 144(a) and to qualified redevelopment bonds issued under section 144(c), for this purpose treating those bonds as exempt facility bonds and the qualifying purposes for those bonds as exempt facilities.

[T.D. 8712, 62 FR 2303, Jan. 16, 1997]

§ 1.145-0 Table of contents.

This section lists the captioned paragraphs contained in §§ 1.145-1 and 1.145-2.

§ 1.145-1 Qualified 501(c)(3) bonds.

- (a) Overview.
- (b) Scope.
- (c) Effective dates.

§ 1.145-2 Application of private activity bond regulations.

- (a) In general.
- (b) Modification of private business tests.
- (c) Exceptions.
 - (1) Certain provisions relating to governmental programs.
 - (2) Costs of issuance.
 - (d) Issuance costs financed by prior issue.

[T.D. 8712, 62 FR 2303, Jan. 16, 1997, as amended by T.D. 9234, 70 FR 75035, Dec. 19, 2005]

§ 1.145-1 Qualified 501(c)(3) bonds.

(a) *Overview.* Interest on a private activity bond is not excludable from gross income under section 103(a) unless the bond is a qualified bond. Under section 141(e)(1)(G), a qualified 501(c)(3) bond issued under section 145 is a qualified bond. Under section 145, a qualified 501(c)(3) bond is any bond issued as a part of an issue that satisfies the requirements of sections 145(a) through (d).

(b) *Scope.* Sections 1.145-0 through 1.145-2 apply for purposes of section 145(a).

(c) *Effective dates.* For effective dates of §§ 1.145-0 through 1.145-2, see § 1.141-15.

[T.D. 8712, 62 FR 2303, Jan. 16, 1997]

§ 1.145-2 Application of private activity bond regulations.

(a) *In general.* Except as provided in this section, §§ 1.141-0 through 1.141-15 apply to section 145(a). For example, under this section, § 1.141-1, and § 1.141-

Internal Revenue Service, Treasury

§ 1.147-2

2, an issue ceases to be an issue of qualified 501(c)(3) bonds if the issuer or a conduit borrower 501(c)(3) organization takes a deliberate action, subsequent to the issue date, that causes the issue to fail to comply with the requirements of sections 141(e) and 145 (such as an action that results in revocation of exempt status of the 501(c)(3) organization).

(b) *Modification of private business tests.* In applying §§1.141-0 through 1.141-15 to section 145(a)—

(1) References to governmental persons include 501(c)(3) organizations with respect to their activities that do not constitute unrelated trades or businesses under section 513(a);

(2) References to “10 percent” and “proceeds” in the context of the private business use test and the private security or payment test mean “5 percent” and “net proceeds”; and

(3) References to the private business use test in §§1.141-2 and 1.141-12 include the ownership test of section 145(a)(1).

(4) References to *governmental bonds* in §1.141-6 mean qualified 501(c)(3) bonds.

(5) References to *ownership by governmental persons* in §1.141-6 mean ownership by governmental persons or 501(c)(3) organizations.

(c) *Exceptions—(1) Certain provisions relating to governmental programs.* The following provisions do not apply to section 145: §1.141-2(d)(4) (relating to the special rule for dispositions of personal property in the ordinary course of an established governmental program) and §1.141-2(d)(5) (relating to the special rule for general obligation bond programs that finance a large number of separate purposes).

(2) *Costs of issuance.* Sections 1.141-3(g)(6) and 1.141-6(d) do not apply to the extent costs of issuance are allocated among the other purposes for which the proceeds are used or to portions of a project. For purposes of section 145(a)(2), costs of issuance are treated as private business use.

(d) *Issuance costs financed by prior issue.* Solely for purposes of applying the private business use test to a refunding issue under §1.141-13, the use of proceeds of the prior issue (or any earlier issue in a series of refundings) to pay issuance costs of the prior issue (or

the earlier issue) is treated as a government use.

[T.D. 8712, 62 FR 2303, Jan. 16, 1997, as amended by T.D. 9234, 70 FR 75035, Dec. 19, 2005; T.D. 9741, 80 FR 65646, Oct. 27, 2015]

§ 1.147-0 Table of contents.

§ 1.147-1 *Other requirements applicable to certain private activity bonds.*

- (a) Overview.
- (b) Scope.
- (c) Effective dates.

§ 1.147-2 *Remedial actions.*

[T.D. 8712, 62 FR 2304, Jan. 16, 1997]

§ 1.147-1 Other requirements applicable to certain private activity bonds.

(a) *Overview.* Interest on a private activity bond is not excludable from gross income under section 103(a) unless the bond is a qualified bond. Under section 147, certain requirements must be met for a private activity bond to qualify as a qualified bond.

(b) *Scope.* Sections 1.147-0 through 1.147-2 apply for purposes of the rules in section 147 for qualified private activity bonds that permit use of proceeds to acquire land for environmental purposes (section 147(c)(3)), permit use of proceeds for certain rehabilitations (section 147(d) (2) and (3)), prohibit use of proceeds to finance skyboxes, airplanes, gambling establishments and similar facilities (section 147(e)), and require public approval (section 147(f)), but not for the rules limiting use of proceeds to acquire land or existing property under sections 147(c) (1) and (2), and (d)(1).

(c) *Effective dates.* For effective dates of §§1.147-0 through 1.147-2, see §1.141-16.

[T.D. 8712, 62 FR 2304, Jan. 16, 1997]

§ 1.147-2 Remedial actions.

The remedial action rules of §1.142-2 apply to the rules in section 147 for qualified private activity bonds that permit use of proceeds to acquire land for environmental purposes (section 147(c)(3)), permit use of proceeds for certain rehabilitations (section 147(d)

§ 1.147(b)-1

26 CFR Ch. I (4-1-22 Edition)

(2) and (3)), prohibit use of proceeds to finance skyboxes, airplanes, gambling establishments and similar facilities (section 147(e)), and require public approval (section 147(f)), for this purpose treating those private activity bonds subject to the rules under section 147 as exempt facility bonds and the qualifying purposes for those bonds as exempt facilities.

[T.D. 8712, 62 FR 2304, Jan. 16, 1997]

§ 1.147(b)-1 Bond maturity limitation-treatment of working capital.

Section 147(b) does not apply to proceeds of a private activity bond issue used to finance working capital expenditures.

[T.D. 8476, 58 FR 33515, June 18, 1993]

§ 1.147(f)-1 Public approval of private activity bonds.

(a) *In general.* Interest on a private activity bond is excludable from gross income under section 103(a) only if the bond meets the requirements for a qualified bond as defined in section 141(e) and other applicable requirements provided in section 103. In order to be a qualified bond as defined in section 141(e), among other requirements, a private activity bond must meet the requirements of section 147(f). A private activity bond meets the requirements of section 147(f) only if the bond is publicly approved pursuant to paragraph (b) of this section or the bond qualifies for the exception for refunding bonds in section 147(f)(2)(D).

(b) *Public approval requirement*—(1) *In general.* Except as otherwise provided in this section, a bond meets the requirements of section 147(f) if, before the issue date, the issue of which the bond is a part receives issuer approval and host approval (each a *public approval*) as defined in paragraphs (b)(2) and (3) of this section in accordance with the method and process set forth in paragraphs (c) through (f) of this section.

(2) *Issuer approval.* Except as otherwise provided in this section, *issuer approval* means an approval that meets the requirements of this paragraph (b)(2). Either the governmental unit that issues the issue or the governmental unit on behalf of which the

issue is issued must approve the issue. For this purpose, § 1.103-1 applies to the determination of whether an issuer issues bonds on behalf of another governmental unit. If an issuer issues bonds on behalf of more than one governmental unit (for example, in the case of an authority that acts for two counties), any one of those governmental units may provide the issuer approval.

(3) *Host approval.* Except as otherwise provided in this section, *host approval* means an approval that meets the requirements of this paragraph (b)(3). Each governmental unit the geographic jurisdiction of which contains the site of a project to be financed by the issue must approve the issue. If, however, the entire site of a project to be financed by the issue is within the geographic jurisdiction of more than one governmental unit within a State (counting the State as a governmental unit within such State), then any one of those governmental units may provide host approval for the issue for that project. For purposes of the host approval, if a project to be financed by the issue is located within the geographic jurisdiction of two or more governmental units but not entirely within any one of those governmental units, each portion of the project that is located entirely within the geographic jurisdiction of the respective governmental units may be treated as a separate project. The issuer approval provided pursuant to paragraph (b)(2) of this section may be treated as a host approval if the governmental unit providing the issuer approval is also a governmental unit eligible to provide the host approval pursuant to this section.

(4) *Special rule for host approval of airports or high-speed intercity rail facilities.* Pursuant to a special rule in section 147(f)(3), if the proceeds of an issue are to be used to finance a project that consists of either facilities located at an airport (within the meaning of section 142(a)(1)) or high-speed intercity rail facilities (within the meaning of section 142(a)(11)) and the issuer of that issue is the owner or operator of the airport or high-speed intercity rail facilities, the issuer is the only governmental unit that is required to provide the host approval for that project.

(5) *Special rule for issuer approval of scholarship funding bond issues and volunteer fire department bond issues.* In the case of a qualified scholarship funding bond as defined in section 150(d)(2), the governmental unit that made a request described in section 150(d)(2)(B) with respect to the issuer of the bond is the governmental unit on behalf of which the bond was issued for purposes of the issuer approval. If more than one governmental unit within a State made a request described in section 150(d)(2)(B), the State or any such requesting governmental unit may be treated as the governmental unit on behalf of which the bond was issued for purposes of the issuer approval. In the case of a bond of a volunteer fire department treated as a bond of a political subdivision of a State under section 150(e), the political subdivision described in section 150(e)(2)(B) with respect to that volunteer fire department is the governmental unit on behalf of which the bond is issued for purposes of the issuer approval.

(6) *Special rules for host approval of mortgage revenue bonds, student loan bonds, and certain qualified 501(c)(3) bonds.* In the case of a mortgage revenue bond (as defined in paragraph (g)(5) of this section), a qualified student loan bond as defined in section 144(b), and the portion of an issue of qualified 501(c)(3) bonds as defined in section 145 that finances working capital expenditures, the issue or portion of the issue must receive an issuer approval but no host approval is necessary. See also paragraph (f)(5) of this section, providing certain optional alternative special rules for certain qualified 501(c)(3) bonds for pooled loan financings described in section 147(b)(4)(B).

(c) *Method of public approval.* The method of public approval of an issue must satisfy either paragraph (c)(1) or (2) of this section. An approval may satisfy the requirements of this paragraph (c) without regard to the authority under State or local law for the acts constituting that approval.

(1) *Applicable elected representative.* An applicable elected representative of the approving governmental unit approves the issue following a public hearing for

which there was reasonable public notice.

(2) *Voter referendum.* A voter referendum of the approving governmental unit approves the issue.

(d) *Public hearing and reasonable public notice—(1) Public hearing.* Public hearing means a forum providing a reasonable opportunity for interested individuals to express their views, orally or in writing, on the proposed issue of bonds and the location and nature of the proposed project to be financed.

(2) *Location of the public hearing.* The public hearing must be held in a location that, based on the facts and circumstances, is convenient for residents of the approving governmental unit. The location of the public hearing is presumed convenient for residents of the unit if the public hearing is located in the approving governmental unit's capital or seat of government. If more than one governmental unit is required to hold a public hearing, the hearings may be combined as long as the combined hearing affords the residents of all of the participating governmental units a reasonable opportunity to be heard. The location of any combined hearing is presumed convenient for residents of each participating governmental unit if it is no farther than 100 miles from the seat of government of each participating governmental unit beyond whose geographic jurisdiction the hearing is conducted.

(3) *Procedures for conducting the public hearing.* In general, a governmental unit may select its own procedure for a public hearing, provided that interested individuals have a reasonable opportunity to express their views. Thus, a governmental unit may impose reasonable requirements on persons who wish to participate in the hearing, such as a requirement that persons desiring to speak at the hearing make a written request to speak at least 24 hours before the hearing or that they limit their oral remarks to a prescribed time. For this purpose, it is unnecessary, for example, that the applicable elected representative of the approving governmental unit be present at the hearing, that a report on the hearing be submitted to that applicable elected representative, or that State administrative procedural requirements for

public hearings be observed. Except to the extent State procedural requirements for public hearings are in conflict with a specific requirement of this section, a public hearing performed in compliance with State procedural requirements satisfies the requirements for a public hearing in this paragraph (d). A public hearing may be conducted by an individual appointed or employed to perform such function by the governmental unit or its agencies, or by the issuer. Thus, for example, for bonds to be issued by an authority that acts on behalf of a county, the hearing may be conducted by the authority, the county, or an appointee of either.

(4) *Reasonable public notice.* *Reasonable public notice* means notice that is reasonably designed to inform residents of an approving governmental unit, including the issuing governmental unit and the governmental unit in whose geographic jurisdiction a project is to be located, of the proposed issue. The notice must state the time and place for the public hearing and contain the information required by paragraph (f)(2) of this section. Notice is presumed to be reasonably designed to inform residents of an approving governmental unit if it satisfies the requirements of this paragraph (d)(4) and is given no fewer than seven (7) calendar days before the public hearing in one or more of the ways set forth in paragraphs (d)(4)(i) through (iv) of this section.

(i) *Newspaper publication.* Public notice may be given by publication in one or more newspapers of general circulation available to the residents of the governmental unit.

(ii) *Radio or television broadcast.* Public notice may be given by radio or television broadcast to the residents of the governmental unit.

(iii) *Governmental unit website posting.* Public notice may be given by electronic posting on the approving governmental unit's primary public website in an area of that website used to inform its residents about events affecting the residents (for example, notice of public meetings of the governmental unit). In the case of an issuer approval of an issue issued by an on-behalf-of issuer that acts on behalf of a governmental unit, such notice may be

posted on the public website of the on-behalf-of issuer as an alternative to the public website of the approving governmental unit.

(iv) *Alternative State law public notice procedures.* Public notice may be given in a way that is permitted under a general State law for public notices for public hearings for the approving governmental unit, provided that the public notice is reasonably accessible.

(e) *Applicable elected representative—*(1) *In general—*(i) *Definition of applicable elected representative.* The *applicable elected representative* of a governmental unit means—

(A) The governmental unit's elected legislative body;

(B) The governmental unit's chief elected executive officer;

(C) In the case of a State, the chief elected legal officer of the State's executive branch of government; or

(D) Any official elected by the voters of the governmental unit and designated for purposes of this section by the governmental unit's chief elected executive officer or by State or local law to approve issues for the governmental unit.

(ii) *Elected officials.* For purposes of paragraphs (e)(1)(i)(B), (C), and (D) of this section, an official is considered elected only if that official is popularly elected at-large by the voters of the governmental unit. If an official popularly elected at-large by the voters of a governmental unit is appointed or selected pursuant to State or local law to be the chief executive officer of the unit, that official is deemed to be an elected chief executive officer for purposes of this section but for no longer than the official's tenure as an official popularly elected at-large.

(iii) *Legislative bodies.* In the case of a bicameral legislature that is popularly elected, both chambers together constitute an applicable elected representative. Absent designation under paragraph (e)(1)(i)(D) of this section, however, neither such chamber independently constitutes an applicable elected representative. If multiple elected legislative bodies of a governmental unit have independent legislative authority, the body with the more specific authority relating to the issue is the only legislative body that is treated as an

Internal Revenue Service, Treasury

§ 1.147(f)-1

elected legislative body under paragraph (e)(1)(i)(A) of this section.

(2) *Governmental unit with no applicable elected representative*—(i) *In general.* The applicable elected representatives of a governmental unit with no applicable elected representative (but for this paragraph (e)(2) and section 147(f)(2)(E)(ii)) are the applicable elected representatives of the next higher governmental unit (with an applicable elected representative) from which the governmental unit derives its authority. Except as otherwise provided in this section, any governmental unit from which the governmental unit with no applicable elected representative derives its authority may be treated as the next higher governmental unit without regard to the relative status of such higher governmental unit under State law. A governmental unit derives its authority from another governmental unit that—

(A) Enacts a specific law (for example, a provision in a State constitution, charter, or statute) by or under which the governmental unit is created;

(B) Otherwise empowers or approves the creation of the governmental unit; or

(C) Appoints members to the governing body of the governmental unit.

(ii) *Host approval.* For purposes of a host approval, a governmental unit may be treated as the next higher governmental unit only if the project is located within its geographic jurisdiction and eligible residents of the unit are entitled to vote for its applicable elected representatives.

(3) *On behalf of issuers.* In the case of an issuer that issues bonds on behalf of a governmental unit, the applicable elected representative is any applicable elected representative of the governmental unit on behalf of which the bonds are issued.

(f) *Public approval process*—(1) *In general.* The public approval process for an issue, including scope, content, and timing of the public approval, must meet the requirements of this paragraph (f). A governmental unit must timely approve either each project to be financed with proceeds of the issue or a plan of financing for each project to be financed with proceeds of the issue.

(2) *General rule on information required for a reasonable public notice and public approval.* Except as otherwise provided in this section, a project to be financed with proceeds of an issue is within the scope of a public approval under section 147(f) if the reasonable public notice of the public hearing, if applicable, and the public approval (together the notice and approval) include the information set forth in paragraphs (f)(2)(i) through (iv) of this section.

(i) *The project.* The notice and approval must include a general functional description of the type and use of the project to be financed with the issue. For this purpose, a project description is sufficient if it identifies the project by reference to a particular category of exempt facility bond to be issued (for example, an exempt facility bond for an airport pursuant to section 142(a)(1)) or by reference to another general category of private activity bond together with information on the type and use of the project to be financed with the issue (for example, a qualified small issue bond as defined in section 144(a) for a manufacturing facility or a qualified 501(c)(3) bond as defined in section 145 for a hospital facility and working capital expenditures).

(ii) *The maximum stated principal amount of the issue.* The notice and approval must include the maximum stated principal amount of the issue of private activity bonds to be issued to finance the project or projects. If an issue finances multiple projects (for example, facilities at different locations on non-proximate sites that are not treated as part of the same project), the notice and approval must specify separately the maximum stated principal amount of bonds to be issued to finance each separate project to be financed as part of the issue. The maximum stated principal amount of bonds to be issued to finance a project may be determined on any reasonable basis and may take into account contingencies, without regard to whether the occurrence of any such contingency is reasonably expected at the time of the notice.

(iii) *The name of the initial legal owner or principal user of the project.* The notice and approval must include the name of either the expected initial

legal owner or principal user (within the meaning of section 144(a)) of the project or, alternatively, the name of a significant true beneficial party of interest for such legal owner or user (for example, the name of a section 501(c)(3) organization that is the sole member of a limited liability company that is the legal owner or the name of a general partner of a partnership that owns the project).

(iv) *The location of the project.* The notice and approval must include a general description of the prospective location of the project by street address, reference to boundary streets or other geographic boundaries, or other description of the specific geographic location that is reasonably designed to inform readers of the location. For a project involving multiple capital projects or facilities located on the same site, or on adjacent or reasonably proximate sites with similar uses, a consolidated description of the location of those capital projects or facilities provides a sufficient description of the location of the project. For example, a project for a section 501(c)(3) educational entity involving multiple buildings on the entity's main urban college campus may describe the location of the project by reference to the outside street boundaries of that campus with a reference to any noncontiguous features of that campus.

(3) *Special rule for mortgage revenue bonds.* Mortgage loans financed by mortgage revenue bonds are within the scope of a public approval if the notice and approval state that the bonds are to be issued to finance residential mortgages, provide the maximum stated principal amount of mortgage revenue bonds expected to be issued, and provide a general description of the geographic jurisdiction in which the residences to be financed with the proceeds of the mortgage revenue bonds are expected to be located (for example, residences located throughout a State for an issuer with a statewide jurisdiction or residences within a particular local geographic jurisdiction, such as within a city or county, for a local issuer). For this purpose, in the case of mortgage revenue bonds, no information is required on specific names of mortgage

loan borrowers or specific locations of individual residences to be financed.

(4) *Special rule for qualified student loan bonds.* Qualified student loans financed by qualified student loan bonds as defined in section 144(b) are within the scope of a public approval if the notice and approval state that the bonds will be issued to finance student loans and state the maximum stated principal amount of qualified student loan bonds expected to be issued for qualified student loans. For this purpose, in the case of qualified student loan bonds, no information is required with respect to names of specific student loan borrowers.

(5) *Special rule for certain qualified 501(c)(3) bonds.* Qualified 501(c)(3) bonds issued pursuant to section 145 for pooled loan financings that are described in section 147(b)(4)(B) (without regard to any election under section 147(b)(4)(A)) are within the scope of a public approval if the public approval either meets the general requirements of paragraph (b) of this section or, alternatively, at the issuer's option, meets the special requirements of paragraphs (f)(5)(i) and (ii) of this section.

(i) *Pre-issuance issuer approval.* Within the time period required by paragraph (f)(7) of this section, an issuer approval is obtained after reasonable public notice of a public hearing is provided and a public hearing is held. For this purpose, a project is treated as described in the notice and approval if the notice and approval provide that the bonds will be qualified 501(c)(3) bonds to be used to finance loans described in section 147(b)(4)(B), state the maximum stated principal amount of bonds expected to be issued to finance loans to section 501(c)(3) organizations or governmental units as described in section 147(b)(4)(B), provide a general description of the type of project to be financed with such loans (for example, loans for hospital facilities or college facilities), and state that an additional public approval that includes specific project information will be obtained before any such loans are originated.

(ii) *Post-issuance public approval for specific loans.* Before a loan described in section 147(b)(4)(B) is originated, a supplemental public approval, including issuer approval and host approval, for

the bonds to be used to finance that loan is obtained that meets all the requirements of section 147(f) and the requirements for a public approval in paragraph (b) of this section. This post-issuance supplemental public approval requirement applies by treating the bonds to be used to finance such loan as if they were reissued for purposes of section 147(f) (without regard to paragraph (f)(5) of this section). For this purpose, proceeds to be used to finance such loan do not include the portion of the issue used to finance a common reserve fund or common costs of issuance.

(6) *Deviations in public approval information*—(i) *In general.* Except as otherwise provided in this section, a substantial deviation between the stated use or amount of proceeds of an issue included in the information required to be provided in the notice and approval (*public approval information*) and the actual use or amount of proceeds of the issue causes that issue to fail to meet the public approval requirement. Conversely, insubstantial deviations between the stated use or amount of proceeds of an issue included in the public approval information and the actual use or amount of proceeds of the issue do not cause such a failure. In general, the determination of whether a deviation is substantial is based on all the facts and circumstances. In all events, however, a change in the fundamental nature or type of a project is a substantial deviation.

(ii) *Certain insubstantial deviations in public approval information.* The following deviations from the public approval information in the notice and approval are treated as insubstantial deviations:

(A) *Size of bond issue and use of proceeds.* A deviation between the maximum stated principal amount of a proposed issuance of bonds to finance a project that is specified in public approval information and the actual stated principal amount of bonds issued and used to finance that project is an insubstantial deviation if that actual stated principal amount is no more than ten percent (10%) greater than that maximum stated principal amount or is any amount less than that maximum stated principal

amount. In addition, the use of proceeds to pay working capital expenditures directly associated with any project specified in the public approval information is an insubstantial deviation.

(B) *Initial legal owner or principal user.* A deviation between the initial legal owner or principal user of the project named in the notice and approval and the actual initial legal owner or principal user of the project is an insubstantial deviation if such parties are related parties on the issue date of the issue.

(iii) *Supplemental public approval to cure certain substantial deviations in public approval information.* A substantial deviation between the stated use or amount of proceeds of an issue included in the public approval information and the actual use or amount of the proceeds of the issue does not cause that issue to fail to meet the public approval requirement if all of the following requirements are met:

(A) *Original public approval and reasonable expectations.* The issue met the requirements for a public approval in paragraph (b) of this section. In addition, on the issue date of the issue, the issuer reasonably expected there would be no substantial deviations between the stated use or amount of proceeds of an issue included in the public approval information and the actual use or amount of the proceeds of the issue.

(B) *Unexpected events or unforeseen changes in circumstances.* As a result of unexpected events or unforeseen changes in circumstances that occur after the issue date of the issue, the issuer determines to use proceeds of the issue in a manner or amount not provided in a public approval.

(C) *Supplemental public approval.* Before using proceeds of the bonds in a manner or amount not provided in a public approval, the issuer obtains a supplemental public approval for those bonds that meets the public approval requirement in paragraph (b) of this section. This supplemental public approval requirement applies by treating those bonds as if they were reissued for purposes of section 147(f).

(7) *Certain timing requirements.* Public approval of an issue is timely only if the issuer obtains the public approval

within one year before the issue date of the issue. Public approval of a plan of financing is timely only if the issuer obtains public approval for the plan of financing within one year before the issue date of the first issue issued under the plan of financing and the issuer issues all issues under the plan of financing within three years after the issue date of such first issue.

(g) *Definitions.* The definitions in this paragraph (g) apply for purposes of this section. In addition, the general definitions in § 1.150-1 apply for purposes of this section.

(1) *Geographic jurisdiction* means the area encompassed by the boundaries prescribed by State or local law for a governmental unit or, if there are no such boundaries, the area in which a unit may exercise such sovereign powers that make that unit a governmental unit for purposes of § 1.103-1 and this section.

(2) *Governmental unit* has the meaning of “State or local governmental unit” as defined in § 1.103-1. Thus, a governmental unit is a State, territory, a possession of the United States, the District of Columbia, or any political subdivision thereof.

(3) *Host approval* is defined in paragraph (b)(3) of this section.

(4) *Issuer approval* is defined in paragraph (b)(2) of this section.

(5) *Mortgage revenue bonds* mean qualified mortgage bonds as defined in section 143(a), qualified veterans’ mortgage bonds as defined in section 143(b), or refunding bonds issued to finance mortgages of owner-occupied residences pursuant to applicable law in effect prior to enactment of section 143(a) or section 143(b).

(6) *Proceeds* means “proceeds” as defined in § 1.141-1(b), except that it does not include disposition proceeds.

(7) *Project* generally means one or more capital projects or facilities, including land, buildings, equipment, and other property, to be financed with an issue, that are located on the same site, or adjacent or proximate sites used for similar purposes, and that are subject to the public approval requirement of section 147(f). Capital projects or facilities that are not located on the same site or adjacent or proximate sites may be treated as one project if

those capital projects or facilities are used in an integrated operation. For an issue of mortgage revenue bonds or an issue of qualified student loan bonds as defined in section 144(b), the term project means the mortgage loans or qualified student loans to be financed with the proceeds of the issue. For an issue of qualified 501(c)(3) bonds as defined in section 145, the term project means a project as defined in the first sentence of this definition, and also is deemed to include working capital expenditures to be financed with proceeds of the issue.

(8) *Public approval information* is defined in paragraph (f)(6)(i) of this section.

(9) *Public hearing* is defined in paragraph (d)(1) of this section.

(10) *Reasonable public notice* is defined in paragraph (d)(4) of this section.

(11) *Voter referendum* means a vote by the voters of the affected governmental unit conducted in the same manner and time as voter referenda on matters relating to governmental spending or bond issuances by the governmental unit under applicable State and local law.

(h) *Applicability date.* This section applies to bonds issued pursuant to a public approval occurring on or after April 1, 2019. For bonds issued pursuant to a public approval occurring before April 1, 2019, see § 5f.103-2 as contained in 26 CFR part 5f, revised as of April 1, 2018. In addition, an issuer may apply the provisions of paragraph (f)(6) of this section in whole, but not in part, to bonds issued pursuant to a public approval occurring before April 1, 2019.

[T.D. 9845, 83 FR 67690, Dec. 31, 2018]

§ 1.148-0 Scope and table of contents.

(a) *Overview.* Under section 103(a), interest on certain obligations issued by States and local governments is excludable from the gross income of the owners. Section 148 was enacted to minimize the arbitrage benefits from investing gross proceeds of tax-exempt bonds in higher yielding investments and to remove the arbitrage incentives to issue more bonds, to issue bonds earlier, or to leave bonds outstanding longer than is otherwise reasonably necessary to accomplish the governmental purposes for which the bonds

Internal Revenue Service, Treasury

§ 1.148-0

were issued. To accomplish these purposes, section 148 restricts the direct and indirect investment of bond proceeds in higher yielding investments and requires that certain earnings on higher yielding investments be rebated to the United States. Violation of these provisions causes the bonds in the issue to become *arbitrage bonds*, the interest on which is not excludable from the gross income of the owners under section 103(a). The regulations in §§1.148-1 through 1.148-11 apply in a manner consistent with these purposes.

(b) *Scope.* Sections 1.148-1 through 1.148-11 apply generally for purposes of the arbitrage restrictions on State and local bonds under section 148.

(c) *Table of contents.* This paragraph (c) lists the table of contents for §§1.148-1, 1.148-2, 1.148-3, 1.148-4, 1.148-5, 1.148-6, 1.148-7, 1.148-8, 1.148-9, 1.148-10 and 1.148-11.

§ 1.148-1 Definitions and elections.

- (a) In general.
- (b) Certain definitions.
- (c) Definition of replacement proceeds.
 - (1) In general.
 - (2) Sinking fund.
 - (3) Pledged fund.
 - (4) Other replacement proceeds.
- (d) Elections.
- (e) Investment-type property.
 - (1) In general.
 - (2) Prepayments.
 - (3) Certain hedges.
 - (4) Exception for certain capital projects.
- (f) Definition of issue price.
 - (1) In general.
 - (2) Bonds issued for money.
 - (3) Definitions.
 - (4) Other special rules.

§ 1.148-2 General arbitrage yield restriction rules.

- (a) In general.
- (b) Reasonable expectations.
 - (1) In general.
 - (2) Certification of expectations.
- (c) Intentional acts.
- (d) Materially higher yielding investments.
 - (1) In general.
 - (2) Definitions of materially higher yield.
 - (3) Mortgage loans.
- (e) Temporary periods.
 - (1) In general.
 - (2) General 3-year temporary period for capital projects and qualified mortgage loans.
 - (3) Temporary period for working capital expenditures.
 - (4) Temporary period for pooled financings.

- (5) Temporary period for replacement proceeds.
- (6) Temporary period for investment proceeds.
- (7) Other amounts.
- (f) Reserve or replacement funds.
 - (1) General 10 percent limitation on funding with sale proceeds.
 - (2) Exception from yield restriction for reasonably required reserve or replacement funds.
 - (3) Certain parity reserve funds.
- (g) Minor portion.
- (h) Certain waivers permitted.

§ 1.148-3 General arbitrage rebate rules.

- (a) In general.
- (b) Definition of rebate amount.
- (c) Computation of future value of a payment or receipt.
- (d) Payments and receipts.
 - (1) Definition of payments.
 - (2) Definition of receipts.
 - (3) Special rules for commingled funds.
 - (4) Cost-of-living adjustment.
- (e) Computation dates.
 - (1) In general.
 - (2) Final computation date.
- (f) Amount of required rebate installment payment.
 - (1) Amount of interim rebate payments.
 - (2) Amount of final rebate payment.
 - (3) Future value of rebate payments.
 - (g) Time and manner of payment.
 - (h) Penalty in lieu of loss of tax exemption.
 - (1) In general.
 - (2) Interest on underpayments.
 - (3) Waivers of the penalty.
 - (4) Application to alternative penalty under § 1.148-7.
 - (i) Recovery of overpayment of rebate.
 - (1) In general.
 - (2) Limitations on recovery.
 - (3) Time and manner for requesting refund.
 - (j) Examples.
 - (k) Bona fide debt service fund exception.

§ 1.148-4 Yield on an issue of bonds.

- (a) In general.
- (b) Computing yield on a fixed yield issue.
 - (1) In general.
 - (2) Yield on certain fixed yield bonds subject to mandatory or contingent early redemption.
 - (3) Yield on certain fixed yield bonds subject to optional early redemption.
 - (4) Yield recomputed upon transfer of certain rights associated with the bond.
 - (5) Special aggregation rule treating certain bonds as a single fixed yield bond.
 - (6) Examples.
- (c) Computing yield on a variable yield issue.
 - (1) In general.
 - (2) Payments on bonds included in yield for a computation period.

§ 1.148-0

- (3) Example.
- (d) Conversion from variable yield issue to fixed yield issue.
- (e) Value of bonds.
 - (1) Plain par bonds.
 - (2) Other bonds.
 - (f) Qualified guarantees.
 - (1) In general.
 - (2) Interest savings.
 - (3) Guarantee in substance.
 - (4) Reasonable charge.
 - (5) Guarantee of purpose investments.
 - (6) Allocation of qualified guarantee payments.
 - (7) Refund or reduction of guarantee payments.
 - (g) Yield on certain mortgage revenue and student loan bonds.
 - (h) Qualified hedging transactions.
 - (1) In general.
 - (2) Qualified hedge defined.
 - (3) Accounting for qualified hedges.
 - (4) Certain variable yield bonds treated as fixed yield bonds.
 - (5) Contracts entered into before issue date of hedged bond.
 - (6) Authority of the Commissioner.

§ 1.148-5 Yield and valuation of investments.

- (a) In general.
- (b) Yield on an investment.
 - (1) In general.
 - (2) Yield on a separate class of investments.
- (3) Investments to be held beyond issue's maturity or beyond temporary period.
- (4) Consistent redemption assumptions on purpose investments.
- (5) Student loan special allowance payments included in yield.
- (c) Yield reduction payments to the United States.
 - (1) In general.
 - (2) Manner of payment.
 - (3) Applicability of special yield reduction rule.
 - (d) Value of investments.
 - (1) In general.
 - (2) Mandatory valuation of certain yield restricted investments at present value.
 - (3) Mandatory valuation of certain investments at fair market value.
 - (4) Special transition rule for transferred proceeds.
 - (5) Definition of present value of an investment.
 - (6) Definition of fair market value.
 - (e) Administrative costs of investments.
 - (1) In general.
 - (2) Qualified administrative costs on non-purpose investments.
 - (3) Qualified administrative costs on purpose investments.

§ 1.148-6 General allocation and accounting rules.

- (a) In general.

26 CFR Ch. I (4-1-22 Edition)

- (1) Reasonable accounting methods required.
- (2) Bona fide deviations from accounting method.
 - (b) Allocation of gross proceeds to an issue.
 - (1) One-issue rule and general ordering rules.
 - (2) Universal cap on value of nonpurpose investments allocated to an issue.
 - (c) Fair market value limit on allocations to nonpurpose investments.
 - (d) Allocation of gross proceeds to expenditures.
 - (1) Expenditures in general.
 - (2) Treatment of gross proceeds invested in purpose investments.
 - (3) Expenditures for working capital purposes.
 - (4) Expenditures for grants.
 - (5) Expenditures for reimbursement purposes.
 - (6) Expenditures of certain commingled investment proceeds of governmental issues.
 - (7) Payments to related parties.
 - (e) Special rules for commingled funds.
 - (1) In general.
 - (2) Investments held by a commingled fund.
 - (3) Certain expenditures involving a commingled fund.
 - (4) Fiscal periods.
 - (5) Unrealized gains and losses on investments of a commingled fund.
 - (6) Allocations of commingled funds serving as common reserve funds or sinking funds.

§ 1.148-7 Spending exceptions to the rebate requirement.

- (a) Scope of section.
 - (1) In general.
 - (2) Relationship of spending exceptions.
 - (3) Spending exceptions not mandatory.
 - (b) Rules applicable for all spending exceptions.
 - (1) Special transferred proceeds rules.
 - (2) Application of multipurpose issue rules.
 - (3) Expenditures for governmental purposes of the issue.
 - (4) De minimis rule.
 - (5) Special definition of reasonably required reserve or replacement fund.
 - (6) Pooled financing issue.
 - (c) 6-month exception.
 - (1) General rule.
 - (2) Additional period for certain bonds.
 - (3) Amounts not included in gross proceeds.
 - (4) Series of refundings.
 - (d) 18-month exception.
 - (1) General rule.
 - (2) Extension for reasonable retainage.
 - (3) Gross proceeds.
 - (4) Application to multipurpose issues.
 - (e) 2-year exception.
 - (1) General rule.
 - (2) Extension for reasonable retainage.
 - (3) Definitions.

- (f) Construction issue.
 - (1) Definition.
 - (2) Use of actual facts.
 - (3) Ownership requirement.
- (g) Construction expenditures.
 - (1) Definition.
 - (2) Certain acquisitions under turnkey contracts treated as construction expenditures.
 - (3) Constructed personal property.
 - (4) Specially developed computer software.
 - (5) Examples.
 - (h) Reasonable retainage definition.
 - (1) Available construction proceeds.
 - (2) Definition in general.
 - (3) Earnings on a reasonably required reserve or replacement fund.
 - (4) Issuance costs.
 - (5) One and one-half percent penalty in lieu of arbitrage rebate.
 - (6) Payments on purpose investments and repayments of grants.
 - (7) Examples.
 - (j) Election to treat portion of issue used for construction as separate issue.
 - (1) In general.
 - (2) Example.
 - (k) One and one-half percent penalty in lieu of arbitrage rebate.
 - (1) In general.
 - (2) Application to reasonable retainage.
 - (3) Coordination with rebate requirement.
 - (4) Termination of 1½ percent penalty.
 - (1) Termination after initial temporary period.
 - (2) Termination before end of initial temporary period.
 - (3) Application to reasonable retainage.
 - (4) Example.
 - (m) Payment of penalties.

§ 1.148-8 Small issuer exception to rebate requirement.

- (a) Scope.
- (b) General taxing powers.
- (c) Size limitation.
 - (1) In general.
- (2) Aggregation rules.
- (3) Certain refunding bonds not taken into account.
- (d) Pooled financings—treatment of conduit borrowers.
- (e) Refunding issues.
 - (1) In general.
 - (2) Multipurpose issues.

§ 1.148-9 Arbitrage rules for refunding issues.

- (a) Scope of application.
- (b) Transferred proceeds allocation rule.
 - (1) In general.
 - (2) Special definition of principal amount.
 - (3) Relation of transferred proceeds rule to universal cap rule.
 - (4) Limitation on multi-generational transfers.

- (c) Special allocation rules for refunding issues.
 - (1) Allocations of investments.
 - (2) Allocations of mixed escrows to expenditures for principal, interest, and redemption prices on a prior issue.
 - (d) Temporary periods in refundings.
 - (1) In general.
 - (2) Types of temporary periods in refundings.
 - (e) Reasonably required reserve or replacement funds in refundings.
 - (f) Minor portions in refundings.
 - (g) Certain waivers permitted.
 - (h) Multipurpose issue allocations.
 - (1) Application of multipurpose issue allocation rules.
 - (2) Rules on allocations of multipurpose issues.
 - (3) Separate purposes of a multipurpose issue.
 - (4) Allocations of bonds of a multipurpose issue.
 - (5) Limitation on multi-generation allocations.
 - (i) Operating rules for separation of prior issues into refunded and unrefunded portions.
 - (1) In general.
 - (2) Allocations of proceeds and investments in a partial refunding.
 - (3) References to prior issue.

§ 1.148-10 Anti-abuse rules and authority of Commissioner.

- (a) Abusive arbitrage device.
 - (1) In general.
 - (2) Abusive arbitrage device defined.
 - (3) Exploitation of tax-exempt interest rates.
 - (4) Overburdening the tax-exempt market.
 - (b) Consequences of overburdening the tax-exempt bond market.
 - (1) In general.
 - (2) Application.
 - (c) Anti-abuse rules on excess gross proceeds of advance refunding issues.
 - (1) In general.
 - (2) Definition of excess gross proceeds.
 - (3) Special treatment of transferred proceeds.
 - (4) Special rule for crossover refundings.
 - (5) Special rule for gross refundings.
 - (d) Examples.
 - (e) Authority of the Commissioner to prevent transactions that are inconsistent with the purpose of the arbitrage investment restrictions.
 - (f) Authority of the Commissioner to require an earlier date for payment of rebate.
 - (g) Authority of the Commissioner to waive regulatory limitations.

§ 1.148-11 Effective/applicability dates.

- (a) In general.
- (b) Elective retroactive application in whole.

§ 1.148-1

26 CFR Ch. I (4-1-22 Edition)

- (1) In general.
- (2) No elective retroactive application for 18-month spending exception.
- (3) No elective retroactive application for hedges of fixed rate issues.
- (4) No elective retroactive application for safe harbor for establishing fair market value for guaranteed investment contracts and investments purchased for a yield restricted defeasance escrow.
- (c) Elective retroactive application of certain provisions.
 - (1) Retroactive application of overpayment recovery provisions.
 - (2) Certain allocations of multipurpose issues.
 - (3) Special limitation.
 - (d) Transition rule excepting certain state guarantee funds from the definition of replacement proceeds.
 - (1) Certain perpetual trust funds.
 - (2) Permanent University Fund.
 - (e) Transition rule regarding special allowance payments.
 - (f) Transition rule regarding applicability of yield reduction rule.
 - (g) Provisions applicable to certain bonds sold before effective date.
 - (h) Safe harbor for establishing fair market value for guaranteed investment contracts and investments purchased for a yield restricted defeasance escrow.
 - (i) Special rule for certain broker's commissions and similar fees.
 - (j) Certain prepayments.
 - (k) Certain arbitrage guidance updates.
 - (1) In general.
 - (2) Valuation of investments in refunding transactions.
 - (3) Rebate overpayment recovery.
 - (4) Hedge identification.
 - (5) Hedge modifications and termination.
 - (6) Small issuer exception to rebate requirement for conduit borrowers of pooled financings.
 - (1) Permissive application of certain arbitrage updates.
 - (1) In general.
 - (2) Computation credit.
 - (3) Yield reduction payments.
 - (4) External commingled funds.
 - (m) Definition of issue price.
 - (n) Investment-type property.

[T.D. 8476, 58 FR 33515, June 18, 1993, as amended by T.D. 8538, 59 FR 24041, May 10, 1994; T.D. 8718, 62 FR 25506, May 9, 1997; T.D. 9085, 68 FR 45775, Aug. 4, 2003; T.D. 9097, 68 FR 69022, Dec. 11, 2003; T.D. 9701, 79 FR 67351, Nov. 13, 2014; T.D. 9777, 81 FR 46592, July 18, 2016; T.D. 9801, 81 FR 89003, Dec. 9, 2016; T.D. 9854, 84 FR 14007, Apr. 9, 2019]

§ 1.148-1 Definitions and elections.

(a) *In general.* The definitions in this section and the definitions under sec-

tion 150 apply for purposes of section 148 and §§ 1.148-1 through 1.148-11.

(b) *Certain definitions.* The following definitions apply:

Accounting method means both the overall method used to account for gross proceeds of an issue (e.g., the cash method or a modified accrual method) and the method used to account for or allocate any particular item within that overall accounting method (e.g., accounting for investments, expenditures, allocations to and from different sources, and particular items of the foregoing).

Annuity contract means annuity contract as defined in section 72.

Available amount means available amount as defined in § 1.148-6(d)(3)(iii).

Bona fide debt service fund means a fund, which may include proceeds of an issue, that—

(1) Is used primarily to achieve a proper matching of revenues with principal and interest payments within each bond year; and

(2) Is depleted at least once each bond year, except for a reasonable carryover amount not to exceed the greater of:

(i) the earnings on the fund for the immediately preceding bond year; or

(ii) one-twelfth of the principal and interest payments on the issue for the immediately preceding bond year.

Bond year means, in reference to an issue, each 1-year period that ends on the day selected by the issuer. The first and last bond years may be short periods. If no day is selected by the issuer before the earlier of the final maturity date of the issue or the date that is 5 years after the issue date, bond years end on each anniversary of the issue date and on the final maturity date.

Capital project or capital projects means all capital expenditures, plus related working capital expenditures to which the de minimis rule under § 1.148-6(d)(3)(ii)(A) applies, that carry out the governmental purposes of an issue. For example, a capital project may include capital expenditures for one or more buildings, plus related start-up operating costs.

Commingled fund means any fund or account containing both gross proceeds of an issue and amounts in excess of \$25,000 that are not gross proceeds of that issue if the amounts in the fund or

Internal Revenue Service, Treasury

§ 1.148-1

account are invested and accounted for collectively, without regard to the source of funds deposited in the fund or account. An open-end regulated investment company under section 851, however, is not a commingled fund.

Computation date means each date on which the rebate amount for an issue is computed under § 1.148-3(e).

Computation period means the period between computation dates. The first computation period begins on the issue date and ends on the first computation date. Each succeeding computation period begins on the date immediately following the computation date and ends on the next computation date.

Consistently applied means applied uniformly within a fiscal period and between fiscal periods to account for gross proceeds of an issue and any amounts that are in a commingled fund.

De minimis amount means—

(1) In reference to original issue discount (as defined in section 1273(a)(1)) or premium on an obligation—

(i) An amount that does not exceed 2 percent multiplied by the stated redemption price at maturity; plus

(ii) Any original issue premium that is attributable exclusively to reasonable underwriters' compensation; and

(2) In reference to market discount (as defined in section 1278(a)(2)(A)) or premium on an obligation, an amount that does not exceed 2 percent multiplied by the stated redemption price at maturity.

Economic accrual method (also known as the *constant interest method* or *actuarial method*) means the method of computing yield that is based on the compounding of interest at the end of each compounding period.

Fair market value means fair market value as defined in § 1.148-5(d)(6).

Fixed rate investment means any investment whose yield is fixed and determinable on the issue date.

Fixed yield bond means any bond whose yield is fixed and determinable on the issue date using the assumptions and rules provided in § 1.148-4(b).

Fixed yield issue means any issue if each bond that is part of the issue is a fixed yield bond.

Gross proceeds means any proceeds and replacement proceeds of an issue.

Guaranteed investment contract includes any nonpurpose investment that has specifically negotiated withdrawal or reinvestment provisions and a specifically negotiated interest rate, and also includes any agreement to supply investments on two or more future dates (e.g., a forward supply contract).

Higher yielding investments means higher yielding investments as defined in section 148(b)(1).

Investment means any investment property as defined in sections 148(b)(2) and 148(b)(3), and any other tax-exempt bond.

Investment proceeds means any amounts actually or constructively received from investing proceeds of an issue.

Investment-type property is defined in paragraph (e) of this section.

Issue price means issue price as defined in paragraph (f) of this section.

Issuer generally means the entity that actually issues the issue, and, unless the context or a provision clearly requires otherwise, each conduit borrower of the issue. For example, rules imposed on issuers to account for gross proceeds of an issue apply to a conduit borrower to account for any gross proceeds received under a purpose investment. Provisions regarding elections, filings, liability for the rebate amount, and certifications of reasonable expectations apply only to the actual issuer.

Multipurpose issue means an issue the proceeds of which are used for two or more separate purposes determined in accordance with § 1.148-9(h).

Net sale proceeds means sale proceeds, less the portion of those sale proceeds invested in a reasonably required reserve or replacement fund under section 148(d) and as part of a minor portion under section 148(e).

Nonpurpose investment means any investment property, as defined in section 148(b), that is not a purpose investment.

Payment means a payment as defined in § 1.148-3(d) for purposes of computing the rebate amount, and a payment as defined in § 1.148-5(b) for purposes of computing the yield on an investment.

Plain par bond means a qualified tender bond or a bond—

(1) Issued with not more than a de minimis amount of original issue discount or premium;

(2) Issued for a price that does not include accrued interest other than pre-issuance accrued interest;

(3) That bears interest from the issue date at a single, stated, fixed rate or that is a variable rate debt instrument under section 1275, in each case with interest unconditionally payable at least annually; and

(4) That has a lowest stated redemption price that is not less than its outstanding stated principal amount.

Plain par investment means an investment that is an obligation—

(1) Issued with not more than a de minimis amount of original issue discount or premium, or, if acquired on a date other than the issue date, acquired with not more than a de minimis amount of market discount or premium;

(2) Issued for a price that does not include accrued interest other than pre-issuance accrued interest;

(3) That bears interest from the issue date at a single, stated, fixed rate or that is a variable rate debt instrument under section 1275, in each case with interest unconditionally payable at least annually; and

(4) That has a lowest stated redemption price that is not less than its outstanding stated principal amount.

Pre-issuance accrued interest means amounts representing interest that accrued on an obligation for a period not greater than one year before its issue date but only if those amounts are paid within one year after the issue date.

Proceeds means any sale proceeds, investment proceeds, and transferred proceeds of an issue. Proceeds do not include, however, amounts actually or constructively received with respect to a purpose investment that are properly allocable to the immaterially higher yield under § 1.148-2(d) or section 143(g) or to qualified administrative costs recoverable under § 1.148-5(e).

Program investment means a purpose investment that is part of a governmental program in which—

(1) The program involves the origination or acquisition of purpose investments;

(2) At least 95 percent (90 percent for qualified student loans under section 144(b)(1)(A)) of the cost of the purpose investments acquired under the program represents one or more loans to a substantial number of persons representing the general public, States or political subdivisions, 501(c)(3) organizations, persons who provide housing and related facilities, or any combination of the foregoing;

(3) At least 95 percent of the receipts from the purpose investments are used to pay principal, interest, or redemption prices on issues that financed the program, to pay or reimburse administrative costs of those issues or of the program, to pay or reimburse anticipated future losses directly related to the program, to finance additional purpose investments for the same general purposes of the program, or to redeem and retire governmental obligations at the next earliest possible date of redemption;

(4) The program documents prohibit any obligor on a purpose investment financed by the program or any related party to that obligor from purchasing bonds of an issue that finance the program in an amount related to the amount of the purpose investment acquired from that obligor; and

(5) The issuer has not waived the right to treat the investment as a program investment.

Purpose investment means an investment that is acquired to carry out the governmental purpose of an issue.

Qualified administrative costs means qualified administrative costs as defined in § 1.148-5(e).

Qualified guarantee means a qualified guarantee as defined in § 1.148-4(f).

Qualified hedge means a qualified hedge as defined in § 1.148-4(h)(2).

Reasonable expectations or reasonableness. An issuer's expectations or actions are reasonable only if a prudent person in the same circumstances as the issuer would have those same expectations or take those same actions, based on all the objective facts and circumstances. Factors relevant to a determination of reasonableness include the issuer's history of conduct concerning stated expectations made in connection with the issuance of obligations, the level of inquiry by the issuer

into factual matters, and the existence of covenants, enforceable by bondholders, that require implementation of specific expectations. For a conduit financing issue, factors relevant to a determination of reasonableness include the reasonable expectations of the conduit borrower, but only if, under the circumstances, it is reasonable and prudent for the issuer to rely on those expectations.

Rebate amount means 100 percent of the amount owed to the United States under section 148(f)(2), as further described in § 1.148-3.

Receipt means a receipt as defined in § 1.148-3(d) for purposes of computing the rebate amount, and a receipt as defined in § 1.148-5(b) for purposes of computing yield on an investment.

Refunding escrow means one or more funds established as part of a single transaction or a series of related transactions, containing proceeds of a refunding issue and any other amounts to provide for payment of principal or interest on one or more prior issues. For this purpose, funds are generally not so established solely because of—

(1) The deposit of proceeds of an issue and replacement proceeds of the prior issue in an escrow more than 6 months apart, or

(2) The deposit of proceeds of completely separate issues in an escrow.

Replacement proceeds is defined in paragraph (c) of this section.

Restricted working capital expenditures means working capital expenditures that are subject to the proceeds-spent-last rule in § 1.148-6(d)(3)(i) and are ineligible for any exception to that rule.

Sale proceeds means any amounts actually or constructively received from the sale of the issue, including amounts used to pay underwriters' discount or compensation and accrued interest other than pre-issuance accrued interest. Sale proceeds also include, but are not limited to, amounts derived from the sale of a right that is associated with a bond, and that is described in § 1.148-4(b)(4). See also § 1.148-4(h)(5) treating amounts received upon the termination of certain hedges as sale proceeds.

Stated redemption price means the redemption price of an obligation under

the terms of that obligation, including any call premium.

Transferred proceeds means transferred proceeds as defined in § 1.148-9 (or the applicable corresponding provision of prior law).

Unconditionally payable means payable under terms in which—

(1) Late payment or nonpayment results in a significant penalty to the borrower or reasonable remedies to the lender, and

(2) It is reasonably certain on the issue date that the payment will actually be made.

Value means value determined under § 1.148-4(e) for a bond, and value determined under § 1.148-5(d) for an investment.

Variable yield bond means any bond that is not a fixed yield bond.

Variable yield issue means any issue that is not a fixed yield issue.

Yield means yield computed under § 1.148-4 for an issue, and yield computed under § 1.148-5 for an investment.

Yield restricted means required to be invested at a yield that is not materially higher than the yield on the issue under section 148(a) and § 1.148-2.

(c) *Definition of replacement proceeds—*

(1) *In general.* Amounts are replacement proceeds of an issue if the amounts have a sufficiently direct nexus to the issue or to the governmental purpose of the issue to conclude that the amounts would have been used for that governmental purpose if the proceeds of the issue were not used or to be used for that governmental purpose. For this purpose, governmental purposes include the expected use of amounts for the payment of debt service on a particular date. The mere availability or preliminary earmarking of amounts for a governmental purpose, however, does not in itself establish a sufficient nexus to cause those amounts to be replacement proceeds. Replacement proceeds include, but are not limited to, sinking funds, pledged funds, and other replacement proceeds described in paragraph (c)(4) of this section, to the extent that those funds or amounts are held by or derived from a substantial beneficiary of the issue. A substantial beneficiary of an issue includes the issuer and any related party to the issuer, and, if the issuer is

not a state, the state in which the issuer is located. A person is not a substantial beneficiary of an issue solely because it is a guarantor under a qualified guarantee.

(2) *Sinking fund.* *Sinking fund* includes a debt service fund, redemption fund, reserve fund, replacement fund, or any similar fund, to the extent reasonably expected to be used directly or indirectly to pay principal or interest on the issue.

(3) *Pledged fund*—(i) *In general.* A *pledged fund* is any amount that is directly or indirectly pledged to pay principal or interest on the issue. A pledge need not be cast in any particular form but, in substance, must provide reasonable assurance that the amount will be available to pay principal or interest on the issue, even if the issuer encounters financial difficulties. A pledge to a guarantor of an issue is an indirect pledge to secure payment of principal or interest on the issue. A pledge of more than 50 percent of the outstanding stock of a corporation that is a conduit borrower of the issue is not treated as a pledge for this purpose, unless the corporation is formed or availed of to avoid the creation of replacement proceeds.

(ii) *Negative pledges.* An amount is treated as pledged to pay principal or interest on an issue if it is held under an agreement to maintain the amount at a particular level for the direct or indirect benefit of the bondholders or a guarantor of the bonds. An amount is not treated as pledged under this paragraph (c)(3)(ii), however, if—

(A) The issuer or a substantial beneficiary may grant rights in the amount that are superior to the rights of the bondholders or the guarantor; or

(B) The amount does not exceed reasonable needs for which it is maintained, the required level is tested no more frequently than every 6 months, and the amount may be spent without any substantial restriction other than a requirement to replenish the amount by the next testing date.

(4) *Other replacement proceeds*—(i) *Bonds outstanding longer than necessary*—(A) *In general.* Replacement proceeds arise to the extent that the issuer reasonably expects as of the issue date that—

(1) The term of an issue will be longer than is reasonably necessary for the governmental purposes of the issue, and

(2) There will be available amounts during the period that the issue remains outstanding longer than necessary. Whether an issue is outstanding longer than necessary is determined under § 1.148-10. Replacement proceeds are created under this paragraph (c)(4)(i)(A) at the beginning of each fiscal year during which an issue remains outstanding longer than necessary in an amount equal to available amounts of the issuer as of that date.

(B) *Safe harbor against creation of replacement proceeds.* As a safe harbor, replacement proceeds do not arise under paragraph (c)(4)(i)(A) of this section—

(1) For the portion of an issue that is to be used to finance working capital expenditures, if that portion is not outstanding longer than the temporary period under § 1.148-2(e)(3) for which the proceeds qualify;

(2) For the portion of an issue (including a refunding issue) that is to be used to finance or refinance capital projects, if that portion has a weighted average maturity that does not exceed 120 percent of the average reasonably expected economic life of the financed capital projects, determined in the same manner as under section 147(b);

(3) For the portion of an issue that is a refunding issue, if that portion has a weighted average maturity that does not exceed the remaining weighted average maturity of the prior issue, and the issue of which the prior issue is a part satisfies paragraph (c)(4)(i)(B) (1) or (2) of this section; or

(4) For the portion of an issue (including a refunding issue) that is to be used to finance working capital expenditures, if that portion satisfies paragraph (c)(4)(ii) of this section.

(ii) *Safe harbor for longer-term working capital financings.* A portion of an issue used to finance working capital expenditures satisfies this paragraph (c)(4)(ii) if the issuer meets the requirements of paragraphs (c)(4)(ii)(A) through (E) of this section.

(A) *Determine first testing year.* On the issue date, the issuer must determine the first fiscal year following the applicable temporary period under § 1.148-

2(e) in which it reasonably expects to have available amounts (first testing year), but in no event can the first day of the first testing year be later than five years after the issue date.

(B) *Application of available amount to reduce burden on tax-exempt bond market.* Beginning with the first testing year and for each subsequent fiscal year for which the portion of the issue that is the subject of this safe harbor remains outstanding, the issuer must determine the available amount as of the first day of each fiscal year. Then, except as provided in paragraph (c)(4)(ii)(D) of this section, within the first 90 days of that fiscal year, the issuer must apply that amount (or if less, the available amount on the date of the required redemption or investment) to redeem or to invest in eligible tax-exempt bonds (as defined in paragraph (c)(4)(ii)(E) of this section). For this purpose, available amounts in a bona fide debt service fund are not treated as available amounts.

(C) *Continuous investment requirement.* Except as provided in this paragraph (c)(4)(ii)(C), any amounts invested in eligible tax-exempt bonds under paragraph (c)(4)(ii)(B) of this section must be invested continuously in such tax-exempt bonds to the extent provided in paragraph (c)(4)(ii)(D) of this section.

(1) *Exception for reinvestment period.* Amounts previously invested in eligible tax-exempt bonds under paragraph (c)(4)(ii)(B) of this section that are held for not more than 30 days in a fiscal year pending reinvestment in eligible tax-exempt bonds are treated as invested in eligible tax-exempt bonds.

(2) *Limited use of invested amounts.* An issuer may spend amounts previously invested in eligible tax-exempt bonds under paragraph (c)(4)(ii)(B) of this section within 30 days of the date on which they cease to be so invested to make expenditures for a governmental purpose on any date on which the issuer has no other available amounts for such purpose, or to redeem eligible tax-exempt bonds.

(D) *Cap on applied or invested amounts.* The maximum amount that an issuer is required to apply under paragraph (c)(4)(ii)(B) of this section or to invest continuously under paragraph (c)(4)(ii)(C) of this section with respect

to the portion of an issue that is the subject of this safe harbor is the outstanding principal amount of such portion. For purposes of this cap, an issuer receives credit towards its requirement to invest available amounts in eligible tax-exempt bonds for amounts previously invested under paragraph (c)(4)(ii)(B) of this section that remain continuously invested under paragraph (c)(4)(ii)(C) of this section.

(E) *Definition of eligible tax-exempt bonds.* For purposes of paragraph (c)(4)(ii) of this section, *eligible tax-exempt bonds* means any of the following:

(1) A bond the interest on which is excludable from gross income under section 103 and that is not a specified private activity bond (as defined in section 57(a)(5)(C)) subject to the alternative minimum tax;

(2) An interest in a regulated investment company to the extent that at least 95 percent of the income to the holder of the interest is interest on a bond that is excludable from gross income under section 103 and that is not interest on a specified private activity bond (as defined in section 57(a)(5)(C)) subject to the alternative minimum tax; or

(3) A certificate of indebtedness issued by the United States Treasury pursuant to the Demand Deposit State and Local Government Series program described in 31 CFR part 344.

(d) *Elections.* Except as otherwise provided, any required elections must be made in writing, and, once made, may not be revoked without the permission of the Commissioner.

(e) *Investment-type property*—(1) *In general.* Except as otherwise provided in this paragraph (e), investment-type property includes any property, other than property described in section 148(b)(2)(A), (B), (C), or (E), that is held principally as a passive vehicle for the production of income. For this purpose, production of income includes any benefit based on the time value of money.

(2) *Prepayments*—(i) *In general*—(A) *Generally.* Except as otherwise provided in this paragraph (e)(2), a prepayment for property or services, including a prepayment for property or services that is made after the date that the contract to buy the property or services is entered into, also gives rise to

investment-type property if a principal purpose for prepaying is to receive an investment return from the time the prepayment is made until the time payment otherwise would be made. A prepayment does not give rise to investment-type property if—

(1) Prepayments on substantially the same terms are made by a substantial percentage of persons who are similarly situated to the issuer but who are not beneficiaries of tax-exempt financing;

(2) The prepayment is made within 90 days of the reasonably expected date of delivery to the issuer of all of the property or services for which the prepayment is made; or

(3) The prepayment meets the requirements of paragraph (e)(2)(iii)(A) or (B) of this section.

(B) *Example.* The following example illustrates an application of this paragraph (e)(2)(i):

Example. Prepayment after contract is executed. In 1998, City A enters into a ten-year contract with Company Y. Under the contract, Company Y is to provide services to City A over the term of the contract and in return City A will pay Company Y for its services as they are provided. In 2004, City A issues bonds to finance a lump sum payment to Company Y in satisfaction of City A's obligation to pay for Company Y's services to be provided over the remaining term of the contract. The use of bond proceeds to make the lump sum payment constitutes a prepayment for services under paragraph (e)(2)(i) of this section, even though the payment is made after the date that the contract is executed.

(ii) *Customary prepayments.* The determination of whether a prepayment satisfies paragraph (e)(2)(i)(A)(I) of this section is generally made based on all the facts and circumstances. In addition, a prepayment is deemed to satisfy paragraph (e)(2)(i)(A)(I) of this section if—

(A) The prepayment is made for—

(1) Maintenance, repair, or an extended warranty with respect to personal property (for example, automobiles or electronic equipment); or

(2) Updates or maintenance or support services with respect to computer software; and

(B) The same maintenance, repair, extended warranty, updates or maintenance or support services, as applica-

ble, are regularly provided to non-governmental persons on the same terms.

(iii) *Certain prepayments to acquire a supply of natural gas or electricity—(A) Natural gas prepayments.* A prepayment meets the requirements of this paragraph (e)(2)(iii)(A) if—

(1) It is made by or for one or more utilities that are owned by a governmental person, as defined in § 1.141-1(b) (each of which is referred to in this paragraph (e)(2)(iii)(A) as the issuing municipal utility), to purchase a supply of natural gas; and

(2) At least 90 percent of the prepaid natural gas financed by the issue is used for a qualifying use. Natural gas is used for a qualifying use if it is to be—

(i) Furnished to retail gas customers of the issuing municipal utility who are located in the natural gas service area of the issuing municipal utility, provided, however, that gas used to produce electricity for sale shall not be included under this paragraph (e)(2)(iii)(A)(2)(i);

(ii) Used by the issuing municipal utility to produce electricity that will be furnished to retail electric customers of the issuing municipal utility who are located in the electricity service area of the issuing municipal utility;

(iii) Used by the issuing municipal utility to produce electricity that will be sold to a utility that is owned by a governmental person and furnished to retail electric customers of the purchaser who are located in the electricity service area of the purchaser;

(iv) Sold to a utility that is owned by a governmental person if the requirements of paragraph (e)(2)(iii)(A)(2)(i), (ii) or (iii) of this section are satisfied by the purchaser (treating the purchaser as the issuing municipal utility); or

(v) Used to fuel the pipeline transportation of the prepaid gas supply acquired in accordance with this paragraph (e)(2)(iii)(A).

(B) *Electricity prepayments.* A prepayment meets the requirements of this paragraph (e)(2)(iii)(B) if—

(1) It is made by or for one or more utilities that are owned by a governmental person (each of which is referred to in this paragraph (e)(2)(iii)(B) as the issuing municipal utility) to purchase a supply of electricity; and

(2) At least 90 percent of the prepaid electricity financed by the issue is used for a qualifying use. Electricity is used for a qualifying use if it is to be—

(i) Furnished to retail electric customers of the issuing municipal utility who are located in the electricity service area of the issuing municipal utility; or

(ii) Sold to a utility that is owned by a governmental person and furnished to retail electric customers of the purchaser who are located in the electricity service area of the purchaser.

(C) *Service area.* For purposes of this paragraph (e)(2)(iii), the service area of a utility owned by a governmental person consists of—

(1) Any area throughout which the utility provided, at all times during the 5-year period ending on the issue date—

(i) In the case of a natural gas utility, natural gas transmission or distribution service; and

(ii) In the case of an electric utility, electricity distribution service; and

(2) Any area recognized as the service area of the utility under state or Federal law.

(D) *Retail customer.* For purposes of this paragraph (e)(2)(iii), a retail customer is a customer that purchases natural gas or electricity, as applicable, other than for resale.

(E) *Commodity swaps.* A prepayment does not fail to meet the requirements of this paragraph (e)(2)(iii) by reason of any commodity swap contract that may be entered into between the issuer and an unrelated party (other than the gas or electricity supplier), or between the gas or electricity supplier and an unrelated party (other than the issuer), so long as each swap contract is an independent contract. A swap contract is an independent contract if the obligation of each party to perform under the swap contract is not dependent on performance by any person (other than the other party to the swap contract) under another contract (for example, a gas or electricity supply contract or

another swap contract); provided, however, that a commodity swap contract will not fail to be an independent contract solely because the swap contract may terminate in the event of a failure of a gas or electricity supplier to deliver gas or electricity for which the swap contract is a hedge.

(F) *Remedial action.* Issuers may apply principles similar to the rules of § 1.141-12, including § 1.141-12(d) (relating to redemption or defeasance of nonqualified bonds) and § 1.141-12(e) (relating to alternative use of disposition proceeds), to cure a violation of paragraph (e)(2)(iii)(A)(2) or (e)(2)(iii)(B)(2) of this section. For this purpose, the amount of nonqualified bonds is determined in the same manner as for output contracts taken into account under the private business tests, including the principles of § 1.141-7(d), treating nonqualified sales of gas or electricity under this paragraph (e)(2)(iii) as satisfying the benefits and burdens test under § 1.141-7(c)(1).

(iv) *Additional prepayments as permitted by the Commissioner.* The Commissioner may, by published guidance, set forth additional circumstances in which a prepayment does not give rise to investment-type property.

(3) *Certain hedges.* Investment-type property also includes the investment element of a contract that is a hedge (within the meaning of § 1.148-4(h)(2)(i)(A)) and that contains a significant investment element because a payment by the issuer relates to a conditional or unconditional obligation by the hedge provider to make a payment on a later date. See § 1.148-4(h)(2)(ii) relating to hedges with a significant investment element.

(4) *Exception for certain capital projects.* Investment-type property does not include real property or tangible personal property (for example, land, buildings, and equipment) that is used in furtherance of the public purposes for which the tax-exempt bonds are issued. For example, investment-type property does not include a courthouse financed with governmental bonds or an eligible exempt facility under section 142, such as a public road, financed with private activity bonds.

(f) *Definition of issue price—(1) In general.* Except as otherwise provided in

this paragraph (f), “issue price” is defined in sections 1273 and 1274 and the regulations under those sections.

(2) *Bonds issued for money*—(i) *General rule.* Except as otherwise provided in this paragraph (f)(2), the issue price of bonds issued for money is the first price at which a substantial amount of the bonds is sold to the public. If a bond is issued for money in a private placement to a single buyer that is not an underwriter or a related party (as defined in § 1.150-1(b)) to an underwriter, the issue price of the bond is the price paid by that buyer. Issue price is not reduced by any issuance costs (as defined in § 1.150-1(b)).

(ii) *Special rule for use of initial offering price to the public.* The issuer may treat the initial offering price to the public as of the sale date as the issue price of the bonds if the requirements of paragraphs (f)(2)(ii)(A) and (B) of this section are met.

(A) The underwriters offered the bonds to the public for purchase at a specified initial offering price on or before the sale date, and the lead underwriter in the underwriting syndicate or selling group (or, if applicable, the sole underwriter) provides, on or before the issue date, a certification to that effect to the issuer, together with reasonable supporting documentation for that certification, such as a copy of the pricing wire or equivalent communication.

(B) Each underwriter agrees in writing that it will neither offer nor sell the bonds to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

(1) The close of the fifth (5th) business day after the sale date; or

(2) The date on which the underwriters have sold a substantial amount of the bonds to the public at a price that is no higher than the initial offering price to the public.

(iii) *Special rule for competitive sales.* For bonds issued for money in a competitive sale, an issuer may treat the reasonably expected initial offering price to the public as of the sale date as the issue price of the bonds if the issuer obtains from the winning bidder a certification of the bonds’ reasonably expected initial offering price to the

public as of the sale date upon which the price in the winning bid is based.

(iv) *Choice of rule for determining issue price.* If more than one rule for determining the issue price of the bonds is available under this paragraph (f)(2), at any time on or before the issue date, the issuer may select the rule it will use to determine the issue price of the bonds. On or before the issue date of the bonds, the issuer must identify the rule selected in its books and records maintained for the bonds.

(3) *Definitions.* For purposes of this paragraph (f), the following definitions apply:

(i) *Competitive sale* means a sale of bonds by an issuer to an underwriter that is the winning bidder in a bidding process in which the issuer offers the bonds for sale to underwriters at specified written terms, if that process meets the following requirements:

(A) The issuer disseminates the notice of sale to potential underwriters in a manner that is reasonably designed to reach potential underwriters (for example, through electronic communication that is widely circulated to potential underwriters by a recognized publisher of municipal bond offering documents or by posting on an Internet-based Web site or other electronic medium that is regularly used for such purpose and is widely available to potential underwriters);

(B) All bidders have an equal opportunity to bid (within the meaning of § 1.148-5(d)(6)(iii)(A)(6));

(C) The issuer receives bids from at least three underwriters of municipal bonds who have established industry reputations for underwriting new issuances of municipal bonds; and

(D) The issuer awards the sale to the bidder who submits a firm offer to purchase the bonds at the highest price (or lowest interest cost).

(ii) *Public* means any person (as defined in section 7701(a)(1)) other than an underwriter or a related party (as defined in § 1.150-1(b)) to an underwriter.

(iii) *Underwriter* means:

(A) Any person (as defined in section 7701(a)(1)) that agrees pursuant to a written contract with the issuer (or with the lead underwriter to form an underwriting syndicate) to participate

in the initial sale of the bonds to the public; and

(B) Any person that agrees pursuant to a written contract directly or indirectly with a person described in paragraph (f)(3)(iii)(A) of this section to participate in the initial sale of the bonds to the public (for example, a retail distribution agreement between a national lead underwriter and a regional firm under which the regional firm participates in the initial sale of the bonds to the public).

(4) *Other special rules.* For purposes of this paragraph (f), the following special rules apply:

(i) *Separate determinations.* The issue price of bonds in an issue that do not have the same credit and payment terms is determined separately. The issuer need not apply the same rule to determine issue price for all of the bonds in the issue.

(ii) *Substantial amount.* Ten percent is a substantial amount.

(iii) *Bonds issued for property.* If a bond is issued for property, the adjusted applicable Federal rate, as determined under section 1288 and § 1.1288-1, is used in lieu of the applicable Federal rate to determine the bond's issue price under section 1274.

[T.D. 8476, 58 FR 33517, June 18, 1993; 58 FR 44452, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24041, May 10, 1994; T.D. 8718, 62 FR 25507, May 9, 1997; T.D. 9085, 68 FR 45775, Aug. 4, 2003; T.D. 9777, 81 FR 46592, July 18, 2016; T.D. 9801, 81 FR 89003, Dec. 9, 2016; T.D. 9854, 84 FR 14007, Apr. 9, 2019]

§ 1.148-2 General arbitrage yield restriction rules.

(a) *In general.* Under section 148(a), the direct or indirect investment of the gross proceeds of an issue in higher yielding investments causes the bonds of the issue to be arbitrage bonds. The investment of proceeds in higher yielding investments, however, during a temporary period described in paragraph (e) of this section, as part of a reasonably required reserve or replacement fund described in paragraph (f) of this section, or as part of a minor portion described in paragraph (g) of this section does not cause the bonds of the issue to be arbitrage bonds. Bonds are not arbitrage bonds under this section

as a result of an inadvertent, insubstantial error.

(b) *Reasonable expectations*—(1) *In general.* Except as provided in paragraph (c) of this section, the determination of whether an issue consists of arbitrage bonds under section 148(a) is based on the issuer's reasonable expectations as of the issue date regarding the amount and use of the gross proceeds of the issue.

(2) *Certification of expectations*—(i) *In general.* An officer of the issuer responsible for issuing the bonds must, in good faith, certify the issuer's expectations as of the issue date. The certification must state the facts and estimates that form the basis for the issuer's expectations. The certification is evidence of the issuer's expectations, but does not establish any conclusions of law or any presumptions regarding either the issuer's actual expectations or their reasonableness.

(ii) *Exceptions to certification requirement.* An issuer is not required to make a certification for an issue under paragraph (b)(2)(i) of this section if—

(A) The issuer reasonably expects as of the issue date that there will be no unspent gross proceeds after the issue date, other than gross proceeds in a bona fide debt service fund (e.g., equipment lease financings in which the issuer purchases equipment in exchange for an installment payment note); or

(B) The issue price of the issue does not exceed \$1,000,000.

(c) *Intentional acts.* The taking of any deliberate, intentional action by the issuer or person acting on its behalf after the issue date in order to earn arbitrage causes the bonds of the issue to be arbitrage bonds if that action, had it been expected on the issue date, would have caused the bonds to be arbitrage bonds. An intent to violate the requirements of section 148 is not necessary for an action to be intentional.

(d) *Materially higher yielding investments*—(1) *In general.* The yield on investments is materially higher than the yield on the issue to which the investments are allocated if the yield on the investments over the term of the issue exceeds the yield on the issue by an amount in excess of the applicable definition of *materially higher* set forth

in paragraph (d)(2) of this section. If yield restricted investments in the same class are subject to different definitions of *materially higher*, the applicable definition of *materially higher* that produces the lowest permitted yield applies to all the investments in the class. The yield on the issue is determined under § 1.148-4. The yield on investments is determined under § 1.148-5.

(2) *Definitions of materially higher yield*—(i) *General rule for purpose and nonpurpose investments.* For investments that are not otherwise described in this paragraph (d)(2), materially higher means one-eighth of 1 percentage point.

(ii) *Refunding escrows and replacement proceeds.* For investments in a refunding escrow or for investments allocable to replacement proceeds, materially higher means one-thousandth of 1 percentage point.

(iii) *Program investments.* For program investments that are not described in paragraph (d)(2)(iv) of this section, materially higher means 1 and one-half percentage points.

(iv) *Student loans.* For qualified student loans that are program investments, materially higher means 2 percentage points.

(v) *Tax-exempt investments.* For investments that are tax-exempt bonds and are not investment property under section 148(b)(3), no yield limitation applies.

(3) *Mortgage loans.* Qualified mortgage loans that satisfy the requirements of section 143(g) are treated as meeting the requirements of this paragraph (d).

(e) *Temporary periods*—(1) *In general.* During the temporary periods set forth in this paragraph (e), the proceeds and replacement proceeds of an issue may be invested in higher yielding investments without causing bonds in the issue to be arbitrage bonds. This paragraph (e) does not apply to refunding issues (see § 1.148-9).

(2) *General 3-year temporary period for capital projects and qualified mortgage loans*—(i) *In general.* The net sale proceeds and investment proceeds of an issue reasonably expected to be allocated to expenditures for capital projects qualify for a temporary period of 3 years beginning on the issue date

(the 3-year temporary period). The 3-year temporary period also applies to the proceeds of qualified mortgage bonds and qualified veterans' mortgage bonds by substituting *qualified mortgage loans* in each place that *capital projects* appears in this paragraph (e)(2). The 3-year temporary period applies only if the issuer reasonably expects to satisfy the expenditure test, the time test, and the due diligence test. These rules apply separately to each conduit loan financed by an issue (other than qualified mortgage loans), with the expenditure and time tests measured from the issue date of the issue.

(A) *Expenditure test.* The expenditure test is met if at least 85 percent of the net sale proceeds of the issue are allocated to expenditures on the capital projects by the end of the 3-year temporary period.

(B) *Time test.* The time test is met if the issuer incurs within 6 months of the issue date a substantial binding obligation to a third party to expend at least 5 percent of the net sale proceeds of the issue on the capital projects. An obligation is not binding if it is subject to contingencies within the issuer's or a related party's control.

(C) *Due diligence test.* The due diligence test is met if completion of the capital projects and the allocation of the net sale proceeds of the issue to expenditures proceed with due diligence.

(ii) *5-year temporary period.* In the case of proceeds expected to be allocated to a capital project involving a substantial amount of construction expenditures (as defined in § 1.148-7), a 5-year temporary period applies in lieu of the 3-year temporary period if the issuer satisfies the requirements of paragraph (e)(2)(i) of this section applied by substituting "5 years" in each place that "3 years" appears, and both the issuer and a licensed architect or engineer certify that the longer period is necessary to complete the capital project.

(3) *Temporary period for working capital expenditures*—(i) *General rule.* The proceeds of an issue that are reasonably expected to be allocated to working capital expenditures within 13 months after the issue date qualify for a temporary period of 13 months beginning on the issue date. Paragraph (e)(2)

of this section contains additional temporary period rules for certain working capital expenditures that are treated as part of a capital project.

(ii) *Longer temporary period for certain tax anticipation issues.* If an issuer reasonably expects to use tax revenues arising from tax levies for a single fiscal year to redeem or retire an issue, and the issue matures by the earlier of 2 years after the issue date or 60 days after the last date for payment of those taxes without interest or penalty, the temporary period under paragraph (e)(3)(i) of this section is extended until the maturity date of the issue.

(4) *Temporary period for pooled financings*—(i) *In general.* Proceeds of a pooled financing issue reasonably expected to be used to finance purpose investments qualify for a temporary period of 6 months while held by the issuer before being loaned to a conduit borrower. Any otherwise available temporary period for proceeds held by a conduit borrower, however, is reduced by the period of time during which those proceeds were held by the issuer before being loaned. For example, if the proceeds of a pooled financing issue loaned to a conduit borrower would qualify for a 3-year temporary period, and the proceeds are held by the issuer for 5 months before being loaned to the conduit borrower, the proceeds qualify for only an additional 31-month temporary period after being loaned to the conduit borrower. Except as provided in paragraph (e)(4)(iv) of this section, this paragraph (e)(4) does not apply to any qualified mortgage bond or qualified veterans' mortgage bond under section 143.

(ii) *Loan repayments*—(A) *Amount held by the issuer.* The temporary period under this paragraph (e)(4) for proceeds from the sale or repayment of any loan that are reasonably expected to be used to make or finance new loans is 3 months.

(B) *Amounts re-loaned to conduit borrowers.* Any temporary period for proceeds held by a conduit borrower under a new loan from amounts described in paragraph (e)(4)(ii)(A) of this section is determined by treating the date the new loan is made as the issue date and by reducing the temporary period by the period the amounts were held by

the issuer following the last repayment.

(iii) *Construction issues.* If all or a portion of a pooled financing issue qualifies as a construction issue under § 1.148-7(b)(6), paragraph (e)(4)(i) of this section is applied by substituting "2 years" for "6 months."

(iv) *Amounts re-loaned for qualified mortgage loans.* The temporary period under this paragraph (e)(4) for proceeds from the sale, prepayment, or repayment of any qualified mortgage loan that are reasonably expected to be used to make or finance new qualified mortgage loans is 3 years.

(5) *Temporary period for replacement proceeds*—(i) *In general.* Except as otherwise provided, replacement proceeds qualify for a temporary period of 30 days beginning on the date that the amounts are first treated as replacement proceeds.

(ii) *Temporary period for bona fide debt service funds.* Amounts in a bona fide debt service fund for an issue qualify for a temporary period of 13 months. If only a portion of a fund qualifies as a bona fide debt service fund, only that portion qualifies for this temporary period.

(6) *Temporary period for investment proceeds.* Except as otherwise provided in this paragraph (e), investment proceeds qualify for a temporary period of 1 year beginning on the date of receipt.

(7) *Other amounts.* Gross proceeds not otherwise eligible for a temporary period described in this paragraph (e) qualify for a temporary period of 30 days beginning on the date of receipt.

(f) *Reserve or replacement funds*—(1) *General 10 percent limitation on funding with sale proceeds.* An issue consists of arbitrage bonds if sale proceeds of the issue in excess of 10 percent of the stated principal amount of the issue are used to finance any reserve or replacement fund, without regard to whether those sale proceeds are invested in higher yielding investments. If an issue has more than a de minimis amount of original issue discount or premium, the issue price (net of pre-issuance accrued interest) is used to measure the 10-percent limitation in lieu of stated principal amount. This rule does not limit

the use of amounts other than sale proceeds of an issue to fund a reserve or replacement fund.

(2) *Exception from yield restriction for reasonably required reserve or replacement funds*—(i) *In general.* The investment of amounts that are part of a reasonably required reserve or replacement fund in higher yielding investments will not cause an issue to consist of arbitrage bonds. A reasonably required reserve or replacement fund may consist of all or a portion of one or more funds, however labelled, derived from one or more sources. Amounts in a reserve or replacement fund in excess of the amount that is reasonably required are not part of a reasonably required reserve or replacement fund.

(ii) *Size limitation.* The amount of gross proceeds of an issue that qualifies as a reasonably required reserve or replacement fund may not exceed an amount equal to the least of 10 percent of the stated principal amount of the issue, the maximum annual principal and interest requirements on the issue, or 125 percent of the average annual principal and interest requirements on the issue. If an issue has more than a de minimis amount of original issue discount or premium, the issue price of the issue (net of pre-issuance accrued interest) is used to measure the 10 percent limitation in lieu of its stated principal amount. For a reserve or replacement fund that secures more than one issue (e.g. a parity reserve fund), the size limitation may be measured on an aggregate basis.

(iii) *Valuation of investments.* Investments in a reasonably required reserve or replacement fund may be valued in any reasonable, consistently applied manner that is permitted under § 1.148-5.

(iv) *150 percent debt service limitation on investment in nonpurpose investments for certain private activity bonds.* Section 148(d)(3) contains additional limits on the amount of gross proceeds of an issue of private activity bonds, other than qualified 501(c)(3) bonds, that may be invested in higher yielding nonpurpose investments without causing the bonds to be arbitrage bonds. For purposes of these rules, *initial temporary period* means the temporary periods

under paragraphs (e)(2), (e)(3), and (e)(4) of this section and under § 1.148-9(d)(2)(i), (ii), and (iii).

(3) *Certain parity reserve funds.* The limitation contained in paragraph (f)(1) of this section does not apply to an issue if the master legal document authorizing the issuance of the bonds (e.g., a master indenture) was adopted before August 16, 1986, and that document—

(i) Requires a reserve or replacement fund in excess of 10 percent of the sale proceeds, but not more than maximum annual principal and interest requirements;

(ii) Is not amended after August 31, 1986 (other than to permit the issuance of additional bonds as contemplated in the master legal document); and

(iii) Provides that bonds having a parity of security may not be issued by or on behalf of the issuer for the purposes provided under the document without satisfying the reserve fund requirements of the indenture.

(g) *Minor portion.* Under section 148(e), a bond of an issue is not an arbitrage bond solely because of the investment in higher yielding investments of gross proceeds of the issue in an amount not exceeding the lesser of—

(1) 5 percent of the sale proceeds of the issue; or

(2) \$100,000.

(h) *Certain waivers permitted.* On or before the issue date, an issuer may elect to waive the right to invest in higher yielding investments during any temporary period under paragraph (e) of this section or as part of a reasonably required reserve or replacement fund under paragraph (f) of this section. At any time, an issuer may waive the right to invest in higher yielding investments as part of a minor portion under paragraph (g) of this section.

[T.D. 8476, 58 FR 33520, June 18, 1993; 58 FR 44452, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24042, May 10, 1994; T.D. 8718, 62 FR 25507, May 9, 1997; T.D. 9777, 81 FR 46593, July 18, 2016]

§ 1.148-3 General arbitrage rebate rules.

(a) *In general.* Section 148(f) requires that certain earnings on nonpurpose investments allocable to the gross proceeds of an issue be paid to the United

States to prevent the bonds in the issue from being arbitrage bonds. The arbitrage that must be rebated is based on the difference between the amount actually earned on nonpurpose investments and the amount that would have been earned if those investments had a yield equal to the yield on the issue.

(b) *Definition of rebate amount.* As of any date, the rebate amount for an issue is the excess of the future value, as of that date, of all receipts on nonpurpose investments over the future value, as of that date, of all payments on nonpurpose investments.

(c) *Computation of future value of a payment or receipt.* The future value of a payment or receipt at the end of any period is determined using the economic accrual method and equals the value of that payment or receipt when it is paid or received (or treated as paid or received), plus interest assumed to be earned and compounded over the period at a rate equal to the yield on the issue, using the same compounding interval and financial conventions used to compute that yield.

(d) *Payments and receipts*—(1) *Definition of payments.* For purposes of this section, payments are—

(i) Amounts actually or constructively paid to acquire a nonpurpose investment (or treated as paid to a commingled fund);

(ii) For a nonpurpose investment that is first allocated to an issue on a date after it is actually acquired (e.g., an investment that becomes allocable to transferred proceeds or to replacement proceeds) or that becomes subject to the rebate requirement on a date after it is actually acquired (e.g., an investment allocated to a reasonably required reserve or replacement fund for a construction issue at the end of the 2-year spending period), the value of that investment on that date;

(iii) For a nonpurpose investment that was allocated to an issue at the end of the preceding computation period, the value of that investment at the beginning of the computation period;

(iv) On the last day of each bond year during which there are amounts allocated to gross proceeds of an issue that are subject to the rebate requirement, and on the final maturity date, a com-

putation credit of \$1,400 for any bond year ending in 2007 and, for bond years ending after 2007, a computation credit in the amount determined under paragraph (d)(4) of this section; and

(v) Yield reduction payments on nonpurpose investments made pursuant to § 1.148-5(c).

(2) *Definition of receipts.* For purposes of this section, receipts are—

(i) Amounts actually or constructively received from a nonpurpose investment (including amounts treated as received from a commingled fund), such as earnings and return of principal;

(ii) For a nonpurpose investment that ceases to be allocated to an issue before its disposition or redemption date (e.g., an investment that becomes allocable to transferred proceeds of another issue or that ceases to be allocable to the issue pursuant to the universal cap under § 1.148-6) or that ceases to be subject to the rebate requirement on a date earlier than its disposition or redemption date (e.g., an investment allocated to a fund initially subject to the rebate requirement but that subsequently qualifies as a bona fide debt service fund), the value of that nonpurpose investment on that date; and

(iii) For a nonpurpose investment that is held at the end of a computation period, the value of that investment at the end of that period.

(3) *Special rules for commingled funds.* Section 1.148-6(e) provides special rules to limit certain of the required determinations of payments and receipts for investments of a commingled fund.

(4) *Cost-of-living adjustment.* For any calendar year after 2007, the \$1,400 computation credit set forth in paragraph (d)(1)(iv) of this section shall be increased by an amount equal to such dollar amount multiplied by the cost-of-living adjustment determined under section 1(f)(3) for such year, as modified by this paragraph (d)(4). In applying section 1(f)(3) to determine this cost-of-living adjustment, the reference to “calendar year 1992” in section 1(f)(3)(B) shall be changed to “calendar year 2006.” If any such increase determined under this paragraph (d)(4) is not a multiple of \$10, such increase

shall be rounded to the nearest multiple thereof.

(e) *Computation dates*—(1) *In general.* For a fixed yield issue, an issuer may treat any date as a computation date. For a variable yield issue, an issuer:

(i) May treat the last day of any bond year ending on or before the latest date on which the first rebate amount is required to be paid under paragraph (f) of this section (the *first required payment date*) as a computation date but may not change that treatment after the first payment date; and

(ii) After the first required payment date, must consistently treat either the end of each bond year or the end of each fifth bond year as computation dates and may not change these computation dates after the first required payment date.

(2) *Final computation date.* The date that an issue is discharged is the final computation date. For an issue retired within 3 years of the issue date, however, the final computation date need not occur before the end of 8 months after the issue date or during the period in which the issuer reasonably expects that any of the spending exceptions under § 1.148-7 will apply to the issue.

(f) *Amount of required rebate installment payment*—(1) *Amount of interim rebate payments.* The first rebate installment payment must be made for a computation date that is not later than 5 years after the issue date. Subsequent rebate installment payments must be made for a computation date that is not later than 5 years after the previous computation date for which an installment payment was made. A rebate installment payment must be in an amount that, when added to the future value, as of the computation date, of previous rebate payments made for the issue, equals at least 90 percent of the rebate amount as of that date.

(2) *Amount of final rebate payment.* For the final computation date, a final rebate payment must be paid in an amount that, when added to the future value of previous rebate payments made for the issue, equals 100 percent of the rebate amount as of that date.

(3) *Future value of rebate payments.* The future value of a rebate payment is determined under paragraph (c) of this

section. This value is computed by taking into account recoveries of overpayments.

(g) *Time and manner of payment.* Each rebate payment must be paid no later than 60 days after the computation date to which the payment relates. Any rebate payment paid within this 60-day period may be treated as paid on the computation date to which it relates. A rebate payment is paid when it is filed with the Internal Revenue Service at the place or places designated by the Commissioner. A payment must be accompanied by the form provided by the Commissioner for this purpose.

(h) *Penalty in lieu of loss of tax exemption*—(1) *In general.* The failure to pay the correct rebate amount when required will cause the bonds of the issue to be arbitrage bonds, unless the Commissioner determines that the failure was not caused by willful neglect and the issuer promptly pays a penalty to the United States. If no bond of the issue is a private activity bond (other than a qualified 501(c)(3) bond), the penalty equals 50 percent of the rebate amount not paid when required to be paid, plus interest on that amount. Otherwise, the penalty equals 100 percent of the rebate amount not paid when required to be paid, plus interest on that amount.

(2) *Interest on underpayments.* Interest accrues at the underpayment rate under section 6621, beginning on the date the correct rebate amount is due and ending on the date 10 days before it is paid.

(3) *Waivers of the penalty.* The penalty is automatically waived if the rebate amount that the issuer failed to pay plus interest is paid within 180 days after discovery of the failure, unless, the Commissioner determines that the failure was due to willful neglect, or the issue is under examination by the Commissioner at any time during the period beginning on the date the failure first occurred and ending on the date 90 days after the receipt of the rebate amount. Generally, extensions of this 180-day period and waivers of the penalty in other cases will be granted by the Commissioner only in unusual circumstances. For purposes of this paragraph (h)(3), willful neglect does

Internal Revenue Service, Treasury

§ 1.148-3

not include a failure that is attributable solely to the permissible retroactive selection of a short first bond year if the rebate amount that the issuer failed to pay is paid within 60 days of the selection of that bond year.

(4) *Application to alternative penalty under § 1.148-7.* Paragraphs (h) (1), (2), and (3) of this section apply to failures to pay penalty payments under § 1.148-7 (*alternative penalty amounts*) by substituting *alternative penalty amounts for rebate amount and the last day of each spending period for computation date*.

(i) *Recovery of overpayment of rebate—*
(1) *In general.* An issuer may recover an overpayment for an issue of tax-exempt bonds by establishing to the satisfaction of the Commissioner that the overpayment occurred. An overpayment is the excess of the amount paid to the United States for an issue under section 148 over the sum of the rebate amount for the issue as of the most recent computation date and all amounts that are otherwise required to be paid under section 148 as of the date the recovery is requested.

(2) *Limitations on recovery.* (i) An overpayment may be recovered only to the extent that a recovery on the date that it is first requested would not result in an additional rebate amount if that date were treated as a computation date.

(ii) Except for overpayments of penalty in lieu of rebate under section 148(f)(4)(C)(vii) and § 1.148-7(k), an overpayment of less than \$5,000 may not be recovered before the final computation date.

(3) *Time and manner for requesting refund.* (i) An issuer must request a refund of an overpayment (claim) no later than the date that is two years after the final computation date for the issue to which the overpayment relates (the filing deadline). The claim must be made using the form provided by the Commissioner for this purpose.

(ii) The Commissioner may request additional information to support a claim. The issuer must file the additional information by the date specified in the Commissioner's request, which date may be extended by the Commissioner if unusual circumstances warrant. An issuer will be given at least 21 calendar days to re-

spond to a request for additional information.

(iii) A claim described in either paragraph (i)(3)(iii)(A) or (B) of this section that has been denied by the Commissioner may be appealed to the Office of Appeals under this paragraph (i)(3)(iii). Upon a determination in favor of the issuer, the Office of Appeals must return the undeveloped case to the Commissioner for further consideration of the substance of the claim.

(A) A claim is described in this paragraph (i)(3)(iii)(A) if the Commissioner asserts that the claim was filed after the filing deadline.

(B) A claim is described in this paragraph (i)(3)(iii)(B) if the Commissioner asserts that additional information to support the claim was not submitted within the time specified in the request for information or in any extension of such specified time period.

(j) *Examples.* The provisions of this section may be illustrated by the following examples.

Example 1. Calculation and payment of rebate for a fixed yield issue. (i) *Facts.* On January 1, 1994, City A issues a fixed yield issue and invests all the sale proceeds of the issue (\$49 million). There are no other gross proceeds. The issue has a yield of 7.0000 percent per year compounded semiannually (computed on a 30 day month/360 day year basis). City A receives amounts from the investment and immediately expends them for the governmental purpose of the issue as follows:

Date	Amount
2/1/94	\$3,000,000
5/1/94	5,000,000
1/1/95	5,000,000
9/1/95	20,000,000
3/1/96	22,000,000

(ii) *First computation date.* (A) City A chooses January 1, 1999, as its first computation date. This date is the latest date that may be used to compute the first required rebate installment payment. The rebate amount as of this date is computed by determining the future value of the receipts and the payments for the investment. The compounding interval is each 6-month (or shorter) period and the 30 day month/360 day year basis is used because these conventions were used to compute yield on the issue. The future value of these amounts, plus the computation credit, as of January 1, 1999, is:

Date	Receipts (payments)	FV (7.0000 percent)
1/1/94	(\$49,000,000)	(\$69,119,339)

§ 1.148-3

Date	Receipts (payments)	FV (7.0000 percent)
2/1/94	3,000,000	4,207,602
5/1/94	5,000,000	6,893,079
1/1/95	5,000,000	6,584,045
1/1/95	(1,000)	(1,317)
9/1/95	20,000,000	25,155,464
1/1/96	(1,000)	1,229
3/1/96	22,000,000	26,735,275
1/1/97	(1,000)	(1,148)
Rebate amount (1/01/99)		452,432

(B) City *A* pays 90 percent of the rebate amount (\$407,189) to the United States within 60 days of January 1, 1999.

(iii) *Second computation date.* (A) On the next required computation date, January 1, 2004, the future value of the payments and receipts is:

Date	Receipts (payments)	FV (7.0000 percent)
1/1/99	\$452,432	\$638,200
Rebate amount (1/01/04)		638,200

(B) As of this computation date, the future value of the payment treated as made on January 1, 1999, is \$574,380, which equals at least 90 percent of the rebate amount as of this computation date ($\$638,200 \times 0.9$), and thus no additional rebate payment is due as of this date.

(iv) *Final computation date.* (A) On January 1, 2009, City *A* redeems all the bonds, and thus this date is the final computation date. The future value of the receipts and payments as of this date is:

Date	Receipts (payments)	FV (7.0000 percent)
1/1/04	\$638,200	\$900,244
1/1/09	(1,000)	(1,000)
Rebate amount (1/01/09)		899,244

(B) As of this computation date, the future value of the payment made on January 1, 1999, is \$810,220 and thus an additional rebate payment of \$89,024 is due. This payment reflects the future value of the 10 percent unpaid portion, and thus would not be owed had the issuer paid the full rebate amount as of any prior computation date.

Example 2. Calculation and payment of rebate for a variable yield issue. (i) *Facts.* On July 1, 1994, City *B* issues a variable yield issue and invests all of the sale proceeds of the issue (\$30 million). There are no other gross proceeds. As of July 1, 1999, there are nonpurpose investments allocated to the issue. Prior to July 1, 1999, City *B* receives amounts from nonpurpose investments and immediately expends them for the governmental purpose of the issue as follows:

26 CFR Ch. I (4-1-22 Edition)

Date	Amount
8/1/1994	\$5,000,000
7/1/1995	8,000,000
12/1/1995	17,000,000
7/1/1999	650,000

(ii) *First computation date.* (A) City *B* treats the last day of the fifth bond year (July 1, 1999) as a computation date. The yield on the variable yield issue during the first computation period (the period beginning on the issue date and ending on the first computation date) is 6.0000 percent per year compounded semiannually. The value of the nonpurpose investments allocated to the issue as of July 1, 1999, is \$3 million. The rebate amount as of July 1, 1999, is computed by determining the future value of the receipts and the payments for the nonpurpose investments. The compounding interval is each 6-month (or shorter) period and the 30 day month/360 day year basis is used because these conventions were used to compute yield on the issue. The future value of these amounts and of the computation date credits as of July 1, 1999, is:

Date	Receipts (payments)	FV (6.0000 percent)
7/1/1994	(\$30,000,000)	(\$40,317,491)
8/1/1994	5,000,000	6,686,560
7/1/1995	(1,000)	(1,267)
7/1/1995	8,000,000	10,134,161
12/1/1995	17,000,000	21,011,112
7/1/1996	(1,000)	(1,194)
7/1/1997	(1,000)	(1,126)
7/1/1998	(1,000)	(1,061)
7/1/1999	3,000,000	3,000,000
7/1/1999	650,000	650,000
7/1/1999	(1,000)	(1,000)
Rebate amount (7/01/1999)		1,158,694

(B) City *B* pays 90 percent of the rebate amount (\$1,042,824.60) to the United States within 60 days of July 1, 1999.

(iii) *Next computation date.* (A) On July 1, 2004, City *B* redeems all of the bonds. Thus, the next computation date is July 1, 2004. On July 30, 1999, City *B* chose to compute rebate for periods following the first computation period by treating the end of each fifth bond year as a computation date. The yield during the second computation period is 5.0000 percent per year compounded semiannually. The computation of the rebate amount as of this date reflects the value of the nonpurpose investments allocated to the issue at the end of the prior computation period. On July 1, 2004, City *B* sells those nonpurpose investments for \$3,925,000 and expends that amount for the governmental purpose of the issue.

(B) As of July 1, 2004, the future value of the rebate amount computed as of July 1, 1999, and of all other payments and receipts is:

Internal Revenue Service, Treasury

§ 1.148-4

Date	Receipts (payments)	FV (5.0000 percent)
7/1/1999	\$1,158,694	\$1,483,226
7/1/1999	(3,000,000)	(3,840,254)
7/1/2000	(1,000)	(1,218)
7/1/2001	(1,000)	(1,160)
7/1/2002	(1,000)	(1,104)
7/1/2003	(1,000)	(1,051)
7/1/2004	(2,000)	(2,000)
7/1/2004	3,925,000	3,925,000
		1,561,439

(C) As of this computation date, the future value of the payment made on July 1, 1999, is \$1,334,904 and thus an additional rebate payment of \$226,535 is due.

(D) If the yield during the second computation period were, instead, 7.0000 percent, the rebate amount computed as of July 1, 2004, would be \$1,320,891. The future value of the payment made on July 1, 1999, would be \$1,471,007. Although the future value of the payment made on July 1, 1999 (\$1,471,007), exceeds the rebate amount computed as of July 1, 2004 (\$1,320,891), § 1.148-3(i) limits the amount recoverable as a defined overpayment of rebate under section 148 to the excess of the total "amount paid" over the sum of the amount determined under the future value method to be the "rebate amount" as of the most recent computation date and all other amounts that are otherwise required to be paid under section 148 as of the date the recovery is requested. Because the total amount that the issuer paid on July 1, 1999 (\$1,042,824.60), does not exceed the rebate amount as of July 1, 2004 (\$1,320,891), the issuer would not be entitled to recover any overpayment of rebate in this case.

(k) *Bona fide debt service fund exception.* Under section 148(f)(4)(A), the rebate requirement does not apply to amounts in certain bona fide debt service funds. An issue with an average annual debt service that is not in excess of \$2,500,000 may be treated as satisfying the \$100,000 limitation in section 148(f)(4)(A)(ii).

[T.D. 8476, 58 FR 33522, June 18, 1993; 58 FR 44452, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24042, May 10, 1994; T.D. 8476, 59 FR 24350, May 11, 1994; T.D. 8718, 62 FR 25507, May 9, 1997; T.D. 9701, 79 FR 67351, Nov. 13, 2014; T.D. 9777, 81 FR 46593, July 18, 2016]

§ 1.148-4 Yield on an issue of bonds.

(a) *In general.* The yield on an issue of bonds is used to apply investment yield restrictions under section 148(a) and to compute rebate liability under section 148(f). Yield is computed under the economic accrual method using any consistently applied compounding interval

of not more than one year. A short first compounding interval and a short last compounding interval may be used. Yield is expressed as an annual percentage rate that is calculated to at least four decimal places (for example, 5.2525 percent). Other reasonable, standard financial conventions, such as the 30 days per month/360 days per year convention, may be used in computing yield but must be consistently applied. The yield on an issue that would be a purpose investment (absent section 148(b)(3)(A)) is equal to the yield on the conduit financing issue that financed that purpose investment.

(b) *Computing yield on a fixed yield issue—(1) In general—(i) Yield on an issue.* The yield on a fixed yield issue is the discount rate that, when used in computing the present value as of the issue date of all unconditionally payable payments of principal, interest, and fees for qualified guarantees on the issue and amounts reasonably expected to be paid as fees for qualified guarantees on the issue, produces an amount equal to the present value, using the same discount rate, of the aggregate issue price of bonds of the issue as of the issue date. Further, payments include certain amounts properly allocable to a qualified hedge. Yield on a fixed yield issue is computed as of the issue date and is not affected by subsequent unexpected events, except to the extent provided in paragraphs (b)(4) and (h)(3) of this section.

(ii) *Yield on a bond.* Yield on a fixed yield bond is computed in the same manner as yield on a fixed yield issue.

(2) *Yield on certain fixed yield bonds subject to mandatory or contingent early redemption—(i) In general.* The yield on a fixed yield issue that includes a bond subject to mandatory early redemption or expected contingent redemption is computed by treating that bond as redeemed on its reasonably expected early redemption date for an amount equal to its value on that date. Reasonable expectations are determined on the issue date. A bond is subject to mandatory early redemption if it is unconditionally payable in full before its final maturity date. A bond is subject to a contingent redemption if it must be, or is reasonably expected to be, redeemed prior to final maturity upon

the occurrence of a contingency. A contingent redemption is taken into account only if the contingency is reasonably expected to occur, in which case the date of occurrence of the contingency must be reasonably estimated. For example, if bonds are reasonably expected to be redeemed early using excess revenues from general or special property taxes or benefit assessments or similar amounts, the reasonably expected redemption schedule is used to determine yield. For purposes of this paragraph (b)(2)(i), excess proceeds calls for issues for which the requirements of § 1.148-2(e) (2) or (3) are satisfied, calamity calls, and refundings do not cause a bond to be subject to early redemption. The value of a bond is determined under paragraph (e) of this section.

(ii) *Substantially identical bonds subject to mandatory early redemption.* If substantially identical bonds of an issue are subject to specified mandatory redemptions prior to final maturity (e.g., a mandatory sinking fund redemption requirement), yield on that issue is computed by treating those bonds as redeemed in accordance with the redemption schedule for an amount equal to their value. Generally, bonds are substantially identical if the stated interest rate, maturity, and payment dates are the same. In computing the yield on an issue containing bonds described in this paragraph (b)(2)(ii), each of those bonds must be treated as redeemed at its present value, unless the stated redemption price at maturity of the bond does not exceed the issue price of the bond by more than one-fourth of one percent multiplied by the product of the stated redemption price at maturity and the number of years to the weighted average maturity date of the substantially identical bonds, in which case each of those bonds must be treated as redeemed at its outstanding stated principal amount, plus accrued, unpaid interest. Weighted average maturity is determined by taking into account the mandatory redemption schedule.

(3) *Yield on certain fixed yield bonds subject to optional early redemption—(i) In general.* If a fixed yield bond is subject to optional early redemption and is described in paragraph (b)(3)(ii) of

this section, the yield on the issue containing the bond is computed by treating the bond as redeemed at its stated redemption price on the optional redemption date that would produce the lowest yield on that bond.

(ii) *Fixed yield bonds subject to special yield calculation rule.* A fixed yield bond is described in this paragraph (b)(3)(ii) only if it—

(A) Is subject to optional redemption within five years of the issue date, but only if the yield on the issue computed by assuming all bonds in the issue subject to redemption within 5 years of the issue date are redeemed at maturity is more than one-eighth of one percentage point higher than the yield on that issue computed by assuming all bonds subject to optional redemption within 5 years of the issue date are redeemed at the earliest date for their redemption;

(B) Is issued at an issue price that exceeds the stated redemption price at maturity by more than one-fourth of one percent multiplied by the product of the stated redemption price at maturity and the number of complete years to the first optional redemption date for the bond; or

(C) Bears interest at increasing interest rates (*i.e.*, a *stepped coupon bond*).

(4) *Yield recomputed upon transfer of certain rights associated with the bond.* For purposes of § 1.148-3, as of the date of any transfer, waiver, modification, or similar transaction (collectively, a *transfer*) of any right that is part of the terms of a bond or is otherwise associated with a bond (e.g., a redemption right), in a transaction that is separate and apart from the original sale of the bond, the issue is treated as if it were retired and a new issue issued on the date of the transfer (*reissued*). The redemption price of the retired issue and the issue price of the new issue equal the aggregate values of all the bonds of the issue on the date of the transfer. In computing yield on the new issue, any amounts received by the issuer as consideration for the transfer are taken into account.

(5) *Special aggregation rule treating certain bonds as a single fixed yield bond.* Two variable yield bonds of an issue are treated in the aggregate as a single fixed yield bond if—

Internal Revenue Service, Treasury

§ 1.148-4

(i) Aggregate treatment would result in the single bond being a fixed yield bond; and

(ii) The terms of the bonds do not contain any features that could distort the aggregate fixed yield from what the yield would be if a single fixed yield bond were issued. For example, if an issue contains a bond bearing interest at a floating rate and a related bond bearing interest at a rate equal to a fixed rate minus that floating rate, those two bonds are treated as a single fixed yield bond only if neither bond may be redeemed unless the other bond is also redeemed at the same time.

(6) *Examples.* The provisions of this paragraph (b) may be illustrated by the following examples.

Example 1. No early call—(i) Facts. On January 1, 1994, City A issues an issue consisting of four identical fixed yield bonds. The stated final maturity date of each bond is January 1, 2004, and no bond is subject to redemption before this date. Interest is payable on January 1 of each year at a rate of 6.0000 percent per year on the outstanding principal amount. The total stated principal amount of the bonds is \$20 million. The issue price of the bonds \$20,060,000.

(ii) *Computation.* The yield on the issue is computed by treating the bonds as retired at the stated maturity under the general rule of § 1.148-4(b)(1). The bonds are treated as redeemed for their stated redemption prices. The yield on the issue is 5.8731 percent per year compounded semiannually, computed as follows:

Date	Payments	PV (5.8731 percent)
1/1/1995	\$1,200,000	\$1,132,510
1/1/1996	1,200,000	1,068,816
1/1/1997	1,200,000	1,008,704
1/1/1998	1,200,000	951,973
1/1/1999	1,200,000	898,433
1/1/2000	1,200,000	847,903
1/1/2001	1,200,000	800,216
1/1/2002	1,200,000	755,210
1/1/2003	1,200,000	712,736
1/1/2004	21,200,000	11,883,498
		20,060,000

Example 2. Mandatory calls. (i) *Facts.* The facts are the same as in *Example 1*. In this case, however, the bonds are subject to mandatory sinking fund redemption on January 1 of each year, beginning January 1, 2001. On each sinking fund redemption date, one of the bonds is chosen by lottery and is required to be redeemed at par plus accrued interest.

(ii) *Computation.* Because the bonds are subject to specified redemptions, yield on

the issue is computed by treating the bonds as redeemed in accordance with the redemption schedule under § 1.148-4(b)(2)(ii). Because the bonds are not sold at a discount, the bonds are treated as retired at their stated redemption prices. The yield on the issue is 5.8678 percent per year compounded semiannually, computed as follows:

Date	Payments	PV (5.8678 percent)
1/1/1995	\$1,200,000	\$1,132,569
1/1/1996	1,200,000	1,068,926
1/1/1997	1,200,000	1,008,860
1/1/1998	1,200,000	952,169
1/1/1999	1,200,000	898,664
1/1/2000	1,200,000	848,166
1/1/2001	6,200,000	4,135,942
1/1/2002	5,900,000	3,714,650
1/1/2003	5,600,000	3,327,647
1/1/2004	5,300,000	2,972,407
		\$20,060,000

Example 3. Optional early call. (i) *Facts.* On January 1, 1994, City C issues an issue consisting of three bonds. Each bond has a stated principal amount of \$10 million dollars and is issued for par. Bond X bears interest at 5 percent per year and matures on January 1, 1999. Bond Y bears interest at 6 percent per year and matures on January 1, 2002. Bond Z bears interest at 7 percent per year and matures on January 1, 2004. Bonds Y and Z are callable by the issuer at par plus accrued interest after December 31, 1998.

(ii) *Computation.* (A) The yield on the issue computed as if each bond is outstanding to its maturity is 6.0834 percent per year compounded semiannually, computed as follows:

Date	Payments	PV (6.0834 percent)
1/1/1995	\$1,800,000	\$1,695,299
1/1/1996	1,800,000	1,596,689
1/1/1997	1,800,000	1,503,814
1/1/1998	1,800,000	1,416,342
1/1/1999	11,800,000	8,744,830
1/1/2000	1,300,000	907,374
1/1/2001	1,300,000	854,595
1/1/2002	11,300,000	6,996,316
1/1/2003	700,000	408,190
1/1/2004	10,700,000	5,876,551
		30,000,000

(B) The yield on the issue computed as if all bonds are called at the earliest date for redemption is 5.9126 percent per year compounded semiannually, computed as follows:

Date	Payments	PV (5.9126 percent)
1/1/1995	\$1,800,000	\$1,698,113
1/1/1996	1,800,000	1,601,994
1/1/1997	1,800,000	1,511,315
1/1/1998	1,800,000	1,425,769
1/1/1999	31,800,000	23,762,809

Date	Payments	PV (5.9126 percent)
		30,000,000

(C) Because the yield on the issue computed by assuming all bonds in the issue subject to redemption within 5 years of the issue date are redeemed at maturity is more than one-eighth of one percentage point higher than the yield on the issue computed by assuming all bonds subject to optional redemption within 5 years of the issue date are redeemed at the earliest date for their redemption, each bond is treated as redeemed on the date that would produce the lowest yield for the issue. The lowest yield on the issue would result from a redemption of all the bonds on January 1, 1999. Thus, the yield on the issue is 5.9126 percent per year compounded semiannually.

(c) *Computing yield on a variable yield issue*—(1) *In general.* The yield on a variable yield issue is computed separately for each computation period. The yield for each computation period is the discount rate that, when used in computing the present value as of the first day of the computation period of all the payments of principal and interest and fees for qualified guarantees that are attributable to the computation period, produces an amount equal to the present value, using the same discount rate, of the aggregate issue price (or deemed issue price, as determined in paragraph (c)(2)(iv) of this section) of the bonds of the issue as of the first day of the computation period. The yield on a variable yield bond is computed in the same manner as the yield on a variable yield issue. Except as provided in paragraph (c)(2) of this section, yield on any fixed yield bond in a variable yield issue is computed in the same manner as the yield on a fixed yield issue as provided in paragraph (b) of this section.

(2) *Payments on bonds included in yield for a computation period*—(i) *Payments in general.* The payments on a bond that are attributable to a computation period include any amounts actually paid during the period for principal on the bond. Payments also include any amounts paid during the current period both for interest accruing on the bond during the current period and for interest accruing during the prior period that was included in the deemed issue price of the bond as accrued unpaid in-

terest at the start of the current period under this paragraph (c)(2). Further, payments include any amounts properly allocable to fees for a qualified guarantee of the bond for the period and to any amounts properly allocable to a qualified hedge for the period.

(ii) *Payments at actual redemption.* If a bond is actually redeemed during a computation period, an amount equal to the greater of its value on the redemption date or the actual redemption price is a payment on the actual redemption date.

(iii) *Payments for bonds outstanding at end of computation period.* If a bond is outstanding at the end of a computation period, a payment equal to the bond's value is taken into account on the last day of that period.

(iv) *Issue price for bonds outstanding at beginning of next computation period.* A bond outstanding at the end of a computation period is treated as if it were immediately reissued on the next day for a deemed issue price equal to the value from the day before as determined under paragraph (c)(2)(iii) of this section.

(3) *Example.* The provisions of this paragraph (c) may be illustrated by the following example.

Example. On January 1, 1994, City A issues an issue of identical plain par bonds in an aggregate principal amount of \$1,000,000. The bonds pay interest at a variable rate on each June 1 throughout the term of the issue. The entire principal amount of the bonds plus accrued, unpaid interest is payable on the final maturity date of January 1, 2000. No bond year is selected. On June 1, 1994, 1995, 1996, 1997, and 1998, interest in the amounts of \$30,000, \$55,000, \$57,000, \$56,000, and \$45,000 is paid on the bonds. From June 1, 1998, to January 1, 1999, \$30,000 of interest accrues on the bonds. From January 1, 1999, to June 1, 1999, another \$35,000 of interest accrues. On June 1, 1999, the issuer actually pays \$65,000 of interest. On January 1, 2000, \$1,000,000 of principal and \$38,000 of accrued interest are paid. The payments for the computation period starting on the issue date and ending on January 1, 1999, include all annual interest payments paid from the issue date to June 1, 1998. Because the issue is outstanding on January 1, 1999, it is treated as redeemed on that date for amount equal to its value (\$1,000,000 plus accrued, unpaid interest of \$30,000 under paragraph (e)(1) of this section). Thus, \$1,030,000 is treated as paid on January 1, 1999. The issue is then treated as reissued

on January 1, 1999, for \$1,030,000. The payments for the next computation period starting on January 1, 1999, and ending on January 1, 2000, include the interest actually paid on the bonds during that period (\$65,000 on June 1, 1999, plus \$38,000 paid on January 1, 2000). Because the issue was actually redeemed on January 1, 2000, an amount equal to its stated redemption price is also treated as paid on January 1, 2000.

(d) *Conversion from variable yield issue to fixed yield issue.* For purposes of determining yield under this section, as of the first day on which a variable yield issue would qualify as a fixed yield issue if it were newly issued on that date (a *conversion date*), that issue is treated as if it were reissued as a fixed yield issue on the conversion date. The redemption price of the variable yield issue and the issue price of the fixed yield issue equal the aggregate values of all the bonds on the conversion date. Thus, for example, for plain par bonds (e.g., tender bonds), the deemed issue price would be the outstanding principal amount, plus accrued unpaid interest. If the conversion date occurs on a date other than a computation date, the issuer may continue to treat the issue as a variable yield issue until the next computation date, at which time it must be treated as converted to a fixed yield issue.

(e) *Value of bonds—(1) Plain par bonds.* Except as otherwise provided, the value of a plain par bond is its outstanding stated principal amount, plus accrued unpaid interest. The value of a plain par bond that is actually redeemed or treated as redeemed is its stated redemption price on the redemption date, plus accrued, unpaid interest.

(2) *Other bonds.* The value of a bond other than a plain par bond on a date is its present value on that date. The present value of a bond is computed under the economic accrual method taking into account all the unconditionally payable payments of principal, interest, and fees for a qualified guarantee to be paid on or after that date and using the yield on the bond as the discount rate, except that for purposes of § 1.148-6(b)(2) (relating to the universal cap), these values may be determined by consistently using the yield on the issue of which the bonds are a part. To determine yield on fixed yield bonds, see paragraph (b)(1) of this sec-

tion. The rules contained in paragraphs (b)(2) and (b)(3) of this section apply for this purpose. In the case of bonds described in paragraph (b)(2)(ii) of this section, the present value of those bonds on any date is computed using the yield to the final maturity date of those bonds as the discount rate. In determining the present value of a variable yield bond under this paragraph (e)(2), the initial interest rate on the bond established by the interest index or other interest rate setting mechanism is used to determine the interest payments on that bond.

(f) *Qualified guarantees—(1) In general.* Fees properly allocable to payments for a qualified guarantee for an issue (as determined under paragraph (f)(6) of this section) are treated as additional interest on that issue under section 148. A guarantee is a qualified guarantee if it satisfies each of the requirements of paragraphs (f)(2) through (f)(4) of this section.

(2) *Interest savings.* As of the date the guarantee is obtained, the issuer must reasonably expect that the present value of the fees for the guarantee will be less than the present value of the expected interest savings on the issue as a result of the guarantee. For this purpose, present value is computed using the yield on the issue, determined with regard to guarantee payments, as the discount rate.

(3) *Guarantee in substance.* The arrangement must create a guarantee in substance. The arrangement must impose a secondary liability that unconditionally shifts substantially all of the credit risk for all or part of the payments, such as payments for principal and interest, redemption prices, or tender prices, on the guaranteed bonds. Reasonable procedural or administrative requirements of the guarantee do not cause the guarantee to be conditional. In the case of a guarantee against failure to remarket a qualified tender bond, commercially reasonable limitations based on credit risk, such as limitations on payment in the event of default by the primary obligor or the bankruptcy of a long-term credit guarantor, do not cause the guarantee to be conditional. The guarantee may be in any form. The guarantor may not be a co-obligor. Thus, the guarantor must

not expect to make any payments other than under a direct-pay letter of credit or similar arrangement for which the guarantor will be reimbursed immediately. The guarantor and any related parties together must not use more than 10 percent of the proceeds of the portion of the issue allocable to the guaranteed bonds.

(4) *Reasonable charge*—(i) *In general.* Fees for a guarantee must not exceed a reasonable, arm's-length charge for the transfer of credit risk. In complying with this requirement, the issuer may not rely on the representations of the guarantor.

(ii) *Fees for services other than transfer of credit risk must be separately stated.* A fee for a guarantee must not include any payment for any direct or indirect services other than the transfer of credit risk, unless the compensation for those other services is separately stated, reasonable, and excluded from the guarantee fee. Fees for the transfer of credit risk include fees for the guarantor's overhead and other costs relating to the transfer of credit risk. For example, a fee includes payment for services other than transfer of credit risk if—

(A) It includes payment for the cost of underwriting or remarketing bonds or for the cost of insurance for casualty to bond-financed property;

(B) It is refundable upon redemption of the guaranteed bond before the final maturity date and the amount of the refund would exceed the portion of the fee that had not been earned; or

(C) The requirements of § 1.148-2(e)(2) (relating to temporary periods for capital projects) are not satisfied, and the guarantor is not reasonably assured that the bonds will be repaid if the project to be financed is not completed.

(5) *Guarantee of purpose investments.* Except for guarantees of qualified mortgage loans and qualified student loans, a guarantee of payments on a purpose investment is a qualified guarantee of the issue if all payments on the purpose investment reasonably coincide with payments on the related bonds and the payments on the purpose investment are unconditionally payable no more than 6 months before the corresponding interest payment and 12 months before the corresponding prin-

cipal payments on the bonds. This paragraph (f)(5) only applies if, in addition to satisfying the other requirements of this paragraph (f), the guarantee is, in substance, a guarantee of the bonds allocable to that purpose investment and to no other bonds except for bonds that are equally and ratably secured by purpose investments of the same conduit borrower.

(6) *Allocation of qualified guarantee payments*—(i) *In general.* Payments for a qualified guarantee must be allocated to bonds and to computation periods in a manner that properly reflects the proportionate credit risk for which the guarantor is compensated. Proportionate credit risk for bonds that are not substantially identical may be determined using any reasonable, consistently applied method. For example, this risk may be based on the ratio of the total principal and interest paid and to be paid on a guaranteed bond to the total principal and interest paid and to be paid on all bonds of the guaranteed issue. An allocation method generally is not reasonable, for example, if a substantial portion of the fee is allocated to the construction portion of the issue and a correspondingly insubstantial portion is allocated to the later years covered by the guarantee. Reasonable letter of credit *set up* fees may be allocated ratably during the initial term of the letter of credit. Upon an early redemption of a variable yield bond, fees otherwise allocable to the period after the redemption are allocated to remaining outstanding bonds of the issue or, if none remain outstanding, to the period before the redemption.

(ii) *Safe harbor for allocation of qualified guarantee fees for variable yield issues.* An allocation of non-level payments for a qualified guarantee for variable yield bonds is treated as meeting the requirements of paragraph (f)(6)(i) of this section if, for each bond year for which the guarantee is in effect, an equal amount (or for any short bond year, a proportionate amount of the equal amount) is treated as paid as of the beginning of that bond year. The present value of the annual amounts must equal the fee for the guarantee allocated to that bond, with present value computed as of the first day the

guarantee is in effect by using as the discount rate the yield on the variable yield bonds covered by the guarantee, determined without regard to any fee allocated under this paragraph (f)(6)(ii).

(7) *Refund or reduction of guarantee payments.* If as a result of an investment of proceeds of a refunding issue in a refunding escrow, there will be a reduction in, or refund of, payments for a guarantee (*savings*), the savings must be treated as a reduction in the payments on the refunding issue.

(g) *Yield on certain mortgage revenue and student loan bonds.* For purposes of section 148 and this section, section 143(g)(2)(C)(ii) applies to the computation of yield on an issue of qualified mortgage bonds or qualified veterans' mortgage bonds. For purposes of applying section 148 and section 143(g) with respect to purpose investments allocable to a variable yield issue of qualified mortgage bonds, qualified veterans' mortgage bonds, or qualified student loan bonds that is reasonably expected as of the issue date to convert to a fixed yield issue, the yield may be computed over the term of the issue, and, if the yield is so computed, paragraph (d) of this section does not apply to the issue. As of any date, the yield over the term of the issue is based on—

(1) With respect to any bond of the issue that has not converted to a fixed and determinable yield on or before that date, the actual amounts paid or received to that date and the amounts that are reasonably expected (as of that date) to be paid or received with respect to that bond over the remaining term of the issue (taking into account prepayment assumptions under section 143(g)(2)(B)(iv), if applicable); and

(2) With respect to any bond of the issue that has converted to a fixed and determinable yield on or before that date, the actual amounts paid or received before that bond converted, if any, and the amount that was reasonably expected (on the date that bond converted) to be paid or received with respect to that bond over the remaining term of the issue (taking into account prepayment assumptions under section 143(g)(2)(B)(iv), if applicable).

(h) *Qualified hedging transactions—(1) In general.* Payments made or received by an issuer under a qualified hedge (as defined in paragraph (h)(2) of this section) relating to bonds of an issue are taken into account (as provided in paragraph (h)(3) of this section) to determine the yield on the issue. Except as provided in paragraphs (h)(4) and (h)(5)(ii)(E) of this section, the bonds to which a qualified hedge relates are treated as variable yield bonds from the issue date of the bonds. This paragraph (h) applies solely for purposes of sections 143(g), 148, and 149(d).

(2) *Qualified hedge defined.* Except as provided in paragraph (h)(5) of this section, the term *qualified hedge* means a contract that satisfies each of the following requirements:

(i) *Hedge—(A) In general.* The contract is entered into primarily to modify the issuer's risk of interest rate changes with respect to a bond (a hedge). For example, the contract may be an interest rate swap, an interest rate cap, a futures contract, a forward contract, or an option.

(B) *Special rule for fixed rate issues.* If the contract modifies the issuer's risk of interest rate changes with respect to a bond that is part of an issue that, absent the contract, would be a fixed rate issue, the contract must be entered into—

(1) No later than 15 days after the issue date (or the deemed issue date under paragraph (d) of this section) of the issue; or

(2) No later than the expiration of a qualified hedge with respect to bonds of that issue that satisfies paragraph (h)(2)(i)(B)(1) of this section; or

(3) No later than the expiration of a qualified hedge with respect to bonds of that issue that satisfies either paragraph (h)(2)(i)(B)(2) of this section or this paragraph (h)(2)(i)(B)(3).

(C) *Contracts with certain acquisition payments.* If a hedge provider makes a single payment to the issuer (e.g., a payment for an off-market swap) in connection with the acquisition of a contract, the issuer may treat a portion of that contract as a hedge provided—

(1) The hedge provider's payment to the issuer and the issuer's payments under the contract in excess of those

that it would make if the contract bore rates equal to the on-market rates for the contract (determined as of the date the parties enter into the contract) are separately identified in a certification of the hedge provider; and

(2) The payments described in paragraph (h)(2)(i)(C)(I) of this section are not treated as payments on the hedge.

(ii) *No significant investment element—*

(A) *In general.* The contract does not contain a significant investment element. Except as provided in paragraph (h)(2)(ii)(B) of this section, a contract contains a significant investment element if a significant portion of any payment by one party relates to a conditional or unconditional obligation by the other party to make a payment on a different date. Examples of contracts that contain a significant investment element are a debt instrument held by the issuer; an interest rate swap requiring any payments other than periodic payments, within the meaning of § 1.446-3 (periodic payments) (e.g., a payment for an off-market swap or prepayment of part or all of one leg of a swap); and an interest rate cap requiring the issuer's premium for the cap to be paid in a single, up-front payment. Solely for purposes of determining if a hedge is a qualified hedge under this section, payments that an issuer receives pursuant to the terms of a hedge that are equal to the issuer's cost of funds are treated as periodic payments under § 1.446-3 without regard to whether the payments are calculated by reference to a "specified index" described in § 1.446-3(c)(2). Accordingly, a hedge does not have a significant investment element under this paragraph (h)(2)(ii)(A) solely because an issuer receives payments pursuant to the terms of a hedge that are computed to be equal to the issuer's cost of funds, such as the issuer's actual market-based tax-exempt variable interest rate on its bonds.

(B) *Special level payment rule for interest rate caps.* An interest rate cap does not contain a significant investment element if—

(I) All payments to the issuer by the hedge provider are periodic payments;

(2) The issuer makes payments for the cap at the same time as periodic payments by the hedge provider must

be made if the specified index (within the meaning of § 1.446-3) of the cap is above the strike price of the cap; and

(3) Each payment by the issuer bears the same ratio to the notional principal amount (within the meaning of § 1.446-3) that is used to compute the hedge provider's payment, if any, on that date.

(iii) *Parties.* The contract is entered into between the issuer or the political subdivision on behalf of which the issuer issues the bonds (collectively referred to in this paragraph (h) as the *issuer*) and a provider that is not a related party (the *hedge provider*).

(iv) *Hedged bonds.* The contract covers, in whole or in part, all of one or more groups of substantially identical bonds in the issue (*i.e.*, all of the bonds having the same interest rate, maturity, and terms). Thus, for example, a qualified hedge may include a hedge of all or a pro rata portion of each interest payment on the variable rate bonds in an issue for the first 5 years following their issuance. For purposes of this paragraph (h), unless the context clearly requires otherwise, *hedged bonds* means the specific bonds or portions thereof covered by a hedge.

(v) *Interest-based contract and size and scope of hedge.* The contract is primarily interest-based (for example, a hedge based on a debt index, including a tax-exempt debt index or a taxable debt index, rather than an equity index). In addition, the size and scope of the hedge under the contract is limited to that which is reasonably necessary to hedge the issuer's risk with respect to interest rate changes on the hedged bonds. For example, a contract is limited to hedging an issuer's risk with respect to interest rate changes on the hedged bonds if the hedge is based on the principal amount and the reasonably expected interest payments of the hedged bonds. For anticipatory hedges under paragraph (h)(5) of this section, the size and scope limitation applies based on the reasonably expected terms of the hedged bonds to be issued. A contract is not primarily interest based unless—

(A) The hedged bond, without regard to the contract, is either a fixed rate bond, a variable rate debt instrument

within the meaning of § 1.1275-5 provided the rate is not based on an objective rate other than a qualified inverse floating rate or a qualified inflation rate, a tax-exempt obligation described in § 1.1275-4(d)(2), or an inflation-indexed debt instrument within the meaning of § 1.1275-7; and

(B) As a result of treating all payments on (and receipts from) the contract as additional payments on (and receipts from) the hedged bond, the resulting bond would be substantially similar to either a fixed rate bond, a variable rate debt instrument within the meaning of § 1.1275-5 provided the rate is not based on an objective rate other than a qualified inverse floating rate or a qualified inflation rate, a tax-exempt obligation described in § 1.1275-4(d)(2), or an inflation-indexed debt instrument within the meaning of § 1.1275-7. For this purpose, differences that would not prevent the resulting bond from being substantially similar to another type of bond include: a difference between the interest rate used to compute payments on the hedged bond and the interest rate used to compute payments on the hedge where one interest rate is substantially similar to the other; the difference resulting from the payment of a fixed premium for a cap (for example, payments for a cap that are made in other than level installments); and the difference resulting from the allocation of a termination payment where the termination was not expected as of the date the contract was entered into.

(vi) *Payments closely correspond.* The payments received by the issuer from the hedge provider under the contract correspond closely in time to either the specific payments being hedged on the hedged bonds or specific payments required to be made pursuant to the bond documents, regardless of the hedge, to a sinking fund, debt service fund, or similar fund maintained for the issue of which the hedged bond is a part. For this purpose, such payments will be treated as corresponding closely in time under this paragraph (h)(2)(vi) if they are made within 90 calendar days of each other.

(vii) *Source of payments.* Payments to the hedge provider are reasonably expected to be made from the same

source of funds that, absent the hedge, would be reasonably expected to be used to pay principal and interest on the hedged bonds.

(viii) *Identification—(A) In general.* The actual issuer must identify the contract on its books and records maintained for the hedged bonds not later than 15 calendar days after the date on which there is a binding agreement to enter into a hedge contract (for example, the date of a hedge pricing confirmation, as distinguished from the closing date for the hedge or start date for payments on the hedge, if different). The identification must specify the name of the hedge provider, the terms of the contract, the hedged bonds, and include a hedge provider's certification as described in paragraph (h)(2)(viii)(B) of this section. The identification must contain sufficient detail to establish that the requirements of this paragraph (h)(2) and, if applicable, paragraph (h)(4) of this section are satisfied. In addition, the existence of the hedge must be noted on the first form relating to the issue of which the hedged bonds are a part that is filed with the Internal Revenue Service on or after the date on which the contract is identified pursuant to this paragraph (h)(2)(viii).

(B) *Hedge provider's certification.* The hedge provider's certification must—

(1) Provide that the terms of the hedge were agreed to between a willing buyer and willing seller in a bona fide, arm's-length transaction;

(2) Provide that the hedge provider has not made, and does not expect to make, any payment to any third party for the benefit of the issuer in connection with the hedge, except for any such third-party payment that the hedge provider expressly identifies in the documents for the hedge;

(3) Provide that the amounts payable to the hedge provider pursuant to the hedge do not include any payments for underwriting or other services unrelated to the hedge provider's obligations under the hedge, except for any such payment that the hedge provider expressly identifies in the documents for the hedge; and

(4) Contain any other statements that the Commissioner may provide in

guidance published in the Internal Revenue Bulletin. See § 601.601(d)(2)(ii) of this chapter.

(3) *Accounting for qualified hedges*—(i) *In general.* Except as otherwise provided in paragraph (h)(4) of this section, payments made or received by the issuer under a qualified hedge are treated as payments made or received, as appropriate, on the hedged bonds that are taken into account in determining the yield on those bonds. These payments are reasonably allocated to the hedged bonds in the period to which the payments relate, as determined under paragraph (h)(3)(iii) of this section. Payments made or received by the issuer include payments deemed made or received when a contract is terminated or deemed terminated under this paragraph (h)(3). Payments reasonably allocable to the modification of risk of interest rate changes and to the hedge provider's overhead under this paragraph (h) are included as payments made or received under a qualified hedge.

(ii) *Exclusions from hedge.* If any payment for services or other items under the contract is not expressly treated by paragraph (h)(3)(i) of this section as a payment under the qualified hedge, the payment is not a payment with respect to a qualified hedge.

(iii) *Timing and allocation of payments.* Except as provided in paragraphs (h)(3)(iv) and (h)(5) of this section, payments made or received by the issuer under a qualified hedge are taken into account in the same period in which those amounts would be treated as income or deductions under § 1.446-4 (without regard to § 1.446-4(a)(2)(iv)) and are adjusted as necessary to reflect the end of a computation period and the start of a new computation period.

(iv) *Accounting for modifications and terminations*—(A) *Modification defined.* A modification of a qualified hedge includes, without limitation, a change in the terms of the hedge or an issuer's acquisition of another hedge with terms that have the effect of modifying an issuer's risk of interest rate changes or other terms of an existing qualified hedge. For example, if the issuer enters into a qualified hedge that is an interest rate swap under which it receives payments based on the Securities In-

dustry and Financial Market Association (SIFMA) Municipal Swap Index and subsequently enters a second hedge (with the same or different provider) that limits the issuer's exposure under the existing qualified hedge to variations in the SIFMA Municipal Swap Index, the new hedge modifies the qualified hedge.

(B) *Termination defined.* A termination means either an actual termination or a deemed termination of a qualified hedge. Except as otherwise provided, an actual termination of a qualified hedge occurs to the extent that the issuer sells, disposes of, or otherwise actually terminates all or a portion of the hedge. A deemed termination of a qualified hedge occurs if the hedge ceases to meet the requirements for a qualified hedge; the issuer makes a modification (as defined in paragraph (h)(3)(iv)(A) of this section) that is material either in kind or in extent and, therefore, results in a deemed exchange of the hedge and a realization event to the issuer under section 1001; or the issuer redeems all or a portion of the hedged bonds.

(C) *Special rules for certain modifications when the hedge remains qualified.* A modification of a qualified hedge that otherwise would result in a deemed termination under paragraph (h)(3)(iv)(B) of this section does not result in such a termination if the modified hedge is retested for qualification as a qualified hedge as of the date of the modification, the modified hedge meets the requirements for a qualified hedge as of such date, and the modified hedge is treated as a qualified hedge prospectively in determining the yield on the hedged bonds. For purposes of this paragraph (h)(3)(iv)(C), when determining whether the modified hedge is qualified, the fact that the existing qualified hedge is off-market as of the date of the modification is disregarded and the identification requirement in paragraph (h)(2)(viii) of this section applies by measuring the time period for identification from the date of the modification and without regard to the requirement for a hedge provider's certification.

(D) *Continuations of certain qualified hedges in refundings.* If hedged bonds

are redeemed using proceeds of a refunding issue, the qualified hedge for the refunded bonds is not actually terminated, and the hedge meets the requirements for a qualified hedge for the refunding bonds as of the issue date of the refunding bonds, then no termination of the hedge occurs and the hedge instead is treated as a qualified hedge for the refunding bonds. For purposes of this paragraph (h)(3)(iv)(D), when determining whether the hedge is a qualified hedge for the refunding bonds, the fact that the hedge is off-market with respect to the refunding bonds as of the issue date of the refunding bonds is disregarded and the identification requirement in paragraph (h)(2)(viii) of this section applies by measuring the time period for identification from the issue date of the refunding bonds and without regard to the requirement for a hedge provider's certification.

(E) *General allocation rules for hedge termination payments.* Except as otherwise provided in paragraphs (h)(3)(iv)(F), (G), and (H) of this section, a payment made or received by an issuer to terminate a qualified hedge, or a payment deemed made or received for a deemed termination, is treated as a payment made or received, as appropriate, on the hedged bonds. Upon an actual termination or a deemed termination of a qualified hedge, the amount that an issuer may treat as a termination payment made or received on the hedged bonds is the fair market value of the qualified hedge on its termination date, based on all of the facts and circumstances. Except as otherwise provided, a termination payment is reasonably allocated to the remaining periods originally covered by the terminated hedge in a manner that reflects the economic substance of the hedge.

(F) *Special rule for terminations when bonds are redeemed.* Except as otherwise provided in this paragraph (h)(3)(iv)(F) and in paragraph (h)(3)(iv)(G) of this section, when a qualified hedge is deemed terminated because the hedged bonds are redeemed, the termination payment as determined under paragraph (h)(3)(iv)(E) of this section is treated as made or received on that date. When hedged bonds are redeemed,

any payment received by the issuer on termination of a hedge, including a termination payment or a deemed termination payment, reduces, but not below zero, the interest payments made by the issuer on the hedged bonds in the computation period ending on the termination date. The remainder of the payment, if any, is reasonably allocated over the bond years in the immediately preceding computation period or periods to the extent necessary to eliminate the excess.

(G) *Special rules for refundings.* When there is a termination of a qualified hedge because there is a refunding of the hedged bonds, to the extent that the hedged bonds are redeemed using the proceeds of a refunding issue, the termination payment is accounted for under paragraph (h)(3)(iv)(E) of this section by treating it as a payment on the refunding issue, rather than the hedged bonds. In addition, to the extent that the refunding issue is redeemed during the period to which the termination payment has been allocated to that issue, paragraph (h)(3)(iv)(F) of this section applies to the termination payment by treating it as a payment on the redeemed refunding issue.

(H) *Safe harbor for allocation of certain termination payments.* A payment to terminate a qualified hedge does not result in that hedge failing to satisfy the applicable provisions of paragraph (h)(3)(iv)(E) of this section if that payment is allocated in accordance with this paragraph (h)(3)(iv)(H). For an issue that is a variable yield issue after termination of a qualified hedge, an amount must be allocated to each date on which the hedge provider's payment, if any, would have been made had the hedge not been terminated. The amounts allocated to each date must bear the same ratio to the notional principal amount (within the meaning of § 1.446-3) that would have been used to compute the hedge provider's payment, if any, on that date, and the sum of the present values of those amounts must equal the present value of the termination payment. Present value is computed as of the day the qualified hedge is terminated, using the yield on the hedged bonds,

determined without regard to the termination payment. The yield used for this purpose is computed for the period beginning on the first date the qualified hedge is in effect and ending on the date the qualified hedge is terminated. On the other hand, for an issue that is a fixed yield issue after termination of a qualified hedge, the termination payment is taken into account as a single payment on the date it is paid.

(4) *Certain variable yield bonds treated as fixed yield bonds*—(i) *In general.* Except as otherwise provided in this paragraph (h)(4), if the issuer of variable yield bonds enters into a qualified hedge, the hedged bonds are treated as fixed yield bonds paying a fixed interest rate if:

(A) *Maturity.* The term of the hedge is equal to the entire period during which the hedged bonds bear interest at variable interest rates, and the issuer does not reasonably expect that the hedge will be terminated before the end of that period.

(B) *Payments closely correspond.* Payments to be received under the hedge correspond closely in time to the hedged portion of payments on the hedged bonds. Hedge payments received within 15 days of the related payments on the hedged bonds generally so correspond.

(C) *Aggregate payments fixed.* Taking into account all payments made and received under the hedge and all payments on the hedged bonds (*i.e.*, after netting all payments), the issuer's aggregate payments are fixed and determinable as of a date not later than 15 days after the issue date of the hedged bonds. Payments on bonds are treated as fixed for purposes of this paragraph (h)(4)(i)(C) if payments on the bonds are based, in whole or in part, on one interest rate, payments on the hedge are based, in whole or in part, on a second interest rate that is substantially the same as, but not identical to, the first interest rate and payments on the bonds would be fixed if the two rates were identical. Rates are treated as substantially the same if they are reasonably expected to be substantially the same throughout the term of the hedge. For example, an objective 30-day tax-exempt variable rate index or other objective index may be substan-

tially the same as an issuer's individual 30-day interest rate. A hedge based on a taxable interest rate or taxable interest index cannot meet the requirements of this paragraph (h)(4)(i)(C) unless either—

(1) The hedge is an anticipatory hedge that is terminated or otherwise closed substantially contemporaneously with the issuance of the hedged bond in accordance with paragraph (h)(5)(ii) or (iii) of this section; or

(2) The issuer's payments on the hedged bonds and the hedge provider's payments on the hedge are based on identical interest rates.

(ii) *Accounting.* Except as otherwise provided in this paragraph (h)(4)(ii), in determining yield on the hedged bonds, all the issuer's payments on the hedged bonds and all payments made and received on a hedge described in paragraph (h)(4)(i) of this section are taken into account. If payments on the bonds and payments on the hedge are based, in whole or in part, on variable interest rates that are substantially the same within the meaning of paragraph (h)(4)(i)(C) of this section (but not identical), yield on the issue is determined by treating the variable interest rates as identical. For example, if variable rate bonds bearing interest at a weekly rate equal to the rate necessary to remarket the bonds at par are hedged with an interest rate swap under which the issuer receives payments based on a short-term floating rate index that is substantially the same as, but not identical to, the weekly rate on the bonds, the interest payments on the bonds are treated as equal to the payments received by the issuer under the swap for purposes of computing the yield on the bonds.

(iii) *Effect of termination*—(A) *In general.* Except as otherwise provided in this paragraph (h)(4)(iii) and paragraph (h)(5) of this section, the issue of which the hedged bonds are a part is treated as if it were reissued as of the termination date of the qualified hedge covered by paragraph (h)(4)(i) of this section in determining yield on the hedged bonds for purposes of § 1.148-3. The redemption price of the retired issue and the issue price of the new issue equal the aggregate values of all the bonds of

the issue on the termination date. In computing the yield on the new issue for this purpose, any termination payment is accounted for under paragraph (h)(3)(iv) of this section, applied by treating the termination payment as made or received on the new issue under this paragraph (h)(4)(iii).

(B) *Effect of early termination.* Except as otherwise provided in this paragraph (h)(4)(iii), the general rules of paragraph (h)(4)(i) of this section do not apply in determining the yield on the hedged bonds for purposes of § 1.148-3 if the hedge is terminated or deemed terminated within 5 years after the issue date of the issue of which the hedged bonds are a part. Thus, the hedged bonds are treated as variable yield bonds for purposes of § 1.148-3 from the issue date.

(C) *Certain terminations disregarded.* This paragraph (h)(4)(iii) does not apply to a termination if, based on the facts and circumstances (e.g., taking into account both the termination and any qualified hedge that immediately replaces the terminated hedge), there is no change in the yield.

(iv) *Consequences of certain modifications.* The special rules under paragraph (h)(4)(iii) of this section regarding the effects of termination of a qualified hedge of fixed yield hedged bonds apply to a modification described in paragraph (h)(3)(iv)(C) of this section. Thus, such a modification is treated as a termination for purposes of paragraph (h)(4)(iii) of this section unless the rule in paragraph (h)(4)(iii)(C) applies.

(5) *Contracts entered into before issue date of hedged bond—(i) In general.* A contract does not fail to be a hedge under paragraph (h)(2)(i) of this section solely because it is entered into before the issue date of the hedged bond. However, that contract must be one to which either paragraph (h)(5)(ii) or (h)(5)(iii) of this section applies.

(ii) *Contracts expected to be closed substantially contemporaneously with the issue date of hedged bond—(A) Application.* This paragraph (h)(5)(ii) applies to a contract if, on the date the contract is identified, the issuer reasonably expects to terminate or otherwise close (terminate) the contract substantially

contemporaneously with the issue date of the hedged bond.

(B) *Contract terminated.* If a contract to which this paragraph (h)(5)(ii) applies is terminated substantially contemporaneously with the issue date of the hedged bond, the amount paid or received, or deemed to be paid or received, by the issuer in connection with the issuance of the hedged bond to terminate the contract is treated as an adjustment to the issue price of the hedged bond and as an adjustment to the sale proceeds of the hedged bond for purposes of section 148. Amounts paid or received, or deemed to be paid or received, before the issue date of the hedged bond are treated as paid or received on the issue date in an amount equal to the future value of the payment or receipt on that date. For this purpose, future value is computed using yield on the hedged bond without taking into account amounts paid or received (or deemed paid or received) on the contract.

(C) *Contract not terminated.* If a contract to which this paragraph (h)(5)(ii) applies is not terminated substantially contemporaneously with the issue date of the hedged bond, the contract is deemed terminated for its fair market value as of the issue date of the hedged bond. Once a contract has been deemed terminated pursuant to this paragraph (h)(5)(ii)(C), payments on and receipts from the contract are no longer taken into account under this paragraph (h) for purposes of determining yield on the hedged bond.

(D) *Relation to other requirements of a qualified hedge.* Payments made in connection with the issuance of a bond to terminate a contract to which this paragraph (h)(5)(ii) applies do not prevent the contract from satisfying the requirements of paragraph (h)(2)(vi) of this section.

(E) *Fixed yield treatment.* A bond that is hedged with a contract to which this paragraph (h)(5)(ii) applies does not fail to be a fixed yield bond if, taking into account payments on the contract and the payments to be made on the bond, the bond satisfies the definition of fixed yield bond. See also paragraph (h)(4) of this section.

(iii) *Contracts expected not to be closed substantially contemporaneously with the*

issue date of hedged bond—(A) *Application*. This paragraph (h)(5)(iii) applies to a contract if, on the date the contract is identified, the issuer does not reasonably expect to terminate the contract substantially contemporaneously with the issue date of the hedged bond.

(B) *Contract terminated*. If a contract to which this paragraph (h)(5)(iii) applies is terminated in connection with the issuance of the hedged bond, the amount paid or received, or deemed to be paid or received, by the issuer to terminate the contract is treated as an adjustment to the issue price of the hedged bond and as an adjustment to the sale proceeds of the hedged bond for purposes of section 148.

(C) *Contract not terminated*. If a contract to which this paragraph (h)(5)(iii) applies is not terminated substantially contemporaneously with the issue date of the hedged bond, no payments with respect to the hedge made by the issuer before the issue date of the hedged bond are taken into account under this section.

(iv) *Identification*. The identification required under paragraph (h)(2)(viii) of this section must specify the reasonably expected governmental purpose, issue price, maturity, and issue date of the hedged bond, the manner in which interest is reasonably expected to be computed, and whether paragraph (h)(5)(ii) or (h)(5)(iii) of this section applies to the contract. If an issuer identifies a contract under this paragraph (h)(5)(iv) that would be a qualified hedge with respect to the anticipated bond, but does not issue the anticipated bond on the identified issue date, the contract is taken into account as a qualified hedge of any bond of the issuer that is issued for the identified governmental purpose within a reasonable interval around the identified issue date of the anticipated bond.

(6) *Authority of the Commissioner*. The Commissioner, by publication of a revenue ruling or revenue procedure (see § 601.601(d)(2) of this chapter), may specify contracts that, although they do not meet the requirements of paragraph (h)(2) of this section, are qualified hedges or, although they do not meet the requirements of paragraph (h)(4) of this section, cause the hedged

bonds to be treated as fixed yield bonds.

[T.D. 8476, 58 FR 33524, June 18, 1993; 58 FR 44452, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24042, May 10, 1994; T.D. 8718, 62 FR 25507, May 9, 1997; T.D. 8838, 64 FR 48547, Sept. 7, 1999; T.D. 9777, 81 FR 46593, July 18, 2016; 83 FR 14175, Apr. 3, 2018]

§ 1.148-5 Yield and valuation of investments.

(a) *In general*. This section provides rules for computing the yield and value of investments allocated to an issue for various purposes under section 148.

(b) *Yield on an investment*—(1) *In general*. Except as otherwise provided, the yield on an investment allocated to an issue is computed under the economic accrual method, using the same compounding interval and financial conventions used to compute the yield on the issue. The yield on an investment allocated to an issue is the discount rate that, when used in computing the present value as of the date the investment is first allocated to the issue of all unconditionally payable receipts from the investment, produces an amount equal to the present value of all unconditionally payable payments for the investment. For this purpose, *payments* means amounts to be actually or constructively paid to acquire the investment, and *receipts* means amounts to be actually or constructively received from the investment, such as earnings and return of principal. The yield on a variable rate investment is determined in a manner comparable to the determination of the yield on a variable rate issue. For an issue of qualified mortgage bonds, qualified veterans' mortgage bonds, or qualified student loan bonds on which interest is paid semiannually, all regular monthly loan payments to be received during a semiannual debt service period may be treated as received at the end of that period. In addition, for any conduit financing issue, payments made by the conduit borrower are not treated as paid until the conduit borrower ceases to receive the benefit of earnings on those amounts.

(2) *Yield on a separate class of investments*—(i) *In general*. For purposes of the yield restriction rules of section 148(a) and § 1.148-2, yield is computed

separately for each class of investments. For this purpose, in determining the yield on a separate class of investments, the yield on each individual investment within the class is blended with the yield on other individual investments within the class, whether or not held concurrently, by treating those investments as a single investment. The yields on investments that are not within the same class are not blended.

(ii) *Separate classes of investments.* Each of the following is a separate class of investments—

(A) Each category of yield restricted purpose investment and program investment that is subject to a different definition of *materially higher* under § 1.148-2(d)(2);

(B) Yield-restricted nonpurpose investments; and

(C) All other nonpurpose investments;

(iii) *Permissive application of single investment rules to certain yield restricted investments for all purposes of section 148.* For all purposes of section 148, if an issuer reasonably expects as of the issue date to establish and maintain a sinking fund solely to reduce the yield on the investments in a refunding escrow, then the issuer may treat all of the yield restricted nonpurpose investments in the refunding escrow and that sinking fund as a single investment having a single yield, determined under this paragraph (b)(2). Thus, an issuer may not treat the nonpurpose investments in a reasonably required reserve fund and a refunding escrow as a single investment having a single yield under this paragraph (b)(2)(iii).

(iv) *Mandatory application of single investment rules for refunding escrows for all purposes of section 148.* For all purposes of section 148, in computing the yield on yield restricted investments allocable to proceeds (*i.e.*, sale proceeds, investment proceeds, and transferred proceeds) of a refunding issue that are held in one or more refunding escrows, the individual investments are treated as a single investment having a single yield, whether or not held concurrently. For example, this single investment includes both the individual investments allocable to sale and investment proceeds of a refunding issue

that are held in one refunding escrow for a prior issue and the investments allocable to transferred proceeds of that refunding issue that are held in another refunding escrow.

(3) *Investments to be held beyond issue's maturity or beyond temporary period.* In computing the yield on investments allocable to an issue that are to be held beyond the reasonably expected redemption date of the issue, those investments are treated as sold for an amount equal to their value on that date. In computing the yield on investments that are held beyond an applicable temporary period under § 1.148-2, for purposes of § 1.148-2 those investments may be treated as purchased for an amount equal to their fair market value as of the end of the temporary period.

(4) *Consistent redemption assumptions on purpose investments.* The yield on purpose investments allocable to an issue is computed using the same redemption assumptions used to compute the yield on the issue. Yield on purpose investments allocable to an issue of qualified mortgage bonds and qualified veterans' mortgage bonds must be determined in a manner that is consistent with, and using the assumptions required by, section 143(g)(2)(B).

(5) *Student loan special allowance payments included in yield.* Except as provided in § 1.148-11(e), the yield on qualified student loans is computed by including as receipts any special allowance payments made by the Secretary of Education pursuant to section 438 of the Higher Education Act of 1965.

(c) *Yield reduction payments to the United States—(1) In general.* In determining the yield on an investment to which this paragraph (c) applies, any amount paid to the United States in accordance with this paragraph (c), including a rebate amount, is treated as a payment for that investment that reduces the yield on that investment.

(2) *Manner of payment—(i) In general.* Except as otherwise provided in paragraph (c)(2)(ii) of this section, an amount is paid under this paragraph (c) if it is paid to the United States at the same time and in the same manner as rebate amounts are required to be paid

or at such other time or in such manner as the Commissioner may prescribe. For example, yield reduction payments must be made on or before the date of required rebate installment payments as described in §§1.148-3(f), (g), and (h). The provisions of §1.148-3(i) apply to payments made under this paragraph (c).

(ii) *Special rule for purpose investments.* For purpose investments allocable to an issue—

(A) No amounts are required to be paid to satisfy this paragraph (c) until the earlier of the end of the tenth bond year after the issue date of the issue or 60 days after the date on which the issue is no longer outstanding; and

(B) For payments made prior to the date on which the issue is retired, the issuer need not pay more than 75 percent of the amount otherwise required to be paid as of the date to which the payment relates.

(3) *Applicability of special yield reduction rule.* Paragraph (c) applies only to investments that are described in at least one of paragraphs (c)(3)(i) through (ix) of this section and, except as otherwise expressly provided in paragraphs (c)(3)(i) through (ix) of this section, that are allocated to proceeds of an issue other than gross proceeds of an advance refunding issue.

(i) *Nonpurpose investments allocated to proceeds of an issue that qualified for certain temporary periods.* Nonpurpose investments allocable to proceeds of an issue that qualified for one of the temporary periods available for capital projects, working capital expenditures, pooled financings, or investment proceeds under §1.148-2(e)(2), (3), (4), or (6), respectively.

(ii) *Investments allocable to certain variable yield issues.* Investments allocable to a variable yield issue during any computation period in which at least 5 percent of the value of the issue is represented by variable yield bonds, unless the issue is an issue of hedge bonds (as defined in section 149(g)(3)(A)).

(iii) *Nonpurpose investments allocable to certain transferred proceeds.* Nonpurpose investments allocable to transferred proceeds of—

(A) A current refunding issue to the extent necessary to reduce the yield on

those investments to satisfy yield restrictions under section 148(a); or

(B) An advance refunding issue to the extent that investment of the refunding escrows allocable to the proceeds, other than transferred proceeds, of the refunding issue in zero-yielding nonpurpose investments is insufficient to satisfy yield restrictions under section 148(a).

(iv) *Purpose investments allocable to qualified student loans and qualified mortgage loans.* Purpose investments allocable to qualified student loans and qualified mortgage loans.

(v) *Nonpurpose investments allocable to gross proceeds in certain reserve funds.* Nonpurpose investments allocable to gross proceeds of an issue in a reasonably required reserve or replacement fund or a fund that, except for its failure to satisfy the size limitation in §1.148-2(f)(2)(ii), would qualify as a reasonably required reserve or replacement fund, but only to the extent the requirements in paragraphs (c)(3)(v)(A) or (B) of this section are met. This paragraph (c)(3)(v) includes nonpurpose investments described in this paragraph that are allocable to transferred proceeds of an advance refunding issue, but only to the extent necessary to satisfy yield restriction under section 148(a) on those proceeds treating all investments allocable to those proceeds as a separate class.

(A) The value of the nonpurpose investments in the fund is not greater than 15 percent of the stated principal amount of the issue, as computed under §1.148-2(f)(2)(ii).

(B) The amounts in the fund (other than investment earnings) are not reasonably expected to be used to pay debt service on the issue other than in connection with reductions in the amount required to be in that fund (for example, a reserve fund for a revolving fund loan program).

(vi) *Nonpurpose investments allocable to certain replacement proceeds of refunded issues.* Nonpurpose investments allocated to replacement proceeds of a refunded issue, including a refunded issue that is an advance refunding issue, as a result of the application of the universal cap to amounts in a refunding escrow.

(vii) *Investments allocable to replacement proceeds under a certain transition rule.* Investments described in § 1.148-11(f).

(viii) *Nonpurpose investments allocable to proceeds when State and Local Government Series Securities are unavailable.* Nonpurpose investments allocable to proceeds of an issue, including an advance refunding issue, that an issuer purchases if, on the date the issuer enters into the agreement to purchase such investments, the issuer is unable to subscribe for State and Local Government Series Securities because the U.S. Department of the Treasury, Bureau of the Fiscal Service, has suspended sales of those securities.

(ix) *Nonpurpose investments allocable to proceeds of certain variable yield advance refunding issues.* Nonpurpose investments allocable to proceeds of the portion of a variable yield issue used for advance refunding purposes that are deposited in a yield restricted defeasance escrow if—

(A) The issuer has entered into a qualified hedge under § 1.148-4(h)(2) with respect to all of the variable yield bonds of the issue allocable to the yield restricted defeasance escrow and that hedge is in the form of a variable-to-fixed interest rate swap under which the issuer pays the hedge provider a fixed interest rate and receives from the hedge provider a floating interest rate;

(B) Such qualified hedge covers a period beginning on the issue date of the hedged bonds and ending on or after the date on which the final payment is to be made from the yield restricted defeasance escrow; and

(C) The issuer restricts the yield on the yield restricted defeasance escrow to a yield that is not greater than the yield on the issue, determined by taking into account the issuer's fixed payments to be made under the hedge and by assuming that the issuer's variable yield payments to be paid on the hedged bonds are equal to the floating payments to be received by the issuer under the qualified hedge and are paid on the same dates (that is, such yield reduction payments can only be made to address basis risk differences between the variable yield payments on

the hedged bonds and the floating payments received on the hedge).

(d) *Value of investments—(1) In general.* Except as otherwise provided, the value of an investment (including a payment or receipt on the investment) on a date must be determined using one of the following valuation methods consistently for all purposes of section 148 to that investment on that date:

(i) *Plain par investment—outstanding principal amount.* A plain par investment may be valued at its outstanding stated principal amount, plus any accrued unpaid interest on that date.

(ii) *Fixed rate investment—present value.* A fixed rate investment may be valued at its present value on that date.

(iii) *Any investment—fair market value.* An investment may be valued at its fair market value on that date.

(2) *Mandatory valuation of certain yield restricted investments at present value.* A purpose investment must be valued at present value, and except as otherwise provided in paragraphs (b)(3) and (d)(3) of this section, a yield restricted nonpurpose investment must be valued at present value.

(3) *Mandatory valuation of certain investments at fair market value—(i) In general.* Except as otherwise provided in paragraphs (d)(3)(ii) and (d)(4) of this section, a nonpurpose investment must be valued at fair market value on the date that it is first allocated to an issue or first ceases to be allocated to an issue as a consequence of a deemed acquisition or deemed disposition. For example, if an issuer deposits existing nonpurpose investments into a sinking fund for an issue, those investments must be valued at fair market value as of the date first deposited into the fund.

(ii) *Exception to fair market value requirement for transferred proceeds allocations, certain universal cap allocations, and commingled funds.* Paragraph (d)(3)(i) of this section does not apply if the investment is allocated from one issue to another as a result of the transferred proceeds allocation rule under § 1.148-9(b) or is deallocated from one issue as a result of the universal cap rule under § 1.148-6(b)(2) and reallocated to another issue as a result of a preexisting pledge of the investment to

secure that other issue, provided that, in either circumstance (that is, transferred proceeds allocations or universal cap deallocations), the issue from which the investment is allocated (that is, the first issue in an allocation from one issue to another issue) consists of tax-exempt bonds. In addition, paragraph (d)(3)(i) of this section does not apply to investments in a commingled fund (other than a bona fide debt service fund) unless it is an investment being initially deposited in or withdrawn from a commingled fund described in § 1.148-6(e)(5)(iii).

(4) *Special transition rule for transferred proceeds.* The value of a nonpurpose investment that is allocated to transferred proceeds of a refunding issue on a transfer date may not exceed the value of that investment on the transfer date used for purposes of applying the arbitrage restrictions to the refunded issue.

(5) *Definition of present value of an investment.* Except as otherwise provided, present value of an investment is computed under the economic accrual method, using the same compounding interval and financial conventions used to compute the yield on the issue. The present value of an investment on a date is equal to the present value of all unconditionally payable receipts to be received from and payments to be paid for the investment after that date, using the yield on the investment as the discount rate.

(6) *Definition of fair market value—(i) In general.* The fair market value of an investment is the price at which a willing buyer would purchase the investment from a willing seller in a bona fide, arm's-length transaction. Fair market value generally is determined on the date on which a contract to purchase or sell the nonpurpose investment becomes binding (*i.e.*, the trade date rather than the settlement date). Except as otherwise provided in this paragraph (d)(6), an investment that is not of a type traded on an established securities market, within the meaning of section 1273, is rebuttably presumed to be acquired or disposed of for a price that is not equal to its fair market value. On the purchase date, the fair market value of a United States Treasury obligation that is purchased di-

rectly from the United States Treasury, including a State and Local Government Series Security, is its purchase price. The fair market value of a State and Local Government Series Security on any date other than the purchase date is the redemption price for redemption on that date.

(ii) *Safe harbor for establishing fair market value for certificates of deposit.* This paragraph (d)(6)(ii) applies to a certificate of deposit that has a fixed interest rate, a fixed payment schedule, and a substantial penalty for early withdrawal. The purchase price of such a certificate of deposit is treated as its fair market value on the purchase date if the yield on the certificate of deposit is not less than—

(A) The yield on reasonably comparable direct obligations of the United States; and

(B) The highest yield that is published or posted by the provider to be currently available from the provider on reasonably comparable certificates of deposit offered to the public.

(iii) *Safe harbor for establishing fair market value for guaranteed investment contracts and investments purchased for a yield restricted defeasance escrow.* The purchase price of a guaranteed investment contract and the purchase price of an investment purchased for a yield restricted defeasance escrow will be treated as the fair market value of the investment on the purchase date if all of the following requirements are satisfied:

(A) The issuer makes a bona fide solicitation for the purchase of the investment. A bona fide solicitation is a solicitation that satisfies all of the following requirements:

(1) The bid specifications are in writing and are timely disseminated to potential providers. For purposes of this paragraph (d)(6)(iii)(A)(1), a writing may be in electronic form and may be disseminated by fax, email, an internet-based Web site, or other electronic medium that is similar to an internet-based Web site and regularly used to post bid specifications.

(2) The bid specifications include all material terms of the bid. A term is material if it may directly or indirectly affect the yield or the cost of the investment.

(3) The bid specifications include a statement notifying potential providers that submission of a bid is a representation that the potential provider did not consult with any other potential provider about its bid, that the bid was determined without regard to any other formal or informal agreement that the potential provider has with the issuer or any other person (whether or not in connection with the bond issue), and that the bid is not being submitted solely as a courtesy to the issuer or any other person for purposes of satisfying the requirements of paragraph (d)(6)(iii)(B)(I) or (2) of this section.

(4) The terms of the bid specifications are commercially reasonable. A term is commercially reasonable if there is a legitimate business purpose for the term other than to increase the purchase price or reduce the yield of the investment. For example, for solicitations of investments for a yield restricted defeasance escrow, the hold firm period must be no longer than the issuer reasonably requires.

(5) For purchases of guaranteed investment contracts only, the terms of the solicitation take into account the issuer's reasonably expected deposit and drawdown schedule for the amounts to be invested.

(6) All potential providers have an equal opportunity to bid. If the bidding process affords any opportunity for a potential provider to review other bids before providing a bid, then providers have an equal opportunity to bid only if all potential providers have an equal opportunity to review other bids. Thus, no potential provider may be given an opportunity to review other bids that is not equally given to all potential providers (that is, no exclusive "last look").

(7) At least three reasonably competitive providers are solicited for bids. A reasonably competitive provider is a provider that has an established industry reputation as a competitive provider of the type of investments being purchased.

(B) The bids received by the issuer meet all of the following requirements:

(1) The issuer receives at least three bids from providers that the issuer solicited under a bona fide solicitation

meeting the requirements of paragraph (d)(6)(iii)(A) of this section and that do not have a material financial interest in the issue. A lead underwriter in a negotiated underwriting transaction is deemed to have a material financial interest in the issue until 15 days after the issue date of the issue. In addition, any entity acting as a financial advisor with respect to the purchase of the investment at the time the bid specifications are forwarded to potential providers has a material financial interest in the issue. A provider that is a related party to a provider that has a material financial interest in the issue is deemed to have a material financial interest in the issue.

(2) At least one of the three bids described in paragraph (d)(6)(iii)(B)(I) of this section is from a reasonably competitive provider, within the meaning of paragraph (d)(6)(iii)(A)(7) of this section.

(3) If the issuer uses an agent to conduct the bidding process, the agent did not bid to provide the investment.

(C) The winning bid meets the following requirements:

(1) *Guaranteed investment contracts.* If the investment is a guaranteed investment contract, the winning bid is the highest yielding bona fide bid (determined net of any broker's fees).

(2) *Other investments.* If the investment is not a guaranteed investment contract, the following requirements are met:

(i) The winning bid is the lowest cost bona fide bid (including any broker's fees). The lowest cost bid is either the lowest cost bid for the portfolio or, if the issuer compares the bids on an investment-by-investment basis, the aggregate cost of a portfolio comprised of the lowest cost bid for each investment. Any payment received by the issuer from a provider at the time a guaranteed investment contract is purchased (e.g., an escrow float contract) for a yield restricted defeasance escrow under a bidding procedure meeting the requirements of this paragraph (d)(6)(iii) is taken into account in determining the lowest cost bid.

(ii) The lowest cost bona fide bid (including any broker's fees) is not greater than the cost of the most efficient portfolio comprised exclusively of

State and Local Government Series Securities from the United States Department of the Treasury, Bureau of Public Debt. The cost of the most efficient portfolio of State and Local Government Series Securities is to be determined at the time that bids are required to be submitted pursuant to the terms of the bid specifications.

(iii) If State and Local Government Series Securities from the United States Department of the Treasury, Bureau of Public Debt are not available for purchase on the day that bids are required to be submitted pursuant to terms of the bid specifications because sales of those securities have been suspended, the cost comparison of paragraph (d)(6)(iii) (C)(2)(ii) of this section is not required.

(D) The provider of the investments or the obligor on the guaranteed investment contract certifies the administrative costs that it pays (or expects to pay, if any) to third parties in connection with supplying the investment.

(E) The issuer retains the following records with the bond documents until three years after the last outstanding bond is redeemed:

(1) For purchases of guaranteed investment contracts, a copy of the contract, and for purchases of investments other than guaranteed investment contracts, the purchase agreement or confirmation.

(2) The receipt or other record of the amount actually paid by the issuer for the investments, including a record of any administrative costs paid by the issuer, and the certification under paragraph (d)(6)(iii)(D) of this section.

(3) For each bid that is submitted, the name of the person and entity submitting the bid, the time and date of the bid, and the bid results.

