(a) *Original purpose*. During the period of the guarantee, owners are prohibited from using the housing or related facilities for any purpose other than an approved program purpose.

(b) *Use restriction*. For the original term of the guaranteed loan, the housing must remain available for occupancy by low and moderate income households, in accordance with subpart E of this part. This requirement will be included in a deed restriction or other instrument acceptable to the Agency. The restriction will apply unless the housing is acquired by foreclosure or

an instrument in lieu of foreclosure, or the Agency waives the applicability of this requirement after determining that each of the following three circumstances exist.

(1) There is no longer a need for low- and moderate-income housing in the market area in which the housing is located;

(2) Housing opportunities for low-income households and minorities will not be reduced as a result of the waiver; and

(3) Additional federal assistance will not be necessary as a result of the waiver.

§ 3565.353 Affirmative fair housing marketing.

As a condition of the guarantee, the lender must ensure that the lender and borrower are in compliance with the approved Affirmative Fair Housing Marketing Plan. This plan must be reviewed annually by the lender to ensure that the borrower remains in compliance and to recommend modifications, as necessary.

§ 3565.354 Fair housing accommodations.

The lender must ensure that the borrower is in compliance with the applicable fair housing laws in the development of the property, the selection of applicants for housing, and ongoing management. See subpart A of this part.

§ 3565.355 Changes in ownership.

Any change in ownership, in whole or in part, must be approved by the lender and the Agency before such change takes effect.

§§ 3565.356–3565.399 [Reserved]

§ 3565.400 OMB control number.

According to the Paperwork Reduction Act of 1995, no party is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0575–0174.

Subpart I—Servicing Requirements

§ 3565.401 Servicing objectives.

The participating lender is responsible for servicing the guaranteed loan throughout the term of the loan or guarantee, whichever is less. In all cases, the lender remains responsible for liquidation of the property in accordance with the Loan Note Agreement, unless otherwise determined by the Agency. A lender-servicing plan must be designed and implemented to achieve the following objectives.

(a) To preserve the value of the loan and the real estate;

(b) To avoid a loss to the lender or the Agency and to limit exposure to potential loss;

(c) To protect the interests of the tenants; and

(d) To further program objectives.

§ 3565.402 Servicing responsibilities.

The lender must service the loan in accordance with this subpart and perform the services contained in this section in a reasonable and prudent manner. The lender is responsible for the actions of its agents and representatives.

(a) *Funds management.* The lender must have a funds management system to receive and process borrower payments, including the following.

(1) All principal and interest (P&I) funds and guarantee fees collected and deposited into the appropriate custodial accounts.

(2) Payments to custodial escrow accounts for taxes and insurance premiums, assessments that might impair the security (such as ground rent), and reserve accounts for repair and capital improvement of the property.

(b) *Asset management.* The lender must ensure that the property securing the guaranteed loan remains in good physical and financial condition, in accordance with project management requirements contained in subpart H of this part.

(c) *Management of delinquencies and defaults.* Each month the lender must report to the Agency any delinquencies and defaults in accordance with subpart H of this part.

§ 3565.403 Special servicing.

Special servicing must be initiated when regular servicing actions are insufficient to resolve borrower default or property deficiencies.

(a) *Repurchase from Holder.* For securitized loans, the Holder may require the lender or Government to repurchase the security in accordance with the provisions of § 3565.405.

(b) *Responsibility of lender.* It is the lender's responsibility during special servicing to make a special effort to ensure that maintenance of the property meets Agency requirements and the tenants' rights are protected, until such time that the property is liquidated by the lender, the loan is paid in full, or the loan is assigned to the Agency. The lender must update the Agency monthly until the default is cured or a claim is filed. The lender must maintain adequate records of any and all efforts to cure the default or to foreclose.

(c) *Initiating special servicing.* When special servicing is initiated, the lender must submit for Agency review a special servicing plan that includes proposed actions to cure the deficiencies and a timeframe for completion. The special servicing plan will specify the proposed terms of any workout agreement recommended by the lender. The lender must obtain Agency approval of the terms of any workout agreement with the borrower. The workout agreement may include a loan modification, transfer of physical assets, or partial payment of claim and reamortization of the loan. Failure to comply with terms contained in the executed workout agreement will be considered a default of the guaranteed loan.

(1) *Loan modification.* The borrower and lender may agree to a loan modification when such action will improve the financial viability of the project and its operations, and when a circumstance exists that is beyond the borrower's control. The Agency must approve in advance any loan modification that extends the life of the loan or requires an increase in the amount of the guarantee. All changes must be within the requirements of section 538 of the Housing Act of 1949.

(2) *Change in ownership and transfer of physical assets.* A default or delinquency may be resolved by a change of the ownership entity in whole or in part. The Agency must approve all changes in ownership prior to the effective date of the transfer, and may require additional resources from the lender or borrower to resolve project deficiencies.

(3) *Partial payment of claims.* The lender may request a partial payment of claim as a result of a loss experienced by the lender as a means to work out a troubled loan. The Agency will accept such claim if it determines that it is in the best interest of the government. In applying the partial payment, the lender must assign the obligation covered by the partial payment to the Agency, and, if required by the Agency, reamortize the obligation using the amount of the remaining obligation over an agreed-upon term.

(d) *Claims processing.* In the event of a loss, the lender must submit claims under the guarantee in accordance with subpart J of this part. Prior to submitting a claim, the lender must exhaust all possibilities of collection on the loan.

(e) *Displacement prevention.* The actions of the lender must not harm the property's tenants through displacement.

[63 FR 39458, July 22, 1998, as amended at 67 FR 16971, Apr. 9, 2002; 70 FR 2931, Jan. 19, 2005]

§ 3565.404 Transfer of loans or mortgage servicing.

Transfer of servicing is prohibited unless the Agency determines that circumstances warrant such action, the proposed lender is an eligible lender approved by the Agency, and the transfer of servicing is approved by the Agency in advance.

§ 3565.405 Repurchase of guaranteed loans.

(a) *Repurchase by lender.* The Holder may make written demand on the lender to repurchase the unpaid guaranteed portion of the loan when the borrower is in default not less than 60 calendar days on principal or interest due on the loan; or the lender has failed to remit to the Holder its pro rata share of any

payment made by the borrower within 30 calendar days of receipt by the lender. The Holder must concurrently send a copy of the demand letter to the Agency. The lender will notify the Holder and the Agency of its decision to repurchase within 10 business days from the date of the written demand letter by the Holder. The lender may agree to repurchase the unpaid portion of the entire loan from the Holder, even though the guarantee does not cover any unguaranteed portion of the loan held by the Holder. If the lender decides to repurchase, the lender has 30 calendar days from the date of the Holder's written demand letter to do so. The guarantee does not cover any unguaranteed portion of the loan or the note interest to the Holder on the guaranteed loan accruing after 90 calendar days from the date of the Holder's demand letter to the lender requesting the repurchase. The lender may deduct the lender's servicing fee from the repurchase amount. The lender will accept an assignment without recourse from the Holder upon repurchase. The lender is encouraged to repurchase the loan to facilitate the accounting of funds, resolve problems, and to prevent default where and when reasonable.

(b) *Repurchase by Agency.* (1) If the lender does not repurchase the loan as provided in paragraph (a) of this section, the Agency will purchase from the Holder the unpaid principal balance of the guaranteed portion together with accrued interest to date of repurchase, less the lender's servicing fee, within 30 calendar days after written demand to the Agency from the Holder. The guarantee will not cover the note interest to the Holder on the guaranteed loan accruing after 90 calendar days from the date of the original demand letter of the Holder to the lender requesting the repurchase. Holders of Loan Note Guarantees that have been issued prior to the effective date of this final rule may opt to adhere to the terms and conditions of the Loan Note Guarantee then in effect. In case of loan default, the Holder of a Loan Note Guarantee issued prior to the effective date of this final rule will stipulate, in a written demand for repurchase, its preference for repurchase in accordance with the Loan Note Guarantee issued prior to the effective date of this final rule. If the demand for repurchase does not stipulate a preference for repurchase in accordance with the Loan Note Guarantee issued prior to the effective date of this final rule, the Agency will process the demand for repurchase as stated in this final rule. The Holder must stipulate a preference for repurchase in accordance with the Loan Note Guarantee issued prior to the effective date of this final rule in the first demand for repurchase. The Holder of the Loan Note Guarantee issued prior to the effective date of this final rule cannot make a subsequent demand for repurchase changing the preference stipulated in the original demand for repurchase.

(2) The Holder's demand to the Agency must include a copy of the written demand made to the lender. The Holder must also include evidence of its right to require payment from the Agency. Such evidence will consist of either the original of the Loan Note Guarantee properly endorsed to the Agency or the original of an Agency approved assignment guarantee agreement, properly assigned to the Agency without recourse including all rights, title, and interest in the loan. The Holder must include in its demand the amount due including unpaid principal, unpaid interest to date of demand, and interest subsequently accruing from date of demand to proposed payment date. The Agency will be subrogated to all rights of the Holder.

(3) The Agency will notify the lender of its receipt of the Holder's demand for payment. The lender must provide the Agency with the information necessary for the Agency to determine the appropriate amount due the Holder within 10 business days from the date of the written demand letter to the lender from the Holder requesting repurchase of the guaranteed portion. The lender will furnish a current statement certified by an appropriate authorized officer of the lender stating the unpaid principal and interest then owed by the borrower on the loan and the amount then owed to any Holder. Any discrepancy between the amount claimed by the Holder and the information submitted by the lender must be

resolved between the lender and the Holder before payment will be approved. The Agency will coordinate the resolution of the discrepancy. Such conflict will suspend the running of the 30 calendar day payment requirement.

(4) Purchase by the Agency does not change, alter, or modify any of the lender's obligations to the Agency arising from the loan or guarantee nor does it waive any of the Agency's rights against the lender. As Holder, the Agency will have the right to set-off any payments the Agency owes the lender.

[70 FR 2931, Jan. 19, 2005]

§§ 3565.406–3565.449 [Reserved]

§ 3565.450 OMB control number.

According to the Paperwork Reduction Act of 1995, no party is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0575–0174.

Subpart J—Assignment, Conveyance, and Claims

§ 3565.451 Preclaim requirements.

(a) *Lender certifications.* After borrower default and before filing a claim or assignment of the loan to the Agency, the lender must make every reasonable and prudent effort to resolve the default. The lender must provide the Agency with an accounting of all proposed and actual actions taken to cure the default. The lender must certify that all reasonable efforts to cure the default have been exhausted. Where the lender fails to comply with the terms of the loan guarantee agreement and the corresponding regulations and guidance with regard to liquidating the property, the Agency, at its option, may take possession of the security collateral and dispose of the property.

(b) *Due diligence by lender.* For all loan servicing actions where a market, net recovery or liquidation value determination is required, guaranteed lenders shall perform due diligence in conjunction with the appraisal and submit it to the Agency for review. The Phase I Environmental Site Assessment published by the American Society of Testing and Materials is considered an acceptable format for due diligence.

(c) *Environmental review.* The Agency is required to complete an environmental review under the National Environmental Policy Act, in accordance with 7 CFR part 1970. Servicing actions as defined in § 1970.6 are part of financial assistance already provided and do not require additional NEPA review. However, certain post-financial assistance actions that have the potential to have an effect on the environment, such as lien subordinations, sale or lease of Agency-owned real property, or approval of a substantial change in the scope of a project, as defined in § 1970.8, are subject to a NEPA analysis in accordance with 7 CFR part 1970.

[63 FR 39458, July 22, 1998, as amended at 81 FR 11050, Mar. 2, 2016]

§ 3565.452 Decision to liquidate.

(a) A decision to liquidate shall be made when it is determined that the default cannot be cured through actions contained in § 3565.403 or it has been determined that it is in the best interest of the Agency and the lender to liquidate. For interest accrual purposes, interest will accrue for 90 calendar days after the date the liquidation plan is approved by the Agency. If within 20 calendar days of the Agency's receipt of the liquidation plan, the Agency fails to respond to the lender's proposal or advise the lender to make revisions to the plan that was submitted, the liquidation plan will be approved by default, and the 90 calendar day period for interest accrual will commence.

(b) In the event of a default involving a loan to an Indian tribe or tribal corporation made under this section which is secured by an interest in land within such tribe's reservation (as determined by the Secretary of the Interior), including a community in Alaska incorporated by the Secretary of the Interior pursuant to the Indian Reorganization Act (25 U.S.C. 461 *et seq.*), the lender shall only pursue liquidation after offering to transfer the account to an eligible tribal member, the tribe, or the Indian housing authority serving the tribe. If the lender subsequently proceeds to liquidate the account, the

lender shall not sell, transfer, or otherwise dispose of or alienate the property except to one of the entities described in the preceding sentence.

[67 FR 16971, Apr. 9, 2002, as amended at 70 FR 2932, Jan. 19, 2005]

§ 3565.453 Disposition of the property.

(a) Submission of the liquidation plan. The lender will, within 30 calendar days after a decision to liquidate, submit to the Agency in writing, its proposed detailed plan of liquidation. The Agency will inform the lender, in writing, whether the Agency concurs in the lender's liquidation plan. Should the Agency and the lender not agree on the liquidation plan, negotiations will take place between the Agency and the lender to resolve the disagreement. When the liquidation plan is approved by the Agency, the lender will proceed expeditiously with liquidation. The liquidation plan submitted to the Agency by the lender shall include:

(1) Satisfactory proof of the lender's ownership of the guaranteed loan promissory note and related security instruments.

(2) A copy of the payment ledger or equivalent which reflects the current loan balance and accrued interest to date and the method of computing the interest.

(3) A full and complete list of all collateral including any personal and corporate guarantees.

(4) The recommended liquidation methods for making the maximum collection possible on the indebtedness and the justification for such methods, including recommended actions for:

(i) Obtaining an appraisal of the collateral;

(ii) Acquiring and disposing of all collateral;

(iii) Collecting from guarantors;

(iv) Setting the proposed date of foreclosure; and

(v) Setting the proposed date of liquidation.

(5) Necessary steps for protection of the tenants and preservation of the collateral.

(6) Copies of the borrower's latest available financial statements.

(7) Copies of the guarantor's latest available financial statements.

(8) An itemized list of estimated liquidation expenses expected to be incurred along with justification for each expense.

(9) A schedule to periodically report to the Agency on the progress of liquidation.

(10) Estimated protective advance amounts with justification.

(11) Proposed protective bid amounts on collateral to be sold at auction and a breakdown to show how the amounts were determined.

(12) If a voluntary conveyance is considered, the proposed amount to be credited to the guaranteed debt.

(13) Any legal opinions supporting the decision to liquidate.

(14) The lender will obtain a complete appraisal report on all collateral securing the loan, which will reflect the fair market value and potential liquidation value, and an examination of the title on the collateral. In order to formulate a liquidation plan, which maximizes recovery, collateral must be evaluated for hazardous substances, petroleum products, or other environmental hazards, which may adversely impact the market value of the collateral.

(b) A transfer and assumption of the borrower's operation can be accomplished before or after the loan goes into liquidation. However, if the collateral has been purchased through foreclosure or the borrower has conveyed title to the lender, no transfer and assumption is permitted.

(c) A protective bid may be made by the lender, with prior Agency written approval, at a foreclosure sale to protect the lender's and the Agency's interest. The protective bid will not exceed the amount of the loan, including expenses of foreclosure, and should be based on the liquidation value considering estimated expenses for holding and reselling the property. These expenses include, but are not limited to, expenses for resale, interest accrual, length of weatherization, and prior liens.

(d) Filing an estimated loss claim. When the lender is conducting the liquidation and owns any or all of the guaranteed portion of the loan, the lender will file an estimated loss claim with the liquidation plan if the lender

expects liquidation to exceed 90 calendar days. The estimated loss payment will be based on the outstanding loan amount minus the liquidation value of the collateral. For the purpose of reporting and loss claim computation, the loss claim will be promptly processed in accordance with applicable Agency regulations, as set forth in this section. The loss claim calculation will include 90 calendar days of interest accrual on the defaulted loan at the time the estimated loss claim is paid by the Agency. If the lender estimates that there will be no loss after considering the costs of liquidation, the lender submits an estimated loss claim of zero. Interest accrual will cease 90 calendar days after the date the liquidation plan is approved by the Agency.

(e) Property disposition. Once the liquidation plan has Agency approval, the lender must make every effort to liquidate the property in a manner that will yield the highest market value consistent with the protections afforded to tenants in 7 CFR part 1944, subpart L or successor regulation.

(f) Accounting and reports. When the lender conducts liquidation, the lender will account for funds during the period of liquidation and provide the Agency with reports at least quarterly on the progress of liquidation, including disposition of collateral, resulting costs, and additional procedures necessary for successful completion of the liquidation.

(g) Transmitting payments and proceeds to the Agency. When the Agency is the Holder of a portion of the guaranteed loan, the lender will transmit to the Agency its pro rata share of any payments received from the borrower, liquidation, or elsewhere.

[70 FR 2932, Jan. 19, 2005]

§ 3565.454 [Reserved]

§ 3565.455 Alternative disposition methods.

The Agency, in its sole discretion, may choose to obtain an assignment of the loan from the lender or conveyance of title obtained by the lender through foreclosure or a deed-in-lieu of foreclosure.

(a) *Assignment.* In the case of an assignment of the loan, the assignment of the security instruments or the security must be in written and recordable form. Completion of the assignment will occur once the following transactions are completed to the Agency's satisfaction.

(1) Conveyance to the Agency of all the lender's rights and interests arising under the loan.

(2) Assignment to the Agency of all claims against the borrower or others arising out of the loan transactions, including:

(i) All collateral agreements affecting financing, construction, use or operation of the property; and

(ii) All insurance or surety bonds, or other guarantees, and all claims under them.

(3) Certification that the collateral has been evaluated for the presence of contamination from the release of hazardous substances, petroleum products or other environmental hazards which may adversely impact the market value of the property and the results of that evaluation.

(b) *Conveyance of title.* In the case of a conveyance of title to the property, the lender must inform the Agency in advance of how it plans to acquire title and a timetable for doing so. The Agency will accept the conveyance upon receipt of an assignment to the Agency of all claims of the lender against the property and assignment of the lender's rights to any operating funds and any reserves or escrows established for the maintenance of the property or the payment of property taxes and insurance.

§ 3565.456 Filing a claim.

Once the lender has disposed of the property or the Agency has agreed to accept an assignment of the loan or conveyance of title to the property, the lender may file a claim for the guaranteed portion of allowable losses. All claim amounts must be calculated in accordance with this subpart and be approved by the Agency.

§ 3565.457 Determination of claim amount.

In all liquidation cases, final settlement will be made with the lender after the collateral is liquidated, unless otherwise designated as a future

recovery or after settlement and compromise of all parties has been completed.

(a) *Report of loss form.* An Agency approved form will be used for calculations of all estimated and final loss determinations. Estimated loss payments will only be paid by the Agency after it has approved a liquidation plan.

(b) *Estimated loss.* An estimated loss claim based on liquidation appraisal value will be prepared and submitted by the lender.

(1) The estimated loss payment shall be applied as of the date of such payment. The total amount of the loss payment paid by the Agency will be applied by the lender on the loan debt. Such application does not release the borrower from liability.

(2) The Government's written authorization is required for all protective advances in excess of $5,000. Protective advances include, but are not limited to, advances made for property taxes, annual assessments, ground rent, hazard or flood insurance premiums affecting the collateral, and other expenses necessary to preserve or protect the security. Attorney fees are not a protective advance. A protective advance claim will be paid only at the time of the final report of loss payment except in certain transfer and assumption situations with Agency approval.

(c) *Final loss.* Within 30 calendar days after liquidation of all collateral, except for certain unsecured personal or corporate guarantees (as provided for in this section) is completed, a final report of loss on a form approved by the Agency must be prepared and submitted by the lender to the Agency. Before approval by the Agency of any final loss report, the lender must account for all funds during the period of liquidation, disposition of the collateral, all costs incurred, and any other information necessary for the successful completion of liquidation. Upon receipt of the final accounting and report of loss, the Agency may audit all applicable documentation to determine the final loss. The lender will make its records available and otherwise assist the Agency in making any investigation. The documentation accompanying the report of loss must support the amounts shown on the report of loss form.

(1) A determination must be made regarding the collectability of unsecured personal and corporate guarantees. If reasonably possible, such guarantees should be promptly collected prior to completion of the final loss report. However, in the event that collection from the guarantors appears unlikely or will require a prolonged period of time, the report of loss will be filed when all other collateral has been liquidated, and unsecured personal or corporate guarantees will be treated as a future recovery with the net proceeds to be shared on a pro rata basis by the lender and the Agency.

(2) The lender must document that all of the collateral has been accounted for and properly liquidated and that liquidation proceeds have been properly accounted for and applied correctly to the loan.

(3) The lender will show a breakdown of any protective advance amount as to the payee, purpose of the expenditure, date paid, and evidence that the amount expended was proper and that payment was actually made.

(4) The lender will show a breakdown of liquidation expenses as to the payee, purpose of the expenditure, date paid, and evidence that the amount expended was proper and that payment was actually made. Liquidation expenses are recoverable only from collateral proceeds.

(5) Accrued interest will be supported by documentation as to how the amount was accrued.

(6) Loss payments will be paid by the Agency within 60 calendar days after the receipt of the final loss report and accounting of the collateral.

(7) Should there be a circumstance where the lender cannot or will not sign a final report of loss, the State Director may complete the final report of loss and submit it to the Finance Office without the lender's signature. Before this action can be taken, all collateral must be disposed of or accounted for; there must be no evidence of fraud, misrepresentation, or negligent servicing by the lender; and all efforts to obtain the cooperation of the lender must have been exhausted and documented.

(d) *Maximum guarantee payment.* The maximum guarantee payment will not exceed the amount of guarantee percentage as contained in the guarantee agreement (but in no event more than 90%) times the allowable loss amount.

(e) *Rent.* Any net rental or other income that has been received by the lender from the collateral will be applied on the guaranteed loan debt after paying operating expenses of the property.

(f) *Liquidation costs.* Liquidation costs will be deducted from the proceeds of the disposition of primary collateral. If changed circumstances after submission of the liquidation plan require a substantial revision of liquidation costs, the lender will procure the Agency's written concurrence prior to proceeding with the proposed changes.

(g) *Payment.* When the Agency finds the final report of loss to be proper in all respects, it will approve the form and proceed as follows:

(1) If the loss is greater than any estimated loss payment, the Agency will pay the additional amount owed by the Agency to the lender.

(2) If the loss is less than the estimated loss payment, the lender will reimburse the Agency for the overpayment.

(3) If the Agency determines that it is in the Government's best interest to take assignment of the loan and conduct liquidation, as stipulated in 42 U.S.C. 1490(i)(3), Assignment by Secretary, the Agency will pay the lender in accordance with the Loan Note Guarantee.

(h) *Date of loss.* The date of loss is the date on which the collateral will be liquidated in the liquidation plan, unless an alternative date is approved by the Agency. Where the Agency chooses to accept an assignment of the loan or conveyance of title, the date of loss will be the date on which the Agency accepts assignment of the loan or conveyance of title.

(i) *Allowable claim amount.* The allowable claim amount must be calculated by:

(1) Adding to the unpaid principal and interest on the date of loss, an amount approved by the Agency for payments made by the lender for amounts due and owning on the property, including:

(i) Property taxes and other protective advances as approved by the Agency;

(ii) Water and sewer charges and other special assessments that are liens prior to the guaranteed loan;

(iii) Insurance of the property; and

(iv) Reasonable liquidation expenses.

(2) And by deducting the following items:

(i) Any amount received by the lender on the account of the guaranteed loan after the date of default;

(ii) Any net income received by the lender from the secured property after the date of default; and

(iii) Any cash items retained by the lender, except any amount representing a balance of the guaranteed loan not advanced to the borrower. Any loan amount not advanced will be applied by the lender to reduce the outstanding principal on the loan.

(j) *Lender certification.* The lender must certify that all possibilities of collection have been exhausted and that all of the items specified in paragraph (c) of this section have been identified and reported to the Agency as a condition for payment of claim.

[70 FR 2933, Jan. 19, 2005, as amended at 76 FR 5, Jan. 3, 2011]

§ 3565.458 Withdrawal of claim.

If the lender provides timely written notice to the Agency of withdrawal of the claim, the guarantee will continue as if the default had not occurred if the borrower cures the default prior to foreclosure or prior to acceptance of a deed-in-lieu of foreclosure.

§§ 3565.459–3565.499 [Reserved]

§ 3565.500 OMB control number.

According to the Paperwork Reduction Act of 1995, no party is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0575–0174.

Subpart K—Agency Guaranteed Loans That Back Ginnie Mae Guaranteed Securities

SOURCE: 70 FR 2934, Jan. 19, 2005, unless otherwise noted.

§ 3565.501 Applicability.

The provisions of this subpart apply when Agency guaranteed loans are used to back Ginnie Mae securities. In instances where this subpart applies, the provisions of this subpart prevail over any other provisions of this part.

§ 3565.502 Incontestability.

In the case of loans that back Ginnie Mae securities or loans that are acquired by Ginnie Mae as a consequence of its guaranty, the Agency guarantee under this part is incontestable except that the guarantee may not be enforced by a lender who commits fraud or misrepresentation or by a lender who had knowledge of the fraud or misrepresentation at the time such a lender acquired the guarantee or was assigned the loan.

§ 3565.503 Repurchase.

Lenders and security Holders must comply with Ginnie Mae requirements regarding the repurchase of loans from pools backing Ginnie Mae guaranteed securities.

§ 3565.504 Transfers.

(a) Loans and/or mortgage servicing on loans backing Ginnie Mae guaranteed securities may only be transferred to a Ginnie Mae issuer and may only be transferred with prior Ginnie Mae approval.

(b) Agency approval shall not be required for transfer of the servicing on the guaranteed mortgages to Ginnie Mae.

§ 3565.505 Liability.

(a) Ginnie Mae shall not be liable for the actions of the lender including, but not limited to, negligence, fraud, abuse, misrepresentation or misuse of funds, property condition, or violations of usury laws.

(b) Ginnie Mae's rights under the guarantee shall be fully enforceable notwithstanding the actions of the lender.

§§ 3565.506–3565.549 [Reserved]

§ 3565.550 OMB control number.

According to the Paperwork Reduction Act of 1995, no party is required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0575–0174.

AUTHORITY: 5 U.S.C. 301; 7 U.S.C. 1989.

SOURCE: 62 FR 16469, Apr. 7, 1997, unless otherwise noted.

Subpart A [Reserved]

Subpart B—Community Facilities Grant Program

SOURCE: 64 FR 32388, June 17, 1999, unless otherwise noted.

§ 3570.51 General.

(a) This subpart contains Rural Housing Service (RHS) policies and authorizations and establishes procedures for making essential Community Facilities Grants (CFG) authorized under section 306(a)(19) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926(a)(19)).

(b) Funds allocated for use in accordance with this subpart are also to be considered for use by federally recognized Indian tribes within a State regardless of whether State development strategies include Indian reservations within the State's boundaries. Indian tribes must have equal opportunity along with other rural residents to participate in the benefits of this program.

(c) Federal statutes provide for extending RHS financial assistance without regard to race, color, religion, sex, national origin, age, disability, and marital or familial status. To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, Washington DC 20250, or call 1–800–245–6340 (voice) or (202) 730–1127 (TDD). Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720–2600 (voice and TDD).

(d) Any processing or servicing activity conducted pursuant to this subpart involving authorized assistance to Agency employees, members of their families, close relatives, or business or close personal associates is subject to the provisions of 7 CFR part 1900, subpart D. Applications for assistance are required to identify any relationship or association with an RHS employee.

(e) Copies of all forms referenced in this subpart are available in the Agency's National Office or any Rural Development field office.

(f) An outstanding judgment obtained against an applicant by the United States in a Federal Court (other than in the United States Tax Court), shall cause the applicant to be ineligible to receive any grant or loan until the judgment is paid in full or otherwise satisfied. Grant funds may not be used to satisfy the judgment.

(g) Grants made under this subpart will be administered under, and are subject to, 2 CFR part 200 as adopted by USDA through 2 CFR part 400, as appropriate.

(h) The income data used to determine median household income must be that which accurately reflects the income of the population to be served by the proposed facility. The median household income of the service area and the nonmetropolitan median household income for the State will be determined using 5-year income data from the American Community Survey

(ACS) or, if needed, other Census Bureau data. If there is reason to believe that the ACS or other Census Bureau data does not accurately represent the median household income within the area to be served, this will be documented and the applicant may furnish, or RD may obtain, additional information regarding such median household income data. Information must consist of reliable data from local, regional, State, or Federal sources or from a survey conducted by a reliable impartial source.

(i) CFG funds can be used for up to 75 percent of the cost to develop the facility, notwithstanding that other contributions may be from other Federal sources.

(j) The Office of Management and Budget (OMB) issued guidance on Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR part 200. In 2 CFR part 400.1, the Department adopted OMB's guidance in subparts A through F of 2 CFR part 200, as supplemented by 2 CFR part 400, as the Department's policies and procedures for uniform administrative requirements, cost principles, and audit requirements for federal awards. As a result, this regulation contains references to 2 CFR part 200 as it has regulatory effect for the Department's programs and activities.

[64 FR 32388, June 17, 1999, as amended at 79 FR 76012, Dec. 19, 2014; 80 FR 9912, Feb. 24, 2015; 89 FR 96860, Dec. 6, 2024]

§ 3570.52 Purpose.

The purpose of CFG program is to assist in the development of essential community facilities in rural areas. The Agency will authorize grant funds on a graduated basis. Eligible applicants located in smaller communities with lower populations and lower median household incomes may receive a higher percentage of grant funds. The amount of CFG funds provided for a facility shall not exceed 75 percent of the cost of developing the facility.

§ 3570.53 Definitions.

Agency. The Rural Housing Service (RHS), an agency of the U.S. Department of Agriculture, or a successor agency.

Approval official. An official who has been delegated loan or grant approval authorities within applicable programs, subject to certain dollar limitations.

CF. Community Facilities.

CFG. Community Facilities Grant.

Essential community facilities. Those public improvements requisite to the beneficial and orderly development of a community that is operated on a nonprofit basis. (See § 3570.62(a)(1)). An essential community facility must:

(1) Serve a function customarily provided by a local unit of government;

(2) Be a public improvement needed for the orderly development of a rural community;

(3) Not include private affairs or commercial or business undertakings (except for limited authority for industrial parks) unless it is a minor part of the total facility;

(4) Be within the area of jurisdiction or operation for the public bodies eligible to receive assistance or a similar local rural service area of a not-for-profit corporation; and

(5) Be located in a rural area.

Facility. The physical structure financed by the Agency or the resulting service provided to rural residents.

Grantee. An entity with whom the Agency has entered into a grant agreement under this program.

Instructions. Agency internal procedures available in any Rural Development office and variously referred to as Rural Development Instructions, RD Instructions.

Minor part. No more than 15 percent of the total floor space of the proposed facility.

Nonprofit corporations. Any corporation that is not organized or maintained for the making of a profit and that meets the eligibility requirements for RHS financial assistance in accordance with § 3570.61(a)(2).

Processing office. The office designated by the State program official to accept and process applications for CF projects.

Project cost. The cost of completing the proposed facility. (Facilities previously constructed will not be considered in determining project costs.) Total project cost will include only those costs eligible for CFG assistance.

Poverty line. The level of income for a family of four as defined by section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)).

Public body. Any State, county, city, township, incorporated town or village, borough, authority, district, economic development authority, or federally recognized Indian tribe in rural areas.

Reasonable rates and terms. The rates and terms customarily charged public and nonprofit type borrowers in similar circumstances in the ordinary course of business and subject to Agency review.

RHS. The Rural Housing Service, an agency of the United States Department of Agriculture, or a successor agency.

Rural and rural area. The terms ''rural'' and ''rural area'' mean a city, town, or unincorporated area that has a population of 20,000 inhabitants or less and which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I). The population figures are obtained from the most recent decennial Census of the United States (decennial Census).

Rural Development. A mission area within USDA which includes Rural Housing Service, Rural Utilities Service, and Rural Business-Cooperative Service.

RUS. The Rural Utilities Service, an agency of USDA or a successor agency.

Service area. The area reasonably expected to be served by the facility.

State. The term ''State'' means each of the 50 States, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Republic of Palau, and the Federated States of Micronesia.

State Director. The term ''State Director'' means, with respect to a State, the Director of the Rural Development State Office.

State nonmetropolitan median household income. The median household income of the State's nonmetropolitan counties and portions of metropolitan counties outside of cities, towns or places of 50,000 or more population.

State strategic plan. A plan developed by each State for Rural Development initiatives and the type of assistance required. Plans shall identify goals, methods, and benchmarks for measuring success.

[64 FR 32388, June 17, 1999, as amended at 69 FR 65519, Nov. 15, 2004; 80 FR 9912, Feb. 24, 2015; 87 FR 38644, June 29, 2022]

§§ 3570.54–3570.60 [Reserved]

§ 3570.61 Eligibility for grant assistance.

The essential community facility must primarily serve rural areas, be located in a rural area, and the median household income of the population to be served by the proposed facility must be below the higher of the poverty line or the eligible percentage (60, 70, 80, or 90) of the State nonmetropolitan median household income (see § 3570.63(b)).

(a) *Eligible applicant*. An applicant must be a:

(1) Public body, such as a municipality, county, district, authority, or other political subdivision of a State;

(2) Nonprofit corporation or association. Applicants, other than nonprofit utility applicants, must have significant ties with the local rural community. Such ties are necessary to ensure to the greatest extent possible that a facility under private control will carry out a public purpose and continue to primarily serve rural areas. Ties may be evidenced by items such as:

(i) Association with, or controlled by, a local public body or bodies, or broadly based ownership and control by members of the community; or

(ii) Substantial public funding through taxes, revenue bonds, or other local government sources or substantial voluntary community funding, such as would be obtained through a community-wide funding campaign.

(3) Federally recognized Indian tribe in a rural area.

(b) *Eligible facilities*. Essential community facilities must be:

(1) Located in rural areas, except for utility-type services, such as telecommunications or hydroelectric, serving both rural and non-rural areas. In such cases, RHS funds may be used to finance only that portion serving rural areas, regardless of facility location.

(2) Necessary for orderly community development and consistent with the State Strategic Plan.

(c) *Credit elsewhere.* The approval official must determine that the applicant is unable to finance the proposed project from its own resources, or through commercial credit at reasonable rates and terms, or other funding sources without grant assistance under this subpart. The applicant must certify to such status in writing.

(d) *Economic feasibility.* All projects financed under the provisions of this section must be based on satisfactory sources of revenues as outlined in 7 CFR 1942.17(h) and 1942.116. The amount of CFG assistance must be the minimum amount sufficient for feasibility which will provide for facility operation and maintenance, reasonable reserves, and debt repayment. The applicant's available excess funds must be used to supplement eligible project costs.

(e) *Legal authority and responsibility.* Each applicant must have, or will obtain, prior to the grant award, the legal authority necessary to own, construct, operate, and maintain the proposed facility. The applicant shall be responsible for operating, maintaining, and managing the facility and providing for its continued availability and use at reasonable rates and terms. This responsibility shall be the applicant's even though the facility may be operated, maintained, or managed by a third party under contract or management agreement. If an applicant does not have the authority to borrow funds, but owns, operates, and maintains the facility, the applicant is eligible for CFG funds.

(f) *Facilities for public use.* All facilities shall be for the benefit of the public at large without discrimination as to race, color, religion, sex, national origin, disability, and marital or familial status.

§ 3570.62 Use of grant funds.

Grants of up to 75 percent of the cost of developing essential community facilities may be used to supplement financial assistance authorized in accordance with 7 CFR parts 1942, subparts A and C, and 3575, subpart A. Eligible CFG purposes are those listed in paragraphs (a), (b), (c), and (d) of this section. Funding for the balance of the project may consist of other CF financial assistance, applicant contributions, or loans and grants from other sources. CFGs may be used to:

(a) Construct, enlarge, extend, or otherwise improve essential community facilities providing essential service primarily to rural residents and rural businesses. Rural businesses include facilities such as educational and other publicly owned facilities.

(1) ''Essential community facilities'' are those public improvements requisite to the beneficial and orderly development of a community operated on a nonprofit basis including, but not limited to:

(i) Fire, rescue, and public safety;

(ii) Health services;

(iii) Community, social, or cultural services;

(iv) Transportation facilities such as streets, roads, and bridges;

(v) Hydroelectric generating facilities and related connecting systems and appurtenances, when not eligible for RUS financing;

(vi) Telecommunications equipment as it relates to medical and educational telecommunications links;

(vii) Supplemental and supporting structures for other rural electrification or telephone systems (including facilities such as headquarters and office buildings, storage facilities, and maintenance shops) when not eligible for RUS financing;

(viii) Natural gas distribution systems; and

(ix) Industrial park sites, but only to the extent of land acquisition and necessary site preparation, including access ways and utility extensions to and throughout the site. Funds may not be used in connection with industrial parks to finance on-site utility systems, or business and industrial buildings.

(2) ''Otherwise improve'' includes, but is not limited to, the following:

(i) The purchase of major equipment (such as solid waste collection trucks, telecommunication equipment, necessary maintenance equipment, fire service equipment, X-ray machines) which will in themselves provide an essential service to rural residents; and

(ii) The purchase of existing facilities when it is necessary either to improve or to prevent a loss of service.

(iii) A borrower is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure related to the project financed, subject to the requirements of 7 CFR part 1980, subpart M.

(b) Construct or relocate public buildings, roads, bridges, fences, or utilities and to make other public improvements necessary to the successful operation or protection of facilities authorized in paragraph (a) of this section.

(c) Relocate private buildings, roads, bridges, fences, or utilities, and other private improvements necessary to the successful operation or protection of facilities authorized in paragraph (a) of this section.

(d) Pay the following expenses, but only when such expenses are a necessary part of a project to finance facilities authorized in paragraphs (a), (b), and (c) of this section:

(1) Reasonable fees and costs such as legal, engineering, architectural, fiscal advisory, recording, environmental impact analyses, archeological surveys and possible salvage or other mitigation measures, planning, establishing or acquiring rights.

(2) Costs of acquiring interest in land; rights, such as water rights, leases, permits, and rights-of-way; and other evidence of land or water control necessary for development of the facility.

(3) Purchasing or renting equipment necessary to install, maintain, extend, protect, operate, or utilize facilities.

(4) Obligations for construction incurred before grant approval. Construction work should not be started and obligations for such work or materials should not be incurred before the grant is approved. However, if there are compelling reasons for proceeding with construction before grant approval, applicants may request Agency approval to pay such obligations. Such requests may be approved if the Agency determines that:

(i) Compelling reasons exist for incurring obligations before grant approval;

(ii) The obligations will be incurred for authorized grant purposes;

(iii) Contract documents have been approved by the Agency;

(iv) All environmental requirements applicable to the Agency and the applicant have been met; and

(v) The applicant has the legal authority to incur the obligations at the time proposed, and payment of the debts will remove any basis for any mechanic's, material, or other liens that may attach to the security property.

The Agency may authorize payment of such obligations at the time of grant closing. The Agency's authorization to pay such obligations, however, is on the condition that it is not committed to make the grant; it assumes no responsibility for any obligations incurred by the applicant; and the applicant must subsequently meet all grant approval requirements. The applicant's request and the Agency's authorization for paying such obligations shall be in writing.

[64 FR 32388, June 17, 1999, as amended at 85 FR 57084, Sept. 15, 2020]

§ 3570.63 Grant limitations.

(a) Grant funds may not be used to:

(1) Pay initial operating expenses or annual recurring costs, including purchases or rentals that are generally considered to be operating and maintenance expenses (unless a CF loan is part of the funding package);

(2) Construct or repair electric generating plants, electric transmission lines, or gas distribution lines to provide services for commercial sale;

(3) Refinance existing indebtedness;

(4) Pay interest;

(5) Pay for facilities located in nonrural areas, except as noted in § 3570.61(b)(1).

(6) Pay any costs of a project when the median household income of the population to be served by the proposed facility is above the higher of the poverty line or eligible percent (60, 70, 80, or 90) of the State nonmetropolitan median household income (see § 3570.63(b));

(7) Pay project costs when other loan funding for the project is not at reasonable rates and terms;

(8) Pay an amount greater than 75 percent of the cost to develop the facility;

(9) Pay costs to construct facilities to be used for commercial rental unless it is a minor part of the total facility;

(10) Construct facilities primarily for the purpose of housing State, Federal, or quasi-Federal agencies; and

(11) Pay for any purposes restricted by 7 CFR 1942.17(d)(2).

(b) Grant assistance will be provided on a graduated scale with smaller communities with the lowest median household incomes being eligible for projects with a higher proportion of grant funds. Grant assistance is limited to the following percentages of eligible project costs:

(1) 75 percent when the proposed project is:

(i) Located in a rural community having a population of 5,000 or less; and

(ii) The median household income of the population to be served by the proposed facility is below the higher of the poverty line or 60 percent of the State nonmetropolitan median household income.

(2) 55 percent when the proposed project is:

(i) Located in a rural community having a population of 12,000 or less; and

(ii) The median household income of the population to be served by the proposed facility is below the higher of the poverty line or 70 percent of the State nonmetropolitan median household income.

(3) 35 percent when the proposed project is:

(i) Located in a rural community having a population of 20,000 or less; and

(ii) The median household income of the population to be served by the proposed facility is below the higher of the poverty line or 80 percent of the State nonmetropolitan median household income.

(4) 15 percent when the proposed project is:

(i) Located in a rural community having a population of 50,000 or less; and

(ii) The median household income of the population to be served by the proposed facility is below the higher of the poverty line or 90 percent of the State nonmetropolitan median household income.

(5) 60 percent when the proposed project is:

(i) Located in a rural community having a population of 20,000 or less; and

(ii) The median household income of the population to be served by the proposed facility is below the higher of the poverty line or 90 percent of the State non-metropolitan median household income. The 60 percent grants are only available to communities impacted by a disaster that has resulted in a loss of 60 percent of the community's population and is located in a rural community designated as a major disaster area by the President.

(6) Grant assistance cannot exceed the higher of the applicable percentages contained in this section which the applicant is eligible to receive and may be further limited due to availability of funds or by the maximum grant assistance allowable determined in accordance with § 3570.66.

[64 FR 32388, June 17, 1999, as amended at 73 FR 14173, Mar. 17, 2008]

§ 3570.64 Applications determined ineligible.

If, at any time, an application is determined ineligible, the processing office will notify the applicant in writing of the reasons. The applicant will be advised that it may appeal the decision. (See 7 CFR part 11.)

§ 3570.65 Processing preapplications and applications.

For combination proposals for loan and grant funds, only one preapplication package and one application package should be prepared and submitted. Preapplications and applications for grants will be developed in accordance with applicable portions of 7 CFR 1942.2, 1942.104, and 3575.52.

(a) *Preapplications.* Applicants will file an original and one copy of ''Application for Federal Assistance (For Construction),'' with the appropriate Agency office. This form is available in all Agency offices. The preapplication and supporting documentation are used to determine applicant eligibility and priority for funding.

(1) All preapplications shall be accompanied by:

(i) Evidence of applicant's legal existence and authority; and

(ii) Appropriate clearinghouse agency comments.

(b) *Application processing.* Upon notification on ''Notice of Preapplication Review Action'' that the applicant is eligible for CFG funding, the applicant will be provided forms and instructions for filing a complete application. The forms required for a complete application, including the following, will be submitted to the processing office by the applicant:

(1) Updated ''Application for Federal Assistance (For Construction).''

(2) Financial feasibility report.

(c) *Discontinuing the processing of the application.* If the applicant fails to submit the application and related material by the date shown on ''Notice of Preapplication Review Action'' (normally 60 days from the date of this form), the Agency will discontinue consideration of the application.

§ 3570.66 Determining the maximum grant assistance.

(a) *Responsibility.* State Directors are responsible for determining the applicant's eligibility for grant assistance.

(b) *Maximum grant assistance.* Grant assistance cannot exceed the lower of:

(1) Qualifying percentage of eligible project cost determined in accordance with § 3570.63(b);

(2) Minimum amount sufficient to provide for economic feasibility as determined in accordance with § 3570.61(d); or

(3) Either 50 percent of the annual State allocation or $50,000, whichever is greater, unless an exception is made by the RHS Administrator in accordance with § 3570.90.

§ 3570.67 Project selection priorities.

Applications are scored on a priority basis. Points will be distributed as follows:

(a) *Population priorities.* The proposed project is located in a rural community having a population of:

(1) 5,000 or less—30 points;

(2) Between 5,001 and 12,000, inclusive—20 points;

(3) Between 12,001 and 20,000, inclusive—10 points; or

(4) Between 20,001 and 50,000, inclusive, when applicable—5 points.

(b) *Income priorities.* The median household income of the population to be served by the proposed project is below the higher of the poverty line or:

(1) 60 percent of the State nonmetropolitan median household income—30 points;

(2) 70 percent of the State nonmetropolitan median household income—20 points;

(3) 80 percent of the State nonmetropolitan median household income—10 points; or

(4) 90 percent of the State nonmetropolitan median household income—5 points.

(c) *Other priorities.* Points will be assigned for one or more of the following initiatives:

(1) Project is consistent with, and is reflected in, the State Strategic Plan—10 points;

(2) Project is for health care—10 points; or

(3) Project is for public safety—10 points.

(d) *Discretionary.* (1) The State Director may assign up to 15 points to a project in addition to those that may be scored under paragraphs (a) through (c) of this section. These points are to address unforeseen exigencies or emergencies, such as the loss of a community facility due to an accident or natural disaster or the loss of joint financing if Agency funds are not committed in a timely fashion. In addition, the points will be awarded to projects benefiting from the leveraging of funds in order to improve compatibility and coordination between the Agency and other agencies' selection systems and for those projects that are the most cost effective.

(2) In selecting projects for funding at the National Office level, additional points will be awarded based on the priority assigned to the project by the State Office. These points will be awarded in the manner shown below. Only the three highest priority projects for a State will be awarded points. The Administrator may assign up to 30 additional points to account for geographic distribution of funds,

emergency conditions caused by economic problems, natural disasters, or leveraging of funds.

Priority	Points
1	5
2	3
3	1

§ 3570.68 Selection process.

Each request for grant assistance will be carefully scored and prioritized to determine which projects should be selected for further development and funding.

(a) *Selection of applications for further processing.* The approval official will, subject to paragraph (b) of this section, authorize grants for those eligible preapplications with the highest priority score. When selecting projects, the following circumstances must be considered:

(1) Scoring of project and scores of other applications on hand;

(2) Funds available in the State allocation; and

(3) If other Community Facilities financial assistance is needed for the project, the availability of other funding sources.

(b) *Lower scoring projects.* (1) In cases when preliminary cost estimates indicate that an eligible, high-scoring application is not feasible, or would require grant assistance exceeding 50 percent of a State's current annual allocation, or an amount greater than that remaining in the State's allocation, the approval official may instead select the next lower-scoring application for further processing provided the high-scoring applicant is notified of this action and given an opportunity to review the proposal and resubmit it prior to selection of the next application.

(2) If it is found that there is no effective way to reduce costs, the approval official, after consultation with the applicant, may request an additional allocation of funds from the National office.

§ 3570.69 Environmental review requirements, intergovernmental review, and public notification.

Grants awarded under this subpart, including grant-only awards, must be in compliance with the environmental review requirements in accordance with 7 CFR part 1970, to the intergovernmental review requirements of 7 CFR 3015, subpart V and RD Instruction 1970–I, ''Intergovernmental Review,'' and the public information process in 7 CFR 1942.17(j)(9).

[81 FR 11050, Mar. 2, 2016]

§ 3570.70 Other considerations.

Each application must contain the comments, necessary certifications, and recommendations of appropriate Federal or State regulatory or other agency or institution having expertise in the planning, operation, and management of similar facilities as required by 7 CFR parts 1942, subparts A and C, and 3575, subpart A. Proposals for facilities financed in whole or in part with Agency funds will be coordinated with appropriate Federal, State, and local agencies as required by the following:

(a) Grants under this subpart are subject to the provisions of 7 CFR 1942.17(k) which include title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973, Americans with Disability Act of 1990, and the regulations issued thereto. Certain housing-related projects, such as nursing homes, group homes, or assisted-living facilities, must comply with the requirements of the Fair Housing Act.

(b) Governmentwide debarment and suspension (nonprocurement) and requirements for drug-free workplace are applicable to CFG grants and grantees. See 2 CFR part 180, as implemented by USDA through 2 CFR part 417, and RD Instruction 1940–M for further guidance.

(c) Restrictions on lobbying. Grantees must comply with the lobbying restrictions set forth in 2 CFR part 418 subpart A.

(d) Civil Rights Impact Analysis, RD Instruction 2006–P (available in any Rural Development office), and ''Civil Rights Impact Analysis Certification.''

[62 FR 16469, Apr. 7, 1997, as amended at 79 FR 76013, Dec. 19, 2014]

§ 3570.71 Strategic economic and community development.

Applicants with projects that support the implementation of Strategic Community Investment Plans are encouraged to review and consider 7 CFR part 1980, subpart K, which contains provisions for providing priority to projects that support the implementation of Strategic Community Investment Plans on a multi-jurisdictional and multi-sectoral basis.

[85 FR 59395, Sept. 22, 2020]

§§ 3570.72–3570.74 [Reserved]

§ 3570.75 Grantee contracts.

The requirements of 7 CFR 1942.4, 1942.17(e), 1942.17(l), 1942.118, and 1942.119 will be applicable when agreements between grantees and third parties are involved.

§ 3570.76 Planning, bidding, contracting, and construction.

Planning, bidding, contracting, and construction will be handled in accordance with 7 CFR 1942.9, 1942.18, and 1942.126.

§§ 3570.77–3570.79 [Reserved]

§ 3570.80 Grant closing and delivery of funds.

(a) ''Community Facilities Grant Agreement'' will be used as the grant agreement between the Agency and the grantee and will be signed by the grantee before grant funds are advanced.

(b) Approval officials may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal grant funds and that use and disposition conditions apply to the property as provided by 2 CFR part 200, as subsequently modified.

(c) Approval officials may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal grant funds and that use and disposition conditions apply to the property as provided by 2 CFR part 200 as adopted by USDA through 2 CFR part 400 as subsequently modified.

(d) Grant funds will not be disbursed until they are actually needed by the recipient and all borrower or other funds are expended, except when:

(1) Interim financing of the total estimated amount of loan funds needed during construction is arranged,

(2) All interim funds have been disbursed, and

(3) Agency grant funds are needed before RHS or other loans can be closed.

(e) If grant funds are available from other agencies and are transferred for disbursement by RHS, these grant funds will be disbursed in accordance with the agreement governing such other agencies' participation in the project.

[62 FR 16469, Apr. 7, 1997, as amended at 79 FR 76013, Dec. 19, 2014; 89 FR 96860, Dec. 6, 2024]

§§ 3570.81–3570.82 [Reserved]

§ 3570.83 Audits.

(a) An audit will be conducted in accordance with 2 CFR part 200 subpart F, as adopted by USDA through 2 CFR part 400, except as provided in this section. The audit requirements apply only to the years in which grant funds are expended.

(b) Grantees who are not required to submit an audit report will, within 60 days following the end of the fiscal year in which any grant funds were expended, furnish RHS with annual financial statements, consisting of a verification of the organization's balance sheet and statement of income and expense report signed by an appropriate official of the organization or other documentation as determined appropriate by the approval official.

[62 FR 16469, Apr. 7, 1997, as amended at 79 FR 76013, Dec. 19, 2014]

§ 3570.84 Grant servicing.

Grants will be serviced in accordance with RD Instructions 1951–E and 1951–O and 2 CFR part 200 as applicable.

[79 FR 76013, Dec. 19, 2014]

§ 3570.85 Programmatic changes.

The grantee shall obtain prior Agency approval for any change to the objectives of the approved project. (For construction projects, a material

change in approved space utilization or functional layout shall be considered such a change.) Failure to obtain prior approval of changes to the approved project or budget may result in suspension, refund, or termination of grant funds.

§ 3570.86 [Reserved]

§ 3570.87 Grant suspension, termination, and cancellation.

Grants may be suspended or terminated for cause or convenience in accordance with 2 CFR part 200 as adopted by USDA through 2 CFR part 400, as applicable.

[79 FR 76013, Dec. 19, 2014]

§ 3570.88 Management assistance.

Grant recipients will be supervised to the extent necessary to ensure that facilities are constructed in accordance with approved plans and specifications and to ensure that funds are expended for approved purposes.

§ 3570.89 [Reserved]

§ 3570.90 Exception authority.

An RHS official may request, and the Administrator or designee may make, in individual cases, an exception to any requirement or provision of this subpart or address any omission of this subpart if the Administrator determines that application of the requirement or provision, or failure to take action in the case of an omission, would adversely affect the Government's interest.

§ 3570.91 Regulations.

Grants under this part will be in accordance with 2 CFR part 200 as adopted by USDA through 2 CFR part 400, as applicable, and any conflicts between those parts and this part will be resolved in favor of applicable 2 CFR part 200 as adopted by USDA through 2 CFR part 400.

[79 FR 76013, Dec. 19, 2014]

§ 3570.92 Grant agreement.

Form RD 3570–3 is a Grant Agreement which contains the procedures for making and servicing grants made under this part. Any property acquired or improved with CFG funds may have use and disposition conditions which apply to the property as provided by 2 CFR 200 as adopted by USDA through 2 CFR part 400 in effect at this time and as may be subsequently modified.

[79 FR 76013, Dec. 19, 2014]

§ 3570.93 Regional Commission grants.

(a) Grants are sometimes made by Federal Regional Commissions (designated under Title V of the Public Works and Economic Development Act of 1965) for projects eligible for RHS assistance. RHS has agreed to administer such funds in a manner similar to administering RHS assistance.

(b) The transfer of funds from a Federal Regional Commission to RHS will be based on specific applications determined to be eligible for an authorized purpose in accordance with the requirements of RHS and the Federal Regional Commission.

(c) The Appalachian Regional Commission (ARC) is authorized under the Appalachian Regional Development Act of 1965 to serve the Appalachian region. ARC grants are handled in accordance with the ARC Agreement which applies to all ARC grants administered by Rural Development. Therefore, a separate Project Management Agreement between RHS and ARC is not needed for each ARC grant.

(d) Grants by other Federal Regional Commissions are handled in accordance with a separate Project Management Agreement between the respective Federal Regional Commission and RHS for each Commission grant or class of grants administered by RHS.

(e) When the Agency has funds in the project, no charge will be made for administering Federal Regional Commission grant funds.

(f) When RHS has no loan or grant funds in the project, an administrative charge will be made pursuant to the Economy Act (31 U.S.C. 1535).

§§ 3570.94–3570.99 [Reserved]

§ 3570.100 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and

have been assigned OMB control number 0575–0173. You are not required to respond to this collection of information unless it displays a valid OMB control number.

Subparts C–E [Reserved]

Subpart F—Community Facilities Technical Assistance and Training Grants

SOURCE: 81 FR 1866, Jan. 14, 2016, unless otherwise noted.

§ 3570.251 Purpose.

This subpart contains the provisions and procedures by which the Agency will administer the Essential Community Facilities Technical Assistance and Training Program. The purpose of the program is to provide technical assistance and training with respect to essential community facilities programs. To meet this purpose, the Agency will make grants to public bodies and private nonprofit corporations, (such as States, counties, cities, townships, and incorporated towns and villages, boroughs, authorities, districts, and Indian tribes on Federal and State reservations) to provide associations Technical Assistance and/or training with respect to essential community facilities programs. The Technical Assistance and/or training will assist communities, Indian Tribes, and Nonprofit Corporations to identify and plan for community facility needs that exist in their area. Once those needs have been identified, the Grantee can assist in identifying public and private resources to finance those identified community facility needs.

§ 3570.252 Definitions and abbreviations.

The definitions and abbreviations in § 3570.53 apply to this subpart unless otherwise provided. In addition, these definitions and abbreviations are used in this subpart:

Actual capacity. The demonstrated ability of the Technical Assistance Provider to develop the capacity of Ultimate Recipients in the areas of developing applications for the Community Facilities program, improving the management capabilities of their community facilities, and providing training.

Administrator. The Administrator of the Rural Housing Service (RHS).

Applicant. Public bodies and private nonprofit corporations, (such as States, counties, cities, townships, and incorporated towns and villages, boroughs, authorities, districts, and Indian tribes on Federal and State reservations) that has applied for, or intends to apply for, a Technical Assistance and Training Grant under this subpart. The applicant must be either a Technical Assistance Provider or an Ultimate Recipient.

Audit. An examination of an organization's financial Statements by an independent Certified Public Accountant (CPA), for the purpose of expressing an opinion on the fairness with which the Statements present the financial position, results of operations, and changes in cash flows in conformity with Generally Accepted Accounting Principles (GAAP) and for determining whether the Applicant or Ultimate Recipient of Federal government funding has complied with the applicable laws, regulations, and contract for those events reflected in the financial Statements. All audits must meet the requirements of 2 CFR 200.500–200.518.

Community ties. The significant ties to the Rural Area that need to be demonstrated by a Nonprofit corporation who is an Ultimate Recipient, by either substantial public funding through taxes, revenue bonds or other local Government sources, and/or substantial voluntary community funding; and, a broadly-based ownership and control by members of the community. It can also be demonstrated by local membership and control characteristics.

CONACT. The Consolidated Farm and Rural Development Act (7 U.S.C. 1926 *et seq*).

Conflict of interest. A situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or business to act impartially. Regarding use of both grant and matching funds, Federal procurement standards prohibit transactions that

involve a real or apparent conflict of interest for owners, employees, officers, agents, or their immediate family members having a financial or other interest in the outcome of the Project; or that restrict open and free competition for unrestrained trade. Specifically, Project funds may not be used for services or goods going to, or coming from, a person or entity with a real or apparent Conflict of Interest, including, but not limited to, owner(s) and their immediate family members. An example of Conflict of Interest occurs when the Grantee's employees, board of directors, or the immediate family of either, have the appearance of a professional or personal financial interest in the Applicant receiving the benefits or services of the grant.

Generally Accepted Accounting Principles (GAAP). A widely accepted set of rules, conventions, standards and procedures for reporting financial information, as established by the Financial Accounting Standards Board.

Indian Tribe. Any Indian Tribe, band, nation, or other organized group or community, including Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) [43 U.S.C. 1601 *et seq.*], which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Jurisdiction. A unit of government or other entity with similar powers. Examples include, but are not limited to: City, county, district, special purpose district, township, town, borough, village, and State.

Letter of Conditions. A legal document presented to the Applicant selected for funding that outlines all conditions that must be agreed to and accepted before final grant approval.

Low income. A median household income (MHI) that does not exceed the State Non-Metropolitan Median Household Income (SNMHI) or the Poverty Line, whichever is higher.

Multi-jurisdictional. Concerning two or more Jurisdictions.

Professional services. Services provided by a person or entity having specialized knowledge and skills to plan, design, prepare procurement, construction, or other technical support documents, administer construction contracts, and/or other related services for a Project.

Project. The Technical Assistance that an Applicant is currently planning as described in the Project description in the application, to be financed in whole or in part with Agency assistance.

Secretary. The Secretary of Agriculture.

Technical Assistance. A function such as supervision, oversight, training, or professional consultation related to an Essential Community Facility that is performed for the benefit of an Ultimate Recipient or proposed Ultimate Recipient, which is a problem solving activity, as determined by the Agency.

Technical Assistance Provider. Grantee who will provide technical assistance to Ultimate Recipients.

Ultimate Recipient. Entity receiving assistance from the Grantee. If a Nonprofit corporation is either applying for funding as an Ultimate Recipient or is benefitting from the TAT Grant as the Ultimate Recipient, it must demonstrate Community Ties to the Rural Area. These ties may be demonstrated by:

(1) Obtaining substantial public funding through taxes revenue bonds, or other local Government sources, and/or substantial voluntary community funding, or

(2) Having a broadly-based ownership and control by members of the community, or

(3) Demonstrating all of the following characteristics:

(i) Members of the organization are primarily from the local rural community,

(ii) Membership is open to all adults in the local rural community,

(iii) Members of the organization have ultimate control of the proposed community facility; and

(iv) The organization receives the majority of its funding from its members or their volunteer efforts. Public bodies and Indian Tribes that are applying for funding as Ultimate Recipients or are the benefitting from TAT grant funds as the Ultimate Recipient

are not required to further demonstrate Community ties to the local Rural Areas.

[81 FR 1866, Jan. 14, 2016, as amended at 89 FR 34958, May 1, 2024]

§ 3570.253 Compliance with Federal and State requirements.

(a) *Federal statutory requirements.* Applicants must comply with, all applicable Federal laws and Executive Order requirements including, but not limited to:

(1) Section 504 of the Rehabilitation Act of 1973.

(2) Civil Rights Act of 1964.

(3) The American with Disabilities Act (ADA) of 1990.

(4) Executive Order 12549 Debarment and Suspension and 2 CFR parts 180 and 417.

(5) Section 319 of Public Law 101–121 on Lobbying.

(6) Age Discrimination Act of 1975.

(7) Fair Housing Act of 1968.

(8) Executive Order 11246 Equal Employment Opportunity.

(9) Title IX of the Education Amendments of 1972.

(10) 2 CFR parts 200 and 400 ''Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards''.

(b) State laws, local laws, regulatory commission regulations. Applicants must comply with all applicable state and local laws and regulatory commission regulations. If there are conflicts between this subpart and State or local laws or regulations, the provisions of this subpart will control.

§ 3570.254 Source of funds.

The Agency will reserve 5 percent of any funds annually appropriated to carry out each of the Essential Community Facilities grant, loan and loan guarantee programs unless otherwise noted in the annual Notice published in the FEDERAL REGISTER. TAT reserved grant funds not obligated by July 31 of each fiscal year will be used to fund Essential Community Facilities grant, loan, and/or loan guarantee programs.

§ 3570.255 Matching funds.

Any matching funds must comply with the requirements outlined at 2 CFR 200.306.

§ 3570.256 Allocation of funds.

The Agency will administer these grant funds and will award them on a competitive basis.

§ 3570.257 Statute and regulation references.

All references to statutes and regulations are to include any and all successor statutes and regulations.

§§ 3570.258–3570.260 [Reserved]

§ 3570.261 Environmental and intergovernmental review.

All grants awarded under this subpart are subject to the environmental requirements of 7 CFR part 1940, subpart G. Technical Assistance under this program is categorically excluded unless extraordinary circumstances exist.

§ 3570.262 Applicant eligibility requirements.

There are two types of Applicants. The applicant must be either a Technical Assistance Provider or an Ultimate Recipient, and must meet eligibility requirements before being considered for Agency assistance.

(a) Applicants applying as Technical Assistance Providers must:

(1) Be a public body or a private nonprofit corporation, (such as States, counties, cities, townships, and incorporated towns and villages, boroughs, authorities, districts, and Indian tribes on Federal and State reservations);

(2) Be legally established and located within one of the following:

(i) A State as defined § 3570.252; or

(ii) The District of Columbia; and

(3) Have the proven ability, background, experience (as evidenced by the organization's satisfactory completion of Project(s) similar to those proposed), legal authority and actual capacity to provide Technical Assistance and/or training to Ultimate Recipients as provided in § 3570.252. To meet the requirement of actual capacity, an Applicant must either:

(i) Have the necessary resources to provide Technical Assistance and/or training to associations in Rural Areas through its staff,

(ii) Be assisted by an affiliate or member organization which has such background and experience and which

agrees, in writing, that it will provide the technical assistance, or

(iii) May contract with a non-affiliated organization for not more than 49 percent of the awarded grant to provide the proposed technical assistance.

(4) Nonprofits applying as Technical Assistance Providers must be designated tax exempt by the Internal Revenue Service.

(b) Applicants applying as Ultimate Recipients must be:

(1) A public body,

(2) An Indian Tribe, or

(3) A Nonprofit corporation that demonstrates Community ties to the Rural Area by:

(i) Obtaining substantial public funding through taxes revenue bonds, or other local Government sources, and/or substantial voluntary community funding,

(ii) Having a broadly-based ownership and control by members of the community, or

(iii) Demonstrating all of the following characteristics:

(A) Members of the organization are primarily from the local rural community,

(B) Membership is open to all adults in the local rural community,

(C) Members of the organization have ultimate control of the proposed community facility; and

(D) The organization receives the majority of its funding from its members or their volunteer efforts.

§ 3570.263 Eligible project purposes.

(a) Grant funds and any matching funds may be used by Technical Assistance Providers to:

(1) Assist communities in identifying and planning for community facility needs;

(2) Identify resources to finance community facility needs from public and private sources;

(3) Prepare reports and surveys necessary to request financial assistance to develop community facilities;

(4) Prepare applications for Agency financial assistance;

(5) Improve the management, including financial management, related to the operation of community facilities; or

(6) Assist with other areas of need identified by the Secretary.

(b) Grant Funds and any matching funds may be used by Ultimate Recipients only to prepare reports and surveys necessary to request financial assistance to develop community facilities. Applicants applying as Ultimate Recipients will be limited to this purpose.

§ 3570.264 Ineligible project purposes.

Ineligible purposes for grant funds and any matching funds include, but are not limited to:

(a) Duplicate services, such as those previously performed by an association's consultant in developing a Project, including feasibility, design, Professional Services, and cost estimates prior to receiving the grant award.

(b) Purchase real estate or vehicles, improve or renovate office space, or repair and maintain privately owned property.

(c) Pay the costs for construction, improvement, rehabilitation, modification, or operation and maintenance of an Essential Community Facility.

(d) Procure applications for the Agency's community facilities or other loan or grant program. Grant funds cannot be used to generate new applications; however, as stated in § 3570.263(a)(4) funds can be used to assist with application preparation for Agency programs.

(e) Pay for other costs that are not allowed under 2 CFR part 200.

(f) Pay an outstanding judgment obtained by the U.S. in a Federal Court (other than in the United States Tax Court), which has been recorded. An Applicant will be ineligible to receive a grant until the judgment is paid in full or otherwise satisfied.

(g) Intervene in Federal or adjudicatory proceedings.

(h) Fund political or lobbying activities.

(i) Conduct an income survey associated with developing a complete application for a potential Applicant.

(j) Pay for indirect or administrative costs in excess of 10% of the amount of grant.

(k) [Reserved]

(l) Provide assistance to an Ultimate Recipient, or a Project, that is not located in a Rural Area.

(m) Pay for expenses incurred more than three years after the date of the grant agreement.

(n) Provide assistance to a Project that primarily serves an area that is not considered Low Income.

(o) Fund a project where a Conflict of Interest exists.

[81 FR 1866, Jan. 14, 2016, as amended at 81 FR 27295, May 6, 2016]

§§ 3570.265–3570.266 [Reserved]

§ 3570.267 Applications.

(a) *Filing period*. The Agency will publish an annual notice in the FEDERAL REGISTER stating the filing period, where to file, and all other applicable information necessary to submit a complete application.

(b) *Application requirements*. To file an application, an organization must provide their Unique Entity Identifier (UEI) in accordance with 2 CFR part 25. Instructions for obtaining the UEI are available at *https://sam.gov/*. To file a complete application the following information must be submitted:

(1) ''Application for Federal Assistance (For Non-Construction)

(2) ''Budget Information—Non-Construction Programs.''

(3) ''Certification Regarding Debarment, Suspension, and Other Responsibility Matters—Primary Covered Transaction.''

(4) ''Certification Regarding Drug-Free Workplace Requirements (Grants) Alternative 1—For Grantees Other Than Individuals.''

(5) ''Certification Regarding Debarment.''

(6) Attachment regarding assistance provided to Agency Employees as required by RD Instruction 1900–D (1900.153(a)), as applicable.

(7) ''Equal Opportunity Agreement.''

(8) ''Assurance Agreement.''

(9) Indirect Cost Rate Agreement (if applicable, Applicant must include approved cost agreement rate schedule).

(10) Statement of Compliance with Title VI of the Civil Rights Act of 1964.

(11) ''Disclosure of Lobbying Activities'' (include only if grant exceeds $100,000).

(c) *Supporting information*. All applications shall be accompanied by the following supporting information:

(1) For Nonprofit Corporations,

(i) Certified copies of current organizational documents including Certificate of Incorporation, bylaws, and Certificate of Good Standing,

(ii) Evidence of tax exempt status from the Internal Revenue Service if applying as a Technical Assistance Provider, and

(iii) Evidence of Community Ties to a Rural Area if a Nonprofit Corporation applying as an Ultimate Recipient.

(2) For applicants applying as a Technical Assistance Provider, a narrative of their experience in providing services similar to those proposed. The narrative will provide a brief description of successfully completed Projects including the need that was identified and objectives accomplished.

(3) Latest financial information to show the Applicant's financial capacity to carry out proposed work. A current Audit is preferred; however, Applicants may submit a balance sheet and an income Statement in lieu of an Audit report.

(4) Documentation of cash matching funds, if applicable.

(5) List of proposed services to be provided.

(6) For Applicants applying as Technical Assistance Providers who have not identified the Ultimate Recipients, a narrative explaining how they will select Ultimate Recipients to be assisted with grant funds.

(7) Estimated breakdown of costs (direct and indirect) including those to be funded by Grantee as well as matching funds and other sources. Sufficient detail will be provided to permit the Agency to determine if the costs are allowed, reasonable, and applicable.

(8) Evidence that a Financial Management System used to track Project costs is in place or proposed.

(9) Documentation relevant to scoring criteria including, but not limited to:

(i) List of Ultimate Recipients to be served and the county, State or States where assistance will be provided. Identify Ultimate Recipients by name, or

other characteristics such as size, income, location, and provide MHI and population data.

(ii) Description of type of Technical Assistance and/or training to be provided and the tasks to be contracted.

(iii) Description of how the Project will be evaluated, clearly stated goals, and the method proposed to measure results.

(iv) Documentation of the need for the proposed service. Provide detailed explanation of how the proposed service differs from other similar services being provided in same area.

(v) Personnel on staff or to be contracted to provide services and their experience with similar Projects.

(vi) Statement indicating the number of months it will take to complete the Project or service, and

(vii) Documentation on cost effectiveness of Project. Provide the cost per Ultimate Recipient to be served or the proposed cost of personnel to provide assistance.

[81 FR 1866, Jan. 14, 2016, as amended at 89 FR 34958, May 1, 2024]

§§ 3570.268–3570.271 [Reserved]

§ 3570.272 Grant processing.

(a)–(c) [Reserved]

(d) Applications that are not selected for funding due to low rating will be notified by the Agency. Applications that cannot be funded in the fiscal year that the application was received will not be retained for consideration in the following fiscal year.

(e) Applicants selected for funding will need to accept the conditions set forth in the Letter of Conditions, meet all such conditions, and complete a grant agreement which outlines the terms and conditions of the grant award before grant funds will be disbursed.

§ 3570.273 Scoring.

The Agency will score each application using the following scoring factors unless otherwise provided in an annual Notice in the FEDERAL REGISTER:

(a) *Experience:* Applicant Experience at developing and implementing successful technical assistance and/or training programs:

(1) More than 10 years—40 points.

(2) More than 5 years to 10 years—25 points.

(3) 3 to 5 years—10 points.

(b) *No prior grants received:*

(1) Applicant has never received a TAT Grant—5 points.

(2) [Reserved]

(c) *Population:* The average population of proposed area(s) to be served:

(1) 2,500 or less—15 points.

(2) 2,501 to 5,000—10 points.

(3) 5,001 to 10,000—5 points.

(d) *MHI:* The average median household income (MHI) of proposed area to be served is below the higher of the poverty line or:

(1) 60 percent of the State's MHI—15 points.

(2) 70 percent of the State MHI—10 points.

(3) 90 percent of the State's MHI—5 points.

(e) *Multi-jurisdictional:* The proposed technical assistance or training project a part of a Multi-jurisdictional project comprised of:

(1) More than 10 jurisdictions—15 points.

(2) More than 5 to 10 jurisdictions—10 points.

(3) 3 to 5 jurisdictions—5 points.

(f) *Soundness of approach:* Up to 10 points.

(1) Needs assessment: The problem/issue being addressed is clearly defined, supported by data, and addresses the needs;

(2) Goals & objectives are clearly defined, tied to the need as defined in the work plan, and are measurable;

(3) Work plan clearly articulates a well thought out approach to accomplishing objectives & clearly identifies who will be served by the project;

(4) The proposed activities are needed in order for a complete Community Facilities loan and/or grant application.

(g) *Matching funds:*

(1) There is evidence of the commitment of other cash funds of 20% of the total project costs 10 points.

(2) There is evidence of the commitment of other cash funds of 10% of the total project costs 5 points.

(h) *State Director discretionary points.* The State Director may award up to 10 discretionary points for the highest priority project in each state, up to 7 points for the second highest priority

project in each state and up to 5 points for the third highest priority project that address unforeseen exigencies or emergencies, such as the loss of a community facility due to an accident or natural disaster, or other areas of need in their particular state. The State Director will place written documentation in the project file each time the State Director assigns these points—Up to 10 points.

(i) *Administrator discretionary points.* The Administrator may award up to 20 discretionary points for projects to address geographic distribution of funds, emergency conditions caused by economic problems, natural disasters and other initiatives identified by the Secretary—Up to 20 points.

§ 3570.274 Fund disbursement.

The Agency will make payments under this agreement in accordance with 2 CFR 200.305. All requests for advances or reimbursements must be in compliance with 2 CFR 200.306 and include any required matching fund usage.

§ 3570.275 Grant cancellation or major changes.

Any change in the scope of the Project, budget adjustments of more than 10 percent of the total budget, and any other significant change in the Project must be in compliance with 2 CFR 200.308 and 200.339. The changes must be requested in writing and approved by the Agency in writing. Any change not approved may be cause for termination of the grant.

§ 3570.276 Reporting.

(a) The Grantee must provide periodic reports as required by the Agency. A financial status report, SF 425 ''Federal Financial Report,'', and a project performance report will be required as provided in the grant agreement. The financial status report must show how grant funds and matching funds have been used to date. A final report may serve as the last report. Grantees shall constantly monitor performance to ensure that time schedules are being met and projected goals by time periods are being accomplished. The Project performance reports shall include, but are not limited to, the following:

(1) A description of the activities that the funds reflected in the financial status report were used for;

(2) A comparison of actual accomplishments to the objectives for that period;

(3) Reasons why established objectives were not met, if applicable;

(4) Problems, delays, or adverse conditions which will affect attainment of overall program objectives, prevent meeting time schedules or objectives, or preclude the attainment of particular objectives during established time periods. This disclosure shall be accomplished by a Statement of the action taken or planned to resolve the situation;

(5) Objectives and timetables established for the next reporting period;

(6) A summary of the race, sex, and national origin of the Ultimate Recipients;

(7) The final report will also address the following:

(i) What have been the most challenging or unexpected aspects of this grant?

(ii) What advice would you give to other organizations planning a similar grant? What are the strengths and limitations of this grant? If you had the opportunity, what would you have done differently?

(iii) Are there any post-grant plans for this Project? If yes, how will they be financed?

(b) [Reserved]

§ 3570.277 Audit or financial statement.

The Grantee will provide an Audit report or financial Statement in accordance with 2 CFR 200.500–200.517 and as follows:

(a) Grantees expending $750,000 or more Federal funds per fiscal year will submit an Audit conducted in accordance with 2 CFR parts 200, 215, 220, 225, 230 and 400, ''Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.''

(b) Grantees expending less than $750,000 will provide annual financial Statements covering the grant period,

consisting of the organization's statement of income and expense and balance sheet signed by an appropriate Official of the organization. Financial statements will be submitted within 90 days after the Grantee's fiscal year.

§§ 3570.278–3570.280 [Reserved]

§ 3570.281 Grant servicing.

Grants will be serviced in accordance with 7 CFR part 1951, subpart E.

§ 3570.282 [Reserved]

§ 3570.283 Exception authority.

The Administrator may make an exception to any requirement or provision of this subpart, if such an exception is necessary to implement the intent of the authorizing statutes in a time of national emergency or in accordance with a Presidentially-declared disaster, or on a case-by-case basis, when such an exception is in the best financial interest of the Federal Government and is otherwise not in conflict with applicable laws. No exceptions, however, will be granted for Applicant, Ultimate Recipient, or Project eligibility.

§ 3570.284 Review or appeal rights.

A person may seek a review of an Agency decision under this subpart from the appropriate Agency official that oversees the program in question or appeal to the USDA National Appeals Division in accordance with 7 CFR part 11.

§§ 3570.285–3570.299 [Reserved]

§ 3570.300 OMB control number.

The reporting and recordkeeping requirements contained in this regulation have been submitted to the Office of Management and Budget (OMB) for approval.

§ 3600.1 General.

The National Agricultural Statistics Service (NASS) was established on April 17, 1986, by Secretary's Memorandum 1020–24, which renamed the Statistical Reporting Service concurrent with an internal restructuring. Primary NASS responsibilities are development and dissemination of national and State agricultural statistics, statistical research, and coordination of Department statistical programs.

§ 3600.2 Organization.

The headquarters organization consists of: The Administrator and Associate Administrator; Deputy Administrator for Field Operations; Four Divisions: Estimates, Survey Management, Research, and Systems and Information; and the Agricultural Statistics Board. In the field, each of the 45 State Statistical Offices, serving the 50 States, is under a State Statistician.

§ 3600.3 Functions.

(a) *Administrator*. The Administrator is responsible for the formulation of current, intermediate, and long-range policies and plans to carry out a broad statistical program for the agricultural sector and Departmental functions and activities assigned to NASS. Specific functions are:

(1) Administering an agricultural statistics program which includes estimates of production, marketings, inventories, and selected economic characteristics of the U.S. agricultural and rural economy.

(2) Administering a methodological research program to improve agricultural data collection and processing, data management, estimation, and forecasting.

(3) Administering programs to conduct surveys for other agencies, improve statistics through statistical standards for the Department, and coordinate statistical methods and techniques within the Federal Government.

(4) Administering statistical programs jointly developed through cooperative agreements with State agencies, universities, private groups, and other Federal agencies.

(5) Administering selected international agricultural statistics programs which provide foreign technical assistance, training on statistical methodology for developing countries, and exchange of information.

(b) *Associate Administrator*. The Associate Administrator is responsible for advising and counseling the Administrator and high-level policy officials on matters related to programs of NASS. Major functions include:

(1) Chairing Agricultural Statistics Board activities, designating Board membership, presiding at Board sessions, and formulating specific procedures.

(2) Chairing the NASS Strategic Planning Council which coordinates long-range planning, information resources management, and research reviews.

(3) Chairing the Resource Management Council which coordinates NASS hiring, promotion, and training activities.

(c) *Deputy Administrator for Field Operations*. The Deputy Administrator manages and coordinates data collection and estimating programs carried out by State Statistical Offices. This includes supervision of statistical programs with cooperating State and private groups, universities, and other Federal agencies. Major functions include:

(1) Formulating policies and programs that relate to functions and responsibilities of State Statistical Offices.

(2) Directing agricultural statistics programs established through cooperative agreements with State Departments of Agriculture, Land-Grant colleges and universities, or appropriate private organizations.

(3) Establishing and maintaining relationships with respondents, producers, commodity groups, data users, and other interested groups to gain cooperation in providing useful, timely, and reliable information.

(d) *Director, Estimates Division.* The Director is responsible for NASS estimating and forecasting programs. Major functions include:

(1) Defining input and output requirements, estimators and variances to be utilized, statistical standards, editing and summarization requirements, and analytic procedures.

(2) Collaborating with the Chairperson of the Agricultural Statistics Board to establish the annual programs of statistical reports.

(3) Developing appropriate systems parameters; processing, summarizing, and presenting current survey and related historical data for Agricultural Statistics Board analysis; and preparing official estimates and forecasts.

(e) *Director, Survey Management Division.* The Director is responsible for application of survey design and data collection methodologies to the agricultural statistics program. Major functions include:

(1) Constructing and maintaining appropriate sampling frames for agricultural and rural surveys.

(2) Designing, testing, and establishing survey techniques and standards, including sample design, sample selection, questionnaires, data collection methods, survey materials, and training methods for NASS.

(3) Reviewing specifications for special data collection activities for programs of other Federal or State agencies.

(f) *Director, Research Division.* The Director is responsible for researching statistical methodology for survey design, data collection, processing, estimating, and forecasting. Major functions include:

(1) Conducting statistical research to develop new and improved sampling techniques, develop improved data collection methods, and identify methods of controlling sampling and nonsampling errors.

(2) Researching statistical computing methods and developing efficient uses of computer technology including telecommunications, networking, and other applications.

(3) Developing new statistical theory and models and solving statistical problems, including numerical methods involving advanced mathematical statistics.

(g) *Director, Systems and Information Division.* The Director is responsible for NASS information management system and processing services. Specific functions are:

(1) Designing, maintaining, and providing access to an integrated and standardized information management system containing sampling frames, survey data, estimates, and administrative records utilized by NASS.

(2) Providing appropriate support for assisting users of the information management system through documentation, evaluation, training, and resolution of information management problems.

(3) Designing and issuing all reports releasing official State and national estimates and forecasts from NASS.

(h) *Chairperson, Agricultural Statistics Board.* The Chairperson reviews, prepares, and issues on specific dates, following approval by the Secretary of Agriculture as provided by law (7 U.S.C. 411a) and Departmental Regulation, the official State and national estimates relating to crop production, livestock and livestock products, dairy and dairy products, poultry and poultry products, stocks of agricultural commodities, value of farm products, farm inputs, and other assigned agricultural aspects.

§ 3600.4 Authority to act for the Administrator.

In the absence of the Administrator, the following officials are designated to serve as Acting Administrator in the order indicated:

Associate Administrator
Deputy Administrator for Field Operations
Director, Estimates Division
Director, Survey Management Division
Director, Systems and Information Division

Director, Research Division

APPENDIX A TO PART 3600—LIST OF STATE STATISTICAL OFFICES

Section 1. General

Information concerning NASS statistics programs and activities related to individual States may be obtained from the State Statistician, State Statistical Office, NASS, in the locations listed below.

Section 2. List of Addresses

Alabama, Sterling Centre, Suite 200, 4121 Carmichael Road, Montgomery, AL 36106–2872
Alaska, 809 South Chugach Street, Suite 4, Palmer, AK 99645
Arizona, 3003 North Central Avenue, Suite 950, Phoenix, AZ 85012
Arkansas, 3408 Federal Office Building, Little Rock, AR 72201
California, 1220 ''N'' Street, Room 243, Sacramento, CA 95814
Colorado, 645 Parfet Street, Suite W–201, Lakewood, CO 80215–5517
Delaware, Delaware Department of Agriculture Building, 2320 South Dupont Highway, Dover, DE 19901
Florida, 1222 Woodward Street, Orlando, FL 32803
Georgia, Stephens Federal Building, Suite 320, Athens, GA 30613
Hawaii, State Department of Agriculture Building, 1428 South King Street, Honolulu, HI 96814
Idaho, 2224 Old Penitentiary Road, Boise, ID 83712
Illinois, Illinois Department of Agriculture Building, 801 Sangamon Avenue, Room 54, Springfield, IL 62702
Indiana, 1148 AGAD Building, Purdue University, Room 223, West Lafayette, IN 47907–1148
Iowa, 833 Federal Building, 210 Walnut Street, Des Moines, IA 50309
Kansas, 632 S.W. Van Buren, Room 200, Topeka, KS 66603
Kentucky, Gene Snyder & Courthouse Building, 601 W. Broadway, Room 645, Louisville, KY 40202
Louisiana, 5825 Florida Boulevard, Baton Rouge, LA 70806

West Virginia, 1900 Kanawha Boulevard E, Charleston, WV 25305
Wisconsin, 2811 Agriculture Drive, Madison, WI 53704
Wyoming, 504 W. 17th Street, Suite 250, Cheyenne, WY 82001

PART 3601—PUBLIC INFORMATION

Sec.
3601.1 General statement.
3601.2 Public inspection, copying, and indexing.
3601.3 Requests for records.
3601.4 Multitrack processing.
3601.5 Denials.
3601.6 Appeals.
3601.7 Requests for published data and information.

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR part 1, subpart A and appendix A thereto.

SOURCE: 66 FR 57843, Nov. 19, 2001, unless otherwise noted.

§ 3601.1 General statement.

This part is issued in accordance with the regulations of the Secretary of Agriculture in part 1, subpart A of this title and appendix A thereto, implementing the Freedom of Information Act (FOIA) (5 U.S.C. 552), and governs the availability of records of the National Agricultural Statistics Service (NASS) to the public.

§ 3601.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. Members of the public may request access to such materials maintained by NASS at the following office: Information Staff, ARS, REE, USDA, Room 1–2248, Mail Stop 5128, 5601 Sunnyside Avenue, Beltsville, MD 20705–5128; Telephone (301) 504–1640 or (301) 504–1655; TTY-VOICE (301) 504–1743. Office hours are 8 a.m. to 4:30 p.m. Information maintained in our electronic reading room can be accessed at *http://www.ars.usda.gov/is/foia/#Electronic*.

§ 3601.3 Requests for records.

Requests for records of NASS under 5 U.S.C. 552(a)(3) shall be made in accordance with §1.5 of this title and submitted to the FOIA Coordinator, Information Staff, ARS, REE, USDA, Mail Stop 5128, 5601 Sunnyside Avenue, Beltsville, MD 20705–5128; Telephone (301) 504–1640 or (301) 504–1655; TTY-VOICE (301) 504–1643; Facsimile (301) 504–1648; e-mail *vherberger@ars.usda.gov* or *shutchison@ars.usda.gov*. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with §1.3(c) of this title.

§ 3601.4 Multitrack processing.

(a) When NASS has a significant number of requests, the nature of which precludes a determination within 20 working days, the requests may be processed in a multitrack processing system, based on the date of receipt, the amount of work and time involved in processing the request, and whether the request qualifies for expedited processing.

(b) NASS may establish as many processing tracks as appropriate; processing within each track shall be based on a first-in, first-out concept, and rank-ordered by the date of receipt of the request.

(c) A requester whose request does not qualify for the fastest track may be given an opportunity to limit the scope of the request in order to qualify for the fastest track. This multitrack processing system does not lessen agency responsibility to exercise due diligence in processing requests in the most expeditious manner possible.

(d) NASS shall process requests in each track on a ''first-in, first-out'' basis, unless there are unusual circumstances as set forth in §1.16 of this title, or the requester is entitled to expedited processing as set forth in §1.9 of this title.

§ 3601.5 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with §1.7(a) of this title.

§ 3601.6 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with §1.13 of this title and should be addressed as follows: Administrator, NASS, U.S. Department of Agriculture, Washington, DC 20250.

§ 3601.7 Requests for published data and information.

(a) Published data and reports produced by NASS since 1995 are available via the NASS Web site at *http://www.usda.gov/nass/* or an e-mail subscription may be established via the website under Publications. Searching on the website is available by topic, by title, or by date. The titles displayed in the search include NASS's published periodicals and annual reports. Full text of all the titles is available at no cost (PDF Files beginning 1999). Printed copies and reports published after 1996 can be purchased from the ERS-NASS sales desk at the National Technical Information Center at 1 (800) 999–

6779 (8:30 a.m.–5 p.m. Eastern Time, M-F).

(b) Information on published data, printed subscription rates, and historic publications is available from the Secretary, Agricultural Statistics Board, NASS, U.S. Department of Agriculture, Washington, DC 20250. This information is also available from the NASS website under Publications, NASS Catalog, NASS Periodicals and Annual Reports. Published data, from each State Statistical Office, are available via the NASS website under State Information or by e-mail subscription. Published data subscription forms are available from the State Statistician at each State Statistical Office. Addresses are listed in appendix A to part 3600 of this chapter.

CHAPTER XXXVII—ECONOMIC RESEARCH SERVICE, DEPARTMENT OF AGRICULTURE

Part		*Page*
3700	Organization and functions	579
3701	Public information	581
3702–3799	[Reserved]	

PART 3700—ORGANIZATION AND FUNCTIONS

Sec.
3700.1 General.
3700.2 Organization.
3700.3 Functions.
3700.4 Authority to act for the Administrator.

AUTHORITY: 5 U.S.C. 301 and 552, and 7 CFR 2.67.

SOURCE: 61 FR 1827, Jan. 24, 1996, unless otherwise noted.

§ 3700.1 General.

The Economic Research Service (ERS), originally established in 1961 under the authority of the Agricultural Marketing Act of 1946 (7 U.S.C. 1621–1627), was reestablished as an agency of the U.S. Department of Agriculture of September 30, 1981 (46 FR 47747), in response to Secretary's Memorandum 1000–1 of June 17, 1981, entitled ''Reorganization of Department.'' The mission of ERS is to provide economic and other social science information and analysis for public and private decisions on agriculture, food, natural resources, and rural America. Its primary customers are USDA policy officials and program administrators, the Office of the While House, Congress, and environmental, consumer, and rural public interest groups, including farm groups and industry.

§ 3700.2 Organization.

ERS maintains its offices at 1301 New York Avenue, NW., Washington, DC 20005–4788. The organization consists of:

(a) The Administrator;

(b) Associate Administrator;

(c) Five Divisions; Commercial Agriculture Division, Food and Consumer Economics Division, Information Services Division, Natural Resources and Environment Division, and Rural Economy Division; and

(d) Office of Energy and New Uses.

§ 3700.3 Functions.

(a) *Administrator and Associate Administrator*. The Administrator and Associate Administrator are responsible for developing and implementing policies and plans in support of a program of economic and social science research, analysis, and data dissemination. General functions are: Conducting research and staff analysis, and developing short to long-term outlook analysis and economic indicators.

(b) *Director, Commercial Agriculture Division*. The Director, Commercial Agriculture Division, is responsible for conducting a program of economic research; economic intelligence gathering, analysis, and reporting; and data development and dissemination on economic conditions, U.S. and foreign policies, and agriculture production, trade, and marketing. General functions are:

(1) Developing and monitoring current intelligence and indicators on domestic and international agricultural markets and related farm and trade developments and short to long-term forecasts of domestic and world agricultural markets.

(2) Assessing the technological, economic, and institutional forces influencing U.S. and world agricultural markets.

(3) Conducting special analyses of U.S. and world agricultural markets for policy officials to assist in policy development and the operation of USDA programs.

(4) Collecting necessary information and performing international, national, and regional macroeconomics analysis to estimate the effects of macro economic trends and events in the global economy on the American farm sector.

(c) *Director, Food and Consumer Economic Division*. The Director, Food and Consumer Economic Division, is responsible for providing economic research, monitoring and statistical indicators, and staff and the policy analysis of consumer and food marketing issues, including: Consumption determinants and trends; consumer demand for food quality, safety, and nutrition; food security; market competition; vertical coordination; nutrition education and food assistance programs; and food safety regulation. General functions are:

(1) Analyzing consumer behavior and food choices, including research regarding the socio-demographic and economic determinants of food and nutrient consumption; consumer valuation

of quality, safety, and nutrition characteristics; and the role of information in determining food choices.

(2) Examining food assistance and nutrition programs, nutritional adequacy of diets, and food security, including costs and benefits of food assistance and nutrition programs, program and policy alternatives, the extent and social cost of good insecurity, and the role of food assistance in meeting larger goals of welfare programs.

(3) Analyzing the food processing and distribution sector, including the ability of the sector to meet changing consumer demand; the effect of government market interventions to facilitate that response; and the effect of government interventions and rapid changes in the sector on consumer and producer welfare.

(4) Analyzing food safety issues, including consumer benefits from risk reduction, production tradeoffs in reducing hazards, impact of proposed regulations and international harmonization, and policy alternatives.

(5) Developing and monitoring indicators of individual, household, and market level food consumption, expenditures, and nutrients; food marketing costs, marketing margins, and farm-retail price spreads; and food safety hazards, their effects, and mitigation.

(d) *Director, Information Services Division.* The Director, Information Services Division, is responsible for managing and directing agencywide information technology, communications, and administrative activities in support of the economic research and analysis mission of ERS. General functions are:

(1) Developing and managing information technology infrastructure and training.

(2) Developing and managing communications, publication, and dissemination programs, policies, and procedures.

(3) Providing operations and management services, including liaison with the ARS's Administrative and Financial Management unit.

(e) *Director, Natural Resources and Environment Division.* The Director, Natural Resources and Environment Division, is responsible for providing economic research, monitoring and statistical indicators, and staff and policy analysis of agricultural resource and environment issues including the relationship between agriculture—its practices, technologies, policies, and resource use—and the environment, including effects on the sustainability of the natural resource base, preservation of species and genetic diversity, and environmental quality. General functions are:

(1) Developing and disseminating data for assessing the use of agricultural resources and technologies by agricultural producers. These data include use and ownership of land, use of agricultural chemicals and equipment, and water use.

(2) Evaluating the implications of alternative agricultural and resource conservation policies and programs on commodity prices, consumer welfare, competitiveness, and long-range maintenance of agricultural land and water resources.

(3) Analyzing the costs, benefits, and distributional impacts of alternative policies to reduce environmental and health risk externalities associated with agriculture.

(4) Monitoring and analyzing the uses and conditions of the nation's water resources and the economic consequences of agricultural and environmental policies affecting water supply, use, and quality.

(5) Analyzing the impacts of national and global developments and domestic and international policies on the use and value of land, water, capital assets, and other agricultural production decisions.

(6) Assessing the possible impacts of proposed or anticipated domestic policy and program changes on agricultural production decisions.

(7) Assessing the effects of technology on input use and markets and evaluating the factors affecting input productivity and technology adoption.

(8) Analyzing the implications of global environmental change and sustainable development for U.S. agriculture.

(f) *Director, Rural Economy Division.* The Director, Rural Economy Division, is responsible for conducting a program of economic and social science research

and analysis on national rural and agricultural conditions and trends, and identifying and assessing the potential impact of public and private sector actions and policies that affect rural areas and the agricultural sector. General functions are:

(1) Analyzing and reporting on current economic and demographic issues facing rural areas and agricultural, especially how changes in the national and global economies affect rural areas and the agriculture sector.

(2) Determining the effects of economic, social, and governmental events and actions on the demand for and supply of rural local government services, the quality of such services, and the relationships between local services and the viability of rural communities.

(3) Developing and disseminating information on current trends in the non-metropolitan and farm populations, the number, location and characteristics of such people, and the factors associated with these trends.

(4) Developing estimates and analyzing labor force trends in rural labor markets, including analyses of unemployment and employment by industry and occupational groups, including farm labor.

(5) Developing data on the income situation of rural people and evaluating the effectiveness of alternative public policies and programs in improving incomes of rural people, especially people in disadvantaged groups.

(6) Monitoring information on and analyzing the development of rural portions of geographic regions of the United States, including changes in industry mix, impacts of energy costs, credit availability, and other economic activities.

(7) Analyzing and reporting on developments in rural and agricultural financial markets and in Federal tax laws, and their consequences for agriculture and rural economies.

(8) Collecting and disseminating financial information on farms and farm enterprises, and developing techniques necessary to measure and describe the financial condition of the agriculture sector and its components.

[61 FR 1827, Jan. 24, 1996, as amended at 64 FR 40736, July 28, 1999]

§ 3700.4 Authority to act for the Administrator.

In the absence of the Administrator, the following officials are designated to serve as Acting Administrator in the order indicated:

Associate Administrator
Director, Commercial Agriculture Division
Director, Food and Consumer Economics Division
Director, Natural Resources and Environment Division
Director, Rural Economy Division
Director, Information Services Division
Director, Office of Energy and New Uses

PART 3701—PUBLIC INFORMATION

Sec.
3701.1 General statement.
3701.2 Public inspection, copying, and indexing.
3701.3 Requests for records.
3701.4 Multitrack processing.
3701.5 Denials.
3701.6 Appeals.
3701.7 Requests for published data and information.

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR part 1, subpart A and appendix A thereto.

SOURCE: 66 FR 57845, Nov. 19, 2001, unless otherwise noted.

§ 3701.1 General statement.

This part is issued in accordance with the regulations of the Secretary of Agriculture in part 1, subpart A of this title and appendix A thereto, implementing the Freedom of Information Act (FOIA) (5 U.S.C. 552). The Secretary's regulations, as implemented by the regulations in this part, govern the availability of records of the Economic Research Service (ERS) to the public.

§ 3701.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. Members of the public may request access to such materials maintained by ERS at the following office: Information Staff, ARS, REE, USDA, Room 1–2248, Mail Stop 5128, 5601 Sunnyside Avenue, Beltsville, MD 20705–5128; Telephone (301) 504–1640 or

(301) 504–1655; TTY-VOICE (301) 504–1743. Office hours are 8 a.m. to 4:30 p.m. Information maintained in our electronic reading room can be accessed at *http://www.ars.usda.gov/is/foia/#Electronic*.

§ 3701.3 Requests for records.

Requests for records of ERS under 5 U.S.C. 552(a)(3) shall be made in accordance with §1.5 of this title and submitted to the FOIA Coordinator, Information Staff, ARS, REE, USDA, Mail Stop 5128, 5601 Sunnyside Avenue, Beltsville, MD 20705–5128; Telephone (301) 504–1640 or (301) 504–1655; TTY-VOICE (301) 504–1743; Facsimile (301) 504–1648; e-mail *vherberger@ars.usda.gov* or *shutchison@ars.usda.gov*. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with §1.3(c) of this title.

§ 3701.4 Multitrack processing.

(a) When ERS has a significant number of requests, the nature of which precludes a determination within 20 working days, the requests may be processed in a multitrack processing system, based on the date of receipt, the amount of work and time involved in processing the request, and whether the request qualifies for expedited processing.

(b) ERS may establish as many processing tracks as appropriate; processing within each track shall be based on a first-in, first-out concept, and rank-ordered by the date of receipt of the request.

(c) A requester whose request does not qualify for the fastest track may be given an opportunity to limit the scope of the request in order to qualify for the fastest track. This multitrack processing system does not lessen agency responsibility to exercise due diligence in processing requests in the most expeditious manner possible.

(d) ERS shall process requests in each track on a ''first-in, first-out'' basis, unless there are unusual circumstances as set forth in §1.16 of this title, or the requester is entitled to expedited processing as set forth in §1.9 of this title.

§ 3701.5 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with §1.7(a) of this title.

§ 3701.6 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with §1.14 of this title and should be addressed as follows: Administrator, ERS, U.S. Department of Agriculture, Washington, DC 20250.

§ 3701.7 Requests for published data and information.

Published data and reports produced by ERS since 1996 are available on the ERS Web site at *http://www.ers.usda.gov*. Searching on the website is available by topic, by title, or by date. The titles displayed in the search include ERS's separately published research reports as well as articles in ERS-produced periodicals. Full text of all the titles are available at no cost (usually in PDF Files). Printed copies and reports published before 1996 (while supplies last) can be purchased from the ERS-NASS sales desk at the National Technical Information Center at 1–800–999–6779 (8:30 a.m.–5 p.m., Eastern Standard Time, M-F).

CHAPTER XXXVIII—WORLD AGRICULTURAL OUTLOOK BOARD, DEPARTMENT OF AGRICULTURE

Part		*Page*
3800	Organization and functions	585
3801	Availability of information to the public	585
3802–3899	[Reserved]	

PART 3800—ORGANIZATION AND FUNCTIONS

Sec.
3800.1 General.
3800.2 Organization.
3800.3 Functions.
3800.4 Authority to act for the Chairperson.

AUTHORITY: 5 U.S.C. 301 and 552, and 7 CFR 2.72, except as otherwise noted.

SOURCE: 53 FR 5358, Feb. 24, 1988, unless otherwise noted.

§ 3800.1 General.

The World Agricultural Outlook Board (WAOB) was established on June 3, 1977, by Secretary's Memorandum 1920, entitled ''World Food and Agricultural Outlook and Situation Board.'' The primary responsibility of WAOB is to coordinate and review all commodity and aggregate agricultural and food data and analyses used to develop outlook and situation material within the Department of Agriculture.

§ 3800.2 Organization.

The central and only office of WAOB is located in Washington, DC, and consists of the Chairperson, Deputy Chairperson, and supporting staff.

§ 3800.3 Functions.

The WAOB has four major areas of responsibility:

(a) *Agricultural outlook and situation.* (1) Coordinate and review all crop and commodity data used to develop outlook and situation material within the Department of Agriculture.

(2) Oversee and clear for consistency of analytical assumptions and results, all estimates and analyses which significantly relate to international and domestic commodity supply and demand. This includes such estimates and analyses prepared for public distribution by the Foreign Agricultural Service, the Economic Research Service, or by any other agency or office of the Department.

(3) Participate in planning and developing research programs relating to improving the Department's forecasting and estimating capabilities.

(4) Provide liaison between the Department and Commodity Futures Trading Commission to assure that the futures market serves the best interest of agriculture and the public.

(5) Plan and participate in Departmental, interdepartmental, regional and international outlook conferences and briefings, to maintain an awareness of current and upcoming economic issues significant to the food and agricultural system.

(b) *Interagency commodity estimates.* (1) Establish Interagency Commodity Estimates Committees to bring together estimates and analyses from supporting agencies and to develop official estimates of supply, utilization, and prices for commodities.

(2) Review for consistency of analytical assumptions and results, all proposed decisions made by the Interagency Commodity Estimates Committee prior to any release outside the Department.

(c) *Weather and climate.* (1) Serve as a focal point within the Department for coordination of weather, climate, and related crop monitoring activities.

[53 FR 5358, Feb. 24, 1988, as amended at 79 FR 44117, July 30, 2014]

§ 3800.4 Authority to act for the Chairperson.

When the Chairperson is absent or temporarily unavailable, the Deputy Chairperson is authorized to act for the Chairperson.

PART 3801—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec.
3801.1 General.
3801.2 Public inspection, copying, and indexing.
3801.3 Requests for records.
3801.4 Denials.
3801.5 Appeals.
3801.6 Requests for published data and information.

AUTHORITY: 5 U.S.C. 301 and 552; 7 CFR 1.1–1.23 and Appendix A.

SOURCE: 53 FR 5358, Feb. 24, 1988, unless otherwise noted.

§ 3801.1 General.

This part is issued in accordance with the regulations of the Secretary of Agriculture in §§ 1.1–1.23 of this title and Appendix A thereto, implementing the Freedom of Information Act (FOIA)

(5 U.S.C. 552), and governs the availability of records of the World Agricultural Outlook Board (WAOB) to the public.

§ 3801.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. WAOB does not maintain any materials within the scope of these requirements.

§ 3801.3 Requests for records.

Requests for records of WAOB shall be made in accordance with § 1.6 (a) and (b) of this title and addressed to: Economics Agencies FOIA Officer, Economics Management Staff, USDA, Room 4310, South Building, 12th and Independence Avenue SW., Washington, DC 20250. This official is delegated authority to make determinations regarding such requests in accordance with § 1.3(a)(3) of this title.

§ 3801.4 Denials.

If the Economics Agencies FOIA Officer determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the Economics Agencies FOIA Officer shall give written notice of denial in accordance with § 1.8(a) of this title.

§ 3801.5 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be in accordance with § 1.6(e) of this title and addressed to the Chairperson, World Agricultural Outlook Board, U.S. Department of Agriculture, Washington, DC 20250.

§ 3801.6 Requests for published data and information.

Information on published data, subscription rates, and all WAOB programs is available from the Chairperson, World Agricultural Outlook Board, U.S. Department of Agriculture, Washington, DC 20250.

§ 4270.1 Purpose and scope.

(a) This part sets forth the procedures and guidelines for the implementation of the USDA Biobased Markets Program, called the BioPreferred® Program, established by section 9002 of the Farm Security and Rural Investment Act of 2002 (FSRIA) as amended by the Food, Conservation, and Energy Act of 2008, and further amended by the Agricultural Act of 2014, and the Agriculture Improvement Act of 2018 (Pub. L. 107–171, 116 Stat. 476, 7 U.S.C. 8102).

(b) The guidelines in this part establish:

(1) A process for designating categories of products that are, or can be, produced with biobased Intermediate Ingredients or feedstocks and whose procurement by procuring agencies and other relevant Stakeholders will carry out the objectives of section 9002 of FSRIA;

(2) The criteria for eligibility and the process through which Biobased Products can participate in the BioPreferred Program, be subject to preferred Federal procurement, and be eligible to display the USDA Certified Biobased Product Label;

(3) Specifications for the correct and incorrect uses of the USDA Certified Biobased Product Label and Certification Icon, which apply to Participating Organizations and Other Entities; and

(4) Actions that constitute noncompliance with this part.

§ 4270.2 Definitions

Agricultural materials. Plant, animal, and marine matter, raw materials or residues used in the manufacturing of a commercial or industrial product excluding food, feed, motor vehicle fuel, heating oil, and electricity.

Applicable minimum biobased content. The required Biobased Content level set by USDA that a product must meet or exceed to qualify for the Federal procurement preference and use of the USDA Certified Biobased Product Label.

ASTM International (ASTM). A nonprofit organization, formerly known as American Society for Testing and Materials, that provides an international forum for the development and publication of voluntary consensus standards for materials, products, systems, and services.

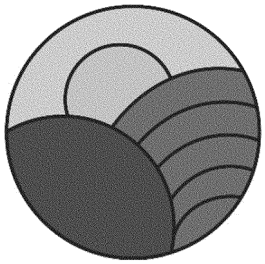
Biobased content. The amount of recent, biologically derived organic carbon in the material or product expressed as a percent of weight (mass) of the total organic carbon in the material or product.

Biobased content testing. The testing that is performed to verify a product's Biobased Content. For products participating in the BioPreferred Program, the Biobased Content is to be determined using ASTM Method D6866, Standard Test Methods for Determining the Biobased Content of Solid, Liquid, and Gaseous Samples Using Radiocarbon Analysis.

Biobased product(s). (1) A product determined by USDA to be a commercial or industrial product (other than food or feed) that is:

(i) Composed, in whole or in significant part, of Biological Products, including renewable domestic Agricultural Materials, Renewable Chemicals, and forestry materials; or

(ii) An Intermediate Ingredient or Feedstock.



(2) The term Biobased Product includes, with respect to forestry materials, Forest Products that meet Biobased Content requirements, notwithstanding the market share the product holds, the age of the product, or whether the market for the product is new or emerging. For the purposes of the BioPreferred Program, the term Biobased Product does not include motor vehicle fuels, heating oils, or electricity.

Biodegradability. A quantitative measure of the extent to which a material is capable of being decomposed by biological agents, especially bacteria.

Biological products. Products derived from living materials.

Certification icon. The distinctive image, as shown in figure 1 (note that actual size will vary depending on application), that depicts the symbols of the sun, the soil, and the aquatic environments to be used with USDA's permission to identify Certified Biobased Products. The icon will be used in materials including, but not limited to, advertisements, catalogs, procurement databases, websites, and promotional and educational materials. The colors used in the Certification Icon can be found in the USDA BioPreferred Program Brand and Marketing Guidelines available on the BioPreferred Program website (*biopreferred.gov*).

FIGURE 1 TO DEFINITION OF CERTIFIED ICON—CERTIFICATION ICON

Certified application. An application for a Biobased Product to participate in the BioPreferred Program that has completed all steps of the certification process, including an initial Prequalification review and Biobased Content Testing as required, and has received a notice of certification.

Certified biobased product. A Biobased Product that is eligible for preferred Federal procurement because it meets the definition and Applicable Minimum Biobased Content criteria for one or more Designated Product Categories as specified in the Register of Designated Categories, and for which the Participating Organization has received approval from USDA to utilize the USDA Certified Biobased Product Label.

Complex assembly. A system of distinct materials and components assembled to create a finished product with specific functional intent where some or all of the system components contain some amount of biobased material or feedstock.

Days. As used in this part means calendar Days.

Defined product category. Any product category that has been established for a specified grouping of Biobased Products with similar characteristics and intended uses. A Defined Product Category includes a description of the product characteristics that fall within the category. The other product category is not a Defined Product Category.

Designated product category. A grouping of Biobased Products, including finished products, Intermediate Ingredients or Feedstocks, and Complex Assemblies, identified in the Register of Designated Categories on the BioPreferred Program website (*biopreferred.gov*). Certified or Qualified

Biobased Products that meet the criteria for at least one designated category are eligible for the procurement preference established under section 9002 of FSRIA.

Designated representative. An entity authorized by a Participating Organization to act on their behalf to obtain certification or to affix the USDA Certified Biobased Product Label to the Participating Organization's Certified Biobased Product or its packaging or perform other marketing functions.

Federal agency. Any executive agency or independent establishment in the legislative or judicial branch of the Government (except the Senate, the House of Representatives, the Architect of the Capitol, and any activities under the Architect's direction).

Forest product. A product made from materials derived from the practice of forestry or the management of growing timber. The term Forest Product includes:

(1) Pulp, paper, paperboard, pellets, lumber, and other wood products; and

(2) Any recycled products derived from forest materials.

Formulated product. A product that is prepared or mixed with other Ingredients, according to a specified formula and includes more than one Ingredient.

FSRIA. The Farm Security and Rural Investment Act of 2002, Public Law 107–171, 116 Stat. 134 (7 U.S.C. 8102).

Ingredient. A component, or a part of a compound or mixture, that may be active or inactive.

Innovative criteria. Benchmark for demonstrating new and emerging approaches in the growing, harvesting, sourcing, procuring, processing, manufacturing, or application of the Biobased Product. Biobased Products must meet one of the Innovative Criteria as defined by USDA to be eligible for preferred Federal procurement and to display the USDA Certified Biobased Product Label.

Intermediate ingredient or feedstock. A material or compound made in whole or in significant part from Biological Products, including renewable Agricultural Materials (including plant, animal, and marine materials) or forestry materials that have undergone value added processing (including thermal, chemical, biological, or a significant amount of mechanical processing), excluding harvesting operations, offered for sale by a Participating Organization and that is subsequently used to make a more complex compound or product.

ISO. The International Organization for Standardization, a network of national standards institutes working in partnership with international organizations, governments, industries, business, and consumer representatives.

ISO 9001 conformant. An entity that meets all the requirements of the ISO 9001 standard, but that is not required to be ISO 9001 certified. ISO 9001 refers to the ISO's standards and guidelines relating to quality management systems. Quality management is defined as what the manufacturer does to ensure that its products or services satisfy the customer's quality requirements and comply with any regulations applicable to those products or services.

Other entity. Any person, group, public or private organization, or business other than USDA or Participating Organizations that may wish to use the USDA Certified Biobased Product Label or Certification Icon in informational or promotional material related to a Certified Biobased Product.

Parent product. The Certified Biobased Product in a test exempt relationship that was originally tested for certification. A test exempt product references the Certified Application of its Parent Product.

Participating organization. An entity that has completed the steps required to have a Certified and/or Qualified Biobased Product under the BioPreferred Program. Participants can include entities that perform the necessary chemical and mechanical processes to make a Biobased Product, and entities that offer for sale Biobased Products that they do not manufacture but that are marketed and sold under their own brand.

Prequalification. The step during the certification process at which an application is conditionally approved pending the product undergoing Biobased Content Testing.

Procuring agency. Any Federal Agency that is using Federal funds for procurement or any business contracting

with any Federal Agency with respect to work performed under the contract.

Qualified biobased product(s). A product that is eligible for preferred Federal procurement because it meets the definition and Applicable Minimum Biobased Content criteria for one or more Designated Product Categories as specified in the Register of Designated Categories.

Register of Designated Categories. The list of product categories that are eligible for the procurement preference established under section 9002 of FSRIA, including the category name, description, required minimum Biobased Content, and date of finalization. The Register of Designated Categories can be found on the BioPreferred Program website at *biopreferred.gov*.

Renewable chemical. A monomer, polymer, plastic, Formulated Product, or chemical substance produced from renewable biomass.

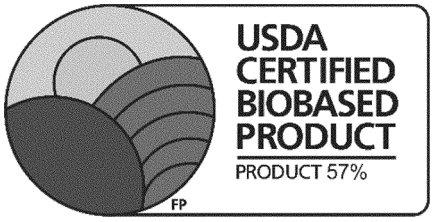
Secretary. The Secretary of the United States Department of Agriculture.

Stakeholder. Individuals or officers of State or local government organizations, private non-profit institutions, or organizations, and private businesses or consumers.

USDA. The United States Department of Agriculture.

USDA Certified Biobased Product label. A combination of the Certification Icon (as defined in this part); one of three statements identifying whether the USDA certification applies to the product, the package, or both the product and package; and the letters ''FP'' to indicate that the product is within a Designated Product Category and eligible for preferred Federal procurement. The distinctive image, as shown in figures 2, 3, and 4 (note that actual size will vary depending on application), identifies products as USDA Certified Biobased Products. The colors used in the USDA Certified Biobased Product Label can be found in the USDA BioPreferred Program Brand and Marketing Guidelines available on the BioPreferred Program website (*biopreferred.gov*). The USDA Certified Biobased Product Label is owned and its use is managed by USDA (standard trademark law definition applies).

FIGURE 2 TO DEFINITION OF USDA CERTIFIED BIOBASED PRODUCT LABEL—USDA CERTIFIED BIOBASED PRODUCT LABEL



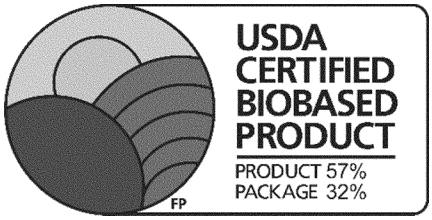


FIGURE 3 TO DEFINITION OF USDA CERTIFIED BIOBASED PRODUCT LABEL—USDA CERTIFIED BIOBASED PACKAGE LABEL

FIGURE 4 TO DEFINITION OF USDA CERTIFIED BIOBASED PRODUCT LABEL—USDA CERTIFIED BIOBASED PRODUCT & PACKAGE LABEL

§ 4270.3 Applicability.

(a) *Applicability to Federal procurements*—(1) *Applicability to procurement actions.* The guidelines in this part apply to all procurement actions by Procuring Agencies involving product categories designated by USDA in this part, where the Procuring Agency makes purchases of $10,000 or more of one of these products during a fiscal year, or where the quantity of such products or of functionally equivalent products purchased during the preceding fiscal year was $10,000 or more. The $10,000 threshold applies to Federal Agencies as a whole rather than to agency subgroups such as regional offices or subagencies of a larger Federal department or agency.

(2) *Exception for procurements subject to Environmental Protection Agency (EPA) regulations under the Solid Waste Disposal Act.* For any procurement by any Procuring Agency that is subject to regulations of the Administrator of the EPA under section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976 (40 CFR part 247), these guidelines do not apply to the extent that the requirements of this part are inconsistent with such regulations.

(3) *Procuring products composed of the highest percentage of Biobased Content.* Section 9002(a)(2) of FSRIA (7 U.S.C. 8102(a)(2)) requires Procuring Agencies to procure Qualified Biobased Products composed of the highest percentage of Biobased Content practicable. Procuring agencies may decide not to procure such Qualified Biobased Products if they are not reasonably priced or readily available or do not meet specified or reasonable performance standards.

(4) *Incidental purchases.* This part does not apply to purchases of Qualified Biobased Products that are unrelated to or incidental to Federal funding (*i.e.*, purchases that are not the direct result of a contract or agreement with persons supplying products to a Procuring Agency or providing support services that include the supply or use of products).

(5) *Exemptions.* The following applications are exempt from the preferred procurement requirements of this part:

(i) Military equipment: Products or systems designed or procured for combat or combat-related missions.

(ii) Spacecraft systems and launch support equipment.

(b) *Applicability to Participating Organizations and Other Entities*—(1) *Participating Organizations.* The requirements in this part apply to all prospective Participating Organizations who wish to participate in the BioPreferred Program. Those wishing to participate in the BioPreferred Program are required to obtain and maintain product certification. USDA will allow only one owner or Designated Representative of a branded product to participate. Participating Organizations may not obtain product certification for a product using a brand name owned by a separate organization unless they are acting on behalf of the brand owner, with their approval, as a Designated Representative.

(2) *Other Entities.* The requirements in this part apply to Other Entities who wish to use the USDA Certified Biobased Product Label or Certification Icon in promoting the sales or

the public awareness of Certified Biobased Products.

§ 4270.4 Criteria for eligibility.

A product must meet each of the criteria specified in paragraphs (a) through (c) of this section to be eligible to participate in the BioPreferred Program.

(a) *Biobased Product.* The product for which certification is sought must be a Biobased Product as defined in § 4270.2. Products must undergo Biobased Content Testing as described in § 4270.7 of this part to confirm the products meet or exceed the applicable minimums.

(1) *Products that are qualified for preferred Federal procurement but not certified as of the date of publication of this rule.* If the product is qualified for preferred Federal procurement through the BioPreferred Program as of January 8, 2025, the product will remain eligible under the legacy rules, which can be found on the BioPreferred Program website (*biopreferred.gov*), until the product is reformulated, discontinued, or until December 9, 2027, whichever comes first. These products must follow the procedures described in § 4270.9 before December 9, 2027 to remain eligible.

(2) *Exclusions.* Motor vehicle fuels, heating oil, and electricity are excluded by statute from this Program. For the purposes of this Program, food, animal feed, and products intended to be ingested or inhaled such as pharmaceuticals or nutraceuticals are also excluded.

(b) *Minimum Biobased Content.* The Biobased Content of the product must be equal to or greater than the Applicable Minimum Biobased Content, as described in paragraphs (b)(1) and (2) of this section.

(1) *Products that fall under one or more Defined Product Categories*—(i) *Product is within a single product category.* If the Biobased Product is within a single Defined Product Category that, at the time the application for certification is submitted, has been designated by USDA for preferred Federal procurement, the Applicable Minimum Biobased Content requirement for the product is the minimum Biobased Content specified for the Defined Product Category as found in the Register of Designated Categories on the BioPreferred Program website at *biopreferred.gov*.

(ii) *Product is within multiple product categories.* If the Biobased Product is marketed within more than one Defined Product Category identified for preferred Federal procurement at the time the application for certification is submitted and uses the same packaging for each use, the product's Biobased Content must meet or exceed the specified minimum Biobased Content for each of the applicable product categories, as found in the Register of Designated Categories on the BioPreferred Program website at *biopreferred.gov*, to become certified in each category. If the product's Biobased Content does not meet the specified minimum Biobased Content for the category that most closely matches the product's primary intended use, the product is not eligible to participate.

(2) *Products that do not meet the definition of at least one Defined Product Category.* If the Biobased Product does not meet the definition of a Defined Product Category that has been designated by USDA at the time the application for certification is submitted, the Applicable Minimum Biobased Content is 30 percent. USDA will evaluate such products as described in § 4270.6 to determine the viability of designating a new product category. If a new category is subsequently designated for preferred Federal procurement, the Applicable Minimum Biobased Content will become, as of the effective date indicated in the Register of Designated Categories, the minimum Biobased Content specified for the newly Defined Product Category.

(c) *Innovative Criteria.* In determining eligibility for certification under the BioPreferred Program, USDA will consider as eligible only those products that use innovative approaches in the growing, harvesting, sourcing, procuring, processing, manufacturing, or application of the Biobased Product. USDA will consider products that meet one or more of the criteria in paragraphs (c)(1) through (4) of this section to be eligible for certification. USDA will also consider other documentation of innovative approaches in the growing, harvesting, sourcing, procuring,

processing, manufacturing, or application of Biobased Products on a case-by-case basis. USDA may deny or revoke certification for any products whose manufacturers are unable to provide USDA with the documentation necessary to verify claims that innovative approaches are used.

(1) *Product applications.* (i) The Biobased Product or material is used or applied in applications that differ from historical applications; or

(ii) The Biobased Product or material is grown, harvested, manufactured, processed, sourced, or applied in other innovative ways; or

(iii) The Biobased Content of the product or material makes its composition different from products or material used for the same historical uses or applications.

(2) *Manufacturing and processing.* (i) The Biobased Product or material is manufactured or processed using renewable, biomass energy or using technology that is demonstrated to increase energy efficiency or reduce reliance on fossil-fuel based energy sources; or

(ii) The Biobased Product or material is manufactured or processed with technologies that reduce waste and ensure high feedstock material recovery and use.

(3) *Environmental Product Declaration.* The product has a current Environmental Product Declaration as defined by International Standard ISO 14025, Environmental Labels and Declarations—Type III Environmental Declarations—Principles and Procedures.

(4) *Raw material sourcing.* (i) The raw material used in the product is sourced from a Legal Source, a Responsible Source, or a Certified Source as designated by ASTM D7612 (Standard Practice for Categorizing Wood and Wood-Based Products According to Their Fiber Sources); or

(ii) The raw material used in the product is 100% resourced or recycled (such as material obtained from building deconstruction or agricultural wastes); or

(iii) The raw material used in the product is acquired as a result of activities related to a natural disaster, debris clearing, right-of-way maintenance, tree health improvement, or public safety; or

(iv) The raw material used in the product is grown, harvested, manufactured, processed, sourced, or applied in other sustainable and ethically sourced ways as determined by USDA. Examples include but are not limited to rainforest and habitat conservation, wildlife protection, ethical workplace practices, and adherence to environmental management systems, such as ISO 14001.

§ 4270.5 Procurement programs.

(a) *Integration into the Federal procurement framework.* The Office of Federal Procurement Policy, in cooperation with USDA, has the responsibility to coordinate this policy's implementation in the Federal procurement regulations. These guidelines are not intended to address full implementation of these requirements into the Federal procurement framework. This will be accomplished through revisions to the Federal Acquisition Regulation.

(b) *Federal Agency preferred procurement programs.* (1) Each Federal Agency will maintain and implement a procurement program that will assure that Qualified Biobased Products are purchased to the maximum extent practicable and that is consistent with applicable provisions of Federal procurement laws. Each procurement program will contain:

(i) A preference program for purchasing Qualified Biobased Products;

(ii) A training program to educate the Federal Agency and its contractors on the requirements for purchasing Qualified Biobased Products;

(iii) Provisions for the annual review and monitoring of the effectiveness of the procurement program;

(iv) Provisions for reporting quantities and types of Biobased Products purchased by the Federal Agency and its contractors through the BioPreferred Program Portal in the System for Award Management (*https://sam.gov*) as required by 48 CFR 52.223–2; and

(v) Provisions for reviewing and eliminating specifications that prohibit the purchasing of Qualified Biobased Products.

(2) In developing their preference program, Federal agencies will adopt one

of the following options, or a substantially equivalent alternative, as part of the procurement program:

(i) A policy of awarding contracts on a case-by-case basis to the vendor offering a Qualified Biobased Product composed of the highest percentage of Biobased Content practicable except when such products:

(A) Are not available within a reasonable timeframe;

(B) Fail to meet performance standards for their intended use, or the reasonable performance standards of the Federal Agency; or

(C) Are not available at a reasonable price.

(ii) A policy of setting minimum Biobased Content specifications in such a way as to assure that the required Biobased Content of Qualified Biobased Products is consistent with section 9002 of FSRIA and the requirements of the guidelines in this part.

(iii) A policy of documenting and reporting cases where it is not possible to award contracts and set specifications in such a way that is consistent with section 9002 of FSRIA and the requirements of this part.

(3) In implementing the preference program, Federal agencies will treat as eligible for the preference Biobased Products from designated countries, as that term is defined in 48 CFR 25.003 (Federal Acquisition Regulation), provided that those products otherwise meet all requirements for participation in the preference program.

(4) Each Federal Agency will continue to establish an annual targeted biobased-only procurement requirement under which the Procuring Agency will issue a certain number of biobased-only contracts when the Procuring Agency is purchasing products, or purchasing services that include the use of products, that are included in a Biobased Product category designated by the Secretary.

(c) *Procurement specifications.* Federal agencies that have the responsibility for drafting or reviewing specifications for products procured by Federal agencies will ensure that their specifications require the use of Qualified Biobased Products, consistent with the guidelines in this part. These specifications must be put in place no later than six months after a designated category of products is finalized and added to the Register of Designated Categories. USDA will identify the allowable time frame for specifications to be put in place in the Register of Designated Categories found on the BioPreferred Program website at *biopreferred.gov*. The Biobased Content of Qualified Biobased Products within a Designated Product Category may vary considerably from product to product based on the mix of Ingredients used in its manufacture. In procuring Qualified Biobased Products, the percentage of Biobased Content should be maximized, consistent with achieving the desired performance for the product.

§ 4270.6 Category designation.

(a) *Procedure.* Designated Product Categories are found in the Register of Designated Categories on the BioPreferred Program website (*biopreferred.gov*).

(1) *General.* In designating product categories, USDA will designate categories composed of generic groupings of specific products, Intermediate Ingredients or Feedstocks, or Complex Assemblies and will identify the minimum Biobased Content for each listed category or subcategory. As product categories are designated for procurement preference, they will be added to the Register of Designated Categories on the BioPreferred Program website at *biopreferred.gov*.

(i) *Adding new product categories to the Register of Designated Categories.* If a product does not fall within a Defined Product Category that has been designated by USDA at the time the application for certification is submitted, the Applicable Minimum Biobased Content is 30 percent, and it will be listed in the other product category. USDA will evaluate the viability of designating new product categories to categorize products in the other product category more appropriately, following the procedure described in paragraphs (a)(1)(i)(A) through (D) of this section.

(A) New Defined Product Categories that are identified during the category evaluation process will be added to the Register of Designated Categories on the BioPreferred Program website

(*biopreferred.gov*). Using the data gathered during the certification process, USDA will establish a provisional category name, definition, and minimum Biobased Content for each new product category based on the product(s) that fall within the new category.

(B) The provisional minimum will be in place for a period of six months following the addition of the new Defined Product Category to the Register of Designated Categories. During that time, any product that falls within the category based on the category definition and has a Biobased Content that is either at least 30 percent or within 30 percentage points of the provisional minimum, whichever is higher, will be considered for inclusion.

(C) After a period of six months following the addition of the new product category to the Register of Designated Categories, USDA will re-evaluate the provisional category name, description, and minimum Biobased Content based on the data gathered during the year. At that time, USDA will make final the product category name, description, and minimum Biobased Content, and the category will no longer be considered provisional.

(D) Procuring agencies, in accordance with this part, are encouraged to give a procurement preference for Qualified Biobased Products that falls within provisionally designated categories and are required to give a procurement preference for Qualified Biobased Products that falls within designated categories no later than six months after the finalized product category is added to the Register of Designated Categories. By that date, Federal agencies responsible for products to be procured will ensure that the relevant specifications require the use of Biobased Products that fall within the designated categories.

(ii) *Revising Defined Product Categories on the Register of Designated Categories.* USDA will periodically evaluate the need to update the product categories included in the Register of Designated Categories by reviewing items including, but not limited to, the category names, definitions, minimum Biobased Contents, subcategories, and the need for the category or subcategory. If the data support making updates, USDA will amend the category and publish the updated category to the Register of Designated Categories. No later than six months after the amended category is published to the Register of Designated Categories, procuring agencies, in accordance with this part, will give a procurement preference for Qualified Biobased Products that fall within the amended designated category. By that date, Federal agencies responsible for products to be procured will ensure that the relevant specifications require the use of Biobased Products that fall within the designated categories.

(2) *Public comments.* Interested parties, including manufacturers, vendors, groups of manufacturers and/or vendors, and trade associations may propose an alternative Applicable Minimum Biobased Content for a new, provisional, defined, or Designated Product Category by, in consultation with USDA, developing and conducting an analysis to support the proposed alternative Applicable Minimum Biobased Content. If approved by USDA, the proposed alternative Applicable Minimum Biobased Content would become the Applicable Minimum Biobased Content for products that fall within that category to be certified.

(3) *Continued eligibility.* If the applicable required minimum Biobased Content for a product to be eligible to participate in the BioPreferred Program is revised by USDA, the product will remain certified or qualified, as applicable, only if it meets the new minimum Biobased Content level. In those cases where the Biobased Content of a certified or qualified product fails to meet the new minimum Biobased Content level, USDA will notify the Participating Organization that their certification is no longer valid. Such Participating Organizations must notify USDA of their intent to increase the Biobased Content of their product to a level at or above the new minimum Biobased Content level within 120 Days and must re-apply for certification within an additional 120 Days if they wish to continue to participate in the Program. The affected product's certification will expire if the Participating Organization does not notify USDA of the intent to reformulate within 120 Days or if the Participating

Organization does not re-apply within the additional 120 Days. Participating Organizations who have re-applied for certification may continue using the existing USDA Certified Biobased Product Label until they receive notification from USDA on the results of their re-application for certification.

(b) *Considerations.* (1) In designating product categories, USDA will consider the availability of Qualified Biobased Products and the economic and technological feasibility of using such products, including price. USDA will gather information on individual Qualified Biobased Products within a category and extrapolate that information to the category level for consideration in designating product categories.

(2) In designating product categories for the BioPreferred Program, USDA will consider as eligible only those products that use innovative approaches in growing, harvesting, sourcing, procuring, processing, manufacturing, or application of the Biobased Product. USDA will consider products that meet one or more of the criteria in § 4270.4(b)(1) and (2) to be eligible for the BioPreferred Program. USDA will also consider other documentation of innovative approaches in growing, harvesting, sourcing, procuring, processing, manufacturing, or application of Biobased Products on a case-by-case basis.

§ 4270.7 Determining Biobased Content.

(a) *Certification requirements.* For any Biobased Product seeking to participate in the BioPreferred Program, prospective Participating Organizations must submit an application as specified in § 4270.9 and confirm that the product meets the Applicable Minimum Biobased Content requirements and the definition for the Defined Product Category within which the Biobased Product falls. Paragraph (c) of this section addresses how to determine Biobased Content. Upon request, manufacturers and vendors must provide USDA and Federal agencies information to verify Biobased Content claims for Qualified Biobased Products.

(b) *Minimum Biobased Content.* Unless specified otherwise in the designation of a particular product category, the minimum Biobased Content requirements in a specific category designation refer to the organic carbon portion of the product, and not the entire product.

(c) *Determining Biobased Content.* Verification of Biobased Content must be based on third party ASTM/ISO compliant test facility testing using the ASTM Standard Method D6866 (Standard Test Methods for Determining the Biobased Content of Solid, Liquid, and Gaseous Samples Using Radiocarbon Analysis). ASTM Standard Method D6866 determines Biobased Content based on the amount of biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the product.

(1) *General.* Biobased Content will be based on the amount of biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the product.

(2) *Complex Assemblies*—(i) *Equation.* The Biobased Content of a Complex Assembly product, where the product has n components whose Biobased Content and organic carbon content can be experimentally determined, may be calculated using the following equation:

$$Biobased\ Content\ of\ Product = \frac{\sum_{i=1}^{n} M_i * BBC_i * OCC_i}{\sum_{i=1}^{n} M_i * OCC_i}$$

Where:

M_i = mass of the ith component

BCC_i = biobased carbon content of the ith component (%)

OCC_i = organic carbon content of the ith component (%)

(ii) *Proportional sampling.* The Biobased Content of an Assembly product may be determined by sub-sampling (by weight) each organic constituent in a proportion representative of its content within the assembly and

combining the sub-samples into a measurable quantity so that a single ASTM D6866 analysis of the combined sub-samples is representative of the assembly.

(d) *Products and Intermediate Ingredients or Feedstocks with the same formulation*. In the case of products and Intermediate Ingredients or Feedstocks that are essentially the same formulation but marketed under more than one brand name, Biobased Content test data may be shared as specified in paragraphs (d)(1) and (2) of this section.

(1) *Test exemptions*. In situations where a new product for which certification is sought is composed of the same Ingredients and has the same Biobased Content as a product that has already been certified and tested by a company that the interested party has a direct relationship with, the interested party may apply for a test exemption by referencing the Certified Application of the certified Parent Product in lieu of having the new product undergo Biobased Content Testing using ASTM D6866.

(2) *Families*. In situations where a Participating Organization is seeking certification for two or more products that are composed of the same Ingredients and have the same Biobased Content but are marketed for different uses or under more than one brand name, the products may be grouped in a family. Biobased Content test data must only be obtained for one of the products in the family, and the test data will apply to all products within the family.

§ 4270.8 [Reserved]

§ 4270.9 Initial approval process.

(a) *Application*. Prospective Participating Organizations seeking USDA approval to use the USDA Certified Biobased Product Label and to become qualified for preferred Federal procurement for an eligible Biobased Product must submit an application for each Biobased Product or product family. USDA has developed a standardized application form that must be used. The standardized application form and instructions are available on the BioPreferred Program website (*biopreferred.gov*). The contents of an acceptable application are as specified in paragraphs (a)(1) and (2) of this section.

(1) *General content*. The applicant must provide the information as specified in paragraphs (a)(1)(i) though (viii) of this section.

(i) Contact information, including the name, mailing address, email address, and telephone number of the applicant.

(ii) The product's brand name(s) or other identifying information.

(iii) Intended uses of the product.

(iv) The biobased source(s) of the raw materials used in the product.

(v) Information to document that one or more of the Innovative Criteria specified in § 4270.4(c) has been met.

(vi) The corresponding Designated Product Category classification for preferred Federal procurement.

(vii) The estimated Biobased Content of the product.

(viii) A web link directly to the applicant's website (if available).

(2) *Commitments*. The applicant must verify in the application that the product for which use of the USDA Certified Biobased Product Label is sought is a Biobased Product as defined in § 4270.2. The applicant must also agree to statements in the application that commit the applicant to submitting to USDA the information specified in paragraphs (a)(1)(i) through (viii) of this section, some of which USDA will post to the BioPreferred Program website (*biopreferred.gov*), and to providing USDA with up-to-date information on this website.

(b) *Evaluation of applications*—(1) *Initial evaluation*. USDA will evaluate each application to determine if it contains the information specified in paragraph (a) of this section and to determine compliance with the criteria specified in § 4270.4. If USDA determines that the application is incomplete, USDA will contact the applicant via email with an explanation of the application's deficiencies. Once the deficiencies have been addressed, the applicant may respond to USDA with an explanation of how the application's deficiencies were addressed for re-evaluation by USDA, and USDA will update the application as needed. If the applicant does not provide a response within

90 Days, USDA will make the application inactive.

(2) *Prequalification.* (i) USDA will provide a written response to each applicant as quickly as practicable, but no later than 90 Days after the receipt of a complete application, depending on the responsiveness of the applicant. The written response will inform the applicant of whether the application has been conditionally approved, or prequalified, to move forward to Biobased Content Testing, or has been disapproved. After notification that the application has been conditionally approved, if any of the information specified in paragraphs (a)(1)(i) through (viii) of this section has changed, the applicant must provide updates to USDA (for posting by USDA on the BioPreferred Program website).

(ii) For those applications that are conditionally approved to move forward, Biobased Content Testing must be completed as described in § 4270.7. Test results obtained prior to the application being conditionally accepted or obtained in a manner that does not comply with this part cannot be accepted.

(iii) After Biobased Content Testing has been completed, USDA will evaluate the results and determine if the product meets the criteria described in § 4270.4(b). For those applications that meet the criteria described in § 4270.4(b), USDA will issue a notice of certification, as specified in paragraph (c) of this section. A notice of certification must be issued before the use of the USDA Certified Biobased Product Label can begin.

(iv) For those applications that are disapproved, USDA will inform the applicant in writing of each criterion not met.

(c) *Notice of certification.* Once USDA confirms that the test results document an acceptable Biobased Content, USDA will issue a notice of certification to the applicant that includes the date of certification, name of the product(s) covered by the certification, and certified Biobased Content of the product(s). Upon receipt of a notice of certification, the applicant may begin using the USDA Certified Biobased Product Label on the Certified Biobased Product and may advertise that the product is a Certified Biobased Product. Paragraph (c)(1) of this section presents the procedures for revising the information provided under paragraphs (a)(1)(i) through (viii) of this section after a notice of certification has been issued.

(1) If at any time, during the application process or after a product has been certified, any of the information specified in paragraphs (a)(1)(i) through (viii) of this section changes, the applicant must notify USDA of the change within 30 Days. Such notification must be provided in writing via email to USDA. Failure to notify USDA of any change made to a Certified Biobased Product may result in the violation actions described in § 4270.12.

(2) After receiving the notice of certification, the Participating Organization may request to display a Biobased Content percentage that is lower than the content measured by the ASTM D6866 test results but is greater than or equal to the applicable category minimums. Such requests must be sent in writing via email to USDA and must be approved by USDA.

(3) If, after reviewing the test results, USDA determines that the product does not meet the Applicable Minimum Biobased Content, USDA will issue a notice of denial of certification and will inform the applicant in writing via email of each criterion not met.

(d) *Term of certification*—(1) *General.* The effective date of certification is included in the notice of certification from USDA. Except as specified in paragraphs (d)(1)(iii) and (iv) and (d)(2) through (4) of this section, certifications will remain in effect for five years. The applicant will be notified 90 Days before the certification expires, at which time, the product must be retested in accordance with the procedure as specified in § 4270.7.

(i) If the certification is not renewed within the 90 Days, the product certification will expire, the product will no longer be a Certified Biobased Product, and the product information will be removed from the BioPreferred Program website (*biopreferred.gov*).

(ii) If a Participating Organization whose product certification has expired wishes to renew the certification, the

participant must follow the procedures required for original certification.

(iii) All certifications are subject to periodic USDA auditing activities, as described in § 4270.15. If a Participating Organization fails to participate in such audit activities or if such audit activities reveal Biobased Content violations, as specified in § 4270.12, the certification will be subject to suspension and revocation according to the procedures specified in § 4270.12(c)(3).

(iv) If USDA discovers that a certification has been issued for an ineligible product as a result of errors on the part of USDA during the approval process, USDA will notify the Participating Organization in writing that the certification is revoked effective 30 Days from the date of the notice.

(2) *Reformulations.* If at any time during the term of certification a Certified Biobased Product is reformulated, the participant must notify USDA of the change. USDA will consider the changes and inform the participant if re-testing is required as specified in paragraphs (d)(2)(i) through (iii) of this section.

(i) If the product formulation or raw materials of a Certified Biobased Product are changed such that the Biobased Content of the product is reduced to a level below that reported in the Certified Application, the existing certification will no longer be valid for the product under these revised conditions and the Participating Organization and its Designated Representatives must discontinue affixing the USDA Certified Biobased Product Label to the product and must not initiate any further advertising of the product using the USDA Certified Biobased Product Label. USDA will consider a product under such revised conditions to be a reformulated product, and the Participating Organization must submit a new application for certification using the procedures specified in paragraph (a) of this section.

(ii) If the product formulation of a Certified Biobased Product is changed such that the Biobased Content of the product is increased from the level reported in the Certified Application, and the raw materials are not significantly changed, the existing certification will continue to be valid for the product.

(iii) If the applicable required minimum Biobased Content for a product to participate in the BioPreferred Program is revised by USDA, Participating Organizations must follow the requirements specified in § 4270.6(a)(3).

(3) *Test exemptions.* For those products that are exempt from Biobased Content Testing as described in § 4270.7, the test exempt certification will expire at the same time as the Certified Application of the Parent Product.

(4) *Special considerations.* (i) For those Participating Organizations who have Qualified Biobased Products that are not certified as of January 8, 2025. USDA will solicit Biobased Content test data obtained using the ASTM D6866 test method. Participants who provide USDA with ASTM D6866 test data that has been obtained within the past five years from January 8, 2025 and whose products meet the requirements as described in § 4270.4 will receive certification for their products covered by the test data. The term of certification as described in paragraph (d)(1) of this section will then apply.

(ii) Participants who have Qualified Biobased Products that are not certified as of January 8, 2025 and do not provide recent ASTM D6866 test results within three years of the publication of this rule will be required to have their products tested and certified as described in § 4270.7. If certification is not completed within three years of the publication of this rule, these Biobased Products will no longer be listed as Qualified Biobased Products on the BioPreferred Program's website (*biopreferred.gov*) and will be removed from the BioPreferred Program's website (*biopreferred.gov*).

(iii) For those participants who have Certified Biobased Products that have been certified for more than five years as of the date of publication of this rule, USDA will require that the certification be renewed as described in paragraph (d)(1) of this section within three years of January 8, 2025. If an application for renewal is not completed within three years, the product certification will expire, the product will no longer be a Certified Biobased Product, and the product information will be removed from the BioPreferred Program website (*biopreferred.gov*).

§ 4270.10 [Reserved]

§ 4270.11 Requirements associated with promotional certification materials.

(a) *How participation in the BioPreferred Program can be promoted.* Guidance on promoting participation in the BioPreferred Program is provided in paragraphs (a)(1) and (2) of this section. USDA will evaluate additional requests for uses of promotional materials or references to the Program and will offer guidance on the BioPreferred Program website (*biopreferred.gov*).

(1) *Participating Organizations.* Only Participating Organizations that have received a notice of certification, or Designated Representatives of the Participating Organization, may utilize certification materials provided by the BioPreferred Program. A Participating Organization that has received a notice of certification for a product under this part:

(i) May use the USDA Certified Biobased Product Label (in one of the approved variations, as applicable) on the product, its packaging, and other related materials including, but not limited to, advertisements, catalogs, specification sheets, procurement sheets, procurement databases, promotional material, websites, or user manuals for that product, according to the requirements set forth in this section.

(ii) Is responsible for the manner in which the USDA Certified Biobased Product Label is used by its companies, as well as its Designated Representatives, including advertising agencies, marketing and public relations firms, and subcontractors.

(2) *Other Entities.* Other Entities who have entered into a partnership agreement with USDA may use the BioPreferred Program's promotional certification materials to advertise or promote Certified Biobased Products in materials including, but not limited to, advertisements, catalogs, procurement databases, websites, and promotional and educational materials. Other Entities may use:

(i) The Certification Icon;

(ii) The phrase ''USDA Certified Biobased Product/Package/Product & Package,'' as applicable; and

(iii) The BioPreferred Program name in general statements as described in paragraph (b) of this section, as long as the statements do not imply that a non-certified product is certified or endorsed by USDA.

(b) *Correct usage of the USDA Certified Biobased Product Label and other promotional certification materials.* (1) The USDA Certified Biobased Product Label can be affixed only to Certified Biobased Products and their associated packaging.

(2) The USDA Certified Biobased Product Label may be used in material including, but not limited to, advertisements, catalogs, procurement databases, websites, and promotional and educational materials to distinguish certified products from those that are not certified. The USDA Certified Biobased Product Label may be used in advertisements for both Certified Biobased Products and non-certified/labeled products if the advertisement clearly indicates which products are certified/labeled. Care must be taken to avoid implying that any non-certified products are certified.

(3) When educating the public about the USDA Certified Biobased Product Label, the watermarked sample version of the USDA Certified Biobased Product Label may be used without reference to a specific Biobased Product. For example, the following or similar claims are acceptable: ''Look for the 'USDA Certified Biobased Product Label. It means that the product meets USDA standards for the minimum amount of Biobased Content and the manufacturer or vendor has provided relevant information on the product to be posted on the BioPreferred Program website (*biopreferred.gov*).'' This exception allows Participating Organizations or Other Entities to use a sample USDA Certified Biobased Product Label in documents such as corporate reports, but only in an informative manner, not as a statement of product certification.

(4) The USDA Certified Biobased Product Label may appear next to a picture of the Certified Biobased Product(s) or text describing it.

(5) The USDA Certified Biobased Product Label must stand alone and

not be incorporated into any other certification mark or logo designs.

(6) The USDA Certified Biobased Product Label may be embossed, stamped, or used as a watermark provided the use does not violate any BioPreferred Program brand standards or usage restrictions specified in this part.

(7) The text portion of the USDA Certified Biobased Product Label must be written in English and may not be translated, even when the certification mark is used outside of the United States.

(c) *Incorrect usage of the USDA Certified Biobased Product Label and other promotional certification materials.* (1) The USDA Certified Biobased Product Label will not be used on any product that has not been certified by USDA as a ''USDA Certified Biobased Product.''

(2) The USDA Certified Biobased Product Label will not be used in a way that does not maintain the integrity of the label and the BioPreferred Program.

(3) The word ''BioPreferred'' will not be used as a descriptor for anything other than the Program, including but not limited to products, categories, and companies. The BioPreferred Program name, the word ''BioPreferred,'' and the phrase ''USDA Certified Biobased Product'' are not interchangeable. For example, certified products may not be referenced as being ''BioPreferred products.''

(4) The USDA Certified Biobased Product Label will not be used on any advertisements or informal materials where both Certified Biobased Products and non-certified products are shown unless it is clear that the USDA Certified Biobased Product Label applies to only the Certified Biobased Product(s).

(5) The BioPreferred Program name and the USDA Certified Biobased Product Label will not be used to imply endorsement by USDA or the BioPreferred Program of any particular product, service, or company.

(6) The BioPreferred Program name and the USDA Certified Biobased Product Label will not be used in any form that could be misleading to the consumer.

(7) The BioPreferred Program name and the USDA Certified Biobased Product Label will not be used by manufacturers or vendors of Certified Biobased Products in a manner disparaging to USDA or any other government body.

(8) The BioPreferred Program name, the word ''BioPreferred,'' the USDA Certified Biobased Product Label, and the Certification Icon will not be altered or incorporated into other label or logo designs.

(9) The USDA Certified Biobased Product Label will not be used on business cards, company letterhead, company stationary, or email signatures.

(10) The BioPreferred Program name, the word ''BioPreferred,'' the USDA Certified Biobased Product Label, and the Certification Icon will not be used in, or as part of, any company name, logo, product name, service, or website, except as may be provided for in this part.

(11) The BioPreferred Program name, the word ''BioPreferred,'' the USDA Certified Biobased Product Label, and the Certification Icon will not be used in a manner that violates any of the applicable requirements contained in this part.

(d) *Imported products.* The USDA Certified Biobased Product Label can be used only with a product that is certified by USDA under this part. The USDA Certified Biobased Product Label cannot be used to imply that a product meets or exceeds the requirements of biobased programs in other countries. Products imported for sale in the U.S. must adhere to the same guidelines as U.S. sourced Biobased Products. Any product sold in the U.S. as a ''USDA Certified Biobased Product/Package/Product & Package'' must have received certification from USDA.

(e) *Elements of the USDA Certified Biobased Product Label.* The USDA Certified Biobased Product Label will consist of the Certification Icon, the Biobased Content percentage, the letters ''FP'' to indicate that the product is qualified for preferred Federal procurement, and one of the three variations of text specified in paragraphs (e)(1) through (3) of this section, as applicable.

(1) USDA Certified Biobased Product: Product.

(2) USDA Certified Biobased Product: Package.

(3) USDA Certified Biobased Product: Product & Package.

(f) *Physical aspects of the USDA Certified Biobased Product Label.* The USDA Certified Biobased Product Label elements may not be altered, cut, separated into components, or distorted in appearance or perspective. The USDA Certified Biobased Product Label must appear only in the colors specified in paragraphs (f)(1) and (2) of this section unless approval is given by USDA for an exception.

(1) A multi-color version of the USDA Certified Biobased Product Label is preferred. The USDA Certified Biobased Product Label colors to be applied will be stipulated in the ''USDA BioPreferred Program Brand and Marketing Guidelines'' document available on the BioPreferred Program website (*biopreferred.gov*).

(2) Black or white outline versions of the USDA Certified Biobased Product Label are acceptable.

(g) *Placement of the USDA Certified Biobased Product Label.* (1) The USDA Certified Biobased Product Label can appear directly on a product, its associated packaging, in user manuals, and in other materials including, but not limited to, advertisements, catalogs, procurement databases, and promotional and educational materials.

(2) The USDA Certified Biobased Product Label will not be placed in a manner that is ambiguous about which product is a Certified Biobased Product or that could indicate certification of a non-certified product.

(3) When used to distinguish a Certified Biobased Product in material including, but not limited to, advertisements, catalogs, procurement databases, websites, and promotional and educational materials, the USDA Certified Biobased Product Label must appear near a picture of the product or text describing it.

(i) If all products on a page are Certified Biobased Products with the same Biobased Content percentage, the USDA Certified Biobased Product Label may be placed anywhere on that page.

(ii) If a page contains a mix of Certified Biobased Products and non-certified Biobased Products, the USDA Certified Biobased Product Label will be placed in close proximity to the Certified Biobased Products. An individual USDA Certified Biobased Product Label near each Certified Biobased Product may be necessary to avoid confusion.

(h) *Minimum size and clear space requirements for the USDA Certified Biobased Product Label.* (1) The USDA Certified Biobased Product Label may be sized to fit the individual application as long as the correct proportions are maintained, and all elements of the USDA Certified Biobased Product Label remain legible.

(2) The USDA Certified Biobased Product Label must be surrounded by a border of clear space that must be of sufficient width to offset it from surrounding images and text to avoid confusion. If a one-color outline version of the USDA Certified Biobased Product Label is used, the USDA Certified Biobased Product Label must appear on a solid background that is a contrasting color.

(i) *Where to obtain copies of the promotional certification materials.* The USDA Certified Biobased Product Label and other associated promotional materials including the USDA BioPreferred Program Brand and Marketing Guidelines are available at the BioPreferred Program website (*biopreferred.gov*).

§ 4270.12 Violations of program requirements.

This section identifies the types of actions that USDA considers violations under this part and the penalties (*e.g.*, the suspension or revocation of certification) associated with such violations.

(a) *General.* Violations under this section occur on a per product basis and the penalties are to be applied on a per product basis. Entities cited for a violation under this section may appeal using the provisions in § 4270.13. If certification for a product is revoked, the Participating Organization whose certification has been revoked may seek re-certification for the product specified under the provisions in § 4270.9.

(b) *Types of violations.* Actions that will be considered violations of this part include, but are not limited to,

the examples as described in paragraphs (b)(1) through (4) of this section:

(1) *Biobased Content violations.* USDA reserves the right to request occasional testing of Certified Biobased Products without notice to compare the Biobased Content of the tested product with the product's Applicable Minimum Biobased Content and the Biobased content reported in its Certified Application. Such testing will be conducted using ASTM Method D6866 in accordance with the procedures discussed in § 4270.7.

(i) If the testing shows that the Biobased Content of a Certified Biobased Product is less than its Applicable Minimum Biobased Content, then a violation of this part will have occurred.

(ii) If the testing shows that the Biobased Content is less than that reported in the product's Certified Application but is still equal to or greater than its Applicable Minimum Biobased Content(s), USDA will provide written notification to the Participating Organization. The participant must submit, within 90 Days from receipt of USDA written notification, a new application for the lower Biobased Content. Failure to submit a new application within 90 Days will be considered a violation of this part.

(A) The participant can submit a new application to use the Biobased Content reported to it by USDA in the written notification.

(B) Alternatively, the participant may submit a new application and elect to retest the product in question. If the participant elects to retest the product, it must test a sample of the current product, and the procedures in § 4270.9 must be followed. USDA reserves the right to select the sample that will be submitted for retesting.

(2) *USDA Certified Biobased Product Label violations.* (i) Any usage or display of the USDA Certified Biobased Product Label that does not conform to the requirements specified in § 4270.10.

(ii) Affixing the USDA Certified Biobased Product Label to any product prior to issuance of a notice of certification from USDA.

(iii) Affixing the USDA Certified Biobased Product Label to a Certified Biobased Product during periods when certification has been suspended or revoked.

(iv) Using an image or icon other than the official USDA Certified Biobased Product Label in association with certification claims.

(3) *Application violations.* Knowingly providing false or misleading information in any application for certification of a Biobased Product.

(4) *BioPreferred Program website violations.* Failure to provide USDA with updated information when the information for a Certified Biobased Product becomes outdated or when new information for a Certified Biobased Product becomes available.

(c) *Noncompliance and escalation of actions.* Any identified violations as described in paragraphs (b)(1) through (4) are considered noncompliance with this part. USDA will respond to noncompliance through actions that include, but are not limited to, the examples as described in paragraphs (c)(1) through (4).

(1) *Noncompliance.* USDA will provide the applicable Participating Organization and any Other Entity involved, as known to USDA, written notification of any noncompliance identified by USDA, as well as actions that should be taken to resolve the noncompliance. USDA may remove the product or company information from the BioPreferred Program website (*biopreferred.gov*) until the noncompliance is corrected. If satisfactory resolution of the noncompliance is not reached, USDA will consider the noncompliance to be a violation of this part and may pursue further action as discussed in paragraphs (c)(2) through (4) of this section.

(2) *Violation.* USDA will first issue a notice of violation. Entities who receive a notice of violation for any violation must correct the violation(s) within 30 Days from receipt of the notice of violation. If the entity receiving a notice of violation is a Participating Organization, USDA will also issue notices of suspensions and revocations, as discussed in paragraph (c)(3) of this section. USDA reserves the right to further pursue action against these entities as provided in paragraph (c)(4) of this section. If the entity receiving a notice of violation is an Other Entity

(*i.e.*, not a Participating Organization), then USDA may pursue action according to paragraph (c)(4) of this section.

(3) *Suspension and Revocation.* (i) If a violation is applicable to a Participating Organization and the participant fails to make the required corrections within 30 Days of receipt of a notice of violation, USDA will notify the participant, via email and certified mail as appropriate, of the continuing violation, and the certification for that product will be suspended. As of the date that the participant receives a notice of suspension, the participant and their Designated Representatives must not affix the USDA Certified Biobased Product Label to any of that product or associated packaging not already labeled and must not distribute any additional products bearing the USDA Certified Biobased Product Label. USDA will both remove the product information from the BioPreferred Program website (*biopreferred.gov*) and actively communicate the product suspension to buyers in a timely and overt manner.

(ii) If, within 30 Days from receipt of the notice of suspension, the participant whose USDA product certification has been suspended makes the required corrections and notifies the USDA that the corrections have been made, the participant and their Designated Representatives may, upon receipt of USDA approval of the corrections, resume use of the USDA Certified Biobased Product Label. USDA will also restore the product information to the BioPreferred Program website (*biopreferred.gov*).

(iii) If, following the 30-Day period, the participant does not make the required corrections, the certification for that product will be revoked. As of that date, the participant must not affix the USDA Certified Biobased Product Label to any of that product not already labeled. In addition, the participant and their Designated Representatives are prohibited from further sales of the product to which the USDA Certified Biobased Product Label is affixed, and the product will no longer be listed on the BioPreferred Program website (*biopreferred.gov*) as a product qualified for preferred Federal procurement.

(iv) If a participant whose product certification has been revoked wishes to participate in the BioPreferred Program again, the participant must follow the procedures required for the original certification specified in § 4270.9.

(4) *Other remedies.* In addition to the suspension or revocation of the product certification, depending on the nature of the violation, USDA may pursue suspension or debarment of the entities involved in accordance with 2 CFR part 417 and 48 CFR subpart 9.4. USDA further reserves the right to pursue any other remedies available by law, including any civil or criminal remedies, against any entity that violates the provisions of this part.

§ 4270.13 Appeal process.

Participating Organizations whose product certification has been revoked may appeal to USDA.

(a) *Filing an appeal.* (1) Appeals to the Agency must be filed within 30 Days of receipt by the appellant of a notice of suspension and revocation. Appeals must be filed in writing via email to the BioPreferred Program's email address as noted on the BioPreferred Program website (*biopreferred.gov*).

(2) All appeals must include a copy of the adverse decision and a statement of the appellant's reasons for believing that the decision was not made in accordance with the applicable Program regulations, policies, or procedures, or otherwise was not proper.

(b) *Reviewing appeals.* (1) If USDA sustains a Participating Organization's appeal of a notice of suspension and revocation, the participant and its Designated Representative(s) may immediately resume affixing the USDA Certified Biobased Product Label to the Certified Biobased Product and sell and distribute the Certified Biobased Product with the USDA Certified Biobased Product Label. In addition, USDA will reinstate the product's information to the BioPreferred Program website (*biopreferred.gov*).

(2) If USDA denies a participant's appeal of a notice of suspension and revocation, then the notice of suspension and revocation stands.

(c) *Appeals of decisions made on appeals.* Appeals of any of the BioPreferred Program's decisions may be made to the Rural Business-Cooperative Service Administrator. Appeals must be made, in writing, within 30 Days of receipt of USDA's decision and addressed to: Rural Business-Cooperative Service Administrator, 1400 Independence Avenue SW, Washington, DC 20250–1522 STOP 3250. If the Rural Business-Cooperative Service Administrator sustains an appeal, the provisions of paragraph (b) of this section will apply.

§4270.14 Reporting and recordkeeping.

(a) *Providing product information to Federal agencies*—(1) *Informational website.* An informational USDA website implementing section 9002 of FSRIA can be found at: *biopreferred.gov*. USDA will maintain a web-based information site for participating originations with Certified Biobased Products and Federal agencies to exchange information, as described in paragraphs (a)(1)(i) through (iv) of this section as applicable.

(i) *Product information.* The website will, as determined to be necessary by the Secretary based on the availability of data, provide the information specified in §4270.9. USDA encourages Federal agencies to utilize this website to obtain current information on designated categories, contact information for Participating Organizations, and access to information on product characteristics relevant to procurement decisions. In addition to any information provided on the website, participants are expected to provide relevant information to Federal agencies, subject to the limitations specified in paragraph (a)(1)(ii) of this section, with respect to product characteristics, including verification of such characteristics if requested.

(ii) *Providing information on price and environmental and health benefits.* Federal agencies may not require Participating Organizations with Certified Biobased Products to provide procuring agencies with more data than would be required of other manufacturers or vendors offering products for sale to a Procuring Agency (aside from data confirming the Biobased Contents of the products) as a condition of the purchase of Biobased Products from the participant. USDA encourages industry Stakeholders to provide information on environmental and public health benefits based on industry accepted analytical approaches including, but not limited to, material carbon footprint analysis, the International Standards Organization (ISO) 14040, the ASTM International life-cycle cost method (E917) and multi-attribute decision analysis (E1765), and the British Standard Institution PAS 2050. USDA will make such Stakeholder-supplied information available on the BioPreferred Program website (*biopreferred.gov*).

(iii) *Industry standards test information.* The product information will include any relevant industry standard test information as supplied by the participant. In assessing performance of a Certified Biobased Product, USDA requires that procuring agencies rely on results of performance tests using applicable ASTM, ISO, Federal or military specifications, or other similarly authoritative industry test standards. Such testing may be conducted by a laboratory compliant with the requirements of the standards body. The procuring official will decide whether performance data must be brand-name specific in the case of products that are essentially of the same formulation.

(iv) *Biodegradability information.* If Biodegradability is claimed by a participant with a Certified Biobased Product as a characteristic of that product, USDA requires that, if requested by procuring agencies, these claims be verified using the appropriate, product-specific ASTM Biodegradability standard(s). Such testing must be conducted by an ASTM/ISO-compliant laboratory. The procuring official will decide whether Biodegradability data must be brand-name specific in the case of products that are essentially of the same formulation. ASTM Biodegradability standards include:

(A) D5338 (Standard Test Method for Determining Aerobic Biodegradation of Plastic Materials Under Controlled Composting Conditions);

(B) D5864 (Standard Test Method for Determining the Aerobic Aquatic Biodegradation of Lubricants or Their Components);

(C) D5988 (Standard Test Method for Determining Aerobic Biodegradation of Plastic Materials in Soil);

(D) D6006 (Standard Guide for Assessing Biodegradability of Hydraulic Fluids);

(E) D6400 (Standard Specification for Compostable Plastics) and the standards cited therein;

(F) D6139 (Standard Test Method for Determining the Aerobic Aquatic Biodegradation of Lubricants of Their Components Using the Gledhill Shake Flask);

(G) D6868 (Standard Specification for Biodegradable Plastics Used as Coatings on Paper and Other Compostable Substrates); and

(H) D7081 (Standard Specification for Non-Floating Biodegradable Plastics in the Marine Environment).

(2) *Advertising, labeling, and marketing claims.* Participating Organizations are reminded that their advertising, labeling, and other marketing claims, including claims regarding health and environmental benefits of the product, must conform to 16 CFR part 260 (Federal Trade Commission Guides for the Use of Environmental Marketing Claims). For further requirements on marketing claims associated with the BioPreferred Program, refer to the ''USDA BioPreferred Program Brand and Marketing Guidelines'' found on the BioPreferred Program website (*biopreferred.gov*).

(b) *Records.* Participating Organizations will maintain records documenting compliance with this part for each product that has received a notice of certification, as specified in paragraphs (b)(1) through (3) of this section.

(1) The results of all tests, and any associated calculations, performed to determine the Biobased Content of the product.

(2) The notice of certification from USDA, the dates of changes in formulation that affect the Biobased Content of Certified Biobased Products, and the dates when the Biobased Content of Certified Biobased Products were tested.

(3) Documentation of analyses performed by participants to support claims of environmental or human health benefits, life cycle cost, sustainability benefits, and product performance made by the participant.

(c) *Record retention.* For each Certified Biobased Product, records kept under paragraphs (a) and (b) of this section must be maintained for at least three years beyond the end of the certification period (*i.e.*, three years beyond the date the product's term of certification expires). Records may be kept in either electronic format or hard copy format. All records kept in electronic format must be readily accessible and/or provided by request.

§ 4270.15 Oversight and monitoring.

(a) *General.* USDA will conduct oversight and monitoring of Participating Organizations, Designated Representatives, and Other Entities involved with the BioPreferred Program to ensure compliance with this part. This oversight may include, but not be limited to, conducting facility visits to Participating Organizations that have Certified Biobased Products and their Designated Representatives. Participating Organizations are required to cooperate fully with all USDA audit efforts for the enforcement of the BioPreferred Program requirements.

(b) *Biobased Content Testing.* USDA will conduct Biobased Content Testing of Certified Biobased Products as described in § 4270.12(b)(1) to ensure compliance with this part.

(c) *Inspection of records.* Participating Organizations must allow Federal representatives access to the records required under § 4270.14 for inspection and copying during normal business hours.

(d) *Audits.* USDA will conduct an annual desk audit on an ongoing basis to verify that the product and company information supplied by Participating Organizations remain valid. Through the BioPreferred Program website (*biopreferred.gov*), Participating Organizations will be asked to confirm that they still manufacture the product, that the formulation remains the same, and that the information described under § 4270.9(a)(1) remains valid. Participants may also be asked

for additional supplemental information.

(1) If a Participating Organization indicates that their product or company information needs to be updated during an annual desk audit, these updates will be incorporated into the BioPreferred Program website (*biopreferred.gov*). If it is indicated that a product is no longer manufactured, the product information will be removed from the BioPreferred Program website (*biopreferred.gov*).

(2) If a Participating Organization fails to complete an annual desk audit, the participant will be considered to be in noncompliance with this part, and the Participating Organization and associated product information will be removed from the BioPreferred Program website (*biopreferred.gov*). USDA reserves the right to revoke product certification for failure to participate in an audit.

Subpart D—Intermediary Relending Program (IRP)

SOURCE: 86 FR 72156, Dec. 21, 2021, unless otherwise noted.

§ 4274.301 Introduction.

(a) This subpart contains regulations for loans made by the Agency to eligible intermediaries. This applies to borrowers, ultimate recipients and other parties involved in making such loans. The provisions of this subpart supersede conflicting provisions of any other subpart. All complete applications received before December 21, 2021 will be processed, awarded, and serviced in accordance with the existing regulatory provisions in effect at the complete application date for the program under which the application was submitted. An intermediary borrower may use the Agency-prescribed self-election template, available at the USDA Rural Development website under ''Details'' in the RBCS IRP program section to have its existing loans, and any loans approved under the previous regulation but not yet closed, serviced under these provisions.

(b) The purpose of the program is to alleviate poverty and increase economic activity and employment in rural communities, especially disadvantaged and remote communities in partnership with other public and private resources, and in accordance with

State and regional strategy based on identified community needs. This purpose is achieved through loans made to intermediaries that establish a revolving loan fund for the purpose of providing loans to ultimate recipients to promote community development, establish new businesses, establish and support microlending programs, and create or retain employment opportunities in rural areas.

(c) Intermediaries are required to identify any known relationship or association with an Agency employee. Any processing or servicing Agency activity conducted pursuant to this subpart involving authorized assistance to Agency employees, members of their families, close relatives, or business or close personal associates, is subject to the provisions of 7 CFR part 1900, subpart D.

(d) Copies of all forms, regulations, and Agency procedures referenced in this subpart are available at USDA Rural Development's website under the ''Resources'' section, in the Rural Development National Office, or any Agency State Office.

§ 4274.302 Definitions.

The following definitions are applicable to the terms used in this subpart.

Administrator. The Administrator of the Rural Business-Cooperative Service within the Rural Development mission area of the U.S. Department of Agriculture (USDA).

Affiliate. Affiliate means individuals and entities are affiliates of each other when:

(1) One controls or has the power to control the other, or a third party or parties controls or has the power to control both. Factors such as ownership, management, current and previous relationships with or ties to another concern, and contractual relationships, shall be considered in determining whether affiliation exists. It does not matter whether control is exercised, so long as the power to control exists. Concerns owned and controlled by Indian Tribes, Alaska Native Corporations (ANC), Native Hawaiian Organizations (NHO), Community Development Corporations (CDC), or wholly-owned entities of Indian Tribes, ANCs, NHOs, or CDCs, are not considered to be affiliated with other concerns owned by these entities because of their common ownership or common management.

(2) There is an identity of interest between immediate family with identical or substantially identical business or economic interests (such as where the immediate family operate concerns in the same or similar industry in the same geographic area); however, an individual or entity may rebut that determination with evidence showing that the interests deemed to be one are in fact separate.

Agency. The Rural Business-Cooperative Service (RBCS) that has the responsibility to administer the Intermediary Relending Program (IRP).

Agency IRP loan. An IRP loan from the Agency to an intermediary with established terms and evidenced by a loan agreement and promissory note between parties.

Agency IRP loan funds. Cash proceeds of an Agency IRP loan received by an intermediary are considered Agency IRP loan funds.

Agricultural production or agriculture production. The cultivation, growing, or harvesting of plants and crops (including farming) breeding, raising, feeding, or housing of livestock (including ranching); forestry products, hydroponics, or nursery stock; or aquaculture.

Aquaculture. The commercial cultivation of aquatic animals and plants in natural or controlled marine or freshwater environments.

Citizen. An individual who is a citizen of the United States or resides in any State in the United States after being legally admitted for permanent residence.

Community development. Advancing livable and vibrant communities through coordinated approaches to economic, environmental, and human development by means of comprehensive business-based technical and financial assistance.

Conflict of interest. A situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or business to act impartially, or there is a real or perceived benefit from engaging in certain projects or

transactions. Regarding use of both grant and matching funds, Federal procurement standards prohibit transactions that involve a real or apparent conflict of interest for owners, employees, officers, agents, their immediate family members, partners, or an organization which is about to employ any of the parties indicated herein, having a financial or other interest in or tangible personal benefit from the outcome of the project; or that restrict open and free competition for unrestrained trade. Specifically, project funds may not be used for services or goods going to, or coming from, a person or entity with a real or apparent conflict of interest, including, but not limited to, owner(s) and their immediate family members and as stated in § 4274.321(b)(4).

Cooperative. An entity that is legally chartered by a State in which it operates as a cooperatively-operated business, or an entity that is not legally chartered as a cooperative but is owned and operated for the benefit of its members, with the return of residual earnings paid to such members on the basis of patronage.

Hydroponics. The commercial cultivation of plants by placing the roots in liquid nutrient solutions rather than in soil.

Immediate family. Individuals who live in the same household or who are closely related by blood, marriage, or adoption, such as a spouse, domestic partner, parent, child, stepchild, sibling, aunt, uncle, grandparent, grandchild, niece, nephew, or first cousin.

Indian tribe. The term as defined in 25 U.S.C. 5304(e); any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688) [43 U.S.C. 1601 *et seq*.], which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Intermediary. The entity requesting or receiving, as applicable, Agency IRP loan funds for establishing or recapitalizing an IRP revolving loan fund and relending to ultimate recipients.

Intermediary equity contribution. Represents an intermediary's investment in the IRP revolving loan fund, in the form of cash and unencumbered ownership in an amount determined by the applicant. This must be contributed to the IRP revolving loan fund prior to, or concurrently to, the disbursement of Agency IRP loan funds from the Agency. This contribution becomes restricted and must remain as equity in the IRP revolving loan fund subject to the provisions of §§ 4274.332(d) and 4274.341(b)(1) and (2).

IRP revolving loan fund. A group of assets:

(1) Obtained through or related to an Agency IRP loan; and

(2) Accounted for, along with related liabilities, revenues, and expenses, as an entity or enterprise separate from the intermediary's other assets and financial activities.

Loan agreement. The agreement, which utilizes the requisite OMB-approved form, between the Agency and the intermediary setting forth the terms and conditions of the Agency IRP loan.

Military personnel. Individuals currently on active duty in the regular service, having enlisted from civilian or Reserve Officers' Training Corps status, or individuals on active duty in the regular service with more than six months until their anticipated date of release from service.

Principals of intermediary. Members, officers, directors, and other individuals or entities directly involved in the operation and management, including those setting policy, of an intermediary.

Public agency. Any State, Indian Tribal or local government, or any branch or agency of such government having authority to act on behalf of that government, to borrow funds and engage in activities eligible for funding under this subpart.

Revolved funds. The cash portion of an IRP revolving loan fund that includes fees, principal, and interest payments received from ultimate recipients and is not composed of any Agency IRP loan funds.

Rural or rural area. Any area of a State not in a city or town that has a

population of more than 50,000 inhabitants, and which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I), according to the latest decennial census of the United States and not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants. In making this determination, the Agency will use the latest decennial census of the United States. The following exclusions apply:

(1) Any area in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants that has been determined to be ''rural in character'' as follows:

(i) The determination that an area is ''rural in character'' will be made by the Under Secretary of Rural Development. The process to request a determination under this provision is outlined in paragraph (1)(ii) of this definition. The determination that an area is ''rural in character'' under this definition will apply to areas that are within:

(A) An urbanized area that has two points on its boundary that are at least 40 miles apart, which is not contiguous or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urbanized area of such a city or town; or

(B) An urbanized area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within ¼ mile of a rural area.

(ii) Units of local government may petition the Under Secretary of Rural Development for a ''rural in character'' designation by submitting a petition to the appropriate Rural Development State Director for recommendation to the Administrator on behalf of the Under Secretary. The petition shall document how the area meets the requirements of paragraph (1)(i)(A) or (B) of this definition and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base. Upon receiving a petition, the Under Secretary will consult with the applicable governor or leader in a similar position and request comments to be submitted within five business days, unless such comments were submitted with the petition. The Under Secretary will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Rural Development State Office website and the Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration. The Under Secretary will make a determination of the appeal in not less than 15 days, but no more than 30 days.

(iii) Rural Development State Directors may also initiate a request to the Under Secretary to determine if an area is ''rural in character.'' A written recommendation should be sent to the Administrator, on behalf of the Under Secretary, that documents how the area meets the statutory requirements of paragraph (1)(i)(B) of this definition and discusses why the State Director believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, topography, and how the local economy is tied to a rural economic base. Upon receipt of such a request, the Administrator will review the request for compliance with the ''rural in character'' provisions and make a recommendation to the Under Secretary. Provided a favorable determination is made, the Under Secretary will consult with the applicable Governor and request comments within 10 business days, unless gubernatorial comments were submitted with the request. A public notice will be published by the State Office in accordance with paragraph (1)(ii) of this definition. There is no appeal process for requests made on the initiative of the State Director.

(2) An area that is attached to the urbanized area of a city or town with

more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than two census blocks wide. Applicants from such an area should work with their Rural Development State Office to request a determination of whether their project is located in a rural area under this provision.

(3) For the Commonwealth of Puerto Rico, the island is considered rural and eligible except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be Rural if they are not urban in character.

(4) For the State of Hawaii, all areas within the State are considered rural and eligible except for the Honolulu CDP within the County of Honolulu and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the Honolulu CDP, may be determined to be Rural if they are not urban in character.

(5) For the purpose of defining a rural area in the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands, the Agency shall determine what constitutes rural and rural area based on available population data.

State. Any of the 50 States of the United States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Technical assistance. A function performed for the benefit of an ultimate recipient, or proposed ultimate recipient, that is a problem-solving activity that assists the ultimate recipient in selecting, initiating, or completing a project. The Agency will determine whether a specific activity qualifies as technical assistance.

Ultimate recipient. An entity or individual that receives a loan from an intermediary's IRP revolving loan fund.

Underrepresented group. U.S. citizens with identifiable common characteristics, (including, but not limited to, racial and ethnic minorities, disabled and/or gender) that have not received IRP assistance or have received a lower percentage of total IRP dollars than the percentage they represent of the general population.

Value-added agricultural product. Any agricultural commodity that meets the requirements specified here. The agricultural commodity must meet one of the following value-added methodologies:

(1) Has undergone a change in physical state;

(2) Is a source of farm or ranch-based renewable energy; or

(3) Is aggregated and marketed as a locally produced agricultural food product.

Work plan. A narrative provided by the intermediary that demonstrates the feasibility of the intermediary and its lending program to meet the objectives of the IRP program, including a set of goals, strategies, anticipated outcomes, and well-developed targeting criteria for assisting eligible ultimate recipients.

[86 FR 72156, Dec. 21, 2021, as amended at 87 FR 38644, June 29, 2022]

§ 4274.303 Review or appeal rights.

An intermediary may have appeal or review rights for adverse Agency decisions made under this part. Agency decisions that are adverse to the individual participant are appealable, while matters of general applicability are not subject to appeal; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). All appeals will be conducted by NAD and will be handled in accordance with 7 CFR part 11.

§ 4274.304 Exception authority.

The Administrator may, on a case-by-case basis, grant an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal government. Exercise of this authority cannot be in conflict with applicable law.

§ 4274.305 Other regulatory requirements.

(a) *Intergovernmental consultation.* The approval of an Agency IRP loan to an intermediary is subject to intergovernmental consultation in accordance with Executive Order 12372. For ultimate recipients located in States where the State has elected to review the program under the intergovernmental review process, in accordance with Executive Order 12372, the intermediary and ultimate recipient must submit a notification in the form of a project description to the State single point of contact. The intermediary must include any comments from the State with the intermediary's request to use the Agency IRP loan funds for the ultimate recipient. Prior to the Agency's decision on the request, the ultimate recipient must demonstrate compliance with the requirements of intergovernmental consultation. These requirements are set forth in 2 CFR part 415, subpart C, General Program Administrative Regulations.

(b) *Environmental requirements.* The requirements of 7 CFR part 1970 apply to this subpart. Intermediaries and ultimate recipients must consider the potential environmental impacts of their projects at the earliest planning stages and develop plans in order to minimize the potential to adversely impact the environment. Both the intermediaries and the ultimate recipients must cooperate and furnish such information and assistance as the Agency needs to make any of its environmental determinations.

(1) All IRP loans between the Agency and the intermediary are considered categorical exclusions absent the existence of extraordinary circumstances in accordance with 7 CFR part 1970. All intermediaries must execute an Exhibit H, ''Multi-tier Action Environmental Compliance Agreement,'' to RD Instruction 1970–A as part of their IRP application submitted to the Agency. The intermediary must sign a certification that they have National Environmental Policy Act (NEPA) staff capable of undertaking an environmental review that meets Agency standards. For intermediaries that don't have capable staff, the Agency will deliver sufficient training to intermediaries on the environmental process and how to determine whether an ultimate recipient project is a categorical exclusion or requires an environmental assessment and review.

(2) For each proposed loan from an intermediary to an ultimate recipient using Agency IRP loan funds, an environmental review will be completed in accordance with 7 CFR 1970.55. For projects that do not qualify for a categorical exclusion, or which may be subject to an extraordinary circumstance under 7 CFR 1970.52, the intermediary will refer the project to the Agency for review under 7 CFR part 1970, subpart C. The intermediary retains responsibility for providing sufficient information for the Agency to make an environmental determination, though Agency staff may also opt to complete the environmental review with information provided by either the intermediary or ultimate recipient.

(3) The Agency will prepare an environmental impact statement for any application for a loan from Agency IRP loan funds determined to have a significant adverse effect on the quality of the human environment.

(c) *Equal opportunity and nondiscrimination requirements.* In accordance with Title V of Public Law 93–495, the Equal Credit Opportunity Act, and section 504 of the Rehabilitation Act for Federally Conducted Programs and Activities, neither the intermediary nor the Agency will discriminate against any employee, intermediary, or proposed ultimate recipient on the basis of sex, marital status, race, color, religion, national origin, age, physical or mental disability (provided the intermediary or proposed ultimate recipient has the capacity to contract), because all or part of the intermediary's or proposed ultimate recipient's income is derived from public assistance of any kind, or because the intermediary or proposed ultimate recipient has in good faith exercised any right under the Consumer Credit Protection Act, with respect to any aspect of a credit transaction anytime any cash of the IRP revolving loan fund is involved.

(1) The civil rights compliance requirements contained in 7 CFR part

1901, subpart E, apply to intermediaries and ultimate recipients.

(2) The Agency will ensure that equal opportunity and nondiscrimination requirements are met in accordance with the Equal Credit Opportunity Act, Title VI of the Civil Rights Act of 1964, ''Nondiscrimination in Federally Assisted Programs,'' 42 U.S.C. 2000d–4, §504 of the Rehabilitation Act for Federally Conducted Programs and Activities, the Age Discrimination Act of 1975, and the Americans With Disabilities Act of 1990 (as amended).

(d) *Seismic safety of new building construction.* The IRP is subject to the provisions of Executive Order 12699, which require each Federal agency assisting in the financing, through Federal grants or loans, or guaranteeing the financing, through loan or mortgage insurance programs, of newly constructed buildings to assure appropriate consideration of seismic safety.

(1) All new buildings financed from the IRP revolving loan fund, whether directly or through participations, must be designed and constructed in accordance with the seismic provisions of the most current version of the International Building Code (IBC) or two versions prior; currently that is 2021 IBC, 2018 IBC or 2015 IBC, or an above-code seismic standard that meets or exceeds the equivalent level of safety to that contained in the latest edition of the National Earthquake Hazard Reduction Programs (NEHRP) Recommended Provisions for the Development of Seismic Regulations for New Building (NEHRP Provisions.)

(2) The date, signature, and seal of a registered architect or engineer and the identification and date of the model building code on the plans and specifications constitutes evidence of compliance with the seismic requirements of the appropriate code.

§4274.306–§4274.309 [Reserved]

§4274.310 Eligibility requirements—intermediaries.

To be eligible to receive an Agency IRP loan, an intermediary must comply with the requirements specified in paragraphs (a) through (i) of this section.

(a) *Type of entity.* The intermediary must be one of the following types of entities:

(1) A private nonprofit corporation;

(2) A public agency;

(3) An Indian Tribe; or

(4) A cooperative.

(b) *Legal authority.* The intermediary must have the legal authority necessary for carrying out the proposed loan purposes and for obtaining, giving security for, and repaying the proposed loan. If the intermediary is an affiliate of another entity, the intermediary's governing board must be independent of the affiliated entity.

(c) *Proven record.* The intermediary must have a proven lending record of successfully assisting rural business and industry or, for intermediaries that propose to finance community development, a proven lending record of successfully assisting rural community development projects of the type planned. The intermediary must have the capacity to conduct outreach and marketing, the underwriting of loan applications, and provide the servicing and monitoring of its proposed IRP portfolio.

(1) Except as provided in paragraph (c)(2) of this section, such record must include recent experience in loan making and servicing with loans that are similar in nature to those proposed by the intermediary and a delinquency and loss rate acceptable to the Agency. Any request for an exception must be specifically addressed in the loan application and be supported with concluding statements that relate to the items specified in paragraphs (c)(2)(i) and (ii) of this section.

(2) The Agency may approve an exception to the requirement for loan making and servicing experience provided the intermediary:

(i) Itself has a proven record of successfully assisting (other than through lending) rural business and industry or rural community development projects through technical assistance or business development projects to the type and size of planned ultimate recipient borrowers; and

(ii) Will, before the loan is closed, employ individuals with loan making and servicing experience and qualifications and expertise for the operation

and administration of an IRP revolving loan fund as described in § 4274.340(a)(1)(ii). These shall not include contracted staff and staff from affiliates of the intermediary.

(d) *Staff.* The intermediary itself must employ a staff with loan making and servicing expertise acceptable to the Agency. The intermediary may contract for general services, such as, clerical, administrative, and accounting services, and loan packaging. The intermediary may not routinely contract their lending outreach, loan underwriting, management, or day-to-day operations. Essential activities of a business lending operation and the administration of the IRP revolving loan fund must be conducted in-house.

(e) *Capitalization/equity.* The intermediary's balance sheet must have capitalization or equity acceptable to the Agency and deemed sufficient to sustain its lending and business operations.

(f) *Citizens.* At least 51 percent of the outstanding interest or membership in any nonpublic body intermediary must be composed of citizens.

(g) *Delinquent debt.* An intermediary is ineligible to receive an Agency IRP loan if the intermediary or any principal of the intermediary has any delinquent debt to the Federal government. Agency IRP loan funds cannot be used to satisfy the delinquent debt.

(h) *Conditions.* No loans will be extended to an intermediary unless:

(1) There is adequate assurance of repayment of the loan based on the fiscal and managerial capabilities of the intermediary itself; and

(2) The amount of the loan, together with other funds available, is adequate to ensure the continuation or establishment of an effective IRP revolving loan fund or achieve the purposes for which the loan is made.

(i) *Other financing unavailable.* The intermediary must be unable to finance the continuation or establishment of an effective IRP revolving loan fund from its own resources, or through commercial credit, or from other Federal, State, or local programs at reasonable rates and terms.

(j) *Restrictions.* Intermediaries established for the purpose of, or that predominantly use IRP loan funds for, the financial benefit of an affiliate through loan participations or other funding methods will not be allowed.

§ 4274.311 Eligibility requirements—ultimate recipients.

To be eligible for a loan from an intermediary under this subpart, an ultimate recipient must meet or comply with the requirements specified in paragraphs (a) through (g) of this section.

(a) *Type of entity.* The ultimate recipient must be a legal entity that can incur debt, including but not limited to, an individual; a public organization; a private organization; or other legal entity.

(b) *Legal authority.* The ultimate recipient must have the legal authority to incur the debt and carry out the purpose of the loan.

(c) *Citizens.* An individual ultimate recipient must be a citizen. In the case of an entity ultimate recipient, at least 51 percent of the outstanding membership or ownership of the entity must be citizens.

(d) *Location.* The ultimate recipient project must be located in an eligible rural area, although funds may also be used for community projects that predominantly serve rural residents of a State. Predominantly serves means more than 50 percent of the ultimate recipient's service is to rural residents of a State.

(e) *Other financing unavailable.* The ultimate recipient must be unable to finance the entirety of the proposed project from its own resources, or through commercial credit or from other Federal, State, or local programs at reasonable rates and terms.

(f) *Legal or financial influence.* (1) The intermediary and its principals (including immediate families) must hold no legal or financial interest or influence in or with the ultimate recipient as this is considered a conflict of interest, as defined. However, this paragraph does not prevent an intermediary that is organized as a cooperative from making a loan to one of its members per § 4274.321(b)(4) of this subpart.

(2) The ultimate recipient must, along with its principals (including their immediate families), hold no legal or financial interest or influence

in or with the intermediary as per § 4274.321(b)(4) as this is considered a conflict of interest, as defined.

(g) *Delinquent debt.* An ultimate recipient is ineligible to receive a loan from IRP loan funds if the ultimate recipient or any of its principals has any federal delinquent debt or is debarred from engaging in business with the Federal government. IRP loan funds may not be used to satisfy any Federal delinquent debt or used to make an otherwise ineligible ultimate recipient eligible for IRP loan funds.

(h) *Fund usage.* Ultimate recipients must demonstrate, to the Agency's satisfaction, that loan funds will remain in the United States and the facility being financed will primarily create new or save existing jobs for rural U.S. residents.

§ 4274.312–§ 4274.319 [Reserved]

§ 4274.320 Loan purposes.

(a) *Agency IRP loans.* The intermediary must deposit the Agency IRP loans into the intermediary's IRP revolving loan fund to provide loans directly to eligible ultimate recipients or in cooperation with banks and other lending organizations through loan participation agreements.

(b) *IRP revolving loan fund loans.* Ultimate recipients receiving loans from an IRP revolving loan fund must use those loans for business or community development projects and for projects that predominately serve communities and residents in rural areas.

(1) The Secretary may relend funds to eligible intermediaries for projects that:

(i) Promote community development;

(ii) Establish new businesses;

(iii) Establish and support microlending programs; and

(iv) Create or retain employment opportunities.

(2) Such loan purposes may include, but are not limited to, those purposes identified in paragraphs (b)(2)(i) through (xx) of this section.

(i) Business and industrial acquisitions when the loan will keep the business from closing, prevent the loss of employment opportunities, or provide expanded job opportunities.

(ii) Business construction, conversion, enlargement, repair, modernization, or development.

(iii) Purchase and development of land, easements, rights-of-way, buildings, facilities, leases, or materials.

(iv) Purchase of equipment, leasehold improvements, machinery, or supplies.

(v) Pollution control and abatement.

(vi) Transportation services.

(vii) Start-up operating costs and working capital.

(viii) Interest (including interest on interim financing) during the period before the facility becomes income producing, but not to exceed three years.

(ix) Feasibility studies.

(x) Debt refinancing.

(A) The intermediary is responsible for making prudent lending decisions based on sound underwriting principles when considering the restructuring of an ultimate recipient's debt.

(B) Refinancing debts may be allowed only when it is determined by the intermediary that the project is viable, and refinancing is necessary to create new or save existing jobs or create or continue a needed service.

(xi) Reasonable fees and charges to the ultimate recipient are allowed only as specifically listed in this paragraph. Authorized fees include loan documentation and fees for recording a collateral lien, environmental data collection fees, management consultant fees, and other fees for services rendered by professionals in relation to the loan project. Professionals are generally persons licensed by States or accreditation associations, such as engineers, architects, lawyers, accountants, and appraisers. Additional charges to the ultimate recipient, whether by a fee or interest rate increase, for an intermediary's costs related to loan participations are not allowed. In addition, the intermediary shall not be charged fees related to the purchase or sale of a loan participation. The maximum amount of any fee will be what is reasonable and customary in the community or region where the project is located; provided, however, that all costs must be actual costs and shall not be marked-up beyond actual cost. Any such fees or charges are to be fully documented and justified.

(xii) Hotels, motels, tourist homes, bed and breakfast establishments, non-owner-occupied real estate, convention centers, and other tourist and recreational facilities except as prohibited by § 4274.321. These types of facilities are allowed when the pro rata value, supported by an analysis of the supporting real estate appraisal, of the owner's living quarters is deleted from the appraised value.

(xiii) Educational institutions.

(xiv) Revolving lines of credit provided the portion of the intermediary's total IRP revolving loan fund that is committed to, or in use for revolving lines of credit, will not exceed 25 percent at any time.

(A) All ultimate recipients receiving revolving lines of credit must reduce the outstanding balance of the revolving line of credit to zero at least once each year.

(B) The intermediary must approve all revolving lines of credit for a specific maximum amount and for a specific maximum time period, not to exceed two years.

(C) The intermediary must provide a detailed description, which will be incorporated into the intermediary's work plan and be subject to Agency approval, of how the revolving lines of credit will be operated and managed. The description must include evidence that the intermediary has an adequate system for:

(*1*) Interest calculations on varying balances; and

(*2*) Monitoring and control of the ultimate recipients' cash, inventory, and accounts receivable.

(D) If, at any time, the Agency determines that an intermediary's operation of revolving lines of credit is causing excessive risk of loss for the intermediary or the government, the Agency may terminate the intermediary's authority to use the IRP revolving loan fund for revolving lines of credit. Such termination will be by written notice and will prevent the intermediary from approving any new lines of credit or extending any existing revolving lines of credit beyond the effective date of termination contained in the notice.

(xv) Aquaculture and hydroponics, as defined in this subpart.

(xvi) Commercial fishing.

(xvii) Commercial nurseries engaged in the production of ornamental plants and trees and other nursery products such as bulbs, flowers, shrubbery, flower and vegetable seeds, sod, and the growing of plants from seed to the transplant stage.

(xviii) Forestry, which includes businesses primarily engaged in the commercial operation of timber tracts, tree farms, and forest nurseries and related activities such as reforestation.

(xix) Value-added production.

(xx) Housing, only when related to community development projects and, limited to working capital, equipment, pre-business development costs, and other such business purposes. Agency IRP loan funds may be used to assist a housing project planner, a housing project builder, a construction sub-contractor (indirect soft costs such as architectural, engineering and legal fees), or for any other business-related aspect of a housing project that is separate from the sale and/or purchase transaction involved in transferring ownership of a single or multi-family dwelling. While the proceeds from a sale might be used by an ultimate recipient to repay an Agency IRP loan, an Agency IRP loan cannot be used to finance a residential housing purchase. Agency IRP loans may not be used to assist in the purchase of residential housing (single, multiple dwelling, etc.) as financial assistance moves outside of community development when the financial assistance (a mortgage loan) is requested for a purchase.

(c) *Participations.* (1) Loans made to eligible ultimate recipients by eligible intermediaries in cooperation with banks and other organizations through loan participation agreements shall be considered an eligible loan to an ultimate recipient for the purposes of this program. Loan participations are allowed in the IRP program, subject to the provisions of this regulation, with the intent to assist intermediaries in the management of their revolving loan fund, to meet the needs of larger ultimate recipient projects, and to promote cooperation in community projects where multiple lenders may be involved. In a participation, the lead

(originating) bank retains a partial interest in the loan, holds all loan documentation in its own name, services the loan, and deals directly with the customer for the benefit of all participants. All loan participants share in the credit risk of the associated loan up to the amount of their participation.

(2) Loan participant buyers are able to compensate for low loan demand or invest in large loans without servicing burdens and origination costs. Lenders selling loan participations can accommodate a larger credit while mitigating some of the risk by reducing their credit exposure.

(3)(i) Participation agreements between the lead lender and buying participants are executed with each transaction and must address, among other items:

(A) The obligation of the lead lender to furnish timely credit information and to provide notification of material changes in the borrower's status;

(B) Requirements that the lead lender consult with participants and obtain their consent prior to modifying any loan, guaranty, or security agreements and before taking any action on defaulted loans; and

(C) The specific rights and remedies available to the lead and participating lenders upon default of the borrower.

(ii) A Master (open ended) participation agreement between the intermediary and any lender is not allowed. All loans made through use of participation agreements must be to eligible ultimate recipients and for eligible purposes. The ultimate recipients, lead lender and all participating lenders must agree to be bound by the applicable requirements of this regulation.

(4) Participation in loans where 50 percent or more of the loan funds are used to refinance a lead lender's existing loans to the borrower are ineligible. The Agency does not consider take out or terming out a construction loan as refinancing.

(5) No more than 50 percent of an intermediary's loan funds may be used to purchase loans from any individual lender or affiliation of lenders, to prevent an exclusive relationship with a lender or lender holding company. Likewise, no more than 50 percent of the total intermediary loans to ultimate recipients may be sold or participated to an individual lender or affiliation of lenders. An exception to these limits may be requested by the intermediary and is subject to review by the Agency of the intermediary's lending portfolio, credit quality and overall use of loan participations.

§4274.321 Ineligible loan purposes.

(a) *Agency IRP loans.* The intermediary cannot use Agency IRP loan funds to pay for its administrative costs and expenses.

(b) *IRP revolving loan fund loans.* IRP revolving loan fund loans cannot be used for any of the purposes identified in paragraphs (b)(1) through (13) of this section.

(1) Assistance in excess of what is needed to accomplish the purpose of the ultimate recipient's project.

(2) Distribution, payment, or loans to the owner, partners, shareholders, or beneficiaries of the ultimate recipient or members of their families when such persons will retain any portion of their equity, or control, in the ultimate recipient. This is not intended to prevent the sale of a business among immediate family members as long as the selling immediate family member does not retain an ownership interest and the price paid is deemed to be reasonable. This type of transaction is not an arm's length transaction and reasonableness of the price paid will be based upon an appraisal acceptable to the Agency.

(3) Charitable institutions and fraternal organizations that would not have revenue from sales, fees, or stable revenue source to support their operation and repay the loan.

(4) Assistance to Federal government employees, active-duty military personnel, employees of the intermediary, or any organization for which such persons are directors or officers or have 20 percent or more ownership.

(5) A loan to an ultimate recipient that has an application pending with or a loan outstanding from another intermediary involving an IRP revolving loan fund if the total Agency IRP loans would exceed the limits established in §4274.331(c).

(6) Agricultural production. For the purposes of this program, Agricultural production does not include those activities specifically listed as eligible uses of IRP revolving loan fund loans in § 4274.320(b)(15) through (19).

(7) The transfer of ownership unless the loan will keep the business from closing, prevent the loss of employment opportunities in the area, or provide expanded job opportunities.

(8) Community antenna television services or facilities.

(9) Any illegal activity.

(10) Any project that is in violation of either a Federal, State, or local environmental protection law or regulation or an enforceable land use restriction unless the assistance given will result in curing or removing the violation.

(11) Loans to lending and investment institutions and insurance companies.

(12) Golf courses, racetracks, or gambling facilities.

(13) An entity is ineligible if it derives more than 15 percent of its annual gross revenue (including any lease income from space or machines) from gambling activity, excluding State-authorized lottery proceeds or Tribal-authorized gambling proceeds, as approved by the Agency, conducted for the purpose of raising funds for the approved project.

§ 4274.322–§ 4274.329 [Reserved]

§ 4274.330 Agency IRP loan conditions and terms.

(a) *Revolving fund.* The intermediary must place Agency IRP loan funds in the intermediary's IRP revolving loan fund, and these funds must only be used to provide loans to eligible ultimate recipients per § 4274.320(a).

(b) *Loan closing.* Loan closing between the intermediary and the Agency must take place within six months of loan approval and obligation of funds, or funds will be forfeited, and the Agency will deobligate the loan.

(c) *Term.* The Agency IRP maximum loan term will be 30 years. Principal and interest payments will be scheduled at least annually. All Agency IRP loans will have interest-only payments scheduled for a maximum of the first three years following the loan closing. An intermediary may request a shorter interest-only period during the application process. All Agency IRP loans will automatically, fully amortize with principal and interest payments due in the fourth year on the anniversary of the closing date. The Agency IRP loan will fully amortize based on the total amount of the loan.

(d) *Interest rate.* The interest rate for an Agency IRP loan will be a fixed rate of one percent per annum over the term of the loan.

(e) *Security.* Security for all Agency IRP loans to intermediaries must ensure that the repayment of the loan is reasonably assured, when considered along with the intermediary's financial condition, work plan, and management ability. The intermediary is responsible for making loans to ultimate recipients in a manner that fully protects the interests of the intermediary and the Federal Government.

(1) Security for such loans may include, but is not limited to:

(i) Any realty, personalty, or intangible asset capable of being mortgaged, pledged, or otherwise encumbered by the intermediary in favor of the Agency; and

(ii) Any realty, personalty, or intangible asset capable of being mortgaged, pledged, or otherwise encumbered by an ultimate recipient in favor of the Agency.

(2) Initial security will consist of a pledge by the intermediary of all assets now in or hereafter placed in the IRP revolving loan fund, including cash and investments, notes receivable from ultimate recipients, and the intermediary's security interest in collateral pledged by ultimate recipients. Except for good cause shown, the Agency will not obtain assignments of specific assets at the time a loan is made to an intermediary or ultimate recipient. The intermediary must covenant that, in the event the intermediary's financial condition deteriorates or the intermediary takes action detrimental to prudent fund operation or fails to take action required of a prudent lender, the intermediary will provide additional security, execute any additional documents, and undertake any reasonable acts the Agency may request to

protect the Federal Government interest or to perfect a security interest in any asset, including physical delivery of assets and specific assignments to the Agency. All debt instruments and collateral documents used by an intermediary in connection with loans to ultimate recipients, including all documents representing an interest in a participation loan made pursuant to §4273.320 of this chapter, must be assignable.

(3) In addition to normal security documents, a first lien interest in the intermediary's IRP revolving loan fund account(s) will be accomplished by a control agreement satisfactory to the Agency. Agency signatures for withdrawals are not required. The depository bank must waive its offset and recoupment rights against the depository account to the Agency and subordinate any liens it may have against the IRP depository bank account. The use of Form RD 402–1, ''Deposit Agreement,'' or a similar form developed by the Agency's Office of the General Counsel is acceptable.

(f) *Loan limits.* (1) No loan to an intermediary will exceed the maximum amount the intermediary can reasonably be expected to lend to eligible ultimate recipients, in an effective and sound manner, within three years after loan closing. Only one Agency IRP loan will be approved by the Agency for an intermediary in any single fiscal year unless the additional request is from an IRP earmark that serves a different geographical area than the initial non-earmarked loan.

(2) The Agency IRP loan to an intermediary will not exceed the maximum award amount established by the Agency in an annual Notice.

(3) Intermediaries that have received one or more Agency IRP loans may apply for and be considered for additional Agency IRP loans provided that the outstanding loans of the intermediary's IRP revolving loan fund are generally sound, the intermediary is in compliance with all applicable regulations and its loan agreements with the Agency, and either:

(i) The intermediary has insufficient IRP revolving loan funds available for lending to meet current and expected ultimate recipient loan demand. Funds available for lending consist of Agency IRP loan funds not yet disbursed by the Agency, revolved funds, and cash on-hand in the IRP revolving loan fund. Necessary cash reserves including, but not limited to, debt service reserves, may be deducted from the IRP revolving loan fund cash on-hand in determining funds available for lending. The intermediary must provide documentation acceptable to the Agency of the current and expected ultimate recipient loan demand; or

(ii) The Agency IRP loan will serve a geographic area not included in an area currently served by an existing IRP intermediary and it is not possible or feasible to expand the existing IRP loan's service area to include the new geographic area; and

(4) Total outstanding IRP indebtedness of an intermediary to the Agency will not exceed $15 million at any time.

§4274.331 IRP revolving loan fund loan conditions and terms.

(a) *Conditions and terms.* Loan conditions and terms made by an intermediary to an ultimate recipient from the IRP revolving loan fund will be negotiated by the intermediary and ultimate recipient.

(1) *Interest rate.* The interest rate must be within limits established by the intermediary's work plan approved by the Agency. The rate must be the lowest rate sufficient to cover the loan's proportional share of the IRP revolving loan fund's debt service reserve and administrative costs.

(2) *Repayment.* The loan term must be reasonable and prudent considering the purpose of the loan, expected repayment ability of the ultimate recipient, and the useful life of collateral, and must be within any limits established by the intermediary's work plan approved by the Agency.

(b) *Security.* The intermediary is responsible for adherence to prudent lending practices when obtaining adequate security on each of its ultimate recipient loans.

(c) *Loan limits.* Loans from intermediaries to ultimate recipients using the IRP revolving loan fund must not exceed the limits in paragraphs (c)(1) and (2) of this section. In accordance with §4274.321(b)(5), these loan limits

apply to ultimate recipients cumulatively based on all existing and pending loans from one or multiple IRP intermediaries. The loan limits of ultimate recipient loans made from Agency IRP funds may be based on the total amount of the Agency IRP loans awarded. However, should any portion of an intermediary's Agency IRP loan funds be de-obligated by the Agency, the ultimate recipient loan limit will thereafter be based on the actual amount of Agency IRP loan funds advanced to the intermediary and loaned out to ultimate recipients. Intermediaries with multiple IRP loans that have combined those IRP funds in accordance with § 4274.332(b)(6) may base their ultimate recipient loan limits on the combined amount of Agency IRP loans. The maximum amount of an IRP Agency loan made by an intermediary to an ultimate recipient, whether directly or held through loan participation and including the balance of any existing ultimate recipient loans, shall be the lesser of:

(1) $400,000; and

(2) Fifty percent of the originally-approved Agency IRP loan amount to an intermediary (including the unpaid balance of any existing ultimate recipient loans).

§ 4274.332 Post award requirements.

(a) *Applicability*. Intermediaries receiving loans under this program shall be governed by these regulations, the loan agreement, the approved work plan, security interests, and any other conditions which the Agency may impose in making a loan. Whenever this subpart imposes a requirement on loans made from the ''IRP revolving loan fund,'' such requirement shall apply to all loans made by an intermediary to an ultimate recipient from the intermediary's IRP revolving fund for as long as any portion of the intermediary's IRP loan from the Agency remains unpaid. This includes revolved funds. Whenever this subpart imposes a requirement on loans made by intermediaries from ''Agency IRP loan funds,'' without specific reference to the IRP revolving loan fund, such requirement shall apply only to loans made by an intermediary using Agency IRP loan funds and will not apply to loans made from revolved funds.

(b) *Maintenance of IRP revolving loan fund*. For as long as any part of an Agency IRP loan to an intermediary remains unpaid, the intermediary must maintain the IRP revolving loan fund. All Agency IRP loan funds received by an intermediary must be deposited in an IRP revolving loan fund. The IRP revolving loan fund can only be used for receiving advances from the Agency, making payments to the Agency, disbursing ultimate recipient loans, and collecting ultimate recipient loan repayments. This includes transferred IRP revolving loan funds from another intermediary as a result of a transfer and assumption. Interest earned, cash obtained from fees assessed from activities of the IRP revolving loan fund, etc. must remain part of the IRP revolving loan fund though these monies may be used to pay administrative expenses as provided below. All Agency IRP loan activity must be managed through the IRP revolving loan fund. The intermediary may transfer additional assets into the IRP revolving loan fund to cover any shortage at any time. The intermediary must deposit all cash of the IRP revolving loan fund in a separate bank account or accounts. The intermediary is prohibited from commingling other funds of the intermediary with the funds in the IRP revolving loan fund. Intermediaries may use an operating account, general fund, or Automated Clearing House (ACH) account to initially collect payments from ultimate recipients, as long as those payments are transferred to the IRP revolving loan fund within 10 working days of receipt or by the end of the Federal fiscal quarter, whichever occurs first. All moneys deposited to the IRP revolving loan fund bank account or accounts must be money of the IRP revolving loan fund, and such accounts must be properly secured in accordance with § 4274.330(e). The receivables created by making loans to ultimate recipients, the intermediary's security interest in collateral pledged by ultimate recipients, collections on the receivables, interest, fees, and any other income or assets derived from the operation of the IRP

revolving loan fund are a part of the IRP revolving loan fund.

(1) The intermediary can use the portion of the IRP revolving loan fund that consists of Agency IRP loan funds only for making loans in accordance with §4274.320. The intermediary may use the portion of the IRP revolving loan fund that consists of revolved funds for debt service reserve and reasonable administrative costs, in accordance with this section, or for making additional ultimate recipient loans.

(2) The intermediary must submit for Agency approval an annual budget of proposed IRP revolving loan fund income and expenses including expected administrative costs. The annual budget must itemize income, including interest received from ultimate recipients, interest earnings on deposits, fees, and other income excluding principal recaptured from ultimate recipients, and expenses including interest repaid to the Agency, administrative expenses, liquidation expenses, loan write-offs, and other fees and costs excluding principal repaid to the Agency. The intermediary cannot use proceeds received from the collection of principal repayment by an ultimate recipient for administrative expenses. The amount removed by the intermediary from the IRP revolving loan fund for administrative costs in any year must be reasonable, must not exceed the actual cost of operating the IRP revolving loan fund, including loan servicing, and providing technical assistance, and must not exceed the amount approved by the Agency in the intermediary's annual budget. The administrative expenses that the intermediary charges to the IRP fund may never exceed the actual income earned on an annual basis. An intermediary can contract personnel for hire per §4274.340(a)(1)(ii); but the intermediary may not routinely contract loan underwriting, management, or day-to-day operations. Essential activities of the IRP revolving loan funds must be conducted in-house.