(4) The bid solicitation form and, if the terms of the purchase agreement or the guaranteed investment contract deviated from the bid solicitation form or a submitted bid is modified, a brief statement explaining the deviation and stating the purpose for the deviation. For example, if the issuer purchases a portfolio of investments for a yield restricted defeasance escrow and, in order to satisfy the yield restriction requirements of section 148, an investment in the winning bid is replaced

with an investment with a lower yield, the issuer must retain a record of the substitution and how the price of the substitute investment was determined. If the issuer replaces an investment in the winning bid portfolio with another investment, the purchase price of the new investment is not covered by the safe harbor unless the investment is bid under a bidding procedure meeting the requirements of this paragraph (d)(6)(iii).

(5) For purchases of investments other than guaranteed investment contracts, the cost of the most efficient portfolio of State and Local Government Series Securities, determined at the time that the bids were required to be submitted pursuant to the terms of the bid specifications.

(e) *Administrative costs of investments—*

(1) *In general.* Except as otherwise provided in this paragraph (e), an allocation of gross proceeds of an issue to a payment or a receipt on an investment is not adjusted to take into account any costs or expenses paid, directly or indirectly, to purchase, carry, sell, or retire the investment (administrative costs). Thus, these administrative costs generally do not increase the payments for, or reduce the receipts from, investments.

(2) *Qualified administrative costs on nonpurpose investments—(i) In general.* In determining payments and receipts on nonpurpose investments, qualified administrative costs are taken into account. Thus, qualified administrative costs increase the payments for, or decrease the receipts from, the investments. Qualified administrative costs are reasonable, direct administrative costs, other than carrying costs, such as separately stated brokerage or selling commissions, but not legal and accounting fees, recordkeeping, custody, and similar costs. General overhead costs and similar indirect costs of the issuer such as employee salaries and office expenses and costs associated with computing the rebate amount under section 148(f) are not qualified administrative costs. In general, administrative costs are not reasonable unless they are comparable to administrative costs that would be charged for the same investment or a reasonably comparable investment if acquired with a

source of funds other than gross proceeds of tax-exempt bonds.

(ii) *Special rule for administrative costs of nonpurpose investments in certain regulated investment companies and commingled funds.* Qualified administrative costs include all reasonable administrative costs, without regard to the limitation on indirect costs under paragraph (e)(2)(i) of this section, incurred by:

(A) *Regulated investment companies.* A publicly offered regulated investment company (as defined in section 67(c)(2)(B)); and

(B) *External commingled funds.* A widely held commingled fund in which no investor in the fund owns more than 10 percent of the beneficial interest in the fund. For purposes of this paragraph (e)(2)(ii)(B), a fund is treated as widely held only if, during the immediately preceding fixed, semiannual period chosen by the fund (for example, semiannual periods ending June 30 and December 31), the fund had a daily average of more than 15 investors that were not related parties, and at least 16 of the unrelated investors each maintained a daily average amount invested in the fund that was not less than the lesser of \$500,000 and one percent (1%) of the daily average of the total amount invested in the fund (with it being understood that additional smaller investors will not disqualify the fund). For purposes of this paragraph (e)(2)(ii)(B), an investor will be treated as owning not more than 10 percent of the beneficial interest in the fund if, on the date of each deposit by the investor into the fund, the total amount the investor and any related parties have on deposit in the fund is not more than 10 percent of the total amount that all investors have on deposit in the fund. For purposes of the preceding sentence, the total amount that all investors have on deposit in the fund is equal to the sum of all deposits made by the investor and any related parties on the date of those deposits and the closing balance in the fund on the day before those deposits. If any investor in the fund owns more than 10 percent of the beneficial interest in the fund, the fund does not qualify under this paragraph (e)(2)(ii)(B) until that investor makes sufficient

withdrawals from the fund to reduce its beneficial interest in the fund to 10 percent or less.

(iii) *Special rule for guaranteed investment contracts and investments purchased for a yield restricted defeasance escrow—*
(A) *In general.* An amount paid for a broker's commission or similar fee with respect to a guaranteed investment contract or investments purchased for a yield restricted defeasance escrow is a qualified administrative cost if the fee is reasonable within the meaning of paragraph (e)(2)(i) of this section.

(B) *Safe harbor—*(1) *In general.* A broker's commission or similar fee with respect to the acquisition of a guaranteed investment contract or investments purchased for a yield restricted defeasance escrow is reasonable within the meaning of paragraph (e)(2)(i) of this section to the extent that—

(i) The amount of the fee that the issuer treats as a qualified administrative cost does not exceed the lesser of:

(A) \$30,000 and

(B) 0.2% of the computational base or, if more, \$3,000; and

(ii) For any issue, the issuer does not treat as qualified administrative costs more than \$85,000 in brokers' commissions or similar fees with respect to all guaranteed investment contracts and investments for yield restricted defeasance escrows purchased with gross proceeds of the issue.

(2) *Computational base.* For purposes of paragraph (e)(2)(iii)(B)(1) of this section, computational base shall mean—

(i) For a guaranteed investment contract, the amount of gross proceeds the issuer reasonably expects, as of the date the contract is acquired, to be deposited in the guaranteed investment contract over the term of the contract, and

(ii) For investments (other than guaranteed investment contracts) to be deposited in a yield restricted defeasance escrow, the amount of gross proceeds initially invested in those investments.

(3) *Cost-of-living adjustment.* In the case of a calendar year after 2004, each of the dollar amounts in paragraph (e)(2)(iii)(B)(1) of this section shall be increased by an amount equal to—

(i) Such dollar amount; multiplied by

(ii) The cost-of-living adjustment determined under section 1(f)(3) for such calendar year by using the language “calendar year 2003” instead of “calendar year 1992” in section 1(f)(3)(B).

(4) *Rounding.* If any increase determined under paragraph (e)(2)(iii)(B)(3) of this section is not a multiple of \$1,000, such increase shall be rounded to the nearest multiple thereof.

(5) *Applicable year for cost-of-living adjustment.* The cost-of-living adjustments under paragraph (e)(2)(iii)(B)(3) of this section shall apply to the safe harbor amounts under paragraph (e)(2)(iii)(B)(1) of this section based on the year the guaranteed investment contract or the investments for the yield restricted defeasance escrow, as applicable, are acquired.

(6) *Cost-of-living adjustment to determine remaining amount of per-issue safe harbor—(i) In general.* This paragraph (e)(2)(iii)(B)(6) applies to determine the portion of the safe harbor amount under paragraph (e)(2)(iii)(B)(1)(ii) of this section, as modified by paragraph (e)(2)(iii)(B)(3) of this section (the per-issue safe harbor), that is available (the remaining amount) for any year (the determination year) if the per-issue safe harbor was partially used in one or more prior years.

(ii) *Remaining amount of per-issue safe harbor.* The remaining amount of the per-issue safe harbor for any determination year is equal to the per-issue safe harbor for that year, reduced by the portion of the per-issue safe harbor used in one or more prior years.

(iii) *Portion of per-issue safe harbor used in prior years.* The portion of the per-issue safe harbor used in any prior year (the prior year) is equal to the total amount of broker’s commissions or similar fees paid in connection with guaranteed investment contracts or investments for a yield restricted defeasance escrow acquired in the prior year that the issuer treated as qualified administrative costs for the issue, multiplied by a fraction the numerator of which is the per-issue safe harbor for the determination year and the denominator of which is the per-issue safe harbor for the prior year. See paragraph (e)(2)(iii)(C) *Example 2* of this section.

(C) *Examples.* The following examples illustrate the application of the safe harbor in paragraph (e)(2)(iii)(B) of this section:

Example 1. Multipurpose issue. In 2003, the issuer of a multipurpose issue uses brokers to acquire the following investments with gross proceeds of the issue: a guaranteed investment contract for amounts to be deposited in a construction fund (construction GIC), Treasury securities to be deposited in a yield restricted defeasance escrow (Treasury investments) and a guaranteed investment contract that will be used to earn a return on what otherwise would be idle cash balances from maturing investments in the yield restricted defeasance escrow (the float GIC). The issuer deposits \$22,000,000 into the construction GIC and reasonably expects that no further deposits will be made over its term. The issuer uses \$8,040,000 of the proceeds to purchase the Treasury investments. The issuer reasonably expects that it will make aggregate deposits of \$600,000 to the float GIC over its term. The brokers’ fees are \$30,000 for the construction GIC, \$16,080 for the Treasury investments and \$3,000 for the float GIC. The issuer has not previously treated any brokers’ commissions or similar fees as qualified administrative costs. The issuer may claim all \$49,080 in brokers’ fees for these investments as qualified administrative costs because the fees do not exceed the safe harbors in paragraph (e)(2)(iii)(B) of this section. Specifically, each of the brokers’ fees equals the lesser of \$30,000 and 0.2% of the computational base (or, if more, \$3,000) (i.e., lesser of \$30,000 and $0.2\% \times \$22,000,000$ for the construction GIC; lesser of \$30,000 and $0.2\% \times \$8,040,000$ for the Treasury investments; and lesser of \$30,000 and \$3,000 for the float GIC). In addition, the total amount of brokers’ fees claimed by the issuer as qualified administrative costs (\$49,080) does not exceed the per-issue safe harbor of \$85,000.

Example 2. Cost-of-living adjustment. In 2003, an issuer issues bonds and uses gross proceeds of the issue to acquire two guaranteed investment contracts. The issuer pays a total of \$50,000 in brokers’ fees for the two guaranteed investment contracts and treats these fees as qualified administrative costs. In a year subsequent to 2003 (Year Y), the issuer uses gross proceeds of the issue to acquire two additional guaranteed investment contracts, paying a total of \$20,000 in broker’s fees for the two guaranteed investment contracts, and treats those fees as qualified administrative costs. For Year Y, applying the cost-of-living adjustment under paragraph (e)(2)(iii)(B)(3) of this section, the safe harbor dollar limits under paragraph (e)(2)(iii)(B)(1) of this section are \$3,000, \$32,000 and \$90,000. The remaining amount of the per-issue safe harbor for Year Y is \$37,059

(\$90,000—[\$50,000 × \$90,000/\$85,000]). The broker's fees in Year Y do not exceed the per-issue safe harbor under paragraph (e)(2)(iii)(B)(I)(ii) (as modified by paragraph (e)(2)(iii)(B)(3)) of this section because the broker's fees do not exceed the remaining amount of the per-issue safe harbor determined under paragraph (e)(2)(iii)(B)(6) of this section for Year Y. In a year subsequent to Year Y (Year Z), the issuer uses gross proceeds of the issue to acquire an additional guaranteed investment contract, pays a broker's fee of \$15,000 for the guaranteed investment contract, and treats the broker's fee as a qualified administrative cost. For Year Z, applying the cost-of-living adjustment under paragraph (e)(2)(iii)(B)(3) of this section, the safe harbor dollar limits under paragraph (e)(2)(iii)(B)(I) of this section are \$3,000, \$33,000 and \$93,000. The remaining amount of the per-issue safe harbor for Year Z is \$17,627 (\$93,000—[((\$50,000 × \$93,000/\$85,000) + (\$20,000 × \$93,000/\$90,000))]). The broker's fee incurred in Year Z does not exceed the per-issue safe harbor under paragraph (e)(2)(iii)(B)(I)(ii) (as modified by paragraph (e)(2)(iii)(B)(3)) of this section because the broker's fee does not exceed the remaining amount of the per-issue safe harbor determined under paragraph (e)(2)(iii)(B)(6) of this section for Year Z. See paragraph (e)(2)(iii)(B)(6) of this section.

(3) *Qualified administrative costs on purpose investments*—(i) *In general.* In determining payments and receipts on purpose investments, qualified administrative costs described in this paragraph (e)(3) paid by the conduit borrower are taken into account. Thus, these costs increase the payments for, or decrease the receipts from, the purpose investments. This rule applies even if those payments merely reimburse the issuer. Although the actual payments by the conduit borrower may be made at any time, for this purpose, a pro rata portion of each payment made by a conduit borrower is treated as a reimbursement of reasonable administrative costs, if the present value of those payments does not exceed the present value of the reasonable administrative costs paid by the issuer, using the yield on the issue as the discount rate.

(ii) *Definition of qualified administrative costs of purpose investments*—(A) *In general.* Except as otherwise provided in this paragraph (e)(3)(ii), qualified administrative costs of a purpose investment means—

(1) Costs or expenses paid, directly or indirectly, to purchase, carry, sell, or retire the investment; and

(2) Costs of issuing, carrying, or repaying the issue, and any underwriters' discount.

(B) *Limitation on program investments.* For a program investment, qualified administrative costs include only those costs described in paragraph (e)(3)(ii)(A)(2) of this section.

[T.D. 8476, 58 FR 33529, June 18, 1993; 58 FR 44452, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24044, May 10, 1994; T.D. 8718, 62 FR 25511, May 9, 1997; T.D. 8801, 63 FR 71751, Dec. 30, 1998; T.D. 9097, 68 FR 69022, Dec. 11, 2003; T.D. 9777, 81 FR 46595, July 17, 2016]

§ 1.148-6 General allocation and accounting rules.

(a) *In general*—(1) *Reasonable accounting methods required.* An issuer may use any reasonable, consistently applied accounting method to account for gross proceeds, investments, and expenditures of an issue.

(2) *Bona fide deviations from accounting method.* An accounting method does not fail to be reasonable and consistently applied solely because a different accounting method is used for a bona fide governmental purpose to consistently account for a particular item. Bona fide governmental purposes may include special State law restrictions imposed on specific funds or actions to avoid grant forfeitures.

(3) *Absence of allocation and accounting methods.* If an issuer fails to maintain books and records sufficient to establish the accounting method for an issue and the allocation of the proceeds of that issue, the rules of this section are applied using the specific tracing method. This paragraph (a)(3) applies to bonds issued on or after May 16, 1997.

(b) *Allocation of gross proceeds to an issue*—(1) *One-issue rule and general ordering rules.* Except as otherwise provided, amounts are allocable to only one issue at a time as gross proceeds, and if amounts simultaneously are proceeds of one issue and replacement proceeds of another issue, those amounts are allocable to the issue of which they are proceeds. Amounts cease to be allocated to an issue as proceeds only when those amounts are allocated to an expenditure for a governmental purpose,

are allocated to transferred proceeds of another issue, or cease to be allocated to that issue at retirement of the issue or under the universal cap of paragraph (b)(2) of this section. Amounts cease to be allocated to an issue as replacement proceeds only when those amounts are allocated to an expenditure for a governmental purpose, are no longer used in a manner that causes those amounts to be replacement proceeds of that issue, or cease to be allocated to that issue because of the retirement of the issue or the application of the universal cap under paragraph (b)(2) of this section. Amounts that cease to be allocated to an issue as gross proceeds are eligible for allocation to another issue. Under § 1.148-10(a), however, the rules in this paragraph (b)(1) do not apply in certain cases involving abusive arbitrage devices.

(2) *Universal cap on value of nonpurpose investments allocated to an issue—*(i) *Application.* The rules in this paragraph (b)(2) provide an overall limitation on the amount of gross proceeds allocable to an issue. Although the universal cap generally may be applied at any time in the manner described in this paragraph (b)(2), it need not be applied on any otherwise required date of application if its application on that date would not result in a reduction or reallocation of gross proceeds of an issue. For this purpose, if an issuer reasonably expects as of the issue date that the universal cap will not reduce the amount of gross proceeds allocable to the issue during the term of the issue, the universal cap need not be applied on any date on which an issue actually has all of the following characteristics—

(A) No replacement proceeds are allocable to the issue, other than replacement proceeds in a bona fide debt service fund or a reasonably required reserve or replacement fund;

(B) The net sale proceeds of the issue—

(1) Qualified for one of the temporary periods available for capital projects, restricted working capital expenditures, or pooled financings under § 1.148-2 (e)(2), (e)(3), or (e)(4), and those net sales proceeds were in fact allocated to expenditures prior to the expi-

ration of the longest applicable temporary period; or

(2) were deposited in a refunding escrow and expended as originally expected;

(C) The issue does not refund a prior issue that, on any transfer date, has unspent proceeds allocable to it;

(D) None of the bonds are retired prior to the date on which those bonds are treated as retired in computing the yield on the issue; and

(E) No proceeds of the issue are invested in qualified student loans or qualified mortgage loans.

(ii) *General rule.* Except as otherwise provided below, amounts that would otherwise be gross proceeds allocable to an issue are allocated (and remain allocated) to the issue only to the extent that the value of the nonpurpose investments allocable to those gross proceeds does not exceed the value of all outstanding bonds of the issue. For this purpose, gross proceeds allocable to cash, tax-exempt bonds that would be nonpurpose investments (absent section 148(b)(3)(A)), qualified student loans, and qualified mortgage loans are treated as nonpurpose investments. The values of bonds and investments are determined under § 1.148-4(e) and § 1.148-5(d), respectively. The value of all outstanding bonds of the issue is referred to as the *universal cap*. Thus, for example, the universal cap for an issue of plain par bonds is equal to the outstanding stated principal amount of those bonds plus accrued interest.

(iii) *Determination and application of the universal cap.* Except as otherwise provided, beginning with the first bond year that commences after the second anniversary of the issue date, the amount of the universal cap and the value of the nonpurpose investments must be determined as of the first day of each bond year. For refunding and refunded issues, the cap and values must be determined as of each date that, but for this paragraph (b)(2), proceeds of the refunded issue would become transferred proceeds of the refunding issue, and need not otherwise be determined in the bond year in which that date occurs. All values are determined as of the close of business on each determination date, after giving effect to all payments on bonds and

payments for and receipts on investments on that date.

(iv) *General ordering rule for allocations of amounts in excess of the universal cap*—(A) *In general.* If the value of all nonpurpose investments allocated to the gross proceeds of an issue exceeds the universal cap for that issue on a date as of which the cap is determined under paragraph (b)(2)(iii) of this section, nonpurpose investments allocable to gross proceeds necessary to eliminate that excess cease to be allocated to the issue, in the following order of priority—

(1) First, nonpurpose investments allocable to replacement proceeds;

(2) Second, nonpurpose investments allocable to transferred proceeds; and

(3) Third, nonpurpose investments allocable to sale proceeds and investment proceeds.

(B) *Re-allocation of certain amounts.* Except as provided in § 1.148-9(b)(3), amounts that cease to be allocated to an issue as a result of the application of the universal cap may only be allocated to another issue as replacement proceeds.

(C) *Allocations of portions of investments.* Portions of investments to which this paragraph (b)(2)(iv) applies are allocated under either the ratable method or the representative method in the same manner as allocations of portions of investments to transferred proceeds under § 1.148-9(c).

(v) *Nonpurpose investments in a bona fide debt service fund not counted.* For purposes of this paragraph (b)(2), nonpurpose investments allocated to gross proceeds in a bona fide debt service fund for an issue are not taken into account in determining the value of the nonpurpose investments, and those nonpurpose investments remain allocated to the issue.

(c) *Fair market value limit on allocations to nonpurpose investments.* Upon a purchase or sale of a nonpurpose investment, gross proceeds of an issue are not allocated to a payment for that nonpurpose investment in an amount greater than, or to a receipt from that nonpurpose investment in an amount less than, the fair market value of the nonpurpose investment as of the purchase or sale date. For purposes of this paragraph (c) only, the fair market

value of a nonpurpose investment is adjusted to take into account qualified administrative costs allocable to the investment.

(d) *Allocation of gross proceeds to expenditures*—(1) *Expenditures in general*—

(i) *General rule.* Reasonable accounting methods for allocating funds from different sources to expenditures for the same governmental purpose include any of the following methods if consistently applied: a specific tracing method; a gross proceeds spent first method; a first-in, first-out method; or a ratable allocation method.

(ii) *General limitation.* An allocation of gross proceeds of an issue to an expenditure must involve a current outlay of cash for a governmental purpose of the issue. A *current outlay of cash* means an outlay reasonably expected to occur not later than 5 banking days after the date as of which the allocation of gross proceeds to the expenditure is made.

(iii) *Timing.* An issuer must account for the allocation of proceeds to expenditures not later than 18 months after the later of the date the expenditure is paid or the date the project, if any, that is financed by the issue is placed in service. This allocation must be made in any event by the date 60 days after the fifth anniversary of the issue date or the date 60 days after the retirement of the issue, if earlier. This paragraph (d)(1)(iii) applies to bonds issued on or after May 16, 1997.

(2) *Treatment of gross proceeds invested in purpose investments*—(i) *In general.* Gross proceeds of an issue invested in a purpose investment are allocated to an expenditure on the date on which the conduit borrower under the purpose investment allocates the gross proceeds to an expenditure in accordance with this paragraph (d).

(ii) *Exception for qualified mortgage loans and qualified student loans.* If gross proceeds of an issue are allocated to a purpose investment that is a qualified mortgage loan or a qualified student loan, those gross proceeds are allocated to an expenditure for the governmental purpose of the issue on the date on which the issuer allocates gross proceeds to that purpose investment.

(iii) *Continuing allocation of gross proceeds to purpose investments.* Regardless of whether gross proceeds of a conduit financing issue invested in a purpose investment have been allocated to an expenditure under paragraph (d)(2) (i) or (ii) of this section, with respect to the actual issuer those gross proceeds continue to be allocated to the purpose investment until the sale, discharge, or other disposition of the purpose investment.

(3) *Expenditures for working capital purposes—(i) In general.* Except as otherwise provided in this paragraph (d)(3) or paragraph (d)(4) of this section, proceeds of an issue may only be allocated to working capital expenditures as of any date to the extent that those working capital expenditures exceed available amounts (as defined in paragraph (d)(3)(iii) of this section) as of that date (i.e., a “proceeds-spent-last” method). For this purpose, proceeds include replacement proceeds described in § 1.148-1(c)(4).

(ii) *Exceptions—(A) General de minimis exception.* Paragraph (d)(3)(i) of this section does not apply to expenditures to pay—

(1) Any issuance costs of the issue or any qualified administrative costs within the meaning of §§ 1.148-5(e)(2) (i) or (ii), or § 1.148-5(e)(3)(ii)(A);

(2) Fees for qualified guarantees of the issue or payments for a qualified hedge for the issue;

(3) Interest on the issue for a period commencing on the issue date and ending on the date that is the later of three years from the issue date or one year after the date on which the project is placed in service;

(4) Amounts paid to the United States under §§ 1.148-3, 1.148-5(c), or 1.148-7 for the issue;

(5) Costs, other than those described in paragraphs (d)(3)(ii)(A) (1) through (4) of this section, that do not exceed 5 percent of the sale proceeds of an issue and that are directly related to capital expenditures financed by the issue (e.g., initial operating expenses for a new capital project);

(6) Principal or interest on an issue paid from unexpected excess sale or investment proceeds; and

(7) Principal or interest on an issue paid from investment earnings on a re-

serve or replacement fund that are deposited in a bona fide debt service fund.

(B) *Exception for extraordinary items.* Paragraph (d)(3)(i) of this section does not apply to expenditures for extraordinary, nonrecurring items that are not customarily payable from current revenues, such as casualty losses or extraordinary legal judgments in amounts in excess of reasonable insurance coverage. If, however, an issuer or a related party maintains a reserve for such items (e.g., a self-insurance fund) or has set aside other available amounts for such expenses, gross proceeds within that reserve must be allocated to expenditures only after all other available amounts in that reserve are expended.

(C) *Exception for payment of principal and interest on prior issues.* Paragraph (d)(3)(i) of this section does not apply to expenditures for payment of principal, interest, or redemption prices on a prior issue and, for a crossover refunding issue, interest on that issue.

(D) *No exceptions if replacement proceeds created.* The exceptions provided in this paragraph (d)(3)(ii) do not apply if the allocation merely substitutes gross proceeds for other amounts that would have been used to make those expenditures in a manner that gives rise to replacement proceeds. For example, if a purported reimbursement allocation of proceeds of a reimbursement bond does not result in an expenditure under § 1.150-2, those proceeds may not be allocated to pay interest on an issue that, absent this allocation, would have been paid from the issuer's current revenues.

(iii) *Definition of available amount—*

(A) *In general.* For purposes of this paragraph (d)(3), *available amount* means any amount that is available to an issuer for working capital expenditure purposes of the type financed by an issue. Except as otherwise provided, available amount excludes proceeds of any issue but includes cash, investments, and other amounts held in accounts or otherwise by the issuer or a related party if those amounts may be used by the issuer for working capital expenditures of the type being financed by an issue without legislative or judicial action and without a legislative,

judicial, or contractual requirement that those amounts be reimbursed.

(B) *Reasonable working capital reserve treated as unavailable.* A reasonable working capital reserve is treated as unavailable. Any working capital reserve is reasonable if it does not exceed 5 percent of the actual working capital expenditures of the issuer in the fiscal year before the year in which the determination of available amounts is made. For this purpose only, in determining the working capital expenditures of an issuer for a prior fiscal year, any expenditures (whether capital or working capital expenditures) that are paid out of current revenues may be treated as working capital expenditures.

(C) *Qualified endowment funds treated as unavailable.* For a 501(c)(3) organization, a qualified endowment fund is treated as unavailable. A fund is a qualified endowment fund if—

(1) The fund is derived from gifts or bequests, or the income thereon, that were neither made nor reasonably expected to be used to pay working capital expenditures;

(2) Pursuant to reasonable, established practices of the organization, the governing body of the 501(c)(3) organization designates and consistently operates the fund as a permanent endowment fund or quasi-endowment fund restricted as to use; and

(3) There is an independent verification that the fund is reasonably necessary as part of the organization's permanent capital.

(D) *Application to statutory safe harbor for tax and revenue anticipation bonds.* For purposes of section 148(f)(4)(B)(iii)(II), *available amount* has the same meaning as in paragraph (d)(3)(iii) of this section, except that the otherwise-permitted reasonable working capital reserve is treated as part of the available amount.

(4) *Expenditures for grants—(i) In general.* Gross proceeds of an issue that are used to make a grant are allocated to an expenditure on the date on which the grant is made.

(ii) *Characterization of repayments of grants.* If any amount of a grant financed by gross proceeds of an issue is repaid to the grantor, the repaid amount is treated as unspent proceeds

of the issue as of the repayment date unless expended within 60 days of repayment.

(5) *Expenditures for reimbursement purposes.* In allocating gross proceeds of issues of reimbursement bonds (as defined in §1.150-2) to certain expenditures, §1.150-2 applies. In allocating gross proceeds to an expenditure to reimburse a previously paid working capital expenditure, paragraph (d)(3) of this section applies. Thus, if the expenditure is described in paragraph (d)(3)(ii) of this section or there are no available amounts on the date a working capital expenditure is made and there are no other available amounts on the date of the reimbursement of that expenditure, gross proceeds are allocated to the working capital expenditure as of the date of the reimbursement.

(6) *Expenditures of certain commingled investment proceeds of governmental issues.* This paragraph (d)(6) applies to any issue of governmental bonds, any issue of private activity bonds issued to finance a facility that is required by section 142 to be owned by a governmental unit, and any portion of an issue that is not treated as consisting of private activity bonds under section 141(b)(9). Investment proceeds of the issue (other than investment proceeds held in a refunding escrow) are treated as allocated to expenditures for a governmental purpose when the amounts are deposited in a commingled fund with substantial tax or other revenues from governmental operations of the issuer and the amounts are reasonably expected to be spent for governmental purposes within 6 months from the date of the commingling. In establishing these reasonable expectations, an issuer may use any reasonable accounting assumption and is not bound by the *proceeds-spent-last* assumption generally required for working capital expenditures under paragraph (d)(3) of this section.

(7) *Payments to related parties.* Any payment of gross proceeds of the issue to a related party of the payor is not an expenditure of those gross proceeds.

(e) *Special rules for commingled funds—(1) In general.* An accounting method for gross proceeds of an issue in a commingled fund, other than a bona fide

debt service fund, is reasonable only if it satisfies the requirements of paragraphs (e)(2) through (6) of this section in addition to the other requirements of this section.

(2) *Investments held by a commingled fund*—(i) *Required ratable allocations.* Not less frequently than as of the close of each fiscal period, all payments and receipts (including deemed payments and receipts) on investments held by a commingled fund must be allocated (but not necessarily distributed) among the different investors in the fund. This allocation must be based on a consistently applied, reasonable ratable allocation method.

(ii) *Safe harbors for ratable allocation methods.* Reasonable ratable allocation methods include, without limitation, methods that allocate these items in proportion to either—

(A) The average daily balances of the amounts in the commingled fund from different investors during a fiscal period (as described in paragraph (e)(4) of this section); or

(B) The average of the beginning and ending balances of the amounts in the commingled fund from different investors for a fiscal period that does not exceed one month.

(iii) *Definition of investor.* For purposes of this paragraph (e), the term *investor* means each different source of funds invested in a commingled fund. For example, if a city invests gross proceeds of an issue and tax revenues in a commingled fund, it is treated as two different investors.

(3) *Certain expenditures involving a commingled fund.* If a ratable allocation method is used under paragraph (d) of this section to allocate expenditures from the commingled fund, the same ratable allocation method must be used to allocate payments and receipts on investments in the commingled fund under paragraph (e)(2) of this section.

(4) *Fiscal periods.* The fiscal year of a commingled fund is the calendar year unless the fund adopts another fiscal year. A commingled fund may use any consistent fiscal period that does not exceed three months (e.g., a daily, weekly, monthly, or quarterly fiscal period).

(5) *Unrealized gains and losses on investments of a commingled fund*—(i)

Mark-to-market requirement for internal commingled funds with longer-term investment portfolios. Except as otherwise provided in this paragraph (e), in the case of a commingled fund in which the issuer and any related party own more than 25 percent of the beneficial interests in the fund (an *internal commingled fund*), the fund must treat all its investments as if sold at fair market value either on the last day of the fiscal year or the last day of each fiscal period. The net gains or losses from these deemed sales of investments must be allocated to all investors of the commingled fund during the period since the last allocation.

(ii) *Exception for internal commingled funds with shorter-term investment portfolios.* If the remaining weighted average maturity of all investments held by a commingled fund during a particular fiscal year does not exceed 18 months, and the investments held by the commingled fund during that fiscal year consist exclusively of obligations, the mark-to-market requirement of paragraph (e)(5)(i) of this section does not apply.

(iii) *Exception for commingled reserve funds and sinking funds.* The mark-to-market requirement of paragraph (e)(5)(i) of this section does not apply to a commingled fund that operates exclusively as a reserve fund, sinking fund, or replacement fund for two or more issues of the same issuer.

(6) *Allocations of commingled funds serving as common reserve funds or sinking funds*—(i) *Permitted ratable allocation methods.* If a commingled fund serves as a common reserve fund, replacement fund, or sinking fund for two or more issues (a *commingled reserve*), after making reasonable adjustments to account for proceeds allocated under paragraph (b)(1) or (b)(2) of this section, investments held by that commingled fund must be allocated ratably among the issues served by the commingled fund in accordance with one of the following methods—

(A) The relative values of the bonds of those issues under § 1.148-4(e);

(B) The relative amounts of the remaining maximum annual debt service requirements on the outstanding principal amounts of those issues; or

(C) The relative original stated principal amounts of the outstanding issues.

(ii) *Frequency of allocations.* An issuer must make any allocations required by this paragraph (e)(6) as of a date at least every 3 years and as of each date that an issue first becomes secured by the commingled reserve. If relative original principal amounts are used to allocate, allocations must also be made on the retirement of any issue secured by the commingled reserve.

[T.D. 8476, 58 FR 33532, June 18, 1993; 58 FR 44452, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24045, May 10, 1994; T.D. 8712, 62 FR 2304, Jan. 16, 1997; T.D. 8718, 62 FR 25512, May 9, 1997; T.D. 9777, 81 FR 46597, July 18, 2016]

§ 1.148-7 Spending exceptions to the rebate requirement.

(a) *Scope of section—(1) In general.* This section provides guidance on the spending exceptions to the arbitrage rebate requirement of section 148(f)(2). These exceptions are the 6-month exception in section 148(f)(4)(B) (the *6-month exception*), the 18-month exception under paragraph (d) of this section (the *18-month exception*), and the 2-year construction exception under section 148(f)(4)(C) (the *2-year exception*) (collectively, the *spending exceptions*).

(2) *Relationship of spending exceptions.* Each of the spending exceptions is an independent exception to arbitrage rebate. For example, a construction issue may qualify for the 6-month exception or the 18-month exception even though the issuer makes one or more elections under the 2-year exception with respect to the issue.

(3) *Spending exceptions not mandatory.* Use of the spending exceptions is not mandatory. An issuer may apply the arbitrage rebate requirement to an issue that otherwise satisfies a spending exception. If an issuer elects to pay penalty in lieu of rebate under the 2-year exception, however, the issuer must apply those penalty provisions.

(b) *Rules applicable for all spending exceptions.* The provisions of this paragraph (b) apply for purposes of applying each of the spending exceptions.

(1) *Special transferred proceeds rules—(i) Application to prior issues.* For purposes of applying the spending exceptions to a prior issue only, proceeds of

the prior issue that become transferred proceeds of the refunding issue continue to be treated as unspent proceeds of the prior issue. If the prior issue satisfies one of the spending exceptions, the proceeds of the prior issue that are excepted from rebate under that spending exception are not subject to rebate either as proceeds of the prior issue or as transferred proceeds of the refunding issue.

(ii) *Application to refunding issues—(A) In general.* The only spending exception applicable to refunding issues is the 6-month exception. For purposes of applying the 6-month exception to a refunding issue only, proceeds of the prior issue that become transferred proceeds of the refunding issue generally are not treated as proceeds of the refunding issue and need not be spent for the refunding issue to satisfy that spending exception. Even if the refunding issue qualifies for that spending exception, those transferred proceeds are subject to rebate as proceeds of the refunding issue unless an exception to rebate applied to those proceeds as proceeds of the prior issue.

(B) *Exception.* For purposes of applying the 6-month exception to refunding issues, those transferred proceeds of the refunding issue excluded from the gross proceeds of the prior issue under the special definition of gross proceeds in paragraph (c)(3) of this section, and those that transferred from a prior taxable issue, are generally treated as gross proceeds of the refunding issue. Thus, for the refunding issue to qualify for the 6-month exception, those proceeds must be spent within 6 months of the issue date of the refunding issue, unless those amounts continue to be used in a manner that does not cause those amounts to be gross proceeds under paragraph (c)(3) of this section.

(2) *Application of multipurpose issue rules.* Except as otherwise provided, if any portion of an issue is treated as a separate issue allocable to refunding purposes under § 1.148-9(h) (relating to multipurpose issues), for purposes of this section, that portion is treated as a separate issue.

(3) *Expenditures for governmental purposes of the issue.* For purposes of this

section, expenditures for the governmental purpose of an issue include payments for interest, but not principal, on the issue, and for principal or interest on another issue of obligations. The preceding sentence does not apply for purposes of the 18-month and 2-year exceptions if those payments cause the issue to be a refunding issue.

(4) *De minimis rule.* Any failure to satisfy the final spending requirement of the 18-month exception or the 2-year exception is disregarded if the issuer exercises due diligence to complete the project financed and the amount of the failure does not exceed the lesser of 3 percent of the issue price of the issue or \$250,000.

(5) *Special definition of reasonably required reserve or replacement fund.* For purposes of this section only, a reasonably required reserve or replacement fund also includes any fund to the extent described in § 1.148-5(c)(3)(i)(E) or (G).

(6) *Pooled financing issue—(i) In general.* Except as otherwise provided in this paragraph (b)(6), the spending exceptions apply to a pooled financing issue as a whole, rather than to each loan separately.

(ii) *Election to apply spending exceptions separately to each loan—(A) In general.* At the election (made on or before the issue date) of the issuer of a pooled financing issue, the spending exceptions are applied separately to each conduit loan, and the applicable spending requirements for a loan begin on the earlier of the date the loan is made, or the first day following the 1-year period beginning on the issue date of the pooled financing issue. If this election is made, the rebate requirement applies to, and none of the spending exceptions are available for, gross proceeds of the pooled financing bonds before the date on which the spending requirements for those proceeds begin.

(B) *Application of spending exceptions.* If the issuer makes the election under this paragraph (b)(6)(ii), the rebate requirement is satisfied for proceeds used to finance a particular conduit loan to the extent that the loan satisfies a spending exception or the small issuer exception under § 1.148-8, regardless of whether any other conduit loans allocable to the issue satisfy such an ex-

ception. A pooled financing issue is an issue of arbitrage bonds, however, unless the entire issue satisfies the requirements of section 148. An issuer may pay rebate for some conduit loans and 1½ percent penalty for other conduit loans from the same pooled financing issue. The 1½ percent penalty is computed separately for each conduit loan.

(C) *Elections under 2-year exception.* If the issuer makes the election under this paragraph (b)(6)(ii), the issuer may make all elections under the 2-year exception separately for each loan. Elections regarding a loan that otherwise must be made by the issuer on or before the issue date instead may be made on or before the date the loan is made (but not later than 1 year after the issue date).

(D) *Example.* The operation of this paragraph (b)(6) is illustrated by the following example:

Example. Pooled financing issue. On January 1, 1994, Authority J issues bonds. As of the issue date, J reasonably expects to use the proceeds of the issue to make loans to City K, County L, and City M. J does not reasonably expect to use more than 75 percent of the available construction proceeds of the issue for construction expenditures. On or before the issue date, J elects to apply the spending exceptions separately for each loan, with spending requirements beginning on the earlier of the date the loan is made or the first day following the 1-year period beginning on the issue date. On February 1, 1994, J loans a portion of the proceeds to K, and K reasonably expects that 45 percent of those amounts will be used for construction expenditures. On the date this loan is made, J elects under paragraph (j) of this section to treat 60 percent of the amount loaned to K as a separate construction issue, and also elects the 1½ percent penalty under paragraph (k) of this section for the separate construction issue. On March 1, 1994, J loans a portion of the proceeds to L, and L reasonably expects that more than 75 percent of those amounts will be used for construction expenditures. On March 1, 1995, J loans the remainder of the proceeds to M, and none of those amounts will be used for construction expenditures. J must satisfy the rebate requirement for all gross proceeds before those amounts are loaned. For the loan to K, the spending periods begin on February 1, 1994, and the 1½ percent penalty must be paid for any failure to meet a spending requirement for the portion of the loan to K that is treated as a separate construction issue. Rebate must be paid on the remaining portion of the

loan to *K*, unless that portion qualifies for the 6-month exception. For the loan to *L*, the spending periods begin on March 1, 1994, and the rebate requirement must be satisfied unless the 6-month, 18-month, or the 2-year exception is satisfied with respect to those amounts. For the loan to *M*, the spending periods begin on January 2, 1995, and the rebate requirement must be satisfied for those amounts unless the 6-month or 18-month exception is satisfied.

(c) *6-month exception*—(1) *General rule*. An issue is treated as meeting the rebate requirement if—

(i) The gross proceeds (as modified by paragraph (c)(3) of this section) of the issue are allocated to expenditures for the governmental purposes of the issue within the 6-month period beginning on the issue date (the *6-month spending period*); and

(ii) The rebate requirement is met for amounts not required to be spent within the 6-month spending period (excluding earnings on a bona fide debt service fund).

(2) *Additional period for certain bonds*. The 6-month spending period is extended for an additional 6 months in certain circumstances specified under section 148(f)(4)(B)(ii).

(3) *Amounts not included in gross proceeds*. For purposes of paragraph (c)(1)(i) of this section only, gross proceeds has the meaning used in § 1.148-1, except it does not include amounts—

(i) In a bona fide debt service fund;

(ii) In a reasonably required reserve or replacement fund (see § 1.148-7(b)(5));

(iii) That, as of the issue date, are not reasonably expected to be gross proceeds but that become gross proceeds after the end of the 6-month spending period;

(iv) Representing sale or investment proceeds derived from payments under any purpose investment of the issue; and

(v) Representing repayments of grants (as defined in § 1.150-1(f)) financed by the issue.

(4) *Series of refundings*. If a principal purpose of a series of refunding issues is to exploit the difference between taxable and tax-exempt interest rates by investing proceeds during the temporary periods provided in § 1.148-9(d), the 6-month spending period for all issues in the series begins on the issue date of the first issue in the series.

(d) *18-month exception*—(1) *General rule*. An issue is treated as meeting the rebate requirement if all of the following requirements are satisfied—

(i) *18-month expenditure schedule met*. The gross proceeds (as defined in paragraph (d)(3) of this section) are allocated to expenditures for a governmental purpose of the issue in accordance with the following schedule (the *18-month expenditure schedule*) measured from the issue date—

(A) At least 15 percent within 6 months (the *first spending period*);

(B) At least 60 percent within 12 months (the *second spending period*); and

(C) 100 percent within 18 months (the *third spending period*).

(ii) *Rebate requirement met for amounts not required to be spent*. The rebate requirement is met for all amounts not required to be spent in accordance with the 18-month expenditure schedule (other than earnings on a bona fide debt service fund).

(iii) *Issue qualifies for initial temporary period*. All of the gross proceeds (as defined in paragraph (d)(3)(i) of this section) of the issue qualify for the initial temporary period under § 1.148-2(e)(2).

(2) *Extension for reasonable retainage*. An issue does not fail to satisfy the spending requirement for the third spending period as a result of a reasonable retainage if the reasonable retainage is allocated to expenditures within 30 months of the issue date. Reasonable retainage has the meaning under paragraph (h) of this section, as modified to refer to net sale proceeds on the date 18 months after the issue date.

(3) *Gross proceeds*—(i) *Definition of gross proceeds*. For purposes of paragraph (d)(1) of this section only, *gross proceeds* means gross proceeds as defined in paragraph (c)(3) of this section, as modified to refer to “18 months” in paragraph (c)(3)(iii) of this section in lieu of “6 months.”

(ii) *Estimated earnings*. For purposes of determining compliance with the first two spending periods under paragraph (d)(1)(i) of this section, the amount of investment proceeds included in gross proceeds of the issue is determined based on the issuer's reasonable expectations on the issue date.

(4) *Application to multipurpose issues.* This paragraph (d) does not apply to an issue any portion of which is treated as meeting the rebate requirement under paragraph (e) of this section (relating to the 2-year exception).

(e) *2-year exception*—(1) *General rule.* A construction issue is treated as meeting the rebate requirement for available construction proceeds if those proceeds are allocated to expenditures for governmental purposes of the issue in accordance with the following schedule (the *2-year expenditure schedule*), measured from the issue date—

(i) At least 10 percent within 6 months (the *first spending period*);

(ii) At least 45 percent within 1 year (the *second spending period*);

(iii) At least 75 percent within 18 months (the *third spending period*); and

(iv) 100 percent within 2 years (the *fourth spending period*).

(2) *Extension for reasonable retainage.* An issue does not fail to satisfy the spending requirement for the fourth spending period as a result of unspent amounts for reasonable retainage (as defined in paragraph (h) of this section) if those amounts are allocated to expenditures within 3 years of the issue date.

(3) *Definitions.* For purposes of the 2-year exception, the following definitions apply:

(i) *Real property* means land and improvements to land, such as buildings or other inherently permanent structures, including interests in real property. For example, real property includes wiring in a building, plumbing systems, central heating or air-conditioning systems, pipes or ducts, elevators, escalators installed in a building, paved parking areas, roads, wharves and docks, bridges, and sewage lines.

(ii) *Tangible personal property* means any tangible property other than real property, including interests in tangible personal property. For example, tangible personal property includes machinery that is not a structural component of a building, subway cars, fire trucks, automobiles, office equipment, testing equipment, and furnishings.

(iii) *Substantially completed.* Construction may be treated as substantially

completed when the issuer abandons construction or when at least 90 percent of the total costs of the construction reasonably expected, as of that date, to be financed with the available construction proceeds have been allocated to expenditures.

(f) *Construction issue*—(1) *Definition.* *Construction issue* means any issue that is not a refunding issue if—

(i) The issuer reasonably expects, as of the issue date, that at least 75 percent of the available construction proceeds of the issue will be allocated to construction expenditures (as defined in paragraph (g) of this section) for property owned by a governmental unit or a 501(c)(3) organization; and

(ii) Any private activity bonds that are part of the issue are qualified 501(c)(3) bonds or private activity bonds issued to finance property to be owned by a governmental unit or a 501(c)(3) organization.

(2) *Use of actual facts.* For the provisions of paragraphs (e) through (m) of this section that apply based on the issuer's reasonable expectations, an issuer may elect on or before the issue date to apply all of those provisions based on actual facts, except that this election does not apply for purposes of determining whether an issue is a construction issue under paragraph (f)(1) of this section if the 1½ percent penalty election is made under paragraph (k) of this section.

(3) *Ownership requirement*—(i) *In general.* A governmental unit or 501(c)(3) organization is treated as the owner of property if it would be treated as the owner for Federal income tax purposes. For obligations issued on behalf of a State or local governmental unit, the entity that actually issues the bonds is treated as a governmental unit.

(ii) *Safe harbor for leases and management contracts.* Property leased by a governmental unit or a 501(c)(3) organization is treated as owned by the governmental unit or 501(c)(3) organization if the lessee complies with the requirements of section 142(b)(1)(B). For a bond described in section 142(a)(6), the requirements of section 142(b)(1)(B) apply as modified by section 146(h)(2).

(g) *Construction expenditures*—(1) *Definition.* Except as otherwise provided, *construction expenditures* means capital

expenditures (as defined in § 1.150-1) that are allocable to the cost of real property or constructed personal property (as defined in paragraph (g)(3) of this section). Except as provided in paragraph (g)(2) of this section, construction expenditures do not include expenditures for acquisitions of interests in land or other existing real property.

(2) *Certain acquisitions under turnkey contracts treated as construction expenditures.* Expenditures are not for the acquisition of an interest in existing real property other than land if the contract between the seller and the issuer requires the seller to build or install the property (e.g., a *turnkey contract*), but only to the extent that the property has not been built or installed at the time the parties enter into the contract.

(3) *Constructed personal property.* *Constructed personal property* means tangible personal property (or, if acquired pursuant to a single acquisition contract, properties) or specially developed computer software if—

(i) A substantial portion of the property or properties is completed more than 6 months after the earlier of the date construction or rehabilitation commenced and the date the issuer entered into an acquisition contract;

(ii) Based on the reasonable expectations of the issuer, if any, or representations of the person constructing the property, with the exercise of due diligence, completion of construction or rehabilitation (and delivery to the issuer) could not have occurred within that 6-month period; and

(iii) If the issuer itself builds or rehabilitates the property, not more than 75 percent of the capitalizable cost is attributable to property acquired by the issuer (e.g., components, raw materials, and other supplies).

(4) *Specially developed computer software.* *Specially developed computer software* means any programs or routines used to cause a computer to perform a desired task or set of tasks, and the documentation required to describe and maintain those programs, provided that the software is specially developed and is functionally related and subordinate to real property or other constructed personal property.

(5) *Examples.* The operation of this paragraph (g) is illustrated by the following examples:

Example 1. Purchase of construction materials. City A issues bonds to finance a new office building. A uses proceeds of the bonds to purchase materials to be used in constructing the building, such as bricks, pipes, wires, lighting, carpeting, heating equipment, and similar materials. Expenditures by A for the construction materials are construction expenditures because those expenditures will be capitalizable to the cost of the building upon completion, even though they are not initially capitalizable to the cost of existing real property. This result would be the same if A hires a third-party to perform the construction, unless the office building is partially constructed at the time that A contracts to purchase the building.

Example 2. Turnkey contract. City B issues bonds to finance a new office building. B enters into a turnkey contract with developer D under which D agrees to provide B with a completed building on a specified completion date on land currently owned by D. Under the agreement, D holds title to the land and building and assumes any risk of loss until the completion date, at which time title to the land and the building will be transferred to B. No construction has been performed by the date that B and D enter into the agreement. All payments by B to D for construction of the building are construction expenditures because all the payments are properly capitalized to the cost of the building, but payments by B to D allocable to the acquisition of the land are not construction expenditures.

Example 3. Right-of-way. P, a public agency, issues bonds to finance the acquisition of a right-of-way and the construction of sewage lines through numerous parcels of land. The right-of-way is acquired primarily through P's exercise of its powers of eminent domain. As of the issue date, P reasonably expects that it will take approximately 2 years to acquire the entire right-of-way because of the time normally required for condemnation proceedings. No expenditures for the acquisition of the right-of-way are construction expenditures because they are costs incurred to acquire an interest in existing real property.

Example 4. Subway cars. City C issues bonds to finance new subway cars. C reasonably expects that it will take more than 6 months for the subway cars to be constructed to C's specifications. The subway cars are constructed personal property. Alternatively, if the builder of the subway cars informs C that it will only take 3 months to build the subway cars to C's specifications, no payments for the subway cars are construction expenditures.

Example 5. Fractional interest in property. U, a public agency, issues bonds to finance an undivided fractional interest in a newly constructed power-generating facility. U contributes its ratable share of the cost of building the new facility to the project manager for the facility. U's contributions are construction expenditures in the same proportion that the total expenditures for the facility qualify as construction expenditures.

Example 6. Park land. City D issues bonds to finance the purchase of unimproved land and the cost of subsequent improvements to the land, such as grading and landscaping, necessary to transform it into a park. The costs of the improvements are properly capitalizable to the cost of the land, and therefore, are construction expenditures, but expenditures for the acquisition of the land are not.

(h) *Reasonable retainage definition.* Reasonable retainage means an amount, not to exceed 5 percent of available construction proceeds as of the end of the fourth spending period, that is retained for reasonable business purposes relating to the property financed with the proceeds of the issue. For example, a reasonable retainage may include a retention to ensure or promote compliance with a construction contract in circumstances in which the retained amount is not yet payable, or in which the issuer reasonably determines that a dispute exists regarding completion or payment.

(i) *Available construction proceeds—(1) Definition in general.* Available construction proceeds has the meaning used in section 148(f)(4)(C)(vi). For purposes of this definition, earnings include earnings on any tax-exempt bond. Pre-issuance accrued interest and earnings thereon may be disregarded. Amounts that are not gross proceeds as a result of the application of the universal cap under § 1.148-6(b)(2) are not available construction proceeds.

(2) *Earnings on a reasonably required reserve or replacement fund.* Earnings on any reasonably required reserve or replacement fund are available construction proceeds only to the extent that those earnings accrue before the earlier of the date construction is substantially completed or the date that is 2 years after the issue date. An issuer may elect on or before the issue date to exclude from available construction proceeds the earnings on such a fund. If the election is made, the rebate re-

quirement applies to the excluded amounts from the issue date.

(3) *Reasonable expectations test for future earnings.* For purposes of determining compliance with the spending requirements as of the end of each of the first three spending periods, available construction proceeds include the amount of future earnings that the issuer reasonably expected as of the issue date.

(4) *Issuance costs.* Available construction proceeds do not include gross proceeds used to pay issuance costs financed by an issue, but do include earnings on such proceeds. Thus, an expenditure of gross proceeds of an issue for issuance costs does not count toward meeting the spending requirements. The expenditure of earnings on gross proceeds used to pay issuance costs does count toward meeting those requirements. If the spending requirements are met and the proceeds used to pay issuance costs are expended by the end of the fourth spending period, those proceeds and the earnings thereon are treated as having satisfied the rebate requirement.

(5) *One and one-half percent penalty in lieu of arbitrage rebate.* For purposes of the spending requirements of paragraph (e) of this section, available construction proceeds as of the end of any spending period are reduced by the amount of penalty in lieu of arbitrage rebate (under paragraph (k) of this section) that the issuer has paid from available construction proceeds before the last day of the spending period.

(6) *Payments on purpose investments and repayments of grants.* Available construction proceeds do not include—

(i) Sale or investment proceeds derived from payments under any purpose investment of the issue; or

(ii) Repayments of grants (as defined in § 1.150-1(f)) financed by the issue.

(7) *Examples.* The operation of this paragraph (i) is illustrated by the following examples:

Example 1. Treatment of investment earnings. City F issues bonds having an issue price of \$10,000,000. F deposits all of the proceeds of the issue into a construction fund to be used for expenditures other than costs of issuance. F estimates on the issue date that, based on reasonably expected expenditures and rates of investment, earnings on the construction fund will be \$800,000. As of the issue

date and the end of each of the first three spending periods, the amount of available construction proceeds is \$10,800,000. To qualify as a construction issue, *F* must reasonably expect on the issue date that at least \$8,100,000 (75 percent of \$10,800,000) will be used for construction expenditures. In order to meet the 10 percent spending requirement at the end of the first spending period, *F* must spend at least \$1,080,000. As of the end of the fourth spending period, *F* has received \$1,100,000 in earnings. In order to meet the spending requirement at the end of the fourth spending period, however, *F* must spend all of the \$11,100,000 of actual available construction proceeds (except for reasonable retainage not exceeding \$555,000).

Example 2. Treatment of investment earnings without a reserve fund. City *G* issues bonds having an issue price of \$11,200,000. *G* does not elect to exclude earnings on the reserve fund from available construction proceeds. *G* uses \$200,000 of proceeds to pay issuance costs and deposits \$1,000,000 of proceeds into a reasonably required reserve fund. *G* deposits the remaining \$10,000,000 of proceeds into a construction fund to be used for construction expenditures. On the issue date, *G* reasonably expects that, based on the reasonably expected date of substantial completion and rates of investment, total earnings on the construction fund will be \$800,000, and total earnings on the reserve fund to the date of substantial completion will be \$150,000. *G* reasonably expects that substantial completion will occur during the fourth spending period. As of the issue date, the amount of available construction proceeds is \$10,950,000 (\$10,000,000 originally deposited into the construction fund plus \$800,000 expected earnings on the construction fund and \$150,000 expected earnings on the reserve fund). To qualify as a construction issue, *G* must reasonably expect on the issue date that at least \$8,212,500 will be used for construction expenditures.

Example 3. Election to exclude earnings on a reserve fund. The facts are the same as *Example 2*, except that *G* elects on the issue date to exclude earnings on the reserve fund from available construction proceeds. The amount of available construction proceeds as of the issue date is \$10,800,000.

(j) *Election to treat portion of issue used for construction as separate issue—(1) In general.* For purposes of paragraph (e) of this section, if any proceeds of an issue are to be used for construction expenditures, the issuer may elect on or before the issue date to treat the portion of the issue that is not a re-funding issue as two, and only two, separate issues, if—

(i) One of the separate issues is a construction issue as defined in paragraph (f) of this section;

(ii) The issuer reasonably expects, as of the issue date, that this construction issue will finance all of the construction expenditures to be financed by the issue; and

(iii) The issuer makes an election to apportion the issue under this paragraph (j)(1) in which it identifies the amount of the issue price of the issue allocable to the construction issue.

(2) *Example.* The operation of this paragraph (j) is illustrated by the following example.

Example. City *D* issues bonds having an issue price of \$19,000,000. On the issue date, *D* reasonably expects to use \$10,800,000 of bond proceeds (including investment earnings) for construction expenditures for the project being financed. *D* deposits \$10,000,000 in a construction fund to be used for construction expenditures and \$9,000,000 in an acquisition fund to be used for acquisition of equipment not qualifying as construction expenditures. *D* estimates on the issue date, based on reasonably expected expenditures and rates of investment, that total earnings on the construction fund will be \$800,000 and total earnings on the acquisition fund will be \$200,000. Because the total construction expenditures to be financed by the issue are expected to be \$10,800,000, the maximum available construction proceeds for a construction issue is \$14,400,000 (\$10,800,000 divided by 0.75). To determine the maximum amount of the issue price allocable to a construction issue, the estimated investment earnings allocable to the construction issue are subtracted. The entire \$800,000 of earnings on the construction fund are allocable to the construction issue. Only a portion of the \$200,000 of earnings on the acquisition fund, however, are allocable to the construction issue. The total amount of the available construction proceeds that is expected to be used for acquisition is \$3,600,000 (\$14,400,000 – \$10,800,000). The portion of earnings on the acquisition fund that is allocable to the construction issue is \$78,261 (\$200,000 × \$3,600,000/\$9,200,000). Accordingly, *D* may elect on or before the issue date to treat up to \$13,521,739 of the issue price as a construction issue (\$14,400,000 – \$800,000 – \$78,261). *D*'s election must specify the amount of the issue price treated as a construction issue. The balance of the issue price is treated as a separate nonconstruction issue that is subject to the rebate requirement unless it meets another exception to arbitrage rebate. Because the financing of a construction issue is a separate governmental purpose under § 1.148-9(h), the

election causes the issue to be a multipurpose issue under that section.

(k) *One and one-half percent penalty in lieu of arbitrage rebate*—(1) *In general.* Under section 148(f)(4)(C)(vii), an issuer of a construction issue may elect on or before the issue date to pay a penalty (the *1½ percent penalty*) to the United States in lieu of the obligation to pay the rebate amount on available construction proceeds upon failure to satisfy the spending requirements of paragraph (e) of this section. The *1½ percent penalty* is calculated separately for each spending period, including each semiannual period after the end of the fourth spending period, and is equal to 1.5 percent times the underexpended proceeds as of the end of the spending period. For each spending period, underexpended proceeds equal the amount of available construction proceeds required to be spent by the end of the spending period, less the amount actually allocated to expenditures for the governmental purposes of the issue by that date. The *1½ percent penalty* must be paid to the United States no later than 90 days after the end of the spending period to which it relates. The *1½ percent penalty* continues to apply at the end of each spending period and each semiannual period thereafter until the earliest of the following—

- (i) The termination of the penalty under paragraph (1) of this section;
- (ii) The expenditure of all of the available construction proceeds; or
- (iii) The last stated final maturity date of bonds that are part of the issue and any bonds that refund those bonds.

(2) *Application to reasonable retainage.* If an issue meets the exception for reasonable retainage except that all retainage is not spent within 3 years of the issue date, the issuer must pay the *1½ percent penalty* to the United States for any reasonable retainage that was not so spent as of the close of the 3-year period and each later spending period.

(3) *Coordination with rebate requirement.* The rebate requirement is treated as met with respect to available construction proceeds for a period if the *1½ percent penalty* is paid in accordance with this section.

(1) *Termination of 1½ percent penalty*—(1) *Termination after initial temporary period.* The issuer may terminate the *1½ percent penalty* after the initial temporary period (a *section 148(f)(4)(C)(viii) penalty termination*) if—

(i) Not later than 90 days after the earlier of the end of the initial temporary period or the date construction is substantially completed, the issuer elects to terminate the *1½ percent penalty*; provided that solely for this purpose, the initial temporary period may be extended by the issuer to a date ending 5 years after the issue date;

(ii) Within 90 days after the end of the initial temporary period, the issuer pays a penalty equal to 3 percent of the unexpended available construction proceeds determined as of the end of the initial temporary period, multiplied by the number of years (including fractions of years computed to 2 decimal places) in the initial temporary period;

(iii) For the period beginning as of the close of the initial temporary period, the unexpended available construction proceeds are not invested in higher yielding investments; and

(iv) On the earliest date on which the bonds may be called or otherwise redeemed, with or without a call premium, the unexpended available construction proceeds as of that date (not including any amount earned after the date on which notice of the redemption was required to be given) must be used to redeem the bonds. Amounts used to pay any call premium are treated as used to redeem bonds. This redemption requirement may be met by purchases of bonds by the issuer on the open market at prices not exceeding fair market value. A portion of the annual principal payment due on serial bonds of a construction issue may be paid from the unexpended amount, but only in an amount no greater than the amount that bears the same ratio to the annual principal due that the total unexpended amount bears to the issue price of the construction issue.

(2) *Termination before end of initial temporary period.* If the construction to be financed by the construction issue is substantially completed before the end of the initial temporary period, the issuer may elect to terminate the *1½ percent penalty* before the end of the

initial temporary period (a *section 148(f)(4)(C)(ix) penalty termination*) if—

(i) Before the close of the initial temporary period and not later than 90 days after the date the construction is substantially completed, the issuer elects to terminate the 1½ percent penalty;

(ii) The election identifies the amount of available construction proceeds that will not be spent for the governmental purposes of the issue; and

(iii) The issuer has met all of the conditions for a *section 148(f)(4)(C)(viii) penalty termination*, applied as if the initial temporary period ended as of the date the required election for a *section 148(f)(4)(C)(ix) penalty termination* is made. That penalty termination election satisfies the required election for a *section 148(f)(4)(C)(viii) termination*.

(3) *Application to reasonable retainage.* Solely for purposes of determining whether the conditions for terminating the 1½ percent penalty are met, reasonable retainage may be treated as spent for a governmental purpose of the construction issue. Reasonable retainage that is so treated continues to be subject to the 1½ percent penalty.

(4) *Example.* The operation of this paragraph (1) is illustrated by the following example.

Example. City *I* issues a construction issue having a 20-year maturity and qualifying for a 3-year initial temporary period. The bonds are first subject to optional redemption 10 years after the issue date at a premium of 3 percent. *I* elects, on or before the issue date, to pay the 1½ percent penalty in lieu of arbitrage rebate. At the end of the 3-year temporary period, the project is not substantially completed, and \$1,500,000 of available construction proceeds of the issue are unspent. At that time, *I* reasonably expects to need \$500,000 to complete the project. *I* may terminate the 1½ percent penalty in lieu of arbitrage rebate with respect to the excess \$1,500,000 by electing to terminate within 90 days of the end of the initial temporary period; paying a penalty to the United States of \$135,000 (3 percent of \$1,500,000 multiplied by 3 years); restricting the yield on the investment of unspent available construction proceeds for 7 years until the first call date, although any portion of these proceeds may still be spent on the project prior to that call date; and using the available construction proceeds that, as of

the first call date, have not been allocated to expenditures for the governmental purposes of the issue to redeem bonds on that call date. If *I* fails to make the termination election, *I* is required to pay the 1½ percent penalty on unspent available construction proceeds every 6 months until the latest maturity date of bonds of the issue (or any bonds of another issue that refund such bonds).

(m) *Payment of penalties.* Each penalty payment under this section must be paid in the manner provided in § 1.148-3(g). See § 1.148-3(h) for rules on failures to pay penalties under this section.

[T.D. 8476, 58 FR 33535, June 18, 1993; 58 FR 44452, Aug. 23, 1993; T.D. 9777, 81 FR 46597, July 18, 2016]

§ 1.148-8 Small issuer exception to rebate requirement.

(a) *Scope.* Under *section 148(f)(4)(D)*, bonds issued to finance governmental activities of certain small issuers are treated as meeting the arbitrage rebate requirement of *section 148(f)(2)* (the “small issuer exception”). This section provides guidance on the small issuer exception.

(b) *General taxing powers.* The small issuer exception generally applies only to bonds issued by governmental units with general taxing powers. A governmental unit has general taxing powers if it has the power to impose taxes (or to cause another entity to impose taxes) of general applicability which, when collected, may be used for the general purposes of the issuer. The taxing power may be limited to a specific type of tax, provided that the applicability of the tax is not limited to a small number of persons. The governmental unit’s exercise of its taxing power may be subject to procedural limitations, such as voter approval requirements, but may not be contingent on approval by another governmental unit. See, also, *section 148(f)(4)(D)(iv)*.

(c) *Size limitation—(1) In general.* An issue (other than a refunding issue) qualifies for the small issuer exception only if the issuer reasonably expects, as of the issue date, that the aggregate face amount of all tax-exempt bonds (other than private activity bonds) issued by it during that calendar year will not exceed \$5,000,000; or the aggregate face amount of all tax-exempt bonds of the issuer (other than private

activity bonds) actually issued during that calendar year does not exceed \$5,000,000. For this purpose, if an issue has more than a de minimis amount of original issue discount or premium, *aggregate face amount* means the aggregate issue price of that issue (determined without regard to pre-issuance accrued interest).

(2) *Aggregation rules.* The following aggregation rules apply for purposes of applying the \$5,000,000 size limitation under paragraph (c)(1) of this section.

(i) *On-behalf-of issuers.* An issuer and all entities (other than political subdivisions) that issue bonds on behalf of that issuer are treated as one issuer.

(ii) *Subordinate entities—(A) In general.* Except as otherwise provided in paragraph (d) of this section and section 148(f)(4)(D)(iv), all bonds issued by a subordinate entity are also treated as issued by each entity to which it is subordinate. An issuer is subordinate to another governmental entity if it is directly or indirectly controlled by the other entity within the meaning of § 1.150-1(e).

(B) *Exception for allocations of size limitation.* If an entity properly makes an allocation of a portion of its \$5,000,000 size limitation to a subordinate entity (including an on behalf of issuer) under section 148(f)(4)(D)(iv), the portion of bonds issued by the subordinate entity under the allocation is treated as issued only by the allocating entity and not by any other entity to which the issuing entity is subordinate. These allocations are irrevocable and must bear a reasonable relationship to the benefits received by the allocating unit from issues issued by the subordinate entity. The benefits to be considered include the manner in which—

- (1) Proceeds are to be distributed;
- (2) The debt service is to be paid;
- (3) The facility financed is to be owned;
- (4) The use or output of the facility is to be shared; and
- (5) Costs of operation and maintenance are to be shared.

(iii) *Avoidance of size limitation.* An entity formed or availed of to avoid the purposes of the \$5,000,000 size limitation and all entities that would benefit from the avoidance are treated as one issuer. Situations in which an entity is

formed or availed of to avoid the purposes of the \$5,000,000 size limitation include those in which the issuer—

(A) Issues bonds which, but for the \$5,000,000 size limitation, would have been issued by another entity; and

(B) Does not receive a substantial benefit from the project financed by the bonds.

(3) *Certain refunding bonds not taken into account.* In applying the \$5,000,000 size limitation, there is not taken into account the portion of an issue that is a current refunding issue to the extent that the stated principal amount of the refunding bond does not exceed the portion of the outstanding stated principal amount of the refunded bond paid with proceeds of the refunding bond. For this purpose, *principal amount* means, in reference to a plain par bond, its stated principal amount plus accrued unpaid interest, and in reference to any other bond, its present value.

(d) *Pooled financings—treatment of conduit borrowers.* A loan to a conduit borrower in a pooled financing qualifies for the small issuer exception, regardless of the size of either the pooled financing or of any loan to other conduit borrowers, only if—

(1) The bonds of the pooled financing are not private activity bonds;

(2) None of the loans to conduit borrowers are private activity bonds; and

(3) The loan to the conduit borrower meets all the requirements of the small issuer exception.

(e) *Refunding issues—(1) In general.* Sections 148(f)(4)(D) (v) and (vi) provide restrictions on application of the small issuer exception to refunding issues.

(2) *Multipurpose issues.* The multipurpose issue allocation rules of § 1.148-9(h) apply for purposes of determining whether refunding bonds meet the requirements of section 148(f)(4)(D)(v).

[T.D. 8476, 58 FR 33540, June 18, 1993, as amended by T.D. 9777, 81 FR 46597, July 18, 2016]

§ 1.148-9 Arbitrage rules for refunding issues.

(a) *Scope of application.* This section contains special arbitrage rules for refunding issues. These rules apply for all

purposes of section 148 and govern allocations of proceeds, bonds, and investments to determine transferred proceeds, temporary periods, reasonably required reserve or replacement funds, minor portions, and separate issue treatment of certain multipurpose issues.

(b) *Transferred proceeds allocation rule*—(1) *In general.* When proceeds of the refunding issue discharge any of the outstanding principal amount of the prior issue, proceeds of the prior issue become transferred proceeds of the refunding issue and cease to be proceeds of the prior issue. The amount of proceeds of the prior issue that becomes transferred proceeds of the refunding issue is an amount equal to the proceeds of the prior issue on the date of that discharge multiplied by a fraction—

(i) The numerator of which is the principal amount of the prior issue discharged with proceeds of the refunding issue on the date of that discharge; and

(ii) The denominator of which is the total outstanding principal amount of the prior issue on the date immediately before the date of that discharge.

(2) *Special definition of principal amount.* For purposes of this section, *principal amount* means, in reference to a plain par bond, its stated principal amount, and in reference to any other bond, its present value.

(3) *Relation of transferred proceeds rule to universal cap rule*—(i) *In general.* Paragraphs (b)(1) and (c) of this section apply to allocate transferred proceeds and corresponding investments to a refunding issue on any date required by those paragraphs before the application of the universal cap rule of § 1.148-6(b)(2) to reallocate any of those amounts. To the extent nonpurpose investments allocable to proceeds of a refunding issue exceed the universal cap for the issue on the date that amounts become transferred proceeds of the refunding issue, those transferred proceeds and corresponding investments are reallocated back to the issue from which they transferred on that same date to the extent of the unused universal cap on that prior issue.

(ii) *Example.* The following example illustrates the application of this paragraph of (b)(3):

Example. On January 1, 1995, \$100,000 of nonpurpose investments allocable to proceeds of issue A become transferred proceeds of issue B under § 1.148-9, but the unused portion of issue B's universal cap is \$75,000 as of that date. On January 1, 1995, issue A has unused universal cap in excess of \$25,000. Thus, \$25,000 of nonpurpose investments representing the transferred proceeds are immediately reallocated back to issue A on January 1, 1995, and are proceeds of issue A. On the next transfer date under § 1.148-9, the \$25,000 receives no priority in determining transferred proceeds as of that date but is treated the same as all other proceeds of issue A subject to transfer.

(4) *Limitation on multi-generational transfers.* This paragraph (b)(4) contains limitations on the manner in which proceeds of a first generation issue that is refunded by a refunding issue (a *second generation issue*) become transferred proceeds of a refunding issue (a *third generation issue*) that refunds the second generation issue. Proceeds of the first generation issue that become transferred proceeds of the third generation issue are treated as having a yield equal to the yield on the refunding escrow allocated to the second generation issue (*i.e.*, as determined under § 1.148-5(b)(2)(iv)). The determination of the transferred proceeds of the third generation issue does not affect compliance with the requirements of section 148, including the determination of the amount of arbitrage rebate with respect to or the yield on the refunding escrow, of the second generation issue.

(c) *Special allocation rules for refunding issues*—(1) *Allocations of investments*—(i) *In general.* Except as otherwise provided in this paragraph (c), investments purchased with sale proceeds or investment proceeds of a refunding issue must be allocated to those proceeds, and investments not purchased with those proceeds may not be allocated to those proceeds (*i.e.*, a *specific tracing method*).

(ii) *Allocations to transferred proceeds.* When proceeds of a prior issue become transferred proceeds of a refunding issue, investments (and the related payments and receipts) of proceeds of the prior issue that are held in a refunding escrow for another issue are allocated to the transferred proceeds under the ratable allocation method described in paragraph (c)(1)(iii) of this section. Investments of proceeds of the

prior issue that are not held in a refunding escrow for another issue are allocated to the transferred proceeds by application of the allocation methods described in paragraph (c)(1) (iii) or (iv) of this section, consistently applied to all investments on a transfer date.

(iii) *Ratable allocation method.* Under the ratable allocation method, a ratable portion of each nonpurpose and purpose investment of proceeds of the prior issue is allocated to transferred proceeds of the refunding issue.

(iv) *Representative allocation method—*
(A) *In general.* Under the representative allocation method, representative portions of the portfolio of nonpurpose investments and the portfolio of purpose investments of proceeds of the prior issue are allocated to transferred proceeds of the refunding issue. Unlike the ratable allocation method, this representative allocation method permits an allocation of particular whole investments. Whether a portion is representative is based on all the facts and circumstances, including, without limitation, whether the current yields, maturities, and current unrealized gains or losses on the particular allocated investments are reasonably comparable to those of the unallocated investments in the aggregate. In addition, if a portion of nonpurpose investments is otherwise representative, it is within the issuer's discretion to allocate the portion from whichever source of funds it deems appropriate, such as a reserve fund or a construction fund for a prior issue.

(B) *Mark-to-market safe harbor for representative allocation method.* In addition to other representative allocations, a specific allocation of a particular nonpurpose investment to transferred proceeds (e.g., of lower yielding investments) is treated as satisfying the representative allocation method if that investment is valued at fair market value on the transfer date in determining the payments and receipts on that date, but only if the portion of the nonpurpose investments that transfers is based on the relative fair market value of all nonpurpose investments.

(2) *Allocations of mixed escrows to expenditures for principal, interest, and redemption prices on a prior issue—*(i) *In*

general. Except for amounts required or permitted to be accounted for under paragraph (c)(2)(ii) of this section, proceeds of a refunding issue and other amounts that are not proceeds of a refunding issue that are deposited in a refunding escrow (a *mixed escrow*) must be accounted for under this paragraph (c)(2)(i). Those proceeds and other amounts must be allocated to expenditures for principal, interest, or stated redemption prices on the prior issue so that the expenditures of those proceeds do not occur faster than ratably with expenditures of the other amounts in the mixed escrow. During the period that the prior issue has unspent proceeds, however, these allocations must be ratable (with reasonable adjustments for rounding) both between sources for expenditures (*i.e.*, proceeds and other amounts) and between uses (*i.e.*, principal, interest, and stated redemption prices on the prior issue).

(ii) *Exceptions—*(A) *Mandatory allocation of certain non-proceeds to earliest expenditures.* If amounts other than proceeds of the refunding issue are deposited in a mixed escrow, but before the issue date of the refunding issue those amounts had been held in a bona fide debt service fund or a fund to carry out the governmental purpose of the prior issue (e.g., a construction fund), those amounts must be allocated to the earliest maturing investments in the mixed escrow.

(B) *Permissive allocation of non-proceeds to earliest expenditures.* Excluding amounts covered by paragraph (c)(2)(ii)(A) of this section and subject to any required earlier expenditure of those amounts, any amounts in a mixed escrow that are not proceeds of a refunding issue may be allocated to the earliest maturing investments in the mixed escrow, provided that those investments mature and the proceeds thereof are expended before the date of any expenditure from the mixed escrow to pay any principal of the prior issue.

(d) *Temporary periods in refundings—*
(1) *In general.* Proceeds of a refunding issue may be invested in higher yielding investments under section 148(c) only during the temporary periods described in paragraph (d)(2) of this section.

(2) *Types of temporary periods in refundings.* The available temporary periods for proceeds of a refunding issue are as follows:

(i) *General temporary period for refunding issues.* Except as otherwise provided in this paragraph (d)(2), the temporary period for proceeds (other than transferred proceeds) of a refunding issue is the period ending 30 days after the issue date of the refunding issue.

(ii) *Temporary periods for current refunding issues—(A) In general.* Except as otherwise provided in paragraph (d)(2)(ii)(B) of this section, the temporary period for proceeds (other than transferred proceeds) of a current refunding issue is 90 days.

(B) *Temporary period for short-term current refunding issues.* The temporary period for proceeds (other than transferred proceeds) of a current refunding issue that has an original term to maturity of 270 days or less may not exceed 30 days. The aggregate temporary periods for proceeds (other than transferred proceeds) of all current refunding issues described in the preceding sentence that are part of the same series of refundings is 90 days. An issue is part of a series of refundings if it finances or refinances the same expenditures for a particular governmental purpose as another issue.

(iii) *Temporary periods for transferred proceeds—(A) In general.* Except as otherwise provided in paragraph (d)(2)(iii)(B) of this section, each available temporary period for transferred proceeds of a refunding issue begins on the date those amounts become transferred proceeds of the refunding issue and ends on the date that, without regard to the discharge of the prior issue, the available temporary period for those proceeds would have ended had those proceeds remained proceeds of the prior issue.

(B) *Termination of initial temporary period for prior issue in an advance refunding.* The initial temporary period under § 1.148-2(e) (2) and (3) for the proceeds of a prior issue that is refunded by an advance refunding issue (including transferred proceeds) terminates on the issue date of the advance refunding issue.

(iv) *Certain short-term gross proceeds.* Except for proceeds of a refunding issue

held in a refunding escrow, proceeds otherwise reasonably expected to be used to pay principal or interest on the prior issue, replacement proceeds not held in a bona fide debt service fund, and transferred proceeds, the temporary period for gross proceeds of a refunding issue is the 13-month period beginning on the date of receipt.

(e) *Reasonably required reserve or replacement funds in refundings.* In addition to the requirements of § 1.148-2(f), beginning on the issue date of a refunding issue, a reserve or replacement fund for a refunding issue or a prior issue is a reasonably required reserve or replacement fund under section 148(d) that may be invested in higher yielding investments only if the aggregate amount invested in higher yielding investments under this paragraph (e) for both the refunding issue and the prior issue does not exceed the size limitations under § 1.148-2 (f)(2) and (f)(3), measured by reference to the refunding issue only (regardless of whether proceeds of the prior issue have become transferred proceeds of the refunding issue).

(f) *Minor portions in refundings.* Beginning on the issue date of the refunding issue, gross proceeds not in excess of a minor portion of the refunding issue qualify for investment in higher yielding investments under section 148(e), and gross proceeds not in excess of a minor portion of the prior issue qualify for investment in higher yielding investments under either section 148(e) or section 149(d)(3)(A)(v), whichever is applicable. *Minor portion* is defined in § 1.148-2(g).

(g) *Certain waivers permitted.* On or before the issue date, an issuer may waive the right to invest in higher yielding investments during any temporary period or as part of a reasonably required reserve or replacement fund. At any time, an issuer may waive the right to invest in higher yielding investments as part of a minor portion.

(h) *Multipurpose issue allocations—(1) Application of multipurpose issue allocation rules.* The portion of the bonds of a multipurpose issue reasonably allocated to any separate purpose under this paragraph (h) is treated as a separate issue for all purposes of section 148 except the following—

(i) *Arbitrage yield.* Except to the extent that the proceeds of an issue are allocable to two or more conduit loans that are tax-exempt bonds, determining the yield on a multipurpose issue and the yield on investments for purposes of the arbitrage yield restrictions of section 148 and the arbitrage rebate requirement of section 148(f);

(ii) *Rebate amount.* Except as provided in paragraph (h)(1)(i) of this section, determining the rebate amount for a multipurpose issue, including subsidiary matters with respect to that determination, such as the computation date credit under § 1.148-3(d)(1), the due date for payments, and the \$100,000 bona fide debt service fund exception under section 148(f)(4)(A)(ii);

(iii) *Minor portion.* Determining the *minor portion* of an issue under section 148(e);

(iv) *Reasonably required reserve or replacement fund.* Determining the portion of an issue eligible for investment in higher yielding investments as part of a reasonably required reserve or replacement fund under section 148(d); and

(v) *Effective date.* Applying the provisions of § 1.148-11(b) (relating to elective retroactive application of §§ 1.148-1 through 1.148-10 to certain issues).

(2) *Rules on allocations of multipurpose issues—(i) In general.* This paragraph (h) applies to allocations of multipurpose issues, including allocations involving the refunding purposes of the issue. Except as otherwise provided in this paragraph (h), proceeds, investments, and bonds of a multipurpose issue may be allocated among the various separate purposes of the issue using any reasonable, consistently applied allocation method. An allocation is not reasonable if it achieves more favorable results under section 148 or 149(d) than could be achieved with actual separate issues. An allocation under this paragraph (h) may be made at any time, but once made may not be changed.

(ii) *Allocations involving certain common costs.* A ratable allocation of common costs (as described in paragraph (h)(3)(ii) of this section) among the separate purposes of the multipurpose issue is generally reasonable. If another allocation method more accurately reflects the extent to which any

separate purpose of a multipurpose issue enjoys the economic benefit or bears the economic burden of certain common costs, that allocation method may be used.

(3) *Separate purposes of a multipurpose issue—(i) In general.* Separate purposes of a multipurpose issue include refunding a separate prior issue, financing a separate purpose investment, financing a construction issue (as defined in § 1.148-7(f)), and any clearly discrete governmental purpose reasonably expected to be financed by that issue. In general, all integrated or functionally related capital projects that qualify for the same initial temporary period under § 1.148-2(e)(2) are treated as having a single governmental purpose. The separate purposes of a refunding issue include the separate purposes of the prior issue, if any. Separate purposes may be treated as a single purpose if the proceeds used to finance those purposes are eligible for the same initial temporary period under section 148(c). For example, the use of proceeds of a multipurpose issue to finance separate qualified mortgage loans may be treated as a single purpose.

(ii) *Financing common costs.* Common costs of a multipurpose issue are not separate purposes. Common costs include issuance costs, accrued interest, capitalized interest on the issue, a reserve or replacement fund, qualified guarantee fees, and similar costs properly allocable to the separate purposes of the issue.

(iii) *Example.* The following example illustrates the application of this paragraph (h)(3).

Example. On January 1, 1994, Housing Authority of State A issues a \$10 million issue (the 1994 issue) at an interest rate of 10 percent to finance qualified mortgage loans for owner-occupied residences under section 143. During 1994, A originates \$5 million in qualified mortgage loans at an interest rate of 10 percent. In 1995, the market interest rates for housing loans falls to 8 percent and A is unable to originate further loans from the 1994 issue. On January 1, 1996, A issues a \$5 million issue (the 1996 issue) at an interest rate of 8 percent to refund partially the 1994 issue. Under paragraph (h) of this section, A treats the portion of the 1994 issue used to originate \$5 million in loans as a separate

issue comprised of that group of purpose investments. A allocates those purpose investments representing those loans to that separate unrefunded portion of the issue. In addition, A treats the unoriginated portion of the 1994 issue as a separate issue and allocates the nonpurpose investments representing the unoriginated proceeds of the 1994 issue to the refunded portion of the issue. Thus, when proceeds of the 1996 issue are used to pay principal on the refunded portion of the 1994 issue that is treated as a separate issue under paragraph (h) of this section, only the portion of the 1994 issue representing unoriginated loan funds invested in nonpurpose investments transfer to become transferred proceeds of the 1996 issue.

(4) *Allocations of bonds of a multipurpose issue*—(i) *Reasonable allocation of bonds to portions of issue.* After reasonable adjustment of the issue price of a multipurpose issue to account for common costs, the portion of the bonds of a multipurpose issue allocated to a separate purpose must have an issue price that bears the same ratio to the aggregate issue price of the multipurpose issue as the portion of the sale proceeds of the multipurpose issue used for that separate purpose bears to the aggregate sale proceeds of the multipurpose issue. For a refunding issue used to refund two or more prior issues, the portion of the sales proceeds allocated to the refunding of a separate prior issue is based on the present value of the refunded debt service on that prior issue, using the yield on investments in the refunding escrow allocable to the entire refunding issue as the discount rate.

(ii) *Safe harbor for pro rata allocation method for bonds.* The use of the relative amount of sales proceeds used for each separate purpose to ratably allocate each bond or a ratable number of substantially identical whole bonds is a reasonable method for allocating bonds of a multipurpose issue.

(iii) *Safe harbor for allocations of bonds used to finance separate purpose investments.* An allocation of a portion of the bonds of a multipurpose issue to a particular purpose investment is generally reasonable if that purpose investment has principal and interest payments that reasonably coincide in time and amount to principal and interest payments on the bonds allocated to that purpose investment.

(iv) *Rounding of bond allocations to next whole bond denomination permitted.* An allocation that rounds each resulting fractional bond up or down to the next integral multiple of a permitted denomination of bonds of that issue not in excess of \$100,000 does not prevent the allocation from satisfying this paragraph (h)(4).

(v) *Restrictions on allocations of bonds to refunding purposes.* For each portion of a multipurpose issue that is used to refund a separate prior issue, a method of allocating bonds of that issue is reasonable under this paragraph (h) only if, in addition to the requirements of paragraphs (h)(1) and (h)(2) of this section, the portion of the bonds allocated to the refunding of that prior issue—

(A) Results from a pro rata allocation under paragraph (h)(4)(ii) of this section;

(B) Reflects aggregate principal and interest payable in each bond year that is less than, equal to, or proportionate to, the aggregate principal and interest payable on the prior issue in each bond year;

(C) Results from an allocation of all the bonds of the entire multipurpose issue in proportion to the remaining weighted average economic life of the capital projects financed or refinanced by the issue, determined in the same manner as under section 147(b); or

(D) Results from another reasonable allocation method, but only to the extent that the application of the allocation methods provided in this paragraph (h)(4)(v) is not permitted under state law restrictions applicable to the bonds, reasonable terms of bonds issued before, or subject to a master indenture that became effective prior to, July 1, 1993, or other similar restrictions or circumstances. This paragraph (h)(4)(v)(D) shall be strictly construed and is available only if it does not result in a greater burden on the market for tax-exempt bonds than would occur using one of the other allocation methods provided in this paragraph (h)(4)(v). (See also § 1.148-11(c)(2).)

(vi) *Exception for refundings of interim notes.* Paragraph (h)(4)(v) of this section need not be applied to refunding bonds issued to provide permanent financing for one or more projects if the prior issue had a term of less than 3

years and was sold in anticipation of permanent financing, but only if the aggregate term of all prior issues sold in anticipation of permanent financing was less than 3 years.

(5) *Limitation on multi-generation allocations.* This paragraph (h) does not apply to allocations of a multipurpose refunded issue unless that refunded issue is refunded directly by an issue to which this paragraph (h) applies. For example, if a 1994 issue refunds a 1984 multipurpose issue, which in turn refunded a 1980 multipurpose issue, this paragraph (h) applies to allocations of the 1984 issue for purposes of allocating the refunding purposes of the 1994 issue, but does not permit allocations of the 1980 issue.

(i) *Operating rules for separation of prior issue into refunded and unrefunded portions—(1) In general.* For purposes of paragraph (h)(3)(i) of this section, the separate purposes of a prior issue include the refunded and unrefunded portions of the prior issue. Thus, the refunded and unrefunded portions are treated as separate issues under paragraph (h)(1) of this section. Those separate issues must satisfy the requirements of paragraphs (h) and (i) of this section. The refunded portion of the bonds of a prior issue is based on a fraction the numerator of which is the principal amount of the prior issue to be paid with proceeds of the refunding issue and the denominator of which is the outstanding principal amount of the bonds of the prior issue, each determined as of the issue date of the refunding issue. (See also paragraph (b)(2) of this section.)

(2) *Allocations of proceeds and investments in a partial refunding.* As of the issue date of a partial refunding issue under this paragraph (i), unspent proceeds of the prior issue are allocated ratably between the refunded and unrefunded portions of the prior issue and the investments allocable to those unspent proceeds are allocated in the manner required for the allocation of investments to transferred proceeds under paragraph (c)(1)(ii) of this section.

(3) *References to prior issue.* If the refunded and unrefunded portions of a prior issue are treated as separate issues under this paragraph (i), then,

except to the extent that the context clearly requires otherwise (e.g., references to the aggregate prior issue in the mixed escrow rule in paragraph (c)(2) of this section), all references in this section to a prior issue refer only to the refunded portion of that prior issue.

[T.D. 8476, 58 FR 33541, June 18, 1993; 58 FR 44453, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24045, May 10, 1994; T.D. 8718, 62 FR 25512, May 9, 1997]

§ 1.148-10 Anti-abuse rules and authority of Commissioner.

(a) *Abusive arbitrage device—(1) In general.* Bonds of an issue are arbitrage bonds under section 148 if an abusive arbitrage device under paragraph (a)(2) of this section is used in connection with the issue. This paragraph (a) is to be applied and interpreted broadly to carry out the purposes of section 148, as further described in § 1.148-0. Except as otherwise provided in paragraph (c) of this section, any action that is expressly permitted by section 148 or §§ 1.148-1 through 1.148-11 is not an abusive arbitrage device (e.g., investment in higher yielding investments during a permitted temporary period under section 148(c)).

(2) *Abusive arbitrage device defined.* Any action is an abusive arbitrage device if the action has the effect of—

(i) Enabling the issuer to exploit the difference between tax-exempt and taxable interest rates to obtain a material financial advantage; and

(ii) Overburdening the tax-exempt bond market.

(3) *Exploitation of tax-exempt interest rates.* An action may exploit tax-exempt interest rates under paragraph (a)(2) of this section as a result of an investment of any portion of the gross proceeds of an issue over any period of time, notwithstanding that, in the aggregate, the gross proceeds of the issue are not invested in higher yielding investments over the term of the issue.

(4) *Overburdening the tax-exempt market.* An action overburdens the tax-exempt bond market under paragraph (a)(2)(ii) of this section if it results in issuing more bonds, issuing bonds earlier, or allowing bonds to remain outstanding longer than is otherwise reasonably necessary to accomplish the

governmental purposes of the bonds, based on all the facts and circumstances. Whether an action is reasonably necessary to accomplish the governmental purposes of the bonds depends on whether the primary purpose of the transaction is a bona fide governmental purpose (e.g., an issue of refunding bonds to achieve a debt service restructuring that would be issued independent of any arbitrage benefit). An important factor bearing on this determination is whether the action would reasonably be taken to accomplish the governmental purpose of the issue if the interest on the issue were not excludable from gross income under section 103(a) (assuming that the hypothetical taxable interest rate would be the same as the actual tax-exempt interest rate). Factors evidencing an overissuance include the issuance of an issue the proceeds of which are reasonably expected to exceed by more than a minor portion the amount necessary to accomplish the governmental purposes of the issue, or an issue the proceeds of which are, in fact, substantially in excess of the amount of sale proceeds allocated to expenditures for the governmental purposes of the issue. One factor evidencing an early issuance is the issuance of bonds that do not qualify for a temporary period under § 1.148-2(e)(2), (e)(3), or (e)(4). One factor evidencing that bonds may remain outstanding longer than necessary is a term that exceeds the safe harbors against the creation of replacement proceeds under § 1.148-1(c)(4)(i)(B). These factors may be outweighed by other factors, such as bona fide cost underruns, an issuer's bona fide need to finance extraordinary working capital items, or an issuer's long-term financial distress.

(b) *Consequences of overburdening the tax-exempt bond market*—(1) *In general.* An issue that overburdens the tax-exempt bond market (within the meaning of paragraph (a)(4) of this section) is subject to the following special limitations—

(i) *Special yield restriction.* Investments are subject to the definition of *materially higher yield* under § 1.148-2(d) that is equal to one-thousandth of 1 percent. In addition, each investment is treated as a separate class of invest-

ments under § 1.148-5(b)(2)(ii), the yield on which may not be blended with that of other investments.

(ii) *Certain regulatory provisions inapplicable.* The provisions of § 1.148-5(c) (relating to yield reduction payments) and § 1.148-5(e) (2) and (3) (relating to recovery of qualified administrative costs) do not apply.

(iii) *Restrictive expenditure rule.* Proceeds are not allocated to expenditures unless the proceeds-spent-last rule under § 1.148-6(d)(3)(i) is satisfied, applied by treating those proceeds as proceeds to be used for restricted working capital expenditures. For this purpose, available amount includes a reasonable working capital reserve as defined in § 1.148-6(d)(3)(iii)(B).

(2) *Application.* The provisions of this paragraph (b) only apply to the portion of an issue that, as a result of actions taken (or actions not taken) after the issue date, overburdens the market for tax-exempt bonds, except that for an issue that is reasonably expected as of the issue date to overburden the market, those provisions apply to all of the gross proceeds of the issue.

(c) *Anti-abuse rules on excess gross proceeds of advance refunding issues*—(1) *In general.* Except as otherwise provided in this paragraph (c), an abusive arbitrage device is used and bonds of an advance refunding issue are arbitrage bonds if the issue has excess gross proceeds.

(2) *Definition of excess gross proceeds.* Excess gross proceeds means all gross proceeds of an advance refunding issue that exceed an amount equal to 1 percent of sale proceeds of the issue, other than gross proceeds allocable to—

(i) Payment of principal, interest, or call premium on the prior issue;

(ii) Payment of pre-issuance accrued interest on the refunding issue, and interest on the refunding issue that accrues for a period up to the completion date of any capital project for which the prior issue was issued, plus one year;

(iii) A reasonably required reserve or replacement fund for the refunding issue or investment proceeds of such a fund;

(iv) Payment of costs of issuance of the refunding issue;

(v) Payment of administrative costs allocable to repaying the prior issue, carrying and repaying the refunding issue, or investments of the refunding issue;

(vi) Transferred proceeds that will be used or maintained for the governmental purpose of the prior issue;

(vii) Interest on purpose investments;

(viii) Replacement proceeds in a sinking fund for the refunding issue;

(ix) Qualified guarantee fees for the refunding issue or the prior issue; and

(x) Fees for a qualified hedge for the refunding issue.

(3) *Special treatment of transferred proceeds.* For purposes of this paragraph (c), all unspent proceeds of the prior issue as of the issue date of the refunding issue are treated as transferred proceeds of the advance refunding issue.

(4) *Special rule for crossover refundings.* An advance refunding issue is not an issue of arbitrage bonds under this paragraph (c) if all excess gross proceeds of the refunding issue are used to pay interest that accrues on the refunding issue before the prior issue is discharged, and no gross proceeds of any refunding issue are used to pay interest on the prior issue or to replace funds used directly or indirectly to pay such interest (other than transferred proceeds used to pay interest on the prior issue that accrues for a period up to the completion date of the project for which the prior issue was issued, plus one year, or proceeds used to pay principal that is attributable to accrued original issue discount).

(5) *Special rule for gross refundings.* This paragraph (c)(5) applies if an advance refunding issue (the *series B issue*) is used together with one or more other advance refunding issues (the *series A issues*) in a gross refunding of a prior issue, but only if the use of a gross refunding method is required under bond documents that were effective prior to November 6, 1992. These advance refunding issues are not arbitrage bonds under this paragraph (c) if—

(i) All excess gross proceeds of the series B issue and each series A issue are investment proceeds used to pay principal and interest on the series B issue;

(ii) At least 99 percent of all principal and interest on the series B issue is

paid with proceeds of the series B and series A issues or with the earnings on other amounts in the refunding escrow for the prior issue;

(iii) The series B issue is discharged not later than the prior issue; and

(iv) As of any date, the amount of gross proceeds of the series B issue allocated to expenditures does not exceed the aggregate amount of expenditures before that date for principal and interest on the series B issue, and administrative costs of carrying and repaying the series B issue, or of investments of the series B issue.

(d) *Examples.* The provisions of this section are illustrated by the following examples:

Example 1. Mortgage sale. In 1982, City issued its revenue issue (the *1982 issue*) and lent the proceeds to Developer to finance a low-income housing project under former section 103(b)(4)(A) of the 1954 Code. In 1994, Developer encounters financial difficulties and negotiates with City to refund the 1982 issue. City issues \$10 million in principal amount of its 8 percent bonds (the *1994 issue*). City lends the proceeds of the 1994 issue to Developer. To evidence Developer's obligation to repay that loan, Developer, as obligor, issues a note to City (the *City note*). Bank agrees to provide Developer with a direct-pay letter of credit pursuant to which Bank will make all payments to the trustee for the 1994 issue necessary to meet Developer's obligations under the City note. Developer pays Bank a fee for the issuance of the letter of credit and issues a note to Bank (the *Bank note*). The Bank note is secured by a mortgage on the housing project and is guaranteed by FHA. The Bank note and the 1994 issue have different prepayment terms. The City does not reasonably expect to treat prepayments of the Bank note as gross proceeds of the 1994 issue. At the same time or pursuant to a series of related transactions, Bank sells the Bank note to Investor for \$9.5 million. Bank invests these monies together with its other funds. In substance, the transaction is a loan by City to Bank, under which Bank enters into a series of transactions that, in effect, result in Bank retaining \$9.5 million in amounts treated as proceeds of the 1994 issue. Those amounts are invested in materially higher yielding investments that provide funds sufficient to equal or exceed the Bank's liability under the letter of credit. Alternatively, the letter of credit is investment property in a sinking fund for the 1994 issue provided by Developer, a substantial beneficiary of the financing. Because, in substance, Developer acquires the \$10 million principal amount letter of credit for a fair market value purchase price

of \$9.5 million, the letter of credit is a materially higher yielding investment. Neither result would change if Developer's obligation under the Bank note is contingent on Bank performing its obligation under the letter of credit. Each characterization causes the bonds to be arbitrage bonds.

Example 2. Bonds outstanding longer than necessary for yield-blending device. (i) *Longer bond maturity to create sinking fund.* In 1994, Authority issues an advance refunding issue (the *refunding issue*) to refund a 1982 prior issue (the *prior issue*). Under current market conditions, Authority will have to invest the refunding escrow at a yield significantly below the yield on the refunding issue. Authority issues its refunding issue with a longer weighted average maturity than otherwise necessary primarily for the purpose of creating a sinking fund for the refunding issue that will be invested in a guaranteed investment contract. The weighted average maturity of the refunding issue is less than 120 percent of the remaining average economic life of the facilities financed with the proceeds of the prior issue. The guaranteed investment contract has a yield that is higher than the yield on the refunding issue. The yield on the refunding escrow blended with the yield on the guaranteed investment contract does not exceed the yield on the issue. The refunding issue uses an abusive arbitrage device and the bonds of the issue are arbitrage bonds under section 148(a).

(ii) *Refunding of noncallable bonds.* The facts are the same as in paragraph (i) of this *Example 2* except that instead of structuring the refunding issue to enable it to take advantage of sinking fund investments, Authority will also refund other long-term, non-callable bonds in the same refunding issue. There are no savings attributable to the refunding of the non-callable bonds (e.g., a *low-to-high* refunding). The Authority invests the portion of the proceeds of the refunding issue allocable to the refunding of the non-callable bonds in the refunding escrow at a yield that is higher than the yield on the refunding issue, based on the relatively long escrow period for this portion of the refunding. The Authority invests the other portion of the proceeds of the refunding issue in the refunding escrow at a yield lower than the yield on the refunding issue. The blended yield on all the investments in the refunding escrow for the prior issues does not exceed the yield on the refunding issue. The portion of the refunding issue used to refund the noncallable bonds, however, was not otherwise necessary and was issued primarily to exploit the difference between taxable and tax-exempt rates for that long portion of the refunding escrow to minimize the effect of lower yielding investments in the other portion of the escrow. The refunding issue uses an abusive arbitrage device and the bonds of the issue are arbitrage bonds.

(iii) *Governmental purpose.* In paragraphs (i) and (ii) of this *Example 2*, the existence of a governmental purpose for the described financing structures would not change the conclusions unless Authority clearly established that the primary purpose for the use of the particular structure was a bona fide governmental purpose. The fact that each financing structure had the effect of eliminating significant amounts of negative arbitrage is strong evidence of a primary purpose that is not a bona fide governmental purpose. Moreover, in paragraph (i) of this *Example 2*, the structure of the refunding issue coupled with the acquisition of the guaranteed investment contract to lock in the investment yield associated with the structure is strong evidence of a primary purpose that is not a bona fide governmental purpose.

Example 3. Window refunding. (i) Authority issues its 1994 refunding issue to refund a portion of the principal and interest on its outstanding 1985 issue. The 1994 refunding issue is structured using zero-coupon bonds that pay no interest or principal for the 5-year period following the issue date. The proceeds of the 1994 refunding issue are deposited in a refunding escrow to be used to pay only the interest requirements of the refunded portion of the 1985 issue. Authority enters into a guaranteed investment contract with a financial institution, *G*, under which *G* agrees to provide a guaranteed yield on revenues invested by Authority during the 5-year period following the issue date. The guaranteed investment contract has a yield that is no higher than the yield on the refunding issue. The revenues to be invested under this guaranteed investment contract consist of the amounts that Authority otherwise would have used to pay principal and interest on the 1994 refunding issue. The guaranteed investment contract is structured to generate receipts at times and in amounts sufficient to pay the principal and redemption requirements of the refunded portion of the 1985 issue. A principal purpose of these transactions is to avoid transferred proceeds. Authority will continue to invest the unspent proceeds of the 1985 issue that are on deposit in a refunding escrow for its 1982 issue at a yield equal to the yield on the 1985 issue and will not otherwise treat those unspent proceeds as transferred proceeds of the 1994 refunding issue. The 1994 refunding issue is an issue of arbitrage bonds since those bonds involve a transaction or series of transactions that overburdens the market by leaving bonds outstanding longer than is necessary to obtain a material financial advantage based on arbitrage. Specifically, Authority has structured the 1994 refunding issue to make available for the refunding of the 1985 issue replacement proceeds rather than proceeds so that the unspent proceeds of the 1985 issue will not become transferred proceeds of the 1994 refunding issue.

(ii) The result would be the same in each of the following circumstances:

(A) The facts are the same as in paragraph (i) of this *Example 3* except that Authority does not enter into the guaranteed investment contract but instead, as of the issue date of the 1994 refunding issue, reasonably expects that the released revenues will be available for investment until used to pay principal and interest on the 1985 issue.

(B) The facts are the same as in paragraph (i) of this *Example 3* except that there are no unspent proceeds of the 1985 issue and Authority invests the released revenues at a yield materially higher than the yield on the 1994 issue.

(C) The facts are the same as in paragraph (i) of this *Example 3* except that Authority uses the proceeds of the 1994 issue for capital projects instead of to refund a portion of the 1985 issue.

Example 4. Sale of conduit loan. On January 1, 1994, Authority issues a conduit financing issue (the *1994 conduit financing issue*) and uses the proceeds to purchase from City, an unrelated party, a tax-exempt bond of City (the *City note*). The proceeds of the 1994 conduit financing issue are to be used to advance refund a prior conduit financing issue that was issued in 1988 and used to make a loan to City. The 1994 conduit financing issue and the City note each have a yield of 8 percent on January 1, 1994. On June 30, 1996, interest rates have decreased and Authority sells the City note to D, a person unrelated to either City or Authority. Based on the sale price of the City note and treating June 30, 1996 as the issue date of the City note, the City note has a 6 percent yield. Authority deposits the proceeds of the sale of the City note into an escrow to redeem the bonds of the 1994 conduit financing issue on January 1, 2001. The escrow is invested in nonpurpose investments having a yield of 8 percent. For purposes of section 149(d), City and Authority are related parties and, therefore, the issue date of the City note is treated as being June 30, 1996. Thus, the City note is an advance refunding of Authority's 1994 conduit financing issue. Interest on the City note is not exempt from Federal income tax from the date it is sold to D under section 149(d), because, by investing the escrow investments at a yield of 8 percent instead of a yield not materially higher than 6 percent, the sale of the City note employs a device to obtain a material financial advantage, based on arbitrage, apart from the savings attributable to lower interest rates. In addition, the City note is not a tax-exempt bond because the note is the second advance refunding of the original bond under section 149(d)(3). The City note also employs an abusive arbitrage device and is an arbitrage bond under section 148.

Example 5. Re-refunding. (i) On January 1, 1984, City issues a tax-exempt issue (the *1984*

issue) to finance the cost of constructing a prison. The 1984 issue has a 7 percent yield and a 30-year maturity. The 1984 issue is callable at any time on or after January 1, 1994. On January 1, 1990, City issues a refunding issue (the *1990 issue*) to advance refund the 1984 issue. The 1990 issue has an 8 percent yield and a 30-year maturity. The 1990 issue is callable at any time on or after January 1, 2000. The proceeds of the 1990 issue are invested at an 8 percent yield in a refunding escrow for the 1984 issue (the *original 1984 escrow*) in a manner sufficient to pay debt service on the 1984 issue until maturity (*i.e.*, an escrow to maturity). On January 1, 1994, City issues a refunding issue (the *1994 issue*). The 1994 issue has a 6 percent yield and a 30-year maturity. City does not invest the proceeds of the 1994 issue in a refunding escrow for the 1990 issue in a manner sufficient to pay a portion of the debt service until, and redeem a portion of that issue on, January 1, 2000. Instead, City invests those proceeds at a 6 percent yield in a new refunding escrow for a portion of the 1984 issue (the *new 1984 escrow*) in a manner sufficient to pay debt service on a portion of the 1984 issue until maturity. City also liquidates the investments allocable to the proceeds of the 1990 issue held in the original 1984 escrow and reinvests those proceeds in an escrow to pay a portion of the debt service on the 1990 issue itself until, and redeem a portion of that issue on, January 1, 2000 (the *1990 escrow*). The 1994 bonds are arbitrage bonds and employ an abusive device under section 149(d)(4). Although, in form, the proceeds of the 1994 issue are used to pay principal on the 1984 issue, this accounting for the use of the proceeds of the 1994 issue is an unreasonable, inconsistent accounting method under § 1.148-6(a). Moreover, since the proceeds of the 1990 issue were set aside in an escrow to be used to retire the 1984 issue, the use of proceeds of the 1994 issue for that same purpose involves a replacement of funds invested in higher yielding investments under section 148(a)(2). Thus, using a reasonable, consistent accounting method and giving effect to the substance of the transaction, the proceeds of the 1994 issue are treated as used to refund the 1990 issue and are allocable to the 1990 escrow. The proceeds of the 1990 issue are treated as used to refund the 1984 issue and are allocable to the investments in the new 1984 escrow. The proceeds of the 1990 issue allocable to the nonpurpose investments in the new 1984 escrow become transferred proceeds of the 1994 issue as principal is paid on the 1990 issue from amounts on deposit in the 1990 escrow. As a result, the yield on nonpurpose investments allocable to the 1994 issue is materially higher than the yield on the 1994 issue, causing the bonds of the 1994 issue to be arbitrage bonds. In addition, the transaction employs a device under section 149(d)(4) to obtain a

Internal Revenue Service, Treasury

§ 1.148-11

material financial advantage based on arbitrage, other than savings attributable to lower interest rates.

(ii) The following changes in the facts do not affect the conclusion that the 1994 issue consists of arbitrage bonds—

- (1) The 1990 issue is a taxable issue;
- (2) The original 1984 escrow is used to pay the 1994 issue (rather than the 1990 issue); or
- (3) The 1994 issue is used to retire the 1984 issue within 90 days of January 1, 1994.

(e) *Authority of the Commissioner to prevent transactions that are inconsistent with the purpose of the arbitrage investment restrictions.* If an issuer enters into a transaction for a principal purpose of obtaining a material financial advantage based on the difference between tax-exempt and taxable interest rates in a manner that is inconsistent with the purposes of section 148, the Commissioner may exercise the Commissioner's discretion to depart from the rules of § 1.148-1 through § 1.148-11 as necessary to reflect the economics of the transaction to prevent such financial advantage. For this purpose, the Commissioner may recompute yield on an issue or on investments, reallocate payments and receipts on investments, recompute the rebate amount on an issue, treat a hedge as either a qualified hedge or not a qualified hedge, or otherwise adjust any item whatsoever bearing upon the investments and expenditures of gross proceeds of an issue. For example, if the amount paid for a hedge is specifically based on the amount of arbitrage earned or expected to be earned on the hedged bonds, a principal purpose of entering into the contract is to obtain a material financial advantage based on the difference between tax-exempt and taxable interest rates in a manner that is inconsistent with the purposes of section 148.

(f) *Authority of the Commissioner to require an earlier date for payment of rebate.* If the Commissioner determines that an issue is likely to fail to meet the requirements of § 1.148-3 and that a failure to serve a notice of demand for payment on the issuer will jeopardize the assessment or collection of tax on interest paid or to be paid on the issue, the date that the Commissioner serves notice on the issuer is treated as a required computation date for payment of rebate for that issue.

(g) *Authority of the Commissioner to waive regulatory limitations.* Notwithstanding any specific provision in §§ 1.148-1 through 1.148-11, the Commissioner may prescribe extensions of temporary periods, larger reasonably required reserve or replacement funds, or consequences of failures or remedial action under section 148 in lieu of or in addition to other consequences of those failures, or take other action, if the Commissioner finds that good faith or other similar circumstances so warrant, consistent with the purposes of section 148.

[T.D. 8476, 58 FR 33544, June 18, 1993; 58 FR 44453, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24046, May 10, 1994; T.D. 8476, 59 FR 24351, May 11, 1994; T.D. 8718, 62 FR 25512, May 9, 1997; T.D. 9777, 81 FR 46597, July 18, 2016]

§ 1.148-11 Effective/applicability dates.

(a) *In general.* Except as otherwise provided in this section, §§ 1.148-1 through 1.148-11 apply to bonds sold on or after July 8, 1997.

(b) *Elective retroactive application in whole—*(1) *In general.* Except as otherwise provided in this section, and subject to the applicable effective dates for the corresponding statutory provisions, an issuer may apply the provisions of §§ 1.148-1 through 1.148-11 in whole, but not in part, to any issue that is outstanding on July 8, 1997, and is subject to section 148(f) or to sections 103(c)(6) or 103A(i) of the Internal Revenue Code of 1954, in lieu of otherwise applicable regulations under those sections.

(2) *No elective retroactive application for 18-month spending exception.* The provisions of § 1.148-7(d) (relating to the 18-month spending exception) may not be applied to any issue issued on or before June 30, 1993.

(3) *No elective retroactive application for hedges of fixed rate issues.* The provisions of § 1.148-4(h)(2)(i)(B) (relating to hedges of fixed rate issues) may not be applied to any bond sold on or before July 8, 1997.

(4) *No elective retroactive application for safe harbor for establishing fair market value for guaranteed investment contracts and investments purchased for a yield restricted defeasance escrow.* The

provisions of §§ 1.148-5(d)(6)(iii) (relating to the safe harbor for establishing fair market value of guaranteed investment contracts and yield restricted defeasance escrow investments) and 1.148-5(e)(2)(iv) (relating to a special rule for yield restricted defeasance escrow investments) may not be applied to any bond sold before December 30, 1998.

(c) *Elective retroactive application of certain provisions and special rules*—(1) *Retroactive application of overpayment recovery provisions.* An issuer may apply the provisions of § 1.148-3(i) to any issue that is subject to section 148(f) or to sections 103(c)(6) or 103A(i) of the Internal Revenue Code of 1954.

(2) *Certain allocations of multipurpose issues.* An allocation of bonds to a refunding purpose under § 1.148-9(h) may be adjusted as necessary to reflect allocations made between May 18, 1992, and August 15, 1993, if the allocations satisfied the corresponding prior provision of § 1.148-11(j)(4) under applicable prior regulations.

(3) *Special limitation.* The provisions of § 1.148-9 apply to issues issued before August 15, 1993, only if the issuer in good faith estimates the present value savings, if any, associated with the effect of the application of that section on refunding escrows, using any reasonable accounting method, and applies those savings, if any, to redeem outstanding tax-exempt bonds of the applicable issue at the earliest possible date on which those bonds may be redeemed or otherwise retired. These savings are not reduced to take into account any administrative costs associated with applying these provisions retroactively.

(d) *Transition rule excepting certain state guarantee funds from the definition of replacement proceeds*—(1) *Certain perpetual trust funds.* (i) A guarantee by a fund created and controlled by a State and established pursuant to its constitution does not cause the amounts in the fund to be pledged funds treated as replacement proceeds if—

(A) Substantially all of the corpus of the fund consists of nonfinancial assets, revenues derived from these assets, gifts, and bequests;

(B) The corpus of the guarantee fund may be invaded only to support specifically designated essential govern-

mental functions (designated functions) carried on by political subdivisions with general taxing powers or public elementary and public secondary schools;

(C) Substantially all of the available income of the fund is required to be applied annually to support designated functions;

(D) The issue guaranteed consists of obligations that are not private activity bonds (other than qualified 501(c)(3) bonds) substantially all of the proceeds of which are to be used for designated functions;

(E) The fund satisfied each of the requirements of paragraphs (d)(1)(i) through (d)(1)(iii) of this section on August 16, 1986; and

(F) As of the sale date of the bonds to be guaranteed, the amount of the bonds to be guaranteed by the fund plus the then-outstanding amount of bonds previously guaranteed by the fund does not exceed a total amount equal to 500 percent of the total costs of the assets held by the fund as of December 16, 2009.

(ii) The Commissioner may, by published guidance, set forth additional circumstances under which guarantees by certain perpetual trust funds will not cause amounts in the fund to be treated as replacement proceeds.

(2) *Permanent University Fund.* Replacement proceeds do not include amounts allocable to investments of the fund described in section 648 of Public Law 98-369.

(e) *Transition rule regarding special allowance payments.* Section 1.148-5(b)(5) applies to any bond issued after January 5, 1990, except a bond issued exclusively to refund a bond issued before January 6, 1990, if the amount of the refunding bond does not exceed 101 percent of the amount of the refunded bond, and the maturity date of the refunding bond is not later than the date that is 17 years after the date on which the refunded bond was issued (or, in the case of a series of refundings, the date on which the original bond was issued), but only if § 1.148-2(d)(2)(iv) is applied by substituting *1 and one-half percentage points* for *2 percentage points*.

(f) *Transition rule regarding applicability of yield reduction rule.* Section

1.148-5(c) applies to nonpurpose investments allocable to replacement proceeds of an issue that are held in a reserve or replacement fund to the extent that—

(1) Amounts must be paid into the fund under a constitutional provision, statute, or ordinance adopted before May 3, 1978;

(2) Under that provision, amounts paid into the fund (and investment earnings thereon) can be used only to pay debt service on the issues; and

(3) The size of the payments made into the fund is independent of the size of the outstanding issues or the debt service thereon.

(g) *Provisions applicable to certain bonds sold before effective date.* Except for bonds to which paragraph (b)(1) of this section applies—

(1) Section 1.148-11A provides rules applicable to bonds sold after June 6, 1994, and before July 8, 1997; and

(2) Sections 1.148-1 through 1.148-11 as in effect on July 1, 1993 (see 26 CFR part 1 as revised April 1, 1994), and § 1.148-11A(i) (relating to elective retroactive application of certain provisions) provide rules applicable to certain issues issued before June 7, 1994.

(h) *Safe harbor for establishing fair market value for guaranteed investment contracts and investments purchased for a yield restricted defeasance escrow.* The provisions of § 1.148-5(d)(6)(iii) are applicable to bonds sold on or after March 1, 1999. Issuers may apply these provisions to bonds sold on or after December 30, 1998, and before March 1, 1999.

(i) *Special rule for certain broker's commissions and similar fees.* Section 1.148-5(e)(2)(iii) applies to bonds sold on or after February 9, 2004. In the case of bonds sold before February 9, 2004, that are subject to § 1.148-5 (pre-effective date bonds), issuers may apply § 1.148-5(e)(2)(iii), in whole but not in part, with respect to transactions entered into on or after December 11, 2003. If an issuer applies § 1.148-5(e)(2)(iii) to pre-effective date bonds, the per-issue safe harbor in § 1.148-5(e)(2)(iii)(B)(i)(ii) is applied by taking into account all brokers' commissions or similar fees with respect to guaranteed investment contracts and investments for yield restricted defeasance escrows that the

issuer treats as qualified administrative costs for the issue, including all such commissions or fees paid before February 9, 2004. For purposes of §§ 1.148-5(e)(2)(iii)(B)(3) and 1.148-5(e)(2)(iii)(B)(6) (relating to cost-of-living adjustments), transactions entered into before 2003 are treated as entered into in 2003.

(j) *Certain prepayments.* Section 1.148-1(e)(1) and (2) apply to bonds sold on or after October 3, 2003. Issuers may apply § 1.148-1(e)(1) and (2), in whole but not in part, to bonds sold before October 3, 2003, that are subject to § 1.148-1.

(k) *Certain arbitrage guidance updates—*(1) *In general.* Sections 1.148-1(c)(4)(i)(B)(1); 1.148-1(c)(4)(i)(B)(4); 1.148-1(c)(4)(ii); 1.148-2(e)(3)(i); 1.148-3(d)(1)(iv); 1.148-3(d)(4); 1.148-4(a); 1.148-4(b)(3)(i); 1.148-4(h)(2)(ii)(A); 1.148-4(h)(2)(v); 1.148-4(h)(2)(vi); 1.148(h)(4)(i)(C); 1.148-5(c)(3); 1.148-5(d)(2); 1.148-5(d)(3); 1.148-5(d)(6)(i); 1.148-5(d)(6)(iii)(A); 1.148-5(e)(2)(ii)(B); 1.148-6(d)(3)(iii)(A); 1.148-6(d)(4); 1.148-7(c)(3)(v); 1.148-7(i)(6)(ii); 1.148-10(a)(4); 1.148-10(e); 1.148-11(d)(1)(i)(B); 1.148-11(d)(1)(i)(D); 1.148-11(d)(1)(i)(F); and 1.148-11(d)(1)(ii) apply to bonds sold on or after October 17, 2016.

(2) *Valuation of investments in refunding transactions.* Section 1.148-5(d)(3) also applies to bonds refunded by bonds sold on or after October 17, 2016.

(3) *Rebate overpayment recovery.* (i) Section 1.148-3(i)(3)(i) applies to claims arising from an issue of bonds to which § 1.148-3(i) applies and for which the final computation date is after June 24, 2008. For purposes of this paragraph (k)(3)(i), issues for which the actual final computation date is on or before June 24, 2008, are deemed to have a final computation date of July 1, 2008, for purposes of applying § 1.148-3(i)(3)(i).

(ii) Section 1.148-3(i)(3)(ii) and (iii) apply to claims arising from an issue of bonds to which § 1.148-3(i) applies and for which the final computation date is after September 16, 2013.

(iii) Section 1.148-3(j) applies to bonds subject to § 1.148-3(i).

(4) *Hedge identification.* Section 1.148-4(h)(2)(viii) applies to hedges that are entered into on or after October 17, 2016.

§ 1.149(b)–1

(5) *Hedge modifications and termination.* Section 1.148–4(h)(3)(iv)(A) through (H) and (h)(4)(iv) apply to—

(i) Hedges that are entered into on or after *October 17, 2016*;

(ii) Qualified hedges that are modified on or after October 17, 2016 with respect to modifications on or after such date; and

(iii) Qualified hedges on bonds that are refunded on or after October 17, 2016 with respect to the refunding on or after such date.

(6) *Small issuer exception to rebate requirement for conduit borrowers of pooled financings.* Section 1.148–8(d) applies to bonds issued after May 17, 2006.

(1) *Permissive application of certain arbitrage updates*—(1) *In general.* Except as otherwise provided in this paragraph (1), issuers may apply the provisions described in paragraph (k)(1), (2), and (5) in whole, but not in part, to bonds sold before October 17, 2016.

(2) *Computation credit.* Issuers may apply § 1.148–3(d)(1)(iv) and (d)(4) for bond years ending on or after July 18, 2016.

(3) *Yield reduction payments.* Issuers may apply § 1.148–5(c)(3) for investments purchased on or after July 18, 2016.

(4) *External commingled funds.* Issuers may apply § 1.148–5(e)(2)(ii)(B) with respect to costs incurred on or after July 18, 2016.

(m) *Definition of issue price.* The definition of issue price in § 1.148–1(b) and (f) applies to bonds that are sold on or after June 7, 2017.

(n) *Investment-type property.* Section 1.148–1(e)(1) and (4) apply to bonds sold on or after July 8, 2019. An issuer may apply the provisions of § 1.148–1(e)(1) and (4) to bonds sold before July 8, 2019.

[T.D. 8476, 58 FR 33547, June 18, 1993; 58 FR 44453, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24046, May 10, 1994; T.D. 8718, 62 FR 25512, May 9, 1997; T.D. 8476, 64 FR 37037, July 9, 1999; T.D. 9085, 68 FR 45777, Aug. 4, 2003; T.D. 9097, 68 FR 69023, Dec. 11, 2003; T.D. 9701, 79 FR 67351, Nov. 13, 2014; T.D. 9777, 81 FR 46597, July 18, 2016; 81 FR 57459, Aug. 23, 2016; T.D. 9801, 81 FR 89004, Dec. 9, 2016; 82 FR 37817, Aug. 14, 2017; T.D. 9854, 84 FR 14007, Apr. 9, 2019]

26 CFR Ch. I (4–1–22 Edition)

§ 1.149(b)–1 Federally guaranteed bonds.

(a) *General rule.* Under section 149(b) and this section, nothing in section 103(a) or in any other provision of law shall be construed to provide an exemption from Federal income tax for interest on any bond issued as part of an issue that is federally guaranteed.

(b) *Exceptions.* Pursuant to section 149(b)(3)(B), section 149(b)(1) and paragraph (a) of this section do not apply to—

(1) Investments in obligations issued pursuant to § 21B(d)(3) of the Federal Home Loan Bank Act, as amended by § 511 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, or any successor provision; or

(2) Any investments that are held in a refunding escrow (as defined in § 1.148–1).

(c) *Effective date.* This section applies to investments made after June 30, 1993.

[T.D. 8476, 58 FR 33548, June 18, 1993]

§ 1.149(d)–1 Limitations on advance refundings.

(a) *General rule.* Under section 149(d) and this section, nothing in section 103(a) or in any other provision of law shall be construed to provide an exemption from Federal income tax for interest on any bond issued as part of an issue described in paragraphs (2), (3), or (4) of section 149(d).

(b) *Advance refunding issues that employ abusive devices*—(1) *In general.* An advance refunding issue employs an abusive device and is described in section 149(d)(4) if the issue violates any of the anti-abuse rules under § 1.148–10.

(2) *Failure to pay required rebate.* An advance refunding issue is described in section 149(d)(4) if the issue fails to meet the requirements of § 1.148–3. This paragraph (b)(2) applies to any advance refunding issue issued after August 31, 1986.

(3) *Mixed escrows invested in tax-exempt bonds.* An advance refunding issue is described in section 149(d)(4) if—

(i) Any of the proceeds of the issue are invested in a refunding escrow in

which a portion of the proceeds are invested in tax-exempt bonds and a portion of the proceeds are invested in nonpurpose investments;

(ii) The yield on the tax-exempt bonds in the refunding escrow exceeds the yield on the issue;

(iii) The yield on all the investments (including investment property and tax-exempt bonds) in the refunding escrow exceeds the yield on the issue; and

(iv) The weighted average maturity of the tax-exempt bonds in the refunding escrow is more than 25 percent greater or less than the weighted average maturity of the nonpurpose investments in the refunding escrow, and the weighted average maturity of nonpurpose investments in the refunding escrow is greater than 60 days.

(4) *Tax-exempt conduit loans.* For purposes of applying section 149(d) to a conduit financing issue that finances any conduit loan that is a tax-exempt bond, the actual issuer of a conduit financing issue and the conduit borrower of that conduit financing issue are treated as related parties. Thus, the issue date of the conduit loan does not occur prior to the date on which the actual issuer of the conduit financing issue sells, exchanges, or otherwise disposes of that conduit loan, and the use of the proceeds of the disposition to pay debt service on the conduit financing issue causes the conduit loan to be a refunding issue. See § 1.148-10(d), *Example 4*.

(c) *Unrefunded debt service remains eligible for future advance refunding.* For purposes of section 149(d)(3)(A)(i), any principal or interest on a prior issue that has not been paid or provided for by any advance refunding issue is treated as not having been advance refunded.

(d) *Application of arbitrage regulations—(1) Application of multipurpose issue rules.* For purposes of sections 149(d)(2) and (3)(A)(i), (ii), and (iii), the provisions of the multipurpose issue rule in § 1.148-9(h) apply, except that the limitation in § 1.148-9(h)(5) is disregarded.

(2) *General mixed escrow rules.* For purposes of section 149(d), the provisions of § 1.148-9(c) (relating to mixed escrows) apply, except that those pro-

visions do not apply for purposes of section 149(d)(2) and (d)(3)(A)(i) and (ii) to amounts that were not gross proceeds of the prior issue before the issue date of the refunding issue.

(3) *Temporary periods and minor portions.* Section 1.148-9(d) and (f) contains rules applicable to temporary periods and minor portions for advance refunding issues.

(4) *Definitions.* Section 1.148-1 applies for purposes of section 149(d).

(e) *Taxable refundings—(1) In general.* Except as provided in paragraph (e)(2) of this section, for purposes of section 149(d)(3)(A)(i), an advance refunding issue the interest on which is not excludable from gross income under section 103(a) (*i.e.*, a taxable advance refunding issue) is not taken into account. In addition, for this purpose, an advance refunding of a taxable issue is not taken into account unless the taxable issue is a conduit loan of a tax-exempt conduit financing issue.

(2) *Use to avoid section 149(d)(3)(A)(i).* A taxable issue is taken into account under section 149(d)(3)(A)(i) if it is issued to avoid the limitations of that section. For example, in the case of a refunding of a tax-exempt issue with a taxable advance refunding issue that is, in turn, currently refunded with a tax-exempt issue, the taxable advance refunding issue is taken into account under section 149(d)(3)(A)(i) if the two tax-exempt issues are outstanding concurrently for more than 90 days.

(f) *Redemption at first call date—(1) General rule.* Under sections 149(d)(3)(A)(ii) and (iii) (the *first call requirement*), bonds refunded by an advance refunding must be redeemed on their first call date if the savings test under section 149(d)(3)(B)(i) (the *savings test*) is satisfied. The savings test is satisfied if the issuer may realize present value debt service savings (determined without regard to administrative expenses) in connection with the issue of which the refunding bond is a part.

(2) *First call date.* *First call date* means the earliest date on which a bond may be redeemed (or, if issued before 1986, on the earliest date on which that bond may be redeemed at a redemption price not in excess of 103 percent of par). If, however, the savings test is not met with respect to the date described in

§ 1.149(e)-1

26 CFR Ch. I (4-1-22 Edition)

the preceding sentence (*i.e.*, there are no present value savings if the refunded bonds are retired on that date), the first call date is the first date thereafter on which the bonds can be redeemed and on which the savings test is met.

(3) *Application of savings test to multipurpose issues.* Except as otherwise provided in this paragraph (f)(3), the multipurpose issue rules in §1.148-9(h) apply for purposes of the savings test. If any separate issue in a multipurpose issue increases the aggregate present value debt service savings on the entire multipurpose issue or reduces the present value debt service losses on that entire multipurpose issue, that separate issue satisfies the savings test.

(g) *Limitation on advance refundings of private activity bonds.* Under section 149(d)(2) and this section, interest on a bond is not excluded from gross income if any portion of the issue of which the bond is a part is issued to advance refund a private activity bond (other than a qualified 501(c)(3) bond). For this purpose, the term private activity bond—

(1) Includes a qualified bond described in section 141(e) (other than a qualified 501(c)(3) bond), regardless of whether the refunding issue consists of private activity bonds under §1.141-13; and

(2) Does not include a taxable bond.

(h) *Effective dates*—(1) *In general.* Except as provided in this paragraph (h), this section applies to bonds issued after June 30, 1993, to which §§1.148-1 through 1.148-11 apply, including conduit loans that are treated as issued after June 30, 1993, under paragraph (b)(4) of this section. In addition, this section applies to any issue to which the election described in §1.148-11(b)(1) is made.

(2) *Special effective date for paragraph (b)(3).* Paragraph (b)(3) of this section applies to any advance refunding issue issued after May 28, 1991.

(3) *Special effective date for paragraph (f)(3).* Paragraph (f)(3) of this section applies to bonds sold on or after July 8, 1997 and to any issue to which the election described in §1.148-11(b)(1) is made. See §1.148-11A(i) for rules relating to certain bonds sold before July 8, 1997.

(4) *Special effective date for paragraph (g).* See §1.141-15 for the applicability date of paragraph (g) of this section.

[T.D. 8476, 58 FR 33548, June 18, 1993; 58 FR 44453, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24046, May 10, 1994; T.D. 8718, 62 FR 25513, May 9, 1997; T.D. 9234, 70 FR 75035, Dec. 19, 2005]

§ 1.149(e)-1 Information reporting requirements for tax-exempt bonds.

(a) *General rule.* Interest on a bond is included in gross income unless certain information with respect to the issue of which the bond is a part is reported to the Internal Revenue Service in accordance with the requirements of this section. This section applies to any bond if the issue of which the bond is a part is issued after December 31, 1986 (including any bond issued to refund a bond issued on or before December 31, 1986).

(b) *Requirements for private activity bonds*—(1) *In general.* If the issue of which the bond is a part is an issue of private activity bonds, the issuer must comply with the following requirements—

(i) Not later than the 15th day of the second calendar month after the close of the calendar quarter in which the issue is issued, the issuer must file with the Internal Revenue Service a completed information reporting form prescribed for this purpose;

(ii) If any bond that is part of the issue is taken into account under section 146 (relating to volume cap on private activity bonds), the state certification requirement of paragraph (b)(2) of this section must be satisfied; and

(iii) If any bond that is part of the issue is a qualified mortgage bond or qualified veterans' mortgage bond (within the meaning of section 143 (a) or (b) or section 103A(c) (1) or (3) as in effect on the day before enactment of the Tax Reform Act of 1986), the issuer must submit the annual report containing information on the borrowers of the original proceeds of the issue as required under §1.103A-2 (k)(2)(ii) and (k)(3) through (k)(6).

(2) *State certification with respect to volume cap*—(i) *In general.* If an issue is subject to the volume cap under section 146, a state official designated by state law (if there is no such official,

Internal Revenue Service, Treasury

§ 1.149(e)-1

then the governor or the governor's delegate) must certify that the issue meets the requirements of section 146, and a copy of this certification must be attached to the information reporting form filed with respect to the issue. In the case of any constitutional home rule city (as defined in section 146(d)(3)(C)), the preceding sentence is applied by substituting "city" for "state" and "chief executive officer" for "governor."

(ii) *Certification.* The certifying official need not perform an independent investigation in order to certify that the issue meets the requirements of section 146. For example, if the certifying official receives an affidavit that was executed by an officer of the issuer who is responsible for issuing the bonds and that sets forth, in brief and summary terms, the facts necessary to determine that the issue meets the requirements of section 146 and if the certifying official has compared the information in that affidavit to other readily available information with respect to that issuer (e.g., previous affidavits and certifications for other private activity bonds issued by that issuer), the certifying official may rely on the affidavit.

(c) *Requirements for governmental bonds*—(1) *Issue price of \$100,000 or more.* If the issue of which the bond is a part has an issue price of \$100,000 or more and is not an issue of private activity bonds, then, not later than the 15th day of the second calendar month after the close of the calendar quarter in which the issue is issued, the issuer must file with the Internal Revenue Service a completed information reporting form prescribed for this purpose.

(2) *Issue price of less than \$100,000*—(i) *In general.* If the issue of which the bond is a part has an issue price of less than \$100,000 and is not an issue of private activity bonds, the issuer must file with the Internal Revenue Service one of the following information reporting forms within the prescribed period—

(A) *Separate return.* Not later than the 15th day of the second calendar month after the close of the calendar quarter in which the issue is issued, a completed information reporting form

prescribed for this purpose with respect to that issue; or

(B) *Consolidated return.* Not later than February 15 of the calendar year following the calendar year in which the issue is issued, a completed information form prescribed for this purpose with respect to all issues to which this paragraph (c)(2) applies that were issued by the issuer during the calendar year and for which information was not reported on a separate information return pursuant to paragraph (c)(2)(i)(A) of this section.

(ii) *Bond issues issued before January 1, 1992.* Paragraph (c)(2)(i)(A) of this section does not apply if the issue of which the bond is a part is issued before January 1, 1992.

(iii) *Extended filing date for first and second calendar quarters of 1992.* If the issue of which the bond is a part is issued during the first or second calendar quarter of 1992, the prescribed period for filing an information reporting form with respect to that issue pursuant to paragraph (c)(2)(i)(A) of this section is extended until November 16, 1992.

(d) *Filing of forms and special rules*—(1) *Completed form.* For purposes of this section—

(i) *Good faith effort.* An information reporting form is treated as completed if the issuer (or a person acting on behalf of the issuer) has made a good faith effort to complete the form (taking into account the instructions to the form).

(ii) *Information.* In general, information reporting forms filed pursuant to this section must be completed on the basis of available information and reasonable expectations as of the date the issue is issued. Forms that are filed on a consolidated basis pursuant to paragraph (c)(2)(i)(B) of this section, however, may be completed on the basis of information readily available to the issuer at the close of the calendar year to which the form relates, supplemented by estimates made in good faith.

(iii) *Certain information not required.* An issuer need not report to the Internal Revenue Service any information specified in the first sentence of section 149(e)(2) that is not required to be

§ 1.149(g)-1

26 CFR Ch. I (4-1-22 Edition)

reported to the Internal Revenue Service pursuant to the information reporting forms prescribed under that section and the instructions to those forms.

(2) *Manner of filing*—(i) *Place for filing*. The information reporting form must be filed with the Internal Revenue Service at the address specified on the form or in the instructions to the form.

(ii) *Extension of time*. The Commissioner may grant an extension of time to file any form or attachment required under this section if the Commissioner determines that the failure to file in a timely manner was not due to willful neglect. The Commissioner may make this determination with respect to an issue or to a class of issues.

(e) *Definitions*. For purposes of this section only—(1) *Private activity bond*. The term “private activity bond” has the meaning given that term in section 141(a) of the Internal Revenue Code, except that the term does not include any bond described in section 1312(c) of the Tax Reform Act of 1986 to which section 1312 or 1313 of the Tax Reform Act of 1986 applies.

(2) *Issue*—(i) *In general*. Except as otherwise provided in this paragraph (e)(2), bonds are treated as part of the same issue only if the bonds are issued—

(A) By the same issuer;

(B) On the same date; and

(C) Pursuant to a single transaction or to a series of related transactions.

(ii) *Draw-down loans, commercial paper, etc.* (A) Bonds issued during the same calendar year may be treated as part of the same issue if the bonds are issued—

(1) Pursuant to a loan agreement under which amounts are to be advanced periodically (“draw-down loan”); or

(2) With a term not exceeding 270 days.

(B) In addition, the bonds must be equally and ratably secured under a single indenture or loan agreement and issued pursuant to a common financing arrangement (e.g., pursuant to the same official statement that is periodically updated to reflect changing factual circumstances). In the case of bonds issued pursuant to a draw-down loan that meets the requirements of the preceding sentence, bonds issued during different calendar years may be

treated as part of the same issue if all the amounts to be advanced pursuant to the draw-down loan are reasonably expected to be advanced within three years of the date of issue of the first bond.

(iii) *Leases and installment sales*. Bonds other than private activity bonds may be treated as part of the same issue if—

(A) The bonds are issued pursuant to a single agreement that is in the form of a lease or installment sales agreement; and

(B) All of the property covered by that agreement is reasonably expected to be delivered within three years of the date of issue of the first bond.

(iv) *Qualified 501(c)(3) bonds*. If an issuer elects under section 141(b)(9) to treat a portion of an issue as a qualified 501(c)(3) bond, that portion is treated as a separate issue.

(3) *Date of issue*—(i) *Bond*. The date of issue of a bond is determined under § 1.150-1.

(ii) *Issue*. The date of issue of an issue of bonds is the date of issue of the first bond that is part of the issue. See paragraphs (e)(2) (ii) and (iii) of this section for rules relating to draw-down loans, commercial paper, etc., and leases and installment sales.

(iii) *Bonds to which prior law applied*. Notwithstanding the provisions of this paragraph (e)(3), an issue for which an information report was required to be filed under section 103(l) or section 103A(j)(3) is treated as issued prior to January 1, 1987.

(4) *Issue price*. The term “issue price” has the same meaning given the term under § 1.148-1(b).

[T.D. 8425, 57 FR 36002, Aug. 12, 1992, as amended at 59 FR 24351, May 11, 1994]

§ 1.149(g)-1 Hedge bonds.

(a) *Certain definitions*. Except as otherwise provided, the definitions set forth in § 1.148-1 apply for purposes of section 149(g) and this section. In addition, the following terms have the following meanings:

Reasonable expectations means reasonable expectations (as defined in § 1.148-1), as modified to take into account the provisions of section 149(f)(2)(B).

Spendable proceeds means net sale proceeds (as defined in § 1.148-1).

(b) *Applicability of arbitrage allocation and accounting rules.* Section 1.148-6 applies for purposes of section 149(g), except that an expenditure that results in the creation of replacement proceeds (other than amounts in a bona fide debt service fund or a reasonably required reserve or replacement fund) is not an expenditure for purposes of section 149(g).

(c) *Refundings*—(1) *Investment in tax-exempt bonds.* A bond issued to refund a bond that is a tax-exempt bond by virtue of the rule in section 149(g)(3)(B) is not a tax-exempt bond unless the gross proceeds of that refunding bond (other than proceeds in a refunding escrow for the refunded bond) satisfy the requirements of section 149(g)(3)(B).

(2) *Anti-abuse rule.* A refunding bond is treated as a hedge bond unless there is a significant governmental purpose for the issuance of that bond (e.g., an advance refunding bond issued to realize debt service savings or to relieve the issuer of significantly burdensome document provisions, but not to otherwise hedge against future increases in interest rates).

(d) *Effective date.* This section applies to bonds issued after June 30, 1993 to which §§1.148-1 through 1.148-11 apply. In addition, this section applies to any issue to which the election described in §1.148-11(b)(1) is made.

[T.D. 8476, 58 FR 33549, June 18, 1993]

§ 1.150-1 Definitions.

(a) *Scope and effective date*—(1) *In general.* Except as otherwise provided, the definitions in this section apply for all purposes of sections 103 and 141 through 150.

(2) *Effective/applicability date*—(i) *In general.* Except as otherwise provided in this paragraph (a)(2), this section applies to issues issued after June 30, 1993 to which §§1.148-1 through 1.148-11 apply. In addition, this section (other than paragraph (c)(3) of this section) applies to any issue to which the election described in §1.148-11(b)(1) is made.

(ii) *Special effective date for paragraphs (c)(1), (c)(4)(iii), and (c)(6).* Paragraphs (c)(1), (c)(4)(iii), and (c)(6) of this section apply to bonds sold on or after July 8, 1997 and to any issue to which the election described in §1.148-11(b)(1) is made. See §1.148-11A(i) for

rules relating to certain bonds sold before July 8, 1997.

(iii) *Special effective date for definitions of tax-advantaged bond, issue, and grant.* The definition of tax-advantaged bond in paragraph (b) of this section, the revisions to the definition of issue in paragraph (c)(2) of this section, and the definition and rules regarding the treatment of grants in paragraph (f) of this section apply to bonds that are sold on or after October 17, 2016.

(3) *Exceptions to general effective date.* See §1.141-15 for the applicability date of the definition of bond documents contained in paragraph (b) of this section and the effective date of paragraph (c)(3)(ii) of this section.

(4) *Additional exception to the general applicability date.* Section 1.150-1(b), *Issuance costs*, applies on and after July 6, 2011.

(b) *Certain general definitions.* The following definitions apply:

Bond means any obligation of a State or political subdivision thereof under section 103(c)(1).

Bond documents means the bond indenture or resolution, transcript of proceedings, and any related documents.

Capital expenditure means any cost of a type that is properly chargeable to capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under §1.150-2(c)) under general Federal income tax principles. For example, costs incurred to acquire, construct, or improve land, buildings, and equipment generally are capital expenditures. Whether an expenditure is a capital expenditure is determined at the time the expenditure is paid with respect to the property. Future changes in law do not affect whether an expenditure is a capital expenditure.

Conduit borrower means the obligor on a purpose investment (as defined in §1.148-1). For example, if an issuer invests proceeds in a purpose investment in the form of a loan, lease, installment sale obligation, or similar obligation to another entity and the obligor uses the proceeds to carry out the governmental purpose of the issue, the obligor is a conduit borrower.

Conduit financing issue means an issue the proceeds of which are used or

are reasonably expected to be used to finance at least one purpose investment representing at least one conduit loan to one conduit borrower.

Conduit loan means a purpose investment (as defined in § 1.148-1).

Governmental bond means any bond of an issue of tax-exempt bonds in which none of the bonds are private activity bonds.

Issuance costs means costs to the extent incurred in connection with, and allocable to, the issuance of an issue within the meaning of section 147(g). For example, issuance costs include the following costs but only to the extent incurred in connection with, and allocable to, the borrowing: underwriters' spread; counsel fees; financial advisory fees; fees paid to an organization to evaluate the credit quality of an issue; trustee fees; paying agent fees; bond registrar, certification, and authentication fees; accounting fees; printing costs for bonds and offering documents; public approval process costs; engineering and feasibility study costs; guarantee fees, other than for qualified guarantees (as defined in § 1.148-4(f)); and similar costs.

Issue date means, in reference to an issue, the first date on which the issuer receives the purchase price in exchange for delivery of the evidence of indebtedness representing any bond included in the issue. Issue date means, in reference to a bond, the date on which the issuer receives the purchase price in exchange for that bond. In no event is the issue date earlier than the first day on which interest begins to accrue on the bond or bonds for Federal income tax purposes.

Obligation means any valid evidence of indebtedness under general Federal income tax principles.

Pooled financing issue means an issue the proceeds of which are to be used to finance purpose investments representing conduit loans to two or more conduit borrowers, unless those conduit loans are to be used to finance a single capital project.

Private activity bond means a private activity bond (as defined in section 141).

Qualified mortgage loan means a mortgage loan with respect to an owner-occupied residence acquired with the pro-

ceeds of an obligation described in section 143(a)(1) or 143(b) (or applicable prior law).

Qualified student loan means a student loan acquired with the proceeds of an obligation described in section 144(b)(1).

Related party means, in reference to a governmental unit or a 501(c)(3) organization, any member of the same controlled group, and, in reference to any person that is not a governmental unit or 501(c)(3) organization, a related person (as defined in section 144(a)(3)).

Taxable bond means any obligation the interest on which is not excludable from gross income under section 103.

Tax-advantaged bond means a tax-exempt bond, a taxable bond that provides a federal tax credit to the investor with respect to the issuer's borrowing costs, a taxable bond that provides a refundable federal tax credit payable directly to the issuer of the bond for its borrowing costs under section 6431, or any future similar bond that provides a federal tax benefit that reduces an issuer's borrowing costs. Examples of tax-advantaged bonds include qualified tax credit bonds under section 54A(d)(1) and build America bonds under section 54AA.

Tax-exempt bond means any bond the interest on which is excludable from gross income under section 103(a). For purposes of section 148, tax-exempt bond includes:

(1) An interest in a regulated investment company to the extent that at least 95 percent of the income to the holder of the interest is interest that is excludable from gross income under section 103; and

(2) A certificate of indebtedness issued by the United States Treasury pursuant to the Demand Deposit State and Local Government Series program described in 31 CFR part 344.

Working capital expenditure means any cost that is not a capital expenditure. Generally, current operating expenses are working capital expenditures.

(c) *Definition of issue*—(1) *In general.* Except as otherwise provided in this paragraph (c), the term *issue* means two or more bonds that meet all of the following requirements:

(i) *Sold at substantially the same time.* The bonds are sold at substantially the same time. Bonds are treated as sold at substantially the same time if they are sold less than 15 days apart.

(ii) *Sold pursuant to the same plan of financing.* The bonds are sold pursuant to the same plan of financing. Factors material to the plan of financing include the purposes for the bonds and the structure of the financing. For example, generally—

(A) Bonds to finance a single facility or related facilities are part of the same plan of financing;

(B) Short-term bonds to finance working capital expenditures and long-term bonds to finance capital projects are not part of the same plan of financing; and

(C) Certificates of participation in a lease and general obligation bonds secured by tax revenues are not part of the same plan of financing.

(iii) *Payable from same source of funds.* The bonds are reasonably expected to be paid from substantially the same source of funds, determined without regard to guarantees from parties unrelated to the obligor.

(2) *Exceptions for different types of tax-advantaged bonds and taxable bonds.* Each type of tax-advantaged bond that has a different structure for delivery of the tax benefit that reduces the issuer's borrowing costs or different program eligibility requirements is treated as part of a different issue under this paragraph (c). Further, tax-advantaged bonds and bonds that are not tax-advantaged bonds are treated as part of different issues under this paragraph (c). The issuance of tax-advantaged bonds in a transaction with other bonds that are not tax-advantaged bonds must be tested under the arbitrage anti-abuse rules under § 1.148-10(a) and other applicable anti-abuse rules (for example, limitations against window maturity structures or unreasonable allocations of bonds).

(3) *Exception for certain bonds financing separate purposes—(i) In general.* Bonds may be treated as part of separate issues if the requirements of this paragraph (c)(3) are satisfied. Each of these separate issues must finance a separate purpose (e.g., refunding a separate prior issue, financing a separate

purpose investment, financing integrated or functionally related capital projects, and financing any clearly discrete governmental purpose). Each of these separate issues independently must be a tax-exempt bond (e.g., a governmental bond or a qualified mortgage bond). The aggregate proceeds, investments, and bonds in such a transaction must be allocated between each of the separate issues using a reasonable, consistently applied allocation method. If any separate issue consists of refunding bonds, the allocation rules in § 1.148-9(h) must be satisfied. An allocation is not reasonable if it achieves more favorable results under sections 103 and 141 to 150 than could be achieved with actual separate issues. All allocations under this paragraph (c)(3) must be made in writing on or before the issue date.

(ii) *Exceptions.* This paragraph (c)(3) does not apply for purposes of sections 141, 144(a), 148, 149(d) and 149(g).

(4) *Special rules for certain financings—(i) Draw-down loans.* Bonds issued pursuant to a draw-down loan are treated as part of a single issue. The issue date of that issue is the first date on which the aggregate draws under the loan exceed the lesser of \$50,000 or 5 percent of the issue price.

(ii) *Commercial paper—(A) In general.* Short-term bonds having a maturity of 270 days or less (*commercial paper*) issued pursuant to the same commercial paper program may be treated as part of a single issue, the issue date of which is the first date the aggregate amount of commercial paper issued under the program exceeds the lesser of \$50,000 or 5 percent of the aggregate issue price of the commercial paper in the program. A commercial paper program is a program to issue commercial paper to finance or refinance the same governmental purpose pursuant to a single master legal document. Commercial paper is not part of the same commercial paper program unless issued during an 18-month period, beginning on the deemed issue date. In addition, commercial paper issued after the end of this 18-month period may be treated as part of the program to the extent issued to refund commercial paper that is part of the program, but only to the extent that—

(1) There is no increase in the principal amount outstanding; and

(2) The program does not have a term in excess of—

(i) 30 years; or

(ii) The period reasonably necessary for the governmental purposes of the program.

(B) *Safe harbor.* The requirement of paragraph (c)(4)(ii)(A)(2) of this section is treated as satisfied if the weighted average maturity of the issue does not exceed 120 percent of the weighted average expected economic life of the property financed by the issue.

(iii) *Certain general obligation bonds.* Except as otherwise provided in paragraph (c)(2) of this section, bonds that are secured by a pledge of the issuer's full faith and credit (or a substantially similar pledge) and sold and issued on the same dates pursuant to a single offering document may be treated as part of the same issue if the issuer so elects on or before the issue date.

(5) *Anti-abuse rule.* In order to prevent the avoidance of sections 103 and 141 through 150 and the general purposes thereof, the Commissioner may treat bonds as part of the same issue or as part of separate issues to clearly reflect the economic substance of a transaction.

(6) *Sale date.* The sale date of a bond is the first day on which there is a binding contract in writing for the sale or exchange of the bond.

(d) *Definition of refunding issue and related definitions—*(1) *General definition of refunding issue.* Refunding issue means an issue of obligations the proceeds of which are used to pay principal, interest, or redemption price on another issue (a *prior issue*, as more particularly defined in paragraph (d)(5) of this section), including the issuance costs, accrued interest, capitalized interest on the refunding issue, a reserve or replacement fund, or similar costs, if any, properly allocable to that refunding issue.

(2) *Exceptions and special rules.* For purposes of paragraph (d)(1) of this section, the following exceptions and special rules apply—

(i) *Payment of certain interest.* An issue is not a refunding issue if the only principal and interest that is paid with proceeds of the issue (determined

without regard to the multipurpose issue rules of § 1.148-9(h)) is interest on another issue that—

(A) Accrues on the other issue during a one-year period including the issue date of the issue that finances the interest;

(B) Is a capital expenditure; or

(C) Is a working capital expenditure to which the de minimis rule of § 1.148-6(d)(3)(ii)(A) applies.

(ii) *Certain issues with different obligors—*(A) *In general.* An issue is not a refunding issue to the extent that the obligor (as defined in paragraph (d)(2)(ii)(B) of this section) of one issue is neither the obligor of the other issue nor a related party with respect to the obligor of the other issue.

(B) *Definition of obligor.* The obligor of an issue means the actual issuer of the issue, except that the obligor of the portion of an issue properly allocable to an investment in a purpose investment means the conduit borrower under that purpose investment. The obligor of an issue used to finance qualified mortgage loans, qualified student loans, or similar program investments (as defined in § 1.148-1) does not include the ultimate recipient of the loan (e.g., the homeowner, the student).

(iii) *Certain special rules for purpose investments.* For purposes of this paragraph (d), the following special rules apply:

(A) *Refunding of a conduit financing issue by a conduit loan refunding issue.* Except as provided in paragraph (d)(2)(iii)(B) of this section, the use of the proceeds of an issue that is used to refund an obligation that is a purpose investment (a *conduit refunding issue*) by the actual issuer of the conduit financing issue determines whether the conduit refunding issue is a refunding of the conduit financing issue (in addition to a refunding of the obligation that is the purpose investment).

(B) *Recycling of certain payments under purpose investments.* A conduit refunding issue is not a refunding of a conduit financing issue to the extent that the actual issuer of the conduit financing issue reasonably expects as of the date of receipt of the proceeds of the conduit refunding issue to use those amounts within 6 months (or, if

greater, during the applicable temporary period for those amounts under section 148(c) or under applicable prior law) to acquire a new purpose investment. Any new purpose investment is treated as made from the proceeds of the conduit financing issue.

(C) *Application to tax-exempt loans.* For purposes of this paragraph (d), obligations that would be purpose investments (absent section 148(b)(3)(A)) are treated as purpose investments.

(iv) *Substance of transaction controls.* In the absence of other applicable controlling rules under this paragraph (d), the determination of whether an issue is a refunding issue is based on the substance of the transaction in light of all the facts and circumstances.

(v) *Certain integrated transactions in connection with asset acquisition not treated as refunding issues.* If, within six months before or after a person assumes (including taking subject to) obligations of an unrelated party in connection with an asset acquisition (other than a transaction to which section 381(a) applies if the person assuming the obligation is the acquiring corporation within the meaning of section 381(a)), the assumed issue is refinanced, the refinancing issue is not treated as a refunding issue.

(3) *Current refunding issue.* *Current refunding issue* means:

(i) Except as provided in paragraph (d)(3)(ii) of this section, a refunding issue that is issued not more than 90 days before the last expenditure of any proceeds of the refunding issue for the payment of principal or interest on the prior issue; and

(ii) In the case of a refunding issue issued before 1986—

(A) A refunding issue that is issued not more than 180 days before the last expenditure of any proceeds of the refunding issue for the payment of principal or interest on the prior issue; or

(B) A refunding issue if the prior issue had a term of less than 3 years and was sold in anticipation of permanent financing, but only if the aggregate term of all prior issues sold in anticipation of permanent financing was less than 3 years.

(4) *Advance refunding issue.* *Advance refunding issue* means a refunding issue that is not a current refunding issue.

(5) *Prior issue.* *Prior issue* means an issue of obligations all or a portion of the principal, interest, or call premium on which is paid or provided for with proceeds of a refunding issue. A prior issue may be issued before, at the same time as, or after a refunding issue. If the refunded and unrefunded portions of a prior issue are treated as separate issues under § 1.148-9(i), for the purposes for which that section applies, except to the extent that the context clearly requires otherwise, references to a prior issue refer only to the refunded portion of that prior issue.

(e) *Controlled group* means a group of entities controlled directly or indirectly by the same entity or group of entities within the meaning of this paragraph (e).

(1) *Direct control.* The determination of direct control is made on the basis of all the relevant facts and circumstances. One entity or group of entities (the *controlling entity*) generally controls another entity or group of entities (the *controlled entity*) for purposes of this paragraph if the controlling entity possesses either of the following rights or powers and the rights or powers are discretionary and non-ministerial—

(i) The right or power both to approve and to remove without cause a controlling portion of the governing body of the controlled entity; or

(ii) The right or power to require the use of funds or assets of the controlled entity for any purpose of the controlling entity.

(2) *Indirect control.* If a controlling entity controls a controlled entity under the test in paragraph (e)(1) of this section, then the controlling entity also controls all entities controlled, directly or indirectly, by the controlled entity or entities.

(3) *Exception for general purpose governmental entities.* An entity is not a controlled entity under this paragraph (e) if the entity possesses substantial taxing, eminent domain, and police powers. For example, a city possessing substantial amounts of each of these sovereign powers is not a controlled entity of the state.

(f) *Definition and treatment of grants—*
(1) *Definition.* Grant means a transfer for a governmental purpose of money

§ 1.150-2

26 CFR Ch. I (4-1-22 Edition)

or property to a transferee that is not a related party to or an agent of the transferor. The transfer must not impose any obligation or condition to directly or indirectly repay any amount to the transferor or a related party. Obligations or conditions intended solely to assure expenditure of the transferred moneys in accordance with the governmental purpose of the transfer do not prevent a transfer from being a grant.

(2) *Treatment.* Except as otherwise provided (for example, § 1.148-6(d)(4), which treats proceeds used for grants as spent for arbitrage purposes when the grant is made), the character and nature of a grantee's use of proceeds are taken into account in determining which rules are applicable to the bond issue and whether the applicable requirements for the bond issue are met. For example, a grantee's use of proceeds generally determines whether the proceeds are used for capital projects or working capital expenditures under section 148 and whether the qualified purposes for the specific type of bond issue are met.

[T.D. 8476, 58 FR 33549, June 18, 1993; 58 FR 44453, Aug. 23, 1993, as amended by T.D. 8538, 59 FR 24046, May 10, 1994; T.D. 8712, 62 FR 2304, Jan. 16, 1997; T.D. 8718, 62 FR 25513, May 9, 1997; T.D. 9234, 70 FR 75036, Dec. 19, 2005; T.D. 9533, 76 FR 39280, July 6, 2011; T.D. 9637, 78 FR 54759, Sept. 6, 2013; T.D. 9777, 81 FR 46598, July 18, 2016]

§ 1.150-2 Proceeds of bonds used for reimbursement.

(a) *Table of contents.* This table of contents contains a listing of the headings contained in § 1.150-2.

- (a) Table of contents.
- (b) Scope.
- (c) Definitions.
- (d) General operating rules for reimbursement expenditures.
 - (1) Official intent.
 - (2) Reimbursement period.
 - (3) Nature of expenditure.
- (e) Official intent rules.
 - (1) Form of official intent.
 - (2) Project description in official intent.
 - (3) Reasonableness of official intent.
- (f) Exceptions to general operating rules.
 - (1) De minimis exception.
 - (2) Preliminary expenditures exception.
- (g) Special rules on refundings.
 - (1) In general—once financed, not reimbursed.

(2) Certain proceeds of prior issue used for reimbursement treated as unspent.

- (h) Anti-abuse rules.
 - (1) General rule.
 - (2) One-year step transaction rule.
- (i) Authority of the Commissioner to prescribe rules.
 - (j) Effective date.
 - (1) In general.
 - (2) Transitional rules.
 - (3) Nature of expenditure.

(b) *Scope.* This section applies to reimbursement bonds (as defined in paragraph (c) of this section) for all purposes of sections 103 and 141 to 150.

(c) *Definitions.* The following definitions apply:

Issuer means—

(1) For any private activity bond (excluding a qualified 501(c)(3) bond, qualified student loan bond, qualified mortgage bond, or qualified veterans' mortgage bond), the entity that actually issues the reimbursement bond; and

(2) For any bond not described in paragraph (1) of this definition, either the entity that actually issues the reimbursement bond or, to the extent that the reimbursement bond proceeds are to be loaned to a conduit borrower, that conduit borrower.

Official intent means an issuer's declaration of intent to reimburse an original expenditure with proceeds of an obligation.

Original expenditure means an expenditure for a governmental purpose that is originally paid from a source other than a reimbursement bond.

Placed in service means, with respect to a facility, the date on which, based on all the facts and circumstances—

(1) The facility has reached a degree of completion which would permit its operation at substantially its design level; and

(2) The facility is, in fact, in operation at such level.

Reimbursement allocation means an allocation in writing that evidences an issuer's use of proceeds of a reimbursement bond to reimburse an original expenditure. An allocation made within 30 days after the issue date of a reimbursement bond may be treated as made on the issue date.

Reimbursement bond means the portion of an issue allocated to reimburse an original expenditure that was paid before the issue date.

(d) *General operating rules for reimbursement expenditures.* Except as otherwise provided, a reimbursement allocation is treated as an expenditure of proceeds of a reimbursement bond for the governmental purpose of the original expenditure on the date of the reimbursement allocation only if:

(1) *Official intent.* Not later than 60 days after payment of the original expenditure, the issuer adopts an official intent for the original expenditure that satisfies paragraph (e) of this section.

(2) *Reimbursement period*—(i) *In general.* The reimbursement allocation is made not later than 18 months after the later of—

(A) The date the original expenditure is paid; or

(B) The date the project is placed in service or abandoned, but in no event more than 3 years after the original expenditure is paid.

(ii) *Special rule for small issuers.* In applying paragraph (d)(2)(i) of this section to an issue that satisfies section 148(f)(4)(D)(i) (I) through (IV), the “18 month” limitation is changed to “3 years” and the “3-year” maximum reimbursement period is disregarded.

(iii) *Special rule for long-term construction projects.* In applying paragraph (d)(2)(i) to a construction project for which both the issuer and a licensed architect or engineer certify that at least 5 years is necessary to complete construction of the project, the maximum reimbursement period is changed from “3 years” to “5 years.”

(3) *Nature of expenditure.* The original expenditure is a capital expenditure, a cost of issuance for a bond, an expenditure described in § 1.148-6(d)(3)(ii)(B) (relating to certain extraordinary working capital items), a grant (as defined in § 1.150-1(f)), a qualified student loan, a qualified mortgage loan, or a qualified veterans’ mortgage loan.

(e) *Official intent rules.* An official intent satisfies this paragraph (e) if:

(1) *Form of official intent.* The official intent is made in any reasonable form, including issuer resolution, action by an appropriate representative of the issuer (e.g., a person authorized or designated to declare official intent on behalf of the issuer), or specific legislative authorization for the issuance of obligations for a particular project.

(2) *Project description in official intent*—(i) *In general.* The official intent generally describes the project for which the original expenditure is paid and states the maximum principal amount of obligations expected to be issued for the project. A project includes any property, project, or program (e.g., *highway capital improvement program, hospital equipment acquisition, or school building renovation*).

(ii) *Fund accounting.* A project description is sufficient if it identifies, by name and functional purpose, the fund or account from which the original expenditure is paid (e.g., *parks and recreation fund—recreational facility capital improvement program*).

(iii) *Reasonable deviations in project description.* Deviations between a project described in an official intent and the actual project financed with reimbursement bonds do not invalidate the official intent to the extent that the actual project is reasonably related in function to the described project. For example, *hospital equipment* is a reasonable deviation from *hospital building improvements*. In contrast, a *city office building rehabilitation* is not a reasonable deviation from *highway improvements*.

(3) *Reasonableness of official intent.* On the date of the declaration, the issuer must have a reasonable expectation (as defined in § 1.148-1(b)) that it will reimburse the original expenditure with proceeds of an obligation. Official intents declared as a matter of course or in amounts substantially in excess of the amounts expected to be necessary for the project (e.g., *blanket declarations*) are not reasonable. Similarly, a pattern of failure to reimburse actual original expenditures covered by official intents (other than in extraordinary circumstances) is evidence of unreasonableness. An official intent declared pursuant to a specific legislative authorization is rebuttably presumed to satisfy this paragraph (e)(3).

(f) *Exceptions to general operating rules*—(1) *De minimis exception.* Paragraphs (d)(1) and (d)(2) of this section do not apply to costs of issuance of any bond or to an amount not in excess of the lesser of \$100,000 or 5 percent of the proceeds of the issue.

(2) *Preliminary expenditures exception.* Paragraphs (d)(1) and (d)(2) of this section do not apply to any preliminary expenditures, up to an amount not in excess of 20 percent of the aggregate issue price of the issue or issues that finance or are reasonably expected by the issuer to finance the project for which the preliminary expenditures were incurred. Preliminary expenditures include architectural, engineering, surveying, soil testing, reimbursement bond issuance, and similar costs that are incurred prior to commencement of acquisition, construction, or rehabilitation of a project, other than land acquisition, site preparation, and similar costs incident to commencement of construction.

(g) *Special rules on refundings—(1) In general—once financed, not reimbursed.* Except as provided in paragraph (g)(2) of this section, paragraph (d) of this section does not apply to an allocation to pay principal or interest on an obligation or to reimburse an original expenditure paid by another obligation. Instead, such an allocation is analyzed under rules on refunding issues. See § 1.148-9.

(2) *Certain proceeds of prior issue used for reimbursement treated as unspent.* In the case of a refunding issue (or series of refunding issues), proceeds of a prior issue purportedly used to reimburse original expenditures are treated as unspent proceeds of the prior issue unless the purported reimbursement was a valid expenditure under applicable law on reimbursement expenditures on the issue date of the prior issue.

(h) *Anti-abuse rules—(1) General rule.* A reimbursement allocation is not an expenditure of proceeds of an issue under this section if the allocation employs an abusive arbitrage device under § 1.148-10 to avoid the arbitrage restrictions or to avoid the restrictions under sections 142 through 147.

(2) *One-year step transaction rule—(i) Creation of replacement proceeds.* A purported reimbursement allocation is invalid and thus is not an expenditure of proceeds of an issue if, within 1 year after the allocation, funds corresponding to the proceeds of a reimbursement bond for which a reimbursement allocation was made are used in a manner that results in the creation of

replacement proceeds (as defined in § 1.148-1) of that issue or another issue. The preceding sentence does not apply to amounts deposited in a bona fide debt service fund (as defined in § 1.148-1).

(ii) *Example.* The provisions of paragraph (h)(2)(i) of this section are illustrated by the following example.

Example. On January 1, 1994, County A issues an issue of 7 percent tax-exempt bonds (the 1994 issue) and makes a purported reimbursement allocation to reimburse an original expenditure for specified capital improvements. A immediately deposits funds corresponding to the proceeds subject to the reimbursement allocation in an escrow fund to provide for payment of principal and interest on its outstanding 1991 issue of 9 percent tax-exempt bonds (the prior issue). The use of amounts corresponding to the proceeds of the reimbursement bonds to create a sinking fund for another issue within 1 year after the purported reimbursement allocation invalidates the reimbursement allocation. The proceeds retain their character as unspent proceeds of the 7 percent issue upon deposit in the escrow fund. Accordingly, the proceeds are subject to the 7 percent yield restriction of the 1994 issue instead of the 9 percent yield restriction of the prior issue.

(i) *Authority of the Commissioner to prescribe rules.* The Commissioner may by revenue ruling or revenue procedure (see § 601.601(d)(2)(ii)(b) of this chapter) prescribe rules for the expenditure of proceeds of reimbursement bonds in circumstances that do not otherwise satisfy this section.

(j) *Effective date—(1) In general.* Except as otherwise provided, the provisions of this section apply to all allocations of proceeds of reimbursement bonds issued after June 30, 1993.

(2) *Transitional rules—(i) Official intent.* An official intent is treated as satisfying the official intent requirement of paragraph (d)(1) of this section if it—

(A) Satisfied the applicable provisions of § 1.103-8(a)(5) as in effect prior to July 1, 1993, (as contained in 26 CFR part 1 revised as of April 1, 1993) and was made prior to that date, or

(B) Satisfied the applicable provisions of § 1.103-18 as in effect between January 27, 1992, and June 30, 1993, (as contained in 26 CFR part 1 revised as of April 1, 1993) and was made during that period.

(ii) *Certain expenditures of private activity bonds.* For any expenditure that was originally paid prior to August 15, 1993, and that would have qualified for expenditure by reimbursement from the proceeds of a private activity bond under T.D. 7199, section 1.103-8(a)(5), 1972-2 C.B. 45 (see § 601.601(d)(2)(ii)(b)) of this chapter, the requirements of that section may be applied in lieu of this section.

(3) *Nature of expenditure.* Paragraph (d)(3) of this section applies to bonds that are sold on or after October 17, 2016.

[T.D. 8476, 58 FR 33551, June 18, 1993; 58 FR 44453, Aug. 23, 1993; T.D. 9777, 81 FR 46598, July 18, 2016]

§ 1.150-4 Change in use of facilities financed with tax-exempt private activity bonds.

(a) *Scope.* This section applies for purposes of the rules for change of use of facilities financed with private activity bonds under sections 150(b)(3) (relating to qualified 501(c)(3) bonds), 150(b)(4) (relating to certain exempt facility bonds and small issue bonds), 150(b)(5) (relating to facilities required to be owned by governmental units or 501(c)(3) organizations), and 150(c).

(b) *Effect of remedial actions—(1) In general.* Except as provided in this section, the change of use provisions of sections 150(b) (3) through (5), and 150(c) apply even if the issuer takes a remedial action described in §§ 1.142-2, 1.144-2, or 1.145-2.

(2) *Exceptions—(i) Redemption.* If non-qualified bonds are redeemed within 90 days of a deliberate action under § 1.145-2(a) or within 90 days of the date on which a failure to properly use proceeds occurs under § 1.142-2 or § 1.144-2, sections 150(b) (3) through (5) do not apply during the period between that date and the date on which the non-qualified bonds are redeemed.

(ii) *Alternative qualifying use of facility.* If a bond-financed facility is used for an alternative qualifying use under §§ 1.145-2 and 1.141-12(f), sections 150(b) (3) and (5) do not apply because of the alternative use.

(iii) *Alternative use of disposition proceeds.* If disposition proceeds are used for a qualifying purpose under §§ 1.145-2 and 1.141-12(e), 1.142-2(c)(4), or 1.144-2,

sections 150(b) (3) through (5) do not apply because of the deliberate action that gave rise to the disposition proceeds after the date on which all of the disposition proceeds have been expended on the qualifying purpose. If all of the disposition proceeds are so expended within 90 days of the date of the deliberate action, however, sections 150(b) (3) through (5) do not apply because of the deliberate action.

(c) *Allocation rules—(1) In general.* If a change in use of a portion of the property financed with an issue of qualified private activity bonds causes section 150 (b)(3), (b)(4), or (b)(5) to apply to an issue, the bonds of the issue allocable to that portion under section 150(c)(3) are the same as the nonqualified bonds determined for purposes of §§ 1.142-1, 1.144-1, and 1.145-1, except that bonds allocable to all common areas are also allocated to that portion.

(2) *Special rule when remedial action is taken.* If an issuer takes a remedial action with respect to an issue of private activity bonds under §§ 1.142-2, 1.144-2, or 1.145-2, the bonds of the issue allocable to a portion of property are the same as the nonqualified bonds determined for purposes of those sections.