(3) The intermediary must establish a debt service reserve fund. The purpose of the debt service reserve fund is to ensure that adequate cash is available for the annual IRP loan installment(s) in the event that the IRP revolving loan fund has insufficient cash to make these payments. The minimum amount of cash in the debt service reserve fund must be at least equal to the intermediary's cumulative, annual debt service requirements for all Agency IRP loans outstanding. This account should be established by the date of loan closing, but the minimum required cash balance does not have to be reached until the third anniversary of an Agency IRP loan closing. The minimum required balance must be maintained for the life of the Agency IRP loan thereafter. The debt service reserve funds can only be withdrawn when there is insufficient cash in the IRP revolving loan fund's other account(s) to make the annual Agency IRP loan installments, and such withdrawals require the prior written concurrence of the Agency. Any withdrawal that causes the cash balance to drop below the minimum amount required must be repaid to the debt service reserve fund as soon as possible, but in no event can such repayment be longer than six months from the date of withdrawal. The funding of this debt service reserve fund may not come from Agency IRP loan funds and must come from an unencumbered source.

(4) The intermediary must make any cash in the IRP revolving loan fund that is not needed for debt service or approved administrative costs available for additional loans to ultimate recipients. If the Agency determines that the intermediary has substantial amounts of Agency IRP loan funds available for lending that is not being regularly loaned out to ultimate recipients, the Agency may require, at its discretion, that those funds be returned to the Agency in accordance with paragraph (b)(8) of this section.

(5) The intermediary must deposit all reserves and other cash of the IRP revolving loan fund not immediately needed for loans to ultimate recipients or other authorized uses in accounts in banks or other financial institutions. Such accounts must be fully covered by Federal deposit insurance or fully collateralized with other securities in accordance with normal banking practices and all applicable State laws. The account must be interest-bearing if

feasible and any interest earned thereon remains a part of the IRP revolving loan fund. The intermediary cannot use funds for any certificates of deposit over a 30-day duration or for investments in securities. All instruments associated with the revolving loan fund must be liquid and not impose fees associated with the withdrawal or movement of cash.

(6) If an intermediary receives more than one IRP loan, the intermediary does not need to establish and maintain a separate IRP revolving loan fund for each loan. Instead, the intermediary may combine them and maintain only one IRP revolving loan fund, unless the Agency requires separate IRP revolving loan funds because there are significant differences in the loan purposes, work plans, loan agreements, or requirements for the loans. The Agency may allow loans with different requirements to be combined into one IRP revolving loan fund if the intermediary agrees in writing to operate the combined revolving funds in accordance with the most stringent requirements of the Agency. The combining of multiple loans in one IRP revolving loan fund does not preclude the intermediary from being able to individually track the activity of each Agency IRP loan. The Agency must be able to readily determine the ultimate recipient loans made from each Agency IRP loan.

(7) The intermediary may deposit their full equity contribution for the entire Agency IRP loan before the initial advance of Agency IRP loan funds or it may deposit its matching percent at each interval that loan advances are made by the Agency.

(8) IRP revolving loan fund funds are intended to be active mechanisms to enhance business development in rural communities. If Agency IRP loan funds have been unused for a period of six months or more, those funds in excess of $250,000 will be returned to the Agency unless the Agency concurs with an intermediary's request for an exception. Any exception would be based on evidence satisfactory to the Agency that every effort is being made by the intermediary to utilize the IRP revolving loan fund funding for loans to ultimate recipients in conformance with program objectives.

(9) The full measure of collateral must be made up of cash available in the IRP revolving loan fund, the debt service reserve, and the total outstanding balance of ultimate recipient loans. At all times, the sum of the IRP revolving loan fund, debt service reserve, and principal amount outstanding on performing ultimate recipient loans must equal 100 percent of what is owed to the Agency by the intermediary plus any equity contribution amount. Therefore, if any part of the collateral fluctuates to the extent that the minimum retention requirement falls below the 100 percent plus the equity contribution threshold, the intermediary must inject cash into the IRP revolving loan fund and or debt service reserve fund to ensure that the total collateral is maintained at the minimum required level.

(10) The intermediary must also file a Uniform Commercial Code (UCC) financing statement at closing in order to perfect the Agency's security interest in the ultimate recipient's promissory notes. The intermediary is responsible for covering the costs of filing as well as ensuring the necessary filings are renewed and recorded with the Secretary of State, or the equivalent tribal official as appropriate.

(c) *Agency oversight.* The Agency will monitor each intermediary based on progress reports submitted by the intermediary, audit findings, disbursement transactions, visitations, and other contact with the intermediary as necessary. The Agency will send written notices on payments coming due to the intermediary approximately 15 days in advance of the payment due date.

(d) *Return of equity.* An intermediary with an IRP loan(s) where the cash portion of the IRP revolving loan fund includes fees, principal and interest payments received from ultimate recipients and is not composed of any original Agency IRP loan funds, may annually request a partial or full return of their contributed equity under the following conditions:

(1) The intermediary is current in all payments to the Agency and in compliance with all elements of their loan

agreement and Agency reporting requirements;

(2) The ratio of intermediary equity to the Agency loan after the return of equity remains consistent with the initial equity injection percentage by the intermediary; and

(3) Any return of an intermediary's equity from the revolving loan fund must be approved by the Agency in writing and is limited to an amount that the Agency determines will not cause additional credit risk to the revolving loan fund or the Agency and is in compliance with paragraph (b)(9) of this section.

§4274.333 Loan agreements between the Agency and the intermediary.

The intermediary and the Agency must execute a loan agreement or a supplement to a previous loan agreement at loan closing for each Agency IRP loan. The Agency will prepare the loan agreement and the intermediary must review it prior to loan closing. The intermediary is responsible for compliance with the terms and conditions of the loan agreement.

(a) The loan agreement will, at a minimum, set out:

(1) The amount of the loan;

(2) The interest rate;

(3) The term and repayment schedule;

(4) The provisions for late charges. The intermediary must pay a late charge of four percent of the payment due if payment is not received within 15 calendar days following the due date. The Agency will consider the late charge as unpaid if it is not received within 30 calendar days of the missed due date for which it was imposed. The Agency will add any unpaid late charge to the loan's principal balance, and it will be due as an extra payment at the end of the term. Acceptance of a late charge by the Agency does not constitute a waiver of default.

(i) A per diem amount will be shown on the late notice sent to the intermediary. The Agency will continue sending notices to the intermediary on the late payments or any further payments until the account is in a current status.

(ii) Interest will be computed on a 365-day basis unless legal documents state otherwise.

(5) The disbursement procedure. The Agency will disburse the Agency IRP loan funds to the intermediary on an as-needed basis after the loan agreement and promissory note are executed, and after any other conditions precedent to disbursement of funds are fully satisfied. Fund disbursement requests must be submitted with an intermediary's request for Agency concurrence in accordance with the provisions of §4274.352(a). Only the amount of Agency IRP loan funds necessary to fund the given ultimate recipient loan request(s) can be requested by the intermediary and disbursed by the Agency. The intermediary's equity contribution may not be used for administrative costs. When lending, the intermediary's equity contribution must be loaned out prior to or on a pro rata basis with Agency IRP loan funds. For purposes of computing interest, the date of each draw down of an Agency IRP loan constitutes the date the funds are advanced under the loan agreement.

(6) The provisions regarding default. On the occurrence of any event of default (monetary or nonmonetary), the Agency may declare all or any portion of the debt and interest to be immediately due and payable and may proceed to enforce its rights under the loan agreement or any other instruments securing or relating to the loan and in accordance with the applicable laws and regulations. Any of the following may be regarded as an ''event of default'' at the sole discretion of the Agency:

(i) Failure of the intermediary to carry out the specific activities in its loan application as approved by the Agency or failure to comply with the loan terms and conditions of the loan agreement, any applicable Federal or State laws, or with such USDA or Agency regulations as may be applicable; or

(ii) Failure of the intermediary to pay within 15 calendar days of its due date any installment of principal or interest on its promissory note to the Agency; or

(iii) The occurrence of:

(A) The intermediary becoming insolvent, or ceasing, being unable, or admitting in writing its inability to pay

its debts as they mature, or making a general assignment for the benefit of, or entering into any composition or arrangement with creditors; or

(B) Proceedings for the appointment of a receiver, trustee, or liquidator of the intermediary, in whole or of a substantial part of its assets, being authorized or instituted by or against it; or

(iv) Submission or making of any report, statement, warranty, or representation by the intermediary or agent on its behalf to the Agency in connection with the financial assistance awarded hereunder which is false, incomplete, or incorrect in any material respect; or

(v) Failure of the intermediary to remedy any material adverse change in its financial or other condition (such as the representational character of its board of directors, loan making or policymaking body) arising since the date of the Agency's award of assistance hereunder, which condition was an inducement to the Agency's original award.

(7) Insurance requirements.

(i) Hazard insurance with a standard mortgage clause naming the intermediary as beneficiary will be required by the intermediary on every ultimate recipient's project funded from the IRP revolving loan fund in an amount that is at least the lesser of the depreciated replacement value of the property being insured or the amount of the loan. Hazard insurance includes fire, windstorm, lightning, hail, business interruption, explosion, riot, civil commotion, aircraft, vehicle, marine, smoke, builder's risk, public liability, property damage, flood or mudslide, or any other hazard insurance that may be required to protect the security. The intermediary's interest in the insurance will be assigned to the Agency, upon the Agency's request, in the event of default by the intermediary.

(ii) Workmen's compensation insurance on ultimate recipients is required in accordance with State law.

(iii) The intermediary is responsible for determining if an ultimate recipient funded from the IRP revolving loan fund is located in a special flood or mudslide hazard area. If the ultimate recipient is in a flood or mudslide area, then flood or mudslide insurance must be provided in accordance with 7 CFR part 1806, subpart B.

(iv) Intermediaries must provide fidelity bond coverage, or employee dishonesty insurance, for all persons who have access to intermediary funds. Coverage may be provided either for all individual positions or persons, or through ''blanket'' coverage providing protection for all appropriate employees and officials.

(A) The minimum amount of fidelity bond/employee dishonesty coverage required by the Agency will equal the total, cumulative annual debt service requirements for all Agency IRP loans. Intermediaries with fidelity bond/employee dishonesty coverage requirements through other Agency programs (*e.g.*, the Rural Microentrepreneur Assistance Program) must add the coverage requirements of those programs to the coverage requirements of this section in calculating the minimum coverage amount.

(B) Evidence of this coverage must be provided at, or prior to, loan closing and must be maintained for the life of the IRP loan. During the term of the loan, the intermediary must provide evidence to the Agency, upon request, that adequate fidelity bond/employee dishonesty coverage is in place.

(v) The Agency may also require the intermediary to carry other appropriate insurance, such as coverage for public liability, leasehold, and property damage.

(b) The intermediary must agree in the loan documents to:

(1) Not make any changes in the intermediary's articles of incorporation, charter, or by-laws that would impact the intermediary's eligibility for the IRP program or would adversely affect their ability to operate the IRP program in accordance with the provisions of this instruction and any other applicable laws, regulations, and executive orders without the prior written concurrence of the Agency. This pertains to the Agency's original IRP loan funds and revolved funds.

(2) Not make a loan commitment to an ultimate recipient to be funded from Agency IRP loan funds without first receiving the Agency's written concurrence;

(3) Maintain a separate ledger and segregated accounting for the IRP revolving loan fund;

(4) Provide to the Agency:

(i) An annual audit as described in 2 CFR part 200, subpart F, or any successor regulation;

(A) The financial audit report period may be different than the IRP reporting periods. Intermediaries must promptly provide the auditor with the records and documentation necessary for the completion of the audit following the end of the audit period. The audit report must be submitted to the Agency within the earlier of 30 calendar days after receipt of the auditor's report, or nine months after the end of the audit period as described in 2 CFR 200.512. Audits must cover all the intermediary's activities. Audits will be performed by an independent certified public accountant. An acceptable audit will be performed in accordance with Generally Accepted Government Auditing Standards (GAAP) and include such tests of the accounting records as the auditor considers necessary in order to express an opinion on the financial condition of the intermediary. Compilations or reviews do not satisfy the audit requirement.

(B) It is not intended that audits required by this subpart be separate and apart from audits performed in accordance with State and local laws or for other purposes. To the extent feasible, the audit work should be done in connection with these audits. Intermediaries covered by 2 CFR part 200, subpart F, as codified in 2 CFR 400.1, should submit audits conducted in accordance with that regulation.

(ii) Quarterly or semiannual reports (due 30 days after the end of the period);

(A) Reports will be required quarterly during the first year after loan closing and, if all loan funds are not utilized during the first year, quarterly reports will be continued until at least 90 percent of the Agency IRP loan funds have been loaned out to ultimate recipients. Thereafter, reports will be required semiannually. Also, the Agency may require quarterly reports if the intermediary becomes delinquent in repayment of its loan or otherwise fails to fully comply with the provisions of its work plan or loan agreement, or the Agency determines that the intermediary's IRP revolving loan fund is not adequately protected by the current sound worth and paying capacity of the ultimate recipients.

(B) These reports must contain information only on the IRP revolving loan fund. Information required to be included in these reports as well as detailed reporting instructions will be provided by the Agency through a revolving loan fund user manual (available on the USDA Rural Development Intermediary Relending Program website) or similar documentation, which may be amended from time to time;

(iii) Annual proposed budget for the following year that meets the requirements of § 4274.332(b)(2); and

(iv) Other reports as the Agency may require from time to time;

(5) Before the initial lending of Agency IRP loan funds to an ultimate recipient, to obtain written Agency approval of all forms to be used for relending purposes, including application forms, loan agreements, promissory notes, and security instruments. If the intermediary plans to sell participations in its loans made to ultimate recipients, the loan participation agreement and any planned interest rate spread or associated fees must be submitted to the Agency for review and concurrence;

(6) To obtain written approval of the Agency before making any significant changes in forms, security policy, or the work plan. The servicing officer may approve changes in forms, security policy, IRP revolving loan fund plan, or work plans at any time upon a written request from the intermediary and determination by the Agency that the change will not jeopardize repayment of the loan or violate any requirement of this subpart or other Agency regulations. The intermediary must comply with the work plan approved by the Agency so long as any portion of the intermediary's IRP loan is outstanding.

(7) To secure the indebtedness by pledging the IRP revolving loan fund, including all of its loans derived from the proceeds of the Agency loan award,

and pledging its real and personal property and other rights and interests as the Agency may require;

(8) In the event the intermediary's financial condition deteriorates or the intermediary takes action detrimental to prudent fund operation or fails to take action required of a prudent lender, to provide additional security, execute any additional documents, and undertake any reasonable acts the Agency may request, to protect the agency's interest or to perfect a security interest in any assets, including physical delivery of assets and specific assignments; and

(9) Funds not disbursed to the intermediary by the end of the 36th month of the IRP loan from the Agency will be deobligated and not available for disbursement to the intermediary.

(10) For revolved funds, the intermediary is responsible for continuing compliance with the terms and conditions of the loan agreement until the Agency loan is fully satisfied and repaid.

[86 FR 72156, Dec. 21, 2021, as amended at 87 FR 18967, Apr. 1, 2022]

§ 4274.334—§ 4274.339 [Reserved]

§ 4274.340 Application content and submittal.

Intermediaries seeking to participate in the IRP program must submit an application in accordance with paragraph (a) of this section. Intermediaries applying for a subsequent Agency IRP loan may instead submit a streamlined application in accordance with paragraph (b) of this section. All intermediaries must submit their applications as provided in paragraph (c) of this section.

(a) *Intermediary application content.* A complete application will include forms as requested in the intermediary application checklist guide available on the USDA Rural Development Intermediary Relending Program website plus information identified in paragraphs (a)(1) through (12) of this section.

(1) A work plan/narrative that demonstrates the feasibility of the intermediary's program to meet the objectives of this program. The work plan must include, at a minimum:

(i) A copy of the intermediary's policy and/or procedural manuals to assure the Agency that its mission and goals align with that of the Agency (*i.e.,* economic development, promoting rural America, regional and community development.)

(ii) Document the intermediary staff's ability in administering an IRP revolving loan fund. This includes but is not limited to providing a complete listing of all personnel responsible for administering this program along with a statement of their qualifications and experience. Their qualifications should detail their experience in loan making, loan monitoring, and loan servicing including liquidations. The personnel may be either members or employees of the intermediary's organization or on an as-needed basis and as allowed by this regulation, contracted personnel.

(A) Contract personnel may be used to train, develop, or supervise the intermediary's members or employees or to provide interim expertise while the intermediary develops relevant in-house experience. The intermediary may contract for general services, such as clerical, administrative, and accounting services, and loan packaging.

(B) The intermediary cannot use contract personnel for the primary functions of its lending program, such as credit analysis and loan underwriting. The intermediary is expected to make an independent lending decision for each ultimate recipient loan request.

(*1*) The contract between the intermediary and the person or entity providing such service must be submitted for Agency review.

(*2*) The terms of the contract and its duration must be sufficient to develop in-house expertise and to ensure the Agency loan is adequately serviced throughout its term. The contract must provide for termination at the request of the Agency whether or not for cause.

(C) If the Agency determines the intermediary's personnel lack the necessary expertise to administer the program, the loan request will not be approved;

(iii) Demonstrate a need for loan funds. At a minimum, the intermediary must either positively identify a sufficient number of proposed and known

ultimate recipients it has on hand to justify the level of Agency funding of its loan request, or include well developed targeting criteria for ultimate recipients consistent with the intermediary's mission and strategy for the IRP, along with supporting statistical or narrative evidence that such prospective recipients exist in sufficient numbers to justify Agency funding of the loan request;

(iv) Provide a set of goals, strategies, and anticipated outcomes for the intermediary's program. Outcomes should be expressed in quantitative or observable terms (*e.g.,* jobs created for low-income area residents or self-empowerment opportunities funded) and should relate to the purpose of IRP (*see* § 4274.301(b)); and

(v) Provide specific information as to whether and how the intermediary will ensure that technical assistance is made available to ultimate recipients and potential ultimate recipients. Describe the qualifications of the technical assistance providers, the nature of technical assistance that will be available, and expected and committed sources of funding for technical assistance. If other than the intermediary itself, describe the organizations providing such assistance and the arrangements between such organizations and the intermediary.

(2) Demonstrate the sustainability of the IRP revolving loan fund by providing a pro forma balance sheet at start-up and projected balance sheets for at least three additional years including the accumulated debt service reserve; financial statements for the last three years, or from inception of the operations of the intermediary if less than three years; and projected cash flow and earnings statements for at least three years supported by a list of assumptions showing the basis for the projections. The projected earnings statement and balance sheet must include one set of projections that shows the IRP revolving loan fund only and a separate set of projections that shows the intermediary organization's total operations. Also, if principal repayment on the IRP loan will not be scheduled during the first three years, the projections for the IRP revolving loan fund must extend to include at least one year with a full annual installment on the IRP loan.

(3) Provide documentation of any funds pledged and intermediary equity contribution that will be contributed into the IRP revolving loan fund to serve as security for the IRP loan and to pay for part of the cost of the ultimate recipient projects. Pledged funds and intermediary equity contribution must be in the form of cash and cannot be in-kind contributions; they also cannot be used as intermediary operating funds.

(4) A written agreement of the intermediary to abide with the Agency audit requirements.

(5) Complete organizational documents including: Articles of Incorporation (initial loan only), Bylaws, Certificate of Good Standing, a list of board members with contact and lending experience information, and evidence of authority to conduct the proposed lending activities (this could be satisfied with a statement from the intermediary's counsel).

(6) Document the intermediary's ability to commit financial resources under the control of the intermediary to the establishment of an IRP program. This should include a statement of the sources of non-Agency funds for administration of the intermediary's operations and financial assistance for projects.

(7) Demonstrate to Agency satisfaction that the intermediary has secured commitments of significant financial support from public agencies and private organizations.

(8) Provide evidence to Agency satisfaction that the intermediary has a proven record of obtaining private or philanthropic funds for the operation of similar programs to the IRP.

(9) Latest audit report, if available.

(10) The IRP revolving loan fund plan is a separate stand-alone document from the application and may be revised in the future. The IRP revolving loan fund plan governs the use of the RLF and must be developed by the intermediary and approved by the Agency. The plan must include a detailed explanation of the intermediary's fund administration policies and procedures in addition to planned fund use after the original IRP

loan funds in the RLF have revolved. Fund administration policies and procedures must also include information regarding the review and approval of loans from the fund, including participation loans. The revolving loan fund plan must be of sufficient and detailed information to provide the Agency with a complete understanding of what the intermediary will accomplish by lending the funds to the ultimate recipient and the complete mechanics of how the funds will get from the intermediary to the ultimate recipient, including participation loans. The IRP revolving loan fund plan must contain:

(i) The specific service area of the IRP fund including names of counties and or cities within the service area;

(ii) Borrower eligibility criteria, loan purposes, loan priorities, fees, rates, terms, loan limits and collateral requirements;

(iii) Details on the intermediary's application review and approval process;

(iv) Details on the method of disposition of funds to the ultimate recipient, monitoring of the ultimate recipient's accomplishments, the reporting requirements by the ultimate recipient's management; and

(v) A copy of the intermediary's ultimate recipient loan application package and sample loan documents (*i.e.*, application forms, debt instruments, collateral and security documents, etc.).

(11) Credit Elsewhere Certification (*see* Agency template available at the USDA Rural Development Intermediary Relending Program website).

(12) Prior to applying for program funding, a resolution by the intermediary's board of directors is required. At a minimum, the executive director of the intermediary must make the organization's board of directors aware of the possibility that the organization may be entering into a significant debt.

(b) *Streamlined applications.* Intermediaries that have an active Agency IRP loan may submit a streamlined application that includes the following:

(1) Submission of the information required under the Intermediary Guide (available at the USDA Rural Development Intermediary Relending Program website) and paragraphs (a)(1) through (4) of this section except that the information required by paragraph (a)(2) of this section may be limited to projections for the proposed new IRP revolving loan fund.

(2) A statement that the new loan would be operated in accordance with the work plan on file for the previous IRP loan(s) may be submitted in lieu of a new work plan. Any substantial change to an existing work plan would require the submission of a new work plan.

(3) Intermediaries that have received one or more Agency IRP loans may apply for and be considered for additional Agency IRP loans provided that the outstanding loans of the intermediary's IRP revolving loan fund are generally sound, the intermediary is in compliance with all applicable regulations and its loan agreements with the Agency, and the revolving loan fund's liabilities do not significantly exceed their assets. The intermediary must have a reasonable plan to disburse any unused IRP loan funds within six months of loan closing in addition to showing the need for additional IRP funds in accordance with paragraph (a)(1)(iii) of this section.

(c) *Application submittal.* Intermediaries must submit the complete application in one package. The intermediary must file its application with the Agency State Office in the State in which the intermediary's headquarters is located. An intermediary headquartered in the District of Columbia may file its application with the Delaware/Maryland Rural Development State Office, Attention: Business Programs, 1221 College Park Drive, Suite 200, Dover, DE 19904.

§ 4274.341 Processing applications for loans.

(a) *Processing applications.* Applications are accepted in the Rural Development State Office on an ongoing basis. The Agency will review all applications received for eligibility and will score each application according to the criteria in paragraph (b) of this section. Eligible applications received by the Rural Development State Office by close of business on September 30, December 31, March 31, and June 30 of each year will compete based on score

ranking for available funds with other applications in that Federal fiscal quarter. If the quarterly application deadline falls on a weekend or holiday, the application deadline will be the next business day. The Agency will rank all eligible, scored applications each Federal fiscal quarter and will fund applications in the order of priority ranking using available funds for that quarter. The Agency will retain unsuccessful applications due to limited funding for consideration in subsequent reviews, through a total of four quarterly reviews.

(b) *Scoring.* The Agency will use a point system to determine an eligible applicant's priority ranking for available loan funds. Points will be awarded only for factors indicated by well documented, reasonable plans which, in the opinion of the Agency, provide assurance that the work plan items have a high probability of being accomplished. Application content must contain sufficient information to assess the applicant's ability to manage an IRP revolving loan fund and allow the Agency to assign priority points in accordance with the criteria discussed in this section. The Agency will award points using the criteria identified in paragraphs (b)(1) through (9) of this section. Any application that does not meet the minimum value for receiving points associated with a criterion will receive no points for that criterion.

(1) *Intermediary equity contribution for initial Agency IRP loan applications only (maximum 35 points).* The Agency will award points under this criterion if the applicant is applying for its first ever Agency IRP loan and will contribute cash matching funds to the IRP revolving loan fund. These funds must be deposited into the IRP account at closing and are subject to the same use restrictions as Agency IRP loan funds. These funds must be loaned out to ultimate recipients in conjunction with Agency IRP loan funds. The amount of cash matching funds contributed will be:

(i) At least 5 percent, but less than 10 percent of the requested loan amount—10 points.

(ii) At least 10 percent, but less than 20 percent of the requested loan amount—15 points.

(iii) At least 20 percent, but less than 30 percent of the requested loan amount—20 points.

(iv) At least 30 percent, but less than 40 percent of the requested loan amount—25 points.

(v) At least 40 percent, but less than 50 percent of the requested loan amount—30 points.

(vi) More than 50 percent of the requested loan amount—35 points.

(2) *Intermediary equity contribution for subsequent Agency IRP loan applications only (maximum 35 points).* The Agency will award points under this criterion if the applicant is applying for a subsequent IRP loan and will contribute cash matching funds to the IRP revolving loan fund. The Agency must determine that the applicant's performance under their current IRP loan(s) is satisfactory in accordance with §4274.330(f)(3) in order to be eligible and receive points under this criterion. These funds must be deposited into the IRP account at closing and are subject to the same use restrictions as Agency IRP Funds and loaned out to ultimate recipients in conjunction with Agency IRP loan funds. Cash matching funds are not required of subsequent applicants, but points will be awarded if the amount of cash matching funds contributed will be:

(i) At least 5 percent, but less than 10 percent of the requested loan amount—10 points.

(ii) At least 10 percent, but less than 20 percent of the requested loan amount—15 points.

(iii) At least 20 percent, but less than 30 percent of the requested loan amount—20 points.

(iv) At least 30 percent, but less than 40 percent of the requested loan amount—25 points.

(v) At least 40 percent, but less than 50 percent of the requested loan amount—30 points.

(vi) More than 50 percent of the requested loan amount—35 points.

(3) *Community Representation (10 points).* Governing board of directors where 50 percent or more of its members consist of business, banking, civic and community leaders that are representative of the rural communities within the service area(s) that intermediary serves. These board members

are diversely spread across the service areas and represent at least 50 percent of the intermediary total service area. These board members are not employees of the intermediary. Statewide and national IRP lenders must have a board of directors with members that are also familiar with current economic conditions and the inherent credit risks of making and servicing loans outside of the intermediary's primary location to receive these points. Documentation in the workplan must address these qualifications.

(4) *Leveraging (maximum 25 points).* The Agency will award points if the intermediary will limit the funding of ultimate recipient project loans with Agency IRP funds. IRP revolving loan fund funds that consist of revolved funds may also be used as leveraging. However, any projects funded must continue to comply with the loan agreement and requirements of this subpart so long as any part of the Agency IRP loan remains unpaid. The intermediary's equity contribution will be the following percentages of an ultimate recipient's total project costs:

(i) At least 10 percent, but less than 25 percent of the total project costs—5 points will be awarded;

(ii) At least 25 percent, but less than 50 percent of the total project costs—10 points will be awarded; or

(iii) Fifty percent or more of the total project costs—25 points will be awarded.

(5) *Median household income (maximum 15 points).* The Agency will award points under this criterion based on the degree to which the median household income in the service area of the intermediary exceeds the poverty line for a family of four. For applicant intermediaries whose service area includes multiple locations or geographic areas, weighted averages based on the populations will be used in calculating the area's median household income. For median household income computations, applicant intermediaries will use income data from the latest decennial census of the United States, updated according to changes in the consumer price index as published annually by the Agency. The poverty line used will be as defined in section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2)), which will be published annually by the Agency. If the median household income in the intermediary's service area exceeds the poverty line for a family of four by:

(i) At least 50 percent, but not more than 75 percent, 5 points will be awarded;

(ii) At least 25 percent, but less than 50 percent, 10 points will be awarded; or

(iii) Below 25 percent, 15 points will be awarded.

(6) *Unemployment (maximum 15 points).* The Agency will award points under this criterion based on the extent to which the unemployment rate in the intermediary's service area exceeds the national unemployment rate. For unemployment computations, applicant intermediaries must use the unemployment data published by the Bureau of Labor Statistics, U.S. Department of Labor, for the most current month available at the time of application in comparison to the national unemployment rate for the same month. If the service area is a single city, town, or Indian Reservation and current, monthly unemployment data is not available for that city or town, the current, monthly unemployment rate for the county (or Indian Reservation) in which the service area is located should be used. For applicant intermediaries whose service area includes multiple locations or geographic areas, a weighted average based on the populations should be used in calculating the area's unemployment rate. If the unemployment rate in the intermediary's service area is:

(i) Equal to, or less than 25 percent above the national unemployment rate, 5 points will be awarded;

(ii) At least 25 percent above, but less than 50 percent above the national unemployment rate, 10 points will be awarded; or

(iii) Fifty percent or more above the national unemployment rate, 15 points will be awarded.

(7) *Trauma (maximum 15 points).* Under this criterion, the Agency will award 15 points if 50 percent or more of the intermediary's service area is experiencing trauma due to a major natural disaster, as declared by the Federal Emergency Management Agency (FEMA), that occurred not more than

three years prior to the filing of the application for assistance. Intermediaries with proposed statewide and nationwide service areas do not qualify for these points.

(8) *Experience (maximum 30 points).* The Agency will award points under this criterion based on the number of years the intermediary entity has in successfully making and servicing commercial loans. If the intermediary entity itself has actual experience in making and servicing commercial loans, with a successful record, for:

(i) At least 1 but less than 3 years, 5 points will be awarded;

(ii) At least 3 but less than 5 years, 10 points will be awarded;

(iii) At least 5 but less than 10 years, 20 points will be awarded; or

(iv) Ten or more years, 30 points will be awarded.

(9) *Size of loan request (maximum 20 points).* The Agency will award points under this criterion based on the size of the intermediary's loan request. If the size of the loan request is:

(i) $500,000 or less, 20 points will be awarded; or

(ii) Over $500,000, and up to $750,000, 10 points will be awarded

(10) *Administrator (maximum 10 points).* The Administrator may award up to 10 additional points to an application to account for either or both of the items identified in below:

(i) The project meets the President/Secretary Initiative(s) (*e.g.*, local foods, regional development, persistent poverty, energy-related, etc.); or

(ii) The applicant's service area will include areas not currently served by existing IRP Intermediaries. Statewide and nationwide Intermediaries will not be considered for Administrator points with regard to whether an area is currently covered by an existing IRP fund.

§ 4274.342–§ 4274.344 [Reserved]

§ 4274.345 Letter of conditions.

The Agency will provide the successful intermediary with a letter of conditions listing all requirements for the loan. Immediately after reviewing the conditions and requirements in the letter of conditions, the intermediary must complete, sign, and return the requisite forms provided by the Agency indicating the intermediary's intent to meet the conditions and the request of obligation of funds. If the intermediary identifies certain conditions that cannot be met, the intermediary may propose alternate conditions to the Agency. The Agency must approve in writing of any proposed changes made to the initially issued or proposed letter of conditions prior to acceptance and finalization

§ 4274.346 Agency IRP loan closing.

(a) At the time the Agency IRP loan is closed, the intermediary must certify to each condition identified in paragraphs (a)(1) through (5) of this section.

(1) No major changes have been made in the work plan except those approved in the interim by the Agency.

(2) All requirements of the letter of conditions have been met.

(3) There has been no material adverse change in the intermediary's financial condition, nor any other material adverse change in the intermediary, for any reason, during the period of time from the Agency's loan approval to loan closing regardless of the cause or causes of the change and whether or not the change or causes of the change were within the intermediary's control. Any material adverse change must be explained by the intermediary. The Agency, at its sole discretion, will consider any such change and determine if it is significant enough to prevent the loan closing or disbursement of IRP loan funds to the intermediary.

(4) There are no claims or liens of laborers, materialmen, contractors, subcontractors, suppliers of machinery and equipment, or other parties pending against the security of the intermediary, and that no suits are pending or threatened that would adversely affect the security of the intermediary when the security instruments are filed.

(5) Certification that the intermediary has received Agency staff training on how to distinguish a required environmental review from a categorical exclusion in accordance with § 4274.305(b).

(b) The Agency will consider all requested changes submitted in writing

to the Agency but will only approve changes that do not materially affect the IRP project, its capacity, employment, original projections, or credit factors.

§ 4274.347–§ 4274.350 [Reserved]

§ 4274.351 Loan approval and obligating funds.

(a) The loan will be considered approved on the date that the obligation of funds document (*Form RD 1940–1, Request for Obligation of Funds*), is signed by the Agency. Agency IRP loans not closed within six months of approval by the Agency will be deobligated and the loan funds will no longer be available to the intermediary.

(b) An obligation of funds established for an intermediary may be transferred by the Agency to a different (substituted) intermediary provided:

(1) The substituted intermediary is eligible to receive the assistance approved for the original intermediary;

(2) The substituted intermediary bears a close and genuine relationship to the original intermediary; and

(3) The need for and scope of the project and the purposes for which Agency IRP loan funds will be used remain substantially unchanged.

§ 4274.352 Loan documentation for ultimate recipients.

(a) *Agency IRP loans.* Prior Agency concurrence is required when an intermediary makes loans to an ultimate recipient from its Agency IRP loan funds (this applies to each Agency IRP loan received). A request for Agency concurrence in approval of a proposed loan to an ultimate recipient, whether made directly or through a loan participation purchase, must contain or comply with, as appropriate, the items identified in paragraph (b)(1) through (5) of this section and must include information listed in the IRP Revolving Loan Fund File Checklist, on the Agency website at the USDA Rural Development Intermediary Relending Program website:

(1) Certification by the intermediary that:

(i) The ultimate recipient is eligible for the loan;

(ii) The loan is for an eligible purpose;

(iii) Agency IRP loan funds are not more than 75 percent of the total project costs;

(iv) The loan complies with all applicable statutes and regulations;

(v) The ultimate recipient is unable to finance the proposed project through commercial credit or other Federal, State, or local programs at reasonable rates and terms; and

(vi) The intermediary and its principal officers (including immediate family) hold no legal or financial interest or influence in the ultimate recipient, and the ultimate recipient and its principal officers (including immediate family) hold no legal or financial interest or influence in the intermediary. The interest and influence of a cooperative member when the intermediary is a cooperative is an allowable exception to this paragraph.

(2) A completed and executed request for environmental information on a form provided by the Agency for projects that meet the criteria for a NEPA review categorical exclusion, NEPA environmental assessment or NEPA environmental impact statement in accordance with § 4274.305(b)(2).

(3) All comments obtained in accordance with § 4274.305(a) regarding intergovernmental consultation (if required).

(4) Copies of sufficient material from the ultimate recipient's application and the intermediary's related files to allow the Agency to determine the:

(i) Name, address, Unique Entity Identifier, Federal ID number, and North American Classification System (NAICS) Code of the ultimate recipient;

(ii) Loan purpose;

(iii) Interest rate and term;

(iv) Location, nature, and scope of the project being financed;

(v) Uses and sources of funds; and

(vi) Nature and lien priority of the collateral.

(5) Such other information as the Agency may request.

(b) *Revolved IRP loan funds.* An intermediary may use revolved funds to make loans to ultimate recipients in accordance with § 4274.320(b) without obtaining prior Agency concurrence as

required in §4274.352(a) and are also exempted from completion of items required by paragraphs (a)(2) and (3) of this section.

Subpart A—General

SOURCE: 81 FR 35997, June 3, 2016, unless otherwise noted.

§ 4279.1 Introduction.

(a) As of October 1, 2020, this subpart is specifically applicable to and only contains regulations for Business and Industry loans under the authority of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. 116–136) to provide B&I guarantees for loans needed as a result of the Coronavirus Disease 2019 (COVID–19) pandemic for working capital loan purposes to support business operations and facilities in rural areas (B&I CARES Act Program Loans). Some of the requirements of this subpart are waived or altered for B&I CARES Act Program Loans. The waivers and alterations are provided in § 4279.190 of this subpart. Other than B&I CARES Act Program Loans, this subpart is no longer used for making Business and Industry (B&I) loans guaranteed by the Agency. Subpart B of part 4287 of this chapter is retained for servicing B&I CARES Act Program Loans and B&I loans guaranteed by the Agency prior to October 1, 2020. Requirements for B&I loans guaranteed by the Agency after October 1, 2020 (other than B&I CARES Act Loans) may be found at 7 CFR part 5001.

(b) The lender is responsible for ascertaining that all requirements for making, securing, servicing, and collecting the loan are complied with.

(c) Whether specifically stated or not, whenever Agency approval is required, it must be in writing. Copies of all forms and regulations referenced in this subpart may be obtained from any Agency office and from the USDA Rural Development Web site at *http://www.rd.usda.gov/publications*. Whenever a form is designated in this subpart, it is initially capitalized and its reference includes predecessor and successor forms, if applicable.

[81 FR 35997, June 3, 2016, as amended at 85 FR 31040, May 22, 2020; 85 FR 62196, Oct. 2, 2020]

§ 4279.2 Definitions and abbreviations.

(a) *Definitions.* The following definitions apply to this subpart:

Administrator. The Administrator of Rural Business–Cooperative Service within the Rural Development mission

area of the U.S. Department of Agriculture.

Affiliate. An entity that is related to another entity by owning shares or having an interest in the entity, by common ownership, or by any means of control.

Agency. The Rural Business-Cooperative Service or successor Agency assigned by the Secretary of Agriculture to administer the B&I Guaranteed Loan Program. References to the National or State Office should be read as prefaced by ''Agency'' or ''Rural Development'' as applicable.

Agricultural production. The breeding, raising, feeding, or housing of livestock for fiber or food for human consumption and the cultivation, growing, or harvesting of crops.

Annual renewal fee. The annual renewal fee is a fee that is paid once a year by the lender and is required to maintain the enforceability of the Loan Note Guarantee.

Appraisal surplus. The difference between the fair market value of an asset and its depreciated book value when the fair market value is higher.

Arm's-length transaction. A transaction between ready, willing, and able disinterested parties that are not affiliated with or related to each other and have no security, monetary, or stockholder interest in each other.

Assignment Guarantee Agreement. Form RD 4279–6, ''Assignment Guarantee Agreement,'' is the signed agreement among the Agency, the lender, and the holder containing the terms and conditions of an assignment of a guaranteed portion of a loan, using the single note system.

Bankruptcy Code. The provisions of title 11 of the United States Code or any successor statute.

Biofuel. A fuel derived from Renewable Biomass.

Bond. A form of debt security in which the authorized issuer (borrower) owes the bond holder (lender) a debt and is obligated to repay the principal and interest (coupon) at a later date(s) (maturity). An explanation of the type of bond and other bond stipulations must be attached to the bond issuance.

Borrower. The person that borrows, or seeks to borrow, money from the lender, including any party liable for the loan except for guarantors.

Certificate of Incumbency and Signature. Form RD 4279–7, ''Certificate of Incumbency and Signature,'' is used to validate authenticity of Agency representatives' signatures on Forms RD 4279–4, 4279–5, and 4279–6.

Collateral. The asset(s) pledged by the borrower to secure the loan.

Commercially available. A system that has a proven operating history for at least 1 year specific to the proposed application. Such a system is based on established design and installation procedures and practices. Professional service providers, trades, large construction equipment providers, and labor are familiar with installation procedures and practices. Proprietary and the balance of system equipment and spare parts are readily available, and service is readily available to properly maintain and operate the system. An established warranty exists for major parts and labor. If the system is currently commercially available only outside of the United States, authoritative evidence of the foreign operating history, performance, and reliability is required in order to address the proven operating history.

Conditional Commitment. Form RD 4279–3, ''Conditional Commitment,'' is the Agency's notice to the lender that the loan guarantee it has requested is approved subject to the completion of all conditions and requirements set forth by the Agency and outlined in the attachment to the Conditional Commitment.

Conflict of interest. A situation in which a person has competing personal, professional, or financial interests that prevents the person from acting impartially.

Cooperative organization. An entity that is legally chartered as a cooperative or an entity that is not legally chartered as a cooperative but is owned and operated for the benefit of its members, with returns of residual earnings paid to such members on the basis of patronage.

Debt Collection Improvement Act. The Debt Collection Improvement Act of 1996, 31 U.S.C. 3701 *et seq*. requires that any monies that are payable or may become payable from the United States

under contracts and other written agreements to any person not an agency or subdivision of a State or local government may be subject to certain collection options, such as administrative offset, for a delinquent debt the person owes to the United States.

Default. The condition that exists when a borrower is not in compliance with the promissory note, the loan agreement, or other documents relating to the loan. Default could be a monetary or non-monetary default.

Deficiency judgment. A monetary judgment rendered by a court of competent jurisdiction after foreclosure and liquidation of all collateral securing the loan.

Delinquency. A loan for which a scheduled loan payment is more than 30 days past due and cannot be cured within 30 days.

Energy projects. Commercially available projects that generate energy or power or projects that produce biofuel. Projects that have energy outputs that are a by-product of operations or that the Agency otherwise determines is not an energy project are not subject to the increased equity requirement for energy projects required by § 4279.131(d)(1).

Existing business. A business that has been in operation for at least 1 full year. Mergers or changes in the business name or legal type of entity of a business that has been in operation for at least 1 full year are considered to be existing businesses as long as there is not a significant change in operations. Newly-formed entities that are buying existing businesses will be considered an existing business as long as the business being bought remains in operation and there is no significant change in operations.

Existing lender debt. A debt owed by a borrower to the same lender that is applying for or has received the Agency guarantee.

Fair market value. The price that could reasonably be expected for an asset in an arm's-length transaction between a willing buyer and a willing seller under ordinary economic and business conditions.

Future recovery. Funds collected by the lender after a final loss claim is processed.

High impact business development investment. A business that scores at least 25 points under § 4279.166(b)(4).

High-priority project. A project that scores more than 50 percent of the priority points available under § 4279.166(b)(1) through (5).

Holder. A person, other than the lender, who owns all or part of the guaranteed portion of the loan with no servicing responsibilities. When the single note option is used and the lender assigns a part of the guaranteed note to an assignee, the assignee becomes a holder only when the Agency receives notice and the transaction is completed through the use of the Assignment Guarantee Agreement.

Immediate family. Individuals who live in the same household or who are closely related by blood, marriage, or adoption, such as a spouse, domestic partner, parent, child, sibling, aunt, uncle, grandparent, grandchild, niece, nephew, or cousin.

In-house expenses. Expenses associated with activities that are routinely the responsibility of a lender's internal staff or its agents. In-house expenses include, but are not limited to, employees' salaries, staff lawyers, travel, and overhead.

Interest. A fee paid by a borrower to the lender as a form of compensation for the use of money. When money is borrowed, interest is paid as a fee over a certain period of time (typically months or years) to the lender as a percentage of the principal amount owed. The term interest does not include default or penalty interest or late payment fees or charges.

Interim financing. A temporary or short-term loan made with the clear intent when the loan is made that it will be repaid through another loan that provides permanent financing. Interim financing is frequently used to pay construction and other costs associated with a planned project, with permanent financing to be obtained after project completion.

Lender. The eligible lender approved by the Agency to make, service, and collect the Agency guaranteed loan that is subject to this subpart. Agency approval of the lender will be evidenced by an outstanding Form RD 4279–4,

''Lender's Agreement,'' between the Agency and the lender.

Lender's Agreement. Form RD 4279–4, ''Lender's Agreement,'' or predecessor form, between the Agency and the lender setting forth the lender's loan responsibilities.

Liquidation expenses. Costs directly associated with the liquidation of collateral, including preparing collateral for sale (*e.g.*, repairs and transport) and conducting the sale (*e.g.*, advertising, public notices, auctioneer expenses, and foreclosure fees). Liquidation expenses do not include in-house expenses. Legal/attorney fees are considered liquidation expenses provided that the fees are reasonable, as determined by the Agency, and cover legal issues pertaining to the liquidation that could not be properly handled by the lender and its in-house counsel.

Loan agreement. The agreement between the borrower and lender containing the terms and conditions of the loan and the responsibilities of the borrower and lender.

Loan classification. The process by which loans are examined and categorized by degree of potential loss in the event of default.

Loan Note Guarantee. Form RD 4279–5, ''Loan Note Guarantee,'' issued and executed by the Agency, containing the terms and conditions of the guarantee.

Loan packager. A person, other than the applicant borrower or lender, that prepares a loan application package.

Loan service provider. A person, other than the lender of record, that provides loan servicing activities to the lender.

Loan-to-discounted value. The ratio of the dollar amount of a loan to the discounted dollar value of the collateral pledged as security for the loan.

Loan-to-value. The ratio of the dollar amount of a loan to the dollar value of the collateral pledged as security for the loan.

Local government. A county, municipality, town, township, village, or other unit of general government, including tribal governments, below the State level.

Material adverse change. Any change in circumstance associated with a guaranteed loan, including the borrower's financial condition or collateral, that, individually or in the aggregate, has jeopardized, or could be reasonably expected to jeopardize, loan performance.

Natural resource value-added product. Any naturally occurring resource, including agricultural resources, that is processed to add value or to generate renewable energy from a natural resource.

Negligent loan origination. The failure of a lender to perform those services that a reasonably prudent lender would perform in originating its own portfolio of loans that are not guaranteed. The term includes the concepts of failure to act, not acting in a timely manner, or acting in a manner contrary to the manner in which a reasonably prudent lender would act.

Negligent loan servicing. The failure of a lender to perform those services that a reasonably prudent lender would perform in servicing (including liquidation of) its own portfolio of loans that are not guaranteed. The term includes the concepts of failure to act, not acting in a timely manner, or acting in a manner contrary to the manner in which a reasonably prudent lender would act.

New business. A startup or otherwise new business that has been in operation for less than 1 full year. New businesses include newly-formed entities leasing space or building ground-up facilities, even if the owners of the new or startup business own affiliated businesses doing the same kind of business.

Parity. A lien position whereby two or more lenders share a security interest of equal priority in collateral. In the event of default, each lender will be affected on an equal basis.

Participation. Sale of an interest in a loan by the lead lender to one or more participating lenders wherein the lead lender retains the note, collateral securing the note, and all responsibility for managing and servicing the loan. Participants are dependent upon the lead lender for protection of their interests in the loan. The relationship is typically formalized by a participation agreement. The participants and the borrower have no rights or obligations to one another.

Person. An individual or entity.

Poverty. A community or area (including a county, city, or equivalent

such as parish, borough, municipio, or census designated place) where at least 20 percent of the population have income below the poverty line.

Pro rata. On a proportional basis.

Promissory note. Evidence of debt with stipulated repayment terms. ''Note'' or ''promissory note'' shall also be construed to include ''Bond'' or other evidence of debt, where appropriate.

Protective advances. Advances made by the lender for the purpose of preserving and protecting the collateral where the debtor has failed to, and will not or cannot, meet its obligations to protect or preserve collateral. Protective advances include, but are not limited to, advances affecting the collateral made for property taxes, rent, hazard and flood insurance premiums, and annual assessments. Legal/attorney fees are not a protective advance.

Public body. A municipality, county, or other political subdivision of a State; a special purpose district; an Indian tribe on a Federal or State reservation or other federally-recognized Indian tribe; or an organization controlled by any of the above.

Renewable biomass. (1) Materials, precommercial thinnings, or invasive species from National Forest System land or public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that:

(i) Are by-products of preventive treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health;

(ii) Would not otherwise be used for higher-value products; and

(iii) Are harvested in accordance with applicable law and land management plans and the requirements for old-growth maintenance, restoration, and management direction of paragraphs (2), (3), and (4) of subsection (e) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512) and large-tree retention of subsection (f) of that section; or

(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian Tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including:

(i) Renewable plant material, including feed grains; other agricultural commodities; other plants and trees; and algae; and

(ii) Waste material, including crop residue; other vegetative waste material (including wood waste and wood residues); animal waste and by-products (including fats, oils, greases, and manure); and food and yard waste.

Report of loss. Form RD 449–30, ''Guaranteed Loan Report of Loss,'' used by lenders when reporting a financial loss under an Agency guarantee.

Rural Development. The mission area of USDA that is comprised of the Rural Business–Cooperative Service, the Rural Housing Service, and the Rural Utilities Service and is under the policy direction and operational oversight of the Under Secretary for Rural Development.

Spreadsheet. A table containing data from a series of financial statements of a business over a period of time. A financial statement analysis normally contains spreadsheets for balance sheet and income statement items and includes a cash flow analysis and commonly used ratios. The spreadsheets enable a reviewer to easily scan the data, spot trends, and make comparisons.

State. Any of the 50 States of the United States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Subordination. An agreement among the lender, borrower, and Agency whereby lien priorities on certain assets pledged to secure payment of the guaranteed loan will be reduced to a position junior to, or on parity with, the lien position of another loan.

Tangible balance sheet equity. Tangible equity divided by tangible assets. Formula: ((Assets—intangible assets)—liabilities)/(Assets—intangible assets) or (Equity—intangible assets)/(Assets—intangible assets).

Transfer and assumption. The conveyance by a borrower to an assuming borrower of the assets, collateral, and liabilities of the loan in return for the assuming borrower's binding promise to pay the outstanding debt.

USDA Lender Interactive Network Connection (LINC). The portal Web site currently at *https://usdalinc.sc.egov.usda.gov/* used by lenders to update loan data in the Agency's Guaranteed Loan System. Current LINC capabilities include loan closing and status reporting.

Veteran. For the purposes of assigning priority points, a veteran is a person who is a veteran of any war, as defined in title 38 U.S.C. 101(12).

Working capital. Current assets available to support a business' operations and growth. Working capital is calculated as current assets less current liabilities.

(b) *Abbreviations*. The following abbreviations apply to this subpart:

B&I—Business and Industry
CFR—Code of Federal Regulations
DCIA—Debt Collection Improvement Act
FDIC—Federal Deposit Insurance Corporation
FSA—Farm Service Agency
GAAP—Generally Accepted Accounting Principles of the United States
LINC—USDA Lender Interactive Network Connection
NAD—National Appeals Division
OMB—Office of Management and Budget
REAP—Rural Energy for America Program
U.S.—United States of America
USDA—U.S. Department of Agriculture

(c) *Accounting terms*. Accounting terms not otherwise defined in this part shall have the definition ascribed to them under GAAP.

§§ 4279.3–4279.14 [Reserved]

§ 4279.15 Exception authority.

The Administrator may, on a case-by-case basis, grant an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal government. Exercise of this authority cannot be in conflict with applicable law.

§ 4279.16 Appeals.

Applicants, borrowers, lenders, and holders have appeal or review rights for Agency decisions made under this subpart, subpart B of this part, or subpart B of part 4287 of this chapter. Programmatic decisions based on clear and objective statutory or regulatory requirements are not appealable; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). The borrower, lender, and holder can appeal any Agency decision that directly and adversely impacts them. For an adverse decision that impacts the borrower, the lender and borrower must jointly execute a written request for appeal for an alleged adverse decision made by the Agency. An adverse decision that only impacts the lender may be appealed by the lender only. An adverse decision that only impacts the holder may be appealed by the holder only. A decision by a lender adverse to the interest of the borrower is not a decision by the Agency, whether or not concurred in by the Agency. Appeals will be conducted by USDA NAD and will be handled in accordance with 7 CFR part 11.

§§ 4279.17–4279.28 [Reserved]

§ 4279.29 Eligible lenders.

An eligible lender must be domiciled in a State as defined in § 4279.2 or the District of Columbia and must not be debarred or suspended by the Federal government. If the lender is under a cease and desist order, or similar constraint, from a Federal or State agency, the lender must inform the Agency. The Agency will evaluate the lender's eligibility on a case-by-case basis, given the risk of loss posed by the cease and desist order. The Agency will only approve loan guarantees for lenders with adequate capital to fund and cover potential liquidation expenses for guaranteed loans it proposes to make and adequate experience and expertise to make, secure, service, and collect B&I loans. The lender must provide documentation as to its capital and experience in commercial lending. The lender and the Agency will execute a Lender's Agreement for each lender approved to participate in the program. If a valid Lender's Agreement already exists, it is not necessary to execute a new Lender's Agreement with each

loan guarantee; however, a new Lender's Agreement must be executed with any existing lenders making new loans on or after August 2, 2016. The Agency may revoke a lender's eligible status at any time for cause, including those examples cited in § 4279.29(c).

(a) *Regulated lenders.* A regulated lender is any Federal or State chartered bank, or other financial institution, Farm Credit Bank, other Farm Credit System institution with direct lending authority, Bank for Cooperatives, Savings and Loan Association, Savings Bank, or mortgage company that is part of a bank-holding company. These entities must be subject to credit examination and supervision by either an agency of the United States or a State. Eligible lenders may also include the National Rural Utilities Cooperative Finance Corporation and credit unions provided that they are subject to credit examination and supervision by either the National Credit Union Administration or a State agency.

(b) *Non-regulated lenders.* The Agency may consider an applicant lender that does not meet the criteria of paragraph (a) of this section for eligibility to become a guaranteed lender for a 3-year period provided that the Agency determines that the applicant lender has the legal authority to operate a lending program and sufficient lending expertise and financial strength to operate a successful lending program. When the applicant lender is a multi-tiered entity, it will be considered in its entirety. Insurance companies (formerly included as traditional lenders) and non-regulated lenders (formerly known as other lenders) previously approved as guaranteed lenders prior to August 2, 2016 must reapply to become an approved non-regulated lender in order to originate new guaranteed loans. However, both insurance companies and non-regulated lenders that have executed a Lender's Agreement must continue to service the guaranteed loans in their portfolios in accordance with that agreement.

(1) In order to become an eligible lender, non-regulated lenders must:

(i) Have been making commercial loans for at least 5 years;

(ii) Have a record of successfully making at least 10 commercial loans annually totaling at least $1 million for each of the last 5 years, with lender's delinquent commercial loan portfolio over this period not exceeding (a) 6 percent of all commercial loans made and (b) 3 percent in commercial loan losses (based on the original principal loan amount);

(iii) Have and maintain tangible balance sheet equity of at least 10 percent of tangible assets and sufficient funds available to disburse the guaranteed loans it proposes to approve within the first 6 months of being approved as a guaranteed lender;

(iv) Have and maintain a line of credit issued by a regulated lender that is acceptable to the Agency;

(v) Agree to establish and maintain an Agency approved loss reserve equal to 3 percent of each B&I loan closed and agree to increase the loss reserve for anticipated losses as required by the Agency;

(vi) Have adequate policies and procedures to ensure that internal credit controls provide adequate loanmaking and servicing guidance; and

(vii) Have undergone a credit examination at its own expense from a recognized independent reviewer acceptable to the Agency. The applicant lender should consult with the Agency prior to receiving an examination to ensure the examiner will be acceptable.

(2) A non-regulated lender that wishes consideration to become a guaranteed lender must submit a request in writing to the Agency. The Agency will notify the prospective lender whether the lender's request for eligibility is approved or rejected. If rejected, the Agency will notify the prospective lender, in writing, of the reasons for the rejection. The lender must include in its written request the following:

(i) An audited financial statement not more than 1 year old that evidences the lender has the required tangible balance sheet equity and the resources to successfully meet its responsibilities;

(ii) A copy of any license, charter, or other evidence of authority to engage in the proposed loanmaking and servicing activities. If licensing by the State is not required, an attorney's

opinion stating that licensing is not required and that the entity has the legal authority to engage in the proposed loanmaking and servicing activities must be submitted;

(iii) Information on lending experience, including length of time in the lending business; range and volume of lending and servicing activity, including a list of the industries for which it has provided financing; status of its loan portfolio, including a list of loans in the portfolio with each loan's current loan classification code and delinquency and loss rates as outlined in § 4279.29(b)(1)(ii); experience of management and loan officers; sources of funds for the proposed loans; office location and proposed lending area; an estimate of the number and size of guaranteed loan applications the lender will develop; and proposed rates and fees, including loan origination, loan preparation, and servicing fees;

(iv) A copy of the examination required under paragraph (b)(1)(vii) of this section; and

(v) Documentation as to how the lender will fulfill the requirements of § 4279.30.

(3) Non-regulated lenders must submit audited financial statements to the Agency annually for monitoring purposes.

(4) Renewal of eligible lender status to continue making B&I loans is not automatic. Eligible lender status will lapse 3 years from the date of Agency approval and execution of the Lender's Agreement unless the lender obtains a renewal. A lender whose eligible status has lapsed must continue to service any outstanding loans guaranteed under this part but may not submit requests for new loan guarantees. Lenders whose eligibility has lapsed may file a subsequent request under this subsection. Lenders requesting renewal must complete and execute a new Lender's Agreement, along with a written update of the eligibility criteria required by this section for approval. Lenders requesting renewal must resubmit the information required by paragraph (b)(2) of this section and must address how the lender is complying with each of the required criteria described in paragraph (b)(1) of this section. The written update of the eligibility criteria must also include any change in the persons designated to process and service Agency guaranteed loans or change in the operating methods used in the processing and servicing of loans since the original or last renewal date of eligible lender status. The lender must provide this information to the Agency at least 60 days prior to the expiration of the existing agreement to be assured of a timely renewal.

(c) *Revocation of eligible lender status.* The Agency may revoke a lender's status at any time for cause. Cause for revoking eligible status includes:

(1) Failure to maintain status as an eligible lender as set forth in § 4279.29 of this subpart;

(2) Knowingly submitting false information when requesting a guarantee or basing a guarantee request on information known to be false or which the lender should have known to be false;

(3) Making a guaranteed loan with deficiencies that may cause losses not to be covered by the Loan Note Guarantee, such as negligent loan origination;

(4) Conviction of the lender or its officers for criminal acts in connection with any loan transaction whether or not the loan was guaranteed by the Agency;

(5) Violation of usury laws in connection with any loan transaction whether or not the loan was guaranteed by the Agency;

(6) Failure to obtain and maintain the required security for any loan guaranteed by the Agency;

(7) Using loan funds guaranteed by the Agency for purposes other than those specifically approved by the Agency in the Conditional Commitment or amendment thereof in accordance with § 4279.173(b);

(8) Violation of any term of the Lender's Agreement;

(9) Failure to correct any Agency-cited deficiency in loan documents in a timely manner;

(10) Failure to submit reports required by the Agency in a timely manner;

(11) Failure to process Agency guaranteed loans as would a reasonably prudent lender;

(12) Failure to provide for adequate construction planning and monitoring in connection with any loan to ensure that the project will be completed with the available funds and, once completed, will be suitable for the borrower's needs;

(13) Repetitive recommendations for servicing actions or guaranteed loans with marginal or substandard credit quality or that do not comply with Agency requirements;

(14) Negligent loan origination;

(15) Negligent loan servicing;

(16) Failure to conduct any approved liquidation of a loan guaranteed by the Agency or its predecessors in a timely and effective manner and in accordance with the approved liquidation plan; or

(17) Violation of applicable nondiscrimination law, including, but not limited to, statutes, regulations, USDA Departmental Regulations, the USDA Non-Discrimination Statement, and the Equal Credit Opportunity Act. USDA's Non-Discrimination Statement is located at the following Web site: *http://www.usda.gov/wps/portal/usda/usdahome?navtype=FT&navid=NON_DISCRIMINATION*.

(d) *Debarment of lender*. The Agency may debar a lender in addition to the revocation of the lender's status.

[81 FR 35997, June 3, 2016, as amended at 81 FR 54477, Aug. 16, 2016]

§ 4279.30 Lenders' functions and responsibilities.

(a) *General*. (1) Lenders have the primary responsibility for the successful delivery of the guaranteed loan program. Any action or inaction on the part of the Agency does not relieve the lender of its responsibilities to originate and service the loan guaranteed under this subpart, subpart B of this part, and subpart B of part 4287 of this chapter. Lenders may contract for services but are ultimately responsible for underwriting, loan origination, loan servicing, and compliance with all Agency regulations. No person may act as, or work for, both a loan packager and loan service provider on the same guaranteed loan. All lenders obtaining or requesting a loan guarantee are responsible for:

(i) Processing applications for guaranteed loans;

(ii) Developing and maintaining adequately documented loan files, which must be maintained for at least 3 years after any final loss has been paid;

(iii) Recommending only loan proposals that are eligible and financially feasible;

(iv) Properly closing the loan and obtaining valid evidence of debt and collateral in accordance with sound lending practices prior to disbursing loan proceeds;

(v) Keeping an inventory accounting of all collateral items and reconciling the inventory of all collateral sold during loan servicing, including liquidation;

(vi) Monitoring construction and operation;

(vii) Distributing loan funds;

(viii) Servicing guaranteed loans in a prudent manner, including liquidation if necessary;

(ix) Reporting all conflicts of interest, or appearances thereof, to the Agency;

(x) Following Agency regulations and agreements; and

(xi) Obtaining Agency approvals or concurrence as required.

(2) This subpart, subpart B of this part, and subpart B of part 4287 of this chapter contain the regulations for this program, including the lenders' responsibilities. If a lender fails to comply with these requirements, the Agency may reduce any loss payment in accordance with the applicable regulations.

(b) *Credit evaluation*. The lender must analyze all credit factors associated with each proposed loan and apply its professional judgment to determine that the credit factors, considered in combination, ensure loan repayment. The lender must have an adequate underwriting process to ensure that loans are reviewed by persons other than the originating officer, and there must be good credit documentation procedures. The Agency will only issue guarantees for loans that are sound and have reasonable assurance of repayment. The Agency will not issue guarantees for marginal or substandard loans.

(c) *Environmental responsibilities*. Lenders are responsible for becoming familiar with Federal environmental

requirements; considering, in consultation with the prospective borrower, the potential environmental impacts of their proposals at the earliest planning stages; and developing proposals that minimize the potential to adversely impact the environment.

(1) Lenders must assist the borrower in providing details of the project's impact on the environment and historic properties in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures,'' (or successor regulation), when applicable; assist in the collection of additional data when the Agency needs such data to complete its environmental review of the proposal; and assist in the resolution of environmental problems.

(2) Lenders must ensure the borrower has:

(i) Provided the necessary environmental information to enable the Agency to undertake its environmental review process in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures,'' or successor regulation, including the provision of all required Federal, State, and local permits;

(ii) Complied with any mitigation measures required by the Agency; and

(iii) Not taken any actions or incurred any obligations with respect to the proposed project that will either limit the range of alternatives to be considered during the Agency's environmental review process or that will have an adverse effect on the environment.

(3) Lenders must alert the Agency to any environmental issues related to a proposed project or items that may require extensive environmental review.

§§ 4279.31–4279.43 [Reserved]

§ 4279.44 Access to records.

The lender must permit representatives of the Agency (or other agencies of the United States) to inspect and make copies of any records of the lender pertaining to Agency guaranteed loans during regular office hours of the lender or at any other time upon agreement between the lender and the Agency. In addition, the lender must cooperate fully with Agency oversight and monitoring of all lenders involved in any manner with any guarantee to ensure compliance with this subpart, subpart B of this part, and subpart B of part 4287 of this chapter. Such oversight and monitoring will include, but is not limited to, reviewing lender records and meeting with lenders in accordance with subpart B of part 4287 of this chapter.

§§ 4279.45–4279.58 [Reserved]

§ 4279.59 Environmental requirements.

The Agency is responsible for ensuring that the requirements of the National Environmental Policy Act of 1969 (under 40 CFR part 1500) and related compliance actions, such as Section 106 of the National Historic Preservation Act (under 36 CFR part 800) and Section 7 of the Endangered Species Act, are met and will complete the appropriate level of environmental review in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures,'' or successor regulation. Because development of the loan application occurs simultaneously with development of the environmental review, applicants, including lenders and borrowers, must not take any actions or incur any obligations that would either limit the range of alternatives to be considered in the environmental review or that would have an adverse effect on the environment. Satisfactory completion of the environmental review process must occur prior to issuance of the Conditional Commitment to the lender.

§ 4279.60 Civil rights impact analysis.

Issuance of a Conditional Commitment is conditioned on the Agency being able to satisfactorily complete a civil rights impact analysis.

§ 4279.61 Equal Credit Opportunity Act.

In accordance with the Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*), with respect to any aspect of a credit transaction, neither the lender nor the Agency will discriminate against any applicant on the basis of race, color, religion, national origin, sex, marital status, or age (providing the applicant

has the capacity to contract), or because all or part of the applicant's income derives from a public assistance program, or because the applicant has, in good faith, exercised any right under the Consumer Protection Act. The lender must comply with the requirements of the Equal Credit Opportunity Act as contained in the Federal Reserve Board's Regulation implementing that Act (see 12 CFR part 202) prior to loan closing.

§§ 4279.62–4279.70 [Reserved]

§ 4279.71 Public bodies and nonprofit corporations.

Audits will be required of any public body, nonprofit corporation or Indian Tribe that receives a guaranteed loan that meets the thresholds established by 2 CFR part 200, subpart F. Any audit provided by a public body, nonprofit corporation, or Indian Tribe required by this paragraph will be considered adequate to meet the audit requirements of the B&I program for that year.

§ 4279.72 Conditions of guarantee.

A loan guarantee under this part will be evidenced by a Loan Note Guarantee issued by the Agency. The provisions of this part and part 4287 of this chapter will apply to all outstanding guarantees. In the event of a conflict between the guarantee documents and these regulations as they exist at the time the documents are executed, these regulations will control.

(a) *Full faith and credit.* A guarantee under this part constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which a lender or holder has actual knowledge at the time it becomes such lender or holder or which a lender or holder participates in or condones. The guarantee will be unenforceable by the lender to the extent that any loss is occasioned by a provision for interest on interest or default or penalty interest. In addition, the guarantee will be unenforceable by the lender to the extent any loss is occasioned by the violation of usury laws, use of loan proceeds for unauthorized purposes, negligent loan origination, negligent loan servicing, or failure to obtain or maintain the required security regardless of the time at which the Agency acquires knowledge thereof. Any losses occasioned will be unenforceable by the lender to the extent that loan funds were used for purposes other than those specifically approved by the Agency in its Conditional Commitment or amendment thereof in accordance with § 4279.173(b). The Agency may for cause terminate or reduce the Loan Note Guarantee at any time. The Agency will guarantee payment as follows:

(1) To any holder, 100 percent of any loss sustained by the holder on the guaranteed portion of the loan it owns and on interest due on such portion less any outstanding servicing fee. For those loans closed on or after August 2, 2016, the lender or the Agency will issue an interest termination letter to the holder(s) establishing the termination date for interest accrual. The guarantee will not cover interest to any holder accruing after the greater of: 90 days from the date of the most recent delinquency effective date as reported by the lender or 30 days from the date of the interest termination letter.

(2) To the lender, subject to the provisions of this part and subpart B of part 4287 of this chapter, the lesser of:

(i) Any loss sustained by the lender on the guaranteed portion, including principal and interest (for loans closed on or after August 2, 2016, the guarantee will not cover note interest to the lender accruing after 90 days from the most recent delinquency effective date) evidenced by the notes or assumption agreements and secured advances for protection and preservation of collateral made with the Agency's authorization; or

(ii) The guaranteed principal advanced to or assumed by the borrower and any interest due thereon. For loans closed on or after August 2, 2016, the guarantee will not cover note interest to the lender accruing after 90 days from the most recent delinquency effective date.

(b) *Rights and liabilities.* When a guaranteed portion of a loan is sold to a holder, the holder will succeed to all rights of the lender under the Loan

Note Guarantee to the extent of the portion purchased. The full, legal interest in the note must remain with the lender, and the lender will remain bound to all obligations under the Loan Note Guarantee, Lender's Agreement, and Agency program regulations. A guarantee and right to require purchase will be directly enforceable by a holder notwithstanding any fraud or misrepresentation by the lender or any unenforceability of the guarantee by the lender, except for fraud or misrepresentation of which the holder had actual knowledge at the time it became the holder or in which the holder participates in or condones. The lender will reimburse the Agency for any payments the Agency makes to a holder on the lender's guaranteed loan that, under the Loan Note Guarantee, would not have been paid to the lender had the lender retained the entire interest in the guaranteed loan and not conveyed an interest to a holder.

(c) *Payments.* A lender will receive all payments of principal and interest on account of the entire loan and must promptly remit to the holder its pro rata share thereof, determined according to its respective interest in the loan, less only the lender's servicing fee.

[81 FR 35997, June 3, 2016, as amended at 83 FR 11634, Mar. 16, 2018]

§§ 4279.73–4279.74 [Reserved]

§ 4279.75 Sale or assignment of guaranteed loan.

The lender may sell all or part of the guaranteed portion of the loan on the secondary market or retain the entire loan. The lender must fully disburse and properly close a loan prior to sale of the note(s) on the secondary market. The lender cannot sell or participate any amount of the guaranteed or unguaranteed portion of the loan to the borrower or its parent, subsidiary, or affiliate or to officers, directors, stockholders, other owners, or members of their immediate families. The lender cannot share any premium received from the sale of a guaranteed loan in the secondary market with a loan packager or other loan service provider. If the lender desires to market all or part of the guaranteed portion of the loan at or subsequent to loan closing, such loan must not be in default. Lenders may use either the single note or multi-note system as outlined in paragraphs (a) and (b) of this section. The lender may also obtain participation in the loan under its normal operating procedures; however, the lender must retain title to the notes if any of them are unguaranteed and retain the lender's interest in the collateral.

(a) *Single note system.* The entire loan is evidenced by one note, and one Loan Note Guarantee is issued. The lender must retain title to the note, retain the lender's interest in the collateral, and retain the servicing responsibilities for the guaranteed loan. When the loan is evidenced by one note, the lender may not at a later date cause any additional notes to be issued. The lender may assign all or part of the guaranteed portion of the loan to one or more holders by using an Assignment Guarantee Agreement. The lender must complete and execute the Assignment Guarantee Agreement and return it to the Agency for execution prior to holder execution. In order to validate authenticity, holders are encouraged to consult with the Agency. Additionally, a Certificate of Incumbency and Signature may be requested. The holder, with written notice to the lender and the Agency, may reassign the unpaid guaranteed portion of the loan, in full, sold under the Assignment Guarantee Agreement. Holders may only reassign the entire guaranteed portion they have received and cannot subdivide or further split the guaranteed portion of a loan or retain an interest strip. Upon notification and completion of the Assignment Guarantee Agreement, the assignee shall succeed to all rights and obligations of the holder thereunder. Subsequent assignments require notice to the lender and Agency using any format, including that used by the Securities Industry and Financial Markets Association (formerly known as the Bond Market Association), together with the transfer of the original Assignment Guarantee Agreement. The

Agency will neither execute a new Assignment Guarantee Agreement to effect a subsequent reassignment nor reissue a duplicate Assignment Guarantee Agreement unless the original was lost, stolen, destroyed, mutilated, or defaced in accordance with § 4279.84. The Assignment Guarantee Agreement clearly states the percentage and corresponding amount of the guaranteed portion it represents and the lender's servicing fee. A servicing fee may be charged by the lender to a holder and is calculated as a percentage per annum of the unpaid balance of the guaranteed portion of the loan assigned by the Assignment Guarantee Agreement. The Agency is not and will not be a party to any contract between the lender and another party where the lender sells its servicing fee. The Agency will not acknowledge, approve, nor have any liability to any of the parties of this contract.

(b) *Multi-note system.* Under this option, the lender may provide one note for the unguaranteed portion of the loan and no more than 10 notes for the guaranteed portion. All promissory notes must reflect the same payment terms. The lender must retain its interest in the collateral and servicing responsibilities for the guaranteed loan. When the lender selects this option, the holder will receive one of the borrower's executed notes and a Loan Note Guarantee. The Agency will issue a Loan Note Guarantee for each note, including the unguaranteed note, to be attached to each note. An Assignment Guarantee Agreement will not be used when the multi-note option is utilized.

§ 4279.76 [Reserved]

§ 4279.77 Minimum retention.

The lender is required to hold in its own portfolio a minimum of 5 percent of the original total loan amount. The amount required to be maintained must be of the unguaranteed portion of the loan and cannot be participated to another. The lender may enter into no agreement that reduces its exposure below the minimum 5 percent it is required to retain in its portfolio. The lender may sell the remaining amount of the unguaranteed portion of the loan only through participation.

§ 4279.78 Repurchase from holder.

(a) *Repurchase by lender.* A lender has the option to repurchase the unpaid guaranteed portion of the loan from a holder within 30 days of written demand by the holder when the borrower is in default not less than 60 days on principal or interest due on the loan; or when the lender has failed to remit to the holder its pro rata share of any payment made by the borrower within 30 days of the lender's receipt thereof. The repurchase by the lender must be for an amount equal to the unpaid guaranteed portion of principal and accrued interest less the lender's servicing fee. The holder must concurrently send a copy of the demand letter to the Agency. The lender must accept an assignment without recourse from the holder upon repurchase. For those loans closed on or after August 2, 2016, the lender or the Agency will issue an interest termination letter to the holder(s) establishing the termination date for interest accrual if the default is not cured. The guarantee will not cover interest to any holder accruing after the greater of: 90 days from the date of the most recent delinquency effective date as reported by the lender or 30 days from the date of the interest termination letter. If, in the opinion of the lender, repurchase of the guaranteed portion of the loan is necessary to adequately service the loan, the holder must sell the guaranteed portion of the loan to the lender for an amount equal to the unpaid principal and interest on such portion less the lender's servicing fee. The lender must not repurchase from the holder for arbitrage or other purposes to further its own financial gain. Any repurchase must only be made after the lender obtains the Agency's written approval. If the lender does not repurchase the guaranteed portion from the holder, the Agency may, at its option, purchase such guaranteed portion for servicing purposes. The lender is encouraged to repurchase the loan to facilitate the accounting of funds, resolve any loan problems, and prevent default, where and when reasonable. The benefit to the lender is that it may resell the guaranteed portion of the loan in order to continue

collection of its servicing fee if the default is cured. When the lender repurchases the guaranteed portion from the secondary market for servicing purposes, the lender must discontinue interest accrual if Federal or State regulators place the loan in non-accrual status if the default is not cured within 90 days. The lender will notify the holder and the Agency of its decision.

(b) *Agency repurchase.* (1) The lender's servicing fee will stop on the date that interest was last paid by the borrower when the Agency purchases the guaranteed portion of the loan from a holder. The lender cannot charge such servicing fee to the Agency and must apply all loan payments and collateral proceeds received to the guaranteed and unguaranteed portions of the loan on a pro rata basis.

(2) If the Agency repurchases 100 percent of the guaranteed portion of the loan and becomes the holder, interest accrual on the loan will cease, and the Agency will not continue collection of the annual renewal fee from the lender.

(3) If the lender does not repurchase the unpaid guaranteed portion of the loan as provided in paragraph (a) of this section, the Agency will purchase from the holder the unpaid principal balance of the guaranteed portion together with accrued interest to date of repurchase, less the lender's servicing fee, within 30 days after written demand to the Agency from the holder. For those loans closed on or after August 2, 2016, the lender or the Agency will issue an interest termination letter to the holder(s) establishing the termination date for interest accrual. The guarantee will not cover interest to any holder accruing after the greater of: 90 days from the date of the most recent delinquency effective date as reported by the lender or 30 days from the date of the interest termination letter. Once the holder makes demand upon the Agency, the request cannot be rescinded.

(4) When the guaranteed loan has been delinquent more than 60 days and no holder comes forward, the Agency may issue a letter to the holder(s) establishing the cutoff date for interest accrual. Accrued interest to be paid the holder will be calculated from the date interest was last paid on the loan with a cutoff date being no more than 90 days from the date of the most recent delinquency effective date as reported by the lender.

(5) When the lender has accelerated the account and holds all or a portion of the guaranteed loan, an estimated loss claim (loan in the liquidation process) must be filed by the lender with the Agency within 60 days. Accrued interest paid to the lender will be calculated from the date interest was last paid on the loan with a cutoff date being no more than 90 days from the most recent delinquency effective date as reported by the lender.

(6) The holder's demand to the Agency must include a copy of the written demand made upon the lender. The holder must also include evidence of its right to require payment from the Agency. Such evidence must consist of either the original of the Loan Note Guarantee properly endorsed to the Agency or the original of the Assignment Guarantee Agreement properly assigned to the Agency without recourse, including all rights, title, and interest in the loan. When the single-note system is utilized and the initial holder has sold its interest, the current holder must present the original Assignment Guarantee Agreement and an original of each Agency-approved reassignment document in the chain of ownership, with the latest reassignment being assigned to the Agency without recourse, including all rights, title, and interest in the guarantee. The holder must include in its demand the amount due, including unpaid principal, unpaid interest to date of demand, and interest subsequently accruing from date of demand to proposed payment date. The Agency will be subrogated to all rights of the holder.

(7) Upon request by the Agency, the lender must promptly furnish a current statement certified by an appropriate authorized officer of the lender of the unpaid principal and interest then owed by the borrower on the loan and the amount then owed to any holder, along with the information necessary for the Agency to determine the appropriate amount due the holder. Any discrepancy between the amount claimed by the holder and the information submitted by the lender must be resolved

between the lender and the holder before payment will be approved. Such conflict will suspend the running of the 30-day payment requirement.

(8) Purchase by the Agency neither changes, alters, nor modifies any of the lender's obligations to the Agency arising from the loan or guarantee nor does it waive any of the Agency's rights against the lender. The Agency will have the right to set-off against the lender all rights inuring to the Agency as the holder of the instrument against the Agency's obligation to the lender under the program.

§§ 4279.79–4279.83 [Reserved]

§ 4279.84 Replacement of document.

(a) The Agency may issue a replacement Loan Note Guarantee or Assignment Guarantee Agreement that was lost, stolen, destroyed, mutilated, or defaced to the lender or holder upon receipt of an acceptable certificate of loss and an indemnity bond.

(b) When a Loan Note Guarantee or Assignment Guarantee Agreement is lost, stolen, destroyed, mutilated, or defaced while in the custody of the lender or holder, the lender must coordinate the activities of the party who seeks the replacement documents and submit the required documents to the Agency for processing. The requirements for replacement are as follows:

(1) A certificate of loss, notarized and containing a jurat, which includes:

(i) Name and address of owner;

(ii) Name and address of the lender of record;

(iii) Capacity of person certifying;

(iv) Full identification of the Loan Note Guarantee or Assignment Guarantee Agreement, including the name of the borrower, the Agency's case number, date of the Loan Note Guarantee or Assignment Guarantee Agreement, face amount of the evidence of debt purchased, date of evidence of debt, present balance of the loan, percentage of guarantee, and, if an Assignment Guarantee Agreement, the original named holder and the percentage of the guaranteed portion of the loan assigned to that holder. Any existing parts of the document to be replaced must be attached to the certificate;

(v) A full statement of circumstances of the loss, theft, destruction, defacement, or mutilation of the Loan Note Guarantee or Assignment Guarantee Agreement; and

(vi) For the holder, evidence demonstrating current ownership of the Loan Note Guarantee and promissory note or the Assignment Guarantee Agreement. If the present holder is not the same as the original holder, a copy of the endorsement of each successive holder in the chain of transfer from the initial holder to present holder must be included. If copies of the endorsement cannot be obtained, best available records of transfer must be submitted to the Agency (*e.g.*, order confirmation, canceled checks, etc.).

(2) An indemnity bond acceptable to the Agency must accompany the request for replacement except when the holder is the United States, a Federal Reserve Bank, a Federal corporation, a State or territory, or the District of Columbia. The bond must be with surety except when the outstanding principal balance and accrued interest due the present holder is less than $1 million, verified by the lender in writing in a letter of certification of balance due. The surety must be a qualified surety company holding a certificate of authority from the Secretary of the Treasury and listed in Treasury Department Circular 570.

(3) All indemnity bonds must be issued and payable to the United States of America acting through the Agency. The bond must be in an amount not less than the unpaid principal and interest. The bond must hold the Agency harmless against any claim or demand that might arise or against any damage, loss, costs, or expenses that might be sustained or incurred by reasons of the loss or replacement of the instruments.

(4) The Agency will not attempt to obtain, or participate in the obtaining of, replacement notes from the borrower. The holder is responsible for bearing the costs of note replacement if the borrower agrees to issue a replacement instrument. Should such note be replaced, the terms of the note cannot be changed. If the evidence of debt has been lost, stolen, destroyed, mutilated, or defaced, such evidence of

debt must be replaced before the Agency will replace any instruments.

§§ 4279.85–4279.99 [Reserved]

§ 4279.100 OMB control number.

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements contained in this subpart have been submitted to the Office of Management and Budget (OMB) under OMB Control Number 0570–0069 for OMB approval.

Subpart B—Business and Industry Loans

SOURCE: 81 FR 36005, June 3, 2016, unless otherwise noted.

§ 4279.101 Introduction.

(a) *Content.* As of October 1, 2020, this subpart is specifically applicable to and only contains loan processing regulations for Business and Industry loans under the authority of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. 116–136) to provide B&I guarantees for loans needed as a result of the Coronavirus Disease 2019 (COVID–19) pandemic for working capital loan purposes to support business operations and facilities in rural areas (B&I CARES Act Program Loans). Some of the requirements of this subpart are waived or altered for B&I CARES Act Program Loans. The waivers and alterations are provided in § 4279.190 of this subpart. This subpart is supplemented by subpart A of this part, which contains general guaranteed loan regulations, and subpart B of part 4287 of this chapter, which contains loan servicing regulations. Other than the B&I CARES Act Program Loans, this subpart is no longer used for loan processing requirements for Business and Industry (B&I) loans guaranteed by the Agency. Requirements for regular B&I loans (other than the B&I CARES Act Program Loans) may be found at 7 CFR part 5001.

(b) *Purpose.* The purpose of the B&I Guaranteed Loan Program is to improve, develop, or finance business, industry, and employment and improve the economic and environmental climate in rural communities. This purpose is achieved by bolstering the existing private credit structure through the guarantee of quality loans that will provide lasting community benefits. It is not intended that the guarantee authority will be used for marginal or substandard loans or for relief of lenders having such loans.

(c) *Documents.* Whether specifically stated or not, whenever Agency approval is required, it must be in writing. Copies of all forms and regulations referenced in this subpart may be obtained from any Agency office and from the USDA Rural Development Web site at *http://www.rd.usda.gov/publications.* Whenever a form is designated in this subpart, that designation includes predecessor and successor forms, if applicable, as specified by the Agency.

[81 FR 36005, June 3, 2016, as amended at 85 FR 31040, May 22, 2020; 85 FR 62196, Oct. 2, 2020]

§ 4279.102 Definitions and abbreviations.

The definitions and abbreviations in § 4279.2 are applicable to this subpart.

§ 4279.103 Exception authority.

Section 4279.15 applies to this subpart.

§ 4279.104 Appeals.

Section 4279.16 applies to this subpart.

§§ 4279.105–4279.107 [Reserved]

§ 4279.108 Eligible borrowers.

(a) *Type of entity.* A borrower may be a cooperative organization, corporation, partnership, or other legal entity organized and operated on a profit or nonprofit basis; an Indian tribe on a Federal or State reservation or other federally recognized tribal group; a public body; or an individual. A borrower must be engaged in or proposing to engage in a business. A business may include manufacturing, wholesaling, retailing, providing services, or other activities that will provide employment and improve the economic or environmental climate.

(b) *Citizenship.* Individual borrowers must be citizens of the United States or reside in the United States after

being legally admitted for permanent residence. For purposes of this subpart, citizens and residents of the Republic of Palau, the Federated States of Micronesia, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Republic of the Marshall Islands are considered U.S. citizens. Individuals that reside in the United States after being legally admitted for permanent residence must provide a permanent green card as evidence of eligibility. Private entity borrowers must demonstrate, to the Agency's satisfaction, that loan funds will remain in the United States and the facility being financed will primarily create new or save existing jobs for rural U.S. residents.

(c) *Rural area.* The business financed with a guaranteed loan under this subpart must be located in a rural area, except for cooperative organizations financed in accordance with § 4279.113(j)(2) and local foods projects financed in accordance with § 4279.113(y)(2). Loans to borrowers with facilities located in both rural and nonrural areas will be limited to the amount necessary to finance the facility located in the eligible rural area, except for those cooperative organizations financed in accordance with § 4279.113(j)(2) and those local foods projects financed in accordance with § 4279.113(y)(2).

(1) Rural areas are any area of a State other than a city or town that has a population of greater than 50,000 inhabitants and any urbanized area contiguous and adjacent to such a city or town, and which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I). In making this determination, the Agency will use the latest decennial census of the United States.

(2) For the purposes of this definition, cities and towns are incorporated population centers with definite boundaries, local self government, and legal powers set forth in a charter granted by the State.

(3) For the Commonwealth of Puerto Rico, the island is considered rural, except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. However, CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be eligible if they are determined to be ''not urban in character.''

(4) For the State of Hawaii, all areas within the State are considered rural, except for the Honolulu CDP within the County of Honolulu.

(5) For the Republic of Palau, the Federated States of Micronesia, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Republic of the Marshall Islands, the Agency will determine what constitutes a rural area based on available population data.

(6) Notwithstanding any other provision of this definition, in determining which census blocks in an urbanized area are not in a rural area, the Agency will exclude any cluster of census blocks that would otherwise be considered not in a rural area only because the cluster is adjacent to not more than two census blocks that are otherwise considered not in a rural area under this definition.

(7) The Under Secretary, whose authority may not be redelegated, may determine that an area is ''rural in character.'' Any determination made by the Under Secretary under this provision will be to areas that are determined to be ''rural in character'' and are within: An urbanized area that has two points on its boundary that are at least 40 miles apart, which is not contiguous or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urbanized area of such city or town; or an area within an urbanized area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within ¼ mile of a rural area.

(i) Units of local government may petition the Under Secretary for a ''rural in character'' designation by submitting a petition to both the appropriate Rural Development State Director and the Administrator on behalf of the Under Secretary. The petition must document how the area meets the requirements of paragraph (c)(7) of this section and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density; demographics; topography; and how the

local economy is tied to a rural economic base. Upon receiving a petition, the Under Secretary will consult with the applicable Governor and Rural Development State Director and request comments within 10 business days, unless those comments were submitted with the petition. The Under Secretary will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of notice in a local newspaper and notice on the applicable Rural Development State Office Web site. The Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. The public notice will appear for at least 3 consecutive days if published in a daily newspaper or otherwise in two consecutive publications. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary for reconsideration, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration.

(ii) Rural Development State Directors may also initiate a request to the Under Secretary to determine if an area is ''rural in character.'' A written recommendation should be sent to the Administrator, on behalf of the Under Secretary, that documents how the area meets the statutory requirements of paragraph (c)(7) of this section and discusses why the State Director believes the area is ''rural in character,'' including, but not limited to, the area's population density; demographics; topography; and how the local economy is tied to a rural economic base. Upon receipt of such a request, the Administrator will review the request for compliance with the ''rural in character'' provisions and make a recommendation to the Under Secretary. Provided a favorable determination is made, the Under Secretary will consult with the applicable Governor and request comments within 10 business days, unless gubernatorial comments were submitted with the request. A public notice will be published by the State Office in accordance with paragraph (c)(7)(i) of this section. There is no appeal process for requests made on the initiative of the State Director.

(d) *Other credit.* All applications for assistance will be accepted and processed without regard to the availability of credit from any other source.

(e) *Prohibition under Agency programs.* No loans guaranteed by the Agency will be conditioned on any requirement that the recipients of such assistance accept or receive electric or other services from any particular utility, supplier, or cooperative.

[81 FR 36005, June 3, 2016, as amended at 87 FR 38644, June 29, 2022]

§§ 4279.109–4279.112 [Reserved]

§ 4279.113 Eligible uses of funds.

Eligible uses of funds must be consistent with § 4279.101(b) and § 4279.108(a) and include, but are not limited to, the following:

(a) Purchase and development of land, buildings, and associated infrastructure for commercial or industrial properties, including expansion or modernization.

(b) Business acquisitions provided that jobs will be created or saved. A business acquisition is considered the acquisition of an entire business, not a partial stock acquisition in a business.

(c) Leasehold improvements when the lease contains no reverter clauses or restrictive clauses that would impair the use or value of the property as security for the loan. The term of the lease must be equal to or greater than the term of the loan.

(d) Constructing or equipping facilities for lease to private businesses engaged in commercial or industrial operations. Financing for mixed-use properties, involving both commercial business and residential space, is authorized provided that not less than 50 percent of the building's projected revenue will be generated from business use.

(e) Purchase of machinery and equipment.

(f) Startup costs, working capital, inventory, and supplies in the form of a permanent working capital term loan.

(g) Debt refinancing when it is determined that the project is viable and refinancing is necessary to improve cash flow and create new or save existing

jobs. Debt being refinanced must be debt of the borrower reflected on its balance sheet. The lender's analysis must document that, except for the refinancing of lines of credit, the debt being refinanced was for an eligible loan purpose under this subpart. Except as provided for in paragraph (j)(3) of this section, existing lender debt may be included provided that, at the time of application, the loan being refinanced has been closed and current for at least the past 12 months (current status cannot be achieved by the lender forgiving the borrower's debt or servicing actions that impact the borrower's repayment schedule), and the lender is providing better rates or terms. Unless the amount to be refinanced is owed directly to the Federal government or is federally guaranteed, existing lender debt may not exceed 50 percent of the overall loan.

(h) Takeout of interim financing. Guaranteeing a loan that provides for permanent, long-term financing after project completion to pay off a lender's interim loan will not be treated as debt refinancing provided that the lender submits a complete preapplication or application that proposes such interim financing prior to closing the interim loan. The borrower must take no action that would have an adverse impact on the environment or limit the range of alternatives to be considered by the Agency during the environmental review process. The Agency will not guarantee takeout of interim financing loans that prevent a meaningful environmental assessment prior to Agency loan approval. Even for projects with interim financing, the Agency cannot approve the loan and issue a Conditional Commitment until the environmental process is complete. The Agency assumes no responsibility or obligation for interim loans.

(i) Purchase of membership, stocks, bonds, or debentures necessary to obtain a loan from Farm Credit System institutions and other lenders provided the purchase is required for all of their borrowers and is the minimum amount required.

(j) Loans to cooperative organizations.

(1) Guaranteed loans to eligible cooperative organizations may be made in principal amounts up to $40 million if the project is located in a rural area, the cooperative facility being financed provides for the value-added processing of agricultural commodities, and the total amount of loans exceeding $25 million does not exceed 10 percent of the funds available for the fiscal year.

(2) Guaranteed loans to eligible cooperative organizations may also be made in non-rural areas provided:

(i) The primary purpose of the loan is for a facility to provide value-added processing for agricultural producers that are located within 80 miles of the facility;

(ii) The applicant satisfactorily demonstrates that the primary benefit of the loan will be to provide employment for rural residents;

(iii) The principal amount of the loan does not exceed $25 million; and

(iv) The total amount of loans guaranteed under this paragraph does not exceed 10 percent of the funds available for the fiscal year.

(3) An eligible cooperative organization may refinance an existing B&I loan provided the existing loan is current and performing; the existing loan is not and has not been in monetary default (more than 30 days late) or the collateral of which has not been converted; and there is adequate security or full collateral for the new guaranteed loan.

(k) The purchase of cooperative stock by individual farmers or ranchers in a farmer or rancher cooperative or the purchase of transferable cooperative stock in accordance with § 4279.115(a); or the purchase of stock in a business by employees forming an Employee Stock Ownership Plan or worker cooperative in accordance with § 4279.115(c).

(l) The purchase of preferred stock or similar equity issued by a cooperative organization or a fund that invests primarily in cooperative organizations in accordance with § 4279.115(b).

(m) Taxable corporate bonds when the bonds are fully amortizing and comply with all provisions of § 4279.126, and the bond holder (lender) retains 5 percent of the bond in accordance with § 4279.77. The bonds must be fully secured with collateral in accordance with § 4279.131(b). The bonds must only provide for a trustee when the trustee

is totally under the control of the lender. The bonds must provide no rights to bond holders other than the right to receive the payments due under the bond. For instance, the bonds must not provide for bond holders replacing the trustee or directing the trustee to take servicing actions, such as accelerating the bonds. Convertible bonds are not eligible under this paragraph due to the potential conflict of interest of a lender having an ownership interest in the borrower.

(1) The bond issuer (borrower) must not issue more than 11 bonds, with no more than 10 of those bonds being guaranteed under this program. The bond issuer must obtain the services and opinion of an experienced bond counsel who must present a legal opinion stating that the bonds are legal, valid, and binding obligations of the issuer and that the issuer has adhered to all applicable laws.

(2) The bond holder must purchase all of the bonds and comply with all Agency regulations. There must be a bond purchase agreement between the issuer and the bond holder. The bond purchase agreement must contain similar language to what is required to be in a loan agreement in accordance with §4279.161(b)(11) and must not be in conflict with subparts A or B of part 4279 or subpart B of part 4287 of this chapter. The bond holder is responsible for all servicing of the loan (bond), although the bond holder may contract for servicing assistance, including contracting with a trustee who remains under the lender's total control.

(n) Interest (including interest on interim financing) during the period before the first principal payment becomes due or when the facility becomes income producing, whichever is earlier.

(o) Fees and charges outlined in §4279.120(a), (c) and (d).

(p) Feasibility studies.

(q) Agricultural production, when not eligible for Farm Service Agency (FSA) farm loan programs assistance and when it is part of an integrated business also involved in the processing of agricultural products. Any agricultural production considered for guaranteed loan financing must be owned, operated, and maintained by the business receiving the loan for which a guarantee is provided. Except for cooperative stock purchase loans in accordance with §4279.115(a), independent agricultural production operations are not eligible, even if not eligible for FSA farm loan programs assistance.

(1) The agricultural-production portion of any loan must not exceed 50 percent of the total loan or $5 million, whichever is less.

(2) This paragraph does not preclude financing the following types of businesses:

(i) Commercial nurseries engaged in the production of ornamental plants, trees, and other nursery products, such as bulbs, flowers, shrubbery, flower and vegetable seeds, sod, and the growing of plants from seed to the transplant stage; and forestry, which includes businesses primarily engaged in the operation of timber tracts, tree farms, forest nurseries, and related activities, such as reforestation.

(ii) The growing of mushrooms or hydroponics.

(iii) The boarding and/or training of animals.

(iv) Commercial fishing.

(v) Aquaculture, including conservation, development, and utilization of water for aquaculture.

(r) Educational or training facilities.

(s) Industries undergoing adjustment from terminated Federal agricultural price and income support programs or increased competition from foreign trade.

(t) Community facility projects that are not listed as an ineligible loan purpose in §4279.117.

(u) Nursing homes and assisted living facilities where constant medical care is provided and available onsite to the residents. Independent living facilities are considered residential in nature and are not eligible in accordance with §4279.117(d).

(v) Tourist and recreation facilities, including hotels, motels, bed and breakfast establishments, and resort trailer parks and campgrounds, except as prohibited under ineligible purposes in §4279.117.

(w) Pollution control and abatement.

(x) Energy projects that are not eligible for the Rural Energy for America

Program (REAP) (7 CFR part 4280, subpart B), unless sufficient funding is not available under REAP, and when the facility has been constructed according to plans and specifications and is producing at the quality and quantity projected in the application. This does not preclude the guarantee of joint REAP/B&I projects. Eligible energy projects must be commercially available. Eligible energy projects also include those that reduce reliance on nonrenewable energy resources by encouraging the development and construction of solar energy systems and other renewable energy systems (including wind energy systems and anaerobic digesters for the purpose of energy generation), including the modification of existing systems in rural areas.

(1) Projects that produce renewable biomass or biofuel as an output must utilize commercially available technologies and have completed two operating cycles at design performance levels prior to issuance of a Loan Note Guarantee.

(2) Projects that produce steam or electricity as an output must have met acceptance test performance criteria acceptable to the Agency and be successfully interconnected with the purchaser of the output. An executed power purchase agreement acceptable to the Agency will be required prior to issuance of a Loan Note Guarantee.

(3) Performance or acceptance test requirements for all other energy projects will be determined by the Agency on a case-by-case basis.

(y) Projects that process, distribute, aggregate, store, and/or market locally or regionally produced agricultural food products to support community development and farm and ranch income, subject to each of the following:

(1) The term ''locally or regionally produced agricultural food product'' means any agricultural food product that is raised, produced, and distributed in the locality or region in which the final product is marketed, so that the distance the product is transported is less than 400 miles from the origin of the product, or within the State in which the product is produced. Food products could be raw, cooked, or a processed edible substance, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption.

(2) Projects may be located in urban areas, as well as rural areas.

(3) A significant amount of the food product sold by the borrower is locally or regionally produced, and a significant amount of the locally or regionally produced food product is sold locally or regionally. The Agency is choosing not to set a threshold for ''significant'' but reserves the right to do so in periodic notices in the FEDERAL REGISTER.

(4) The borrower must include in an appropriate agreement, with retail and institutional facilities to which the borrower sells locally or regionally produced agricultural food products, a requirement to inform consumers of the retail or institutional facilities that the consumers are purchasing or consuming locally or regionally produced agricultural food products.

(5) The Agency will give funding priority to projects that provide a benefit to underserved communities in accordance with § 4279.166(b)(4)(i)(G). An underserved community is a community (including an urban or rural community and an Indian tribal community) that has limited access to affordable, healthy foods, including fresh fruits and vegetables, in grocery retail stores or farmer to consumer direct markets and that has either a high rate of hunger or food insecurity or a high poverty rate as reflected in the most recent decennial census or other Agency-approved census.

(z) A borrower is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure related to the project financed, subject to the requirements of 7 CFR part 1980, subpart M.

[81 FR 36005, June 3, 2016, as amended at 85 FR 57084, Sept. 15, 2020]

§ 4279.114 [Reserved]

§ 4279.115 Cooperative stock/cooperative equity.

(a) *Cooperative stock purchase program.* The Agency may guarantee loans for the purchase of cooperative stock by individual farmers or ranchers in a

farmer or rancher cooperative established for the purpose of processing an agricultural commodity. The cooperative may use the proceeds from the stock sale to recapitalize, to develop a new processing facility or product line, or to expand an existing production facility. The cooperative may contract for services to process agricultural commodities or otherwise process value-added agricultural products during the 5-year period beginning on the operation startup date of the cooperative in order to provide adequate time for the planning and construction of the processing facility of the cooperative. Loan proceeds must remain in the cooperative from which stock was purchased, and the cooperative must not reinvest those funds into another entity. The Agency may also guarantee loans for the purchase of transferable stock shares of any type of existing cooperative, which would primarily involve new or incoming members. Such stock may provide delivery or some form of participation rights and may only be traded among cooperative members. Paragraphs (5) through (7) of this section are not applicable for guaranteed loans for the purchase of transferable cooperative stock.

(1) The maximum loan amount is the threshold established in §4279.161(c), and all applications will be processed in accordance with §4279.161(c).

(2) The maximum term is 7 years.

(3) The lender will, at a minimum, obtain a valid lien on the stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or otherwise liquidate and dispose of the collateral in the event of a borrower default.

(4) The lender must complete a written credit analysis of each stock purchase loan and a complete credit analysis of the cooperative prior to making its first stock purchase loan.

(5) The borrower may provide financial information in the manner that is generally required by commercial agricultural lenders.

(6) A feasibility study of the cooperative is required for startup cooperatives and may be required by the Agency for existing cooperatives when the cooperative's operations will be significantly affected by the proceeds that were generated from the stock sale.

(7) The Agency will conduct an appropriate environmental assessment on the processing facility and will not process individual applications for the purchase of stock until the environmental assessment on the cooperative processing facility is completed. Typically, an individual loan for the purchase of cooperative stock is considered a categorical exclusion.

(b) *Cooperative equity security guarantees.* The Agency may guarantee loans for the purchase of preferred stock or similar equity issued by a cooperative organization or for a fund that invests primarily in cooperative organizations. In either case, the guarantee must significantly benefit one or more entities eligible for assistance under the B&I program.

(1) ''Similar equity'' is any special class of equity stock that is available for purchase by non-members and/or members and lacks voting and other governance rights.

(2) A fund that invests ''primarily'' in cooperative organizations is determined by its percentage share of investments in and loans to cooperatives. A fund portfolio must have at least 50 percent of its loans and investments in cooperatives to be considered eligible for loan guarantees for the purchase of preferred stock or similar equity.

(3) The principal amount of the loan will not exceed $10 million.

(4) The maximum term is 7 years or no longer than the specified holding period for redemption as stated by the stock offering, whichever is less.

(5) All borrowers purchasing preferred stock or similar equity must provide documentation of the terms of the offering that includes compliance with State and Federal securities laws and financial information about the issuer of the preferred stock to both the lender and the Agency.

(6) Issuer(s) of preferred stock must be a cooperative organization or a fund and must be able to issue preferred stock to the public that, if required, complies with State and Federal securities laws.

(7) A fund must use a loan guaranteed under this subpart to purchase

preferred stock that is issued by cooperatives.

(8) The lender will, at a minimum, obtain a valid lien on the preferred stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or otherwise liquidate and dispose of the collateral in the event of a borrower default. For the purpose of recovering losses from loan defaults, lenders may take ownership of all equities purchased with such loans, including additional shares derived from reinvestment of dividends.

(9) Shares of preferred stock that are purchased with guaranteed loan proceeds cannot be converted to common or voting stock.

(10) In the absence of adequate provisions for investors' rights to early redemption of preferred stock or similar equity, a borrower must request from a cooperative or fund issuing such equities a contingent waiver of the holding or redemption period in advance of share purchases. This contingent waiver provides that in the event a borrower defaults on a loan financed under the guaranteed loan program, the borrower waives any ownership rights in the stock, and the lender and Agency will then have the right to redeem the stock.

(11) Guaranteed loans for the purchase of preferred stock must be prepaid in the event a cooperative or fund that issued the stock exercises an early redemption. If the cooperative enters into bankruptcy, to the extent the cooperative can redeem the preferred stock, the borrower is required to repay the loan from the redemption of the stock.

(c) *Employee ownership succession.* The Agency may guarantee loans for conversions of businesses to either cooperatives or Employee Stock Ownership Plans (ESOP) within 5 years from the date of initial transfer of stock.

(1) The maximum loan amount is the threshold established in § 4279.161(c), and all applications will be processed in accordance with § 4279.161(c).

(2) The maximum term is 7 years.

(3) The lender will, at a minimum, obtain a valid lien on the stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or otherwise liquidate and dispose of the collateral in the event of a borrower default.

(4) The lender must complete a written credit analysis of each stock purchase loan and a complete credit analysis of the cooperative or ESOP prior to making its first stock purchase loan.

(5) If a cooperative is organized, the selling owner(s) become members with special control rights to protect their stake in the business while a succession plan is implemented. At the completion of the stock transfer, selling owners may retain their membership in the cooperative provided that their control rights are the same as all other members. Any special covenants that selling owners may have held must be extinguished upon completion of the transfer.

(6) If an ESOP is organized for transferring ownership to employees, selling owner(s) may not retain ownership in the business after 5 years from the date of the initial transfer of stock.

§ 4279.116 New Markets Tax Credit program.

This section identifies the provisions specific to guaranteed loans involving projects that include new markets tax credits available under the New Markets Tax Credit (NMTC) program. Such applicants and applications must comply with the provisions in subparts A and B of this part, except as modified in this section.

(a) *Loan guarantees for Qualified Active Low Income Community Businesses (QALICB).* (1) To be an eligible lender for a loan guarantee that involves NMTCs, the organization must meet the applicable eligibility criteria in § 4279.29 as otherwise modified by paragraphs (a)(1)(i) and (ii) of this section.

(i) Sub-entities under the control of a non-regulated lender approved as a lender for this program do not need to separately meet the requirements of § 4279.29(b). An eligible non-regulated lender may modify its list of eligible sub-entities under its control at any time by notifying the Agency in writing.

(ii) In order to take advantage of the requirement exemption in paragraph

(a)(1)(i) of this section, the non-regulated lender must include in its application to be a lender each sub-entity under its control and must clearly define the multiple-entity organizational and control structure. In addition, the lender must include each such sub-entity in the audited financial statements, commercial loan portfolio, and commercial loan performance statistics.

(2) The provisions of §4279.117(q) notwithstanding, a lender that is a Department of Treasury certified Community Development Entity (CDE) or subsidiary of a CDE (sub-CDE) may have an ownership interest in the borrower provided that each of the conditions specified in paragraphs (a)(2)(i) through (iv) of this section is met.

(i) The lender does not have an ownership interest in the borrower prior to the guaranteed loan application.

(ii) The lender does not take a controlling interest in the borrower.

(iii) The lender cannot provide equity or take an ownership interest in a borrower at a level that would result in the lender owning 20 percent or more interest in the borrower.

(iv) In its guaranteed loan application, the lender provides an Agency-approved exit strategy when the NMTCs expire after the seventh year. The CDE's (or sub-CDE's) exit strategy must include a general plan to address the lender's equity in the project, and, if the lender will divest its equity interest, how this will be accomplished and the impact on the borrower.

(3) Notwithstanding §4279.117(p), a CDE's (or sub-CDE's) ownership interest in the borrower does not constitute a conflict of interest. The Agency will mitigate the potential for or appearance of a conflict of interest by requiring appropriate loan covenants regarding limitations on dividends and distributions of earnings be established, as well as other covenants in accordance with §4279.161(b)(11). The Agency will also ensure that the lender limits waivers of loan covenants and future modifications of loan documents.

(4) For purposes of calculating tangible balance sheet equity, the CDE's or sub-CDE's loan that is subordinated to the guaranteed loan will be considered equity when calculating tangible balance sheet equity. The QALICB's financial statements must be prepared in accordance with GAAP.

(b) *Loan guarantees for the leveraged lender.* The provisions of §4279.117(s) notwithstanding, an investor fund entity, such as an investor partnership or investor LLC, may be an eligible borrower as specified in paragraph (b)(1) of this section. Paragraphs (b)(2) through (13) of this section identify modifications to subpart B of this part that apply when the eligible borrower is an investor fund entity.

(1) To be an eligible borrower for a NMTC loan, each of the following conditions must be met:

(i) The investor fund entity must be established for a single specific NMTC investment;

(ii) The lender is not an affiliate of the investor fund entity;

(iii) One hundred percent of the guaranteed loan funds are or will be invested in one or more sub-CDEs that will then be loaned directly to a Qualified Active Low Income Community Business (QALICB), as defined by applicable regulations of the Internal Revenue Service and are or will be used by the QALICB in accordance with §§4279.113 and 4279.117. All of the B&I guaranteed loan funds must be ''passed through'' the sub-CDE to the QALICB through a direct tracing method. The QALICB's project must be the ultimate use of the B&I guaranteed loan funds; and

(iv) The QALICB meets the requirements of §4279.108.

(2) The provisions of §4279.119 apply except that the loan guarantee limits apply to the QALICB and not to the investor fund entity, who would otherwise be understood to be the ''borrower.''

(3) Section 4279.126 applies to both the borrower (investor fund entity) and the QALICB. The terms and payment schedule of the lender's loan to the investor fund entity must be at least equal to the terms and payment schedule of the sub-CDE's loan to the QALICB. An Agency approved unequal or escalating schedule of principal and interest payments may be used for a NMTC loan. The lender may require additional principal repayment by a co-borrower, such as an owner or principal of the QALICB. The lender or sub-CDE

may require a debt repayment reserve fund or sinking fund; however, such fund is not in lieu of a principal repayment schedule in accordance with § 4279.126 as amended by this paragraph.

(4) Except for § 4279.131(b), § 4279.131 applies to both the lender's loan to the investor fund entity and the sub-CDE's loan to the QALICB. Section 4279.131(b) applies only to the sub-CDE's loan to the QALICB. Section 4279.116(a)(4) also applies when calculating tangible balance sheet equity.

(5) The personal and corporate guarantee provisions of § 4279.132 and the insurance provisions of § 4279.136 apply only to the QALICB and the sub-CDE's loan to the QALICB.

(6) Section 4279.137 applies to both the borrower (investor fund entity) and the QALICB.

(7) Sections 4279.144 and 4279.150 apply to both the QALICB and the sub-CDE's loan to the QALICB.

(8) Section 4279.161 applies to both the borrower (investor fund entity) and the QALICB. As part of the application completed by the lender in accordance with § 4279.161, the application documentation must include comparable information for the loan (using the B&I guaranteed loan funds) between the sub-CDE and QALICB. The requirements of § 4279.161 apply to the loan application, application analysis and underwriting, and loan documents between the sub-CDE and QALICB. The lender must include these materials in its guaranteed loan application to the Agency.

(9) The environmental requirements specified in § 4279.165(b) apply to both the loan between the sub-CDE and QALICB and the QALICB's project.

(10) When assigning the priority score to a NMTC loan application under § 4279.166, the Agency will score the project based on the sub-CDE's loan to the QALICB, the QALICB, and the QALICB's project as the ultimate use of B&I guaranteed loan funds.

(11) When complying with the planning and performing development provisions in § 4279.167, the lender is responsible for ensuring that both the sub-CDE's loan to the QALICB and the QALICB's project comply with the provisions in § 4279.167.

(12) Section 4279.180 applies to both the borrower (investor fund entity) and the QALICB.

(13) Section 4279.181 applies to both the borrower (investor fund entity) and the QALICB.

[81 FR 36005, June 3, 2016, as amended at 82 FR 26335, June 7, 2017]

§ 4279.117 Ineligible purposes and entity types.

(a) Distribution or payment to an individual or entity that will retain an ownership interest in the borrower or distribution or payment to a beneficiary of the borrower. Distribution or payment to a member of the immediate family of an owner, partner, or stockholder will not be permitted, except for a change in ownership of the business where the selling immediate family member does not retain an ownership interest and the Agency determines the price paid to be reasonable. As this type of transaction is not an arm's length transaction, reasonableness of the price paid will be based upon an appraisal. In situations where there is common ownership or an otherwise closely-related company is being paid to do construction or installation work for a borrower, only documented costs associated with construction or installation can be paid with loan proceeds. Documented construction or installation costs may not include any profit or wages to a related person, and all work must be done at cost with no profit built into the cost. This paragraph does not apply to transfers of ownership for ESOPs or worker cooperatives, to cooperatives where the cooperative pays the member for product or services, or where member stock is transferred among members of the cooperative in accordance with § 4279.115.

(b) Projects in excess of $1 million that would likely result in the transfer of jobs from one area to another and increase direct employment by more than 50 employees. However, this limitation is not to be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity if the establishment of such branch, affiliate,

or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where such entity conducts business operations, unless there is reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area or its original location or in any other area where it conducts such operations.

(c) Projects in excess of $1 million that would increase direct employment by more than 50 employees, which is calculated to or likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

(d) The financing of timeshares, residential trailer parks, housing development sites, apartments, duplexes, or other residential housing, except as authorized in §4279.113(d).

(e) Owner-occupied housing, such as bed and breakfasts, hotels and motels, storage facilities, etc., are only allowed when the pro rata value of the owner's living quarters, based on square footage, is deducted from the use of loan proceeds.

(f) Guaranteeing lease payments or any lines of credit.

(g) Guaranteeing loans made by other Federal agencies.

(h) Loans made with the proceeds of any obligation the interest on which is excludable from income under 26 U.S.C. 103 or a successor statute. Funds generated through the issuance of tax-exempt obligations shall neither be used to purchase the guaranteed portion of any Agency guaranteed loan nor shall an Agency guaranteed loan serve as collateral for a tax-exempt issue. The Agency may guarantee a loan for a project that involves tax-exempt financing only when the guaranteed loan funds are used to finance a part of the project that is separate and distinct from the part that is financed by the tax-exempt obligation, and the guaranteed loan has at least a parity security position with the tax-exempt obligation.

(i) Guarantees supporting inherently religious activities, such as worship, religious instruction, proselytization, or to pay costs associated with acquisition, construction, or rehabilitation of structures for inherently religious activities, including the financing of multi-purpose facilities where religious activities will be among the activities conducted.

(j) Businesses that derive more than 10 percent of annual gross revenue (including any lease income from space or machines) from gambling activity, excluding State-authorized lottery proceeds.

(k) Businesses deriving income from activities of a prurient sexual nature or illegal activities.

(l) Racetracks or facilities for the conduct of races by animals, professional or amateur drivers, jockeys, etc.

(m) Golf courses and golf course infrastructure, including par 3 and executive golf courses.

(n) Cemeteries.

(o) Research and development projects and projects that involve technology that is not commercially available.

(p) Any project that the Agency determines creates a conflict of interest or an appearance thereof between any party related to the project.

(q) Guarantees where the lender or any of the lender's officers has an ownership interest in the borrower or is an officer or director of the borrower or where the borrower or any of its officers, directors, stockholders, or other owners have more than a 5 percent ownership interest in the lender. Any of the lender's directors, stockholders, or other owners that are officers, directors, stockholders, or other owners of the borrower must be recused from the decisionmaking process.

(r) Other than cooperative stock purchase loans and cooperative equity security guarantees in accordance with §4279.115, guarantees supporting investment or arbitrage or speculative real estate investment.

(s) Lending institutions, investment institutions, or insurance companies.

(t) Charitable or fraternal organizations. Businesses that derive more than 10 percent of annual gross revenue from tax deductible charitable donations, based on historical financial statements required by § 4279.161(b), are considered charitable organizations for the purpose of this paragraph. Fees for services rendered or that are otherwise ineligible for deduction under the Internal Revenue Code are not considered tax deductible charitable donations.

(u) Any business located within the Coastal Barriers Resource System that does not qualify for an exception as defined in section 6 of the Coastal Barriers Resource Act, 16 U.S.C. 3501 *et seq.*

(v) Any business located in a special flood or mudslide hazard area as designated by the Federal Emergency Management Agency in a community that is not participating in the National Flood Insurance Program unless the project is an integral part of a community's flood control plan.

(w) Any project that drains, dredges, fills, levels, or otherwise manipulates a wetland or engages in any activity that results in impairing or reducing the flow, circulation, or reach of water, except in the case of activity related to the maintenance of previously converted wetlands. This does not apply to loans for utility lines.

§ 4279.118 [Reserved]

§ 4279.119 Loan guarantee limits.

(a) *Loan amount.* The total amount of B&I loans to one borrower (including the guaranteed and unguaranteed portions, the outstanding principal and interest balance of any existing B&I guaranteed loans, and the new loan request) must not exceed $10 million, except as outlined in paragraphs (a)(1) and (2) of this section. In addition to the borrower loan limit, there is a guarantor loan limit of $50 million.

(1) The Administrator may, at the Administrator's discretion, grant an exception to the $10 million limit for loans of $25 million or less under the following circumstances:

(i) The project to be financed is a high-priority project as defined in § 4279.2. Priority points will be awarded in accordance with the criteria contained in § 4279.166;

(ii) The lender must document to the satisfaction of the Agency that the loan will not be made and the project will not be completed if the guaranteed loan is not approved; and

(iii) The percentage of guarantee will not exceed 60 percent. No exception to this requirement will be approved under paragraph (b) of this section for loans exceeding $10 million.

(2) The Secretary, whose authority may not be redelegated, may approve guaranteed loans in excess of $25 million, at the Secretary's discretion, for rural cooperative organizations that process value-added agricultural commodities in accordance with § 4279.113(j)(1).

(b) *Percentage of guarantee.* The percentage of guarantee, up to the maximum allowed by this section, is a matter of negotiation between the lender and the Agency. The maximum percentage of guarantee is 80 percent for loans of $5 million or less, 70 percent for loans between $5 and $10 million, and 60 percent for loans exceeding $10 million. For subsequent guaranteed loans, the maximum percentage of guarantee will be based on the cumulative amount of outstanding principal and interest of any existing B&I guaranteed loans and the new loan request. Notwithstanding the preceding, the Administrator may, at the Administrator's discretion, grant an exception allowing guarantees of up to 90 percent on loans of $5 million or less if the conditions of either paragraph (b)(1) or (b)(2) are met. Each fiscal year, the Agency will establish a limit on the maximum portion of guarantee authority available for that fiscal year that may be used to guarantee loans with an increased percentage of guarantee. The Agency will publish a notice announcing this limit in the FEDERAL REGISTER.

(1) The project to be financed is a high-priority project as defined in § 4279.2. Priority points will be awarded in accordance with the criteria contained in § 4279.166; or

(2) The lender documents, to the satisfaction of the Agency, that the loan will not be made and the project will not be completed due to the bank's

legal or regulatory lending limit if the higher percentage of guarantee is not approved.

§4279.120 Fees and charges.

There are two types of non-refundable fees—the guarantee fee and the annual renewal fee. These fees are to be paid by the lender but may be passed on to the borrower.

(a) *Guarantee fee.* The guarantee fee is paid at the time the Loan Note Guarantee is issued and may be included as an eligible use of guaranteed loan proceeds. The amount of the guarantee fee is determined by multiplying the total loan amount by the guarantee fee rate by the percentage of guarantee. The rate of the guarantee fee is established by the Agency in an annual notice published in the FEDERAL REGISTER. Subject to annual limits set by the Agency in the published notice, the Agency may charge a reduced guarantee fee if requested by the lender for loans of $5 million or less when the borrower's business:

(1) Supports value-added agriculture and results in farmers benefiting financially,

(2) Promotes access to healthy foods, or

(3) Is a high impact business development investment as defined in §4279.2 and applied in accordance with §4279.166(b)(4) and is located in a rural community that:

(i) Is experiencing long-term population decline;

(ii) Has remained in poverty for the last 30 years;

(iii) Is experiencing trauma as a result of natural disaster;

(iv) Is located in a city or county with an unemployment rate 125 percent of the Statewide rate or greater; or

(v) Is located within the boundaries of a federally recognized Indian tribe's reservation or within tribal trust lands or within land owned by an Alaska Native Regional or Village Corporation as defined by the Alaska Native Claims Settlement Act.

(b) *Annual renewal fee.* The annual renewal fee is paid by the lender to the Agency once a year. Payment of the annual renewal fee is required in order to maintain the enforceability of the guarantee as to the lender.

(1) The Agency will establish the rate of the annual renewal fee in an annual notice published in the FEDERAL REGISTER. The amount of the annual renewal fee is determined by multiplying the outstanding principal loan balance as of December 31 of each year by the annual renewal fee rate by the percentage of guarantee. The rate that is in effect at the time the loan is obligated remains in effect for the life of the guarantee on the loan.

(2) Annual renewal fees are due on January 31. Payments not received by April 1 are considered delinquent and, at the Agency's discretion, may result in the Agency terminating the guarantee to the lender. The Agency will provide the lender 30 calendar days' notice that the annual renewal fee is delinquent before terminating the guarantee. Holders' rights will continue in effect as specified in Form RD 4279–5, ''Loan Note Guarantee,'' and Form RD 4279–6, ''Assignment Guarantee Agreement,'' unless the holder took possession of an interest in the Loan Note Guarantee knowing the annual renewal fee had not been paid. Until the Loan Note Guarantee is terminated by the Agency, any delinquent annual renewal fees will bear interest at the note rate, and any delinquent annual renewal fees, including any interest due thereon, will be deducted from any loss payment due the lender. For loans where the Loan Note Guarantee is issued between October 1 and December 31, the first annual renewal fee payment is due January 31 of the second year following the date the Loan Note Guarantee was issued.

(3) Lenders are prohibited from selling guaranteed loans on the secondary market if there are unpaid annual renewal fees.

(c) *Routine lender fees.* The lender may establish charges and fees for the loan provided they are similar to those normally charged other applicants for the same type of loan in the ordinary course of business, and these fees are an eligible use of loan proceeds. The lender must document such routine fees on Form RD 4279–1, ''Application for Loan Guarantee.'' The lender may charge prepayment penalties and late payment fees that are stipulated in the loan documents, as long as they are

reasonable and customary; however, the Loan Note Guarantee will not cover either prepayment penalties or late payment fees.

(d) *Professional services.* Professional services are those rendered by persons generally licensed or certified by States or accreditation associations, such as architects, engineers, accountants, attorneys, or appraisers, and those rendered by loan packagers. The borrower may pay fees for professional services needed for planning and developing a project. Such fees are an eligible use of loan proceeds provided that the Agency agrees that the amounts are reasonable and customary. The lender must document these fees on Form RD 4279–1.

§§ 4279.121–4279.124 [Reserved]

§ 4279.125 Interest rates.

The interest rate for the guaranteed loan will be negotiated between the lender and the borrower and may be either fixed or variable, or a combination thereof, as long as it is a legal rate. Interest rates will not be more than those rates customarily charged borrowers for loans without guarantees and are subject to Agency review and approval. Lenders are encouraged to utilize the secondary market and pass interest-rate savings on to the borrower.

(a) A variable interest rate must be a rate that is tied to a published base rate, published in a national or regional financial publication, agreed to by the lender and the Agency. The variable interest rate must be specified in the promissory note and may be adjusted at different intervals during the term of the loan, but the adjustments may not be more often than quarterly. The lender must incorporate, within the variable rate promissory note at loan closing, the provision for adjustment of payment installments. The lender must fully amortize the outstanding principal balance within the prescribed loan maturity in order to eliminate the possibility of a balloon payment at the end of the loan.

(b) It is permissible to have different interest rates on the guaranteed and unguaranteed portions of the loan provided that the rate of the guaranteed portion does not exceed the rate on the unguaranteed portion, except for situations where a fixed rate on the guaranteed portion becomes a higher rate than the variable rate on the unguaranteed portion due to the normal fluctuations in the approved variable interest rate.

(c) Any change in the base rate or fixed interest rate between issuance of Form RD 4279–3, ''Conditional Commitment,'' and Form RD 4279–5 must be approved in writing by the Agency. Approval of such change must be shown as an amendment to the Conditional Commitment in accordance with § 4279.173(b) and must be reflected on Form RD 1980–19, ''Guaranteed Loan Closing Report.''

(d) The lender's promissory note must not contain provisions for default or penalty interest nor will default or penalty interest, interest on interest, or late payment fees or charges be paid under the Loan Note Guarantee.

§ 4279.126 Loan terms.

(a) The length of the loan term must be the same for both the guaranteed and unguaranteed portions of the loan. The maximum repayment for loans for real estate will not exceed 30 years; machinery and equipment repayment will not exceed the useful life of the machinery and equipment or 15 years, whichever is less; and working capital repayment will not exceed 7 years. The term for a debt refinancing loan may be based on the collateral the lender will take to secure the loan.

(b) A loan's maturity will take into consideration the use of proceeds, the useful life of assets being financed and those used as collateral, and the borrower's ability to repay the loan.

(c) Only loans that require a periodic payment schedule that will retire the debt over the term of the loan without a balloon payment will be guaranteed.

(d) The first installment of principal and interest will, if possible, be scheduled for payment after the facility is operational and has begun to generate income. However, the first full installment must be due and payable within 3 years from the date of the promissory note and be paid at least annually thereafter. In cases where there is an interest-only period, interest will be

paid at least annually from the date of the note.

(e) There must be no ''due-on-demand'' clauses without cause. Regardless of any ''due-on-demand'' with cause provision in a lender's promissory note, the Agency must concur in any acceleration of the loan unless the basis for acceleration is monetary default.

§§ 4279.127–4279.130 [Reserved]

§ 4279.131 Credit quality.

The Agency will only guarantee loans that are sound and that have a reasonable assurance of repayment. The lender is responsible for conducting a financial analysis that involves the systematic examination and interpretation of information to assess a company's past performance, present condition, and future viability. The lender is primarily responsible for determining credit quality and must address all of the elements of credit quality in a comprehensive, written credit analysis, including capacity (sufficient cash flow to service the debt), collateral (assets to secure the loan), conditions (borrower, economy, and industry), capital (equity/net worth), and character (integrity of management), as further described in paragraphs (a) through (e) of this section. The lender's analysis is the central underwriting document and must be sufficiently detailed to describe the proposed loan and business situation and document that the proposed loan is sound. The lender's analysis must include a written discussion of repayment ability with a cash-flow analysis, history of debt repayment, borrower's management, necessity of any debt refinancing, and credit reports of the borrower, principals, and any parent, affiliate, or subsidiary. The lender's analysis must also include spreadsheets and discussion of the 3 years of historical balance sheets and income statements (for existing businesses) and 2 years of projected balance sheets, income statements, and cash flow statements, with appropriate ratios and comparisons with industrial standards (such as Dun & Bradstreet or the Risk Management Association). All data must be shown in total dollars and also in common size form, obtained by expressing all balance sheet items as a percentage of assets and all income and expense items as a percentage of sales.

(a) *Capacity/cash flow.* The lender must make all efforts to ensure the borrower has adequate working capital or operating capital and to structure or restructure debt so that the borrower has adequate debt coverage and the ability to accommodate expansion.

(b) *Collateral.* The lender must ensure that the collateral for the loan has a documented value sufficient to protect the interest of the lender and the Agency. The discounted collateral value must be at least equal to the loan amount.

(1) The lender must discount collateral consistent with the sound loan-to-discounted value policy outlined in paragraphs (b)(1)(i) through (iv) of this section. The type, quality, and location of collateral are relevant factors used to assess collateral adequacy and appropriate levels of discounting. Other factors to be considered in the discounted value of collateral must include the marketability and alternative uses of the collateral. That is, specialized buildings or equipment will be discounted greater than multi-purpose facilities or equipment. When using discounts other than those outlined in paragraphs (b)(1)(i) through (b)(1)(iv) and when in accordance with paragraph (b)(2), the lender must document why such discounts are appropriate.

(i) A maximum of 80 percent of current fair market value will be given to real estate. Special purpose real estate must be assigned less value.

(ii) A maximum of 70 percent of cost or current fair market value will be given to machinery, equipment, and furniture and fixtures and will be based on its marketability, mobility, useful life, specialization, and alternative uses, if any.

(iii) A maximum of 60 percent of book value will be assigned to acceptable inventory and accounts receivable; however, all accounts over 90 days past due, contra accounts, affiliated accounts, and other accounts deemed

not to be acceptable collateral, as determined by the Agency, will be omitted. Calculations to determine the percentage to be applied in the analysis are to be based on the realizable value of the accounts receivable taken from a current aging of accounts receivable from the borrower's most recent financial statement. At a minimum, reviewed annual financial statements will be required when there is a predominant reliance on inventory and/or receivable collateral that exceeds $250,000. Except for working capital loans, term debt must not be dependent upon accounts receivable and inventory to meet collateral requirements.

(iv) No value will be assigned to unsecured personal, partnership, or corporate guarantees.

(2) Some businesses are predominantly cash-flow oriented, and where cash flow and profitability are strong, loan-to-value discounts may be adjusted accordingly with satisfactory documentation. A loan primarily based on cash flow must be supported by a successful and documented financial history. Under no circumstances must the loan-to-value of the collateral (loan-to-fair market value) ever be equal to or greater than 100 percent.

(3) Intangible assets cannot serve as primary collateral. For purposes of determining compliance with this requirement, leasehold improvements are considered tangible assets and can serve as primary collateral.

(4) A parity or junior lien position may be considered provided the loan-to-discounted value is adequate to secure the guaranteed loan in accordance with this section.

(5) The entire loan must be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of the loan will neither be paid first nor given any preference or priority over the guaranteed portion.

(c) *Conditions.* The lender must consider the current status of the borrower, overall economy, and industry for which credit is being extended. The regulatory environment surrounding the particular business or industry must also be considered. Businesses in areas of decline will be required to provide strong business plans that outline how they differ from the current trends. Local, regional, and national condition of the industry must be addressed.

(d) *Capital/equity.* (1) A minimum of 10 percent tangible balance sheet equity (or a maximum debt to tangible net worth ratio of 9:1) will be required at loan closing for borrowers that are existing businesses. A minimum of 20 percent tangible balance sheet equity (or a maximum debt to tangible net worth ratio of 4:1) will be required at loan closing for borrowers that are new businesses. For energy projects, the minimum tangible balance sheet equity requirement range will be between 25 percent and 40 percent (or a maximum debt to tangible net worth ratio between 3:1 and 1.5:1) at loan closing, considering whether the business is an existing business with a successful financial and management history or a new business; the value of personal/corporate guarantees offered; contractual relationships with suppliers and buyers; credit rating; and strength of the business plan/feasibility study.

(2) Tangible balance sheet equity will be determined based upon financial statements prepared in accordance with GAAP except that, for the purposes of this subpart, leasehold improvements are to be considered tangible assets when making the tangible balance sheet equity calculation. The capital/equity requirement must be met in the form of either cash or tangible earning assets contributed to the business and reflected on the borrower's balance sheet. Transfers of assets at fair market value between related parties, which are not arm's length transactions, must be in accordance with GAAP and require evidence that the transaction was entered into at market terms. Tangible equity cannot include appraisal surplus, bargain purchase gains, or intangible assets (except for leasehold improvements). Owner subordinated debt may be included when the subordinated debt is in exchange for cash injected into the business that remains in the business for the life of the guaranteed loan. The note or other form of evidence must be submitted to the Agency in order for subordinated debt to count towards

meeting the tangible balance sheet equity requirement.

(3) The lender must certify, in accordance with §4279.181(a)(9)(i), that the capital/equity requirement was determined, based on a balance sheet prepared in accordance with GAAP, and met, as of the date the guaranteed loan was closed, giving effect to the entirety of the loan in the calculation, whether or not the loan itself is fully advanced. A copy of the loan closing balance sheet must be included with the lender's certification.

(4) In situations where a real estate holding company and an operating entity are dependent upon one another's operations and are effectively one business, they must be co-borrowers, unless waived by the Agency when the Agency determines that adequate justification exists to not require the entities to be co-borrowers. The capital/equity requirement will apply to all borrowing entities on a consolidated basis, and financial statements must be prepared both individually and on a consolidated basis.

(5) In situations where co-borrowers are independent operations, the capital/equity requirement will apply to all co-borrowers on an individual basis.

(6) For sole proprietorships and other situations where business assets are held personally, financial statements must be prepared using only the assets and liabilities directly attributable to the business. Assets, plus any improvements, must be valued at the lower of cost or fair market value.

(7) Increases in the equity requirement may be imposed by the Agency. A reduction in the capital/equity requirement for existing businesses may be permitted by the Administrator under the following conditions:

(i) Collateralized personal and/or corporate guarantees, in accordance with §4279.132, when feasible and legally permissible, are obtained; and

(ii) All pro forma and historical financial statements indicate the business to be financed meets or exceeds the median quartile (as identified in the Risk Management Association's Annual Statement Studies or similar publication) for the current ratio, quick ratio, debt-to-worth ratio, and debt coverage ratio.

(e) *Character.* The lender must conduct a thorough review of key management personnel to ensure that the business has adequately trained and experienced managers. The borrower and all owners with a 20 percent or more ownership interest must have a good credit history, reflecting a record of meeting obligations in a timely manner. If there have been credit problems in the past, the lender must provide a satisfactory explanation to show that the problems are unlikely to recur.

[81 FR 36005, June 3, 2016, as amended at 83 FR 11634, Mar. 16, 2018]

§4279.132 Personal and corporate guarantees.

(a) Full, unconditional personal and/or corporate guarantees for the full term of the loan are required from those owning 20 percent or more interest in the borrower, where legally permissible, unless the Agency grants an exception. The Agency may grant an exception for existing businesses only when the lender requests it and documents to the Agency's satisfaction that collateral, equity, cash flow and profitability indicate an above-average ability to repay the loan. Partial guarantees for the full term of the loan at least equal to each owner's percentage of interest in the borrower times the loan amount may be required in lieu of full, unconditional guarantees when the guarantors' percentages equal 100 percent so that the loan is fully guaranteed.

(b) When warranted by an Agency assessment of potential financial risk, the Agency may require the following:

(1) Guarantees to be secured;

(2) Guarantees of parent, subsidiaries, or affiliated companies owning less than a 20 percent interest in the borrower; and

(3) Guarantees from persons whose ownership interest in the borrower is held indirectly through intermediate entities.

(c) All personal and corporate guarantors must execute Form RD 4279–14, ''Unconditional Guarantee,'' and any guarantee form required by the lender. The Agency will retain the original, executed Form RD 4279–14.

(1) Any amounts paid by the Agency on behalf of an Agency guaranteed loan

borrower will constitute a Federal debt owed to the Agency by the guaranteed loan borrower.

(2) Any amounts paid by the Agency pursuant to a claim by a guaranteed program lender will constitute a Federal debt owed to the Agency by a guarantor of the loan, to the extent of the amount of the guarantor's guarantee.

(3) In all instances under paragraphs (c)(1) and (2) of this section, interest charges will be assessed in accordance with 7 CFR 1951.133.

§§ 4279.133–4279.135 [Reserved]

§ 4279.136 Insurance.

The lender is responsible for ensuring that required insurance is maintained by the borrower.

(a) *Hazard.* Hazard insurance with a standard clause naming the lender as mortgagee or loss payee, as applicable, is required for the life of the guaranteed loan. The amount must be at least equal to the replacement value of the collateral or the outstanding balance of the loan, whichever is the greater amount.

(b) *Life.* The lender may require a collateral assignment of life insurance to insure against the risk of death of persons critical to the success of the business. When required, coverage must be in amounts necessary to provide for management succession or to protect the business. The Agency may require life insurance on key individuals for loans where the lender has not otherwise proposed such coverage. The cost of insurance and its effect on the applicant's working capital must be considered, as well as the amount of existing insurance that could be assigned without requiring additional expense.

(c) *Worker compensation.* Worker compensation insurance is required in accordance with State law.

(d) *Flood.* National flood insurance is required in accordance with applicable law.

(e) *Other.* The lender must consider whether public liability, business interruption, malpractice, and other insurance is appropriate to the borrower's particular business and circumstances and must require the borrower to obtain such insurance as is necessary to protect the interests of the borrower, the lender, or the Agency.

§ 4279.137 Financial statements.

Except for audited financial statements required by § 4279.71, the lender will determine the type and frequency of submission of financial statements by the borrower and any guarantors. At a minimum, annual financial statements prepared by an accountant in accordance with GAAP are required, except for personal financial statements and cooperative stock purchase loans in accordance with § 4279.115(a) that do not have to be prepared in accordance with GAAP. However, if the loan amount exceeds $10 million or if circumstances warrant, the Agency may require annual audited financial statements.

§§ 4279.138–4279.143 [Reserved]

§ 4279.144 Appraisals.

Lenders must obtain appraisals for real estate and chattel collateral when the value of the collateral exceeds $250,000, unless the chattel is newly-acquired equipment and the value is supported by a bill of sale. For collateral values under this threshold, lenders must follow their primary regulator's policies relating to appraisals and evaluations or, if the lender is not regulated, normal banking practices and generally accepted methods of determining value. Lenders must use the fair market value as established by the appraisal and discounting policies outlined in § 4279.131(b) to meet the discounted collateral coverage requirements of this subpart. Lenders are responsible for ensuring that appraisal values adequately reflect the actual value of the collateral. The Agency will require documentation that the appraiser has the necessary experience and competency to appraise the property in question. Appraisals must not be more than 1 year old, and a more recent appraisal may be requested by the Agency in order to reflect more current market conditions. For loan servicing purposes, an appraisal may be updated in lieu of a complete new appraisal when the original appraisal is more than 1 year old but less than 2 years old. Failure by the lender to follow

these requirements will be considered not acting in a reasonably prudent manner.

(a) All real property appraisals associated with Agency guaranteed loanmaking and servicing transactions must meet the requirements contained in the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA) of 1989, and the appropriate guidelines contained in Standards 1 and 2 of the Uniform Standards of Professional Appraisal Practices (USPAP) and be performed by a State Certified General Appraiser. Notwithstanding any exemption that may exist for transactions guaranteed by a Federal government agency, all appraisals obtained by the lender for loanmaking and servicing must conform to the Interagency Appraisal and Evaluations Guidelines established by the lender's primary Federal or State regulator. All appraisals must include consideration of the potential effects from a release of hazardous substances or petroleum products or other environmental hazards on the fair market value of the collateral, if applicable. The lender must complete and submit its technical review of the appraisal. For construction projects, the lender must use the ''as-completed'' market value of the real estate to determine value of the real estate property.

(b) Values of both tangible and intangible assets, including values attributed to business valuation or as a going concern, must be reported individually/separately in the appraisal as values attributed to business valuation or as a going concern will be deducted from the reconciled fair market value of the hard assets for purposes of calculating collateral coverage.

(c) Chattels with values under the $250,000 threshold must be evaluated in accordance with the lender's primary regulator's policies relating to appraisals and evaluations or, if the lender is not regulated, normal banking practices and generally accepted methods of determining value. Chattel appraisals must reflect the age, condition, and remaining useful life of the equipment. If the appraisal is completed by a State licensed/certified appraiser, the appraisal report must comply with USPAP Standards 7 and 8.

[81 FR 36005, June 3, 2016, as amended at 81 FR 54477, Aug. 16, 2016]

§§ 4279.145–4279.149 [Reserved]

§ 4279.150 Feasibility studies.

A feasibility study, by a qualified independent consultant acceptable to the Agency, is required for new businesses. The Agency may require a feasibility study for existing businesses when the project will significantly affect the borrower's operations, and cash flow from the existing facility is not sufficient to service the new debt. At a minimum, a feasibility study must include an evaluation of the economic, market, technical, financial, and management feasibility and an executive summary that reaches an overall conclusion as to the business' chance of success. The income approach of an appraisal is not an acceptable feasibility study.

§§ 4279.151–4279.160 [Reserved]

§ 4279.161 Filing preapplications and applications.

Borrowers and lenders are encouraged to file preapplications and obtain Agency comments before completing an application. However, if they prefer, borrowers and lenders may file a complete application without filing a preapplication. The Agency will neither accept nor process preapplications and applications unless a lender has agreed to finance the proposal. For borrowers other than individuals, a Unique Entity Identifier (UEI) is required. Instructions for obtaining the UEI are available at *https://sam.gov/*. Guaranteed loans exceeding $600,000 must be submitted under the requirements specified in paragraph (b) of this section. However, guaranteed loans of $600,000 and less may be submitted under the requirements of either paragraph (b) or (c) of this section.

(a) *Preapplications.* Lenders may file preapplications by submitting the following to the Agency:

(1) A letter or preliminary lender credit analysis, signed by the lender, containing the following:

(i) Name of the proposed borrower, organization type, address, contact person, Federal tax identification number, email address, and telephone number;

(ii) Name of the proposed lender, address, telephone number, contact person, email address, and lender's Internal Revenue Service (IRS) identification number;

(iii) Amount of the loan request, percent of guarantee requested, and the proposed rates and terms;

(iv) Description of collateral to be offered with estimated value(s) and the amount and source of equity to be contributed to the project;

(v) A brief description of the project, products or services provided, and availability of raw materials and supplies; and

(vi) The number of current full-time equivalent jobs, the number of jobs to be created as a result of the proposed loan, and the overall average wage rate.

(2) The borrower's current (not more than 90 days old) balance sheet and year-to-date income statement. For existing businesses, also include balance sheets and income statements for the last 3 years; and

(3) A completed Form RD 4279–2, ''Certification of Non-Relocation and Market Capacity Information Report,'' if the proposed loan is in excess of $1 million and will increase direct employment by more than 50 employees.

(b) *Applications.* Lenders must submit the information specified in paragraphs (b)(1) through (19) of this section when filing an application with the Agency.

(1) A completed Form RD 4279–1.

(2) A completed Form RD 4279–2, if the proposed loan is in excess of $1 million and will increase direct employment by more than 50 employees, unless already submitted in accordance with § 4279.161(a)(3).

(3) Environmental review documentation in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures,'' or successor regulation.

(4) A personal or commercial credit report from an acceptable credit reporting company for each individual or entity owning 20 percent or more interest in the borrower, except for those corporations listed on a major stock exchange. Credit reports are not required for elected and appointed officials when the applicant is a public body or non-profit corporation.

(5) Commercial credit reports for the borrower(s) and any parent, affiliate, and subsidiary companies.

(6) Current (not more than 90 days old) financial statements for any parent, affiliate, and subsidiary companies.

(7) Current (not more than 90 days old) personal and corporate financial statements of any guarantors.

(8) For all borrowers, a current (not more than 90 days old) balance sheet and year-to-date income statement, a pro forma balance sheet projected for loan closing, and projected balance sheets, income statements, and cash flow statements for the next 2 years. Projections must be prepared in line with GAAP standards and supported by a list of assumptions showing the basis for the projections. In the event processing of the loan is not complete within 90 days, a current set of financial statements will be required every 90 days.

(9) For borrowers that are existing businesses, balance sheets and income statements for the last 3 years. If the business has been in operation for less than 3 years, balance sheets and income statements for all years for which financial information is available.

(10) The lender's comprehensive, written credit analysis of the proposal, as described in § 4279.131.

(11) A draft loan agreement. A final loan agreement must be executed by the lender and borrower before the Agency issues a Loan Note Guarantee and must contain any additional requirements imposed by the Agency in its Conditional Commitment. The loan agreement must establish prudent, adequate controls to protect the interests of the lender and Agency. At a minimum, the following requirements must be included in the loan agreement:

(i) Type and frequency of borrower and guarantor financial statements to be required for the duration of the loan;

(ii) Prohibition against assuming liabilities or obligations of others;

(iii) Limitations on dividend payments and compensation of officers and owners;

(iv) Limitation on the purchase and sale of equipment and other fixed assets;

(v) Restrictions concerning consolidations, mergers, or other circumstances and a limitation on selling the business without the concurrence of the lender;

(vi) Maximum debt-to-net worth ratio; and

(vii) Minimum debt service coverage ratio.

(12) Intergovernmental consultation comments in accordance with 2 CFR part 415, subpart C, or successor regulation, unless exemptions have been granted by the State single point of contact.

(13) Appraisals, accompanied by a copy of the appropriate environmental site assessment, if available, and the technical review of the appraisals required by §4279.144(a).

(14) A business plan or similar document that must include a description of the business and project; management experience; sources of capital; products, services, and pricing; marketing plan; proposed use of funds; availability of labor, raw materials, and supplies; contracts in place; distribution channels; and the names of any corporate parent, affiliates, and subsidiaries with a description of the relationship. A business plan may be omitted if the information is included in a feasibility study. A business plan may also be omitted when loan proceeds are used exclusively for debt refinancing and fees.

(15) Independent feasibility study, if required.

(16) For companies listed on a major stock exchange or subject to the Securities and Exchange Commission regulations, a copy of SEC Form 10–K, ''Annual Report Pursuant to sections 13 or 15(d) of the Securities Exchange Act of 1934.''

(17) For health care facilities, a certificate of need, if required by statute or State law.

(18) For guaranteed loan applications for five or more residential units, including nursing homes and assisted-living facilities, an Affirmative Fair Housing Marketing Plan that is in conformance with 7 CFR 1901.203(c)(3).

(19) Any additional information required by the Agency to make a decision, including any information needed to score the project in accordance with §4279.166.

(c) *Applications of $600,000 and less.* Guaranteed loan applications may be processed under this paragraph if the request does not exceed $600,000, provided the Agency determines that there is not a significant increased risk of a default on the loan. A lender may need to resubmit an application under paragraph (b) of this section if the application under this paragraph does not contain sufficient information for the Agency to make a decision to guarantee the loan. Applications submitted under this paragraph must include the information contained in paragraphs (b)(1) (with the short application box marked at the top of Form RD 4279–1), (b)(3), (b)(8) through (10), (b)(12), and (b)(13) of this section. The lender must have the documentation identified in paragraph (b) of this section, with the exception of paragraph (b)(2), available in its file for review.

[81 FR 36005, June 3, 2016, as amended at 89 FR 34958, May 1, 2024]

§4279.162 Strategic economic and community development.

Applicants with projects that support the implementation of Strategic Community Investment Plans are encouraged to review and consider 7 CFR part 1980, subpart K, which contains provisions for providing priority to projects that support the implementation of Strategic Community Investment Plans on a multi-jurisdictional and multi-sectoral basis.

[85 FR 59395, Sept. 22, 2020]

§§4279.163–4279.164 [Reserved]

§4279.165 Evaluation of application.

(a) *General review.* The Agency will evaluate the application and make a determination whether the borrower is eligible, the proposed loan is for an eligible purpose, there is reasonable assurance of repayment ability, there is sufficient collateral and equity, and the proposed loan complies with all applicable statutes and regulations. If the

Agency determines it is unable to guarantee the loan, it will inform the lender in writing.

(b) *Environmental requirements.* The environmental review process must be completed, in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures,'' or successor regulation, prior to loan approval.

§ 4279.166 Loan priority scoring.

The Agency will consider applications and preapplications in the order they are received by the Agency; however, for the purpose of assigning priority points as described in paragraph (b) of this section, the Agency will compare an application to other pending applications that are competing for funding. The Agency may establish a minimum loan priority score to fund projects from the National Office reserve and will publish any minimum loan priority score in a notice published in the FEDERAL REGISTER.

(a) When applications on hand otherwise have equal priority, the Agency will give preference to applications for loans from qualified veterans.

(b) The Agency will assign priority points on the basis of the point system contained in this section. The Agency will use the application and supporting information to determine an eligible proposed project's priority for available guarantee authority. To the extent possible, all lenders must consider Agency priorities when choosing projects for guarantee. The lender must provide necessary information related to determining the score, if requested.

(1) *Population priority.* Projects located in an unincorporated area or in a city with a population under 25,000 (10 points).

(2) *Demographics priority.* The priority score for demographics priority will be the total score for the following categories:

(i) Located in an eligible area of long-term population decline according to the last three decennial censuses (5 points);

(ii) Located in a rural county that has had 20 percent or more of its population living in poverty based on the last three decennial censuses (10 points);

(iii) Located in a rural community that is experiencing trauma as a result of natural disaster (5 points);

(iv) Located in a city or county with an unemployment rate 125 percent of the Statewide rate or greater (5 points);

(v) Located within the boundaries of a Federally recognized Indian tribe's reservation, within tribal trust lands, or within land owned by an Alaska Native Regional or Village Corporation as defined by the Alaska Native Claims Settlement Act (5 points); and

(vi) Business is owned by a qualified veteran as defined by § 4279.2 (5 points).

(3) *Loan features.* The priority score for loan features will be the total score for each of the following categories:

(i) Lender will price the guaranteed loan at an interest rate equal to or less than the equivalent of the Wall Street Journal published Prime Rate plus 1.5 percent (5 points);

(ii) Lender will price the guaranteed loan at an interest rate equal to or less than the equivalent of the Wall Street Journal published Prime Rate plus 1 percent (5 points);

(iii) The Agency guaranteed loan is less than 60 percent of project cost (5 points);

(iv) The Agency guaranteed loan is less than 50 percent of project cost (5 points);

(v) The Agency guaranteed loan is less than 40 percent of project cost (5 points); and

(vi) For loans not requesting an exception under § 4279.119(b), the percentage of guarantee is 10 or more percentage points less than the maximum allowable for a loan of its size (5 points).

(4) *High impact business investment priorities.* The priority score for high impact business investment will be the total score for the following categories:

(i) *Business/industry.* The priority score for business/industry will be the total score for the following:

(A) Industry that is not already present in the community (5 points);

(B) Business that has 20 percent or more of its sales in international markets (5 points);

(C) Business that offers high value, specialized products and/or services that command high prices (5 points);

(D) Business that provides an additional market for existing local businesses (5 points);

(E) Business that is locally owned and managed (5 points);

(F) Business that will produce a natural resource value-added product (5 points); and

(G) Business that processes, distributes, aggregates, stores, and/or markets locally or regionally produced agricultural food products to underserved communities in accordance with §4279.113(y)(5) (10 points).

(ii) *Occupations.* The priority score for occupations will be the total score for the following:

(A) Business that creates or saves jobs with an average wage exceeding 125 percent of the Federal minimum wage (5 points);

(B) Business that creates or saves jobs with an average wage exceeding 150 percent of the Federal minimum wage (5 points); and

(C) Business that offers a healthcare benefits package to all employees, with at least 50 percent of the premium paid by the employer (5 points).

(5) *Administrative points.* The State Director may assign up to 10 additional points to an application to account for Statewide distribution of funds, natural disasters or economic emergency conditions, community economic development strategies, State strategic plans, fundamental structural changes in a community's economic base, or projects that will fulfill an Agency initiative. In addition to the State Director assigned points, if an application is considered in the National Office, the Administrator may assign up to an additional 10 points to account for geographic distribution of funds, emergency conditions caused by economic problems or natural disasters, or projects that will fulfill an Agency initiative.

§4279.167 Planning and performing development.

(a) *Design policy.* The lender must ensure that all facilities constructed with program funds are designed, and costs estimated, by an independent professional, utilizing accepted architectural, engineering, and design practices. The Agency may require an independent professional architect on complex projects. The lender must ensure the design conforms to applicable Federal, State, and local codes and requirements. The lender must also ensure that the project will be completed with available funds and, once completed, will be used for its intended purpose and produce in the quality and quantity proposed in the completed application approved by the Agency. Once construction is completed, the lender must provide the Agency with a copy of the Notice of Completion or similar document issued by the relevant building jurisdiction.

(b) *Issuing the Loan Note Guarantee prior to project completion.* If the lender requests that the Loan Note Guarantee be issued prior to construction or completion of a project, the lender must have a construction monitoring plan acceptable to the Agency and undertake the added responsibilities set forth in this paragraph. The lender must monitor the progress of construction and undertake the reviews and inspections necessary to ensure that construction conforms to applicable Federal, State, and local code requirements; proceeds are used in accordance with the approved plans, specifications, and contract documents; and that funds are used for eligible project costs. The lender must expeditiously report any problems in project development to the Agency.

(1) In cases of takeout of interim financing where the Loan Note Guarantee is issued prior to construction or completion of a project, the promissory note must contain the terms and conditions of the interim financing and the permanent financing and convert the interim financing to the permanent note as the Loan Note Guarantee can only be placed on one note.

(2) Prior to disbursement of construction funds, the lender must have:

(i) A complete set of plans and specifications for the project on file;

(ii) A detailed timetable for the project with a corresponding budget of costs setting forth the parties responsible for payment. The timetable and budget must be agreed to by the borrower;

(iii) A person, who may be the project architect or engineer, with demonstrated experience relating to the project's industry, confirm that the budget is adequate for the planned development;

(iv) A firm, fixed-price construction contract with an independent general contractor with costs and provisions for change order approvals, a retainage percentage, and a disbursement schedule; a 100 percent performance/payment bond on the borrower's contractor; or a contract with an independent disbursement and monitoring firm where project construction and completion are guaranteed. A bonding agent must be listed on Treasury Circular 570; and

(v) Contingencies in place to handle unforeseen cost overruns without seeking additional guaranteed assistance. These are to be agreed to by the borrower.

(3) Once construction begins, the lender is to:

(i) Use any borrower funds in the project first;

(ii) Ensure that the project is built to support the functions at the level and quality contemplated by the borrower through the use of accepted architectural and engineering practices. There is no absolute requirement that the goal be achieved by the use of a professional inspection. However, if after careful review, it appears that the use of a professional inspector is the only method that ensures the project is built to support the functions at the level and quality contemplated by the borrower through the use of accepted architectural and engineering practices, one may be required by the Agency. If one is required, inspections must be made by a qualified, independent inspector prior to any progress payment. If other less expensive or rigorous methods will achieve the same result, they may be utilized. The decision will be made on a case-by-case basis and must be reasonable under the specific circumstances of the case;

(iii) Obtain lien waivers from all contractors and materialmen prior to any disbursement; and

(iv) Provide at least monthly, written reports to the Agency on fund disbursement and project status.

(4) Once construction is completed, the lender is to provide the Agency with a copy of the Notice of Completion or similar document issued by the relevant building jurisdiction.

(c) *Compliance with other Federal laws.* Lenders must comply with other applicable Federal laws, including Equal Employment Opportunities, the Equal Credit Opportunity Act, the Fair Housing Act, and the Civil Rights Act of 1964. Guaranteed loans that involve the construction of or addition to facilities that accommodate the public must comply with the Architectural Barriers Act Accessibility Standard. The borrower and lender are responsible for ensuring compliance with these requirements.

(d) *Environmental responsibilities.* The lender must ensure that the borrower has:

(1) Provided the necessary environmental information to enable the Agency to undertake its environmental review process in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures,'' or successor regulation, including the provision of all required Federal, State, and local permits;

(2) Complied with any mitigation measures required by the Agency; and

(3) Not taken any actions or incurred any obligations with respect to the proposed project that would either limit the range of alternatives to be considered during the Agency's environmental review process or that would have an adverse effect on the environment.

§ 4279.168 Timeframe for processing applications.

All complete guaranteed loan applications will be approved or disapproved within 60 days, unless approval is prevented by a lack of guarantee authority or there are delays resulting from public comment requirements of the environmental assessment or outstanding DOL clearance issues.

§§ 4279.169–4279.172 [Reserved]

§ 4279.173 Loan approval and obligating funds.

(a) Upon approval of a loan guarantee, the Agency will issue a Conditional Commitment to the lender, containing conditions under which a Loan Note Guarantee will be issued. No Conditional Commitment can be issued until the loan is obligated. If a Loan Note Guarantee is not issued by the Conditional Commitment expiration date, the Conditional Commitment may be extended at the request of the lender and only if there has been no material adverse change in the borrower or the borrower's financial condition since issuance of the Conditional Commitment. If the Conditional Commitment is not accepted, the Conditional Commitment may be withdrawn and funds may be deobligated. Likewise, if the Conditional Commitment expires, funds may be deobligated.

(b) If certain conditions of the Conditional Commitment cannot be met, the lender and borrower may request changes to the Conditional Commitment. Within the requirements of the applicable regulations and prudent lending practices, the Agency may negotiate with the lender and the borrower regarding any proposed changes to the Conditional Commitment. Any changes to the Conditional Commitment must be documented by written amendment to the Conditional Commitment.

(c) The borrower must comply with all Federal requirements then in effect for receiving Federal assistance.

§ 4279.174 Transfer of lenders.

(a) The Agency may approve the substitution of a new eligible lender in place of a former lender who has been issued and has accepted an outstanding Conditional Commitment when the Loan Note Guarantee has not yet been issued, provided that there are no changes in the borrower's ownership or control, loan purposes, or scope of project, and the loan terms and conditions in the Conditional Commitment and the loan agreement remain the same. Any request for a transfer of lender must be submitted in writing by the current lender, the proposed lender, and the borrower. The original lender must state the reason(s) it no longer desires to be the lender for the project.

(b) Unless the new lender is already an approved lender, the Agency will analyze the new lender's servicing capability, eligibility, and experience prior to approving the substitution. The substituted lender must execute a new part B of Form 4279–1, ''Application for Loan Guarantee;'' Form RD 4279–4, ''Lender's Agreement'' (unless a valid Lender's Agreement with the Agency already exists); and complete a new lender's analysis in accordance with § 4279.131. The new lender may also be required to provide other updated application items outlined in § 4279.161(b).

§§ 4279.175–4279.179 [Reserved]

§ 4279.180 Changes in borrower.

Any changes in borrower ownership or organization prior to the issuance of the Loan Note Guarantee must meet the eligibility requirements of the program and be approved by the Agency.

§ 4279.181 Conditions precedent to issuance of the Loan Note Guarantee.

(a) The lender must not close the loan until all conditions of the Conditional Commitment are met. When loan closing plans are established, the lender must notify the Agency. Coincident with, or immediately after loan closing, the lender must provide the following to the Agency:

(1) An executed Form RD 4279–4, unless a valid Lender's Agreement exists that was issued after August 2, 2016;

(2) Form RD 1980–19 and appropriate guarantee fee;

(3) Copy of the executed promissory note(s);

(4) Copy of the executed loan agreement;

(5) Copy of the executed settlement statement;

(6) Original, executed Forms RD 4279–14, as required;

(7) Any other documents required to comply with applicable law or required by the Conditional Commitment.

(8) Borrower's loan closing balance sheet, supporting paragraph (a)(9)(i) of the lender certification, demonstrating

required tangible balance sheet equity; and

(9) The lender's certification to each of the following certifications:

(i) The capital/equity requirement was determined, based on a balance sheet prepared in accordance with GAAP, and met, as of the date the guaranteed loan was closed, giving effect to the entirety of the loan in the calculation, whether or not the loan itself is fully advanced.

(ii) All requirements of the Conditional Commitment have been met.

(iii) No major changes have been made in the lender's loan conditions and requirements since the issuance of the Conditional Commitment, unless such changes have been approved by the Agency in writing.

(iv) There is a reasonable prospect that the guaranteed loan and other project debt will be repaid on time and in full (including interest) from project cash flow according to the terms proposed in the application for loan guarantee.

(v) All planned property acquisition has been or will be completed, all development has been or will be substantially completed in accordance with plans and specifications, conforms with applicable Federal, State, and local codes, and costs have not exceeded the amount approved by the lender and the Agency.

(vi) The borrower has marketable title to the collateral then owned by the borrower, subject to the instrument securing the loan to be guaranteed and to any other exceptions approved in writing by the Agency.

(vii) The loan has been properly closed, and the required security instruments have been properly executed or will be obtained on any acquired property that cannot be covered initially under State law.

(viii) Lien priorities are consistent with the requirements of the Conditional Commitment. No claims or liens of laborers, subcontractors, suppliers of machinery and equipment, materialmen, or other parties have been filed against the collateral, and no suits are pending or threatened that would adversely affect the collateral.

(ix) When required, personal and/or corporate guarantees have been obtained in accordance with § 4279.132.

(x) The loan proceeds have been or will be disbursed for purposes and in amounts consistent with the Conditional Commitment (or Agency-approved amendment thereof) and the application submitted to the Agency. When applicable, the entire amount of the loan for working capital has been disbursed to the borrower, except in cases where the Agency has approved disbursement over an extended period of time and funds are escrowed so that the settlement statement reflects the full amount to be disbursed.

(xi) All truth-in-lending and equal credit opportunity requirements have been met.

(xii) There has been neither any material adverse change in the borrower's financial condition nor any other material adverse change in the borrower, for any reason, during the period of time from the Agency's issuance of the Conditional Commitment to the issuance of the Loan Note Guarantee regardless of the cause or causes of the change and whether or not the change or causes of the change were within the lender's or borrower's control. The lender must address any assumptions or reservations in the requirement and must address all adverse changes of the borrower, any parent, affiliate, or subsidiary of the borrower, and guarantors.

(xiii) Neither the lender nor any of the lender's officers has an ownership interest in the borrower or is an officer or director of the borrower, and neither the borrower nor its officers, directors, stockholders, or other owners have more than a 5 percent ownership interest in the lender.

(xiv) The loan agreement includes all measures identified in the Agency's environmental impact analysis for this proposal with which the borrower must comply for the purpose of avoiding or reducing adverse environmental impacts of the project's construction or operation.

(xv) If required, hazard, flood, liability, workers compensation, and life insurance are in effect.

(b) The Agency may, at its discretion, request copies of additional loan documents for its file.

(c) When the Agency is satisfied that all conditions for the guarantee have been met, the Agency will issue the Loan Note Guarantee and the following documents, as appropriate.

(1) *Assignment Guarantee Agreement.* In the event the lender uses the single note option and assigns the guaranteed portion of the loan to a holder, the lender, holder, and the Agency will execute Form RD 4279–6 in accordance with §4279.75(a); and

(2) *Certificate of Incumbency.* If requested by the lender, the Agency will provide the lender with a certification on Form RD 4279–7, ''Certificate of Incumbency and Signature,'' of the signature and title of the Agency official who signs the Loan Note Guarantee, Lender's Agreement, and Assignment Guarantee Agreement.

§§4279.182–4279.186 [Reserved]

§4279.187 Refusal to execute Loan Note Guarantee.

If the Agency determines that it cannot execute the Loan Note Guarantee, the Agency will promptly inform the lender of the reasons and give the lender a reasonable period within which to satisfy the objections. If the lender satisfies the objections within the time allowed, the Agency will issue the Loan Note Guarantee. If the lender requests additional time in writing and within the period allowed, the Agency may grant the request.

§§4279.188–4279.189 [Reserved]

§4279.190 Business and Industry national COVID–19 Public Health Emergency Loans.

(a) *Introduction.* This section contains regulations for the Business and Industry National COVID–19 Public Health Emergency loan program (B&I CARES Act Program Loans). The purpose of the program is to provide loan guarantees under the authority of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. 116–136). These B&I CARES Act Program Loans cover costs to prevent, prepare for, and respond to the coronavirus limited to the amount necessary to address the borrower's financial needs related to the COVID–19 Public Health Emergency. Consistent with the purposes of the CARES Act, the Agency has determined that the most effective use of these program funds is to support the cost of guaranteed loans to rural businesses to respond to the coronavirus. No B&I CARES Act Program Loan guarantee will be approved after September 30, 2021. All provisions of subparts A and B of this part and subpart B of part 4287 of this chapter apply to B&I CARES Act Program Loans, except as provided in this section. All forms used in connection with a B&I CARES Act Program Loan will be those used with other Business and Industry (B&I) loans, except as provided in this section.

(b) *Eligible borrowers.* Section 4279.108 of this subpart applies to B&I CARES Act Program Loans. In addition, borrowers must have been in operation on February 15, 2020.

(c) *Eligible use of funds.* (1) *Purpose.* The purpose of any B&I CARES Act Program Loan must be to cover costs to prevent, prepare for, and respond to the coronavirus pandemic, limited to the amount necessary to address the borrower's financial needs related to the COVID–19 Public Health Emergency, in accordance with paragraph (a) of this section. B&I CARES Act Program Loans should not exceed the amount needed to overcome the financial distress or related challenges caused by the COVID–19 Public Health Emergency.

(2) *Use of loan proceeds.* Notwithstanding the provisions of §4279.113, B&I CARES Act Program guaranteed loans will be limited to loans for working capital loan purposes in accordance with paragraph (c)(3) of this section. Loan proceeds may be used only to support facilities and business operations in rural areas and the Borrower must have been in operation on February 15, 2020. Loan proceeds must be disbursed through multiple draws on an as-needed monthly basis. Loan proceeds issued in full at loan closing must be evidenced by documented need provided by the lender and with concurrence of the Agency.

(3) *Eligible working capital uses.* Eligible working capital uses of B&I CARES

Act Program Loan funds are limited to:

(i) Wages, salaries, sales commissions to employees, group healthcare benefits, and other employee benefits; owner's wages and salaries may be considered if these costs are verifiable and constitute historical working capital costs;

(ii) Administrative expenses and administrative service contracts;

(iii) Property insurance, hazard insurance, and other business insurance;

(iv) Principal and interest payments on outstanding debt excluding owner/stockholder debt and related-party debts; payments may include existing Business & Industry loan payments to bring loans current as loan payments to a creditor are a working capital expense;

(v) Rent, payments on leases, and routine maintenance;

(vi) Utilities;

(vii) Inventory, feed, seed, fertilizer and chemicals, livestock (excluding livestock for breeding) and supplies;

(viii) Marketing, shipping, and other expenses incurred through normal business operations or such additional expenses due to challenges directly related to the national COVID–19 Public Health Emergency;

(ix) Taxes; and

(x) Loan costs and essential loan-related expenses.

(4) *Ineligible purposes.* Notwithstanding the provisions of § 4279.113, the following purposes are ineligible for B&I CARES Act Program guaranteed loans:

(i) Purchase and development of land, buildings, and associated infrastructure for commercial or industrial properties, including expansion or modernization;

(ii) Business acquisitions;

(iii) Leasehold improvements;

(iv) Constructing or equipping facilities;

(v) Purchase of machinery and equipment; and

(vi) Debt refinancing unless such debt refinancing is for debts incurred subsequent to February 15, 2020 for eligible purposes listed in paragraph (c)(3) of this section.

(5) *Agricultural production.* The provisions of § 4279.113(q) do not apply to B&I CARES Act Program Loans. Loans for working capital to support agricultural production, including independent agricultural production, is an eligible use of funds when the applicant's loan request exceeds the maximum loan available through FSA guaranteed loan programs or the applicant's request is otherwise ineligible for FSA loans. The Agency should verify ineligibility for FSA loan programs. Agricultural producers must be located in a rural area as defined in 7 CFR 4279.108(c) unless they meet the requirements provided for under 7 CFR 4279.113(y).

(d) *Loan amount limits.* (1) The provisions of § 4279.119(a) do not apply to B&I CARES Act Program Loans. The total amount of B&I and B&I CARES Act Program Loans to one borrower (including the guaranteed and unguaranteed portions, the outstanding principal and interest balance of any existing B&I guaranteed loans, and the new loan request) cannot exceed $25 million. There is no minimum threshold for B&I CARES Act Program loans.

(2) The amount of the B&I CARES Act Program Loan shall be based on a cash flow analysis and must not be greater than the amount needed to address challenges caused by the COVID–19 emergency, including those related to inventory and production costs, so that the business is reestablished on a successful basis. Losses and business operating expenses that were adequately paid by insurance or by loans or grants from other sources will not be covered by B&I CARES Act Program Loans. The B&I CARES Act Program Loans may be used to supplement insurance payments or assistance from other sources when the insurance coverage or other assistance is insufficient. The amount of the B&I CARES Act Program loan will be reduced by any SBA Paycheck Protection Program (PPP) loans received by the borrower.

(3) The maximum loan amount of the B&I CARES Act Program Loan for working capital purposes may not exceed 12 times the borrower's total average monthly costs of eligible working capital loan purposes less the total amount of covered loans received under the provisions of sections 1102 and

1110(a)(2) of the CARES Act and other Federal emergency assistance received. Annual tax returns may be utilized to calculate the maximum loan amount under the B&I CARES Act Program. It is the Agency's preference to review the last three full years of operations to calculate average working capital expenses for the borrower. If three years of financial information is not available, then actual working capital expenses for the business duration may be evaluated. Borrowers, who have not been in operation for a full year may estimate an average monthly cost of eligible working capital based on available historical months as long as they were in operation as of February 15, 2020.

(4) Borrowers receiving B&I CARES Act Program Loans in an amount less than the maximum loan amount in accordance with paragraph (d)(3) of this section, may apply for subsequent loans under this section up to an accumulative amount of B&I CARES Act Program loans not to exceed the maximum loan amount.

(e) *Percentage of guarantee.* The provisions of §4279.119(b) do not apply to B&I CARES Act Program Loans. The percentage of guarantee is 90 percent.

(f) *Guarantee fee.* The provisions of §4279.120(a) do not apply to B&I CARES Act Program Loans. The guarantee fee for the B&I CARES Act Program Loans shall be two (2) percent. The guarantee fee is paid at the time the Loan Note Guarantee is issued and may be included as an eligible use of guaranteed loan proceeds. The amount of the guarantee fee is determined by multiplying the total loan amount by the guarantee fee rate by the percentage of guarantee.

(g) *Annual renewal fee.* Notwithstanding the provisions of §4279.120(b), the annual renewal fee for B&I CARES Act Program Loans shall be one half of one (0.5) percent (50 basis points.)

(h) *Loan terms.* Notwithstanding the provisions of §4279.126, the maximum allowable repayment term of loans for working capital purposes is 10 years. Loan repayment may defer principal payments or principal and interest payments for a period up to 12 months from loan closing and may extend deferral of principal payments up to a total of three years with a maximum repayment term of 10 years from the date of loan closing. B&I CARES Act Program Loans must be paid in full since the B&I CARES Act Program provides no loan forgiveness.

(i) *Credit quality.* Notwithstanding the provisions of §4279.131(a), the lender's evaluation of the borrower's repayment ability shall include an emphasis on the borrower's successful financial history and on the borrower's 2019 financial performance, present condition, and future viability.

(j) *Collateral.* B&I CARES Act Program loans must be adequately secured. Notwithstanding the provisions of §4279.131(b), loan-to-value discounting by the lender is not required for B&I CARES Act Program Loans for working capital purposes. The value of the collateral (fair market value) must be equal to or greater than the loan amount.

(k) *Capital/equity.* Notwithstanding the provisions of §4279.131(d), the business must meet one of the following requirements at loan closing:

(1) A minimum of 10 percent balance sheet equity or tangible balance sheet equity (including subordinated debt when subject to a standstill agreement); or a maximum debt-to-balance sheet equity ratio of 9 to 1.

(2) A Borrower investment of equity or other funds into the project equal to 10 percent or more of total eligible project costs, (such investment may include grants or subordinated debt when subject to a standstill agreement). Additional sources of matching funds may be derived from other loan funds; however, such funds must be in the form of cash. In-kind contributions are not eligible to meet equity requirements; or

(3) The balance sheet equity or tangible balance sheet equity includes owner-contributed capital of 10 percent or more of total fixed assets (net total fixed assets plus depreciation).

(l) *Appraisals.* Notwithstanding the provisions of §4279.144, appraisals of real estate and chattel collateral are required when the amount of the loan exceeds $1,000,000, unless the chattel is newly acquired equipment and the value is supported by a bill of sale. The Agency will accept appraisals older than 1 year but completed within 2

years of the application date. Lenders may provide an updated appraisal in lieu of a new complete appraisal when the original appraisal is more than 2 years old. All appraisals of real estate must be compliant with Uniform Standards of Professional Appraisal Practices (USPAP) requirements and reflect the current market value of the collateral as required by §4279.144(a). To protect lenders, appraisers and Agency staff during the COVID–19 pandemic, an interior or on-site inspection of the collateral is not required if an assumption can be made by the appraiser on a reasonable basis or is based on previous inspections and condition reports completed by the lender or third party for the collateral.

(m) *Filing preapplications and applications.* Applications are to be received and processed in the State Office in the State where the business is located. Funds will be maintained in a National Office Reserve account. The Agency will consider applications in the order they are received by the Agency on a first come, first served basis. Priority scoring will not be needed initially, however towards the end of the funding period the Agency will need to assign priority points for the limited remaining funds and for this purpose the Agency will score and compare an application to other pending applications that are competing for funding in accordance with 7 CFR 4279.166.

(1) B&I CARES Act Program Loan borrowers with existing B&I loans do not need to resubmit their historical financial statements that have been previously submitted through routine loan servicing actions.

(2) Loans for working capital are classified as categorical exclusions for purposes of the Agency's environmental review policies and procedures in accordance with 7 CFR part 1970. These actions normally do not require an applicant to submit environmental documentation with the application. However, based on the review of the project description, the Agency may request additional environmental documentation from the applicant at any time, specifically if the Agency determines that extraordinary circumstances may exist.

(3) Notwithstanding the provisions of §4279.161(b), a draft loan agreement is not required, a business plan or feasibility study is not required, and lenders may substitute and rely on the borrower's tax returns when financial statements prepared in accordance with GAAP are not available from the borrower. Agricultural producers' financial records must meet the industry's standard accounting practices.

(4) A lender or borrower may combine applications for a B&I CARES Act Program loan for working capital with an application for B&I appropriated fiscal year funds. State Offices are allowed to use the same lender's analysis for each request. The existing Conditional Commitment template can be used for B&I CARES Act Program loans and deletion of certain provisions that do not impact the borrower or credit quality can be removed. Business Program Directors are encouraged to contact the National Office Program Processing Division with any questions regarding borrower eligibility, use of B&I loan proceeds, calculations of the loan amount or borrower equity, and any other questions related to a specific project. The provisions of this section do not apply to applications for B&I appropriated fiscal year funds.

[85 FR 31040, May 22, 2020, as amended at 88 FR 82228, Nov. 24, 2023; 88 FR 86566, Dec. 14, 2023]

§§ 4279.191–4279.199 [Reserved]

§ 4279.200 OMB control number.

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements contained in this rule have been submitted to the Office of Management and Budget (OMB) under OMB Control Number 0570–0069 for OMB approval.

Subpart C—Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Loans

SOURCE: 80 FR 36425, June 24, 2015, unless otherwise noted.

GENERAL

§ 4279.201 Purpose and scope.

The purpose of the Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Program is to assist in the development of new and emerging technologies for the development of Advanced Biofuels, Renewable Chemicals, and Biobased Product Manufacturing. This is achieved through guarantees for loans made to fund the development, construction, and Retrofitting of Commercial-Scale Biorefineries using Eligible Technology and of Biobased Product Manufacturing facilities that use Technologically New Commercial-Scale processing and manufacturing equipment and required facilities to convert Renewable Chemicals and other biobased outputs of Biorefineries into end-user products on a Commercial Scale.

(a) This subpart and subpart D of part 4287 of this chapter contain the regulations for this Program.

(b) The Lender is responsible for ascertaining that all requirements for making, securing, servicing, and collecting the loan are complied with.

(c) Whether specifically stated or not, whenever Agency approval is required, it must be in writing.

(d) Copies of all forms, regulations, and instructions referenced in this subpart are available in any Agency office and from the USDA Rural Development Web site at *http://www.rd.usda.gov/programs-services/biorefinery-assistance-program* . Whenever a form is designated in this subpart, it is initially capitalized and its reference includes predecessor and successor forms, if applicable.

§ 4279.202 Definitions and abbreviations.

Terms used in this subpart are defined in this section. Terms used in this subpart that have the same meaning as the terms defined in this section have been capitalized in this subpart.

Administrator. The Administrator of Rural Business-Cooperative Service within the Rural Development mission area of the U.S. Department of Agriculture.

Advanced biofuel. Fuel derived from Renewable Biomass, other than corn kernel starch, to include:

(1) Biofuel derived from cellulose, hemicellulose, or lignin;

(2) Biofuel derived from sugar and starch (other than ethanol derived from corn kernel starch);

(3) Biofuel derived from waste material, including crop residue, other vegetative waste material, animal waste, food waste, and yard waste;

(4) Diesel-equivalent fuel derived from Renewable Biomass, including vegetable oil and animal fat;

(5) Biogas (including landfill gas and sewage waste treatment gas) produced through the conversion of organic matter from Renewable Biomass;

(6) Butanol or other alcohols produced through the conversion of organic matter from Renewable Biomass; and

(7) Other fuel derived from cellulosic biomass.

Affiliate. An entity that is related to another entity by owning shares or having an interest in the entity, by common ownership, or by any means of control.

Agency. The Rural Business-Cooperative Service or successor Agency assigned by the Secretary of Agriculture to administer the Program. References to the National or State Office should be read as prefaced by ''Agency'' or ''Rural Development'' as applicable.

Agricultural producer. An individual or entity directly engaged in the production of agricultural products, including crops (including farming); livestock (including ranching); forestry products; hydroponics; nursery stock; or aquaculture, whereby 50 percent or greater of their gross income is derived from the operations.

Annual renewal fee. A fee that is paid once a year by the Lender and is required to maintain the enforceability of the Loan Note Guarantee.

Arm's length transaction. A transaction between ready, willing, and able disinterested parties that are not affiliated with or related to each other and have no security, monetary, or stockholder interest in each other.

Assignment Guarantee Agreement. Form RD 4279–6, ''Assignment Guarantee Agreement,'' is the signed agreement between the Agency, the Lender, and the Holder containing the terms and conditions of an assignment of a

guaranteed portion of a loan, using the single Promissory Note system.

Association of Agricultural Producers. An organization that represents Agricultural Producers and whose mission includes working on behalf of such producers and the majority of whose membership and board of directors is comprised of Agricultural Producers.

BAP. Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program.

Biobased product. A product determined by the Secretary to be a commercial or industrial product (other than food or feed) that is either:

(1) Composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials; or

(2) An intermediate ingredient or feedstock.

Biobased product manufacturing. The use of Technologically New Commercial-Scale processing and manufacturing equipment and required facilities to convert Renewable Chemicals and other biobased outputs of Biorefineries into end-user products on a Commercial Scale.

Biofuel. A fuel derived from Renewable Biomass.

Biogas. Renewable Biomass converted to gaseous fuel.

Biorefinery. A facility (including equipment and processes) that converts Renewable biomass or an intermediate ingredient or feedstock of Renewable biomass into any one or more, or a combination, of Biofuels, Renewable chemicals or Biobased products, and may produce electricity.

Bond. A form of debt security in which the authorized issuer (Borrower) owes the Bond holder (Lender) a debt and is obligated to repay the principal and Interest (coupon) at a later date(s) (maturity). An explanation of the type of Bond and other Bond stipulations must be attached to the Bond issuance.

Borrower. The Person that borrows, or seeks to borrow, money from the Lender, including any party liable for the loan except for guarantors.

Byproduct. An incidental or secondary product generated under normal operations of the proposed Project that can be reasonably measured and monitored other than: Advanced Biofuel, Program-eligible Biobased Products including Renewable Chemicals, and Program-eligible end-user products produced by Biobased Product Manufacturing facilities. Byproducts may or may not have a readily identifiable commercial use or value.

Calendar quarter. Four three-month periods in each calendar year as follows:

(1) Quarter 1 begins on January 1 and ends on March 31;

(2) Quarter 2 begins on April 1 and ends on June 30;

(3) Quarter 3 begins on July 1 and ends on September 30; and

(4) Quarter 4 begins on October 1 and ends on December 31.

Collateral. The asset(s) pledged by the Borrower to secure the loan.

Commercial-scale (commercial scale). An operation is considered to be a Commercial-Scale operation if it demonstrates that its sole or chief emphasis is on salability and profit and:

(1) Its revenue will be sufficient to recover the full cost of the Project over its expected life and result in an anticipated annual rate of return sufficient to encourage investors or Lenders to provide funding for the Project;

(2) It will be able to operate profitably without public and private sector subsidies upon completion of construction (volumetric excise tax is not included as a subsidy);

(3) Contracts for feedstock are adequate to address proposed off-take; and

(4) It has the ability to achieve market entry, suitable infrastructure to transport product to its market is available, and the technology and related products are generally competitive in the market.

Conditional Commitment. Form RD 4279–3, ''Conditional Commitment,'' is the Agency's notice to the Lender that the loan guarantee it has requested is approved subject to the completion of all conditions and requirements set forth by the Agency and outlined in the attachment to the Conditional Commitment.

Conflict of interest. A situation in which a Person has competing personal, professional, or financial interests that prevents the Person from acting impartially.

Default. The condition that exists when a Borrower is not in compliance with the Promissory Note, the Loan Agreement, security documents, or other documents evidencing the loan. Default could be a monetary or nonmonetary Default.

Deficiency judgment. A monetary judgment rendered by a court of competent jurisdiction after foreclosure and liquidation of all Collateral securing the loan.

Delinquency. A loan for which a scheduled loan payment is more than 30 days past due and cannot be cured within 30 days.

Eligible project costs. Those expenses approved by the Agency for the Project as set forth in § 4279.210(d) and do not include the costs set forth in § 4279.210(e).

Eligible technology. The term ''Eligible technology'' means, as determined by the Secretary:

(1) A technology that is being adopted in a viable Commercial-scale operation of a Biorefinery that produces any one or more, or a combination, of an Advanced biofuel; a Renewable chemical; or a Biobased product; and

(2) A technology not described in paragraph (1) of this definition that has been demonstrated to have technical and economic potential for commercial application in a Biorefinery that produces any one or more, or a combination, of an Advanced biofuel, a Renewable chemical or a Biobased product.

Fair market value. The price that could reasonably be expected for an asset in an Arm's-Length Transaction between a willing buyer and a willing seller under ordinary economic and business conditions.

Farm cooperative. A business owned and controlled by Agricultural Producers that is incorporated, or otherwise recognized by the State in which it operates, as a cooperatively-operated business.

Farmer Cooperative Organization. An organization whose membership is composed of Farm Cooperatives.

Feasibility study. An analysis by an independent qualified consultant or consultants of the economic, market, technical, financial, and management feasibility of a proposed Project or business in terms of its expectation for success.

Federal debt. Debt owed to the Federal government that is subject to collection under the Debt Collection Improvement Act of 1996, 31 U.S.C. 3701 *et seq.* Once the Agency determines a debt is Federal Debt and provides notice to the Lender, that Federal Debt is excluded from Future Recovery.

Future recovery. Funds anticipated to be collected by the Lender after a final loss claim is processed.

Good cause. A justification representing a reasonable approach given:

(1) The reasonably available alternatives;

(2) All known relevant factors;

(3) Program requirements; and

(4) The best interests of the government. Good cause must be approved by the Agency. Without prior approval by the Agency, alternatives that require the Agency to increase its guarantee, in either the Conditional Commitment or Loan Note Guarantee (including an increase of its subsidy costs under the Credit Reform Act of 1990), or provide additional assistance, will not be considered reasonable available alternatives under paragraph (1) of this definition or in the best interests of the government under paragraph (4) of this definition.

Grossly negligent loan origination. A serious carelessness in originating the loan which is so great as to appear to be conscious. The term includes not only the concept of a failure to act, but also not acting in a timely manner.

Grossly negligent loan servicing. A serious carelessness in servicing the loan which is so great as to appear to be conscious. The term includes not only the concept of a failure to act, but also not acting in a timely manner.

Guaranteed Loan Report of Loss. Form RD 449–30, ''Guaranteed Loan Report of Loss,'' used by Lenders when reporting a financial loss under an Agency guarantee.

Holder. A Person, other than the Lender, who owns all or part of the guaranteed portion of the loan with no servicing responsibilities.

Immediate family(ies). Individuals who live in the same household or who are closely related by blood, marriage, or adoption, such as a spouse, domestic

partner, parent, child, sibling, aunt, uncle, grandparent, grandchild, niece, nephew, or cousin.

Indian tribe. This term has the meaning as defined in 25 U.S.C. 450b.

In-house expenses. Expenses associated with activities that are routinely the responsibility of a Lender's internal staff or its agents. In-house expenses include, but are not limited to, employees' salaries, staff lawyers, travel, and overhead.

Institution of higher education. This term has the meaning as defined in 20 U.S.C. 1002(a).

Interest. A fee paid by a Borrower to a Lender as a form of compensation for the use of money. When money is borrowed, Interest is typically paid as a fee over a certain period of time (typically months or years) to the Lender as percentage of the principal amount owed. The term Interest does not include Default or penalty Interest or late payment fees or charges.

Interest Termination Date. The date on which no further interest will be payable under the Loan Note Guarantee.

(1) If the Lender owns all or a portion of the guaranteed interest in the guaranteed loan or makes a Protective Advance, then the Loan Note Guarantee will not cover Interest to the Lender accruing after 90 days from the most recent Delinquency effective date as reported by the Lender.

(2) If the guaranteed loan has a Holder(s), the Lender, or the Agency, at its sole discretion, will issue an interest termination letter to the Holder(s) establishing the termination date for Interest accrual. The Loan Note Guarantee will not cover Interest to the Holder(s) accruing after the greater of:

(i) 90 days from the date of the most recent Delinquency effective date as reported by the Lender or

(ii) 30 days from the date of the interest termination letter.

Lender. The entity approved, or seeking to be approved, by the Agency to make, service, and collect the Agency guaranteed loan that is subject to this subpart.

Lender's Agreement. Form RD 4279–4, ''Lender's Agreement,'' or predecessor form, between the Agency and the Lender setting forth the Lender's loan responsibilities.

Liquidation expenses. Costs directly associated with the liquidation of Collateral, including preparing Collateral for sale (*e.g.*, repairs and transport) and conducting the sale (*e.g.*, advertising, public notices, auctioneer expenses, and foreclosure fees). Liquidation Expenses do not include In-House Expenses. Legal/attorney fees are considered Liquidation Expenses provided that the fees are reasonable, as determined by the Agency, and cover legal issues pertaining to the liquidation that could not be properly handled by the Lender and its in-house counsel.

Loan agreement. The agreement between the Borrower and Lender containing the terms and conditions of the loan and the responsibilities of the Borrower and Lender.

Loan classification. The process by which loans are examined and categorized by degree of potential loss in the event of Default.

Loan Note Guarantee. Form RD 4279–5, ''Loan Note Guarantee,'' or predecessor form, issued and executed by the Agency containing the terms and conditions of the guarantee.

Loan packager. A Person, other than the applicant Borrower or Lender, that prepares a loan application package.

Loan service provider. A Person, other than the Lender of record, that provides loan servicing activities to the Lender.

Local government. A county, municipality, town, township, village, or other unit of general government below the State level, or Indian Tribe governments.

Local owner. An individual who owns any portion of an eligible Biorefinery and whose primary residence is located within a certain distance from the Biorefinery as specified by the Agency in a Notice published in the FEDERAL REGISTER.

Market value. The amount for which a property will sell for its highest and best use at a voluntary sale in an Arm's Length Transaction.

Material adverse change. Any change in circumstance associated with a guaranteed loan, including the Borrower's financial condition or Collateral that could be reasonably expected to jeopardize loan performance.

NAD. National Appeals Division, or successor agency, in the United States Department of Agriculture.

Negligent Loan Origination. The failure to perform those actions which a reasonably prudent lender would perform in originating its own portfolio of loans that are not guaranteed. The term includes not only the concept of a failure to act but also acting in a manner contrary to the manner in which a reasonably prudent lender would act.

Negligent Loan Servicing. The failure to perform those services which a reasonably prudent lender would perform in servicing (including liquidation of) its own portfolio of loans that are not guaranteed. The term includes not only the concept of a failure to act, but also not acting in a timely manner, or acting in a manner contrary to the manner in which a reasonably prudent lender would act.

Off-take agreement. The terms and conditions governing the sale and transportation of Biofuels, Biobased Products including Renewable Chemicals, Biobased Product Manufacturing end-user products, and electricity produced by the Borrower to another party.

Parity. A lien position whereby two or more Lenders share a security interest of equal priority in Collateral.

Participate. Sale of an interest in a loan by the lead Lender to one or more Lenders wherein the lead Lender retains the Promissory Note, Collateral securing the Promissory Note, and all responsibility for managing and servicing the loan. Participants are dependent upon the lead Lender for protection of their interests in the loan.

Person. An individual or entity.

Program. Biorefinery Renewable Chemical, and Biobased Product Manufacturing Assistance Program often abbreviated as BAP.

Project. The facility or portion of a facility receiving funding under this subpart.

Pro rata. On a proportional basis.

Promissory note. Evidence of debt with stipulated repayment terms. ''Note'' or ''Promissory Note'' shall also be construed to include ''Bond'' or other evidence of debt, where appropriate.

Protective advance. An advance made by the Lender for the purpose of preserving and protecting the Collateral where the Borrower has failed to, and will not or cannot, meet its obligations to protect or preserve Collateral. Protective advances include, but are not limited to, advances affecting the Collateral made for property taxes, rent, hazard and flood insurance premiums, and annual assessments. Legal/attorney fees are not a Protective Advance. Holders do not have an interest in Protective Advances.

Public body. A municipality, county, or other political subdivision of a State; a special purpose district; or an Indian Tribe on a Federal or State reservation or other Federally-recognized Indian Tribe; or an organization controlled by any of the above. A Local Government would also be a Public Body.

Renewable biomass. (1) Materials, precommercial thinnings, or invasive species from National Forest System land or public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that:

(i) Are byproducts of preventive treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health;

(ii) Would not otherwise be used for higher-value products; and

(iii) Are harvested in accordance with applicable law and land management plans and the requirements for old-growth maintenance, restoration, and management direction of paragraphs (2), (3), and (4) of subsection (e) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512) and large-tree retention of subsection (f) of section 102; or

(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian Tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including:

(i) Renewable plant material, including feed grains; other agricultural commodities; other plants and trees; and algae; and

(ii) Waste material, including crop residue; other vegetative waste material (including wood waste and wood residues); animal waste and byproducts (including fats, oils, greases, and manure); and food waste and yard waste.

Renewable chemical. A monomer, polymer, plastic, formulated product, or chemical substance produced from Renewable Biomass.

Retrofitting. The modification of a building or equipment to incorporate functions not included in the original design.

Rural Development. The mission area of USDA that is comprised of the Rural Business-Cooperative Service, Rural Housing Service, and Rural Utilities Service and is under the policy direction and operational oversight of the Under Secretary for Rural Development.

Rural or rural area. As described in 7 U.S.C. 1991(a)(13)(A), (D), (H) and (I).

Secretary. The Secretary of the Department of the Agriculture.

Semi-work scale. A facility operating on a limited scale to provide final tests of a product or process.

Spreadsheet. A table containing data from a series of financial statements of a business over a period of time. Financial statement analysis normally contains Spreadsheets for balance sheet and income statement items and includes a cash flow analysis and commonly used ratios. The Spreadsheets enable a reviewer to easily scan the data, spot trends, and make comparisons.

State. Any of the 50 States of the U.S., the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Subordination. The reduction of the Lender's lien priority on certain assets pledged to secure payment of the guaranteed loan to a position junior to, or on Parity with, the lien position of another loan in order for the Borrower to obtain additional financing, not guaranteed by the Agency, from the Lender or a third party.

Technologically New. New or significantly improved equipment, process or production method to deliver a product, or adoption of equipment, process or production method to deliver a new or significantly improved product, of which the first Commercial-Scale use in the United States is within the last five years and is used in not more than three Commercial-Scale facilities in the United States.

Total project costs. The sum of all costs associated with a completed Project.

Transfer and assumption. The conveyance by a Borrower to an assuming Borrower of the assets, Collateral, and liabilities of the loan in return for the assuming Borrower's binding promise to pay the outstanding loan debt approved by the Agency.

USDA Lender Interactive Network Connection (LINC). The portal Web site currently at *https://usdalinc.sc.egov.usda.gov/* used by Lenders to update loan data in the Agency's Guaranteed Loan System. Current capabilities include loan closing and status reporting.

Well capitalized. Federal Deposit Insurance Corporation (FDIC) requirements used to determine if a lending institution has enough capital on hand to withstand negative effects in the market, and which the Agency uses to determine Lender eligibility. The criteria are specified in the Federal Deposit Insurance Act, and are currently at 12 CFR 325.103, or subsequent regulation.

Working capital. Current assets available to support a business's operations. Working Capital is calculated as current assets less current liabilities.

[80 FR 36425, June 24, 2015, as amended at 85 FR 29595, May 18, 2020; 87 FR 38644, June 29, 2022]

§ 4279.203 Exception authority.

The Administrator may, with the concurrence of the Secretary of Agriculture, make an exception, on a case-by-case basis, to any requirement or provision of this subpart that is not inconsistent with any authorizing statute or applicable law, if the Administrator determines that application of the requirement or provision would adversely affect the Federal government's interest.

§ 4279.204 Appeals.

Borrowers, Lenders, and Holders have appeal or review rights for adverse Agency decisions made under this subpart. Adverse programmatic decisions based on clear and objective statutory or regulatory requirements are not appealable; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). The Borrower, Lender, and Holder can appeal any Agency decision that directly and adversely impacts them. For an adverse decision that impacts the Borrower, the Lender and Borrower must jointly execute a written request for appeal for an alleged adverse decision made by the Agency. An adverse decision that only impacts the Lender may be appealed by the Lender only. An adverse decision that only impacts the Holder may be appealed by the Holder only. A decision by a Lender adverse to the interest of the Borrower is not a decision by the Agency, whether or not concurred in by the Agency. Appeals will be conducted by NAD and will be handled in accordance with 7 CFR part 11.

§ 4279.205 Prohibition under Agency programs.

(a) No loan guaranteed by the Agency under this subpart will be conditioned on any requirement that the recipient(s) of such assistance accept or receive electric service from any particular utility, supplier, or cooperative.

(b) No loan guaranteed by the Agency may be made with the proceeds of any obligation the Interest on which is excludable from income under 26 U.S.C. 103 or a successor statute. Funds generated through the issuance of tax-exempt obligations may neither be used to purchase the guaranteed portion of any Agency guaranteed loan nor may an Agency guaranteed loan serve as Collateral for a tax-exempt issue. The Agency may guarantee a loan for a Project which involves tax-exempt financing only when the guaranteed loan funds are used to finance a part of the Project that is separate and distinct from the part which is financed by the tax-exempt obligation, and the guaranteed loan has at least a Parity security position with the tax-exempt obligation.

(c) The Agency may not issue a guarantee for a loan where there may be, directly or indirectly, a Conflict of Interest or an appearance of a Conflict of Interest involving any action by the Agency.

(d) The Agency may not guarantee lease payments.

(e) The Agency may not guarantee loans made by other Federal agencies.

§ 4279.206 Agency representation.

Notwithstanding any other provision of this subpart and 7 CFR part 4287, subpart D, the Agency reserves the right to be represented by the U.S. Department of Justice in any litigation where the Agency is named as a party.

§ 4279.207 [Reserved]

ELIGIBILITY REQUIREMENTS

§ 4279.208 Lender eligibility requirements.

(a) An eligible Lender is any Federal or State chartered bank, Farm Credit Bank, other Farm Credit System institution with direct lending authority, and Bank for Cooperatives. These entities must be subject to credit examination and supervision by either an agency of the United States or a State. Credit unions subject to credit examination and supervision by either the National Credit Union Administration or a State agency are eligible Lenders. The National Rural Utilities Cooperative Finance Corporation is also an eligible Lender. Savings and loan associations, mortgage companies, insurance companies, and other lenders not meeting the above criteria are not eligible.

(b) The Lender must demonstrate that it meets the FDIC definition of Well Capitalized at the time of application and at time of issuance of the Loan Note Guarantee. This information may be identified in FDIC Call Reports and Thrift Financial Reports. If the information is not identified in the Call Reports or Thrift Financial Reports, the Lender will be required to calculate its levels and provide them to the Agency.

(c) The Lender must not be debarred or suspended by the Federal government.

(d) If the Lender is under a cease-and-desist order, or similar constraint, from a Federal or State agency, the Lender must inform the Agency. The Agency will evaluate the Lender's eligibility on a case-by-case basis given the risk of loss posed by the cease-and-desist order or similar constraint, as applicable.

(e) The Agency will only approve loan guarantees for Lenders with adequate experience and expertise, from similar projects, to make, secure, service, and collect loans approved under this subpart.

§ 4279.209 Borrower eligibility requirements.

(a) *Eligible entities.* To be eligible, a Borrower must meet the requirements specified in paragraphs (a)(1) and (2) of this section.

(1) *Type of Borrower.* A Borrower must be an individual; an entity; an Indian Tribe; or a unit of State or Local Government, including a corporation; a Farm Cooperative; a Farmer Cooperative Organization; an Association of Agricultural Producers; a National Laboratory; an Institution of Higher Education; a rural electric cooperative; a public power entity; or a consortium of any of the above entities.

(2) *Legal authority and responsibility.* Each Borrower must have, or obtain before loan closing, the legal authority necessary to construct, operate, and maintain the proposed Project and services and to obtain, give security for, and repay the proposed loan.

(b) *Ineligible entities.* A Borrower will be considered ineligible for a guarantee if the Borrower, any owner with more than 20 percent ownership interest in the Borrower, or any owner with more than 3 percent ownership interest in the Borrower if there is no owner with more than 20 percent ownership interest in the Borrower:

(1) Has an outstanding judgment obtained by the U.S. in a Federal Court (other than U.S. Tax Court);

(2) Is delinquent on the payment of Federal income taxes;

(3) Is delinquent on a Federal Debt; or

(4) Is debarred or suspended from receiving Federal assistance.

§ 4279.210 Project eligibility requirements.

(a) The Project must be located in a State.

(b) The Project must be for either:

(1) The development, construction, and Retrofitting of Technologically New Commercial-Scale processing and manufacturing equipment and required facilities that will be used to convert Renewable Chemicals and other biobased outputs of Biorefineries into end-user products on a Commercial Scale; or

(2) The development, construction, or Retrofitting of a Commercial-Scale Biorefinery using Eligible Technology.

(c) The Borrower and other principals involved in the Project must make a significant equity investment in the Project in the form of cash contribution. Equity does not include loans to the Project. The Agency will evaluate the adequacy of equity in its credit evaluation in accordance with § 4279.215(b).

(d) Eligible Project Costs are only those costs associated with the items listed in paragraphs (d)(1) through (9) of this section, as long as the items are assets owned by the Borrower or expenses incurred by the Borrower and the items are an integral and necessary part of the Project, as determined by the Agency. A Project may consist of multiple facilities or components located at multiple locations.

(1) Purchase and installation of equipment (new, refurbished, or remanufactured), including an integrated demonstration unit if the integrated demonstration unit will be used by the Borrower in the Project after the Project is developed and in operation.

(2) New construction or Retrofitting of existing facilities including reasonable contingency reserves, land acquisition, site improvements and development, and associated costs such as surveys, title insurance, title fees, and recording or transfer fees.

(3) Permit and license fees and fees and charges for professional services. Professional services are those rendered by entities generally licensed or certified by States or accreditation associations, such as architects, engineers, accountants, attorneys, or appraisers, and those rendered by Loan

Packagers (excluding finders fees). The Borrower may pay fees for professional services needed for planning and developing a Project provided that the amounts are reasonable and customary in the area. Professional fees may be included as an eligible use of loan proceeds.

(4) Working Capital.

(5) Cost of necessary insurance and bonds.

(6) Cost of financing, including capitalized Interest during construction period, legal fees, transaction costs, and customary fees charged by the lender, excluding the guaranteed loan fee and annual renewal fees.

(7) Cash reserve accounts required by the Lender or Agency, such as a debt service reserve account.

(8) Any other item identified by the Agency in a notice published in the FEDERAL REGISTER.

(9) The Agency will consider refinancing only under either of the two conditions specified in paragraphs (d)(9)(i) and (ii) of this section.

(i) Permanent financing used to refinance interim construction financing of the proposed Project only if the application for the guaranteed loan under this subpart was approved prior to closing the interim loan for the construction of the Project.

(ii) Refinancing that is no more than 20 percent of the loan for which the Agency is guaranteeing and the purpose of the refinance is to enable the Agency to establish a first lien position with respect to pre-existing Collateral subject to a pre-existing lien and the refinancing would be in the best financial interests of the Federal Government.

(10) A borrower is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure related to the project financed, subject to the requirements of 7 CFR part 1980, subpart M.

(e) Ineligible Project costs include:

(1) Distribution or payment to an individual owner, partner, stockholder, or beneficiary of the Borrower or a close relative of such an individual when such individual will retain any portion of the ownership of the Borrower;

(2) Any line of credit;

(3) Any equipment, processes, and related costs of such equipment used for processing corn kernel starch into biofuel, including as an incidental or secondary product; and

(4) Payment in excess of actual costs (such as profit, overhead, and indirect costs) incurred by the contractor or other service provider on a contract or agreement that has been entered into at less than an Arm's Length Transaction or with an appearance of or a potential for Conflict of Interest.

[80 FR 36425, June 24, 2015, as amended at 85 FR 57085, Sept. 15, 2020]

§§ 4279.211–4279.213 [Reserved]

LENDER FUNCTIONS AND RESPONSIBILITIES

§ 4279.214 General functions and responsibilities.

(a) The Lender has the primary responsibility for loan origination and servicing. Any action or inaction on the part of the Agency does not relieve the Lender of its responsibilities to originate and service the loan guaranteed under this subpart. The Lender may contract for services and may rely on certain written materials (including, but not limited to, certifications, evaluations, appraisals, financial statements and other reports) to be provided by the Borrower or other qualified third parties (including, among others, one or more independent engineers, appraisers, accountants, consultants or other experts.) The Lender is ultimately responsible for underwriting, loan origination, loan servicing, and compliance with all Agency regulations.

(b) Agents and Persons are prohibited from acting as both Loan Packager and Loan Service Provider on the same guaranteed loan.

(c) All Lenders obtaining or requesting a Program loan guarantee are responsible for:

(1) Processing applications for guaranteed loans. The Lender is responsible for submitting a complete application for each guaranteed loan requested;

(2) Developing and maintaining adequately documented loan files, which

must be maintained for at least 3 years after the final loss has been paid;

(3) Recommending only loan proposals that are eligible and financially feasible;

(4) Properly closing the loan and obtaining valid evidence of debt and Collateral in accordance with sound lending practices prior to disbursing loan proceeds;

(5) Keeping an inventory accounting of all Collateral items and reconciling the inventory of all Collateral sold during loan servicing, including liquidation;

(6) Supervising construction;

(7) Distributing loan funds;

(8) Servicing guaranteed loans in a reasonable manner, including liquidation if necessary;

(9) Following Agency regulations and agreements;

(10) Obtaining Agency approvals or concurrence as required; and

(11) Reporting all Conflicts of Interest, or appearances thereof, to the Agency.

§ 4279.215 Credit evaluation.

(a) Lenders must analyze all credit factors associated with each proposed loan and apply its professional judgment to determine that the credit factors, considered in combination, to ensure loan repayment. The Lender must have an adequate underwriting process to ensure that loans are reviewed by someone other than the originating officer. The Agency will only guarantee loans that are financially sound and feasible with reasonable assurance of repayment.

(b) In its credit evaluation, the Agency will consider the following factors:

(1) The feasibility of the Project and Borrower and likelihood that the Project and Borrower will produce sufficient revenues to service the Project's debt obligations over the life of the loan guarantee and result in sufficient returns to investors;

(2) Project and Borrower debt structure and characteristics and debt repayment ability;

(3) Revenues of the Project and Borrower, strength and duration of offtake contracts and counterparty agreements, market demand and competitive position;

(4) Technical feasibility, demonstrated performance of the technology and readiness to commercialize the technology;

(5) Ownership structure of the Project and Borrower, strength of ownership and sponsors, commitment and amount of equity investment from ownership, sponsors and other equity investors;

(6) Operational management and experience;

(7) Complexity of construction/completion, terms of construction contracts, experience and financial strength of the construction contractor or engineering, procurement, and construction (EPC) contractor;

(8) Availability and depth of resource/feedstock market, strength and duration of purchase agreements, and availability of substitutes;

(9) Contracts and intellectual property rights, and state and local regulations;

(10) Energy, infrastructure and environmental considerations;

(11) The extent to which Project Costs are funded by the guaranteed loan or other Federal and non-Federal governmental assistance such as grants, tax credits, or other loan guarantees;

(12) Economic safeguards of the Project including contingency reserve funds and protections and safeguards provided to the Agency and Lender in the event of default through loan collateral and ownership and sponsorship guarantors, and;

(13) Other criteria that the Agency deems relevant.

§ 4279.216 Environmental responsibilities.

Lenders are responsible for becoming familiar with Federal environmental requirements; considering, in consultation with the prospective Borrower, the potential environmental impacts of their proposals at the earliest planning stages; and developing proposals that minimize the potential to adversely impact the environment.

(a) Lenders must alert the Agency to any environmental issues related to a proposed Project or items that may require extensive environmental review.

(b) Lenders must ensure that the Borrower has:

(1) Provided the necessary environmental documentation to enable the Agency to undertake its environmental review process in accordance with 7 CFR part 1970, including the provision of all required Federal, State, and local permits.

(2) Complied with any mitigation measures required by the Agency; and

(3) Not taken any actions or incurred any obligations with respect to the proposed Project that will either limit the range of alternatives to be considered during the Agency's environmental review process or which will have an adverse effect on the environment.

(c) Lenders must assist in the collection of additional data when the Agency needs such data to complete its environmental review of the proposal and assist in the resolution of environmental issues.

[61 FR 67633, Dec. 23, 1996, as amended at 81 FR 11051, Mar. 2, 2016]

§ 4279.217 Oversight and monitoring.

The Lender must permit representatives of the Agency (or other agencies of the United States) to inspect and make copies of any records of the Lender pertaining to Program guaranteed loans during regular office hours of the Lender or at any other time upon agreement between the Lender and the Agency. In addition, the Lender must cooperate fully with Agency oversight and monitoring of all Lenders involved in any manner with any loan guarantee under this Program to ensure compliance with this subpart. Such oversight and monitoring will include, but is not limited to, reviewing Lender records and meeting with Lenders (in accordance with § 4287.307(d) of this chapter).

§§ 4279.218–4279.219 [Reserved]

CONDITIONS OF GUARANTEE

§ 4279.220 General conditions of guarantee.

A loan guarantee under this part will be evidenced by a Loan Note Guarantee issued by the Agency. Each Lender will execute a Lender's Agreement. If a valid Lender's Agreement already exists, it is not necessary to execute a new Lender's Agreement with each loan guarantee. The provisions of this part and 7 CFR part 4287, subpart D will apply to all outstanding guarantees. In the event of a conflict between the guaranteed loan documents and these regulations as they exist at the time the documents are executed, the regulations will control.

(a) *Full faith and credit.* (1) A guarantee under this subpart constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which a Lender or Holder has actual knowledge at the time it becomes such Lender or Holder or which a Lender or Holder participates in or condones.

(2) The guarantee will be unenforceable to the extent that any loss is occasioned by:

(i) A provision for Interest on Interest, Default or penalty Interest, or late payment fees;

(ii) The violation of usury laws;

(iii) Use of loan proceeds for unauthorized purposes or to the extent that loan funds are used for purposes other than those specifically approved by the Agency in its Conditional Commitment;

(iv) Failure to obtain or maintain the required security regardless of the time at which the Agency acquires knowledge thereof; and

(v) Negligent Loan Origination or Negligent Loan Servicing unless otherwise determined under paragraph (d) of this section.

(3) The Agency will guarantee payment as follows:

(i) To any Holder, 100 percent of any loss sustained by the Holder on the guaranteed portion of the loan it owns and Interest through the Interest Termination Date due on such portion.

(ii) To the Lender, subject to the provisions of this part and subpart D of part 4287 of this chapter, the lesser of:

(A) Any loss sustained by the Lender on the guaranteed portion, including principal and Interest, through the Interest Termination Date, evidenced by the notes or assumption agreements and secured advances for protection

and preservation of Collateral made with the Agency's authorization; or

(B) The guaranteed principal advanced to or assumed by the Borrower and any Interest due thereon through the Interest Termination Date.

(b) *Credit quality of Borrower.* The Agency will provide guarantees only after consideration is given to the Borrower's overall credit quality and to the terms and conditions of any applicable subsidies, tax credits, and other such incentives.

(c) *Quality of loan.* All loans guaranteed under this subpart must be financially sound and feasible, with reasonable assurance of repayment.

(d) *Gross negligence.* Upon written request of the Lender, the Agency will consider changing the negligence standard to Grossly Negligent Loan Origination and Grossly Negligent Loan Servicing on a case-by-case basis. The Lender must establish to the Agency's satisfaction that changing to the gross negligence standard does not materially impair the Agency's interests, solely at the Agency's discretion, subject to:

(1) The lender has demonstrated capacity and experience in making and servicing loans of similar amounts and for transactions of comparable complexity;

(2) The Agency's review of the Lender's underwriting, loan approval and loan servicing policies and procedures, and;

(3) The Agency's review of the Lender's loan servicing plan.

§ 4279.221 Rights and liabilities.

When a guaranteed portion of a loan is sold to a Holder, the Holder will succeed to all rights of the Lender under the Loan Note Guarantee to the extent of the portion purchased.

(a) The Lender will remain bound to all obligations under the Loan Note Guarantee, Lender's Agreement, and the Agency Program regulations.

(b) A guarantee and right to require purchase will be directly enforceable by a Holder notwithstanding any fraud or misrepresentation by the Lender or any unenforceability of the guarantee by the Lender, except for fraud or misrepresentation of which the Holder had actual knowledge at the time it became the Holder or in which the Holder participates or condones.

(c) The Lender must reimburse the Agency for any payments the Agency makes to a Holder of Lender's guaranteed loan that, under the Loan Note Guarantee, would not have been paid to the Lender had the Lender retained the entire interest in the guaranteed loan and not conveyed an interest to a Holder.

§ 4279.222 Payments.

A Lender will receive all payments of principal and Interest on account of the entire loan and must promptly remit to the Holder its Pro Rata share of any payment within 30 days of the Lender's receipt thereof from the Borrower, determined according to its respective interest in the loan, less only the Lender's servicing fee.

§ 4279.223 Sale or assignment of guaranteed loan.

The Lender may Participate or sell all or part of the guaranteed portion of the loan or retain the entire loan. The Lender must fully disburse and properly close a loan prior to sale of any portion of the Promissory Note(s). The Lender cannot Participate or sell any amount of the guaranteed or unguaranteed portion of the loan to the Borrower or its parent, subsidiary or Affiliate or to officers, directors, stockholders, other owners, or members of their Immediate Families. The Lender cannot share any premium received from the sale of a guaranteed loan in the secondary market with a Loan Packager or other Loan Service Provider. The participating Lenders and Holders and the Borrower can have no rights or obligations to one another. If the Lender desires to market all or part of the guaranteed portion of the loan at or subsequent to loan closing, such loan must not be in Default. Lenders may use either the single Promissory Note or multi-note system as outlined in paragraphs (a) and (b) of this section.

(a) *Single note system.* The entire loan is evidenced by one Promissory Note, and one Loan Note Guarantee is issued. When the loan is evidenced by one Promissory Note, the Lender may not

at a later date cause any additional notes to be issued.

(1) The Lender may assign all or part of the guaranteed portion of the loan to one or more Holders by using the Assignment Guarantee Agreement. The Lender must retain title to the Promissory Note. The Lender must complete and execute the Assignment Guarantee Agreement and return it to the Agency for execution prior to Holder execution.

(2) A Holder, upon written notice to the Lender and the Agency, may reassign the unpaid guaranteed portion of the loan, in full, sold under the Assignment Guarantee Agreement. Holders may only reassign the guaranteed portion in the complete block they have received and cannot subdivide or further split the guaranteed portion of a loan or retain an Interest strip.

(3) Upon notification and completion of the assignment through the use of the Assignment Guarantee Agreement, the assignee shall succeed to all rights and obligations of the Holder thereunder. Subsequent assignments require notice to the Lender and Agency using any format, including that used by the Bond Market Association, together with the transfer of the original Assignment Guarantee Agreement.

(4) The Agency will neither execute a new Assignment Guarantee Agreement to effect a subsequent reassignment nor reissue a duplicate Assignment Guarantee Agreement unless:

(i) The original was lost, stolen, destroyed, mutilated, or defaced; and

(ii) The reissue is in accordance with § 4279.226.

(5) The Assignment Guarantee Agreement clearly states the percentage and corresponding amount of the guaranteed portion it represents and the Lender's servicing fee. A servicing fee may be charged by the Lender to a Holder and is calculated as a percentage per annum of the unpaid balance of the guaranteed portion of the loan assigned by the Assignment Guarantee Agreement. The Agency is not and will not be a party to any contract between the Lender and another party where the Lender sells its servicing fee in an Arm's Length Transaction. The Agency will not acknowledge, approve, or have any liability to any of the parties of such contract.

(b) *Multi-note system.* Under this option, the Lender may provide multiple Promissory Notes for the unguaranteed and the guaranteed portions of the loan. All Promissory Notes must reflect the same payment terms. When the Lender selects this option, the Holder will receive one of the Borrower's executed notes and a Loan Note Guarantee. The Agency will issue a Loan Note Guarantee for each Promissory Note, including the unguaranteed Promissory Note(s), to be attached to the Promissory Note(s). An Assignment Guarantee Agreement will not be used when the multi-note option is utilized.

§ 4279.224 Minimum retention.

The Lender is required to hold a minimum of 7.5 percent of the total loan amount. The amount required to be held must be of the unguaranteed portion of the loan and cannot be Participated to another Person. The Agency may reduce the minimum retention below 7.5 percent on a case by case basis when the Lender establishes to the Secretary's satisfaction that reduction of the minimum retention percentage is to meet compliance with the Lender's regulatory authority. The Lender must retain interest in the Collateral, and retain the servicing responsibilities for the guaranteed loan.

§ 4279.225 Repurchase from Holder.

(a) *Repurchase by Lender.* A Lender has the option to repurchase the unpaid guaranteed portion of the loan from a Holder within 30 days of written demand by the Holder when the Borrower is in Default not less than 60 days on principal or Interest due on the loan; or when the Lender has failed to remit to the Holder its Pro Rata share of any payment within 30 days of the Lender's receipt thereof from the Borrower. The repurchase by the Lender will be for an amount equal to the unpaid guaranteed portion of principal and accrued Interest less the Lender's servicing fee. The Holder must concurrently send a copy of the demand letter to the Agency. The Lender must accept an assignment without recourse from

the Holder upon repurchase. The Lender is encouraged to repurchase the loan, upon written demand from the Holder, to facilitate the accounting of funds, resolve any loan problem, and resolve the Default, where and when reasonable. The benefit to the Lender is that it may re-sell the guaranteed portion of the loan in order to continue collection of its servicing fee if the Default is cured. The Lender must notify, in writing, the Holder and the Agency of its decision.

(b) *Agency repurchase.* (1) The Lender's servicing fee will stop on the date that Interest was last paid by the Borrower when the Agency purchases the guaranteed portion of the loan from a Holder. The Lender cannot charge such servicing fee to the Agency and must apply all loan payments and Collateral proceeds received to the guaranteed and unguaranteed portions of the loan on a Pro Rata basis.

(2) If the Agency repurchases 100 percent of the guaranteed portion of the loan, the Agency will not continue collection of the Annual Renewal Fee from the Lender.

(3) If the Lender does not repurchase the unpaid guaranteed portion of the loan as provided in paragraph (a) of this section, the Agency will purchase from the Holder the unpaid principal balance of the guaranteed portion together with accrued Interest to date of repurchase or the Interest Termination Date, whichever is sooner, less the Lender's servicing fee, within 30 days after written demand to the Agency from the Holder.

(4) When Lender has accelerated the account, and subject to the expiration of any forbearance or workout agreement, the Lender, or the Agency at its sole discretion, must issue a letter to the Holder(s) establishing the Interest Termination Date. Accrued Interest to be paid to the Holder(s) will be calculated from the date Interest was last paid on the loan with a termination date not to exceed the Interest Termination Date.

(5) When the Lender has accelerated the account and the Lender holds all or a portion of the guaranteed loan, an estimated loss claim (loan in the liquidation process) must be filed by the Lender with the Agency within 60 days. Accrued Interest paid to the Lender will be calculated from the date Interest was last paid on the loan to the Interest Termination Date.

(6) The Holder's demand to the Agency must include a copy of the written demand made upon the Lender. The Holder must also include evidence of its right to require payment from the Agency. Such evidence must consist of either the original of the Loan Note Guarantee properly endorsed to the Agency or the original of the Assignment Guarantee Agreement properly assigned to the Agency without recourse including all rights, title, and interest in the loan. When the single-note system is utilized and the initial Holder has sold its interest, the current Holder must present the original Assignment Guarantee Agreement and an original of each Agency approved reassignment document in the chain of ownership, with the latest reassignment being assigned to the Agency without recourse, including all rights, title, and interest in the guarantee. The Holder must include in its demand the amount due including unpaid principal, unpaid Interest to date of demand, and Interest subsequently accruing from date of demand to proposed payment date. The Agency will be subrogated to all rights of the Holder.

(7) Upon request by the Agency, the Lender must furnish within 30 days of such request a current statement certified by an appropriate authorized officer of the Lender of the unpaid principal and Interest then owed by the Borrower on the loan and the amount then owed to any Holder, along with the information necessary for the Agency to determine the appropriate amount due the Holder. Any discrepancy between the amount claimed by the Holder and the information submitted by the Lender must be resolved between the Lender and the Holder before payment will be approved. Such conflict will suspend the running of the 30 day payment requirement.

(8) Purchase by the Agency neither changes, alters, nor modifies any of the Lender's obligations to the Agency arising from the loan or guarantee nor does it waive any of Agency's rights against the Lender. The Agency will have the right to set-off against the

Lender all rights inuring to the Agency as the Holder of the instrument against the Agency's obligation to the Lender under the guarantee.

(c) *Repurchase for servicing.* If the Lender, Borrower, and Holder are unable to agree to restructuring of loan repayment, Interest rate, or loan terms to resolve any loan problem or resolve the Default and repurchase of the guaranteed portion of the loan is necessary to adequately service the loan, the Holder must sell the guaranteed portion of the loan to the Lender for an amount equal to the unpaid principal and Interest on such portion less the Lender's servicing fee. The Lender must not repurchase from the Holder for arbitrage or other purposes to further its own financial gain. Any repurchase must only be made after the Lender obtains the Agency's written approval. If the Lender does not repurchase the guaranteed portion from the Holder, the Agency may, at its option, purchase such guaranteed portion for servicing purposes.

§4279.226 Replacement of document.

(a) The Agency may issue a replacement Loan Note Guarantee or Assignment Guarantee Agreement which was lost, stolen, destroyed, mutilated, or defaced to the Lender or Holder upon receipt of an acceptable certificate of loss and an indemnity bond.

(b) When a Loan Note Guarantee or Assignment Guarantee Agreement is lost, stolen, destroyed, mutilated, or defaced while in the custody of the Lender or Holder, the Lender must coordinate the activities of the party who seeks the replacement documents and must submit the required documents to the Agency for processing. The requirements for replacement are as follows:

(1) A certificate of loss, notarized and containing a jurat, which includes:

(i) Name and address of owner;

(ii) Name and address of the Lender of record;

(iii) Capacity of Person certifying;

(iv) Full identification of the Loan Note Guarantee or Assignment Guarantee Agreement including the name of the Borrower, the Agency's case number, date of the Loan Note Guarantee or Assignment Guarantee Agreement, face amount of the evidence of debt purchased, date of evidence of debt, present balance of the loan, percentage of guarantee, and, if an Assignment Guarantee Agreement, the original named Holder and the percentage of the guaranteed portion of the loan assigned to that Holder. Any existing parts of the document to be replaced must be attached to the certificate;

(v) A full statement of circumstances of the loss, theft, destruction, defacement, or mutilation of the Loan Note Guarantee or Assignment Guarantee Agreement; and

(vi) For the Holder, evidence demonstrating current ownership of the Loan Note Guarantee and Promissory Note or the Assignment Guarantee Agreement. If the present Holder is not the same as the original Holder, a copy of the endorsement of each successive Holder in the chain of transfer from the initial Holder to present Holder must be included. If copies of the endorsement cannot be obtained, best available records of transfer must be submitted to the Agency (*e.g.*, order confirmation, canceled checks, etc.).

(2) An indemnity bond acceptable to the Agency must accompany the request for replacement except when the Holder is the United States, a Federal Reserve Bank, a Federal corporation, a State or territory, or the District of Columbia. The indemnity bond must be with surety except when the outstanding principal balance and accrued Interest due the present Holder is less than $1 million verified by the Lender in writing in a letter of certification of balance due. The surety must be a qualified surety company holding a certificate of authority from the Secretary of the Treasury and listed in Treasury Department Circular 570.

(3) All indemnity bonds must be issued and payable to the United States of America acting through the Agency. The bond must be in an amount not less than the unpaid principal and Interest. The bond must hold the Agency harmless against any claim or demand that might arise or against any damage, loss, costs, or expenses that might be sustained or incurred by reasons of the loss or replacement of the instruments.

(4) In those cases where the guaranteed loan was closed under the provision of the multi-note system, the Agency will not attempt to obtain, or participate in the obtaining of, replacement Promissory Notes from the Borrower. The Holder is responsible for bearing the costs of Promissory Note replacement if the Borrower agrees to issue a replacement instrument. Should such Promissory Note be replaced, the terms of the Promissory Note cannot be changed. If the evidence of debt has been lost, stolen, destroyed, mutilated or defaced, such evidence of debt must be replaced before the Agency will replace any instruments.

§ 4279.227 Equal Credit Opportunity Act.

In accordance with the Equal Credit Opportunity Act (15 U.S.C. 1691, *et seq.*), with respect to any aspect of a credit transaction, neither the Lender nor the Agency will discriminate against any applicant on the basis of race, color, religion, national origin, sex, marital status or age (providing the applicant has the capacity to contract), or because all or part of the applicant's income derives from a public assistance program, or because the applicant has, in good faith, exercised any right under the Consumer Protection Act. The Lender must comply with the requirements of the Equal Credit Opportunity Act as contained in the Federal Reserve Board's Regulation implementing that Act (see 12 CFR part 202) prior to loan closing.

§§ 4279.228–4279.230 [Reserved]

LOAN PROCESSING

§ 4279.231 Fees.

(a) *Guarantee fee.* The guarantee fee is paid to the Agency by the Lender and is nonrefundable. The fee may be passed on to the Borrower. Issuance of the Loan Note Guarantee is conditioned on payment of the guarantee fee by closing. The guarantee fee will be the percentage specified in paragraphs (a)(1) or (2) of this section, as applicable, unless otherwise specified by the Agency in a notice published in the FEDERAL REGISTER, multiplied by the principal loan amount multiplied by the percent of guarantee and will be paid one time only at the time the Loan Note Guarantee is issued.

(1) For loans receiving a 90 percent guarantee, the guarantee fee is three percent.

(2) For loans receiving less than a 90 percent guarantee, the guarantee fee is:

(i) Two percent for guarantees on loans greater than 75 percent of total Eligible Project Costs.

(ii) One and one-half percent for guarantees on loans of greater than 65 percent but less than or equal to 75 percent of total Eligible Project Costs.

(iii) One percent for guarantees on loans of 65 percent or less of total Eligible Project Costs.

(b) *Annual Renewal Fee.* The Annual Renewal Fee, which may be passed on to the Borrower, is paid by the Lender to the Agency for as long as the guarantee is outstanding and is payable during the construction period.

(1) The amount of the annual renewal fee is calculated by the outstanding principal loan balance as of December 31 of each year multiplied by the Annual Renewal Fee rate, multiplied by the percent of guarantee. The rate is the rate in effect at the time the loan is obligated, and will remain in effect for the life of the loan.

(2) The Annual Renewal Fee is paid once a year and is required to maintain the enforceability of the guarantee as to the lender. Annual Renewal Rees are due on January 31. Payments not received by April 1 are considered delinquent and, at the Agency's discretion, may result in cancellation of the guarantee to the lender. Holders' rights will continue in effect as specified in the Loan Note Guarantee and Assignment Guarantee Agreement. Any delinquent Annual Renewal Fees will bear interest at the note rate and will be deducted from any loss payment due the lender. For loans where the Loan Note Guarantee is issued between October 1 and December 31, the first Annual Renewal Fee payment will be due January 31 of the second year following the date the Loan Note Guarantee was issued.

(3) When the Agency repurchases 100 percent of the guaranteed portion of the loan, the Agency will not continue collection of the Annual Renewal Fee.

(4) Unless otherwise specified by the Agency in a notice published in the FEDERAL REGISTER, the Annual Renewal Fee rate will be as follows:

(i) One hundred basis points (1 percent) for guarantees on loans that were originally greater than 75 percent of total Eligible Project Costs.

(ii) Seventy five basis points (0.75 percent) for guarantees on loans that were originally greater than 65 percent but less than or equal to 75 percent of total Eligible Project Costs.

(iii) Fifty basis points (0.50 percent) for guarantees on loans that were originally for 65 percent or less of Total Eligible Project Costs.

(c) *Routine Lender fees.* The Lender may establish charges and fees for the loan provided they are similar to those normally charged other applicants for the same type of loan in the ordinary course of business, and these fees are an eligible use of loan proceeds. The Lender must document such routine fees on Form RD 4279–1, ''Application for Loan Guarantee.'' The Lender may charge prepayment penalties and late payment fees that are stipulated in the loan documents, as long as they are reasonable and customary; however, the Loan Note Guarantee will not cover either prepayment penalties or late payment fees.

§ 4279.232 Guaranteed loan funding.

(a) The amount of a loan guaranteed for a Project under this subpart will not exceed 80 percent of total Eligible Project Costs. Total Federal participation will not exceed 80 percent of total Eligible Project Costs. The Borrower needs to provide the remaining 20 percent from non-Federal sources to complete the Project. Eligible Project Costs are specified in § 4279.210(d). If an eligible Borrower receives other direct Federal funding (*i.e.*, direct loans or grants) for a Project, the maximum amount of the loan that the Agency will guarantee under this subpart must be reduced by the same amount of the other direct Federal funding that the eligible Borrower received for the Project. For example, an eligible Borrower is applying for a loan guarantee on a $100,000,000 Project. If the Borrower receives no other direct Federal funding for this Project and requests an $80,000,000 guaranteed loan, the Agency will consider a guarantee on the $80,000,000. However, if this Borrower receives $10,000,000 in other direct Federal funding for this Project, the Agency will only consider a guarantee on $70,000,000.

(b) The maximum principal amount of a loan guaranteed under this subpart is $250 million to one Borrower; there is no minimum amount.

(c) The maximum guarantee on the principal and Interest due on a loan guaranteed under this subpart will be determined as specified in paragraphs (c)(1) through (4) of this section.

(1) If the loan amount is equal to or less than $125 million, 80 percent for the entire loan amount unless all of the conditions specified in paragraphs (c)(1)(i) through (iii) of this section are met, in which case 90 percent for the entire loan amount.

(i) Total Federal participation, sum of the amount of the loan requested and other direct Federal funding, must not be greater than 60 percent of total Eligible Project Costs;

(ii) Feedstock and Off-Take Agreements of at least 1 year in duration; and

(iii) Total of revenues from tax credits, carbon credits, or other Federal or State subsidies cannot be greater than 10 percent of the Project's total revenues on an annual basis, in the Borrower's base case of financial projections.

(2) If the loan amount is more than $125 million and less than $150 million, 80 percent for the entire loan amount.

(3) If the loan amount is equal to or more than $150 million but less than $200 million, 70 percent on the entire loan amount.

(4) If the loan amount is $200 million up to and including $250 million, 60 percent on the entire loan amount.

§ 4279.233 Interest rates.

The Interest rate for the guaranteed loan will be negotiated between the Lender and the Borrower and may be either fixed or variable, or a combination thereof, as long as it is a legal rate. Interest rates will not be more than those rates the Lender customarily charges Borrowers for non-guaranteed loans in similar circumstances

in the ordinary course of business and are subject to Agency review and approval. Lenders are encouraged to utilize the secondary market and pass Interest-rate savings on to the Borrower.

(a) A variable Interest rate must be a rate that is tied to a published base rate. The variable Interest rate must be specified in the Promissory Note and may be adjusted at specified intervals during the term of the loan, but the adjustments may not be more often than once each Calendar Quarter. The Lender must incorporate, within the variable rate Promissory Note at loan closing, the provision for adjustment of payment installments. The Lender must properly amortize the outstanding principal balance within the prescribed loan maturity in order to eliminate the possibility of a balloon payment at the end of the loan.

(b) Any change in the base rate or fixed Interest rate between issuance of the Conditional Commitment and the issuance of the Loan Note Guarantee must be approved by the Agency. Approval of such a change must be shown as an amendment to the Conditional Commitment and must be reflected on the Guaranteed Loan Closing Report.

(c) It is permissible to have different Interest rates on the guaranteed and unguaranteed portions of the loan.

§ 4279.234 Terms of loan.

The loan terms, other than Interest, must be the same for both the guaranteed and unguaranteed portions of the loan.

(a) The repayment term for a loan under this subpart will be no greater than the lesser of 20 years from the date of loan closing or the useful life of the Project, as determined by the Lender and confirmed by the Agency. Both the guaranteed and unguaranteed portions of the loan must be amortized over the same term.

(b) A loan's maturity will take into consideration the use of proceeds, the useful life of assets being financed, and the Borrower's ability to repay the loan.

(c) The first installment of principal and Interest will, if possible, be scheduled for payment after the Project is operational and has begun to generate income. However, the first full installment must be due and payable within three years from the date of the Promissory Note and be paid at least annually thereafter. In cases where there is an Interest-only period, Interest will be paid at least annually from the date of the Promissory Note.

(d) Only loans that require a periodic payment schedule that will retire the debt over the term of the loan without a balloon payment will be guaranteed except the final payment may be the funds held in the debt service reserve account.

§ 4279.235 Collateral.

The Lender is responsible for obtaining and maintaining proper and adequate Collateral to protect the interest of the Lender, the Holder, and the Agency. Collateral must be of such a nature that repayment of the loan is reasonably ensured when considered with the integrity and ability of Project management, soundness of the Project, and the Borrower's prospective earnings. The Collateral may include, but is not limited to, the following: Revenue, land, easements, rights-of-way, buildings, machinery, equipment, inventory, accounts receivable, contracts, cash, or other accounts, licenses and assignments of leases or leasehold interest.

(a) The entire loan, the guaranteed and unguaranteed portions, must be secured by a first lien on all assets of the Project including all assets in the Project budget. The Agency may consider a subordinate lien position on inventory and accounts receivable to Working Capital loans including revolving lines of credit provided the Agency determines the Working Capital is necessary for the operation and with the Subordination, the loan remains adequately secured.

(b) The entire loan must be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of the loan will neither be paid first nor given any preference or priority over the guaranteed portion.

§§ 4279.236–4279.242 [Reserved]

§ 4279.243 Insurance.

The Lender is responsible for ensuring that required insurance is maintained by the Borrower. The Lender must be shown as an additional insured on insurance policies (or other risk sharing instruments) that benefit the Project and must be able to assume any contracts that are material to the Project, including any feedstock or Off-Take Agreements, as may be applicable.

(a) *Hazard*. Hazard insurance with a standard clause naming the Lender as mortgagee or loss payee, as applicable, is required for the life of the guaranteed loan. The amount must be at least equal to the replacement value of the Collateral or the outstanding balance of the loan, whichever is the greater amount.

(b) *Life*. The Lender may require as Collateral an assignment of life insurance to insure against the risk of death of persons critical to the success of the business. When required, coverage must be in amounts necessary to provide for management succession or to protect the business. The Agency may require life insurance on key individuals for loans where the Lender has not otherwise proposed such coverage. The cost of insurance and its effect on the applicant's Working Capital must be considered as well as the amount of existing insurance that could be assigned without requiring additional expense.

(c) *Worker compensation*. Worker compensation insurance is required in accordance with State law.

(d) *Flood*. National flood insurance is required in accordance with applicable law.

(e) *Other*. The Lender must consider whether public liability, business interruption, malpractice, and other insurance is appropriate to the Borrower's particular business and must require the Borrower to obtain such insurance as is necessary to protect the interests of the Borrower, the Lender, or the Agency.

§ 4279.244 Appraisals.

(a) Lenders must obtain appraisals for real estate when the value of the Collateral exceeds $250,000. Each appraisal must be reported in a manner that summarizes all of the information necessary for the intended users to understand the report and contain all information pertinent to the appraiser's opinions and conclusions.

(1) Appraisals must not be more than one year old, and a more recent appraisal may be requested by the Agency in order to reflect more current market conditions. For loan servicing purposes, an appraisal may be updated in lieu of a complete new appraisal when the original appraisal is more than one year old, but less than two years old.

(2) Specialized appraisers will be required to complete appraisals under this section. The Agency may approve a waiver of this requirement only if a specialized appraiser does not exist in a specific industry. The Agency will require documentation that the appraiser has the necessary experience and competency to appraise the property in question.

(3) All real property appraisals associated with Agency guaranteed loan origination and servicing transactions must meet the requirements contained in the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA) of 1989 and the appropriate guidelines contained in Standards 1 and 2 of the Uniform Standards of Professional Appraisal Practices (USPAP) and be performed by a State Certified General Appraiser. Notwithstanding any exemption that may exist for transactions guaranteed by a Federal Government agency, all appraisals obtained by the Lender for origination and servicing must conform to the Interagency Appraisal and Evaluations Guidelines established by the Lender's primary Federal or State regulator.

(4) All appraisals must include consideration of the potential effects from a release of hazardous substances or petroleum products or other environmental hazards on the Market Value of the Collateral. The Lender must complete and submit its technical review of the appraisal. For construction Projects, the Lender must use the ''as-completed'' Market Value of the real estate to determine value of the real estate property. For all proposals,

Lenders must obtain a Phase I Environmental Site Assessment in accordance with ASTM International Standards, which should be provided to the appraiser for completion of the appraisal. For additional guidance and information refer to ''Phase I Environmental Site Assessment,'' published by the American Society of Testing and Materials.

(b) Chattels must be evaluated in accordance with normal banking practices and generally accepted methods of determining value. Chattel appraisals must reflect the age, condition, and remaining useful life of the equipment. If the appraisal is completed by a State licensed/certified appraiser, the appraisal report must comply with USPAP Standards 7 and 8.

§ 4279.245 Personal and corporate guarantees.

(a) Unconditional personal and corporate guarantees are required for the full term of the loan from Persons owning 20 percent or greater interest in the borrower.

(b) When warranted by an Agency assessment and its credit evaluation, guarantees may also be required of parent, subsidiaries, affiliated companies, Persons owning less than a 20 percent interest in the borrower, or Persons whose ownership interest in the Borrower is held indirectly through intermediate entities.

(c) The Agency may require the guarantees to be secured.

(d) Partial guarantees and exemptions to the requirement for guarantees may be requested by the Lender and are subject to concurrence by the Agency approval official on a case-by-case basis when warranted by an Agency assessment and its credit evaluation in accordance with § 4279.215(b). If partial guarantees are required, the partial guarantee will be at least equal to each owner's percentage of interest in the Borrower multiplied by the loan amount.

(e) All personal and corporate guarantors must execute Form RD 4279–14, ''Unconditional Guarantee,'' and any guarantee form required by the Lender. The Agency will retain the original, executed Form RD 4279–14.

(1) Any amounts paid by the Agency on behalf of an Agency Borrower will constitute a Federal Debt owed to the Agency by the Borrower.

(2) Any amounts paid by the Agency pursuant to a claim by a Lender will constitute a Federal Debt owed to the Agency by a guarantor of the loan, to the extent of the amount of the guarantor's guarantee.

(3) In all instances under paragraphs (c)(1) and (2) of this section, Interest charges will be assessed at the Promissory Note Interest rate on the date a loss claim is paid.

§§ 4279.246–4279.255 [Reserved]

§ 4279.256 Construction planning and performing development.

The Lender and Borrower must comply with paragraphs (a) through (i) of this section. The Lender may contract for services and may rely on certain written materials and other reports to be provided by an independent engineer and other qualified third parties.

(a) *Design policy.* The Lender must monitor and require the Borrower ensure that all facilities constructed with Program funds are designed, and costs estimated, by an independent professional utilizing accepted architectural, engineering, and design practices and conform to applicable Federal, State, and local codes and requirements.

(b) *Project control.* (1) The Lender must monitor the progress of construction and confirm the reviews and inspections necessary to ensure that construction conforms to applicable Federal, State, and local code requirements have been performed; proceeds are used in accordance with the approved plans, specifications, and contract documents; and that loan funds are used for Eligible Project Costs in accordance with the purposes approved by the Agency in its Conditional Commitment. The Lender must expeditiously report any problems in Project development to the Agency.

(2) The Lender must ensure an onsite Project inspector or independent engineer monitors the Project.

(3) The Lender must monitor the Project to confirm that the Project will be completed with available funds and, once completed, will be used for

its intended purpose and produce products in the quality and quantity proposed in the completed application approved by the Agency. Once construction is completed, the Lender must provide the Agency with a copy of the notice of completion.

(4) Prior to the disbursement of construction funds, the Lender shall:

(i) Have on file the major drawings issued for construction and major equipment specifications issued for procurement;

(ii) Have a detailed timetable for the Project with a corresponding budget of costs, setting forth the parties responsible for payment;

(iii) Ensure that the independent engineer confirms that the budget is adequate for the Project;

(iv) Require the Borrower to have a firm fixed-price engineering, procurement and construction (EPC) contract in place which includes performance guarantees customary and reasonable for a project of this nature or engineering, construction, and procurement contracts in place with vendors and construction contractors for the construction of the Project, each on customary terms and conditions;

(v) Require provisions for change order approvals, a retainage percentage, and a disbursement schedule;

(vi) Require the Borrower to have contingencies in place to handle unforeseeable cost overruns without seeking additional Agency assistance. These contingencies must be agreed to by the Agency.

(c) *Changes and cost overruns.* The Borrower is responsible for any changes or cost overruns. If any such change or cost overrun occurs, then any change order must be expressly approved by the Agency, which approval shall not be unreasonably withheld, and neither the Lender nor Borrower will divert funds from purposes identified in the guaranteed loan application approved by the Agency to pay for any such change or cost overrun without the express written approval of the Agency. In no event will the current loan be modified or a subsequent guaranteed loan be approved to cover any such changes or costs. In the event of any of the aforementioned increases in cost or expenses, the Borrower must provide for such increases in a manner that does not diminish the Borrower's operating capital. Failure to comply with the terms of this paragraph (c) will be considered a Material Adverse Change in the Borrower's financial condition, and the Lender must address this matter, in writing, to the Agency's satisfaction.

(d) *New draw certifications.* The following three certifications are required for each new draw:

(1) Certification by the Project engineer to the Lender that the work referred to in the draw has been successfully completed;

(2) Certification that all debts have been paid and all mechanics' liens have been waived; and

(3) Certification that the Borrower is complying with the Davis-Bacon Act (see paragraph (h) of this section).

(e) *Surety.* Surety, as the term is commonly used in the industry, will be required. The Borrower must have either 100 percent performance/payment bonds on the contractors or a guarantee from a creditworthy parent entity or an alternative acceptable to the Lender and the Agency and must be secured. The bonding agent must be listed on Treasury Circular 570.

(f) *Equal opportunity.* For all construction contracts in excess of $10,000, the contractor must comply with Executive Order 11246, entitled ''Equal Employment Opportunity,'' as amended by Executive Order 11375, and as supplemented by applicable Department of Labor regulations (41 CFR part 60). The Borrower and Lender are responsible for ensuring that the contractor complies with these requirements.

(g) *Americans with Disabilities Act (ADA).* Construction of or addition to facilities that accommodate the public or commercial facilities, as defined by the ADA, must comply with the ADA.

(h) *Wage rates.* As a condition of receiving a loan guaranteed under this subpart, each Borrower shall ensure that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed in whole or in part with guaranteed loan funds under this subpart shall be paid wages at rates not less than those prevailing on similar

construction in the locality as determined by the Secretary of Labor in accordance with sections 3141 through 3144, 3146, and 3147 of title 40, U.S.C. Awards under this subpart are further subject to the relevant regulations contained in 29 CFR part 5.

(i) *Reporting during construction.* Lenders must submit monthly construction and quarterly progress reports to the Agency, as specified in paragraphs (i)(1) and (2), respectively, of this section and the Borrower information specified in paragraph (i)(3) of this section.

(1) Monthly construction reports documenting the use of the Project funding until construction is completed. The reports must include the following:

(i) Certifications for each draw request:

(A) Certification by the independent engineer to the Lender that the work referred to in the draw has been successfully completed;

(B) Certification from the Borrower and independent engineer or that the proceeds of the prior draw have been applied to Eligible Project Costs in accordance with the draw request and that the contractors have delivered mechanics' lien waivers in connection with such draw; and

(C) Certification from the Borrower as to its compliance with the Davis-Bacon Act confirmed by the independent engineer;

(ii) List of invoices;

(iii) Detail of equity and Guaranteed Loan funds paid to date;

(iv) Status of construction and inspection reports; and

(v) Concerns, potential problems, cost overruns, etc.

(2) Quarterly progress reports by the end of each Calendar Quarter, unless more frequent ones are needed as determined by the Agency, through the time when the facility is producing at its designed capacity at a steady state. These reports must contain, at a minimum, planned and completed construction milestones, loan advances, and personnel hiring, training, and retention and commissioning and ramp-up milestones and performance reports. This requirement applies to both the development and construction of Commercial-Scale Biorefineries and to the Retrofitting of existing facilities using Eligible Technology for the development of Advanced Biofuels and Biobased Products including Renewable Chemicals. The Lender must expeditiously report any problems in Project development to the Agency.

(3) Once construction is completed, the Lender must provide the Agency with:

(i) A copy of all required material building permits, with sign-offs;

(ii) Notice of Completion or an Agency approved equivalent; and

(iii) Final accounting of sources and uses of all Project funds.

§§ 4279.257–4279.258 [Reserved]

§ 4279.259 Borrower responsibilities.

(a) *Federal, State, and local regulations.* Borrowers must comply with all Federal, State, and local laws and rules that are in existence and that affect the Project including, but not limited to:

(1) Land use zoning;

(2) Health, safety, and sanitation standards as well as design and installation standards; and

(3) Protection of the environment and consumer affairs.

(b) *Permits, agreements, and licenses.* Borrowers must obtain all permits, agreements, and licenses that are applicable to the Project.

(c) *Insurance.* The Borrower is responsible for maintaining all hazard, flood, liability, worker compensation, and personal life insurance, when required, for the Project.

(d) *Access to Borrower's records.* Except as provided by law, upon request by the Agency, the Borrower will permit representatives of the Agency (or other Federal agencies as authorized by the Agency) to inspect and make copies of any of the records of the Borrower's Project. Such inspection and copying may be made during regular office hours of the Borrower or at any other time agreed upon between the Borrower and the Agency.

(e) *Access to the Project.* The Borrower must allow the Agency access to the Project and its performance information until the loan is repaid in full and permit periodic inspections of the

Project by a representative of the Agency.

APPLICATIONS

§ 4279.260 Guarantee applications—general.

(a) *Application submittal.* (1) For each guarantee request, the Lender or the Borrower must submit to the Agency a non-binding letter of intent to apply for loan guarantee not less than 30 calendar days prior to the application deadline as provided in paragraph (b) of this section. The letter must identify the Borrower, the Lender and Project sponsors; describe the Project and Project location; describe the proposed feedstock, primary technologies of the facility and primary products produced; estimate the Total Project Cost and amount of loan requested; and any additional information specified in the annual FEDERAL REGISTER notice, if any. Applications that do not submit a letter of intent may be accepted by the Agency at the Agency's discretion.

(2) For each guarantee request, the Lender must submit to the Agency an application that is in conformance with § 4279.261. The methods of application submittal will be specified in the annual FEDERAL REGISTER notice.

(b) *Application deadline.* Unless otherwise specified by the Agency in a notice published in the FEDERAL REGISTER, application deadlines are October 1 and April 1 of each year. Complete applications must be received by the Agency on or before April 1 of each year to be considered for funding for that fiscal year. If the application deadline falls on a weekend or an observed holiday, the deadline will be the next Federal business day. The deadlines in this paragraph (b) relate to Phase 1 applications in accordance with § 4279.261.

(c) *Incomplete applications.* Incomplete applications will be rejected. Lenders will be informed of the elements that made the application incomplete. If a resubmitted application is received by the applicable application deadline, the Agency will reconsider the application.

(d) *Application withdrawal.* During the period between the submission of an application and closing, the Lender must notify the Agency, in writing, if the Project is no longer viable or the Borrower is no longer requesting financial assistance for the Project. When the Lender so notifies the Agency, the Agency will rescind the selection or withdraw the application.

(e) *Application revisions and updates.* During the period between the submission of an application and closing, the Lender must notify the Agency, in writing, of revisions to the Project including but not limited to revisions to technology utilized in the Project, feedstock, Off-Take Agreements, ownership structure, and Project financing. The Agency may require submittal of updated application and supporting materials. The Agency will complete the application priority scoring in accordance with § 4279.266 based on the application materials received by the Agency prior to the application deadline. Subsequent changes to an application that result in a lower priority score could result in the Agency discontinuing processing of the application.

§ 4279.261 Application for loan guarantee content.

Lenders must submit a complete application for each loan guarantee sought under this subpart. Components of an application are submitted in two phases. Phase I applications, which are the initial application submissions, must contain the information specified in paragraphs (a) through (j) of this section, organized pursuant to a table of contents in a chapter format. Phase 2 application components may be submitted after the Agency invites the Lender and Borrower to make the phase 2 submittal and must contain the information specified in paragraph (k) of this section.

(a) *Project Summary*. Provide a concise summary of the proposed Project and application information, Project purpose and need, and Project goals, including the following:

(1) *Title.* Provide a descriptive title of the Project.

(2) *Borrower eligibility*. Describe how the Borrower meets the eligibility criteria identified in § 4279.209.

(3) *Project eligibility*. Describe how the Project meets the eligibility criteria

identified in § 4279.210. Clearly state whether the application is for the construction and development of a Biorefinery or for the Retrofitting of an existing facility. Additional Project description information will be needed later in the application process.

(4) *Project funds.* Submit a Spreadsheet identifying sources, amounts, and availability of funds. The Spreadsheet must also include a directory of funds source contact information. Attach any applications, correspondence, or other written communication between Borrower and fund source.

(5) *Project timeline.* A projected timeline detailing the timeline commencing with the loan application phase 1, including the loan application phase 2, final Project planning and engineering, obtaining required permits, loan closing, plant construction, commissioning and ramp up through stabilized state of operation.

(b) *Application form.* Form RD 4279–1 or other Agency-approved application form if specified in a FEDERAL REGISTER notice.

(c) *Financial statements.* (1) The most recent audited financial statements of the Borrower, unless alternative financial statements are authorized by the Agency; and

(2) A current (not more than 90 days old) balance sheet and a pro forma balance sheet at startup.

(d) *Financial model.* Submit a financial model for the Project in the form of a financial modeling software program in an active electronic format which includes, but is not limited to, a projected Project budget and projected balance sheets, income and expense statements, cash flow statements, and Working Capital and capital expense projections for not less than the term of the loan. The projections must be displayed in a monthly format for a period of three years after stabilized operation and annually thereafter. Projections should be supported by a list of assumptions showing the basis for the projections. Depending on the complexity of the Project and the financial condition of the Borrower, the Agency may require additional financial statements and additional related information.

(e) *Feasibility Study.* The Feasibility Study should be prepared by a qualified, independent third party using information gathered from other qualified parties and documents such as: independent engineer reports, marketing studies, feedstock studies, business plans and financial statements prepared by a certified public accountant. Any information used to prepare the Feasibility Study should be submitted as attachments. Elements in an acceptable Feasibility Study include, but are not limited to, the elements outlined in Table 1 of this section.

TABLE 1—FEASIBILITY STUDY COMPONENTS

(A) Executive summary

- Introduction/Project Overview (Brief general overview of Project location, size, etc.).
- Economic feasibility determination.
- Market feasibility determination.
- Technical feasibility determination.
- Financial feasibility determination.
- Management feasibility determination.
- Recommendations for implementation.

(B) Economic Feasibility

- Description of feedstock and confirmation that the feedstock is not used elsewhere in the production of Advanced Biofuels or Biobased Products including Renewable Chemicals.
- Feedstock:
  - Feedstock source management,
  - Estimates of feedstock volumes and costs,
  - Collection, pre-treatment, transportation, and storage, and
  - Feedstock risks.

TABLE 1—FEASIBILITY STUDY COMPONENTS—Continued

Documentation that woody biomass feedstock from National Forest system lands or public lands cannot be used for a higher-value product.
Impacts on any other similar Biorefineries in the area in which the Borrower proposes to place the Project, defined as the area that will supply the feedstock to the proposed Project, if any.
Impacts on existing manufacturing plants or other facilities that use similar feedstock if the Borrower's proposed production technology is adopted.
Projected impact on resource conservation, public health, and the environment.
Information regarding Project site.
Availability of trained or trainable labor.
Availability of infrastructure, including utilities, and rail, air and road service to the site.
Overall economic impact of the Project, including direct jobs, indirect jobs, additional markets created for agricultural and forestry products and agricultural waste material and the potential for Rural economic development.
Feasibility/plans of Project to work with producer associations or cooperatives and the estimated amount of annual feedstock purchased from or sold to producer associations and cooperatives.

(C) Market Feasibility

Information on the sales organization and management.
Nature and extent of market and market area.
Marketing plans for sale of projected output—principal products and Byproducts.
Extent of competition, including other similar facilities in the market area.
Commitments from purchasers of off-take—principal products and secondary products, degree of commitment, duration or terms of Off-Take Agreements, and financial strength of counterparties.
Risks related to the industry, including:
- Industry status;
- Specific market risks; and
- Competitive threats and advantages.

(D) Technical Feasibility

Suitability of the selected site for the intended use.
Scale of development for which the process technology has been proven (*i.e.,* pilot, demonstration, or Semi-Work Scale Facility). Provide results from pilot, demonstration, or Semi-Work Scale Facilities that prove that the technology proposed to be used is feasible and stands a good chance of being successful. The proposed technology must meet the definition of Eligible technology.
The degree of integration of all processes should be detailed and a summary of any integrated demonstration unit test results should be submitted.
Specific volume produced from the technology of the process (expressed either as volume of feedstock processed [tons per unit of time] or as product [gallons per unit of time]).
Identification and estimation of Project operation and development costs. Specify the level of accuracy of these estimates and the assumptions on which these estimates have been based. Detailed analysis of Project costs including: Project management and professional services; resource assessment; Project design and permitting; land agreements and site preparation; equipment requirements and system installation; startup and shakedown; and warranties, insurance, financing and operation and maintenance costs.
A projected timeline detailing Borrower plans from the time of loan application through plant construction, commissioning and ramp up should be included.
Ability of the proposed system to be commercially replicated.
Risks related to:
- Construction of the Biorefinery;
- Production of the Advanced Biofuel and Biobased Product including Renewable Chemical;
- Regulation and governmental action;

TABLE 1—FEASIBILITY STUDY COMPONENTS—Continued

Design-related factors that may affect Project success; and Technology scale up risk.
(E) Financial Feasibility
Reliability of the financial projections and the assumptions on which the financial statements are based, including all sources and uses of Project capital, private or public Federal and non-Federal funds. Provide detailed analysis and description of projected balance sheets, income and expense statements, and cash flow statements over the useful life of the Project.
A detailed description of and the degree financial feasibility is dependent on: Investment incentives; Productivity incentives; Loans and grants; and Other Project authorities RINs value, tax credits, other credits, and subsidies that affect the Project.
Any constraints or limitations in the financial projections.
Ability of the business to achieve the projected income and cash flow.
Assessment of the cost accounting system.
Availability of short-term credit or other means to meet seasonal business costs.
Adequacy of raw materials and supplies.
Sensitivity analysis, including feedstock and energy costs and product and Byproduct prices.
Risks related to: The Project; Borrower financing plan; The operational units; and Tax issues.
(F) Management Feasibility
Borrower and/or management's previous experience concerning: Production of Advanced Biofuel, and Biobased Product including Renewable Chemicals, as applicable; Acquisition of feedstock; Marketing and sale of off-take; and The receipt of Federal financial assistance, including amount of funding, date received, purpose, and outcome.
Management plan for procurement of feedstock and labor, marketing of the off-take, and management succession.
Risks related to: Borrower as a company (*e.g.,* development-stage); Conflicts of Interest; and Management strengths and weaknesses.
(G) Qualifications
A resume or statement of qualifications of the author and contributors of the Feasibility Study, including prior experience, must be submitted.

(f) *Business Plan.* The Lender must submit the Borrower's business plan that includes the information specified in paragraphs (f)(1) through (10) of this section. Any or all of this information may be omitted if it is included in the Feasibility Study specified in paragraph (e) of this section.

(1) Describe or provide an organizational chart of the Borrower's ownership structure and affiliation with other entities, if any. The names and a description of the relationship of the Borrower's parent, Affiliates, and subsidiaries. Identify local ownership.

(2) The Borrower's succession planning, addressing both ownership and management.

(3) The Borrower's experience and management experience.

(4) The products and services to be provided and the Borrower's business strategy.

(5) Possible vendors and models of major system components.

(6) The availability of the resources (*e.g.*, labor, raw materials, supplies) necessary to provide the planned products and services.

(7) Site location and its relation to product distribution (*e.g.*, rail lines or highways) and any land use or other permits necessary to operate the facility.

(8) The market for the product and its competition, including any and all competitive threats and advantages.

(9) Projected balance sheets, income and expense statements, and cash flow statements for a period of not less than three years of stabilized operation.

(10) A description of the proposed use of funds.

(g) *Scoring information.* The application must contain information in a format that is responsive to the scoring criteria specified in §4279.266.

(h) *Intergovernmental consultation.* Intergovernmental consultation comments in accordance with 2 CFR part 415, subpart C or successor regulation.

(i) *Unique Entity Identifier (UEI).* For Borrowers other than individuals, a UEI, which can be obtained online at *https://sam.gov/.*

(j) *Other information.* Any other information determined by the Agency to be necessary to evaluate the application.

(k) *Phase 2 application contents.* (1) Updates, as appropriate, to contents of application materials submitted in application phase 1.

(2) An appraisal conducted as specified under §4279.244.

(3) A proposed Loan Agreement or a sample Loan Agreement with an attached list of the proposed Loan Agreement provisions as specified in paragraphs (k)(3)(i) through (ix) of this section.

(i) Prohibition against assuming liabilities or obligations of others.

(ii) Restriction on dividend payments.

(iii) Limitation on the purchase or sale of equipment and fixed assets.

(iv) Limitation on compensation of officers and owners.

(v) Minimum Working Capital or current ratio requirement.

(vi) Maximum debt-to-net worth ratio.

(vii) Restrictions concerning consolidations, mergers, or other circumstances.

(viii) Limitations on selling the business without the concurrence of the Lender.

(ix) Repayment and amortization of the loan.

(4) Environmental documentation in accordance with 7 CFR part 1970.

(5) Under the direction of the Agency, an evaluation and rating of the total Project's indebtedness, without consideration for a government guarantee, from a nationally-recognized statistical rating organization (NRSRO), as defined by the U.S. Security and Exchange Commission, for all Projects with total Eligible Project Costs of $25 million or more unless as otherwise specified by the Agency in a notice published in the FEDERAL REGISTER. The evaluation and rating must be in the form of an indicative private rating, private credit analysis, or comparable analysis report and include a rating in accordance with the NRSRO's credit rating scales and include a recovery analysis. An updated rating may be required at the Agency's discretion if changes are subsequently made to the Project including changes to any contracts and agreements or changes to loan terms and conditions.

(6) Lender's analysis and credit evaluation that conforms to §4279.215 and must include the information specified in paragraphs (k)(6)(i) and (ii) of this section.

(i) The credit reports of the Borrower, its principals, and any parent, Affiliate, or subsidiary as follows:

(A) Unless otherwise determined by the Agency, a personal credit report from an Agency-approved credit reporting company for individuals who are key employees of the Borrower, as determined by the Agency, and for individuals owning 20 percent or more interest in the Borrower or any owner with more than 10 percent ownership interest in the Borrower if there is no owner with more than 20 percent ownership interest in the Borrower, except

for when the Borrower is a corporation listed on a major stock exchange; and

(B) Commercial credit reports on the Borrower and any parent, Affiliate, and subsidiary firms.

(ii) Financial and sensitivity review using a financial modeling software program or a banking industry software analysis program with industry standards, when appropriate.

(7) Whether the Loan Note Guarantee is requested prior to construction or after completion of construction of the Project.

(8) The technical assessment must be completed by a qualified independent engineer and must demonstrate that the design, procurement, installation, startup, operation and maintenance of the Project will permit it to operate or perform as specified over its useful life in a reliable and a cost effective manner, and must identify what the useful life of the Project is. The technical assessment must also identify all necessary Project agreements, demonstrate that those agreements will be in place at or before the time of loan closing, and demonstrate that necessary Project equipment and services will be available over the useful life of the Project. The technical assessment must be based upon verifiable data and contain sufficient information and analysis so that a determination can be made on the technical feasibility of achieving the levels of income or production that are projected in the financial statements. All technical information provided must follow the format specified in paragraphs (k)(8)(i) through (ix) of this section. Supporting information may be submitted in other formats. Design drawings and process flow charts are required as exhibits. A discussion of a topic identified in paragraphs (k)(8)(i) through (ix) of this section is not necessary if the topic is not applicable to the specific Project. Questions identified in the Agency's technical review of the Project must be answered to the Agency's satisfaction before the application will be approved. All Projects require the services of an independent, third-party professional engineer.

(i) *Qualifications of Project team.* The Project team will vary according to the complexity and scale of the Project. The Project team must have demonstrated expertise in similar Advanced Biofuel and Biobased Product including Renewable Chemical, as applicable, technology development, engineering, installation, and maintenance. Identify Borrower's, including its principals', prior experience in bioenergy projects and the receipt of Federal financial assistance, including the amount of funding, date received, purpose, and outcome, for such projects. Authoritative evidence that Project team service providers have the necessary professional credentials or relevant experience to perform the required services for the development, construction, and Retrofitting, as applicable, of technology for producing Advanced Biofuels and Biobased Products including Renewable Chemicals, if applicable, must be provided. In addition, authoritative evidence that vendors of proprietary components can provide necessary equipment and spare parts for the facility to operate over its useful life must be provided. The application must:

(A) Discuss the proposed Project delivery method. Such methods include a design-bid-build method, where a separate engineering firm may design the Project and prepare a request for bids and the successful bidder constructs the Project at the Borrower's risk, and a design -build method, often referred to as ''turnkey,'' where the Borrower establishes the specifications for the Project and secures the services of a developer who will design and build the Project at the developer's risk;

(B) Discuss the manufacturers of major components of Advanced Biofuels and Biobased Product including Renewable Chemical technology equipment being considered in terms of the length of time in business and the number of units installed at the capacity and scale being considered;

(C) Discuss the Project team members' qualifications for engineering, designing, and installing similar projects, including any relevant certifications by recognized organizations or bodies. Provide a list of the same or similar projects designed, installed, or supplied and currently operating, with references if available; and

(D) Describe the facility operator's qualifications and experience for servicing, operating, and maintaining such equipment or projects. Provide a list of the same or similar projects designed, installed, or supplied and currently operating, with references if available.

(ii) *Agreements and permits.* The application must identify all necessary agreements and permits required for the Project and the status and schedule for securing those agreements and permits, including the items specified in paragraphs (k)(8)(ii)(A) through (F) of this section.

(A) All facilities funded under this subpart must be installed in accordance with applicable local, State, and national codes and applicable local, State, and Federal regulations. Identify zoning and code requirements and necessary permits and the schedule for meeting those requirements and securing those permits.

(B) Identify licenses where required and the schedule for obtaining those licenses.

(C) Identify land use agreements required for the Project, the schedule for securing those agreements, and the term of those agreements.

(D) Identify any permits or agreements required for solid, liquid, and gaseous emissions or effluents and the schedule for securing those permits and agreements.

(E) Identify available component warranties for the specific Project location and size.

(F) Identify all environmental issues, including environmental compliance issues, associated with the Project.

(iii) *Resource assessment.* The application must provide adequate and appropriate evidence of the availability of the feedstocks required for the facility to operate as designed. Indicate the type and quantity of the feedstock, and discuss storage of the feedstock, where applicable, and competing uses for the feedstock. Indicate shipping or receiving methods and required infrastructure for shipping, and other appropriate transportation mechanisms including methods and systems to prevent the spread of invasive species. For proposed Projects with an established resource, provide a summary of the resource.

(iv) *Design and engineering.* The application must provide authoritative evidence that the facility will be designed and engineered so as to meet its intended purposes, will ensure public safety, and will comply with applicable laws, regulations, agreements, permits, codes, and standards. Projects shall be engineered by a qualified entity. Each facility must be engineered as a complete, integrated facility. The engineering must be comprehensive, including site selection, systems and component selection, and systems monitoring equipment. All Projects funded under this subpart must be constructed by a qualified entity.

(A) The application must include a concise but complete description of the Project, including location of the Project; resource characteristics, including the kind and amount of feedstocks; facility specifications; kind, amount, and quality of the output; and monitoring equipment. Address performance on a monthly and annual basis. Describe the uses of or the market for the Advanced Biofuels and Biobased Product including Renewable Chemical produced by the facility. Discuss the impact of reduced or interrupted feedstock availability on the facility's operations.

(B) The application must include:

(*1*) A description of the Project site that addresses issues such as site access, foundations, and backup equipment when applicable;

(*2*) Environmental documentation in accordance with 7 CFR part 1970.

(*3*) Identification of any unique construction and installation issues.

(C) Sites must be controlled by the eligible Borrower for at least the financing term of the Loan Note Guarantee.

(v) *Project development schedule.* The application must describe each significant task, its beginning and end, and its relationship to the time needed to initiate and carry the Project through startup and shakedown. Provide a detailed description of the Project timeline including resource assessment, Project and site design, permits and agreements, equipment procurement, and Project construction from excavation through startup and shakedown.

(vi) *Equipment procurement*. The application must demonstrate that equipment required by the facility is available and can be procured and delivered within the proposed Project development schedule. Projects funded under this subpart may be constructed of components manufactured in more than one location. Provide a description of any unique equipment procurement issues such as scheduling and timing of component manufacture and delivery, ordering, warranties, shipping, receiving, and on-site storage or inventory.

(vii) *Equipment installation*. The application must provide a full description of the management of and plan for site development and systems installation, details regarding the scheduling of major installation equipment needed for Project construction, and a description of the startup and shakedown specification and process and the conditions required for startup and shakedown for each equipment item individually and for the facility as a whole.

(viii) *Operations and maintenance*. The application must provide the operations and maintenance requirements of the facility necessary for the facility to operate as designed over its useful life. The application must also include:

(A) Information regarding available facility and component warranties and availability of spare parts;

(B) A description of the routine operations and maintenance requirements of the proposed facility, including maintenance schedules for the mechanical, piping, and electrical systems and system monitoring and control requirements, as well as provision of information that supports expected useful life of the facility and timing of major component replacement or rebuilds;

(C) A discussion of the costs and labor associated with operating and maintaining the facility and plans for in-sourcing or outsourcing. A description of the opportunities for technology transfer for long-term Project operations and maintenance by a local entity or owner/operator; and

(D) Provision and discussion of the risk management plan for handling large, unanticipated failures of major components.

(ix) *Decommissioning*. A description of the decommissioning process, when the Project must be uninstalled or removed. A description of any issues, requirements, and costs for removal and disposal of the facility.

[80 FR 36425, June 24, 2015, as amended at 81 FR 11051, Mar. 2, 2016; 89 FR 34959, May 1, 2024]

§§ 4279.262–4279.264 [Reserved]

§ 4279.265 Guarantee application processing.

(a) *Eligibility determination*. Upon receipt of a complete Phase 1 application, the Agency will determine if the Borrower, Lender, and Project are eligible and if the Project is technically and economically feasible, as provided under paragraph (b) of this section.

(1) If the Borrower, Lender, or the Project is determined to be ineligible for any reason, the Agency will inform the Lender, in writing, of the reasons. No further evaluation of the application will occur.

(2) If the Agency determines it is unable to guarantee the loan, the Agency will inform the Lender in writing. Such notification will include the reasons for denial of the guarantee.

(b) *Technical and economic feasibility*. (1) The Agency's determination of a Project's technical and economic feasibility will be based on:

(i) The Agency's analysis of the technical report and Feasibility Study submitted in the application conducted by qualified independent third parties;

(ii) The Lenders credit evaluation; and

(iii) Other application materials.

(2) The Agency's determination of a Project's technical feasibility will be based on the technical report. In addition, prior to the issuance of the Conditional Commitment for a Project utilizing technology that does not have a history of successful utilization in a Commercial-scale operation of a Biorefinery that produces an Advanced biofuel, Renewable chemical, or Biobased product, evidence demonstrating 120 days of continuous, steady state production from an integrated demonstration unit must be provided by the Borrower to the Lender

and the Agency for review and determination of technical feasibility. Authoritative demonstration campaign results must be provided in 30-day intervals. The integrated demonstration unit must prove out the Project's ability to utilize Project-relevant biomass and produce Advanced biofuel at a yield and quality consistent with the design basis of the Project. The Borrower must provide to the Agency, for review and approval, sufficient information on the integrated campaign design so as to ensure operation duration, quality, and quantity specifications are met and incorporated into the final design criteria for the commercial facility.

(3) Projects determined by the Agency to be without technical or economic feasibility will not be selected for funding.

[80 FR 36425, June 24, 2015, as amended at 85 FR 29596, May 18, 2020]

§ 4279.266 Guarantee application scoring.

Using the evaluation criteria identified in this section, the Agency will score each eligible Biorefinery application that meets the minimum requirements for technical and economic feasibility. A maximum of 125 points is possible. The Agency will award points based on its review and analysis of all application materials. Clarifications for the scoring on Biobased Product Manufacturing applications will be made available by a notice published in the FEDERAL REGISTER.

(a) Whether the Borrower has established a market for the Advanced Biofuel and the Biobased Products including Renewable Chemicals, as applicable. A maximum of 20 points can be awarded. Points to be awarded will be determined as follows:

(1) *Degree of commitment of Off-Take Agreements.* A maximum of 6 points will be awarded.

(i) If the Borrower has signed Off-Take Agreements for purchase for greater than 50 percent of the dollar value of off-take, 6 points will be awarded.

(ii) If the Borrower has signed letters of intent to enter into Off-Take Agreements, or comparable documentation, for the purchase for greater than 50 percent of the dollar value of off-take, or combination of signed contracts or agreements and letters of intent or comparable documentation, 4 points will be awarded.

(iii) If the Borrower has signed letters of interest to enter into Off-Take Agreements, or comparable documentation, for the purchase for greater than 50 percent of the dollar value of off-take, or combination of signed Off-Take Agreements, letters of intent, letters of intent or comparable documentation, 2 points will be awarded.

(2) *Duration of Off-Take Agreements.* A maximum of 6 points will be awarded.

(i) If the Borrower commits to enter into Off-Take Agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of off-take for the period not less than the loan term, 6 points will be awarded.

(ii) If the Borrower commits to enter into Off-Take Agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of off-take for the period not less than five years but less than the term of the loan, 4 points will be awarded.

(iii) If the Borrower commits to enter into Off-Take Agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of off-take for the period not less than one year but less than five years, 2 points will be awarded.

(3) *Financial strength of the off-take counterparty.* A maximum of 4 points will be awarded.

(i) If the Borrower commits to enter into Off-Take Agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of off-take with an off-take counterparty with a corporate credit rating not less than AA, Aa2, or equivalent, 4 points will be awarded.

(ii) If the Borrower commits to enter into Off-Take Agreements prior to loan closing for purchase for greater than or equal to 50 percent of the dollar value of off-take with an off-take counterparty with a corporate credit rating less than AA, Aa2, or equivalent, but not less than A-, or A3, or equivalent, 2 points will be awarded.

(iii) If the Borrower commits to enter into Off-Take Agreements prior to loan closing for purchase for greater than or

equal to 50 percent of the dollar value of off-take with an off-take counterparty with a corporate credit rating less than A-, or A3, or equivalent, but not less than BBB-, or Baa3, or equivalent, 1 point will be awarded.

(4) *Revenue dependency on tax credits, carbon credits, or other Federal or State subsidies.* A maximum of 4 points will be awarded.

(i) If total of revenues from tax credits, carbon credits, or other Federal or State subsidies is less than or equal to 10 percent of the Project's total revenues on an annual basis, in the Borrower's base case of financial projections, 4 points will be awarded.

(ii) If total of revenues from tax credits, carbon credits, or other Federal or State subsidies is greater than 10 percent but less than or equal to 20 percent of the Project's total revenues on an annual basis, in the Borrower's base case of financial projections, 2 points will be awarded.

(iii) If total of revenues from tax credits, carbon credits, or other Federal or State subsidies is greater than 20 percent but less than or equal to 30 percent of the Project's total revenues on an annual basis, in the Borrower's base case of financial projections, 1 point will be awarded.

(b) Whether the area in which the Borrower proposes to place the Project, defined as the area that will supply the feedstock to the proposed Project, has any other similar facilities. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If the area that will supply the feedstock to the proposed Project does not have any other similar facilities, 5 points will be awarded.

(2) If there are other similar facilities located within the area that will supply the feedstock to the proposed Project, 0 points will be awarded.

(c) Whether the Borrower is proposing to use a feedstock or biobased output of Biorefineries not previously used in the production of Advanced Biofuels or Biobased Products including Renewable Chemicals. A maximum of 10 points can be awarded. Points to be awarded will be determined as follows:

(1) If the Borrower proposes to use a feedstock previously used in the production of Advanced Biofuels and Biobased Product including Renewable Chemicals in a commercial facility, 0 points will be awarded.

(2) If the Borrower proposes to use a feedstock not previously used in production of Advanced Biofuels and Biobased Product including Renewable Chemicals in a commercial facility, 10 points will be awarded.

(d) Whether the Borrower is proposing to work with producer associations or cooperatives. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If at least 50 percent of the dollar value of feedstock to be used by the proposed Project will be supplied by producer associations and cooperatives, 5 points will be awarded.

(2) If at least 30 percent of the dollar value of feedstock to be used by the proposed Project will be supplied by producer associations and cooperatives, 3 points will be awarded.

(e) The level of financial participation by the Borrower, including support from non-Federal government sources and private sources. A maximum of 20 points can be awarded. Points to be awarded will be determined as follows:

(1) If the sum of the loan amount requested and other direct Federal funding is less than or equal to 50 percent of total Eligible Project Cost, 20 points will be awarded.

(2) If the sum of the loan amount requested and other direct Federal funding is greater than 50 percent but less than or equal to 55 percent of total Eligible Project Cost, 16 points will be awarded.

(3) If the sum of the loan amount requested and other direct Federal funding is greater than 55 percent but less than or equal to 60 percent of total Eligible Project Cost, 12 points will be awarded.

(4) If the sum of the loan amount and other direct Federal funding is greater than 60 percent but less than or equal to 65 percent of total Eligible Project Cost, 8 points will be awarded.

(5) If the sum of the loan amount and other direct Federal funding is greater than 65 percent but less than or equal

to 70 percent of total Eligible Project Cost, 4 points will be awarded.

(f) Whether the Borrower has established that the adoption of the process proposed in the application will have a positive effect on three impact areas: resource conservation (*e.g.*, water, soil, forest), public health (*e.g.*, potable water, air quality), and the environment (*e.g.*, compliance with an applicable renewable fuel standard, greenhouse gases, emissions, particulate matter). A maximum of 10 points can be awarded. Points to be awarded will be determined as follows:

(1) If process adoption will have a positive impact on any one of the three impact areas (resource conservation, public health, or the environment), 3 points will be awarded.

(2) If process adoption will have a positive impact on two of the three impact areas, 6 points will be awarded.

(3) If process adoption will have a positive impact on all three impact areas, 10 points will be awarded.

(4) If the Project proposes to use a feedstock that can be used for human or animal consumption, 5 points will be deducted from the score.

(g) Whether the Borrower can establish that, if adopted, the technology proposed in the application will not have any economically significant negative impacts on existing manufacturing plants or other facilities that use similar feedstocks or biobased outputs of Biorefineries. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If the Borrower has failed to establish, through an independent third-party Feasibility Study, that the production technology proposed in the application, if adopted, will not have any economically significant negative impacts on existing manufacturing plants or other facilities that use similar feedstocks, 0 points will be awarded.

(2) If the Borrower has established, through an independent third-party Feasibility Study, that the production technology proposed in the application, if adopted, will not have any economically significant negative impacts on existing manufacturing plants or other facilities that use similar feedstocks, 5 points will be awarded.

(3) If the feedstock is wood pellets, no points will be awarded under this criterion.

(h) The potential for Rural economic development. A maximum of 20 points will be awarded. Points to be awarded will be determined as follows:

(1) If the Project is located in a Rural Area, 5 points will be awarded.

(2) If the Project creates jobs through direct employment with an average wage that exceeds the County median household wages where the Project will be located, 5 points will be awarded.

(3) If the majority of feedstock to be utilized by the Project, on an annual basis, is harvested from the land, 10 points will be awarded.

(i) The level of local ownership of the facility proposed in the application. A maximum of 5 points can be awarded. Points to be awarded will be determined as follows:

(1) If Local Owners have an ownership interest in the facility of more than 20 percent but less than or equal to 50 percent, 3 points will be awarded.

(2) If Local Owners have an ownership interest in the facility of more than 50 percent, 5 points will be awarded.

(j) Whether the Project can be replicated. A maximum of 10 points can be awarded. Points to be awarded will be determined as follows:

(1) If the Project can be commercially replicated regionally (*e.g.*, Northeast, Southwest, etc.), 5 points will be awarded.

(2) If the Project can be commercially replicated nationally, 10 points will be awarded.

(k) If the Project uses a particular technology, system, or process that is not currently operating at Commercial Scale as of October 1 of the fiscal year for which the funding is available, 5 points will be awarded.

(l) The Administrator can award up to a maximum of 10 bonus points:

(1) To ensure, to the extent practical, there is diversity in the types of Projects approved for loan guarantees to ensure as wide a range as possible technologies, products, and approaches are assisted in the Program portfolio; and

(2) To applications that promote partnerships and other activities that

assist in the development of new and emerging technologies for the development of Advanced Biofuels and Biobased Products including Renewable Chemicals, so as to, as applicable, increase the energy independence of the United States or reduce our dependence on petroleum-based chemicals and products; promote resource conservation, public health, and the environment; diversify markets for agricultural and forestry products and agriculture waste material; and create jobs and enhance the economic development of the Rural economy. These partnerships and other activities will be identified in a FEDERAL REGISTER notice each fiscal year.

§ 4279.267 Selecting guarantee applications.

(a) *Allocation of budget authority.* In administering this Program's budgetary authority each fiscal year, the Agency will allocate up to, but no more, than 50 percent of its budgetary authority, excluding funding for Biobased Product Manufacturing Projects, to fund applications received by the end of the first application window, including those carried over from the previous application period. Any funds not obligated to support applications submitted by the end of the first application window will be available to support applications received by the end of the second window, including those carried over from the previous application period. The Agency, therefore, will have a minimum of 50 percent of each fiscal year's budgetary authority for this Program available to support applications received by the end of the second application window. Administrative procedures for the funding of Biobased Product Manufacturing Projects will be made available by a Notice published in the FEDERAL REGISTER.

(b) *Ranking of applications.* The Agency will rank all complete eligible applications to create a priority list of scored Phase 1 applications for the Program. Unless otherwise specified in a notice published in the FEDERAL REGISTER, the Agency will rank applications by approximately October 31 for complete and eligible applications received on or before October 1 and by approximately April 30 for complete and eligible applications received on or before April 1. All Phase 1 applications received on or before October 1 and April 1 will be ranked by the Agency and will be competed against the other applications received on or before such date.

(c) *Selection of applications for funding.* The Agency will invite applicants to submit Phase 2 applications based on the criteria specified in paragraphs (c)(1) through (3) of this section. The Agency will notify, in writing, Lenders whose applications have been selected.

(1) *Ranking.* The Agency will consider the score an application has received compared to the scores of other applications in the priority list created under paragraph (b) of this section, with highest scoring applications receiving first consideration for invitation to the phase 2 submittal. A minimum score of 55 points is required in order to be considered for a guarantee.

(2) *Availability of budgetary authority.* The Agency will consider the size of the request relative to the budgetary authority that remains available to the Program during the fiscal year.

(i) If there is insufficient budgetary authority during a particular funding period to select a higher scoring application, the Agency may elect to select the next highest scoring application for further processing. Before this occurs, the Agency will provide the Borrower of the higher scoring application the opportunity to reduce the amount of its request to the amount of budgetary authority available. If the Borrower agrees to lower its request, it must certify that the purposes of the Project can be met, and the Agency must determine the Project is financially feasible at the lower amount.

(ii) If the amount of funding required is greater than 25 percent of the Program's outstanding budgetary authority, the Agency may elect to select the next highest scoring application for further processing, provided the higher scoring Borrower is notified of this action and given an opportunity to revise their application and resubmit it for an amount less than or equal to 25 percent of the Program's outstanding budgetary authority.

(3) *Availability of other funding sources.* If other financial assistance is needed for the Project, the Agency will consider the availability of other funding sources. If the Lender cannot demonstrate that funds from these sources are available at the time of selecting applications for funding or potential funding, the Agency may instead select the next highest scoring application for further processing ahead of the higher scoring application.

(d) *Ranked applications not selected for phase 2.* A ranked application that is not invited to submit phase 2 in the application cycle in which it was submitted will be carried forward one additional application cycle, which may be in the next fiscal year. The Agency will notify the Lender in writing.

§§ 4279.268–4279.277 [Reserved]

§ 4279.278 Loan approval and obligating funds.

(a) Applications for loan guarantees may be approved as their Phase 2 applications are completed and approved. If an application has been selected for phase 2, but has not been approved because additional information is needed, the Agency will notify, in writing, the Lender of what information is needed, including a timeframe for the Lender to provide the information. If the Lender does not provide the information within the specified timeframe, the Agency will remove the application from further consideration and will so notify the Lender in writing.

(b) Upon approval of a loan guarantee application, the Agency will issue a Conditional Commitment to the Lender containing conditions under which a Loan Note Guarantee will be issued. The Agency will not issue a Conditional Commitment until the Agency has satisfactorily completed a Civil Rights Impact Analysis. The Conditional Commitment becomes null and void unless the conditions are accepted by the Lender and Borrower within 60 days from the date of issuance by USDA. If the conditions are not met or the Loan Note Guarantee is not issued by the Conditional Commitment expiration date, the Agency may extend the Conditional Commitment expiration date when requested by the Lender and only if there has been no Material Adverse Change in the Borrower's or Borrowers' financial condition since issuance of the Conditional Commitment.

(c) The Lender and Borrower may request changes to the Conditional Commitment. The Agency may negotiate with the Lender and the Borrower regarding any proposed changes to the Conditional Commitment. Any changes to the Conditional Commitment must be documented by written amendment to the Conditional Commitment. The changes must be for Good Cause and the Agency may deny, solely at is discretion, changes to the Conditional Commitment even if the change is otherwise in compliance with this subpart.

(d) The Borrower must comply with all Federal requirements then in effect for receiving Federal assistance.

§ 4279.279 Transfer of Lenders.

(a) The Agency may approve the substitution of a new eligible Lender in place of a former Lender who has been issued an outstanding Conditional Commitment when the Loan Note Guarantee has not yet been issued provided that there are no changes in the:

(1) Borrower's ownership or control, loan purposes, or scope of Project;

(2) Loan terms and conditions in the Conditional Commitment; and

(3) Loan Agreement.

(b) The Agency must determine that the new Lender is eligible in accordance with § 4279.208 prior to approving the substitution. The original Lender must provide the Agency with a letter stating the reasons it no longer desires to be a Lender for the Project. The substituted Lender must execute a new part B of Form 4279–1 and Lender's Agreement (unless a valid Lender's Agreement with the Agency already exists), and must complete a new Lender's analysis in accordance with § 4279.215. The new Lender may also be required to provide other updated application items outlined in § 4279.261(k).

§ 4279.280 Changes in Borrowers.

Any changes in Borrower ownership or organization prior to the issuance of the Loan Note Guarantee must meet the eligibility requirements of the Program and be approved by the Agency.

§ 4279.281 Conditions precedent to issuance of Loan Note Guarantee.

The Lender must not close the loan until all conditions of the Conditional Commitment are met or can be met. When loan closing plans are established, the Lender must notify the Agency in writing.

(a) Coincident with, or immediately after loan closing, the Lender must provide the following forms and documents to the Agency:

(1) An executed Lender's Agreement;

(2) Form RD 1980–19, ''Guaranteed Loan Closing Report,'' and appropriate guarantee fee;

(3) Copy of the executed Promissory Note(s);

(4) Copy of the executed Loan Agreement;

(5) Copy of the executed settlement statement and updated source and use statement including all Project funding;

(6) Original, executed Forms RD 4279–14, as appropriate;

(7) Borrower's loan closing balance sheet; and

(8) Any other documents required to comply with applicable law or required by the Conditional Commitment or the Agency.

(b) The Lender must provide their certification to each condition specified in paragraphs (b)(1) through (16) of this section. The Lender may rely on certain written materials (including but not limited to certifications, evaluations, appraisals, financial statements and other reports) to be provided by the Borrower or other qualified third parties (including, among others, one or more independent engineers, appraisers, accountants, attorneys, consultants or other experts.) If the Lender is unable to provide any of the certifications required under this section, the Lender must provide an explanation satisfactory to the Agency as to why the Lender is unable to provide the certification. The Lender can request the guarantee prior to construction, but must still certify to all conditions in paragraphs (b)(1) through (16) of this section.

(1) If required, hazard, flood, liability, worker compensation, and life insurance are in effect.

(2) All truth-in-lending and equal credit opportunity requirements have been met.

(3) The loan has been properly closed, and the required security instruments have been properly executed, or will be promptly obtained on any property that cannot be immediately secured under State law.

(4) The Borrower has or will have marketable title to the Collateral, subject to the guaranteed loan and to any other exceptions approved in writing by the Agency.

(5) The loan proceeds have been or will be disbursed for purposes and in amounts consistent with the Conditional Commitment and the application submitted to the Agency.

(6) When required, personal or corporate guarantees have been obtained in accordance with § 4279.245.

(7) All requirements of the Conditional Commitment have been met.

(8) Lien priorities are consistent with the requirements of the Conditional Commitment. No claims or liens of laborers, subcontractors, suppliers of machinery and equipment, materialmen, or other parties have been filed against the Collateral and no suits are pending or threatened that would adversely affect the Collateral when the security instruments are filed.

(9) There has been neither any Material Adverse Change in the Borrower's financial condition nor any other Material Adverse Change in the Borrower, for any reason, during the period of time from the Agency's issuance of the Conditional Commitment to issuance of the Loan Note Guarantee regardless of the cause or causes of the change and whether or not the change or causes of the change were within the Lender's or Borrower's control. The Lender must address any assumptions or reservations in this certification and must address all Material Adverse Changes of the Borrower, any parent, Affiliate, or subsidiary of the Borrower, and guarantors.

(10) Neither the Lender nor any of the Lender's officers has an ownership interest in the Borrower or is an officer or director of the Borrower, and neither the Borrower nor its officers, directors, stockholders, or other owners

have more than a 5 percent ownership interest in the Lender.

(11) The Loan Agreement includes all Borrower compliance measures identified in the Agency's environmental review process for avoiding or reducing adverse environmental impacts of the Project's construction or operation.

(12) For loans exceeding $150,000, the Lender has certified its compliance with the Anti-Lobby Act (18 U.S.C. 1913). Also, if any funds have been, or will be, paid to any Person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this commitment providing for the United States to guarantee a loan, the Lender must completely disclose such lobbying activities in accordance with 31 U.S.C. 1352.

(13) Where applicable, the Lender must certify that the Borrower has obtained:

(i) A legal opinion relative to the title to rights-of-way and easements. Lenders are responsible for ensuring that Borrowers have obtained valid, continuous, and adequate rights-of-way and easements needed for the construction, operation and maintenance of a facility; and

(ii) A title opinion or title insurance showing ownership of the land and all mortgages or other lien defects, restrictions, or encumbrances, if any. It is the responsibility of the Lender to ensure that the Borrower has obtained and recorded such releases, consents, or subordinations to such property rights from holders of outstanding liens or other instruments as may be necessary for the construction, operation and maintenance of the facility and to provide the required security. For example, when a site is for utility-type facilities (such as a gas distribution system) and the Lender and Borrower are able to obtain only a right-of-way or easement on such site rather than a fee simple title, such a title opinion must be provided.

(14) Each Borrower shall certify to the Lender that all laborers and mechanics employed by contractors or subcontractors in the performance of construction work financed in whole or in part with guaranteed loan funds under this subpart shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with 40 U.S.C. 3141 through 3144, 3146, and 3147. Awards under this subpart are further subject to the relevant regulations contained in Title 29 of the CFR.

(15) The Lender certifies that it has reviewed all contract documents and verified compliance with 40 U.S.C. 3141 through 3144, 3146, and 3147 and Title 29 of the CFR. The Lender will certify that the same process will be completed for all future contracts and any changes to existing contracts.

(16) The Lender certifies that the proposed facility complies with all Federal, State, and local laws and regulatory rules that are in existence and that affect the Project, the Borrower, or Lender activities.

(c) The Agency may, at its discretion, request copies of loan documents for its file.

(d) When the Agency is satisfied that all conditions for the guarantee have been met, the Agency will issue the Loan Note Guarantee(s) and the documents identified in paragraphs (d)(1) and (2) of this section, as appropriate.

(1) *Assignment Guarantee Agreement.* In the event the Lender uses the single Promissory Note option and assigns the guaranteed portion of the loan to a Holder, the Lender, Holder, and the Agency will execute the Assignment Guarantee Agreement.

(2) *Certificate of Incumbency.* If requested by the Lender, the Agency will provide the Lender with a certification on Form 4279–7, ''Certificate of Incumbency and Signature,'' of the signature and title of the Agency official who signs the Loan Note Guarantee, Lender's Agreement, and Assignment Guarantee Agreement.

§4279.282 [Reserved]

§4279.283 Refusal to execute Loan Note Guarantee.

If the Agency determines that it cannot execute the Loan Note Guarantee, the Agency will inform the Lender, in writing, of the reasons and give the Lender a reasonable period within

which to satisfy the objections. If the Lender satisfies the objections within the time allowed, the Agency will issue the Loan Note Guarantee. If the Lender requests additional time in writing and within the period allowed, the Agency may grant the request.

§§ 4279.284–4279.289 [Reserved]

§ 4279.290 Requirements after Project construction.

Once the Project has been constructed, the Lender must meet the requirements specified in paragraphs (a) and (b) of this section.

(a) Provide the Agency annual reports from the Borrower commencing the first full calendar year following the year in which Project construction was completed and continuing for the life of the guaranteed loan. The Borrower's reports will include, but not be limited to, the information specified in paragraphs (a)(1) through (8), as applicable, of this section.

(1) The actual amount of Advanced Biofuels, Biobased Products including Renewable Chemicals, and Byproducts produced.

(2) If applicable, documentation that identified health or sanitation problems have been solved.

(3) A summary of the cost of operating and maintaining the facility.

(4) A description of any maintenance or operational problems associated with the facility.

(5) Certification that the Project is and has been in compliance with all applicable State and Federal environmental laws and regulations.

(6) The number of jobs created.

(7) A description of the status of the Project's feedstock including, but not limited to, the feedstock being used, outstanding feedstock contracts, feedstock changes and interruptions, and quality of the feedstock.

(8) The results of the annual inspections conducted under paragraph (b) of this section.

(b) For the life of the guaranteed loan, conduct annual inspections.

§§ 4279.291–4279.299 [Reserved]

§ 4279.300 OMB control number.

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements contained in the subsequent interim rule have been submitted to the Office of Management and Budget (OMB) under OMB control number 0570–0065 for approval. A person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

PART 4280—LOANS AND GRANTS

Subpart A—Rural Economic Development Loan and Grant Programs

Sec.

4280.1 Purpose.
4280.2 Policy.
4280.3 Definitions.
4280.4–4280.12 [Reserved]
4280.13 Applicant eligibility.
4280.14 [Reserved]
4280.15 Ultimate Recipient Projects eligible for Rural Economic Development Loan funding.
4280.16 REDL and REDG Loan terms.
4280.17 Additional REDL terms.
4280.18 [Reserved]
4280.19 REDG Grants.
4280.20 [Reserved]
4280.21 Eligible REDG initial Ultimate Recipients and Projects.
4280.22 [Reserved]
4280.23 Requirements for lending from Revolving Loan Fund.
4280.24 Revolved funds.
4280.25 Revolving Loan Fund Plan.
4280.26 Administration and operation of the Revolving Loan Fund.
4280.27 Ineligible purposes.
4280.28 [Reserved]
4280.29 Supplemental financing required for the Ultimate Recipient Project.
4280.30 Restrictions on the use of REDL or REDG funds.
4280.31–4280.35 [Reserved]
4280.36 Other laws that contain compliance requirements for these Programs.
4280.37 Application forms and filing dates.
4280.38 Maximum amount of loans and Grants.
4280.39 Contents of an application.
4280.40 [Reserved]
4280.41 Environmental review of the application.
4280.42 Application evaluation and selection.
4280.43 Discretionary points.
4280.44 Limitation on the number of loans or Grants to an Intermediary.
4280.45–4280.46 [Reserved]
4280.47 Non-selection of applications.
4280.48 Post-selection period.
4280.49 [Reserved]
4280.50 Disbursement of Zero-Interest Loan funds.

4280.51–4280.52 [Reserved]
4280.53 Loan payments.
4280.54 Construction procurement requirements.
4280.55 Monitoring responsibilities.
4280.56 Submission of reports and audits.
4280.57–4280.61 [Reserved]
4280.62 Appeals.
4280.63 Exception authority.
4280.64–4280.99 [Reserved]
4280.100 OMB control number.

Subpart B—Rural Energy for America Program General

4280.101 Purpose.
4280.102 Organization of subpart.
4280.103 Definitions.
4280.104 Exception authority.
4280.105 Review or appeal rights.
4280.106 Conflict of interest.
4280.107 [Reserved]
4280.108 U.S. Department of Agriculture departmental regulations and laws that contain other compliance requirements.
4280.109 Ineligible applicants, grantees, and owners.
4280.110 General applicant, application, and funding provisions.
4280.111 Notifications.

RENEWABLE ENERGY SYSTEM AND ENERGY EFFICIENCY IMPROVEMENT GRANTS

4280.112 Applicant eligibility.
4280.113 Project eligibility.
4280.114 Ineligible projects.
4280.115 RES and EEI grant funding.
4280.116 Grant applications—general.
4280.117 Determination of technical merit.
4280.118 Grant applications for RES and EEI projects with total project costs $200,000 and greater.
4280.119 Grant applications for RES and EEI projects with total project costs of less than $200,000, but more than $80,000.
4280.120 Grant applications for RES and EEI projects with total project costs of $80,000 or less.
4280.121 Scoring RES and EEI grant applications.
4280.122 Selecting RES and EEI grant applications for award.
4280.123 Awarding and administering RES and EEI grants.
4280.124 Servicing RES and EEI grants.
4280.125 Construction planning and performing development.
4280.126–4280.136 [Reserved]

COMBINED FUNDING FOR RENEWABLE ENERGY SYSTEMS AND ENERGY EFFICIENCY IMPROVEMENTS

4280.137 Combined grant and guaranteed loan funding requirements.
4280.138–4280.148 [Reserved]

ENERGY AUDIT AND RENEWABLE ENERGY DEVELOPMENT ASSISTANCE GRANTS

4280.149 Applicant eligibility.
4280.150 Project eligibility.
4280.151 Ineligible projects.
4280.152 Grant funding for EA and REDA.
4280.153 EA and REDA grant applications—content.
4280.154 Evaluation of EA and REDA grant applications.
4280.155 Scoring EA and REDA grant applications.
4280.156 Selecting EA and REDA grant applications for award.
4280.157 [Reserved]
4280.158 Awarding and administering EA and REDA grants.
4280.159 Servicing EA and REDA grants.
4280.160–4280.165 [Reserved]
4280.166 OMB control number.

Subpart A—Rural Economic Development Loan and Grant Programs

SOURCE: 72 FR 29843, May 30, 2007, unless otherwise noted.

§ 4280.1 Purpose.

The Rural Economic Development Loan (REDL) and Grant (REDG) Programs provide financing to eligible Rural Utilities Service (RUS) electric or telecommunications borrowers (Intermediaries) to promote rural economic development and job creation projects.

§ 4280.2 Policy.

(a) *REDL Program.* REDL Zero-Interest Loans are made to Intermediaries, to relend, at a zero-interest rate, to Ultimate Recipients. Ultimate Recipients are responsible for repayment to the Intermediary. The Intermediary must transmit Ultimate Recipient loan repayments to Rural Development.

(b) *REDG Program.* Grants are made to Intermediaries to establish Revolving Loan Funds. REDG Zero-Interest Loans are made by the Intermediary from the Revolving Loan Fund to Ultimate Recipients for the purpose of financing specific, approved Projects. Ultimate Recipients are responsible for repayment to the Intermediary. The Ultimate Recipient's loan repayments are to be retained in the Revolving Loan Fund, which is maintained by the Intermediary, to finance other rural economic development Projects. Only the initial loan made by the Intermediary from the Revolving Loan Fund has to be at zero interest.

§ 4280.3 Definitions.

The following definitions are applicable to this subpart:

Advanced Telecommunications. Using communications equipment for purposes, such as the simultaneous transmission of images and voice or the

electronic transmission of data between multiple sites that do not consist primarily of providing local exchange voice or other routine communications.

Agricultural Production. The cultivation, production, growing, raising, feeding, housing, breeding, hatching, or managing of crops, plants, animals, fish, or birds, either for fiber, food for human consumption, or livestock feed.

Business Incubator. A facility in which small businesses can share premises, support staff, computers, software or hardware, telecommunications terminal equipment, machinery, janitorial services, utilities, or other overhead expenses, and where such businesses can receive Technical Assistance, financial advice, business planning services or other support.

Community Facilities Project. An eligible community facility under the Community Facility Direct or Guaranteed programs.

Conflict of interest. A situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or business to act impartially. Regarding use of both grant and matching funds, Federal procurement standards prohibit transactions that involve a real or apparent conflict of interest for owners, employees, officers, agents, their immediate family members, partners, or an organization which is about to employ any of the parties indicated herein, having a financial or other interest in or tangible personal benefit from the outcome of the project; or that restrict open and free competition for unrestrained trade. Specifically, project funds may not be used for services or goods going to, or coming from, a person or entity with a real or apparent conflict of interest, including, but not limited to, owner(s) and their immediate family members.

Cushion of Credit. The amount contributed by the Intermediary pursuant to 7 U.S.C. 940c.

Direct Job. A job that is created or saved by an Ultimate Recipient employer as a result of funding received from these Programs.

Established Operation. An entity that has engaged in the nature of the Project for more than one year.

Full-Time Job. A job for which a worker is scheduled to work 35 hours per week, or more, on a regular basis.

Grant. For the REDG Program only; a transfer of monies other than a loan, from Rural Development to an Intermediary for specific use in funding a Revolving Loan Fund from which loans are made to Ultimate Recipients. Grant funds must be repaid by the Intermediary to Rural Development in the event the Fund is unused for more than one year, misused, no longer needed for its intended purposes, or the Grant is terminated.

Independent Provider. An entity or individual, other than the Intermediary or the Ultimate Recipient that is not owned by a subsidiary or an affiliate of the Intermediary or Ultimate Recipient or would otherwise have an interest in the Intermediary or Ultimate Recipient that would be a conflict of interest or have the appearance of a conflict of interest.

Indirect Job. A job that is created or saved as a result of a funded Project, but is not with the Ultimate Recipient.

Infrastructure. Facilities required to support private sector economic activity such as: Highways, streets, roads, and bridges; public transit; water supply; wastewater treatment; water resources; solid waste; and hazardous waste services.

Intermediary. An entity that is identified by RUS as an eligible borrower under the Rural Electrification Act and obtains a REDG Grant or a REDL Loan.

Part-Time Job. A job for which a worker is scheduled to work less than 35 hours per week, on a regular basis.

Programs. The Rural Economic Development Loan (REDL) and the Rural Economic Development Grant (REDG) Programs.

Project. The facility, equipment, or activity of the Ultimate Recipient that is funded under one of the Programs.

REDG. The Rural Economic Development Grant Program.

REDL. The Rural Economic Development Loan Program.

Revolving Loan Fund (or Fund). A revolving loan fund that is created with

Grant funds and the Intermediary's supplemental contribution under the REDG Program that makes loans and uses the loan repayments and interest earnings to make subsequent loans until the Fund is terminated.

Revolving Loan Fund Plan. A plan developed by the Intermediary and approved by Rural Development that governs the use of the Revolving Loan Fund. The plan must at least include a detailed explanation of the Intermediary's Fund administration policies and procedures and planned Fund use after the funds in the Revolving Loan Fund have revolved. Fund administration policies and procedures must at least include information regarding the review and approval of loans from the Fund.

Rural area. This information will be taken from the most recent census data. Any area other than:

(1) A city or town that has a population of greater than 50,000 inhabitants;

(2) The urbanized area contiguous and adjacent to such a city or town; and

(3) Which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I).

Rural Business-Cooperative Service (RBS). The Rural Business-Cooperative Service, an agency within the Rural Development mission area of the USDA.

Rural Development. For purposes of this regulation, The Rural Business-Cooperative Service (RBS), an Agency of the United States Department of Agriculture, or a successor Agency, will be referred to as Rural Development.

Rural Utilities Service (RUS). The Rural Utilities Service, an Agency within the Rural Development mission area of the USDA.

Seasonal Job. A job whether Part-Time or Full-Time that begins and ends in accordance with a specified time period of less than a year and generally within a range less than four months.

Start-Up Venture(s). An entity that has engaged in the nature of the Project for less than one year. An entity that has operated in excess of one year, but which is about to enter into a new line of business, would be considered a Start-Up Venture.

State. Any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Marianas Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Technical Assistance. Managerial, financial and operational analysis and consultation by Independent Providers to assist Project owners in identifying and evaluating problems or potential problems and to provide training that enables Project owners to successfully implement, manage, operate and maintain viable Projects.

Ultimate Recipient. An entity or individual that receives a loan from an Intermediary. The Ultimate Recipient may be a for profit or not-for-profit entity such as, but not limited to, a sole proprietorship, a corporation, a cooperative, a partnership, or a Limited Liability Company. The Ultimate Recipient may also be a public body, such as, but not limited to, a political subdivision of a State or locality, or a Federally-recognized Indian tribe.

Uniform Act. The Uniform Relocation Assistance and Real Property Acquisition Act of 1970 (42 U.S.C. 4601–4655).

USDA. The United States Department of Agriculture.

Zero-Interest Loan. A loan made by the Intermediary to the Ultimate Recipient with no interest and which will be repaid to the Intermediary by the Ultimate Recipient.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014; 80 FR 9913, Feb. 24, 2015; 80 FR 15885, Mar. 26, 2015; 87 FR 38644, June 29, 2022]

§§ 4280.4–4280.12 [Reserved]

§ 4280.13 Applicant eligibility.

Applicants that are not delinquent on any Federal debt or otherwise disqualified from participation in these Programs are eligible to apply. An applicant must be eligible under 7 U.S.C. 940c.

§ 4280.14 [Reserved]

§ 4280.15 Ultimate Recipient Projects eligible for Rural Economic Development Loan funding.

An Intermediary may receive REDL funds only when it has a pre-approved Ultimate Recipient and Project that have an immediate need for the Zero-Interest Loan. REDL funds may only be used by the Intermediary to make a Zero-Interest Loan to the Ultimate Recipient to finance financially viable economic development or job creation Projects in a Rural Area. Funds may only be used to provide the following assistance:

(a) Start-Up Venture costs, including, but not limited to financing fixed assets such as real estate, buildings (new or existing), equipment, or working capital;

(b) Business expansion;

(c) Business Incubators;

(d) Technical Assistance;

(e) Project feasibility studies;

(f) Advanced Telecommunications services and computer networks for medical, educational, and job training services;

(g) Other Projects eligible under § 4280.21; or

(h) Community Facilities Projects.

(i) A borrower is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure related to the project financed, subject to the requirements of 7 CFR part 1980, subpart M.

[72 FR 29843, May 30, 2007, as amended at 85 FR 57085, Sept. 15, 2020]

§ 4280.16 REDL and REDG Loan terms.

REDL and REDG loans made by the Intermediary are governed by the following terms:

(a) The maximum term of a loan is 10 years, including any principal deferment period. The Intermediary may choose a shorter term if desired.

(b) Deferments on Zero-Interest Loans will automatically be granted by Rural Development upon request of the Intermediary as follows:

(1) A deferral for up to 1 year for Projects involving an Established Operation; or

(2) A deferral for up to 2 years for Projects involving a Start-Up venture or a Community Facilities Project whether or not such Project also receives funding under USDA Community Facilities funding programs.

(c) The Intermediary must provide the Ultimate Recipient with the same loan terms as the Intermediary receives from Rural Development.

(d) The Intermediary is solely responsible for the financial approval of Fund loans and all other Fund decisions and actions.

§ 4280.17 Additional REDL terms.

(a) The Intermediary is responsible for fully repaying the Zero-Interest Loan to RBS even if the Ultimate Recipient does not repay the Intermediary.

(b) The Intermediary is responsible for remitting any partial or full payment to RBS at the time the Ultimate Recipient pays the Intermediary.

(c) Unless deferred pursuant to § 4280.16(b) of this subpart, loan payments to Rural Development under the REDL Program are due monthly.

(d) If the Intermediary does not have an outstanding loan with RUS, the Intermediary must immediately provide, as security for any REDL loan it receives, a Rural Development-approved irrevocable letter of credit that remains in effect until the loan is repaid.

§ 4280.18 [Reserved]

§ 4280.19 REDG Grants.

Intermediaries receiving Grants must partially finance a Revolving Loan Fund that the Intermediary will operate and administer, by providing supplemental funds of at least 20 percent of the Grant. Grants are subject to 2 CFR parts 200, 400, 415, 417, 418, 421 as applicable.

[79 FR 76015, Dec. 19, 2014]

§ 4280.20 [Reserved]

§ 4280.21 Eligible REDG Ultimate Recipients and Projects.

The Intermediary may only make loans from the Revolving Loan Fund to entities located in a Rural area of a State. Eligible entities are as follows:

(a) Non-profit entities, public bodies, or Federally-recognized Indian tribes Ultimate Recipients for:

(1) Community development or Community Facility Projects that:

(i) will create or save employment; and

(ii) are open to and serve all Rural residents, and are owned by the Ultimate Recipient;

(2) Business Incubators;

(3) Facilities and equipment to provide education and training to residents of Rural Areas that will facilitate economic development;

(4) Facilities and equipment to provide medical care to residents of Rural Areas. Equipment and facilities may be funded to enable eligible entities to provide medical training and related professional health care skills to rural health care providers;

(5) Projects that utilize Advanced Telecommunications or computer networks to facilitate medical or educational services or job training; or

(6) Project feasibility studies and Technical Assistance. A qualified Independent Provider must perform feasibility studies or Technical Assistance.

(b) For-profit Ultimate Recipients for Projects under paragraphs (a)(3), (4), (5), or (6) of this section.

§ 4280.22 [Reserved]

§ 4280.23 Requirements for lending from Revolving Loan Fund.

(a) *Supplemental contribution.* The Intermediary must establish a Revolving Loan Fund and contribute an amount equal to at least 20 percent of the Grant. The supplemental contribution must come from Intermediary's funds which may not be from other Federal Grants, unless permitted by law.

(b) *Use of supplemental contribution.* The Intermediary's contribution will only be used to make REDG loans and not other investment purposes. The Intermediary's contribution must remain a permanent part of the Revolving Loan Fund until the Fund is terminated.

(c) *REDG Zero-Interest Loan Requirements.* The Fund is made up of Rural Development and Intermediary contributions and must be loaned in accordance with one of the following 2 options:

(1) The contribution may be used to fund the same Project that Rural Development is funding. The interest rate on that portion of the financing using Rural Development funds will be at zero percent. The interest rate on that portion of the financing using the Intermediary's contribution may be greater than zero percent but must be less than, or equal to, the prevailing prime rate. Using this option, loan security and recovery of loan losses must provide for the pro rata recovery and distribution between the Intermediary and Rural Development based on the respective amounts of each contribution to the total loan amount for the Project.

(2) The Intermediary's contribution may be used to fund Projects separate from the Project financed with Rural Development funds, provided that the Project is eligible in accordance with § 4280.21.

(3) Whether the Intermediary chooses the option under paragraph (c)(1) or paragraph (c)(2) of this section, its contribution must be used to fund an eligible Project within 3 years from the date of the Grant agreement. If the Intermediary fails to use its contribution within this 3-year period, Rural Development will terminate the Grant.

(d) *Intermediary's supplemental funds.* Once revolved, monies from the Fund may be loaned at an interest rate called for in the Revolving Loan Fund Plan, not to exceed the prevailing prime rate.

(e) *Eligible purposes only.* Until the total amount in the Fund has been loaned, all loans must be made for eligible purposes as stated in § 4280.21. After the Fund has been loaned, in accordance with § 4280.21 of this subpart, the Intermediary shall make loans to finance rural economic development purposes in accordance with the Revolving Loan Fund Plan. All loan repayments, including interest earned, must be deposited into the Fund.

(f) *Termination for cause.* Rural Development will terminate the Fund and require repayment of the Grant funds if Rural Development determines that the Fund is not being operated according to the approved Revolving Loan

Fund Plan, this subpart, or for other good cause determined by Rural Development, such as questionable prepayment of initial loans. As applicable, Rural Development will follow remedies for noncompliance, closeout and post-closeout adjustments and continuing responsibilities in accordance with 2 CFR 200.338–200.344 as codified by 2 CFR 400.1.

(g) All REDG Loans must be made to Rural Ultimate Recipients.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014]

§ 4280.24 Revolved funds.

Rural Development and the Intermediary's supplemental funds will be considered revolved after they have been loaned to Ultimate Recipients and subsequently repaid. Loans made from revolved funds will not require prior approval of Rural Development for creditworthiness or environmental clearance purposes. All other Federal compliance requirements, including those in this subpart, remain in effect.

§ 4280.25 Revolving Loan Fund Plan.

Each REDG Intermediary must adopt a Rural Development-approved plan that specifies that:

(a) The initial loan made from the Fund will be at zero percent interest and have a maximum term of 10 years;

(b) Loans made from loan repayments may carry an interest rate less than, or equal to, the prevailing prime rate. The Intermediary determines repayment terms and security arrangements on these loans.

(c) Loans made from repayments of REDG loans must be for eligible Program purposes;

(d) The Intermediary is solely responsible for the financial approval of Fund loans and all other Fund decisions and actions; and

(e) No changes will be made to a Rural Development-approved Revolving Loan Fund Plan without the prior written approval of Rural Development.

§ 4280.26 Administration and operation of the Revolving Loan Fund.

(a) The Intermediary will operate and administer the Revolving Loan Fund. The Intermediary may contract with a third party for administrative services regarding the Fund. However, the Intermediary must permanently retain all Project review, approval, and monitoring authority and responsibility. This authority and responsibility cannot be delegated to any other person or entity.

(b) Up to 10 percent of Rural Development Grant funds may be applied toward operating expenses over the life of the Fund. Operating expenses include the costs of administering the Fund and Technical Assistance provided to Project owners by Independent Providers.

(c) In cases where the Intermediary uses its supplemental contribution to the Revolving Loan Fund for a Project other than the Project that resulted in the Intermediary being awarded the Grant, the loan terms must not exceed 10 years and the interest rate must be less than, or equal to, the prevailing prime rate.

§ 4280.27 Ineligible purposes.

Zero-Interest Loans may not be used:

(a) For activities that would adversely affect the environment, or activities that limit the choice of reasonable alternatives prior to satisfying Rural Development environmental requirements;

(b) To pay off or refinance any existing indebtedness or costs of the Project that were incurred prior to Rural Development receipt of the Intermediary's completed application;

(c) For any electric or telecommunications purpose or for the Intermediary's electric or telecommunications operations, for affiliated operations of the Intermediary, or for the benefit of other Intermediaries or their affiliated operations, except those purposes contained in § 4280.15(f);

(d) To pay the salaries of any employee or owner of the Intermediary, its subsidiaries, or affiliates, except for salaries incurred in administering a Revolving Loan Fund established under the REDG Program;

(e) For community antenna or cable television systems or facilities;

(f) For residential purposes such as residential dwellings and land sites; facilities to provide entertainment television; to transfer property between

owners without making improvements that will promote or sustain economic development in Rural Areas; or for personal, non-business related vehicles;

(g) Where there is directly or indirectly a conflict of interest or the appearance of a conflict of interest in the Project; for Intermediaries this would include a situation in which the Intermediary, its officers, managers, Board of Directors, employees, their spouses, children, or close relatives, have a financial or ownership interest in the Project being funded, including its construction or development;

(h) For any purpose when receipt of loan funds is conditioned upon the requirement that the Ultimate Recipient acquire electric or telecommunications service from the Intermediary or its affiliates;

(i) For any gambling activity;

(j) For a Project that would result in the transfer of existing employment or business activity more than 25 miles from its existing location;

(k) For proposed Projects located in areas covered by the Coastal Barrier Resources Act (16 U.S.C. 3501–3510);

(l) For any illegal activity or any activity involving prostitution;

(m) For Agricultural Production, except where the Project is a farmer-owned cooperative or similar organization where the benefits of the Project are passed on to the farmer-owners, and the Agricultural Production is part of an integrated business that processes the agricultural products, and the Agricultural Production portion of the loan will not exceed 50% of the loan amount;

(n) For any pass-through Grant funding activity (a Grant by the Intermediary to the Ultimate Recipient);

(o) Provision of only local exchange voice telephone service; or

(p) for any other purpose announced in a notice by Rural Development. This will not affect Grants that have already been awarded.

§ 4280.28 [Reserved]

§ 4280.29 Supplemental financing required for the Ultimate Recipient Project.

(a) For REDL loans, either the Ultimate Recipient or the Intermediary must provide supplemental funds for the Project equal to at least 20 percent of the loan to the Intermediary. For REDG grants, the Intermediary must provide supplemental funds, to capitalize the Revolving Loan Fund, equal to at least 20 percent of the Grant to the Intermediary.

(b) Funds provided by the Ultimate Recipient must be:

(1) Cash or its equivalent;

(2) Provided after Rural Development receives the completed application; and

(3) Disbursed for an eligible Project within a three year period that begins on the day the Intermediary signs the Grant agreement.

(c) Satisfactory evidence of the Ultimate Recipient's funds must be provided to Rural Development before it will advance any funds to the Intermediary.

§ 4280.30 Restrictions on the use of REDL or REDG funds.

(a) *Conflict of interest.* The Intermediary must not own or manage any Ultimate Recipient Project, unless the Project is acquired as a result of servicing a loan made from the Revolving Loan Fund. Conflicts of interest and all appearances of a conflict of interest are not permitted. The intermediary must also disclose in writing any potential conflicts of interest to the USDA awarding agency and maintain written standards of conduct covering conflicts of interest, including organizational conflicts of interest in accordance with 2 CFR 400.2(b).

(b) *Fees.* The Intermediary may charge reasonable loan servicing fees, which are limited to one percent per year of the principal amount outstanding on the loan; reasonable professional service fees that are customary for the service being provided and in accordance with any standard fee schedules that have been established for the service; and reasonable expenses the Intermediary has incurred from Independent Providers.

(c) *Interest earnings.* Any interest earned by the Intermediary on advances of Rural Development REDG or REDL funds prior to the disbursement for the Project, must be returned to Rural Development.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014]

§§ 4280.31–4280.35 [Reserved]

§ 4280.36 Other laws that contain compliance requirements for these Programs.

(a) *Equal employment opportunity.* For all construction contracts and Grants in excess of $10,000, the contractor must comply with Executive Order 11246, as amended by Executive Order 11375, and as supplemented by applicable Department of Labor regulations (41 CFR part 60). The applicant is responsible for ensuring that the contractor complies with these requirements.

(b) *Equal opportunity and nondiscrimination.* Rural Development will ensure that equal opportunity and nondiscriminatory requirements are met in accordance with the Equal Credit Opportunity Act and 7 CFR part 15d, conducted by USDA. Rural Development will not discriminate against applicants on the bases of race, color, religion, national origin, sex, marital status, or age (provided that the applicant has the capacity to contract); to the fact that all or part of the applicant's income derives from public assistance program; or to the fact that the applicant has in good faith exercised any right under the Consumer Credit Protection Act.

(c) *Civil rights compliance.* Recipients of Grants must comply with the Americans with Disabilities Act of 1990, Title VI of the Civil Rights Act of 1964, and Section 504 of the Rehabilitation Act of 1973. This includes collection and maintenance of data on the race, sex, and national origin of the recipient's membership/ownership and employees. These data must be available to conduct compliance reviews in accordance with 7 CFR part 1901 subpart E, §1901.204. Initial compliance reviews will be conducted with the Intermediary when Form RD 400–4, ''Assurance Agreement,'' is signed. For each loan or Grant an Intermediary receives, a new Form RD 400–4 must be completed. Each Ultimate Recipient must go through the same pre-award compliance review process and must also sign Form RD 400–4. For loans and Grants, a pre-award review is required before loan or Grant approval or any disbursement of funds. For Intermediaries, a post-award compliance review is required 90 days after closing the loan or Grant. This review is not required for Ultimate Recipients. Subsequent compliance reviews will be conducted 3 years from the date the post-award compliance review is completed for Intermediaries and 3 years from the date the pre-award compliance review is completed for Ultimate Recipients. Where Grant funds are used for a Revolving Loan Fund, compliance reviews are required for the Intermediaries for as long as the Fund is in operation. For Ultimate Recipients, compliance reviews are conducted until the loan is repaid to the Fund.

(d) *Architectural barriers.* All facilities financed with Zero-Interest Loans that are open to the public or in which persons may be employed or reside must be designed, constructed, or altered to be readily accessible to and usable by disabled persons. Standards for these facilities must comply with the Architectural Barriers Act of 1968 (42 U.S.C. 4151–4157) and the ''Uniform Federal Accessibility Standards'', (41 CFR part 101–19.6, Appendix A).

(e) *Uniform relocation assistance.* Relocations in connection with these Programs are subject to 49 CFR part 24 as referenced by 7 CFR part 21 except that the provisions in title III of the Uniform Act do not apply to these Programs.

(f) *Drug-free workplace.* Grants made under these Programs are subject to the requirements contained in 2 CFR part 421 which implements the Drug-Free Workplace Act of 1988 (41 U.S.C. 8101 *et seq.*). An Intermediary requesting a REDG Grant will be required to certify that it will establish and make a good faith effort to maintain a drug-free workplace program.

(g) *Debarment and suspension.* The requirements of 2 CFR part 180 and Departmental Regulations 2 CFR part 417, Nonprocurement Debarment, and Suspension are applicable to these Programs.

(h) *Intergovernmental review of Federal programs.* These Programs are subject to the requirements of Executive Order 12372 (3 CFR 1982 Comp., p. 197) and 2 CFR part 415, subpart C, which implements Executive Order 12372. Proposed Projects are subject to the State and

local government review process contained in 2 CFR part 415, subpart C.

(i) *Restrictions on lobbying.* The restrictions and requirements imposed by 31 U.S.C. 1352, and 2 CFR part 418, are applicable to these Programs.

(j) *Earthquake hazards.* These Programs are subject to the seismic requirements of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701–7706).

(k) *Environmental requirements.* Actions taken under this subpart, including the loans made from the revolving loan fund using Agency funds, must comply with 7 CFR part 1970. However, revolving loan funds derived from repayments by third parties are not considered Federal financial assistance for the purposes of 7 CFR part 1970.

(l) *Affirmative fair housing.* If applicable, the Intermediary will be required to comply with the Affirmative Fair Housing Act (42 U.S.C. 3601–3631).

(m) *Flood hazard insurance.* These Programs are subject to the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973, as amended by 42 U.S.C. 4001–4129.

(n) *Audits.* These Programs are subject to 2 CFR part 200, subpart F, as codified in 2 CFR part 400.1.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014; 81 FR 11052, Mar. 2, 2016]

§ 4280.37 Application forms and filing dates.

(a) The Intermediary may obtain forms that supplement the written narrative sections of its application from the Rural Development State Office for the State where the Intermediary is located.

(b) An original copy only of the application is to be filed with the Rural Development State Office. No other copies are required.

§ 4280.38 Maximum amount of loans or Grants.

During any given fiscal year, Rural Development will publish an announcement of available loan and Grant funds and will indicate the maximum loan and Grant amounts for which an Intermediary or prospective Intermediary may apply. This announcement will also include contact information and application deadlines. All pending applications on file at RBS, including both loan and Grant applications, from the same Intermediary or prospective Intermediary for the same Project will be considered to be one application in determining that the maximum size of the application is in accordance with this section.

§ 4280.39 Contents of an application.

An application for a loan or a Grant must contain the following:

(a) Required forms and certifications:

(1) Standard Form 424, ''Application for Federal Assistance,'' signed by an authorized representative of the Intermediary.

(2) A Resolution of the Board of Directors signed by the directors and certified by the Intermediary's board secretary. The board resolution must indicate whether the Intermediary is requesting a loan or Grant, agree to the provisions of this subpart and the loan or Grant agreement including the Intermediary's 20 percent Fund contribution, and state that the Intermediary has the legal authority to enter into a loan or Grant agreement under these Programs;

(3) Form AD 1047, ''Certification Regarding Debarment, Suspension, and other Responsibility Matters—Primary Covered Transactions,'' and Form AD–1048, ''Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Transactions.''

(4) Assurance statement for the Uniform Act signed by the Ultimate Recipient. This statement provides Rural Development with the required assurance statement that any relocations of persons or acquisitions of real property, as part of completing the Ultimate Recipient Project, will be handled in accordance with this statute.

(5) RD Instruction 1940–Q, Exhibit A–1, applies if the loan is greater than $150,000 or the Grant is greater than $100,000;

(6) SF LLL, ''Disclosure of Lobbying Activities,'' (if the Intermediary or the Ultimate Recipient engages in lobbying activities);

(7) Form AD 1049, ''Certification Regarding Drug-Free Workplace Requirements,'' for Grants only;

(8) Seismic certification if construction of a building is proposed. The Project owner certifies that any building constructed will comply with standards that reduce the damage caused by earthquakes;

(9) Environmental documentation in accordance with 7 CFR part 1970.

(10) RUS Form 7, ''Financial and Statistical Report'' and RUS Form 7a ''Investments, Loan Guarantees, and Loans,'' or similar information.

(b) A written narrative section must be provided. This section consists of the following:

(1) A Project description, including details of the work to be performed with Rural Development funds, and a business plan, including a discussion of management and prior experience of the Ultimate Recipient.

(2) A discussion of how the Project meets each selection factor in § 4280.42(b).

(3) A Revolving Loan Fund Plan is required if the Intermediary is applying for a Grant to establish a Revolving Loan Fund.

[72 FR 29843, May 30, 2007, as amended at 81 FR 11052, Mar. 2, 2016]

§ 4280.40 [Reserved]

§ 4280.41 Environmental review of the application.

The Agency will review the environmental documentation in accordance with 7 CFR part 1970. Intermediaries will be informed by the Agency if additional information is required from the intermediary to complete the environmental review process. The environmental review process must be completed before the application can be considered for approval by the Agency.

[81 FR 11052, Mar. 2, 2016]

§ 4280.42 Application evaluation and selection.

(a) Rural Development will evaluate the application and score it based on the selection factors in this section. All applications will be ranked on a nationwide basis, based on the total points scored.

(b) The application will be evaluated and scored using the information provided in accordance with § 4280.39(b)(2) of this subpart.

(1) *Nature of the Project.* Rural Development will award up to 60 points based on whether the Project:

(i) Is a for-profit business, Business Incubator, industrial building or park, or an infrastructure connection project (such as streets or utilities)—20 points;

(ii) Provides Technical Assistance to rural businesses or rural residents, or educates or provides medical care to rural residents—20 points;

(iii) Will enhance rural economic development by providing Advanced Telecommunications services and computer networks for medical, educational, and job training services. This review will be based on the application's telecommunications design—20 points.

(2) *Number of direct full-time equivalent jobs created or saved within a 3-year period.* To calculate full-time equivalent Direct-Jobs, count two part-time jobs as one full-time job or three part-time or seasonal jobs as one full-time job. If the total numbers of part-time and seasonal jobs add up to a fraction, round up to the next whole number after combining same. Indirect-Jobs or non-Rural jobs cannot be used for this calculation.

If the number of Rural full-time equivalent direct-jobs jobs created or saved per $100,000 of total, Project cost is:	Then Rural Development will award:
(i) Greater than five	25 points.
(ii) From one to five	15 points.

(3) *Supplemental funds for the Project.* Points will be based on a calculation of the amount of supplemental funds to be provided to the Project. All supplemental funds used in the following calculation must be disbursed to the Project between the date of Rural Development receipt of the application and 1 year after the first advance of funds by Rural Development:

If supplemental funds as a percentage of the Rural Development loan or grant to be provided to the Project are:	Then Rural Development will award:
(i) Greater than 200%	20 points.
(ii) From 100% to 200%	10 points.
(iii) From 50% to less than 100%	5 points.

(4) *Unemployment rate for the county(ies) where the Project is physically located.* Rural Development will compare the current unemployment rate(s) in the county(ies) to the State and national unemployment rates, and, if applicable, award points under the following categories, whichever is greater:

If the unemployment rate(s) in the county(ies) where the Project will be located:	Then Rural Development will award:
(i) Exceeds the national unemployment rate by 30% or more	15 points.
(ii) Is greater than the national unemployment rate, but exceeds it by less than 30%	5 points.
(iii) Exceeds the State unemployment rate by 30% or more	10 points.
(iv) Is greater than the State unemployment rate but exceeds it by less than 30%	5 points.

(5) *Per capita personal income for the county(ies) where the Project is physically located.* Rural Development will compare the per capita personal income in the county(ies) where the Project will be located to the national and State per capita personal income levels, and, if applicable, award points under the following categories, whichever is greater:

If the per capita personal income level in the county(ies) is:	Then Rural Development will award:
(i) Less than or equal to 90% of the national level	15 points.
(ii) Between 90 and 100% of the national level	5 points.
(iii) Less than or equal to 90% of the State level	10 points.
(iv) Between 90 and 100% of the State level	5 points.

(6) *Rural Area location.* (i) If the Project is physically located in an incorporated city or town or equivalent having a population of 1,249 or less, or if it is physically located in an unincorporated area, Rural Development will award 20 points.

(ii) If the Project is physically located in an incorporated area having a population of 1,250 to 2500, Rural Development will award 10 points.

(7) *Decline in population for the county where the Project is physically located.* If there has been a decline in population in the county where the Project will be located over the time period covered by the two most recent decennial Censuses to the present (or equivalent time frame if using a data source other than the decennial Census), Rural Development will award 10 points.

(8) *Cushion of Credit Payments.* Rural Development will determine the level of Cushion of Credit Payments on deposit by the Intermediary, as follows:

If the Intermediary's Cushion of Credit account level is:	Then Rural Development will award:
(i) In excess of $300,000, or a dollar amount in excess of 3 percent of the Intermediary's total assets, whichever is less.	15 points.
(ii) Within the range of $100,000 to $299,999.99, or a dollar amount that is within the range of one percent to 2.99 percent of Intermediary's total assets, whichever is less.	10 points.
(iii) Within the range of $10,000 to $99,999.99, or a dollar amount that is within the range of 0.5 percent to .99 percent of Intermediary's total assets, whichever is less.	5 points.

(9) *Initial loan and Grant.* If the loan or Grant application will result in the first award to an Intermediary under these Programs, Rural Development will award 10 points.

(10) *County participation.* If the Project will be the first REDLG Project financed in a county Rural Development will award 10 points.

(11) The business plan for the Applicant's Ultimate Recipient will be evaluated by Rural Development and must include:

(i) A description of the business or Project plans, its management, and, if applicable, its products and operating plans. (The business plan evaluated by Rural Development for Advanced Telecommunications will be its telecommunications and engineering design)—up to 15 points; and

(ii) An appropriate financial plan, including actual balance sheets and income statements covering the most recent 3-year period (for applicants who have been in business this long), and projected balance sheets, income statements, and cash flow statements for the ensuing 3-year period, supported by assumptions showing the basis for the projections—up to 20 points.

[72 FR 29843, May 30, 2007, as amended at 80 FR 9913, Feb. 24, 2015]

§ 4280.43 Discretionary points.

The RBS Administrator has the discretion to designate up to 25 points (no more than 5 points for each of the following elements) based on whether the Project:

(a) Is located in a Rural Empowerment Zone, Rural Economic Area Partnership Zone, Rural Enterprise Community, or Champion Community;

(b) Is located in a county that has experienced the loss, removal, or closing of a major source or sources of employment in the last 3 years which causes an increase of 2 percentage points or more in the county's most recent unemployment rate compared with the same period immediately before the dislocation;

(c) Is located in a county that has experienced chronic or long-term economic deterioration;

(d) Is located in a county that was designated a disaster area by the President of the United States that significantly affected rural economic development and job creation. The county must have been designated within 3 years prior to filing of the completed application with Rural Development; or

(e) Is consistent with the Rural Development State Office's approved strategic plan and mission area objectives and is identified as a priority area for assistance in the States' plan.

§ 4280.44 Limitation on number of loans or Grants to an Intermediary.

Depending on the amount of funds available, Rural Development may publish an announcement limiting an Intermediary to one selected Grant application and two selected loan applications in a fiscal year.

§§ 4280.45–4280.46 [Reserved]

§ 4280.47 Non-selection of applications.

Provided the application requirements have not changed, an application not selected will be reconsidered in 3 subsequent funding competitions for a total of four funding competitions. If an application is withdrawn, it can be resubmitted and will be evaluated as a new application.

§ 4280.48 Post selection period.

Rural Development will notify the Intermediary in writing if the application is selected. The documents to be executed by the Intermediary will include:

(a) For a loan:

(1) A Letter of Conditions with Project-specific terms and conditions;

(2) A loan agreement with general terms and conditions;

(3) A note covering the repayment terms of the loan; and

(4) A legal opinion concerning the authority of the Intermediary to engage in the Project.

(b) For a Grant:

(1) A Letter of Conditions with Project-specific terms and conditions;

(2) A Grant agreement with general terms and conditions; and

(3) A legal opinion concerning the authority of the Intermediary to participate in the Revolving Loan Fund and to engage in the Project.

§ 4280.49 [Reserved]

§ 4280.50 Disbursement of Zero-Interest Loan funds.

(a) For a REDL loan, Rural Development will disburse Zero-Interest Loan funds to the Intermediary in accordance with the terms of the executed loan agreement. All loan funds will be disbursed either as an advance to the Intermediary, in multiple advances, or as a reimbursement for eligible project costs, once the Intermediary has complied with Rural Development requirements.

(b) The Intermediary must provide to the Ultimate Recipient all loan funds that the Intermediary receives from Rural Development within one year of receiving them. If the Intermediary does not re-lend Rural Development funds within one year, the loan funds, and all interest earned on the loan funds, must be returned to the Agency.

(c) For a REDG loan, Rural Development will disburse Grant funds to the Intermediary in accordance with 2 CFR 200 as adopted by USDA in 2 CFR part 400 as applicable. Specifically, Rural Development will disburse the Grant funds in advance if the following requirements are met:

(1) The Intermediary has established written procedures that will minimize the time elapsing between the transfer of funds from Rural Development and their disbursement to the Ultimate Recipient;

(2) The management system of the Intermediary meets the requirements of 2 CFR part 200 as adopted by USDA in 2 CFR part 400, as applicable;

(3) All necessary supplemental funds for the Project have been obligated or committed to the Revolving Loan Fund; and

(4) The requests for cash advances made by the Intermediary are limited to the minimum amounts needed and timed to be in accordance with the actual immediate cash needs of the Ultimate Recipient for carrying out the Project.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014]

§§ 4280.51–4280.52 [Reserved]

§ 4280.53 Loan payments.

The Intermediary must make all REDL payments to Rural Development by electronic funds transfer or other means as specified in the loan documents.

§ 4280.54 Construction procurement requirements.

Construction, including bidding and awarding of contracts, must be conducted in a manner that provides maximum open and free competition.

§ 4280.55 Monitoring responsibilities.

(a) The Intermediary must monitor the Project to ensure that:

(1) Funds are used only for the approved purposes as specified in the legal documents;

(2) Disbursements and expenditures of funds are properly supported with certifications, invoices, contracts, bills of sale, or other forms of evidence, which are maintained on the premises of the Intermediary;

(3) Project time schedules are being met, projected work by time periods is being accomplished, and other performance objectives are being achieved; and

(4) The Project is in compliance with all applicable regulations.

(b) Rural Development may inspect and copy records and documents that pertain to the Project. The Intermediary must retain these records for the term of the Project loan plus 2 years. In addition, Rural Development may also perform Project site visits and reviews of the use of loan or Grant proceeds.

(c) Rural Development will review and monitor Grants in accordance with 2 CFR part 200, as adopted by USDA in 2 CFR parts 400, 415, 417, 418, and 421 as applicable.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014]

§ 4280.56 Submission of reports and audits.

(a) In addition to any reports and audits required by 2 CFR part 200 and subpart F as adopted by USDA in 2 CFR part 400, the Intermediary must submit the following monitoring reports to Rural Development:

(1) *Loan*. The Intermediary must submit Form RD 4280–1 ''Survey of Recipients of Rural Economic Development Loan and Grant Program'' to Rural Development on an annual basis until it no longer owes money to USDA under the REDLG Program.

(2) *Grant (Revolving Loan Fund)*. The Intermediary must submit the Form RD 4280–1 to Rural Development on an annual basis until all projects financed with Rural Development Grant proceeds have been repaid or are otherwise retired, whichever occurs last. Thereafter, on a triennial basis until the fund is terminated, the Intermediary will submit to Rural Development the Form RD 4280–1, reporting on the activity of all loans made from the Revolving Loan Fund.

(b) If the Intermediary does not have an existing loan with RUS, the Intermediary will submit a copy of its annual audit to Rural Development within 90 days of its completion. All REDL audits must be conducted in accordance with Generally Accepted Government Auditing Standards or Generally Accepted Accounting Principles and REDG audits in accordance with 2 CFR part 200 as adopted by USDA in 2 CFR part 400.

(c) Rural Development may require Ultimate Recipients that receive loans financed with Grant funds provided under the REDG Program to submit annual audits to comply with Federal audit regulations. In accordance with 2 CFR part 200, as adopted by USDA in 2 CFR part 400, Ultimate Recipients that are nonprofit entities, or a State or local government, may be required to submit an audit subject to the threshold established in 2 CFR part 200, as adopted by in 2 CFR part 400.

[72 FR 29843, May 30, 2007, as amended at 79 FR 76015, Dec. 19, 2014]

§§ 4280.57–4280.61 [Reserved]

§ 4280.62 Appeals.

An Intermediary may appeal any appealable adverse decision made by Rural Development that affects the Intermediary in accordance with 7 CFR part 11.

§ 4280.63 Exception authority.

Except as specified in paragraphs (a) through (c) of this section, the RBS Administrator may, on a case-by-case basis, make exceptions to any requirement or provision of this subpart, if such exception is necessary to implement the intent of the authorizing statute in a time of national emergency or in accordance with a Presidentially-declared disaster, or when such an exception is in the best interests of the Federal Government and is otherwise not in conflict with applicable law.

(a) *Applicant eligibility*. No exception to applicant eligibility can be made.

(b) *Project eligibility*. No exception to project eligibility can be made.

(c) *Rural area definition*. No exception to the definition of rural area, as defined, can be made.

§§ 4280.64–4280.99 [Reserved]

§ 4280.100 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575–0035. A person is not required to respond to this collection of information unless it displays a currently valid OMB control number.

Subpart B—Rural Energy for America Program General

SOURCE: 86 FR 22309, Apr. 27, 2021, unless otherwise noted.

§ 4280.101 Purpose.

This subpart contains the procedures and requirements for providing the following financial assistance under the Rural Energy for America Program (REAP):

(a) Grants, or a combination grant and guaranteed loan, for the purpose of purchasing and installing Renewable Energy Systems (RES) and Energy Efficiency Improvements (EEI);

(b) Grants to assist agricultural producers and rural small businesses by conducting Energy Audits (EA) and

providing recommendations and information on Renewable Energy Development Assistance (REDA); and

(c) Grants or guaranteed loans, or a combination grant and guaranteed loan to an applicant or borrower pursuant to 7 CFR 1980, Subpart M Special Authority to Enable Funding of Broadband and Smart Utility Facilities Across Select Rural Development Programs. A Borrower or applicant receiving funding as referenced in paragraphs (a) or (b) of this section is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure related to the project financed, subject to the requirements of 7 CFR 1980, Subpart M.

§ 4280.102 Organization of subpart.

(a) Sections 4280.103 through 4280.111 discuss definitions; exception authority; review or appeal rights; conflict of interest; USDA Departmental Regulations; other applicable laws; ineligible applicants, grantees, and owners; general applicant, application, and funding provisions; and notifications, which are applicable to all of the funding programs under this subpart.

(b) Sections 4280.112 through 4280.125 discuss the requirements specific to RES and EEI grants. Sections 4280.112 and 4280.113 discuss, respectively, applicant and project eligibility. Section 4280.114 addresses ineligible projects. Section 4280.115 addresses funding provisions for these grants. Sections 4280.116 through 4280.120 address grant application content, technical merit determination, and required documentation. Sections 4280.121 through 4280.124 address the scoring, selection, awarding and administering, and servicing of these grant applications. Section 4280.125 addresses construction planning and development.

(c) Section 4280.137 presents the process by which the Agency will make combined loan guarantee and grant funding available for RES and EEI projects.

(d) Sections 4280.149 through 4280.159 present the process by which the Agency will make EA and REDA grant funding available. These sections cover applicant and project eligibility, grant funding, application content, evaluation, scoring, selection, awarding and administering, and servicing.

(e) Appendices A through C cover technical report requirements. Appendix A applies to EEI projects; Appendix B applies to RES projects with Total Project Costs of Less Than $200,000, but more than $80,000; and Appendix C applies to RES projects with Total Project Costs $200,000 and Greater. Appendices A and B do not apply to RES and EEI projects with Total Project Costs of $80,000 or less, respectively. Instead, technical report requirements for these projects are found in § 4280.120.

(f) Appendix D covers contents of feasibility study.

§ 4280.103 Definitions.

The following definitions are applicable to the capitalized terms used in this part.

Administrator. The Administrator of Rural Business-Cooperative Service within the Rural Development Mission Area of the U.S. Department of Agriculture (USDA).

Agency. The Rural Business-Cooperative Service or successor agency assigned by the Secretary of Agriculture to administer the Rural Energy for America Program. References to the National Office, Finance Office, State Office, or other Agency offices or officials should be read as prefaced by ''Agency'' or ''Rural Development'' as applicable.

Agricultural producer. A person, including non-profits, directly engaged in the production of agricultural products through labor management and operations, including the cultivating, growing, and harvesting of plants and crops (including farming); breeding, raising, feeding, or housing of livestock (including ranching); forestry products; hydroponics; nursery stock; or aquaculture, whereby 50 percent or greater of their gross income is derived from the operations. The percentage is calculated as the average of gross agricultural operations income of the concern divided by the gross total income of the concern for the five most recent years. If the concern has been in operation for less than 60 months, use average gross agricultural operations income and gross total income for as

long as the concern has been in operation.

Anaerobic digester. A Renewable Energy System that uses animal waste or other renewable biomass and may include other organic substrates to produce digestate and biogas that may be sold in a gaseous or compressed liquid state or used to produce thermal or electrical energy.

Applicant. (1) Except for EA and REDA grants, the agricultural producer or rural small business that is seeking a grant, or a combination of a grant and guaranteed loan, under this subpart.

(2) For EA and REDA grants, a unit of State, Tribal, or local government; a land-grant college or university or other institution of higher education; a rural electric cooperative; a public power entity; council; or an Instrumentality of a State, Tribal, or local government that is seeking an EA or REDA grant under this subpart.

Bioenergy project. A RES that produces fuel, biogas, thermal energy, or electric power from a renewable biomass source only.

Biofuel. A fuel derived from renewable biomass.

Biogas. Gaseous fuel (including landfill and sewage waste treatment gas) derived from the degradation and decomposition of renewable biomass.

Byproduct. An incidental or secondary product, regardless of whether it has a readily identifiable commercial use or value, generated under normal operations of the proposed project that can be reasonably measured and monitored.

Commercially available. A system that meets the requirements of either paragraph (1) or (2) of this definition.

(1) A domestic or foreign system that:

(i) Has both a proven and reliable operating history and proven performance data for at least 1 year specific to the use and operation to the proposed application;

(ii) Is based on established design and installation procedures and practices and is replicable;

(iii) Has professional service providers, trades, large construction equipment providers, and laborers who are familiar with installation procedures and practices;

(iv) Has proprietary and balance of system equipment and spare parts that are readily available;

(v) Has service that is readily available to properly maintain and operate the system; and

(vi) Has an existing established warranty that is valid in the United States for major parts and labor; or

(2) A domestic or foreign system that has been certified by a recognized industry organization whose certification standards are acceptable to the Agency.

Complete application. An application that contains all parts necessary for the Agency to determine applicant and project eligibility, the financial feasibility and technical merit of the project, and contains sufficient information to determine a priority score for the application, if applicable.

Costs incurred. A cost will be considered incurred when payment for costs associated with the project have been issued. If payment was in the form of a check, the date of the check will be considered the date the cost was incurred. If payment was in the form of an electronic payment, the date that the payment was issued from the grantee/producer/borrower account will be considered the date the cost was incurred.

Council. As defined, under the Resource Conservation and Development Program, at 16 U.S.C. 3451.

Departmental regulations. The regulations of the Agency's Office of Chief Financial Officer (or successor office) as codified in 2 CFR chapter IV.

Design/Build method. A method of project development whereby all design, engineering, procurement, construction, and other related project activities are performed under a single contract. The contractor is solely responsible and accountable for successful delivery of the project to the grantee as applicable.

Eligible project costs. Those expenses approved by the Agency for the project as eligible uses of funds.

Energy assessment. An Agency-approved report assessing energy use, cost, and efficiency by analyzing energy bills and surveying the target

building and/or equipment sufficiently to provide an Agency-approved energy assessment.

(1) If the project's total project cost is greater than $80,000, the energy assessment must be conducted by either an energy auditor or an energy assessor or an individual supervised by either an energy assessor or energy auditor. The final energy assessment must be validated and signed by the energy assessor or energy auditor who conducted the energy assessment or by the supervising energy assessor or energy auditor of the individual who conducted the assessment, as applicable.

(2) If the project's total project cost is $80,000 or less, the energy assessment may be conducted in accordance with paragraph (1) of this definition or by an individual or entity that has at least 3 years of experience and completed at least five energy assessments or energy audits on similar type projects.

Energy assessor. A qualified consultant who has at least 3 years of experience and completed at least five energy assessments or energy audits on similar type projects and who adheres to generally recognized engineering principles and practices.

Energy audit. A comprehensive report that meets an Agency-approved standard prepared by an energy auditor or an individual supervised by an energy auditor that documents current energy usage; recommended potential improvements (typically called energy conservation measures) and their costs; energy savings from these improvements; dollars saved per year; and simple payback. The methodology of the energy audit must meet professional and industry standards. The final energy audit must be validated and signed off by the energy auditor who conducted the audit or by the supervising energy auditor of the individual who conducted the audit, as applicable.

Energy auditor. A qualified consultant that meets one of the following criteria:

(1) A certified energy auditor certified by the Association of Energy Engineers;

(2) A certified energy manager certified by the Association of Energy Engineers;

(3) A licensed professional engineer in the State in which the audit is conducted with at least 1-year experience and who has completed at least two similar type energy audits; or

(4) An individual with a 4-year engineering or architectural degree with at least 3 years of experience and who has completed at least five similar type energy audits.

Energy efficiency improvement (EEI). Improvements to or replacement of an existing building or systems and/or equipment, owned by the applicant, that reduces energy consumption on an annual basis.

Existing business. A business that has been in operation for at least 1 full year. The following will be treated as existing businesses provided there is not a significant change in operations of the existing business: Mergers by an existing business with a new or existing business, a change in the business name, or a new business and an existing business applying as co-applicants.

Feasibility study. A report including an opinion or finding conducted by an independent qualified consultant(s) evaluating the economic, market, technical, financial, and management feasibility of a proposed project or operation in terms of its expectation for success as outlined in Appendix D of this Subpart.

Federal fiscal year. The 12-month period beginning October 1 of each year and ending on September 30 of the following year; it is designated by the calendar year in which it ends.

Financial Assistance Agreement (Form RD 4280–2, Rural Business-Cooperative Service Financial Assistance Agreement). An agreement between the Agency and the grantee setting forth the provisions under which the grant will be administered.

Financial feasibility. The ability of a project to achieve sufficient income, credit, and cash flow to financially sustain a project over the long term and meet all debt obligations.

Geothermal direct generation. A system that uses thermal energy directly from a geothermal source.

Geothermal electric generation. A system that uses thermal energy from a geothermal source to produce electricity.

Hybrid. A combination of two or more renewable energy technologies that are incorporated into a unified system to support a single project.

Hydroelectric source. A RES producing electricity using various types of moving water including, but not limited to, diverted run-of-river water, in-stream run-of-river water, and in-conduit water.

Hydrogen project. A system that produces hydrogen derived from a renewable biomass or water using wind, solar, ocean (including tidal, wave, current, and thermal) geothermal or hydroelectric sources as an energy transport medium in the production of mechanical or electric power or thermal energy.

Immediate family(ies). Individuals who live in the same household or who are closely related by blood, marriage, or adoption, such as a spouse, domestic partner, parent, child, sibling, aunt, uncle, grandparent, grandchild, niece, nephew, or first cousin.

Inspector. A qualified consultant who has at least 3 years of experience and has completed at least five inspections on similar type projects.

Institution of Higher Education. As defined in 20 U.S.C. 1002(a).

Instrumentality. An organization recognized, established, and controlled by a State, Tribal, or local government, for a public purpose or to carry out special purposes.

Interconnection agreement. A contract containing the terms and conditions governing the interconnection and parallel operation of the grantee's electric generation equipment and the utility's electric power system or a grantee's biogas production system and gas pipeline.

Matching funds. Those project funds required by 7 U.S.C. 8107 to be made available by the applicant in order to be eligible to receive the grant, or combined grant and guaranteed loan. Funds provided by the applicant in excess of matching funds are not matching funds. Unless authorized by statute, other Federal grant funds cannot be used to meet a matching funds requirement.

Ocean energy. Energy created by use of various types of moving water in the ocean and other large bodies of water (*e.g.*, Great Lakes) including, but not limited to, tidal, wave, current, and thermal changes.

Passive investor. An equity investor that does not actively participate in management and operation decisions of the applicant or any affiliate of the applicant as evidenced by a contractual agreement.

Person. An individual or entity organized under the laws of a State or a Tribe.

Power purchase agreement. The terms and conditions governing the sale and transportation of power produced by the applicant to another party.

Public Power Entity. Is defined using the definition of ''State utility'' as defined in section 217(A)(4) of the Federal Power Act (16 U.S.C. 824q(a)(4)). As of this writing, the definition ''means a State or any political subdivision of a State, or any agency, authority, or Instrumentality of any one or more of the foregoing, or a corporation that is wholly owned, directly or indirectly, by any one or more of the foregoing, competent to carry on the business of developing, transmitting, utilizing, or distributing power.''

Qualified Consultant(s). An independent third-party person possessing the knowledge, expertise, and experience to perform the specific task required.

Rated Power. The maximum amount of energy that can be created at any given time.

Refurbished. Refers to a piece of equipment or RES that has been brought into a commercial facility, thoroughly inspected, and worn parts replaced and has a warranty that is approved by the Agency or its designee.

Renewable biomass. (1) Materials, precommercial thinnings, or invasive species from National Forest System land or public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that:

(i) Are byproducts of preventive treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health;

(ii) Would not otherwise be used for higher-value products; and

(iii) Are harvested in accordance with applicable law and land management plans and the requirements for old-growth maintenance, restoration, and management direction of paragraphs (2), (3), and (4) of subsection (e) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512) and large-tree retention of subsection (f) of Section 102; or

(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian Tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including the following items:

(i) Renewable plant material (including feed grains; other agricultural commodities; other plants and trees; and algae); and

(ii) Waste material including crop residue; other vegetative waste material (including wood waste and wood residues); animal waste and byproducts (including fats, oils, greases, and manure); and food waste and yard waste.

Renewable energy. Energy derived from:

(1) A wind, solar, renewable biomass, ocean (including tidal, wave, current, and thermal), geothermal or hydroelectric Source; or

(2) Hydrogen derived from renewable biomass or water using an energy source described in paragraph (1).

Renewable energy development assistance (REDA). Assistance provided by eligible grantees to agricultural producers and rural small businesses including education, applicability, and implementation of renewable energy technologies and resources. The REDA may consist of renewable energy site assessments or renewable energy technical assistance.

Renewable energy site assessment. A report provided to an agricultural producer or rural small business providing information regarding and recommendations for the use of commercially available renewable energy technologies in its operation. The report must be prepared by a qualified consultant and must contain the information specified in Sections A through C of Appendix B.

Renewable Energy System (RES). A system that produces usable energy from a renewable energy source and may include:

(1) Distribution components necessary to move energy produced by such system to initial point of sale; and

(2) other components and ancillary infrastructure of such system, such as a storage system; however, such system may not include a mechanism for dispensing energy at retail.

Renewable energy technical assistance. Assistance provided to agricultural producers and rural small businesses on how to use renewable energy technologies and resources in their operations.

Retrofitting. A modification to an existing building or installed equipment that incorporates a function or feature(s)not included in the original design when built or for the replacement of existing components with components that improve the original design and does not impact original warranty if the warranty is still in existence.

Rural or rural area. Any area of a State not in a city or town that has a population of more than 50,000 inhabitants, not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants, and excluding certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I). In making this determination, the Agency will use the latest decennial census of the United States. The following exclusions apply:

(1) Any area in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants that has been determined to be ''rural in character'' as follows:

(i) The determination that an area is ''rural in character'' will be made by the Under Secretary of Rural Development. The process to request a determination under this provision is outlined in paragraph (1)(ii) of this definition. The determination that an area is ''rural in character'' under this definition will apply to areas that are within:

(A) An urbanized area that has two points on its boundary that are at least 40 miles apart, which is not contiguous

or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urbanized area of such a city or town; or

(B) An urbanized area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within ¼ mile of a rural area.

(ii) Units of local government may petition the Under Secretary of Rural Development for a ''rural in character'' designation by submitting a petition to the appropriate Rural Development State Director for recommendation to the Administrator on behalf of the Under Secretary. The petition shall document how the area meets the requirements of paragraph (1)(i)(A) or (B) of this definition and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base. Upon receiving a petition, the Under Secretary will consult with the applicable Governor or leader in a similar position and request comments to be submitted within 5 business days, unless such comments were submitted with the petition. The Under Secretary will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Agency's website at *https://www.rd.usda.gov*, and the Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration. The Under Secretary will make a determination of the appeal in not less than 15 days, but no more than 30 days.

(iii) Rural Development State Directors may also initiate a request to the Under Secretary to determine if an area is ''rural in character.'' A written recommendation should be sent to the Administrator, on behalf of the Under Secretary, that documents how the area meets the statutory requirements of paragraph (1)(i)(B) of this definition and discusses why the State Director believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, topography, and how the local economy is tied to a rural economic base. Upon receipt of such a request, the Administrator will review the request for compliance with the ''rural in character'' provisions and make a recommendation to the Under Secretary. Provided a favorable determination is made, the Under Secretary will consult with the applicable Governor or leader in a similar position and request comments within 10 business days, unless the comments were submitted with the request. A public notice will be published by the State Office in accordance with paragraph (1)(ii) of this definition. There is no appeal process for requests made on the initiative of the State Director.

(2) An area that is attached to the urbanized area of a city or town with more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than two census blocks wide. Applicants from such an area should work with their Rural Development State Office to request a determination of whether their project is located in a rural area under this provision.

(3) For the Commonwealth of Puerto Rico, the island is considered rural and eligible except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be rural if they are ''not urban in character.''

(4) For the State of Hawaii, all areas within the State are considered rural and eligible except for the Honolulu CDP within the County of Honolulu and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the Honolulu CDP, may be determined to be rural if they are ''not urban in character.''

(5) For the purpose of defining a rural area in the Republic of Palau, the Federated States of Micronesia, and the

Republic of the Marshall Islands, the Agency shall determine what constitutes rural and rural area based on available population data.

Rural small business. A small business that is located in a rural area or that can demonstrate the proposed project for which assistance is being applied for under this part is located in a rural area.

Simple payback. The estimated simple payback of a project funded under this part as calculated using paragraphs (1) or (2), as applicable, of this definition.

(1) EEI projects simple payback = (total project costs) ÷ (dollar value of energy saved).

(i) Energy saved will be determined by subtracting the projected energy (determined by the method in paragraph (1)(i)(B) of this definition) to be consumed from the historical energy consumed (determined by the method in paragraph (1)(i)(A) of this definition), and converting the result to a monetary value using a constant value or price of energy (determined by the method in paragraph (1)(i)(C) of this definition).

(A) Actual energy used in the original building and/or equipment, as applicable, prior to the EEI project, must be based on the actual average annual total energy used in British thermal units (BTU) over the most recent 12, 24, 36, 48, or 60 consecutive months of operation. Attach utility bills to document applicant entity's historical energy consumption quantity.

(B) Projected energy use if the proposed EEI project had been in place for the original building and/or equipment, as applicable, for the same time period used to determine that actual energy use under paragraph (1)(i)(A) of this definition.

(C) Value or price of energy must be the actual average price paid over the same time period used to calculate the actual energy used under paragraph (1)(i)(A) of this definition. When calculating the actual average price of energy, only include energy charges directly reduced by the unit of energy being replaced or saved. Attach utility bills to document applicant entity's average price of energy.

(ii) The EEI projects simple payback calculation does not allow applicants to monetize EEI benefits other than the dollar amount of the energy savings the agricultural producer or rural small business realizes as a result of the improvement.

(2) RES projects simple payback = (total project costs) ÷ (dollar value of energy units replaced, credited, sold, or used and fair market value of byproducts as applicable in a typical year).

(i) Value of energy replaced will be calculated based on the applicant entity's historical energy consumption with actual average price paid for the energy replaced, following the methodology outlined in paragraph (1)(i) of this definition. Attach utility bills to document applicant entity's historical energy consumption quantity and actual average price of energy.

(ii) Value of energy credited or sold will be calculated based on the amount of energy units to be credited or sold at the proposed rate per unit, as documented in utility net metering or crediting policies and/or a power purchase agreement. Attach utility net metering or crediting policies and/or a power purchase agreement to document energy quantity and proposed rate for energy credited or sold.

(iii) If proposed energy will be used in a new facility, value of energy used will be calculated based on the amount of energy units to be used at the documented price per unit of conventional fuel alternative. Attach documentation of market price per unit of conventional fuel alternative.

(iv) Value of byproducts produced by and used in the project or related enterprises should be documented at the fair market value to be received for the byproducts in a typical year. Attach documentation of market value price to be received for byproducts and documentation to support byproduct sales or direct use.

(v) The RES projects simple payback calculation does not include any one-time benefits such as but not limited to construction and investment-related benefits, nor credits which do not provide annual income to the project, such as tax credits.

Small business means,

(1) An entity or utility, as applicable, as further defined in subparagraphs (i) through (iv) and paragraph (2) of this

definition. With the exception of the entities identified in this paragraph, all other non-profit entities are not small businesses for the purposes of REAP program eligibility:

(i) A private for-profit entity, including a sole proprietorship, partnership, or corporation;

(ii) A cooperative (including a cooperative qualified under section 501(c)(12) of the Internal Revenue Code);

(iii) An electric utility (including a Tribal or governmental electric utility) that provides service to rural consumers and operates independent of direct government control; or

(iv) A Tribal corporation or other Tribal business entities that are chartered under Section 17 of the Indian Reorganization Act (25 U.S.C. 477) or have similar structures and relationships with their Tribal governments and are acceptable to the Agency. The Agency will determine the small business status of such Tribal entity without regard to the resources of the Tribal government; and

(2) An entity that meets Small Business Administration size standards in accordance with 13 CFR part 121 and criteria of §121.301 as applicable to financial assistance programs, including (i) or (ii) below. The size of the concern alone and the size of the concern combined with other entity(ies) it controls or entity(ies) it is controlled by, must not exceed the size standard thresholds designated for the industry in which the concern alone or the concern and its controlling entity(ies), whichever is higher, is primarily engaged.

(i) The concern's tangible net worth is not in excess of $15 million and average net income (excluding carry-over losses) for the preceding two completed fiscal years is not in excess of $5.0 million; or

(ii) The size of the concern does not exceed the Small Business Administration (SBA) size standard thresholds designated for the industry in which it is primarily engaged, as measured by number of employees or annual receipts. Industry size standard designations to be utilized are listed in the Small Business Administration's (SBA) table of size standards found in 13 CFR part 121.201. Number of employees and annuals receipts are calculated as follows:

(A) Number of employees is calculated as the average number of all individuals employed by a concern on a full-time, part-time, or other basis, based upon numbers of employees for each of the pay periods for the preceding completed 12 calendar months. If a concern has not been in business for 12 months, the average number of employees is used for each of the pay periods during which it has been in business.

(B) Annual receipts are calculated as average total income plus cost of goods sold for the for the five most recent years. If a concern has been in operation for less than 60 months, average annual receipts for as long as the concern has been in operation are used.

Smart Utility. The use of broadband facilities and equipment that is only available internally by a recipient during the economic life of the assets financed by an Agency loan, grant, or loan guarantee.

State. Any of the 50 States of the United States, the Commonwealth of Puerto Rico, the District of Columbia, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Steady state operating level means that there is an adequate and consistent supply of the applicable renewable energy resource(s) for the project, both on a short-term (current) and long-term basis, and the renewable energy system and process(es) are operating at projected capacity, consistently yielding an adequate quantity and quality of renewable energy.

Total eligible project costs. The sum of all eligible project costs.

Total project costs. The sum of all costs associated with a completed project.

Underserved community(ies). Communities (including urban or rural communities and Indian tribal communities) that have limited access to affordable, healthy foods, including fresh fruits and vegetables, in grocery retail stores or farmer-to-consumer direct markets and that have either a high

rate of hunger or food insecurity or a high poverty rate as reflected in the most recent decennial census or other Agency-approved census.

Used equipment. Any equipment that has been used and is provided in an ''as is'' condition.

Useful life means estimated durations of utility placed on a variety of assets, including buildings, machinery, equipment, vehicles, electronics, and furniture. Useful life estimations terminate at the point when assets are expected to become obsolete, require major repairs, or cease to deliver economical results.

Veteran. A veteran is a person who served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable as defined in title 38 U.S.C. 101(2).

[86 FR 22309, Apr. 27, 2021, as amended at 87 FR 38644, June 29, 2022]

§ 4280.104 Exception authority.

The Administrator may, on a case-by-case basis, grant an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal Government. Exercise of this authority cannot be in conflict with applicable law.

§ 4280.105 Review or appeal rights.

Agency Applicants or grantees may have appeal or review rights for Agency decisions made under this part. Agency decisions that are adverse to the individual participant are appealable, while matters of general applicability are not subject to appeal; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). All appeals will be conducted by NAD and will be handled in accordance with 7 CFR part 11. The applicant or grantee can appeal any Agency decision that directly and adversely affects them.

§ 4280.106 Conflict of interest.

(a) *General.* No conflict of interest or appearance of conflict of interest will be allowed. Conflict of interest means a situation in which a person has personal, professional, or financial interests that prevent, or appears to prevent the person from acting impartially. For purposes of this subpart, conflict of interest includes, but is not limited to, distribution or payment of grant, guaranteed loan funds, and matching funds to a beneficiary or immediate family member of the applicant.

(b) *Assistance to employees, relatives, and associates.* The Agency will process any requests for assistance under this subpart in accordance with 7 CFR part 1900, subpart D.

(c) *Member/delegate clause.* No member of or delegate to Congress shall receive any share or part of this grant or any benefit that may arise there from; but this provision shall not be construed to bar, as a contractor under the grant, a publicly held corporation whose ownership might include a member of Congress.

§ 4280.107 [Reserved]

§ 4280.108 U.S. Department of Agriculture departmental regulations and laws that contain other compliance requirements.

(a) *Departmental regulations.* All projects funded under this subpart are subject to the provisions of the Departmental regulations, as applicable, which are incorporated by reference herein.

(b) *Equal opportunity and nondiscrimination.* The Agency will ensure that equal opportunity and nondiscrimination requirements are met in accordance with the Equal Credit Opportunity Act, 15 U.S.C. 1691 *et seq.* and 7 CFR part 15d, Nondiscrimination in Programs and Activities Conducted by the United States Department of Agriculture. The Agency will not discriminate against applicants on the basis of race, color, religion, national origin, sex, marital status, disability, or age (provided that the applicant has the capacity to contract); because all or part of the applicant's income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act, 15 U.S.C. 1601 *et seq.*

(c) *Civil rights compliance.* Recipients of grants must comply with the Americans with Disabilities Act of 1990, 42 U.S.C. 12101 *et seq.*, Title VI of the Civil Rights Act of 1964, *42 U.S.C. 2000d et*

seq., and Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794. This includes collection and maintenance of data on the race, sex, and national origin of the recipient's membership/ownership and employees. These data must be available to conduct compliance reviews in accordance with 7 CFR 1901.204.

(1) Initial compliance reviews will be conducted by the Agency prior to funds being obligated for programs.

(2) When compliance reviews are applicable to the grant, one subsequent compliance review following project completion is required. This will occur after the last disbursement of grant funds has been made.

(d) *Environmental analysis.* Actions taken under this subpart must comply with 7 CFR part 1970. Prospective applicants are advised to contact the Agency to determine environmental requirements as soon as practicable after they decide to pursue any form of financial assistance directly or indirectly available through the Agency.

(1) Any required environmental review must be completed by the Agency prior to the Agency obligating any funds.

(2) The applicant will be notified of all specific compliance requirements, including, but not limited to, the publication of public notices, and consultation with State or Tribal Historic Preservation Offices and the U.S. Fish and Wildlife Service.

(3) A site visit by the Agency may be scheduled, if necessary, to determine the scope of the review.

(e) *Discrimination complaints*—(1) *Who may file.* Persons or a specific class of persons believing they have been subjected to discrimination prohibited by this section may file a complaint personally, or by an authorized representative with USDA, Director, Office of Adjudication, 1400 Independence Avenue SW, Washington, DC 20250.

(2) *Time for filing.* A complaint must be filed no later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the designated officials of USDA or Rural Development.

§ 4280.109 Ineligible applicants, grantees, and owners.

Applicants, grantees, and owners will be ineligible to receive funds under this subpart as discussed in paragraphs (a) and (b) of this section.

(a) If an applicant, grantee, or owner has an outstanding judgment obtained by the U.S. in a Federal Court (other than in the United States Tax Court), is delinquent in the payment of Federal income taxes, or is delinquent on a Federal debt, the applicant, grantee, or owner is not eligible to receive a grant or combined grant and guaranteed loan until the judgment is paid in full or otherwise satisfied or the delinquency is resolved.

(b) If an applicant, grantee, or owner is debarred from receiving Federal assistance, the applicant, grantee, or owner is not eligible to receive a grant or combined grant and guaranteed loan under this subpart.

§ 4280.110 General applicant, application, and funding provisions.

(a) *Satisfactory progress.* An applicant that has received one or more grants and/or guaranteed loans under this program must make satisfactory progress, as determined by the Agency, toward completion of any previously funded projects before the applicant will be considered for subsequent funding. This may include a review of the applicant compliance with Agency reporting requirements. Satisfactory progress for EA and REDA grants is defined as at least 50 percent of previous EA or REDA awards expended at the time the Agency makes its eligibility determination.

(b) *Application submittal.* Applications must be submitted in accordance with the provisions of this subpart unless otherwise specified in a FEDERAL REGISTER notice. Grant applications and combined grant and guaranteed loan applications for financial assistance under this subpart may be submitted at any time.

(1) *Grant applications.* Complete grant applications will be accepted on a continuous basis, with awards made based on the application's score and subject to available funding.

(2) *Combined grant and guaranteed loan applications.* Applications requesting a RES or EEI grant and a guaranteed loan under this subpart will be accepted on a continuous basis, with awards made based on the grant application's score and subject to available funding.

(c) *Application limits.* An applicant applying for a grant or a combined grant and guaranteed loan is limited to competing one RES application and one EEI application under this subpart in any one Federal fiscal year. An applicant that proposes to install the same EEI or RES (including hybrid) across multiple facilities can be considered one project and be submitted in one application.

(d) *Application modification.* Once submitted and prior to Agency award, if an applicant modifies the scope of the project described in its application, the application will be treated as a new application. The submission date of record for such modified applications will be the date the Agency receives the modified information, and the application will be processed and scored by the Agency as a new application under this subpart.

(e) *Incomplete applications.* Applicants must submit complete applications in order to be considered for funding. If an application is incomplete, the Agency will identify those parts of the application that are incomplete and provide a written explanation to the applicant for possible future resubmission. Upon receipt of a complete application by the appropriate Agency office, the Agency will complete its evaluation and will compete the application in accordance with the procedures specified in §§ 4280.122 or 4280.156 as applicable.

(f) *Application withdrawal.* During the period between the submission of an application and the execution of award documents for an application selected for funding, the applicant must notify the Agency, in writing, if the project is no longer viable or the applicant no longer is requesting financial assistance for the project. When the applicant notifies the Agency, the selection will be rescinded and/or the application withdrawn.

(g) *Technical report.* The following technologies: Hydrogen, ocean energy, geothermal electric generation, anaerobic digesters and biogas, biomass, hybrid applications, RES with storage components, and EEI or technologies as amended via FEDERAL REGISTER notification or posted on the Agency's website, must provide a technical report as specified in §§ 4280.118(d) 4280.119(b)(4), and 4280.120(b)(3) and 4280.120(b)(4), and must comply with the provisions specified in paragraphs (g)(1) through (3), as applicable, of this section:

(1) *Technical report format and detail.* The information in the technical report must follow the format specified in § 4280.120(b)(3), § 4280.120(b)(4), and Appendices A through C of this subpart, as applicable. Supporting information may be submitted in other formats. Design drawings and process flowcharts are encouraged as exhibits. In addition, information must be provided, in sufficient detail, to:

(i) Allow the Agency to determine the technical merit of the applicant's project under § 4280.117;

(ii) Allow the calculation of simple payback as defined in § 4280.103;

(iii) For RES Projects, enable the calculation of the percentage of historical use of energy compared to the amount of renewable energy that will be generated once the project is operating at its steady state operating level. If the project is closely associated with a residence, demonstration must be made that 50 percent or more of the projected renewable energy will benefit the agricultural operation or rural small business; and

(iv) Demonstrate that the RES or EEI will operate or perform over the project's useful life in a reliable, safe, and a cost-effective manner, which may include but is not limited to addressing project design, installation, operation, maintenance, and warranties.

(2) *Technical report modifications.* If a technical report is prepared prior to the applicant's selection of a final design, equipment vendor, or contractor, or other significant decision, it may be modified and resubmitted to the Agency, provided that the overall scope of the project is not materially changed as determined by the Agency. Changes

in the technical report may require additional environmental documentation in accordance with 7 CFR part 1970.

(3) *Hybrid projects.* If the application is for a hybrid project, technical reports as applicable must be prepared for each technology that comprises the hybrid project.

(h) *Time limit on use of grant funds.* Except as provided in paragraph (h)(1) of this section, grant funds not expended within 2 years from the date the Financial Assistance Agreement was signed by the Agency will be returned to the Agency.

(1) *Time extensions.* The Agency may extend the 2-year time limit for a period not to exceed 24 months if the Agency determines, at its sole discretion, that the grantee is unable to complete the project for reasons beyond the grantee's control. Grantees must submit a request for the no-cost extension no later than 30 days before the two-year anniversary of executing the Financial Assistance Agreement. This request must describe the extenuating circumstances that were beyond their control to complete the project for which the grant was awarded, and why an approval is in the government's best interest.

(2) *Return of funds to the Agency.* Funds remaining after grant closeout that exceed the amount the grantee is entitled to receive under the Financial Assistance Agreement will be returned to the Agency.

§ 4280.111 Notifications.

(a) *Eligibility.* If an applicant and/or their application are determined by the Agency to be eligible for participation, the Agency will notify the applicant or lender in writing of the eligibility determination.

(b) *Ineligibility.* If an applicant and/or their application are determined to be ineligible at any time, the Agency will inform the applicant or lender, as applicable, in writing of the decision, reasons therefore, and any appeal rights, if applicable. No further processing of the application will occur.

(c) *Funding determinations.* Each applicant and/or lender, as applicable, will be notified of the Agency's decision on their application. If unfunded in a competition, the application will compete in the next available competition and will continue competing until either awarded or the application has competed in the maximum number of competitions in a fiscal year. The Agency will then issue an adverse funding determination for the unsuccessful application. If the Agency's decision is not to fund an application, the Agency will include in the notification any applicable appeal or review rights.

RENEWABLE ENERGY SYSTEM AND ENERGY EFFICIENCY IMPROVEMENT GRANTS

§ 4280.112 Applicant eligibility.

To receive a RES or EEI grant under this subpart, an applicant must meet the requirements specified in paragraphs (a) through (g) of this section.

(a) *Type of applicant.* The applicant must be an agricultural producer or rural small business at the time of application.

(b) *Ownership and control.* The applicant must at the time of application and, if an award is made, for the useful life of the project as described in the Financial Assistance Agreement:

(1) Own the project; and

(2) Own or control the site for the project. If the grantee does not maintain ownership of the project and ownership or control of the site, then grant funds may be recovered from the grantee by the Agency in accordance with Departmental Regulations.

(c) *End Users.* If the controlling interest in the applicant entity is otherwise eligible and a legal transaction between two parties for the sale of energy in an open market is being proposed, the Agency will not consider the energy end-users as part of the analysis of the eligibility of the applicant. If the proposed end-user would be an ineligible applicant, such as an entity which is residential in nature or a nonprofit entity, and the REAP applicant entity is a newly formed special-purpose entity with substantially the same ownership as the sole proposed end-user, then the REAP applicant entity is not eligible.

(d) *Revenues and expenses.* The applicant must have available at the time of application satisfactory sources of revenue in an amount sufficient to provide

for the operation, management, maintenance, and any debt service of the project for the useful life of the project. In addition, the applicant must control the revenues and expenses of the project, including its operation and maintenance. Notwithstanding the provisions of this paragraph, the applicant may employ a qualified consultant under contract to manage revenues and expenses of the project and its operation and/or maintenance.

(e) *Legal authority and responsibility*. Each applicant must have the legal authority necessary to apply for and carry out the purpose of the grant.

(f) *Unique Entity Identifier (UEI)*. All applicants must register for a UEI as part of the registration process. Generally, the UEI number is included on Standard Form-424, ''Application for Federal Assistance.''

(g) *System for Awards Management (SAM)*. Unless exempt under 2 CFR 25.110, the applicant must:

(1) Be registered in the SAM prior to submitting an application;

(2) Maintain an active SAM registration with current information at all times while an application is pending and until final fund disbursement has been made.

§ 4280.113 Project eligibility.

For a project to be eligible to receive a RES or EEI grant under this subpart, the proposed project must meet each of the requirements specified in paragraphs (a) through (e) of this section. Subsequent EEI projects must meet the requirements specified in paragraph (a)(5)(ii) of this section. The applicant is cautioned against taking any actions or incurring any obligations prior to the Agency completing the environmental review that would either limit the range of alternatives to be considered or that would have an adverse effect on the environment, such as the initiation of construction. If the applicant takes any such actions or incurs any such obligations, it could result in project ineligibility.

(a) The project must be for:

(1) The purchase of a new RES;

(2) The purchase of a refurbished RES;

(3) The retrofitting of an existing RES;

(4) For the purposes of this subpart, only those hydroelectric sources with a rated power of 30 megawatts or less are eligible, or

(5) Making an EEI that will allow less energy to be used on an annual basis than the original building and/or equipment being improved or replaced as provided in a vendor/installer certification or as demonstrated in an energy assessment or energy audit as applicable.

(i) *Types of improvements*. Eligible EEI include, but are not limited to:

(A) Efficiency improvements to existing RES; and

(B) Construction of a new energy efficient building only when the building is used for the same purpose as the existing building, and, based on an energy assessment or energy audit, as applicable, it will be more cost effective to construct a new building and will use less energy on annual basis than improving the existing building.

(ii) *Subsequent EEI projects*. A proposed EEI project that replaces an EEI project previously funded under this subpart may or may not be eligible for funding.

(A) If the proposed EEI project would replace the same specific EEI equipment that had previously received funds under this subpart prior to the end of the useful life, as specified in the Financial Assistance Agreement, then the proposed improvement project, even if it is more energy efficient than the previously funded improvement, is ineligible.

(B) If the proposed EEI project would replace the same specific EEI equipment that had previously received funds under this subpart at or after the end of the useful life, as specified in the Financial Assistance Agreement, then the proposed improvement is eligible for funding under this subpart provided the EEI is more energy efficient than the previously funded improvement. If the proposed EEI is not more energy efficient than the previously funded improvement, then it is not eligible for funding under this subpart.

(b) The project must utilize commercially available technology;

(c) The project must have technical merit, as determined using the procedures specified in §4280.117; and

(d) The project must be located in a rural area in a State if the type of applicant is a rural small business, or in a rural or non-rural area in a State if the type of applicant is an agricultural producer and the application supports the production, processing, vertical integration, or marketing of agricultural products. If the agricultural producer's operation is in a non-rural area, then the application can only be for RES or EEI components of the business operation that are directly related to and their use and purpose is limited to the agricultural production operation, such as vertically integrated operations, and are part of and co-located with the agricultural production operation.

(e) For a RES project, where a residence is closely associated with and shares an energy metering device with an agricultural operation or rural small business to be served by the RES project, 50 percent or more of the energy to be generated by the RES project must be used by the agricultural operation or rural small business. This also includes projects which will virtually net meter or credit energy to be generated by the RES project to a residence off-site from the project and owned by the applicant. The application must contain sufficient documentation to evaluate this provision which may include using either of the methods identified in paragraphs (e)(1) through (2) of this section.

(1) Provide a renewable energy site assessment or other documentation including calculations that demonstrate, based on historical energy use, that 50 percent or more of the energy to be produced by the RES project will be used in the agricultural operation or rural small business. This includes documentation on historical residential energy use. The Agency may request additional data to determine residential versus business or agricultural operation usage. The actual percentage of energy determined to benefit the rural small business or agricultural operation will be used to determine eligible project costs; or

(2) The applicant may install, or elect to conditionalize funding upon the installation of, a device (such as a second meter) that restricts 100 percent of the energy generated by the RES project to be used only by the agricultural operation or rural small business.

(f) An applicant is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure, subject to the requirements of 7 CFR 1980, Subpart M, Special Authority to Enable Funding of Broadband and Smart Utility Facilities Across Select Rural Development Programs.

§4280.114 Ineligible projects.

The Agency will not award funding under this part for any projects identified in this section, unless otherwise noted.

(a) Research and development projects and projects that involve technology that is not commercially available;

(b) Business operations that derive more than 10 percent of annual gross revenue from gambling activity. Gambling activities include any lease income from space or machines used for gambling activities. State or Tribal-authorized lottery proceeds, as approved by the Agency, conducted for the purpose of raising funds for the approved project are excluded;

(c) Business operations deriving income from activities of a sexual nature or illegal activities;

(d) Residential RES or EEI projects, including farm labor housing, apartment complexes, and owner-occupied bed and breakfasts, except for-profit nursing homes and assisted living facilities that provide full-time medical care for residents, and for-profit hotels that provide short-term housing;

(e) Racetracks or facilities for conducting either professional or amateur races of animals, or by professional or amateur drivers or jockeys, or any other type of racing;

(f) RES projects that co-fire with fossil fuels, natural gas or petroleum-based products or materials such as coal and other non-renewable fuels, oils, and chemicals, and tires or plastic;

(g) Projects where 50 percent or more of the costs are ineligible or where

project costs as defined in the application do not meet the definition of a renewable energy system or energy efficiency improvement, including projects submitted for labor costs only. Project costs associated with an EEI that are not clearly identified in the energy assessment or audit will be considered ineligible costs; and

(h) Projects proposing two or more different types of RES technologies that are not incorporated into a unified system and projects proposing two or more different types of RES technologies at two or more locations.

§ 4280.115 RES and EEI grant funding.

(a) *Grant amounts.* The amount of grant funds that will be made available to an eligible RES or EEI project under this subpart will not exceed 25 percent of eligible project costs. Eligible project costs are specified in paragraph (c) of this section.

(1) *Minimum request.* Unless otherwise specified in a FEDERAL REGISTER notice, the minimum request for a RES grant application is $2,500 and the minimum request for an EEI grant application is $1,500.

(2) *Maximum request.* Unless otherwise specified in a FEDERAL REGISTER notice, the maximum request for a RES grant application is $500,000 and the maximum request for an EEI grant application is $250,000.

(3) *Maximum grant assistance.* Unless otherwise specified in a FEDERAL REGISTER notice, the maximum amount of grant assistance to one person or entity under this subpart will not exceed $750,000 per Federal fiscal year.

(b) *Matching funds and other funds.* The applicant is responsible for securing the remainder of the total project costs not covered by grant funds.

(1) Without specific statutory authority, other Federal grant funds cannot be used to meet the matching funds requirement. A copy of the statutory authority must be provided to the Agency to verify if the other Federal grant funds can be used to meet the matching funds requirement under this subpart.

(2) Passive third-party equity contributions are acceptable for RES projects, including equity raised from the sale of Federal tax credits.

(c) *Eligible Project Costs.* Eligible project costs are only those costs incurred after a complete application has been received by the Agency and are associated with the items identified in paragraphs (c)(1) through (6) of this section. Each item identified in paragraphs (c)(1) through (6) of this section is only an eligible project cost if it is directly related to and its use and purpose is limited to the RES or EEI.

(1) Purchase and installation of new or refurbished equipment.

(2) Construction, retrofitting, replacement, and improvements.

(3) EEI identified by vendor/installer certification or in the applicable energy assessment or energy audit.

(4) Fees for construction permits and licenses and fees required by an interconnection agreement.

(5) Professional service fees related to the project for qualified consultants, contractors, installers, and other third-party services.

(6) For an eligible RES in which a residence is closely associated with the rural small business or agricultural operation the installation of a second meter to separate the residence from the portion of the project that benefits the rural small business or agricultural operation, as applicable.

(d) *Ineligible project costs.* Ineligible project costs for RES and EEI projects include, but are not limited to:

(1) Costs for agricultural tillage equipment, used equipment, and vehicles;

(2) Construction or equipment costs that would be incurred regardless of the installation of a RES or EEI.

(3) Lease payments, including lease to own or capitalized leases;

(4) Any project cost that creates a conflict of interest or an appearance of a conflict of interest as provided in § 4280.106;

(5) Funds used for political or lobbying activities; and

(6) Funds used to pay off any Federal direct or guaranteed loans or other Federal debts.

(e) *Award amount considerations.* In determining the amount of a RES or EEI grant awarded, the Agency will take into consideration the following six criteria:

(1) The type of RES to be purchased;

(2) The estimated quantity of energy to be generated by the RES;

(3) The expected environmental benefits of the RES;

(4) The quantity of energy savings expected to be derived from the activity, as certified by the vendor/installer as applicable, or demonstrated by an energy audit or energy assessment;

(5) The estimated period of time for the energy savings generated by the activity to equal the cost of the activity; and

(6) The expected energy efficiency of the RES.

§4280.116 Grant applications—general.

(a) *General.* Separate applications must be submitted for RES and EEI projects. An original, hardcopy or electronic, of each application is required.

(b) *Application content.* Applications for RES projects or EEI projects must contain the information specified in §4280.118 unless the requirements of either §4280.119(a) or §4280.120(a) are met. If the requirements of §4280.119(a) are met, the application may contain the information specified in §4280.119(b). If the requirements of §4280.120(a) are met, the application may contain the information specified in §4280.120(b). For RES Projects only, the Agency may require a feasibility study based on the scope of the project to the applicant's overall operations, including new facilities with significant impacts on an existing operation, or when the application information or technical report does not provide sufficient documentation and analysis of the project's engineering, technical, financial, or market feasibility, or the economic viability of the project including any feedstock or off-take agreements, that are needed to evaluate whether a project will be successful. The elements of an acceptable feasibility study may vary by project scope and should be prepared by a qualified and independent third party.

(c) *Evaluation of applications.* The Agency will evaluate each RES and EEI grant application and make a determination as to whether the application meets the criteria specified in paragraphs (c)(1) through (4).

(1) The application is complete, as defined in §4280.103;

(2) The Applicant is eligible according to §4280.112;

(3) The project is eligible according to §4280.113; and

(4) The proposed project has technical merit as determined under §4280.117.

§4280.117 Determination of technical merit.

The Agency will determine the technical merit of all proposed projects for which complete applications are submitted under §§4280.118, 4280.119, and 4280.120 under this subpart using the procedures specified in this section. Only projects that have been determined by the Agency to have technical merit are eligible for funding under this subpart.

(a) *General.* The Agency will use the information provided in the applicant's application and/or technical report to determine whether or not the project has technical merit. In making this determination, the Agency may engage the services of other Government agencies or other recognized industry experts in the applicable technology field, at its discretion, to evaluate and rate the technical report. The technical report can also be provided in the technical feasibility section of the feasibility study, when required, instead of completing a separate technical report.

(b) *Technical report areas.* The areas that the Agency will evaluate in the technical reports when making the technical merit determination are specified in paragraphs (b)(1) through (5) of this section.

(1) *EEI whose total project costs are $80,000 or less.* The following areas will be evaluated in making the technical merit determination:

(i) Project description;

(ii) Qualifications of EEI provider(s); and

(iii) Vender/Installer certification, energy assessment, or energy audit.

(2) *RES whose total project costs are $80,000 or less.* The following areas will be evaluated in making the technical merit determination:

(i) Project description;

(ii) Resource assessment;

(iii) Project economic assessment; and

(iv) Qualifications of key service providers.

(3) *EEI whose total project costs are greater than $80,000.* The following areas will be evaluated in making the technical merit determination:

(i) Project information;

(ii) Energy assessment or energy audit; and

(iii) Qualifications of the contractor or installers.

(4) *RES whose total project costs are less than $200,000, but more than $80,000.* The following areas will be evaluated in making the technical merit determination:

(i) Project description;

(ii) Resource assessment;

(iii) Project economic assessment;

(iv) Project construction and equipment; and

(v) Qualifications of key service providers.

(5) *RES whose total project costs are $200,000 and greater.* The following areas will be evaluated in making the technical merit determination:

(i) Qualifications of the project team;

(ii) Agreements and permits;

(iii) Resource assessment;

(iv) Design and engineering;

(v) Project development;

(vi) Equipment procurement and installation; and

(vii) Operations and maintenance.

(c) *Pass/Pass with conditions/fail assignments.* The Agency will assign each area of the technical report, as specified in paragraph (b) of this section, a ''pass,'' ''pass with conditions,'' or ''fail.'' An area will receive a ''pass'' if the information provided for the area has no weaknesses and meets or exceeds any requirements specified for the area. An area will receive a ''pass with conditions'' if the information provided for the area has minor weaknesses which could be conditionalized and reasonably resolved by the applicant. Otherwise, if the information provided for the area is conclusively deemed to be a major weakness or if the area has not been addressed by the applicant, the area will receive a ''fail.''

(d) *Determination.* The Agency will compile the results for each area of the technical report to determine if the project has technical merit.

(1) A project whose technical report receives a ''pass'' in each of the applicable technical report areas will be considered to have ''technical merit.''

(2) A project whose technical report receives a ''pass with conditions'' in one or more the applicable areas will be considered to have ''conditional technical merit.''

(3) A project whose technical report receives a ''fail'' in any one technical report area will be considered to be without technical merit.

(e) *Further processing of applications.* A project that is determined to have ''technical merit'' or ''conditional technical merit'' is eligible for further consideration for funding. Projects with ''conditional technical merit'' would be subject to funding conditions that would need to be met to ensure full technical merit prior to completion of the project. A project that is determined to be ''without technical merit'' is considered to be an incomplete application and therefore is not eligible to compete for funding.

§ 4280.118 Grant applications for RES and EEI projects with total project costs of $200,000 and greater.

Grant applications for RES and EEI projects with total project costs of $200,000 and greater must provide the information specified in paragraphs (a) through (c) of this section, as applicable. Each applicant is encouraged, but is not required, to self-score the project using the evaluation criteria in § 4280.121.

(a) *Forms and certifications.* Each application must contain the forms and certifications specified in paragraphs (a)(1) through (10), as applicable, of this section, except paragraph (a)(5) is optional.

(1) Form RD 4280–3C, ''Application for Renewable Energy Systems and Energy Efficiency Improvement Projects Total Project Costs of $200,000 or Greater''.

(2) Form SF–424, ''Application for Federal Assistance.''

(3) Form SF–424C, ''Budget Information—Construction Programs.''

(4) Form SF–424D, ''Assurances—Construction Programs.''

(5) Identify the ethnicity, race, and gender of the applicant. Identify if the borrower is a veteran. This information

is optional and is not required for a complete application but may be used by the Agency to award priority points.

(6) Environmental documentation in accordance with 7 CFR part 1970. The applicant should contact the Agency to determine what documentation is required to be provided.

(7) The applicant must identify whether or not the applicant has a known relationship or association with an Agency employee. If there is a known relationship, the applicant must identify each Agency employee with whom the applicant has a known relationship.

(8) Certification that the applicant is a legal entity in good standing (as applicable) and operating in accordance with the laws of the State(s) or Tribe(s) where the applicant has a place of business.

(9) Certification by the applicant that the equipment required for the project is available, can be procured and delivered within the proposed project development schedule, and will be installed in conformance with manufacturer's specifications and design requirements. This would not be applicable when equipment is not part of the project.

(10) Certification by the applicant that the project will be constructed in accordance with applicable laws, regulations, agreements, permits, codes, and standards.

(b) *Applicant information*. Provide information specified in paragraphs (b)(1) through (4) of this section to allow the Agency to determine the eligibility of the applicant.

(1) *Type of applicant*. Eligible applicants must meet the definition of agricultural producer or rural small business as defined in §4280.103. Agricultural producers seeking funding for a RES or EEI project may apply as either a rural small business or as an agricultural producer, provided they meet the applicable eligibility requirements. The applicant must provide the primary North American Industry Classification System (NAICS) code applicable to the applicant's business concern and certify on the Agency approved application form that they meet the definition of agricultural producer or rural small business. The Agency reserves the right to request supporting documentation to verify applicant eligibility.

(2) *Applicant description*. Describe the ownership of the applicant, including the information specified in paragraphs (b)(2)(i) and (ii) of this section as applicable. Include a description of the applicant's farm/ranch/business operation, including how long the applicant has been in operation.

(i) Describe how the applicant meets the ownership and control requirements as identified in §4280.112(b).

(ii) For each entity(ies) it controls or entity(ies) it is controlled by, provide a list of the individual owners with their contact information. Describe the relationship between the applicant and the other entity(ies), including percent ownership and control, management, passive investor ownership, and as applicable products exchanged. Organizational charts to demonstrate structure should be submitted when applicable.

(3) *Financial information*. Financial information is required on the total operation of the applicant and all entity(ies) it controls or entity(ies) that control the applicant.

(i) All financial information (*e.g.*, financial statements, balance sheets, financial projections, income statements) must be submitted in accordance with accounting practices acceptable to the Agency. Such practices can include, but are not limited to, Generally Accepted Accounting Principles (GAAP) and the industry's standard accounting practice.

(ii) For sole proprietorships and other situations where business assets are held personally, financial statements must be prepared using only the assets and liabilities directly attributable to the business. Assets, plus any improvements must be valued at the lower of cost or market value.

(iii) The Agency may request additional financial statements, financial models, cash flow information, updated financial statements, and other related financial information to determine the financial feasibility of a Project. Required financial statements:

(A) *Historical financial statements.* Provide Agency-acceptable historical balance sheets and income statements

the lesser of the last 3 fiscal years or all years of operation.

(B) *Current balance sheet and income statement.* Provide a current Agency-acceptable balance sheet and year-to-date income statement dated within 90 days of submission of the complete application.

(C) *Pro forma financial statements.* Provide balance sheets, income statements, and cash flow statements or financial model starting from the current financial statements through a minimum of 2 years of the project performing at full operational capacity or stable operations. Financial projections must be supported by a list of assumptions showing the basis for the projections.

(4) *Previous grants and loans.* State whether the applicant has received and accepted any grants or guaranteed loan commitments under this subpart or any guaranteed loans under 7 CFR 5001. If the applicant has, identify each such grant award or guaranteed loan commitment and describe the progress the applicant has made on each project for which the grant or loan was received, including projected schedules and actual completion dates.

(c) *Project information.* Provide information concerning the proposed project as a whole and its relationship to the applicant's operations, including the following:

(1) Identification as to whether the project is for a RES or an EEI project. Include a description and the location of the project.

(2) A description of the process that will be used to conduct all procurement transactions to demonstrate compliance with § 4280.125(a)(1).

(3) Indicate if the proposed project will have a positive effect on resource conservation (*e.g.,* water, soil, forest), public health (*e.g.*, potable water, air quality), and the environment (*e.g.*, compliance with the U.S. Environmental Protection Agency's (EPA) renewable fuel standard(s), greenhouse gases, emissions, particulate matter).

(4) Identify the amount of funds and the source(s) the applicant is proposing to use for the project. Provide written commitments for funds at the time the application is submitted to receive points under this scoring criterion.

(i) If financial resources come from the applicant, documentation may include bank statements that demonstrates availability of funds.

(ii) If a third party is providing financial assistance, the applicant must submit a commitment letter signed by an authorized official of the third party. The letter must be specific to the project and must identify the dollar amount and any applicable rates and terms. If the third-party commitment is a loan, the commitment must be firm; a letter-of-intent or pre-qualification letter subject to underwriting requirements or contingencies are not acceptable. An acceptable condition may be based on the receipt of the REAP grant or an appraisal.

(d) *Technical report.* Each application must contain a technical report prepared in accordance with § 4280.110(g) and Appendix A or C, as applicable, of this subpart.

(e) *Construction planning and performing development.* Each application submitted must be in accordance with § 4280.125 for planning, designing, bidding, contracting, and constructing RES and EEI projects as applicable.

§ 4280.119 Grant applications for RES and EEI projects with total project costs of less than $200,000, but more than $80,000.

Grant applications for RES and EEI projects with total project costs of less than $200,000, but more than $80,000, may provide the information specified in this section or, if the applicant elects to do so, the information specified in § 4280.118. In order to submit an application under this section, the criteria specified in paragraph (a) of this section must be met. The content for applications submitted under this section is specified in paragraph (b) of this section. Unless otherwise specified in this subpart, the construction planning and performing development procedures and the payment process that will be used for awards for applications submitted under this section are specified in paragraphs (c) and (d), respectively, of this section.

(a) *Criteria for submitting applications for projects with total project costs of less than $200,000, but more than $80,000.* In order to submit an application under

this section, each of the conditions specified in paragraphs (a)(1) through (7) of this section must be met.

(1) The applicant must be eligible in accordance with §4280.112.

(2) The project must be eligible in accordance with §4280.113.

(3) Total project costs must be less than $200,000, but more than $80,000.

(4) Construction planning and performing development must be performed in compliance with paragraph (c) of this section. The applicant or the applicant's prime contractor assumes all risks and responsibilities of project development.

(5) The applicant or the applicant's prime contractor is responsible for all interim financing, including during construction.

(6) The applicant agrees not to request reimbursement from funds obligated under this program until after project completion and is operating in accordance with the information provided in the application for the project.

(7) The applicant must maintain insurance as required under §4280.123(b), except business interruption insurance is not required.

(b) *Application content.* Applications submitted under this section must contain the information specified in paragraphs (b)(1) through (4) of this section. Each applicant is encouraged, but is not required, to self-score the project using the evaluation criteria in §4280.121.

(1) *Forms and certifications.* The application must contain the items identified in §4280.118(a), except that Form RD 4280–3B, ''Application for Renewable Energy Systems and Energy Efficiency Improvement Projects Total Project Costs of Less than $200,000, But More Than $80,000'' may be used instead of the form noted in §4280.118 (a)(1). In addition, the applicant must submit a certification that the applicant meets each of the criteria for submitting an application under this section as specified in paragraph (a) of this section.

(2) *Applicant information.* The application must contain the items identified in §4280.118(b), except that the information specified in §4280.118(b)(3) is not required. The Agency reserves the right to request supporting documentation to verify applicant eligibility.

(3) *Project information.* The application must contain the items identified in §4280.118(c).

(4) *Technical report.* Each application must contain a technical report in accordance with §4280.110(g) and Appendix A or B, as applicable, of this subpart.

(c) *Construction planning and performing development.* Applicants submitting applications under this section must comply with the requirements specified in paragraphs (c)(1) through (3) of this section for construction planning and performing development.

(1) *General.* Paragraphs (a)(1), (2), and (4) of §4280.125 apply.

(2) *Small acquisition and construction procedures.* Small acquisition and construction procedures are those relatively simple and informal procurement methods that are sound and appropriate for a procurement of services, equipment, and construction of a RES or EEI project with a total project cost of not more than $200,000. The applicant is solely responsible for the execution of all contracts under this procedure, and Agency review and approval is not required.

(3) *Contractor forms.* Applicants must have each contractor sign, as applicable:

(i) Form RD 400–6, ''Compliance Statement,'' for contracts exceeding $10,000; and

(ii) Form AD–1048, ''Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions,'' for contracts exceeding $25,000.

(d) *Payment process for applications for RES and EEI projects with total project costs of less than $200,000, but more than $80,000.*

(1) Upon completion of the project, the grantee must submit to the Agency a copy of the contractor's certification of final completion for the project and a statement that the grantee accepts the work completed. At its discretion, the Agency may require the applicant to have an inspector certify that the project is constructed and installed correctly.

(2) The RES or EEI project must be constructed, installed, and operating as

described in the technical report prior to disbursement of funds. For RES, the system must be operating at the steady state operating level described in the technical report for a period of not less than 30 days, unless this requirement is modified by the Agency, prior to disbursement of funds. Any modification to the 30-day steady state operating level requirement will be based on the Agency's review of the technical report and will be incorporated into the Letter of Conditions.

(3) Prior to making payment, the Agency will be provided with Form RD 1924–9, ''Certificate of Contractor's Release,'' and Form RD 1924–10, ''Release by Claimants,'' or similar forms, executed by all persons who furnished materials or labor in connection with the contract.

§ 4280.120 Grant applications for RES and EEI projects with total project costs of $80,000 or less.

Grant applications for RES and EEI projects with total project costs of $80,000 or less must provide the information specified in this section or, if the applicant elects to do so, the information specified in either §§ 4280.118 or 4280.119. In order to submit an application under this section, the criteria specified in paragraph (a) of this section must be met. The content for applications submitted under this section is specified in paragraph (b) of this section. Unless otherwise specified in this subpart, the construction planning and performing development procedures and the payment process that will be used for awards for applications submitted under this section are specified in paragraphs (c) and (d), respectively, of this section.

(a) *Criteria for submitting applications for RES and EEI projects with total project costs of $80,000 or less.* In order to submit an application under this section, each of the conditions specified in paragraphs (a)(1) through (7) of this section must be met.

(1) The applicant must be eligible in accordance with § 4280.112.

(2) The project must be eligible in accordance with § 4280.113.

(3) Total project costs must be $80,000 or less.

(4) Construction planning and performing development must be performed in compliance with paragraph (c) of this section. The applicant or the applicant's prime contractor assumes all risks and responsibilities of project development.

(5) The applicant or the applicant's prime contractor is responsible for all interim financing, including during construction.

(6) The applicant agrees not to request reimbursement from funds obligated under this program until after the project has been completed and is operating in accordance with the information provided in the application for the project.

(7) The applicant must maintain insurance as required under § 4280.123(b), except business interruption insurance is not required.

(b) *Application content.* Applications submitted under this section must contain the information specified in paragraphs (b)(1) through (4), as applicable. Each applicant is encouraged, but is not required, to self-score the project using the evaluation criteria in § 4280.121.

(1) *Forms and certifications.* Each application must contain the forms and certifications specified in paragraphs (b)(1)(i) through (x), as applicable, of this section except that paragraph (b)(1)(v) is optional.

(i) Form RD 4280–3A, ''Application for Renewable Energy Systems and Energy Efficiency Improvement Projects Total Project Costs of $80,000 or Less''.

(ii) Form SF–424, ''Application for Federal Assistance''.

(iii) Form SF–424C, ''Budget Information for Construction Programs''.

(iv) Form SF–424D, ''Assurances for Construction Programs''.

(v) Identify the ethnicity, race, and gender of the applicant. Identify if the borrower is a veteran. This information is optional and is not required for a complete application but may be used by the Agency to award priority points.

(vi) Environmental documentation in accordance with 7 CFR part 1970. The applicant should contact the Agency to determine what documentation is required to be provided.

(vii) Certification by the applicant that:

(A) The applicant meets each of the applicant eligibility criteria found in § 4280.112. The Agency reserves the right to request supporting documentation to verify applicant eligibility;

(B) The proposed project meets each of the project eligibility requirements found in § 4280.113;

(C) The design, engineering, testing, and monitoring will be sufficient to demonstrate that the proposed project will meet its intended purpose;

(D) The equipment required for the project is available, can be procured and delivered within the proposed project development schedule, and will be installed in conformance with manufacturer's specifications and design requirements. This would not be applicable when equipment is not part of the project;

(E) The project will be constructed in accordance with applicable laws, regulations, agreements, permits, codes, and standards;

(F) The applicant meets the criteria for submitting an application for projects with total project costs of $80,000 or less;

(G) The applicant will abide by the open and free competition requirements in compliance with § 4280.125(a)(1); and

(H) For bioenergy projects, any and all woody biomass feedstock from National Forest System land or public lands cannot be otherwise used as a higher value wood-based product.

(viii) State whether the applicant has received any grants and/or guaranteed loans under this subpart, or any guaranteed loans under 7 CFR part 5001. If the applicant has, identify each such grant and/or loan and describe the progress the applicant has made on each project for which the grant and/or loan was received, including projected schedules and actual completion dates.

(ix) The applicant must identify whether or not the applicant has a known relationship or association with an Agency employee. If there is a known relationship, the applicant must identify each Agency employee with whom the applicant has a known relationship.

(x) The applicant is a legal entity in good standing (as applicable) and operating in accordance with the laws of the State(s) or Tribe where the applicant has a place of business.

(2) *General.* For both RES and EEI project applications:

(i) Identify whether the project is for a RES or an EEI project;

(ii) Identify the primary NAICS code applicable to the applicant's operation if known or a description of the operation in enough detail for the Agency to determine the primary NAICS code;

(iii) Indicate if the proposed project will have a positive effect on resource conservation (*e.g.*, water, soil, forest), public health (*e.g.*, potable water, air quality), and the environment (*e.g.*, compliance with the EPA's renewable fuel standard(s), greenhouse gases, emissions, particulate matter); and

(iv) Identify the amount of matching funds and other funds and the source(s) the applicant is proposing to use for the project. In order to receive points under this scoring criterion, written commitments for funds (*e.g.*, a Letter of commitment, bank statement) must be submitted when the application is submitted.

(A) If financial resources come from the applicant, documentation may include a bank statement that demonstrates availability of funds.

(B) If a third party is providing financial assistance, the applicant must submit a commitment letter signed by an authorized official of the third party. The letter must be specific to the project, identify the dollar amount and any applicable rates and terms. If the third-party commitment is a loan, the commitment must be firm, a letter-of-intent or pre-qualification letter, subject to underwriting requirements or contingencies are not acceptable. An acceptable condition may be based on the receipt of the REAP grant or an appraisal.

(3) *Technical report for EEI.* Each EEI application submitted under this section must include a technical report in accordance with § 4280.110(g) and paragraphs (b)(3)(i) through (iv) of this section.

(i) *Project description.* Provide a description of the proposed EEI, including its intended purpose and a vendor/

installer certification that the EEI project meets the requirements for being commercially available.

(ii) *Qualifications of EEI provider(s).* Provide a certification by the vendor/installer that:

(A) They are qualified to complete the project as intended, including the number of years of experience with the proposed EEI technology. Any contractor or installer with less than 2 years of experience may be required to provide additional information in order for the Agency to determine if they are a qualified installer/contractor.

(B) The EEI system will operate and perform over the project's useful life in a reliable and cost-effective manner; and

(iii) *Energy assessment.* Provide a copy of the energy assessment (or energy audit) performed for the project as required under Section C of Appendix A to this subpart and the qualifications of the person which completed the energy assessment.

(iv) *Simple payback.* Provide an estimate of simple payback, including all calculations, documentation, and any assumptions.

(4) *Technical report for RES.* Each RES application submitted under this section must include a technical report in accordance with § 4280.110(g) and paragraphs (b)(4)(i) through (iv) of this section.

(i) *Project description.* Provide a description of the project, including its intended purpose and a vendor/installer certification that the RES project meets the requirements for being commercially available. Appendix B contains instructions for how a project is to be constructed and installed. Identify the project's location and describe the project site.

(ii) *Resource assessment.* Provide vendor/installer certified projections on energy to be replaced and/or generated once the proposed system is operating at its steady state operating level, including the quality and availability of the renewable resource to the project. If there is a residence closely associated with the RES project, include the historical amount of energy used by the residence and the historical amount of energy used by the agricultural operation or rural small business, as applicable, to satisfactorily demonstrate 50% or more of proposed generation will benefit the agricultural operation or rural small business;

(iii) *Project economic assessment.* Describe the projected financial performance of the proposed project. The description must address total project costs, revenues accrued from the sale or crediting of energy, quantity and value of energy offset, and revenue from byproducts. Include applicable investment and other production incentives and indicate if they are a one time or reoccurring incentive. Provide an estimate of simple payback, including all calculations, documentation, and any assumptions; and

(iv) *Qualifications of key service providers.* Provide a certification by the vendor/installer that:

(A) They are qualified to complete the project as intended, including the number of similar systems installed previously and any professional credentials, licenses, and relevant experience. If specific numbers are not available for similar systems, you may submit an estimation of the number of similar systems; and

(B) The RES system will operate and perform over the project's useful life in a reliable and cost-effective manner.

(c) *Construction planning and performing development for applications submitted under this section.* All applicants submitting applications under this section must comply with the requirements specified in paragraphs (c)(1) through (3) of this section for construction planning and performing development.

(1) *General.* Paragraphs (a)(1), (2), and (4) of § 4280.125 apply.

(2) *Small acquisition and construction procedures.* Small acquisition and construction procedures are those relatively simple and informal procurement methods that are sound and appropriate for a procurement of services, equipment and construction of a RES or EEI project with a total project cost of not more than $80,000. The applicant is solely responsible for the execution of all contracts under this procedure, and Agency review and approval is not required.

(3) *Contractor forms.* Applicants must have each contractor sign, as applicable:

(i) Form RD 400–6, ''Compliance Statement'' for contracts exceeding $10,000; and

(ii) Form AD–1048, ''Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion lower Tier Covered Transactions'' for contracts exceeding $25,000.

(d) *Payment process for applications for RES and EEI projects with total project costs of $80,000 or less.* (1) Upon completion of the project, the grantee must submit to the Agency a copy of the contractor's certification of final completion for the project and a statement that the grantee accepts the work completed. At its discretion, the Agency may require the applicant to have an inspector certify that the project is constructed and installed correctly.

(2) The RES or EEI project must be constructed, installed, and currently be operating as described in the technical report prior to disbursement of funds. For RES, the system must be operating at the steady state operating level described in the technical report for a period of not less than 30 days, unless this requirement is modified by the Agency, prior to disbursement of funds. Any modification to the 30-day steady state operating level requirement will be based on the Agency's review of the technical report and will be incorporated into the Letter of Conditions.

(3) Prior to making payment, the grantee must provide the Agency with Form RD 1924–9 and Form RD 1924–10, or similar forms, executed by all persons who furnished materials or labor in connection with the contract.

§ 4280.121 Scoring RES and EEI grant applications.

Agency personnel will score each complete and eligible RES and EEI application based on the scoring criteria specified in this section, unless otherwise specified in a FEDERAL REGISTER notice, with a maximum score of 100 points possible.

(a) *Environmental benefits.* A maximum of 5 points will be awarded for this criterion based on whether the applicant has indicated in the application that the proposed project will have a positive effect on resource conservation (*e.g.*, water, soil, forest), public health (*e.g.*, potable water, air quality), and the environment (*e.g.*, compliance with EPA's renewable fuel standard(s), greenhouse gases, emissions, particulate matter). If the project will have a positive impact on:

(1) Any one of the three impact areas, 1 point will be awarded.

(2) Any two of the three impact areas, 3 points will be awarded.

(3) All three impact areas, 5 points will be awarded.

(b) *Energy generated, replaced, or saved.* A maximum of 25 points will be awarded for this criterion. Applications for RES and EEI projects are eligible for points under both paragraphs (b)(1) and (2) of this section.

(1) *Quantity of energy generated or saved per REAP grant dollar requested.* A maximum of 10 points will be awarded for this sub-criterion. For RES and EEI projects, points will be awarded for either the amount of renewable energy generation per grant dollar requested, which includes those projects that are replacing energy usage with a renewable source; or the actual annual average energy savings over the most recent 12, 24, 36, 48, or 60 consecutive months of operation per grant dollar requested. Points will not be awarded for more than one category.

(i) *RES.* The quantity of energy generated or replaced per grant dollar requested will be determined by dividing the projected total annual energy generated or replaced by the RES or RES retrofit (minus energy for residential use), which will be converted to BTUs, by the grant dollars requested. Points will be awarded based on the annual amount of energy generated or replaced (minus energy for residential use) per grant dollar requested for the proposed RES project. In cases where there are ineligible pre-application costs, the entire quantity of energy produced by the system is utilized for this scoring criteria as long as the use of energy produced is eligible. The Agency will award up to 10 points as determined using paragraphs (b)(1)(i)(A) and (B) of this section. If the annual amount of energy generated or replaced per grant dollar requested is:

(A) 50,000 BTUs average annual energy generated or replaced per grant dollar requested or higher, 10 points will be awarded; or

(B) Less than 50,000 BTUs annual energy generated or replaced per grant dollar requested, points will be awarded according to the results of taking the energy generated or replaced per grant dollar requested/50,000 × 10 points. The points awarded are rounded to the nearest hundredth of a point.

(ii) *EEI.* The Agency will award up to 10 points under this sub-criterion based on the average annual energy saved per grant dollar requested for the EEI project. The Agency will award up to 10 points as determined under paragraph (b)(1)(ii)(A) and (B) of this section. If the average annual energy saved per grant dollar requested is:

(A) 50,000 BTUs average annual energy saved per grant dollar requested or higher, 10 points will be awarded; or

(B) Less than 50,000 BTUs average annual energy saved per grant dollar requested, points will be awarded according to the result of taking the energy saved per grant dollar requested/50,000 × 10 points. The points awarded are rounded to the nearest hundredth of a point.

(2) *Quantity of energy replaced, generated, or saved.* A maximum of 15 points will be awarded for this sub-criterion. Points will be awarded on the basis of whether the project is for energy replacement, energy savings, or energy generation; points will not be awarded for more than one category.

(i) *Energy replacement.* The Agency will award points under this sub-criterion for a RES project based on the amount of energy replaced by the project compared to the amount of energy used by the applicable process(es) over a 12-month period. If the estimated energy produced is more than 150 percent of the energy used by the applicable process(es), the project will be scored as an energy generation project under paragraph (b)(2)(ii) of this section.

(A) *Documentation for energy replacement.* For a RES project to qualify as energy replacement, the applicant must provide documentation in its application on prior energy use incurred by the applicant. Proposed energy use, such as that attributed to an expansion, is not considered in the replacement calculation. For a RES project involving new construction and being installed to serve the new facility, the project can be classified as energy replacement only if the applicant can document prior energy use from a facility that is within plus or minus 10 percent of the size of the facility it is replacing. The estimated quantities of energy must be converted to either BTUs, watts, or similar energy equivalents to facilitate scoring.

(B) *Calculation.* Energy replacement is determined by dividing the quantity of renewable energy that the RES project is estimated would have been generated if it were in place over the most recent 12-month period by the quantity of energy actually consumed over the same period by the applicable energy process(es) that is(are) consuming energy.

(C) *Awarding of points.* Using the results from paragraph (b)(2)(i)(B) of this section, if the percentage of energy replacement is:

(*1*) Greater than 50 percent, 15 points will be awarded;

(*2*) Greater than 25 percent, but equal to or less than 50 percent, 10 points will be awarded; or

(*3*) Equal to or less than 25 percent, 5 points will be awarded.

(ii) *Energy generation.* If the proposed RES is intended for production of energy or is a proposed retrofitting of an existing RES which increases the amount of energy generated, the Agency will award 10 points.

(iii) *Energy saved.* The Agency will award up to 15 points under this sub-criterion for an EEI project based on the percentage of estimated energy saved by the installation of the project as determined by the projections in the applicable energy assessment or energy audit. If the estimated energy expected to be saved over the same period used in the energy assessment or energy audit, as applicable, will be:

(A) 50 percent or greater, 15 points will be awarded;

(B) 35 percent up to, but not including 50 percent, 10 points will be awarded;

(C) 20 percent up to, but not including 35 percent, 5 points will be awarded; or

(D) Less than 20 percent, no points will be awarded.

(c) *Commitment of funds.* A maximum of 15 points will be awarded for this criterion based on the percentage of written commitment an applicant has from its fund sources that are documented with a complete application.

(1) *Calculation.* The percentage of written commitment is calculated as follows: Percentage of written commitment = total amount of funds for which written commitments have been submitted with the application/total amount of matching funds and other funds required.

(2) *Awarding of points.* Using the result from paragraph (c)(1) of this section, the Agency will award points as shown in paragraphs (c)(2)(i) through (iii) of this section.

(i) If the percentage of written commitments is 100 percent of the matching funds, 15 points will be awarded.

(ii) If the percentage of written commitments is less than 100 percent, but more than 50 percent, points will be awarded as follows: ((Percentage of written commitments −50 percent)/(50 percent)) × 15 points, where points awarded are rounded to the nearest hundredth of a point.

(iii) If the percentage of written commitments is 50 percent or less, no points will be awarded.

(d) *Previous grantees and borrowers.* A maximum of 15 points will be awarded for this criterion based on whether the applicant has received and accepted a REAP grant award or guaranteed loan commitment under 7 CFR part 4280 of this title or a guaranteed loan commitment under either this part or 7 CFR part 5001 of this title.

(1) If the applicant has never received and accepted a grant award or a guaranteed loan commitment under either this part or 7 CFR part 5001 of this title, 15 points will be awarded.

(2) If the applicant has not received and accepted a grant award or guaranteed loan commitment under this subpart, or a guaranteed loan commitment under 7 CFR part 5001 of this title within the 2 previous Federal fiscal years, 5 points will be awarded.

(3) If the applicant has received a grant award or guaranteed loan commitment under this subpart, or a guaranteed loan commitment under 7 CFR part 5001 of this title within the 2 previous Federal fiscal years, no points will be awarded.

(e) *Existing business.* A maximum of 5 points will be awarded for an existing agricultural producer business or rural small business that meets the definition of existing business in §4280.103 of this part.

(f) *Simple payback.* A maximum of 15 points will be awarded for this criterion based on the simple payback of the project as defined in §4280.103. Points will be awarded for either RES or EEI; points will not be awarded for more than one category.

(1) *RES.* If the simple payback of the proposed project is:

(i) Less than 10 years, 15 points will be awarded;

(ii) 10 years up to but not including 15 years, 10 points will be awarded;

(iii) 15 years up to and including 25 years, 5 points will be awarded; or

(iv) Longer than 25 years, no points will be awarded.

(2) *EEI.* If the simple payback of the proposed project is:

(i) Less than 4 years, 15 points will be awarded;

(ii) 4 years up to but not including 8 years, 10 points will be awarded;

(iii) 8 years up to and including 12 years, 5 points will be awarded; or

(iv) Longer than 12 years, no points will be awarded.

(g) *Size of request.* For grant applications requesting $250,000 or less for RES, or $125,000 or less for EEI, an additional 10 points may be awarded such that a maximum score of 100 points is possible. All other applications will have a maximum possible score of 90 points.