(d) *Effective dates.* For effective dates of this section, see § 1.141-16.

[T.D. 8712, 62 FR 2304, Jan. 16, 1997]

§ 1.150-5 Filing notices and elections.

(a) *In general.* Notices and elections under the following sections must be filed with the Internal Revenue Service, 1111 Constitution Avenue, NW, Attention: T:GE:TEB:O, Washington, DC 20224 or such other place designated by publication of a notice in the Internal Revenue Bulletin—

- (1) Section 1.141-12(d)(4);
- (2) Section 1.142(f)(4)-1; and
- (3) Section 1.142-2(c)(2).

(b) *Effective dates.* This section applies to notices and elections filed on or after January 19, 2001.

[T.D. 8941, 66 FR 4671, Jan. 18, 2001, as amended by T.D. 9741, 80 FR 65646, Oct. 27, 2015]

§§ 1.148-1A—1.148-6A

26 CFR Ch. I (4-1-22 Edition)

REGULATIONS APPLICABLE TO CERTAIN BONDS SOLD PRIOR TO JULY 8, 1997

EDITORIAL NOTE: IRS redesignated the following sections to appear below the undesignated center heading “Regulations Applicable to Certain Bonds Sold Prior to July 8, 1997” and preceding the undesignated center heading “Deductions for Personal Exemptions.” See 62 FR 25507 and 25513, May 9, 1997 for the specific sections involved in the redesignation.

§§ 1.148-1A—1.148-6A [Reserved]

§§ 1.148-9A—1.148-10A [Reserved]

§ 1.148-11A Effective dates.

(a) through (c)(3) [Reserved]. For guidance see § 1.148-11.

(c)(4) *Retroactive application of overpayment recovery provisions.* An issuer may apply the provisions of § 1.148-3(i) to any issue that is subject to section 148(f) or to sections 103(c)(6) or 103A(i) of the Internal Revenue Code of 1954.

(d) through (h) [Reserved]. For guidance see § 1.148-11.

(i) *Transition rules for certain amendments—(1) In general.* Section 1.103-8(a)(5), §§ 1.148-1, 1.148-2, 1.148-3, 1.148-4, 1.148-5, 1.148-6, 1.148-7, 1.148-8, 1.148-9, 1.148-10, 1.148-11, 1.149(d)-1, and 1.150-1 as in effect on June 7, 1994 (see 26 CFR part 1 as revised April 1, 1997), and §§ 1.148-1A through 1.148-11A, 1.149(d)-1A, and 1.150-1A apply, in whole, but not in part—

(i) To bonds sold after June 6, 1994, and before July 8, 1997;

(ii) To bonds issued before July 1, 1993, that are outstanding on June 7, 1994, if the first time the issuer applies §§ 1.148-1 through 1.148-11 as in effect on June 7, 1994 (see 26 CFR part 1 as revised April 1, 1997), to the bonds under § 1.148-11 (b) or (c) is after June 6, 1994, and before July 8, 1997;

(iii) At the option of the issuer, to bonds to which §§ 1.148-1 through 1.148-11, as in effect on July 1, 1993 (see 26 CFR part 1 as revised April 1, 1994), apply, if the bonds are outstanding on June 7, 1994, and the issuer applies § 1.103-8(a)(5), §§ 1.148-1, 1.148-2, 1.148-3, 1.148-4, 1.148-5, 1.148-6, 1.148-7, 1.148-8, 1.148-9, 1.148-10, 1.148-11, 1.149(d)-1, and 1.150-1 as in effect on June 7, 1994 (see 26 CFR part 1 as revised April 1, 1997), and §§ 1.148-1A through 1.148-11A,

1.149(d)-1A, and 1.150-1A to the bonds before July 8, 1997.

(2) *Special rule.* For purposes of paragraph (i)(1) of this section, any reference to a particular paragraph of §§ 1.148-1T, 1.148-2T, 1.148-3T, 1.148-4T, 1.148-5T, 1.148-6T, 1.148-9T, 1.148-10T, 1.148-11T, 1.149(d)-1T, or 1.150-1T shall be applied as a reference to the corresponding paragraph of §§ 1.148-1A, 1.148-2A, 1.148-3A, 1.148-4A, 1.148-5A, 1.148-6A, 1.148-9A, 1.148-10A, 1.148-11A, 1.149(d)-1A, or 1.150-1A, respectively.

(3) *Identification of certain hedges.* For any hedge entered into after June 18, 1993, and on or before June 6, 1994, that would be a qualified hedge within the meaning of § 1.148-4(h)(2), as in effect on June 7, 1994 (see 26 CFR part 1 as revised April 1, 1997), except that the hedge does not meet the requirements of § 1.148-4A(h)(2)(ix) because the issuer failed to identify the hedge not later than 3 days after which the issuer and the provider entered into the contract, the requirements of § 1.148-4A(h)(2)(ix) are treated as met if the contract is identified by the actual issuer on its books and records maintained for the hedged bonds not later than July 8, 1997.

[T.D. 8538, 59 FR 24046, May 10, 1994. Redesignated and amended by T.D. 8718, 62 FR 25507, 25513, May 9, 1997]

DEDUCTIONS FOR PERSONAL EXEMPTIONS

§ 1.151-1 Deductions for personal exemptions.

(a) *In general.* (1) In computing taxable income, an individual is allowed a deduction for the exemptions specified in section 151. Such exemptions are: (i) The exemptions for an individual taxpayer and spouse (the so-called personal exemptions); (ii) the additional exemptions for a taxpayer attaining the age of 65 years and spouse attaining the age of 65 years (the so-called old-age exemptions); (iii) the additional exemptions for a blind taxpayer and a blind spouse; and (iv) the exemptions for dependents of the taxpayer.

(2) A nonresident alien individual who is a bona fide resident of Puerto Rico during the entire taxable year and subject to tax under section 1 or 1201(b) is allowed as deductions the exemptions specified in section 151, even

though as to the United States such individual is a nonresident alien. See section 876 and the regulations thereunder, relating to alien residents of Puerto Rico.

(b) *Exemptions for individual taxpayer and spouse (so-called personal exemptions).* Section 151(b) allows an exemption for the taxpayer and an additional exemption for the spouse of the taxpayer if a joint return is not made by the taxpayer and his spouse, and if the spouse, for the calendar year in which the taxable year of the taxpayer begins, has no gross income and is not the dependent of another taxpayer. Thus, a husband is not entitled to an exemption for his wife on his separate return for the taxable year beginning in a calendar year during which she has any gross income (though insufficient to require her to file a return). Since, in the case of a joint return, there are two taxpayers (although under section 6013 there is only one income for the two taxpayers on such return, *i.e.*, their aggregate income), two exemptions are allowed on such return, one for each taxpayer spouse. If in any case a joint return is made by the taxpayer and his spouse, no other person is allowed an exemption for such spouse even though such other person would have been entitled to claim an exemption for such spouse as a dependent if such joint return had not been made.

(c) *Exemptions for taxpayer attaining the age of 65 and spouse attaining the age of 65 (so-called old-age exemptions).* (1) Section 151(c) provides an additional exemption for the taxpayer if he has attained the age of 65 before the close of his taxable year. An additional exemption is also allowed to the taxpayer for his spouse if a joint return is not made by the taxpayer and his spouse and if the spouse has attained the age of 65 before the close of the taxable year of the taxpayer and, for the calendar year in which the taxable year of the taxpayer begins, the spouse has no gross income and is not the dependent of another taxpayer. If a husband and wife make a joint return, an old-age exemption will be allowed as to each taxpayer spouse who has attained the age of 65 before the close of the taxable year for which the joint return is made. The exemptions under section

151(c) are in addition to the exemptions for the taxpayer and spouse under section 151(b).

(2) In determining the age of an individual for the purposes of the exemption for old age, the last day of the taxable year of the taxpayer is the controlling date. Thus, in the event of a separate return by a husband, no additional exemption for old age may be claimed for his spouse unless such spouse has attained the age of 65 on or before the close of the taxable year of the husband. In no event shall the additional exemption for old age be allowed with respect to a spouse who dies before attaining the age of 65 even though such spouse would have attained the age of 65 before the close of the taxable year of the taxpayer. For the purposes of the old-age exemption, an individual attains the age of 65 on the first moment of the day preceding his sixty-fifth birthday. Accordingly, an individual whose sixty-fifth birthday falls on January 1 in a given year attains the age of 65 on the last day of the calendar year immediately preceding.

(d) *Exemptions for the blind.* (1) Section 151(d) provides an additional exemption for the taxpayer if he is blind at the close of his taxable year. An additional exemption is also allowed to the taxpayer for his spouse if the spouse is blind and, for the calendar year in which the taxable year of the taxpayer begins, has no gross income and is not the dependent of another taxpayer. The determination of whether the spouse is blind shall be made as of the close of the taxable year of the taxpayer, unless the spouse dies during such taxable year, in which case such determination shall be made as of the time of such death.

(2) The exemptions for the blind are in addition to the exemptions for the taxpayer and spouse under section 151(b) and are also in addition to the exemptions under section 151(c) for taxpayers and spouses attaining the age of 65 years. Thus, a single individual who has attained the age of 65 before the close of his taxable year and who is blind at the close of his taxable year is entitled, in addition to the so-called personal exemption, to two further exemptions, one by reason of his age and

§ 1.151-2

26 CFR Ch. I (4-1-22 Edition)

the other by reason of his blindness. If a husband and wife make a joint return, an exemption for the blind will be allowed as to each taxpayer spouse who is blind at the close of the taxable year for which the joint return is made.

(3) A taxpayer claiming an exemption allowed by section 151(d) for a blind taxpayer and a blind spouse shall, if the individual for whom the exemption is claimed is not totally blind as of the last day of the taxable year of the taxpayer (or, in the case of a spouse who dies during such taxable year, as of the time of such death), attach to his return a certificate from a physician skilled in the diseases of the eye or a registered optometrist stating that as of the applicable status determination date in the opinion of such physician or optometrist (i) the central visual acuity of the individual for whom the exemption is claimed did not exceed 20/200 in the better eye with correcting lenses or (ii) such individual's visual acuity was accompanied by a limitation in the fields of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees. If such individual is totally blind as of the status determination date there shall be attached to the return a statement by the person or persons making the return setting forth such fact.

(4) Notwithstanding subparagraph (3) of this paragraph, this subparagraph may be applied where the individual for whom an exemption under section 151(d) is claimed is not totally blind, and in the certified opinion of an examining physician skilled in the diseases of the eye there is no reasonable probability that the individual's visual acuity will ever improve beyond the minimum standards described in subparagraph (3) of this paragraph. In this event, if the examination occurs during a taxable year for which the exemption is claimed, and the examining physician certifies that, in his opinion, the condition is irreversible, and a copy of this certification is filed with the return for that taxable year, then a statement described in subparagraph (3) of this paragraph need not be attached to such individual's return for subsequent taxable years so long as the condition remains irreversible. The

taxpayer shall retain a copy of the certified opinion in his records, and a statement referring to such opinion shall be attached to future returns claiming the section 151(d) exemption.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 7114, 36 FR 9018, May 18, 1971; T.D. 7230, 37 FR 28288, Dec. 22, 1972]

§ 1.151-2 Additional exemptions for dependents.

(a) Section 151(e) allows to a taxpayer an exemption for each dependent (as defined in section 152) whose gross income (as defined in section 61) for the calendar year in which the taxable year of the taxpayer begins is less than the amount provided in section 151(e)(1)(A) applicable to the taxable year of the taxpayer, or who is a child of the taxpayer and who—

(1) The taxable year of the taxpayer begins, or

(2) Is a student, as defined in paragraph (b) of § 1.151-3.

No exemption shall be allowed under section 151(e) for any dependent who has made a joint return with his spouse under section 6013 for the taxable year beginning in the calendar year in which the taxable year of the taxpayer begins. The amount provided in section 151(e)(1)(A) is \$750 in the case of a taxable year beginning after December 31, 1972; \$700 in the case of a taxable year beginning after December 31, 1971, and before January 1, 1973; \$650 in the case of a taxable year beginning after December 31, 1970, and before January 1, 1972; \$625 in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971; and \$600 in the case of a taxable year beginning before January 1, 1970. For special rules in the case of a taxpayer whose taxable year is a fiscal year ending after December 31, 1969, and beginning before January 1, 1973, see section 21(d) and the regulations thereunder.

(b) The only exemption allowed for a dependent of the taxpayer is that provided by section 151(e). The exemptions provided by section 151(c) (old-age exemptions) and section 151(d) (exemptions for the blind) are allowed only for the taxpayer or his spouse. For example, where a taxpayer provides the entire support for his father who meets all the requirements of a dependent, he

Internal Revenue Service, Treasury

§ 1.152-1

is entitled to only one exemption for his father (section 151(e)), even though his father is over the age of 65.

[T.D. 7114, 36 FR 9019, May 18, 1971]

§ 1.151-3 Definitions.

(a) *Child*. For purposes of sections 151(e), 152, and the regulations thereunder, the term "child" means a son, stepson, daughter, stepdaughter, adopted son, adopted daughter, or for taxable years beginning after December 31, 1958, a child who is a member of an individual's household if the child was placed with the individual by an authorized placement agency for legal adoption pursuant to a formal application filed by the individual with the agency (see paragraph (c)(2) of § 1.152-2), or, for taxable years beginning after December 31, 1969, a foster child (if such foster child satisfies the requirements set forth in paragraph (b) of § 1.152-1 with respect to the taxpayer) of the taxpayer.

(b) *Student*. For purposes of section 151(e) and section 152(d), and the regulations thereunder, the term "student" means an individual who during each of 5 calendar months during the calendar year in which the taxable year of the taxpayer begins is a full-time student at an educational institution or is pursuing a full-time course of institutional on-farm training under the supervision of an accredited agent of an educational institution or of a State or political subdivision of a State. An example of "institutional on-farm training" is that authorized by 38 U.S.C. 1652 (formerly section 252 of the Veterans' Readjustment Assistance Act of 1952), as described in section 252 of such act. A full-time student is one who is enrolled for some part of 5 calendar months for the number of hours or courses which is considered to be full-time attendance. The 5 calendar months need not be consecutive. School attendance exclusively at night does not constitute full-time attendance. However, full-time attendance at an educational institution may include some attendance at night in connection with a full-time course of study.

(c) *Educational institution*. For purposes of sections 151(e) and 152, and the regulations thereunder, the term "educational institution" means a

school maintaining a regular faculty and established curriculum, and having an organized body of students in attendance. It includes primary and secondary schools, colleges, universities, normal schools, technical schools, mechanical schools, and similar institutions, but does not include noneducational institutions, on-the-job training, correspondence schools, night schools, and so forth.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 7051, 35 FR 11020, July 9, 1970]

§ 1.151-4 Amount of deduction for each exemption under section 151.

The amount allowed as a deduction for each exemption under section 151 is (a) \$750 in the case of a taxable year beginning after December 31, 1972; (b) \$700 in the case of a taxable year beginning after December 31, 1971, and before January 1, 1973; (c) \$650 in the case of a taxable year beginning after December 31, 1970, and before January 1, 1972; (d) \$625 in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971; and (e) \$600 in the case of a taxable year beginning before January 1, 1970. For special rules in the case of a fiscal year ending after December 31, 1969, and beginning before January 1, 1973, see section 21(d) and the regulations thereunder.

[T.D. 7114, 36 FR 9019, May 18, 1971]

§ 1.152-1 General definition of a dependent.

(a)(1) For purposes of the income taxes imposed on individuals by chapter 1 of the Code, the term "dependent" means any individual described in paragraphs (1) through (10) of section 152(a) over half of whose support, for the calendar year in which the taxable year of the taxpayer begins, was received from the taxpayer.

(2)(i) For purposes of determining whether or not an individual received, for a given calendar year, over half of his support from the taxpayer, there shall be taken into account the amount of support received from the taxpayer as compared to the entire amount of support which the individual received from all sources, including support which the individual himself supplied. The term "support" includes food,

shelter, clothing, medical and dental care, education, and the like. Generally, the amount of an item of support will be the amount of expense incurred by the one furnishing such item. If the item of support furnished an individual is in the form of property or lodging, it will be necessary to measure the amount of such item of support in terms of its fair market value.

(ii) In computing the amount which is contributed for the support of an individual, there must be included any amount which is contributed by such individual for his own support, including income which is ordinarily excludable from gross income, such as benefits received under the Social Security Act (42 U.S.C. ch. 7). For example, a father receives \$800 social security benefits, \$400 interest, and \$1,000 from his son during 1955, all of which sums represent his sole support during that year. The fact that the social security benefits of \$800 are not includible in the father's gross income does not prevent such amount from entering into the computation of the total amount contributed for the father's support. Consequently, since the son's contribution of \$1,000 was less than one-half of the father's support (\$2,200) he may not claim his father as a dependent.

(iii)(a) For purposes of determining the amount of support furnished for a child (or children) by a taxpayer for a given calendar year, an arrearage payment made in a year subsequent to a calendar year for which there is an unpaid liability shall not be treated as paid either during that calendar year or in the year of payment, but no amount shall be treated as an arrearage payment to the extent that there is an unpaid liability (determined without regard to such payment) with respect to the support of a child for the taxable year of payment; and

(b) Similarly, payments made prior to any calendar year (whether or not made in the form of a lump sum payment in settlement of the parent's liability for support) shall not be treated as made during such calendar year, but payments made during any calendar year from amounts set aside in trust by a parent in a prior year, shall be treated as made during the calendar year in which paid.

(b) Section 152(a)(9) applies to any individual (other than an individual who at any time during the taxable year was the spouse, determined without regard to section 153, of the taxpayer) who lives with the taxpayer and is a member of the taxpayer's household during the entire taxable year of the taxpayer. An individual is not a member of the taxpayer's household if at any time during the taxable year of the taxpayer the relationship between such individual and the taxpayer is in violation of local law. It is not necessary under section 152(a)(9) that the dependent be related to the taxpayer. For example, foster children may qualify as dependents. It is necessary, however, that the taxpayer both maintain and occupy the household. The taxpayer and dependent will be considered as occupying the household for such entire taxable year notwithstanding temporary absences from the household due to special circumstances. A non-permanent failure to occupy the common abode by reason of illness, education, business, vacation, military service, or a custody agreement under which the dependent is absent for less than six months in the taxable year of the taxpayer, shall be considered temporary absence due to special circumstances. The fact that the dependent dies during the year shall not deprive the taxpayer of the deduction if the dependent lived in the household for the entire part of the year preceding his death. Likewise, the period during the taxable year preceding the birth of an individual shall not prevent such individual from qualifying as a dependent under section 152(a)(9). Moreover, a child who actually becomes a member of the taxpayer's household during the taxable year shall not be prevented from being considered a member of such household for the entire taxable year, if the child is required to remain in a hospital for a period following its birth, and if such child would otherwise have been a member of the taxpayer's household during such period.

(c) In the case of a child of the taxpayer who is under 19 or who is a student, the taxpayer may claim the dependency exemption for such child provided he has furnished more than one-

half of the support of such child for the calendar year in which the taxable year of the taxpayer begins, even though the income of the child for such calendar year may be equal to or in excess of the amount determined pursuant to § 1.151-2 applicable to such calendar year. In such a case, there may be two exemptions claimed for the child: One on the parent's (or step-parent's) return, and one on the child's return. In determining whether the taxpayer does in fact furnish more than one-half of the support of an individual who is a child, as defined in paragraph (a) of § 1.151-3, of the taxpayer and who is a student, as defined in paragraph (b) of § 1.151-3, a special rule regarding scholarships applies. Amounts received as scholarships, as defined in paragraph (a) of § 1.117-3, for study at an educational institution shall not be considered in determining whether the taxpayer furnishes more than one-half the support of such individual. For example, A has a child who receives a \$1,000 scholarship to the X college for 1 year. A contributes \$500, which constitutes the balance of the child's support for that year. A may claim the child as a dependent, as the \$1,000 scholarship is not counted in determining the support of the child. For purposes of this paragraph, amounts received for tuition payments and allowances by a veteran under the provisions of the Servicemen's Readjustment Act of 1944 (58 Stat. 284) or the Veterans' Readjustment Assistance Act of 1952 (38 U.S.C. ch. 38) are not amounts received as scholarships. See also § 1.117-4. For definition of the terms "child", "student", and "educational institution", as used in this paragraph, see § 1.151-3.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6603, 28 FR 7094, July 11, 1963; T.D. 7099, 36 FR 5337, Mar. 20, 1971; T.D. 7114, 36 FR 9019, May 18, 1971]

§ 1.152-2 Rules relating to general definition of dependent.

(a)(1) Except as provided in subparagraph (2) of this paragraph, to qualify as a dependent an individual must be a citizen or resident of the United States or be a resident of the Canal Zone, the Republic of Panama, Canada, or Mexico, or, for taxable years beginning

after December 31, 1971, a national of the United States, at some time during the calendar year in which the taxable year of the taxpayer begins. A resident of the Republic of the Philippines who was born to or legally adopted by the taxpayer in the Philippine Islands before January 1, 1956, at a time when the taxpayer was a member of the Armed Forces of the United States, may also be claimed as a dependent if such resident otherwise qualifies as a dependent. For definition of "Armed Forces of the United States," see section 7701(a)(15).

(2)(i) For any taxable year beginning after December 31, 1957, a taxpayer who is a citizen, or, for any taxable year beginning after December 31, 1971, a national, of the United States is permitted under section 152(b)(3)(B) to treat as a dependent his legally adopted child who lives with him, as a member of his household, for the entire taxable year and who, but for the citizenship, nationality, or residence requirements of section 152(b)(3) and subparagraph (1) of this paragraph, would qualify as a dependent of the taxpayer for such taxable year.

(ii) Under section 152(b)(3)(B) and this subparagraph, it is necessary that the taxpayer both maintain and occupy the household. The taxpayer and his legally adopted child will be considered as occupying the household for the entire taxable year of the taxpayer notwithstanding temporary absences from the household due to special circumstances. A nonpermanent failure to occupy the common abode by reason of illness, education, business, vacation, military service, or a custody agreement under which the legally adopted child is absent for less than six months in the taxable year of the taxpayer shall be considered temporary absence due to special circumstances. The fact that a legally adopted child dies during the year shall not deprive the taxpayer of the deduction if the child lived in the household for the entire part of the year preceding his death. The period during the taxable year preceding the birth of a child shall not prevent such child from qualifying as a dependent under this subparagraph. Moreover, a legally adopted child who actually becomes a member of the taxpayer's

household during the taxable year shall not be prevented from being considered a member of such household for the entire taxable year, if the child is required to remain in a hospital for a period following its birth and if such child would otherwise have been a member of the taxpayer's household during such period.

(iii) For purposes of section 152(b)(3)(B) and this subparagraph, any child whose legal adoption by the taxpayer (a citizen or national of the United States) becomes final at any time before the end of the taxable year of the taxpayer shall not be disqualified as a dependent of such taxpayer by reason of his citizenship, nationality, or residence, provided the child lived with the taxpayer and was a member of the taxpayer's household for the entire taxable year in which the legal adoption became final. For example, A, a citizen of the United States who makes his income tax returns on the basis of the calendar year, is employed in Brazil by an agency of the United States Government. In October 1958 he takes into his household C, a resident of Brazil who is not a citizen of the United States, for the purpose of initiating adoption proceedings. C lives with A and is a member of his household for the remainder of 1958 and for the entire calendar year 1959. On July 1, 1959, the adoption proceedings were completed and C became the legally adopted child of A. If C otherwise qualifies as a dependent, he may be claimed as a dependent by A for 1959.

(b)(1) A payment to a spouse (payee spouse) of alimony or separate maintenance is not treated as a payment by the payor spouse for the support of any dependent. Similarly, the distribution of income of an estate or trust to a divorced or legally separated payee spouse is not treated as a payment by the payor spouse for the support of any dependent. The preceding sentence will not apply, however, to the extent that such a distribution is in satisfaction of the amount or portion of income that, by the terms of a divorce decree, a written separation agreement, or the trust instrument is fixed as payable for the support of the minor children of the payor spouse.

(2) Paragraph (b)(1) of this section applies to taxable years beginning on or after October 13, 2020.

(c)(1) For purposes of determining the existence of any of the relationships specified in section 152 (a) or (b)(1), a legally adopted child of an individual shall be treated as a child of such individual by blood.

(2) For any taxable year beginning after December 31, 1958, a child who is a member of an individual's household also shall be treated as a child of such individual by blood if the child was placed with the individual by an authorized placement agency for legal adoption pursuant to a formal application filed by the individual with the agency. For purposes of this subparagraph an authorized placement agency is any agency which is authorized by a State, the District of Columbia, a possession of the United States, a foreign country, or a political subdivision of any of the foregoing to place children for adoption. A taxpayer who claims as a dependent a child placed with him for adoption shall attach to his income tax return a statement setting forth the name of the child for whom the dependency deduction is claimed, the name and address of the authorized placement agency, and the date the formal application was filed with the agency.

(3) The application of this paragraph may be illustrated by the following example:

Example. On March 1, 1959, D, a resident of the United States, made formal application to an authorized child placement agency for the placement of E, a resident of the United States, with him for legal adoption. On June 1, 1959, E was placed with D for legal adoption. During the year 1959 E received over one-half of his support from D. D may claim E as a dependent for 1959. Since E was a resident of the United States, his qualification as a dependent is in no way based on the provisions of section 152(b)(3)(B). Therefore, it is immaterial that E was not a member of D's household during the entire taxable year.

(4) For purposes of determining the existence of any of the relationships specified in section 152 (a) or (b)(1), a foster child of an individual (if such foster child satisfies the requirements set forth in paragraph (b) of §1.152-1 with respect to such individual) shall, for taxable years beginning after December 31, 1969, be treated as a child of

such individual by blood. For purposes of this subparagraph, a foster child is a child who is in the care of a person or persons (other than the parents or adopted parents of the child) who care for the child as their own child. Status as a foster child is not dependent upon or affected by the circumstances under which the child became a member of the household.

(d) In the case of a joint return it is not necessary that the prescribed relationship exist between the person claimed as a dependent and the spouse who furnishes the support; it is sufficient if the prescribed relationship exists with respect to either spouse. Thus, a husband and wife making a joint return may claim as a dependent a daughter of the wife's brother (wife's niece) even though the husband is the one who furnishes the chief support. The relationship of affinity once existing will not terminate by divorce or the death of a spouse. For example, a widower may continue to claim his deceased wife's father (his father-in-law) as a dependent provided he meets the other requirements of section 151.

(e)(1) In defining a qualifying relative for taxable year 2018, the exemption amount in section 152(d)(1)(B) is \$4,150. For taxable years 2019 through 2025, the exemption amount, as adjusted for inflation, is set forth in annual guidance published in the Internal Revenue Bulletin. See § 601.601(d)(2) of this chapter.

(2) Paragraph (e)(1) of this section applies to taxable years ending after August 28, 2018.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6603, 28 FR 7094, July 11, 1963; T.D. 7051, 35 FR 11020, July 9, 1970; T.D. 7291, 38 FR 33396, Dec. 4, 1973; T.D. 9913, 85 FR 64386, Oct. 13, 2020]

§ 1.152-3 Multiple support agreements.

(a) Section 152(c) provides that a taxpayer shall be treated as having contributed over half of the support of an individual for the calendar year (in cases where two or more taxpayers contributed to the support of such individual) if—

(1) No one person contributed over half of the individual's support,

(2) Each member of the group which collectively contributed more than half of the support of the individual would

have been entitled to claim the individual as a dependent but for the fact that he did not contribute more than one-half of such support.

(3) The member of the group claiming the individual as a dependent contributed more than 10 percent of the individual's support, and

(4) Each other person in the group who contributed more than 10 percent of such support furnishes to the taxpayer claiming the dependent a written declaration that such other person will not claim the individual as a dependent for any taxable year beginning in such calendar year.

(b) *Examples.* Application of the rule contained in paragraph (a) of this section may be illustrated by the following examples:

Example 1. During the taxable year, brothers A, B, C, and D contributed the entire support of their mother in the following percentages: A, 30 percent; B, 20 percent; C, 29 percent; and D, 21 percent. Any one of the brothers, except for the fact that he did not contribute more than half of her support, would have been entitled to claim his mother as a dependent. Consequently, any one of the brothers could claim a deduction for the exemption of the mother if he obtained a written declaration (as provided in paragraph (a)(4) of this section) from each of the other brothers. Even though A and D together contributed more than one-half the support of the mother, A, if he wished to claim his mother as a dependent, would be required to obtain written declarations from B, C, and D, since each of those three contributed more than 10 percent of the support and, but for the failure to contribute more than half of the mother's support, would have been entitled to claim his mother as a dependent.

Example 2. During the taxable year, E, an individual who resides with his son, S, received his entire support for that year as follows:

Source	Percentage of total
Social Security	25
N, an unrelated neighbor	11
B, a brother	14
D, a daughter	10
S, a son	40
Total received by E	100

B, D, and S are persons each of whom, but for the fact that none contributed more than half of E's support, could claim E as a dependent for the taxable year. The three together contributed 64 percent of E's support, and, thus, each is a member of the group to

§ 1.152-4

26 CFR Ch. I (4-1-22 Edition)

be considered for the purpose of section 152(c). B and S are the only members of such group who can meet all the requirements of section 152(c), and either one could claim E as a dependent for his taxable year if he obtained a written declaration (as provided in paragraph (a)(4) of this section) signed by the other, and furnished the other information required by the return with respect to all the contributions to E. Inasmuch as D did not contribute more than 10 percent of E's support, she is not entitled to claim E as a dependent for the taxable year nor is she required to furnish a written declaration with respect to her contributions to E. N contributed over 10 percent of the support of E, but, since he is an unrelated neighbor, he does not qualify as a member of the group for the purpose of the multiple support agreement under section 152(c).

(c)(1) The member of a group of contributors who claims an individual as a dependent for a taxable year beginning before January 1, 2002, under the multiple support agreement provisions of section 152(c) must attach to the member's income tax return for the year of the deduction a written declaration from each of the other persons who contributed more than 10 percent of the support of such individual and who, but for the failure to contribute more than half of the support of the individual, would have been entitled to claim the individual as a dependent.

(2) The taxpayer claiming an individual as a dependent for a taxable year beginning after December 31, 2001, under the multiple support agreement provisions of section 152(c) must provide with the income tax return for the year of the deduction—

(i) A statement identifying each of the other persons who contributed more than 10 percent of the support of the individual and who, but for the failure to contribute more than half of the support of the individual, would have been entitled to claim the individual as a dependent; and

(ii) A statement indicating that the taxpayer obtained a written declaration from each of the persons described in section 152(c)(2) waiving the right to claim the individual as a dependent.

(3) The taxpayer claiming the individual as a dependent for a taxable year beginning after December 31, 2001, must retain the waiver declarations and should be prepared to furnish the waiver declarations and any other in-

formation necessary to substantiate the claim, which may include a statement showing the names of all contributors (whether or not members of the group described in section 152(c)(2)) and the amount contributed by each to the support of the claimed dependent.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6603, 28 FR 7094, July 11, 1963; T.D. 8989, 67 FR 20031, Apr. 24, 2002; T.D. 9040, 68 FR 4920, Jan. 31, 2003]

§ 1.152-4 Special rule for a child of divorced or separated parents or parents who live apart.

(a) *In general.* A taxpayer may claim a dependency deduction for a child (as defined in section 152(f)(1)) only if the child is the qualifying child of the taxpayer under section 152(c) or the qualifying relative of the taxpayer under section 152(d). Section 152(c)(4)(B) provides that a child who is claimed as a qualifying child by parents who do not file a joint return together is treated as the qualifying child of the parent with whom the child resides for a longer period of time during the taxable year or, if the child resides with both parents for an equal period of time, of the parent with the higher adjusted gross income. However, a child is treated as the qualifying child or qualifying relative of the noncustodial parent if the custodial parent releases a claim to the exemption under section 152(e) and this section.

(b) *Release of claim by custodial parent—*(1) *In general.* Under section 152(e)(1), notwithstanding section 152(c)(1)(B), (c)(4), or (d)(1)(C), a child is treated as the qualifying child or qualifying relative of the noncustodial parent (as defined in paragraph (d) of this section) if the requirements of paragraphs (b)(2) and (b)(3) of this section are met.

(2) *Support, custody, and parental status—*(i) *In general.* The requirements of this paragraph (b)(2) are met if the parents of the child provide over one-half of the child's support for the calendar year, the child is in the custody of one or both parents for more than one-half of the calendar year, and the parents—

(A) Are divorced or legally separated under a decree of divorce or separate maintenance;

(B) Are separated under a written separation agreement; or

(C) Live apart at all times during the last 6 months of the calendar year whether or not they are or were married.

(ii) *Multiple support agreement.* The requirements of this paragraph (b)(2) are not met if over one-half of the support of the child is treated as having been received from a taxpayer under section 152(d)(3).

(3) *Release of claim to child.* The requirements of this paragraph (b)(3) are met for a calendar year if—

(i) The custodial parent signs a written declaration that the custodial parent will not claim the child as a dependent for any taxable year beginning in that calendar year and the noncustodial parent attaches the declaration to the noncustodial parent's return for the taxable year; or

(ii) A qualified pre-1985 instrument, as defined in section 152(e)(3)(B), applicable to the taxable year beginning in that calendar year, provides that the noncustodial parent is entitled to the dependency exemption for the child and the noncustodial parent provides at least \$600 for the support of the child during the calendar year.

(c) *Custody.* A child is in the custody of one or both parents for more than one-half of the calendar year if one or both parents have the right under state law to physical custody of the child for more than one-half of the calendar year.

(d) *Custodial parent*—(1) *In general.* The *custodial parent* is the parent with whom the child resides for the greater number of nights during the calendar year, and the *noncustodial parent* is the parent who is not the custodial parent. A child is treated as residing with neither parent if the child is emancipated under state law. For purposes of this section, a child resides with a parent for a night if the child sleeps—

(i) At the residence of that parent (whether or not the parent is present); or

(ii) In the company of the parent, when the child does not sleep at a parent's residence (for example, the parent and child are on vacation together).

(2) *Night straddling taxable years.* A night that extends over two taxable

years is allocated to the taxable year in which the night begins.

(3) *Absences.* (i) Except as provided in paragraph (d)(3)(ii) of this section, for purposes of this paragraph (d), a child who does not reside (within the meaning of paragraph (d)(1) of this section) with a parent for a night is treated as residing with the parent with whom the child would have resided for the night but for the absence.

(ii) A child who does not reside (within the meaning of paragraph (d)(1) of this section) with a parent for a night is treated as not residing with either parent for that night if it cannot be determined with which parent the child would have resided or if the child would not have resided with either parent for the night.

(4) *Special rule for equal number of nights.* If a child is in the custody of one or both parents for more than one-half of the calendar year and the child resides with each parent for an equal number of nights during the calendar year, the parent with the higher adjusted gross income for the calendar year is treated as the custodial parent.

(5) *Exception for a parent who works at night.* If, in a calendar year, due to a parent's nighttime work schedule, a child resides for a greater number of days but not nights with the parent who works at night, that parent is treated as the custodial parent. On a school day, the child is treated as residing at the primary residence registered with the school.

(e) *Written declaration*—(1) *Form of declaration*—(i) *In general.* The written declaration under paragraph (b)(3)(i) of this section must be an unconditional release of the custodial parent's claim to the child as a dependent for the year or years for which the declaration is effective. A declaration is not unconditional if the custodial parent's release of the right to claim the child as a dependent requires the satisfaction of any condition, including the noncustodial parent's meeting of an obligation such as the payment of support. A written declaration must name the noncustodial parent to whom the exemption is released. A written declaration must specify the year or years for which it is effective. A written declaration that specifies all future years is

treated as specifying the first taxable year after the taxable year of execution and all subsequent taxable years.

(ii) *Form designated by IRS.* A written declaration may be made on Form 8332, Release/Revocation of Release of Claim to Exemption for Child by Custodial Parent, or successor form designated by the IRS. A written declaration not on the form designated by the IRS must conform to the substance of that form and must be a document executed for the sole purpose of serving as a written declaration under this section. A court order or decree or a separation agreement may not serve as a written declaration.

(2) *Attachment to return.* A noncustodial parent must attach a copy of the written declaration to the parent's return for each taxable year in which the child is claimed as a dependent.

(3) *Revocation of written declaration—*

(i) *In general.* A parent may revoke a written declaration described in paragraph (e)(1) of this section by providing written notice of the revocation to the other parent. The parent revoking the written declaration must make reasonable efforts to provide actual notice to the other parent. The revocation may be effective no earlier than the taxable year that begins in the first calendar year after the calendar year in which the parent revoking the written declaration provides, or makes reasonable efforts to provide, the written notice.

(ii) *Form of revocation.* The revocation may be made on Form 8332, Release/Revocation of Release of Claim to Exemption for Child by Custodial Parent, or successor form designated by the IRS whether or not the written declaration was made on a form designated by the IRS. A revocation not on that form must conform to the substance of the form and must be a document executed for the sole purpose of serving as a revocation under this section. The revocation must specify the year or years for which the revocation is effective. A revocation that specifies all future years is treated as specifying the first taxable year after the taxable year the revocation is executed and all subsequent taxable years.

(iii) *Attachment to return.* The parent revoking the written declaration must attach a copy of the revocation to the

parent's return for each taxable year for which the parent claims a child as a dependent as a result of the revocation. The parent revoking the written declaration must keep a copy of the revocation and evidence of delivery of the notice to the other parent, or of the reasonable efforts to provide actual notice.

(4) *Ineffective declaration or revocation.* A written declaration or revocation that fails to satisfy the requirements of this paragraph (e) has no effect.

(5) *Written declaration executed in a taxable year beginning on or before July 2, 2008.* A written declaration executed in a taxable year beginning on or before July 2, 2008, that satisfies the requirements for the form of a written declaration in effect at the time the written declaration is executed, will be treated as meeting the requirements of paragraph (e)(1) of this section. Paragraph (e)(3) of this section applies without regard to whether a custodial parent executed the written declaration in a taxable year beginning on or before July 2, 2008.

(f) *Coordination with other sections.* If section 152(e) and this section apply, a child is treated as the dependent of both parents for purposes of sections 105(b), 132(h)(2)(B), and 213(d)(5).

(g) *Examples.* The provisions of this section are illustrated by the following examples that assume, unless otherwise provided, that each taxpayer's taxable year is the calendar year, one or both of the child's parents provide over one-half of the child's support for the calendar year, one or both parents have the right under state law to physical custody of the child for more than one-half of the calendar year, and the child otherwise meets the requirements of a qualifying child under section 152(c) or a qualifying relative under section 152(d). In addition, in each of the examples, no qualified pre-1985 instrument or multiple support agreement is in effect. The examples are as follows:

Example 1. (i) B and C are the divorced parents of Child. In 2009, Child resides with B for 210 nights and with C for 155 nights. B executes a Form 8332 for 2009 releasing B's right to claim Child as a dependent for that year, which C attaches to C's 2009 return.

(ii) Under paragraph (d) of this section, B is the custodial parent of Child in 2009 because B is the parent with whom Child resides for the greater number of nights in 2009. Because the requirements of paragraphs (b)(2) and (3) of this section are met, C may claim Child as a dependent.

Example 2. The facts are the same as in *Example 1* except that B does not execute a Form 8332 or similar declaration for 2009. Therefore, section 152(e) and this section do not apply. Whether Child is the qualifying child or qualifying relative of B or C is determined under section 152(c) or (d).

Example 3. (i) D and E are the divorced parents of Child. Under a custody decree, Grandmother has the right under state law to physical custody of Child from January 1 to July 31, 2009.

(ii) Because D and E do not have the right under state law to physical custody of Child for over one-half of the 2009 calendar year, under paragraph (c) of this section, Child is not in the custody of one or both parents for over one-half of the calendar year. Therefore, section 152(e) and this section do not apply, and whether Child is the qualifying child or qualifying relative of D, E, or Grandmother is determined under section 152(c) or (d).

Example 4. (i) The facts are the same as in *Example 3*, except that Grandmother has the right to physical custody of Child from January 1 to March 31, 2009, and, as a result, Child resides with Grandmother during this period. D and E jointly have the right to physical custody of Child from April 1 to December 31, 2009. During this period, Child resides with D for 180 nights and with E for 95 nights. D executes a Form 8332 for 2009 releasing D's right to claim Child as a dependent for that year, which E attaches to E's 2009 return.

(ii) Under paragraph (c) of this section, Child is in the custody of D and E for over one-half of the calendar year, because D and E have the right under state law to physical custody of Child for over one-half of the calendar year.

(iii) Under paragraph (d)(3)(ii) of this section, the nights that Child resides with Grandmother are not allocated to either parent. Child resides with D for a greater number of nights than with E during the calendar year and, under paragraph (d)(1) of this section, D is the custodial parent.

(iv) Because the requirements of paragraphs (b)(2) and (3) of this section are met, section 152(e) and this section apply, and E may claim Child as a dependent.

Example 5. (i) The facts are the same as in *Example 4*, except that D is away on military service from April 10 to June 15, 2009, and September 6 to October 20, 2009. During these periods Child resides with Grandmother in Grandmother's residence. Child would have resided with D if D had not been away on military service. Grandmother claims Child as a dependent on Grandmother's 2009 return.

(ii) Under paragraph (d)(3)(i) of this section, Child is treated as residing with D for the nights that D is away on military service. Because the requirements of paragraphs (b)(2) and (3) of this section are met, section 152(e) and this section apply, and E, not Grandmother, may claim Child as a dependent.

Example 6. F and G are the divorced parents of Child. In May of 2009, Child turns age 18 and is emancipated under the law of the state where Child resides. Therefore, in 2009 and later years, F and G do not have the right under state law to physical custody of Child for over one-half of the calendar year, and Child is not in the custody of F and G for over one-half of the calendar year. Section 152(e) and this section do not apply, and whether Child is the qualifying child or qualifying relative of F or G is determined under section 152(c) or (d).

Example 7. (i) The facts are the same as in *Example 6*, except that Child turns age 18 and is emancipated under state law on August 1, 2009, resides with F from January 1, 2009, through May 31, 2009, and resides with G from June 1, 2009, through December 31, 2009. F executes a Form 8332 releasing F's right to claim Child as a dependent for 2009, which G attaches to G's 2009 return.

(ii) Under paragraph (c) of this section, Child is in the custody of F and G for over one-half of the calendar year.

(iii) Under paragraph (d)(1) of this section, Child is treated as not residing with either parent after Child's emancipation. Therefore, Child resides with F for 151 nights and with G for 61 nights. Because the requirements of paragraphs (b)(2) and (3) of this section are met, section 152(e) and this section apply, and G may claim Child as a dependent.

Example 8. H and J are the divorced parents of Child. Child generally resides with H during the week and with J every other weekend. Child resides with J in H's residence for 10 consecutive nights while H is hospitalized. Under paragraph (d)(1)(i) of this section, Child resides with H for the 10 nights.

Example 9. K and L, who are separated under a written separation agreement, are the parents of Child. In August 2009, K and Child spend 10 nights together in a hotel while on vacation. Under paragraph (d)(1)(ii) of this section, Child resides with K for the 10 nights that K and Child are on vacation.

Example 10. M and N are the divorced parents of Child. On December 31, 2009, Child attends a party at M's residence. After midnight on January 1, 2010, Child travels to N's residence, where Child sleeps. Under paragraph (d)(1) of this section, Child resides with N for the night of December 31, 2009, to January 1, 2010, because Child sleeps at N's

residence that night. However, under paragraph (d)(2) of this section, the night of December 31, 2009, to January 1, 2010, is allocated to taxable year 2009 for purposes of determining whether Child resides with M or N for a greater number of nights in 2009.

Example 11. O and P, who never married, are the parents of Child. In 2009, Child spends alternate weeks residing with O and P. During a week that Child is residing with O, O gives Child permission to spend a night at the home of a friend. Under paragraph (d)(3)(i) of this section, the night Child spends at the friend's home is treated as a night that Child resides with O.

Example 12. The facts are the same as in *Example 11*, except that Child also resides at summer camp for 6 weeks. Because Child resides with each parent for alternate weeks, Child would have resided with O for 3 weeks and with P for 3 weeks of the period that Child is at camp. Under paragraph (d)(3)(i) of this section, Child is treated as residing with O for 3 weeks and with P for 3 weeks.

Example 13. The facts are the same as in *Example 12*, except that Child does not spend alternate weeks residing with O and P, and it cannot be determined whether Child would have resided with O or P for the period that Child is at camp. Under paragraph (d)(3)(ii) of this section, Child is treated as residing with neither parent for the 6 weeks.

Example 14. (i) Q and R are the divorced parents of Child. Q works from 11 PM to 7 AM Sunday through Thursday nights. Because of Q's nighttime work schedule, Child resides with R Sunday through Thursday nights and with Q Friday and Saturday nights. Therefore, in 2009, Child resides with R for 261 nights and with Q for 104 nights. Child spends all daytime hours when Child is not in school with Q and Q's address is registered with Child's school as Child's primary residence. Q executes a Form 8332 for 2009 releasing Q's right to claim Child as a dependent for that year, which R attaches to R's 2009 return.

(ii) Under paragraph (d) of this section, Q is the custodial parent of Child in 2009. Child resides with R for a greater number of nights than with Q due to Q's nighttime work schedule, and Child spends a greater number of days with Q. Therefore, paragraph (d)(5) of this section applies rather than paragraph (d)(1) of this section. Because the requirements of paragraphs (b)(2) and (3) of this section are met, R may claim Child as a dependent.

Example 15. (i) In 2009, S and T, the parents of Child, execute a written separation agreement. The agreement provides that Child will live with S and that T will make monthly child support payments to S. In 2009, Child resides with S for 335 nights and with T for 30 nights. S executes a letter declaring that S will not claim Child as a dependent in 2009 and in subsequent alternate years. The letter

contains all the information requested on Form 8332, does not require the satisfaction of any condition such as T's payment of support, and has no purpose other than to serve as a written declaration under section 152(e) and this section. T attaches the letter to T's return for 2009 and 2011.

(ii) In 2010, T fails to provide support for Child, and S executes a Form 8332 revoking the release of S's right to claim Child as a dependent for 2011. S delivers a copy of the Form 8332 to T, attaches a copy of the Form 8332 to S's tax return for 2011, and keeps a copy of the Form 8332 and evidence of delivery of the written notice to T.

(iii) T may claim Child as a dependent for 2009 because S releases the right to claim Child as a dependent under paragraph (b)(3) of this section by executing the letter, which conforms to the requirements of paragraph (e)(1) of this section, and T attaches the letter to T's return in accordance with paragraph (e)(2) of this section. In 2010, S revokes the release of the claim in accordance with paragraph (e)(3) of this section, and the revocation takes effect in 2011, the taxable year that begins in the first calendar year after S provides written notice of the revocation to T. Therefore, in 2011, section 152(e) and this section do not apply, and whether Child is the qualifying child or qualifying relative of S or T is determined under section 152(c) or (d).

Example 16. The facts are the same as *Example 15*, except that the letter expressly states that S releases the right to claim Child as a dependent only if T is current in the payment of support for Child at the end of the calendar year. The letter does not qualify as a written declaration under paragraph (b)(3) of this section because S's agreement not to claim Child as a dependent is conditioned on T's payment of support and, under paragraph (e)(1)(i) of this section, a written declaration must be unconditional. Therefore, section 152(e) and this section do not apply, and whether Child is the qualifying child or qualifying relative of S or T for 2009 as well as 2011 is determined under section 152(c) or (d).

Example 17. (i) U and V are the divorced parents of Child. Child resides with U for more nights than with V in 2009 through 2011. In 2009, U provides a written statement to V declaring that U will not claim Child as a dependent, but the statement does not specify the year or years it is effective. V attaches the statement to V's returns for 2009 through 2011.

(ii) Because the written statement does not specify a year or years, under paragraph (e)(1) of this section, it is not a written declaration that conforms to the substance of Form 8332. Under paragraph (e)(4) of this section, the statement has no effect. Section 152(e) and this section do not apply, and whether Child is the qualifying child or

qualifying relative of U or V is determined under section 152(c) or (d).

Example 18. (i) W and X are the divorced parents of Child. In 2009, Child resides solely with W. The divorce decree requires X to pay child support to W and requires W to execute a Form 8332 releasing W's right to claim Child as a dependent. W fails to sign a Form 8332 for 2009, and X attaches an unsigned Form 8332 to X's return for 2009.

(ii) The order in the divorce decree requiring W to execute a Form 8332 is ineffective to allocate the right to claim Child as a dependent to X. Furthermore, under paragraph (e)(1) of this section, the unsigned Form 8332 does not conform to the substance of Form 8332, and under paragraph (e)(4) of this section, the Form 8332 has no effect. Therefore, section 152(e) and this section do not apply, and whether Child is the qualifying child or qualifying relative of W or X is determined under section 152(c) or (d).

(iii) If, however, W executes a Form 8332 for 2009, and X attaches the Form 8332 to X's return, then X may claim Child as a dependent in 2009.

Example 19. (i) Y and Z are the divorced parents of Child. In 2003, Y and Z enter into a separation agreement, which is incorporated into a divorce decree, under which Y, the custodial parent, releases Y's right to claim Child as a dependent for all future years. The separation agreement satisfies the requirements for the form of a written declaration in effect at the time it is executed. Z attaches a copy of the separation agreement to Z's returns for 2003 through 2009.

(ii) Under paragraph (e)(1)(ii) of this section, a separation agreement may not serve as a written declaration. However, under paragraph (e)(5) of this section, a written declaration executed in a taxable year beginning on or before July 2, 2008, that satisfies the requirements for the form of a written declaration in effect at the time the written declaration is executed, will be treated as meeting the requirements of paragraph (e)(1) of this section. Therefore, the separation agreement may serve as the written declaration required by paragraph (b)(3)(i) of this section for 2009, and Z may claim Child as a dependent in 2009 and later years.

Example 20. (i) The facts are the same as in *Example 19*, except that in 2009 Y executes a Form 8332 revoking the release of Y's right to claim Child as a dependent for 2010. Y complies with all the requirements of paragraph (e)(3) of this section.

(ii) Although Y executes the separation agreement releasing Y's right to claim Child as a dependent in a taxable year beginning on or before July 2, 2008, under paragraph (e)(5) of this section, Y's execution of the Form 8332 in 2009 is effective to revoke the release. Therefore, section 152(e) and this section do not apply in 2010, and whether

Child is the qualifying child or qualifying relative of Y or Z is determined under section 152(c) or (d).

(h) *Effective/applicability date.* This section applies to taxable years beginning after July 2, 2008.

[T.D. 9408, 73 FR 37801, July 2, 2008]

§ 1.153-1 Determination of marital status.

For the purpose of determining the right of an individual to claim an exemption for his spouse under section 151(b), the determination of whether such individual is married shall be made as of the close of his taxable year, unless his spouse dies during such year, in which case the determination shall be made as of the time of such death. An individual legally separated from his spouse under a decree of divorce or separate maintenance shall not be considered as married. The provisions of this section may be illustrated by the following examples:

Example 1. A, who files his returns on the basis of a calendar year, married B on December 31, 1956. B, who had never previously married, had no gross income for the calendar year 1956 nor was she the dependent of another taxpayer for such year. A may claim an exemption for B for 1956.

Example 2. C and his wife, D, were married in 1940. They remained married until July 1956 at which time D was granted a decree of divorce. C, who files his income tax returns on a calendar year basis, cannot claim an exemption for D on his 1956 return as C and D were not married on the last day of C's taxable year. Had D died instead of being divorced, C could have claimed an exemption for D for 1956 as their marital status would have been determined as of the date of D's death.

(4) For exemptions of citizens deriving income mainly from sources within possessions of the United States, see section 931(e).

(Sec. 154 as amended by sec. 103(c)(2), Foreign Investors Tax Act 1966 (80 Stat. 1551))

[T.D. 6500, 25 FR 11402, Nov. 26, 1960; 25 FR 14021, Dec. 21, 1960, as amended by T.D. 7332, 39 FR 44216, Dec. 23, 1974]

ITEMIZED DEDUCTIONS FOR INDIVIDUALS AND CORPORATIONS

§ 1.161-1 Allowance of deductions.

Section 161 provides for the allowance as deductions, in computing taxable income under section 63(a), of the items specified in Part VI (section 161 and following), Subchapter B, Chapter 1 of the Code, subject to the exceptions provided in Part IX (section 261 and following), of such Subchapter B, relating to items not deductible. Double deductions are not permitted. Amounts deducted under one provision of the Internal Revenue Code of 1954 cannot again be deducted under any other provision thereof. See also section 7852(c), relating to the taking into account, both in computing a tax under Subtitle A of the Internal Revenue Code of 1954 and a tax under Chapter 1 or 2 of the Internal Revenue Code of 1939, of the same item of deduction.

§ 1.162-1 Business expenses.

(a) *In general.* Business expenses deductible from gross income include the ordinary and necessary expenditures directly connected with or pertaining to the taxpayer's trade or business, except items which are used as the basis for a deduction or a credit under provisions of law other than section 162. The cost of goods purchased for resale, with proper adjustment for opening and closing inventories, is deducted from gross sales in computing gross income. See paragraph (a) of § 1.161-3. Among the items included in business expenses are management expenses, commissions (but see section 263 and the regulations thereunder), labor, supplies, incidental repairs, operating expenses of automobiles used in the trade or business, traveling expenses while away from home solely in the pursuit of a trade or business (see § 1.162-2), advertising and other selling expenses, together with insurance premiums

against fire, storm, theft, accident, or other similar losses in the case of a business, and rental for the use of business property. No such item shall be included in business expenses, however, to the extent that it is used by the taxpayer in computing the cost of property included in its inventory or used in determining the gain or loss basis of its plant, equipment, or other property. See section 1054 and the regulations thereunder. A deduction for an expense paid or incurred after December 30, 1969, which would otherwise be allowable under section 162 shall not be denied on the grounds that allowance of such deduction would frustrate a sharply defined public policy. See section 162(c), (f), and (g) and the regulations thereunder. The full amount of the allowable deduction for ordinary and necessary expenses in carrying on a business is deductible, even though such expenses exceed the gross income derived during the taxable year from such business. In the case of any sports program to which section 114 (relating to sports programs conducted for the American National Red Cross) applies, expenses described in section 114(a)(2) shall be allowable as deductions under section 162(a) only to the extent that such expenses exceed the amount excluded from gross income under section 114(a).

(b) *Cross references.* (1) For charitable contributions by individuals and corporations not deductible under section 162, see § 1.162-15.

(2) For items not deductible, see sections 261-276, inclusive, and the regulations thereunder.

(3) For research and experimental expenditures, see section 174 and regulations thereunder.

(4) For soil and water conservation expenditures, see section 175 and regulations thereunder.

(5) For expenditures attributable to grant or loan by United States for encouragement of exploration for, or development or mining of, critical and strategic minerals or metals, see section 621 and regulations thereunder.

(6) For treatment of certain rental payments with respect to public utility property, see section 167(1) and § 1.167(1)-3.

(7) For limitations on the deductibility of miscellaneous itemized deductions, see section 67 and §§1.67-1T through 1.67-4T.

(8) For the timing of deductions with respect to notional principal contracts, see §1.446-3.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6690, 28 FR 12253, Nov. 19, 1963; T.D. 6996, 34 FR 835, Jan. 18, 1969; T.D. 7315, 39 FR 20203, June 7, 1974; T.D. 7345, 40 FR 7437, Feb. 20, 1975; T.D. 8189, 53 FR 9881, Mar. 28, 1988; T.D. 8491, 58 FR 53128, Oct. 14, 1993]

§ 1.162-2 Traveling expenses.

(a) Traveling expenses include travel fares, meals and lodging, and expenses incident to travel such as expenses for sample rooms, telephone and telegraph, public stenographers, etc. Only such traveling expenses as are reasonable and necessary in the conduct of the taxpayer's business and directly attributable to it may be deducted. If the trip is undertaken for other than business purposes, the travel fares and expenses incident to travel are personal expenses and the meals and lodging are living expenses. If the trip is solely on business, the reasonable and necessary traveling expenses, including travel fares, meals and lodging, and expenses incident to travel, are business expenses. For the allowance of traveling expenses as deductions in determining adjusted gross income, see section 62(2)(B) and the regulations thereunder.

(b)(1) If a taxpayer travels to a destination and while at such destination engages in both business and personal activities, traveling expenses to and from such destination are deductible only if the trip is related primarily to the taxpayer's trade or business. If the trip is primarily personal in nature, the traveling expenses to and from the destination are not deductible even though the taxpayer engages in business activities while at such destination. However, expenses while at the destination which are properly allocable to the taxpayer's trade or business are deductible even though the traveling expenses to and from the destination are not deductible.

(2) Whether a trip is related primarily to the taxpayer's trade or business or is primarily personal in nature

depends on the facts and circumstances in each case. The amount of time during the period of the trip which is spent on personal activity compared to the amount of time spent on activities directly relating to the taxpayer's trade or business is an important factor in determining whether the trip is primarily personal. If, for example, a taxpayer spends one week while at a destination on activities which are directly related to his trade or business and subsequently spends an additional five weeks for vacation or other personal activities, the trip will be considered primarily personal in nature in the absence of a clear showing to the contrary.

(c) Where a taxpayer's wife accompanies him on a business trip, expenses attributable to her travel are not deductible unless it can be adequately shown that the wife's presence on the trip has a bona fide business purpose. The wife's performance of some incidental service does not cause her expenses to qualify as deductible business expenses. The same rules apply to any other members of the taxpayer's family who accompany him on such a trip.

(d) Expenses paid or incurred by a taxpayer in attending a convention or other meeting may constitute an ordinary and necessary business expense under section 162 depending upon the facts and circumstances of each case. No distinction will be made between self-employed persons and employees. The fact that an employee uses vacation or leave time or that his attendance at the convention is voluntary will not necessarily prohibit the allowance of the deduction. The allowance of deductions for such expenses will depend upon whether there is a sufficient relationship between the taxpayer's trade or business and his attendance at the convention or other meeting so that he is benefiting or advancing the interests of his trade or business by such attendance. If the convention is for political, social or other purposes unrelated to the taxpayer's trade or business, the expenses are not deductible.

(e) Commuters' fares are not considered as business expenses and are not deductible.

(f) For rules with respect to the reporting and substantiation of traveling and other business expenses of employees for taxable years beginning after December 31, 1957, see § 1.162-17.

§ 1.162-3 Materials and supplies.

(a) *In general*—(1) *Non-incidental materials and supplies*. Except as provided in paragraphs (d), (e), and (f) of this section, amounts paid to acquire or produce materials and supplies (as defined in paragraph (c) of this section) are deductible in the taxable year in which the materials and supplies are first used in the taxpayer's operations or are consumed in the taxpayer's operations.

(2) *Incidental materials and supplies*. Amounts paid to acquire or produce incidental materials and supplies (as defined in paragraph (c) of this section) that are carried on hand and for which no record of consumption is kept or of which physical inventories at the beginning and end of the taxable year are not taken, are deductible in the taxable year in which these amounts are paid, provided taxable income is clearly reflected.

(3) *Use or consumption of rotatable and temporary spare parts*. Except as provided in paragraphs (d), (e), and (f) of this section, for purposes of paragraph (a)(1) of this section, rotatable and temporary spare parts (defined under paragraph (c)(2) of this section) are first used in the taxpayer's operations or are consumed in the taxpayer's operations in the taxable year in which the taxpayer disposes of the parts.

(b) *Coordination with other provisions of the Internal Revenue Code*. Nothing in this section changes the treatment of any amount that is specifically provided for under any provision of the Internal Revenue Code (Code) or regulations other than section 162(a) or section 212 and the regulations under those sections. For example, see § 1.263(a)-3, which requires taxpayers to capitalize amounts paid to improve tangible property and section 263A and the regulations under section 263A, which require taxpayers to capitalize the direct and allocable indirect costs, including the cost of materials and supplies, of property produced by the taxpayer and property acquired for re-

sale. See also § 1.471-1, which requires taxpayers to include in inventory certain materials and supplies.

(c) *Definitions*—(1) *Materials and supplies*. For purposes of this section, *materials and supplies* means tangible property that is used or consumed in the taxpayer's operations that is not inventory and that—

(i) Is a component acquired to maintain, repair, or improve a unit of tangible property (as determined under § 1.263(a)-3(e)) owned, leased, or serviced by the taxpayer and that is not acquired as part of any single unit of tangible property;

(ii) Consists of fuel, lubricants, water, and similar items, reasonably expected to be consumed in 12 months or less, beginning when used in the taxpayer's operations;

(iii) Is a unit of property as determined under § 1.263(a)-3(e) that has an economic useful life of 12 months or less, beginning when the property is used or consumed in the taxpayer's operations;

(iv) Is a unit of property as determined under § 1.263(a)-3(e) that has an acquisition cost or production cost (as determined under section 263A) of \$200 or less (or other amount as identified in published guidance in the FEDERAL REGISTER or in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter); or

(v) Is identified in published guidance in the FEDERAL REGISTER or in the Internal Revenue Bulletin (see § 601.601(d)(2)(ii)(b) of this chapter) as materials and supplies for which treatment is permitted under this section.

(2) *Rotatable and temporary spare parts*. For purposes of this section, rotatable spare parts are materials and supplies under paragraph (c)(1)(i) of this section that are acquired for installation on a unit of property, removable from that unit of property, generally repaired or improved, and either reinstalled on the same or other property or stored for later installation. Temporary spare parts are materials and supplies under paragraph (c)(1)(i) of this section that are used temporarily until a new or repaired part can be installed and then are removed and stored for later installation.

(3) *Standby emergency spare parts.* Standby emergency spare parts are materials and supplies under paragraph (c)(1)(i) of this section that are—

(i) Acquired when particular machinery or equipment is acquired (or later acquired and set aside for use in particular machinery or equipment);

(ii) Set aside for use as replacements to avoid substantial operational time loss caused by emergencies due to particular machinery or equipment failure;

(iii) Located at or near the site of the installed related machinery or equipment so as to be readily available when needed;

(iv) Directly related to the particular machinery or piece of equipment they serve;

(v) Normally expensive;

(vi) Only available on special order and not readily available from a vendor or manufacturer;

(vii) Not subject to normal periodic replacement;

(viii) Not interchangeable in other machines or equipment;

(ix) [Reserved]

(x) Not acquired in quantity (generally only one is on hand for each piece of machinery or equipment); and

(xi) Not repaired and reused.

(4) *Economic useful life*—(i) *General rule.* The economic useful life of a unit of property is not necessarily the useful life inherent in the property but is the period over which the property may reasonably be expected to be useful to the taxpayer or, if the taxpayer is engaged in a trade or business or an activity for the production of income, the period over which the property may reasonably be expected to be useful to the taxpayer in its trade or business or for the production of income, as applicable. The factors that must be considered in determining this period are provided under § 1.167(a)–1(b).

(ii) *Taxpayers with an applicable financial statement.* For taxpayers with an applicable financial statement (as defined in paragraph (c)(4)(iii) of this section), the economic useful life of a unit of property, solely for the purposes of applying the provisions of this paragraph (c), is the useful life initially used by the taxpayer for purposes of determining depreciation in its appli-

cable financial statement, regardless of any salvage value of the property. If a taxpayer does not have an applicable financial statement for the taxable year in which a unit of property was originally acquired or produced, the economic useful life of the unit of property must be determined under paragraph (c)(4)(i) of this section. Further, if a taxpayer treats amounts paid for a unit of property as an expense in its applicable financial statement on a basis other than the useful life of the property or if a taxpayer does not depreciate the unit of property on its applicable financial statement, the economic useful life of the unit of property must be determined under paragraph (c)(4)(i) of this section. For example, if a taxpayer has a policy of treating as an expense on its applicable financial statement amounts paid for a unit of property costing less than a certain dollar amount, notwithstanding that the unit of property has a useful life of more than one year, the economic useful life of the unit of property must be determined under paragraph (c)(4)(i) of this section.

(iii) *Definition of applicable financial statement.* The taxpayer's applicable financial statement is the taxpayer's financial statement listed in paragraphs (c)(4)(iii)(A) through (C) of this section that has the highest priority (including within paragraph (c)(4)(iii)(B) of this section). The financial statements are, in descending priority—

(A) A financial statement required to be filed with the Securities and Exchange Commission (SEC) (the 10-K or the Annual Statement to Shareholders);

(B) A certified audited financial statement that is accompanied by the report of an independent certified public accountant (or in the case of a foreign entity, by the report of a similarly qualified independent professional), that is used for—

(1) Credit purposes;

(2) Reporting to shareholders, partners, or similar persons; or

(3) Any other substantial non-tax purpose; or

(C) A financial statement (other than a tax return) required to be provided to the federal or a state government or any federal or state agency (other than

the SEC or the Internal Revenue Service).

(5) *Amount paid.* For purposes of this section, in the case of a taxpayer using an accrual method of accounting, the terms *amount paid* and *payment* mean a liability incurred (within the meaning of § 1.446-1(c)(1)(ii)). A liability may not be taken into account under this section prior to the taxable year during which the liability is incurred.

(6) *Produce.* For purposes of this section, *produce* means construct, build, install, manufacture, develop, create, raise, or grow. This definition is intended to have the same meaning as the definition used for purposes of section 263A(g)(1) and § 1.263A-2(a)(1)(i), except that improvements are excluded from the definition in this paragraph (c)(6) and are separately defined and addressed in § 1.263(a)-3. Amounts paid to produce materials and supplies are subject to section 263A.

(d) *Election to capitalize and depreciate certain materials and supplies*—(1) *In general.* A taxpayer may elect to treat as a capital expenditure and to treat as an asset subject to the allowance for depreciation the cost of any rotatable spare part, temporary spare part, or standby emergency spare part as defined in paragraph (c)(2) or (c)(3) of this section. Except as specified in paragraph (d)(2) of this section, an election made under this paragraph (d) applies to amounts paid during the taxable year to acquire or produce any rotatable, temporary, or standby emergency spare part to which paragraph (a) of this section would apply (but for the election under this paragraph (d)). Any property for which this election is made shall not be treated as a material or a supply.

(2) *Exceptions.* A taxpayer may not elect to capitalize and depreciate under this paragraph (d) any amount paid to acquire or produce a rotatable, temporary, or standby emergency spare part defined in paragraph (c)(2) or (c)(3) of this section if—

(i) The rotatable, temporary, or standby emergency spare part is intended to be used as a component of a unit of property under paragraph (c)(1)(iii), (iv), or (v) of this section;

(ii) The rotatable, temporary, or standby emergency spare part is intended to

be used as a component of a property described in paragraph (c)(1)(i) and the taxpayer cannot or has not elected to capitalize and depreciate that property under this paragraph (d); or

(iii) The amount is paid to acquire or produce a rotatable or temporary spare part and the taxpayer uses the optional method of accounting for rotatable and temporary spare parts under paragraph (e) to of this section.

(3) *Manner of electing.* A taxpayer makes the election under this paragraph (d) by capitalizing the amounts paid to acquire or produce a rotatable, temporary, or standby emergency spare part in the taxable year the amounts are paid and by beginning to depreciate the costs when the asset is placed in service by the taxpayer for purposes of determining depreciation under the applicable provisions of the Internal Revenue Code and the Treasury Regulations. Section 1.263(a)-2 provides for the treatment of amounts paid to acquire or produce real or personal tangible property. A taxpayer must make the election under this paragraph (d) in its timely filed original Federal tax return (including extensions) for the taxable year the asset is placed in service by the taxpayer for purposes of determining depreciation. Sections 301.9100-1 through 301.9100-3 of this chapter provide the rules governing extensions of the time to make regulatory elections. In the case of an S corporation or a partnership, the election is made by the S corporation or partnership, and not by the shareholders or partners. A taxpayer may make an election for each rotatable, temporary, or standby emergency spare part that qualifies for the election under this paragraph (d). This election does not apply to an asset or a portion thereof placed in service and disposed of in the same taxable year. A taxpayer may revoke an election made under this paragraph (d) or made under § 1.162-3T(d), as contained in 26 CFR part 1, revised as of April 1, 2013, only by filing a request for a private letter ruling and obtaining the Commissioner's consent to revoke the election. The Commissioner may grant a request to revoke this election if the taxpayer acted reasonably and in good faith and the revocation will not prejudice the

interests of the Government. See generally § 301.9100-3 of this chapter. The manner of electing and revoking the election to capitalize under this paragraph (d) or under § 1.162-3T(d), as contained in 26 CFR part 1, revised as of April 1, 2013, may be modified through guidance of general applicability (see §§ 601.601(d)(2) and 601.602 of this chapter). An election may not be made or revoked through the filing of an application for change in accounting method or, before obtaining the Commissioner's consent to make the late election or to revoke the election, by filing an amended Federal tax return.

(e) *Optional method of accounting for rotatable and temporary spare parts*—(1) *In general.* This paragraph (e) provides an optional method of accounting for rotatable and temporary spare parts (the optional method for rotatable parts). A taxpayer may use the optional method for rotatable parts, instead of the general rule under paragraph (a)(3) of this section, to account for its rotatable and temporary spare parts as defined in paragraph (c)(2) of this section. A taxpayer that uses the optional method for rotatable parts must use this method for all of its pools of rotatable and temporary spare parts used in the same trade or business and for which it uses this method for its books and records. If a taxpayer uses the optional method for rotatable parts for pools of rotatable and temporary spare parts for which the taxpayer does not use the optional method for its books and records, then the taxpayer must use the optional method for all its pools in the same trade or business, whether rotatable or temporary. The optional method for rotatable parts is a method of accounting under section 446(a). Under the optional method for rotatable parts, the taxpayer must apply the rules in this paragraph (e) to each rotatable or temporary spare part (part) upon the taxpayer's initial installation, removal, repair, maintenance or improvement, reinstallation, and disposal of each part.

(2) *Description of optional method for rotatable parts*—(i) *Initial installation.* The taxpayer must deduct the amount paid to acquire or produce the part in the taxable year that the part is first in-

stalled on a unit of property for use in the taxpayer's operations.

(ii) *Removal from unit of property.* In each taxable year in which the part is removed from a unit of property to which it was initially or subsequently installed, the taxpayer must—

(A) Include in gross income the fair market value of the part; and

(B) Include in the basis of the part the fair market value of the part included in income under paragraph (e)(2)(ii)(A) of this section and the amount paid to remove the part from the unit of property.

(iii) *Repair, maintenance, or improvement of part.* The taxpayer may not currently deduct and must include in the basis of the part any amounts paid to maintain, repair, or improve the part in the taxable year these amounts are paid.

(iv) *Reinstallation of part.* The taxpayer must deduct the amounts paid to reinstall the part and those amounts included in the basis of the part under paragraphs (e)(2)(ii)(B) and (e)(2)(iii) of this section, to the extent that those amounts have not been previously deducted under this paragraph (e)(2)(iv), in the taxable year that the part is reinstalled on a unit of property.

(v) *Disposal of the part.* The taxpayer must deduct the amounts included in the basis of the part under paragraphs (e)(2)(ii)(B) and (e)(2)(iii) of this section, to the extent that those amounts have not been previously deducted under paragraph (e)(2)(iv) of this section, in the taxable year in which the part is disposed of by the taxpayer.

(f) *Application of de minimis safe harbor.* If a taxpayer elects to apply the de minimis safe harbor under § 1.263(a)-1(f) to amounts paid for the production or acquisition of tangible property, then the taxpayer must apply the de minimis safe harbor to amounts paid for all materials and supplies that meet the requirements of § 1.263(a)-1(f), except for those materials and supplies that the taxpayer elects to capitalize and depreciate under paragraph (d) of this section or for which the taxpayer properly uses the optional method of accounting for rotatable and temporary spare parts under paragraph (e) of this section. If the taxpayer properly applies the de minimis safe harbor under

§ 1.263(a)-1(f) to amounts paid for materials and supplies, then these amounts are not treated as amounts paid for materials and supplies under this section. See § 1.263(a)-1(f)(5) for the time and manner of electing the de minimis safe harbor and § 1.263(a)-1(f)(3)(iv) for the treatment of safe harbor amounts.

(g) *Sale or disposition of materials and supplies.* Upon sale or other disposition, materials and supplies as defined in this section are not treated as a capital asset under section 1221 or as property used in the trade or business under section 1231. Any asset for which the taxpayer makes the election to capitalize and depreciate under paragraph (d) of this section shall not be treated as a material or supply, and the recognition and character of the gain or loss for such depreciable asset are determined under other applicable provisions of the Code.

(h) *Examples.* The rules of this section are illustrated by the following examples, in which it is assumed, unless otherwise stated, that the property is not an incidental material or supply, that the taxpayer computes its income on a calendar year basis, that the taxpayer does not make the election to apply paragraph (d) of this section, or use the method of accounting described in paragraph (e) of this section, and that the taxpayer has not elected to apply the de minimis safe harbor under § 1.263(a)-1(f). The following examples illustrate only the application of this section and, unless otherwise stated, do not address the treatment under other provisions of the Code (for example, section 263A).

Example 1 Non-rotatable components. A owns a fleet of aircraft that it operates in its business. In Year 1, A purchases a stock of spare parts, which it uses to maintain and repair its aircraft. A keeps a record of consumption of these spare parts. In Year 2, A uses the spare parts for the repair and maintenance of one of its aircraft. Assume each aircraft is a unit of property under § 1.263(a)-3(e) and that spare parts are not rotatable or temporary spare parts under paragraph (c)(2) of this section. Assume these repair and maintenance activities do not improve the aircraft under § 1.263(a)-3. These parts are materials and supplies under paragraph (c)(1)(i) of this section because they are components acquired and used to maintain and repair A's aircraft. Under paragraph (a)(1) of this section, the amounts that A paid for the spare parts in

Year 1 are deductible in Year 2, the taxable year in which the spare parts are first used to repair and maintain the aircraft.

Example 2 Rotatable spare parts; disposal method. B operates a fleet of specialized vehicles that it uses in its service business. Assume that each vehicle is a unit of property under § 1.263(a)-3(e). At the time that it acquires a new type of vehicle, B also acquires a substantial number of rotatable spare parts that it will keep on hand to quickly replace similar parts in B's vehicles as those parts break down or wear out. These rotatable parts are removable from the vehicles and are repaired so that they can be reinstalled on the same or similar vehicles. In Year 1, B acquires several vehicles and a number of rotatable spare parts to be used as replacement parts in these vehicles. In Year 2, B repairs several vehicles by using these rotatable spare parts to replace worn or damaged parts. In Year 3, B removes these rotatable spare parts from its vehicles, repairs the parts, and reinstalls them on other similar vehicles. In Year 5, B can no longer use the rotatable parts it acquired in Year 1 and disposes of them as scrap. Assume that B does not improve any of the rotatable spare parts under § 1.263(a)-3. Under paragraph (c)(1)(i) of this section, the rotatable spare parts acquired in Year 1 are materials and supplies. Under paragraph (a)(3) of this section, rotatable spare parts are generally used or consumed in the taxable year in which the taxpayer disposes of the parts. Therefore, under paragraph (a)(1) of this section, the amounts that B paid for the rotatable spare parts in Year 1 are deductible in Year 5, the taxable year in which B disposes of the parts.

Example 3 Rotatable spare parts; application of optional method of accounting. C operates a fleet of specialized vehicles that it uses in its service business. Assume that each vehicle is a unit of property under § 1.263(a)-3(e). At the time that it acquires a new type of vehicle, C also acquires a substantial number of rotatable spare parts that it will keep on hand to replace similar parts in C's vehicles as those parts break down or wear out. These rotatable parts are removable from the vehicles and are repaired so that they can be reinstalled on the same or similar vehicles. C uses the optional method of accounting for all its rotatable and temporary spare parts under paragraph (e) of this section. In Year 1, C acquires several vehicles and a number of rotatable spare parts (the "Year 1 rotatable parts") to be used as replacement parts in these vehicles. In Year 2, C repairs several vehicles and uses the Year 1 rotatable parts to replace worn or damaged parts. In Year 3, C pays amounts to remove these Year 1 rotatable parts from its vehicles. In Year 4, C pays amounts to maintain, repair, or improve the Year 1 rotatable parts. In Year 5, C pays amounts to reinstall the Year 1 rotatable parts

on other similar vehicles. In Year 8, C removes the Year 1 rotatable parts from these vehicles and stores these parts for possible later use. In Year 9, C disposes of the Year 1 rotatable parts. Under paragraph (e) of this section, C must deduct the amounts paid to acquire and install the Year 1 rotatable parts in Year 2, the taxable year in which the rotatable parts are first installed by C in C's vehicles. In Year 3, when C removes the Year 1 rotatable parts from its vehicles, C must include in its gross income the fair market value of each part. Also, in Year 3, C must include in the basis of each Year 1 rotatable part the fair market value of the rotatable part and the amount paid to remove the rotatable part from the vehicle. In Year 4, C must include in the basis of each Year 1 rotatable part the amounts paid to maintain, repair, or improve each rotatable part. In Year 5, the year that C reinstalls the Year 1 rotatable parts (as repaired or improved) in other vehicles, C must deduct the reinstallation costs and the amounts previously included in the basis of each part. In Year 8, the year that C removes the Year 1 rotatable parts from the vehicles, C must include in income the fair market value of each rotatable part removed. In addition, in Year 8, C must include in the basis of each part the fair market value of that part and the amount paid to remove each rotatable part from the vehicle. In Year 9, the year that C disposes of the Year 1 rotatable parts, C may deduct the amounts remaining in the basis of each rotatable part.

Example 4 Rotatable part acquired as part of a single unit of property; not material or supply. D operates a fleet of aircraft. In Year 1, D acquires a new aircraft, which includes two new aircraft engines. The aircraft costs \$500,000 and has an economic useful life of more than 12 months, beginning when it is placed in service. In Year 5, after the aircraft is operated for several years in D's business, D removes the engines from the aircraft, repairs or improves the engines, and either reinstalls the engines on a similar aircraft or stores the engines for later reinstallation. Assume the aircraft purchased in Year 1, including its two engines, is a unit of property under § 1.263(a)-3(e). Because the engines were acquired as part of the aircraft, a single unit of property, the engines are not materials or supplies under paragraph (c)(1)(i) of this section nor rotatable or temporary spare parts under paragraph (c)(2) of this section. Accordingly, D may not apply the rules of this section to the aircraft engines upon the original acquisition of the aircraft nor after the removal of the engines from the aircraft for use in the same or similar aircraft. Rather, D must apply the rules under §§ 1.263(a)-2 and 1.263(a)-3 to the aircraft, including its engines, to determine the treatment of amounts paid to acquire, produce, or improve the unit of property.

Example 5 Consumable property. E operates a fleet of aircraft that carries freight for its customers. E has several storage tanks on its premises, which hold jet fuel for its aircraft. Assume that once the jet fuel is placed in E's aircraft, the jet fuel is reasonably expected to be consumed within 12 months or less. On December 31, Year 1, E purchases a two-year supply of jet fuel. In Year 2, E uses a portion of the jet fuel purchased on December 31, Year 1, to fuel the aircraft used in its business. The jet fuel that E purchased in Year 1 is a material or supply under paragraph (c)(1)(ii) of this section because it is reasonably expected to be consumed within 12 months or less from the time it is placed in E's aircraft. Under paragraph (a)(1) of this section, E may deduct in Year 2 the amounts paid for the portion of jet fuel used in the operation of E's aircraft in Year 2.

Example 6 Unit of property that costs \$200 or less. F operates a business that rents out a variety of small individual items to customers (rental items). F maintains a supply of rental items on hand. In Year 1, F purchases a large quantity of rental items to use in its rental business. Assume that each rental item is a unit of property under § 1.263(a)-3(e) and costs \$200 or less. In Year 2, F begins using all the rental items purchased in Year 1 by providing them to customers of its rental business. F does not sell or exchange these items on established retail markets at any time after the items are used in the rental business. The rental items are materials and supplies under paragraph (c)(1)(iv) of this section. Under paragraph (a)(1) of this section, the amounts that F paid for the rental items in Year 1 are deductible in Year 2, the taxable year in which the rental items are first used in F's business.

Example 7 Unit of property that costs \$200 or less. G provides billing services to its customers. In Year 1, G pays amounts to purchase 50 scanners to be used by its employees. Assume each scanner is a unit of property under § 1.263(a)-3(e) and costs less than \$200. In Year 1, G's employees begin using 35 of the scanners, and F stores the remaining 15 scanners for use in a later taxable year. The scanners are materials and supplies under paragraph (c)(1)(iv) of this section. Under paragraph (a)(1) of this section, the amounts G paid for 35 of the scanners are deductible in Year 1, the taxable year in which G first uses each of those scanners. The amounts that G paid for each of the remaining 15 scanners are deductible in the taxable year in which each machine is first used in G's business.

Example 8 Materials and supplies that cost less than \$200; de minimis safe harbor. Assume the same facts as in *Example 7* except that G's scanners qualify for the de minimis safe harbor under § 1.263(a)-1(f), and G properly elects to apply the de minimis safe harbor

under § 1.263(a)-1(f) to amounts paid in Year 1. G must apply the de minimis safe harbor under § 1.263(a)-1(f) to amounts paid for the scanners, rather than treat these amounts as costs of materials and supplies under this section. In accordance with § 1.263(a)-1(f)(3)(iv), G may deduct the amounts paid for all 50 scanners under § 1.162-1 in the taxable year the amounts are paid.

Example 9 Unit of property that costs \$200 or less; bulk purchase. H provides consulting services to its customers. In Year 1, H pays \$500 to purchase one box of 10 toner cartridges to use as needed for H's printers. Assume each toner cartridge is a unit of property under § 1.263(a)-3(e). In Year 1, H's employees place 8 of the toner cartridges in printers in H's office, and store the remaining 2 cartridges for use in a later taxable year. The toner cartridges are materials and supplies under paragraph (c)(1)(iv) of this section because even though purchased in one box costing more than \$200, the allocable cost of each unit of property equals \$50. Therefore, under paragraph (a)(1) of this section, the \$400 paid by H for 8 of the cartridges is deductible in Year 1, the taxable year in which H first uses each of those cartridges. The amounts paid by H for each of the remaining 2 cartridges (\$50 each) are deductible in the taxable year in which each cartridge is first used in H's business.

Example 10 Materials and supplies used in improvements; coordination with § 1.263(a)-3. J owns various machines that are used in its business. Assume that each machine is a unit of property under § 1.263(a)-3(e). In Year 1, J purchases a supply of spare parts for its machines. J acquired the parts to use in the repair or maintenance of the machines under § 1.162-4 or in the improvement of the machines under § 1.263(a)-3. The spare parts are not rotatable or temporary spare parts under paragraph (c)(2) of this section. In Year 2, J uses all of these spare parts in an activity that improves a machine under § 1.263(a)-3. Under paragraph (c)(1)(i) of this section, the spare parts purchased by J in Year 1 are materials and supplies. Under paragraph (a)(1) of this section, the amounts paid for the spare parts are otherwise deductible as materials and supplies in Year 2, the taxable year in which J uses those parts. However, because these materials and supplies are used to improve J's machine, J is required to capitalize the amounts paid for those spare parts under § 1.263(a)-3.

Example 11 Cost of producing materials and supplies; coordination with section 263A. K is a manufacturer that produces liquid waste as part of its operations. K determines that its current liquid waste disposal process is inadequate. To remedy the problem, in Year 1, K constructs a leaching pit to provide a draining area for the liquid waste. Assume the leaching pit is a unit of property under § 1.263(a)-3(e) and has an economic useful life

of 12 months or less, starting on the date that K begins to use the leaching pit as a draining area. At the end of this period, K's factory will be connected to the local sewer system. In Year 2, K starts using the leaching pit in its operations. The amounts paid to construct the leaching pit (including the direct and allocable indirect costs of property produced under section 263A) are amounts paid for a material or supply under paragraph (c)(1)(iii) of this section. However, the amounts paid to construct the leaching pit may be subject to capitalization under section 263A if these amounts comprise the direct or allocable indirect costs of property produced by K.

Example 12 Costs of acquiring materials and supplies for production of property; coordination with section 263A. In Year 1, L purchases jigs, dies, molds, and patterns for use in the manufacture of L's products. Assume each jig, die, mold, and pattern is a unit of property under § 1.263(a)-3(e). The economic useful life of each jig, die, mold, and pattern is 12 months or less, beginning when each item is used in the manufacturing process. The jigs, dies, molds, and patterns are not components acquired to maintain, repair, or improve any of L's equipment under paragraph (c)(1)(i) of this section. L begins using the jigs, dies, molds and patterns in Year 2 to manufacture its products. These items are materials and supplies under paragraph (c)(1)(iii) of this section. Under paragraph (a)(1) of this section, the amounts paid for the items are otherwise deductible in Year 2, the taxable year in which L first uses those items. However, the amounts paid for these materials and supplies may be subject to capitalization under section 263A if these amounts comprise the direct or allocable indirect costs of property produced by L.

Example 13 Election to capitalize and depreciate. M is in the mining business. M acquires certain temporary spare parts, which it keeps on hand to avoid operational time loss in the event it must make temporary repairs to a unit of property that is subject to depreciation. These parts are not used to improve property under § 1.263(a)-3(d). These temporary spare parts are used until a new or repaired part can be installed and then are removed and stored for later temporary installation. M does not use the optional method of accounting for rotatable and temporary spare parts in paragraph (e) of this section for any of its rotatable or temporary spare parts. The temporary spare parts are materials and supplies under paragraph (c)(1)(i) of this section. Under paragraphs (a)(1) and (a)(3) of this section, the amounts paid for the temporary spare parts are deductible in the taxable year in which they are disposed of by M. However, because it is unlikely that the temporary spare parts will be disposed of in the near future, M would prefer to treat

the amounts paid for the spare parts as capital expenditures subject to depreciation. M may elect under paragraph (d) of this section to treat the cost of each temporary spare part as a capital expenditure and as an asset subject to an allowance for depreciation. M makes this election by capitalizing the amounts paid for each spare part in the taxable year that M acquires the spare parts and by beginning to recover the costs of each part on its timely filed Federal tax return for the taxable year in which the part is placed in service for purposes of determining depreciation under the applicable provisions of the Internal Revenue Code and the Treasury Regulations. See § 1.263(a)-2(g) for the treatment of capital expenditures.

Example 14 Election to apply de minimis safe harbor. (i) N provides consulting services to its customers. In Year 1, N pays amounts to purchase 50 laptop computers. Each laptop computer is a unit of property under § 1.263(a)-3(e), costs \$400, and has an economic useful life of more than 12 months. Also in Year 1, N purchases 50 office chairs to be used by its employees. Each office chair is a unit of property that costs \$100. N has an applicable financial statement (as defined in § 1.263(a)-1(f)(4)) and N has a written accounting policy at the beginning Year 1 to expense amounts paid for units of property costing \$500 or less. N treats amounts paid for property costing \$500 or less as an expense on its applicable financial statement in Year 1.

(ii) The laptop computers are not materials or supplies under paragraph (c) of this section. Therefore, the amounts N pays for the computers must generally be capitalized under § 1.263(a)-2(d) as amounts paid for the acquisition of tangible property. The office chairs are materials and supplies under paragraph (c)(1)(iv) of this section. Thus, under paragraph (a)(1) of this section, the amounts paid for the office chairs are deductible in the taxable year in which they are first used in N's business. However, under paragraph (f) of this section, if N properly elects to apply the de minimis safe harbor under § 1.263(a)-1(f) to amounts paid in Year 1, then N must apply the de minimis safe harbor under § 1.263(a)-1(f) to amounts paid for the computers and the office chairs, rather than treat the office chairs as the costs of materials and supplies under § 1.162-3. Under the de minimis safe harbor, N may not capitalize the amounts paid for the computers under § 1.263(a)-2 nor treat the office chairs as materials and supplies under § 1.162-3. Instead, in accordance with § 1.263(a)-1(f)(3)(iv), under § 1.162-1, N may deduct the amounts paid for the computers and the office chairs in the taxable year paid.

(i) *Accounting method changes.* Except as otherwise provided in this section, a change to comply with this section is a change in method of accounting to

which the provisions of sections 446 and 481 and the accompanying regulations apply. A taxpayer seeking to change to a method of accounting permitted in this section must secure the consent of the Commissioner in accordance with § 1.446-1(e) and follow the administrative procedures issued under § 1.446-1(e)(3)(ii) for obtaining the Commissioner's consent to change its accounting method.

(j) *Effective/applicability date*—(1) *In general.* This section generally applies to amounts paid or incurred in taxable years beginning on or after January 1, 2014. However, a taxpayer may apply paragraph (e) of this section (the optional method of accounting for rotatable and temporary spare parts) to taxable years beginning on or after January 1, 2014. Except as provided in paragraphs (j)(2) and (j)(3) of this section, § 1.162-3 as contained in 26 CFR part 1 edition revised as of April 1, 2011, applies to taxable years beginning before January 1, 2014.

(2) *Early application of this section*—(i) *In general.* Except for paragraph (e) of this section, a taxpayer may choose to apply this section to amounts paid or incurred in taxable years beginning on or after January 1, 2012. A taxpayer may choose to apply paragraph (e) of this section (the optional method of accounting for rotatable and temporary spare parts) to taxable years beginning on or after January 1, 2012.

(ii) *Transition rule for election to capitalize materials and supplies on 2012 and 2013 returns.* If under paragraph (j)(2)(i) of this section, a taxpayer chooses to make the election to capitalize and depreciate certain materials and supplies under paragraph (d) of this section for its taxable year beginning on or after January 1, 2012, and ending on or before September 19, 2013 (applicable taxable year), and the taxpayer did not make the election specified in paragraph (d)(3) of this section on its timely filed original Federal tax return for the applicable taxable year, the taxpayer must make the election specified in paragraph (d)(3) of this section for the applicable taxable year by filing an amended Federal tax return for the applicable taxable year on or before 180 days from the due date including extensions of the taxpayer's Federal tax

§ 1.162-4

26 CFR Ch. I (4-1-22 Edition)

return for the applicable taxable year, notwithstanding that the taxpayer may not have extended the due date.

(3) *Optional application of TD 9564.* Except for § 1.162-3T(e), a taxpayer may choose to apply § 1.162-3T as contained in TD 9564 (76 FR 81060) December 27, 2011, to amounts paid or incurred (to acquire or produce property) in taxable years beginning on or after January 1, 2012, and before January 1, 2014. In applying § 1.162-3T(d)(3), as contained in 26 CFR part 1, revised as of April 1, 2013, a taxpayer makes the election under § 1.162-3T(d) by capitalizing the amounts paid to acquire or produce a material or supply in the taxable year the amounts are paid and by beginning to depreciate the costs when the asset is placed in service by the taxpayer for purposes of determining depreciation under the applicable provisions of the Internal Revenue Code and the Treasury Regulations. The election under § 1.162-3T(d), as contained in 26 CFR part 1, revised as of April 1, 2013, does not apply to an asset or a portion thereof placed in service and disposed of in the same taxable year. A taxpayer may choose to apply § 1.162-3T(e) (the optional method of accounting for rotatable and temporary spare parts) as contained in TD 9564 (76 FR 81060) December 27, 2011, to taxable years beginning on or after January 1, 2012, and before January 1, 2014.

[T.D. 9636, 78 FR 57701, Sept. 19, 2013, as amended at 79 FR 42190, July 21, 2014]

§ 1.162-4 Repairs.

(a) *In general.* A taxpayer may deduct amounts paid for repairs and maintenance to tangible property if the amounts paid are not otherwise required to be capitalized. Optionally, § 1.263(a)-3(n) provides an election to capitalize amounts paid for repair and maintenance consistent with the taxpayer's books and records.

(b) *Accounting method changes.* A change to comply with this section is a change in method of accounting to which the provisions of sections 446 and 481 and the accompanying regulations apply. A taxpayer seeking to change to a method of accounting permitted in this section must secure the consent of the Commissioner in accordance with § 1.446-1(e) and follow the administra-

tive procedures issued under § 1.446-1(e)(3)(ii) for obtaining the Commissioner's consent to change its accounting method.

(c) *Effective/applicability date—(1) In general.* This section applies to taxable years beginning on or after January 1, 2014. Except as provided in paragraphs (c)(2) and (c)(3) of this section, § 1.162-4 as contained in 26 CFR part 1 edition revised as of April 1, 2011, applies to taxable years beginning before January 1, 2014.

(2) *Early application of this section.* A taxpayer may choose to apply this section to taxable years beginning on or after January 1, 2012.

(3) *Optional application of TD 9564.* A taxpayer may choose to apply § 1.162-4T as contained in TD 9564 (76 FR 81060), December 27, 2011, to taxable years beginning on or after January 1, 2012, and before January 1, 2014.

[T.D. 9636, 78 FR 57705, Sept. 19, 2013, as amended at 79 FR 42191, July 21, 2014]

§ 1.162-5 Expenses for education.

(a) *General rule.* Expenditures made by an individual for education (including research undertaken as part of his educational program) which are not expenditures of a type described in paragraph (b) (2) or (3) of this section are deductible as ordinary and necessary business expenses (even though the education may lead to a degree) if the education—

(1) Maintains or improves skills required by the individual in his employment or other trade or business, or

(2) Meets the express requirements of the individual's employer, or the requirements of applicable law or regulations, imposed as a condition to the retention by the individual of an established employment relationship, status, or rate of compensation.

(b) *Non deductible educational expenditures—(1) In general.* Educational expenditures described in subparagraphs (2) and (3) of this paragraph are personal expenditures or constitute an inseparable aggregate of personal and capital expenditures and, therefore, are not deductible as ordinary and necessary business expenses even though the education may maintain or improve skills required by the individual in his employment or other trade or

business or may meet the express requirements of the individual's employer or of applicable law or regulations.

(2) *Minimum educational requirements.*

(i) The first category of nondeductible educational expenses within the scope of subparagraph (1) of this paragraph are expenditures made by an individual for education which is required of him in order to meet the minimum educational requirements for qualification in his employment or other trade or business. The minimum education necessary to qualify for a position or other trade or business must be determined from a consideration of such factors as the requirements of the employer, the applicable law and regulations, and the standards of the profession, trade, or business involved. The fact that an individual is already performing service in an employment status does not establish that he has met the minimum educational requirements for qualification in that employment. Once an individual has met the minimum educational requirements for qualification in his employment or other trade or business (as in effect when he enters the employment or trade or business), he shall be treated as continuing to meet those requirements even though they are changed.

(ii) The minimum educational requirements for qualification of a particular individual in a position in an educational institution is the minimum level of education (in terms of aggregate college hours or degree) which under the applicable laws or regulations, in effect at the time this individual is first employed in such position, is normally required of an individual initially being employed in such a position. If there are no normal requirements as to the minimum level of education required for a position in an educational institution, then an individual in such a position shall be considered to have met the minimum educational requirements for qualification in that position when he becomes a member of the faculty of the educational institution. The determination of whether an individual is a member of the faculty of an educational institution must be made on the basis of the particular practices of the institu-

tion. However, an individual will ordinarily be considered to be a member of the faculty of an institution if (a) he has tenure or his years of service are being counted toward obtaining tenure; (b) the institution is making contributions to a retirement plan (other than Social Security or a similar program) in respect of his employment; or (c) he has a vote in faculty affairs.

(iii) The application of this subparagraph may be illustrated by the following examples:

Example 1. General facts: State X requires a bachelor's degree for beginning secondary school teachers which must include 30 credit hours of professional educational courses. In addition, in order to retain his position, a secondary school teacher must complete a fifth year of preparation within 10 years after beginning his employment. If an employing school official certifies to the State Department of Education that applicants having a bachelor's degree and the required courses in professional education cannot be found, he may hire individuals as secondary school teachers if they have completed a minimum of 90 semester hours of college work. However, to be retained in his position, such an individual must obtain his bachelor's degree and complete the required professional educational courses within 3 years after his employment commences. Under these facts, a bachelor's degree, without regard to whether it includes 30 credit hours of professional educational courses, is considered to be the minimum educational requirement for qualification as a secondary school teacher in State X. This is the case notwithstanding the number of teachers who are actually hired without such a degree. The following are examples of the application of these facts in particular situations:

Situation 1. A, at the time he is employed as a secondary school teacher in State X, has a bachelor's degree including 30 credit hours of professional educational courses. After his employment, A completes a fifth college year of education and, as a result, is issued a standard certificate. The fifth college year of education undertaken by A is not education required to meet the minimum educational requirements for qualification as a secondary school teacher. Accordingly, the expenditures for such education are deductible unless the expenditures are for education which is part of a program of study being pursued by A which will lead to qualifying him in a new trade or business.

Situation 2. Because of a shortage of applicants meeting the stated requirements, B, who has a bachelor's degree, is employed as a secondary school teacher in State X even

though he has only 20 credit hours of professional educational courses. After his employment, B takes an additional 10 credit hours of professional educational courses. Since these courses do not constitute education required to meet the minimum educational requirements for qualification as a secondary school teacher which is a bachelor's degree and will not lead to qualifying B in a new trade or business, the expenditures for such courses are deductible.

Situation 3. Because of a shortage of applicants meeting the stated requirements, C is employed as a secondary school teacher in State X although he has only 90 semester hours of college work toward his bachelor's degree. After his employment, C undertakes courses leading to a bachelor's degree. These courses (including any courses in professional education) constitute education required to meet the minimum educational requirements for qualification as a secondary school teacher. Accordingly, the expenditures for such education are not deductible.

Situation 4. Subsequent to the employment of A, B, and C, but before they have completed a fifth college year of education, State X changes its requirements affecting secondary school teachers to provide that beginning teachers must have completed 5 college years of preparation. In the cases of A, B, and C, a fifth college year of education is not considered to be education undertaken to meet the minimum educational requirements for qualifications as a secondary school teacher. Accordingly, expenditures for a fifth year of college will be deductible unless the expenditures are for education which is part of a program being pursued by A, B, or C which will lead to qualifying him in a new trade or business.

Example 2. D, who holds a bachelor's degree, obtains temporary employment as an instructor at University Y and undertakes graduate courses as a candidate for a graduate degree. D may become a faculty member only if he obtains a graduate degree and may continue to hold a position as instructor only so long as he shows satisfactory progress towards obtaining this graduate degree. The graduate courses taken by D constitute education required to meet the minimum educational requirements for qualification in D's trade or business and, thus, the expenditures for such courses are not deductible.

Example 3. E, who has completed 2 years of a normal 3-year law school course leading to a bachelor of laws degree (LL.B.), is hired by a law firm to do legal research and perform other functions on a full-time basis. As a condition to continued employment, E is required to obtain an LL.B. and pass the State bar examination. E completes his law school education by attending night law school, and he takes a bar review course in order to prepare for the State bar examination. The law

courses and bar review course constitute education required to meet the minimum educational requirements for qualification in E's trade or business and, thus, the expenditures for such courses are not deductible.

(3) *Qualification for new trade or business.* (i) The second category of non-deductible educational expenses within the scope of subparagraph (1) of this paragraph are expenditures made by an individual for education which is part of a program of study being pursued by him which will lead to qualifying him in a new trade or business. In the case of an employee, a change of duties does not constitute a new trade or business if the new duties involve the same general type of work as is involved in the individual's present employment. For this purpose, all teaching and related duties shall be considered to involve the same general type of work. The following are examples of changes in duties which do not constitute new trades or businesses:

(a) Elementary to secondary school classroom teacher.

(b) Classroom teacher in one subject (such as mathematics) to classroom teacher in another subject (such as science).

(c) Classroom teacher to guidance counselor.

(d) Classroom teacher to principal.

(ii) The application of this subparagraph to individuals other than teachers may be illustrated by the following examples:

Example 1. A, a self-employed individual practicing a profession other than law, for example, engineering, accounting, etc., attends law school at night and after completing his law school studies receives a bachelor of laws degree. The expenditures made by A in attending law school are non-deductible because this course of study qualifies him for a new trade or business.

Example 2. Assume the same facts as in example (1) except that A has the status of an employee rather than a self-employed individual, and that his employer requires him to obtain a bachelor of laws degree. A intends to continue practicing his nonlegal profession as an employee of such employer. Nevertheless, the expenditures made by A in attending law school are not deductible since this course of study qualifies him for a new trade or business.

Example 3. B, a general practitioner of medicine, takes a 2-week course reviewing new developments in several specialized fields of

medicine. B's expenses for the course are deductible because the course maintains or improves skills required by him in his trade or business and does not qualify him for a new trade or business.

Example 4. C, while engaged in the private practice of psychiatry, undertakes a program of study and training at an accredited psychoanalytic institute which will lead to qualifying him to practice psychoanalysis. C's expenditures for such study and training are deductible because the study and training maintains or improves skills required by him in his trade or business and does not qualify him for a new trade or business.

(c) *Deductible educational expenditures*—(1) *Maintaining or improving skills.* The deduction under the category of expenditures for education which maintains or improves skills required by the individual in his employment or other trade or business includes refresher courses or courses dealing with current developments as well as academic or vocational courses provided the expenditures for the courses are not within either category of nondeductible expenditures described in paragraph (b) (2) or (3) of this section.

(2) *Meeting requirements of employer.* An individual is considered to have undertaken education in order to meet the express requirements of his employer, or the requirements of applicable law or regulations, imposed as a condition to the retention by the taxpayer of his established employment relationship, status, or rate of compensation only if such requirements are imposed for a bona fide business purpose of the individual's employer. Only the minimum education necessary to the retention by the individual of his established employment relationship, status, or rate of compensation may be considered as undertaken to meet the express requirements of the taxpayer's employer. However, education in excess of such minimum education may qualify as education undertaken in order to maintain or improve the skills required by the taxpayer in his employment or other trade or business (see subparagraph (1) of this paragraph). In no event, however, is a deduction allowable for expenditures for education which, even though for education required by the employer or applicable

law or regulations, are within one of the categories of nondeductible expenditures described in paragraph (b) (2) and (3) of this section.

(d) *Travel as a form of education.* Subject to the provisions of paragraph (b) and (e) of this section, expenditures for travel (including travel while on sabbatical leave) as a form of education are deductible only to the extent such expenditures are attributable to a period of travel that is directly related to the duties of the individual in his employment or other trade or business. For this purpose, a period of travel shall be considered directly related to the duties of an individual in his employment or other trade or business only if the major portion of the activities during such period is of a nature which directly maintains or improves skills required by the individual in such employment or other trade or business. The approval of a travel program by an employer or the fact that travel is accepted by an employer in the fulfillment of its requirements for retention of rate of compensation, status or employment, is not determinative that the required relationship exists between the travel involved and the duties of the individual in his particular position.

(e) *Travel away from home.* (1) If an individual travels away from home primarily to obtain education the expenses of which are deductible under this section, his expenditures for travel, meals, and lodging while away from home are deductible. However, if as an incident of such trip the individual engages in some personal activity such as sightseeing, social visiting, or entertaining, or other recreation, the portion of the expenses attributable to such personal activity constitutes nondeductible personal or living expenses and is not allowable as a deduction. If the individual's travel away from home is primarily personal, the individual's expenditures for travel, meals and lodging (other than meals and lodging during the time spent in participating in deductible education pursuits) are not deductible. Whether a particular trip is primarily person or primarily to obtain education the expenses of which

are deductible under this section depends upon all the facts and circumstances of each case. An important factor to be taken into consideration in making the determination is the relative amount of time devoted to personal activity as compared with the time devoted to educational pursuits. The rules set forth in this paragraph are subject to the provisions of section 162(a)(2), relating to deductibility of certain traveling expenses, and section 274 (c) and (d), relating to allocation of certain foreign travel expenses and substantiation required, respectively, and the regulations thereunder.

(2) *Examples.* The application of this subsection may be illustrated by the following examples:

Example 1. A, a self-employed tax practitioner, decides to take a 1-week course in new developments in taxation, which is offered in City X, 500 miles away from his home. His primary purpose in going to X is to take the course, but he also takes a side trip to City Y (50 miles from X) for 1 day, takes a sightseeing trip while in X, and entertains some personal friends. A's transportation expenses to City X and return to his home are deductible but his transportation expenses to City Y are not deductible. A's expenses for meals and lodging while away from home will be allocated between his educational pursuits and his personal activities. Those expenses which are entirely personal, such as sightseeing and entertaining friends, are not deductible to any extent.

Example 2. The facts are the same as in example (1) except that A's primary purpose in going to City X is to take a vacation. This purpose is indicated by several factors, one of which is the fact that he spends only 1 week attending the tax course and devotes 5 weeks entirely to personal activities. None of A's transportation expenses are deductible and his expenses for meals and lodging while away from home are not deductible to the extent attributable to personal activities. His expenses for meals and lodging allocable to the week attending the tax course are, however, deductible.

Example 3. B, a high school mathematics teacher in New York City, in the summer-time travels to a university in California in order to take a mathematics course the expense of which is deductible under this section. B pursues only one-fourth of a full course of study and the remainder of her time is devoted to personal activities the expense of which is not deductible. Absent a showing by B of a substantial nonpersonal reason for taking the course in the university in California, the trip is considered taken primarily for personal reasons and the

cost of traveling from New York City to California and return would not be deductible. However, one-fourth of the cost of B's meals and lodging while attending the university in California may be considered properly allocable to deductible educational pursuits and, therefore, is deductible.

[T.D. 6918, 32 FR 6679, May 2, 1967]

§ 1.162-7 Compensation for personal services.

(a) There may be included among the ordinary and necessary expenses paid or incurred in carrying on any trade or business a reasonable allowance for salaries or other compensation for personal services actually rendered. The test of deductibility in the case of compensation payments is whether they are reasonable and are in fact payments purely for services.

(b) The test set forth in paragraph (a) of this section and its practical application may be further stated and illustrated as follows:

(1) Any amount paid in the form of compensation, but not in fact as the purchase price of services, is not deductible. An ostensible salary paid by a corporation may be a distribution of a dividend on stock. This is likely to occur in the case of a corporation having few shareholders, practically all of whom draw salaries. If in such a case the salaries are in excess of those ordinarily paid for similar services and the excessive payments correspond or bear a close relationship to the stockholdings of the officers or employees, it would seem likely that the salaries are not paid wholly for services rendered, but that the excessive payments are a distribution of earnings upon the stock. An ostensible salary may be in part payment for property. This may occur, for example, where a partnership sells out to a corporation, the former partners agreeing to continue in the service of the corporation. In such a case it may be found that the salaries of the former partners are not merely for services, but in part constitute payment for the transfer of their business.

(2) The form or method of fixing compensation is not decisive as to deductibility. While any form of contingent compensation invites scrutiny as a possible distribution of earnings of the enterprise, it does not follow that payments on a contingent basis are to be

treated fundamentally on any basis different from that applying to compensation at a flat rate. Generally speaking, if contingent compensation is paid pursuant to a free bargain between the employer and the individual made before the services are rendered, not influenced by any consideration on the part of the employer other than that of securing on fair and advantageous terms the services of the individual, it should be allowed as a deduction even though in the actual working out of the contract it may prove to be greater than the amount which would ordinarily be paid.

(3) In any event the allowance for the compensation paid may not exceed what is reasonable under all the circumstances. It is, in general, just to assume that reasonable and true compensation is only such amount as would ordinarily be paid for like services by like enterprises under like circumstances. The circumstances to be taken into consideration are those existing at the date when the contract for services was made, not those existing at the date when the contract is questioned.

(4) For disallowance of deduction in the case of certain transfers of stock pursuant to employees stock options, see section 421 and the regulations thereunder.

§ 1.162-8 Treatment of excessive compensation.

The income tax liability of the recipient in respect of an amount ostensibly paid to him as compensation, but not allowed to be deducted as such by the payor, will depend upon the circumstances of each case. Thus, in the case of excessive payments by corporations, if such payments correspond or bear a close relationship to stockholdings, and are found to be a distribution of earnings or profits, the excessive payments will be treated as a dividend. If such payments constitute payment for property, they should be treated by the payor as a capital expenditure and by the recipient as part of the purchase price. In the absence of evidence to justify other treatment, excessive payments for salaries or other compensation for personal services will

be included in gross income of the recipient.

§ 1.162-9 Bonuses to employees.

Bonuses to employees will constitute allowable deductions from gross income when such payments are made in good faith and as additional compensation for the services actually rendered by the employees, provided such payments, when added to the stipulated salaries, do not exceed a reasonable compensation for the services rendered. It is immaterial whether such bonuses are paid in cash or in kind or partly in cash and partly in kind. Donations made to employees and others, which do not have in them the element of compensation or which are in excess of reasonable compensation for services, are not deductible from gross income.

§ 1.162-10 Certain employee benefits.

(a) *In general.* Amounts paid or accrued by a taxpayer on account of injuries received by employees and lump sum amounts paid or accrued as compensation for injuries, are proper deductions as ordinary and necessary expenses. Such deductions are limited to the amount not compensated for by insurance or otherwise. Amounts paid or accrued within the taxable year for dismissal wages, unemployment benefits, guaranteed annual wages, vacations, or a sickness, accident, hospitalization, medical expense, recreational, welfare, or similar benefit plan, are deductible under section 162(a) if they are ordinary and necessary expenses of the trade or business. However, except as provided in paragraph (b) of this section, such amounts shall not be deductible under section 162(a) if, under any circumstances, they may be used to provide benefits under a stock bonus, pension, annuity, profit-sharing, or other deferred compensation plan of the type referred to in section 404(a). In such an event, the extent to which these amounts are deductible from gross income shall be governed by the provisions of section 404 and the regulations issued thereunder.

(b) *Certain negotiated plans.* (1) Subject to the limitations set forth in subparagraphs (2) and (3) of this paragraph, contributions paid by an employer under a plan under which such contributions are held in a welfare trust for the purpose of paying (either from principal or income or both) for the benefit of employees, their families, and dependents, at least medical or hospital care, and pensions on retirement or death of employees, are deductible when paid as business expenses under section 162(a).

(2) For the purpose of subparagraph (1) of this paragraph, the word “plan” means any plan established prior to January 1, 1954, as a result of an agreement between employee representatives and the Government of the United States, during a period of Government operation, under seizure powers, of a major part of the productive facilities of the industry in which the employer claiming the deduction is engaged. The phrase “plan established prior to January 1, 1954, as a result of an agreement” is intended primarily to cover a trust established under the terms of such an agreement. It also includes a trust established under a plan of an employer, or group of employers, who, by reason of producing the same commodity, are in competition with the employers whose facilities were seized and who would therefore be expected to establish such a trust as a reasonable measure to maintain a sound position in the labor market producing the commodity. For example, if a trust was established under such an agreement in the bituminous coal industry, a similar trust established in the anthracite coal industry within a reasonable time, but before January 1, 1954, would qualify under subparagraph (1) of this paragraph.

(3) If any trust described in subparagraph (2) of this paragraph becomes qualified for exemption from tax under the provisions of section 501(a), the deductibility of contributions by an employer to such trust on or after any date of such qualification shall no longer be governed by the provisions of section 162, even though the trust may later lose its exemption from tax under section 501(a).

(c) *Other plans providing deferred compensation.* For rules relating to the deduction of amounts paid to or under a stock bonus, pension, annuity, or profit-sharing plan or amounts paid or accrued under any other plan deferring the receipt of compensation, see section 404 and the regulations thereunder.

§ 1.162-10T Questions and answers relating to the deduction of employee benefits under the Tax Reform Act of 1984; certain limits on amounts deductible (temporary).

Q-1: How does the amendment of section 404(b) by the Tax Reform Act of 1984 affect the deduction of employee benefits under section 162 of the Internal Revenue Code?

A-1: As amended by the Tax Reform Act of 1984, section 404(b) clarifies that section 404(a) and (d) (in the case of employees and nonemployees, respectively) shall govern the deduction of contributions paid or compensation paid or incurred under a plan, or method or arrangement, deferring the receipt of compensation or providing for deferred benefits. Section 404(a) and (d) requires that such a contribution or compensation be paid or incurred for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of these sections. However, notwithstanding the above, section 404 does not apply to contributions paid or accrued with respect to a “welfare benefit fund” (as defined in section 419(e)) after July 18, 1984, in taxable years of employers (and payors) ending after that date.

Also, section 463 shall govern the deduction of vacation pay by a taxpayer that has elected the application of such section. Section 404(b), as amended, generally applies to contributions paid and compensation paid or incurred after July 18, 1984, in taxable years of employers (and payors) ending after that date. See Q&A-3 of § 1.404(b)-1T. For rules relating to the deduction of contributions attributable to the provision of deferred benefits, see section 404(a), (b) and (d) and § 1.404(a)-1T, § 1.404(b)-1T and § 1.404(d)-1T. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419,

§1.419-1T and §1.419A-2T. For rules relating to the deduction of vacation pay for which an election is made under section 463, see §301.9100-16T of this chapter and §1.463-1T.

Q-2: How does the enactment of section 419 by the Tax Reform Act of 1984 affect the deduction of employee benefits under section 162?

A-2: As enacted by the Tax Reform Act of 1984, section 419 shall govern the deduction of contributions paid or accrued by an employer (or a person receiving services under section 419(g)) with respect to a “welfare benefit fund” (within the meaning of section 419(e)) after December 31, 1985, in taxable years of the employer (or person receiving the services) ending after that date. Section 419(a) requires that such a contribution be paid or accrued for purposes of section 162 or 212 and satisfy the requirements for deductibility under either of those sections. Generally, subject to a binding contract exception (as described in section 511(e)(5) of the Tax Reform Act of 1984), section 419 shall also govern the deduction of the contribution of a facility (or other contribution used to acquire or improve a facility) to a welfare benefit fund after June 22, 1984. See Q&A-11 of §1.419-1T. In the case of a welfare benefit fund maintained pursuant to a collective bargaining agreement, section 419 applies to the extent provided under the special effective date rule described in Q&A-2 of §1.419-1T and the special rules of §1.419A-2T. For rules relating to the deduction of contributions paid or accrued with respect to a welfare benefit fund, see section 419 and §1.419-1T.

[T.D. 8073, 51 FR 4319, Feb. 4, 1986, as amended by T.D. 8435, 57 FR 43896, Sept. 23, 1992]

§ 1.162-11 Rentals.

(a) *Acquisition of a leasehold.* If a leasehold is acquired for business purposes for a specified sum, the purchaser may take as a deduction in his return an aliquot part of such sum each year, based on the number of years the lease has to run. Taxes paid by a tenant to or for a landlord for business property are additional rent and constitute a deductible item to the tenant and taxable income to the landlord, the amount of the tax being deductible by the latter.

For disallowance of deduction for income taxes paid by a lessee corporation pursuant to a lease arrangement with the lessor corporation, see section 110 and the regulations thereunder. See section 178 and the regulations thereunder for rules governing the effect to be given renewal options in amortizing the costs incurred after July 28, 1958 of acquiring a lease. See §1.197-2 for rules governing the amortization of costs to acquire limited interests in section 197 intangibles.

(b) *Improvements by lessee on lessor’s property*—(1) In general. The cost to a taxpayer of erecting buildings or making permanent improvements on property of which the taxpayer is a lessee is a capital expenditure. For the rules regarding improvements to leased property when the improvements are tangible property, see §1.263(a)-3(f). For the rules regarding depreciation or amortization deductions for leasehold improvements, see §1.167(a)-4.

(2) *Effective/applicability date*—(i) *In general.* This paragraph (b) applies to taxable years beginning on or after January 1, 2014. Except as provided in paragraphs (b)(2)(ii) and (b)(2)(iii) of this section, §1.162-11(b) as contained in 26 CFR part 1 edition revised as of April 1, 2011, applies to taxable years beginning before January 1, 2014.

(ii) *Early application of this paragraph.* A taxpayer may choose to apply this paragraph (b) to taxable years beginning on or after January 1, 2012.

(iii) *Optional application of TD 9564.* A taxpayer may choose to apply §1.162-11T(b) as contained in TD 9564 (76 FR 81060) December 27, 2011, to taxable years beginning on or after January 1, 2012, and before January 1, 2014.

[T.D. 6520, 25 FR 13692, Dec. 24, 1960, as amended by T.D. 8865, 65 FR 3825, Jan. 25, 2000; T.D. 9564, 76 FR 81084, Dec. 27, 2011; T.D. 9636, 78 FR 57706, Sept. 19, 2013]

§ 1.162-12 Expenses of farmers.

(a) *Farms engaged in for profit.* A farmer who operates a farm for profit is entitled to deduct from gross income as necessary expenses all amounts actually expended in the carrying on of the business of farming. The cost of ordinary tools of short life or small cost, such as hand tools, including shovels,

rakes, etc., may be deducted. The purchase of feed and other costs connected with raising livestock may be treated as expense deductions insofar as such costs represent actual outlay, but not including the value of farm produce grown upon the farm or the labor of the taxpayer. For rules regarding the capitalization of expenses of producing property in the trade or business of farming, see section 263A and the regulations thereunder. For taxable years beginning after July 12, 1972, where a farmer is engaged in producing crops and the process of gathering and disposal of such crops is not completed within the taxable year in which such crops were planted, expenses deducted may, with the consent of the Commissioner (see section 446 and the regulations thereunder), be determined upon the crop method, and such deductions must be taken in the taxable year in which the gross income from the crop has been realized. For taxable years beginning on or before July 12, 1972, where a farmer is engaged in producing crops which take more than a year from the time of planting to the process of gathering and disposal, expenses deducted may, with the consent of the Commissioner (see section 446 and the regulations thereunder), be determined upon the crop method, and such deductions must be taken in the taxable year in which the gross income from the crop has been realized. If a farmer does not compute income upon the crop method, the cost of seeds and young plants which are purchased for further development and cultivation prior to sale in later years may be deducted as an expense for the year of purchase, provided the farmer follows a consistent practice of deducting such costs as an expense from year to year. The preceding sentence does not apply to the cost of seeds and young plants connected with the planting of timber (see section 611 and the regulations thereunder). For rules regarding the capitalization of expenses of producing property in the trade or business of farming, see section 263A of the Internal Revenue Code and § 1.263A-4. The cost of farm machinery, equipment, and farm buildings represents a capital investment and is not an allowable deduction as an item of expense.

Amounts expended in the development of farms, orchards, and ranches prior to the time when the productive state is reached may, at the election of the taxpayer, be regarded as investments of capital. For the treatment of soil and water conservation expenditures as expenses which are not chargeable to capital account, see section 175 and the regulations thereunder. For taxable years beginning after December 31, 1959, in the case of expenditures paid or incurred by farmers for fertilizer, lime, etc., see section 180 and the regulations thereunder. Amounts expended in purchasing work, breeding, dairy, or sporting animals are regarded as investments of capital, and shall be depreciated unless such animals are included in an inventory in accordance with § 1.61-4. The purchase price of an automobile, even when wholly used in carrying on farming operations, is not deductible, but is regarded as an investment of capital. The cost of gasoline, repairs, and upkeep of an automobile if used wholly in the business of farming is deductible as an expense; if used partly for business purposes and partly for the pleasure or convenience of the taxpayer or his family, such cost may be apportioned according to the extent of the use for purposes of business and pleasure or convenience, and only the proportion of such cost justly attributable to business purposes is deductible as a necessary expense.

(b) *Farms not engaged in for profit; taxable years beginning before January 1, 1970*—(1) *In general.* If a farm is operated for recreation or pleasure and not on a commercial basis, and if the expenses incurred in connection with the farm are in excess of the receipts therefrom, the entire receipts from the sale of farm products may be ignored in rendering a return of income, and the expenses incurred, being regarded as personal expenses, will not constitute allowable deductions.

(2) *Effective date.* The provisions of this paragraph shall apply with respect to taxable years beginning before January 1, 1970.

(3) *Cross reference.* For provisions relating to activities not engaged in for profit, applicable to taxable years beginning after December 31, 1969, see

Internal Revenue Service, Treasury

§ 1.162-15

section 183 and the regulations thereunder.

[T.D. 7198, 37 FR 13679, July 13, 1972, as amended by T.D. 8729, 62 FR 44546, Aug. 22, 1997; T.D. 8897, 65 FR 50643, Aug. 21, 2000]

§ 1.162-13 Depositors' guaranty fund.

Banking corporations which pursuant to the laws of the State in which they are doing business are required to set apart, keep, and maintain in their banks the amount levied and assessed against them by the State authorities as a "Depositors' guaranty fund," may deduct from their gross income the amount so set apart each year to this fund provided that such fund, when set aside and carried to the credit of the State banking board or duly authorized State officer, ceases to be an asset of the bank and may be withdrawn in whole or in part upon demand by such board or State officer to meet the needs of these officers in reimbursing depositors in insolvent banks, and provided further that no portion of the amount thus set aside and credited is returnable under the laws of the State to the assets of the banking corporation. If, however, such amount is simply set up on the books of the bank as a reserve to meet a contingent liability and remains an asset of the bank, it will not be deductible except as it is actually paid out as required by law and upon demand of the proper State officers.

§ 1.162-14 Expenditures for advertising or promotion of good will.

A corporation which has, for the purpose of computing its excess profits tax credit under Subchapter E, Chapter 2, or Subchapter D, Chapter 1 of the Internal Revenue Code of 1939, elected under section 733 or section 451 (applicable to the excess profits tax imposed by Subchapter E of Chapter 2, and Subchapter D of Chapter 1, respectively) to charge to capital account for taxable years in its base period expenditures for advertising or the promotion of good will which may be regarded as capital investments, may not deduct similar expenditures for the taxable year. See section 263(b). Such a taxpayer has the burden of proving that expenditures for advertising or the promotion of good will which it seeks to

deduct in the taxable year may not be regarded as capital investments under the provisions of the regulations prescribed under section 733 or section 451 of the Internal Revenue Code of 1939. See 26 CFR, 1938 ed., 35.733-2 (Regulations 112) and 26 CFR (1939) 40.451-2 (Regulations 130). For the disallowance of deductions for the cost of advertising in programs of certain conventions of political parties, or in publications part of the proceeds of which directly or indirectly inures (or is intended to inure) to or for the use of a political party or political candidate, see § 1.276-1.

[T.D. 6996, 34 FR 835, Jan. 18, 1969]

§ 1.162-15 Contributions, dues, etc.

(a) *Payments and transfers to entities described in section 170(c)*—(1) *In general.* A payment or transfer to or for the use of an entity described in section 170(c) that bears a direct relationship to the taxpayer's trade or business and that is made with a reasonable expectation of financial return commensurate with the amount of the payment or transfer may constitute an allowable deduction as a trade or business expense rather than a charitable contribution deduction under section 170. For payments or transfers in excess of the amount deductible under section 162(a), see § 1.170A-1(h).

(2) *Examples.* The following examples illustrate the rules of paragraph (a)(1) of this section:

(i) *Example 1.* A, an individual, is a sole proprietor who manufactures musical instruments and sells them through a website. A makes a \$1,000 payment to a local church (which is a charitable organization described in section 170(c)) for a half-page advertisement in the church's program for a concert. In the program, the church thanks its concert supporters, including A. A's advertisement includes the URL for the website through which A sells its instruments. A reasonably expects that the advertisement will attract new customers to A's website and will help A to sell more musical instruments. A may treat the \$1,000 payment as an expense of carrying on a trade or business under section 162.

(ii) *Example 2.* P, a partnership, operates a chain of supermarkets, some of

which are located in State N. *P* operates a promotional program in which it sets aside the proceeds from one percent of its sales each year, which it pays to one or more charities described in section 170(c). The funds are earmarked for use in projects that improve conditions in State N. *P* makes the final determination on which charities receive payments. *P* advertises the program. *P* reasonably believes the program will generate a significant degree of name recognition and goodwill in the communities where it operates and thereby increase its revenue. As part of the program, *P* makes a \$1,000 payment to a charity described in section 170(c). *P* may treat the \$1,000 payment as an expense of carrying on a trade or business under section 162. This result is unchanged if, under State N's tax credit program, *P* expects to receive a \$1,000 income tax credit on account of *P*'s payment, and under State N law, the credit can be passed through to *P*'s partners.

(3) *Safe harbors for C corporations and specified passthrough entities making payments in exchange for State or local tax credits*—(i) *Safe harbor for C corporations*. If a C corporation makes a payment to or for the use of an entity described in section 170(c) and receives or expects to receive in return a State or local tax credit that reduces a State or local tax imposed on the C corporation, the C corporation may treat such payment as meeting the requirements of an ordinary and necessary business expense for purposes of section 162(a) to the extent of the amount of the credit received or expected to be received.

(ii) *Safe harbor for specified passthrough entities*—(A) *Definition of specified passthrough entity*. For purposes of this paragraph (a)(3)(ii), an entity is a specified passthrough entity if each of the following requirements is satisfied—

(1) The entity is a business entity other than a C corporation and is regarded for all Federal income tax purposes as separate from its owners under § 301.7701-3 of this chapter;

(2) The entity operates a trade or business within the meaning of section 162;

(3) The entity is subject to a State or local tax incurred in carrying on its

trade or business that is imposed directly on the entity; and

(4) In return for a payment to an entity described in section 170(c), the entity described in paragraph (a)(3)(ii)(A)(1) of this section receives or expects to receive a State or local tax credit that the entity applies or expects to apply to offset a State or local tax described in paragraph (a)(3)(ii)(A)(3) of this section.

(B) *Safe harbor*. Except as provided in paragraph (a)(3)(ii)(C) of this section, if a specified passthrough entity makes a payment to or for the use of an entity described in section 170(c), and receives or expects to receive in return a State or local tax credit that reduces a State or local tax described in paragraph (a)(3)(ii)(A)(3) of this section, the specified passthrough entity may treat such payment as an ordinary and necessary business expense for purposes of section 162(a) to the extent of the amount of credit received or expected to be received.

(C) *Exception*. The safe harbor described in this paragraph (a)(3)(ii) does not apply if the credit received or expected to be received reduces a State or local income tax.

(iii) *Definition of payment*. For purposes of this paragraph (a)(3), payment is defined as a payment of cash or cash equivalent.

(iv) *Examples*. The following examples illustrate the rules of paragraph (a)(3) of this section.

(A) *Example 1. C corporation that receives or expects to receive dollar-for-dollar State or local tax credit*. *A*, a C corporation engaged in a trade or business, makes a payment of \$1,000 to an entity described in section 170(c). In return for the payment, *A* expects to receive a dollar-for-dollar State tax credit to be applied to *A*'s State corporate income tax liability. Under paragraph (a)(3)(i) of this section, *A* may treat the \$1,000 payment as an expense of carrying on a trade or business under section 162.

(B) *Example 2. C corporation that receives or expects to receive percentage-based State or local tax credit*. *B*, a C corporation engaged in a trade or business, makes a payment of \$1,000 to an

entity described in section 170(c). In return for the payment, *B* expects to receive a local tax credit equal to 80 percent of the amount of this payment (\$800) to be applied to *B*'s local real property tax liability. Under paragraph (a)(3)(i) of this section, *B* may treat \$800 as an expense of carrying on a trade or business under section 162. The treatment of the remaining \$200 will depend upon the facts and circumstances and is not affected by paragraph (a)(3)(i) of this section.

(C) *Example 3. Partnership that receives or expects to receive dollar-for-dollar State or local tax credit.* *P* is a limited liability company classified as a partnership for Federal income tax purposes under § 301.7701-3 of this chapter. *P* is engaged in a trade or business and makes a payment of \$1,000 to an entity described in section 170(c). In return for the payment, *P* expects to receive a dollar-for-dollar State tax credit to be applied to *P*'s State excise tax liability incurred by *P* in carrying on its trade or business. Under applicable State law, the State's excise tax is imposed at the entity level (not the owner level). Under paragraph (a)(3)(ii) of this section, *P* may treat the \$1,000 as an expense of carrying on a trade or business under section 162.

(D) *Example 4. S corporation that receives or expects to receive percentage-based State or local tax credit.* *S* is an S corporation engaged in a trade or business and is owned by individuals *C* and *D*. *S* makes a payment of \$1,000 to an entity described in section 170(c). In return for the payment, *S* expects to receive a local tax credit equal to 80 percent of the amount of this payment (\$800) to be applied to *S*'s local real property tax liability incurred by *S* in carrying on its trade or business. Under applicable local law, the real property tax is imposed at the entity level (not the owner level). Under paragraph (a)(3)(ii) of this section, *S* may treat \$800 of the payment as an expense of carrying on a trade or business under section 162. The treatment of the remaining \$200 will depend upon the facts and circumstances and is not affected by paragraph (a)(3)(ii) of this section.

(v) *Applicability of section 170 to payments in exchange for State or local tax*

benefits. For rules regarding the availability of a charitable contribution deduction under section 170 where a taxpayer makes a payment or transfers property to or for the use of an entity described in section 170(c) and receives or expects to receive a State or local tax benefit in return for such payment, see § 1.170A-1(h)(3).

(4) *Applicability dates.* Paragraphs (a)(1) and (2) of this section, regarding the application of section 162 to taxpayers making payments or transfers to entities described in section 170(c), apply to payments or transfers made on or after December 17, 2019. Section 1.162-15(a), as it appeared in the April 1, 2020 edition of 26 CFR part 1, generally applies to payments or transfers made prior to December 17, 2019. However, taxpayers may choose to apply paragraphs (a)(1) and (2) of this section to payments and transfers made on or after January 1, 2018. Paragraph (a)(3) of this section, regarding the safe harbors for C corporations and specified passthrough entities making payments to section 170(c) entities in exchange for State or local tax credits, applies to payments made by these entities on or after December 17, 2019. However, taxpayers may choose to apply the safe harbors of paragraph (a)(3) to payments made on or after January 1, 2018.

(b) *Other contributions.* Donations to organizations other than those described in section 170 which bear a direct relationship to the taxpayer's business and are made with a reasonable expectation of a financial return commensurate with the amount of the donation may constitute allowable deductions as business expenses, provided the donation is not made for a purpose for which a deduction is not allowable by reason of the provisions of paragraph (b)(1)(i) or (c) of § 1.162-20. For example, a transit company may donate a sum of money to an organization (of a class not referred to in section 170) intending to hold a convention in the city in which it operates, with a reasonable expectation that the holding of such convention will augment its income through a greater number of people using its transportation facilities.

(c) *Dues.* Dues and other payments to an organization, such as a labor union or a trade association, which otherwise

meet the requirements of the regulations under section 162, are deductible in full. For limitations on the deductibility of dues and other payments, see paragraph (b) and (c) of § 1.162-20.

(d) *Cross reference.*—For provisions dealing with expenditures for institutional or “good will” advertising, see § 1.162-20(a)(2).

[T.D. 6819, 30 FR 5580, Apr. 20, 1965, as amended by T.D. 9907, 85 FR 48472, Aug. 11, 2020]

§ 1.162-16 Cross reference.

For special rules relating to expenses in connection with subdividing real property for sale, see section 1237 and the regulations thereunder.

§ 1.162-17 Reporting and substantiation of certain business expenses of employees.

(a) *Introductory.* The purpose of the regulations in this section is to provide rules for the reporting of information on income tax returns by taxpayers who pay or incur ordinary and necessary business expenses in connection with the performance of services as an employee and to furnish guidance as to the type of records which will be useful in compiling such information and in its substantiation, if required. The rules prescribed in this section do not apply to expenses paid or incurred for incidentals, such as office supplies for the employer or local transportation in connection with an errand. Employees incurring such incidental expenses are not required to provide substantiation for such amounts. The term “ordinary and necessary business expenses” means only those expenses which are ordinary and necessary in the conduct of the taxpayer’s business and are directly attributable to such business. The term does not include nondeductible personal, living or family expenses.

(b) *Expenses for which the employee is required to account to his employer.*—(1) *Reimbursements equal to expenses.* The employee need not report on his tax return (either itemized or in total amount) expenses for travel, transportation, entertainment, and similar purposes paid or incurred by him solely for the benefit of his employer for which he is required to account and does account to his employer and which are

charged directly or indirectly to the employer (for example, through credit cards) or for which the employee is paid through advances, reimbursements, or otherwise, provided the total amount of such advances, reimbursements, and charges is equal to such expenses. In such a case the taxpayer need only state in his return that the total of amounts charged directly or indirectly to his employer through credit cards or otherwise and received from the employer as advances or reimbursements did not exceed the ordinary and necessary business expenses paid or incurred by the employee.

(2) *Reimbursements in excess of expenses.* In case the total of amounts charged directly or indirectly to the employer and received from the employer as advances, reimbursements, or otherwise, exceeds the ordinary and necessary business expenses paid or incurred by the employee and the employee is required to and does account to his employer for such expenses, the taxpayer must include such excess in income and state on his return that he has done so.

(3) *Expenses in excess of reimbursements.* If the employee’s ordinary and necessary business expenses exceed the total of the amounts charged directly or indirectly to the employer and received from the employer as advances, reimbursements, or otherwise, and the employee is required to and does account to his employer for such expenses, the taxpayer may make the statement in his return required by subparagraph (1) of this paragraph unless he wishes to claim a deduction for such excess. If, however, he wishes to secure a deduction for such excess, he must submit a statement showing the following information as part of his tax return:

(i) The total of any charges paid or borne by the employer and of any other amounts received from the employer for payment of expenses whether by means of advances, reimbursements or otherwise; and

(ii) The nature of his occupation, the number of days away from home on business, and the total amount of ordinary and necessary business expenses paid or incurred by him (including those charged directly or indirectly to

the employer through credit cards or otherwise) broken down into such broad categories as transportation, meals and lodging while away from home overnight, entertainment expenses, and other business expenses.

(4) To “account” to his employer as used in this section means to submit an expense account or other required written statement to the employer showing the business nature and the amount of all the employee’s expenses (including those charged directly or indirectly to the employer through credit cards or otherwise) broken down into such broad categories as transportation, meals and lodging while away from home overnight, entertainment expenses, and other business expenses. For this purpose, the Commissioner in his discretion may approve reasonable business practices under which mileage, per diem in lieu of subsistence, and similar allowances providing for ordinary and necessary business expenses in accordance with a fixed scale may be regarded as equivalent to an accounting to the employer.

(c) *Expenses for which the employee is not required to account to his employer.* If the employee is not required to account to his employer for his ordinary and necessary business expenses, e.g., travel, transportation, entertainment, and similar items, or, though required, fails to account for such expenses, he must submit, as a part of his tax return, a statement showing the following information:

(1) The total of all amounts received as advances or reimbursements from his employer in connection with the ordinary and necessary business expenses of the employee, including amounts charged directly or indirectly to the employer through credit cards or otherwise; and

(2) The nature of his occupation, the number of days away from home on business, and the total amount of ordinary and necessary business expenses paid or incurred by him (including those charged directly or indirectly to the employer through credit cards or otherwise) broken down into such broad categories as transportation, meals and lodging while away from home overnight, entertainment expenses, and other business expenses.

(d) *Substantiation of items of expense.*

(1) Although the Commissioner may require any taxpayer to substantiate such information concerning expense accounts as may appear to be pertinent in determining tax liability, taxpayers ordinarily will not be called upon to substantiate expense account information except those in the following categories:

(i) A taxpayer who is not required to account to his employer, or who does not account;

(ii) A taxpayer whose expenses exceed the total of amounts charged to his employer and amounts received through advances, reimbursements or otherwise and who claims a deduction on his return for such excess;

(iii) A taxpayer who is related to his employer within the meaning of section 267(b); and

(iv) Other taxpayers in cases where it is determined that the accounting procedures used by the employer for the reporting and substantiation of expenses by employees are not adequate.

(2) The Code contemplates that taxpayers keep such records as will be sufficient to enable the Commissioner to correctly determine income tax liability. Accordingly, it is to the advantage of taxpayers who may be called upon to substantiate expense account information to maintain as adequate and detailed records of travel, transportation, entertainment, and similar business expenses as practical since the burden of proof is upon the taxpayer to show that such expenses were not only paid or incurred but also that they constitute ordinary and necessary business expenses. One method for substantiating expenses incurred by an employee in connection with his employment is through the preparation of a daily diary or record of expenditures, maintained in sufficient detail to enable him to readily identify the amount and nature of any expenditure, and the preservation of supporting documents, especially in connection with large or exceptional expenditures. Nevertheless, it is recognized that by reason of the nature of certain expenses or the circumstances under which they are incurred, it is often difficult for an employee to maintain detailed records or to preserve supporting documents

for all his expenses. Detailed records of small expenditures incurred in traveling or for transportation, as for example, tips, will not be required.

(3) Where records are incomplete or documentary proof is unavailable, it may be possible to establish the amount of the expenditures by approximations based upon reliable secondary sources of information and collateral evidence. For example, in connection with an item of traveling expense a taxpayer might establish that he was in a travel status a certain number of days but that it was impracticable for him to establish the details of all his various items of travel expense. In such a case rail fares or plane fares can usually be ascertained with exactness and automobile costs approximated on the basis of mileage covered. A reasonable approximation of meals and lodging might be based upon receipted hotel bills or upon average daily rates for such accommodations and meals prevailing in the particular community for comparable accommodations. Since detailed records of incidental items are not required, deductions for these items may be based upon a reasonable approximation. In cases where a taxpayer is called upon to substantiate expense account information, the burden is on the taxpayer to establish that the amounts claimed as a deduction are reasonably accurate and constitute ordinary and necessary business expenses paid or incurred by him in connection with his trade or business. In connection with the determination of factual matters of this type, due consideration will be given to the reasonableness of the stated expenditures for the claimed purposes in relation to the taxpayer's circumstances (such as his income and the nature of his occupation), to the reliability and accuracy of records in connection with other items more readily lending themselves to detailed recordkeeping, and to all of the facts and circumstances in the particular case.

(e) *Applicability.* (1) Except as provided in subparagraph (2) of this paragraph, the provisions of the regulations in this section are supplemental to existing regulations relating to information required to be submitted with income tax returns, and shall be applica-

ble with respect to taxable years beginning after December 31, 1957, notwithstanding any existing regulation to the contrary.

(2) With respect to taxable years ending after December 31, 1962, but only in respect of periods after such date, the provisions of the regulations in this section are superseded by the regulations under section 274(d) to the extent inconsistent therewith. See § 1.274-5.

(3) For taxable years beginning on or after January 1, 1989, the provisions of this section are superseded by the regulations under section 62(c) to the extent this section is inconsistent with those regulations. See § 1.62-2.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6630, 27 FR 12935, Dec. 29, 1962; T.D. 8276, 54 FR 51026, Dec. 12, 1989; T.D. 8324, 55 FR 51695, Dec. 17, 1990]

§ 1.162-18 Illegal bribes and kickbacks.

(a) *Illegal payments to government officials or employees—*(1) *In general.* No deduction shall be allowed under section 162(a) for any amount paid or incurred, directly or indirectly, to an official or employee of any government, or of any agency or other instrumentality of any government, if—

(i) In the case of a payment made to an official or employee of a government other than a foreign government described in subparagraph (3) (ii) or (iii) of this paragraph, the payment constitutes an illegal bribe or kickback, or

(ii) In the case of a payment made to an official or employee of a foreign government described in subparagraph (3) (ii) or (iii) of this paragraph, the making of the payment would be unlawful under the laws of the United States (if such laws were applicable to the payment and to the official or employee at the time the expenses were paid or incurred).

No deduction shall be allowed for an accrued expense if the eventual payment thereof would fall within the prohibition of this section. The place where the expenses are paid or incurred is immaterial. For purposes of subdivision (ii) of this subparagraph, lawfulness, or unlawfulness of the payment under the laws of the foreign country is immaterial.

(2) *Indirect payment.* For purposes of this paragraph, an indirect payment to an individual shall include any payment which inures to his benefit or promotes his interests, regardless of the medium in which the payment is made and regardless of the identity of the immediate recipient or payor. Thus, for example, payment made to an agent, relative, or independent contractor of an official or employee, or even directly into the general treasury of a foreign country of which the beneficiary is an official or employee, may be treated as an indirect payment to the official or employee, if in fact such payment inures or will inure to his benefit or promotes or will promote his financial or other interests. A payment made by an agent or independent contractor of the taxpayer which benefits the taxpayer shall be treated as an indirect payment by the taxpayer to the official or employee.

(3) *Official or employee of a government.* Any individual officially connected with—

(i) The Government of the United States, a State, a territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico,

(ii) The government of a foreign country, or

(iii) A political subdivision of, or a corporation or other entity serving as an agency or instrumentality of, any of the above,

in whatever capacity, whether on a permanent or temporary basis, and whether or not serving for compensation, shall be included within the term “official or employee of a government”, regardless of the place of residence or post of duty of such individual. An independent contractor would not ordinarily be considered to be an official or employee. For purposes of section 162(c) and this paragraph, the term “foreign country” shall include any foreign nation, whether or not such nation has been accorded diplomatic recognition by the United States. Individuals who purport to act on behalf of or as the government of a foreign nation, or an agency or instrumentality thereof, shall be treated under this section as officials or employees of a foreign government,

whether or not such individuals in fact control such foreign nation, agency, or instrumentality, and whether or not such individuals are accorded diplomatic recognition. Accordingly, a group in rebellion against an established government shall be treated as officials or employees of a foreign government, as shall officials or employees of the government against which the group is in rebellion.

(4) *Laws of the United States.* The term “laws of the United States”, to which reference is made in paragraph (a)(1)(ii) of this section, shall be deemed to include only Federal statutes, including State laws which are assimilated into Federal law by Federal statute, and legislative and interpretative regulations thereunder. The term shall also be limited to statutes which prohibit some act or acts, for the violation of which there is a civil or criminal penalty.

(5) *Burden of proof.* In any proceeding involving the issue of whether, for purposes of section 162(c)(1), a payment made to a government official or employee constitutes an illegal bribe or kickback (or would be unlawful under the laws of the United States) the burden of proof in respect of such issue shall be upon the Commissioner to the same extent as he bears the burden of proof in civil fraud cases under section 7454 (*i.e.*, he must prove the illegality of the payment by clear and convincing evidence).

(6) *Example.* The application of this paragraph may be illustrated by the following example:

Example. X Corp. is in the business of selling hospital equipment in State Y. During 1970, X Corp. employed A who at the time was employed full time by State Y as Superintendent of Hospitals. The purpose of A's employment by X Corp. was to procure for it an improper advantage over other concerns in the making of sales to hospitals in respect of which A, as Superintendent, had authority. X Corp. paid A \$5,000 during 1970. The making of this payment was illegal under the laws of State Y. Under section 162(c)(1), X Corp. is precluded from deducting as a trade or business expense the \$5,000 paid to A.

(b) *Other illegal payments*—(1) *In general.* No deduction shall be allowed under section 162(a) for any payment (other than a payment described in

paragraph (a) of this section) made, directly or indirectly, to any person, if the payment constitutes an illegal bribe, illegal kickback, or other illegal payment under the laws of the United States (as defined in paragraph (a)(4) of this section), or under any State law (but only if such State law is generally enforced), which subjects the payor to a criminal penalty or the loss (including a suspension) of license or privilege to engage in a trade or business (whether or not such penalty or loss is actually imposed upon the taxpayer). For purposes of this paragraph, a kickback includes a payment in consideration of the referral of a client, patient, or customer. This paragraph applies only to payments made after December 30, 1969.

(2) *State law.* For purposes of this paragraph, State law means a statute of a State or the District of Columbia.

(3) *Generally enforced.* For purposes of this paragraph, a State law shall be considered to be generally enforced unless it is never enforced or the only persons normally charged with violations thereof in the State (or the District of Columbia) enacting the law are infamous or those whose violations are extraordinarily flagrant. For example, a criminal statute of a State shall be considered to be generally enforced unless violations of the statute which are brought to the attention of appropriate enforcement authorities do not result in any enforcement action in the absence of unusual circumstances.

(4) *Burden of proof.* In any proceeding involving the issue of whether, for purposes of section 162(c)(2), a payment constitutes an illegal bribe, illegal kickback, or other illegal payment the burden of proof in respect of such issue shall be upon the Commissioner to the same extent as he bears the burden of proof in civil fraud cases under section 7454 (i.e., he must prove the illegality of the payment by clear and convincing evidence).

(5) *Example.* The application of this paragraph may be illustrated by the following example:

Example. X Corp., a calendar-year taxpayer, is engaged in the ship repair business in State Y. During 1970, repairs on foreign ships accounted for a substantial part of its total business. It was X Corp.'s practice to

kick back approximately 10 percent of the repair bill to the captain and chief engineer of all foreign-owned vessels, which kickbacks are illegal under a law of State Y (which is generally enforced) and potentially subject X Corp. to fines. During 1970, X Corp. paid \$50,000 in such kickbacks. On X Corp.'s return for 1970, a deduction under section 162 was taken for the \$50,000. The deduction of the \$50,000 of illegal kickbacks during 1970 is disallowed under section 162(c)(2), whether or not X Corp. is prosecuted with respect to the kickbacks.

(c) *Kickbacks, rebates, and bribes under medicare and medicaid.* No deduction shall be allowed under section 162(a) for any kickback, rebate, or bribe (whether or not illegal) made on or after December 10, 1971, by any provider of services, supplier, physician, or other person who furnishes items or services for which payment is or may be made under the Social Security Act, as amended, or in whole or in part out of Federal funds under a State plan approved under such Act, if such kickback, rebate, or bribe is made in connection with the furnishing of such items or services or the making or receipt of such payments. For purposes of this paragraph, a kickback includes a payment in consideration of the referral of a client, patient, or customer.

[T.D. 7345, 40 FR 7437, Feb. 20, 1975; 40 FR 8948, Mar. 4, 1975]

§ 1.162-19 Capital contributions to Federal National Mortgage Association.

(a) *In general.* The initial holder of stock of the Federal National Mortgage Association (FNMA) which is issued pursuant to section 303(c) of the Federal National Mortgage Association Charter Act (12 U.S.C., section 1718) in a taxable year beginning after December 31, 1959, shall treat the excess, if any, of the issuance price (the amount of capital contributions evidenced by a share of stock) over the fair market value of the stock as of the issue date of such stock as an ordinary and necessary business expense paid or incurred during the year in which occurs the date of issuance of the stock. To the extent that a sale to FNMA of mortgage paper gives rise to the

issuance of a share of FNMA stock during a taxable year beginning after December 31, 1959, such sale is to be treated in a manner consistent with the purpose for, and the legislative intent underlying the enactment of, the provisions of section 8, Act of September 14, 1960 (Pub. L. 86-779, 74 Stat. 1003). Thus, for the purpose of determining an initial holder's gain or loss from the sale to FNMA of mortgage paper, with respect to which a share of FNMA stock is issued in a taxable year beginning after December 31, 1959 (irrespective of when the sale is made), the amount realized by the initial holder from the sale of the mortgage paper is the amount of the "FNMA purchase price". The "FNMA purchase price" is the gross amount of the consideration agreed upon between FNMA and the initial holder for the purchase of the mortgage paper, without regard to any deduction therefrom as, for example, a deduction representing a capital contribution or a purchase or marketing fee. The date of issuance of the stock is the date which appears on the stock certificates of the initial holder as the date of issue. The initial holder is the original purchaser who is issued stock of the Federal National Mortgage Association pursuant to section 303(c) of the Act, and who appears on the books of FNMA as the initial holder. In determining the period for which the initial holder has held such stock, such period shall begin with the date of issuance.

(b) *Examples.* The provisions of paragraph (a) of this section may be illustrated by the following examples:

Example 1. A, a banking institution which reports its income on a calendar year basis, sold mortgage paper with an outstanding principal balance of \$12,500 to FNMA on October 17, 1960. The FNMA purchase price was \$11,500. A's basis for the mortgage paper was \$10,500. In accordance with the terms of the contract, FNMA deducted \$375 (\$250 representing capital contribution and \$125 representing purchase and marketing fee) from the amount of the purchase price. FNMA credited A's account with the amount of the capital contribution. A stock certificate evidencing two shares of FNMA common stock of \$100 par value was mailed to A and FNMA deducted \$200 from A's account, leaving a net balance of \$50 in such account. The stock certificate, bearing an issue date of November 1, 1960, was received by A on November 7, 1960. The fair market value of a share of

FNMA stock on October 17, 1960, was \$65, on November 1, 1960, was \$67, and on November 7, 1960, was \$68. A may deduct \$66 the difference between the issuance price (\$200) and the fair market value (\$134) of the two shares of stock on the date of issuance (November 1, 1960), as a business expense for the taxable year 1960. The basis of each share of stock issued as of November 1, 1960 will be \$67. See section 1054 and § 1.1054-1. A's gain from the sale of the mortgage paper is \$875 computed as follows:

Amount realized in FNMA purchase price	\$11,500
A's basis in mortgage paper	\$10,500
Purchase and marketing fee	125
	10,625
Gain on sale	875

Example 2. Assume the same facts as in Example (1), and, in addition, that A sold to FNMA on December 15, 1960, additional mortgage paper having an outstanding principal balance of \$12,500. FNMA deducted from the FNMA purchase price \$250 representing capital contribution and credited A's account with this amount. A then had a total credit of \$300 to his account consisting of the \$50 balance from the transaction described in Example (1) and \$250 from the December 15th transaction. A stock certificate evidencing three shares of FNMA common stock of \$100 par value was mailed to A and FNMA deducted \$300 from A's account. The stock certificate, bearing an issue date of January 1, 1961, was received by A on January 9, 1961. The fair market value of a share of FNMA stock on January 1, 1961, was \$69. A may deduct \$93, the difference between the issuance price (\$300) and the fair market value (\$207) of the three shares of stock on the date of issuance (January 1, 1961), as a business expense for the taxable year 1961. The gain or loss on the sale of mortgage paper on December 15, 1960, is reportable for the taxable year 1960.

[T.D. 6690, 28 FR 12253, Nov. 19, 1963]

§ 1.162-20 Expenditures attributable to lobbying, political campaigns, attempts to influence legislation, etc., and certain advertising.

(a) *In general*—(1) *Scope of section.* This section contains rules governing the deductibility or nondeductibility of expenditures for lobbying purposes, for the promotion or defeat of legislation, for political campaign purposes (including the support of or opposition to any candidate for public office) or for carrying on propaganda (including advertising) related to any of the foregoing purposes. For rules applicable to such expenditures in respect of taxable

years beginning before January 1, 1963, and for taxable years beginning after December 31, 1962, see paragraphs (b) and (c), respectively, of this section. This section also deals with expenditures for institutional or “good will” advertising.

(2) *Institutional or “good will” advertising.* Expenditures for institutional or “good will” advertising which keeps the taxpayer’s name before the public are generally deductible as ordinary and necessary business expenses provided the expenditures are related to the patronage the taxpayer might reasonably expect in the future. For example, a deduction will ordinarily be allowed for the cost of advertising which keeps the taxpayer’s name before the public in connection with encouraging contributions to such organizations as the Red Cross, the purchase of United States Savings Bonds, or participation in similar causes. In like fashion, expenditures for advertising which presents views on economic, financial, social, or other subjects of a general nature, but which does not involve any of the activities specified in paragraph (b) or (c) of this section for which a deduction is not allowable, are deductible if they otherwise meet the requirements of the regulations under section 162.

(b) *Taxable years beginning before January 1, 1963—(1) In general.* (i) For taxable years beginning before January 1, 1963, expenditures for lobbying purposes, for the promotion or defeat of legislation, for political campaign purposes (including the support of or opposition to any candidate for public office), or for carrying on propaganda (including advertising) related to any of the foregoing purposes are not deductible from gross income. For example, the cost of advertising to promote or defeat legislation or to influence the public with respect to the desirability or undesirability of proposed legislation is not deductible as a business expense, even though the legislation may directly affect the taxpayer’s business.

(ii) If a substantial part of the activities of an organization, such as a labor union or a trade association, consists of one or more of the activities specified in the first sentence of this subparagraph, deduction will be allowed only for such portion of the dues or

other payments to the organization as the taxpayer can clearly establish is attributable to activities other than those so specified. The determination of whether such specified activities constitute a substantial part of an organization’s activities shall be based on all the facts and circumstances. In no event shall special assessments or similar payments (including an increase in dues) made to any organization for any of such specified purposes be deductible. For other provisions relating to the deductibility of dues and other payments to an organization, such as a labor union or a trade association, see paragraph (c) of § 1.162-15.

(2) *Expenditures for promotion or defeat of legislation.* For purposes of this paragraph, expenditures for the promotion or the defeat of legislation include, but shall not be limited to, expenditures for the purpose of attempting to—

(i) Influence members of a legislative body directly, or indirectly by urging or encouraging the public to contact such members for the purpose of proposing, supporting, or opposing legislation, or

(ii) Influence the public to approve or reject a measure in a referendum, initiative, vote on a constitutional amendment, or similar procedure.

(c) *Taxable years beginning after December 31, 1962—(1) In general.* For taxable years beginning after December 31, 1962, certain types of expenses incurred with respect to legislative matters are deductible under section 162(a) if they otherwise meet the requirements of the regulations under section 162. These deductible expenses are described in subparagraph (2) of this paragraph. All other expenditures for lobbying purposes, for the promotion or defeat of legislation (see paragraph (b)(2) of this section), for political campaign purposes (including the support of or opposition to any candidate for public office), or for carrying on propaganda (including advertising) relating to any of the foregoing purposes are not deductible from gross income for such taxable years. For the disallowance of deductions for bad debts and worthless securities of a political party, see § 1.271-1. For the disallowance of deductions for

certain indirect political contributions, such as the cost of certain advertising and the cost of admission to certain dinners, programs, and inaugural events, see § 1.276-1.

(2) *Appearances, etc., with respect to legislation*—(i) *General rule.* Pursuant to the provisions of section 162(e), expenses incurred with respect to legislative matters which may be deductible are those ordinary and necessary expenses (including, but not limited to, traveling expenses described in section 162(a)(2) and the cost of preparing testimony) paid or incurred by the taxpayer during a taxable year beginning after December 31, 1962, in carrying on any trade or business which are in direct connection with—

(a) Appearances before, submission of statements to, or sending communications to, the committees, or individual members of Congress or of any legislative body of a State, a possession of the United States, or a political subdivision of any of the foregoing with respect to legislation or proposed legislation of direct interest to the taxpayer, or

(b) Communication of information between the taxpayer and an organization of which he is a member with respect to legislation or proposed legislation of direct interest to the taxpayer and to such organization.

For provisions relating to dues paid or incurred with respect to an organization of which the taxpayer is a member, see subparagraph (3) of this paragraph.

(ii) *Legislation or proposed legislation of direct interest to the taxpayer*—(a) *Legislation or proposed legislation.* The term “legislation or proposed legislation” includes bills and resolutions introduced by a member of Congress or other legislative body referred to in subdivision (i)(a) of this subparagraph for consideration by such body as well as oral or written proposals for legislative action submitted to the legislative body or to a committee or member of such body.

(b) *Direct interest*—(1) *In general.* (i) Legislation or proposed legislation is of direct interest to a taxpayer if the legislation or proposed legislation is of such a nature that it will, or may reasonably be expected to, affect the trade

or business of the taxpayer. It is immaterial whether the effect, or expected effect, on the trade or business will be beneficial or detrimental to the trade or business or whether it will be immediate. If legislation or proposed legislation has such a relationship to a trade or business that the expenses of any appearance or communication in connection with the legislation meets the ordinary and necessary test of section 162(a), then such legislation ordinarily meets the direct interest test of section 162(e). However, if the nature of the legislation or proposed legislation is such that the likelihood of its having an effect on the trade or business of the taxpayer is remote or speculative, the legislation or proposed legislation is not of direct interest to the taxpayer. Legislation or proposed legislation which will not affect the trade or business of the taxpayer is not of direct interest to the taxpayer even though such legislation will affect the personal, living, or family activities or expenses of the taxpayer. Legislation or proposed legislation is not of direct interest to a taxpayer merely because it may affect business in general; however, if the legislation or proposed legislation will, or may reasonably be expected to, affect the taxpayer's trade or business it will be of direct interest to the taxpayer even though it also will affect the trade or business of other taxpayers or business in general. To meet the direct interest test, it is not necessary that all provisions of the legislation or proposed legislation have an effect, or expected effect, on the taxpayer's trade or business. The test will be met if one of the provisions of the legislation has the specified effect. Legislation or proposed legislation will be considered to be of direct interest to a membership organization if it is of direct interest to the organization, as such, or if it is of direct interest to one or more of its members.

(ii) Legislation which would increase or decrease the taxes applicable to the trade or business, increase or decrease the operating costs or earnings of the trade or business, or increase or decrease the administrative burdens connected with the trade or business meets the direct interest test. Legislation which would increase the social

security benefits or liberalize the right to such benefits meets the direct interest test because such changes in the social security benefits may reasonably be expected to affect the retirement benefits which the employer will be asked to provide his employees or to increase his taxes. Legislation which would impose a retailer's sales tax is of direct interest to a retailer because, although the tax may be passed on to his customers, collection of the tax will impose additional burdens on the retailer, and because the increased cost of his products to the consumer may reduce the demand for them. Legislation which would provide an income tax credit or exclusion for shareholders is of direct interest to a corporation, because those tax benefits may increase the sources of capital available to the corporation. Legislation which would favorably or adversely affect the business of a competitor so as to affect the taxpayer's competitive position is of direct interest to the taxpayer. Legislation which would improve the school system of a community is of direct interest to a membership organization comprised of employers in the community because the improved school system is likely to make the community more attractive to prospective employees of such employers. On the other hand, proposed legislation relating to Presidential succession in the event of the death of the President has only a remote and speculative effect on any trade or business and therefore does not meet the direct interest test. Similarly, if a corporation is represented before a congressional committee to oppose an appropriation bill merely because of a desire to bring increased Government economy with the hope that such economy will eventually cause a reduction in the Federal income tax, the legislation does not meet the direct interest test because any effect it may have upon the corporation's trade or business is highly speculative.

(2) *Appearances, etc., by expert witnesses.* (i) An appearance or communication (of a type described in paragraph (c)(2)(i)(a) of this section) by an individual in connection with legislation or proposed legislation shall be considered to be with respect to legis-

lation of direct interest to such individual if the legislation is in a field in which he specializes as an employee, if the appearance or communication is not on behalf of his employer, and if it is customary for individuals in his type of employment to publicly express their views in respect of matters in their field of competence. Expenses incurred by such an individual in connection with such an appearance of communication, including traveling expenses properly allocable thereto, represent ordinary and necessary business expenses and are, therefore, deductible under section 162. For example, if a university professor who teaches in the field of money and banking appears, on his own behalf, before a legislative committee to testify on proposed legislation regarding the banking system, his expenses incurred in connection with such appearance are deductible under section 162 since university professors customarily take an active part in the development of the law in their field of competence and publicly communicate the results of their work.

(ii) An appearance or communication (of a type described in paragraph (c)(2)(i)(a) of this section) by an employee or self-employed individual in connection with legislation or proposed legislation shall be considered to be with respect to legislation of direct interest to such person if the legislation is in the field in which he specializes in his business (or as an employee) and if the appearance or communication is made pursuant to an invitation extended to him individually for the purpose of receiving his expert testimony. Expenses incurred by an employee or self-employed individual in connection with such an appearance or communication, including traveling expenses properly allocable thereto, represent ordinary and necessary business expenses and are, therefore, deductible under section 162. For example, if a self-employed individual is personally invited by a congressional committee to testify on proposed legislation in the

field in which he specializes in his business, his expenses incurred in connection with such appearance are deductible under section 162. If a self-employed individual makes an appearance, on his own behalf, before a legislative committee without having been extended an invitation his expenses will be deductible to the extent otherwise provided in this paragraph.

(3) *Nominations, etc.* A taxpayer does not have a direct interest in matters such as nominations, appointments, or the operation of the legislative body.

(iii) *Allowable expenses.* To be deductible under section 162(a), expenditures which meet the tests of deductibility under the provisions of this paragraph must also qualify as ordinary and necessary business expenses under section 162(a) and, in addition, be in direct connection with the carrying on of the activities specified in subdivision (i)(a) or (i)(b) of this subparagraph. For example, a taxpayer appearing before a committee of the Congress to present testimony concerning legislation or proposed legislation in which he has a direct interest may deduct the ordinary and necessary expenses directly connected with his appearance, such as traveling expenses described in section 162(a)(2), and the cost of preparing testimony.

(3) *Deductibility of dues and other payments to an organization.* If a substantial part of the activities of an organization, such as a labor union or a trade association, consists of one or more of the activities to which this paragraph relates (legislative matters, political campaigns, etc.), exclusive of any activity constituting an appearance or communication with respect to legislation or proposed legislation of direct interest to the organization (see subparagraph (c)(2)(ii)(b)(I)), a deduction will be allowed only for such portion of the dues or other payments to the organization as the taxpayer can clearly establish is attributable to activities to which this paragraph does not relate and to any activity constituting an appearance or communication with respect to legislation or proposed legislation of direct interest to the organization. The determination of whether a substantial part of an organization's activities consists of one or more of the

activities to which this paragraph relates (exclusive of appearances or communications with respect to legislation or proposed legislation of direct interest to the organization) shall be based on all the facts and circumstances. In no event shall a deduction be allowed for that portion of a special assessment or similar payment (including an increase in dues) made to any organization for any activity to which this paragraph relates if the activity does not constitute an appearance or communication with respect to legislation or proposed legislation of direct interest to the organization. If an organization pays or incurs expenses allocable to legislative activities which meet the tests of subdivisions (i) and (ii) of subparagraph (2) of this paragraph (appearances or communications with respect to legislation or proposed legislation of direct interest to the organization), on behalf of its members, the dues paid by a taxpayer are deductible to the extent used for such activities. Dues paid by a taxpayer will be considered to be used for such an activity, and thus deductible, although the legislation or proposed legislation involved is not of direct interest to the taxpayer, if, pursuant to the provisions of subparagraph (2)(ii)(b)(I) of this paragraph, the legislation or proposed legislation is of direct interest to the organization, as such, or is of direct interest to one or more members of the organization. For other provisions relating to the deductibility of dues and other payments to an organization, such as a labor union or a trade association, see paragraph (c) of § 1.162-15.

(4) *Limitations.* No deduction shall be allowed under section 162(a) for any amount paid or incurred (whether by way of contribution, gift, or otherwise) in connection with any attempt to influence the general public, or segments thereof, with respect to legislative matters, elections, or referendums. For example, no deduction shall be allowed for any expenses incurred in connection with "grassroot" campaigns or any other attempts to urge or encourage the public to contact members of a legislative body for the purpose of proposing, supporting, or opposing legislation.

(5) *Expenses paid or incurred after December 31, 1993, in connection with influencing legislation other than certain local legislation.* The provisions of paragraphs (c)(1) through (3) of this section are superseded for expenses paid or incurred after December 31, 1993, in connection with influencing legislation (other than certain local legislation) to the extent inconsistent with section 162(e)(1)(A) (as limited by section 162(e)(2)) and §§ 1.162-20(d) and 1.162-29.

(d) *Dues allocable to expenditures after 1993.* No deduction is allowed under section 162(a) for the portion of dues or other similar amounts paid by the taxpayer to an organization exempt from tax (other than an organization described in section 501(c)(3)) which the organization notifies the taxpayer under section 6033(e)(1)(A)(ii) is allocable to expenditures to which section 162(e)(1) applies. The first sentence of this paragraph (d) applies to dues or other similar amounts whether or not paid on or before December 31, 1993. Section 1.162-20(c)(3) is superseded to the extent inconsistent with this paragraph (d).

[T.D. 6819, 30 FR 5581, Apr. 20, 1965, as amended by T.D. 6996, 34 FR 835, Jan. 18, 1969; T.D. 8602, 60 FR 37573, July 21, 1995]

§ 1.162-21 Denial of deduction for certain fines, penalties, and other amounts.

(a) *Deduction Disallowed.* Except as otherwise provided in this section, no deduction is allowed under chapter 1 of the Internal Revenue Code (Code) for any amount that is paid or incurred—

(1) By suit, settlement agreement (agreement), or otherwise, as defined in paragraph (e)(5) of this section;

(2) To, or at the direction of, a government, as defined in paragraph (e)(1) of this section, or a governmental entity, as defined in paragraph (e)(2) of this section; and

(3) In relation to the violation, or investigation or inquiry by such government or governmental entity into the potential violation, of any civil or criminal law.

(i) An amount that is paid or incurred in relation to the violation of any civil or criminal law includes a fine or penalty.

(ii) An investigation or inquiry into the potential violation of any law does not include routine investigations or inquiries, such as audits or inspections, of regulated businesses that are not related to any evidence of wrongdoing or suspected wrongdoing, but are conducted to ensure compliance with the rules and regulations applicable to those businesses.

(b) *Exception for restitution, remediation, and amounts paid to come into compliance with a law—(1) In general.* Paragraph (a) of this section does not apply to amounts paid or incurred for restitution (including remediation) or to come into compliance with a law, as defined in paragraphs (e)(4) of this section, provided that both the identification and the establishment requirements of paragraphs (b)(2) and (b)(3) of this section are met.

(2) *Identification requirement—(i) In general.* A court order (order) or an agreement, as defined in paragraph (e)(5) of this section, identifies a payment by stating the nature of, or purpose for, each payment each taxpayer is obligated to pay and the amount of each payment identified.

(ii) *Meeting the identification requirement.* The identification requirement is met if an order or agreement specifically states the amount of the payment described in paragraph (b)(2)(i) of this section and that the payment constitutes restitution, remediation, or an amount paid to come into compliance with a law. If the order or agreement uses a different form of the required words (such as “remediate” or “comply with a law”) and describes the purpose for which restitution or remediation will be paid or the law with which the taxpayer must comply, the order or agreement will be treated as stating that the payment constitutes restitution, remediation, or an amount paid to come into compliance with a law. Similarly, if an order or agreement specifically describes the damage done, harm suffered, or manner of non-compliance with a law and describes the action required of the taxpayer to provide restitution, remediation, or to come into compliance with any law, as defined in paragraph (e)(4) of this section, the order or agreement will be treated as stating that the payment

constitutes restitution, remediation, or an amount paid to come into compliance with any law. Meeting the establishment requirement of paragraph (b)(3) of this section alone is not sufficient to meet the identification requirement of paragraph (b)(2) of this section.