(h) *State Director and Administrator priority points.* A maximum of 10 points are available for this criterion. A State Director, for its State allocation under this subpart, or the Administrator, for making awards from the National Office reserve, may award up to 10 points to an application based on the conditions specified in paragraphs (h)(1) through (5) of this section. In no case

shall an application receive more than 10 points under this criterion.

(1) The application is for an underrepresented technology.

(2) Selecting the application helps achieve geographic diversity, which may include points based upon the size of the funding request.

(3) The applicant is a member of an unserved or under-served population described as follows:

(i) Owned by a veteran, including but not limited to individuals as sole proprietors, members, partners, stockholders, etc., of not less than 20 percent. In order to receive points, applicants must provide a statement in their applications to indicate that owners of the project have Veteran status.

(ii) [Reserved]

(4) Selecting the application helps further a Presidential initiative or a Secretary of Agriculture priority.

(5) The proposed project is located in a Federally declared disaster area. Declarations must be within the last 2 calendar years.

(6) The proposed project is located in an area where 20 percent or more of its population is living in poverty, as defined by the United States Census Bureau, underserved community(ies) or has experienced long-term population decline, or loss of employment.

[86 FR 22309, Apr. 27, 2021, as amended at 90 FR 30560, July 10, 2025]

§ 4280.122 Selecting RES and EEI grant applications for award.

Unless otherwise provided for in a FEDERAL REGISTER notice, RES and EEI grant applications will be processed in accordance with this section. Complete applications will be evaluated, processed, and subsequently ranked, and will compete for funding, subject to the availability of grant funding. Each State will receive two grant allocations, an allocation of grant funds restricted to funding requests of $20,000 or less, and an allocation of grant funds which are unrestricted and can fund any size funding request.

(a) *RES and EEI grant applications.* Complete RES and EEI grant applications, including combination grant and guaranteed loan requests, regardless of the amount of funding requested, are eligible to compete in two competitions within a Federal fiscal year—a State competition and a National competition.

(1) To be competed in the State and National competitions, complete applications must be received by the applicable State Office by 4:30 p.m. local time no later than March 31. If March 31 falls on a non-business day or a federally-observed holiday, the next Federal business day will be considered the last day for receipt of a complete application. Complete applications received after this date and time will be processed in the subsequent fiscal year.

(2) All eligible RES and EEI grant applications that remain unfunded after completion of the State competition will be competed in a National competition.

(b) *RES and EEI grant applications requesting $20,000 or less.* Complete RES and EEI grant applications, including combination grant and guaranteed loan requests, requesting $20,000 or less are eligible to compete in up to five competitions—two State competitions and a National set-aside competition for grants of $20,000 or less, as well as the two competitions referenced in paragraph (a) of this section.

(1) For complete RES and EEI grant applications for grants requesting $20,000 or less, there will be two State competitions each Federal fiscal year. Complete applications for $20,000 or less that are received by the Agency by 4:30 p.m. local time on October 31 of the Federal fiscal year will be competed against each other. Complete applications for $20,000 or less that are received by the Agency by 4:30 p.m. local time on March 31 of the Federal fiscal year and any applications for $20,000 or less that were not ready to compete or were not funded from the prior competition, will be competed against each other. If either October 31 or March 31 falls on a weekend or a federally observed holiday, the next Federal business day will be considered the last day for receipt of a complete application. Complete applications received after 4:30 p.m. local time on March 31, regardless of the postmark on the application, will be processed in the subsequent fiscal year.

(2) All eligible RES and EEI grant applications requesting $20,000 or less that remain unfunded after completion of the State competition for applications received by March 31 will be competed in the National competition.

(c) *Ranking of applications.* The Agency will rank complete eligible applications using the scoring criteria specific in §4280.121. Higher scoring applications will receive first consideration.

(d) *Funding selected applications.* As applications are funded, if insufficient funds remain to fund the next highest scoring application, the Agency may elect to fund a lower scoring application. Before this occurs, the Agency will provide the applicant of the higher scoring application the opportunity to reduce the amount of the applicant's grant request to the amount of funds available. If the applicant agrees to lower its grant request, the applicant must certify that the purposes of the project will be met and provide the remaining total funds needed to complete the project. If two or more applications score the same and if remaining funds are insufficient to fund each such application, the Agency will notify the applicants that they may either accept a proportional amount of funds or submit their total request for the next available competition. At its discretion, the Agency may also elect to allow any remaining multi-year funds to be carried over to the next fiscal year rather than selecting a lower scoring application.

(e) *Handling of ranked applications not funded.* Based on the availability of funding, a ranked application might not be funded. Handling of unfunded applications depends on whether the request is more or less than $20,000.

(1) All complete and eligible applications requesting $20,000 or less may be competed in up to five competitions within a Federal fiscal year and if not selected for funding, the Agency will discontinue consideration of the applications.

(2) The Agency will discontinue consideration for funding all complete and eligible applications requesting more than $20,000 that are not selected for funding after the State and National competitions for the Federal fiscal year.

(f) *Commencement of the project.* Not all grant applications that compete for funding will receive an award. Thus, the applicant assumes all risks if the applicant chooses to purchase the proposed equipment or start construction of the proposed project after the complete application has been received by the Agency, but before the applicant is notified as to whether or not they have been selected for an award.

§4280.123 Awarding and administering RES and EEI grants.

The Agency will award and administer RES and EEI grants in accordance with Departmental Regulations and with paragraphs (a) through (h) of this section.

(a) *Letter of Conditions.* A Letter of Conditions will be prepared by the Agency, establishing conditions that must be agreed to by the applicant before any obligation of funds can occur. Upon reviewing the conditions and requirements in the Letter of Conditions, the applicant must complete, sign, and return the Form RD 1942–46, ''Letter of Intent to Meet Conditions,'' and Form RD 1940–1, ''Request for Obligation of Funds,'' to the Agency if they accept the conditions of the grant; or if certain conditions cannot be met, the applicant may propose alternate conditions to the Agency. The Agency must concur with any changes proposed to the Letter of Conditions by the applicant before the application will be further processed.

(b) *Insurance requirements.* Agency approved insurance coverage must be maintained for 3 years after the Agency has approved the final performance report unless this requirement is waived or modified by the Agency in writing. Insurance coverage shall include, but is not limited to:

(1) Property insurance, such as fire and extended coverage, will normally be maintained on all structures and equipment.

(2) Liability.

(3) National flood insurance is required in accordance with 7 CFR part 1806, subpart B, if applicable.

(4) Business interruption insurance for projects with total project costs of more than $200,000.

(c) *Forms and certifications.* The forms specified in paragraphs (c)(1) through (5) of this section will be attached to the Letter of Conditions referenced in paragraph (a) of this section. The forms specified in paragraphs (c)(1) through (4) of this section and all of the certifications must be submitted prior to grant approval. The form specified in paragraph (c)(5) of this section, which is to be completed by contractors, does not need to be returned to the Agency, but must be kept on file by the grantee.

(1) Form RD 1942–46, ''Letter of Intent to Meet Conditions.''

(2) Form RD 1940–1.

(3) Form SF–LLL, ''Disclosure of Lobbying Activities,'' if the grant exceeds $100,000 and/or if the grantee has made or agreed to make payment using funds other than Federal appropriated funds to influence or attempt to influence a decision in connection with the application.

(4) Form RD 400–4, ''Assurance Agreement,'' or successor form.

(5) Form AD–1048, as signed by the contractor or other lower tier party.

(d) *Evidence of matching funds and other funds.* If an applicant submitted written evidence of matching funds and other funds with the application, the applicant is responsible for ensuring that such written evidence is still in effect (*i.e.*, not expired) when the grant is executed. If the applicant did not submit written evidence of matching funds and other funds with the application, the applicant must submit such written evidence that is in effect before the Agency will execute the Financial Assistance Agreement. In either case, written evidence of matching funds and other funds needed to complete the project must be provided to the Agency before execution of the Financial Assistance Agreement and must be in effect (*i.e.*, must not have expired) at the time Financial Assistance Agreement is executed.

(e) *System for Award Management (SAM) registration.* Before the Financial Assistance Agreement can be executed, the applicant's UEI number must be registered in the SAM and a valid (*e.g.* non-expired) Commercial and Government Entity (CAGE) code must be submitted to the Agency.

(f) *Financial Assistance Agreement.* Once the requirements specified in paragraphs (a) through (e) of this section have been met, the Financial Assistance Agreement can be executed by the grantee and the Agency. The Agreement should be signed as soon as possible, but no later than within 6 months of obligation of funds or grant funds may be de-obligated by the Agency. The grantee must abide by all requirements contained in the Financial Assistance Agreement, this subpart, and any other applicable Federal statutes or regulations. Failure to follow these requirements might result in termination of the grant and adoption of other available remedies.

(g) *Grant approval.* The grantee will be sent a copy of the executed Form RD 1940–1 and the Financial Assistance Agreement.

(h) *Power purchase agreement.* Where applicable, the grantee shall provide to the Agency a copy of the executed power purchase agreement within 12 months from the date that the Financial Assistance Agreement is executed, unless otherwise approved by the Agency.

§ 4280.124 Servicing RES and EEI grants.

The Agency will service RES and EEI grants in accordance with the requirements specified in Departmental Regulations; 7 CFR part 3; 7 CFR 1951 Subparts E and O; the Financial Assistance Agreement; and paragraphs (a) through (k) of this section.

(a) *Inspections.* Grantees must permit periodic inspection of the project records and operations by a representative of the Agency.

(b) *Programmatic changes.* Grantees may make changes to an approved project's costs, scope, contractor, or vendor subject to the provisions specified in paragraphs (b)(1) through (3) of this section. If the changes result in lowering the project's score to below what would have qualified the application for award, the Agency will not approve the changes.

(1) *Prior approval.* The grantee must obtain prior Agency approval for any change to the scope, contractor, or vendor of the approved project. Changes in project cost will require

Agency approval as outlined in paragraph (b)(1)(iii) of this section.

(i) Grantees must submit requests for programmatic changes in writing to the Agency for Agency approval.

(ii) Failure to obtain prior Agency approval of any such change could result in such remedies as suspension, termination, and recovery of grant funds.

(iii) Prior Agency approval is required for all increases in project costs. Prior Agency approval is required for a decrease in project cost only if the decrease would have a negative effect on the long-term viability of the project. A decrease in project cost that does not have a negative impact on long-term viability requires Agency review and approval prior to disbursement of funds.

(2) *Changes in project cost or scope.* If there is a significant change in project cost or any change in project scope, then the grantee's funding needs, eligibility, and scoring, as applicable, will be reassessed. Decreases in Agency funds will be based on revised project costs and other factors, including Agency regulations used at the time of grant approval.

(3) *Change of contractor or vendor.* When seeking a change, the grantee must submit to the Agency a written request for approval. The proposed contractor or vendor must have qualifications and experience acceptable to the Agency. The written request must contain sufficient information, which may include a revised technical report as required under §4280.118(e), 4280.119(b)(4), 4280.120(b)(3), or 4280.120(b)(4), as applicable, to demonstrate to the Agency's satisfaction that such change maintains project integrity. If the Agency determines that project integrity continues to be demonstrated, the grantee may make the change. If the Agency determines that project integrity is no longer demonstrated, the change will not be approved and the grantee has the following options: Continue with the original contractor or vendor; find another contractor or vendor that has qualifications and experience acceptable to the Agency to complete the project; or terminate the grant by providing a written request to the Agency. No additional funding will be available from the Agency if costs for the project have increased. The Agency decision will be provided in writing.

(c) *Transfer of ownership.* After the Financial Assistance Agreement for the project has been executed, the grantee may request, in writing, a transfer of the Financial Assistance Agreement to another entity. Subject to Agency approval provided in writing, the Financial Assistance Agreement may be transferred to another entity provided:

(1) The entity is determined by the Agency to be an eligible entity under this subpart; and

(2) The type of RES or EEI technology and the scope of the project for which the Agency funds will be used remain unchanged.

(d) *Disposition of acquired property.* Grantees must abide by the disposition requirements outlined in Departmental Regulations.

(e) *Financial management system and records.* The grantee must provide for financial management systems and maintain records as specified in paragraphs (f)(1) and (2) of this section.

(1) *Financial management system.* The grantee will provide for a financial system that will include:

(i) Accurate, current, and complete disclosure of the financial results of each grant;

(ii) Records that identify adequately the source and application of funds for grant-supporting activities, together with documentation to support the records. Those records must contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income; and

(iii) Effective control over and accountability for all funds. The grantee must adequately safeguard all such assets and must ensure that funds are used solely for authorized purposes.

(2) *Records.* The grantee will retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least 3 years after completion of grant activities except that the records must be retained beyond the 3-year period if audit findings have not been resolved or if directed by the

United States. The Agency and the Comptroller General of the United States, or any of their duly authorized representatives, must have access to any books, documents, papers, and records of the grantee that are pertinent to the specific grant for the purpose of making audit, examination, excerpts, and transcripts.

(f) *Audit requirements.* If applicable, grantees must provide an annual audit in accordance with 7 CFR part 3052. The Agency may exercise its right to do a program audit after the end of the project to ensure that all funding supported eligible project costs.

(g) *Grant disbursement.* As applicable, grantees must disburse grant funds as scheduled in accordance with the appropriate construction and inspection requirements in §§ 4280.119, 4280.120 or 4280.125 as applicable. Unless required by third parties providing cost sharing payments to be provided on a pro-rata basis with other funds, grant funds will be disbursed after all other funds have been expended.

(1) Unless authorized by the Agency to do so, grantees may submit requests for reimbursement no more frequently than monthly. Ordinarily, payment will be made within 30 days after receipt of a proper request for reimbursement.

(2) Grantees must not request reimbursement for the Federal share of amounts withheld from contractors to ensure satisfactory completion of work until after it makes those payments.

(3) Payments will be made by electronic funds transfer.

(4) Grantees must use SF–271, ''Outlay Report and Request for Reimbursement for Construction Programs,'' or other format prescribed by the Agency to request grant reimbursements. Fund requests must at a minimum include documentation of costs and evidence of payment(s), including payment date(s). Failure to provide sufficient documentation of costs and evidence of payment, including payment date, may result in denied reimbursement.

(5) For a grant awarded to a project with total project costs of $200,000 and greater, grant funds will be disbursed in full after the project is completed, is operational, and has met or exceeded the steady state operating level as set out in the grant award requirements. Grant funds may also be disbursed through 90 percent of grant disbursement. The final 10 percent of grant funds will be held by the Agency until construction of the project is completed, the project is operational, and the project has met or exceeded the steady state operating level as set out in the grant award requirements. In addition, the Agency reserves the right to request additional information or testing if upon a final site visit or review of documentation, the 30-day steady state operating level is not found acceptable to the Agency.

(h) *Monitoring of project.* Grantees are responsible for ensuring that all activities are performed within the approved scope of work and that funds are only used for approved purposes.

(1) Grantees shall constantly monitor performance to ensure that:

(i) Time schedules are being met;

(ii) Projected work is being accomplished by projected time periods;

(iii) Financial resources are being appropriately expended by contractors (if applicable); and

(iv) Any other performance objectives identified in the scope of work are being achieved.

(2) To the extent that resources are available, the Agency will monitor grantees to ensure that activities are performed in accordance with the Agency-approved scope of work and to ensure that funds are expended for approved purposes. The Agency's monitoring of grantees neither:

(i) Relieves the grantee of its responsibilities to ensure that activities are performed within the scope of work approved by the Agency and that funds are expended for approved purposes only; nor

(ii) Provides recourse or a defense to the grantee should the grantee conduct unapproved activities, engage in unethical conduct, engage in activities that are or that give the appearance of a conflict of interest, or expend funds for unapproved purposes.

(i) *Reporting requirements.* Financial and project performance reports must be provided by grantees and contain the information specified in paragraphs (i)(1) through (3) of this section.

(1) *Federal financial reports.* Between grant approval and completion of project (*i.e.*, construction), SF–425, ''Federal Financial Report'' will be required of all grantees as applicable on a semiannual basis. The grantee will complete the project within the total sums available to it, including the grant, in accordance with the scope of work and any necessary modifications thereof prepared by grantee and approved by the Agency.

(2) *Project performance reports.* Between grant approval and completion of project (*i.e.*, construction), grantees must provide semiannual project performance reports and a final project development report containing the information specified in paragraphs (i)(2)(i) and (ii) of this section. These reports are due 30 working days after June 30 and December 31 of each year.

(i) *Semiannual project performance reports.* Each semiannual project performance report must include the following:

(A) A comparison of actual accomplishments to the objectives for that period;

(B) Reasons why established objectives were not met, if applicable;

(C) Reasons for any problems, delays, or adverse conditions which will affect attainment of overall program objectives, prevent meeting time schedules or objectives, or preclude the attainment of particular objectives during established time periods. This disclosure must be accompanied by a statement of the action taken or planned to resolve the situation; and

(D) Objectives and timetables established for the next reporting period.

(ii) *Final project development report.* The final project development report must be submitted 90 days after project completion and include:

(A) A detailed project funding and expense summary; and

(B) A summary of the project's installation/construction process, including recommendations for development of similar projects by future Applicants to the program.

(3) *Project completion requirements.* Once the project has been constructed, the grantee must provide the Agency as applicable via form RD 4280–3D ''Annual Outcome Project Performance Certification'', a certification that their system has for the past year performed at the steady operating level as described in the technical report of their application, and whether projected jobs created or saved have occurred, or certify that it has not performed as described. If it has not performed, a description of the circumstances which have occurred and affected system performance must be reported, along with the actual performance of the subject REAP project, and the actual number of jobs created or saved as a direct result of the REAP project.

(i) *RES.* Three total annual outcome project performance certifications or reports are required for RES projects. The first is due at the completion of the first full calendar year following the year in which the project was completed. The remaining are required for subsequent calendar years.

(ii) *EEI.* Two total annual outcome performance certifications or reports are required for EEI projects. The first is due at completion of the first full calendar year following the year in which the project was completed. The second is required for the subsequent calendar year.

(j) *Grant close-out.* Grant close-out must be performed in accordance with the requirements specified in 2 CFR part 200.

§ 4280.125 Construction planning and performing development.

(a) *General.* The following requirements are applicable to all procurement methods specified in paragraph (f) of this section.

(1) *Maximum open and free competition.* All procurement transactions, regardless of procurement method and dollar value, must be conducted in a manner that provides maximum open and free competition. Procurement procedures must not restrict or eliminate competition. Competitive restriction examples include, but are not limited to, the following: Placing unreasonable requirements on firms in order for them to qualify to do business; noncompetitive practices between firms; organizational conflicts of interest; and unnecessary experience or excessive bonding

requirements. In specifying material(s), the grantee and its consultant will consider all materials normally suitable for the project commensurate with sound engineering practices and project requirements. The Agency will consider any recommendation made by the grantee's consultant concerning the technical design and choice of materials to be used for such a project. If the Agency determines that a design or material, other than those that were recommended, should be considered by including them in the procurement process as an acceptable design or material in the project, the Agency will provide such applicant or grantee with a comprehensive justification for such a determination. The justification will be documented in writing.

(2) *Equal employment opportunity*. For all construction contracts and grants in excess of $10,000, the contractor must comply with Executive Order 11246, as amended by Executive Order 11375 and Executive Order 13672, and as supplemented by applicable Department of Labor regulations (41 CFR part 60). The applicant, or the lender and borrower, as applicable, is responsible for ensuring that the contractor complies with these requirements.

(3) *Surety*. The Agency will require surety on any contract for procurement exceeding $100,000, except as provided for in paragraph (a)(3)(iv) of this section. For contracts of lesser amounts, the grantee may require surety.

(i) Surety covering both performance and payment will be required. The United States, acting through the Agency, will be named as co-obligee on all surety unless prohibited by State or Tribal law. Surety may be provided as specified in paragraphs (a)(3)(i)(A) or (B) of this section.

(A) Surety in the amount of 100 percent of the contract cost may be provided using either:

(*1*) A bank letter of credit; or

(*2*) Performance bonds and payment bonds. Companies providing performance bonds and payment bonds must hold a certificate of authority as an acceptable surety on Federal bonds as listed in Treasury Circular 570 as amended and be legally doing business in the State where the project is located.

(B) Cash deposit in escrow of at least 50 percent of the contract amount. The cash deposit cannot be from funds awarded under this subpart.

(ii) The surety will normally be in the form of performance bonds and payment bonds; however, when other methods of surety are necessary, bid documents must contain provisions for such alternative types of surety. The use of surety other than performance bonds and payment bonds requires concurrence by the Agency after submission of a justification to the Agency together with the proposed form of escrow agreement or letter of credit.

(iii) When surety is not provided, contractors must furnish evidence of payment in full for all materials, labor, and any other items procured under the contract in an Agency-approved form.

(iv) The Agency may make exceptions to surety for any of the situations identified in paragraphs (a)(3)(iv)(A) through (E) of this section.

(A) Small acquisition and construction procedures as specified in § 4280.119(c) and (d) or § 4280.120(c) and (d) as applicable are used.

(B) The proposed project is for equipment purchase and installation only and the contract costs for the equipment purchase and installation are $200,000 or less.

(C) The proposed project is for equipment purchase and installation only and the contract costs for the equipment purchase and installation are more than $200,000 and the following requirements can be met:

(*1*) The project involves two or fewer subcontractors; and

(*2*) The equipment manufacturer or provider must act as the general contractor.

(D) Other construction projects that have only one contractor performing work.

(E) The grantee agrees to request reimbursement of grant funds only after the contractors have furnished evidence of payment in full and evidence there are no outstanding liens regarding any materials, labor, and any other items procured under the contract, and the systems are deemed operational.

(4) *Grantees accomplishing work.* In some instances, grantees may wish to perform a part of the work themselves. Grantees may accomplish construction by using their own personnel and equipment, provided the grantees possess the necessary skills, abilities, and resources to perform the work and there is not a negative impact to their business operation. For a grantee to provide a portion of the work, with the remainder to be completed by a contractor:

(i) A clear understanding of the division of work must be established and delineated in the contract;

(ii) Grantees are not eligible for payment for their own work as it is not an eligible project cost;

(iii) Warranty requirements applicable to the technology must cover the grantee's work; and

(iv) Inspection and acceptance of the grantee's work must be completed by either:

(A) An inspector that will:

(*1*) Inspect, as applicable, and accept construction; and

(*2*) Furnish inspection reports; or

(B) A licensed engineer that will:

(*1*) Prepare design drawings and specifications;

(*2*) Inspect, as applicable, and accept construction; and

(*3*) Furnish inspection reports.

(b) *Forms used.* Technical service and procurement documents must be approved by the Agency and may be used only if they are customarily used in the area and protect the interest of the applicant and the Government with respect to compliance with items such as the drawings, specifications, payments for work, inspections, completion, nondiscrimination in construction work and acceptance of the work. The Agency will not become a party to a construction contract or incur any liability under it. No contract will become effective until concurred in writing by the Agency. Such concurrence statement must be attached to and made a part of the contract.

(c) *Technical services.* Unless the requirements of paragraph (c)(4) of this section can be met, all RES and EEI projects with total project costs greater than $1,000,000 require:

(1) The design, installation monitoring, testing prior to commercial operation, and project completion certification be completed by a licensed professional engineer (PE) or team of licensed PEs. Licensed PEs may be ''in-house'' PEs or contracted PEs.

(2) Any contract for design services must be subject to Agency concurrence.

(3) Engineers must be licensed in the State where the project is to be constructed.

(4) The Agency may grant an exception to the requirements of paragraphs (c)(1) through (3) of this section if the following requirements are met:

(i) State or Tribal law does not require the use of a licensed PE; and

(ii) The project is not complex, as determined by the Agency, and can be completed to meet the requirements of this program without the services of a licensed PE.

(d) *Design policies.* Unless the applicant plans to request a lump sum reimbursement of grant funds at the end of construction and 30 days of successful operation, regardless of total project costs, final plans and specifications must be reviewed by the Agency and approved prior to the start of construction. Facilities funded by the Agency must meet the following design requirements, as applicable:

(1) *Environmental requirements.* Actions taken under this subpart must comply with the environmental review requirements in accordance with 7 CFR part 1970. Project planning and design must not only be responsive to the grantee's needs but must consider the environmental consequences of the proposed project. Project design must incorporate and integrate, where practicable, mitigation measures that avoid or minimize adverse environmental impacts. Environmental reviews serve as a means of assessing environmental impacts of project proposals, rather than justifying decisions already made. Applicants may not take any action on a project proposal that will have an adverse environmental impact or limit the choice of reasonable project alternatives being reviewed prior to the completion of the Agency's environmental review. If such actions are taken, the Agency has the right to

withdraw and discontinue processing the application.

(2) *Architectural barriers.* All facilities intended for or accessible to the public or in which physically handicapped persons may be employed must be developed in compliance with the Architectural Barriers Act of 1968 (42 U.S.C. 4151 *et seq.*) as implemented by 41 CFR 101–196, section 504 of the Rehabilitation Act of 1973 (42 U.S.C. 1474 *et seq.*) as implemented by 7 CFR parts 15 and 15b, and Titles II and III of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*).

(3) *Energy/environment.* Project design shall consider cost effective energy-efficient and environmentally-sound products and services.

(4) *Seismic safety.* All new structures, fully or partially enclosed, used or intended for sheltering persons or property will be designed with appropriate seismic safety provisions in compliance with the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 *et seq.*), and E.O. 12699, Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction. Designs of components essential for system operation and substantial rehabilitation of structures that are used for sheltering persons or property shall incorporate seismic safety provisions to the extent practicable as specified in 7 CFR part 1792, subpart C.

(e) *Contract methods.* This paragraph identifies the three types of contract methods that can be used for projects funded under this subpart. The procurement methods, which are applicable to each of these contract methods, are specified in paragraph (f) of this section.

(1) *Traditional method or design-bid-build.* The services of the consulting engineer or architect and the general construction contractor must be procured in accordance with the following paragraphs.

(i) *Solicitation of offers.* Solicitation of offers must:

(A) Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. The description must not, in competitive procurements, contain features that unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured, and when necessary will set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a ''brand name or equal'' description may be used to define the performance or other salient requirements of a procurement. The specific features of the named brands which must be met by offerors must be clearly stated.

(B) Clearly specify all requirements which offerors must fulfill and all other factors to be used in evaluating bids or proposals.

(ii) *Contract pricing.* Cost plus a percentage of cost method of contracting must not be used.

(iii) *Unacceptable bidders.* The following will not be allowed to bid on, or negotiate for, a contract or subcontract related to the construction of the project:

(A) An engineer or architect as a person who has prepared plans and specifications or who will be responsible for monitoring the construction;

(B) Any entity in which the grantee's architect or engineer is an officer, employee, or holds or controls a substantial interest in the grantee;

(C) The grantee's governing body officers, employees, or agents;

(D) Any member of the grantee's immediate family or partners in paragraphs (e)(1)(iii)(A), (B), or (C) of this section; or

(E) An entity which employs, or is about to employ, any person in paragraph (e)(1)(iii)(A), (B), (C), or (D) of this section.

(iv) *Contract award.* Contracts must be made only with responsible parties possessing the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration must include, but not be limited to, matters such as integrity, record of past performance, financial and technical resources, and accessibility to other necessary resources. Contracts must not be made with parties who are suspended or debarred.

(2) *Design/build method.* The design/build method, where the same person or entity provides design and engineering work, as well as construction or installation, may be used with Agency written approval.

(i) *Concurrence information.* The applicant will request Agency concurrence by providing the Agency at least the information specified in paragraphs (e)(2)(i)(A) through (H) of this section.

(A) The grantee's written request to use the design/build method with a description of the proposed method.

(B) A proposed scope of work describing in clear, concise terms the technical requirements for the contract. It shall include a nontechnical statement summarizing the work to be performed by the contractor, the results expected, and a proposed construction schedule showing the sequence in which the work is to be performed.

(C) A proposed firm-fixed-price contract for the entire project which provides that the contractor will be responsible for any extra cost which result from errors or omissions in the services provided under the contract, as well as compliance with all Federal, State, local, and Tribal requirements effective on the contract execution date.

(D) Where noncompetitive negotiation is proposed and found, by the Agency, to be an acceptable procurement method, then the Agency will evaluate documents indicating the contractor's performance on previous similar projects in which the contractor acted in a similar capacity.

(E) A detailed listing and cost estimate of equipment and supplies not included in the construction contract but which are necessary to properly operate the project.

(F) Evidence that a qualified construction inspector who is independent of the contractor has or will be hired.

(G) Preliminary plans and outline specifications. However, final plans and specifications must be completed and reviewed by the Agency prior to the start of construction.

(H) The grantee's attorney's opinion and comments regarding the legal adequacy of the proposed contract documents and evidence that the grantee has the legal authority to enter into and fulfill the contract.

(ii) *Agency concurrence of design/build method.* The Agency will review the material submitted by the applicant. When all items are acceptable, the Agency approval official will concur in the use of the design/build method for the proposal.

(iii) *Forms used.* Agency approved contract documents must be used provided they are customarily used in the area and protect the interest of the applicant and the Agency with respect to compliance with items such as the drawings, specifications, payments for work, inspections, completion, nondiscrimination in construction work, and acceptance of the work. The Agency will not become a party to a construction contract or incur any liability under it. No contract shall become effective until concurred, in writing, by the Agency. Such concurrence statement must be attached to and made a part of the contract.

(iv) *Contract provisions.* Contracts will have a listing of attachments and must contain the following:

(A) The contract sum;

(B) The dates for starting and completing the work;

(C) The amount of liquidated damages, if any, to be charged;

(D) The amount, method, and frequency of payment;

(E) Surety provisions that meet the requirements of paragraph (a)(3) of this section;

(F) The requirement that changes or additions must have prior written approval of the Agency as identified in the letter of conditions;

(G) Contract review and concurrence. The grantee's attorney will review the executed contract documents, including performance and payment bonds, and will certify that they are in compliance with Federal, State, or Tribal law, and that the persons executing these documents have been properly authorized to do so. The contract documents, engineer's recommendation for award, and bid tabulation sheets will be forwarded to the Agency for concurrence prior to awarding the contract. All contracts will contain a provision that they are not effective until they

have been concurred, in writing, by the Agency;

(H) This part does not relieve the grantee of any responsibilities under its contract. The grantee is responsible for the settlement of all contractual and administrative issues arising out of procurement entered into in support of Agency funding. These include, but are not limited to, source evaluation, protests, disputes, and claims. Matters concerning violation of laws are to be referred to the applicable local, State, Tribal, or Federal authority; and

(3) *Construction management.* Construction managers as a constructor (CMc) acts in the capacity of a general contractor and is financially and professionally responsible for the construction. This type of construction management is also referred to as construction manager ''At Risk.'' The construction contract is between the grantee and the CMc. The CMc in turn subcontracts for some or all of the work. The CMc will need to carry the Agency required 100 percent surety and insurance, as required under paragraph (a)(3) of this section. Projects using construction management must follow the requirements of (e)(2)(i) through (iv) of this section.

(f) *Procurement methods.* Procurement must be made by one of the following methods: Competitive sealed bids (formal advertising); competitive negotiation; or noncompetitive negotiation. Competitive sealed bids (formal advertising) are the preferred procurement method for construction contracts.

(1) *Competitive sealed bids.* In competitive sealed bids (formal advertising), sealed bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is lowest, price and other factors considered. When using this method, the following will apply:

(i) At a sufficient time prior to the date set for opening of bids, bids must be solicited from an adequate number of qualified sources. In addition, the invitation must be publicly advertised.

(ii) The invitation for bids, including specifications and pertinent attachments, must clearly define the items or services needed in order for the bidders to properly respond to the invitation under paragraph (f)(1) of this section.

(iii) All bids must be opened publicly at the time and place stated in the invitation for bids.

(iv) A firm-fixed-price contract award must be made by written notice to that responsible bidder whose bid, conforming to the invitation for bids, is lowest. When specified in the bidding documents, factors such as discounts and transportation costs will be considered in determining which bid is lowest.

(v) The applicant, with the concurrence of the Agency, will consider the amount of the bids or proposals, and all conditions listed in the invitation. On the basis of these considerations, the applicant will select and notify the lowest responsible bidder. The contract will be awarded using an Agency-approved form.

(vi) Any or all bids may be rejected by the grantee when it is in their best interest.

(2) *Competitive negotiation.* In competitive negotiations, proposals are requested from a number of sources. Negotiations are normally conducted with more than one of the sources submitting offers (offerors). Competitive negotiation may be used if conditions are not appropriate for the use of formal advertising and where discussions and bargaining with a view to reaching agreement on the technical quality, price, other terms of the proposed contract and specifications are necessary. If competitive negotiation is used for procurement, the following requirements will apply:

(i) Proposals must be solicited from two qualified sources, unless otherwise approved by the Agency, to permit reasonable competition consistent with the nature and requirements of the procurement.

(ii) The request for proposal must identify all significant evaluation factors, including price or cost where required, and their relative importance.

(iii) The grantee must provide mechanisms for technical evaluation of the proposals received, determination of responsible offerors for the purpose of written or oral discussions, and selection for contract award.

(iv) Award may be made to the responsible offeror whose proposal will be most advantageous to the grantee, price and other factors considered. Unsuccessful offerors must be promptly notified.

(v) Owners may utilize competitive negotiation procedures for procurement of architectural/engineering and other professional services, whereby the offerors' qualifications are evaluated, and the most qualified offeror is selected, subject to negotiations of fair and reasonable compensation.

(3) *Noncompetitive negotiation*. Noncompetitive negotiation is procurement through solicitation of a proposal from only one source. Noncompetitive negotiation may be used when the award of a contract is not feasible under small acquisition and construction procedures, competitive sealed bids (formal advertising) or competitive negotiation procedures. Circumstances under which a contract may be awarded by noncompetitive negotiations are limited to the following:

(i) After solicitation of a number of sources, competition is determined inadequate; or

(ii) No acceptable bids have been received after formal advertising.

(4) *Additional procurement methods*. The grantee may use additional innovative procurement methods provided the grantee receives prior written approval from the Agency. Contracts will have a listing of attachments and the minimum provisions of the contract will include:

(i) The contract sum;

(ii) The dates for starting and completing the work;

(iii) The amount of liquidated damages to be charged;

(iv) The amount, method, and frequency of payment;

(v) Whether or not surety bonds will be provided; and

(vi) The requirement that changes or additions must have prior written approval of the Agency.

(g) *Contracts awarded prior to applications*. Owners awarding construction or other procurement contracts prior to filing an application, must provide evidence that is satisfactory to the Agency that the contract was entered into without intent to circumvent the requirements of Agency regulations.

(1) *Modifications*. The contract shall be modified to conform to the provisions of this subpart. Where this is not possible, modifications will be made to the extent practicable and, as a minimum, the contract must comply with all State and local laws and regulations as well as statutory requirements and executive orders related to the Agency financing.

(2) *Consultant's certification*. Provide a certification by an engineer, licensed in the State where the facility is constructed, that any construction performed complies fully with the plans and specifications.

(3) *Owner's certification*. Provide a certification by the owner that the contractor has complied with applicable statutory and executive requirements related to Agency financing.

(h) *Contract administration*. Contract administration must comply with 7 CFR 1780.76. If another authority, such as a Federal, State, or Tribal agency, is providing funding and requires oversight of inspections, change orders, and pay requests, the Agency will accept copies of their reports or forms as meeting oversight requirements of the Agency.

§§ 4280.126–4280.136 [Reserved]

Combined Funding for Renewable Energy Systems and Energy Efficiency Improvements

§ 4280.137 Combined grant and guaranteed loan funding requirements.

The requirements for a RES or EEI project for which an applicant is seeking a combined grant and guaranteed loan are specified in this section.

(a) *Eligibility*. All applicants must be eligible under the requirements specified in § 4280.112. If the applicant is seeking a loan, the applicant must also meet the borrower eligibility requirements specified in 7 CFR 5001.126. Lenders must meet eligibility requirements specified in 7 CFR 5001.130–132. Projects must meet the project eligibility requirements specified in §§ 4280.113, 7 CFR parts 5001.102 (b) and (c) and 5001.106–107, as applicable. For projects that include New Markets Tax Credits, the guaranteed loan portion of the

combined funding request must meet provisions found in 5001.141.

(b) *Funding.* Funding provided under this section is subject to the limits described in paragraphs (b)(1) through (2) of this section.

(1) The amount of any combined grant and guaranteed loan shall not exceed 75 percent of eligible project costs and the grant portion shall not exceed 25 percent of eligible project costs. Loan amount provisions of 7 CFR part 5001.406(d) apply, except for (d)(2). For purposes of combined funding requests, eligible project costs are based on the total costs associated with those items specified in § 4280.115(c) and 7 CFR part 5001.121(d), except for (d)(2). The applicant must provide the remaining total funds needed to complete the project.

(2) The minimum guaranteed loan request allowed is $5,000, with the grant portion of the funding request being at least $1,500 for EEI projects and at least $2,500 for RES projects.

(c) *Loan origination provisions.* Provisions found in 7 CFR parts 5001.201 through 5001.208 apply to the guaranteed loan portion of a combined grant and guaranteed loan funding request.

(d) *Application provisions and documentation.* When applying for combined funding, the applicant/borrower must provide all documentation outlined in this section and the lender must submit grant and guaranteed loan application information simultaneously.

(1) Applications must include the following documentation, including the requisite forms and certifications, specified in §§ 4280.118, 4280.119, or 4280.120 as applicable, for the grant request, except that applicants submitting a properly completed 5001–1 form only need to submit the applicable RD 4280–3 form containing the applicant's CAGE code and properly signed certifications. The guaranteed loan applications are filed in accordance with 7 CFR part 5001.301 where they will be processed in accordance with 7 CFR parts 5001.303 and 5001.307, and as follows:

(2) Where both the grant application and the guaranteed loan application provisions request the same documentation, form, or certification, such documentation, form, or certification may be submitted once; the combined application does not need to contain duplicate documentation, forms, and certifications.

(e) *Loan provisions.* Provisions found in 7 CFR parts 5001.401 through 5001.408 apply to the guaranteed loan portion of a combined funding request.

(f) *Guarantee provisions.* Provisions found in 7 CFR parts 5001.450 through 5001.459 apply to the guarantee on the guaranteed loan portion of a combined funding request.

(g) *Servicing provisions.* Provisions found in 7 CFR parts 5001.501 through 5001.524 apply to the guaranteed loan portion of a combined funding request.

(h) *Evaluation, scoring, and award.* The Agency will evaluate each combined application according to § 4280.116(c) and 7 CFR part 5001.315 (a) and (b). The Agency will select applications according to applicable procedures specified in § 4280.122(a) and (b) unless modified by this section. A combination loan and grant request will be selected based upon the grant score of the project. The Agency will score combined funding applications based upon the grant score as noted in § 4280.121. Projects will be ranked and selected for award according to applicable competition procedures specified in § 4280.122 (c), unless modified by this section or via a FEDERAL REGISTER notification.

(i) *Interest rate and terms of loan.* The interest rate and terms of the guaranteed loan for the loan portion of the combined funding request will be determined based on the procedures specified in 7 CFR parts 5001.401 and 5001.402.

(j) *Other provisions.* In addition to the requirements specified in paragraphs (a) through (i) of this section, the combined funding request is subject to the other requirements specified in this subpart, including, but not limited to, processing and servicing requirements, as applicable, as described in paragraphs (j)(1) through (4) of this section.

(1) All other provisions of §§ 4280.101 through 4280.111 apply to the grant portion of the combined funding request and all other provisions as applicable of 7 CFR parts 5001.1 through 5001.10 apply to the guaranteed loan portion of the combined funding request.

(2) All other provisions of §§4280.112 through 4280.124 apply to the grant portion of the combined funding request and §4280.125 applies if the project for which the grant is sought has a total project cost of $200,000 and greater.

(3) All guarantee loan and grant combination applications that are ranked, but not funded, will be processed in accordance with provisions found in §4280.122(d), (e), and (f).

(4) Applicants whose combination applications are approved for funding must utilize both the loan and the grant. The guaranteed loan will be closed prior to grant funds being disbursed. The Agency reserves the right to reduce the total loan guarantee and grant award, as appropriate, if construction costs are less than projected or if funding sources differ from those provided in the application.

(5) Ineligible project provisions of §§5001.115 and 5001.119, and ineligible use of funds provision of §5001.122 apply to the guaranteed loan portion of the combined funding request. Borrower ineligibility provisions of §5001.127 are also applicable.

§§4280.138–4280.148 [Reserved]

ENERGY AUDIT AND RENEWABLE ENERGY DEVELOPMENT ASSISTANCE GRANTS

§4280.149 Applicant eligibility.

To be eligible for an EA grant or a REDA grant under this subpart, the applicant must meet each of the criteria, as applicable, specified in paragraphs (a) through (d) of this section. The Agency will determine an applicant's eligibility.

(a) The applicant must be one of the following:

(1) A unit of State, Tribal, or local government;

(2) A land-grant college or university, or other institution of higher education;

(3) A rural electric cooperative;

(4) A public power entity;

(5) An instrumentality of a State, Tribal, or local government; or

(6) A council, as defined under the Resource Conservation and Development Program, at 16 U.S. C. 3451.

(b) The applicant must have sufficient capacity to perform the EA or REDA activities proposed in the application to ensure success. The Agency will make this assessment based on the information provided in the application.

(c) The applicant must have the legal authority necessary to apply for and carry out the purpose of the grant.

(d) The applicant must:

(1) Be registered in the SAM prior to submitting an application;

(2) Maintain an active SAM registration with current information at all times until final fund disbursement has been made.

(3) Provide its UEI number in each application it submits to the Agency. Generally, the UEI number is included on SF–424.

§4280.150 Project eligibility.

To be eligible for an EA or a REDA grant, the grant funds for a project must be used by the grantee to assist agricultural producers or rural small businesses in one of the purposes specified in paragraphs (a) and (b) of this section, and must also comply with paragraphs (c) through (f) of this section.

(a) Conducting and promoting energy audits as defined in 4280.103.

(b) Conducting and promoting REDA by providing to agricultural producers and rural small businesses recommendations and information on how to improve the energy efficiency of the operations and to use renewable energy technologies and resources in their operations.

(c) EA and REDA can be provided only to a project located in a rural area unless the grantee of such project is an agricultural producer. If the project is owned by an agricultural producer, the project for which such services are being provided may be located in either a rural or non-rural area and the EA or REDA can only be for an EEI or RES on components that support the production, processing, vertical integration, or marketing of agricultural products. If the agricultural producer's operation is in a non-rural area, then the Energy Audit or REDA can only be for RES or EEI components of the business operation that are directly related to and their use and purpose is limited

to the agricultural production operation, such as vertically integrated operations, and are part of and co-located with the agricultural production operation.

(d) The EA or REDA must be provided to a recipient in a State.

(e) The applicant must have a place of business in a State.

(f) The applicant is cautioned against taking any actions or incurring any obligations prior to the Agency completing the environmental review that would either limit the range of alternatives to be considered or that would have an adverse effect on the environment, such as the initiation of construction. If the applicant takes any such actions or incurs any such obligations, it could result in project ineligibility.

§ 4280.151 Ineligible projects.

Ineligible projects for EA and REDA grants include, but are not limited to:

(a) Research related projects.

(b) Feasibility studies of any nature.

(c) Projects where funding is not targeted directly to assisting agricultural producers or rural small businesses.

(d) Projects to develop computer software or programs.

(e) Projects where 50 percent or more of the costs are in-eligible or where project costs as defined in the application do not meet the definition of providing energy audits or renewable energy development assistance.

(f) Projects which propose to provide energy audits or renewable energy development assistant for residential purposes.

§ 4280.152 Grant funding for Energy Audit and Renewable Energy Development Assistance.

(a) *Maximum grant amount.* The maximum aggregate amount of EA and REDA grants awarded to any one recipient under this subpart cannot exceed $100,000 in a Federal fiscal year. Grant funds awarded for EA and REDA projects may be used only to pay eligible project costs, as described in paragraph (b) of this section. Ineligible project costs are listed in paragraph (c) of this section. Provisions for EA applications are listed in paragraph (d)of this section.

(b) *Eligible project costs.* Eligible project costs for EA and REDA are those costs incurred after the date a complete application has been received by the Agency and that are directly related to conducting and promoting EA and REDA, which include but are not limited to:

(1) Salaries;

(2) Travel expenses;

(3) Office supplies (*e.g.*, paper, pens, file folders); and

(4) Expenses charged as a direct cost or as an indirect cost of up to a maximum of 5 percent for administering the grant.

(c) *Ineligible project costs.* Ineligible project costs for EA and REDA grants include, but are not limited to:

(1) Payment for any construction-related activities;

(2) Purchase or lease of equipment;

(3) Payment of any judgment or debt owed to the United States;

(4) Any goods or services provided by a person or entity who has a conflict of interest as provided in § 4280.106;

(5) Any costs of preparing the application package for funding under this subpart; and

(6) Funding of political or lobbying activities.

(7) Funding to train individuals to become qualified to perform EA or REDA assistance.

(8) Payment or waiver of student tuition.

(d) *EA.* A grantee that conducts energy audits must require that, as a condition of providing the EA assistance, the agricultural producer or rural small business pay at least 25 percent of the cost of the energy audit. Further, the amount paid by the agricultural producer or rural small business will be retained by the grantee as a contribution towards the cost of the energy audit and considered program income. The grantee may use the program income to further the objectives of their project or EA services offered during the grant period in accordance with Departmental Regulations. The 25% to be paid by an agricultural producer or rural small business does not count towards the commitment of funds scoring criteria noted in 4280.155(f).

§ 4280.153 EA and REDA grant applications—content.

(a) Unless otherwise specified in a FEDERAL REGISTER notice, applicants may only submit one EA grant application and one REDA grant application each Federal fiscal year. No combination (EA and REDA) applications will be accepted.

(b) Applicants must submit complete applications consisting of the elements specified in paragraphs (b)(1) through (7) of this section, except that paragraph (b)(3), is optional. Applications will be evaluated based only on information submitted by the applicant in the application.

(1) Form SF–424.

(2) Form SF–424A, ''Budget Information—Non Construction Programs.''

(3) Identify the ethnicity, race, and gender of the applicant. This information is optional and is not required for a complete application.

(4) Certification that the applicant is a legal entity in good standing (as applicable) and operating in accordance with the laws of the State(s) or Tribe where the applicant has a place of business.

(5) The applicant must identify whether or not the applicant has a known relationship or association with an Agency employee. If there is a known relationship, the applicant must identify each Agency employee with whom the applicant has a known relationship.

(6) A proposed scope of work to include the following items:

(i) A brief summary including a project title describing the proposed project;

(ii) Goals of the proposed project;

(iii) Geographic scope or service area of the proposed project and the method and rationale used to select the service area;

(iv) Identification of the specific needs for the service area and the target audience to be served. The number of agricultural producers and/or rural small businesses to be served must be identified including name and contact information, if available, as well as the method and rationale used to select the agricultural producers and/or rural small businesses;

(v) Timeline describing the proposed tasks to be accomplished and the schedule for implementation of each task. Include whether organizational staff, consultants, or contractors will be used to perform each task. If a project is located in multiple States, resources must be sufficient to complete all projects;

(vi) Marketing strategies to include a discussion on how the applicant will be marketing and providing outreach activities to the proposed service area ensuring that agricultural producers and/or rural small businesses are served;

(vii) Applicant's experience as follows:

(A) If applying for a REDA grant, the applicant's experience in completing similar REDA activities, such as renewable energy site assessments and renewable energy technical assistance provided directly to agricultural producers and rural small businesses, including the number of similar projects the applicant has performed and the number of years the applicant has been performing a similar service.

(B) If applying for an EA grant, the number of energy audits the applicant has completed and the number of years the applicant has been performing those services;

(C) For all applicants, the amount of experience in administering EA, REDA, or similar activities as applicable to the purpose of the proposed project. Provide discussion if the applicant has any existing programs that can demonstrate the achievement of energy savings or energy generation with the agricultural producers and/or rural small businesses the applicant has served. If the applicant has received one or more awards within the last 5 years in recognition of its renewable energy, energy savings, or energy-based technical assistance, please describe the achievement;

(viii) Itemized budget; and

(ix) Identify the amount of matching funds and other funds and the source(s) the applicant is proposing to use for the project. Provide written commitments for matching funds and other funds at the time the application is submitted.

(A) If financial resources come from the applicant, documentation may include a bank statement that demonstrates availability of funds.

(B) If a third party is providing financial assistance to the project, the applicant must submit a commitment letter signed by an authorized official of the third party. The letter must be specific to the project, identify the dollar amount being provided and any applicable rates and terms.

§ 4280.154 Evaluation of EA and REDA grant applications.

The Agency will evaluate EA and REDA grant applications, based only upon information submitted in the application, to determine if:

(a) The application is complete, as defined in § 4280.103 and as per § 4280.153;

(b) The applicant is eligible according to § 4280.149;

(c) The project is eligible according to § 4280.150 and 4280.151, including 50% or more of proposed project costs are eligible; and

(d) Grant funding provisions according to § 4280.152 are met.

§ 4280.155 Scoring EA and REDA grant applications.

The Agency will score each EA and REDA application using the criteria specified in paragraphs (a) through (f) of this section, with a maximum score of 100 points possible. Unless otherwise altered via a FEDERAL REGISTER notification, the project must score a minimum of 40 points to be eligible to compete for funding.

(a) *Geographic scope of project in relation to identified need.* A maximum of 20 points can be awarded.

(1) If the applicant's proposed or existing service area is state-wide or includes all or parts of multiple states, and the scope of work has identified needs throughout that service area, 20 points will be awarded.

(2) If the applicant's proposed or existing service area consists of multiple counties in a single state and the scope of work has identified needs throughout that service area, 15 points will be awarded.

(3) If the applicant's service area consists of a single county or municipality and the scope of work has identified needs throughout that service area, 10 points will be awarded.

(b) *Number of agricultural producers/rural small businesses to be served.* A maximum of 20 points will be awarded for this criterion based on the proposed number of ultimate recipients to be assisted and if the applicant has provided the names and contact information for the ultimate recipients to be assisted.

(1) If the applicant plans to provide EA or REDA to:

(i) Up to 10 ultimate recipients, 2 points will be awarded.

(ii) Between 11 and up to and including 25 ultimate recipients, 5 points will be awarded.

(iii) More than 25 ultimate recipients, 10 points will be awarded.

(2) If the applicant provides a list with at least 50 percent of the total number of proposed ultimate recipients ready to be assisted, including their name and contact information, an additional 10 points may be awarded.

(c) *Marketing and outreach plan.* A maximum of 5 points will be awarded for this criterion. If the scope of work included in the application provides a satisfactory discussion of each of the following criteria, one point for each can be awarded.

(1) The goals of the project;

(2) Identified need;

(3) Targeted ultimate recipients;

(4) Timeline and action plan; and

(5) Marketing and outreach strategies and supporting data for strategies.

(d) *Applicant's organizational experience in completing the EA or REDA proposed activity.* A maximum of 25 points will be awarded for this criterion based on the experience of the organization in providing EA or REDA as applicable to the purpose of the proposed project. The organization must have been in business and provided services for the number of years as identified in the paragraphs below. Experience of contractors proposed in the application to perform the services may be applied to this scoring criteria as long as the experience relates to the same type of activity, *e.g.*, energy audit experience for an EA application.

(1) More than 10 years of experience, 25 points will be awarded.

(2) At least 5 years and up to and including 10 years of experience, 20 points will be awarded.

(3) At least 2 years and up to and including 5 years of experience, 10 points will be awarded.

(4) Less than 2 years of experience, no points will be awarded.

(e) *Potential of project to produce energy savings or generation and its attending environmental benefits.* A maximum of 10 points will be awarded for this criterion under both paragraphs (e)(1) and (2) of this section

(1) If the applicant (does not include entities the applicant will contract with) has an existing program that can demonstrate the achievement of energy savings or energy generation with the agricultural producers and/or rural small businesses it has served, 5 points will be awarded.

(2) If the applicant (does not include entities the applicant will contract with) provides evidence that it has received one or more awards (*e.g.*, recognition, not funding awards) within the last 5 years in recognition of its renewable energy, energy savings, or energy-based technical assistance, up to a maximum of 5 points will be awarded as follows:

(i) International/national—3 points for each.

(ii) Regional/State—2 points for each.

(iii) Local—1 point for each.

(f) *Commitment of funds.* A maximum of 20 points will be awarded for this criterion if written documentation from each source providing matching funds and other funds are submitted with the application. Compare eligible commitment of funds to the amount of grant requested to derive percentage to be used for scoring.

(1) If the applicant proposes to match 50 percent or more of the grant funds requested, 20 points will be awarded.

(2) If the applicant proposes to match 20 percent or more but less than 50 percent of the grant funds requested, 15 points will be awarded.

(3) If the applicant proposes to match 5 percent or more but less than 20 percent of the grant funds requested, 10 points will be awarded.

(4) If the applicant proposes to match less than 5 percent of the grant funds requested, no points will be awarded.

§ 4280.156 Selecting EA and REDA grant applications for award.

Unless otherwise provided for in a FEDERAL REGISTER notice, EA and REDA grant applications will be processed in accordance with this section. EA and REDA grant funding is maintained at the National Office and applications compete for funds only once in a nationwide competition.

(a) *Application competition.* Complete EA and REDA applications received by the Agency by 4:30 p.m. local time on January 31 will be competed against each other. If January 31 falls on a weekend or a Federally observed holiday, the next Federal business day will be considered the last day for receipt of a complete application. Complete applications received after 4:30 p.m. local time on January 31, regardless of the postmark on the application, will be processed in the subsequent fiscal year. Unless otherwise specified in a FEDERAL REGISTER notice, the two highest scoring applications from each State, based on the scoring criteria established under § 4280.155, will compete for initial funding. If undersubscribed on eligible applications, the third highest scoring application from each state shall be requested for National Office review and potential competition, ranking and funding, until funds are expended.

(b) *Ranking of applications.* All applications submitted to the National Office under paragraph (a) of this section will be ranked in priority score order. All applications that are ranked and meet the minimum scoring threshold will be considered for selection for funding.

(c) *Selection of applications for funding.* Using the ranking created under paragraph (a) of this section, the Agency will consider the score an application has received compared to the scores of other ranked applications, with higher scoring applications receiving first consideration for funding. If two or more applications score the same and if remaining funds are insufficient to fund each such application, the Agency will distribute the remaining funds to each such application on a pro-rata basis. At its discretion, the Agency may also elect to redirect unused funds into the RES/EEI program

or allow any remaining multi-year funds to be carried over to the next fiscal year rather than funding on a pro-rata basis.

(d) *Handling of ranked applications not funded.* Based on the availability of funding, a ranked application submitted for EA or REDA funds may not be funded. Such ranked applications will not be carried forward into the next Federal fiscal year's competition.

§ 4280.157 [Reserved]

§ 4280.158 Awarding and administering EA and REDA grants.

The Agency will award and administer EA and REDA grants in accordance with Departmental Regulations and with the procedures and requirements specified in § 4280.123, except as specified in paragraphs (a) through (b) of this section.

(a) Instead of complying with § 4280.123(b), the grantee must provide satisfactory evidence to the Agency that all officers of grantee organization authorized to receive and/or disburse Federal funds are covered by such bonding and/or insurance requirements as are normally required by the grantee.

(b) The power purchase agreement specified in § 4280.123 (h) is not required.

§ 4280.159 Servicing EA and REDA grants.

The Agency will service EA and REDA grants in accordance with the requirements specified in Departmental Regulations, the Financial Assistance Agreement, 7 CFR part 3, 7 CFR 1951 Subparts E and O, and the requirements in § 4280.124, except as specified in paragraphs (a) through (d) of this section.

(a) *Grant disbursement.* The Agency will determine, based on the applicable Departmental Regulations, whether disbursement of a grant will be by advance or reimbursement. Form SF–270, Request for Advance or Reimbursement, must be completed by the grantee and submitted to the Agency no more often than monthly to request either advance or reimbursement of funds.

(b) *Semiannual performance reports.* Project performance reports shall include, but not be limited to, the following:

(1) A comparison of actual accomplishments to the objectives established for that period (*e.g.*, the number of EA performed, number of recipients assisted, and the type of assistance provided for REDA);

(2) A list of recipients, each recipient's location, and each recipient's NAICS code;

(3) Problems, delays, or adverse conditions, if any, that have in the past or will in the future affect attainment of overall project objectives, prevent meeting time schedules or objectives, or preclude the attainment of particular project work elements during established time periods. This disclosure shall be accompanied by a statement of the action taken or planned to resolve the situation;

(4) Objectives and timetable established for the next reporting period.

(c) *Final performance report.* A final performance report will be required with the final Federal financial report within 90 days after project completion. The final performance report must contain the information specified in paragraphs (c)(1)(i) or (ii) of this section, as applicable.

(1) For EA projects, the final performance report must provide complete information regarding:

(i) The number of audits conducted,

(ii) A list of recipients (agricultural producers and rural small businesses) with each recipient's NAICS code,

(iii) The location of each recipient,

(iv) The cost of each audit and documentation showing that the recipient of the EA provided 25 percent of the cost of the audit, and

(v) The expected energy saved for each audit conducted if the audit is implemented.

(2) For REDA projects, the final performance report must provide complete information regarding:

(i) The number of recipients assisted, and the type of assistance provided,

(ii) A list of recipients with each recipient's NAICS code,

(iii) The location of each recipient, and

(iv) The expected renewable energy that would be generated if the projects were implemented.

(d) *Outcome project performance report.* One year after submittal of the final performance report, the grantee will provide the Agency a final status report on the number of projects that are proceeding with the grantee's recommendations, including the amount of energy saved and the amount of renewable energy generated, as applicable.

§§ 4280.160–4280.165 [Reserved]

§ 4280.166 OMB control number.

The report and recordkeeping requirements contained in this part have been approved by the Office of Management and Budget and have been assigned OMB control number 0570–0067

APPENDIX A TO SUBPART B OF PART 4280—TECHNICAL REPORTS FOR ENERGY EFFICIENCY IMPROVEMENT (EEI) PROJECTS

For all EEI projects with total project costs of more than $80,000, provide the information specified in Sections A and D and in Section B or Section C, as applicable. If the application is for an EEI project with total project costs of $80,000 or less, please see § 4280.120 (b)(3) for the technical report information to be submitted with your application.

If the application is for an EEI project with total project costs of $200,000 and greater, you must conduct an energy audit. However, if the application is for an EEI project with a total project costs of less than $200,000, you may conduct either an energy assessment or an energy audit.

Section A—Project Information. Describe how all the improvements to or replacement of an existing building and/or equipment meet the requirements of being commercially available. Describe how the design, engineering, testing, and monitoring are sufficient to demonstrate that the proposed project will meet its intended purpose, ensure public safety, and comply with applicable laws, regulations, agreements, permits, codes, and standards. Describe how all equipment required for the EEI(s) is available and able to be procured and delivered within the proposed project development schedule. In addition, present information regarding component warranties and the availability of spare parts.

Section B—Energy audit. If conducting an energy audit, provide the following information.

(1) *Situation report.* Provide a narrative description of the existing building and/or equipment, its energy system(s) and usage, and activity profile. Also include average price per unit of energy (electricity, natural gas, propane, fuel oil, renewable energy, etc.) paid by the customer for the most recent 12 months, or an average of 2, 3, 4, or 5 years, for the building and equipment being audited. Any energy conversion should be based on use rather than source.

(2) *Potential improvement description.* Provide a narrative summary of the potential improvement and its ability to reduce energy consumption or improve energy efficiency, including a discussion of reliability and durability of the improvements.

(i) Provide preliminary specifications for critical components.

(ii) Provide preliminary drawings of project layout, including any related structural changes.

(iii) Identify significant changes in future related operations and maintenance costs.

(iv) Describe explicitly how outcomes will be measured.

(3) *Technical analysis.* Give consideration to the interactions among the potential improvements and the current energy system(s).

(i) For the most recent 12 months, or an average of 2, 3, 4, or 5 years, prior to the date the application is submitted, provide both the total amount and the total cost of energy used for the original building and/or equipment, as applicable, for each improvement identified in the potential project. In addition, provide for each improvement identified in the potential project an estimate of the total amount of energy that would have been used and the total cost that would have been incurred if the proposed project were in operation for this same time period.

(ii) Calculate all direct and attendant indirect costs of each improvement;

(iii) Rank potential improvements measures by cost-effectiveness; and

(iv) Provide an estimate of Simple Payback, including all calculations, documentation, and any assumptions.

(4) *Qualifications of the auditor.* Provide the qualifications of the person which completed the energy audit.

Section C—Energy Assessment. If conducting an Energy Assessment, provide the following information.

(1) *Situation report.* Provide a narrative description of the existing building and/or equipment, its energy system(s) and usage, and activity profile. Also include average price per unit of energy (electricity, natural gas, propane, fuel oil, renewable energy, etc.) paid by the customer for the most recent 12 months, or an average of 2, 3, 4, or 5 years, for the building and equipment being evaluated. Any energy conversion shall be based on use rather than source.

(2) *Potential improvement description.* Provide a narrative summary of the potential

improvement and its ability to reduce energy consumption or improve energy efficiency.

(3) *Technical analysis.* Giving consideration to the interactions among the potential improvements and the current energy system(s), provide the information specified in section C(3)(i) through (iii) of this appendix.

(i) For the most recent 12 months, or an average of 2, 3, 4, or 5 years, prior to the date the application is submitted, provide both the total amount and the total cost of energy used for the original building and/or equipment, as applicable, for each improvement identified in the potential project. In addition, provide for each improvement identified in the potential project an estimate of the total amount of energy that would have been used and the total cost that would have been incurred if the proposed project were in operation for this same time period.

(ii) Document baseline data compared to projected consumption, together with any explanatory notes on source of the projected consumption data. When appropriate, show before-and-after data in terms of consumption per unit of production, time, or area.

(iii) Provide an estimate of Simple Payback, including all calculations, documentation, and any assumptions.

(4) *Qualifications of the assessor.* Provide the qualifications of the person that completed the assessment. If the energy assessment for a project with total project costs of $80,000 or less is not conducted by Energy Auditor or Energy Assessor, then the person must have at least 3 years of experience and completed at least five energy assessments or energy audits on similar type projects.

Section D—Qualifications. Provide a resume or other evidence of the contractor or installer's qualifications and experience with the proposed EEI technology. Any contractor or installer with less than 2 years of experience may be required to provide additional information in order for the Agency to determine if they are qualified installer/contractor.

APPENDIX B TO SUBPART B OF PART 4280—TECHNICAL REPORTS FOR RENEWABLE ENERGY SYSTEM (RES) PROJECTS WITH TOTAL PROJECT COSTS OF LESS THAN $200,000, BUT MORE THAN $80,000

Provide the information specified in Sections A through D for each technical report prepared under this appendix. A renewable energy site assessment may be used in lieu of Sections A through C if the renewable energy site assessment contains the information requested in Sections A through C. In such instances, the technical report would consist of Section D and the renewable energy site assessment.

NOTE: If the total project cost for the RES project is $80,000 or less, this appendix does not apply. Instead, for such projects, please provide the information specified in §4280.120 (b)(4).

Section A—Project Description. Provide a description of the project, including its intended purpose and a summary of how the project will be constructed and installed. Describe how the system meets the definition of commercially available. Identify the project's location and describe the project site.

Section B—Resource Assessment. Describe the quality and availability of the renewable resource to the project. Identify the amount of renewable energy generated that will be generated once the proposed project is operating at its steady state operating level. If applicable, also identify the percentage of energy being replaced by the system.

If the application is for a bioenergy project, provide documentation that demonstrates that any and all woody biomass feedstock from National Forest System land or public lands cannot be used as a higher value wood-based product.

Section C—Project Economic Assessment. Describe the projected financial performance of the proposed project. The description must address total project costs, energy savings, and revenues, including applicable investment and other production incentives accruing from Government entities. Revenues to be considered shall accrue from the sale of energy, offset or savings in energy costs, and byproducts. Provide an estimate of Simple Payback, including all calculations, documentation, and any assumptions.

Section D—Project Construction and Equipment Information. Describe how the design, engineering, testing, and monitoring are sufficient to demonstrate that the proposed project will meet its intended purpose, ensure public safety, and comply with applicable laws, regulations, agreements, permits, codes, and standards. Describe how all equipment required for the RES is available and able to be procured and delivered within the proposed project development schedule. In addition, present information regarding component warranties and the availability of spare parts.

Section E—Qualifications of Key Service Providers. Describe the key service providers, including the number of similar systems installed and/or manufactured previously, professional credentials, licenses, and relevant experience. When specific numbers are not available for similar systems, estimations will be acceptable.

APPENDIX C TO SUBPART B OF PART 4280—TECHNICAL REPORTS FOR RENEWABLE ENERGY SYSTEM (RES) PROJECTS WITH TOTAL PROJECT COSTS OF $200,000 AND GREATER

Provide the information specified in Sections A through G for each technical report prepared under this appendix. Provide the resource assessment under Section C that is applicable to the project. For hybrid projects, technical reports must be prepared for each technology that comprises the hybrid project.

Section A—Qualifications of the Project Team. Describe the project team, their professional credentials, and relevant experience. The description shall support that the project team key service providers have the necessary professional credentials, licenses, certifications, and relevant experience to develop the proposed project.

Section B—Agreements and Permits. Describe the necessary agreements and permits (including any for local zoning requirements) required for the project and the anticipated schedule for securing those agreements and permits. For example, interconnection agreements and power purchase agreements are necessary for all renewable energy projects electrically interconnected to the utility grid.

Section C—Resource Assessment. Describe the quality and availability of the renewable resource and the amount of renewable energy generated through the deployment of the proposed system. For all bioenergy projects, except anaerobic digesters projects, complete Section C.3 of this appendix. For anaerobic digester projects, complete Section C.6 of this appendix.

1. *Wind.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the source of the wind data and the conditions of the wind monitoring when collected at the site or assumptions made when applying nearby wind data to the site.

2. *Solar.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the source of the solar data and assumptions.

3. *Bioenergy/Biomass Project.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the type, quantity, quality, and seasonality of the renewable biomass resource, including harvest and storage, where applicable. Where applicable, also indicate shipping or receiving method and required infrastructure for shipping. For proposed projects with an established resource, provide a summary of the resource. Document that any and all woody biomass feedstock from National Forest System land or public lands cannot be used as a higher value wood-based product.

4. *Geothermal Electric Generation.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the quality of the geothermal resource, including temperature, flow, and sustainability and what conversion system is to be installed. Describe any special handling of cooled geothermal waters that may be necessary. Describe the process for determining the geothermal resource, including measurement setup for the collection of the geothermal resource data. For proposed projects with an established resource, provide a summary of the resource and the specifications of the measurement setup.

5. *Geothermal Direct Generation.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the quality of the geothermal resource, including temperature, flow, and sustainability and what direct use system is to be installed. Describe any special handling of cooled geothermal waters that may be necessary. Describe the process for determining the geothermal resource, including measurement setup for the collection of the geothermal resource data. For proposed projects with an established resource, provide a summary of the resource and the specifications of the measurement setup.

6. *Anaerobic Digester Project/Biogas.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the substrates used as digester inputs, including animal wastes or other Renewable Biomass in terms of type, quantity, seasonality, and frequency of collection. Describe any special handling of feedstock that may be necessary. Describe the process for determining the feedstock resource. Provide either tabular values or laboratory analysis of representative samples that include biodegradability studies to produce gas production estimates for the project on daily, monthly, and seasonal basis. If an anerobic digester project, identify the type of operation (*e.g.,* dairy, swine, layer, etc.), along with breed, herd population size and demographics, and the type of waste collection method and frequency information available. For the biogas produced, identify the type of digester (*e.g.,* mixed, plug-flow, attached film, covered lagoon, etc.), if applicable, or the method of capture (landfill, sewage waste treatment, etc.) and treatment. Identify the system designer and determine the digester design assumptions such as the number and type of animals, the bedding type and estimated annual quantity used, the manure and wastewater volumes, and the treatment of digester effluent (*e.g.,* none, solids separation by screening, etc.

with details including use or method of disposal).

7. *Hydrogen Project.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the type, quantity, quality, and seasonality of the renewable biomass resource. For solar, wind, or geothermal sources of energy used to generate hydrogen, indicate the renewable resource where the hydrogen system is to be installed. Local resource maps may be used as an acceptable preliminary source of renewable resource data. For proposed projects with an established renewable resource, provide a summary of the resource.

8. *Hydroelectric/Ocean Energy Projects.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the quality of the resource, including temperature (if applicable), flow, and sustainability of the resource, including a summary of the resource evaluation process and the specifications of the measurement setup and the date and duration of the evaluation process and proximity to the proposed site. If less than 1 year of data is used, a qualified consultant must provide a detailed analysis of the correlation between the site data and a nearby, long-term measurement site.

(9) *RES with storage components.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the type, quantity, quality, and seasonality of the renewable energy resource, where applicable. Indicate the storage system specifications and the integrity of the system in conjunction with the RES it is integrated with, including application, size, lifetime, response time, capital and maintenance costs associated with the operation as well as the distribution of the stored resource(s).

Section D—Design and Engineering. Describe the intended purpose of the project and the design, engineering, testing, and monitoring needed for the proposed project. The description shall support that the system will be designed, engineered, tested, and monitored so as to meet its intended purpose, ensure public safety, and comply with applicable laws, regulations, agreements, permits, codes, and standards. In addition, identify that all major equipment is commercially available, including proprietary equipment, and justify how this unique equipment is needed to meet the requirements of the proposed design. In addition, information regarding component warranties and the availability of spare parts must be presented.

Section E—Project Development. Describe the overall project development method, including the key project development activities and the proposed schedule, including proposed dates for each activity. The description shall identify each significant historical and projected activity, its beginning and end, and its relationship to the time needed to initiate and carry the activity through to successful project completion. The description shall address applicant project development cash flow requirements. Details for equipment procurement and installation shall be addressed in Section F of this appendix.

Section F—Equipment Procurement and Installation. Describe the availability of the equipment required by the system. The description shall support that the required equipment is available and can be procured and delivered within the proposed project development schedule. Describe the plan for site development and system installation, including any special equipment requirements. In all cases, the system or improvement shall be installed in conformance with manufacturer's specifications and design requirements, and comply with applicable laws, regulations, agreements, permits, codes, and standards.

Section G—Operations and Maintenance. Describe the operations and maintenance requirements of the system, including major rebuilds and component replacements necessary for the system to operate as designed over its useful life. The warranty must cover and provide protection against both breakdown and a degradation of performance. The performance of the RES or EEI shall be monitored and recorded as appropriate to the specific technology.

APPENDIX D TO SUBPART B OF PART 4280—FEASIBILITY STUDY COMPONENTS

EXECUTIVE SUMMARY

Provide an overview to describe the nature and scope of the proposed project, including the purpose, project location, design features, capacity, and estimated capital costs. Include a summary of the feasibility determinations made for each applicable component.

ECONOMIC

What is it?	Cost benefit analysis.
What are the factors to consider?.	Minimum amount of inputs (labor, infrastructure, utilities, renewable resources, feedstocks) to operate successfully.

ECONOMIC—Continued

	Contracts in place and contracts to be negotiated, including terms and renewals. Environmental risks. Cost of project relative to the increase in revenues or benefits provided. Overall economic impact of project including new markets created and economic development.

MARKET

What is it?	Analysis of the current and future market potential, competition, sales or service estimations including current and prospective buyers or users.
What are the factors to consider?.	Competition. Type of project: Service, product or commodity based. Target market, new versus established. End user analysis, captive versus competitive. By-product revenue streams. Industry risk.

TECHNICAL

What is it?	Analyzing the reliability of the technology to be used and/or the analysis of the delivery of goods or services, including transportation, business location, and the need for technology, materials, and labor.
What are the factors to consider?.	Commercial availability. Product and process success record and duplication of results. Experience of the service providers. Roads, rail, airport infrastructure. Need for local transportation. Labor market. Availability of materials. Use, age, and reliability of technology. Construction risk.

FINANCIAL

What is it?	Analysis of the operation to achieve sufficient income, credit, and cashflow to financially sustain the project over the long term and meet all debt obligations.
What are the factors to consider?.	Commercial or project underwriting. Management's assumptions. Accounting policies. Source of repayment. Dependency on other entities. Equity contribution. Market demand forecast. Peer industry comparison. Cost-accounting system. Availability of short-term credit. Adequacy of raw materials and supplies.

FINANCIAL—Continued	
	Sensitivity analysis.
MANAGEMENT	
What is it?	Analysis of the legal structure of the business or operation; ownership, board and management analysis.
What are the factors to consider?.	History of the business or organization. Professional and educational background. Experience. Skills. Qualifications necessary to implement the project.
RECOMMENDATION	
Conclude with an opinion and recommendation presented by the consultant.	
QUALIFICATIONS	
Provide a resume or statement of qualifications of the author of the feasibility study, including prior experience.	

Subpart C [Reserved]

Subpart D—Rural Microentrepreneur Assistance Program

SOURCE: 86 FR 26353, May 14, 2021, unless otherwise noted.

§ 4280.301 Purpose and scope.

(a) This subpart contains the policies and procedures by which the Agency will administer the Rural Microentrepreneur Assistance Program (RMAP). The purpose of the Program is to support the development and ongoing success of rural microentrepreneurs and microenterprises. To accomplish this purpose, the Program will make direct loans and provide grants to selected Microenterprise Development Organizations. Selected Microenterprise Development Organization will use the funds to:

(1) Provide microloans to rural microentrepreneurs and microenterprises;

(2) Provide business-based training and technical assistance to rural microborrowers and potential microborrowers as an essential part of the microlending process;

(3) Perform other such activities as deemed appropriate by the Secretary to ensure the development and ongoing success of rural microenterprises.

(b) The Agency will make direct loans to microlenders for the purpose of providing fixed interest rate microloans to rural microentrepreneurs for business startup and for growing microenterprises in compliance with §§ 4280.311 and 4280.312. Eligible microlenders will also be eligible to receive microlender technical assistance grants to provide technical assistance and training to microenterprises that have received or are seeking a microloan under this program in compliance with § 4280.313.

(c) To allow for extended opportunities for technical assistance and training, the Agency will make technical assistance-only grants to Microenterprise Development Organizations that have sources of funding other than program funds for making or facilitating microloans.

§ 4280.302 Definitions and abbreviations.

(a) *General definitions.* The following definitions apply to the terms used in this subpart.

Administrative expenses. Those expenses incurred by a Microenterprise Development Organization for the operation of services under this program. Not more than 10 percent of technical assistance grant funds may be used for such expenses.

Agency. USDA Rural Development, Rural Business-Cooperative Service or its successor organization.

Agricultural production. The cultivation, growing, or harvesting of plants and crops (including farming), breeding, raising, feeding, or housing of livestock (including ranching).

Applicant. The legal entity, also referred to as a Microenterprise Development Organization, submitting an application to participate in the program.

Application. The required forms and documentation submitted by a Microenterprise Development Organization for acceptance into the program.

Award. The written documentation, executed by the Agency after the application is approved, containing the terms and conditions for provision of financial assistance to the applicant. Financial assistance may constitute a loan or a grant, or both.

Business incubator. An organization that provides temporary premises at below market rates, technical assistance in developing business or marketing plans, technical services, use of equipment, or other facilities or services to rural microentrepreneurs and microenterprises starting or growing a business. The business incubator may also provide access to capital through direct loans or referrals to loan programs.

Close relative. Individuals who live in the same household or who are closely related by blood, marriage, or adoption, such as a spouse, domestic partner, parent, child, sibling, aunt, uncle, grandparent, grandchild, niece, nephew, or first cousin.

Default. The condition that exists when a borrower is not in compliance with the promissory note, the loan and/or grant agreement, or other related documents evidencing the loan from the Agency or the Microenterprise Development Organization.

Delinquency. Failure by a Microenterprise Development Organization or microborrower to make a scheduled loan payment by the due date or within any grace period as stipulated in the promissory note and loan agreement.

Eligible project cost. The total cost of a microborrower's project for which a microloan is being sought from a microlender, less any costs identified as ineligible in § 4280.323.

Facilitation of access to capital. For purposes of this program, facilitation of access to capital means assisting a client of the technical assistance only grantee in obtaining a microloan, whether or not the microloan is wholly or partially capitalized by funds provided under this program.

Federal fiscal year (FY). The 12-month period beginning October 1 of any given year and ending on September 30 of the following year.

Full-time equivalent employee (FTE). The Agency uses the Bureau of Labor Statistics definition of full-time jobs as its standard definition. For purposes of this program, a full-time job is a job that has at least 35 hours in a work week. As such, one full-time job with at least 35 hours in a work week equals one FTE; two part-time jobs with combined hours of at least 35 hours in a work week equals one FTE, and three seasonal jobs equals one FTE. If an FTE calculation results in a fraction, it should be rounded up to the next whole number.

Indian tribe. Means the term as defined in 25 U.S.C. 5304(e).

Loan loss reserve fund (LLRF). A deposit account that each microlender must establish and maintain in an amount equal to not less than 5 percent of the total amount owed by the microlender under this program to the Agency. This account can be used to pay any shortage in the rural microloan revolving fund caused by delinquencies or losses on microloans.

Microborrower. A microentrepreneur or microenterprise that has received loans or financial assistance from a microlender under this program in an amount of $50,000 or less.

Microenterprise. Microenterprise means:

(i) A sole proprietorship located in a rural area, as defined; or

(ii) A business entity located in a rural area, as defined, with not more than 10 full-time-equivalent employees.

Such businesses may include any type of legal business that meets local standards of decency, though certain business types may be ineligible as defined in §4280.323 Business types may also include agricultural producers provided they meet the stipulations in this definition.

Microenterprise development organization (MDO). A domestic organization that is a non-profit entity; an Indian tribe; or a public institution of higher education with loan or assistance programs for the benefit of rural microentrepreneurs and microenterprises. An MDO will:

(i) Provide training and technical assistance;

(ii) Make microloans or facilitate access to capital or other related services; and

(iii) Have a demonstrated record of delivering services to rural microentrepreneurs, or an effective plan to develop a program to deliver services to rural microentrepreneurs.

Microentrepreneur. An owner and operator, or prospective owner and operator, of a rural microenterprise who is unable to obtain sufficient training, technical assistance, or credit other than under this section. All microentrepreneurs assisted under this regulation must be located in rural areas.

Microlender. An MDO that has been approved by the Agency for participation under this subpart to make microloans and provide an integrated program of training and technical assistance to its microborrowers and prospective microborrowers.

Microloan. A business loan of not more than $50,000 for eligible purposes to a microborrower with a fixed interest rate and a term not to exceed 10 years.

Military personnel. Individuals, regardless of rank or grade, currently in active United States military service with less than 6 months remaining in their active duty service requirement.

Nonprofit entity. An entity chartered as a nonprofit entity under State or Tribal Law.

Program. The Rural Microentrepreneur Assistance Program (RMAP).

Rural Microloan Revolving Fund (RMRF). An exclusive account on which the Agency will hold a first lien and from which microloans will be made by the MDO. All payments from microborrowers and reimbursements from the LLRF will be deposited into the RMRF account. Loan payments will be made to the Agency by the microlender from the RMRF.

Rural or rural area. Any area of a State not in a city or town that has a population of more than 50,000 inhabitants, not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants, and excluding certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I). In making this determination, the Agency will use the latest decennial census of the United States. The following exclusions apply:

(i) Any area in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants that is attached to the urbanized area of a city or town with more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than two census blocks wide. Applicants from such an area should work with their Rural Development State Office to request a determination of whether their project is located in a rural area under this provision.

(ii) For the Commonwealth of Puerto Rico, the island is considered Rural and eligible except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be rural if they are ''not urban in character.''

(iii) For the State of Hawaii, all areas within the State are considered rural and eligible except for the Honolulu CDP within the County of Honolulu and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the Honolulu CDP, may be determined to be rural if they are ''not urban in character.''

(iv) For the purpose of defining a rural area in the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands,

the Agency shall determine what constitutes rural and rural area based on available population data.

State. Any of the 50 States of the United States, the Commonwealth of Puerto Rico, the District of Columbia, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Technical assistance (TA) and training. A function performed for the benefit of a private business enterprise or a community which is a problem-solving activity such as market research, product and/or service improvement, feasibility study, worker training programs, etc., to assist in the economic development of a rural area.

Technical assistance grant. A grant from the Agency, the funds of which are used to provide TA and training.

(b) *Abbreviations.* The following abbreviations apply to the terms used in this subpart.

FTE—Full-time employee.

FY—Fiscal year.

LLRF—Loan loss reserve fund.

MDO—Microenterprise Development Organization.

RMAP—Rural Microentrepreneur Assistance Program.

RMRF—Rural microloan revolving fund.

TA—Technical assistance.

[86 FR 26353, May 14, 2021, as amended at 87 FR 38644, June 29, 2022]

§ 4280.303 Exception authority.

The Administrator may make limited exceptions to the requirements or provisions of this subpart. Such exceptions must be in the best financial interest of the Federal government and may not conflict with applicable law. No exceptions may be made regarding applicant eligibility, project eligibility, or the rural area definition. In addition, exceptions may not be made:

(a) To accept an applicant into the program that would not normally be accepted under the eligibility criteria; or

(b) To fund an interested party or applicant that has not successfully competed for funding in accordance with this subpart.

§ 4280.304 Review or appeal rights and administrative concerns.

(a) *Review or appeal rights.* An applicant MDO, a microlender, or grantee MDO may seek a review of an adverse Agency decision under this subpart from the appropriate Agency official that oversees the program in question, and/or appeal the Agency decision to the National Appeals Division in accordance with 7 CFR part 11.

(b) *Administrative concerns.* Any questions or concerns regarding the administration of the program, including any action of the microlender, may be sent to: USDA Rural Development, Rural Business-Cooperative Service, Program Management Division at 1400 Independence Avenue SW, Room 5160–S, Mail Stop 3226, Washington, DC 20250–3226 or its successor agency, or the local USDA Rural Development office.

§ 4280.305 Nondiscrimination and compliance with other Federal laws.

(a) Any entity receiving funds under this subpart must comply with other applicable Federal laws, including the Equal Employment Opportunities Act of 1972, the Americans with Disabilities Act, the Equal Credit Opportunity Act, the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and 7 CFR part 1901, subpart E.

(b) The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720–2600 (voice and TDD). Any applicant that believes it has been discriminated against as a result of applying for funds under this program should contact: USDA, Director, Office of Adjudication, 1400 Independence Avenue SW, Washington, DC

20250–9410, or call (866) 632–9992 (toll free) or (202) 401–0216 (TDD) for information and instructions regarding the filing of a Civil Rights complaint. USDA is an equal opportunity provider, employer, and lender.

(c) A pre-award compliance review will take place at the time of application when the applicant completes or provides the Agency with sufficient demographic information to complete Form RD 400–8, ''Compliance Review''. Post-award compliance reviews will take place once every three years after the beginning of participation in the program and until such time as a microlender leaves the program.

§ 4280.306 Forms, regulations, and instructions.

Copies of all forms, regulations, and instructions referenced in this subpart are available in any Agency office, the Agency's website at: *https://www.rd.usda.gov/page/regulations-and-guidance/* and for grants on the internet at *www.grants.gov*.

§§ 4280.307–4280.309 [Reserved]

§ 4280.310 Program requirements for MDOs.

(a) *Eligibility requirements for applicant MDOs.* To be eligible for a direct loan or grant award under this subpart, an applicant must meet each of the criteria set forth in paragraphs (a)(1) through (4) of this section, as applicable.

(1) *Type of applicant.* The applicant must meet the definition of an MDO as provided in § 4280.302.

(2*) Citizenship.* Non-profit entities, to be eligible to apply for status as an MDO, must be at least 51 percent controlled by persons who are either:

(i) Citizens of the United States, the Republic of Palau, the Federated States of Micronesia, the Republic of the Marshall Islands, American Samoa, or the Commonwealth of Puerto Rico; or

(ii) Legally admitted permanent residents residing in the United States.

(3) *Legal authority and responsibility.* The applicant must have the legal authority necessary to carry out the purpose of the award.

(4) *Other eligibility requirements.* The applicant must also provide evidence that it:

(i) Has demonstrated experience in the management of a revolving loan fund; or

(ii) Certifies that it, or its employees, have received education and training from a qualified microenterprise development training entity so that the applicant has the capacity to manage such a revolving loan fund;

(iii) Is actively and successfully participating as an intermediary lender in good standing under similar loan programs; and

(iv) Provides an attorney's opinion regarding the potential microlender's legal status and its ability to enter into program transactions at the time of initial entry into the program. Subsequent to acceptance into the program, an attorney's opinion will not be required unless the Agency determines significant changes to the microlender have occurred.

(b) *System for Awards Management.* All applicants must be registered in the System for Awards Management (SAM) prior to submitting an application, unless determined exempt under 2 CFR 25.110. Loan and grant recipients must maintain an active SAM registration with current information at all times during which it has an active Federal award or an application under consideration by the Agency. The applicant must ensure that the information in the database is current, accurate, and complete. Applicants must ensure that they complete the Financial Assistance General Certifications and Representations in SAM.

(c) *Minimum score.* Once deemed eligible, an entity will be evaluated based on the scoring criteria in § 4280.316 for adequate qualification to participate in the program. Eligible MDOs must score a minimum of sixty (60) points in order to be considered to receive an award under this subpart.

(d) *Ineligible applicants.* An applicant will be considered ineligible if it:

(1) Does not meet the definition of an MDO as provided in § 4280.302;

(2) Is debarred, suspended or otherwise excluded from, or ineligible for, participation in Federal assistance programs; or

(3) Has an outstanding judgment against it, obtained by the United States in a Federal Court (other than U.S. Tax Court).

(e) *Delinquencies.* No applicant will be eligible to receive a loan if it is delinquent on a Federal debt.

(f) *Application eligibility and qualification.* An application will only be considered eligible for funding if it is submitted by an eligible MDO. The applicant will qualify for funding based on the results of review, scoring, and other procedures as indicated in this subpart, and the applicant will further:

(1) Establish an RMRF, or add capital to an RMRF originally capitalized under this program, and establish or continue a training and TA program for its microborrowers and prospective microborrowers; or

(2) Fund a TA-only grant program to provide services to rural microentrepreneurs and microenterprises.

(g) *Business incubators.* Because the purpose of a business incubator is to provide business-based TA and an environment in which micro-level, very small, and small businesses may thrive, a microlender that meets all other eligibility requirements and owns and operates a small business incubator will be considered eligible to apply. In addition, a business incubator selected to participate as a microlender may use RMAP funds to lend to an eligible microenterprise tenant, without creating a conflict of interest under §4280.323(c).

§4280.311 Loan provisions for Agency loans to microlenders.

(a) *Purpose of the loan.* Loans will be made to eligible and qualified microlenders to capitalize RMRFs that it will administer by making and servicing microloans in one or more rural areas.

(b) *Eligible activities.* Microlenders may make microloans for qualified business activities and use Agency loan funds only as provided in §4280.322.

(c) *Ineligible activities.* Microlenders may not use RMRF funds for administrative costs or expenses and may not make microloans under this program for ineligible businesses or purposes as specified in §4280.323.

(d) *Cost share.* The Federal share of the eligible project cost of a microborrower's project funded under this section shall not exceed 75 percent. The cost share requirement shall be met by the microlender using either of the options identified in paragraphs (d)(1) and (2) of this section in establishing an RMRF. A microlender may establish multiple RMRFs utilizing either option. Whichever option is selected for an RMRF, it must apply to the entire RMRF and all microloans made with funds from that RMRF.

(1) *Microborrower project level option.* The loan covenants between the Agency and the microlender and the microlender's lending policies and procedures shall limit the microlender's loan to the microborrower to no more than 75 percent of the eligible project costs and require that the microborrower obtain the remaining 25 percent of the eligible project cost from non-Federal sources. The non-Federal share of the eligible project cost of the project may be provided in cash (including through fees, grants, and gifts) or in the form of in-kind contributions.

(2) *RMRF level option.* The microlender shall capitalize the RMRF at no more than 75 percent Agency loan funds and not less than 25 percent non-Federal funds, thereby allowing the microlender to finance 100 percent of the microborrower's eligible project costs. All contributed funds shall be maintained in the RMRF.

(e) *Loan terms and conditions for microlenders.* Program loans will be made to microlenders under the following terms and conditions:

(1) Funds received from the Agency and any non-Federal share will be deposited into an account that will be the RMRF account and shall not be mingled with other MDO funds. The Agency will hold first lien position on the RMRF account, the LLRF account, and all notes receivable from microloans using Agency funds.

(2) The RMRF account will be used to make fixed-rate microloans, accept repayments from microborrowers and reimbursements from the LLRF, to repay the Agency loan and, with the advance written approval of the Agency, to supplement the LLRF with interest or fee earnings from the RMRF.

(3) The term of an Agency loan made to a microlender will be 20 years. If requested by the applicant MDO, a shorter term may be agreed upon by the microlender and the Agency. If a repayment workout is required after loan closing, the term of the loan may not exceed a 20-year period from the loan origination date.

(4) Each RMAP loan made to a microlender during its first five years of participation in the program will bear an interest rate of 2 percent for the life of the loan. After the fifth year of an MDO's continuous and satisfactory participation in the program, each new loan made to the microlender will bear interest at a rate of 1 percent. The interest rate on previous loans will remain unchanged. Satisfactory participation requires a loan default rate of 5 percent or less, a pattern of delinquencies of 10 percent or less in the MDO's RMRF account(s), and timely submission of reports to the Agency as required by § 4280.311(h).

(5) Each loan made to a microlender will automatically receive a 2-year deferral during which time no repayment to the Agency will be required. The deferral period will begin on the day the Agency's loan to the microlender is closed. During the initial 2-year deferral period, each loan to a microlender will accrue interest only on funds disbursed by the Agency. Interest accrued during the 2-year deferral period will be capitalized to the loan's principal balance during the 24th month of the loan unless the microlender chooses to make a voluntary payment of the accrued interest. The required monthly payments to amortize the loan after the 2-year deferral period will be based on the full loan amount plus capitalized interest, not just the amount disbursed to the microlender, even in cases where the Agency's loan has not been fully advanced to the microlender.

(6) Except in the case of liquidation or early repayment, loans to microlenders must fully amortize over the life of the loan. The first payment will be due to the Agency on the last day of the 24th month of the life of the loan.

(7) The microlender is responsible for full repayment of its loan to the Agency regardless of the performance of its microloan portfolio. Partial or full repayment of debt to the Agency under the program may be made at any time, including during the deferral period, without any pre-payment penalties being assessed.

(8) The Agency may call the entire loan due and payable prior to the end of the full term due to any non-performance, delinquency, or default on the loan.

(9) The loan closing between the microlender and the Agency should take place within 90 days from the execution of Form RD 1940–1, ''Request for Obligation of Funds.'' Microlenders that are unable to close the loan within 90 days of obligation must provide justification for the delay or loan funds will be forfeited through a de-obligation of funds.

(10) Microlenders will be eligible to receive a disbursement of up to 25 percent of the total loan amount at the time of loan closing. Funds disbursed at loan closing exceeding 25 percent of the loan amount will only be made if and to the extent that the MDO has made a funding commitment to an eligible microborrower that will be closed within 60 days from the Agency loan date. Interest will accrue on all funds disbursed to the microlender beginning on the date of disbursement.

(11) Microlenders may request in writing and receive additional loan disbursements until the full amount of the loan to the microlender is disbursed, or until the end of the 36th month of the loan, whichever occurs first. Letters of request for disbursement should be made not more often than quarterly and must be accompanied by a description of the microlender's anticipated need. Such description will indicate the amount and number of microloans anticipated to be made with the loan disbursement.

(12) Funds not disbursed to the microlender by the end of the 36th month of the loan from the Agency will be de-obligated and no longer available for disbursement to the MDO. In such cases where loan funds are deobligated, the Agency will establish a revised payment schedule to fully amortize the loan balance by its maturity date.

(13) In the event a microlender fails to meet its payment or reporting obligations to the Agency, the Agency may pursue any combination of the following:

(i) Take possession of the RMRF and/or any microloans outstanding, and/or the LLRF;

(ii) Call the loan due and payable in full; and/or

(iii) Enter into a workout agreement acceptable to the Agency, which may or may not include transfer or sale of the portfolio to another microlender (whether or not funded under the program) deemed acceptable to the Agency.

(14) If a microlender makes a withdrawal from the RMRF for any purpose other than to make a microloan, repay the Agency, or, with advance written approval, transfer an appropriate amount of non-Federal funds to the LLRF, the Agency may take actions including the restriction of further access to withdrawals from the account by the microlender or declaring the loan in default due to improper use of loan funds.

(f) *Loan funding limitations*—(1) *Minimum and maximum loan amounts.* The minimum loan amount that a microlender may borrow under this program will be $50,000. The maximum amount any microlender may borrow on a single loan under this program, or in any given Federal FY, will be $500,000. In no case will the aggregate outstanding balance owed to the program by any single microlender exceed $2,500,000.

(2) *Use of funds.* Agency loan funds must be used only to establish or recapitalize an existing Agency funded RMRF account out of which microloans will be made, into which microloan payments will be deposited, and from which repayments to the Agency will be made.

(g) *Loan loss reserve fund (LLRF).* Each microlender that receives one or more loans under the program will be required to establish an LLRF account.

(1) *Purpose.* The purpose of the LLRF is to protect the microlender and the Agency against losses that may occur as the result of the failure of one or more microborrowers to repay their loans on a timely basis.

(2) *Capitalization and maintenance.* The LLRF is subject to each of the following conditions:

(i) The microlender must maintain the LLRF at a minimum of 5 percent of the total amount owed by the microlender under the program to the Agency. If the LLRF falls below the required amount, the microlender will have 30 days to replenish the LLRF. The Agency will hold a security interest in the account and all funds therein until the MDO has repaid its debt to the Agency under this program.

(ii) No Agency loan funds may be used to capitalize the LLRF.

(iii) The LLRF must be held in a Federally insured deposit account separate and distinct from any other fund owned by the microlender.

(iv) The LLRF must remain open, appropriately capitalized, and active until such time as any loans owed to the Agency by the microlender under the program related to such LLRF are paid in full.

(3) *Use of LLRF.* The LLRF must be used only to:

(i) Recapitalize the RMRF in the event of the loss and write-off of a microloan;

(ii) Accept Non-Federal deposits as required for maintenance of the fund at a level equal to 5 percent or more of the amount owed to the Agency by the microlender under the program; and

(iii) Prepay or repay the Agency program loan.

(4) *LLRF funded at time of closing.* The LLRF account must be established by the microlender prior to the closing of the loan from the Agency. At the time of initial loan closing, sources of funding for the LLRF must be identified by the microlender and funds equal to 5 percent of the initial loan disbursement, if made at loan closing, must be made to the LLRF by the microlender. The amount in the LLRF can be built over time and must be maintained in an amount greater than or equal to 5 percent of the amount owed to the Agency by the microlender under the program. After the first disbursement is made to a microlender, further disbursements will only be made if the LLRF is funded at the appropriate amount. After the initial loan is made

to a microlender, subsequent loan closings may require a deposit of additional funds to the LLRF to maintain an amount equal to 5 percent of the total loan balance owed to the Agency under the program. Federal funds, except where specifically permitted by other laws, may not be used to fund the LLRF.

(5) *Additional LLRF funding.* In the event of exhibited weaknesses, such as losses that are greater than 5 percent of the microloan portfolio or a microborrower delinquency rate in excess of 10 percent, the Agency may require the microlender to deposit additional funds into the LLRF; however, the Agency may never require an LLRF balance of more than 10 percent of the total amount owed to the Agency by the microlender.

(h) *Recordkeeping, reporting, and oversight.* Microlenders must maintain all records applicable to the program and make them available to the Agency upon request. Microlenders must submit quarterly reports as specified in paragraphs (h)(1) through (4) of this section. Portfolio reporting requirements must be met via the electronic reporting system. Other reports, such as narrative information, may be submitted as hard copy in the event the microlender or grantee does not have the capability to submit or accept such reports electronically.

(1) *Periodic reports.* On a quarterly basis, within 30 days of the end of each Federal FY calendar quarter, each microlender that has an outstanding loan under this section must provide to the Agency:

(i) An Agency-approved form containing such information as the Agency may require, and in accordance with OMB circulars and guidance, to ensure that funds provided are being used for the purposes for which the loan to the microlender was made;

(ii) Listing of each microborrower under this program, their loan balance and payment status; and

(iii) A discussion reconciling the microlender's actual results for the period against its goals, milestones, and objectives as provided in the application package.

(2) *Minimum retention.* Microlenders must provide evidence in their quarterly reports that the sum of the unexpended amount in the RMRF, plus the amount in the LLRF, plus debt owed by the microborrowers is equal to a minimum of 105 percent of the amount owed by the microlender to the Agency, unless the Agency has established a higher LLRF reserve requirement for a specific microlender.

(3) *Combining accounts and reports.* If a microlender has more than one loan from the Agency, a separate report must be made for each loan except when RMRF accounts have been combined. A microlender may combine RMRF accounts only when the Agency approves the combining of accounts and reports in writing before such accounts are combined and reports are submitted, and:

(i) The underlying loans have the same rates, terms and conditions, including the method of determining matching funds for a microborrower's project; and

(ii) The combined report allows the Agency to effectively administer the program, including providing the same level of transparency and information for each loan as if separate RMRF and LLRF reports had been prepared.

(4) *Delinquency.* In the event that a microlender has delinquent loans in its RMAP portfolio, quarterly reports will include narrative explanation of the steps being taken to cure the delinquency.

(5) *Other reports.* Other reports may be required by the Agency from time to time in the event of poor performance, one or more work-out agreements, or other such occurrences that require more than the usual set of program servicing.

(6) *Access to microlender's records.* Upon request by the Agency, the microlender will permit representatives of the Agency to inspect and make copies of any records pertaining to operation and administration of the program. Such inspection and copying may be made during regular office hours of the microlender or at any other time agreed upon between the microlender and the Agency.

(7) *Changes in key personnel.* Before any additions or changes are made to key personnel, the microlender must notify, and the Agency must approve,

such changes. Such approval shall not be unreasonably withheld by the Agency.

§4280.312 Loan approval and closing.

(a) *Loan approval and obligating funds.* The loan will be considered approved on the date the signed copy of Form RD 1940–1, ''Request for Obligation of Funds,'' is executed by the Agency. Form RD 1940–1 authorizes funds to be obligated and may be executed by the Agency after the microlender has signed the document, provided that the microlender has the legal authority to contract for a loan and to enter into required agreements, including an Agency-approved loan agreement, and meets all program loan requirements.

(b) *Letter of conditions.* Upon reviewing the conditions and requirements in the letter of conditions, the applicant must complete, sign, and return Form RD 1942–46, ''Letter of Intent to Meet Conditions,'' to the Agency; or if certain conditions cannot be met, the applicant may propose alternate conditions. The Agency will review any requests for changes to the letter of conditions and may approve only minor changes that do not materially affect the microlender and remain within the program requirements. Changes in legal entities prior to loan closing will not be approved.

(c) *Loan closing.* (1) Prior to loan closing, microlenders must provide evidence that the RMRF and LLRF bank accounts have been set up and the LLRF has been or will be funded as described in §4280.311(g)(4). Such evidence shall consist of:

(i) A pre-authorized debit form allowing the Agency to withdraw payments from the RMRF account, and in the event of a repayment workout, from the LLRF account;

(ii) An Agency-approved automatic deposit authorization form, from the depository institution providing the Agency with the RMRF account number, into which funds may be deposited at time of disbursement to the microlender;

(iii) A statement from the depository institution as to the amount of cash in the LLRF account;

(iv) An Agency-approved promissory note and a loan agreement for each loan to the MDO must be executed at loan closing. The loan agreement will be prepared by the Agency using Form RD 4274–4, ''Intermediary Relending Program/Rural Microentrepreneur Assistance Program Loan Agreement,'' and reviewed by the MDO prior to loan closing; and

(v) An appropriate security agreement on the LLRF and RMRF accounts must be executed at loan closing.

(2) At loan closing, the microlender must certify that:

(i) All requirements of the letter of conditions have been met; and

(ii) There has been no material adverse change in the microlender, its key personnel, or its financial condition since the issuance of the letter of conditions. If one or more adverse changes have occurred, the microlender must explain the changes and the Agency must determine that the microlender remains eligible and qualified to participate as an MDO.

(3) The microlender will provide sufficient evidence that no lawsuits or other legal issues are pending or threatened that would adversely affect the security of the microlender when Agency security instruments are filed.

§4280.313 Grant provisions.

Grants offered under this program will be made to eligible MDOs in such amounts and requirements for microlenders with a loan(s) from the Agency, and for MDOs that seek only a TA grant from the Agency. Competition for these funds will occur as a part of the application and qualification process of becoming a microlender or grant recipient. No entity will receive grant funding as both a microlender and a TA-only provider. RMAP microlenders are not eligible for TA-only grant funding and an MDO receiving TA-only grant funding is not eligible for microlender grant funding. Failure to meet scoring benchmarks will preclude an applicant from receiving loan and/or grant dollars. Once an MDO is participating as a microlender, TA grant funds will be made available annually based on the MDO's lending balances and the availability of funds.

(a) *Microlender grants.* The Agency shall make microlender TA grants to

microlenders to assist them in providing marketing, management, and other TA to rural microentrepreneurs and microenterprises that have received or are seeking one or more microloans from the microlender. The capacity of a microlender to provide an integrated program of microlending and TA will be evaluated during the scoring process with their loan application and then annually in determining the amount of annual grant funds. An eligible MDO selected to be a microlender will be eligible to receive a microlending TA grant if it receives funding to provide microloans under this program. Microlender applicants for loan funding to establish or replenish a revolving loan fund originally capitalized under this program, may simultaneously apply for TA grant funds in an amount not to exceed 25 percent of the requested loan amount.

(1) Technical assistance grants to microlenders will be awarded annually on a non-competitive basis in an amount based on the MDO's outstanding loan balance as of June 30, subject to satisfactory program performance of the microlender and the availability of funds. Satisfactory performance includes the timely payment of program loan(s) and the submission of periodic reports to the Agency. Annual TA grants to a microlender, subject to the availability of funds, will be made in an amount to replenish the microlender's TA fund to an amount equal to 20 percent of the outstanding principal balance of loans made by the microlender to ultimate recipients unless otherwise published in an annual program funding notice. If available grant funds are not sufficient to fully replenish each microlender's TA funds to 20 percent of their outstanding loan balance, the available funds will be distributed proportionately based on the percentage of available funds to the total amount of annual TA grant funds requested.

(2) Any grant dollars obligated but not spent by the microlender from their initial or subsequent grants will be subtracted from the subsequent year's grant eligibility calculation to ensure that obligations cover only microloans made and active and that the MDO's total grant funds available for TA do not exceed the established 20 percent threshold.

(3) The microlender will agree to use TA grant funds exclusively for providing TA assistance and training to eligible microentrepreneurs and microenterprises, with the exception that up to 10 percent of the grant funds may be used to cover the microlender's administrative expenses. Grant funds may not be used to make loan payments.

(b) *Technical assistance only grants.* Grants will be competitively made to MDOs for the purpose of providing TA and training to prospective microborrowers. Technical assistance-only grants will be provided to eligible MDOs that seek to provide business-based TA and training to eligible microentrepreneurs and microenterprises, but do not seek funding as a microlender for an RMRF.

(1) The amount of a TA-only grant under this program will not exceed 10 percent of the amount of authorized appropriations available in any Federal FY for TA-only grants.

(2) Technical assistance only grants will have a grant term not to exceed 12 months from the date the grant agreement is signed.

(3) Technical assistance only grantees will be required to:

(i) Refer clients to internal or external non-program funded lenders for loans of $50,000 or less, and

(ii) Collect data regarding such clients. Technical assistance-only grantees will be considered successful if a minimum of 1-in-5 TA clients are referred for a microloan and are operating a business within 18 months of receiving TA from the MDO.

(c) *Matching requirement.* The MDO is required to provide a match of not less than 15 percent of the total amount of the grant in the form of matching funds, indirect costs, or in-kind goods or services. Unless specifically permitted by laws other than the statute authorizing RMAP, matching contributions must be made up of non-Federal funds.

(d) *Administrative expenses.* Not more than 10 percent of a grant received by an MDO for a Federal FY may be used to pay administrative expenses. Microlenders must annually submit a budget of proposed administrative expenses for

Agency approval. The Agency has the right to deny the requested amount, even if it is at 10 percent or less, and to fund administrative expenses at a lower level.

(1) Administrative expenses should be kept to a minimum. As such, the applicant MDO is required in the application materials to provide an administrative budget plan indicating the amount of funding it will need for administrative purposes. Applicants will be scored accordingly, with those using less than 10 percent of the grant funds for administrative purposes being scored higher than those using 10 percent of the grant funds for administrative purposes.

(2) While operating the program, the selected grantee will be expected to adhere to the estimates it provides in its application and annual budget. If for any reason the MDO cannot meet those expectations, it must contact the Agency in writing with justification to request a budget adjustment. Budget adjustments will be considered only if the adjustment result for administrative expenses is within the 10 percent limitation.

(3) Microlenders that exceed 10 percent for administrative expenses will be considered in performance default and may be subject to Agency actions including the forfeiting of funds.

(e) *Ineligible grant purposes.* Grant funds, matching funds, indirect costs, and in-kind goods and services may not be used for:

(1) Grant application preparation costs;

(2) Costs incurred prior to the obligation date of the grant;

(3) Capital improvements;

(4) Political or lobbying activities;

(5) Assistance to any ineligible entity;

(6) Payment of any judgment or debt owed; or

(7) Payment of any loan.

(f) *Facilitation of access to capital.* Technical assistance-only grantees will be expected to provide training and TA services to the extent that access to capital for eligible microentrepreneurs and microenterprises is facilitated by referral to either an internal or external non-program loan fund so that these clients may take advantage of available financing programs.

(g) *Grant agreement.* For any grant to an MDO or microlender, the Agency will notify the approved applicant in writing, using an Agency-approved grant agreement, setting out the conditions under which the grant will be made. The form will include those matters necessary to ensure that the proposed grant is completed in accordance with the proposed project, that grant funds are expended for authorized purposes, and that the applicable requirements prescribed in the relevant Agency regulations are complied with.

§4280.314 [Reserved]

§4280.315 MDO application and submission information.

(a) *Initial and subsequent applications.* Applications shall be submitted in accordance with the provisions of this subpart unless adjusted by the Agency in an annual FEDERAL REGISTER document. The information required in §§4280.315 and 4280.316 is necessary for an application to be considered complete. Only those applicants that meet the basic eligibility requirements in §4280.310 will have their applications fully scored and considered for participation in the program under this section. When preparing applications, applicants are strongly encouraged to review the application requirements and scoring criteria in §4280.316 and provide documentation that will support a competitive score.

(b) *Content and form of submission.* All applicants must provide the information specified in paragraph (c) of this section. Additional application information is required in paragraph (d) of this section depending on the type of application being submitted.

(c) *Application information for all applicants.* All applicants must provide the following information and forms fully completed and with all attachments:

(1) Standard Form–424, ''Application for Federal Assistance'' for grants.

(2) Standard Form–424A, ''Budget Information—Non-Construction Programs.''

(3) For entities applying for program loan funds to become an RMAP microlender only, Form RD 1910–11, ''Certification of No Federal Debt.''

(4) Form RD 400–8, ''Compliance Review'' or sufficient demographic information for Agency completion of Form RD 400–8.

(5) Demonstration that the applicant is eligible to apply to participate in the program by submission of documentation as follows:

(i) If a nonprofit entity, evidence that the applicant organization meets the citizenship requirements and a copy of the applicant's bylaws and articles of incorporation, which include evidence that the applicant is legally considered a non-profit organization;

(ii) If an Indian tribe, evidence that the applicant is a federally recognized Indian tribe, and that the Indian tribe neither operates nor is currently served by an existing MDO;

(iii) If a public institution of higher education, evidence that the applicant is a public institution of higher education; and

(iv) For nonprofit applicants only, a Certificate of Good Standing, not more than six (6) months old, from the Office of the Secretary of State in the State, or tribal equivalent, in which the applicant is located. If the applicant has offices in more than one state, then the state in which the applicant is organized and licensed will be considered the home location.

(6) Certification by the applicant that it cannot obtain sufficient credit elsewhere to fund the activities called for under the program with similar rates and terms.

(d) *Type of application specific information.* In addition to the information required under paragraph (c) of this section, the following information is also required, as applicable:

(1) An applicant with more than 3 years of experience as an MDO outside of the program seeking to participate as an RMAP microlender must provide sufficient documentation to validate its years of experience.

(2) An applicant with 3 years or less experience as an MDO outside of the program seeking to participate as an RMAP microlender must provide the additional information specified in § 4280.316(c).

(3) An applicant seeking status as a microlender must identify in its application which cost-share option(s) the applicant will utilize, as described in § 4280.311(d), to meet the Federal cost-share requirement. If the applicant will utilize the RMRF-level option, the applicant shall identify the amount(s) and source(s) of the non-Federal share.

(4) An applicant seeking TA-only grant funds must provide the additional information specified in § 4280.316(d).

(e) *Application limits.* Microenterprise Development Organizations may only submit and have pending for consideration one application at any given time, which is for either microlender funds or TA-only funds.

(f) *Completed applications.* Applications that fulfill the requirements specified in paragraphs (a) through (e) of this section will be fully reviewed, scored, and ranked by the Agency in accordance with the provisions of § 4280.316.

§ 4280.316 Application scoring.

Applications will be scored based on the criteria specified in this section using only the information submitted in the application. The total available points per application are 100 as shown in paragraphs (a) through (e) of this section. Awards will be based on the points ranking, with the highest scoring applications being funded first from the available funding.

(a) *Application requirements for all applicants.* All applicants must submit the eligibility and application information described in § 4280.315. The maximum points available in this part of the application are 45. In addition to the eligibility information, all applicants will submit:

(1) An organizational chart clearly showing the positions and naming the individuals in those positions. Of particular interest to the Agency are management positions and those positions essential to the operation of microlending and TA programming. Up to 5 points will be awarded based on the completeness of the organizational chart and management experience.

(2) Resumes for each of the individuals shown on the organizational chart and indicated as key to the operation of the activities to be funded under the program. There should be a corresponding resume for each of the key individuals noted and named on the organizational chart. Points will be awarded based on the quality of the resumes and on the ability of the key personnel to administer the program. Up to 5 points will be awarded.

(3) A succession plan to be followed in the event of the departure of personnel key to the operation of the applicant's RMAP activities. Up to 5 points will be awarded.

(4) Information indicating an understanding of microenterprise development concepts. Provide those parts of your policy and procedures manual that deal with the provision of loans, management of loan funds, and provision of TA. Up to 5 points will be awarded.

(5) The applicant's most recent, and two-year's previous, financial statements. Points will be awarded based on the demonstrated ability of the applicant to maintain or grow its fund balance, its ability to manage one or more federal programs, and its capacity to manage multiple funding sources, including restricted and non-restricted funding sources, income, earnings, and expenditures. Up to 10 points will be awarded.

(6) A copy of the applicant's organizational mission statement. The mission statement will be rated based on its relative connectivity to microenterprise development and general economic development and may or may not be a part of a larger statement. Up to 5 points will be awarded.

(7) Information regarding the geographic service area to be served, which must be rural as defined, and include the number of counties or other jurisdictions to be served. Note that the applicant will not be scored on the size of the service area, but on its ability to fully cover the service area as described. Up to 10 points will be awarded.

(b) *Program loan application requirements for MDOs seeking to participate as RMAP microlenders with more than 3 years of experience.* In addition to the information required under paragraph (a) of this section, applicants with more than three (3) years of experience as a microlender, including non-RMAP microloans, must also provide the information specified in paragraphs (b)(1) through (5) of this section. The total number of points available under this section (in addition to the up to 45 points available in paragraph (a) of this section) is 55.

(1) *History of provision of microloans.* The applicant must provide data regarding its history of making microloans for the three years previous to this application by answering the questions in paragraphs (b)(1)(i) through (v) of this section. This information should be provided clearly and concisely in numerical format as the data will be used to calculate points as noted. Up to a maximum of 20 points may be awarded under this criterion.

(i) Number and amount of microloans made during each of the three previous years.

(ii) Number and amount of microloans made in rural areas, as defined, in each of the three years prior to the year in which the application is submitted. If the history of providing microloans in rural areas shows at least one loan made in:

(A) Three or more consecutive years immediately prior to the application, 5 points will be awarded;

(B) At least two of the years but not more than the three consecutive years immediately prior to this application, 3 points will be awarded;

(C) At least 6 months, but not more than one year immediately prior to this application, 1 point will be awarded.

(iii) Calculate and enter the total number of microloans made in rural areas as a percentage of the total number of all microloans made for each of the past three years. If the percentage of the total number of microloans made in rural areas is:

(A) 75 percent or more, 5 points will be awarded;

(B) At least 50 percent but less than 75 percent, 3 points will be awarded;

(C) At least 25 percent but less than 50 percent, 1 point will be awarded.

(iv) Enter the dollar amount of microloans made in rural areas as a

percentage of the dollar amount of the total portfolio (rural and non-rural) of microloans made for each of the previous three years. If the percentage of the dollar amount of the microloans made in rural areas is:

(A) 75 percent or more of the total amount, 5 points will be awarded;

(B) At least 50 percent but less than 75 percent, 3 points will be awarded;

(C) At least 25 percent but less than 50 percent, 1 point will be awarded.

(v) Each applicant shall compare the diversity of its entire microloan portfolio to the demographic makeup of its service area (as determined by the latest applicable decennial census for the state) based on the number of microloans made during the three years preceding the subject application. Demographic groups shall include gender, racial and ethnic minority status, and disability (as defined in the Americans with Disabilities Act). Points will be awarded on the basis of how close the MDO's microloan portfolio matches the demographic makeup of its service area. A maximum of 5 points will be awarded.

(A) If at least one loan has been made to each of the three demographic groups and if the percentage of loans made to each demographic group is 5 percent or less of their demographic makeup, 5 points will be awarded.

(B) If at least one loan has been made to each demographic group and if the percentage of loans made to each demographic group is each between 5 to 10 percent or less of the demographic makeup, 3 points will be awarded.

(C) If at least one loan has been made to each demographic group and if the percentage of loans made to one or more of the demographic groups is greater than 10 percent of the demographic makeup, 1 point will be awarded.

(D) If no loans have been made to two or more demographic groups, no points will be awarded.

(2) *Portfolio management.* The applicant's ability to manage its portfolio will be determined based on the data provided in response to paragraphs (b)(2)(i) and (ii) of this section and scored accordingly. The maximum number of points under this criterion is 10.

(i) Enter the total number of the applicant's microloans paying on time for the three previous years. If the total number of microloans paying on time at the end of each year over the prior three years is:

(A) 95 percent or more, 5 points will be awarded;

(B) At least 85 percent but less than 95 percent, 3 points will be awarded;

(C) Less than 85 percent, 0 points will be awarded.

(ii) Enter the total number of microloans currently 30 to 90 days in arrears, or that have been written off over the three previous years. If the total number of these microloans is:

(A) 5 percent or less of the total portfolio, 5 points will be awarded;

(B) More than 5 percent, 0 points will be awarded.

(3) *History of provision of technical assistance.* The Applicant's history of provision of TA to microentrepreneurs and microenterprises, and its ability to reach diverse communities, will be scored based on the data specified in paragraphs (b)(3)(i) through (iii) of this section. Applicants may use a chart to provide this information as they deem appropriate. The maximum number of points under this criterion is 15.

(i) Provide the total number of rural and non-rural microentrepreneurs and microenterprises that received both microloans and TA services for each of the previous three years. Of this total number, provide the percentage of rural microentrepreneurs and rural microenterprises that received both microloans and TA services for each of the previous three years. If the provision of both microloans and TA services to rural microentrepreneurs and rural microenterprises is demonstrated at a rate of:

(A) 75 percent or more, 5 points will be awarded;

(B) At least 50 percent but less than 75 percent, 3 points will be awarded;

(C) At least 25 percent but less than 50 percent, 1 point will be awarded.

(ii) Provide the percentage of the total number of rural microentrepreneurs and rural microenterprises by racial and ethnic minority, disabled, and/or gender that received both microloans and TA services for each of

the previous three years. If the demonstrated provision of microloans and TA services to these rural microentrepreneurs and rural microenterprises is at a rate of:

(A) 75 percent or more, 5 points will be awarded;

(B) At least 50 percent but less than 75 percent, 3 points will be awarded;

(C) At least 25 percent but less than 50 percent, 1 point will be awarded.

(iii) Provide the ratio of TA clients that also received microloans, rounding to the nearest whole number, during each of the previous three years. If the ratio of clients receiving TA services to clients receiving microloans is:

(A) Between 1:1 and 1:5, 5 points will be awarded.

(B) Between 1:6 and 1:8, 3 points will be awarded.

(C) A ratio of either 1:9 or 1:10, 1 point will be awarded.

(4) *Ability to provide technical assistance.* In addition to providing a statistical history of their provision of TA to microentrepreneurs, microenterprises, and microborrowers, applicants must provide a narrative of not more than five pages describing the teaching and training methods used by the applicant organization to provide such TA and discussing the outcomes of their endeavors. Technical assistance is defined in §4280.302. The narrative will be scored as specified in paragraphs (b)(4)(i) through (iii) of this section. Points may be awarded for each of the categories. The maximum number of points under this criterion is 5.

(i) Applicants that have used more than one method of training and TA (*e.g.*, classroom training, peer-to-peer discussion groups, individual assistance, distance learning) will be awarded 2 points.

(ii) Applicants that provide success stories to demonstrate the effects of TA on their clients will be awarded 2 points.

(iii) Applicants that provide evidence that they require evaluations by the clients of their training programs and indicate that the average level of evaluation scores is ''good'' or higher will be awarded 1 point.

(5) *Proposed administrative expenses to be spent from TA grant funds.* The maximum number of points under this criterion is 5. If the percentage of grant funds to be used for administrative purposes is:

(i) Less than 5 percent of the TA grant funds, 5 points will be awarded;

(ii) Equal to 5 percent but less than 8 percent, 3 points will be awarded;

(iii) Equal to 8 percent or greater, 0 points will be awarded.

(c) *Application requirements for MDOs seeking to participate as RMAP microlenders with 3 years or less experience.* In addition to the information required under paragraph (a) of this section, an applicant MDO with 3 years or less experience that is applying to be a microlender must submit the information specified in paragraphs (c)(1) through (8) of this section. The total number of points available under this paragraph, in addition to the maximum of 45 points available in paragraph (a) of this section, is 55, for a total of 100.

(1) The applicant must provide a narrative work plan that clearly indicates its intention for the use of loan and grant funds. Provide goals and milestones for planned microlending and TA activities. In relation to the information requested in paragraph (a) of this section, the applicant must describe how it will incorporate its mission statement, utilize its employees, and maximize its human and capital assets to meet the goals of this program. The applicant must provide its strategic plan and organizational development goals and clearly indicate its lending goals for the five years after the date of application. The narrative work plan should be not more than five pages in length. Up to a maximum of 10 points will be awarded.

(2) The applicant will provide the date that it began business as an MDO or other provider of business education and/or facilitator of capital. This date will reflect when the applicant became licensed to do business by the Secretary of State, or tribal equivalent, in which it is registered and engaged regularly paid staff to conduct business on a daily basis. If the applicant has been in business for:

(i) More than 2 years but less than 3 years, 5 points will be awarded;

(ii) At least 1 year, but not more than 2 years, 3 points will be awarded;

(iii) At least 6 months, but not more than 1 year, 1 point will be awarded;

(iv) Less than 6 months, or more than 3 full years, 0 points will be awarded. (If more than 3 full years, the applicant must apply under the provisions for MDOs with more than 3 years of experience as specified in paragraph (b) of this section.)

(3) The applicant must describe in detail any microenterprise development training received by it as a whole, or its employees as individuals, to date. The narrative may refer reviewers to already submitted resumes to save space. The training received will be rated on its topical variety, the quality of the description, and its relevance to the organization's strategic plan. The applicant should not submit training brochures or conference announcements. Up to a maximum of 10 points will be awarded.

(4) The applicant must indicate its current number of employees, those that concentrate on rural microentrepreneurial development, and the current average caseload for each. Indicate how the caseload ratio does or does not optimize the applicant's ability to perform the services described in the work plan. Discuss how Agency grant funds will be used to assist with TA program delivery and how funding of the program loan application will affect the portfolio. Up to 5 points will be awarded.

(5) Applicants may submit a maximum of five (5) letters of support with one point awarded for each letter. Support letters should be signed and dated and come from potential beneficiaries and other local organizations. Letters received from Congressional members and technical assistance providers will not be included in the count of support letters received. Additionally, identical form letters signed by multiple potential beneficiaries and/or local organizations will not be included in the count of support letters received. The applicant must indicate any training organizations with which it has a working relationship. Provide contact information for references regarding the applicant's capacity to perform the work in the plan provided. Up to a maximum of five (5) points will be awarded.

(6) Describe any plans for continuing training relationship(s), including ongoing or future training plans and goals, and the timeline for the same. Up to 5 points will be awarded.

(7) The applicant will describe its internal benchmarking system for determining client success, reporting on client success, and following client success for up to 5 years after completion of a training relationship. Up to 10 points will be awarded.

(8) The applicant will identify its proposed administrative expenses to be spent from TA grant funds. The maximum total number of points under this criterion is 5. If the percentage of grant funds to be used for administrative purposes is:

(i) Less than or equal to 5 percent of the TA grant funds, 5 points will be awarded;

(ii) More than 5 percent but less than 8 percent, 3 points will be awarded;

(iii) Equal to 8 percent or greater, 0 points will be awarded.

(d) *Application requirements for MDOs seeking TA-only grants.* Technical assistance-only grants may be provided to MDOs that are not RMAP microlenders seeking to provide training and technical assistance to rural microentrepreneurs and rural microenterprises. An applicant seeking a TA-only grant must submit the information specified in paragraphs (d)(1) through (4) of this section. The total number of points available under this section, in addition to the 45 points available in paragraph (a) of this section, is 55, for a total of 100 points.

(1) *History of provision of TA.* Each applicant's history of provision of TA to microentrepreneurs and microenterprises, and its ability to reach diverse communities, will be scored based on the data specified in paragraphs (d)(1)(i) through (iii) of this section. The maximum number of points under this criterion is 20.

(i) Provide the total number of rural and non-rural microentrepreneurs and microenterprises that received both TA services and resultant microloans for each of the previous three years. Of this total number, provide the percentage of rural microentrepreneurs and rural microenterprises that received both TA services and resultant

microloans for each of the previous three years. If the provision of both TA services and resultant microloans to rural microentrepreneurs and rural microenterprises is demonstrated at a rate of:

(A) 75 percent or more, 5 points will be awarded;

(B) At least 50 percent but less than 75 percent, 3 points will be awarded;

(C) At least 25 percent but less than 50 percent, 1 point will be awarded.

(ii) Provide the percentage of the total number of rural microentrepreneurs by racial and ethnic minority, disabled, and/or gender that received both microloans and TA services for each of the previous three years. If the demonstrated provision of TA and resultant microloans to these rural microentrepreneurs when compared to the total number of microentrepreneurs assisted, is at a rate of:

(A) 75 percent or more, 10 points will be awarded;

(B) At least 50 percent but less than 75 percent, 7 points will be awarded;

(C) At least 25 percent but less than 50 percent, 5 points will be awarded.

(iii) Provide the ratio of TA clients that also received microloans during each of the last three years, rounded to the nearest whole number. If the ratio of clients receiving TA to clients receiving microloans is:

(A) Between 1:1 and 1:5, 5 points will be awarded.

(B) Between 1:6 and 1:8, 3 points will be awarded.

(C) Either 1:9 or 1:10, 1 point will be awarded.

(2) *Ability to provide TA.* In addition to providing a statistical history of their provision of TA to microentrepreneurs, microenterprises, and microborrowers, applicants must provide a narrative of not more than five pages describing the teaching and training method(s) used by the applicant organization to provide TA and discussing the outcomes of their endeavors. The narrative will be scored as specified in paragraphs (d)(2)(i) through (iv) of this section. The maximum number of points under this criterion is 20.

(i) Applicants that have used more than one method of training and TA (*e.g.*, classroom training, peer-to-peer discussion groups, individual assistance, and distance learning) will be awarded 5 points.

(ii) Applicants that provide success stories to demonstrate the effects of TA on their clients will be awarded points under either of the following paragraphs, but not both:

(A) News stories that highlight businesses made successful as a result of the applicant's TA; 5 points will be awarded.

(B) Internal stories that highlight businesses made successful as a result of TA, 3 points.

(iii) Applicants that provide evidence that they require evaluations by the clients of their training programs will be awarded 3 points. Applicants will provide the total number of evaluations received and the average score from the evaluations received. An additional two points will be awarded if the total evaluation scores are above an average of 3.0 on a five-point scale, with points determined by the client ratings on a declining scale as follows:

(A) Extremely Satisfied, 5 points.

(B) Satisfied, 4 points.

(C) Average, 3 points.

(D) Dissatisfied, 2 points.

(E) Very Unsatisfied, 1 point.

(iv) Applicants that present well-written narrative information regarding their programs and services to be delivered and their outreach efforts within the service area that is clearly and concisely written and is five pages or less will be awarded up to a maximum of 5 points.

(3) *Technical assistance plan.* Submit a concise plan for the provision of TA explaining how the funds will benefit the current program and how it will allow the applicant to expand its non-program microlending activities. Up to 10 points will be awarded.

(4) *Proposed administrative expenses to be spent from TA grant funds.* The maximum number of points under this criterion is 5. If the percentage of grant funds to be used for administrative purposes is:

(i) Less than or equal to 5 percent of the TA grant funds, 5 points will be awarded;

(ii) More than 5 percent but less than 8 percent, 3 points will be awarded;

(iii) Equal to 8 percent or greater, 0 points will be awarded.

(e) *Re-application requirements for participating microlenders with more than 5 years of experience as a microlender under this program.* (1) Microlender applicants with more than 5 years of experience as an MDO under this program may choose to submit a shortened loan/grant application that includes the following:

(i) A letter of request for funding stating the amount of loan and/or grant funds being requested;

(ii) An indication of the loan and/or grant amounts being requested accompanied by a completed Form SF 424 and any pertinent attachments;

(iii) An indication of the number and percent of the MDO's microentrepreneurs and microenterprises remaining in business for two years or more after microloan disbursement from program funds; and

(iv) A recent resolution of the applicant's Board of Directors approving the application for debt.

(2) The Agency, using this request and data available in the reports submitted under previous funding(s), will review the overall program performance of the applicant over the life of its participation in the program to determine its continued qualification for subsequent funds. Requirements include:

(i) A loan default rate of 5 percent or less;

(ii) A pattern of delinquencies during the period of participation in this program of 10 percent or less;

(iii) A pattern of use of TA dollars that indicates at least one in ten TA clients receive a microloan;

(iv) A statement discussing the need for more funding, accompanied by account documentation showing the amounts in each of the RMRF and LLRF accounts established to date; and

(v) A pattern of compliance with program reporting requirements.

(3) Shortened applications under this section will be rated on a pass or fail basis. Passing applications will be assigned a score of 90 points and will be ranked accordingly in the quarterly competitions. Failing applications under this section will be scored 0 and experienced MDOs may be required to complete the application requirements of paragraph (b) of this section.

§ 4280.317 Selection of applications for funding.

All eligible applications received will be scored using the scoring criteria specified in § 4280.316 and funded in descending order from the highest total score to applications receiving 60 points, subject to the authorization of appropriations for the Federal FY. If two or more applications have the same score and available funds cannot fund the individual projects, the Administrator may prioritize such applications to help the program achieve overall geographic diversity.

(a) *Timing and submission of applications.* (1) All applications must be submitted as a complete application in one package of materials. Packages must be in the order of appearance in § 4280.315. Applications that are disorganized or otherwise not ready for evaluation will be returned to the applicant and not considered for funding.

(2) Applications will be accepted on a continuing basis at any Rural Development State Office and will compete nationally for available funds on a quarterly basis using Federal fiscal quarters.

(3) Applications received will be reviewed, scored, and ranked quarterly. Unless withdrawn by the applicant, the Agency will retain unsuccessful applications that score 60 points or more for consideration in subsequent reviews, through a total of four quarterly reviews. Applications unsuccessful after competing for funds in four quarters will be returned to the applicant.

(b) *Availability of funds.* If an Application is received, scored, and ranked, but insufficient funds remain to fully fund the project, the Agency may elect to fund an Application requesting a smaller amount that has a lower score. Before this occurs, the Agency, as applicable, will provide the higher scoring applicant the opportunity to reduce the amount of its request to the amount of funds available. If the applicant agrees to lower its request, it must certify that the purposes of the project can be met, and the project is financially feasible at the lower amount.

(c) *Applicant notification.* The Agency will notify applicants regarding their selection or non-selection, provide appeal rights of unsuccessful applicants, and provide closing procedures for the loan and/or grant awardees.

(d) *Closing.* Awardees unable to complete closing for an approved obligation within 90 days or an extended date approved by the Agency will forfeit their funding award in accordance with § 4280.311(e)(9).

§§ 4280.318–4280.319 [Reserved]

§ 4280.320 Grant administration.

(a) *Oversight.* Any MDO receiving a grant under this program is subject to Agency oversight, with site visits and inspection of records occurring at the discretion of the Agency. In addition, MDOs receiving a grant under this subpart must submit reports, as specified in paragraphs (a)(1) through (3) of this section.

(1) On a quarterly basis, within 30 days after the end of each Federal fiscal quarter, the microlender will provide to the Agency an Agency-approved quarterly report containing such information as the Agency may require to ensure that funds provided are being used for the purposes for which the grant was made, including:

(i) Narrative reporting information as required by Office of Management and Budget (OMB) circulars and successor regulations. This narrative will include information on the MDO's TA, training, and/or enhancement activity, and grant expenses, milestones met, or unmet, explanation of difficulties, observations and other such information;

(ii) If requesting grant funds at the time of reporting, an executed SF–270 form and a brief description of the proposed activity-based expenditures are required.

(2) If a microlender has more than one grant from the Agency, a separate report must be made for each grant.

(3) Other reports may be required by the Agency from time to time in the event of poor performance or other such occurrences that require more than the usual set of reporting information.

(b) *Payments.* The Agency will make grant payments not more often than quarterly. The first grant payment may be made in advance and will equal no more than one fourth of the grant award. Other payment requests must be submitted on Standard Form 270 and will only be paid if the MDO's reports are up to date and approved.

§ 4280.321 Grant and loan servicing.

In addition to the ongoing oversight of the participating MDOs, all grants will be serviced in accordance with applicable regulations, including 7 CFR part 1951, subparts E and O, 7 CFR part 3, and the Office of Management and Budget (OMB) regulations including, but not limited to, 2 CFR parts 200, 215, 220, 230, and OMB Circulars A–110 and A–133. Loans to microlenders will be serviced in accordance with 7 CFR part 1951, subparts E, O, and R, and OMB Circular A–129.

§ 4280.322 Loans from the microlenders to microentrepreneurs.

The primary purpose of making a program loan to a microlender is to enable that microlender to make microloans to rural microenterprises and microentrepreneurs. It is the responsibility of each microlender to make microloans in such a fashion that the terms and conditions of the microloan will support microborrower success while enabling the microlender to repay its loan from the Agency. It is the responsibility of each microborrower to repay the microlender in accordance with the terms and conditions agreed to with the microlender. The microlender is responsible for full repayment to the Agency of its loan regardless of the performance of its microloan portfolio.

(a) *Maximum microloan amount.* The maximum amount of a microloan made under this program will be $50,000. The total outstanding balance of microloans to any microborrower may not exceed $50,000.

(b) *Microloan terms and conditions.* The terms and conditions for microloans made by microlenders will be negotiated between the prospective microborrower and the microlender, with the following limitations:

(1) No microloan may have a term of more than 10 years;

(2) The interest rate charged to the microborrower will be established at or before the microloan closing and at such a rate that the microloan is affordable to the microborrower and provides a reasonable margin of earnings to the microlender.

(c) *Microloan insurance requirements.* The microlender has full discretion to require reasonable hazard, key person, and other insurance coverage from the microborrower as part of the loan transaction.

(d) *Credit elsewhere test.* Microborrowers will be subject to a ''credit elsewhere'' test so that the microlender will make loans only to those borrowers that cannot obtain business funding of $50,000 or less at affordable rates and on acceptable repayment terms. Each microborrower file must contain evidence that the microborrower has sought credit elsewhere or that the rates and terms available within the community at the time were outside the range of the microborrower's affordability. Evidence may include a comparison of rates, loan limitations, terms, or other requirements from other funding sources. Denial letters from other lenders are not required.

(e) *Fair credit requirements.* To ensure fairness, microlenders must publicize their rates and terms on a regular basis. Microlenders are also subject to Fair Credit lending practices and Federal nondiscrimination requirements as stated in § 4280.305.

(f) *Eligible microloan purposes.* Agency loan funds may be used to make microloans as defined in § 4280.302 for any legal business purpose not identified in § 4280.323 as an ineligible purpose. Microlenders may make microloans for qualified business activities and expenses including, but not limited to:

(1) Working capital;

(2) The purchase of furniture, fixtures, supplies, inventory or equipment;

(3) Debt refinancing;

(4) Business acquisitions; and

(5) The purchase or lease of real estate that is already improved and will be used for the location of the subject business only, provided no demolition or construction will be accomplished with program funds. Neither interior decorating, nor the affixing of chattel to walls, floors, or ceilings are considered to be demolition or construction.

(g) *Military personnel.* Military personnel who are or seek to be a microentrepreneur and are on active duty with six months or less remaining in their active duty status may receive a microloan and/or TA and training if they are otherwise qualified to participate in the program.

§ 4280.323 Ineligible microloan purposes and uses.

Agency loan funds will not be used for the payment of microlender administrative costs or expenses and microlenders may not make microloans under the program for any of the purposes and uses identified as ineligible in paragraphs (a) through (n) of this section.

(a) Construction costs including property demolition, renovation, elimination of walls, or property additions.

(b) The financing of timeshares, apartments, duplexes, or other residential housing.

(c) Assistance that will cause a conflict of interest or the appearance of a conflict of interest including but not limited to:

(1) Financial assistance to principals, directors, officers, or employees of the microlender, or their close relatives, as defined; or

(2) Financial assistance to any entity which would appear to benefit the microlender or its principals, directors, or employees, or their close relatives, as defined, in any way other than the normal repayment of debt.

(d) Distribution or payment to a microborrower when such will use any portion of the microloan for other than business purposes.

(e) Microloans to a charitable institution not gaining sufficient revenue from business sales or services to support the operation and repay the microloan.

(f) Microloans to a fraternal organization.

(g) Any microloan to an applicant that has an RMAP-funded microloan application pending with another microlender or that has an RMAP-

funded microloan outstanding with another microlender that would cause the applicant to owe a combined amount of more than $50,000 to one or more microlenders under the program.

(h) Assistance to USDA Rural Development employees, or their close relatives, as defined.

(i) Microloans for any illegal activity.

(j) Any project that is in violation of either a Federal, State, or local environmental protection law, regulation, or enforceable land use restriction unless the microloan will result in curing or removing the violation.

(k) Loans supporting explicitly religious activities, such as worship, religious instruction or proselytization.

(l) Golf courses, race tracks, or gambling facilities.

(m) Funding of any political or lobbying activities.

(n) Lines of credit.

§§ 4280.324–4280.399 [Reserved]

§ 4280.400 OMB control number.

The information collection requirements contained in this subpart have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0570–0062. A person is not required to respond to this collection of information unless it displays a currently valid OMB control number.

Subpart E—Rural Business Development Grants

SOURCE: 80 FR 15667, Mar. 25, 2015, unless otherwise noted.

GENERAL

§ 4280.401 Purpose.

This subpart implements the RBDG program administered by the Agency. Grants made under this subpart will be made to eligible entities for use in funding various business opportunity and business enterprise Projects that serve Rural Areas.

§ 4280.402 [Reserved]

§ 4280.403 Definitions.

Administrator. The Administrator of RBS or designees or successors.

Agency. Rural Business-Cooperative Service (RBS) or successor.

Agriculture Production. The cultivation, production, growing, raising, feeding, housing, breeding, hatching, or managing of crops, plants, animals or birds, either for fiber, food for human consumption, or livestock feed.

Arm's-length Transaction. The sale, release, or disposition of assets in which the title to the property passes to a ready, willing, and able disinterested third party that is not affiliated with or related to and has no security, monetary, or stockholder interest in the grantee or transferor at the time of the transaction.

Business Support Centers. Centers established to provide assistance to businesses in such areas as counseling, business planning, training, management assistance, marketing information, and locating financing for business operations. The centers need not be located in a Rural Area, but must provide assistance to businesses located in Rural Areas.

Conflict of Interest. When the grantee's employees, Board of Directors, or their immediate families have a legal or personal financial interest in the recipient(s) receiving the benefits or services of the grant. Tribal Governments, subdivisions of Tribal Governments (chapters, districts, authorities, townships, etc.), and Tribal arms and instrumentalities, entities wholly-owned and chartered by Tribal Governments including but not limited to: Tribal owned corporations (including Section 17 Corporations, Community Development Corporations and Economic Development Corporations), Tribal owned businesses, Tribal owned authorities, Tribal owned utilities, other Tribally owned enterprises and their subsidiaries will not be considered as having a conflict of interest due to their, or their Board's, ties to their associated Tribe or each other.

Departmental Grant Regulations. The USDA grant regulations at 2 CFR chapter IV.

Economic Development. The industrial, business and financial augmentation of an area as evidenced by increases in total income, employment opportunities, value of production, duration of employment, or diversification of industry, reduced outmigration, higher labor force participation rates or wage levels or gains in other measurements of economic activity, such as land values.

Indian Tribe (Tribal), Tribal Government and/or Federally Recognized Tribes. Any Indian or Alaska Native tribe, band, nation, pueblo, village or community as defined by the Federally Recognized Indian Tribe List Act (List Act) of 1994 (Pub. L. 103–454).

Industrial Site. The development of undeveloped real estate for uses which will assist Small and Emerging Businesses.

Long-term. The period of time covered by the three most recent decennial censuses of the United States to the present.

Nonprofit. An entity chartered as a nonprofit organization under applicable State or Tribal law.

Other Business Development. Any business related activity that will assist Small and Emerging Businesses and may include but is not limited to business incubators, business training centers, and other training activity which leads directly to Small and Emerging Business development.

Planning. A process to coordinate Economic Development activities, develop guides for action, or otherwise assist local community leaders in the Economic Development of Rural Areas.

Priority Communities. Communities targeted for Agency assistance as determined by the U.S. Department of Agriculture Under Secretary for Rural Development that are experiencing trauma due to natural disasters or are undertaking or completing fundamental structural changes, have remained persistently poor, or have experienced Long-Term population decline or job deterioration.

Project. The result of the use of grant funds provided under this subpart through Technical Assistance or Planning relating to the Economic Development of a Rural Area; or the result of the use of program funds (*i.e.*, a facility whether constructed by the applicant or a third party made with grant funds, Technical Assistance, startup operating costs, or working capital). A revolving fund established in whole or in part with grant funds will also be considered a Project.

Public Bodies/Government Entity. Public Bodies include States, counties, cities, townships, and incorporated towns and villages, boroughs, authorities, districts, and education institutions organized under State and Federal laws, and Indian Tribes.

Rural and Rural Area. As described in 7 U.S.C. 1991(a)(13)(A) and (D) *et seq*.

Small and Emerging Business. Any private and/or nonprofit business which will employ 50 or fewer new employees and has less than $1 million in gross revenue; for retail operations, gross revenue may be reduced by cost of goods sold and returns or for a service organization, gross revenue may be reduced by the cost of providing service or for a manufacturing operation, gross revenue may be reduced by the cost of raw materials and the cost of production. The $1 million gross revenue and 50 or fewer new employee thresholds apply only to each individual Tribal owned enterprise applicant or recipient. Due to the unique structuring of Tribal economic development, the revenue or employees of the Tribe and/or parent Tribal enterprise will not apply towards the individual Tribal enterprise applicant or recipient, regardless of shared ownership or Directors. The revenue of Tribes, subdivisions of Tribes and Tribal entity applicants, will not be considered revenue in determining program and project eligibility.

State. Any of the 50 States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Technical Assistance. A function performed for the benefit of a private business enterprise or a community and which is a problem solving activity, such as market research, product and/or service improvement, feasibility

study, etc., to assist in the Economic Development of a Rural Area.

[80 FR 15667, Mar. 25, 2015, as amended at 88 FR 86570, Dec. 14, 2023]

§ 4280.404 Exception authority.

The Administrator may make an exception, on a case-by-case basis, to any requirement or provision of this subpart that is not inconsistent with any authorizing statute or applicable law if the Administrator determines that application of the requirement or provision would adversely affect the Government's financial interest.

§ 4280.405 Review or appeal rights.

A person may seek a review of an Agency decision under this subpart from the appropriate Agency official that oversees the program in question or appeal to the National Appeals Division in accordance with 7 CFR part 11.

§ 4280.406 Conflict of interest.

(a) *General.* No conflict of interest or appearance of conflict of interest will be allowed. For purposes of this subpart, Conflict of Interest includes, but is not limited to, distribution or payment of grant, guaranteed loan funds, and matching funds or award of Project construction contracts to an individual owner, partner, or stockholder, or to a beneficiary or immediate family of the applicant or grantee when the recipient will retain any portion of ownership in the applicant's or grantee's Project. Grant and matching funds may not be used to support costs for services or goods going to, or coming from, a person or entity with a real or apparent conflict of interest. All transactions must be Arm's-length Transactions.

(b) *Assistance to employees, relatives, and associates.* The Agency will process any requests for assistance under this subpart in accordance with 7 CFR part 1900, subpart D.

(c) *Member/delegate clause.* No member of or delegate to Congress shall receive any share or part of this grant or any benefit that may arise therefrom; but this provision shall not be construed to bar, as a contractor under the grant, a publicly held corporation whose ownership might include a member of Congress so long as the member's ownership is less than 10 percent.

§ 4280.407 Statute and regulation references.

All references to statutes and regulations are to include any and all successor statutes and regulations.

§ 4280.408 U.S. Department of Agriculture departmental regulations and laws that contain other compliance requirements.

(a) *Departmental regulations.* All funded under this subpart are subject to the provisions of the Departmental Regulations, as applicable, which are incorporated by reference herein.

(b) *Equal opportunity and nondiscrimination.* The Agency will ensure that equal opportunity and nondiscrimination requirements are met in accordance with the Equal Credit Opportunity Act, 15 U.S.C. 1691 *et seq.* and 7 CFR part 15d, ''Nondiscrimination in Programs and Activities Conducted by the United State Department of Agriculture.'' The Agency will not discriminate against applicants on the basis of race, color, religion, national origin, sex, marital status, or age (provided that the applicant has the capacity to contract); because all or part of the applicant's income derives from any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act, 15 U.S.C. 1601 *et seq.*

(c) *Civil rights compliance.* Recipients of grants must comply with the Americans with Disabilities Act of 1990, 42 U.S.C. 12101 *et seq.*, Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d *et seq.*, and section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794. This may include collection and maintenance of data on the race, sex, and national origin of the recipient's membership/ownership and employees. The data must be available to conduct compliance reviews.

(1) Initial compliance reviews will be conducted by the Agency prior to funds being obligated.

(2) Grants will require one subsequent compliance review following Project completion. This will occur prior to the last disbursement of grant funds.

(d) *Environmental requirements.* Actions taken under this subpart must

comply with 7 CFR part 1970. Prospective applicants are advised to contact the Agency to determine environmental requirements as soon as practicable after they decide to pursue any form of financial assistance directly or indirectly available through the Agency.

(1) Any required environmental review must be completed by the Agency prior to the Agency obligating any funds.

(2) The applicant will be notified of all specific compliance requirements, including, but not limited to, the publication of public notices, and consultation with State Historic Preservation Offices (or Tribal Historic Preservation Offices where appropriate) and the U.S. Fish and Wildlife Service.

(3) A site visit by the Agency may be scheduled, if necessary, to determine the scope of the review.

(4) Applications for Technical Assistance or Planning Projects are generally excluded from the environmental review process by 7 CFR 1970.53 provided the assistance is not related to the development of a specific site. However, as further specified in 7 CFR 1970.53, the grantee for a Technical Assistance grant, in the process of providing Technical Assistance, must consider the potential environmental impacts of the recommendations provided to the recipient of the Technical Assistance as requested by the Agency and in accordance with 7 CFR part 1970.

(5) Applicants for grant funds must consider and document within their plans the important environmental factors within the Planning area and the potential environmental impacts of the plan on the Planning area, as well as the alternative Planning strategies that were reviewed.

(6) Whenever an applicant files an application that includes a direct construction Project and a plan, they must have a separate environmental evaluation.

(e) *Discrimination complaints*—(1) *Who may file.* Persons or a specific class of persons believing they have been subjected to discrimination prohibited by this section may file a complaint personally, or by an authorized representative with USDA, Director, Office of Adjudication, 1400 Independence Avenue SW., Washington, DC 20250.

(2) *Time for filing.* A complaint must be filed no later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the designated officials of USDA or the Agency.

(f) *Uniform Relocation and Real Property Acquisition Policies Act.* All Projects must comply with the requirements set forth in 7 CFR part 21.

(g) *Floodplains and wetlands.* All Projects must comply with Executive Order 11988 ''Floodplain Management'' and Executive Order 11990 ''Protection of Wetlands.'' The applicable regulations are codified at 44 CFR parts 59 through 80.

[80 FR 15667, Mar. 25, 2015, as amended at 81 FR 11052, Mar. 2, 2016]

§ 4280.409 [Reserved]

§ 4280.410 Other laws and regulations that contain compliance requirements for this program.

(a) *Equal employment opportunity.* For all construction contracts and grants in excess of $10,000, the contractor must comply with Executive Order 11246, as amended by Executive Order 11375, and as supplemented by applicable Department of Labor regulations (41 CFR part 60–1). The applicant is responsible for ensuring that the contractor complies with these requirements.

(b) *Architectural barriers.* All facilities financed with Zero-Interest Loans that are open to the public or in which persons may be employed or reside must be designed, constructed, or altered to be readily accessible to and usable by disabled persons. Standards for these facilities must comply with the Architectural Barriers Act of 1968, as amended, (42 U.S.C. 4151–4157).

(c) *Uniform relocation assistance.* Relocations in connection with these programs are subject to 49 CFR part 24 as referenced by 7 CFR part 21 except that the provisions in title III of the Uniform Act do not apply to these programs.

(d) *Drug-free workplace.* Grants made under these programs are subject to the requirements contained in 2 CFR chapter IV which implements the

Drug-Free Workplace Act. RBDG recipients will be required to certify that it will establish and make a good faith effort to maintain a drug-free workplace program.

(e) *Debarment and suspension*. The requirements of 2 CFR chapter IV are applicable to this program.

(f) *Intergovernmental review of Federal programs*. These programs are subject to the requirements of Executive Order 12372 and 2 CFR chapter IV. Proposed Projects are subject to the State and local government review process contained in 2 CFR chapter IV.

(g) *Restrictions on lobbying*. The restrictions and requirements imposed by 31 U.S.C. 1352, and 2 CFR chapter IV, are applicable to these programs.

(h) *Earthquake hazards*. These programs are subject to the seismic requirements of the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701–7706).

(i) *Affirmative fair housing*. If applicable, the grantee will be required to comply with the Affirmative Fair Housing Act (42 U.S.C. 3601–3631 and 24 CFR part 100).

(j) *Flood hazard insurance*. The RBDG program is subject to the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973, as amended by 42 U.S.C. 4001–4129 and 7 CFR part 1806, subpart B.

(k) *Uniform administrative requirements, cost principles, and audit requirements for Federal awards*. The requirements of 2 CFR chapter IV, or its successor regulations are applicable to this program.

(l) *Planning and performing construction and other development*. The requirements of 7 CFR part 1924, subpart A, or its successor regulations, are applicable to this program.

(m) *Transparency Act*. The requirements of 2 CFR part 170 are applicable to this program.

§ 4280.411 Forms, guides, and attachments.

All forms, guides, and attachments referenced in this subpart are available online at: *http://forms.sc.egov.usda.gov/eForms/* or in any Rural Development State office.

§§ 4280.412–4280.414 [Reserved]

RURAL BUSINESS DEVELOPMENT GRANTS

§ 4280.415 Rural Business Development Grants.

Sections 4280.416 through 4280.439 identify the provisions that the Agency will use for making awards for Rural Business Development Grants.

ELIGIBILITY

§ 4280.416 Applicant eligibility.

To receive an RBDG under this subpart, an applicant must meet the requirements specified in paragraphs (a) through (e) of this section. If an award is made to an applicant, that applicant (grantee) must continue to meet the requirements specified in this section. If the grantee does not, then grant funds may be recovered from the grantee by the Agency in accordance with Departmental Regulations.

(a) *Type of applicant*. The Applicant must be one of the following:

(1) A Public Body/Government Entity;

(2) An Indian Tribe; or

(3) A Nonprofit entity.

(b) *Financial strength and expertise*. The Applicant must have sufficient financial strength and expertise in activities proposed in the application to ensure accomplishment of the described activities and objectives.

(1) Financial strength will be analyzed by the Agency based on financial data provided in the application. The analysis will consider the applicant's tangible net worth, which must be positive, and whether the applicant has dependable sources of revenue or a successful history of raising revenue sufficient to meet cash requirements.

(2) Expertise will be analyzed by the Agency based on the applicant staff's training and experience in activities similar to those proposed in the application and, if consultants will be used, on the staff's experience in choosing and supervising consultants.

(c) *Universal identifier and system for awards management*. Unless exempt under 2 CFR 25.110, the Applicant must:

(1) Be registered in the System for Awards Management (SAM) prior to submitting an application;

(2) Maintain an active SAM registration with current information at all times during which it has an active Federal award or an application under consideration by the Agency; and

(3) Provide its Unique Entity Identifier (UEI) in each application it submits to the Agency. The UEI is included on the Standard Form (SF) 424, ''Application for Federal Assistance.''

(d) *Delinquent debt.* The applicant must not have any delinquent debt to the Federal Government. If an applicant has any delinquent debt to the Federal Government, the applicant will be ineligible to receive any funds obligated under this subpart until the debt has been paid.

(e) *Legal authority and responsibility.* Each Applicant must have the legal authority necessary to apply for and carry out the purpose of the grant.

[80 FR 15667, Mar. 25, 2015, as amended at 89 FR 34959, May 1, 2024]

§ 4280.417 Project eligibility.

For a Project to be eligible for funding under this subpart, the proposed Project must meet each of the requirements specified in paragraphs (a) through (e) of this section.

(a) *Types of projects.* Grant funds may be used for Projects identified in either paragraph (a)(1) of this section, business opportunity type grants, or paragraph (a)(2) of this section, business enterprise type grants. Unless otherwise announced in a Notice of Solicitation of Applications, the Agency will set aside 10 percent of its RBDG appropriation for business opportunity type grants. The Agency reserves the right to reallocate funds set aside for business opportunity type grants to business enterprise type grants if it becomes apparent to the Agency that there is insufficient demand for the funds set aside for the business opportunity type grants.

(1) *Business opportunity Projects.* Grant funds may be used for business opportunity Projects that include one or more of the following activities:

(i) Identify and analyze business opportunities that will use local rural materials or human resources. This includes opportunities in export markets, as well as feasibility and business plan studies;

(ii) Identify, train, and provide Technical Assistance to existing or prospective rural entrepreneurs and managers;

(iii) Establish Business Support Centers and otherwise assist in the creation of new Rural businesses;

(iv) Conduct local community or multi-county Economic Development Planning;

(v) Conduct leadership development training of existing or prospective adult rural entrepreneurs and managers;

(vi) Establish centers for training, technology, and trade that will provide training to Rural businesses in the utilization of interactive communications technologies to develop international trade opportunities and markets; or

(vii) Pay reasonable fees and charges for professional services necessary to conduct the Technical Assistance, training, or planning functions.

(2) *Business enterprise projects.* Grant funds may be used to finance and/or develop Small and Emerging Businesses in Rural Areas including, but not limited to, the following activities:

(i) Acquisition and development of land, easements and rights-of-way;

(ii) Construction, conversion, enlargement, repairs or modernization of buildings, plants, machinery, equipment, access streets and roads, parking areas, utilities, and pollution control and abatement facilities;

(iii) Provision of loans for startup operating cost and working capital;

(iv) Reasonable fees and charges for professional services necessary for the planning and development of the Project;

(v) Establishment of a revolving loan fund to provide financial assistance to third parties through a loan; and

(vi) Establishment, expansion, and operation of Rural distance learning networks or development of Rural learning programs that provide educational instruction or job training instruction related to potential employment or job advancements for adult students;

(vii) Provision of Technical Assistance for Small and Emerging Businesses, including but not limited to feasibility studies and business plans; and/or

(viii) Provision of Technical Assistance and training to rural communities for the purpose of improving passenger transportation services or facilities.

(b) *Result of projects.* (1) For business opportunity type grants, the Project must have a reasonable prospect that the Project will result in the Economic Development of a Rural Area.

(2) For business enterprise type grants, the Project must have a reasonable prospect that it will result in the development or financing of Small and Emerging Businesses.

(c) *Basis for success or failure.* Grants may be made only when the application demonstrates a need for the Project and includes a basis for determining the success or failure of the Project and individual major elements of the Project and outlines procedures that will be taken to assess the Project's impact at its conclusion.

(d) *Local and area-wide strategic plans.* Business opportunity type grants may be made only when the proposed Project is consistent with any local and area-wide strategic plans for community and Economic Development, coordinated with other Economic Development activities in the Project area, and consistent with any Rural Development State Strategic Plan.

(e) An applicant is permitted to use up to 10 percent of the amount provided under this subpart to construct, improve, or acquire broadband infrastructure related to the project financed, subject to the requirements of 7 CFR part 1980, subpart M.

[80 FR 15667, Mar. 25, 2015, as amended at 85 FR 57085, Sept. 15, 2020]

§§ 4280.418–4280.420 [Reserved]

FUNDING PROVISIONS

§ 4280.421 Term requirement.

A grant may be considered for the amount needed to assist with the completion of a proposed Project, provided that the Project can reasonably be expected to be completed within 1 full year after it has begun.

§ 4280.422 Joint funding.

To the extent permitted by law, Agency grant funds may be used jointly and in proportion with funds furnished by the grantee or from other sources including Agency loan funds.

§ 4280.423 Ineligible uses of grant funds.

Grant funds may not be used towards any of the uses identified in paragraphs (a) through (n) of this section.

(a) Duplicate current services or substitute support previously provided. If the current service is inadequate, however, grant funds may be used to expand the level of effort or services beyond what is currently being provided.

(b) Pay costs of preparing the application package for funding under this program or any other program.

(c) Pay costs for any expenses incurred prior to receipt of a full application, except for those permitted under Departmental Regulations.

(d) Fund political activities.

(e) Pay for assistance to any private business enterprise which does not create and/or support jobs in the United States.

(f) Pay any judgment or debt owed to the United States.

(g) Fund Agriculture Production either directly or through horizontally integrated livestock operations except for commercial nurseries, timber operations or limited Agricultural Production related to Technical Assistance Projects. The following are not considered Agriculture Production:

(1) Aquaculture, including conservation, development, and utilization of water for aquaculture;

(2) Commercial fishing;

(3) Commercial nurseries engaged in the production of ornamental plants and trees and other nursery products such as bulbs, flowers, shrubbery, flower and vegetable seeds, sod, and the growing of plants from seed to the transplant stage;

(4) Forestry, which includes businesses primarily engaged in the operation of timber tracts, tree farms, and forest nurseries and related activities such as reforestation; or

(5) The growing of mushrooms or hydroponics.

(h) To finance comprehensive area-wide type Planning. This does not preclude the use of grant funds for Planning for a given Project.

(i) To make loans when the rates, terms, and charges for those loans are not reasonable or would be for purposes not eligible under 7 CFR part 4274, subpart D.

(j) For programs operated by cable television systems.

(k) To fund a part of a Project that is dependent on other funding unless there is a firm commitment of the other funding to ensure completion of the Project.

(l) To pay for Technical Assistance that duplicates assistance provided to implement an action plan funded by the Forest Service (FS) under the National Forest-Dependent Rural Communities Economic Diversification Act for 5 continuous years from the date of grant approval by the FS. To avoid duplicate assistance, the grantee shall coordinate with FS and the Agency to ascertain if a grant has been made in a substantially similar geographical or defined local area in a State for Technical Assistance under the FS program. The grantee will provide documentation to FS and the Agency regarding the contact with each agency.

(m) Pass through grants. Pass through grants are for, but not limited to:

(1) The purchase, refurbishing, or remodeling of real estate for use as a business incubator without charging a fair market rental;

(2) The purchase of equipment for use by an ultimate recipient without charging a fair market rental; and

(3) The making of a Revolving Loan Fund (RLF) loan without taking appropriate security to reasonably assure repayment of the loan.

(n) For a Project that would result in the transfer of existing employment or business activity more than 25 miles from its existing location.

§§ 4280.424–4280.426 [Reserved]

APPLYING FOR A GRANT

§ 4280.427 Application.

Applications for an RBDG grant as specified in § 4280.417(a)(1) and (2) must contain the following:

(a) An original and one copy of SF 424, ''Application For Federal Assistance (For Non-construction);''

(b) Copies of applicant's organizational documents showing the applicant's legal existence and authority to perform the activities under the grant;

(c) A proposed scope of work, including a description of the proposed Project, *e.g.*, RLF, Technical Assistance, Industrial Site, Business Opportunity and Other Business Development, details of the proposed activities to be accomplished and timeframes for completion of each task, the number of months duration of the Project, and the estimated time it will take from grant approval to beginning of Project implementation;

(d) A written narrative that includes, at a minimum, the following items:

(1) An explanation of why the Project is needed, the benefits of the proposed Project, and how the Project meets the grant eligible purposes;

(2) Area to be served, identifying each governmental unit, *i.e.* town, county, etc., to be affected by the Project;

(3) Description of how the Project will coordinate Economic Development activities with other Economic Development activities within the Project area;

(4) Business to be assisted, if appropriate, and Economic Development to be accomplished;

(5) An explanation of how the proposed Project will result in newly created, increased, or supported jobs in the area and the number of projected new and supported jobs within the next 3 years;

(6) A description of the applicant's demonstrated capability and experience in providing the proposed Project assistance or similar Economic Development activities, including experience of key staff members and persons who will be providing the proposed Project activities and managing the Project;

(7) The method and rationale used to select the areas and businesses that will receive the service;

(8) A brief description of how the work will be performed including whether organizational staff or consultants or contractors will be used; and

(9) Other information the Agency may request to assist it in making a grant award determination;

(e) The latest 3 years of financial information to show the applicant's financial capacity to carry out the proposed work. If the applicant is less than 3 years old, at a minimum, the information should include all balance sheet(s), income statement(s) and cash flow statement(s). A current audited report is required if available;

(f) Intergovernmental review comments from the State Single Point of Contact, or evidence that the State has elected not to review the program under Executive Order 12372;

(g) Documentation regarding the availability and amount of other funds to be used in conjunction with the funds from the RBDG;

(h) A budget which includes salaries, fringe benefits, consultant costs, indirect costs, and other appropriate direct costs for the Project; and

(i) RBDG construction Project grants must conform with 7 CFR part 1924, subpart A requirements.

§ 4280.428 Strategic economic and community development.

Applicants with projects that support the implementation of Strategic Community Investment Plans are encouraged to review and consider 7 CFR part 1980, subpart K, which contains provisions for providing priority to projects that support the implementation of Strategic Community Investment Plans on a multi-jurisdictional and multi-sectoral basis.

[85 FR 59395, Sept. 22, 2020]

§ 4280.429 [Reserved]

§ 4280.430 Notification of decision.

When the Agency has determined that an application is not eligible or that no further action will be taken, the Agency will notify the applicant in writing of the reasons why the application was not favorably considered and provide any appeal rights.

§§ 4280.431–4280.433 [Reserved]

PROCESSING AND SCORING APPLICATIONS

§ 4280.434 General processing and scoring provisions.

The Agency will review each application for assistance in accordance with the priorities established in § 4280.435. The Agency will assign each application a priority rating and will select applications for funding based on the priority ratings and the total funds available to the program.

(a) *Applications.* The Agency will score each application based on the information contained in the application and its supporting information. All applications submitted for funding must contain sufficient information to permit the Agency to complete a thorough priority rating.

(b) *Unfunded applications.* The Agency will notify eligible applicants if funds are not available. If an applicant wishes to have their application maintained in an active file for future consideration, the applicant must revise and update their application in writing for the Agency to reconsider in a future funding cycle.

§ 4280.435 Scoring criteria.

The Agency will use the criteria in this section to score applications for purposes identified under § 4280.417(a)(1)and (2).

(a) *Leveraging.* If the grant will fund a critical element of a larger program of Economic Development, without which the overall program either could not proceed or would be far less effective, or if the program to be assisted by the grant will also be partially funded from other sources, points will be awarded as follows. If points are awarded for leveraging, funds must be spent proportionally, and if leveraged funds are not utilized proportionately with the grant, the Agency reserves the right to take any legal action, including terminating the grant.

(1) If Rural Development's portion of Project funding is:

(i) Less than 20 percent—30 points;

(ii) 20 but less than 50 percent—20 points;

(iii) 50 but less than 75 percent—10 points; or

(iv) 75 percent or more—0 points.

(2) [Reserved]

(b) Points will be awarded for each of the following criteria met by the community or communities that will receive the benefit of the grant. However, regardless of the mathematical total of points indicated by paragraphs (b)(1)

through (4) of this section, total points awarded under this paragraph (b) must not exceed 40.

(1) *Trauma*. Experiencing trauma due to a major natural disaster that occurred not more than 3 years prior to the filing of the application for assistance—15 points;

(2) *Economic distress*. The community has suffered a loss of 20 percent or more in their total jobs caused by the closure of a military facility or other employers within the last 3 years—15 points;

(3) *Long-term poverty*. Has experienced Long-Term poverty as demonstrated by being a former Rural empowerment zone, Rural economic area partnership zone, Rural enterprise community, champion community, or a persistent poverty county as determined by USDA's Economic Research Serviced—10 points;

(4) *Population decline*. Has experienced Long-Term population decline—10 points as demonstrated by the latest three decennial censuses.

(c) *Population*. Proposed Project(s) will be located in a community of:

(1) Under 5,000 population—15 points;

(2) Between 5,000 and less than 15,000 population—10 points; or

(3) Between 15,000 and 25,000 population—5 points.

(d) *Unemployment*. Proposed Project(s) will be located in areas where the unemployment rate:

(1) exceeds the State rate by 25 percent or more—20 points;

(2) exceeds the State rate by less than 25 percent—10 points; or

(3) is equal to or less than the State rate—0 points.

(e) *Median household income*. Proposed Project(s) will be located in areas where Median Household Income (MHI) as prescribed by section 673(2) of the Community Services Block Grant Act for a family of 4 for the State is:

(1) Less than poverty line—25 points;

(2) More than poverty line but less than 65 percent of State MHI—15 points;

(3) Between 65 and 85 percent of State MHI—10 points; or

(4) Greater than 85 percent State MHI—0 points.

(f) *Experience*. Applicant has evidence of successful experience in the type of activity. Evidence of successful experience may be a description of experience supplied and certified by the applicant based upon its current employees' resumes:

(1) 10 or more years-30 points;

(2) At least 5 but less than 10 years-20 points;

(3) At least 3 but less than 5 years-10 points; or

(4) At least 1 but less than 3 years-5 points.

(g) *Small business start-up or expansion*. Applicant has evidence that small business development will be supported by startup or expansion as a result of the activities to be carried out under the grant. Written evidence of commitment by a small, or a Small and Emerging Business must be provided to the Agency, and should include the number of jobs that will be supported and created. 5 points for each letter up to 25 points.

(h) *Jobs created or supported*. The anticipated development, expansion, or furtherance of business enterprises as a result of the proposed Project will create and/or support existing jobs associated with the affected businesses. The number of jobs must be evidenced by a written commitment from the business to be assisted.

(1) One job for less than $5,000—25 points;

(2) one job for $5,000 but less than $10,000—20 points;

(3) one job for $10,000 but less than $15,000—15 points;

(4) one job for $15,000 but less than $20,000—10 points; or

(5) one job for $20,000 but less than $25,000—5 points.

(i) *Size of grant request*. Grant Projects utilizing funds available under this subpart of:

(1) less than $100,000—25 points;

(2) $100,000 to $200,000—15 points; or

(3) more than $200,000 but not more than $500,000—10 points.

(j) *Indirect cost*. Applicant is not requesting grant funds to cover their administrative or indirect costs-5 points.

(k) *Discretionary points*. Either the State Director or Administrator may assign up to 50 discretionary points to an application. Assignment of discretionary points must include a written justification. Permissible justifications

are geographic distribution of funds, special Secretary of Agriculture initiatives such as Priority Communities, or a state's strategic goals. Discretionary points may only be assigned to initial grants. However, in the case where two Projects have the same score, the State Director may add one point to the Project that best fits the State's strategic plan regardless of whether the Project is an initial or subsequent grant.

§§ 4280.436–4280.438 [Reserved]

GRANT AWARDS AND AGREEMENT

§ 4280.439 Grant awards and agreements.

The Agency will award and administer RBDG grants in accordance with applicable Departmental regulations, this subpart, and the unauthorized grant provisions of 7 CFR part 1951, subpart O.

(a) *Letter of conditions.* The Agency will provide each approved applicant a letter of conditions, which sets out the conditions under which the grant will be made, including, but not limited to, an Agency grant agreement.

(b) *Applicant's intent to meet conditions.* The applicant must complete, sign and return a ''Letter of Intent to Meet Conditions,'' to the Agency. If applicant identifies certain conditions that the applicant cannot meet, the applicant may propose alternate conditions to the Agency. The Agency must concur with any changes proposed by the letter of conditions by the applicant before the any grant will be made.

§§ 4280.440–4280.442 [Reserved]

POST AWARD ACTIVITIES AND REQUIREMENTS

§ 4280.443 Grant monitoring and servicing.

RBDG grants will be monitored and serviced in accordance with the grant agreement, this subpart, and 2 CFR chapter IV.

§§ 4280.444–4280.447 [Reserved]

§ 4280.448 Transfers and assumptions.

The Agency will approve transfer and assumption requests on grants awarded under this subpart on a case by case basis, and then only to eligible entities under § 4280.416.

§§ 4280.449–4280.499 [Reserved]

§ 4280.500 OMB control number.

The reporting and recordkeeping requirements contained in this part have been approved by the Office of Management and Budget (OMB) under the provisions of 44 U.S.C. chapter 35 and have been assigned OMB control number 0570–0070 in accordance with the Paperwork Reduction Act of 1995. You are not required to respond to this collection of information unless it displays a valid OMB control number.

Subpart F—Rural Cooperative Development Grants

SOURCE: 89 FR 75771, Sept. 16, 2024, unless otherwise noted.

§ 4284.501 Purpose.

This subpart implements the Rural Cooperative Development Grant (RCDG) Program. Grants are made to Nonprofit Institutions who in turn provide Technical Assistance including Cooperative Development to start, expand or improve Cooperatively and Mutually Owned Businesses in Rural Areas.

§ 4284.502 Organization of subpart.

The information in this subpart is organized into six main topics:

(a) *General information.* Sections 4284.501 through 4284.519 discuss the purpose of the program, definitions, exception authority, conflict of interest, and compliance with other laws and regulations.

(b) *Eligibility information.* Sections 4284.520 through 4284.529 discuss the eligibility requirements for the program. The sections include information on Applicant eligibility, Project eligibility, and the use of funds. See § 4284.522 for information about the award amounts, Period of Performance, and Matching Funds requirements.

(c) *Application requirements information.* Sections 4284.530 through 4284.539 discuss the requirements for submitting an application. The sections include information on what forms and other information are required for a complete application as well as the format of the application, the application deadline, and how to submit the application.

(d) *Application processing information.* Sections 4284.540 through 4284.549 discuss how the Agency will process applications. The sections include information on how applications will be reviewed for eligibility, how applications will be evaluated for merit, and how an Applicant can withdraw an application from consideration.

(e) *Award information.* Sections 4284.550 through 4284.559 discuss how the Agency will make awards. The sections include information about how applications will be selected for funding, how Applicants will be notified if their applications are selected for funding, how Applicants can resolve disputes regarding funding selections, and the requirements for an Applicant to accept an award and be approved as a Recipient of an award.

(f) *Post-award information.* Sections 4284.560 through 4284.561 discuss the reporting requirements for Recipients after an award is approved as well as monitoring procedures that the Agency will use.

(g) *Other.* (1) Sections 4284.562 through 4284.599 are reserved.

(2) Section 4284.600 includes the Office of Management and Budget (OMB) control number for reporting and recordkeeping requirements under this subpart.

§ 4284.503 Definitions.

These are the definitions for terms used in this subpart. Additional terms used in this subpart are found in the applicable laws and regulations, in particular 2 CFR part 200 and 7 CFR part 11.

1994 Institution means a college identified as such for purposes of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 301 note).

Adverse Decision has the meaning located at 7 CFR 11.1.

Adverse Decision Letter means a letter issued by the Agency to the Applicant or Recipient that explains the Adverse Decision.

Agency means the Rural Business-Cooperative Service (RBCS or the Agency), an agency of the United States Department of Agriculture (USDA or the Department), or a successor agency.

Applicant means the Nonprofit Institution that is applying for funding through the RCDG program.

Board of Directors (Board) means the group of individuals that manage or direct the Center.

Business Plan means a formal statement of a set of business goals, the reasons why they are believed attainable, and the plan for reaching those goals, including pro forma financial statements appropriate to the term and scope of the Project and sufficient to evidence the viability of the Project. It may also contain background information about the organization or team attempting to reach those goals.

Center means the Rural Cooperative Development Center to be established and/or operated by a Recipient of the RCDG program.

Cooperative means a business or organization owned, democratically governed, controlled and operated by those who use and benefit from it. Profits and losses generated by the organization are distributed in proportion to use as patronage to the user-owners, also known as members. Investment returns to non-members are limited.

Cooperative Development refers to a type of Technical Assistance that establishes and promotes Cooperative businesses through hands-on activities, often but not exclusively, assisting a group through a series of stages. These stages include but are not limited to the following: idea exploration by a group with shared needs, member-use analysis, identifying a steering committee and guiding them through the development process, modeling effective democratic processes and good governance practices, creation of legal and policy documents, conducting a membership drive, raising member equity, acquiring sufficient capital, supporting operations, ongoing education and training, ongoing Board development and relations with management, supporting decision-making regarding patronage, and fostering an environment that is supportive of Cooperatives.

Economic Development means the economic growth of an area as evidenced by an increase in total income, employment opportunities, decreased out-migration of population, value of production, increased diversification of industry, higher labor force participation rates, increased duration of employment, higher wage levels, or gains in other measurements of economic activity, such as land values.

Equipment has the meaning located at 2 CFR 200.1.

Feasibility Study means a comprehensive analysis of the economic, market, technical, financial, and management capabilities of a Project or business in terms of the Project's expectation for success.

Federal Award has the meaning located at 2 CFR 200.1.

Grant Agreement or Financial Assistance Agreement has the meaning located at 2 CFR 200.1.

Institutions of Higher Education has the meaning located at 2 CFR 200.1.

Key Personnel means employees, new hires, consultants, and/or contractors of the Center who provide Technical Assistance including Cooperative Development and oversee and/or complete the tasks in the work plan.

Letter of Conditions means the letter that the Agency issues to an entity whose application is selected for funding. The letter outlines all the conditions of the award that must be met before the award can be approved. Other agencies may call this letter an award letter or award notice.

Matching Funds means a cost-sharing contribution to the Project that is 25 percent of the eligible Project Cost. For 1994 Institutions, a cost-sharing contribution that is 5 percent of the eligible Project Cost.

Mutually Owned Business means a business not incorporated under a Cooperative statute but operating as a Cooperative. Cooperative operation of the business is reflected in the articles and by-laws.

Networking means the creation and sharing of knowledge, best practices and transferrable strategies, engaging in mentor/mentee relationships amongst Centers, and developing joint Technical Assistance Projects with other Centers and other organizations engaged in Economic Development with the intent of advancing Cooperative Development and its practice.

New Cooperative Approach refers to development of a Cooperatively or Mutually Owned Business approach in a new industry, utilizing a new Cooperative structure, or serving a new function. This industry, structure, or function must be new to the Center or new to the service area.

Nonprofit Institution means any organization or institution, including an accredited Institution of Higher Education, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

Operating Cost means the day-to-day expenses of running a business; for example: utilities, rent on the office space a business occupies, salaries, depreciation, marketing and advertising, and other basic overhead items.

Period of Performance has the meaning located at 2 CFR 200.1.

Project means all of the eligible activities to be funded by the grant and Matching Funds under this subpart.

Project Cost has the meaning located at 2 CFR 200.1.

Public Body means any State, county, city, township, incorporated town or village, borough, authority, district, Economic Development authority, or Indian tribe on Federal or State reservations or other federally recognized Indian tribe.

Real Property has the meaning located at 2 CFR 200.1.

Recipient has the meaning located at 2 CFR 200.1.

Research and Development (R&D) has the meaning located at 2 CFR 200.1.

Rural and Rural Area means any area of a State not in a city or town that has a population of more than 50,000 inhabitants, according to the latest decennial census of the United States, or in the urban area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants, and any area that has been determined to be ''rural in character'' by the Under Secretary for Rural Development (RD), or as otherwise identified in this definition as follows:

(1) An area that is attached to the urban area of a city or town with more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than two (2) census blocks wide. Applicants from such an area should work with their RD State office to request a determination of whether their project is located in a Rural Area under this provision.

(2) For the purposes of this definition, cities and towns are incorporated population centers with definite boundaries, local self-government, and legal powers set forth in a charter granted by the State.

(3) For the purposes of this definition, populations of individuals incarcerated on a long-term or regional basis shall not be included in determining whether an area is ''rural'' or a ''rural area''.

(4) For the purposes of this definition, the first 1,500 individuals who reside in housing located on a military base shall not be included in determining whether an area is ''rural'' or a ''rural area''.

(5) For the Commonwealth of Puerto Rico, the island is considered Rural and eligible for Business Programs assistance, except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be eligible if they are ''not urban in character.''

(6) For the State of Hawaii, all areas within the State are considered Rural and eligible for Business Programs assistance, except for the Honolulu CDP within the County of Honolulu.

(7) For the purpose of defining a Rural Area in the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands, the Agency shall determine what constitutes Rural and Rural Area based on available population data.

(8) The determination that an area is ''rural in character'' will be made by the Under Secretary of RD. The process to request a determination under this provision is outlined in paragraph (8)(ii) of this definition.

(i) The determination that an area is ''rural in character'' under this definition will apply to areas that are within:

(A) An urban area that has two points on its boundary that are at least 40 miles apart, which is not contiguous or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urban area of such a city or town; or

(B) An urban area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within one-quarter mile of a Rural Area.

(ii) Units of local government may petition the Under Secretary of RD for a ''rural in character'' designation by submitting a petition to both the appropriate RD State Director and the Administrator on behalf of the Under Secretary. The petition shall document how the area meets the requirements of paragraph (8)(i)(A) or (B) of this definition and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base. Upon receiving a petition, the Under Secretary will consult with the applicable Governor or leader in a similar position and request comments to be submitted within five (5) business days, unless such comments were submitted with the petition. The Under Secretary will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Agency's website, and the Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration.

Rural Development (RD) refers to a mission area within the USDA which includes RBCS, the Rural Housing Service, and the Rural Utilities Service, and their successors.

State means any of the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

State Office refers to USDA RD offices located in each State.

Subaward has the meaning located at 2 CFR 200.1.

Technical Assistance means the process of providing targeted support for the startup, expansion, and operational improvement of Cooperatively and Mutually Owned Businesses typically delivered via multiple contacts over a period of time. It includes the transfer of skills and knowledge through research and collection of information to provide guidance and advice; assessment and analysis through Feasibility Studies and Business Plans, customized training, written information, in person or virtual exchanges, web-based curricula, and webinars.

Underserved and Economically Distressed has the meaning located in the annual notification issued on the program website.

Value-Added means the incremental profit earned from each transaction or step in processing after deducting processing costs, depreciation, and other relevant expenses. Each stage of processing or ownership transfer typically adds value to a good, product, or service.

§ 4284.504 Exception authority.

The Administrator of the Agency may, on a case-by-case basis, grant an exception to any non-statutory requirement or provision of this subpart provided that such exception is in the best financial interests of the Federal Government. Exercise of this authority cannot be in conflict with applicable laws.

§ 4284.505 [Reserved]

§ 4284.506 Conflict of interest.

No conflict of interest or appearance of conflict of interest will be allowed.

(a) *Description.* A conflict of interest occurs in a situation in which a person or entity has a competing, or the appearance of a competing, personal, professional, or financial interest that makes it difficult for the person or entity to act impartially. For purposes of this subpart, interactions among the following individuals constitute a conflict of interest or appearance of a conflict of interest:

(1) Applicant Board, employees, consultants, and contractors.

(2) Recipient Board, employees, consultants, and contractors.

(3) Center Board, employees, consultants, and contractors.

(4) Subrecipients and their employees, consultants, and contractors.

(5) Immediate family members of those listed in paragraphs (a)(1) through (4) of this section.

(b) *Written disclosure.* Recipients must comply with 2 CFR 400.2(b), which requires written disclosure of any potential conflicts of interest and maintaining written standards of conduct covering conflicts of interest and governing the performance of its employees in the selection, award, and administration of Federal Awards.

(c) *Assistance to employees, relatives, and associates.* The Agency will process any requests for assistance under this subpart in accordance with 7 CFR part 1900, subpart D.

(d) *Member/delegate clause.* No member of or delegate to Congress shall receive any share or part of this grant or any benefit that may arise therefrom; but this provision shall not be construed to bar, as a contractor under the grant, a publicly held corporation whose ownership might include a member of Congress.

§ 4284.507 [Reserved]

§ 4284.508 Compliance with other laws and regulations.

The Agency, Applicants, and Recipients must comply with all applicable laws and regulations. An effort has been made to identify the most-commonly cited laws and regulations and to reference them as follows:

(a) *Federal laws.* Federal laws are codified in the United States Code (U.S.C.). A selection of laws is identified as follows:

(1) Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*).

(2) Consumer Credit Protection Act (15 U.S.C. 1601 *et seq.*).

(3) Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*).

(4) The Civil Rights Act of 1964, Title VI (42 U.S.C. 2000d *et seq.*).

(5) The Rehabilitation Act of 1973, Section 504 (29 U.S.C. 794).

(b) *Federal regulations.* Federal regulations are codified in the Code of Federal Regulations (CFR). In particular, 2 CFR parts 1 through 200 address items such as universal identifiers, reporting Subaward and executive compensation, debarment and suspension, drug-free workplaces, administrative requirements, cost principles, and audit requirements. We particularly encourage Applicants and Recipients to become familiar with 2 CFR part 200 in its entirety.

(c) *Departmental regulations.* Departmental regulations are those regulations that are specific to awards made through the USDA. They are codified in the CFR. A selection of applicable regulations is identified as follows:.

(1) *2 CFR parts 400 through 499.* These parts include USDA's adoption of Federal administrative requirements and cost principles. They also include regulations on debarment and suspension, lobbying, drug-free workplaces, and research awards.

(2) *7 CFR part 11.* This part includes USDA's procedures for administrative appeals, as handled by its National Appeals Division.

(3) *7 CFR part 15.* This part includes USDA's procedures for compliance with nondiscrimination laws and regulations.

(d) *Agency regulations.* Agency regulations are those regulations that are specific to awards made through the Agency and they may also be specific to a program. They are codified in the CFR. A selection of those regulations is as follows:

(1) *7 CFR part 1900.* This part covers delegations of authority, Adverse Decisions and administrative appeals, applicability of Federal law, and processing and servicing grant awards.

(2) *7 CFR part 1901, subpart E.* This subpart covers civil rights compliance requirements.

(3) *7 CFR part 1951.* This part covers servicing grant awards, including unauthorized assistance.

(4) *7 CFR part 1970.* This part covers environmental policies and considerations.

(e) *Access to laws and regulations.* (1) Laws may be accessed through the U.S.C. At the time this subpart was published, the U.S.C. may be accessed electronically at this website: *https://uscode.house.gov/.*

(2) Regulations may be accessed through the CFR. At the time this subpart was published, the CFR may be

accessed electronically at this website: *https://www.ecfr.gov/*.

§§ 4284.509–4284.519 [Reserved]

§ 4284.520 Applicant eligibility.

(a) *Eligible Applicants.* Applicants are eligible for assistance through this program if they meet the following requirements:

(1) *Applicant type.* A Nonprofit Institution.

(2) *Applicant location.* Applicant must be located in a State.

(3) *Unique entity identifier (UEI).* Applicants must have a UEI and active registration through the System for Award Management (SAM) at SAM.gov unless exempt under 2 CFR 25.110.

(4) *Multiple grant eligibility.* An Applicant may submit only one application in response to a solicitation. All applications submitted, regardless of the Applicant entity name, that include the same Executive Director, employees, Board, advisory boards or committees of an existing Center or a majority thereof will be determined ineligible for funding.

(b) *Ineligible Applicants.* Applicants are ineligible for assistance through this program if one or more of the following occurs:

(1) The Applicant is an individual, for-profit entity, or Public Body.

(2) The Applicant is debarred or suspended or is otherwise excluded from, or ineligible for participation in Federal assistance programs under Executive Order 12549, ''Debarment and Suspension.'' See 2 CFR part 417 for more information.

(3) The Applicant has an outstanding judgment obtained against the organization by the United States in a Federal Court (other than United States Tax Court).

(4) The Applicant is delinquent on the payment of Federal income taxes.

(5) The Applicant is delinquent on Federal debt.

(6) The Applicant has been convicted of a felony criminal violation under any Federal law within the past 24 months.

(7) The Applicant has unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

(8) The Applicant has an award through this program that is not scheduled to end until after September 30 (for awards that began the preceding October 1) of the current Federal fiscal year, or December 31 (for awards that began the preceding January 1) of the current calendar year.

§ 4284.521 [Reserved]

§ 4284.522 Project eligibility.

(a) *Eligible Projects.* Eligible Projects must meet all of the following requirements. Failure to meet one or more of these requirements means that the application will not be considered for funding.

(1) *Rurality.* All Project activities must serve individuals, Cooperatively and Mutually Owned Businesses, small businesses, or other similar entities in Rural Areas.

(2) *Project focus.* The Project must focus on establishing or operating a Center with the goals of creating jobs in Rural Areas through the development of new Rural Cooperatives, Value-Added processing, and Rural businesses.

(3) *Amount requested.* The amount requested must not exceed any maximum amounts specified in the annual notification issued on the program website.

(4) *Matching Funds.* Matching Funds may be provided in cash by the Applicant, or cash or in-kind by a third party and are required for 25 percent (or 5 percent if a 1994 Institution) of the Project Cost. For example, if an Applicant requests an award amount of $150,000, the Matching Funds contribution must be $50,000, and the overall Project Cost is $200,000.

(i) *Matching Funds.* (A) Must be spent on eligible expenses.

(B) Must be from non-Federal sources unless authorized to be used as Matching Funds by the legislation authorizing the Federal source of funding.

(C) Must be spent in advance or as a pro-rata portion of grant funds being spent.

(ii) *In-kind contributions.* (A) Cannot include over-valued, in-kind contributions.

(B) You must be able to document and verify the number of hours worked and the value associated with any in-kind contribution being used to meet a Matching Funds requirement.

(C) In-kind contributions provided by individuals, businesses, or Cooperatives which are being assisted by the Center cannot be provided for the direct benefit of their own Projects as USDA RD considers this to be a conflict of interest.

(5) *Use of funds.* The Project must use grant and Matching Funds for allowable purposes. See § 4284.525.

(6) *Period of Performance.* The Period of Performance cannot exceed one (1) year. The grant period should begin no earlier than October 1 (the beginning of the Federal fiscal year) and no later than January 1 (the beginning of the calendar year).

(b) *Ineligible Projects.* Projects are ineligible for assistance through this program if the application:

(1) Requests more than the maximum grant amount;

(2) Focuses assistance on one Cooperatively or Mutually Owned Business;

(3) Includes a conflict of interest (see § 4284.506) where the expenses associated with the conflict of interest exceed 10 percent of the Project Cost. If the costs associated with the conflict of interest are 10 percent or less, the process in paragraph (b)(4) of this section will be followed;

(4) Includes unallowable costs (see § 4284.525) totaling more than 10 percent of Project Costs. If the application includes 10 percent or less of Project Costs in unallowable costs, and the application is otherwise eligible and selected for funding, those unallowable costs must be removed. If time permits, the Agency may allow those unallowable costs to be replaced with allowable costs. Otherwise, the amount of the Award will be reduced accordingly. If we cannot determine the percentage of unallowable costs, your application will not be considered for funding.

§§ 4284.523–4284.524 [Reserved]

§ 4284.525 Use of grant and Matching Funds.

(a) *Allowable uses of grant and Matching Funds.* The following types of activities and expenses are allowable:

(1) Costs associated with establishing or operating a Center, including legal services, accounting services, clerical assistance, technical services, office supplies, hiring employees, monitoring contracts, professional development for staff, attending conferences that would advance Cooperative Development and its practice, and Board travel;

(2) Technical Assistance including Cooperative Development as defined in § 4284.503;

(3) Costs for coordination of services and sharing of information among the Centers; and

(4) Providing loans and/or grants as Subawards per 2 CFR part 200 for Technical Assistance including Cooperative Development.

(b) *Unallowable uses of grant and Matching Funds.* No funds under this subpart shall be used to:

(1) Pay for the preparation of the grant application;

(2) Pay any costs of the Project incurred prior to the date of grant approval;

(3) Pay expenses not directly related to the funded Project;

(4) Pay for Board/advisory council member's time;

(5) Pay for the Operating Costs of any entity receiving assistance from the Recipient;

(6) Fund R&D;

(7) Duplicate activities paid for by another Federal grant program or activities charged to a previous RCDG Project;

(8) Pay for assistance to any private business enterprise which does not have at least 51 percent ownership by those who are either citizens of the United States or reside in the United States after being legally admitted for permanent residence;

(9) Pay for any goods or services from a person or entity who has a conflict of interest with the Recipient;

(10) Pay any judgment or debt owed to the United States;

(11) Purchase or make improvements to Real Property;

(12) Plan, develop, repair, rehabilitate, acquire, or construct a building or facility;

(13) Purchase, lease purchase, or install Equipment;

(14) Purchase or pay for the repair of vehicles; or

(15) Fund activities considered unallowable by the applicable cost principles, mostly of which are included in 2 CFR part 200, subpart E, or successor regulation.

§§ 4284.526–4284.529 [Reserved]

§ 4284.530 Notifications.

The Agency will issue any program notifications on the program website.

(a) *Amount of funding available.* The Agency will publish the amount of funding available for awards during each Fiscal Year within 30 calendar days of notification from OMB of the amount available.

(b) *Underserved and Economically Distressed Areas.* The Agency will publish the source for identifying Underserved and Economically Distressed areas no later than the date the application period opens.

(c) *Additional merit evaluation criteria.* The Agency may establish additional merit evaluation criteria to meet the Department's or Agency's key priorities, goals, and objectives. Any such criteria will be published no later than the date the application period opens.

(d) *Other.* The Agency will publish any other additional requirements or programmatic changes no later than the date the application period opens.

§ 4284.531 Application requirements.

All applications must include the following:

(a) *Application forms.* The following forms must be completed, signed, and submitted as part of the application. Any additional forms that may be required will be published in the applicable annual notification.

(1) SF–424, ''Application for Federal Assistance.''

(2) SF–424 A, ''Budget Information—Non-Construction Programs.''

(b) *Proposal.* Each proposal must contain the following items. Additional items may be requested and will be published in the applicable annual notification.

(1) Title page.

(2) Table of contents.

(3) A summary of the proposal should briefly describe the Center, the goals of the Project, and the amount requested.

(4) Applicants must discuss how the following are met:

(i) Eligibility requirements in § 4284.520; including how they identify as an Institution of Higher Education or Nonprofit Institution.

(ii) Project eligibility requirements in § 4284.522; and

(iii) Eligible use of grant and Matching Funds requirements in § 4284.525.

(5) The proposal narrative should address how the Center will improve the economic conditions of Rural Areas by providing Technical Assistance including Cooperative Development. In particular, the Applicant must:

(i) Substantiate that the Center will use RCDG funds to serve Rural Areas in the United States as defined in § 4284.503.

(ii) Provide a description of the contributions that this Project is likely to make that will improve the economic conditions of the Rural Areas served by the Center.

(iii) Discuss how the Center, in carrying out the activities, will seek, where appropriate, the advice, participation, expertise, and assistance of representatives of business, industry, educational institutions, the Federal Government, Tribal Governments, and State and local governments.

(iv) Discuss how the Center intends to take all practicable steps to develop continuing sources of financial support for the Center, particularly from sources in the private sector. Applicants should indicate what financial support has been received in the past three (3) years from private sources and share plans of how the Applicant intends to secure long term sustainability of the Center.

(v) Merit evaluation criteria must be addressed in narrative form by the Applicant.

(A) *Experience.* Describe the Center's experience in Technical Assistance including Cooperative Development. Include the Center's role and accomplished outcomes for each organization assisted. Described experience must be within the last three (3) years. Centers that are not yet established should discuss the expertise and track record of Key Personnel expected to perform activities related to the Project. Provide the following for each organization assisted:

(*1*) Name of organization;

(*2*) Organization's complete address;

(*3*) Indicate whether the service location is Rural;

(*4*) Indicate whether the organization is Cooperatively or Mutually owned;

(*5*) Discussion on the Applicant's role(s) in providing Technical Assistance, including Cooperative Development;

(*6*) Date(s) of service;

(*7*) Indicate if a Cooperatively or Mutually Owned Business was established as a result of the Cooperative Development services provided;

(*8*) Date the Cooperatively or Mutually Owned Business was established;

(*9*) Indicate whether the Cooperatively or Mutually Owned Business is active or inactive;

(*10*) Discussion on any New Cooperative Approach used; and

(*11*) Discussion on the outcomes of the assistance, including but not limited to, the retention of Cooperatively or Mutually Owned Businesses, jobs created and/or saved, or other economic conditions (*e.g.*, number of housing units, number of childcare spaces, etc.).

(B) *Work plan and budget.* All tasks in the work plan and budget must be for allowable uses of funds. For each task, the following must be provided:

(*1*) A detailed narrative description, for each of the Technical Assistance, Cooperative Development, and Networking tasks as well as any Subawards for loans and/or grants. Applicants must identify project partners for Networking tasks;

(*2*) A detailed breakdown of all estimated Project Costs including Operating Costs, with grant and Matching Funds identified separately;

(*3*) Key Personnel that will be responsible for overseeing and/or conducting each task;

(*4*) A specific timeframe corresponding to the actual time each task is estimated to be completed; and

(*5*) Zip code for each of the organizations being assisted who are located in Underserved and Economically Distressed areas.

(C) *Qualifications of Key Personnel.* Key Personnel are expected to be qualified, committed, and available during the Period of Performance. The following must be provided for each Key Personnel identified in the work plan and budget.

(*1*) Name of Key Personnel;

(*2*) A summary of formal training and/or skills and years of experience directly related to the task(s) to be performed as outlined in the work plan and budget; and

(*3*) For Key Personnel to be hired, list the necessary qualifications needed to complete Project task(s).

(D) *Verification of Matching Funds.* Applicants must provide authentic documentation from the source(s) of Matching Funds to confirm the eligibility and availability of both cash and in-kind contributions that meet the Matching Funds requirements as defined in §§4284.503 and 4284.522. If selected for funding, Matching Funds will be reverified before a Financial Assistance Agreement is executed.

(vi) Applicants must certify that Matching Funds will be spent at the same time grant funds are anticipated to be spent and that expenditures of Matching Funds shall be pro-rated or spent in advance of grant funding, such that for every dollar of the grant funds requested, at least 25 cents (5 cents for 1994 Institutions) of Matching Funds will be expended.

(vii) To measure the success of the Project in a quantitative way, Applicants must have baseline and target performance metrics and will have a baseline metric of zero. Applicants must provide a target metric for each of the following performance metrics:

(A) Number of Rural groups assisted.

(B) Number of Cooperatives assisted.

(*1*) Number of jobs created/saved.

(*2*) Number of jobs created/saved in Underserved and Economically Distressed areas.

(C) Number of Mutually Owned Businesses (LLC/LLP) assisted.

(*1*) Number of jobs created/saved.

(*2*) Number of jobs created/saved in Underserved and Economically Distressed areas.

(D) Number of other businesses assisted.

(*1*) Number of jobs created/saved.

(*2*) Number of jobs created/saved in Underserved and Economically Distressed areas.

(E) Number of Business Plans developed.

(F) Number of Cooperatives incorporated.

(G) Number of Feasibility Studies completed.

(H) Number of workshops/seminars conducted.

(I) Number of conferences held.

(*1*) Number of conferences conducted with other Centers.

(*2*) Number of conferences conducted with other organizations.

(J) If working with housing, number of housing units created/saved.

(K) For consumer co-ops (grocery, retail) number of people with access to goods or services.

(L) Financial loss avoided as a result of 'no-go' decision in the Cooperative Development process.

(M) Any additional performance measures as outlined in your Financial Assistance Agreement, or specified in the annual notification.

(*1*) It is permissible to have a zero in a performance metric. Jobs created targets must be calculated based upon actual jobs to be created by the Center because of RCDG funding or actual jobs to be created by Cooperatively or Mutually Owned Businesses as a result of the assistance from the Center. Jobs saved targets must be calculated only on actual jobs that would have been lost if the Center did not receive RCDG funding or actual jobs that would have been lost without assistance from the Center.

(*2*) Additional performance metrics can be suggested, for example; where jobs created or jobs saved may not be a relevant indicator (*e.g.*, housing). These additional criteria must be specific and measurable performance metrics to be included in a Federal Financial Assistance Agreement.

§ 4284.532 [Reserved]

§ 4284.533 Submission requirements.

Unless otherwise specified in an annual notification issued under § 4284.530, the following requirements apply to all applications.

(a) *Submission period*. The application period opens on March 1 and closes 11:59 p.m. Eastern time, on June 1. Applicants are encouraged to submit their applications well in advance of the closing date to ensure timely receipt by the Agency.

(b) *Submission process*. The annual notification will be published on the OMB-designated governmentwide website and will provide instructions on how and where to submit completed applications for RCDG funding. All items required for the application must be submitted in a single application package. Revisions or additional information will not be accepted after the application period closes. Incomplete applications will be rejected and not considered for funding.

§§ 4284.534–4284.539 [Reserved]

§ 4284.540 Application processing.

The following information describes the way the Agency will process applications, including the evaluation of eligibility, risk, and merit.

(a) *Eligibility evaluation*. The Agency will review all applications to determine if they are eligible for assistance based on the requirements in this subpart and other applicable Federal laws and regulations. In particular, the Agency will check the OMB designated repository of government information and, applicants that are excluded from Federal funding will be determined ineligible (see 2 CFR 200.206 for more information). An application must include all application requirements identified in § 4284.531, or the Agency will determine that it is ineligible for assistance.

(b) *Risk evaluation*. The Agency will review those applications that are determined to be eligible for the program.

(1) Typically, the Agency will not determine that an application is ineligible for funding based on the results of the risk evaluation, unless the Agency cannot find a way to reasonably mitigate the risk posed by making an award.

(2) If risk evaluation findings identify significant shortcomings in the Applicant's ability to manage Federal funds, the Agency may determine that the application is ineligible for funding.

(3) The Agency will determine if the Applicant has satisfactory performance for all Federal Awards received in the last five (5) years, based upon review of deficiencies reported in the Federal Awardee Performance and Integrity Information System, or its successor system, the Do Not Pay system, or its successor system, and the Agency's own internal financial and record-keeping systems and files. Satisfactory performance includes timely submission of required reports and documents, timely completion of tasks, and proper use of funds, including achieving the level of funds approved and committed for Underserved and Economically Distressed areas.

(c) *Merit evaluation (Up to 100 total points).* The Agency will conduct a merit evaluation for those applications that are determined to be eligible for the program. The merit evaluation will be conducted by a panel of USDA employees who will convene to reach a consensus on the merit of each eligible application. The merit evaluation will be based on the following criteria:

(1) *Experience (Up to 30 points).* The Agency will evaluate the Applicant's demonstrated experience in Technical Assistance including Cooperative Development; and effectiveness in accomplishing effective outcomes through the development of Cooperatively and Mutually Owned Businesses. Points will be awarded based on the following:

(i) Up to 5 points for track record in providing Technical Assistance to promote and assist the development of Cooperatively and Mutually Owned Businesses.

(ii) Up to 5 points for ability to facilitate Cooperative Development that results in the establishment of Cooperatively and Mutually Owned Businesses in Rural Areas.

(iii) Up to 5 points for ability to facilitate the establishment of New Cooperative Approaches in Rural Areas.

(iv) Up to 5 points for the ability to assist in the retention of businesses in Rural Areas.

(v) Up to 5 points for ability to create and/or save jobs that improve economic conditions of Rural Areas.

(vi) Up to 5 points for ability to improve other economic conditions in Rural Areas.

(2) *Work plan and budget (Up to 45 points).* The Agency will evaluate the Applicant's work plan and budget on its ability to provide a clear, logical, realistic and efficient use of grant and Matching Funds; level of commitment to Underserved and Economically Distressed areas; and Networking with States, Centers and other organizations engaged in Economic Development efforts in Rural Areas. Points will be awarded based on the following:

(i) *Work plan and budget detail.* Up to 30 points will be awarded as follows:

(A) 0 points will be awarded if the application does not address paragraphs (c)(2)(i)(B) through (E) of this section.

(B) Up to 10 points will be awarded if the application provides a detailed narrative description for each of the specific tasks to be completed.

(C) Up to 10 points will be awarded if the application provides a detailed breakdown of all estimated Project Costs, including Operating Costs, for each task with grant and Matching Funds identified separately.

(D) Up to 5 points will be awarded if the application identifies the Key Personnel associated with each task.

(E) Up to 5 points will be awarded if the application provides specific timeframes for each task.

(ii) *Underserved and Economically Distressed.* Up to 15 points will be awarded to Applicants whose work plans and budgets demonstrate their commitment to Underserved and Economically Distressed area(s) as defined in the annual notification.

(A) 0 points will be awarded if the application does not identify tasks and a budget commitment to Underserved and Economically Distressed area(s).

(B) Up to 5 points will be awarded if the Applicant identifies the Underserved and Economically Distressed area(s) within their service area.

(C) Up to 10 points will be awarded if the Applicant's budget commitment (grant and Matching Funds) to Underserved and Economically Distressed areas is:

(*1*) Less than 5 percent budget commitment = 2 points.

(*2*) 5 percent or greater but less than 10 percent budget commitment = 4 points.

(*3*) 10 percent or greater but less than 25 percent budget commitment = 6 points.

(*4*) 25 percent or greater but less than 50 percent budget commitment = 8 points.

(*5*) 50 percent or more budget commitment = 10 points.

(3) *Networking*. Up to 10 points will be awarded to Applicants who demonstrate a commitment to Networking and plan to develop multi-organizational and multi-State Cooperative Development approaches.

(i) Up to 5 points will be awarded if the Applicant describes how it intends to create and share best practices and transferrable strategies with other Centers or organizations engaged in Economic Development.

(ii) Up to 5 points will be awarded if the Applicant describes how it will develop joint Technical Assistance, including Cooperative Development, projects and mentor/mentee relationships with other Centers and other organizations engaged in Economic Development.

(4) *Qualifications of Key Personnel (Up to 10 points)*. The Agency will evaluate if the Key Personnel listed in the work plan and budget are qualified for their related task(s). Points will be awarded as follows:

(i) 0 points will be awarded if the Applicant does not identify formal training, skills, and years of experience for any Key Personnel.

(ii) 1 to 5 points will be awarded if the Applicant details the formal training, skills, and years of experience of some, but not all of the Key Personnel.

(iii) 6 to 10 points will be awarded if the Applicant details the formal training, skills, and years of experience of all Key Personnel.

(5) *Matching Funds commitment (5 points)*. Applicants must meet the Matching Funds requirement to be considered for points. Applicants who meet the 25 percent (5 percent for 1994 Institutions) Matching Funds requirement will receive 5 points.

§ 4284.541 Application withdrawal.

During the period between the submission of the application and award approval, the Applicant must notify the Agency if the Project is no longer viable, or the Applicant is no longer requesting financial assistance for the Project. When the Applicant notifies the Agency, the application will be withdrawn from consideration for funding.

§§ 4284.542–4284.549 [Reserved]

§ 4284.550 Award selection.

Applications will be selected for further processing and consideration of an award after the merit evaluation process is completed for all eligible applications. Applications will be ranked solely based on the points awarded, and they will be funded in rank order until available funds are expended. If there is a tie, the Administrator of the Agency will use discretion to break the tie to improve the geographic diversity of Recipients and/or prioritize Projects that advance the Department or Agency's key priorities, goals, and objectives. If an application cannot be fully funded, the Agency may offer partial funding to the extent funds are available. If an application is ranked and not funded, it will not be carried forward into the next funding competition.

§ 4284.551 Notification of successful Applicants.

(a) The Agency will notify the Applicants whose applications can be funded using available funds with a Letter of Conditions. The Letter of Conditions will provide the conditions under which an award can be approved as well as a copy of the term of the award.

(b) Applicants receiving a Letter of Conditions will have 60 calendar days to meet the conditions of the award.

Some awards may be subject to additional conditions, depending on the nature of the Project and the Agency's determination of risk. The following additional forms must be completed by all successful Applicants:

(1) Form RD 1942–46, ''Letter of Intent to Meet Conditions.''

(2) Form RD 1940–1, ''Request for Obligation of Funds.''

(3) Form RD 400–4, ''Assurance Agreement.''

(4) SF–LLL, ''Disclosure of Lobbying Activities,'' for entities that engage in lobbying activities.

(5) Form RD 4280–2, ''Rural Business-Cooperative Service Financial Assistance Agreement.''

§ 4284.552 Notification of unsuccessful Applicants.

Applicants whose applications are ineligible for financial assistance or did not score high enough to be funded will be notified as soon as is practicable. The notification will be in writing using an Adverse Decision Letter. This letter will outline the reason(s) for the Agency's decision and any dispute resolution alternatives available to the Applicant.

§ 4284.553 Award approval.

Applicants whose applications are eligible for financial assistance and that score high enough to be funded will have their awards approved by the Agency once the Applicant has met all of the conditions of the award. The approval will be conveyed through the execution of Form RD 4280–2, which is the Financial Assistance Agreement, and provides all terms of the award. Once the award has been approved, the Recipient may begin work on the Project and incur costs.

§ 4284.554 Multi-year award.

The Agency may provide a multi-year funding opportunity to previous Recipients. If the Agency provides a multi-year funding opportunity, the application requirements and award process will be included in the annual notification.

§§ 4284.555–4284.559 [Reserved]

§ 4284.560 Reporting requirements.

Recipients are required to submit financial reports and performance reports on a semi-annual basis. A final financial report and performance report must also be submitted within 120 days after the expiration or termination of the grant.

(a) Failure to submit either a financial report or a performance report within the specified timeframes may result in the Agency withholding grant funds.

(b) Recipients must complete the Project in accordance with the terms and conditions specified in the approved work plan and budget, the Financial Assistance Agreement, and the Letter of Conditions.

(c) Recipients must expend funds only for eligible purposes and will be monitored by the Agency for compliance. Recipients must maintain a financial management system and maintain compliance with Federal Cost Principles in accordance with 2 CFR parts 200 through 299.

(1) *Reporting format and timing.* All performance reports must include a discussion on the performance metrics discussed in the application to determine whether the primary goals and objectives proposed in the approved work plan and budget were accomplished during the reporting period. Formatting of financial reports and performance reports, as well as timing for submission of these reports can be found in the Financial Assistance Agreement.

(2) *Project outcome performance report.* Once the Project is complete, the Recipient must provide the Agency with two annual outcome performance reports. Formatting and submission requirements for this report are included in the Financial Assistance Agreement.

§ 4284.561 Monitoring awards.

Awards will be monitored by Agency personnel in accordance with applicable laws, regulations, and policies (see § 4284.508 for more information). The Agency will designate a contact person for each award. The Agency may terminate or suspend the award for lack of adequate or timely progress, reporting,

documentation, or for failure to comply with Agency requirements.

§§ 4284.562–4284.599 [Reserved]

§ 4284.600 OMB control number.

The reporting and recordkeeping requirements contained in this subpart have been approved by OMB and have been assigned OMB control number 0570–0006 in accordance with the Paperwork Reduction Act of 1995.

Subparts G–I [Reserved]

Subpart J—Value-Added Producer Grant Program

SOURCE: 89 FR 75778, Sept. 16, 2024, unless otherwise noted.

§ 4284.901 Purpose.

This subpart implements the Value-Added Agricultural Product Market Development grant program (Value-Added Producer Grants (VAPG)) that provides grants to support Agricultural Producers' for-profit businesses that produce and market Value-Added Agricultural Products.

§ 4284.902 Organization of subpart.

The information in this subpart is organized into six main topics:

(a) *General information*. Sections 4284.901 through 4284.919 discuss the purpose of the program, definitions, exception authority, conflict of interest, compliance with other laws and regulations, and reserved funds.

(b) *Eligibility information*. Sections 4284.920 through 4284.929 discuss the eligibility requirements for the program. The sections include information on Applicant eligibility, Project eligibility, reserved funds eligibility, priority points eligibility, and the use of funds.

(c) *Application requirements information*. Sections 4284.930 through 4284.939 discuss the requirements for submitting an application. The sections include information on what forms and other information are required for a complete application as well as the format of the application, the application deadline, and how to submit the application.

(d) *Application processing information*. Sections 4284.940 through 4284.949 discuss how the Agency will process applications. The sections include information on how applications will be reviewed for eligibility, how applications will be evaluated for merit, and how an Applicant can withdraw an application from consideration.

(e) *Award information*. Sections 4284.950 through 4284.959 discuss how the Agency will make awards. The sections include information about how applications will be selected for funding, how Applicants will be notified whether their applications have been selected for funding, how Applicants can resolve disputes regarding funding selections, and the requirements for an Applicant to accept an award and be approved as a recipient of an award.

(f) *Post-award information*. Sections 4284.960 through 4284.962 discuss the reporting requirements for recipients after an award is approved as well as monitoring procedures that the Agency will use.

(g) *Other*. (1) Sections 4284.963 through 4284.999 are reserved.

(2) Section 4284.1000 includes the Office of Management and Budget (OMB) control number for reporting and recordkeeping requirements under this subpart.

§ 4284.903 Definitions.

These are the definitions for terms used in this subpart. Additional defined terms used in this subpart may be found in the applicable laws and regulations cited in § 4284.908, in particular 2 CFR part 200. If a term is defined differently in an applicable regulation and in this subpart, such term shall have the meaning as found in this subpart.

Agency means the Rural Business-Cooperative Service (RBCS or the Agency), an agency of the United States Department of Agriculture (USDA or the Department), or a successor agency.

Agricultural Commodity means an unprocessed product of Farms, Ranches, nurseries, and forests and natural and man-made bodies of water, that the Agricultural Producer has cultivated, raised, or harvested with legal access rights. Agricultural Commodities include plant and animal products and

their by-products, such as crops, forestry products, hydroponics, nursery stock, aquaculture, meat, on-Farm generated manure, and fish and seafood products. Agricultural Commodities do not include animals raised or sold as pets, such as cats, dogs, and ferrets.

Agricultural Food Product refers to raw, cooked, or processed edible substances, beverages, or ingredients intended for human consumption.

Agricultural Producer, Independent Producer or Producer means a for-profit agricultural business, or entity that is 100 percent owned and controlled by an individual, entity or Family Farm that produces an Agricultural Commodity through participation in the day-to-day labor, management, and field operations; or that has the legal right to harvest an Agricultural Commodity that is the subject of the VAPG Project.

Agricultural Producer Group means a non-profit membership organization that represents Agricultural Producers and whose mission includes working on behalf of Agricultural Producers and more than 50 percent of whose membership and board of directors is comprised of Agricultural Producers.

Applicant means the legal entity and/or owner(s) of the legal entity (regardless of ownership percentage), submitting an application to participate in the competition for program funding.

Beginning Farmer or Rancher means an Agricultural Producer (other than a Harvester) that has operated a Farm or Ranch for no more than 10 years or an eligible Applicant entity that has an ownership or membership of more than 50 percent farmers or ranchers each of whom have operated a Farm or Ranch for no more than 10 years.

Business Plan means a formal statement of a set of business goals, the reasons why they are believed attainable, and the plan for reaching those goals, including Pro Forma Financial Statements appropriate to the term and scope of the Project and sufficient to evidence the viability of the Project. It may also contain background information about the organization or team attempting to reach those goals.

Change in Physical State means an irreversible processing activity that alters the Agricultural Commodity into a substantially different, marketable Value-Added Agricultural Product. This processing activity must be something other than a post-harvest process that primarily acts to preserve the commodity for later sale.

Emerging Market means a developing, geographic or demographic market that has been supplied by the Applicant or the Applicant's product for two (2) years or less.

Equipment has the meaning located at 2 CFR 200.1.

Family Farm means a Farm or Ranch whose owner(s) are primarily responsible for daily physical labor, business and/or strategic management; whose hired help only supplements family labor; and whose owners are related by blood or marriage or are Immediate Family.

Farm or Ranch means any place from which $1,000 or more of Agricultural Commodities were raised and sold or would have been raised and sold during the previous year, but for an event beyond the control of the farmer or rancher.

Farm- or Ranch-Based Renewable Energy means renewable energy generated by use of an Agricultural Commodity on a Farm or Ranch, owned or leased by an Agricultural Producer, which provides the Agricultural Producer with an expanded customer base and increased revenues.

Farmer or Rancher Cooperative means a business owned and controlled by Agricultural Producers that is incorporated, or otherwise identified by the State in which it operates, as a cooperatively operated business. The Agricultural Producers, on whose behalf the value-added work will be done, must be identified by name or class.

Feasibility Study means a comprehensive analysis of the economic, market, technical, financial, and management capabilities of a Project or business in terms of the Project's expectation for success.

Fiscal Year means the Federal Government's fiscal year, October 1 of a given year through September 30 of the succeeding year.

Food Safety refers to conditions and practices that preserve the quality of food to prevent contamination and food-borne illnesses.

Harvester means an Agricultural Producer that can document legal rights to access and harvest the Agricultural Commodity that will be used for the Value-Added Agricultural Product. This does not include harvesting rights for cultivated commodities. Individuals and entities that merely glean, gather, or collect residual commodities that result from an initial harvesting or production of a primary Agricultural Commodity are not considered Harvesters and are not eligible for this program.

Independent Producer has the same meaning as Agricultural Producer in this section.

Immediate Family means individuals who are closely related by blood, marriage, or adoption, or live within the same household, such as a spouse, domestic partner, parent, child, brother, sister, aunt, uncle, grandparent, grandchild, niece, or nephew.

Key Personnel means the owners, employees, new hires, consultants, and/or contractors who will be overseeing and/or completing the tasks in the work plan.

Letter of Conditions means the letter that the Agency issues to an entity whose application is selected for funding. The letter outlines all of the conditions of the award that must be met before the award can be approved. Other agencies may call this letter an Award Letter or Award Notice.

Local or Regional Supply Network means an interconnected group of individuals and/or entities through which agricultural based products move from production through consumption in a local or regional area of a State.

Locally-Produced Agricultural Food Product refers to raw, cooked, or processed edible substances, beverages, or ingredients intended for human consumption that are raised, produced, and distributed in:

(1) The locality or region in which the final product is marketed, so that the total distance that the product is transported is less than 400 miles from the origin of the product; or

(2) The State in which the product is produced.

Majority-Controlled Producer-Based Business Venture refers to a venture greater than 50 percent of the ownership and control of which is held by—

(1) One or more Producers (Agricultural Producers); or

(2) One or more entities, 100 percent of the ownership and control of which is held by one or more Producers (Agricultural Producers). The term 'entity' means—

(i) A partnership;

(ii) A limited liability corporation;

(iii) A limited liability partnership; or

(iv) A corporation.

Market Expansion means a Project in which the Agricultural Producer Applicant seeks to expand the market either geographically or demographically for an existing Value-Added Agricultural Product produced and marketed by the Applicant for at least two (2) years at the time of the application through sales to demonstrably new markets or new customers in existing markets.

Marketing Plan means a plan for the Project that identifies a market window, potential buyers, a description of the distribution system and possible promotional campaigns.

Matching Funds means a cost-sharing contribution to the Project that is at least equal to the grant amount. Combined grant and Matching Funds equal 100 percent of the Project Costs.

Medium-Sized Farm or Ranch means a Farm or Ranch that is structured as a Family Farm that has averaged $500,001 to $1,000,000 in annual gross sales of Agricultural Commodities in the previous three (3) years.

Mid-Tier Value Chain refers to local and regional supply networks that link Agricultural Producers with businesses, cooperatives, or consumers that market Value-Added Agricultural Products in a manner that:

(1) Targets and strengthens the profitability and competitiveness of Small- and Medium-Sized Farms or Ranches that are structured as a Family Farm; and

(2) Obtains agreement from an eligible Agricultural Producer Group, Farmer or Rancher Cooperative, or Majority-Controlled Producer-Based Business Venture that is engaged in the value chain on a marketing strategy.

Period of Performance has the meaning located at 2 CFR 200.1.

Physical Segregation means separating an Agricultural Commodity or product on the same Farm from other varieties of the same commodity or product on the same Farm during production and harvesting, with assurance of continued separation from similar commodities during processing and marketing in a manner that results in the enhancement of the value of the separated commodity or product.

Planning Grant means a grant to facilitate the development of a defined program of economic planning activities to determine the viability of a potential value-added Project, and specifically for the purpose of paying for conducting and developing a Feasibility Study, Business Plan, and/or Marketing Plan associated with the processing and/or marketing of a Value-Added Agricultural Product.

Produced in a Manner that Enhances the Value of the Agricultural Commodity refers to the use of a recognizably coherent set of agricultural production practices in the growing or raising of the Agricultural Commodity, such that a differentiated market identity is created for the resulting product.

Producer has the same meaning as Agricultural Producer in this section.

Pro forma Financial Statement means a financial statement that projects the future financial position of a company. The statement is part of the Business Plan and includes an explanation of all assumptions, such as input prices, finished product prices, and other economic factors used to generate the financial statements. The statement must include projections for a minimum of three (3) years in the form of cash flow statements, income statements, and balance sheets.

Program Income has the meaning located at 2 CFR 200.1.

Project means all of the eligible activities to be funded by the grant and Matching Funds.

Project Cost has the meaning located at 2 CFR 200.1.

Qualified Consultant means a third-party, without a conflict of interest, possessing the knowledge, expertise, and experience to perform the specific task required in an efficient, effective, and authoritative manner.

Recipient has the meaning located at 2 CFR 200.1.

Rural Development (RD) means a mission area within USDA, which includes the Rural Housing Service, Rural Utilities Service, and RBCS.

Small-Sized Farm or Ranch means a Farm or Ranch that is structured as a Family Farm that has averaged $500,000 or less in annual gross sales of Agricultural Commodities in the previous three (3) years.

Socially-Disadvantaged Farmer or Rancher means a farmer or rancher who is a member of a Socially-Disadvantaged Group.

Socially-Disadvantaged Group means a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of a group without regard to their individual qualities.

State means any of the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Steering Committee means an unincorporated group comprised wholly of specifically identified Agricultural Producers in the process of organizing one of the program eligible Applicant types.

TTB Permit means a permit issued by the Alcohol and Tobacco Tax and Trade Bureau (TTB), U.S. Department of the Treasury, granting approval to operate a TTB-regulated alcohol business.

Value-Added Agricultural Product means any Agricultural Commodity produced in a State that:

(1) Meets one of the following methodologies:

(i) Has undergone a Change in Physical State;

(ii) Is Produced in a Manner that Enhances the Value of the Agricultural Commodity;

(iii) Is Physically Segregated in a manner that results in the enhancement of the value of the Agricultural Commodity;

(iv) Is a source of Farm- or Ranch-Based Renewable Energy, including E–85 fuel; or

(v) Is aggregated and marketed as a Locally Produced Agricultural Food Product; and

(2) As a result of the Change in Physical State or the manner in which the Agricultural Commodity was produced, marketed, or segregated:

(i) The customer base for the Agricultural Commodity is expanded; and

(ii) A greater portion of the revenue derived from the marketing, processing, or Physical Segregation of the Agricultural Commodity is available to the Producer of the commodity.

Veteran Farmer or Rancher means a farmer or rancher who has served in the Armed Forces, as defined in 7 U.S.C. 2279, and who either has not operated a Farm or Ranch or has operated a Farm or Ranch for not more than 10 years; or is a Veteran who first obtained status as a veteran during the most recent 10-year period.

Working Capital Grant means a grant to provide funds to operate a value-added Project, specifically to pay the eligible Project expenses related to the processing and/or marketing of the Value-Added Agricultural Product.

§ 4284.904 Exception authority.

Except as specified in paragraphs (a) and (b) of this section, the Administrator of the Agency may, on a case-by-case basis, grant an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal Government. Exercise of this authority cannot be in conflict with applicable law.

(a) *Applicant eligibility*. No exception to Applicant eligibility can be made.

(b) *Project eligibility*. No exception to Project eligibility can be made.

§ 4284.905 [Reserved]

§ 4284.906 Conflict of interest.

No conflict of interest or appearance of a conflict of interest will be allowed.

(a) *Description*. A conflict of interest occurs in a situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or entity to act impartially. For the purposes of this subpart, relationships that can involve a conflict of interest include, but are not limited to:

(1) Recipient owners, employees, officers, agents, consultants, and contractors.

(2) Immediate family members of those listed in paragraph (a)(1) of this section.

(b) *Written disclosure*. Recipients must comply with 2 CFR 400.2(b), which includes providing written disclosure of any potential conflicts of interest and maintaining written standards of conduct covering conflicts of interest and governing the performance of its employees in the selection, award, and administration of Federal Awards.

(c) *Assistance to employees, relatives, and associates*. The Agency will process any requests for assistance under this subpart in accordance with 7 CFR part 1900, subpart D.

(d) *Member/delegate clause*. No member of or delegate to Congress shall receive any share or part of this grant or any benefit that may arise therefrom. But, this provision shall not be construed to bar, as a contractor under the Federal award, a publicly held corporation whose ownership might include a member of Congress.

§ 4284.907 [Reserved]

§ 4284.908 Compliance with other laws and regulations.

The Agency, Applicants, and recipients must comply with all applicable laws and regulations. An effort has been made to identify the most-commonly cited laws and regulations and reference them as follows:

(a) *Federal laws*. Federal laws are codified in the United States Code (U.S.C.). A selection of applicable laws is identified as follows:

(1) Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*);

(2) The Civil Rights Act of 1964, Title VI (42 U.S.C. 2000d *et seq.*); and

(3) The Rehabilitation Act of 1973, Section 504 (29 U.S.C. 794).

(b) *Federal regulations*. Federal regulations are codified in the Code of Federal Regulations (CFR). A selection of applicable regulations is identified as follows:

(1) *2 CFR parts 1 through 200.* These parts address items such as universal identifiers, reporting subaward and executive compensation, debarment and suspension, drug-free workplaces, administrative requirements, cost principles, and audit requirements. We particularly encourage Applicants and Recipients to become familiar with 2 CFR part 200 in its entirety.

(2) *27 CFR part 1.* This part is applicable to Applicants that will produce and market value-added products in the industries of wine, beer, distilled spirits or other alcoholic merchandise.

(c) *Departmental regulations.* Departmental regulations are those regulations that are specific to awards made through USDA. They are codified in the CFR. A selection of applicable regulations is identified as follows:

(1) *2 CFR parts 400 through 499.* These parts include USDA's adoption of Federal administrative requirements and cost principles. They also include regulations on debarment and suspension, lobbying, drug-free workplaces, and research awards.

(2) *7 CFR part 11.* This part includes USDA's procedures for administrative appeals, as handled by its National Appeals Division.

(3) *7 CFR part 15d.* This part includes USDA's procedures for compliance with nondiscrimination laws and regulations. The Agency will not discriminate against Applicants on the basis of race, color, religion, national origin, sex, marital status, disability, or age (provided that the Applicant has the capacity to contract); because all or part of the Applicant's income derives from any public assistance program; or because the Applicant has in good faith exercised any right under the Consumer Credit Protection Act, 15 U.S.C. 1601 *et seq.*

(d) *Agency regulations.* Agency regulations are those regulations that are specific to awards made through the Agency and they may also be specific to a program. They are codified in the CFR. A selection of applicable regulations is identified as follows:

(1) *7 CFR part 1900.* This part covers delegations of authority, adverse decisions and administrative appeals, applicability of Federal law, and processing and servicing grant awards.

(2) *7 CFR part 1901, subpart E.* This subpart covers civil rights compliance requirements.

(3) *7 CFR part 1951.* This part covers servicing grant awards, including unauthorized assistance.

(4) *7 CFR part 1970.* This part covers environmental policies and procedures.

(5) *7 CFR part 990.* This part applies to Applicants who are proposing to produce, procure, supply or market any component of the hemp plant or hemp related by-products. Applicable Food and Drug Administration and Drug Enforcement Administration regulatory requirements must also be met.

(e) *Access to laws and regulations.* (1) Laws may be accessed through the U.S.C. At the time this subpart was published, the U.S.C. may be accessed electronically at this website: *https://uscode.house.gov/.*

(2) Regulations may be accessed through the CFR. At the time this subpart was published, the CFR may be accessed electronically at this website: *https://www.ecfr.gov/.*

§§ 4284.909–4284.915 [Reserved]

§ 4284.916 Reserved funds.

(a) The following reserved funds will be made available each Fiscal Year:

(1) 10 percent of total program funding to fund Projects that benefit Beginning Farmers or Ranchers or Socially-Disadvantaged Farmers or Ranchers; and

(2) 10 percent of total program funding to fund Projects where a majority of the requested grant amount goes to improving Food Safety for the purpose of enhancing market access; and

(3) 10 percent of total program funding to fund Projects that propose development of Mid-Tier Value Chains.

(b) Reserved funds not obligated by September 30 of each Fiscal Year shall be available to the Secretary in the next Fiscal Year to make grants under this subpart to eligible Applicants in the general funds competition.

§§ 4284.917–4284.919 [Reserved]

§ 4284.920 Eligible Applicants.

Applicants are eligible for assistance through this program if all of the following requirements are met:

(a) *System for Award Management (SAM) registration, General Certifications and Representations and unique entity identifier (UEI).* At the time of application, each Applicant must have an active registration in SAM before submitting its application in accordance with 2 CFR part 25. This registration must remain current, accurate and complete at all times during which the Applicant has an active Federal award or an application under consideration. The Applicant must also obtain a UEI through *SAM.gov*.

(b) *Legal authority.* Applicants must certify that they have the legal authority to carry out the purpose of the grant, and/or their business is in good standing in the State where it is incorporated and/or in the State that is the primary location of an applicant's business operations for the VAPG Project.

(c) *Applicant type.* The Applicant meets the definition for one of the following Applicant types—Agricultural Producer, Agricultural Producer Group, Farmer or Rancher Cooperative, or Majority-Controlled Producer-Based Business Venture.

(1) *Agricultural Producer.* An Applicant applying as an Agricultural Producer must identify each owner member by name or class, provide the percentage of ownership of each owner member, and discuss how each owner member meets the definition of Agricultural Producer.

(i) A Steering Committee must apply as an Agricultural Producer and discuss how it intends to form a program-eligible legal entity prior to execution of the Financial Assistance Agreement by the Agency.

(ii) A Harvester must apply as an Agricultural Producer and document its legal right to access and harvest the Agricultural Commodity that will be used for the Value-Added Agricultural Product.

(2) *Agricultural Producer Group.* An Applicant applying as an Agricultural Producer Group must identify each Agricultural Producer member by name or class, provide the percentage of ownership of each member, discuss how each member meets the definition of Agricultural Producer, and discuss how the Applicant meets the definition of Agricultural Producer Group.

(3) *Farmer or Rancher Cooperative.* An Applicant applying as a Farmer or Rancher Cooperative must discuss how they meet the definition of Farmer or Rancher Cooperative.

(4) *Majority-Controlled Producer-Based Business Venture.* An Applicant applying as a Majority-Controlled Producer-Based Business Venture must discuss how it meets the definition of Majority-Controlled Producer-Based Business Venture.

(d) *Ownership and control.* (1) For the Project, the Applicant must produce and own more than 50 percent of the Agricultural Commodity to which value will be added. Agricultural Producers must maintain ownership of the Agricultural Commodity or product from its raw state through the production and marketing of the Value-Added Agricultural Product. All Applicants applying for Working Capital Grant funds must document the quantity of each Agricultural Commodity that will be used for the Value-Added Agricultural Product, expressed in an appropriate unit of measure (pounds, tons, bushels, etc.) to demonstrate the scale of the Applicant's Project. This quantification must include an estimated total quantity of each Agricultural Commodity needed for the Project, the quantity that will be provided (produced and owned) by the Agricultural Producers of the Applicant organization, and the quantity that will be purchased or donated from third-party sources.

(2) Applicants who produce the Agricultural Commodity under contract for another entity, but do not own the Agricultural Commodity or Value-Added Agricultural Product produced, are not considered Agricultural Producers. Entities that contract out the production of an Agricultural Commodity are not considered Agricultural Producers. Agricultural Producer entities must confirm their owner members as eligible and must identify them by name or class.

(3) The Agency will determine the Agricultural Producer status of Tribes or Tribal entities without regard to ownership of the commodity to which value will be added so long as the Tribal member participant, Tribal entity and/or Tribe own and control more

than 50 percent of the Agricultural Commodity necessary for the Project.

(e) *Emerging Market*. An Applicant that is an Agricultural Producer Group, a Farmer or Rancher Cooperative, or a Majority-Controlled Producer-Based Business Venture must demonstrate that it is entering into an Emerging Market as a result of the Project. An Agricultural Producer Applicant type that has produced and marketed the Value-Added Agricultural Product for less than two (2) years must also demonstrate that it is entering an Emerging Market.

(f) *Citizenship*. An Applicant must certify that it is more than 50 percent owned by individuals who are either a citizen or national of a State or reside in the United States after legal admittance for permanent residence.

(g) *Multiple grants*. An Applicant must submit only one application in response to a solicitation and may have only one active VAPG award at any given time unless the Applicant is also applying as a member of a Farmer or Rancher Cooperative or an Agricultural Producer Group. In addition, the following restrictions apply:

(1) Applicants who have already received a Planning Grant for the Project cannot receive another Planning Grant for the same Project; and

(2) Applicants who have already received a Working Capital Grant for the Project cannot receive any additional grants for that Project.

(h) *Current VAPG award*. If an Applicant has a current VAPG award at the time of subsequent competition, the Applicant must exhaust all VAPG award funds and submit final financial and performance reports to the Agency by the application submission deadline for the subsequent VAPG competition. If VAPG award funds will not be spent by the subsequent VAPG application submission deadline, the Applicant must request a cancellation of the current VAPG award prior to the subsequent application submission deadline.

§ 4284.921 Ineligible Applicants.

Applicants are ineligible for assistance through this program if one or more of the following has occurred:

(a) The Applicant is debarred or suspended or is otherwise excluded from, or ineligible for participation in, Federal assistance programs under Executive Order 12549, ''Debarment and Suspension.''

(b) An outstanding judgement has been obtained against the Applicant by the United States in a Federal court (other than U.S. Tax Court).

(c) The Applicant is delinquent on the payment of Federal income taxes or is delinquent on Federal debt.

(d) The Applicant has been convicted of a felony criminal violation under any Federal law within the past 24 months.

(e) The Applicant has unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

(f) The Applicant submits multiple applications from separate entities, owners, and/or owner(s) of the legal entity (regardless of ownership percentage), or from a parent, subsidiary or affiliated organization (with ''affiliation'' defined by the Small Business Administration regulation 13 CFR 121.103, or successor regulation) during the same grant cycle. This is not applicable to Applicants who are also applying as a member of a Farmer or Rancher Cooperative or an Agricultural Producer Group.

§ 4284.922 Project eligibility.

Eligible Projects must meet all of the following requirements. Failure to meet one or more of these requirements means that the application will not be eligible for funding.

(a) *Project focus*. The Project must focus on allowable Planning or Working Capital Grant activities as described at § 4284.925, as applicable, with eligible tasks directly related to the processing and/or marketing of the subject Value-Added Agricultural Product.

(b) *Project type*. The Project must fit one of the following purposes:

(1) Emerging Market Project as defined in § 4284.903.

(2) Market Expansion Project as defined in § 4284.903.

(3) Food Safety Project as defined in § 4284.903.

(c) *Product(s).* Each product that is the subject of the Project must meet the definition of a Value-Added Agricultural Product. The Applicant must be currently producing the Agricultural Commodity for each Value-Added Agricultural Product that is the subject of the Project. All Applicants seeking Working Capital Grant funds must also be marketing the subject Value-Added Agricultural Product(s) or ready to implement the Working Capital Grant activities in accord with the budget and work plan timeline.

(d) *Amount requested.* The amount requested must not exceed any maximum amounts specified in the annual notification issued on the program website, per § 4284.930.

(e) *Period of Performance.* The Period of Performance cannot exceed three (3) years.

(f) *Matching Funds.* Matching Funds must come from eligible sources without a real or apparent conflict of interest and be used for eligible Project expenses during the Period of Performance. Matching Funds must be confirmed and provided in the form of:

(1) Applicant or third-party cash;

(2) Applicant loan, or line of credit;

(3) Non-Federal grant sources (unless otherwise provided by law); or

(4) Applicant, family member, or third-party in-kind contribution.

(i) In-kind contributions must be appropriately valued with an adequate explanation of the basis for the valuation (*e.g.,* reference comparable market values, salary and wage data, expertise or experience of the contributor, per unit costs, industry norms).

(ii) Applicant in-kind contributions may include the value of the Agricultural Commodity inventory to be used in the Project and can be used to satisfy up to 100 percent of the Matching Funds requirement. Third-party in-kind contributions of the Agricultural Commodity inventory to be used in the Project can be used to satisfy up to 49 percent of the Matching Funds requirement.

(iii) Applicant in-kind contributions may also include Applicant or family time spent on eligible tasks; however, the valuation cannot exceed 50 percent of the Matching Funds required for the Project. Final valuation for Applicant or family member in-kind contributions is at the discretion of the Agency.

§ 4284.923 Reserved funds eligibility.

Applicants must meet the applicable requirements in this section to compete for reserved funds.

(a) *Beginning Farmer or Rancher.* Applicants must demonstrate that they meet the definition of a Beginning Farmer or Rancher. The Applicant must self-certify that more than 50 percent of its owners are a Beginning Farmer or Rancher.

(b) *Socially-Disadvantaged Farmer or Rancher.* Applicants must demonstrate that an individual or individuals that qualify as a Socially-Disadvantaged Farmer or Rancher own more than 50 percent of the Applicant Farm or Ranch organization. Applicants must provide a self-certification from the individual owner(s) indicating they are a member of a Socially-Disadvantaged Group.

(c) *Food Safety.* If the Applicant is applying for Food Safety reserved funds, the Applicant must describe the need or requirement for training, certifications, and/or supplies and equipment. This reserve is for Applicants where more than 50 percent of the Project Cost is for post-harvest Food Safety purposes related to the processing and/or marketing of a Value-Added Agricultural Product.

(d) *Mid-Tier Value Chain.* The Applicant must:

(1) Provide documentation demonstrating that the Project meets the definition of Mid-Tier Value Chain;

(2) Demonstrate that the Project proposes development of a Local or Regional Supply Network of an interconnected group of entities (including nonprofit organizations, as appropriate) through which Agricultural Commodities and Value-Added Agricultural Products move from production through consumption in a local or regional area of a State, including a description of the network, its component members, either by name or by class, and its purpose. Applicant ownership of the Agricultural Commodity and Value-Added Agricultural Product from raw through value-added stages is not necessarily required;

(3) Describe at least two alliances, linkages, or partnerships within the value chain that link Agricultural Producers with businesses, cooperatives, or consumers that market value-added Agricultural Commodities or Value-Added Agricultural Products in a manner that benefits Small- or Medium-Sized Farms and Ranches that are structured as a Family Farm, including the names of the parties and the nature of their collaboration;

(4) Demonstrate how the Project, due to the manner in which the Value-Added Agricultural Product is marketed, will increase the profitability and competitiveness of at least two eligible, Small- or Medium-Sized Farms or Ranches that are structured as a Family Farm, including a description of the two Farms or Ranches confirming they meet the Family Farm definition;

(5) Document that the eligible Agricultural Producer Group/Farmer or Rancher Cooperative/Majority-Controlled Producer-Based Business Venture Applicant organization has obtained at least one agreement with another member of the supply network that is engaged in the value chain on a marketing strategy; or that the eligible Agricultural Producer Applicant has obtained at least one agreement from an eligible Agricultural Producer Group/Farmer or Rancher Cooperative/Majority-Controlled Producer-Based Business Venture engaged in the value-chain on a marketing strategy;

(i) For Planning Grants, agreements may include letters of commitment or intent to partner on marketing, distribution or processing; and should include the names of the parties with a description of the nature of their collaboration. For Working Capital Grants, demonstration of the actual existence of the executed agreements is required; and

(ii) Agricultural Producer Applicants must provide documentation to confirm that the non-Applicant Agricultural Producer Group/Farmer or Rancher Cooperative/majority-controlled partnering entity meets program eligibility definitions, except that, in this context, the partnering entity does not need to supply any of the Agricultural Commodity for the Project;

(6) Demonstrate that the members of the Applicant organization that are benefiting from the Project currently own and produce more than 50 percent of the Agricultural Commodity that will be used for the Value-Added Agricultural Product that is the subject of the Project; and

(7) Demonstrate that the Project will result in an increase in customer base and an increase in revenue returns to the Applicant Producers supplying more than 50 percent of the Agricultural Commodity for the Project.

§4284.924 Priority points eligibility.

Applicants that demonstrate eligibility may apply for priority points if their applications: propose Projects that contribute to increasing opportunities for Beginning Farmers or Ranchers, Socially-Disadvantaged Farmers or Ranchers, Veteran Farmers or Ranchers, or operators of Small- or Medium-Sized Farms or Ranches that are structured as a Family Farm or propose Mid-Tier Value Chain Projects; or are a Farmer or Rancher Cooperative. A Harvester is eligible for priority points only if the Harvester is proposing a Mid-Tier Value Chain Project.

(a) Applicants seeking priority points as Beginning Farmers or Ranchers or as Socially Disadvantaged Farmers or Ranchers must provide certifications specified in §4284.923(a) or (b), as applicable.

(b) Applicants seeking priority points as Veteran Farmers or Ranchers must provide a self-certification that they meet the definition of a Veteran Farmer or Rancher.

(c) Applicants seeking priority points as operators of Small- or Medium-Sized Farms or Ranches that are structured as a Family Farm must provide a self-certification that they meet the definition of a Small- or Medium-Sized Farm or Ranch that is structured as a Family Farm; that the owners meet the definition of Immediate Family and are primarily responsible for the daily physical labor and management of the Farm or Ranch with hired help merely supplementing the family labor.

(d) Applicants seeking priority points for Mid-Tier Value Chain Projects

must be one of the four eligible Applicant types and provide the documentation specified in § 4284.923(d)(1) through (7), demonstrating that the Project meets the Mid-Tier Value Chain definition.

(e) Applicants seeking priority points for a Farmer or Rancher Cooperative must:

(1) Demonstrate that it is a business owned and controlled by Agricultural Producers that is legally incorporated as a cooperative; or that it is a business owned and controlled by Agricultural Producers that is not legally incorporated as a cooperative, but is identified by the State in which it operates as a cooperatively operated business;

(2) Identify by name or class, and confirm that the Agricultural Producers on whose behalf the value-added work will be done meet the definition requirements for an Agricultural Producer, including that each member is an individual Agricultural Producer, or an entity that is solely owned and controlled by Agricultural Producers, that substantially participates in the production of more than 50 percent of the Agricultural Commodity to which value will be added; and

(3) Provide a self-certification statement that the entity is owned and controlled by Agricultural Producers that are incorporated, or otherwise identified by the State in which they operate, as a cooperatively owned business(es); that the owner(s)/member(s) substantially participate in the production of more than 50 percent of the Agricultural Commodity to which value will be added; is in ''good standing'' as a cooperatively operated business in the State of incorporation or operations, as applicable.

(f) Applicants applying as Agricultural Producer Groups, Farmer or Rancher Cooperatives, or Majority-Controlled Producer-Based Business Ventures (group Applicants) may request additional priority points for Projects that ''best contribute to creating or increasing marketing opportunities'' for operators of Small- and Medium-Sized Farms and Ranches that are structured as Family Farms, Beginning Farmers and Ranchers, Socially-Disadvantaged Farmers and Ranchers, and Veteran Farmers and Ranchers. See § 4284.940(c)(6) for instructions and documentation requirements for group Applicants to apply for these additional priority points.

§ 4284.925 Allowable uses of grant and Matching Funds.

(a) *Planning grants.* Funds may only be used to pay a Qualified Consultant to conduct and develop a Feasibility Study, Business Plan, and/or Marketing Plan associated with the post-harvest processing and/or marketing of a Value-Added Agricultural Product.

(b) *Working capital grants.* Funds may be used to pay the Project's eligible post-harvest operational costs directly related to the processing and/or marketing of the Value-Added Agricultural Product. Examples of eligible working capital expenses include purchasing a financial accounting system for the Project; paying salaries of employees (excluding owners and Immediate Family) to process and/or market and deliver the Value-Added Agricultural Product to consumers; paying for additional Agricultural Commodity inventory (less than 50 percent of the amount required for the Project) from an unaffiliated third party, necessary to produce the Value-Added Agricultural Product; paying for a marketing campaign for the Value-Added Agricultural Product; paying costs incurred in obtaining post-harvest Food Safety certification; and using up to $6,500 of the amount of a grant to purchase or upgrade post-harvest Equipment to improve Food Safety.

§ 4284.926 Unallowable uses of grant and Matching Funds

(a) Unallowable uses of grant and Matching Funds awarded under this subpart include, but are not limited to:

(1) Support costs for services or goods going to or coming from a person or entity with a real or apparent conflict of interest, such as paying the salary of an Immediate Family member of a Recipient owner, employee, officer, or Agency, except as specifically noted for in-kind Matching Funds in § 4284.922;

(2) Pay costs for scenarios with non-competitive trade practices;

(3) Plan, repair, rehabilitate, acquire, or construct a building or facility (including a processing facility);

(4) Purchase, lease purchase, or install fixed Equipment, including processing Equipment, except as specifically noted in § 4284.925(b);

(5) Purchase or repair vehicles, including boats;

(6) Pay for the preparation of the grant application;

(7) Pay expenses not directly related to the funded Project for the processing and marketing of the Value-Added Agricultural Product;

(8) Fund research and development;

(9) Fund any activities prohibited by 2 CFR parts 200 through 400, and 48 CFR part 31, subpart 31.2;

(10) Fund architectural or engineering design work;

(11) Fund expenses related to the production of any Agricultural Commodity or product, including, but not limited to production planning, purchase of seed or rootstock or other production inputs, labor for cultivation or harvesting crops, labor for repotting and/or maintenance of live plants, and delivery of Agricultural Commodity to a processing facility;

(12) Conduct activities on behalf of anyone other than a specifically identified Agricultural Producer or group of Agricultural Producers, as identified by name or class. The Agency considers conducting industry-level Feasibility Studies or Business Plans, that are also known as Feasibility Study templates or guides or Business Plan templates or guides, to be ineligible because the assistance is not provided to a specific group of Agricultural Producers;

(13) Duplicate activities charged to another Federal award or previous VAPG Planning or Working Capital Grant Project by an Applicant;

(14) Pay any costs of the Project incurred prior to the date of grant approval, including legal or other expenses needed to incorporate or organize a business;

(15) Pay any judgment or debt owed to the United States;

(16) Purchase or improve real property;

(17) Pay for costs associated with illegal activities;

(18) Purchase the Agricultural Commodity to which value will be added from the Applicant entity; Applicant-owned or related entity, or members of the Applicant entity;

(19) Use Planning Grant funds to evaluate the agricultural production of the commodity itself, or compensate Applicants or family members for participation in Feasibility Studies; or

(20) Indirect Costs.

(b) Applications that propose unallowable costs in excess of 10 percent of Project Costs will be deemed ineligible to compete for funds. Applicants who submit applications containing ineligible expenses totaling less than 10 percent of Project Costs must remove those expenses from the Project budget or replace with eligible expenses, if selected for an award.

§ 4284.927 [Reserved]

§ 4284.928 Funding limitations.

(a) Grant funds may be used to pay up to 50 percent of the Project Costs, subject to the limitations established for the maximum total grant amount.

(b) The maximum grant amount provided to a Recipient in any one (1) year shall not exceed the amount announced in an annual notification issued on the program website pursuant to § 4284.930, but in no event may the total amount of grant funds provided to a grant Recipient exceed $500,000.

(c) The aggregate amount of awards to Majority-Controlled Producer-Based Business Ventures may not exceed 10 percent of the total funds obligated under this subpart during any Fiscal Year.

(d) Not more than 2.5 percent of funds appropriated each year may be used to fund the Agricultural Marketing Resource Center, to support electronic capabilities to provide information regarding research, business, legal, financial, or logistical assistance to Agricultural Producers and processors.

§ 4284.929 [Reserved]

§ 4284.930 Notifications.

The Agency will issue any public notifications on the program website.

(a) *Amount of funding available.* The Agency will publish the amount of

funding available for awards during each Fiscal Year within 30 calendar days of notification from OMB of the amount available.

(b) *Administrator/State Director points.* The Agency will publish the priority categories to be used for awarding Administrator or State Director points no later than the date the application period opens. Priority categories may include any of the following:

(1) Unserved or underserved areas;

(2) Geographic diversity;

(3) Emergency conditions; or

(4) Priority Department and mission area priorities, goals, and objectives.

(c) *Other.* The Agency will publish any other additional requirements or programmatic changes no later than the date the application period opens.

§ 4284.931 Application requirements.

All applications must include the following items:

(a) *Application forms.* The application must include the following forms (or their successor) and any additional forms listed in the annual notification for the program.

(1) *SF–424, ''Application for Federal Assistance.''* This form must be filled out completely and signed by an authorized representative of the Applicant organization.

(2) *SF–424A, ''Budget Information-Non-Construction Programs.''* This form must be filled out completely.

(b) *Executive summary.* Applications must include a one-page executive summary containing the legal name of the Applicant entity, application type (Planning or Working Capital Grant), Applicant type, amount of grant request, a Project summary, whether a simplified application is being submitted, and must explicitly state whether reserved funds are being requested.

(c) *Eligibility discussion.* The Applicant must discuss how:

(1) Applicant eligibility requirements in § 4284.920 are met;

(2) Project eligibility requirements in § 4284.922 are met; and

(3) Allowable use of grant and Matching Funds requirements in § 4284.925 are met.

(d) *Proposal evaluation criteria.* Applicants for both Planning and Working Capital Grants must address each proposal evaluation criterion identified in § 4284.940 in narrative form.

(e) *Certification of Matching Funds.* Applicants must certify that:

(1) Matching Funds will be spent in advance of grant funding, such that for every dollar of grant funds disbursed, not less than an equal amount of Matching Funds will have been expended prior to submitting the request for reimbursement; and

(2) If Matching Funds are proposed in an amount exceeding the grant amount, those Matching Funds must be spent at a proportional rate equal to the match-to-grant ratio identified in the budget.

(f) *Reserved funds/priority points documentation.* Applicants must identify their priority category, as applicable, and provide the required supporting documentation indicated in §§ 4284.923 and 4284.924 for that category to demonstrate eligibility.

(g) *Business Plan.* For Working Capital Grant applications, Applicants must provide a copy of the Business Plan that was completed for the value-added Project, except as provided for in § 4284.932. The Agency must concur in the acceptability or adequacy of the Business Plan.

(h) *Feasibility Study.* Applicants for Working Capital Grants must provide a copy of a Feasibility Study prepared by a Qualified Consultant that was completed for the value-added Project, except as provided for at § 4284.932. The name and credentials of the Qualified Consultant must be provided along with the date the Feasibility Study was completed. The Feasibility Study must demonstrate a viable Project with a likelihood of success and be a thorough assessment of the practicality of the Project. The thorough assessment must include an analysis of the proposed Project that discusses its strengths and weaknesses, potential opportunities and threats, and resources required to carry it out. The Agency must concur in the acceptability or adequacy of the Feasibility Study and whether the Qualified Consultant who prepared the Feasibility Study possesses the necessary knowledge, expertise, and experience.

(i) *Customer Base and Revenue Increase Metrics.* Applicants must include a discussion on how their Project will result in an expanded market to new customers and increased revenue to the Agricultural Producer Applicant. Working Capital Grant Applicants must also provide estimates for increases in customer base and revenue returns and must include a description of the direct or indirect producer or food business benefits intended by the eligible entity to result from the proposed Project within a reasonable period of time after the receipt of a grant.

§ 4284.932 Simplified application.

Applicants that will submit an application where paragraphs (a), (b), and/or (c) of this section apply may submit a simplified application, which means submission of a Feasibility Study or Business Plan for the Project is not required. The waiver of the requirement to submit a Feasibility Study and Business Plan does not change the proposal evaluation or scoring criteria that pertain to issues that might be supported by a Feasibility Study or Business Plan, so Applicants are encouraged to thoroughly document applications with their Project plans and expectations for success. All other eligibility requirements remain the same.

(a) *Working Capital Grant request of less than $50,000.* Applicants requesting less than $50,000 may submit a Market Expansion or Emerging Market simplified application. These types of applications must provide adequate documentation to demonstrate the expected increases in customer base and revenues resulting from the Project that will benefit the Applicant(s) supplying more than 50 percent of the Agricultural Commodity for the Project.

(b) *Market Expansion request of $50,000 or more.* Agricultural Producers who can demonstrate that their Project meets the definition of Market Expansion, may submit a simplified application. Applicants must submit a Marketing Plan with their simplified application. However, a Business Plan may be submitted in lieu of a Marketing Plan. Agricultural Producer Group, Farmer or Rancher Cooperative, and Majority-Controlled Producer-Based Business Venture applicant types are not eligible for Market Expansion Projects.

(c) *Food Safety.* Applicants that will submit an application where more than 50 percent of the Project Costs will be used for post-harvest Food Safety purposes related to the processing and/or marketing of a Value-Added Agricultural Product may submit a simplified application.

§ 4284.933 Submission requirements.

Unless otherwise specified in a notification issued under § 4284.930, the following requirements apply to all applications.

(a) *Submission period.* (1) The application period opens November 1. Applications received prior to the opening date in a given Fiscal Year will automatically be considered ineligible and will not be evaluated further.

(2) The application period closes on February 15. Applications received after the closing date will not be considered for funding. Thus, applicants are encouraged to submit their applications well in advance of the closing date to ensure timely receipt by the Agency. Revisions or additional information will not be accepted after the application period closes on February 15.

(b) *Submission process.* All items required for the application must be submitted in a single application. No attachments other than the required items will be considered. Incomplete applications will automatically be considered ineligible and will not be evaluated further. The annual notification for the program will be published on the OMB-designated governmentwide website and will provide instructions on how and where to submit completed applications for VAPG funding.

§§ 4284.934–4284.939 [Reserved]

§ 4284.940 Application processing.

(a) *Eligibility evaluation.* The Agency will review all applications to determine if they are eligible for assistance based on the requirements in this subpart and other applicable Federal laws and regulations. An application must include all application requirements identified in § 4284.931, or the Agency

will determine that it is not eligible for assistance.

(b) *Risk evaluation.* (1) The Agency will review those applications that are determined to be eligible for the program for risk based on the following information. Typically, the Agency will not determine that an application is ineligible for funding based on the results of the risk evaluation, unless the Agency cannot find a way to reasonably mitigate the risk posed by making an award. However, if risk evaluation findings identify significant shortcomings in the Applicant's ability to manage Federal funds, the Agency may determine that the application is not eligible for funding.

(2) The Agency will determine if the Applicant has satisfactory performance for all Federal awards received in the last five (5) years, based upon review of deficiencies reported in the Federal Awardee Performance and Integrity Information System, or its successor system, the Do Not Pay system, or its successor system, and the Agency's own internal financial and record-keeping systems and files. Satisfactory performance includes timely submission of required reports and documents, timely completion of tasks, and proper use of funds.

(c) *Merit evaluation.* The Agency will conduct a merit evaluation for those applications that are determined to be eligible for the program. The maximum number of points that will be awarded to an application is 100 points. The Agency's annual notification will provide additional instructions to assist Applicants when responding to the criteria in paragraphs (c)(1) through (7) of this section. The merit evaluation will be based on the following criteria, but may be amended at the Agency's discretion:

(1) *Nature of the proposed venture (0 to 30 points).* Applicants must describe the technological feasibility, operational efficiency, and profitability and economic sustainability of the Project. Applications that demonstrate a high likelihood of success in these areas will receive higher points. In response to this criterion, Working Capital Grant Applicants must provide accurate and factual information for the Project that demonstrates a viable Project ready to be implemented upon award. Planning Grant Applicants only need to discuss anticipated needs and expected outcomes for the Project.

(i) Technological feasibility should include discussion of the value-added process; the Applicant's expectations for sufficient Agricultural Commodity as well as the value to be added to the Agricultural Commodity through the value-added process; potential markets and distribution channels; Applicant's experience in marketing the proposed or similar product; and any other relevant information that supports the feasibility of the Project.

(ii) Operational efficiency should include discussion of the cost of inputs; cost of processing commodity; sufficient labor and expertise; use of own facility, shared space, or contracted processing; adequate processing equipment; and logistics for storage, distribution, transportation, and/or shipping of the Value-Added Agricultural Product. Applicants should also address any anticipated challenges or risks associated with the Project.

(iii) Profitability and economic sustainability should include discussion of the market expansion strategy and break-even point analysis completed for the Project. Include a summary of historical financial and pro forma financial projections, as applicable, to support the viability of the Project. Other relevant sources such as a Business Plan or Feasibility Study may be cross-referenced.

(2) *Qualifications of Key Personnel (0 to 20 points).* Applicants must provide the qualifications and expertise of all identified Key Personnel. If staff or consultants have not been hired at the time of application, Applicants must provide specific descriptions of the qualifications required for the positions to be filled. Applications that demonstrate Key Personnel with strong credentials will receive higher points.

(3) *Work plan and budget (0 to 20 points).* Applicants must submit a comprehensive work plan and budget. Applications that provide a clear, comprehensive work plan detailing all Project goals, tasks, timelines, costs, and Key Personnel in a logical and realistic manner demonstrating a high

likelihood of success will receive higher points. The Project work plan and budget must demonstrate eligible sources and allowable uses of funds and must:

(i) Present a detailed narrative description of the eligible activities and tasks related to the processing and/or marketing of the Value-Added Agricultural Product along with a detailed breakdown of all estimated costs allocated to those activities and tasks;

(ii) Identify the Key Personnel that will be responsible for overseeing and/or completing the activities or tasks and provide reasonable and specific timeframes for completion of the activities and tasks;

(iii) Identify the sources and uses of grant and Matching Funds for all activities and tasks specified in the budget; and indicate that Matching Funds will be spent at a rate equal to or in advance of grant funds; and

(iv) Identify the basis of the valuation of the grant and Matching Funds for all activities and tasks specified in the budget.

(4) *Matching Funds commitment (up to 5 points).* Applications that demonstrate financial commitment in the form of cash matching contributions will receive more points. Applications with a higher percentage of cash match will receive more points.

(5) *Prior VAPG assistance (up to 5 points).* The Applicant must disclose the number of prior VAPG awards they have received. Applicants that have not received a VAPG award will receive more points.

(6) *Priority points (0 to 10 points).* Priority points may be awarded in both the general funds and the reserved funds competitions. Points will be awarded as follows:

(i) 5 priority points will be awarded if the Applicant meets the requirements for one of the following categories and provides the documentation described in §§ 4284.923 and 4284.924, as applicable: Beginning Farmer or Rancher, Socially-Disadvantaged Farmer or Rancher, Veteran Farmer or Rancher, or operator of a Small- or Medium-Sized Farm or Ranch that is structured as a Family Farm, Farmer or Rancher Cooperative, or are proposing a Mid-Tier Value Chain Project. Applicants will not be awarded more than five (5) points even if they qualify for more than one of the priority categories.

(ii) 5 additional priority points will be awarded if the Applicant is an Agricultural Producer Group, Farmer or Rancher Cooperative, or Majority-Controlled Producer-Based Business Venture whose Project ''best contributes to creating or increasing marketing opportunities'' for operators of Small- and Medium-Sized Farms or Ranches that are structured as Family Farms, Beginning Farmers or Ranchers, Socially-Disadvantaged Farmers or Ranchers, or Veteran Farmers or Ranchers.

(7) *Administrator/State Director priority categories (0 to 10 points).* Unless otherwise specified in a notification issued under § 4284.930, the Administrator of the Agency or State Director has discretion to award up to 10 points to an application to improve the geographic diversity of recipients in a Fiscal Year, fund unserved or underserved areas, assist areas experiencing emergency conditions, or prioritize Projects that advance the Department or Agency's key priorities, goals, and objectives. In the event of a national competition, the Administrator will award points and for a State-allocated competition, the State Director will award points.

§ 4284.941 Application withdrawal.

During the period between the submission of the application and award approval, the Applicant must notify the Agency if the Project is no longer viable or the Applicant is no longer requesting financial assistance for the Project. When the Applicant notifies the Agency, the application will be withdrawn from consideration for funding.

§§ 4284.942–4284.949 [Reserved]

§ 4284.950 Award selection.

(a) Applications will be selected for further processing and consideration of an award after the merit evaluation process is completed for all eligible applications. Each eligible application will be scored on criteria 1 through 6 as detailed in the annual notification. The scores will be ranked highest to lowest

and this will comprise the initial application ranking. Applications will be ranked solely on the points awarded by the reviewers, unless there is a tie. In that case, the Administrator of the Agency (or State Director) will break the tie at his or her discretion based on evaluation criterion 7.

(b) Applications for reserved funds will be funded in rank order until funds are depleted. Unfunded reserve applications will then compete for general funds where applications will be funded in rank order until available funds are expended or the minimum score for funding of 50 points is reached. Funding for Majority Controlled Producer-Based Business Ventures is limited to 10 percent of total grant funds expected to be obligated each funding cycle. These applications will be funded in rank order until the funding limitation has been reached.

(c) If an application cannot be fully funded, the Agency will offer partial funding to the extent funds are available. If the Applicant offered partial funding does not accept, the Agency will offer the funding to the next highest-ranked Applicant until an Applicant is found that accepts the funding or no additional eligible Applicants exist. If an application is ranked and not funded, it will not be carried forward into the next Fiscal Year competition.

§ 4284.951 Notification of successful Applicants.

(a) The Agency will notify the Applicants whose applications can be funded with a Letter of Conditions. The Letter of Conditions will provide the conditions under which an award can be approved as well as a copy of the term of the award. Applicants receiving a Letter of Conditions will have up to 90 calendar days to meet the conditions of the award. If the Applicant agrees with the conditions, the Applicant must complete an applicable Form RD 1942–46, Letter of Intent to Meet Conditions. If the Applicant believes that certain conditions cannot be met, the Applicant may propose alternate conditions to the Agency. The Agency must concur with any proposed changes to the Letter of Conditions by the Applicant before the application will be processed further. If the Agency agrees to any proposed changes, the Agency will issue a revised or amended Letter of Conditions that defines the final conditions under which the grant will be made. However, if an Applicant does not meet the conditions, the Agency will discontinue processing the application.

(b) All successful Applicants must complete the following additional forms and provide the following additional documentation:

(1) *Form RD 1942–46, ''Letter of Intent to Meet Conditions.''* Completion of this form confirms the Applicant's commitment to meeting the conditions of the award.

(2 *Form RD 400–4, ''Assurance Agreement.''* Completion of this form confirms the Applicant's commitment to complying with Federal laws and policies regarding prohibition of discrimination.

(3) *Form SF–LLL, ''Disclosure of Lobbying Activities.''* Completion of this form is only required for those entities that engage in lobbying activities.

(4) *Form RD 4280–2, ''Rural Business-Cooperative Service Financial Assistance Agreement.''* This form must be filled out completely and signed by an authorized representative of the Applicant organization and an authorized representative from the Agency for the grant award to be considered a valid agreement between the parties.

(5) *Performance evaluation criteria.* The overall goal of this program and the Projects it supports is to create and serve new markets, with a resulting increase in jobs, customer base and revenues returning to the Producer. Specific information must be provided about plans to track and evaluate progress toward these outcomes as a way for the Agency to determine whether or not the primary program goals and Project goals included in the work plan are likely to be accomplished during the Period of Performance as specified in § 4284.960.

(6) *Verification of Matching Funds.* Provide authentic documentation from the source to confirm the eligibility and availability of both cash and in-kind contributions that meet the requirements for Matching Funds in § 4284.922.

(7) *Valid permit/license.* If the Project will produce and market a Value-Added Agricultural Product in the industries of wine, beer, distilled spirits or other alcoholic merchandise, a valid TTB Permit must be provided. If the Project will market a Value-Added Agricultural Product made from hemp, a copy of a valid producer license issued by a State, Tribe, or USDA must be provided, as applicable in accordance with 7 CFR part 990. If the Applicant applied as a Harvester, the Applicant must provide executed copies of contracts, licensing or equivalent documentation establishing ''legal rights'' to access and harvest the subject Agricultural Commodity.

(8) *Organizational documents.* Provide a copy of Applicant's organizational documents that demonstrate legal authority and good standing such as bylaws, articles of incorporation or organization, and Letter or Certificate of Good Standing from your Secretary of State or equivalent agency. Sole Proprietors must submit a copy of their IRS tax forms showing farm income.

§ 4284.952 Notification of unsuccessful Applicants.

Applicants whose applications are not eligible for financial assistance or did not score high enough to be funded will be notified. The notification will be in writing using an adverse decision letter. This letter will outline the reason(s) for the Agency's decision and provide dispute resolution alternatives.

§§ 4284.953–4284.959 [Reserved]

§ 4284.960 Reporting requirements.

Recipients are required to submit financial reports and performance reports on a semiannual basis. Semiannual periods end on March 31st and September 30th. Reports are due 30 calendar days after the end of the semiannual period. A final financial report and performance report must also be submitted within 120 days after the expiration or termination of the grant. Failure to submit a performance report within the specified timeframes may result in the Agency withholding grant funds.

(a) *Financial reports.* Form SF–425, ''Federal Financial Report,'' must be used for financial reporting. Financial reports must also include evidence of receipt of Matching Funds. Recipients must complete the Project per the terms and conditions specified in the approved work plan and budget, the Financial Assistance Agreement, and Letter of Conditions. Recipients will expend funds only for eligible purposes and will be monitored by the Agency for compliance. Recipients must maintain a financial management system and property and procurement standards in accordance with 2 CFR parts 400 through 499.

(b) *Performance reports.* All performance reports must include a discussion on the performance benchmarks suggested in the application to determine whether the primary goals and objectives proposed in the approved work plan and budget were accomplished during the reporting period. In the section of the report that compares actual accomplishments to the objectives for that reporting period, objectives should be reported by specific task breakdown as described in the approved work plan and budget.

(1) For Working Capital Grant Projects, final performance reports must include the following metrics:

(i) Expansion of customer base as a result of the Project;

(ii) Increased revenue returned to the Producer as a result of the Project; and

(iii) Jobs created or saved as a result of the Project.

(2) For all Projects, we may request additional information, including but not limited to, the following:

(i) Information that will enable evaluation of the economic impact of program awards, such as:

(A) Business starts and clients served; and

(B) Data associated with Producer market expansion, new market penetration, and changes in customer base or revenues.

(ii) Information that would promote greater understanding of the key determinants of the success of individual Projects or inform program administration and evaluation, such as:

(A) The Producer's experience related to financial management, budgeting, and running a business enterprise;

(B) The nature of, and advantages or disadvantages of, supply chain arrangements or equitable distribution of rewards and responsibilities for Mid-Tier Value Chain Projects; and

(C) Recommendations from Beginning Farmers or Ranchers, Socially-Disadvantaged Farmers or Ranchers, and/or Veteran Farmers or Ranchers.

(iii) Information that would inform or enable the aggregation of data for program administration or evaluation purposes.

(3) If any special conditions have been placed on the use of award funds, compliance with those conditions must be discussed in each performance report.

§ 4284.961 Grant monitoring.

Awards will be monitored by Agency personnel in accordance with applicable laws, regulations, and policies (see § 4284.908 for more information). The Agency may terminate or suspend the award for lack of adequate or timely progress, reporting, documentation, or for failure to comply with Agency requirements.

§ 4284.962 Transfer of obligations.

At the discretion of the Agency and on a case-by-case basis, an obligation of funds established for an Applicant may be transferred to a different (substituted) Applicant provided:

(a) The substituted Applicant:

(1) Is eligible;

(2) Has a close and genuine relationship with the original Applicant; and

(3) Has the authority to receive the assistance approved for the original Applicant.

(b) The Project continues to meet all product, purpose, and reserved funds eligibility requirements so that the need, purpose(s), and scope of the Project for which the Agency funds will be used remain substantially unchanged.

§§ 4284.963–4284.999 [Reserved]

§ 4284.1000 OMB control number.

The reporting and recordkeeping requirements contained in this subpart have been approved by the OMB and have been assigned OMB control number 0570–0064 in accordance with the Paperwork Reduction Act of 1995.

Subpart K—Agriculture Innovation Center Demonstration Program

SOURCE: 89 FR 75789, Sept. 16, 2024, unless otherwise noted.

§ 4284.1001 Purpose.

This subpart implements the Agriculture Innovation Center Demonstration (AIC) program. Through the AIC program, the Agency makes grants to Centers that provide Producer Services to Agricultural Producers seeking to develop and market Value-Added Agricultural Products.

§ 4284.1002 Organization of subpart.

The information in this subpart is organized into seven main topics:

(a) *General information.* Sections 4284.1001 through 4284.1019 discuss the purpose of the program, definitions, exception authority, conflict of interest, and compliance with other laws and regulations.

(b) *Eligibility information.* Sections 4284.1020 through 4284.1029 discuss the eligibility requirements for the program. These sections include information on applicant eligibility, project eligibility, and the use of funds. See § 4284.1022 for information about the award amounts, Period of Performance, and Matching Funds requirements.

(c) *Application requirements information.* Sections 4284.1030 through 4284.1039 discuss the requirements for submitting an application. These sections include information on what forms and other information are required for a complete application as well as the format of the application, the application deadline, and how to submit the application.

(d) *Application processing information.* Sections 4284.1040 through 4284.1049 discuss how the Agency will process applications. These sections include information on how applications will be reviewed for eligibility, how applications will be evaluated for merit, and how an applicant can withdraw an application from consideration.

(e) *Award information.* Sections 4284.1050 through 4284.1059 discuss how the Agency will make awards. These

sections include information about how applications will be selected for funding, how applicants will be notified whether their applications have been selected for funding, how applicants can resolve disputes regarding funding selections, and the requirements for an applicant to accept an award and be approved as a Recipient of an award.

(f) *Post-award information.* Sections 4284.1060 through 4284.1061 discuss the reporting requirements for Recipients after an award is approved as well as monitoring procedures that the Agency will use.

(g) *Other.* (1) Sections 4284.1062 through 4284.1099 are reserved.

(2) Section 4284.1100 includes the Office of Management and Budget (OMB) control number for reporting and recordkeeping requirements under this subpart.

§ 4284.1003 Definitions.

These are the definitions for terms used in this subpart. Additional terms used in this subpart are found in the applicable laws and regulations, in particular 2 CFR part 200 and 7 CFR part 11.

Adverse Decision has the meaning located at 7 CFR 11.1.

Adverse Decision Letter means a letter issued by the Agency to the Applicant or Recipient that explains the Adverse Decision.

Agency means the Rural Business-Cooperative Service (RBCS or the Agency), an agency of the United States Department of Agriculture (USDA), or a successor agency.

Agricultural Commodity has the meaning located at § 4284.903.

Agricultural Commodity Organization means an organization that exclusively represents a single Agricultural Commodity or group of similar commodities either on behalf of the commodity itself or on behalf of the Agricultural Producers who grow or raise it. The representation can be at a local, State, regional, or national level. Examples are Agricultural Commodity Marketing Boards established by States, a national association representing corn growers, and a regional association representing fruit and vegetable growers.

Agricultural Food Product has the meaning located at § 4284.903.

Agricultural Producer has the meaning located at § 4284.903.

Applicant means the entity that is applying for funding through the AIC program.

Board of Directors means the group of individuals who govern the Center.

Business Plan has the meaning located at § 4284.903.

Center means the Agriculture Innovation Center to be established and operated by a Recipient of the AIC program. It must be governed by a Qualified Board of Directors.

Change in Physical State has the meaning located at § 4284.903.

Commercial Organization means any business that sells goods or services for the purpose of making a profit.

Equipment has the meaning located at 2 CFR 200.1.

Family Farm has the meaning located at § 4284.903.

Farm or Ranch has the meaning located at § 4284.903.

Farm- or Ranch-Based Renewable Energy has the meaning located at § 4284.903.

Feasibility Study has the meaning located at § 4284.903.

Federal Award has the meaning located at 2 CFR 200.1.

Financial Assistance Agreement means Form RD 4280–2 and any attachments, as executed by RBCS and the Recipient.

General Agricultural Organization means an organization that represents agriculture in general, without restriction to any specific group, commodity, or sector. The sole purpose of the organization must be representing agriculture through policymaking, education, and/or marketing. The organization must represent Agricultural Producers, although it may represent processors and other stakeholders as well. The representation can occur at the State, regional, or national level. Examples include organizations that represent farmers and ranchers and organizations that represent organic or sustainable farming. Note that credit organizations are not included in this definition.

Harvester has the meaning located at § 4284.903.

Indian Tribe has the meaning located at 2 CFR 200.1.

Indirect Costs has the meaning located at 2 CFR 200.1.

Institutions of Higher Education has the meaning located at 2 CFR 200.1.

Key Personnel means the employees and/or contractors of the Center who provide Producer Services. It also includes the Project Director.

Letter of Conditions means the letter that the Agency issues to an entity whose application is selected for funding. The letter outlines all the conditions of the award that must be met before the award can be approved. Other agencies may call this letter an award letter or award notice.

Local Government has the meaning located at 2 CFR 200.1.

Local Agricultural Producer means an Agricultural Producer located within 400 miles of the Center or in the same State.

Locally-Produced Agricultural Food Product has the meaning located at § 4284.903.

Matching Funds has the meaning located at 2 CFR 200.1.

Nonprofit Organization has the meaning located at 2 CFR 200.1.

Period of Performance has the meaning located at 2 CFR 200.1.

Physical Segregation has the meaning located at § 4284.903.

Produced in a Manner That Enhances the Value of the Agricultural Commodity has the meaning located at § 4284.903.

Producer Services means services provided by the Centers to Agricultural Producers seeking to develop and market Value-Added Agricultural Products. The services provided must directly assist the Agricultural Producer with the process of developing and/or marketing a Value-Added Agricultural Product. The services include the following:

(1) Business development services, such as Feasibility Studies, Business Plans, and other types of technical assistance that supports business development.

(2) Market development services, such as marketing plans, branding, and customer identification.

(3) Organizational assistance, such as legal and technical advisory services related to the development, expansion, or operation of a business.

(4) Financial advisory services related to the development, expansion, or operation of a business, such as assistance with obtaining credit for operating costs, training on using financial management software, and guidance on use of cash flow.

(5) Process development services, such as the following:

(i) Engineering services, including scale-up of production systems (not to include cost of renovating or constructing a facility or system);

(ii) Scale production assessments, which are studies that analyze processing facilities to determine the size that optimizes construction and other cost efficiencies associated with manufacturing or processing a Value-Added Agricultural Product;

(iii) Systems development; and

(iv) Other technical assistance and applied research related to development, implementation, improvement and operations of processes and systems to develop and market a Value-Added Agricultural Product.

(6) Product development, such as idea generation, concept testing, feasibility and cost analysis, product taste-testing, demographic and other types of consumer analysis, production analysis, recipe development, evaluation of packaging and labeling options, and brand development for a Value-Added Agricultural Product.

(7) Value chain coordination, or directly working with an Agricultural Producer to connect that producer to a distribution system, processing facility, or commercial kitchen.

(8) Grants to Agricultural Producers for the services in paragraphs (1) through (7) of this definition, where the individual award does not exceed $5,000 and the aggregate amount of grants made by the Center does not exceed $50,000. Note that these grants are considered pass-through awards. Therefore, Centers and subrecipients must comply with all Federal and programmatic requirements for pass-through entities and awards, as described in 2 CFR part 200. Additionally, subrecipients of these grants must be eligible to receive a Federal Award, use

grant and Matching Funds for allowable costs, provide at least one-third of the Project Cost in Matching Funds, and meet all other Federal and program requirements for the AIC program.

Program Income has the meaning located at 2 CFR 200.1.

Project Cost has the meaning located at 2 CFR 200.1.

Qualified Board of Directors means a Board of Directors that includes, but is not limited to, representatives from each of the groups identified in paragraphs (1) through (3) of this definition. It should be noted that no representative may represent more than one group or organization and Board of Director representatives must not have any conflicts of interest. See § 4284.1006 for additional information on conflicts of interest.

(1) Two General Agricultural Organizations with the greatest number of members in the State in which the Center is located;

(2) The department of agriculture, or similar State department or agency, or a State legislator, of the State in which the Center is located; and

(3) Four Agricultural Commodity Organizations representing different Agricultural Commodities produced in the State in which the Center is located.

Real Property has the meaning located at 2 CFR 200.1.

Recipient has the meaning located at 2 CFR 200.1.

State has the meaning located at 2 CFR 200.1.

State Office means the USDA Rural Development (RD) offices located in each State.

Third-Party In-Kind Contributions has the meaning located at 2 CFR 200.1.

Underserved and Economically Distressed Area means an area so designated on the program website.

Value-Added Agricultural Product has the meaning located at § 4284.903.

§ 4284.1004 Exception authority.

The Administrator of the Agency may, on a case-by-case basis, approve an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal Government. Exercise of this authority cannot conflict with applicable laws.

§ 4284.1005 [Reserved]

§ 4284.1006 Conflict of interest.

No conflict of interest or appearance of a conflict of interest will be allowed.

(a) *Description.* A conflict of interest occurs in a situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or entity to act impartially. For the purposes of this subpart, relationships that can include conflict of interest include, but are not limited to:

(1) Parent, Applicant, or Recipient Board of Directors, employees, consultants, and contractors.

(2) Center Board of Directors, employees, consultants, and contractors.

(3) Subrecipients and their employees, consultants, and contractors.

(4) Immediate family members of those listed in paragraphs (a)(1) through (3) of this section.

(b) *State Departments of Agriculture.* A conflict of interest does not include the situation when the State's Secretary of Agriculture or an employee of the State's Department of Agriculture, or similar agency, acts as a member of the Center's board of directors because this representation is a requirement for the program.

(c) *Written disclosure.* Recipients must comply with 2 CFR 400.2(b), which includes providing written disclosure to the Agency of any potential conflicts of interest and maintaining written standards of conduct covering conflicts of interest and governing the performance of its employees in the selection, award, and administration of Federal Awards.

(d) *Assistance to employees, relatives, and associates.* The Agency will process any requests for assistance under this subpart in accordance with 7 CFR part 1900, subpart D.

(e) *Member/delegate clause.* No member of or delegate to Congress shall receive any share or part of this grant or any benefit that may arise therefrom; provided, however, that this provision shall not be construed to bar, as a contractor under the Federal Award, a

publicly held corporation whose ownership might include a member of Congress.

§ 4284.1007 [Reserved]

§ 4284.1008 Compliance with other laws and regulations.

The Agency, Applicants, and Recipients must comply with all applicable laws and regulations. An effort has been made to identify the most-commonly cited laws and regulations and reference them as follows:

(a) *Federal laws.* Federal laws are codified in the United States Code (U.S.C.). A selection of laws applicable to this program is identified as follows:

(1) Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*).

(2) Consumer Credit Protection Act (15 U.S.C. 1601 *et seq.*).

(3) Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*).

(4) The Civil Rights Act of 1964, Title VI (42 U.S.C. 2000d *et seq.*).

(5) The Rehabilitation Act of 1973, Section 504 (29 U.S.C. 794).

(b) *Federal regulations.* Federal regulations are codified in the Code of Federal Regulations (CFR). In particular, 2 CFR parts 1 through 200 are applicable to all Federal grant programs. These parts address items such as universal entity identifiers, reporting subaward and executive compensation, debarment and suspension, drug-free workplaces, administrative requirements, cost principles, and audit requirements. We particularly advise Applicants and Recipients to become familiar with 2 CFR part 200 in its entirety.

(c) *Departmental regulations.* Departmental regulations are those regulations that are specific to awards made through USDA. They are codified in the CFR. A selection of applicable regulations is identified as follows:

(1) *2 CFR parts 400 through 499.* These parts include USDA's adoption of Federal administrative requirements and cost principles. They also include regulations on debarment and suspension, lobbying, drug-free workplaces, and research awards.

(2) *7 CFR part 11.* This part includes USDA's procedures for administrative appeals, as handled by its National Appeals Division.

(3) *7 CFR part 15.* This part includes USDA's procedures for compliance with nondiscrimination laws and regulations.

(d) *Agency regulations.* Agency regulations are those regulations that are specific to awards made through the Agency and they may also be specific to a program. They are codified in the CFR. A selection of those regulations is as follows:

(1) *7 CFR part 1900.* This part covers delegations of authority, Adverse Decisions and administrative appeals, applicability of Federal law, and processing and servicing grant awards.

(2) *7 CFR part 1901, subpart E.* This subpart covers civil rights compliance requirements.

(3) *7 CFR part 1951.* This part covers servicing grant awards, including unauthorized assistance.

(4) *7 CFR part 1970.* This part covers environmental policies and considerations.

(e) *Access to laws and regulations.* (1) Laws may be accessed through the U.S.C. At the time this subpart was published, the U.S.C. may be accessed electronically at this website: *https://uscode.house.gov/.*

(2) Regulations may be accessed through the CFR. At the time this subpart was published, the CFR may be accessed electronically at this website: *https://www.ecfr.gov/.*

§§ 4284.1009–4284.1019 [Reserved]

Eligibility Information

§ 4284.1020 Applicant eligibility.

Applicants must meet certain requirements to be eligible for funding through this program. Those requirements are described as follows:

(a) *Eligible entities.* Entities are eligible for assistance through this program if all the following requirements are met:

(1) *System for Award Management (SAM) registration and unique entity identifier (UEI).* Entities must have an active registration in SAM. This registration must remain current, accurate, and complete at the time of application, while the application is under consideration for funding, and while a Recipient has an active Federal Award.

This registration includes obtaining a UEI, or its successor, through *SAM.gov*.

(2) *Entity type*. The entity is organized or incorporated in a State, and it is one of the following types of organizations: Commercial Organization, Indian Tribe, Institution of Higher Education, Local Government, Nonprofit Organization, or State government. A consortium is also eligible to apply, but it must select a single organization to represent the consortium as the Applicant. Only the Applicant organization must meet the eligibility requirements.

(3) *Board of Directors*. The entity proposes to create or to continue to operate a Center that is governed by a Qualified Board of Directors.

(4) *Experience/capability to provide services*. The entity demonstrates that it has provided at least three (3) years of Producer Services prior to application or that it has the capability to provide Producer Services by hiring at least two Key Personnel who have at least three (3) years of experience providing Producer Services.

(5) *Financial capability*. The entity has the financial capability for the proposed project. In particular, the following must be true:

(i) The most recent independent audit confirms that the entity has a current ratio of at least 1:1 at the end of the fiscal year; and

(ii) The most recent independent audit confirms that the entity has sufficient cash on hand at the end of the fiscal year to cover at least three months of expenses for the proposed project.

(b) *Ineligible entities*. Entities are ineligible for assistance from this program if any of the following occurs:

(1) An outstanding judgment has been obtained against the entity by the United States in a Federal Court (other than in the United States Tax Court). The entity is ineligible for assistance until the judgment is paid in full or otherwise satisfied. Funds from this program may not be used to satisfy the judgment.

(2) The entity is delinquent on the payment of Federal income taxes.

(3) The entity is delinquent on Federal debt.

(4) The entity is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs under Executive Order 12549, ''Debarment and Suspension.'' (See 2 CFR part 417 for more information.)

(5) The entity has been convicted of a felony criminal violation under any Federal law within the past 24 months.

(6) The entity has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless a Federal agency has considered suspension or debarment of the organization and has made a determination that this further action is not necessary to protect the interests of the Government.

(7) The entity is an individual.

(8) The entity has an award through this program that is not scheduled to end until after September 30 of the year in which the application is submitted.

§ 4284.1021 Ultimate beneficiary eligibility.

Centers must provide Producer Services only to Agricultural Producers. The Agricultural Producers may purchase or intend to purchase up to 49 percent of the primary Agricultural Commodity needed for the Value-Added Agricultural Product that is being developed and/or marketed. Note that the primary Agricultural Commodity is considered the commodity for which the greatest volume is required to produce the Value-Added Agricultural Product. The Agricultural Producers must maintain ownership of the primary Agricultural Commodity from production through the sale of the Value-Added Agricultural Product. See § 4284.1003 for the definitions of Agricultural Commodity, Agricultural Producer, and Value-Added Agricultural Product.

§ 4284.1022 Project eligibility.

Projects must meet certain requirements to be eligible for funding

through this program. Those requirements are as follows:

(a) *Eligible projects.* Eligible projects must meet all of the following requirements. Failure to meet one or more of these requirements will render the application ineligible for funding.

(1) *Project purpose.* The sole purpose of the project must be to increase and improve the ability of Agricultural Producers to market Value-Added Agricultural Products, with at least one goal related to increasing and improving the ability of Local Agricultural Producers to market Value-Added Agricultural Products

(2) *Amount requested.* The minimum amount requested for an award must be $600,000 and the maximum amount that can be requested is $1,000,000.

(3) *Matching Funds.* Matching Funds are required for at least one-third of the Project Cost. For example, if the Project Cost is $1,500,000, Matching Funds must be at least $500,000. Matching Funds must be from non-Federal sources (unless otherwise provided by statute) and may be provided in cash by the applicant or by a third party or in-kind by a third party. They must be available for use during the Period of Performance, and they must be used for allowable expenses. Applicants may not use unrecovered Indirect Costs as Matching Funds.

(4) *Allowable use of funds.* The project must use award and Matching Funds for allowable purposes. See §4284.1025 for additional information.

(5) *Agricultural support.* The project has the support of at least three organizations whose primary mission is to support agriculture in the State in which the Center is located.

(6) *Period of Performance.* The Period of Performance must be three (3) years. The Period of Performance must start within 90 days of award approval, unless otherwise authorized by the Agency.

(7) *Contracts with other Centers.* Contracts and/or subawards with other Centers funded through this program must be limited to 10 percent or less of total Project Costs.

(b) *Ineligible projects.* Projects are ineligible for assistance through this program if the application:

(1) Includes a conflict of interest (see §4284.1006 for more information), where the expenses associated with the conflict of interest exceed 10 percent of the Project Cost. If the costs associated with the conflict of interest are 10 percent or less, the process in paragraph (b)(5) of this section will be followed.

(2) Requests less than the minimum or more than the maximum grant amount.

(3) Focuses assistance on only one Agricultural Producer or business.

(4) Earns revenue from processing or selling a product as part of the project. Centers may charge fees for services provided, but they cannot earn revenue from processing a product or from sales associated with a product they helped develop.

(5) Includes unallowable costs totaling more than 10 percent of Project Costs. If the application includes 10 percent or less of Project Costs in unallowable costs, and the application is otherwise eligible and selected for funding, those unallowable costs must be removed. If time permits, the Agency may allow those unallowable costs to be replaced with allowable costs. Otherwise, the amount of the Award will be reduced accordingly. If we cannot determine the percentage of unallowable costs, your application will not be considered for funding.

§§ 4284.1023–4284.1024 [Reserved]

§ 4284.1025 Use of funds.

Allowable and unallowable uses of funds are described as follows:

(a) *Allowable uses of funds.* The following types of activities and expenses are allowable:

(1) Producer Services as defined in §4284.1003.

(2) Costs associated with establishing and operating a Center, including legal services, accounting services, clerical assistance, technical services, office supplies, hiring employees, monitoring contracts, professional development for staff, attending conferences related to value-added agriculture and marketing food products, and Board of Directors travel.

(3) Additional information on allowability of costs can be found at 2 CFR

part 200, subpart E, for all organization types.

(b) *Unallowable uses of funds.* The following types of activities and expenses are unallowable:

(1) Provide services to entities other than Agricultural Producers.

(2) Fund manufacturing or processing expenses, including test, trial, or initial production runs.

(3) Pay for interns or internships.

(4) Provide tuition remission or other financial support to students at any level of education.

(5) Provide participant support costs outside of the grants to Agricultural Producers.

(6) Fund any direct expenses for the production of any Agricultural Commodity or product to which value will be added, including seed, rootstock, labor for harvesting the crop, and delivery of the commodity to a processing facility; to include the purchase of an Agricultural Commodity.

(7) Plan, fund architectural work, repair, rehabilitate, acquire, or construct a building or facility, including a processing facility.

(8) Purchase Real Property.

(9) Purchase, rent, or install Equipment.

(10) Purchase or repair vehicles, including boats.

(11) Pay for the preparation of the grant application.

(12) Pay expenses not directly related to the funded project.

(13) Pay for any goods or services from a person or entity who has a conflict of interest with the Recipient (see § 4284.1006).

(14) Duplicate activities paid for by another Federal grant program.

(15) Pay costs of the project incurred prior to the date of award approval, unless authorized by the Agency at the time of award approval.

(16) Pay for assistance to any private business enterprise that does not have at least 51 percent ownership by those who are either citizens of the United States or reside in the United States after being legally admitted for permanent residence.

(17) Pay any judgment or debt owed to the United States.

(18) Fund any activities considered unallowable by the applicable cost principles, most of which are included in 2 CFR part 200, subpart E.

§§ 4284.1026–4284.1029 [Reserved]

§ 4284.1030 Notifications.

The Agency will issue any program notifications identified in paragraphs (a) through (c) of this section on the program website. An annual notification will also be published on the OMB-designated governmentwide website.

(a) *Amount of funding available.* The Agency will publish the amount of funding available for awards during each fiscal year within 30 calendar days of receiving notification from OMB of the amount of funding available.

(b) *Priority points.* The Agency will publish the priorities applicable to the program no later than the application period opening date each year. Points will be awarded in accordance with § 4284.1040(d).

(c) *Other.* The Agency will publish any other additional requirements or programmatic changes no later than the date the application period opens.

APPLICATION REQUIREMENTS

§ 4284.1031 Application requirements.

All applications must include the following items:

(a) *Form SF–424, ''Application for Federal Assistance.''* This form must be filled out completely and signed by an authorized representative of the Applicant organization.

(b) *Form RD 4284–1, ''Application for the Agriculture Innovation Center Program.''* This form must be filled out completely. Failure to complete any section on the form will result in the application being determined ineligible for funding.

§ 4284.1032 [Reserved]

§ 4284.1033 Submission requirements.

The following information identifies when applications can be submitted, where applications must be submitted, and the format of applications.

(a) *Submission period.* (1) The application period opens on November 1. Applications received prior to the opening date in a given fiscal year will not be considered.

(2) The application period closes at 11:59 p.m. Eastern time (ET) on January 31 of the following year. Applications received after the closing date will not be considered. This means that if the application is emailed prior to 11:59 p.m. ET on the closing date, but the Agency's system does not receive it until after the deadline, the application will not be considered for funding. Thus, applicants are encouraged to submit their applications well in advance of the closing date to ensure timely receipt by the Agency.

(b) *Submission address.* Applications must be submitted electronically to the email address listed on the program website.

(c) *Submission format.* All items required for the application must be submitted in a single application. No attachments other than the required items will be considered. Incomplete applications will be rejected.

§§ 4284.1034–4284.1039 [Reserved]

APPLICATION PROCESSING

§ 4284.1040 Application processing.

The following information describes the way the Agency will process applications, including evaluating eligibility, risk, and merit.

(a) *Eligibility evaluation.* The Agency will review all complete applications to determine if they are eligible for assistance based on the requirements in this subpart and other applicable Federal laws and regulations. In particular, the Agency will check the OMB-designated repository of government information, and Applicants that are excluded from Federal funding will be determined ineligible (see 2 CFR 200.206 for more information). An application must include all application requirements identified in §4284.1031, or the Agency will determine that it is ineligible for assistance.

(b) *Risk evaluation.* The Agency will review those applications that are determined to be eligible for the program for risk based on financial risk and satisfactory past performance as described in paragraphs (b)(1) and (2) of this section. Typically, the Agency will not determine that an application is ineligible for funding based on the results of the risk evaluation, unless the Agency cannot find a way to reasonably mitigate the risk posed by making an award. For example, if an Applicant lacks appropriate internal controls, but has not experienced significant audit findings as a result, the Agency may choose to mitigate the lack of internal controls by requiring funds to be disbursed on a reimbursement basis until adequate internal controls are in place. However, if audit findings identify significant shortcomings in the Applicant's ability to manage Federal funds, the Agency may determine that the application is not eligible for funding.

(1) *Financial risk.* The Agency will review the organization's most recent independent audit and financial statements, provided that the most recent audit and financial statements have been created during the previous year.

(2) *Satisfactory past performance.* The entity has satisfactory performance for all Federal Awards received within the last five (5) years, based on a review of deficiencies reported by the Federal Awardee Performance and Integrity Information System, or its successor system, the Do Not Pay system, or its successor system, and the Agency's own internal financial and record-keeping systems and files. Satisfactory performance includes timely submission of required reports and documents, timely completion of tasks, and proper use of funds.

(c) *Merit evaluation.* The Agency will conduct a merit evaluation for those applications that are determined to be eligible for the program. The merit evaluation will be conducted by a panel of USDA employees, who will convene to reach a consensus on the merit of each eligible application. The total points available are 90. The merit evaluation will be based on the following criteria:

(1) *Federal Award management (0 to 10 points).* Applicants who have managed Federal Awards with the primary purpose of providing technical assistance with Periods of Performance that have start and end dates within the last five (5) years of the date of application will receive points as described in paragraphs (c)(1)(i) through (iii) of this section. Note that an award for which a performance deficiency is identified

will not be scored. The Agency will use *USASpending.gov*, or its successor system, to verify the award information provided in the application. The Agency will also use SAM.gov, or its successor system, in addition to USDA internal systems to check for performance deficiencies. Examples of performance deficiencies are performance and/or financial reports that are more than 90 calendar days overdue and failure to accomplish the approved scope of work.

(i) *Amount (0 to 3 points).* Zero points will be awarded if no Federal Awards are identified. Applications that identify multiple Federal Awards for amounts greater than $600,000 will receive more points.

(ii) *Time period (0 to 3 points).* Zero points will be awarded if no Federal Awards are identified. Applications that identify multiple Federal Awards for time periods of at least three (3) years will receive more points.

(iii) *Provision of technical assistance (0 to 4 points).* Zero points will be awarded if no Federal Awards are identified. Applications that identify multiple Federal Awards in which the Applicant provided technical assistance will receive more points.

(2) *Qualifications of Key Personnel (0 to 20 points).* Projects that have qualified Key Personnel will receive points as described in paragraphs (c)(2)(i) through (v) of this section. Only Key Personnel that are currently employed or on contract with the Center will be considered. Key Personnel are considered qualified if they have at least five (5) years of experience in providing at least one Producer Service that the Center proposes to offer in its application. The Agency will consider years of experience, the number of times a service has been provided, the number of services provided, the complexity of the role the person played in providing the service, and the outcomes of the services when awarding points for qualifications.

(i) *Zero Key Personnel (0 points).* No qualified Key Personnel are identified.

(ii) *One Key Personnel (0 to 5 points).* One qualified person is identified. Zero points will be awarded if the person identified is not qualified. One point will be awarded to applications that demonstrate the person meets the qualifications. Two to three points will be awarded to applications that demonstrate the person exceeds the qualifications. Four to five points will be awarded to applications that demonstrate the person has exceptional qualifications.

(iii) *Second Key Personnel (0 to 5 points).* A second qualified person is identified. Zero points will be awarded if the person identified is not qualified. One point will be awarded to applications that demonstrate the person meets the qualifications. Two to three points will be awarded to applications that demonstrate the person exceeds the qualifications. Four to five points will be awarded to applications that demonstrate the person has exceptional qualifications.

(iv) *Third Key Personnel (0 to 5 points).* A third qualified person is identified. Zero points will be awarded if the person identified is not qualified. One point will be awarded to applications that demonstrate the person meets the qualifications. Two to three points will be awarded to applications that demonstrate the person exceeds the qualifications. Four to five points will be awarded to applications that demonstrate the person has exceptional qualifications.

(v) *Fourth Key Personnel (0 to 5 points).* A fourth qualified person is identified. Zero points will be awarded if the person identified is not qualified. One point will be awarded to applications that demonstrate the person meets the qualifications. Two to three points will be awarded to applications that demonstrate the person exceeds the qualifications. Four to five points will be awarded to applications that demonstrate the person has exceptional qualifications.

(3) *Outreach plan (0 to 20 points).* Applications that have a well-designed outreach plan will receive points as described in paragraphs (c)(3)(i) through (iii) of this section.

(i) *Goals (0 to 6 points).* The goals are clear and include a way to measure the success of the project in a quantitative way, including the baseline of the metric, and a target for the metric. Zero points will be awarded if the application does not include at least one goal, performance measurement, baseline of

the metric, and target for the metric. One or two points will be awarded if the application has at least one goal, one metric, the baseline of the metric, and a target for the metric. Three or four points will be awarded to applications that exceed this threshold. Five or six points will be awarded to applications that exceed the threshold and have exceptional goals, metrics, baselines, and targets.

(ii) *Identified need (0 to 8 points).* The application identifies a clear need in the proposed service area that connects to the goals of the project. Zero points will be awarded if the application does not identify a clear need in the proposed service area that connects to the goals of the project. One to five points will be awarded to applications that identify clear needs in the proposed service area that connect to the goals of the project. One or two additional points will be awarded to applications that describe how the need was identified. One additional point will be awarded to applications that describe an identified need in an Underserved and Economically Distressed Area.

(iii) *Customer identification (0 to 6 points).* The application describes how the Center will identify customers for the Producer Services it proposes to provide. Zero points will be awarded if the application does not identify how the Center will identify its customers. One to five points will be awarded to applications that describe a basic plan for identifying customers. One additional point will be awarded to applications that describe a plan for identifying customers in an Underserved and Economically Distressed Area.

(4) *Coordination, collaboration, and partnerships (0 to 20 points).* Coordination, collaboration, or a partnership exists if there is a formal arrangement between the Center and another organization to either provide one or more Producer Services or for the other organization to provide a different type of service that supports one or more project goals. (Note that a formal arrangement means a written agreement that is signed by both parties and includes a purpose statement.) One example is a Center that provides product development but does not have a commercial kitchen. The Center could coordinate with a commercial kitchen to work with producers on recipe development or consumer taste testing. Another example is providing a contribution to the project in the form of Matching Funds, where the contribution from a third party is Key Personnel or expert consulting services to provide Producer Services. Applicant organizations who demonstrate that they will coordinate, collaborate, or partner with other organizations for the proposed project will receive more points, based on the description as follows:

(i) *Coordination, collaboration, or partnership with one other organization (0 to 4 points).* The Agency will evaluate the complexity of the relationship, the significance of the gap in the Center's services that the relationship fills, the quality of the services that the partner will provide, and the quantity of the services that the partner will provide.

(ii) *Coordination, collaboration, or partnership with a second organization (0 to 4 points).* The Agency will evaluate the complexity of the relationship, the significance of the gap in the Center's services that the relationship fills, the quality of the services that the partner will provide, and the quantity of the services that the partner will provide.

(iii) *Coordination, collaboration, or partnership with a third organization (0 to 4 points).* The Agency will evaluate the complexity of the relationship, the significance of the gap in the Center's services that the relationship fills, the quality of the services that the partner will provide, and the quantity of the services that the partner will provide.

(iv) *Coordination, collaboration, or partnership with a fourth organization (0 to 4 points).* The Agency will evaluate the complexity of the relationship, the significance of the gap in the Center's services that the relationship fills, the quality of the services that the partner will provide, and the quantity of the services that the partner will provide.

(v) *Underserved and Economically Distressed Area (0 to 4 points).* The Agency will award one point for each coordination, collaboration, or partnership that connects the project to an Underserved and Economically Distressed Area.

(5) *Scope of the project (0 to 20 points).* The scope of the project will be evaluated based on the service area, the types of services offered, the uniqueness of the services offered, and the number of commodities assisted.

(i) *Service area (0 to 4 points).* Projects that propose to provide Producer Services to a larger service area will receive more points, based on the following structure:

(A) *Few counties (0 points).* Projects that propose to provide services to up to 10 percent of the counties in the State will receive 0 points.

(B) *Some counties (1 point).* Projects that propose to provide services to more than 10 percent and up to 25 percent of the counties in the State will receive 1 point.

(C) *Many counties (2 points).* Projects that propose to provide services to more than 25 percent and up to 50 percent of the counties in the State will receive 2 points.

(D) *Majority of State (3 points).* Projects that propose to provide services to more than 50 percent and less than 100 percent of the counties in the State will receive 3 points.

(E) *State-wide (4 points).* Projects that propose to provide services to all counties in a State will receive 4 points.

(ii) *Types of services (0 to 8 points).* Projects that offer a greater variety of Producer Services will receive more points. See § 4284.1003 for the definition of Producer Services. Each category of Producer Service offered will receive one point. If no proposed services fit into one of the categories, zero points will be awarded. The categories are as follows:

(A) Financial advisory services.
(B) Organizational assistance.
(C) Value chain coordination.
(D) Process development.
(E) Product development.
(F) Business development services.
(G) Marketing assistance.
(H) Grants to Agricultural Producers.

(iii) *Number of commodities (0 to 3 points).* Projects that have the capacity to provide services to support Value-Added Agricultural Products from multiple Agricultural Commodities in addition to the four represented on the Board of Directors of the Center will receive more points.

(iv) *Unique services (0 to 3 points).* Projects that will contribute unique services in the proposed service area will receive more points. Unique means that the services are not already provided in the service area.

(v) *Physical location (0 to 2 points).* Projects that will provide services at more than one physical location will receive more points.

(d) *Priority Points (0 to 10 points).* Each year, RBCS will select up to two priorities from the current published priorities for the RD mission area that are applicable to the program. These priorities will be published on the program website and in the annual notice no later than the date that the application period is open. Projects will be awarded five points for each priority that they meet, based on the information provided in the application, for a maximum of ten points.

§ 4284.1041 Application withdrawal.

During the period between the submission of the application and award approval, the Applicant must notify the Agency in writing if the project is no longer viable or if the Applicant is no longer requesting financial assistance for the project. When the Applicant notifies the Agency, the application will be withdrawn from consideration for funding.

§§ 4284.1042–4284.1049 [Reserved]

AWARD

§ 4284.1050 Award selection.

(a) The Agency will review applications to determine if they are eligible for assistance based on requirements in this subpart, and other applicable Federal laws and regulations. If the Agency determines that your application meets the requirements, it will be scored by a panel of USDA employees in accordance with the merit evaluation criteria and point allocation specified in § 4284.1040(c). The review panel will convene to reach a consensus on the scores for each of the eligible applications. Applications will be ranked solely based on the points awarded, and they will be funded in rank order until available funds are expended or a minimum score of 40 points is reached. If

an application cannot be fully funded, the Agency may offer partial funding to the extent funds are available.

(b) If an application is ranked and not funded, it will not be carried forward into the next funding competition.

§ 4284.1051 Notification of successful Applicants.

(a) The Agency will notify the Applicants whose applications can be funded using available funds with a Letter of Conditions. The Letter of Conditions will provide the conditions under which an award can be approved as well as a copy of the terms of the award.

(b) An Applicant receiving a Letter of Conditions will have 60 calendar days to meet the conditions of the award. If the applicant does not meet the conditions, the Agency will discontinue processing the application and offer funding to another Applicant based on the ranking from the merit review panel if sufficient time exists for the application to be fully processed and an award approved by September 30 of the current fiscal year. If sufficient time does not exist, the funds will not be awarded.

(c) To view the standard conditions for all awards, please visit the program website.

§ 4284.1052 Notification of unsuccessful applicants.

Applicants whose applications are not eligible for financial assistance or did not score high enough to be funded will be notified as soon as it is practicable. The notification will be in writing using an Adverse Decision Letter. This letter will outline the reason(s) for the Agency's decision and what dispute resolution alternatives the Applicant has. (See also 7 CFR part 11.)

§ 4284.1053 Award approval.

The Agency will approve an award once the Applicant has met all the conditions of the award. The approval will be conveyed through the execution of Form RD 4280–2, which is the Financial Assistance Agreement, and provides all terms of the award. Once the award has been approved, the Recipient may begin work on the project and incur costs.

§§ 4284.1054–4284.1059 [Reserved]

POST-AWARD

§ 4284.1060 Reporting requirements.

Recipients are required to submit financial reports and performance reports based on the following requirements.

(a) *Financial reports.* Financial reports are required on a semi-annual basis and after the Period of Performance has ended.

(1) *Semi-annual report.* Reporting periods are October 1 through March 31 and April 1 through September 30. Reports are due 30 calendar days after the reporting period ends. The report must include the submission of the SF–425, ''Federal Financial Report,'' and any additional information specified in the Financial Assistance Agreement.

(2) *Final report.* The final financial report is due 120 calendar days after the reporting period ends. The report must include the submission of the SF–425, ''Federal Financial Report,'' and any additional information specified in the Financial Assistance Agreement.

(b) *Performance reports.* Performance reports are required on a semi-annual basis and after the Period of Performance has ended.

(1) *Semi-annual reports.* Reporting periods are October 1 through March 31 and April 1 through September 30. Reports are due 30 calendar days after the reporting period ends. The report must use the format specified in the Financial Assistance Agreement.

(2) *Final report.* The final report is due 120 calendar days after the end of the Period of Performance. The report must use the format specified in the Financial Assistance Agreement.

§ 4284.1061 Monitoring awards.

Awards will be monitored by Agency personnel in accordance with applicable laws, regulations, and policies (see § 4284.1008 for more information). The Agency will designate a contact person for each award. The Agency may terminate or suspend the award for lack of adequate or timely progress, reporting,

documentation, or for failure to comply with Agency requirements.

OTHER

§ 4284.1062–4284.1099 [Reserved]

§ 4284.1100 OMB control number.

The reporting and recordkeeping requirements contained in this subpart have been approved by OMB and have been assigned OMB control number 0570–0045 in accordance with the Paperwork Reduction Act of 1995.

Subpart L—Rural Innovation Stronger Economy (RISE) Grant Program

SOURCE: 86 FR 31589, June 15, 2021, unless otherwise noted.

§ 4284.1101 Purpose.

This subpart contains the procedures and requirements for providing the following financial assistance under the Rural Innovation Stronger Economy (RISE) program:

(a) Grants for the purpose of constructing, purchasing, or equipping a building to serve as an innovation center in order to establish job accelerators.

(b) Grants for the purpose of establishing and supporting job accelerators and related programs.

§ 4284.1102 Organization of subpart.

This subpart is organized into distinct sections as described in paragraphs (a) and (b) of this section.

(a) Sections 4284.1103 through 4284.1111 discuss definitions; exception authority; review or appeal rights; conflict of interest; USDA departmental regulations; other applicable laws; ineligible applicants; general applicant, application, and funding provisions; and notifications, which are applicable to funding the program under this subpart.

(b) Sections 4284.1112 and 4284.1113 discuss, respectively, applicant and project eligibility. Section 4284.1114 addresses funding provisions for these grants. Sections 4284.1115 through 4284.1120 address grant application content and required documentation, scoring, selection, awarding and administering grant applications, and servicing of grant awards.

§ 4284.1103 Definitions.

The following definitions are applicable to the terms used in this subpart.

Administrator means the Administrator of Rural Business-Cooperative Service (RBCS) within the Rural Development mission area of the U.S. Department of Agriculture (USDA).

Agency means RBCS or its successor agency assigned by the Secretary of Agriculture to administer the RISE grant program. References to the National Office, Finance Office, State Office, or other Agency offices or officials should be read as prefaced by ''Agency'' or ''Rural Development'' as applicable.

Applicant means the lead applicant acting on behalf of a rural jobs accelerator partnership as stated in 4282.1112, that is seeking a RISE grant. The lead applicant will enter into a financial assistance agreement with the Agency, receive the RISE grant funding and take ownership of any assets purchased with grant funds.

Broadband service. Defined within the meaning of Title VI of the Rural Electrification Act of 1936 (7 U.S.C. 901 *et seq.*), broadband service means any technology identified by the Administrator as having the capacity to provide transmission facilities and capacity that enable the subscriber to receive a minimum level of broadband service. The minimum level of broadband service for the purpose of reviewing the application will be defined by the minimum transmission capacity that was required by Title VI of the Rural Electrification Act of 1936 (7 U.S.C. 901 *et seq.*) at the time the application was received by the Agency.

Complete application means an application that contains all parts necessary for the Agency to determine applicant and project eligibility, the financial feasibility and technical merit of the project, and contains sufficient information to determine a priority score for the application.

Departmental regulations mean the regulations of the Agency's Office of Chief Financial Officer (or successor office) as codified in 2 CFR chapter IV.

District organization means an organization as defined in Section 300.3 of

Title 13, Code of Federal Regulations (or a successor regulation).

Eligible project costs means the portion of total project costs approved by the Agency for projects that are eligible to be paid with RISE funds.

Federal fiscal year (FY) means the 12-month period beginning October 1 of any given year and ending on September 30 of the following year; it is designated by the calendar year in which it ends.

Financial assistance agreement means Form RD 4280–2, ''Rural Business-Cooperative Service Financial Assistance Agreement, or successor form and is an agreement between the Agency and the grantee setting forth the provisions under which the grant will be administered.

High-wage job means a job that provides a wage that is greater than the median wage for the applicable region, as determined by the Department of Labor.

Indian tribe means the term as defined in 25 U.S.C. 5304(e).

Industry cluster means a broadly defined network of interconnected firms and supporting institutions in related industries that accelerate innovation, business formation, and job creation by taking advantage of assets and strengths of a region in the business environment.

Innovation center means a cross-functional place for the planning and creation of new ideas and opportunities for individual and group collaboration that leads to supporting deployment of innovative processes, technologies, services and products for economic development. Innovation centers may be utilized for a wide array of purposes including short-term housing for business owners or workers; co-working space, which may include space for remote work; space for business utilization with a focus on entrepreneurs and small and disadvantaged businesses but may include collaboration with companies of all sizes; job training programs; and efforts to utilize the innovation center as part of the development of a community, among other uses deemed appropriate by the Agency.

Institution of higher education means the term as defined in 20 U.S.C. 1002(a).

Instrumentality means an organization recognized, established, and controlled by a State, Tribal, or local government for a public purpose or to carry out special purposes.

Jobs accelerator means a center or program located in or serving a rural low-income community that may provide co-working space, in-demand skills training, entrepreneurship and business support, and other initiatives as described in Part 4284.1113(b).

Lead applicant means an entity as defined in Part 4284.1112(b) and is responsible for the rural jobs accelerator partnership plus administration of the grant proceeds and activities.

Letter of conditions means a document prepared by the Agency establishing conditions that must be agreed to by the applicant before any obligation of grant funds can occur.

Low income community means a community as defined in section 45D(e) of the Internal Revenue Code of 1986, and any amendments thereto.

Matching funds means non-federal funds provided to meet the total eligible project costs that are not covered by the RISE grant proceeds.

Person means an individual or an entity organized under the laws of a state or a Tribe.

Region means an area identified by the applicant that meets the criteria of § 4284.1112(d) with a population of 50,000 or fewer inhabitants, or for a region with a population of more than 50,000 inhabitants, is comprised of rural areas and urbanized areas, if any, are the subject of a positive determination by the Under Secretary for Rural Development with respect to a rural-in-character petition, including such a petition submitted concurrently with the application of the partnership for a grant under this section.

Rural and rural area means any area of a state not in a city or town that has a population of more than 50,000 inhabitants according to the latest decennial census of the United States and not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants. A rural and rural area shall be determined as defined in 7 U.S.C. 1991(a)(13).

Rural in character means:

(1) A determination that an area is ''rural in character'' will be made by the Under Secretary of Rural Development in compliance with 7 U.S.C. 1991(a)(13)(D). The process to request a determination under this provision is outlined in this definition. Units of local government may petition the Under Secretary of Rural Development for a ''rural in character'' designation by submitting a petition to the Administrator on behalf of the Under Secretary. The petition shall document why the petitioner believes the area is ''rural in character'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base. Upon receiving a petition, the Administrator will review its merits and consult with the applicable governor or leader in a similar position and request comments to be submitted within 5 business days, unless such comments were submitted with the petition. The petition will be forwarded to the Under Secretary who will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Agency's website. The Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration. The Under Secretary will make a determination of the appeal in not less than 15 days, but no more than 30 days.

(2) Rural Development State Directors may also initiate a request to the Under Secretary to determine if an area is ''rural in character.'' A written recommendation should be sent to the Administrator, on behalf of the Under Secretary, that documents how the area meets the statutory requirements and discusses why the State Director believes the area is ''rural in character'' including, but not limited to, the area's population density, demographics, topography, and how the local economy is tied to a rural economic base. Upon receipt of such a request, the Administrator will review the request for compliance with the ''rural in character'' provisions and make a recommendation to the Under Secretary. Provided a favorable determination is made, the Under Secretary will consult with the applicable governor or leader in a similar position and request comments within 10 business days, unless gubernatorial comments were submitted with the request. A public notice will be published by the State Office in a local newspaper and the request will be posted on the Agency's website. There is no appeal process for requests made on the initiative of the State Director.

Rural jobs accelerator partnership means a partnership formed on or after December 20, 2018, which meets eligibility criteria found in § 4284.1112.

Secretary means the Secretary of Agriculture and, to the extent of delegated authorities, the Under Secretary for Rural Development.

Small and disadvantaged business means a small business concern owned and controlled by socially and economically disadvantaged individuals as defined in Section 8(d)(3)(C) of the Small Business Act (15 U.S.C. 637(d)(3)(C)).

Small business means:

(1) An entity that meets Small Business Administration (SBA) size standards in accordance with 13 CFR part 121 and criteria of 13 CFR 121.301 as applicable to financial assistance programs, including paragraph (i) or (ii) of this definition. The size of the concern alone and the size of the concern combined with other entity(ies) it controls or entity(ies) it is controlled by, must not exceed the size standard thresholds designated for the industry in which the concern alone or the concern and its controlling entity(ies), whichever is higher, is primarily engaged.

(2) To be considered a small business, either of the following conditions must be met:

(i) The concern's tangible net worth is not in excess of $15 million and average net income (excluding carry-over losses) for the preceding two completed

fiscal years is not in excess of $5.0 million; or

(ii) The size of the concern does not exceed the SBA size standard thresholds designated for the industry in which it is primarily engaged, as measured by number of employees or annual receipts. Industry size standard designations to be utilized are listed in the SBA's table of size standards found in 13 CFR 121.201. Number of employees and annuals receipts are calculated as follows:

(A) Number of employees is calculated as the average number of all individuals employed by a concern on a full-time, part-time, or other basis, based upon numbers of employees for each of the pay periods for the preceding completed 12 calendar months. If a concern has not been in business for 12 months, the average number of employees is used for each of the pay periods during which it has been in business.

(B) Annual receipts are calculated as average total income plus cost of goods sold for the five most recent years. If a concern has been in operation for less than 60 months, average annual receipts for as long as the concern has been in operation are used.

State means any of the 50 States of the United States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Total project costs mean the sum of all costs associated with a completed project.

§ 4284.1104 Exception authority.

The Administrator may, on a case-by-case basis, grant an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal government. Exercise of this authority cannot conflict with applicable law.

§ 4284.1105 Review or appeal rights.

Agency decisions that are adverse to the individual participant are appealable, while matters of general applicability are not subject to appeal; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). All appeals will be conducted by NAD and will be handled in accordance with 7 CFR part 11.

§ 4284.1106 Conflict of interest.

(a) *General.* A situation in which a person has competing personal, professional, or financial interests that prevents the person from acting impartially.

(b) *Assistance to employees, relatives, and associates.* The Agency will process any requests for assistance under this subpart in accordance with 7 CFR part 1900, subpart D.

(c) *Member/Delegate clause.* No member of or delegate to Congress shall receive any share or part of this grant or any benefit that may arise therefrom; but this provision shall not be construed to bar, as a contractor under the grant, a publicly held corporation whose ownership might include a member of Congress.

§ 4284.1107 Statute and regulation references.

All references to statutes and regulations are to include any and all successor statutes and regulations.

§ 4284.1108 U.S. Department of Agriculture departmental regulations and laws that contain other compliance requirements.

(a) *Departmental regulations.* All projects funded under this subpart are subject to the provisions of the departmental regulations, as applicable, which are incorporated by reference herein.

(b) *Equal opportunity and nondiscrimination.* The Agency will ensure that equal opportunity and nondiscrimination requirements are met in accordance with the Equal Credit Opportunity Act, 15 U.S.C. 1691 *et seq.* and 7 CFR part 15d, Nondiscrimination in Programs or Activities Conducted by the United States Department of Agriculture. The Agency will not discriminate against applicants on the basis of race, color, religion, national origin, sex, marital status, or age (provided that the applicant has the capacity to contract); because all or part of the applicant's income derives from

any public assistance program; or because the applicant has in good faith exercised any right under the Consumer Credit Protection Act, 15 U.S.C. 1601 *et seq*.

(c) *Civil rights compliance*. Recipients of grants must comply with the Americans with Disabilities Act of 1990, 42 U.S.C. 12101 *et seq*., Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d *et seq*., and Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. 794. This includes collection and maintenance of data on the race, sex, and national origin of the recipient's membership/ownership and employees. These data must be available to conduct compliance reviews in accordance with 7 CFR 1901.204.

(1) Initial compliance reviews will be conducted by the Agency prior to funds being obligated.

(2) Grants will require one subsequent compliance review following project completion. This will occur after the last disbursement of grant funds has been made.

(d) *Environmental analysis*. 7 CFR part 1970 outlines environmental procedures and requirements for this subpart. Prospective applicants are advised to contact the Agency to determine environmental requirements as soon as practicable after they decide to pursue any form of financial assistance directly or indirectly available through the Agency. The applicant will be notified of all specific compliance requirements, including:

(1) Any required environmental review must be completed by the Agency prior to the Agency obligating any funds or the applicant taking any action;

(2) A site visit by the Agency may be scheduled, if necessary, to determine the scope of the review. An environmental review may include the publication of public notices, and consultation with State and Tribal Historic Preservation Offices and the U.S. Fish and Wildlife Service.

(e) *Discrimination complaints*—(1) *Who may file*. Persons or a specific class of persons believing they have been subjected to discrimination prohibited by this section may file a complaint personally, or by an authorized representative with USDA, Director, Office of Adjudication, 1400 Independence Avenue SW, Washington, DC 20250.

(2) *Time for filing*. A complaint must be filed no later than 180 days from the date of the alleged discrimination, unless a request for a waiver of the 180-day timeline is requested and the time for filing is extended by the designated officials of USDA or the Agency.

(3) *Filing a complaint*. To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD–3027, found online at *https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint* and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632–9992. Submit your completed form or letter to USDA by:

(i) *Mail:* U.S. Department of Agriculture, Office of Adjudication, 1400 Independence Avenue SW, Washington, DC 20250–9410;

(ii) *Fax:* (202) 690–7442; or

(iii) *Email: OAC@usda.gov*.

§ 4284.1109 Ineligible applicants.

Applicants will be ineligible to receive funds under this subpart as discussed in paragraphs (a) and (b) of this section.

(a) If the applicant has an outstanding judgment obtained by the U.S. in a Federal Court (other than in the United States Tax Court), is delinquent in the payment of Federal income taxes, or is delinquent on a Federal debt, the applicant is not eligible to receive a grant until the judgment is paid in full or otherwise satisfied or the delinquency is resolved. The Agency will check the Do Not Pay System to verify this information.

(b) If the applicant is debarred or suspended from receiving Federal assistance, the applicant is not eligible to receive a grant under this subpart. The Agency will check the System for Award Management (SAM) to determine if the applicant has been debarred or suspended.

§ 4284.1110 General applicant, application, and funding provisions.

(a) *Satisfactory progress*. A lead applicant that has received one or more

grants under this program must make satisfactory progress toward completion of any previously funded projects before the lead applicant will be considered for subsequent funding. Satisfactory progress is defined as 50% or greater of the previous RISE award being expended at the time the Agency makes its eligibility determination for a subsequent application.

(b) *Application submittal.* Applications must be submitted in accordance with the provisions of this subpart unless otherwise specified in a FEDERAL REGISTER notice. Grant applications for financial assistance under this subpart may be submitted at any time with awards made annually based on the application's score and subject to available funding.

(c) *Limit on number of applications.* An applicant can apply for and compete only one RISE project under this subpart per Federal fiscal year, unless otherwise noted in a FEDERAL REGISTER notice.

(d) *Application modification.* Once submitted and prior to Agency award, if an applicant significantly modifies its application or scope of work, the application will be treated as a new application. The submission date of record for such modified applications will be the date the Agency receives the modified application, and the application will be processed by the Agency as a new application under this subpart. Applications that are modified due only to partial funding being available for the selected award are not subject to this provision.

(e) *Incomplete applications.* Applicants must submit a complete application in compliance with § 4284.1115 in order to be considered for funding. If an application is incomplete, the Agency will identify those parts of the application that are incomplete and return the documents, with a written explanation, to the applicant for possible future resubmission. Upon receipt of a complete application by the appropriate Agency office, the Agency will complete its evaluation and will compete the application in accordance with the procedures specified in § 4284.1118, as applicable.

(f) *Application withdrawal.* During the period between the submission of an application and the execution of grant award documents for an application selected for funding, the applicant must notify the Agency, in writing, if the project is no longer viable or the applicant is no longer requesting financial assistance for the project. When an applicant withdrawal request is received by the Agency, the selection will be rescinded and/or the application withdrawn from further processing and funding consideration.

(g) *Time limit on use of grant funds.* Except as provided in paragraph (g)(1) of this section, grant funds not expended within the initial grant term of 4 years from the date the financial assistance agreement was signed by the Agency will be returned to the Agency.

(1) *Time extensions.* The Agency may extend the 4-year grant time limit if the Agency determines, at its sole discretion, that the grantee is unable to complete the project for reasons beyond the grantee's control and that the grantee has established an active jobs accelerator and related programming. Grantees must submit a request for the no-cost extension no later than 90 days before the expiration date of the Financial Assistance Agreement. This request must describe the extenuating circumstances that were beyond its control to complete the project for which the grant was awarded, elements of completion that are required and their timeframe, and why an approval is in the government's best interest. The Agency may extend the grant term up to an additional two-year period. Additional extensions will not be granted.

(2) *Return of funds to the Agency.* Funds that exceed the amount the grantee is entitled to receive under the financial assistance agreement or that are remaining after grant closeout will be returned to the Agency.

§ 4284.1111 Notifications.

(a) *Eligibility.* If an applicant or its project is determined by the Agency to be ineligible at any time, the Agency will inform the applicant, as applicable, in writing of the decision, reasons therefore, and any applicable appeal

rights. No further processing of the application or disbursement of grant proceeds, if funds have been previously awarded, will occur.

(b) *Funding determinations.* Each applicant, as applicable, will be notified of the Agency's funding decision on its application. If the Agency's decision is to not fund an application, the Agency will notify the applicant in writing including the reasons for the determination and any applicable appeal or review rights.

§ 4284.1112 Rural jobs accelerator partnership eligibility.

A rural jobs accelerator partnership (Partnership) organizes key community and regional stakeholders into a working group that focuses on the shared goals and needs of the targeted industry cluster(s). To be eligible for a RISE grant under this subpart, the Partnership must be formed on or after December 20, 2018, and meet each of the criteria specified in paragraphs (a) through (d) of this section. The Agency will determine a Partnership's eligibility based on the criteria herein.

(a) The Partnership must include one or more representatives of the following:

(1) A State, Tribal or local government;

(2) A State, Tribal, or local government entity;

(3) A land-grant college or university or other institution of higher education, as defined in the Higher Education Act of 1965 (20 U.S.C. 1001);

(4) A rural non-profit cooperative; or

(5) A private entity, which may include a business in an industry cluster, economic development or community development organization, financial institution including a community development financial institution, philanthropic organization or labor organization.

(b) The Partnership must have a lead applicant represented by one of the following:

(1) A district organization;

(2) An Indian Tribe or a political subdivision of a Tribe, including a special purpose unit of a tribal government engaged in economic development activities, or a consortium of Indian Tribes;

(3) A State or a political subdivision of a State, including a special purpose unit of a State or local government engaged in economic development activities, or a consortium of political subdivisions;

(4) An institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) or a consortium of institutions of higher education; or

(5) A public or private nonprofit organization.

(c) The Partnership and its project must serve a rural region, as defined.

(d) The Partnership must clearly define the region that the partnership represents and ensure that the Region encompasses each of the following:

(1) Is large enough to contain critical elements of the industry cluster prioritized by the partnership;

(2) Is small enough to enable close collaboration among members of the partnership;

(3) Includes a majority of communities that are located in the following:

(i) A nonmetropolitan area that qualifies as a low-income community; and

(ii) An area that has access to or has a plan to achieve broadband service, as defined; and

(4) Has a population of 50,000 or fewer inhabitants or, for a region with a population of more than 50,000 inhabitants, is comprised of rural areas and urbanized areas, if any, are the subject of a positive determination by the Under Secretary for Rural Development with respect to a rural-in-character petition, including such a petition submitted concurrently with the application of the partnership for a grant under this section.

(e) One or more members of the Partnership must be located in the targeted region. The Partnership may consist of industry entities and other partners outside of the targeted region.

§ 4284.1113 Project eligibility.

For a project to be eligible to receive a RISE grant under this subpart, the proposed project must meet the requirements specified in paragraphs (a) through (e) of this section. The applicant project outcome must accelerate the formation of new businesses with

high-growth potential, improve the ability of rural businesses and distressed rural communities to create high-wage jobs, and strengthen rural regional economies by engaging in one or more of the following eligible uses:

(a) The construction or purchase of a building to serve as an innovation center located in a rural low-income community which establishes and/or supports a jobs accelerator and any equipment needs of the innovation center to support the jobs accelerator;

(b) Be for the support of programs to be carried out at or in direct partnership with the jobs accelerator or in support of jobs accelerator initiatives including one or more of the following:

(1) Linking rural communities and entrepreneurs to markets, networks, industry clusters, and other regional opportunities to support high-wage job creation, new business formation, business expansion, and economic growth of rural communities;

(2) Integrating rural small businesses into a supply chain;

(3) Creating or expanding commercialization activities for new business formation in rural areas;

(4) Identifying and building assets in rural communities that are crucial to supporting regional economies;

(5) Facilitating the repatriations of high-wage jobs to the United States;

(6) Supporting the deployment of innovative processes, technologies, and products;

(7) Enhancing the capacity of rural small businesses in regional industry clusters, including small and disadvantaged businesses;

(8) Increasing United States exports and business interaction with international buyers and suppliers;

(9) Developing the skills and expertise of local workforces, entrepreneurs, and institutional partners in the region to meet the needs of employers and prepare workers for high-wage jobs in the identified industry clusters, including the upskilling of incumbent workers;

(10) Ensuring rural communities have the capacity and ability to carry out projects relating to housing, community facilities, infrastructure, or community and economic development to support regional industry cluster growth;

(11) Any activities that the Agency may determine to be appropriate, as specified in a FEDERAL REGISTER notice.

(c) Not more than 10 percent of a RISE grant awarded under this section shall be used for indirect costs of the applicant associated with administering the RISE grant. The Agency may increase this percentage as a documented exception on a case by case basis.

(d) The innovation center may be physically located in a rural area as defined in § 4284.1103 or in a non-rural area; as long as assistance being provided is to residents located in a rural area. The innovation center must be located in a rural low-income community if grant funds are used for the construction or purchase of an innovation center.

(e) The applicant is cautioned against taking any actions or incurring any obligations prior to the Agency completing the environmental review that would either limit the range of alternatives to be considered or that would have an adverse effect on the environment, such as the initiation of construction. If the applicant takes any such actions or incurs any such obligations, it could result in project ineligibility. Projects involving the construction of an innovation center as an eligible purpose are subject to the environmental requirements of 7 CFR part 1970.

§ 4284.1114 RISE grant funding.

(a) *Grant amounts.* The amount of grant funds that will be made available to a Partnership under this subpart will not exceed 80 percent of eligible project costs. The Federal share of the cost of any activity carried out using a grant under this section shall not be greater than 80 percent.

(1) *Minimum request.* Unless otherwise specified in a FEDERAL REGISTER notice, the minimum request for a RISE grant application is $500,000.

(2) *Maximum request.* Unless otherwise specified in a FEDERAL REGISTER notice, the maximum request for a RISE grant application is $2,000,000.

(b) *Matching funds.* The applicant is responsible for securing the matching funds for total eligible project costs that are not covered by grant funds. The non-Federal share of the total eligible project costs of any activity carried out using a grant under this section may be in the form of third-party equity contributions including donations and in-kind contributions of fairly-valued goods or services.

(c) *Eligible project costs.* Eligible project costs are only those costs incurred after a complete application has been received by the Agency and are associated with the items identified in paragraphs (c)(1) through (6) of this section. The applicant is responsible for any expenses incurred in developing its application. Each item identified in paragraphs (c)(1) through (6) of this section is only an eligible project cost if it is directly related to, and its use and purpose is limited to the RISE grant project. Any building or equipment purchased with grant proceeds must be owned and controlled by the lead applicant. The following is a list of eligible project costs:

(1) Costs directly related to the purchase or construction of an innovation center;

(2) Costs directly related to operations of an innovation center including purchase of equipment, office supplies, and administrative costs including salaries directly related to the project;

(3) Costs directly associated with support programs to be carried out at or in direct partnership with job accelerators;

(4) Reasonable and customary travel expenses directly related to job accelerators and at rates in compliance with 2 CFR 200.474;

(5) Utility costs, operating expenses of the innovation center and job accelerator programs and associated programs;

(6) Administrative costs of the grantee will not exceed 10% of the grant amount for the duration of the project.

(d) *Ineligible project costs.* Ineligible project costs and uses of funds for RISE projects include, but are not limited to:

(1) Costs associated with preparation of an application package under this notice;

(2) Costs incurred prior to Agency receipt of a complete application for the grant request made under a funding notice;

(3) Funding of any political or lobbying activities;

(4) Payment for assistance to any private business enterprise which does not create and/or support jobs in a rural area of the United States;

(5) Payment of any judgment or debt owed to the United States;

(6) Duplicate current services or substitute support previously provided. If the current service is inadequate, however, grant funds may be used to expand the level of effort or services beyond what is currently being provided;

(7) To fund a part of a project that is dependent on other funding unless there is a firm commitment of the other funding to ensure completion of the project;

(8) Pass through grants; and

(9) costs associated with hemp production, unless a hemp producer has a valid license issued from an approved State, Tribal or Federal plan as per Section 10113 of the Agriculture Improvement Act of 2018, Public Law 115–334 (verification of valid hemp licenses will occur at the time of award).

§ 4284.1115 RISE grant applications—content.

(a) A potential applicant for RISE may submit a concept proposal not less than 60 days in advance of the application submittal deadline as published in the FEDERAL REGISTER for review by the Agency. This concept proposal will be evaluated, and an encouragement or discouragement letter will be issued to the potential applicant. If a discouragement letter is issued, it will detail any weaknesses evaluated in the Agency's review, though a complete application may still be submitted prior to the application deadline. The concept proposal may be up to 10 pages in length using a minimum of 11-point font. The concept proposal should be in a narrative format and must include the following:

(1) Partnership information including the members and structure of the Partnership, the date formalized, and the governance or leadership board. The information will identify the lead applicant and each partner's ties to the region, their roles in the delivery of the RISE program and any history of previous collaboration between partners. The amount and source of anticipated matching funds will also be provided.

(2) Describe the geographic region to be served including the total population, economic characteristics of the region such as unemployment rates and income levels. Industry sectors, their status, size and economic contribution to the region and all communities including metropolitan statistical areas and nonmetro low income communities within the region should be identified. The availability and planned enhancements of broadband service and other assets of the region should also be identified. If the region to be served has a population of more than 50,000 inhabitants, the applicant must document why they believe the area is ''rural in character'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base.

(3) Identify the industry cluster(s) that will be prioritized by the Partnership with information on the firms and support industries in those clusters. Describe the status of the industry (as emerging, existing, or declining) any existing interconnection and networks within the industry cluster and describe participation and scale of small and disadvantaged businesses within the industry cluster. Describe the opportunities or potential of industry growth in the region and competitive advantages of the region and industry cluster should be highlighted along with opportunities within the industry for the creation of or upgrading to high-wage jobs.

(4) An executive summary, project plan and scope of work must be provided with the applicant's strategy, activities, budget, goals and objectives for the use of RISE funds. The applicant should also provide information on the sustainability of the partnership and jobs accelerator at the conclusion of the RISE grant period.

(b) Unless otherwise specified in a FEDERAL REGISTER notice, applicants may only submit one RISE grant application each Federal fiscal year.

(1) The lead applicant must be registered in the System for Award Management (SAM) and is responsible for submitting a complete application as specified in (b)(2)(i) through (b)(2)(xiv) of this section.

(2) There are no specific limitations on the number of pages or other formatting requirements of an application. Applicants, who submitted a concept proposal to the Agency, will not need to resubmit the information found in (b)(2)(ix) below. The Agency will review and retain this information for application submittal. A complete application will consist of the following components unless otherwise specified in a FEDERAL REGISTER notice:

(i) Form SF–424, ''Application for Federal Assistance;''

(ii) Form SF–424A, ''Budget Information—Non-Construction Programs,'' if applicable;

(iii) Form SF–424C, ''Budget Information—Construction Programs,'' if applicable;

(iv) Form SF–424D, ''Assurances—Construction Programs,'' if applicable;

(v) RD Form 400–1, ''Equal Opportunity Agreement,'' for construction projects only;

(vi) Identify the ethnicity, race, and gender characteristics of the lead applicant's leadership. This information is optional and is not a required component for a complete application;

(vii) Certification that the lead applicant is a legal entity in good standing (as applicable) and operating in accordance with the laws of the State(s) or Tribe where the applicant exists;

(viii) The lead applicant must identify whether or not the lead applicant has a known relationship or association with an Agency employee and, if there is a known relationship, the lead applicant must identify each Agency employee with whom the lead applicant has a known relationship;

(ix) All items required in paragraph (a) of this section must be provided with the application (applicants must provide updates, as appropriate, to any

items previously submitted as a concept proposal under paragraph (a));

(x) Readiness demonstration, which shall be comprised of the following items:

(A) Description of readiness of all partners of the Partnership to contribute to the project including their ability to coordinate activities, finances and outcomes of the project.

(B) Evidence of a formal agreement among partners of the Partnership for delivery of the RISE program.

(C) Evidence of demonstrated readiness in administering the RISE grant, if awarded, including demonstration of potential success in establishment of a jobs accelerator project, which targets an industry cluster and the initiatives of the RISE grant. The application should indicate when activities related to the expected outcomes will commence.

(D) Description of how the project will be marketed in the region and how the Partnership will capture any program impacts and success stories; and

(E) Timeline describing the proposed tasks to be accomplished and the schedule for implementation of each task.

(xi) Provide documentation on how the RISE project will impact the initiatives below, as applicable, including a brief description of how and when the initiative will be delivered:

(A) Linking rural communities and entrepreneurs to markets, networks, industry clusters, and other regional opportunities to support high-wage job creation, new business formation, business expansion, and economic growth;

(B) Integrating small businesses into a supply chain;

(C) Creating or expanding commercialization activities for new business formation;

(D) Identifying and building assets in rural communities that are crucial to supporting regional economies;

(E) Facilitating the repatriation of high-wage jobs to the United States;

(F) Supporting the deployment of innovative processes, technologies, and products;

(G) Enhancing the capacity of small businesses in regional industry clusters, including small and disadvantaged businesses;

(H) Increasing United States exports and business interaction with international buyers and suppliers;

(I) Developing the skills and expertise of local workforces, entrepreneurs, and institutional partners to meet the needs of employers and prepare workers for high-wage jobs in the identified industry clusters, including the upskilling of incumbent workers;

(J) Ensuring rural communities have the capacity and ability to carry out projects related to housing, community facilities, infrastructure, or community and economic development to support regional industry cluster growth;

(xii) Potential to produce high-wage jobs and benefit rural small and disadvantaged businesses, including a description of the following:

(A) Describe how the project will develop the skills and expertise of the local workforce, entrepreneurs and institutional partners to meet the needs of employers and prepare high-wage jobs in the targeted industry cluster(s), which may also include the upskilling of incumbent worker;

(B) Demonstrate how the project will benefit the skills and expertise of small and disadvantaged businesses, as applicable;

(C) Demonstrate any participation of higher education, applied research institutions, workforce development entities and community-based organizations, that are willing to partner with the project to provide workers with skills relevant to the industry cluster needs of the region, with an emphasis on the use of on-the-job training, classroom occupational training or incumbent worker training, as applicable; and

(D) Demonstrate any participation of investment organizations, venture development organizations, venture capital firms, revolving loan funders, angel investment groups, community lenders, community development financial institutions, rural business investment companies, small business companies (as defined in Section 103 of the Small Business Investment Act of 1958 (15 U.S.C. 662)), philanthropic organizations, and other institutions focused on expanding access to capital,

are committed partners in the job accelerator partnership and willing to potentially invest in projects emerging from the jobs accelerator.

(xiii) Describe the targeted region, including the following information:

(A) Provide the latest Census Bureau information on the targeted region's median household income.

(B) Provide the latest Census Bureau information on the targeted region's educational attainment, specifically the percentage of the population who hold a bachelor's degree.

(C) Discuss how any direct career training will be provided to existing residents of the region (existing residents being those persons who live in the region at the time of application submission).

(D) Discuss any local support for the RISE project.

(E) Discuss the entrepreneurial commitment to the RISE project.

(F) Discuss any innovative processes and technologies to be utilized in the targeted industry cluster(s) of the RISE project.

(G) Discuss the initial and continuing capital investment in the RISE project.

(H) Discuss any demand for regional and global markets of the product and/or service provided by the targeted industry cluster.

(I) Discuss if the region contains any areas or communities that qualify for federal initiatives.

(J) Elaborate on the current broadband service within the region and any plans to leverage the current broadband service or enhance broadband service in the region through the RISE project.

(xiv) Financial information, including the following:

(A) Identification of matching funds and other sources of funds for the project. Provide written commitments for matching funds and other sources of funds at the time the application is submitted.

(B) Current financial statements and a narrative description demonstrating financial feasibility and sustainability of the project, all of which demonstrate sufficient resources and expertise to undertake and complete the project and how the project will be sustained following completion.

(c) Upon receipt of a complete application, the Agency will determine if the applicant and project are eligible and whether the intended outcomes described meet the requirements of the RISE program. If the application is ineligible or not feasible, the Agency will inform the applicant in writing of the reasons for the Agency's determination and no further evaluation of the application will occur.

§ 4284.1116 [Reserved]

§ 4284.1117 Scoring RISE grant applications.

The Agency will score each complete and eligible RISE application using the criteria specified in paragraphs (a) through (g) of this section, unless otherwise specified in a FEDERAL REGISTER notice, with a maximum score of 100 points possible. Points will be allowed only for factors indicated by well documented, reasonable plans which, in the opinion of the Agency, provide assurance that the items have a high probability of being accomplished. Points shall be awarded at the discretion of the Agency to scoring criteria with a minimum and maximum number of points available. Applicants that demonstrate the experience or ability to deliver the stated criteria will be awarded higher points in that criteria.

(a) *Demonstrated readiness.* The Partnership demonstrated readiness in administering the RISE grant successfully and shows strong documentation indicating the potential for success in establishing a jobs accelerator project which targets an industry cluster and the initiative(s) of the RISE grant program. Points are awarded on a scale of 0 to 10 with a maximum of 10 points being awarded.

(b) *Targeted initiatives.* A maximum of 15 points will be awarded for this criterion based on meeting the targeted initiatives as stated in § 4284.1115(b)(2)(xi) with action narratives outlined in the application on how and when the initiatives will be delivered. More points will be awarded for reasonable initiatives that can be delivered within 12 months of the grant award and for those projects leveraging improvements in high-speed broadband service to the region.

(c) *Project support.* Points will be awarded for the strength of local support of the RISE project and entrepreneurial commitment. A maximum of 15 points can be awarded for application materials that indicate the strength of support for the RISE project. Points will be awarded from the partnership's demonstration of its sources of funding, personnel and technical resources committed to the project, and a focus on the inclusion of institutional partners expanding access to capital and willingness to potentially invest in projects emerging from the jobs accelerator. Points shall also be awarded for demonstrated resources that will sustain the project beyond the term of the RISE grant period.

(d) *Targeted region.* A maximum of 20 points will be awarded for this criterion based on the region's demographics according to the latest census information. The applicant must provide adequate documentation to the latest census information to receive points.

(1) If the targeted region has a median household income of:

(i) 50% or less of state median household income; 5 points will be awarded;

(ii) Over 50% and up to 80% of state median household income; 3 points will be awarded.

(2) If the targeted region residents have the educational attainment of a bachelor's degree by:

(i) 10% or less of the population; 5 points will be awarded;

(ii) Over 10% and up to 30% of the population; 3 points will be awarded.

(3) Existing residents of the targeted region will receive direct career training for new employment or upscaling to a high-wage job; 5 points will be awarded.

(4) If the identified region has fewer than 50,000 residents according to the most recent decennial census; 5 points will be awarded.

(e) *RISE grant funds requested.* A maximum of 10 points will be awarded for this criterion if:

(1) The RISE grant request is for $500,000 to $750,000; 10 points will be awarded.

(2) The RISE grant request is for over $750,000 and up to $1,000,000; 5 points will be awarded.

(f) *Regional impact.* Points are awarded on a scale of 0 to 5 points for each category, with a total maximum of 20 points being awarded for this criterion. To receive points, the applicant must provide documentation to warrant strength on the following criteria, with points awarded for each:

(1) Targeted industry(ies) in the region is classified as an emerging industry;

(2) Applicant demonstrates that the targeted industry(ies) in the region hold a competitive advantage or will enhance their competitive advantage through the RISE project;

(3) Applicant demonstrates that industry provides significant support of regional assets, including broadband, and provides community and economic development support within the region;

(4) The RISE project's forecasted outcomes align with RISE objectives; and

(5) The RISE project will target support to existing industry(ies), whose significance in the region may be stagnant or on the decline but can be enhanced through the benefits of the RISE project.

(g) *Administrator points.* A maximum of 10 points will be awarded, with justification, at the discretion of the Agency Administrator, as announced in a FEDERAL REGISTER notice.

§ 4284.1118 Selecting RISE grant applications for award.

Unless otherwise provided for in a FEDERAL REGISTER notice, RISE grant applications will be evaluated, assigned priority points as described in § 4284.1117 and ranked from highest to lowest score for funding consideration, subject to the availability of funding.

§ 4284.1119 Awarding and Administering RISE Grants.

The Agency will award and administer RISE grants in accordance with departmental regulations and with the procedures and requirements specified in this part.

(a) *Bonding and insurance.* The applicant must provide satisfactory evidence to the Agency that all officers of the applicant organization are authorized to receive and/or disburse Federal funds and are covered by such bonding

and/or insurance requirements as are normally required by the applicant.

(b) *Letter of conditions.* A letter of conditions will be prepared by the Agency, establishing conditions that must be agreed to by the applicant before any obligation of funds can occur. Upon reviewing the conditions and requirements in the letter of conditions, the applicant must complete, sign, and return the Form RD 1942–46, ''Letter of Intent to Meet Conditions,'' and Form RD 1940–1, ''Request for Obligation of Funds,'' to the Agency if it accepts the conditions of the grant; or if certain conditions cannot be met, the applicant may propose alternate conditions in writing to the Agency. The Agency must resolve or concur with any changes proposed by the applicant to the letter of conditions before the application will be further processed.

(c) *Evidence of matching funds.* The applicant is responsible for providing documentation that the required matching funds for the project have been received or remain committed at the date a financial assistance agreement is executed with the Agency.

(d) *SAM requirements.* Each applicant applying for grant funds (unless an exception, as outlined in 2 CFR 25.110(a) through (d), is approved by the Agency) is required to:

(1) Be registered in SAM before submitting its application;

(2) Provide a valid unique entity identifier in its application; and

(3) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency.

(e) *Financial assistance agreement.* Once the requirements specified in paragraphs (a) through (d) of this section have been met, the financial assistance agreement can be executed by the lead applicant and the Agency. The applicant must abide by all requirements contained in the financial assistance agreement, this subpart, and any other applicable Federal statutes or regulations. Failure to follow these requirements might result in termination of the grant and adoption of other available remedies.

(f) *Grant approval.* The lead applicant will be sent an executed copy of the executed Form RD 1940–1, ''Obligation of Funds,'' and the financial assistance agreement.

§ 4284.1120 Servicing RISE grants.

The Agency will service RISE grants in accordance with the requirements specified in departmental regulations, the financial assistance agreement, 7 CFR part 1951, subparts E and O, other than 7 CFR 1951.709(d)(1)(i)(B)(iv), and the requirements in § 4284.1120, except as specified in paragraphs (a) through (d) of this section.

(a) *Inspections.* Grantees must permit periodic inspection of the project records and operations by a representative of the Agency.

(b) *Programmatic changes.* Grantees may make changes to an approved project's costs, scope, contractor, or vendor subject to the provisions specified in paragraphs (b)(1) through (3) of this section. If the changes result in lowering the project's score to below what would have qualified the application for an award, the Agency will not approve the changes.

(1) *Prior Agency approval.* The grantee must obtain prior Agency approval for any change to the scope, contractor, or vendor of the approved project. Changes in project cost will require Agency approval as outlined in paragraph (b)(1)(iii) of this section.

(i) Grantees must submit requests for programmatic changes in writing to the Agency for Agency approval.

(ii) Failure to obtain prior Agency approval of any such change could result in such remedies as suspension, termination, and recovery of grant funds.

(iii) Prior Agency approval is required for all increases in project costs. Prior Agency approval is required for a decrease in project cost only if the decrease would have a negative effect on the long-term viability of the project. A decrease in project cost that does not have a negative impact on long-term viability requires Agency notification prior to disbursement of funds. If project costs decrease, the Agency will reduce the grant amount, if necessary, to maintain a maximum grant amount of no greater than 80 percent of total

project activities as required in § 4284.1114(a).

(2) *Changes in project cost or scope.* If there is a significant change in project cost or any change in project scope, then the grantee's funding needs, eligibility, and scoring, as applicable, will be reassessed. Any decreases in Agency funds will be based on revised project costs and other factors, including Agency regulations used at the time of grant approval.

(3) *Change of contractor or vendor.* When seeking a change, the grantee must submit a written request to the Agency for approval. The proposed new contractor or vendor must have qualifications and experience acceptable to the Agency. The written request must contain sufficient information to demonstrate to the Agency's satisfaction that such change maintains project integrity. If the Agency determines that project integrity continues to be demonstrated, the grantee will be allowed to make the change. If the Agency determines that project integrity is no longer demonstrated, the change will not be approved and the grantee has the following options:

(i) Continue with the original contractor or vendor;

(ii) Find another contractor or vendor that has qualifications and experience acceptable to the Agency to complete the project; or

(iii) Terminate the grant by providing a written request to the Agency. No additional funding will be available from the Agency if costs for the project have increased. Any Agency decision will be provided in writing to the lead applicant.

(c) *Transfer of Applicant or Ownership.* Any change to the jobs accelerator partnership prior to the obligation of funds must be approved by the Agency and will only be considered if the partnership entities are eligible in accordance with § 4284.1112. After the project is obligated and operational, the applicant grantee may request, in writing, a transfer of the financial assistance agreement to another entity. Subject to Agency approval provided in writing, the financial assistance agreement may be transferred to another entity provided:

(1) The entity is determined by the Agency to be an eligible lead applicant entity under this subpart; and

(2) The scope of the project for which the Agency funds will be used remain unchanged.

(d) *Disposition of acquired property.* Grantees must abide by the disposition of acquired asset requirements as outlined in 2 CFR part 200 and departmental regulations.

(e) *Financial management system and records.* The grantee must provide for financial management systems and maintain records as specified in paragraphs (e)(1) and (2) of this section.

(1) *Financial management system.* The grantee will provide for a financial system that will include:

(i) Accurate, current, and complete disclosure of the financial results of each grant;

(ii) Records that identify adequately the source and application of funds for grant-supporting activities, together with documentation to support the records. Those records must contain information pertaining to grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and income; and

(iii) Effective control over and accountability for all funds. The grantee must adequately safeguard all such assets and must ensure that funds are used solely for authorized purposes.

(2) *Records.* The grantee will retain financial records, supporting documents, statistical records, and all other records pertinent to the grant for a period of at least three (3) years after completion of the grant period, except that the records must be retained beyond the 3-year period if audit findings have not been resolved or if directed by the United States. The Agency and the Comptroller General of the United States, or any of their duly authorized representatives, must have access to any books, documents, papers, and records of the grantee that are pertinent to the specific grant for the purpose of making audit, examination, excerpts, and transcripts.

(f) *Audit requirements.* If applicable, grantees must provide an annual audit in accordance with 2 CFR part 200, subpart F. The Agency may exercise its right to do a program audit after the

end of the project to ensure that all funding supported eligible project costs.

(g) *Grant disbursement.* The Agency will determine, based on the applicable departmental regulations, whether disbursement of a grant will be by advance or reimbursement. Any funds disbursed in advance of the expense shall be used within three months and the financial need substantiated in writing by the grantee. Form SF–270 or Form SF–271 must be completed by the grantee and submitted to the Agency no more often than monthly to request either an advance or reimbursement of funds.

(h) *Reporting Requirements.* Financial and project performance reports must be provided by grantees and contain the information specified in paragraphs (h) (1) and (2) of this section.

(1) *Federal Financial Reports.* Between grant approval and completion of project (*i.e.*, construction), SF–425, ''Federal Financial Report'' will be required of all grantees as applicable on a semiannual basis. The grantee will complete the project within the total sums available to it, including the grant, in accordance with the scope of work and any necessary modifications thereof prepared by grantee and approved by the Agency.

(2) *Performance reports.* Grantees shall submit a performance report semi-annually for the first two years, and then annually thereafter, with the first report submitted no later than six months after receiving a grant under this section. This report will include, but not be limited to, the following:

(i) All activities funded with the grant funds;

(ii) Evaluation of progress towards strategic initiatives identified in the application for the grant, including a discussion of any issues which may have occurred;

(iii) Measurement of progress using performance measures during the project period, which may include the following:

(A) High-wage jobs created;

(B) High-wage jobs retained;

(C) Private investment leveraged;

(D) Businesses improved;

(E) Businesses retained;

(F) New business formations;

(G) New products, prototypes and/or services commercialized;

(H) Improvement of the value of existing products or services under development;

(I) Regional collaboration as measured by the number of organizations actively engaged in the industry cluster and/or the number of symposia held by the industry cluster, including organizations that are not located in the immediate region defined by the partnership and/or the number of further cooperative agreements;

(J) Number of educations and training activities relating to the innovation;

(K) Number of innovative products, services and/or prototypes launched;

(L) Number of jobs relocated from outside of the United States to the region;

(M) Amount and number of new equity investments in industry cluster firms;

(N) Amount and number of new loans to industry cluster firms;

(O) Dollar increase in exports resulting from the project activities;

(P) Percentage of employees for which training was provided;

(Q) Improvement in sales of participating businesses;

(R) Improvement in wages paid at participating businesses;

(S) Improvement in income of participating workers;

(T) Any measure determined appropriate by the Agency; and

(U) Broadband development in the targeted region.

(iv) Initiatives and timetable established for the next reporting period; and

(v) Any additional information as found in the annual FEDERAL REGISTER notice.

§§ 4284.1121—4284.1130 [Reserved]

§ 4284.1131 OMB control number.

The information collection requirements in this subpart are approved by the Office of Management and Budget (OMB) and assigned OMB control number 0570–0075.

Subpart A—Federal-State Research on Cooperatives Program

§ 4285.1 Objective.

This subpart sets forth the policies and procedures and delegates authority for providing Federal-State Research on Cooperatives cooperative agreement funds to finance programs of research on cooperatives as authorized under Section 204 (b) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1623 (b)). The primary purpose of this matching fund program, via cooperative agreements, is to encourage State Departments of Agriculture and State Agricultural Experiment Stations in conducting research related to agricultural cooperatives.

§ 4285.2 Cooperative agreement purposes.

Rural Development Administration (RDA) or its successor agency may enter into a cooperative agreement with a State agency to provide funds to the State agency to:

(a) Conduct marketing research related to agricultural cooperatives.

(b) Assist other organizations in conducting marketing research related to agricultural cooperatives.

§ 4285.3 Definitions.

As used in this part:

Agreement period. The total period of time approved by the Assistant Administrator for Cooperative Services for conducting the proposed project as outlined in an approved application. The time period is normally no more than 3 years, renewable for cause not to exceed a total of 4 fiscal years.

Agricultural products. Agricultural products include agricultural, horticultural, viticultural, and dairy products, livestock and poultry, bees, forest products, fish and shellfish, and any products thereof, including processed or manufactured products, and any and all products raised or produced on farms and any processed or manufactured product thereof.

Assistant Administrator for Cooperative Services. The Assistant Administrator for Cooperative Services, Rural Development Administration or its successor agency, USDA or any authorized delegate.

Awarding official. The Assistant Administrator for Cooperative Services or authorized delegate.

Cooperative agreement. A legal instrument reflecting a relationship between the United States Government and a State where:

(1) The principal purpose of the relationship is the transfer of money, property, services, or anything of value to the State agency to carry out research related to cooperatives; and

(2) Substantial involvement is anticipated between RDA or its successor agency, acting for the Federal Government, and the State or other recipient during performance of the research in the agreement.

Cooperator. The State agency designated in the cooperative agreement

award document as the responsible legal entity to whom a cooperative agreement is awarded under this part.

Department. The U.S. Department of Agriculture.

Methodology. The research approach to be followed to carry out the project.

Principal investigator. A single individual who is responsible for the scientific and technical direction of the project, as designated by the cooperator in the cooperative agreement application and approved by the Assistant Administrator for Cooperative Services.

Project. The particular activity within the scope of one or more of the research program areas identified in the annual program solicitation that is supported by a cooperative agreement under this part.

State agencies. State agencies include, among others, State Agricultural Experiment Stations and State Departments of Agriculture in the 50 States, the Virgin Islands, and Guam, and other appropriate State agencies. Final determination of whether certain 1890 or 1862 Land Grant institutions qualify as state agencies will be determined on a case-by-case basis by the Office of the General Counsel (OGC), USDA.

§§ 4285.4–4285.23 [Reserved]

§ 4285.24 Eligibility.

To enter into a cooperative agreement for these funds, the applicant must:

(a) Be a State Agency as defined in § 4285.3 of this subpart;

(b) Have the financial, legal, administrative, and actual capacity to assume and carry out the responsibilities imposed by the Agreement. To meet the requirement of actual capacity it must either:

(1) Have necessary background and experience with proven ability to perform responsibly in the field of economic, business management, or other needed research area; or

(2) Have the necessary administrative and supervisory controls in place to assure an agreed upon contracting organization has the proven ability to perform responsibly in the field of economic, business management, or other needed research area;

(c) Legally obligate itself to administer cooperative agreement funds, provide adequate accounting of the expenditure of such funds, and comply with the cooperative agreement;

(d) Provide at least 50 percent of the funds necessary to conduct the research from non-federal funds; and

(e) Agree to conduct proposed research related to cooperatives and agricultural marketing.

§ 4285.25 Authorized use of cooperative agreement funds.

Funds received for research under cooperative agreements in this program shall only be used for:

(a) Payment of salaries and necessary employee benefits of personnel as agreed upon in the Cooperative Agreement. Included are salaries and benefits of State employees assigned full-time to one or more projects, or the percent of the salaries and benefits related to project work for State employees assigned part-time to research on one or more projects. Salaries and benefits include basic salary, other compensation such as holiday pay, sick or annual leave, and personnel benefits (quarters allowance, payments to other funds such as employees' life insurance, health benefits, retirement, Federal Insurance Contributions Act (FICA), accident compensation, and similar payments). For any of the benefit items when the State usually pays the employer share, Federal funds may be used to pay the proportionate share of such employer contributions.

(b) Payment of necessary and reasonable office expenses such as office rental, office utilities, and office equipment rental. The purchase of office equipment is permissible when the cooperator determines it to be more economical than renting. However, as a general rule, these types of expenses would be classified as indirect costs in multiple funded organizations and would not be an allowable expense. Planned purchases of equipment costing more than $200 per unit must be approved by RDA or its successor agency. Equipment purchased becomes State property pursuant to the cooperative agreement.

(c) Payment of necessary and reasonable costs of printing publications of

research project results. However, all such publications should show the RDA or its successor agency as cooperator in the project and bear the following statement: ''State funds for this project (publication) were matched with Federal funds under the Federal-State Research on Cooperatives Program of the U.S. Department of Agriculture, Rural Development Administration or its successor agency, Cooperative Services, as provided by the Agricultural Marketing Act of 1946 and (appropriate) fiscal year appropriations.''

(d) Purchase of office supplies (such as paper, pens, pencils, and trade magazines) and postage needed for project activities.

(e) Payment of necessary and reasonable travel expenses.

§§ 4285.26–4285.45 [Reserved]

§ 4285.46 Prohibited use of cooperative agreement funds.

(a) The Agricultural Marketing Act prohibits the use of Federal funds to pay for newspaper or periodical space and radio and television time, either directly to the media or indirectly though an advertising agency or other firm. County and State fair exhibits, as well as commodity months and weeks, are also excluded as the research on cooperatives program activities.

(b) Federal funds cannot be used to purchase products or samples of products to give away to the public.

(c) Federal program funds cannot be used to purchase:

(1) Promotional pieces such as point-of-sale materials, promotional kits, billboard space and signs, streamers, automobile stickers, table tents, and placemats; or

(2) Promotion items of a personal gift nature.

(d) Cooperative agreement funds cannot be used to conduct general publicity or information programs designed to build the image of the State's agriculture or of a particular State Department of Agriculture or Agricultural Experiment Station.

(e) Project funds cannot be used to pay for the salary and travel of employees of cooperatives, trade associations, commodity groups, and other industry organizations, or of State personnel while engaged in managing market orders, cooperatives, or other group endeavors.

(f) Commissioners, Directors, and Secretaries of State Departments of Agriculture, Agricultural Experiment Stations, and other State agencies cannot charge their salaries and travel to project funds, with the exception of travel to workshops or conferences devoted to the Federal-State Research On Cooperatives Program.

(g) Funds made available for this program shall not be subject to reduction for indirect costs or for tuition remission.

§ 4285.47 Limitations.

The amount of funds available for the cooperative agreements under this program is limited to the amount appropriated for the fiscal year.

§§ 4285.48–4285.57 [Reserved]

§ 4285.58 How to apply for cooperative agreement funds.

(a) A program solicitation will be prepared and announced through publications such as the FEDERAL REGISTER, professional trade journals, agency or program handbooks, and/or any other appropriate means, as early as practicable each fiscal year in which funds are appropriated for the program.

(b) The annual program solicitation will contain information sufficient to enable all eligible applicants to prepare proposals including:

(1) Desired research topics. The FY–94 solicitation will encourage studies:

(i) To improve the efficiency and effectiveness of marketing of agricultural cooperatives;

(ii) To measure the impact of rural cooperatives on the local economies;

(iii) That help identify opportunities to develop cooperatives for new or alternative market uses of agricultural products;

(iv) That help identify ways to develop agricultural marketing cooperatives; and

(v) Addressing other cooperative marketing objectives;

(2) Explanation of eligibility requirements as outlined in § 4285.24 of this subpart;

(3) The notice of availability of application forms and instructions for submission of applications;

(4) The notice of deadline dates for postmarking proposal packages.

(c) *Format for proposals.* Unless otherwise indicated by the Department in the annual program solicitation, the following information must be submitted for the preparation of proposals under this program:

(1) Form SF–424, ''Application for Federal Assistance.''

(2) Form SF–424A, ''Budget Information—Non-Construction Programs.''

(3) Form SF–424B, ''Assurances—Non-Construction Programs.''

(4) *Statement of Work.* The application must include a narrative statement describing the nature of the proposed research. The Statement of Work must include at least the following:

(i) Title of the Project. The title of the proposal must be brief, yet represent the major thrust of the project.

(ii) Project Leaders. List the name(s) of the principal investigator(s). Minor collaborators or consultants should be so designated and not listed as principal investigators.

(iii) Need for the Project. A concisely worded rationale behind the proposed research must be presented. The need for the proposed research must be clearly related to marketing and to the needs of agricultural cooperatives.

(iv) Objectives of the project. The specific description of the overall project goal(s) and supporting objectives must be presented.

(v) Procedures for conducting the research. The hypotheses or questions being asked and the methodology being applied to the proposed project must be described. A description of any subcontracting arrangements that will be used for conducting the research must be included. A tentative schedule for conducting major steps involved in the investigation must also be included.

(vi) The expected output of the project. A description of how the results of the research will be disseminated should be presented. Responsibility for publishing any research reports or other types of output should also be identified.

(5) *Collaborative arrangements.* If the nature of the proposed project requires collaboration or subcontractual arrangements with other research scientists, corporations, organizations, agencies, or entities, the applicant must identify the collaborator(s) and provide a full explanation of the nature of the collaboration. Evidence (*i.e.*, letters of intent) should be provided to assure reviewers that the collaborators involved have agreed to render this service. In addition, the proposal must indicate whether or not such a collaborative arrangement(s) has the potential for conflict(s) of interest.

(6) *Personnel support.* To assist reviewers in assessing the competence and experience of the proposed project staff, key personnel who will be involved in the proposed project must be identified clearly. For each principal investigator involved, and for all senior associates and other professional personnel who expect to work on the project, whether or not funds are sought for their support, the following must be included:

(i) An estimate of the time commitments necessary;

(ii) Curriculum Vitae. The curriculum vitae should be limited to a presentation of academic and research credentials, e.g., educational, employment and professional history, and honors and awards. Unless pertinent to the project, it should not include meetings attended, seminars given, or personal data such as birth date, martial status, or community activities; and

(iii) Publication List(s). A chronological list of all publications in refereed journals during the past five years, including those in press, must be provided for each professional project member for whom a curriculum vitae is provided. Also list other non-refereed technical publications that have relevance to the proposed project. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals.

§§ 4285.59–4285.68 [Reserved]

§ 4285.69 Evaluation and disposition of applications.

(a) *Evaluation.* (1) All proposals received from eligible applicants and

postmarked in accordance with deadlines established in the annual program solicitation shall be evaluated by the Assistant Administrator for Cooperative Services through an RDA or its successor agency staff panel. The Assistant Administrator for Cooperative Services will select the evaluation panel from staff determined to be highly qualified in the subject matter areas that were emphasized in the current year's solicitation and from those with no potential conflict of interest with the applicants.

(2) Prior to technical examination, a preliminary review will be made for responsiveness to the program solicitation (e.g., relationship of proposal to research topic(s) listed in solicitation). Proposals that do not fall within the guidelines as stated in the program solicitation will be eliminated from competition and will be returned to the applicant.

(3) Proposals will be ranked based on evaluation criteria established in § 4285.70 of this subpart, and financial support levels will be recommended to the Assistant Administrator for Cooperative Services by the panel within the limitation of the total funding available in the fiscal year. The purpose of these evaluations is to provide information upon which the Assistant Administrator for Cooperative Services may make informed judgments in selecting proposals. Such recommendations are advisory only and are not binding on the awarding official of RDA or its successor agency. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) *Disposition.* (1) On the basis of the Assistant Administrator for Cooperative Services's evaluation of an application in accordance with paragraph (a) of this section, the Assistant Administrator for Cooperative Services will either:

(i) Approve support using currently available funds;

(ii) Defer support due to lack of funds or need for further evaluation; or

(iii) Disapprove support for the proposed project in whole or in part.

(2) With respect to any approved project, the Assistant Administrator for Cooperative Services will determine the project period during which the project may be funded.

(3) Any deferral or disapproval of an application will not preclude its reconsideration or reapplication during subsequent fiscal years. However, applicants must reapply if reconsideration is desired.

(4) The Assistant Administrator for Cooperative Services will not make a cooperative agreement funding award, based upon an application covered by this part, unless the application has been properly reviewed in accordance with the provisions of this part and unless said reviewers have made recommendations concerning the scientific merit and relevance to the program of such application.

§ 4285.70 Evaluation criteria.

(a) In evaluating the proposal, the RDA or its successor agency staff review panel and the awarding official will take into account the degree to which the proposal demonstrates the following:

(1) Focus on a practical solution to a significant problem involving one or more of the following on a cooperative business basis: the preparation for market, processing, packaging, handling, storing, transporting, distributing, or marketing of agricultural products. (35%)

(2) Adequacy, soundness, and appropriateness of the proposed approach to solve the identified problem. (30%)

(3) Feasibility and probability of success of project solving the problem. (10%)

(4) Qualifications, experience in related work, competence, and availability of project personnel to direct and carry out the project. (25%)

(b) In addition, the cost relative to the expected research results will be considered in determining the awarding of the agreements.

§§ 4285.71–4285.80 [Reserved]

§ 4285.81 Cooperative agreement awards.

(a) *General.* Within the limit of funds available for such purpose, the awarding official shall make awards for cooperative agreements to those applicants

whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Assistant Administrator for Cooperative Services as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved and funds are appropriated for such purpose, unless otherwise permitted by law. All funds awarded under this part shall be expended solely in accordance with the methods identified in approved application and budget, the regulations of this part, the terms and conditions of the award, the Grants and Agreements regulations of the Department of Agriculture as currently codified in 2 CFR parts 400, 415, 417, 418, and 421.

(b) *Cooperative agreement award document and notice of award*—(1) *Cooperative agreement award document.* The award document shall include at a minimum the following:

(i) Legal name and address of performing organization or institution to whom the Assistant Administrator for Cooperative Services has competitively awarded funds under the terms of this part;

(ii) Title of project;

(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;

(iv) Identifying cooperative agreement number assigned by RDA or its successor agency;

(v) Project period, specifying the amount of time the Agency intends to support the project without requiring recompetition for funds;

(vi) Total amount of Agency financial assistance approved by the Assistant Administrator for Cooperative Services during the project period;

(vii) Legal authority(ies) under which the cooperative agreement is awarded;

(viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the cooperative agreement award; and

(ix) Other information or provisions deemed necessary by RDA or its successor agency to carry out its agreement activities or to accomplish the purpose of a particular cooperative agreement.

(2) *Notice of award.* The notice of award of funds for the cooperative agreement will be in the form of a letter providing pertinent instructions or information to the cooperator.

(c) *Types of cooperative agreement instruments.* The types of cooperative agreements shall be as follows:

(1) *New agreement.* This is an agreement instrument by which RDA or its successor agency agrees to support a specified level of effort for a project not supported previously under this program. This type of agreement is approved on the basis of an RDA or its successor agency Staff evaluation review and recommendation.

(2) *Renewal agreement.* This is an agreement instrument by which RDA or its successor agency agrees to provide additional funding for a project beyond the period approved in an original or amended agreement, provided that the cumulative period does not exceed the statutory limitation. When a renewal application is submitted, it must include a summary of progress to date from the previous agreement period. A renewal agreement shall be based upon new application, de novo review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) *Supplemental agreement.* This is an instrument by which RDA or its successor agency agrees to provide small amounts of additional funding under a new or renewal cooperative agreement as specified in paragraphs (c)(1) and (c)(2) of this section and may involve a short-term (usually one year or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period for the project exceed the statutory limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification to warrant such action. A request of this nature will not require additional review.

(d) *Obligation of the Federal Government.* The approval of any application or the award of any funds for a cooperative agreement shall not commit nor obligate the United States in any way to make any renewal, supplemental,

continuation, or other award with respect to any approved application or portion of an approved application.

(e) *Obligation of the cooperator.* The cooperator shall be responsible for:

(1) Making a brief quarterly progress reports at the end of each December, March, June and September to the FSROC program staff for the duration of the research project;

(2) Presenting a final administrative report on the project at the end of the research project; and

(3) Preparing and publishing a report(s) of research findings for dissemination to interested producers, cooperatives, and agencies. Include recognition to financial and other assistance received from the FSROC program.

[59 FR 38342, July 28, 1994, as amended at 79 FR 76018, Dec. 19, 2014]

§ 4285.82 Use of funds; changes.

(a) *Delegation of fiscal responsibility.* The cooperator may not, in whole or in part, delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of cooperative agreement funds.

(b) *Change in project plans.* (1) The permissible changes by the cooperator, principal investigator(s), or other key project personnel in the approved cooperative agreement shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project's approved goals. If the cooperator and/or the principal investigator(s) is uncertain whether a particular change complies with this provision, the question must be referred to the Assistant Administrator for Cooperative Services for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by cooperator and approved in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, prior to effecting such changes. Normally, no requests for such changes outside the scope of the original approved project will be approved.

(3) Changes in approved project leadership or the replacement or realignment of other key project personnel shall be requested by the cooperator and approved in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the cooperator and approved in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, prior to effecting such changes, except as may be allowed in the terms and conditions of a cooperative agreement award.

(c) *Changes in project period.* The project period determined pursuant to § 4285.81(b) of this subpart may be extended by the Assistant Administrator for Cooperative Services without additional financial support, for such additional period(s) as the Assistant Administrator for Cooperative Services determines may be necessary to complete, or fulfill the purposes of, an approved project. Any extension, when combined with the originally approved or amended project period, shall not exceed four (4) years and shall be further conditioned upon prior request by the cooperator and approval in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, except as may be allowed in the terms and conditions of a cooperative agreement award.

(d) *Changes in approved budget.* The terms and conditions of a cooperative agreement will prescribe circumstances under which written Agency approval must be requested and obtained prior to instituting changes in an approved budget.

§§ 4285.83–4285.92 [Reserved]

§ 4285.93 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to cooperative agreement proposals considered for review or to agreements awarded under this part. These include but are not limited to:

(a) 7 CFR Part 1, Subpart A—USDA implementation of the Freedom of Information Act;

(b) 7 CFR Part 3—USDA implementation of OMB Circular A–129 regarding debt collection;

(c) 7 CFR Part 15, Subpart A—USDA implementation of title VI of the Civil Rights Act of 1964 in order to assure nondiscrimination;

(d) 7 CFR Part 1473—National Agricultural, Research, Extension, and Teaching Policy Act Amendments of 1981 if the project involves a college or university;

(e) 2 CFR part 400, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards;

(f) 2 CFR part 415, General Program Administrative Regulations;

(g) 2 CFR part 417, Nonprocurement Debarment and Suspension;

(h) 2 CFR part 418, New Restrictions on Lobbying;

(i) 2 CFR part 421, Requirements for Drug-Free Workplace (Financial Assistance);

(j) 7 CFR part 3051—Audits of Institutions of Higher Education and Other Nonprofit Institutions; 29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR part 15B prohibiting discrimination based upon physical or mental handicap in Federally assisted programs; and

(k) 35 U.S.C. 200 *et seq.*—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

[59 FR 38342, July 28, 1994, as amended at 79 FR 76018, Dec. 19, 2014]

§ 4285.94 Other conditions.

Post-award requirements. Upon awarding the cooperative agreement, the post-award and audit requirements of 2 CFR part 200, as adopted by USDA in 2 CFR part 400 apply.

[79 FR 76018, Dec. 19, 2014]

§§ 4285.95–4285.99 [Reserved]

§ 4285.100 OMB control number.

The reporting and recordkeeping requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0570–0005. Public reporting burden for this collection of information is estimated to vary from 10 minutes to 36 hours per response with an average of 3.48 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Agriculture, Clearance Officer, OIRM, Ag Box 7630, Washington, DC 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB #0570–0005), Washington, DC 20503.

Subpart A [Reserved]

Subpart B—Servicing Business and Industry Guaranteed Loans

SOURCE: 81 FR 36020, June 3, 2016, unless otherwise noted.

§ 4287.101 Introduction.

(a) As of October 1, 2020, this subpart is specifically applicable to and only contains regulations for servicing Business and Industry (B&I) Loans guaranteed by the Agency prior to October 1, 2020 and Business and Industry loans under the authority of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) (Pub. L. 116–136) to provide B&I guarantees for loans needed as a result of the Coronavirus Disease 2019 (COVID–19) pandemic for working capital loan purposes to support business operations and facilities in rural areas (B&I CARES Act Program Loans). Other than B&I CARES Act Program Loans and B&I loans guaranteed by the Agency prior to October 1, 2020, this subpart is no longer used for servicing B&I loans guaranteed by the Agency. Requirements for B&I loans guaranteed by the Agency after October 1, 2020 (other than B&I CARES Act Loans) may be found at 7 CFR part 5001.

(b) The lender is responsible for servicing the entire loan and must remain mortgagee and secured party of record, notwithstanding the fact that another party may hold a portion of the loan.

(c) Whether specifically stated or not, whenever Agency approval is required, it must be in writing. Copies of all forms and regulations referenced in this subpart may be obtained from any Agency office and from the USDA Rural Development Web site at *http://www.rd.usda.gov/publications*. Whenever a form is designated in this subpart, that designation includes predecessor and successor forms, if applicable, as specified by the Agency.

[81 FR 36020, June 3, 2016, as amended at 85 FR 62196, Oct. 2, 2020]

§ 4287.102 Definitions and abbreviations.

The definitions and abbreviations contained in § 4279.2 of this chapter apply to this subpart.

§ 4287.103 Exception authority.

Section 4279.15 of this chapter applies to this subpart.

§§ 4287.104–4287.105 [Reserved]

§ 4287.106 Appeals.

Section 4279.16 of this chapter applies to this subpart.

§ 4287.107 Routine servicing.

The lender is responsible for servicing the entire loan and for taking all servicing actions that a reasonably prudent lender would perform in servicing its own portfolio of loans that are not guaranteed. The lender may contract for services but is ultimately responsible for underwriting, loan origination, loan servicing, and compliance with all Agency regulations. Form RD

4279–4, ''Lender's Agreement,'' is the contractual agreement between the lender and the Agency that sets forth some of the lender's loan servicing responsibilities. These responsibilities include, but are not limited to, periodic borrower visits, the collection of payments, obtaining compliance with the covenants and provisions in the loan agreement, obtaining and analyzing financial statements, ensuring payment of taxes and insurance premiums, maintaining liens on collateral, keeping an inventory accounting of all collateral items, and reconciling the inventory of all collateral sold during loan servicing, including liquidation.

(a) *Lender reports and annual renewal fee.* The lender must report the outstanding principal and interest balance and the current loan classification on each guaranteed loan semiannually (at June 30 and December 31), using either the USDA Lender Interactive Network Connection (LINC) system or Form RD 1980–41, ''Guaranteed Loan Status Report.'' The lender must transmit the annual renewal fee to the Agency in accordance with § 4279.120(b) of this chapter calculated based on the December 31 semiannual status report.

(b) *Loan classification.* The lender must provide the loan classification or rating under its regulatory standards as of loan closing, using either the LINC system or Form 1980–19, ''Guaranteed Loan Closing Report.'' When the lender changes the loan classification in the future, the lender must notify the Agency within 30 days, in writing, of any change in the loan classification.

(c) *Agency and lender conference.* At the Agency's request, the lender must consult with the Agency to ascertain how the guaranteed loan is being serviced and that the conditions and covenants of the loan agreement are being enforced.

(d) *Borrower financial reports.* The lender must obtain, analyze, and forward to the Agency the borrower's and any guarantor's annual financial statements required by the loan agreement within 120 days of the end of the borrower's fiscal year. States, local government, Indian tribes, institution of higher education, and nonprofit organization borrowers who meet the Federal awards expended threshold established in 2 CFR part 200, subpart F, during their fiscal year must submit an audit conducted in accordance with 2 CFR part 200, subpart F. When the borrower's audit is conducted in accordance with 2 CFR part 200, subpart F, audits must be submitted no later than nine months after the end of the borrower's fiscal year or 30 days after the borrower's receipt of the auditor's report, whichever is earlier. The lender must analyze these financial statements and provide the Agency with a written summary of the lender's analysis, ratio analysis, and conclusions, which, at a minimum, must include trends, strengths, weaknesses, extraordinary transactions, violations of loan covenants and covenant waivers proposed by the lender, any routine servicing actions performed, and other indications of the financial condition of the borrower. Spreadsheets of the financial statements must also be included. Following the Agency's review of the lender's financial analysis, the Agency will provide a written report of any concerns to the lender. Any concerns based upon the Agency's review must be addressed by the lender. If the lender makes a reasonable attempt to obtain financial statements but is unable to obtain the borrower's cooperation, the failure to obtain financial statements will not impair the validity of the Loan Note Guarantee.

(e) *Protection of Agency interests.* If the Agency determines that the lender is not in compliance with its servicing responsibilities, the Agency reserves the right to take any action the Agency determines necessary to protect the Agency's interests with respect to the loan. If the Agency exercises this right, the lender must cooperate with the Agency to rectify the situation. In determining any loss, the Agency will assess against the lender any cost to the Agency associated with such action.

[81 FR 36020, June 3, 2016, as amended at 87 FR 58021, Sept. 23, 2022]

§§ 4287.108–4287.111 [Reserved]

§ 4287.112 Interest rate changes.

(a) The borrower, lender, and holder (if any) may collectively initiate a permanent or temporary reduction in the interest rate of the guaranteed loan at any time during the life of the loan upon written agreement among these parties. The lender must obtain prior Agency concurrence and provide a copy of the modification agreement to the Agency. If any of the guaranteed portion has been purchased by the Agency, the Agency (as a holder) will affirm or reject interest rate change proposals in writing.

(b) No increases in interest rates will be permitted, except the normal fluctuations in approved variable interest rates, unless a temporary interest rate reduction occurred or to change from a variable rate to a fixed rate. Variable rates can be changed to a fixed rate at the request of the borrower, lender, agreement of the holder, if any, and with the Agency's prior written concurrence. After the rate change, the rate must meet the requirements of 7 CFR 4279.125.

(c) The interest rate, after adjustments, must comply with the interest rate requirements set forth in § 4279.125 of this chapter.

(d) The lender is responsible for the legal documentation of interest-rate changes by an endorsement or any other legally effective amendment to the promissory note; however, no new notes shall be issued. The lender must provide copies of all legal documents to the Agency.

[81 FR 36020, June 3, 2016, as amended at 87 FR 58021, Sept. 23, 2022]

§ 4287.113 Release of collateral.

(a) Within the parameters of paragraph (c) of this section, lenders may, over the life of the loan, release collateral (other than personal and corporate guarantees) without Agency concurrence if the proceeds generated are used to pay down debt in order of lien priority, reduce the guaranteed loan or to acquire replacement collateral. Working assets, such as accounts receivable, inventory, and work-in-progress that are routinely depleted or sold and proceeds used for the normal course of business operations may be used in and released for routine business purposes without prior concurrence of the Agency as long as the loan is not in monetary default or liquidation.

(b) If a release of collateral does not meet the requirements of paragraph (a) of this section, the lender must complete a written evaluation to justify the release and obtain written Agency concurrence in advance of the release.

(c) Collateral must remain sufficient to provide for adequate collateral coverage for the outstanding guaranteed loan(s). For a release of collateral request when the Borrower is not in monetary default or liquidation, the lender must support all releases of chattel collateral with a value exceeding $250,000 and real estate collateral with a value exceeding $500,000 with a current appraisal on the collateral being released and otherwise meets the requirements of § 4279.144 of this chapter. All other release of collateral requests must meet the appraisal requirements of § 4279.144 of this chapter. The cost of this appraisal will not be paid for by the Agency. The Agency may, at its discretion, require an appraisal of the remaining collateral in cases where it has been determined that the Agency may be adversely affected by the release of collateral. The sale or release of the collateral must be based on an arm's length transaction, and there must be adequate consideration for the release of collateral. Such consideration may include, but is not limited to:

(1) Application of the net proceeds from the sale of collateral to the borrower's debts in order of their lien priority against the sold collateral;

(2) Use of the net proceeds from the sale of collateral to purchase other collateral of equal or greater value for which the lender will obtain as security for the benefit of the guaranteed loan with a lien position equal or superior to the position previously held;

(3) Application of the net proceeds from the sale of collateral to the borrower's business operation in such a manner that a significant improvement to the borrower's debt service ability will be clearly demonstrated. The lender's written request must detail how

the borrower's debt service ability will be improved; or

(4) Assurance that the release of collateral is essential for the success of the business, thereby furthering the goals of the program. Such assurance must be supported by written documentation from the lender acceptable to the Agency.

[81 FR 36020, June 3, 2016, as amended at 87 FR 58021, Sept. 23, 2022]

§§ 4287.114–4287.122 [Reserved]

§ 4287.123 Subordination of lien position.

A subordination of the lender's lien position must be requested in writing by the lender and concurred with in writing by the Agency in advance of the subordination. The lender's subordination proposal must include a financial analysis of the servicing action and be fully supported by current financial statements of the borrower and guarantors that are less than 90 days old.

(a) The subordination of lien position must enhance the borrower's business and not adversely affect the potential for collection of the B&I loan through repayment or liquidation.

(b) The lien to which the guaranteed loan is subordinated is for a fixed dollar limit and for a fixed term after which the guaranteed loan lien priority will be restored.

(c) Collateral must remain sufficient to provide for adequate collateral coverage. The Agency may require a current independent appraisal in accordance with § 4279.144 of this chapter.

(d) Lien priorities must remain for the portion of the collateral that was not subordinated.

(e) A subordination to a line of credit cannot exceed 1 year. The term of the line of credit cannot be extended.

§ 4287.124 Alterations of loan instruments.

The lender must neither alter nor approve any alterations or modifications of any loan instrument without the prior written approval of the Agency.

§§ 4287.125–4287.132 [Reserved]

§ 4287.133 Sale of corporate stock.

Any sale or transfer of corporate stock must be approved by the Agency in writing and must be to an eligible individual or entity in accordance with § 4279.108(a) and 4279.108(b) of this chapter. In the event a portion of the borrower's stock is sold or transferred, the Agency may require personal or corporate guarantees from those then owning a 20 percent or more interest in the borrower in accordance with § 4279.132 of this chapter.

§ 4287.134 Transfer and assumption.

The lender may request a transfer and assumption of a guaranteed loan in situations where the total indebtedness, or less than the total indebtedness, is transferred to another eligible borrower on the same or different terms. A transfer and assumption of the borrower's operation can be accomplished before or after the loan goes into liquidation. However, if the collateral has been purchased through foreclosure or the borrower has conveyed title to the lender, no transfer and assumption is permitted. Additionally, no transfer and assumption is permitted when the Agency has repurchased 100 percent of the guaranteed portion of the loan.

(a) *Documentation of request.* All transfers and assumptions must be approved in writing by the Agency and must be to an eligible borrower. The lender must provide credit reports for each individual or entity owning 20 percent or more interest in the transferee, along with such other documentation as the Agency may request to determine eligibility. In accordance with § 4279.132 of this chapter, the Agency will require personal and/or corporate guarantee(s) from all owners that have a 20 percent or more ownership interest in the transferee. When warranted by an Agency assessment of potential financial risk, the Agency may also require guarantees of parent, subsidiaries, or affiliated companies (owning less than a 20 percent interest in the borrower) and may require security for any guarantee. The new borrower must sign Form RD 4279–1, ''Application for Loan Guarantee,'' and any

guarantors of the guaranteed loan must sign Form RD 4279–14, ''Unconditional Guarantee.''

(b) *Terms.* Loan terms may be changed with the concurrence of the Agency, all holders, and the transferor (including guarantors) if the transferor has not been or will not be released from liability. Any new loan terms must be within the terms authorized by §4279.126 of this chapter.

(c) *Release of liability.* The transferor, including any guarantor, may be released from liability only with prior Agency written concurrence and only when the fair market value of the collateral being transferred is at least equal to the amount of the loan being assumed and is supported by a current appraisal and a current financial statement of the transferee. The Agency will not pay for the appraisal. If the transfer is for less than the debt, for a release of liability, the lender must demonstrate to the Agency that the transferor and guarantors have no reasonable debt-paying ability considering their assets and income in the foreseeable future.

(d) *Proceeds.* The lender must credit any proceeds received from the sale of collateral before a transfer and assumption to the transferor's guaranteed loan debt in order of lien priority before the transfer and assumption is closed.

(e) *Additional loans.* Loans to provide additional funds in connection with a transfer and assumption must be considered a new loan application, which requires submission of a complete Agency application in accordance with §4279.161(b) of this chapter.

(f) *Credit quality.* The lender will provide a credit analysis of the proposal that addresses capacity (sufficient cash flow to service the debt), capital (net worth), collateral (assets to secure the debt), conditions (of the borrower, industry trends, and the overall economy), and character (integrity of the transferee management) in accordance with §4279.131 of this chapter.

(g) *Appraisals.* If the proposed transfer and assumption is for the full amount of the Agency guaranteed loan, the Agency will not require an appraisal, unless a guarantor is being released from liability in accordance with paragraph (c) of this section. If the proposed transfer and assumption is for less than the full amount of the Agency guaranteed loan, the Agency will require an appraisal on all of the collateral being transferred, and the amount of the assumption must not be less than this appraised value. The lender is responsible for obtaining this appraisal, which must conform to the requirements of §4279.144 of this chapter. The Agency will not pay the appraisal fee or any other costs associated with this transfer.

(h) *Documents.* Prior to Agency approval, the lender must provide the Agency a written legal opinion that the transaction can be properly and legally transferred and assurance that the conveyance instruments will be appropriately filed, registered, and recorded.

(1) The lender must not issue any new promissory notes. The assumption must be completed in accordance with applicable law and must contain the Agency case number of the transferor and transferee. The lender must provide the Agency with a copy of the transfer and assumption agreement. The lender must ensure that all transfers and assumptions are noted on all original Loan Note Guarantees.

(2) A new loan agreement, consistent in principle with the original loan agreement, must be executed to establish the terms and conditions of the loan being assumed. An assumption agreement can be used to establish the loan covenants.

(3) Upon execution of the transfer and assumption, the lender must provide the Agency with a written legal opinion that the transfer and assumption is completed, valid, and enforceable, and certification that the transfer and assumption is consistent with the conditions outlined in the Agency's conditions of approval for the transfer and complies with all Agency regulations.

(i) *Loss/repurchase resulting from transfer.* (1) Any resulting loss must be processed in accordance with §4287.158.

(2) If a holder owns any of the guaranteed portion, such portion must be repurchased by the lender or the Agency in accordance with §4279.78 of this chapter.

(j) *Related party*. If the transferor and transferee are affiliated or related parties, any transfer and assumption must be for the full amount of the debt.

(k) *Cash downpayment*. The lender may allow the transferee to make cash downpayments directly to the transferor provided:

(1) The transfer and assumption is made for the total indebtedness;

(2) The lender recommends that the cash be released, and the Agency concurs prior to the transaction being completed. The lender may require that an amount be retained for a defined period of time as a reserve against future defaults. Interest on such account may be paid periodically to the transferor or transferee as agreed;

(3) The lender determines that the transferee has the repayment ability to meet the obligations of the assumed guaranteed loan, as well as any other indebtedness; and

(4) Any payments by the transferee to the transferor will not suspend the transferee's obligations to continue to meet the guaranteed loan payments as they come due under the terms of the assumption.

(l) *Annual renewal fees*. The lender must pay any annual renewal fee published in the FEDERAL REGISTER and then in effect at the time the loan is closed for the duration of the Loan Note Guarantee. Annual renewal fees are due for the entire year even if the Loan Note Guarantee is terminated before the end of the year.

§ 4287.135 Substitution of lender.

After the issuance of a Loan Note Guarantee, the lender is prohibited from selling or transferring the entire loan without the prior written approval of the Agency. Because the Loan Note Guarantee is associated with a specific promissory note and cannot be transferred to a new promissory note, the lender must transfer the original promissory note to the new lender, who must agree to its current loan terms, including the interest rate, secondary market holder (if any), collateral, loan agreement terms, and guarantors. The new lender must also obtain the original Loan Note Guarantee, original personal and corporate guarantee(s), and the loan payment history from the transferor lender. If the new lender wishes to modify the loan terms after acquisition, the new lender must submit a request to the Agency.

(a) The Agency may approve the substitution of a new lender if:

(1) The proposed substitute lender:

(i) Is an eligible lender in accordance with § 4279.29 of this chapter and is approved as such;

(ii) Is able to service the loan in accordance with the original loan documents; and

(iii) Agrees in writing to acquire title to the unguaranteed portion of the loan held by the original lender and assumes all original loan requirements, including liabilities and servicing responsibilities.

(2) The substitution of the lender is requested in writing by the borrower, the proposed substitute lender, and the original lender of record, if still in existence.

(b) The Agency will not pay any loss or share in any costs (*e.g.*, appraisal fees and environmental assessments) with a new lender unless a relationship is established through a substitution of lender in accordance with paragraph (a) of this section. This includes situations where a lender is merged with or acquired by another lender and situations where the lender has failed and been taken over by a regulatory agency such as the Federal Deposit Insurance Corporation (FDIC) and the loan is subsequently sold to another lender.

(c) Where the lender has failed and been taken over by the FDIC and the loan is liquidated by the FDIC rather than being sold to another lender, the Agency will pay losses and share in costs as if the FDIC were an approved substitute lender.

(d) In cases where there is a substitution of the lender, the Agency and the new lender must execute a new Form RD 4279–4, ''Lender's Agreement,'' unless a valid Lender's Agreement already exists with the new lender.

§ 4287.136 Lender failure.

(a) *Uninsured lender*. The lender or insuring agency cannot arbitrarily change the Lender's Agreement and related documents on the guaranteed

loan, and the Agency will make the successor to the failed institution aware of the statutory and regulatory requirements. If the acquiring institution is not an eligible lender as set forth in §4279.29 of this chapter, the Loan Note Guarantee will not be enforceable, and the institution must promptly apply to become an eligible lender. The failure of the uninsured lender to become an eligible lender will result in the Loan Note Guarantee being unenforceable. A new lender approved by the Agency will be afforded the benefits of the Loan Note Guarantee in the sharing of any loss and eligible expenses subject to the limits that are set forth in the regulations governing the program.

(b) *Insured lender.* The FDIC and the Agency have entered into an Inter-Agency Agreement and all parties are to abide by this Agreement or successor document(s). This document sets forth the duties and responsibilities of each Agency when an institution fails. The lender must take such action that a reasonably prudent lender would take if it did not have a Loan Note Guarantee to protect the lender and Agency's mutual interest.

§§4287.137–4287.144 [Reserved]

§4287.145 Default by borrower.

The lender's primary responsibilities in default are to act prudently and expeditiously, to work with the borrower to bring the account current or cure the default through restructuring if a realistic plan can be developed, or to accelerate the account and conduct a liquidation in a manner that will minimize any potential loss. The lender may initiate liquidation subject to submission and approval of a complete liquidation plan.

(a) The lender must notify the Agency when a borrower is more than 30 days past due on a payment and the delinquency cannot be cured within 30 days or when a borrower is otherwise in default of covenants in the loan agreement by promptly submitting Form RD 1980–44, ''Guaranteed Loan Borrower Default Status,'' or processing the Default Status report in LINC. The lender must update the loan's status each month using either Form RD 1980–44 or the LINC Default Status report until such time as the loan is no longer in default. If a monetary default exceeds 60 days, the lender must meet with the Agency and, if practical, the borrower to discuss the situation.

(b) In considering options, the prospects for providing a permanent cure without adversely affecting the risk to the Agency and the lender is the paramount objective.

(1) Curative actions (subject to the rights of any holder and Agency concurrence) include, but are not limited to:

(i) Deferment of principal and/or interest payments;

(ii) An additional unguaranteed temporary loan by the lender to bring the account current;

(iii) Reamortization of or rescheduling the payments on the loan;

(iv) Transfer and assumption of the loan in accordance with §4287.134;

(v) Reorganization;

(vi) Liquidation; and

(vii) Changes in interest rates with the Agency's, the lender's, and any holder's approval. Any interest payments must be adjusted proportionately between the guaranteed and unguaranteed portion of the loan.

(2) The term of any deferment, rescheduling, reamortization, or moratorium will be limited to the lesser of the remaining useful life of the collateral or remaining limits as set forth in §4279.126 of this chapter (excluding paragraph (c)). During a period of deferment or moratorium on the guaranteed loan, the lender's unguaranteed loan(s) and any stockholder loans must also be under deferment or moratorium. Balloon payments are permitted as a loan servicing option as long as there is a reasonable prospect for success and the remaining life of the collateral supports the action.

(3) In the event of a loss or a repurchase, the lender cannot claim default or penalty interest, late payment fees, or interest on interest. If the restructuring includes the capitalization of interest, interest accrued on the capitalized interest will not be covered by the guarantee. Consequently, it is not eligible for repurchase from the holder and cannot be included in the loss claim.

(c) Debt write-downs for an existing borrower, where the same principals retain control of and decisionmaking authority for the business, are prohibited, except as directed or ordered under the Bankruptcy Code.

(d) For loans closed on or after August 2, 2016, in the event of a loss, the guarantee will not cover note interest to the lender accruing after 90 days from the most recent delinquency effective date.

(e) For loans closed on or after August 2, 2016, the lender or the Agency will issue an interest termination letter to the holder(s) establishing the termination date for interest accrual. The guarantee will not cover interest to any holder accruing after the greater of: 90 days from the date of the most recent delinquency effective date as reported by the lender or 30 days from the date of the interest termination letter.

(f) For repurchases of guaranteed loans, refer to §4279.78 of this chapter.

§§ 4286.146–4287.155 [Reserved]

§ 4287.156 Protective advances.

Protective advances are advances made by the lender for the purpose of preserving and protecting the collateral where the debtor has failed to, will not, or cannot meet its obligations. Lenders must exercise sound judgment in determining that the protective advance preserves collateral and recovery is actually enhanced by making the advance. Lenders cannot make protective advances in lieu of additional loans. A protective advance claim will be paid only at the time of the final report of loss payment.

(a) The maximum loss to be paid by the Agency will never exceed the original loan amount plus accrued interest times the percentage of guarantee regardless of any protective advances made.

(b) In the event of a final loss, protective advances will accrue interest at the note rate and will be guaranteed at the same percentage of guarantee as provided for in the Loan Note Guarantee. The guarantee will not cover interest on the protective advance accruing after 90 days from the most recent delinquency effective date.

(c) Protective advances must constitute an indebtedness of the borrower to the lender and be secured by the security instruments. Agency written authorization is required when the cumulative total of protective advances exceeds $200,000 or 10 percent of the aggregate outstanding balance of principal and interest, whichever is less.

§ 4287.157 Liquidation.

In the event of one or more incidents of default or third party actions that the borrower cannot or will not cure within a reasonable period of time, the lender, with Agency consent, must liquidate the loan. In accordance with §4287.145(d), for loans closed on or after August 2, 2016, in the event of a loss, the guarantee will not cover note interest to the lender accruing after 90 days from the most recent delinquency effective date.

(a) *Decision to liquidate.* A decision to liquidate must be made when the lender determines that the default cannot be cured through actions such as those contained in §4287.145, or it has been determined that it is in the best interest of the Agency and the lender to liquidate. The decision to liquidate or continue with the borrower must be made as soon as possible when one or more of the following exist:

(1) A loan is 90 days behind on any scheduled payment and the lender and the borrower have not been able to cure the delinquency through actions such as those contained in §4287.145.

(2) It is determined that delaying liquidation will jeopardize full recovery on the loan.

(3) The borrower or lender is uncooperative in resolving the problem or the Agency or lender has reason to believe the borrower is not acting in good faith, and it would improve the position of the guarantee to liquidate immediately.

(b) *Repurchase of loan.* When the decision to liquidate is made, if any portion of the loan has been sold or assigned under §4279.75 of this chapter and not already repurchased, provisions will be made for repurchase in accordance with §4279.78 of this chapter.

(c) *Lender's liquidation plan.* The lender is responsible for initiating actions immediately and as necessary to assure

a prompt, orderly liquidation that will provide maximum recovery. Within 30 days after a decision to liquidate, the lender must submit a written, proposed plan of liquidation to the Agency for approval. The liquidation plan must be detailed and include at least the following:

(1) Such proof as the Agency requires to establish the lender's ownership of the guaranteed loan promissory note and related security instruments and a copy of the payment ledger, if available, that reflects the current loan balance, accrued interest to date, and the method of computing the interest;

(2) A full and complete list of all collateral, including any personal and corporate guarantees;

(3) The recommended liquidation methods for making the maximum collection possible on the indebtedness and the justification for such methods, including recommended action for acquiring and disposing of all collateral and collecting from guarantors;

(4) Necessary steps for preservation of the collateral;

(5) Copies of the borrower's most recently available financial statements;

(6) Copies of each guarantor's most recently available financial statements;

(7) An itemized list of estimated liquidation expenses expected to be incurred along with justification for each expense;

(8) A schedule to periodically report to the Agency on the progress of liquidation, not to exceed every 60 days;

(9) Estimated protective advance amounts with justification;

(10) Proposed protective bid amounts on collateral to be sold at auction and a breakdown to show how the amounts were determined. A protective bid may be made by the lender, with prior Agency written approval, at a foreclosure sale to protect the lender's and the Agency's interest. The protective bid will not exceed the amount of the loan, including expenses of foreclosure, and must be based on the liquidation value considering estimated expenses for holding and reselling the property. These expenses include, but are not limited to, expenses for resale, interest accrual, length of time necessary for resale, maintenance, guard service, weatherization, and prior liens;

(11) If a voluntary conveyance is considered, the proposed amount to be credited to the guaranteed debt;

(12) Legal opinions, if needed by the lender's legal counsel; and

(13) An estimate of fair market and potential liquidation value of the collateral. If the value of the collateral is $250,000 or more, the lender must obtain an independent appraisal report meeting the requirements of §4279.144 of this chapter for the collateral securing the loan, which reflects the fair market value and potential liquidation value. For collateral values under this threshold, lenders must follow their primary regulator's policies relating to appraisals and evaluations or, if the lender is not regulated, normal banking practices and generally accepted methods of determining value. The liquidation appraisal of the collateral must evaluate the impact on market value of any release of hazardous substances, petroleum products, or other environmental hazards. The independent appraiser's fee, including the cost of the environmental site assessment, will be shared equally by the Agency and the lender. In order to assure prompt action, the liquidation plan can be submitted with an estimate of collateral value, and the liquidation plan may be approved by the Agency subject to the results of the final liquidation appraisal.

(d) *Approval of liquidation plan.* The lender's liquidation plan must be approved by the Agency in writing. The lender and Agency must attempt to resolve any Agency concerns. If the liquidation plan is approved by the Agency, the lender must proceed expeditiously with liquidation and must take all legal action necessary to liquidate the loan in accordance with the approved liquidation plan. The lender must update or modify the liquidation plan when conditions warrant, including a change in value based on a liquidation appraisal. If the liquidation plan is not approved by the Agency, the lender must take such actions that a reasonably prudent lender would take without a guarantee and keep the Agency informed in writing. The lender

must continue to develop a liquidation plan in accordance with this section.

(e) *Acceleration.* The lender will proceed to accelerate the indebtedness as expeditiously as possible when acceleration is necessary, including giving any notices and taking any other legal actions required. The guaranteed loan will be considered in liquidation once the loan has been accelerated and a demand for payment has been made upon the borrower. The lender must obtain Agency concurrence prior to the acceleration of the loan if the sole basis for acceleration is a nonmonetary default. In the case of monetary default, prior approval by the Agency of the lender's acceleration is not required, although Agency concurrence must still be given not later than at the time the liquidation plan is approved. The lender will provide a copy of the acceleration notice or other acceleration document to the Agency.

(f) *Filing an estimated loss claim.* When the lender owns any of the guaranteed portion of the loan, the lender must file an estimated loss claim once a decision has been made to liquidate if the liquidation is expected to exceed 90 days. The estimated loss payment will be based on the liquidation value of the collateral. For the purpose of reporting and loss claim computation, for loans closed on or after August 2, 2016, the guarantee will not cover note interest to the lender accruing after 90 days from the most recent delinquency effective date. The Agency will promptly process the loss claim in accordance with applicable Agency regulations as set forth in § 4287.158.

(g) *Accounting and reports.* The lender must account for funds during the period of liquidation and must, in accordance with the Agency-approved liquidation plan, provide the Agency with reports on the progress of liquidation including disposition of collateral, resulting costs, and additional procedures necessary for successful completion of the liquidation.

(h) *Transmitting payments and proceeds to the Agency.* When the Agency is the holder of a portion of the guaranteed loan, the lender must transmit to the Agency its pro rata share of any payments received from the borrower, liquidation, or other proceeds using Form RD 1980–43, ''Lender's Guaranteed Loan Payment to Rural Development.''

(i) *Abandonment of collateral.* When the lender adequately documents that the cost of liquidation would exceed the potential recovery value of certain collateral and receives Agency concurrence, the lender may abandon that collateral. When the lender makes a recommendation for abandonment of collateral, it must comply with 7 CFR part 1970, ''Environmental Policies and Procedures.''

(j) *Personal or corporate guarantees.* The lender must take action to maximize recovery from all personal and corporate guarantees, including seeking deficiency judgments when there is a reasonable chance of future collection.

(k) *Compromise settlement.* Compromise settlements must be approved by the lender and the Agency. Complete current financial information on all parties obligated for the loan must be provided. At a minimum, the compromise settlement must be equivalent to the value and timeliness of that which would be received from attempting to collect on the guarantee. The guarantor cannot be released from liability until the full amount of the compromise settlement has been received. In weighing whether the compromise settlement should be accepted, among other things, the Agency will weigh whether the comparison is more financially advantageous than collecting on the guarantee.

(l) *Litigation.* In all litigation proceedings involving the borrower, the lender is responsible for protecting the rights of the lender and the Agency with respect to the loan and keeping the Agency adequately and regularly informed, in writing, of all aspects of the proceedings. If the Agency determines that the lender is not adequately protecting the rights of the lender or the Agency with respect to the loan, the Agency reserves the right to take any legal action the Agency determines necessary to protect the rights of the lender, on behalf of the lender, or the Agency with respect to the loan. If the Agency exercises this right, the lender must cooperate with the Agency. Any cost to the Agency associated

with such action will be assessed against the lender.

§4287.158 Determination of loss and payment.

Unless the Agency anticipates a future recovery, the Agency will make a final settlement with the lender after the collateral is liquidated or after settlement and compromise of all parties has been completed. The Agency has the right to recover losses paid under the guarantee from any party that may be liable.

(a) *Report of loss form.* Form RD 449–30, ''Loan Note Guarantee Report of Loss,'' will be used for reporting and calculating all estimated and final loss determinations.

(b) *Estimated loss.* In accordance with the requirements of §4287.157(f), the lender must prepare an estimated loss claim, based on liquidation appraisal value, and submit it to the Agency. When the lender is conducting the liquidation and owns any or all of the guaranteed portion of the loan, the lender must file an estimated loss claim once a decision has been made to liquidate if the liquidation will exceed 90 days. The estimated loss payment will be based on the liquidation value of the collateral.

(1) Such estimate will be prepared and submitted by the lender on Form RD 449–30 using the basic formula as provided on the report, except that the liquidation appraisal value will be used in lieu of the amount received from the sale of collateral. Interest accrual eligible for payment under the guarantee on the defaulted loan will be discontinued when the estimated loss is paid.

(2) A protective advance claim will be paid only at the time of the final report of loss payment.

(c) *Final loss.* Within 30 days after liquidation of all collateral is completed (except for certain unsecured personal or corporate guarantees as provided for in this section), the lender must prepare a final report of loss and submit it to the Agency. If the lender holds all or a portion of the guaranteed loan, the Agency will not guarantee interest to the lender accruing after 90 days from the most recent delinquency effective date. The Agency will not guarantee interest to any holder accruing after the greater of: 90 days from the date of the most recent delinquency effective date as reported by the lender or 30 days from the date of the interest termination letter. Before approval by the Agency of any final loss report, the lender must account for all funds during the period of liquidation, disposition of the collateral, all costs incurred, and any other information necessary for the successful completion of liquidation. Upon receipt of the final accounting and report of loss, the Agency may audit all applicable documentation to determine the final loss. The lender must make its records available and otherwise assist the Agency in making any investigation. The documentation accompanying the report of loss must support the amounts reported as losses on Form RD 449–30.

(1) The lender must make a determination regarding the collectability of unsecured personal and corporate guarantees. If reasonably possible, the lender must promptly collect or otherwise dispose of such guarantees in accordance with §4287.157(j) prior to completion of the final loss report. However, in the event that collection from the guarantors appears unlikely or will require a prolonged period of time, the lender must file the report of loss when all other collateral has been liquidated. Unsecured personal or corporate guarantees outstanding at the time of the submission of the final loss claim will be treated as a future recovery with the net proceeds to be shared on a pro rata basis by the lender and the Agency. Debts owed to the Agency (Federal debt) may be collected using DCIA authority. The Agency may consider a compromise settlement of Federal debt after it has processed a final report of loss and issued a 60 day due process letter. Any funds collected on Federal debt will not be shared with the lender.

(2) The lender must document that all of the collateral has been accounted for and properly liquidated and that liquidation proceeds have been accounted for and applied correctly to the loan.

(3) The lender must provide receipts and a breakdown of any protective advance amount as to the payee, purpose

of the expenditure, date paid, and evidence that the amount expended was proper.

(4) The lender must provide receipts and a breakdown of liquidation expenses as to the payee, purpose of the expenditure, date paid, and evidence that the amount expended was proper. Liquidation expenses are recoverable only from liquidation proceeds. The Agency may approve attorney/legal fees as liquidation expenses provided that the fees are reasonable, require the assistance of attorneys, and cover legal issues pertaining to the liquidation that could not be properly handled by the lender and its employees.

(5) The lender must support accrued interest by documenting how the amount was accrued. If the interest rate was a variable rate, the lender must include documentation of changes in both the selected base rate and the loan rate.

(6) The Agency will pay loss payments within 60 days after it has reviewed the complete final loss report and accounting of the collateral.

(d) *Loss limit.* The amount payable by the Agency to the lender cannot exceed the limits set forth in the Loan Note Guarantee.

(e) *Liquidation expenses.* The Agency will deduct liquidation expenses from the liquidation proceeds of the collateral. The lender cannot claim any liquidation expenses in excess of liquidation proceeds. Any changes to the liquidation expenses that exceed 10 percent of the amount proposed in the liquidation plan must be approved by the Agency. Reasonable attorney/legal expenses will be shared by the lender and Agency equally, including those instances where the lender has incurred such expenses from a trustee conducting the liquidation of assets. The lender cannot claim the guarantee fee or the annual renewal fee as authorized liquidation expenses, and no in-house expenses of the lender will be allowed. In-house expenses include, but are not limited to, employee's salaries, staff lawyers, travel, and overhead.

(f) *Rent.* The lender must apply any net rental or other income that it receives from the collateral to the guaranteed loan debt.

(g) *Payment.* Once the Agency approves Form RD 449–30 and supporting documents submitted by the lender:

(1) If the loss is greater than any estimated loss payment, the Agency will pay the additional amount owed by the Agency to the lender.

(2) If the loss is less than the estimated loss payment, the lender must reimburse the Agency for the overpayment plus interest at the note rate from the date of payment.

§§ 4287.159–4287.168 [Reserved]

§ 4287.169 Future recovery.

Unless notified otherwise by the Agency, after the final loss claim has been paid, the lender must use reasonable efforts to attempt collection from any party still liable on any loan that was guaranteed. Any net proceeds from that effort must be split pro rata between the lender and the Agency based on the percentage of guarantee. Any collection of Federal debt made by the United State from any liable party to the guaranteed loan will not be split with the lender.

§ 4287.170 Bankruptcy.

(a) *Lender's responsibilities.* It is the lender's responsibility to protect the guaranteed loan and all of the collateral securing it in bankruptcy proceedings, including taking actions that result in greater recoveries and not taking actions that would not likely be cost-effective. These responsibilities include, but are not limited to, the following:

(1) Monitoring confirmed bankruptcy plans to determine borrower compliance, and, if the borrower fails to comply, seeking a dismissal of the bankruptcy plan;

(2) Filing a proof of claim, where necessary, and all the necessary papers and pleadings concerning the case;

(3) Attending and, where necessary, participating in meetings of the creditors and all court proceedings;

(4) Requesting modifications of any bankruptcy plan whenever it appears that additional recoveries are likely; and

(5) Keeping the Agency adequately and regularly informed in writing of all aspects of the proceedings.

(6) The lender must submit a default status report when the borrower defaults and every 30 days until the default is resolved or a final loss claim is paid by the Agency. The default status report will be used to inform the Agency of the bankruptcy filing, the plan confirmation date, when the plan is complete, and when the borrower is not in compliance with the plan.

(7) With written Agency consent, the lender and Agency will equally share the cost of any independent appraisal fee to protect the guaranteed loan in any bankruptcy proceedings.

(b) *Reports of loss during bankruptcy.* In bankruptcy proceedings, payment of loss claims will be made as provided in this section. Attorney/legal fees and protective advances as a result of a bankruptcy are only recoverable from liquidation proceeds.

(1) *Estimated loss payments.* (i) If a borrower has filed for bankruptcy and all or a portion of the debt has been discharged, the lender must request an estimated loss payment of the guaranteed portion of the accrued interest and principal discharged by the court. Only one estimated loss payment is allowed during the bankruptcy. All subsequent claims of the lender during bankruptcy will be considered revisions to the initial estimated loss. A revised estimated loss payment may be processed by the Agency, at its option, in accordance with any court-approved changes in the bankruptcy plan. Once the bankruptcy plan has been completed, the lender is responsible for submitting the documentation necessary for the Agency to review and adjust the estimated loss claim to reflect any actual discharge of principal and interest and to reimburse the lender for any court-ordered interest-rate reduction under the terms of the bankruptcy plan.

(ii) The lender must use Form RD 449–30 to request an estimated loss payment and to revise any estimated loss payments during the course of the bankruptcy plan. The estimated loss claim, as well as any revisions to this claim, must be accompanied by documentation to support the claim.

(iii) Upon completion of a bankruptcy plan, the lender must complete Form RD 1980–44 and forward it to the Agency.

(iv) Upon completion of the bankruptcy plan, the lender must provide the Agency with the documentation necessary to determine whether the estimated loss paid equals the actual loss sustained. If the actual loss sustained as a result of the bankruptcy is less than the estimated loss, the lender must reimburse the Agency for the overpayment plus interest at the note rate from the date of payment of the estimated loss. If the actual loss is greater than the estimated loss payment, the lender must submit a revised estimated loss claim in order to obtain payment of the additional amount owed by the Agency to the lender.

(2) *Bankruptcy loss payments.* (i) The lender must request a bankruptcy loss payment of the guaranteed portion of the accrued interest and principal discharged by the court for all bankruptcies when all or a portion of the debt has been discharged. Unless a court approves a subsequent change to the bankruptcy plan that is adverse to the lender, only one bankruptcy loss payment is allowed during the bankruptcy. Once the court has discharged all or part of the guaranteed loan and any appeal period has run, the lender must submit the documentation necessary for the Agency to review and adjust the bankruptcy loss claim to reflect any actual discharge of principal and interest.

(ii) The lender must use Form RD 449–30 to request a bankruptcy loss payment and to revise any bankruptcy loss payments during the course of the bankruptcy. The lender must include with the bankruptcy loss claim documentation to support the claim, as well as any revisions to this claim.

(iii) Upon completion of a bankruptcy plan, restructure, or liquidation, the lender must either complete Form RD 1980–44 and forward it to the Agency or enter the data directly into LINC.

(iv) If an estimated loss claim is paid during a bankruptcy and the borrower repays in full the remaining balance without an additional loss sustained by the lender, a final report of loss is not necessary.

(3) *Interest rate losses as a result of bankruptcy reorganization.* (i) For guaranteed loans closed prior to August 2, 2016:

(A) Interest losses sustained during the period of the bankruptcy plan will be processed in accordance with paragraph (b)(1) of this section.

(B) Interest losses sustained after the bankruptcy plan is confirmed will be processed annually when the lender sustains a loss as a result of a permanent interest rate reduction that extends beyond the period of the bankruptcy plan.

(C) If a bankruptcy loss claim is paid during the operation of the bankruptcy plan and the borrower repays in full the remaining balance without an additional loss sustained by the lender, a final report of loss is not necessary.

(ii) For guaranteed loans closed on or after August 2, 2016, the Agency will not compensate the lender for any difference in the interest rate specified in the Loan Note Guarantee and the rate of interest specified in the bankruptcy plan.

(4) *Final bankruptcy loss payments.* The Agency will process final bankruptcy loss payments when the loan is fully liquidated.

(5) *Application of loss claim payments.* The lender must apply estimated loss payments first to the unsecured principal of the guaranteed portion of the debt and then to the unsecured interest of the guaranteed portion of the debt. In the event a court attempts to direct the payments to be applied in a different manner, the lender must immediately notify the Agency in writing.