(iii) *Payment amount not identified.* (A) If the order or agreement identifies a payment as restitution, remediation, or to come into compliance with a law but does not identify some or all of the amount the taxpayer must pay or incur, the identification requirement may be met for any payment amount not identified if the order or agreement describes the damage done, harm suffered, or manner of noncompliance with a law, and describes the action required of the taxpayer, such as paying or incurring costs to provide services or to provide property.

(B) If the order or agreement identifies a lump-sum payment or multiple damages award as restitution, remediation, or to come into compliance with a law but does not allocate some or all of the amount the taxpayer must pay or incur among restitution, remediation, or to come into compliance with a law, or does not allocate the total payment amount among multiple taxpayers, the identification requirement may be met for any payment amount not specifically allocated if the order or agreement describes the damage done, harm suffered, or manner of noncompliance with a law, and describes the action required of the taxpayer, such as paying or incurring costs to provide services or to provide property.

(3) *Establishment requirement*—(i) *Meeting the establishment requirement.* The establishment requirement is met if the taxpayer, using documentary evidence, proves the taxpayer's legal obligation, pursuant to the order or agreement, to pay the amount identified as restitution, remediation, or to come into compliance with a law; the amount paid or incurred; the date the amount was paid or incurred; and that, based on the origin of the liability and the nature and purpose of the amount paid or incurred, the amount the taxpayer paid or incurred was for restitution or remediation, as defined in paragraph (e)(4)(i) of this section or to

come into compliance with any law, as defined in paragraph (e)(4)(ii) of this section. If the amount is paid or incurred to a segregated fund or account, as described in paragraphs (e)(4)(i)(A)(2) and (3), (e)(4)(i)(B), or (e)(4)(i)(C) of this section, the taxpayer may meet the establishment requirement even if each ultimate recipient, or each ultimate use, of the payment is not designated or is unknown. A taxpayer will not meet the establishment requirement if the taxpayer fails to prove that the taxpayer paid or incurred the amount identified as restitution, remediation, or to come into compliance with a law; the amount paid; the date the amount was paid or incurred; or that the amount the taxpayer paid or incurred was for the nature and purpose identified in the order or agreement as required by paragraph (b)(2)(i) of this section, or was made for the damage done, harm suffered, noncompliance, or to provide property or services as described in (b)(2)(iii) of this section. Meeting the identification requirement of paragraph (b)(2) of this section is not sufficient to meet the establishment requirement of paragraph (b)(3) of this section.

(ii) *Substantiating the establishment requirement.* The documentary evidence described in paragraph (b)(3)(i) of this section includes, but is not limited to, receipts; the legal or regulatory provision related to the violation or potential violation of any law; documents issued by the government or governmental entity relating to the investigation or inquiry, including court pleadings filed by the government or governmental entity requesting restitution, remediation, or demanding that defendant take action to come into compliance with the law; judgment; decree; documents describing how the amount to be paid was determined; and correspondence exchanged between the taxpayer and the government or governmental entity before the order or agreement became binding under applicable law, determined without regard to whether all appeals have been exhausted or the time for filing an appeal has expired.

(c) *Other exceptions*—(1) *Suits between private parties.* Paragraph (a) of this section does not apply to any amount

paid or incurred by reason of any order or agreement in a suit in which no government or governmental entity is a party or any order or agreement in a suit pursuant to which a government or governmental entity enforces its rights as a private party.

(2) *Taxes and related interest.* Paragraph (a) of this section does not apply to amounts paid or incurred as otherwise deductible taxes or related interest. However, if penalties are imposed relating to such taxes, paragraph (a) of this section applies to disallow a deduction for such penalties and interest payments related to such penalties.

(3) *Failure to pay title 26 tax.* In the case of any amount paid or incurred as restitution for failure to pay tax imposed under title 26 of the United States Code, paragraph (a) of this section does not disallow a deduction for title 26 taxes, such as excise and employment taxes, which are equal to or less than the deduction otherwise allowed under chapter 1 of the Code if the tax had been timely paid.

(d) *Application of general principles of Federal income tax law—*(1) *Taxable year of deduction.* If, under paragraph (b) or (c) of this section, the taxpayer is allowed a deduction for the amount paid or incurred pursuant to an order or agreement, the deduction is taken into account under the rules of section 461 and the related regulations, or under a provision specifically applicable to the allowed deduction, such as § 1.468B-3(c).

(2) *Tax benefit rule applies.* If the deduction allowed under paragraphs (b) or (c) of this section results in a tax benefit to the taxpayer, the taxpayer must include in income, under sections 61 and 111, the recovery of any amount deducted in a prior taxable year to the extent the prior year's deduction reduced the taxpayer's tax liability.

(i) A tax benefit to the taxpayer includes a reduction in the taxpayer's tax liability for a prior taxable year or the creation of a net operating loss carryback or carryover.

(ii) A taxpayer's recovery of any amount deducted in a prior taxable year includes, but is not limited to—

(A) Receiving a refund, recoupment, rebate, reimbursement, or otherwise recovering some or all of the amount the taxpayer paid or incurred, or

(B) Being relieved of some or all of the payment liability under the order or agreement.

(e) *Definitions.* For section 162(f) and § 1.162-21, the following definitions apply:

(1) *Government.* A government means—

(i) The government of the United States, a State, or the District of Columbia;

(ii) The government of a territory of the United States, including American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, or the U.S. Virgin Islands;

(iii) The government of a foreign country;

(iv) An Indian tribal government, as defined in section 7701(a)(40), or a subdivision of an Indian tribal government, as determined in accordance with section 7871(d); or

(v) A political subdivision (such as a local government unit) of a government described in paragraph (e)(1)(i), (ii), or (iii) of this section.

(2) *Governmental entity.* A governmental entity means—

(i) A corporation or other entity serving as an agency or instrumentality of a government (as defined in paragraph (e)(1) of this section), or

(ii) A nongovernmental entity treated as a governmental entity as described in paragraph (e)(3) of this section.

(3) *Nongovernmental entity treated as a governmental entity.* A nongovernmental entity treated as a governmental entity is an entity that—

(i) Exercises self-regulatory powers (including imposing sanctions) in connection with a qualified board or exchange, as defined in section 1256(g)(7); or

(ii) Exercises self-regulatory powers, including adopting, administering, or enforcing rules and imposing sanctions, as part of performing an essential governmental function.

(4) *Restitution, remediation of property, and amounts paid to come into compliance with a law—*(i) *Amounts for restitution or remediation.* An amount is paid or incurred for restitution or remediation pursuant to paragraph (b)(1) of this section if it is paid or incurred to restore, in whole or in part, the person,

as defined in section 7701(a)(1); government; governmental entity; property; environment; wildlife; or natural resources harmed, injured, or damaged by the violation or potential violation of any law described in paragraph (a)(3) of this section to the same or substantially similar position or condition as existed prior to such harm, injury or damage.

(A) *Environment, wildlife, or natural resources.* Restitution or remediation of the environment, wildlife, or natural resources includes amounts paid or incurred for the purpose of conserving soil, air, or water resources, protecting or restoring the environment or an ecosystem, improving forests, or providing a habitat for fish, wildlife, or plants. The amounts must be paid or incurred—

(1) To, or at the direction of, a government or governmental entity to be used exclusively for the restitution or remediation of a harm to the environment, wildlife, or natural resources;

(2) To a segregated fund or account established by a government or governmental entity and, pursuant to the order or agreement, the amounts are not disbursed to the general account of the government or governmental entity for general enforcement efforts or other discretionary purposes; or

(3) To a segregated fund or account established at the direction of a government or governmental entity.

(4) Paragraph (e)(4)(i)(A) of this section applies only if there is a strong nexus or connection between the purpose of the payment and the harm to the environment, natural resources, or wildlife that the taxpayer has caused or is alleged to have caused.

(B) *Disgorgement or forfeiture.* Provided the identification and establishment requirements of paragraphs (b)(2) and (b)(3) of this section are met, restitution may include amounts paid or incurred as disgorgement or forfeiture, if paid or incurred at the direction of a government or governmental entity directly to the person, as defined in section 7701(a)(1), harmed by the violation or potential violation of any law or to, or at the direction of, the government or governmental entity, to establish a segregated fund or account for the benefit of such harmed person. This para-

graph (e)(4)(i)(B) does not apply if the order or agreement identifies the payment amount as in excess of the taxpayer's net profits or, pursuant to the order or agreement, the amounts are disbursed to the general account of the government or governmental entity for general enforcement efforts or other discretionary purposes.

(C) *Segregated funds or accounts.* Provided the identification and establishment requirements of paragraphs (b)(2) and (b)(3) of this section are met, restitution or remediation may include amounts paid or incurred, pursuant to an order or agreement, to a segregated fund or account to restore, in whole or in part, the person, as defined in section 7701(a)(1); government; governmental entity; property; environment; wildlife; or natural resources harmed, injured, or damaged by the violation or potential violation of any law described in paragraph (a)(3) of this section. This paragraph (e)(4)(i)(C) does not apply if, pursuant to the order or agreement, the amounts are disbursed to the general account of the government or governmental entity for general enforcement efforts or other discretionary purposes.

(ii) *Amounts to come into compliance with a law.* An amount is paid or incurred to come into compliance with a law that the taxpayer has violated, or is alleged to have violated, by performing services; taking action, such as modifying equipment; providing property; or doing any combination thereof to come into compliance with that law.

(iii) *Amounts not included.* Regardless of whether the order or agreement identifies them as such, restitution, remediation, and amounts paid to come into compliance with a law do not include any amount paid or incurred—

(A) As reimbursement to a government or governmental entity for investigation costs or litigation costs incurred in such government or governmental entity's investigation into, or litigation concerning, the violation or potential violation of any law; or

(B) At the taxpayer's election, in lieu of a fine or penalty.

(5) *Suit, agreement, or otherwise.* A suit, agreement, or otherwise includes, but is not limited to, suits; settlement

agreements; orders; non-prosecution agreements; deferred prosecution agreements; judicial proceedings; administrative adjudications; decisions issued by officials, committees, commissions, or boards of a government or governmental entity; and any legal actions or hearings which impose a liability on the taxpayer or pursuant to which the taxpayer assumes liability.

(f) *Examples.* The application of this section is illustrated by the following examples.

(1) *Example 1.* (i) *Facts.* Corp. A enters into an agreement with State Y's environmental enforcement agency (Agency) for violating state environmental laws. Pursuant to the agreement, Corp. A pays \$40X to the Agency in civil penalties, \$80X in restitution for the environmental harm that the taxpayer has caused, \$50X for remediation of contaminated sites, and \$60X to conduct comprehensive upgrades to Corp. A's operations to come into compliance with the state environmental laws.

(ii) *Analysis.* The identification requirement is satisfied for those amounts the agreement identifies as restitution, remediation, or to come into compliance with a law. If Corp. A meets the establishment requirement, as provided in paragraph (b)(3), paragraph (a) of this section will not disallow Corp. A's deduction for \$80X in restitution and \$50X for remediation. Under paragraph (a) of this section, Corp. A may not deduct the \$40X in civil penalties. Paragraph (a) of this section will not disallow Corp. A's deduction for the \$60X paid to come into compliance with the state environmental laws. See section 161, concerning items allowed as deductions, and section 261, concerning items for which no deduction is allowed, and the regulations related to sections 161 and 261.

(2) *Example 2.* (i) *Facts.* Corp. A enters into an agreement with State T's securities agency (Agency) for violating a securities law by inducing B to make a \$100X investment in Corp. C stock, which B lost when the Corp. C stock became worthless. As part of the agreement, Corp. A agrees to pay \$100X to B as restitution for B's investment loss, incurred as a result of Corp. A's actions. The agreement specifically

states that the \$100X payment by Corp. A to B is restitution. The agreement also requires Corp. A to pay a \$40X penalty for violating Agency law. Corp. A pays the \$140X.

(ii) *Analysis.* Corp. A's \$100X payment to B is identified in the agreement as restitution. If Corp. A establishes, as provided in paragraph (b)(3) of this section, that the amount paid was for that purpose, paragraph (a) of this section will not disallow Corp. A's deduction for the \$100X payment. Under paragraph (a) of this section, Corp. A may not deduct its \$40X payment to the Agency because it was paid for Corp. A's violation of Agency law.

(3) *Example 3.* (i) *Facts.* Corp. B is under investigation by State X's environmental enforcement agency for a potential violation of State X's law governing emissions standards. Corp. B enters into an agreement with State X under which it agrees to upgrade the engines in a fleet of vehicles that Corp. B operates to come into compliance with State X's law. Although the agreement does not provide the specific amount Corp. B will incur to upgrade the engines to come into compliance with State X's law, it identifies that Corp. B must upgrade existing engines to lower certain emissions. Under the agreement, Corp. B also agrees to construct a nature center in a local park for the benefit of the community. Instead of paying \$12X, to come into compliance with State X's law, Corp. B pays \$15X to upgrade the engines to a standard higher than that which the law requires. Corp. B presents evidence to establish that it would cost \$12X to upgrade the engines to come into compliance with State X's law.

(ii) *Analysis.* Because the agreement describes the specific action Corp. B must take to come into compliance with State X's law, and Corp. B provides evidence, as described in paragraph (b)(3)(ii) of this section, to establish that the agreement obligates it to incur costs to come into compliance with a law, paragraph (a) of this section will not disallow Corp. B's deduction for the \$12X Corp. B incurs to come into compliance. Corp. B may also deduct the \$3X if it is otherwise deductible under chapter 1 of the Code. However, Corp. B may not deduct the

amounts paid to construct the nature center because no facts exist to establish that the amount was paid either to come into compliance with a law or as restitution or remediation.

(4) *Example 4.* (i) *Facts.* Corp. D enters into an agreement with governmental entity, Trade Agency, for engaging in unfair trade practices in violation of Trade Agency laws. The agreement requires Corp. D to pay \$80X to a Trade Agency fund, through disgorgement of net profits, to be used exclusively to pay restitution to the consumers harmed by Corp. D's violation of Trade Agency law. Corp. D pays \$80X to Trade Agency fund and Trade Agency disburses all amounts in the restitution fund to the harmed consumers.

(ii) *Analysis.* The agreement identifies the \$80X payment to the fund as restitution. Trade Agency uses the funds exclusively to provide restitution to the harmed consumers and does not use it for discretionary or general enforcement purposes. If Corp. D establishes, as provided in paragraph (b)(3) of this section, that the \$80X constitutes restitution under paragraph (e)(4)(i)(B) of this section, paragraph (a) of this section does not apply.

(5) *Example 5.* (i) *Facts.* B, a regulated banking institution, is subject to the supervision of, and annual examinations by governmental entity, R. In the ordinary course of its business, B is required to pay annual assessment fees to R, which fees are used to support R in supervising and examining banking institutions to ensure a safe and sound banking system. Following an annual examination conducted in the ordinary course of B's business, R issues a letter to B identifying concerns with B's internal compliance functions. B takes corrective action to address R's concerns by investing in its internal compliance functions. R does not conduct an investigation or inquiry into B's potential violation of any law.

(ii) *Analysis.* The payment of annual assessment fees by B to R in the ordinary course of business is not related to the violation of any law or the investigation or inquiry into the potential violation of any law. In addition, B's costs of taking the corrective action are not related to the violation of any law or the investigation or inquiry

into the potential violation of any law as described in section 162(f)(1). Paragraph (a) of this section will not disallow the deduction of the annual assessment fees and the cost of the corrective actions.

(6) *Example 6.* (i) *Facts.* B, a regulated banking institution, is subject to the supervision of, and annual examinations by governmental entity, R. Following an annual examination conducted in the ordinary course of B's business, R pursues an enforcement action against B for violation of banking laws. B and R enter a settlement agreement, pursuant to which B agrees to undertake certain improvements to come into compliance with banking laws and to pay R \$20X for violation of banking laws. B pays the \$20X.

(ii) *Analysis.* If the agreement meets the identification requirement of paragraph (b)(2) of this section and B meets the establishment requirement of paragraph (b)(3) of this section, paragraph (a) of this section will not disallow the deduction of the costs of the corrective actions to come into compliance with banking laws. However, B may not deduct the \$20X paid to R because the amount was not paid to come into compliance with a law or as restitution or remediation.

(7) *Example 7.* (i) *Facts.* Corp. C contracts with governmental entity, Q, to design and build a rail project within five years. Corp. C does not complete the project. Q sues Corp. C for breach of contract and damages of \$10X. A jury finds Corp. C breached the contract and Corp. C pays \$10X to Q.

(ii) *Analysis.* The suit arose out of a proprietary contract, wherein Q enforced its rights as a private party. Paragraph (a) of this section will not disallow Corp. C's deduction of the payment of \$10X pursuant to this suit.

(8) *Example 8.* (i) *Facts.* Corp. C contracts with governmental entity, Q, to design and build a rail project within five years. Site conditions cause construction delays and Corp. C asks Q to pay \$50X in excess of the contracted amount to complete the project. After Q pays for the work, it learns that, at the time it entered the contract with Corp. C, Corp. C knew that certain conditions at the project site would make it challenging to complete the project

within five years. Q sues Corp. C for withholding critical information during contract negotiations in violation of the False Claims Act (FCA). The court enters a judgment in favor of Q pursuant to which Corp. C will pay Q \$50X in restitution and \$150X in treble damages. Corp. C pays the \$200X.

(ii) *Analysis.* The suit pertains to Corp. C's violation of the FCA. The order identifies the \$50X Corp. C is required to pay as restitution, as described in paragraph (b)(2) of this section. If Corp. C establishes, as provided in paragraph (b)(3) of this section, that the amount paid was for restitution, paragraph (a) of this section will not disallow Corp. C's deduction for the \$50X payment. Under paragraph (a) of this section, Corp. C may not deduct the \$150X paid for the treble damages imposed for violation of the FCA because the order did not identify all or part of the payment as restitution.

(9) *Example 9.* (i) *Facts.* Corp. T operates a truck fleet company incorporated in State A. State A requires that all vehicles registered in State A have a vehicle emissions test every two years. Corp. T's 40 trucks take the emissions test on March 1 for which it pays the \$15 per vehicle. Under State A law, if a vehicle fails the emissions test, the vehicle owner has 30 days to certify to State A that the vehicle has been repaired and has passed the emissions test. State A imposes a \$1X penalty per vehicle for failure to comply with this 30-day rule. Twenty trucks pass; twenty trucks fail. Corp. T does not submit the required certification to State A for the twenty trucks that failed the emissions test. State A imposes a \$40X penalty against Corp. T. Corp. T pays the \$40X.

(ii) *Analysis.* Emissions tests are conducted in the ordinary course of operating a truck fleet company and, therefore, paragraph (a) of this section does not apply to the \$600 Corp. T pays for the emissions tests. However, Corp. T may not deduct the \$40X penalty for failure to comply with State A requirements because the amount is required to be paid to a government in relation to the violation of a law.

(10) *Example 10.* (i) *Facts.* Corp. G operates a chain of 20 grocery stores in County X. Under County X health and

food safety code and regulations, Corp. G is subject to annual inspections for which Corp. G is required to pay an inspection fee of \$40 per store. Pursuant to the annual inspection, the County X health inspector finds violations of County X's health and food safety code and regulations in three of Corp. G's 20 stores. County X bills Corp. G \$800 for the annual inspection fees for the 20 stores and a \$1,000 fine for each of the three stores, for a total fine of \$3,000, for violations of the health and food safety code. Corp. G pays the fees and fines.

(ii) *Analysis.* Paragraph (a) of this section will not disallow Corp. G's deduction for the \$800 inspection fees paid in the ordinary course of a regulated business. Under paragraph (a) of this section, Corp. G may not deduct the \$3,000 fine for violation of the County X health code and food safety ordinances because it was paid to a government in relation to the violation of a law.

(11) *Example 11.* (i) *Facts.* Corp. G operates a chain of grocery stores in County X. Under County X health and food safety code and regulations, Corp. G is subject to annual inspections. Pursuant to an annual inspection, the County X health inspector finds that the refrigeration system in one of Corp. G's stores does not keep food at the temperature required by the health and food safety code and regulations. The County X health inspector issues a warning letter instructing Corp. G to correct the violation and bring the refrigeration system into compliance with the law before a reinspection in 60 days or face the imposition of fines if it fails to comply. Corp. G pays \$10,000 to bring its refrigeration system into compliance with the law.

(ii) *Analysis.* Provided the identification and establishment requirements of paragraphs (b)(2) and (b)(3), respectively, of this section are met, paragraph (a) of this section will not disallow Corp. G's deduction for the \$10,000 it pays to bring its refrigeration system into compliance with the law.

(12) *Example 12.* (i) *Facts.* Corp. G operates a chain of grocery stores in County X. Under County X health and food safety code and regulations, Corp. G is subject to annual inspections. Pursuant to an annual inspection, the

County X health inspector finds that the refrigeration system in one of Corp. G's stores does not keep food at the temperature required by the health and food safety code and regulations. The County X health inspector issues a warning letter instructing Corp. G to correct the violation and bring the refrigeration system into compliance with the law before a reinspection in 60 days or face the imposition of fines if it fails to comply. The County X health inspector later reinspects the refrigeration system. Corp. G pays a reinspection fee of \$80. During the reinspection, the health inspector finds that Corp. G did not bring its refrigeration system into compliance with the law. The health inspector issues a citation imposing a \$250 fine on Corp. G. Corp. G pays the \$250 fine.

(ii) *Analysis.* Paragraph (a) of this section will disallow Corp. G's deduction for the \$80 inspection fee because it is paid in relation to the investigation or inquiry by County X into the potential violation of a law. Paragraph (a) of this section will also disallow Corp. G's deduction for the \$250 fine paid for violation of the law.

(13) *Example 13.* (i) *Facts.* Accounting Firm was convicted of embezzling \$500X from Bank in violation of State X law. The court issued an order requiring Accounting Firm to pay \$100X in restitution to Bank. The court also issued an order of forfeiture and restitution for \$400X, which was seized by the State X officials. Accounting Firm paid \$100X to Bank. The \$400X seized was deposited with Fund within the State X treasury and, at the discretion of the State X Attorney General, was used to support law enforcement programs.

(ii) *Analysis.* Although the order identified the amount forfeited as restitution, paragraph (a) of this section will disallow Accounting Firm's deduction for the \$400X forfeited because, under paragraph (e)(4)(i)(B)(I) of this section, it does not constitute restitution. If Accounting Firm establishes, as provided in paragraph (b)(3) of this section, that the \$100X constitutes restitution under paragraph (e)(4)(i), paragraph (a) of this section will not disallow Accounting Firm's deduction for

the \$100X paid, provided the \$100X is otherwise deductible under chapter 1.

(g) *Applicability date.* The rules of this section apply to taxable years beginning on or after January 19, 2021, except that such rules do not apply to amounts paid or incurred under any order or agreement pursuant to a suit, agreement, or otherwise, which became binding under applicable law before such date, determined without regard to whether all appeals have been exhausted or the time for filing appeals has expired.

[T.D. 9946, 86 FR 4984, Jan. 19, 2021]

§ 1.162-22 Treble damage payments under the antitrust laws.

(a) *In general.* In the case of a taxpayer who after December 31, 1969, either is convicted in a criminal action of a violation of the Federal antitrust laws or enters a plea of guilty or *nolo contendere* to an indictment or information charging such a violation, and whose conviction or plea does not occur in a new trial following an appeal of a conviction on or before such date, no deduction shall be allowed under section 162(a) for two-thirds of any amount paid or incurred after December 31, 1969, with respect to—

(1) Any judgment for damages entered against the taxpayer under section 4 of the Clayton Act (15 U.S.C. 15), as amended, on account of such violation or any related violation of the Federal antitrust laws, provided such related violation occurred prior to the date of the final judgment of such conviction, or

(2) Settlement of any action brought under such section 4 on account of such violation or related violation.

For the purposes of this section, where a civil judgment has been entered or a settlement made with respect to a violation of the antitrust laws and a criminal proceeding is based upon the same violation, the criminal proceeding need not have been brought prior to the civil judgment or settlement. If, in his return for any taxable year, a taxpayer claims a deduction for an amount paid or incurred with respect to a judgment or settlement described in the first sentence of this paragraph and is subsequently convicted of a violation of the antitrust

laws which makes a portion of such amount unallowable, then the taxpayer shall file an amended return for such taxable year on which the amount of the deduction is appropriately reduced. Attorney's fees, court costs, and other amounts paid or incurred in connection with a controversy under such section 4 which meet the requirements of section 162 are deductible under that section. For purposes of subparagraph (2) of this paragraph, the amount paid or incurred in settlement shall not include amounts attributable to the plaintiff's costs of suit and attorney's fees, to the extent that such costs or fees have actually been paid.

(b) *Conviction.* For purposes of paragraph (a) of this section, a taxpayer is convicted of a violation of the anti-trust laws if a judgment of conviction (whether or not a final judgment) with respect to such violation has been entered against him, provided a subsequent final judgment of acquittal has not been entered or criminal prosecution with respect to such violation terminated without a final judgment of conviction. During the pendency of an appeal or other action directly contesting a judgment of conviction, the taxpayer should file a protective claim for credit or refund to avoid being barred by the period of limitations on credit or refund under section 6511.

(c) *Related violation.* For purposes of this section, a violation of the Federal antitrust laws is related to a subsequent violation if (1) with respect to the subsequent violation the United States obtains both a judgment in a criminal proceeding and an injunction against the taxpayer, and (2) the taxpayer's actions which constituted the prior violation would have contravened such injunction if such injunction were applicable at the time of the prior violation.

(d) *Settlement following a dismissal of an action or amendment of the complaint.* For purposes of paragraph (a)(2) of this section, an amount may be considered as paid in settlement of an action even though the action is dismissed or otherwise disposed of prior to such settlement or the complaint is amended to eliminate the claim with respect to the violation or related violation.

(e) *Antitrust laws.* The term "anti-trust laws" as used in section 162(g) and this section shall include the Federal acts enumerated in paragraph (1) of section 1 of the Clayton Act (15 U.S.C. 12), as amended.

(f) *Examples.* The application of this section may be illustrated by the following examples:

Example 1. In 1970, the United States instituted a criminal prosecution against X Co., Y Co., A, the president of X Co., and B, the president of Y Co., under section 1 of the Sherman Anti-Trust Act, 15 U.S.C. 1. In the indictment, the defendants were charged with conspiring to fix and maintain prices of electrical transformers from 1965 to 1970. All defendants entered pleas of nolo contendere to these charges. These pleas were accepted and judgments of conviction entered. In a companion civil suit, the United States obtained an injunction prohibiting the defendants from conspiring to fix and maintain prices in the electrical transformer market. Thereafter, Z Co. sued X Co. and Y Co. for \$300,000 in treble damages under section 4 of the Clayton Act. Z Co.'s complaint alleged that the criminal conspiracy between X Co. and Y Co. forced Z Co. to pay excessive prices for electrical transformers. X Co. and Y Co. each paid Z Co. \$85,000 in full settlement of Z Co.'s action. Of each \$85,000 paid, \$10,000 was attributable to court costs and attorney's fees actually paid by Z Co. Under section 162(g), X Co. and Y Co. are each precluded from deducting as a trade or business expense more than \$35,000 of the \$85,000 paid to Z Co. in settlement—

$\$10,000 + [(\$85,000 - \$10,000) \div 3]$

Example 2. Assume the same facts as in example (1) except that Z Co.'s claim for treble damages was based on a conspiracy to fix and maintain prices in the sale of electrical transformers during 1963. Although the criminal prosecution of the defendants did not involve 1963 (a year barred by the applicable criminal statute of limitations when the prosecution was instituted), Z Co.'s pleadings alleged that the civil statute of limitations had been tolled by the defendants' fraudulent concealment of their conspiracy. Since the United States has obtained both a judgment in a criminal proceeding and an injunction against the defendants in connection with their activities from 1965 to 1970, and the alleged actions of the defendants in 1963 would have contravened such injunction if it were applicable in 1963, the alleged violation in 1963 is related to the violation from 1965 to 1970. Accordingly, the tax consequences to X Co. and Y Co. of the payments of \$85,000 in settlement of Z Co.'s claim against X Co. and Y Co. are the same as in example (1).

Example 3. Assume the same facts as in example (1) except that Z Co.'s claim for treble damages was based on a conspiracy to fix and maintain prices with respect to electrical insulators for high-tension power poles. Since the civil action was not based on the same violation of the Federal antitrust laws as the criminal action, or on a related violation (a violation which would have contravened the injunction if it were applicable), X Co. and Y Co. are not precluded by section 162(g) from deducting as a trade or business expense the entire \$85,000 paid by each in settlement of the civil action.

[T.D. 7217, 37 FR 23916, Nov. 10, 1972]

§ 1.162-24 Travel expenses of state legislators.

(a) *In general.* For purposes of section 162(a), in the case of any taxpayer who is a state legislator at any time during the taxable year and who makes an election under section 162(h) for the taxable year—

(1) The taxpayer's place of residence within the legislative district represented by the taxpayer is the taxpayer's home for that taxable year;

(2) The taxpayer is deemed to have expended for living expenses (in connection with the taxpayer's trade or business as a legislator) an amount determined by multiplying the number of legislative days of the taxpayer during the taxable year by the greater of—

(i) The amount generally allowable with respect to those days to employees of the state of which the taxpayer is a legislator for per diem while away from home, to the extent the amount does not exceed 110 percent of the amount described in paragraph (a)(2)(ii) of this section; or

(ii) The Federal per diem with respect to those days for the taxpayer's state capital; and

(3) The taxpayer is deemed to be away from home in the pursuit of a trade or business on each legislative day.

(b) *Legislative day.* For purposes of section 162(h)(1) and this section, for any taxpayer who makes an election under section 162(h), a legislative day is any day on which the taxpayer is a state legislator and—

(1) The legislature is in session;

(2) The legislature is not in session for a period that is not longer than 4 consecutive days, without extension for Saturdays, Sundays, or holidays;

(3) The taxpayer's attendance at a meeting of a committee of the legislature is formally recorded; or

(4) The taxpayer's attendance at any session of the legislature that only a limited number of members are expected to attend (such as a *pro forma* session), on any day not described in paragraph (b)(1) or (b)(2) of this section, is formally recorded.

(c) *Fifty mile rule.* Section 162(h) and this section do not apply to any taxpayer who is a state legislator and whose place of residence within the legislative district represented by the taxpayer is 50 or fewer miles from the capitol building of the state. For purposes of this paragraph (c), the distance between the taxpayer's place of residence within the legislative district represented by the taxpayer and the capitol building of the state is the shortest of the more commonly traveled routes between the two points.

(d) *Definitions and special rules.* The following definitions apply for purposes of section 162(h) and this section.

(1) *State legislator.* A taxpayer becomes a state legislator on the day the taxpayer is sworn into office and ceases to be a state legislator on the day following the day on which the taxpayer's term in office ends.

(2) *Living expenses.* Living expenses include lodging, meals, and incidental expenses. *Incidental expenses* has the same meaning as in 41 CFR 300-3.1.

(3) *In session—*(i) *In general.* For purposes of this section, the legislature of which a taxpayer is a member is in session on any day if, at any time during that day, the members of the legislature are expected to attend and participate as an assembled body of the legislature.

(ii) *Examples.* The following examples illustrate the rules of this paragraph (d)(3):

Example 1. B is a member of the legislature of State X. On Day 1, the State X legislature is convened and the members of the legislature are expected to attend and participate. On Day 1, the State X legislature is in session within the meaning of paragraph (d)(3)(i) of this section. B does not attend the session of the State X legislature on Day 1. However, Day 1 is a legislative day for B for purposes of section 162(h)(2)(A) and paragraph (b)(1) of this section.

Example 2. C, D, and E are members of the legislature of State X. On Day 2, the State X legislature is convened for a limited session in which not all members of the legislature are expected to attend and participate. Thus, on Day 2 the legislature is not in session within the meaning of paragraph (d)(3)(i) of this section, and Day 2 is not a legislative day under paragraph (b)(1) of this section. In addition, Day 2 is not a day described in paragraph (b)(2) of this section. C and D are the only members who are called to, and do, attend the limited session on Day 2, and their attendance at the session is formally recorded. E is not called and does not attend. Therefore, Day 2 is a legislative day as to C and D under section 162(h)(2)(B) and paragraph (b)(4) of this section. Day 2 is not a legislative day as to E.

(4) *Committee of the legislature.* A committee of the legislature is any group that includes one or more legislators and that is charged with conducting business of the legislature. Committees of the legislature include, but are not limited to, committees to which the legislature refers bills for consideration, committees that the legislature has authorized to conduct inquiries into matters of public concern, and committees charged with the internal administration of the legislature. For purposes of this section, groups that are not considered committees of the legislature include, but are not limited to, groups that promote particular issues, raise campaign funds, or are caucuses of members of a political party.

(5) *Federal per diem.* The Federal per diem for any city and day is the maximum amount allowable to employees of the executive branch of the Federal government for living expenses while away from home in pursuit of a trade or business in that city on that day. See 5 U.S.C. 5702 and the regulations under that section.

(e) *Election—(1) Time for making election.* A taxpayer's election under section 162(h) must be made for each taxable year for which the election is to be in effect and must be made no later than the due date (including extensions) of the taxpayer's Federal income tax return for the taxable year.

(2) *Manner of making election.* A taxpayer makes an election under section 162(h) by attaching a statement to the taxpayer's income tax return for the

taxable year for which the election is made. The statement must include—

(i) The taxpayer's name, address, and taxpayer identification number;

(ii) A statement that the taxpayer is making an election under section 162(h); and

(iii) Information establishing that the taxpayer is a state legislator entitled to make the election, for example, a statement identifying the taxpayer's state and legislative district and representing that the taxpayer's place of residence in the legislative district is not 50 or fewer miles from the state capitol building.

(3) *Revocation of election.* An election under section 162(h) may be revoked only with the consent of the Commissioner. An application for consent to revoke an election must be signed by the taxpayer and filed with the submission processing center with which the election was filed, and must include—

(i) The taxpayer's name, address, and taxpayer identification number;

(ii) A statement that the taxpayer is revoking an election under section 162(h) for a specified year; and

(iii) A statement explaining why the taxpayer seeks to revoke the election.

(f) *Effect of election on otherwise deductible expenses for travel away from home—(1) Legislative days—(i) Living expenses.* For any legislative day for which an election under section 162(h) and this section is in effect, the amount of an electing taxpayer's living expenses while away from home is the greater of the amount of the living expenses—

(A) Specified in paragraph (a)(2) of this section in connection with the trade or business of being a legislator; or

(B) Otherwise allowable under section 162(a)(2) in the pursuit of any trade or business of the taxpayer.

(ii) *Other expenses.* For any legislative day for which an election under section 162(h) and this section is in effect, the amount of an electing taxpayer's expenses (other than living expenses) for travel away from home is the sum of the substantiated expenses, such as expenses for travel fares, telephone calls, and local transportation, that are otherwise deductible under

section 162(a)(2) in the pursuit of any trade or business of the taxpayer.

(2) *Non-legislative days.* For any day that is not a legislative day, the amount of an electing taxpayer's expenses (including amounts for living expenses) for travel away from home is the sum of the substantiated expenses that are otherwise deductible under section 162(a)(2) in the pursuit of any trade or business of the taxpayer.

(g) *Cross references.* See §1.62-1T(e)(4) for rules regarding allocation of unreimbursed expenses of state legislators and section 274(n) for limitations on the amount allowable as a deduction for expenses for or allocable to meals.

(h) *Effective/applicability date.* This section applies to expenses paid or incurred, or deemed expended under section 162(h), in taxable years beginning after April 8, 2010.

[T.D. 9481, 75 FR 17856, Apr. 8, 2010]

§ 1.162-25 Deductions with respect to noncash fringe benefits.

(a) [Reserved]

(b) *Employee.* If an employer provides the use of a vehicle (as defined in §1.61-21(e)(2)) to an employee as a noncash fringe benefit and includes the entire value of the benefit in the employee's gross income without taking into account any exclusion for a working condition fringe allowable under section 132 and the regulations thereunder, the employee may deduct that value multiplied by the percentage of the total use of the vehicle that is in connection with the employer's trade or business (business value). For taxable years beginning before January 1, 1990, the employee may deduct the business value from gross income in determining adjusted gross income. For taxable years beginning on or after January 1, 1990, the employee may deduct the business value only as a miscellaneous itemized deduction in determining taxable income, subject to the 2-percent floor provided in section 67. If the employer determines the value of the noncash fringe benefit under a special accounting rule that allows the employer to treat the value of benefits provided during the last two months of the calendar year or any shorter period as paid during the subsequent calendar year, then the employee must deter-

mine the deduction allowable under this paragraph (b) without regard to any use of the benefit during those last two months or any shorter period. The employee may not use a cents-per-mile valuation method to determine the deduction allowable under this paragraph (b).

[T.D. 8451, 57 FR 57669, Dec. 7, 1992; 57 FR 60568, Dec. 21, 1992]

§ 1.162-25T Deductions with respect to noncash fringe benefits (temporary).

(a) *Employer.* If an employer includes the value of a noncash fringe benefit in an employee's gross income, the employer may not deduct this amount as compensation for services, but rather may deduct only the costs incurred by the employer in providing the benefit to the employee. The employer may be allowed a cost recovery deduction under section 168 or a deduction under section 179 for an expense not chargeable to capital account, or, if the noncash fringe benefit is property leased by the employer, a deduction for the ordinary and necessary business expense of leasing the property.

(b) [Reserved]

(c) *Examples.* The following examples illustrate the provisions of this section.

(1) On January 1, 1986, X Company owns and provides the use of an automobile with a fair market value of \$20,000 to E, an employee, for the entire calendar year. Both X and E compute taxable income on the basis of the calendar year. Seventy percent of the use of the automobile by E is in connection with X's trade or business. If X uses the special rule provided in §1.61-21(d) for valuing the availability of the automobile and takes into account the amount excludable as a working condition fringe, X would include \$1,680 (\$5,600, the Annual Lease Value, less 70 percent of \$5,600) in E's gross income for 1986. X may not deduct the amount included in E's income as compensation for services. X may, however, determine a cost recovery deduction under section 168, subject to the limitations under section 280F, for taxable year 1986.

(2) The facts are the same as in *Example (1)* of paragraph (c)(1) of this section, except that X includes \$5,600 in E's gross income, the value of the noncash fringe benefit without taking into account the amount excludable as a working condition fringe. X may not deduct that amount as compensation for services, but may determine a cost recovery deduction under section 168, subject to the limitations under section 280F. For purposes of determining adjusted gross income, E may deduct \$3,920 (\$5,600 multiplied by the percent of business use).

[T.D. 8061, 50 FR 46013, Nov. 6, 1985, as amended by T.D. 8063, 50 FR 52312, Dec. 23, 1985; T.D. 8276, 54 FR 51026, Dec. 12, 1989; T.D. 8451, 57 FR 57669, Dec. 7, 1992; T.D. 9849, 84 FR 9233, Mar. 14, 2019]

§ 1.162-27 Certain employee remuneration in excess of \$1,000,000 not deductible for taxable years beginning on or after January 1, 1994, and for taxable years beginning prior to January 1, 2018.

(a) *Scope.* This section provides rules for the application of the \$1 million deduction limitation under section 162(m)(1) for taxable years beginning on or after January 1, 1994, and beginning prior to January 1, 2018, and, as provided in paragraph (j) of this section, for taxable years beginning after December 31, 2017. For rules concerning the applicability of section 162(m)(1) to taxable years beginning after December 31, 2017, see § 1.162-33. Paragraph (b) of this section provides the general rule limiting deductions under section 162(m)(1). Paragraph (c) of this section provides definitions of generally applicable terms. Paragraph (d) of this section provides an exception from the deduction limitation for compensation payable on a commission basis. Paragraph (e) of this section provides an exception for qualified performance-based compensation. Paragraphs (f) and (g) of this section provide special rules for corporations that become publicly held corporations and payments that are subject to section 280G, respectively. Paragraph (h) of this section provides transition rules, including the rules for contracts that are grandfathered and not subject to section 162(m)(1). Paragraph (j) of this section contains the effective date provisions, which also

specify when these rules apply to the deduction for compensation otherwise deductible in a taxable year beginning after December 31, 2017. For rules concerning the deductibility of compensation for services that are not covered by section 162(m)(1) and this section, see section 162(a)(1) and § 1.162-7. This section is not determinative as to whether compensation meets the requirements of section 162(a)(1). For rules concerning the deduction limitation under section 162(m)(6) applicable to certain health insurance providers, see § 1.162-31.

(b) *Limitation on deduction.* Section 162(m) precludes a deduction under chapter 1 of the Internal Revenue Code by any publicly held corporation for compensation paid to any covered employee to the extent that the compensation for the taxable year exceeds \$1,000,000.

(c) *Definitions—(1) Publicly held corporation—(i) General rule.* A *publicly held corporation* means any corporation issuing any class of common equity securities required to be registered under section 12 of the Exchange Act. A corporation is not considered publicly held if the registration of its equity securities is voluntary. For purposes of this section, whether a corporation is publicly held is determined based solely on whether, as of the last day of its taxable year, the corporation is subject to the reporting obligations of section 12 of the Exchange Act.

(ii) *Affiliated groups.* A publicly held corporation includes an affiliated group of corporations, as defined in section 1504 (determined without regard to section 1504(b)). For purposes of this section, however, an affiliated group of corporations does not include any subsidiary that is itself a publicly held corporation. Such a publicly held subsidiary, and its subsidiaries (if any), are separately subject to this section. If a covered employee is paid compensation in a taxable year by more than one member of an affiliated group, compensation paid by each member of the affiliated group is aggregated with compensation paid to the covered employee by all other members of the group. Any amount disallowed as a deduction by this section

must be prorated among the payor corporations in proportion to the amount of compensation paid to the covered employee by each such corporation in the taxable year.

(2) *Covered employee*—(i) *General rule.* A *covered employee* means any individual who, on the last day of the taxable year, is—

(A) The chief executive officer of the corporation or is acting in such capacity; or

(B) Among the four highest compensated officers (other than the chief executive officer).

(ii) *Application of rules of the Securities and Exchange Commission.* Whether an individual is the chief executive officer described in paragraph (c)(2)(i)(A) of this section or an officer described in paragraph (c)(2)(i)(B) of this section is determined pursuant to the executive compensation disclosure rules under the Exchange Act.

(3) *Compensation*—(i) *In general.* For purposes of the deduction limitation described in paragraph (b) of this section, *compensation* means the aggregate amount allowable as a deduction under chapter 1 of the Internal Revenue Code for the taxable year (determined without regard to section 162(m)) for remuneration for services performed by a covered employee, whether or not the services were performed during the taxable year.

(ii) *Exceptions.* *Compensation* does not include—

(A) Remuneration covered in section 3121(a)(5)(A) through section 3121(a)(5)(D) (concerning remuneration that is not treated as *wages* for purposes of the Federal Insurance Contributions Act); and

(B) Remuneration consisting of any benefit provided to or on behalf of an employee if, at the time the benefit is provided, it is reasonable to believe that the employee will be able to exclude it from gross income. In addition, compensation does not include salary reduction contributions described in section 3121(v)(1).

(4) *Compensation Committee.* The *compensation committee* means the committee of directors (including any subcommittee of directors) of the publicly held corporation that has the authority to establish and administer per-

formance goals described in paragraph (e)(2) of this section, and to certify that performance goals are attained, as described in paragraph (e)(5) of this section. A committee of directors is not treated as failing to have the authority to establish performance goals merely because the goals are ratified by the board of directors of the publicly held corporation or, if applicable, any other committee of the board of directors. See paragraph (e)(3) of this section for rules concerning the composition of the compensation committee.

(5) *Exchange Act.* The *Exchange Act* means the Securities Exchange Act of 1934.

(6) *Examples.* This paragraph (c) may be illustrated by the following examples:

Example 1. Corporation X is a publicly held corporation with a July 1 to June 30 fiscal year. For Corporation X's taxable year ending on June 30, 1995, Corporation X pays compensation of \$2,000,000 to A, an employee. However, A's compensation is not required to be reported to shareholders under the executive compensation disclosure rules of the Exchange Act because A is neither the chief executive officer nor one of the four highest compensated officers employed on the last day of the taxable year. A's compensation is not subject to the deduction limitation of paragraph (b) of this section.

Example 2. C, a covered employee, performs services and receives compensation from Corporations X, Y, and Z, members of an affiliated group of corporations. Corporation X, the parent corporation, is a publicly held corporation. The total compensation paid to C from all affiliated group members is \$3,000,000 for the taxable year, of which Corporation X pays \$1,500,000; Corporation Y pays \$900,000; and Corporation Z pays \$600,000. Because the compensation paid by all affiliated group members is aggregated for purposes of section 162(m), \$2,000,000 of the aggregate compensation paid is nondeductible. Corporations X, Y, and Z each are treated as paying a ratable portion of the nondeductible compensation. Thus, two thirds of each corporation's payment will be nondeductible. Corporation X has a nondeductible compensation expense of \$1,000,000 ($\$1,500,000 \times \$2,000,000/\$3,000,000$). Corporation Y has a nondeductible compensation expense of \$600,000 ($\$900,000 \times \$2,000,000/\$3,000,000$). Corporation Z has a nondeductible compensation expense of \$400,000 ($\$600,000 \times \$2,000,000/\$3,000,000$).

Example 3. Corporation W, a calendar year taxpayer, has total assets equal to or exceeding \$5 million and a class of equity security

held of record by 500 or more persons on December 31, 1994. However, under the Exchange Act, Corporation W is not required to file a registration statement with respect to that security until April 30, 1995. Thus, Corporation W is not a publicly held corporation on December 31, 1994, but is a publicly held corporation on December 31, 1995.

Example 4. The facts are the same as in *Example 3*, except that on December 15, 1996, Corporation W files with the Securities and Exchange Commission to disclose that Corporation W is no longer required to be registered under section 12 of the Exchange Act and to terminate its registration of securities under that provision. Because Corporation W is no longer subject to Exchange Act reporting obligations as of December 31, 1996, Corporation W is not a publicly held corporation for taxable year 1996, even though the registration of Corporation W's securities does not terminate until 90 days after Corporation W files with the Securities and Exchange Commission.

(d) *Exception for compensation paid on a commission basis.* The deduction limit in paragraph (b) of this section shall not apply to any compensation paid on a commission basis. For this purpose, compensation is paid on a commission basis if the facts and circumstances show that it is paid solely on account of income generated directly by the individual performance of the individual to whom the compensation is paid. Compensation does not fail to be attributable directly to the individual merely because support services, such as secretarial or research services, are utilized in generating the income. However, if compensation is paid on account of broader performance standards, such as income produced by a business unit of the corporation, the compensation does not qualify for the exception provided under this paragraph (d).

(e) *Exception for qualified performance-based compensation—*

(1) *In general.* The deduction limit in paragraph (b) of this section does not apply to qualified performance-based compensation. Qualified performance-based compensation is compensation that meets all of the requirements of paragraphs (e)(2) through (e)(5) of this section.

(2) *Performance goal requirement—(i) Preestablished goal.* Qualified performance-based compensation must be paid solely on account of the attainment of

one or more preestablished, objective performance goals. A performance goal is considered preestablished if it is established in writing by the compensation committee not later than 90 days after the commencement of the period of service to which the performance goal relates, provided that the outcome is substantially uncertain at the time the compensation committee actually establishes the goal. However, in no event will a performance goal be considered to be preestablished if it is established after 25 percent of the period of service (as scheduled in good faith at the time the goal is established) has elapsed. A performance goal is objective if a third party having knowledge of the relevant facts could determine whether the goal is met. Performance goals can be based on one or more business criteria that apply to the individual, a business unit, or the corporation as a whole. Such business criteria could include, for example, stock price, market share, sales, earnings per share, return on equity, or costs. A performance goal need not, however, be based upon an increase or positive result under a business criterion and could include, for example, maintaining the status quo or limiting economic losses (measured, in each case, by reference to a specific business criterion). A performance goal does not include the mere continued employment of the covered employee. Thus, a vesting provision based solely on continued employment would not constitute a performance goal. See paragraph (e)(2)(vi) of this section for rules on compensation that is based on an increase in the price of stock.

(ii) *Objective compensation formula.* A preestablished performance goal must state, in terms of an objective formula or standard, the method for computing the amount of compensation payable to the employee if the goal is attained. A formula or standard is objective if a third party having knowledge of the relevant performance results could calculate the amount to be paid to the employee. In addition, a formula or standard must specify the individual employees or class of employees to which it applies.

(iii) *Discretion.* (A) The terms of an objective formula or standard must

preclude discretion to increase the amount of compensation payable that would otherwise be due upon attainment of the goal. A performance goal is not discretionary for purposes of this paragraph (e)(2)(iii) merely because the compensation committee reduces or eliminates the compensation or other economic benefit that was due upon attainment of the goal. However, the exercise of negative discretion with respect to one employee is not permitted to result in an increase in the amount payable to another employee. Thus, for example, in the case of a bonus pool, if the amount payable to each employee is stated in terms of a percentage of the pool, the sum of these individual percentages of the pool is not permitted to exceed 100 percent. If the terms of an objective formula or standard fail to preclude discretion to increase the amount of compensation merely because the amount of compensation to be paid upon attainment of the performance goal is based, in whole or in part, on a percentage of salary or base pay and the dollar amount of the salary or base pay is not fixed at the time the performance goal is established, then the objective formula or standard will not be considered discretionary for purposes of this paragraph (e)(2)(iii) if the maximum dollar amount to be paid is fixed at that time.

(B) If compensation is payable upon or after the attainment of a performance goal, and a change is made to accelerate the payment of compensation to an earlier date after the attainment of the goal, the change will be treated as an increase in the amount of compensation, unless the amount of compensation paid is discounted to reasonably reflect the time value of money. If compensation is payable upon or after the attainment of a performance goal, and a change is made to defer the payment of compensation to a later date, any amount paid in excess of the amount that was originally owed to the employee will not be treated as an increase in the amount of compensation if the additional amount is based either on a reasonable rate of interest or on one or more predetermined actual investments (whether or not assets associated with the amount originally owed are actually invested there-

in) such that the amount payable by the employer at the later date will be based on the actual rate of return of a specific investment (including any decrease as well as any increase in the value of an investment). If compensation is payable in the form of property, a change in the timing of the transfer of that property after the attainment of the goal will not be treated as an increase in the amount of compensation for purposes of this paragraph (e)(2)(iii). Thus, for example, if the terms of a stock grant provide for stock to be transferred after the attainment of a performance goal and the transfer of the stock also is subject to a vesting schedule, a change in the vesting schedule that either accelerates or defers the transfer of stock will not be treated as an increase in the amount of compensation payable under the performance goal.

(C) Compensation attributable to a stock option, stock appreciation right, or other stock-based compensation does not fail to satisfy the requirements of this paragraph (e)(2) to the extent that a change in the grant or award is made to reflect a change in corporate capitalization, such as a stock split or dividend, or a corporate transaction, such as any merger of a corporation into another corporation, any consolidation of two or more corporations into another corporation, any separation of a corporation (including a spinoff or other distribution of stock or property by a corporation), any reorganization of a corporation (whether or not such reorganization comes within the definition of such term in section 368), or any partial or complete liquidation by a corporation.

(iv) *Grant-by-grant determination.* The determination of whether compensation satisfies the requirements of this paragraph (e)(2) generally shall be made on a grant-by-grant basis. Thus, for example, whether compensation attributable to a stock option grant satisfies the requirements of this paragraph (e)(2) generally is determined on the basis of the particular grant made and without regard to the terms of any other option grant, or other grant of compensation, to the same or another employee. As a further example, except as provided in paragraph (e)(2)(vi),

whether a grant of restricted stock or other stock-based compensation satisfies the requirements of this paragraph (e)(2) is determined without regard to whether dividends, dividend equivalents, or other similar distributions with respect to stock, on such stock-based compensation are payable prior to the attainment of the performance goal. Dividends, dividend equivalents, or other similar distributions with respect to stock that are treated as separate grants under this paragraph (e)(2)(iv) are not performance-based compensation unless they separately satisfy the requirements of this paragraph (e)(2).

(v) *Compensation contingent upon attainment of performance goal.* Compensation does not satisfy the requirements of this paragraph (e)(2) if the facts and circumstances indicate that the employee would receive all or part of the compensation regardless of whether the performance goal is attained. Thus, if the payment of compensation under a grant or award is only nominally or partially contingent on attaining a performance goal, none of the compensation payable under the grant or award will be considered performance-based. For example, if an employee is entitled to a bonus under either of two arrangements, where payment under a nonperformance-based arrangement is contingent upon the failure to attain the performance goals under an otherwise performance-based arrangement, then neither arrangement provides for compensation that satisfies the requirements of this paragraph (e)(2). Compensation does not fail to be qualified performance-based compensation merely because the plan allows the compensation to be payable upon death, disability, or change of ownership or control, although compensation actually paid on account of those events prior to the attainment of the performance goal would not satisfy the requirements of this paragraph (e)(2). As an exception to the general rule set forth in the first sentence of paragraph (e)(2)(iv) of this section, the facts-and-circumstances determination referred to in the first sentence of this paragraph (e)(2)(v) is made taking into account all plans, arrangements, and

agreements that provide for compensation to the employee.

(vi) *Application of requirements to stock options and stock appreciation rights—(A) In general.* Compensation attributable to a stock option or a stock appreciation right is deemed to satisfy the requirements of this paragraph (e)(2) if the grant or award is made by the compensation committee; the plan under which the option or right is granted states the maximum number of shares with respect to which options or rights may be granted during a specified period to any individual employee; and, under the terms of the option or right, the amount of compensation the employee may receive is based solely on an increase in the value of the stock after the date of the grant or award. A plan may satisfy the requirement to provide a maximum number of shares with respect to which stock options and stock appreciation rights may be granted to any individual employee during a specified period if the plan specifies an aggregate maximum number of shares with respect to which stock options, stock appreciation rights, restricted stock, restricted stock units and other equity-based awards that may be granted to any individual employee during a specified period under a plan approved by shareholders in accordance with § 1.162-27(e)(4). If the amount of compensation the employee may receive under the grant or award is not based solely on an increase in the value of the stock after the date of grant or award (for example, in the case of restricted stock, or an option that is granted with an exercise price that is less than the fair market value of the stock as of the date of grant), none of the compensation attributable to the grant or award is qualified performance-based compensation under this paragraph (e)(2)(vi)(A). Whether a stock option grant is based solely on an increase in the value of the stock after the date of grant is determined without regard to any dividend equivalent that may be payable, provided that payment of the dividend equivalent is not made contingent on the exercise of the option. The rule that the compensation attributable to a stock option or stock appreciation right must be based solely

on an increase in the value of the stock after the date of grant or award does not apply if the grant or award is made on account of, or if the vesting or exercisability of the grant or award is contingent on, the attainment of a performance goal that satisfies the requirements of this paragraph (e)(2).

(B) *Cancellation and repricing.* Compensation attributable to a stock option or stock appreciation right does not satisfy the requirements of this paragraph (e)(2) to the extent that the number of options granted exceeds the maximum number of shares for which options may be granted to the employee as specified in the plan. If an option is canceled, the canceled option continues to be counted against the maximum number of shares for which options may be granted to the employee under the plan. If, after grant, the exercise price of an option is reduced, the transaction is treated as a cancellation of the option and a grant of a new option. In such case, both the option that is deemed to be canceled and the option that is deemed to be granted reduce the maximum number of shares for which options may be granted to the employee under the plan. This paragraph (e)(2)(vi)(B) also applies in the case of a stock appreciation right where, after the award is made, the base amount on which stock appreciation is calculated is reduced to reflect a reduction in the fair market value of stock.

(vii) *Examples.* This paragraph (e)(2) may be illustrated by the following examples:

Example 1. No later than 90 days after the start of a fiscal year, but while the outcome is substantially uncertain, Corporation S establishes a bonus plan under which A, the chief executive officer, will receive a cash bonus of \$500,000, if year-end corporate sales are increased by at least 5 percent. The compensation committee retains the right, if the performance goal is met, to reduce the bonus payment to A if, in its judgment, other subjective factors warrant a reduction. The bonus will meet the requirements of this paragraph (e)(2).

Example 2. The facts are the same as in *Example 1*, except that the bonus is based on a percentage of Corporation S's total sales for the fiscal year. Because Corporation S is virtually certain to have some sales for the fiscal year, the outcome of the performance goal is not substantially uncertain, and

therefore the bonus does not meet the requirements of this paragraph (e)(2).

Example 3. The facts are the same as in *Example 1*, except that the bonus is based on a percentage of Corporation S's total profits for the fiscal year. Although some sales are virtually certain for virtually all public companies, it is substantially uncertain whether a company will have profits for a specified future period even if the company has a history of profitability. Therefore, the bonus will meet the requirements of this paragraph (e)(2).

Example 4. B is the general counsel of Corporation R, which is engaged in patent litigation with Corporation S. Representatives of Corporation S have informally indicated to Corporation R a willingness to settle the litigation for \$50,000,000. Subsequently, the compensation committee of Corporation R agrees to pay B a bonus if B obtains a formal settlement for at least \$50,000,000. The bonus to B does not meet the requirement of this paragraph (e)(2) because the performance goal was not established at a time when the outcome was substantially uncertain.

Example 5. Corporation S, a public utility, adopts a bonus plan for selected salaried employees that will pay a bonus at the end of a 3-year period of \$750,000 each if, at the end of the 3 years, the price of S stock has increased by 10 percent. The plan also provides that the 10-percent goal will automatically adjust upward or downward by the percentage change in a published utilities index. Thus, for example, if the published utilities index shows a net increase of 5 percent over a 3-year period, then the salaried employees would receive a bonus only if Corporation S stock has increased by 15 percent. Conversely, if the published utilities index shows a net decrease of 5 percent over a 3-year period, then the salaried employees would receive a bonus if Corporation S stock has increased by 5 percent. Because these automatic adjustments in the performance goal are preestablished, the bonus meets the requirement of this paragraph (e)(2), notwithstanding the potential changes in the performance goal.

Example 6. The facts are the same as in *Example 5*, except that the bonus plan provides that, at the end of the 3-year period, a bonus of \$750,000 will be paid to each salaried employee if either the price of Corporation S stock has increased by 10 percent or the earnings per share on Corporation S stock have increased by 5 percent. If both the earnings-per-share goal and the stock-price goal are preestablished, the compensation committee's discretion to choose to pay a bonus under either of the two goals does not cause any bonus paid under the plan to fail to meet the requirement of this paragraph (e)(2) because each goal independently meets the requirements of this paragraph (e)(2). The choice to pay under either of the two goals is

tantamount to the discretion to choose not to pay under one of the goals, as provided in paragraph (e)(2)(iii) of this section.

Example 7. Corporation U establishes a bonus plan under which a specified class of employees will participate in a bonus pool if certain preestablished performance goals are attained. The amount of the bonus pool is determined under an objective formula. Under the terms of the bonus plan, the compensation committee retains the discretion to determine the fraction of the bonus pool that each employee may receive. The bonus plan does not satisfy the requirements of this paragraph (e)(2). Although the aggregate amount of the bonus plan is determined under an objective formula, a third party could not determine the amount that any individual could receive under the plan.

Example 8. The facts are the same as in *Example 7*, except that the bonus plan provides that a specified share of the bonus pool is payable to each employee, and the total of these shares does not exceed 100% of the pool. The bonus plan satisfies the requirements of this paragraph (e)(2). In addition, the bonus plan will satisfy the requirements of this paragraph (e)(2) even if the compensation committee retains the discretion to reduce the compensation payable to any individual employee, provided that a reduction in the amount of one employee's bonus does not result in an increase in the amount of any other employee's bonus.

Example 9. Corporation V establishes a stock option plan for salaried employees. The terms of the stock option plan specify that no individual salaried employee shall receive options for more than 100,000 shares over any 3-year period. The compensation committee grants options for 50,000 shares to each of several salaried employees. The exercise price of each option is equal to or greater than the fair market value of a share of V stock at the time of each grant. Compensation attributable to the exercise of the options satisfies the requirements of paragraph (e)(2)(vi) of this section. If, however, the terms of the options provide that the exercise price is less than fair market value of a share of V stock at the date of grant, no compensation attributable to the exercise of those options satisfies the requirements of this paragraph (e)(2) unless issuance or exercise of the options was contingent upon the attainment of a preestablished performance goal that satisfies this paragraph (e)(2). If, however, the terms of the plan also provide that Corporation V could grant options to purchase no more than 900,000 shares over any 3-year period, but did not provide a limitation on the number of shares that any individual employee could purchase, then no compensation attributable to the exercise of those options satisfies the requirements of paragraph (e)(2)(vi) of this section.

Example 10. The facts are the same as in *Example 9*, except that, within the same 3-year grant period, the fair market value of Corporation V stock is significantly less than the exercise price of the options. The compensation committee reprices those options to that lower current fair market value of Corporation V stock. The repricing of the options for 50,000 shares held by each salaried employee is treated as the grant of new options for an additional 50,000 shares to each employee. Thus, each of the salaried employees is treated as having received grants for 100,000 shares. Consequently, if any additional options are granted to those employees during the 3-year period, compensation attributable to the exercise of those additional options would not satisfy the requirements of this paragraph (e)(2). The results would be the same if the compensation committee canceled the outstanding options and issued new options to the same employees that were exercisable at the fair market value of Corporation V stock on the date of reissue.

Example 11. Corporation W maintains a plan under which each participating employee may receive incentive stock options, nonqualified stock options, stock appreciation rights, or grants of restricted Corporation W stock. The plan specifies that each participating employee may receive options, stock appreciation rights, restricted stock, or any combination of each, for no more than 20,000 shares over the life of the plan. The plan provides that stock options may be granted with an exercise price of less than, equal to, or greater than fair market value on the date of grant. Options granted with an exercise price equal to, or greater than, fair market value on the date of grant do not fail to meet the requirements of this paragraph (e)(2) merely because the compensation committee has the discretion to determine the types of awards (*i.e.*, options, rights, or restricted stock) to be granted to each employee or the discretion to issue options or make other compensation awards under the plan that would not meet the requirements of this paragraph (e)(2). Whether an option granted under the plan satisfies the requirements of this paragraph (e)(2) is determined on the basis of the specific terms of the option and without regard to other options or awards under the plan.

Example 12. Corporation X maintains a plan under which stock appreciation rights may be awarded to key employees. The plan permits the compensation committee to make awards under which the amount of compensation payable to the employee is equal to the increase in the stock price plus a percentage "gross up" intended to offset the tax liability of the employee. In addition, the plan permits the compensation committee to make awards under which the amount of compensation payable to the employee is

equal to the increase in the stock price, based on the highest price, which is defined as the highest price paid for Corporation X stock (or offered in a tender offer or other arms-length offer) during the 90 days preceding exercise. Compensation attributable to awards under the plan satisfies the requirements of paragraph (e)(2)(vi) of this section, provided that the terms of the plan specify the maximum number of shares for which awards may be made.

Example 13. Corporation W adopts a plan under which a bonus will be paid to the CEO only if there is a 10% increase in earnings per share during the performance period. The plan provides that earnings per share will be calculated without regard to any change in accounting standards that may be required by the Financial Accounting Standards Board after the goal is established. After the goal is established, such a change in accounting standards occurs. Corporation W's reported earnings, for purposes of determining earnings per share under the plan, are adjusted pursuant to this plan provision to factor out this change in standards. This adjustment will not be considered an exercise of impermissible discretion because it is made pursuant to the plan provision.

Example 14. Corporation X adopts a performance-based incentive pay plan with a four-year performance period. Bonuses under the plan are scheduled to be paid in the first year after the end of the performance period (year 5). However, in the second year of the performance period, the compensation committee determines that any bonuses payable in year 5 will instead, for bona fide business reasons, be paid in year 10. The compensation committee also determines that any compensation that would have been payable in year 5 will be adjusted to reflect the delay in payment. The adjustment will be based on the greater of the future rate of return of a specified mutual fund that invests in blue chip stocks or of a specified venture capital investment over the five-year deferral period. Each of these investments, considered by itself, is a predetermined actual investment because it is based on the future rate of return of an actual investment. However, the adjustment in this case is not based on predetermined actual investments within the meaning of paragraph (e)(2)(iii)(B) of this section because the amount payable by Corporation X in year 10 will be based on the greater of the two investment returns and, thus, will not be based on the actual rate of return on either specific investment.

Example 15. The facts are the same as in *Example 14*, except that the increase will be based on Moody's Average Corporate Bond Yield over the five-year deferral period. Because this index reflects a reasonable rate of interest, the increase in the compensation payable that is based on the index's rate of return is not considered an impermissible in-

crease in the amount of compensation payable under the formula.

Example 16. The facts are the same as in *Example 14*, except that the increase will be based on the rate of return for the Standard & Poor's 500 Index. This index does not measure interest rates and thus does not represent a reasonable rate of interest. In addition, this index does not represent an actual investment. Therefore, any additional compensation payable based on the rate of return of this index will result in an impermissible increase in the amount payable under the formula. If, in contrast, the increase were based on the rate of return of an existing mutual fund that is invested in a manner that seeks to approximate the Standard & Poor's 500 Index, the increase would be based on a predetermined actual investment within the meaning of paragraph (e)(2)(iii)(B) of this section and thus would not result in an impermissible increase in the amount payable under the formula.

(3) *Outside directors*—(i) *General rule.* The performance goal under which compensation is paid must be established by a compensation committee comprised solely of two or more outside directors. A director is an outside director if the director—

(A) Is not a current employee of the publicly held corporation;

(B) Is not a former employee of the publicly held corporation who receives compensation for prior services (other than benefits under a tax-qualified retirement plan) during the taxable year;

(C) Has not been an officer of the publicly held corporation; and

(D) Does not receive remuneration from the publicly held corporation, either directly or indirectly, in any capacity other than as a director. For this purpose, remuneration includes any payment in exchange for goods or services.

(ii) *Remuneration received.* For purposes of this paragraph (e)(3), remuneration is received, directly or indirectly, by a director in each of the following circumstances:

(A) If remuneration is paid, directly or indirectly, to the director personally or to an entity in which the director has a beneficial ownership interest of greater than 50 percent. For this purpose, remuneration is considered paid when actually paid (and throughout the remainder of that taxable year of the corporation) and, if earlier, throughout the period when a contract

or agreement to pay remuneration is outstanding.

(B) If remuneration, other than de minimis remuneration, was paid by the publicly held corporation in its preceding taxable year to an entity in which the director has a beneficial ownership interest of at least 5 percent but not more than 50 percent. For this purpose, remuneration is considered paid when actually paid or, if earlier, when the publicly held corporation becomes liable to pay it.

(C) If remuneration, other than de minimis remuneration, was paid by the publicly held corporation in its preceding taxable year to an entity by which the director is employed or self-employed other than as a director. For this purpose, remuneration is considered paid when actually paid or, if earlier, when the publicly held corporation becomes liable to pay it.

(iii) *De minimis remuneration*—(A) *In general.* For purposes of paragraphs (e)(3)(ii)(B) and (C) of this section, remuneration that was paid by the publicly held corporation in its preceding taxable year to an entity is de minimis if payments to the entity did not exceed 5 percent of the gross revenue of the entity for its taxable year ending with or within that preceding taxable year of the publicly held corporation.

(B) *Remuneration for personal services and substantial owners.* Notwithstanding paragraph (e)(3)(iii)(A) of this section, remuneration in excess of \$60,000 is not de minimis if the remuneration is paid to an entity described in paragraph (e)(3)(ii)(B) of this section, or is paid for personal services to an entity described in paragraph (e)(3)(ii)(C) of this section.

(iv) *Remuneration for personal services.* For purposes of paragraph (e)(3)(iii)(B) of this section, remuneration from a publicly held corporation is for personal services if—

(A) The remuneration is paid to an entity for personal or professional services, consisting of legal, accounting, investment banking, and management consulting services (and other similar services that may be specified by the Commissioner in revenue rulings, notices, or other guidance published in the Internal Revenue Bulletin), performed for the publicly held corpora-

tion, and the remuneration is not for services that are incidental to the purchase of goods or to the purchase of services that are not personal services; and

(B) The director performs significant services (whether or not as an employee) for the corporation, division, or similar organization (within the entity) that actually provides the services described in paragraph (e)(3)(iv)(A) of this section to the publicly held corporation, or more than 50 percent of the entity's gross revenues (for the entity's preceding taxable year) are derived from that corporation, subsidiary, or similar organization.

(v) *Entity defined.* For purposes of this paragraph (e)(3), entity means an organization that is a sole proprietorship, trust, estate, partnership, or corporation. The term also includes an affiliated group of corporations as defined in section 1504 (determined without regard to section 1504(b)) and a group of organizations that would be an affiliated group but for the fact that one or more of the organizations are not incorporated. However, the aggregation rules referred to in the preceding sentence do not apply for purposes of determining whether a director has a beneficial ownership interest of at least 5 percent or greater than 50 percent.

(vi) *Employees and former officers.* Whether a director is an employee or a former officer is determined on the basis of the facts at the time that the individual is serving as a director on the compensation committee. Thus, a director is not precluded from being an outside director solely because the director is a former officer of a corporation that previously was an affiliated corporation of the publicly held corporation. For example, a director of a parent corporation of an affiliated group is not precluded from being an outside director solely because that director is a former officer of an affiliated subsidiary that was spun off or liquidated. However, an outside director would no longer be an outside director if a corporation in which the director was previously an officer became an affiliated corporation of the publicly held corporation.

(vii) *Officer.* Solely for purposes of this paragraph (e)(3), *officer* means an administrative executive who is or was in regular and continued service. The term implies continuity of service and excludes those employed for a special and single transaction. An individual who merely has (or had) the title of officer but not the authority of an officer is not considered an officer. The determination of whether an individual is or was an officer is based on all of the facts and circumstances in the particular case, including without limitation the source of the individual's authority, the term for which the individual is elected or appointed, and the nature and extent of the individual's duties.

(viii) *Members of affiliated groups.* For purposes of this paragraph (e)(3), the outside directors of the publicly held member of an affiliated group are treated as the outside directors of all members of the affiliated group.

(ix) *Examples.* This paragraph (e)(3) may be illustrated by the following examples:

Example 1. Corporations X and Y are members of an affiliated group of corporations as defined in section 1504, until July 1, 1994, when Y is sold to another group. Prior to the sale, A served as an officer of Corporation Y. After July 1, 1994, A is not treated as a former officer of Corporation X by reason of having been an officer of Y.

Example 2. Corporation Z, a calendar-year taxpayer, uses the services of a law firm by which B is employed, but in which B has a less-than-5-percent ownership interest. The law firm reports income on a July 1 to June 30 basis. Corporation Z appoints B to serve on its compensation committee for calendar year 1998 after determining that, in calendar year 1997, it did not become liable to the law firm for remuneration exceeding the lesser of \$60,000 or five percent of the law firm's gross revenue (calculated for the year ending June 30, 1997). On October 1, 1998, Corporation Z becomes liable to pay remuneration of \$50,000 to the law firm on June 30, 1999. For the year ending June 30, 1998, the law firm's gross revenue was less than \$1 million. Thus, in calendar year 1999, B is not an outside director. However, B may satisfy the requirements for an outside director in calendar year 2000, if, in calendar year 1999, Corporation Z does not become liable to the law firm for additional remuneration. This is because the remuneration actually paid on June 30, 1999 was considered paid on October 1, 1998 under paragraph (e)(3)(ii)(C) of this section.

Example 3. Corporation Z, a publicly held corporation, purchases goods from Corporation A. D, an executive and less-than-5-percent owner of Corporation A, sits on the board of directors of Corporation Z and on its compensation committee. For 1997, Corporation Z obtains representations to the effect that D is not eligible for any commission for D's sales to Corporation Z and that, for purposes of determining D's compensation for 1997, Corporation A's sales to Corporation Z are not otherwise treated differently than sales to other customers of Corporation A (including its affiliates, if any) or are irrelevant. In addition, Corporation Z has no reason to believe that these representations are inaccurate or that it is otherwise paying remuneration indirectly to D personally. Thus, in 1997, no remuneration is considered paid by Corporation Z indirectly to D personally under paragraph (e)(3)(ii)(A) of this section.

Example 4. (i) Corporation W, a publicly held corporation, purchases goods from Corporation T. C, an executive and less-than-5-percent owner of Corporation T, sits on the board of directors of Corporation W and on its compensation committee. Corporation T develops a new product and agrees on January 1, 1998 to pay C a bonus of \$500,000 if Corporation W contracts to purchase the product. Even if Corporation W purchases the new product, sales to Corporation W will represent less than 5 percent of Corporation T's gross revenues. In 1999, Corporation W contracts to purchase the new product and, in 2000, C receives the \$500,000 bonus from Corporation T. In 1998, 1999, and 2000, Corporation W does not obtain any representations relating to indirect remuneration to C personally (such as the representations described in *Example 3*).

(ii) Thus, in 1998, 1999, and 2000, remuneration is considered paid by Corporation W indirectly to C personally under paragraph (e)(3)(ii)(A) of this section. Accordingly, in 1998, 1999, and 2000, C is not an outside director of Corporation W. The result would have been the same if Corporation W had obtained appropriate representations but nevertheless had reason to believe that it was paying remuneration indirectly to C personally.

Example 5. Corporation R, a publicly held corporation, purchases utility service from Corporation Q, a public utility. The chief executive officer, and less-than-5-percent owner, of Corporation Q is a director of Corporation R. Corporation R pays Corporation Q more than \$60,000 per year for the utility service, but less than 5 percent of Corporation Q's gross revenues. Because utility services are not personal services, the fees paid are not subject to the \$60,000 de minimis rule for remuneration for personal services within the meaning of paragraph (e)(3)(iii)(B) of this section. Thus, the chief executive officer

qualifies as an outside director of Corporation R, unless disqualified on some other basis.

Example 6. Corporation A, a publicly held corporation, purchases management consulting services from Division S of Conglomerate P. The chief financial officer of Division S is a director of Corporation A. Corporation A pays more than \$60,000 per year for the management consulting services, but less than 5 percent of Conglomerate P's gross revenues. Because management consulting services are personal services within the meaning of paragraph (e)(3)(iv)(A) of this section, and the chief financial officer performs significant services for Division S, the fees paid are subject to the \$60,000 de minimis rule as remuneration for personal services. Thus, the chief financial officer does not qualify as an outside director of Corporation A.

Example 7. The facts are the same as in *Example 6*, except that the chief executive officer, and less-than-5-percent owner, of the parent company of Conglomerate P is a director of Corporation A and does not perform significant services for Division S. If the gross revenues of Division S do not constitute more than 50 percent of the gross revenues of Conglomerate P for P's preceding taxable year, the chief executive officer will qualify as an outside director of Corporation A, unless disqualified on some other basis.

(4) *Shareholder approval requirement—*

(i) *General rule.* The material terms of the performance goal under which the compensation is to be paid must be disclosed to and subsequently approved by the shareholders of the publicly held corporation before the compensation is paid. The requirements of this paragraph (e)(4) are not satisfied if the compensation would be paid regardless of whether the material terms are approved by shareholders. The material terms include the employees eligible to receive compensation; a description of the business criteria on which the performance goal is based; and either the maximum amount of compensation that could be paid to any employee or the formula used to calculate the amount of compensation to be paid to the employee if the performance goal is attained (except that, in the case of a formula based, in whole or in part, on a percentage of salary or base pay, the maximum dollar amount of compensation that could be paid to the employee must be disclosed).

(ii) *Eligible employees.* Disclosure of the employees eligible to receive com-

pensation need not be so specific as to identify the particular individuals by name. A general description of the class of eligible employees by title or class is sufficient, such as the chief executive officer and vice presidents, or all salaried employees, all executive officers, or all key employees.

(iii) *Description of business criteria—*
(A) *In general.* Disclosure of the business criteria on which the performance goal is based need not include the specific targets that must be satisfied under the performance goal. For example, if a bonus plan provides that a bonus will be paid if earnings per share increase by 10 percent, the 10-percent figure is a target that need not be disclosed to shareholders. However, in that case, disclosure must be made that the bonus plan is based on an earnings-per-share business criterion. In the case of a plan under which employees may be granted stock options or stock appreciation rights, no specific description of the business criteria is required if the grants or awards are based on a stock price that is no less than current fair market value.

(B) *Disclosure of confidential information.* The requirements of this paragraph (e)(4) may be satisfied even though information that otherwise would be a material term of a performance goal is not disclosed to shareholders, provided that the compensation committee determines that the information is confidential commercial or business information, the disclosure of which would have an adverse effect on the publicly held corporation. Whether disclosure would adversely affect the corporation is determined on the basis of the facts and circumstances. If the compensation committee makes such a determination, the disclosure to shareholders must state the compensation committee's belief that the information is confidential commercial or business information, the disclosure of which would adversely affect the company. In addition, the ability not to disclose confidential information does not eliminate the requirement that disclosure be made of the maximum amount of compensation that is payable to an individual under a performance goal.

Confidential information does not include the identity of an executive or the class of executives to which a performance goal applies or the amount of compensation that is payable if the goal is satisfied.

(iv) *Description of compensation.* Disclosure as to the compensation payable under a performance goal must be specific enough so that shareholders can determine the maximum amount of compensation that could be paid to any individual employee during a specified period. If the terms of the performance goal do not provide for a maximum dollar amount, the disclosure must include the formula under which the compensation would be calculated. Thus, if compensation attributable to the exercise of stock options is equal to the difference between the exercise price and the current value of the stock, then disclosure of the maximum number of shares for which grants may be made to any individual employee during a specified period and the exercise price of those options (for example, fair market value on date of grant) would satisfy the requirements of this paragraph (e)(4)(iv). In that case, shareholders could calculate the maximum amount of compensation that would be attributable to the exercise of options on the basis of their assumptions as to the future stock price.

(v) *Disclosure requirements of the Securities and Exchange Commission.* To the extent not otherwise specifically provided in this paragraph (e)(4), whether the material terms of a performance goal are adequately disclosed to shareholders is determined under the same standards as apply under the Exchange Act.

(vi) *Frequency of disclosure.* Once the material terms of a performance goal are disclosed to and approved by shareholders, no additional disclosure or approval is required unless the compensation committee changes the material terms of the performance goal. If, however, the compensation committee has authority to change the targets under a performance goal after shareholder approval of the goal, material terms of the performance goal must be disclosed to and reapproved by shareholders no later than the first shareholder meeting that occurs in the fifth year fol-

lowing the year in which shareholders previously approved the performance goal.

(vii) *Shareholder vote.* For purposes of this paragraph (e)(4), the material terms of a performance goal are approved by shareholders if, in a separate vote, a majority of the votes cast on the issue (including abstentions to the extent abstentions are counted as voting under applicable state law) are cast in favor of approval.

(viii) *Members of affiliated group.* For purposes of this paragraph (e)(4), the shareholders of the publicly held member of the affiliated group are treated as the shareholders of all members of the affiliated group.

(ix) *Examples.* This paragraph (e)(4) may be illustrated by the following examples:

Example 1. Corporation X adopts a plan that will pay a specified class of its executives an annual cash bonus based on the overall increase in corporate sales during the year. Under the terms of the plan, the cash bonus of each executive equals \$100,000 multiplied by the number of percentage points by which sales increase in the current year when compared to the prior year. Corporation X discloses to its shareholders prior to the vote both the class of executives eligible to receive awards and the annual formula of \$100,000 multiplied by the percentage increase in sales. This disclosure meets the requirements of this paragraph (e)(4). Because the compensation committee does not have the authority to establish a different target under the plan, Corporation X need not re-disclose to its shareholders and obtain their reapproval of the material terms of the plan until those material terms are changed.

Example 2. The facts are the same as in *Example 1* except that Corporation X discloses only that bonuses will be paid on the basis of the annual increase in sales. This disclosure does not meet the requirements of this paragraph (e)(4) because it does not include the formula for calculating the compensation or a maximum amount of compensation to be paid if the performance goal is satisfied.

Example 3. Corporation Y adopts an incentive compensation plan in 1995 that will pay a specified class of its executives a bonus every 3 years based on the following 3 factors: increases in earnings per share, reduction in costs for specified divisions, and increases in sales by specified divisions. The bonus is payable in cash or in Corporation Y stock, at the option of the executive. Under the terms of the plan, prior to the beginning of each 3-year period, the compensation committee determines the specific targets under

each of the three factors (*i.e.*, the amount of the increase in earnings per share, the reduction in costs, and the amount of sales) that must be met in order for the executives to receive a bonus. Under the terms of the plan, the compensation committee retains the discretion to determine whether a bonus will be paid under any one of the goals. The terms of the plan also specify that no executive may receive a bonus in excess of \$1,500,000 for any 3-year period. To satisfy the requirements of this paragraph (e)(4), Corporation Y obtains shareholder approval of the plan at its 1995 annual shareholder meeting. In the proxy statement issued to shareholders, Corporation Y need not disclose to shareholders the specific targets that are set by the compensation committee. However, Corporation Y must disclose that bonuses are paid on the basis of earnings per share, reductions in costs, and increases in sales of specified divisions. Corporation Y also must disclose the maximum amount of compensation that any executive may receive under the plan is \$1,500,000 per 3-year period. Unless changes in the material terms of the plan are made earlier, Corporation Y need not disclose the material terms of the plan to the shareholders and obtain their reapproval until the first shareholders' meeting held in 2000.

Example 4. The same facts as in *Example 3*, except that prior to the beginning of the second 3-year period, the compensation committee determines that different targets will be set under the plan for that period with regard to all three of the performance criteria (*i.e.*, earnings per share, reductions in costs, and increases in sales). In addition, the compensation committee raises the maximum dollar amount that can be paid under the plan for a 3-year period to \$2,000,000. The increase in the maximum dollar amount of compensation under the plan is a changed material term. Thus, to satisfy the requirements of this paragraph (e)(4), Corporation Y must disclose to and obtain approval by the shareholders of the plan as amended.

Example 5. In 1998, Corporation Z establishes a plan under which a specified group of executives will receive a cash bonus not to exceed \$750,000 each if a new product that has been in development is completed and ready for sale to customers by January 1, 2000. Although the completion of the new product is a material term of the performance goal under this paragraph (e)(4), the compensation committee determines that the disclosure to shareholders of the performance goal would adversely affect Corporation Z because its competitors would be made aware of the existence and timing of its new product. In this case, the requirements of this paragraph (e)(4) are satisfied if all other material terms, including the maximum amount of compensation, are disclosed and the disclosure affirmatively states that the terms of the performance goal are not being

disclosed because the compensation committee has determined that those terms include confidential information, the disclosure of which would adversely affect Corporation Z.

(5) *Compensation committee certification.* The compensation committee must certify in writing prior to payment of the compensation that the performance goals and any other material terms were in fact satisfied. For this purpose, approved minutes of the compensation committee meeting in which the certification is made are treated as a written certification. Certification by the compensation committee is not required for compensation that is attributable solely to the increase in the value of the stock of the publicly held corporation.

(f) *Companies that become publicly held, spinoffs, and similar transactions—*

(1) *In general.* In the case of a corporation that was not a publicly held corporation and then becomes a publicly held corporation, the deduction limit of paragraph (b) of this section does not apply to any remuneration paid pursuant to a compensation plan or agreement that existed during the period in which the corporation was not publicly held. However, in the case of such a corporation that becomes publicly held in connection with an initial public offering, this relief applies only to the extent that the prospectus accompanying the initial public offering disclosed information concerning those plans or agreements that satisfied all applicable securities laws then in effect. In accordance with paragraph (c)(1)(ii) of this section, a corporation that is a member of an affiliated group that includes a publicly held corporation is considered publicly held and, therefore, cannot rely on this paragraph (f)(1).

(2) *Reliance period.* Paragraph (f)(1) of this section may be relied upon until the earliest of—

- (i) The expiration of the plan or agreement;
- (ii) The material modification of the plan or agreement, within the meaning of paragraph (h)(1)(iii) of this section;
- (iii) The issuance of all employer stock and other compensation that has been allocated under the plan; or

(iv) The first meeting of shareholders at which directors are to be elected that occurs after the close of the third calendar year following the calendar year in which the initial public offering occurs or, in the case of a privately held corporation that becomes publicly held without an initial public offering, the first calendar year following the calendar year in which the corporation becomes publicly held.

(3) *Stock-based compensation.* Paragraph (f)(1) of this section will apply to any compensation received pursuant to the exercise of a stock option or stock appreciation right, or the substantial vesting of restricted property, granted under a plan or agreement described in paragraph (f)(1) of this section if the grant occurs on or before the earliest of the events specified in paragraph (f)(2) of this section. This paragraph does not apply to any form of stock-based compensation other than the forms listed in the immediately preceding sentence. Thus, for example, compensation payable under a restricted stock unit arrangement or a phantom stock arrangement must be paid, rather than merely granted, on or before the occurrence of the earliest of the events specified in paragraph (f)(2) of this section in order for paragraph (f)(1) of this section to apply.

(4) *Subsidiaries that become separate publicly held corporations—(i) In general.* If a subsidiary that is a member of the affiliated group described in paragraph (c)(1)(ii) of this section becomes a separate publicly held corporation (whether by spinoff or otherwise), any remuneration paid to covered employees of the new publicly held corporation will satisfy the exception for performance-based compensation described in paragraph (e) of this section if the conditions in either paragraph (f)(4)(ii) or (f)(4)(iii) of this section are satisfied.

(ii) *Prior establishment and approval.* Remuneration satisfies the requirements of this paragraph (f)(4)(ii) if the remuneration satisfies the requirements for performance-based compensation set forth in paragraphs (e)(2), (e)(3), and (e)(4) of this section (by application of paragraphs (e)(3)(viii) and (e)(4)(viii) of this section) before the corporation becomes a separate publicly held corporation, and the certifi-

cation required by paragraph (e)(5) of this section is made by the compensation committee of the new publicly held corporation (but if the performance goals are attained before the corporation becomes a separate publicly held corporation, the certification may be made by the compensation committee referred to in paragraph (e)(3)(viii) of this section before it becomes a separate publicly held corporation). Thus, this paragraph (f)(4)(ii) requires that the outside directors and shareholders (within the meaning of paragraphs (e)(3)(viii) and (e)(4)(viii) of this section) of the corporation before it becomes a separate publicly held corporation establish and approve, respectively, the performance-based compensation for the covered employees of the new publicly held corporation in accordance with paragraphs (e)(3) and (e)(4) of this section.

(iii) *Transition period.* Remuneration satisfies the requirements of this paragraph (f)(4)(iii) if the remuneration satisfies all of the requirements of paragraphs (e)(2), (e)(3), and (e)(5) of this section. The outside directors (within the meaning of paragraph (e)(3)(viii) of this section) of the corporation before it becomes a separate publicly held corporation, or the outside directors of the new publicly held corporation, may establish and administer the performance goals for the covered employees of the new publicly held corporation for purposes of satisfying the requirements of paragraphs (e)(2) and (e)(3) of this section. The certification required by paragraph (e)(5) of this section must be made by the compensation committee of the new publicly held corporation. However, a taxpayer may rely on this paragraph (f)(4)(iii) to satisfy the requirements of paragraph (e) of this section only for compensation paid, or stock options, stock appreciation rights, or restricted property granted, prior to the first regularly scheduled meeting of the shareholders of the new publicly held corporation that occurs more than 12 months after the date the corporation becomes a separate publicly held corporation. Compensation paid, or stock options, stock appreciation rights, or restricted property granted, on or after the date of that meeting of shareholders must satisfy

all requirements of paragraph (e) of this section, including the shareholder approval requirement of paragraph (e)(4) of this section, in order to satisfy the requirements for performance-based compensation.

(5) *Example.* The following example illustrates the application of paragraph (f)(4)(ii) of this section:

Example. Corporation P, which is publicly held, decides to spin off Corporation S, a wholly owned subsidiary of Corporation P. After the spinoff, Corporation S will be a separate publicly held corporation. Before the spinoff, the compensation committee of Corporation P, pursuant to paragraph (e)(3)(viii) of this section, establishes a bonus plan for the executives of Corporation S that provides for bonuses payable after the spinoff and that satisfies the requirements of paragraph (e)(2) of this section. If, pursuant to paragraph (e)(4)(viii) of this section, the shareholders of Corporation P approve the plan prior to the spinoff, that approval will satisfy the requirements of paragraph (e)(4) of this section with respect to compensation paid pursuant to the bonus plan after the spinoff. However, the compensation committee of Corporation S will be required to certify that the goals are satisfied prior to the payment of the bonuses in order for the bonuses to be considered performance-based compensation.

(g) *Coordination with disallowed excess parachute payments.* The \$1,000,000 limitation in paragraph (b) of this section is reduced (but not below zero) by the amount (if any) that would have been included in the compensation of the covered employee for the taxable year but for being disallowed by reason of section 280G. For example, assume that during a taxable year a corporation pays \$1,500,000 to a covered employee and no portion satisfies the exception in paragraph (d) of this section for commissions or paragraph (e) of this section for qualified performance-based compensation. Of the \$1,500,000, \$600,000 is an excess parachute payment, as defined in section 280G(b)(1) and is disallowed by reason of that section. Because the excess parachute payment reduces the limitation of paragraph (b) of this section, the corporation can deduct \$400,000, and \$500,000 of the otherwise deductible amount is nondeductible by reason of section 162(m).

(h) *Transition rules—(1) Compensation payable under a written binding contract which was in effect on February 17,*

1993—(i) General rule. The deduction limit of paragraph (b) of this section does not apply to any compensation payable under a written binding contract that was in effect on February 17, 1993. The preceding sentence does not apply unless, under applicable state law, the corporation is obligated to pay the compensation if the employee performs services. However, the deduction limit of paragraph (b) of this section does apply to a contract that is renewed after February 17, 1993. A written binding contract that is terminable or cancelable by the corporation after February 17, 1993, without the employee's consent is treated as a new contract as of the date that any such termination or cancellation, if made, would be effective. Thus, for example, if the terms of a contract provide that it will be automatically renewed as of a certain date unless either the corporation or the employee gives notice of termination of the contract at least 30 days before that date, the contract is treated as a new contract as of the date that termination would be effective if that notice were given. Similarly, for example, if the terms of a contract provide that the contract will be terminated or canceled as of a certain date unless either the corporation or the employee elects to renew within 30 days of that date, the contract is treated as renewed by the corporation as of that date. Alternatively, if the corporation will remain legally obligated by the terms of a contract beyond a certain date at the sole discretion of the employee, the contract will not be treated as a new contract as of that date if the employee exercises the discretion to keep the corporation bound to the contract. A contract is not treated as terminable or cancelable if it can be terminated or canceled only by terminating the employment relationship of the employee.

(ii) *Compensation payable under a plan or arrangement.* If a compensation plan or arrangement meets the requirements of paragraph (h)(1)(i) of this section, the compensation paid to an employee pursuant to the plan or arrangement will not be subject to the deduction limit of paragraph (b) of this section even though the employee was not eligible to participate in the plan as of

February 17, 1993. However, the preceding sentence does not apply unless the employee was employed on February 17, 1993, by the corporation that maintained the plan or arrangement, or the employee had the right to participate in the plan or arrangement under a written binding contract as of that date.

(iii) *Material modifications.* (A) Paragraph (h)(1)(i) of this section will not apply to any written binding contract that is materially modified. A material modification occurs when the contract is amended to increase the amount of compensation payable to the employee. If a binding written contract is materially modified, it is treated as a new contract entered into as of the date of the material modification. Thus, amounts received by an employee under the contract prior to a material modification are not affected, but amounts received subsequent to the material modification are not treated as paid under a binding, written contract described in paragraph (h)(1)(i) of this section.

(B) A modification of the contract that accelerates the payment of compensation will be treated as a material modification unless the amount of compensation paid is discounted to reasonably reflect the time value of money. If the contract is modified to defer the payment of compensation, any compensation paid in excess of the amount that was originally payable to the employee under the contract will not be treated as a material modification if the additional amount is based on either a reasonable rate of interest or one or more predetermined actual investments (whether or not assets associated with the amount originally owed are actually invested therein) such that the amount payable by the employer at the later date will be based on the actual rate of return of the specific investment (including any decrease as well as any increase in the value of the investment).

(C) The adoption of a supplemental contract or agreement that provides for increased compensation, or the payment of additional compensation, is a material modification of a binding, written contract where the facts and circumstances show that the additional

compensation is paid on the basis of substantially the same elements or conditions as the compensation that is otherwise paid under the written binding contract. However, a material modification of a written binding contract does not include a supplemental payment that is equal to or less than a reasonable cost-of-living increase over the payment made in the preceding year under that written binding contract. In addition, a supplemental payment of compensation that satisfies the requirements of qualified performance-based compensation in paragraph (e) of this section will not be treated as a material modification.

(iv) *Examples.* The following examples illustrate the exception of this paragraph (h)(1):

Example 1. Corporation X executed a 3-year compensation arrangement with C on February 15, 1993, that constitutes a written binding contract under applicable state law. The terms of the arrangement provide for automatic extension after the 3-year term for additional 1-year periods, unless the corporation exercises its option to terminate the arrangement within 30 days of the end of the 3-year term or, thereafter, within 30 days before each anniversary date. Termination of the compensation arrangement does not require the termination of C's employment relationship with Corporation X. Unless terminated, the arrangement is treated as renewed on February 15, 1996, and the deduction limit of paragraph (b) of this section applies to payments under the arrangement after that date.

Example 2. Corporation Y executed a 5-year employment agreement with B on January 1, 1992, providing for a salary of \$900,000 per year. Assume that this agreement constitutes a written binding contract under applicable state law. In 1992 and 1993, B receives the salary of \$900,000 per year. In 1994, Corporation Y increases B's salary with a payment of \$20,000. The \$20,000 supplemental payment does not constitute a material modification of the written binding contract because the \$20,000 payment is less than or equal to a reasonable cost-of-living increase from 1993. However, the \$20,000 supplemental payment is subject to the limitation in paragraph (b) of this section. On January 1, 1995, Corporation Y increases B's salary to \$1,200,000. The \$280,000 supplemental payment is a material modification of the written binding contract because the additional compensation is paid on the basis of substantially the same elements or conditions as the compensation that is otherwise paid under the written binding contract and it is greater than a reasonable, annual cost-of-living

increase. Because the written binding contract is materially modified as of January 1, 1995, all compensation paid to B in 1995 and thereafter is subject to the deduction limitation of section 162(m).

Example 3. Assume the same facts as in *Example 2*, except that instead of an increase in salary, B receives a restricted stock grant subject to B's continued employment for the balance of the contract. The restricted stock grant is not a material modification of the binding written contract because any additional compensation paid to B under the grant is not paid on the basis of substantially the same elements and conditions as B's salary because it is based both on the stock price and B's continued service. However, compensation attributable to the restricted stock grant is subject to the deduction limitation of section 162(m).

(2) *Special transition rule for outside directors.* A director who is a disinterested director is treated as satisfying the requirements of an outside director under paragraph (e)(3) of this section until the first meeting of shareholders at which directors are to be elected that occurs on or after January 1, 1996. For purposes of this paragraph (h)(2) and paragraph (h)(3) of this section, a director is a disinterested director if the director is disinterested within the meaning of Rule 16b-3(c)(2)(i), 17 CFR 240.16b-3(c)(2)(i), under the Exchange Act (including the provisions of Rule 16b-3(d)(3), as in effect on April 30, 1991).

(3) *Special transition rule for previously-approved plans—(i) In general.* Any compensation paid under a plan or agreement approved by shareholders before December 20, 1993, is treated as satisfying the requirements of paragraphs (e)(3) and (e)(4) of this section, provided that the directors administering the plan or agreement are disinterested directors and the plan was approved by shareholders in a manner consistent with Rule 16b-3(b), 17 CFR 240.16b-3(b), under the Exchange Act or Rule 16b-3(a), 17 CFR 240.16b-3(a) (as contained in 17 CFR part 240 revised April 1, 1990). In addition, for purposes of satisfying the requirements of paragraph (e)(2)(vi) of this section, a plan or agreement is treated as stating a maximum number of shares with respect to which an option or right may be granted to any employee if the plan or agreement that was approved by the shareholders provided for an aggregate

limit, consistent with Rule 16b-3(b), 17 CFR 250.16b-3(b), on the shares of employer stock with respect to which awards may be made under the plan or agreement.

(ii) *Reliance period.* The transition rule provided in this paragraph (h)(3) shall continue and may be relied upon until the earliest of—

(A) The expiration or material modification of the plan or agreement;

(B) The issuance of all employer stock and other compensation that has been allocated under the plan; or

(C) The first meeting of shareholders at which directors are to be elected that occurs after December 31, 1996.

(iii) *Stock-based compensation.* This paragraph (h)(3) will apply to any compensation received pursuant to the exercise of a stock option or stock appreciation right, or the substantial vesting of restricted property, granted under a plan or agreement described in paragraph (h)(3)(i) of this section if the grant occurs on or before the earliest of the events specified in paragraph (h)(3)(ii) of this section.

(iv) *Example.* The following example illustrates the application of this paragraph (h)(3):

Example. Corporation Z adopted a stock option plan in 1991. Pursuant to Rule 16b-3 under the Exchange Act, the stock option plan has been administered by disinterested directors and was approved by Corporation Z shareholders. Under the terms of the plan, shareholder approval is not required again until 2001. In addition, the terms of the stock option plan include an aggregate limit on the number of shares available under the plan. Option grants under the Corporation Z plan are made with an exercise price equal to or greater than the fair market value of Corporation Z stock. Compensation attributable to the exercise of options that are granted under the plan before the earliest of the dates specified in paragraph (h)(3)(ii) of this section will be treated as satisfying the requirements of paragraph (e) of this section for qualified performance-based compensation, regardless of when the options are exercised.

(i) [Reserved]

(j) *Effective date—(1) In general.* Section 162(m) and this section apply to the deduction for compensation that is otherwise deductible by the corporation in taxable years beginning on or after January 1, 1994, and beginning prior to January 1, 2018. Section 162(m)

and this section also apply to compensation that is a grandfathered amount (as defined in § 1.162-33(g)) at the time it is paid to the covered employee or otherwise deductible. For examples of the application of the rules of this section to grandfathered amounts paid during or otherwise deductible for taxable years beginning after December 31, 2017, see § 1.162-33(g).

(2) *Delayed effective date for certain provisions*—(i) *Date on which remuneration is considered paid.* Notwithstanding paragraph (j)(1) of this section, the rules in the second sentence of each of paragraphs (e)(3)(ii)(A), (e)(3)(ii)(B), and (e)(3)(ii)(C) of this section for determining the date or dates on which remuneration is considered paid to a director are effective for taxable years beginning on or after January 1, 1995. Prior to those taxable years, taxpayers must follow the rules in paragraphs (e)(3)(ii)(A), (e)(3)(ii)(B), and (e)(3)(ii)(C) of this section or another reasonable, good faith interpretation of section 162(m) with respect to the date or dates on which remuneration is considered paid to a director.

(ii) *Separate treatment of publicly held subsidiaries.* Notwithstanding paragraph (j)(1) of this section, the rule in paragraph (c)(1)(ii) of this section that treats publicly held subsidiaries as separately subject to section 162(m) is effective as of the first regularly scheduled meeting of the shareholders of the publicly held subsidiary that occurs more than 12 months after December 2, 1994. The rule for stock-based compensation set forth in paragraph (f)(3) of this section will apply for this purpose, except that the grant must occur before the shareholder meeting specified in this paragraph (j)(2)(ii). Taxpayers may choose to rely on the rule referred to in the first sentence of this paragraph (j)(2)(ii) for the period prior to the effective date of the rule.

(iii) *Subsidiaries that become separate publicly held corporations.* Notwithstanding paragraph (j)(1) of this section, if a subsidiary of a publicly held corporation becomes a separate publicly held corporation as described in paragraph (f)(4)(i) of this section, then, for the duration of the reliance period described in paragraph (f)(2) of this section, the rules of paragraph (f)(1) of

this section are treated as applying (and the rules of paragraph (f)(4) of this section do not apply) to remuneration paid to covered employees of that new publicly held corporation pursuant to a plan or agreement that existed prior to December 2, 1994, provided that the treatment of that remuneration as performance-based is in accordance with a reasonable, good faith interpretation of section 162(m). However, if remuneration is paid to covered employees of that new publicly held corporation pursuant to a plan or agreement that existed prior to December 2, 1994, but that remuneration is not performance-based under a reasonable, good faith interpretation of section 162(m), the rules of paragraph (f)(1) of this section will be treated as applying only until the first regularly scheduled meeting of shareholders that occurs more than 12 months after December 2, 1994. The rules of paragraph (f)(4) of this section will apply as of that first regularly scheduled meeting. The rule for stock-based compensation set forth in paragraph (f)(3) of this section will apply for purposes of this paragraph (j)(2)(iii), except that the grant must occur before the shareholder meeting specified in the preceding sentence if the remuneration is not performance-based under a reasonable, good faith interpretation of section 162(m). Taxpayers may choose to rely on the rules of paragraph (f)(4) of this section for the period prior to the applicable effective date referred to in the first or second sentence of this paragraph (j)(2)(iii).

(iv) *Bonus pools.* Notwithstanding paragraph (j)(1) of this section, the rules in paragraph (e)(2)(iii)(A) that limit the sum of individual percentages of a bonus pool to 100 percent will not apply to remuneration paid before January 1, 2001, based on performance in any performance period that began prior to December 20, 1995.

(v) *Compensation based on a percentage of salary or base pay.* Notwithstanding paragraph (j)(1) of this section, the requirement in paragraph (e)(4)(i) of this section that, in the case of certain formulas based on a percentage of salary or base pay, a corporation disclose to shareholders the maximum dollar amount of compensation that could be paid to the employee, will apply only

to plans approved by shareholders after April 30, 1995.

(vi) The modifications to paragraphs (e)(2)(vi)(A), (e)(2)(vii) *Example 9*, and (e)(4)(iv) of this section concerning the maximum number of shares with respect to which a stock option or stock appreciation right that may be granted and the amount of compensation that may be paid to any individual employee apply to compensation attributable to stock options and stock appreciation rights that are granted on or after June 24, 2011. The last two sentences of § 1.162-27(f)(3) apply to remuneration that is otherwise deductible resulting from a stock option, stock appreciation right, restricted stock (or other property), restricted stock unit, or any other form of equity-based remuneration that is granted on or after April 1, 2015.

[T.D. 8650, 60 FR 65537, Dec. 20, 1995, as amended at 61 FR 4350, Feb. 6, 1996; T.D. 9716, 80 FR 16972, Mar. 31, 2015; T.D. 9932, 85 FR 86492, Dec. 30, 2020]

§ 1.162-28 Allocation of costs to lobbying activities.

(a) *Introduction*—(1) *In general.* Section 162(e)(1) denies a deduction for certain amounts paid or incurred in connection with activities described in section 162(e)(1) (A) and (D) (*lobbying activities*). To determine the nondeductible amount, a taxpayer must allocate costs to lobbying activities. This section describes costs that must be allocated to lobbying activities and prescribes rules permitting a taxpayer to use a reasonable method to allocate those costs. This section does not apply to taxpayers subject to section 162(e)(5)(A). In addition, this section does not apply for purposes of sections 4911 and 4945 and the regulations thereunder.

(2) *Recordkeeping.* For recordkeeping requirements, see section 6001 and the regulations thereunder.

(b) *Reasonable method of allocating costs*—(1) *In general.* A taxpayer must use a reasonable method to allocate the costs described in paragraph (c) of this section to lobbying activities. A method is not reasonable unless it is applied consistently and is consistent with the special rules in paragraph (g) of this section. Except as provided in

paragraph (b)(2) of this section, reasonable methods of allocating costs to lobbying activities include (but are not limited to)—

(i) The ratio method described in paragraph (d) of this section;

(ii) The gross-up method described in paragraph (e) of this section; and

(iii) A method that applies the principles of section 263A and the regulations thereunder (see paragraph (f) of this section).

(2) *Taxpayers not permitted to use certain methods.* A taxpayer (other than one subject to section 6033(e)) that does not pay or incur reasonable labor costs for persons engaged in lobbying activities may not use the gross-up method. For example, a partnership or sole proprietorship in which the lobbying activities are performed by the owners who do not receive a salary or guaranteed payment for services does not pay or incur reasonable labor costs for persons engaged in those activities and may not use the gross-up method.

(c) *Costs allocable to lobbying activities*—(1) *In general.* Costs properly allocable to lobbying activities include labor costs and general and administrative costs.

(2) *Labor costs.* For each taxable year, labor costs include costs attributable to full-time, part-time, and contract employees. Labor costs include all elements of compensation, such as basic compensation, overtime pay, vacation pay, holiday pay, sick leave pay, payroll taxes, pension costs, employee benefits, and payments to a supplemental unemployment benefit plan.

(3) *General and administrative costs.* For each taxable year, general and administrative costs include depreciation, rent, utilities, insurance, maintenance costs, security costs, and other administrative department costs (for example, payroll, personnel, and accounting).

(d) *Ratio method*—(1) *In general.* Under the ratio method described in this paragraph (d), a taxpayer allocates to lobbying activities the sum of its third-party costs (as defined in paragraph (d)(5) of this section) allocable to lobbying activities and the costs determined by using the following formula:

$$\frac{\text{Lobbying labor hours}}{\text{Total labor hours}} \times \text{Total costs of operations.}$$

(2) *Lobbying labor hours.* Lobbying labor hours are the hours that a taxpayer's personnel spend on lobbying activities during the taxable year. A taxpayer may use any reasonable method to determine the number of labor hours spent on lobbying activities and may use the de minimis rule of paragraph (g)(1) of this section. A taxpayer may treat as zero the lobbying labor hours of personnel engaged in secretarial, clerical, support, and other administrative activities (as opposed to activities involving significant judgment with respect to lobbying activities). Thus, for example, the hours spent on lobbying activities by para-professionals and analysts may not be treated as zero.

(3) *Total labor hours.* Total labor hours means the total number of hours that a taxpayer's personnel spend on a taxpayer's trade or business during the taxable year. A taxpayer may make reasonable assumptions concerning total hours spent by personnel on the taxpayer's trade or business. For example, it may be reasonable, based on all the facts and circumstances, to assume that all full-time personnel spend 1,800 hours per year on a taxpayer's trade or business. If, under paragraph (d)(2) of this section, a taxpayer treats as zero the lobbying labor hours of personnel engaged in secretarial, clerical, support, and other administrative activi-

ties, the taxpayer must also treat as zero the total labor hours of all personnel engaged in those activities.

(4) *Total costs of operations.* A taxpayer's total costs of operations means the total costs of the taxpayer's trade or business for a taxable year, excluding third-party costs (as defined in paragraph (d)(5) of this section).

(5) *Third-party costs.* Third-party costs are amounts paid or incurred in whole or in part for lobbying activities conducted by third parties (such as amounts paid to taxpayers subject to section 162(e)(5)(A) or dues or other similar amounts that are not deductible in whole or in part under section 162(e)(3)) and amounts paid or incurred for travel (including meals and lodging while away from home) and entertainment relating in whole or in part to lobbying activities.

(6) *Example.* The provisions of this paragraph (d) are illustrated by the following example.

Example. (i) In 1996, three full-time employees, A, B, and C, of Taxpayer W engage in both lobbying activities and nonlobbying activities. A spends 300 hours, B spends 1,700 hours, and C spends 1,000 hours on lobbying activities, for a total of 3,000 hours spent on lobbying activities for W. W reasonably assumes that each of its three employees spends 2,000 hours a year on W's business.

(ii) W's total costs of operations are \$300,000. W has no third-party costs.

(iii) Under the ratio method, X allocates \$150,000 to its lobbying activities for 1996, as follows:

$$\frac{\text{Lobbying labor hours}}{\text{Total labor hours}} \times \text{Total costs of operations} + \text{Allocable third-party costs} = \text{Costs allocable to lobbying activities}$$

$$\left[\frac{300 + 1,700 + 1,000}{6,000} \times \$300,000 \right] + [0] = \$150,000.$$

(e) *Gross-up method*—(1) *In general.* Under the gross-up method described in this paragraph (e)(1), the taxpayer allocates to lobbying activities the sum of its third-party costs (as defined in paragraph (d)(5) of this section) allocable to lobbying activities and 175 percent of its basic lobbying labor costs

(as defined in paragraph (e)(3) of this section) of all personnel.

(2) *Alternative gross-up method.* Under the alternative gross-up method described in this paragraph (e)(2), the taxpayer allocates to lobbying activities the sum of its third-party costs (as

defined in paragraph (d)(5) of this section) allocable to lobbying activities and 225 percent of its basic lobbying labor costs (as defined in paragraph (e)(3)), excluding the costs of personnel who engage in secretarial, clerical, support, and other administrative activities (as opposed to activities involving significant judgment with respect to lobbying activities).

(3) *Basic lobbying labor costs.* For purposes of this paragraph (e), basic lobbying labor costs are the basic costs of lobbying labor hours (as defined in paragraph (d)(2) of this section) determined for the appropriate personnel. For purposes of this paragraph (e), basic costs of lobbying labor hours are wages or other similar costs of labor, including, for example, guaranteed payments for services. Basic costs do not include pension, profit-sharing, em-

ployee benefits, and supplemental unemployment benefit plan costs, or other similar costs.

(4) *Example.* The provisions of this paragraph (e) are illustrated by the following example.

Example. (i) In 1996, three employees, A, B, and C, of Taxpayer X engage in both lobbying activities and nonlobbying activities. A spends 300 hours, B spends 1,700 hours, and C spends 1,000 hours on lobbying activities.

(ii) X has no third-party costs.

(iii) For purposes of the gross-up method, X determines that its basic labor costs are \$20 per hour for A, \$30 per hour for B, and \$25 per hour for C. Thus, its basic lobbying labor costs are $(\$20 \times 300) + (\$30 \times 1,700) + (\$25 \times 1,000)$, or $(\$6,000 + \$51,000 + \$25,000)$, for total basic lobbying labor costs for 1996 of \$82,000.

(iv) Under the gross-up method, X allocates \$143,500 to its lobbying activities for 1996, as follows:

$$\begin{array}{rcl}
 175\% \times \text{Basic lobbying labor costs of all personnel} & + & \text{Allocable third-party costs} = \text{Costs allocable to lobbying activities} \\
 [175\% \times \$82,000] & + & [0] = \$143,500.
 \end{array}$$

(f) *Section 263A cost allocation methods—(1) In general.* A taxpayer may allocate its costs to lobbying activities under the principles set forth in section 263A and the regulations thereunder, except to the extent inconsistent with paragraph (g) of this section. For this purpose, lobbying activities are considered a service department or function. Therefore, a taxpayer may allocate costs to lobbying activities by applying the methods provided in §§ 1.263A-1 through 1.263A-3. See § 1.263A-1(e)(4), which describes service costs generally; § 1.263A-1(f), which sets forth cost allocation methods available under section 263A; and § 1.263A-1(g)(4), which provides methods of allocating service costs.

(2) *Example.* The provisions of this paragraph (f) are illustrated by the following example.

Example. (i) Three full-time employees, A, B, and C, work in the Washington office of Taxpayer Y, a manufacturing concern. They each engage in lobbying activities and nonlobbying activities. In 1996, A spends 75 hours, B spends 1,750 hours, and C spends

2,000 hours on lobbying activities. A's hours are not spent on direct contact lobbying as defined in paragraph (g)(2) of this section. All three work 2,000 hours during 1996. The Washington office also employs one secretary, D, who works exclusively for A, B, and C.

(ii) In addition, three departments in the corporate headquarters in Chicago benefit the Washington office: Public affairs, human resources, and insurance.

(iii) Y is subject to section 263A and uses the step-allocation method to allocate its service costs. Prior to the amendments to section 162(e), the Washington office was treated as an overall management function for purposes of section 263A. As such, its costs were fully deductible and no further allocations were made under Y's step allocation. Following the amendments to section 162(e), Y adopts its 263A step-allocation methodology to allocate costs to lobbying activities. Y adds a lobbying department to its step-allocation program, which results in an allocation of costs to the lobbying department from both the Washington office and the Chicago office.

(iv) Y develops a labor ratio to allocate its Washington office costs between the newly defined lobbying department and the overall management department. To determine the hours allocable to lobbying activities, Y uses

Internal Revenue Service, Treasury

§ 1.162-28

the de minimis rule of paragraph (g)(1) of this section. Under this rule, A's hours spent on lobbying activities are treated as zero because less than 5 percent of A's time is spent on lobbying ($75/2,000 = 3.75\%$). In addition, because D works exclusively for personnel en-

gaged in lobbying activities, D's hours are not used to develop the allocation ratio. Y assumes that D's allocation of time follows the average time of all the personnel engaged in lobbying activities. Thus, Y's labor ratio is determined as follows:

Employee	Departments		
	Lobbying hours	Overall management hours	Total hours
A	0	2,000	2,000
B	1,750	250	2,000
C	2,000	0	2,000
Totals	3,750	2,250	6,000

$$\text{Lobbying Department Ratio} = \frac{3,750}{6,000} = 62.5\%$$

$$\text{Overall Management Department Ratio} = \frac{2,250}{6,000} = 37.5\%$$

(v) In 1996, the Washington office has the following costs:

Account	Amount
Professional Salaries and Benefits	\$660,000
Clerical Salaries and Benefits	50,000
Rent Expense	100,000
Depreciation on Furniture and Equip	40,000
Utilities	15,000
Outside Payroll Service	5,000
Miscellaneous	10,000
Third-Party Lobbying (Law Firm)	90,000
Total Washington Costs	\$970,000

(vi) In addition, \$233,800 of costs from the public affairs department, \$30,000 of costs from the insurance department, and \$5,000 of costs from the human resources department are allocable to the Washington office from departments in Chicago. Therefore, the Washington office costs are allocated to the Lobbying and Overall Management departments as follows:

Total Washington department costs from above	\$970,000
Plus Costs Allocated From Other Departments	268,800
Less third-party costs directly allocable to lobbying	(90,000)
Total Washington office costs	1,148,800

	Lobbying department	Overall management department
Department Allocation Ratios	62.5%	37.5%
× Washington Office Costs	\$1,148,800	\$1,148,800
= Costs Allocated to Departments	\$718,000	\$430,800

(vii) Y's step-allocation for its Lobbying Department is determined as follows:

Y's step-allocation	Lobbying department
Washington costs allocated to lobbying department	\$718,000
Plus third-party costs	90,000
Total costs of lobbying activities	808,000

(g) *Special rules.* The following rules apply to any reasonable method of allocating costs to lobbying activities.

(1) *De minimis rule for labor hours.* Subject to the exception provided in paragraph (g)(2) of this section, a taxpayer may treat time spent by an individual on lobbying activities as zero if less than five percent of the person's time is spent on lobbying activities. Reasonable methods must be used to determine if less than five percent of a person's time is spent on lobbying activities.

(2) *Direct contact lobbying labor hours.* Notwithstanding paragraph (g)(1) of this section, a taxpayer must treat all hours spent by a person on direct contact lobbying (as well as the hours that person spends in connection with direct contact lobbying, including time spent traveling that is allocable to the direct contact lobbying) as labor hours allocable to lobbying activities. An activity is direct contact lobbying if it is a meeting, telephone conversation, letter, or other similar means of communication with a legislator (other than a local legislator) or covered executive branch official (as defined in section 162(e)(6)) and otherwise qualifies as a lobbying activity. A person who engages in research, preparation, and other background activities related to

direct contact lobbying but who does not make direct contact with a legislator or covered executive branch official is not engaged in direct contact lobbying.

(3) *Taxpayer defined.* For purposes of this section, a taxpayer includes a tax-exempt organization subject to section 6033(e).

(h) *Effective date.* This section is effective for amounts paid or incurred on or after July 21, 1995. Taxpayers must adopt a reasonable interpretation of sections 162(e)(1)(A) and (D) for amounts paid or incurred before this date.

[T.D. 8602, 60 FR 37573, July 21, 1995]

§ 1.162-29 Influencing legislation.

(a) *Scope.* This section provides rules for determining whether an activity is influencing legislation for purposes of section 162(e)(1)(A). This section does not apply for purposes of sections 4911 and 4945 and the regulations thereunder.

(b) *Definitions.* For purposes of this section—

(1) *Influencing legislation.* Influencing legislation means—

(i) Any attempt to influence any legislation through a lobbying communication; and

(ii) All activities, such as research, preparation, planning, and coordination, including deciding whether to make a lobbying communication, engaged in for a purpose of making or supporting a lobbying communication, even if not yet made. See paragraph (c) of this section for rules for determining the purposes for engaging in an activity.

(2) *Attempt to influence legislation.* An attempt to influence any legislation through a lobbying communication is making the lobbying communication.

(3) *Lobbying communication.* A lobbying communication is any communication (other than any communication compelled by subpoena, or otherwise compelled by Federal or State law) with any member or employee of a legislative body or any other government official or employee who may participate in the formulation of the legislation that—

(i) Refers to specific legislation and reflects a view on that legislation; or

(ii) Clarifies, amplifies, modifies, or provides support for views reflected in a prior lobbying communication.

(4) *Legislation.* Legislation includes any action with respect to Acts, bills, resolutions, or other similar items by a legislative body. Legislation includes a proposed treaty required to be submitted by the President to the Senate for its advice and consent from the time the President's representative begins to negotiate its position with the prospective parties to the proposed treaty.

(5) *Specific legislation.* Specific legislation includes a specific legislative proposal that has not been introduced in a legislative body.

(6) *Legislative bodies.* Legislative bodies are Congress, state legislatures, and other similar governing bodies, excluding local councils (and similar governing bodies), and executive, judicial, or administrative bodies. For this purpose, administrative bodies include school boards, housing authorities, sewer and water districts, zoning boards, and other similar Federal, State, or local special purpose bodies, whether elective or appointive.

(7) *Examples.* The provisions of this paragraph (b) are illustrated by the following examples.

Example 1. Taxpayer P's employee, A, is assigned to approach members of Congress to gain their support for a pending bill. A drafts and P prints a position letter on the bill. P distributes the letter to members of Congress. Additionally, A personally contacts several members of Congress or their staffs to seek support for P's position on the bill. The letter and the personal contacts are lobbying communications. Therefore, P is influencing legislation.

Example 2. Taxpayer R is invited to provide testimony at a congressional oversight hearing concerning the implementation of The Financial Institutions Reform, Recovery, and Enforcement Act of 1989. Specifically, the hearing concerns a proposed regulation increasing the threshold value of commercial and residential real estate transactions for which an appraisal by a state licensed or certified appraiser is required. In its testimony, R states that it is in favor of the proposed regulation. Because R does not refer to any specific legislation or reflect a view on any such legislation, R has not made a lobbying communication. Therefore, R is not influencing legislation.

Example 3. State X enacts a statute that requires the licensing of all day-care providers.

Agency B in State X is charged with writing rules to implement the statute. After the enactment of the statute, Taxpayer S sends a letter to Agency B providing detailed proposed rules that S recommends Agency B adopt to implement the statute on licensing of day-care providers. Because the letter to Agency B neither refers to nor reflects a view on any specific legislation, it is not a lobbying communication. Therefore, S is not influencing legislation.

Example 4. Taxpayer T proposes to a State Park Authority that it purchase a particular tract of land for a new park. Even if T's proposal would necessarily require the State Park Authority eventually to seek appropriations to acquire the land and develop the new park, T has not made a lobbying communication because there has been no reference to, nor any view reflected on, any specific legislation. Therefore, T's proposal is not influencing legislation.

Example 5. (i) Taxpayer U prepares a paper that asserts that lack of new capital is hurting State X's economy. The paper indicates that State X residents either should invest more in local businesses or increase their savings so that funds will be available to others interested in making investments. U forwards a summary of the unpublished paper to legislators in State X with a cover letter that states in part:

You must take action to improve the availability of new capital in the state.

(ii) Because neither the summary nor the cover letter refers to any specific legislative proposal and no other facts or circumstances indicate that they refer to an existing legislative proposal, forwarding the summary to legislators in State X is not a lobbying communication. Therefore, U is not influencing legislation.

(iii) Q, a member of the legislature of State X, calls U to request a copy of the unpublished paper from which the summary was prepared. U forwards the paper with a cover letter that simply refers to the enclosed materials. Because U's letter to Q and the unpublished paper do not refer to any specific legislation or reflect a view on any such legislation, the letter is not a lobbying communication. Therefore, U is not influencing legislation.

Example 6. (i) Taxpayer V prepares a paper that asserts that lack of new capital is hurting the national economy. The paper indicates that lowering the capital gains rate would increase the availability of capital and increase tax receipts from the capital gains tax. V forwards the paper to its representatives in Congress with a cover letter that says, in part:

I urge you to support a reduction in the capital gains tax rate.

(ii) V's communication is a lobbying communication because it refers to and reflects a view on a specific legislative proposal (*i.e.*,

lowering the capital gains rate). Therefore, V is influencing legislation.

Example 7. Taxpayer W, based in State A, notes in a letter to a legislator of State A that State X has passed a bill that accomplishes a stated purpose and then says that State A should pass such a bill. No such bill has been introduced into the State A legislature. The communication is a lobbying communication because it refers to and reflects a view on a specific legislative proposal. Therefore, W is influencing legislation.

Example 8. (i) Taxpayer Y represents citrus fruit growers. Y writes a letter to a United States senator discussing how pesticide O has benefited citrus fruit growers and disputing problems linked to its use. The letter discusses a bill pending in Congress and states in part:

This bill would prohibit the use of pesticide O. If citrus growers are unable to use this pesticide, their crop yields will be severely reduced, leading to higher prices for consumers and lower profits, even bankruptcy, for growers.

(ii) Y's views on the bill are reflected in this statement. Thus, the communication is a lobbying communication, and Y is influencing legislation.

Example 9. (i) B, the president of Taxpayer Z, an insurance company, meets with Q, who chairs the X state legislature's committee with jurisdiction over laws regulating insurance companies, to discuss the possibility of legislation to address current problems with surplus-line companies. B recommends that legislation be introduced that would create minimum capital and surplus requirements for surplus-line companies and create clearer guidelines concerning the risks that surplus-line companies can insure. B's discussion with Q is a lobbying communication because B refers to and reflects a view on a specific legislative proposal. Therefore, Z is influencing legislation.

(ii) Q is not convinced that the market for surplus-line companies is substantial enough to warrant such legislation and requests that B provide information on the amount and types of risks covered by surplus-line companies. After the meeting, B has employees of Z prepare estimates of the percentage of property and casualty insurance risks handled by surplus-line companies. B sends the estimates with a cover letter that simply refers to the enclosed materials. Although B's follow-up letter to Q does not refer to specific legislation or reflect a view on such legislation, B's letter supports the views reflected in the earlier communication. Therefore, the letter is a lobbying communication and Z is influencing legislation.

(c) *Purpose for engaging in an activity*—(1) *In general.* The purposes for engaging in an activity are determined

based on all the facts and circumstances. Facts and circumstances include, but are not limited to—

(i) Whether the activity and the lobbying communication are proximate in time;

(ii) Whether the activity and the lobbying communication relate to similar subject matter;

(iii) Whether the activity is performed at the request of, under the direction of, or on behalf of a person making the lobbying communication;

(iv) Whether the results of the activity are also used for a nonlobbying purpose; and

(v) Whether, at the time the taxpayer engages in the activity, there is specific legislation to which the activity relates.

(2) *Multiple purposes.* If a taxpayer engages in an activity both for the purpose of making or supporting a lobbying communication and for some nonlobbying purpose, the taxpayer must treat the activity as engaged in partially for a lobbying purpose and partially for a nonlobbying purpose. This division of the activity must result in a reasonable allocation of costs to influencing legislation. See § 1.162-28 (allocation rules for certain expenditures to which section 162(e)(1) applies). A taxpayer's treatment of these multiple-purpose activities will, in general, not result in a reasonable allocation if it allocates to influencing legislation—

(i) Only the incremental amount of costs that would not have been incurred but for the lobbying purpose; or

(ii) An amount based solely on the number of purposes for engaging in that activity without regard to the relative importance of those purposes.

(3) *Activities treated as having no purpose to influence legislation.* A taxpayer that engages in any of the following activities is treated as having done so without a purpose of making or supporting a lobbying communication—

(i) Before evidencing a purpose to influence any specific legislation referred to in paragraph (c)(3)(i)(A) or (B) of this section (or similar legislation)—

(A) Determining the existence or procedural status of specific legislation, or the time, place, and subject of any hearing to be held by a legislative body with respect to specific legislation; or

(B) Preparing routine, brief summaries of the provisions of specific legislation;

(ii) Performing an activity for purposes of complying with the requirements of any law (for example, satisfying state or federal securities law filing requirements);

(iii) Reading any publications available to the general public or viewing or listening to other mass media communications; and

(iv) Merely attending a widely attended speech.

(4) *Examples.* The provisions of this paragraph (c) are illustrated by the following examples.

Example 1. (i) *Facts.* In 1997, Agency F issues proposed regulations relating to the business of Taxpayer W. There is no specific legislation during 1997 that is similar to the regulatory proposal. W undertakes a study of the impact of the proposed regulations on its business. W incorporates the results of that study in comments sent to Agency F in 1997. In 1998, legislation is introduced in Congress that is similar to the regulatory proposal. Also in 1998, W writes a letter to Senator P stating that it opposes the proposed legislation. W encloses with the letter a copy of the comments it sent to Agency F.

(ii) *Analysis.* W's letter to Senator P refers to and reflects a view on specific legislation and therefore is a lobbying communication. Although W's study of the impact of the proposed regulations is proximate in time and similar in subject matter to its lobbying communication, W performed the study and incorporated the results in comments sent to Agency F when no legislation with a similar subject matter was pending (a nonlobbying use). On these facts, W engaged in the study solely for a nonlobbying purpose.

Example 2. (i) *Facts.* The governor of State Q proposes a budget that includes a proposed sales tax on electricity. Using its records of electricity consumption, Taxpayer Y estimates the additional costs that the budget proposal would impose upon its business. In the same year, Y writes to members of the state legislature and explains that it opposes the proposed sales tax. In its letter, Y includes its estimate of the costs that the sales tax would impose on its business. Y does not demonstrate any other use of its estimates.

(ii) *Analysis.* The letter is a lobbying communication (because it refers to and reflects a view on specific legislation, the governor's proposed budget). Y's estimate of additional costs under the proposal supports the lobbying communication, is proximate in time and similar in subject matter to a specific legislative proposal then in existence, and is not used for a nonlobbying purpose. Based on

these facts, Y estimated its additional costs under the budget proposal solely to support the lobbying communication.

Example 3. (i) *Facts.* A senator in the State Q legislature announces her intention to introduce legislation to require health insurers to cover a particular medical procedure in all policies sold in the state. Taxpayer Y has different policies for two groups of employees, one of which covers the procedure and one of which does not. After the bill is introduced, Y's legislative affairs staff asks Y's human resources staff to estimate the additional cost to cover the procedure for both groups of employees. Y's human resources staff prepares a study estimating Y's increased costs and forwards it to the legislative affairs staff. Y's legislative staff then writes to members of the state legislature and explains that it opposes the proposed change in insurance coverage based on the study. Y's legislative affairs staff thereafter forwards the study, prepared for its use in opposing the statutory proposal, to its labor relations staff for use in negotiations with employees scheduled to begin later in the year.

(ii) *Analysis.* The letter to legislators is a lobbying communication (because it refers to and reflects a view on specific legislation). The activity of estimating Y's additional costs under the proposed legislation relates to the same subject as the lobbying communication, occurs close in time to the lobbying communication, is conducted at the request of a person making a lobbying communication, and relates to specific legislation then in existence. Although Y used the study in its labor negotiations, mere use for that purpose does not establish that Y estimated its additional costs under the proposed legislation in part for a nonlobbying purpose. Thus, based on all the facts and circumstances, Y estimated the additional costs it would incur under the proposal solely to make or support the lobbying communication.

Example 4. (i) *Facts.* After several years of developmental work under various contracts, in 1996, Taxpayer A contracts with the Department of Defense (DOD) to produce a prototype of a new generation military aircraft. A is aware that DOD will be able to fund the contract only if Congress appropriates an amount for that purpose in the upcoming appropriations process. In 1997, A conducts simulation tests of the aircraft and revises the specifications of the aircraft's expected performance capabilities, as required under the contract. A submits the results of the tests and the revised specifications to DOD. In 1998, Congress considers legislation to appropriate funds for the contract. In that connection, A summarizes the results of the simulation tests and of the aircraft's expected performance capabilities, and submits the summary to interested members of Congress

with a cover letter that encourages them to support appropriations of funds for the contract.

(ii) *Analysis.* The letter is a lobbying communication (because it refers to specific legislation (*i.e.*, appropriations) and requests passage). The described activities in 1996, 1997, and 1998 relate to the same subject as the lobbying communication. The summary was prepared specifically for, and close in time to, that communication. Based on these facts, the summary was prepared solely for a lobbying purpose. In contrast, A conducted the tests and revised the specifications to comply with its production contract with DOD. A conducted the tests and revised the specifications solely for a nonlobbying purpose.

Example 5. (i) *Facts.* C, president of Taxpayer W, travels to the state capital to attend a two-day conference on new manufacturing processes. C plans to spend a third day in the capital meeting with state legislators to explain why W opposes a pending bill unrelated to the subject of the conference. At the meetings with the legislators, C makes lobbying communications by referring to and reflecting a view on the pending bill.

(ii) *Analysis.* C's traveling expenses (transportation and meals and lodging) are partially for the purpose of making or supporting the lobbying communications and partially for a nonlobbying purpose. As a result, under paragraph (c)(2) of this section, W must reasonably allocate C's traveling expenses between these two purposes. Allocating to influencing legislation only C's incremental transportation expenses (*i.e.*, the taxi fare to meet with the state legislators) does not result in a reasonable allocation of traveling expenses.

Example 6. (i) *Facts.* On February 1, 1997, a bill is introduced in Congress that would affect Company E. Employees in E's legislative affairs department, as is customary, prepare a brief summary of the bill and periodically confirm the procedural status of the bill through conversations with employees and members of Congress. On March 31, 1997, the head of E's legislative affairs department meets with E's President to request that B, a chemist, temporarily help the legislative affairs department analyze the bill. The President agrees, and suggests that B also be assigned to draft a position letter in opposition to the bill. Employees of the legislative affairs department continue to confirm periodically the procedural status of the bill. On October 31, 1997, B's position letter in opposition to the bill is delivered to members of Congress.

(ii) *Analysis.* B's letter is a lobbying communication because it refers to and reflects a view on specific legislation. Under paragraph (c)(3)(i) of this section, the assignment

of B to assist the legislative affairs department in analyzing the bill and in drafting a position letter in opposition to the bill evidences a purpose to influence legislation. Neither the activity of periodically confirming the procedural status of the bill nor the activity of preparing the routine, brief summary of the bill before March 31 constitutes influencing legislation. In contrast, periodically confirming the procedural status of the bill on or after March 31 relates to the same subject as, and is close in time to, the lobbying communication and is used for no nonlobbying purpose. Consequently, after March 31, E determined the procedural status of the bill for the purpose of supporting the lobbying communication by B.

(d) *Lobbying communication made by another.* If a taxpayer engages in activities for a purpose of supporting a lobbying communication to be made by another person (or by a group of persons), the taxpayer's activities are treated under paragraph (b) of this section as influencing legislation. For example, if a taxpayer or an employee of the taxpayer (as a volunteer or otherwise) engages in an activity to assist a trade association in preparing its lobbying communication, the taxpayer's activities are influencing legislation even if the lobbying communication is made by the trade association and not the taxpayer. If, however, the taxpayer's employee, acting outside the employee's scope of employment, volunteers to engage in those activities, then the taxpayer is not influencing legislation.

(e) *No lobbying communication.* Paragraph (e) of this section applies if a taxpayer engages in an activity for a purpose of making or supporting a lobbying communication, but no lobbying communication that the activity supports has yet been made.

(1) *Before the filing date.* Under this paragraph (e)(1), if on the filing date of the return for any taxable year the taxpayer no longer expects, under any reasonably foreseeable circumstances, that a lobbying communication will be made that is supported by the activity, then the taxpayer will be treated as if it did not engage in the activity for a purpose of making or supporting a lobbying communication. Thus, the taxpayer need not treat any amount allocated to that activity for that year under § 1.162-28 as an amount to which section 162(e)(1)(A) applies. The filing

date for purposes of paragraph (e) of this section is the earlier of the time the taxpayer files its timely return for the year or the due date of the timely return.

(2) *After the filing date—(i) In general.* If, at any time after the filing date, the taxpayer no longer expects, under any reasonably foreseeable circumstances, that a lobbying communication will be made that is supported by the activity, then any amount previously allocated under § 1.162-28 to the activity and disallowed under section 162(e)(1)(A) is treated as an amount that is not subject to section 162(e)(1)(A) and that is paid or incurred only at the time the taxpayer no longer expects that a lobbying communication will be made.

(ii) *Special rule for certain tax-exempt organizations.* For a tax-exempt organization subject to section 6033(e), the amounts described in paragraph (e)(2)(i) of this section are treated as reducing (but not below zero) its expenditures to which section 162(e)(1) applies beginning with that year and continuing for subsequent years to the extent not treated in prior years as reducing those expenditures.

(f) *Anti-avoidance rule.* If a taxpayer, alone or with others, structures its activities with a principal purpose of achieving results that are unreasonable in light of the purposes of section 162(e)(1)(A) and section 6033(e), the Commissioner can recast the taxpayer's activities for federal tax purposes as appropriate to achieve tax results that are consistent with the intent of section 162(e)(1)(A), section 6033(e) (if applicable), and this section, and the pertinent facts and circumstances.

(g) *Taxpayer defined.* For purposes of this section, a taxpayer includes a tax-exempt organization subject to section 6033(e).

(h) *Effective date.* This section is effective for amounts paid or incurred on or after July 21, 1995. Taxpayers must adopt a reasonable interpretation of section 162(e)(1)(A) for amounts paid or incurred before this date.

[T.D. 8602, 60 FR 37575, July 21, 1995]

§ 1.162-31 The \$500,000 deduction limitation for remuneration provided by certain health insurance providers.

(a) *Scope.* This section sets forth rules regarding the deduction limitation under section 162(m)(6), which provides that a covered health insurance provider's deduction for applicable individual remuneration (AIR) and deferred deduction remuneration (DDR) attributable to services performed by an applicable individual in a disqualified taxable year is limited to \$500,000. Paragraph (b) of this section sets forth definitions of the terms used in this section. Paragraph (c) of this section explains the general limitation on deductions under section 162(m)(6). Paragraph (d) of this section sets forth the methods that must be used to attribute AIR and DDR to services performed in one or more taxable years of a covered health insurance provider. Paragraph (e) of this section sets forth rules on how the deduction limit applies to AIR and DDR that is otherwise deductible under chapter 1 of the Internal Revenue Code (Code) but for the deduction limitation under section 162(m)(6) (referred to in this section as remuneration that is otherwise deductible). Paragraph (f) of this section sets forth additional rules for persons participating in certain corporate transactions. Paragraph (g) of this section explains the interaction of section 162(m)(6) with sections 162(m)(1) and 280G. Paragraph (h) of this section sets forth rules for determining the amounts of remuneration that are not subject to the deduction limitation under section 162(m)(6) due to the statutory effective date (referred to in this section as grandfathered amounts). Paragraph (i) of this section sets forth transition rules for DDR that is attributable to services performed in taxable years beginning after December 31, 2009 and before January 1, 2013. Paragraph (j) of this section sets forth the effective and applicability dates of the rules in this section.

(b) *Definitions*—(1) *Health insurance issuer.* For purposes of this section, a *health insurance issuer* is a health insurance issuer as defined in section 9832(b)(2).

(2) *Aggregated group.* For purposes of this section, an *aggregated group* is a health insurance issuer and each other person that is treated as a single employer with the health insurance issuer at any time during the taxable year of the health insurance issuer under sections 414(b) (controlled groups of corporations), 414(c) (partnerships, proprietorships, etc. under common control), 414(m) (affiliated service groups), or 414(o), except that the rules in section 1563(a)(2) and (3) (with respect to corporations) and § 1.414(c)-2(c) and (d) (with respect to trades or businesses under common control) for brother-sister groups and combined groups are disregarded.

(3) *Parent entity*—(i) *In general.* For purposes of this section, a *parent entity* is either—

(A) The common parent of a parent-subsidary controlled group of corporations (within the meaning of section 414(b)) or a parent-subsidary group of trades or businesses under common control (within the meaning of section 414(c)) that includes a health insurance issuer, or

(B) the health insurance issuer in an aggregated group that is an affiliated service group (within the meaning of section 414(m)) or a group described in section 414(o).

(ii) *Certain aggregated groups with multiple health insurance issuers*—(A) *In general.* If two or more health insurance issuers are members of an aggregated group that is an affiliated service group (within the meaning of section 414(m)) or group described in section 414(o), the parent entity is the health insurance issuer in the aggregated group that is designated in writing by the other members of the aggregated group to act as the parent entity.

(B) *Successor parent entities.* If a health insurance issuer that is the parent entity of an aggregated group pursuant to paragraph (b)(3)(ii)(A) of this section (a predecessor parent entity) ceases to be a member of the aggregated group (for example, as a result of a corporate transaction) and, after the predecessor parent entity ceases to be a member of the aggregated group, two or more health insurance issuers are members of the aggregated group, the

new parent entity (the successor parent entity) is another member of the aggregated group designated in writing by the remaining members of the aggregated group. The successor parent entity must be a health insurance issuer in the aggregated group that has the same taxable year as the predecessor parent entity; provided, however, that if no health insurance issuer in the aggregated group has the same taxable year as the predecessor parent entity, the members of the aggregated group may designate in writing any other health insurance issuer in the aggregated group to be the parent entity.

(C) *Failure to designate a parent entity.* If the members of an aggregated group that includes two or more health insurance issuers and that is an affiliated service group (within the meaning of section 414(m)) or a group described in section 414(o) fail to designate in writing a health insurance issuer to act as the parent entity of the aggregated group, the parent entity of the aggregated group for all taxable years is deemed to be an entity with a taxable year that is the calendar year (without regard to whether the aggregated group includes or has ever included an entity with a calendar year taxable year) for all purposes under this section for which a parent entity's taxable year is relevant.

(4) *Covered health insurance provider—*
(i) *In general.* For purposes of this section and except as otherwise provided in this paragraph (b)(4), a *covered health insurance provider* is—

(A) A health insurance issuer for any of its taxable years beginning after December 31, 2012 in which at least 25 percent of the gross premiums it receives from providing health insurance coverage (as defined in section 9832(b)(1)) are from providing minimum essential coverage (as defined in section 5000A(f)),

(B) a health insurance issuer for any of its taxable years beginning after December 31, 2009 and before January 1, 2013 in which it receives premiums from providing health insurance coverage (as defined in section 9832(b)(1)),

(C) the parent entity of an aggregated group of which one or more health insurance issuers described in paragraphs (b)(4)(i)(A) or (B) of this

section are members for the taxable year of the parent entity with which, or in which, ends the taxable year of any such health insurance issuer; however, if the parent entity of an aggregated group is a health insurance issuer described in paragraphs (b)(4)(i)(A) or (B) of this section, that health insurance issuer is a covered health insurance provider for any taxable year that it is otherwise a covered health insurance provider, without regard to whether the taxable year of any other health insurance issuer described in paragraphs (b)(4)(i)(A) or (B) of this section ends with or within its taxable year, and

(D) each other member of an aggregated group of which one or more health insurance issuers described in paragraphs (b)(4)(i)(A) or (B) of this section are members for the taxable year of the other member ending with, or within, the parent entity's taxable year.

(ii) *Parent entities with short taxable years.* If for any reason a parent entity has a taxable year that is less than 12 months (for example, because the taxable year of a predecessor parent entity ends when it ceases to be a member of an aggregated group), then, for purposes of determining whether the parent entity and each other member of the aggregated group is a covered health insurance provider with respect to the parent entity's short taxable year (that is, for purposes of determining whether the taxable year of a health insurance issuer described in paragraph (b)(4)(i)(A) or (B) of this section ends with or within the short taxable year of the parent entity and for purposes of determining whether another member of the aggregated group has a taxable year ending with or within the short taxable year of the parent entity), the taxable year of the parent entity is treated as the 12-month period ending on the last day of the short taxable year. Accordingly, a parent entity is a covered health insurance provider for its short taxable year if it is a health insurance issuer described in paragraph (b)(4)(i)(A) or (B) of this section or if the taxable year of a health insurance issuer described in paragraph (b)(4)(i)(A) or (B) of this section in an

aggregated group with the parent entity ends with or within the 12-month period ending on the last day of the parent entity's short taxable year. Similarly, each other member of the parent entity's aggregated group is a covered health insurance provider for its taxable year ending with or within the 12-month period ending on the last day of the parent entity's short taxable year.

(iii) *Predecessor and successor parent entities.* If the parent entity of an aggregated group changes, the members of the aggregated group may be covered health insurance providers based on their relationship to either or both parent entities with respect to the taxable years of the parent entities in which the change occurs.

(iv) *Self-insured plans.* For purposes of this section, a person is not a covered health insurance provider solely because it maintains a self-insured medical reimbursement plan. For this purpose, a self-insured medical reimbursement plan is a separate written plan for the benefit of employees (including former employees) that provides for reimbursement of medical expenses referred to in section 105(b) and does not provide for reimbursement under an individual or group policy of accident or health insurance issued by a licensed insurance company or under an arrangement in the nature of a prepaid health care plan that is regulated under federal or state law in a manner similar to the regulation of insurance companies, and may include a plan maintained by an employee organization described in section 501(c)(9).

(v) *De minimis exception—(A) In general.* A health insurance issuer and any member of its aggregated group that would otherwise be a covered health insurance provider under paragraph (b)(4)(i), (ii), or (iii) of this section for a taxable year beginning after December 31, 2012 is not a covered health insurance provider under this section for that taxable year if the premiums received by the health insurance issuer and any other health insurance issuers in its aggregated group from providing health insurance coverage (as defined in section 9832(b)(1)) that constitutes minimum essential coverage (as defined in section 5000A(f)) are less than two percent of the gross revenues of

the health insurance issuer and all other members of its aggregated group for that taxable year. A health insurance issuer and any member of its aggregated group that would otherwise be a covered health insurance provider under paragraph (b)(4)(i), (ii), or (iii) of this section for a taxable year beginning after December 31, 2009 and before January 1, 2013 is not a covered health insurance provider for purposes of this section for that taxable year if the premiums received by the health insurance issuer and any other health insurance issuers in its aggregated group from providing health insurance coverage (as defined in section 9832(b)(1)) are less than two percent of the gross revenues of the health insurance issuer and all other members of its aggregated group for that taxable year. In determining whether premiums constitute less than two percent of gross revenues, the amount of gross revenues must be determined in accordance with generally accepted accounting principles. For the definition of the term *premiums*, see paragraph (b)(5) of this section. A person that would be a covered health insurance provider for a taxable year in an aggregated group with a predecessor parent entity and that would also be a covered health insurance provider for that taxable year in an aggregated group with a successor parent entity is not a covered health insurance provider under the *de minimis* exception only if the aggregated groups of which the person is a member meet the requirements of the *de minimis* exception based on both the taxable year of the predecessor parent entity and the taxable year of the successor parent entity.

(B) *One-year de minimis exception transition period.* If a health insurance issuer or a member of an aggregated group is not a covered health insurance provider for a taxable year solely by reason of the *de minimis* exception described in paragraph (b)(4)(v)(A) of this section, but fails to meet the requirements of the *de minimis* exception described in paragraph (b)(4)(v)(A) of this section for the immediately following taxable year, that health insurance issuer or member of an aggregated

group will not be a covered health insurance provider for that immediately following taxable year.

(vi) *Examples.* The following examples illustrate the principles of this paragraph (b)(4). For purposes of these examples, each corporation has a taxable year that is the calendar year, unless the example provides otherwise.

Example 1. (i) Corporations Y and Z are members of an aggregated group under paragraph (b)(2) of this section. Y is a health insurance issuer that is a covered health insurance provider pursuant to paragraph (b)(4)(i)(A) of this section and receives premiums from providing health insurance coverage that is minimum essential coverage during its 2015 taxable year in an amount that is less than two percent of the combined gross revenues of Y and Z for their 2015 taxable years. Z is not a health insurance issuer.

(ii) Y and Z are not covered health insurance providers under paragraph (b)(4) of this section for their 2015 taxable years because they meet the requirements of the *de minimis* exception under paragraph (b)(4)(v)(A) of this section.

Example 2. (i) Corporations V, W, and X are members of an aggregated group under paragraph (b)(2) of this section. V is a health insurance issuer that is a covered health insurance provider pursuant to paragraph (b)(4)(i)(A) of this section, but neither W nor X is a health insurance issuer. W is the parent entity of the aggregated group. V's taxable year ends on December 31, W's taxable year ends on June 30, and X's taxable year ends on September 30. For its taxable year ending December 31, 2016, V receives \$3x of premiums from providing minimum essential coverage and has no other revenue. For its taxable year ending June 30, 2017, W has \$100x in gross revenue. For its taxable year ending September 30, 2016, X has \$60x in gross revenue.

(ii) But for the *de minimis* exception, V (the health insurance issuer) would be a covered health insurance provider for its taxable year ending December 31, 2016; W (the parent entity) would be a covered health insurance provider for its taxable year ending June 30, 2017 (its taxable year with which, or within which, ends the taxable year of the health insurance issuer); and X (the other member of the aggregated group) would be a covered health insurance provider for its taxable year ending on September 30, 2016 (its taxable year ending with, or within, the taxable year of the parent entity). However, the premiums received by V (the health insurance issuer) from providing minimum essential coverage during the taxable year that it would otherwise be a covered health insurance provider under paragraph (b)(4)(i)(A) of

this section are less than two percent of the combined gross revenues of V, W, and X for the related taxable years that they would otherwise be covered health insurance providers under paragraph (b)(4)(i) of this section (\$3x is less than \$3.26x (two percent of \$163x)). Therefore, the *de minimis* exception of paragraph (b)(4)(v)(A) of this section applies, and V, W, and X are not covered health insurance providers for these taxable years.

Example 3. (i) The facts are the same as *Example 2*, except that V receives \$4x of premiums for providing minimum essential coverage for its taxable year ending December 31, 2016. In addition, the members of the VWX aggregated group were not covered health insurance providers for their taxable years ending December 31, 2015, June 30, 2016, and September 30, 2015, respectively (their immediately preceding taxable years) solely by reason of the *de minimis* exception of paragraph (b)(4)(v)(A) of this section.

(ii) Although the premiums received by the members of the aggregated group from providing minimum essential coverage are more than two percent of the gross revenues of the aggregated group for the taxable years during which the members would otherwise be treated as covered health insurance providers under paragraph (b)(4)(i) of this section (\$4x is greater than \$3.28x (two percent of \$164x)), they were not covered health insurance providers for their immediately preceding taxable years solely because of the *de minimis* exception of paragraph (b)(4)(v)(A) of this section. Therefore, V, W, and X are not covered health insurance providers for their taxable years ending on December 31, 2016, June 30, 2017, and September 30, 2016, respectively, because of the one-year transition period under paragraph (b)(4)(v)(B) of this section. However, the members of the VWX aggregated group will be covered health insurance providers for their subsequent taxable years if they would otherwise be covered health insurance providers for those taxable years under paragraph (b)(4) of this section.

Example 4. (i) Corporations W, X, Y, and Z are members of a controlled group described in section 414(b) that is an aggregated group under paragraph (b)(2) of this section. W and X are health insurance issuers. Y and Z are not health insurance issuers. W is the parent entity of the aggregated group. W's and Y's taxable years end on December 31; X's taxable year ends on March 31; and Z's taxable year ends on June 30. As a result of a corporate transaction, W is no longer a member of the WXYZ aggregated group as of September 30, 2016, and W's taxable year ends on that date. Following the corporate transaction, X becomes the parent entity of the XYZ aggregated group.

(ii) Because W's taxable year is treated as the 12-month period ending on September 30, 2016, W is the parent entity for X's taxable year ending March 31, 2016, Z's taxable year

ending June 30, 2016, and Y's taxable year ending December 31, 2015. Because X's taxable year begins on April 1, 2016 and ends on March 31, 2017, for purposes of paragraph (b)(4) of this section, X is the parent entity for Z's taxable year ending June 30, 2016, Y's taxable year ending December 31, 2016, and W's taxable year ending September 30, 2016.

Example 5. (i) The facts are the same as *Example 4*. In addition, W receives \$4x of premiums for providing minimum essential coverage and no other revenue for its taxable year beginning January 1, 2016 and ending September 30, 2016. X receives \$2x of premiums for providing minimum essential coverage and has no other revenue for its taxable year ending March 31, 2016. X receives \$1x of premiums for providing minimum essential coverage and no other revenue for its taxable year ending March 31, 2017. For its taxable year ending December 31, 2015, Y has \$100x in gross revenue. For its taxable year ending December 31, 2016, Y has \$200x in gross revenue. For its taxable year ending June 30, 2016, Z has \$120x in gross revenue (none of which constitute premiums for providing health insurance coverage that constitutes minimum essential coverage (as defined in section 5000A(f)). W, X, Y, and Z did not qualify for the *de minimis* exception in any prior taxable years.

(ii) For its taxable year ending June 30, 2016, Z does not meet the requirements for the *de minimis* exception described in paragraph (b)(4)(v)(A). Even though Z meets the requirements for the *de minimis* exception with respect to the taxable year of parent entity X ending March 31, 2017 (\$5x is less than two percent of \$325x), Z does not meet the requirements for the *de minimis* exception based on the premiums and gross revenues of the taxable years of its aggregated group members ending with or within the deemed 12-month taxable year of parent entity W ending September 30, 2016 (\$6x is more than two percent of \$226x). Therefore, Z is a covered health insurance provider for its June 30, 2016 taxable year.

(iii) For its taxable year ending December 31, 2015, Y does not meet the requirements for the *de minimis* exception described in paragraph (b)(4)(v)(A) (\$6x is more than two percent of \$226x). For its taxable year ending December 31, 2016, Y meets the requirements for the *de minimis* exception described in paragraph (b)(4)(v)(A) (\$5x is less than two percent of \$325x). Therefore, Y is a covered health insurance provider for its December 31, 2015 taxable year, but is not a covered health insurance provider for its December 31, 2016 taxable year.

(iv) For its taxable year ending September 30, 2016, W does not meet the requirements for the *de minimis* exception described in paragraph (b)(4)(v)(A). Even though W meets the requirements for the *de minimis* exception with respect to X's taxable year ending

March 31, 2017 (\$5x is less than two percent of \$325x), W does not meet the requirements for the *de minimis* exception with respect to its taxable year ending September 30, 2016 (\$6x is more than two percent of \$226x). Therefore, W is a covered health insurance provider for its September 30, 2016 taxable year.

(v) For its taxable year ending March 31, 2016, X does not meet the requirements for the *de minimis* exception (\$6x is more than two percent of \$226x). For its taxable year ending March 31, 2017, X meets the requirements for the *de minimis* exception (\$5x is less than two percent of \$325x). Therefore, X is a covered health insurance provider for its March 31, 2016 taxable year, but is not a covered health insurance provider for its March 31, 2017 taxable year.

(5) *Premiums*—(i) For purposes of this section, the term *premiums* means premiums written (including premiums written for assumption reinsurance, but reduced by assumption reinsurance ceded (as described in paragraph (b)(5)(ii) of this section), excluding indemnity reinsurance written (as described in paragraph (b)(5)(iii) of this section) and direct service payments (as described in paragraph (b)(5)(iv) of this section), but without reduction for ceding commissions or medical loss ratio rebates, determined in a manner consistent with the requirements for reporting under the Supplemental Health Care Exhibit published by the National Association of Insurance Commissioners or the MLR Annual Reporting Form filed with the Center for Medicare & Medicaid Services' Center for Consumer Information and Insurance Oversight of the U.S. Department of Health and Human Services (or any successor or replacement exhibits or forms).

(ii) *Assumption reinsurance*. For purposes of this paragraph (b)(5), the term *assumption reinsurance* means reinsurance for which there is a novation and the reinsurer takes over the entire risk of loss pursuant to a new contract.

(iii) *Indemnity reinsurance*. For purposes of this paragraph (b)(5), the term *indemnity reinsurance* means reinsurance provided pursuant to an agreement between a health insurance issuer and a reinsuring company under which the reinsuring company agrees to indemnify the health insurance issuer for all or part of the risk of loss under policies specified in the agreement, and the health insurance issuer retains its

liability to provide health insurance coverage (as defined in section 9832(b)(1)) to, and its contractual relationship with, the insured.

(iv) *Direct service payments*. For purposes of this paragraph (b)(5), the term *direct service payment* means a capitated, prepaid, periodic, or other payment made by a health insurance issuer or another entity that receives premiums from providing health insurance coverage (as defined in section 9832(b)(1)) to another organization as compensation for providing, managing, or arranging for the provision of healthcare services by physicians, hospitals, or other healthcare providers, regardless of whether the organization that receives the compensation is subject to healthcare provider, health insurance, health plan licensing, financial solvency, or other similar regulatory requirements under state insurance law.

(6) *Disqualified taxable year*. For purposes of this section, the term *disqualified taxable year* means, with respect to any person, any taxable year for which the person is a covered health insurance provider.

(7) *Applicable individual*—(i) *In general*. For purposes of this section, except as provided in paragraph (b)(7)(ii) of this section, the term *applicable individual* means, with respect to any covered health insurance provider for any disqualified taxable year, any individual (or any other person described in guidance of general applicability published in the Internal Revenue Bulletin)—

(A) who is an officer, director, or employee in that taxable year, or

(B) who provides services for or on behalf of the covered health insurance provider during that taxable year.

(ii) *Independent contractors*—Remuneration for services performed by an independent contractor for a covered health insurance provider is subject to the deduction limitation under section 162(m)(6). However, an independent contractor is not an applicable individual with respect to a covered health insurance provider for a disqualified taxable year if each of the following requirements is satisfied:

(A) The independent contractor is actively engaged in the trade or business

of providing services to recipients, other than as an employee or as a member of the board of directors of a corporation (or similar position with respect to an entity that is not a corporation);

(B) The independent contractor provides significant services (as defined in § 1.409A-1(f)(2)(iii)) to two or more persons to which the independent contractor is not related and that are not related to one another (as defined in § 1.409A-1(f)(2)(ii)); and

(C) The independent contractor is not related to the covered health insurance provider or any member of its aggregated group, applying the definition of related person contained in § 1.409A-1(f)(2)(ii), subject to the modification that for purposes of applying the references to sections 267(b) and 707(b)(1), the language “20 percent” is not used instead of “50 percent” each place “50 percent” appears in sections 267(b) and 707(b)(1).

(8) *Service provider*. For purposes of this section, the term *service provider* means, with respect to a covered health insurance provider for any period, an individual who is an officer, director, or employee, or who provides services for, or on behalf of, the covered health insurance provider or any member of its aggregated group.

(9) *Remuneration*—(i) *In general*. For purposes of this section, except as provided in paragraph (b)(9)(ii) of this section, the term *remuneration* has the same meaning as the term *applicable employee remuneration*, as defined in section 162(m)(4), but without regard to the exceptions under section 162(m)(4)(B) (remuneration payable on a commission basis), section 162(m)(4)(C) (performance-based compensation), and section 162(m)(4)(D) (existing binding contracts), and the regulations under those sections.

(ii) *Exceptions*. For purposes of this section, remuneration does not include—

(A) A payment made to, or for the benefit of, an applicable individual from or to a trust described in section 401(a) within the meaning of section 3121(a)(5)(A),

(B) A payment made under an annuity plan described in section 403(a)

within the meaning of section 3121(a)(5)(B),

(C) A payment made under a simplified employee pension plan described in section 408(k)(1) within the meaning of section 3121(a)(5)(C),

(D) A payment made under an annuity contract described in section 403(b) within the meaning of section 3121(a)(5)(D),

(E) Salary reduction contributions described in section 3121(v)(1), and

(F) Remuneration consisting of any benefit provided to, or on behalf of, an employee if, at the time the benefit is provided, it is reasonable to believe that the employee will be able to exclude the value of the benefit from gross income.

(10) *Applicable Individual Remuneration or AIR.* For purposes of this section, the term *applicable individual remuneration or AIR* means, with respect to any applicable individual for any disqualified taxable year, the aggregate amount allowable as a deduction under this chapter for that taxable year (determined without regard to section 162(m)) for remuneration for services performed by that applicable individual (whether or not in that taxable year). AIR does not include any DDR with respect to services performed during any taxable year. AIR for a disqualified taxable year may include remuneration for services performed in a taxable year before the taxable year in which the deduction for the remuneration is allowable. For example, a discretionary bonus granted and paid to an applicable individual in a disqualified taxable year in recognition of services performed in prior taxable years is AIR for the disqualified taxable year in which the bonus is granted and paid. In addition, a grant of restricted stock in a disqualified taxable year with respect to which an applicable individual makes an election under section 83(b) is AIR for the disqualified taxable year of the covered health insurance provider in which the grant of the restricted stock is made. See paragraph (b)(9)(ii) of this section for certain remuneration that is not treated as AIR for purposes of this section.

(11) *Deferred Deduction Remuneration or DDR.* For purposes of this section,

the term *deferred deduction remuneration or DDR* means remuneration that would be AIR for services performed in a disqualified taxable year but for the fact that the deduction (determined without regard to section 162(m)(6)) for the remuneration is allowable in a subsequent taxable year. Whether remuneration is DDR is determined without regard to when the remuneration is paid, except to the extent that the timing of the payment affects the taxable year in which the remuneration is otherwise deductible. For example, payments that are otherwise deductible by a covered health insurance provider in an initial taxable year, but are paid to an applicable individual by the 15th day of the third month of the immediately subsequent taxable year of the covered health insurance provider (as described in § 1.404(b)-1T, Q&A-2(b)(1)), are AIR for the initial taxable year (and not DDR) because the deduction for the payments is allowable in the initial taxable year, and not a subsequent taxable year. Except as otherwise provided in paragraph (i) of this section (regarding transition rules for certain DDR attributable to services performed in taxable years beginning before January 1, 2013), DDR that is attributable to services performed in a disqualified taxable year of a covered health insurance provider is subject to the section 162(m)(6) deduction limitation even if the taxable year in which the remuneration is otherwise deductible is not a disqualified taxable year. Similarly, DDR is subject to the section 162(m)(6) deduction limitation regardless of whether an applicable individual is a service provider of the covered health insurance provider in the taxable year in which the DDR is otherwise deductible. However, remuneration that is attributable to services performed in a taxable year that is not a disqualified taxable year is not DDR even if the remuneration is otherwise deductible in a disqualified taxable year. See also paragraph (b)(9)(ii) of this section for certain remuneration that is not treated as DDR for purposes of this section.

(12) *Substantial risk of forfeiture.* For purposes of this section, the term *substantial risk of forfeiture* has the same meaning as provided in § 1.409A-1(d).

(13) *In-service payment.* An *in-service payment* is any amount that is paid with respect to an applicable individual from an account balance plan described in § 1.409A-1(c)(2)(i)(A) or (B) or a nonaccount balance plan described in § 1.409A-1(c)(2)(i)(C) in a taxable year of a covered health insurance provider during which at any time the applicable individual is a service provider (including amounts that became otherwise deductible, but were not paid, in a previous taxable year of a covered health insurance provider). Amounts that are paid in the last year that an applicable individual is a service provider (for example, amounts paid at separation from service) are in-service payments if the applicable individual is a service provider at any time during the taxable year of the covered health insurance provider in which the payment is made.

(14) *Payment year.* For purposes of this section, the term *payment year* means the taxable year of a covered health insurance provider for which remuneration becomes otherwise deductible.

(15) *Measurement date.* For purposes of this section, the term *measurement date* means the last day of the taxable year of a covered health insurance provider.

(c) *Deduction Limitation—(1) AIR.* For any disqualified taxable year beginning after December 31, 2012, no deduction is allowed under this chapter for AIR that is attributable to services performed by an applicable individual in that taxable year to the extent that the amount of that remuneration exceeds \$500,000.

(2) *DDR.* For any taxable year beginning after December 31, 2012, no deduction is allowed under this chapter for DDR that is attributable to services performed by an applicable individual in any disqualified taxable year beginning after December 31, 2009, to the extent that the amount of such remuneration exceeds \$500,000 reduced (but not below zero) by the sum of:

(i) The AIR for that applicable individual for that disqualified taxable year; and

(ii) The portion of the DDR for those services that was subject to the deduction limitation under section 162(m)(6)(A)(ii) and this paragraph

(c)(2) in a preceding taxable year, or would have been subject to the deduction limitation under section 162(m)(6)(A)(ii) and this paragraph (c)(2) in a preceding taxable year if section 162(m)(6) was effective for taxable years beginning after December 31, 2009 and before January 1, 2013.

(d) *Services to which remuneration is attributable—(1) Attribution to a taxable year—(i) In general.* The deduction limitation under section 162(m)(6) applies to AIR and DDR attributable to services performed by an applicable individual in a disqualified taxable year of a covered health insurance provider. When an amount of AIR or DDR becomes otherwise deductible (and not before that time), that remuneration must be attributed to services performed by an applicable individual in a taxable year of the covered health insurance provider in accordance with the rules of this paragraph (d). After the remuneration has been attributed to services performed by an applicable individual in a taxable year of a covered health insurance provider, the rules of paragraph (e) of this section are then applied to determine whether the deduction with respect to the remuneration is limited by section 162(m)(6).

(ii) *Overview.* Paragraphs (d)(1)(iii) through (v) of this section, and paragraph (d)(2) of this section, set forth rules of general applicability for attributing remuneration to services performed by an applicable individual in a taxable year of a covered health insurance provider. Paragraph (d)(3) sets forth two methods for attributing remuneration provided under an account balance plan—the account balance ratio method (described in paragraph (d)(3)(ii) of this section) and the principal additions method (described in paragraph (d)(3)(iii) of this section). Paragraph (d)(4) of this section sets forth two methods for attributing remuneration provided under a non-account balance plan—the present value ratio method (described in paragraph (d)(4)(ii) of this section) and the formula benefit ratio method (described in paragraph (d)(4)(iii) of this section). Paragraph (d)(5) of this section sets forth rules for attributing remuneration resulting from equity-

based remuneration (such as stock options, stock appreciation rights, restricted stock, and restricted stock units). Paragraph (d)(6) of this section sets forth rules for attributing remuneration that is involuntary separation pay. Paragraph (d)(7) of this section sets forth rules for attributing remuneration that is received under a reimbursement arrangement, and paragraph (d)(8) of this section sets forth rules for attributing remuneration that results from a split-dollar life insurance arrangement.

(iii) *No attribution to taxable years during which no services are performed or before a legally binding right arises*—(A) *In general.* For purposes of this section, remuneration is not attributable—

(1) To a taxable year of a covered health insurance provider ending before the later of the date the applicable individual begins providing services to the covered health insurance provider (or any member of its aggregated group) and the date the applicable individual obtains a legally binding right to the remuneration, or

(2) To any other taxable year of a covered health insurance provider during which the applicable individual is not a service provider.

(B) *Attribution of remuneration before the commencement of services or a legally binding right arises.* To the extent that remuneration would otherwise be attributable in accordance with paragraphs (d)(2) through (11) of this section to a taxable year ending before the later of the date an applicable individual begins providing services to a covered health insurance provider (or any member of its aggregated group) and the date the applicable individual obtains a legally binding right to the remuneration, the remuneration is attributed to services performed in the taxable year in which the later of these dates occurs. For example, if an applicable individual obtains a contractual right to remuneration in a taxable year of a covered health insurance provider and the remuneration would otherwise be attributable to that taxable year pursuant to paragraph (d)(2) of this section, but the applicable individual does not begin providing services to the covered health insurance provider until the next taxable year, the remunera-

tion is attributable to the taxable year in which the applicable individual begins providing services.

(iv) *Attribution to 12-month periods.* To the extent that a covered health insurance provider is required to attribute remuneration on a daily *pro rata* basis under this paragraph (d), it may treat any 12-month period as having 365 days (and so may ignore the extra day in leap years).

(v) *Remuneration subject to nonlapse restriction or similar formula.* For purposes of this section, if stock or other property is subject to a nonlapse restriction (as defined in § 1.83-3(h)), or if the remuneration payable to an applicable individual is determined under a formula that, if applied to stock or other property, would be a nonlapse restriction, the amount of the remuneration and the attribution of that remuneration to taxable years must be determined based upon application of the nonlapse restriction or formula. For example, if the earnings or losses on an account under an account balance plan are determined based upon the performance of company stock, the valuation of which is based on a formula that if applied to the stock would be a nonlapse restriction, then that formula must be used consistently for purposes of determining the amount of the remuneration credited to that account balance in taxable years and the attribution of that remuneration to taxable years.

(2) *Legally binding right.* Unless attributable to services performed in a different taxable year pursuant to paragraphs (d)(3) through (11) of this section, remuneration is attributable to services performed in the taxable year of a covered health insurance provider in which an applicable individual obtains a legally binding right to the remuneration. An applicable individual does not have a legally binding right to remuneration if the remuneration may be reduced unilaterally or eliminated by a covered health insurance provider or other person after the services creating the right to the remuneration have been performed. However, if the facts and circumstances indicate that the discretion to reduce or eliminate the remuneration is available or exercisable only upon a condition, or the

discretion to reduce or eliminate the remuneration lacks substantive significance, an applicable individual will be considered to have a legally binding right to the remuneration. For this purpose, remuneration is not considered to be subject to unilateral reduction or elimination merely because it may be reduced or eliminated by operation of the objective terms of a plan, such as the application of a nondiscretionary, objective provision creating a substantial risk of forfeiture.