(6) *Protective advances.* If approved protective advances, as authorized by § 4287.156, were incurred in connection with the initiation of liquidation action and were required to provide repairs, insurance, etc., to protect the collateral as a result of delays in the case of failure of the borrower to maintain the security prior to the borrower having filed bankruptcy, the protective advances together with accrued interest, are payable under the guarantee in the final loss claim.

(c) *Expenses during bankruptcy proceedings.* (1) Under no circumstances will the guarantee cover liquidation expenses in excess of liquidation proceeds.

(2) Expenses, such as reasonable attorney/legal fees and the cost of appraisals incurred by the lender as a direct result of the borrower's bankruptcy filing, are considered liquidation expenses. Liquidation expenses must be reasonable, customary, and provide a demonstrated economic benefit to the lender and the Agency. Lender's in-house expenses, which are those expenses that would normally be incurred for administration of the loan, including in-house lawyers, are not covered by the guarantee. Liquidation expenses must be deducted from collateral sale proceeds. The lender and Agency will share liquidation expenses equally. To accomplish this, the lender will deduct 50 percent of the liquidation expenses from the collateral sale proceeds.

(3) When a bankruptcy proceeding results in a liquidation of the borrower by a bankruptcy trustee, expenses will be handled as directed by the court, and the lender cannot claim liquidation expenses for the sale of the assets.

(4) If the property is abandoned by the bankruptcy trustee and any relief from the stay has been obtained, the lender will conduct the liquidation in accordance with § 4287.157.

(5) Proceeds received from the partial sale of collateral during bankruptcy may be used by the lender to pay reasonable costs associated with the partial sale, such as freight, labor, and sales commissions. Reasonable use of proceeds for this purpose must be documented with the final loss claim.

(6) Reasonable and customary liquidation expenses in bankruptcy may be deducted from liquidation proceeds of collateral.

[81 FR 36020, June 3, 2016, as amended at 81 FR 54477, Aug. 16, 2016]

§§ 4287.171–4287.179 [Reserved]

§ 4287.180 Termination of guarantee.

The Loan Note Guarantee will terminate under any of the following conditions:

(a) Upon full payment of the guaranteed loan;

(b) Upon full payment of any loss obligation; or

(c) Upon written notice from the lender to the Agency that the guarantee will terminate 30 days after the date of notice, provided that the lender holds all of the guaranteed portion and the Loan Note Guarantee is returned to the Agency to be canceled.

§§ 4287.181–4287.199 [Reserved]

§ 4287.200 OMB control number.

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements contained in this rule have been submitted to the Office of Management and Budget (OMB) under OMB Control Number 0570–0069 for OMB approval.

Subpart D—Servicing Biorefinery, Renewable Chemical, and Biobased Manufacturing Assistance Guaranteed Loans

SOURCE: 80 FR 36447, June 24, 2015, unless otherwise noted.

§ 4287.301 Introduction.

(a) This subpart supplements 7 CFR part 4279, subpart C by providing additional requirements and instructions for servicing and liquidating all loans guaranteed under 7 CFR part 4279, subpart C.

(b) The Lender is responsible for servicing the entire loan and will remain mortgagee and secured party of record notwithstanding the fact that another party may hold a portion of the loan. The entire loan must continue to be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of a loan will neither be paid first nor given any preference or priority over the guaranteed portion of the loan.

(c) All loan servicing actions under this subpart, except for those identified in § 4287.307(a) through (g), are subject to Agency concurrence. Whether specifically stated or not, whenever Agency approval is required, it must be in writing. Whenever Agency approval is required, such servicing action must be for Good Cause.

(d) Copies of all forms, regulations, and Instructions referenced in this subpart may be obtained from any Agency office and from the USDA Rural Development Web site at *http://www.rd.usda.gov/programs-services/biorefinery-assistance-program*. Whenever a form is designated in this subpart, that designation includes predecessor and successor forms, if applicable, as specified by the Agency.

§ 4287.302 Definitions.

The definitions and abbreviations contained in § 4279.202 of this chapter apply to this subpart.

§ 4287.303 Exception authority.

The Administrator may, with the concurrence of the Secretary of Agriculture, make an exception, on a case-by-case basis, to any requirement or provision of this subpart that is not inconsistent with any authorizing statute or applicable law, if the Administrator determines that application of the requirement or provision would adversely affect the Federal government's interest.

§§ 4287.304–4287.305 [Reserved]

§ 4287.306 Appeals.

Borrowers, Lenders, and Holders have appeal or review rights for Agency decisions made under this subpart. Programmatic decisions based on clear and objective statutory or regulatory requirements are not appealable; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). The Borrower, Lender, and Holder can appeal any Agency decision that directly and adversely impacts them. For an adverse decision that impacts the Borrower, the Lender and Borrower must jointly execute a written request for appeal for an alleged adverse decision made by the Agency. An adverse decision that only impacts the Lender may be appealed by the Lender only. An adverse decision that only impacts the Holder may be appealed by the Holder only. A decision by a Lender adverse to the interest of the Borrower is not a decision by the Agency, whether or not concurred in by the Agency. Appeals will be conducted by NAD and will be handled in accordance with 7 CFR part 11.

§ 4287.307 Routine servicing.

The Lender is responsible for servicing the entire loan and for taking all servicing actions that a reasonable Lender would perform in servicing its own portfolio of loans that are not guaranteed. The guarantee is unenforceable by the Lender to the extent any loss is occasioned by violation of usury laws, use of loan funds for unauthorized purposes, Negligent Loan Servicing or Grossly Negligent Loan Servicing as established in the Loan Note Guarantee, or failure to maintain the required security interest regardless of the time at which the Agency acquires knowledge of the foregoing. The Lender may contract for services and may rely on certain written materials (including but not limited to certifications, evaluations, appraisals, financial statements and other reports) to be provided by the Borrower or other qualified third parties (including, among others, one or more independent engineers, appraisers, accountants, consultants or other experts) but is ultimately responsible for underwriting, loan origination, loan servicing, and compliance with all Agency regulations. The Lender's Agreement is the contractual agreement between the Lender and the Agency that sets forth some of the Lender's loan servicing responsibilities. This responsibility includes but is not limited to periodic Borrower visits, the collection of payments, obtaining compliance with the covenants and provisions in the Loan Agreement, obtaining and analyzing financial statements, ensuring payment of taxes and insurance premiums, and maintaining liens on Collateral, and keeping an inventory accounting of all Collateral items and reconciling the inventory of all Collateral sold during loan servicing, including liquidation.

(a) *Periodic reports.* Each Lender must submit reports by the end of each Calendar Quarter, unless more frequent ones are needed as determined by the Agency to meet the financial interests of the United States, regarding the condition of its Agency guaranteed loan portfolio (including Borrower status and Loan Classification) and any Material Adverse Change in the general financial condition of the Borrower since the last report was submitted. The Lender must report the outstanding principal and Interest balance and the current Loan Classification on each guaranteed loan using either the USDA Lender Interactive Network Connection (LINC) system or Form RD 1980–41, ''Guaranteed Loan Status Report.''

(b) *Default reports.* Lenders must submit monthly Default reports, including Borrower payment history, for each loan in monetary Default using a form approved by the Agency.

(c) *Annual Renewal Fee.* The Lender must transmit the Annual Renewal Fee to the Agency in accordance with § 4279.231(b) of this chapter calculated based on the December 31 loan status report.

(d) *Agency and Lender conference.* At the Agency's request, the Lender must consult with the Agency to ascertain how the guaranteed loan is being serviced and that the conditions and covenants of the Loan Agreement are being enforced.

(e) *Borrower Financial reports.* The Lender must obtain, analyze, and forward to the Agency the Borrower's and any guarantor's financial statements required by the Loan Agreement within 45 days of the end of each Calendar Quarter and audited financial statements within 180 days of the end of the Borrower's fiscal year. The Lender must analyze these financial statements and provide the Agency with a written summary of the Lender's analysis, ratio analysis, and conclusions, which, at a minimum, must include trends, strengths, weaknesses, extraordinary transactions, violations of loan covenants and covenant waivers proposed by the Lender, any routine servicing actions performed, and other indications of the financial condition of the Borrower. Spreadsheets of the financial statements must also be included. Following the Agency's review of the Lender's financial analysis, the Agency will provide a written report of any concerns to the Lender. Any concerns based upon the Agency's review must be addressed by the Lender. If the Lender makes a reasonable attempt to obtain financial statements, but is unable to obtain the Borrower's cooperation, the failure to obtain financial

statements will not impair the validity of the Loan Note Guarantee.

(f) *Audits.* Any Public Body, nonprofit corporation or Indian Tribe that receives a guaranteed loan that meets the thresholds established by 2 CFR part 200, subpart F, must provide an audit for the fiscal year (of the borrower) in which the Loan Note Guarantee is issued. If the loan is for development or purchases made in a previous fiscal year through interim financing, an audit will also be provided for the fiscal year in which the development or purchases occurred. Any audit provided by a Public Body, nonprofit corporation, or Indian Tribe in accordance with this paragraph (f) will be considered adequate to meet the audit requirements of the Program for that year.

(g) *Protection of Agency interests.* If the Agency determines that the Lender is not in compliance with its servicing responsibilities, the Agency reserves the right to take any action the Agency determines necessary to protect the Agency's interests with respect to the loan. If the Agency exercises this right, the Lender must cooperate with the Agency to rectify the situation. In determining any loss, the Agency will assess against the Lender any cost to the Agency associated with such action.

(h) *Additional loans.* The Lender must notify the Agency in writing when the Lender makes any additional expenditures or new loans to the Borrower. The Lender may make additional expenditures or new loans to a Borrower with an outstanding loan guaranteed only with prior written Agency approval. The Agency will only approve additional expenditures or new loans where the expenditure or loan will not violate one or more of the loan covenants of the Borrower's Loan Agreement. Any additional expenditure or loan made by the Lender must be junior in priority to the BAP loan guaranteed under 7 CFR part 4279 except for Working Capital loans for which the Agency may consider a subordinate lien provided it is consistent with the conditional provisions specified in §4279.235(a) of this chapter and in §4287.323.

§§4287.308–4287.311 [Reserved]

§4287.312 Interest rate changes.

(a) *Reductions.* The Borrower, Lender, and Holder (if any) may collectively initiate a permanent or temporary reduction in the Interest rate of the guaranteed loan at any time during the life of the loan upon written agreement among these parties. The Lender must obtain prior Agency concurrence and must provide a copy of the modification agreement to the Agency. If any of the guaranteed portion has been purchased by the Agency, the Agency (as a Holder) will affirm or reject Interest rate change proposals in writing.

(1) Fixed rates can be changed to variable rates to reduce the Borrower's Interest rate only when the variable rate has a ceiling which is less than or equal to the original fixed rate.

(2) The Interest rates, after adjustments, must comply with the requirements for Interest rates on new loans as established by §4279.233 of this chapter.

(3) The Lender is responsible for the legal documentation of Interest rate changes by an endorsement or any other legally effective amendment to the Promissory Note; however, no new Promissory Notes may be issued. The Lender must provide copies of all legal documents to the Agency.

(b) *Increases.* Increases in fixed Interest rates and increases in variable rate basis are not permitted (except the normal fluctuations in approved variable Interest rates), unless a temporary Interest rate reduction occurred. Any increase in rates must be for Good Cause.

§4287.313 Release of Collateral.

The Lender must inspect the Collateral as often as necessary to properly service the loan. The Agency must give prior written approval for the release of Collateral, except as specified in paragraph (a) of this section or where the release of Collateral is made of Collateral under the abundance of caution provision of the applicable security agreement, subject to the provisions of paragraph (c) of this section. Appraisals on the Collateral being released are required on all transactions exceeding $250,000 and will be at the expense of

the Borrower. The appraisal must meet the requirements of § 4279.244 of this chapter. The sale or release of Collateral must be based on an Arm's Length Transaction, unless otherwise approved by the Agency in writing.

(a) Within the parameters of paragraph (c) of this section, Lenders may, over the life of the guaranteed loan, release Collateral (other than personal and corporate guarantees) with a cumulative value of up to 20 percent of the original loan amount without Agency concurrence if the proceeds generated are used to reduce the guaranteed loan or to buy replacement Collateral. Working assets, such as accounts receivable, inventory, and work-in-progress that are routinely depleted or sold and the proceeds used for the normal course of business operations, may be used in and released for routine business purposes without prior concurrence of the Agency as long as the loan has not been accelerated.

(b) If a release of Collateral does not meet the requirements of paragraph (a) of this section, the Lender must complete a written evaluation to justify the release and must obtain written Agency concurrence in advance of the release.

(c) The Lender must support all releases of Collateral with a value exceeding $250,000 with a current appraisal on the Collateral being released. The appraisal must meet the requirements of § 4279.244 of this chapter. The cost of this appraisal will not be paid for by the Agency. The Agency may, at its discretion, require an appraisal of the remaining Collateral in cases where it has been determined that the Agency may be adversely affected by the release of Collateral. The sale or release of the Collateral must be at Fair Market Value based on an Arm's Length Transaction, and there must be adequate consideration for the release of Collateral. Such consideration may include, but is not limited to:

(1) Application of the net proceeds from the sale of Collateral to the Borrower's debts in order of their lien priority in the sold Collateral;

(2) Use of the net proceeds from the sale of Collateral to purchase other Collateral of equal or greater value which the Lender will obtain as security for the benefit of the guaranteed loan with a lien position equal or superior to the position previously held;

(3) Application of the net proceeds from the sale of Collateral to the Borrower's business operation in such a manner that a significant improvement to the Borrower's debt service ability is clearly demonstrated. The Lender's written request must detail how the Borrower's debt service ability will be improved; and

(4) Assurance that the release of Collateral is essential for the success of the business, thereby furthering the goals of the Program. Such assurance must be supported by written documentation from the Lender acceptable to the Agency.

(d) Any release of Collateral must not adversely affect the Project's operation or financial condition.

§§ 4287.314–4287.322 [Reserved]

§ 4287.323 Subordination of lien position.

A Subordination of the Lender's lien position must be requested in writing by the Lender and concurred with in writing by the Agency in advance of the Subordination. The Lender's Subordination proposal must include a financial analysis of the servicing action and be fully supported by current financial statements of the Borrower and guarantors that are less than 90 days old.

(a) The Subordination of the Lender's lien position must enhance the Borrower's business and be in the best financial interest of the Agency.

(b) The lien to which the guaranteed loan is subordinated is for a fixed dollar limit and for a fixed term after which the guaranteed loan lien priority will be restored. Notwithstanding, a Subordination of lien position on inventory and accounts receivable may be made to a line of credit.

(c) Collateral must remain sufficient to provide for adequate Collateral coverage. The Agency may require a current independent appraisal in accordance with § 4279.244 of this chapter.

(d) Lien priorities must remain for the portion of the loan Collateral that was not subordinated.

(e) Subordination of the Lender's lien position must be for Good Cause.

§ 4287.324 Alterations of loan instruments.

The Lender must neither alter nor approve any alterations or modifications of any loan instrument without the prior written approval of the Agency.

§§ 4287.325–4287.333 [Reserved]

§ 4287.334 Transfer and Assumption.

The Lender may request a Transfer and Assumption of a guaranteed loan when the total indebtedness, or less than the total indebtedness, is assumed by another Borrower. If the assumption is for less than the total indebtedness of the guaranteed loan, the Transfer and Assumption must be an Arm's Length Transaction and the transfer must be of all loan Collateral. In the event of Default of the guaranteed loan, a Transfer and Assumption of the Borrower's operation and guaranteed loan can be accomplished before or after the loan goes into liquidation. However, if the Collateral has been purchased through foreclosure or the Borrower has conveyed title to the Lender, no Transfer and Assumption is permitted.

(a) *Documentation of request.* All Transfers and Assumptions cannot be conducted unless the Agency gives prior written approval. An individual credit report must be provided for transferee and its partners, officers, directors, and stockholders with 20 percent or more interest in the business, along with such other documentation as the Agency may request to determine eligibility and credit worthiness. The new Borrower must sign Form RD 4279–1.

(b) *Terms.* Loan terms may be changed for Transfer and Assumptions to eligible Borrowers continuing the Project for eligible purposes with the concurrence of the Agency, all Holders, and the transferor (including guarantors). If the transferor has been or will be released from liability, the transferor's concurrence is not required. Any new loan terms must be within the terms authorized by § 4279.234 of this chapter and must be for Good Cause.

(c) *Release of liability.* The transferor, including any guarantor, may be released from liability only with prior Agency written concurrence when the Transfer and Assumption is an Arm's Length Transaction and:

(1) The assumption is for the full amount of the loan and all of the loan Collateral is transferred to the transferee; or

(2) The assumption is for less than the full amount of the loan, all of the loan Collateral is transferred to the transferee, and the Lender demonstrates to the Agency that the transferor and guarantors have no reasonable debt-paying ability considering their assets and income in the foreseeable future.

(d) *Proceeds.* The Lender must credit any proceeds received from the sale of Collateral before a Transfer and Assumption to the transferor's guaranteed loan debt in order of lien priority before the Transfer and Assumption are closed.

(e) *Additional loans.* Guaranteed loans to provide additional funds in connection with a Transfer and Assumption must be considered a new loan application, which requires submission of a complete Agency application in accordance with §§ 4279.260 and 4279.261 of this chapter.

(f) *Credit quality.* The Lender must make a complete credit analysis in accordance with § 4279.215 of this chapter.

(g) *Appraisals.* If the proposed Transfer and Assumption is for the full amount of the Agency guaranteed loan and all loan Collateral, the Agency will not require an appraisal. If the proposed Transfer and Assumption is for less than the full amount of the Agency guaranteed loan, the Agency will require an appraisal on all of the Collateral being transferred, and the amount of the assumption must not be less than this appraised value. The Lender is responsible for obtaining this appraisal, which must conform to the requirements of § 4279.244 of this chapter. The Agency will not pay the appraisal fee or any other costs associated with this transfer.

(h) *Documents.* Prior to Agency approval, the Lender must provide the Agency a written legal opinion that the transaction can be properly and legally transferred and assurance that the conveyance instruments will be appropriately filed, registered, and recorded.

(1) The Lender must not issue any new Promissory Notes. The assumption must be completed in accordance with applicable law and must contain the Agency case number of the transferor and transferee. The Lender will provide the Agency with a copy of the Transfer and Assumption agreement. The Lender must ensure that all Transfers and Assumptions are noted on all original Loan Note Guarantees.

(2) A new Loan Agreement, consistent in principle with the original Loan Agreement, must be executed to establish the terms and conditions of the loan being assumed. An assumption agreement can be used to establish the loan covenants.

(3) Upon execution of the Transfer and Assumption, the Lender must provide the Agency with a written legal opinion that the Transfer and Assumption is completed, valid, enforceable, and certification that the Transfer and Assumption is consistent with the conditions outlined in the Agency's conditions of approval for the transfer and complies with all Agency regulations.

(i) *Loss resulting from transfer.* (1) Any resulting loss must be processed in accordance with § 4287.358.

(2) If a Holder owns any of the guaranteed portion, such portion must be repurchased by the Lender or the Agency in accordance with § 4279.225 of this chapter.

(j) *Related party.* If the transferor and transferee are Affiliates or related parties, any Transfer and Assumption must be to an eligible Borrower to continue the Project for eligible purposes, must transfer all of the loan Collateral, and must be for the full amount of the guaranteed loan indebtedness.

(k) *Cash down payment.* The Lender may allow the transferee to make cash down payments directly to the transferor provided:

(1) The Transfer and Assumption is made for the total indebtedness to an eligible Borrower to continue the Project for eligible purposes;

(2) The Lender recommends that the cash be released, and the Agency concurs prior to the transaction being completed. The Lender may require that an amount be retained for a defined period of time as a reserve against future Defaults. Interest on such account may be paid periodically to the transferor or transferee as agreed;

(3) The Lender determines that the transferee has the repayment ability to meet the obligations of the assumed guaranteed loan as well as any other indebtedness; and

(4) Any payments by the transferee to the transferor will not suspend the transferee's obligations to continue to meet the guaranteed loan payments as they come due under the terms of the assumption.

(l) *Transfer/Annual Renewal Fees.* (1) The Agency will charge a nonrefundable transfer fee at the time of transfer, which may be passed on to the Borrower by the Lender. The transfer fee rate will be equal to the rate of the guarantee fee authorized in § 4279.231(a) of this chapter for the fiscal year in which the transfer occurs. The amount of the transfer fee is determined by multiplying the principal balance at the time of the transfer by the transfer fee rate by the percentage of guarantee on the original loan.

(2) The Lender must pay any Annual Renewal Fee in accordance with § 4279.231(b) of this chapter.

(m) *Change in control of Borrower.* Transfer and Assumption shall be deemed to occur in the event of a change in the control of the Borrower.

(n) *Personal and corporate guarantees.* Guarantees from owners are required in accordance with § 4279.245 of this chapter.

§ 4287.335 Substitution of Lender.

The Lender is prohibited from selling or transferring the entire loan without the prior written approval of the Agency. Because the Loan Note Guarantee is associated with a specific Promissory Note and cannot be transferred to a new Promissory Note, the Lender must transfer the original Promissory Note and loan security documents to

the new Lender, who must agree to its current loan terms, including the Interest rate, secondary market Holder (if any), Collateral, Loan Agreement terms, and guarantors. The new Lender must also obtain the original Loan Note Guarantee, original personal and corporate guarantee(s), and the loan payment history from the transferor Lender. If the new Lender wishes to modify the loan terms after acquisition, the new Lender must submit a request to the Agency.

(a) The Agency may approve the substitution of a new Lender if:

(1) The proposed substitute Lender:

(i) Is an eligible Lender in accordance with § 4279.208 of this chapter;

(ii) Is able to service the loan in accordance with the original loan documents; and

(iii) Agrees to acquire title to the unguaranteed portion of the loan held by the original Lender and assumes all original loan requirements, including liabilities and servicing responsibilities; and

(2) The substitution of the Lender is requested in writing by the Borrower, the proposed substitute Lender, and the original Lender if still in existence.

(b) The Agency will not pay any loss or share in any costs (*e.g.*, appraisal fees and environmental assessments) with a new Lender unless a relationship is established through a substitution of Lender in accordance with paragraph (a) of this section. This includes situations where a Lender is acquired by another Lender and situations where the Lender has failed and been taken over by a regulatory agency such as the Federal Deposit Insurance Corporation (FDIC) and the loan is subsequently sold to another Lender.

(c) In cases when there is a substitution of Lender or when a Lender has been merged with or acquired by another Lender, the Agency and the new Lender must execute a new Lender's Agreement, unless a valid Lender's Agreement already exists with the new Lender.

§ 4287.336 Lender failure.

(a) The acquiring Lender must comply with 7 CFR parts 4279, subpart C and 4287, subpart D and must take such action that a reasonable Lender would take if it did not have a Loan Note Guarantee to protect the Lender and Agency's mutual interest. The Lender cannot arbitrarily change the Lender's Agreement and related documents on the guaranteed loan, and the Agency will make the successor to the failed institution aware of the statutory and regulatory requirements.

(b) In the event of a Default and the guaranteed loan is liquidated by the FDIC rather than being sold to another Lender, the Agency will pay losses and share in costs as if the FDIC were an approved new Lender.

§§ 4287.337–4287.344 [Reserved]

§ 4287.345 Default by Borrower.

The Lender's primary responsibilities in Default are to act reasonably and expeditiously, to work with the Borrower to bring the account current or cure the Default through restructuring if a realistic plan can be developed, or to accelerate the account and conduct a liquidation in a manner that will minimize any potential loss. The Lender may initiate liquidation in accordance with § 4287.357.

(a) The Lender must notify the Agency in writing when a Borrower is more than 30 days past due on a payment and the Delinquency cannot be cured within 30 days or when a Borrower is otherwise in Default of covenants in the Loan Agreement by submitting Form RD 1980–44, ''Guaranteed Loan Borrower Default Status,'' or processing the Default Status report in LINC. The Lender must provide this notification to the Agency within 15 calendar days of when a Borrower is 30 days past due on a payment or is otherwise in Default of the Loan Agreement. The Lender must update the loan's status each month using either Form RD 1980–44 or the LINC Default Status report until such time as the loan is no longer in Default. If a monetary Default exceeds 60 days, the Lender must meet with the Agency and, if practical, the Borrower to discuss the situation.

(b) In considering options, the prospects for providing a permanent cure without adversely affecting the risk to the Agency and the Lender are the paramount objective.

(1) Curative actions (subject to the rights of any Holder) include, but are not limited to:

(i) Deferment of principal or Interest payments;

(ii) An additional unguaranteed temporary loan by the Lender to bring the account current;

(iii) Reamortization of or rescheduling the payments on the loan (subject to the rights of any Holder) excluding capitalization of accrued Interest;

(iv) Transfer and Assumption of the loan in accordance with § 4287.334;

(v) Reorganization;

(vi) Liquidation; and

(vii) Changes in Interest rates with the Agency's, the Lender's, and Holder's approval. Any Interest rate changes must be adjusted proportionately between the guaranteed and unguaranteed portion of the loan.

(2) The term of any deferment, rescheduling, reamortization, or moratorium will be limited to the lesser of the remaining life of the Collateral or remaining limits as set forth in § 4279.234 of this chapter (excluding paragraph (d)). Balloon payments are permitted as a loan servicing option as long as there is a reasonable prospect for success and the remaining life of the Collateral supports the action.

(3) In the event of a loss or a repurchase, the Lender cannot claim Default or penalty Interest, late payment fees, or Interest on Interest.

(c) Debt write-downs by the lender are prohibited when the Lender will continue with the Project loan, except as directed or ordered by a final court order.

(d) In the event of a loss, the guarantee will not cover Interest to the Lender accruing after the Interest Termination Date.

(e) For repurchases of guaranteed loans, refer to § 4279.225 of this chapter.

§§ 4287.346–4287.355 [Reserved]

§ 4287.356 Protective Advances.

Protective Advances are advances made by the Lender for the purpose of preserving and protecting the Collateral where the Borrower has failed to, will not, or cannot meet its obligations. Lenders must exercise sound judgment in determining that the Protective Advance preserves Collateral and recovery is actually enhanced by making the advance. Lenders cannot make Protective Advances in lieu of additional loans. A Protective Advance claim will be paid only at the time of the final payment as indicated in the Guaranteed Loan Report of Loss.

(a) The maximum loss to be paid by the Agency will never exceed the original loan amount plus accrued Interest times the percentage of guarantee regardless of any Protective Advances made.

(b) In the event of a final loss, Protective Advances will accrue Interest at the Promissory Note rate and will be guaranteed at the same percentage of loss as provided in the Loan Note Guarantee. The guarantee will not cover Interest on the Protective Advance accruing after the Interest Termination Date.

(c) Protective Advances must constitute an indebtedness of the Borrower to the Lender and be secured by the security instruments. Agency written authorization is required when the cumulative total of Protective Advances exceeds $200,000 or 10 percent of the outstanding balance of principal, whichever is less.

§ 4287.357 Liquidation.

In the event of one or more incidents of Default or third party actions that the Borrower cannot or will not cure or eliminate within a reasonable period of time, the Lender, with Agency consent, must provide for liquidation.

(a) *Decision to liquidate.* A decision to liquidate or proceed otherwise must be made when the Lender determines that the Default cannot be cured through actions such as those contained in § 4287.345, or it has been determined that it is in the best interest of the Agency and the Lender to liquidate. The decision to liquidate or proceed otherwise with the Borrower must be made as soon as possible when one or more of the following exist:

(1) A loan is 90 days behind on any scheduled payment and the Lender and the Borrower have not been able to cure the Delinquency through actions such as those contained in § 4287.345.

(2) It is determined that delaying liquidation will jeopardize full recovery on the loan.

(3) The Borrower or Lender is uncooperative in resolving the problem or the Agency or Lender has reason to believe the Borrower is not acting in good faith, and immediate liquidation would minimize loss to the Agency.

(b) *Repurchase of loan.* When the decision to liquidate is made, if any portion of the loan has been sold or assigned under §4279.223 of this chapter and not already repurchased, provisions will be made for repurchase in accordance with §4279.225 of this chapter.

(c) *Lender's liquidation plan.* The Lender is responsible for initiating actions immediately and as necessary to ensure a prompt, orderly liquidation that will provide maximum recovery. Within 30 days after a decision to liquidate, the Lender must submit a written, proposed plan of liquidation to the Agency for approval. The liquidation plan must be detailed and include at least the following:

(1) Such proof as the Agency requires to establish the Lender's ownership of the guaranteed loan Promissory Note and related security instruments and a copy of the payment ledger, if available, that reflects the current loan balance, accrued Interest to date, and the method of computing the Interest;

(2) A full and complete list of all Collateral, including any personal and corporate guarantees;

(3) The recommended liquidation methods for making the maximum collection possible on the indebtedness and the justification for such methods, including recommended action for acquiring and disposing of all Collateral and collecting from guarantors;

(4) Necessary steps for preservation of the Collateral;

(5) Copies of the Borrower's most recently available financial statements;

(6) Copies of each guarantor's most recently available financial statements;

(7) An itemized list of estimated Liquidation Expenses expected to be incurred along with justification for each expense;

(8) A schedule to periodically report to the Agency on the progress of liquidation;

(9) Estimated Protective Advance amounts with justification;

(10) Proposed protective bid amounts on Collateral to be sold at auction and a breakdown to show how the amounts were determined. A protective bid may be made by the Lender, with prior Agency written approval, at a foreclosure sale to protect the Lender's and the Agency's interest. The protective bid will be based on the liquidation value and estimated net recovery considering prior liens and outstanding taxes, expenses of foreclosure, and estimated expenses for holding and reselling the property. These expenses include, but are not limited to, expenses for resale, Interest accrual, length of time necessary for resale, maintenance, guard service, weatherization, and prior liens;

(11) If a voluntary conveyance is considered, the proposed amount to be credited to the guaranteed debt;

(12) Legal opinions, if needed by the Lender's legal counsel; and

(13) An estimate of Fair Market Value and potential liquidation value of the Collateral. If the value of the Collateral is $250,000 or more, the Lender must obtain an independent appraisal report meeting the requirements of §4279.244 of this chapter on the Collateral securing the loan, which reflects the Fair Market Value and potential liquidation value. The liquidation appraisal must evaluate the impact on Market Value of any release of hazardous substances, petroleum products, or other environmental hazards. The independent appraiser's fee, including the cost of the environmental site assessment, will be shared equally by the Agency and the Lender. In order to ensure prompt action, the liquidation plan can be submitted with an estimate of Collateral value, and the liquidation plan may be approved by the Agency subject to the results of the final liquidation appraisal.

(d) *Approval of liquidation plan.* The Lender cannot implement its liquidation plan before obtaining written approval from the Agency. The Lender and Agency must attempt to resolve any Agency concerns.

(1) If the liquidation plan is approved by the Agency, the Lender must proceed expeditiously with liquidation and

must take all legal action necessary to liquidate the loan in accordance with the approved liquidation plan. The Lender must update or modify the liquidation plan when conditions warrant, including a change in value based on a liquidation appraisal.

(2) Should the Agency and the Lender not agree on the liquidation plan, negotiations will take place between the Agency and the Lender to resolve the disagreement. The Lender must take such actions that a reasonable Lender would take without a guarantee and keep the Agency informed in writing. When the liquidation plan is approved by the Agency, the Lender will proceed expeditiously with liquidation.

(e) *Acceleration.* The Lender will proceed to accelerate the indebtedness as expeditiously as possible when acceleration is necessary, including giving any notices and taking any other legal actions required. The guaranteed loan will be considered in liquidation once the loan has been accelerated and a demand for payment has been made upon the Borrower. The Lender must obtain from the Agency concurrence prior to the acceleration of the loan if the sole basis for acceleration is a nonmonetary Default. In the case of monetary Default, prior approval by the Agency of the Lender's acceleration is not required, although Agency concurrence must still be given not later than at the time the liquidation plan is approved. The Lender will provide a copy of the acceleration notice or other acceleration document to the Agency.

(f) *Filing an estimated loss claim.* When the Lender owns any of the guaranteed portion of the loan, the Lender must file an estimated loss claim once a decision has been made to liquidate if the liquidation is expected to exceed 90 days. When calculating the estimated loss payment, the value of the Collateral must be based on its estimated net liquidation value. For the purpose of reporting and loss claim computation, the guarantee will not cover Interest to the Lender accruing after the Interest Termination Date. The Agency will promptly process the loss claim in accordance with applicable Agency regulations as set forth in § 4287.358.

(g) *Accounting and reports.* The Lender must account for funds during the period of liquidation and must, in accordance with the Agency-approved liquidation plan, provide the Agency with reports on the progress of liquidation including disposition of Collateral, resulting costs, and additional procedures necessary for successful completion of the liquidation.

(h) *Transmitting payments and proceeds to the Agency.* When the Agency is the Holder of a portion of the guaranteed loan, the Lender must transmit to the Agency within 14 calendar days its Pro Rata share of any payments received from the Borrower, liquidation, or other proceeds using Form RD 1980–43, ''Lender's Guaranteed Loan Payment to Rural Development.''

(i) *Abandonment of collateral.* When the Lender adequately documents that the cost of liquidation would exceed the potential recovery value of certain Collateral and receives Agency concurrence, the Lender may abandon that Collateral. When the Lender makes a recommendation for abandonment of Collateral, it will be considered a servicing action under 7 CFR 1970.8(e), and will not require separate NEPA review.

(j) *Disposition of personal or corporate guarantees.* The Lender must take action to maximize recovery from all personal and corporate guarantees, including seeking Deficiency Judgments when there is a reasonable chance of future collection.

(k) *Compromise settlement.* Compromise settlements must be approved by the Lender and the Agency. Complete current financial information on all parties obligated for the loan must be provided. At a minimum, the compromise settlement must be equivalent to the value and timeliness of that which would be received from attempting to collect on the guarantee. The guarantor cannot be released from liability until the full amount of the compromise settlement has been received. In weighing whether the compromise settlement should be accepted, among other things, the Agency will weigh whether the compromise is more financially advantageous than collecting on the guarantee.

(l) *Litigation.* In all litigation proceedings involving the Borrower, the Lender is responsible for protecting the rights of the Lender with respect to the

loan and keeping the Agency adequately and regularly informed, in writing, of all aspects of the proceedings. If the Agency determines that the Lender is not adequately protecting the rights of the Lender or the Agency with respect to the loan, the Agency reserves the right to take any legal action the Agency determines necessary to protect the rights of the Lender, on behalf of the Lender, or the Agency with respect to the loan. If the Agency exercises this right, the Lender must cooperate with the Agency. Any cost to the Agency associated with such action will be assessed against the Lender.

[80 FR 36447, June 24, 2015, as amended at 81 FR 11053, Mar. 2, 2016]

§4287.358 Determination of loss and payment.

Unless the Agency anticipates a Future Recovery, the Agency will make a final settlement with the Lender after the Collateral is liquidated and settlement and compromise of all parties has been completed. The Agency has the right to recover losses paid under the guarantee from any party that may be liable.

(a) *Report of loss form.* Form RD 449–30, ''Guaranteed Loan Report of Loss,'' will be used for reporting and calculating all estimated and final loss determinations.

(b) *Estimated loss.* In accordance with the requirements of §4287.357(f), the Lender must prepare an estimated loss claim and submit it to the Agency.

(1) Interest accrual eligible for payment under the guarantee on the Defaulted loan will be discontinued when the estimated loss is paid.

(2) A Protective Advance claim will be paid only at the time of the final payment as indicated in the Guaranteed Loan Report of Loss.

(3) The estimated loss payment is a payment to the Lender and is not to be applied as a payment on the loan for purposes of reducing the unpaid balance owed by the Borrower or for status reporting (semi-annual status/Default status reports).

(c) *Final loss.* Except for certain unsecured personal or corporate guarantees as provided for in this section, the Lender must prepare a final Guaranteed Loan Report of Loss and submit it to the Agency within 30 days after liquidation of all Collateral is completed. Interest will not be paid beyond the Interest Termination Date. Before approval by the Agency of any final loss report, the Lender must account for all funds during the period of liquidation, disposition of the Collateral, all costs incurred, and any other information necessary for the successful completion of liquidation. Upon receipt of the final accounting and Guaranteed Loan Report of Loss, the Agency may audit all applicable documentation to determine the final loss. The Lender must make its records available and otherwise assist the Agency in making any investigation. The documentation accompanying the Guaranteed Loan Report of Loss must support the amounts reported as losses on the Guaranteed Loan Report of Loss.

(1) The Lender must make a determination regarding the collectability of unsecured personal and corporate guarantees. If reasonably possible, the Lender must promptly collect or otherwise dispose of such guarantees in accordance with §4287.357(j) prior to completion of the final loss report. However, in the event that collection from the guarantors appears unlikely or will require a prolonged period of time, the Lender must file the Guaranteed Loan Report of Loss when all other Collateral has been liquidated. Unsecured personal or corporate guarantees outstanding at the time of the submission of the final loss claim will be treated as a Future Recovery with the net proceeds to be shared on a Pro Rata basis by the Lender and the Agency. The Agency may consider a compromise settlement of Federal Debt after it has processed a final Guaranteed Loan Report of Loss and issued a 60 day due process letter. Any funds collected on Federal Debt will not be shared with the Lender.

(2) The Lender must document that all of the Collateral has been accounted for and properly liquidated and liquidation proceeds have been accounted for and applied correctly to the loan.

(3) The Lender must provide receipts and a breakdown of any Protective Advance amount as to the payee, purpose

of the expenditure, date paid, and evidence that the amount expended was proper.

(4) The Lender must provide receipts and a breakdown of Liquidation Expenses as to the payee, purpose of the expenditure, date paid, and evidence that the amount expended was proper. Liquidation Expenses are recoverable only from liquidation proceeds. The Agency may approve attorney/legal fees as Liquidation Expenses provided that the fees are reasonable, require the assistance of attorneys, and cover legal issues pertaining to the liquidation that could not be properly handled by the Lender and its employees.

(5) The Lender must support accrued Interest by documenting how the amount was accrued. If the Interest rate was a variable rate, the Lender must include documentation of changes in both the selected base rate and the loan rate.

(6) The Agency will pay loss payments within 60 days after it has reviewed the complete final loss report and accounting of the Collateral.

(7) If a Lender receives a final loss payment and the Agency determines there is Future Recovery, the Lender must submit to the Agency an annual report on its collection activities for each unsatisfied account for 3 years following payment of the final loss claim.

(d) *Loss limit.* The amount payable by the Agency to the Lender cannot exceed the limits set forth in the Loan Note Guarantee.

(e) *Liquidation Expenses.* The Agency will deduct Liquidation Expenses from the liquidation proceeds of the Collateral. The Lender cannot claim any Liquidation Expenses in excess of liquidation proceeds. Any changes to the Liquidation Expenses that exceed 10 percent of the amount proposed in the liquidation plan must be approved by the Agency. Reasonable attorney/legal expenses will be shared by the Lender and Agency equally, including those instances where the Lender has incurred such expenses from a trustee conducting the liquidation of assets. The Lender cannot claim the guarantee fee or the Annual Renewal Fee as authorized Liquidation Expenses, and no In-House Expenses of the Lender will be allowed. In-House Expenses include, but are not limited to, employee's salaries, staff lawyers, travel, and overhead.

(f) *Rent.* The Lender must apply any net rental or other income that it receives from the Collateral to the guaranteed loan debt.

(g) *Payment.* Once the Agency approves the Guaranteed Loan Report of Loss and supporting documents submitted by the Lender:

(1) If the loss is greater than any estimated loss payment, the Agency will pay the additional amount owed by the Agency to the Lender.

(2) If the loss is less than the estimated loss payment, the Lender must reimburse the Agency for the overpayment plus Interest at the Promissory Note rate from the date of payment.

§§ 4287.359–4287.368 [Reserved]

§ 4287.369 Future recovery.

Unless notified otherwise by the Agency, after the final loss claim has been paid, the Lender must use reasonable efforts to attempt collection from any party still liable for Future Recovery. Any net proceeds from Future Recovery must be split Pro Rata between the Lender and the Agency based on the original amount of the loan guarantee. Any collection of Federal Debt made by the Federal Government from any liable party to the guaranteed loan will not be split with the Lender.

§ 4287.370 Bankruptcy.

(a) *Lender's responsibilities.* It is the Lender's responsibility to protect the guaranteed loan and all of the Collateral securing it in bankruptcy and any related appellate proceedings. These responsibilities include, but are not limited to the following:

(1) Monitoring confirmed bankruptcy plans to determine Borrower compliance, and, if the Borrower fails to comply, pursue appropriate relief;

(2) Filing all the necessary papers and pleadings concerning the case, including where appropriate a proof of claim;

(3) Attending and, where necessary, participating in meetings of the creditors and all court proceedings;

(4) Requesting modifications of any proposed bankruptcy plan whenever it appears that the Lender could obtain additional recoveries via plan modification;

(5) Keeping the Agency adequately and regularly informed in writing of all aspects of the proceedings;

(6) Submitting a Default status report within 15 days after the date when the Borrower Defaults and every 30 days thereafter until the Default is resolved or a final loss claim is paid by the Agency. The Default status report will be used to inform the Agency of the bankruptcy filing, the plan confirmation date, when the plan is complete, and when the Borrower is not in compliance with the plan; and

(7) With written Agency consent, the Lender and Agency will equally share the cost of any independent appraisal fee to protect the guaranteed loan in any bankruptcy proceedings.

(b) *Reports of loss during bankruptcy.* In bankruptcy proceedings, payment of loss claims will be made as provided in this section.

(1) *Estimated loss payments.* (i) If a Borrower has filed for bankruptcy and all or a portion of the debt has been discharged, the Lender must request an estimated loss payment of the guaranteed portion of the accrued Interest and principal discharged by the court. Only one estimated loss payment is allowed during the bankruptcy and any related appellate proceedings. All subsequent claims of the Lender during bankruptcy and any related appellate proceedings will be considered revisions to the initial estimated loss. A revised estimated loss payment may be processed by the Agency, at its option, in accordance with any court-approved changes in the bankruptcy plan. Once the bankruptcy plan has been completed, the Lender is responsible for submitting the documentation necessary for the Agency to review and adjust the estimated loss claim to reflect any actual discharge of principal and Interest and to reimburse the Lender for any court-ordered Interest rate reduction under the terms of the bankruptcy plan.

(ii) The Lender must use the Guaranteed Loan Report of Loss to request an estimated loss payment and to revise any estimated loss payments during the course of the bankruptcy plan. The estimated loss claim, as well as any revisions to this claim, must be accompanied by documentation to support the claim.

(iii) Upon completion of a bankruptcy plan, the Lender must:

(A) Complete a Form RD 1980–44 and forward this form to the Agency; and

(B) Provide the Agency with the documentation necessary to determine whether the estimated loss paid equals the actual loss sustained.

(*1*) If the actual loss sustained as a result of the bankruptcy is less than the estimated loss, the Lender must reimburse the Agency for the overpayment plus Interest at the Promissory Note rate from the date of payment of the estimated loss.

(*2*) If the actual loss is greater than the estimated loss payment, the Lender must submit a revised estimated loss claim in order to obtain payment of the additional amount owed by the Agency to the Lender.

(2) *Bankruptcy loss payments.* (i) The Lender must request a bankruptcy loss payment of the guaranteed portion of the accrued Interest and principal discharged by the court for all bankruptcies when all or a portion of the debt has been discharged. Unless a final court decree approves a subsequent change to the bankruptcy plan that is adverse to the Lender, only one bankruptcy loss payment is allowed during the bankruptcy. Once a final court decree has discharged all or part of the guaranteed loan and any appeal period has run, the Lender must submit the documentation necessary for the Agency to review and adjust the bankruptcy loss claim to reflect any actual discharge of principal and Interest.

(ii) The Lender must use the Guaranteed Loan Report of Loss to request a bankruptcy loss payment and to revise any bankruptcy loss payments during the course of the bankruptcy. The Lender must include with the bankruptcy loss claim documentation to support the claim, as well as any revisions to this claim.

(iii) Upon completion of a bankruptcy plan, restructuring, or liquidation, the Lender must either complete a Form RD 1980–44 and forward this

form to the Agency or enter the data directly into LINC.

(iv) If an estimated loss claim is paid during a bankruptcy and the Borrower repays in full the remaining balance without an additional loss sustained by the Lender, a final Guaranteed Loan Report of Loss is not necessary.

(3) *Interest rate losses as a result of bankruptcy reorganization.* Interest rate losses as a result of bankruptcy reorganization will be paid as follows:

(i) Interest losses sustained during the period of the bankruptcy plan will be processed in accordance with paragraph (b)(1) of this section;

(ii) Interest losses sustained after the bankruptcy plan is confirmed will be processed annually when the Lender sustains a loss as a result of a permanent Interest rate reduction that extends beyond the period of the bankruptcy plan; and

(iii) If a bankruptcy loss claim is paid during the operation of the bankruptcy plan and the Borrower repays in full the remaining balance without an additional loss sustained by the Lender, a final Guaranteed Loan Report of Loss is not necessary.

(4) *Final bankruptcy loss payments.* The Agency will process final bankruptcy loss payments when the loan is fully liquidated.

(5) *Application of loss claim payments.* The Lender must apply estimated loss payments first to the unsecured principal of the guaranteed portion of the debt and then to the unsecured interest of the guaranteed portion of the debt. In the event a court attempts to direct the payments to be applied in a different manner, the Lender must immediately notify the Agency in writing.

(6) *Protective Advances.* If approved Protective Advances, as authorized by § 4287.356, were incurred in connection with the initiation of liquidation action and were required to provide repairs, insurance, etc., to protect the Collateral as result of delays in the case of failure of the Borrower to maintain the security prior to the Borrower having filed bankruptcy, the Protective Advances together with accrued Interest are payable under the guarantee in the final loss claim.

(c) *Expenses during bankruptcy proceedings.* (1) Under no circumstances will the guarantee cover Liquidation Expenses in excess of liquidation proceeds.

(2) Expenses, such as reasonable attorney/legal fees and the cost of appraisals incurred by the Lender as a direct result of the Borrower's bankruptcy filing, will be shared equally by the Lender and the Agency.

(3) Reasonable and customary Liquidation Expenses must be deducted from Collateral sale proceeds. Liquidation Expenses are covered under the guarantee, provided they are reasonable, customary, and provide a demonstrated economic benefit to the Lender and the Agency. Lender's In-House Expenses, which are those expenses that would normally be incurred for administration of the loan, including in-house lawyers, are not covered by the guarantee.

(4) When a bankruptcy proceeding results in a liquidation of the Borrower by a bankruptcy trustee appointed under 11 U.S.C. 701, 702, 703 or 1104, expenses will be handled as directed by the court, and the Lender cannot claim Liquidation Expenses for the sale of the assets.

(5) If the property is abandoned by the bankruptcy trustee, the Lender will conduct the liquidation in accordance with § 4287.357.

(6) Proceeds received from partial sale of Collateral during bankruptcy may be used by the Lender to pay reasonable costs, such as freight, labor and sales commissions, associated with the partial sale. Reasonable use of proceeds for this purpose must be documented with the final loss claim.

§§ 4287.371–4287.379 [Reserved]

§ 4287.380 Termination of guarantee.

The Loan Note Guarantee will terminate under any of the following conditions:

(a) Upon full payment of the guaranteed loan;

(b) Upon full payment of any loss obligation; or

(c) Upon written notice from the Lender to the Agency that the guarantee will terminate 30 days after the date of notice, provided that the Lender owns the entire guaranteed interest

in the loan and the Loan Note Guarantee is returned to the Agency to be canceled.

§§ 4287.381–4287.399 [Reserved]

§ 4287.400 OMB control number.

In accordance with the Paperwork Reduction Act of 1995, the information collection requirements contained in the subsequent interim rule have been submitted to the Office of Management and Budget (OMB) under OMB Control Number 0570–0065 for approval. A person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Subpart A—Repowering Assistance Payments to Eligible Biorefineries

§ 4288.1 Purpose and scope.

(a) *Purpose.* The purpose of this program is to provide financial incentives to biorefineries in existence on June 18, 2008, the date of the enactment of the Food, Conservation, and Energy Act of 2008 (the 2008 Farm Bill) (Pub. L. 110–246), to replace the use of fossil fuels used to produce heat or power at their facilities by installing new systems that use renewable biomass, or to produce new energy from renewable biomass.

(b) *Scope.* The Agency may make payments under this program to any biorefinery that meets the requirements of the program up to the limits established for the program. Based on our research and survey of medium-sized project costs, the Agency has determined that the dollar amount identified will provide adequate incentive for biorefineries to apply.

(1) The Agency will determine the amount of payments to be made to a biorefinery taking into consideration the percentage reduction in fossil fuel

used by the biorefinery (including the quantity of fossil fuels a renewable biomass system is replacing), and the cost and cost-effectiveness of the renewable biomass system.

(2) The Agency will determine who receives payment under this program based on the percentage reduction in fossil fuel used by the biorefinery that will result from the installation of the renewable biomass system; the cost and cost-effectiveness of the renewable biomass system; and other scoring criteria identified in § 4288.21. The above criteria will be used to determine priority for awards of 50 percent of total eligible project costs, up to the maximum award applicable for the fiscal year.

§ 4288.2 Definitions.

The definitions set forth in this section are applicable for all purposes of program administration under this subpart.

Agency. The USDA Rural Development, Rural Business-Cooperative Service or its successor organization.

Application period. The time period announced by the Agency during which the Agency will accept applications.

Base energy use. The amount of documented fossil fuel energy use over an extended operating period.

(1) The extended operating period must be at least 24 months of recorded usage, and requires metered utility records for electric energy, natural gas consumption, fuel oil, coal shipments and propane use, as applicable for providing heat or power for the operation of the biorefinery.

(2) Utility billing, oil and coal shipments must be actual bills, with meter readings, applicable rates and tariffs, costs and usage. Billing must be complete, without gaps and arranged in chronological order. Drop shipments of coal or oil can be substituted for metered readings, provided the biorefinery documents the usage and its relationship to providing heat or power to the biorefinery.

(3) A biorefinery in existence on or before June 18, 2008 with less than 24 months of actual operating data must provide at least 12 months of data supported by engineering and design calculations, and site plans, prepared by the construction engineering firm.

Biobased products. Products determined by the Secretary to be commercial or industrial products (other than food or feed) that are:

(1) Composed, in whole or in significant part, of biological products, including renewable domestic agricultural materials and forestry materials; or

(2) Intermediate ingredients or feedstocks.

Biofuel. Fuel derived from renewable biomass.

Biorefinery. A facility (including equipment and processes) that converts renewable biomass into biofuels and biobased products, and may produce electricity.

Eligible biorefinery. A biorefinery that has been in existence on or before June 18, 2008.

Energy Information Agency (EIA). The statistical agency of the Department of Energy and source of official energy statistics from the U.S. Government.

Feasibility study. An Agency-acceptable analysis of the economic, environmental, technical, financial, and management capabilities of a proposed project or business in terms of its expected success. A list of items that must be included in a feasibility study is presented in § 4288.20(c)(9) of this subpart.

Financial interest. Any ownership, creditor, or management interest in the biorefinery.

Fiscal year. A 12-month period beginning each October 1 and ending September 30 of the following calendar year.

Fossil fuel. Coal, oil, propane, and natural gas.

Renewable biomass.

(1) Materials, pre-commercial thinnings, or invasive species from National Forest System land or public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that:

(i) Are byproducts of preventive treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health; and

(ii) Would not otherwise be used for higher value products; and

(iii) Are harvested in accordance with applicable law and land management plans and the requirements for old growth maintenance, restoration, and management direction as per paragraphs (e)(2), (e)(3), and (e)(4), and large tree retention as per paragraph (f), of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512); or

(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian Tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including:

(i) Renewable plant material, including feed grains; other agricultural commodities; other plants and trees; and algae; and

(ii) Waste material, including crop residue; other vegetative waste material (including wood waste and wood residues); animal waste and byproducts (including fats, oils, greases, and manure); and food waste and yard waste.

Rural or rural area. Any area of a State not in a city or town that has a population of more than 50,000 inhabitants according to the most recent decennial Census of the United States, not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants, and which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I), as well as any area that has been determined to be ''rural in character'' by the Under Secretary for Rural Development, or as otherwise identified in this definition.

(1) An area that is attached to the urbanized area of a city or town with more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than 2 census blocks wide. Applicants from such an area should work with their Rural Development State Office to request a determination of whether their project is located in a rural area under this provision.

(2) For the purposes of this definition, cities and towns are incorporated population centers with definite boundaries, local self government, and legal powers set forth in a charter granted by the State.

(3) For the Commonwealth of Puerto Rico, the island is considered rural and eligible for Business Programs assistance, except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be eligible if they are ''not urban in character.''

(4) For the State of Hawaii, all areas within the State are considered rural and eligible for Business Programs assistance, except for the Honolulu CDP within the County of Honolulu.

(5) For the purpose of defining a rural area in the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands, the Agency shall determine what constitutes rural and rural area based on available population data.

(6) The determination that an area is ''rural in character'' will be made by the Under Secretary of Rural Development. The process to request a determination under this provision is outlined in paragraph (6)(ii) of this definition.

(i) The determination that an area is ''rural in character'' under this definition will apply to areas that are within:

(A) An urbanized area that has two points on its boundary that are at least 40 miles apart, which is not contiguous or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urbanized area of such a city or town; or

(B) An urbanized area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within one-quarter mile of a rural area.

(ii) Units of local government may petition the Under Secretary of Rural Development for a ''rural in character'' designation by submitting a petition to both the appropriate Rural Development State Director and the Administrator on behalf of the Under Secretary. The petition shall document how the area meets the requirements of paragraph (6)(i)(A) or (6)(i)(B) of this definition and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, and topography and how

the local economy is tied to a rural economic base. Upon receiving a petition, the Under Secretary will consult with the applicable Governor or leader in a similar position and request comments to be submitted within 5 business days, unless such comments were submitted with the petition. The Under Secretary will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Agency's Web site, and the Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration.

[76 FR 7926, Feb. 11, 2011, as amended at 80 FR 9913, Feb. 24, 2015; 87 FR 38645, June 29, 2022]

§ 4288.3 Review or appeal rights.

A person may seek a review of an Agency decision or appeal to the National Appeals Division in accordance with 7 CFR part 11 of this title.

§ 4288.4 Compliance with other laws and regulations.

Participating biorefineries must comply with other applicable Federal, State, and local laws, including, but not limited to, the Equal Employment Opportunities Act, the Equal Credit Opportunity Act, Title VI of the Civil Rights Act of 1964, 7 CFR Part 1901, subpart E, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975. Applicants must submit and will be subject to preaward and post award compliance reviews with the terms and conditions set forth in Form RD 400–1, ''Equal Opportunity Agreement'' and Form RD 400–4, ''Assurance Agreement.''

§ 4288.5 Oversight, monitoring, and reporting requirements.

(a) *Verification.* The Agency reserves the right to verify all payment requests and subsequent payments made under this program, including field visits, as frequently as necessary to ensure the integrity of the program. Documentation provided will be used to verify, reconcile, and enforce the payment terms of Form RD 4288–5, ''Repowering Assistance Program—Agreement,'' along with any potential refunds that the recipient will be required to make should they fail to adequately document their request.

(b) *Records.* (1) For purposes of verifying the eligible project costs supporting payments under this subpart, each biorefinery must maintain in one place such books, documents, papers, receipts, payroll records and bills of sale adequate to identify the purposes for which, and the manner in which funds were expended for eligible project costs. The biorefinery must maintain copies of all documents submitted to the Agency in connection with payments made hereunder. These records must be available at all reasonable times for examination by the Agency and must be held and be available for Agency examination for a period of not less than 3 years from the final payment date.

(2) For the purpose of verifying compliance with the fossil fuel reduction and energy production requirements of this subpart, each biorefinery must make available and provide for the metering of all power and heat producing boilers, containment vessels, generators and any other equipment related to the production of heat or power required to displace fossil fuel loads with renewable biomass. These records must be held in one place and be available at all reasonable times for examination by the Agency. Such records include all books, papers, contracts, scale tickets, settlement sheets, invoices, and any other documents related to the program that are within the control of the biorefinery. These records must be held and made available for Agency examination for a period of not less than 3 years from the date the repowering project becomes operational.

(c) *Reporting.* Upon completion of the repowering project, the biorefinery must submit a report using Form RD 4288–6, ''Repowering Assistance Programs—Reporting Form,'' to the Agency annually for the first 3 years after

completion of the project. The reports are to be submitted as of October 1 of each year. The report must include the items specified in paragraphs (c)(1) and (c)(2) of this section.

(1) Documentation regarding the usage and production of energy at the biorefinery during the previous year, including both the previous and current fossil fuel load and the renewable biomass energy production.

(i) Metered data documenting the production of heat, steam, gas and power must be obtained utilizing an Agency approved measurement device.

(ii) Metered data must be verifiable and subject to independent calibration testing.

(2) Current utility billing data, indentifying metered loads, from the base energy use period.

§ 4288.6 Forms, regulations, and instructions.

Copies of all forms, regulations, instructions, and other materials related to this program may be obtained from the USDA Rural Development State Office, Renewable Energy Coordinator and the USDA Rural Development Web site at *http://www.rurdev.usda.gov/regs/*.

§ 4288.7 Exception authority.

The Administrator of the Agency (''Administrator'') may, with the concurrence of the Secretary of Agriculture, make an exception, on a case-by-case basis, to any requirement or provision of this subpart that is not inconsistent with any authorizing statute or applicable law, if the Administrator determines that application of the requirement or provision would adversely affect the Federal government's interest.

§§ 4288.8–4288.9 [Reserved]

§ 4288.10 Applicant eligibility.

(a) *Eligible projects.* To be eligible for this program, the applicant must be an eligible biorefinery utilizing only renewable biomass for replacement fuel, and must meet the requirements specified in paragraphs (a)(1) through (a)(5) of this section.

(1) *Timely complete application submission.* To be eligible for this program, the applicant must submit a complete application within the application period. Projects will be selected based on ranking which is derived from the application of the selection criteria stated in § 4288.21.

(2) *Multiple biorefineries.* Corporations and entities with more than one biorefinery can submit an application for only one of their biorefineries. However, if a corporation or entity has multiple biorefineries located at the same location, the entity may submit an application that covers such biorefineries provided the heat and power used in the multiple biorefineries are centrally produced.

(3) *Cost-effectiveness.* The application must be awarded at least minimum points for cost-effectiveness under § 4288.21(b)(1).

(4) *Percentage of reduction of fossil fuel use.* The application must be awarded at least minimum points for percentage of reduction of fossil fuel use under § 4288.21(b)(2).

(5) *Full project financing.* The applicant must demonstrate that it has sufficient funds or has obtained commitments for sufficient funds to complete the repowering project taking into account the amount of the payment request in the application.

(b) *Ineligible projects.* A project is not eligible under this subpart if it is using feedstocks for repowering that are feed grain commodities that received benefits under Title I of the Food, Conservation, and Energy Act of 2008.

§ 4288.11 Eligible project costs.

Eligible project costs will be only for project related construction costs for repowering improvements associated with the equipment, installation, engineering, design, site plans, associated professional fees, permits and financing fees.

§ 4288.12 Ineligible project costs.

Any project costs incurred by the applicant prior to application for payment assistance under this program will be ineligible for payment assistance.

§ 4288.13 Payment information.

(a) *Maximum payment.* For purposes of this program, the maximum payment

an applicant may receive will be 50 percent of total eligible project costs up to the applicable fiscal year's maximum award as announced in an annual FEDERAL REGISTER notice. There is no minimum payment to an applicant.

(b) *Reimbursement payments.* The Agency shall only make payments based on the biorefinery's expenditures on eligible project costs. Payments shall be determined by multiplying the amount of eligible expenditures stated on the payment request by a percentage obtained by dividing the aggregate payment award by total eligible project costs.

(c) *Timing of payments.* The Applicant may request payments not more frequently than once a month by submitting an original, completed, validly signed Standard Form (SF) 271, ''Outlay Report and Request for Reimbursement for Construction Programs'' including the supporting documentation identified in § 4288.23, to reimburse the applicant for the Agency's pro rata share of funds expended on eligible project costs. The Agency shall make such payments until 90 percent of the total payment award has been expended. The final 10 percent of the payment award will be paid upon completion of the repowering project and satisfactory evidence has been received by the Agency demonstrating that the biorefinery is operating as described in the Agency approved application.

§§ 4288.14–4288.19 [Reserved]

§ 4288.20 Submittal of applications.

(a) *Address to make application.* Application must be submitted to USDA, Rural Development-Energy Division, Program Branch, Attention: Repowering Assistance Program, 1400 Independence Avenue, SW., Stop 3225, Washington, DC 20250–3225.

(b) *Content and form of submission.* Applicants must submit a signed original and one copy of an application containing the information specified in this section. The applicant must also furnish the Agency the required documentation identified in Form RD 4288–4, ''Repowering Assistance Program Application,'' to verify compliance with program provisions before acceptance into the program. Note that applicants are required to have a Unique Entity Identifier (UEI) (unless the applicant is an individual). Instructions for obtaining the UEI are available at *https://sam.gov/.* Applicants must submit to the Agency the documents specified in paragraphs (b)(1) through (6) of this section.

(1) *Form RD 4288–4.* Applicants must submit this form and all necessary attachments providing project information on the biorefinery; the facility at which the biorefinery operates, including location and products produced; and the types and quantities of renewable biomass feedstock being proposed to produce heat or power. This form requires the applicant to provide relevant data to allow for technical analysis of their existing facility to demonstrate replacement of fossil fuel by renewable biomass with reasonable costs and maximum efficiencies. The applicant must also submit evidence that the biorefinery was in existence on or before June 18, 2008. The applicant is required to certify the information provided.

(2) RD Instruction 1940–Q, Exhibit A–1, ''Certification for Contracts, Grants and Loans.''

(3) Form RD 400–1.

(4) Form RD 400–4.

(5) Environmental documentation in accordance with 7 CFR part 1970.

(6) Certifications. The applicant must furnish the Agency all required certifications before acceptance into the program, and furnish access to records required by the Agency to verify compliance with program provisions. The applicant must submit forms or other written documentation certifying to the following:

(i) AD–1047, ''Certification Regarding Debarment, Suspension, and Other Responsibility Matters—Primary Covered Transactions'' or other written documentation.

(ii) AD–1048, ''Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions'' or other written documentation.

(iii) SF–LLL, ''Disclosure of Lobbying Activities.''

(c) *Application package contents.* Applicants are required to provide relevant data to allow for technical analysis of their existing facilities to demonstrate replacement of fossil fuel by renewable biomass with reasonable costs and maximum efficiencies. Applicants in existence on or before June 18, 2008 with more than 24 months of actual operating data must provide data for the most recent 24-month period. Applicants in existence on or before June 18, 2008 with less than 24 months of actual operating data must provide 12 months of data supported by engineering and design calculations, and site plans, prepared by the construction engineering firm. All applicants must submit the information specified in paragraphs (c)(1) through (c)(9) of this section as part of their application package.

(1) *Contact data.* Contact information for the primary technical contact for the biorefinery.

(2) *Biorefinery data.* Basic information on facility operations over time (hours/day, days/year).

(3) *Electric use data.* Information on existing electric service to the facility, data on consumption, peak and average demand, and monthly/seasonal use patterns.

(4) *Fuel use data.* Information on natural gas and current fuel use for boilers and heaters, including fuel type, costs, and use patterns.

(5) *Thermal loads.* Information on existing thermal loads, including type (steam, hot water, direct heat), conditions (temperature, pressure) and use patterns.

(6) *Existing equipment.* Information on existing heating and cooling equipment, including type, capacities, efficiencies and emissions.

(7) *Site-specific data.* Information on other site-specific issues, such as expansion plans or neighborhood considerations that might impact the proposed new system design or operation; or environmental impacts.

(8) *Biofuel and biobased product production.* Information on biofuel and biobased product production, including quantity and units of production.

(9) *Feasibility study.* The applicant must submit a feasibility study by an independent qualified consultant, which has no financial interest in the biorefinery, and demonstrates that the renewable biomass system of the biorefinery is feasible, taking into account the economic, technical and environmental aspects of the system. The feasibility study must include the components specified in paragraphs (c)(9)(i) through (c)(9)(x) of this section.

(i) An executive summary, including resume of the consultant, and an introduction/project overview (brief general overview of project location, size, *etc.*).

(ii) An economic feasibility determination, including:

(A) Information regarding the project site;

(B) Information on the availability of trained or trainable labor; and

(C) Information on the availability of infrastructure and rail and road service to the site.

(iii) A technical feasibility determination, including a report that:

(A) Describes the repowering project, including:

(*1*) Information on heating and cooling equipment, including type, capacities, efficiencies and emissions;

(*2*) Anticipated impacts of the repowering project on the information requested above relating to electric use data, fuel use data, thermal loads and biofuel and biobased product production; and

(*3*) A project development schedule as more fully described in § 4288.21(b)(4)(iv);

(B) Is based upon verifiable data and contains sufficient information and analysis so that a determination may be made on the technical feasibility of achieving the levels of energy production that are projected in the statements. The report must provide the information in a format that is responsive to the scoring criteria specified in § 4288.21(b)(1) through (5) and applicants should identify in their report the information that corresponds to each of the scoring criteria; and

(C) Identifies and estimates project operation and development costs and specifies the level of accuracy of these estimates and the assumptions on which these estimates have been based.

(iv) A financial feasibility determination that discusses the following:

(A) Repowering project construction funding, including repayment terms and security arrangements. Attach any documents relating to the project financing;

(B) The reliability of the financial projections and assumptions on which the project is based including all sources of project capital, both private and public, such as Federal funds;

(C) Projected balance sheets and costs associated with project operations;

(D) Cash flow projections for 3 years;

(E) The adequacy of raw materials and supplies;

(F) A sensitivity analysis, including feedstock and energy costs, product/co-product prices;

(G) Risks related to the project; and

(H) The continuity, maintenance and availability of records.

(v) A management feasibility determination.

(vi) Recommendations for implementation.

(vii) The environmental concerns and issues of the system.

(viii) The availability of feedstock, including discussions of:

(A) Feedstock source management;

(B) Estimates of feedstock volumes and costs;

(C) Collection, pre-treatment, transportation, and storage; and

(D) Impacts on existing manufacturing plants or other facilities that use similar feedstock.

(ix) The feasibility/plans of project to work with producer associations or cooperatives including estimated amount of annual feedstock from those entities.

(x) If woody biomass from National forest system lands or public lands is proposed as the feedstock, documentation must be provided that it cannot be used as a higher value wood-based product.

[76 FR 7926, Feb. 11, 2011, as amended at 81 FR 11053, Mar. 2, 2016; 89 FR 34959, May 1, 2024]

§ 4288.21 Application review and scoring.

The Agency will evaluate projects based on the cost, cost-effectiveness, and capacity of projects to reduce fossil fuels. The cost of the project will be taken into consideration in the context of each project's ability to economically produce energy from renewable biomass to replace its dependence on fossil fuels. Projects with higher costs that are less efficient will not score well. The scoring criteria are designed to evaluate projects on simple payback as well as the percentage of fossil fuel reduction.

(a) *Review.* The Agency will evaluate each application and make a determination as to whether the applicant is eligible, whether the proposed project is eligible, and whether the proposed payment request complies with all applicable statutes and regulations. This evaluation will be conducted by experts in the Agency and other Federal agencies, including the U.S. Department of Energy based on the information provided by the applicant.

(b) *Scoring.* The Agency will score each application in order to prioritize each proposed project. The maximum number of points awardable to any applicant will be 100. The evaluation criteria that the Agency will use to score these projects are specified in paragraphs (b)(1) through (b)(6) of this section.

(1) *Cost-effectiveness.* Cost-effectiveness will be scored based on the anticipated simple payback period, or ''simple payback.'' Anticipated simple payback will be demonstrated by calculating documented base energy use costs for the 24-month period prior to submission of the application or at least 12 months of data supported by engineering and design calculations, and site plans, prepared by the construction engineering firm.

(i) The simple payback period is calculated as follows:

- Simple payback = C/S

Where:

C = eligible capital expenses of the repowering project

S = savings in annual operating costs.

Example: Eligible capital expenses of the repowering project, including handling equipment, biomass boiler, piping improvements and plant modifications, are equal to $5,300,500. The annual difference in fossil fuel cost versus the cost for renewable biomass is $990,500. Assume these costs and uses are based on a yearly operating cycle, which may include handling, storage and treatment

costs. In this example, C = $5,300,500; S = $990,500; simple payback = 5.35 years (C/S = simple payback).

(ii) A maximum of 20 points will be awarded as follows:

(A) If the anticipated simple payback is less than or equal to 4 years, award 20 points.

(B) If the anticipated simple payback is greater than 4 years but less than or equal to 6 years, award 10 points.

(C) If the anticipated simple payback will be greater than 6 years but less than or equal to 10 years, award 5 points.

(D) If the anticipated simple payback will be greater than 10 years, award 0 points.

(2) *Percentage of reduction of fossil fuel use.* The anticipated percent reduction in the use of fossil fuels will be measured using the same evidence provided by the applicant for measuring cost-effectiveness. However, this set of criteria will measure actual fossil fuel use for the 24-month period prior to submission of the application or for at least 12 months of data supported by engineering and design calculations, and site plans, prepared by the construction engineering firm. All fossil fuel use, for thermal loads as well as for electric use, will be evaluated by using information provided by the Energy Information Agency (EIA). The Agency will determine the percentage reduction of fossil fuel use based on and in cooperation with the applicant's submission of electric power provider contracts, power agreements, and utility billings in relation to available information from the EIA. A maximum of 35 points will be awarded as follows:

(i) Applicant demonstrates an anticipated annual reduction in fossil fuel use of 100 percent, award 35 points.

(ii) Applicant demonstrates an anticipated annual reduction in fossil fuel use of at least 80 percent but less than 100 percent, award 25 points.

(iii) Applicant demonstrates an anticipated annual reduction in fossil fuel use of at least 60 percent but less than 80 percent, award 15 points.

(iv) Applicant demonstrates an anticipated annual reduction in fossil fuel use of at least 40 percent but less than 60 percent, award 5 points.

(v) Applicant demonstrates an anticipated annual reduction in fossil fuel use of less than 40 percent, award 0 points.

(vi) If any of the fossil fuel being replaced is natural gas, deduct 5 points.

(3) *Renewable biomass factors.* If an applicant demonstrates at the time of application that it has on site available access to renewable biomass or enforceable third party commitments to supply renewable biomass for the repowering project for at least 3 years, 5 points will be awarded. If an applicant cannot demonstrate this, no points will be awarded.

(4) *Technical review factors.* Technical reviews will be conducted by a team of experts, including rural energy coordinators and State engineers. The Agency may engage the services of other government agencies or other recognized industry experts in the applicable technology field, at its discretion, to evaluate and rate the application. Each section of the technical review will be scored within a range of possible points available within that section. A maximum of 25 points will be awarded as follows:

(i) *Qualifications of the applicant's project team.* The applicant must describe the qualifications of those individuals who will be essential to successful performance of the proposed project. This will include information regarding professional credentials, relevant experience, and education, and must be supported with documentation of service capabilities, professional credentials, licenses, certifications, and resumes, as applicable. Award 0–5 points.

(ii) *Agreements and permits.* The applicant must describe the agreements and permits necessary for project implementation. An Agency-acceptable schedule for securing the required documents and permits must be provided. Award 0–4 points.

(iii) *Design and engineering.* The applicant must describe the design, engineering, and testing needed for the proposed project. The Design and Engineering documents shall demonstrate that they meet the intended purpose, ensure public safety, and comply with

all applicable laws, regulations, agreements, permits, codes, and standards. Award 0–4 points.

(iv) *Project development schedule.* The applicant must provide a detailed plan for project development including a proposed schedule of activities, a description of each significant task, its beginning and end, and its relationship to the time needed to initiate and carry the project through to successful completion. This description must address the applicant's project development cash flow requirements. Award 0–3 points.

(v) *Equipment procurement.* The applicant must describe the equipment needed, and the availability of the equipment needed, to complete installation and activation of the new system. The description supports that the required equipment is available, and can be procured and delivered within the proposed project development schedule. Award 0–3 points.

(vi) *Equipment installation.* The applicant must provide a satisfactory description of the plan for site development and system installation that reflects the soundness of the project plan. Award 0–3 points.

(vii) *Operations and maintenance.* The applicant must describe the operations and maintenance requirements of the system necessary for the system to operate as designed and provide the savings and efficiencies as described. The description and requirements noted must be supportable by the technical review. Award 0–3 points.

(5) *Liquid transportation fuels.* If the biorefinery primarily produces liquid transportation fuels, award 10 points.

(6) *Rural area.* If the biorefinery is located in a Rural Area, award 5 points.

§ 4288.22 Ranking of applications.

All scored applications will be ranked by the Agency as soon after the application deadline as possible. The Agency will consider the score an application has received compared to the scores of other applications in the priority list, with higher scoring applications receiving first consideration for payments.

(a) *Selection of applications for payments.* Using the application scoring criteria point values specified in § 4288.21 of this subpart, the Agency will select applications for payments.

(b) *Availability of funds.* As applications are funded, if insufficient funds remain to pay the next highest scoring application, the Agency may elect to pay a lower scoring application. Before this occurs, the Agency will provide the applicant of the higher scoring application the opportunity to reduce the amount of its payment request to the amount of funds available. If the applicant agrees to lower its payment request, it must certify that the purposes of the project can be met, and the Agency must determine the project is feasible at the lower amount.

§ 4288.23 Notifications.

(a) *Successful applicants.* Successful applicants will receive an award letter notifying them of the award, including the terms and conditions, and Form RD 4288–5. Each funded project is unique, and, therefore, conditions of Form RD 4288–5 may vary among projects. Successful applicants must execute and return the Form RD 4288–5, accompanied by any additional items identified in the award letter.

(b) *Unsuccessful applicants.* Unsuccessful applicants will receive a letter notifying them of their application score and ranking and the score necessary to qualify for payments.

§ 4288.24 Program payment provisions.

The procedure the Agency will use to make payments to eligible biorefineries is specified in paragraphs (a) through (e) of this section.

(a) *Payment applications.* The Agency shall make payments based on the biorefinery's expenditures on eligible project costs. To request payments under this program during a fiscal year, an eligible biorefinery must:

(1) Submit an original, validly signed and completed SF 271 to the Agency not more frequently than once a month with the following supporting documentation:

(i) Evidence of expenditure of funds on eligible project costs which shall include paid third party invoices, receipts, bills of sale, and/or payroll records. Such records must be adequate to identify that funds to be reimbursed

were spent on eligible project costs; and

(ii) Evidence that construction of the repowering project is in compliance with the project development schedule.

(2) Certify that the request is accurate.

(3) Furnish the Agency such certifications as required in Form RD 4288–4, Part C, and access to records that verify compliance with program provisions.

(b) *Clarifying information.* After payment applications are submitted, eligible biorefineries may be required to submit additional supporting clarification if their original submittal is not sufficient to verify eligibility for payment.

(c) *Notification.* The Agency will notify the biorefinery, in writing, whenever the Agency determines that a payment request is ineligible and why the request was determined ineligible.

(d) *Refunds and interest payments.* An eligible biorefinery that has received a payment under this program may be required to refund such payment as specified in paragraphs (d)(1) through (d)(5) of this section.

(1) An eligible biorefinery receiving payment under this program will become ineligible for payments if the Agency determines the biorefinery has:

(i) Made any material fraudulent representation;

(ii) Misrepresented any material fact affecting a program determination; or

(iii) Upon completion of the repowering project, failed to reduce its fossil fuel consumption, produce energy from renewal biomass or otherwise operate as described in its Agency approved application.

(2) All payments made to a biorefinery determined by the Agency to be ineligible must be refunded to the Agency with interest and other such sums as may become due, including, but not limited to, any interest, penalties, and administrative costs, as determined appropriate under 31 CFR 901.9.

(3) When a refund is due, it must be paid promptly. If a refund is not made promptly, the Agency may use all remedies available to it, including Treasury offset under the Debt Collection Improvement Act of 1996, financial judgment against the biorefinery, and sharing information with the Department of Justice.

(4) Late payment interest will be assessed on each refund in accordance with provisions and rates as determined by the Agency.

(i) Interest charged by the Agency under this program will be at the rate established annually by the Secretary of the U.S. Treasury pursuant to 31 U.S.C. 3717. Interest will accrue from the date payments were received by the biorefinery to the date of repayment, and the rate will adjust in accordance with applicable regulations.

(ii) The Agency may waive the accrual of interest and/or damages if the Agency determines that the cause of the erroneous determination was not due to any fraudulent or negligent action of the biorefinery.

(5) A biorefinery or person receiving payment under this program will be liable for any refund or related charges associated with their project due under this program.

(e) *Remedies.* The remedies provided in this subpart will be in addition to other civil, criminal, or administrative remedies that may apply.

§ 4288.25 Succession and control of facilities and production.

Any party obtaining a biorefinery that is participating in this program must request permission to participate in this program as a successor. The Agency may grant such request if it is determined that, the party is eligible, and permitting such succession would serve the purposes of the program. If appropriate, the Agency will require the consent of the previous party to such succession. Also, the Agency may terminate payments and demand full refund of payments made if a party loses control of a biorefinery whose production of heat or power from renewable biomass is the basis of a program payment, or otherwise fails to retain the ability to assure that all program obligations and requirements will be met.

§ 4288.26 Fiscal Year 2009 and Fiscal Year 2010 applications.

Any entity that submitted an application for payment to the Agency

under this program prior to March 14, 2011 will have their payments made and serviced in accordance with the provisions specified in this subpart.

§§ 4288.27–4288.100 [Reserved]

Subpart B—Advanced Biofuel Payment Program General Provisions

AUTHORITY: 5 U.S.C. 301.

SOURCE: 76 FR 7967, Feb. 11, 2011, unless otherwise noted.

§ 4288.101 Purpose and scope.

(a) *Purpose*. The purpose of this subpart is to support and ensure an expanding production of advanced biofuels by providing payments to eligible advanced biofuel producers.

(b) *Scope*. This subpart sets forth, subject to the availability of funds as provided herein, or as may be limited by law, the terms and conditions an advanced biofuel producer must meet to obtain payments under this Program from the United States Department of Agriculture for eligible advanced biofuel production. Additional terms and conditions may be set forth in the Program contract and payment agreement prescribed by the Agency.

§ 4288.102 Definitions.

The definitions set forth in this section are applicable for all purposes of program administration under this subpart.

Advanced biofuel. A fuel that is derived from renewable biomass, other than corn kernel starch, to include:

(1) Biofuel derived from cellulose, hemicellulose, or lignin;

(2) Biofuel derived from sugar and starch (other than ethanol derived from corn kernel starch);

(3) Biofuel derived from waste material, including crop residue, other vegetative waste material, animal waste, food waste, and yard waste;

(4) Diesel-equivalent fuel derived from renewable biomass, including vegetable oil and animal fat;

(5) Biogas (including landfill gas and sewage waste treatment gas) produced through the conversion of organic matter from renewable biomass;

(6) Butanol or other alcohols produced through the conversion of organic matter from renewable biomass; or

(7) Other fuel derived from cellulosic biomass.

Advanced biofuel producer. An individual, corporation, company, foundation, governmental entity, school or other educational facility, association, labor organization, firm, partnership, society, joint stock company, group of organizations, or non-profit entity that produces advanced biofuel. An entity that blends or otherwise combines advanced biofuels into a blended biofuel is not considered an advanced biofuel producer under this subpart. An entity that produces biofuel exclusively under a toll/bailment arrangement/third part production contract is not considered an advanced biofuel producer under this subpart.

Agency. The USDA Rural Development, Rural Business-Cooperative Service or its successor organization.

Alcohol. Anhydrous ethyl alcohol manufactured in the United States and its territories and sold either:

(1) For fuel use, rendered unfit for beverage use, produced at a biofuel facility and in a manner approved by the Bureau of Alcohol, Tobacco, Firearms, and Explosives for the production of alcohol for fuel; or

(2) As denatured alcohol used by blenders and refiners and rendered unfit for beverage use.

Alcohol producer. An advanced biofuel producer authorized by ATF to produce alcohol.

ATF. The Bureau of Alcohol, Tobacco, Firearms, and Explosives of the United States Department of Justice.

Bailment. The temporary placement of control over, or possession of property by an individual or entity, the bailor, into the hands of another, the bailee, for a designated purpose upon which the parties have agreed. For purposes of this Program any advanced biofuel produced by a toll producer of any form, or under any form of third-party production agreement, is regarded/considered as produced under bailment and is ineligible for payment; to either bailor or bailee.

Biodiesel. A mono alkyl ester, manufactured in the United States and its

territories, that meets the requirements of the appropriate ASTM International standard.

Biofuel. Fuel derived from renewable biomass.

Biorefinery. The term ''biorefinery'' means a facility (including equipment and processes) that—

(1) Converts renewable biomass or an intermediate ingredient or feedstock of renewable biomass into any 1 or more, or a combination, of—

(i) Biofuels;

(ii) Renewable chemicals; or

(iii) Biobased products; and

(2) May produce electricity.

Blender. A blender is a processor of fuels who combines two or more fuels, one of which must be an advanced biofuel, for distribution and sale. Producers who blend one or more of their own fuels are not blenders under this definition.

Certificate of analysis. A document approved by the Agency that certifies the quality and purity of the advanced biofuel being produced. The document must be from a qualified, independent third party.

Commodity. Renewable biomass, other than corn kernel starch, used primarily for the purposes of this Program, by advanced biofuel producers as feedstock from which to produce/derive advanced biofuel. Eligible renewable biomass is organized into the following commodity categories:

(1) Title I grains and oilseeds including: Wheat, corn, grain sorghum, barley, oats, and rice; sugars, and starches (other than corn kernel starch); Soybeans, sunflower seed, rapeseed, canola, safflower, flaxseed, mustard, crambe, sesame, and peanuts; as identified under Title I, Public Law 115–334, and as determined by the Secretary;

(2) Other oilseeds and nuts including cottonseed, palm, camelina, coconut, and olive; and algae;

(3) A cellulosic commodity grown for energy purposes, such as, hybrid poplar and other energy trees, switch grass and other energy grasses; cellulose, hemicellulose, or lignin;

(4) Waste material, including crop residue/Stover, other vegetative waste material/orchard waste, animal waste/manure, food waste/food processing waste, and yard waste/biodegradable solid waste/organic matter;

(5) Fats, oils, and greases, derived from an agricultural product, including: Recycled fats, oils, and greases, such as used cooking oil and reclaimed-industrial grade-distillers' corn/sorghum oil; tallow, white grease, yellow grease, and other livestock renderings; and

(6) Any animal byproduct (in addition to oils, fats, and greases) that may be used to produce bioenergy, as determined by the Secretary.

Contract. Form RD 4288–2, ''Advanced Biofuel Payment Program Contract,'' signed by the eligible advanced biofuel producer and the Agency, that defines the terms and conditions for participating in and receiving payment under this Program.

Derived. A process that creates a physical, and/or chemical, and/or biological change in renewable biomass/feedstock.

Eligible advanced biofuel producer. A producer of advanced biofuels that meets all requirements of §4288.110 of this subpart.

Eligible renewable biomass. Renewable biomass, as defined in this section, excluding corn kernel starch. See also commodity.

Eligible renewable energy content. That portion of an advanced biofuel's energy content derived from eligible renewable biomass feedstock. The energy content from any portion of the biofuel, whether from, for example, blending with another fuel or a denaturant, that is derived from a non-eligible renewable biomass feedstock (e.g., corn kernel starch) is not eligible for payment under this Program.

Enrollment application. Form RD 4288–1, ''Advanced Biofuel Payment Program Annual Application,'' which is submitted by advanced biofuel producers for participation in this Program.

Ethanol. Anhydrous ethyl alcohol manufactured in the United States and its territories and sold either:

(1) For fuel use, and which has been rendered unfit for beverage use and produced at an advanced biofuel facility approved by the ATF for the production of ethanol for fuel, or

(2) As denatured ethanol used by blenders and energy refiners, which has been rendered unfit for beverage use.

Ethanol producer. An advanced biofuel producer authorized by ATF to produce ethanol.

Final Product. A product of a biorefinery that is ready for sale/distribution without further processing. For purposes of this Program, an advanced biofuel is a Final Product eligible for payment if it is ready for distribution and sale as a fuel.

Fiscal Year. A 12-month period beginning each October 1 and ending September 30 of the following calendar year.

Flared gas. The burning of unwanted gas through a pipe (also called a flare). Flaring is a means of disposal used when the operator cannot transport the gas to market or convert to electricity and cannot use the gas for any other purpose.

Incremental production. The quantity of eligible advanced biofuel produced at an advanced biofuel biorefinery in the fiscal year for which payment is sought that exceeds the quantity of advanced biofuel produced at the biorefinery over the prior fiscal year.

Large producer. (1) An advanced biofuel producer which in the prior fiscal year, produced more than:

(i) 150,000,000 gallons of liquid advanced biofuel per year; or

(ii) 15,900,000 Million British Thermal Units (MMBTU) of biogas and/or solid advanced biofuel per year.

(2) The amount of gallons and MMBTUs listed in paragraphs (1)(i) and (ii) of this definition include the advanced biofuel production at all facilities, in the United States, in which the producer and/or its parent company(ies) have a 50-percent or greater ownership.

Parent company. A company/corporation that has a controlling interest in another company/corporation, giving it control of its operations. The company is deemed a subsidiary of the parent company.

Payment application. Form RD 4288–3, ''Advanced Biofuel Payment Program—Payment Request,'' which is submitted by an eligible advance producer to the Agency in order to receive payment under this Program.

Quarter. The Federal fiscal time period for any fiscal year as follows:

(1) 1st Quarter: October 1 through December 31;

(2) 2nd Quarter: January 1 through March 31;

(3) 3rd Quarter: April 1 through June 30; and

(4) 4th Quarter: July 1 through September 30.

Renewable biomass.

(1) Materials, pre-commercial thinnings, or invasive species from National Forest System land and public lands (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that:

(i) Are byproducts of preventive treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health;

(ii) Would not otherwise be used for higher-value products; and

(iii) Are harvested in accordance with applicable law and land management plans and the requirements for old-growth maintenance, restoration, and management direction of paragraphs (e)(2), (e)(3), and (e)(4) and large-tree retention of paragraph (f) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512); or

(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian Tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including:

(i) Renewable plant material, including feed grains; other agricultural commodities; other plants and trees; and algae; and

(ii) Waste material, including crop residue; other vegetative waste material (including wood waste and wood residues); animal waste and byproducts (including fats, oils, greases, and manure); and food waste and yard waste.

Sale. A transaction between two or more parties, typically a buyer and a seller, in which goods or services are exchanged for money or other assets.

Sign-up period. The time period during which the Agency will accept enrollment applications.

State. Any of the 50 States of the United States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Third party production. Third party production involves outsourcing production processes to a third-party company whereby the third-party company, hired to produce, is supplying the manufacturing process as well as sourcing the raw materials/commodity feedstock. The contract producer is responsible for manufacturing the product to specification and disposition/delivery requirements. For purposes of this Program, any advanced biofuel produced under a contractual third-party production agreement is ineligible for payment. A producer that is strictly a third-party contractor produces no eligible advanced biofuel.

Toll producer. See also bailment. Toll production/manufacturing is an arrangement, where a company with specialised equipment processes raw materials or unfinished goods for a different company. A toll producer of advanced biofuels produces advanced biofuels for another company. For purposes of this Program, any advanced biofuel produced by a toll producer of any form, or under any form of third-party production agreement, is regarded/considered as produced under bailment and is ineligible for payment.

USDA. The United States Department of Agriculture.

[76 FR 7967, Feb. 11, 2011, as amended at 84 FR 71301, Dec. 27, 2019]

§ 4288.103 Review or appeal rights.

A person may seek a review of an Agency decision or appeal to the National Appeals Division in accordance with 7 CFR part 11 of this title.

§ 4288.104 Compliance with other laws and regulations.

(a) Advanced biofuel producers must comply with other applicable Federal, State, and local laws, including, but not limited to, the Equal Employment Opportunity Act, Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, The Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and 7 CFR part 1901, subpart E. This includes collection and maintenance of race, sex, and national origin data of the recipient's employee.

(b) Producers must comply with equal opportunity and nondiscriminatory requirements in accordance with 7 CFR 15d. Rural Development will not discriminate against an applicant on the bases of race, color, religion, national origin, sex, sexual orientation, marital status, familial status, disability, or age (provided that the applicant has the capacity to contract); to the fact that all or part of the applicant's income derives from public assistance program; or to the fact that the applicant has in good faith exercised any right under the Consumer Credit Protection Act.

§ 4288.105 Oversight and monitoring.

(a) *Verification*. The Agency reserves the right to verify all payment applications and subsequent payments made under this subpart, as frequently as necessary, to ensure the integrity of the Program. The Agency will conduct site visits as necessary.

(1) *Production and feedstock verification*. The Agency will review producer records to verify the type and amount of biofuel produced and the type and amount of commodity/eligible renewable biomass used.

(2) *Blending verification*. The Agency will review the producer's certificates of analysis and feedstock records to verify the portion of the advanced biofuel eligible for payment.

(3) *Certificate of Analysis*. The Agency will review the producer records for quarterly payments to ensure that each Certificate of Analysis has been issued by an Agency-approved qualified entity, which may include the blender only if the blender is not associated with the biorefinery.

(b) *Records*. For the purpose of verifying compliance with the requirements of this subpart, each eligible advanced biofuel producer shall make available at one place at a reasonable time for examination by representatives of USDA, all books, papers, records, contracts, scale tickets, settlement sheets, invoices, written price

quotations, and other documents related to the Program that is within the control of such advanced biofuel producer for not less than 3 years from each Program payment date.

[76 FR 7967, Feb. 11, 2011, as amended at 84 FR 71302, Dec. 27, 2019]

§ 4288.106 Forms, regulations, and instructions.

Copies of all forms, regulations, instructions, and other materials related to this Program may be obtained from the USDA Rural Development State Office, Rural Energy Coordinator and the USDA Rural Development website at *https://www.rd.usda.gov/*.

[84 FR 71302, Dec. 27, 2019]

§ 4288.107 Exception authority.

The Administrator of the Agency (''Administrator'') may, with the concurrence of the Secretary of Agriculture, make an exception, on a case-by-case basis, to any requirement or provision of this subpart that is not inconsistent with any authorizing statute or applicable law, if the Administrator determines that application of the requirement or provision would adversely affect the Federal government's interest.

§§ 4288.108–4288.109 [Reserved]

ELIGIBILITY PROVISIONS

§ 4288.110 Applicant eligibility.

Sections 4288.110 through 4288.119 present the requirements associated with advanced biofuel producer eligibility, biofuel eligibility, eligibility notifications, and payment record requirements. To be eligible for this Program, the applicant must meet the requirements specified in paragraph (a) of this section and must provide additional information as may be requested by the Agency under paragraph (b) of this section. Public bodies and educational institutions are not eligible for this Program.

(a) *Eligible producer.* The applicant must be an advanced biofuel producer, as defined in this subpart.

(b) *Eligibility determination.* The Agency will determine an applicant's eligibility for participation in this Program. If an applicant's original submittal is not sufficient to verify an applicant's eligibility, the Agency will notify the applicant, in writing, as soon as practicable after receipt of the application. This notification will identify, at a minimum, the additional information being requested to enable the Agency to determine the applicant's eligibility and a timeframe in which to supply the information.

(1) If the applicant provides the requested information to the Agency within the specified timeframe, the Agency will determine the applicant's eligibility for the upcoming fiscal year.

(2) If the applicant does not provide the requested information to the Agency within the specified timeframe, the Agency will not consider the applicant any further for participation in the upcoming fiscal year. Such applicants may elect to enroll during the next sign-up period.

(c) *Ineligibility determination.* An otherwise eligible producer will be determined to be ineligible if the producer:

(1) Refuses to allow the Agency to verify any information provided by the producer under this subpart, including information for determining applicant eligibility, advanced biofuel eligibility, and application payments;

(2) Fails to meet any of the conditions set out in this subpart, in the contract, or in other Program documents; or

(3) Fails to comply with all applicable Federal, State, or local laws.

[76 FR 7967, Feb. 11, 2011, as amended at 84 FR 71302, Dec. 27, 2019]

§ 4288.111 Biofuel eligibility.

To be eligible for this Program, a biofuel must meet the requirements specified in paragraph (a) of this section, and must not be listed in paragraph (b) of this section, and the biofuel's producer must provide additional information as may be requested by the Agency under paragraph (c) of this section.

(a) *Eligible advanced biofuel.* For an advanced biofuel to be eligible, each of the following conditions must be met, as applicable:

(1) The advanced biofuel must meet the definition of advanced biofuel and be produced in a State;

(2) The advanced biofuel must be a solid, liquid, or gaseous advanced biofuel;

(3) The advanced biofuel must be a Final Product; and

(4) The advanced biofuel must be sold as an advanced biofuel through an arm's length transaction to a third party.

(b) *Ineligible fuels.* Notwithstanding the provisions of paragraph (a) of this section, for the purposes of this Program, the following fuels, and as may be supplemented by the Agency through the publication of documents in the FEDERAL REGISTER, are not eligible for payment:

(1) Flared gases;

(2) Fuels derived from paper milling and other processes commonly ascribed to wood products manufacturing and generically referred to as ''liquor'' (*e.g.*, black liquor, red liquor, brown liquor, white liquor, green liquor, etc.), which typically are blended with diesel and burned as boiler fuel;

(3) Biofuels produced from solid eligible renewable biomass primarily by mechanical means, whether by hand or by machine, such as collecting, baling, bundling, chopping, screening, and chipping of the renewable biomass. Examples of ineligible biofuels that are not eligible advanced biofuels for the purposes of this subpart include, but are not limited to, baled energy grasses, chipped or chunked woody biomass, and chopped or split firewood; and

(4) Any advanced biofuel produced under bailment or third-party production contract and/or any variation thereof.

(c) *Eligibility determination.* The Agency will determine a biofuel's eligibility for payment under this Program. If an applicant's original submittal is not sufficient to verify a biofuel's eligibility, the Agency will notify the applicant, in writing, as soon as practicable after receipt of the application. This notification will identify, at a minimum, the additional information being requested to enable the Agency to determine the biofuel's eligibility and a timeframe in which to supply the information.

(1) If the applicant provides the requested information to the Agency within the specified timeframe, the Agency will determine the biofuel's eligibility for the upcoming fiscal year.

(2) If the applicant does not provide the requested information to the Agency within the specified timeframe, the biofuel will not be eligible for payment under this Program in the upcoming fiscal year. Applicants may elect to include such biofuels in the application form submitted during the next sign-up period.

[76 FR 7967, Feb. 11, 2011, as amended at 84 FR 71302, Dec. 27, 2019]

§ 4288.112 Eligibility notifications.

(a) *Applicant eligibility.* If an applicant is determined by the Agency to be eligible for participation, the Agency will notify the applicant, in writing, as soon as practicable after receipt of the application and will assign the applicant a contract number.

(b) *Ineligibility notifications.* If an applicant or a biofuel is determined by the Agency to be ineligible, the Agency will notify the applicant, in writing, as soon as practicable after receipt of the application, as to the reason(s) the applicant or biofuel was determined to be ineligible. Such applicant will have appeal rights as specified in this subpart.

(c) *Subsequent ineligibility determinations.* If at any time a producer or an advanced biofuel is determined to be ineligible, the Agency will notify the producer in writing of its determination.

§ 4288.113 Payment record requirements.

To be eligible for Program payments, an advanced biofuel producer must maintain records for all relevant fiscal years and fiscal year quarters for each advanced biofuel facility indicating:

(a) The type of eligible renewable biomass used in the production of advanced biofuel;

(b) The quantity of advanced biofuel produced from eligible renewable biomass at each advanced biofuel facility;

(c) The quantity of eligible renewable biomass used at each advanced biofuel facility to produce the advanced biofuel; and

(d) All other records required to establish Program eligibility and compliance.

§§ 4288.114–4288.119 [Reserved]

ENROLLMENT PROVISIONS

§ 4288.120 Enrollment.

In order to participate in the Program, a producer of advanced biofuels must be approved by the Agency and enter into a contract with the Agency. The process for enrolling in the Program is presented in this section. Advanced biofuel producers who expect to produce eligible advanced biofuels at any time during a fiscal year must enroll in the Program as described in this section.

(a) *Enrollment.* To enroll in the Program, an advanced biofuel producer must submit to the Agency a completed enrollment application during the applicable sign-up period, as specified in paragraph (b) of this section. Applicants must be registered in the System for Award Management (SAM) prior to submitting an application; which can be obtained at no cost via a toll-free request line at (866) 705–5711 or online at *www.sam.gov/SAM*. Registration of a new entity in SAM requires an original, signed, and notarized letter stating that the applicant is the authorized Entity Administrator, before the registration will be activated.

(1) Eligible advanced biofuel producers must submit enrollment applications during each sign-up period in order to continue participating in this Program. If a participating producer fails to submit the enrollment application during a fiscal year's applicable sign-up period, the producer's contract will be terminated and the producer will be ineligible to receive payments for that fiscal year. Such a producer must reapply, and sign a new contract, to participate in the Program for future fiscal years.

(2) Eligible advanced biofuel producers may submit an enrollment application during a fiscal year's sign-up period even if the advanced biofuel facility is not currently producing, but is scheduled to start producing advanced biofuel in that fiscal year.

(3) The producer must furnish the Agency all required certifications before acceptance into the Program, and furnish access to the advanced biofuel producer's records required by the Agency to verify compliance with Program provisions. The required certifications depend on the type of biofuel produced. Certifications specified in paragraphs (a)(3)(i) through (a)(3)(iv) of this section are to be completed and provided by an accredited independent third party.

(i) *Alcohol.* For alcohol producers with authority from ATF to produce alcohol, copies of either

(A) The Alcohol Fuel Producers Permit (TTB F 5110.74) or

(B) The registration of Distilled Spirits Plant (TTB F 5110.41) and Operating Permit (TTB F 5110.25).

(ii) *Hydrous ethanol.* For hydrous ethanol that is upgraded by another distiller to anhydrous ethyl alcohol, the increased ethanol production is eligible for payment one time only. If the advanced biofuel producer entering into this agreement is:

(A) The hydrous ethanol producer, then the advanced biofuel producer shall include with the contract an affidavit, acceptable to the Agency, from the distiller stating that the:

(*1*) Applicable hydrous ethanol produced is distilled and denatured for fuel use according to ATF requirements, and

(*2*) Distiller will not include the applicable ethanol in any payment requests that the distiller may make under this Program.

(B) The distiller that upgrades hydrous ethanol to anhydrous ethyl alcohol, then the advanced biofuel producer shall include with the contract an affidavit, acceptable to the Agency, from the hydrous ethanol producer stating that the hydrous ethanol producer will not include the applicable ethanol in any payment requests that may be made under this Program.

(iii) *Biodiesel, biomass-based diesel, and liquid hydrocarbons derived from biomass.* For these fuels, the advanced biofuel producer shall certify that the producer, the advanced biofuel facility, and the biofuel meet the definitions of these terms as defined in § 4288.102, the applicable registration requirements under the Energy Independence and Security Act and the Clean Air Act and under the applicable regulations of the U.S. Environmental Protection Agency and Internal Revenue Service, and the

quality requirements per applicable ASTM International standards (e.g., ASTM D6751) and commercially acceptable quality standards of the local market. If a Renewable Identification Number has been established, the advanced biofuel producer shall also provide documentation of the most recent Renewable Identification Number for a typical gallon of each type of advanced biofuel produced.

(iv) *Gaseous advanced biofuel.* For gaseous advanced biofuel producers, certification that the biofuel meets commercially acceptable pipeline quality standards of the local market; that the flow meters used to determine the quantity of advanced biofuel produced are industry standard and properly calibrated by a third-party professional; and that the readings have been taken by a qualified individual.

(v) *Woody biomass feedstock.* If the feedstock is from National Forest system land or public lands, documentation must be provided that it cannot be used as a higher value wood-based product.

(4) Applicants must submit the forms specified in this paragraph (a)(4) with the enrollment application when applying for participation under this subpart and as needed when re-enrolling in the program.

(i) RD Instruction 1940–Q, Exhibit A–1, ''Certification for Contracts, Grants and Loans.''

(ii) SF–LLL, ''Disclosure of Lobbying Activities.''

(iii) Form RD 400–4, ''Assurance Agreement.''

(b) *Sign-up period.* The sign-up period is October 1 to October 31 of the fiscal year for which payment is sought, unless otherwise announced by the Agency in a FEDERAL REGISTER notice.

[76 FR 7967, Feb. 11, 2011, as amended at 84 FR 71302, Dec. 27, 2019]

§ 4288.121 Contract.

Advanced biofuel producers determined to be eligible to receive payments must then enter into a contract with the Agency in order to participate in this Program.

(a) *Contract.* The Agency will forward the contract to the advanced biofuel producer. The advanced biofuel producer must agree to the terms and conditions of the contract, sign, date, and return it to the Agency within the time provided by the Agency.

(b) *Length of contract.* Once signed, a contract will remain in effect until terminated as specified in paragraph (d) of this section.

(c) *Contract review.* All contracts will be reviewed at least annually to ensure compliance with the contract and ensure the integrity of the program.

(d) *Contract termination.* Contracts under this Program will be terminated in writing by the Agency. Contracts may be terminated under any one of the following conditions:

(1) At the mutual agreement of the parties;

(2) In accordance with applicable Program notices and regulations;

(3) The advanced biofuel producer withdraws from the Program and so notifies the Agency, in writing;

(4) The advanced biofuel producer fails to submit the enrollment application during a sign-up period;

(5) The Program is discontinued or not funded;

(6) All of a participating advanced biofuel producer's advanced biofuel facilities no longer exist or no longer produce any eligible advanced biofuel; or

(7) The Agency determines that the advanced biofuel producer is ineligible for participation.

§§ 4288.122–4288.129 [Reserved]

PAYMENT PROVISIONS

§ 4288.130 Payment applications.

Sections 4288.130 through 4288.189 identify the process and procedures the Agency will use to make payments to eligible advanced biofuel producers. In order to receive payments under this Program, eligible advanced biofuel producers with valid contracts must submit a payment application, as required under paragraph (a) of this section. The Agency will review the payment application and, if necessary, may request additional information, as specified under paragraph (b) of this section.

(a) *Applying for payment.* To apply for payments under this subpart for a fiscal year, an eligible advanced biofuel producer must:

(1) After a quarter has been completed, submit a payment application covering the quarter;

(2) Certify that the request is accurate;

(3) Furnish the Agency such certification, and access to such records, as the Agency considers necessary to verify compliance with Program provisions; and

(4) Provide documentation as requested by the Agency of the net production of advanced biofuel at all advanced biofuel facilities during the relevant quarter.

(b) *Review of payment applications.* The Agency will review each payment application it receives to determine if it is eligible for payment.

(1) *Review factors.* Factors that the Agency will consider in reviewing payments applications include, but are not necessarily limited to:

(i) *Contract validity.* Whether the entity submitting the payment application has a valid contract with the Agency under this Program;

(ii) *Biofuel eligibility.* Whether the biofuel for which payment is sought is an eligible advanced biofuel; and

(iii) *Calculations.* Whether the calculations for determining the requested payment are complete and accurate.

(2) *Additional documentation.* If the Agency determines additional information is required for the Agency to complete its review of a payment application, eligible advanced biofuel producers shall submit such additional supporting documentation as requested by the Agency. If the producer does not provide the requested information within the required time period, the Agency will not make payment.

(c) *Payment application eligibility.* The Agency will notify the advanced biofuel producer, in writing, as soon as practicable after the payment application, whenever the Agency determines that a payment application, or any portion thereof, is ineligible for payment and the basis for the Agency's determination of ineligibility.

(d) *Submittal information.* Unless otherwise specified in a notice published in the FEDERAL REGISTER, eligible advanced biofuel producers must submit payment applications for this Program no later than 4:30 p.m. local time on the last day of the calendar month following the quarter for which payment is being requested. No payment applications received after the specified date and time will be considered, regardless of the postmark on the application.

(1) Any payment application form that is received by the Agency after October 31 of the calendar year for the preceding fiscal year is ineligible for payment.

(2) If the actual deadline falls on a weekend or a Federally-observed holiday, the deadline is the next Federal business day.

[76 FR 7967, Feb. 11, 2011, as amended at 84 FR 71302, Dec. 27, 2019]

§ 4288.131 Payment provisions.

Payments to advanced biofuel producers for eligible advanced biofuel production will be determined in accordance with the provisions of this section.

(a) *Actual production.* Participating producers will be paid on a quarterly basis for the actual quantity of eligible advanced biofuel produced during the quarter. Payment for actual production will be determined according to paragraph (d) of this section.

(b) *Amount of payment funds available.* Based on the amount of funds made available to this Program each fiscal year, the Agency will allocate available program funds according to paragraphs (c), (d), and (e) of this section.

(c) *Quarterly allocations.* For each fiscal year, the Agency will allocate in each quarter one-fourth of the funds identified in paragraph (b) of this section allocated for the entire fiscal year.

(d) *Determination of payment rate.* Each quarter, the Agency will establish an actual production payment rate using the procedures specified in paragraphs (d)(1) through (4) of this section. This rate will be applied to the actual quantity of eligible advanced biofuel produced to determine payments to eligible advanced biofuel producers.

(1) Based on the information provided in each payment application, the Agency will determine the eligible advanced biofuel production. If the Agency determines that the amount of advanced

biofuel production reported in a payment application is not supported by the documentation submitted with the payment application, the Agency may revise the reported production to an amount that is commensurate with the submitted documentation.

(2) For each producer, the Agency will convert the production determined to be eligible under paragraph (c) of this section into British Thermal Unit (BTU) equivalent using factors published by the Energy Information Administration (EIA) (or successor organization). If the Energy Information Administration does not publish such conversion factor for a specific type of advanced biofuel, the Agency will use a conversion factor developed by another appropriate entity. If no such conversion factor exists, the Agency, in consultation with other Federal agencies, will establish and use a conversion formula as appropriate, until the Energy Information Administration or other appropriate entity publishes a conversion factor for said advanced biofuel. The Agency will then calculate the total eligible BTUs across all eligible applications.

(3) For each quarter, the Agency will determine the actual production payment rate ($/BTU) based on paragraphs (b), (c), and (d) of this section. The rate will be calculated such that all quarterly funds for actual production will be distributed, subject to the payment provisions specified in paragraph (e) of this section.

(4) Using the actual production payment rate determined and the actual production for each type of advanced biofuel produced at a biorefinery, the Agency will calculate each quarter payment for each eligible advanced biofuel producer for that quarter.

(e) *Other payment provisions.* The following provisions apply:

(1) Notwithstanding any other provisions in this section, the Agency will provide payments to one or more eligible advanced biofuel producers from a single eligible Commodity, including intermediate ingredients of that single Commodity or use of that single Commodity and its intermediate ingredients in combination with another Commodity, of not more than one-third of available program funds in each quarter.

(i) Payments to producers for advanced biofuel derived from a commodity listed in Title I grains and oilseeds (as defined paragraph (1) of the defintion of commodity in §4288.102), are subject to the one-third limitation as tracked individually for each commodity. For example, with respect to the Title I grains and oilseeds commodity—grain sorghum, all payments for the quarter to producers of advanced biofuel derived from grain sorghum are tabulated and subject to the one-third payment limitation. This is similarly true for each commodity listed under Title I grains and oilseeds—barley, oats, rice, soybeans, etc.

(ii) Payments to producers for advanced biofuel derived from a commodity listed in paragraphs (2) through (6) of the defintion of commodity in §4288.102, inclusively, are subject to the one-third limitation as tracked cumulatively with each commodity group. For example, with respect to the commodity in paragraph (2) of the definition of commodity (other oilseeds and nuts including cottonseed, palm, camelina, coconut, and olive and algae), all payments for the quarter to producers of fuel derived from ''other oilseeds, nuts and algae'' are tabulated cumulatively (all are tracked as ''other oilseeds, nuts, and algae'' whether olive, or coconut, or camelina, etc.) and subject cumulatively to the one-third payment limitation. This is similarly true for the commodity in paragraphs (3) through (6) of the definition of commodity.

(2) Notwithstanding any other provision of this section, the Agency will provide payments to large producers of not more than five (5) percent of available program funds in any fiscal year. At any time during the year, if the limit on payments to large producers would be reached, the Agency will prorate payments to large producers based on the BTU content of their eligible advanced biofuel production so as not to exceed the limit.

(3) Notwithstanding any other provision of this section, the Agency will provide payments to any eligible advanced biofuel producer, that is not a large producer, of not more than eight

(8) percent of available funds in any fiscal year. At any time during the year, if the eight percent to the advanced biofuel producer would be reached, the Agency will pro-rate payments based on the BTU content of the eligible advanced biofuel production so as not to exceed the limit.

(4) Advanced biofuel producers will be paid based on the amount of eligible renewable energy content of the advanced biofuels only if the producer provides sufficient documentation, including a Certificate of Analysis, for the Agency to determine the eligible renewable energy content for which payment is being requested, and quantity produced through such documentation as, but not limited to, records of sale and calibrated flow meter records.

(5) Payment will be made to only one eligible advanced biofuel producer per biorefinery. If a producer owns more than one facility, the Agency's tracking system will add all actual BTUs and calculate one payment amount. For facilities owned by more than one producer, only one payment will be issued per facility.

(6) Subject to other provisions of this section, advanced biofuel producers shall be paid any sum due.

(7) A producer will be paid only for the advanced biofuels identified in the enrollment application submitted during the sign-up period and which are produced during the fiscal year. If the producer starts producing a new advanced biofuel or changes the type of advanced biofuel during the fiscal year, the producer will not receive any payments for those new advanced biofuels. However, during each sign-up period, a producer may identify new advanced biofuels and production levels compared to the previous year.

(8) When determining the quantity of eligible advanced biofuel, if an applicant is blending its advanced biofuel using ineligible feedstocks (*e.g.*, fossil gasoline or methanol, corn kernel starch), only the quantity of advanced biofuel being produced from Renewable Biomass, other than corn kernel starch, will be used in determining the payment rates and for which payments will be made.

[84 FR 71302, Dec. 27, 2019]

§ 4288.132 Payment adjustments.

The Agency will adjust the payments otherwise payable to the advanced biofuel producer if there is a difference between the amount actually produced and the amount determined by the Agency to be eligible for payment.

§ 4288.133 Payment liability.

Any payment, or portion thereof, made under this subpart shall be made without regard to questions of title under State law and without regard to any claim or lien against the advanced biofuel, or proceeds thereof, in favor of the owner or any other creditor except agencies of the U.S. Government.

§ 4288.134 Refunds and interest payments.

An eligible advanced biofuel producer who receives payments under this subpart may be required to refund such payments as specified in this section. If the Agency suspects fraudulent representation through its site visits and records inspections under § 4288.105(b), it will be referred to the Office of Inspector General for appropriate action.

(a) An eligible advanced biofuel producer receiving payments under this subpart shall become ineligible if the Agency determines the advanced biofuel producer has:

(1) Made any fraudulent representation; or

(2) Misrepresented any material fact affecting a Program determination.

(b) If an Agency determination that a producer is not eligible for participation under this subpart is appealed and overturned, the Agency will make appropriate and applicable payments to the producer from Program funds, to the extent such funds are available, that remain from the fiscal year in which the original adverse Agency decision was made.

(c) All payments made to an entity determined by the Agency to be ineligible shall be refunded to the Agency with interest and other such sums as may become due, including, but not limited to, any interest, penalties, and administrative costs as determined appropriate under 31 CFR 901.9.

(d) When a refund is due, it shall be paid promptly. If a refund is not made

promptly, the Agency may use all remedies available to it, including Treasury offset under the Debt Collection Improvement Act of 1996, financial judgment against the producer, and referral to the Department of Justice.

(e) Late payment interest shall be assessed on each refund in accordance with the provisions and rates as established by the United States Treasury.

(1) Interest charged by the Agency under this subpart shall be established by the United States Treasury. Such interest shall accrue from the date such payments were made by the Agency to the date of repayment by the producer.

(2) The Agency may waive the accrual of interest or damages if the Agency determines that the cause of the erroneous payment was not due to any action of the advanced biofuel producer.

(f) Any advanced biofuel producer or person engaged in an act prohibited by this section and any advanced biofuel producer or person receiving payment under this subpart shall be jointly and severally liable for any refund due under this subpart and for related charges.

§4288.135 Unauthorized payments and offsets.

When unauthorized assistance has been made to an advanced biofuel producer under this Program, the Agency reserves the right to collect from the recipient the sum that is determined to be unauthorized. If the recipient fails to pay the Agency the unauthorized assistance plus other sums due under this section, the Agency reserves the right to offset that amount against Program payments.

(a) *Unauthorized assistance.* The Agency will seek to collect from recipients all unauthorized assistance made under this Program using the procedures specified in paragraphs (a)(1) through (a)(4) of this section.

(1) *Notification to the producer.* Upon determination that unauthorized assistance has been made to an advanced biofuel producer under this Program, the Agency will send a demand letter to the producer. Unless the Agency modifies the original demand, it will remain in full force and effect. The demand letter will:

(i) Specify the amount of unauthorized assistance, including any accrued interest to be repaid, and the standards for imposing accrued interest;

(ii) State the amount of penalties and administrative costs to be paid, the standards for imposing them and the date on which they will begin to accrue;

(iii) Provide detailed reason(s) why the assistance was determined to be unauthorized;

(iv) State the amount is immediately due and payable to the Agency;

(v) Describe the rights the producer has for seeking review or appeal of the Agency's determination pursuant to 7 CFR part 11;

(vi) Describe the Agency's available remedies regarding enforced collection, including referral of debt delinquent after due process for Federal salary, benefit and tax offset under the Department of Treasury Offset Program; and

(vii) Provide an opportunity for the producer to meet with the Agency and to provide to the Agency facts, figures, written records, or other information that might refute the Agency's determination.

(A) If the producer meets with the Agency, the producer will be given an opportunity to provide information to refute the Agency's findings.

(B) When requested by the producer, the Agency may grant additional time for the producer to assemble documentation. Such extension of time for payment will be valid only if the Agency documents the extension in writing and specifies the period in days during which period the payment obligation created by the demand letter (but not the ongoing accrual of interest) will be suspended. Interest and other charges will continue to accrue pursuant to the initial demand letter during any extension period unless the terms of the demand letter are modified in writing by the Agency.

(2) *Payment in full.* If the producer agrees with the Agency's determination or will pay the amount in question, the Agency may allow a reasonable period of time (usually not to exceed 90 days) for the producer to arrange for repayment. The amount due will be the unauthorized payments made plus interest accrued beginning on the date of the demand letter at the interest rate stipulated until the date paid unless otherwise agreed, in writing, by the Agency.

(3) *Promissory note.* If the producer agrees with the Agency's determination or is willing to pay the amount in question, but cannot repay the unauthorized assistance within a reasonable period of time, the Agency will convert the unauthorized assistance amount to a loan provided all of the conditions specified in paragraphs (a)(3)(i) through (a)(3)(iii) of this section are met. Loans established under this paragraph will be at the Treasury interest rate in effect on the date the financial assistance was provided and that is consistent with the term length of the promissory note. In all cases, the receivable will be amortized per a repayment schedule satisfactory to the Agency that has the producer pay the unauthorized assistance as quickly as possible, but in no event will the amortization period exceed fifteen (15) years. The producer will be required to execute a debt instrument to evidence this receivable, and the best security position practicable in a manner that will adequately protect the Agency's interest during the repayment period will be taken as security.

(i) The producer did not provide false information;

(ii) It would be highly inequitable to require prompt repayment of the unauthorized assistance; and

(iii) Failure to collect the unauthorized assistance immediately will not adversely affect the Agency's interests.

(4) *Appeals.* Appeals resulting from the demand letter prescribed in paragraph (a)(1) of this section will be handled according to the provisions of § 4288.103. All appeal provisions will be concluded before proceeding with further actions.

(b) *Offsets.* Failure to make payment as determined under paragraph (a) of this section will be treated by the Agency as a debt that can be collected by an Administrative offset, unless written agreements to repay such debt as an alternative to administrative offset is agreed to between the Agency and the producer.

(1) Any debtor who wishes to reach a written agreement to repay the debt as an alternative to administrative offset must submit a written proposal for repayment of the debt, which must be received by the Agency within 20 calendar days of the date the notice was delivered to the debtor. In response, the Agency will notify the debtor in writing whether the proposed agreement is acceptable. In exercising its discretion, the Agency will balance the Government's interest in collecting the debt against fairness to the debtor.

(2) When the Agency receives a debtor's proposal for a repayment agreement, the offset is stayed until the debtor is notified as to whether the initial agreement is acceptable. If a Government payment will be made before the end of the fiscal year and the review is not yet completed, payment will be deferred pending resolution of the review.

§ 4288.136 Remedies.

In addition to the steps available under the provisions of §§ 4288.134 and 4288.135, if the Agency has determined that a producer has misrepresented the information or defrauded the Government, the Agency will take one of the following steps in accordance with 2 CFR part 417:

(a) Suspend payments on the Contract until the violation has been reconciled;

(b) Terminate the Contract; or

(c) Debarment to participate in any Federal Government program.

[76 FR 7967, Feb. 11, 2011, as amended at 85 FR 31939, May 28, 2020]

§ 4288.137 Succession and loss of control of advanced biofuel facilities and production.

(a) *Contract succession.* An entity who becomes the eligible advanced biofuel producer for an advanced biofuel facility that is under contract under this subpart must request permission from the Agency to succeed to the Program

contract and the Agency may grant such request if it is determined that the entity is an eligible producer and permitting such succession would serve the purposes of the Program. If appropriate, the Agency may require the consent of the previous eligible advanced biofuel producer to such succession.

(b) *Loss of control.* Payments will be made only for eligible advanced biofuels produced at an advanced biofuel facility owned or controlled by an eligible advanced biofuel producer with a valid contract. If payments are made to an advanced biofuel producer for production at an advanced biofuel facility no longer owned or controlled by said producer or to an otherwise ineligible advanced biofuel producer, the Agency will demand full refund of all such payments.

§§ 4288.138–4288.200 [Reserved]

PART 4290—RURAL BUSINESS INVESTMENT COMPANY (''RBIC'') PROGRAM

Subpart A—Introduction to Part 4290

Sec.

4290.10 Description of the Rural Business Investment Company Program.
4290.15 Leveraged and Non-leveraged Rural Business Investment Companies.
4290.20 Legal basis and applicability of this part 4290.
4290.30 Amendments to Act and regulations.
4290.40 How to read this part 4290.
4290.45 Responsibility for implementing this part 4290.

Subpart B—Definition of Terms Used in Part 4290

4290.50 Definition of terms.

Subpart C—Qualifications for the RBIC Program

ORGANIZING A RBIC

4290.100 Business form.
4290.110 Qualified management.
4290.120 Plan to invest in Rural Areas.
4290.130 Identified Rural Areas.
4290.140 Approval of initial Management Expenses.
4290.150 Management and ownership diversity requirement.
4290.160 Special rules for Partnership RBICs and LLC RBICs.
4290.165 Obligations of Control Persons.

CAPITALIZING A RBIC

4290.200 Adequate capital for RBICs.
4290.210 Minimum capital requirements for RBICs.
4290.230 Private Capital for RBICs.
4290.240 Limitations on non-cash capital contributions in Private Capital.

Subpart D—Application and Approval Process for RBIC Licensing

4290.300 When and how to apply for a RBIC License.
4290.310 Contents of application.
4290.320 Contents of comprehensive business plan.
4290.330 Guarantee fee.

Subpart E—Evaluation and Selection of RBICs

4290.340 Evaluation and selection—general.
4290.350 Eligibility and completeness.
4290.360 Initial review of Applicant's management team's qualifications.
4290.370 Evaluation criteria.
4290.380 Selection.
4290.390 Licensing as a RBIC.

Subpart F—Changes in Ownership, Structure, or Control

CHANGES IN CONTROL OR OWNERSHIP OF A RBIC

4290.400 Changes in ownership of 10 percent or more of RBIC but no change of Control.
4290.410 Changes in Control of RBIC (through change in ownership or otherwise).
4290.420 Prohibition on exercise of ownership or Control rights in RBIC before approval.
4290.430 Notification of transactions that may change ownership or Control.
4290.440 Standards governing prior approval for a proposed transfer of Control.
4290.450 Notification of pledge of RBIC's shares.

RESTRICTIONS ON COMMON CONTROL OR OWNERSHIP OF TWO OR MORE RBICS

4290.460 Restrictions on Common Control or ownership of two (or more) RBICs.

CHANGE IN STRUCTURE OF RBIC

4290.470 Prior approval of merger, consolidation, or reorganization of RBIC.
4290.480 Prior approval of changes to RBIC's business plan.

Subpart G—Managing the Operations of a RBIC

GENERAL REQUIREMENTS

4290.500 Lawful operations under the Act.
4290.502 Representations to the public.
4290.503 RBIC's adoption of an approved valuation policy.
4290.504 Equipment of USDA or SBA officials.
4290.506 Safeguarding the RBIC's assets/Internal controls.
4290.507 Violations based on false filings and nonperformance of agreements with the Agency or SBA.
4290.508 Compliance with non-discrimination laws and regulations applicable to federally-assisted programs.
4290.509 Employment of USDA or SBA officials.

MANAGEMENT AND COMPENSATION

4290.510 Approval of RBIC's Investment Adviser/Manager.
4290.520 Management Expenses of a RBIC.

CASH MANAGEMENT BY A RBIC

4290.530 Restrictions on investments of idle funds by RBICs.

SECURED BORROWING BY RBICS

4290.550 Prior approval of secured third-party debt of RBICs.

VOLUNTARY DECREASE IN REGULATORY CAPITAL

4290.585 Voluntary decrease in RBIC's Regulatory Capital.

Subpart H—Recordkeeping, Reporting, and Examination Requirements for RBICs

RECORDKEEPING REQUIREMENTS FOR RBICS

4290.600 General requirement for RBIC to maintain and preserve records.
4290.610 Required certifications for Loans and Investments.
4290.620 Requirement to obtain information from Portfolio Concerns.

REPORTING REQUIREMENTS FOR RBICS

4290.630 Requirement for RBICs to file financial statements and supplementary information with the Agency.
4290.640 Requirement to file portfolio financing reports with the Agency.
4290.650 Requirement to report portfolio valuations to the Agency.
4290.660 Other items required to be filed by RBIC with the Agency.
4290.680 Reporting changes in RBIC not subject to prior approval.

EXAMINATIONS OF RBICS BY THE AGENCY FOR REGULATORY COMPLIANCE

4290.690 Examinations.
4290.691 Responsibilities of RBIC during examination.
4290.692 Examination fees.

Subpart I—Financing of Enterprises by RBICs

DETERMINING ELIGIBILITY OF AN ENTERPRISE FOR RBIC FINANCING

4290.700 Requirements concerning types of enterprises to receive financing.
4290.720 Enterprises that may be ineligible for Financing.
4290.730 Financings which constitute conflicts of interest.
4290.740 Portfolio diversification (''overline'' limitation).
4290.760 How a change in size or activity of a Portfolio Concern affects the RBIC and the Portfolio Concern.

STRUCTURING RBIC FINANCING OF ELIGIBLE ENTERPRISES—TYPES OF FINANCINGS

4290.800 Financings in the form of Equity Securities.
4290.810 Financings in the form of Loans.
4290.815 Financings in the form of Debt Securities.
4290.820 Financings in the form of guarantees.
4290.825 Purchasing securities from an underwriter or other third party.
4290.830 Minimum term of Financing.
4290.835 Exception to minimum term of Financing.
4290.840 Maximum term of Financing.
4290.845 Maximum rate of amortization on Loans and Debt Securities.
4290.850 Restrictions on redemption of Equity Securities.
4290.860 Financing fees and expense reimbursements a RBIC may receive from an Enterprise.
4290.880 Assets acquired in liquidation of Portfolio securities.

LIMITATIONS ON DISPOSITION OF ASSETS

4290.885 Disposition of assets to RBIC's Associates or to competitors of Portfolio Concerns.
4290.900 Management fees for services provided to an Enterprise by RBIC or its Associate.

Subpart J—Financial Assistance for RBICs (Leverage)

GENERAL INFORMATION ABOUT OBTAINING LEVERAGE

4290.1100 Type of Leverage and application procedures.

4290.1120 General eligibility requirements for Leverage.
4290.1130 Leverage fees payable by RBIC.
4290.1140 RBIC's acceptance of remedies under § 4290.1810.

MAXIMUM AMOUNT OF LEVERAGE FOR WHICH A RBIC IS ELIGIBLE

4290.1150 Maximum amount of Leverage for a RBIC.

CONDITIONAL COMMITMENTS TO RESERVE LEVERAGE FOR A RBIC

4290.1200 Leverage commitment to a RBIC—application procedure, amount, and term.
4290.1220 Requirement for RBIC to file financial statements at the time of request for a draw.
4290.1230 Draw-downs by RBIC under Leverage commitment.
4290.1240 Funding of RBIC's draw request through sale to third party.

DISTRIBUTIONS BY RBICS WITH OUTSTANDING LEVERAGE

4290.1500 Restrictions on distributions to RBIC investors while RBIC has outstanding Leverage.

FUNDING LEVERAGE BY USE OF TRUST CERTIFICATES (''TCS'')

4290.1600 Agency's authority to issue and guarantee Trust Certificates.
4290.1610 Effect of prepayment or early redemption of Leverage on a Trust Certificate.
4290.1620 Functions of agents, including Central Registration Agent, Selling Agent and Fiscal Agent.
4290.1630 Regulation of Brokers and Dealers and disclosure to purchasers of Leverage or Trust Certificates.
4290.1640 Agency's access to records of the CRA, Brokers, Dealers and Pool or Trust assemblers.

MISCELLANEOUS

4290.1700 Agency's transfer of interest in a RBIC's Leverage security.
4290.1710 Agency's authority to collect or compromise claims.
4290.1720 Characteristics of Agency's guarantee.

Subpart K—RBIC's Noncompliance With Terms of Leverage

4290.1810 Events of default and the Agency's remedies for RBIC's noncompliance with terms of Debentures.

COMPUTATION OF RBIC'S CAPITAL IMPAIRMENT

4290.1830 RBIC's Capital Impairment definition and general requirements.
4290.1840 Computation of RBIC's Capital Impairment Percentage.

Subpart L—Ending Operations as a RBIC

4290.1900 Termination of participation as a RBIC.

Subpart M—Miscellaneous

4290.1910 Non-waiver of rights or terms of Leverage security.
4290.1920 RBIC's application for exemption from a regulation in this part 4290.
4290.1930 Effect of changes in this part 4290 on transactions previously consummated.
4290.1940 Integration of this part with other regulations applicable to USDA's programs.

Subpart N—Requirements for Operational Assistance Grants to RBICs

4290.2000 Operational Assistance grants to RBICs.

Subpart O—Additional Requirements for Non-Leveraged Licensees and Exceptions to Regulations

4290.3000 Non-leveraged RBICs—General.
4290.3001–4290.3002 [Reserved]
4290.3003 Responsibilities for implementing Non-leveraged RBICs.
4290.3004 [Reserved]
4290.3005 Qualifications for the Non-leveraged RBIC Program.
4290.3006–4290.3009 [Reserved]
4290.3010 Application and Approval Process for RBIC licensing without Leverage.
4290.3011–4290.3014 [Reserved]
4290.3015 Evaluation and selection of Non-leveraged RBICs.
4290.3016–4290.3019 [Reserved]
4290.3020 Changes in Ownership, Structure, or Control.
4290.3021–4290.3024 [Reserved]
4290.3025 Managing the Operations of a RBIC.
4290.3026–4290.3029 [Reserved]
4290.3030 Financing of Enterprises by RBICs.
4290.3031–4290.3034 [Reserved]
4290.3035 Recordkeeping, Reporting, and Examination Requirements for RBICs.
4290.3036–4290.3039 [Reserved]
4290.3040 Financial Assistance for RBICs.
4290.3041 Events of default and the Agency's remedies for RBIC's noncompliance with terms of licensure.
4290.3042–4290.3044 [Reserved]
4290.3045 Computation of RBIC's Capital Impairment.
4290.3046–4290.3049 [Reserved]
4290.3050 Operational Assistance Grants for RBICs.

4290.3051–4290.3099 [Reserved]

AUTHORITY: 7 U.S.C. 1989 and 2009cc *et seq.*

SOURCE: 69 FR 32204, June 8, 2004, unless otherwise noted.

EDITORIAL NOTE: Nomenclature changes to part 4290 appear at 85 FR 16522, Mar. 24, 2020.

Subpart A—Introduction to Part 4290

§ 4290.10 Description of the Rural Business Investment Company Program.

The Rural Business Investment Company (''RBIC'') Program is a Developmental Capital program for the purpose of promoting economic development and the creation of wealth and job opportunities in Rural Areas and among individuals living in such Areas. To this end, the Agency will select and license RBIC Applicants that will agree to address the unmet Equity Capital needs of Smaller Enterprises primarily located in Rural Areas.

§ 4290.15 Leveraged and Non-leveraged Rural Business Investment Companies.

The regulations in this part apply to rural business investment companies (RBICs) that seek leverage and to RBICs that do not seek leverage. The provisions of subparts A through N of this part apply to Leveraged RBICs and, except as indicated or as otherwise modified by subpart O of this part, to Non-leveraged RBICs. The provisions in subpart O of this part apply to Non-leveraged RBICs and, in addition, modify certain provisions in subparts A through N of this part as they apply to Non-leveraged RBICs.

[76 FR 80221, Dec. 23, 2011]

§ 4290.20 Legal basis and applicability of this part 4290.

The regulations in this part implement Subtitle H of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 2009cc *et seq.*) (''Act''). All RBICs must comply with all applicable regulations, accounting guidelines and valuation guidelines for RBICs.

§ 4290.30 Amendments to Act and regulations.

A RBIC is subject to all existing and future provisions of the Act and part 4290 of title 7 of the Code of Federal Regulations.

§ 4290.40 How to read this part 4290.

(a) *Center Headings.* Center headings are descriptive and are used for convenience only. They have no regulatory effect.

(b) *Capitalizing defined terms.* Terms defined in § 4290.50 have initial capitalization in this part 4290.

(c) ''*You.*'' The pronoun ''you'' as used in this part 4290 means a RBIC unless otherwise noted.

(d) *Forms.* All references in this part to forms, and instructions for their preparation, are to the current issue of such forms.

§ 4290.45 Responsibility for implementing this part 4290.

The Agency has delegated to the U.S. Small Business Administration (SBA), pursuant to an agreement under the Economy Act (31 U.S.C. 1535), the authority to implement the RBIC program, including implementing and enforcing the regulations in this part 4290. Therefore, unless specifically stated otherwise, SBA will exercise on behalf of the Agency all responsibilities and authorities assigned to the Agency in this part 4290.

Subpart B—Definition of Terms Used in Part 4290

§ 4290.50 Definition of terms.

Act means Subtitle H of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 2009cc *et seq.*).

Administrator means the Administrator of SBA.

Affiliate or *Affiliates* has the meaning set forth in title 13 CFR 121.103.

Agency means the Rural Business-Cooperative Service (RBS) an agency of the U.S. Department of Agriculture.

Applicant means any entity submitting an application to be licensed as a RBIC.

Articles mean articles of incorporation or charter and bylaws for a Corporate RBIC, the certificate and limited partnership agreement for a Partnership RBIC, and the operating agreement or other organizational documents for an LLC RBIC.

Assistance or *Assisted* means Financing of or management services rendered to a Portfolio Concern by or through a RBIC pursuant to the Act and this part.

Associate of a RBIC means any of the following:

(1)(i) An officer, director, employee or agent of a Corporate RBIC;

(ii) A Control Person, employee or agent of a Partnership RBIC;

(iii) A managing member of an LLC RBIC;

(iv) An Investment Adviser/Manager of any RBIC, including any Person who contracts with a Control Person of a RBIC to be the Investment Adviser/Manager of such RBIC; or

(v) Any Person regularly serving a RBIC on retainer in the capacity of attorney at law.

(2) Any Person who owns or controls, or who has entered into an agreement to own or control, directly or indirectly, at least 10 percent of any class of stock of a Corporate RBIC or 10 percent of the membership interests of an LLC RBIC, or a limited partner's interest of at least 10 percent of the partnership capital of a Partnership RBIC. However, neither a limited partner in a Partnership RBIC nor a non-managing member in an LLC RBIC is considered an Associate if such Person is an Entity Institutional Investor whose investment in the Partnership, including commitments, represents no more than 33 percent of the capital of the RBIC and no more than five percent of such Person's net worth.

(3) Any officer, director, partner (other than a limited partner), manager, agent, or employee of any Associate described in paragraph (1) or (2) of this definition.

(4) Any Person that directly or indirectly Controls, or is Controlled by, or is under Common Control with, a RBIC.

(5) Any Person that directly or indirectly Controls, or is Controlled by, or is under Common Control with, any Person described in paragraphs (1) and (2) of this definition.

(6) Any Close Relative of any Person described in paragraphs (1), (2), (4), and (5) of this definition.

(7) Any Secondary Relative of any Person described in paragraphs (1), (2), (4), and (5) of this definition.

(8) Any concern in which—

(i) Any person described in paragraphs (1) through (6) of this definition is an officer; general partner, or managing member; or

(ii) Any such Person(s) singly or collectively Control or own, directly or indirectly, an equity interest of at least 10 percent (excluding interests that such Person(s) own indirectly through ownership interests in the RBIC).

(9) Any concern in which any Person(s) described in paragraph (7) of this definition singly or collectively own (including beneficial ownership) a majority equity interest, or otherwise have Control. As used in this paragraph (9), ''collectively'' means together with any Person(s) described in paragraphs (1) though (7) of this definition.

(10) For the purposes of this definition, any Associate relationship described in paragraphs (1) through (7) of this definition that exists at any time within six months before or after the date that a RBIC provides Financing, will be considered to exist on the date of the Financing.

Capital Impairment has the meaning set forth in § 4290.1830(b).

Central Registration Agent or *CRA* means one or more agents appointed for the purpose of issuing Trust Certificates (TCs) and performing the functions enumerated in § 4290.1620 and performing similar functions for Debentures funded outside the pooling process.

Close Relative of an individual means:

(1) A current or former spouse;

(2) A father, mother, guardian, brother, sister, son, daughter; or

(3) A father-in-law, mother-in-law, brother-in-law, sister-in-law, son-in-law, or daughter-in-law.

Commitment means a written agreement between a RBIC and an Enterprise that obligates the RBIC to provide Financing (except a guarantee) to

that Enterprise in a fixed or determinable sum, by a fixed or determinable future date. In this context the term ''agreement'' means that there has been agreement on the principal economic terms of the Financing. The agreement may include reasonable conditions precedent to the RBIC's obligation to fund the Commitment, but these conditions must be outside the RBIC's control.

Common Control means a condition such that two or more Persons, either through ownership, management, contract, or otherwise, are under the Control of one group or Person. Two or more RBICs are presumed to be under Common Control if they are Affiliates of each other by reason of common ownership or common officers, directors, or general partners; or if they are managed or their investments are significantly directed either by a common independent Investment Advisor/Manager or managerial contractor, or by two or more such advisors or contractors that are Affiliates of each other. This presumption may be rebutted by evidence satisfactory to the Agency.

Community Development Finance means debt securities or equity-type investments in Rural Areas.

Conflict of interest means a situation in which a person or entity has competing personal, professional, or financial interests that make it difficult for the person or business to act impartially. Regarding use of both grant and matching funds, Federal procurement standards prohibit transactions that involve a real or apparent conflict of interest for owners, employees, officers, agents, their immediate family members, partners or an organization which is about to employ any of the parties indicated herein, having a financial or other interest in or a tangible personal benefit from the outcome of the project; or that restrict open and free competition for unrestrained trade. Specifically, project funds may not be used for services or goods going to, or coming from, a person or entity with a real or apparent conflict of interest, including, but not limited to, owner(s) and their immediate family members.

Control means the possession, direct or indirect, of the power to direct or cause, or the power to stop or hinder (also referred to as ''negative Control''), the direction of the management and policies of a RBIC or other concern, whether through the ownership of voting securities, by contract, or otherwise.

Control Person means any Person that controls a RBIC, either directly or through an intervening entity. A Control Person includes:

(1) A general partner of a Partnership RBIC;

(2) Any Person serving as a general partner (in the case of a partnership), an officer or director (in the case of a corporation), or a manager (in the case of a limited liability company) of any entity that controls a RBIC, either directly or through an intervening entity;

(3) Any Person that—

(i) Controls or owns, directly or through an intervening entity, at least 10 percent of a Partnership RBIC, a LLC RBIC, or any entity described in paragraphs (1) or (2) of this definition; and

(ii) Participates in the investment decisions of a general partner of such Partnership RBIC or of a managing member of such LLC RBIC;

(4) Any Person that controls or owns, directly or through an intervening entity, at least 50 percent of a RBIC or any entity described in paragraphs (1) or (2) of this definition.

Corporate RBIC has the meaning set forth in the definition of RBIC in this section.

Debenture means a debt obligation issued by RBICs pursuant to section 384E of the Act and held or guaranteed by the Agency. A Debenture may be prepaid at any time without penalty.

Debt Securities means instruments evidencing a loan with an option or any other right to acquire Equity Securities in an Enterprise or its Affiliates, or a loan which by its terms is convertible into an equity position. Consideration must be paid for all options acquired.

Developmental Capital means Equity Capital invested in Rural Business Concerns, with an objective of fostering economic development in Rural Areas.

Distribution means any transfer of cash or non-cash assets to the Agency,

the Agency's agent or Trustee, or to partners in a Partnership RBIC, or to shareholders in a Corporate RBIC, or to members in an LLC RBIC. Capitalization of Retained Earnings Available for Distribution constitutes a Distribution to the RBIC's partners, shareholders, or members.

Enterprise means a Person engaged in a business or commercial activity which charges for the goods and services it provides, whether such Person is operating for profit or is subject to any legal restrictions on the distribution of profits to its owners, members, or suppliers of its equity or quasi-equity capital. An Enterprise includes:

(1) A public, private, or cooperative for-profit or non-profit organization;

(2) A for-profit or nonprofit business controlled by an Indian tribe on a Federal or State reservation or other federally recognized Indian tribal group; or

(3) Any other Person.

Entity General Partner has the meaning set forth in § 4290.160.

Entity Managing Member has the meaning set forth in § 4290.160.

Equity Capital means Equity Securities or Subordinated Debt With Equity Features.

Equity Securities means stock of any class in a corporation, stock options, warrants, limited partnership interests in a limited partnership, membership interests in a limited liability company, or joint interests.

Farm Credit System Institution means an institution defined in section 1.2(a) of the Farm Credit Act of 1971 (12 U.S.C. 2002(a)).

Financing or *Financed* means outstanding financial assistance provided to a Portfolio Concern by a RBIC, whether through:

(1) Loans, with or without a right to acquire Equity Securities;

(2) Debt Securities;

(3) Equity Securities;

(3) Subordinated Debt With Equity Features;

(4) Guarantees; or

(5) Purchases of securities of an Enterprise through or from an underwriter as permitted by § 4290.825.

Guaranty Agreement means the contract entered into by the Agency which is a guarantee backed by the full faith and credit of the United States Government as to timely payment of principal and interest on Debentures and the Agency's rights in connection with such guarantee.

Includible Non-Cash Gains means those non-cash gains (as reported on SBA Form 468 or other USDA-approved form(s)) that are realized in the form of Publicly Traded and Marketable securities or investment grade debt instruments. For purposes of this definition, investment grade debt instruments means those instruments that are rated ''BBB'' or ''Baa'', or better, by Standard & Poor's Corporation or Moody's Investors Service, respectively. Non-rated debt may be considered to be investment grade if a RBIC obtains a written opinion from an investment banking firm acceptable to the Agency stating that the non-rated debt instrument is equivalent in risk to the issuer's investment grade debt.

Institutional Investor means Entity Institutional Investor or Individual Institutional Investor, each defined as follows:

(1) *Entity Institutional Investors.* Any of the following entities if the entity has a net worth (exclusive of unfunded commitments from investors) of at least $1 million, or such higher amount as is specified in this paragraph (1). (*See also* § 4290.230(c)(4) for limitations on the amount of an Entity Institutional Investor's commitment that may be included in Private Capital.)

(i) A State or National bank, Farm Credit System Institution, trust company, savings bank, or savings and loan association, including an investment pool created entirely by such bank or savings association, the deposits of which are insured under the Federal Deposit Insurance Act.

(ii) An insurance company.

(iii) A 1940 Act Investment Company or Business Development Company (each as defined in the Investment Company Act of 1940, as amended (15 U.S.C. 80a–1 *et seq.*).

(iv) A holding company of any entity described in paragraph (l)(i), (ii) or (iii) of this definition.

(v) An employee benefit or pension plan established for the benefit of employees of the Federal government, any State or political subdivision of a

State, or any agency or instrumentality of such government unit.

(vi) An employee benefit or pension plan (as defined in the Employee Retirement Income Security Act of 1974, as amended (Public Law 93–406, 88 Stat. 829), excluding plans established under § 401(k) of the Internal Revenue Code of 1986 (26 U.S.C. 401(k)), as amended).

(vii) A trust, foundation or endowment exempt from Federal income taxation under the Internal Revenue Code of 1986, 26 U.S.C. 1, as amended.

(viii) A corporation, partnership or other entity with a net worth (exclusive of unfunded commitments from investors) of more than $10 million.

(ix) A State, a political subdivision of a State, or an agency or instrumentality of a State or its political subdivision.

(x) An entity whose primary purpose is to manage and invest non-Federal funds on behalf of at least three Institutional Investors described in paragraphs (l)(i) through (ix) of this definition, each of whom must have at least a 10 percent ownership interest in the entity.

(xi) Any other entity that the Agency determines to be an Institutional Investor.

(2) *Individual Institutional Investor.* (i) Any of the following individuals if he/she is also a permanent resident of the United States:

(A) An individual who is an Accredited Investor (as defined in the Securities Act of 1933, as amended (15 U.S.C. 77a–77aa)) and whose commitment to the RBIC is backed by a letter of credit from a State or National bank acceptable to the Agency.

(B) An individual whose personal net worth is at least $2 million and at least ten times the amount of its commitment to the RBIC. The individual's personal net worth must not include the value of any equity in its most valuable residence.

(C) An individual whose personal net worth, not including the value of any equity in its most valuable residence, is at least $10 million.

(ii) Any individual who is not a permanent resident of the United States but who otherwise satisfies paragraph (2)(i) of this definition provided such individual has irrevocably appointed an agent within the United States for the service of process.

Investment Adviser/Manager means any Person who furnishes advice or assistance with respect to operations of a RBIC under a written contract executed in accordance with the provisions of § 4290.510.

Lending Institution means a concern that is operating under regulations of a state or Federal licensing, supervising, or examining body, or whose shares are publicly traded and listed on a recognized stock exchange or is listed in the Automated Quotation System of the National Association of Securities Dealers (NASDAQ) and which has assets in excess of $500 million; and which, in either case, holds itself out to the public as engaged in the making of commercial and industrial loans and whose lending operations are not for the purpose of financing its own or an Associate's sales or business operations.

Leverage means financial assistance provided to a RBIC by the Agency either through the purchase or guaranty of a RBIC's Debentures and any other SBA financial assistance evidenced by a security of the RBIC.

Leverageable Capital means Regulatory Capital, excluding unfunded commitments.

Leveraged RBIC means a RBIC that received financial assistance under this part.

LLC RBIC has the meaning set forth in the definition of RBIC in this section.

Loan means a transaction evidenced by a debt instrument with no provision for you to acquire Equity Securities.

Loans and Investments means Portfolio securities, assets acquired in liquidation of Portfolio securities, operating Enterprises acquired, and notes and other securities received, as set forth in the Statement of Financial Position on SBA Form 468 or other USDA-approved form(s).

Management Expenses has the meaning set forth in § 4290.520.

NAICS Manual means the latest issue of the North American Industrial Classification System (NAICS) Manual, prepared by the Office of Management and Budget, and available from the

U.S. Government Printing Office, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA, 15250–7954.

1940 Act Company means a RBIC which is registered under the Investment Company Act of 1940.

1980 Act Company means a RBIC which is registered under the Small Business Investment Incentive Act of 1980.

Non-leveraged RBIC means a RBIC that has not received financial assistance under this part.

Operational Assistance means management, marketing, and other technical assistance that assists a Smaller Enterprise with its business development.

Original Issue Price means the price paid by the purchaser for securities at the time of issuance.

Participation Agreement means an agreement between the Agency and an Applicant licensed as a RBIC pursuant to § 4290.390 of this part, that details the RBIC's operating plan and investment criteria and requires the RBIC to operate pursuant to the Act and this part.

Partnership RBIC has the meaning set forth in the definition of RBIC in this section.

Person means a natural person or legal entity.

Pool means an aggregation of guaranteed Debentures approved by the Agency.

Portfolio means the securities representing a RBIC's total outstanding Financings of Enterprises. It does not include idle funds or assets acquired in liquidation of Portfolio securities.

Portfolio Concern means any Enterprise Assisted by a RBIC.

Private Capital has the meaning set forth in § 4290.230.

Publicly Traded and Marketable means securities that are salable without restriction or that are salable within 12 months pursuant to Rule 144 (17 CFR 230.144) of the Securities Act of 1933, as amended, by the holder thereof, and are of a class which is traded on a regulated stock exchange, or is listed in NASDAQ, or has, at a minimum, at least two market makers as defined in the relevant sections of the Securities Exchange Act of 1934, as amended (15 U.S.C. 77b *et seq.*), and in all cases the quantity of which can be sold over a reasonable period of time without having an adverse impact upon the price of the stock.

Qualified Non-private Funds means:

(1) Funds directly or indirectly invested in any RBIC or Applicant on or after May 13, 2002 by any Federal agency other than USDA under a provision of law explicitly mandating the inclusion of those funds in the definition of ''Private Capital;'' and

(2) The aggregate amount of funds invested in any Applicant or RBIC by one or more States, or any political subdivisions, agencies or instrumentalities thereof, including any guarantee extended by such entities.

Regulatory Capital means Private Capital, excluding non-cash assets contributed to a RBIC or an Applicant unless such assets have been converted to cash or have been approved by the Agency for inclusion in Regulatory Capital. For purposes of this definition, sales of contributed non-cash assets with recourse or borrowings against such assets shall not constitute a conversion to cash.

Relevant Capital Finance means Equity Capital in Rural Business Concerns or benefiting Rural Areas.

Retained Earnings Available for Distribution means Undistributed Net Realized Earnings less any Unrealized Depreciation on Loans and Investments (as reported on SBA Form 468 or other USDA-approved form(s)), and represents the amount that a RBIC may distribute to investors as a profit Distribution, or transfer to Private Capital.

Rural area means any area of a State not in a city or town that has a population of more than 50,000 inhabitants according to the most recent decennial Census of the United States (decennial Census), not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants, and which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H) and (I), as well as any area that has been determined to be ''rural in character'' by the Under Secretary for Rural Development, or as otherwise identified in this definition.

(1) An area that is attached to the urbanized area of a city or town with

more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than 2 census blocks wide. Applicants from such an area should work with their Rural Development State Office to request a determination of whether their project is located in a rural area under this provision.

(2) For the purposes of this definition, cities and towns are incorporated population centers with definite boundaries, local self government, and legal powers set forth in a charter granted by the State.

(3) For the Commonwealth of Puerto Rico, the island is considered rural and eligible for Business Programs assistance, except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be eligible if they are ''not urban in character.''

(4) For the State of Hawaii, all areas within the State are considered rural and eligible for Business Programs assistance, except for the Honolulu CDP within the County of Honolulu.

(5) For the purpose of defining a rural area in the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands, the USDA shall determine what constitutes rural and rural area based on available population data.

(6) The determination that an area is ''rural in character'' will be made by the Under Agency of Rural Development. The process to request a determination under this provision is outlined in paragraph (6)(ii) of this definition.

(i) The determination that an area is ''rural in character'' under this definition will apply to areas that are within:

(A) An urbanized area that has two points on its boundary that are at least 40 miles apart, which is not contiguous or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urbanized area of such a city or town; or

(B) An urbanized area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within one-quarter mile of a rural area.

(ii) Units of local government may petition the Under Agency of Rural Development for a ''rural in character'' designation by submitting a petition to both the appropriate Rural Development State Director and the Rural Business-Cooperative Service Administrator of USDA on behalf of the Under Agency. The petition shall document how the area meets the requirements of paragraph (6)(i)(A) or (B) of this definition and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base. Upon receiving a petition, the Under Agency will consult with the applicable Governor or leader in a similar position and request comments to be submitted within 5 business days, unless such comments were submitted with the petition. The Under Agency will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Agency's Web site, and the Under Agency will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Agency will provide to the petitioner an opportunity to appeal a determination to the Under Agency, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration.

Rural Business Concern means an Enterprise that primarily operates in a Rural Area.

Rural Business Concern Investment means a Financing in a Rural Business Concern at the time of the initial Financing or if the initial Financing is to facilitate a relocation from a Non-rural Area to a Rural Area after that initial Financing.

Rural Business Investment Company or *RBIC* means a corporation organized as required by § 4290.100 (Corporate RBIC), a limited partnership organized as required by §§ 4290.100 and 4290.160 (Partnership RBIC), or a limited liability company organized as required by §§ 4290.100 and 4290.160 (LLC RBIC), that

has been licensed as a RBIC pursuant to § 4290.390.

SBA means the U.S. Small Business Administration, an agency of the Federal Government headquartered at 409 Third Street, SW, Washington, DC 20416.

Secondary Relative of an individual means:

(1) A grandparent, grandchild, or any other ancestor or lineal descendent who is not a Close Relative;

(2) An uncle, aunt, nephew, niece, or first cousin; or

(3) A spouse of any person described in paragraph (1) or (2) of this definition.

Small Business Investment Company or *SBIC* means a Licensee, as that term is defined in 13 CFR 107.50.

Smaller Enterprise means any Rural Business Concern that, together with its Affiliates and by itself—

(1) Meets the size standard established by SBA in 13 CFR 121.201, corresponding to each type of economic activity or industry described in the NAICS Manual for the industry in which it is primarily engaged on the date on which the Financing is made (the term ''primarily engaged'' for purposes of this definition is defined in 13 CFR 121.107); or

(2) Has—

(i) A net financial worth of not more than $6,000,000 as of the date on which the Financing is made; and

(ii) An average net income for the two year period preceding the date on which the Financing is made of not more than $2,000,000, after Federal income taxes (excluding any carryover losses), except that, for purposes of this clause, if the Rural Business Concern is not required by law to pay Federal income taxes at the enterprise level, but is required to pass income through to the shareholders, partners, beneficiaries, or other equitable owners of the Rural Business Concern, its net income is determined by allowing a deduction in an amount equal to the total of—

(A) If it is not required by law to pay State (and local, if any) income taxes at the enterprise level, the net income (determined without regard to this paragraph (2)(ii)(A)) multiplied by the marginal State income tax rate (or by the combined State and local income tax rates, as applicable) that would have applied if the Rural Business Concern were a corporation; and

(B) The net income (so determined) less any deduction for State (and local) income taxes calculated under paragraph (2)(ii)(A) of this definition multiplied by the marginal Federal income tax rate that would have applied if the Rural Business Concern were a corporation.

Smaller Enterprise Investment means a Financing in the form of Equity Capital in an Enterprise that qualified as a Smaller Enterprise at the time of the initial Financing.

State means each of the 50 states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the Federated States of Micronesia.

Subordinated Debt means a debt of a debtor, common to more than one creditor, that is the subject of an agreement between two groups of creditors (whose claims would otherwise be in parity) setting forth the circumstances under which the claims of one group (senior creditors) shall be satisfied out of the resources of the common debtor that would otherwise be available for the payment of the claims of the other group (junior creditors).

Subordinated Debt With Equity Features means a Subordinated Debt obligation that gives to the junior creditor such additional compensation as warrants, conversion rights, any other interest in the debtor's equity, profits, increased future revenue, or a royalty interest.

Trust means a legal entity created for the purpose of holding guaranteed Debentures and the guaranty agreement related thereto, receiving, holding and making any related payments, and accounting for such payments.

Trust Certificate Rate means a fixed rate determined at the time Debentures are pooled.

Trust Certificates (TCs) means certificates issued by the Agency, the Agency's agent or Trustee and representing

ownership of all or a fractional part of a Trust or Pool of Debentures.

Trustee means the trustee or trustees of a Trust.

Undistributed Net Realized Earnings means Undistributed Realized Earnings less Non-cash Gains/Income, each as reported on SBA Form 468 or other USDA-approved form(s).

Unrealized Appreciation means the amount by which a RBIC's valuation of each of its Loans and Investments, as determined by its board of directors, general partner(s), or managing member(s) in accordance with the RBIC's valuation policies, exceeds the cost basis thereof.

Unrealized Depreciation means the amount by which a RBIC's valuation of each of its Loans and Investments, as determined by its board of directors, general partner(s), or managing member(s) in accordance with the RBIC's valuation policies, is below the cost basis thereof.

Unrealized Gain (Loss) on Securities Held means the sum of the Unrealized Appreciation and Unrealized Depreciation on all of a RBIC's Loans and Investments, less estimated future income tax expense or estimated realizable future income tax benefit, as appropriate.

Urban Area means an area containing a city (or its equivalent), or any equivalent geographic area determined by the Census Bureau and adopted by the Agency for purposes of this definition (about which the Agency will publish a document in the FEDERAL REGISTER from time to time), which had a population of over 150,000 in the most recent decennial Census and the urbanized areas containing or adjacent to that city, both as determined by the Bureau of the Census for the most recent decennial Census.

Urban Area Investment means a Financing in an Enterprise that primarily operates in an Urban Area at the time of the initial Financing.

USDA means the U.S. Department of Agriculture, a department of the Federal government headquartered at 1400 Independence Avenue, SW., Washington, DC 20250.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80221, Dec. 23, 2011; 79 FR 76018, Dec. 19, 2014; 80 FR 9914, Feb. 24, 2015; 85 FR 16522, Mar. 24, 2020; 87 FR 38645, June 29, 2022]

Subpart C—Qualifications for the RBIC Program

ORGANIZING A RBIC

§ 4290.100 Business form.

(a) *Newly-formed for-profit*. An Applicant for a RBIC license must be a newly formed for-profit entity or, subject to § 4290.150, a newly formed for-profit subsidiary of an existing entity. It must be organized under the law of a State. An Applicant may be organized as a corporation (''Corporate RBIC''), a limited partnership (''Partnership RBIC''), or a limited liability company (''LLC RBIC'').

(b) *Purpose*. An Applicant must be organized solely for the purpose of performing the functions and conducting the activities contemplated under the Act: making Developmental Capital investments and providing Operational Assistance to eligible Smaller Enterprises.

(c) *Articles*. The RBIC's Articles—

(1) Must specify in general terms:

(i) The purposes for which the RBIC is formed;

(ii) The name of the RBIC;

(iii) The Rural Area or Areas in which it will operate;

(iv) The place where the RBIC's headquarters will be located; and

(v) The amount and classes of the RBIC's ownership interests.

(2) May contain any other provisions consistent with the Act that the RBIC may determine is appropriate to adopt to regulate its business and the conduct of its affairs.

(3) Are subject to the Agency's approval.

(d) *Duration*—(1) *Partnership RBICs*. If you are a Partnership RBIC:

(i) You must have a minimum duration of 10 years, or two years following the maturity of your last-maturing Leverage security, whichever is longer. After 10 years, if all Leverage has been repaid or redeemed and all amounts due the Agency, its agent, or Trustee

have been paid, the Partnership RBIC may be terminated by a vote of your partners;

(ii) None of your general partner(s) may be removed or replaced by your limited partners without prior written approval of the Agency;

(iii) Any transferee of, or successor in interest to, your general partner shall have only the rights and liabilities of a limited partner prior to the Agency's written approval of such transfer or succession; and

(iv) You must incorporate all the provisions in this paragraph (d) in your limited partnership agreement.

(2) *LLC RBICs.* If you are a LLC RBIC, you must have a minimum duration of 10 years, or two years following the maturity of your last-maturing Leverage security, whichever is longer. After 10 years, if all Leverage has been repaid or redeemed and all amounts due the Agency, its agent, or Trustee have been paid, the LLC RBIC may be terminated by a vote of your members.

(3) *Corporate RBICs.* If you are a Corporate RBIC, you must have a duration of not less than 30 years unless earlier dissolved by the shareholders, except that the Corporate RBIC must not dissolve until at least two years following the maturity of your last-maturing Leverage security.

§ 4290.110 Qualified management.

An Applicant must show, to the satisfaction of the Agency, that its current or proposed management team is qualified and has the knowledge, experience, and capability in Community Development Finance or Relevant Capital Finance, necessary for investing in the types of Enterprises contemplated by the Act, regulations in this part, and its business plan. In determining whether an Applicant's current or proposed management team has sufficient qualifications, the Agency will consider information provided by the Applicant and third parties concerning the background, capability, education, training and reputation (and any other managerial aspect identified by the USDA in a FEDERAL REGISTER notice) of its general partners, managers, officers, key personnel, and investment committee and governing board members. The Applicant must designate at least one individual as the official responsible for contact with the Agency.

[76 FR 80222, Dec. 23, 2011]

§ 4290.120 Plan to invest in Rural Areas.

An Applicant must agree that if licensed as a RBIC, it will make Developmental Capital investments in Enterprises that will create wealth and job opportunities in Rural Areas and among individuals living in those areas.

§ 4290.130 Identified Rural Areas.

A RBIC must identify the specific Rural Area or Areas in which it intends to make Developmental Capital investments and provide Operational Assistance under the RBIC program. The scope of the identified areas must be consistent with Applicant's business plan, especially as the plan relates to the Applicant's ability to operate actively, soundly, and profitably in such areas.

§ 4290.140 Approval of initial Management Expenses.

A RBIC must have its Management Expenses approved by the Agency at the time it is licensed. (*See* § 4290.520 for the definition of Management Expenses.)

§ 4290.150 Management and ownership diversity requirement.

(a) *Diversity requirement.* You must have diversity between management and ownership in order to be licensed as a RBIC and to maintain your license. To establish diversity, you must meet the requirements in paragraphs (b) and (c) of this section.

(b) *Percentage ownership requirement.* No Person or group of Persons who are Affiliates of one another may own or control, directly or indirectly, more than 70 percent of your Regulatory Capital or your Leverageable Capital.

(c) *Non-affiliation requirement.* At least 30 percent of your Regulatory Capital and Leverageable Capital must be owned and controlled by Persons unaffiliated with your management and unaffiliated with each other, and whose investments are significant in dollar and percentage terms as determined by the Agency. Such Persons must not be

your Associates (except for their status as your shareholders, limited partners or members) and must not Control, be Controlled by, or be under Common Control with any of your Associates. A single ''acceptable'' Institutional Investor may be substituted for two or three of the three investors who are otherwise required. The following Institutional Investors are ''acceptable'' for this purpose:

(1) Entities whose overall activities are regulated and periodically examined by State, Federal or other governmental authorities satisfactory to the Agency;

(2) Entities listed on the New York Stock Exchange;

(3) Entities that are publicly-traded and that meet both the minimum numerical listing standards and the corporate governance listing standards of the New York Stock Exchange;

(4) Public or private employee pension funds;

(5) Trusts, foundations, or endowments, but only if exempt from Federal income taxation; and

(6) Other Institutional Investors satisfactory to the Agency.

(d) *Voting requirement.* The investors relied upon to satisfy the diversity requirement may not delegate their voting rights to any Person who is your Associate, or who Controls, is Controlled by, or is under Common Control with any of your Associates, without prior approval by the Agency.

(e) *Requirement to maintain diversity.* You must maintain management-ownership diversity while you are a RBIC. If, at any time, you no longer have the required management-ownership diversity, you must:

(1) Notify the Agency within 10 days; and

(2) Re-establish diversity within six months after loss of diversity.

§ 4290.160 Special rules for Partnership RBICs and LLC RBICs.

(a) *Entity General Partner or Entity Managing Member.* (1) A general partner of a Partnership RBIC which is a corporation, limited liability company or partnership (an ''Entity General Partner''), or a managing member of an LLC RBIC which is a corporation, limited liability company, or partnership (an ''Entity Managing Member'') shall be organized under State law solely for the purpose of serving as the general partner or managing member of one or more RBICs, and shall be organized for profit.

(2) The Agency must approve any person who will serve as an officer, director, manager, or general partner of the Entity General Partner or Entity Managing Member and of an entity that Controls the Entity General Partner or Entity Managing Member. This provision must be stated in an Entity General Partner's or Entity Managing Member's articles of incorporation or charter and bylaws if a corporation, operating agreement if a limited liability company, or partnership agreement if a partnership.

(3) An Entity General Partner or Entity Managing Member is subject to the same examination and reporting requirements as a RBIC under sections 384K and 384L of the Act. The restrictions and obligations imposed upon a RBIC by §§ 4290.1810, 4290.30, 4290.410 through 4290.450, 4290.470, 4290.500, 4290.510, 4290.585, 4290.600, 4290.680, 4290.690 through 4290.692, and 4290.1910 apply also to an Entity General Partner or Entity Managing Member of a RBIC.

(4) The general partner(s) of your Entity General Partner(s) or Entity Managing Member(s) will be considered your general partner.

(5) If your Entity General Partner or Entity Managing Member is a limited partnership, its limited partners may be considered your Control Person(s) if they meet the definition for Control Person in § 4290.50.

(b) *Liability of general partner of Partnership RBIC.* Subject to section 384O(b) of the Act, your general partner(s) is not liable solely by reason of its status as a general partner for repayment of any Leverage or debts you owe to the Agency unless the Agency, in the exercise of reasonable investment prudence, and with regard to your financial soundness, determines otherwise prior to the purchase or guaranty of your Leverage. The conditions specified in § 4290.1810 and § 4290.1910 apply to all general partners.

(c) *Special Leverage requirement for Partnership RBICs and LLC RBICs.* Before your first issuance of Leverage, you must furnish the Agency with evidence that you qualify as a partnership for tax purposes, either by a ruling from the Internal Revenue Service or by an opinion of counsel.

§ 4290.165 Obligations of Control Persons.

All Control Persons are bound by the provisions of sections 384O and 384P of the Act and by the conflict-of-interest rules under § 4290.730. The term RBIC, as used in §§ 4290.30, 4290.460, and 4290.680, includes all of the RBIC's Control Persons.

CAPITALIZING A RBIC

§ 4290.200 Adequate capital for RBICs.

You must meet the requirements of §§ 4290.210 through 4290.230 in order to qualify as a RBIC.

[76 FR 80222, Dec. 23, 2011]

§ 4290.210 Minimum capital requirements for RBICs.

(a) *General Rule.* Unless otherwise specified in a FEDERAL REGISTER notice, you must have Regulatory Capital of at least $10,000,000, or such lesser amount (but not less than $5,000,000) and Leverageable Capital of at least $500,000, to become a RBIC.

(b) *Exception.* (1) The Agency in its sole discretion and based on a showing of special circumstances and good cause may license an Applicant with Regulatory Capital of at least $2,500,000, but only if the Applicant:

(i) Has satisfied all eligibility criteria for licensing as a RBIC as described in § 4290.390(a) of this part, except the capital requirement specified in paragraph (a)(1) of that section, as determined solely by the Agency;

(ii) Has a viable business plan reasonably projecting profitable operations; and

(iii) Has a reasonable timetable for achieving Regulatory Capital of at least $10,000,000.

(2) A RBIC licensed under this exception is not eligible to receive Leverage until it has complied with paragraph (a) of this section.

(c) *Time frame.* Each RBIC shall have a period of 2 years to meet the capital requirements set forth in this section.

(d) *Closing.* Each RBIC may conduct more than one closing to raise the specific amount of Regulatory Capital that the Applicant had projected in its application that it would raise (see § 4290.310(b)). One or more closings may take place subsequent to licensing as an RBIC to raise the difference between the required Regulatory Capital as provided under paragraphs (a) and (b) of this section and the specific amount of Regulatory Capital that the Applicant had projected to raise in its application.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80222, Dec. 23, 2011; 85 FR 16522, Mar. 24, 2020]

§ 4290.230 Private Capital for RBICs.

(a) *General.* Private Capital means the contributed capital of a RBIC, plus unfunded binding commitments by Institutional Investors (including commitments evidenced by a promissory note) to contribute capital to a RBIC.

(b) *Contributed capital.* For purposes of this section, contributed capital means the paid-in capital and paid-in surplus of a Corporate RBIC, the members' contributed capital of a LLC RBIC, or the partners' contributed capital of a Partnership RBIC, in each case subject to the limitations in paragraph (c) of this section.

(c) *Exclusions from Private Capital.* Private Capital does not include:

(1) Funds borrowed by an Applicant or a RBIC from any source.

(2) Funds obtained through the issuance of Leverage.

(3) Funds obtained directly or indirectly from the Federal government or any State (including by a political subdivision, agency or instrumentality of the Federal government or a State), except that the following categories of such funds are not excluded from Private Capital—

(i) Funds obtained directly or indirectly from the business revenues (excluding any governmental appropriation) of any federally-chartered or government-sponsored enterprise established prior to May 13, 2002;

(ii) Funds invested by an employee welfare benefit plan or pension plan; and

(iii) Qualified Non-private Funds in an amount not to exceed 33 percent of the total Private Capital of any Applicant or RBIC, *provided*, *however*, that in no event may any investor or investors of Qualified Non-private Funds have the power to Control, directly or indirectly, the management, board of directors, general partners, or members of the RBIC.

(4) Any portion of an unfunded commitment from an Institutional Investor with a net worth of less than $10 million that exceeds 10 percent of such Institutional Investor's net worth.

(5) An unfunded commitment from an investor if the Agency determines that the collectability of the commitment is questionable.

(d) *Non-cash capital contributions.* Capital contributions in a form other than cash are subject to the limitations in § 4290.240 of this part.

(e) *Contributions with borrowed funds.* You may not accept any capital contribution made with funds borrowed by a Person seeking to own an equity interest (whether direct or indirect, beneficial or of record) of at least 10 percent of your Private Capital. This exclusion does not apply if:

(1) Such Person's net worth is at least twice the amount borrowed; or

(2) The Agency gives its prior written approval of the capital contribution.

[69 FR 32204, June 8, 2004, as amended at 85 FR 16523, Mar. 24, 2020]

§ 4290.240 Limitations on non-cash capital contributions in Private Capital.

Non-cash capital contributions to a RBIC or Applicant are included in Private Capital only if they are approved by the Agency and they fall into one of the following categories:

(a) Direct obligations of, or obligations guaranteed as to principal and interest by, the United States having a term of no more than one year.

(b) Services rendered or to be rendered to you, priced at no more than their fair market value.

(c) Other non-cash assets approved by the Agency.

Subpart D—Application and Approval Process for RBIC Licensing

§ 4290.300 When and how to apply for a RBIC License.

(a) *Notice of Funds Availability (''NOFA'').* The Agency will publish a NOFA in the FEDERAL REGISTER advising potential applicants of the availability of funds for the RBIC program and inviting the submission of applications. The NOFA may specify limitations, special rules, procedures, and restrictions for a particular funding round. When submitting its application, an Applicant must comply with both this part 4290 and any requirements specified in the NOFA, including the opening and closing dates for submission of an application.

(b) *Application form.* An Applicant must apply for a RBIC license using an appropriate application packet provided by the Agency. Upon receipt of a completed application packet, the Agency may request clarifying or technical information on the materials submitted as part of the application.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80222, Dec. 23, 2011]

§ 4290.310 Contents of application.

Each Applicant must submit a complete application, including the following:

(a) *Management team experience.* The Applicant must provide information generally as to the background, capability, education, reputation and training of its management team, including general partners, managers, officers, key personnel, and investment committee and governing board members. The Applicant also must provide information specifically on these individuals' qualifications and reputation in the areas of Community Development Finance and/or Relevant Capital Finance, including the impact of these individuals' activities in these areas.

(b) *Amount of Regulatory Capital.* The Applicant must indicate the amount of Regulatory Capital it has raised or proposes to raise, which amount must satisfy the requirements of § 4290.210(a) of this part, unless the Applicant indicates that it has raised or proposes to

raise at least $2,500,000 and is applying for an exception pursuant to § 4290.210(b) of this part and includes in its application—

(1) A showing of special circumstances and good cause for the exception:

(2) Will satisfy all eligibility criteria for licensing as a RBIC as set forth in § 4290.390(a) of this part, except the capital requirement specified in paragraph (a)(1) of that section, as determined solely by the Agency;

(3) Has a viable business plan reasonably projecting profitable operations; and

(4) Has a reasonable timetable for achieving Regulatory Capital in an amount that satisfies the requirements of § 4290.210(a) of this part.

(c) *Comprehensive business plan.* The Applicant must submit a comprehensive business plan covering at least a five-year period, addressing the specific items described in § 4290.320, and which demonstrates that the Applicant has the capacity to operate successfully as a RBIC.

§ 4290.320 Contents of comprehensive business plan.

(a) *Plan for Developmental Capital investing.* The Applicant must describe its plans and strategies for how it proposes to make successful Developmental Capital investments in identified Rural Areas.

(b) *Working with Rural Area community-based organizations.* The Applicant must describe how it intends to work with community-based organizations and local entities (including local economic development companies, local lenders, and local investors) in order to facilitate its Developmental Capital investments.

(c) *Market analysis.* The Applicant must provide an analysis of the Rural Areas in which it intends to focus its Developmental Capital investments and Operational Assistance to Smaller Enterprises, demonstrating that the Applicant understands the market and the unmet Equity Capital needs in such areas and how its activities will meet these unmet needs and will have a positive economic impact on those areas. The Applicant also must analyze the extent of the demand in such areas for Developmental Capital investments and any factors or trends that may affect the Applicant's ability to make effective Developmental Capital investments.

(d) *Operational capacity and investment strategies.* The Applicant must submit information concerning its policies and procedures for underwriting and approving its Developmental Capital investments, monitoring its portfolio, and maintaining internal controls and operations.

(e) *Plan to raise Regulatory Capital.* The Applicant must include a detailed description of how it plans to raise its Regulatory Capital if it has not yet done so at the time of application. The Applicant must discuss its potential sources of Regulatory Capital, the estimated timing for raising such funds, and the extent of the expressions of interest to commit such funds to the Applicant.

(f) *Plan for providing Operational Assistance.* The Applicant must describe how it plans to use its grant funds to provide Operational Assistance to Smaller Enterprises in which it makes or expects to make Developmental Capital investments. Its plan must address the types of Operational Assistance it proposes to provide, and how it plans to provide the Operational Assistance through the use of licensed professionals, when necessary, either from its own staff or from outside entities.

(g) *Projected amount of investment in Rural Areas.* The Applicant must describe how it proposes to meet the requirements set forth in § 4290.700. An Applicant must project the amount of its total Regulatory Capital and Leverage that it proposes to invest in Smaller Enterprises and in Rural Business Concerns that are not Smaller Enterprises. The Applicant also must describe the amount of its total Regulatory Capital and Leverage that it proposes to invest in Urban Area Investments.

(h) *Projected impact.* The Applicant must describe the criteria and economic measurements to be used to evaluate whether and to what extent it has met the objectives of the RBIC program. It must include:

(1) A description of the extent to which it will concentrate its Developmental Capital investments and Operational Assistance activities in identified Rural Areas;

(2) An estimate of the economic development benefits to be created within identified Rural Areas over the next five years or more as a result of its activities;

(3) A description of the criteria to be used to measure the benefits created as a result of its activities;

(4) A discussion about the amount of such benefits created that it will consider to constitute successfully meeting the objectives of the RBIC program.

(i) *Affiliates and business relationships.* The Applicant must submit information describing the management and financial strength of any parent or holding entity, affiliated firm or entity, or any other firm or entity essential to the success of the Applicant's business plan.

§ 4290.330 Guarantee fee.

In cases of Leveraged Applications, the Applicant must pay to the Agency an issuance fee for each grant or debenture guarantee. The Agency may charge such fees as the Agency considers appropriate, so long as those fees are proportionally equal for each rural business investment company, with respect to any guarantee or grant issued under this subchapter.

[85 FR 16523, Mar. 24, 2020]

Subpart E—Evaluation and Selection of RBICs

§ 4290.340 Evaluation and selection—general.

The Administrator of RBS and the Administrator on behalf of SBA, in their sole discretion, will evaluate and select an Applicant to participate in the RBIC program based on a review of the Applicant's application materials, interviews or site visits with the Applicant (if any), and background investigations conducted by the Agency and other Federal agencies. The Agency's evaluation and selection process is intended to—

(a) Ensure that Applicants are evaluated on a competitive basis and in a fair and consistent manner;

(b) Take into consideration the unique proposals presented by Applicants;

(c) Ensure that each Applicant licensed as a RBIC can fulfill successfully the goals of its comprehensive business plan; and

(d) Ensure that the Agency selects Applicants in such a way as to promote nationwide geographic distribution of Developmental Capital investments.

[69 FR 32204, June 8, 2004, as amended at 85 FR 16523, Mar. 24, 2020]

§ 4290.350 Eligibility and completeness.

The Agency will not consider any application that is not complete or that is submitted by an Applicant that does not meet the eligibility criteria described in subpart C of this part. The Agency at its sole discretion, may request from an Applicant additional information concerning eligibility criteria or easily completed portions of the application in order to facilitate consideration of its application.

§ 4290.360 Initial review of Applicant's management team's qualifications.

The Agency will review the information submitted by the Applicant concerning the qualifications of the Applicant's management team to determine in its sole discretion whether the team meets the minimum requirements deemed by the Agency to be critical to successful capital investing. In making this determination, the Agency will consider, among other things, the general business reputation of the owners and managers of the Applicant. Only those Applicants considered to have a management team qualified for venture capital investing will be further considered for selection as a RBIC.

§ 4290.370 Evaluation criteria.

Of those Applicants whose management team is considered qualified for venture capital investing and who have submitted an eligible and complete application, the Administrator of RBS and the Administrator on behalf of SBA, in their sole discretion, will evaluate and select an Applicant for

participation in the RBIC program by considering the following criteria:

(a) Whether the Applicant's management team has the knowledge, experience, and capability necessary to manage a sound, economically viable RBIC and to comply with the Act;

(b) The quality of the Applicant's comprehensive business plan in terms of meeting the objectives of the RBIC program;

(c) The likelihood that the Applicant will achieve the goals described in its comprehensive business plan;

(d) The strength and likelihood for success of the Applicant's operations and investment strategies, including whether the Applicant has projected adequate profitability and financial soundness;

(e) Whether the Applicant will be able to operate soundly and profitably over the long term;

(f) Whether the Applicant will be able to operate actively in its identified Rural Areas in accordance with its business plan;

(g) The need for Developmental Capital investments in the Rural Areas in which the Applicant intends to invest;

(h) The extent to which the Applicant will concentrate its activities on serving Smaller Enterprises located in the Rural Area in which it intends to invest, including the ratio of resources that it proposes to invest in such Enterprises as compared to other Enterprises;

(i) The Applicant's demonstrated understanding of the markets in the Rural Areas in which it intends to focus its activities;

(j) The likelihood that and the time frame within which the Applicant will be able to raise the Regulatory Capital it proposes to raise for its investments;

(k) The strength of the Applicant's proposal to provide Operational Assistance to Smaller Enterprises in which it plans to invest;

(l) The extent to which the activities proposed by the Applicant will promote economic development and the creation of wealth and job opportunities in the Rural Areas in which it intends to invest and among individuals living in such Areas; and

(m) The strength of the Applicant's application compared to applications submitted by other Applicants intending to invest in the same or proximate Rural Areas.

[69 FR 32204, June 8, 2004, as amended at 85 FR 16523, Mar. 24, 2020]

§ 4290.380 Selection.

From among the Applicants that have submitted eligible and complete applications, the Administrator of RBS and the Administrator on behalf of SBA, in their sole discretion, will select some, all, or none of such Applicants to participate in the RBIC program. Selection will entitle the Applicant to proceed with obtaining a license as a RBIC but only if the Applicant also meets the conditions set forth in § 4290.390.

[69 FR 32204, June 8, 2004, as amended at 85 FR 16523, Mar. 24, 2020]

§ 4290.390 Licensing as a RBIC.

(a) *Eligibility criteria for licensing as a RBIC.* Each selected Applicant must meet the following conditions before it is eligible to be licensed as a RBIC:

(1) Raise the specific amount of Regulatory Capital that the Applicant had projected in its application that it would raise (see § 4290.210 for additional information).

(2) Raise $500,000 in Leverageable Capital as required by § 4290.210;

(3) Complete and submit to the Agency all legal and other documentation concerning the RBIC, including but not limited to its Articles and updated financial information concerning the RBIC in order to qualify for a Leverage commitment; and

(4) Enter into a Participation Agreement with the Agency.

(b) *Licensing as a RBIC.* If the selected Applicant has satisfactorily met all the conditions specified in paragraph (a) of this section, as determined within the sole discretion of the Agency, then the Administrator of RBS and the Administrator on behalf of SBA will license the Applicant as a RBIC.

(c) *Failure to meet eligibility criteria for licensing.* Each selected Applicant that does not meet the eligibility criteria for licensing described in paragraph (a) of this section, within a time period specified by the Agency, will not be licensed as a RBIC. Failure to meet any

of those conditions, including but not limited to failure to raise the projected Regulatory Capital within the required time period, will cause the Applicant's selection to lapse. The Agency will not restore the selection of such an Applicant after the expiration of that time period. After the expiration of that time period, an Applicant that is not licensed as a RBIC must cease to represent itself as a participant or potential participant in the RBIC program.

(d) *Effect of a RBIC license.* The Participation Agreement executed by the Agency with each Applicant licensed as a RBIC will include the following:

(1) Approval to operate as a RBIC under the Act;

(2) A commitment of Leverage; and

(3) An Operational Assistance grant award.

[69 FR 32204, June 8, 2004, as amended at 77 FR 4885, Feb. 1, 2012; 85 FR 16523, Mar. 24, 2020]

Subpart F—Changes in Ownership, Structure, or Control

CHANGES IN CONTROL OR OWNERSHIP OF RBIC

§ 4290.400 Changes in ownership of 10 percent or more of RBIC but no change of Control.

You must obtain the Agency's prior written approval for any proposed transfer or issuance of ownership interests that results in the ownership (beneficial or of record) by any Person, or group of Persons acting in concert, of at least 10 percent of any class of your stock, partnership capital or membership interests.

§ 4290.410 Changes in Control of RBIC (through change in ownership or otherwise).

You must obtain the Agency's prior written approval for any proposed transaction or event that results in Control by any Person(s) not previously approved by the Agency.

§ 4290.420 Prohibition on exercise of ownership or Control rights in RBIC before approval.

Without the Agency's prior written approval, no change of ownership or Control may take effect and no officer, director, employee or other Person acting on your behalf shall:

(a) Register on your books any transfer of ownership interest to the proposed new owner(s);

(b) Permit the proposed new owner(s) to exercise voting rights with respect to such ownership interest (including directly or indirectly procuring or voting any proxy, consent or authorization as to such voting rights at any meeting of shareholders, partners or members);

(c) Permit the proposed new owner(s) to participate in any manner in the conduct of your affairs (including exercising control over your books, records, funds or other assets; participating directly or indirectly in any disposition thereof; or serving as an officer, director, partner, manager, employee or agent); or

(d) Allow ownership or Control to pass to another Person.

§ 4290.430 Notification of transactions that may change ownership or Control.

You must promptly notify the Agency as soon as you have knowledge of transactions or events that may result in a transfer of Control or ownership of at least 10 percent of your Regulatory Capital. If the effect of a particular transaction or event is unclear, you must report all pertinent facts to the Agency.

§ 4290.440 Standards governing prior approval for a proposed transfer of Control.

The Agency's approval of a proposed transfer of Control is contingent upon full disclosure of the real parties in interest, the source of funds for the new owners' interest, and other data requested by the Agency. As a condition of approving a proposed transfer of control, the Agency may:

(a) Require an increase in your Regulatory Capital;

(b) Require the new owners or the transferee's Control Person(s) to assume, in writing, personal liability for your Leverage, effective only in the event of their direct or indirect participation in any transfer of Control not approved by the Agency; or

(c) Require compliance with any other conditions set by the Agency, including compliance with the requirements for minimum capital and management-ownership diversity in effect at such time for new RBICs.

§ 4290.450 Notification of pledge of RBIC's shares.

(a) You must notify the Agency in writing, within 30 calendar days, of the terms of any transaction in which:

(1) Any Person, or group of Persons acting in concert, pledges shares of your stock (or equivalent ownership interests) as collateral for indebtedness; and

(2) The shares pledged constitute at least 10 percent of your Regulatory Capital.

(b) If the transaction creates a change of ownership or Control, you must comply with § 4290.400 or § 4290.410, as appropriate.

RESTRICTIONS ON COMMON CONTROL OR OWNERSHIP OF TWO OR MORE RBICS

§ 4290.460 Restrictions on Common Control or ownership of two (or more) RBICs.

Without the Agency's prior written approval, you must not have an officer, director, manager, Control Person, or owner (with a direct or indirect ownership interest of at least 10 percent) who is also:

(a) An officer, director, manager, Control Person, or owner (with a direct or indirect ownership interest of at least 10 percent) of another RBIC; or

(b) An officer or director of any Person that directly or indirectly controls, or is controlled by, or is under Common Control with, another RBIC.

CHANGE IN STRUCTURE OF RBIC

§ 4290.470 Prior approval of merger, consolidation, or reorganization of RBIC.

You may not merge, consolidate, change form of organization (corporation, limited liability company, or limited partnership) or reorganize without the Agency's prior written approval. Any such merger, consolidation, or change of form is subject to § 4290.440.

§ 4290.480 Prior approval of changes to RBIC's business plan.

Without the Agency's prior written approval, no change in your business plan, upon which you were selected and licensed as a RBIC, may take effect.

Subpart G—Managing the Operations of a RBIC

GENERAL REQUIREMENTS

§ 4290.500 Lawful operations under the Act.

You must engage only in the activities permitted by the Act and in no other activities.

§ 4290.502 Representations to the public.

You may not represent or imply to anyone that the Agency, the U.S. Government, or any of its agencies or officers has approved any ownership interests you have issued, obligations you have incurred, or Financings you have made. You must include a statement to this effect in any solicitation provided to investors. Example: You may not represent or imply that ''USDA stands behind the RBIC'' or that ''Your capital is safe because the Agency's experts review proposed investments to make sure they are safe for the RBIC.''

§ 4290.503 RBIC's adoption of an approved valuation policy.

(a) *Valuation guidelines.* You must prepare, document and report the valuations of your Loans and Investments in accordance with the Valuation Guidelines for SBICs issued by SBA. These guidelines may be obtained from SBA's Investment Division or at *http://www.sba.gov/sites/default/files/files/inv_valuation.pdf.*

(b) *The Agency's approval of valuation policy.* You must have a written valuation policy approved by the Agency for use in determining the value of your Loans and Investments. You must either:

(1) Adopt without change the model valuation policy set forth in section III of the Valuation Guidelines for SBICs; or

(2) Obtain the Agency's prior written approval of an alternative valuation policy.

(c) *Responsibility for valuations.* Your board of directors, managing member(s), or general partner(s) will be solely responsible for adopting your valuation policy and for using it to prepare valuations of your Loans and Investments for submission to the Agency. If the Agency reasonably believes that your valuations, individually or in the aggregate, are materially misstated, it reserves the right to require you to engage, at your expense, an independent third party acceptable to the Agency to substantiate the valuations.

(d) *Frequency of valuations.* (1) You must value your Loans and Investments at the end of the second quarter of your fiscal year, and again at the end of your fiscal year.

(2) On a case-by-case basis, the Agency may require you to perform valuations more frequently.

(3) You must report material adverse changes in valuations at least quarterly, within 30 days following the close of the quarter.

(e) *Review of valuations by independent public accountant.* (1) For valuations performed as of the end of your fiscal year, your independent public accountant must review your valuation procedures and the implementation of such procedures, including adequacy of documentation.

(2) The independent public accountant's report on your audited annual financial statements (SBA Form 468 or other USDA-approved form(s)) must include a statement that your valuations were prepared in accordance with your approved valuation policy.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80222, Dec. 23, 2011]

§ 4290.504 Equipment of USDA or SBA officials.

(a) *Computer capability.* You must have a personal computer with access to the Internet and be able to use this equipment to prepare reports and transmit such reports to the Agency. In addition, you must have the capability to send and receive electronic mail.

(b) *Facsimile capability.* You must be able to receive facsimile messages 24 hours per day at your primary office.

(c) *Accessible office.* You must maintain an office that is convenient to the public and is open for business during normal working hours.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80222, Dec. 23, 2011]

§ 4290.506 Safeguarding the RBIC's assets/Internal controls.

You must adopt a plan to safeguard your assets and monitor the reliability of your financial data, personnel, Portfolio, funds and equipment. You must provide your bank and custodian with a certified copy of your resolution or other formal document describing your control procedures.

§ 4290.507 Violations based on false filings and nonperformance of agreements with the Agency or SBA.

The following shall constitute a violation of this part:

(a) *Nonperformance.* Failure to perform any of the requirements of any Debenture or of any written agreement with the Agency or SBA.

(b) *False statement.* In any document submitted to the Agency or SBA:

(1) Any false statement knowingly made; or

(2) Any misrepresentation of a material fact; or

(3) Any failure to state a material fact.

(4) A material fact is any fact that is necessary to make a statement not misleading in light of the circumstances under which the statement was made.

§ 4290.508 Compliance with non-discrimination laws and regulations applicable to federally-assisted programs.

In conducting your operations and providing Assistance to your Portfolio Concerns, you must comply with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-1 *et seq.*), the Age Discrimination Act of 1975 (Pub. L. 94–135, Title III), and Title V of the Equal Credit Opportunity Act (15 U.S.C. 1691 *et seq.*) and the following regulations promulgated by USDA to implement and enforce such laws: 7 CFR part 15.

§ 4290.509 Employment of USDA or SBA officials.

(a) Without the Agency's prior written approval, for a period of two years after the date of your most recent issuance of Leverage or after the receipt of any assistance as defined in paragraph (b) of this section, whichever is later, you are not permitted to employ, offer employment to, or retain for professional services, any person who:

(1) Served as an officer, attorney, agent, or employee of SBA or USDA within one year before such date; and

(2) In that capacity, occupied a position or engaged in activities which, in SBA's or the Agency's determination, involved discretion with respect to the issuing of Leverage or the granting of such assistance.

(b) For purposes of this section, ''assistance'' means financial, contractual, grant, managerial, or other aid, including licensing, certifications, and other eligibility determinations made by USDA or SBA, and any express decision to compromise or defer possible litigation or other adverse action.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80222, Dec. 23, 2011]

MANAGEMENT AND COMPENSATION

§ 4290.510 Approval of RBIC's Investment Adviser/Manager.

(a) *General.* You may employ an Investment Adviser/Manager who will be subject to the supervision of your board of directors, managing member(s), or general partner(s). If you have Leverage or plan to seek Leverage, you must obtain the Agency's prior written approval of the management contract. Approval of an Investment Adviser/Manager for one RBIC does not indicate approval of that manager for any other RBIC.

(b) *Management contract.* The contract must:

(1) Specify the services the Investment Adviser/Manager will render to you and to your Portfolio Concerns; and

(2) Indicate the basis for computing Management Expenses.

(c) *Material change to approved management contract.* Any proposed material change must be approved by both you and the Agency in advance. If you are uncertain whether the change is material, submit the proposed revision to the Agency.

§ 4290.520 Management Expenses of a RBIC.

The Agency must approve your initial Management Expenses and any increases in your Management Expenses.

(a) *Definition of Management Expenses.* Management Expenses include:

(1) Salaries;

(2) Office expenses;

(3) Travel;

(4) Business development, including finders' fees;

(5) Office and equipment rental;

(6) Bookkeeping; and

(7) Expenses related to developing, investigating and monitoring investments.

(b) Management Expenses do not include services provided by specialized outside consultants, outside lawyers and independent public accountants, if they perform services not generally performed by a capital company.

CASH MANAGEMENT BY A RBIC

§ 4290.530 Restrictions on investments of idle funds by RBICs.

(a) *Permitted investments of idle funds.* Funds not invested in Portfolio Concerns must be maintained in:

(1) Direct obligations of, or obligations guaranteed as to principal and interest by, the United States, which mature within 15 months from the date of the investment; or

(2) Repurchase agreements with federally insured institutions, with a maturity of seven days or less. The securities underlying the repurchase agreements must be direct obligations of, or obligations guaranteed as to principal and interest by, the United States. The securities must be maintained in a custodial account at a federally insured institution; or

(3) Certificates of deposit with a maturity of one year or less, issued by a federally insured institution; or

(4) A deposit account in a federally insured institution, subject to a withdrawal restriction of one year or less; or

(5) A checking account in a federally insured institution; or

(6) A reasonable petty cash fund.

(b) *Deposit of funds in excess of the insured amount*—(1) *General rule.* You are permitted to deposit in a federally insured institution funds in excess of the institution's insured amount, but only if the institution is ''well capitalized'' in accordance with the definition set forth in regulations of the Federal Deposit Insurance Corporation (12 CFR 325.103).

(2) *Exception.* You may make a temporary deposit (not to exceed 30 days) in excess of the insured amount, in a transfer account established to facilitate the receipt and disbursement of funds or to hold funds necessary to honor Commitments issued.

(c) *Deposit of funds in Associate institution.* A deposit in, or a repurchase agreement with, a federally insured institution that is your Associate is not considered a Financing of such Associate under § 4290.730, provided the terms of such deposit or repurchase agreement are no less favorable than those available to the general public.

SECURED BORROWING BY RBICS

§ 4290.550 Prior approval of secured third-party debt of RBICs.

(a) *Definition.* For the purposes of this section, ''secured third-party debt'' means any debt that is secured by any of your assets and not guaranteed by the Agency, including secured guarantees and other contingent obligations that you voluntarily assume and secured lines of credit.

(b) *General rule.* You must get the Agency's written approval before you incur any secured third-party debt or refinance any debt with secured third-party debt, including any renewal of a secured line of credit, increase in the maximum amount available under a secured line of credit, or expansion of the scope of a security interest or lien. For purposes of this paragraph (b), ''expansion of the scope of a security interest or lien'' does not include the substitution of one asset or group of assets for another, provided the asset values (as reported on your most recent annual SBA Form 468 or other USDA-approved form(s)) are comparable.

(c) *Conditions for approval.* As a condition of granting its approval under this section, the Agency may impose such restrictions or limitations as it deems appropriate, taking into account your historical performance, current financial position, proposed terms of the secured debt and amount of aggregate debt you will have outstanding (including Leverage). The Agency will not favorably consider any requests for approval which include a blanket lien on all your assets, or a security interest in your investor commitments in excess of 125 percent of the proposed borrowing.

(d) *Thirty-day approval.* Unless the Agency notifies you otherwise within 30 days after it receives your request, you may consider your request automatically approved if:

(1) You are in regulatory compliance;

(2) The security interest in your assets is limited to either those assets being acquired with the borrowed funds or an asset coverage ratio of no more than 2:1; and

(3) Your request is for approval of a secured line of credit that would not cause your total outstanding borrowings (not including Leverage) to exceed 50 percent of your Leverageable Capital.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80223, Dec. 23, 2011]

VOLUNTARY DECREASE IN REGULATORY CAPITAL

§ 4290.585 Voluntary decrease in RBIC's Regulatory Capital.

You must obtain the Agency's prior written approval to reduce your Regulatory Capital by more than two percent in any fiscal year. At all times, you must retain sufficient Regulatory Capital to meet the minimum capital requirements in the Act and § 4290.210, and sufficient Leverageable Capital to avoid having excess Leverage in violation of section 384E(d) of the Act.

Subpart H—Recordkeeping, Reporting, and Examination Requirements for RBICs

RECORDKEEPING REQUIREMENTS FOR RBICS

§ 4290.600 General requirement for RBIC to maintain and preserve records.

(a) Maintaining your accounting records. You must establish and maintain your accounting records using SBA's standard chart of accounts for SBICs, unless the Agency approves otherwise. You may obtain this chart of accounts from SBA or at *http://www.sba.gov/sites/default/files/files/inv_charts_ of_accounts.pdf*.

(b) *Location of records.* You must keep the following records at your principal place of business or, in the case of paragraph (b)(3) of this section, at the branch office that is primarily responsible for the transaction:

(1) All your accounting and other financial records;

(2) All minutes of meetings of directors, stockholders, executive committees, partners, members, or other officials; and

(3) All documents and supporting materials related to your business transactions, except for any items held by a custodian under a written agreement between you and a Portfolio Concern or lender, or any securities held in a safe deposit box, or by a licensed securities broker in an amount not exceeding the broker's per-account insurance coverage.

(c) *Preservation of records.* You must retain all the records that are the basis for your financial reports. Such records must be preserved for the periods specified in this paragraph (c) and must remain readily accessible for the first two years of the preservation period.

(1) You must preserve for at least 15 years or, in the case of a Partnership RBIC or LLC RBIC, at least two years beyond the date of liquidation:

(i) All your accounting ledgers and journals, and any other records of assets, asset valuations, liabilities, equity, income, and expenses;

(ii) Your Articles, bylaws, minute books, and RBIC application; and

(iii) All documents evidencing ownership of the RBIC including ownership ledgers and ownership transfer registers.

(2) You must preserve for at least six years all supporting documentation (such as vouchers, bank statements, or canceled checks) for the records listed in paragraph (b)(l) of this section.

(3) After final disposition of any item in your Portfolio, you must preserve for at least six years:

(i) Financing applications and Financing instruments;

(ii) All loan, participation, and escrow agreements;

(iii) All certifications listed in § 4290.610 of this part;

(iv) Any capital stock certificates and warrants of the Portfolio Concern that you did not surrender or exercise; and

(v) All other documents and supporting material relating to the Portfolio Concern, including correspondence.

(4) You may substitute a microfilm or computer-scanned or generated copy for the original of any record covered by this paragraph (c).

(d) *Additional requirement.* You must comply with the recordkeeping and record retention requirements set forth in 2 CFR part 200, as adopted by USDA in 2 CFR part 400.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80223, Dec. 23, 2011; 79 FR 76018, Dec. 19, 2014]

§ 4290.610 Required certifications for Loans and Investments.

For each of your Loans and Investments, you must have the documents listed in this section. You must keep these documents in your files and make them available to the Agency upon request.

(a) For each Financing made to a Rural Business Concern or Smaller Enterprise, a certification by the Portfolio Concern stating the basis for its qualification as a Rural Business Concern or Smaller Enterprise.

(b) A certification by the Portfolio Concern that it will not discriminate in violation of Title VI of the Civil Rights Act of 1964, the Age Discrimination Act of 1975, and Title V of the Equal Credit Opportunity Act.

(c) A certification by the Portfolio Concern of the intended use of the proceeds. For securities purchased from an underwriter in a public offering, you may substitute a prospectus indicating the intended use of proceeds.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80223, Dec. 23, 2011; 85 FR 16523, Mar. 24, 2020]

§ 4290.620 Requirements to obtain information from Portfolio Concerns.

All the information required by this section is subject to the requirements of § 4290.600 and must be in English.

(a) *Information for initial Financing decision.* Before extending any Financing, you must require the Enterprise to submit such financial statements, plans of operation (including intended use of financing proceeds), cash flow analyses, projections, and such economic development information about the Enterprise, as are necessary to support your investment decision. The information submitted must be consistent with the size and type of the Enterprise and the amount of the proposed Financing.

(b) *Updated financial and economic development information.* (1) The terms of each Financing must require the Portfolio Concern to provide, at least annually, sufficient financial and economic development information to enable you to perform the following required procedures:

(i) Evaluate the financial condition of the Portfolio Concern for the purpose of valuing your investment;

(ii) Determine the continued eligibility of the Portfolio Concern;

(iii) Verify the use of Financing proceeds;

(iv) Evaluate the economic development impact of the Financing; and

(v) In the case of any Portfolio Concern that is not a Rural Business Concern, the number and percentage of its employees residing in Rural Areas.

(2) The president, chief executive officer, treasurer, chief financial officer, general partner, or proprietor of the Portfolio Concern must certify the information submitted to you.

(3) For financial and valuation purposes, you may accept a complete copy of the Federal income tax return filed by the Portfolio Concern (or its proprietor) in lieu of financial statements, but only if appropriate for the size and type of the Enterprise involved.

(4) The requirements in this paragraph (b) do not apply when you acquire securities from an underwriter in a public offering (*see* § 4290.825). In that case, you must keep copies of all reports furnished by the Portfolio Concern to the holders of its securities.

(c) *Information required for examination purposes.* You must obtain any information requested by the Agency's examiners for the purpose of verifying the certifications made by a Portfolio Concern under § 4290.610. In this regard, your Financing documents must contain provisions requiring the Portfolio Concern to give you and/or the Agency's examiners access to its books and records for such purpose.

REPORTING REQUIREMENTS FOR RBICS

§ 4290.630 Requirement for RBICs to file financial statements and supplementary information with the Agency.

(a) *Annual filing.* For each fiscal year, you must submit financial statements and supplementary information prepared on SBA Form 468 or other USDA-approved form(s). You must file SBA Form 468 (or other USDA-approved form(s)) on or before the last day of the third month following the end of your fiscal year, except for the information required under paragraphs (e) and (f) of this section, which must be filed on or before the last day of the fifth month following the end of your fiscal year.

(1) *Audit of annual filing form.* An independent public accountant acceptable to the Agency must audit the annual form submitted under paragraph (a) of this section.

(2) *Insurance requirement for public accountant.* Unless the Agency approves otherwise, your independent public accountant must carry at least $1,000,000 of Errors and Omissions insurance, or be self-insured and have a net worth of at least $1,000,000.

(b) *Interim filings.* When requested by the Agency, you must file interim reports on SBA Form 468 or other USDA-approved form(s). The Agency may require you to file the entire form or only certain statements and schedules. You must file such reports on or before

the last day of the month following the end of the reporting period. When you submit a request for a draw under a Leverage commitment, you must also comply with any applicable filing requirements set forth in § 4290.1220.

(c) *Standards for preparation.* You must prepare SBA Form 468 or other USDA-approved form(s) in accordance with SBA's Accounting Standards and Financial Reporting Requirements for SBICs, which you may obtain from SBA or at *http://www.sba.gov/content/accounting-standards-sbics.*

(d) *Where to file.* Unless otherwise identified in a notice published in the FEDERAL REGISTER, submit all filings of forms under this section to the Investment Division of SBA.

(e) *Reporting of economic development impact information for each Financing.* Your annual filing of SBA Form 468 or other USDA-approved form(s) must include an assessment of the economic development impact of each Financing. This assessment must specify the fulltime equivalent jobs created, the impact of the Financing on the revenues and profits of the business and on taxes paid by the business and its employees, and a listing of the number and percentage of employees who reside in Rural Areas.

(f) *Reporting of economic development information for certain Financings.* For each Rural Business Concern Investment and each Smaller Enterprise Investment, your SBA Form 468 or other USDA-approved form(s) must include an assessment of each such Financing with respect to:

(1) The economic development benefits achieved as a result of the Financing;

(2) How and to what extent such benefits fulfilled the goals of your comprehensive business plan and Participation Agreement; and

(3) Whether you consider the Financing or the results of the Financing to have fulfilled the objectives of the RBIC program.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80223, Dec. 23, 2011]

§ 4290.640 Requirement to file portfolio financing reports with the Agency.

For each Financing you make (excluding guarantees), you must submit a Portfolio Financing Report on SBA Form 1031 or other USDA-approved form(s) within 30 days of the closing date.

[76 FR 80223, Dec. 23, 2011]

§ 4290.650 Requirement to report portfolio valuations to the Agency

You must determine the value of your Loans and Investments in accordance with § 4290.503. You must report such valuations to the Agency within 90 days of the end of the fiscal year in the case of annual valuations, and within 30 days following the close of other reporting periods. You must report material adverse changes in valuations at least quarterly, within 30 days following the close of the quarter.

§ 4290.660 Other items required to be filed by RBIC with the Agency.

(a) *Reports to owners.* You must give the Agency a copy of any report you furnish to your investors, including any prospectus, letter, or other publication concerning your financial operations or those of any Portfolio Concern.

(b) *Documents filed with SEC.* You must give the Agency a copy of any report, application or document you file with the Securities and Exchange Commission.

(c) *Litigation reports.* When you become a party to litigation or other proceedings, you must give the Agency a report within 30 days that describes the proceedings and identifies the other parties involved and your relationship to them.

(1) The proceedings covered by this paragraph (c) include any action by you, or by your security holder(s) in a personal or derivative capacity, against an officer, director, Investment Adviser/Manager or other Associate of yours for alleged breach of official duty.

(2) The Agency may require you to submit copies of the pleadings and other documents it may specify.

(3) Where proceedings have been terminated by settlement or final judgment, you must promptly advise the Agency of the terms.

(4) This paragraph (c) does not apply to collection actions or proceedings to enforce your ordinary creditors' rights.

(d) *Notification of criminal charges.* If any officer, director, general partner, or managing member of the RBIC, or any other person who was required by the Agency to complete a personal history statement, is charged with or convicted of any criminal offense other than a misdemeanor involving a minor motor vehicle violation, you must report the incident to the Agency within 5 calendar days. Such report must fully describe the facts that pertain to the incident.

(e) *Reports concerning Operational Assistance grant funds.* You must comply with all reporting requirements set forth in 2 CFR part 200, subpart D, as codified in 2 CFR 400.1 and any grant award document executed between you and the Agency.

(f) *Other reports.* You must file any other reports the Agency may require in writing.

[69 FR 32204, June 8, 2004, as amended at 79 FR 76019, Dec. 19, 2014]

§ 4290.680 Reporting changes in RBIC not subject to prior approval.

(a) *Changes to be reported for post-approval.* This section applies to any changes in your Articles, ownership, capitalization, management, operating area, or investment policies that do not require the Agency's prior approval. You must report such changes to the Agency within 30 days after the change, for post approval.

(b) *Approval by the Agency.* You may consider any change submitted under this § 4290.680 to be approved unless the Agency notifies you to the contrary within 90 days after receiving it. Approval is contingent upon your full disclosure of all relevant facts and is subject to any conditions the Agency may prescribe.

EXAMINATIONS OF RBICS BY THE AGENCY FOR REGULATORY COMPLIANCE

§ 4290.690 Examinations.

All RBICs must submit to annual examinations by or at the direction of the Agency for the purpose of evaluating regulatory compliance.

§ 4290.691 Responsibilities of RBIC during examination.

You must make all books, records and other pertinent documents and materials available for the examination, including any information required by the examiner under § 4290.620(c). In addition, the agreement between you and the independent public accountant performing your audit must provide that any information in the accountant's working papers be made available to the examiners upon request.

§ 4290.692 Examination fees.

(a) *General.* The Agency will assess fees for examinations in accordance with this § 4290.692. Unless the Agency determines otherwise on a case by case basis, it will not assess fees for special examinations to obtain specific information.

(b) *Base fee.* A base fee of $9,200 + 0.015 percent of your assets will be assessed, subject to adjustment in accordance with paragraph (c) of this section.