(3) *Account balance plans*—(i) *In general.* When remuneration for services performed by an applicable individual for a covered health insurance provider becomes otherwise deductible (for example, because the amount was paid or made available during that taxable year) from a plan described in § 1.409A-1(c)(2)(i)(A) or (B) (an *account balance plan*), that remuneration must be attributed to services performed by the applicable individual in a taxable year of the covered health insurance provider in accordance with an attribution method described in either paragraph (d)(3)(ii) or (d)(3)(iii) of this section. However, except as provided in paragraphs (d)(3)(ii)(D) and (f)(3) of this section, the covered health insurance provider and all members of its aggregated group must apply the same attribution method under this paragraph (d)(3) consistently for all taxable years beginning after September 23, 2014 for all amounts that become otherwise deductible under all account balance plans.

(ii) *Account balance ratio method*—(A) *In general.* Under this method, remuneration for services performed by an applicable individual for a covered health insurance provider that becomes otherwise deductible under an account balance plan must be attributed to services performed by the applicable individual in each taxable year of the covered health insurance provider ending with or before the payment year during which the applicable individual was a service provider and for which the account balance of the applicable individual increased (determined in accordance with paragraph (d)(3)(ii)(B) and (C) of this section). The amount attributed to each such taxable year is equal to the amount of remuneration

that becomes otherwise deductible multiplied by a fraction, the numerator of which is the increase in the applicable individual's account balance under the plan for the taxable year, and the denominator of which is the sum of all such increases for all taxable years during which the applicable individual was a service provider. Thus, remuneration that becomes otherwise deductible under a plan is attributed to a taxable year of the covered health insurance provider in proportion to the increase in the applicable individual's account balance for that taxable year.

(B) *Increase in the account balance.* For purposes of this paragraph (d)(3)(ii), an increase in an account balance under an account balance plan occurs for a taxable year if the account balance as of the measurement date in that taxable year is greater than the account balance as of the measurement date in every earlier taxable year. In that case, the amount of the increase for that taxable year is equal to the excess of the applicable individual's account balance as of the measurement date for that taxable year over the greatest of the applicable individual's account balances under the plan as of the measurement date in every earlier taxable year. If the applicable individual's account balance as of the measurement date in a taxable year is less than or equal to the applicable individual's account balance as of the measurement date in any earlier taxable year, there is no increase in the account balance for that later taxable year.

(C) *Certain account balance adjustments.* For purposes of determining the account balance on a measurement date under paragraph (d)(3)(ii)(B) of this section, the account balance is adjusted as provided in this paragraph (d)(3)(ii)(C).

(1) *In-service payments.* If an in-service payment is made from the account of an applicable individual under an account balance plan in any taxable year of a covered health insurance provider, then the rules of this paragraph (d)(3)(ii)(C)(1) apply.

(i) Solely for purposes of determining the increase in the applicable individual's account balance as of the measurement date in the payment year (and

not for purposes of attributing any amount that becomes otherwise deductible in any later taxable year), the account balance as of the measurement date for that taxable year is increased by the amount of all in-service payments made from the plan during that taxable year.

(ii) For purposes of attributing any amount that becomes otherwise deductible under the plan in any taxable year after the payment year of the in-service payment—

(A) the account balance as of the measurement date in each taxable year that ends before the taxable year to which the in-service payment is attributed pursuant to this paragraph (d)(3)(ii) is reduced by the sum of the amount of the in-service payment that is attributed to that taxable year and the amount of the in-service payment that is attributed to each taxable year that ends before that taxable year, if any, and

(B) to the extent that the in-service payment includes an amount that was deductible by the covered health insurance provider in a previous taxable year and, therefore, was previously attributable to services performed by the applicable individual in one or more taxable years of the covered health insurance provider (for example, because the amount was made available in a previous taxable year but was not paid at that time), the account balance as of the measurement date for each taxable year that ends before the taxable year to which the in-service payment is attributed pursuant to this paragraph (d)(3)(ii) is reduced by the sum of the amount of the in-service payment previously attributable to that taxable year and the amount of the in-service payment previously attributable to each taxable year that ends before that taxable year, if any.

(2) *Certain increases after ceasing to be a service provider.* Any addition (other than income or earnings) to an account balance plan made in a taxable year that begins after an applicable individual ceases to be a service provider (and that ends before the applicable individual becomes a service provider again, if applicable) is added to the account balance of the applicable individual as of the measurement date of

the first preceding taxable year in which the applicable individual was a service provider.

(3) *Account balance adjustments for grandfathered amounts.* If a covered health insurance provider uses the principal additions method for determining grandfathered amounts for an applicable individual under paragraph (h) of this section, then, for purposes of determining the increase in the applicable individual's account balance, the account balance as of any measurement date is reduced by the amount of any grandfathered amounts otherwise included in the account balance.

(D) *Transition rule for amounts attributed before the applicability date of the final regulations.* Amounts that become otherwise deductible in taxable years beginning before September 23, 2014 may be attributed to services performed in taxable years of a covered health insurance provider under the rules set forth in the proposed regulations. If a covered health insurance provider attributes an amount paid to an applicable individual pursuant to a method permitted under the proposed regulations and then chooses to use the account balance ratio method to attribute amounts that subsequently become otherwise deductible with respect to that applicable individual, then, for purposes of applying the account balance ratio method to attribute any amount that becomes otherwise deductible under the plan after the taxable year in which the last payment was made that was attributed pursuant to the proposed regulations, the account balance as of the measurement date for each taxable year that ends before the taxable year in which the last payment that was attributed pursuant to the proposed regulations is reduced by the sum of the amount previously attributed to that taxable year under the proposed regulations and the amount previously attributable to each taxable year that ends prior to that taxable year under the proposed regulations, if any.

(iii) *Principal additions method—(A) In general.* Under this method, remuneration that becomes otherwise deductible under an account balance plan during a payment year must be attributed to services performed by the applicable

individual in the taxable year of the covered health insurance provider during which the applicable individual was a service provider and in which the principal addition to which the amount relates is credited under the plan (determined in accordance with paragraph (d)(3)(iii)(B) and (C) of this section). An amount relates to a principal addition if the amount is a payment of the principal addition or earnings on the principal addition, based on a separate accounting of these amounts. The principal additions method described in this paragraph may be used to attribute amounts that become otherwise deductible under an account balance plan only if the covered health insurance provider separately accounts for each principal addition to the plan (and any earnings thereon) and traces each amount that becomes otherwise deductible under the plan to a principal addition made in a taxable year of the covered health insurance provider.

(B) *Principal addition*—(1) For purposes of this paragraph (d)(3)(iii), the excess (if any) of the sum of the account balance of an applicable individual in an account balance plan as of the last day of a taxable year and any payments made during the taxable year over the account balance as of the last day of the immediately preceding taxable year, that is not due to earnings or losses (as described in paragraph (d)(3)(iii)(C) of this section), is treated as a principal addition that is credited to the plan in that taxable year if the applicable individual was a service provider during that taxable year. If the applicable individual was not a service provider during that taxable year, the excess described in the preceding sentence is treated as a principal addition that is credited to the plan in accordance with paragraph (d)(3)(iii)(B)(2) of this section.

(2) *Principal additions after termination of employment*. Any principal addition to an account balance plan made in a taxable year that begins after an applicable individual ceases to be a service provider (and that ends before the applicable individual becomes a service provider again, if applicable) is treated as a principal addition that is credited in the first preceding taxable year in

which the applicable individual was a service provider.

(C) *Earnings*. Whether remuneration constitutes earnings on a principal addition is determined under the principles defining income attributable to an amount taken into account under § 1.3121(v)(2)-1(d)(2). Therefore, for an account balance plan, earnings on an amount deferred generally include an amount credited on behalf of an applicable individual under the terms of the arrangement that reflects a rate of return that does not exceed either the rate of return on a predetermined actual investment (as defined in § 1.3121(v)(2)-1(d)(2)(i)(B)), or, if the income does not reflect the rate of return on a predetermined actual investment, a rate of return that reflects a reasonable rate of interest (as defined in § 1.3121(v)(2)-1(d)(2)(i)(C)). For purposes of this paragraph (d)(3)(iii), the use of a rate of return that is not based on a predetermined actual investment or a reasonable rate of interest generally will result in the treatment of some or all of the remuneration as a principal addition that is attributable to services performed by an applicable individual in a taxable year of a covered health insurance provider in accordance with this paragraph (d)(3)(iii) of this section.

(4) *Nonaccount balance plans*—(i) *In general*. When remuneration for services performed by an applicable individual for a covered health insurance provider becomes otherwise deductible under a plan described in § 1.409A-1(c)(2)(i)(C) (a nonaccount balance plan), that remuneration must be attributed to services performed by the applicable individual in a taxable year of the covered health insurance provider in accordance with the attribution method described in either paragraph (d)(4)(ii) or (d)(4)(iii) of this section. However, except as provided in paragraphs (d)(4)(ii)(D) and (d)(4)(iii)(D) and (f)(3) of this section, the covered health insurance provider and all members of its aggregated group must apply the same attribution method under this paragraph (d)(4) consistently for all taxable years beginning after September 23, 2014 for all amounts that become deductible under all nonaccount balance plans.

(ii) *Present value ratio attribution method*—(A) *In general.* Under this method, remuneration for services performed by an applicable individual for a covered health insurance provider that becomes otherwise deductible under a nonaccount balance plan must be attributed to services performed by the applicable individual in each taxable year of the covered health insurance provider ending with or before the payment year during which the applicable individual was a service provider for which the present value of the future payment(s) to be made to or on behalf of the applicable individual under the plan increased (determined in accordance with paragraph (d)(3)(ii)(B) and (C) of this section). The amount attributed to each such taxable year is equal to the amount of remuneration that becomes otherwise deductible under the plan multiplied by a fraction, the numerator of which is the increase in the present value of the future payment(s) to which the applicable individual has a legally binding right under the plan for the taxable year, and the denominator of which is the sum of all such increases for all taxable years during which the applicable individual was a service provider. Thus, remuneration that becomes otherwise deductible under a plan is attributed to a taxable year of the covered health insurance provider in proportion to the increase in the present value of the future payment(s) under the plan for that taxable year.

(B) *Increase in present value of future payments.* For purposes of this paragraph (d)(4)(ii), for a taxable year of a covered health insurance provider, an increase in the present value of the future payment(s) to which an applicable individual has a legally binding right under a nonaccount balance plan occurs if the present value of the future payment(s) as of the measurement date in the taxable year is greater than the present value of the future payment(s) as of the measurement date in every earlier taxable year. In that case, the amount of the increase for that taxable year is equal to the excess of the present value of the future payment(s) to which the applicable individual has a legally binding right under the plan as of the measurement date for that

taxable year over the greatest present value of the future payment(s) to which the applicable individual had a legally binding right under the plan as of the measurement date in every earlier taxable year. If the present value of the future payment(s) as of a measurement date in a taxable year is less than or equal to the present value of the future payment(s) as of the measurement date in any earlier taxable year, then there is no increase in the present value of the future payment(s) to which the applicable individual has a legally binding right under the plan for that later taxable year. For purposes of determining the increase (or decrease) in the present value of a future payment(s) under a nonaccount balance plan, the rules of § 31.3121(v)(2)-1(c)(2) apply (including the requirement that reasonable actuarial assumptions and methods be used).

(C) *Certain present value adjustments.* For purposes of determining the present value of the future payment(s) to which an applicable individual has a legally binding right to receive as of a measurement date under paragraph (d)(4)(ii)(B) of this section, the present value is adjusted as provided in this paragraph (d)(3)(iii)(C).

(1) *In-service payments.* If an in-service payment is made to or on behalf of an applicable individual under a nonaccount balance plan in any taxable year of a covered health insurance provider, then the rules of this paragraph (d)(3)(iii)(C)(1) apply.

(i) Solely for purposes of determining the increase in the present value of the future payment(s) under the plan for the payment year (and not for purposes of attributing any amount that becomes otherwise deductible in any later taxable year), the present value of the future payment(s) under the plan as of the measurement date in the payment year is increased by the amount of any reduction in the present value of the future payment(s) resulting from the in-service payment made from the plan during that taxable year.

(ii) For purposes of attributing any amount that becomes otherwise deductible under the plan in any taxable year after the payment year of the in-service payment, the present value of

the future payment(s) as of the measurement date for each taxable year that ends before the payment year is reduced by the present value of the future payment to which the applicable individual had a legally binding right to be paid on the date of the in-service payment (determined as of the measurement date based upon all of the applicable factors under the plan as of the measurement date, such as compensation and years of service on that date).

(2) *Increases in the present value of future payments after ceasing to be a service provider.* Any increase in the present value of the future payment(s) under a plan in a taxable year that begins after an applicable individual ceases to be a service provider (and that ends before the applicable individual becomes a service provider again, if applicable) that is not due merely to the passage of time or a change in the reasonable actuarial assumptions used to determine the present value of the future payment(s) is added to the present value of the future payment(s) for the applicable individual as of the measurement date of the most recent preceding taxable year in which the applicable individual was a service provider.

(D) *Transition rule for amounts attributed before the effective date of the final regulations.* Amounts that become otherwise deductible in taxable years beginning before September 23, 2014 may be attributed under the rules set forth in the proposed regulations. If a covered health insurance provider attributes an amount paid to an applicable individual pursuant to the proposed regulations and then chooses to use the present value ratio method to attribute amounts that subsequently become otherwise deductible with respect to that applicable individual, then, for purposes of applying the present value ratio method to attribute any amount that becomes otherwise deductible under the plan in any taxable year after the taxable year in which the last payment was made that was attributed pursuant to the proposed regulations, the present value of the future payment(s) as of the measurement date for each taxable year that ends before the taxable year in which the last payment that was attributed pursuant to the

proposed regulations is reduced by the present value of each future payment to which the applicable individual had a legally binding right to be paid that was attributed pursuant to the proposed regulations (determined as of the measurement date based upon all of the applicable factors under the plan as of the measurement date, such as compensation and years of service on that date), with no adjustment for an amount that became otherwise deductible, but was not paid.

(iii) *Formula benefit ratio method—(A) In general.* Under this method, remuneration that becomes otherwise deductible under a nonaccount balance plan on a date (referred to for these purposes as the *date of payment*) must be attributed to services performed by the applicable individual in each taxable year of the covered health insurance provider ending with or before the payment year during which the applicable individual was a service provider and for which the formula benefit of the applicable individual under the plan increased (determined in accordance with paragraph (d)(3)(iii)(B), (C) and (D) of this section). The amount attributed to each such taxable year is equal to the amount of remuneration that becomes otherwise deductible under the plan on the date of payment multiplied by a fraction, the numerator of which is the increase in the applicable individual's formula benefit under the plan for the taxable year and the denominator of which is the sum of all such increases for all taxable years during which the applicable individual was a service provider (which will generally be the amount that becomes otherwise deductible under the plan on the date of payment). Thus, remuneration that becomes otherwise deductible under a plan is attributed to a taxable year of the covered health insurance provider in proportion to the increase in the applicable individual's formula benefit under the plan in that taxable year.

(B) *Formula benefit.* For purposes of this paragraph (d)(4)(iii), an applicable individual's formula benefit as of any date is the benefit (or portion thereof) to which the applicable individual has a legally binding right under a non-account balance plan as of that date

determined based upon all of the applicable factors under the plan (for example, compensation and years of service as of that date), disregarding any substantial risk of forfeiture and assuming that the applicable individual meets any applicable eligibility requirements for the benefit as of that date. For this purpose, the formula benefit is expressed in the form that it has become otherwise deductible. For example, if an applicable individual's benefit under a plan is paid in the form of a single lump sum, then the applicable individual's formula benefit under the plan is expressed in the form of a single lump sum for all purposes under this paragraph (d)(4)(iii). If the amount that becomes otherwise deductible is payable in more than one form of payment (for example, 50 percent of the benefit is paid in the form of a lump sum and 50 percent is paid in the form of a life annuity), then each separate form of payment is treated as a separate formula benefit to which this paragraph (d)(4)(iii) is applied separately.

(C) *Increase in formula benefit.* For purposes of this paragraph (d)(4)(iii), an increase in an applicable individual's formula benefit under a nonaccount balance plan occurs for a taxable year of a covered health insurance provider if the formula benefit as of the measurement date in that taxable year is greater than the formula benefit as of the measurement date in every earlier taxable year. In that case, the amount of the increase for that taxable year is equal to excess of the formula benefit as of the measurement date in that taxable year over the greatest formula benefit as of any measurement date in any earlier taxable year. If the applicable individual's formula benefit as of a measurement date in a taxable year is less than or equal to the applicable individual's formula benefit as of the measurement date in any earlier taxable year, there is no increase in the formula benefit to which the applicable individual has a legally binding right under the plan for that later taxable year.

(D) *Certain adjustments.* For purposes of determining the increase in the formula benefit as of a date of payment under paragraph (d)(4)(iii)(C) of this

section, the rules of this paragraph (d)(3)(iii)(D) apply—

(1) *Attribution to payment year.* Solely for purposes of attributing a payment under this paragraph (d)(4)(iii) (including an in-service payment), the date of payment is substituted for the measurement date in the payment year to determine whether an increase in the formula benefit occurs in the payment year and the amount of any such increase.

(2) *Amounts not paid.* If an amount becomes otherwise deductible under a nonaccount balance plan, but is not paid, the formula benefit for that amount must be determined using the form in which it will be paid, if that form is known, or any form in which it may be paid, if the actual form of payment is unknown.

(3) *Increases in the formula benefit after ceasing to be a service provider.* Any increase in the formula benefit with respect to an applicable individual resulting from a legally binding right arising in a taxable year that begins after the applicable individual ceases to be a service provider (and that ends before the applicable individual becomes a service provider again, if applicable) is added to the formula benefit with respect to the applicable individual as of the measurement date of the first preceding taxable year in which the applicable individual was a service provider. However, any increase in the formula benefit resulting from a legally binding right arising in a taxable year that begins before the applicable individual ceases to be a service provider is added to the formula benefit with respect to the applicable individual as of the measurement date of the taxable year in which the legally binding right arises, even if the increase is not reflected until after the applicable individual ceases to be a service provider (such as in the case of a cost of living adjustment).

(5) *Equity-based remuneration—(i) Stock options and stock appreciation rights—(A) In general.* Except as provided in paragraph (d)(5)(i)(B) of this section, remuneration resulting from the exercise of a stock option (including compensation income arising at the time of a disqualifying disposition of an incentive stock option described in

section 422 or an option under an employee stock purchase plan described in section 423) or a stock appreciation right (SAR) is attributable to services performed by an applicable individual for a covered health insurance provider on a daily *pro rata* basis over the period beginning on the date of grant (within the meaning of § 1.409A-1(b)(5)(vi)(B)) of the stock option or SAR and ending on the date that the stock option or SAR is exercised, excluding any days on which the applicable individual is not a service provider.

(B) *Stock options or SARs subject to a substantial risk of forfeiture.* If a stock option or SAR is subject to a substantial risk of forfeiture, a covered health insurance provider may attribute remuneration resulting from the exercise of the stock option or SAR to services performed by an applicable individual in a taxable year on a daily *pro rata* basis over the period beginning on the date of grant (within the meaning of § 1.409A-1(b)(5)(vi)(B)) of the stock option or SAR and ending on the first date that the stock option or SAR is no longer subject to a substantial risk of forfeiture, but only if the covered health insurance provider uses this attribution method consistently for all stock options or SARs exercised in taxable years of a covered health insurance provider beginning after September 23, 2014, except as provided in paragraph (f)(3) of this section.

(ii) *Restricted stock.* Remuneration resulting from restricted stock, for which an election under section 83(b) has not been made, that becomes substantially vested or transferred is attributed on a daily *pro rata* basis to services performed by an applicable individual for a covered health insurance provider over the period, excluding any days on which the applicable individual is not a service provider, beginning on the date the applicable individual obtains a legally binding right to the restricted stock and ending on the earliest of—

(A) The date the restricted stock becomes substantially vested, or

(B) The date the restricted stock is transferred by the applicable individual.

(iii) *Restricted stock units.* Remuneration resulting from a restricted stock unit (RSU) is attributed on a daily *pro*

rata basis to services performed by an applicable individual for a covered health insurance provider over the period beginning on the date the applicable individual obtains a legally binding right to the RSU and ending on the date the remuneration is paid or made available, excluding any days on which the applicable individual is not a service provider.

(iv) *Partnership interests and other equity.* [Reserved]

(6) *Involuntary separation pay.* Involuntary separation pay is attributable to services performed by an applicable individual for a covered health insurance provider in the taxable year in which the involuntary separation from service occurs. Alternatively, the covered health insurance provider may attribute involuntary separation pay to services performed by an applicable individual on a daily *pro rata* basis beginning on the date that the applicable individual obtains a legally binding right to the involuntary separation pay and ending on the date of the involuntary separation from service. Involuntary separation pay to different individuals may be attributed using different methods; however, if involuntary separation payments are made to the same individual over multiple taxable years, all the payments must be attributed using the same method. For purposes of this section, the term *involuntary separation pay* means remuneration to which an applicable individual has a right to payment solely as a result of the individual's involuntary separation from service (within the meaning of § 1.409A-1(n)). To the extent that involuntary separation pay is attributed to services performed in two or more taxable years of a covered health insurance provider as permitted under this paragraph, any amount of involuntary separation pay that is paid or made available must be attributed to services performed in all of those taxable years in the same proportion that the total involuntary separation pay is attributed to taxable years of the covered health insurance provider.

(7) *Reimbursements.* Remuneration that is provided in the form of a reimbursement or benefit provided in-kind (other than cash) is attributable to

services performed by an applicable individual in the taxable year of a covered health insurance provider in which the applicable individual makes a payment for which the applicable individual has a right to reimbursement or receives an in-kind benefit, except that remuneration provided in the form of a reimbursement or in-kind benefit during a taxable year of a covered health insurance provider in which an applicable individual is not a service provider is attributable to services performed in the most recent preceding taxable year of the covered health insurance provider in which the applicable individual is a service provider.

(8) *Split-dollar life insurance.* Remuneration resulting from a split-dollar life insurance arrangement (as defined in § 1.61-22(b)) under which an applicable individual has a legally binding right to economic benefits described in § 1.61-22(d)(2)(ii) (policy cash value to which the non-owner has current access within the meaning of § 1.61-22(d)(4)(ii)) or § 1.61-22(d)(2)(iii) (any other economic benefits provided to the non-owner) is attributable to services performed in the taxable year of the covered health insurance provider in which the legally binding right arises. Split-dollar life insurance arrangements under which payments are treated as split-dollar loans under § 1.7872-15 generally will not give rise to DDR within the meaning of paragraph (b)(11) of this section, although they may give rise to AIR. However, in certain situations, this type of arrangement may give rise to DDR for purposes of section 162(m)(6), for example, if amounts due on a split-dollar loan are waived, cancelled, or forgiven.

(9) *Examples.* The following examples illustrate the principles of paragraphs (d)(1) through (8) of this section. For purposes of these examples, each corporation has a taxable year that is the calendar year and is a covered health insurance provider for all relevant taxable years, DDR is otherwise deductible in the taxable year in which it is paid, and amounts payable under non-account balance plans are not forfeitable upon the death of the applicable individual. For purposes of these exam-

ples, the interest rates used in these examples are assumed to be reasonable.

Example 1 (Account balance plan—account balance ratio method with earnings and a single payment). (i) B is an applicable individual of corporation Y for all relevant taxable years. On January 1, 2016, B begins participating in a nonqualified deferred compensation plan of Y that is an account balance plan. Under the terms of the plan, all amounts are fully vested at all times, and Y will pay B's entire account balance on January 1, 2019. B's account earns five percent interest per year, compounded annually. Y credits \$10,000 to B under the plan annually on January 1 for three years beginning on January 1, 2016. Thus, B's account balance is \$10,500 (\$10,000 + (\$10,000 × 5%)) on December 31, 2016; \$21,525 (\$10,500 + \$10,000 + (\$20,500 × 5%)) on December 31, 2017; and \$33,101 (\$21,525 + \$10,000 + (\$31,525 × 5%)) on December 31, 2018. On January 1, 2019, Y pays B \$33,101, the entire account balance. Y attributes payments under its account balance plans using the account balance ratio method described in paragraph (d)(3)(i) of this section.

(ii) The increase in B's account balance during 2016 is \$10,500 (\$10,500 – zero); the increase in B's account balance for 2017 is \$11,025 (\$21,525 – \$10,500); and the increase in B's account balance for 2018 is \$11,576 (\$33,101 – \$21,525). The sum of all the increases is \$33,101 (\$10,500 + \$11,025 + \$11,576). Accordingly, for Y's 2016 taxable year, the attribution fraction is .3172 (\$10,500/\$33,101); for Y's 2017 taxable year, the attribution fraction is .3331 (\$11,025/\$33,101); and for Y's 2018 taxable year, the attribution fraction is .3497 (\$11,576/\$33,101).

(iii) With respect to the \$33,301 payment made on January 1, 2019, \$10,500 (\$33,101 × .3172) of DDR is attributable to services performed by B in Y's 2016 taxable year; \$11,026 (\$33,101 × .3331) of DDR is attributable to services performed by B in Y's 2017 taxable year; and \$11,575 (\$33,101 × .3497) of DDR is attributable to services performed by B in Y's 2018 taxable year.

Example 2 (Account balance plan—principal additions method with earnings and a single payment). (i) The facts are the same as in *Example 1*, except that Y attributes remuneration using the principal additions method described in paragraph (d)(3)(ii) of this section.

(ii) The \$10,000 principal addition made on January 1, 2016 and \$1,576 of earnings thereon (interest on the 2016 \$10,000 principal addition at five percent for three years compounded annually) are attributable to services performed by B in Y's 2016 taxable year; the principal addition of \$10,000 on January 1, 2017 and \$1,025 of earnings thereon (interest on the 2017 \$10,000 principal addition at five percent for two years compounded annually) are attributable to services performed

by B in Y's 2017 taxable year; and the principal addition of \$10,000 to B's account on January 1, 2018 and \$500 of earnings thereon (interest on the 2018 \$10,000 principal addition at five percent for one year compounded annually) are attributable to services performed by B in Y's 2018 taxable year. Accordingly, with respect to the \$33,301 payment made on January 1, 2019, \$11,576 (\$10,000 + \$1,576) is attributable to services performed by B in Y's 2016 taxable year; \$11,025 (\$10,000 + \$1,025) is attributable to services performed in Y's 2017 taxable year; and \$10,500 (\$10,000 + \$500) is attributable to services performed by B in Y's 2018 taxable year.

Example 3 (Account balance plan—account balance ratio method with earnings and losses).

(i) J is an applicable individual of corporation Z for all relevant taxable years. On January 1, 2016, J begins participating in a nonqualified deferred compensation plan of Z that is an account balance plan. Under the terms of the plan, all amounts are fully vested at all times, and Z will pay J's entire account balance on January 1, 2019. Z credits \$10,000 to J under the plan on January 1, 2016 and January 1, 2018. Earnings under the terms of the plan are based on a predetermined actual investment (as defined in § 31.3121(v)(2)-1(e)(2)(i)(B)), which results in J's account balance increasing by five percent in the 2016 taxable year, decreasing by five percent in the 2017 taxable year, and increasing again by five percent in the 2018 taxable year. Therefore, on December 31, 2016, J's account balance is \$10,500 (\$10,000 + (\$10,000 × 5%)); on December 31, 2017, J's account balance is \$9,975 (\$10,500 - (\$10,500 × 5%)); and on December 31, 2018, J's account balance is \$20,974 (\$9,975 + \$10,000 + (\$19,975 × 5%)). On January 1, 2019, Z pays J the entire account balance of \$20,974.

(ii) The increase in J's account balance for 2016 is \$10,500 (\$10,500 - zero); the increase in J's account balance for 2017 is zero (because J's account balance decreased by \$525 (\$9,975 - \$10,500)); the increase in J's account balance for 2018 is \$10,474 (\$20,974 - \$10,500, which is the highest account balance in any prior taxable year). The sum of all the increases is \$20,974 (\$10,500 + \$10,474). Thus, for Z's 2016 taxable year the attribution fraction is .5006 (\$10,500/\$20,974); for Z's 2017 taxable year the attribution fraction is zero because there was a decrease in the account balance for the year; and for Z's 2018 taxable year the attribution fraction is .4994 (\$10,474/\$20,974).

(iii) Accordingly, with respect to the \$20,974 payment made on January 1, 2019, \$10,499 (\$20,974 × .5006) of DDR is attributable to services performed by J in Z's 2016 taxable year, and \$10,474 (\$20,974 × .4994) of DDR is attributable to services performed by J in Z's 2018 taxable year. No amount is attributable to services performed by J in Z's 2017 taxable year because there was no increase in the account balance for that taxable year.

Example 4 (Account balance plan—principal additions method with earnings and losses). (i) The facts are the same as in *Example 3*, except that Z attributes remuneration using the principal additions method described in paragraph (d)(3)(ii) of this section.

(ii) The \$10,000 principal addition made on January 1, 2016 and the \$474 of net earnings thereon (\$500 of earnings for 2016, \$525 of losses for 2017, and \$499 of earnings for 2018) are attributable to services performed by J in Z's 2016 taxable year; and the \$10,000 principal addition made on January 1, 2018 and the \$500 of earnings thereon are attributable to services performed by J in Z's 2018 taxable year. Accordingly, with respect to the \$20,974 payment made on January 1, 2019, \$10,474 (\$10,000 + \$474) of DDR is attributable to services performed by J in Z's 2016 taxable year, and \$10,500 (\$10,000 + \$500) of DDR is attributable to services performed by J in Z's 2018 taxable year.

Example 5 (Account balance plan—account balance ratio method with losses and an in-service payment).

(i) N is an applicable individual of corporation M for all relevant taxable years. On January 1, 2016, N begins participating in a nonqualified deferred compensation plan sponsored by M that is an account balance plan. Under the plan, all amounts are fully vested at all times. The balances in N's account are \$110,000 on December 31, 2016; \$90,000 on December 31, 2017; \$250,000 on December 31, 2018; and \$240,000 on December 31, 2019. N ceases providing services to M on December 31, 2019. In accordance with the plan terms, M pays to N \$10,000 on September 30, 2017, \$150,000 on January 1, 2021, and \$100,000 on January 1, 2022. M attributes payments under its account balance plans using the account balance ratio method described in paragraph (d)(3)(i) of this section.

(ii) For purposes of attributing the \$10,000 payment made on September 30, 2017 to taxable years, the increase in N's account balance for 2016 is \$110,000 (\$110,000 - zero). N's account balance for 2017 is treated as \$100,000 (\$90,000 + \$10,000 payment on September 30, 2017), but, because the account balance of \$100,000 is less than the account balance in an earlier year, the increase in N's account balance for 2017 is zero. The sum of all the increases in N's account balance is \$110,000 (\$110,000 + \$0). Thus, the attribution fraction for 2016 is 1 (\$10,000/\$110,000), and the attribution fraction for 2017 is zero (\$0/\$110,000). Accordingly, with respect to the \$10,000 payment made on September 30, 2017, the entire \$10,000 is attributable to services performed by N in M's 2016 taxable year, and no amount is attributable to services performed by N in M's 2017 taxable year.

(iii) After attributing the September 30, 2017 payment of \$10,000 to 2016, N's account balance for 2016 is treated as being \$100,000 (\$110,000 - \$10,000), and the increase for 2016 is likewise treated as \$100,000; N's account

balance for 2017 decreased; the increase in N's account balance for 2018 is \$150,000 (\$250,000 - \$100,000); and N's account balance for 2018 decreased. The sum of all the increases is \$250,000 (\$100,000 + \$150,000). Thus, the attribution fraction for 2016 is .40 (\$100,000/\$250,000); the attribution fraction for 2017 is zero (\$0/\$250,000); the attribution fraction for 2018 is .60 (\$150,000/\$250,000); and the attribution fraction for 2019 is zero (\$0/\$250,000).

(iv) Accordingly, with respect to the \$150,000 payment made on January 1, 2021, \$60,000 ($\$150,000 \times .40$) is attributable to services performed by N in M's 2016 taxable year, and \$90,000 ($\$150,000 \times .60$) is attributable to services performed by N in M's 2018 taxable year. With respect to the \$100,000 payment made on January 1, 2022, \$40,000 ($\$100,000 \times .40$) is attributable to services performed by N in M's 2016 taxable year, and \$60,000 ($\$100,000 \times .60$) is attributable to services performed by N in M's 2018 taxable year. No amount is attributable to services performed by N in M's 2017 and 2019 taxable years.

Example 6 (Account balance plan—principal additions method with multiple payments). (i) O is an applicable individual of corporation L for all relevant taxable years. On January 1, 2016, O begins participating in a nonqualified deferred compensation plan sponsored by L that is an account balance plan. Under the plan, all amounts are fully vested at all times. L credits principal additions to O's account each year, and credits earnings based on a predetermined actual investment within the meaning of § 31.3121(v)(2)–1(d)(2)(i)(B). L makes principal additions of \$90,000 on June 30, 2016; \$140,000 on June 30, 2017; and \$180,000 on June 30, 2018. The predetermined actual investment earns five percent for 2016, seven percent for 2017; eight percent for 2018; and nine percent for 2019. Thus, as of December 31, 2018, the earnings with respect to the \$90,000 principal addition made on June 30, 2016 are \$16,605, for a total of \$106,605; and the earnings with respect to the \$140,000 principal addition made on June 30, 2017 are \$16,492, for a total of \$156,492. As of January 1, 2020, the earnings with respect to the \$180,000 principal addition made on June 30, 2018 are \$24,048, for a total of \$204,048. Under the terms of the plan, the principal addition (and earnings thereon) made on June 30, 2016 and June 30, 2017 are payable on December 31, 2018, and the principal addition (and earnings thereon) made on June 30, 2018 is payable on January 1, 2020. On December 31, 2018, L pays O \$263,097 in accordance with the plan terms. On January 1, 2020, L pays O the remaining account balance of \$204,048 in accordance with the plan terms.

(ii) The \$263,097 payment made on December 31, 2018 is attributed to services performed by O in the 2016 and 2017 taxable years. Of the \$263,097 payment, \$106,605 is attributable to services performed by O in L's

2016 taxable year because this amount represents the \$90,000 principal addition made on June 30, 2016 and earnings thereon. The remaining \$156,492 is attributable to services performed by O in L's 2017 taxable year because this amount represents the \$140,000 principal addition made on June 30, 2017 and earnings thereon. The \$204,048 payment made on January 1, 2020 is attributable to services performed by O in L's 2018 taxable year because this amount represents the \$180,000 principal addition made on June 30, 2018 and earnings thereon.

Example 7 (Account balance plan—account balance ratio method with an employer contribution after the applicable individual ceases to be a service provider). (i) A is an applicable individual of corporation Z for all relevant taxable years. On January 1, 2016, A begins participating in a nonqualified deferred compensation plan of Z that is an account balance plan. Under the terms of the plan, all amounts are fully vested at all times. The balances in A's account (including employer contributions and earnings) are \$20,000 on December 31, 2016, and \$60,000 on December 31, 2017. On December 31, 2017, A ceases providing services to Z. On January 1, 2019, Z makes a discretionary contribution of \$30,000 to A's account balance plan. On December 31, 2019, in accordance with the plan terms, Z pays \$120,000 to A, which is N's entire account balance. Z attributes payments under its account balance plans using the account balance ratio method described in paragraph (d)(3)(i) of this section.

(ii) The increase in A's account balance for 2016 is \$20,000; the increase in A's account balance for 2017 is \$40,000. The discretionary contribution made on January 1, 2019 of \$30,000 is added to the account balance for 2017. Thus, the discretionary contribution of \$30,000 on January 1, 2019, is treated as increasing A's account balance for 2017 by \$30,000. The increase in A's account balance for 2016 is \$20,000, and the increase in A's account balance for 2017 is \$70,000 (\$40,000 + \$30,000). The sum of all the increases is \$90,000 (\$20,000 + \$70,000).

(iii) Thus, the attribution fraction for 2016 is .2222 ($\$20,000/\$90,000$); and the attribution fraction for 2017 is .7778 ($\$70,000/\$90,000$). Accordingly, with respect to the \$120,000 payment made on January 1, 2019, \$26,664 ($\$120,000 \times .2222$) is attributable to services performed by A in Z's 2016 taxable year, and \$93,336 ($\$120,000 \times .7778$) is attributable to services performed by A in Z's 2017 taxable year.

Example 8 (Account balance plan—principal additions method with a principal addition after the applicable individual ceases to be a service provider). (i) C is an applicable individual of corporation X for all relevant taxable years. On January 1, 2016, C begins participating in a nonqualified deferred compensation plan of X that is an account balance plan. Earnings

under the terms of the plan are based on a predetermined actual investment (as defined in § 31.3121(v)(2)-1(e)(2)(i)(B)). Under the terms of the plan, all amounts are fully vested at all times. X credits a \$10,000 principal addition to C under the plan on April 1, 2016, and a \$20,000 principal addition to C on April 1, 2017. C ceases providing services to X on December 31, 2017. On January 1, 2019, X credits \$30,000 to C's account in recognition of C's past services. The \$10,000 principal addition made on April 1, 2016 increases to \$15,000 as of December 31, 2019, as a result of earnings. The \$20,000 principal addition made on April 1, 2017, increases to \$28,000 as of December 31, 2019 as a result of earnings. The January 1, 2019, contribution of \$30,000 increases to \$33,000 as of December 31, 2019, as a result of earnings. On December 31, 2019, in accordance with the plan terms, X pays C's entire account balance of \$76,000. X attributes payments under its account balance plans using the principal additions method described in paragraph (d)(3)(ii) of this section.

(ii) When the \$76,000 payment is made to C on December 31, 2019, the remuneration becomes attributable to service performed by C in prior taxable years. The \$10,000 principal addition in 2016 plus earnings thereon of \$5,000 are attributable to services performed by C in X's 2016 taxable year, and the \$20,000 principal addition in 2017 (plus earnings thereon of \$8,000) are attributable to services performed by C in X's 2017 taxable year. The principal addition of \$30,000 plus earnings thereon of \$3,000 (\$33,000) are also attributable to services performed by C in X's 2017 taxable year. Thus, \$16,500 of the \$33,000 is attributed to services performed by C in X's 2017 taxable year.

(iii) Accordingly, with respect to the \$76,000 payment by X to C on December 31, 2019, \$15,000 (\$10,000 + \$5,000) is attributed to services performed by C in X's 2016 taxable year, and \$61,000 (\$20,000 + \$8,000 + \$33,000) is attributed to services performed by C in X's 2017 taxable year.

Example 9 (Nonaccount balance plan—present value ratio method with a single payment). (i) C is an applicable individual of corporation X for all relevant taxable years. On January 1, 2015, X grants C a vested right to a \$100,000 payment on January 1, 2020. C ceases providing services on December 31, 2019. The payment of \$100,000 is made on January 1, 2020. X determines the present value of the payment using an interest rate of five percent for all years.

(ii) The present value of \$100,000 payable on January 1, 2020, determined using a five percent interest rate, is \$82,270 as of December 31, 2015; \$86,384 as of December 31, 2016; \$90,703 as of December 31, 2017; \$95,238 as of December 31, 2018, and \$100,000 as of December 31, 2019. Accordingly, \$82,270 is the amount of the increase in the present value of the future payment of \$100,000 for X's 2015 taxable

year (\$82,270 - \$0); \$4,114 (\$86,384 - \$82,270) is the increase in the present value of the future payment for X's 2016 taxable year; \$4,319 (\$90,703 - \$86,384) is the increase in the present value of the future payment for X's 2017 taxable year; \$4,535 (\$95,238 - \$90,703) is the increase in the present value of the future payment for X's 2018 taxable year; and \$4,762 (\$100,000 - \$95,238) is the increase in the present value of the future payment for X's 2019 taxable year. The sum of all the increases is \$100,000 (\$82,270 + \$4,114 + \$4,319 + \$4,535 + \$4,762). Thus, the attribution fraction for 2015 is .8227 (\$82,270/\$100,000); the attribution fraction for 2016 is .0411 (\$4,114/\$100,000); the attribution fraction for 2017 is .0432 (\$4,319/\$100,000); the attribution fraction for 2018 is .0454 (\$4,535/\$100,000); and the attribution fraction for 2019 is .0476 (\$4,762/\$100,000).

(iii) The \$100,000 payment made on January 1, 2020 is multiplied by the attribution fraction for each taxable year, and the result is the amount that is attributable to service performed by C for that taxable year. Accordingly, \$82,270 (\$100,000 × .8227) is attributable to services performed by C in X's 2015 taxable year; \$4,114 (\$100,000 × .0411) is attributable to services performed by C in X's 2016 taxable year; \$4,319 (\$100,000 × .0432) is attributable to services performed by C in X's 2017 taxable year; \$4,535 (\$100,000 × .0454) is attributable to services performed by C in X's 2018 taxable year; and \$4,762 (\$100,000 × .0476) is attributable to services performed by C in X's 2019 taxable year.

Example 10. (Nonaccount balance plan—present value ratio method with an in-service payment). (i) The facts are the same as *Example 9*, except that X grants C a vested right to a \$40,000 payment on June 30, 2018 and a vested right to a \$60,000 payment on January 1, 2020.

(ii) The present value of the future payments (\$40,000 payable on June 30, 2018 and \$60,000 payable on January 1, 2020), determined using a five percent interest rate, is \$84,758 as of December 31, 2015; \$88,996 as of December 31, 2016; \$93,446 as of December 31, 2017; and \$97,143 as of December 31, 2018. However, for purposes of determining the increase in the present value of the future payments during 2018 (the year of the in-service payment), \$57,143 must be increased by \$40,000, the amount of the in-service payment, resulting in a present value of future payments as of December 31, 2018, of \$97,143 solely for purposes of attributing the \$40,000 in-service payment. Accordingly, \$84,758 is the amount of the increase in the present value of the future payments for X's 2015 taxable year, \$4,238 (\$88,996 - \$84,758) is the increase in the present value of the future payments for X's 2016 taxable year, \$4,450 (\$93,446 - \$88,996) is the increase in the present value of the future payments for X's 2017 taxable

year, and \$3,697 (\$97,143 - \$93,446) is the increase in the present value of the future payments for X's 2018 taxable year. The sum of all the increases is \$97,143 (\$84,758 + \$4,238 + \$4,450 + \$3,697). Thus, the attribution fraction for 2015 is .8725 (\$84,758/\$97,143); the attribution fraction for 2016 is .0436 (\$4,238/\$97,143); the attribution fraction for 2017 is .0458 (\$4,450/\$97,143); and the attribution fraction for 2018 is .0381 (\$3,697/\$97,143).

(iii) Accordingly, with respect to the \$40,000 payment made on June 30, 2018, \$34,900 ($\$40,000 \times .8725$) is attributable to services performed by C in X's 2015 taxable year; \$1,744 ($\$40,000 \times .0436$) is attributable to services performed by C in X's 2016 taxable year; \$1,832 ($\$40,000 \times .0458$) is attributable to services performed by C in X's 2017 taxable year; and \$1,524 ($\$40,000 \times .0381$) is attributable to services performed by C in X's 2018 taxable year.

(iv) For purposes of attributing the \$60,000 payment made on January 1, 2020, the present value of the future payments for each taxable year that ends prior to the taxable year in which the \$40,000 in-service payment is paid is reduced by the present value of the future payment to which the applicable individual had a legally binding right to be paid on the date the \$40,000 in-service is paid (based on the applicable factors and plan provisions as of the measurement date in each such taxable year). The present value of that future payment is \$35,396 as of December 31, 2015; \$37,166 as of December 31, 2016; and \$39,024 as of December 31, 2017. Therefore, for purposes of attributing the \$60,000 payment on January 1, 2020, the present value of future payments as of December 31, 2015, is \$49,362 (\$84,758 - \$35,396); the present value of future payments as of December 31, 2016, is \$51,830 (\$88,996 - \$37,166); the present value of future payments as of December 31, 2017, is \$54,422 (\$93,446 - \$39,024). The present value of future payments as of December 31, 2018, is \$57,143. Accordingly, \$49,362 is the increase in the present value of the future payment of \$60,000 for X's 2015 taxable year; \$2,468 (\$51,830 - \$49,362) is the increase in the present value of the future payment for X's 2016 taxable year; \$2,592 (\$54,422 - \$51,830) is the increase in the future value of the payment for X's 2017 taxable year; \$2,721 (\$57,143 - \$54,422) is the increase in the future value of the payments for X's 2018 taxable year; and \$2,857 (\$60,000 - \$57,143) is the increase in the future value of the payment for X's 2019 taxable year. The sum of all the increases is \$60,000 (\$49,362 + \$2,468 + \$2,592 + \$2,721 + \$2,857). Thus, the attribution fraction for 2015 is .8227 ($\$49,362/\$60,000$); the attribution fraction for 2016 is .0411 ($\$2,468/\$60,000$); the attribution fraction for 2017 is .0432 ($\$2,592/\$60,000$); the attribution fraction for 2018 is .0454 ($\$2,721/\$60,000$); and the attribution fraction for 2019 is .0476 ($\$2,857/\$60,000$).

(v) Accordingly, with respect to the \$60,000 payment made on January 1, 2020, \$49,362 ($\$60,000 \times .8227$) is attributable to services performed by C in X's 2015 taxable year; \$2,468 ($\$60,000 \times .0411$) is attributable to services performed by C in X's 2016 taxable year; \$2,592 ($\$60,000 \times .0432$) is attributable to services performed by C in X's 2017 taxable year; \$2,721 ($\$60,000 \times .0454$) is attributable to services performed by C in X's 2018 taxable year; and \$2,857 ($\$60,000 \times .0476$) is attributable to services performed by C in X's 2019 taxable year.

Example 11 (Nonaccount balance plan—formula benefit ratio method with losses and multiple payments). (i) D is an applicable individual of W for all relevant taxable years. D becomes a participant in a nonaccount balance plan sponsored by R on January 1, 2018. The plan provides W with the vested right to receive a five annual installments each equal to \$20,000 times the full years of service that D completes. The first payment is to be made on the later of December 31, 2027, or on the December 31 of the first year in which D is no longer a service provider. D has a break in service in 2020 and does not accrue an additional benefit during 2020. D ceases to be a service provider on December 31, 2022, after having completed four years of service, entitling D to five annual payments equal to \$80,000 per year commencing on December 31, 2027. W determines the present value of amounts to be paid under the plan using an interest rate of five percent for 2018 and 2019, and seven percent for 2021, 2022, and 2023. W uses the formula benefit ratio method described in paragraph (d)(4)(ii) of this section.

(ii) Under the plan formula, in 2018, E accrued the right to a \$20,000 annual payment for five years, and E accrued an additional \$20,000 in annual payments in 2019, 2021, and 2022, resulting in the right to receive an annual payment of \$80,000 commencing on December 31, 2027. Thus, the attribution fraction is .25 for 2018 ($\$20,000/\$80,000$), .25 for 2019 ($\$20,000/\$80,000$), .25 for 2021 ($\$20,000/\$80,000$), and .25 for 2022 ($\$20,000/\$80,000$). The attribution fraction for 2020 is zero because no additional formula benefit accrued during that year.

(iii) The attribution fraction for each disqualified taxable year is multiplied by each payment and the result is attributed to that taxable year. Accordingly, with respect to each \$80,000 payment, \$20,000 ($\$80,000 \times .25$) is attributable to services performed by D in W's 2018 taxable year; \$20,000 ($\$80,000 \times .25$) is attributable to services performed by D in W's 2019 taxable year; \$20,000 ($\$80,000 \times .25$) is attributable to services performed by D in W's 2021 taxable year; and \$20,000 ($\$80,000 \times .25$) is attributable to services performed by D in W's 2022 taxable year. No amount is attributable to services performed by D in W's 2020 taxable year.

Example 12 (Stock option). (i) E is an applicable individual of corporation V for all relevant taxable years. On January 1, 2016, V grants E an option to purchase 100 shares of V common stock at an exercise price of \$50 per share (the fair market value of V common stock on the date of grant). The stock option is not subject to a substantial risk of forfeiture. On December 31, 2017, E ceases to be a service provider of V or any member of V's aggregated group. On January 1, 2019, E resumes providing services for V and again becomes both a service provider and an applicable individual of V. On December 31, 2020, when the fair market value of V common stock is \$196 per share, E exercises the stock option. The remuneration resulting from the stock option exercise is \$14,600 ($(\$196 - \$50) \times 100$).

(ii) The \$14,600 is attributed *pro rata* over the 1,460 days from January 1, 2016 to December 31, 2017 and from January 1, 2019 to December 31, 2020 (365 days per year for the 2016, 2017, 2019, and 2020 taxable years), so that \$10 ($\$14,600$ divided by 1,460) is attributed to each calendar day in this period, and \$3,650 (365 days $\times$ \$10) of remuneration is attributed to services performed by E in each of V's 2016, 2017, 2019, and 2020 taxable years.

Example 13 (Stock option subject to a substantial risk of forfeiture). (i) The facts are the same as *Example 14*, except that the stock option is subject to a substantial risk of forfeiture that lapses on December 31, 2017, and is not transferable until that date, and V chooses to attribute remuneration resulting from the exercise of stock options that are subject to a substantial risk of forfeiture over the period beginning on the date of grant and ending on the date the substantial risk of forfeiture lapses, as permitted under paragraph (d)(5)(i)(B) of this section.

(ii) The \$14,600 is attributed *pro rata* over the 730 days from January 1, 2016 to December 31, 2017 (365 days per year for the 2016 and 2017 taxable years), so that \$20 ($\$14,600$ divided by 730) is attributed to each calendar day in this period, and \$7,300 (365 days $\times$ \$20) is attributed to services performed by E in each of V's 2016 and 2017 taxable years.

Example 14 (Restricted stock). (i) F is an applicable individual of corporation U for all relevant taxable years. On January 1, 2017, U grants to F 1000 shares of restricted U common stock. Under the terms of the grant, the shares will be forfeited if F voluntarily terminates employment before December 31, 2019 (so that the shares are subject to a substantial risk of forfeiture through that date) and are nontransferable until the substantial risk of forfeiture lapses. F does not make an election under section 83(b) and continues in employment with U through December 31, 2019, at which time F's rights in the stock become substantially vested within the meaning of § 1.83-3(b) and the fair market value of a share of the stock is \$109.50. The

remuneration resulting from the vesting of the restricted stock is \$109,500 ($\$109.50 \times 1000$).

(ii) The \$109,500 of remuneration is attributed to services performed by F over the 1,095 days between January 1, 2017 and December 31, 2019 (365 days per year for the 2017, 2018, and 2019 taxable years), so that \$100 ($\$109,500$ divided by 1,095) is attributed to each calendar day in this period, and remuneration of \$36,500 (365 days $\times$ \$100) is attributed to services performed by F in each of U's 2017, 2018, and 2019 taxable years.

Example 15 (RSUs). (i) G is an applicable individual of corporation T for all relevant taxable years. On January 1, 2018, T grants to G 1000 RSUs. Under the terms of the grant, T will pay G an amount on December 31, 2020 equal to the fair market value of 1000 shares of T common stock on that date, but only if G continues to provide substantial services to T (so that the RSU is subject to a substantial risk of forfeiture) through December 31, 2020. G remains employed by T through December 31, 2020, at which time the fair market value of a share of the stock is \$219, and T pays G \$219,000 ($\$219 \times 1000$).

(ii) The \$219,000 in remuneration is attributed to services performed by G over the 1,095 days beginning on January 1, 2018 and ending on December 31, 2020 (365 days per year for the 2018, 2019, and 2020 taxable years), so that \$200 ($\$219,000/1,095$) is attributed to each calendar day in this period, and \$73,000 (365 days $\times$ \$200) is attributed to service performed by G in each of T's 2018, 2019, and 2020 taxable years.

Example 16 (Involuntary separation pay). (i) H is an applicable individual of corporation S. On January 1, 2015, H and S enter into an employment contract providing that S will make two payments of \$150,000 each to H if H has an involuntary separation from service. Under the terms of the contract, the first payment is due on January 1 following the involuntary separation from service, and the second payment is due on January 1 of the following year. On December 31, 2016, H has an involuntary separation from service. S pays H \$150,000 on January 1, 2017 and \$150,000 on January 1, 2018.

(ii) Pursuant to paragraph (d)(6) of this section, involuntary separation pay may be attributed to services performed by H in the taxable year of S in which the involuntary separation from service occurs. Alternatively, involuntary separation pay may be attributed to services performed by H on a daily *pro rata* basis beginning on the date H obtains a legally binding right to the involuntary separation pay and ending on the date of the involuntary separation from service. The entire \$300,000 amount, including both \$150,000 payments, must be attributed using the same method. Therefore, the entire \$300,000 amount (comprised of two \$150,000 payments) may be attributed to services performed by H in S's 2016 taxable year, which

is the taxable year in which the involuntary separation from service occurs. Alternatively, each \$150,000 payment may be attributed on a daily *pro rata* basis to the period beginning on January 1, 2015 and ending December 31, 2016, so that \$410.96 $((\$150,000 \times 2)/(365 \times 2))$ is attributed to each day of S's 2015 and 2016 taxable years. Accordingly, \$150,000 is attributed to services performed by H in each of S's 2015 and 2016 taxable years.

Example 17 (Reimbursement after termination of services). (i) I is an applicable individual of corporation R. On January 1, 2018, I enters into an agreement with R under which R will reimburse I's country club dues for two years following I's separation from service. On December 31, 2020, I ceases to be a service provider of R. I pays \$50,000 in country club dues on January 1, 2021 and \$50,000 on January 2, 2022. Pursuant to the agreement, R reimburses I \$50,000 for the country club dues in 2021 and \$50,000 in 2022.

(ii) \$100,000 is attributed to services performed in R's 2020 taxable year, the taxable year in which I ceases to be a service provider.

(10) *Certain remuneration subject to a substantial risk of forfeiture.* If remuneration is attributable in accordance with paragraphs (d)(2) (legally binding right), (d)(3) (account balance plan), or (d)(4) (nonaccount balance plan) of this section to services performed in a period that includes two or more taxable years of a covered health insurance provider during which the remuneration is subject to a substantial risk of forfeiture, that remuneration must be attributed using a two-step process. First, the remuneration must be attributed to the taxable years of the covered health insurance provider in accordance with paragraph (d)(2), (3), or (4) of this section, as applicable. Second, the remuneration attributed to the period during which the remuneration is subject to a substantial risk of forfeiture (the vesting period) must be reattributed on a daily *pro rata* basis over that period beginning on the date that the applicable individual obtains a legally binding right to the remuneration and ending on the date that the substantial risk of forfeiture lapses. If a vesting period begins on a day other than the first day of a covered health insurance provider's taxable year or ends on a day other than the last day of the covered health insurance provider's taxable year, the remuneration attributable to that taxable year under

the first step of the attribution process is divided between the portion of the taxable year that includes the vesting period and the portion of the taxable year that does not include the vesting period. The amount attributed to the portion of the taxable year that includes the vesting period is equal to the total amount of remuneration that would be attributable to the taxable year under the first step of the attribution process, multiplied by a fraction, the numerator of which is the number of days during the taxable year that the amount is subject to a substantial risk of forfeiture and the denominator of which is the number of days in such taxable year. The remaining amount is attributed to the portion of the taxable year that does not include the vesting period and, therefore, is not reattributed under the second step of the attribution process.

(11) *Example.* The following example illustrates the principles of paragraph (d)(10) of this section. For purposes of this example, the corporation has a taxable year that is the calendar year and is a covered health insurance provider for all relevant taxable years, DDR is otherwise deductible in the taxable year in which it is paid, and amounts payable under nonaccount balance plans are not forfeitable upon the death of the applicable individual.

Example (Account balance plan subject to a substantial risk of forfeiture using the principal additions method). (i) J is an applicable individual of corporation Q for all relevant taxable years. On January 1, 2016, J begins participating in a nonqualified deferred compensation plan that is an account balance plan. Under the terms of the plan, Q will pay J's account balance on January 1, 2021, but only if J continues to provide substantial services to Q through December 31, 2018 (so that the amount credited to J's account is subject to a substantial risk of forfeiture through that date). Q credits \$10,000 to J's account annually for five years on January 1 of each year beginning on January 1, 2016. The account earns interest at a fixed rate of five percent per year, compounded annually, which solely for the purposes of this example, is assumed to be a reasonable rate of interest. Q attributes increases in account balances under the plan using the principal additions method described in paragraph (d)(3)(ii) of this section.

(ii) Earnings on a principal addition are attributed to the same disqualified taxable year of Q to which the principal addition is

attributed; therefore, the amount initially attributable to Q's 2016 taxable year is \$12,763 (the \$10,000 principal addition in 2016 at five percent interest for five years); the amount initially attributable to Q's 2017 taxable year is \$12,155 (the \$10,000 principal addition in 2017 at five percent interest for four years); the amount initially attributable to Q's 2018 taxable year is \$11,576 (the \$10,000 principal addition in 2018 at five percent interest for three years); the amount attributable to Q's 2019 taxable year is \$11,025 (the \$10,000 principal addition in 2019 at five percent interest for two years); and the amount attributable to Q's 2020 taxable year is \$10,500 (the \$10,000 principal addition in 2020 at five percent interest for one year).

(iii) Remuneration that is attributable to two or more taxable years of Q during which it is subject to a substantial risk of forfeiture must be reattributed on a daily *pro rata* basis to the period beginning on the date that J obtains a legally binding right to the remuneration and ending on the date that the substantial risk of forfeiture lapses. Therefore, \$36,494 (\$12,763 + \$12,155 + \$11,576) is reattributed on a daily *pro rata* basis over the period beginning on January 1, 2016, and ending on December 31, 2018. Thus, \$12,165 is attributed to services performed by J in each of Q's 2016, 2017, and 2018 taxable years.

(e) *Application of the deduction limitation*—(1) *Application to aggregate amounts.* The \$500,000 deduction limitation is applied to the aggregate amount of AIR and DDR attributable to services performed by an applicable individual in a disqualified taxable year. The aggregate amount of AIR and DDR attributable to services performed by an applicable individual in a disqualified taxable year that exceeds the \$500,000 deduction limit is not allowed as a deduction in any taxable year. Therefore, for example, if an applicable individual has more than \$500,000 of AIR attributable to services performed for a covered health insurance provider in a disqualified taxable year, the amount of that AIR that exceeds \$500,000 is not deductible in any taxable year, and no DDR attributable to services performed by the applicable individual in that disqualified taxable year is deductible in any taxable year. However, if an applicable individual has AIR for a disqualified taxable year that is \$500,000 or less and DDR attributable to services performed in the same disqualified taxable year that, when combined with the AIR for the year, exceeds \$500,000, all of the AIR is deduct-

ible in that disqualified taxable year, but the amount of DDR attributable to that taxable year that is deductible in future taxable years is limited to an amount equal to \$500,000 less the amount of the AIR for that taxable year.

(2) *Order of application and calculation of deduction limitation*—(i) *In general.* The deduction limitation with respect to any applicable individual for any disqualified taxable year is applied to AIR and DDR attributable to services performed by that applicable individual in that disqualified taxable year at the time that the remuneration becomes otherwise deductible, and each time the deduction limitation is applied to an amount that is otherwise deductible, the deduction limit is reduced (but not below zero) by the amount against which it is applied. Accordingly, the deduction limitation is applied first to an applicable individual's AIR attributable to services performed in a disqualified taxable year and is reduced (but not below zero) by the amount of the AIR to which the deduction limit is applied. If the applicable individual also has an amount of DDR attributable to services performed in that disqualified taxable year that becomes otherwise deductible in a subsequent taxable year, the deduction limit, as reduced, is applied to that amount of DDR in the first taxable year in which the DDR becomes otherwise deductible. The deduction limit is then further reduced (but not below zero) by the amount of the DDR to which the deduction limit is applied. If the applicable individual has an additional amount of DDR attributable to services performed in the original disqualified taxable year that becomes otherwise deductible in a subsequent taxable year, the deduction limit, as further reduced, is applied to that amount of DDR in the taxable year in which it is otherwise deductible. This process continues for future taxable years in which DDR attributable to services performed by the applicable individual in the original disqualified taxable year is otherwise deductible. No deduction is allowed in any taxable year for any AIR or DDR attributable to services performed by an applicable individual in a disqualified taxable year for

the excess of those amounts over the deduction limit (as reduced, if applicable) for that disqualified taxable year at the time the deduction limitation is applied to the remuneration.

(ii) *Application to payments*—(A) *In general.* Any payment of remuneration may include amounts that are attributable to services performed by an applicable individual in one or more taxable years of a covered health insurance provider pursuant to paragraphs (d)(2) through (11) of this section. In that case, a separate deduction limitation applies to each portion of the payment that is attributed to services performed in a different disqualified taxable year. Any portion of a payment that is attributed to a taxable year that is a disqualified taxable year is deductible only to the extent that it does not exceed the deduction limit that applies with respect to the applicable individual for that disqualified taxable year, as reduced by the amount, if any, of AIR and DDR attributable to services performed in that disqualified taxable year that was deductible in an earlier taxable year.

(3) *Examples.* The following examples illustrate the rules of paragraphs (e)(1) and (2) of this section. For purposes of these examples, each corporation has a taxable year that is the calendar year and is a covered health insurance provider for all relevant taxable years; DDR is otherwise deductible in the taxable year in which it is paid; and amounts payable under nonaccount balance plans are not forfeitable upon the death of the applicable individual.

Example 1 (Lump-sum payment of DDR attributable to a single taxable year). (i) L is an applicable individual of corporation O. During O's 2015 taxable year, O pays L \$550,000 in salary, which is AIR, and grants L a right to \$50,000 of DDR payable upon L's separation from service from O. L has a separation from service in 2020, at which time O pays L the \$50,000 of DDR attributable to services performed by L in O's 2015 taxable year.

(ii) The \$500,000 deduction limitation for 2015 is applied first to L's \$550,000 of AIR for 2015. Because the \$550,000 of AIR in 2015 is greater than the deduction limit, O may deduct only \$500,000 of the AIR for 2015, and \$50,000 of the \$550,000 of AIR is not deductible for any taxable year. The deduction limit for remuneration attributable to services provided by L in O's 2015 taxable year is then reduced to zero. Because the \$50,000 in DDR at-

tributable to services performed by L in 2015 exceeds the reduced deduction limit of zero, that \$50,000 is not deductible for any taxable year.

Example 2 (Installment payments of DDR attributable to a single taxable year). (i) M is an applicable individual of corporation N. During N's 2016 taxable year, N pays M \$300,000 in salary, which is AIR, and grants M a right to \$220,000 of DDR payable on a fixed schedule beginning upon M's separation from service. The \$220,000 is attributable to services provided by M in N's 2016 taxable year. M ceases providing services on December 31, 2016. In 2020, N pays M \$120,000 of DDR that is attributable to services performed in N's 2016 taxable year. In 2021, N pays M the remaining \$100,000 of DDR attributable to services performed by M in N's 2016 taxable year.

(ii) The \$500,000 deduction limitation for 2016 is applied first to M's \$300,000 of AIR for 2016. Because the deduction limit is greater than the AIR, N may deduct the entire \$300,000 of AIR paid in 2016. The \$500,000 deduction limit is then reduced to \$200,000 because the limitation is reduced by the amount of AIR (\$500,000 - \$300,000). The reduced deduction limit is then applied to M's \$120,000 of DDR attributable to services performed by M in N's 2016 taxable year that is paid in 2020. Because the reduced deduction limit of \$200,000 is greater than the \$120,000 of DDR, N may deduct the entire \$120,000 of DDR paid in 2020. The \$200,000 deduction limit is reduced to \$80,000 by the \$120,000 in DDR because the limit is reduced by the amount of DDR to which the deduction limit applied (\$200,000 - \$120,000). The reduced deduction limit of \$80,000 is then applied to the remaining \$100,000 payment of DDR attributable to services performed by M in N's 2016 taxable year. Because the \$100,000 payment by N for 2021 exceeds the reduced deduction limit of \$80,000, N may deduct only \$80,000 of the payment for the 2021 taxable year, and \$20,000 of the \$100,000 payment is not deductible by N for any taxable year.

Example 3 (Lump-sum payment attributable to multiple years from an account balance plan using the account balance ratio method). (i) N is an applicable individual of corporation M for all relevant taxable years. On January 1, 2015, N begins participating in a nonqualified deferred compensation plan sponsored by M that is an account balance plan. Under the plan, all amounts are fully vested at all times. The balances in N's account (including earnings) are \$50,000 on December 31, 2015, \$100,000 on December 31, 2016, and \$200,000 on December 31, 2017. N's AIR from M is \$425,000 for 2015, \$450,000 for 2016, and \$500,000 for 2017. On January 1, 2018, in accordance with the plan terms, M pays \$200,000 to N, which is a payment of N's entire account balance under the plan. M uses

the account balance ratio method to attribute amounts to services performed in taxable years.

(ii) To determine the extent to which M is entitled to a deduction for any portion of the \$200,000 payment under the plan, the payment must first be attributed to services performed by N in M's taxable years in accordance with the attribution rules set forth in paragraph (d) of this section. The increase in N's account balance during 2015 is \$50,000 (\$50,000 - zero); the increase in N's account balance for 2016 is \$50,000 (\$100,000 - \$50,000); and the increase in N's account balance for 2017 is \$100,000 (\$200,000 - \$100,000). The sum of all the increases is \$200,000 (\$50,000 + \$50,000 + \$100,000). Accordingly, for N's 2015 taxable year, the attribution fraction is .25 (\$50,000/\$200,000); for N's 2016, taxable year, the attribution fraction is .25 (\$50,000/\$200,000); and for N's 2017 taxable year, the attribution fraction is .50 (\$100,000/\$200,000).

(iii) With respect to the \$200,000 payment made on January 1, 2018, \$50,000 (\$200,000 × .25) of DDR is attributable to services performed by N in M's 2015 taxable year; \$50,000 (\$200,000 × .25) of DDR is attributable to services performed by N in M's 2016 taxable year; and \$100,000 (\$200,000 × .50) of DDR is attributable to services performed by N in M's 2017 taxable year.

(iv) The \$500,000 deduction limitation for 2015 is applied first to N's \$425,000 of AIR for 2015. Because the deduction limit is greater than the AIR, M may deduct the entire \$425,000 of AIR paid in 2015. The \$500,000 deduction limit is then reduced to \$75,000 by the amount of AIR against which it is applied (\$500,000 - \$425,000). The reduced deduction limit is then applied to N's \$50,000 of DDR attributable to services performed by N in M's 2015 taxable year that is paid in 2018. Because \$50,000 does not exceed the reduced deduction limit of \$75,000, all \$50,000 of the DDR attributable to services performed by N in M's 2015 taxable year is deductible for 2018, the year of payment. The deduction limit for remuneration attributable to services performed by N in 2015 is then reduced to \$25,000 (\$75,000 - \$50,000), and this reduced limit is applied to any future payment of DDR attributable to services performed by N in 2015. With respect to M's 2016 taxable year, the \$500,000 deduction limit for 2016 is applied first to N's \$450,000 of AIR for 2016. Because the deduction limit is greater than the AIR, M may deduct the entire \$450,000 of AIR paid in 2016. The \$500,000 deduction limit is then reduced to \$50,000 by the AIR (\$500,000 - \$450,000). The reduced deduction limit is then applied to N's \$50,000 of DDR attributable to services performed by N in M's 2016 taxable year that is paid in 2018. Because \$50,000 does not exceed the reduced deduction limit of \$50,000, all \$50,000 of the DDR attributed to M's 2016 taxable year is deductible for 2018, the year of payment. The deduction limit for

remuneration attributable to services performed by N in 2016 is then reduced to zero, and this reduced limit is applied to any future payment of DDR attributable to services performed by N in 2016. With respect to M's 2017 taxable year, the \$500,000 deduction limit for 2017 is applied first to N's \$500,000 of AIR for 2017. Because the deduction limit is not greater than the AIR, M may deduct the entire \$500,000 of AIR paid in 2017. The \$500,000 deduction limit is then reduced to zero by the amount of the AIR against which it is applied (\$500,000 - \$500,000). The reduced deduction limit is applied to N's \$100,000 of DDR attributable to services performed by N in M's 2017 taxable year that is paid in 2018. Because \$100,000 exceeds the reduced deduction limit of zero, the \$100,000 of the DDR attributed to services performed by N in M's 2017 taxable year is not deductible for the year of payment (or any other taxable year). As a result, \$100,000 of the \$200,000 payment (\$50,000 + \$50,000 + \$0) is deductible by M for M's 2018 taxable year, and the remaining \$100,000 is not deductible by M for any taxable year.

Example 4 (Installment payments and in-service payment attributable to multiple taxable years from an account balance plan using the account balance ratio method). (i) O is an applicable individual of corporation L for all relevant taxable years. On January 1, 2016, O begins participating in a nonqualified deferred compensation plan sponsored by L that is an account balance plan. Under the plan, all amounts are fully vested at all times. L makes contributions to O's account each year and credits earnings based on a predetermined actual investment within the meaning of § 31.3121(v)(2)-1(d)(2)(i)(B). The closing balances in O's account (including contributions, earnings, and distributions made during the year) are \$100,000 on December 31, 2016, \$250,000 on December 31, 2017, and \$500,000 on December 31, 2018. O's AIR from L is \$500,000 for 2016, \$300,000 for 2017, and \$450,000 for 2018. On December 31, 2018, L pays O \$400,000 in accordance with the plan terms. On December 31, 2019, O's account balance is \$200,000, reflecting additional credits of \$125,000 made during the year and earnings on the account. O's AIR from L is \$200,000 for 2019. O ceases providing services to L on December 31, 2019. On January 1, 2020, L pays O \$200,000 in accordance with the plan terms. L uses the account balance ratio method to attribute amounts to services performed in taxable years.

(ii) To determine the extent to which L is entitled to a deduction for any portion of either of the payments under the plan, O's payments under the plan must first be attributed to services performed by O in L's taxable years in accordance with the attribution rules set forth in paragraph (d) of this section. For purposes of attributing the \$400,000 payment made on December 31, 2018

to a taxable year, the increase in O's account balance during 2016 is \$100,000 (\$100,000 - zero); the increase in O's account balance for 2017 is \$150,000 (\$250,000 - \$100,000); and the increase in O's account balance for 2018 is \$200,000 (\$50,000 - \$250,000 + \$400,000 (payment on December 31, 2018)). The sum of all the increases is \$450,000 (\$100,000 + \$150,000 + \$200,000). Thus, for L's 2016 taxable year, the attribution fraction is .2222 (\$100,000/\$450,000); for L's 2017 taxable year, the attribution fraction is .3333 (\$150,000/\$450,000); and for L's 2018 taxable year, the attribution fraction is .4444 (\$200,000/\$450,000). Accordingly, with respect to the \$400,000 payment made on December 31, 2019, \$88,889 (\$400,000 × .2222) is attributable to services performed by O in L's 2016 taxable year; \$133,333 (\$400,000 × .3333) is attributable to services performed by O in L's 2017 taxable year; and \$177,778 (\$400,000 × .4444) is attributable to services performed by O in L's 2018 taxable year.

(iii) The portion of the \$400,000 payment attributed to services performed in a disqualified taxable year under paragraph (d) of this section that exceeds the deduction limit for that disqualified taxable year, as reduced through the date of payment, is not deductible in any taxable year. The \$500,000 deduction limit for 2016 is applied first to O's \$500,000 of AIR for 2016. Because the deduction limit is equal to the \$500,000 of AIR, L may deduct the entire \$500,000 of AIR paid in 2016. The \$500,000 deduction limit is then reduced to zero by the amount of the AIR (\$500,000 - \$500,000). The reduced deduction limit is applied to O's \$88,889 of DDR attributable to services performed by O in L's 2016 taxable year that is paid in 2018. Because \$88,889 exceeds the reduced deduction limit of zero, the \$88,889 of DDR attributed to 2016 is not deductible for L's 2018 taxable year or any other taxable year. With respect to L's 2017 taxable year, the \$500,000 deduction limitation for 2017 is applied first to O's \$300,000 of AIR for 2017. Because the \$500,000 deduction limit is greater than the \$300,000 of AIR, L may deduct the entire \$300,000 of AIR paid in 2017. The \$500,000 deduction limit is reduced to \$200,000 by the amount of the AIR (\$500,000 - \$300,000). The reduced deduction limit is then applied to O's \$133,333 of DDR attributable to services performed by O in L's 2017 taxable year that is paid in 2018. Because \$133,333 does not exceed that reduced deduction limit of \$200,000, the \$133,333 is deductible for 2018. The deduction limit for remuneration attributable to services performed by O in 2017 is then reduced to \$66,667 (\$200,000 - \$133,333), and this reduced limit is applied to any future payment of DDR attributable to services performed by O in 2017. With respect to L's 2018 taxable year, the \$500,000 deduction limit for 2018 is applied first to O's \$450,000 of AIR for 2018. Because the deduction limit is greater than the AIR, L may deduct the entire \$450,000 of AIR paid

in 2017. The \$500,000 deduction limit is reduced to \$50,000 by the amount of the AIR (\$500,000 - \$450,000). The reduced deduction limit is applied to O's \$177,778 attributable to services performed by O in L's 2018 taxable year that is paid in 2018. Because the \$177,778 exceeds the reduced deduction limit of \$50,000, \$50,000 of DDR is deductible for L's 2018 taxable year, and \$127,778 of the \$177,778 is not deductible for L's 2018 taxable year or any other taxable year. As a result, \$183,333 of the \$400,000 payment (\$0 + \$133,333 + \$50,000) is deductible by L for L's 2018 taxable year, and the remaining \$216,667 is not deductible by L for any taxable year.

(iv) For purposes of attributing amounts paid or made available from the plan in future taxable years, the following adjustments are made to O's account balances to reflect the in-service payment of \$400,000 in 2018. O's account balance as of December 31, 2016 is reduced by the \$88,889 attributable to 2016; and for 2017 is reduced by the sum of the \$133,333 attributable to 2017 and the \$88,889 attributable to 2016. Therefore, after attributing the \$400,000 payment, O's adjusted closing account balance as of December 31, 2016, is \$11,111 (\$100,000 - \$88,889), and as of December 31, 2017, is \$27,778 (\$250,000 - \$133,333 - \$88,889).

(v) For purposes of attributing the \$200,000 payment made on January 1, 2020, to services performed in the taxable years of S, the increase in O's account balance during 2016 is \$11,111 (\$11,111 - \$0); the increase in O's account balance for 2017 is \$16,667 (\$27,778 - \$11,111); the increase in O's account balance for 2018 is \$22,222 (\$50,000 - \$27,778), and the increase in O's account balance for 2019 is \$150,000 (\$200,000 - \$50,000). The sum of all such increases is \$200,000 (\$11,111 + \$16,667 + \$22,222 + \$150,000). Thus, for O's 2016 taxable year, the attribution fraction is .0556 (\$11,111/\$200,000); for O's 2017, taxable year, the attribution fraction is .0833 (\$16,667/\$200,000); for O's 2018 taxable year, the attribution fraction is .1111 (\$22,222/\$200,000); for O's 2019 taxable year, the attribution fraction is .7500 (\$150,000/\$200,000). Accordingly, with respect to the \$200,000 payment made on January 1, 2020, \$11,111 (\$200,000 × .0556) of DDR is attributable to services performed by O in L's 2016 taxable year; \$16,667 (\$200,000 × .0833) of DDR is attributable to services performed by O in L's 2017 taxable year; \$22,222 (\$200,000 × .1111) of DDR is attributable to services performed by O in L's 2018 taxable year; and \$150,000 (\$200,000 × .7500) of DDR is attributable to services performed by O in L's 2019 taxable year.

(vi) The portion of the DDR attributed to a disqualified taxable year under paragraph (d) of this section that exceeds the deduction limit for that disqualified taxable year, as reduced, is not deductible for any taxable year. For L's 2016 taxable year, the deduction limit is reduced to zero by the \$500,000 of

AIR for that year. Because \$11,111 exceeds the reduced deduction limit of zero, \$11,111 of the DDR is not deductible for L's 2020 taxable year or any other taxable year. For L's 2017 taxable year, the deduction limit is reduced to \$200,000 by the \$300,000 of AIR for that year and further reduced to \$66,667 by the \$133,333 of DDR previously attributed to 2017. Because \$16,667 does not exceed the \$66,667 deduction limit, the \$16,667 of DDR is deductible for L's 2020 taxable year, the year of payment. The deduction limit for remuneration attributable to services performed by O in 2017 is then reduced to \$50,000 (\$66,667 – \$16,667), and this reduced limit is applied to any future payment attributable to services performed by O in 2017. For L's 2018 taxable year, the deduction limit is reduced to zero by the \$450,000 of AIR for that year and the \$50,000 of DDR previously attributed to 2018. Because \$22,222 exceeds the reduced deduction limit of zero for 2018, the \$22,222 of DDR is not deductible for L's 2020 taxable year or any other taxable year. For L's 2019 taxable year, the \$500,000 deduction limit for 2019 is applied first to O's \$200,000 of AIR for 2019. Because the deduction limit is greater than the AIR, L may deduct the entire \$200,000 of AIR paid in 2019. The \$500,000 deduction limit is reduced to \$300,000 by the amount of the AIR (\$500,000 – \$200,000). The reduced deduction limit is applied to O's \$150,000 of DDR attributable to services performed by O in L's 2019 taxable year that is paid in 2020. Because \$150,000 does not exceed the \$300,000 limit, the \$150,000 of DDR is deductible for L's 2020 taxable year, the year of payment. The deduction limit for remuneration attributable to services performed by O in 2019 is then reduced to \$150,000 (\$500,000 – \$200,000 – \$150,000), and this reduced limit is applied to any future payment attributable to services performed by O in 2019. As a result, \$166,667 of the \$200,000 payment (\$0 + \$16,667 + \$0 + \$150,000) is deductible by L for L's 2020 taxable year, the year of payment, and the remaining \$33,333 is not deductible by L for any taxable year.

Example 5 (Installment payments and in-service payment attributable to multiple taxable years from an account balance plan using the principal additions method). (i) The facts are the same as set forth in *Example 4*, paragraph (i), except that L uses the principal additions method for attributing remuneration from an account balance plan; principal additions under the plan are \$100,000 in 2016, \$125,000 in 2017, \$150,000 in 2018, and \$125,000 in 2019; as of the December 31, 2018 initial date of payment, earnings on the 2016, 2017, and 2018 principal additions are \$40,000, \$30,000, and \$5,000 respectively. Under the terms of the plan, the \$400,000 payment made on December 31, 2018, is from principal additions in 2016, 2017, and 2018, and earnings thereon, and the \$200,000 payment made on January 1,

2020, is from principal additions in 2018 and 2019, and earnings thereon.

(ii) To determine the extent to which L is entitled to a deduction for any portion of either payment under the plan, the payments to O under the plan must first be attributed to services performed by O in F's taxable years in accordance with the attribution rules set forth in paragraph (d) of this section. Under the rules in paragraph (d)(3)(ii) of this section, the \$400,000 payment on January 1, 2019, is attributed to services performed by O in the taxable year to which the payment relates under the terms of the plan. DDR including principal additions and earnings thereon are attributed to services performed by O in a taxable year of L when the \$400,000 payment is made to O on December 31, 2018. Under the terms of the plan, the \$400,000 payment made on December 31, 2018 is attributed to services performed by O in L's 2016 taxable year in the amount of \$140,000, and is attributed to services performed by O in L's 2017 taxable year in the amount of \$155,000, and the remaining \$105,000 (\$400,000 – \$140,000 – \$155,000) is attributed to services performed by O in L's 2018 taxable year.

(iii) The portion of the DDR attributable to services performed in a disqualified taxable year under paragraph (d) of this section that exceeds the deduction limit for that disqualified taxable year, as reduced, is not deductible for any taxable year. The \$500,000 deduction limitation for 2016 is applied first to O's \$500,000 of AIR for 2016. Because the deduction limit is equal to the \$500,000 of AIR, L may deduct the entire \$500,000 of AIR paid in 2016. The \$500,000 deduction limit is then reduced to zero by the amount of the AIR (\$500,000 – \$500,000). The reduced deduction limit is applied to O's \$140,000 of DDR attributable to services performed by O in L's 2016 taxable year that is paid in 2018. Because \$140,000 exceeds the reduced deduction limit of zero, the \$140,000 is not deductible for L's 2018 taxable year (the year of payment), or any other taxable year. For L's 2017 taxable year, the \$500,000 deduction limit for 2017 is applied first to O's \$300,000 of AIR for 2017. Because the deduction limit is greater than the AIR, L may deduct the entire \$300,000 of AIR paid in 2017. The \$500,000 deduction limit is then reduced to \$200,000 by the amount of the AIR (\$500,000 – \$300,000). The reduced deduction limit is applied to O's \$155,000 of DDR attributable to services performed by O in L's 2017 taxable year that is paid in 2018. Because \$155,000 does not exceed the reduced deduction limit of \$200,000, the \$155,000 payment is deductible for 2018. For L's 2018 taxable year, the \$500,000 deduction limitation for 2018 is applied first to O's \$450,000 of AIR for 2018. Because the deduction limit is greater than the AIR, L may deduct the entire \$450,000 of AIR paid in 2018. The \$500,000 deduction limit is then reduced

to \$50,000 by the amount of the AIR (\$500,000 – \$450,000). The reduced deduction limit is applied to O's \$105,000 of DDR attributable to services performed by O in L's 2018 taxable year that is paid in 2018. Because \$105,000 exceeds the reduced deduction limit of \$50,000, \$55,000 of the \$105,000 attributable to L's 2018 taxable year is not deductible for 2018 (the year of payment), or any other taxable year. As a result, \$205,000 of the \$400,000 payment (\$0 + \$155,000 + \$50,000) is deductible by L for L's 2018 taxable year (the year of payment) and the remaining \$195,000 is not deductible by L for any taxable year.

(iv) Earnings through January 1, 2020 on the principal addition for L's 2018 taxable year (\$50,000) that was not paid as part of the December 31, 2018 payment are \$5,000. Earnings through January 1, 2020 on the \$125,000 credited to O's account on January 1, 2019 are \$20,000. On December 31, 2018, after the \$400,000 payment is applied to 2016, 2017, and 2018, the account balance for 2016 and 2017 is reduced to zero, and the account balance for 2018 is reduced to \$50,000 (\$150,000 + \$5,000 (earnings) – \$105,000). Under the terms of the plan, the \$200,000 payment made on January 1, 2020, is attributable to services performed by O in L's 2018 and 2019 taxable years. Therefore, the \$200,000 payment on January 1, 2020 is attributed to services performed by O in L's taxable years as follows: \$55,000 (\$50,000 + \$5,000) to 2018 and \$145,000 (\$125,000 + \$20,000) to 2019.

(v) The portion of the DDR attributed to a disqualified taxable year under paragraph (d) of this section that exceeds the deduction limit for that disqualified taxable year, as reduced, is not deductible for any taxable year. For L's 2018 taxable year, the deduction limit is reduced to zero by the \$450,000 of AIR for that year and the payment of \$50,000 of DDR attributable to that year. Because \$55,000 exceeds the reduced deduction limit of zero, the \$55,000 is not deductible for 2020, the year of payment (or any other taxable year). With respect to L's 2019 taxable year, the \$500,000 deduction limit for 2019 is applied first to O's \$200,000 of AIR for 2019. Because the deduction limit is greater than the AIR, L may deduct the entire \$200,000 of AIR paid in 2019. The \$500,000 deduction limit is then reduced to \$300,000 by the amount of the AIR (\$500,000 – \$200,000). The reduced deduction limit is applied to O's \$145,000 of DDR attributable to services performed by O in L's 2019 taxable year that is paid in 2020. Because \$145,000 does not exceed the \$300,000 reduced limit, the \$145,000 is deductible for 2020 (the year of payment). As a result, \$145,000 of the \$200,000 payment (\$0 + \$145,000) is deductible for L's 2020 taxable year, and the remaining \$55,000 is not deductible by L for any taxable year.

(4) *Application of deduction limitation to aggregated groups of covered health in-*

surance providers—(i) In general. The total combined deduction for AIR and DDR attributable to services performed by an applicable individual in a disqualified taxable year allowed for all members of an aggregated group that are covered health insurance providers for any taxable year is limited to \$500,000. Therefore, if two or more members of an aggregated group that are covered health insurance providers may otherwise deduct AIR or DDR attributable to services performed by an applicable individual in a disqualified taxable year, the AIR and DDR otherwise deductible by all members of the aggregated group is combined, and the deduction limitation is applied to the total amount.

(ii) *Proration of deduction limitation.* If the total amount of AIR or DDR attributable to services performed by an applicable individual in a disqualified taxable year that is otherwise deductible by two or more members of an aggregated group in any taxable year exceeds the \$500,000 deduction limit (as reduced by previously deductible AIR or DDR, if applicable), the deduction limit is prorated based on the AIR or DDR otherwise deductible by the members of the aggregated group in the taxable year and allocated to each member of the aggregated group. The deduction limit allocated to each member of the aggregated group is determined by multiplying the deduction limit for the disqualified taxable year (as previously reduced, if applicable) by a fraction, the numerator of which is the AIR or DDR otherwise deductible by that member in that taxable year that is attributable to services performed by the applicable individual in the disqualified taxable year, and the denominator of which is the total AIR or DDR otherwise deductible by all members of the aggregated group in that taxable year that is attributable to services performed by the applicable individual in the disqualified taxable year. The amount of AIR or DDR otherwise deductible by a member of the aggregated group in excess of the portion of the deduction limit allocated to that member is not deductible in any taxable year. If a covered health insurance provider is a member of more than one aggregated group, the deduction limit

for that covered health insurance provider under section 162(m)(6) may in no event exceed \$500,000 for AIR and DDR attributable to services performed by an applicable individual in a disqualified taxable year.

(5) *Examples.* The following examples illustrate the rules of paragraph (e)(4) of this section. For purposes of these examples, each corporation has a taxable year that is the calendar year and is a covered health insurance provider for all relevant taxable years, and DDR is otherwise deductible by the covered health insurance provider in the taxable year in which it is paid.

Example 1. (i) Corporations I, J, and K are members of the same aggregated group under paragraph (b)(3) of this section. At separate times during 2016, C is an employee of, and performs services for, I, J, and K. C's total AIR for 2016 is \$1,500,000, which consists of \$750,000 of AIR for services performed to K; \$450,000 of AIR for services provided to J; and \$300,000 of AIR for services to I.

(ii) Because I, J, and K are members of the same aggregated group, the AIR otherwise deductible by them is aggregated for purposes of applying the deduction limitation. Further, because the aggregate AIR otherwise deductible by I, J, and K for 2016 exceeds the deduction limitation for C for that taxable year, the deduction limit is prorated and allocated to the members of the aggregated group in proportion to the AIR otherwise deductible by each member of the aggregated group for that taxable year. Therefore, the deduction limit that applies to the AIR otherwise deductible by K is \$250,000 ($\$500,000 \times (\$750,000/\$1,500,000)$); the deduction limit that applies to the AIR otherwise deductible by J is \$150,000 ($\$500,000 \times (\$450,000/\$1,500,000)$); and the deduction limit that applies to AIR otherwise deductible by I is \$100,000 ($\$500,000 \times (\$300,000/\$1,500,000)$). For the 2016 taxable year, K may not deduct \$500,000 of the \$750,000 of AIR paid to C ($\$750,000 - \$250,000$); J may not deduct \$300,000 of the \$450,000 of AIR paid to C ($\$450,000 - \$150,000$); and I may not deduct \$200,000 of the \$300,000 of AIR paid to C ($\$300,000 - \$100,000$).

Example 2. (i) The facts are the same as *Example 1*, except that C's total AIR for 2016 is \$400,000, which consists of \$75,000 for services provided to K; \$150,000 for services provided to J; and \$175,000 for services provided to I. In addition, C becomes entitled to \$60,000 of DDR attributable to services provided to K in 2016, which is payable (and paid) on April 1, 2018, and \$75,000 of DDR attributable to services provided to J in 2016, which is payable (and paid) on April 1, 2019.

(ii) Because C's total AIR of \$400,000 for 2016 for services provided to K, J, and I do not exceed the \$500,000 limitation, K, J, and I may deduct \$75,000, \$150,000, and \$175,000, respectively, for 2016. The deduction limit is then reduced to \$100,000 by the total AIR deductible by all members of the aggregated group ($\$500,000 - \$400,000$). The deduction limit, as reduced, is then applied to any DDR attributable to services provided by C in 2016 in the first subsequent taxable year that DDR becomes deductible. The first year that DDR for 2016 becomes deductible is 2018, due to the \$60,000 payment made on April 1, 2018. Because the \$60,000 of DDR otherwise deductible by K does not exceed the 2016 \$100,000 deduction limit, K may deduct the entire \$60,000 for its 2018 taxable year. The \$100,000 deduction limit is then reduced by the \$60,000 of DDR deductible by K for 2018, and the reduced deduction limit of \$40,000 ($\$100,000 - \$60,000$) is applied to the \$75,000 of DDR that is otherwise deductible for 2019. Because the DDR of \$75,000 otherwise deductible by J exceeds the reduced deduction limit of \$40,000, J may deduct only \$40,000, and the remaining \$35,000 ($\$75,000 - \$40,000$) is not deductible by J for that taxable year or any other taxable year.

Example 3. (i) The facts are the same as *Example 2*, except that C's DDR of \$75,000 attributable to services performed by C in J's 2016 taxable year is payable (and paid) on July 1, 2018.

(ii) The results are the same as *Example 2*, except that the reduced deduction limit of \$100,000 is prorated between K and J in proportion to the DDR otherwise deductible by them for 2018. Accordingly, \$44,444 of the remaining deduction limit is allocated to K ($\$100,000 \times (\$60,000/\$135,000)$), and \$55,556 of the remaining deduction limit is allocated to J ($\$100,000 \times (\$75,000/\$135,000)$). Because the \$60,000 of DDR otherwise deductible by K exceeds the \$44,444 deduction limit applied to that remuneration, K may deduct only \$44,444 of the \$60,000 payment, and \$15,556 may not be deducted by K for the 2018 taxable year or any other taxable year. Similarly, because the \$75,000 of DDR otherwise deductible by J exceeds the \$55,556 deduction limit applied to that remuneration, J may deduct only \$55,556 of the \$75,000 payment, and \$19,444 may not be deducted by J for that taxable year or any other taxable year.

(f) *Corporate transactions*—(1) *Treatment as a covered health insurance provider in connection with a corporate transaction.* Except as otherwise provided in this paragraph (f), a person that participates in a corporate transaction is a covered health insurance provider for the taxable year in which the corporate transaction occurs (and

any other taxable year) if it would otherwise be a covered health insurance provider under paragraph (b)(4) of this section for that taxable year. For example, if a member of an aggregated group that did not previously include a health insurance issuer purchases a health insurance issuer that is a covered health insurance provider (so that the health insurance issuer becomes a member of the aggregated group), each member of the acquiring aggregated group will be a covered health insurance provider for its full taxable year in which the corporate transaction occurs and each subsequent taxable year in which the health insurance issuer continues to be a member of the group, if it would otherwise be a covered health insurance provider under paragraph (b)(4), except as otherwise provided in this paragraph (f). For purposes of this section, the term *corporate transaction* means a merger, acquisition or disposition of assets or stock, reorganization, consolidation, separation, or any other transaction resulting in a change in the composition of an aggregated group.

(2) *Transition period relief for a person becoming a covered health insurance provider solely as a result of a corporate transaction*—(i) *In general.* Except as provided in paragraph (f)(2)(ii) of this section, a person that is not a covered health insurance provider before a corporate transaction, but would (except for application of this paragraph (f)(2)(i)) become a covered health insurance provider solely because it becomes a member of an aggregated group with another person that is a health insurance issuer as a result of the corporate transaction, is not a covered health insurance provider subject to the deduction limitation of section 162(m)(6) for the taxable year of that person in which the corporate transaction occurs (the *transition period relief*).

(ii) *Certain applicable individuals.* The transition period relief described in paragraph (f)(2)(i) of this section does not apply with respect to the remuneration of any individual who is an applicable individual of a person that would have been a covered health insurance provider for the taxable year in which the corporate transaction oc-

curred without regard to the occurrence of the corporate transaction (for example, the applicable individuals of a health insurance issuer and the members of its affiliated group that were covered health insurance issuers before the occurrence of a corporate transaction). This exception to the transition period relief applies even with respect to remuneration attributable to services performed by the applicable individual for a person that is eligible for the transition period relief described in paragraph (f)(1)(ii)(A) of this section. Accordingly, each member of an acquiring aggregated group that would become a covered health insurance provider solely as a result of a corporate transaction, but is not a covered health insurance provider under the transition period relief described in paragraph (f)(1)(ii)(A) of this section, is subject to the deduction limitation of section 162(m)(6) for its taxable year in which the corporate transaction occurs with respect to AIR and DDR attributable to services performed by any individual who is an applicable individual of the acquired health insurance issuer and any member of its aggregated group that would have been a covered health insurance provider in the taxable year in which the corporate transaction occurred, even if the corporate transaction had not occurred.

(3) *Transition relief from the attribution consistency requirements*—(i) *In general.* Paragraphs (d)(3)(i), (d)(4)(i) and (d)(5)(i)(B) of this section require a covered health insurance provider and all members of its aggregated group to use the same method for attributing remuneration to services performed by applicable individuals consistently for all taxable years (*attribution consistency requirements*). As a result of a corporate transaction, however, a covered health insurance provider that uses an attribution method for its account balance plans, nonaccount balance plans, or stock options or SARs may become a member of an aggregated group with another covered health insurance provider that uses a different attribution method for those types of plans or arrangements. In that case, neither member of the aggregated group will be treated as violating the attribution

consistency requirements merely because it uses an attribution method that is different from the attribution method used by another member of its aggregated group to attribute remuneration that becomes otherwise deductible in the taxable year in which the corporate transaction occurs. However, the attribution consistency requirements apply with respect to remuneration that becomes otherwise deductible in all subsequent taxable years. Following the date of the corporate transaction, any member of the aggregated group may change the attribution method that it used before the date of the corporate transaction to attribute remuneration under its account balance plans, nonaccount balance plans, or stock options or SARs to make its method consistent with the method used by any other member of the aggregated group. Notwithstanding the foregoing, the Secretary may subject this change in attribution method to limitations, or may otherwise modify the attribution consistency requirements, pursuant to a notice, revenue ruling, or other guidance of general applicability published in the Internal Revenue Bulletin.

(ii) *Exception for certain applicable individuals.* Notwithstanding the transition relief described in paragraphs (f)(2)(A) of this section, if a covered health insurance provider has attributed remuneration under a method described in paragraphs (d)(3), (d)(4), or (d)(5) of this section with respect to an applicable individual before a corporate transaction, the covered health insurance provider must continue at all times to use that attribution method for all other remuneration that becomes otherwise deductible under the same type of plan (that is, an account balance plan, a nonaccount balance plan, or a stock option or SAR) to which the applicable individual has a legally binding right as of the corporate transaction.

(4) *Deduction limitation not prorated for short taxable years.* If a corporate transaction results in a short taxable year for a covered health insurance provider, the \$500,000 deduction limit for the short taxable year is neither prorated nor reduced. For example, if a corporate transaction results in a short

taxable year of three months, the deduction limit under section 162(m)(6) for that short taxable year is \$500,000 (and is not reduced to \$125,000).

(5) *Effect of a corporate transaction on the application of the de minimis exception.* If a person becomes or ceases to be a member of an aggregated group, only the premiums and gross revenues of that person for the portion of its taxable year during which it is a member of the aggregated group are taken into account for purposes of determining whether the *de minimis* exception applies.

(6) *Examples.* The following examples illustrate the principles of this paragraph (f). For purposes of these examples, each corporation has a taxable year that is the calendar year unless stated otherwise, and none of the corporations qualify for the *de minimis* exception under paragraph (b)(4)(v) of this section.

Example 1. (i) Corporation J merges with and into corporation H on June 30, 2015, such that H is the surviving entity. As a result of the merger, J's taxable year ends on June 30, 2015. For its taxable year ending June 30, 2015, J is a health insurance issuer that is a covered health insurance provider. For all taxable years before the taxable year of the merger, H is not a covered health insurance provider.

(ii) Corporation J is a covered health insurance provider for its short taxable year ending June 30, 2015. As a result of the merger, H becomes a covered health insurance provider for its 2015 taxable year, but Corporation H is not a covered health insurance provider for its 2015 taxable year by reason of the transition period relief in paragraph (f)(1)(ii)(A) of this section. However, applicable individuals of J continue to be subject to the deduction limit under section 162(m)(6) for amounts that become otherwise deductible in the 2015 taxable year and DDR that is attributable to services performed by applicable individuals of J, and H is a covered health insurance provider for all subsequent taxable years for which it is a covered health insurance provider under paragraph (b)(4) of this section.

Example 2. (i) On January 1, 2016, corporations D, E, and F are members of a controlled group within the meaning of section 414(b). F is a health insurance issuer that is a covered health insurance provider under paragraph (b)(4)(i)(A) of this section. D and E are not health insurance issuers (but are covered health insurance providers pursuant to

paragraphs (b)(4)(i)(C) and (D) of this section). D is the parent entity of the DEF aggregated group. F's taxable year ends on September 30. P is an applicable individual of F for all taxable years. On May 1, 2016, a controlled group within the meaning of section 414(b) consisting of corporations C and B purchases all of the stock of corporation F, resulting in a controlled group within the meaning of section 414(b) consisting of corporations C, B, and F. The amount of premiums received by F from providing minimum essential coverage during the portion of its taxable year when it was a member of the DEF aggregated group constitute more than two percent of the gross revenues of the aggregated group for the taxable year of D (the parent entity) ending on December 31, 2016, and the taxable years of E and F ending with or within D's taxable year (December 31, 2016 and May 1, 2016 respectively). C and B are not health insurance issuers. C is the parent entity of the CBF aggregated group. The CBF aggregated group is also a consolidated group within the meaning of § 1.1502-1(h). Thus, F's taxable year ends on May 1, 2016 by reason of § 1.1502-76(b)(1)(ii)(A)(I), and F becomes part of the CBF consolidated group for the taxable year ending December 31, 2016.

(ii) D and E are covered health insurance providers for the taxable year ending December 31, 2016, and the *de minimis* exception does not apply because the amount of premiums received by F from providing minimum essential coverage during the short taxable year that it was a member of the DEF aggregated group are more than two percent of the gross revenues of the aggregated group for the taxable years during which the members would otherwise be a covered health insurance providers under paragraph (b)(4)(i) of this section. Accordingly, D and E are subject to the deduction limitation under section 162(m)(6) for their taxable years ending December 31, 2016. C and B are not covered health insurance providers for their taxable year ending December 31, 2016, by reason of the transition period relief of paragraph (f)(1)(ii)(A) of this section.

(iii) As a result of leaving the aggregated group, F has a new taxable year beginning on May 2, 2016 and ending on December 31, 2016. F is a covered health insurance provider within the meaning of paragraph (b)(4) of this section for its new taxable year ending on December 31, 2016 (even though C and B are not covered health insurance providers for their taxable years ending December 31, 2016) unless the CBF aggregated group qualifies for the *de minimis* exception for that taxable year.

(iv) P is an applicable individual whose remuneration from F is subject to the deduction limitation under section 162(m)(6) for F's short taxable year ending May 1, 2016 and

F's taxable year ending December 31, 2016. In addition, any remuneration provided to P by C or B at any time for services provided by P from May 1, 2016 to December 31, 2016 is also subject to the deduction limitation under section 162(m)(6), even though C and B are not covered health insurance providers for their taxable years ending December 31, 2016 by reason of the transition period relief of paragraph (f)(1)(ii)(A) of this section. Remuneration to which P had the legally binding right on or before the date of the transaction is subject to the deduction limitation when that remuneration becomes otherwise deductible.

Example 3. (i) The same facts as *Example 2*, except that E is a health insurance issuer that is a covered health insurance provider under paragraph (b)(4) of this section and thus receives premiums from providing minimum essential coverage (instead of F), and F is not a health insurance issuer.

(ii) F is a covered health insurance provider for its short taxable year ending May 1, 2016. However, because F is not a health insurance issuer that is a covered health insurance provider and there are no other health insurance issuers in the BCF aggregated group, F is not a covered health insurance provider for its short, post-acquisition taxable year ending December 31, 2016.

(iii) With respect to P, remuneration to which P had the legally binding right on or before the date of the transaction is subject to the deduction limitation. However, remuneration to which P obtains the legally binding right after the date of the corporate transaction is not subject to the deduction limitation.

Example 4. (i) Corporations N, O, and P are members of an aggregated group as described in paragraph (b)(2) of this section. N is a health insurance issuer that is a covered health insurance provider pursuant to paragraph (b)(4)(i)(A) of this section, but neither O nor P is a health insurance issuer. P is the parent entity of the aggregated group. On April 1, 2016, O ceases to be a member of the NOP aggregated group as the result of a corporate transaction. O's taxable year does not end as a result of the corporate transaction.

(ii) Because O was a member of the NOP aggregated group during a portion of its taxable year, O is a covered health insurance provider for its taxable year ending December 31, 2016.

Example 5. (i) Corporations V, W, and X are members of an aggregated group as described in paragraph (b)(2) of this section. V is a health insurance issuer that is a covered health insurance provider pursuant to paragraph (b)(4)(i)(A) of this section, but neither W nor X is a health insurance issuer. W is the parent entity of the aggregated group. V's taxable year ends on December 31; W's taxable year ends on June 30; and X's taxable year ends on September 30. For its taxable

year ending June 30, 2017, W has \$100x in gross revenue. For its taxable year ending September 30, 2016, X has \$60x in gross revenue. For its taxable year ending December 31, 2016, V receives \$4x of premiums from providing minimum essential coverage and has no other revenue. As of September 30, 2016, V ceases to be a member of the VWX aggregated group. V's taxable year does not end on September 30, 2016 as a result of the transaction. Of the \$4x that V receives for providing minimum essential coverage during its taxable year ending December 31, 2016, \$3x is received during the period from January 1, 2016 through September 30, 2016. As a result of the corporate transaction, V's taxable year ends on September 30, 2016. The *de minimis* exception of paragraph (b)(4)(v)(A) of this section did not apply to the members of the VWX aggregated group for their immediately preceding taxable years ending December 31, 2015, June 30, 2016, and September 30, 2015, respectively.

(ii) For purposes of applying the *de minimis* exception to an aggregated group for a taxable year during which a person leaves or joins the aggregated group, only the premiums and revenues of the person for the portion of its taxable year during which it was a member of the aggregated group are taken into account. The premiums from providing minimum essential coverage received by the VWX aggregated group for W's taxable year ending June 30, 2017 are \$3x. The revenues of the V, W, and X aggregated group for W's taxable year ending June 30, 2017 are \$163x. Accordingly, the premiums received by the members of the aggregated group from providing minimum essential coverage are less than two percent of the gross revenues of the aggregated group (\$3x is less than \$3.26x (two percent of \$163x)). Therefore, V, W and X are not covered health insurance providers for their taxable years ending December 31, 2016, June 30, 2017, and September 30, 2016, respectively.

Example 6. (i) The facts are the same as *Example 5*, except that F received \$4x of premiums during the period from January 1, 2016 to September 30, 2016, and the members of the VWX aggregated group were not covered health insurance providers for their taxable years ending December 31, 2015, June 30, 2016, and September 30, 2015, respectively (their immediately preceding taxable years) solely by reason of the *de minimis* exception of paragraph (b)(4)(v)(A) of this section.

(ii) The premiums from providing minimum essential coverage received by the VWX aggregated group for W's taxable year ending June 30, 2017 are \$4x. The revenues of the VWX aggregated group for W's taxable year ending June 30, 2017 are \$164x. Accordingly, the premiums received by the members of the aggregated group from providing minimum essential coverage are greater than two percent of the gross revenues of the

aggregated group (\$4x is greater than \$3.28x (two percent of \$164x)). Therefore, V, W, and X do not qualify for the *de minimis* exception for their taxable years ending December 31, 2016, June 30, 2017, and September 30, 2016, respectively. However, V, W, and X are not covered health insurance providers for these taxable years by reason of the *de minimis* exception one year transition period described in paragraph (b)(4)(v)(B) of this section.

Example 7. (i) Corporation N is a health insurance issuer that is a covered health insurance provider. Corporation O is also a health insurance issuer that is a covered health insurance provider. Both N and O have taxable years ending December 31. N uses the account balance ratio method to attribute remuneration that becomes otherwise deductible under its account balance plans. O uses the principal additions method to attribute amounts that become otherwise deductible under its account balance plans. On June 30, 2016, O purchases all of the stock of N.

(ii) For the taxable year of N and O ending December 31, 2016, N may continue to attribute amounts that become deductible under its account balance plans using the account balance ratio method, and O can continue to attribute amounts that become otherwise deductible under its account balance plan using the principal additions method, even though they are members of the same aggregated group, pursuant to the transition period relief described in paragraph (f)(2) of this section. In all subsequent taxable years, N and O must use the same method to attribute amounts that become otherwise deductible under their account balance plans. Either N or O may change the method that it uses to attribute amounts under its account balance plans to be consistent with the attribution method used by the other.

Example 8. (i) The facts are the same as *Example 7*. In addition, B is an applicable individual of N before the corporate transaction and is a participant in an account balance plan of N. On December 31, 2015, N made a payment to B, and N used the account balance ratio method described in paragraph (d)(3)(ii) of this section to attribute the payment to services performed by B in taxable years of N.

(ii) Because N used the account balance ratio method described in paragraph (d)(3)(ii) of this section to attribute an amount that became otherwise deductible under the plan before the corporate transaction, N must continue to use the account balance ratio method for attributing amounts to which B had a legally binding right as of the corporate transaction, whenever those amounts become otherwise deductible.

(g) *Coordination*—(1) *Coordination with section 162(m)(1)*. If section 162(m)(1) and section 162(m)(6) both otherwise would apply with respect to the remuneration

of an applicable individual, the deduction limitation under section 162(m)(6) applies without regard to section 162(m)(1). For example, if an applicable individual is both a covered employee of a publicly held corporation (see sections 162(m)(2) and (3); § 1.162-27) and an applicable individual within the meaning of paragraph (b)(7) of this section, remuneration earned by the applicable individual that is attributable to a disqualified taxable year of a covered health insurance provider is subject to the \$500,000 deduction limitation under section 162(m)(6) with respect to such disqualified taxable year, without regard to section 162(m)(1).

(2) *Coordination with disallowed excess parachute payments*—(i) *In general.* The \$500,000 deduction limitation of section 162(m)(6) is reduced (but not below zero) by the amount (if any) that would have been included in the AIR or DDR of the applicable individual for a taxable year but for the deduction for the AIR or DDR being disallowed by reason of section 280G.

(ii) *Example.* The following example illustrates the rule of this paragraph (g)(2).

Example. Corporation A, a covered health insurance provider, pays \$750,000 of AIR to P, an applicable individual, during A's disqualified taxable year ending December 31, 2016. Of the \$750,000, \$300,000 is an excess parachute payment as defined in section 280G(b)(1), the deduction for which is disallowed by reason of that section. The excess parachute payment reduces the \$500,000 deduction limit to \$200,000 (\$500,000 - \$300,000). Therefore, A may deduct only \$200,000 of the \$750,000 in AIR, and \$250,000 of the payment is not deductible by reason of section 162(m)(6).

(h) *Grandfathered amounts attributable to services performed in taxable years beginning before January 1, 2010*—(1) *In general.* The section 162(m)(6) deduction limitation does not apply to remuneration attributable to services performed in taxable years of a covered health insurance provider beginning before January 1, 2010 (*grandfathered amounts*). For purposes of this paragraph (h), whether remuneration is attributable to services performed in a taxable year beginning before January 1, 2010, is determined by applying an attribution method described in paragraph (h)(2) of this section.

(2) *Identification of services performed in taxable years beginning before January 1, 2010*—(i) *In general.* DDR described in paragraphs (d)(2) (legally binding right), (d)(3) (account balance plans), (d)(4) (nonaccount balance plans), (d)(6) (involuntary separation pay), (d)(7) (reimbursements), and (d)(8) (split dollar life insurance) of this section is attributable to services performed in a taxable year beginning before January 1, 2010 if it is attributable to services performed before that date under the rules of these paragraphs, without regard to whether that remuneration is subject to a substantial risk of forfeiture on or after that date. Notwithstanding the requirement under paragraph (d)(3)(i) of this section that a covered health insurance provider must use the same attribution method for its account balance plans for all taxable years, a covered health insurance provider that uses the account balance ratio method described in paragraph (d)(3)(i) of this section to attribute remuneration to services performed in taxable years beginning after December 31, 2009 may use the principal additions method described in paragraph (d)(3)(ii) of this section to attribute remuneration under an account balance plan to services performed in a taxable year beginning before January 1, 2010 for purposes of determining grandfathered amounts under the plan. (See paragraph (d)(3)(ii)(C)(3) of this section for required account balance adjustments if a covered health insurance provider generally uses the account balance ratio method to attribute amounts otherwise deductible under its account balance plans but uses the principal additions method to attribute remuneration to services performed in taxable years beginning before January 1, 2010.)

(ii) *Equity-based remuneration.* For purposes of this section, all remuneration resulting from a stock option, stock appreciation right, restricted stock, or restricted stock unit and the right to any associated dividends or dividend equivalents (together, referred to as *equity-based remuneration*) granted before the first day of the taxable year of the covered health insurance provider beginning on or after

January 1, 2010, is attributable to services performed in taxable years beginning before January 1, 2010, regardless of the date on which the equity-based remuneration is exercised (in the case of a stock option or SAR), the date on which the amounts due under the equity-based remuneration are paid or includible in income, or whether the equity-based remuneration is subject to a substantial risk of forfeiture on or after the first day of the taxable year of the covered health insurance provider beginning on or after January 1, 2010. For example, appreciation in the value of restricted shares granted before the first day of the taxable year beginning on or after January 1, 2010 is treated as remuneration that is attributable to services performed in taxable years beginning before January 1, 2010, regardless of whether the shares are vested at that time.

(i) *Transition rules for certain DDR—*
(1) *Transition rule for DDR attributable to services performed in taxable years of the covered health insurance provider beginning after December 31, 2009 and before January 1, 2013.* The deduction limitation under section 162(m)(6) applies to DDR attributable to services performed in a disqualified taxable year of a covered health insurance provider beginning after December 31, 2009 and before January 1, 2013, only if that remuneration is otherwise deductible in a disqualified taxable year of the covered health insurance provider beginning after December 31, 2012. However, if the deduction limitation applies to DDR attributable to services performed by an applicable individual in a disqualified taxable year of a covered health insurance provider beginning after December 31, 2009 and before January 1, 2013, the deduction limitation is calculated as if it had been applied to the applicable individual's AIR and DDR deductible in those taxable years.

(2) *Examples.* The following examples illustrate the principles of this paragraph (i). For purposes of these examples, each corporation has a taxable year that is the calendar year, and DDR is otherwise deductible by the covered health insurance provider in the taxable year in which it is paid.

Example 1. (i) Q is an applicable individual of corporation Z. Z's 2010, 2011, and 2012 tax-

able years are disqualified taxable years. Z's 2013, 2014, and 2015 taxable years are not disqualified taxable years. However, Z's 2016 taxable year and all subsequent taxable years are disqualified taxable years. Q receives \$200,000 of AIR from Z for 2012, and becomes entitled to \$800,000 of DDR that is attributable to services performed by Q in 2012. Z pays Q \$350,000 of the DDR in 2015, and the remaining \$450,000 of the DDR in 2016. These payments are otherwise deductible by Z in 2015 and 2016, respectively.

(ii) DDR attributable to services performed by Q in Z's 2010, 2011, and 2012 taxable years that is otherwise deductible in Z's 2013, 2014, or 2015 taxable years is not subject to the deduction limitation under section 162(m)(6) by reason of the transition rule under paragraph (i)(1) of this section. However, DDR attributable to services performed in Z's 2010, 2011, and 2012 taxable years that is otherwise deductible in a later taxable year that is a disqualified taxable year (in this case, Z's 2016 and subsequent taxable years) is subject to the deduction limitation under section 162(m)(6). Accordingly, the deduction limitation with respect to AIR and DDR attributable to services performed by Q in 2012 is determined by reducing the \$500,000 deduction limit by the \$200,000 of AIR paid to Q by Z for 2012 (\$500,000 - \$200,000). Under the transition rule of paragraph (i)(1) of this section, no portion of the reduced deduction limit of \$300,000 for the 2012 taxable year is applied against the \$350,000 payment made in 2015, and accordingly, the deduction limit is not reduced by the amount of that payment. The reduced deduction limit is then applied to Q's \$450,000 of DDR attributable to services performed by Q in 2012 that is paid to Q and becomes otherwise deductible in 2016. Because the reduced deduction limit of \$300,000 is less than the \$450,000 otherwise deductible by Z in 2016, Z may deduct only \$300,000 of the DDR, and \$150,000 of the \$450,000 payment is not deductible by Z in that taxable year or any taxable year.

Example 2. (i) R is an applicable individual of corporation Y, which is a covered health insurance provider for all relevant taxable years. During 2010, Y pays R \$400,000 in salary and grants R a right to \$200,000 in DDR payable on a fixed schedule in 2011, 2012, and 2013. Pursuant to the fixed schedule, Y pays R \$50,000 of DDR in 2011, \$50,000 of DDR in 2012, and the remaining \$100,000 of DDR in 2013.

(ii) Because the deduction limitation for DDR under section 162(m)(6)(A)(ii) is effective for DDR that is attributable to services performed by an applicable individual during any disqualified taxable year beginning after December 31, 2009 that would otherwise be deductible in a taxable year beginning after December 31, 2012, only the DDR paid by Y in 2013 is subject to the deduction limitation.

However, the limitation is applied as if section 162(m)(6) and paragraph (c)(2) of this section were effective for taxable years beginning after December 31, 2009 and before January 1, 2013. Accordingly, the deduction limitation with respect to remuneration for services performed by R in 2010 is determined by reducing the \$500,000 deduction limit by the \$400,000 of AIR paid to R for 2010 (\$500,000 - \$400,000). The reduced deduction limit of \$100,000 is further reduced to zero by the \$50,000 of DDR attributable to services performed by R in Y's 2010 taxable year that is deductible in each of 2011 and 2012 (((\$100,000 - \$50,000) - \$50,000)). Because the deduction limit is reduced to zero, none of the \$100,000 of DDR attributable to services performed by R in Y's 2010 taxable year and paid to R in 2013 is deductible.

(j) *Effective/applicability dates.* These regulations are effective on September 23, 2014. The regulations apply to taxable years beginning on or after September 23, 2014.

[T.D. 9694, 79 FR 56904, Sept. 23, 2014]

§ 1.162-32 Expenses paid or incurred for lodging when not traveling away from home.

(a) *In general.* Expenses paid or incurred for lodging of an individual who is not traveling away from home (local lodging) generally are personal, living, or family expenses that are nondeductible by the individual under section 262(a). Under certain circumstances, however, local lodging expenses may be deductible under section 162(a) as ordinary and necessary expenses paid or incurred in connection with carrying on a taxpayer's trade or business, including a trade or business as an employee. Whether local lodging expenses are paid or incurred in carrying on a taxpayer's trade or business is determined under all the facts and circumstances. One factor is whether the taxpayer incurs an expense because of a bona fide condition or requirement of employment imposed by the taxpayer's employer. Expenses paid or incurred for local lodging that is lavish or extravagant under the circumstances or that primarily provides an individual with a social or personal benefit are not incurred in carrying on a taxpayer's trade or business.

(b) *Safe harbor for local lodging at business meetings and conferences.* An individual's local lodging expenses will be

treated as ordinary and necessary business expenses if—

(1) The lodging is necessary for the individual to participate fully in or be available for a bona fide business meeting, conference, training activity, or other business function;

(2) The lodging is for a period that does not exceed five calendar days and does not recur more frequently than once per calendar quarter;

(3) If the individual is an employee, the employee's employer requires the employee to remain at the activity or function overnight; and

(4) The lodging is not lavish or extravagant under the circumstances and does not provide any significant element of personal pleasure, recreation, or benefit.

(c) *Examples.* The provisions of the facts and circumstances test of paragraph (a) of this section are illustrated by the following examples. In each example the employer and the employees meet all other requirements (such as substantiation) for deductibility of the expense and for exclusion from income of the value of the lodging as a working condition fringe or of reimbursements under an accountable plan.

Example 1. (i) Employer conducts a seven-day training session for its employees at a hotel near Employer's main office. The training is directly connected with Employer's trade or business. Some employees attending the training are traveling away from home and some employees are not traveling away from home. Employer requires all employees attending the training to remain at the hotel overnight for the bona fide purpose of facilitating the training. Employer pays the costs of the lodging at the hotel directly to the hotel and does not treat the value as compensation to the employees.

(ii) Because the training is longer than five calendar days, the safe harbor in paragraph (b) of this section does not apply. However, the value of the lodging may be excluded from income if the facts and circumstances test in paragraph (a) of this section is satisfied.

(iii) The training is a bona fide condition or requirement of employment and Employer has a noncompensatory business purpose for paying the lodging expenses. Employer is not paying the expenses primarily to provide a social or personal benefit to the employees, and the lodging Employer provides is not lavish or extravagant. If the employees who are not traveling away from home had paid for their own lodging, the expenses would

have been deductible by the employees under section 162(a) as ordinary and necessary business expenses. Therefore, the value of the lodging is excluded from the employees' income as a working condition fringe under section 132(a) and (d).

(iv) Employer may deduct the lodging expenses, including lodging for employees who are not traveling away from home, as ordinary and necessary business expenses under section 162(a).

Example 2. (i) The facts are the same as in *Example 1*, except that the employees pay the cost of their lodging at the hotel directly to the hotel. Employer reimburses the employees for the cost of the lodging, and Employer does not treat the reimbursement as compensation to the employees.

(ii) Because the training is longer than five calendar days, the safe harbor in paragraph (b) of this section does not apply. However, the reimbursement of the expenses for the lodging may be excluded from income if the facts and circumstances test in paragraph (a) of this section is satisfied.

(iii) The training is a bona fide condition or requirement of employment and Employer is reimbursing the lodging expenses for a noncompensatory business purpose and not primarily to provide a social or personal benefit to the employees and the lodging Employer provides is not lavish or extravagant. The employees incur the expenses in performing services for the employer. If Employer had not reimbursed the employees who are not traveling away from home for the cost of the lodging, the expenses would have been deductible by the employees under section 162(a) as ordinary and necessary business expenses. Therefore, the reimbursements to the employees are made under an accountable plan and are excluded from the employees' gross income.

(iv) Employer may deduct the lodging expense reimbursements, including reimbursements for employees who are not traveling away from home, as ordinary and necessary business expenses under section 162(a).

Example 3. (i) Employer is a professional sports team. Employer requires its employees (for example, players and coaches) to stay at a local hotel the night before a home game to conduct last minute training and ensure the physical preparedness of the players. Employer pays the lodging expenses directly to the hotel and does not treat the value as compensation to the employees.

(ii) Because the overnight stays occur more than once per calendar quarter, the safe harbor in paragraph (b) of this section does not apply. However, the value of the lodging may be excluded from income if the facts and circumstances test in paragraph (a) of this section is satisfied.

(iii) The overnight stays are a bona fide condition or requirement of employment and Employer has a noncompensatory business

purpose for paying the lodging expenses. Employer is not paying the lodging expenses primarily to provide a social or personal benefit to the employees and the lodging Employer provides is not lavish or extravagant. If the employees had paid for their own lodging, the expenses would have been deductible by the employees under section 162(a) as ordinary and necessary business expenses. Therefore, the value of the lodging is excluded from the employees' income as a working condition fringe.

(iv) Employer may deduct the expenses for lodging the employees at the hotel as ordinary and necessary business expenses under section 162(a).

Example 4. (i) Employer hires Employee, who currently resides 500 miles from Employer's business premises. Employer pays for temporary lodging for Employee near Employer's business premises while Employee searches for a residence.

(ii) Employer is paying the temporary lodging expense primarily to provide a personal benefit to Employee by providing housing while Employee searches for a residence. Employer incurs the expense only as additional compensation and not for a noncompensatory business purpose. If Employee paid the temporary lodging expense, the expense would not be an ordinary and necessary employee business expense under section 162(a) because the lodging primarily provides a personal benefit to Employee. Therefore, the value of the lodging is includible in Employee's gross income as additional compensation.

(iii) Employer may deduct the lodging expenses as ordinary and necessary business expenses under section 162(a) and § 1.162-25T.

Example 5. (i) Employee normally travels two hours each way between her home and her office. Employee is working on a project that requires Employee to work late hours. Employer provides Employee with lodging at a hotel near the office.

(ii) Employer is paying the temporary lodging expense primarily to provide a personal benefit to Employee by relieving her of the daily commute to her residence. Employer incurs the expense only as additional compensation and not for a noncompensatory business purpose. If Employee paid the temporary lodging expense, the expense would not be an ordinary and necessary business expense under section 162(a) because the lodging primarily provides a personal benefit to Employee. Therefore, the value of the lodging is includible in Employee's gross income as additional compensation.

(iii) Employer may deduct the lodging expenses as ordinary and necessary business expenses under section 162(a) and § 1.162-25T.

Example 6. (i) Employer requires an employee to be "on duty" each night to respond quickly to emergencies that may occur outside of normal working hours. Employees

who work daytime hours each serve a “duty shift” once each month in addition to their normal work schedule. Emergencies that require the duty shift employee to respond occur regularly. Employer has no sleeping facilities on its business premises and pays for a hotel room nearby where the duty shift employee stays until called to respond to an emergency.

(ii) Because an employee’s expenses for lodging while on the duty shift occur more frequently than once per calendar quarter, the safe harbor in paragraph (b) of this section does not apply. However, the value of the lodging may be excluded from income if the facts and circumstances test in paragraph (a) of this section is satisfied.

(iii) The duty shift is a bona fide condition or requirement of employment and Employer has a noncompensatory business purpose for paying the lodging expenses. Employer is not providing the lodging to duty shift employees primarily to provide a social or personal benefit to the employees and the lodging Employer provides is not lavish or extravagant. If the employees had paid for their lodging, the expenses would have been deductible by the employees under section 162(a) as ordinary and necessary business expenses. Therefore, the value of the lodging is excluded from the employees’ income as a working condition fringe.

(iv) Employer may deduct the lodging expenses as ordinary and necessary business expenses under section 162(a).

(d) *Effective/applicability date.* This section applies to expenses paid or incurred on or after October 1, 2014. However, taxpayers may apply these regulations to local lodging expenses that are paid or incurred in taxable years for which the period of limitation on credit or refund under section 6511 has not expired.

[T.D. 9696, 79 FR 59113, Oct. 1, 2014]

§ 1.162-33 Certain employee remuneration in excess of \$1,000,000 not deductible for taxable years beginning after December 31, 2017.

(a) *Scope.* This section provides rules for the application of the \$1 million deduction limitation under section 162(m)(1) for taxable years beginning after December 31, 2017. For rules concerning the applicability of section 162(m)(1) to taxable years beginning on or after January 1, 1994, and prior to January 1, 2018, see § 1.162-27. Paragraph (b) of this section provides the general rule limiting deductions under section 162(m)(1). Paragraph (c) of this

section provides definitions of generally applicable terms. Paragraph (d) of this section provides rules for determining when a corporation becomes a publicly held corporation. Paragraph (e) of this section provides rules for payments that are subject to section 280G (golden parachute payments). Paragraph (f) of this section provides a special rule for coordination with section 4985 (stock compensation of insiders in expatriated corporations). Paragraph (g) of this section provides transition rules addressing the amendments made by Public Law 115-97, including the rules for contracts that are grandfathered. Paragraph (h) of this section sets forth the effective date provisions. For rules concerning the deductibility of compensation for services that are not covered by section 162(m)(1) and this section, see section 162(a)(1) and § 1.162-7. This section is not determinative as to whether compensation meets the requirements of section 162(a)(1). For rules concerning the deduction limitation under section 162(m)(6) applicable to certain health insurance providers, see § 1.162-31. For purposes of this section, references to an amount being paid to an employee refer to the event that otherwise would result in the availability of a deduction to the employer with respect to such amount, whether that results from an actual payment in cash, transfer of property, or other event.

(b) *Limitation on deduction.* Section 162(m)(1) precludes a deduction under chapter 1 of the Internal Revenue Code by any publicly held corporation for compensation paid to any covered employee to the extent that the compensation for the taxable year exceeds \$1,000,000.

(c) *Definitions—(1) Publicly held corporation—(i) General rule.* A publicly held corporation means any corporation that issues securities required to be registered under section 12 of the Exchange Act or that is required to file reports under section 15(d) of the Exchange Act. In addition, a publicly held corporation means any S corporation (as defined in section 1361(a)(1)) that issues securities that are required to be registered under section 12(b) of the Exchange Act, or that is required to file reports under section 15(d) of the

Exchange Act. For purposes of this section, whether a corporation is publicly held is determined based solely on whether, as of the last day of its taxable year, the securities issued by the corporation are required to be registered under section 12 of the Exchange Act or the corporation is required to file reports under section 15(d) of the Exchange Act. Whether registration under the Exchange Act is required by rules other than those of the Exchange Act is irrelevant to this determination. A publicly traded partnership that is treated as a corporation under section 7704 (or otherwise) is a publicly held corporation if, as of the last day of its taxable year, its securities are required to be registered under section 12 of the Exchange Act or it is required to file reports under section 15(d) of the Exchange Act.

(ii) *Affiliated groups*—(A) *In general.* A publicly held corporation includes an affiliated group of corporations (affiliated group), as defined in section 1504 (determined without regard to section 1504(b)), that includes one or more publicly held corporations (as defined in paragraph (c)(1)(i) of this section). In the case of an affiliated group that includes two or more publicly held corporations as defined in paragraph (c)(1)(i) of this section, each member of the affiliated group that is a publicly held corporation as defined in paragraph (c)(1)(i) of this section is separately subject to this section, and, due to having at least one member that is a publicly held corporation, the affiliated group as a whole is subject to this section. Thus, for example, assume that a publicly held corporation (as defined in paragraph (c)(1)(i) of this section) is a wholly-owned subsidiary of another publicly held corporation (as defined in paragraph (c)(1)(i) of this section), which is a wholly-owned subsidiary of a privately held corporation. In this case, the two subsidiaries are separately subject to this section, and all three corporations are members of an affiliated group that is subject to this section. If an individual is a covered employee of both subsidiaries, each subsidiary has its own \$1 million deduction limitation with respect to that covered employee. Furthermore, each subsidiary has its own set of cov-

ered employees as defined in paragraphs (c)(2)(i) through (iv) of this section (although the same individual may be a covered employee of both subsidiaries).

(B) *Proration of amount disallowed as a deduction.* If, in a taxable year, a covered employee (as defined in paragraphs (c)(2)(i) through (v) of this section) of one member of an affiliated group is paid compensation by more than one member of the affiliated group, compensation paid by each member of the affiliated group is aggregated with compensation paid to the covered employee by all other members of the affiliated group (excluding compensation paid by any other publicly held corporation in the affiliated group, as defined in paragraph (c)(1)(i) of this section, of which the individual is also a covered employee as defined in paragraphs (c)(2)(i) through (v) of this section). In the event that, in a taxable year, a covered employee (as defined in paragraphs (c)(2)(i) through (v) of this section) is paid compensation by more than one publicly held corporation in an affiliated group and is also a covered employee of more than one publicly held payor corporation (as defined in paragraph (c)(1)(i) of this section) in the affiliated group, the amount disallowed as a deduction is determined separately with respect to each publicly held corporation of which the individual is a covered employee. Any amount disallowed as a deduction by this section must be prorated among the payor corporations (excluding any other publicly held payor corporation of which the individual is also a covered employee) in proportion to the amount of compensation paid to the covered employee (as defined in paragraphs (c)(2)(i) through (v) of this section) by each such corporation in the taxable year. For purposes of this paragraph (c)(1)(ii)(B), the amount of compensation treated as paid by a payor corporation that is not a publicly held corporation (as defined in paragraph (c)(1)(i) of this section) is determined by prorating the amount actually paid by that payor corporation in proportion to the total amount paid by all of the publicly held corporations of which the individual is a covered employee (as defined in paragraph

(c)(2)(i) through (v) of this section). This process is repeated for each publicly held payor corporation of which the individual is a covered employee.

(iii) *Disregarded entities.* For purposes of paragraph (c)(1) of this section, a publicly held corporation includes a corporation that owns an entity that is disregarded as an entity separate from its owner within the meaning of § 301.7701-2(c)(2)(i) of this chapter if the disregarded entity issues securities required to be registered under section 12(b) of the Exchange Act, or is required to file reports under section 15(d) of the Exchange Act.

(iv) *Qualified subchapter S subsidiaries.* For purposes of paragraph (c)(1) of this section, a publicly held corporation includes an S corporation that owns a qualified subchapter S subsidiary as defined in section 1361(b)(3)(B) (QSub) if the QSub issues securities required to be registered under section 12(b) of the Exchange Act, or is required to file reports under section 15(d) of the Exchange Act.

(v) *Qualified real estate investment trust subsidiaries.* For purposes of paragraph (c)(1) of this section, a publicly held corporation includes a real estate investment trust as defined in section 856(a) that owns a qualified real estate investment trust subsidiary as defined in section 856(i)(2) (QRS), if the QRS issues securities required to be registered under section 12(b) of the Exchange Act or is required to file reports under section 15(d) of the Exchange Act.

(vi) *Examples.* The following examples illustrate the provisions of this paragraph (c)(1). For each example, assume that no corporation is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii) of this section. Furthermore, for each example, unless provided otherwise, a reference to a publicly held corporation means a publicly held corporation as defined in paragraph (c)(1)(i) of this section. Additionally, for each example, assume that the corporation is a calendar-year taxpayer and has a fiscal year ending December 31 for reporting purposes under the Exchange Act. The examples in this paragraph (c)(1)(vi) are not intended to provide guidance on the legal requirements of the Secu-

rities Act and Exchange Act and the rules thereunder (17 CFR part 240).

(A) *Example 1 (Corporation required to file reports under section 15(d) of the Exchange Act)*—(1) *Facts.* Corporation Z plans to issue debt securities in a public offering registered under the Securities Act. Corporation Z is not required to file reports under section 15(d) of the Exchange Act for any other class of securities and does not have another class of securities required to be registered under section 12 of the Exchange Act. On April 1, 2021, the SEC declares effective the Securities Act registration statement for Corporation Z's debt securities. As a result, Corporation Z is required to file reports under section 15(d) of the Exchange Act, and this requirement continues to apply as of December 31, 2021.

(2) *Conclusion.* Corporation Z is a publicly held corporation for its 2021 taxable year because it is required to file reports under section 15(d) of the Exchange Act as of the last day of its taxable year.

(B) *Example 2 (Corporation not required to file reports under section 15(d) of the Exchange Act)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(A) of this section (*Example 1*), except that, on January 1, 2022, pursuant to section 15(d) of the Exchange Act, Corporation Z's obligation to file reports under section 15(d) is automatically suspended for the fiscal year ending December 31, 2022, because Corporation Z meets the statutory requirements for an automatic suspension. As of December 31, 2022, Corporation Z is not required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion.* Corporation Z is not a publicly held corporation for its 2022 taxable year because it is not required to file reports under section 15(d) of the Exchange Act as of the last day of its taxable year.

(C) *Example 3 (Corporation not required to file reports under section 15(d) of the Exchange Act)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(B) of this section (*Example 2*), except that, on January 1, 2022, pursuant to section 15(d) of the Exchange Act, Corporation

Z's obligation to file reports under section 15(d) is not automatically suspended for the fiscal year ending December 31, 2022. Instead, on May 2, 2022, Corporation Z is eligible to suspend its section 15(d) reporting obligation under 17 CFR 240.12h-3 (Rule 12h-3 under the Exchange Act) and files Form 15, Certification and Notice of Termination of Registration under Section 12(g) of the Securities Exchange Act of 1934 or Suspension of Duty to File Reports under Sections 13 and 15(d) of the Securities Exchange Act of 1934, (or its successor) to suspend its section 15(d) reporting obligation for its fiscal year ending December 31, 2022. As of December 31, 2022, Corporation Z is not required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion.* Corporation Z is not a publicly held corporation for its 2022 taxable year because it is not required to file reports under section 15(d) of the Exchange Act as of the last day of its taxable year. If Corporation Z had not utilized Rule 12h-3 to suspend its section 15(d) reporting obligation, Corporation Z would be a publicly held corporation for its 2022 taxable year because it would have been required to file reports under section 15(d) of the Exchange Act as of the last day of its taxable year.

(D) *Example 4 (Corporation required to file reports under section 15(d) of the Exchange Act)*—(1) *Facts.* Corporation Y is a wholly-owned subsidiary of Corporation X, which is required to file reports under the Exchange Act. Corporation Y issued a class of debt securities in a public offering registered under the Securities Act, and therefore is required to file reports under section 15(d) of the Exchange Act for its fiscal year ending December 31, 2020. Corporation Y has no other class of securities registered under the Exchange Act. In its Form 10-K, Annual Report Pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934, (or its successor) for the 2020 fiscal year, Corporation Y may omit Item 11, Executive Compensation (required by Part III of Form 10-K), which requires disclosure of compensation of certain executive officers, because it is wholly-owned by Corporation X and the other conditions

of General Instruction I to Form 10-K are satisfied.

(2) *Conclusion.* Corporation Y is a publicly held corporation for its 2020 taxable year because it is required to file reports under section 15(d) of the Exchange Act as of the last day of its taxable year.

(E) *Example 5 (Corporation not required to file reports under section 15(d) of the Exchange Act and not required to register securities under section 12 of the Exchange Act)*—(1) *Facts.* Corporation A has a class of securities registered under section 12(g) of the Exchange Act. For its 2020 taxable year, Corporation A is a publicly held corporation. On September 30, 2021, Corporation A is eligible to terminate the registration of its securities under section 12(g) of the Exchange Act pursuant to 17 CFR 240.12g-4(a)(2) (Rule 12g-4(a)(2) under the Exchange Act), but does not terminate the registration of its securities prior to December 31, 2021. Because Corporation A did not issue securities in a public offering registered under the Securities Act, Corporation A is not required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion.* Corporation A is not a publicly held corporation for its 2021 taxable year because, as of the last day of its taxable year, the securities issued by Corporation A are not required to be registered under section 12 of the Exchange Act and Corporation A is not required to file reports under section 15(d) of the Exchange Act.

(F) *Example 6 (Corporation required to file reports under section 15(d) of the Exchange Act)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(E) of this section (*Example 5*), except that Corporation A previously issued a class of securities in a public offering registered under the Securities Act. Furthermore, on October 1, 2021, Corporation A terminates the registration of its securities under section 12(g) of the Exchange Act. Because Corporation A issued a class of securities in a public offering registered under the Securities Act and is not eligible to suspend its reporting obligation under section 15(d) of the Exchange Act, as of December 31, 2021, Corporation A is required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion.* Corporation A is a publicly held corporation for its 2021 taxable year because it is required to file reports under section 15(d) of the Exchange Act as of the last day of its taxable year.

(G) *Example 7 (Corporation not required to file reports under section 15(d) of the Exchange Act and not required to register securities under section 12 of the Exchange Act)*—(1) *Facts.* On November 1, 2021, Corporation B is an issuer with only one class of equity securities. On November 5, 2021, Corporation B files a registration statement for its equity securities under section 12(g) of the Exchange Act. Corporation B's filing of its registration statement is voluntary because the Exchange Act does not require Corporation B to register its class of securities under section 12(g) of the Exchange Act based on the number and composition of its record holders. On December 1, 2021, the SEC declares effective the Exchange Act registration statement for Corporation B's securities. As of December 31, 2021, Corporation B continues to have its class of equity securities registered voluntarily under section 12 of the Exchange Act. Corporation B is not required to file reports under section 15(d) of the Exchange Act because it did not register any class of securities in a public offering under the Securities Act.

(2) *Conclusion.* Corporation B is not a publicly held corporation for its 2021 taxable year because, as of the last day of that taxable year, the securities issued by Corporation B are not required to be registered under section 12 of the Exchange Act and Corporation B is not required to file reports under section 15(d) of the Exchange Act.

(H) *Example 8 (Corporation not required to file reports under section 15(d) of the Exchange Act and not required to register securities under section 12 of the Exchange Act)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(G) of this section (*Example 7*), except that, on December 31, 2022, because of a change in circumstances, Corporation B must register its class of equity securities under section 12(g) of the Exchange Act within 120 days of December 31, 2022. On February 1, 2023, the SEC declares effective the Exchange Act registration

statement for Corporation B's securities.

(2) *Conclusion.* Corporation B is not a publicly held corporation for its 2022 taxable year because, as of the last day of that taxable year, Corporation B is not required to file reports under section 15(d) of the Exchange Act and the class of equity securities issued by Corporation B is not yet required to be registered under section 12 of the Exchange Act.

(I) *Example 9 (Securities of foreign private issuer in the form of ADRs traded in the over-the-counter market)*—(1) *Facts.* For its fiscal and taxable years ending December 31, 2021, Corporation W is a foreign private issuer. Because Corporation W has not registered an offer or sale of securities under the Securities Act, it is not required to file reports under section 15(d) of the Exchange Act. Corporation W qualifies for an exemption from registration of its securities under section 12(g) of the Exchange Act pursuant to 17 CFR 240.12g3-2(b) (Rule 12g3-2(b) under the Exchange Act). Corporation W wishes to have its securities traded in the U.S. in the over-the-counter market in the form of ADRs. Because Corporation W qualifies for an exemption pursuant to Rule 12g3-2(b), Corporation W is not required to register its securities underlying the ADRs under section 12 of the Exchange Act; however, the depositary bank is required to register the ADRs under the Securities Act. Even though the depositary bank is required to register the ADRs under the Securities Act, the registration of the ADRs does not result in either the depositary bank or Corporation W being required to file reports under section 15(d) of the Exchange Act. On February 3, 2021, the SEC declares effective the Securities Act registration statement for the ADRs. On February 4, 2021, Corporation W's ADRs begin trading in the over-the-counter market. On December 31, 2021, the securities of Corporation W are not required to be registered under section 12 of the Exchange Act because Corporation W qualifies for an exemption pursuant to Rule 240.12g3-2(b). Furthermore, on December 31, 2021, Corporation W is not required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion.* Corporation W is not a publicly held corporation for its 2021 taxable year because, as of the last day of that taxable year, the securities underlying the ADRs are not required to be registered under section 12 of the Exchange Act and Corporation W is not required to file reports under section 15(d) of the Exchange Act. The result would be the same if Corporation W had its securities traded in the over-the-counter market other than in the form of ADRs.

(J) *Example 10 (Securities of foreign private issuer in the form of ADRs quoted on Over the Counter Bulletin Board)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(I) of this section (*Example 9*), except that Corporation W has its securities quoted on the Over the Counter Bulletin Board (OTCBB) in the form of ADRs. Because Corporation W qualifies for an exemption pursuant to 17 CFR 240.12g3-2(b) (Rule 12g3-2(b) under the Exchange Act), Corporation W is not required to register its securities underlying the ADRs under section 12 of the Exchange Act. However, the depositary bank is required to register the ADRs under the Securities Act. In addition, section 6530(b)(1) of the OTCBB Rules requires that a foreign equity security may be quoted on the OTCBB only if the security is registered with the SEC pursuant to section 12 of the Exchange Act and the issuer of the security is current in its reporting obligations. To comply with the OTCBB Rules, on February 5, 2021, Corporation W files a registration statement for its class of securities underlying the ADRs under section 12(g) of the Exchange Act. On February 26, 2021, the SEC declares effective the Exchange Act registration statement for Corporation W's securities. As of December 31, 2021, Corporation W is subject to the reporting obligations under section 12 of the Exchange Act as a result of the section 12 registration.

(2) *Conclusion.* Corporation W is not a publicly held corporation for its 2021 taxable year because, as of the last day of that taxable year, its ADRs and the securities underlying the ADRs are not required by the Exchange Act to be registered under section 12 and Corporation W is not required to file reports under section 15(d) of the Ex-

change Act. The Securities Act requirement applicable to the bank pursuant to the OTCBB rules is irrelevant. The result would be the same if Corporation W had its securities traded on the OTCBB other than in the form of ADRs.

(K) *Example 11 (Securities of foreign private issuer in the form of ADRs listed on a national securities exchange without a capital raising transaction)*—(1) *Facts.* For its fiscal and taxable years ending December 31, 2021, Corporation V is a foreign private issuer. Corporation V wishes to list its securities on the New York Stock Exchange (NYSE) in the form of ADRs without a capital raising transaction. Under the Exchange Act, Corporation V is required to register its securities underlying the ADRs under section 12(b) of the Exchange Act. Because the ADRs and the deposited securities are separate securities, the depositary bank is required to register the ADRs under the Securities Act. On February 2, 2021, the SEC declares effective Corporation V's registration statement under section 12(b) of the Exchange Act in connection with the underlying securities, and the depositary bank's registration statement under the Securities Act in connection with the ADRs. On March 1, 2021, Corporation V's securities begin trading on the NYSE in the form of ADRs. As of December 31, 2021, Corporation V is not required to file reports under section 15(d) of the Exchange Act; however, the securities underlying the ADRs are required to be registered under section 12(b) of the Exchange Act.

(2) *Conclusion.* Corporation V is a publicly held corporation for its 2021 taxable year because, as of the last day of that taxable year, the securities underlying the ADRs are required to be registered under section 12 of the Exchange Act. The result would be the same if Corporation V had its securities listed on the NYSE other than in the form of ADRs. The result also would be the same if Corporation V had wished to raised capital during its 2021 taxable year and been required to register the offer of securities underlying the ADRs under the Securities Act and to register the class of those securities under section 12(b) of the Exchange

Act, and the depository bank was required to register the ADRs under the Securities Act.

(L) *Example 12 (Foreign private issuer incorporates subsidiary in the United States to issue debt securities and subsequently issues a guarantee)*—(1) *Facts.* For its fiscal and taxable years ending December 31, 2021, Corporation T is a foreign private issuer. Corporation T wishes to access the U.S. capital markets. Corporation T incorporates Corporation U, a wholly-owned subsidiary, in the U.S. to issue debt securities. On January 15, 2021, the SEC declares effective Corporation U's Securities Act registration statement. To enhance Corporation U's credit and the marketability of Corporation U's debt securities, Corporation T issues a guarantee of Corporation U's securities and, as required, registers the guarantee under the Securities Act on Corporation U's registration statement. On December 31, 2021, Corporations T and U are required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion.* Corporations T and U are publicly held corporations for their 2021 taxable years because they are required to file reports under section 15(d) of the Exchange Act as of the last day of their taxable years.

(M) *Example 13 (Affiliated group comprised of two corporations, one of which is a publicly held corporation)*—(1) *Facts.* Employee D, a covered employee of Corporation N, receives compensation from, Corporations N and O, members of an affiliated group. Corporation N, the parent corporation, is a publicly held corporation. Corporation O is a direct subsidiary of Corporation N and is a privately held corporation. The total compensation paid to Employee D from the affiliated group members is \$3,000,000 for the taxable year, of which Corporation N pays \$2,100,000 and Corporation O pays \$900,000.

(2) *Conclusion.* Because the compensation paid by all affiliated group members is aggregated for purposes of section 162(m)(1), \$2,000,000 of the aggregate compensation paid is nondeductible. Corporations N and O each are treated as paying a ratable portion of the nondeductible compensation. Thus, two thirds of each corporation's payment will be nondeductible. Corpora-

tion N has a nondeductible compensation expense of \$1,400,000 ($\$2,100,000 \times \$2,000,000/\$3,000,000$). Corporation O has a nondeductible compensation expense of \$600,000 ($\$900,000 \times \$2,000,000/\$3,000,000$).

(N) *Example 14 (Affiliated group comprised of two corporations, one of which is a publicly held corporation)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(M) of this section (*Example 13*), except that Corporation O is a publicly held corporation, Corporation N is a privately held corporation, and Employee D is a covered employee of Corporation O (instead of Corporation N).

(2) *Conclusion.* The result is the same as in paragraph (c)(1)(vi)(M) of this section (*Example 13*). Even though subsidiary Corporation O is the publicly held corporation, Corporations N and O still comprise an affiliated group. Accordingly, \$2,000,000 of the aggregate compensation paid is nondeductible, and Corporations N and O each are treated as paying a ratable portion of the nondeductible compensation.

(O) *Example 15 (Affiliated group comprised of two publicly held corporations)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(M) of this section (*Example 13*), except that Corporation O is a publicly held corporation. As in paragraph (c)(1)(vi)(M) of this section (*Example 13*), Employee D is not a covered employee of Corporation O.

(2) *Conclusion.* The result is the same as in paragraph (c)(1)(vi)(M) of this section (*Example 13*). Even though Corporations N and O each are publicly held corporations, Corporations N and O comprise an affiliated group for purposes of prorating the amount disallowed as a deduction. Accordingly, \$2,000,000 of the aggregate compensation paid is nondeductible, and Corporations N and O each are treated as paying a ratable portion of the nondeductible compensation.

(P) *Example 16 (Affiliated group comprised of two publicly held corporations)*—(1) *Facts.* The facts are the same as in paragraph (c)(1)(vi)(O) of this section (*Example 15*), except that Employee D also is a covered employee of Corporation O.

(2) *Conclusion.* Corporations N and O each are publicly held corporations and separately subject to this section, but

also comprise an affiliated group. Because Employee D is a covered employee of both Corporations N and O, each of which is a separate publicly held corporation, the determination of the amount disallowed as a deduction is made separately for each publicly held corporation. Corporation N has a nondeductible compensation expense of \$1,100,000 (the excess of \$2,100,000 over \$1,000,000), and Corporation O has no nondeductible compensation expense because the amount it paid to Employee D did not exceed \$1,000,000.

(Q) *Example 17 (Affiliated group comprised of three corporations, one of which is a publicly held corporation)—(1) Facts.* Employee C, a covered employee of publicly held parent Corporation P, receives compensation from Corporations P, Q, and R, members of an affiliated group. Corporation Q is a direct subsidiary of Corporation P, and Corporation R is a direct subsidiary of Corporation Q. Corporations Q and R both are privately held. The total compensation paid to Employee C from the affiliated group members is \$3,000,000 for the taxable year, of which Corporation P pays \$1,500,000, Corporation Q pays \$900,000, and Corporation R pays \$600,000.

(2) *Conclusion.* Because the compensation paid by affiliated group members is aggregated for purposes of section 162(m)(1), \$2,000,000 of the aggregate compensation paid is nondeductible. Corporations P, Q, and R each are treated as paying a ratable portion of the nondeductible compensation. Thus, two thirds of each corporation's payment will be nondeductible. The nondeductible compensation expense for Corporation P is \$1,000,000 ($\$1,500,000 \times \$2,000,000/\$3,000,000$); for Corporation Q is \$600,000 ($\$900,000 \times \$2,000,000/\$3,000,000$); and for Corporation R is \$400,000 ($\$600,000 \times \$2,000,000/\$3,000,000$).

(R) *Example 18 (Affiliated group comprised of three corporations, one of which is a publicly held corporation)—(1) Facts.* The facts are the same as in paragraph (c)(1)(vi)(Q) of this section (*Example 17*), except that Corporation Q is a publicly held corporation and Corporation P is a privately held corporation, and Employee C is a covered employee of Corporation Q (instead of Corporation P).

(2) *Conclusion.* The result is the same as in paragraph (c)(1)(vi)(Q) of this section (*Example 17*). Even though Corporation Q, the subsidiary, is the publicly held corporation, Corporations P, Q, and R comprise an affiliated group. Accordingly, \$2,000,000 of the aggregate compensation paid is nondeductible, and Corporations P, Q, and R each are treated as paying a ratable portion of the nondeductible compensation.

(S) *Example 19 (Affiliated group comprised of three corporations, two of which are publicly held corporations)—(1) Facts.* The facts are the same as in paragraph (c)(1)(vi)(R) of this section (*Example 18*), except that Corporation R also is a publicly held corporation. As in paragraph (c)(1)(vi)(R) of this section (*Example 18*), Corporation Q is a publicly held corporation, Corporation P is a privately held corporation, and Employee C is a covered employee of Corporation Q but not a covered employee of Corporation R.

(2) *Conclusion.* The result is the same as in paragraph (c)(1)(vi)(R) of this section (*Example 18*). Even though Corporation R also is a publicly held corporation, Corporations P, Q, and R comprise an affiliated group. Accordingly, \$2,000,000 of the aggregate compensation paid is nondeductible, and Corporations P, Q, and R each are treated as paying a ratable portion of the nondeductible compensation.

(T) *Example 20 (Affiliated group comprised of three publicly held corporations)—(1) Facts.* The facts are the same as in paragraph (c)(1)(vi)(Q) of this section (*Example 17*), except that Corporations Q and R also are publicly held corporations, and Employee C is a covered employee of both Corporations P and Q but is not a covered employee of Corporation R.

(2) *Conclusion.* Even though Corporations P, Q, and R each are publicly held corporations, they comprise an affiliated group. Because Employee C is a covered employee of both Corporations P and Q, the determination of the amount disallowed as a deduction is separately prorated among Corporations P and R and among Corporations Q and R. For each separate calculation of the total amount of the disallowed deduction and the proration of the disallowed deduction, the amount paid by

Corporation R is taken into account in proportion to the total compensation paid by Corporations P and Q. With respect to Corporations P and R, \$875,000 of the aggregate compensation is nondeductible (the excess of \$1,875,000 (the sum of the compensation paid by Corporation P (\$1,500,000) and the portion of compensation paid by Corporation R that is treated as allocable to Employee C being a covered employee of Corporation P ($\$600,000 \times \$1,500,000 / (\$1,500,000 + \$900,000) = \$375,000$) over the \$1,000,000 deduction limitation). Corporations P and R each are treated as paying a ratable portion of the nondeductible compensation. Corporation P has a nondeductible compensation expense of \$700,000 ($\$1,500,000 \times \$875,000 / \$1,875,000$), and Corporation R has a nondeductible compensation expense of \$175,000 ($\$375,000 \times \$875,000 / \$1,875,000$). For Corporations Q and R, \$125,000 of the aggregate compensation is nondeductible (the excess of \$1,125,000 (the sum of the compensation paid by Corporation Q (\$900,000) and the portion of compensation paid by Corporation R that is treated as allocable to Employee C being a covered employee of Corporation Q ($\$600,000 \times \$900,000 / (\$1,500,000 + \$900,000) = \$225,000$) over the \$1,000,000 deduction limitation). Corporation Q has a nondeductible compensation expense of \$100,000 ($\$900,000 \times \$125,000 / \$1,125,000$), and Corporation R has a nondeductible compensation expense of \$25,000 ($\$225,000 \times \$125,000 / \$1,125,000$). The total nondeductible compensation expense for Corporation R is \$200,000.

(U) *Example 21 (Affiliated group comprised of three publicly held corporations)*—(1) *Facts*. The facts are the same as in paragraph (c)(1)(vi)(T) of this section (*Example 20*), except that Employee C does not receive any compensation from Corporation R.

(2) *Conclusion*. Even though Corporations P, Q, and R each are publicly held corporations and separately subject to this section, they comprise an affiliated group. Because Employee C is a covered employee of, and receives compensation from, both Corporations P and Q, each of which is a separate publicly held corporation, the determination of the amount disallowed as a deduction is made separately for Corpora-

tions P and Q. Corporation P has a nondeductible compensation expense of \$500,000 (the excess of \$1,500,000 over \$1,000,000), and Corporation Q has no nondeductible compensation expense because the amount it paid to Employee C was below \$1,000,000.

(V) *Example 22 (Affiliated group comprised of three corporations, one of which is a publicly held corporation)*—(1) *Facts*. The facts are the same as in paragraph (c)(1)(vi)(Q) of this section (*Example 17*), except that Corporation R is a direct subsidiary of Corporation P (and not a direct subsidiary of Corporation Q).

(2) *Conclusion*. The result is the same as in paragraph (c)(1)(vi)(Q) of this section (*Example 17*). Corporations P, Q, and R comprise an affiliated group. Accordingly, \$2,000,000 of the aggregate compensation paid is nondeductible, and Corporations P, Q, and R each are treated as paying a ratable portion of the nondeductible compensation.

(W) *Example 23 (Affiliated group comprised of three publicly held corporations)*—(1) *Facts*. The facts are the same as in paragraph (c)(1)(vi)(V) of this section (*Example 22*), except that Corporations Q and R also are publicly held corporations, and Employee C is a covered employee of both Corporations P and Q but not of Corporation R.

(2) *Conclusion*. The result is the same as in paragraph (c)(1)(vi)(V) of this section (*Example 22*). Even though Corporations P, Q, and R each are publicly held corporations, they comprise an affiliated group. Because Employee C is a covered employee of both Corporations P and Q, the amount disallowed as a deduction is prorated separately among Corporations P and R and among Corporations Q and R.

(X) *Example 24 (Disregarded entity)*—(1) *Facts*. Corporation G is privately held for its 2020 taxable year. Entity H, a limited liability company, is wholly-owned by Corporation G and is disregarded as an entity separate from its owner under §301.7701-2(c)(2)(i) of this chapter. As of December 31, 2020, Entity H is required to file reports under section 15(d) of the Exchange Act.

(2) *Conclusion*. Because Entity H is required to file reports under section 15(d) of the Exchange Act and is disregarded as an entity separate from its owner, Corporation G is a publicly held

corporation for its 2020 taxable year. The result would be the same if Corporation G was a REIT under section 856(a) and Entity H was a QRS under section 856(i)(2).

(2) *Covered employee*—(i) *General rule.* Except as provided in paragraph (c)(2)(vi) of this section, with respect to a publicly held corporation as defined in paragraph (c)(1) of this section (without regard to paragraph (c)(1)(ii) of this section), for the publicly held corporation's taxable year, a covered employee means any of the following—

(A) The principal executive officer (PEO) or principal financial officer (PFO) of the publicly held corporation serving at any time during the taxable year, including individuals acting in either such capacity.

(B) The three highest compensated executive officers of the publicly held corporation for the taxable year (other than the principal executive officer or principal financial officer, or an individual acting in such capacity), regardless of whether the executive officer is serving at the end of the publicly held corporation's taxable year, and regardless of whether the executive officer's compensation is subject to disclosure for the last completed fiscal year under the executive compensation disclosure rules under the Exchange Act. For purposes of this paragraph (c)(2)(i)(B), the term “executive officer” means an executive officer as defined in 17 CFR 240.3b-7. The amount of compensation used to identify the three most highly compensated executive officers for the taxable year is determined pursuant to the executive compensation disclosure rules under the Exchange Act (using the taxable year as the fiscal year for purposes of making the determination), regardless of whether the corporation's fiscal year and taxable year end on the same date.

(C) Any individual who was a covered employee of the publicly held corporation (or any predecessor of a publicly held corporation, within the meaning of paragraph (c)(2)(ii) of this section) for any preceding taxable year beginning after December 31, 2016. For taxable years beginning prior to January 1, 2018, covered employees are identified in accordance with the rules in § 1.162-27(c)(2).

(ii) *Predecessor of a publicly held corporation*—(A) *Publicly held corporations that become privately held.* For purposes of this paragraph (c)(2)(ii), a predecessor of a publicly held corporation includes a publicly held corporation that, after becoming a privately held corporation, again becomes a publicly held corporation for a taxable year ending before the 36-month anniversary of the due date for the corporation's U.S. Federal income tax return (disregarding any extensions) for the last taxable year for which the corporation was previously publicly held.

(B) *Corporate reorganizations.* A predecessor of a publicly held corporation includes a publicly held corporation the stock or assets of which are acquired in a corporate reorganization (as defined in section 368(a)(1)).

(C) *Corporate divisions.* A predecessor of a publicly held corporation includes a publicly held corporation that is a distributing corporation (within the meaning of section 355(a)(1)(A)) that distributes the stock of a controlled corporation (within the meaning of section 355(a)(1)(A)) to its shareholders in a distribution or exchange qualifying under section 355(a)(1) (corporate division). The rule of this paragraph (c)(2)(ii)(C) applies only with respect to covered employees of the distributing corporation who begin performing services for the controlled corporation (or for a corporation affiliated with the controlled corporation that receives stock of the controlled corporation in the corporate division) within the period beginning 12 months before and ending 12 months after the distribution.

(D) *Affiliated groups.* A predecessor of a publicly held corporation includes any other publicly held corporation that becomes a member of its affiliated group (as defined in paragraph (c)(1)(ii) of this section).

(E) *Asset acquisitions.* If a publicly held corporation, including one or more members of an affiliated group as defined in paragraph (c)(1)(ii) of this section (acquiror), acquires at least 80% of the gross operating assets (determined by fair market value on the date of acquisition) of another publicly held corporation (target), then the target is a predecessor of the acquiror.

For an acquisition of assets that occurs over time, only assets acquired within a 12-month period are taken into account to determine whether at least 80% of the target's gross operating assets were acquired. However, this 12-month period is extended to include any continuous period that ends on, or begins on, any day during which the acquiror has an arrangement to purchase, directly or indirectly, assets of the target. A shareholder's additions to the assets of target made as part of a plan or arrangement to avoid the application of this subsection to acquiror's purchase of target's assets are disregarded in applying this paragraph (c)(2)(ii)(E). This paragraph (c)(2)(ii)(E) applies only with respect to the target's covered employees who begin performing services for the acquiror (or a corporation affiliated with the acquiror) within the period beginning 12 months before and ending 12 months after the date of the transaction as defined in paragraph (c)(2)(ii)(I) of this section (incorporating any extensions to the 12-month period made pursuant to this paragraph).

(F) *Predecessor of a predecessor.* For purposes of this paragraph (c)(2)(ii), a predecessor of a corporation includes each predecessor of the corporation and the predecessor or predecessors of any prior predecessor or predecessors.

(G) *Corporations that are not publicly held at the time of the transaction and sequential transactions—(1) Predecessor corporation is not publicly held at the time of the transaction.* This paragraph (c)(2)(ii)(G)(1) applies if a corporation that was previously publicly held (the first corporation) would be a predecessor to another corporation (the second corporation) under the rules of this paragraph (c)(2)(ii) but for the fact that the first corporation is not a publicly held corporation at the time of the relevant transaction (or transactions). If this paragraph (c)(2)(ii)(G)(1) applies, the first corporation is a predecessor of a publicly held corporation if the second corporation is a publicly held corporation at the time of the relevant transaction (or transactions) and the relevant transaction (or transactions) take place during a taxable year ending before the 36-month anniversary of the due date for the first corporation's U.S.

Federal income tax return (excluding any extensions) for the last taxable year for which the first corporation was previously publicly held.

(2) *Second corporation is not publicly held at the time of the transaction.* This paragraph (c)(2)(ii)(G)(2) applies if a corporation that is publicly held (the first corporation) at the time of the relevant transaction (or transactions) would be a predecessor to another corporation (the second corporation) under the rules of this paragraph (c)(2)(ii) but for the fact that the second corporation is not a publicly held corporation at the time of the relevant transaction (or transactions). If this paragraph (c)(2)(ii)(G)(2) applies, the first corporation is a predecessor of a publicly held corporation if the second corporation becomes a publicly held corporation for a taxable year ending before the 36-month anniversary of the due date for the first corporation's U.S. Federal income tax return (excluding any extensions) for the first corporation's last taxable year in which the transaction is taken into account.

(3) *Neither corporation is publicly held at the time of the transaction.* This paragraph (c)(2)(ii)(G)(3) applies if a corporation that was previously publicly held (the first corporation) would be a predecessor to another corporation (the second corporation) under the rules of this paragraph (c)(2)(ii) but for the fact that neither the first corporation nor the second corporation is a publicly held corporation at the time of the relevant transaction (or transactions). If this paragraph (c)(2)(ii)(G)(3) applies, the first corporation is a predecessor of a publicly held corporation if the second corporation becomes a publicly held corporation for a taxable year ending before the 36-month anniversary of the due date for the first corporation's U.S. Federal income tax return (excluding any extensions) for the last taxable year for which the first corporation was previously publicly held.

(4) *Sequential transactions.* If a corporation that was previously publicly held (the first corporation) would be a predecessor to another corporation (the second corporation) under the rules of this paragraph (c)(2)(ii) but for the fact

that the first corporation is (or its assets are) transferred to one or more intervening corporations prior to being transferred to the second corporation, and if each intervening corporation would be a predecessor of a publicly held corporation with respect to the second corporation if the intervening corporation or corporations were publicly held corporations, then paragraphs (c)(2)(ii)(G)(I) through (3) of this section also apply without regard to the intervening corporations.

(H) *Elections under sections 336(e) and 338.* For purposes of this paragraph (c)(2), if a corporation makes an election to treat as an asset purchase either the sale, exchange, or distribution of stock pursuant to regulations under section 336(e) (§§ 1.336-1 through 1.336-5) or the purchase of stock pursuant to regulations under section 338 (§§ 1.338-1 through 1.338-11, 1.338(h)(10)-1, and 1.338(i)-1), the corporation that issued the stock is treated as the same corporation both before and after such transaction.

(I) *Date of transaction.* For purposes of this paragraph (c)(2)(ii), the date that a transaction is treated as having occurred is the date on which all events necessary for the transaction to be described in the relevant provision in this paragraph (c)(2)(ii) have occurred.

(J) *Publicly traded partnership.* For purposes of applying this paragraph (c)(2)(ii), a publicly traded partnership is a predecessor of a publicly held corporation if under the same facts and circumstances a corporation substituted for the publicly traded partnership would be a predecessor of the publicly held corporation, and at the time of the transaction the publicly traded partnership is treated as a publicly held corporation as defined in paragraph (c)(1)(i) of this section. In making this determination, the rules in paragraphs (c)(2)(ii)(A) through (I) of this section apply by analogy to publicly traded partnerships.

(iii) *Disregarded entities.* If a publicly held corporation under paragraph (c)(1) of this section owns an entity that is disregarded as an entity separate from its owner under § 301.7701-2(c)(2)(i) of this chapter, then the covered employees of the publicly held corporation are determined pursuant to paragraphs

(c)(2)(i) and (ii) of this section. The executive officers of the entity that is disregarded as an entity separate from its corporate owner under § 301.7701-2(c)(2)(i) of this chapter are neither covered employees of the entity nor of the publicly held corporation unless they meet the definition of covered employee in paragraphs (c)(2)(i) and (ii) of this section with respect to the publicly held corporation, in which case they are covered employees for its taxable year.

(iv) *Qualified subchapter S subsidiaries.* If a publicly held corporation under paragraph (c)(1) of this section owns an entity that is a QSub under section 1361(b)(3)(B), then the covered employees of the publicly held corporation are determined pursuant to paragraphs (c)(2)(i) and (ii) of this section. The executive officers of the QSub are neither covered employees of the QSub nor of the publicly held corporation unless they meet the definition of covered employee in paragraphs (c)(2)(i) and (ii) of this section with respect to the publicly held corporation, in which case they are covered employees for the taxable year of the publicly held corporation.

(v) *Qualified real estate investment trust subsidiaries.* If a publicly held corporation under paragraph (c)(1) of this section owns an entity that is a QRS under section 856(i)(2), then the covered employees of the publicly held corporation are determined pursuant to paragraphs (c)(2)(i) and (ii) of this section. The executive officers of the QRS are neither covered employees of the QRS nor of the publicly held corporation unless they meet the definition of covered employee in paragraphs (c)(2)(i) and (ii) of this section with respect to the publicly held corporation, in which case they are covered employees for the taxable year of the publicly held corporation.

(vi) *Covered employee of an affiliated group.* A person who is identified as a covered employee in paragraphs (c)(2)(i) through (v) of this section for a publicly held corporation's taxable year is also a covered employee for the taxable year of an affiliated group treated as a publicly held corporation pursuant to paragraph (c)(1)(ii) of this

section (treatment of an affiliated group).

(vii) *Examples.* The following examples illustrate the provisions of this paragraph (c)(2). For each example, assume that the corporation has a taxable year that is a calendar year and has a fiscal year ending December 31 for reporting purposes under the Exchange Act. Also, for each example, unless provided otherwise, assume that none of the employees were covered employees for any taxable year preceding the first taxable year set forth in that example (since being a covered employee for a preceding taxable year would provide a separate, independent basis for classifying that employee as a covered employee for a subsequent taxable year).

(A) *Example 1 (Covered employees of members of an affiliated group)—(1) Facts.* Corporations A, B, and C are direct wholly-owned subsidiaries of Corporation D. Corporations D and A are each publicly held corporations as of December 31, 2020. Corporations B and C are not publicly held corporations for their 2020 taxable years. Employee E served as the PEO of Corporation D from January 1, 2020, to March 31, 2020. Employee F served as the PEO of Corporation D from April 1, 2020, to December 31, 2020. Employee G served as the PEO of Corporation A for its entire 2020 taxable year. Employee H served as the PEO of Corporation B for its entire 2020 taxable year. Employee I served as the PEO of Corporation C for its entire 2020 taxable year. From April 1, 2020, through September 30, 2020, Employee E served as an advisor (not as a PEO) to Employee I and received compensation from Corporation C for these services. In 2020, all four corporations paid compensation to their respective PEOs.

(2) *Conclusion (Employees E and F).* Because both Employees E and F served as the PEO of Corporation D during its 2020 taxable year, both Employees E and F are covered employees of Corporation D for its 2020 and subsequent taxable years.

(3) *Conclusion (Employee G).* Because Employee G served as the PEO of Corporation A, Employee G is a covered employee of Corporation A for its 2020 and subsequent taxable years.

(4) *Conclusion (Employee H).* Even though Employee H served as the PEO of Corporation B, Employee H is not a covered employee of Corporation B for its 2020 taxable year, because Corporation B is considered a publicly held corporation solely by reason of being a member of an affiliated group as defined in paragraph (c)(1)(ii) of this section.

(5) *Conclusion (Employee I).* Even though Employee I served as the PEO of Corporation C, Employee I is not a covered employee of Corporation C for its 2020 taxable year, because Corporation C is considered a publicly held corporation solely by reason of being a member of an affiliated group as defined in paragraph (c)(1)(ii) of this section.

(B) *Example 2 (Covered employees of a publicly held corporation)—(1) Facts.* Corporation J is a publicly held corporation. Corporation J is not a smaller reporting company or emerging growth company for purposes of reporting under the Exchange Act. For 2020, Employee K served as the sole PEO of Corporation J and Employees L and M both served as the PFO of Corporation J at separate times during the year. Employees N, O, and P were, respectively, the first, second, and third highest compensated executive officers of Corporation J for 2020 other than the PEO and PFO, and all three retired before December 31, 2020. Employees Q, R, and S were, respectively, Corporation J's fourth, fifth, and sixth highest compensated executive officers other than the PEO and PFO for 2020, and all three were serving as of December 31, 2020. On March 1, 2021, Corporation J filed its Form 10-K, Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 with the SEC. With respect to Item 11, Executive Compensation (as required by Part III of Form 10-K, or its successor), Corporation J disclosed the compensation of Employee K for serving as the PEO, Employees L and M for serving as the PFO, and Employees Q, R, and S pursuant to 17 CFR 229.402(a)(3)(iii) (Item 402 of Regulation S-K). Corporation J also disclosed the compensation of Employees N and O pursuant to 17 CFR 229.402(a)(3)(iv) (Item 402 of Regulation S-K).

(2) *Conclusion (Employee K).* Because Employee K served as the PEO during 2020, Employee K is a covered employee for Corporation J's 2020 taxable year.

(3) *Conclusion (Employees L and M).* Because Employees L and M served as the PFO during 2020, Employees L and M are covered employees for Corporation J's 2020 taxable year.

(4) *Conclusion (Employees N, O, P, Q, R, and S).* Even though the executive compensation disclosure rules under the Exchange Act require Corporation J to disclose the compensation of Employees N, O, Q, R, and S for 2020, Corporation J's three highest compensated executive officers who are covered employees for its 2020 taxable year are Employees N, O, and P, because these are the three highest compensated executive officers other than the PEO and PFO for 2020.

(C) *Example 3 (Covered employees of a smaller reporting company)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(B) of this section (*Example 2*), except that Corporation J is a smaller reporting company or emerging growth company for purposes of reporting under the Exchange Act. With respect to Item 11, Executive Compensation, Corporation J disclosed the compensation of Employee K for serving as the PEO, Employees Q and R pursuant to 17 CFR 229.402(m)(2)(ii) (Item 402(m) of Regulation S-K), and Employees N and O pursuant to 17 CFR 229.402(m)(2)(iii) (Item 402(m) of Regulation S-K).

(2) *Conclusion.* The result is the same as in paragraph (c)(2)(vii)(L) of this section (*Example 2*). For purposes of identifying a corporation's covered employees, it is irrelevant whether the reporting obligation under the Exchange Act for smaller reporting companies and emerging growth companies apply to the corporation, and it is irrelevant whether the specific executive officers' compensation must be disclosed pursuant to the disclosure rules under the Exchange Act applicable to the corporation.

(D) *Example 4 (Covered employees of a publicly held corporation that is not required to file a Form 10-K)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(B) of this section (*Example 2*), except that on February 4, 2021, Corporation J files Form 15, Certification

and Notice of Termination of Registration under Section 12(g) of the Securities Exchange Act of 1934 or Suspension of Duty to File Reports under Sections 13 and 15(d) of the Securities Exchange Act of 1934, (or its successor) to terminate the registration of its securities. Corporation J's duty to file reports under Section 13(a) of the Exchange Act is suspended upon the filing of the Form 15 and, as a result, Corporation J is not required to file a Form 10-K and disclose the compensation of its executive officers for 2020.

(2) *Conclusion.* The result is the same as in paragraph (c)(2)(vii)(B) of this section (*Example 2*). Covered employees include executive officers of a publicly held corporation even if the corporation is not required to disclose the compensation of its executive officers under the Exchange Act. Therefore, Employees K, L, M, N, O, and P are covered employees for 2020. The result would be different if Corporation J filed Form 15 to terminate the registration of its securities prior to December 31, 2020. In that case, Corporation J would not be a publicly held corporation for its 2020 taxable year, and, therefore, Employees K, L, M, N, O, and P would not be covered employees for Corporation J's 2020 taxable year.

(E) *Example 5 (Covered employees of two publicly held corporations after a corporate transaction)—(1) Facts.* Corporation T is a publicly held corporation for its 2019 taxable year. Corporation U is a privately held corporation for its 2019 and 2020 taxable years. On July 31, 2020, Corporation U acquires for cash 80% of the only class of outstanding stock of Corporation T. The affiliated group (comprised of Corporations U and T) elects to file a consolidated Federal income tax return. As a result of this election, Corporation T has a short taxable year ending on July 31, 2020. Corporation T does not change its fiscal year for reporting purposes under the Exchange Act to correspond to the short taxable year. Corporation T remains a publicly held corporation for its short taxable year ending on July 31, 2020, and its subsequent taxable year ending on December 31, 2020, for which it files a consolidated Federal income tax return with Corporation U.

For Corporation T's taxable year ending July 31, 2020, Employee V serves as the only PEO, and Employee W serves as the only PFO. Employees X, Y, and Z are the three most highly compensated executive officers of Corporation T for the taxable year ending July 31, 2020, other than the PEO and PFO. As a result of the acquisition, effective July 31, 2020, Employee V ceases to serve as the PEO of Corporation T. Instead, Employee AA starts serving as the PEO of Corporation T on August 1, 2020. Employee V continues to provide services for Corporation T but never serves as PEO again (or as an individual acting in such capacity). For Corporation T's taxable year ending December 31, 2020, Employee AA serves as the only PEO, and Employee W serves as the only PFO. Employees X, Y, and Z continue to serve as executive officers of Corporation T during the taxable year ending December 31, 2020. Employees BB, CC, and DD are the three most highly compensated executive officers of Corporation T, other than the PEO and PFO, for the taxable year ending December 31, 2020.

(2) *Conclusion (Employee V).* Because Employee V served as the PEO during Corporation T's short taxable year ending July 31, 2020, Employee V is a covered employee for Corporation T's short taxable year ending July 31, 2020, even though Employee V's compensation is required to be disclosed pursuant to the executive compensation disclosure rules under the Exchange Act only for the fiscal year ending December 31, 2020. Because Employee V was a covered employee for Corporation T's short taxable year ending July 31, 2020, Employee V is also a covered employee for Corporation T's short taxable year ending December 31, 2020.

(3) *Conclusion (Employee W).* Because Employee W served as the PFO during Corporation T's short taxable years ending July 31, 2020, and December 31, 2020, Employee W is a covered employee for both taxable years, even though Employee W's compensation is required to be disclosed pursuant to the executive compensation disclosure rules under the Exchange Act only for the fiscal year ending December 31, 2020. Because Employee W was a covered employee for Corporation T's

short taxable year ending July 31, 2020, Employee W would be a covered employee for Corporation T's short taxable year ending December 31, 2020, even if Employee W did not serve as the PFO during this taxable year.

(4) *Conclusion (Employee AA).* Because Employee AA served as the PEO during Corporation T's short taxable year ending December 31, 2020, Employee AA is a covered employee for that short taxable year.

(5) *Conclusion (Employees X, Y, and Z).* Employees X, Y, and Z are covered employees for Corporation T's short taxable years ending July 31, 2020, and December 31, 2020. Employees X, Y, and Z are covered employees for Corporation T's short taxable year ending July 31, 2020, because those employees are the three highest compensated executive officers for that short taxable year. Because they were covered employees for Corporation T's short taxable year ending July 31, 2020, Employees X, Y, and Z are covered employees for Corporation T's short taxable year ending December 31, 2020 and would be covered employees for that later short taxable year even if their compensation would not be required to be disclosed pursuant to the executive compensation disclosure rules under the Exchange Act.

(6) *Conclusion (Employees BB, CC, and DD).* Employees BB, CC, and DD are covered employees for Corporation T's short taxable year ending December 31, 2020, because those employees are the three highest compensated executive officers for that short taxable year.

(F) *Example 6 (Predecessor of a publicly held corporation)—(1) Facts.* Corporation EE is a publicly held corporation for its 2021 taxable year. Corporation EE is a privately held corporation for its 2022 and 2023 taxable years. For its 2024 taxable year, Corporation EE is a publicly held corporation.

(2) *Conclusion.* For its 2024 taxable year, Corporation EE is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(A) of this section because, after ceasing to be a publicly held corporation, it again became a publicly held corporation for a taxable year ending prior to April 15, 2025. Therefore, for Corporation EE's

2024 taxable year, the covered employees of Corporation EE include the covered employees of Corporation EE for its 2021 taxable year and any additional covered employees determined pursuant to this paragraph (c)(2).

(G) *Example 7 (Predecessor of a publicly held corporation)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(F) of this section (*Example 6*), except that Corporation EE remains a privately held corporation until it becomes a publicly held corporation for its 2027 taxable year.

(2) *Conclusion.* Corporation EE is not a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(A) of this section because it became a publicly held corporation for a taxable year ending after April 15, 2025. Therefore, any covered employee of Corporation EE for its 2021 taxable year is not a covered employee of Corporation EE for its 2027 taxable year due to that individual's status as a covered employee of Corporation EE for a preceding taxable year (beginning after December 31, 2016) but may be a covered employee due to that individual's status during the 2027 taxable year.

(H) *Example 8 (Predecessor of a publicly held corporation that is party to a merger)*—(1) *Facts.* On June 30, 2021, Corporation FF (a publicly held corporation) merged into Corporation GG (a publicly held corporation) in a transaction that qualifies as a reorganization under section 368(a)(1)(A), with Corporation GG as the surviving corporation. As a result of the merger, Corporation FF has a short taxable year ending June 30, 2021. Corporation FF is a publicly held corporation for this short taxable year. Corporation GG does not have a short taxable year and is a publicly held corporation for its 2021 taxable year.

(2) *Conclusion.* Corporation FF is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(B) of this section. Therefore, any covered employee of Corporation FF for its short taxable year ending June 30, 2021, is a covered employee of Corporation GG for its 2021 taxable year. For Corporation GG's 2021 and subsequent taxable years, the covered employees of Corporation GG include

the covered employees of Corporation FF (for a preceding taxable year beginning after December 31, 2016) and any additional covered employees determined pursuant to this paragraph (c)(2).

(I) *Example 9 (Predecessor of a publicly held corporation that is party to a merger)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(H) of this section (*Example 8*), except that, after the merger, Corporation GG is a privately held corporation for its 2021 taxable year.

(2) *Conclusion.* Because Corporation GG is a privately held corporation for its 2021 taxable year, it is not subject to section 162(m)(1) for this taxable year.

(J) *Example 10 (Predecessor of a publicly held corporation that is party to a merger)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(I) of this section (*Example 9*), except that Corporation GG, becomes a publicly held corporation (as defined in paragraph (c)(1)(i) of this section) on June 30, 2023, and is a publicly held corporation for its 2023 taxable year.

(2) *Conclusion.* Because Corporation GG became a publicly held corporation for a taxable year ending prior to April 15, 2025, Corporation FF is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(G) of this section. For Corporation GG's 2023 and subsequent taxable years, the covered employees of Corporation GG include the covered employees of Corporation FF (for a preceding taxable year beginning after December 31, 2016) and any additional covered employees determined pursuant to this paragraph (c)(2).

(K) *Example 11 (Predecessor of a publicly held corporation that is party to a merger)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(J) of this section (*Example 10*), except that Corporation FF is a privately held corporation for its taxable year ending June 30, 2021, but was a publicly held corporation for its 2020 taxable year.

(2) *Conclusion.* Even though Corporation FF was a privately held corporation when it merged with Corporation GG on June 30, 2021, Corporation FF will be a predecessor corporation if Corporation GG becomes a publicly

held corporation within a taxable year ending prior to April 15, 2024. Because Corporation GG became a publicly held corporation for its taxable year ending December 31, 2023, Corporation FF is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(G) of this section. For Corporation GG's 2023 and subsequent taxable years, the covered employees of Corporation GG include the covered employees of Corporation FF (for a preceding taxable year beginning after December 31, 2016) and any additional covered employees determined pursuant to this paragraph (c)(2).

(L) *Example 12 (Predecessor of a publicly held corporation that is party to a merger and subsequently becomes member of an affiliated group)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(J) of this section (*Example 10*), except that, on June 30, 2022, Corporation GG becomes a publicly held corporation by becoming a member of an affiliated group (as defined in paragraph (c)(1)(ii) of this section). Corporation II is the parent corporation of the group and is a publicly held corporation. Employee HH was a covered employee of Corporation FF for its taxable year ending June 30, 2021. On July 1, 2022, Employee HH becomes an employee of Corporation II.

(2) *Conclusion.* By becoming a member of an affiliated group (as defined in paragraph (c)(1)(ii) of this section) on June 30, 2022, Corporation GG became a publicly held corporation for a taxable year ending prior to April 15, 2025. Therefore, Corporation FF is a predecessor of a publicly held corporation (Corporation GG) within the meaning of paragraph (c)(2)(ii)(G) of this section. Furthermore, Corporation FF is also a predecessor of Corporation II, a publicly held corporation within the meaning of paragraph (c)(2)(ii)(G) of this section. For Corporation II's 2022 and subsequent taxable years, Employee HH is a covered employee of the affiliated group that includes Corporation II because Employee HH was a covered employee of Corporation FF for its taxable year ending June 30, 2021.

(M) *Example 13 (Predecessor of a publicly held corporation that is party to a merger and subsequently becomes member*

of an affiliated group)—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(L) of this section (*Example 12*), except that Corporation FF was a privately held corporation for its taxable year ending June 30, 2021, and Employee HH was a covered employee of Corporation FF for its taxable year ending December 31, 2020.

(2) *Conclusion.* Even though Corporation FF was a privately held corporation when it merged with Corporation GG on June 30, 2021, Corporation FF will be a predecessor corporation if Corporation GG becomes a publicly held corporation for a taxable year ending prior to April 15, 2024. Because Corporation GG became a publicly held corporation for its 2022 taxable year by becoming a member of an affiliated group (as defined in paragraph (c)(1)(ii) of this section), Corporation FF is a predecessor of a publicly held corporation (Corporation GG) within the meaning of paragraph (c)(2)(ii)(G) of this section. Furthermore, Corporation FF is also a predecessor of Corporation II, a publicly held corporation within the meaning of paragraph (c)(2)(ii)(G) of this section. Therefore, any covered employee of Corporation FF for its 2020 taxable year is a covered employee of the affiliated group that includes Corporation II for its 2022 and subsequent taxable years. For Corporation II's 2022 taxable year, Employee HH is a covered employee of the affiliated group that includes Corporation II because Employee HH was a covered employee of Corporation FF for its 2020 taxable year.

(N) *Example 14 (Predecessor of a publicly held corporation that is a party to a merger)*—(1) *Facts.* Corporation JJ is a publicly held corporation for its 2019 taxable year and is incorporated in State KK. On June 1, 2019, Corporation JJ formed a wholly-owned subsidiary, Corporation LL. Corporation LL is a publicly held corporation incorporated in State MM. On June 30, 2021, Corporation JJ merged into Corporation LL under State MM law in a transaction that qualifies as a reorganization under section 368(a)(1)(A), with Corporation LL as the surviving corporation. As a result of the merger, Corporation JJ has a short taxable year ending June 30, 2021. Corporation JJ is a publicly

held corporation for this short taxable year.

(2) *Conclusion.* Corporation JJ is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(B) of this section. For Corporation LL's taxable years ending after June 30, 2021, the covered employees of Corporation LL include the covered employees of Corporation JJ for its short taxable year ending June 30, 2021 (as well as preceding taxable years beginning after December 31, 2016) and any additional covered employees determined pursuant to this paragraph (c)(2).

(O) *Example 15 (Predecessor of a publicly held corporation becomes member of an affiliated group)—(1) Facts.* On June 30, 2021, Corporation OO acquires for cash 100% of the only class of outstanding stock of Corporation NN. The affiliated group (comprised of Corporations NN and OO) elects to file a consolidated Federal income tax return. As a result of this election, Corporation NN has a short taxable year ending on June 30, 2021. Corporation NN is a publicly held corporation for its taxable year ending June 30, 2021, and a privately held corporation for subsequent taxable years. On June 30, 2022, Corporation OO completely liquidates Corporation NN. Corporation OO is a publicly held corporation for its 2021 and 2022 taxable years.

(2) *Conclusion.* After Corporation OO acquired Corporation NN, Corporations NN and OO comprise an affiliated group as defined in paragraph (c)(1)(ii) of this section. Thus, Corporation NN is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(D) of this section. For Corporation OO's taxable years ending after June 30, 2021, the covered employees of Corporation OO include the covered employees of Corporation NN for its short taxable year ending June 30, 2021 (as well as preceding taxable years beginning after December 31, 2016) and any additional covered employees determined pursuant to this paragraph (c)(2).

(P) *Example 16 (Predecessor of a publicly held corporation becomes member of an affiliated group)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(O) of this section (*Example*

15), except that Corporation OO is a privately held corporation on June 30, 2021, and for its 2021 and 2022 taxable years.

(2) *Conclusion.* Because Corporation OO is a privately held corporation for its 2021 and 2022 taxable years, it is not subject to section 162(m)(1) for these taxable years.

(Q) *Example 17 (Predecessor of a publicly held corporation becomes member of an affiliated group)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(P) of this section (*Example 16*), except that, on October 1, 2022, the SEC declares effective Corporation OO's Securities Act registration statement in connection with its initial public offering, and Corporation OO is a publicly held corporation for its 2022 taxable year.

(2) *Conclusion (Taxable Year Ending December 31, 2021).* Because Corporation OO is a privately held corporation for its 2021 taxable year, it is not subject to section 162(m)(1) for this taxable year.

(3) *Conclusion (Taxable Year Ending December 31, 2022).* For the 2022 taxable year, Corporations NN and OO comprise an affiliated group as defined in paragraph (c)(1)(ii) of this section. Corporation NN is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(D) and (G) of this section because Corporation OO became a publicly held corporation for a taxable year ending prior to April 15, 2025. For Corporation OO's 2022 and subsequent taxable years, the covered employees of Corporation OO include the covered employees of Corporation NN for its short taxable year ending June 30, 2021 (as well as preceding taxable years beginning after December 31, 2016) and any additional covered employees determined pursuant to this paragraph (c)(2).

(R) *Example 18 (Predecessor of a publicly held corporation and asset acquisition)—(1) Facts.* Corporations VV, WW, and XX are publicly held corporations for their 2020 and 2021 taxable years. Corporations VV and WW are members of an affiliated group. Corporation WW is a direct subsidiary of Corporation VV. On June 30, 2021, Corporation VV

acquires for cash 40% of the gross operating assets (determined by fair market value as of January 31, 2022) of Corporation XX. On January 31, 2022, Corporation WW acquires an additional 40% of the gross operating assets (determined by fair market value as of January 31, 2022) of Corporation XX. Employees EB, EC, and EA are covered employees for Corporation XX's 2020 taxable year. Employees ED and EF are also covered employees for Corporation XX's 2021 taxable year. On January 15, 2021, Employee EA started performing services as an employee of Corporation WW. On July 1, 2021, Employee EB started performing services as an employee of Corporation WW. On February 1, 2022, Employees EC and ED started performing services as employees of Corporation WW. On June 30, 2023, Employee EF started performing services as an employee of Corporation WW.

(2) *Conclusion.* Because an affiliated group, comprised of Corporations VV and WW, acquired 80% of Corporation XX's gross operating assets (determined by fair market value) within a twelve-month period, Corporation XX is a predecessor of a publicly held corporation within the meaning of paragraph (c)(2)(ii)(E) of this section. Therefore, any covered employee of Corporation XX for its 2020 and 2021 taxable years (who started performing services as an employee of Corporation WW within the period beginning 12 months before and ending 12 months after the date of the January 31, 2022, acquisition (determined under paragraph (c)(2)(ii)(I) of this section) is a covered employee of Corporation WW for its 2021, 2022, and subsequent taxable years. For Corporation WW's 2021 and subsequent taxable years, the covered employees of Corporation WW include Employee EB and any additional covered employees determined pursuant to paragraph (c)(2)(i) of this section. For Corporation WW's 2022 and subsequent taxable years, the covered employees of Corporation WW include Employees EB, EC, and ED, and any additional covered employees determined pursuant to this paragraph (c)(2). Because Employee EA started performing services as an employee of Corporation WW before January 31,

2021, Employee EA is not a covered employee of Corporation WW for its 2021 taxable year and subsequent taxable years by reason of paragraph (c)(2)(ii)(E) of this section, but may be a covered employee of Corporation WW by application of other rules in this paragraph (c)(2). Because Employee EF started performing services as an employee of Corporation WW after January 31, 2023, Employee EF is not a covered employee of Corporation WW for its 2023 taxable year by reason of paragraph (c)(2)(ii)(E) of this section, but may be a covered employee of Corporation WW by application of other rules in this paragraph (c)(2).

(S) *Example 19 (Predecessor of a publicly held corporation and asset acquisition)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(R) of this section (*Example 18*), except that Corporations VV and WW are not publicly held corporations on June 30, 2021, or for their 2021 taxable years.

(2) *Conclusion.* Because Corporations VV and WW are not publicly held corporations for their 2021 taxable years, they are not subject to section 162(m)(1) for their 2021 taxable years.

(T) *Example 20 (Predecessor of a publicly held corporation and asset acquisition)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(R) of this section (*Example 18*), except that, on October 1, 2022, the SEC declares effective Corporation VV's Securities Act registration statement in connection with its initial public offering, and Corporation VV is a publicly held corporation for its 2022 taxable year.

(2) *Conclusion (2021 taxable year).* Because Corporations VV and WW are not publicly held corporations for their 2021 taxable years, they are not subject to section 162(m)(1) for their 2021 taxable years.

(3) *Conclusion (2022 taxable year).* Corporation XX is a predecessor of a publicly held corporation within the meaning of paragraphs (c)(2)(ii)(E) and (G) of this section because a member of the affiliated group comprised of Corporations VV and WW acquired 80% of Corporation XX's gross operating assets (determined by fair market value) within a twelve-month period ending on January 31, 2022, and the parent of the affiliated group, Corporation VV,

subsequently became a publicly held corporation for a taxable year ending prior to April 15, 2024. Therefore, any covered employee of Corporation XX for its 2020 and 2021 taxable years (who started performing services as an employee of Corporation WW within the period beginning 12 months before and ending 12 months after the acquisition) is a covered employee of the affiliated group comprised of Corporations VV and WW for its 2022 and subsequent taxable years. For Corporation WW's 2022 and subsequent taxable years, the covered employees of Corporation WW include Employees EB, EC, and ED, and any additional covered employees determined pursuant to this paragraph (c)(2).

(U) *Example 21 (Predecessor of a publicly held corporation and a division)—(1) Facts.* Corporation CA is a publicly held corporation for its 2021 and 2022 taxable years. On March 2, 2021, Corporation DDD forms a wholly-owned subsidiary, Corporation CB, and transfers assets to it. On April 1, 2022, Corporation CA distributes all shares of Corporation CB to its shareholders in a transaction described in section 355(a)(1). On April 1, 2022, the SEC declares effective Corporation CB's Securities Act registration statement in connection with its initial public offering. Corporation CB is a publicly held corporation for its 2022 taxable year. Employee EG serves as the PFO of Corporation CA from January 1, 2022, to March 31, 2022. On April 2, 2022, Employee EG starts performing services as an employee of Corporation CB advising the PFO of Corporation CB. After March 31, 2022, Employee EG ceases to provide services for Corporation CA.

(2) *Conclusion.* Because the distribution of the stock of Corporation CB is a transaction described under section 355(a)(1), Corporation CA is a predecessor of Corporation CB within the meaning of paragraph (c)(2)(ii)(C) of this section. Because Employee EG was a covered employee of Corporation CA for its 2022 taxable year, Employee ED is a covered employee of Corporation CB for its 2022 taxable year. The result is the same whether Employee EG performs services as an advisor for Corporation CB as an employee or an independent contractor.

(V) *Example 22 (Predecessor of a publicly held corporation and a division)—(1) Facts.* The facts are the same as in paragraph (c)(2)(vii)(U) of this section (*Example 21*), except that Corporation CA distributes 100% of the shares of Corporation CB to Corporation CD in exchange for all of Corporation CD's stock in Corporation CA in a transaction described in section 355(a)(1) and Corporation CB does not register any class of securities with the SEC. Also, Employee EG performs services as an employee of Corporation CD instead of as an employee of Corporation CB. Corporation CD is a privately held corporation for its 2022 taxable year. On October 1, 2023, the SEC declares effective Corporation CD's Securities Act registration statement in connection with its initial public offering. Corporation CD is a publicly held corporation for its 2023 taxable year. On January 1, 2028, Employee EG starts performing services as an employee of Corporation CA. Corporation CA is a publicly held corporation for its 2028 taxable year.

(2) *Conclusion (2022 taxable year).* Because Corporation CD is a privately held corporation for its 2022 taxable year, it is not subject to section 162(m)(1) for this taxable year.

(3) *Conclusion (2023 taxable year).* Because the exchange of the stock of Corporation CB for the stock of Corporation CA is a transaction described in section 355(a)(1), Corporations CB and CD are an affiliated group, and Corporation CD became a publicly held corporation for a taxable year ending prior to April 15, 2026, Corporation CA is a predecessor of Corporation CD within the meaning of paragraphs (c)(2)(ii)(D) and (G) of this section. Employee EG was a covered employee of Corporation CA for its 2022 taxable year, and started performing services as an employee of Corporation CD following April 1, 2021, and before April 1, 2023. Therefore, Employee ED is a covered employee of Corporation CD for its 2023 taxable year.

(4) *Conclusion (2028 taxable year).* Because Employee EG served as the PFO of Corporation CA from January 1, 2022, to March 31, 2022, Employee EG was a covered employee of Corporation CA

for its 2022 taxable year. Because an individual who is a covered employee for a taxable year remains a covered employee for all subsequent taxable years (even after the individual has separated from service), Employee EG is a covered employee of Corporation CA for its 2028 taxable year.

(W) *Example 23 (Predecessor of a publicly held corporation and a division)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(V) of this section (*Example 22*), except that Employee EG starts performing services as an employee of Corporation CD on June 30, 2023, instead of on April 2, 2022, and never performs services for Corporation CA after June 30, 2023. Furthermore, on June 30, 2023, Employee EH, a covered employee of Corporation CB for all of its taxable years, starts performing services for Corporation EF as an independent contractor advising its PEO but not serving as a PEO.

(2) *Conclusion (2023 taxable year).* Because the exchange of the stock of Corporation CB for the stock of Corporation CA is a transaction described in section 355(a)(1) and Corporation CD became a publicly held corporation for a taxable year ending before April 15, 2026, Corporation CA is a predecessor of Corporation CD within the meaning of paragraphs (c)(2)(ii)(D) and (G) of this section. Even though Employee EG was a covered employee of Corporation CA for its 2022 taxable year, because Employee EG started performing services as an employee of Corporation CD after April 1, 2023, Employee EG is not a covered employee of Corporation CD for its 2023 taxable year under paragraph (c)(2)(ii)(C) of this section. However, Employee EG may be a covered employee of Corporation CD by application of other rules in this paragraph (c)(2). Because Employee EH was a covered employee of Corporation CB for its 2022 taxable year, Employee EH is a covered employee of Corporation CD for its 2023 taxable year.

(X) *Example 24 (Predecessor of a publicly held corporation and election under section 338(h)(10))*—(1) *Facts.* Corporation CE is the common parent of a group of corporations filing consolidated returns that includes Corporation CF as a member. Corporation CE wholly-owns Corporation CF, a pub-

licly held corporation within the meaning of paragraph (c)(1)(i) of this section. On June 30, 2021, Corporation CG purchases Corporation CF from Corporation CE. Corporation CE and Corporation CG make a timely election under section 338(h)(10) with respect to the purchase of Corporation CF stock. For its taxable year ending December 31, 2021, Corporation CF continues to be a publicly held corporation within the meaning of paragraph (c)(1)(i) of this section.

(2) *Conclusion.* As provided in paragraph (c)(2)(ii)(H) of this section, Corporation CF is treated as the same corporation after the section 338(h)(10) transaction as before the transaction for purposes of this paragraph (c)(2). Any covered employee of Corporation CF for its short taxable year ending June 30, 2021, is a covered employee of Corporation CF for its short taxable year ending on December 31, 2021, and subsequent taxable years.

(Y) *Example 25 (Disregarded entity)*—(1) *Facts.* Corporation CH is a privately held corporation for its 2020 taxable year. Entity CI is a wholly-owned limited liability company and is disregarded as an entity separate from its owner, Corporation CH, under § 301.7701-2(c)(2)(i) of this chapter. As of December 31, 2020, Entity CI is required to file reports under section 15(d) of the Exchange Act. For the 2020 taxable year, Employee EI is the PEO and Employee EJ is the PFO of Corporation CH. Employees EK, EL, and EM, are the three most highly compensated executive officers of Corporation CH (other than Employees EI and EJ). Employee EN is the PFO of Entity CI and does not perform any policy making functions for Corporation CH. Entity CI has no other executive officers.

(2) *Conclusion.* Because Entity CI is disregarded as an entity separate from its owner, Corporation CH, and is required to file reports under section 15(d) of the Exchange Act, Corporation CH is a publicly held corporation under paragraph (c)(1)(iii) of this section for its 2020 taxable year. Even though Employee EN is a PFO of Entity CI, Employee EN is not considered a PFO of Corporation CH under paragraph (c)(2)(iii) of this section. As PEO and PFO, Employees EI and EJ are covered

employees of Corporation CH under paragraph (c)(2)(i) of this section. Additionally, as the three most highly compensated executive officers of Corporation CH (other than Employees EI and EJ), Employees EK, EL, and EM also are covered employees of Corporation CH under paragraph (c)(2)(i) of this section for Corporation CH's 2020 taxable year. The result would be the same if Entity CI was not required to file reports under section 15(d) of the Exchange Act and Corporation CH was a publicly held corporation pursuant to paragraph (c)(1)(i) instead of paragraph (c)(1)(iii) of this section.

(Z) *Example 26 (Disregarded entity)*—(1) *Facts.* The facts are the same as in paragraph (c)(2)(vii)(Y) of this section (*Example 25*), except that Employee EN performs a policy making function for Corporation CH. If Corporation CH were subject to the SEC executive compensation disclosure rules, then Employee EN would be treated as an executive officer of Corporation CH pursuant to 17 CFR 240.3b-7 for purposes of determining the three highest compensated executive officers for Corporation CH's 2020 taxable year. Employee EN is compensated more than Employee EK, but less than Employees EL and EM.

(2) *Conclusion.* Because Entity CI is disregarded as an entity separate from its owner, Corporation CH, and is required to file reports under section 15(d) of the Exchange Act, Corporation CH is a publicly held corporation under paragraph (c)(1)(iii) of this section for its 2020 taxable year. As PEO and PFO, Employees EI and EJ are covered employees of Corporation CH under paragraph (c)(2)(i) of this section. Employee EN is one of the three highest compensated executive officers for Corporation CH's taxable year. Because Employees EN, EL, and EM are the three most highly compensated executive officers of Corporation CH (other than Employees EI and EJ), they are covered employees of Corporation CH under paragraph (c)(2)(i) of this section for Corporation CH's 2020 taxable year. The result would be the same if Entity CI was not required to file reports under section 15(d) of the Exchange Act and Corporation CH was a publicly held corporation pursuant to paragraph

(c)(1)(i) instead of paragraph (c)(1)(iii) of this section.

(AA) *Example 27 (Individual as covered employee of a publicly held corporation that includes the affiliated group)*—(1) *Facts.* Corporations CJ and CK are publicly held corporations for their 2020, 2021, and 2022 taxable years. Corporation CK is a direct subsidiary of Corporation CJ. Employee EO is an employee, but not a covered employee (as defined in paragraph (c)(2)(i) of this section), of Corporation CJ for its 2020, 2021, and 2022 taxable years. From April 1, 2020, to September 30, 2020, Employee EO serves as the PFO of Corporation CK. Employee EO does not perform any services for Corporation CK for its 2021 and 2022 taxable years, however, employee EO is a covered employee (as defined in paragraph (c)(2)(i) of this section) of Corporation CK for its 2020, 2021, and 2022 taxable years. For the 2020 taxable year, Employee EO receives compensation of \$1,500,000 for services provided to Corporations CJ and CK. Employee EO receives \$2,000,000 from Corporation CJ for performing services for Corporation CJ during each of its 2021 and 2022 taxable years. On June 30, 2022, Corporation CK pays \$500,000 to Employee EO from a nonqualified deferred compensation plan that complies with section 409A.

(2) *Conclusion (2020 taxable year).* Because Employee EO is a covered employee of Corporation CK and because the affiliated group (comprised of Corporations CJ and CK) is a publicly held corporation, Employee EO is a covered employee of the publicly held corporation that is the affiliated group pursuant to paragraph (c)(2)(vi) of this section. Compensation paid by Corporations CJ and CK is aggregated for purposes of section 162(m)(1) and, as a result, \$500,000 of the aggregate compensation paid is nondeductible. The result would be the same if Corporation CJ was a privately held corporation for its 2020 taxable year.

(3) *Conclusion (2021 taxable year).* Because Employee EO is a covered employee of Corporation CK pursuant to paragraph (c)(2)(i)(C) of this section and because the affiliated group (comprised of Corporations CJ and CK) is a publicly held corporation, Employee

EO is a covered employee of the publicly held corporation that is the affiliated group pursuant to paragraph (c)(2)(vi) of this section. Compensation paid by Corporations CJ and CK is aggregated for purposes of section 162(m)(1) and, as a result, \$1,000,000 of the aggregate compensation paid is nondeductible. The result would be the same if Corporation CJ was a privately held corporation for its 2021 taxable year.

(4) *Conclusion (2022 taxable year).* Because Employee EO is a covered employee of Corporation CK pursuant to paragraph (c)(2)(i)(C) of this section and because the affiliated group (comprised of Corporations CJ and CK) is a publicly held corporation, Employee EO is a covered employee of the publicly held corporation that is the affiliated group pursuant to paragraph (c)(2)(vi) of this section. Compensation paid by Corporations CJ and CK is aggregated for purposes of section 162(m)(1) and, as a result, \$1,500,000 of the aggregate compensation paid is nondeductible. The result would be the same if Corporation CJ was a privately held corporation for its 2022 taxable year.

(BB) *Example 28 (Individual as covered employee of a publicly held corporation that includes the affiliated group)—(1) Facts.* Corporation CL is a publicly held corporation for its 2020 through 2023 taxable years. Corporations CM and CN are direct subsidiaries of Corporation CL and are privately held corporations for their 2020 through 2022 taxable years. Employee EP serves as the PFO of Corporation CL from January 1, 2020 to December 31, 2020, when Employee EP terminates employment from Corporation CL. On January 1, 2021, Employee EP starts performing services as an employee of Corporation CM. In 2021, Employee EP receives compensation from Corporation CM in excess of \$1,000,000. On April 1, 2022, Employee EP starts performing services as an employee of Corporation CN. On September 30, 2022, Employee EP terminates employment from Corporations CM and CN. In 2022, Employee EP receives compensation from Corporations CM and CN in excess of \$1,000,000. For the 2021 and 2022 taxable years, Employee EP does not serve as either the

PEO or PFO of Corporations CM and CN, and is not one of the three highest compensated executive officers (other than the PEO or PFO) of Corporations CM and CN. On April 1, 2023, Corporation CL distributes all the shares of Corporation CM to its shareholders in a transaction described in section 355(a)(1). On April 1, 2023, the SEC declares effective Corporation CM's Securities Act registration statement in connection with its initial public offering. Corporation CM is a publicly held corporation for its 2023 taxable year. On April 2, 2023, Employee EP starts performing services as an employee of Corporation CM but is not an executive officer of Corporation CM.

(2) *Conclusion (2021 taxable year).* Employee EP is a covered employee of Corporation CL for the 2020 and subsequent taxable years. Because Employee EP is a covered employee of Corporation CL and because the affiliated group (comprised of Corporations CL, CM, and CN) is a publicly held corporation, Employee EP is a covered employee of the publicly held corporation that is the affiliated group pursuant to paragraph (c)(2)(vi) of this section for the 2020 and subsequent taxable years. Therefore, Corporation CM's deduction for compensation paid to Employee EP for the 2021 taxable year is subject to section 162(m)(1). The result would be the same if Corporation CM was a publicly held corporation as defined in paragraph (c)(1)(i) of this section.

(3) *Conclusion (2022 taxable year).* Because Employee EP is a covered employee of Corporation CL and because the affiliated group (comprised of Corporations CL, CM, and CN) is a publicly held corporation, Employee EP is a covered employee of the publicly held corporation that is the affiliated group pursuant to paragraph (c)(2)(vi) of this section. Therefore, Corporation CM's and CN's deduction for compensation paid to Employee EP for the 2022 taxable year is subject to section 162(m)(1). Because the compensation paid by all affiliated group members is aggregated for purposes of section 162(m)(1), \$1,000,000 of the aggregate compensation paid is nondeductible. Corporations CM and CN are each treated as paying a ratable portion of the nondeductible compensation. The

result would be the same if either Corporation CM or CN (or both) was a publicly held corporation as defined in paragraph (c)(1)(i) of this section.

(4) *Conclusion (2023 taxable year)*. Because the distribution of the stock of Corporation CM is a transaction described in section 355(a)(1), Corporation CL is a predecessor of Corporation CM within the meaning of paragraph (c)(2)(ii)(C) of this section. However, because Employee EP started performing services as an employee of Corporation CM on January 1, 2021, and the distribution of stock of Corporation CM did not occur until April 1, 2023, Employee EP is not a covered employee of Corporation CM for its 2023 taxable year.

(3) *Compensation*—(i) *In general*. For purposes of the deduction limitation described in paragraph (b) of this section, compensation means the aggregate amount allowable as a deduction to the publicly held corporation under chapter 1 of the Internal Revenue Code for the taxable year (determined without regard to section 162(m)(1)) for remuneration for services performed by a covered employee in any capacity, whether or not the services were performed during the taxable year. Compensation includes an amount that is includible in the income of, or paid to, a person other than the covered employee (including a beneficiary after the death of the covered employee) for services performed by the covered employee.

(ii) *Compensation paid by a partnership*. For purposes of paragraph (c)(3)(i) of this section, compensation includes an amount equal to a publicly held corporation's distributive share of a partnership's deduction for compensation expense attributable to the remuneration paid by the partnership to a covered employee of the publicly held corporation for services performed by the covered employee, including a payment for services under section 707(a) or under section 707(c).

(iii) *Exceptions*. Compensation does not include—

(A) Remuneration covered in section 3121(a)(5)(A) through (D) (concerning remuneration that is not treated as wages for purposes of the Federal Insurance Contributions Act);

(B) Remuneration consisting of any benefit provided to or on behalf of an employee if, at the time the benefit is provided, it is reasonable to believe that the employee will be able to exclude it from gross income; or

(C) Salary reduction contributions described in section 3121(v)(1).

(iv) *Examples*. The following examples illustrate the provisions of this paragraph (c)(3). For each example, assume that the corporation is a calendar year taxpayer.

(A) *Example 1—(1) Facts*. Corporation Z is a publicly held corporation for its 2020 taxable year, during which Employee A serves as the PEO of Corporation Z and also serves on the board of directors of Corporation Z. In 2020, Corporation Z paid \$1,200,000 to Employee A plus a \$50,000 fee for serving as a director of Corporation Z. These amounts are otherwise deductible for Corporation Z's 2020 taxable year.

(2) *Conclusion*. The \$1,200,000 paid to Employee A in 2020 plus the \$50,000 director's fee paid to Employee A in 2020 are compensation within the meaning of this paragraph (c)(3). Therefore, Corporation Z's \$1,250,000 deduction for the 2020 taxable year is subject to the section 162(m)(1) limit.

(B) *Example 2—(1) Facts*. Corporation X is a publicly held corporation for its 2020 and all subsequent taxable years. Employee B serves as the PEO of Corporation X for its 2020 taxable year and is a participant in the Corporation X nonqualified retirement plan that meets the requirements of section 409A. The plan provides for the distribution of benefits over a three-year period beginning after a participant separates from service. Employee B terminates employment in 2021. In 2022, Employee B receives a \$75,000 fee for services as a director and \$1,500,000 as the first payment under the retirement plan. Employee B continues to serve on the board of directors until 2023 when Employee B dies before receiving the retirement benefit for 2023 and before becoming entitled to any director's fees for 2023. In 2023 and 2024, Corporation X pays the \$1,500,000 annual retirement benefits to Person C, a beneficiary of Employee B.

(2) *Conclusion (2022 Taxable Year)*. In 2022, Corporation X paid Employee B

\$1,575,000, including \$1,500,000 under the retirement plan and \$75,000 in director's fees. The retirement benefit and the director's fees are compensation within the meaning of this paragraph (c)(3). Therefore, Corporation X's \$1,575,000 deduction for the 2022 taxable year is subject to the section 162(m)(1) limit.

(3) *Conclusion (2023 and 2024 Taxable Years)*. In 2023 and 2024, Corporation X made payments to Person C of \$1,500,000 under the retirement plan. The retirement benefits are compensation within the meaning of this paragraph (c)(3). Therefore, Corporation X's deduction for each annual payment of \$1,500,000 for the 2023 and 2024 taxable years is subject to the section 162(m)(1) limit.

(C) *Example 3—(1) Facts*. Corporation T is a publicly held corporation for its 2021 taxable year. Corporation S is a privately held corporation for its 2021 taxable year. On January 2, 2021, Corporations S and T form a general partnership. Under the partnership agreement, Corporations S and T each have a 50% distributive share of the partnership's income, gain, loss, and deductions. For the taxable year ending December 31, 2021, Employee D, a covered employee of Corporation T, performs services for the partnership, and the partnership pays \$800,000 to Employee D for these services, the deduction of \$400,000 of which is allocated to Corporation T. Corporation T's \$400,000 distributive share of the partnership's deduction is reported separately to Corporation T pursuant to § 1.702-1(a)(8)(iii).

(2) *Conclusion*. Because Corporation T's \$400,000 distributive share of the partnership's deduction is attributable to the compensation paid by the partnership for services performed by Employee D, a covered employee of Corporation T, the \$400,000 is compensation within the meaning of this paragraph (c)(3) and Corporation T's deduction for this expense for its 2021 taxable year is subject to the section 162(m)(1) limit. Corporation T's \$400,000 allocation of the partnership's deduction is aggregated with Corporation T's deduction for compensation paid to Employee D, if any, in determining the amount allowable as a deduction to

Corporation T for compensation paid to Employee D for Corporation T's 2021 taxable year. The result is the same whether Employee D performs services for the partnership as a common law employee, an independent contractor, or a partner, and whether the payment to Employee D is a payment under section 707(a) or section 707(c).

(4) *Securities Act*. The Securities Act means the Securities Act of 1933.

(5) *Exchange Act*. The Exchange Act means the Securities Exchange Act of 1934.

(6) *SEC*. The SEC means the United States Securities and Exchange Commission.

(7) *Foreign Private Issuer*. A foreign private issuer means an issuer as defined in 17 CFR 240.3b-4(c).

(8) *American Depositary Receipt (ADR)*. An American Depositary Receipt or ADR means a negotiable certificate that evidences ownership of a specified number (or fraction) of a foreign private issuer's securities held by a depositary (typically, a U.S. bank).

(9) *Privately held corporation*. A privately held corporation is a corporation that is not a publicly held corporation as defined in paragraph (c)(1) of this section (without regard to paragraph (c)(1)(ii) of this section).

(d) *Corporations that become publicly held—(1) In general*. In the case of a corporation that was a privately held corporation and then becomes a publicly held corporation, the deduction limitation of paragraph (b) of this section applies to any compensation that is otherwise deductible for the taxable year ending on or after the date that the corporation becomes a publicly held corporation. A corporation is considered to become publicly held on the date that its registration statement becomes effective either under the Securities Act or the Exchange Act. The rules in this section apply to a partnership that becomes a publicly traded partnership that is a publicly held corporation within the meaning of paragraph (c)(1)(i) of this section.

(2) *Example*. The following example illustrates the provision of this paragraph (d).

(i) *Facts*. In 2021, Corporation E plans to issue debt securities in a public offering registered under the Securities

Act. Corporation E is not required to file reports under section 15(d) of the Exchange Act with respect to any other class of securities and does not have another class of securities required to be registered under section 12 of the Exchange Act. On December 18, 2021, the SEC declares effective the Securities Act registration statement for Corporation E's debt securities.

(ii) *Conclusion.* Corporation E becomes a publicly held corporation on December 18, 2021 because it is then required to file reports under section 15(d) of the Exchange Act. The deduction limitation of paragraph (b) of this section applies to any compensation that is otherwise deductible for Corporation E's taxable year ending on or after December 18, 2021.

(e) *Coordination with disallowed excess parachute payments under section 280G.* The \$1,000,000 limitation in paragraph (b) of this section is reduced (but not below zero) by the amount (if any) that would have been included in the compensation of the covered employee for the taxable year but for being disallowed by reason of section 280G. For example, assume that during a taxable year a corporation pays \$1,500,000 to a covered employee, of which \$600,000 is an excess parachute payment, as defined in section 280G(b)(1), and a deduction for that excess parachute payment is disallowed by reason of section 280G(a). Because the \$1,000,000 limitation in paragraph (b) of this section is reduced by the amount of the excess parachute payment, the corporation may deduct \$400,000 (\$1,000,000 - \$600,000), and \$500,000 of the otherwise deductible amount is non-deductible by reason of section 162(m)(1). Thus \$1,100,000 (of the total \$1,500,000 payment) is non-deductible, reflecting the disallowance related to the excess parachute payment under section 280G and the application of section 162(m)(1).

(f) *Coordination with excise tax on specified stock compensation.* The \$1,000,000 limitation in paragraph (b) of this section is reduced (but not below zero) by the amount (if any) of any payment (with respect to such employee) of the tax imposed by section 4985 directly or indirectly by the expatriated corporation (as defined in section 4985(e)(2)) or

by any member of the expanded affiliated group (as defined in section 4985(e)(4)) that includes such corporation.

(g) *Transition rules*—(1) *Amount of compensation payable under a written binding contract that was in effect on November 2, 2017*—(i) *General rule.* This section does not apply to the deduction for compensation payable under a written binding contract that was in effect on November 2, 2017, and that is not modified in any material respect on or after that date (a grandfathered amount). Instead, section 162(m), as in effect prior to its amendment by Public Law 115-97, applies to limit the deduction for that compensation. Because §1.162-27 implemented section 162(m) as in effect prior to its amendment by Public Law 115-97, the rules of §1.162-27 determine the applicability of the deduction limitation under section 162(m) with respect to the payment of a grandfathered amount (including the potential application of the separate grandfathering rules contained in §1.162-27(h)). Compensation is a grandfathered amount only to the extent that as of November 2, 2017, the corporation was and remains obligated under applicable law (for example, state contract law) to pay the compensation under the contract if the employee performs services or satisfies the applicable vesting conditions. This section applies to the deduction for any amount of compensation that exceeds the grandfathered amount. If a grandfathered amount and non-grandfathered amount are otherwise deductible for the same taxable year and, under the rules of §1.162-27, the deduction of some or all of the grandfathered amount may be limited (for example, the grandfathered amount does not satisfy the requirements of §1.162-27(e)(2) through (5) as qualified performance-based compensation), then the grandfathered amount is aggregated with the non-grandfathered amount to determine the deduction disallowance for the taxable year under section 162(m)(1) (so that the deduction limit applies to the excess of the aggregated amount over \$1 million).

(ii) *Contracts that are terminable or cancelable.* If a written binding contract is renewed after November 2, 2017,

this section (and not § 1.162-27) applies to any payments made after the renewal. A written binding contract that is terminable or cancelable by the corporation without the employee's consent after November 2, 2017, is treated as renewed as of the earliest date that any such termination or cancellation, if made, would be effective. Thus, for example, if the terms of a contract provide that it will be automatically renewed or extended as of a certain date unless either the corporation or the employee provides notice of termination of the contract at least 30 days before that date, the contract is treated as renewed as of the date that termination would be effective if that notice were given. Similarly, for example, if the terms of a contract provide that the contract will be terminated or canceled as of a certain date unless either the corporation or the employee elects to renew within 30 days of that date, the contract is treated as renewed by the corporation as of that date (unless the contract is renewed before that date, in which case, it is treated as renewed on the earlier date). Alternatively, if the corporation will remain legally obligated by the terms of a contract beyond a certain date at the sole discretion of the employee, the contract will not be treated as renewed as of that date if the employee exercises the discretion to keep the corporation bound to the contract. A contract is not treated as terminable or cancelable if it can be terminated or canceled only by terminating the employment relationship of the employee. A contract is not treated as renewed if upon termination or cancellation of the contract the employment relationship continues but would no longer be covered by the contract. However, if the employment continues after the termination or cancellation, payments with respect to the post-termination or post-cancellation employment are not made pursuant to the contract (and, therefore, are not grandfathered amounts).

(iii) *Compensation payable under a plan or arrangement.* If a compensation plan or arrangement is a written binding contract in effect on November 2, 2017, the deduction for the amount that the corporation is obligated to pay to an employee pursuant to the plan or

arrangement is not subject to this section solely because the employee was not eligible to participate in the plan or arrangement as of November 2, 2017, provided the employee was employed on November 2, 2017, by the corporation that maintained the plan or arrangement, or the employee had the right to participate in the plan or arrangement under a written binding contract as of that date.

(iv) *Compensation subject to recovery by corporation.* If the corporation is obligated or has discretion to recover compensation paid in a taxable year only upon the future occurrence of a condition that is objectively outside of the corporation's control, then the corporation's right to recovery is disregarded for purposes of determining the grandfathered amount for the taxable year. Whether or not the corporation exercises its discretion to recover any compensation does not affect the amount of compensation that the corporation remains obligated to pay under applicable law.

(v) *Compensation payable from an account balance plan—(A) In general.* Except as otherwise provided in this paragraph (g), the grandfathered amount of payments from an account balance plan (as defined in § 1.409A-1(c)(2)(i)(A)) that is a written binding contract in effect as of November 2, 2017, is the amount that the corporation is obligated to pay pursuant to the terms of the account balance plan in effect as of that date, as determined under applicable law. If under the terms of the plan, the corporation is obligated to pay the employee the account balance that is credited with earnings and losses and has no right to terminate or materially amend the plan, then the grandfathered amount would be the account balance as of November 2, 2017, plus any additional contributions and earnings and losses that the corporation is obligated to credit to the account balance in accordance with the terms of the plan as of November 2, 2017, through the date of payment.

(B) *Account balance plan providing right to terminate.* If under the terms of the account balance plan in effect as of November 2, 2017, the corporation may terminate the contract and distribute the account balance to the employee,

then the grandfathered amount would be the account balance determined as if the corporation had terminated the plan on November 2, 2017 or, if later, the earliest possible date the plan could be terminated in accordance with the terms of the plan (termination date). Whether additional contributions and earnings and losses credited to the account balance after the termination date, through the earliest possible date the account balance could have been distributed to the employee in accordance with the terms of the plan, are grandfathered depends on whether the terms of the plan require the corporation to make those contributions or credit those earnings and losses through that distribution date. Notwithstanding the foregoing, the corporation may treat the account balance as of the termination date as the grandfathered amount regardless of when the amount is paid and regardless of whether it has been credited with additional contributions or earnings or losses prior to payment.

(C) *Account balance plan providing right to discontinue future contributions.* If under the terms of the account balance plan in effect as of November 2, 2017, the corporation has no right to terminate the plan, but may discontinue future contributions and distribute the account balance in accordance with the terms of the plan, then the grandfathered amount would be the account balance determined as if the corporation had exercised the right to discontinue contributions on November 2, 2017, or, if later, the earliest permissible date the corporation could exercise that right in accordance with the terms of the plan (the freeze date). If, after the freeze date, the plan requires the crediting of earnings and losses on the account balance through the payment date, then the earnings and losses credited to the grandfathered account balance would also be grandfathered. Notwithstanding the foregoing, the corporation may treat the account balance as of the freeze date as the grandfathered amount regardless of when the amount is paid and regardless of whether it has been credited with earnings or losses prior to payment.

(vi) *Compensation payable from a non-account balance plan—(A) In general.*

Except as otherwise provided in this paragraph (g), the grandfathered amount of payments from a non-account balance plan (as defined in § 1.409A-1(c)(2)(i)(C)) that is a written binding contract in effect as of November 2, 2017, is the amount that the corporation is obligated to pay pursuant to the terms of the nonaccount balance plan in effect as of that date, as determined under applicable law. If under the terms of the plan, the corporation is obligated to pay the employee the benefit under the plan and has no right to terminate or materially amend the plan, then the grandfathered amount would be the benefit under the plan as of November 2, 2017, plus any additional accrued benefits that the corporation is obligated to pay in accordance with the terms of the plan as of November 2, 2017, through the date of payment.

(B) *Nonaccount balance plan providing right to terminate.* If under the terms of the nonaccount balance plan in effect as of November 2, 2017, the corporation may terminate the plan and distribute the total benefit to the employee, then the grandfathered amount would be the present value of the total benefit (lump sum value) determined as if the corporation had terminated the plan on November 2, 2017 or, if later, the earliest possible date the plan could be terminated in accordance with the terms of the plan (termination date). Whether an increase or decrease in the lump sum value after the termination date, through the earliest possible date the lump sum value could have been distributed to the employee, is grandfathered depends on whether the terms of the plan require the corporation to increase or decrease the lump sum value through the distribution date. For example, if the plan did not require the corporation to make further service or compensation credits, then any increase in the lump sum value for these credits after the termination date is not grandfathered. Notwithstanding the foregoing, the corporation may treat the lump sum value as of the termination date as the grandfathered amount regardless of when the amount is paid and regardless of whether it has increased or decreased prior to payment. For purposes of this paragraph

(g)(1)(vi)(B), the lump sum value is determined based on the actuarial methods and assumptions provided in the plan in effect on November 2, 2017, if the assumptions are reasonable, or any reasonable actuarial assumptions if the plan does not provide for applicable actuarial methods and assumptions or the terms of the plan were not reasonable. The determination of the lump sum value may not take into account the likelihood that payments will not be made (or will be reduced) because of the unfunded status of the plan, the risk that the employer, the trustee, or another party will be unwilling or unable to pay, the possibility of future plan amendments, the possibility of a future change in the law, or similar risks or contingencies. If the benefit provided under the plan in effect on November 2, 2017, is paid as a life annuity or other form of benefit that is not a single lump sum payment, the application of the grandfathered amount to the payments of the benefit is determined in accordance with the ordering rule of paragraph (g)(1)(viii) of this section.

(C) *Nonaccount balance plan providing right to discontinue future accrual of benefits.* If under the terms of the non-account balance plan in effect as of November 2, 2017, the corporation has no right to terminate the plan, but may discontinue future accruals of benefits and distribute the benefit in accordance with the terms of the plan, then the grandfathered amount would be the lump sum value of the total benefit (lump sum value) determined as if the corporation had exercised the right to discontinue the future accrual of benefits on November 2, 2017, or, if later, the earliest permissible date the corporation could exercise such right in accordance with the terms of the plan (the freeze date). If, after the freeze date, the plan required the corporation to increase or decrease the lump sum value through the payment date, then any increase to the grandfathered lump sum would also be grandfathered. Notwithstanding the foregoing, the corporation may treat the lump sum value determined as of the freeze date as the grandfathered amount regardless of when the amount is paid and regardless of whether it has been increased or de-

creased prior to payment. For purposes of this paragraph (g)(1)(vi)(C), the lump sum value is determined based on the actuarial methods and assumptions provided in the plan in effect on November 2, 2017, if the assumptions are reasonable, or any reasonable actuarial assumptions if the plan does not provide for applicable actuarial methods and assumptions or the terms of the plan were not reasonable. The determination of the lump sum value may not take into account the likelihood that payments will not be made (or will be reduced) because of the unfunded status of the plan, the risk that the employer, the trustee, or another party will be unwilling or unable to pay, the possibility of future plan amendments, the possibility of a future change in the law, or similar risks or contingencies. If the benefit paid under the plan in effect on November 2, 2017, is paid as a life annuity or other form of benefit that is not a single lump sum payment, the application of the grandfathered amount to the payments of the benefit is determined in accordance with the ordering rule of paragraph (g)(1)(viii) of this section.

(vii) *Grandfathered amount limited to a particular plan or arrangement.* The grandfathered amount under a plan or arrangement applies solely to the amounts paid under that plan or arrangement, so that regardless of whether all of the grandfathered amount is paid to the participant (for example, regardless of whether some or all of the grandfathered amount under the plan is forfeited under the terms of the plan), no portion of that grandfathered amount may be treated as a grandfathered amount under any other separate plan or arrangement in which the employee is a participant.

(viii) *Ordering rule.* If a portion of the amount payable under a plan or arrangement is a grandfathered amount and a portion is subject to this section, and payment under the plan or arrangement is made in a series of payments (including payments as a life annuity), the grandfathered amount is allocated to the first payment of an amount under the plan or arrangement that is otherwise deductible. If the grandfathered amount exceeds the initial payment, the excess is allocated to

the next payment of an amount under the plan or arrangement that is otherwise deductible, and this process is repeated until the entire grandfathered amount has been paid. Notwithstanding the foregoing, for amounts otherwise deductible for taxable years ending before December 20, 2019, the grandfathered amount may be allocated to each payment on a pro rata basis or to the last otherwise deductible payment. If one of these two methods was used for taxable years ending before December 20, 2019, then, for taxable years ending on or after December 20, 2019, the method must be changed to allocate any remaining grandfathered amount to the first payment for the remaining payments (treating as the first payment the first otherwise deductible amount for taxable years ending on or after December 20, 2019).

(2) *Material modifications.* (i) If a written binding contract is modified on or after November 2, 2017, this section (and not § 1.162-27) applies to any payments made after the modification. A material modification occurs when the contract is amended to increase the amount of compensation payable to the employee. If a written binding contract is materially modified, it is treated as a new contract entered into as of the date of the material modification. Thus, amounts received by an employee under the contract before a material modification are not affected, but amounts received subsequent to the material modification are treated as paid pursuant to a new contract, rather than as paid pursuant to a written binding contract in effect on November 2, 2017.

(ii) A modification of the contract that accelerates the payment of compensation is a material modification unless the amount of compensation paid is discounted to reasonably reflect the time value of money. If the contract is modified to defer the payment of compensation, any compensation paid or to be paid that is in excess of the amount that was originally payable to the employee under the contract will not be treated as resulting in a material modification if the additional amount is based on applying to the amount originally payable either a reasonable rate of interest or the rate

of return on a predetermined actual investment as defined in § 31.3121(v)(2)-1(d)(2)(i)(B) of this chapter (whether or not assets associated with the amount originally owed are actually invested therein) such that the amount payable by the employer at the later date will be based on the reasonable rate of interest or the actual rate of return on the predetermined actual investment (including any decrease, as well as any increase, in the value of the investment). For an arrangement under which the grandfathered amounts are subject to increase or decrease based on the performance of a predetermined actual investment, the addition or substitution of a predetermined actual investment or reasonable interest rate as an investment alternative for amounts deferred is not treated as a material modification. However, a modification of a contract to defer payment of a grandfathered amount that results in payment of additional amounts (such as additional earnings) does not necessarily mean that the additional amounts are grandfathered amounts; for rules concerning the determination of grandfathered amounts see paragraph (g) of this section. Notwithstanding the foregoing, if compensation attributable to an option to purchase stock (other than an incentive stock option described in section 422 or a stock option granted under an employee stock purchase plan described in section 423) or a stock appreciation right is grandfathered, an extension of the exercise period that is extended in compliance with § 1.409A-1(b)(5)(v)(C)(I) will not be treated as a material modification and the amount of compensation paid upon the exercise of the stock option or stock appreciation right will be grandfathered.

(iii) The adoption of a supplemental contract or agreement that provides for increased compensation, or the payment of additional compensation, is a material modification of a written binding contract if the facts and circumstances demonstrate that the additional compensation to be paid is based on substantially the same elements or conditions as the compensation that is otherwise paid pursuant to the written binding contract. However, a material

modification of a written binding contract does not include a supplemental payment that is equal to or less than a reasonable cost-of-living increase over the payment made in the preceding year under that written binding contract. In addition, the failure, in whole or in part, to exercise negative discretion under a contract does not result in the material modification of that contract (although the existence of the negative discretion under the contract may impact the initial determination of whether amounts under the contract are grandfathered amounts).

(iv) If a grandfathered amount is subject to a substantial risk of forfeiture (as defined in § 1.409A-1(d)), then a modification of the contract that results in a lapse of the substantial risk of forfeiture is not considered a material modification. Furthermore, for compensation received pursuant to the substantial vesting of restricted property, or the exercise of a stock option or stock appreciation right that does not provide for a deferral of compensation (as defined in § 1.409A-1(b)(5)(i) and (ii)), a modification of a written binding contract in effect on November 2, 2017, that results in a lapse of the substantial risk of forfeiture (as defined § 1.83-3(c)) is not considered a material modification.

(3) *Examples.* The following examples illustrate the provisions of this paragraph (g). For each example, assume for all relevant years that the corporation is a publicly held corporation within the meaning of paragraph (c)(1) of this section and is a calendar year taxpayer, and is not a “smaller reporting company” or “emerging growth company” for purposes of reporting under the Exchange Act. Furthermore, assume that, for each example, if any arrangement is subject to section 409A, then the arrangement complies with section 409A, and that no arrangement is subject to section 457A.

(i) *Example 1 (Multi-year agreement for annual salary)*—(A) *Facts.* On October 2, 2017, Corporation X executed a three-year employment agreement with Employee A for an annual salary of \$2,000,000 beginning on January 1, 2018. Employee A serves as the PFO of Corporation X for the 2017 through 2020 taxable years. The agreement provides

for automatic extensions after the three-year term for additional one-year periods, unless the corporation exercises its option to terminate the agreement within 30 days before the end of the three-year term or, thereafter, within 30 days before each anniversary date. Termination of the employment agreement does not require the termination of Employee A’s employment with Corporation X. Under applicable law, the agreement for annual salary constitutes a written binding contract in effect on November 2, 2017, to pay \$2,000,000 of annual salary to Employee A for three years through December 31, 2020.

(B) *Conclusion.* If this section applies, Employee A is a covered employee for Corporation X’s 2018 through 2020 taxable years. Because the October 2, 2017, employment agreement is a written binding contract to pay Employee A an annual salary of \$2,000,000, this section does not apply (and § 1.162-27 does apply) to the deduction for Employee A’s annual salary. Pursuant to § 1.162-27(c)(2), Employee A is not a covered employee for Corporation X’s 2018 through 2020 taxable years. The deduction for Employee A’s annual salary for the 2018 through 2020 taxable years is not subject to section 162(m)(1). However, the employment agreement is treated as renewed on January 1, 2021, unless it is previously terminated, and the deduction limit of this § 1.162-33 (and not § 1.162-27) will apply to the deduction for any payments made under the employment agreement on or after that date.

(ii) *Example 2 (Agreement for severance based on annual salary and discretionary bonus)*—(A) *Facts.* The facts are the same as in paragraph (g)(3)(i) of this section (*Example 1*), except that the employment agreement also requires Corporation X to pay Employee A severance if Corporation X terminates the employment relationship without cause during the term of the agreement. The amount of severance is equal to the sum of two times Employee A’s annual salary plus two times Employee A’s discretionary bonus (if any) paid within 24 months preceding termination. Under applicable law, the agreement for severance constitutes a written binding contract

in effect on November 2, 2017, to pay \$4,000,000 (two times Employee A's \$2,000,000 annual salary) if Corporation X terminates Employee A's employment without cause during the term of the agreement.

(B) *Conclusion.* If this section applies, Employee A is a covered employee for Corporation X's 2018 through 2020 taxable years. Because the October 2, 2017, employment agreement is a written binding contract to pay Employee A \$4,000,000 if Employee A is terminated without cause prior to December 31, 2020, this section does not apply (and § 1.162-27 does apply) to the deduction for \$4,000,000 of Employee A's severance. Pursuant to § 1.162-27(c)(2), Employee A is not a covered employee for Corporation X's 2018 through 2020 taxable years. The deduction for \$4,000,000 of Employee A's severance is not subject to section 162(m)(1). However, the employment agreement is treated as renewed on January 1, 2021, unless it is previously terminated, and this § 1.162-33 (and not § 1.162-27) will apply to the deduction for any payments made under the employment agreement, including for severance, on or after that date.

(iii) *Example 3 (Effect of discretionary bonus payment on agreement for severance based on annual salary and discretionary bonus)*—(A) *Facts.* The facts are the same as in paragraph (g)(3)(ii) of this section (*Example 2*), except that, on October 31, 2017, Corporation X paid Employee A a discretionary bonus of \$100,000, on May 14, 2018, Corporation X paid Employee A a discretionary bonus of \$600,000, and on April 30, 2019, terminated Employee A's employment without cause. Pursuant to the terms of the employment agreement for severance, on May 1, 2019, Corporation X paid to Employee A a \$5,400,000 severance payment (the sum of two times the \$2,000,000 annual salary, two times the \$100,000 discretionary bonus, and two times the \$600,000 discretionary bonus).

(B) *Conclusion.* If this section applies, Employee A is a covered employee for Corporation X's 2019 taxable year. Because the October 2, 2017, agreement is a written binding contract to pay Employee A \$4,000,000 if Employee A is terminated without cause prior to December 31, 2020, and \$200,000 if Corporation

X terminates Employee A's employment without cause prior to October 31, 2019, this section does not apply (and § 1.162-27 does apply) to the deduction for \$4,200,000 of Employee A's severance payment. The deduction for \$4,200,000 of Employee A's severance payment is not subject to section 162(m)(1). Because the October 2, 2017, agreement is not a written binding contract to pay Employee A's \$600,000 discretionary bonus (since, as of November 2, 2017, Corporation X was not obligated under applicable law to make the bonus payment), the deduction for \$1,200,000 of the \$5,400,000 payment is subject to this section (and not § 1.162-27).

(iv) *Example 4 (Effect of adjustment to annual salary on severance)*—(A) *Facts.* The facts are the same as in paragraph (g)(3)(ii) of this section (*Example 2*), except that the employment agreement provides for discretionary increases in salary and, on January 1, 2019, Corporation X increased Employee A's annual salary from \$2,000,000 to \$2,050,000, an increase that was less than a reasonable, cost-of-living adjustment.

(B) *Conclusion (Annual salary).* If this section applies, Employee A is a covered employee for Corporation X's 2018 through 2020 taxable years. Because the October 2, 2017, agreement is a written binding contract to pay Employee A an annual salary of \$2,000,000, this section does not apply (and § 1.162-27 does apply) to the deduction for Employee A's annual salary unless the change in the salary is a material modification. Even though the \$50,000 increase is paid on the basis of substantially the same elements or conditions as the salary that is otherwise paid under the contract, the \$50,000 increase does not constitute a material modification because it is less than or equal to a reasonable cost-of-living increase to the \$2,000,000 annual salary. Corporation X is required to pay under applicable law as of November 2, 2017. However, the deduction for the \$50,000 increase is subject to this section (and not § 1.162-27).

(C) *Conclusion (Severance payment).* Because the October 2, 2017, agreement is a written binding contract to pay Employee A severance of \$4,000,000, this section would not apply (and § 1.162-27

would apply) to the deduction for this amount of severance unless the change in the employment agreement is a material modification. Even though the \$100,000 increase in severance (two times the \$50,000 increase in salary) would be paid on the basis of substantially the same elements or conditions as the severance that would otherwise be paid pursuant to the written binding contract, the \$50,000 increase in salary on which it is based does not constitute a material modification of the written binding contract since it is less than or equal to a reasonable cost-of-living increase. However, the deduction for the \$100,000 increase in severance is subject to this section (and not § 1.162-27).

(v) *Example 5 (Effect of adjustment to annual salary on severance)*—(A) *Facts.* The facts are the same as in paragraph (g)(3)(iv) of this section (*Example 4*), except that, on January 1, 2019, Corporation X increased Employee A's annual salary from \$2,000,000 to \$3,000,000, an increase that exceeds a reasonable, cost-of-living adjustment.

(B) *Conclusion (Annual salary).* If this section applies, Employee A is a covered employee for Corporation X's 2018 through 2020 taxable years. Because the October 2, 2017, agreement is a written binding contract to pay Employee A an annual salary of \$2,000,000, this section does not apply (and § 1.162-27 does apply) to the deduction for Employee A's annual salary unless the change in the employment agreement is a material modification. The \$1,000,000 increase is a material modification of the written binding contract because the additional compensation is paid on the basis of substantially the same elements or conditions as the compensation that is otherwise paid pursuant to the written binding contract, and it exceeds a reasonable, annual cost-of-living increase from the \$2,000,000 annual salary for 2018 that Corporation X is required to pay under applicable law as of November 2, 2017. Because the written binding contract is materially modified as of January 1, 2019, the deduction for all annual salary paid to Employee A in 2019 and thereafter is subject to this section (and not § 1.162-27).

(C) *Conclusion (Severance payment).* Because the October 2, 2017, agreement

is a written binding contract to pay Employee A severance of \$4,000,000, this section would not apply (and § 1.162-27 would apply) to the deduction for this amount of severance unless the change in the employment agreement is a material modification. The additional \$2,000,000 severance payment (two times the \$1,000,000 increase in annual salary) constitutes a material modification of the written binding contract because the \$1,000,000 increase in salary on which it is based constitutes a material modification of the written binding contract since it exceeds a reasonable cost-of-living increase from the \$2,000,000 annual salary for 2018 that Corporation X is required to pay under applicable law as of November 2, 2017. Because the agreement is materially modified as of January 1, 2019, the deduction for any amount of severance paid to Employee A under the agreement is subject to this section (and not § 1.162-27).

(vi) *Example 6 (Elective deferral of an amount that corporation was obligated to pay under applicable law)*—(A) *Facts.* The facts are the same as in paragraph (g)(3)(i) of this section (*Example 1*), except that, on December 15, 2018, Employee A makes a deferral election under a nonqualified deferred compensation (NQDC) plan to defer \$200,000 of annual salary earned and payable in 2019. Pursuant to the NQDC plan, the \$200,000, including earnings, is to be paid in a lump sum on the date six months following Employee A's separation from service. The earnings are based on the Standard & Poor's 500 Index. Under applicable law, pursuant to the written binding contract in effect on November 2, 2017, (and absent the deferral agreement) Corporation X would have been obligated to pay \$200,000 to Employee A in 2019, but is not obligated to pay any earnings on the \$200,000 deferred pursuant to the deferral election Employee A makes on December 15, 2018. Employee A separates from service on December 15, 2020. On June 15, 2021, Corporation X pays \$250,000 (the deferred \$200,000 of salary plus \$50,000 in earnings).

(B) *Conclusion.* If this section applies, Employee A is a covered employee for Corporation X's 2021 taxable year. Employee A's NQDC plan is not a material

modification of the written binding contract in effect on November 2, 2017, because the earnings to be paid under the NQDC plan are based on a predetermined actual investment (as defined in § 31.3121(v)(2)-1(d)(2)(i)(B) of this chapter). The deduction for the \$50,000 of earnings to be paid that exceed the amount originally payable to Employee A under the written binding contract (\$200,000 of salary) are subject to this section (and not § 1.162-27). This section does not apply (and § 1.162-27 does apply) to the deduction for the \$200,000 portion of the \$250,000 payment that Corporation X was obligated under applicable law to pay as of November 2, 2017. Pursuant to § 1.162-27(c)(2), Employee A is not a covered employee for Corporation X's 2021 taxable year; thus, the deduction for the \$200,000 payment is not subject to section 162(m)(1).

(vii) *Example 7 (Compensation subject to discretionary recovery by corporation)*—(A) *Facts.* Employee B serves as the PFO of Corporation Z for its 2017 through 2019 taxable years. On October 2, 2017, Corporation Z executed a bonus agreement with Employee B that requires Corporation Z to pay Employee B a performance bonus of \$3,000,000 on May 1, 2019, if Corporation Z's net earnings increase by at least 10% for its 2018 taxable year based on the financial statements filed with the SEC. The agreement does not permit Corporation Z to reduce the amount of the bonus payment for any reason if the Corporation Z attains the net earnings performance target. However, the agreement provides that, if the bonus is paid and subsequently the financial statements are restated to show that the net earnings did not increase by at least 10%, then Corporation Z may, in its discretion, recover the \$3,000,000 from Employee B within six months of the restatement. Under applicable law, the agreement for the performance bonus constitutes a written binding contract in effect on November 2, 2017, to pay \$3,000,000 to Employee B if Corporation Z's net earnings increase by at least 10% for its 2018 taxable year based on the financial statements filed with the SEC. On May 1, 2019, Corporation Z pays \$3,000,000 to Employee B be-

cause its net earnings increased by at least 10% of its 2018 taxable year.

(B) *Conclusion.* If this section applies, Employee B is a covered employee for Corporation Z's 2019 taxable year. Because the October 2, 2017, agreement is a written binding contract to pay Employee B \$3,000,000 if the applicable conditions are met, this section does not apply (and § 1.162-27 does apply) to the deduction for the \$3,000,000 regardless of whether Corporation Z's financial statements are restated to show that its net earnings did not increase by at least 10%, and regardless of whether Corporation Z exercises its discretion to recover the bonus if Corporation Z's financial statements are restated to show that its net earnings did not increase by at least 10%.

(viii) *Example 8 (Performance bonus plan with negative discretion)*—(A) *Facts.* Employee E serves as the PEO of Corporation V for the 2017 and 2018 taxable years. On February 1, 2017, Corporation V establishes a bonus plan, under which Employee E will receive a cash bonus of \$1,500,000 if a specified performance goal is satisfied. The compensation committee retains the right, if the performance goal is met, to reduce the bonus payment to no less than \$400,000 if, in its judgment, other subjective factors warrant a reduction. On November 2, 2017, under applicable law, which takes into account the employer's ability to exercise negative discretion, the bonus plan established on February 1, 2017, constitutes a written binding contract to pay \$400,000. On March 1, 2018, the compensation committee certifies that the performance goal was satisfied, but exercises its discretion to reduce the award to \$500,000. On April 1, 2018, Corporation V pays \$500,000 to Employee E. The payment satisfies the requirements of § 1.162-27(e)(2) through (5) as qualified performance-based compensation.

(B) *Conclusion.* If this section applies, Employee E is a covered employee for Corporation V's 2018 taxable year. Because the February 1, 2017, plan is a written binding contract to pay Employee E \$400,000 if the performance goal is satisfied, this section does not apply (and § 1.162-27 does apply) to the deduction for the \$400,000 portion of the

\$500,000 payment. Furthermore, pursuant to paragraph (g)(2)(iii) of this section, the failure of the compensation committee to exercise its discretion to reduce the award further to \$400,000, instead of \$500,000, does not result in a material modification of the contract. Pursuant to § 1.162-27(e)(1), the deduction for the \$400,000 payment is not subject to section 162(m)(1) because the payment satisfies the requirements of § 1.162-27(e)(2) through (5) as qualified performance-based compensation. The deduction for the remaining \$100,000 of the \$500,000 payment is subject to this section (and not § 1.162-27) and therefore the status as qualified performance-based compensation is irrelevant to the application of section 162(m)(1) to this remaining amount.

(ix) *Example 9 (Equity-based compensation with underlying grants made prior to November 2, 2017)*—(A) *Facts*. On January 2, 2017, Corporation T executed a 4-year employment agreement with Employee G to serve as its PEO, and Employee G serves as the PEO for the four-year term. Pursuant to the employment agreement, on January 2, 2017, Corporation T executed a grant agreement and granted to Employee G nonqualified stock options to purchase 1,000 shares of Corporation T stock, stock appreciation rights (SARs) on 1,000 shares, and 1,000 shares of Corporation T restricted stock. On the date of grant, the stock options had no readily ascertainable fair market value as defined in § 1.83-7(b), and neither the stock options nor the SARs provided for a deferral of compensation under § 1.409A-1(b)(5)(i)(A) and (B). The stock options, SARs, and shares of restricted stock are subject to a substantial risk of forfeiture and all substantially vest on January 2, 2020. Employee G may exercise the stock options and the SARs at any time from January 2, 2020, through January 2, 2027. On January 2, 2020, Employee G exercises the stock options and the SARs, and the 1,000 shares of restricted stock become substantially vested (as defined in § 1.83-3(b)). The grant agreement pursuant to which grants of the stock options, SARs, and shares of restricted stock are made constitutes a written binding contract under applicable law. The compensation attributable to the stock

options and the SARs satisfy the requirements of § 1.162-27(e)(2) through (5) as qualified performance-based compensation.

(B) *Conclusion*. If this section applies, Employee G is a covered employee for Corporation T's 2020 taxable year. Because the January 2, 2017, grant agreement constitutes a written binding contract, this section does not apply (and § 1.162-27 does apply) to the deduction for compensation received pursuant to the exercise of the stock options and the SARs, or the restricted stock becoming substantially vested (as defined in § 1.83-3(b)). Pursuant to § 1.162-27(e)(1), the deduction attributable to the stock options and the SARs is not subject to section 162(m)(1) because the compensation satisfies the requirements of § 1.162-27(e)(2) through (5) as qualified performance-based compensation. However, the deduction attributable to the restricted stock is subject to section 162(m)(1) because the compensation does not satisfy the requirements of § 1.162-27(e)(2) through (5) as qualified performance-based compensation.

(x) *Example 10 (Plan in which an employee is not a participant on November 2, 2017)*—(A) *Facts*. On October 2, 2017, Employee H executes an employment agreement with Corporation Y to serve as its PFO, and begins employment with Corporation Y. The employment agreement, which is a written binding contract under applicable law, provides that if Employee H continues in his position through April 1, 2018, Employee H will become a participant in the NQDC plan of Corporation Y and that Employee H's benefit accumulated on that date will be \$3,000,000. On April 1, 2021, Employee H receives a payment of \$4,500,000 (the increase from \$3,000,000 to \$4,500,000 is not a result of a material modification as defined in paragraph (g)(2) of this section), which is the entire benefit accumulated under the plan through the date of payment.

(B) *Conclusion*. If this section applies, Employee H is a covered employee for Corporation Y's 2021 taxable year. Even though Employee H was not eligible to participate in the NQDC plan on November 2, 2017, Employee H had the right to participate in the plan under a written binding contract as of that

date. Because the amount required to be paid pursuant to the written binding contract is \$3,000,000, this section does not apply (and § 1.162-27 does apply) to the deduction for the \$3,000,000 portion of the \$4,500,000. Pursuant to § 1.162-27(c)(2), Employee H is not a covered employee of Corporation Y for the 2021 taxable year. The deduction for the \$3,000,000 portion of the \$4,500,000 is not subject to section 162(m)(1). The deduction for the remaining \$1,500,000 portion of the payment is subject to this section (and not § 1.162-27).

(xi) *Example 11 (Material modification of annual salary)*—(A) *Facts*. On January 2, 2017, Corporation R executed a 5-year employment agreement with Employee I to serve as Corporation R's PFO, providing for an annual salary of \$1,800,000. The agreement constitutes a written binding contract under applicable law. In 2017 and 2018, Employee I receives the salary of \$1,800,000 per year. In 2019, Corporation R increases Employee I's salary by \$40,000, which is less than a reasonable cost-of-living increase from \$1,800,000. On January 1, 2020, Corporation R increases Employee I's salary to \$2,400,000. The \$560,000 increase exceeds a reasonable, annual cost-of-living increase from \$1,840,000.

(B) *Conclusion (\$1,840,000 Payment in 2019)*. If this section applies, Employee I is a covered employee for Corporation R's 2018 through 2020 taxable years. Because the January 1, 2017, agreement is a written binding contract to pay Employee I an annual salary of \$1,800,000, this section does not apply (and § 1.162-27 does apply) to the deduction for Employee I's annual salary unless the change in the employment agreement is a material modification. Pursuant to § 1.162-27(c)(2), Employee I is not a covered employee of Corporation R for the 2019 taxable year, so the deduction for the \$1,800,000 salary is not subject to section 162(m)(1). Even though the \$40,000 increase is made on the basis of substantially the same elements or conditions as the salary, the \$40,000 increase does not constitute a material modification of the written binding contract because the \$40,000 is less than or equal to a reasonable cost-of-living increase. However, the deduction for the \$40,000 increase is subject to this section (and not § 1.162-27).

(C) *Conclusion (Salary increase to \$2,400,000 in 2020)*. The \$560,000 increase in salary in 2020 is a material modification of the written binding contract because the additional compensation is paid on the basis of substantially the same elements or conditions as the salary, and it exceeds a reasonable, annual cost-of-living increase from \$1,840,000. Because the written binding contract is materially modified as of January 1, 2020, the deduction for all salary paid to Employee I on and after January 1, 2020, is subject to this section (and not § 1.162-27).

(xii) *Example 12 (Additional payment not considered a material modification)*—(A) *Facts*. The facts are the same as in paragraph (g)(3)(xi) of this section (*Example 11*), except that instead of an increase in salary, in 2020 Employee I receives a restricted stock grant subject to Employee I's continued employment for the balance of the contract.

(B) *Conclusion*. The restricted stock grant is not a material modification of the written binding contract because any additional compensation paid to Employee I under the grant is not paid on the basis of substantially the same elements and conditions as Employee I's salary. However, the deduction attributable to the restricted stock grant is subject to this section (and not § 1.162-27).

(h) *Effective/Applicability dates*—(1) *Effective date*. This section is effective on December 30, 2020.

(2) *Applicability dates*—(i) *General applicability date*. Except as otherwise provided in paragraph (h)(2)(ii) of this section, this section applies to taxable years beginning on or after December 30, 2020. Taxpayers may choose to apply this section for taxable years beginning after December 31, 2017, and before December 30, 2020 provided the taxpayer applies this section in its entirety and in a consistent manner.

(ii) *Special applicability dates*—(A) *Definition of covered employee*. The definition of covered employee in paragraph (c)(2)(i) of this section applies to taxable years ending on or after September 10, 2018. However, for a corporation whose fiscal year and taxable year do not end on the same date, the rule in paragraph (c)(2)(i)(B) of this section requiring the determination of the

three most highly compensated executive officers to be made pursuant to the rules under the Exchange Act applies to taxable years ending on or after December 20, 2019.

(B) *Definition of predecessor of a publicly held corporation*—(1) *Publicly held corporations that become privately held.* The definition of predecessor of a publicly held corporation in paragraph (c)(2)(ii)(A) of this section applies to any publicly held corporation that becomes a privately held corporation for a taxable year beginning after December 31, 2017, and, subsequently, again becomes a publicly held corporation on or after December 30, 2020. The definition of predecessor of a publicly held corporation in paragraph (c)(2)(ii)(A) of this section does not apply to any publicly held corporation that became a privately held corporation for a taxable year beginning before January 1, 2018, with respect to the earlier period as a publicly held corporation; or a publicly held corporation that becomes a privately held corporation for a taxable year beginning after December 31, 2017, and, subsequently, again becomes a publicly held corporation before December 30, 2020.

(2) *Corporate transactions.* The definition of predecessor of a publicly held corporation in paragraphs (c)(2)(ii)(B) through (H) of this section applies to corporate transactions that occur (as provided in the transaction timing rule of paragraph (c)(2)(ii)(I) of this section) on or after December 30, 2020. With respect to any of the following corporate transactions occurring after December 20, 2019, and before December 30, 2020, excluding target corporations from the definition of the term “predecessor” is not a reasonable good faith interpretation of the statute:

(i) A publicly held target corporation the stock or assets of which are acquired by another publicly held corporation in a transaction to which section 381(a) applies.

(ii) A publicly held target corporation, at least 80% of the total voting power of the stock of which, and at least 80% of the total value of the stock of which, are acquired by a publicly held acquiring corporation (including an affiliated group).

(C) *Definition of compensation.* The definition of compensation provided in paragraph (c)(3)(ii) of this section (relating to distributive share of partnership deductions for compensation paid) applies to any deduction for compensation that is paid after December 18, 2020. The definition of compensation in paragraph (c)(3)(ii) does not apply to compensation paid pursuant to a written binding contract that is in effect on December 20, 2019, and that is not materially modified after that date. For purposes of this paragraph (h)(3), written binding contract and material modification have the same meanings as provided in paragraphs (g)(1) and (2) of this section.

(D) *Corporations that become publicly held.* The rule in paragraph (d) of this section (providing that the deduction limitation of paragraph (b) of this section applies to a deduction for any compensation that is otherwise deductible for the taxable year ending on or after the date that a privately held corporation becomes a publicly held corporation) applies to corporations that become publicly held after December 20, 2019. A privately held corporation that becomes a publicly held corporation on or before December 20, 2019, may rely on the transition rules provided in § 1.162-27(f)(1) until the earliest of the events provided in § 1.162-27(f)(2). A subsidiary that is a member of an affiliated group (as defined in § 1.162-27(c)(1)(ii)) may rely on transition relief provided in § 1.162-27(f)(4) if it becomes a separate publicly held corporation (whether in a spin-off transaction or otherwise) on or before December 20, 2019.

(E) *Transition rules.* Except for the transition rules in paragraphs (g)(1)(v) through (vii) of this section, the transition rules in paragraphs (g)(1) and (2) of this section (providing that this section does not apply to compensation payable under a written binding contract which was in effect on November 2, 2017, and which is not modified in any material respect on or after such date) apply to taxable years ending on or after September 10, 2018.

[T.D. 9932, 85 FR 86492, Dec. 30, 2020]

§ 1.162(k)-1 Disallowance of deduction for reacquisition payments.

(a) *In general.* Except as provided in paragraph (b) of this section, no deduction otherwise allowable is allowed under Chapter 1 of the Internal Revenue Code for any amount paid or incurred by a corporation in connection with the reacquisition of its stock or the stock of any related person (as defined in section 465(b)(3)(C)). Amounts paid or incurred in connection with the reacquisition of stock include amounts paid by a corporation to reacquire its stock from an ESOP that are used in a manner described in section 404(k)(2)(A). See § 1.404(k)-3.

(b) *Exceptions.* Paragraph (a) of this section does not apply to any—

(1) Deduction allowable under section 163 (relating to interest);

(2) Deduction for amounts that are properly allocable to indebtedness and amortized over the term of such indebtedness;

(3) Deduction for dividends paid (within the meaning of section 561); or

(4) Amount paid or incurred in connection with the redemption of any stock in a regulated investment company that issues only stock which is redeemable upon the demand of the shareholder.

(c) *Effective date.* This section applies with respect to amounts paid or incurred on or after August 30, 2006.

[T.D. 9282, 71 FR 51473, Aug. 30, 2006]

§ 1.162(l)-0 Table of Contents.

This section lists the table of contents for § 1.162(l)-1.

§ 1.162(l)-1 Deduction for health insurance costs of self-employed individuals.

(a) Coordination of section 162(l) deduction for taxpayers subject to section 36B.

(1) In general.

(2) Specified premiums.

(3) Specified premiums not paid through advance credit payments.

(b) Additional guidance.

(c) Applicability date.

[T.D. 9822, 82 FR 34610, July 26, 2017]

§ 1.162(l)-1 Deduction for health insurance costs of self-employed individuals.

(a) *Coordination of section 162(l) deduction for taxpayers subject to section 36B—*

(1) *In general.* A taxpayer is allowed a deduction under section 162(l) for specified premiums, as defined in paragraph (a)(2) of this section, not to exceed an amount equal to the lesser of—

(i) The specified premiums less the premium tax credit attributable to the specified premiums; and

(ii) The sum of the specified premiums not paid through advance credit payments, as described in paragraph (a)(3) of this section, and the additional tax (if any) imposed under section 36B(f)(2)(A) and § 1.36B-4(a)(1) with respect to the specified premiums after application of the limitation on additional tax in section 36B(f)(2)(B) and § 1.36B-4(a)(3).

(2) *Specified premiums.* For purposes of paragraph (a)(1) of this section, specified premiums means premiums for a specified qualified health plan or plans for which the taxpayer may otherwise claim a deduction under section 162(l). For purposes of this paragraph (a)(2), a specified qualified health plan is a qualified health plan, as defined in § 1.36B-1(c), covering the taxpayer, the taxpayer's spouse, or a dependent of the taxpayer (enrolled family member) for a month that is a coverage month within the meaning of § 1.36B-3(c) for the enrolled family member. If a specified qualified health plan covers individuals other than enrolled family members, the specified premiums include only the portion of the premiums for the specified qualified health plan that is allocable to the enrolled family members under rules similar to § 1.36B-3(h), which provides rules for determining the amount under § 1.36B-3(d)(1) when two families are enrolled in the same qualified health plan.

(3) *Specified premiums not paid through advance credit payments.* For purposes of paragraph (a)(1)(ii) of this section, specified premiums not paid through advance credit payments equal the amount of the specified premiums minus the advance credit payments attributable to the specified premiums.

(b) *Additional guidance.* The Secretary may provide by publication in the FEDERAL REGISTER or in the Internal Revenue Bulletin (see § 601.601(d)(2) of this chapter) additional guidance on coordinating the deduction allowed under

section 162(l) and the credit provided under section 36B.

(c) *Applicability date.* This section applies for taxable years beginning after December 31, 2013.

[T.D. 9822, 82 FR 34610, July 26, 2017]

§ 1.163-1 Interest deduction in general.

(a) Except as otherwise provided in sections 264 to 267, inclusive, interest paid or accrued within the taxable year on indebtedness shall be allowed as a deduction in computing taxable income. For rules relating to interest on certain deferred payments, see section 483 and the regulations thereunder.

(b) Interest paid by the taxpayer on a mortgage upon real estate of which he is the legal or equitable owner, even though the taxpayer is not directly liable upon the bond or note secured by such mortgage, may be deducted as interest on his indebtedness. Pursuant to the provisions of section 163(c), any annual or periodic rental payment made by a taxpayer on or after January 1, 1962, under a redeemable ground rent, as defined in section 1055(c) and paragraph (b) of § 1.1055-1, is required to be treated as interest on an indebtedness secured by a mortgage and, accordingly, may be deducted by the taxpayer as interest on his indebtedness. Section 163(c) has no application in respect of any annual or periodic rental payment made prior to January 1, 1962, or pursuant to an arrangement which does not constitute a "redeemable ground rent" as defined in section 1055(c) and paragraph (b) of § 1.1055-1. Accordingly, annual or periodic payments of Pennsylvania ground rents made before, on, or after January 1, 1962, are deductible as interest if the ground rent is redeemable. An annual or periodic rental payment under a Maryland redeemable ground rent made prior to January 1, 1962, is deductible in accordance with the rules and regulations applicable at the time such payment was made. Any annual or periodic rental payment under a Maryland redeemable ground rent made by the taxpayer on or after January 1, 1962, is, pursuant to the provisions of section 163(c), treated as interest on an indebtedness secured by a mortgage and, accordingly, is deductible by the taxpayer as interest on his indebtedness. In any case where the

ground rent is irredeemable, any annual or periodic ground rent payment shall be treated as rent and shall be deductible only to the extent that the payment constitutes a proper business expense. Amounts paid in redemption of a ground rent shall not be treated as interest. For treatment of redeemable ground rents and real property held subject to liabilities under redeemable ground rents, see section 1055 and the regulations thereunder.

(c) Interest calculated for costkeeping or other purposes on account of capital or surplus invested in the business which does not represent a charge arising under an interest-bearing obligation, is not an allowable deduction from gross income. Interest paid by a corporation on scrip dividends is an allowable deduction. So-called interest on preferred stock, which is in reality a dividend thereon, cannot be deducted in computing taxable income. (See, however, section 583.) In the case of banks and loan or trust companies, interest paid within the year on deposits, such as interest paid on moneys received for investment and secured by interest-bearing certificates of indebtedness issued by such bank or loan or trust company, may be deducted from gross income.

(d) To the extent of assistance payments made in respect of an indebtedness of the taxpayer during the taxable year by the Department of Housing and Urban Development under section 235 of the National Housing Act (12 U.S.C. 1715z), as amended, no deduction shall be allowed under section 163 and this section for interest paid or accrued with respect to such indebtedness. However, such payments shall not affect the amount of any deduction under any section of the Code other than section 163. The provisions of this paragraph shall apply to taxable years beginning after December 31, 1974.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6821, 30 FR 6216, May 4, 1965; T.D. 6873, 31 FR 941, Jan. 25, 1966; T.D. 7408, 41 FR 9547, Mar. 5, 1976]

§ 1.163-2 Installment purchases where interest charge is not separately stated.

(a) *In general.* (1) Whenever there is a contract with a seller for the purchase

§ 1.163-2

26 CFR Ch. I (4-1-22 Edition)

of personal property providing for payment of part or all of the purchase price in installments and there is a separately stated carrying charge (including a finance charge, service charge, and the like) but the actual interest charge cannot be ascertained, a portion of the payments made during the taxable year under the contract shall be treated as interest and is deductible under section 163 and this section. Section 163(b) contains a formula, described in paragraph (b) of this section, in accordance with which the amount of interest deductible in the taxable year must be computed. This formula is designed to operate automatically in the case of any installment purchase, without regard to whether payments under the contract are made when due or are in default. For applicable limitations when an obligation to pay is terminated, see paragraph (c) of this section.

(2) Whenever there is a contract with an educational institution for the purchase of educational services providing for payment of part or all of the purchase price in installments and there is a separately stated carrying charge (including a finance charge, service charge, and the like) but the actual interest charge cannot be ascertained, a portion of the payments made during the taxable year under the contract shall be treated as interest and is deductible under section 163 and this section. See paragraphs (b) and (c) of this section for the applicable computation and limitations rules. For purposes of section 163(b) and this section, the term “educational services” means any service (including lodging) which is purchased from an educational institution (as defined in section 151(e)(4) and paragraph (c) of § 1.151-3) and which is provided for a student of such institution.

(3) Section 163(b) and this section do not apply to a contract for the loan of money, even if the loan is to be repaid in installments and even if the borrowed amount is used to purchase personal property or educational services. In cases to which the preceding sentence applies, the portion of the installment payment which constitutes interest (as distinguished from payments of principal and charges such as

payments for credit life insurance) is deductible under section 163(a) and § 1.163-1.

(b) *Computation.* The portion of any such payments to be treated as interest shall be equal to 6 percent of the average unpaid balance under the contract during the taxable year. For purposes of this computation, the average unpaid balance under the contract is the sum of the unpaid balance outstanding on the first day of each month beginning during the taxable year, divided by 12.

(c) *Limitations.* The amount treated as interest under section 163(b) and this section for any taxable year shall not exceed the amount of the payments made under the contract during the taxable year nor the aggregate carrying charges properly attributable to each contract for such taxable year. In computing the amount to be treated as interest if the obligation to pay is terminated as, for example, in the case of a repossession of the property, the unpaid balance on the first day of the month during which the obligation is terminated shall be zero.

(d) *Illustrations.* The provisions of this section may be illustrated by the following examples:

Example 1. On January 20, 1955, A purchased a television set for \$400, including a stated carrying charge of \$25. The down payment was \$50, and the balance was paid in 14 monthly installments of \$25 each, on the 20th day of each month commencing with February. Assuming that A is a cash method, calendar year taxpayer and that no other installment purchases were made, the amount to be treated as interest in 1955 is \$12.38, computed as follows:

YEAR 1955	
First day of	Unpaid balance outstanding
January	0
February	\$350
March	325
April	300
May	275
June	250
July	225
August	200
September	175
October	150
November	125
December	100
	2,475

Internal Revenue Service, Treasury

§ 1.163-2

Sum of unpaid balances $\$2,475 \div 12 = \$206.25$; 6 percent thereof = $\$12.38$.

Example 2. On November 20, 1955, B purchased a furniture set for \$1,250, including a stated carrying charge of \$48. The down payment was \$50 and the balance was payable in 12 monthly installments of \$100 each, on the first day of each month commencing with December 1955. Assume that B is a cash method, calendar year taxpayer and that no other installment purchases were made. Assume further that B made the first payment when due, but made only one other payment on June 1, 1956. The amount to be treated as interest in 1955 is \$4, and the amount to be treated as interest in 1956 is \$33, computed as follows:

YEAR 1955

First day of	Unpaid balance out-standing
December	\$1,200

Sum of unpaid balances $\$1,200 \div 12 = \$100$; 6 percent thereof = \$6.

Carrying charges attributable to 1955 = \$4.

YEAR 1956

First day of	Unpaid balance out-standing
January	\$1,100
February	1,000
March	900
April	800
May	700
June	600
July	500
August	400
September	300
October	200
November	100
	6,600

Sum of unpaid balances $\$6,600 \div 12 = \$550$; 6 percent thereof = \$33.

Carrying charges attributable to 1956 = \$44 ($\$4 \times 11$).

Example 3. Assume the same facts as in example (2), except that the furniture was repossessed and B's obligation to pay terminated as of July 15, 1956. The amount to be treated as interest in 1955 is \$4, computed as in example (2) above. The amount to be treated as interest in 1956 is \$25.50, computed as follows:

YEAR 1956

First day of	Unpaid balance out-standing
January	\$1,100
February	1,000
March	900
April	800
May	700
June	600
July-November	0
	5,100

Sum of unpaid balances $\$5,100 \div 12 = \$425.6$ percent thereof = \$25.50.

Carrying charges attributable to 1956 = \$44 ($\$4 \times 11$).

Example 4. (i) On September 15, 1968, C registered at X University for the 1968-69 academic year. C entered into an agreement with the X University for the purchase during such academic year of educational services (including lodging and tuition) for a total fee of \$1,000, including a separately stated carrying charge of \$50. Under the terms of the agreement, an initial payment of \$200 was to be made by C on September 15, 1968, and the balance was to be paid in 8 monthly installments of \$100 each, on the 15th day of each month commencing with October 1968. C made all of the required 1968 payments. Assuming that C is a cash method, calendar year taxpayer and that no other installment purchases of services or property were made, the amount to be treated as interest in 1968 is \$10.50, computed as follows:

YEAR 1968

First day of	Unpaid balance out-standing
January-September	0
October	\$800
November	700
December	600
Total	2,100

The sum of unpaid balances (\$2,100) divided by 12 is \$175; 6 percent thereof is \$10.50. The carrying charges attributable to 1968 are \$18.75 (i.e., the total carrying charges (\$50), divided by the total number of payments (8), multiplied by the number of payments made in 1968 (3)). Since the amount to be treated as interest in 1968 (\$10.50) does not exceed the carrying charges attributable to 1968 (\$18.75), the limitation set forth in paragraph (c) of this section is not applicable.

(ii) The result in this example would be the same even if the X University assigned the agreement to a bank or other financial institution and C made his payments directly to the bank or other financial institution.

Example 5. On September 15, 1968, D registered at Y University for the 1968-69 academic year. The tuition for such year was \$1,500. In order to pay his tuition, D borrowed \$1,500 from the M Corporation, a lending institution, and remitted that sum to the Y University. The loan agreement between M Corporation and D provided that D was to repay the loan, plus a service charge, in 10 equal monthly installments, on the first day of each month commencing with October 1968. The service charge consisted of interest and the cost of credit life insurance on D's life. Since section 163(b) and this section do not apply to a contract for the loan of money, D is not entitled to compute his interest deduction with respect to his loan from M Corporation under such sections. D may deduct that portion of each installment payment which constitutes interest (as distinguished from payments of principal and the charge for credit life insurance) under section 163(a) and § 1.163-1, provided that the amount of such interest can be ascertained.

(e) *Effective date.* Except in the case of payments made under a contract for educational services, the rule provided in section 163(b) and this section applies to payments made during taxable years beginning after December 31, 1953, and ending after August 16, 1954, regardless of when the contract of sale was made. In the case of payments made under a contract for educational services, the rule provided in section 163(b) and this section applies to payments made during taxable years beginning after December 31, 1963, regardless of when the contract for educational services was made.

[T.D. 6500, 25 FR 11402, Nov. 26, 1960, as amended by T.D. 6991, 34 FR 742, Jan. 17, 1969]

§ 1.163-3 Deduction for discount on bond issued on or before May 27, 1969.

(a) *Discount upon issuance.* (1) If bonds are issued by a corporation at a discount, the net amount of such discount is deductible and should be prorated or amortized over the life of the bonds. For purposes of this section, the amortizable bond discount equals the excess of the amount payable at maturity (or, in the case of a callable bond, at the earlier call date) over the issue price of the bond (as defined in paragraph (b)(2) of § 1.1232-3).

(2) In the case of a bond issued by a corporation after December 31, 1954, as part of an investment unit consisting

of an obligation and an option, the issue price of the bond is determined by allocating the amount received for the investment unit to the individual elements of the unit in the manner set forth in subdivision (ii)(a) of § 1.1232-3(b)(2). Discount with respect to bonds issued by a corporation as part of investment units consisting of obligations and options after December 31, 1954, and before Dec. 24, 1968—

(i) Increased by any amount treated as bond premium which has been included in gross income with respect to such bonds prior to Dec. 24, 1968, or

(ii) Decreased by any amount which has been deducted by the issuer as discount attributable to such bonds prior to Dec. 24, 1968, and

(iii) Decreased by any amount which has been deducted by the issuer prior to Dec. 24, 1968 upon the exercise or sale by investors of options issued in investment units with such bonds,

should be amortized, starting with the first taxable year ending on or after Dec. 24, 1968 over the remaining life of such bonds.

(b) *Examples.* The rules in paragraph (a) of this section are illustrated by the following examples:

Example 1. M Corporation, on January 1, 1960, the beginning of its taxable year issued for \$95,000, 3 percent bonds, maturing 10 years from the date of issue, with a stated redemption price at maturity of \$100,000. M Corporation should treat \$5,000 (\$100,000-\$95,000) as the total amount to be amortized over the life of the bonds.

Example 2. Assume the same facts as example (1), except that the bonds are convertible into common stock of M Corporation. Since the issue price of the bonds includes any amount attributable to the conversion privilege, the result is the same as in example (1).

Example 3. Assume the same facts as example (1), except that the bonds are issued as part of an investment unit consisting of an obligation and an option. Assume further that the issue price of the bonds as determined under the rules of allocation set forth in subdivision (ii)(a) of § 1.1232-3(b)(2) is \$94,000. Accordingly, M Corporation should treat \$6,000 (\$100,000-\$94,000) as the total amount to be amortized over the life of the bonds.

Example 4. Assume in example (3), that prior to Dec. 24, 1968, M Corporation had only treated \$5,000 as the bond discount to be amortized and deducted only \$4,000 of this amount. Starting with the first taxable year

ending on or after Dec. 24, 1968, M Corporation should amortize \$2,000 (\$6,000 discount, less \$4,000 previously deducted) over the remaining life of the bonds.

Example 5. N Corporation, on January 1, 1956, for a consideration of \$102,000, issued 20-year bonds in the face amount of \$100,000, together with options to purchase stock of N Corporation. The issue price of the bonds as determined under the rules of allocation set forth in subdivision (ii)(a) of § 1.1232-3(b)(2) is \$99,000. Until Dec. 24, 1968, N Corporation has treated as bond premium, \$2,000, representing the excess of the consideration received for the bond-option investment units over the maturity value of the bonds, and has accordingly prorate and included in income \$1,200 of such amount. Starting with the first taxable year beginning on or after Dec. 24, 1968, N Corporation may amortize as a deduction over the remaining life of the bonds the amount of \$2,200 (\$1,000 discount, plus \$1,200 previously included in income).

Example 6. O Corporation, on January 1, 1956, for a consideration of \$100,000, issued 20-year bonds with a \$100,000 face value, together with options to purchase stock of O Corporation, which could be exercised at any time up to 5 years from the date of issue. The issue price of the bonds as determined under the rules of allocation set forth in subdivision (ii)(a) of § 1.1232-3(b)(2) is \$98,000. O Corporation, upon the exercise of the options prior to Dec. 24, 1968, had deducted from income their fair market value at the time of exercise, which is assumed for purposes of this example to have been \$3,000. Even though the bonds are considered to have been issued at a discount under paragraph (a)(1) of this section, O Corporation would have no deduction over the remaining life of the bonds, inasmuch as O Corporation, in computing the amount of such deduction, is required under paragraph (a)(2)(iii) of this section to reduce the amount which would otherwise be treated as bond discount, \$2,000 (\$100,000-\$98,000), by the amount deducted from income upon the exercise of the options, in this case, \$3,000.

(c) *Deduction upon repurchase.* (1) Except as provided in subparagraphs (2) and (3) of this paragraph, if bonds are issued by a corporation and are subsequently repurchased by the corporation at a price in excess of the issue price plus any amount of discount deducted prior to repurchase, or (in the case of bonds issued subsequent to Feb. 28, 1913) minus any amount of premium returned as income prior to repurchase, the excess of the purchase price over the issue price adjusted for amortized premium or discount is a deductible expense for the taxable year.

(2) In the case of a convertible bond (except a bond which the corporation, before Sept. 5, 1968, has obligated itself to repurchase at a specified price), the deduction allowable under subparagraph (1) of this paragraph may not exceed an amount equal to 1 year's interest at the rate specified in the bond, except to the extent that the corporation can demonstrate to the satisfaction of the Commissioner or his delegate that an amount in excess of 1 year's interest does not include any amount attributable to the conversion feature.

(3) No deduction shall be allowed under subparagraph (1) of this paragraph to the extent a deduction is disallowed under subparagraph (2) of this paragraph or to the extent a deduction is disallowed by section 249 (relating to limitation on deduction of bond premium on repurchase of convertible obligation) and the regulations thereunder. See paragraph (f) of § 1.249-1 for effective date limitation on section 249.

(d) *Definition.* For purposes of this section, a debenture, note, certificate or other evidence of indebtedness, issued by a corporation and bearing interest shall be given the same treatment as a bond.

(e) *Effective date.* The provisions of this section shall not apply in respect of a bond issued after May 27, 1969, unless issued pursuant to a written commitment which was binding on that date and at all times thereafter.

[T.D. 6984, 33 FR 19175, Dec. 24, 1968, as amended by T.D. 7154, 36 FR 24996, Dec. 28, 1971; T.D. 7259, 38 FR 4253, Feb. 12, 1973]

§ 1.163-4 Deduction for original issue discount on certain obligations issued after May 27, 1969.

(a) *In general.* (1) If an obligation is issued by a corporation with original issue discount, the amount of such discount is deductible as interest and shall be prorate or amortized over the life of the obligation. For purposes of this section the term "obligation" shall have the same meaning as in § 1.1232-1 (without regard to whether the obligation is a capital asset in the hands of the holder) and the term "original issue discount" shall have the same meaning as in section 1232(b)(1) (without regard to the one-

fourth of 1 percent limitation in the second sentence thereof). Thus, in general, the amount of original issue discount equals the excess of the amount payable at maturity over the issue price of the bond (as defined in paragraph (b)(2) of § 1.1232-3), regardless of whether that amount is less than one-fourth of 1 percent of the redemption price at maturity multiplied by the number of complete years to maturity. For the rule as to whether there is original issue discount in the case of an obligation issued in an exchange for property other than money, and the amount thereof, see paragraph (b)(2)(iii) of § 1.1232-3. In any case in which original issue discount is carried over from one corporation to another corporation under section 381(c)(9) or from an obligation exchanged to an obligation received in any exchange under paragraph (b)(1)(iv) of § 1.1232-3, such discount shall be carried over for purposes of this section. The amount of original issue discount carried over in an exchange of obligations under the preceding sentence shall be prorated or amortized over the life of the obligation issued in such exchange. For computation of issue price and the amount of original issue discount in the case of serial obligations, see paragraph (b)(2)(iv) of § 1.1232-3.

(2) In the case of an obligation issued by a corporation as part of an investment unit (as defined in paragraph (b)(2)(ii)(a) of § 1.1232-3) consisting of an obligation and other property, the issue price of the obligation is determined by allocating the amount received for the investment unit to the individual elements of the unit in the manner set forth in paragraph (b)(2)(ii) of § 1.1232-3.

(3) *Recovery or retention of amounts previously deducted.* In any taxable year in which an amount of original issue discount which was deducted as interest under this section is retained or recovered by the taxpayer, such as, for example, by reason of a fine, penalty, forfeiture, or other withdrawal fee, such amount shall be includible in the gross income of such taxpayer for such taxable year.

(b) *Examples.* The rules in paragraph (a) of this section are illustrated by the following examples:

Example 1. N Corporation, which uses the calendar year as its taxable year, on January 1, 1970, issued for \$99,000, 9 percent bonds maturing 10 years from the date of issue, with a stated redemption price at maturity of \$100,000. The original issue discount on each bond (as determined under section 1232(b)(1) without regard to the one-fourth-of-1-percent limitation in the second sentence thereof) is \$1,000, i.e., redemption price, \$100,000, minus issue price, \$99,000. N shall treat \$1,000 as the total amount to be amortized over the life of the bonds.

Example 2. Assume the same facts as example (1), except that the bonds are convertible into common stock of N Corporation. Since the issue price of the bonds includes any amount attributable to the conversion privilege, the result is the same as in example (1).

Example 3. Assume the same facts as example (1), except that the bonds are issued as part of an investment unit consisting of an obligation and an option. Assume further that the issue price of the bonds as determined under the rules of allocation set forth in paragraph (b)(2)(ii) of § 1.1232-3 is \$94,000. The original issue discount on the bond (as determined under section 1232(b)(1) without regard to the one-fourth-of-1-percent limitation in the second sentence thereof) is \$6,000, i.e., redemption price, \$100,000, minus issue price, \$94,000. N shall treat \$6,000 as the total amount to be amortized over the life of the bonds.

Example 4. On January 1, 1971, a commercial bank which uses the calendar year as its taxable year, issued a certificate of deposit for \$10,000. The certificate of deposit is not redeemable until December 31, 1975, except in an emergency as defined in, and subject to the qualifications provided by Regulations Q of the Board of Governors of the Federal Reserve. See 12 CFR § 217.4(d). The stated redemption price at maturity is \$13,382.26. The certificate is an obligation to which section 1232(a)(3)(A) applies (see paragraph (d) of § 1.1232-1), and the original issue discount with respect to the certificate (as determined under section 1232(b)(1) without regard to the one-fourth-of-1-percent limitation in the second sentence thereof) is \$3,382.26 (i.e., redemption price, \$13,382.26, minus issued price, \$10,000). Y shall treat \$3,382.26 as the total amount to be amortized over the life of the certificate.

(c) *Deduction upon repurchase.* (1) Except as provided in subparagraph (2) of this paragraph, if bonds are issued by a corporation and are subsequently repurchased by the corporation at a price in excess of the issue price plus any amount of original issue discount deducted prior to repurchase, or minus any amount of premium returned as income prior to repurchase, the excess of

the repurchase price over the issue price adjusted for amortized premium or deducted discount is deductible as interest for the taxable year.

(2) The provisions of subparagraph (1) of this paragraph shall not apply to the extent a deduction is disallowed by section 249 (relating to limitation on deduction of bond premium or repurchase of convertible obligation) and the regulations thereunder.

(d) *Effective date.* The provisions of this section shall apply in respect of obligations issued after May 27, 1969, other than—

(1) Obligations issued pursuant to a written commitment which was binding on May 27, 1969, and at all times thereafter, and

(2) Deposits made before January 1, 1971, in the case of certificates of deposit, time deposits, bonus plans, and other deposit arrangements with banks, domestic building and loan associations, and similar financial institutions.

[36 FR 24996, Dec. 28, 1971, as amended by T.D. 7213, 37 FR 21991, Oct. 18, 1972; T.D. 7259, 38 FR 4253, Feb. 12, 1973]

§ 1.163-5 Denial of interest deduction on certain obligations issued after December 31, 1982, unless issued in registered form.

(a)-(b) [Reserved]

(c) *Obligations issued to foreign persons after September 21, 1984—*(1) *In general.* A determination of whether an obligation satisfies each of the requirements of this paragraph shall be made on an obligation-by-obligation basis. An obligation issued directly (or through affiliated entities) in bearer form by, or guaranteed by, a United States Government-owned agency or a United States Government-sponsored enterprise, such as the Federal National Mortgage Association, the Federal Home Loan Banks, the Federal Loan Mortgage Corporation, the Farm Credit Administration, and the Student Loan Marketing Association, may not satisfy this paragraph (c). An obligation issued after September 21, 1984 is described in this paragraph if—

(i) There are arrangements reasonably designed to ensure that such obligation will be sold (or resold in connection with its original issuance) only to

a person who is not a United States person or who is a United States person that is a financial institution (as defined in § 1.165-12(c)(1)(v)) purchasing for its own account or for the account of a customer and that agrees to comply with the requirements of section 165(j)(3) (A), (B), or (C) and the regulations thereunder, and

(ii) In the case of an obligation which is not in registered form—

(A) Interest on such obligation is payable only outside the United States and its possessions, and

(B) Unless the obligation is described in subparagraph (2)(i)(C) of this paragraph or is a temporary global security, the following statement in English either appears on the face of the obligation and on any interest coupons which may be detached therefrom or, if the obligation is evidenced by a book entry, appears in the book or record in which the book entry is made: “Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in sections 165(j) and 1287(a) of the Internal Revenue Code.” For purposes of this paragraph, the term “temporary global security” means a security which is held for the benefit of the purchasers of the obligations of the issuer and interests in which are exchangeable for securities in definitive registered or bearer form prior to its stated maturity.

(2) *Rules for the application of this paragraph—*(i) *Arrangements reasonably designed to ensure sale to non-United States persons.* An obligation will be considered to satisfy paragraph (c)(1)(i) of this section if the conditions of paragraph (c)(2)(i) (A), (B), (C), or (D) of this section are met in connection with the original issuance of the obligation. An exchange of one obligation for another is considered an original issuance if and only if the exchange constitutes a disposition of property for purposes of section 1001 of the Code. However, an exchange of one obligation for another will not be considered a new issuance if the obligation received is identical in all respects to the obligation surrendered in exchange therefor, except that the obligor of the obligation received

need not be the same obligor as the obligor of the obligation surrendered. Obligations that meet the conditions of paragraph (c)(2)(i) (A), (B), (C) or (D) of this section may be issued in a single public offering. The preceding sentence does not apply to certificates of deposit issued under the conditions of paragraph (c)(2)(i)(C) of this section by a United States person or by a controlled foreign corporation within the meaning of section 957(a) that is engaged in the active conduct of a banking business within the meaning of section 954(c)(3)(B) as in effect prior to the Tax Reform Act of 1986, and the regulations thereunder. A temporary global security need not satisfy the conditions of paragraph (c)(2)(i) (A), (B) or (C) of this section, but must satisfy the applicable requirements of paragraph (c)(2)(i)(D) of this section.

(A) In connection with the original issuance of an obligation, the obligation is offered for sale or resale only outside of the United States and its possessions, is delivered only outside the United States and its possessions and is not registered under the Securities Act of 1933 because it is intended for distribution to persons who are not United States persons. An obligation will not be considered to be required to be registered under the Securities Act of 1933 if the issuer, in reliance on the written opinion of counsel received prior to the issuance thereof, determines in good faith that the obligation need not be registered under the Securities Act of 1933 for the reason that it is intended for distribution to persons who are not United States persons. Solely for purposes of this subdivision (i)(A), the term “United States person” has the same meaning as it has for purposes of determining whether an obligation is intended for distribution to persons under the Securities Act of 1933. Except as provided in paragraph (c)(3) of this section, this paragraph (c)(2)(i)(A) applies only to obligations issued on or before September 7, 1990.

(B) The obligation is registered under the Securities Act of 1933, is exempt from registration by reason of section 3 or section 4 of such Act, or does not qualify as a security under the Securities Act of 1933; all of the conditions set forth in paragraph (c)(2)(i)(B) (1),

(2), (3), (4), and (5) of this section are met with respect to such obligations; and, except as provided in paragraph (c)(3) of this section, the obligation is issued on or before September 7, 1990.

(1) In connection with the original issuance of an obligation in bearer form, the obligation is offered for sale or resale only outside the United States and its possessions.

(2) The issuer does not, and each underwriter and each member of the selling group, if any, covenants that it will not, in connection with the original issuance of the obligation, offer to sell or resell the obligation in bearer form to any person inside the United States or to a United States person unless such United States person is a financial institution as defined in § 1.165-12(c)(v) purchasing for its own account or for the account of a customer, which financial institution, as a condition of the purchase, agrees to provide on delivery of the obligation (or on issuance, if the obligation is not in definitive form) the certificate required under paragraph (c)(2)(i)(B)(4).

(3) In connection with its sale or resale during the original issuance of the obligation in bearer form, each underwriter and each member of the selling group, if any, or the issuer, if there is no underwriter or selling group, sends a confirmation to the purchaser of the bearer obligation stating that the purchaser represents that it is not a United States person or, if it is a United States person, it is a financial institution as defined in § 1.165-12(c)(v) purchasing for its own account or for the account of a customer and that the financial institution will comply with the requirements of section 165(j)(3) (A), (B), or (C) and the regulations thereunder. The confirmation must also state that, if the purchaser is a dealer, it will send similar confirmations to whomever purchases from it.

(4) In connection with the original issuance of the obligation in bearer form it is delivered in definitive form (or issued, if the obligation is not in definitive form) to the person entitled to physical delivery thereof only outside the United States and its possessions and only upon presentation of a certificate signed by such person to the issuer, underwriter, or member of the

selling group, which certificate states that the obligation is not being acquired by or on behalf of a United States person, or for offer to resell or for resale to a United States person or any person inside the United States, or, if a beneficial interest in the obligation is being acquired by a United States person, that such person is a financial institution as defined in § 1.165-12(c)(1)(v) or is acquiring through a financial institution and that the obligation is held by a financial institution that has agreed to comply with the requirements of section 165(j)(3) (A), (B), or (C) and the regulations thereunder and that is not purchasing for offer to resell or for resale inside the United States. When a certificate is provided by a clearing organization, it must be based on statements provided to it by its member organizations. A clearing organization is an entity which is in the business of holding obligations for member organizations and transferring obligations among such members by credit or debit to the account of a member without the necessity of physical delivery of the obligation. For purposes of paragraph (c)(2)(i)(B), the term “delivery” does not include the delivery of an obligation to an underwriter or member of the selling group, if any.

(5) The issuer, underwriter, or member of the selling group does not have actual knowledge that the certificate described in paragraph (c)(2)(i)(B)(4) of this section is false. The issuer, underwriter, or member of the selling group shall be deemed to have actual knowledge that the certificate described in paragraph (c)(2)(i)(B)(4) of this section is false if the issuer, underwriter, or member of the selling group has a United States address for the beneficial owner (other than a financial institution as defined in § 1.165-12(c)(v) that represents that it will comply with the requirements of section 165(j)(3) (A), (B), or (C) and the regulations thereunder) and does not have documentary evidence as described in § 1.6049-5(c)(1) that the beneficial owner is not a United States person.

(C) The obligation is issued only outside the United States and its possessions by an issuer that does not significantly engage in interstate commerce

with respect to the issuance of such obligation either directly or through its agent, an underwriter, or a member of the selling group. In the case of an issuer that is a United States person, such issuer may only satisfy the test set forth in this paragraph (c)(2)(i)(C) if—

(1) It is engaged through a branch in the active conduct of a banking business, within the meaning of section 954(c)(3)(B) as in effect before the Tax Reform Act of 1986, and the regulations thereunder, outside the United States;

(2) The obligation is issued outside of the United States by the branch in connection with that trade or business;

(3) The obligation that is so issued is sold directly to the public and is not issued as a part of a larger issuance made by means of a public offering; and

(4) The issuer either maintains documentary evidence as described in subdivision (iii) of A-5 of § 35a.9999-4T that the purchaser is not a United States person (provided that the issuer has no actual knowledge that the documentary evidence is false) or on delivery of the obligation the issuer receives a statement signed by the person entitled to physical delivery thereof and stating either that the obligation is not being acquired by or on behalf of a United States person or that, if a beneficial interest in the obligation is being acquired by a United States person, such person is a financial institution as defined in § 1.165-12(c)(v) or is acquiring through a financial institution and the obligation is held by a financial institution that has agreed to comply with the requirements of 165(j)(3) (A), (B) or (C) and the regulations thereunder and that it is not purchasing for offer to resell or for resale inside the United States (provided that the issuer has no actual knowledge that the statement is false).

In addition, an issuer that is a controlled foreign corporation within the meaning of section 957 (a) that is engaged in the active conduct of a banking business outside the United States within the meaning of section 954(c)(3)(B) as in effect before the Tax Reform Act of 1986, and the regulations thereunder, can only satisfy the provisions of this paragraph (c)(2)(i)(C), if it

meets the requirements of this paragraph (c)(2)(i)(C)(2), (3) and (4).

(D) The obligation is issued after September 7, 1990, and all of the conditions set forth in this paragraph (c)(2)(i)(D) are met with respect to such obligation.

(1) *Offers and sales*—(i) *Issuer*. The issuer does not offer or sell the obligation during the restricted period to a person who is within the United States or its possessions or to a United States person.

(ii) *Distributors*. (A) The distributor of the obligation does not offer or sell the obligation during the restricted period to a person who is within the United States or its possessions or to a United States person.

(B) The distributor of the obligation will be deemed to satisfy the requirements of paragraph (c)(2)(i)(D)(1)(ii)(A) of this section if the distributor of the obligation covenants that it will not offer or sell the obligation during the restricted period to a person who is within the United States or its possessions or to a United States person; and the distributor of the obligation has in effect, in connection with the offer and sale of the obligation during the restricted period, procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling the obligation are aware that the obligation cannot be offered or sold during the restricted period to a person who is within the United States or its possessions or is a United States person.

(iii) *Certain rules*. For purposes of paragraph (c)(2)(i)(D)(1) (i) and (ii) of this section:

(A) An offer or sale will be considered to be made to a person who is within the United States or its possessions if the offeror or seller of the obligation has an address within the United States or its possessions for the offeree or buyer of the obligation with respect to the offer or sale.

(B) An offer or sale of an obligation will not be treated as made to a person within the United States or its possessions or to a United States person if the person to whom the offer or sale is made is: An exempt distributor, as defined in paragraph (c)(2)(i)(D)(5) of this section; An international organization

as defined in section 7701(a)(18) and the regulations thereunder, or a foreign central bank as defined in section 895 and the regulations thereunder; or The foreign branch of a United States financial institution as described in paragraph (c)(2)(i)(D)(6)(i) of this section.

Paragraph (c)(2)(i)(D)(1)(iii)(B) regarding an exempt distributor will only apply to an offer to the United States office of an exempt distributor, and paragraph (c)(2)(i)(D)(1)(iii)(B) regarding an international organization or foreign central bank will only apply to an offer to an international organization or foreign central bank, if such offer is made directly and specifically to the United States office, organization or bank.

(C) A sale of an obligation will not be treated as made to a person within the United States or its possessions or to a United States person if the person to whom the sale is made is a person described in paragraph (c)(2)(i)(D)(6)(ii) of this section.

(2) *Delivery*. In connection with the sale of the obligation during the restricted period, neither the issuer nor any distributor delivers the obligation in definitive form within the United States or its possessions.

(3) *Certification*—(i) *In general*. On the earlier of the date of the first actual payment of interest by the issuer on the obligation or the date of delivery by the issuer of the obligation in definitive form, a certificate is provided to the issuer of the obligation stating that on such date:

(A) The obligation is owned by a person that is not a United States person:

(B) The obligation is owned by a United States person described in paragraph (c)(2)(i)(D)(6) of this section; or

(C) The obligation is owned by a financial institution for purposes of resale during the restricted period, and such financial institution certifies in addition that it has not acquired the obligation for purposes of resale directly or indirectly to a United States person or to a person within the United States or its possessions.

A certificate described in paragraph (c)(2)(i)(D)(3)(i) (A) or (B) of this section may not be given with respect to an obligation that is owned by a financial

institution for purposes of resale during the restricted period. For purposes of paragraph (c)(2)(i)(D) (2) and (3) of this section, a temporary global security (as defined in § 1.163-5 (c)(1)(ii)(B)) is not considered to be an obligation in definitive form. If the issuer does not make the obligation available for delivery in definitive form within a reasonable period of time after the end of the restricted period, then the obligation shall be treated as not satisfying the requirements of this paragraph (c)(2)(i)(D)(3). The certificate must be signed (or sent, as provided in paragraph (c)(2)(i)(D)(3)(ii) of this section) either by the owner of the obligation or by a financial institution or clearing organization through which the owner holds the obligation, directly or indirectly. For purposes of this paragraph (c)(2)(i)(D)(3), the term “financial institution” means a financial institution described in § 1.165-12(c)(i)(v). When a certificate is provided by a clearing organization, the certificate must be based on statements provided to it by its member organizations. The requirement of this paragraph (c)(1)(D)(3) shall be deemed not to be satisfied with respect to an obligation if the issuer knows or has reason to know that the certificate with respect to such obligation is false. The certificate must be retained by the issuer (and statements by member organizations must be retained by the clearing organization, in the case of certificates based on such statements) for a period of four calendar years following the year in which the certificate is received.

(ii) *Electronic certification.* The certificate required by paragraph (c)(2)(i)(D)(3)(i) of this section (including a statement provided to a clearing organization by a member organization) may be provided electronically, but only if the person receiving such electronic certificate maintains adequate records, for the retention period described in paragraph (c)(2)(i)(D)(3)(i) of this section, establishing that such certificate was received in respect of the subject obligation, and only if there is a written agreement entered into prior to the time of certification (including the written membership rules of a clearing organization) to which the sender and recipient are sub-

ject, providing that the electronic certificate shall have the effect of a signed certificate described in paragraph (c)(2)(i)(D)(3)(i) of this section.

(iii) *Exception for certain obligations.* This paragraph (c)(2)(i)(D)(3) shall not apply, and no certificate shall be required, in the case of an obligation that is sold during the restricted period and that satisfies all of the following requirements:

(A) The interest and principal with respect to the obligation are denominated only in the currency of a single foreign country.

(B) The interest and principal with respect to the obligation are payable only within that foreign country (according to rules similar to those set forth in § 1.163-5(c)(2)(v)).

(C) The obligation is offered and sold in accordance with practices and documentation customary in that foreign country.

(D) The distributor covenants to use reasonable efforts to sell the obligation within that foreign country.

(E) The obligation is not listed, or the subject of an application for listing, on an exchange located outside that foreign country.

(F) The Commissioner has designated that foreign country as a foreign country in which certification under paragraph (c)(2)(i)(D)(3)(i) of this section is not permissible.

(G) The issuance of the obligation is subject to guidelines or restrictions imposed by governmental, banking or securities authorities in that foreign country.

(H) More than 80 percent by value of the obligations included in the offering of which the obligation is a part are offered and sold to non-distributors by distributors maintaining an office located in that foreign country. Foreign currency denominated obligations that are convertible into U.S. dollar denominated obligations or that by their terms are linked to the U.S. dollar in a way which effectively converts the obligations to U.S. dollar denominated obligations do not satisfy the requirements of this paragraph (c)(2)(i)(D)(3)(iii). A foreign currency denominated obligation will not be treated as linked, by its terms, to the

U.S. dollar solely because the obligation is the subject of a swap transaction.

(4) *Distributor*. For purposes of this paragraph (c)(2)(i)(D), the term “distributor” means:

(i) A person that offers or sells the obligation during the restricted period pursuant to a written contract with the issuer;

(ii) Any person that offers or sells the obligation during the restricted period pursuant to a written contract with a person described in paragraph (c)(2)(i)(D) (4) (i); and

(iii) Any affiliate that acquires the obligation from another member of its affiliated group for the purpose of offering or selling the obligation during the restricted period, but only if the transferor member of the group is the issuer or a person described in paragraph (c)(2)(i)(D) (4)(i) or (ii) of this section. The terms “affiliate” and “affiliated group” have the same meanings as in section 1504(a) of the Code, but without regard to the exceptions contained in section 1504(b) and substituting “50 percent” for “80 percent” each time it appears.

For purposes of this paragraph (c)(2)(i)(D)(4), a written contract does not include a confirmation or other notice of the transaction.

(5) *Exempt distributor*. For purposes of this paragraph (c)(2)(i)(D), the term “exempt distributor” means a distributor that covenants in its contract with the issuer or with a distributor described in paragraph (c)(2)(i)(D)(4)(i) that it is buying the obligation for the purpose of resale in connection with the original issuance of the obligation, and that if it retains the obligation for its own account, it will only do so in accordance with the requirements of paragraph (c)(2)(i)(D)(6) of this section. In the latter case, the covenant will constitute the certificate required under paragraph (c)(2)(i)(D)(6). The provisions of paragraph (c)(2)(i)(D)(7) governing the restricted period for unsold allotments or subscriptions shall apply to any obligation retained for investment by an exempt distributor.

(6) *Certain United States persons*. A person is described in this paragraph (c)(2)(i)(D)(6) if the requirements of

this paragraph are satisfied and the person is:

(i) The foreign branch of a United States financial institution purchasing for its own account or for resale, or

(ii) A United States person who acquired the obligation through the foreign branch of a United States financial institution and who, for purposes of the certification required in paragraph (c)(2)(i)(D)(3) of this section, holds the obligation through such financial institution on the date of certification.

For purposes of paragraph (c)(2)(i)(D)(6)(ii) of this section, a United States person will be considered to acquire and hold an obligation through the foreign branch of a United States financial institution if the United States person has an account with the United States office of a financial institution, and the transaction is executed by a foreign office of that financial institution, or by the foreign office of another financial institution acting on behalf of that financial institution. This paragraph (c)(2)(i)(D)(6) will apply, however, only if the United States financial institution (or the United States office of a foreign financial institution) holding the obligation provides a certificate to the issuer or distributor selling the obligation within a reasonable time stating that it agrees to comply with the requirements of section 165(j)(3)(A), (B), or (C) and the regulations thereunder. For purposes of this paragraph (c)(2)(i)(D)(6), the term “financial institution” means a financial institution as defined in § 1.165-12(c)(1)(v). As an alternative to the certification required above, a financial institution may provide a blanket certificate to the issuer or distributor selling the obligation stating that the financial institution will comply with the requirements of section 165(j)(3)(A), (B) or (C) and the regulations thereunder. A blanket certificate must be received by the issuer or the distributor in the year of the issuance of the obligation or in either of the preceding two calendar years, and must be retained by the issuer or distributor for at least four years after the end of the last calendar year to which it relates.

(7) *Restricted period.* For purposes of this paragraph (c)(2)(i)(D), the restricted period with respect to an obligation begins on the earlier of the closing date (or the date on which the issuer receives the loan proceeds, if there is no closing with respect to the obligation), or the first date on which the obligation is offered to persons other than a distributor. The restricted period with respect to an obligation ends on the expiration of the forty day period beginning on the closing date (or the date on which the issuer receives the loan proceeds, if there is no closing with respect to the obligation). Notwithstanding the preceding sentence, any offer or sale of the obligation by the issuer or a distributor shall be deemed to be during the restricted period if the issuer or distributor holds the obligation as part of an unsold allotment or subscription.

(8) *Clearing organization.* For purposes of this paragraph (c)(2)(i)(D), a “clearing organization” is an entity which is in the business of holding obligations for member organizations and transferring obligations among such members by credit or debit to the account of a member without the necessity of physical delivery of the obligation.

(ii) *Special rules.* An obligation shall not be considered to be described in paragraph (c)(2)(i)(C) of this section if it is—

(A) Guaranteed by a United States shareholder of the issuer;

(B) Convertible into a debt or equity interest in a United States shareholder of the issuer; or

(C) Substantially identical to an obligation issued by a United States shareholder of the issuer.

For purposes of this paragraph (c)(2)(ii), the term “United States shareholder” is defined as it is defined in section 951 (b) and the regulations thereunder. For purposes of this paragraph (c)(2)(ii)(C), obligations are substantially identical if the face amount, interest rate, term of the issue, due dates for payments, and maturity date of each is substantially identical to the other.

(iii) *Interstate commerce.* For purposes of this paragraph, the term “interstate commerce” means trade or commerce in obligations or any transportation or

communication relating thereto between any foreign country and the United States or its possessions.

(A) An issuer will not be considered to engage significantly in interstate commerce with respect to the issuance of an obligation if the only activities with respect to which the issuer uses the means or instrumentalities of interstate commerce are activities of a preparatory or auxiliary character that do not involve communication between a prospective purchaser and an issuer, its agent, an underwriter, or member of the selling group if either is inside the United States or its possessions. Activities of a preparatory or auxiliary character include, but are not limited to, the following activities:

(1) Establishment or participation in establishment of policies concerning the issuance of obligations and the allocation of funding by a United States shareholder with respect to obligations issued by a foreign corporation or by a United States office with respect to obligations issued by a foreign branch;

(2) Negotiation between the issuer and underwriters as to the terms and pricing of an issue;

(3) Transfer of funds to an office of an issuer in the United States or its possessions by a foreign branch or to a United States shareholder by a foreign corporation;

(4) Consultation by an issuer with accountants and lawyers or other financial advisors in the United States or its possessions regarding the issuance of an obligation;

(5) Document drafting and printing; and

(6) Provision of payment or delivery instructions to members of the selling group by an issuer’s office or agent that is located in the United States or its possessions.

(B) Activities that will not be considered to be of a preparatory or auxiliary character include, but are not limited to, any of the following activities:

(1) Negotiation or communication between a prospective purchaser and an issuer, its agent, an underwriter, or a member of the selling group concerning the sale of an obligation if either is inside the United States or its possessions;

(2) Involvement of an issuer's office, its agent, an underwriter, or a member of the selling group in the United States or its possessions in the offer or sale of a particular obligation, either directly with the prospective purchaser, or through the issuer in a foreign country;

(3) Delivery of an obligation in the United States or its possessions; or

(4) Advertising or otherwise promoting an obligation in the United States or its possessions.

(C) The following examples illustrate the application of this subdivision (iii) of § 1.163-5(c)(2).

Example 1. Foreign corporation A, a corporation organized in and doing business in foreign country Z, and not a controlled foreign corporation within the meaning of section 957(a) that is engaged in the conduct of a banking business within the meaning of section 954(c)(3)(B) as in effect before the Tax Reform Act of 1986, issues its debentures outside the United States. The debentures are not guaranteed by a United States shareholder of A, nor are they convertible into a debt or equity interest of a United States shareholder of A, nor are they substantially identical to an obligation issued by a United States shareholder of A. A consults its accountants and lawyers in the United States for certain securities and tax advice regarding the debt offering. The underwriting and selling group in respect to A's offering is composed entirely of foreign securities firms, some of which are foreign subsidiaries of United States securities firms. A U.S. affiliate of the foreign underwriter communicates payment and delivery instructions to the selling group. All offering circulars for the offering are mailed and delivered outside the United States and its possessions. All debentures are delivered and paid for outside the United States and its possessions. No office located in the United States or in a United States possession is involved in the sale of debentures. Interest on the debentures is payable only outside the United States and its possessions. A is not significantly engaged in interstate commerce with respect to the offering.

Example 2. B, a United States bank, does business in foreign country X through a branch located in X. The branch is a staffed and operating unit engaged in the active conduct of a banking business consisting of one or more of the activities set forth in § 1.954-2(d)(2)(ii). As part of its ongoing business, the branch in X issues negotiable certificates of deposit with a maturity in excess of one year to customers upon request. The certificates of deposit are not guaranteed by a United States shareholder of B, nor are

they convertible into a debt or equity interest of a United States shareholder of B, nor are they substantially identical to an obligation issued by a United States shareholder of B. Policies regarding the issuance of negotiable certificates of deposit and funding allocations for foreign branches are set in the United States at B's main office. Branch personnel decide whether to issue a negotiable certificate of deposit based on the guidelines established by the United States offices of B, but without communicating with the United States offices of B with respect to the issuance of a particular obligation. Negotiable certificates of deposits are delivered and paid for outside the United States and its possessions. Interest on the negotiable certificates of deposit is payable only outside the United States and its possessions. B maintains documentary evidence described in § 1.163-5(c)(2)(i)(C)(4). After the issuance of negotiable certificates of deposit by the foreign branch of B, the foreign branch sends the funds to a United States branch of B for use in domestic operations. B is not significantly engaged in interstate commerce with respect to the issuance of such obligation.

Example 3. The facts in Example (2) apply except that the foreign branch of B consulted, by telephone, the main office in the United States to request approval of the issuance of the certificate of deposit at a particular rate of interest. The main office granted permission to issue the negotiable certificate of deposit to the customer by a telex sent from the main office of B to the branch in X. B is significantly engaged in interstate commerce with respect to the issuance of the obligation as a result of involvement of B's United States office in the issuance of the obligation.

Example 4. The facts in Example (2) apply with the additional fact that a customer contacted the foreign branch of B through a telex originating in the United States or its possessions. Subsequent to the telex, the foreign branch issued the negotiable certificate of deposit and recorded it on the books. B is significantly engaged in interstate commerce with respect to the issuance of the obligation as a result of its communication by telex with a customer in the United States.

(iv) *Possessions.* For purposes of this section, the term "possessions" includes Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Wake Island, and Northern Mariana Islands.

(v) *Interest payable outside of the United States.* Interest will be considered payable only outside the United States and its possessions if payment of such interest can be made only upon presentation of a coupon, or upon making of any other demand for payment, outside of the United States and its

possessions to the issuer or a paying agent. The fact that payment is made by a draft drawn on a United States bank account or by a wire or other electronic transfer from a United States account does not affect this result. Interest payments will be considered to be made within the United States if the payments are made by a transfer of funds into an account maintained by the payee in the United States or mailed to an address in the United States, if—

(A) The interest is paid on an obligation issued by either a United States person, a controlled foreign corporation as defined in section 957 (a), or a foreign corporation if 50 percent or more of the gross income of the foreign corporation from all sources of the 3-year period ending with the close of its taxable year preceding the original issuance of the obligation (or for such part of the period that the foreign corporation has been in existence) was effectively connected with the conduct of a trade or business within the United States; and

(B) The interest is paid to a person other than—

(1) A person who may satisfy the requirements of section 165 (j)(3) (A), (B), or (C) and the regulations thereunder; and

(2) A financial institution as a step in the clearance of funds and such interest is promptly credited to an account maintained outside the United States for such financial institution or for persons for which the financial institution has collected such interest.

Interest is considered to be paid within the United States and its possessions if a coupon is presented, or a demand for payment is otherwise made, to the issuer or a paying agent (whether a United States or foreign person) in the United States and its possessions even if the funds paid are credited to an account maintained by the payee outside the United States and its possessions. Interest will be considered payable only outside the United States and its possessions notwithstanding that such interest may become payable at the office of the issuer or its United States paying agent under the following conditions: the issuer has appointed paying agents located outside the United

States and its possessions with the reasonable expectation that such paying agents will be able to pay the interest in United States dollars, and the full amount of such payment at the offices of all such paying agents is illegal or effectively precluded because of the imposition of exchange controls or other similar restrictions on the full payment or receipt of interest in United States dollars. A lawsuit brought in the United States or its possessions for payment of the obligation or interest thereon as a result of a default shall not be considered to be a demand for payment. For purposes of this subdivision (v), interest includes original issue discount as defined in section 1273(a). Therefore, an amount equal to the original issue discount as defined in section 1273(a) is payable only outside the United States and its possessions. The amount of market discount as defined in section 1278(a) does not affect the amount of interest to be considered payable only outside the United States and its possessions.

(vi) *Rules relating to obligations issued after December 31, 1982 and on or before September 21, 1984.* Whether an obligation originally issued after December 31, 1982 and on or before September 21, 1984, or an obligation originally issued after September 21, 1984 pursuant to the exercise of a warrant or the conversion of a convertible obligation, which warrant or obligation (including conversion privilege) was issued after December 31, 1982 and on or before September 21, 1984, is described in section 163(f)(2)(B) shall be determined under the rules provided in § 5f.163-1(c) as in effect prior to its removal. Notwithstanding the preceding sentence, an issuer will be considered to satisfy the requirements of section 163(f)(2)(B) with respect to an obligation issued after December 31, 1982 and on or before September 21, 1984 or after September 21, 1984 pursuant to the exercise of a warrant or the conversion of a convertible obligation, which warrant or obligation (including conversion privilege) was issued after December 31, 1982 and on or before September 21, 1984, if the issuer substantially complied with the proposed regulations provided in § 1.163-5(c), which were published in the FEDERAL REGISTER on September 2,

§ 1.163-5T

26 CFR Ch. I (4-1-22 Edition)

1983 (48 FR 39953) and superseded by temporary regulations published in the FEDERAL REGISTER on August 22, 1984 (49 FR 33228).

(3) *Effective date*—(i) *In general*. These regulations apply generally to obligations issued after January 20, 1987. A taxpayer may choose to apply the rules of § 1.163-5(c) with respect to an obligation issued after December 31, 1982 and on or before January 20, 1987. If this choice is made, the rules of § 1.163-5(c) will apply in lieu of § 1.163-5T(c) except that the legend requirement under § 1.163-5(c)(1)(ii)(B) does not apply with respect to a bearer obligation evidenced exclusively by a book entry and that the certification requirement under § 1.163-5T(c)(2)(B)(4) applies in lieu of the certification under § 1.163-5(c)(2)(i)(B)(4).

(ii) *Special rules*. If an obligation is originally issued after September 7, 1990 pursuant to the exercise of a warrant or the conversion of a convertible obligation, which warrant or obligation (including conversion privilege) was issued on or before May 10, 1990, then the issuer may choose to apply either the rules of § 1.163-5(c)(2)(i)(A) or § 1.163-5(c)(2)(i)(B), or the rules of § 1.163-5(c)(2)(i)(D). The issuer of an obligation may choose to apply either the rules of § 1.163-5(c)(2)(i)(A) or (B), or the rules of § 1.163-5(c)(2)(i)(D), to an obligation that is originally issued after May 10, 1990, and on or before September 7, 1990. However, any issuer choosing to apply the rules of § 1.163-5(c)(2)(i)(A) must apply the definition of United States person used for such purposes on December 31, 1989, and must obtain any certificates that would have been required under applicable law on December 31, 1989.

[T.D. 8110, 51 FR 45456, Dec. 19, 1986, as amended by T.D. 8203, 53 FR 17926, May 19, 1988; T.D. 8300, 55 FR 19624, May 10, 1990; T.D. 8734, 62 FR 53416, Oct. 14, 1997]

§ 1.163-5T Denial of interest deduction on certain obligations issued after December 31, 1982, unless issued in registered form (temporary).

(a)–(c) [Reserved]

(d) *Pass-through certificates*. (1) A pass-through or participation certificate evidencing an interest in a pool of mortgage loans which under subpart E

of subchapter J of the Code is treated as a trust of which the grantor is the owner (or similar evidence of interest in a similar pooled fund or pooled trust treated as a grantor trust) (“pass-through certificate”) is considered to be a “registration-required obligation” under section 163(f)(2)(A) and § 1.163-5(c) if the pass-through certificate is described in section 163(f)(2)(A) and § 1.163-5(c) without regard to whether any obligation held by the fund or trust to which the pass-through certificate relates is described in section 163(f)(2)(A) and § 1.163-5(c). A pass-through certificate is considered to be described in section 163(f)(2)(B) and § 1.163-5(c) if the pass-through certificate is described in section 163(f)(2)(B) and § 1.163-5(c) without regard to whether any obligation held by the fund or trust to which the pass-through certificate relates is described in section 163(f)(2)(B) and § 1.163-5(c).

(2) An obligation held by a fund or trust in which ownership interests are represented by pass-through certificates is considered to be in registered form under section 149(a) and the regulations thereunder or to be described in section 163(f)(2)(A) or (B), if the obligation held by the fund or trust is in registered form under section 149(a) and the regulations thereunder or is described in section 163(f)(2)(A) or (B), respectively, without regard to whether the pass-through certificates are so considered.

(3) For purposes of section 4701, a pass-through certificate is considered to be issued solely by the recipient of the proceeds from the issuance of the pass-through certificate (hereinafter the “sponsor”). The sponsor is therefore liable for any excise tax under section 4701 that may be imposed with reference to the principal amount of the pass-through certificate.

(4) In order to implement the purpose of section 163, § 1.163-5(c) and this section, the Commissioner may characterize a certificate or other evidence of interest in a fund or trust which under subpart E of subchapter J of the Code is treated as a trust of which the grantor is the owner and any obligation held by such fund or trust in accordance with the substance of the arrangement they represent and may impose the

penalties provided under sections 163(f)(1) and 4701 in the appropriate amounts and on the appropriate persons. This provision may be applied, for example, where a corporation issues obligations purportedly in registered form, contributes them to a grantor trust as its only assets, and arranges for the sale to investors of bearer certificates of interest in the trust which do not meet the requirements of section 163(f)(2)(B). If this provision is applied, the obligations held by the fund or trust will not be considered to be issued in registered form or to meet the requirements of section 163(f)(2)(B). The corporation will not be allowed a deduction for the payment of interest on the obligations held by the trust, and the excise tax under section 4701, calculated with reference to the principal amount of the obligations held by the trust will be imposed on the corporation and its agents. This paragraph (d)(4) will not be applied so as to alter the tax consequences of transactions as to which rulings have been issued by the Internal Revenue Service prior to September 19, 1985.

(5) The rules set forth in this paragraph (d) apply solely for purposes of sections 4701, 163(f)(2)(A), 163(f)(2)(B), § 1.163-5(c), and any other section that refers to this section for the definition of the term "registration-required obligation" (such as the regulations under sections 871(h) and 881(c)). The treatment of obligations described in this paragraph (d) for purposes of section 163(f)(2) (A) and (B) does not affect the determination of whether bearer obligations that are issued or guaranteed by the United States Government, a United States Government-owned agency, a United States Government sponsored enterprise (within the meaning of § 1.163-5(c)(1)) or that are backed (as described in the Treasury Department News Release R-2835 of September 10, 1984 and Treasury Department News Release R-2847 of September 14, 1984) by obligations issued by the United States Government, a United States Government-owned agency, or a United States Government sponsored enterprise comply with the requirements of section 163(f)(2)(B) and the regulations thereunder.

(6) The provisions of paragraphs (d)(1) through (5) may be illustrated by the following example:

Commercial Bank K forms a pool of 1000 residential mortgage loans, each made to a different individual homeowner, by assigning them to Commercial Bank L, an unrelated entity serving as trustee of the pool. Commercial Bank L immediately sells in a public offering certificates of interest in the trust of a maturity of 10 years in registered form. Commercial Bank L transfers the cash proceeds of the offering to Commercial Bank K. The certificates of interest in the trust are of a type offered to the public and are not described in section 163(f)(2)(B). Pursuant to paragraph (d)(1), the certificates of interest in the pool are registration-required obligations without regard to the fact that the obligations held by the trust are not registration-required obligations.

(e) *Regular interests in REMICS.* (1) A regular interest in a REMIC, as defined in sections 860D and 860G and the regulations thereunder, is considered to be a "registration-required obligation" under section 163(f)(2)(A) and § 1.163-5(c) if the regular interest is described in section 163(f)(2)(A) and § 1.163-5(c), without regard to whether any obligation held by the REMIC to which the regular interest relates is described in section 163(f)(2)(A) and § 1.163-5(c). A regular interest in a REMIC is considered to be described in section 163(f)(2)(B) and § 1.163-5(c), if the regular interest is described in section 163(f)(2)(B) and § 1.163(c), without regard to whether any obligation held by the REMIC to which the regular interest relates is described in section 163(f)(2)(B) and § 1.163-5(c).

(2) An obligation held by a REMIC is considered to be described in section 163(f)(2) (A) or (B) if such obligation is described in section 163(f)(2) (A) or (B), respectively, without regard to whether the regular interests in the REMIC are so considered.

(3) For purposes of section 4701, a regular interest is considered to be issued solely by the recipient of the proceeds from the issuance of the regular interest (hereinafter the "sponsor"). The sponsor is therefore liable for any excise tax under section 4701 that may be imposed with reference to the principal amount of the regular interest.

(4) In order to implement the purpose of section 163, §1.163-5(c), and this section, the Commissioner may characterize a regular interest in a REMIC and any obligation held by such REMIC in accordance with the substance of the arrangement they represent and may impose the penalties provided under sections 163(f)(1) and 4701 in the appropriate amounts and on the appropriate persons. This provision may be applied, for example, where a corporation issues an obligation that is purportedly in registered form and that will qualify as a “qualified mortgage” within the meaning of section 860G(a)(3) in the hands of a REMIC, contributes the obligation to a REMIC as its only asset, and arranges for the sale to investors of regular interests in the REMIC in bearer form that do not meet the requirements of section 163(f)(2)(B). If this provision is applied, the obligation held by the REMIC will not be considered to be issued in registered form or to meet the requirements of section 163(f)(2)(B). The corporation will not be allowed a deduction for the payment of interest on the obligation held by the REMIC, and the excise tax under section 4701, calculated with reference to the principal amount of the obligation held by the REMIC, will be imposed on the corporation and may be collected from the corporation and its agents.

[T.D. 8202, 53 FR 17928, May 19, 1988, as amended by T.D. 8300, 55 FR 19626, May 10, 1990]

§ 1.163-6T Reduction of deduction where section 25 credit taken (temporary).

(a) *In general.* The amount of the deduction under section 163 for interest paid or accrued during any taxable year on a certified indebtedness amount with respect to a mortgage credit certificate which has been issued under section 25 shall be reduced by the amount of the credit allowable with respect to such interest under section 25 (determined without regard to section 26).

(b) *Cross reference.* See §§1.25-1T through 1.25-8T with respect to rules relating to mortgage credit certificates.

[T.D. 8023, 50 FR 19355, May 8, 1985]

§ 1.163-7 Deduction for OID on certain debt instruments.

(a) *General rule.* Except as otherwise provided in paragraph (b) of this section, an issuer (including a transferee) determines the amount of OID that is deductible each year under section 163(e)(1) by using the constant yield method described in §1.1272-1(b). This determination, however, is made without regard to section 1272(a)(7) (relating to acquisition premium) and §1.1273-1(d) (relating to de minimis OID). An issuer is permitted a deduction under section 163(e)(1) only to the extent the issuer is primarily liable on the debt instrument. For certain limitations on the deductibility of OID, see sections 163(e) and 1275(b)(2). To determine the amount of interest (OID) that is deductible each year on a debt instrument that provides for contingent payments, see §1.1275-4.

(b) *Special rules for de minimis OID—(1) Stated interest.* If a debt instrument has a de minimis amount of OID (within the meaning of §1.1273-1(d)), the issuer treats all stated interest on the debt instrument as qualified stated interest. See §§1.446-2(b) and 1.461-1 for the treatment of qualified stated interest.

(2) *Deduction of de minimis OID on other than a constant yield basis.* In lieu of deducting de minimis OID under the general rule of paragraph (a) of this section, an issuer of a debt instrument with a de minimis amount of OID (other than a de minimis amount treated as qualified stated interest under paragraph (b)(1) of this section) may choose to deduct the OID at maturity, on a straight-line basis over the term of the debt instrument, or in proportion to stated interest payments. The issuer makes this choice by reporting the de minimis OID in a manner consistent with the method chosen on the issuer's timely filed Federal income tax return for the taxable year in which the debt instrument is issued.

(c) *Deduction upon repurchase.* Except to the extent disallowed by any other section of the Internal Revenue Code (e.g., section 249) or this paragraph (c), if a debt instrument is repurchased by the issuer for a price in excess of its adjusted issue price (as defined in §1.1275-1(b)), the excess (repurchase premium) is deductible as interest for the taxable

year in which the repurchase occurs. If the issuer repurchases a debt instrument in a debt-for-debt exchange, the repurchase price is the issue price of the newly issued debt instrument (reduced by any unstated interest within the meaning of section 483). However, if the issue price of the newly issued debt instrument is determined under either section 1273(b)(4) or section 1274, any repurchase premium is not deductible in the year of the repurchase, but is amortized over the term of the newly issued debt instrument in the same manner as if it were OID.

(d) *Choice of accrual periods to determine whether a debt instrument is an applicable high yield discount obligation (AHYDO).* Section 163(e)(5) affects an issuer's OID deductions for certain high yield debt instruments that have significant OID. For purposes of section 163(i)(2), which defines significant OID, the issuer's choice of accrual periods to determine OID accruals is used to determine whether a debt instrument has significant OID. See § 1.1275-2(e) for rules relating to the issuer's obligation to disclose certain information to holders.

(e) *Qualified reopening—(1) In general.* In a qualified reopening of an issue of debt instruments, if a holder pays more or less than the adjusted issue price of the original debt instruments to acquire an additional debt instrument, the issuer treats this difference as an adjustment to the issuer's interest expense for the original and additional debt instruments. As provided by paragraphs (e)(2) through (5) of this section, the adjustment is taken into account over the term of the instrument using constant yield principles.

(2) *Positive adjustment.* If the difference is positive (that is, the holder pays more than the adjusted issue price of the original debt instrument), then, with respect to the issuer but not the holder, the difference increases the aggregate adjusted issue prices of all of the debt instruments in the issue, both original and additional.

(3) *Negative adjustment.* If the difference is negative (that is, the holder pays less than the adjusted issue price of the original debt instrument), then, with respect to the issuer but not the holder, the difference reduces the ag-

gregate adjusted issue prices of all of the debt instruments in the issue, both original and additional.

(4) *Determination of issuer's interest accruals.* As of the reopening date, the issuer must redetermine the yield of the debt instruments in the issue for purposes of applying the constant yield method described in § 1.1272-1(b) to determine the issuer's accruals of interest expense over the remaining term of the debt instruments in the issue. This redetermined yield is based on the aggregate adjusted issue prices of the debt instruments in the issue (as determined under this paragraph (e)) and the remaining payment schedule of the debt instruments in the issue. If the aggregate adjusted issue prices of the debt instruments in the issue (as determined under this paragraph (e)) are less than the aggregate stated redemption price at maturity of the instruments (determined as of the reopening date) by a *de minimis* amount (within the meaning of § 1.1273-1(d)), the issuer may use the rules in paragraph (b) of this section to determine the issuer's accruals of interest expense.

(5) *Effect of adjustments on issuer's adjusted issue price.* The adjustments made under this paragraph (e) are taken into account for purposes of determining the issuer's adjusted issue price under § 1.1275-1(b).

(6) *Definitions.* The terms *additional debt instrument*, *original debt instrument*, *qualified reopening*, and *reopening date* have the same meanings as in § 1.1275-2(k).

(f) *Effective dates.* This section (other than paragraph (e) of this section) applies to debt instruments issued on or after April 4, 1994. Taxpayers, however, may rely on this section (other than paragraph (e) of this section) for debt instruments issued after December 21, 1992, and before April 4, 1994. Paragraph (e) of this section applies to qualified reopenings where the reopening date is on or after March 13, 2001.

[T.D. 8517, 59 FR 4804, Feb. 2, 1994, as amended by T.D. 8674, 61 FR 30138, June 14, 1996; T.D. 8934, 66 FR 2815, Jan. 12, 2001]

§ 1.163-8T Allocation of interest expense among expenditures (temporary).

(a) *In general*—(1) *Application*. This section prescribes rules for allocating interest expense for purposes of applying sections 469 (the “passive loss limitation”) and 163 (d) and (h) (the “non-business interest limitations”).

(2) *Cross-references*. This paragraph provides an overview of the manner in which interest expense is allocated for the purposes of applying the passive loss limitation and nonbusiness interest limitations and the manner in which interest expense allocated under this section is treated. See paragraph (b) of this section for definitions of certain terms, paragraph (c) for the rules for allocating debt and interest expense among expenditures, paragraphs (d) and (e) for the treatment of debt repayments and refinancings, paragraph (j) for the rules for reallocating debt upon the occurrence of certain events, paragraph (m) for the coordination of the rules in this section with other limitations on the deductibility of interest expense, and paragraph (n) of this section for effective date and transitional rules.

(3) *Manner of allocation*. In general, interest expense on a debt is allocated in the same manner as the debt to which such interest expense relates is allocated. Debt is allocated by tracing disbursements of the debt proceeds to specific expenditures. This section prescribes rules for tracing debt proceeds to specific expenditures.

(4) *Treatment of interest expenses*—(i) *General rule*. Except as otherwise provided in paragraph (m) of this section (relating to limitations on interest expense other than the passive loss and nonbusiness interest limitations), interest expense allocated under the rules of this section is treated in the following manner:

(A) Interest expense allocated to a trade or business expenditure (as defined in paragraph (b)(7) of this section) is taken into account under section 163 (h)(2)(A);

(B) Interest expense allocated to a passive activity expenditure (as defined in paragraph (b)(4) of this section) or a former passive activity expenditure (as defined in paragraph (b)(2) of this section)

is taken into account for purposes of section 469 in determining the income or loss from the activity to which such expenditure relates;

(C) Interest expense allocated to an investment expenditure (as defined in paragraph (b)(3) of this section) is treated for purposes of section 163(d) as investment interest;

(D) Interest expense allocated to a personal expenditure (as defined in paragraph (b)(5) of this section) is treated for purposes of section 163(h) as personal interest; and

(E) Interest expense allocated to a portfolio expenditure (as defined in paragraph (b)(6) of this section) is treated for purposes of section 469(e)(2)(B)(ii) as interest expense described in section 469(e)(1)(A)(i)(III).

(ii) *Examples*. The following examples illustrate the application of this paragraph (a)(4):

Example 1. Taxpayer A, an individual, incurs interest expense allocated under the rules of this section to the following expenditures:

\$6,000 Passive activity expenditure.

\$4,000 Personal expenditure.

The \$6,000 interest expense allocated to the passive activity expenditure is taken into account for purposes of section 469 in computing A’s income or loss from the activity to which such interest relates. Pursuant to section 163(h), A may not deduct the \$4,000 interest expense allocated to the personal expenditure (except to the extent such interest is qualified residence interest, within the meaning of section 163(h)(3)).

Example 2. (i) Corporation M, a closely held C corporation (within the meaning of section 469 (j)(1)) has \$10,000 of interest expense for a taxable year. Under the rules of this section, M’s interest expense is allocated to the following expenditures:

\$2,000 Passive activity expenditure.

\$3,000 Portfolio expenditure.

\$5,000 Other expenditures.

(ii) Under section 163(d)(3)(D) and this paragraph (a)(4), the \$2,000 interest expense allocated to the passive activity expenditure is taken into account in computing M’s passive activity loss for the taxable year, but, pursuant to section 469(e)(1) and this paragraph (a)(4), the interest expense allocated to the portfolio expenditure and the other expenditures is not taken into account for such purposes.

(iii) Since M is a closely held C corporation, its passive activity loss is allowable under section 469(e)(2)(A) as a deduction from net active income. Under section

469(e)(2)(B) and this paragraph (a)(4), the \$5,000 interest expense allocated to other expenditures is taken into account in computing M's net active income, but the interest expense allocated to the passive activity expenditure and the portfolio expenditure is not taken into account for such purposes.

(iv) Since M is a corporation, the \$3,000 interest expense allocated to the portfolio expenditure is allowable without regard to section 163(d). If M were an individual, however, the interest expense allocated to the portfolio expenditure would be treated as investment interest for purposes of applying the limitation of section 163(d).

(b) *Definitions.* For purposes of this section—

(1) “Former passive activity” means an activity described in section 469(f)(3), but only if an unused deduction or credit (within the meaning of section 469(f)(1) (A) or (B)) is allocable to the activity under section 469(b) for the taxable year.

(2) “Former passive activity expenditure” means an expenditure that is taken into account under section 469 in computing the income or loss from a former passive activity of the taxpayer or an expenditure (including an expenditure properly chargeable to capital account) that would be so taken into account if such expenditure were otherwise deductible.

(3) “Investment expenditure” means an expenditure (other than a passive activity expenditure) properly chargeable to capital account with respect to property held for investment (within the meaning of section 163(d)(5)(A)) or an expenditure in connection with the holding of such property.

(4) “Passive activity expenditure” means an expenditure that is taken into account under section 469 in computing income or loss from a passive activity of the taxpayer or an expenditure (including an expenditure properly chargeable to capital account) that would be so taken into account if such expenditure were otherwise deductible. For purposes of this section, the term “passive activity expenditure” does not include any expenditure with respect to any low-income housing project in any taxable year in which any benefit is allowed with respect to such project under section 502 of the Tax Reform Act of 1986.

(5) “Personal expenditure” means an expenditure that is not a trade or business expenditure, a passive activity expenditure, or an investment expenditure.

(6) “Portfolio expenditure” means an investment expenditure properly chargeable to capital account with respect to property producing income of a type described in section 469(e)(1)(A) or an investment expenditure for an expense clearly and directly allocable to such income.

(7) “Trade or business expenditure” means an expenditure (other than a passive activity expenditure or an investment expenditure) in connection with the conduct of any trade or business other than the trade or business of performing services as an employee.

(c) *Allocation of debt and interest expense*—(1) *Allocation in accordance with use of proceeds.* Debt is allocated to expenditures in accordance with the use of the debt proceeds and, except as provided in paragraph (m) of this section, interest expense accruing on a debt during any period is allocated to expenditures in the same manner as the debt is allocated from time to time during such period. Except as provided in paragraph (m) of this section, debt proceeds and related interest expense are allocated solely by reference to the use of such proceeds, and the allocation is not affected by the use of an interest in any property to secure the repayment of such debt or interest. The following example illustrates the principles of this paragraph (c)(1):

Example. Taxpayer A, an individual, pledges corporate stock held for investment as security for a loan and uses the debt proceeds to purchase an automobile for personal use. Interest expense accruing on the debt is allocated to the personal expenditure to purchase the automobile even though the debt is secured by investment property.

(2) *Allocation period*—(i) *Allocation of debt.* Debt is allocated to an expenditure for the period beginning on the date the proceeds of the debt are used or treated as used under the rules of this section to make the expenditure and ending on the earlier of—

(A) The date the debt is repaid; or

(B) The date the debt is reallocated in accordance with the rules in paragraphs (c)(4) and (j) of this section.

(ii) *Allocation of interest expense*—(A) *In general.* Except as otherwise provided in paragraph (m) of this section, interest expense accruing on a debt for any period is allocated in the same manner as the debt is allocated from time to time, regardless of when the interest is paid.

(B) *Effect of compounding.* Accrued interest is treated as a debt until it is paid and any interest accruing on unpaid interest is allocated in the same manner as the unpaid interest is allocated. For the taxable year in which a debt is reallocated under the rules in paragraphs (c)(4) and (j) of this section, however, compound interest accruing on such debt (other than compound interest accruing on interest that accrued before the beginning of the year) may be allocated between the original expenditure and the new expenditure on a straight-line basis (*i.e.*, by allocating an equal amount of such interest expense to each day during the taxable year). In addition, a taxpayer may treat a year as consisting of 12 30-day months for purposes of allocating interest on a straight-line basis.

(C) *Accrual of interest expense.* For purposes of this paragraph (c)(2)(ii), the amount of interest expense that accrues during any period is determined by taking into account relevant provisions of the loan agreement and any applicable law such as sections 163(e), 483, and 1271 through 1275.

(iii) *Examples.* The following examples illustrate the principles of this paragraph (c)(2):

Example 1. (i) On January 1, taxpayer B, a calendar year taxpayer, borrows \$1,000 at an interest rate of 11 percent, compounded semiannually. B immediately uses the debt proceeds to purchase an investment security. On July 1, B sells the investment security for \$1,000 and uses the sales proceeds to make a passive activity expenditure. On December 31, B pays accrued interest on the \$1,000 debt for the entire year.

(ii) Under this paragraph (c)(2) and paragraph (j) of this section, the \$1,000 debt is al-

located to the investment expenditure for the period from January 1 through June 30, and to the passive activity expenditure from July 1 through December 31. Interest expense accruing on the \$1,000 debt is allocated in accordance with the allocation of the debt from time to time during the year even though the debt was allocated to the passive activity expenditure on the date the interest was paid. Thus, the \$55 interest expense for the period from January 1 through June 30 is allocated to the investment expenditure. In addition, during the period from July 1 through December 31, the interest expense allocated to the investment expenditure is a debt, the proceeds of which are treated as used to make an investment expenditure. Accordingly, an additional \$3 of interest expense for the period from July 1 through December 31 ($\$55 \times .055$) is allocated to the investment expenditure. The remaining \$55 of interest expense for the period from July 1 through December 31 ($\$1,000 \times .055$) is allocated to the passive activity expenditure.

(iii) Alternatively, under the rule in paragraph (c)(2)(ii)(B) of this section, B may allocate the interest expense on a straight-line basis and may also treat the year as consisting of 12 30-day months for this purpose. In that case, \$56.50 of interest expense ($180/360 \times \$113$) would be allocated to the investment expenditure and the remaining \$56.50 of interest expense would be allocated to the passive activity expenditure.