(c) *Adjustments to base fee.* The base fee will be decreased based on the following criteria:

(1) If you have no outstanding regulatory violations at the time of the commencement of the examination or the Agency did not identify any violations as a result of the most recent prior examination, you will receive a 15% discount on your base fee; and

(2) If you were fully responsive to the letter of notification of examination (that is, you provided all requested documents and information within the time period stipulated in the notification letter in a complete and accurate manner, and you prepared and had available all information requested by the examiner for on-site review), you will receive a 10% discount on your base fee.

(d) *Examination delay fee.* If, in the sole discretion of the Agency, the time required to complete your examination

is delayed due to your lack of cooperation or the condition of your records, the Agency may assess an additional examination fee of up to $500 per day.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

Subpart I—Financing of Enterprises by RBICs

DETERMINING ELIGIBILITY OF AN ENTERPRISE FOR RBIC FINANCING

§ 4290.700 Requirements concerning types of enterprises to receive financing.

(a) *Financing requirements.* Beginning after the third fiscal year after the issuance of your RBIC license and at the close of each of your fiscal years thereafter, you must be in compliance with the Financing percentages specified in this paragraph (a).

(1) *Rural Business Concerns.* At least 75 percent of your Financings (in total dollars) to your Portfolio Concerns must have been to Rural Business Concerns.

(2) *Smaller Enterprises.* More than 50 percent of your Financings (in total dollars) to your Portfolio Concerns must have been to Smaller Enterprises that, at the time of the initial Financing to such Enterprise, meet either the net worth/net income test or the size standard set forth in the ''Smaller Enterprise'' definition in § 4290.50.

(3) *Urban Areas.* No more than 10 percent of your Financings (in total dollars) to your Portfolio Concerns must have been made to Portfolio Concerns located in an Urban Area.

(b) *Non-compliance.* If you are not in compliance with any of the Financing percentages specified in paragraph (a) of this section at the end of the third fiscal year after the issuance of your RBIC license or any fiscal year thereafter, you must come into compliance by the end of the following fiscal year. For as long as you remain out of compliance, you are not eligible for additional Leverage (see § 4290.1120).

[85 FR 16523, Mar. 24, 2020]

§ 4290.720 Enterprises that may be ineligible for Financing.

(a) *Re-lenders or re-investors.* You are not permitted to finance any Enterprise that is a re-lender or re-investor. The primary business activity of re-lenders or re-investors involves, directly or indirectly, providing funds to others, purchasing debt obligations, factoring, or long-term leasing of equipment with no provision for maintenance or repair.

(b) *Passive Enterprises.* You are not permitted to finance a passive Enterprise.

(1) *Definition.* An Enterprise is passive if:

(i) It is not engaged in a regular and continuous business operation (for purposes of this paragraph (b), the mere receipt of payments such as dividends, rents, lease payments, or royalties is not considered a regular and continuous business operation); or

(ii) Its employees are not carrying on the majority of day to day operations, and the Enterprise does not provide effective control and supervision, on a day to day basis, over persons employed under contract; or

(iii) It passes through substantially all of the proceeds of the Financing to another entity.

(2) *Exception for pass-through of proceeds to subsidiary.* With the prior written approval of the Agency, you may finance a passive Enterprise if it passes substantially all of the proceeds through to one or more subsidiary companies, each of which is an eligible Enterprise that is not passive. For the purpose of this paragraph (b)(2), ''subsidiary company'' means a company in which at least 50 percent of the outstanding voting securities are owned by the Financed passive Enterprise.

(3) *Exception for certain Partnership RBICs or LLC RBICs.* With the prior written approval of the Agency, if you are a Partnership RBIC or LLC RBIC, you may form one or more wholly owned corporations in accordance with this paragraph (b)(3). The sole purpose of such corporation(s) must be to provide Financing to one or more eligible, unincorporated Enterprise. You may form such corporation(s) only if a direct Financing to such Enterprise would cause any of your investors to

incur unrelated business taxable income under section 511 of the Internal Revenue Code of 1986, as amended (26 U.S.C. 511). Your investment of funds in such corporation(s) will not constitute a violation of § 4290.730(a).

(c) *Real Estate Enterprises.* (1) You are not permitted to finance:

(i) Any Enterprise classified under sector 233 (Building, Developing, and General Contracting) of the NAICS Manual, or

(ii) Any Enterprise listed under sector 531 (Real Estate) unless at least 80 percent of its revenue is derived from non-Affiliate sources.

(2) You are not permitted to finance an Enterprise, regardless of NAICS classification, if the Financing is to be used to acquire or refinance real property, unless the Enterprise:

(i) Is acquiring an existing property and will use at least 51 percent of the usable square footage for an eligible business or commercial purpose; or

(ii) Is constructing or renovating a building and will use at least 67 percent of the usable square footage for an eligible business or commercial purpose; or

(iii) Occupies the subject property and uses at least 67 percent of the usable square footage for an eligible business or commercial purpose.

(d) *Project Financing.* You are not permitted to finance an Enterprise if:

(1) The assets of the Enterprise are to be reduced or consumed, generally without replacement, as the life of the Enterprise progresses, and the nature of the Enterprise requires that a stream of cash payments be made to the Enterprise's financing sources, on a basis associated with the continuing sale of assets. Examples include real estate development projects and oil and gas wells; or

(2) The primary purpose of the Financing is to fund production of a single item or defined limited number of items, generally over a defined production period, and such production will constitute the majority of the activities of the Enterprise. Examples include motion pictures.

(e) *Farm land purchases.* You are not permitted to finance the acquisition of farmland. Farmland means land which is or is intended to be used for agricultural or forestry purposes such as the production of food, fiber, or wood, or is so taxed or zoned.

(f) *Public interest.* You are not permitted to finance any business if the proceeds are to be used for purposes contrary to the public interest, including but not limited to or activities which are in violation of law, or inconsistent with free competitive enterprise.

(g) *Foreign investment*—(1) *General rule.* You are not permitted to finance an Enterprise if:

(i) The funds will be used substantially for a foreign operation; or

(ii) At the time of the Financing or within one year thereafter, more than 49 percent of the employees or tangible assets of the Enterprise are located outside the United States (unless you can show, to the Agency's satisfaction, that the Financing was used for a specific domestic purpose).

(2) *Exception.* This paragraph (g) does not prohibit either:

(i) A Financing used to acquire foreign materials and equipment or foreign property rights for use or sale in the United States; or

(ii) A Financing in a subsidiary based in the United States of foreign-owned entities with at least 51 percent U.S. ownership.

(h) *Financing RBICs, SBICs, or New Markets Capital Companies (NMVC Companies).* (1) You are not permitted to provide funds, directly or indirectly, that will be used:

(i) To purchase stock in or otherwise provide capital to a RBIC, SBIC or NMVC Company; or

(ii) To repay an indebtedness incurred for the purpose of investing in a RBIC, SBIC, or NMVC Company.

(2) ''NMVC Company'' is defined in 13 CFR 108.50.

(i) *Entities ineligible for Farm Credit System Assistance.* If one or more Farm Credit System Institutions or their Affiliates owns more than 50 percent of the ownership interests of a Rural Business Investment Company, either alone or in conjunction with other Farm Credit System Institutions (or affiliates), the Rural Business Investment Company may not provide Financing to any entity that is not otherwise eligible to receive Financing

from a Farm Credit System Institution under the Farm Credit Act of 1971 (12 U.S.C. 2001 *et seq.*).

(j) *Gaming establishments.* You are not permitted to Finance an Enterprise that derives, or is expected to derive, more than one-third of its gross annual revenue from legal gaming activities.

(k) *Change in control of an Enterprise.* You are not permitted to Finance a change of more than 50 percent control of an Enterprise unless otherwise approved by the Agency.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011; 85 FR 16523, Mar. 24, 2020]

§4290.730 Financings which constitute conflicts of interest.

(a) *General rule.* You must not self-deal to the prejudice of an Enterprise, the RBIC, its shareholders, partners or, members, or the Agency. Unless you obtain a prior written exemption from the Agency for special instances in which a Financing may further the purposes of the Act despite presenting a conflict of interest, you must not directly or indirectly:

(1) Provide Financing to any of your Associates, except for an Enterprise that satisfies all of the following conditions:

(i) Your Associate relationship with the Enterprise is described by paragraph (8) or (9) of the definition of *Associate* in §4290.50,

(ii) No Person triggering the Associate relationship identified in paragraph (a)(1)(i) of the definition of Associate in §4290.50 is a Close Relative or Secondary Relative of any Person described in paragraphs (1), (2), (4), or (5) of the definition of *Associate* in §4290.50, and

(iii) No single Associate of yours has either a voting interest or an economic interest in the Enterprise exceeding 20 percent, and no two or more of your Associates have either a voting interest or an economic interest exceeding 33 percent. Economic interests shall be computed on a fully diluted basis, and both voting and economic interests shall exclude any interest owned through the RBIC.

(2) Provide Financing to an Associate of another RBIC if one of your Associates has received or will receive any direct or indirect Financing or a Commitment from that RBIC or any other RBIC (including Financing or Commitments received under any understanding, agreement, or cross dealing, reciprocal or circular arrangement).

(3) Borrow money from:

(i) An Enterprise Financed by you;

(ii) An officer, director, or owner of at least a 10 percent equity interest in such Enterprise; or

(iii) A Close Relative of any such officer, director, or equity owner.

(4) Provide Financing to an Enterprise to discharge an obligation to your Associate or free other funds to pay such obligation. This paragraph (a)(4) does not apply if the obligation is to an Associate Lending Institution and is a line of credit or other obligation incurred in the normal course of business.

(b) *Rules applicable to Associates.* Without the Agency's prior written approval, your Associates must not, directly or indirectly:

(1) Borrow money from any Person described in paragraph (a)(3) of this section.

(2) Receive from an Enterprise any compensation or anything of value in connection with Assistance you provide (except as permitted under §4290.825(c)), or anything of value for procuring, attempting to procure, or influencing your action with respect to such Assistance.

(c) *Applicability of other laws.* You are also bound by Federal or State laws applicable to you that govern conflicts of interest and fiduciary obligations.

(d) *Financings with Associates*—(1) *Financings with Associates requiring prior approval.* Without the Agency's prior written approval, you may not Finance any Enterprise in which your Associate has either a voting equity interest or total equity interests (including potential interests) of at least five percent, or effective control, except as otherwise permitted under paragraph (a)(1) of this section.

(2) *Other Financings with Associates.* If you and an Associate provide Financing to the same Enterprise, either at the same time or at different times, you must be able to demonstrate to the Agency's satisfaction that the terms and conditions are (or were) fair and

equitable to you, taking into account any differences in the timing of each party's financing transactions.

(3) *Exceptions to paragraphs (d)(1) and (d)(2) of this section.* A Financing that falls into one of the following categories is exempt from the prior approval requirement in paragraph (d)(1) of this section or is presumed to be fair and equitable to you for the purposes of paragraph (d)(2) of this section, as appropriate:

(i) Your Associate is a Lending Institution that is providing financing under a credit facility in order to meet the operational needs of the Enterprise and the terms of such financing are usual and customary.

(ii) Your Associate invests in the Enterprise on the same terms and conditions and at the same time as you.

(iii) Both you and your Associate are RBICs.

(e) *Use of Associates to manage Portfolio Concerns.* To protect your investment, you may designate an Associate to serve as an officer, director, or other participant in the management of a Portfolio Concern. You must identify any such Associate in your records available for the Agency's review under § 4290.600. Without the Agency's prior written approval, such Associate must not:

(1) Have any other direct or indirect financial interest in the Portfolio Concern that exceeds, or has the potential to exceed, the percentages of the Portfolio Concern's equity set forth in paragraph (a)(1) of this section.

(2) Receive any income or anything of value from the Portfolio Concern unless it is for your benefit, with the exception of director's fees, expenses, and distributions based upon the Associate's ownership interest in the Concern.

(f) *1940 and 1980 Act Companies: SEC exemptions.* If you are a 1940 or 1980 Act Company and you receive an exemption from the Securities and Exchange Commission for a transaction described in this § 4290.730, you need not obtain the Agency's approval of the transaction. However, you must promptly notify the Agency of the transaction.

(g) *Restriction on options obtained by RBIC's management and employees.* Your employees, officers, directors, managing members or general partners, or the general partners or managing members of the Investment Adviser/Manager that is providing services to you or to your general partner or managing member, may obtain options in a Portfolio Concern only if:

(1) They participate in the Financing on a *pari passu* basis with you; or

(2) The Agency gives prior written approval; or

(3) The options received are compensation for service as a member of the board of directors of the Portfolio Concern, and such compensation does not exceed that paid to other outside directors. In the absence of such directors, fees must be reasonable when compared with amounts paid to outside directors of similar companies.

§ 4290.740 Portfolio diversification ("overline" limitation).

(a) Without the Agency's prior written approval, you may provide Financing or a Commitment to an Enterprise only if the resulting amount of your aggregate outstanding Financings and Commitments to that Enterprise and its Affiliates does not exceed 10 percent of the sum of:

(1) Your Regulatory Capital as of the date of the Financing or Commitment; plus

(2) Any permitted Distribution(s) you made during the five years preceding the date of the Financing or Commitment which reduced your Regulatory Capital; plus

(3) The total amount of Leverage provided to the Rural Business Investment Company by the Agency since it was licensed under § 4290.390.

(b) For the purposes of paragraph (a) of this section, you must measure each outstanding Financing at its original cost plus any amount of the Financing that was previously written off.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

§ 4290.760 How a change in size or activity of a Portfolio Concern affects the RBIC and the Portfolio Concern.

(a) *Effect on RBIC of a change in size of a Portfolio Concern.* If a Portfolio Concern was a Smaller Enterprise at the time of the initial Financing but

no longer qualifies as such under the size standard applicable to such entity, you may keep your investment in the Portfolio Concern and:

(1) Subject to the overline limitations of § 4290.740, you may provide additional Financing to the Portfolio Concern up to the time it makes a public offering of its securities.

(2) Even after the Portfolio Concern makes a public offering, you may exercise any stock options, warrants, or other rights to purchase Equity Securities which you acquired before the public offering, or fund Commitments you made before the public offering.

(b) *Effect of a change in business activity occurring within one year of RBIC's initial Financing*—(1) *Retention of Financing.* Unless you receive the Agency's written approval, you may not keep your Financing in a Portfolio Concern which becomes ineligible for financing by a RBIC by reason of a change in its business or commercial activity or for any other reason within one year of your initial Financing in the Portfolio Concern.

(2) *Request for approval to retain Financing.* If you request that the Agency approve the retention of your investment, your request must include sufficient evidence to demonstrate that the change in business or commercial activity was caused by an unforeseen change in circumstances and was not contemplated at the time the Financing was made.

(3) *Additional Financing.* If the Agency approves your request to retain a Financing under paragraph (b)(2) of this section, you may provide additional Financing to the Portfolio Concern to the extent necessary to protect against the loss of the amount of your original investment, subject to the overline limitations of § 4290.740.

(c) *Effect of a change in business activity occurring more than one year after the initial Financing.* If a Portfolio Concern becomes ineligible because of a change in business activity more than one year after your initial Financing you may:

(1) Retain your investment; and

(2) Provide additional Financing to the Portfolio Concern to the extent necessary to protect against the loss of the amount of your original investment, subject to the overline limitations of § 4290.740.

[69 FR 32204, June 8, 2004, as amended at 85 FR 16523, Mar. 24, 2020]

STRUCTURING RBIC FINANCING OF ELIGIBLE ENTERPRISES—TYPES OF FINANCINGS

§ 4290.800 Financings in the form of Equity Securities.

You may purchase the Equity Securities of an Enterprise. You may not, inadvertently or otherwise:

(a) Become a general partner in any unincorporated business; or

(b) Become jointly or severally liable for any obligations of an unincorporated business.

§ 4290.810 Financings in the form of Loans.

You are permitted to make Loans to an Enterprise only if:

(a) The maturity or term of the Loan is five years or less; and

(b) You determine that making the Loan is necessary to preserve an existing Financing (other than a Loan) in that same Enterprise.

§ 4290.815 Financings in the form of Debt Securities.

(a) *General rule.* You may purchase Debt Securities from an Enterprise.

(b) *Restriction of options obtained by RBIC's management and employees.* Your employees, officers, directors, general partners, or managing members, or the general partners or managing members of your Investment Advisor/Manager, may obtain options in a Portfolio Concern only if:

(1) They participate in the Financing on a *pari passu* basis with you; or

(2) The Agency gives its prior written approval; or

(3) The options received are compensation for services as a member of the board of directors of the Enterprise, and such compensation does not exceed that paid to other outside directors. In the absence of such directors, fees must be reasonable when compared with amounts paid to outside directors of similar Enterprises.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

§ 4290.820 Financings in the form of guarantees.

(a) *General rule.* At the request of an Enterprise or where necessary to protect your existing Financing in a Portfolio Concern, you may guarantee the monetary obligation of an Enterprise to any non-Associate creditor.

(b) *Exception.* You may not issue a guaranty if:

(1) You would become subject to State regulation as an insurance, guaranty or surety business; or

(2) The amount of the guaranty plus any direct Financings to the Enterprise exceed the overline limitations of § 4290.740, except that a pledge of the Equity Securities of the issuer or a subordination of your lien or creditor position does not count toward your overline.

(c) *Pledge of RBIC's assets as guaranty.* For purposes of this section, a guaranty with recourse only to specific asset(s) you have pledged is equal to the fair market value of such asset(s) or the amount of the debt guaranteed, whichever is less.

§ 4290.825 Purchasing securities from an underwriter or other third party.

(a) *Securities purchased through or from an underwriter.* You may purchase the securities of an Enterprise through or from an underwriter if:

(1) You purchase such securities within 90 days of the date the public offering is first made;

(2) Your purchase price is no more than the original public offering price; and

(3) The amount paid by you for the securities (less ordinary and reasonable underwriting charges and commissions) has been, or will be, paid to the issuer, and the underwriter certifies in writing that this requirement has been met.

(b) *Recordkeeping requirements.* You must keep records available for the Agency's inspection which show the relevant details of the transaction, including but not limited to, date, price, commissions, and the underwriter's certifications required under paragraphs (a)(3) and (c) of this section.

(c) *Underwriter's requirements.* The underwriter must certify whether it is your Associate. You may pay reasonable and customary commissions and expenses to an Associate underwriter for the portion of an offering that you purchase.

(d) *Securities purchased from another RBIC.* You may purchase from, or exchange with, another RBIC, Portfolio securities (or any interest therein). Such purchase or exchange may only be made on a non-recourse basis. You may not have more than one-third of your total assets (valued at cost) invested in such securities. If you have previously sold Portfolio securities (or any interest therein) on a recourse basis, you must include the amount for which you may be contingently liable in your overline computation.

(e) *Purchases of securities from other non-issuers.* You may purchase securities of an Enterprise from a non-issuer not previously described in this § 4290.825 if such acquisition is a reasonably necessary part of the overall sound Financing of the Enterprise.

§ 4290.830 Minimum term of Financing.

(a) *General rule.* The minimum term of each of your Financings is one year.

(b) *Restrictions on mandatory redemption of Equity Securities.* If you have acquired Equity Securities, options, or warrants on terms that include redemption by the Portfolio Concern, you must not require redemption by the Portfolio Concern within the first year of your acquisition except as permitted in § 4290.850.

(c) *Special rules for Loans and Debt Securities*—(1) *Term.* The minimum term for Loans and Debt Securities starts with the first disbursement of the Financing.

(2) *Prepayment.* You must permit voluntary prepayment of Loans and Debt Securities by the Portfolio Concern. You must obtain the Agency's prior written approval of any restrictions on the ability of the Portfolio Concern to prepay other than the imposition of a reasonable prepayment penalty under paragraph (c)(3) of this section.

(3) *Prepayment penalties.* You may charge a reasonable prepayment penalty which must be agreed upon at the time of the Financing. If the Agency determines that a prepayment is unreasonable, you must refund the entire

penalty to the Portfolio Concern. A prepayment penalty equal to five percent of the outstanding balance during the first year of any Financing, declining by one percentage point per year through the fifth year, is considered the maximum reasonable amount.

§ 4290.835 Exceptions to minimum term of Financing.

You may make a Financing with a term of less than one year but only if such Financing is in contemplation of another Financing, with a term of one year or more, to the same Enterprise.

§ 4290.840 Maximum term of Financing.

The maximum term of any Debt Security must be no longer than 20 years.

§ 4290.845 Maximum rate of amortization on Loans and Debt Securities.

The principal of any Loan, or the loan portion of any Debt Security, with a term of one year or less, cannot be amortized faster than straight line. If the term is greater than one year, the principal cannot be amortized faster than straight line for the first year.

§ 4290.850 Restrictions on redemption of Equity Securities.

(a) *Restriction on redemption.* A Portfolio Concern cannot be required to redeem Equity Securities earlier than one year from the date of the first closing unless:

(1) The Portfolio Concern makes a public offering, or has a change of management or control, or files for protection under the provisions of the Bankruptcy Code, or materially breaches your Financing agreement; or

(2) You make a follow-on Financing, in which case the new securities may be redeemed in less than one year, but no earlier than the redemption date associated with your earliest Financing of the Portfolio Concern.

(b) *Redemption price.* The redemption price must be either:

(1) A fixed amount that is no higher than the price you paid for the securities; or

(2) An amount that cannot be fixed or determined before the time of the redemption. In this case, the redemption price must be based on:

(i) A reasonable formula that reflects the performance of the Portfolio Concern (such as one based on earnings or book value); or

(ii) The fair market value of the Portfolio Concern at the time of redemption, as determined by a professional appraisal performed under an agreement acceptable to both parties.

(c) *Method.* Any method for determining the redemption price must be agreed upon no later than the date of the first (or only) closing of the Financing.

§ 4290.860 Financing fees and expense reimbursements a RBIC may receive from an Enterprise.

(a) *General rule.* You may collect Financing fees and receive expense reimbursements from an Enterprise only as permitted under this § 4290.860.

(b) *Application fee.* You may collect a nonrefundable application fee from an Enterprise to review its Financing application. The application fee may be collected at the same time as the closing fee under paragraph (d) or (e) of this section, or earlier. The fee must be:

(1) No more than one percent of the amount of Financing requested (or, if two or more RBICs participate in the Financing, their combined application fees are no more than one percent of the total Financing requested); and

(2) Agreed to in writing by the Financing applicant.

(c) *The Agency's review of application fees.* For any fiscal year, if the number of application fees you collect is more than twice the number of Financings closed, the Agency in its sole discretion may determine that you are engaged in activities not contemplated by the Act, in violation of § 4290.500.

(d) *Closing fee—Loans.* You may charge a closing fee on a Loan if:

(1) The fee is no more than two percent of the Financing amount (or, if two or more RBICs participate in the Financing, their combined closing fees are no more than two percent of the total Financing amount); and

(2) You charge the fee no earlier than the date of the first disbursement.

(e) *Closing fee—Debt or Equity Financings.* You may charge a Closing

Fee on a Debt Security or Equity Security Financing if:

(1) The fee is no more than four percent of the Financing amount (or, if two or more RBICs participate in the Financing, their combined closing fees are no more than four percent of the total Financing amount); and

(2) You charge the fee no earlier than the date of the first disbursement.

(f) *Limitation on dual fees.* If another RBIC or an Associate of yours collects a transaction fee under § 4290.900(e) in connection with your Financing of an Enterprise, the sum of the transaction fee and your application and closing fees cannot exceed the maximum application and closing fees permitted under this § 4290.860.

(g) *Expense reimbursements.* You may charge an Enterprise for the reasonable out-of-pocket expenses, other than Management Expenses, that you incur to process its Financing application. If the Agency determines that any of your reimbursed expenses are unreasonable or are Management Expenses, the Agency will require you to refund them to the Enterprise.

(h) *Breakup fee.* If an Enterprise accepts your Commitment and then fails to close the Financing because it has accepted funds from another source, you may charge a ''breakup fee'' equal to the closing fee that you would have been permitted to charge under paragraph (d) or (e) of this section.

§ 4290.880 Assets acquired in liquidation of Portfolio securities.

(a) *General rule.* You may acquire assets in full or partial liquidation of a Portfolio Concern's obligation to you under the conditions permitted by this § 4290.880. The assets may be acquired from the Portfolio Concern, a guarantor of its obligation, or another party.

(b) *Timely disposition of assets.* You must dispose of assets acquired in liquidation of a Portfolio security within a reasonable period of time.

(c) *Permitted expenditures to preserve assets.* (1) You may incur reasonably necessary expenditures to maintain and preserve assets acquired.

(2) You may incur reasonably necessary expenditures for improvements to render such assets saleable.

(3) You may make payments of mortgage principal and interest (including amounts in arrears when you acquired the asset), pay taxes when due, and pay for necessary insurance coverage.

(d) *The Agency approval of expenditures.* This paragraph (d) applies if you have outstanding Leverage or are applying for Leverage. Any application for the Agency's approval under this paragraph must specify all expenses estimated to be necessary pending disposal of the assets. Without the Agency's prior written approval:

(1) Your total expenditures under paragraphs (c)(1) and (c)(2) of this section plus your total Financing(s) to the Portfolio Concern must not exceed your overline limit under § 4290.740; and

(2) Your total expenditures under paragraph (b) of this section plus your total Financing(s) to the Portfolio Concern must not exceed 35 percent of your Regulatory Capital.

Limitations on Disposition of Assets

§ 4290.885 Disposition of assets to RBIC's Associates or to competitors of Portfolio Concerns.

Except with the Agency's prior written approval, you are not permitted to dispose of assets (including assets acquired in liquidation) to any Associate or to competitors of Portfolio Concerns if you have outstanding Leverage. As a prerequisite to such approval, you must demonstrate that the proposed terms of disposal are at least as favorable to you as the terms obtainable elsewhere.

§ 4290.900 Management fees for services provided to an Enterprise by RBIC or its Associate.

(a) *General.* This § 4290.900 applies to management services that you or your Associate provide to a Portfolio Concern during the term of a Financing or prior to Financing. It does not apply to management services that you or your Associate provide to an Enterprise that you do not finance.

(b) *The Agency's approval.* You must obtain the Agency's prior written approval of any management services fees and other fees described in this section that you or your Associate charge.

(c) *Permitted management fees.* You or your Associate may provide management services to a Portfolio Concern financed by you if:

(1) You or your Associate have entered into a written contract with the Portfolio Concern;

(2) The fees charged are for services actually performed;

(3) Services are provided on an hourly fee, project fee, or other reasonable basis;

(4) You can demonstrate to the Agency, upon request, that the rate does not exceed the prevailing rate charged for comparable services by other organizations in the geographic area of the Portfolio Concern; and

(5) All of the management services fees paid to your Associate by a Portfolio Concern for management services provided by the Associate are allocated back to you for your benefit.

(d) *Fees for service as a board member.* You or your Associate may receive fees in the form of cash, warrants, or other payments, for services provided as members of the board of directors of a Portfolio Concern Financed by you. The fees must not exceed those paid to other outside board members. In the absence of such board members, fees must be reasonable when compared with amounts paid to outside directors of similar companies. At least 50 percent of any board member services fees paid to your Associate by a Portfolio Concern for board member services provided by the Associate must be allocated back to you for your benefit.

(e) *Approval required.* You must obtain the Agency's prior written approval of any management contract that does not satisfy paragraphs (c) or (d) of this section.

(f) *Transaction fees.* (1) You or your Associate may charge reasonable transaction fees for work performed preparing an Enterprise for a public offering, private offering, or sale of all or part of the business, and for assisting with the transaction. Compensation may be in the form of cash, notes, stock, and/or options. All of the transaction services fees paid to your Associate by a Portfolio Concern for transaction services provided by the Associate must be allocated back to you for your benefit.

(2) Your Associate may charge market rate investment banking fees to a Portfolio Concern on that portion of a Financing that you do not provide.

(g) *Recordkeeping Requirements.* You must keep a record of hours spent and amounts charged to the Portfolio Concern, including expenses charged.

Subpart J—Financial Assistance for RBICs (Leverage)

GENERAL INFORMATION ABOUT OBTAINING LEVERAGE

§ 4290.1100 Type of Leverage and application procedures.

(a) *Type of Leverage available.* You may apply for Leverage from the Agency in the form of a guarantee of your Debentures.

(b) *Applying for Leverage.* The Leverage application process has two parts. You must first apply for the Agency's conditional commitment to reserve a specific amount of Leverage for your future use. You may then apply to draw down Leverage against the commitment. *See* §§ 4290.1200 through 4290.1240.

(c) *Where to send your application.* Send all Leverage draw-down applications to Funding Control Officer, Investment Division, U.S. Small Business Administration, 409 Third Street, SW., Suite 6300, Mail Code 7050, Washington, DC 20416.

§ 4290.1120 General eligibility requirements for Leverage.

To be eligible for Leverage, you must be in compliance with the Act, the regulations in this part, and your Participation Agreement.

§ 4290.1130 Leverage fees payable by RBIC.

(a) *Leverage fee.* You must pay the Agency a non-refundable leverage fee for each issuance of a Debenture. The fee is 3 percent of the face amount of the Debenture issued, and will be deducted from the proceeds remitted to you.

(b) *Additional charge.* You must pay the Agency an additional annual charge of 1 percent of the outstanding amount of your Debenture.

(c) *Other Leverage fees.* The Agency may establish a fee structure for services performed by the Central Registration Agent (CRA). The Agency will not collect any fee for its guarantee of TCs.

§ 4290.1140 RBIC's acceptance of remedies under § 4290.1810.

If you issue Leverage, you automatically agree to the terms and conditions in § 4290.1810 as it exists at the time of issuance. The effect of these terms and conditions is the same as if they were fully incorporated in the terms of your Leverage.

MAXIMUM AMOUNT OF LEVERAGE FOR WHICH A RBIC IS ELIGIBLE

§ 4290.1150 Maximum amount of Leverage for a RBIC.

The face amount of a RBIC's outstanding Debentures may not exceed the lesser of 200 percent of its Leverageable Capital or $105,000,000.

CONDITIONAL COMMITMENTS TO RESERVE LEVERAGE FOR A RBIC

§ 4290.1200 Leverage commitment to a RBIC—application procedure, amount, and term.

(a) *General.* Under the provisions in §§ 4290.1200 through 4290.1240, you may apply for the Agency's conditional commitment to reserve a specific amount of Leverage and type of Debenture (standard or discounted) for your future use. You may then apply to draw down Leverage against the commitment.

(b) *Applying for a Leverage commitment.* The Agency will notify you when requests for Leverage commitments are being accepted, and upon receipt of your request, will send you a complete application package.

(c) *Limitations on the amount of a Leverage commitment.* The amount of a Leverage commitment must be a multiple of $5,000. The Agency in its discretion may determine a minimum dollar amount for Leverage commitments. Any such minimum amounts will be published in Notices in the FEDERAL REGISTER from time to time.

(d) *Term of Leverage commitment.* Your Leverage commitment will automatically lapse on the expiration date stated in the commitment letter issued to you by the Agency. The Agency's Leverage commitment will be included in the Participation Agreement at the time of your licensing as a RBIC, under § 4290.390.

§ 4290.1220 Requirement for RBIC to file financial statements at the time of request for a draw.

(a) If you submit a request for a draw against your Leverage commitment more than 90 days following your submission of an annual SBA Form 468 or a SBA Form 468 (Short Form) or other USDA-approved form(s), you must:

(1) Give the Agency a financial statement on Form 468 (Short Form) or other USDA-approved form(s), and

(2) File a statement of no material adverse change in your financial condition since your last filing of SBA Form 468 or other USDA-approved form(s).

(b) You will not be eligible for a draw if you are not in compliance with this § 4290.1220.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

§ 4290.1230 Draw-downs by RBIC under Leverage commitment.

(a) *RBIC's authorization of the Agency to guarantee securities.* By submitting a request for a draw against the Leverage commitment, you authorize the Agency, or the Agency's designated agent or trustee, to guarantee your Debenture and to sell it with the Agency's guarantee.

(b) *Limitations on amount of draw.* The amount of a draw must be a multiple of $5,000. The Agency, in its discretion, may determine a minimum dollar amount for draws against Leverage commitments. Any such minimum amounts will be published in Notices in the FEDERAL REGISTER from time to time.

(c) *Effect of regulatory violations on RBIC's eligibility for draws*—(1) *General rule.* You are eligible to make a draw against your Leverage commitment only if you are in compliance with all applicable provisions of the Act and this part (*i.e.*, no unresolved statutory or regulatory violations) and your Participation Agreement.

(2) *Exception to general rule.* If you are not in compliance, you may still be eligible for draws if:

(i) The Agency determines that your outstanding violations are of non-substantive provisions of the Act or this part or your Participation Agreement and that you have not repeatedly violated any non-substantive provisions; or

(ii) You have agreed with the Agency in writing on a course of action to resolve your violations and such agreement does not prevent you from issuing Leverage.

(d) *Procedures for funding draws.* You may request a draw at any time during the term of the commitment. With each request, submit the following documentation:

(1) A statement certifying that there has been no material adverse change in your financial condition since your last filing of SBA Form 468 or other USDA-approved form(s) (see also § 4290.1220 for filing requirements).

(2) If your request is submitted more than 30 days following the end of your fiscal year, but before you have submitted your annual filing of SBA Form 468 or other USDA-approved form(s) in accordance with § 4290.630(a), a preliminary unaudited annual financial statement on SBA Form 468 (Short Form) or other USDA-approved form(s).

(3) A statement certifying that to the best of your knowledge and belief, you are in compliance with all provisions of the Act and this part (*i.e.,* no unresolved regulatory or statutory violations) and your Participation Agreement, or a statement listing any specific violations you are aware of. Either statement must be executed by one of the following:

(i) An officer of the RBIC;

(ii) An officer of a corporate general partner or managing member of the RBIC;

(iii) An individual who is authorized to act as or for a general partner of the RBIC; or

(iv) An individual who is authorized to act as or for a managing member of the RBIC.

(4) A statement that the proceeds are needed to fund one or more particular Enterprises or to provide liquidity for your operations. If required by the Agency, the statement must include the name and address of each Enterprise, and the amount and anticipated closing date of each proposed Financing.

(e) *Reporting requirements after drawing funds.* (1) Within 30 calendar days after the actual closing date of each Financing funded with the proceeds of your draw, you must file an SBA Form 1031 or other USDA-approved form(s) confirming the closing of the transaction.

(2) If the Agency required you to provide information concerning a specific planned Financing under paragraph (d)(4) of this section, and such Financing has not closed within 60 calendar days after the anticipated closing date, you must provide a written explanation of the failure to close.

(3) If you do not comply with this paragraph (e), you will not be eligible for additional draws. The Agency may also determine that you are not in compliance with the terms of your Leverage under § 4290.1810.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

§ 4290.1240 Funding of RBIC's draw request through sale to third-party.

(a) *RBIC's authorization of the Agency to arrange sale of Debentures to third-party.* By submitting a request for a draw of Debenture Leverage, you authorize the Agency, or any agent or trustee the Agency designates, to enter into any agreements (and to bind you to such agreements) necessary to accomplish:

(1) The sale of your Debenture to a third-party at a price approved by the Agency; and

(2) The purchase of your Debenture from the third-party and the pooling of your Debenture with other Debentures with the same maturity date.

(b) *Sale of Debentures to a third-party.* If the Agency arranges for the sale of your Debenture to a third-party, the sale price may be an amount discounted from the face amount of the Debenture.

DISTRIBUTIONS BY RBICS WITH OUTSTANDING LEVERAGE

§ 4290.1500 Restrictions on distributions to RBIC investors while RBIC has outstanding Leverage.

(a) *Restriction on distribution.* If you have outstanding Leverage, whenever you make a distribution to your investors you must make, at the same time, a prepayment to or for the benefit of the third-party holder of the Debenture sold pursuant to § 4290.1240 of this part, accrued unpaid interest and the principal, in whole or in part, of one or more of your Debentures outstanding as of the date of the distribution (subject to the terms of such Debentures).

(b) *Amount of prepayment.* You must calculate the amount due the third-party holder by multiplying the total amount you intend to distribute by a fraction whose numerator is the outstanding principal of your Debenture(s) immediately preceding your distribution, and whose denominator is the sum of your Leverageable Capital as of that time plus the outstanding principal amount of your Debentures. For purposes of the preceding sentence ''principal'' means both the net proceeds and interest accrued to date of a discounted Debenture. The amount of any payment received under this section will be credited first against unpaid interest accrued to the date of distribution and then to the principal in whole or in part of the first Debenture you select to prepay and then to the interest and principal in whole or in part of such other Debenture(s) as you select to prepay. You may elect to prepay in whole any discounted Debenture under this section only within five years of its maturity date. Payments under this section must be made on the next occurring March 1 or September 1.

(c) *Effect of prepayment.* Subject to the terms of the Debenture(s), you may voluntarily prepay additional principal, but neither mandatory nor voluntary prepayment will increase your future Leverage eligibility.

FUNDING LEVERAGE BY USE OF GUARANTEED TRUST CERTIFICATES (''TCS'')

§ 4290.1600 Agency's authority to issue and guarantee Trust Certificates.

(a) *Authorization.* Section 384F of the Act authorizes the Agency to issue TCs and to guarantee the timely payment of the principal and interest thereon. Any such guarantee of such TC is limited to the principal and interest due on the Debentures in any Trust or Pool backing such TC. The full faith and credit of the United States is pledged to the payment of all amounts due under the guarantee of any TC.

(b) *Authority to arrange public or private fundings of Leverage.* The Agency in its discretion may arrange for public or private financing under its guarantee authority. Such financing may be accomplished by the sale of individual Debentures, aggregations of Debentures, or Pools or Trusts of Debentures.

(c) *Pass-through provisions.* TCs shall provide for a pass-through to their holders of all amounts of principal and interest paid on the Debentures in the Pool or Trust against which they are issued.

(d) *Formation of a Pool or Trust holding Leverage Securities.* The Agency shall approve the formation of each Pool or Trust. The Agency may, in its discretion, establish the size of the Pools and their composition, the interest rate on the TCs issued against Trusts or Pools, discounts, premiums and other charges made in connection with the Pools, Trusts, and TCs, and any other characteristics of a Pool or Trust it deems appropriate. Notwithstanding § 4290.1130(c), any agent of the Agency may collect a fee for the functions described in 7 U.S.C. 2009cc–5(e)(2) that does not exceed $500.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

§ 4290.1610 Effect of prepayment or early redemption of Leverage on a Trust Certificate.

(a) The rights, if any, of a RBIC to prepay any Debenture is established by the terms of such security, and no such right is created or denied by the regulations in this part.

(b) The Agency's rights to purchase or prepay any Debenture without premium are established by the terms of the Guaranty Agreement relating to the Debenture.

(c) Any prepayment of a Debenture pursuant to the terms of the Guaranty Agreement relating to such security shall reduce the Agency's guarantee of timely payment of principal and interest on a TC in proportion to the amount of principal that such prepaid Debenture represents in the Trust or Pool backing such TC.

(d) The Agency shall be discharged from its guarantee obligation to the holder or holders of any TC, or any successor or transferee of such holder, to the extent of any such prepayment, whether or not such successor or transferee shall have notice of any such prepayment.

(e) Interest on prepaid Debentures shall accrue only through the date of prepayment.

(f) In the event that all Debentures constituting a Trust or Pool are prepaid, the TCs backed by such Trust or Pool shall be redeemed by payment of the unpaid principal and interest on the TCs; provided, however, that in the case of the prepayment of a Debenture pursuant to the provisions of the Guaranty Agreement relating to the Debenture, the Central Registration Agent (CRA) shall pass through pro rata to the holders of the TCs any such prepayments including any prepayment penalty paid by the obligor RBIC pursuant to the terms of the Debenture.

§ 4290.1620 Functions of agents, including Central Registration Agent, Selling Agent and Fiscal Agent.

(a) *Agents.* The Agency may appoint or cause to be appointed agent(s) to perform functions necessary to market and service Debentures or TCs pursuant to this part.

(1) *Selling Agent.* As a condition of guaranteeing a Debenture, the Agency may cause each RBIC to appoint a Selling Agent to perform functions that include, but are not limited to:

(i) Selecting qualified entities to become pool or Trust assemblers (''Poolers'').

(ii) Receiving guaranteed Debentures as well as negotiating the terms and conditions of sales or periodic offerings of Debentures and/or TCs on behalf of RBICs.

(iii) Directing and coordinating periodic sales of Debentures and/or TCs.

(iv) Arranging for the production of Offering Circulars, certificates, and such other documents as may be required from time to time.

(2) *Fiscal Agent.* The Agency shall appoint a Fiscal Agent to:

(i) Establish performance criteria for Poolers.

(ii) Monitor and evaluate the financial markets to determine those factors that will minimize or reduce the cost of funding Debentures.

(iii) Monitor the performance of the Selling Agent, Poolers, CRA, and the Trustee.

(iv) Perform such other functions as the Agency, from time to time, may prescribe.

(3) *Central Registration Agent.* Pursuant to a contract entered into with the Agency, the CRA, as the Agency's agent, will do the following with respect to the Pools or Trust Certificates for the Debentures:

(i) Form an approved Pool or Trust;

(ii) Issue the TCs in the prescribed form;

(iii) Transfer the TCs upon the sale of original issue TCs in any secondary market transaction;

(iv) Receive payments from RBICs;

(v) Make periodic payments as scheduled or required by the terms of the TCs, and pay all amounts required to be paid upon prepayment of Debentures;

(vi) Hold, safeguard, and release all Debentures constituting Trusts or Pools upon instructions from the Agency;

(vii) Remain custodian of such other documentation as the Agency shall direct by written instructions;

(viii) Provide for the registration of all pooled Debentures, all Pools and Trusts, and all TCs; and

(ix) Perform such other functions as the Agency may deem necessary to implement the provisions of this section.

(b) *Functions.* Either the Agency or an agent appointed by the Agency may perform the function of locating purchasers, and negotiating and closing

the sale of Debentures and TCs. Nothing in the regulations in this part shall be interpreted to prevent the CRA from acting as the Agency's agent for this purpose.

§ 4290.1630 Regulation of Brokers and Dealers and disclosure to purchasers of Leverage or Trust Certificates.

(a) *Brokers and Dealers.* Each broker, dealer, and Pool or Trust assembler approved by the Agency pursuant to these regulations shall either be regulated by a Federal financial regulatory agency, or be a member of the National Association of Securities Dealers (NASD), and shall be in good standing in respect to compliance with the financial, ethical, and reporting requirements of such body. It also shall be in good standing with the Agency as determined by the SBA official with delegated authority to made this determination (*see* paragraph (c) of this section) and shall provide a fidelity bond or insurance in such amount as the Agency may require.

(b) *Suspension and/or termination of Broker or Dealer.* The Agency shall exclude from the sale and all other dealings in Debentures or TCs any broker or dealer:

(1) If such broker's or dealer's authority to engage in the securities business has been revoked or suspended by a supervisory agency. When such authority has been suspended, the Agency will suspend such broker or dealer for the duration of such suspension by the supervisory agency.

(2) If such broker or dealer has been indicted or otherwise formally charged with a misdemeanor or felony bearing on its fitness, such broker or dealer may be suspended while the charge is pending. Upon conviction, participation may be terminated.

(3) If such broker or dealer has suffered an adverse final civil judgment holding that such broker or dealer has committed a breach of trust or violation of law or regulation protecting the integrity of business transactions or relationships, participation in the market for Debentures or TCs may be terminated.

(c) *Termination/suspension proceedings.* A broker's or dealer's participation in the market for Debentures or TCs will be conducted in accordance with 7 CFR part 11. The Agency may, for any of the reasons stated in paragraphs (b)(1) through (3) of this section, suspend the privilege of any broker or dealer to participate in this market. The Agency shall give written notice at least ten business days prior to the effective date of such suspension. Such notice shall inform the broker or dealer of the opportunity for a hearing pursuant to 7 CFR part 11.

§ 4290.1640 Agency's access to records of the CRA, Brokers, Dealers and Pool or Trust assemblers.

The CRA and any broker, dealer and Pool or Trust assembler operating under the regulations in this part shall make all books, records and related materials associated with Debentures and TCs available to the Agency for review and copying purposes. Such access shall be at such party's primary place of business during normal business hours.

MISCELLANEOUS

§ 4290.1700 Agency's transfer of interest in a RBIC's Leverage security.

Upon such conditions and for such consideration as it deems reasonable, the Agency may sell, assign, transfer, or otherwise dispose of any Debenture held by or on behalf of the Agency. Upon notice by the Agency, a RBIC will make all payments of principal and interest as shall be directed by the Agency. A RBIC will be liable for all damage or loss which the Agency may sustain by reason of the RBIC's failure to follow such payment instructions, up to the amount of the RBIC's liability under such security, plus court costs and reasonable attorney's fees incurred by the Agency.

§ 4290.1710 Agency's authority to collect or compromise claims.

The Agency may, upon such conditions and for such consideration as it deems reasonable, collect or compromise all claims relating to obligations it holds or has guaranteed, and all legal or equitable rights accruing to it.

§ 4290.1720 Characteristics of Agency's guarantee.

If the Agency agrees to guarantee a RBIC's Debentures, such guarantee will be unconditional, irrespective of the validity, regularity or enforceability of the Debentures or any other circumstances that might constitute a legal or equitable discharge or defense of a guarantor. Pursuant to its guarantee, the Agency will make timely payments of principal and interest on the Debentures.

Subpart K—RBIC's Noncompliance With Terms of Leverage

§ 4290.1810 Events of default and the Agency's remedies for RBIC's noncompliance with terms of Debentures.

(a) *Applicability of this section.* Upon acceptance of a license to operate as an RBIC, you automatically agree to the terms, conditions and remedies in this section, as in effect at the time of issuance of the license and as fully set forth in all documents relating to the license, including, without limitation, the Participation Agreement and Debentures.

(b) *Automatic events of default.* The occurrence of one or more of the events in this paragraph (b) causes the remedies in paragraph (c) of this section to take effect immediately.

(1) *Insolvency.* You become equitably or legally insolvent.

(2) *Voluntary assignment.* You make a voluntary assignment for the benefit of creditors without the Agency's prior written approval.

(3) *Bankruptcy.* You file a petition to begin any bankruptcy or reorganization proceeding, receivership, dissolution or other similar creditors' rights proceeding, or such action is initiated against you and is not dismissed within 60 days.

(c) *Remedies for automatic events of default.* Upon the occurrence of one or more of the events in paragraph (b) of this section:

(1) Without notice, presentation or demand, the entire indebtedness evidenced by your Debentures, including accrued interest, and any other amounts owed with respect to your Debentures, is immediately due and payable; and

(2) You automatically consent to the appointment of the Agency or its designee, as your receiver under section 384M of the Act.

(d) *Events of default with notice.* For any occurrence (as determined by the Agency) of one or more of the events in this paragraph (d), the Agency may avail itself of one or more of the remedies in paragraph (e) of this section.

(1) *Fraud.* You commit a fraudulent act that causes detriment to the Agency's position as a creditor or guarantor.

(2) *Fraudulent transfers.* You make any transfer or incur any obligation that is fraudulent under the terms of 11 U.S.C. 548.

(3) *Willful conflicts of interest.* You willfully violate § 4290.730.

(4) *Willful non-compliance.* You willfully violate one or more of the substantive provisions of the Act or any substantive regulation promulgated under the Act or any substantive provision of your Participation Agreement.

(5) *Repeated Events of Default.* At any time after being notified of the occurrence of an event of default under paragraph (f) of this section, you engage in similar behavior that results in another occurrence of the same event of default.

(6) *Transfer of Control.* You willfully violate § 4290.410, and as a result of such violation you undergo a transfer of Control.

(7) *Non-cooperation under § 4290.1810(h).* You fail to take appropriate steps, satisfactory to the Agency, to accomplish any action the Agency may have required under paragraph (h) of this section.

(8) *Non-notification of Events of Default.* You fail to notify the Agency as soon as you know or reasonably should have known that any event of default exists under this section.

(9) *Non-notification of defaults to others.* You fail to notify the Agency in writing within ten days from the date of a declaration of an event of default or nonperformance under any note, debenture or indebtedness of yours, issued to or held by anyone other than the Agency.

(e) *Remedies for events of default with notice.* Upon written notice to you of the occurrence (as determined by the Agency) of one or more of the events in paragraph (d) of this section:

(1) The Agency may declare the entire indebtedness evidenced by your Debentures, including accrued interest and/or any other amounts owed the Agency with respect to your Debentures, immediately due and payable: and

(2) The Agency may avail itself of any remedy available under the Act, specifically including institution of proceedings for its, or its designee's appointment as your receiver under section 384M(c) of the Act.

(f) *Events of default with opportunity to cure.* For any occurrence (as determined by the Agency) of one or more of the events in this paragraph (f), the Agency may avail itself of one or more of the remedies in paragraph (g) of this section.

(1) *Excessive Management Expenses.* Without the Agency's prior written consent, you incur Management Expenses in excess of those permitted under §§ 4290.510 and 4290.520.

(2) *Improper Distributions.* You make any Distribution to your shareholders or partners, except with the Agency's prior written consent, other than:

(i) Distributions permitted under § 4290.585; and

(ii) Payments from Retained Earnings Available for Distribution based on either the shareholders' or members' pro-rata interests or the provisions for profit distributions in your partnership agreement, as appropriate.

(3) *Failure to make payment.* Unless otherwise approved by the Agency, you fail to make timely payment of any amount due under any security or obligation of yours that is issued to, held or guaranteed by the Agency.

(4) *Failure to maintain Regulatory Capital.* You fail to maintain the minimum Regulatory Capital required under these regulations or, without the Agency's prior written consent, you reduce your Regulatory Capital except as permitted by § 4290.585.

(5) *Capital Impairment.* You have a condition of Capital Impairment as determined under § 4290.1830.

(6) *Cross-default.* An obligation of yours that is greater than $100,000 becomes due or payable (with or without notice) before its stated maturity date, for any reason including your failure to pay any amount when due. This provision does not apply if you pay the amount due within any applicable grace period or contest the payment of the obligation in good faith by appropriate proceedings.

(7) *Nonperformance.* You violate or fail to perform one or more of the terms and conditions of any security or obligation of yours that is issued to, held or guaranteed by the Agency, or of any agreement (including your Participation Agreement) with or conditions imposed by the Agency in the administration of the Act and the regulations promulgated under the Act.

(8) *Noncompliance.* Except as otherwise provided in paragraph (d)(5) of this section, the Agency determines that you have violated one or more of the substantive provisions of the Act or any substantive regulation promulgated under the Act.

(9) *Failure to maintain diversity.* You fail to maintain diversity between management and ownership as required by § 4290.150.

(g) *Remedies for events of default with opportunity to cure.* (1) Upon written notice to you of the occurrence (as determined by the Agency) of one or more of the events of default in paragraph (f) of this section, and subject to the conditions in paragraph (g)(2) of this section:

(i) The Agency may declare the entire indebtedness evidenced by your Debentures, including accrued interest, and/or any other amounts owed the Agency with respect to your Debentures, immediately due and payable; and

(ii) The Agency may avail itself of any remedy available under the Act, specifically including institution of proceedings for the appointment of the Agency or a designee as your receiver under § 348M of the Act.

(2) The Agency may invoke the remedies in paragraph (g)(1) of this section only if:

(i) You have been given at least 15 days to cure the default(s); and

(ii) You fail to cure the default(s) to the Agency's satisfaction within the allotted time.

(h) *Repeated non-substantive violations.* If you repeatedly fail to comply with one or more of the non-substantive provisions of the Act or any non-substantive regulation promulgated under the Act, the Agency, after written notification to you and until you cure such condition to the Agency's satisfaction, may deny you additional Leverage and/or require you to take such actions as the Agency may determine to be appropriate under the circumstances.

(i) *Consent to removal of officers, directors, or general partners and/or appointment of receiver.* The Articles of each RBIC must include the following provisions as a condition to the purchase or guarantee of Leverage. Upon the occurrence of any of the events specified in paragraphs (d)(1) through (d)(6) or (f)(l) through (f)(3) of this section as determined by the Agency, the Agency shall have the right, and you consent to the Agency's exercise of such right:

(1) With respect to a Corporate RBIC, upon written notice, to require you to replace, with individuals approved by the Agency, one or more of your officers and/or such number of directors of your board of directors as is sufficient to constitute a majority of such board; or

(2) With respect to a Partnership RBIC or an LLC RBIC, upon written notice, to require you to remove the person(s) responsible for such occurrence and/or to remove the general partner or manager of the RBIC, which general partner or manager shall then be replaced in accordance with the RBIC's Articles by a new general partner or manager approved by the Agency; and/or

(3) With respect to a Corporate RBIC, Partnership RBIC, or LLC RBIC, to obtain the appointment of the Agency or its designee as your receiver under section 384M of the Act for the purpose of continuing your operations. The appointment of a receiver to liquidate an RBIC is not within such consent, but is governed instead by the relevant provisions of the Act.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80224, Dec. 23, 2011]

COMPUTATION OF RBIC'S CAPITAL IMPAIRMENT

§ 4290.1830 RBIC's Capital Impairment definition and general requirements.

(a) *Significance of Capital Impairment condition.* If you have a condition of Capital Impairment, you are not in compliance with the terms of your Leverage. As a result, the Agency has the right to impose the applicable remedies for noncompliance in § 4290.1810(g).

(b) *Definition of Capital Impairment condition.* You have a condition of Capital Impairment if your Capital Impairment Percentage, as computed pursuant to the procedures set forth in § 4290.1840, exceeds 70 percent.

(c) *Quarterly computation requirement and procedure.* You must determine whether you have a condition of Capital Impairment as of the end of each fiscal quarter. You must notify the Agency promptly if you are Capitally Impaired.

(d) *The Agency's right to determine RBIC's Capital Impairment condition.* The Agency may make its own determination of your Capital Impairment condition at any time.

§ 4290.1840 Computation of RBIC's Capital Impairment Percentage.

(a) *General.* This section contains the procedures you must use to determine your Capital Impairment Percentage. You must compare your Capital Impairment Percentage to the maximum permitted under § 4290.1830(b) to determine whether you have a condition of Capital Impairment.

(b) *Preliminary impairment test.* If you satisfy the preliminary impairment test, your Capital Impairment Percentage is zero and you do not have to perform any more procedures in this § 4290.1840. Otherwise, you must continue with paragraph (c) of this section. You satisfy the test if each of the following amounts is zero or greater:

(1) The sum of Undistributed Net Realized Earnings, as reported on SBA Form 468 or other USDA-approved form(s) and Includible Non-Cash Gains.

(2) Unrealized Gain (Loss) on Securities Held.

(c) *How to compute your Capital Impairment Percentage.* (1) If you have an

Unrealized Gain on Securities Held, compute your Adjusted Unrealized Gain using paragraph (d) of this section. If you have an Unrealized Loss on Securities Held, continue with paragraph (c)(2) of this section.

(2) Add together your Undistributed Net Realized Earnings, your Includible Non-cash Gains, and either your Unrealized Loss on Securities Held or your Adjusted Unrealized Gain.

(3) If the sum in paragraph (c)(2) of this section is zero or greater, your Capital Impairment Percentage is zero.

(4) If the sum in paragraph (c)(2) of this section is less than zero, drop the negative sign, divide by your Regulatory Capital (excluding Treasury Stock), and multiply by 100. The result is your Capital Impairment Percentage.

(d) *How to compute your Adjusted Unrealized Gain.* (1) Subtract Unrealized Depreciation from Unrealized Appreciation. This is your ''Net Appreciation''.

(2) Determine your Unrealized Appreciation on Publicly Traded and Marketable securities. This is your ''Class I Appreciation''.

(3) Determine your Unrealized Appreciation on securities that are not Publicly Traded and Marketable and meet the following criteria, which must be substantiated to the Agency's satisfaction (this is your ''Class 2 Appreciation''):

(i) The Portfolio Concern that issued the security received a significant subsequent equity financing by an investor whose objectives were not primarily strategic and at a price that conclusively supports the Unrealized Appreciation;

(ii) Such financing represents a substantial investment in the form of an arm's-length transaction by a sophisticated new investor in the issuer's securities; and

(iii) Such financing occurred within 24 months of the date of the Capital Impairment computation, or the Portfolio Concern's pre-tax cash flow from operations for its most recent fiscal year was at least 10 percent of its average contributed capital for such fiscal year.

(4) Perform the appropriate computation from the table in 13 CFR 107.1840(d)(4).

(5) Reduce the gain computed in paragraph (d)(4) of this section by your estimate of related future income tax expense. Subject to any adjustment required by paragraph (d)(6) of this section, the result is your Adjusted Unrealized Gain for use in paragraph (c)(2) of this section.

(6) If any securities that are the source of either Class 1 or Class 2 Appreciation are pledged or encumbered in any way, you must reduce the Adjusted Unrealized Gain computed in paragraph (d)(5) of this section by the amount of the related borrowing or other obligation, up to the amount of the Unrealized Appreciation on the securities.

[69 FR 32204, June 8, 2004, as amended at 76 FR 80225, Dec. 23, 2011]

Subpart L—Ending Operations as a RBIC

§ 4290.1900 Termination of participation as a RBIC.

You may not terminate your participation as a RBIC without the Agency's prior written approval. Your request for approval must be accompanied by an offer of immediate repayment of all of your outstanding Leverage (including any prepayment penalties thereon), or by a plan satisfactory to the Agency for the orderly liquidation of the RBIC.

Subpart M—Miscellaneous

§ 4290.1910 Non-waiver of rights or terms of Leverage security.

The Agency's failure to exercise or delay in exercising any right or remedy under the Act or the regulations in this part does not constitute a waiver of such right or remedy. The Agency's failure to require you to perform any term or provision of your Leverage does not affect the Agency's right to enforce such term or provision. Similarly, the Agency's waiver of, or failure to enforce, any term or provision of your Leverage or of any event or condition set forth in § 4290.1810 does not constitute a waiver of any succeeding

breach of such term or provision or condition.

§ 4290.1920 RBIC's application for exemption from a regulation in this part 4290.

(a) *General.* You may file an application in writing with the Agency to have a proposed action exempted from any procedural or substantive requirement, restriction, or prohibition to which it is subject under this part, unless the provision is mandated by the Act. The Agency may grant an exemption for such applicant, conditionally or unconditionally, provided the exemption would not be contrary to the purposes of the Act.

(b) *Contents of application.* Your application must be accompanied by supporting evidence that demonstrates to the Agency's satisfaction that:

(1) The proposed action is fair and equitable; and

(2) The exemption requested is reasonably calculated to advance the best interests of the RBIC program in a manner consistent with the policy objectives of the Act and the regulations in this part.

§ 4290.1930 Effect of changes in this part 4290 on transactions previously consummated.

The legality of a transaction covered by the regulations in this part is governed by the regulations in this part in effect at the time the transaction was consummated, regardless of later changes. Nothing in this part bars enforcement action with respect to any transaction consummated in violation of provisions applicable at the time, but no longer in effect.

§ 4290.1940 Integration of this part with other regulations applicable to USDA's programs.

(a) *Intergovernmental review.* To the extent applicable to this part, the Agency will comply with 2 CFR part 415, subpart C, ''Intergovernmental Review of Department of Agriculture Programs and Activities.'' The Agency has not delegated this responsibility to SBA pursuant to § 4290.45.

(b) *National flood insurance.* To the extent applicable to this part, the Agency will comply with subpart B of 7 CFR part 1806. The Agency has not delegated this responsibility to SBA pursuant to § 4290.45 of this part.

(c) *Clean Air Act and Water Pollution Control Act requirements.* To the extent applicable to this part, the Agency will comply with the requirements of the Clean Air Act, section 306; the Clean Water Act, section 508; Executive Order 11738; and 40 CFR part 32. The Agency has not delegated this responsibility to SBA pursuant to § 4290.45 of this part.

(d) *Historic preservation requirements.* To the extent applicable to this part, the Agency will comply with subpart F of 7 CFR part 1901. The Agency has not delegated this responsibility to SBA pursuant to § 4290.45 of this part.

(e) *Lead-based paint requirements.* To the extent applicable to this part, the Agency will comply with subpart A of 7 CFR part 1924. The Agency has not delegated this responsibility to SBA pursuant to § 4290.45 of this part.

(f) *Conflict of interest.* To the extent applicable to this part, the Agency will comply with 2 CFR 400.2, subpart D of 7 CFR part 1900, and RD Instruction 2045–BB. The Agency has not delegated this responsibility to SBA pursuant to § 4290.45.

(g) *Civil rights impact analysis.* To the extent applicable to this part, the Agency will comply with RD Instruction 2006–P, ''Civil Rights Impact Analysis.'' The Agency has not delegated this responsibility to SBA pursuant to § 4290.45 of this part.

(h) *Environmental requirements.* To the extent applicable to this part, the Agency will comply with 7 CFR part 1970. The Agency has not delegated this responsibility to SBA pursuant to § 4290.45.

(i) *Appeals to the National Appeals Division for review of adverse decisions.* Applicants and RBICs have the right to request review by the National Appeals Division within the USDA of adverse decisions, as defined in 7 CFR 11.1, pursuant to 7 CFR part 11.

[69 FR 32204, June 8, 2004, as amended at 79 FR 76019, Dec. 19, 2014; 81 FR 11053, Mar. 2, 2016]

Subpart N—Requirements for Operational Assistance Grants to RBICs

§ 4290.2000 Operational Assistance Grants to RBICs.

(a) *Regulations governing.* Regulations governing Operational Assistance grants to RBICs may be found in subparts D and E of this part 4290 and in this § 4290.2000.

(b) *Restrictions on use.* A RBIC must use Operational Assistance grant funds only to provide Operational Assistance to Smaller Enterprises to which it either has made, or expects to make, a Financing.

(c) *Amount of grant.* Each RBIC will receive an Operational Assistance grant award equal to the lesser of 10 percent of the Regulatory Capital raised by the RBIC at the time of licensing or $1,000,000.

(d) *Term.* Operational Assistance grants made under this part will be made for a multiyear period (not to exceed 10 years) under such terms as the Agency may require.

(e) *Reporting and recordkeeping requirements.* Policies governing reporting, record retention, and recordkeeping requirements applicable to RBICs may be found in subpart H of this part 4290.

Subpart O—Additional Requirements for Non-Leveraged Licensees and Exceptions to Regulations

SOURCE: 76 FR 80225, Dec. 23, 2011, unless otherwise noted.

§ 4290.3000 Non-leveraged RBICs—General.

This subpart identifies provisions specific to RBICs seeking a non-leveraged license, including exceptions and additions to provisions associated with subparts A through N of this part.

§§ 4290.3001–4290.3002 [Reserved]

§ 4290.3003 Responsibilities for implementing Non-leveraged RBICs.

Section 4290.45 does not apply to Non-leveraged RBICs. Instead, for the purposes of this part as it applies to Non-leveraged RBICs, all authorities and responsibilities assigned to the Agency under this part shall be carried out by the Agency. Thus, when applying subparts A through N of this part to Non-leveraged RBICs, all references to the Small Business Administration (SBA) or Administrator on behalf of USDA shall be read as the Agency. All forms shall be submitted to USDA or its designee.

[77 FR 4885, Feb. 1, 2012]

§ 4290.3004 [Reserved]

§ 4290.3005 Qualifications for the Non-leveraged RBIC Program.

(a) *Business form.* In addition to complying with the applicable provisions of § 4290.100 not otherwise modified by this section, paragraphs (a)(1) through (a)(4) of this section apply.

(1) For RBICs applying for non-leveraged status, the types of investors eligible to invest in a RBIC must have been approved by the Agency. Investors seeking approval must submit a request to the Agency with sufficient documentation to support their request. The USDA will announce such approved categories and types of investors in a public notice published in the FEDERAL REGISTER from time to time. Subsequent notices that modify the types of investors eligible to invest in a RBIC will not be applied retroactively.

(2) In lieu of complying with § 4290.100(d)(1)(i), you must have a minimum duration of 10 years. After 10 years, the Partnership RBIC may be terminated by a vote of your partners.

(3) In lieu of complying with § 4290.100(d)(2), if you are a LLC RBIC, you must have a minimum duration of 10 years. After 10 years, the LLC RBIC may be terminated by a vote of your members.

(4) In lieu of complying with § 4290.100(d)(3), if you are a Corporate RBIC, you must have a duration of not less than 30 years unless earlier dissolved by the shareholders.

(b) *Approval of initial Management Expenses.* Section 4290.140 does not apply to Non-leveraged RBICs. However, the

Agency will provide a cap on these expenses in each FEDERAL REGISTER notice soliciting applications for Non-leveraged RBICs.

(c) *Management and ownership diversity requirements.* A Non-leveraged RBIC is subject to the provisions of § 4290.150 unless it is exempted from these provisions by the Agency. Exemptions will only be granted when the applicant establishes, to the satisfaction of the Agency, that granting the exemption will not unduly impair the integrity and soundness of the Non-leveraged RBIC.

(d) *Special rules for Partnership RBICs and LLC RBICs.* Paragraph (c) of § 4290.160 does not apply to Non-leveraged RBICs.

§§ 4290.3006–4290.3009 [Reserved]

§ 4290.3010 Application and Approval Process for RBIC licensing without Leverage.

(a) The provisions of § 4290.300 notwithstanding, the Agency will accept, at any time, applications for consideration as a Non-leveraged RBIC. The number of applications that the Agency will receive each year, and any fees and conditions, will be announced annually in a FEDERAL REGISTER notice.

(b) The provision for evaluating applicants on a competitive basis, as specified in § 4290.340(a), does not apply to this subpart.

(c) The provisions specified in § 4290.370(m) do not apply to this subpart.

[76 FR 80225, Dec. 23, 2011, as amended at 77 FR 4885, Feb. 1, 2012]

§§ 4290.3011–4290.3014 [Reserved]

§ 4290.3015 Evaluation and selection of Non-leveraged RBICs.

(a) *General.* Notwithstanding any other provision in this part, when selecting applications for non-leveraged status, the Agency may select one or more applications, or none, for further consideration based on the evaluation criteria of this part.

(b) *Eligibility and completeness.* In addition to the requirements specified in § 4290.350, an Applicant under this subpart must complete a written application that includes information not otherwise exempted by the Agency, in its sole discretion. The Agency may, on its own initiative, exempt material from a Non-leveraged RBIC application where the Agency determines it impedes an expedited process without a commensurate benefit to the program. To the extent that the Agency's exemption applies to the entire program, an announcement of the exemption will be published in the FEDERAL REGISTER. The Agency shall make a decision as to licensing an Applicant after the receipt of a complete application and will enter into a Participation Agreement with the RBIC if approved.

(c) *Effect of a RBIC license.* Paragraphs (d)(2) and (d)(3) of § 4290.390 do not apply to Non-leveraged RBICs.

§§ 4290.3016–4290.3019 [Reserved]

§ 4290.3020 Changes in Ownership, Structure, or Control.

Paragraph (b) in § 4290.440 does not apply to Non-leveraged RBICs.

§§ 4290.3021–4290.3024 [Reserved]

§ 4290.3025 Managing the Operations of a RBIC.

(a) *Nonperformance.* In addition to the provisions specified in § 4290.507, failure of an approved Non-leveraged RBIC to maintain sound investment practice, as determined by the Agency, may result in loss of approval for participating in this program.

(b) *Employment of USDA or SBA officials.* Paragraph (a)(2) of § 4290.509 does not apply to Non-leveraged RBICs.

(c) *Approval of RBIC's Investment Adviser/Manager.* In addition to complying with § 4290.510, a Non-leveraged RBIC must notify the Agency of the Management Expenses to be incurred under such contract, or of any subsequent material changes in such Management Expenses, within 30 days of execution.

(d) *Management Expenses of a RBIC.* When complying with § 4290.520, Non-leveraged RBICs do not need prior approval of initial Management Expenses and any increases in those expenses.

(e) *Restrictions on investments of idle funds by RBICs.* The provisions of § 4290.530 apply to Non-leveraged RBICs only when the Non-leveraged RBIC engages in activities not contemplated by the Act.

(f) *Prior approval of secured third-party debt of RBICs.* The provisions of §4290.550 do not apply to Non-leveraged RBICs.

(g) *Voluntary decrease in Regulatory Capital.* When complying with §4290.585, Non-leveraged RBICs do not need to obtain prior approval for decreases in Regulatory Capital of more than 2 percent (but not below the minimum required under this Act or these regulations). However, Non-leveraged RBICs must report the reduction to the Agency within 30 days.

§§ 4290.3026–4290.3029 [Reserved]

§ 4290.3030 Financing of Enterprises by RBICs.

(a) *Non-compliance with this section.* The last sentence of §4290.700(e) does not apply to Non-leveraged RBICs.

(b) *Enterprises that may be ineligible for Financing.* The provisions associated with real estate enterprises found in §4290.720(c) apply to Non-leveraged RBICs unless the Non-leveraged RBIC requests, and has received, an irrevocable exemption from the Agency in accordance with §4290.1920.

(c) *Farmland purchases.* The provisions associated with farmland purchases found in §4290.720(e) apply to Non-leveraged RBICs unless the Non-leveraged RBIC requests, and has received, an irrevocable exemption from the Agency in accordance with §4290.1920.

(d) *Purchasing securities from an underwriter or other third party.* Non-leveraged RBICs are exempt from the recordkeeping requirements and fee limitations in §4290.825(b) and (c), respectively, for securities purchased through or from an underwriter.

(e) *Assets acquired in liquidation of Portfolio securities.* The provisions of §4290.880 do not apply to Non-leveraged RBICs.

§§ 4290.3031–4290.3034 [Reserved]

§ 4290.3035 Recordkeeping, Reporting, and Examination Requirements for RBICs.

Except for §4290.600(d), Subpart H, Recordkeeping, Reporting, and Examination Requirements for RBICs, of this part applies to Non-leveraged RBICs.

§§ 4290.3036–4290.3039 [Reserved]

§ 4290.3040 Financial Assistance for RBICs.

Subpart J, Financial Assistance for RBICs (Leveraged), of this part does not apply to Non-leveraged RBICs.

§ 4290.3041 Events of default and the Agency's remedies for RBIC's noncompliance with terms of licensure.

In addition to complying with the provisions of §4290.1810, a RBIC's failure to comply with the terms of this part may result in the Agency revoking the Non-leveraged RBIC's license issued under this part.

[76 FR 80225, Dec. 23, 2011, as amended at 77 FR 4885, Feb. 1, 2012]

§§ 4290.3042–4290.3044 [Reserved]

§ 4290.3045 Computation of RBIC's Capital Impairment.

The provisions specified in §§4290.1830 and 4290.1840 do not apply to Non-leveraged RBICs.

§§ 4290.3046–4290.3049 [Reserved]

§ 4290.3050 Operational Assistance Grants for RBICs.

Subpart N, Requirements for Operational Assistance Grant to RBICs, of this part does not apply to Non-leveraged RBICs. All other references to Operational Assistance in this part do not apply to Non-leveraged RBICs.

§§ 4290.3051–4290.3099 [Reserved]

Subpart A—General Provisions

Sec.
5001.1 General.
5001.2 Structure.
5001.3 Definitions.
5001.4 Exception authority.
5001.5 Appeal and review rights.
5001.6 General Lender responsibilities.
5001.7 Agency's special initiatives.
5001.8 Approvals, regulations, and forms.
5001.9 Standards for financial information.
5001.10 Federal Register notices and amendments.
5001.11–5001.99 [Reserved]
5001.100 OMB control number.

Subpart B—Eligibility Provisions

5001.101 Introduction.
5001.102 Project eligibility—general.
5001.103 Eligible CF projects and requirements.
5001.104 Eligible WWD projects and requirements.
5001.105 Eligible B&I projects and requirements.
5001.106 Eligible REAP—Renewable Energy System (RES) projects and requirements.
5001.107 Eligible REAP—Energy Efficiency Improvement (EEI) projects and requirements.
5001.108 Eligible REAP—Energy Efficient Equipment and Systems (EEE) projects and requirements.
5001.109–5001.114 [Reserved]
5001.115 Ineligible projects—general.
5001.116 Ineligible CF projects.
5001.117 Ineligible WWD projects.
5001.118 Ineligible B&I projects.
5001.119 Ineligible REAP projects.
5001.120 [Reserved]
5001.121 Eligible uses of loan funds.
5001.122 Ineligible uses of loan funds.
5001.123–5001.125 [Reserved]
5001.126 Borrower eligibility.
5001.127 Borrower ineligibility conditions.
5001.128–5001.129 [Reserved]
5001.130 Lender eligibility requirements.
5001.131 Lender's agreement.
5001.132 Maintenance of approved lender status.
5001.133–5001.139 [Reserved]
5001.140 Cooperative stock/cooperative equity.
5001.141 New Markets Tax Credits Program.
5001.142–5001.200 [Reserved]

Subpart C—Origination Provisions

5001.201 General origination requirements.
5001.202 Lender's credit evaluation.
5001.203 Appraisals.
5001.204 Personal, partnership, and corporate guarantees.
5001.205 General project monitoring requirements.
5001.206 Compliance with USDA Departmental Regulations, Policies, and other Federal laws.
5001.207 Environmental responsibilities.
5001.208 Conflicts of interest.
5001.209–5001.300 [Reserved]

Subpart D—Guarantee Application Provisions

5001.301 Beginning the application process.
5001.302 Preliminary eligibility review.
5001.303 Applications for loan guarantee.
5001.304 Specific application requirements for CF projects.
5001.305 Specific application requirements for WWD projects.
5001.306 Specific application requirements for B&I projects.
5001.307 Specific application requirements for REAP projects.
5001.308–5001.314 [Reserved]
5001.315 Application evaluation and award provisions.
5001.316 CF project priority point system and reservation of funds.
5001.317 WWD project priority points system.

Subpart A—General Provisions

§ 5001.1 General.

(a) This part contains the regulations for Community Facilities, Water and Waste Disposal, Business and Industry, and Rural Energy for America Program loans guaranteed by the Agency and applies to lenders, holders, borrowers, and other parties involved in making, guaranteeing, holding, servicing, and liquidating such loans. The loan guarantee programs covered by this regulation are more fully described as:

(1) Community Programs Guaranteed Loans (5 U.S.C. 301 and 7 U.S.C. 1989) as authorized by Section 306(a)(1) of the Consolidated Farm and Rural Development Act, 7 U.S.C. 1926(a)(1), as administered by the Rural Housing Service (RHS), herein after referred to as CF.

(2) Water and Waste Disposal Program Guaranteed Loans (5 U.S.C. 301, 7 U.S.C. 1989, and 16 U.S.C. 1005) as authorized by Section 306(a)(1) of the Consolidated Farm and Rural Development Act, 7 U.S.C. 1926(a)(1), as administered by the Rural Utilities Service (RUS), herein after referred to as WWD.

(3) Business and Industry Guaranteed Loans (7 U.S.C. 1932) as authorized by Section 310B, Business and Industry Direct and Guaranteed Loans, of the Consolidated Farm and Rural Development Act, 7 U.S.C. 1932, as administered by the Rural Business-Cooperative Service (RBCS), herein after referred to as B&I.

(4) Rural Energy for America Program Guaranteed Loans (5 U.S.C. 301, and 7 U.S.C. 8107) as authorized by Section 9007, Title IX of the Food, Conservation, and Energy Act of 2008, as administered by the Rural Business-Cooperative Service (RBCS), herein after referred to as REAP.

(b) The applicability of the provision of this part for processing and approving applications and for servicing guaranteed loans depend on when a complete application is received. The Agency will process and approve applications, and service guaranteed loans according to the provisions of this part for all complete guaranteed loan applications that it receives on or after October 1, 2020, including guaranteed loan applications submitted under any of the programs whose authorization is identified in this section. All complete applications received before October 1, 2020, will be processed, and awarded and guaranteed loans serviced in accordance with the existing regulations in effect at the complete application date for the program under which the application was submitted.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79704, Sept. 30, 2024]

§ 5001.2 Structure.

This part is divided into six subparts as described in paragraphs (a) through (f) of this section. The provisions are applicable to each guaranteed loan made under this part, except as may be otherwise indicated. This part also contains several appendices as identified in paragraph (g) of this section.

(a) *Subpart A.* Subpart A contains provisions that are applicable to each guaranteed loan made under this part, except as may be otherwise indicated. Topics covered include definitions; exception authority; appeal and review rights; general lender responsibilities; special initiatives; approvals, regulations, and forms; and standards for financial information.

(b) *Subpart B.* This subpart contains provisions for determining project, borrower, and lender eligibility that are applicable to each guaranteed loan made under this part. It also contains a list of eligible and ineligible uses of loan funds, ineligible projects and conditions that would make an otherwise eligible borrower ineligible. The lender's agreement is addressed as well as maintenance of approved lender status.

(c) *Subpart C.* This subpart contains provisions for general origination requirements, credit evaluation, appraisals, various types of guarantees, monitoring requirements, compliance with other laws, environmental responsibilities, and conflicts of interest that are applicable to each guaranteed loan made under this part.

(d) *Subpart D.* This subpart contains provisions relating to applications for a loan guarantee under this part, including preliminary eligibility reviews, the application process, application evaluation, and the application award processes that are applicable to each guaranteed loan made under this part.

(e) *Subpart E.* This subpart contains loan and guarantee provisions that are applicable to each guaranteed loan made under this part. Loan provisions cover interest rates, term length, loan schedule, repayment, lender fees, loan amounts, percentage of guarantee, and assignment of a guaranteed loan. Guarantee provisions cover the conditional commitment, conditions precedent to issuing the loan note guarantee, the issuance of the loan note guarantee, guarantee and other fees, replacement of documents, borrower reorganizations, and other legal requirements.

(f) *Subpart F.* This subpart applies to provisions for servicing the loans guaranteed under this part, including oversight, monitoring and reporting requirements and project completion requirements that are applicable to each guaranteed loan made under this part, except as may be otherwise indicated. Servicing topics covered include audits and financial reports; collateral; loan transfers and assumptions; lender transfers; mergers; servicing fees; subordinations of lien position; repurchases; additional expenditures and loans; interest rate changes; lender failures; borrower defaults; protective advances; liquidation; bankruptcy; litigation; loss calculations and payments; future recovery; property acquired by the lender; and termination of the loan note guarantee.

(g) *Appendices.* These appendices provide specific information on various reports associated with applying for a loan guarantee under this part.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62196, Oct. 2, 2020; 89 FR 79704, Sept. 30, 2024]

§ 5001.3 Definitions.

The following definitions are applicable to the capitalized terms used in this part.

Administrator means the Administrator of the Rural Housing Service, the Rural Utilities Service, or the Rural Business-Cooperative Service (or the applicable Service's successor), as applicable, within the Rural Development mission area of the U.S. Department of Agriculture (USDA).

Affiliate means a person or entity that is closely attached or connected to another person or entity. For the purposes of program eligibility, the principles outlined in 13 CFR 121.301(f), and any successor regulation, are used to establish affiliation.

Agency means USDA Rural Development, which includes the Rural Housing Service; the Rural Utilities Service; and the Rural Business-Cooperative Service or their successors.

Agricultural producer means a person, including non-profits, directly engaged

in the production of agricultural products through labor management and operations, including the cultivating, growing, and harvesting plants and crops (including farming); breeding, raising, feeding, or housing of livestock (including ranching); forestry products; hydroponics; nursery stock; or aquaculture, whereby 50 percent or greater of their gross income is derived from the operations. All gross income of the applicant entity is included for agricultural producer eligibility. The percentage is calculated as the average of gross agricultural operations income of the concern divided by the gross nonfarm income of the concern for the five most recent years. If the concern has been in operation for less than 60 months but for at least 12 months, average gross agricultural operations income, and gross non-farm income for as long as the concern has been in operation will be used. Agricultural operations income may include such items as production contracts, crop insurance, commodity payments, etc. Total income may include W–2 wages, schedule C income, and other income not related to the agricultural operation. Calculations will be using the applicant's five most recent tax years. Each year's gross agricultural operations income will be divided by the applicant's gross total income, then the five years will be averaged to determine eligibility. An agricultural producer could be located in either a rural or a nonrural area.

Agricultural production means the cultivation, growing, or harvesting of plants and crops (including farming) breeding, raising, feeding, or housing of livestock (including ranching); forestry products, hydroponics, or nursery stock; or aquaculture.

Anaerobic digester means a renewable energy system that uses animal waste or other renewable biomass and may include other organic substrates to produce biogas that is sold in a gaseous or compressed liquid state or used to produce thermal or electrical energy.

Applicant lender debt means an existing debt owed by a borrower to the same lender that is applying for or has received the Agency guarantee.

Appraisal surplus means the excess between the market value of an asset and its cost or depreciated book value when the market value is higher.

Architectural report means a report, prepared by a professional, licensed architect, or other qualified party that describes the existing situation, analyzes alternatives and proposes a specific course of action from an architectural perspective.

Arm's length transaction means a transaction in which the buyer and seller act independently and have no relationship to each other. The concept of an arm's length transaction allows the market to ensure that both parties in the deal are acting in their own self-interest and are not subject to any pressure or duress from the other party.

Assignment guarantee agreement means a signed, Agency-approved agreement between the Agency, the lender, and the holder setting forth the terms and conditions of an assignment of a guaranteed portion of a loan.

Biofuel means a fuel derived from renewable biomass.

Biogas means a gaseous fuel (including landfill and sewage waste treatment gas) derived from the degradation and decomposition of renewable biomass.

Bond means a form of debt security in which the authorized issuer (borrower) owes the bond holder (lender) a debt and is obligated to repay the principal and interest (coupon) at a later date(s) (maturity). An explanation of the type of bond and other bond stipulations must be attached to the bond issuance.

Borrower means the person that borrows, or seeks to borrow, money from the lender (including any party or parties liable for the guaranteed loan except guarantors) through a loan guaranteed under this part.

Business plan means a comprehensive document that clearly describes the borrower's ownership structure and management experience including, if applicable, discussion of a parent company, any subsidiaries and affiliates of the borrower and discussion of how the borrower will operate the proposed project. If a business or industry is in decline or financial distress, the business plan must describe in detail how

the project differs from the current industry trends or improves the borrower's financial position.

Byproduct means an incidental or secondary product, regardless of whether it has a readily identifiable commercial use or value, generated under normal operations of the proposed Project that can be reasonably measured and monitored.

Certificate of incumbency means an Agency-approved form used to validate authenticity of Agency representatives' signature and title.

Collateral means the asset(s), including assignments of relevant agreements, pledged by the borrower to the lender as security for the guaranteed loan.

Commercially available means a system that meets the requirements of either paragraph (1) or (2) of this definition.

(1) A domestic or foreign system that:

(i) Has both a proven and reliable operating history and proven performance data for at least one year specific to the use and operation to the proposed application;

(ii) Is based on established design and installation procedures and practices and is replicable;

(iii) Has professional service providers, trades, large construction equipment providers, and labor who are familiar with installation procedures and practices;

(iv) Has proprietary and balance of system equipment and spare parts that are readily available;

(v) Has service that is readily available to properly maintain and operate the system; and

(vi) Has an existing established warranty that is valid in the United States for major parts and labor; or

(2) A domestic or foreign system that has been certified by a recognized industry organization whose certification standards are acceptable to the Agency.

Complete application means an application that contains all parts necessary for the Agency to determine borrower and project eligibility, the financial feasibility and technical merit of the project, and contains sufficient information to determine a priority score for the application, if applicable.

Conditional commitment means an Agency-approved form in which the Agency agrees that, in accordance with applicable provisions of the program regulations contained in this part and related forms, it will execute the loan note guarantee, subject to the conditions and requirements specified in applicable provisions of the program regulations contained in this part and in the conditional commitment itself.

Conflict of interest means a situation in which a person has personal, professional, or financial interests that prevent, or appears to prevent the person from acting impartially. For purposes of this part, conflict of interest also includes, but is not limited to:

(1) A person acting as a compensated agent of the borrower and the lender on the same guaranteed loan,

(2) Distribution or payment of guaranteed loan funds to an individual owner, partner, stockholder, or member of the borrower, or to a beneficiary or immediate family member of the borrower;

(3) Refinancing debt that is owned by a loan packager, broker, or referral agent or its affiliates.

Cooperative means an entity that is legally chartered by the State in which it operates as a cooperatively-operated business, or an entity that is not legally chartered as a cooperative but is owned and operated for the benefit of its members, with returns of residual earnings paid to such members on the basis of patronage.

Credit evaluation means the analysis and evaluation by the lender of the credit factors associated with each application to ensure loan repayment through the use of credit documentation procedures and an underwriting process that is consistent with industry standards and the lender's written policy and procedures.

Debt Collection Improvement Act (DCIA) means the Debt Collection Improvement Act of 1996, 31 U.S.C. 3701 *et seq.*, which requires that any nontax monies that are payable or may become payable from the United States under contracts and other written agreements to any person not an agency or subdivision of a state or local

government may be subject to certain collection options, such as administrative offset, for a delinquent debt the person owes to the United States implemented under 7 CFR part 3.

Debt service coverage ratio means the ratio obtained when taking earnings before interest, taxes, depreciation, and amortization less reasonably expected replacement capital expenditures divided by the annual debt service (principal and interest payments) of the borrower.

Default means the condition that exists when a borrower is in non-compliance under the terms of any of the promissory notes, the loan agreements, security documents, program regulations, or other documents evidencing or collateralizing the loan. Default can be a monetary or non-monetary default.

Deficiency judgment means a monetary judgment rendered by a court of competent jurisdiction after foreclosure and liquidation of all collateral securing the loan.

Delinquency means a situation that exists when a scheduled loan payment on a guaranteed loan made under this part is more than 30 calendar days past due and cannot be cured within the next 30 calendar days. For purposes of this part, delinquency provides guidance for completing borrower status reports and is not used to define monetary or non-monetary default or undertaking-related servicing actions.

Departmental regulations means the regulations of the Agency's Office of Chief Financial Officer (or successor office) as codified in 2 CFR chapter IV.

Eligible project costs means those expenses approved by the Agency for the project as eligible uses of funds.

Energy assessment means an Agency-approved report assessing energy use, cost, and efficiency by analyzing energy bills and surveying the target building and/or equipment sufficiently to provide an Agency-approved energy assessment.

Energy assessor means a qualified consultant who has at least 3 years of experience and completed at least five energy assessments or energy audits on similar type projects and who adheres to generally recognized engineering principles and practices.

Energy audit means a comprehensive report that meets an Agency-approved standard prepared by an energy auditor or an individual supervised by an energy auditor that documents current energy usage; recommended potential improvements (typically called energy conservation measures) and their costs; energy savings from these improvements; dollars saved per year; and simple payback. The methodology of the energy audit must meet professional and industry standards. The final energy audit must be validated and signed off by the energy auditor who conducted the audit or by the supervising energy auditor of the individual who conducted the audit, as applicable.

Energy auditor means a qualified consultant that meets one of the following criteria:

(1) A certified energy auditor certified by the Association of Energy Engineers;

(2) A certified energy manager certified by the Association of Energy Engineers;

(3) A licensed professional engineer in the State in which the audit is conducted with at least 1 year of experience and who has completed at least two similar type energy audits; or

(4) An individual with a 4-year engineering or architectural degree with at least three years of experience and who has completed at least five similar type energy audits.

Energy efficiency improvement (EEI) means improvements to or replacement of an existing building or systems, or equipment owned by the borrower, that reduces measurable energy consumption on an annual basis.

Energy efficient equipment and systems (EEE) means equipment or systems for agricultural production or processing that exceed any of the following standards. Applications for energy efficient equipment and systems must clearly demonstrate energy efficiency.

Engineering documentation means a document, normally prepared by the borrower's consulting engineer or other qualified party, that describes the existing system, analyzes alternatives, and proposes a specific course of action from an engineering perspective.

Essential community facility means a public improvement, operated on a

non-profit basis, needed for the orderly development of a rural community where the rural community is a city or town, or its equivalent county or multi-county area. The term ''facility'' refers to both the physical structure financed, and the resulting service provided to rural residents or rural businesses. Facilities may include, but are not be limited to, courthouses, community centers, libraries, firehouses, health care, education, transportation, and industrial parks. An industrial park consists of land and the necessary access ways and utilities to the site, but not improvements erected on such site.

Existing business means a business that has been in operation for at least one full year and has achieved full operational capacity or stable operations as determined by the Administrator. The following will be treated as existing businesses provided there is not a significant change in operations of the existing business: Mergers by an existing business with a new or existing businesses, a change in the business name, or a new business and an existing business applying as co-borrowers,

Farmer or rancher cooperative means an entity that is owned and controlled by agricultural producers and that is incorporated, or otherwise recognized by the State in which it operates as a cooperatively-operated business or an entity that is not legally chartered as a cooperative but is owned and operated for the benefit of its members, with returns of residual earnings paid to such members on the basis of patronage.

Feasibility study means a report including an opinion or finding conducted by an independent qualified consultant(s) evaluating the economic, market, technical, financial, and management feasibility of the proposed project or operation in terms of its expectation for success as outlined in appendix A to subpart D of this part.

Federal debt means debt owed to the Federal Government that is subject to collection under the Debt Collection Improvement Act of 1996, 31 U.S.C. 3701, *et seq*.

Federal fiscal year means the 12-month period beginning October 1 of each year and ends on September 30 of the following year; it is designated by the calendar year in which it ends.

Final loss claim means the Agency's payment of a final settlement amount with the lender after the collateral is liquidated or after settlement and compromise actions have been completed and as further set forth in § 5001.521(e).

Financial feasibility means the ability of a project to achieve sufficient income, credit, and cash flow to financially sustain the project over the long term and meet all debt obligations.

Future recovery means funds to be collected by the lender after a final loss claim is processed as set forth in § 5001.522.

Geothermal direct generation means a system that uses thermal energy directly from a geothermal source.

Geothermal electric generation means a system that uses thermal energy from a geothermal source to produce electricity.

Guaranteed loan means a loan made and serviced by a lender for which the Agency and lender have entered into a lender's agreement and for which the Agency has issued a loan note guarantee. Unless otherwise specified, guaranteed loan refers to a loan that the Agency has guaranteed under this Part.

Guarantor means a person giving assurance to the Agency under an Agency-approved written agreement that the borrower's obligations will be fulfilled and promising *its undertaking of responsibility for* repayment of a guaranteed loan if the borrower should default.

Holder means a person, other than the lender, who owns all or part of the guaranteed portion of the guaranteed loan with no servicing responsibilities.

Hospital (1) For the purpose of refinancing rural hospital debt in accordance with § 5001.102(d)(5), hospital means the following types of facilities defined in the Social Security Act, Section 1861 (42 U.S.C. 1395x):

(i) Hospital (section 1861(e)).

(ii) Psychiatric hospital (section 1861(f)).

(iii) Long-term care hospital (section 1861(ccc)); and shall also include the following other provider types defined in the Social Security Act, Section 1861 (42 U.S.C. 1395X):

(A) Critical access hospital (section 1861(mm)(1)).

(B) Religious nonmedical health care institution (section 1861(ss)(1)).

(2) The Agency will use the applicant provider's Centers for Medicare and Medicaid Services (CMS) Certification Number (CCN) to verify the applicant provider is listed as a ''Hospital'' for the ''Provider or Supplier Type'' category on the CMS Quality Certification and Oversight Reports (QCOR) website *qcor.cms.gov/index__new.jsp*.

Hybrid means a combination of two or more renewable energy technologies that are incorporated into a unified system to support a single project. Projects which propose two or more different renewable energy technologies that are not incorporated into a unified system and projects which propose different renewable energy technologies at two or more locations (a different technology at each site) are not eligible. For example, installing wind technologies at one location and solar technologies at another location is not considered hybrid but installing wind and solar technologies that are incorporated into a unified system to support a single project at both locations is considered hybrid.

Hydroelectric source means a renewable energy system producing electricity using various types of moving water including, but not limited to, diverted run-of-river water, in-stream run-of-river water, and in-conduit water.

Hydrogen project means a system that produces hydrogen derived from renewable biomass or water using wind, solar, ocean (including tidal, wave, current, and thermal), geothermal, or hydroelectric sources; or that uses hydrogen derived from renewable biomass or water using wind, solar, ocean (including tidal, wave, current, and thermal), geothermal or hydroelectric sources as an energy transport medium in the production of mechanical or electric power or thermal energy.

Immediate family(ies) means individuals who live in the same household or who are closely related by blood, marriage, or adoption, such as a spouse, domestic partner, parent, child, sibling, aunt, uncle, grandparent, grandchild, niece, nephew, or first cousin.

Indian tribe means the term as defined in 25 U.S.C. 5304(e).

In-house expenses means expenses associated with activities that are routinely the responsibility of a lender's internal staff, including in-house lawyers, or its agents and that are normally incurred for administration of the loan. In-house expenses include, but are not limited to, employees' salaries, staff lawyers, travel, and overhead.

Inspector means a qualified consultant who has at least 3 years of experience and has completed at least five inspections on similar type projects.

Insurance means a means of protection from financial loss by which a company provides a guarantee of compensation for a specified loss, damage, illness, or death in return for payment of a premium.

Intangible assets means an asset that lacks physical substance. This includes, but is not limited to, copyrights, patents, capitalized franchise fees, goodwill, customer lists, software, organizational expenses, loan closing expenses, social media assets, and bond fees.

Interconnection agreement means a contract containing the terms and conditions governing the interconnection and parallel operation of the borrower's electric generation equipment and the utility's electric power system or a borrower's biogas production system and a gas pipeline.

Interest means an amount paid by a borrower to a lender as a form of compensation for the use of money. When money is borrowed, interest is typically paid over a certain period of time (typically months or years) to the lender as percentage of the principal amount owed. The term interest does not include default charges, penalty interest, or late payment fees.

Interest termination date means the date on which no further interest will be payable by the Agency under the loan note guarantee.

Interim financing means a temporary or short-term loan made with the clear intent when the loan is made that it will be repaid through another loan that provides permanent financing. Interim financing is frequently used to

pay construction and other costs associated with the proposed project, with permanent financing to be obtained after project completion.

Lender means a lending entity that the Agency has approved to originate, service, and collect payments on loans guaranteed under this part.

Lender's agreement means the Agency-approved form of contract between the Agency and the lender setting forth the lender's guaranteed loan responsibilities.

Liquidation expenses means costs directly associated with the liquidation of collateral, including, without limitation, costs associated with preparing collateral for sale (*e.g.*, repairs and transport), the sale (*e.g.*, advertising, public notices, auctioneer expenses, and foreclosure fees), and conducting appraisals. Legal fees are considered liquidation expenses provided that the fees are reasonable as determined by the Agency and cover legal issues pertaining to the liquidation that could not be properly handled by the lender and its in-house legal staff. Liquidation expenses do not include in-house expenses.

Loan agreement means the agreement between the borrower and lender containing the specified terms and conditions of the guaranteed loan and the responsibilities of the borrower and lender.

Loan classification means the process by which loans are examined and categorized by the probability of default and degree of potential loss in the event of default.

Loan documents mean the loan agreement, promissory note, mortgage/deed of trust, and other security documents entered into by the borrower and the lender in connection with the guaranteed loan.

Loan note guarantee means the Agency-approved form containing the terms and conditions of the guarantee of an identified guaranteed loan.

Loan packager means a person, including a loan referral agent, broker, or an agent other than the borrower or lender that prepares a guaranteed loan application on behalf of the borrower or lender.

Local government means a county, municipality, town, township, village, or other unit of general government below the State level. The term also includes Tribal governments when tribal lands are within the service area.

Local owner means an individual who owns any portion of an entity that is the eligible borrower and whose primary residence is located within the normal commuting area, typically 100 miles or less, of the guaranteed loan project.

Locally or regionally produced agricultural food product means any agricultural food product that is raised, produced, and distributed in the locality or region in which the final product is marketed, so that the distance the product is transported is less than 400 miles from the origin of the product, or within the State in which the product is produced. Food products could be raw, cooked, or a processed edible substance, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption.

Market value means the most probable price that an asset should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby—

(1) Buyer and seller are typically motivated;

(2) Both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest;

(3) A reasonable time is allowed for exposure in the open market;

(4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

(5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Matching funds means the 25 percent of total eligible project costs required by 7 U.S.C. 8107 (REAP) to be eligible to receive a guaranteed loan. Funds provided by the borrower in excess of

matching funds are not matching funds.

Material adverse change means any change in circumstances associated with a guaranteed loan, including, without limitation, any change in the purpose of the loan, the borrower's financial condition or collateral that, individually or in the aggregate, have jeopardized, or could be reasonably expected to jeopardize, the borrower's repayment of the guaranteed loan.

Monetary default means a failure to make a scheduled or required payment on a guaranteed loan.

Multi-note system means an option for the lender to provide one promissory note for the unguaranteed portion and a separate promissory note(s) for the guaranteed portion of the loan. All promissory notes must reflect the same payment terms.

National Appeals Division (NAD) means the division of the United States Department of Agriculture pursuant to 7 CFR part 11.

Natural resource value-added product means a product derived from any naturally occurring resource, including agricultural resources, that is further processed to add value or used to generate energy or renewable energy. For example, wind or the sun being used for energy generation, grapes that are processed into wine or jam, or straw that is processed into particle board. Feeding grain to livestock is not considered as part of this definition.

Negligent loan origination means the failure of a lender to perform those services or actions that a reasonably prudent lender would perform in originating its own portfolio of loans that are not guaranteed. The term includes the concepts of failure to act, not acting in a timely manner, and acting in a manner contrary to the manner in which a reasonably prudent lender would act.

Negligent loan servicing means the failure of a lender to perform those services that a reasonably prudent lender would perform in servicing (including liquidation of) its own portfolio of loans that are not guaranteed. The term includes the concepts of failure to act, not acting in a timely manner, and acting in a manner contrary to the manner in which a reasonably prudent lender would act.

New business means a business that has been in operation for less than one full year and a business that has been in operation for at least one full year and has not achieved full operational capacity or stable operations as determined by the Administrator, including a new enterprise or new affiliate of an existing business moving or expanding into a new location involving new market or labor areas.

Non-monetary default means a situation where a borrower is not in compliance with the covenants or requirements of the loan documents, program requirements or loan.

Non-regulated lending entity means a lending entity that is not subject to supervision and examination by an agency of the United States or a State.

Ocean energy means energy created by use of various types of moving water in the ocean and other large bodies of water (*e.g.*, Great Lakes) including, but not limited to, tidal, wave, current, and thermal changes.

Off-take agreement means the terms and conditions governing the sale and transportation of products produced by the borrower and sold to another party.

Otherwise improve means, but is not limited to, the following:

(1) The purchase of necessary equipment that will itself provide an essential service to the rural community, such as vehicles, emergency and medical equipment, telecommunication equipment, computers, water meters and pumps;

(2) The purchase of equipment necessary to maintain, protect, operate, or use the eligible facility or service;

(3) The purchase of existing eligible facilities, when necessary, to either improve or prevent a loss of service provided the price paid for the facility is fair and reasonable and not directly related to the dollar amount of any debt to be retired by the seller; and

(4) Payment of tap fees and other utility connection charges as provided in utility purchase contracts.

Parity means a lien position whereby two or more separate lending entities or separate loans share a security interest of equal priority in collateral.

Participation means the sale of an interest in a loan by the lead lender to one or more participating lenders wherein the lead lender retains the note, collateral securing the note, and all responsibility for managing and servicing the loan. Participants have credit risk and are dependent upon the lead lender for protection of their interests in the loan. The relationship is typically formalized by a participation agreement between the lenders. The participant lender(s) and the borrower have no rights or obligations to one another.

Passive investor means an equity investor who does not actively participate in management and operation decisions of the borrower or any affiliate of the borrower as evidenced by a contractual agreement.

Person means an individual or entity organized under the laws of a State or a Tribe.

Power purchase agreement means the terms and conditions governing the sale and transportation of power produced by the borrower to another party.

Professional service means services used by the borrower for planning and developing a project, including, but not limited to, appraisals, architectural services, surveys, environmental impact analyses, implementing mitigation measures, and establishing or acquiring property rights. Such services are generally rendered by persons licensed or certified by States or accreditation associations, such as architects, engineers, accountants, attorneys, or appraisers, and those rendered by loan packagers, but not including loan finders. A loan finder fee is not considered a professional service.

Project means the activity identified by a lender in its application for a loan guarantee for which the guaranteed loan funds will be used.

Promissory note means the legal instrument evidencing debt executed by the borrower to a lender with stipulated repayment terms. The term promissory note includes bonds and other related debt instruments issued by the lender to a borrower.

Protective advance means an advance made by the lender for the purpose of preserving and protecting the collateral where the borrower has failed to, and will not or cannot, meet its obligations to protect or preserve collateral. Protective advances include, but are not limited to, advances for property taxes, rent, hazard and flood insurance premiums, emergency repairs and annual assessments that protect the collateral. Legal and accounting fees are not a protective advance.

Public body means a state, county, city, township, incorporated town or village, borough, authority, district, or other political subdivision of a State, or Indian tribe.

Qualified consultant(s) means an independent third-party person possessing the knowledge, expertise, and experience to perform the specific task required.

Rated power means the maximum amount of energy that can be created at any given time.

Refurbished means a piece of equipment or renewable energy system that has been brought into a commercial facility, thoroughly inspected, and worn parts replaced and has a warranty that is approved by the Agency or its designee An example of refurbished equipment is a diesel engine that has been rebuilt to factory specifications. The purchase of used equipment which has not been refurbished is not eligible.

Regulated lending entity means a lending entity that is subject to supervision and examination by an agency of the United States or a State; or a lending entity created specifically by State statute and operating under the direct supervision of a State government authority.

Renewable biomass means—

(1) Materials, pre-commercial thinning, or invasive species from National Forest System land or public lands (as defined in Section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)) that—

(i) Are by-products of preventive treatments that are removed to reduce hazardous fuels; to reduce or contain disease or insect infestation; or to restore ecosystem health;

(ii) Would not otherwise be used for higher-value products; and

(iii) Are harvested in accordance with applicable law and land management plans and the requirements for old-

growth maintenance, restoration, and management direction of paragraphs (2), (3), and (4) of subsection (e) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512) and large-tree retention of subsection (f) of section 102; or

(2) Any organic matter that is available on a renewable or recurring basis from non-Federal land or land belonging to an Indian or Indian tribe that is held in trust by the United States or subject to a restriction against alienation imposed by the United States, including the following items:

(i) Renewable plant material (including feed grains, other agricultural commodities, other plants and trees, and algae); and

(ii) Waste material (including crop residue, other vegetative waste material (including wood waste and wood residues), animal waste and byproducts (including fats, oils, greases, and manure), and food and yard waste).

Renewable energy means energy derived from—

(1) A wind, solar, renewable biomass, ocean (including tidal, wave, current, and thermal), geothermal or hydroelectric source; or

(2) Hydrogen derived from renewable biomass or water using an energy source described in paragraph (1) of this definition.

Renewable energy site assessment means a report providing information regarding and recommendations for the use of commercially available renewable energy technologies in the borrower's operation. The report must be prepared by a qualified consultant for the specific energy system and project proposed.

Renewable energy system (RES) means a system that produces usable energy from a renewable energy source. Co-firing with fossil fuels, natural gas or petroleum-based products or materials such as coal and other fuels, oils, chemicals, tires, or plastic are not eligible; and may include:

(1) Distribution components necessary to move energy produced by such system to the initial point of sale; and

(2) Other components and ancillary infrastructure of such system, such as a storage system; however, such system may not include a mechanism for dispensing energy at retail *e.g.*, a flexible fuel pump.

Report of loss means an Agency-approved form used by lenders when reporting a financial loss under a guaranteed loan.

Retrofitting means a modification to an existing building or installed equipment that incorporates a function or feature(s) not included in the original design when built or for the replacement of existing components with components that improve the original design and does not affect original warranty if the warranty is still in existence. Examples of retrofitting include:

(1) Installing newly designed blades to an existing wind turbine to enhance energy production.

(2) Adding equipment or processes to or altering or enhancing an existing RES to improve production, efficiency, or financial viability, such as a feedstock retreater on an existing biodiesel production plant;

(3) Adding a battery system to an existing RES;

(4) Installing a steam turbine at an ethanol plant, or;

(5) Installing a combined heat and power system for a pellet production facility.

Rural and *rural area* means any area of a State not in a city or town that has a population of more than 50,000 inhabitants, and which excludes certain populations pursuant to 7 U.S.C. 1991(a)(13)(H), according to the latest decennial census of the United States and not in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants. In making this determination, the Agency will use the latest decennial census of the United States. Applications cannot be approved subject to meeting rural area requirements. Locations that are contiguous and adjacent to an urbanized area will be delineated as a non-eligible area in the Rural Development Property Eligibility Map found at: *https://eligibility.sc.egov.usda.gov/eligibility/welcomeAction.do*. This map is maintained independently by another government agency and is oriented through census tract data. The following exclusions apply:

(1) Any area in the urbanized area contiguous and adjacent to a city or town that has a population of more than 50,000 inhabitants that has been determined to be ''rural in character'' as follows:

(i) The determination that an area is ''rural in character'' will be made by the Under Secretary of Rural Development. *Rural in character requests and determinations are project specific; e.g., if approved, the determination does not apply to any future request made within the same area.* The process to request a determination under this provision is outlined in paragraph (1)(ii) of this definition. The determination that an area is ''rural in character'' under this definition will apply to areas that are within:

(A) An urbanized area that has two points on its boundary that are at least 40 miles apart, which is not contiguous or adjacent to a city or town that has a population of greater than 150,000 inhabitants or the urbanized area of such a city or town; or

(B) An urbanized area contiguous and adjacent to a city or town of greater than 50,000 inhabitants that is within ¼ mile of a rural area.

(ii) Units of local government may petition the Under Secretary of Rural Development for a ''rural in character'' designation by submitting a petition to the appropriate Rural Development State Director for recommendation to the Administrator on behalf of the Under Secretary. The petition shall document how the area meets the requirements of paragraph (1)(i)(A) or (B) of this definition and discuss why the petitioner believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, and topography and how the local economy is tied to a rural economic base. Upon receiving a petition, the Under Secretary will consult with the applicable governor or leader in a similar position and request comments to be submitted within 5 business days, unless such comments were submitted with the petition. The Under Secretary will release to the public a notice of a petition filed by a unit of local government not later than 30 days after receipt of the petition by way of publication in a local newspaper and posting on the Agency's website at *rd.usda.gov/onerdguarantee*, and the Under Secretary will make a determination not less than 15 days, but no more than 60 days, after the release of the notice. Upon a negative determination, the Under Secretary will provide to the petitioner an opportunity to appeal a determination to the Under Secretary, and the petitioner will have 10 business days to appeal the determination and provide further information for consideration. The Under Secretary will make a determination of the appeal in not less than 15 days, but no more than 30 days.

(iii) Rural Development State Directors may also initiate a request to the Under Secretary to determine if an area is ''rural in character.'' A written recommendation must document how the area meets the statutory requirements of paragraph (1)(i)(B) of this definition and discusses why the State Director believes the area is ''rural in character,'' including, but not limited to, the area's population density, demographics, topography, and how the local economy is tied to a rural economic base. Upon receipt of such a request, the Administrator will review the request for compliance with the ''rural in character'' provisions and make a recommendation to the Under Secretary. Provided a favorable determination is made, the Under Secretary will consult with the applicable Governor and request comments within 10 business days, unless gubernatorial comments were submitted with the request. A public notice will be published by the State Office in accordance with paragraph (1)(ii) of this definition. There is no appeal process for requests made on the initiative of the State Director.

(2) An area that is attached to the urbanized area of a city or town with more than 50,000 inhabitants by a contiguous area of urbanized census blocks that is not more than two census blocks wide. Applicants from such an area should work with their Rural Development State Office to request a determination of whether their project is located in a rural area under this provision. This applies to areas that would not be considered a rural area because they are attached to the urbanized area

of a city or town of greater than 50,000 inhabitants by a ''string'' area that is two census blocks wide or less (which are typically interstates or major highways). As long as the ''string'' area is two census blocks wide or less, the area outside of the urbanized area, beginning with the ''string'' area, may be considered rural. Once an area is approved as a string exception, any project within that area is eligible.

(3) For the Commonwealth of Puerto Rico, the island is considered Rural and eligible except for the San Juan Census Designated Place (CDP) and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the San Juan CDP, may be determined to be Rural if they are ''not urban in character.''

(4) For the State of Hawaii, all areas within the State are considered rural and eligible except for the Honolulu CDP within the County of Honolulu and any other CDP with greater than 50,000 inhabitants. Areas within CDPs with greater than 50,000 inhabitants, other than the Honolulu CDP, may be determined to be rural if they are ''not urban in character.''

(5) For the purpose of defining a rural area in the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands, the Agency shall determine what constitutes rural and rural Area based on available population data.

Rural small business means a small business that is located in a rural area or that can demonstrate the proposed project for which assistance is being applied for under this part is located in a rural area.

Service area means the area identified to be served.

Significant ties means, as determined by the agency, a facility under private control will carry out a public purpose and continue to primarily serve rural areas for CF projects (not applicable to public bodies and Federally Recognized Tribes) as evidenced by the following: Association with or control by a public body or bodies; or Broadly based membership and controlled primarily by members residing in the project service area. Membership must be open without regard to race, color, religion, national origin, sex, age, disability, sexual orientation, or marital or familial status.

Simple payback means the estimated simple payback of a project funded under this part as calculated using paragraph (1), (2), or (3) of this definition, as applicable.

(1) Energy efficiency improvement projects simple payback = (Total Project Costs) ÷ (Dollar value of energy saved).

(i) Energy saved will be determined by subtracting the projected energy (determined by the method in paragraph (1)(i)(B) of this definition) to be consumed from the historical energy consumed (determined by the method in paragraph (1)(i)(A) of this definition), and converting the result to a monetary value using a constant value or price of energy (determined by the method in paragraph (1)(i)(C) of this definition).

(A) Actual energy used in the original building and/or equipment, as applicable, prior to the EEI project, must be based on the actual average annual total energy used in British thermal units (BTU) over the most recent 12, 24, 36, 48, or 60 consecutive months of operation.

(B) Projected energy use if the proposed EEI project had been in place for the original building and/or equipment, as applicable, for the same time period used to determine that actual energy use under paragraph (1)(i)(A) of this definition.

(C) Value or price of energy must be the actual average price paid over the same time period used to calculate the actual energy used under paragraph (1)(i)(A) of this definition.

(ii) Energy efficiency improvement projects simple payback does not allow EEI to monetize benefits other than the dollar amount of the energy savings the agricultural producer or rural small business realizes as a result of the improvement.

(iii) Proposed additional energy consumption by a business which would result in greater savings if implemented is not considered in the payback calculation.

(2) Renewable energy systems projects simple payback = (total project costs) ÷ (dollar value of energy

units replaced, credited, sold, or used and fair market value of byproducts as applicable in a typical year).

(i) Value of energy replaced will be calculated based on the borrower entity's historical energy consumption with actual average price paid for the energy replaced, following the methodology outlined in paragraph (1)(i) of this definition RES replacement projects which generate more energy than the applicant's historical records document, may add to the replacement value, the value obtained by taking the excess energy generated times a documented market price in order to derive at total dollar value of energy units replaced, credited, sold, or used.

(ii) Value of energy credited or sold will be calculated based on the amount of energy units to be sold at the proposed rate per unit, as documented in utility net metering or crediting policies and/or a purchase agreement.

(iii) If proposed energy will be used in a new facility (includes any direct-use project), value of energy used will be calculated based on the amount of energy units to be used at the documented price per unit of conventional fuel alternative.

(iv) Value of byproducts produced by and used in the project or related enterprises should be documented at the fair market value to be received for the byproducts in a typical year.

(v) Renewable energy systems projects simple payback does not include any one-time benefits such as but not limited to construction and investment-related benefits, nor credits which do not provide annual income to the project, such as tax credits. These benefits may be considered when appropriate for calculating repayment ability of guaranteed loans.

(vi) For RES projects that involve a shared meter with a residence where the cost of the system has been prorated, only the eligible prorated amount of energy attributed to the rural business or agricultural producer will be used in the payback calculation. For projects that involve in-eligible expenses other than residential, the full amount of energy production will be used in the payback calculation.

(3) Energy efficiency equipment and systems projects simple payback = (total project costs) ÷ (dollar value of efficiency savings). Efficiency savings will be determined by subtracting the annual value of energy to be consumed by the proposed energy efficient equipment from the annual value of energy that a conventional equipment alternative would have consumed. Adequate documentation must be provided for all consumption estimates and values utilized in the calculation.

Small business means an entity that meets the requirements of paragraphs (1) and (2) of this definition:

(1) An entity or utility, as applicable, as further defined in paragraphs (1)(i) through (iv) of this definition and meeting the requirements in paragraph (2) of this definition. With the exception of the entities identified in this paragraph, all other non-profit entities are not small businesses for the purposes of REAP program eligibility:

(i) A private for-profit entity, including a sole proprietorship, partnership, or corporation. The application must sufficiently describe the operations of the applicant's business entity;

(ii) A cooperative (including a cooperative qualified under section 501(c)(12) of the Internal Revenue Code);

(iii) An electric utility (including a Tribal or governmental electric utility) that provides service to rural consumers and operates independent of direct government control; or

(iv) A Tribal corporation or other Tribal business entities that are chartered under Section 17 of the Indian Reorganization Act (25 U.S.C. 5124) or have similar structures and relationships with their Tribal governments and are acceptable to the Agency. The Agency will determine the small business status of such Tribal entity without regard to the resources of the Tribal government. This means that only the applicant entity must meet the definition of a small business; and

(2) An entity that meets the requirements of (i) or (ii) below:

(i) The Small Business Administration size standards in accordance with 13 CFR 121.301(a), and any successor regulation. The size of the applicant alone (without affiliates) must not exceed the size standard designated for the industry in which the applicant is

primarily engaged. Also, the size of the applicant combined with its affiliates must not exceed the size standard designated for either the primary industry of the applicant alone or the primary industry of the applicant and its affiliates, whichever is higher. Size standards to be utilized are found in 13 CFR 121.201, and any successor regulation. The size standards themselves are expressed either in number of employees or annual receipts in millions of dollars, unless otherwise specified. The number of employees or annual receipts indicates the maximum allowed for an entity and its affiliates and are calculated using the following criteria:

(A) The number of employees is calculated using the guidance found in 13 CFR 121.106, and any successor regulation. The average number of employees is used based upon number of employees for each of the pay periods for the preceding 24 months. Part-time and temporary employees are counted as full-time employees. If the entity has not been in business for 24 months, the average number of employees is used for each of the pay periods during which it has been in business; or

(B) Annual receipts are calculated using the guidance found in 13 CFR 121.104, and any successor regulation. Federal income tax returns and any amendments filed with the IRS on or before the date of application must be used. If an entity has not filed a Federal income tax return, the Agency will calculate the entities annual receipts using any other available information such as regular books of account, or audited financial statements; or

(ii) The size standard outlined in 13 CFR 121.301(b)(2), and any successor regulation. Including its affiliates, the entity must not have a tangible net worth in excess of $20 million, and average net income after Federal income taxes (excluding carry over losses) for the preceding two completed fiscal year not in excess of $6.5 million.

State means any of the 50 States of the United States, the Commonwealth of Puerto Rico, the District of Columbia, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

State bond banks and *State bond pools* mean an entity authorized by the State to issue State debt instruments and use the funds received to finance eligible projects under this part.

Steady state operating level means that there is an adequate and consistent supply of the applicable renewable energy resource(s) for the project, both on a short-term (current) and long-term basis, and the renewable energy system and process(es) are operating at projected capacity, consistently yielding an adequate quantity and quality of renewable energy.

Subordination means the reduction of the lender's lien priority on certain assets pledged by the borrower to secure payment of the guaranteed loan to a position junior to, or on parity with, the lien position of another loan.

Total eligible project costs means the sum of all eligible project costs.

Total project costs means the sum of all costs associated with a completed project. All costs associated with a completed project, including ineligible project costs, must be included. Total project costs for retrofitting an existing RES includes the costs associated with the modifications or replacement of the existing components.

Transfer and assumption means the Agency-approved conveyance by a borrower to an assuming borrower of the assets, collateral, and liabilities of the borrower in return for the assuming borrower's binding promise to pay the outstanding debt.

Underserved communities mean communities (including urban or rural communities and Indian tribal communities) that have limited access to affordable, healthy foods, including fresh fruits and vegetables, in grocery retail stores or farmer-to-consumer direct markets and that have either a high rate of hunger or food insecurity or a high poverty rate as reflected in the most recent decennial census or other Agency-approved census. For purposes of awarding priority points, when applicable, this definition shall also include unserved or underserved populations, including minorities or protected groups, persistent poverty areas, or areas where Rural Development

projects have not been awarded in the past five years. High poverty rate is based on current census data and is not the same as persistent poverty which uses data for the last 30 years.

Uniform Standards of Professional Appraisal Practice (USPAP) means the appraisal standards promulgated by the Appraisal Standards Board of the Appraisal Foundation.

Used equipment means any equipment that has been used and is provided in an ''as is'' condition.

Useful life means estimated durations of utility placed on a variety of assets, including buildings, machinery, equipment, vehicles, electronics, and furniture. Useful life estimations terminate at the point when assets are expected to become obsolete, require major repairs, or cease to deliver economical results.

Veteran means a person who served in the active military, naval, or air service and was discharged or released therefrom under conditions other than dishonorable as defined in 38 U.S.C. 101(2).

Waste disposal means sanitary sewer (treatment and collection), solid waste, or storm drainage facilities.

Working Capital means current assets available to support a business' operations and growth. Working capital is calculated as current assets less current liabilities.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62196, Oct. 2, 2020; 86 FR 70354, Dec. 10, 2021; 87 FR 38645, June 29, 2022; 89 FR 79704, Sept. 30, 2024; 89 FR 97477, Dec. 9, 2024; 90 FR 57351, Dec. 11, 2025]

§ 5001.4 Exception authority.

The Administrator may, on a case-by-case basis, grant an exception to any requirement or provision of this subpart provided that such an exception is in the best financial interests of the Federal Government. Exercise of this authority cannot be in conflict with applicable law.

§ 5001.5 Appeal and review rights.

Borrowers, lenders, and holders may have appeal or review rights for Agency decisions made under this part. Agency decisions that are adverse to the individual participant are appealable, while matters of general applicability are not subject to appeal; however, such decisions are reviewable for appealability by the National Appeals Division (NAD). All appeals will be conducted by NAD and will be handled in accordance with 7 CFR part 11.

(a) The borrower, lender, and holder can appeal any Agency decision that directly and adversely affects them.

(1) For an adverse decision that affects the borrower, the lender and borrower must jointly execute a written request for appeal of an adverse decision made by the Agency.

(2) An adverse decision that affects only the lender can be appealed by the lender only.

(3) An adverse decision that affects only the holder can be appealed by the holder only.

(b) In cases where the Agency has denied or reduced the amount of final loss payment to the lender, the adverse decision can be appealed only by the lender.

(c) A decision by a lender adverse to the interest of the borrower is not a decision by the Agency, even if it was concurred in by the Agency, and therefore cannot be reviewed for appealability or appealed to NAD.

§ 5001.6 General lender responsibilities.

(a) Lenders are responsible for originating and servicing loans guaranteed by the Agency under this part in accordance with the provisions of this part and, for those guaranteed loans issued under one of the guaranteed loan programs identified in § 5001.1(a)(1) through (4), with the provisions of the applicable guaranteed loan program. Any action or inaction on the part of the Agency does not relieve the lender of its responsibilities.

(b) Lenders can contract for services, but such contracting does not relieve a lender from its responsibilities as identified in this part or, where applicable, in the applicable guaranteed loan program identified in § 5001.1.

(c) If a lender fails to comply with the requirements of this part, the Agency may reduce any loss payment in accordance with the lender's agreement and loan note guarantee.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79708, Sept. 30, 2024]

§ 5001.7 Agency's special initiatives.

Applicants submitting applications that support the implementation of strategic or special initiatives are encouraged to review the Agency's annual notice to determine if their projects are eligible for receiving priority for projects. These projects may also support the implementation of strategic economic development and community development plans on a multi-jurisdictional and multi-sectoral basis in accordance with section 6401 of the Agriculture Improvement Act of 2018 (Pub. L. 115–334).

[89 FR 79708, Sept. 30, 2024]

§ 5001.8 Approvals, regulations, and forms.

(a) When Agency approval or concurrence is required, it must be in writing and must be obtained prior to any action taken for which approval or concurrence is required. Written communication from an authorized Agency official, including any written communication approving, concurring, or otherwise communicating an Agency decision on a matter when such decision is required, may be transmitted via an electronic Agency system in accordance with Electronic Signatures in Global and National Commerce Act (ESIGN) of 2000 (114 Stat. 464) (E-Sign Act).

(b) All references to statutes and regulations include any and all successor statutes and regulations.

(c) All references to forms include any and all predecessor and successor forms as specified by the Agency.

(d) Copies of all regulations and forms referenced in this part can be obtained through the Agency and from the Agency's website at *https://www.rd.usda.gov/onerdguaranteed*.

(e) 7 CFR part 5001 does not prohibit or consent to electronic signatures. Rural Development will accept electronic signatures from lenders for origination, loan closing, and servicing documents in accordance with the E-Sign Act unless otherwise prohibited by law or program. Lenders may use electronic signatures for electronic promissory notes (eNotes), deeds of trust and other documents relevant to the loan transaction, providing that the lender perfects and maintains a first lien position, an enforceable promissory note, and meets all other agency requirements including the following:

(1) Lenders may submit forms to Rural Development electronically using USDA's Service Center Agencies Online Services website. Registration is limited to individuals and each individual authorized by the lender must register and upon registration may electronically sign and submit certain forms on behalf of the lender.

(2) Lenders who choose to accept electronic signatures from borrowers must ensure that such signatures meet the standards and requirements set forth in the E-Sign Act, as well as all other applicable federal and state regulations and guidelines. Lenders are charged with the same responsibility of due diligence with electronically signed documents as they are with paper documents. If any electronically signed document is deemed unenforceable and is connected to any fraud, misrepresentation or negligent servicing, the lender bears the risk that any loss claim submitted in relation to the unenforceable document will be denied or reduced in accordance with applicable regulations. Any loss attributed to a lender's failure to collect on the promissory note or enforce the security instrument because of its electronic signature will be treated as negligent servicing under 7 CFR 5001 servicing regulations. Failure to comply with any Federal statute or regulation could result in the denial of a loan guarantee or claim, withdrawal of lending authority and/or debarment from Federal programs.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70355, Dec. 10, 2021; 89 FR 79708, Sept. 30, 2024]

§ 5001.9 Standards for financial information.

(a) All financial information (*e.g.*, financial statements, balance sheets, financial projections, and income statements) must be prepared and submitted in accordance with accounting practices acceptable to the Agency. Such practices can include, but are not limited to, Generally Accepted Accounting Principles (GAAP) and the industry's

standard accounting practice. Unless the applicant or borrower meets the threshold for an audit in accordance with 2 CFR part 200 subpart F, the type of financial statement, *e.g.*, borrower prepared, compiled, reviewed, or audited, required is typically the decision of the lender.

(b) For sole proprietorships and other situations where business assets are held personally, financial statements must be prepared using only the assets and liabilities directly attributable to the applicant's project. For these situations, assets, plus any improvements, must be valued at the lower of cost or market value.

(c) A tax return is not an acceptable financial statement when underwriting a loan guaranteed under this part; however, tax return information may be used to prepare financial statements and to determine REAP eligibility.

[89 FR 79708, Sept. 30, 2024]

§ 5001.10 Federal Register notices and amendments.

Rural Development will issue annual FEDERAL REGISTER notices each year specifying the amount of funds available under this part for OneRD guarantees. Notices may also include the following information applicable to projects specifically funded under a particular notice: Maximum loan amounts, fees, and priority scoring for discretionary points.

§§ 5001.11–5001.99 [Reserved]

§ 5001.100 OMB control number.

The report and recordkeeping requirements contained in this part have been approved by the Office of Management and Budget and have been assigned OMB control number 0572–0155.

Subpart B—Eligibility Provisions

§ 5001.101 Introduction.

This subpart addresses the eligibility provisions for projects, borrowers, and lenders. This subpart also includes provisions for projects involving the purchase of cooperative stock or cooperative equity, the conversion of businesses to cooperatives or Employee Stock Ownership Plans (ESOP), and New Markets Tax Credits (NMTC).

(a) *Project eligibility.* Sections 5001.102 through 5001.108 identify requirements for projects to be eligible to receive a loan guarantee under this part. Sections 5001.115 through 5001.119 identify types of projects that are not eligible for a loan guarantee under this part. The Agency will not issue a loan guarantee under this part for any project that does not meet the applicable eligibility criteria as specified.

(b) *Borrower eligibility.* Section 5001.126 identifies the types of borrowers that are eligible to receive a loan guarantee for their projects under this part. The types of borrowers eligible to receive loan guarantees for their projects vary based on the guaranteed loan program they are applying under and that guaranteed loan program's authorizing statute as set forth in § 5001.1. Section 5001.127 identifies conditions that would make an otherwise eligible borrower ineligible for receiving a loan guarantee for its project under this part.

(c) *Lender eligibility.* Section 5001.130 identifies the requirements for a lending entity to be an eligible lender under this part. Section 5001.131 addresses the lender's agreement, which each approved lender must execute with the Agency in order to originate and service guaranteed loans under this part. Section 5001.132 addresses provisions necessary for a lender to maintain its approved lender status.

(d) *Cooperative stock/cooperative equity/conversions.* Section 5001.140 identifies requirements associated with issuing loan guarantees in connection with the purchase of cooperative stock, transferable stock shares, and cooperative equity and for the conversions of businesses to either cooperatives or Employee Stock Ownership Plans (ESOP).

(e) *New Markets Tax Credits.* Section 5001.141 identifies the requirements specific to guaranteed loans involving projects that include NMTC available under the NMTC program authorized by the U.S. Department of the Treasury.

(f) *Use of funds.* Section 5001.121 identifies eligible uses of guaranteed loan funds and § 5001.122 identifies ineligible uses of guaranteed loan funds.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79709, Sept. 30, 2024]

§ 5001.102 Project eligibility—general.

To be eligible for a loan guarantee under this part, a project must meet the requirements specified in this section and those in the applicable section in §§ 5001.103 through 5001.108.

(a) *Service area.* For projects with a defined service area, the boundaries for the proposed service area must be chosen in such a way that no user or area will be excluded because of race, color, religion, sex, marital status, age, disability, or national origin. This does not preclude financing or constructing:

(1) Projects in phases (each phase must be financially sustainable without consideration of future phases) when it is not practical to finance or construct the entire project at one time; and

(2) Projects where it is not economically feasible to serve the entire service area, provided the economic feasibility is determined on the basis of the entire system or facility and not by considering the cost of separate extensions to, or parts thereof.

(b) *Location.* A project must be located in a State and meet the rural or rural area requirements of the applicable section in §§ 5001.103 through 5001.108.

(c) *Tax-exempt financing.* The agency is prohibited from guaranteeing a project funded with tax-exempt financing. In cases where a project involves both tax-exempt and taxable financing, the portion of the project that involves taxable financing is eligible to receive a loan guarantee if that portion of the project is separate and distinct from the part that is financed by the tax-exempt obligation, and the guaranteed loan is not essential to issuance of the tax-exempt obligation.

(d) *Debt refinancing.* The Agency can guarantee loans for debt refinancing, as described in paragraphs (d)(1) through (5) of this section when the guaranteed loan extinguishes the debt being refinanced. These paragraphs do not apply to REAP loans, see § 5001.121(d)(14) for REAP refinancing provisions. Longer-term financing to pay off a lender's interim construction loan after project completion will not be treated as debt refinancing as long as it meets the requirements for takeout of interim financing in § 5001.121(c)(6). An eligible debt refinancing project is:

(1) Refinancing of debt on one or more loans owed to another creditor. There is no limit on percent of total use of funds if a new lender is refinancing debt owed to another creditor;

(2) Refinancing of debt owed to the applicant lender or any part thereof provided that the applicant lender debt being refinanced does not exceed 50 percent of the total use of funds in the new aggregated federally-guaranteed debt, the applicant lender debt being refinanced is in a current status for the past six months and the new guaranteed loan is providing better rates or repayment terms. Better rates or repayment terms can be shown in a variety of ways including the lender providing a fixed rate over a lower variable rate provided the change is advantageous to the borrower's long-term repayment ability. The current status cannot be achieved by the lender forgiving the borrower's debt or by servicing actions that impact the borrower's repayment schedule; or

(3) Refinancing of debt owed directly to the Federal Government or that is federally-guaranteed, including any guaranteed debt owed to the applicant lender, when a refinance of this debt is consistent with sections 333, ''Special Conditions and Limitations on Loans'' and 306(a)(24)(C), ''Loan Guarantees for Water, Wastewater, and Essential Community Facilities Loans'' of the Consolidated Farm and Rural Development Act (as amended by the Agriculture Improvement Act of 2018, Pub. L. 115–334). Such guaranteed debt shall not be included in the amount of applicant lender debt when calculating the maximum percentage of the total use of funds in the new guaranteed loan as stated in paragraph (d)(2) of this section; and,

(4) When the refinancing is in accordance with paragraphs (d)(1) through (3) of this section, the following requirements must be met:

(i) The Agency has determined that the project is viable, and debt refinancing is necessary to improve cash flow;

(ii) The debt is reflected on the borrower's balance sheet and the original

loan funds were used for project-eligible purposes. Refinancing of existing of lines of credit is considered an eligible purpose for debt refinancing in the B&I program;

(iii) For loans to existing businesses where debt refinancing is a majority purpose of the guaranteed loan, the borrower must demonstrate historical debt service coverage ratios using proposed debt service requirements of not less than 1.1 times, or the borrower's current financial performance demonstrates it has corrected or recovered from impacts or issues adversely affecting its past financial performance. The debt service coverage ratio computed based on the current income statement must be at least 1:1 to demonstrate correction or recovery.

(5) For CF guaranteed loan requests only, refinancing of debt, not including new construction, incurred by a rural hospital to preserve access to a health service when the refinancing will meaningfully improve the financial position of the hospital. The debt can be existing Agency direct loan debt, Agency guaranteed debt, or another lender's debt (including other non-Agency Federal guaranteed debt). Loan requests to refinance rural hospital debt must demonstrate that the new amount of annual debt repayment on the debt being refinanced will be less than the existing amount of annual debt repayment and provide a total debt service coverage ratio of at least 1.1 based on historical cash flow. To calculate the ratio, the new debt service amount will include annual capital expense reserve and annual debt repayment reserve requirements. This information will be provided by the lender on an Agency approved application for loan guarantee and its associated supporting documentation.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62196, Oct. 2, 2020; 89 FR 79709, Sept. 30, 2024]

§ 5001.103 Eligible CF projects and requirements.

For a CF projects to be eligible for a loan guarantee under this part, it must meet the criteria specified in § 5001.102 and this section and be for a borrower eligible to submit an application for the project in accordance with § 5001.126.

(a) *Type of project.* The project must be for the construction, enlargement, extension, or to otherwise improve an essential community facility. Essential community facilities include, but are not limited to:

(1) Health care facilities and services, including but not limited to hospitals and assisted living facilities providing daily living and health care assistance in compliance with Federal, Tribal and/or State licensure or certification requirements;

(2) Fire, rescue, and public safety facilities and services;

(3) Community, public, social, educational, or cultural facilities or services, including but not limited to:

(i) Business incubators when not an inherently commercial enterprise, and the applicant demonstrates the following:

(A) Applicant is a mission-driven organization such as a local or regional economic development organization;

(B) The facility will be used to provide technical assistance, training, workforce development, administrative support services and vocational training to address workforce shortages in the community or region; and

(C) Capacity building and support services that include at a minimum the following with the borrower demonstrating expertise in one or more of these services or presents a sustainable economically feasible program to outsource such activities:

(*1*) Business plan development;

(*2*) Administrative support services;

(*3*) Training and technical assistance;

(*4*) Mentoring, coaching, and leadership;

(*5*) Finance and accounting workshops;

(*6*) Programs to access capital; and

(*7*) High-speed internet access;

(ii) Thrift stores that operate as charitable organizations to enrich the quality of life for residents of the rural community they serve demonstrated by the following activities:

(A) Collect and resell used or donated merchandise to community residents and may also provide other services such as job training or food pantries;

(B) Receive donations, gifts, or bequests of money to help fund the organization and its purpose with a significant portion obtained from the rural community it serves.

(C) Profits are reinvested in the facility or in charitable activities in the rural community served to ensure the goals of the organization are met.

(iii) Fairgrounds, agricultural exposition centers, farmers markets, food distribution and food banks;

(4) Transportation facilities such as streets, bridges, roads, ports, and airports;

(5) Utility projects such as hydroelectric generating facilities and related connecting systems and appurtenances; supplemental and supporting structures for other rural electrification or telephone systems including facilities such as headquarters, office buildings, storage facilities, and maintenance shops when not eligible for RUS financing; natural gas distribution systems; and recycling or transfer centers or stations.

(6) Telecommunications end-user equipment as it relates to public safety, medical, or educational telecommunications links when not eligible for RUS financing;

(7) Water infrastructure facilities such as levees, dams, reservoirs, inland waterways, canals, and irrigation systems;

(8) The purchase and installation of renewable energy systems for use by an essential community facility when:

(i) The renewable energy system will help defray the cost of facility operation over the life of the system;

(ii) The renewable energy system will improve the borrower's ability to provide the underlying essential community service, such as providing backup facilities or extending fuel supplies of backup facilities;

(iii) The borrower does not, and will not, have any contract to sell power generated by the renewable energy system; however, receiving credit for excess production is permitted;

(iv) The borrower does not anticipate, and has no plan for, generation of more energy than it will use in a consecutive 12-month period. The borrower may receive credits from a utility for energy production that happens to exceed facility usage during a particular month;

(v) The renewable energy system is commercially available with proven operating history specific to the proposed application; and

(vi) The borrower provides a technical report as part of the financial feasibility study in accordance with § 5001.307(e) (1) and (2), as applicable of subpart D.

(9) Land acquisition and necessary site preparation including access ways and utility extensions to and throughout an industrial park site; and

(10) Community parks, community activity centers, and similar types of facilities that are an integral part of the orderly development of a community (meaning a development that is addressing a need in the community). Recreational components including, but not limited to, playground equipment of an otherwise non-recreational eligible community facility such as childcare, educational, or health care facilities are also eligible.

(b) *Public use.* All facilities financed under the provisions of this section will be for public use.

(1) To demonstrate availability for public use, the borrower may not restrict use of or membership to its facility or service based on race, color, religion, sex, national origin, age, disability, sexual orientation, or marital or familial status Veterans of Foreign Wars and American Legion post facilities must be open and available for use by appointment or lease to community residents or groups.

(c) *Project location.* The project must be located in a rural area as defined in § 5001.3 of this part, except that utility projects serving both rural and non-rural areas are eligible for a loan guarantee regardless of project location. For such utility projects, the Agency will guarantee the rural area portion of the project and only the portion of the project necessary to provide the essential services to rural areas. The part of the facility located in a non-rural area must be necessary to provide the essential services to rural areas. The availability of funds for CF projects is contingent on its rural area population and the reservation of funds outlined in § 5001.316(e).

(d) *Leased space.* Eligible projects may include leased space to ineligible organizations or leased space used for ineligible commercial activities provided the floor space leased to ineligible organizations or used for ineligible commercial activity is less than 25 percent of the facility's floor space. The ineligible organization and the ineligible commercial activity must be related to and enhance the primary purpose of the eligible project. Examples include a hair salon in an assisted living facility, or a pharmacy in a medical facility.

(e) *Purchase of existing facility.* When the project is to otherwise improve an essential community facility through the purchase of an existing facility as defined in § 5001.3 the following are required:

(1) An appraisal which demonstrates the purchase price is fair and reasonable and represents the market value of the facility through an arm's length transaction; and

(2) If the transaction is necessary to improve the facility, documentation of the improvements that will be required and the plan, including source of funding, to complete those improvements within a reasonable timeframe; or

(3) If the transaction is necessary to prevent a loss of service, documentation in the form of a financial analysis that demonstrates the seller will not have the financial means to continue to operate the facility and provide the needed services.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79709, Sept. 30, 2024]

§ 5001.104 Eligible WWD projects and requirements.

For a WWD project to be eligible for a loan guarantee under this part, it must meet the criteria specified in § 5001.102 and this section and be for a borrower eligible to submit an application for the project in accordance with § 5001.126.

(a) *Type of project.* The project must be for one or more of the following facilities:

(1) Drinking water facilities, including but not limited to water source, treatment and distribution;

(2) Sanitary sewage facilities, including but not limited to collection and treatment;

(3) Solid waste facilities; or,

(4) Stormwater facilities.

(b) *Public use.* The project must be for a public purpose.

(c) *Project location.* The project must be located in a rural area as defined in § 5001.3 of this part, except that utility projects serving both rural and non-rural areas are eligible for a loan guarantee regardless of project location. For utility service projects serving both rural and non-rural areas, the Agency will guarantee only the portion of the project necessary to provide the essential services to rural areas. The part of the facility located in a non-rural area must be necessary to provide the essential services to rural areas.

(d) *Service area.* (1) The project must be installed to serve any user within the service area who desires service and can be feasibly and legally served.

(2) The lender must determine that, when feasible and legally possible, inequities within the project's service area for the same type service proposed will be remedied by the borrower on, or before, completion of the project. Inequities are defined as unjustified variations in availability, adequacy, or quality of service. User rate schedules for portions of existing systems or facilities that were developed under different financing, rates, terms, or conditions do not necessarily constitute inequities.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70355, Dec. 10, 2021; 89 FR 79710, Sept. 30, 2024]

§ 5001.105 Eligible B&I projects and requirements.

For a B&I project to be eligible for a loan guarantee under this part, it must meet the criteria specified in § 5001.102, be for a borrower eligible to submit an application for the project in accordance with § 5001.126, and the uses of loan funds include, but are not limited to, the following:

(a) *Purpose.* The purpose of the project must be to improve, develop, or finance business, industry, and employment and improve the economic and

environmental climate in rural communities; the conservation, development, and use of water for aquaculture purposes; and reducing reliance on nonrenewable energy resources through development and construction of solar energy and other renewable energy systems.

(b) *Type of project.* The project must be for one or more of the uses described in paragraphs (b)(1) through (22) of this section.

(1) Purchase and development of land, buildings, or infrastructure for public or private commercial enterprises or industrial properties, including expansion or modernization.

(2) Business acquisitions, start-ups, and expansions if jobs will be created or saved. A business acquisition is considered the acquisition of an entire business, not a partial stock acquisition in a business. However, acquisition or change of ownership between existing owners is an eligible project when the remaining owner(s) held their ownership and actively participated in the business operation for at least the past 24 months and the selling owner will not retain any ownership interest in the business directly or indirectly including through other entities or trusts or property rights.

(3) Purchase and installation of machinery and equipment.

(4) Startup costs, working capital, inventory, and supplies in the form of a permanent working capital term loan.

(5) Pollution control and abatement.

(6) Purchase of membership, stocks, bonds, or debentures necessary to obtain a loan from a member owned lending institution provided the purchase is required for all their borrowers and is the minimum amount required.

(7) Agricultural production, when not eligible for Farm Service Agency (FSA) farm loan programs assistance and when it is part of an integrated business also involved in the processing of agricultural products. Any agricultural production considered for guaranteed loan financing must be owned, operated, and maintained by the business receiving the guaranteed loan. Examples of potentially eligible agricultural production include but are not limited to an apple orchard in conjunction with a food processing plant; poultry buildings linked to a meat processing operation; or sugar beet production coupled with storage and processing.

(i) The agricultural production portion of any loan must not exceed 50 percent of the total loan or $5 million, whichever is less.

(ii) The limitations in paragraph (b)(7)(i) do not apply to the following types of businesses:

(A) Commercial nurseries engaged in the production of ornamental plants, trees, and other nursery products, such as bulbs, flowers, shrubbery, flower and vegetable seeds, sod, and the growing of plants from seed to the transplant stage;

(B) Forestry, which includes businesses primarily engaged in the operation of timber tracts, tree farms, forest nurseries, harvesting of forest products, and related activities, such as reforestation;

(C) The growing or harvesting of mushrooms;

(D) The growing of hydroponics;

(E) The boarding and/or training of animals;

(F) Commercial fishing; and

(G) Production of algae and aquaculture, including conservation, development, and utilization of water for aquaculture.

(8) Tourist and recreation facilities, including hotels, motels, bed and breakfast establishments, and resort trailer parks and campgrounds operated as a public or private commercial enterprise. Owner-occupied housing, such as bed and breakfasts, hotels and motels are only allowed when the pro rata value of a direct owner's living quarters, based on square footage, is deducted from the use of loan proceeds.

(9) Educational or training facilities including other CF projects when not eligible for financing through Rural Housing Service or Community Facilities programs.

(10) Development and construction of broadband and telecommunication systems, including modification of existing systems, that are not otherwise eligible for funding in the RUS program or if funding is unavailable in the RUS program, subject to the public notice filing requirements of 7 CFR 1738.106(a) and the additional reporting requirements of 7 CFR 1738.107.

(11) Industries undergoing adjustment from terminated Federal agricultural price and income support programs or increased competition from foreign trade.

(12) Constructing or equipping facilities for lease to private businesses engaged in commercial or industrial operations.

(13) Financing for mixed-use properties involving both commercial business and residential space is authorized, provided that not less than 50 percent of the business's projected revenue will be generated from business use.

(14) Leasehold improvements when the lease contains no reverter clauses or restrictive clauses that would impair the use or value of the property as security for the loan. The term of the lease must be equal to or greater than the term of the loan. Leasehold improvements are physical enhancements made to property by or on behalf of the property's lessee. When improvements are made to real property and those improvements are permanently affixed to the property, the title to those improvements automatically transfers to the owner of the property upon termination of the lease.

(15) Projects that process, distribute, aggregate, store, and/or market locally or regionally produced agricultural food products to support community development and farm and ranch income.

(i) Subject to each of the following, projects may be located in non-rural areas as well as in rural areas if the project:

(A) Expands or preserves the availability of staple food in underserved areas with moderate and low-income populations by maintaining or increasing the number of retail or institutional outlets that offer an assortment of healthy perishable foods and staple food items;

(B) The project will create or retain quality jobs for low-income residents of the community;

(C) A significant amount of the food is locally or regionally produced and sold; and

(D) Includes an appropriate agreement with retail and institutional clients to inform consumers that they are purchasing or consuming locally or regionally produced agricultural food products. The agreement(s) must be in place prior to issuance of the loan note guarantee and stated as part of the lender's certification at loan closing.

(ii) The Agency will give funding priority to projects that provide a benefit to underserved communities in accordance with § 5001.318(d)(5) of this part.

(16) The purchase of cooperative stock by individual farmers or ranchers in a farmer or rancher cooperative or the purchase of transferable cooperative stock in accordance with § 5001.140(a) and (b); or the purchase of stock in a business by employees forming an ESOP or worker cooperative in accordance with § 5001.140(d).

(17) The purchase of preferred stock or similar equity issued by a cooperative or a loan to a fund that invests primarily in cooperatives in accordance with § 5001.140(c).

(18) Loans to cooperatives:

(i) Guaranteed loans to eligible cooperatives may be made in principal amounts up to $40 million if the project is located in a rural area, the cooperative facility being financed provides for the value-added processing of agricultural commodities, and the total amount of guaranteed loans exceeding $25 million does not exceed 10 percent of the funds available for the fiscal year. Guaranteed loans in excess of $25 million in accordance with this provision may only be approved by the Secretary, whose authority may not be redelegated.

(ii) Guaranteed loans to eligible cooperatives may also be made in non-rural areas provided:

(A) The primary purpose of the guaranteed loan is for a facility to provide value-added processing for agricultural producers that are located within 80 miles of the facility;

(B) The borrower satisfactorily demonstrates that the primary benefit of the guaranteed loan will be to provide employment for rural residents;

(C) The principal amount of the guaranteed loan does not exceed $25 million; and

(D) The total amount of guaranteed loans guaranteed under this paragraph does not exceed 10 percent of the funds available for the fiscal year.

(iii) An eligible cooperative may refinance an existing B&I guaranteed loan if the existing loan is current and performing, the existing loan is not and has not been in monetary default or the collateral has not been converted, and there is adequate security and collateral for the new guaranteed loan.

(19) Taxable corporate bonds when the bonds are fully amortizing and comply with all provisions of this part, bond proceeds were used for an eligible purpose in this part, and the lender as bond holder retains the percent of the bond in accordance with § 5001.408(3)(i) of this part. The bonds must be fully secured with collateral in accordance with § 5001.202(b)(4) of this part. The bonds must only provide for a trustee when the trustee is totally under the control of the lender. The bonds must provide no rights to bond holders other than the right to receive the payments due under the bond. For instance, the bonds must not provide for bond holders replacing the trustee or directing the trustee to take servicing actions, such as accelerating the bonds. In accordance with § 5001.127(f), convertible bonds are not eligible under this paragraph due to the potential conflict of interest of a lender having an ownership interest in the borrower. An explanation of the type of bond and other bond stipulations must be attached to the bond.

(i) The bond issuer must obtain the services and opinion of an experienced bond counsel, who must present a legal opinion stating that the bonds are legal, valid, and binding obligations of the issuer and that the issuer has adhered to all applicable laws.

(ii) The bond holder (lender) must purchase all the bonds issued pursuant to the guaranteed and comply with all Agency regulations. There must be a bond purchase agreement between the issuer and the bond holder. The bond purchase agreement must contain similar language to that required in a loan agreement and must not conflict with this part. The bond holder is responsible for all servicing of the guaranteed loan evidenced by the bond, although the bond holder may contract for servicing assistance, including contracting with a trustee who remains under the lender's total control.

(20) Nursing homes and assisted living facilities where constant medical care is provided and available onsite to the residents. Independent living facilities are not eligible in accordance with § 5001.118(a). Independent living facilities are considered residential property as they have many similarities to a multi-family housing complex, whereas nursing home and assisted living facility tenants rely on those entities to provide needed personal or medical care. Properties consisting of both assisted care facilities and independent senior living may be eligible if the availability of the on-site medical services is an optional service to the independent living residents, or if the predominant residents of the facility require assisted living care.

(21) Development and construction of RES, including modification of existing systems that are commercially available and that are not otherwise eligible under REAP, or if funding is not available in the REAP program.

(22) Integrated processing equipment and systems, such as biorefineries, renewable energy systems, and chemical manufacturing facilities, must utilize commercially available technology, equipment, and systems and demonstrate technical merit. The Agency will evaluate the following areas in making the technical merit determination:

(i) Qualifications of the project team;

(ii) Agreements and permits;

(iii) Resource assessment;

(iv) Design and engineering;

(v) Project development;

(vi) Equipment procurement and installation; and

(vii) Operations and maintenance. The demonstration of technical merit is the completion of two operating cycles at its designed production level. ''Operating cycle'' is the average time between the acquisition of materials or the providing of services and the final cash realization of that acquisition or provision of services.

(c) *Facility location.* The project must be located in a rural area, except for loans to cooperative in accordance with paragraph (b)(18)(ii) of this section and for loans to local foods projects in accordance with paragraph (b)(15)(i) of this section where such

projects may also be located in non-rural areas. For an eligible project that located in both rural and non-rural areas, the Agency will guarantee only the amount necessary to finance that portion of the project located in the eligible rural area.

(d) *Capital and equity*. Borrowers are required to have sufficient capital or equity to mitigate the ongoing financial and operational risks of the business. The capital/equity requirement must be met in the form of either cash or earning assets contributed to the business and reflected on the borrower's balance sheet. Transfers of assets at fair market value between related parties, which are not arm's length transactions, must be in accordance with GAAP and require evidence that the transaction was entered into at market terms. Equity cannot include appraisal surplus or bargain purchase gains. Subordinated debt may be included when the subordinated debt is in exchange for cash injected into the business that remains in the business for the life of the guaranteed loan. The note or other form of evidence must be submitted to the Agency in order for subordinated debt to count towards meeting the balance sheet equity requirement. Balance sheet equity will be determined based upon current and projected borrower financial statements. A balance sheet as of loan closing is required and should reflect the new debt and use of proceeds. If there are multiple borrowers, consolidated financial statements should be presented. The following capital and equity requirements must be met at the time of lender's closing of the guaranteed loan.

(1) Existing businesses must meet one of the following requirements:

(i) A minimum of 10 percent balance sheet equity (including subordinated debt when subject to a standstill agreement for the life of the loan), or a maximum debt-to-balance sheet equity ratio of 9 to 1, at loan closing;

(ii) A 10 percent or more of total eligible project costs, borrower investment of equity or other funds into the project including grants or subordinated debt when subject to a standstill agreement for the life of the loan;

(iii) Owner contributed capital, as reflected in the equity section of the balance sheet, that is equal to or greater than 10 percent of net total fixed assets plus depreciation.

(2) New businesses with sales contract(s) with proceeds in an amount adequate to meet debt service and the term of the sales contract(s) are at least equal to the term of the guaranteed loan, and subject to Agency acceptance of the credit worthiness of the counterparty, the borrower must meet one of the following requirements:

(i) A minimum of 10 percent balance sheet equity (including subordinated debt when subject to a standstill agreement for the life of the loan), or a maximum debt-to-balance sheet equity ratio of 9 to 1 at loan closing; or

(ii) Borrower investment of equity or other funds (including subordinated debt when subject to a standstill agreement for the life of the loan and grants) into the project in an amount of 10 percent or more of total eligible project cost;

(3) New businesses with a project involving construction and when the lender will request the loan note guarantee prior to completion of construction must meet one of the following requirements:

(i) A minimum of 25 percent balance sheet equity (including subordinated debt when subject to a standstill agreement for the life of the loan), or a maximum debt-to-equity ratio of 3 to 1, at guaranteed loan closing; or

(ii) Borrower investment of equity or other funds (including subordinated debt when subject to a standstill agreement for the life of the loan and grants) into the project in an amount of 25 percent or more of total eligible project cost;

(4) All other borrowers that are new businesses must meet one of the following requirements:

(i) A minimum of 20 percent balance sheet equity (including subordinated debt when subject to a standstill agreement for the life of the loan), or a maximum debt-to-equity ratio of 4 to 1, at guaranteed loan closing, or;

(ii) Borrower investment of equity or other funds (including subordinated debt when subject to a standstill agreement for the life of the loan and

grants) into the project in an amount of 25 percent or more of total eligible project cost;

(5) Variances in capital and equity requirements:

(i) *Increases.* The Agency may increase the capital or equity requirement specified under paragraphs (d)(1) through (4) of this section for guaranteed loans the Agency determines carry a higher risk. In determining whether a project or guaranteed loan carries a higher risk, the Agency will consider the current status of the industry, concentration of the industry in the Agency's portfolio, collateral coverage, value of personal or corporate guarantees, cash flow, and contractual relationships with suppliers and buyers; credit rating of the borrower; and the strength of the feasibility study and experience of management. The Agency may also increase the capital or equity requirement for new businesses using integrated processing equipment and systems such as biorefineries, renewable energy systems, chemical manufacturing facilities, and businesses producing new products to sell into new and emerging markets.

(ii) *Reductions.* The Agency may reduce the minimum equity requirement for an existing business when personal or corporate guarantees are obtained in accordance with § 5001.204 of this part; and all pro forma statements indicate the business to be financed meets or exceeds the median quartile (as identified in the Risk Management Association's Annual Statement Studies or similar publication) for the current ratio, quick ratio, debt-to-worth ratio, and debt service coverage ratio.

(6) Certification: The lender must certify that, as of the date the guaranteed Loan was closed, its credit analysis indicated that the borrower had sufficient capital or equity to mitigate the financial and operational risks of the business, and that the borrower met the minimum equity required by the Agency in its conditional commitment, or that the minimum borrower capital contribution toward project costs, as applicable and required by the Agency, was met. A copy of the borrower's loan closing balance sheet must be included with the lender's certification.

TABLE 1 TO § 5001.105(d)—CAPITAL EQUITY REQUIREMENTS SUMMARY

Borrower	Borrower must meet one of the following at the time of the closing of the guaranteed loan:		
	Percent balance sheet equity:	Borrower investment as percent of total eligible project cost:	Balance sheet equity includes owner contributed capital as percentage of total fixed assets:
Existing Business	≥10	≥10	≥10
Borrowers that are new businesses with sales contract(s) adequate to meet debt service and the term of the sales contract(s) are at least equal to the term of the guaranteed loan.	≥10	≥10	N/A
Borrowers that are new businesses for a project involving construction and the lender will request the loan note guarantee prior to completion of construction.	≥25	≥25	N/A
All other borrowers that are new businesses	≥20	≥25	N/A

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70355, Dec. 10, 2021; 89 FR 79710, Sept. 30, 2024; 90 FR 57351, Dec. 11, 2025]

§ 5001.106 Eligible REAP—Renewable Energy System (RES) projects and requirements.

For a REAP RES project to be eligible for a loan guarantee under this part, it must meet the criteria specified in § 5001.102(a) through (c) and in paragraphs (a) through (e) of this section and be for a borrower eligible to submit an application for the project in accordance with § 5001.126. If taxable bonds are utilized as debt instruments the provisions of § 5001.105(b)(19) must be met.

(a) The project must be for—

(1) The purchase of a new or existing RES;

(2) The purchase of a refurbished RES; or

(3) The retrofitting of an existing RES.

(4) For the purposes of this section, only those hydroelectric sources with a rated power of 30 megawatts or less are an eligible RES.

(b) The RES project must use commercially available technology.

(c) The RES project must be located in a rural area unless the borrower is an agricultural producer and the application supports the production, processing, vertical integration, or marketing of agricultural products. If the agricultural producer's operation is in a non-rural area, then the application can only be for RES components that are:

(1) Directly related to, and their use and purpose is limited to the agricultural production operation, such as vertically integrated operations; and

(2) Part of and co-located with the agricultural production operation.

(d) Where a residence is closely associated with an agricultural operation or rural small business to be served by the RES project, 50 percent or more of the energy to be generated by the RES project must be used by the agricultural operation or rural small business. This provision must be documented with the application and can be demonstrated using either of the methods identified in paragraphs (d)(1) and (2) of this section.

(1) Provide a renewable energy site assessment or other documentation and calculations that demonstrate based on historical energy use that 50 percent or more of the energy to be produced by the RES project will be used in the agricultural operation or rural small business. This includes documentation on historical residential energy use. The Agency may request additional data to determine residential versus business or agricultural operation usage. The actual percentage of energy determined to benefit the rural small business or agricultural operation will be the basis to determine eligible project costs.

(2) The borrower may install or elect to conditionalize funding upon the installation of a device (such as a second meter) that results in 100 percent of the energy generated by the RES project to be used only by the agricultural operation or rural small business.

(e) The RES project must have technical merit. The Agency will use the information provided in the technical report submitted with the application (see § 5001.307(e) of this part) to determine if the project has technical merit. In making this determination, the Agency may engage the services of other Government agencies or other recognized industry experts in the applicable technology field, at its discretion, to evaluate the technical report.

(1) *Technical report areas.* When making its technical merit determination, the Agency will evaluate the technical report using the areas specified in paragraphs (e)(1)(i) through (iii) of this section as applicable.

(i) *RES projects with total project costs of $80,000 or less.* For these projects, the Agency will evaluate the following areas in making the technical merit determination:

(A) Project description;

(B) Resource assessment;

(C) Project economic assessment; and

(D) Qualifications of key service providers.

(ii) *RES projects with total project costs of less than $200,000, but more than $80,000.* For these projects, the Agency will evaluate the following areas in making the technical merit determination:

(A) Project description;

(B) Resource assessment;

(C) Project economic assessment;

(D) Project construction and equipment; and

(E) Qualifications of key service providers.

(iii) *RES projects with total project costs of $200,000 and greater.* For these projects, the Agency will evaluate the following areas in making the technical merit determination:

(A) Qualifications of the project team;

(B) Agreements and permits;

(C) Resource assessment;

(D) Design and engineering;

(E) Project development;

(F) Equipment procurement and installation; and

(G) Operations and maintenance.

(2) *Pass/pass with conditions/fail assignments.* The Agency will assign each area of the technical report, as specified in paragraph (e)(1) of this section, a ''pass,'' ''pass with conditions,'' or ''fail.'' An area will receive a ''pass'' if the information provided for the area has no weaknesses and meets or exceeds any requirements specified for the area. An area will receive a ''pass with conditions'' if the information provided for the area has minor weaknesses which could be conditioned and reasonably resolved by the borrower. Otherwise, if the information provided for the area is conclusively deemed to be a major weakness, or if the area has not been addressed by the applicant, the area will receive a fail.

(3) *Determination.* The Agency will compile the results for each area of the technical report to determine if the project has technical merit.

(i) A project whose technical report receives a ''pass'' in each of the applicable areas will be considered to have ''technical merit.''

(ii) A project whose technical report receives a ''pass with conditions'' in one or more the applicable areas will be considered to have ''conditional technical merit.''

(iii) A project whose technical report receives a ''fail'' in any one area will be considered to be ''without technical merit.''

(4) *Further processing of applications.* A project that is determined to have ''technical merit'' or ''conditional technical merit'' is eligible for further consideration for funding. Projects with ''conditional technical merit'' would be subject to funding conditions that would need to be met to ensure full technical merit prior to completion of the project. A project that is determined to be ''without technical merit'' is not eligible to compete for funding.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79711, Sept. 30, 2024; 90 FR 57352, Dec. 11, 2025]

§ 5001.107 REAP—Energy Efficiency Improvement (EEI) projects and requirements.

For a REAP EEI project to be eligible for a loan guarantee under this part, it must meet the criteria specified in § 5001.102(a) through (c) and also specified in paragraphs (a) through (d) of this section and be for a borrower eligible to submit an application for the project in accordance with § 5001.126. If taxable bonds are utilized as debt instruments the provisions of § 5001.105(b)(19) must be met.

(a) The EEI project must use less energy on an annual basis than the original building and/or equipment that it will improve or replace as demonstrated in an energy assessment or energy audit as applicable.

(1) If the project's total project cost is greater than $80,000, the energy assessment must be conducted by an energy auditor, an energy assessor, or an individual supervised by either an energy assessor or energy auditor. The final energy assessment must be validated and signed by the energy assessor, the energy auditor who conducted the energy assessment, or by the supervising energy assessor or energy auditor of the individual who conducted the assessment, as applicable.

(2) If the project's total project cost is $80,000 or less, the energy assessment may be conducted in accordance with paragraph (a)(1) of this section or by a person that has at least 3 years of experience and completed at least five energy assessments or energy audits on similar type projects. Eligible EEI include, but are not limited to:

(i) Efficiency improvements to existing RES; and

(ii) Construction of a new building only when the new building is used for the same purpose as the existing building and if, based on an energy assessment or energy audit, as applicable, it is more cost effective to construct a new building that will use less energy on annual basis than to improve the energy efficiency of the existing building.

(b) The EEI project must be for a commercially available technology.

(c) The EEI project must be located in a rural area unless the borrower is

an agricultural producer and the Application supports the production, processing, vertical integration, or marketing of agricultural products. If the agricultural producer's operation is in a non-rural area, then the application can be for only EEI components that are:

(1) Directly related to and have a use and purpose limited to an agricultural production operation such as vertically integrated operations; and

(2) Part of and co-located within the agricultural production operation.

(d) The EEI project must have technical merit. The Agency will use the information provided in the technical report submitted with the application (see § 5001.307(e)) to determine whether the project has technical merit. In making this determination, the Agency may, at its discretion, engage the services of other Government agencies or other recognized industry experts in the applicable technology field to evaluate and rate the technical report.

(1) *Technical report areas.* When making its technical merit determination, the Agency will evaluate the technical report using the areas specified in paragraphs (d)(1)(i) and (ii) of this section as applicable.

(i) *EEI project with total project costs of $80,000 or less.* For these projects, the Agency will evaluate the following areas to determine the technical merit:

(A) Project description;

(B) Qualifications of EEI provider(s); and

(C) Energy assessment (or energy audit if applicable).

(ii) *EEI projects with total project costs of greater than $80,000.* For these projects, the Agency will evaluate the following areas to determine the technical merit:

(A) Project information;

(B) Energy assessment (or energy audit as applicable); and

(C) Qualifications of the contractor or installers.

(2) *Pass/pass with conditions/fail assignments.* The Agency will assign each area of the technical report, as specified in paragraph (d)(1) of this section, a ''pass,'' ''pass with conditions,'' or ''fail'' according to provisions of § 5001.106(e)(2).

(3) *Determination.* The Agency will compile the results for each area of the technical report to determine if the project has technical merit in accordance with provisions of § 5001.106(e)(3).

(4) *Further processing of applications.* Projects will be further processed in accordance with provisions of § 5001.106(e)(4).

[85 FR 42518, July 14, 2020, as amended at 89 FR 79711, Sept. 30, 2024]

§ 5001.108 Eligible REAP—Energy Efficient Equipment and Systems (EEE) projects and requirements.

For a REAP EEE project to be eligible for a loan guarantee under this part, it must meet the criteria specified in § 5001.102(a) through (c) and in paragraphs (a) through (d) of this section and be for a borrower that is an agricultural producer eligible to submit an application for the project in accordance with § 5001.126. The EEE project can be located in a rural or non-rural area as long as the energy efficient equipment or systems are used for agricultural production or processing in accordance with paragraph (a) of this section. If the borrower plans to use taxable bonds as debt instruments the provision § 5001.105(b)(19) must be met.

(a) The project must be for the purchase and installation of energy efficient equipment or systems for agricultural production or processing that exceed the following standards:

(1) Energy efficiency building codes, if available;

(2) Federal or State energy efficiency standards, if available; and

(3) Other energy efficiency standards determined appropriate by the Secretary.

(i) If no codes or standards described in such subparagraph apply to the energy efficient equipment or system to be purchased or installed pursuant to such subparagraph, the Secretary shall require, to the maximum extent practicable, such equipment or systems to meet the same efficiency measurements as the most efficient available equipment or system in the market; and

(ii) The Secretary shall not provide such a loan guarantee for the purchase or installation of any energy efficient

equipment or system unless more than one type of such equipment or system is available in the market.

(b) The EEE project must be for commercially available technology.

(c) The EEE project must have technical merit as certified by the vendor/installer. An application that does not include said certification will be deemed incomplete and therefore is not eligible to compete for funding.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79712, Sept. 30, 2024]

§§ 5001.109–5001.114 [Reserved]

§ 5001.115 Ineligible projects—general.

The Agency will not issue a loan guarantee under this part for any of the projects identified in this section, unless otherwise noted. The following are ineligible projects for the CF, WWD, B&I and REAP programs:

(a) Any investment or arbitrage, or any speculative real estate investment other than cooperative stock, transferable stock, cooperative equity in accordance with § 5001.140 and NMTC projects in accordance with § 5001.141.

(b) Golf courses and golf course infrastructure, including par-3 and executive golf courses; racetracks or facilities for the conduct of races by animals, professional or amateur drivers or jockeys; for-profit zoos or safaris; and publicly-owned or non-profit amusement parks, water parks, and similar recreational type facilities inherently commercial in nature and primarily used for recreational purposes.

(c) Motion pictures and theatrical productions.

(d) Funding of political or lobbying activities.

(e) Guaranteeing loans made by other Federal agencies, lines of credit, or lease payments.

(f) Projects that the Agency determines create, directly or indirectly, a conflict of interest.

(g) Properties to be used for primarily commercial rental when the borrower has no control over tenants and services offered, except for industrial-site infrastructure development.

(h) Projects that utilize technology, equipment, or systems that are not commercially available.

(i) Projects that will violate the requirements of 7 CFR part 1970, or any statutes or Executive Orders regarding environmental requirements.

(j) Projects used primarily for the purpose of housing Federal, State, or quasi-Federal agencies, unless it is typical of the area for communities to provide this space.

(k) Community antenna television and radio services or facilities.

(l) Telephone systems. In certain circumstances, when not eligible for assistance through the Agency's telecommunications program these projects may be eligible for assistance under this part.

(m) New combined sanitary and storm water sewer facilities.

(n) Except as provided in § 5001.105(b)(8), owner-occupied housing. Owner-occupied housing, such as bed and breakfasts, and hotels and motels, are only eligible when the pro-rata value of the owner's living quarters, based on square footage, is deducted from the loan proceeds.

(o) Loans on which the interest is excludable from income under current or a successor statute of the Internal Revenue Code. Funds generated through the issuance of tax-exempt obligations cannot be used to purchase the guaranteed portion of any Agency guaranteed loan and an Agency guaranteed loan cannot serve as collateral for a tax-exempt issue.

(p) Residential EEI projects.

(q) Except as provided in § 5001.106(d), residential RES projects.

(r) Loans supporting inherently religious activities, such as worship, religious instruction, proselytization, or to pay costs associated with acquisition, construction, or rehabilitation of structures for inherently religious activities, including the financing of multi-purpose facilities where religious activities will be among the activities conducted. However, religious organizations may participate in projects eligible for funding under section 306(a)(24) of the Consolidated Farm and Rural Development Act, 7 U.S.C. 1926(a)(24), provided they do not use Agency assistance for inherently religious activities in accordance with 7 CFR part 16, ''Equal Opportunity for

Religious Organizations.'' If an organization conducts religious activities, they must be offered separately, in time, or location from programs or services supported with the guaranteed loan. Participation in the religious activities must be voluntary, and not mandatory, for the beneficiaries of the program or services. Religious organizations may not discriminate against a beneficiary or prospective beneficiary, on the basis of religion or religious beliefs. Sanctuaries, chapels, or other rooms that are used as a principal place of worship are ineligible for guaranteed financing under this part.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70356, Dec. 10, 2021; 89 FR 79712, Sept. 30, 2024]

§ 5001.116 Ineligible CF projects.

The following are ineligible projects for the CF program only:

(a) For industrial park sites, the financing of on-site utility systems or business and industrial buildings.

(b) Inherently commercial enterprises: This type of project is typically operated by a private enterprise with an essential characteristic to produce profits. This term does not include projects operated by private enterprises on a not-for-profit basis that provide education, childcare, geriatric care, or health care to rural communities. Inherently commercial enterprises include but are not limited to: grocery stores; television and radio services or facilities; that portion of a water and/or waste disposal facility normally provided by a business or industrial user; and telecommunication facilities or services, including broadband or fiber network services that do not meet the requirements of § 5001.103(a)(6). See § 5001.103(d) for the eligibility of a commercial enterprise leasing space in an eligible project;

(c) Projects where construction is completed prior to filing an application with the Agency. This restriction applies to construction completed by or for the borrower and does not preclude the purchase or acquisition of a building constructed by an independent third party or refinancing of debt in accordance with § 5001.102(d).

(d) Projects where the borrower acts to circumvent the regulations provided in this subpart, causing the borrower or project being eligible when, previously, the borrower or project was ineligible.

(e) Projects involving the purchase of existing facilities in which the transaction's purpose is to primarily retire the debt of the seller in order for the seller to continue to use the facility at a lower cost. Characteristics of ineligible purchase transactions may include the following:

(1) An entity, which may or may not be an eligible CF borrower, forms a new eligible entity or uses an existing eligible related entity to purchase all or part of its assets;

(2) The new entity uses CF guaranteed loan funds to purchase the assets at the agreed upon price and leases the assets back to the seller, generally at a rate which equates to the new debt payments; and

(3) The seller uses the proceeds of the sale to retire its high-cost debt and continues to use the facilities at a lower cost.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79712, Sept. 30, 2024]

§ 5001.117 Ineligible WWD projects.

The following are ineligible projects for the WWD programs only:

(a) That portion of a project normally provided by a business or industrial user, such as wastewater pretreatment.

(b) Provided the existing borrower has the capacity to provide adequate service to their service territory, guaranteed loan funds may not be used to take away customers or service areas of existing USDA WWD Program direct or guaranteed loan borrowers. The requirements and limitations of 7 U.S.C. 1926(b) only apply to this section.

(c) Projects where the borrower acts to circumvent the regulations provided in this subpart, causing the borrower or project being eligible when, previously, the borrower or project was ineligible.

(d) Projects involving the purchase of existing facilities in which the transaction's purpose is to primarily retire the debt of the seller in order for the seller to continue to use the facility at a lower cost.

§ 5001.118 Ineligible B&I projects.

The following are ineligible projects for the B&I program only:

(a) The financing of timeshares, residential trailer parks, apartments, duplexes, or other residential housing where the primary purpose is independent housing except as authorized in § 5001.105(b)(8), or housing development sites except as authorized in § 5001.105(b)(1).

(b) Projects eligible for funding under B&I that are in excess of $1 million that would either:

(1) Likely result in the transfer of jobs from one area to another and increase direct employment by more than 50 employees. However, this limitation is not to be construed to prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate, or subsidiary of such entity if the establishment of such branch, affiliate, or subsidiary will not result in an increase in unemployment in the area of original location or in any other area where such entity conducts business operations. An exception is when there is reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area or its original location or in any other area where it conducts such operations; or

(2) Increase direct employment by more than 50 employees, which is calculated to or likely to result in an increase in the production of goods, materials, commodities, or the availability of services or facilities in the area when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020]

§ 5001.119 Ineligible REAP projects.

Owner occupied bed and breakfasts are ineligible projects in the REAP program.

§ 5001.120 [Reserved]

§ 5001.121 Eligible uses of loan funds.

Guaranteed loan funds can only be used for the items specified in this section and any other items the Agency identifies in the FEDERAL REGISTER. In addition, RD may allow a recipient of a loan guarantee under this part to use up to 10 percent of project funds to construct, improve, or acquire broadband infrastructure subject to the requirements of 7 CFR part 1980, subpart M.

(a) *CF projects.* Guaranteed loan funds for an essential CF project receiving a loan guarantee under § 5001.1 may be used to pay the expenses identified in paragraphs (a)(1) through (3) of this section.

(1) When necessary to ensure the successful operation or protection of the project authorized in § 5001.103, subpart B:

(i) Costs for the construction or relocation of public buildings, roads, bridges, fences, utilities, or to make other public improvements; and

(ii) Costs for the relocation of private buildings, roads, bridges, fences, or utilities, and other private improvements.

(2) To pay the cost of conduit, such as pipe, tube, or tile for protecting electric wires or cables, and its installation in conjunction with financing facilities authorized in § 5001.103, when the cost of the conduit is less than 25 percent of the total project cost and the conduit is not essential to the operation of the eligible essential facility or service to be financed. The borrower must be the owner of the conduit. The conduit must be installed at the time of project construction and must be for public use. A project example is construction of a road. While work is being completed in preparation for the eligible road project, the borrower takes advantage of the construction to install underground conduit in anticipation of installing fiber optic cables in the near future.

(3) When necessary as part of a guaranteed loan to finance a project:

(i) Guarantee fees, as determined under § 5001.454;

(ii) Lender fees, as provided in § 5001.403;

(iii) Professional service fees and charges provided the Agency agrees that the amounts are reasonable and customary in the area;

(iv) Interest on guaranteed loans until the facility is self-supporting, but not for more than three years; interest on guaranteed loans secured by general obligation bonds until tax revenues are available for payment, but not for more than two years; and when the borrower obtains interim financing for the eligible project, the guaranteed loan proceeds may be used to pay off the interim financing as well as the interest on interim financing;

(v) Costs of acquiring interests in land, rights (*e.g.*, water rights, leases, and permits), rights-of-way, and other evidence of land or water control necessary for development of the project;

(vi) Costs of purchasing or renting equipment necessary to install, maintain, extend, protect, operate, or utilize facilities;

(vii) Obligations for construction worked performed prior to filing an Application with the Agency. Construction work must not be started (and obligations for such work or materials must not be incurred) before the conditional commitment is issued. If there are compelling reasons for proceeding with construction before the conditional commitment is issued, lenders may request Agency approval to pay such obligations and not jeopardize receipt of a loan guarantee from the Agency. Such request must comply with the following conditions:

(A) Provide conclusive evidence that the contract was entered into without intent to circumvent the Agency regulations, including but not limited to 7 CFR part 1970;

(B) Modify the outstanding contract to conform to the provisions of this part. When this is not possible, modifications will be made to the extent practicable and, at a minimum, the contract must comply with all State and local laws and regulations as well as statutory requirements and Executive Orders related to the Agency guarantee.

(C) When construction is complete and it is impracticable to modify the contract, the borrower and lender must provide a certification by an engineer or architect that any construction performed complies fully with the plans and specifications; and

(D) The borrower and the contractor must have complied with all statutory and Executive Order requirements related to the Agency guarantee for construction already performed even though the requirements may not have been included in the contract documents.

(4) Refinancing in accordance with §5001.102(d).

(b) *WWD projects.* Guaranteed loan funds for a WWD project receiving a loan guarantee may be used to pay the following:

(1) Constructing, extending, or otherwise improving an eligible facility outlined in §5001.104(a), and may include the cost of materials and labor in addition to the following:

(i) Cost of acquiring interests in land, rights (*e.g.*, water rights, leases, permits, rights-of-way), and other evidence of land or water control or protection necessary for development of the project.

(ii) Purchasing or renting equipment necessary to construct, or extend the facility services, for owner construction.

(iii) Cost of additional borrower labor and other expenses necessary to install, extend, or protect the facility.

(iv) Interest incurred during construction in conjunction with interim financing, and the payoff of the interim loan with the permanent financing.

(v) Initial operating expenses, including interest, for a period ordinarily not exceeding one year when the borrower is unable to pay such expenses, for construction of a new facility. The lender must provide justification and the Agency must document the reason for granting the longer time.

(vi) Professional service fees and charges provided the Agency approves the amounts as reasonable and customary in the area.

(vii) Water reuse, renewable energy, and other construction projects to improve the sustainability or resilience of an eligible facility.

(2) Stand-alone projects not involving construction may also be made for the following purposes:

(i) Costs of acquiring interests in land, rights (*e.g.,* water rights, leases, permits, rights-of-way), and other evidence of land or water control or protection necessary for the maintenance or operation of the facility.

(ii) Purchase of equipment to operate, maintain, or protect facilities, such as computers, generators, vehicles, backhoes, meters, pipe, and pumps, etc. The purchase of equipment must include installation and not be for the sole purpose of increasing inventory. Owner construction or installation is an option.

(iii) The purchase or acquisition of existing facilities when it is necessary either to improve service or prevent the loss of service.

(iv) The purchase and installation of RESs for use by an eligible facility (even if it does not include construction).

(v) Planning, studies, and designs for incorporating renewable energy or water reuse, or to improve the sustainability or resilience of an eligible facility.

(vi) The Agency may allow a recipient of a loan guarantee under this part to use up to 10 percent of project funds to construct, improve, or acquire broadband infrastructure subject to the requirements of 7 CFR part 1980, subpart M.

(vii) Professional service fees for engineering and environmental services that provide services for preplanning evaluation procedures, such as leak detection, or inflow and infiltration analysis, as reasonable and customary in the area to evaluate an existing facility's need for improvements or repairs. Such services will be in accordance with professional service agreements with copies of analysis to be provided in the application package for such reports as preliminary engineering report, final design with plans and specifications, bidding documents, or the completed environmental review analysis.

(viii) Refinancing in accordance with § 5001.102(d).

(3) Other expenses related to any project under (b)(1) and (2), including:

(i) Guarantee fees, as determined under § 5001.454.

(ii) Lender fees, as provided in § 5001.403.

(iii) Payoff of interim financing including principal and interest.

(c) *B&I projects.* Guaranteed loan funds for a project receiving a loan guarantee under § 5001.1 may be used to pay the expenses identified in paragraphs (c)(1) through (12) of this section.

(1) Purchase and development of land, buildings, and associated infrastructure for commercial or industrial properties, including expansion or modernization.

(2) Business acquisitions provided that jobs will be created or saved. A business acquisition is considered the acquisition of an entire business, not a partial stock acquisition in a business. However, acquisition or change of ownership between existing owners is an eligible use of loan funds when the remaining owner(s) held their ownership and actively participated in the business operation for at least the past 24 months and the selling owner will not retain any ownership interest in the business directly or indirectly including through other entities or trusts or property rights.

(3) Purchase of machinery and equipment.

(4) Startup costs, working capital, inventory, and supplies in the form of a permanent working capital term loan.

(5) Pollution control and abatement.

(6) Takeout of interim financing: Guaranteeing a loan that provides for permanent, long-term financing after project completion to pay off a lender's interim loan will not be treated as debt refinancing provided that the lender submits a complete request for preliminary eligibility review or complete application that proposes such interim financing prior to closing the interim loan. The borrower must take no action until the conclusion of the environmental review process prior to any action that would have an adverse effect on the environment or limit the choices of any reasonable alternatives to be considered by the Agency. Interim financing is typically used to pay costs associated with a planned project, such as construction or installation of equipment, however, the Agency will consider, on a case-by-case

basis, other reasons to use interim financing. The term for interim financing loans should be for the construction period plus a reasonable time for the business to begin generation of working capital to amortize the loan. Guaranteed promissory notes that do not convert the interim financing payment schedule to an amortizing permanent schedule in the same note are not allowed. In certain cases, the applicant lender may use interim financing to pay-off a borrower's maturing loan with another lender if it is in the best interests of the borrower. The takeout of interim financing is only eligible when the permanent loan on which the guarantee will be placed takes out the interim financing that financed the planned project and when the lender submits a complete preliminary eligibility review or application to the Agency that proposes the interim financing prior to closing the interim loan. If the interim financing does not meet these requirements, it is considered debt refinancing and must comply with § 5001.102(d). If the guarantee is issued prior to construction, the promissory note must contain and convert the terms of the interim financing to permanent financing. The Agency will not guarantee takeout of interim financing loans that prevent a meaningful environmental assessment prior to Agency loan approval. Even for projects with interim financing, the Agency cannot approve the loan nor issue a conditional commitment until the environmental process is complete. The Agency assumes no responsibility or obligation for interim loans.

(7) Guarantee fees, as determined under § 5001.454.

(8) Lender fees, as determined under § 5001.403.

(9) Professional service fees and charges, provided the Agency approves the amounts as reasonable and customary in the area and fees for construction permits and licenses.

(10) Feasibility studies and business plans.

(11) Interest (including interest on interim financing) during the period before the first principal payment becomes due or when the facility becomes income producing, whichever is earlier.

(12) Refinancing in accordance with § 5001.102(d).

(d) *REAP projects.* Guaranteed loan funds for a project receiving a loan guarantee under REAP may be used to pay the expenses associated with the items identified in paragraphs (d)(1) through (14) of this section, provided such items are directly related to and their use and purpose are limited to the RES, EEI, or EEE project. The expenses associated with the items specified in paragraphs (d)(8) through (11) of this section cannot exceed more than ten percent of the loan amount. Ten percent is an aggregate amount, not ten percent for each item.

(1) Purchase and installation of new or refurbished RES.

(2) Purchase and installation of energy efficient equipment and systems by eligible agricultural producers.

(3) Construction, retrofitting, replacement, and improvements.

(4) Energy efficiency improvements (EEI) identified by vendor/installer certification or in the applicable energy assessment or energy audit.

(5) Fees for construction permits and licenses, including fees required by an interconnection agreement.

(6) Guarantee fees, as determined under § 5001.454.

(7) Professional service fees and charges related to the project, which may include non-deferred developer fees, provided the Agency approves the amounts as reasonable and customary in the area.

(8) Lender fees, as provided in § 5001.403.

(9) Working capital, which may include interest on interim financing, debt reserves, rent payments, insurance, and packaging and origination fees.

(10) Land acquisition.

(11) Energy assessments, energy audits, technical reports, business plans, and feasibility studies completed and acceptable to the Agency, provided no portion was financed by any other Federal or State grant or payment assistance, including, but not limited to, a REAP energy audit or renewable energy development assistance grant.

(12) For an eligible RES project in which a residence is closely associated

with the rural small business or agricultural operation, the installation of a second meter to separate the residence from the portion of the project that benefits the rural small business or agricultural operation, as applicable.

(13) Land, building, and equipment for an existing RES.

(14) Refinancing outstanding long-term debt. It is not considered refinancing if loans were structured as construction or bridge loans for short-term financing needs (interim financing) in preparation for a long-term loan. Refinancing will be considered when—

(i) The original purpose of the debt being refinanced meets the eligible project requirements of § 5001.106, § 5001.107 or § 5001.108, as applicable, of this part;

(ii) Debt being refinanced does not exceed 50 percent of the total use of funds in the new REAP guaranteed loan;

(iii) Refinancing is necessary to improve cash flow and viability of the project;

(iv) At the time of application, the loan being refinanced has been current for at least the past 6 months (unless such status is achieved by the lender forgiving the borrower's debt); and

(v) The lender is providing better rates or terms for the loan being refinanced.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70356, Dec. 10, 2021; 89 FR 79712, Sept. 30, 2024]

§ 5001.122 Ineligible uses of loan funds.

Projects that receive a loan guarantee under this part cannot use the guaranteed loan funds for those expenses or purposes identified in paragraphs (a) through (n) of this section and for any other item the Agency identifies in accordance with § 5001.10.

(a) Payment in excess of actual costs (*e.g.*, profit, overhead, indirect costs, and wages to owners) incurred by the contractor or other service provider on a contract or agreement that has been entered into at less than an arm's length transaction or has a potential for a conflict of interest. In situations where there is common ownership or an otherwise closely related company is being paid to do construction or installation work for a borrower, only documented costs associated with the construction or installation can be paid with guaranteed loan funds and cannot include any profit or wages to such related person.

(b) Notwithstanding § 5001.102(d), payment on any other Federal loan or debt.

(c) Payment of a Federal judgment, State or Federal tax lien, or other debt owed to the United States.

(d) Loan finder or broker fees.

(e) Refinancing debt that is owned by a loan packager or broker or their respective affiliates.

(f) For loans as specified under CF and WWD, costs normally provided by a business or industrial user (*e.g.*, wastewater pretreatment).

(g) For loans as specified under CF and WWD, any portion of the cost of a project that does not serve a rural area.

(h) Rental for the use of equipment or machinery owned by the borrower.

(i) For purposes not directly related to operating and maintaining the project.

(j) Any EEI not identified in the applicable energy assessment or energy audit.

(k) Agricultural tillage equipment, used equipment, and vehicles are ineligible for loans as specified under REAP. Costs include costs for RES and/or EEI projects that are used to improve a vehicle's ability to propel itself are ineligible uses for loan funds. For example, modifying an existing vehicle's engine to run on renewable fuels or replacing an older vehicle with a new more efficient vehicle are ineligible uses of loan funds. Projects similar to purchasing and installing solar panels to power a refrigerator or the replacement of a refrigerator for a more efficient one on a food truck may be considered eligible uses of loan funds if all other borrower and project eligibility requirements are met.

(l) Distribution or payment to an individual or entity that will retain an ownership interest in the borrower or distribution or payment to a beneficiary of the borrower. Distribution or payment to a member of the immediate family of an owner, partner, or

stockholder will not be permitted, except for change in ownership interest and the Agency determines the price paid to be reasonable based upon an appraisal. This prohibition does not apply to transfers of ownership for ESOPs or worker cooperatives, to cooperatives where the cooperative pays the member for product or services, or where member stock is transferred among members of the cooperative in accordance with § 5001.140 of this part. This paragraph does not preclude the former owner from remaining an employee of the business during a reasonable transition period. The payment of personal debt is considered a distribution or payment to an owner, except for the refinancing of debt for an asset that is used in the business when the owner is a co-borrower on the loan.

(m) For loans as specified under CF, initial operating expenses, short-term, working capital or operating loans; or annual recurring costs, including purchases or rentals that are generally considered to be operating and maintenance expenses.

(n) Lease payments, including lease to own or capitalized leases. This does not preclude a REAP applicant from leasing out REAP financed and installed equipment to a third party (lessee) such as a non-profit, school district, or municipal government. The third party (lessee) must directly utilize the equipment to fulfill the statutory purposes of REAP, to generate renewable energy or provide energy savings. The borrower must maintain ownership and control of the project for the entire useful life of the project, including site, income and expenses via the lease agreement. Additionally, all other REAP requirements, must be reviewed in this scenario to ensure complete eligibility is obtained with a lease in place. This includes, but is not limited to, project eligibility, including prohibitions on residential use and other prescribed eligible project costs. A REAP applicant may lease out a commercial building, improved with REAP funds, to various tenants. This may include an office complex in which a Federal Government Agency is a tenant. This is allowable as long as conflict of interest requirements are complied with.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79713, Sept. 30, 2024]

§§ 5001.123–5001.125 [Reserved]

§ 5001.126 Borrower eligibility.

To be eligible for a loan guarantee under this part, a borrower must meet the requirements specified in this section at the time of each guaranteed loan's approval and through issuance of the loan note guarantee. A borrower must meet the eligibility requirements specified in paragraph (a) of this section and in paragraphs (b) through (e), as applicable, of this section.

(a) *Legal authority and responsibility.* The borrower must have, or obtain before issuance of the loan note guarantee, the legal authority necessary to construct, operate, and maintain the proposed facility and services and to obtain, give security for, and repay the proposed loan.

(1) *Operate and maintain the facility.* The borrower is responsible for operating, maintaining, and managing the facility and providing for its continued availability and use. The borrower will retain this responsibility even though the facility may be operated, maintained, or managed by a third party under contract, management agreement, or written lease. Leases may be used for certain projects when they are the only feasible way to provide the service or facility, are the customary practice to provide such service or facility within the industry or in the State and provide for the borrower's management control of the project. Contracts, management agreements, or written leases must not contain options or other provisions for transfer of ownership unless approved by the Agency. The borrower must own and retain control of the facility at all times; however, various types of ownership structures are permitted to bring in passive investor equity. These include but are not limited to partnership flips and inverted leases, which are common in the renewable energy industry. The anticipated release of passive tax credit investor entities resulting in a change in ownership control that does not impact the financial

performance of the loan, as outlined at time of loan closing, does not constitute a transfer or assumption, nor require concurrence from the Agency.

(2) *Co-borrowers.* Except for CF guaranteed loans in situations where any business or affiliate is dependent upon another's operations and are effectively one business or rely upon one another for loan repayment, they must be co-borrowers, unless waived by the Agency in writing when the Agency determines that adequate justification exists to not require the entities to be co-borrowers. Both co-borrowers must meet all requirements in this part. If the operating entity is truly independent and not reliant on another operation to remain viable or repay the debt, the Agency will allow one entity to be the sole borrower.

(b) *CF loan guarantees.* To be eligible for a loan guarantee under CF, a borrower must meet the requirements identified in paragraphs (b)(1) through (4) of this section.

(1) *Borrower type.* Be a public body, including Indian tribes on Federal and State reservations and other federally recognized Indian tribes, or non-profit organization.

(i) Borrowers organized under the applicable State or Tribal for-profit corporation laws may be eligible if they will be operated on a not-for-profit basis for the duration of the guaranteed loan;

(ii) Single member not-for-profit corporations or not-for-profit corporations owned or substantially controlled by other corporations or associations are eligible if the member organization has significant ties with the project service area and provides a payment guarantee.

(2) *Significant ties.* Have significant ties with the project service area (not applicable to public bodies and federally recognized Tribes) as evidenced by the following:

(i) Association with or control by a public body or bodies typically evidenced in the organizational documents of the borrower; or

(ii) Broadly based membership and controlled primarily by members residing in the project service area. Membership must be open without regard to race, color, religion, national origin, sex, age, disability, sexual orientation, or marital or familial status.

(3) *Credit elsewhere.* In accordance with 7 U.S.C. 1983, certify in writing, subject to Agency verification, that the borrower is unable to finance the proposed project from their own resources or through commercial credit without a guarantee, at reasonable rates and terms. A loan guarantee will not be provided to borrowers who are able to obtain sufficient credit elsewhere to finance project costs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in the community in or near where the borrower resides, for loans for similar purposes and periods of time, or to borrowers who are able to finance project costs from their own resources.

(4) *Evidence of significant community support.* In accordance with 7 U.S.C. 2009h, the evidence shall be in the form of a certification of support for the project from each affected local government. The certification of support should include sufficient information to determine that the essential community facility will provide needed services to the community or communities and will have no adverse impact on other community facilities providing similar services.

(c) *WWD loan guarantees.* To be eligible for a loan guarantee under WWD, a borrower must meet the requirements identified in paragraphs (c)(1) through (3) of this section.

(1) *Borrower type.* Be a public body, including Indian tribes on Federal and State reservations and other Federally recognized Indian tribes, or non-profit organization.

(2) *Credit elsewhere.* In accordance with 7 U.S.C. 1983, certify in writing, subject to Agency verification, that the borrower is unable to finance the proposed project from their own resources or through commercial credit without a guarantee, at reasonable rates and terms. A loan guarantee will not be provided to borrowers who are able to obtain sufficient credit elsewhere to finance project costs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in the

community in or near where the borrower resides, for loans for similar purposes and periods of time, or to borrowers who are able to finance project costs from their own resources. All lenders are required to provide written certification that their borrowers are unable to afford commercial credit at reasonable rates and terms without the guarantee.

(3) *Evidence of significant community support.* In accordance with 7 U.S.C. 2009h, the evidence shall be in the form of a certification of support for the project from each affected local government.

(d) *B&I loan guarantees.* To be eligible for a loan guarantee under B&I, a borrower must meet the requirements specified in paragraphs (d)(1) through (4), as applicable, of this section.

(1) The borrower must be:

(i) A cooperative, corporation, partnership, or other legal entity organized and operated on a profit or nonprofit basis;

(ii) An Indian Tribe

(iii) A Public Body; or

(iv) An individual.

(2) The borrower must be engaged in or proposing to engage in a business. A business may include manufacturing, wholesaling, retailing, providing services, or other activities that will provide employment or improve the economic or environmental climate in rural communities.

(3) A borrower who is an individual must meet the requirements of (i) through (iii) below. Applications will neither be approved, nor a conditional commitment issued subject to meeting the citizenship requirement.

(i) Be a citizen of the United States;

(ii) Reside in the United States after being legally admitted for permanent residence and must provide a permanent green card as evidence of eligibility; or

(iii) Be a citizen or resident of the Republic of Palau, the Federated States of Micronesia, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, or the Republic of the Marshall Islands.

(4) A borrower must demonstrate, to the Agency's satisfaction, that guaranteed loan funds will remain in the United States and the project being financed will primarily create new or save existing jobs for rural U.S. residents. To ensure that loan funds remain in the United States, loans must be collateralized with fixed assets that remain in the United States.

(e) *REAP loan guarantees.* To be eligible for a loan guarantee under REAP, a borrower must meet the requirements specified in paragraphs (e)(1) through (5) of this section.

(1) *Type of borrower.* The borrower must be either an agricultural producer or a rural small business if applying for RES or EEI funding. The borrower must be an agricultural producer if applying for EEE funding. For-profit rural small businesses that provide long-term care services that benefit residents, such as nursing homes and assisted living facilities, are eligible. For-profit rural small businesses that provide short-term housing, such as hotels, are also eligible. Newly formed special purpose entities or equivalents that are clearly created solely for the circumvention of provisions prohibited by REAP statute are not eligible.

(2) *Ownership.* The borrower at the time of application or no later than guaranteed loan closing and for the term of the guaranteed loan must:

(i) Own the project; and

(ii) Own or control the site for the project at the time of application and for the term of the guaranteed loan.

(3) *End users.* If the controlling interest in the applicant entity is otherwise eligible as an applicant and a legal transaction between two parties for the sale of energy in an open market is being proposed, the Agency will not consider the energy end-users as part of the analysis of the eligibility of the applicant. However, if the proposed end-user would be an ineligible applicant, such as an entity which is residential in nature or a non-profit entity, and the REAP applicant entity is a newly formed special-purpose entity with substantially the same ownership as the proposed end-user, then the REAP applicant entity is not eligible.

(4) *Revenues and expenses.* The borrower must have available or be able to demonstrate, at the time of application, satisfactory sources of revenue in an amount sufficient to provide for the

operation, management, maintenance, and any debt service of the project for the term of the loan. In addition, the borrower must control the revenues and expenses of the project, including its operation and maintenance. The borrower may employ a qualified consultant under contract to manage revenues and expenses of the project and its operation and/or maintenance.

(5) *Matching funds.* The borrower must demonstrate evidence of injection of matching funds in the project of not less than 25 percent of total eligible project costs. Passive third-party contributions are acceptable as matching funds for RES projects, including those raised from the sale of Federal tax credits.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70356, Dec. 10, 2021; 87 FR 42297, July 15, 2022; 89 FR 79714, Sept. 30, 2024]

§ 5001.127 Borrower ineligibility conditions.

A potential borrower is ineligible for a guaranteed loan under this part as identified in paragraphs (a) through (g) of this section. The borrower remains ineligible until the condition causing ineligibility is resolved.

(a) An entity is ineligible if any of the conditions identified in paragraphs (a)(1) through (4) of this section applies to the borrower, any owner with more than 20 percent ownership interest in the borrower (does not include passive investors), or any owner with control of the borrower. Entities with delinquent debt, as identified in paragraphs (a)(1) through (a)(4), under a repayment plan are not eligible until the debt is paid in full.

(1) There is an outstanding judgment obtained by the U.S. in a Federal Court (other than U.S. Tax Court).

(2) Delinquency on the payment of Federal income taxes.

(3) Delinquency on Federal debt.

(4) Debarment or suspension from receiving Federal assistance. The lender is responsible for verification of the borrower's status. Verification can be done at *sam.gov*.

(b) An entity is ineligible if it derives more than 15 percent of its annual gross revenue (including any lease income from space or machines) from gambling activity, excluding State-authorized lottery proceeds or Tribal-authorized gaming proceeds, as approved by the Agency, conducted for the purpose of raising funds for the approved project.

(c) An entity is ineligible if it derives income from activities of a prurient sexual nature.

(d) An entity is ineligible if it derives income from illegal drugs, drug paraphernalia, or any other illegal product or activity as defined under Federal statute. A borrower that intends to lease space or enter into a power purchase agreement with a marijuana dispensary is not eligible given our borrower would be receiving income from the marijuana operation which is a violation of Federal laws as marijuana is a controlled substance under Federal law and subject to Federal prosecution under the Controlled Substances Act (21 U.S.C. 812).

(e) An entity is ineligible under B&I projects if it is a charitable or fraternal organization. For purposes of this section, an organization that derives more than 10 percent of its annual gross revenue from tax deductible charitable donations, based on historical financial statements, is considered a charitable organization. Fees for services rendered or that are otherwise ineligible for deduction under the Internal Revenue Code are not considered tax deductible charitable donations.

(f) An entity is ineligible if its lender or any of the lender's officers has an ownership interest in the borrower or is an officer or director of the borrower with management control or where the borrower or any of its officers, directors, stockholders, or other owners have more than a five percent ownership interest in the lender. Any of the lender's directors, stockholders, or other owners that are officers, directors, stockholders, or other owners of the borrower without management control or ownership less than 5 percent must be recused from any decision-making process associated with the guaranteed loan.

(g) A borrower is ineligible if it is a lending institution, investment institution, or insurance company with exception of REAP or projects for a fund that invests primarily in cooperatives in accordance with § 5001.140, and

NMTC projects in accordance with § 5001.141.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79715, Sept. 30, 2024]

§§ 5001.128–5001.129 [Reserved]

§ 5001.130 Lender eligibility requirements.

To become a lender under this part, the lending entity must meet the requirements specified in paragraphs (a) through (d) of this section, as applicable, and become an approved participant in the Agency's electronic system. Paragraph (e) of this section contains provisions associated with lenders that have already been approved by the Agency under one of the guaranteed loan programs identified in § 5001.1of this part. If not yet an Agency-approved lender, the lending entity must include with the application a request for lender approval in accordance with this section.

(a) *General.* The lending entity must:

(1) Be domiciled in a State;

(2) Not be debarred or suspended by the Federal Government or be an affiliated person of such entity that was suspended or debarred;

(3) Be free from default and delinquency on any debt owed to the Federal Government;

(4) Inform the Agency if it is under a consent order, or similar constraint, from a Federal or State agency. The Agency will evaluate the lending entity's eligibility on a case-by-case basis, and assess the risk of loss posed by the consent order or similar constraint, as applicable;

(5) Maintain written standards of conduct covering conflicts of interest; and

(6) Maintain internal audit and management control systems to evaluate and monitor the overall quality of its loan origination and servicing activities.

(7) Be registered in and maintain an account in the System for Award Management (SAM) in accordance with 2 CFR 25.200.

(b) *Regulated lending entities.* Regulated lending entities identified in paragraphs (b)(1) through (10) of this section are eligible to receive a loan guarantee under this part without documentation to the Agency provided they are subject to supervision and credit examination by the applicable agency of the United States or a state, or were created specifically by state statute and operate under the direct supervision of a state government authority.

(1) Federal and State chartered banks.

(2) Farm Credit Bank of the Federal Land Bank and other Farm Credit System institutions with direct lending authority to make loans of the type guaranteed under this part.

(3) Bank for Cooperatives.

(4) Savings and Loan Associations.

(5) Savings banks.

(6) Mortgage companies that are part of a bank-holding company.

(7) The National Rural Utilities Cooperative Finance Corporation.

(8) Credit unions.

(9) State Bond Banks or State Bond Pools.

(10) Other lending entities not specified in paragraphs (b)(1) through (9) of this section that meet the requirements as specified in this paragraph (b).

(c) *Non-regulated lending entities.* The Agency may approve a lending entity that does not meet the criteria of paragraph (b) of this section to become a lender for a period up to five years. Non-regulated lending entity eligibility will expire on January 31 of the fifth year after the date of Agency approval.

(1) *Conditions.* When the lending entity is a multi-tiered entity, the Agency will consider the lending entity in its entirety. In order to be approved as a lender, a non-regulated lending entity must:

(i) Have the legal authority to operate a lending program;

(ii) Be a financially sound institution that has a record of successfully originating at least five commercial loans annually totaling at least $1 million for each of the last three years, with the lending entity's commercial loan portfolio in last five years not exceeding:

(A) Six percent average delinquency of all commercial loans, and

(B) Three percent in commercial loan losses (based on the original principal loan amount);

(iii) Have and agree to maintain balance sheet equity in accordance with § 5001.105(d) of this part of at least 10 percent of assets and sufficient funds available to disburse the guaranteed loans it proposes to approve within the first six months of being approved as a lender;

(iv) Have and agree to maintain a line of credit issued by a regulated lending entity that is acceptable to the Agency;

(v) Agree to establish and maintain an Agency-approved loan loss reserve equal to one percent reserve of the unguaranteed portion of all guaranteed loans plus an amount equal to the identified anticipated losses.

(vi) Have written policies and procedures to ensure that internal credit controls provide adequate loan making and servicing guidance that adheres to Federal and State fair lending practices;

(vii) Document and assure to the Agency that the lending entity has the capacity to fulfill the lender functions and responsibilities identified in this part, including, but not limited to §§ 5001.201, 5001.202, 5001.207, and 5001.501.

(2) *Written request.* A non-regulated lending entity that seeks to become a lender must submit a written request to the Agency via *OneRDlenderapproval@usda.gov*, and must include the following information:

(i) The request must clearly define the multiple-entity organizational and control structure with a listing of each entity under its control, including any Community Development Entity (CDE) that may request guaranteed loans under § 5001.141. In addition, the non-regulated lending entity must include each such sub-entity in their audited financial statements, commercial loan portfolio, and commercial loan performance statistics;

(ii) Bylaws;

(iii) Audited financial statements for the most recent fiscal year that evidences the required balance sheet equity and that the lending entity has available resources to successfully meet its responsibilities;

(iv) Auditor's most recent management letter and management's response;

(v) An interim financial statement dated within 90 days of the written request, if applicable;

(vi) A copy of any license, charter, State statute, or other third-party evidence of authority to engage in the proposed guaranteed loan making and servicing activities. If licensing by the State is not required, an attorney's opinion stating that licensing is not required and that the lending entity has the legal authority to engage in the proposed guaranteed loan making and servicing activities must be submitted;

(vii) The lender's loan classification scale including their loan classification criteria;

(viii) Information on lending experience, including—

(A) Length of time in the lending business;

(B) Range and volume of lending and servicing activities for the last five years, including a list of the industries for which it has provided financing;

(C) Status of its loan portfolio, including a summary of loans in the portfolio by current loan classification code, a list of any loans restructured or charged off in the previous five years, and the calculated delinquency and loss rates as outlined in paragraph (c)(1)(ii) of this section;

(D) Lending experience of management and loan officers, including staff organizational chart, including names and titles for senior staff;

(E) Largest sources of funds for the last five years and source of funds for the proposed guaranteed loans;

(F) Office location(s) and proposed lending area(s);

(G) An estimate of the number, size, and type of applications the lending entity will develop over the next six months; and

(H) Proposed interest rate structure and loan fees, including any loan origination, loan preparation, and servicing fees.

(ix) Description of programs, financial, and non-financial products and services.

(x) Its lending policies including underwriting standards, credit analysis

policies and procedures, and its problem credit management policies and procedures.

(xi) A third-party external loan origination, lending portfolio, and management review acceptable to the Agency conducted in the previous two years, or a copy of a credit examination less than two years old conducted under an approved credit examination criterion such as CAMELS.

(3) *Approval or disapproval.* The Agency will notify the non-regulated lending entity whether its request to become a lender is approved or rejected. If the Agency rejects the request, the Agency will include in the notification the reason(s) for the rejection.

(4) *Renewals.* To maintain its status as an approved lender, the non-regulated lending entity must submit a written request to the Agency for renewal of its approved lender status at least 60, but not more than 120, calendar days prior to the expiration of the existing lender's agreement to be assured of a timely renewal. A review of the lender's performance will be completed to determine whether the lender has continually met the eligibility criteria described in paragraphs (c) and (d) of this section. The lender's activity in the program and its delinquency/default rate will also be considered when making a determination regarding renewal. Any action by the lender since it was designated an eligible lender that could be cause for revoking its status, in accordance with § 5001.132, will be considered cause for denying the renewal of eligible status. The lender will be notified in writing whether the request is approved, reasons for denial, or any conditions the lender must meet for approval. The lender's written request must provide the information specified in paragraphs (c)(2)(i) and (iii) through (v) of this section; and

(i) A written update of any change in the persons designated to process and service Agency guaranteed loans or change in the operating methods used in the processing and servicing of loans since the original or last renewal date of lender status.

(ii) A description of how the lender is complying with each of the required criteria described in (c)(1) of this section and § 5001.501.

(iii) A new executed lender's agreement.

(iv) The Agency may require lenders with limited guaranteed loan activity over the previous five years, or a lender that has originated guaranteed loans with servicing issues or a loss to the Agency, to resubmit all the information required by paragraph (c)(2) of this section. A lender who is not active in the Agency guaranteed loan programs should provide evidence that they remain active in other commercial lending activity with acceptable underwriting and servicing performance. Lenders with loans that cause a loss to the Agency are a concern and those projects will be reviewed to determine the cause of the loss, including whether the lender's analysis or servicing processes were insufficient.

(v) The renewal will be for a term of 5 years.

(d) *Non-regulated lending entities serving tribal trust lands.* The Agency may approve a lending entity serving tribal trust lands that does not meet the criteria of paragraph (b) or (c) of this section to become a lender for a five-year period. A non-regulated lending entity approved to originate and service guaranteed loans for projects located only on tribal trust lands is restricted to such areas. To make and service guaranteed loans not on tribal trust lands, the lending entity must meet the criteria of paragraph (b) or (c) of this section. When the lending entity is a multi-tiered entity, the Agency will consider the lending entity in its entirety for approval.