Example 2. On January 1, 1988, taxpayer C borrows \$10,000 at an interest rate of 11 percent, compounded annually. All interest and principal on the debt is payable in a lump sum on December 31, 1992. C immediately uses the debt proceeds to make a passive activity expenditure. C materially participates in the activity in 1990, 1991, and 1992. Therefore, under paragraphs (c)(2) (i) and (j) of this section, the debt is allocated to a passive activity expenditure from January 1, 1988, through December 31, 1989, and to a former passive activity expenditure from January 1, 1990, through December 31, 1992. In accordance with the loan agreement (and consistent with § 1.1272-1(d)(1) of the proposed regulations, 51 FR 12022, April 8, 1986), interest expense accruing during any period is determined on the basis of annual compounding. Accordingly, the interest expense on the debt is allocated as follows:

Year	Amount		Expenditure
1988	$\$10,000 \times .11$	\$1,100	Passive activity.
1989	$11,100 \times .11$	1,221	Passive activity.
1990	$12,321 \times .11 = 1,355$		
	$1,355 \times 2,321/12,321$	255	Passive activity.
	$1,355 \times 10,000/12,321$	1,100	Former passive activity.
		1,355	
1991	$13,676 \times .11 = 1,504$		

Year	Amount		Expenditure
1992	$1,504 \times 2,576/13,676$	283	Passive activity.
	$1,504 \times 11,100/13,676$	1,221	Former passive activity.
		1,504	
	$15,180 \times .11 = 1,670$		
	$1,670 \times 2,859/15,180$	315	Passive activity.
	$1,670 \times 12,321/15,180$	1,355	Former passive activity.
		1,670	

(3) *Allocation of debt; proceeds not disbursed to borrower*—(i) *Third-party financing*. If a lender disburses debt proceeds to a person other than the borrower in consideration for the sale or use of property, for services, or for any other purpose, the debt is treated for purposes of this section as if the borrower used an amount of the debt proceeds equal to such disbursement to make an expenditure for such property, services, or other purpose.

(ii) *Debt assumptions not involving cash disbursements*. If a taxpayer incurs or assumes a debt in consideration for the sale or use of property, for services, or for any other purpose, or takes property subject to a debt, and no debt proceeds are disbursed to the taxpayer, the debt is treated for purposes of this section as if the taxpayer used an amount of the debt proceeds equal to the balance of the debt outstanding at such time to make an expenditure for such property, services, or other purpose.

(4) *Allocation of debt; proceeds deposited in borrower's account*—(i) *Treatment of deposit*. For purposes of this section, a deposit of debt proceeds in an account is treated as an investment expenditure, and amounts held in an account (whether or not interest bearing) are treated as property held for investment. Debt allocated to an account under this paragraph (c)(4)(i) must be reallocated as required by paragraph (j) of this section whenever debt proceeds held in the account are used for another expenditure. This paragraph (c)(4) provides rules for determining when debt proceeds are expended from the account. The following example illustrates the principles of this paragraph (c)(4)(i):

Example. Taxpayer C, a calendar year taxpayer, borrows \$100,000 on January 1 and immediately uses the proceeds to open a non-

interest-bearing checking account. No other amounts are deposited in the account during the year, and no portion of the principal amount of the debt is repaid during the year. On April 1, C uses \$20,000 of the debt proceeds held in the account for a passive activity expenditure. On September 1, C uses an additional \$40,000 of the debt proceeds held in the account for a personal expenditure. Under this paragraph (c)(4)(i), from January 1 through March 31 the entire \$100,000 debt is allocated to an investment expenditure for the account. From April 1 through August 31, \$20,000 of the debt is allocated to the passive activity expenditure, and \$80,000 of the debt is allocated to the investment expenditure for the account. From September 1 through December 31, \$40,000 of the debt is allocated to the personal expenditure, \$20,000 is allocated to the passive activity expenditure, and \$40,000 is allocated to an investment expenditure for the account.

(ii) *Expenditures from account; general ordering rule*. Except as provided in paragraph (c)(4)(iii) (B) or (C) of this section, debt proceeds deposited in an account are treated as expended before—

(A) Any unborrowed amounts held in the account at the time such debt proceeds are deposited; and

(B) Any amounts (borrowed or unborrowed) that are deposited in the account after such debt proceeds are deposited.

The following example illustrates the application of this paragraph (c)(4)(ii):

Example. On January 10, taxpayer E opens a checking account, depositing \$500 of proceeds of Debt A and \$1,000 of unborrowed funds. The following chart summarizes the transactions which occur during the year with respect to the account:

Date	Transaction
Jan. 10	\$500 proceeds of Debt A and \$1,000 unborrowed funds deposited.
Jan. 11	\$500 proceeds of Debt B deposited.
Feb. 17	\$800 personal expenditure.
Feb. 26	\$700 passive activity expenditure.
June 21	\$1,000 proceeds of Debt C deposited.
Nov. 24	\$800 investment expenditure.

Date	Transaction
Dec. 20	\$600 personal expenditure.

The \$800 personal expenditure is treated as made from the \$500 proceeds of Debt A and \$300 of the proceeds of Debt B. The \$700 passive activity expenditure is treated as made from the remaining \$200 proceeds of Debt B and \$500 of unborrowed funds. The \$800 investment expenditure is treated as made entirely from the proceeds of Debt C. The \$600 personal expenditure is treated as made from the remaining \$200 proceeds of Debt C and \$400 of unborrowed funds. Under paragraph (c)(4)(i) of this section, debt is allocated to an investment expenditure for periods during which debt proceeds are held in the account.

(iii) *Expenditures from account; supplemental ordering rules*—(A) *Checking or similar accounts*. Except as otherwise provided in this paragraph (c)(4)(iii), an expenditure from a checking or similar account is treated as made at the time the check is written on the account, provided the check is delivered or mailed to the payee within a reasonable period after the writing of the check. For this purpose, the taxpayer may treat checks written on the same day as written in any order. In the absence of evidence to the contrary, a check is presumed to be written on the date appearing on the check and to be delivered or mailed to the payee within a reasonable period thereafter. Evidence to the contrary may include the fact that a check does not clear within a reasonable period after the date appearing on the check.

(B) *Expenditures within 15 days after deposit of borrowed funds*. The taxpayer may treat any expenditure made from an account within 15 days after debt proceeds are deposited in such account as made from such proceeds to the extent thereof even if under paragraph (c)(4)(ii) of this section the debt proceeds would be treated as used to make one or more other expenditures. Any such expenditures and the debt proceeds from which such expenditures are treated as made are disregarded in applying paragraph (c)(4)(ii) of this section. The following examples illustrate the application of this paragraph (c)(4)(iii)(B):

Example 1. Taxpayer D incurs a \$1,000 debt on June 5 and immediately deposits the proceeds in an account (“Account A”). On June 17, D transfers \$2,000 from Account A to an-

other account (“Account B”). On June 30, D writes a \$1,500 check on Account B for a passive activity expenditure. In addition, numerous deposits of borrowed and unborrowed amounts and expenditures occur with respect to both accounts throughout the month of June. Notwithstanding these other transactions, D may treat \$1,000 of the deposit to Account B on June 17 as an expenditure from the debt proceeds deposited in Account A on June 5. In addition, D may similarly treat \$1,000 of the passive activity expenditure on June 30 as made from debt proceeds treated as deposited in Account B on June 17.

Example 2. The facts are the same as in the example in paragraph (c)(4)(ii) of this section, except that the proceeds of Debt B are deposited on February 11 rather than on January 11. Since the \$700 passive activity expenditure occurs within 15 days after the proceeds of Debt B are deposited in the account, E may treat such expenditure as being made from the proceeds of Debt B to the extent thereof. If E treats the passive activity expenditure in this manner, the expenditures from the account are treated as follows: The \$800 personal expenditure is treated as made from the \$500 proceeds of Debt A and \$300 of unborrowed funds. The \$700 passive activity expenditure is treated as made from the \$500 proceeds of Debt B and \$200 of unborrowed funds. The remaining expenditures are treated as in the example in paragraph (c)(4)(ii) of this section.

(C) *Interest on segregated account*. In the case of an account consisting solely of the proceeds of a debt and interest earned on such account, the taxpayer may treat any expenditure from such account as made first from amounts constituting interest (rather than debt proceeds) to the extent of the balance of such interest in the account at the time of the expenditure, determined by applying the rules in this paragraph (c)(4). To the extent any expenditure is treated as made from interest under this paragraph (c)(4)(iii)(C), the expenditure is disregarded in applying paragraph (c)(4)(ii) of this section.

(iv) *Optional method for determining date of reallocation*. Solely for the purpose of determining the date on which debt allocated to an account under paragraph (c)(4)(i) of this section is reallocated, the taxpayer may treat all expenditures made during any calendar month from debt proceeds in the account as occurring on the later of the first day of such month or the date on which such debt proceeds are deposited in the account. This paragraph

(c)(4)(iv) applies only if all expenditures from an account during the same calendar month are similarly treated. The following example illustrates the application of this paragraph (c)(4)(iv):

Example. On January 10, taxpayer G opens a checking account, depositing \$500 of proceeds of Debt A and \$1,000 of unborrowed funds. The following chart summarizes the transactions which occur during the year with respect to the account (note that these facts are the same as the facts of the example in paragraph (c)(4)(ii) of this section):

Date	Transaction
Jan. 10	\$500 proceeds of Debt A and \$1,000 unborrowed funds deposited.
Jan. 11	\$500 proceeds of Debt B deposited.
Feb. 17	\$800 personal expenditure.
Feb. 26	\$700 passive activity expenditure.
June 21	\$1,000 proceeds of Debt C deposited.
Nov. 24	\$800 investment expenditure.
Dec. 20	\$600 personal expenditure.

Assume that G chooses to apply the optional rule of this paragraph (c)(4)(iv) to all expenditures. For purposes of determining the date on which debt is allocated to the \$800 personal expenditure made on February 17, the \$500 treated as made from the proceeds of Debt A and the \$300 treated as made from the proceeds of Debt B are treated as expenditures occurring on February 1. Accordingly, Debt A is allocated to an investment expenditure for the account from January 10 through January 31 and to the personal expenditure from February 1 through December 31, and \$300 of Debt B is allocated to an investment expenditure for the account from January 10 through January 31 and to the personal expenditure from February 1 through December 31. The remaining \$200 of Debt B is allocated to an investment expenditure for the account from January 11 through January 31 and to the passive activity expenditure from February 1 through December 31. The \$800 of Debt C used to make the investment expenditure on November 24 is allocated to an investment expenditure for the account from June 21 through October 31 and to an investment expenditure from November 1 through December 31. The remaining \$200 of Debt C is allocated to an investment expenditure for the account from June 21 through November 30 and to a personal expenditure from December 1 through December 31.

(v) *Simultaneous deposits*—(A) *In general.* If the proceeds of two or more debts are deposited in an account simultaneously, such proceeds are treated for purposes of this paragraph (c)(4) as deposited in the order in which the debts were incurred.

(B) *Order in which debts incurred.* If two or more debts are incurred simultaneously or are treated under applicable law as incurred simultaneously, the debts are treated for purposes of this paragraph (c)(4)(v) as incurred in any order the taxpayer selects.

(C) *Borrowings on which interest accrues at different rates.* If interest does not accrue at the same fixed or variable rate on the entire amount of a borrowing, each portion of the borrowing on which interest accrues at a different fixed or variable rate is treated as a separate debt for purposes of this paragraph (c)(4)(v).

(vi) *Multiple accounts.* The rules in this paragraph (c)(4) apply separately to each account of a taxpayer.

(5) *Allocation of debt; proceeds received in cash*—(i) *Expenditure within 15 days of receiving debt proceeds.* If a taxpayer receives the proceeds of a debt in cash, the taxpayer may treat any cash expenditure made within 15 days after receiving the cash as made from such debt proceeds to the extent thereof and may treat such expenditure as made on the date the taxpayer received the cash. The following example illustrates the rule in this paragraph (c)(5)(i):

Example. Taxpayer F incurs a \$1,000 debt on August 4 and receives the debt proceeds in cash. F deposits \$1,500 cash in an account on August 15 and on August 27 writes a check on the account for a passive activity expenditure. In addition, F engages in numerous other cash transactions throughout the month of August, and numerous deposits of borrowed and unborrowed amounts and expenditures occur with respect to the account during the same period. Notwithstanding these other transactions, F may treat \$1,000 of the deposit on August 15 as an expenditure made from the debt proceeds on August 4. In addition, under the rule in paragraph (c)(4)(v)(B) of this section, F may treat the passive activity expenditure on August 27 as made from the \$1,000 debt proceeds treated as deposited in the account.

(ii) *Other expenditures.* Except as provided in paragraphs (c)(5) (i) and (iii) of this section, any debt proceeds a taxpayer (other than a corporation) receives in cash are treated as used to make personal expenditures. For purposes of this paragraph (c)(5), debt proceeds are received in cash if, for example, a withdrawal of cash from an account is treated under the rules of this

section as an expenditure of debt proceeds.

(iii) *Special rules for certain taxpayers.* [Reserved]

(6) *Special rules*—(i) *Qualified residence debt.* [Reserved]

(ii) *Debt used to pay interest.* To the extent proceeds of a debt are used to pay interest, such debt is allocated in the same manner as the debt on which such interest accrued is allocated from time to time. The following example illustrates the application of this paragraph (c)(6)(ii):

Example. On January 1, taxpayer H incurs a debt of \$1,000, bearing interest at an annual rate of 10 percent, compounded annually, payable at the end of each year (“Debt A”). H immediately opens a checking account, in which H deposits the proceeds of Debt A. No other amounts are deposited in the account during the year. On April 1, H writes a check for a personal expenditure in the amount of \$1,000. On December 31, H borrows \$100 (“Debt B”) and immediately uses the proceeds of Debt B to pay the accrued interest of \$100 on Debt A. From January 1 through March 31, Debt A is allocated, under the rule in paragraph (c)(4)(i) of this section, to the investment expenditure for the account. From April 1 through December 31, Debt A is allocated to the personal expenditure. Under the rule in paragraph (c)(2)(ii) of this section, \$25 of the interest on Debt A for the year is allocated to the investment expenditure, and \$75 of the interest on Debt A for the year is allocated to the personal expenditure. Accordingly, for the purpose of allocating the interest on Debt B for all periods until Debt B is repaid, \$25 of Debt B is allocated to the investment expenditure, and \$75 of Debt B is allocated to the personal expenditure.

(iii) *Debt used to pay borrowing costs*—

(A) *Borrowing costs with respect to different debt.* To the extent the proceeds of a debt (the “ancillary debt”) are used to pay borrowing costs (other than interest) with respect to another debt (the “primary debt”), the ancillary debt is allocated in the same manner as the primary debt is allocated from time to time. To the extent the primary debt is repaid, the ancillary debt will continue to be allocated in the same manner as the primary debt was allocated immediately before its repayment. The following example illustrates the rule in this paragraph (c)(6)(iii)(A):

Example. Taxpayer I incurs debts of \$60,000 (“Debt A”) and \$10,000 (“Debt B”). I immediately uses \$30,000 of the proceeds of Debt A to make a trade or business expenditure, \$20,000 to make a passive activity expenditure, and \$10,000 to make an investment expenditure. I immediately use \$3,000 of the proceeds of Debt B to pay borrowing costs (other than interest) with respect to Debt A (such as loan origination, loan commitment, abstract, and recording fees) and deposits the remaining \$7,000 in an account. Under the rule in this paragraph (c)(6)(iii)(A), the \$3,000 of Debt B used to pay expenses of incurring Debt A is allocated \$1,500 to the trade or business expenditure ($\$3,000 \times \$30,000/\$60,000$), \$1,000 to the passive activity expenditure ($\$3,000 \times \$20,000/\$60,000$), and \$500 ($\$3,000 \times \$10,000/\$60,000$) to the investment expenditure. The manner in which the \$3,000 of Debt B used to pay expenses of incurring Debt A is allocated may change if the allocation of Debt A changes, but such allocation will be unaffected by any repayment of Debt A. The remaining \$7,000 of Debt B is allocated to an investment expenditure for the account until such time, if any, as this amount is used for a different expenditure.

(B) *Borrowing costs with respect to same debt.* To the extent the proceeds of a debt are used to pay borrowing costs (other than interest) with respect to such debt, such debt is allocated in the same manner as the remaining debt is allocated from time to time. The remaining debt for this purpose is the portion of the debt that is not used to pay borrowing costs (other than interest) with respect to such debt. Any repayment of the debt is treated as a repayment of the debt allocated under this paragraph (c)(6)(iii)(B) and the remaining debt is the same proportion as such amount bear to each other. The following example illustrates the application of this paragraph (c)(6)(iii)(B):

Example. (i) Taxpayer J borrows \$85,000. The lender disburses \$80,000 of this amount to J, retaining \$5,000 for borrowing costs (other than interest) with respect to the loan. J immediately uses \$40,000 of the debt proceeds to make a personal expenditure, \$20,000 to make a passive activity expenditure, and \$20,000 to make an investment expenditure. Under the rule in this paragraph (c)(6)(iii)(B), the \$5,000 used to pay borrowing costs is allocated \$2,500 ($\$5,000 \times \$40,000/\$80,000$) to the personal expenditure, \$1,250 ($\$5,000 \times \$20,000/\$80,000$) to the investment expenditure. The manner in which this \$5,000 is allocated may change if the allocation of the remaining \$80,000 of debt is changed.

(ii) Assume that J repays \$50,000 of the debt. The repayment is treated as a repayment of \$2,941 ($\$50,000 \times \$5,000/\$85,000$) of the debt used to pay borrowing costs and a repayment of \$47,059 ($\$50,000 \times \$80,000/\$85,000$) of the remaining debt. Under paragraph (d) of this section, J is treated as repaying the \$42,500 of debt allocated to the personal expenditure (\$2,500 of debt used to pay borrowing costs and \$40,000 of remaining debt). In addition, assuming that under paragraph (d)(2) J chooses to treat the allocation to the passive activity expenditure as having occurred before the allocation to the investment expenditure, J is treated as repaying \$7,500 of debt allocated to the passive activity expenditure (\$441 of debt used to pay borrowing costs and \$7,059 of remaining debt).

(iv) *Allocation of debt before actual receipt of debt proceeds.* If interest properly accrues on a debt during any period before the debt proceeds are actually received or used to make an expenditure, the debt is allocated to an investment expenditure for such period.

(7) *Antiabuse rules.* [Reserved]

(d) *Debt repayments*—(1) *General ordering rule.* If, at the time any portion of a debt is repaid, such debt is allocated to more than one expenditure, the debt is treated for purposes of this section as repaid in the following order:

(i) Amounts allocated to personal expenditures;

(ii) Amounts allocated to investment expenditures and passive activity expenditures (other than passive activity expenditures described in paragraph (d)(1)(iii) of this section);

(iii) Amounts allocated to passive activity expenditures in connection with a rental real estate activity with respect to which the taxpayer actively participates (within the meaning of section 469(i));

(iv) Amounts allocated to former passive activity expenditures; and

(v) Amounts allocated to trade or business expenditures and to expenditures described in the last sentence of paragraph (b)(4) of this section.

(2) *Supplemental ordering rules for expenditures in same class.* Amounts allocated to two or more expenditures that are described in the subdivision of paragraph (d)(1) of this section (e.g., amounts allocated to different personal expenditures) are treated as repaid in the order in which the amounts were allocated (or reallocated) to such ex-

pensitures. For purposes of this paragraph (d)(2), the taxpayer may treat allocations and reallocations that occur on the same day as occurring in any order (without regard to the order in which expenditures are treated as made under paragraph (c)(4)(iii)(A) of this section).

(3) *Continuous borrowings.* In the case of borrowings pursuant to a line of credit or similar account or arrangement that allows a taxpayer to borrow funds periodically under a single loan agreement—

(i) All borrowings on which interest accrues at the same fixed or variable rate are treated as a single debt; and

(ii) Borrowings or portions of borrowings on which interest accrues at different fixed or variable rates are treated as different debts, and such debts are treated as repaid for purposes of this paragraph (d) in the order in which such borrowings are treated as repaid under the loan agreement.

(4) *Examples.* The following examples illustrate the application of this paragraph (d):

Example 1. Taxpayer B borrows \$100,000 (“Debt A”) on July 12, immediately deposits the proceeds in an account, and uses the debt proceeds to make the following expenditures on the following dates:

August 31—\$40,000 passive activity expenditure #1.

October 5—\$20,000 passive activity expenditure #2.

December 24—\$40,000 personal expenditure.

On January 19 of the following year, B repays \$90,000 of Debt A (leaving \$10,000 of Debt A outstanding). The \$40,000 of Debt A allocated to the personal expenditure, the \$40,000 allocated to passive activity expenditure #1, and \$10,000 of the \$20,000 allocated to passive activity expenditure #2 are treated as repaid.

Example 2. (i) Taxpayer A obtains a line of credit. Interest on any borrowing on the line of credit accrues at the lender’s “prime lending rate” on the date of the borrowing plus two percentage points. The loan documents provide that borrowings on the line of credit are treated as repaid in the order the borrowings were made. A borrows \$30,000 (“Borrowing #1”) on the line of credit and immediately uses \$20,000 of the debt proceeds to make a personal expenditure (“personal expenditure #1”) and \$10,000 to make a trade or business expenditure (“trade or business expenditure #1”). A subsequently borrows another \$20,000 (“Borrowing #2”) on the line of credit and immediately uses \$15,000 of the

debt proceeds to make a personal expenditure (“personal expenditure #2”) and \$5,000 to make a trade or business expenditure (“trade or business expenditure #2”). A then repays \$40,000 of the borrowings.

(ii) If the prime lending rate plus two percentage points was the same on both the date of Borrowing #1 and the date of Borrowing #2, the borrowings are treated for purposes of this paragraph (d) as a single debt, and A is treated as having repaid \$35,000 of debt allocated to personal expenditure #1 and personal expenditure #2, and \$5,000 of debt allocated to trade or business expenditure #1.

(iii) If the prime lending rate plus two percentage points was different on the date of Borrowing #1 and Borrowing #2, the borrowings are treated as two debts, and, in accordance with the loan agreement, the \$40,000 repaid amount is treated as a repayment of Borrowing #1 and \$10,000 of Borrowing #2. Accordingly, A is treated as having repaid \$20,000 of debt allocated to personal expenditure #1, \$10,000 of debt allocated to trade or business expenditure #1, and \$10,000 of debt allocated to personal expenditure #2.

(e) *Debt refinancings*—(1) *In general.* To the extent proceeds of any debt (the “replacement debt”) are used to repay any portion of a debt, the replacement debt is allocated to the expenditures to which the repaid debt was allocated. The amount of replacement debt allocated to any such expenditure is equal to the amount of debt allocated to such expenditure that was repaid with proceeds of the replacement debt. To the extent proceeds of the replacement debt are used for expenditures other than repayment of a debt, the replacement debt is allocated to expenditures in accordance with the rules of this section.

(2) *Example.* The following example illustrates the application of this paragraph (e):

Example. Taxpayer C borrows \$100,000 (“Debt A”) on July 12, immediately deposits the debt proceeds in an account, and uses the proceeds to make the following expenditures on the following dates (note that the facts of this example are the same as the facts of example (1) in paragraph (d)(4) of this section):

August 31—\$40,000 passive activity expenditure #1.

October 5—\$20,000 passive activity expenditure #2.

December 24—\$40,000 personal expenditure #1.

On January 19 of the following year, C borrows \$120,000 (“Debt B”) and uses \$90,000 of the proceeds of repay \$90,000 of Debt A (leaving \$10,000 of Debt A outstanding). In addition, C uses \$30,000 of the proceeds of Debt B to make a personal expenditure (“personal expenditure #2”). Debt B is allocated \$40,000 to personal expenditure #1, \$40,000 to passive activity expenditure #1, \$10,000 to passive activity expenditure #2, and \$30,000 to personal expenditure #2. Under paragraph (d)(1) of this section, Debt B will be treated as repaid in the following order: (1) amounts allocated to personal expenditure #1, (2) amounts allocated to personal expenditure #2, (3) amounts allocated to passive activity expenditure #1, and (4) amounts allocated to passive activity expenditure #2.

(f) *Debt allocated to distributions by passthrough entities.* [Reserved]

(g) *Repayment of passthrough entity debt.* [Reserved]

(h) *Debt allocated to expenditures for interests in passthrough entities.* [Reserved]

(i) *Allocation of debt to loans between passthrough entities and interest holders.* [Reserved]

(j) *Reallocation of debt*—(1) *Debt allocated to capital expenditures*—(i) *Time of reallocation.* Except as provided in paragraph (j)(2) of this section, debt allocated to an expenditure properly chargeable to capital account with respect to an asset (the “first expenditure”) is reallocated to another expenditure on the earlier of—

(A) The date on which proceeds from a disposition of such asset are used for another expenditure; or

(B) The date on which the character of the first expenditure changes (e.g., from a passive activity expenditure to an expenditure that is not a passive activity expenditure) by reason of a change in the use of the asset with respect to which the first expenditure was capitalized.

(ii) *Limitation on amount reallocated.* The amount of debt reallocated under paragraph (j)(1)(i)(A) of this section may not exceed the proceeds from the disposition of the asset. The amount of debt reallocated under paragraph (j)(1)(i)(B) of this section may not exceed the fair market value of the asset on the date of the change in use. In applying this paragraph (j)(1)(ii) with respect to a debt in any case in which

two or more debts are allocable to expenditures properly chargeable to capital account with respect to the same asset, only a ratable portion (determined with respect to any such debt by dividing the amount of such debt by the aggregate amount of all such debts) of the fair market value or proceeds from the disposition of such asset shall be taken into account.

(iii) *Treatment of loans made by the taxpayer.* Except as provided in paragraph (j)(1)(iv) of this section, an expenditure to make a loan is treated as an expenditure properly chargeable to capital account with respect to an asset, and for purposes of paragraph (j)(1)(i)(A) of this section any repayment of the loan is treated as a disposition of the asset. Paragraph (j)(3) of this section applies to any repayment of a loan in installments.

(iv) *Treatment of accounts.* Debt allocated to an account under paragraph (c)(4)(i) of this section is treated as allocated to an expenditure properly chargeable to capital account with respect to an asset, and any expenditure from the account is treated as a disposition of the asset. See paragraph (c)(4) of this section for rules under which debt proceeds allocated to an account are treated as used for another expenditure.

(2) *Disposition proceeds in excess of debt.* If the proceeds from the disposition of an asset exceed the amount of debt reallocated by reason of such disposition, or two or more debts are reallocated by reason of the disposition of an asset, the proceeds of the disposition are treated as an account to which the rules in paragraph (c)(4) of this section apply.

(3) *Special rule for deferred payment sales.* If any portion of the proceeds of a disposition of an asset are received subsequent to the disposition—

(i) The portion of the proceeds to be received subsequent to the disposition is treated for periods prior to the receipt as used to make an investment expenditure; and

(ii) Debt reallocated by reason of the disposition is allocated to such investment expenditure to the extent such debt exceeds the proceeds of the disposition previously received (other than proceeds used to repay such debt).

(4) *Examples.* The following examples illustrate the application of this paragraph (j):

Example 1. On January 1, 1988, taxpayer D sells an asset for \$25,000. Immediately before the sale, the amount of debt allocated to expenditures properly chargeable to capital account with respect to the asset was \$15,000. The proceeds of the disposition are treated as an account consisting of \$15,000 of debt proceeds and \$10,000 of unborrowed funds to which paragraph (c)(4) of this section applies. Thus, if D immediately makes a \$10,000 personal expenditure from the proceeds and within 15 days deposits the remaining proceeds in an account, D may, pursuant to paragraph (c)(4)(iii)(B) of this section, treat the entire \$15,000 deposited in the account as proceeds of a debt.

Example 2. The facts are the same as in example (1) except that, instead of receiving all \$25,000 of the sale proceeds on January 1, 1988, D receives 5,000 on that date, \$10,000 on January 1, 1989, and \$10,000 on January 1, 1990. D does not use any portion of the sale proceeds to repay the debt. Between January 1, 1988, and December 31, 1988, D is treated under paragraph (j)(3) of this section as making an investment expenditure of \$20,000 to which \$10,000 of debt is allocated. In addition, the remaining \$5,000 of debt is reallocated on January 1, 1988, in accordance with D's use of the sales proceeds received on that date. Between January 1, 1989, and December 31, 1989, D is treated as making an investment expenditure of \$10,000 to which no debt is allocated. In addition, as of January 1, 1989, \$10,000 of debt is reallocated in accordance with D's use of the sales proceeds received on that date.

Example 3. The facts are the same as in example (2), except that D immediately uses the \$5,000 sale proceeds received on January 1, 1988, to repay \$5,000 of the \$15,000 debt. Between January 1, 1988, and December 31, 1988, D is treated as making an investment expenditure of \$20,000 to which the remaining balance (\$10,000) of the debt is reallocated. The results in 1989 are as described in example (2).

(k) *Modification of rules in the case of interest expense allocated to foreign source income.* [Reserved]

(l) [Reserved]

(m) *Coordination with other provisions—(1) Effect of other limitations—(i) In general.* All debt is allocated among expenditures pursuant to the rules in this section, without regard to any

limitations on the deductibility of interest expense on such debt. The applicability of the passive loss and nonbusiness interest limitations to interest on such debt, however, may be affected by other limitations on the deductibility of interest expense.

(ii) *Disallowance provisions.* (Interest expense that is not allowable as a deduction by reason of a disallowance provision (within the meaning of paragraph (m)(7)(ii) of this section) is not taken into account for any taxable year for purposes of applying the passive loss and nonbusiness interest limitations.

(iii) *Deferral provisions.* Interest expense that is not allowable as a deduction for the taxable year in which paid or accrued by reason of a deferral provision (within the meaning of paragraph (m)(7)(iii) of this section) is allocated in the same manner as the debt giving rise to the interest expense is allocated for such taxable year. Such interest expense is taken into account for purposes of applying the passive loss and nonbusiness interest limitations for the taxable year in which such interest expense is allowable under such deferral provision.

(iv) *Capitalization provisions.* Interest expense that is capitalized pursuant to a capitalization provision (within the meaning of paragraph (m)(7)(i) of this section) is not taken into account as interest for any taxable year for purposes of applying the passive loss and nonbusiness interest limitations.

(2) *Effect on other limitations—(i) General rule.* Except as provided in paragraph (m)(2)(ii) of this section, any limitation on the deductibility of an item (other than the passive loss and nonbusiness interest limitations) applies without regard to the manner in which debt is allocated under this section. Thus, for example, interest expense treated under section 265(a)(2) as interest on indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from Federal income tax is not deductible regardless of the expenditure to which the underlying debt is allocated under this section.

(ii) *Exception.* Capitalization provisions (within the meaning of paragraph (m)(7)(i) of this section) do not apply to

interest expense allocated to any personal expenditure under the rules of this section.

(3) *Qualified residence interest.* Qualified residence interest (within the meaning of section 163(h)(3)) is allowable as a deduction without regard to the manner in which such interest expense is allocated under the rules of this section. In addition, qualified residence interest is not taken into account in determining the income or loss from any activity for purposes of section 469 or in determining the amount of investment interest for purposes of section 163(d). The following example illustrates the rule in this paragraph (m)(3):

Example. Taxpayer E, an individual, incurs a \$20,000 debt secured by a residence and immediately uses the proceeds to purchase an automobile exclusively for E's personal use. Under the rules in this section, the debt and interest expense on the debt are allocated to a personal expenditure. If, however, the interest on the debt is qualified residence interest within the meaning of section 163(h)(3), the interest is not treated as personal interest for purposes of section 163(h).

(4) *Interest described in section 163(h)(2)(E).* Interest described in section 163(h)(2)(E) is allowable as a deduction without regard to the rules of this section.

(5) *Interest on deemed distributee debt.* [Reserved]

(6) *Examples.* The following examples illustrate the relationship between the passive loss and nonbusiness interest limitations and other limitations on the deductibility of interest expense:

Example 1. Debt is allocated pursuant to the rules in this section to an investment expenditure for the purchase of taxable investment securities. Pursuant to section 265(a)(2), the debt is treated as indebtedness incurred or continued to purchase or carry obligations the interest on which is wholly exempt from Federal income tax, and, accordingly, interest on the debt is disallowed. If section 265(a)(2) subsequently ceases to apply (because, for example, the taxpayer ceases to hold any tax-exempt obligations), and the debt at such time continues to be allocated to an investment expenditure, interest on the debt that accrues after such time is subject to section 163(d).

Example 2. An accrual method taxpayer incurs a debt payable to a cash method lender who is related to the taxpayer within the meaning of section 267(b). During the period

in which interest on the debt is not deductible by reason of section 267(a)(2), the debt is allocated to a passive activity expenditure. Thus, interest that accrues on the debt for such period is also allocated to the passive activity expenditure. When such interest expense becomes deductible under section 267(a)(2), it will be allocated to the passive activity expenditure, regardless of how the debt is allocated at such time.

Example 3. A taxpayer incurs debt that is allocated under the rules of this section to an investment expenditure. Under section 263A(f), however, interest expense on such debt is capitalized during the production period (within the meaning of section 263A(f)(4)(B)) of property used in a passive activity of the taxpayer. The capitalized interest expense is not allocated to the investment expenditure, and depreciation deductions attributable to the capitalized interest expense are subject to the passive loss limitation as long as the property is used in a passive activity. However, interest expense on the debt for periods after the production period is allocated to the investment expenditure as long as the debt remains allocated to the investment expenditure.

(7) *Other limitations on interest expense*—(i) *Capitalization provisions.* A capitalization provision is any provision that requires or allows interest expense to be capitalized. Capitalization provisions include sections 263(g), 263A(f), and 266.

(ii) *Disallowance provisions.* A disallowance provision is any provision (other than the passive loss and non-business interest limitations) that disallows a deduction for interest expense for all taxable years and is not a capitalization provision. Disallowance provisions include sections 163(f)(2), 264(a)(2), 264(a)(4), 265(a)(2), 265(b)(2), 279(a), 291(e)(1)(B)(ii), 805(b)(1), and 834(c)(5).

(iii) *Deferral provisions.* A deferral provision is any provision (other than the passive loss and nonbusiness interest limitations) that disallows a deduction for interest expense for any taxable year and is not a capitalization or disallowance provision. Deferral provisions include sections 267(a)(2), 465, 1277, and 1282.

(n) *Effective date*—(1) *In general.* This section applies to interest expense paid or accrued in taxable years beginning after December 31, 1986.

(2) *Transitional rule for certain expenditures.* For purposes of determining whether debt is allocated to expendi-

tures made on or before August 3, 1987, paragraphs (c)(4)(iii)(B) and (c)(5)(i) of this section are applied by substituting “90 days” for “15 days.”

(3) *Transitional rule for certain debt*—

(i) *General rule.* Except as provided in paragraph (n)(3)(ii) of this section, any debt outstanding on December 31, 1986, that is properly attributable to a business or rental activity is treated for purposes of this section as debt allocated to expenditures properly chargeable to capital account with respect to the assets held for use or for sale to customers in such business or rental activity. Debt is properly attributable to a business or rental activity for purposes of this section (regardless of whether such debt otherwise would be allocable under this section to expenditures in connection with such activity) if the taxpayer has properly and consistently deducted interest expense (including interest subject to limitation under section 163(d) as in effect prior to the Tax Reform Act of 1986) on such debt on Schedule C, E, or F of Form 1040 in computing income or loss from such business or rental activity for taxable years beginning before January 1, 1987. For purposes of this paragraph (n)(3), amended returns filed after July 2, 1987 are disregarded in determining whether a taxpayer has consistently deducted interest expense on Schedule C, E, or F of Form 1040 in computing income or loss from a business or rental activity.

(ii) *Exceptions*—(A) *Debt financed distributions by passthrough entities.* [Reserved]

(B) *Election out.* This paragraph (n)(3) does not apply with respect to debt of a taxpayer who elects under paragraph (n)(3) (viii) of this section to allocate debt outstanding on December 31, 1986, in accordance with the provisions of this section other than this paragraph (n)(3) (i.e., in accordance with the use of the debt proceeds).

(iii) *Business or rental activity.* For purposes of this paragraph (n)(3), a business or rental activity is any trade or business or rental activity of the taxpayer. For this purpose—

(A) A trade or business includes a business or profession the income and deductions of which (or, in the case of a partner or S corporation shareholder,

the taxpayer's share thereof) are properly reported on Schedule C, E, or F of Form 1040; and

(B) A rental activity includes an activity of renting property the income and deductions of which (or, in the case of a partner or S corporation shareholder, the taxpayer's share thereof) are properly reported on Schedule E of Form 1040.

(iv) *Example.* The following example illustrates the circumstances in which debt is properly attributable to a business or rental activity:

Example. Taxpayer H incurred a debt in 1979 and properly deducted the interest expense on the debt on Schedule C of Form 1040 for each year from 1979 through 1986. Under this paragraph (n) (3), the debt is properly attributable to the business the results of which are reported on Schedule C.

(v) *Allocation requirement—(A) In general.* Debt outstanding on December 31, 1986, that is properly attributable (within the meaning of paragraph (n)(3)(i) of this section) to a business or rental activity must be allocated in a reasonable and consistent manner among the assets held for use or for sale to customers in such activity on the last day of the taxable year that includes December 31, 1986. The taxpayer shall specify the manner in which such debt is allocated by filing a statement in accordance with paragraph (n)(3)(vii) of this section. If the taxpayer does not file such a statement or fails to allocate such debt in a reasonable and consistent manner, the Commissioner shall allocate the debt.

(B) *Reasonable and consistent manner—examples of improper allocation.* For purposes of this paragraph (n)(3)(v), debt is not treated as allocated in a reasonable and consistent manner if—

(1) The amount of debt allocated to goodwill exceeds the basis of the goodwill; or

(2) The amount of debt allocated to an asset exceeds the fair market value of the asset, and the amount of debt allocated to any other asset is less than the fair market value (lesser of basis or fair market value in the case of goodwill) of such other asset.

(vi) *Coordination with other provisions.* The effect of any events occurring after the last day of the taxable year that includes December 31, 1986, shall be de-

termined under the rules of this section, applied by treating the debt allocated to an asset under paragraph (n)(3)(v) of this section as if proceeds of such debt were used to make an expenditure properly chargeable to capital account with respect to such asset on the last day of the taxable year that includes December 31, 1986. Thus, debt that is allocated to an asset in accordance with this paragraph (n)(3) must be reallocated in accordance with paragraph (j) of this section upon the occurrence with respect to such asset of any event described in such paragraph (j). Similarly, such debt is treated as repaid in the order prescribed in paragraph (d) of this section. In addition, a replacement debt (within the meaning of paragraph (e) of this section) is allocated to an expenditure properly chargeable to capital account with respect to an asset to the extent the proceeds of such debt are used to repay the portion of a debt allocated to such asset under this paragraph (n)(3).

(vii) *Form for allocation of debt.* A taxpayer shall allocate debt for purposes of this paragraph (n)(3) by attaching to the taxpayer's return for the first taxable year beginning after December 31, 1986, a statement that is prominently identified as a transitional allocation statement under § 1.163-8T(n)(3) and includes the following information:

(A) A description of the business or rental activity to which the debt is properly attributable;

(B) The amount of debt allocated;

(C) The assets among which the debt is allocated;

(D) The manner in which the debt is allocated;

(E) The amount of debt allocated to each asset; and

(F) Such other information as the Commissioner may require.

(viii) *Form for election out.* A taxpayer shall elect to allocate debt outstanding on December 31, 1986, in accordance with the provisions of this section other than this paragraph (n)(3) by attaching to the taxpayer's return (or amended return) for the first taxable year beginning after December 31, 1986, a statement to that effect, prominently identified as an election out under § 1.163-8T(n)(3).

(ix) *Special rule for partnerships and S corporations.* For purposes of paragraph (n)(3)(ii)(B), (v), (vii) and (viii) of this section (relating to the allocation of debt and election out), a partnership or S corporation shall be treated as the taxpayer with respect to the debt of the partnership or S corporation.

(x) *Irrevocability.* An allocation or election filed in accordance with paragraph (n)(3) (vii) or (viii) of this section may not be revoked or modified except with the consent of the Commissioner.

[T.D. 8145, 52 FR 24999, July 2, 1987, as amended by T.D. 8145, 62 FR 40270, July 28, 1997]

§ 1.163-9T Personal interest (temporary).

(a) *In general.* No deduction under any provision of Chapter 1 of the Internal Revenue Code shall be allowed for personal interest paid or accrued during the taxable year by a taxpayer other than a corporation.

(b) *Personal interest—(1) Definition.* For purposes of this section, personal interest is any interest expense other than—

(i) Interest paid or accrued on indebtedness properly allocable (within the meaning of § 1.163-8T) to the conduct of trade or business (other than the trade or business of performing services as an employee),

(ii) Any investment interest (within the meaning of section 163(d)(3)),

(iii) Any interest that is taken into account under section 469 in computing income or loss from a passive activity of the taxpayer,

(iv) Any qualified residence interest (within the meaning of section 163(h)(3) and § 1.163-10T), and

(v) Any interest payable under section 6601 with respect to the unpaid portion of the tax imposed by section 2001 for the period during which an extension of time for payment of such tax is in effect under section 6163, 6166, or 6166A (as in effect before its repeal by the Economic Recovery Tax Act of 1981).

(2) *Interest relating to taxes—(i) In general.* Except as provided in paragraph (b)(2)(iii) of this section, personal interest includes interest—

(A) Paid on underpayments of individual Federal, State or local income taxes and on indebtedness used to pay

such taxes (within the meaning of § 1.163-8T), regardless of the source of the income generating the tax liability;

(B) Paid under section 453(e)(4)(B) (interest on deferred tax resulting from certain installment sales) and section 1291(c) (interest on deferred tax attributable to passive foreign investment companies); or

(C) Paid by a trust, S corporation, or other pass-through entity on underpayments of State or local income taxes and on indebtedness used to pay such taxes.

(ii) *Example.* A, an individual, owns stock of an S corporation. On its return for 1987, the corporation underreports its taxable income. Consequently, A underreports A's share of that income on A's tax return. In 1989, A pays the resulting deficiency plus interest to the Internal Revenue Service. The interest paid by A in 1989 on the tax deficiency is personal interest, notwithstanding the fact that the additional tax liability may have arisen out of income from a trade or business. The result would be the same if A's business had been operated as a sole proprietorship.

(iii) *Certain other taxes.* Personal interest does not include interest—

(A) Paid with respect to sales, excise and similar taxes that are incurred in connection with a trade or business or an investment activity;

(B) Paid by an S corporation with respect to an underpayment of income tax from a year in which the S corporation was a C corporation or with respect to an underpayment of the taxes imposed by sections 1374 or 1375, or similar provision of State law; or

(C) Paid by a transferee under section 6901 (tax liability resulting from transferred assets), or a similar provision of State law, with respect to a C corporation's underpayment of income tax.

(3) *Cross references.* See § 1.163-8T for rules for determining the allocation of interest expense to various activities. See § 1.163-10T for rules concerning qualified residence interest.

(c) *Effective date—(1) In general.* The provisions of this section are effective for taxable years beginning after December 31, 1986. In the case of any taxable year beginning in calendar years

§ 1.163-10T

26 CFR Ch. I (4-1-22 Edition)

1987 through 1990, the amount of personal interest that is nondeductible under this section is limited to the applicable percentage of such amount.

(2) *Applicable percentages.* The applicable percentage for taxable years beginning in 1987 through 1990 are as follows:

1987:	35 percent
1988:	60 percent
1989:	80 percent
1990:	90 percent

[T.D. 8168, 52 FR 48409, Dec. 22, 1987; 68 FR 13226, Mar. 19, 2003]

§ 1.163-10T Qualified residence interest (temporary).

(a) *Table of contents.* This paragraph (a) lists the major paragraphs that appear in this § 1.163-10T.

- (a) Table of contents.
- (b) Treatment of qualified residence interest.
- (c) Determination of qualified residence interest when secured debt does not exceed the adjusted purchase price.
 - (1) In general.
 - (2) Examples.
- (d) Determination of qualified residence interest when secured debt exceeds adjusted purchase price—Simplified method.
 - (1) In general.
 - (2) Treatment of interest paid or accrued on secured debt that is not qualified residence interest.
 - (3) Example.
- (e) Determination of qualified residence interest when secured debt exceeds adjusted purchase price—Exact method.
 - (1) In general.
 - (2) Determination of applicable debt limit.
 - (3) Example.
 - (4) Treatment of interest paid or accrued with respect to secured debt that is not qualified residence interest.
 - (i) In general.
 - (ii) Example.
 - (iii) Special rule of debt is allocated to more than one expenditure.
 - (iv) Example.
 - (f) Special rules.
 - (1) Special rules for personal property.
 - (i) In general.
 - (ii) Example.
 - (2) Special rule for real property.
 - (i) In general.
 - (ii) Example.
 - (g) Selection of method.
 - (h) Average balance.
 - (1) Average balance defined.
 - (2) Average balance reported by lender.
 - (3) Average balance computed on a daily basis.

- (i) In general.
- (ii) Example.
- (4) Average balance computed using the interest rate.
 - (i) In general.
 - (ii) Points and prepaid interest.
 - (iii) Examples.
- (5) Average balance computed using average of beginning and ending balance.
 - (i) In general.
 - (ii) Example.
- (6) Highest principal balance.
- (7) Other methods provided by the Commissioner.
- (8) Anti-abuse rule.
- (i) [Reserved]
- (j) Determination of interest paid or accrued during the taxable year.
 - (1) In general.
 - (2) Special rules for cash-basis taxpayers.
 - (i) Points deductible in year paid under section 461(g)(2).
 - (ii) Points and other prepaid interest described in section 461(g)(1).
 - (3) Examples.
 - (k) Determination of adjusted purchase price and fair market value.
 - (1) Adjusted purchase price.
 - (i) In general.
 - (ii) Adjusted purchase price of a qualified residence acquired incident to divorce.
 - (iii) Examples.
 - (2) Fair market value.
 - (i) In general.
 - (ii) Examples.
 - (3) Allocation of adjusted purchase price and fair market value.
 - (1) [Reserved]
 - (m) Grandfathered amount.
 - (1) Substitution for adjusted purchase price.
 - (2) Determination of grandfathered amount.
 - (i) In general.
 - (ii) Special rule for lines of credit and certain other debt.
 - (iii) Fair market value limitation.
 - (iv) Examples.
 - (3) Refinancing of grandfathered debt.
 - (i) In general.
 - (ii) Determination of grandfathered amount.
 - (4) Limitation on terms of grandfathered debt.
 - (i) In general.
 - (ii) Special rule for nonamortizing debt.
 - (iii) Example.
 - (n) Qualified indebtedness (secured debt used for medical and educational purposes).
 - (1) In general.
 - (i) Treatment of qualified indebtedness.
 - (ii) Determination of amount of qualified indebtedness.
 - (iii) Determination of amount of qualified indebtedness for mixed-use debt.
 - (iv) Example.

- (v) Prevention of double counting in year of refinancing.
- (vi) Special rule for principal payments in excess of qualified expenses.
- (2) Debt used to pay for qualified medical or educational expenses.
 - (i) In general.
 - (ii) Special rule for refinancing.
 - (iii) Other special rules.
 - (iv) Examples.
- (3) Qualified medical expenses.
- (4) Qualified educational expenses.
 - (o) Secured debt.
 - (1) In general.
 - (2) Special rule for debt in certain States.
 - (3) Time at which debt is treated as secured.
 - (4) Partially secured debt.
 - (i) In general.
 - (ii) Example.
 - (5) Election to treat debt as not secured by a qualified residence.
 - (i) In general.
 - (ii) Example.
 - (iii) Allocation of debt secured by two qualified residences.
 - (p) Definition of qualified residence.
 - (1) In general.
 - (2) Principal residence.
 - (3) Second residence.
 - (i) In general.
 - (ii) Definition of residence.
 - (iii) Use as a residence.
 - (iv) Election of second residence.
 - (4) Allocations between residence and other property.
 - (i) In general.
 - (ii) Special rule for rental of residence.
 - (iii) Examples.
 - (5) Residence under construction.
 - (i) In general.
 - (ii) Example.
 - (6) Special rule for the time-sharing arrangements.
 - (q) Special rules for tenant-stockholders in cooperative housing corporations.
 - (1) In general.
 - (2) Special rule where stock may not be used to secure debt.
 - (3) Treatment of interest expense of the cooperative described in section 216(a)(2).
 - (4) Special rule to prevent tax avoidance.
 - (5) Other definitions.
 - (r) Effective date.

(b) *Treatment of qualified residence interest.* Except as provided below, qualified residence interest is deductible under section 163(a). Qualified residence interest is not subject to limitation or otherwise taken into account under section 163(d) (limitation on investment interest), section 163(h)(1) (disallowance of deduction for personal interest), section 263A (capitalization and inclusion in inventory costs of cer-

tain expenses) or section 469 (limitations on losses from passive activities). Qualified residence interest is subject to the limitation imposed by section 263(g) (certain interest in the case of straddles), section 264(a) (2) and (4) (interest paid in connection with certain insurance), section 265(a)(2) (interest relating to tax-exempt income), section 266 (carrying charges), section 267(a)(2) (interest with respect to transactions between related taxpayers) section 465 (deductions limited to amount at risk), section 1277 (deferral of interest deduction allocable to accrued market discount), and section 1282 (deferral of interest deduction allocable to accrued discount).

(c) *Determination of qualified residence interest when secured debt does not exceed adjusted purchase price—(1) In general.* If the sum of the average balances for the taxable year of all secured debts on a qualified residence does not exceed the adjusted purchase price (determined as of the end of the taxable year) of the qualified residence, all of the interest paid or accrued during the taxable year with respect to the secured debts is qualified residence interest. If the sum of the average balances for the taxable year of all secured debts exceeds the adjusted purchase price of the qualified residences (determined as of the end of the taxable year), the taxpayer must use either the simplified method (see paragraph (d) of this section) or the exact method (see paragraph (e) of this section) to determine the amount of interest that is qualified residence interest.

(2) *Examples.*

Example 1. T purchases a qualified residence in 1987 for \$65,000. T pays \$6,500 in cash and finances the remainder of the purchase with a mortgage of \$58,500. In 1988, the average balance of the mortgage is \$58,000. Because the average balance of the mortgage is less than the adjusted purchase price of the residence (\$65,000), all of the interest paid or accrued during 1988 on the mortgage is qualified residence interest.

Example 2. The facts are the same as in example (1), except that T incurs a second mortgage on January 1, 1988, with an initial principal balance of \$2,000. The average balance of the second mortgage in 1988 is \$1,900. Because the sum of the average balance of the first and second mortgages (\$59,900) is less than the adjusted purchase price of the residence (\$65,000), all of the interest paid or

accrued during 1988 on both the first and second mortgages is qualified residence interest.

Example 3. P borrows \$50,000 on January 1, 1988 and secures the debt by a qualified residence. P pays the interest on the debt monthly, but makes no principal payments in 1988. There are no other debts secured by the residence during 1988. On December 31, 1988, the adjusted purchase price of the residence is \$40,000. The average balance of the debt in 1988 is \$50,000. Because the average balance of the debt exceeds the adjusted purchase price (\$10,000), some of the interest on the debt is not qualified residence interest. The portion of the total interest that is qualified residence interest must be determined in accordance with the rules of paragraph (d) or paragraph (e) of this section.

(d) *Determination of qualified residence interest when secured debt exceeds adjusted purchase price—Simplified method—(1) In general.* Under the simplified method, the amount of qualified residence interest for the taxable year is equal to the total interest paid or accrued during the taxable year with respect to all secured debts multiplied by a fraction (not in excess of one), the numerator of which is the adjusted purchase price (determined as of the end of the taxable year) of the qualified residence and the denominator of which is the sum of the average balances of all secured debts.

(2) *Treatment of interest paid or accrued on secured debt that is not qualified residence interest.* Under the simplified method, the excess of the total interest paid or accrued during the taxable year with respect to all secured debts over the amount of qualified residence interest is personal interest.

(3) *Example.*

Example. R's principal residence has an adjusted purchase price on December 31, 1988, of \$105,000. R has two debts secured by the residence, with the following average balances and interest payments:

Debt	Date secured	Average balance	Interest
Debt 1	June 1983	\$80,000	\$8,000
Debt 2	May 1987	40,000	4,800
Total		120,000	12,800

The amount of qualified residence interest is determined under the simplified method by multiplying the total interest (\$12,800) by a fraction (expressed as a decimal amount) equal to the adjusted purchase price

(\$105,000) of the residence divided by the combined average balances (\$120,000). For 1988, this fraction is equal to 0.875 (\$105,000/\$120,000). Therefore, \$11,200 (\$12,800 × 0.875) of the total interest is qualified residence interest. The remaining \$1,600 in interest (\$12,800 – \$11,200) is personal interest, even if (under the rules of § 1.163-8T) such remaining interest would be allocated to some other category of interest.

(e) *Determination of qualified residence interest when secured debt exceeds adjusted purchase price—Exact method—(1) In general.* Under the exact method, the amount of qualified residence interest for the taxable year is determined on a debt-by-debt basis by computing the applicable debt limit for each secured debt and comparing each such applicable debt limit to the average balance of the corresponding debt. If, for the taxable year, the average balance of a secured debt does not exceed the applicable debt limit for that debt, all of the interest paid or accrued during the taxable year with respect to the debt is qualified residence interest. If the average balance of the secured debt exceeds the applicable debt limit for that debt, the amount of qualified residence interest with respect to the debt is determined by multiplying the interest paid or accrued with respect to the debt by a fraction, the numerator of which is the applicable debt limit for that debt and the denominator of which is the average balance of the debt.

(2) *Determination of applicable debt limit.* For each secured debt, the applicable debt limit for the taxable year is equal to

(i) The lesser of—

(A) The fair market value of the qualified residence as of the date the debt is first secured, and

(B) The adjusted purchase price of the qualified residence as of the end of the taxable year,

(ii) Reduced by the average balance of each debt previously secured by the qualified residence.

For purposes of paragraph (e)(2)(ii) of this section, the average balance of a debt shall be treated as not exceeding the applicable debt limit of such debt. See paragraph (n)(1)(i) of this section for the rule that increases the adjusted purchase price in paragraph (e)(2)(i)(B)

Internal Revenue Service, Treasury

§ 1.163-10T

of this section by the amount of any qualified indebtedness (certain medical and educational debt). See paragraph (f) of this section for special rules relating to the determination of the fair market value of the qualified residence.

(3) *Example.* (i) R's principal residence has an adjusted purchase price

on December 31, 1988, of \$105,000. R has two debts secured by the residence. The average balances and interest payments on each debt during 1988 and fair market value of the residence on the date each debt was secured are as follows:

Debt	Date secured	Fair market value	Average balance	Interest
Debt 1	June 1983	\$100,000	\$80,000	\$8,000
Debt 2	May 1987	140,000	40,000	4,800
Total			120,000	12,800

(ii) The amount of qualified residence interest for 1988 under the exact method is determined as follows. Because there are no debts previously secured by the residence, the applicable debt limit for Debt 1 is \$100,000 (the lesser of the adjusted purchase price as of the end of the taxable year and the fair market value of the residence at the time the debt was secured). Because the average balance of Debt 1 (\$80,000) does not exceed its applicable debt limit (\$100,000), all of the interest paid on the debt during 1988 (\$8,000) is qualified residence interest.

(iii) The applicable debt limit for Debt 2 is \$25,000 (\$105,000 (the lesser of \$140,000 fair market value and \$105,000 adjusted purchase price) reduced by \$80,000 (the average balance of Debt 1)). Because the average balance of Debt 2 (\$40,000) exceeds its applicable debt limit, the amount of qualified residence interest on Debt 2 is determined by multiplying the amount of interest paid on the debt during the year (\$4,800) by a fraction equal to its applicable debt limit divided by its average balance (\$25,000/\$40,000 = 0.625). Accordingly, \$3,000 (\$4,800 × 0.625) of the interest paid in 1988 on Debt 2 is qualified residence interest. The character of the remaining \$1,800 of interest paid on Debt 2 is determined under the rules of paragraph (e)(4) of this section.

(4) *Treatment of interest paid or accrued with respect to secured debt that is not qualified residence interest—(i) In general.* Under the exact method, the excess of the interest paid or accrued during the taxable year with respect to a secured debt over the amount of

qualified residence interest with respect to the debt is allocated under the rules of § 1.163-8T.

(ii) *Example.* T borrows \$20,000 and the entire proceeds of the debt are disbursed by the lender to T's broker to purchase securities held for investment. T secures the debt with T's principal residence. In 1990, T pays \$2,000 of interest on the debt. Assume that under the rules of paragraph (e) of this section, \$1,500 of the interest is qualified residence interest. The remaining \$500 in interest expense would be allocated under the rules of § 1.163-8T. Section 1.163-8T generally allocates debt (and the associated interest expense) by tracing disbursements of the debt proceeds to specific expenditures. Accordingly, the \$500 interest expense on the debt that is not qualified residence interest is investment interest subject to section 163(d).

(iii) *Special rule if debt is allocated to more than one expenditure.* If—

(A) The average balance of a secured debt exceeds the applicable debt limit for that debt, and

(B) Under the rules of § 1.163-8T, interest paid or accrued with respect to such debt is allocated to more than one expenditure,

the interest expense that is not qualified residence interest may be allocated among such expenditures, to the extent of such expenditures, in any manner selected by the taxpayer.

(iv) *Example.* (i) C borrows \$60,000 secured by a qualified residence. C uses (within the meaning of § 1.163-8T) \$20,000 of the proceeds in C's trade or business, \$20,000 to purchase stock held

for investment and \$20,000 for personal purposes. In 1990, C pays \$6,000 in interest on the debt and, under the rules of § 1.163-8T, \$2,000 in interest is allocable to trade or business expenses, \$2,000 to investment expenses and \$2,000 to personal expenses. Assume that under paragraph (e) of this section, \$2,500 of the interest is qualified residence interest and \$3,500 of the interest is not qualified residence interest.

(ii) Under paragraph (e)(4)(iii) of this section, C may allocate up to \$2,000 of the interest that is not qualified residence interest to any of the three categories of expenditures up to a total of \$3,500 for all three categories. Therefore, for example, C may allocate \$2,000 of such interest to C's trade or business and \$1,500 of such interest to the purchase of stock.

(f) *Special rules*—(1) *Special rules for personal property*—(i) *In general.* If a qualified residence is personal property under State law (e.g., a boat or motorized vehicle)—

(A) For purposes of paragraphs (c)(1) and (d)(1) of this section, if the fair market value of the residence as of the date that any secured debt (outstanding during the taxable year) is first secured by the residence is less than the adjusted purchase price as of the end of the taxable year, the lowest such fair market value shall be substituted for the adjusted purchase price.

(B) For purposes of paragraphs (e)(2)(i)(A) and (f)(1)(i)(A) of this section, the fair market value of the residence as of the date the debt is first secured by the residence shall not exceed the fair market value as of any date on which the taxpayer borrows any additional amount with respect to the debt.

(ii) *Example.* D owns a recreational vehicle that is a qualified residence under paragraph (p)(4) of this section. The adjusted purchase price and fair market value of the recreational vehicle is \$20,000 in 1989. In 1989, D establishes a line of credit secured by the recreational vehicle. As of June 1, 1992, the fair market value of the vehicle has decreased to \$10,000. On that day, D borrows an additional amount on the debt by using the line of credit. Although under paragraphs (e)(2)(i) and (f)(1)(i)(A) of this section, fair market

value is determined at the time the debt is first secured, under paragraph (f)(1)(i)(B) of this section, the fair market value is the lesser of that amount or the fair market value on the most recent date that D borrows any additional amount with respect to the line of credit. Therefore, the fair market value with respect to the debt is \$10,000.

(2) *Special rule for real property*—(i) *In general.* For purposes of paragraph (e)(2)(i)(A) of this section, the fair market value of a qualified residence that is real property under State law is presumed irrebuttably to be not less than the adjusted purchase price of the residence as of the last day of the taxable year.

(ii) *Example.* (i) C purchases a residence on August 11, 1987, for \$50,000, incurring a first mortgage. The residence is real property under State law. During 1987, C makes \$10,000 in home improvements. Accordingly, the adjusted purchase price of the residence as of December 31, 1988, is \$60,000. C incurs a second mortgage on May 19, 1988, as of which time the fair market value of the residence is \$55,000.

(ii) For purposes of determining the applicable debt limit for each debt, the fair market value of the residence is generally determined as of the time the debt is first secured. Accordingly, the fair market value would be \$50,000 and \$55,000 with respect to the first and second mortgage, respectively. Under the special rule of paragraph (f)(2)(i) of this section, however, the fair market value with respect to both debts in 1988 is \$60,000, the adjusted purchase price on December 31, 1988.

(g) *Selection of method.* For any taxable year, a taxpayer may use the simplified method (described in paragraph (d) of this section) or the exact method (described in paragraph (e) of this section) by completing the appropriate portion of Form 8598. A taxpayer with two qualified residences may use the simplified method for one residence and the exact method for the other residence.

(h) *Average balance*—(1) *Average balance defined.* For purposes of this section, the term “average balance” means the amount determined under this paragraph (h). A taxpayer is not

required to use the same method to determine the average balance of all secured debts during a taxable year or of any particular secured debt from one year to the next.

(2) *Average balance reported by lender.* If a lender that is subject to section 6050H (returns relating to mortgage interest received in trade or business from individuals) reports the average balance of a secured debt on Form 1098, the taxpayer may use the average balance so reported.

(3) *Average balance computed on a daily basis—(i) In general.* The average balance may be determined by—

(A) Adding the outstanding balance of a debt on each day during the taxable year that the debt is secured by a qualified residence, and

(B) Dividing the sum by the number of days during the taxable year that the residence is a qualified residence.

(ii) *Example.* Taxpayer A incurs a debt of \$10,000 on September 1, 1989, securing the debt with A's principal residence. The residence is A's principal residence during the entire taxable year. A pays current interest on the debt monthly, but makes no principal payments. The debt is, therefore, outstanding for 122 days with a balance each day of \$10,000. The residence is a qualified residence for 365 days. The average balance of the debt for 1989 is \$3,342 ($122 \times \$10,000/365$).

(4) *Average balance computed using the interest rate—(i) In general.* If all accrued interest on a secured debt is paid at least monthly, the average balance of the secured debt may be determined by dividing the interest paid or accrued during the taxable year while the debt is secured by a qualified residence by the annual interest rate on the debt. If the interest rate on a debt varies during the taxable year, the lowest annual interest rate that applies to the debt during the taxable year must be used for purposes of this paragraph (h)(4). If the residence securing the debt is a qualified residence for less than the entire taxable year, the average balance of any secured debt may be determined by dividing the average balance determined under the preceding sentence by the percentage of the taxable year that the debt is secured by a qualified residence.

(ii) *Points and prepaid interest.* For purposes of paragraph (h)(4)(i) of this section, the amount of interest paid during the taxable year does not include any amount paid as points and includes prepaid interest only in the year accrued.

(iii) *Examples.*

Example 1. B has a line of credit secured by a qualified residence for the entire taxable year. The interest rate on the debt is 10 percent throughout the taxable year. The principal balance on the debt changes throughout the year. B pays the accrued interest on the debt monthly. B pays \$2,500 in interest on the debt during the taxable year. The average balance of the debt (\$25,000) may be computed by dividing the total interest paid by the interest rate ($\$25,000 = \$2,500/0.10$).

Example 2. Assume the same facts as in example 1, except that the residence is a qualified residence, and the debt is outstanding, for only one-half of the taxable year and B pays only \$1,250 in interest on the debt during the taxable year. The average balance of the debt may be computed by first dividing the total interest paid by the interest rate ($\$12,500 = \$1,250/0.10$). Second, because the residence is not a qualified residence for the entire taxable year, the average balance must be determined by dividing this amount (\$12,500) by the portion of the year that the residence is qualified (0.50). The average balance is therefore \$25,000 ($\$12,500/0.50$).

(5) *Average balance computed using average of beginning and ending balances—(i) In general.* If—

(A) A debt requires level payments at fixed equal intervals (e.g., monthly, quarterly) no less often than semi-annually during the taxable year,

(B) The taxpayer prepays no more than one month's principal on the debt during the taxable year, and

(C) No new amounts are borrowed on the debt during the taxable year,

the average balance of the debt may be determined by adding the principal balance as of the first day of the taxable year that the debt is secured by the qualified residence and the principal balance as of the last day of the taxable year that the debt is secured by the qualified residence and dividing the sum by 2. If the debt is secured by a qualified residence for less than the entire period during the taxable year that the residence is a qualified residence, the average balance may be determined by multiplying the average balance determined under the preceding sentence

by a fraction, the numerator of which is the number of days during the taxable year that the debt is secured by the qualified residence and the denominator of which is the number of days during the taxable year that the residence is a qualified residence. For purposes of this paragraph (h)(5)(i), the determination of whether payments are level shall disregard the fact that the amount of the payments may be adjusted from time to time to take into account changes in the applicable interest rate.

(ii) *Example.* C borrows \$10,000 in 1988, securing the debt with a second mortgage on a principal residence. The terms of the loan require C to make equal monthly payments of principal and interest so as to amortize the entire loan balance over 20 years. The balance of the debt is \$9,652 on January 1, 1990, and is \$9,450 on December 31, 1990. The average balance of the debt during 1990 may be computed as follows:

Balance on first day of the year: \$9,652
Balance on last day of the year: \$9,450

$$\text{Average balance: } \frac{\$9,652 + \$9,450}{2} = \$9,551$$

(6) *Highest principal balance.* The average balance of a debt may be determined by taking the highest principal balance of the debt during the taxable year.

(7) *Other methods provided by the Commissioner.* The average balance may be determined using any other method provided by the Commissioner by form, publication, revenue ruling, or revenue procedure. Such methods may include methods similar to (but with restrictions different from) those provided in paragraph (h) of this section.

(8) *Anti-abuse rule.* If, as a result of the determination of the average balance of a debt using any of the methods specified in paragraphs (h) (4), (5), or (6) of this section, there is a significant overstatement of the amount of qualified residence interest and a principal purpose of the pattern of payments and borrowing on the debt is to cause the amount of such qualified residence interest to be overstated, the district director may redetermine the average

balance using the method specified under paragraph (h)(3) of this section.

(i) [Reserved]

(j) *Determination of interest paid or accrued during the taxable year—(1) In general.* For purposes of determining the amount of qualified residence interest with respect to a secured debt, the amount of interest paid or accrued during the taxable year includes only interest paid or accrued while the debt is secured by a qualified residence.

(2) *Special rules for cash-basis taxpayers—(i) Points deductible in year paid under section 461(g)(2).* If points described in section 461(g)(2) (certain points paid in respect of debt incurred in connection with the purchase or improvement of a principal residence) are paid with respect to a debt, the amount of such points is qualified residence interest.

(ii) *Points and other prepaid interest described in section 461(g)(1).* The amount of points or other prepaid interest charged to capital account under section 461(g)(1) (prepaid interest) that is qualified residence interest shall be determined under the rules of paragraphs (c) through (e) of this section in the same manner as any other interest paid with respect to the debt in the taxable year to which such payments are allocable under section 461(g)(1).

(3) *Examples.*

Example 1. T designates a vacation home as a qualified residence as of October 1, 1987. The home is encumbered by a mortgage during the entire taxable year. For purposes of determining the amount of qualified residence interest for 1987, T may take into account the interest paid or accrued on the secured debt from October 1, 1987, through December 31, 1987.

Example 2. R purchases a principal residence on June 17, 1987. As part of the purchase price, R obtains a conventional 30-year mortgage, secured by the residence. At closing, R pays 2½ points on the mortgage and interest on the mortgage for the period June 17, 1987 through June 30, 1987. The points are actually paid by R and are not merely withheld from the loan proceeds. R incurs no additional secured debt during 1987. Assuming that the points satisfy the requirements of section 461(g) (2), the entire amount of points and the interest paid at closing are qualified residence interest.

Example 3. (i) On July 1, 1987, W borrows \$120,000 to purchase a residence to use as a vacation home. W secures the debt with the residence. W pays 2 points, or \$2,400. The debt

has a term of 10 years and requires monthly payments of principal and interest. W is permitted to amortize the points at the rate of \$20 per month over 120 months. W elects to treat the residence as a second residence. W has no other debt secured by the residence. The average balance of the debt in each taxable year is less than the adjusted purchase price of the residence. W sells the residence on June 30, 1990, and pays off the remaining balance of the debt.

(ii) W is entitled to treat the following amounts of the points as interest paid on a debt secured by a qualified residence—

1987	\$120 = \$20 × 6 months;
1988	\$240 = \$20 × 12 months;
1989	\$120 = \$20 × 6 months.
Total	\$480

All of the interest paid on the debt, including the allocable points, is qualified residence interest. Upon repaying the debt, the remaining \$1,920 (\$2,400 – \$480) in unamortized points is treated as interest paid in 1990 and, because the average balance of the secured debt in 1990 is less than the adjusted purchase price, is also qualified residence interest.

(k) *Determination of adjusted purchase price and fair market value*—(1) *Adjusted purchase price*—(i) *In general*. For purposes of this section, the adjusted purchase price of a qualified residence is equal to the taxpayer's basis in the residence as initially determined under section 1012 or other applicable sections of the Internal Revenue Code, increased by the cost of any improvements to the residence that have been added to the taxpayer's basis in the residence under section 1016(a)(1). Any other adjustments to basis, including those required under section 1033(b) (involuntary conversions), and 1034(e) (rollover of gain or sale of principal residence) are disregarded in determining the taxpayer's adjusted purchase price. If, for example, a taxpayer's second residence is rented for a portion of the year and its basis is reduced by depreciation allowed in connection with the rental use of the property, the amount of the taxpayer's adjusted purchase price in the residence is not reduced. See paragraph (m) of this section for a rule that treats the sum of the grandfathered amounts of all secured debts as the adjusted purchase price of the residence.

(ii) *Adjusted purchase price of a qualified residence acquired incident to divorce*. [Reserved]

(iii) *Examples*.

Example 1. X purchases a residence for \$120,000. X's basis, as determined under section 1012, is the cost of the property, or \$120,000. Accordingly, the adjusted purchase price of the residence is initially \$120,000.

Example 2. Y owns a principal residence that has a basis of \$30,000. Y sells the residence for \$100,000 and purchases a new principal residence for \$120,000. Under section 1034, Y does not recognize gain on the sale of the former residence. Under section 1034(e), Y's basis in the new residence is reduced by the amount of gain not recognized. Therefore, under section 1034(e), Y's basis in the new residence is \$50,000 (\$120,000 – \$70,000). For purposes of section 163(h), however, the adjusted purchase price of the residence is not adjusted under section 1034(e). Therefore, the adjusted purchase price of the residence is initially \$120,000.

Example 3. Z acquires a residence by gift. The donor's basis in the residence was \$30,000. Z's basis in the residence, determined under section 1015, is \$30,000. Accordingly, the adjusted purchase price of the residence is initially \$30,000.

(2) *Fair market value*—(i) *In general*. For purposes of this section, the fair market value of a qualified residence on any date is the fair market value of the taxpayer's interest in the residence on such date. In addition, the fair market value determined under this paragraph (k)(2)(i) shall be determined by taking into account the cost of improvements to the residence reasonably expected to be made with the proceeds of the debt.

(ii) *Example*. In 1988, the adjusted purchase price of P's second residence is \$65,000 and the fair market value of the residence is \$70,000. At that time, P incurs an additional debt of \$10,000, the proceeds of which P reasonably expects to use to add two bedrooms to the residence. Because the fair market value is determined by taking into account the cost of improvements to the residence that are reasonably expected to be made with the proceeds of the debt, the fair market value of the residence with respect to the debt incurred in 1988 is \$80,000 (\$70,000 + \$10,000).

(3) *Allocation of adjusted purchase price and fair market value*. If a property includes both a qualified residence and other property, the adjusted purchase

price and the fair market value of such property must be allocated between the qualified residence and the other property. See paragraph (p)(4) of this section for rules governing such an allocation.

(1) [Reserved]

(m) *Grandfathered amount*—(1) *Substitution for adjusted purchase price.* If, for the taxable year, the sum of the grandfathered amounts, if any, of all secured debts exceeds the adjusted purchase price of the qualified residence, such sum may be treated as the adjusted purchase price of the residence under paragraphs (c), (d) and (e) of this section.

(2) *Determination of grandfathered amount*—(i) *In general.* For any taxable year, the grandfathered amount of any secured debt that was incurred on or before August 16, 1986, and was secured by the residence continuously from August 16, 1986, through the end of the taxable year, is the average balance of the debt for the taxable year. A secured debt that was not incurred and secured on or before August 16, 1986, has no grandfathered amount.

(ii) *Special rule for lines of credit and certain other debt.* If, with respect to a debt described in paragraph (m)(2)(i) of this section, a taxpayer has borrowed any additional amounts after August 16, 1986, the grandfathered amount of such debt is equal to the lesser of—

(A) The average balance of the debt for the taxable year, or

(B) The principal balance of the debt as of August 16, 1986, reduced (but not below zero) by all principal payments after August 16, 1986, and before the first day of the current taxable year.

For purposes of this paragraph (m)(2)(ii), a taxpayer shall not be considered to have borrowed any additional amount with respect to a debt merely because accrued interest is added to the principal balance of the debt, so long as such accrued interest is paid by the taxpayer no less often than quarterly.

(iii) *Fair market value limitation.* The grandfathered amount of any debt for any taxable year may not exceed the fair market value of the residence on August 16, 1986, reduced by the principal balance on that day of all previously secured debt.

(iv) *Examples.*

Example 1. As of August 16, 1986, T has one debt secured by T's principal residence. The debt is a conventional self-amortizing mortgage and, on August 16, 1986, it has an outstanding principal balance of \$75,000. In 1987, the average balance of the mortgage is \$73,000. The adjusted purchase price of the residence as of the end of 1987 is \$50,000. Because the mortgage was incurred and secured on or before August 16, 1986 and T has not borrowed any additional amounts with respect to the mortgage, the grandfathered amount is the average balance, \$73,000. Because the grandfathered amount exceeds the adjusted purchase price (\$50,000), T may treat the grandfathered amount as the adjusted purchase price in determining the amount of qualified residence interest.

Example 2. (i) The facts are the same as in example (1), except that in May 1986, T also obtains a home equity line of credit that, on August 16, 1986, has a principal balance of \$40,000. In November 1986, T borrows an additional \$10,000 on the home equity line, increasing the balance to \$50,000. In December 1986, T repays \$5,000 of principal on the home equity line. The average balance of the home equity line in 1987 is \$45,000.

(ii) Because T has borrowed additional amounts on the line of credit after August 16, 1986, the grandfathered amount for that debt must be determined under the rules of paragraph (m)(2)(ii) of this section. Accordingly, the grandfathered amount for the line of credit is equal to the lesser of \$45,000, the average balance of the debt in 1987, and \$35,000, the principal balance on August 16, 1986, reduced by all principal payments between August 17, 1986, and December 31, 1986 (\$40,000-\$5,000). The sum of the grandfathered amounts with respect to the residence is \$108,000 (\$73,000 + \$35,000). Because the sum of the grandfathered amounts exceeds the adjusted purchase price (\$50,000), T may treat the sum as the adjusted purchase price in determining the qualified residence interest for 1987.

(3) *Refinancing of grandfathered debt*—

(i) *In general.* A debt incurred and secured on or before August 16, 1986, is refinanced if some or all of the outstanding balance of such a debt (the "original debt") is repaid out of the proceeds of a second debt secured by the same qualified residence (the "replacement debt"). In the case of a refinancing, the replacement debt is treated as a debt incurred and secured on or before August 16, 1986, and the grandfathered amount of such debt is the

amount (but not less than zero) determined pursuant to paragraph (m)(3)(ii) of this section.

(ii) *Determination of grandfathered amount*—(A) *Exact refinancing*. If—

(1) The entire proceeds of a replacement debt are used to refinance one or more original debts, and

(2) The taxpayer has not borrowed any additional amounts after August 16, 1986, with respect to the original debt or debts,

the grandfathered amount of the replacement debt is the average balance of the replacement debt. For purposes of the preceding sentence, the fact that proceeds of a replacement debt are used to pay costs of obtaining the replacement debt (including points or other closing costs) shall be disregarded in determining whether the entire proceeds of the replacement debt have been used to refinance one or more original debts.

(B) *Refinancing other than exact refinancings*—(1) *Year of refinancing*. In the taxable year in which an original debt is refinanced, the grandfathered amount of the original and replacement debts is equal to the lesser of—

(i) The sum of the average balances of the original debt and the replacement debt, and

(ii) The principal balance of the original debt as of August 16, 1986, reduced by all principal payments on the original debt after August 16, 1986, and before the first day of the current taxable year.

(2) *In subsequent years*. In any taxable year after the taxable year in which an original debt is refinanced, the grandfathered amount of the replacement debt is equal to the least of—

(i) The average balance of the replacement debt for the taxable year,

(ii) The amount of the replacement debt used to repay the principal balance of the original debt, reduced by all principal payments on the replacement debt after the date of the refinancing and before the first day of the current taxable year, or

(iii) The principal balance of the original debt on August 16, 1986, reduced by all principal payments on the original debt after August 16, 1986, and before the date of the refinancing, and further reduced by all principal pay-

ments on the replacement debt after the date of the refinancing and before the first day of the current taxable year.

(C) *Example*. (i) *Facts*. On August 16, 1986, T has a single debt secured by a principal residence with a balance of \$150,000. On July 1, 1988, T refinances the debt, which still has a principal balance of \$150,000, with a new secured debt. The principal balance of the replacement debt throughout 1988 and 1989 is \$150,000. The adjusted purchase price of the residence is \$100,000 throughout 1987, 1988 and 1989. The average balance of the original debt was \$150,000 in 1987 and \$75,000 in 1988. The average balance of the replacement debt is \$75,000 in 1988 and \$150,000 in 1989.

(ii) *Grandfathered amount in 1987*. The original debt was incurred and secured on or before August 16, 1986 and T has not borrowed any additional amounts with respect to the debt. Therefore, its grandfathered amount in 1987 is its average balance (\$150,000). This amount is treated as the adjusted purchase price for 1987 and all of the interest paid on the debt is qualified residence interest.

(iii) *Grandfathered amount in 1988*. Because the replacement debt was used to refinance a debt incurred and secured on or before August 16, 1986, the replacement debt is treated as a grandfathered debt. Because all of the proceeds of the replacement debt were used in the refinancing and because no amounts have been borrowed after August 16, 1986, on the original debt, the grandfathered amount for the original debt is its average balance (\$75,000) and the grandfathered amount for the replacement debt is its average balance (\$75,000). Since the sum of the grandfathered amounts (\$150,000) exceeds the adjusted purchase price of the residence, the sum of the grandfathered amounts may be substituted for the adjusted purchase price for 1988 and all of the interest paid on the debt is qualified residence interest.

(iv) *Grandfathered amount in 1989*. The grandfathered amount for the replacement debt is its average balance (\$150,000). This amount is treated as the adjusted purchase price for 1989 and all of the interest paid on the mortgage is qualified residence interest.

(4) *Limitation on term of grandfathered debt*—(i) *In general.* An original debt or replacement debt shall not have any grandfathered amount in any taxable year that begins after the date, as determined on August 16, 1986, that the original debt was required to be repaid in full (the “maturity date”). If a replacement debt is used to refinance more than one original debt, the maturity date is determined by reference to the original debt that, as of August 16, 1986, had the latest maturity date.

(ii) *Special rule for nonamortizing debt.* If an original debt was actually incurred and secured on or before August 16, 1986, and if as of such date the terms of such debt did not require the amortization of its principal over its original term, the maturity date of the replacement debt is the earlier of the maturity date of the replacement debt or the date 30 years after the date the original debt is first refinanced.

(iii) *Example.* C incurs a debt on May 10, 1986, the final payment of which is due May 1, 2006. C incurs a second debt on August 11, 1990, with a term of 20 years and uses the proceeds of the second debt to refinance the first debt. Because, under paragraph (m)(4)(i) of this section, a replacement debt will not have any grandfathered amount in any taxable year that begins after the maturity date of the original debt (May 1, 2006), the second debt has no grandfathered amount in any taxable year after 2006.

(n) *Qualified indebtedness (secured debt used for medical and educational purposes)*—(1) *In general*—(i) *Treatment of qualified indebtedness.* The amount of any qualified indebtedness resulting from a secured debt may be added to the adjusted purchase price under paragraph (e)(2)(i)(B) of this section to determine the applicable debt limit for that secured debt and any other debt subsequently secured by the qualified residence.

(ii) *Determination of amount of qualified indebtedness.* If, as of the end of the taxable year (or the last day in the taxable year that the debt is secured), at least 90 percent of the proceeds of a secured debt are used (within the meaning of paragraph (n)(2) of this section) to pay for qualified medical and educational expenses (within the meaning

of paragraphs (n)(3) and (n)(4) of this section), the amount of qualified indebtedness resulting from that debt for the taxable year is equal to the average balance of such debt for the taxable year.

(iii) *Determination of amount of qualified indebtedness for mixed-use debt.* If, as of the end of the taxable year (or the last day in the taxable year that the debt is secured), more than ten percent of the proceeds of a secured debt are used to pay for expenses other than qualified medical and educational expenses, the amount of qualified indebtedness resulting from that debt for the taxable year shall equal the lesser of—

(A) The average balance of the debt, or

(B) The amount of the proceeds of the debt used to pay for qualified medical and educational expenses through the end of the taxable year, reduced by any principal payments on the debt before the first day of the current taxable year.

(iv) *Example.* (i) C incurs a \$10,000 debt on April 20, 1987, which is secured on that date by C’s principal residence. C immediately uses (within the meaning of paragraph (n)(2) of this section) \$4,000 of the proceeds of the debt to pay for a qualified medical expense. C makes no principal payments on the debt during 1987. During 1988 and 1989, C makes principal payments of \$1,000 per year. The average balance of the debt during 1988 is \$9,500 and the average balance during 1989 is \$8,500.

(ii) Under paragraph (n)(1)(iii) of this section, C determines the amount of qualified indebtedness for 1988 as follows:

Average balance	\$9,500
Amount of debt used to pay for qualified medical expenses	\$4,000
Less payments of principal before 1988	\$0
Net qualified expenses	\$4,000

The amount of qualified indebtedness for 1988 is, therefore, \$4,000 (lesser of \$9,500 average balance or \$4,000 net qualified expenses). This amount may be added to the adjusted purchase price of C’s principal residence under paragraph (e)(2)(i)(B) of this section for purposes of computing the applicable debt limit for this debt and any other debt

subsequently secured by the principal residence.

(iii) C determines the amount of qualified indebtedness for 1989 as follows:

Average balance	\$8,500
Amount of debt used to pay for qualified medical expenses	\$4,000
Less payments of principal before 1988	\$1,000
Net qualified expenses	\$3,000

The amount of qualified indebtedness for 1989 is, therefore, \$3,000 (lesser of \$8,500 average balance or \$3,000 net qualified expenses).

(v) *Prevention of double counting in year of refinancing*—(A) *In general.* A debt used to pay for qualified medical or educational expenses is refinanced if some or all of the outstanding balance of the debt (the “original debt”) is repaid out of the proceeds of a second debt (the “replacement debt”). If, in the year of a refinancing, the combined qualified indebtedness of the original debt and the replacement debt exceeds the combined qualified expenses of such debts, the amount of qualified indebtedness for each such debt shall be determined by multiplying the amount of qualified indebtedness for each such debt by a fraction, the numerator of which is the combined qualified expenses and the denominator of which is the combined qualified indebtedness.

(B) *Definitions.* For purposes of paragraph (n)(1)(v)(A) of this section—

(1) The term “combined qualified indebtedness” means the sum of the qualified indebtedness (determined without regard to paragraph (n)(1)(v) of this section) for the original debt and the replacement debt.

(2) The term “combined qualified expenses” means the amount of the proceeds of the original debt used to pay for qualified medical and educational expenses through the end of the current taxable year, reduced by any principal payments on the debt before the first day of the current taxable year, and increased by the amount, if any, of the proceeds of the replacement debt used to pay such expenses through the end of the current taxable year other than as part of the refinancing.

(C) *Example.* (i) On August 11, 1987, C incurs a \$8,000 debt secured by a principal residence. C uses (within the

meaning of paragraph (n)(2)(i) of this section) \$5,000 of the proceeds of the debt to pay for qualified educational expenses. C makes no principal payments on the debt. On July 1, 1988, C incurs a new debt in the amount of \$8,000 secured by C’s principal residence and uses all of the proceeds of the new debt to repay the original debt. Under paragraph (n)(2)(ii) of this section \$5,000 of the new debt is treated as being used to pay for qualified educational expenses. C makes no principal payments (other than the refinancing) during 1987 or 1988 on either debt and pays all accrued interest monthly. The average balance of each debt in 1988 is \$4,000.

(ii) Under paragraph (n)(1)(iii) of this section, the amount of qualified indebtedness for 1988 with respect to the original debt is \$4,000 (the lesser of its average balance (\$4,000) and the amount of the debt used to pay for qualified medical and educational expenses (\$5,000)). Similarly, the amount of qualified indebtedness for 1988 with respect to the replacement debt is also \$4,000. Both debts, however, are subject in 1988 to the limitation in paragraph (n)(1)(v)(A) of this section. The combined qualified indebtedness, determined without regard to the limitation, is \$8,000 (\$4,000 of qualified indebtedness from each debt). The combined qualified expenses are \$5,000 (\$5,000 from the original debt and \$0 from the replacement debt). The amount of qualified indebtedness from each debt must, therefore, be reduced by a fraction, the numerator of which is \$5,000 (the combined qualified expenses) and the denominator of which is \$8,000 (the combined qualified indebtedness). After application of the limitation, the amount of qualified indebtedness for the original debt is \$2,500 ($\$4,000 \times \frac{5}{8}$). Similarly, the amount of qualified indebtedness for the replacement debt is \$2,500. Note that the total qualified indebtedness for both the original and the replacement debt is \$5,000 (\$2,500 + \$2,500). Therefore, C is entitled to the same amount of qualified indebtedness as C would have been entitled to if C had not refinanced the debt.

(vi) *Special rule for principal payments in excess of qualified expenses.* For purposes of paragraph (n)(1)(iii)(B),

(n)(1)(v)(B)(2) and (n)(2)(ii) of this section, a principal payment is taken into account only to the extent that the payment, when added to all prior payments, does not exceed the amount used on or before the date of the payment to pay for qualified medical and educational expenses.

(2) *Debt used to pay for qualified medical or educational expenses*—(i) *In general.* For purposes of this section, the proceeds of a debt are used to pay for qualified medical or educational expenses to the extent that—

(A) The taxpayer pays qualified medical or educational expenses within 90 days before or after the date that amounts are actually borrowed with respect to the debt, the proceeds of the debt are not directly allocable to another expense under § 1.163-8T(c)(3) (allocation of debt; proceeds not disbursed to borrower) and the proceeds of any other debt are not allocable to the medical or educational expenses under § 1.163-8T(c)(3), or

(B) The proceeds of the debt are otherwise allocated to such expenditures under § 1.163-8T.

(ii) *Special rule for refinancings.* For purposes of this section, the proceeds of a debt are used to pay for qualified medical and educational expenses to the extent that the proceeds of the debt are allocated under § 1.163-8T to the repayment of another debt (the “original debt”), but only to the extent of the amount of the original debt used to pay for qualified medical and educational expenses, reduced by any principal payments on such debt up to the time of the refinancing.

(iii) *Other special rules.* The following special rules apply for purposes of this section.

(A) Proceeds of a debt are used to pay for qualified medical or educational expenses as of the later of the taxable year in which such proceeds are borrowed or the taxable year in which such expenses are paid.

(B) The amount of debt which may be treated as being used to pay for qualified medical or educational expenses may not exceed the amount of such expenses.

(C) Proceeds of a debt may not be treated as being used to pay for quali-

fied medical or educational expenses to the extent that:

(1) The proceeds have been repaid as of the time the expense is paid;

(2) The proceeds are actually borrowed before August 17, 1986; or

(3) The medical or educational expenses are paid before August 17, 1986.

(iv) *Examples*—

Example 1. A pays a \$5,000 qualified educational expense from a checking account that A maintains at Bank 1 on November 9, 1987. On January 1, 1988, A incurs a \$20,000 debt that is secured by A’s residence and places the proceeds of the debt in a savings account that A also maintains at Bank 1. A pays another \$5,000 qualified educational expense on March 15 from a checking account that A maintains at Bank 2. Under paragraph (n)(2) of this section, the debt proceeds are used to pay for both educational expenses, regardless of other deposits to, or expenditures from, the accounts, because both expenditures are made within 90 days before or after the debt was incurred.

Example 2. B pays a \$5,000 qualified educational expense from a checking account on November 1, 1987. On November 30, 1987, B incurs a debt secured by B’s residence, and the lender disburses the debt proceeds directly to a person who sells B a new car. Although the educational expense is paid within 90 days of the date the debt is incurred, the proceeds of the debt are not used to pay for the educational expense because the proceeds are directly allocable to the purchase of the new car under § 1.163-8T(c)(3).

Example 3. On November 1, 1987, C borrows \$5,000 from C’s college. The proceeds of this debt are not disbursed to C, but rather are used to pay tuition fees for C’s attendance at the college. On November 30, 1987, C incurs a second debt and secures the debt by C’s residence. Although the \$5,000 educational expense is paid within 90 days before the second debt is incurred, the proceeds of the second debt are not used to pay for the educational expense, because the proceeds of the first debt are directly allocable to the educational expense under § 1.163-8T(c)(3).

Example 4. On January 1, 1988, D incurs a \$20,000 debt secured by a qualified residence. D places the proceeds of the debt in a separate account (*i.e.*, the proceeds of the debt are the only deposit in the account). D makes payments of \$5,000 each for qualified educational expenses on September 1, 1988, September 1, 1989, September 1, 1990, and September 1, 1991. Because the debt proceeds are allocated to educational expenses as of the date the expenses are paid, under the rules of § 1.163-8T(c)(4), the following amounts of the debt proceeds are used to pay for qualified educational expenses as of the end of each year:

1988: \$5,000
 1989: \$10,000
 1990: \$15,000
 1991: \$20,000

Example 5. During 1987 E incurs a \$10,000 debt secured by a principal residence. E uses (within the meaning of paragraph (n)(2)(i) of this section) all of the proceeds of the debt to pay for qualified educational expenses. On August 20, 1988, at which time the balance of the debt is \$9,500, E incurs a new debt in the amount of \$9,500 secured by E's principal residence and uses all of the proceeds of the new debt to repay the original debt. Under paragraph (n)(2)(ii) of this section, all of the proceeds of the new debt are used to pay for qualified educational expenses.

(3) *Qualified medical expenses.* Qualified medical expenses are amounts that are paid for medical care (within the meaning of section 213(d)(1) (A) and (B)) for the taxpayer, the taxpayer's spouse, or a dependent of the taxpayer (within the meaning of section 152), and that are not compensated for by insurance or otherwise.

(4) *Qualified educational expenses.* Qualified educational expenses are amounts that are paid for tuition, fees, books, supplies and equipment required for enrollment, attendance or courses of instruction at an educational organization described in section 170(b)(1)(A)(ii) and for any reasonable living expenses while away from home while in attendance at such an institution, for the taxpayer, the taxpayer's spouse or a dependent of the taxpayer (within the meaning of section 152) and that are not reimbursed by scholarship or otherwise.

(o) *Secured debt—(1) In general.* For purposes of this section, the term "secured debt" means a debt that is on the security of any instrument (such as a mortgage, deed of trust, or land contract)—

(i) That makes the interest of the debtor in the qualified residence specific security for the payment of the debt,

(ii) Under which, in the event of default, the residence could be subjected to the satisfaction of the debt with the same priority as a mortgage or deed of trust in the jurisdiction in which the property is situated, and

(iii) That is recorded, where permitted, or is otherwise perfected in accordance with applicable State law.

A debt will not be considered to be secured by a qualified residence if it is secured solely by virtue of a lien upon the general assets of the taxpayer or by a security interest, such as a mechanic's lien or judgment lien, that attaches to the property without the consent of the debtor.

(2) *Special rule for debt in certain States.* Debt will not fail to be treated as secured solely because, under an applicable State or local homestead law or other debtor protection law in effect on August 16, 1986, the security interest is ineffective or the enforceability of the security interest is restricted.

(3) *Times at which debt is treated as secured.* For purposes of this section, a debt is treated as secured as of the date on which each of the requirements of paragraph (o)(1) of this section are satisfied, regardless of when amounts are actually borrowed with respect to the debt. For purposes of this paragraph (o)(3), if the instrument is recorded within a commercially reasonable time after the security interest is granted, the instrument will be treated as recorded on the date that the security interest was granted.

(4) *Partially secured debt—(i) In general.* If the security interest is limited to a prescribed maximum amount or portion of the residence, and the average balance of the debt exceeds such amount or the value of such portion, such excess shall not be treated as secured debt for purposes of this section.

(ii) *Example.* T borrows \$80,000 on January 1, 1991. T secures the debt with a principal residence. The security in the residence for the debt, however, is limited to \$20,000. T pays \$8,000 in interest on the debt in 1991 and the average balance of the debt in that year is \$80,000. Because the average balance of the debt exceeds the maximum amount of the security interest, such excess is not treated as secured debt. Therefore, for purposes of applying the limitation on qualified residence interest, the average balance of the secured debt is \$20,000 (the maximum amount of the security interest) and the interest paid or accrued on the secured debt is \$2,000 (the total interest paid on the debt multiplied by the ratio of the average balance of the secured debt (\$20,000)

and the average balance of the total debt (\$80,000)).

(5) *Election to treat debt as not secured by a qualified residence*—(i) *In general.* For purposes of this section, a taxpayer may elect to treat any debt that is secured by a qualified residence as not secured by the qualified residence. An election made under this paragraph shall be effective for the taxable year for which the election is made and for all subsequent taxable years unless revoked with the consent of the Commissioner.

(ii) *Example.* T owns a principal residence with a fair market value of \$75,000 and an adjusted purchase price of \$40,000. In 1988, debt A, the proceeds of which were used to purchase the residence, has an average balance of \$15,000. The proceeds of debt B, which is secured by a second mortgage on the property, are allocable to T's trade or business under § 1.163-8T and has an average balance of \$25,000. In 1988, T incurs debt C, which is also secured by T's principal residence and which has an average balance in 1988 of \$5,000. In the absence of an election to treat debt B as unsecured, the applicable debt limit for debt C in 1988 under paragraph (e) of this section would be zero dollars (\$40,000 - \$15,000 - \$25,000) and none of the interest paid on debt C would be qualified residence interest. If, however, T makes or has previously made an election pursuant to paragraph (o)(5)(i) of this section to treat debt B as not secured by the residence, the applicable debt limit for debt C would be \$25,000 (\$40,000 - \$15,000), and all of the interest paid on debt C during the taxable year would be qualified residence interest. Since the proceeds of debt B are allocable to T's trade or business under § 1.163-8T, interest on debt B may be deductible under other sections of the Internal Revenue Code.

(iii) *Allocation of debt secured by two qualified residences.* [Reserved]

(p) *Definition of qualified residence*—(1) *In general.* The term “qualified residence” means the taxpayer's principal residence (as defined in paragraph (p)(2) of this section), or the taxpayer's second residence (as defined in paragraph (p)(3) of this section).

(2) *Principal residence.* The term “principal residence” means the tax-

payer's principal residence within the meaning of section 1034. For purposes of this section, a taxpayer cannot have more than one principal residence at any one time.

(3) *Second residence*—(i) *In general.* The term “second residence” means—

(A) A residence within the meaning of paragraph (p)(3)(ii) of this section,

(B) That the taxpayer uses as a residence within the meaning of paragraph (p)(3)(iii) of this section, and

(C) That the taxpayer elects to treat as a second residence pursuant to paragraph (p)(3)(iv) of this section.

A taxpayer cannot have more than one second residence at any time.

(ii) *Definition of residence.* Whether property is a residence shall be determined based on all the facts and circumstances, including the good faith of the taxpayer. A residence generally includes a house, condominium, mobile home, boat, or house trailer, that contains sleeping space and toilet and cooking facilities. A residence does not include personal property, such as furniture or a television, that, in accordance with the applicable local law, is not a fixture.

(iii) *Use as a residence.* If a residence is rented at any time during the taxable year, it is considered to be used as a residence only if the taxpayer uses it during the taxable year as a residence within the meaning of section 280A(d). If a residence is not rented at any time during the taxable year, it shall be considered to be used as a residence. For purposes of the preceding sentence, a residence will be deemed to be rented during any period that the taxpayer holds the residence out for rental or resale or repairs or renovates the residence with the intention of holding it out for rental or resale.

(iv) *Election of second residence.* A taxpayer may elect a different residence (other than the taxpayer's principal residence) to be the taxpayer's second residence for each taxable year. A taxpayer may not elect different residences as second residences at different times of the same taxable year except as provided below—

(A) If the taxpayer acquires a new residence during the taxable year, the taxpayer may elect the new residence

as a taxpayer's second residence as of the date acquired;

(B) If property that was the taxpayer's principal residence during the taxable year ceases to qualify as the taxpayer's principal residence, the taxpayer may elect that property as the taxpayer's second residence as of the date that the property ceases to be the taxpayer's principal residence; or

(C) If property that was the taxpayer's second residence is sold during the taxable year or becomes the taxpayer's principal residence, the taxpayer may elect a new second residence as of such day.

(4) *Allocations between residence and other property*—(i) *In general.* For purposes of this section, the adjusted purchase price and fair market value of property must be allocated between the portion of the property that is a qualified residence and the portion that is not a qualified residence. Neither the average balance of the secured debt nor the interest paid or accrued on secured debt is so allocated. Property that is not used for residential purposes does not qualify as a residence. For example, if a portion of the property is used as an office in the taxpayer's trade or business, that portion of the property does not qualify as a residence.

(ii) *Special rule for rental of residence.* If a taxpayer rents a portion of his or her principal or second residence to another person (a "tenant"), such portion may be treated as used by the taxpayer for residential purposes if, but only if—

(A) Such rented portion is used by the tenant primarily for residential purposes,

(B) The rented portion is not a self-contained residential unit containing separate sleeping space and toilet and cooking facilities, and

(C) The total number of tenants renting (directly or by sublease) the same or different portions of the residence at any time during the taxable year does not exceed two. For this purpose, if two persons (and the dependents, as defined by section 152, of either of them) share the same sleeping quarters, they shall be treated as a single tenant.

(iii) *Examples.*

Example 1. D, a dentist, uses a room in D's principal residence as an office which qualifies under section 280A(c)(1)(B) as a portion

of the dwelling unit used exclusively on a regular basis as a place of business for meeting with patients in the normal course of D's trade or business. D's adjusted purchase price of the property is \$65,000; \$10,000 of which is allocable under paragraph (o)(4)(i) of this section to the room used as an office. For purposes of this section, D's residence does not include the room used as an office. The adjusted purchase price of the residence is, accordingly, \$55,000. Similarly, the fair market value of D's residence must be allocated between the office and the remainder of the property.

Example 2. J rents out the basement of property that is otherwise used as J's principal residence. The basement is a self-contained residential unit, with sleeping space and toilet and cooking facilities. The adjusted purchase price of the property is \$100,000; \$15,000 of which is allocable under paragraph (o)(4)(i) of this section to the basement. For purposes of this section, J's residence does not include the basement and the adjusted purchase price of the residence is \$85,000. Similarly, the fair market value of the residence must be allocated between the basement unit and the remainder of the property.

(5) *Residence under construction*—(i) *In general.* A taxpayer may treat a residence under construction as a qualified residence for a period of up to 24 months, but only if the residence becomes a qualified residence, without regard to this paragraph (p)(5)(i), as of the time that the residence is ready for occupancy.

(ii) *Example.* X owns a residential lot suitable for the construction of a vacation home. On April 20, 1987, X obtains a mortgage secured by the lot and any property to be constructed on the lot. On August 9, 1987, X begins construction of a residence on the lot. The residence is ready for occupancy on November 9, 1989. The residence is used as a residence within the meaning of paragraph (p)(3)(iii) of this section during 1989 and X elects to treat the residence as his second residence for the period November 9, 1989, through December 31, 1989. Since the residence under construction is a qualified residence as of the first day that the residence is ready for occupancy (November 9, 1987), X may treat the residence as his second residence under paragraph (p)(5)(i) of this section for up to 24 months of the period during which the residence is under construction, commencing on or after the date that construction is

begun (August 9, 1987). If X treats the residence under construction as X's second residence beginning on August 9, 1987, the residence under construction would cease to qualify as a qualified residence under paragraph (p)(5)(i) on August 8, 1989. The residence's status as a qualified residence for future periods would be determined without regard to paragraph (p)(5)(i) of this section.

(6) *Special rule for time-sharing arrangements.* Property that is otherwise a qualified residence will not fail to qualify as such solely because the taxpayer's interest in or right to use the property is restricted by an arrangement whereby two or more persons with interests in the property agree to exercise control over the property for different periods during the taxable year. For purposes of determining the use of a residence under paragraph (p)(3)(iii) of this section, a taxpayer will not be considered to have used or rented a residence during any period that the taxpayer does not have the right to use the property or to receive any benefits from the rental of the property.

(q) *Special rules for tenant-stockholders in cooperative housing corporations—(1) In general.* For purposes of this section, a residence includes stock in a cooperative housing corporation owned by a tenant-stockholder if the house or apartment which the tenant-stockholder is entitled to occupy by virtue of owning such stock is a residence within the meaning of paragraph (p)(3)(ii) of this section.

(2) *Special rule where stock may not be used to secure debt.* For purposes of this section, if stock described in paragraph (q)(1) of this section may not be used to secure debt because of restrictions under local or State law or because of restrictions in the cooperative agreement (other than restrictions the principal purpose of which is to permit the tenant-stockholder to treat unsecured debt as secured debt under this paragraph (q)(2)), debt may be treated as secured by such stock to the extent that the proceeds of the debt are allocated to the purchase of the stock under the rules of § 1.163-8T. For purposes of this paragraph (q)(2), proceeds of debt incurred prior to January 1, 1987, may be

treated as allocated to the purchase of such stock to the extent that the tenant-stockholder has properly and consistently deducted interest expense on such debt as home mortgage interest attributable to such stock on Schedule A of Form 1040 in determining his taxable income for taxable years beginning before January 1, 1987. For purposes of this paragraph (q)(2), amended returns filed after December 22, 1987, are disregarded.

(3) *Treatment of interest expense of the cooperative described in section 216(a)(2).* For purposes of section 163(h) and § 1.163-9T (disallowance of deduction for personal interest) and section 163(d) (limitation on investment interest), any amount allowable as a deduction to a tenant-stockholder under section 216(a)(2) shall be treated as interest paid or accrued by the tenant-stockholder. If a tenant-stockholder's stock in a cooperative housing corporation is a qualified residence of the tenant-shareholder, any amount allowable as a deduction to the tenant-stockholder under section 216(a)(2) is qualified residence interest.

(4) *Special rule to prevent tax avoidance.* If the amount treated as qualified residence interest under this section exceeds the amount which would be so treated if the tenant-stockholder were treated as directly owning his proportionate share of the assets and liabilities of the cooperative and one of the principal purposes of the cooperative arrangement is to permit the tenant-stockholder to increase the amount of qualified residence interest, the district director may determine that such excess is not qualified residence interest.

(5) *Other definitions.* For purposes of this section, the terms "tenant-stockholder," "cooperative housing corporation" and "proportionate share" shall have the meaning given by section 216 and the regulations thereunder.

(r) *Effective date.* The provisions of this section are effective for taxable years beginning after December 31, 1986.

[T.D. 8168, 52 FR 48410, Dec. 22, 1987]

§ 1.163-11 Allocation of certain prepaid qualified mortgage insurance premiums.

(a) *Allocation*—(1) *In general.* As provided in section 163(h)(3)(E), premiums paid or accrued for qualified mortgage insurance during the taxable year in connection with acquisition indebtedness with respect to a qualified residence (as defined in section 163(h)(4)(A)) of the taxpayer shall be treated as qualified residence interest (as defined in section 163(h)(3)(A)). If an individual taxpayer pays such a premium that is properly allocable to a mortgage the payment of which extends to periods beyond the close of the taxable year in which the premium is paid, the taxpayer must allocate the premium to determine the amount treated as qualified residence interest for each taxable year. The premium must be allocated ratably over the shorter of—

(i) The stated term of the mortgage; or

(ii) A period of 84 months, beginning with the month in which the insurance was obtained.

(2) *Limitation.* If a mortgage is satisfied before the end of its stated term, no deduction as qualified residence interest shall be allowed for any amount of the premium that is allocable to periods after the mortgage is satisfied.

(b) *Scope.* The allocation requirement in paragraph (a) of this section applies only to mortgage insurance provided by the Federal Housing Administration or private mortgage insurance (as defined by section 2 of the Homeowners Protection Act of 1998 (12 U.S.C. 4901) as in effect on December 20, 2006). It does not apply to mortgage insurance provided by the Department of Veterans Affairs or the Rural Housing Service. Paragraph (a) of this section applies whether the qualified mortgage insurance premiums are paid in cash or are financed, without regard to source.

(c) *Limitation on the treatment of mortgage insurance premiums as interest.* This section applies to prepaid qualified mortgage insurance premiums described in paragraph (a) of this section that are paid or accrued on or after January 1, 2011, and during periods to which section 163(h)(3)(E) is applicable. This section does not apply to any

amount of prepaid qualified mortgage insurance premiums that are allocable to any periods to which section 163(h)(3)(E) is not applicable.

(d) *Effective/applicability date.* This section is applicable on and after January 1, 2011. For regulations applicable before January 1, 2011, see § 1.163-11T in effect prior to January 1, 2011 (§ 1.163-11T as contained in 26 CFR part 1 edition revised as of April 1, 2011).

[T.D. 9588, 77 FR 26699, May 7, 2012]

§ 1.163-12 Deduction of original issue discount on instrument held by related foreign person.

(a) *General rules*—(1) *Deferral of deduction.* Except as provided in paragraph (b) of this section, section 163(e)(3) requires a taxpayer to use the cash method of accounting with respect to the deduction of original issue discount owed to a related foreign person. A deduction for an otherwise deductible portion of original issue discount with respect to a debt instrument will not be allowable as a deduction to the issuer until paid if, at the close of the issuer's taxable year in which such amount would otherwise be deductible, the person holding the debt instrument is a related foreign person. For purposes of this section, a related foreign person is any person that is not a United States person within the meaning of section 7701(a)(30), and that is related (within the meaning of section 267(b)) to the issuer at the close of the taxable year in which the amount incurred by the taxpayer would otherwise be deductible. Section 267(f) defines "controlled group" for purposes of section 267(b) without regard to the limitations of section 1563(b). An amount is treated as paid for purposes of this section if the amount is considered paid for purposes of section 1441 or section 1442 (including an amount taken into account pursuant to section 871(a)(1)(C), section 881(a)(3), or section 884(f)). The rules of this paragraph (a) apply even if the original issue discount is not subject to United States tax, or is subject to a reduced rate of tax, pursuant to a provision of the Internal Revenue Code or a treaty obligation of the United States. For purposes of this section, original issue discount is an amount described in section 1273,

whether from sources inside or outside the United States.

(2) *Change in method of accounting.* A taxpayer that uses a method of accounting other than that required by the rules of this section must change its method of accounting to conform its method to the rules of this section. The taxpayer's change in method must be made pursuant to the rules of section 446(e), the regulations thereunder, and any applicable administrative procedures prescribed by the Commissioner. Because the rules of this section prescribe a method of accounting, these rules apply in the determination of a taxpayer's earnings and profits pursuant to § 1.312-6(a).

(b) *Exceptions and special rules*—(1) *Effectively connected income.* The provisions of section 267(a)(2) and the regulations thereunder, and not the provisions of paragraph (a) of this section, apply to an amount of original issue discount that is income of the related foreign person that is effectively connected with the conduct of a United States trade or business of such related foreign person. An amount described in this paragraph (b)(1) thus is allowable as a deduction as of the day on which the amount is includible in the gross income of the related foreign person as effectively connected income under sections 872(a)(2) or 882(b) (or, if later, as of the day on which the deduction would be so allowable but for section 267(a)(2)). However, this paragraph (b)(1) does not apply if the related foreign person is exempt from United States income tax on the amount owed, or is subject to a reduced rate of tax, pursuant to a treaty obligation of the United States (such as under an article relating to the taxation of business profits).

(2) *Certain obligations issued by natural persons.* This section does not apply to any debt instrument described in section 163(e)(4) (relating to obligations issued by natural persons before March 2, 1984, and to loans between natural persons).

(3) *Amounts owed to a foreign personal holding company, controlled foreign corporation, or passive foreign investment company*—(i) *Foreign personal holding companies.* If an amount to which paragraph (a) of this section otherwise ap-

plies is owed to a related foreign person that is a foreign personal holding company within the meaning of section 552, then the amount is allowable as a deduction as of the day on which the amount is includible in the income of the foreign personal holding company. The day on which the amount is includible in income is determined with reference to the method of accounting under which the foreign personal holding company computes its taxable income and earnings and profits for purposes of sections 551 through 558. See section 551(c) and the regulations thereunder for the reporting requirements of the foreign personal holding company provisions (sections 551 through 558).

(ii) *Controlled foreign corporations.* If an amount to which paragraph (a) of this section otherwise applies is owed to a related foreign person that is a controlled foreign corporation within the meaning of section 957, then the amount is allowable as a deduction as of the day on which the amount is includible in the income of the controlled foreign corporation. The day on which the amount is includible in income is determined with reference to the method of accounting under which the controlled foreign corporation computes its taxable income and earnings and profits for purposes of sections 951 through 964. See section 6038 and the regulations thereunder for the reporting requirements of the controlled foreign corporation provisions (sections 951 through 964).

(iii) *Passive foreign investment companies.* If an amount to which paragraph (a) of this section otherwise applies is owed to a related foreign person that is a passive foreign investment company within the meaning of section 1296, then the amount is allowable as a deduction as of the day on which amount is includible in the income of the passive foreign investment company. The day on which the amount is includible in income is determined with reference to the method of accounting under which the earnings and profits of the passive foreign investment company are computed for purposes of sections 1291 through 1297. See sections 1291 through 1297 and the regulations thereunder for the reporting requirements of

the passive foreign investment company provisions. This exception shall apply, however, only if the person that owes the amount at issue has made and has in effect an election pursuant to section 1295 with respect to the passive foreign investment company to which the amount at issue is owed.

(c) *Application of section 267.* Except as limited in paragraph (b)(1) of this section, the provisions of section 267 and the regulations thereunder shall apply to any amount of original issue discount to which the provisions of this section do not apply.

(d) *Effective date.* The rules of this section are effective with respect to all original issue discount on debt instruments issued after June 9, 1984.

[T.D. 8465, 58 FR 236, Jan. 5, 1993; 58 FR 8098, Feb. 11, 1993]

§ 1.163-13 Treatment of bond issuance premium.

(a) *General rule.* If a debt instrument is issued with bond issuance premium, this section limits the amount of the issuer's interest deduction otherwise allowable under section 163(a). In general, the issuer determines its interest deduction by offsetting the interest allocable to an accrual period with the bond issuance premium allocable to that period. Bond issuance premium is allocable to an accrual period based on a constant yield. The use of a constant yield to amortize bond issuance premium is intended to generally conform the treatment of debt instruments having bond issuance premium with those having original issue discount. Unless otherwise provided, the terms used in this section have the same meaning as those terms in section 163(e), sections 1271 through 1275, and the corresponding regulations. Moreover, unless otherwise provided, the provisions of this section apply in a manner consistent with those of section 163(e), sections 1271 through 1275, and the corresponding regulations. In addition, the anti-abuse rule in § 1.1275-2(g) applies for purposes of this section. For rules dealing with the treatment of bond premium by a holder, see §§ 1.171-1 through 1.171-5.

(b) *Exceptions.* This section does not apply to—

(1) A debt instrument described in section 1272(a)(6)(C) (regular interests in a REMIC, qualified mortgages held by a REMIC, and certain other debt instruments, or pools of debt instruments, with payments subject to acceleration); or

(2) A debt instrument to which § 1.1275-4 applies (relating to certain debt instruments that provide for contingent payments).

(c) *Bond issuance premium.* Bond issuance premium is the excess, if any, of the issue price of a debt instrument over its stated redemption price at maturity. For purposes of this section, the issue price of a convertible bond (as defined in § 1.171-1(e)(1)(iii)(C)) does not include an amount equal to the value of the conversion option (as determined under § 1.171-1(e)(1)(iii)(A)).

(d) *Offsetting qualified stated interest with bond issuance premium—*(1) *In general.* An issuer amortizes bond issuance premium by offsetting the qualified stated interest allocable to an accrual period with the bond issuance premium allocable to the accrual period. This offset occurs when the issuer takes the qualified stated interest into account under its regular method of accounting.

(2) *Qualified stated interest allocable to an accrual period.* See § 1.446-2(b) to determine the accrual period to which qualified stated interest is allocable and to determine the accrual of qualified stated interest within an accrual period.

(3) *Bond issuance premium allocable to an accrual period.* The bond issuance premium allocable to an accrual period is determined under this paragraph (d)(3). Within an accrual period, the bond issuance premium allocable to the period accrues ratably.

(i) *Step one: Determine the debt instrument's yield to maturity.* The yield to maturity of a debt instrument is determined under the rules of § 1.1272-1(b)(1)(i).

(ii) *Step two: Determine the accrual periods.* The accrual periods are determined under the rules of § 1.1272-1(b)(1)(ii).

(iii) *Step three: Determine the bond issuance premium allocable to the accrual*

period. The bond issuance premium allocable to an accrual period is the excess of the qualified stated interest allocable to the accrual period over the product of the adjusted issue price at the beginning of the accrual period and the yield. In performing this calculation, the yield must be stated appropriately taking into account the length of the particular accrual period. Principles similar to those in § 1.1272-1(b)(4) apply in determining the bond issuance premium allocable to an accrual period.

(4) *Bond issuance premium in excess of qualified stated interest*—(i) *Ordinary income.* If the bond issuance premium allocable to an accrual period exceeds the qualified stated interest allocable to the accrual period, the excess is treated as ordinary income by the issuer for the accrual period. However, the amount treated as ordinary income is limited to the amount by which the issuer's total interest deductions on the debt instrument in prior accrual periods exceed the total amount treated by the issuer as ordinary income on the debt instrument in prior accrual periods.

(ii) *Carryforward.* If the bond issuance premium allocable to an accrual period exceeds the sum of the qualified stated interest allocable to the accrual period and the amount treated as ordinary income for the accrual period under paragraph (d)(4)(i) of this section, the excess is carried forward to the next accrual period and is treated as bond issuance premium allocable to that period. If a carryforward exists on the date the debt instrument is retired, the carryforward is treated as ordinary income on that date.

(e) *Special rules*—(1) *Variable rate debt instruments.* An issuer determines bond issuance premium on a variable rate debt instrument by reference to the stated redemption price at maturity of the equivalent fixed rate debt instrument constructed for the variable rate debt instrument. The issuer also allocates any bond issuance premium among the accrual periods by reference to the equivalent fixed rate debt instrument. The issuer constructs the equivalent fixed rate debt instrument, as of the issue date, by using the principles of § 1.1275-5(e).

(2) *Inflation-indexed debt instruments.* An issuer determines bond issuance premium on an inflation-indexed debt instrument by assuming that there will be no inflation or deflation over the term of the instrument. The issuer also allocates any bond issuance premium among the accrual periods by assuming that there will be no inflation or deflation over the term of the instrument. The bond issuance premium allocable to an accrual period offsets qualified stated interest allocable to the period. Notwithstanding paragraph (d)(4) of this section, if the bond issuance premium allocable to an accrual period exceeds the qualified stated interest allocable to the period, the excess is treated as a deflation adjustment under § 1.1275-7(f)(1)(ii). See § 1.1275-7 for other rules relating to inflation-indexed debt instruments.

(3) *Certain debt instruments subject to contingencies*—(i) *In general.* Except as provided in paragraph (e)(3)(ii) of this section, the rules of § 1.1272-1(c) apply to determine a debt instrument's payment schedule for purposes of this section. For example, an issuer uses the payment schedule determined under § 1.1272-1(c) to determine the amount, if any, of bond issuance premium on the debt instrument, the yield and maturity of the debt instrument, and the allocation of bond issuance premium to an accrual period.

(ii) *Mandatory sinking fund provision.* Notwithstanding paragraph (e)(3)(i) of this section, if a debt instrument is subject to a mandatory sinking fund provision described in § 1.1272-1(c)(3), the issuer must determine the payment schedule by assuming that a pro rata portion of the debt instrument will be called under the sinking fund provision.

(4) *Remote and incidental contingencies.* For purposes of determining the amount of bond issuance premium and allocating bond issuance premium among accrual periods, if a bond provides for a contingency that is remote or incidental (within the meaning of § 1.1275-2(h)), the issuer takes the contingency into account under the rules for remote and incidental contingencies in § 1.1275-2(h).

(f) *Example.* The following example illustrates the rules of this section:

Example. (i) *Facts.* On February 1, 1999, X issues for \$110,000 a debt instrument maturing on February 1, 2006, with a stated principal amount of \$100,000, payable at maturity. The debt instrument provides for unconditional payments of interest of \$10,000, payable on February 1 of each year. X uses the calendar year as its taxable year, X uses the cash receipts and disbursements method of accounting, and X decides to use annual accrual periods ending on February 1 of each year. X's calculations assume a 30-day month and 360-day year.

(ii) *Amount of bond issuance premium.* The issue price of the debt instrument is \$110,000. Because the interest payments on the debt instrument are qualified stated interest, the stated redemption price at maturity of the debt instrument is \$100,000. Therefore, the amount of bond issuance premium is \$10,000 (\$110,000 - \$100,000).

(iii) *Bond issuance premium allocable to the first accrual period.* Based on the payment schedule and the issue price of the debt instrument, the yield of the debt instrument is 8.07 percent, compounded annually. (Although, for purposes of simplicity, the yield as stated is rounded to two decimal places, the computations do not reflect this rounding convention.) The bond issuance premium allocable to the accrual period ending on February 1, 2000, is the excess of the qualified stated interest allocable to the period (\$10,000) over the product of the adjusted issue price at the beginning of the period (\$110,000) and the yield (8.07 percent, compounded annually). Therefore, the bond issuance premium allocable to the accrual period is \$1,118.17 (\$10,000 - \$8,881.83).

(iv) *Premium used to offset interest.* Although X makes an interest payment of \$10,000 on February 1, 2000, X only deducts interest of \$8,881.83, the qualified stated interest allocable to the period (\$10,000) offset with the bond issuance premium allocable to the period (\$1,118.17).

(g) *Effective date.* This section applies to debt instruments issued on or after March 2, 1998.

(h) *Accounting method changes—(1) Consent to change.* An issuer required to change its method of accounting for bond issuance premium to comply with this section must secure the consent of the Commissioner in accordance with the requirements of § 1.446-1(e). Paragraph (h)(2) of this section provides the Commissioner's automatic consent for certain changes.

(2) *Automatic consent.* The Commissioner grants consent for an issuer to change its method of accounting for bond issuance premium on debt instruments issued on or after March 2, 1998.

Because this change is made on a cut-off basis, no items of income or deduction are omitted or duplicated and, therefore, no adjustment under section 481 is allowed. The consent granted by this paragraph (h)(2) applies provided—

(i) The change is made to comply with this section;

(ii) The change is made for the first taxable year for which the issuer must account for a debt instrument under this section; and

(iii) The issuer attaches to its federal income tax return for the taxable year containing the change a statement that it has changed its method of accounting under this section.

[T.D. 8746, 62 FR 68176, Dec. 31, 1997, as amended by T.D. 8838, 64 FR 48547, Sept. 7, 1999]

§ 1.163-15 Debt proceeds distributed from any taxpayer account or from cash.

(a) *In general.* Regardless of paragraphs (c)(4) and (5) of § 1.163-8T, in the case of debt proceeds deposited in an account, a taxpayer that is applying § 1.163-8T or § 1.163-14 may treat any expenditure made from any account of the taxpayer, or from cash, within 30 days before or 30 days after debt proceeds are deposited in any account of the taxpayer as made from such proceeds to the extent thereof. Similarly, in the case of debt proceeds received in cash, a taxpayer that is applying § 1.163-8T or § 1.163-14 may treat any expenditure made from any account of the taxpayer, or from cash, within 30 days before or 30 days after debt proceeds are received in cash as made from such proceeds to the extent thereof. For purposes of this section, terms used have the same meaning as in § 1.163-8T(c)(4) and (5).

(b) *Applicability date.* This section applies to taxable years beginning on or after March 22, 2021. However, taxpayers and their related parties, within the meaning of sections 267(b) (determined without regard to section 267(c)(3)) and 707(b)(1), may choose to apply the rules in this section to a taxable year beginning after December 31, 2017, and before March 22, 2021, provided that those taxpayers and their related parties consistently apply all of

§ 1.163(d)-1

the rules in this section to that taxable year and each subsequent taxable year.

[T.D. 9943, 86 FR 5521, Jan. 19, 2021]

§ 1.163(d)-1 Time and manner for making elections under the Omnibus Budget Reconciliation Act of 1993 and the Jobs and Growth Tax Relief Reconciliation Act of 2003.

(a) *Description.* Section 163(d)(4)(B)(iii), as added by section 13206(d) of the Omnibus Budget Reconciliation Act of 1993 (Pub. L. 103-66, 107 Stat. 467), allows an electing taxpayer to take all or a portion of certain net capital gain attributable to dispositions of property held for investment into account as investment income. Section 163(d)(4)(B), as amended by section 302(b) of the Jobs and Growth Tax Relief Reconciliation Act of 2003 (Pub. L. 108-27, 117 Stat. 762), allows an electing taxpayer to take all or a portion of qualified dividend income, as defined in section 1(h)(11)(B), into account as investment income. As a consequence, the net capital gain and qualified dividend income taken into account as investment income under these elections are not eligible to be taxed at the capital gains rates. An election may be made for net capital gain recognized by noncorporate taxpayers during any taxable year beginning after December 31, 1992. An election may be made for qualified dividend income received by noncorporate taxpayers during any taxable year beginning after December 31, 2002, but before January 1, 2009.

(b) *Time and manner for making the elections.* The elections for net capital gain and qualified dividend income must be made on or before the due date (including extensions) of the income tax return for the taxable year in which the net capital gain is recognized or the qualified dividend income is received. The elections are to be made on Form 4952, "Investment Interest Expense Deduction," in accordance with the form and its instructions.

(c) *Revocability of elections.* The elections described in this section are revocable with the consent of the Commissioner.

(d) *Effective date.* The rules set forth in this section regarding the net capital gain election apply beginning December 12, 1996. The rules set forth in

26 CFR Ch. I (4-1-22 Edition)

this section regarding the qualified dividend income election apply to any taxable year beginning after December 31, 2002, but before January 1, 2009.

[T.D. 9191, 70 FR 13100, Mar. 18, 2005]

§ 1.163(j)-0 Table of contents.

This section lists the table of contents for §§ 1.163(j)-1 through 1.163(j)-11.

§ 1.163(j)-1 Definitions.

- (a) In general.
- (b) Definitions.
 - (1) Adjusted taxable income.
 - (i) Additions.
 - (ii) Subtractions.
 - (iii) Depreciation, amortization, or depletion capitalized under section 263A.
 - (iv) Application of § 1.163(j)-1(b)(1)(ii)(C), (D), and (E).
 - (A) Sale or other disposition.
 - (1) In general.
 - (2) Intercompany transactions.
 - (3) Deconsolidations.
 - (4) Nonrecognition transactions.
 - (B) Deductions by members of a consolidated group.
 - (1) In general.
 - (2) Application of the alternative computation method.
 - (C) Successor rules.
 - (1) Successor assets.
 - (2) Successor entities.
 - (D) Anti-duplication rule.
 - (1) In general.
 - (2) Adjustments following deconsolidation.
 - (E) Alternative computation method.
 - (1) Alternative computation method for property dispositions.
 - (2) Alternative computation method for dispositions of member stock.
 - (3) Alternative computation method for dispositions of partnership interests.
 - (F) Cap on negative adjustments.
 - (1) In general.
 - (2) Example.
 - (G) Treatment of depreciation, amortization, or depletion capitalized under section 263A.
 - (v) Other adjustments.
 - (vi) Additional rules relating to adjusted taxable income in other sections.
 - (vii) ATI cannot be less than zero.
 - (viii) Examples.
 - (2) Applicable CFC.
 - (3) Business interest expense.

- (i) In general.
- (ii) Special rules.
- (4) Business interest income.
 - (i) In general.
 - (ii) Special rules.
 - (5) C corporation.

§1.163(j)-3 Relationship of the section 163(j) limitation to other provisions affecting interest.

- (a) Overview.
- (b) Coordination of section 163(j) with certain other provisions.
 - (1) In general.
 - (2) Disallowed interest provisions.
 - (3) Deferred interest provisions.
 - (4) At risk rules, passive activity loss provisions, and limitation on excess business losses of noncorporate taxpayers.
 - (5) Capitalized interest expenses.
 - (6) Reductions under section 246A.
 - (7) Section 381.
 - (8) Section 382.
 - (c) Examples.
 - (d) Applicability date.

§1.163(j)-4 General rules applicable to C corporations (including REITs, RICs, and members of consolidated groups) and tax-exempt corporations.

- (a) Scope.
- (b) Characterization of items of income, gain, deduction, or loss.
 - (1) Interest expense and interest income.
 - (2) Adjusted taxable income.
 - (3) Investment interest, investment income, investment expenses, and certain other tax items of a partnership with a C corporation partner.

(i) Characterization as expense or income properly allocable to a trade or business.

(ii) Effect of characterization on partnership.

(iii) Separately stated interest expense and interest income of a partnership not treated as excess business interest expense or excess taxable income of a C corporation partner.

(iv) Treatment of deemed inclusions of a domestic partnership that are not allocable to any trade or business.

(4) Application to RICs and REITs.

(i) In general.

(ii) Tentative taxable income of RICs and REITs.

(iii) Other adjustments to adjusted taxable income for RICs and REITs.

(5) Application to tax-exempt corporations.

(6) Adjusted taxable income of co-operatives.

(7) Examples.

(c) Effect on earnings and profits.

(1) In general.

(2) Special rule for RICs and REITs.

(3) Special rule for partners that are C corporations.

(4) Examples.

(d) Special rules for consolidated groups.

(1) Scope.

(2) Calculation of the section 163(j) limitation for members of a consolidated group.

(i) In general.

(ii) Interest.

(iii) Calculation of business interest expense and business interest income for a consolidated group.

(iv) Calculation of adjusted taxable income.

(v) Treatment of intercompany obligations.

(A) In general.

(B) Repurchase premium.

(3) Investment adjustments.

(4) Examples.

(e) Ownership of partnership interests by members of a consolidated group.

(1) [Reserved]

(2) Change in status of a member.

(3) Basis adjustments under § 1.1502-32.

(4) Excess business interest expense and § 1.1502-36.

(f) Cross-references.

(g) Applicability date.

(1) In general.

(2) [Reserved]

§ 1.163(j)-5 General rules governing disallowed business interest expense carryforwards for C corporations.

(a) Scope and definitions.

(1) Scope.

(2) Definitions.

(i) Allocable share of the consolidated group's remaining section 163(j) limitation.

(ii) Consolidated group's remaining section 163(j) limitation.

(iii) Remaining current-year interest ratio.

(b) Treatment of disallowed business interest expense carryforwards.

(1) In general.

(2) Deduction of business interest expense.

(3) Consolidated groups.

(i) In general.

(ii) Deduction of business interest expense.

(A) General rule.

(B) Section 163(j) limitation equals or exceeds the current-year business interest expense and disallowed business interest expense carryforwards from prior taxable years.

(C) Current-year business interest expense and disallowed business interest expense carryforwards exceed section 163(j) limitation.

(iii) Departure from group.

(iv) Example: Deduction of interest expense.

(c) Disallowed business interest expense carryforwards in transactions to which section 381(a) applies.

(d) Limitations on disallowed business interest expense carryforwards from separate return limitation years.

(1) General rule.

(A) Cumulative section 163(j) SRLY limitation.

(B) Subgrouping.

(2) Deduction of disallowed business interest expense carryforwards arising in a SRLY.

(3) Examples.

(e) Application of section 382.

(1) Pre-change loss.

(2) Loss corporation.

(3) Ordering rules for utilization of pre-change losses and for absorption of the section 382 limitation.

§ 1.163(j)-0

26 CFR Ch. I (4-1-22 Edition)

(4) Disallowed business interest expense from the pre-change period in the year of a testing date.

(5) Recognized built-in loss.

(f) Overlap of SRLY limitation with section 382.

(g) Additional limitations.

(h) Applicability date.

§ 1.163(j)-6 Application of the business interest deduction limitation to partnerships and subchapter S Corporations.

(a) Overview.

(b) Definitions.

(1) Section 163(j) items.

(2) Partner basis items.

(3) Remedial items.

(4) Excess business interest income.

(5) Deductible business interest expense.

(6) Section 163(j) excess items.

(7) Non-excepted assets.

(8) Excepted assets.

(c) Business interest income and business interest expense of the partnership.

(1) Modification of business interest income for partnerships.

(2) Modification of business interest expense for partnerships.

(3) Transition rule.

(4) Character of business interest expense.

(d) Adjusted taxable income of a partnership.

(1) Tentative taxable income of a partnership.

(2) Section 734(b), partner basis items, and remedial items.

(3) Section 743(b) adjustments and publicly traded partnerships.

(4) Modification of adjusted taxable income for partnerships.

(5) Election to use 2019 adjusted taxable income for taxable years beginning in 2020.

(e) Adjusted taxable income and business interest income of partners.

(1) Modification of adjusted taxable income for partners.

(2) Partner basis items and remedial items.

(3) Disposition of partnership interests.

(4) Double counting of business interest income and floor plan financing interest expense prohibited.

(5) Partner basis items, remedial items, and publicly traded partnerships.

(6) [Reserved]

(f) Allocation and determination of section 163(j) excess items made in the same manner as nonseparately stated taxable income or loss of the partnership.

(1) Overview.

(i) In general.

(ii) Relevance solely for purposes of section 163(j).

(iii) Exception applicable to publicly traded partnerships.

(2) Steps for allocating deductible business interest expense and section 163(j) excess items.

(i) Partnership-level calculation required by section 163(j)(4)(A).

(ii) Determination of each partner's relevant section 163(j) items.

(iii) Partner-level comparison of business interest income and business interest expense.

(iv) Matching partnership and aggregate partner excess business interest income.

(v) Remaining business interest expense determination.

(vi) Determination of final allocable ATI.

(A) Positive allocable ATI.

(B) Negative allocable ATI.

(C) Final allocable ATI.

(vii) Partner-level comparison of 30 percent of adjusted taxable income and remaining business interest expense.

(viii) Partner priority right to ATI capacity excess determination.

(ix) Matching partnership and aggregate partner excess taxable income.

(x) Matching partnership and aggregate partner excess business interest expense.

(xi) Final section 163(j) excess item and deductible business interest expense allocation.

(g) Carryforwards.

(1) In general.

(2) Treatment of excess business interest expense allocated to partners.

(3) Excess taxable income and excess business interest income ordering rule.

(4) Special rule for taxable years beginning in 2019 and 2020.

(h) Basis adjustments.

(1) Section 704(d) ordering.

Internal Revenue Service, Treasury

§ 1.163(j)-0

(2) Excess business interest expense basis adjustments.

(3) Partner basis adjustment upon disposition of partnership interest.

(4)-(5) [Reserved]

(i)-(j) [Reserved]

(k) Investment items and certain other items.

(1) S corporations.

(i) In general.

(ii) Corporate level limitation.

(iii) Short taxable periods.

(2) Character of deductible business interest expense.

(3) Adjusted taxable income of an S corporation.

(4) Adjusted taxable income and business interest income of S corporation shareholders.

(i) Adjusted taxable income of S corporation shareholders.

(ii) Disposition of S corporation stock.

(iii) Double counting of business interest income and floor plan financing interest expense prohibited.

(iv) [Reserved]

(5) Carryforwards.

(6) Basis adjustments and disallowed business interest expense carryforwards.

(7) Accumulated adjustment accounts.

(8) Termination of qualified subchapter S subsidiary election.

(9) Investment items.

(10) Application of section 382.

(m) Partnerships and S corporations not subject to section 163(j).

(1) Exempt partnerships and S corporations.

(2) Partnerships and S corporations engaged in excepted trades or businesses.

(3) Treatment of excess business interest expense from partnerships that are exempt entities in a succeeding taxable year.

(4) S corporations with disallowed business interest expense carryforwards prior to becoming exempt entities.

(n) Treatment of self-charged lending transactions between partnerships and partners.

(o) Examples.

(p) Applicability dates.

(1) In general.

(2) Paragraphs (c)(1) and (2), (d)(3) through (5), (e)(5), (f)(1)(iii), (g)(4), (n),

and (o)(24) through (29), and (34) through (36).

§ 1.163(j)-7 Application of the section 163(j) limitation to foreign corporations and United States shareholders.

(a) Overview.

(b) General rule regarding the application of section 163(j) to relevant foreign corporations.

(c) Application of section 163(j) to CFC group members of a CFC group.

(1) Scope.

(2) Calculation of section 163(j) limitation for a CFC group for a specified period.

(i) In general.

(ii) Certain transactions between CFC group members disregarded.

(iii) [Reserved]

(iv) [Reserved]

(3) Deduction of business interest expense.

(i) CFC group business interest expense.

(A) In general.

(B) Modifications to relevant terms.

(ii) Carryforwards treated as attributable to the same taxable year.

(iii) Multiple specified taxable years of a CFC group member with respect to a specified period.

(iv) Limitation on pre-group disallowed business interest expense carryforward.

(A) General rule.

(1) CFC group member pre-group disallowed business interest expense carryforward.

(2) Subgrouping.

(3) Transition rule.

(B) Deduction of pre-group disallowed business interest expense carryforwards.

(4) Currency translation.

(5) Special rule for specified periods beginning in 2019 or 2020.

(i) 50 percent ATI limitation applies to a specified period of a CFC group.

(ii) Election to use 2019 ATI applies to a specified period of a CFC group.

(A) In general.

(B) Specified taxable years that do not begin in 2020.

(d) Determination of a specified group and specified group members.

(1) Scope.

(2) Rules for determining a specified group.

§ 1.163(j)-0

26 CFR Ch. I (4-1-22 Edition)

- (i) Definition of a specified group.
- (ii) Indirect ownership.

 - (6) Real property financing assets.
 - (7) Application of safe harbor for partnerships controlled by REITs.
 - (8) REITs or partnerships controlled by REITs that do not apply the safe harbor.
 - (i) [Reserved]
 - (j) Special anti-abuse rule for certain real property trades or businesses.

- (1) In general.
- (2) Exceptions.
 - (i) De minimis exception.
 - (ii) Look-through exception.
 - (iii) Inapplicability of exceptions to consolidated groups.
 - (iv) Exception for certain REITs.
- (3) Allocations.
- (4) Examples.
- (k) Applicability date.

§ 1.163(j)-10 Allocation of interest expense, interest income, and other items of expense and gross income to an excepted trade or business.

- (a) Overview.
 - (1) In general.
 - (i) Purposes.
 - (ii) Application of section.
 - (2) Coordination with other rules.
 - (i) In general.
 - (ii) Treatment of investment interest, investment income, investment expenses, and certain other tax items of a partnership with a C corporation or tax-exempt corporation as a partner.
 - (3) Application of allocation rules to foreign corporations and foreign partnerships.
 - (4) Application of allocation rules to members of a consolidated group.
 - (i) In general.
 - (ii) Application of excepted business percentage to members of a consolidated group.
 - (iii) Basis in assets transferred in an intercompany transaction.
 - (5) Tax-exempt organizations.
 - (6) Application of allocation rules to disallowed disqualified interest.
 - (7) Examples.
 - (b) Allocation of tax items other than interest expense and interest income.
 - (1) In general.
 - (2) Gross income other than dividends and interest income.
 - (3) Dividends.
 - (i) Look-through rule.
 - (ii) Inapplicability of the look-through rule.
 - (4) Gain or loss from the disposition of non-consolidated C corporation stock, partnership interests, or S corporation stock.
 - (i) Non-consolidated C corporations.
 - (ii) Partnerships and S corporations.
 - (5) Expenses, losses, and other deductions.

(i) Expenses, losses, and other deductions that are definitely related to a trade or business.

(ii) Other deductions.

(6) Treatment of investment items and certain other items of a partnership with a C corporation partner.

(7) Examples: Allocation of income and expense.

(c) Allocating interest expense and interest income that is properly allocable to a trade or business.

(1) General rule.

(i) In general.

(ii) De minimis exception.

(2) Example.

(3) Asset used in more than one trade or business.

(i) General rule.

(ii) Permissible methodologies for allocating asset basis between or among two or more trades or businesses.

(iii) Special rules.

(A) Consistent allocation methodologies.

(1) In general.

(2) Consent to change allocation methodology.

(B) De minimis exception.

(C) Allocations of excepted regulated utility trades or businesses.

(1) In general.

(2) Permissible method for allocating asset basis for utility trades or businesses.

(3) De minimis rule for excepted utility trades or businesses.

(4) Example.

(D) Special allocation rule for real property trades or business subject to special anti-abuse rule.

(1) In general.

(2) Allocation methodology for real property.

(3) Example.

(4) Disallowed business interest expense carryforwards; floor plan financing interest expense.

(5) Additional rules relating to basis.

(i) Calculation of adjusted basis.

(A) Non-depreciable property other than land.

(B) Depreciable property other than inherently permanent structures.

(C) Special rule for land and inherently permanent structures.

(D) Depreciable or amortizable intangible property and depreciable income forecast method property.

(E) Assets not yet used in a trade or business.

(F) Trusts established to fund specific liabilities.

(G) Inherently permanent structure.

(ii) Partnership interests; stock in non-consolidated C corporations.

(A) Partnership interests.

(1) Calculation of asset basis.

(2) Allocation of asset basis.

(i) In general.

(ii) De minimis rule.

(iii) Partnership assets not properly allocable to a trade or business.

(iv) Inapplicability of partnership look-through rule.

(B) Stock in domestic non-consolidated corporations.

(1) In general.

(2) Domestic non-consolidated C corporations.

(i) Allocation of asset basis.

(ii) De minimis rule.

(iii) Inapplicability of corporate look-through rule.

(iv) Use of inside basis for purposes of C corporation look-through rule.

(3) S corporations.

(i) Calculation of asset basis.

(ii) Allocation of asset basis.

(iii) De minimis rule.

(iv) Inapplicability of S corporation look-through rule.

(C) Stock in relevant foreign corporations.

(1) In general.

(2) Special rule for CFC utilities.

(D) Limitations on application of look-through rules.

(1) Inapplicability of look-through rule to partnerships or non-consolidated C corporations to which the small business exemption applies.

(2) Limitation on application of look-through rule to C corporations.

(D) Inapplicability of look-through rule to partnerships or non-consolidated C corporations to which the small business exemption applies.

(E) Tiered entities.

(iii) Cash and cash equivalents and customer receivables.

(iv) Deemed asset sale.

(v) Other adjustments.

(6) Determination dates; determination periods; reporting requirements.

(i) Determination dates and determination periods.

(A) Quarterly determination periods.

Internal Revenue Service, Treasury

§ 1.163(j)-1

- (B) Annual determination periods.
 - (ii) Application of look-through rules.
 - (iii) Reporting requirements.
 - (A) Books and records.
 - (B) Information statement.
 - (iv) Failure to file statement.
 - (7) Ownership threshold for look-through rules.
 - (i) Corporations.
 - (A) Asset basis.
 - (B) Dividends.
 - (ii) Partnerships.
 - (iii) Inapplicability of look-through rule.
 - (8) Anti-abuse rule.
 - (d) Direct allocations.
 - (1) In general.
 - (2) Qualified nonrecourse indebtedness.
 - (3) Assets used in more than one trade or business.
 - (4) Adjustments to basis of assets to account for direct allocations.
 - (5) Example: Direct allocation of interest expense.

 - (1) In general.
 - (2) Paragraph (c)(5)(ii)(D)(2).
- § 1.163(j)-11 Transition rules.**
- (a) Overview.
 - (b) Application of section 163(j) limitation if a corporation joins a consolidated group during a taxable year of the group beginning before January 1, 2018.
 - (1) In general.
 - (2) Example
 - (c) Treatment of disallowed disqualified interest.
 - (1) In general.
 - (2) Earnings and profits.
 - (3) Disallowed disqualified interest of members of an affiliated group.
 - (i) Scope.
 - (ii) Allocation of disallowed disqualified interest to members of the affiliated group.
 - (A) In general.
 - (B) Definitions.
 - (I) Allocable share of the affiliated group's disallowed disqualified interest.
 - (2) Disallowed disqualified interest ratio.
 - (3) Exempt related person interest expense.
 - (iii) Treatment of carryforwards.

- (4) Application of section 382.
- (i) Ownership change occurring before November 13, 2020.
- (A) Pre-change loss.
- (B) Loss corporation.
- (ii) Ownership change occurring on or after November 13, 2020.
- (A) Pre-change loss.
- (B) Loss corporation.
- (5) Treatment of excess limitation from taxable years beginning before January 1, 2018.
- (6) Example: Members of an affiliated group.
- (d) Applicability date.

[T.D. 9905, 85 FR 56760, Sept. 14, 2020, as amended by T.D. 9943, 86 FR 5522, Jan. 19, 2021]

§ 1.163(j)-1 Definitions.

§ 1.163(j)-1 Definitions.

(a) *In general.* The definitions provided in this section apply for purposes of the section 163(j) regulations. For purposes of the rules set forth in §§ 1.163(j)-2 through 1.163(j)-11, additional definitions for certain terms are provided in those sections.

(b) *Definitions*—(1) *Adjusted taxable income.* The term *adjusted taxable income* (ATI) means the tentative taxable income of the taxpayer for the taxable year, with the adjustments in this paragraph (b)(1).

(i) *Additions.* The amounts of the following items that were included in the computation of the taxpayer's tentative taxable income (if any) are added to tentative taxable income to determine ATI—

(A) Any business interest expense, other than disallowed business interest expense carryforwards;

(B) Any net operating loss deduction under section 172;

(C) Any deduction under section 199A;

(D) Subject to paragraph (b)(1)(iii) of this section, for taxable years beginning before January 1, 2022, any depreciation under section 167, section 168, or section 168 of the Internal Revenue Code (Code) of 1954 (former section 168);

(E) Subject to paragraph (b)(1)(iii) of this section, for taxable years beginning before January 1, 2022, any amortization of intangibles (for example, under section 167 or 197) and other amortized expenditures (for example,

under section 174(b), 195(b)(1)(B), 248, or 1245(a)(2)(C));

(F) Subject to paragraph (b)(1)(iii) of this section, for taxable years beginning before January 1, 2022, any depletion under section 611;

(G) Any deduction for a capital loss carryback or carryover; and

(H) Any deduction or loss that is not properly allocable to a non-excepted trade or business (for rules governing the allocation of items to an excepted trade or business, see §§1.163(j)-1(b)(44) and 1.163(j)-10).

(ii) *Subtractions.* The amounts of the following items (if any) are subtracted from the taxpayer's tentative taxable income to determine ATI —

(A) Any business interest income that was included in the computation of the taxpayer's tentative taxable income;

(B) Any floor plan financing interest expense for the taxable year that was included in the computation of the taxpayer's tentative taxable income;

(C) With respect to the sale or other disposition of property, the greater of the allowed or allowable depreciation, amortization, or depletion of the property, as provided under section 1016(a)(2), for the taxpayer (or, if the taxpayer is a member of a consolidated group, the consolidated group) for the taxable years beginning after December 31, 2017, and before January 1, 2022, with respect to such property;

(D) With respect to the sale or other disposition of stock of a member of a consolidated group by another member, the investment adjustments under §1.1502-32 with respect to such stock that are attributable to deductions described in paragraph (b)(1)(ii)(C) of this section;

(E) With respect to the sale or other disposition of an interest in a partnership, the taxpayer's distributive share of deductions described in paragraph (b)(1)(ii)(C) of this section with respect to property held by the partnership at the time of such sale or other disposition to the extent such deductions were allowable under section 704(d);

(F) Any income or gain that is not properly allocable to a non-excepted trade or business (for rules governing the allocation of items to an excepted trade or business, see §§1.163(j)-1(b)(44)

and 1.163(j)-10)) and that was included in the computation of the taxpayer's tentative taxable income; and

(G) An amount equal to the sum of any specified deemed inclusions that were included in the computation of the taxpayer's tentative taxable income, reduced by the portion of the deduction allowed under section 250(a) by reason of the specified deemed inclusions. For this purpose, a *specified deemed inclusion* is the inclusion of an amount by a United States shareholder (as defined in section 951(b)) in gross income under section 78, 951(a), or 951A(a) with respect to an applicable CFC (as defined in §1.163(j)-1(b)(2)) that is properly allocable to a non-excepted trade or business. Furthermore, a specified deemed inclusion includes any amounts included in a domestic partnership's gross income under section 951(a) or 951A(a) with respect to an applicable CFC to the extent such amounts are attributable to investment income of the partnership and are allocated to a domestic C corporation that is a direct (or indirect partner) and treated as properly allocable to a non-excepted trade or business of the domestic C corporation under §§1.163(j)-4(b)(3) and 1.163(j)-10. To determine the amount of a specified deemed inclusion described in this paragraph (b)(1)(ii)(G), the portion of a United States shareholder's inclusion under section 951A(a) treated as being with respect to an applicable CFC is determined under section 951A(f)(2) and §1.951A-6(b)(2).

(iii) *Depreciation, amortization, or depletion capitalized under section 263A.* For purposes of paragraph (b)(1)(i) of this section, amounts of depreciation, amortization, or depletion that are capitalized under section 263A during the taxable year are deemed to be included in the computation of the taxpayer's tentative taxable income for such taxable year, regardless of the period in which the capitalized amount is recovered. See *Example 3* in §1.163(j)-2(h)(3).

(iv) *Application of §1.163(j)-1(b)(1)(ii)(C), (D), and (E)—(A) Sale or other disposition—(1) In general.* For purposes of paragraphs (b)(1)(ii)(C), (D), and (E) and paragraphs (b)(1)(iv)(B) and (E) of this section, except as otherwise

provided in this paragraph (b)(1)(iv)(A), the term *sale or other disposition* does not include a transfer of an asset to an acquiring corporation in a transaction to which section 381(a) applies.

(2) *Intercompany transactions.* For purposes of paragraphs (b)(1)(ii)(C) and (D) and paragraphs (b)(1)(iv)(B) and (b)(1)(iv)(E)(I) and (2) of this section, the term *sale or other disposition* excludes all intercompany transactions, within the meaning of § 1.1502-13(b)(1)(i), to the extent necessary to achieve single-entity taxation of the consolidated group.

(3) *Deconsolidations.* Notwithstanding any other rule in this paragraph (b)(1)(iv)(A), any transaction in which a member (S) leaves a consolidated group (selling group), including a section 381(a) transaction described in paragraph (b)(1)(iv)(A)(I) of this section, is treated as a taxable disposition of all S stock held by any member of the selling group for purposes of paragraphs (b)(1)(ii)(C) and (D) and paragraphs (b)(1)(iv)(B) and (b)(1)(iv)(E)(I) and (2) of this section, unless the transaction is described in § 1.1502-13(j)(5)(i). Following S's deconsolidation, any subsequent sales or dispositions of S stock by the selling group do not trigger further adjustments under paragraphs (b)(1)(ii)(C) and (D) and paragraphs (b)(1)(iv)(B) and (b)(1)(iv)(E)(I) and (2) of this section. If a transaction is described in § 1.1502-13(j)(5)(i), the transaction is not treated as a sale or other disposition for purposes of paragraphs (b)(1)(ii)(C) and (D) and paragraphs (b)(1)(iv)(B) and (b)(1)(iv)(E)(I) and (2) of this section. See also the successor rules in paragraph (b)(1)(iv)(C) of this section.

(4) *Nonrecognition transactions.* The disposition of property, member stock (other than in a deconsolidation described in paragraph (b)(1)(iv)(A)(3) of this section), or partnership interests in a nonrecognition transaction, other than a section 381(a) transaction described in paragraph (b)(1)(iv)(A)(I) of this section, is treated as a taxable disposition of the property, member stock, or partnership interest disposed of for purposes of paragraph (b)(1)(iv)(E)(I)(i), (b)(1)(iv)(E)(2)(i), and (b)(1)(iv)(E)(3)(i) of this section, respectively. For example, if a taxpayer

transfers property to a wholly owned, non-consolidated subsidiary, the transfer of the property is treated as a taxable disposition for purposes of paragraph (b)(1)(iv)(E)(I)(i) of this section notwithstanding the application of section 351.

(B) *Deductions by members of a consolidated group—(1) In general.* If paragraph (b)(1)(ii)(C), (D), or (E) of this section applies to adjust the tentative taxable income of a consolidated group, and if the consolidated group does not use the alternative computation method in paragraph (b)(1)(iv)(E) of this section, the amount of the adjustment under paragraph (b)(1)(ii)(C) of this section equals the greater of the allowed or allowable depreciation, amortization, or depletion of the property, as provided under section 1016(a)(2), for the consolidated group for the taxable years beginning after December 31, 2017, and before January 1, 2022, with respect to such property.

(2) *Application of the alternative computation method.* If paragraph (b)(1)(ii)(C), paragraph (b)(1)(ii)(D), or paragraph (b)(1)(ii)(E) of this section applies to adjust the tentative taxable income of a consolidated group, and if the consolidated group uses the alternative computation method in paragraph (b)(1)(iv)(E) of this section, the amount of the adjustment computed under paragraph (b)(1)(iv)(E)(I)(i), paragraph (b)(1)(iv)(E)(2)(i), or paragraph (b)(1)(iv)(E)(3)(i) of this section must take into account the net gain that would be taken into account by the consolidated group, including from intercompany transactions, determined by treating the sale or other disposition as a taxable transaction (see paragraphs (b)(1)(iv)(A)(3) and (4) of this section regarding deconsolidations and certain nonrecognition transactions, respectively).

(C) *Successor rules—(1) Successor assets.* This paragraph (b)(1)(iv)(C)(I) applies if deductions described in paragraph (b)(1)(ii)(C) of this section are allowed or allowable to a consolidated group member (S) and either the depreciable property or S's stock is subsequently transferred to another member (S1) in an intercompany transaction in which the transferor receives S1 stock. If this paragraph (b)(1)(iv)(C)(I) applies,

and if the transferor's basis in the S1 stock received in the intercompany transaction is determined, in whole or in part, by reference to its basis in the depreciable property or the S stock, the S1 stock received in the intercompany transaction is treated as a successor asset for purposes of paragraph (b)(1)(ii)(D) and (b)(1)(iv)(E)(2) of this section. Thus, except as otherwise provided in paragraph (b)(1)(iv)(D) of this section, the subsequent disposition of either the S1 stock or the S stock (or both) may require the application of the adjustment rules of paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section.

(2) *Successor entities.* The acquiring corporation in a section 381(a) transaction to which the exception in paragraph (b)(1)(iv)(A)(I) of this section applies is treated as a successor to the distributor or transferor corporation for purposes of paragraphs (b)(1)(ii)(C) through (E) and (b)(1)(iv)(B) and (E) of this section. Therefore, for example, in applying paragraphs (b)(1)(ii)(C) through (E) and (b)(1)(iv)(B) and (E) of this section, the acquiring corporation is treated as succeeding to the allowed or allowable items of the distributor or transferor corporation. Similarly, the surviving group in a transaction described in § 1.1502-13(j)(5)(i) to which the exception in paragraph (b)(1)(iv)(A)(3) of this section applies is treated as a successor to the terminating group for purposes of paragraphs (b)(1)(ii)(C) through (E) and (b)(1)(iv)(B) and (E) of this section.

(D) *Anti-duplication rule—(I) In general.* The aggregate of the subtractions from tentative taxable income of a consolidated group under paragraphs (b)(1)(ii)(C) through (E) or paragraphs (b)(1)(iv)(E)(I) through (3) of this section with respect to an item of property (including with regard to dispositions of successor assets described in paragraph (b)(1)(iv)(C)(I) of this section) cannot exceed the aggregate amount of the consolidated group members' deductions described in paragraph (b)(1)(ii)(C) of this section with respect to such item of property. In addition, once an item of property is no longer held by any member of a consolidated group (whether or not an adjustment to the tentative taxable in-

come of the group is made under paragraph (b)(1)(ii)(C) of this section with respect to the direct or indirect disposition of that property), no further adjustment to the group's tentative taxable income is made under paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section in relation to the same property with respect to any subsequent stock disposition.

(2) *Adjustments following deconsolidation.* If a corporation (S) leaves a consolidated group (Group 1) in a transaction that requires an adjustment under paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section, no further adjustment is required under paragraph (b)(1)(ii)(C) or (E) or paragraph (b)(1)(iv)(E) of this section in a separate return year (as defined in § 1.1502-1(e)) of S with respect to depreciation, amortization, or depletion deductions allowed or allowable to Group 1. See paragraph (b)(1)(iv)(A) of this section for special rules regarding the meaning of the term "sale or other disposition" for purposes of the adjustments required under paragraphs (b)(1)(ii)(C) through (E) and paragraphs (b)(1)(iv)(B) and (E) of this section. For example, assume that S deconsolidates from Group 1 in a transaction not described in § 1.1502-13(j)(5)(i) after holding property for which depreciation, amortization, or depletion deductions were allowed or allowable in Group 1. On the deconsolidation, S and Group 1 would adjust tentative taxable income with regard to that property. See paragraphs (b)(1)(iv)(A)(3), (b)(1)(ii)(D), and (b)(1)(iv)(E)(2) of this section. If, following the deconsolidation, S sells the property referred to in the previous sentence, no subtraction from tentative taxable income is made under paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E)(I) of this section during S's separate return year with regard to the amounts included in Group 1. See paragraphs (b)(1)(iv)(A)(3), (b)(1)(ii)(D), and (b)(1)(iv)(E)(2) of this section.

(E) *Alternative computation method.* If paragraph (b)(1)(ii)(C), (D), or (E) of this section applies to adjust the tentative taxable income of a taxpayer, the taxpayer may compute the amount of the adjustments required by such paragraph using the formulas in paragraph (b)(1)(iv)(E)(I), (2), and (3) of this

section, respectively, provided that the taxpayer applies such formulas to all dispositions for which an adjustment is required under paragraph (b)(1)(ii)(C), (D), or (E) of this section. For special rules regarding the treatment of deconsolidating transactions and non-recognition transactions, see paragraph (b)(1)(iv)(A)(3) and (4) of this section, respectively. For special rules regarding the application of the formulas in paragraph (b)(1)(iv)(E)(1), (2), and (3) of this section by consolidated groups, see paragraph (b)(1)(iv)(B)(2) of this section.

(1) *Alternative computation method for property dispositions.* With respect to the sale or other disposition of property, the lesser of:

(i) Any gain recognized on the sale or other disposition of such property by the taxpayer (or, if the taxpayer is a member of a consolidated group, the consolidated group); and

(ii) The greater of the allowed or allowable depreciation, amortization, or depletion of the property, as provided under section 1016(a)(2), for the taxpayer (or, if the taxpayer is a member of a consolidated group, the consolidated group) for the taxable years beginning after December 31, 2017, and before January 1, 2022, with respect to such property.

(2) *Alternative computation method for dispositions of member stock.* With respect to the sale or other disposition by a member of a consolidated group of stock of another member for whom depreciation, amortization, or depletion was allowed or allowable with regard to an item of property (or stock of any successor to that member), the lesser of:

(i) Any gain recognized on the sale or other disposition of such stock; and

(ii) The investment adjustments under § 1.1502-32 with respect to such stock that are attributable to deductions described in paragraph (b)(1)(ii)(C) of this section. The investment adjustments referred to in this paragraph (b)(1)(iv)(E)(2)(ii) include investment adjustments replicated in stock of members that are successor entities.

(3) *Alternative computation method for dispositions of partnership interests.* With respect to the sale or other disposition

of an interest in a partnership, the lesser of:

(i) Any gain recognized on the sale or other disposition of such interest; and

(ii) The taxpayer's (or, if the taxpayer is a consolidated group, the consolidated group's) distributive share of deductions described in paragraph (b)(1)(ii)(C) of this section with respect to property held by the partnership at the time of such sale or other disposition to the extent such deductions were allowable under section 704(d).

(F) *Cap on negative adjustments—(1) In general.* A subtraction from (or negative adjustment to) tentative taxable income that is required under paragraph (b)(1)(ii)(C), (D), or (E) or paragraph (b)(1)(iv)(B) or (E) of this section is reduced to the extent the taxpayer establishes that the positive adjustments to tentative taxable income under paragraphs (b)(1)(i)(D) through (F) of this section in a prior taxable year did not result in an increase in the amount allowed as a deduction for business interest expense for such year. The extent to which the positive adjustments under paragraphs (b)(1)(i)(D) through (F) of this section resulted in an increase in the amount allowed as a deduction for business interest expense in a prior taxable year (such amount of positive adjustments, the *negative adjustment cap*) is determined after taking into account all other adjustments to tentative taxable income under paragraph (b)(1)(i) and (ii) of this section for that year, as established through books and records. The amount of the negative adjustment cap for a prior taxable year is reduced in future taxable years to the extent of negative adjustments under paragraphs (b)(1)(ii)(C) through (E) and paragraphs (b)(1)(iv)(B) and (E) of this section with respect to the prior taxable year.

(2) *Example.* A is a calendar-year individual taxpayer engaged in a trade or business that is neither an excepted trade or business nor eligible for the small business exemption. A has no disallowed business interest expense carryforwards. In 2021, A has \$100x of business interest expense, no business interest income or floor plan financing interest expense, and \$400x of tentative taxable income. After taking into account the adjustments to tentative

taxable income under paragraph (b)(1)(i) and (ii) of this section other than positive adjustments under paragraphs (b)(1)(i)(D) through (F) of this section, A has tentative taxable income of \$450x. A increases its tentative taxable income by \$30x (from \$450x to \$480x) under paragraph (b)(1)(i)(D) of this section to reflect \$30x of depreciation deductions with respect to Asset Y in 2021. Thus, for 2021, A would have a section 163(j) limitation of \$135x (\$450x × 30 percent) without regard to adjustments under paragraphs (b)(1)(i)(D) through (F) of this section. After the application of paragraph (b)(1)(i)(D) of this section, A has a section 163(j) limitation of \$144x (\$480x × 30 percent). In 2022, A sells Asset Y at a gain of \$50x. Under paragraph (b)(1)(iv)(F)(I) of this section, A is not required to reduce its tentative taxable income in 2022 under paragraph (b)(1)(ii)(C) through (E) or paragraph (b)(1)(iv)(E) of this section. As established by A, the \$30x addition to tentative taxable income under paragraph (b)(1)(i)(D) of this section resulted in no increase in the amount allowed as a deduction for business interest expense in 2021.

(G) *Treatment of depreciation, amortization, or depletion capitalized under section 263A.* Paragraphs (b)(1)(ii)(C) through (E) of this section and this paragraph (b)(1)(iv) apply with respect to the sale or other disposition of property to which paragraph (b)(1)(iii) of this section applies. For example, if a taxpayer with depreciable machinery capitalizes the depreciation into inventory under section 263A, paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E) of this section (and, if the taxpayer is a consolidated group, paragraph (b)(1)(iv)(B) of this section) applies upon the disposition of the machinery, subject to the cap in paragraph (b)(1)(iv)(F) of this section. Similarly, the successor asset rules in paragraph (b)(1)(iv)(C)(I) of this section would apply if the depreciable machinery subsequently were transferred to another member (S1) in an intercompany transaction in which the transferor received S1 stock.

(v) *Other adjustments.* ATI is computed with the other adjustments provided in §§ 1.163(j)-2 through 1.163(j)-11.

(vi) *Additional rules relating to adjusted taxable income in other sections.*

(A) For rules governing the ATI of C corporations, see §§ 1.163(j)-4(b)(2) and (3) and 1.163(j)-10(a)(2)(ii).

(B) For rules governing the ATI of RICs and REITs, see § 1.163(j)-4(b)(4).

(C) For rules governing the ATI of tax-exempt corporations, see § 1.163(j)-4(b)(5).

(D) For rules governing the ATI of consolidated groups, see § 1.163(j)-4(d)(2)(iv) and (v).

(E) For rules governing the ATI of partnerships, see § 1.163(j)-6(d).

(F) For rules governing the ATI of partners, see §§ 1.163(j)-6(e) and 1.163(j)-6(m)(1) and (2).

(G) For rules governing partnership basis adjustments affecting ATI, see § 1.163(j)-6(h)(2).

(H) For rules governing the ATI of S corporations, see § 1.163(j)-6(l)(3).

(I) For rules governing the ATI of S corporation shareholders, see § 1.163(j)-6(l)(4).

(J) For rules governing the ATI of certain beneficiaries of trusts and estates, see § 1.163(j)-2(f).

(vii) *ATI cannot be less than zero.* If the ATI of a taxpayer would be less than zero, the ATI of the taxpayer is zero.

(viii) *Examples.* The examples in this paragraph (b)(1)(viii) illustrate the application of paragraphs (b)(1)(ii), (iii), and (iv) of this section. Unless otherwise indicated, A, B, P, S, and T are calendar-year domestic C corporations; P is the parent of a consolidated group of which S and T are members; the exemption for certain small businesses in § 1.163(j)-2(d) does not apply; no entity is engaged in an excepted trade or business; no entity has business interest income or floor plan financing interest expense; and all amounts of interest expense are deductible except for the potential application of section 163(j).

(A) *Example 1—(I) Facts.* In 2021, A purchases a depreciable asset (Asset X) for \$30x and fully depreciates Asset X under section 168(k). For the 2021 taxable year, A establishes that its ATI before adding back depreciation deductions with respect to Asset X under paragraph (b)(1)(i)(D) of this section is \$130x, and that its ATI after adding

back depreciation deductions with respect to Asset X under paragraph (b)(1)(i)(D) of this section is \$160x. A incurs \$45x of business interest expense in 2021. In 2024, A sells Asset X to an unrelated third party for \$25x.

(2) *Analysis.* A's section 163(j) limitation for 2021 is \$48x (\$160x × 30 percent). Thus, all \$45x of A's business interest expense incurred in 2021 is deductible in that year. Under paragraph (b)(1)(ii)(C) of this section, A must subtract \$30x from its tentative taxable income in computing its ATI for its 2024 taxable year. Alternatively, under paragraph (b)(1)(iv)(E)(I) of this section, A must subtract \$25x (the lesser of \$30x or \$25x (\$25x - \$0x)) from its tentative taxable income in computing its ATI for its 2024 taxable year. However, the negative adjustments under paragraphs (b)(1)(ii)(C) and (b)(1)(iv)(E)(I) of this section are both subject to the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Under that paragraph, A's negative adjustment under either paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E)(I) of this section is capped at \$20x, or \$150x (the amount of ATI that A needed in order to deduct all \$45x of business interest expense in 2021) minus \$130x (the amount of A's tentative taxable income in 2021 before adding back any amounts under paragraph (b)(1)(i)(D) through (F) of this section). As established by A, the additional \$10x (\$30x - \$20x) of depreciation deductions that were added back to tentative taxable income in 2021 under paragraph (b)(1)(i)(D) of this section did not increase A's business interest expense deduction for that year.

(3) *Transfer of assets in a nonrecognition transaction to which section 381 applies.* The facts are the same as in paragraph (b)(1)(viii)(A)(I) of this section, except that, rather than sell Asset X to an unrelated third party in 2024, A merges with and into an unrelated third party in 2024 in a transaction described in section 368(a)(1)(A) in which no gain is recognized. As provided in paragraph (b)(1)(iv)(A)(I) of this section, the merger transaction is not treated as a "sale or other disposition" for purposes of paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E)(I) of this section. Thus, no adjustment to tentative taxable income is required in 2024

under paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E)(I) of this section.

(4) *Transfer of assets in a nonrecognition transaction to which section 351 applies.* The facts are the same as in paragraph (b)(1)(viii)(A)(I) of this section, except that, rather than sell Asset X to an unrelated third party in 2024, A transfers Asset X to B (A's wholly owned subsidiary) in 2024 in a transaction to which section 351 applies. The section 351 transaction is treated as a "sale or other disposition" for purposes of paragraphs (b)(1)(ii)(C) and (b)(1)(iv)(E)(I) of this section, and it is treated as a taxable disposition for purposes of paragraph (b)(1)(iv)(E)(I) of this section. See paragraph (b)(1)(iv)(A)(I) and (4) of this section. However, the negative adjustments under paragraphs (b)(1)(ii)(C) and (b)(1)(iv)(E)(I) of this section are both subject to the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Thus, A must subtract \$20x from its tentative taxable income in computing its ATI for its 2024 taxable year.

(B) *Example 2—(I) Facts.* In 2021, S purchases a depreciable asset (Asset Y) for \$30x and fully depreciates Asset Y under section 168(k). P reduces its basis in its S stock by \$30x under § 1.1502-32 to reflect S's depreciation deductions with respect to Asset Y. For the 2021 taxable year, the P group establishes that its ATI before adding back S's depreciation deductions with respect to Asset Y under paragraph (b)(1)(i)(D) of this section is \$130x, and that its ATI after adding back S's depreciation deductions with respect to Asset Y under paragraph (b)(1)(i)(D) of this section is \$160x. The P group incurs \$45x of business interest expense in 2021. In 2024, P sells all of its S stock to an unrelated third party at a gain of \$25x.

(2) *Analysis.* The P group's section 163(j) limitation for 2021 is \$48x (\$160x × 30 percent). Thus, all \$45x of the P group's business interest expense incurred in 2021 is deductible in that year. Under paragraph (b)(1)(ii)(D) of this section, the P group must subtract \$30x from its tentative taxable income in computing its ATI for its 2024 taxable year. Alternatively, under paragraph (b)(1)(iv)(E)(2) of this section, the P group must subtract \$25x (the lesser

of \$30x or \$25x) from its tentative taxable income in computing its ATI for its 2024 taxable year. However, the negative adjustments under paragraphs (b)(1)(ii)(D) and (b)(1)(iv)(E)(2) of this section are both subject to the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Under that paragraph, the P group's negative adjustment under either paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section is capped at \$20x, or \$150x (the amount of ATI the P group needed in order to deduct all \$45x of business interest expense in 2021) minus \$130x (the amount of the P group's tentative taxable income in 2021 before adding back any amounts under paragraph (b)(1)(i)(D) through (F) of this section). As established by the P group, the additional \$10x (\$30x-\$20x) of depreciation deductions that were added back to tentative taxable income in 2021 under paragraph (b)(1)(i)(D) of this section did not increase the P group's business interest expense deduction for that year.

(3) *Disposition of less than all member stock.* The facts are the same as in paragraph (b)(1)(viii)(B)(I) of this section, except that, in 2024, P sells half of its S stock to an unrelated third party. The results are the same as in paragraph (b)(1)(viii)(B)(2) of this section. See paragraph (b)(1)(iv)(A)(3) of this section. Thus, the P group must subtract \$20x from its tentative taxable income in computing its ATI for its 2024 taxable year. No further adjustment under paragraphs (b)(1)(ii)(C) and (D) or paragraphs (b)(1)(iv)(E)(I) and (2) of this section is required if P subsequently sells its remaining S stock or if S subsequently disposes of Asset Y. See paragraphs (b)(1)(iv)(A)(3) and (b)(1)(iv)(D) of this section.

(4) *Intercompany transfer; disposition of successor assets—(i) Adjustments in 2024.* The facts are the same as in paragraph (b)(1)(viii)(B)(I) of this section, except that, rather than sell all of its S stock to an unrelated third party in 2024, P transfers all of its S stock to T in 2024 in a transaction to which section 351 applies and, in 2025, P sells all of its T stock to an unrelated third party at a gain of \$40x. As provided in paragraph (b)(1)(iv)(A)(2) of this section, P's intercompany transfer of its S stock to T is

not a "sale or other disposition" for purposes of paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section. Thus, no adjustment to tentative taxable income is required in 2024 under paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section.

(ii) *Adjustments in 2025.* Pursuant to paragraph (b)(1)(iv)(C)(I) of this section, P's stock in T is treated as a successor asset for purposes of paragraph (b)(1)(ii)(D) and (b)(1)(iv)(E)(2) of this section. Moreover, P's sale of its T stock causes both T and S to deconsolidate. Thus, under paragraph (b)(1)(iv)(A)(3) of this section, the transaction is treated as a taxable disposition of all of the T stock and all of the S stock held by all members of the P group. Under the anti-duplication rule in paragraph (b)(1)(iv)(D) of this section, the total amount of gain recognized for purposes of paragraph (b)(1)(iv)(E)(2)(i) of this section is \$40x, the greater of the gain on the disposition of the T stock (\$40x) or on the disposition of the S stock (\$25x). However, the negative adjustments under paragraph (b)(1)(iv)(E)(2) of this section are subject to the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Thus, the P group must subtract \$20x from its tentative taxable income in computing its ATI for its 2025 taxable year.

(5) *Alternative computation and non-deconsolidating disposition of member stock.* The facts are the same as in paragraph (b)(1)(viii)(B)(I) of this section, except that, in 2024, P sells just ten percent of its S stock to an unrelated third party at a gain of \$2.5x. Under paragraph (b)(1)(iv)(E)(2) of this section, the lesser of P's gain recognized on the sale of the S stock (\$2.5x) and the investment adjustments under § 1.1502-32 with respect to the S stock P sold (\$3x) is \$2.5x, an amount less than the \$20x limitation under paragraph (b)(1)(iv)(F) of this section. Thus, the P group must subtract \$2.5x from its tentative taxable income in computing its ATI for its 2024 taxable year.

(6) *Non-deconsolidating disposition of member stock followed by asset disposition.* The facts are the same as in paragraph (b)(1)(viii)(B)(5) of this section, except that, in 2025, S sells Asset Y to an unrelated third party for a gain of

\$20x. Under paragraph (b)(1)(iv)(E)(I) of this section, the amount of the adjustment in 2025 is the lesser of two amounts. The first amount is the amount of S's gain recognized on the sale of Asset Y (\$20x). See paragraph (b)(1)(iv)(E)(I)(i) of this section. The second amount is the amount of depreciation with respect to Asset Y (see paragraph (b)(1)(iv)(E)(I)(ii) of this section), reduced by the amount of depreciation previously taken into account in the computation under paragraph (b)(1)(iv)(E)(2)(ii) of this section (\$30x-\$3x, or \$27x). See paragraph (b)(1)(iv)(D)(I) of this section. Thus, the amount of the adjustment under paragraphs (b)(1)(iv)(D) and (b)(1)(iv)(E)(I) of this section is \$20x. In turn, this amount is subject to the negative adjustment cap under paragraph (b)(1)(iv)(F), which, after accounting for the negative adjustment on the earlier sale of S stock in 2024, is \$17.5x (\$20x-\$2.5x). Accordingly, the P group must subtract \$17.5x from its tentative taxable income in computing its ATI for its 2025 taxable year.

(C) *Example 3—(I) Facts.* The facts are the same as in paragraph (b)(1)(viii)(B)(I) of this section, except that, in 2024, S sells Asset Y to an unrelated third party for \$25x and, in 2025, P sells all of its S stock to an unrelated third party at a gain of \$25x.

(2) *Analysis.* The results are the same as in paragraph (b)(1)(viii)(B)(2) of this section. Thus, the P group must subtract \$20x from its tentative taxable income in computing its ATI for its 2024 taxable year. P's sale of all of its S stock in 2025 is a "sale or other disposition" for purposes of paragraph (b)(1)(ii)(D) and (b)(1)(iv)(E)(2) of this section. However, pursuant to paragraph (b)(1)(iv)(D)(I) of this section, no further adjustment to the P group's tentative taxable income is required in 2025 under paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section.

(3) *Disposition of S stock prior to S's asset disposition.* The facts are the same as in paragraph (b)(1)(viii)(C)(I) of this section, except that, in 2024, P sells all of its S stock to an unrelated third party at a gain of \$25x and, in 2025, S sells Asset Y to an unrelated third party for \$25x. The results are the same

as in paragraph (b)(1)(viii)(B)(2) of this section. Thus, the P group must subtract \$20x from its tentative taxable income in computing its ATI for its 2024 taxable year. Pursuant to paragraph (b)(1)(iv)(D)(2) of this section, no adjustment to the acquiring group's tentative taxable income is required in 2025 under paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E)(I) of this section.

(4) *Deconsolidation of S in nonrecognition transaction.* The facts are the same as in paragraph (b)(1)(viii)(C)(3) of this section, except that, rather than sell all of its S stock to an unrelated third party, P causes S to merge with and into an unrelated third party in a transaction described in section 368(a)(1)(A). As provided in paragraph (b)(1)(iv)(A)(3) of this section, the merger transaction is treated as a taxable disposition of all of P's stock in S for purposes of paragraphs (b)(1)(ii)(D) and (b)(1)(iv)(E)(2) of this section because S leaves the P group. Thus, the results are the same as in paragraph (b)(1)(viii)(C)(3) of this section.

(D) *Example 4—(I) Facts.* P wholly owns T, which wholly owns S. In 2021, S purchases a depreciable asset (Asset Z) for \$30x and fully depreciates Asset Z under section 168(k). T reduces its basis in its S stock, and P reduces its basis in its T stock, by \$30x under § 1.1502-32 to reflect S's depreciation deductions with respect to Asset Z. For the 2021 taxable year, the P group establishes that its ATI before adding back S's depreciation deductions with respect to Asset Z under paragraph (b)(1)(i)(D) of this section is \$130x, and that its ATI after adding back S's depreciation deductions with respect to Asset Z under paragraph (b)(1)(i)(D) of this section is \$160x. The P group incurs \$45x of business interest expense in 2021. In 2024, T sells all of its S stock to an unrelated third party at a gain of \$25x. In 2025, P sells all of its T stock to an unrelated third party at a gain of \$40x.

(2) *Analysis.* The results are the same as in paragraph (b)(1)(viii)(B)(2) of this section. Thus, the P group must subtract \$20x from its tentative taxable income in computing its ATI for its 2024 taxable year. Pursuant to paragraph

(b)(1)(iv)(D)(I) of this section, no negative adjustment to the P group's tentative taxable income is required in 2025 under paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section.

(3) *Disposition of T stock in 2024.* The facts are the same as in paragraph (b)(1)(viii)(D)(I) of this section, except that, in 2024, P sells all of its T stock to another consolidated group at a gain of \$40x and, in 2025, T sells all of its S stock to an unrelated party at a gain of \$25x. Whereas the transaction described in paragraph (b)(1)(viii)(B)(4) of this section is treated as a taxable disposition of both the T stock and the S stock, only the actual disposition of the T stock in the transaction described in this paragraph (b)(1)(viii)(D)(3) is treated as a taxable disposition for purposes of paragraphs (b)(1)(ii)(D) and (b)(1)(iv)(E)(2) of this section. See paragraph (b)(1)(iv)(A)(3) of this section. However, the results are the same as in paragraph (b)(1)(viii)(B)(2) and (b)(1)(viii)(B)(4) of this section because of the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Thus, the P group must subtract \$20x from its tentative taxable income in computing its ATI for its 2024 taxable year. Pursuant to paragraph (b)(1)(iv)(D) of this section, no negative adjustment to the acquiring group's tentative taxable income is required in 2025 under paragraph (b)(1)(ii)(D) or paragraph (b)(1)(iv)(E)(2) of this section.

(E) *Example 5—(I) Facts.* In 2021, A purchases Assets X and Y for \$30x and \$80x, respectively, and fully depreciates each asset under section 168(k). For the 2021 taxable year, A establishes that its ATI before adding back depreciation deductions with respect to Assets X and Y under paragraph (b)(1)(i)(D) of this section is \$150x, and that its ATI after adding back depreciation deductions with respect to Assets X and Y under paragraph (b)(1)(i)(D) of this section is \$260x. A incurs \$75x of business interest expense in 2021. In 2024, A sells Assets X and Y to an unrelated third party for \$40x and \$90x, respectively.

(2) *Analysis.* A's section 163(j) limitation for 2021 is \$78x (\$260x × 30 percent). Thus, all \$75x of A's business interest expense incurred in 2021 is deductible

in that year. Under paragraph (b)(1)(ii)(C) of this section, A must subtract \$110x (\$30x + \$80x) from its tentative taxable income in computing its ATI for its 2024 taxable year. Alternatively, under paragraph (b)(1)(iv)(E)(I) of this section, A must subtract \$30x with respect to Asset X (the lesser of \$30x or \$40x (\$40x − \$0x)), and \$80x with respect to Asset Y (the lesser of \$80x or \$90x (\$90x − \$0x)), from its tentative taxable income in computing its ATI for its 2024 taxable year. However, the negative adjustments under paragraphs (b)(1)(ii)(C) and (b)(1)(iv)(E)(I) of this section are both subject to the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Under that paragraph, A's negative adjustment in 2024 under either paragraph (b)(1)(ii)(C) (\$110x) or paragraph (b)(1)(iv)(E)(I) (also \$110x) of this section is limited to \$100x. This amount equals \$250x (the amount of ATI that A needed in order to deduct all \$75x of business interest expense in 2021) minus \$150x (the amount of A's tentative taxable income in 2021 before adding back any amounts under paragraph (b)(1)(i)(D) through (F) of this section). As established by A, the additional \$10x (\$110x − \$100x) of depreciation deductions that were added back to tentative taxable income in 2021 under paragraph (b)(1)(i)(D) of this section did not increase A's business interest expense deduction for that year.

(3) *Sale of assets in different taxable years.* The facts are the same as in paragraph (b)(1)(viii)(E)(I) of this section, except that A sells Asset Y to an unrelated third party for \$90x in 2025. Under paragraph (b)(1)(ii)(C) of this section, A must subtract \$30x from its tentative taxable income in computing its ATI for its 2024 taxable year. Alternatively, under paragraph (b)(1)(iv)(E)(I) of this section, A must subtract \$30x (the lesser of \$30x or \$40x (\$40x − \$0x)) from its tentative taxable income in computing its ATI for its 2024 taxable year. Because A's negative adjustment cap for its 2021 taxable year is \$100x (see paragraph (b)(1)(viii)(E)(2) of this section), A's negative adjustment in 2024 of \$30x is not reduced under paragraph (b)(1)(iv)(F) of this section. In 2025, A must subtract \$80x from its tentative taxable income

under paragraph (b)(1)(ii)(C) of this section in computing its ATI. Alternatively, under paragraph (b)(1)(iv)(E)(I) of this section, A must subtract \$80x (the lesser of \$80x or \$90x (\$90x - \$0x)) from its tentative taxable income in computing its ATI for its 2025 taxable year. However, the negative adjustments under paragraphs (b)(1)(ii)(C) and (b)(1)(iv)(E)(I) of this section are both subject to the negative adjustment cap in paragraph (b)(1)(iv)(F) of this section. Moreover, A's negative adjustment cap for its 2021 taxable year is reduced from \$100x to \$70x to reflect A's \$30x negative adjustment in 2024. See paragraph (b)(1)(iv)(F) of this section. Thus, A's negative adjustment for 2025 under either paragraph (b)(1)(ii)(C) or paragraph (b)(1)(iv)(E)(I) of this section is reduced from \$80x to \$70x. As established by A, the additional \$10x (\$110x - \$100x) of depreciation deductions that were added back to tentative taxable income in 2021 under paragraph (b)(1)(i)(D) of this section did not increase A's business interest expense deduction for that year.

(2) *Applicable CFC*. The term *applicable CFC* means a foreign corporation described in section 957, but only if the foreign corporation has at least one United States shareholder that owns, within the meaning of section 958(a), stock of the foreign corporation.

(3) *Business interest expense*—(i) *In general*. The term *business interest expense* means interest expense that is properly allocable to a non-excepted trade or business or that is floor plan financing interest expense. Business interest expense also includes disallowed business interest expense carryforwards (as defined in paragraph (b)(11) of this section). However, business interest expense does not include amounts of interest expense carried forward to the taxable year from a prior taxable year due to the application of section 465 or section 469, which apply after the application of section 163(j). For the treatment of investment interest, see section 163(d); and for the treatment of personal interest, see section 163(h).

(ii) *Special rules*. For special rules for defining business interest expense in certain circumstances, see §§1.163(j)-

3(b)(2) (regarding disallowed interest expense), 1.163(j)-4(b) (regarding C corporations) and 1.163(j)-4(d)(2)(iii) (regarding consolidated groups), 1.163(j)-1(b)(9) (regarding current-year business interest expense), and 1.163(j)-6(c) (regarding partnerships and S corporations).

(4) *Business interest income*—(i) *In general*. The term *business interest income* means interest income includible in the gross income of a taxpayer for the taxable year which is properly allocable to a non-excepted trade or business. For the treatment of investment income, see section 163(d).

(ii) *Special rules*. For special rules defining business interest income in certain circumstances, see §§1.163(j)-4(b) (regarding C corporations), 1.163(j)-4(d)(2)(iii) (regarding consolidated groups), and 1.163(j)-6(c) (regarding partnerships and S corporations).

(5) *C corporation*. The term *C corporation* has the meaning provided in section 1361(a)(2).

(6) *Cleared swap*. The term *cleared swap* means a swap that is cleared by a derivatives clearing organization, as such term is defined in section 1a of the Commodity Exchange Act (7 U.S.C. 1a), or by a clearing agency, as such term is defined in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c), that is registered as a derivatives clearing organization under the Commodity Exchange Act or as a clearing agency under the Securities Exchange Act of 1934, respectively, if the derivatives clearing organization or clearing agency requires the parties to the swap to post and collect margin or collateral.

(7) *Consolidated group*. The term *consolidated group* has the meaning provided in §1.1502-1(h).

(8) *Consolidated return year*. The term *consolidated return year* has the meaning provided in §1.1502-1(d).

(9) *Current-year business interest expense*. The term *current-year business interest expense* means business interest expense that would be deductible in the current taxable year without regard to section 163(j) and that is not a disallowed business interest expense carryforward from a prior taxable year.

(10) *Disallowed business interest expense.* The term *disallowed business interest expense* means the amount of business interest expense for a taxable year in excess of the amount allowed as a deduction for the taxable year under section 163(j)(1) and § 1.163(j)-2(b). For purposes of section 163(j) and the regulations in this part under section 163(j) of the Internal Revenue Code (Code) disallowed business interest expense is treated as “paid or accrued” in the taxable year in which the expense is deductible for Federal income tax purposes (without regard to section 163(j)) or in the taxable year in which a deduction for the business interest expense is permitted under section 163(j), as the context may require.

(11) *Disallowed business interest expense carryforward.* The term *disallowed business interest expense carryforward* means any business interest expense described in § 1.163(j)-2(c).

(12) *Disallowed disqualified interest.* The term *disallowed disqualified interest* means interest expense, including carryforwards, for which a deduction was disallowed under old section 163(j) (as defined in paragraph (b)(27) of this section) in the taxpayer’s last taxable year beginning before January 1, 2018, and that was carried forward pursuant to old section 163(j).

(13) *Electing farming business.* The term *electing farming business* means a trade or business that makes an election as provided in § 1.163(j)-9 or other published guidance and that is—

(i) A farming business, as defined in section 263A(e)(4) or § 1.263A-4(a)(4);

(ii) Any trade or business of a specified agricultural or horticultural cooperative, as defined in section 199A(g)(4); or

(iii) Specifically designated by the Secretary in guidance published in the FEDERAL REGISTER or the Internal Revenue Bulletin (see § 601.601(d) of this chapter) as a farming business for purposes of section 163(j).

(14) *Electing real property trade or business.* The term *electing real property trade or business* means a trade or business that makes an election as provided in § 1.163(j)-9 or other published guidance and that is—

(i) A real property trade or business described in section 469(c)(7)(C) and § 1.469-9(b)(2); or

(ii) A REIT that qualifies for the safe harbor described in § 1.163(j)-9(h); or

(iii) A trade or business specifically designated by the Secretary in guidance published in the FEDERAL REGISTER or the Internal Revenue Bulletin (see § 601.601(d) of this chapter) as a real property trade or business for purposes of section 163(j).

(15) *Excepted regulated utility trade or business—*(i) *In general.* The term *excepted regulated utility trade or business* means:

(A) *Automatically excepted regulated utility trades or businesses.* A trade or business—

(1) That furnishes or sells—

(i) Electrical energy, water, or sewage disposal services;

(ii) Gas or steam through a local distribution system; or

(iii) Transportation of gas or steam by pipeline; but only

(2) To the extent that the rates for the furnishing or sale of the items in paragraph (b)(15)(i)(A)(1) of this section—

(i) Have been established or approved by a State or political subdivision thereof, by any agency or instrumentality of the United States, or by a public service or public utility commission or other similar body of any State or political subdivision thereof and are determined on a cost of service and rate of return basis; or

(ii) Have been established or approved by the governing or ratemaking body of an electric cooperative; or

(B) *Electing regulated utility trades or businesses.* A trade or business that makes a valid election under paragraph (b)(15)(iii) of this section; or

(C) *Designated excepted regulated utility trades or businesses.* A trade or business that is specifically designated by the Secretary in guidance published in the FEDERAL REGISTER or the Internal Revenue Bulletin as an excepted regulated utility trade or business (see § 601.601(d) of this chapter) for section 163(j) purposes.

(ii) *Depreciation and excepted and non-excepted utility trades or businesses.*

(A) *Depreciation.* Taxpayers engaged in an excepted trade or business described in paragraph (b)(15)(i) of this section cannot claim the additional first-year depreciation deduction under section 168(k) for any property that is primarily used in the excepted regulated utility trade or business.

(B) *Allocation of items.* If a taxpayer is engaged in one or more excepted trades or businesses, as described in paragraph (b)(15)(i) of this section, and one or more non-excepted trades or businesses, the taxpayer must allocate items between the excepted and non-excepted utility trades or businesses. See §§ 1.163(j)-1(b)(44) and 1.163(j)-10(c)(3)(iii)(C). Some trades or businesses with de minimis furnishing or sales of items described in paragraph (b)(15)(i)(A)(I) of this section that are not sold pursuant to rates that are determined on a cost of service and rate of return basis or established or approved by the governing or ratemaking body of an electric cooperative, and are not subject to an election in paragraph (b)(15)(iii), are treated as excepted trades or businesses. See § 1.163(j)-10(c)(3)(iii)(C)(3). For look-through rules applicable to certain CFCs that furnish or sell items described in paragraph (b)(15)(i)(A)(I) of this section that are not sold pursuant to rates that are determined on a cost of service and rate of return basis or established or approved by the governing or ratemaking body of an electric cooperative as described in paragraph (b)(15)(i)(A)(2) of this section, see § 1.163(j)-10(c)(5)(ii)(C).

(iii) *Election to be an excepted regulated utility trade or business.* (A) *In general.* A trade or business that is not an excepted regulated utility trade or business described in paragraph (b)(15)(i)(A) or (C) of this section and that furnishes or sells items described in paragraph (b)(15)(i)(A)(I) of this section is eligible to make an election to be an excepted regulated utility trade or business to the extent that the rates for furnishing or selling the items described in paragraph (b)(15)(i)(A)(I) of this section have been established or approved by a regulatory body described in paragraph (b)(15)(i)(A)(2)(i) of this section.

(B) *Scope and effect of election—(1) In general.* An election under paragraph (b)(15)(iii) of this section is made with respect to each eligible trade or business of the taxpayer and applies only to the trade or business for which the election is made. An election under paragraph (b)(15)(iii) of this section applies to the taxable year in which the election is made and to all subsequent taxable years.

(2) *Irrevocability.* An election under paragraph (b)(15)(iii) of this section is irrevocable.

(C) *Time and manner of making election—(1) In general.* Subject to paragraph (b)(15)(iii)(C)(5) of this section, a taxpayer makes an election under paragraph (b)(15)(iii) by attaching an election statement to the taxpayer's timely filed original Federal income tax return, including extensions. A taxpayer may make elections for multiple trades or businesses on a single election statement.

(2) *Election statement contents.* The election statement should be titled "Section 1.163(j)-1(b)(15)(iii) Election" and must contain the following information for each trade or business:

- (i) The taxpayer's name;
- (ii) The taxpayer's address;
- (iii) The taxpayer's social security number (SSN) or employer identification number (EIN);
- (iv) A description of the taxpayer's electing trade or business sufficient to demonstrate qualification for an election under this section, including the principal business activity code; and
- (v) A statement that the taxpayer is making an election under section 1.163(j)-1(b)(15)(iii).

(3) *Consolidated group's or partnership's trade or business.* The rules in § 1.163(j)-9(d)(3) and (4) apply with respect to an election under paragraph (b)(15)(iii) of this section for a consolidated group's or partnership's trade or business.

(4) *Termination of election.* The rules in § 1.163(j)-9(e) apply to determine when an election under paragraph (b)(15)(iii) of this section terminates.

(5) *Additional guidance.* The rules and procedures regarding the time and manner of making an election under paragraph (b)(15)(iii) of this section and the election statement contents in

paragraph (b)(15)(iii)(C)(2) of this section may be modified through other guidance (see §§ 601.601(d) and 601.602 of this chapter). Additional situations in which an election may terminate under paragraph (b)(15)(iii)(C)(4) of this section may be provided through guidance published in the FEDERAL REGISTER or in the Internal Revenue Bulletin (see § 601.601(d) of this chapter).

(16) *Excess business interest expense.* For any partnership, the term *excess business interest expense* means the amount of disallowed business interest expense of the partnership for a taxable year under section § 1.163(j)-2(b). With respect to a partner, see § 1.163(j)-6(g) and (h).

(17) *Excess taxable income.* With respect to any partnership or S corporation, the term *excess taxable income* means the amount which bears the same ratio to the partnership's ATI as—

(i) The excess (if any) of—

(A) The amount determined for the partnership or S corporation under section 163(j)(1)(B); over

(B) The amount (if any) by which the business interest expense of the partnership, reduced by the floor plan financing interest expense, exceeds the business interest income of the partnership or S corporation; bears to

(ii) The amount determined for the partnership or S corporation under section 163(j)(1)(B).

(18) *Floor plan financing indebtedness.* The term floor plan financing indebtedness means indebtedness—

(i) Used to finance the acquisition of motor vehicles held for sale or lease; and

(ii) Secured by the motor vehicles so acquired.

(19) *Floor plan financing interest expense.* The term *floor plan financing interest expense* means interest paid or accrued on floor plan financing indebtedness. For purposes of the section 163(j) regulations, all floor plan financing interest expense is treated as business interest expense. See paragraph (b)(3) of this section.

(20) *Group.* The term *group* has the meaning provided in § 1.1502-1(a).

(21) *Intercompany transaction.* The term *intercompany transaction* has the meaning provided in § 1.1502-13(b)(1)(i).

(22) *Interest.* The term *interest* means any amount described in paragraph (b)(22)(i), (ii), (iii), or (iv) of this section.

(i) *In general.* Interest is an amount paid, received, or accrued as compensation for the use or forbearance of money under the terms of an instrument or contractual arrangement, including a series of transactions, that is treated as a debt instrument for purposes of section 1275(a) and § 1.1275-1(d), and not treated as stock under § 1.385-3, or an amount that is treated as interest under other provisions of the Code or the Income Tax Regulations. Thus, interest includes, but is not limited to, the following:

(A) Original issue discount (OID), as adjusted by the holder for any acquisition premium or amortizable bond premium;

(B) Qualified stated interest, as adjusted by the holder for any amortizable bond premium or by the issuer for any bond issuance premium;

(C) Acquisition discount;

(D) Amounts treated as taxable OID under section 1286 (relating to stripped bonds and stripped coupons);

(E) Accrued market discount on a market discount bond to the extent includible in income by the holder under either section 1276(a) or 1278(b);

(F) OID includible in income by a holder that has made an election under § 1.1272-3 to treat all interest on a debt instrument as OID;

(G) OID on a synthetic debt instrument arising from an integrated transaction under § 1.1275-6;

(H) Repurchase premium to the extent deductible by the issuer under § 1.163-7(c) (determined without regard to section 163(j));

(I) Deferred payments treated as interest under section 483;

(J) Amounts treated as interest under a section 467 rental agreement;

(K) Amounts treated as interest under section 988;

(L) Forgone interest under section 7872;

(M) De minimis OID taken into account by the issuer;

(N) Amounts paid or received in connection with a sale-repurchase agreement treated as indebtedness under Federal tax principles; however, in the

case of a sale-repurchase agreement relating to tax-exempt bonds, the amount is not tax-exempt interest;

(O) Redeemable ground rent treated as interest under section 163(c); and

(P) Amounts treated as interest under section 636.

(ii) *Swaps with significant nonperiodic payments*—(A) *In general.* Except as provided in paragraphs (b)(22)(ii)(B) and (C) of this section, a swap with significant nonperiodic payments is treated as two separate transactions consisting of an on-market, level payment swap and a loan. The loan must be accounted for by the parties to the contract independently of the swap. The time value component associated with the loan, determined in accordance with § 1.446-3(f)(2)(iii)(A), is recognized as interest expense to the payor and interest income to the recipient.

(B) *Exception for cleared swaps.* Paragraph (b)(22)(ii)(A) of this section does not apply to a cleared swap (as defined in paragraph (b)(6) of this section).

(C) *Exception for non-cleared swaps subject to margin or collateral requirements.* Paragraph (b)(22)(ii)(A) of this section does not apply to a non-cleared swap that requires the parties to meet the margin or collateral requirements of a federal regulator or that provides for margin or collateral requirements that are substantially similar to a cleared swap or a non-cleared swap subject to the margin or collateral requirements of a federal regulator. For purposes of this paragraph (b)(22)(ii)(C), the term *federal regulator* means the Securities and Exchange Commission (SEC), the Commodity Futures Trading Commission (CFTC), or a prudential regulator, as defined in section 1a(39) of the Commodity Exchange Act (7 U.S.C. 1a), as amended by section 721 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, Public Law 111-203, 124 Stat. 1376, Title VII.

(iii) *Other amounts treated as interest*—

(A) *Treatment of premium*—(I) *Issuer.* If a debt instrument is issued at a premium within the meaning of § 1.163-13, any ordinary income under § 1.163-13(d)(4) is treated as interest income of the issuer.

(2) *Holder.* If a taxable debt instrument is acquired at a premium within the meaning of § 1.171-1 and the holder

elects to amortize the premium, any amount deductible as a bond premium deduction under section 171(a)(1) and § 1.171-2(a)(4)(i)(A) or (C) is treated as interest expense of the holder.

(B) *Treatment of ordinary income or loss on certain debt instruments.* If an issuer of a contingent payment debt instrument subject to § 1.1275-4(b), a nonfunctional currency contingent payment debt instrument subject to § 1.988-6, or an inflation-indexed debt instrument subject to § 1.1275-7 recognizes ordinary income on the debt instrument in accordance with the rules in § 1.1275-4(b), § 1.988-6(b)(2), or § 1.1275-7(f), whichever is applicable, the ordinary income is treated as interest income of the issuer. If a holder of a contingent payment debt instrument subject to § 1.1275-4(b), a nonfunctional currency contingent payment debt instrument subject to § 1.988-6, or an inflation-indexed debt instrument subject to § 1.1275-7 recognizes an ordinary loss on the debt instrument in accordance with the rules in § 1.1275-4(b), § 1.988-6(b)(2), or § 1.1275-7(f), whichever is applicable, the ordinary loss is treated as interest expense of the holder.

(C) *Substitute interest payments.* A substitute interest payment described in § 1.861-2(a)(7) is treated as interest expense to the payor only if the payment relates to a sale-repurchase agreement or a securities lending transaction that is not entered into by the payor in the ordinary course of the payor's business. A substitute interest payment described in § 1.861-2(a)(7) is treated as interest income to the recipient only if the payment relates to a sale-repurchase agreement or a securities lending transaction that is not entered into by the recipient in the ordinary course of the recipient's business; however, in the case of a sale-repurchase agreement or a securities lending transaction relating to tax-exempt bonds, the recipient of a substitute payment does not receive tax-exempt interest income. This paragraph (b)(22)(iii)(C) does not apply to an amount described in paragraph (b)(22)(i)(N) of this section.

(D) *Section 1258 gain.* Any gain treated as ordinary gain under section 1258 is treated as interest income.

(E) *Factoring income.* The excess of the amount that a taxpayer collects on a factored receivable (or realizes upon the sale or other disposition of the factored receivable) over the amount paid for the factored receivable by the taxpayer is treated as interest income. For purposes of this paragraph (b)(22)(iii)(E), the term *factored receivable* includes any account receivable or other evidence of indebtedness, whether or not issued at a discount and whether or not bearing stated interest, arising out of the disposition of property or the performance of services by any person, if such account receivable or evidence of indebtedness is acquired by a person other than the person who disposed of the property or provided the services that gave rise to the account receivable or evidence of indebtedness. This paragraph (b)(22)(iii)(E) does not apply to an amount described in paragraph (b)(22)(i)(C) or (E) of this section.

(F) *Section 163(j) interest dividends—(1) In general.* Except as otherwise provided in this paragraph (b)(22)(iii)(F), a section 163(j) interest dividend is treated as interest income.

(2) *Limitation on amount treated as interest income.* A shareholder may not treat any part of a section 163(j) interest dividend as interest income to the extent the amount of the section 163(j) interest dividend exceeds the excess of the amount of the entire dividend that includes the section 163(j) interest dividend over the sum of the conduit amounts other than interest-related dividends under section 871(k)(1)(C) and section 163(j) interest dividends that affect the shareholder's treatment of that dividend.

(3) *Conduit amounts.* For purposes of paragraph (b)(22)(iii)(F)(2) of this section, the term *conduit amounts* means, with respect to any category of income (including tax-exempt interest) earned by a RIC for a taxable year, the amounts identified by the RIC (generally in a designation or written report) in connection with dividends of the RIC for that taxable year that are subject to a limit determined by reference to that category of income. For example, a RIC's conduit amount with respect to its net capital gain is the

amount of the RIC's capital gain dividends under section 852(b)(3)(C).

(4) *Holding period.* Except as provided in paragraph (b)(22)(iii)(F)(5) of this section, no dividend is treated as interest income under paragraph (b)(22)(iii)(F)(1) of this section if the dividend is received with respect to a share of RIC stock—

(i) That is held by the shareholder for 180 days or less (taking into account the principles of section 246(c)(3) and (4)) during the 361-day period beginning on the date which is 180 days before the date on which the share becomes ex-dividend with respect to such dividend; or

(ii) To the extent that the shareholder is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property.

(5) *Exception to holding period requirement for money market funds and certain regularly declared dividends.* Paragraph (b)(22)(iii)(F)(4)(i) of this section does not apply to dividends distributed by any RIC regulated as a money market fund under 17 CFR 270.2a-7 (Rule 2a-7 under the 1940 Act) or to regular dividends paid by a RIC that declares section 163(j) interest dividends on a daily basis in an amount equal to at least 90 percent of its excess section 163(j) interest income, as defined in paragraph (b)(35)(iv)(E) of this section, and distributes such dividends on a monthly or more frequent basis.

(iv) *Anti-avoidance rules—(A) Principal purpose to reduce interest expense—(1) Treatment as interest expense.* Any expense or loss economically equivalent to interest is treated as interest expense if a principal purpose of structuring the transaction(s) is to reduce an amount incurred by the taxpayer that otherwise would have been described in paragraph (b)(22)(i), (ii), or (iii) of this section. For this purpose, the fact that the taxpayer has a business purpose for obtaining the use of funds does not affect the determination of whether the manner in which the taxpayer structures the transaction(s) is with a principal purpose of reducing the taxpayer's interest expense. In addition, the fact that the taxpayer has obtained funds at a lower pre-tax cost

based on the structure of the transaction(s) does not affect the determination of whether the manner in which the taxpayer structures the transaction(s) is with a principal purpose of reducing the taxpayer's interest expense. For purposes of this paragraph (b)(22)(iv)(A)(I), any expense or loss is economically equivalent to interest to the extent that the expense or loss is—

- (i) Deductible by the taxpayer;
- (ii) Incurred by the taxpayer in a transaction or series of integrated or related transactions in which the taxpayer secures the use of funds for a period of time;
- (iii) Substantially incurred in consideration of the time value of money; and
- (iv) Not described in paragraph (b)(22)(i), (ii), or (iii) of this section.

(2) *Corresponding treatment of amounts as interest income.* If a taxpayer knows that an expense or loss is treated by the payor as interest expense under paragraph (b)(22)(iv)(A)(I) of this section, the taxpayer provides the use of funds for a period of time in the transaction(s) subject to paragraph (b)(22)(iv)(A)(I) of this section, the taxpayer earns income or gain with respect to the transaction(s), and such income or gain is substantially earned in consideration of the time value of money provided by the taxpayer, such income or gain is treated as interest income to the extent of the expense or loss treated by the payor as interest expense under paragraph (b)(22)(iv)(A)(I) of this section.

(B) *Interest income artificially increased.* Notwithstanding paragraphs (b)(22)(i) through (iii) of this section, any income realized by a taxpayer in a transaction or series of integrated or related transactions is not treated as interest income of the taxpayer if and to the extent that a principal purpose for structuring the transaction(s) is to artificially increase the taxpayer's business interest income. For this purpose, the fact that the taxpayer has a business purpose for holding interest generating assets does not affect the determination of whether the manner in which the taxpayer structures the transaction(s) is with a principal purpose of artificially increasing the taxpayer's business interest income.

(C) *Principal purpose.* Whether a transaction or a series of integrated or related transactions is entered into with a principal purpose described in paragraph (b)(22)(iv)(A) or (B) of this section depends on all the facts and circumstances related to the transaction(s), except for those facts described in paragraph (b)(22)(iv)(A) or (B) of this section. A purpose may be a principal purpose even though it is outweighed by other purposes (taken together or separately). Factors to be taken into account in determining whether one of the taxpayer's principal purposes for entering into the transaction(s) include the taxpayer's normal borrowing rate in the taxpayer's functional currency, whether the taxpayer would enter into the transaction(s) in the ordinary course of the taxpayer's trade or business, whether the parties to the transaction(s) are related persons (within the meaning of section 267(b) or section 707(b)), whether there is a significant and bona fide business purpose for the structure of the transaction(s), whether the transactions are transitory, for example, due to a circular flow of cash or other property, and the substance of the transaction(s).

(D) *Coordination with anti-avoidance rule in § 1.163(j)-2(j).* The anti-avoidance rules in paragraphs (b)(22)(iv)(A) through (C) of this section, rather than the anti-avoidance rules in § 1.163(j)-2(j), apply to determine whether an item is treated as interest expense or interest income.

(v) *Examples.* The examples in this paragraph (b)(22)(v) illustrate the application of paragraph (b)(22)(iv) of this section. Unless otherwise indicated, A, B, C, D, and Bank are domestic C corporations that are publicly traded; the exemption for certain small businesses in § 1.163(j)-2(d) does not apply; A is not engaged in an excepted trade or business; and all amounts of interest expense are deductible except for the potential application of section 163(j).

(A) *Example 1—(I) Facts.* A is engaged in a manufacturing business and uses the calendar year as its annual accounting period. A's functional currency is the U.S. dollar and A conducts virtually all of its business in the U.S. dollar. A has no connection to Japan or the Japanese yen in the ordinary

course of business. A projects that it will have business interest expense of \$100x on an existing loan obligation with a stated principal amount of \$2,000x (Loan 1) and no business interest income in its taxable year ending December 31, 2021. In early 2021, A enters into the following transactions, which A would not have entered into in the ordinary course of A's trade or business:

(i) A enters into a loan obligation in which A borrows Japanese yen from Bank in an amount equivalent to \$2,000x with an interest rate of 1 percent (Loan 2) (at the time of the loan, the U.S. dollar equivalent interest rate on a loan of \$2,000x is 5 percent);

(ii) A enters into a foreign currency swap transaction (FX Swap) with Bank with a notional principal amount of \$2,000x under which A receives Japanese yen at 1 percent multiplied by the amount of Japanese yen borrowed from Bank (which for 2021 equals \$20x) and pays U.S. dollars at 5 percent multiplied by a notional amount of \$2,000x (\$100x per year);

(iii) The FX Swap is not integrated with Loan 2 under § 1.988-5; and

(iv) A enters into a spot transaction with Bank to convert the proceeds of Loan 2 into \$2,000x U.S. dollars and A uses the U.S. dollars to repay Loan 1.

(2) *Analysis.* A principal purpose of A entering into the transactions with Bank was to try to reduce the amount incurred by A that otherwise would be interest expense; in effect, A sought to alter A's cost of borrowing by converting a substantial portion of its interest expense deductions on Loan 1 into section 165 deductions on the FX Swap (\$100x interest expense related to Loan 1 compared to \$20x interest expense related to Loan 2 and \$80x section 165 deduction). A's functional currency is the U.S. dollar and A conducts virtually all of its business in the U.S. dollar. A has no connection to Japan or the Japanese yen and would not have entered into the transactions in the ordinary course of A's trade or business. The section 165 deductions related to the FX Swap were incurred by A in a series of transactions in which A secured the use of funds for a period of time and were substantially incurred in consideration of the time value of

money. As a result, under paragraph (b)(22)(iv)(A)(I) of this section, for purposes of section 163(j), the \$80x paid by A to Bank on the FX Swap is treated by A as interest expense.

(B) *Example 2—(1) Facts.* A is engaged in a manufacturing business and uses the calendar year as its annual accounting period. A does not use gold in its manufacturing business. In 2021, A expects to borrow \$1,000x for six months. In January 2021, A borrows from B two ounces of gold at a time when the spot price for gold is \$500x per ounce. A agrees to return the two ounces of gold in six months. A sells the two ounces of gold to C for \$1,000x. A then enters into a contract with D to purchase two ounces of gold six months in the future for \$1,013x. In exchange for the use of \$1,000x in cash for six months, A has sustained a loss of \$13x in connection with these related transactions. A would not have entered into the gold transactions in the ordinary course of A's trade or business.

(2) *Analysis.* In a series of related transactions, A has obtained the use of \$1,000x for six months and created a loss of \$13x substantially incurred in consideration of the time value of money. A would not have entered into the gold transactions in the ordinary course of A's trade or business. A entered into the transactions with a principal purpose of structuring the transactions to reduce its interest expense (in effect, A sought to convert what otherwise would be interest expense into a loss through the transactions). As a result, under paragraph (b)(22)(iv)(A)(I) of this section, for purposes of section 163(j), the loss of \$13x is treated by A as interest expense.

(C) *Example 3—(1) Facts.* A is engaged in a manufacturing business and uses the calendar year as its annual accounting period. A's functional currency is the U.S. dollar and A conducts virtually all of its business in the U.S. dollar. A has no connection to Argentina or the Argentine peso as part of its ordinary course of business. As of January 1, 2021, A expects to have adjusted taxable income (as defined in paragraph (b)(1) of this section) of \$200x in the taxable year ending December 31, 2021. A also projects that it will have business interest expense of \$70x

on an existing loan in 2021. A has cash equivalents of \$100x on which A expects to earn \$5x of business interest income. In early 2021, A enters into the following transactions, which A would not have entered into in the ordinary course of A's trade or business:

(i) A enters into a spot transaction with Bank to convert the \$100x of cash equivalents into an amount in Argentine pesos equivalent to \$100x and A uses the Argentine pesos to purchase an Argentine peso note (Note) issued by a subsidiary of Bank for the Argentine peso equivalent of \$100x; the Note pays interest at a 10 percent rate; and

(ii) A enters into a foreign currency swap transaction (FX Swap) with Bank with a notional principal amount of \$100x under which A pays Argentine pesos at 10 percent multiplied by the amount of Argentine peso principal amount on the Note (which for 2021 equals \$10x) and receives U.S. dollars at 5 percent multiplied by a notional amount of \$100x (\$5x per year).

(2) *Analysis.* A principal purpose of A entering into the transactions was to increase the amount of business interest income received by A; in effect, A increased its business interest income by separately accounting for its net deduction of \$5x per year on the FX Swap. A's functional currency is the U.S. dollar and A conducts virtually all of its business in the U.S. dollar. A has no connection to Argentina or the Argentine peso and would not have entered into the transactions in the ordinary course of A's trade or business. The FX Swap was incurred by A as a part of a transaction that A entered into with a principal purpose of artificially increasing its business interest income. As a result, under paragraph (b)(22)(iv)(B) of this section, for purposes of section 163(j), the \$10x business interest income earned on the Note by A is reduced by \$5x (the net \$5x paid by A on the FX Swap).

(D) *Example 4—(1) Facts.* A is wholly owned by FC, a foreign corporation organized in foreign country X. A uses the calendar year for its annual accounting period. FC has a better credit rating than A. A needs to borrow \$2,000x in the taxable year ending December 31, 2021, to fund its business operations. A also projects that, if it bor-

rows \$2,000x on January 1, 2021, and pays a market rate of interest, it will have business interest expense of \$100x in its taxable year ending December 31, 2021. In early 2021, A enters into the following transactions:

(i) A enters into a loan obligation in which A borrows \$2,000x from Bank with an interest rate of 3 percent (Loan 1);

(ii) FC and Bank enter into a guarantee arrangement (Guarantee) under which FC agrees to guarantee Bank that Bank will be timely paid all of the amounts due on Loan 1; and

(iii) A enters into a guarantee fee agreement with FC (Guarantee Fee Agreement) under which A agrees to pay FC \$40x in return for FC entering into the Guarantee, which was not an agreement that A would have entered into in the ordinary course of A's trade or business.

(2) *Analysis.* A principal purpose of A entering into the transactions was to reduce the amount incurred by A that otherwise would be interest expense; in effect, A sought to convert a substantial portion of its interest expense deductions on Loan 1 into section 162 deductions on the Guarantee Fee Agreement (\$100x interest expense had A borrowed without the Guarantee compared to \$60x interest expense related to Loan 1 and \$40x section 162 deduction). A would not have entered into the Guarantee Fee Agreement in the ordinary course of A's trade or business. The \$40x section 162 deductions related to the Guarantee Fee Agreement were incurred by A in a series of transactions in which A secured the use of funds for a period of time and were substantially incurred in consideration of the time value of money. As a result, under paragraph (b)(22)(iv)(A)(I) of this section, for purposes of section 163(j), the \$40x paid by A to FC on the Guarantee Fee Agreement is treated by A as interest expense.

(E) *Example 5—(1) Facts.* A, B, and C are equal partners in ABC partnership. ABC is considering acquiring an additional loan from a third-party lender to expand its business operations. However, ABC already has significant debt and interest expense. For the purpose of reducing the amount of additional

interest expense ABC would have otherwise incurred by borrowing, A agrees to make an additional contribution to ABC for use in its business operations in exchange for a guaranteed payment for the use of capital under section 707(c).

(2) *Analysis.* The guaranteed payment is deductible by ABC, incurred by ABC in a transaction in which ABC secures the use of funds for a period of time, substantially incurred in consideration of the time value of money, and not described in paragraph (b)(22)(i), (ii), or (iii) of this section. As a result, the guaranteed payment to A is economically equivalent to the interest that ABC would have incurred on an additional loan from a third-party lender. A principal purpose of A making a contribution in exchange for a guaranteed payment for the use of capital was to reduce the amount incurred by ABC that otherwise would be interest expense. As a result, under paragraph (b)(22)(iv)(A)(1) of this section, for purposes of section 163(j), such guaranteed payment is treated as interest expense of ABC for purposes of section 163(j). In addition, under paragraph (b)(22)(iv)(A)(2) of this section, if A knows that the guaranteed payment is treated as interest expense of ABC, because A provides the use of funds for a period of time in a transaction subject to paragraph (b)(22)(iv)(A)(1) of this section, A earns income or gain with respect to the transaction, and such income or gain is substantially earned in consideration of the time value of money provided by A, the guaranteed payment is treated as interest income of A for purposes of section 163(j).

(23) *Interest expense.* The term *interest expense* means interest that is paid or accrued, or treated as paid or accrued, for the taxable year.

(24) *Interest income.* The term *interest income* means interest that is included in gross income for the taxable year.

(25) *Member.* The term *member* has the meaning provided in § 1.1502-1(b).

(26) *Motor vehicle.* The term *motor vehicle* means a motor vehicle as defined in section 163(j)(9)(C).

(27) *Old section 163(j).* The term *old section 163(j)* means section 163(j) immediately prior to its amendment by Public Law 115-97, 131 Stat. 2054 (2017).

(28) *Ownership change.* The term *ownership change* has the meaning provided in section 382 and the regulations in this part under section 382 of the Code.

(29) *Ownership date.* The term *ownership date* has the meaning provided in section 382 and the regulations in this part under section 382 of the Code.

(30) *Real estate investment trust.* The term *real estate investment trust* (REIT) has the meaning provided in section 856.

(31) *Real property.* The term *real property* includes—

(i) Real property as defined in § 1.469-9(b)(2); and

(ii) Any direct or indirect right, including a license or other contractual right, to share in the appreciation in value of, or the gross or net proceeds or profits generated by, an interest in real property, including net proceeds or profits associated with tolls, rents or other similar fees.

(32) *Regulated investment company.* The term *regulated investment company* (RIC) has the meaning provided in section 851.

(33) *Relevant foreign corporation.* The term *relevant foreign corporation* means any foreign corporation whose classification is relevant under § 301.7701-3(d)(1) for a taxable year, other than solely pursuant to section 881 or 882.

(34) *S corporation.* The term *S corporation* has the meaning provided in section 1361(a)(1).

(35) *Section 163(j) interest dividend.* The term *section 163(j) interest dividend* means a dividend paid by a RIC for a taxable year for which section 852(b) applies to the RIC, to the extent described in paragraph (b)(35)(i) or (ii) of this section, as applicable.

(i) *In general.* Except as provided in paragraph (b)(35)(ii) of this section, a section 163(j) interest dividend is any dividend, or part of a dividend, that is reported by the RIC as a section 163(j) interest dividend in written statements furnished to its shareholders.

(ii) *Reduction in the case of excess reported amounts.* If the aggregate reported amount with respect to the RIC for the taxable year exceeds the excess section 163(j) interest income of the RIC for such taxable year, the section 163(j) interest dividend is—

(A) The reported section 163(j) interest dividend amount; reduced by

(B) The excess reported amount that is allocable to that reported section 163(j) interest dividend amount.

(iii) *Allocation of excess reported amount*—(A) *In general.* Except as provided in paragraph (b)(35)(iii)(B) of this section, the excess reported amount, if any, that is allocable to the reported section 163(j) interest dividend amount is that portion of the excess reported amount that bears the same ratio to the excess reported amount as the reported section 163(j) interest dividend amount bears to the aggregate reported amount.

(B) *Special rule for noncalendar year RICs.* In the case of any taxable year that does not begin and end in the same calendar year, if the post-December reported amount equals or exceeds the excess reported amount for that taxable year, paragraph (b)(35)(iii)(A) of this section is applied by substituting “post-December reported amount” for “aggregate reported amount,” and no excess reported amount is allocated to any dividend paid on or before December 31 of such taxable year.

(iv) *Definitions.* The following definitions apply for purposes of this paragraph (b)(35):

(A) *Reported section 163(j) interest dividend amount.* The term *reported section 163(j) interest dividend amount* means the amount of a dividend distribution reported to the RIC’s shareholders under paragraph (b)(35)(i) of this section as a section 163(j) interest dividend.

(B) *Excess reported amount.* The term *excess reported amount* means the excess of the aggregate reported amount over the RIC’s excess section 163(j) interest income for the taxable year.

(C) *Aggregate reported amount.* The term *aggregate reported amount* means the aggregate amount of dividends reported by the RIC under paragraph (b)(35)(i) of this section as section 163(j) interest dividends for the taxable year (including section 163(j) interest dividends paid after the close of the taxable year described in section 855).

(D) *Post-December reported amount.* The term *post-December reported amount* means the aggregate reported amount

determined by taking into account only dividends paid after December 31 of the taxable year.

(E) *Excess section 163(j) interest income.* The term *excess section 163(j) interest income* means, with respect to a taxable year of a RIC, the excess of the RIC’s business interest income for the taxable year over the sum of the RIC’s business interest expense for the taxable year and the RIC’s other deductions for the taxable year that are properly allocable to the RIC’s business interest income.

(v) *Example*—(A) *Facts.* X is a domestic C corporation that has elected to be a RIC. For its taxable year ending December 31, 2021, X has \$100x of business interest income (all of which is qualified interest income for purposes of section 871(k)(1)(E)) and \$10x of dividend income (all of which is qualified dividend income within the meaning of section 1(h)(11) and would be eligible for the dividends received deduction under section 243, determined as described in section 854(b)(3)). X has \$10x of business interest expense and \$20x of other deductions. X has no other items for the taxable year. On December 31, 2021, X pays a dividend of \$80x to its shareholders, and reports, in written statements to its shareholders, \$71.82x as a section 163(j) interest dividend; \$10x as dividends that may be treated as qualified dividend income or as dividends eligible for the dividends received deduction; and \$72.73x as interest-related dividends under section 871(k)(1)(C). Shareholder A, a domestic C corporation, meets the holding period requirements in paragraph (b)(22)(iii)(F)(4) of this section with respect to the stock of X, and receives a dividend of \$8x from X on December 31, 2021.

(B) *Analysis.* X determines that \$18.18x of other deductions are properly allocable to X’s business interest income. X’s excess section 163(j) interest income under paragraph (b)(35)(iv)(E) of this section is \$71.82x (\$100x business interest income—(\$10x business interest expense + \$18.18x other deductions allocated) = \$71.82x). Thus, X may report up to \$71.82x of its dividends paid on December 31, 2021, as section 163(j) interest dividends to its shareholders.

X may also report up to \$10x of its dividends paid on December 31, 2021, as dividends that may be treated as qualified dividend income or as dividends that are eligible for the dividends received deduction. X determines that \$9.09x of interest expense and \$18.18x of other deductions are properly allocable to X's qualified interest income. Therefore, X may report up to \$72.73x of its dividends paid on December 31, 2021, as interest-related dividends under section 871(k)(1)(C) (\$100x qualified interest income—\$27.27x deductions allocated = \$72.73x). A treats \$1x of its \$8x dividend as a dividend eligible for the dividends received deduction and no part of the dividend as an interest-related dividend under section 871(k)(1)(C). Therefore, under paragraph (b)(22)(iii)(F)(2) of this section, A may treat \$7x of the section 163(j) interest dividend as interest income for purposes of section 163(j) (\$8x dividend—\$1x conduit amount = \$7x limitation).

(36) *Section 163(j) limitation.* The term *section 163(j) limitation* means the limit on the amount of business interest expense that a taxpayer may deduct in a taxable year under section 163(j) and § 1.163(j)-2(b).

(37) *Section 163(j) regulations.* The term *section 163(j) regulations* means this section and §§ 1.163(j)-2 through 1.163(j)-11.

(38) *Separate return limitation year.* The term *separate return limitation year* (SRLY) has the meaning provided in § 1.1502-1(f).

(39) *Separate return year.* The term *separate return year* has the meaning provided in § 1.1502-1(e).

(40) *Separate tentative taxable income.* The term *separate tentative taxable income* with respect to a taxpayer and a taxable year has the meaning provided in § 1.1502-12, but for this purpose computed without regard to the application of the section 163(j) limitation and with the addition of the adjustments made in paragraph (b)(43)(ii) of this section and § 1.163(j)-4(d)(2)(iv).

(41) *Tax-exempt corporation.* The term *tax-exempt corporation* means any tax-exempt organization that is organized as a corporation.

(42) *Tax-exempt organization.* The term *tax-exempt organization* means any entity subject to tax under section 511.

(43) *Tentative taxable income*—(i) *In general.* The term *tentative taxable income*, with respect to a taxpayer and a taxable year, generally is determined in the same manner as taxable income under section 63 but for this purpose computed without regard to the application of the section 163(j) limitation. Tentative taxable income is computed without regard to any disallowed business interest expense carryforwards.

(ii) [Reserved]

(iii) *Special rules for defining tentative taxable income.* (A) For special rules defining the tentative taxable income of a RIC or REIT, see § 1.163(j)-4(b)(4)(ii).

(B) For special rules defining the tentative taxable income of consolidated groups, see § 1.163(j)-4(d)(2)(iv).

(C) For special rules defining the tentative taxable income of a partnership, see § 1.163(j)-6(d)(1).

(D) For special rules defining the tentative taxable income of an S corporation, see § 1.163(j)-6(l)(3).

(E) For special rules clarifying that tentative taxable income takes sections 461(l), 465, and 469 into account, see § 1.163(j)-3(b)(4).

(F) For special rules clarifying that tentative taxable income takes sections 461(l), 465, and 469 into account, see § 1.163(j)-3(b)(4).

(G) For special rules clarifying that tentative taxable income takes sections 461(l), 465, and 469 into account, see § 1.163(j)-3(b)(4).

(44) *Trade or business*—(i) *In general.* The term *trade or business* means a trade or business within the meaning of section 162.

(ii) *Excepted trade or business.* The term *excepted trade or business* means the trade or business of performing services as an employee, an electing real property trade or business, an electing farming business, or an excepted regulated utility trade or business. For additional rules related to excepted trades or businesses, including elections made under section 163(j)(7)(B) and (C), see § 1.163(j)-9.

(iii) *Non-excepted trade or business.* The term *non-excepted trade or business* means any trade or business that is not an excepted trade or business.

(45) *Unadjusted basis.* The term *unadjusted basis* means the basis as determined under section 1012 or other

applicable sections of chapter 1 of subtitle A of the Code, including subchapters O (relating to gain or loss on dispositions of property), C (relating to corporate distributions and adjustments), K (relating to partners and partnerships), and P (relating to capital gains and losses) of the Code. Unadjusted basis is determined without regard to any adjustments described in section 1016(a)(2) or (3), any adjustments for tax credits claimed by the taxpayer (for example, under section 50(c)), or any adjustments for any portion of the basis that the taxpayer has elected to treat as an expense (for example, under section 179, 179B, or 179C).

(46) *United States shareholder.* The term *United States shareholder* has the meaning provided in section 951(b).

(c) *Applicability date*—(1) *In general.* Except as provided in paragraphs (c)(2), (3), and (4) of this section, this section applies to taxable years beginning on or after November 13, 2020. However, taxpayers and their related parties, within the meaning of sections 267(b) and 707(b)(1), may choose to apply the rules of this section to a taxable year beginning after December 31, 2017, and before November 13, 2020 so long as the taxpayers and their related parties consistently apply the rules of the section 163(j) regulations, and, if applicable, §§1.263A-9, 1.263A-15, 1.381(c)(20)-1, 1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4, to that taxable year. Additionally, taxpayers and their related parties within the meaning of sections 267(b) and 707(b)(1), otherwise relying on the notice of proposed rulemaking that was published on December 28, 2018, in the FEDERAL REGISTER (83 FR 67490) in its entirety under §1.163(j)-1(c), may alternatively choose to follow §1.163(j)-1(b)(1)(iii), rather than proposed §1.163(j)-1(b)(1)(iii).

(2) *Anti-avoidance rules.* The anti-avoidance rules in paragraph (b)(22)(iv) of this section apply to transactions entered into on or after September 14, 2020.

(3) *Swaps with significant nonperiodic payments*—(i) *In general.* Except as provided in paragraph (c)(3)(ii) of this section, the rules provided in paragraph (b)(22)(ii) of this section apply to notional principal contracts entered into on or after September 14, 2021. However, taxpayers may choose to apply the rules provided in paragraph (b)(22)(ii) of this section to notional principal contracts entered into before September 14, 2021.

(ii) *Anti-avoidance rule.* The anti-avoidance rules in paragraph (b)(22)(iv) of this section (applied without regard to the references to paragraph (b)(22)(ii) of this section) apply to a notional principal contract entered into on or after September 14, 2020.

(4) *Paragraphs (b)(1)(iv)(A)(2) through (4), (B) through (G), (b)(22)(iii)(F), and (b)(35).* Paragraphs (b)(1)(iv)(A)(2) through (4), (b)(1)(iv)(B) through (G), (b)(22)(iii)(F), and (b)(35) of this section apply to taxable years beginning on or after March 22, 2021. Taxpayers and their related parties, within the meaning of sections 267(b) (determined without regard to section 267(c)(3)) and 707(b)(1), may choose to apply the rules in paragraphs (b)(1)(iv)(A)(2) through (4), (b)(1)(iv)(B) through (G), (b)(22)(iii)(F), and (b)(35) of this section to a taxable year beginning after December 31, 2017, and before March 22, 2021, provided that those taxpayers and their related parties consistently apply all of the rules in the section 163(j) regulations contained in T.D. 9905 (§§1.163(j)-0 through 1.163(j)-11, effective November 13, 2020) as modified by T.D. 9943 (effective January 13, 2021), and, if applicable, §§1.263A-9, 1.263A-15, 1.381(c)(20)-1, 1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.382-7, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4 contained in T.D. 9905, as modified by T.D. 9943, to that taxable year and all subsequent taxable years.

[T.D. 9905, 85 FR 56760, Sept. 14, 2020, as amended by T.D. 9943, 86 FR 5523, Jan. 19, 2021]

§ 1.163(j)-2 Deduction for business interest expense limited.

(a) *Overview.* This section provides general rules regarding the section 163(j) limitation. Paragraph (b) of this section provides rules regarding the basic computation of the section 163(j) limitation. Paragraph (c) of this section provides rules for disallowed business interest expense carryforwards. Paragraph (d) of this section provides rules regarding the small business exemption from the section 163(j) limitation. Paragraph (e) of this section that is part of provides rules regarding real estate mortgage investment conduits (REMICs). Paragraph (f) of this section provides rules regarding the calculation of ATI with respect to certain beneficiaries. Paragraph (g) of this section provides rules regarding tax-exempt organizations. Paragraph (h) of this section provides examples illustrating the application of this section. Paragraph (i) of this section is reserved. Paragraph (j) of this section provides an anti-avoidance rule.

(b) *General rule.*—(1) *In general.* Except as otherwise provided in this section or in §§ 1.163(j)-3 through 1.163(j)-11, the amount allowed as a deduction for business interest expense for the taxable year cannot exceed the sum of—

(i) The taxpayer's business interest income for the taxable year;

(ii) 30 percent of the taxpayer's ATI for the taxable year, or zero if the taxpayer's ATI for the taxable year is less than zero; and

(iii) The taxpayer's floor plan financing interest expense for the taxable year.

(2) *50 percent ATI limitation for taxable years beginning in 2019 or 2020.*—(i) *In general.* Except as otherwise provided in section 163(j)(10) and paragraph (b)(2) of this section, for any taxable year beginning in 2019 or 2020, paragraph (b)(1)(ii) of this section is applied by substituting 50 percent for 30 percent. The 50 percent ATI limitation does not apply to partnerships for taxable years beginning in 2019. Further, for a partnership taxable year beginning in 2020 for which an election out of section 163(j)(10)(A)(i) has not been made, § 1.163(j)-6(f)(2)(xi) is applied by substituting two for ten-thirds when

grossing up each partner's final ATI capacity excess amount.

(ii) *Election out of the 50 percent ATI limitation.* A taxpayer may elect to not have paragraph (b)(2)(i) of this section apply for any taxable year beginning in 2019 or 2020. In the case of a partnership, the election must be made by the partnership and may be made only for taxable years beginning in 2020.

(3) *Election to use 2019 ATI in 2020.*—(i) *In general.* Subject to paragraph (b)(3)(ii), a taxpayer may elect to use the taxpayer's ATI for the last taxable year beginning in 2019 (2019 ATI) as the ATI for any taxable year beginning in 2020.

(ii) *Short taxable years.* If an election is made under paragraph (b)(3)(i) of this section for a taxable year beginning in 2020 that is a short taxable year, the ATI for such taxable year is equal to the amount that bears the same ratio to 2019 ATI as the number of months in the short taxable year bears to 12.

(iii) *Transactions to which section 381 applies.* For purposes of the election described in paragraph (b)(3)(i) of this section, and subject to the limitation in paragraph (b)(3)(ii) of this section, the 2019 ATI of the acquiring corporation in a transaction to which section 381 applies equals the amount of the acquiring corporation's ATI for its last taxable year beginning in 2019.

(iv) *Consolidated groups.* For purposes of the election described in paragraph (b)(3)(i) of this section, and subject to the limitation in paragraph (b)(3)(ii) of this section, the 2019 ATI of a consolidated group equals the amount of the consolidated group's ATI for its last taxable year beginning in 2019.

(4) *Time and manner of making or revoking the elections.* The rules and procedures regarding the time and manner of making, or revoking, an election under paragraphs (b)(2) and (3) of this section are provided in Revenue Procedure 2020-22, 2020-18 I.R.B. 745, or in other guidance that may be issued (see §§ 601.601(d) and 601.602 of this chapter).

(c) *Disallowed business interest expense carryforward.*—(1) *In general.* Any business interest expense disallowed under paragraph (b) of this section, or any disallowed disqualified interest that is properly allocable to a non-excepted trade or business under § 1.163(j)-10, is

carried forward to the succeeding taxable year as a disallowed business interest expense carryforward, and is therefore business interest expense that is subject to paragraph (b) of this section in such succeeding taxable year. Disallowed business interest expense carryforwards are not re-allocated between non-excepted and excepted trades or businesses in a succeeding taxable year. Instead, the carryforwards continue to be treated as allocable to a non-excepted trade or business. See § 1.163(j)-10(c)(4).

(2) *Coordination with small business exemption.* If disallowed business interest expense is carried forward under the rules of paragraph (c)(1) of this section to a taxable year in which the small business exemption in paragraph (d) of this section applies to the taxpayer, then the general rule in paragraph (b) of this section does not apply to limit the deduction of the disallowed business interest expense carryforward of the taxpayer in that taxable year. See § 1.163(j)-6(m)(3) for rules applicable to the treatment of excess business interest expense from a partnership that is not subject to section 163(j) in a succeeding taxable year, and see § 1.163(j)-6(m)(4) for rules applicable to S corporations with disallowed business interest expense carryforwards that are not subject to section 163(j) in a succeeding taxable year.

(3) *Cross-references*—(i) For special rules regarding disallowed business interest expense carryforwards for taxpayers that are C corporations, including members of a consolidated group, see § 1.163(j)-5.

(ii) For special rules regarding disallowed business interest expense carryforwards of S corporations, see §§ 1.163(j)-5(b)(2) and 1.163(j)-6(l)(5).

(iii) For special rules regarding disallowed business interest expense carryforwards from partnerships, see § 1.163(j)-6.

(iv)-(v) [Reserved]

(d) *Small business exemption*—(1) *Exemption.* The general rule in paragraph (b) of this section does not apply to any taxpayer, other than a tax shelter as defined in section 448(d)(3), in any taxable year in which the taxpayer meets the gross receipts test of section 448(c) and the regulations in this part under

section 448 of the Code for the taxable year. See § 1.163(j)-9(b) for elections available under section 163(j)(7)(B) and 163(j)(7)(C) for real property trades or businesses or farming businesses that also may be exempt small businesses. See § 1.163(j)-6(m) for rules applicable to partnerships and S corporations not subject to section 163(j).

(2) *Application of the gross receipts test*—(i) *In general.* In the case of any taxpayer that is not a corporation or a partnership, and except as provided in paragraphs (d)(2)(ii), (iii), and (iv) of this section, the gross receipts test of section 448(c) and the regulations in this part under section 448 of the Code are applied in the same manner as if such taxpayer were a corporation or partnership.

(ii) *Gross receipts of individuals.* Except as provided in paragraph (d)(2)(iii) of this section (regarding partnership and S corporation interests), an individual taxpayer's gross receipts include all items specified as gross receipts in regulations under section 448(c), whether or not derived in the ordinary course of the taxpayer's trade or business. For purposes of section 163(j), an individual taxpayer's gross receipts do not include inherently personal amounts, including, but not limited to, personal injury awards or settlements with respect to an injury of the individual taxpayer, disability benefits, Social Security benefits received by the taxpayer during the taxable year, and wages received as an employee that are reported on Form W-2.

(iii) *Partners and S corporation shareholders.* Except when the aggregation rules of section 448(c) apply, each partner in a partnership includes a share of partnership gross receipts in proportion to such partner's distributive share (as determined under section 704) of items of gross income that were taken into account by the partnership under section 703. Additionally, each shareholder in an S corporation includes a pro rata share of S corporation gross receipts.

(iv) *Tax-exempt organizations.* For purposes of section 163(j), the gross receipts of a tax-exempt organization include only gross receipts taken into account in determining its unrelated business taxable income.

(3) *Determining a syndicate's loss amount.* For purposes of section 163(j), losses allocated under section 1256(e)(3)(B) and § 1.448-1T(b)(3) are determined without regard to section 163(j). See also § 1.1256(e)-2(b).

(e) *REMICs.* For the treatment of interest expense by a REMIC as defined in section 860D, see § 1.860C-2(b)(2)(ii).

(f) *Trusts—(i) Calculation of ATI with respect to certain trusts and estates.* The ATI of a trust or a decedent's estate taxable under section 641 is computed without regard to deductions under sections 642(c), 651, and 661.

(ii) *Calculation of ATI with respect to certain beneficiaries.* The ATI of a beneficiary (including a tax-exempt beneficiary) of a trust or a decedent's estate is reduced by any income (including any distributable net income) received from the trust or estate by the beneficiary to the extent such income was necessary to permit a deduction under section 163(j)(1)(B) and § 1.163(j)-2(b) for any business interest expense of the trust or estate that was in excess of any business interest income of the trust or estate.

(g) *Tax-exempt organizations.* Except as provided in paragraph (d) of this section, the section 163(j) limitation applies to tax-exempt organizations for purposes of computing their unrelated business taxable income under section 512. For rules on determining the gross receipts of a tax-exempt organization for purposes of the small business exemption, see paragraph (d)(2)(iv) of this section. For special rules applicable to tax-exempt beneficiaries of a trust or a decedent's estate, see § 1.163(j)-2(f). For special rules applicable to tax-exempt corporations, see § 1.163(j)-4. For special allocation rules applicable to tax-exempt organizations, see § 1.163(j)-10(a)(5).

(h) *Examples.* The examples in this paragraph (h) illustrate the application of section 163(j) and the provisions of this section. Unless otherwise indicated, X and Y are domestic C corporations; C and D are U.S. resident individuals not subject to any foreign income tax; PRS is a domestic partnership with partners who are all individuals; all taxpayers use a calendar taxable year; the exemption for certain small businesses in section 163(j)(3) and

paragraph (d) of this section does not apply; and the interest expense would be deductible but for section 163(j).

(1) *Example 1: Limitation on business interest expense deduction—(i) Facts.* During its taxable year ending December 31, 2021, X has ATI of \$100x. X has business interest expense of \$50x, which includes \$10x of floor plan financing interest expense, and business interest income of \$20x.

(ii) *Analysis.* For the 2021 taxable year, X's section 163(j) limitation is \$60x, which is the sum of its business interest income (\$20x), plus 30 percent of its ATI ($\$100x \times 30 \text{ percent} = \$30x$), plus its floor plan financing interest expense (\$10x). See § 1.163(j)-2(b). Because X's business interest expense (\$50x) does not exceed X's section 163(j) limitation (\$60x), X can deduct all \$50x of its business interest expense for the 2021 taxable year.

(2) *Example 2: Carryforward of business interest expense—(i) Facts.* The facts are the same as in *Example 1* in paragraph (h)(1)(i) of this section, except that X has \$80x of business interest expense, which includes \$10x of floor plan financing interest expense.

(ii) *Analysis.* As in *Example 1* in paragraph (h)(1)(ii) of this section, X's section 163(j) limitation is \$60x. Because X's business interest expense (\$80x) exceeds X's section 163(j) limitation (\$60x), X may only deduct \$60x of its business interest expense for the 2021 taxable year, and the remaining \$20x of its business interest expense will be carried forward to the succeeding taxable year as a disallowed business interest expense carryforward. See § 1.163(j)-2(c).

(3) *Example 3: ATI computation—(i) Facts.* During the 2020 taxable year, Y has tentative taxable income of \$30x, which is determined without regard to the application of the section 163(j) limitation on business interest expense. Y's tentative taxable income includes the following: \$20x of business interest income; \$50x of business interest expense, which includes \$10x of floor plan financing interest expense; \$25x of net operating loss deduction under section 172; and \$15x of depreciation under section 167, of which \$10x is capitalized to inventory under section

263A. Of the \$10x capitalized to inventory, only \$7x is recovered through cost of goods sold during the 2020 taxable year and \$3x remains in ending inventory at the end of the 2020 taxable year. The \$3x of ending inventory is recovered through cost of goods sold during the 2021 taxable year. Y also has a disallowed business interest expense carryforward from the prior year of \$8x.

(ii) *Analysis.* (A) For purposes of determining the section 163(j) limitation for 2020, Y's disallowed business interest expense carryforward is not taken into account in determining tentative taxable income or ATI. Y's ATI is \$90x, calculated as follows:

TABLE 1 TO PARAGRAPH (h)(3)(ii)(A)

	Tentative taxable income	\$30x
Less:	Floor plan financing interest	10x
	Business interest income	20x
		0x

(B) Plus:

TABLE 2 TO PARAGRAPH (h)(3)(ii)(B)

Business interest expense	\$50x
Net operating loss deduction	25x
Depreciation	15x
ATI	90x

(C) For Y's 2021 taxable year, the \$3x of ending inventory that is recovered through cost of goods sold in 2021 is not added back to tentative taxable income (TTI) in determining ATI because it was already included as an addback in ATI in Y's 2020 taxable year. See § 1.163(j)-1(b)(1)(iii).

(4) *Example 4: Floor plan financing interest expense*—(i) *Facts.* C is the sole proprietor of an automobile dealership that uses a cash method of accounting. In the 2021 taxable year, C paid \$30x of interest on a loan that was obtained to purchase sedans for sale by the dealership. The indebtedness is secured by the sedans purchased with the loan proceeds. In addition, C paid \$20x of interest on a loan, secured by the dealership's office equipment, which C ob-

tained to purchase convertibles for sale by the dealership.

(ii) *Analysis.* For the purpose of calculating C's section 163(j) limitation, only the \$30x of interest paid on the loan to purchase the sedans is floor plan financing interest expense. The \$20x paid on the loan to purchase the convertibles is not floor plan financing interest expense for purposes of section 163(j) because the indebtedness was not secured by the inventory of convertibles. However, because under § 1.163(j)-10 the interest paid on the loan to purchase the convertibles is properly allocable to C's dealership trade or business, and because floor plan financing interest expense is also business interest expense, C has \$50x of business interest expense for the 2021 taxable year.

(5) *Example 5: Interest not properly allocable to non-excepted trade or business*—(i) *Facts.* The facts are the same as in *Example 4* in paragraph (h)(4)(i) of this section, except that the \$20x of interest C pays is on acquisition indebtedness obtained to purchase C's personal residence and not to purchase convertibles for C's dealership trade or business.

(ii) *Analysis.* Because the \$20x of interest expense is not properly allocable to a non-excepted trade or business, and therefore is not business interest expense, C's only business interest expense is the \$30x that C pays on the loan used to purchase sedans for sale in C's dealership trade or business. C deducts the \$20x of interest related to his residence under the rules of section 163(h), without regard to section 163(j).

(6) *Example 6: Small business exemption*—(i) *Facts.* During the 2021 taxable year, D, the sole proprietor of a trade or business reported on Schedule C, has interest expense properly allocable to that trade or business. D does not conduct an electing real property trade or business or an electing farming business. D also earns gross income from providing services as an employee that is reported on a Form W-2. Under section 448(c) and the regulations in this part under section 448, D has average annual gross receipts of \$21 million, including \$1 million of wages in each of the three prior taxable years and \$2 million of income from investments

not related to a trade or business in each of the three prior taxable years. Also, in each of the three prior taxable years, D received \$5 million in periodic payments of compensatory damages awarded in a personal injury lawsuit.

(ii) *Analysis.* Section 163(j) does not apply to D for the taxable year, because D qualifies for the small business exemption under § 1.163(j)-2(d). The wages that D receives as an employee and the compensatory damages that D received from D's personal injury lawsuit are not gross receipts, as provided in § 1.163(j)-2(d)(2)(ii). D may deduct all of its business interest expense for the 2021 taxable year without regard to section 163(j).

(7) *Example 7: Partnership with excess business interest expense qualifies for the small business exemption in a succeeding taxable year*—(i) *Facts.* X and Y are equal partners in partnership PRS. In addition to being partners in PRS, X and Y each operate their own sole proprietorships. For the taxable year ending December 31, 2021, PRS is subject to section 163(j) and has excess business interest expense of \$10x. For the taxable year ending December 31, 2022, PRS has \$40x of business interest expense, and X and Y have \$20x of business interest expense from their respective sole proprietorships. For the taxable year ending December 31, 2022, PRS and Y qualify for the small business exemption under § 1.163(j)-2(d), while X is subject to section 163(j) and has a section 163(j) limitation of \$22x.

(ii) *Partnership-level analysis.* For the 2021 taxable year, PRS allocates the \$10x of excess business interest expense equally to X and Y (\$5x each). See § 1.163(j)-6(f)(2). For the 2022 taxable year, section 163(j) does not apply to PRS because PRS qualifies for the small business exemption. As a result, none of PRS's \$40x of business interest expense for the 2022 taxable year is subject to the section 163(j) limitation at the partnership level.

(iii) *Partner-level analysis.* For the 2022 taxable year, each partner treats its \$5x of excess business interest expense from PRS as paid or accrued in that year. See § 1.163(j)-6(m)(3). This amount becomes business interest expense that each partner must subject to its own section 163(j) limitation, if

any. With this \$5x, each partner has \$25x of business interest expense for the 2022 taxable year (\$20x from its sole proprietorship, plus \$5x of excess business interest expense treated as paid or accrued in the 2020 taxable year). X deducts \$22x of its business interest expense pursuant to its section 163(j) limitation and carries forward the remainder (\$3x) as a disallowed business interest expense carryforward to the taxable year ending December 31, 2023. Y is not subject to section 163(j) because Y qualifies for the small business exemption. Y therefore deducts all \$25x of its business interest expense for the 2022 taxable year.

(8) *Example 8: Aggregation of gross receipts*—(i) *Facts.* X and Y are domestic C corporations under common control, within the meaning of section 52(a) and § 1.52-1(b). X's only trade or business is a farming business described in § 1.263A-4(a)(4). During the taxable year ending December 31, 2020, X has average annual gross receipts under section 448(c) of \$6 million. During the same taxable year, Y has average annual gross receipts under section 448(c) of \$21 million.

(ii) *Analysis.* Because X and Y are under common control, they must aggregate gross receipts for purposes of section 448(c) and the small business exemption in § 1.163(j)-2(d). See section 448(c)(2). Therefore, X and Y are both considered to have \$27 million in average annual gross receipts for 2020. X and Y must separately apply section 163(j) to determine any limitation on the deduction for business interest expense. Assuming X otherwise meets the requirements in § 1.163(j)-9 in 2020, X may elect for its farming business to be an excepted trade or business.

(i) [Reserved]

(j) *Anti-avoidance rule*—(1) *In general.* Arrangements entered into with a principal purpose of avoiding the rules of section 163(j) or the section 163(j) regulations, including the use of multiple entities to avoid the gross receipts test of section 448(c), may be disregarded or recharacterized by the Commissioner of the IRS to the extent necessary to carry out the purposes of section 163(j).

(2) *Examples.* The examples in this paragraph (j)(2) illustrate the application of this section.

(i) *Example 1—(A) Facts.* Individual A operates an excepted trade or business (Business X) and a non-excepted trade or business (Business Y). With a principal purpose of avoiding the rules of section 163(j) or the regulations in this part under section 163(j) of the Code, A contributes Business X to newly-formed C corporation B in exchange for stock; A then causes B to borrow funds from a third party and distributes a portion of the borrowed funds to A for use in Business Y. B takes the position that its interest payments on the debt are not subject to the section 163(j) limitation because B is engaged solely in an excepted trade or business.

(B) *Analysis.* A has entered into an arrangement with a principal purpose of avoiding the rules of section 163(j) or the regulations in this part under section 163(j). Thus, under paragraph (j)(1) of this section, the Commissioner of the IRS may disregard or recharacterize this transaction to the extent necessary to carry out the purposes of section 163(j). In this case, payments of interest on the debt may be recharacterized as payments of interest properly allocable to a non-excepted trade or business subject to the section 163(j) limitation.

(ii) *Example 2—(A) Facts.* Partnership UTP has two non-excepted trades or businesses. Business A has gross income of \$1000x and gross deductions of \$200x. Business B has gross income of \$100x and gross deductions of \$600x. With a principal purpose of avoiding the rules in section 163(j) or the regulations in this part under section 163(j), UTP and a partner of UTP form partnership LTP and UTP contributes Business B to LTP prior to borrowing funds. UTP takes the position that it does not take its share of LTP gross deductions into account when computing its ATI.

(B) *Analysis.* UTP has entered into an arrangement with a principal purpose of avoiding the rules of section 163(j) or the regulations in this part under section 163(j). Thus, under paragraph (j)(1) of this section, the Commissioner of the IRS may disregard or recharacterize this transaction to the extent necessary to carry out the purposes of section 163(j). In this case, UTP's share of gross deductions from LTP may be

recharacterized as gross deductions incurred directly by UTP solely for purposes of computing UTP's ATI.

(k) *Applicability dates.* (1) *In general.* This section applies to taxable years beginning on or after November 13, 2020. However, taxpayers and their related parties, within the meaning of sections 267(b) and 707(b)(1), may choose to apply the rules of this section to a taxable year beginning after December 31, 2017, so long as the taxpayers and their related parties consistently apply the rules of the section 163(j) regulations, and, if applicable, §§ 1.263A-9, 1.263A-15, 1.381(c)(20)-1, 1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.382-7, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§ 1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4, to that taxable year.

(2) *Paragraphs (b)(3)(iii), (b)(3)(iv), and (d)(3).* Paragraphs (b)(3)(iii) and (iv) and (d)(3) of this section apply to taxable years beginning on or after March 22, 2021. However, taxpayers and their related parties, within the meaning of sections 267(b) (determined without regard to section 267(c)(3)) and 707(b)(1), may choose to apply the rules in paragraphs (b)(3)(iii), (b)(3)(iv), and (d)(3) of this section to a taxable year beginning after December 31, 2017, and before March 22, 2021, provided that those taxpayers and their related parties consistently apply all of the rules in paragraphs (b)(3)(iii) and (iv) of this section and the rules in the section 163(j) regulations contained in T.D. 9905 (§§ 1.163(j)-0 through 1.163(j)-11, effective November 13, 2020) as modified by T.D. 9943 (effective January 13, 2021), and, if applicable, §§ 1.263A-9, 1.263A-15, 1.381(c)(20)-1, 1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.382-7, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§ 1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4 contained in T.D. 9905 as modified by T.D. 9943, for that taxable

§ 1.163(j)-3

26 CFR Ch. I (4-1-22 Edition)

year and for each subsequent taxable year.

[T.D. 9905, 85 FR 56760, Sept. 14, 2020, as amended by T.D. 9943, 86 FR 5529, Jan. 19, 2021]

§ 1.163(j)-3 Relationship of the section 163(j) limitation to other provisions affecting interest.

(a) *Overview.* This section contains rules regarding the relationship between section 163(j) and certain other provisions of the Code. Paragraph (b) of this section provides the general rules concerning the relationship between section 163(j) and certain other provisions of the Code. Paragraph (c) of this section provides examples illustrating the application of this section. For rules regarding the relationship between sections 163(j) and 704(d), see § 1.163(j)-6(h)(1) and (2).

(b) *Coordination of section 163(j) with certain other provisions—(1) In general.* Section 163(j) and the regulations in this part under section 163(j) of the Code generally apply only to business interest expense that would be deductible in the current taxable year without regard to section 163(j). Thus, for example, a taxpayer must apply § 1.163-8T, if applicable, to determine which items of interest expense are investment interest under section 163(d) before applying the rules in this section to interest expense. Except as otherwise provided in this section, section 163(j) applies after the application of provisions that subject interest expense to disallowance, deferral, capitalization, or other limitation. For the rules that must be applied in determining whether excess business interest is paid or accrued by a partner, see section 163(j)(4)(B)(ii) and § 1.163(j)-6.

(2) *Disallowed interest provisions.* For purposes of section 163(j), business interest expense does not include interest expense that is permanently disallowed as a deduction under another provision of the Code, such as in section 163(e)(5)(A)(i), (f), (l), or (m), or section 264(a), 265, 267A, or 279.

(3) *Deferred interest provisions.* Other than sections 461(l), 465, and 469, Code provisions that defer the deductibility of interest expense, such as section 163(e)(3) and (e)(5)(A)(ii), 267(a)(2) and

(3), 1277, or 1282, apply before the application of section 163(j).

(4) *At risk rules, passive activity loss provisions, and limitation on excess business losses of noncorporate taxpayers.* Section 163(j) generally applies to limit the deduction for business interest expense before the application of sections 461(l), 465, and 469. However, in determining tentative taxable income for purposes of computing ATI, sections 461(l), 465, and 469 are taken into account.

(5) *Capitalized interest expenses.* Section 163(j) applies after the application of provisions that require the capitalization of interest, such as sections 263A and 263(g). Capitalized interest expense under those sections is not treated as business interest expense for purposes of section 163(j). For ordering rules that determine whether interest expense is capitalized under section 263A(f), see the regulations under section 263A(f), including § 1.263A-9(g).

(6) *Reductions under section 246A.* Section 246A applies before section 163(j). Any reduction in the dividends received deduction under section 246A reduces the amount of interest expense taken into account under section 163(j).

(7) *Section 381.* Disallowed business interest expense carryforwards are items to which an acquiring corporation succeeds under section 381(a). See section 381(c)(20) and §§ 1.163(j)-5(c) and 1.381(c)(20)-1.

(8) *Section 382.* For rules governing the interaction of sections 163(j) and 382, see section 382(d)(3) and (k)(1), §§ 1.163(j)-5(e) and 1.163(j)-11(c), the regulations in this part under sections 382 and 383 of the Code, and §§ 1.1502-91 through 1.1502-99.

(c) *Examples.* The examples in this paragraph (c) illustrate the application of section 163(j) and the provisions of this section. Unless otherwise indicated, X and Y are calendar-year domestic C corporations; D is a U.S. resident individual not subject to any foreign income tax; none of the taxpayers have floor plan financing interest expense; and the exemption for certain small businesses in § 1.163(j)-2(d) does not apply.

(1) *Example 1: Disallowed interest expense—(i) Facts.* In 2021, X has \$30x of

interest expense. Of X's interest expense, \$10x is permanently disallowed under section 265. X's business interest income is \$3x and X's ATI is \$90x.

(ii) *Analysis.* Under paragraph (b)(2) of this section, the \$10x interest expense that is permanently disallowed under section 265 cannot be taken into consideration for purposes of section 163(j) in the 2021 taxable year. X's section 163(j) limitation, or the amount of business interest expense that X may deduct is limited to \$30x under § 1.163(j)-2(b), determined by adding X's business interest income (\$3x) and 30 percent of X's 2019 ATI (\$27x). Therefore, in the 2021 taxable year, none of the \$20x of X's deduction for its business interest expense is disallowed under section 163(j).

(2) *Example 2: Deferred interest expense*—(i) *Facts.* In 2021, Y has no business interest income, \$120x of ATI, and \$70x of interest expense. Of Y's interest expense, \$30x is not currently deductible under section 267(a)(2). The \$30x expense is allowed as a deduction under section 267(a)(2) in 2022.

(ii) *Analysis.* Under paragraph (b)(3) of this section, section 267(a)(2) is applied before section 163(j). Accordingly, \$30x of Y's interest expense cannot be taken into consideration for purposes of section 163(j) in 2021 because it is not currently deductible under section 267(a)(2). Accordingly, in 2021, if the interest expense is properly allocable to a non-excepted trade or business, Y will have \$4x of disallowed business interest expense because the \$40x of business interest expense in 2021 (\$70x - \$30x) exceeds 30 percent of its ATI for the taxable year (\$36x). The \$30x of interest expense not allowed as a deduction in the 2021 taxable year under section 267(a)(2) will be taken into account in determining the business interest expense deduction under section 163(j) in 2022, the taxable year in which it is allowed as a deduction under section 267(a)(2), if it is allocable to a trade or business. Additionally, the \$4x of disallowed business interest expense in 2021 will be carried forward to 2022 as a disallowed business interest expense carryforward. See § 1.163(j)-2(c).

(3) *Example 3: Passive activity loss*—(i) *Facts.* D is engaged in a rental activity

treated as a passive activity within the meaning of section 469. For the 2021 taxable year, D receives \$200x of rental income and incurs \$300x of expenses all properly allocable to the rental activity, consisting of \$150x of interest expense, \$60x of maintenance expenses, and \$90x of depreciation expense. D's ATI is \$400x.

(ii) *Analysis.* Under paragraph (b)(4) of this section, section 163(j) is applied before the section 469 passive loss rules apply, except that section 469 is taken into account in the determination of tentative taxable income for purposes of computing ATI. D's section 163(j) limitation is \$120x, determined by adding to D's business interest income (\$0), floor plan financing (\$0), and 30 percent of D's ATI (\$120x). See § 1.163(j)-2(b). Because D's business interest expense of \$150x exceeds D's section 163(j) limitation for 2021, \$30x of D's business interest expense is disallowed under section 163(j) and will be carried forward as a disallowed business interest expense carryforward. See § 1.163(j)-2(c). Because the section 163(j) limitation is applied before the limitation under section 469, only \$120x of the business interest expense allowable under section 163(j) is included in determining D's passive activity loss limitation for the 2021 tax year under section 469. The \$30x of disallowed business interest expense is not an allowable deduction under section 163(j) and, therefore, is not a deduction under section 469 in the current taxable year. See § 1.469-2(d)(8).

(4) *Example 4: Passive activity loss by taxpayer that also participates in a non-passive activity*—(i) *Facts.* For 2021, D has no business interest income and ATI of \$1,000x, entirely attributable to a passive activity within the meaning of section 469. D has business interest expense of \$1,000x, \$900x of which is properly allocable to a passive activity and \$100x of which is properly allocable to a non-passive activity in which D materially participates. D has other business deductions that are not subject to section 469 of \$600x, and a section 469 passive loss from the previous year of \$250x.

(ii) *Analysis.* Under paragraph (b)(4) of this section, section 163(j) is applied before the section 469 passive loss rules

apply. D's section 163(j) limitation is \$300x, determined by adding D's business interest income (\$0), floor plan financing (\$0), and 30 percent of D's ATI (\$300x). Next, applying the limitation under section 469 to the \$300x business interest expense deduction allowable under section 163(a) and (j), \$270x (a proportionate amount of the \$300x ($0.90 \times \$300x$)) is business interest expense included in determining D's passive activity loss limitation under section 469, and \$30x (a proportionate amount of the \$300x ($0.10 \times \$300x$)) is business interest expense not included in determining D's passive activity loss limitation under section 469. Because D's interest expense of \$1,000x exceeds 30 percent of its ATI for 2021, \$700x of D's interest expense is disallowed under section 163(j) and will be carried forward as a disallowed business interest expense carryforward. Section 469 does not apply to any portion of the \$700x disallowed business interest expense because that business interest expense is not an allowable deduction under section 163(j) and, therefore, is not an allowable deduction under section 469 in the current taxable year. See § 1.469-2(d)(8).

(5) *Example 5: ATI calculation with passive activity loss*—(i) *Facts*. D is an individual who engages in a trade or business, V, as a sole proprietorship. D relies on employees to perform most of the work and, as a result, D does not materially participate in V. Therefore, V is a passive activity of D. V is not an excepted trade or business. In Year 1, V generates \$500x of passive income, \$400x of business interest expense, and \$600x of ordinary and necessary expenses deductible under section 162 (not including any interest described in § 1.163(j)-1(b)(22)). No disallowed business interest expense carryforward has been carried to Year 1 from a prior year, and no amounts have been carried over to Year 1 from a prior year under either section 465(a)(2) or section 469(b).

(ii) *Tentative taxable income*. Under § 1.163(j)-1(b)(43), tentative taxable income is determined as though all business interest expense was not subject to the section 163(j) limitation. Sections 461(l), 465, and 469 apply in the determination of tentative taxable income. For year 1, D has \$500x of allow-

able deductions and a \$500x tentative passive activity loss under section 469, because D's \$1000x of passive expenses exceeds D's \$500x of passive income from V. The tentative disallowance of \$500x is generally allocated pro rata between D's passive expenses under § 1.469-1T(f)(2)(ii)(A). In this case, fifty percent (\$500x of passive activity loss divided by \$1000x of total passive expenses) of each category of passive expense is tentatively disallowed: \$200x of business interest expense and \$300x of section 162 expense. D's tentative taxable income is \$0 (zero), which is determined by reducing \$500x of gross income by the remaining \$200x of business interest expense and \$300x of section 162 expense ($\$500x - \$200x - \$300x$).

(iii) *ATI*. Under section § 1.163(j)-1(b)(1), to determine ATI, D must add business interest expense to tentative taxable income, but only to the extent that the business interest expense reduced tentative taxable income, or \$200x. The \$200x of business interest expense that was tentatively disallowed under section 469 is not added to tentative taxable income to determine ATI. D's ATI is \$200x, which is determined by adding the \$200x of business interest expense that reduced tentative taxable income to D's tentative taxable income, or \$0 ($0 + \$200x$).

(iv) *Section 163(j) limitation*. D's section 163(j) limitation in Year 1 is D's business interest income, or \$0, plus 30 percent of ATI, or \$60x ($30 \text{ percent} \times \$200x \text{ ATI}$), plus D's floor plan financing, or \$0, for a total of \$60x ($\$0 + \$60x + \$0$). Before the application of section 469, D has \$60x of deductible business interest expense and \$340x of disallowed business interest expense carryforward under § 1.163(j)-2(c).

(v) *Passive activity loss*. Because D's passive deductions exceed the passive income from V, and D does not have any passive income from other sources, section 469 applies to limit D's passive loss from V. Having first applied section 163(j), D has \$660x of passive expenses, determined by adding D's \$60x of business interest expense that is allowed by section 163(j) as a deduction and \$600x of section 162 expense ($\$60x + \$600x$). D offsets \$500x of the passive expenses against \$500x of passive income; therefore, D has a passive activity loss

of \$160x in Year 1, determined as the excess of D's total passive expenses over D's passive income (\$660x - \$500x). The amount of D's loss from the passive activity that is disallowed under section 469 (\$160x) is generally ratably allocated to each of D's passive activity deductions under § 1.469-1T(f)(2)(ii)(A). As a general rule, each deduction is multiplied by the ratio of the total passive loss to total passive expenses (160x/660x). Of D's \$60x business interest expense, \$14.55x ((160x/660x) × \$60x) is disallowed in Year 1. Additionally, of D's \$600x section 162 expense, \$145.45x ((160x/660x) × \$600x) is disallowed. The amounts disallowed under section 469(a)(1) and § 1.469-2T(f)(2) are carried over to the succeeding taxable year under section 469(b) and § 1.469-1(f)(4).

(6) *Example 6: Effect of passive activity loss carryforwards*—(i) *Facts*. The facts are the same as in *Example 5* in paragraph (c)(5)(i) of this section. In Year 2, V generates \$500x of passive income, \$100x of business interest expense, and \$0 (zero) of other deductible expenses. D is not engaged in any other trade or business activities. A disallowed business interest expense carryforward of \$340x has been carried to Year 2 from Year 1. Under section 469, D has a suspended loss from Year 1 that includes \$14.55x of business interest expense and \$145.45x of section 162 expense. These amounts are treated as passive activity deductions in Year 2.

(ii) *Tentative taxable income*. To determine D's tentative taxable income, D must first determine D's allowable deductions. In year 2, D has \$260x of allowable deductions, which includes \$100x of business interest expense generated Year 2, \$14.55x of business interest expense disallowed in Year 1 by section 469, and \$145.45x of section 162 expense disallowed in Year 1 by section 469 (\$100x + \$14.55x + \$145.45x). D's disallowed business interest expense carryforward from Year 1 is not taken into account in determining tentative taxable income. See § 1.163(j)-1(b)(43). Additionally, the \$14.55x of business interest expense disallowed in Year 1 by section 469 is not business interest expense in Year 2 because it was deductible after the application of section 163(j) (but before the application of sec-

tion 469) in Year 1. D does not have a tentative passive activity loss in Year 2, because D's \$500x of passive income from V exceeds D's \$260x of tentative passive expenses. Therefore, D's tentative taxable income in Year 2 is \$240x, which is determined by subtracting D's allowable deductions other than disallowed business interest expense carryforwards, or \$260x, from D's gross income, or \$500x (\$500x - \$260x).

(iii) *ATI*. D's ATI in Year 2 is \$340x, which is determined by adding D's business interest expense, or \$100x, to D's tentative taxable income, or \$240x (\$240x + \$100x). Because disallowed business interest expense carryforwards are not taken into account in determining tentative taxable income, there is no corresponding adjustment for disallowed business interest expense carryforwards in calculating ATI. Therefore, there is no adjustment for D's \$340x of disallowed business interest expense carryforward in calculating D's ATI. D has no other adjustments to determine ATI.

(iv) *Section 163(j) limitation*. D's section 163(j) limitation in Year 2 is \$102x, which is determined by adding D's business interest income, or \$0, 30 percent of D's ATI for year 2, \$102 (\$340x × 30 percent), and D's floor plan financing for Year 2, or \$0 (\$0 + (\$102x) + \$0). Accordingly, before the application of section 469 in Year 2, \$102x of D's \$440x of total business interest expense (determined by adding \$340x of disallowed business interest expense carryforward from Year 1 and \$100x of business interest expense in Year 2) is deductible. D has \$338x of disallowed business interest expense carryforward that will carry forward to subsequent taxable years under § 1.163(j)-2(c), determined by subtracting D's deductible business interest expense in Year 2, or \$102x, from D's total business interest expense in Year 2, or \$440x (\$440x - \$102x).

(v) *Section 469*. After applying the section 163(j) limitation, D applies section 469 to determine if any amount of D's expense is a disallowed passive activity loss. For Year 2, D has \$262x of passive expenses, determined by adding D's business interest expense deduction allowed by section 163(j) (\$102x), D's section 162 expense carried forward from Year 1 under section 469 (\$145.45x), and

§ 1.163(j)-4

26 CFR Ch. I (4-1-22 Edition)

D's interest expense carried forward from Year 1 under section 469 which is not business interest expense in Year 2, or \$14.55x (\$102x + \$145.45x + \$14.55x). Therefore, D has \$238x of net passive income in Year 2, determined by reducing D's total passive income in Year 2 (\$500x), by D's disallowed passive activity loss, or \$262x (\$500x - \$262x). D does not have a passive activity loss in Year 2, and no part of D's \$262x of passive expenses is disallowed in Year 2 under section 469.

(7) *Example 7: Capitalized interest expense*—(i) *Facts*. In 2020, X has \$50x of interest expense. Of X's interest expense, \$10x is required to be capitalized under section 263A. X capitalizes this interest expense to a depreciable asset. X's business interest income is \$9x and X's ATI is \$80x. X makes the election in § 1.163(j)-2(b)(2)(ii) to use 30 percent, rather than 50 percent, of ATI in determining X's section 163(j) limitation for the 2020 taxable year.

(ii) *Analysis*. Under paragraph (b)(5) of this section, section 263A is applied before section 163(j). Accordingly, \$10x of X's interest expense cannot be taken into consideration for purposes of section 163(j) in 2020. Additionally, under paragraph (b)(5) of this section, X's \$10 of capitalized interest expense is not business interest expense for purposes of section 163(j). As a result, when X recovers its capitalized interest expense through depreciation deductions, such capitalized interest expense will not be taken into account as business interest expense in determining X's section 163(j) limitation. X's section 163(j) limitation in 2020, or the amount of business interest expense that X may deduct, is limited to \$33x under § 1.163(j)-2(b), determined by adding X's business interest income (\$9x) and 30 percent of X's 2020 ATI (\$24x). X therefore has \$7x of disallowed business interest expense in 2020 that will be carried forward to 2021 as a disallowed business interest expense carryforward.

(d) *Applicability date*. This section applies to taxable years beginning on or after November 13, 2020. However, taxpayers and their related parties, within the meaning of sections 267(b) and 707(b)(1), may choose to apply the rules of this section to a taxable year beginning after December 31, 2017, so long as

the taxpayers and their related parties consistently apply the rules of the section 163(j) regulations, and, if applicable, §§ 1.263A-9, 1.263A-15, 1.381(c)(20)-1, 1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.382-7, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§ 1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4, to that taxable year.

[T.D. 9905, 85 FR 56760, Sept. 14, 2020]

§ 1.163(j)-4 General rules applicable to C corporations (including REITs, RICs, and members of consolidated groups) and tax-exempt corporations.

(a) *Scope*. This section provides rules regarding the computation of items of income and expense under section 163(j) for taxpayers that are C corporations, including, for example, members of a consolidated group, REITs, RICs, tax-exempt corporations, and cooperatives. Paragraph (b) of this section provides rules regarding the characterization of items of income, gain, deduction, or loss. Paragraph (c) of this section provides rules regarding adjustments to earnings and profits. Paragraph (d) of this section provides rules applicable to members of a consolidated group. Paragraph (e) of this section provides rules governing the ownership of partnership interests by members of a consolidated group. Paragraph (f) of this section provides cross-references to other rules within the 163(j) regulations that may be applicable to C corporations.

(b) *Characterization of items of income, gain, deduction, or loss*—(1) *Interest expense and interest income*. Solely for purposes of section 163(j), all interest expense of a taxpayer that is a C corporation is treated as properly allocable to a trade or business. Similarly, solely for purposes of section 163(j), all interest income of a taxpayer that is a C corporation is treated as properly allocable to a trade or business. For rules governing the allocation of interest expense and interest income between excepted and non-excepted trades or businesses, see § 1.163(j)-10.

(2) *Adjusted taxable income*. Solely for purposes of section 163(j), all items of

income, gain, deduction, or loss of a taxpayer that is a C corporation are treated as properly allocable to a trade or business. For rules governing the allocation of tax items between excepted and non-excepted trades or businesses, see § 1.163(j)-10.

(3) *Investment interest, investment income, investment expenses, and certain other tax items of a partnership with a C corporation partner*—(i) *Characterization as expense or income properly allocable to a trade or business.* For purposes of section 163(j), any investment interest, investment income, or investment expense (within the meaning of section 163(d)) that a partnership pays, receives, or accrues and that is allocated to a C corporation partner as a separately stated item is treated by the C corporation partner as properly allocable to a trade or business of that partner. Similarly, for purposes of section 163(j), any other tax items of a partnership that are neither properly allocable to a trade or business of the partnership nor described in section 163(d) and that are allocated to a C corporation partner as separately stated items are treated as properly allocable to a trade or business of that partner.

(ii) *Effect of characterization on partnership.* The characterization of a partner's tax items pursuant to paragraph (b)(3)(i) of this section does not affect the characterization of these items at the partnership level.

(iii) *Separately stated interest expense and interest income of a partnership not treated as excess business interest expense or excess taxable income of a C corporation partner.* Investment interest expense and other interest expense of a partnership that is treated as business interest expense by a C corporation partner under paragraph (b)(3)(i) of this section is not treated as excess business interest expense of the partnership. Investment interest income and other interest income of a partnership that is treated as business interest income by a C corporation partner under paragraph (b)(3)(i) of this section is not treated as excess taxable income of the partnership. For rules governing excess business interest expense and excess taxable income, see § 1.163(j)-6.

(iv) *Treatment of deemed inclusions of a domestic partnership that are not allo-*

cable to any trade or business. If a United States shareholder that is a domestic partnership includes amounts in gross income under sections 951(a) or 951A(a) that are not properly allocable to a trade or business of the domestic partnership, then, notwithstanding paragraph (b)(3)(i) of this section, to the extent a C corporation partner, including an indirect partner in the case of tiered partnerships, takes such amounts into account as a distributive share in accordance with section 702 and § 1.702-1(a)(8)(ii), the C corporation partner may not treat such amounts as properly allocable to a trade or business of the C corporation partner.

(4) *Application to RICs and REITs*—(i) *In general.* Except as otherwise provided in paragraphs (b)(4)(ii) and (iii) of this section, the rules in this paragraph (b) apply to RICs and REITs.

(ii) *Tentative taxable income of RICs and REITs.* The tentative taxable income of a RIC or REIT for purposes of calculating ATI is the tentative taxable income of the corporation, without any adjustment that would be made under section 852(b)(2) or 857(b)(2) to compute investment company taxable income or real estate investment trust taxable income, respectively. For example, the tentative taxable income of a RIC or REIT is not reduced by the deduction for dividends paid, but is reduced by the dividends received deduction (DRD) and the other deductions described in sections 852(b)(2)(C) and 857(b)(2)(A). See paragraph (b)(4)(iii) of this section for an adjustment to ATI in respect of these items.

(iii) *Other adjustments to adjusted taxable income for RICs and REITs.* In the case of a taxpayer that, for a taxable year, is a RIC to which section 852(b) applies or a REIT to which section 857(b) applies, the taxpayer's ATI for the taxable year is increased by the amounts of any deductions described in section 852(b)(2)(C) or 857(b)(2)(A).

(5) *Application to tax-exempt corporations.* The rules in this paragraph (b) apply to a tax-exempt corporation only with respect to that corporation's items of income, gain, deduction, or loss that are taken into account in computing the corporation's unrelated business taxable income, as defined in section 512.

(6) *Adjusted taxable income of cooperatives.* Solely for purposes of computing the ATI of a cooperative under § 1.163(j)-1(b)(1), tentative taxable income is not reduced by the amount of any patronage dividend under section 1382(b)(1) or by any amount paid in redemption of nonqualified written notices of allocation distributed as patronage dividends under section 1382(b)(2) (for cooperatives subject to taxation under sections 1381 through 1388), any amount described in section 1382(c) (for cooperatives described in section 1381(a)(1) and section 521), or any equivalent amount deducted by an organization that operates on a cooperative basis but is not subject to taxation under sections 1381 through 1388.

(7) *Examples.* The principles of this paragraph (b) are illustrated by the following examples. For purposes of the examples in this paragraph (b)(7) of this section, T is a taxable domestic C corporation whose taxable year ends on December 31; T is neither a consolidated group member nor a RIC or a REIT; neither T nor PS1, a domestic partnership, owns at least 80 percent of the stock of any corporation; neither T nor PS1 qualifies for the small business exemption in § 1.163(j)-2(d) or is engaged in an excepted trade or business; T has no floor plan financing expense; all interest expense is deductible except for the potential application of section 163(j); and the facts set forth the only corporate or partnership activity.

(i) *Example 1: C corporation items properly allocable to a trade or business—(A) Facts.* In taxable year 2021, T's tentative taxable income (without regard to the application of section 163(j)) is \$320x. This amount is comprised of the following tax items: \$1,000x of revenue from inventory sales; \$500x of ordinary and necessary business expenses (excluding interest and depreciation); \$200x of interest expense; \$50x of interest income; \$50x of depreciation deductions under section 168; and a \$20x gain on the sale of stock.

(B) *Analysis.* For purposes of section 163(j), each of T's tax items is treated as properly allocable to a trade or business. Thus, T's ATI for the 2021 taxable year is \$520x (\$320x of tentative taxable income + \$200x business interest ex-

pense—\$50x business interest income + \$50x depreciation deductions = \$520x), and its section 163(j) limitation for the 2021 taxable year is \$206x (\$50x of business interest income + 30 percent of its ATI (30 percent $\times$ \$520x) = \$206x). As a result, all \$200x of T's interest expense is deductible in the 2021 taxable year under section 163(j).

(C) *Taxable year beginning in 2022.* The facts are the same as in *Example 1* in paragraph (b)(7)(i)(A) of this section, except that the taxable year begins in 2022 and therefore depreciation deductions are not added back to ATI under § 1.163(j)-1(b)(1)(i)(E). As a result, T's ATI for 2022 is \$470x (\$320x of tentative taxable income + \$200x business interest expense—\$50x business interest income = \$470x), and its section 163(j) limitation for the 2022 taxable year is \$191x (\$50x of business interest income + 30 percent of its ATI (30 percent $\times$ \$470x) = \$191x). As a result, T may only deduct \$191x of its business interest expense for the taxable year, and the remaining \$9x is carried forward to the 2023 taxable year as a disallowed business interest expense carryforward. See § 1.163(j)-2(c).

(ii) *Example 2: C corporation partner—(A) Facts.* T and individual A each own a 50 percent interest in PS1, a general partnership. PS1 borrows funds from a third party (Loan 1) and uses those funds to buy stock in publicly-traded corporation X. PS1's only activities are holding X stock (and receiving dividends) and making payments on Loan 1. In the 2021 taxable year, PS1 receives \$150x in dividends and pays \$100x in interest on Loan 1.

(B) *Analysis.* For purposes of section 163(d) and (j), PS1 has investment interest expense of \$100x and investment income of \$150x, and PS1 has no interest expense or interest income that is properly allocable to a trade or business. PS1 allocates its investment interest expense and investment income equally to its two partners pursuant to § 1.163(j)-6(k). Pursuant to paragraph (b)(3) of this section, T's allocable share of PS1's investment interest expense is treated as a business interest expense of T, and T's allocable share of PS1's investment income is treated as

properly allocable to a trade or business of T. This business interest expense is not treated as excess business interest expense, and this income is not treated as excess taxable income. See paragraph (b)(3)(iii) of this section. T's treatment of its allocable share of PS1's investment interest expense and investment income as business interest expense and income properly allocable to a trade or business, respectively, does not affect the character of these items at the PS1 level and does not affect the character of A's allocable share of PS1's investment interest and investment income.

(C) *Partnership engaged in a trade or business.* The facts are the same as in *Example 2* in paragraph (b)(7)(ii)(A) of this section, except that PS1 also is engaged in Business 1, and PS1 borrows funds from a third party to finance Business 1 (Loan 2). In 2021, Business 1 earns \$150x of net income (excluding interest expense and depreciation), and PS1 pays \$100x of interest on Loan 2. For purposes of section 163(d) and (j), PS1 treats the interest paid on Loan 2 as properly allocable to a trade or business. As a result, PS1 has investment interest expense of \$100x (attributable to Loan 1), business interest expense of \$100x (attributable to Loan 2), \$150x of investment income, and \$150x of income from Business 1. PS1's ATI is \$150x (its net income from Business 1 excluding interest and depreciation), and its section 163(j) limitation is \$45x (30 percent $\times$ \$150x). Pursuant to § 1.163(j)-6, PS1 has \$55x of excess business interest expense (\$100x - \$45x), half of which (\$27.5x) is allocable to T. Additionally, pursuant to paragraph (b)(3)(i) of this section, T's allocable share of PS1's investment interest expense (\$50x) is treated as a business interest expense of T for purposes of section 163(j), and T's allocable share of PS1's investment income (\$75x) is treated as properly allocable to a trade or business of T. Therefore, with respect to T's interest in PS1, T is treated as having \$50x of business interest expense that is not treated as excess business interest expense, \$75x of income that is properly allocable to a trade or business, and \$27.5x of excess business interest expense.

(c) *Effect on earnings and profits*—(1) *In general.* In the case of a taxpayer that is a domestic C corporation, except as otherwise provided in paragraph (c)(2) of this section, the disallowance and carryforward under § 1.163(j)-2 (and § 1.163(j)-5, in the case of a taxpayer that is a consolidated group member) of a deduction for business interest expense of the taxpayer or of a partnership in which the taxpayer is a partner does not affect whether or when the business interest expense reduces the taxpayer's earnings and profits. In the case of a foreign corporation, the disallowance and carryforward of a deduction for the corporation's business interest expense under § 1.163(j)-2 does not affect whether and when such business interest expense reduces the corporation's earnings and profits. Thus, for example, if a United States person has elected under section 1295 to treat a passive foreign investment company (as defined in section 1297) (PFIC) as a qualified electing fund, then the disallowance and carryforward of a deduction for the PFIC's business interest expense under § 1.163(j)-2 does not affect whether or when such business interest expense reduces the PFIC's earnings and profits.

(2) *Special rule for RICs and REITs.* In the case of a taxpayer that is a RIC or a REIT for the taxable year in which a deduction for the taxpayer's business interest expense is disallowed under § 1.163(j)-2(b), or in which the RIC or REIT is allocated any excess business interest expense from a partnership under section 163(j)(4)(B)(i) and § 1.163(j)-6, the taxpayer's earnings and profits are adjusted in the taxable year or years in which the business interest expense is deductible or, if earlier, in the first taxable year for which the taxpayer no longer is a RIC or a REIT.

(3) *Special rule for partners that are C corporations.* If a taxpayer that is a C corporation is allocated any excess business interest expense from a partnership, and if all or a portion of the excess business interest expense has not yet been treated as business interest expense by the taxpayer at the time of the taxpayer's disposition of all or a portion of its interest in the partnership, the taxpayer must increase its earnings and profits immediately prior

to the disposition by an amount equal to the amount of the basis adjustment required under section 163(j)(4)(B)(iii)(II) and § 1.163(j)-6(h)(3).

(4) *Examples.* The principles of this paragraph (c) are illustrated by the following examples. For purposes of the examples in this paragraph (c)(4), except as otherwise provided in the examples, X is a taxable domestic C corporation whose taxable year ends on December 31; X is not a member of a consolidated group; X does not qualify for the small business exemption under § 1.163(j)-2(d); X is not engaged in an exempted trade or business; X has no floor plan financing indebtedness; all interest expense is deductible except for the potential application of section 163(j); X has no accumulated earnings and profits at the beginning of the 2021 taxable year; and the facts set forth the only corporate activity.

(i) *Example 1: Earnings and profits of a taxable domestic C corporation other than a RIC or a REIT—(A) Facts.* X is a corporation that does not intend to qualify as a RIC or a REIT for its 2021 taxable year. In that year, X has tentative taxable income (without regard to the application of section 163(j)) of \$0, which includes \$100x of gross income and \$100x of interest expense on a loan from an unrelated third party. X also makes a \$100x distribution to its shareholders that year.

(B) *Analysis.* The \$100x of interest expense is business interest expense for purposes of section 163(j) (see paragraph (b)(1) of this section). X's ATI in the 2021 taxable year is \$100x (\$0 of tentative taxable income computed without regard to \$100x of business interest expense). Thus, X may deduct \$30x of its \$100x of business interest expense in the 2021 taxable year under § 1.163(j)-2(b) (30 percent $\times$ \$100x), and X may carry forward the remainder (\$70x) to X's 2022 taxable year as a disallowed business interest expense carryforward under § 1.163(j)-2(c). Although X may not currently deduct all \$100x of its business interest expense in the 2021 taxable year, X must reduce its earnings and profits in that taxable year by the full amount of its business interest expense (\$100x) in that taxable year. As a result, no portion of X's distribution of \$100x to its shareholders in the 2021

taxable year is a dividend within the meaning of section 316(a).

(ii) *Example 2: RIC adjusted taxable income and earnings and profits—(A) Facts.* X is a corporation that intends to qualify as a RIC for its 2021 taxable year. In that taxable year, X's only items are \$100x of interest income, \$50x of dividend income from C corporations that only issue common stock and in which X has less than a twenty percent interest (by vote and value), \$10x of net capital gain, and \$125x of interest expense. None of the dividends are received on debt financed portfolio stock under section 246A. The DRD determined under section 243(a) with respect to X's \$50x of dividend income is \$25x. X pays \$42x in dividends to its shareholders, meeting the requirements of section 562 during X's 2021 taxable year, including \$10x that X reports as capital gain dividends in written statements furnished to X's shareholders.

(B) *Analysis.* (I) Under paragraph (b) of this section, all of X's interest expense is considered business interest expense, all of X's interest income is considered business interest income, and all of X's other income is considered to be properly allocable to a trade or business. Under paragraph (b)(4)(ii) of this section, prior to the application of section 163(j), X's tentative taxable income is \$10x (\$100x business interest income + \$50x dividend income + \$10x net capital gain - \$125x business interest expense - \$25x DRD = \$10x). Under paragraph (b)(4)(iii) of this section, X's ATI is increased by the DRD. As such, X's ATI for the 2021 taxable year is \$60x (\$10x tentative taxable income + \$125x business interest expense - \$100x business interest income + \$25x DRD = \$60x).

(2) X may deduct \$118x of its \$125x of business interest expense in the 2021 taxable year under section 163(j)(1) (\$100x business interest income + (30 percent $\times$ \$60x of ATI) = \$118x), and X may carry forward the remainder (\$7x) to X's 2022 taxable year. See § 1.163(j)-2(b) and (c).

(3) After the application of section 163(j), X has taxable income of \$17x (\$100x interest income + \$50x dividend income + \$10x capital gain - \$25x DRD - \$118x allowable interest expense = \$17x) for the 2021 taxable year. X will

have investment company taxable income (ICTI) in the amount of \$0 (\$17x taxable income - \$10x capital gain + \$25x DRD - \$32x dividends paid deduction for ordinary dividends = \$0). The excess of X's net capital gain (\$10x) over X's dividends paid deduction determined with reference to capital gain dividends (\$10x) is also \$0.

(4) Under paragraph (c)(2) of this section, X will not reduce its earnings and profits by the amount of interest expense disallowed as a deduction in the 2021 taxable year under section 163(j). Thus, X has current earnings and profits in the amount of \$42x (\$100x interest income + \$50x dividend income + \$10x capital gain - \$118x allowable business interest expense = \$42x) before giving effect to dividends paid during the 2021 taxable year.

(iii) *Example 3: Carryforward of disallowed interest expense*—(A) *Facts*. The facts are the same as the facts in *Example 2* in paragraph (c)(4)(ii)(A) of this section for the 2021 taxable year. In addition, X has \$50x of interest income and \$20x of interest expense for the 2022 taxable year.

(B) *Analysis*. Under paragraph (b) of this section, all of X's interest expense is considered business interest expense, all of X's interest income is considered business interest income, and all of X's other income is considered to be properly allocable to a trade or business. Because X's \$50x of business interest income exceeds the \$20x of business interest expense from the 2022 taxable year and the \$7x of disallowed business interest expense carryforward from the 2021 taxable year, X may deduct \$27x of business interest expense in the 2022 taxable year. Under paragraph (c)(2) of this section, X must reduce its current earnings and profits for the 2022 taxable year by the full amount of the deductible business interest expense (\$27x).

(iv) *Example 4: REIT adjusted taxable income and earnings and profits*—(A) *Facts*. X is a corporation that intends to qualify as a REIT for its 2021 taxable year. X is not engaged in an excepted trade or business and is not engaged in a trade or business that is eligible to make any election under section 163(j)(7). In that year, X's only items are \$100x of mortgage interest income,

\$30x of dividend income from C corporations that only issue common stock and in which X has less than a ten percent interest (by vote and value), \$10x of net capital gain from the sale of mortgages on real property that is not property described in section 1221(a)(1), and \$125x of interest expense. None of the dividends are received on debt financed portfolio stock under section 246A. The DRD determined under section 243(a) with respect to X's \$30x of dividend income is \$15x. X pays \$28x in dividends meeting the requirements of section 562 during X's 2021 taxable year, including \$10x that X properly designates as capital gain dividends under section 857(b)(3)(B).

(B) *Analysis*. (1) Under paragraph (b) of this section, all of X's interest expense is considered business interest expense, all of X's interest income is considered business interest income, and all of X's other income is considered to be properly allocable to a trade or business. Under paragraph (b)(4)(ii) of this section, prior to the application of section 163(j), X's tentative taxable income is \$0 (\$100x business interest income + \$30x dividend income + \$10x net capital gain - \$125x business interest expense - \$15x DRD = \$0). Under paragraph (b)(4)(iii) of this section, X's ATI is increased by the DRD. As such, X's ATI for the 2021 taxable year is \$40x (\$0 tentative taxable income + \$125x business interest expense - \$100x business interest income + \$15x DRD = \$40x).

(2) X may deduct \$112x of its \$125x of business interest expense in the 2021 taxable year under section 163(j)(1) (\$100x business interest income + (30 percent × \$40x of ATI) = \$112x), and X may carry forward the remainder of its business interest expense (\$13x) to X's 2022 taxable year.

(3) After the application of section 163(j), X has taxable income of \$13x (\$100x business interest income + \$30x dividend income + \$10x capital gain - \$15x DRD - \$112x allowable business interest expense = \$13x) for the 2021 taxable year. X will have real estate investment trust taxable income (REITTI) in the amount of \$0 (\$13x taxable income + \$15x of DRD - \$28x dividends paid deduction = \$0).

(4) Under paragraph (c)(2) of this section, X will not reduce earnings and

profits by the amount of business interest expense disallowed as a deduction in the 2021 taxable year. Thus, X has current earnings and profits in the amount of \$28x (\$100x business interest income + \$30x dividend income + \$10x capital gain - \$112x allowable business interest expense = \$28x) before giving effect to dividends paid during X's 2021 taxable year.

(v) *Example 5: Carryforward of disallowed interest expense*—(A) *Facts*. The facts are the same as in *Example 4* in paragraph (c)(4)(iv)(A) of this section for the 2021 taxable year. In addition, X has \$50x of mortgage interest income and \$20x of interest expense for the 2022 taxable year. X has no other tax items for the 2022 taxable year.

(B) *Analysis*. Because X's \$50x of business interest income exceeds the \$20x of business interest expense from the 2022 taxable year and the \$13x of disallowed business interest expense carryforwards from the 2021 taxable year, X may deduct \$33x of business interest expense in 2022. Under paragraph (c)(2) of this section, X must reduce its current earnings and profits for 2022 by the full amount of the deductible interest expense (\$33x).

(d) *Special rules for consolidated groups*—(1) *Scope*. This paragraph (d) provides rules applicable to members of a consolidated group. For all members of a consolidated group for a consolidated return year, the computations required by section 163(j) and the regulations in this part under section 163(j) are made in accordance with the rules of this paragraph (d) unless otherwise provided elsewhere in the section 163(j) regulations. For rules governing the ownership of partnership interests by members of a consolidated group, see paragraph (e) of this section.

(2) *Calculation of the section 163(j) limitation for members of a consolidated group*—(i) *In general*. A consolidated group has a single section 163(j) limitation, the absorption of which is governed by § 1.163(j)-5(b)(3)(ii).

(ii) *Interest*. For purposes of determining whether amounts, other than amounts in respect of intercompany obligations (as defined in § 1.1502-13(g)(2)(ii)), intercompany items (as defined in § 1.1502-13(b)(2)), or corresponding items (as defined in § 1.1502-

13(b)(3)), are treated as interest within the meaning of § 1.163(j)-1(b)(22), all members of a consolidated group are treated as a single taxpayer.

(iii) *Calculation of business interest expense and business interest income for a consolidated group*. For purposes of calculating the section 163(j) limitation for a consolidated group, the consolidated group's current-year business interest expense and business interest income, respectively, are the sum of each member's current-year business interest expense and business interest income, including amounts treated as business interest expense and business interest income under paragraph (b)(3) of this section.

(iv) *Calculation of adjusted taxable income*. For purposes of calculating the ATI for a consolidated group, the tentative taxable income is the consolidated group's consolidated taxable income, determined under § 1.1502-11 but without regard to any carryforwards or disallowances under section 163(j). Further, for purposes of calculating the ATI of the group, intercompany items and corresponding items are disregarded to the extent that they offset in amount. Thus, for example, certain portions of the intercompany items and corresponding items of a group member engaged in a non-excepted trade or business will not be included in ATI to the extent that the counterparties to the relevant intercompany transactions are engaged in one or more excepted trades or businesses.

(v) *Treatment of intercompany obligations*—(A) *In general*. Except as otherwise provided in paragraph (d)(2)(v)(B) of this section, for purposes of determining a member's business interest expense and business interest income, and for purposes of calculating the consolidated group's ATI, all intercompany obligations, as defined in § 1.1502-13(g)(2)(ii), are disregarded. Therefore, except as otherwise provided in paragraph (d)(2)(v)(B) of this section, interest expense and interest income from intercompany obligations are not treated as business interest expense and business interest income.

(B) *Repurchase premium*. This paragraph (d)(2)(v)(B) applies if a member of a consolidated group purchases an obligation of another member of the

same consolidated group in a transaction to which § 1.1502-13(g)(5) applies. Notwithstanding the general rule of paragraph (d)(2)(v)(A) of this section, if, as a result of the deemed satisfaction of the obligation under § 1.1502-13(g)(5)(ii), the debtor member has repurchase premium that is deductible under § 1.163-7(c), such repurchase premium is treated as interest that is subject to the section 163(j) limitation. See § 1.163(j)-1(b)(22)(i)(H).

(3) *Investment adjustments.* For rules governing investment adjustments within a consolidated group, see § 1.1502-32(b).

(4) *Examples.* The principles in this paragraph (d) are illustrated by the following examples. For purposes of the examples in this paragraph (d)(4), S is a member of the calendar-year consolidated group of which P is the common parent; the P group does not qualify for the small business exemption in § 1.163(j)-2(d); no member of the P group is engaged in an excepted trade or business; all interest expense is deductible except for the potential application of section 163(j); and the facts set forth the only corporate activity.

(i) *Example 1: Calculation of the section 163(j) limitation—(A) Facts.* In the 2021 taxable year, P has \$50x of separate tentative taxable income after taking into account \$65x of interest paid on a loan from a third party (without regard to any disallowance under section 163(j)) and \$35x of depreciation deductions under section 168. In turn, S has \$40x of separate tentative taxable income in the 2021 taxable year after taking into account \$10x of depreciation deductions under section 168. S has no interest expense in the 2021 taxable year. The P group's tentative taxable income the 2021 taxable year is \$90x, determined under § 1.1502-11 without regard to any disallowance under section 163(j).

(B) *Analysis.* As provided in paragraph (b)(1) of this section, P's interest expense is treated as business interest expense for purposes of section 163(j). If P and S were to apply the section 163(j) limitation on a separate-entity basis, then P's ATI would be \$150x (\$50x + \$65x + \$35x = \$150x), its section 163(j) limitation would be \$45x (30 percent $\times$ \$150x = \$45x), and a deduction for \$20x of its

\$65x of business interest expense would be disallowed in the 2021 taxable year under section 163(j). However, as provided in paragraph (d)(2) of this section, the P group computes a single section 163(j) limitation, and that computation begins with the P group's tentative taxable income (as determined prior to the application of section 163(j)), or \$90x. The P group's ATI is \$200x (\$50x + \$40x + \$65x + \$35x + \$10x = \$200x). Thus, the P group's section 163(j) limitation for the 2021 taxable year is \$60x (30 percent $\times$ \$200x = \$60x). As a result, all but \$5x of the P group's business interest expense is deductible in the 2021 taxable year. P carries over the \$5x of disallowed business interest expense to the succeeding taxable year.

(ii) *Example 2: Intercompany obligations—(A) Facts.* On January 1, 2021, G, a corporation unrelated to P and S, lends P \$100x in exchange for a note that accrues interest at a 10 percent annual rate. A month later, P lends \$100x to S in exchange for a note that accrues interest at a 12 percent annual rate. In 2021, P accrues and pays \$10x of interest to G on P's note, and S accrues and pays \$12x of interest to P on S's note. For that year, the P group's only other items of income, gain, deduction, and loss are \$40x of income earned by S from the sale of inventory, and a \$30x deductible expense arising from P's payment of tort liability claims.

(B) *Analysis.* As provided in paragraph (d)(2)(v) of this section, the intercompany obligation between P and S is disregarded in determining P and S's business interest expense and business interest income and in determining the P group's ATI. For purposes of section 163(j), P has \$10x of business interest expense and a \$30x deduction for the payment of tort liability claims, and S has \$40x of income. The P group's ATI is \$10x (\$40x - \$30x = \$10x), and its section 163(j) limitation is \$3x (30 percent $\times$ \$10x = \$3x). The P group may deduct \$3x of its business interest expense in the 2021 taxable year. A deduction for P's remaining \$7x of business interest expense is disallowed in the 2021 taxable year, and this amount is carried forward to the 2022 taxable year.

(e) *Ownership of partnership interests by members of a consolidated group.*

§ 1.163(j)-5

26 CFR Ch. I (4-1-22 Edition)

(1) [Reserved]

(2) *Change in status of a member.* A change in status of a member (that is, becoming or ceasing to be a member of the group) is not treated as a disposition for purposes of section 163(j)(4)(B)(iii)(II) and § 1.163(j)-6(h)(3).

(3) *Basis adjustments under § 1.1502-32.* A member's allocation of excess business interest expense from a partnership and the resulting decrease in basis in the partnership interest under section 163(j)(4)(B)(iii)(I) is not a noncapital, nondeductible expense for purposes of § 1.1502-32(b)(3)(iii). Additionally, an increase in a member's basis in a partnership interest under section 163(j)(4)(B)(iii)(II) to reflect excess business interest expense not deducted by the consolidated group is not tax-exempt income for purposes of § 1.1502-32(b)(3)(ii). Investment adjustments are made under § 1.1502-32(b)(3)(i) when the excess business interest expense from the partnership is converted into business interest expense, deducted, and absorbed by the consolidated group. See § 1.1502-32(b).

(4) *Excess business interest expense and § 1.1502-36.* Excess business interest expense is a Category D asset within the meaning of § 1.1502-36(d)(4)(i).

(f) *Cross-references.* For rules governing the treatment of disallowed business interest expense carryforwards for C corporations, including rules governing the treatment of disallowed business interest expense carryforwards when members enter or leave a consolidated group, see § 1.163(j)-5. For rules governing the application of section 163(j) to a C corporation or a consolidated group engaged in both excepted and non-excepted trades or businesses, see § 1.163(j)-10.

(g) *Applicability date—(1) In general.* This section applies to taxable years beginning on or after November 13, 2020. However, taxpayers and their related parties, within the meaning of sections 267(b) and 707(b)(1), may choose to apply the rules of this section to a taxable year beginning after December 31, 2017, so long as the taxpayers and their related parties consistently apply the rules of the section 163(j) regulations, and, if applicable, §§ 1.263A-9, 1.263A-15, 1.381(c)(20)-1,

1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.382-7, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§ 1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4, to that taxable year.

(2) [Reserved]

[T.D. 9905, 85 FR 56760, Sept. 14, 2020]

§ 1.163(j)-5 General rules governing disallowed business interest expense carryforwards for C corporations.

(a) *Scope and definitions—(1) Scope.* This section provides rules regarding disallowed business interest expense carryforwards for taxpayers that are C corporations, including members of a consolidated group. Paragraph (b) of this section provides rules regarding the treatment of disallowed business interest expense carryforwards. Paragraph (c) of this section provides a cross-reference to other rules regarding disallowed business interest expense carryforwards in transactions to which section 381(a) applies. Paragraph (d) of this section provides rules regarding limitations on disallowed business interest expense carryforwards from separate return limitation years (SRLYs). Paragraph (e) of this section provides cross-references to other rules regarding the application of section 382 to disallowed business interest expense carryforwards. Paragraph (f) of this section provides a cross-reference to other rules regarding the overlap of the SRLY limitation with section 382. Paragraph (g) of this section references additional rules that may limit the deductibility of interest or the use of disallowed business interest expense carryforwards.

(2) *Definitions—(i) Allocable share of the consolidated group's remaining section 163(j) limitation.* The term *allocable share of the consolidated group's remaining section 163(j) limitation* means, with respect to any member of a consolidated group, the product of the consolidated group's remaining section 163(j) limitation and the member's remaining current-year interest ratio.

(ii) *Consolidated group's remaining section 163(j) limitation.* The term *consolidated group's remaining section 163(j) limitation* means the amount of the consolidated group's section 163(j) limitation calculated pursuant to § 1.163(j)-4(d)(2), reduced by the amount of interest deducted by members of the consolidated group pursuant to paragraph (b)(3)(ii)(C)(2) of this section.

(iii) *Remaining current-year interest ratio.* The term *remaining current-year interest ratio* means, with respect to any member of a consolidated group for a particular taxable year, the ratio of the remaining current-year business interest expense of the member after applying the rule in paragraph (b)(3)(ii)(C)(2) of this section, to the sum of the amounts of remaining current-year business interest expense for all members of the consolidated group after applying the rule in paragraph (b)(3)(ii)(C)(2) of this section.

(b) *Treatment of disallowed business interest expense carryforwards—(1) In general.* The amount of any business interest expense of a C corporation not allowed as a deduction for any taxable year as a result of the section 163(j) limitation is carried forward to the succeeding taxable year as a disallowed business interest expense carryforward under section 163(j)(2) and § 1.163(j)-2(c).

(2) *Deduction of business interest expense.* For a taxpayer that is a C corporation, current-year business interest expense is deducted in the current taxable year before any disallowed business interest expense carryforwards from a prior taxable year are deducted in that year. Disallowed business interest expense carryforwards are deducted in the order of the taxable years in which they arose, beginning with the earliest taxable year, subject to certain limitations (for example, the limitation under section 382). For purposes of section 163(j), disallowed disqualified interest is treated as carried forward from the taxable year in which a deduction was disallowed under old section 163(j).

(3) *Consolidated groups—(i) In general.* A consolidated group's disallowed business interest expense carryforwards for the current consolidated return year (the current year) are the

carryforwards from the group's prior consolidated return years plus any carryforwards from separate return years.

(ii) *Deduction of business interest expense—(A) General rule.* All current-year business interest expense of members of a consolidated group is deducted in the current year before any disallowed business interest expense carryforwards from prior taxable years are deducted in the current year. Disallowed business interest expense carryforwards from prior taxable years are deducted in the order of the taxable years in which they arose, beginning with the earliest taxable year, subject to the limitations described in this section.

(B) *Section 163(j) limitation equals or exceeds the current-year business interest expense and disallowed business interest expense carryforwards from prior taxable years.* If a consolidated group's section 163(j) limitation for the current year equals or exceeds the aggregate amount of its members' current-year business interest expense and disallowed business interest expense carryforwards from prior taxable years that are available for deduction, then none of the current-year business interest expense or disallowed business interest expense carryforwards is subject to disallowance in the current year under section 163(j). However, a deduction for the members' business interest expense may be subject to limitation under other provisions of the Code or the Income Tax Regulations (see, for example, paragraphs (c), (d), (e), and (f) of this section).

(C) *Current-year business interest expense and disallowed business interest expense carryforwards exceed section 163(j) limitation.* If the aggregate amount of members' current-year business interest expense and disallowed business interest expense carryforwards from prior taxable years exceeds the consolidated group's section 163(j) limitation for the current year, then the following rules apply in the order provided:

(1) The group first determines whether its section 163(j) limitation for the current year equals or exceeds the aggregate amount of the members' current-year business interest expense.

(i) If the group's section 163(j) limitation for the current year equals or exceeds the aggregate amount of the members' current-year business interest expense, then no amount of the group's current-year business interest expense is subject to disallowance in the current year under section 163(j). Once the group has taken into account its members' current-year business interest expense, the group applies the rules of paragraph (b)(3)(ii)(C)(4) of this section.

(ii) If the aggregate amount of members' current-year business interest expense exceeds the group's section 163(j) limitation for the current year, then the group applies the rule in paragraph (b)(3)(ii)(C)(2) of this section.

(2) If this paragraph (b)(3)(ii)(C)(2) applies (see paragraph (b)(3)(ii)(C)(1)(ii) of this section), then each member with current-year business interest expense and with current-year business interest income or floor plan financing interest expense deducts current-year business interest expense in an amount that does not exceed the sum of the member's business interest income and floor plan financing interest expense for the current year.

(3) After applying the rule in paragraph (b)(3)(ii)(C)(2) of this section, if the group has any section 163(j) limitation remaining for the current year, then each member with remaining current-year business interest expense deducts a portion of its expense based on its allocable share of the consolidated group's remaining section 163(j) limitation.

(4) If this paragraph (b)(3)(ii)(C)(4) applies (see paragraph (b)(3)(ii)(C)(1)(i) of this section), and if the group has any section 163(j) limitation remaining for the current year after applying the rules in paragraph (b)(3)(ii)(C)(1) of this section, then disallowed business interest expense carryforwards permitted to be deducted (including under paragraph (d)(1)(A) of this section) in the current year are to be deducted in the order of the taxable years in which they arose, beginning with the earliest taxable year. Disallowed business interest expense carryforwards from taxable years ending on the same date that are available to offset tentative taxable income for the current year generally are to be

deducted on a pro rata basis under the principles of paragraph (b)(3)(ii)(C)(3) of this section. For example, assume that P and S are the only members of a consolidated group with a section 163(j) limitation for the current year (Year 2) of \$200x; the amount of current-year business interest expense deducted in Year 2 is \$100x; and P and S, respectively, have \$140x and \$60x of disallowed business interest expense carryforwards from Year 1 that are not subject to limitation under paragraph (c), (d), or (e) of this section. Under these facts, P would be allowed to deduct \$70x of its carryforwards from Year 1 ($\$100x \times (\$140x/(\$60x + \$140x)) = \$70x$), and S would be allowed to deduct \$30x of its carryforwards from Year 1 ($\$100x \times (\$60x/(\$60x + \$140x)) = \$30x$). But see § 1.383-1(d)(1)(ii), providing that, if losses subject to and not subject to the section 382 limitation are carried from the same taxable year, losses subject to the limitation are deducted before losses not subject to the limitation.

(5) Each member with remaining business interest expense after applying the rules of this paragraph (b)(3)(ii), taking into account the limitations in paragraphs (c), (d), (e), and (f) of this section, carries the expense forward to the succeeding taxable year as a disallowed business interest expense carryforward under section 163(j)(2) and § 1.163(j)-2(c).

(iii) *Departure from group.* If a corporation ceases to be a member during a consolidated return year, the corporation's current-year business interest expense from the taxable period ending on the day of the corporation's change in status as a member, as well as the corporation's disallowed business interest expense carryforwards from prior taxable years that are available to offset tentative taxable income in the consolidated return year, are first made available for deduction during that consolidated return year. See § 1.1502-76(b)(1)(i); see also § 1.1502-36(d) (regarding reductions of deferred deductions on the transfer of loss shares of subsidiary stock). Only the amount that is neither deducted by the group in that consolidated return year nor otherwise reduced under the Code or

Internal Revenue Service, Treasury

§ 1.163(j)-5

regulations may be carried to the corporation's first separate return year after its change in status.

(iv) *Example: Deduction of interest expense—(A) Facts.* (1) P wholly owns A, which is a member of the consolidated group of which P is the common par-

ent. P and A each borrow money from Z, an unrelated third party. The business interest expense of P and A in Years 1, 2, and 3, and the P group's section 163(j) limitation for those years, are as follows:

TABLE 1 TO PARAGRAPH (b)(3)(iv)(A)(1)

Year	P's business interest expense	A's business interest expense	P group's section 163(j) limitation
1	\$150x	\$50x	\$100x
2	60x	90x	120x
3	25x	50x	185x

(2) P and A have neither business interest income nor floor plan financing interest expense in Years 1, 2, and 3. Additionally, the P group is neither eligible for the small business exemption in § 1.163(j)-2(d) nor engaged in an accepted trade or business.

(B) *Analysis—(1) Year 1.* In Year 1, the aggregate amount of the P group members' current-year business interest expense (\$150x + \$50x) exceeds the P group's section 163(j) limitation (\$100x). As a result, the rules of paragraph (b)(3)(ii)(C) of this section apply. Because the P group members' current-year business interest expense exceeds the group's section 163(j) limitation for Year 1, P and A must apply the rule in paragraph (b)(3)(ii)(C)(2) of this section. Pursuant to paragraph (b)(3)(ii)(C)(2) of this section, each of P and A must deduct its current-year business interest expense to the extent of its business interest income and floor plan financing interest expense. Neither P nor A has business interest income or floor plan financing interest expense in Year 1. Next, pursuant to paragraph (b)(3)(ii)(C)(3) of this section, each of P and A must deduct a portion of its current-year business interest expense based on its allocable share of the consolidated group's remaining section 163(j) limitation (\$100x). P's allocable share is \$75x ($\$100x \times (\$150x/\$200x) = \$75x$), and A's allocable share is \$25x ($\$100x \times (\$50x/\$200x) = \$25x$). Accordingly, in Year 1, P deducts \$75x of its current-year business interest expense, and A deducts \$25x of its current-year business interest expense. P has a disallowed business interest expense

carryforward from Year 1 of \$75x ($\$150x - \$75x = \$75x$), and A has a disallowed business interest expense carryforward from Year 1 of \$25x ($\$50x - \$25x = \$25x$).

(2) *Year 2.* In Year 2, the aggregate amount of the P group members' current-year business interest expense (\$60x + \$90x) and disallowed business interest expense carryforwards (\$75x + \$25x) exceeds the P group's section 163(j) limitation (\$120x). As a result, the rules of paragraph (b)(3)(ii)(C) of this section apply. Because the P group members' current-year business interest expense exceeds the group's section 163(j) limitation for Year 2, P and A must apply the rule in paragraph (b)(3)(ii)(C)(2) of this section. Pursuant to paragraph (b)(3)(ii)(C)(2) of this section, each of P and A must deduct its current-year business interest expense to the extent of its business interest income and floor plan financing interest expense. Neither P nor A has business interest income or floor plan financing interest expense in Year 2. Next, pursuant to paragraph (b)(3)(ii)(C)(3) of this section, each of P and A must deduct a portion of its current-year business interest expense based on its allocable share of the consolidated group's remaining section 163(j) limitation (\$120x). P's allocable share is \$48x ($\$120x \times (\$60x/\$150x) = \$48x$), and A's allocable share is \$72x ($\$120x \times (\$90x/\$150x) = \$72x$). Accordingly, in Year 2, P deducts \$48x of current-year business interest expense, and A deducts \$72x of current-year business interest expense. P has a disallowed business interest expense

carryforward from Year 2 of \$12x (\$60x - \$48x = \$12x), and A has a disallowed business interest expense carryforward from Year 2 of \$18x (\$90x - \$72x = \$18x). Additionally, because the P group has no section 163(j) limitation remaining after deducting current-year business interest expense in Year 2, the full amount of P and A's disallowed business interest expense carryforwards from Year 1 (\$75x and \$25x, respectively) also are carried forward to Year 3. As a result, at the beginning of Year 3, P and A's respective disallowed business interest expense carryforwards are as follows:

TABLE 2 TO PARAGRAPH (b)(3)(iv)(B)(2)

	Year 1 disallowed business interest expense carryforwards	Year 2 disallowed business interest expense carryforwards	Total disallowed business interest expense carryforwards
P	\$75x	\$12x	\$87x
A	25x	18x	43x
Total	100x	30x	130x

(3) *Year 3.* In Year 3, the aggregate amount of the P group members' current-year business interest expense (\$25x + \$50x = \$75x) and disallowed business interest expense carryforwards (\$130x) exceeds the P group's section 163(j) limitation (\$185x). As a result, the rules of paragraph (b)(3)(ii)(C) of this section apply. Because the P group's section 163(j) limitation for Year 3 equals or exceeds the P group members' current-year business interest expense, no amount of the members' current-year business interest expense is subject to disallowance under section 163(j) (see paragraph (b)(3)(ii)(C)(1) of this section). After each of P and A deducts its current-year business interest expense, the P group has \$110x of section 163(j) limitation remaining for Year 3 (\$185x - \$25x - \$50x = \$110x). Next, pursuant to paragraph (b)(3)(ii)(C)(4) of this section, \$110x of disallowed business interest expense carryforwards are deducted on a pro rata basis, beginning with carryforwards from Year 1. Because the total amount of carryforwards from Year 1 (\$100x) is less than the section 163(j) limitation remaining after the deduction of Year 3 business interest expense (\$110x), all of

the Year 1 carryforwards are deducted in Year 3. After current-year business interest expense and Year 1 carryforwards are deducted, the P group's remaining section 163(j) limitation in Year 3 is \$10x. Because the Year 2 carryforwards (\$30x) exceed the remaining section 163(j) limitation (\$10x), under paragraph (b)(3)(ii)(C)(4) of this section, each of P and A will deduct a portion of its Year 2 carryforwards based on its allocable share of the consolidated group's remaining section 163(j) limitation. P's allocable share is \$4x ($(\$10x \times (\$12x/\$30x)) = \$4x$), and A's allocable share is \$6x ($(\$10x \times (\$18x/\$30x)) = \$6x$). Accordingly, P and A may deduct \$4x and \$6x, respectively, of their Year 2 carryforwards. For Year 4, P and A have \$8x and \$12x of disallowed business interest expense carryforwards from Year 2, respectively.

(c) *Disallowed business interest expense carryforwards in transactions to which section 381(a) applies.* For rules governing the application of section 381(c)(20) to disallowed business interest expense carryforwards, including limitations on an acquiring corporation's use of the disallowed business interest expense carryforwards of the transferor or distributor corporation in the acquiring corporation's first taxable year ending after the date of distribution or transfer, see § 1.381(c)(20)-1.

(d) *Limitations on disallowed business interest expense carryforwards from separate return limitation years—(1) General rule—(A) Cumulative section 163(j) SRLY limitation.* This paragraph (d) applies to disallowed business interest expense carryforwards of a member arising in a SRLY (see § 1.1502-1(f)) or treated as arising in a SRLY under the principles of § 1.1502-21(c) and (g). The amount of the carryforwards described in the preceding sentence that are included in the consolidated group's business interest expense deduction for any taxable year under paragraph (b) of this section may not exceed the aggregate section 163(j) limitation for all consolidated return years of the group, determined by reference only to the member's items of income, gain, deduction, and loss, and reduced (including below zero) by the member's business interest expense (including disallowed business interest

expense carryforwards) absorbed by the group in all consolidated return years (cumulative section 163(j) SRLY limitation). For purposes of computing the member's cumulative section 163(j) SRLY limitation, intercompany items referred to in § 1.163(j)-4(d)(2)(iv) are included, with the exception of interest items with regard to intercompany obligations. See § 1.163(j)-4(d)(2)(v). Thus, for purposes of this paragraph (d), income and expense items arising from intercompany transactions (other than interest income and expense with regard to intercompany obligations) are included in the calculation of the cumulative section 163(j) SRLY limitation. In addition, items of interest expense with regard to intercompany obligations are not characterized as business interest expense for purposes of the reduction described in the second sentence of this paragraph (d)(1)(A).

(B) *Subgrouping.* For purposes of this paragraph (d), the SRLY subgroup principles of § 1.1502-21(c)(2)(i) (with regard to carryovers of SRLY losses) apply with appropriate adjustments.

(2) *Deduction of disallowed business interest expense carryforwards arising in a SRLY.* Notwithstanding paragraph (d)(1) of this section, disallowed business interest expense carryforwards of a member arising in a SRLY are available for deduction by the consolidated group in the current year only to the extent the group has remaining section 163(j) limitation for the current year after the deduction of current-year business interest expense and disallowed business interest expense carryforwards from earlier taxable years that are permitted to be deducted in the current year (see paragraph (b)(3)(ii)(A) of this section). SRLY-limited disallowed business interest expense carryforwards are deducted on a pro rata basis (under the principles of paragraph (b)(3)(ii)(C)(3) of this section) with non-SRLY limited disallowed business interest expense carryforwards from taxable years ending on the same date. See also § 1.1502-21(b)(1).

(3) *Examples.* The principles of this paragraph (d) are illustrated by the following examples. For purposes of the examples in this paragraph (d)(3), unless otherwise stated, P, R, S, and T

are taxable domestic C corporations that are not RICs or REITs and that file their tax returns on a calendar-year basis; none of P, R, S, or T qualifies for the small business exemption under section 163(j)(3) or is engaged in an excepted trade or business; all interest expense is deductible except for the potential application of section 163(j); and the facts set forth the only corporate activity.

(i) *Example 1: Determination of SRLY limitation—(A) Facts.* Individual A owns P. In 2021, A forms T, which pays or accrues a \$100x business interest expense for which a deduction is disallowed under section 163(j) and that is carried forward to 2022. P does not pay or accrue business interest expense in 2021, and P has no disallowed business interest expense carryforwards from prior taxable years. At the close of 2021, P acquires all of the stock of T, which joins with P in filing a consolidated return beginning in 2022. Neither P nor T pays or accrues business interest expense in 2022, and the P group has a section 163(j) limitation of \$300x in that year. This limitation would be \$70x if determined by reference solely to T's items for all consolidated return years of the P group.

(B) *Analysis.* T's \$100x of disallowed business interest expense carryforwards from 2021 arose in a SRLY. P's acquisition of T was not an ownership change as defined by section 382(g); thus, T's disallowed business interest expense carryforwards are subject to the SRLY limitation in paragraph (d)(1) of this section. T's cumulative section 163(j) SRLY limitation for 2022 is the P group's section 163(j) limitation, determined by reference solely to T's items for all consolidated return years of the P group (\$70x). See paragraph (d)(1) of this section. Thus, \$70x of T's disallowed business interest expense carryforwards are available to be deducted by the P group in 2022, and the remaining \$30x of T's disallowed business interest expense carryforwards are carried forward to 2023. After the P group deducts \$70x of T's disallowed business interest expense carryforwards, T's cumulative section 163(j) SRLY limitation is reduced by \$70x to \$0.

(C) *Cumulative section 163(j) SRLY limitation of \$0.* The facts are the same as in *Example 1* in paragraph (d)(3)(i)(A) of this section, except that T's cumulative section 163(j) SRLY limitation for 2022 is \$0. Because the amount of T's disallowed business interest expense carryforwards that may be deducted by the P group in 2022 may not exceed T's cumulative section 163(j) SRLY limitation, none of T's carryforwards from 2021 may be deducted by the P group in 2022. Because none of T's disallowed business interest expense carryforwards are absorbed by the P group in 2022, T's cumulative section 163(j) SRLY limitation remains at \$0 entering 2023.

(ii) *Example 2: Cumulative section 163(j) SRLY limitation less than zero—(A) Facts.* P and S are the only members of a consolidated group. P has neither current-year business interest expense nor disallowed business interest expense carryforwards. For the current year, the P group has a section 163(j) limitation of \$150x, \$25x of which is attributable to P, and \$125x of which is attributable to S. S has \$100x of disallowed business interest expense carryforwards that arose in a SRLY and \$150x of current-year business interest expense. S's cumulative section 163(j) SRLY limitation entering the current year (computed by reference solely to S's items for all consolidated return years of the P group) is \$0.

(B) *Analysis.* Under paragraph (d)(1) of this section, S's cumulative section 163(j) SRLY limitation is increased by \$125x to reflect S's tax items for the current year. The P group's section 163(j) limitation permits the P group to deduct all \$150x of S's current-year business interest expense. S's cumulative section 163(j) SRLY limitation is reduced by the \$150x of S's business interest expense absorbed by the P group in the current year, which results in a -\$25x balance. Thus, none of S's SRLY'd disallowed business interest expense carryforwards may be deducted by the P group in the current year. Entering the subsequent year, S's cumulative section 163(j) SRLY limitation remains -\$25x.

(iii) *Example 3: Pro rata absorption of SRLY-limited disallowed business interest expense carryforwards—(A) Facts.* P, R,

and S are the only members of a consolidated group, and no member has floor plan financing or business interest income. P has \$60x of current-year business interest expense and \$40x of disallowed business interest expense carryforwards from the previous year, which was not a separate return year. R has \$120x of current-year business interest expense and \$80x of disallowed business interest expense carryforwards from the previous year, which was not a separate return year. S has \$70x of current-year business interest expense and \$30x of disallowed business interest expense carryforwards from the previous year, which was a separate return year. The P group has a section 163(j) limitation of \$300x, \$50x of which is attributable to P, \$90x to R, and \$160x to S. S's cumulative section 163(j) SRLY limitation entering the current year (computed by reference solely to S's items for all consolidated return years of the P group) is \$0.

TABLE 3 TO PARAGRAPH (d)(3)(iii)(A)

	Current-year business interest expense	Disallowed business interest expense carryforwards from prior taxable year	Section 163(j) limitation
P	\$60x	\$40x	\$50x
R	120x	80x	90x
S	70x	(SRLY) 30x	160x
Total	250x	150x	300x

(B) *Analysis.* Under paragraph (d)(1) of this section, S's cumulative section 163(j) SRLY limitation is increased in the current year by \$160x. The P group's section 163(j) limitation permits the P group to deduct all \$70x of S's current-year business interest expense (and all \$180x of P and R's current-year business interest expense). S's cumulative section 163(j) SRLY limitation is reduced by the \$70x of S's business interest expense absorbed by the P group in the current year, resulting in a \$90x balance. Because the P group has \$50x of section 163(j) limitation remaining after the absorption of current-year business interest expense, the P group can absorb \$50x of its members' disallowed business interest expense carryforwards. Under paragraph

(d)(2) of this section, SRLY-limited disallowed business interest expense carryforwards are deducted on a pro rata basis with other disallowed business interest expense carryforwards from the same taxable year. Accordingly, the P group can deduct \$10x ($\$50x \times (\$30x/\$150x)$) of S's SRLY-limited disallowed business interest expense carryforwards. S's cumulative section 163(j) SRLY limitation is reduced (to \$30x) by the \$10x of SRLY-limited disallowed business interest expense carryforwards absorbed by the P group in the current year.

(C) *Cumulative section 163(j) SRLY limitation of -\$75x.* The facts are the same as in *Example 3* in paragraph (d)(3)(iii)(A) of this section, except that S's cumulative section 163(j) SRLY limitation entering the current year is -\$75x. After adjusting for S's tax items for the current year (\$160x) and the P group's absorption of S's current-year business interest expense (\$70x), S's cumulative section 163(j) SRLY limitation is \$15x ($-\$75x + \$160x - \$70x$). Because S's cumulative section 163(j) SRLY limitation (\$15x) is less than the amount of S's SRLY-limited disallowed business interest expense carryforwards (\$30x), the pro rata calculation under paragraph (d)(2) of this section is applied to \$15x (rather than \$30x) of S's carryforwards. Accordingly, the P group can deduct \$5.56x ($\$50x \times (\$15x/\$135x)$) of S's SRLY-limited disallowed business interest expense carryforwards. S's cumulative section 163(j) SRLY limitation is reduced (to \$9.44x) by the \$5.56x of SRLY-limited disallowed business interest expense carryforwards absorbed by the P group in the current year.

(e) *Application of section 382—(1) Pre-change loss.* For rules governing the treatment of a disallowed business interest expense as a pre-change loss for purposes of section 382, see §§ 1.382-2(a) and 1.382-6. For rules governing the application of section 382 to disallowed disqualified interest carryforwards, see § 1.163(j)-11(c)(4).

(2) *Loss corporation.* For rules governing when a disallowed business interest expense causes a corporation to be a loss corporation within the meaning of section 382(k)(1), see § 1.382-2(a). For the application of section 382 to

disallowed disqualified interest carryforwards, see § 1.163(j)-11(c)(4).

(3) *Ordering rules for utilization of pre-change losses and for absorption of the section 382 limitation.* For ordering rules for the utilization of disallowed business interest expense, net operating losses, and other pre-change losses, and for the absorption of the section 382 limitation, see § 1.383-1(d).

(4) *Disallowed business interest expense from the pre-change period in the year of a testing date.* For rules governing the treatment of disallowed business interest expense from the pre-change period (within the meaning of § 1.382-6(g)(2)) in the year of a testing date, see § 1.382-2.

(5) *Recognized built-in loss.* For a rule providing that a section 382 disallowed business interest carryforward (as defined in § 1.382-2(a)(7)) is not treated as a recognized built-in loss for purposes of section 382, see § 1.382-7(d)(5).

(f) *Overlap of SRLY limitation with section 382.* For rules governing the overlap of the application of section 382 and the application of the SRLY rules, see § 1.1502-21(g).

(g) *Additional limitations.* Additional rules provided under the Code or regulations also apply to limit the use of disallowed business interest expense carryforwards. For rules governing the relationship between section 163(j) and other provisions affecting the deductibility of interest, see § 1.163(j)-3.

(h) *Applicability date.* This section applies to taxable years beginning on or after November 13, 2020. However, taxpayers and their related parties, within the meaning of sections 267(b) and 707(b)(1), may choose to apply the rules of this section to a taxable year beginning after December 31, 2017, so long as the taxpayers and their related parties consistently apply the rules of the section 163(j) regulations, and, if applicable, §§ 1.263A-9, 1.263A-15, 1.381(c)(20)-1, 1.382-1, 1.382-2, 1.382-5, 1.382-6, 1.382-7, 1.383-0, 1.383-1, 1.469-9, 1.469-11, 1.704-1, 1.882-5, 1.1362-3, 1.1368-1, 1.1377-1, 1.1502-13, 1.1502-21, 1.1502-36, 1.1502-79, 1.1502-91 through 1.1502-99 (to the extent they effectuate the rules of §§ 1.382-2, 1.382-5, 1.382-6, and 1.383-1), and 1.1504-4, to that taxable year.

[T.D. 9905, 85 FR 56760, Sept. 14, 2020]

§ 1.163(j)-6 Application of the section 163(j) limitation to partnerships and subchapter S corporations.

(a) *Overview.* If a deduction for business interest expense of a partnership or an S corporation is subject to the section 163(j) limitation, section 163(j)(4) provides that the section 163(j) limitation applies at the partnership or S corporation level and any deduction for business interest expense is taken into account in determining the non-separately stated taxable income or loss of the partnership or S corporation. Once a partnership or an S corporation determines its business interest expense, business interest income, ATI, and floor plan financing interest expense, the partnership or S corporation calculates its section 163(j) limitation by applying the rules of § 1.163(j)-2(b) and this section. Paragraph (b) of this section provides definitions used in this section. Paragraph (c) of this section provides rules regarding the character of a partnership's deductible business interest expense and excess business interest expense. Paragraph (d) of this section provides rules regarding the calculation of a partnership's ATI and floor plan financing interest expense. Paragraph (e) of this section provides rules regarding a partner's ATI and business interest income. Paragraph (f) of this section provides an eleven-step computation necessary for properly allocating a partnership's deductible business interest expense and section 163(j) excess items to its partners. Paragraph (g) of this section applies carryforward rules at the partner level if a partnership has excess business interest expense. Paragraph (h) of this section provides basis adjustment rules, and paragraph (k) of this section provides rules regarding investment items of a partnership. Paragraph (l) of this section provides rules regarding S corporations. Paragraph (m) of this section provides rules for partnerships and S corporations not subject to section 163(j). Paragraph (o) of this section provides examples illustrating the rules of this section.

(b) *Definitions.* In addition to the definitions contained in § 1.163(j)-1, the following definitions apply for purposes of this section.

(1) *Section 163(j) items.* The term *section 163(j) items* means the partnership or S corporation's business interest expense, business interest income, and items comprising ATI.

(2) *Partner basis items.* The term *partner basis items* means any items of income, gain, loss, or deduction resulting from either an adjustment to the basis of partnership property used in a non-excepted trade or business made pursuant to section 743(b) or the operation of section 704(c)(1)(C)(i) with respect to such property. Partner basis items also include section 743(b) basis adjustments used to increase or decrease a partner's share of partnership gain or loss on the sale of partnership property used in a non-excepted trade or business (as described in § 1.743-1(j)(3)(i)) and amounts resulting from the operation of section 704(c)(1)(C)(i) used to decrease a partner's share of partnership gain or increase a partner's share of partnership loss on the sale of such property.

(3) *Remedial items.* The term *remedial items* means any allocation to a partner of remedial items of income, gain, loss, or deduction pursuant to section 704(c) and § 1.704-3(d).

(4) *Excess business interest income.* The term *excess business interest income* means the amount by which a partnership's or S corporation's business interest income exceeds its business interest expense in a taxable year.

(5) *Deductible business interest expense.* The term *deductible business interest expense* means the amount of a partnership's or S corporation's business interest expense that is deductible under section 163(j) in the current taxable year following the application of the limitation contained in § 1.163(j)-2(b).

(6) *Section 163(j) excess items.* The term *section 163(j) excess items* means the partnership's excess business interest expense, excess taxable income, and excess business interest income.

(7) *Non-excepted assets.* The term *non-excepted assets* means assets from a non-excepted trade or business.

(8) *Excepted assets.* The term *excepted assets* means assets from an excepted trade or business.

(c) *Business interest income and business interest expense of a partnership—*

(1) *Modification of business interest income for partnerships.* The business interest income of a partnership generally is determined in accordance with § 1.163(j)-1(b)(4). However, to the extent that interest income of a partnership that is properly allocable to trades or businesses that are per se non-passive activities is allocated to partners that do not materially participate (within the meaning of section 469), as described in § 1.469-1T(e)(6) and subject to section 163(d)(5)(A)(ii), such interest income shall not be considered business interest income for purposes of determining the section 163(j) limitation of a partnership pursuant to § 1.163(j)-2(b). A per se non-passive activity is an activity that is not treated as a passive activity for purposes of section 469 regardless of whether the owners of the activity materially participate in the activity.

(2) *Modification of business interest expense for partnerships.* The business interest expense of a partnership generally is determined in accordance with § 1.163(j)-1(b)(3). However, to the extent that interest expense of a partnership that is properly allocable to trades or businesses that are per se non-passive activities is allocated to partners that do not materially participate (within the meaning of section 469), as described in § 1.469-1T(e)(6) and subject to section 163(d)(5)(A)(ii), such interest expense shall not be considered business interest expense for purposes of determining the section 163(j) limitation of a partnership pursuant to § 1.163(j)-2(b).

(3) *Transition rule.* With respect to a partner in a partnership engaged in a trade or business described in § 1.469-1T(e)(6) and subject to section 163(d)(5)(A)(ii), if such partner had been allocated EBIE from the partnership with respect to the trade or business described in § 1.469-1T(e)(6) and subject to section 163(d)(5)(A)(ii) in any prior taxable year in which the partner did not materially participate, such partner may treat such excess business interest expense not previously treated as paid or accrued under § 1.163(j)-6(g)(2) as paid or accrued by the partner in the first taxable year ending on or after the effective date of the final

regulations and not subject to further limitation under section 163(j) or 163(d).

(4) *Character of business interest expense.* If a partnership has deductible business interest expense, such deductible business interest expense is not subject to any additional application of section 163(j) at the partner-level because it is taken into account in determining the nonseparately stated taxable income or loss of the partnership. However, for all other purposes of the Code, deductible business interest expense and excess business interest expense retain their character as business interest expense at the partner-level. For example, for purposes of section 469, such business interest expense retains its character as either passive or non-passive in the hands of the partner. Additionally, for purposes of section 469, deductible business interest expense and excess business interest expense from a partnership remain interest derived from a trade or business in the hands of a partner even if the partner does not materially participate in the partnership's trade or business activity. For additional rules regarding the interaction between sections 465, 469, and 163(j), see § 1.163(j)-3.

(d) *Adjusted taxable income of a partnership*—(1) *Tentative taxable income of a partnership.* For purposes of computing a partnership's ATI under § 1.163(j)-1(b)(1), the tentative taxable income of a partnership is the partnership's taxable income determined under section 703(a), but computed without regard to the application of the section 163(j) limitation.

(2) *Section 734(b), partner basis items, and remedial items.* A partnership takes into account items resulting from adjustments made to the basis of its property pursuant to section 734(b) for purposes of calculating its ATI pursuant to § 1.163(j)-1(b)(1). However, partner basis items and remedial items are not taken into account in determining a partnership's ATI under § 1.163(j)-1(b)(1). Instead, partner basis items and remedial items are taken into account by the partner in determining the partner's ATI pursuant to § 1.163(j)-1(b)(1). See *Example 6* in paragraph (o)(6) of this section.

(3) *Section 743(b) adjustments and publicly traded partnerships.* Solely for purposes of § 1.163(j)-6, a publicly traded partnership, as defined in § 1.7704-1, shall treat the amount of any section 743(b) adjustment of a purchaser of a partnership unit that relates to a remedial item that the purchaser inherits from the seller as an offset to the related section 704(c) remedial item. For this purpose, § 1.163(j)-6(e)(2)(ii) applies. See *Example 25* in paragraph (o)(25) of this section.

(4) *Modification of adjusted taxable income for partnerships.* The adjusted taxable income of a partnership generally is determined in accordance with § 1.163(j)-1(b)(1). However, to the extent that the items comprising the adjusted taxable income of a partnership that are properly allocable to trades or businesses that are per se non-passive activities are allocated to partners that do not materially participate (within the meaning of section 469), as described in section 163(d)(5)(A)(ii), such partnership items shall not be considered adjusted taxable income for purposes of determining the section 163(j) limitation of a partnership pursuant to § 1.163(j)-2(b).

(5) *Election to use 2019 adjusted taxable income for taxable years beginning in 2020.* In the case of any taxable year beginning in 2020, a partnership may elect to apply this section by substituting its adjusted taxable income for the last taxable year beginning in 2019 for the adjusted taxable income for such taxable year (post-election ATI or 2019 ATI). See § 1.163(j)-2(b)(4) for the time and manner of making or revoking this election. An electing partnership determines each partner's allocable ATI (as defined in paragraph (f)(2)(ii) of this section) by using the partnership's 2019 section 704 income, gain, loss, and deduction as though such amounts were recognized by the partnership in 2020. See *Example 34* in paragraph (o)(34) of this section.

(e) *Adjusted taxable income and business interest income of partners—(1) Modification of adjusted taxable income for partners.* The ATI of a partner in a partnership generally is determined in accordance with § 1.163(j)-1(b)(1), without regard to such partner's distributive share of any items of income, gain,

deduction, or loss of such partnership, except as provided for in paragraph (m) of this section, and is increased by such partner's distributive share of such partnership's excess taxable income determined under paragraph (f) of this section. For rules regarding corporate partners, see § 1.163(j)-4(b)(3).

(2) *Partner basis items and remedial items.* Partner basis items and remedial items are taken into account as items derived directly by the partner in determining the partner's ATI for purposes of the partner's section 163(j) limitation. If a partner is allocated remedial items, such partner's ATI is increased or decreased by the amount of such items. Additionally, to the extent a partner is allocated partner basis items, such partner's ATI is increased or decreased by the amount of such items. See *Example 6* in paragraph (o)(6) of this section.

(3) *Disposition of partnership interests.* If a partner recognizes gain or loss upon the disposition of interests in a partnership, and the partnership in which the interest is being disposed owns only non-excepted trade or business assets, the gain or loss on the disposition of the partnership interest is included in the partner's ATI. See § 1.163(j)-10(b)(4)(ii) for dispositions of interests in partnerships that own—

- (i) Non-excepted assets and excepted assets; or
- (ii) Investment assets; or
- (iii) Both.

(4) *Double counting of business interest income and floor plan financing interest expense prohibited.* For purposes of calculating a partner's section 163(j) limitation, the partner does not include—

- (i) Business interest income from a partnership that is subject to section 163(j), except to the extent the partner is allocated excess business interest income from that partnership pursuant to paragraph (f)(2) of this section; and
- (ii) The partner's allocable share of the partnership's floor plan financing interest expense, because such floor plan financing interest expense already has been taken into account by the partnership in determining its non-separately stated taxable income or loss for purposes of section 163(j).

(5) *Partner basis items, remedial items, and publicly traded partnerships.* Solely

for purposes of § 1.163(j)-6, a publicly traded partnership, as defined in § 1.7704-1, shall either allocate gain that would otherwise be allocated under section 704(c) based on a partner's section 704(b) sharing ratios, or, for purposes of allocating cost recovery deductions under section 704(c), determine a partner's remedial items, as defined in § 1.163(j)-6(b)(3), based on an allocation of the partnership's asset basis (inside basis) items among its partners in proportion to their share of corresponding section 704(b) items (rather than applying the traditional method, described in § 1.704-3(b)). See *Example 24* in paragraph (o)(24) of this section.