(1) *Conditions.* To be approved as a lender, a non-regulated lending entity serving only tribal trust lands must—

(i) Have the legal authority necessary to operate a lending program to borrowers located on tribal trust lands.

(ii) Meet the requirements of paragraph (c)(1) of this section, and prove to be a financially sound institution, as determined by the Agency, on a case by case basis, based on the Agency's risk assessment of the lending entity's capital, adequate liquidity, management capabilities, repayment ability, credit underwriting, balance sheet equity and other financial factors as determined

appropriate. On a case-by-case basis, the Agency may reduce the loan origination requirements of paragraph (c)(1)(ii) of this section for lenders serving only projects located on tribal trust lands.

(2) *Written request.* A non-regulated lending entity serving Tribal trust lands that seeks to become a lender must submit a written request to the Agency via *OneRDlenderapproval@usda.gov* that includes the following information:

(i) Documentation required by paragraph (c)(2) of this section;

(ii) Written certification that the lender intends to only originate guaranteed loans under the regulation for projects located in certain (or specified) tribal lands held in trust for tribes and for tribal members not in such tribal lands but are in their service area;

(iii) Bylaws; and

(iv) Lending experience of management and loan officers, including staff organizational chart, including names and titles for senior staff.

(3) *Approval or disapproval.* The Agency will notify the non-regulated lending entity servicing tribal trust land whether its request to become a lender is approved or rejected. If the Agency rejects the request, the Agency will include in the notification the reason(s) for the rejection.

(4) *Renewals.* To maintain its status as an approved lender, the non-regulated lending entity serving Tribal trust land must submit a written request to the Agency for renewal of its approved lender status at least 60 and not more than 120 calendar days prior to the expiration of the existing lender's agreement to be assured of a timely renewal. A review of the lender's performance will be completed to determine whether the lender has continually met the eligibility criteria described in paragraphs (c) and (d) of this section. The lender's activity in the program and its delinquency/default rate will also be considered when making a determination regarding renewal. Any action by the lender since it was designated an eligible lender that could be cause for revoking its status, in accordance with § 5001.132, will be considered cause for denying the renewal of eligible status. The lender will be notified in writing whether the request is approved, reasons for denial, or any conditions the lender must meet for approval. The lender's written request must provide the information specified in paragraphs (c)(2)(i) and (iii) through (v) of this section; and

(i) A written update of any change in the persons designated to process and service Agency guaranteed loans or change in the operating methods used in the processing and servicing of loans since the original or last renewal date of lender status.

(ii) A description of how the lender is complying with each of the required criteria described in (c)(1) of this section and § 5001.501.

(iii) A new executed lender's agreement.

(iv) The Agency may require lender with limited guaranteed loan activity over the previous five years, or a lender that has originated guaranteed loans with servicing issues or a loss to the Agency, to submit updated information required by paragraph (c)(2) of this section.

(v) The renewal will be for a term of 5 years.

(e) Previously approved lenders. Lenders that have been previously approved by the Agency under one of the guaranteed loan programs identified in § 5001.1(b)(1) through (4) of this part cannot originate new guaranteed loans after the effective date of this rule unless the lender is approved under the applicable conditions of paragraphs (a) through (d), as applicable, of this section.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70356, Dec. 10, 2021; 89 FR 79715, Sept. 30, 2024]

§ 5001.131 Lender's agreement.

When approved to participate as a lender under this part, the lender must execute a lender's agreement before the Agency will issue a loan note guarantee. A new lender's agreement must be executed with any existing lender making new loans on or after October 1, 2020. Approval under one program is approval for all programs. The eligibility expiration date for non-regulated lenders will be five years from the date of the original execution of a lender's

agreement as specified in § 5001.130(c) and (d). There will be only one lender's agreement issued for each lending entity based on their tax identification number. Lender's agreements will not be issued for individual branches. Subsequent loans do not require a new lender's agreement. A lender who fails to renew its lender's agreement and loses its approved lender status must continue to service any outstanding guaranteed loans in conformance with the lender's agreement last in effect and the applicable regulation under which the lender became an approved lender. Such lenders cannot submit requests for new loan guarantees.

[89 FR 79716, Sept. 30, 2024]

§ 5001.132 Maintenance of approved lender status.

Continuation of approved lender status under this part is not automatic. Lenders may lose their approved lender status as described in paragraph (a) of this section. The Agency may also revoke a lender's status as an approved lender or debar the approved lender, as described in paragraph (b) of this section.

(a) *Loss of approved lender status.* A lender will lose its approved status if it—

(1) Fails to conform with the provisions of this part or the applicable guaranteed loan program identified in § 5001.1 of this part;

(2) Has no outstanding guaranteed loans with the Agency for five consecutive years;

(3) Is a regulated lending entity and fails to remain in good standing with its regulator;

(4) Is a non-regulated lending entity and fails to renew its approval status within 5 years of the expiration date of the lender's agreement.

(b) *Revocation of approved status and debarment of lender.* The Agency can revoke a lender's status as an approved lender at any time for cause as specified in the lender's agreement. A decision to revoke a lender's approved status will be made by the Agency and the lender will be notified in writing. The revocation may apply to all branches of the lender, specific branches, or personnel, as appropriate. The lender must revoke the level II eAuthentication privileges of all individuals included in the revocation notice. Cause for revoking lender status includes, but is not necessarily limited to, the circumstances identified in paragraphs (b)(1) through (14) of this section.

(1) Guaranteed loans originated by the lender cause substantial financial loss to the Agency.

(2) Failure to maintain status as an approved lender under the applicable regulations in effect when the lender obtained approved lender status. For lenders approved under this part, this means maintaining compliance with the requirements set forth in § 5001.130.

(3) Conviction of the lender or any of its officers for criminal acts in connection with any loan transaction, whether or not the loan was guaranteed by the Agency.

(4) Violation of usury laws in connection with any loan transaction whether or not the loan was guaranteed by the Agency.

(5) Negligent loan origination.

(6) Knowingly submitting false information when requesting a loan guarantee or basing a loan guarantee request on information known to be false or which the lender should have known to be false.

(7) Failure to correct any Agency-cited deficiency in loan documents in a timely manner.

(8) Failure to provide for adequate construction planning and monitoring in connection with any guaranteed loan to ensure that the project will be completed with the available funds.

(9) Negligent loan servicing.

(10) Failure to obtain and maintain the required collateral for any guaranteed loan.

(11) Using guaranteed loan funds for purposes other than those specifically approved by the Agency in the conditional commitment or amendment thereof.

(12) Violation of any term of the lender's agreement.

(13) Failure to submit reports required by the Agency in a timely manner.

(14) Violation of applicable nondiscrimination laws, including, but not limited to, statutes, regulations, USDA Departmental Regulations, the USDA Non-Discrimination Statement, and

the Equal Credit Opportunity Act. USDA's Non-Discrimination Statement is located on the Agency's website, see *usda.gov/non-discrimination-statement*. In addition to revoking the lender's status, the Agency may debar the lender in compliance with 2 CFR part 180.

(c) *Servicing of outstanding loans.* Any lender who loses its status as an approved lender under any of the conditions identified in paragraph (a) or (b) of this section must reapply under the provisions of § 5001.130 to be reinstated as an approved lender. A lender who loses its approved lender status must continue to service any outstanding guaranteed loans in conformance with the lender's agreement last in effect and the applicable regulation under which the lender became an approved lender. In addition, such lenders cannot submit requests for new loan guarantees.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79716, Sept. 30, 2024]

§§ 5001.133–5001.139 [Reserved]

§ 5001.140 Cooperative stock/cooperative equity.

Loan guarantees described in paragraphs (a) through (d) of this section are only available under B&I guaranteed loans.

(a) *Cooperative stock purchase program.* The Agency may guarantee loans for the purchase of cooperative stock by individual farmers or ranchers in a farmer or rancher cooperative established for the purpose of processing an agricultural commodity. The cooperative may contract for services to process agricultural commodities or otherwise process value-added agricultural products during the five-year period beginning on the operation startup date of the cooperative in order to provide adequate time for the planning and construction of the processing facility of the cooperative.

(1) The proceeds from the stock sale may be used to recapitalize, to develop a new processing facility or product line, or to expand an existing production facility. Guaranteed loan funds must remain in the cooperative from which stock was purchased, and the cooperative must not reinvest those funds into another entity.

(2) The maximum guaranteed loan amount is $600,000 and all applications will be processed in accordance with §§ 5001.301 through 5001.303, 5001.306, 5001.315, and 5001.318 of this part, as applicable.

(3) The maximum term of the guaranteed loan is seven years when the proceeds from the stock sale are used by the cooperative to recapitalize or are used for working capital. The maximum term allowable for final guaranteed loan maturity is limited to the justified useful life of the assets the cooperative purchases with the proceeds of the stock sale not to exceed 40 years or applicable State statutory limitations, whichever is less.

(4) The lender will, at a minimum, obtain a valid lien on the stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or any other right or ability necessary to liquidate and dispose of the collateral in the event of a default by the borrower. The lender and borrower understand that the borrower is fully liable for the entire debt, regardless of the success or failure of the cooperative. The lender is expected to maximize recovery on the loan, including collection of personal, partnership and corporate guarantees. In addition, provisions of the DCIA may impose significant restrictions on delinquent Federal debtors, including eligibility for other Federal programs.

(5) The lender must complete a written credit evaluation of each stock purchase loan and a complete credit evaluation of the cooperative prior to making its first stock purchase loan.

(6) The borrower may provide financial information in the manner that is generally required by commercial agricultural lenders.

(7) A feasibility study of the cooperative is required for startup cooperatives and may be required by the Agency for existing cooperatives when the cooperative's operations will be significantly affected by the proceeds that were generated from the stock sale.

(8) The Agency will conduct an appropriate environmental review on the processing facility and will not process individual applications for the purchase of stock until the environmental

review on the cooperative processing facility is completed.

(b) *Purchase of transferable stock shares.* The Agency may also guarantee loans for the purchase of transferable stock shares of any type of existing cooperative, which would primarily involve new or incoming members. Such stock may provide delivery or some form of participation rights and may only be traded among cooperative members. The lender and borrower understand that the borrower is fully liable for the entire debt, regardless of the success or failure of the ESOP. The lender is expected to maximize recovery on the loan, including collection of personal, partnership and corporate guarantees. In addition, provisions of the DCIA may impose significant restrictions on delinquent Federal debtors, including eligibility for other Federal programs.

(1) The maximum loan amount is $600,000 and all applications will be processed in accordance with §§ 5001.301 through 5001.303, 5001.306, 5001.315, and 5001.318 of this part, as applicable.

(2) The maximum term of the loan is seven years.

(3) The lender will, at a minimum, obtain a valid lien on the stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or any other right or ability necessary to liquidate and dispose of the collateral in the event of a default by the borrower.

(4) The lender must complete a written credit evaluation of each stock purchase loan and a complete credit evaluation of the cooperative prior to making its first stock purchase loan.

(c) *Cooperative equity security guarantees.* The Agency may guarantee loans for the purchase of preferred stock or similar equity issued by a cooperative or may guarantee loans to a fund that invests primarily in cooperatives. In either case, the project must significantly benefit one or more entities eligible for assistance under B&I guaranteed loans.

(1) ''Similar equity'' is any special class of equity stock that is available for purchase by non-members and/or members and lacks voting and other governance rights.

(2) A fund that invests ''primarily'' in cooperatives is determined by its percentage share of investments in and loans to cooperatives. A fund portfolio must have at least 50 percent of its loans and investments in cooperatives to be considered eligible for loan guarantees for the purchase of preferred stock or similar equity.

(3) The principal amount of the guaranteed loan cannot exceed $10 million.

(4) The maximum term of the guaranteed loan is seven years when the proceeds are used by the cooperative for working capital and;

(i) In all other cases the maximum term of the guaranteed loan is equal to the lesser of the following but not exceeding 40 years:

(ii) The justified useful life of the funded project assets,

(iii) The maximum term under any applicable State statute; or

(iv) The specified holding period for redemption as stated by the stock offering.

(5) All borrowers purchasing preferred stock or similar equity must provide documentation of the terms of the offering that includes compliance with State and Federal securities laws and financial information about the issuer of the preferred stock to both the lender and the Agency.

(6) Issuer(s) of preferred stock must be a cooperative organization and must be able to issue preferred stock to the public that, if required, complies with State and Federal securities laws.

(7) The lender will, at a minimum, obtain a valid lien on the preferred stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or otherwise liquidate and dispose of the collateral in the event of a default by a borrower. For the purpose of recovering losses from guaranteed loan defaults, lenders may take ownership of all equities purchased with such loans, including additional shares derived from reinvestment of dividends.

(8) Shares of preferred stock that are purchased with guaranteed loan funds cannot be converted to common or voting stock.

(9) In the absence of adequate provisions for investors' rights to early redemption of preferred stock or similar

equity, a borrower must request from a cooperative or fund issuing such equities a contingent waiver of the holding or redemption period in advance of share purchases. This contingent waiver provides that in the event a default by a borrower on a B&I guaranteed loan, the borrower waives any ownership rights in the stock, and the lender and Agency will then have the right to redeem the stock.

(10) Guaranteed loans for the purchase of preferred stock must be prepaid in the event a cooperative that issued the stock exercises an early redemption. If the cooperative enters into bankruptcy, to the extent the cooperative can redeem the preferred stock, the Borrower is required to repay the guaranteed loan from the redemption of the stock.

(d) *Employee ownership succession.* The Agency may guarantee loans for conversions of businesses to either cooperatives or ESOP within five years from the date of initial transfer of stock.

(1) The maximum loan amount is $600,000 and all applications will be processed in accordance with §§ 5001.301 through 5001.303, 5001.306, 5001.315, and 5001.318 of this part, as applicable.

(2) The maximum term is 10 years.

(3) The lender must, at a minimum, obtain a valid lien on the stock, an assignment of any patronage refund, and the ability to transfer the stock to another party, or otherwise liquidate and dispose of the collateral in the event of a default by a borrower. The lender and borrower understand that the borrower is fully liable for the entire debt, regardless of the success or failure of the cooperative or ESOP. The lender is expected to maximize recovery on the loan, including collection of personal, partnership and corporate guarantees. In addition, provisions of the DCIA may impose significant restrictions on delinquent Federal debtors, including eligibility for other Federal programs.

(4) The lender must complete a written credit evaluation of each stock purchase loan and a complete credit evaluation of the cooperative or ESOP prior to making its first stock purchase loan.

(5) If a cooperative is organized, each selling owner becomes a member with special control rights to protect their stake in the business while a succession plan is implemented. At the completion of the stock transfer, selling owners may retain their membership in the cooperative provided that their control rights are the same as all other members. Any special covenants that selling owners may have held must be extinguished upon completion of the transfer.

(6) If an ESOP is organized for transferring ownership to employees, selling owner(s) may not retain ownership in the business after five years from the date of the initial transfer of stock.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79716, Sept. 30, 2024]

§ 5001.141 New Markets Tax Credits Program.

The New Markets Tax Credits (NMTC) Program is administered by the U.S. Department of the Treasury's (Treasury) Community Development Financial Institutions (CDFI) Fund with NMTC credits allocated to Treasury-certified Community Development Entities (CDE) across the United States to make Qualified Equity Investments (QEI) in low-income communities. NMTC related definitions and terms in this section are governed by section 45(D) of the Internal Revenue Code (26 U.S.C. 45D), and applicable Treasury regulations (26 CFR 1.45D–1). A CDE will generally establish a new subsidiary of a CDE (sub-CDE) for individual NMTC projects. Lenders and their borrowers with guaranteed loan projects that include NMTC investments must comply with the provisions in this section. To be a lender for a guaranteed loan project that involves financing under the NMTC provisions, the lending entity must meet the applicable eligibility criteria in § 5001.130. The Agency will not waive its servicing rights to a guaranteed loan or be a party to any forbearance agreement in conjunction with a NMTC project. Requests for loan guarantees that include NMTC are subject to all applicable program eligibility requirements, credit analysis, and due diligence required by part 5001. In all cases the Agency will undertake efforts to protect the best financial interests of the Federal government and collection of its guaranteed

loan. The Agency will not consider any tax benefit or loss of tax benefits to the CDE, sub-CDE or NMTC investor in the servicing actions of a guaranteed loan.

(a) *Guaranteed Loans Directly to Qualified Active Low-Income Community Businesses (QALICB).* (1) A lender that is CDE or sub-CDE under the direct control of a regulated lender or an approved non-regulated lender does not need to separately meet the requirements of §5001.130 to make a guaranteed loan directly to a qualified active low-income community business (QALICB).

(2) The provisions of §5001.127(f) notwithstanding, a lender that is a CDE or sub-CDE may have an ownership interest in the borrower provided that each condition specified in paragraphs (a)(2)(i) through (iii) of this section is met.

(i) The lender does not have an ownership interest in the borrower prior to the application.

(ii) The lender does not take a controlling interest in the borrower.

(iii) The lender does not provide equity or take an ownership interest in a borrower at a level that would result in the lender owning 20 percent or more interest in the borrower.

(3) Notwithstanding §5001.115(f), a lender that is a CDE or sub-CDE taking an ownership interest in the borrower does not constitute a conflict of interest. The Agency will mitigate the potential for a conflict of interest by requiring appropriate loan covenants establishing, at a minimum, limitations on dividends and distributions of earnings in the loan agreement between the lender and borrower. The Agency will also ensure that the lender limits any waivers of loan covenants and future modifications of loan documents in compliance with this part.

(4) Guaranteed loans made by a lender directly to a QALICB must meet all other program and project eligibility requirements as specified in this part.

(5) For purposes of calculating borrower equity in compliance with §5001.105(d)(1), the CDE (or sub-CDE's) amount of the principal balance of the loan from NMTC investor funds that is subordinated to the guaranteed loan may be considered as equity.

(b) *Guaranteed loans to a NMTC leveraged equity structure.* Tax benefits to a NMTC investor are based on the total amount of funds utilized in the project. The tax benefit calculation includes the sum of the investor's cash investment plus loan proceeds from a leveraged lender into a NMTC investor fund entity. The investor fund entity is generally a new entity established to make a qualified equity investment (QEI) into one or more CDEs or sub-CDEs to support a qualified low-income community investment (QLICI) to a QALICB. The investor fund entity, through its investment, has ownership rights in the sub-CDE that will be making secured QLICI loans to the QALICB. The provisions of §5001.127(g) notwithstanding, either a leveraged lender entity lending to an investor fund entity, or an investor fund entity such as an investor partnership or investor limited liability corporation, may be an eligible borrower for a specific NMTC project as specified in paragraph (b)(1) of this section. For purposes of this section only, the stated term ''borrower'' in paragraphs (b)(1) through (13) of this section applies to both a leveraged lender entity or an investor fund entity as the guaranteed loan borrower in the NMTC project. Paragraphs (b)(2) through (13) of this section identify modifications to this part that apply when the eligible borrower is a leveraged lender entity or investor fund entity in a NMTC project.

(1) To be an eligible borrower using the leveraged equity structure of a NMTC project each condition identified in paragraphs (b)(1)(i) through (v) of this section must be met.

(i) The investor fund entity must be established for a single specific NMTC investment.

(ii) The lender is not an affiliate of the borrower.

(iii) When the borrower is a leveraged lender entity it must relend one hundred percent of the guaranteed loan funds to an investor fund entity. In all cases one hundred percent of the guaranteed loan funds are or will be invested by the investment fund entity in one or more sub-CDEs that will then be loaned directly to a QALICB, as defined by applicable regulations of the

Internal Revenue Service, through a direct tracing method, and such guaranteed loan funds are, or will be used by the QALICB in accordance with the eligibility requirements in subpart B of this part. The QALICB's project must be the ultimate use of one hundred percent of the guaranteed loan funds.

(iv) The QALICB must meet the requirements of an eligible borrower as found in § 5001.126.

(v) The sub-CDE operating agreement with the QALICB must include a provision that the guaranteed lender has approval rights with respect to any substantial loan servicing actions that may be taken by the sub-CDE regarding the collateral or repayment terms of their QLICI loans to the QALICB.

(2) The guaranteed loan amount and percentage of guarantee provisions found in §§ 5001.406 and 5001.407 of this part, respectively, apply to the QALICB and not to the investor fund entity or leveraged lender entity, who would actually be the borrower as defined under this part.

(3) For purposes of calculating borrower equity in compliance with § 5001.105(d)(1), the leveraged lender entity's note from the investor fund may be considered a tangible asset and when the lien associated with the sub-CDE's loan is subordinated, the principal balance of the sub-CDE's loan made to the QALICB from NMTC investor funds may be considered as equity.

(4) The loan terms found in § 5001.402 of this part apply to both the borrower and the QALICB. The maturity and related payment schedule of the lender's guaranteed loan to the borrower must be no longer than the maturity and related payment schedule of the sub-CDE's loan to the QALICB. An Agency approved unequal or escalating schedule of principal and interest payments can be used for a NMTC loan. The lender may require additional principal repayment by a co-borrower, such as an owner or principal participant of the QALICB. The provisions of § 5001.402(b)(3) notwithstanding, the Agency may consider the payment of interest-only payments by a borrower pursuant to an interest-only term not to exceed seven years on a loan made under an NMTC structure if the lender requires:

(i) A debt repayment reserve fund or sinking fund in an amount at least equal to the guaranteed loan's principal amortization that would have otherwise applied to the loan if equally amortized payments were collected during the seven-year term; and

(ii) Such reserve funds or sinking funds are applied to the guaranteed loan as an additional payment of principal at the end of such interest-only term. The debt repayment reserve fund or sinking fund may be accumulated during the loan terms, or the full amount may be funded at loan closing.

(5) Except for the collateral provisions, § 5001.202(b)(4), § 5001.202(b) of this part applies to both the lender's guaranteed loan to the borrower and the sub-CDE's loan to the QALICB. The collateral provisions found in § 5001.202(b)(4) of this part apply only to the sub-CDE's loan to the QALICB.

(6) The personal, partnership and corporate guarantee provisions of § 5001.204 of this part apply when the guaranteed loan borrower is a leveraged lender entity in a NMTC project. Guaranteed loans made directly to an investor fund entity as the borrower do not require a personal, partnership, or corporate guarantee from the investor fund entity's owner, who is the NMTC tax credit investor and considered a passive investor. The Agency shall obtain the personal, partnership or corporate guarantee from the QALICB ownership for a guaranteed loan to an investor fund entity in compliance with § 5001.204, subject to the eligibility requirements of the NMTC program. The Agency may require additional personal, partnership or corporate guarantees if warranted by an Agency evaluation of potential financial risk. The QALICB is the ultimate user of the guaranteed loan funds, and their owners should provide a guarantee of the guaranteed loan as stipulated in § 5001.204.

(7) The insurance provisions of § 5001.205(d) of this part apply only to the QALICB and the sub-CDE's secured loan to the QALICB.

(8) The financial report provisions of § 5001.504 of this part apply to both the borrower and the QALICB.

(9) The application requirements found in subpart D to this part, as applicable, apply to both the borrower and the QALICB, including the application analysis and evaluation components of § 5001.303. The Agency also requires submission of the loan terms and documents between the sub-CDE and QALICB. As part of the application completed by the lender, the documentation must include comparable industry information and a summary of the NMTC project's funding path and an explanation of the relationships between all parties in the NMTC transaction (an accompanying schematic is encouraged for complicated transactions).

(10) The environmental responsibilities specified in § 5001.207 of this part apply to the NMTC project.

(11) For any application that the Agency assigns a priority score, when assigning the priority score to a NMTC loan application, the Agency will score the project based on the entire NMTC structure and the QALICB's project as the ultimate use of guaranteed loan funds.

(12) The lender is responsible for ensuring that the NMTC project complies with the planning, performing, development and project monitoring provisions in § 5001.205 of this part and the lender is also responsible for ensuring the NMTC project complies with all applicable Treasury NMTC requirements.

(13) Sections 5001.401 through 5001.408 of this part apply to both the borrower and the QALICB in a NMTC transaction.

(14) Agency concurrence of the NMTC structure is required on all projects leveraging the NMTC program.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70356, Dec. 10, 2021; 87 FR 7367, Feb. 9, 2022; 89 FR 79716, Sept. 30, 2024]

§§ 5001.142–5001.200 [Reserved]

Subpart C—Orgination Provisions

§ 5001.201 General origination requirements.

The lender is responsible for originating a guaranteed loan in accordance with the requirements of this part and in accordance with its internal origination policies and procedures to the extent they do not conflict with the requirements of this part. For each application, the lender must prepare a credit evaluation that is consistent with Agency standards found in this part. The Agency reserves the right to review the lender's credit evaluation and request additional information. Lender approval does not constitute Agency approval.

§ 5001.202 Lender's credit evaluation.

For each application, the lender must prepare a credit evaluation that is consistent with Agency standards found in this part. Lenders are required to only submit complete loan applications that have been approved by their institution after completion of their internal credit evaluation. The components of a lender's credit evaluation will include a written review and comment on the ''Five Cs'' of credit that are outlined in § 5001.202(b)(1) through (5). The Agency should be able to obtain sufficient details on the project, the borrower, and the borrower's ability to repay the loan from the lender's credit evaluation.

(a) *Lender's evaluation guidelines.* The lender must conduct a credit evaluation using credit documentation procedures and underwriting processes that are consistent with generally accepted prudent lending practices for commercial, public and project financing, and also consistent with the lender's own policies, procedures, and lending practices. The underwriting process must include a review of each loan for which a loan guarantee is being sought under this part. Applications involving affiliated entities must include a global credit evaluation and if applicable a global historical and projected debt service coverage analysis. The lender should evaluate the relationships between all associated parties to determine potential risks which may affect our borrower and its ability to repay the loan. Entities which may have an impact on the borrower or significantly contribute to the repayment ability of the loan should provide financials for global analysis. Applications involving guarantor(s) must also include a global debt service coverage analysis of the guarantor(s) including the cash flow of

the guarantor(s). In addition, the lender must review all applicable contracts, management agreements, and leases to determine they will not adversely affect either the borrower's repayment ability or the value of the collateral securing the guaranteed loan. The lender's evaluation must address any financial or other credit weaknesses of the borrower and project and discuss risk mitigation requirements imposed by the lender.

(b) *Credit factors.* In performing its credit evaluation, the lender must analyze all credit factors associated with each proposed guaranteed loan and apply its professional judgment to determine that the credit factors and guaranteed loan terms and conditions, considered in combination, ensure guaranteed loan repayment. Credit factors to be analyzed include, but are not necessarily limited to, those areas identified and defined in paragraphs (b)(1) through (5) of this section.

(1) *Character.* Those qualities that generally impel the borrower to meet its obligations as demonstrated by its credit history, including project and borrower debt structure and debt repayment ability. When applicable, an evaluation may include the character of persons with management control or a 20 percent or more ownership interest in the borrower. When the borrower's credit history or character is negative, the lender will provide satisfactory explanations to indicate that any problems are unlikely to recur. The ownership or membership structure of the project and borrower (including membership, sponsors, other equity investors), and the historical performance and experience of ownership and management specific to the project and industry. The historical performance and experience of any entities providing management or administrative services pursuant to contract should also be evaluated. For CF projects the commitment of the rural community or rural area to be served by the project should be evaluated. Borrower's management, and its for-profit, non-profit or governing board, as applicable, will be evaluated to ensure key management personnel are adequately trained and experienced.

(2) *Capacity.* A borrower's ability to produce sufficient cash to repay the guaranteed loan as agreed, including the feasibility and likelihood of the project and borrower to produce sufficient revenues to service the project's debt obligations over the life of the guaranteed loan and, when applicable, result in sufficient returns to investors to ensure successful repayment of the guaranteed loan. The lender shall address any economic safeguards of the project, including capital expenditure budgeting or reserve funds and other contingency reserve funds such as maintenance reserve funds or debt service reserve funds, intended to protect and safeguard the Agency and lender in the event of default. The lender must make all efforts to:

(i) Ensure that the borrower has adequate working capital, operating capital and reserves for capital expenditures, debt service, and maintenance as applicable; and

(ii) Structure or restructure debt so the borrower has adequate debt coverage, documenting as applicable the necessity of any debt refinancing. The evaluation will be supported by a cash flow analysis.

(3) *Capital.* The borrower must have the resources to adequately capitalize the project and demonstrate the ability to generate and maintain sufficient cash flow for its operations. The extent to which project costs are funded by the borrower in relation to project costs funded by the guaranteed loan or other Federal and non-Federal governmental assistance such as grants, tax credits, or other loans must be analyzed.

(4) *Collateral.* This criterion refers to the security pledged for the guaranteed loan. The lender is responsible for obtaining and maintaining proper and adequate collateral for the guaranteed loan. All collateral must secure the entire guaranteed loan. The lender is prohibited from taking separate collateral for the guaranteed and unguaranteed portions of the guaranteed loan or requiring compensating balances or certificates of deposit as a means of eliminating the lender's exposure on the unguaranteed portion of the guaranteed loan. Collateral can include, but is not limited to: General obligation

bonds; revenue bonds; pledges of taxes or assessments; assignments of facility revenue and byproduct revenue, as well as other assets such as land, easements, rights-of-way, water rights, buildings, machinery, equipment, inventory; accounts receivable, other accounts, contracts, cash, assignments of leases and leasehold interests. Intangible assets may serve as collateral, provided they do not serve as primary collateral. For purposes of determining compliance with this requirement, leasehold improvements such as buildings and other structures on leased property are considered tangible assets and can serve as primary collateral. It is the lender's responsibility to obtain, document, file, record and take all actions necessary to properly perfect and maintain adequate collateral to protect the interests of the lender and the Agency.

(i) The lender must determine the market value of collateral as established by an appraisal in accordance with § 5001.203.

(ii) The lender should discount collateral consistent with sound loan-to-discounted value practices which must be adequate to secure the guaranteed loan in accordance with this section. To assess collateral adequacy and appropriate levels of discounting, the lender should give consideration to the type, quality, location, marketability, and alternative uses of the collateral and the basis for the valuation of the collateral, *e.g.* collateral valued on a cost or replacement valuation or market or comparable sales valuation may require variance of discount factors. The lender must provide satisfactory justification of the discounts being used.

(5) *Conditions.* This paragraph (b)(5) refers to the general business environment, including the regulatory environment affecting the business or industry, and status of the borrower's industry. Consideration will be given to items listed in paragraphs (b)(5)(i) through (ix) of this section and when applicable the lender should submit supporting documentation (*e.g.,* feasibility study, market study, preliminary architectural or engineering reports, etc.) in accordance with *§§ 5001.304* through *5001.307:*

(i) Availability and depth of resource/feedstock market, strength and duration of purchase agreements and availability of substitutes;

(ii) Analysis of current and future market potential and off-take agreements, competition, type of project (service, product, or commodity based);

(iii) Energy infrastructure, availability and dependability, transportation and other infrastructure, and environmental considerations;

(iv) Technical feasibility including demonstrated performance of the technology and integrated processing equipment and systems, developer system performance guarantees, or technology insurance;

(v) Complexity of construction and completion, terms of construction contracts, experience and financial strength of the construction contractor or engineering, procurement, and construction (EPC) contractor;

(vi) Contracts and intellectual property rights, licenses, permits, and state and local regulations;

(vii) Creditworthiness of any counterparties, as applicable;

(viii) Industry-related public policy issues; and

(ix) Other criteria that the lender or Agency deems relevant to the project.

(6) *Content.* The credit evaluation must be sufficiently detailed to describe the proposed loan, business and project scenario and document that the proposed loan is sound. The credit evaluation must include:

(i) A written evaluation of each credit factor listed in paragraphs (b)(1) through (5) of this section and any additional factors as appropriate; and

(ii) A written evaluation of the feasibility study, business plan, technical report, and engineering and architectural reports, as applicable; and

(iii) Spreadsheets and analysis of the financial statements provided in accordance with § 5001.303, with appropriate ratios and comparisons with industry standards (such as Dun & Bradstreet or the Risk Management Association). The spreadsheets should enable a reviewer to easily scan the data, spot trends, and make comparisons. Steps taken or proposed to address any financial or industry weakness must be reasonable and adequately addressed.

(iv) Financial projections deviating from historical financial performance must be substantiated and documented. The borrower's projections should be consistent with their past performance. Increases to revenues, profit margins or profitability should be reasonable and substantiated in the analysis.

(v) Projected operational cash flow analysis on a quarterly basis for borrowers with seasonal cyclical cash flow.

(vi) Operational cash flow analysis on a quarterly basis from the current financial statements through start-up or occupancy for projects involving construction when lenders are requesting the loan note guarantee prior to completion of construction The lender and borrower are required to provide a construction schedule with their application for a loan guarantee prior to construction completion. The projected cash flow needs should mirror the quarterly construction costs as the project is being completed. The cash flow analysis must indicate whether this cash flow is being provided by the guaranteed loan, borrower equity, or other sources.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70356, Dec. 10, 2021; 87 FR 7367, Feb. 9, 2022; 89 FR 79717, Sept. 30, 2024]

§ 5001.203 Appraisals.

Appraisals of collateral are required as set forth in this section. The lender is responsible for ensuring that appraisal values adequately reflect the actual value of the collateral based on an arm's length transaction. Completed appraisals should be submitted when the application is filed. If the appraisal has not been completed when the application is filed, the lender must submit an estimated appraised value. Prior to the issuance of the loan note guarantee, the estimated value must be supported with an appraisal acceptable to the approval official. If an appraisal is received containing any value attributed to business valuation or as a going concern, the business valuation or going concern value must be deducted from the reconciled market value prior to discounting. The Agency expects that, for appraisals of existing facilities, the appraiser will physically visit the property unless prior permission from the Agency is obtained. Appraisals are not typically required when security consists of either a revenue or general obligation bond or liens on real estate for WWD projects which rely on revenues of the facilities for loan repayment.

(a) *Newly-acquired chattel.* A bill of sale may be submitted to support the value of newly-acquired chattel.

(b) *Existing chattel.* The lender must obtain appraisal(s) for existing chattel collateral when its value exceeds $250,000 and will be used to meet loan to value requirements.

(c) *Real estate.* The lender must obtain appraisals for real estate collateral when the value of the collateral exceeds $250,000 or the current limitation established under the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) Public Law 101–73, 103 Stat. 183 (1989). Real estate and chattels with a value below these thresholds must be evaluated in accordance with the lender's primary regulator's policies relating to appraisals and evaluations or, if the lender is not regulated, in accordance with normal banking practices and generally accepted methods of determining value. For construction projects, the lender must obtain the ''As is'' market value and the ''prospective'' market value as of the date of construction completion to determine the value of the real estate property.

(d) *Appraisal standards.* (1) Each real estate appraisal must be conducted by an independent qualified appraiser in accordance with the USPAP or similar Agency approved standard. The appraiser must have the specific qualification, experience, and competency to appraise the type of facility being financed. All real estate appraisals must meet the requirements contained in the FIRREA, and the appropriate guidelines contained in Standards 1 and 2 of the USPAP or similar Agency approved standard, and, unless approved by the Agency approval official, be performed by a State Certified General Appraiser licensed in the State in which the real estate is located.

(2) Chattel appraisals must be conducted by an independent qualified appraiser and must be based on industry recognized standards and reflect the age, condition, and remaining useful life of the equipment.

(e) *Interagency appraisal and evaluations guidelines.* Notwithstanding any exemption that may exist for transactions guaranteed by a Federal Government agency, all appraisals obtained by the lender under this part must conform to the interagency appraisal and evaluations guidelines established by the lender's primary Federal or State regulator, if applicable.

(f) *Environmental considerations.* When the Agency will take a lien on real property, the real estate appraisals must include consideration of the potential effects from a release of hazardous substances or petroleum products or other environmental hazards on the market value of the collateral, as determined in accordance with the appropriate ASTM International Real Estate Assessment and Management environmental standards. Potential contamination that has been observed on the property or identified through research or interviews with individuals knowledgeable about the property should be immediately reported to the Agency.

(g) *Appraisal review report.* The lender must submit its complete technical review of the appraisal in an appraisal review report prepared in compliance with USPAP Standards 3 and 4 to the Agency before guaranteed loan closing.

(1) Appraisals must not be more than one year old. However, the Agency may request a more recent appraisal in order to reflect more current market conditions.

(2) The lender must provide documentation that, in addition to the other requirements of this section pertaining to appraisers, the appraiser has the necessary experience and competency to appraise collateral.

(h) *Appraisal fees.* Unless otherwise stated in this part, appraisal fees or any other associated costs will not be paid by the Agency. Appraisal fees are eligible loan purposes. The Agency does not pay for appraisals required at the time of loan application. Appraisals for servicing actions are handled in accordance with section 5001 subpart F.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79718, Sept. 30, 2024]

§ 5001.204 Personal, partnership, and corporate guarantees.

The provisions of this section do not apply to passive investors.

(a) Except as provided in paragraph (c) of this section, Agency-approved, unsecured personal, partnership, and corporate guarantees for the full term of the guaranteed loan and at least equal to the guarantor's percent interest or membership in the borrower times the guaranteed loan amount are required from any person or entity owning a 20-percent or greater interest or membership in the borrower. In the event a portion of the borrower's ownership interest stock is sold or transferred, the Agency reserves the right to require personal or corporate guarantees from the new owners of a 20-percent or more interest in the borrower.

(b) When warranted by an Agency assessment of potential financial risk, the Agency may require the following:

(1) Guarantees to be secured;

(2) Guarantees from any person or entity owning less than a 20-percent interest or membership in the borrower; and

(3) Guarantees from persons whose ownership interest in the borrower is held indirectly through intermediate or affiliated entities.

(c) Exceptions to the requirement for personal, partnership or corporate guarantees may be requested by the lender. The lender must document, to the Agency's satisfaction, that collateral, equity, cash flow, and profitability indicate an above-average ability of the borrower to repay the loan. The Agency will evaluate these requests on a case-by-case basis.

(d) Each guarantor must execute an Agency-approved guarantee form in addition to any guarantee form required by the lender.

(e) Any amounts paid by the Agency pursuant to a claim by a guaranteed program lender will constitute a Federal debt owed to the Agency by a guarantor of the loan, to the extent of

the amount of the guarantor's guarantee.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70357, Dec. 10, 2021; 87 FR 7368, Feb. 9, 2022; 89 FR 79718, Sept. 30, 2024]

§ 5001.205 General project monitoring requirements.

In complying with the requirements of this section, the lender may rely on written materials and other reports provided by an independent engineer and other qualified consultants.

(a) *Design requirements.* The lender must ensure that all facilities constructed with guaranteed loan funds are:

(1) Designed using accepted architectural, engineering, and design practices, taking into consideration any Agency comments when the facility is being designed;

(2) Designed in conformance to applicable Federal, Tribal, State, and local codes and requirements;

(3) Constructed to support operations at the level and quality contemplated by the borrower using accepted architectural and engineering practices; and

(4) Compliant with applicable domestic procurement preference requirements including section 70914 of the Build America, Buy America Act (BABAA) within the Infrastructure Investment and Jobs Act (Pub. L. 117–58).

(b) *Rights-of-ways, easements, and property rights.* The lender is responsible for ensuring that the borrower has:

(1) Obtained valid, continuous, and adequate rights-of-way and easements, in compliance with Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) if applicable, needed for the construction, operation, and maintenance of a project; and

(2) Obtained and recorded such releases, consents, or subordinations to such property rights from holders of outstanding liens or other instruments as may be necessary for the construction, operation, and maintenance of the project and to provide the required security.

(c) *Permits, agreements, and licenses.* It is the lender's responsibility to ensure the borrower obtains all permits, agreements, and licenses that are applicable to the project.

(d) *Insurance.* It is the lender's responsibility to ensure the borrower obtains and maintains borrower and project insurance in substance and amount similar to that ordinarily required by lenders in the industry.

(e) *Construction monitoring requirements.* The lender, or its designated agent, will monitor the progress of construction of the project and undertake the reviews and inspections necessary to ensure that construction conforms to applicable Federal, Tribal, State, and local code requirements and that construction proceeds in accordance with the plans, specifications, and contract documents.

(1) *Construction inspections.* The lender must notify the Agency of any scheduled field inspections during construction. The Agency may attend any field inspections the lender may conduct. Any Agency inspection, including those with the lender, are for the benefit of the Agency only (and not for the benefit of other parties in interest) and do not relieve any parties of interest of their responsibilities to conduct necessary inspections. On a case-by-case basis in the event that the Agency determines that there is additional risk to the government, the Agency may require the use of a qualified, independent inspector to inspect construction to ensure the project is being adequately built to meet the borrower's requirements of the borrower's approved project and comply with all applicable codes and legal requirements.

(2) *Issuance of loan note guarantee prior to completion of the project's construction.* Except for projects utilizing non-proven technologies, the lender may request that the loan note guarantee be issued prior to completion of a project's construction. The lender's request will be considered by the Agency, who may require credit risk mitigation. An additional fee for issuance of the loan note guarantee prior to completion of the project's construction will be assessed in accordance with § 5001.454(c) in subpart E. The lender must verify and include evidence of the following in its request:

(i) The promissory note specifying the full term of the note and containing the terms and conditions of each draw period;

(ii) The borrower and lender have entered into a contract with an independent disbursement and monitoring firm with a construction monitoring plan acceptable to and approved by the Agency or, the lender documents that they have the capacity and experience to disburse funds and provides a monitoring plan acceptable to the Agency;

(iii) The borrower and lender have agreed to a detailed timetable for the project with a corresponding budget of costs setting forth the parties responsible for payment. The timetable and budget will be confirmed as adequate for the planned development by a qualified independent consultant (*e.g.*, the project architect or engineer) with demonstrated experience relating to the project's industry. The lender must provide evidence that there is sufficient cash flow to complete the project construction, including contingencies for cost overruns, plus working capital during the business start-up period;

(iv) The borrower has entered into a firm, fixed-price construction contract with an independent general contractor with costs outlined in detail and terms specifying change order approvals, the agreed retainage percentage, and the disbursement schedule. In all cases, borrower equity must be injected prior to any guaranteed loan funds;

(v) Evidence the lender has properly vetted the financial feasibility and past performance of the contractor to show they are able to complete the project or that the lender has mitigated risk in the event the project is never completed, such as requiring a 100-percent performance/payment bond on the borrower's contractor to be maintained until the contractor is released from its obligation. The bonding agent must be listed on Treasury Circular 570;

(vi) Evidence, which the Agency at its sole discretion determines is satisfactory, that the lender has completed the due diligence necessary to confirm that the contractor is able to complete the project based on information including but not limited to the financial statements and past performance of the contractor;

(vii) When applicable, the borrower has entered into a contract with an independent technology development firm guaranteeing completion of the project with the necessary technology to successfully run the project and system performance for projects that utilize integrated processing equipment and systems, such as biorefineries, RESs, and chemical manufacturing plants. The credit underwriting of the independent technology development firm must be satisfactory to and approved by the Agency. This is not limited only to renewable energy projects, but may include energy efficiency, renewable chemical, and biobased manufacturing projects. The intent of the provision is to ensure that all technology proposed for the project can be successfully integrated together to ensure successful installation and performance of the system. The respective technology providers usually guarantee their specific technology with quality parameters of input such that the end-product is what is proposed in both quality and yield. An engineering, procurement, construction (EPC) provider is responsible for the construction and assembly of the plant or facility. They adopt the quality limits and guarantee that the integrated facility that is built will perform according to specifications such that the input and operational bounds are met. The provision is likely applicable to the following types of projects:

(A) *Anaerobic digester.* An anaerobic digester project which uses a biological process that requires specific conditions and environment to be able to produce the product of biogas that can be refined to renewable natural gas (RNG). In some simpler cases the gas will be used for heat or electricity, but in other more involved cases, it will be cleaned and refined to make RNG that is marketable, and quality assessed to enter an interconnect pipeline. These types of projects should be approved and verified by an independent technology firm, for integrated performance integrity and operability as well as yield integrity.

(B) *Landfill biogas.* Like anaerobic digesters projects, a landfill biogas

project will have multiple steps and processes such as collection, clean-up, flaring and refinement to a fuel or the gas can be used to produce electricity. These types of projects should be approved and verified by an independent technology firm for integrated performance integrity and operability, as well as yield integrity.

(C) *Biofuel, biomass, ethanol, biodiesel.* A biofuel, ethanol, biomass, or biodiesel system will have multiple steps in which it must operate in line with the design proposed that has been from demonstration campaigns. It is paramount that an independent technology firm verify and guarantee the operation and performance of these integrated systems as they will have multiple processes which need to work in concert for the project to be successful. These types of projects should be approved and verified by an independent technology firm for integrated performance integrity and yield.

(D) *Solar thermal.* Solar thermal systems must have multiple processes in order to provide the end product of power, hot water, or heat. Due to their potential complexity, these systems should be approved and verified by an independent technology firm for performance integrity and operability.

(E) *Hydrogen.* These types of projects should be approved and verified by an independent technology firm for integrated performance integrity.

(F) *Geothermal.* Depending on system complexity and if it has multiple processes, the project should be fortified with a guarantee that the system will operate definitively.

(G) *Renewable chemical.* A project utilizing a series of chemical processes and reactions to produce a polymer that can be sold to make biodegradable plastics. An example of a BBP project utilizing gasification technology to produce a biochar or soil amendment as an end-user product.

(viii) Evidence, in form and substance satisfactory to the Agency, that there is sufficient contingency funding in place to handle unforeseen cost overruns without seeking additional guaranteed assistance.

(f) *Reporting during construction.* Regardless of when the loan note guarantee is issued, all lenders must report any problems in project development to the Agency within 15 calendar days of identifying the problem. If the loan note guarantee has been issued prior to construction or completion of the project, the lender must provide monthly construction reports that contain:

(1) Certifications for each draw request as follows:

(i) Certification by the independent engineer or qualified consultant to the lender that the work referred to in the draw has been successfully completed; and;

(ii) Certification by the borrower and independent engineer or qualified consultant that the guaranteed loan funds of the prior draw have been applied to eligible project costs in accordance with the draw request and that the contractors have delivered mechanics lien waivers in connection with such draw;

(2) List of invoices;

(3) Details regarding the borrower's equity, other funds, and guaranteed loan funds disbursed to date;

(4) Status of construction; and

(5) Inspection reports; and

(6) Concerns, potential problems, cost overruns, etc.

(g) *Use of guaranteed loan funds.* The lender must ensure that:

(1) All borrower funds are utilized prior to guaranteed loan funds;

(2) Guaranteed loan funds are only used for eligible project costs in accordance with the purposes approved by the Agency in the conditional commitment and in accordance with the plans, specifications, and contract documents; and

(3) The project will be completed within the approved budget.

(h) *Project completion.* Once construction of the project is completed, the lender must obtain and have on file all mechanics lien waivers or releases from all contractors and materialmen. The lender will provide to the Agency:

(1) A copy of the notice of completion or similar document issued by the relevant jurisdiction;

(2) Certification that all funds were used for authorized purposes; and

(3) A written certification that the project will be used for its intended purpose and will meet the borrower's

needs and guaranteed loan purposes in accordance with the application approved by the Agency.

(4) RES or EEI projects and projects that utilize integrated processing systems and equipment, such as biorefineries, renewable energy systems, and chemical manufacturing facilities, unless utilizing the provisions of paragraph (e)(2) of this section, must be constructed, installed, and operated as described in the technical report or on the vendor certification prior to disbursement of guaranteed loan funds. For RES, the system must be operating at the steady state operating level described in the technical report or on the vendor certification for a period of not less than 30 calendar days, unless this requirement is modified by the Agency, prior to disbursement of funds.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70357, Dec. 10, 2021; 89 FR 79718, Sept. 30, 2024]

§ 5001.206 Compliance with USDA Departmental Regulations, Policies, and other Federal laws.

(a) *Departmental regulations.* All projects receiving a loan guarantee under this part are subject to the provisions of USDA's Departmental Regulations, as applicable.

(b) *Other Federal laws.* Lenders and borrowers must comply with other applicable Federal laws including, but not limited to the following:

(1) Equal Employment Opportunity.

(2) Americans with Disabilities Act.

(3) Equal Credit Opportunity Act.

(4) Fair Housing Act.

(5) Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA).

(6) Section 70914 of the Build America, Buy America Act (BABAA) within the Infrastructure Investment and Jobs Act (Pub. L. 117–58).

(7) 31 U.S.C. 3354 Do Not Pay Initiative.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79719, Sept. 30, 2024]

§ 5001.207 Environmental responsibilities.

Actions taken under this part must comply with 7 CFR part 1970. The Agency is responsible for ensuring that the requirements of the National Environmental Policy Act of 1969 (under 40 CFR part 1500) and related compliance actions, such as Section 106 of the National Historic Preservation Act (under 36 CFR part 800) and section 7 of the Endangered Species Act, are met. The Agency will complete the appropriate level of environmental review in accordance with 7 CFR part 1970, ''Environmental Policies and Procedures.''

(a) *Borrower and lender responsibilities.* Both the borrower and lender must take into consideration the potential environmental impacts of the project at the earliest planning stages. The Agency recommends that the lender contact the Agency to determine environmental requirements as soon as practicable after deciding to apply for a guarantee under this part.

(1) The lender is responsible for becoming familiar and ensuring compliance with Federal environmental requirements. The lender must alert the Agency to any environmental issues related to a project or items that may require extensive environmental review. Proposals that minimize the potential of any project to adversely impact the environment must be developed and provided upon request by the Agency.

(2) The lender must ensure that the borrower has—

(i) Provided the necessary environmental information to enable the Agency to undertake its environmental review process in accordance with 7 CFR part 1970, including the provision of all required Federal, State, and local permits;

(ii) Not taken any actions or incurred any obligations with respect to the project that would either limit the range of alternatives to be considered during the Agency's environmental review process or which would have an adverse impact on the environment, such as the initiation of construction. Taking any such actions or incurring any such obligations could result in project ineligibility; and

(iii) Complied with any environmental mitigation measures required by the Agency.

(b) *Environmental reviews.* The Agency must complete all required environmental reviews, identifying and addressing, as appropriate, disproportionately high and adverse human health

or environmental effects on minority populations and low-income populations, in accordance with 7 CFR part 1970.

(1) The Agency may schedule a site visit if the Agency determines one is necessary in order to determine the scope of the environmental review.

(2) The lender must assist in the collection of additional data when the Agency needs such data to complete its environmental review of the project and mitigation of environmental issues.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79720, Sept. 30, 2024]

§ 5001.208 Conflicts of interest.

The lender must report all conflicts of interests, in writing, to the Agency.

§§ 5001.209–5001.300 [Reserved]

Subpart D—Guarantee Application Provisions

§ 5001.301 Beginning the application process.

(a) The lender must file applications and related documents through their Agency contact.

(b) The lender may complete either a request for preliminary eligibility review in accordance with § 5001.302 or a full application in accordance with §§ 5001.303 through 5001.307, as applicable, to begin the process for obtaining a guaranteed loan. The Agency encourages, but does not require, lenders to file requests for preliminary eligibility reviews in order to obtain Agency comments before submitting a full application.

[89 FR 79720, Sept. 30, 2024]

§ 5001.302 Preliminary eligibility review.

(a) *Contents.* Except as otherwise indicated, each request for a preliminary eligibility review must contain the material identified in paragraphs (a)(1) through (3) of this section. This information may be submitted in a narrative format or utilizing the lender's preliminary lender's analysis or preliminary credit memo.

(1) Regardless of format, the lenders must provide the following information:

(i) Name of the proposed borrower and co-borrower(s) as applicable, organization type, address, contact person, email address, and telephone number;

(ii) Name of the proposed lender, address, telephone number, contact person, email address;

(iii) Amount of the guaranteed loan request; and if known, the percentage of guarantee requested; the proposed rates and terms of the guaranteed loan; and the source(s) of other funding;

(iv) If known, a description of collateral to be offered with estimated value(s), identity of guarantors, and the amount and source of equity, other capital, and matching funds to be contributed to the project; and

(v) A brief description of the project, its location, products or services provided, service area, and, as applicable, availability of raw materials and supplies.

(2) Sufficient information and documentation to enable the Agency to assess borrower, lender, and project eligibility, including summaries or spreadsheets of financial statements or audits, relationships and identity of any affiliates; and copies of organizational documents, organizational charts, and existing debt instruments.

(3) For REAP projects:

(i) Borrower information as outlined in § 5001.307(a) and (b), and project information as outlined in § 5001.307(c).

(ii) For REAP RES projects where a residence is located at or is closely associated with and shares an energy metering devise with a rural small business or agricultural operation, demonstration that 50 percent or greater of the energy to be generated by the RES will benefit the rural small business or agricultural operation.

(b) *Assessment.* Based on the information submitted for the preliminary eligibility review, the Agency will make an informal assessment of the types of guarantee funding applicable to the request, and the eligibility of the borrower, project, and lender. The Agency will provide written informal comments. The assessment may change based on subsequently submitted information, is solely advisory in nature,

does not obligate the Agency to approve a guarantee request, and is not considered a favorable or adverse decision by the Agency.

§ 5001.303 Applications for loan guarantee.

The Agency will accept applications on a continuous basis. For each loan guarantee request, the lender must submit to the Agency a complete application that is in conformance with this section, and §§ 5001.304 through 5001.307, as applicable.

(a) *Complete applications.* Lenders must submit complete applications in order to be considered for loan guarantees. Lenders are encouraged to submit a complete application in a single package; however, the Agency may accept the environmental information required by the Agency and initiate and complete its environmental reviews in advance of receiving a complete application. If an application is incomplete, the Agency will notify the lender in writing of the items necessary to address the incomplete application. Upon receipt of a complete application, the Agency will complete its evaluation.

(b) *Content.* Lenders must provide an analysis of the scope of the project in relation to the borrower's overall operations. The application and lender's analysis should be supported by adequate documentation as applicable to the project and as listed in paragraph (c) of this section. The Agency reserves the right to request additional documentation to support the funding request. All complete applications must contain at a minimum:

(1) Agency-approved application form or system that includes all items noted in this section;

(2) Credit evaluation (conforming to § 5001.202).

(3) Environmental information required by the Agency to conduct its environmental reviews (as specified in § 5001.207(a)(2)(i)).

(4) Required financial statements including:

(i) Current Agency-acceptable balance sheet and year-to-date income statements of the borrower, and any guarantor(s) dated within 90 days of submission of the complete application;

(ii) Agency-acceptable historical balance sheet, income statements, and cash flow statements of the borrower for the lesser of the last three fiscal years or all years of operation; and

(iii) Projected balance sheets, income statements, and cash flow statements or a financial model starting from the current financial statements through a minimum of two years of the project performing at full operational capacity or stable operations. Based on the type of project or at the discretion of the Agency, financial projections or models may be required from current financial statements up to the end of the term of the guaranteed loan. Financial projections must be supported by a list of assumptions showing the basis for the projections. Projected financial statements must include a pro forma balance sheet projected for guaranteed loan closing.

(iv) The Agency may request additional financial statements, financial models, cash flow information, updated financial statements, and other related financial information to determine the financial feasibility of a project and evaluate the credit underwriting of borrower, its affiliates, and any guarantors.

(5) Identify whether or not the borrower has a known relationship or association with an Agency employee. If there is a known relationship, identify each Agency employee with whom the borrower has a known relationship.

(6) At the time of the loan application, the lender must submit its loan classification and credit risk rating classification scale.

(c) *Provisional content.* The following items may also be required based on the type of project being financed or if deficiencies exist in the credit evaluation and more information is needed to adequately determine risk:

(1) For all applications of $600,000 or greater, a draft loan agreement for the guaranteed loan.

(2) Appraisals in accordance with § 5001.203.

(3) Current credit reports or the equivalent on the borrower, any payment guarantors and any person or entity owning greater than a 20 percent or more interest in the borrower or

controls the borrower, except for passive investors and those corporations listed on a major stock exchange. A credit report or its equivalent are not required for elected and appointed officials when the borrower is a public body, or Indian Tribe, or for members of a non-profit organization. Credit reports must be submitted to the Agency for all applications for guaranteed loans in the amount of $200,000 or more. For lenders that are submitting smaller requests, the lender must keep the credit report on file with the lender's application.

(4) Feasibility study: If the Agency is unable to determine a basis for successful repayment of a guaranteed loan based on the documentation and analysis of the five feasibility study components provided in the lender's analysis, borrower's business plan, or other project information, or if the proposed project will have significant impacts on existing operations, the Agency may require an independent feasibility study. The elements of an acceptable feasibility study may vary by project scope and should be prepared by a qualified, independent third party using applicable elements of the project, including but not limited to those outlined in appendix A to subpart D of this part.

(5) Intergovernmental consultation comments in accordance with 2 CFR part 415, subpart C, or successor regulation, unless exemptions have been granted by the State's single point of contact.

(6) Engineering documentation.

(7) Architectural reports.

(8) Energy audits or energy assessments in accordance with § 5001.107.

(9) Energy efficient equipment and systems data in accordance with § 5001.108.

(10) Business plan: Unless the information is contained in the feasibility study or in the credit evaluation, a business plan should be submitted to show how the project will operate and remain viable. This requirement may be omitted when guaranteed loan funds are used exclusively for debt refinancing.

(11) If the application is for five or more residential units, including nursing homes and assisted-living centers, an Affirmative Fair Housing Marketing Plan that is in conformance with 7 CFR 1901.203(c)(3).

(12) If the application is for financing of health care facilities, a certificate of need, if required by Federal or State law.

(13) Department of Labor form as noted in § 5001.306(a)(1).

(14) Pro-forma balance sheet for closing as noted in § 5001.306(a)(2).

(15) Securities and Exchange Commission (SEC) Form 10–K, ''Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934,'' as noted in § 5001.306(a)(4).

(16) Technical reports in accordance with § 5001.307(e).

(17) Certification regarding credit elsewhere in accordance with § 5001.126(b)(3) and (c)(2).

(18) Certification of significant community support in accordance with § 5001.126(b)(4) and (c)(3).

(19) Copies of organizational documents if not already provided with a preliminary eligibility review in accordance with § 5001.302.

(d) *Application modification.* Once a complete application is accepted by the Agency and prior to Agency award of a loan note guarantee, any modification to the application will be treated as a new application and the Agency will process the information accordingly. The submission date of record for a modified application is the date the Agency receives the modified application information.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70357, Dec. 10, 2021; 89 FR 79720, Sept. 30, 2024]

§ 5001.304 Specific application requirements for CF projects.

In addition to the requirements specified in § 5001.303 as applicable, a lender seeking a loan guarantee for a CF project must submit a financial feasibility report prepared by a qualified firm or individual acceptable to the Agency. All projects financed under this section must meet the financial feasibility requirements of this section and must be based on projected taxes, assessments, revenues, fees, or other sources of revenues in an amount sufficient to provide for project operation and maintenance, debt payments, and

compliance with lender reserve requirements, when applicable. Other sources of revenue or existence of payment guarantors are particularly important in considering the feasibility of eligible recreation projects. The financial feasibility report must take into consideration any interest rate adjustment that may be instituted under the terms of the promissory note. Financial projections for projects that are assisted living facilities, skilled nursing facilities, or similar types of eligible residential facilities must be based on no more than 90 percent occupancy. Utility projects dependent on user fees for debt repayment shall base their income and expense forecast on user estimates supported by either a State statute or local ordinance requiring mandatory hookup or signed and enforceable user agreements. If the primary use of the essential community facility is by a business and the success or failure of the facility is dependent on that business, then the economic viability of that business must also be assessed. For projects that include the purchase and installation of RES that meet the eligibility requirements of § 5001.103(a)(8), a technical report on the RES as outlined in § 5001.307(e)(1) and (2), as applicable, will be included with the applicable financial feasibility report. The type of financial feasibility report required will depend upon the size of the guaranteed loan, the collateral securing the guaranteed loan, and the financial history of the borrower. The two types of financial feasibility report and when they are required are described in paragraphs (a) and (b) of this section.

(a) *Financial feasibility analysis.* The financial feasibility analysis will be prepared by a qualified firm or individual who may be the lender. Financial feasibility analysis requirements are outlined in appendix B to subpart D of this part. The lender's credit evaluation may serve as the financial feasibility analysis provided it includes the items outlined in appendix B to subpart D of this part. A financial feasibility analysis will be required if any of the following circumstances exist:

(1) Guaranteed loans of $25 million or less to existing community facilities;

(2) Guaranteed loans secured by a general obligation bond, or other tax supported income sufficient to pay the debt service for the life of the loan; or

(3) Borrowers with audited financial statements, if the last three years indicate the ability to pay all existing and new debt service.

(4) The Agency may require a feasibility study when the lender's analysis, borrower's business plan, or project information is not sufficient to determine the technical feasibility, market feasibility, or economic viability of the project.

(i) For guaranteed loans greater than $1,000,000.00 to a new entity or an entity conducting a new activity, a feasibility study prepared by an independent qualified consultant acceptable to the Agency is required. The scope of the feasibility study will be determined by the Agency and is dependent on the complexity of the project and the borrower.

(ii) For loans of $1,000,000.00 or less to new and existing entities, the Agency may require a feasibility study when the lender's analysis or other borrower information is not sufficient to determine the technical feasibility or economic viability of the project, or if the project will significantly affect the operations of a borrower who is an existing entity and its historic cash flow.

(b) *Financial feasibility study with examination opinion.* The report must be prepared in accordance with the standards of attestation of the American Institute of Certified Public Accountants, and the preparer must have the requisite professional liability insurance in place. A financial feasibility study with examination opinion will be required for all guaranteed loans that do not meet the requirements for a financial feasibility analysis outlined in paragraph (a) of this section. The financial feasibility study with examination opinion will typically include the items outlined in appendix B to subpart D of this part.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70357, Dec. 10, 2021; 89 FR 79720, Sept. 30, 2024]

§ 5001.305 Specific application requirements for WWD projects.

In addition to the requirements specified in § 5001.303, a lender seeking a loan guarantee for a WWD project must submit the documents specified in paragraphs (a) through (c) of this section.

(a) *Engineering documentation.* (1) Engineering documentation must meet the level of detail the lender would typically require for a standard commercial loan, and include, at a minimum, a description of the proposed project, a cost estimate, the number of residential and non-residential connections, and the population served. The lender may request assistance to clarify the Agency's requirements and regulations; however, the Agency does not provide technical oversight or recommendations as to the technical feasibility of the project.

(2) The lender must ensure that the project is designed utilizing accepted architectural and engineering practices and conforms to applicable Federal requirements (*e.g.*, the seismic requirements of Executive Order 12699 (55 FR 835, 3 CFR, 1990 Comp., p. 269), the debarment requirements of 2 CFR part 180 as supplemented by 2 CFR part 417, American Iron and Steel (Section 746 of Title VII of the Consolidated Appropriations Act of 2017), and the Copeland Anti-Kickback Act (18 U.S.C. 874)); State, local and Tribal codes and requirements; and facility plans or plans and specifications reviewed and approved by the applicable State, local and/or Tribal regulatory agency. The lender must also ensure that the planned project will be completed within the available funds and once completed, will be suitable for the borrower's needs. Upon completion of the project, the lender must certify that all applicable Federal requirements were met.

(b) *Feasibility considerations.* All projects financed under this part must be based on projected taxes, assessments, revenues, fees, or other sources of revenues in an amount sufficient to provide for project operation and maintenance, any reserves required by the lender, and debt payment. The lender's financial credit analysis must take into consideration any interest rate adjustment that may be instituted under the terms of the loan note guarantee.

(c) *Credit analysis requirements.* In addition to the requirements of § 5001.202, if the majority user of the system is a business and the financial success of the system is dependent on that business, then the economic viability of that business must be assessed.

(d) *Domestic procurement preference.* (1) *American Iron and Steel (AIS).* Guaranteed loans must comply with AIS requirements. Lenders and borrowers are responsible for meeting the AIS requirements of Section 746 of Title VII of the Consolidated Appropriations Act of 2017 and the continuing resolutions adopted thereafter.

(2) *Build America, Buy America Act (BABAA).* BABAA was enacted as part of the Infrastructure and Jobs Act (Pub. L. 117–58) on November 15, 2021 and became effective on May 14, 2022. Under Section 70914(a) of BABAA, ''none of the funds made available for a Federal financial assistance program for infrastructure may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States.'' Additional information may be found on the Agency's Build America, Buy America website at *https://www.rd.usda.gov/build-america-buy-america.*

(3) *Compliance.* Owners are ultimately responsible for compliance with the domestic procurement preference requirements and should consult with the Agency early in project development. Compliance must be certified to prior to the issuance of the loan note guarantee. The lender must include any domestic preference language, provided by the Agency, in the loan agreement and other appropriate loan documents.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79720, Sept. 30, 2024]

§ 5001.306 Specific application requirements for B&I projects.

In addition to the requirements specified in § 5001.303, as applicable, a lender requesting a B&I loan guarantee must submit the information specified in paragraph (a) of this section if the guaranteed loan amount is more than $600,000, or in (b) of this section if the

guaranteed loan amount is $600,000 or less.

(a) *Applications requesting a guaranteed loan in an amount greater than $600,000.* (1) The Agency is required to submit project information to the United States Department of Labor for their concurrence if the proposed guaranteed loan is in excess of $1,000,000.00 and will increase direct employment by more than 50 employees. The lender must provide sufficient project and demographic information to the Agency for completion of a Department of Labor review.

(2) A pro forma balance sheet projected for loan closing.

(3) The Agency may require a feasibility study when the lender's analysis, borrower's business plan, or project information is not sufficient to determine the technical feasibility, market feasibility, or economic viability of the project.

(i) For guaranteed loans greater than $1,000,000.00 to a new business, a feasibility study prepared by an independent qualified consultant acceptable to the Agency is required. The scope of the feasibility study will be determined by the Agency and is dependent on the complexity of the project and the borrower.

(ii) For loans of $1,000,000.00 or less to new and existing businesses, the Agency may require a feasibility study when the lender's analysis or other borrower information is not sufficient to determine the technical feasibility or economic viability of the project, or if the project will significantly affect the operations of a borrower who is an existing business and its historic cash flow.

(iii) A technical report is required for RES identified in § 5001.307(e) and for projects utilizing other integrated processing equipment and systems. The contents of the technical report must be consistent with the requirements of § 5001.307(e)(1) and must provide sufficient detail to enable the Agency to determine technical merit. The report can be provided in the technical feasibility section of a feasibility study or in a separate technical report.

(4) For companies listed on a major stock exchange or subject to the Securities and Exchange Commission (SEC) regulations, a copy of their most recent SEC Form 10–K, ''Annual Report Pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934.''

(5) Current financial statements of affiliates.

(b) *Applications requesting a guaranteed loan in an amount of $600,000 or less.* Guaranteed loan applications may be processed under this *paragraph (b)* if the amount of the guaranteed loan does not exceed $600,000, provided the Agency determines that the lender's analysis, borrower's business plan, or other project or borrower information submitted by the lender is sufficient to determine the technical feasibility, market feasibility, and economic viability of the project. If any of the items in paragraphs (a)(1) through (4) of this section apply, the lender must collect the information and maintain it in their file. A lender may need to resubmit or modify an application if the application does not contain sufficient information for the Agency to make an informed loan approval decision.

(1) Lenders submitting applications under this paragraph (b) must include the following information:

(i) Narrative description of the project including the history of the borrower and adequacy of cash flow and borrower equity;

(ii) Required financial statements including a current Agency-acceptable balance sheet and year-to-date income statements;

(iii) Security available for the guaranteed loan including collateral and payment guarantees;

(iv) Strengths and weaknesses of the guaranteed loan and the Lender's need for the loan guarantee to mitigate specific risks.

(2) The lender may elect to not submit the following application documentation to the Agency, but must have the information available in its file for review:

(i) Narrative description of management capabilities and corporate structure of the borrower;

(ii) Environmental information for the project and any environmental reviews;

(iii) Agency-acceptable historical balance sheets and income statements of the borrower and its affiliates;

(iv) Financial statements of any personal, partnership, or corporate guarantors.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79721, Sept. 30, 2024]

§ 5001.307 Specific application requirements for REAP projects.

In addition to the requirements specified in § 5001.303, a lender seeking a loan guarantee for a REAP project must submit the information identified below based on total project costs.

(a) *Borrower eligibility information.* (1) Eligible borrowers must meet the definition of agricultural producer or rural small business as defined in § 5001.3. Agricultural producers seeking funding for a RES or EEI project may apply as either a rural small business or as an agricultural producer, provided they meet the applicable eligibility requirements. Agricultural producers seeking funding for an EEE project must be eligible and apply as an agricultural producer.

(2) The borrower must provide the primary NAICS code applicable to the borrower's business concern and certify on the Agency approved application form or system that it meets the definition of agricultural producer or rural small business. The Agency reserves the right to request supporting documentation to verify borrower eligibility.

(b) *Borrower description.* Describe the ownership of the borrower, including the information specified in paragraphs (b)(1) through (3) of this section, as applicable. Include a description of the borrower's existing farm, ranch, or business operation, including how long the borrower has been in operation. Rural small businesses and agriculture operations owned by Tribes should provide documentation to adequately show the separation of the applicant and the Tribal government.

(1) Describe how the borrower meets the ownership and control requirements as identified in § 5001.126(e)(2).

(2) For each entity(ies) the borrower controls or entity(ies) it is controlled by, provide a list of the individual owners with their contact information. Describe the relationship between the borrower and the other entity(ies), including percentage of ownership and control, management, passive investor ownership, and any products exchanged. Organizational charts to demonstrate the structure of the borrower should be submitted when available.

(3) Identify the ethnicity, race, and gender of the borrower. Identify if the borrower is a veteran. This information is optional and is not required for a complete application but may be used by the Agency to award priority points.

(c) *Project information.* Provide information concerning the project as a whole and its relationship to the borrower's operations, including:

(1) Identification as to whether the project is an RES, EEI, or EEE project. Include a description and the location of the project;

(2) Description of how the project will have a positive effect on resource conservation, public health, and the environment;

(3) Identification of the amount of funds and the source(s) of funds the borrower is proposing to use for the project. Provide written commitments for funds at the time the application is submitted to receive points under this scoring criterion.

(i) For project funding provided by the borrower, documentation may include bank statements that demonstrates availability of funds.

(ii) For project funding that comes from a third party, a commitment letter signed by an authorized official of the third party. The letter must be specific to the project and must identify the dollar amount of any loan or other funding and any applicable rates and terms. If the third-party commitment is for a loan, the commitment must be firm; a letter-of-intent or pre-qualification letter subject to underwriting requirements or contingencies is not acceptable.

(d) *Feasibility study.* For RES projects only, when deemed necessary by the lender or Agency, an analysis conducted in conformance with the definition of feasibility study found in § 5001.3 and with applicable content in appendix A to subpart D of this part.

(e) *Technical report.* All eligible projects must have technical merit and provide information as identified in

§ 5001.106(e), § 5001.107, or § 5001.108 and (e)(1) through (3) of this section.

(1) *Level of detail.* Information provided must be in sufficient detail to enable the Agency to determine the technical merit of the project. Design drawings and process flowcharts are encouraged as exhibits. The technical report requirements can be provided in the technical feasibility section of a feasibility study, instead of completing a separate technical report.

(i) Sufficient information to enable the calculation of simple payback as defined in § 5001.3;

(ii) For RES projects, sufficient information to enable the calculation of the percentage of historical use of energy compared to the amount of renewable energy that will be generated once the project is operating at its steady state operating level. If the project is closely associated with a residence, satisfactory demonstration must be made that 50 percent or more of the projected renewable energy will benefit the agricultural operation or rural small business; and

(iii) Demonstrate that the RES, EEI, or EEE project will operate or perform over the project's useful life in a reliable, safe, and a cost-effective manner, which may include but is not limited to addressing project design, installation, operation, maintenance, and warranties.

(iv) In addition, the following technologies, must provide a technical report in accordance with paragraphs (e)(1)(v) through (viii) of this section, as applicable:

(A) Hydrogen;

(B) Ocean energy;

(C) Geothermal electric generation;

(D) Anaerobic digesters and biogas;

(E) Biomass;

(F) Hybrid applications;

(G) Renewable energy systems with storage components; and

(H) Energy efficiency improvements

(v) For total project costs in the amount of $80,000 or less, a technical report, as identified in § 5001.303(c)(16), prepared in accordance with the following paragraphs, as applicable:

(A) *EEI technical reports.* Each EEI technical report submitted under this section must provide:

(*1*) A description of the proposed EEI, including its intended purpose;

(*2*) Vendor/installer certification that the EEI project uses commercially available technology;

(*3*) Vendor/installer certified projections on the quantity of energy to be saved;

(*4*) Certification by vendor/installer that they are qualified to complete the project as intended;

(*5*) Vendor/installer certification that the EEI system will operate and perform over the project's useful life in a reliable and cost-effective manner; and

(*6*) An estimate of simple payback, including all calculations, documentation, and any assumptions.

(B) *RES technical reports.* Each RES technical report submitted under this section must provide:

(*1*) A description of the proposed RES project, including its intended purpose;

(*2*) Vendor/installer certified projections on energy to be replaced and/or generated, including the quality and availability of the renewable resource to the project; if there is a residence closely associated with the RES project, the historical amount of energy used by the residence and the historical amount of energy used by the agricultural operation or rural small business, as applicable, to satisfactorily demonstrate 50 percent or more of proposed generation will benefit the agricultural operation or rural small business;

(*3*) Vendor/installer certification that the RES project uses commercially available technology;

(*4*) Certification that the vendor/installer is qualified to complete the project as intended;

(*5*) Certification that the project will perform over its useful life in a reliable and cost-effective manner; and

(*6*) The projected financial performance of the project. The description must address total project costs, revenues accrued from the sale or crediting of energy, quantity and value of energy offset, and revenue from byproducts. Include applicable investment and other production incentives and indicate if they are one time or reoccurring incentives. Provide an estimate of simple payback, including all calculations, documentation, and any assumptions.

(C) *EEE technical reports.* Each EEE technical report submitted under this section, regardless of total project costs, must provide:

(*1*) A description of the proposed EEE and its intended purpose, including baseline data, specifications, and efficiency data;

(*2*) Vendor/installer certification that the EEE project uses commercially available technology;

(*3*) Vendor/installer certification of the proposed energy consumption quantity and price per unit of the energy efficiency equipment to be installed;

(*4*) Certification by vendor/installer that they are qualified to complete the project as intended;

(*5*) Vendor/installer certification that the EEE system will operate and perform over the project's useful life in a reliable and cost-effective manner; and

(*6*) An estimate of simple payback, including all calculations, documentation, and any assumptions.

(vi) For EEI guaranteed loan projects with total project costs greater than $80,000, the technical report identified in paragraph (e)(1)(v)(A) of this section applies, except that appendix C to subpart D of this part is to be followed to prepare the report.

(vii) For RES guaranteed loan projects with total project costs greater than $80,000 and up to but not including $200,000, the technical report identified in paragraph (e)(1)(v)(B) of this section applies, except that appendix D to subpart D of this part is to be followed to prepare the report.

(viii) For RES guaranteed loan projects with estimated total project costs of $200,000 or greater, the technical report identified in paragraph (e)(1)(v)(B) of this section applies, except that appendix E to subpart D of this part is to be followed to prepare the report.

(2) *Modifications.* If the technical report is prepared prior to the borrower's selection of a final design, equipment vendor, or contractor, or other significant decision, the borrower may modify the report and resubmit it to the Agency, provided that the overall scope of the project is not materially changed as determined by the Agency. Changes in the technical report may require additional environmental documentation in accordance with 7 CFR part 1970.

(3) *Hybrid projects.* If the application is for a hybrid project, technical reports must be prepared for each technology that comprises the hybrid project.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79721, Sept. 30, 2024]

§§ 5001.308–5001.314 [Reserved]

§ 5001.315 Application evaluation and award provisions.

(a) *General.* The Agency will evaluate all applications according to the provisions of this part and may require the lender to obtain additional assistance in those areas where the lender does not have the necessary expertise to originate or service the guaranteed loan. For the purposes of this paragraph (a), ''those areas'' mean:

(1) The type and complexity of the financing (*e.g.*, asset-based financing, cash flow financing, and bond financing); and

(2) Loans to borrowers engaged in industries where the lender has little or no origination and/or servicing experience.

(b) *Evaluation and eligibility determinations.* The Agency will review each complete application to make a formal determination as to: the eligibility of the borrower, lender, project, and guaranteed loan purpose and proposed use of funds; if there is a reasonable assurance of repayment ability; if sufficient collateral and equity exists; if the proposed guaranteed loan complies with all applicable statutes and regulations; and if the environmental review is complete. The Agency will only guarantee loans that are sound and that have a reasonable assurance of repayment.

(1) If the Agency's evaluation and determination in accordance with this paragraph (b) is favorable, the Agency will proceed in accordance with paragraph (c) of this section.

(2) If the Agency's evaluation and determination in accordance with this paragraph (b) is unfavorable, the Agency will notify the lender, in writing, as applicable, identifying the reason(s) for

determining ineligibility and any applicable appeal or review rights. No further processing of the application will occur.

(c) *Priority score.* The Agency will score each eligible application based on the point system for the respective program identified in §§ 5001.316 through 5001.319.

(1) Lenders must provide necessary information related to determining the priority score, if requested by the Agency. To the extent possible, lenders should consider the established priorities of the Agency when submitting projects for a loan guarantee. Higher scoring applications will receive first consideration for funding.

(2) The Agency may establish a minimum priority score for each guarantee program. The Agency will, if established, publish the minimum score in a document in the FEDERAL REGISTER. Applications that do not meet the applicable minimum score will compete with all other guaranteed loan applications for each specific program in a competition on the first business day of September of the Federal fiscal year in which the application is ready for funding.

(d) *Funding selected applications.* Each program identified in § 5001.1 will consider applications for funding in the order they are received by the Agency. If the Agency approves the application and guaranteed funds are available, the Agency will issue a conditional commitment to the lender in accordance with § 5001.451 of subpart E. In the event total loan requests exceed the amount of funding available the applications will be ranked for priority by each program. As applications are funded, the remaining guaranteed loan funding authority may be insufficient to fund the next highest scoring application or applications (where two or more applications receive the same priority score). The Agency will use the procedures described in paragraphs (d)(1) and (2) of this section as often as necessary to consider all applications as appropriate.

(1) If the remaining funds are insufficient to fund the next highest scoring application completely, the Agency will notify the lender and offer the lender the opportunity to accept the remaining funds. If the lender does not accept the offer, the Agency will process the next highest scoring application.

(2) If the remaining funds are insufficient to fund each application that receives the same priority score, the Agency will notify each lender and offer the lenders the opportunity to accept a prorated share of the remaining funds.

(3) Any lender offered less than the full amount requested under either paragraph (d)(1) or (2) of this section can either accept the funds available or request to compete in the next funding cycle. There is no assurance that the application(s) will be funded in a subsequent funding cycle.

(4) If a lender agrees to the lower loan guarantee amount offered by the Agency under either paragraph (d)(1) or (2) of this section, the lender must certify that the purpose(s) of the project can still be met at the lower funding level and must provide documentation that the borrower has obtained the remaining funds needed to complete the project as originally proposed.

(e) *Handling of ranked applications not funded.* The Agency will withdraw from consideration ranked applications that have not received funding as follows:

(1) If an unfunded application has a priority score equal to or greater than any applicable minimum score, the Agency will retain the application for consideration in subsequent funding cycles. If the unfunded application is not selected for funding after 12 months, including the first month in which the application was considered, the Agency will withdraw the application from further funding consideration.

(2) If an unfunded application has a priority score less than any applicable minimum score and remains unfunded after the competition held on the first business day of September of the fiscal year in which the application is ready for funding, the Agency will notify the applicant in writing and withdraw the application from further funding consideration.

(f) *Commencement of the project.* The borrower assumes all risks if the borrower purchases real property or equipment or starts construction of the

project to be financed by a guaranteed loan after the complete application has been received by the Agency, but prior to the Agency's issuance of the conditional commitment and the lender and borrower's acceptance of the conditional commitment.

(g) *Application withdrawal.* During the period between the submission of an application and prior to issuance of the conditional commitment, the lender must notify the Agency, in writing, if the project is no longer viable or the borrower no longer is requesting financial assistance for the project. When the lender notifies the Agency, the Agency will rescind the selection and withdraw the application, as applicable.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79721, Sept. 30, 2024]

§ 5001.316 CF project priority point system and reservation of funds.

This section applies to CF projects seeking a loan guarantee. Paragraphs (a) through (d) of this section outline the criteria and amount of priority points that may be awarded to an application. The highest possible priority score is 55. Paragraph (e) of this section outlines the reservation of funds for projects located in rural areas of 20,000 population or less.

(a) *Population priority.* If the project will be located in a rural community having a population of less than 20,000—15 points.

(b) *Project priority.* If the project will construct, enlarge, extend or otherwise improve a public safety, health clinic, early education, primary or secondary education facility—10 points.

(c) *Leveraging priority.* If the applicant commits other funds to the project in the following percentages:

(1) 50 percent or more–15 points
(2) 20% up to 49%–10 points
(3) 5% up to 19%–5 points

(d) *Administrator priority.* When guaranteed loan funds are requested from a National Office reserve, the Administrator may assign up to 15 points to address:

(1) Geographic distribution of funds;

(2) Emergency conditions caused by economic problems or natural disasters; or

(3) Initiatives that support the Agency's strategic plan.

(e) *Rural priority.* (1) Of the funds available each Federal fiscal year, as published on the Agency's website, the following amounts shall be reserved for projects in rural areas with a population of not more than 20,000 inhabitants:

(i) 100 percent of the first $200,000,000 so made available;

(ii) 50 percent of the next $200,000,000 so made available; and

(iii) 25 percent of all amounts exceeding $400,000,000 so made available.

(2) On July 1 of each year, the Agency will evaluate the dollar amount of complete applications on hand for projects in rural areas with a population of not more than 20,000 inhabitants. The dollar amount of the complete applications will be subtracted from the reserved allocation identified in this paragraph (e) and the remaining amount will be made available through the end of the Federal fiscal year for projects in rural areas with a population of not more than 50,000 inhabitants.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79722, Sept. 30, 2024]

§ 5001.317 WWD project priority points system.

This section applies to WWD projects seeking a loan guarantee. The highest possible priority point score is 150.

(a) *Population priority.* If the project will primarily serve a rural area having a population under 10,000, 20 points will be awarded.

(b) *Health priorities.* If the proposed project is:

(1) Needed to alleviate an emergency situation, correct unanticipated diminution or deterioration of a water supply, or to meet Safe Drinking Water Act requirements which pertain to a water system, 25 points will be awarded;

(2) Required to correct inadequacies of a wastewater disposal system, or to meet health standards which pertain to a wastewater disposal system, 25 points will be awarded; or

(3) Required to meet administrative orders issued to correct local, State, or Federal solid waste violations, 15 points will be awarded.

(c) *Service area priorities.* An application is eligible to receive points under each of the categories identified in paragraphs (c)(1) through (3) of this section if the service area includes:

(1) An eligible area of long-term population decline according to the last three decennial censuses, 5 points will awarded.

(2) A rural county that has had 20 percent or more of its population living in poverty, as defined by the United States Census Bureau, for the last 30 years, 5 points will be awarded.

(3) For a city or county with a current unemployment rate, as determined by the Department of Labor, that is 125 percent of the State-wide rate or greater, 5 points will be awarded. For projects located in certain territories that may not have unemployment rates by localities, if the applicant's proposed service area has an unemployment rate exceeding 125 percent of the national unemployment rate, 5 points will be awarded.

(d) *Other priorities.* Applications are eligible for points under each of the following priorities:

(1) If the proposed project will merge ownership, management, and operation of smaller facilities providing for more efficient management and economical service, 10 points will be awarded.

(2) If the proposed project will enlarge, extend, or otherwise modify existing facilities to provide service to additional rural areas, 10 points will be awarded.

(3) If the applicant is a public body or Indian tribe, 5 points will be awarded;

(4) If the amount funds committed to the project from sources other than Rural Development is:

(i) 50 percent or more, 15 points will be awarded;

(ii) 20 percent to 49 percent, 10 points will be awarded;

(iii) 5 percent to 19 percent, 5 points will be awarded;

(5) If the project will serve Agency identified target areas, 5 points will be awarded;

(6) If the project primarily recycles solid waste products thereby limiting the need for solid waste disposal, 5 points will be awarded; and

(7) If the project will serve an area that has an unreliable quality or supply of drinking water, 10 points will be awarded.

(e) In certain cases, the approval official may award up to 15 points to a project. The points may be awarded to projects in order to improve compatibility and coordination between WWD and other agencies' selection systems, to ensure effective RUS fund utilization, and to assist those projects that are the most cost effective. A written justification must be prepared and placed in the project file each time these points are assigned.

(f) *National office priorities.* The Administrator may assign up to 15 additional points to account for items such as geographic distribution of funds, the highest priority projects within a state, and emergency conditions caused by economic problems or natural disasters. The Administrator may delegate the authority to assign the 15 points to appropriate National Office staff.

§ 5001.318 B&I project priority point system.

This section applies to B&I projects seeking a loan guarantee. When applications on hand have the same priority score, the Agency will give preference to applications involving guaranteed loans from veterans. To receive veteran points, a veteran or veterans must own 20 percent or more interest in the borrower and the borrower must sign a certification in its application to indicate that the borrower has veteran status. A maximum of 100 points can be awarded.

(a) *Population priority.* If the project is located in an unincorporated area or in a city with a population under 25,000, 5 points will be awarded.

(b) *Location priority.* An application is eligible to receive points under each of the categories identified in paragraphs (b)(1) through (3) of this section if the project is located within:

(1) A distressed community in accordance with the Economic Innovation Group distressed community index. The list can be found on the Agency's website at: *https://www.rd.usda.gov/onerdguarantee,* 5 points will be awarded.

(2) A rural county that has had 20 percent or more of its population living in poverty, as defined by the United

States Census Bureau, for the last 30 years, 5 points will be awarded.

(3) For a city or county with a current unemployment rate, as determined by the Department of Labor, 125 percent of the State-wide rate or greater, 5 points will be awarded. For projects located in certain territories that may not have unemployment rates by localities, if the applicant's proposed service area has an unemployment rate exceeding 125 percent of the national unemployment rate, 5 points will be awarded.

(4) The boundaries of a federally recognized Indian Tribe's reservation, within Tribal trust lands, or within land owned by an Alaska Native Regional or Village Corporation as defined by the Alaska Native Claims Settlement Act, 5 points will be awarded.

(c) *Guaranteed loan features.* An application is eligible to receive points under each of the categories identified in paragraphs (c)(1) through (3) of this section as follows:

(1) If the lender will price the guaranteed loan at an interest rate equal to or less than the equivalent of the *Wall Street Journal* published Prime Rate plus 1.5 percent, 5 points will be awarded.

(2) If the guaranteed loan is less than 60 percent of the total project cost, 5 points will be awarded.

(3) If the business is owned by a qualified veteran, 5 points will be awarded.

(d) *High impact business development investment priorities.* An application is eligible to receive points under each of the categories identified in paragraphs (d)(1) through (7) of this section below:

(1) If the industry is not already present in the local community, 5 points will be awarded.

(2) If the business has 20 percent or more of its sales in international markets, 5 points will be awarded.

(3) If the business is locally owned and managed, 5 points will be awarded.

(4) If the business will produce a natural resource value-added product, 5 points will be awarded.

(5) If the business processes, distributes, aggregates, stores, and/or markets locally or regionally produced agricultural food products to underserved communities in accordance with § 5001.105(b)(15)(ii), 5 points will be awarded.

(6) If the business creates or saves a minimum of five jobs with an average wage exceeding 150 percent of the Federal minimum wage, 5 points will be awarded.

(7) If the business offers a healthcare benefits package to all employees and pays at least 50 percent of the healthcare premium, 5 points will be awarded.

(e) *Administrative points.* An application is eligible to receive points under paragraphs (e)(1) through (3) of this section.

(1) For projects awarded under State allocations the State Director may assign up to 10 additional points to an application to account for state-wide distribution of funds for natural disasters, local economic emergency conditions, community economic development strategies, State strategic plans, fundamental structural changes in a community's economic base, or projects that will fulfill an Agency special initiative.

(2) For projects requesting funds from the national reserve account, the State Director may request up to 10 administrative points from the Administrator.

(3) If an application is for a loan in excess of 10 million dollars, the Administrator may assign up to an additional 10 points to account for the nationwide geographic distribution of funds, or projects that will fulfill an Agency special initiative.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70357, Dec. 10, 2021; 89 FR 79722, Sept. 30, 2024]

§ 5001.319 REAP project priority point system.

This section applies to REAP projects seeking a loan guarantee. On a periodic basis, and subject to the availability of funds, the Agency will compete each complete and eligible RES, EEI, and EEE application that is ready to be funded and whose priority score, as determined in this section, meets, or exceeds the minimum priority score. Applications that do not meet the applicable minimum score will be considered as provided in § 5001.315(c)(2). A maximum score of 90 points is possible.

(a) *Environmental benefits.* The Agency will award up to 5 points under this criterion based on documentation or the applicant's indication in the application that the project will have a positive effect on resource conservation, public health, and the environment. If the project will have a positive impact on:

(1) All three impact areas, 5 points will be awarded;

(2) Any two of the three impact areas, 3 points will be awarded; or

(3) Any one of the three impact areas, 1 point will be awarded.

(b) *Energy generated, replaced, saved, or percent efficiency.* The Agency will award up to 25 points under this criterion. Each application is eligible for points under both paragraphs (b)(1) and (2) of this section.

(1) *Quantity of energy generated or saved per RES/EEI loan amount requested, or percent efficiency of EEE project.* The Agency will award up to 10 points under this sub-criterion. Points will be awarded for either the amount of renewable energy generation per dollar of loan amount requested, which includes those projects that are replacing energy usage with a renewable source; or the actual annual average energy savings over the most recent 12, 24, 36, 48, or 60 consecutive months of operation per dollar of guaranteed loan amount requested; or the percent efficiency of the EEE project. The Agency will not award points for more than one category.

(i) *Renewable energy systems.* The quantity of energy generated or replaced per guaranteed loan dollar requested will be determined by dividing the projected total annual energy generated or replaced by the RES or RES retrofit (minus energy for residential use), which will be converted to BTUs, by the guaranteed loan dollars requested. Applications for retrofitting of a RES that are not projecting to increase the amount of renewable energy that the RES is generating, while still eligible for REAP, will not be awarded points under this criteria. Off-the-grid projects and direct-use projects which are not replacements, will be awarded points based on proposed energy generation. Points will be awarded under this sub-criterion based on the annual amount of energy generated or replaced (minus energy for residential use) per dollar of guaranteed loan amount requested for the RES project. The Agency will award up to 10 points as determined under *paragraph (b)(1)(i)(A)* and *(B)* of this section below. If the annual amount of energy generated per dollar of guaranteed loan amount requested calculated under *paragraph (b)(1)(ii)* of this section is:

(A) 50,000 BTUs or higher average annual energy generated or replaced per dollar of guaranteed loan amount requested or higher, 10 points will be awarded; or

(B) Less than 50,000 BTUs annual energy generated or replaced per dollar of guaranteed loan amount requested, points will be awarded according to the result of taking the energy generated or replaced per guaranteed loan dollar requested ÷ 50,000 × 10 points. The points awarded are rounded to the nearest hundredth of a point.

(ii) *Energy efficiency improvements.* The Agency will award up to 10 points under this sub-criterion based on the average annual energy saved per dollar of guaranteed loan amount requested for the EEI project. The Agency will award up to 10 points as determined under paragraph (b)(1)(ii)(A) and (B) of this section.

(A) 50,000 BTUs or higher average annual energy saved per dollar of guaranteed loan amount requested, 10 points will be awarded; or

(B) Less than 50,000 BTUs average annual energy saved per dollar of guaranteed loan amount requested, points will be awarded according to the result of taking the energy generated per loan dollar requested ÷ 50,000 × 10 points. The points awarded are rounded to the nearest hundredth of a point.

(iii) *Energy efficient equipment and systems.* If the increased energy efficiency of the proposed equipment and systems is—

(A) 75 percent or greater, award 10 points;

(B) Less than 75 percent but equal to or greater than 50 percent, award 5 points;

(C) Less than 50 percent but equal to or greater than 25 percent, award 2.5 points; or

(D) Less than 25 percent, award 0 points.

(2) *Quantity of energy replaced, generated, or saved, or percentage of energy efficiency.* The Agency will award up to 15 points under this sub-criterion. Points will be awarded based on whether the project is for energy replacement, energy generation, or energy savings, or percentage of energy efficiency; points will not be awarded for more than one category.

(i) *Energy replacement.* The Agency will award points under this sub-criterion for an RES project based on the amount of energy replaced by the project compared to the amount of energy used by the applicable process(es) over a 12-month period. If the estimated energy produced is more than 150 percent of the energy used by the applicable process(es), the project will be scored as an energy generation project under *paragraph (b)(2)(ii)* of this section. When calculating the percentage of energy being replaced and whether it is categorized as a replacement or generation, the entire amount of energy produced by the new system will be used in the calculation, regardless of whether the project is being prorated because it shares a meter with a residence or if it has ineligible project costs.

(A) *Documentation for energy replacement.* For a RES project to qualify as energy replacement, the borrower must provide documentation in its application on prior energy use incurred by the borrower. Documentation must be shown that the borrower entity incurred the cost of the historical energy to be replaced, in order for the project to qualify as energy replacement. Replacement of existing direct use renewable energy can be considered in the replacement calculation as long as the borrower entity owns the existing RES system. For a project involving a recent acquisition, historical energy costs of the previous owner can be used to document prior energy use. Applicant entities cannot utilize historical energy costs of affiliate businesses to document prior energy use. Proposed energy use, such as that attributed to an expansion, is not considered in the replacement calculation. For a RES project involving new construction and being installed to serve the new facility, the project can be classified as energy replacement only if the borrower can document prior energy use from a facility that is within plus or minus 10 percent of the size of the facility it is replacing. The estimated quantities of energy must be converted to either BTUs, watts, or similar energy equivalents to facilitate scoring.

(B) *Calculation.* Energy replacement is determined by dividing the quantity of renewable energy that the RES project is estimated would have been generated if it were in place over the most recent 12-month period by the quantity of energy actually consumed over the same period by the applicable energy process(es) that is(are) consuming energy.

(C) *Awarding of points.* Using the results from paragraph (b)(2)(ii)(B) of this section, if the percentage of energy replacement is—

(*1*) Greater than 50 percent, 15 points will be awarded;

(*2*) Greater than 25 percent, but equal to or less than 50 percent, 10 points will be awarded; or

(*3*) Equal to or less than 25 percent, 5 points will be awarded.

(ii) *Energy generation.* If the RES project is intended for production of energy or is a proposed retrofitting of an existing RES which increases the amount of energy generated, the Agency will award 10 points. Applications for retrofitting of an RES that are not projecting to increase the amount of renewable energy that the RES is generating, while still eligible for REAP, will not be awarded points under this criteria. If the borrower cannot document prior energy use, the project will be scored as an energy generation project, regardless of whether or not there is an agreement in place to sell the power.

(iii) *Energy saved.* The Agency will award up to 15 points under this subcriterion for an EEI project based on the percentage of estimated energy saved by the installation of the project as determined by the projections in the applicable vendor certification, energy assessment or energy audit. If the estimated energy expected to be saved over

the same period used in the energy assessment or energy audit, as applicable, will be—

(A) 50 percent or greater, 15 points will be awarded;

(B) 35 percent up to, but not including 50 percent, 10 points will be awarded;

(C) 20 percent up to, but not including 35 percent, 5 points will be awarded; or

(D) Less than 20 percent, no points will be awarded.

(iv) *Energy efficiency*. If the percentage of energy efficiency is—

(A) Greater than 50 percent, 15 points will be awarded;

(B) Greater than 25 percent, but equal to or less than 50 percent, 10 points will be awarded; or

(C) Equal to or less than 25 percent, 5 points will be awarded.

(c) *Commitment of funds*. The Agency will award up to 15 points under this criterion based on the percentage of acceptable written commitment a borrower has from its other funding sources that are documented with a complete application.

(1) *Calculation*. The percentage of written commitment is calculated as follows: Percentage of written commitment = total amount of funds for which written commitments have been submitted with the application ÷ Total amount of matching funds and other funds required.

(2) *Awarding of points*. Using the result from paragraph (c)(1) of this section, the Agency will award points as shown in paragraphs (c)(2)(i) through (iii) of this section.

(i) If the percentage of written commitments is 100 percent of the matching funds, 15 points will be awarded.

(ii) If the percentage of written commitments is less than 100 percent, but more than 50 percent, points will be awarded as follows: ((Percentage of written commitments − 50 percent) ÷ (50 percent)) × 15 points, where points awarded are rounded to the nearest hundredth of a point.

(iii) If the percentage of written commitments is 50 percent or less, no points will be awarded.

(d) *Previous grantees or borrowers*. The Agency will award up to 15 points under this criterion based on whether the borrower has received and accepted a REAP grant award under 7 CFR part 4280 or a guaranteed loan commitment under either this part or 7 CFR part 4280. Received and accepted means REAP grant funds were disbursed and/or a REAP loan note guarantee was issued by the Agency. The determination is based on the fiscal year in which the obligation was made.

(1) If the borrower has never received and accepted a grant award under 7 CFR part 4280 or a guaranteed loan commitment under either this part or 7 CFR part 4280, 15 points will be awarded.

(2) If the borrower has not received and accepted a grant award under 7 CFR part 4280 or a guaranteed loan commitment under either this part or 7 CFR part 4280 within the previous two Federal fiscal years, 10 points will be awarded.

(3) If the borrower has received and accepted a grant award under 7 CFR part 4280 or a guaranteed loan commitment under either this part or 7 CFR part 4280 within the previous two Federal fiscal years, no points will be awarded.

(e) *Existing businesses*. A maximum of 5 points will be awarded for an existing agricultural producer business or rural small business that meets the definition of existing business in § 5001.3. The business must be in operation for at least one full year, not simply a year since legal business formation.

(f) *Simple payback*. A maximum of 15 points will be awarded for this criterion based on the simple payback of the project as defined in § 5001.3. Points will be awarded for either RES, EEI, or EEE; points will not be awarded for more than one category. See definition of simple payback for calculations. Simple payback calculations will be calculated based only on the documented information provided with the application.

(1) *Renewable energy systems*. RESs includes replacement, generation, and direct-use RES projects. If the simple payback of the project is:

(i) Less than 10 years, 15 points will be awarded;

(ii) 10 years up to but not including 15 years, 10 points will be awarded;

(iii) 15 years up to and including 25 years, 5 points will be awarded; or

(iv) Longer than 25 years, no points will be awarded.

(2) *Energy efficiency improvements.* If the simple payback of the project is:

(i) Less than 4 years, 15 points will be awarded;

(ii) 4 years up to but not including 8 years, 10 points will be awarded;

(iii) 8 years up to and including 12 years, 5 points will be awarded; or

(iv) Longer than 12 years, no points will be awarded.

(3) *Energy efficient equipment and systems.* If the simple payback of the project is—

(i) Less than 4 years, 15 points will be awarded;

(ii) 4 years up to but not including 8 years, 10 points will be awarded;

(iii) 8 years up to and including 12 years, 5 points will be awarded; or

(iv) Longer than 12 years, no points will be awarded.

(g) *Administrator priority points.* Under this criterion, the Administrator may award up to 10 points to an application based on the conditions specified in paragraphs (g)(1) through (5) of this section. Under no circumstances will an application receive more than 10 points under this criterion.

(1) The application is for an underrepresented technology.

(2) Selecting the application helps achieve geographic diversity.

(3) The borrower is a veteran or veterans own 20 percent or more in interest in the borrower. In order to receive points, the borrower must sign a certification in its application to indicate that the borrower has veteran status.

(4) Selecting the application helps further a Presidential initiative or a Secretary of Agriculture priority.

(5) The proposed project is located in a federally declared disaster area. Declarations must be within the last 3 calendar years.

(6) The project is located in an area where 20 percent or more of its population is living in poverty, as defined by the United States Census Bureau, for the last 30 years; an underserved community; or an area which has experienced long-term population decline, or loss of employment.

(h) *Unused funding.* After each periodic competition, the Agency will roll any remaining guaranteed loan funding authority into the next competition. At the end of each Federal fiscal year, the Agency may elect at its discretion to allow any remaining multi-year funds to be carried over to the next Federal fiscal year rather than selecting a lower scoring application.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79722, Sept. 30, 2024; 90 FR 30561, July 10, 2025]

§§ 5001.320–5001.400 [Reserved]

APPENDIX A TO SUBPART D OF PART 5001—FEASIBILITY STUDY COMPONENTS

ELEMENTS OF AN ACCEPTABLE FEASIBILITY STUDY

EXECUTIVE SUMMARY
Provide an overview to describe the nature and scope of the proposed project, including the purpose, project location, design features, capacity, and estimated capital costs. Include a summary of the feasibility determinations made for each applicable component.

ECONOMIC	
What is it?	Cost benefit analysis
What are the factors to consider?	Minimum amount of inputs (labor, infrastructure, utilities, renewable resources, feedstocks) to operate successfully Contracts in place and contracts to be negotiated, including terms and renewals Environmental risks Cost of project relative to the increase in revenues or benefits provided Overall economic impact of project including new markets created and economic development

MARKET	
What is it?	Analysis of the current and future market potential, competition, sales or service estimations including current and prospective buyers or users
What are the factors to consider?	Competition Type of project: service, product or commodity based Target market, new versus established End user analysis, captive versus competitive By-product revenue streams Industry risk

TECHNICAL	
What is it?	Analyzing the reliability of the technology to be used and/or the analysis of the delivery of goods or services, including transportation, business location, and the need for technology, materials, and labor.
What are the factors to consider?	Commercial availability Product and process success record and duplication of results Experience of the service providers Roads, rail, airport infrastructure Need for local transportation Labor market Availability of materials Use, age, and reliability of technology Construction risk

FINANCIAL	
What is it?	Analysis of the operation to achieve sufficient income, credit, and cashflow to financially sustain the project over the long term and meet all debt obligations.
What are the factors to consider?	Commercial or project underwriting Management's assumptions Accounting policies Source of repayment Dependency on other entities Equity contribution Market demand forecast Peer industry comparison Cost-accounting system Availability of short-term credit Adequacy of raw materials and supplies Sensitivity analysis

MANAGEMENT	
What is it?	Analysis of the legal structure of the business or operation; ownership, board and management analysis.
What are the factors to consider?	History of the business or organization Professional and educational background Experience Skills Qualifications necessary to implement the project

RECOMMENDATION
Conclude with an opinion and recommendation presented by the consultant

QUALIFICATIONS
Provide a resume or statement of qualifications of the author of the feasibility study, including prior experience.

APPENDIX B TO SUBPART D OF PART 5001— FINANCIAL FEASIBILITY REPORTS

ELEMENTS OF FINANCIAL FEASIBILITY REPORTS

FINANCIAL FEASIBILITY ANALYSIS	
The following is a guide of the minimum items to be addressed in the preparation of the financial feasibility analysis. The level of effort required to prepare the report and the depth of analysis within the report are proportional to the size and complexity of the proposed project. The preparer is expected to fully disclose and analyze all significant factors that may have favorable or adverse effect on the financial success of the proposed facility.	
Existing facility	Explain current capacities; rates or usage; activities; suitability for continued use; alternate usage; deficiencies in servicing; staffing or physical conditions; and any other pertinent information.
Proposed facility	Description of construction and renovation by component parts including capacity of each component part and physical limiting factors.
Need for facility	Explain and document the need for the facility. Include comments regarding: • Service area • Population trends • Similar facilities and services in the area • Usage trends • Community support • Regulatory agency approval • Economy in the service area • Analysis of staff and consultants
Financial information	Explain all assumptions, underlying and expected demand, use, and projections of financial data, such as: • Changes in usage • All income and expenses • Rate structure • Allowance for collectible accounts • Depreciation life and method • Description of long-term debts
Financial statements	The following financial statements must be prepared reflecting 5 years' projections: • Balance sheet for all funds • Statement of income and expense • Statement of cash flow (cash receipts and disbursements) • Comparison data for facilities in similar industry or service (most recent year only)
Qualifications	Provide a resume or statement of qualifications of the preparer of the financial feasibility analysis

FINANCIAL FEASIBILITY STUDY WITH EXAMINATION OPINION
The financial feasibility study with examination opinion is the examination of the prospective financial information provided by the borrower ("management") culminating in an examination opinion on the reliability of the borrower's financial statements and management's underlying assumptions. The examination opinion provides a high level of assurance. The examination opinion will be prepared by a CPA with the necessary expertise to perform the study and backed by their professional liability insurance. Following are the items typically included in a financial feasibility study with examination opinion.
• Signed and dated opinion letter • 5 years historic and 5 years forecasted financial statements • Schedule of ratios pertinent to the industry • Summary of significant financial forecast assumptions and accounting policies • Summary of significant demand forecast assumptions • Sensitivity analysis • Other information deemed appropriate by the preparer

APPENDIX C TO SUBPART D OF PART 5001—TECHNICAL REPORTS FOR ENERGY EFFICIENCY IMPROVEMENT (EEI) PROJECTS WITH TOTAL PROJECT COSTS OF MORE THAN $80,000

TECHNICAL REPORTS FOR ENERGY EFFICIENCY IMPROVEMENT (EEI) PROJECTS WITH TOTAL PROJECT COSTS OF MORE THAN $80,000

For all EEI projects with total project costs of more than $80,000, provide the information specified in Sections A and D and in Section B or Section C, as applicable. If the application is for an EEI project with total project costs of $80,000 or less, please see § 5001.307(e) for the technical report information to be submitted with your application.

If the application is for an EEI project with total project costs of $200,000 and greater, you must conduct an energy audit (EA). However, if the application is for an EEI project with total project costs of less than $200,000, you may conduct either an energy assessment or an energy audit. Energy audits that meet the American Society of Heating, Refrigeration and Air-Conditioning Engineers (ASHREA) Level II Energy Survey; Analysis and American National Standards Institute (ANSI); or American Society of Agricultural and Biological Engineers (ASABE) S162 Standard for performing on farm energy audits will be considered by the Agency to be acceptable audits.

Section A. Project Information

Describe how all the improvements to or replacement of an existing building and/or equipment meet the requirements of being commercially available. Describe how the design, engineering, testing, and monitoring are sufficient to demonstrate that the proposed project will meet its intended purpose, ensure public safety, and comply with applicable laws, regulations, agreements, permits, codes, and standards. Describe how all equipment required for the EEI(s) is available and able to be procured and delivered within the proposed project development schedule. In addition, present information regarding component warranties and the availability of spare parts.

Section B. Energy Audit

If conducting an EA, provide the following information.

(1) *Situation Report.* Provide a narrative description of the existing building and/or equipment, its energy system(s) and usage, and activity profile. Also include average price per unit of energy (electricity, natural gas, propane, fuel oil, renewable energy, etc.) paid by the customer for the most recent 12 months, or an average of 2, 3, 4, or 5 years, for the building and equipment being audited. Any energy conversion should be based on use rather than source.

(2) *Potential Improvement Description.* Provide a narrative summary of the potential improvement and its ability to reduce energy consumption or improve energy efficiency, including a discussion of reliability and durability of the improvements.

(i) Provide preliminary specifications for critical components.

(ii) Provide preliminary drawings of project layout, including any related structural changes.

(iii) Identify significant changes in future related operations and maintenance costs.

(iv) Describe explicitly how outcomes will be measured.

(3) *Technical Analysis.* Give consideration to the interactions among the potential improvements and the current energy system(s).

(i) For the most recent 12 months, or an average of 2, 3, 4, or 5 years, prior to the date the application is submitted, provide both the total amount and the total cost of energy used for the original building and/or equipment, as applicable, for each improvement identified in the potential project. In addition, provide for each improvement identified in the potential project an estimate of the total amount of energy that would have been used and the total cost that would have been incurred if the proposed project were in operation for this same time period.

(ii) Calculate all direct and attendant indirect costs of each improvement;

(iii) Rank potential improvements measures by cost-effectiveness; and

(iv) Provide an estimate of simple payback, including all calculations, documentation, and any assumptions.

(4) *Qualifications of the auditor.* Provide the qualifications of the individual or entity which completed the energy audit.

Section C. Energy Assessment

If conducting an energy assessment, provide the following information.

(1) *Situation Report.* Provide a narrative description of the existing building and/or equipment, its energy system(s) and usage, and activity profile. Also include average price per unit of energy (electricity, natural gas, propane, fuel oil, renewable energy, etc.) paid by the customer for the most recent 12 months, or an average of 2, 3, 4, or 5 years, for the building and equipment being evaluated. Any energy conversion shall be based on use rather than source.

(2) *Potential Improvement Description.* Provide a narrative summary of the potential improvement and its ability to reduce energy consumption or improve energy efficiency.

(3) *Technical Analysis.* Giving consideration to the interactions among the potential improvements and the current energy system(s), provide the information specified in paragraphs (3)(i) through (iii) of this appendix.

(i) For the most recent 12 months, or an average of 2, 3, 4, or 5 years, prior to the date the application is submitted, provide both the total amount and the total cost of energy used for the original building and/or equipment, as applicable, for each improvement identified in the potential project. In addition, provide for each improvement identified in the potential project an estimate of the total amount of energy that would have been used and the total cost that would have been incurred if the proposed project were in operation for this same time period.

(ii) Document baseline data compared to projected consumption, together with any explanatory notes on source of the projected consumption data. When appropriate, show before-and-after data in terms of consumption per unit of production, time, or area.

(iii) Provide an estimate of simple payback, including all calculations, documentation, and any assumptions.

(4) *Qualifications of the Assessor.* Provide the qualifications of the individual or entity that completed the assessment. If the energy assessment for a project with total project costs of $80,000 or less is not conducted by energy auditor or energy assessor, then the individual or entity must have at least 3 years of experience and completed at least five energy assessments or energy audits on similar type projects.

Section D. Qualifications

Provide a resume or other evidence of the contractor or installer's qualifications and experience with the proposed EEI technology. Any contractor or installer with less than 2 years of experience may be required to provide additional information in order for the Agency to determine if they are qualified installer/contractor.

[89 FR 79723, Sept. 30, 2024]

APPENDIX D TO SUBPART D OF PART 5001—TECHNICAL REPORTS FOR RENEWABLE ENERGY SYSTEM (RES) PROJECTS WITH TOTAL PROJECT COSTS OF LESS THAN $200,000 BUT MORE THAN $80,000

TECHNICAL REPORTS FOR RENEWABLE ENERGY SYSTEM (RES) PROJECTS WITH TOTAL PROJECT COSTS OF LESS THAN $200,000 BUT MORE THAN $80,000

Provide the information specified in Sections A through D for each technical report prepared under this appendix.

A renewable energy site assessment may be used in lieu of Sections A through C if the renewable energy site assessment contains the information requested in Sections A through C. In such instances, the technical report would consist of Section D and the renewable energy site assessment.

Note: If the total project cost for the RES project is $80,000 or less, this appendix does not apply. Instead, for such projects, please provide the information specified in §5001.307(e).

Section A. Project Description

Provide a description of the project, including its intended purpose and a summary of how the project will be constructed and installed. Describe how the system meets the definition of commercially available. Identify the project's location and describe the project site.

Section B. Resource Assessment

Describe the quality and availability of the renewable resource to the project. Identify the amount of renewable energy generated that will be generated once the proposed project is operating at its steady state operating level. If applicable, also identify the percentage of energy being replaced by the system.

If the application is for a bioenergy project, provide documentation that demonstrates that any and all woody biomass feedstock from National Forest System land or public lands cannot be used as a higher value wood-based product.

Section C. Project Economic Assessment

Describe the projected financial performance of the proposed project. The description must address total project costs, energy savings, and revenues, including applicable investment and other production incentives accruing from government entities. Revenues to be considered shall accrue from the sale of energy, offset or savings in energy costs, byproducts, and green tags. Provide an estimate of simple payback, including all calculations, documentation, and any assumptions.

Section D. Project Construction and Equipment Information

Describe how the design, engineering, testing, and monitoring are sufficient to demonstrate that the proposed project will meet its intended purpose, ensure public safety, and comply with applicable laws, regulations, agreements, permits, codes, and standards. Describe how all equipment required for the RES is available and able to be procured and delivered within the proposed project development schedule. In addition, present information regarding component warranties and the availability of spare parts.

Section E. Qualifications of Key Service Providers

Describe the key service providers, including the number of similar systems installed and/or manufactured, professional credentials, licenses, and relevant experience. When specific numbers are not available for similar systems, estimations will be acceptable.

[89 FR 79724, Sept. 30, 2024]

APPENDIX E TO SUBPART D OF PART 5001—TECHNICAL REPORTS FOR RENEWABLE ENERGY SYSTEM (RES) PROJECTS WITH TOTAL PROJECT COSTS OF $200,000 AND GREATER

TECHNICAL REPORTS FOR RENEWABLE ENERGY SYSTEM (RES) PROJECTS WITH TOTAL PROJECT COSTS OF $200,000 AND GREATER

Provide the information specified in Sections A through G for each technical report prepared under this appendix.

Provide the resource assessment under Section C that is applicable to the project. For hybrid projects, technical reports must be prepared for each technology that comprises the hybrid project.

Section A. Qualifications of the Project Team

Describe the project team, their professional credentials, and relevant experience. The description shall support that the project team key service providers have the necessary professional credentials, licenses, certifications, and relevant experience to develop the proposed project.

Section B. Agreements and Permits

Describe the necessary agreements and permits (including any for local zoning requirements) required for the project and the anticipated schedule for securing those agreements and permits. For example, interconnection agreements and power purchase agreements are necessary for all renewable energy projects electrically interconnected to the utility grid.

Section C. Resource Assessment

Describe the quality and availability of the renewable resource and the amount of renewable energy generated through the deployment of the proposed system. For all bioenergy projects, except anaerobic digesters projects, complete Section C.3 of this appendix. For anaerobic digester projects, complete Section C.6 of this appendix.

(1) *Wind*. Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the source of the wind data and the conditions of the wind monitoring when collected at the site or assumptions made when applying nearby wind data to the site.

(2) *Solar*. Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the source of the solar data and assumptions.

(3) *Bioenergy/Biomass Project*. Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the type, quantity, quality, and seasonality of the renewable biomass resource, including harvest and storage, where applicable. Where applicable, also indicate

shipping or receiving method and required infrastructure for shipping. For proposed projects with an established resource, provide a summary of the resource. Document that any and all woody biomass feedstock from National Forest System land or public lands cannot be used as a higher value wood-based product.

(4) *Geothermal Electric Generation.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the quality of the geothermal resource, including temperature, flow, and sustainability and what conversion system is to be installed. Describe any special handling of cooled geothermal waters that may be necessary. Describe the process for determining the geothermal resource, including measurement setup for the collection of the geothermal resource data. For proposed projects with an established resource, provide a summary of the resource and the specifications of the measurement setup.

(5) *Geothermal Direct Generation.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the quality of the geothermal resource, including temperature, flow, and sustainability and what direct use system is to be installed. Describe any special handling of cooled geothermal waters that may be necessary. Describe the process for determining the geothermal resource, including measurement setup for the collection of the geothermal resource data. For proposed projects with an established resource, provide a summary of the resource and the specifications of the measurement setup.

(6) *Anaerobic Digester Project/Biogas.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the substrates used as digester inputs, including animal wastes or other renewable biomass in terms of type, quantity, seasonality, and frequency of collection. Describe any special handling of feedstock that may be necessary. Describe the process for determining the feedstock resource. Provide either tabular values or laboratory analysis of representative samples that include biodegradability studies to produce gas production estimates for the project on daily, monthly, and seasonal basis. If an anerobic digester project, identify the type of operation (*e.g.*, dairy, swine, layer, etc.), along with breed, herd population size and demographics, and the type of waste collection method and frequency information available. For the biogas produced, identify the type of digester (*e.g.*, mixed, plug-flow, attached film, covered lagoon, etc.), if applicable, or the method of capture (landfill, sewage waste treatment, etc.) and treatment. Identify the system designer and determine the digester design assumptions such as the number and type of animals, the bedding type and estimated annual quantity used, the manure and wastewater volumes, and the treatment of digester effluent (*e.g.*, none, solids separation by screening, etc. with details including use or method of disposal).

(7) *Hydrogen Project.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the type, quantity, quality, and seasonality of the renewable biomass resource. For solar, wind, or geothermal sources of energy used to generate hydrogen, indicate the renewable resource where the hydrogen system is to be installed. Local resource maps may be used as an acceptable preliminary source of renewable resource data. For proposed projects with an established renewable resource, provide a summary of the resource.

(8) *Hydroelectric/Ocean Energy Projects.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the quality of the resource, including temperature (if applicable), flow, and sustainability of the resource, including a summary of the resource evaluation process and the specifications of the measurement setup and the date and duration of the evaluation process and proximity to the proposed site. If less than 1 year of data is used, a qualified consultant must provide a detailed analysis of the correlation between the site data and a nearby, long-term measurement site.

(9) *Renewable Energy Systems with Storage Components.* Provide adequate and appropriate data to demonstrate the amount of renewable resource available. Indicate the type, quantity, quality, and seasonality of the renewable energy resource, where applicable. Indicate the storage system specifications and the integrity of the system in conjunction with the RES it is integrated with, including application, size, lifetime, response time, capital and maintenance costs associated with the operation as well as the distribution of the stored resource(s).

Section D. Design and Engineering

Describe the intended purpose of the project and the design, engineering, testing, and monitoring needed for the proposed project. The description shall support that the system will be designed, engineered, tested, and monitored to meet its intended purpose, ensure public safety, and comply with applicable laws, regulations, agreements, permits, codes, and standards. In addition, identify that all major equipment is commercially available, including proprietary equipment, and justify how this unique equipment is needed to meet the requirements of the proposed design. In addition, information regarding component warranties and the availability of spare parts must be presented.

Section E. Project Development

Describe the overall project development method, including the key project development activities and the proposed schedule, including proposed dates for each activity. The description shall identify each significant historical and projected activity, its beginning and end, and its relationship to the time needed to initiate and carry the activity through to successful project completion. The description shall address applicant project development cash flow requirements. Details for equipment procurement and installation shall be addressed in Section F of this Appendix. Applications should include a concise development schedule with timelines for activities.

Section F. Equipment Procurement and Installation

Describe the availability of the equipment required by the system. The description shall support that the required equipment is available and can be procured and delivered within the proposed project development schedule.

Describe the plan for site development and system installation, including any special equipment requirements. In all cases, the system or improvement shall be installed in conformance with manufacturer's specifications and design requirements, and comply with applicable laws, regulations, agreements, permits, codes, and standards.

Section G. Operations and Maintenance

Describe the operations and maintenance requirements of the system, including major rebuilds and component replacements necessary for the system to operate as designed over its useful life. The warranty must cover and provide protection against both breakdown and a degradation of performance. The performance of the RES or EEI shall be monitored and recorded as appropriate to the specific technology.

[89 FR 79724, Sept. 30, 2024]

Subpart E—Loan and Guarantee Provisions

LOAN PROVISIONS

§ 5001.401 Interest rate provisions.

Interest rates, interest rate caps, and incremental interest rate adjustment limitations on a guaranteed loan are negotiated between the lender and the borrower. The interest rate for a guaranteed loan can be either fixed or variable, or a combination thereof, as long as it is a legal rate. Interest rates cannot be more than those rates the lender customarily charges its borrowers for non-guaranteed loans in similar circumstances in the ordinary course of business. The Agency encourages each lender to use the secondary market and pass interest-rate savings on to the borrower. If an interest rate swap is utilized, the guarantee will only cover principal and interest. The lender must provide the Agency with the overall effective interest rate charged to the borrower in the swap transaction. The Agency guarantee does not cover any fees related to the swap.

(a) *Different rates on guaranteed and unguaranteed portion of the* guaranteed *loan.* It is permissible to have different interest rates on the guaranteed and unguaranteed portions of the loan.

(b) *Variable interest rates.* A variable interest rate must be an interest rate that is tied to a published base rate, as published in a national or regional financial publication, and is agreed to by the Agency.

(1) The variable interest base rate must be specified in the promissory note along with any interest factors (*e.g.*, National Prime plus 1.0 percent).

(2) The lender may adjust the variable interest rate at different intervals during the term of the loan, but not more often than quarterly.

(3) The lender must incorporate, within the variable rate promissory note, a provision for adjustment of payment installments to fully amortize the loan by its maturity date.

(c) *Multi-rates.* When multi-rates are used, the lender must provide the Agency with the overall effective interest rate for the entire loan.

(d) *Interest rate changes.* Any change in the base rate or fixed interest rate between issuance of the conditional commitment and loan closing must be approved by the Agency. Approval of such a change must be shown as an amendment to the conditional commitment and must be reflected on the guaranteed loan closing report form.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70357, Dec. 10, 2021; 89 FR 79725, Sept. 30, 2024]

§ 5001.402 Term length, loan schedule, and repayment.

(a) *Term length.* The lender, with Agency concurrence, will establish and

justify the guaranteed loan term based on the use of guaranteed loan funds, the useful economic life of the assets being financed and those used as collateral, and the borrower's repayment ability. The maximum term allowable for final guaranteed loan maturity is limited to the justified useful life of the project or assets used as collateral but may not exceed 40 years or limitations in the applicable State statute, whichever is less.

(b) *Guaranteed loan schedule and repayment.* The lender must structure repayment in consideration of the borrower's cash flow and in accordance with the provisions of this section and the loan agreement. Scheduled guaranteed loan payments shall be made no less frequently than annually. In addition:

(1) Both the guaranteed and unguaranteed portions of the loan must be amortized over the same term.

(2) Guaranteed loans must require a periodic payment schedule that will retire the debt over the term of the loan without a balloon payment. Balloon maturities are not allowed, unless required as a loan servicing action. Payments must be amortized to maximize successful loan repayment and may vary by type of business or cash flow.

(3) If the promissory note provides for an interest-only period, interest must be paid at least annually starting on a date that is no more than one year from the date of the promissory note. Scheduling of the first payment of principal and interest will be subject to consideration of whether the facility is operational and generates adequate income. However, the scheduling of the first full principal and interest payment must commence not more than 3 years from the date of the promissory note and be paid at least annually thereafter.

(4) There must be no ''due-on-demand'' clauses without cause. Regardless of any ''due-on-demand'' with cause provision in a lender's promissory note, the Agency must concur in any acceleration of the guaranteed loan unless the basis for acceleration is monetary default.

[86 FR 42518, July 14, 2020, as amended at 86 FR 70357, Dec. 10, 2021; 89 FR 79725, Sept. 30, 2024]

§ 5001.403 Lender fees.

(a) The lender may charge the borrower reasonable, routine, and customary charges and fees for the guaranteed loan provided they are similar to those charges the lender assesses other borrowers for the same type of loan not subject to a loan guarantee. The lender must document such fees in the application. The lender may also charge routine and customary prepayment penalties and late payment fees for the guaranteed loan, which must be stated in the guaranteed loan documents.

(b) Default charges, penalty interest, late payment fees, and additional interest expenses are not covered by the loan note guarantee and cannot be added to the principal or interest due under any loan note guarantee in the event of a loss claim as prescribed in § 5001.521 or a repurchase as prescribed in § 5001.511.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79725, Sept. 30, 2024]

§§ 5001.404–5001.405 [Reserved]

§ 5001.406 Guaranteed loan amounts.

Applicable guaranteed loan amounts depend on the type of project and the source of its funding.

(a) *CF projects.* The maximum amount of a CF guaranteed loan that may be made to a borrower, including the guaranteed and unguaranteed portions of any CF guaranteed loans, the outstanding principal and interest balance of any existing CF guaranteed loans, and any new CF guaranteed loan that is the subject of an application must not exceed $100 million.

(b) *WWD projects.* The maximum amount of a WWD guaranteed loan that may be made to a borrower, including the guaranteed and unguaranteed portions of any WWD guaranteed loans, the outstanding principal and interest balance of any existing WWD guaranteed loans, and any new WWD guaranteed loan that is the subject of an application must not exceed $50 million.

(c) *B&I projects.* The maximum total amount of B&I guaranteed loans (including the guaranteed and unguaranteed portions of any B&I guaranteed loans, the outstanding

principal and interest balance of any existing B&I guaranteed loans, and any new B&I guaranteed loan that is the subject of an application) that may be made to a borrower is limited to a maximum amount of $25 million. The Secretary, whose authority may not be redelegated, may approve, at the Secretary's discretion, guaranteed loans in excess of $25 million and up to $40 million for rural cooperatives that process value-added agricultural commodities in accordance with § 5001.105(b)(18)(i). In addition to the borrower loan limit, there is a guarantor loan limit of $100 million.

(d) *REAP projects.* The amount of a guaranteed loan that will be made available to an eligible project and borrower under this part will be at least $5,000, not to exceed 75 percent of eligible project costs. Borrowers must demonstrate evidence of a financial contribution in the project of not less than 25 percent of total eligible project costs.

(1) The maximum total amount of REAP guaranteed loans made to a borrower, including the guaranteed and unguaranteed portions of all REAP guaranteed loans, the outstanding principal and interest balance of any existing REAP guaranteed loans and the new REAP guaranteed loan that is the subject of an application, must not exceed $25 million.

(2) The total amount of funds available to agricultural producers for energy efficient equipment and systems will not exceed 15 percent of annual funds available to the program.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79726, Sept. 30, 2024]

§ 5001.407 Percentage of loan guarantee.

The percent of loan guaranteed may vary from program to program. The maximum guarantee is 90 percent of eligible guaranteed loan loss The Agency will set annually a guarantee percentage by program that will apply to loans guaranteed within each program. The annual guarantee percentage will take current Federal credit policy into consideration and may be set at or below the maximum allowed authorized by statute. The Agency will announce annual guarantee percentages each fiscal year by publishing a document in the FEDERAL REGISTER in accordance with § 5001.10.

§ 5001.408 Participation or assignment of guaranteed loan.

(a) *General.* The lender may obtain participation in the loan or assign all or part of the guaranteed portion of the guaranteed loan on the secondary market subject to the conditions specified in paragraphs (a)(1) through (5) of this section or retain the entire guaranteed loan.

(1) *Participation.* The lender may obtain participation in the loan under its normal operating procedures; however, the lender must retain title to and possession of the promissory note(s) and retain the lender's interest in the collateral.

(2) *Assignment.* Any assignment by the lender of the guaranteed portion of the loan must be accomplished in accordance with the conditions in the lender's agreement and the provisions of this section. The holders and the borrower have no rights or obligations to one another. The holders and the borrower have no rights or obligations to one another.

(3) *Minimum retention by the lender.* Minimum retention at all times must be from the unguaranteed portion of the loan and cannot be participated to another person.

(i) The lender must hold a minimum of 7.5 percent of the total loan amount.

(ii) The lender must retain its security interest in the collateral and retain the servicing responsibilities for the guaranteed loan.

(iii) The Agency can approve a reduction of the minimum retention requirement below the applicable percentage on a case-by-case basis when the lender establishes to the Agency's satisfaction that reduction of the minimum retention percentage is necessary to meet compliance with the lender's regulatory authority.

(4) *Prohibition.* The lender must not assign or participate any amount of the guaranteed or non-guaranteed portion of the loan to the borrower, borrower's officers, directors, stockholders, other owners, or to members of their immediate families, or to a

parent company, an affiliate, or a subsidiary of the borrower.

(5) *Secondary market.* The lender must properly close their loan and fully disburse loan funds of a promissory note for the purposes intended prior to assignment of the guaranteed portion of the promissory note(s) on the secondary market. The lender can assign all or part of the guaranteed portion of the loan only if the loan is not in default. Default includes a borrower default in payments or a lender default by unpaid periodic guarantee retention fees. A lender using the multi-note system may sell the guarantee on the secondary market for a specific note once that note is fully disbursed, even if other guaranteed notes for the project have not been fully disbursed.

(b) *Lender's servicing fee to holder.* The assignment guarantee agreement must clearly state the guarantee portion of loan as a percentage and corresponding dollar amount of the guaranteed portion of the guaranteed loan it represents and the lender's servicing fee. The lender cannot charge the Agency a servicing fee and servicing fees are not eligible expenses for loss claim.

(c) *Distribution of proceeds.* The lender must apply all loan payments and collateral proceeds received, after payment of liquidation expenses, to the guaranteed and unguaranteed portions of the loan on a pro rata basis.

(d) *Promissory note(s).* A loan note guarantee is issued to the lender for a specific promissory note(s) executed between the lender and the borrower. The lender must retain title to and possession of the guaranteed promissory note(s), retain the lender's interest in the collateral, and retain the servicing responsibilities for the guaranteed loan. The lender is prohibited from issuing any additional promissory notes at a later date for the same guaranteed loan.

(1) The lender may assign all or part of the guaranteed portion of the loan, including interest strips, to one or more holders by using an assignment guarantee agreement for each holder. The lender must complete and execute the assignment guarantee agreement and return it to the Agency for execution prior to holder execution.

(2) The lender or holder may request a certificate of incumbency and signature from the Agency.

(3) A holder, upon written notice to the lender and the Agency, may reassign the unpaid guaranteed portion of the loan, in full, assigned under the assignment guarantee agreement. Holders can only reassign the complete block they have received and cannot subdivide or further split their interest in the guaranteed portion of a loan or retain an interest strip.

(4) Upon notification and completion of the assignment through the use of the assignment guarantee agreement, the assignee succeeds to all rights and obligations of the holder thereunder. Subsequent assignments require notice to the lender and Agency using any format, including that used by the Securities Industry and Financial Markets Association (formerly known as the Bond Market Association), together with the transfer of the original assignment guarantee agreement.

(5) The Agency will not execute a new assignment guarantee agreement to affect a subsequent reassignment.

(6) The Agency will not reissue a duplicate assignment guarantee agreement unless:

(i) The original was lost, stolen, destroyed, mutilated, or defaced; and

(ii) The reissue is made in accordance with § 5001.459.

(e) *Rights and liabilities.* When a guaranteed portion of a loan is assigned to a holder using an assignment guarantee agreement, the holder succeeds to all rights of the lender under the loan note guarantee to the extent of the portion purchased. The full, legal interest in the promissory note must remain with the lender, and the lender remains bound to all obligations under the loan note guarantee, lender's agreement, and Agency regulations applicable to the guarantee.

(1) A guarantee and right to require purchase in accordance with § 5001.511 will be directly enforceable by a holder notwithstanding any fraud or misrepresentation by the lender or any unenforceability of the loan guarantee by the lender, except for fraud or misrepresentation of which the holder had

actual knowledge at the time it became the holder or in which the holder participates or condones.

(2) The lender must not represent a conditional commitment of guarantee as a loan guarantee.

(3) The lender must reimburse the Agency for any payments the Agency makes to a holder on the lender's behalf under the loan note guarantee, given the lender would not be entitled to the payments had they retained the entire interest in the loan.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 86 FR 70358, Dec. 10, 2021; 89 FR 79726, Sept. 30, 2024]

§§ 5001.409–5001.449 [Reserved]

GUARANTEE PROVISIONS

§ 5001.450 General.

(a) *Full faith and credit.* A loan note guarantee issued under this part constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which a lender or holder has actual knowledge at the time it becomes such lender or holder, or which a lender or holder participates in or condones.

(b) *Conditions of guarantee.* A guaranteed loan under this part will be evidenced by a loan note guarantee issued by the Agency.

(1) The entire loan must be secured by the same collateral with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of the guaranteed loan will neither be paid first nor given any preference or priority over the guaranteed portion. A parity or junior lien position in the guaranteed loan collateral may be considered on a case-by-case basis and must be approved by the Agency during the loan approval process. Requirements for guaranteed loans to purchase cooperative stock are found in § 5001.140.

(2) The lender must remain mortgagee and secured party of record notwithstanding the fact that another party may hold a portion of the guaranteed loan.

(3) The lender will receive all payments of principal and interest on account of the entire guaranteed loan and must promptly remit to each holder and participant, if any, its pro rata share of any payment within 30 days of the lender's receipt thereof from the borrower. Holder or participant payments are determined according to their respective interest in the guaranteed loan, less only the lender's servicing fee.

(4) Any claim against a loan note guarantee or assignment guarantee agreement that is attached to, or relating to, a promissory note that provides for payment of interest-on-interest, default charges, penalty interest, or late payment fees will be reduced to remove such interest, fees and charges.

(5) The loan note guarantee is unenforceable by the lender to the extent that any loss is occasioned by:

(i) The violation of usury laws;

(ii) Use of guaranteed loan funds for unauthorized loan purposes in accordance with § 5001.122 or to the extent that those funds are used for purposes other than those specifically approved by the Agency in its conditional commitment or amendment thereof;

(iii) Failure to obtain, perfect, document, and or maintain the required collateral or security position regardless of the time at which the Agency acquires knowledge thereof; and

(iv) Negligent loan origination or negligent loan servicing as determined and documented by the Agency.

(6) The Agency will guarantee payment as follows:

(i) To any holder, 100 percent of any loss sustained by the holder on the guaranteed portion of the guaranteed loan it owns and on interest due (as determined under paragraph (g) of this section) on such portion less any outstanding servicing fee.

(ii) To the lender: Any loss sustained by the lender on the guaranteed portion of the guaranteed loan, including principal and interest (as determined under paragraph (c) of this section) evidenced by the promissory note(s) or assumption agreements entered into in connection with an Agency approved transfer and assumption, and secured advances for protection and preservation of collateral made with the Agency's authorization if applicable.

(c) *Accrued interest payments.* If a loan has been guaranteed by the Agency

prior to October 1, 2020, the Agency will guarantee the lender and any holders accrued interest in accordance with the applicable regulations in effect for the respective program at the time the loan was guaranteed. For all guaranteed loans closed on or after October 1, 2020, the Agency will guarantee accrued interest in accordance with paragraph (c)(1) or (2), as applicable, of this section.

(1) If the lender owns all or a portion of the guaranteed portion of the guaranteed loan or makes a protective advance, the Agency, in its sole discretion, may cover interest on the guaranteed portion for the 90 days from the most recent delinquency effective date. Per paragraph (c)(2) of this section, if applicable, the lender should issue an interest termination letter to any holder(s) and provide the Agency with a copy. The Agency will entertain the payment of interest up to 180 days past the most recent delinquency effective date only if:

(i) The lender, and not the Agency, has repurchased all holder interests in the guaranteed loan in accordance with § 5001.511;

(ii) The lender is actively engaged in a credit resolution with the borrower to bring the account current or fully liquidate the collateral under the terms of a liquidation plan approved by the Agency; and

(iii) Concurrence for inclusion of the extended period of interest to the lender is received from the Agency. The lender must request an extension of accrued interest in writing and document their collection efforts and timeframe for full resolution, which must be within 180 days from the most recent delinquency. Approved collection efforts that will extend longer than 180 days from the most recent delinquency date will be limited to 90 days of accrued interest payment from the Agency.

(2) If the guaranteed loan has one or more holders, the lender will issue an interest termination letter to each holder establishing the termination date for interest accrual and provide the Agency with a copy. The loan note guarantee will not cover interest to any holder accruing after 90 days from the date of the interest termination letter. The Agency at its sole discretion may notify each holder of the interest termination provisions if it is determined that lender correspondence to holders is inadequate.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62197, Oct. 2, 2020; 89 FR 79726, Sept. 30, 2024]

§ 5001.451 Conditional commitment.

(a) *Issuance.* Upon selection of an application in accordance with § 5001.315 in subpart D, the Agency will issue a conditional commitment to the lender, to be accepted by the lender and the borrower, containing conditions under which the Agency will issue a loan note guarantee.

(1) Upon acceptance of the conditional commitment, the lender agrees not to modify the scope of the project, overall facility concept, project purpose, use of guaranteed loan funds, or other terms and conditions without Agency written concurrence in accordance with paragraph (c) of this section.

(2) If the lender decides at any time after receiving a conditional commitment that it no longer wants a loan guarantee, the lender must immediately advise the Agency of the cancellation in writing. Upon written notification from the lender, the Agency will de-obligate the funds associated with the conditional commitment.

(b) *Content.* The conditional commitment will address information required for issuing a loan note guarantee, including but not limited to:

(1) Approved use of guaranteed loan funds (source and use of funds);

(2) Rates and terms of the loan;

(3) Loan agreement requirements to include:

(i) Repayment terms and amortization provisions of the guaranteed loan;

(ii) Description of real property collateral, list of other collateral and identification of the lender's lien priority in the collateral;

(iii) A list of persons and entities guaranteeing payment of the guaranteed loan and their percentage of guarantee;

(iv) Requirement as to the type and frequency of the financial statements to be required for the duration of the guaranteed loan (guarantor statements must be updated at least annually);

(v) Prohibition against borrower assuming liabilities or obligations of others;

(vi) Limitations on borrower dividend payments and compensation of officers, owners and members of borrower;

(vii) Limitations on the purchase and sale of equipment other fixed assets and real estate;

(viii) Restrictions on mergers, consolidations, or sales of the business, project, or guarantee loan collateral without the concurrence of the lender;

(ix) Limitations on significant management changes without the concurrence of the lender;

(x) Maximum debt-to-net worth ratio, when required by the lender or by this part;

(xi) Minimum debt service coverage ratio, when required by the lender or by this part;

(xii) Requirements imposed by the Agency in its conditional commitment;

(xiii) Agency environmental requirements; and

(xiv) Requirement for the lender and the Agency to have reasonable access to the project and financial records including access for periodic inspections of the project and financial records by a representative of the lender or the Agency; and

(xv) Requirement for the borrower to provide the lender and the Agency performance information during the term of the guaranteed loan.

(4) Loan closing requirements;

(5) Lender and borrower certifications;

(6) Collateral and lien position requirements; and

(7) Other requirements necessary to protect the Agency.

(c) *Change requests.* The lender can request, in writing, changes to the conditional commitment with justification. The Agency can deny, solely at its discretion, changes to the conditional commitment even if the changes are otherwise in compliance with this part. All changes to the conditional commitment must be documented by written amendment to the conditional commitment executed by all parties.

(d) *Acceptance or withdrawal of conditional commitment.* The lender and borrower must complete and sign the conditional commitment and return a copy to the Agency within 60 days. If the conditional commitment is not accepted by both the lender and borrower within 60 days, the conditional commitment becomes null and void and the Agency will withdraw the conditional commitment and de-obligate the associated funds.

(e) Modification, and expiration of conditional commitment. The conditional commitment issued by the Agency will be effective for a period of one year or sufficient time to complete the guaranteed loan project prior to loan closing. The lender must submit a written request to the Agency to extend the conditional commitment at least 30 days prior to its expiration date and obtain Agency approval for the extension. The Agency will consider this request only if no material adverse changes in the borrower or the borrower's financial condition have occurred since issuance of the conditional commitment. If a conditional commitment expires, the Agency will notify the lender in writing and may de-obligate the funds. Any additions or modifications to conditions stated in the original conditional commitment must be agreed upon between the lender, the borrower, and the Agency.

[85 FR 42518, July 14,2020, as amended at 86 FR 70358, Dec. 10, 2021; 87 FR 7368, Feb. 9, 2022]

§ 5001.452 Loan closing and conditions precedent to issuance of loan note guarantee.

(a) The lender must not close the guaranteed loan until all conditions of the conditional commitment are met. If, at a later date, it is discovered that all conditions were not met, the lender will be advised in writing that full enforceability of the guarantee by the lender may be compromised if the deficiencies are not corrected.

(b) Simultaneously with or immediately after the guaranteed loan closing, the lender must provide to the Agency the guarantee fee, and the following forms and documents:

(1) An Agency-approved, ''Guaranteed Loan Closing Report'';

(2) A copy of each executed promissory note and collateral security documents;

(3) A copy of the executed final loan agreement, which must include any additional requirements imposed by the Agency in the conditional commitment;

(4) The original, executed Agency-approved guarantee form(s) for any required personal, partnership or corporate guarantees;

(5) The borrower's loan closing balance sheet, if required;

(6) For loans to public bodies, an opinion from recognized bond counsel regarding the adequacy of the preparation, issuance, and enforceability of the debt instruments;

(7) Any other documents required to comply with applicable law or required by this part, the conditional commitment or the Agency; and

(8) When requesting issuance of a loan note guarantee, the lender must certify to each condition identified in paragraphs (b)(8)(iii)(A) through (V) of this section, as applicable.

(i) In making its certification, the lender can rely on certain written materials (*e.g.*, certifications, evaluations, appraisals, financial statements, and other reports) provided by the borrower or other qualified third parties (*e.g.*, independent engineers, appraisers, accountants, attorneys, consultants, or other experts).

(ii) If the lender is unable to provide any of the certifications required under this section, the lender must provide an explanation satisfactory to the Agency.

(iii) The lender may request the loan note guarantee prior to construction in accordance with this part; however, the lender must still certify to all applicable conditions of this paragraph (b)(8)(iii).

(A) All requirements of the conditional commitment have been met.

(B) The financial criteria specified in § 5001.303(b)(4) of this part and any financial criteria contained in the conditional commitment were:

(*1*) Determined in accordance with any applicable requirements in § 5001.9 of this part, and

(*2*) Have been maintained through the issuance of the loan note guarantee. Failure to maintain or attain the minimum financial criteria will result in the Agency not issuing a loan note guarantee.

(C) No major changes have been made in the applicant, project or lender's loan conditions and requirements since the issuance of the conditional commitment, unless such changes have been approved by the Agency.

(D) There has been neither any material adverse change in the borrower's financial condition nor any other material adverse change in the borrower during the period of time from the Agency's issuance of the conditional commitment to issuance of the loan note guarantee regardless of the cause or causes of the change and whether or not the change or causes of the change were within the lender's or borrower's control.

(*1*) The borrower is a legal entity in good standing with its regulator (as applicable) and operating in accordance with the laws of the State(s) or Tribe where the borrower was organized or has a place of business.

(*2*) The borrower meets the eligibility requirements as outlined in § 5001.126(a) and (b) through (e), as applicable.

(E) There is a reasonable prospect that the guaranteed loan and other project debt will be repaid on time and in full (including interest) from project cash flow according to the terms proposed in the application.

(F) The guaranteed loan has been properly closed, and the required security instruments have been properly executed and all security interests obtained by the lender have been or will be properly perfected in accordance with applicable law.

(G) All planned property acquisition has been or will be completed; all development has been or will be substantially completed in accordance with plans and specifications and conforms to applicable Federal, State, and local codes; all equipment required for the project is available, can be procured and delivered within the project development schedule, and will be installed in conformance with manufacturer's specifications and design requirements; and costs have not exceeded the amount approved by the lender and the Agency.

(H) The proposed project complies with all current Federal, State, and

local laws and regulatory rules that affect the project, the borrower, and lender activities, including, but not limited to, equal opportunity and Fair Housing Act requirements and design and construction requirements.

(I) Lender-required insurances are in effect.

(J) All truth-in-lending and equal credit opportunity requirements have been met.

(K) The borrower has marketable title to the collateral then owned by the borrower, subject to the rights of the guaranteed loan and to any other exceptions approved in writing by the Agency.

(L) Where required, necessary or prudent, the borrower has obtained—

(*1*) A legal opinion relative to the title and accessibility to any rights-of-way and easements; and

(*2*) A title opinion or title insurance showing the borrower has good and marketable title to the real property and other collateral and fully addressing all existing mortgages or other lien defects, restrictions or encumbrances. In those cases where there is adequate gap coverage, a title commitment may be acceptable.

(M) All project funds have been or will be disbursed for purposes and in amounts consistent with the conditional commitment (or Agency-approved amendment thereof) and the application submitted to the Agency. Appropriate lender controls were used to ensure that all funds were properly disbursed, including funds for working capital. A copy of a settlement statement by the lender detailing the use of loan and matching/equity funds must be attached to support this certification.

(N) When applicable, the entire amount of the loan for working capital or initial operating expenses have been disbursed to the borrower, except in cases where the Agency has approved disbursement over an extended period of time and funds are escrowed so that the settlement statement reflects the full amount to be disbursed.

(O) When required, personal and/or corporate guarantees have been obtained in accordance with § 5001.204 of this part.

(P) Lien priorities are consistent with the requirements of the conditional commitment. No claims or liens of laborers, subcontractors, suppliers of machinery and equipment, materialmen, or other parties have been filed against the collateral and no suits are pending or threatened that would adversely affect the collateral.

(Q) Neither the lender nor any of the lender's officers has an ownership interest in the borrower or is an officer or director of the borrower, and neither the borrower nor its officers, directors, stockholders, or other owners have more than a 5 percent ownership interest in the lender.

(R) The loan agreement includes all borrower compliance measures identified in the Agency's environmental review for avoiding or reducing adverse environmental impacts of the project's construction or operation.

(S) The lender will comply with the requirements of the Debt Collection Improvement Act.

(T) The lender has executed and delivered the lender's agreement, completed registration in the Agency's electronic reporting system, and electronically submitted the closing report for the guaranteed loan along with the appropriate guarantee fee.

(U) For all RES and EEI projects, the lender must provide certification that the project has been performing or will perform at a steady state operating level in accordance with the technical requirements, plans, and specifications. Any modification to the 30-day steady state operating level requirement will be based on the Agency's review of the technical report or vendor certification and will be incorporated into the conditional commitment.

(V) For CF and WWD projects, the lender must also certify that the lender would not make the loan without an Agency loan guarantee.

(W) For WWD projects, if applicable, the lender must certify that the project complied with American Iron and Steel requirements.

(X) For B&I, the capital/equity requirement set forth in the Conditional Commitment was met, as evidenced by a balance sheet as of the date the guaranteed loan was closed, giving effect to

the entirety of the loan in the calculation whether or not the loan itself is fully advanced. A copy of the borrower's loan closing balance sheet must be included with the lender's certification.

(c) For RES projects where applicable, the lender must provide to the Agency a copy of the executed power purchase agreement and/or a permission to operate letter from the energy off-taker.

(d)(1) For all CF projects before the Agency will issue a loan note guarantee on a guaranteed loan to a borrower other than a public body, the articles of incorporation or other organizing documents of the borrower or the loan agreement must include a condition similar to the following:

(2) If the corporation dissolves or ceases to perform the community facility objectives and functions, the board of directors shall distribute all business property and assets to one or more nonprofit corporations or public bodies. This distribution must be approved by 75 percent of the users or members and must serve the public welfare of the community. The assets may not be distributed to any members, directors, stockholders, or others having a financial or managerial interest in the corporation. Nothing herein shall prohibit the corporation from paying its debts.

(e) For all B&I projects a borrower whose project involves locally or regionally produced agricultural food products and is not located in a rural area must include in an appropriate agreement with retail and institutional facilities to which the borrower sells locally or regionally produced agricultural food products a requirement to inform consumers of the retail or institutional facilities that the consumers are purchasing or consuming locally or regionally produced agricultural food products.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62198, Oct. 2, 2020; 86 FR 70358, Dec. 10, 2021; 89 FR 79726, Sept. 30, 2024]

§ 5001.453 Issuance of the loan note guarantee.

The Agency, at its sole discretion, will determine if the conditions specified in the conditional commitment have been met and whether to issue the loan note guarantee.

(a) *Issuance.* When the Agency is satisfied that all of the conditions specified in the conditional commitment have been met and it receives all the required fees plus the executed lender's agreement from the lender, the Agency will issue the documents identified in paragraphs (a)(1) through (3) of this section, as appropriate.

(1) *Loan note guarantee.* The Agency will provide the lender the original loan note guarantee document which the lender must attach to the promissory note. If the lender elected to use the multi-note system, the Agency will issue one loan note guarantee for the set of promissory notes.

(2) *Assignment guarantee agreement.* If the lender assigns any guaranteed portion of a guaranteed loan to a holder, the lender, holder, and the Agency will execute an assignment guarantee agreement for each assignment.

(3) *Certificate of incumbency and signature.* The Agency will provide the holder an executed certificate of incumbency form to verify the signature and title of the Agency official who signed the assignment guarantee agreement.

(b) *Agency review of closing.* The Agency will review the closing documents submitted by the lender for completeness and if all conditions have been met and all documents have been provided, the Agency will issue the loan note guarantee. If the Agency determines that it cannot issue the loan note guarantee, the Agency will notify the lender, in writing, of the reasons and give the lender a reasonable period within which to satisfy the objections. If the lender satisfies the objections within the time allowed, the Agency will issue the loan note guarantee.

(c) *Cancellation of obligation.* A lender can submit a written request to the Agency for a partial cancellation. The lender must include in this request the reason for the partial cancellation, the effective date, and the portion to be canceled. If the Agency conditions for issuance of the loan note guarantee are rejected, cannot be met or funds are, in whole or in part, no longer needed, the Agency will cancel the obligation.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62198, Oct. 2, 2020]

§ 5001.454 Guarantee fee.

The guarantee fee is a one-time, nonrefundable fee paid by the lender to the Agency at or before loan closing and is required to be paid before the Agency will issue the loan note guarantee. The guarantee fee rate applied will be the rate as established in the FEDERAL REGISTER for the fiscal year in which a guaranteed loan is obligated. The lender may pass the guarantee fee on to the borrower.

(a) *Guarantee fee calculation*. The one-time guarantee fee is calculated by multiplying the total loan amount by the percentage of guarantee by the guarantee fee rate, which may vary by program.

(b) *Guarantee fee rates*. The guarantee fee rate is established by the Agency in an annual document published in the FEDERAL REGISTER. While the fee rate may vary annually, they will not exceed the limits in table 1. Once the guarantee is obligated, the guarantee fee rate in effect at the time of obligation will remain in place even if the guarantee fee rate changes before the loan note guarantee is issued.

TABLE 1 TO § 5001.454(b)—GUARANTEE FEE

	Maximum guarantee fee (percent)
Community Facilities	4
Water and Waste Disposal	3
Business and Industry	5
Rural Energy for America Program	3

(c) *Loan note guarantee prior to completion*. If the loan note guarantee is issued prior to completion of the project's construction under § 5001.205(e)(2), an additional guarantee fee of 0.50 percent will be added.

(d) *Reduced fee*. Subject to annual limits set by the Agency and published in an annual FEDERAL REGISTER document, the Agency may charge a reduced guarantee fee if requested by the lender when the borrower's project meets any one of the following criteria:

(1) Is located in a rural community that—

(i) Is a distressed community in accordance with the Economic Innovation Group distressed community index. The list can be found on the Agency's website at: *https://www.rd.usda.gov/onerdguarantee;*

(ii) Is experiencing long-term population decline according to the last three decennial censuses;

(iii) Is in a persistent poverty county. A persistent poverty county is any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial census and 2007–2011 American Community Survey 5-year average, or any territory or possession of the United States;

(iv) Is in a presidentially declared disaster area, declared within the 24 months preceding the date of the application, and is experiencing trauma as a result of natural disaster;

(v) Is located in a city, county, or state with an unemployment rate, as determined by the Department of Labor, 125 percent or greater of the current national rate; or

(vi) Is located within the boundaries of a federally recognized Indian tribe's reservation or within Tribal trust lands or within land owned by an Alaska Native Regional or Village Corporation as defined by the Alaska Native Claims Settlement Act.

(2) Processes, distributes, aggregates, stores, and/or markets locally or regionally produced agricultural food products and promotes access to healthy foods;

(3) Is locally owned and managed, and either

(i) Supports value-added agriculture and provides a market for locally or regionally produced agricultural food product; or

(ii) Produces a natural resource value-added product/manufactures a product from a natural resource.

(4) Is part of a strategic economic development and community development plan on a multi-jurisdictional and multi-sectoral basis in accordance with Section 6401 of the Agriculture Improvement Act of 2018 (Pub. L. 115–334); or

(5) Provides an additional market for existing local businesses by purchasing substantial amounts of products or services from, selling product to, or providing services to existing local and regional businesses. The additional market for existing local businesses

means that the borrower uses industry clusters in the same community as a substantial part of their product manufacturing or service delivery, or the borrower is part of a product chain where they are a substantial part of another local business' product manufacturing or service delivery. The use of local janitorial or maintenance firms, for example, does not meet this criteria.

[85 FR 42518, July 14, 2020, as amended at 86 FR 70358, Dec. 10, 2021; 89 FR 79726, Sept. 30, 2024]

§ 5001.455 Periodic guarantee retention fee.

The Agency will collect a periodic guarantee retention fee from the lender for as long as the loan note guarantee is outstanding in accordance with the annual notice published in the FEDERAL REGISTER in accordance with § 5001.10. Payment of the periodic guarantee retention fee is required to maintain the validity of the loan note guarantee. The lender may pass the fee on to the borrower but may not delay payment of the fee to the Agency while collecting the payment from the borrower. The fee rates may differ by program as published annually in a document in the FEDERAL REGISTER in accordance with § 5001.10. The annual FEDERAL REGISTER notification will include the frequency of payment for the fees.

(a) *Calculation*. The guarantee retention fee is calculated by multiplying the full outstanding principal guaranteed loan balance as of a date(s) as published in the annual FEDERAL REGISTER notification, by the percentage of guarantee, by the fee rate as noted in the guaranteed loan conditional commitment.

(b) *Effective fee rate*. The effective guarantee retention fee rate that is published in a FEDERAL REGISTER document in accordance with § 5001.10 at the time the guaranteed loan is obligated will be noted in the guarantee loan conditional commitment and the fee will remain in effect for the life of the loan note guarantee.

(c) *Payments*. The guarantee retention fee payment frequency and related due date provisions will be published in the annual FEDERAL REGISTER notification.

(1) Guarantee retention fee payments not received within 60 days after their due date are considered delinquent and, at the Agency's discretion, may result in cancellation of the loan note guarantee to the lender. The Agency will provide the lender 30 calendar days' written notice that the fee is delinquent before canceling the loan note guarantee. Holders' rights will continue in effect as specified in the loan note guarantee and assignment guarantee agreement, unless the holder took possession of an interest in the loan note guarantee knowing guarantee retention fees had not been paid.

(2) Until the loan note guarantee is canceled by the Agency, any delinquent periodic guarantee retention fee will bear interest at the promissory note rate.

(3) When the Agency repurchases 100 percent of the guaranteed portion of the guaranteed loan as prescribed in § 5001.511(c), the Agency will discontinue collection of the periodic guarantee retention fee.

(d) *Secondary market prohibition*. Lenders are prohibited from selling any portion of the guaranteed loan on the secondary market if there are unpaid periodic guarantee retention fees.

§ 5001.456 Other fees.

The Agency has the authority and may at its discretion charge additional fees in order to maintain adequate levels of program funding. Prior to the Agency charging any additional fees, the Agency will publish a notice of those fees in the FEDERAL REGISTER in accordance with § 5001.10. All fees will be disclosed in the conditional commitment specific to the project as issued to the lender at the time approval.

(a) Until the loan note guarantee is canceled by the Agency, any delinquent fees will bear interest at the promissory note rate.

(b) Lenders are prohibited from selling any portion of the guaranteed loan on the secondary market if there are unpaid fees.

§ 5001.457 Changes prior to loan closing.

(a) *Change in borrower prior to closing.* Any change in borrower ownership or organization prior to the issuance of the loan note guarantee must meet the applicable guaranteed program's eligibility requirements and must be approved by the Agency.

(b) *Transfer to new lender prior to issuance of the loan note guarantee.* Prior to issuance of the loan note guarantee, a lender can request a transfer of an outstanding conditional commitment to a new lender by providing the Agency with a letter from the lender, the borrower, and the proposed new lender. The request must include the reason(s) the current lender no longer desires to be the lender for the project.

(1) The Agency may approve the transfer from the current lender to the proposed new lender provided the new proposed lender is an eligible lender (see paragraph (b)(2) of this section) and no material adverse changes have occurred in the:

(i) Ownership, control or legal structure of the borrower; and

(ii) Borrower's written plan, scope of work, or the purpose or intent of the project.

(2) The Agency will determine if the proposed new lender is eligible in accordance with § 5001.130 of this part prior to approving the transfer of lender. The new lender must execute a new application form and a lender's agreement (unless the new lender already has a valid lender's agreement with the Agency) and must complete a new credit evaluation in accordance with § 5001.202 of this part. The Agency may require the new lender to provide other updated application items as specified by the Agency.

(3) If the Agency approves the transfer to the new lender, the Agency will issue a letter of amendment to the original conditional commitment reflecting the new lender who must acknowledge acceptance of the amended conditional commitment in writing.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79727, Sept. 30, 2024]

§ 5001.458 Other Federal, State, and local requirements.

Beginning on the date of issuance of the loan note guarantee, lenders and borrowers must—

(a) Coordinate with all appropriate Federal, State, local and Tribal agencies that may have jurisdiction or involvement in each project; and

(b) Comply with all current Federal, State, local, and Tribal laws and rules, as well as applicable regulatory commission rules, that affect the project, the borrower, or lender. Compliance activities include, but are not limited to—

(1) Organization and borrower's authority to design, construct, develop, operate, and maintain the proposed facilities;

(2) Borrowing money, giving security, and raising revenues for repayment;

(3) Land use zoning;

(4) Health, safety, and sanitation standards as well as design and installation standards; and

(5) Protection of the environment and consumer affairs.

§ 5001.459 Replacement of loan note guarantee and assignment guarantee agreement.

If a loan note guarantee or assignment guarantee agreement has been lost, stolen, destroyed, mutilated, or defaced while in the custody of the lender or holder, the Agency may issue a replacement to the lender or holder, as applicable under the conditions described in paragraphs (a) through (b) of this section. The lender is prohibited from altering or modifying or approving any alterations to or modifications of any loan documents without the prior written approval of the Agency.

(a) *Replacement requirements.* The lender must coordinate the activities of the party who seeks the replacement documents and must submit the required documents to the Agency for processing. The requirements for replacement are as follows:

(1) A written statement of loss which includes:

(i) Legal name and present address of either the lender or the holder who is requesting the replacement forms;

(ii) Legal name and address of the lender of record;

(iii) Capacity of person certifying;

(iv) Full identification of the loan note guarantee or assignment guarantee agreement including the name of the borrower, the Agency's case number, date of the loan note guarantee or assignment guarantee agreement, face amount of the promissory note in which an interest was purchased, date of the promissory note, present balance of the guaranteed loan, percentage of guarantee, and, if an assignment guarantee agreement, the original named holder and the percentage of the guaranteed portion of the guaranteed loan assigned to that holder. Any existing parts of the document to be replaced must be attached to the certificate;

(v) A full statement of circumstances of the loss, theft, destruction, defacement, or mutilation of the loan note guarantee or assignment guarantee agreement; and

(vi) For the holder, evidence demonstrating current ownership of the assignment guarantee agreement. If the present holder is not the same as the original holder, the lender must include a copy of the endorsement of each successive holder in the chain of transfer from the initial holder to present holder. If copies of the endorsement cannot be obtained, the lender must submit the best available records of transfer (*e.g.*, order confirmation, canceled checks, etc.).

(b) *Indemnity bond.* An indemnity bond acceptable to the Agency must accompany the request for replacement except when the holder is the United States, a Federal Reserve Bank, a Federal Government corporation, a State or territory, the District of Columbia or a federally recognized tribal entity. The indemnity bond must:

(1) Be issued by a qualified surety company holding a certificate of authority from the Secretary of the Treasury and listed in Treasury Department Circular 570, except when the outstanding principal balance and accrued interest due the present holder, in accordance with § 5001.450(c), is less than $1 million as verified by the lender via a written letter of certification of balance due;

(2) Be issued and payable to the United States of America acting through the Agency;

(3) Be in an amount not less than the unpaid principal and interest; and

(4) Hold the Agency harmless against any claim or demand that might arise or against any damage, loss, costs, or expenses that might be sustained or incurred by reason of the loss or replacement of the instruments.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62198, Oct. 2, 2020; 89 FR 79727, Sept. 30, 2024]

§§ 5001.460–5001.500 [Reserved]

Subpart F—Servicing Provisions

§ 5001.501 General.

The lender is responsible for servicing the entire loan and taking all servicing actions that a reasonably prudent lender would perform in servicing its own portfolio of loans that are not guaranteed. The lender must certify that it will service the guaranteed loan in accordance with this part, its loan servicing policies and procedures, and the lender's agreement. Where a lender's loan servicing policies and procedures address a corresponding requirement in this part or in the lender's agreement, the lender must comply the corresponding requirement in this part, unless otherwise approved by the Agency.

(a) A lender's servicing responsibilities include, but are not limited to,

(1) Periodic borrower visits;

(2) Distribution of guaranteed loan funds;

(3) Collecting payments on guaranteed loans;

(4) Ensuring compliance with the covenants and provisions in the loan agreement, security instruments, and other supplemental agreements relating to the guaranteed loan;

(5) Obtaining and analyzing financial statements;

(6) Ensuring payment of taxes and insurance premiums;

(7) Maintaining liens and lien priority on collateral;

(8) Keeping an inventory of all collateral items, and reconciling the inventory of all collateral sold during guaranteed loan servicing, including liquidation;

(9) Obtaining Agency approvals or concurrence as required; and

(10) Cooperating fully with all oversight and monitoring efforts of the Agency or its representatives as specified in § 5001.502.

(b) The lender must remain mortgagee and secured party of record, notwithstanding the fact that another party may hold a portion of the loan.

(c) The lender must ensure that the borrower has obtained and will maintain all necessary insurance coverage appropriate to the proposed project.

(d) If the Agency determines that the lender is not in compliance with its servicing responsibilities, the Agency reserves the right to take any action the Agency determines necessary to protect the Agency's interests with respect to the guaranteed loan. If the Agency exercises this right, the lender must cooperate with the Agency to rectify the situation.

§ 5001.502 Oversight and monitoring.

The Agency will employ various oversight and monitoring activities in order to ensure compliance with this part. All lenders involved in any manner with any loan note guarantee issued under this part or under a loan note guaranteed previously issued under a guaranteed loan program identified in § 5001.1 of this part must cooperate fully with the Agency in its oversight and monitoring efforts, including, but not necessarily limited to, those identified in paragraphs (a) through (c) of this section.

(a) *Reports and notifications.* Lenders must submit to the Agency reports and notifications as required by this part. To facilitate the Agency's oversight and monitoring including, but not necessarily limited to, those identified in paragraphs (a)(1) through (4), as applicable, of this section.

(1) *Status reports.* No less than semiannual status reports as of June 30 and December 31 each year (unless more frequent reports are needed as determined by the Agency to protect the financial interests of the government) regarding the condition of the lender's guaranteed loan portfolio (including borrower status and loan classification) and any material change in the general financial condition of any borrower since the last report was submitted. The lender must submit these reports within 30 calendar days after the reporting period, using the appropriate Agency online reporting system.

(2) *Default reports.* Monthly default reports for each guaranteed loan in monetary default using the appropriate Agency online reporting system are due on the 15th working day of each month.

(3) *Notifications.* The lender(s) must notify the Agency by written notification within 15 calendar days of any:

(i) Loan agreement violation by any borrower, including when the borrower is 30 days past due or is otherwise in default of the covenants in the loan agreement;

(ii) Permanent or temporary reduction in the interest rate;

(iii) Downgrade in the lender's loan classification of any guaranteed loan; and

(iv) Protective advances in accordance with § 5001.516.

(4) *Collection activities report.* If a lender is liquidating the assets of a borrower, the lender must also evaluate and provide a report of collection activities regarding the collectability of personal and corporate guarantees.

(b) *Records*—(1) *Lenders.* Upon request by the Agency, the lender must permit representatives of the Agency (or other authorized persons) to inspect and make copies of any of the records of the lender pertaining to each guaranteed loan issued under this part or previously issued under one of the programs identified in § 5001.1 of this part. Such inspection and copying may be made during regular office hours of the lender or at any other time the lender and the Agency agree upon.

(2) *Borrowers.* Except as provided by law, upon request by the Agency, the borrower must permit representatives of the lender (or other authorized persons) to inspect and make copies of any of the records relating to the borrower's project. Such inspection and copying may be made during regular office hours of the borrower or at any other time agreed upon between the borrower and the lender.

(c) *Agency and lender conference.* When requested by the Agency, the lender must consult with the Agency to ascertain how the guaranteed loan is being serviced and that the conditions

and covenants of the loan agreement are being enforced.

(d) *Access to the project.* Until the loan note guarantee is terminated, the borrower must allow the lender and therefore the Agency access to the project and its performance information and permit periodic inspections of the project by an authorized representative of the lender or the Agency.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79727, Sept. 30, 2024]

§ 5001.503 REAP RES or EEI project completion requirements.

Once a REAP RES or EEI project has been completed, the lender or borrower is required to submit the applicable project performance report as identified in paragraphs (a) and (b) of this section by January 31 each year.

(a) *Renewable energy systems.* For RES projects, commencing the first full calendar year following the year in which project construction was completed and continuing for three full years, the borrower must provide an outcome project performance certification noting that either the system has or has not performed at the steady state operating level as described in the technical report filed with the REAP guaranteed loan application, and whether projected jobs created or saved have occurred. If it has not performed as intended, a report detailing the circumstances affecting performance must be provided to the Agency along with the actual energy production of the system (in BTUs, kilowatt-hours, or similar energy equivalents) and the actual number of jobs created or saved as a direct result of the RES project for which guaranteed loan funds were used.

(b) *Energy efficiency improvements.* For EEI projects, commencing the first full calendar year following the year in which project construction was completed and continuing for two full years, the borrower must provide an outcome project performance certification noting that either the energy efficiency improvements have or have not been utilized at or above the projected operating levels as described in the technical report filed with the REAP guaranteed loan application, and whether projected jobs created or saved have occurred. If it has not performed as intended, a report detailing the circumstances affecting performance must be provided to the Agency along with the actual energy savings of the system and the actual number of jobs created or saved as a direct result of the EEI project for which guaranteed loan funds were used.

§ 5001.504 Financial reports.

(a) The lender must obtain the borrower's and any guarantor's financial statements required by this part and the loan agreement. The Agency may require an annual audited financial statement based on a project's circumstances. States, local government, Indian tribes, institution of higher education, and nonprofit organization borrowers who meet the Federal awards expended threshold established in 2 CFR part 200, subpart F, ''Audit Requirements,'' during their fiscal year must submit an audit conducted in accordance with 2 CFR part 200, subpart F.

(b) The lender must submit financial statements obtained under this section to the Agency within 120 days of the end of the borrower's fiscal year. When the borrower's audit is conducted in accordance with 2 CFR part 200, subpart F, audits must be submitted no later than nine months after the end of the borrower's fiscal year or 30 days after the borrower's receipt of the auditor's report, whichever is earlier. If a lender makes reasonable documented attempts to obtain financial statements but is unable to obtain the borrower's (or guarantor's) cooperation, the failure to obtain financial statements does not impair the validity of the loan note guarantee.

(c) Annual financial statements must be in accordance with accounting practices acceptable to the Agency as prescribed in § 5001.9 for all borrowers with a guaranteed loan balance in excess of $600,000. The lender may determine the type and frequency of financial statements for borrowers with a total guaranteed loan balance below $600,000 upon notification and justification to the Agency. This section does not supersede the borrower financial statement requirements of 2 CFR part 200, subpart F.

(d) The lender must analyze the financial statements obtained under paragraph (a) of this section and provide the Agency with a financial analysis including a credit evaluation of trends, strength and weaknesses, ratio analysis, and conclusions, plus any extraordinary transactions; borrower violations of loan covenants and covenant waivers proposed by the lender, any routine servicing actions performed; and other indications of the financial condition of the borrower.

(e) Following the Agency's review of the lender's financial analysis, the Agency will notify the lender in writing of any concerns. The lender must address each concern identified in the Agency's findings by the due date stated in the correspondence.

(f) The lender should routinely confirm the outstanding principal balance of a guarantee held by a holder to avoid any discrepancy and delay in reconciliation in the event of a lender or Agency repurchase of the guaranteed loan from a holder in accordance with § 5001.511.

[85 FR 42518, July 14, 2020, as amended at 89 FR 96860, Dec. 6, 2024]

§ 5001.505 Collateral inspection and release.

(a) *Inspection of collateral.* The lender must inspect the collateral as often as necessary to properly service the guaranteed loan.

(b) *Release of collateral.* The lender must provide written justification for the release and obtain Agency approval before releasing any collateral. The lender is not required to provide justification for the release of collateral when the loan is not in default or liquidation and the collateral being released is a working asset, such as accounts receivable, inventory, and work-in-progress, that are routinely depleted or sold and proceeds used for the normal course of business operations.

(1) *Exceptions to prior approval.* Lenders are not required to obtain Agency approval prior to releasing collateral when the collateral sale proceeds are used to pay down debt in order of lien priority, pay down the guaranteed loan principal, or to acquire replacement collateral.

(2) *Appraisals.* Current appraisals are required on all transactions pursuant to the requirements of § 5001.203 of this part.

(3) *Sale or release transaction.* The sale or release of collateral must be based on an arm's length transaction, unless otherwise approved, in writing, by the Agency when the sale or release of collateral results in paying the guaranteed loan in full and termination of the loan note guarantee. There must be adequate consideration at market value for the release of collateral. Such consideration may include, but is not limited to:

(i) Application of the net proceeds from the sale of collateral to the borrower's debts in order of their lien priority against the sold collateral;

(ii) Use of the net proceeds from the sale of collateral to purchase other collateral of equal or greater value which the lender will obtain as security for the benefit of the guaranteed loan with a lien position equal or superior to the position previously held;

(iii) Application of the net proceeds from the sale of collateral to the borrower's guaranteed loan or to its business operation in such a manner that a significant improvement to the borrower's debt service ability will be clearly demonstrated. The lender's written request must detail how the borrower's debt service ability will be improved; and

(4) *No adverse impact.* Any release of collateral must not materially cause an adverse effect to the project's operation or financial condition and the remaining collateral must be sufficient to provide for adequate collateral coverage. Such assurance must be supported by written documentation from the lender and be acceptable to the Agency. If the Agency determines that the project may be adversely affected by a release of collateral, the Agency may, at its discretion, require an appraisal on the remaining collateral in accordance with § 5001.203 of this part.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79727, Sept. 30, 2024]

§ 5001.506 Loan transfers and assumptions.

(a) *General.* A lender must obtain prior written Agency approval in accordance with paragraph (c) of this section before the lender conducts a transfer and assumption of a guaranteed loan. The transferee will assume a loan amount at least equal to the outstanding loan balance or the present market value of the collateral, whichever is less. If the transferor is to receive a payment for their equity, the total debt must be assumed. The following conditions must be met:

(1) All transfers and assumptions will have a fee as provided by § 5001.509(b).

(2) For each transfer and assumption, the lender must concur in plans for the disposition of funds, if any, in the transferor's debt service, operations and maintenance, or other reserve accounts.

(3) The lender must confirm that the transfer and assumption can be completed in accordance with applicable laws.

(4) The lender must confirm that the conveyance instruments will be filed, registered, and recorded as appropriate and legally permissible. The transfer and assumption must be made on the Lender's form of assumption agreement and contain the Agency case number of the transferor and transferee. The lender must provide the Agency with a copy of the assumption agreement.

(5) The lender may request a transfer and assumption when the total indebtedness, or less than the total indebtedness, of the guaranteed loan is assumed by another borrower. If the assumption is for less than the total indebtedness, the transfer and assumption must be an arm's length transaction and the transfer must be of all loan collateral.

(6) In the event of default of the guaranteed loan, a transfer and assumption of the borrower's operation and guaranteed loan can be accomplished before or after the loan goes into liquidation. However, if the collateral has been purchased through foreclosure or the borrower has conveyed title to the lender, no transfer and assumption is permitted.

(7) No transfer and assumption is permitted when the Agency has repurchased any guaranteed portion of the guaranteed portion of the loan.

(8) If the transfer is for less than the total indebtedness, the pro rata share of an eligible loss will be paid to the lender after execution of the transfer and assumption documents.

(b) *Documentation.* The lender will provide to the Agency documentation to support the transferee's status as an eligible borrower, and such other documentation as the Agency may request to determine eligibility and credit evaluation.

(1) The new borrower must sign an Agency-approved application form.

(2) The Agency will require personal and/or corporate guarantee(s) in accordance with § 5001.204 of this part, as applicable. Any required new personal, partnership or corporate guarantors of the transferred guaranteed loan must sign an Agency approved guarantee form.

(c) *Agency approval.* The Agency will only approve a transfer and assumption if the transferee will continue the eligible purpose of the guaranteed loan and such transfer and assumption complies with the conditions specified in paragraphs (c)(1) through (3) of this section, as applicable.

(1) Whenever the transferor and transferee are affiliates or related parties, the transfer and assumption must:

(i) Be to an eligible borrower to continue the project for eligible purposes;

(ii) Transfer all the loan collateral; and

(iii) Be for the full amount of the guaranteed loan indebtedness.

(2) A transfer and assumption may be approved when the present borrower is unable or unwilling to accomplish the objectives of the guaranteed loan, and the transfer will be in the best financial interest of the borrower and the Agency.

(3) The Agency prefers to transfer to an eligible borrower subject to the policies and procedures governing the type of guaranteed loan being made, however the Agency will consider approving a transfer of a guaranteed loan to an ineligible borrower only if:

(i) The sale price is greater than it would be if the transfer was to an eligible borrower;

(ii) The transfer to an ineligible borrower is needed as a method for servicing a problem case; or

(iii) When an eligible borrower is not available. All transfers to an ineligible borrower must meet the following requirements:

(A) Transfer fees will be collected, and payments applied, in accordance with § 5001.509(b);

(B) The ineligible borrower agrees to pay the loan balance within the remaining term of the original guaranteed loan in periodic installments that will not result in a balloon payment at the loan's maturity;

(C) Interest rates are at the rate specified in the promissory note of the transferor or at rates customarily charged borrowers in similar circumstances in the ordinary course of business. The rates can be either fixed or variable, and are subject to Agency review and approval;

(D) The ineligible borrower must have the legal authority to enter into the contract and have the ability to repay the loan, as determined by the lender and the Agency. The ineligible borrower must submit a current balance sheet to the lender. The lender must obtain and analyze the credit history of the ineligible borrower.

(d) *Release of liability*. The transferor, including any guarantor, can be released from liability only with prior Agency written approval when the transfer and assumption is for the full outstanding balance of the guaranteed loan. If the assumption is for less than the full amount of the loan and the Agency pays a loss to the lender, the transferor, including any guarantor, are specifically subject to the Debt Collection Improvement Act provisions unless other workout arrangements have been made.

(e) *Loan agreement*. A new loan agreement or an assumption agreement, acceptable to the Agency must be executed to establish the terms and conditions of the loan being assumed.

(f) *Changes in loan terms*. When a transfer or assumption is made to an eligible borrower continuing the project for eligible purposes, the loan terms may remain the same or may be changed whether the transfer is for the total indebtedness or less than the total indebtedness. If the loan terms are to be changed, the lender must submit a request in accordance with this paragraph (f). The changed loan terms must be concurred to by the Agency, all holders, and the transferee (including guarantors). If there are changes in loan terms, the lender's request will require the following:

(1) An explanation of the reasons for the proposed change in the loan terms, and

(2) Certification that the lien position securing the guaranteed loan will be maintained or improved, and proper insurances will continue to be in effect.

(g) *Loan note guarantee*. The lender is responsible for noting each transfer and assumption on all originals of the loan note guarantee.

(h) *Proceeds*. Before the transfer and assumption is closed, the lender must credit any proceeds received from the sale of collateral to the transferor's guaranteed loan debt in order of lien priority.

(i) *Additional loans*. Guaranteed loans may be used to provide additional funds in connection with a transfer and assumption. The Agency will consider approving a guaranteed loan to provide additional funds in connection with a transfer and assumption pursuant to the lender's submission of a complete application in accordance with 7 CFR part 5001, subpart D.

(j) *Credit quality*. The lender must make a complete credit evaluation in accordance with § 5001.202 of this part to determine viability of the project (subject to the Agency review and approval) including any requirement for deposits in an escrow account as security to meet the applicable equity requirements for the project.

(k) *Appraisals*. If the proposed transfer and assumption is for less than the full amount of the guaranteed loan, an appraisal is required on all the collateral being transferred, and the amount of the assumption must not be less than this appraised value. The lender is responsible for obtaining the appraisal, which must conform to the requirements of § 5001.203 of this part. However, if the original appraisal is more than one year old, but less than two years old, the lender may provide an appraisal with a new effective date of

evaluation in lieu of a completely new appraisal.

(l) *Legal opinion.* Prior to Agency approval, the lender must provide the Agency a preliminary written legal opinion that the guaranteed loan can be properly and legally transferred and assurance that the conveyance instruments will be appropriately filed, registered, and recorded. Upon execution of the transfer and assumption, the lender must provide the Agency with a final legal opinion that the assumption is completed, valid, and enforceable, and the assumption is consistent with the conditions outlined in the Agency's conditions of approval for the transfer and complies with all Agency regulations.

(m) *Promissory notes.* The lender must not issue any new promissory notes, release any mortgages and/or deeds of trust on the existing debt being transferred. An allonge may be attached to existing promissory notes as needed.

(n) *Loss/repurchase resulting from transfer and assumption.* (1) Any resulting loss must be processed in accordance with § 5001.521.

(2) If a holder owns any of the guaranteed portion of the loan, such portion must be repurchased by the lender or the Agency in accordance with § 5001.511.

(o) *Cash down payment.* The lender may allow the transferee to make cash down payments directly to the transferor provided:

(1) The transfer and assumption are made for the total indebtedness to an eligible borrower to continue the project for eligible purposes;

(2) The lender recommends that the cash be released, and the Agency concurs prior to the assumption being completed. The lender can require that an amount be retained for a defined period of time as a reserve against future defaults. Interest on such account may be paid periodically to the transferor or transferee as agreed; and

(3) The lender determines that the transferee has the repayment ability to meet the obligations of the assumed guaranteed loan as well as any other indebtedness.

(p) *Change in control of borrower.* The Agency will deem that a transfer and assumption has occurred whenever there is a significant change in the control of the borrower.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79727, Sept. 30, 2024]

§ 5001.507 Lender transfer.

(a) After the issuance of a loan note guarantee, a lender may sell or transfer the entire loan to a new lender with prior written approval of the Agency. The Agency may approve the sale or transfer to a new lender if the following conditions are met. The new lender:

(1) Is an eligible lender in accordance with § 5001.130 of this part and is approved as such;

(2) Is able to service the loan in accordance with the original loan documents;

(3) Agrees in writing to acquire title to the unguaranteed portion of the loan held by the original lender and assumes all original loan requirements, including liabilities and servicing responsibilities; and

(4) The transfer to the new lender is requested in writing by the borrower, the proposed new lender, and the original lender of record, if still in existence.

(b) Upon Agency approval, the original lender must transfer to the new lender the:

(1) Original promissory note and loan security documents;

(2) Original loan note guarantee;

(3) Original personal and corporate guarantee(s);

(4) Loan payment history; and

(v) The new lender must agree to accept the current loan terms, including the interest rate, secondary market holder (if any), collateral, loan agreement terms, and guarantors. The new lender can modify the loan terms after acquisition only by submitting a written request to the Agency and receiving Agency approval.

(vi) The new lender must certify to the Agency that the loan transfer has been completed in accordance with applicable laws and all provisions of the original loan remain in full force and effect.

(c) The Agency will not pay any loss or share in any costs (*e.g.*, legal fees, appraisal fees and environmental assessments) for a voluntary transfer of

lender. This includes situations where a lender is merged with or acquired by another lender and situations where the lender has failed and been taken over by a Federal regulatory agency such as the Federal Deposit Insurance Corporation (FDIC) and the loan is subsequently sold to another lender. However, in situations where the lender has failed and been taken over by a Federal regulator and the loan is liquidated rather than being sold to another lender, the Agency will pay losses and share in costs as if the Federal regulatory agency were an approved new lender.

(d) In cases when there is a transfer to a new lender or when a lender has been merged with or acquired by another lender, the Agency and the new lender must execute a new lender's agreement, unless the new lender already has a valid lender's agreement with the Agency.

(e) After Agency approval of a transfer of lender, all terms of the original loan note guarantee shall transfer to the benefit of the new lender.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79727, Sept. 30, 2024]

§ 5001.508 Mergers.

Agency approval. All borrower mergers or consolidations (herein referred to as ''mergers'') require approval by the Agency and the lender. The Agency may approve a merger when—

(a) The resulting organization will be eligible for a guaranteed loan and assumes all the liabilities and acquires all the assets of the merged borrower;

(b) The merger is in the best interest of the government and the merging organization;

(c) The resulting organization can meet all required conditions as contained in specific loan agreements; and

(d) All property can be legally transferred to the resulting organization.

§ 5001.509 Servicing fees.

The lender may pass the servicing fees on to the borrower but may not delay payment of the fee to the Agency while collecting the payment from the borrower.

(a) *Guarantee retention fees.* Where the lender is required to pay a periodic guarantee retention fee (see § 5001.455), the fee is due for the entire payment period even if the loan note guarantee is terminated or transferred before the next retention fee payment is due.

(b) Borrower *transfer fee.* The Agency will charge the following fees:

(1) A one-time, $1,500 nonrefundable transfer fee at the time of transfer to an eligible borrower.

(2) Payment of a one-time nonrefundable transfer fee of 1 percent of the guaranteed loan balance to ineligible borrowers.

§ 5001.510 Subordination of lien position.

(a) *Request for subordination.* A lender seeking a subordination of its lien position in collateral must submit a written request to the Agency. The lender must include in the request a financial analysis of the servicing action. The financial analysis must be fully supported by current financial statements, less than 90 calendar days old, of the borrower and guarantors. The lender must receive written Agency approval prior to the subordination.

(b) *Agency approval.* Agency approval of the subordination request requires that:

(1) The subordination of the lender's lien position enhances the borrower's business and is in the best financial interest of the Agency;

(2) The lien to which the guaranteed loan is subordinated is for a fixed dollar amount or fixed credit limit and for a fixed term, after which the guaranteed loan lien priority will be restored;

(3) Remaining collateral is sufficient to provide for adequate collateral coverage of the guaranteed loan after taking into account the lender's discount of collateral consistent with the lender's sound loan-to-discounted value practices and satisfactory justification of the discount used. The Agency may require a current independent appraisal in accordance with § 5001.203. However, if the original appraisal is more than one year old, but less than two years old, the lender may provide an appraisal with a new effective date of evaluation in lieu of a completely new appraisal;

(4) Lien priorities remain for the portion of the loan collateral that was not subordinated;

(5) The subordination of collateral to a line of credit does not extend beyond the term of the line of credit and in no event exceeds more than three years.

(6) Subordination to a tax-exempt obligation is strictly prohibited in compliance with OMB Circular A–129, ''Policies for Federal Credit Programs and Non-Tax Receivables.''

[85 FR 42518, July 14, 2020, as amended at 89 FR 79727, Sept. 30, 2024]

§ 5001.511 Repurchases from holders.

(a) *General.* A holder can make written demand on either the lender or the Agency to repurchase the unpaid guarantee portion of the loan when the borrower is in monetary default or when the lender has failed to pay the holder its pro-rata share of any payment made by the borrower within 30 days of the lender's receipt thereof from the borrower. When making written demand on the lender, the holder must concurrently send a copy of the demand letter to the Agency.

(1) The lender is encouraged to repurchase the guarantee, upon written demand of a holder, to facilitate the accounting of funds, resolve any loan problem, and resolve the monetary default, where and when reasonable. The benefit to the lender is that it may reassign the guaranteed portion of the loan and then continue collection of its servicing fee, if any, when the monetary default is cured.

(2) When a lender receives a written demand for repurchase from a holder, the lender must notify any other holder and the Agency within 30 calendar days of receipt of the written demand. The lender must inform all parties if the lender will repurchase the unpaid guaranteed portion of the loan from the requesting holder.

(3) Upon repurchase the holder will re-assign the assignment guarantee agreement to the lender without recourse.

(b) *Repurchase by lender for loan servicing purposes.* If the lender, borrower, and holder are unable to agree to restructuring of loan repayment, interest rate, or loan terms to resolve any loan problem or resolve any default and repurchase of the guaranteed portion of the loan is necessary to adequately service the loan, the holder must reassign the guaranteed portion of the loan to the lender. The reassignment must be for an amount not less than the holder's unpaid principal and accrued interest, in accordance with § 5001.450(c) of this part, on such portion less the lender's servicing fee.

(1) Upon repurchase the holder will re-assign the assignment guarantee agreement to the lender without recourse.

(2) The lender must not repurchase from the holder for arbitrage or other purposes to further its own financial gain.

(3) Any repurchase from a holder may only be made after the lender obtains the Agency's written approval.

(c) *Agency repurchase.* If the lender does not repurchase the guaranteed portion from the holder, the Agency may, at its option, purchase such guaranteed portion of the loan for loan servicing purposes. A holder can submit a written demand to the Agency for repurchase only if the lender declines to repurchase. If a prior written demand was not made upon the lender, the Agency will notify the lender and allow up to seven calendar days for the lender to exercise their option to repurchase as provided in this section.

(1) *Lender does not repurchase.* If the lender does not repurchase the unpaid guaranteed portion of a loan as provided in paragraph (a) of this section, the Agency will, within 30 calendar days after written demand to the Agency from the holder, purchase from the holder the unpaid principal balance of the guaranteed portion together with accrued interest to date of repurchase or the interest termination date, whichever is sooner, less the lender's servicing fee. The guarantee will pay accrued interest to the holder on the loan as determined under § 5001.450(c) of this part.

(2) *Written demand content.* The holder must include in its written demand to the Agency:

(i) A copy of the written demand made upon the lender;

(ii) A copy of the lender's denial to repurchase the unpaid guaranteed portion of the guaranteed loan;

(iii) Evidence of the right to require payment from the Agency as provided by the holder or duly authorized agent.

Such evidence must consist of the original assignment guarantee agreement properly assigned to the Agency without recourse including all rights, title, and interest in the loan;

(iv) The amount due including unpaid principal, unpaid interest to date of demand, and interest subsequently accruing from date of demand to proposed payment date; and

(v) When the initial holder has assigned its interest, the original assignment guarantee agreement and an original of each Agency-approved reassignment document in the chain of ownership, with the latest reassignment being assigned to the Agency without recourse, including all rights, title, and interest in the guarantee.

(3) *Payment.* Unless otherwise agreed upon, payment will not be later than 30 calendar days from the date of demand.

(i) Upon request by the Agency, the lender must promptly furnish (within 30 calendar days of such request) a current statement, certified by an appropriate authorized officer of the lender, of the unpaid principal and interest then owed by the borrower on the loan and the amount then owed to any holder, along with the information necessary for the Agency to determine the appropriate amount due the holder.

(ii) Any discrepancy between the amount claimed by the holder and the information submitted by the lender must be resolved between the lender and the holder before payment will be approved. The Agency will notify both parties and such conflict will suspend the running of the 30-calendar-day payment requirement.

(iii) If a repurchase of a guaranteed loan includes the capitalization of interest, interest accrued on the capitalized interest will not be paid to the holder.

(4) *Subrogation.* When the Agency purchases a loan from a holder it assumes all rights that were previously held by the holder.

(5) *Servicing fee.* When the Agency purchases the guaranteed portion of the loan from a holder, the lender's servicing fee will stop on the date that interest was last paid by the borrower. The lender can neither charge a servicing fee to the Agency nor collect such fee from the Agency.

(6) *Accrued interest.* If the Agency repurchases 100 percent of the guaranteed portion of a loan and becomes the holder, interest accrual on the loan will cease until the lender resumes remittance of the pro rata payments to the Agency.

(7) *Establishing interest termination date.* When a guaranteed loan has been delinquent more than 60 calendar days and no holder comes forward or when the lender has accelerated the account, and subject to the expiration of any forbearance or workout agreement, the lender, or the Agency at its sole discretion, must issue a letter to the holder(s) establishing the interest termination date in accordance with § 5001.450(c)(2).

(8) *Obligations and rights.* Purchase by the Agency neither changes, alters, or modifies any of the lender's obligations to the Agency arising from the lender's agreement, guaranteed loan or loan note guarantee, nor does it waive any of the Agency's rights against the lender. The Agency will have the right to set-off against the lender all rights inuring to the Agency as the holder of the instrument against the Agency's obligation to the lender under the loan note guarantee.

(9) *Accelerated loan.* When the lender has accelerated the loan and the lender holds all or a portion of the guaranteed loan, an estimated loss claim must be filed by the lender with the Agency within 60 calendar days from the date the loan was accelerated. Accrued interest paid to the lender in accordance with § 5001.450(c)(1).

(10) *Interest termination during bankruptcy.* When a borrower files a Chapter 7 liquidation plan, the lender shall immediately notify the Agency and submit a liquidation plan. The Agency will establish an interest termination date based on the date interest was last paid to the lender. When a borrower files either a Chapter 9 or Chapter 11 bankruptcy restructuring plan, the Agency and lender shall meet to discuss the bankruptcy procedure, the ability of the borrower to meet their restructuring plan, the lender's treatment of accruing interest, and potentially establish an interest termination date

for the guaranteed loan. If the restructuring bankruptcy Chapter 9 or Chapter 11 is converted to a liquidation bankruptcy Chapter 7 by court order, the interest termination date will be the date of such conversion.

[85 FR 62198, Oct. 2, 2020, as amended at 89 FR 79728, Sept. 30, 2024]

§ 5001.512 Additional expenditures and loans.

The lender shall not make additional expenditures on behalf of, or provide new loans to, the borrower without notification to the Agency even though such expenditures or loans will not be guaranteed. The lender shall not approve additional expenditures or new loans where the expenditure or loan will violate, or cause a violation of, any of the loan covenants in the borrower's loan agreement.

§ 5001.513 Interest rate changes.

(a) *Interest rate freezes.* The guaranteed loan interest rate will freeze at the earliest uncured default date and will remain unchanged until the cancellation of the loan note guarantee in compliance with § 5001.524.

(b) *Reductions.* The borrower, lender, and holder (if any) may collectively initiate a permanent or temporary reduction in the interest rate of the guaranteed loan at any time during the life of the loan upon written agreement among these parties. After a permanent reduction, the loan note guarantee will only cover losses of interest at the reduced interest rate.

(1) When the Agency is a holder, the lender must obtain Agency approval before implementing the reduction. The lender must provide a copy of the modification agreement to the Agency for approval. The Agency will approve the reduction only when it is demonstrated that the change is more viable than liquidation and that the government's financial interests are not adversely affected.

(2) Factors that the Agency will consider in determining whether to approve the change are the Government's cost of borrowing money; the monetary recovery is greater than the liquidation recovery; and the project's continued viability as demonstrated by a financial feasibility analysis.

(c) *Increases.* Unless a temporary interest rate reduction occurred, increases in fixed interest rates and increases in variable interest rate structure are prohibited.

(d) *Fixed rate to variable rate change.* Fixed rates can be changed to variable rates to reduce the borrower's interest rate only when the variable rate has a ceiling that is less than or equal to the original fixed rate.

(e) *Variable rate to fixed rate change.* Variable rates can be changed to a fixed rate at the request of the borrower, agreement of the holder, if any, and Agency concurrence.

(f) *After adjustments.* The interest rates, after adjustments, must comply with the requirements for interest rates on new loans as established by paragraph § 5001.401.

(g) *Documentation.* The lender is responsible for the legal documentation of interest rate changes by an endorsement or any other legally effective amendment to the promissory note; however, no new promissory notes can be issued. The lender must provide copies of all such documents to the Agency within 10 calendar days of the change.

(3) In a final loss settlement when qualifying interest rate changes are made in compliance with this part, the lender must calculate interest based on the periods the given rates were in effect. The lender must maintain records that adequately document the accrued interest claimed, which must be determined in accordance with § 5001.450(c).

[85 FR 42518, July 14, 2020, as amended at 86 FR 70358, Dec. 10, 2021]

§ 5001.514 Lender failure.

(a) *General.* In the event a lender fails or ceases to service a guaranteed loan, the Agency will make the successor lending entity aware of the statutory and regulatory requirements and will provide instruction to the successor lending entity on a case-by-case basis. Such instructions may include the Agency's determination that the Agency will service the entire loan or the guaranteed portion of the loan.

(1) Any successor lender must take such action that a reasonable lender would take if it did not have a loan

note guarantee to protect the lender and Agency's mutual interest.

(2) A successor entity approved by the Agency as a lender will be afforded the benefits of the loan note guarantee in the sharing of any loss and eligible expenses subject to the limits that are set forth in the regulations governing the loan guarantee.

(b) *Non-regulated lender.* If the successor lending entity is a non-regulated lender, the lending entity is prohibited from making changes to the lender's agreement and related documents on the guaranteed loan. The successor lending entity must comply with the provisions of this part, including promptly applying to become a lender if not already an eligible lender. If the successor lending entity is not or fails to become a lender as set forth in § 5001.130 of this part within 60 calendar days, the loan note guarantee will not be enforceable.

(c) *Regulated lender.* Where the failed lending entity is an FDIC regulated lender, the FDIC and the Agency will enter into an Inter-Agency Agreement regarding the FDIC's role as the successor lending entity, and all parties are to abide by this agreement or successor document(s). This agreement sets forth the duties and responsibilities of each Agency when a lender fails. When the FDIC is not the successor to a failed regulated lender, the regulatory agency serving as the successor lending entity and the Agency will abide by terms of the lender's agreement as executed by the originating lender. The Agency reserves the right to request a meeting with the successor lending entity to further define the duties and responsibilities of each agency when a lender fails.

(d) *No successor entity.* In the event no successor lending entity can be determined, the Agency reserves the right to enforce the provisions of the loan documents on behalf of the lender or to purchase the lender's interest in the loan.

§ 5001.515 Default by borrower.

When there is a default by a borrower, the lender must act prudently and expeditiously in working with the borrower to bring the account current or cure the default through restructuring if a realistic plan can be developed, or to accelerate the account and conduct a liquidation in accordance with § 5001.517 and in a manner that will minimize any potential loss.

(a) *Default notification and meetings.* The lender must notify the Agency within the timeframe as provided in § 5001.502(a)(3)(i).

(1) The lender will provide this notification by submitting the guaranteed loan borrower default status report in the Agency's electronic reporting system. The lender must update the loan's status each month until such time as the loan is no longer in default.

(2) If a monetary default exceeds 30 calendar days, the lender must meet with the borrower and, if necessary, the Agency within 45 calendar days of the date of the default to discuss the situation. The lender must provide the Agency with a written summary of the meeting, including any decisions and actions agreed upon within 10 calendar days of the meeting.

(b) *Curative options.* In considering curative actions, providing a permanent cure without adversely affecting the risk to the Agency and the lender is the paramount objective. The lender may consider temporary curative actions (*e.g.,* payment deferments or collateral subordination) provided they strengthen the loan and are in the best financial interest of the lender and the Agency.

(1) Curative actions (subject to the rights of any holder and Agency concurrence) include, but are not limited to, the following options:

(i) Deferment of principal and/or interest payments;

(ii) An additional unguaranteed temporary loan by the lender to bring the account current;

(iii) Re-amortization of or rescheduling the payments on the loan excluding capitalization of accrued interest;

(iv) Transfer and assumption of the loan in accordance with § 5001.506;

(v) Reorganization;

(vi) Liquidation;

(vii) Changes in interest rates in accordance with § 5001.513. Any interest payments must be adjusted proportionately between the guaranteed and unguaranteed portion of the loan; and

(viii) Troubled debt restructure.

(2) The term of any deferment, rescheduling, re-amortization, or moratorium cannot exceed the lesser of the remaining useful life of the collateral or remaining term of the loan as set forth in § 5001.402(b) of this part.

(i) During a period of deferment or moratorium on the guaranteed loan, the lender's non-guaranteed loan(s) and any stockholder or affiliate loans must also be under deferment or moratorium.

(ii) Balloon payments are permitted as a loan servicing option as long as there is a reasonable prospect for successful repayment of the guaranteed loan and the remaining life of the collateral supports the action.

[85 FR 42518, July 14, 2020, as amended at 85 FR 62199, Oct. 2, 2020]

§ 5001.516 Protective advances.

Protective advances are allowed only when they are necessary to preserve the value of the collateral. Therefore, a lender must exercise sound judgment in determining that the protective advance preserves collateral and recovery is actually enhanced by making the advance.

(a) Protective advances must be reasonable with respect to the outstanding loan amount and the value of the collateral being preserved.

(b) A lender cannot make protective advances in lieu of additional loans.

(c) A lender must obtain written Agency approval for any protective advance that will cumulatively amount to more than $200,000, or 10 percent of the aggregate outstanding balance of principal and interest, whichever is less, to the same borrower. Payment of real estate taxes by the lender is considered a protective advance, subject to the requirements of this section, and does not require Agency advance approval.

(d) Protective advances constitute an indebtedness of the borrower to the lender and must be secured by collateral to the same extent as the original guaranteed loan. It is the lender's responsibility to ensure that any protective advances are secured by the collateral of the guaranteed loan.

(e) Notwithstanding § 5001.22(c) of this part, upon Agency approval, protective advances can be used to pay Federal tax liens or other Federal debt.

(f) A Protective advance claim will be paid only at the time of the final payment as indicated in the report of loss. In the event of a final loss, protective advances may accrue interest at the promissory note rate from the date of such advance and will be guaranteed at the same percentage of loss as provided for in the loan note guarantee. The loan note guarantee will not cover interest on the protective advance accruing after the interest termination date.

(g) The maximum loss to be paid by the Agency will never exceed the original loan amount plus accrued interest times the percentage of guarantee regardless of any protective advances made.

(h) Holders do not have an interest in protective advances.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79728, Sept. 30, 2024; 89 FR 97477, Dec. 9, 2024]

§ 5001.517 Liquidation.

In the event of one or more incidents of default or third-party actions that the borrower cannot or will not cure or eliminate within a reasonable period of time, the lender, with Agency consent, must provide for liquidation in accordance with paragraphs (a) through (n) of this section. The lender is responsible for initiating actions immediately and as necessary to assure a prompt, orderly liquidation that will provide maximum recovery. The Agency reserves the right to unilaterally conclude that liquidation is necessary and require the lender to assign the collateral to the Agency and the Agency will then liquidate the loan per paragraph (o) of this section.

(a) *Decision to liquidate.* A decision to liquidate a loan or proceed otherwise must be made when the lender determines that the default cannot be cured or when the Agency and the lender determine that it is in the best interest of the Agency and the lender to liquidate. The decision to liquidate or proceed otherwise with the borrower must be made as soon as possible when one or more of the following exist:

(1) The loan is 90 calendar days behind on any scheduled payment and the

lender and the borrower have not been able to cure the delinquency;

(2) Delaying liquidation will jeopardize full or maximum recovery on the loan; or

(3) The borrower or lender is uncooperative in resolving the problem or the Agency or lender has reason to believe the borrower is not acting in good faith, and immediate liquidation would minimize loss to the Agency.

(b) *Repurchase of loan.* When the decision to liquidate a loan is made, if any portion of the loan has been sold or assigned under § 5001.408 of this part and has not already been repurchased, the lender must make provisions for repurchase in accordance with § 5001.511.

(c) *Lender's liquidation plan.* Within 30 calendar days after the lender decides to liquidate a loan, the lender must submit a written, proposed plan of liquidation to the Agency for approval. The liquidation plan must be detailed and include at least the following information:

(1) Such proof as the Agency requires to establish the lender's ownership of the guaranteed loan promissory note and related security instruments. Such proof may include copies of executed notes; and copies of mortgages or deeds of trust recorded in the appropriate jurisdiction;

(2) A copy of the payment ledger, if available, or other documentation that reflects the current outstanding loan balance, accrued interest to date, and the method of computing the accrued interest. If the interest rate was a variable rate, the lender must include documentation of changes in the agreed upon base rate and when the changes in the loan rate became effective.

(3) A full and complete list of all collateral and a listing of all liens held and status of such liens, plus any personal and corporate guarantees;

(4) The recommended liquidation methods for making the maximum collection possible on the indebtedness and the justification for such methods, including recommended action for acquiring and disposing of all collateral and collecting from guarantors;

(5) Necessary steps for preservation of the collateral including any anticipated protective advances;

(6) The market value and the potential liquidation value, or estimates thereof, of all the collateral securing the loan.

(i) These values or estimates of the collateral must be obtained by the lender through an independent appraisal. If the outstanding balance of principal and interest is less than $250,000, the lender may, instead of an appraisal, obtain these values or estimates by using their primary regulator's policies relating to appraisals and evaluations or, if the lender is not regulated, normal banking practices and generally accepted methods of determining value. A copy of the appraisal or valuation will be provided to the Agency with the liquidation plan or as soon as it is available.

(ii) The procedure used to obtain these values or estimates of the collateral must include an evaluation of the impact of any release of hazardous substances, petroleum products, or other environmental hazards.

(iii) Any independent appraiser's fee, including the cost of the environmental site assessment if necessary, will be shared equally by the Agency and the lender;

(7) Proposed protective bid amounts on collateral to be sold at auction and a description to show how the amounts were determined.

(i) A protective bid can be made by the lender, with prior Agency written approval, at a foreclosure sale to protect the lender's and the Agency's interest.

(ii) The protective bid must not exceed the amount of the loan balance plus applicable foreclosure expenses and must be based on the liquidation value and estimated net recovery considering prior liens and outstanding taxes, expenses of foreclosure, and estimated expenses for holding and reselling the property. Foreclosure expenses include, but are not limited to, expenses for resale, interest accrual, length of time necessary for resale, maintenance, guard service, weatherization, and prior liens;

(8) Copies of the borrower's latest available financial statements;

(9) Copies of each guarantor's latest available financial statements;

(10) An itemized list of estimated liquidation expenses expected to be incurred along with justification for each expense. These may include attorney, auctioneer, and other professional fees for services the lender will need to contract to maximize recovery on the loan. Cost could also include legal representation to protect Agency/lender joint interest in bankruptcy or receivership;

(11) Estimated protective advance amounts with justification. Protective advances include, but are not limited to, advances made for taxes, annual assessments, ground rent, hazard and flood insurance premiums affecting the collateral, and other expenses necessary to protect the collateral. Protective advances may include advances necessary to maintain services or address unique situations with proper justification. If the lender has advanced funds without agency approval during the life of the loan, such expenditures or loans will not be guaranteed;

(12) If a voluntary conveyance is considered, the proposed amount to be credited to the guaranteed debt;

(13) Legal opinions, if needed by the lender's legal counsel; and

(14) A schedule to periodically report to the Agency on the progress of liquidation, not to exceed every 60 days.

(d) *Partial liquidation plan.* If actions are necessary to immediately preserve and protect the collateral, the lender may submit a partial liquidation plan and, when approved by the Agency, submit a complete liquidation plan prepared by the lender in accordance with *paragraph (c)* of this section.

(e) *Approval of liquidation plan.* The lender cannot implement its liquidation plan before obtaining written approval from the Agency. The Agency will approve or disapprove the plan within 30 calendar days of its receipt. In order to ensure prompt action, the lender may submit its liquidation plan with an estimate of collateral value, and the Agency may approve the liquidation plan subject to the results of the final liquidation appraisal.

(1) If the Agency approves the lender's liquidation plan, the lender must:

(i) Proceed expeditiously with liquidation. The lender must actively market the collateral for a reasonable period of time. If after this period of time the lender is unable to sell the collateral, then consideration should be given to submission of a final loss claim based on the fair market value of the collateral prior to its ultimate disposition;

(ii) Take all legal action necessary to liquidate the loan in accordance with the approved liquidation plan; and

(iii) Update or modify the liquidation plan when conditions warrant, including a change in value based on a liquidation appraisal.

(iv) If changed circumstances after submission of the liquidation plan require a revision of liquidation costs, the lender must obtain the Agency's written approval prior to proceeding with the proposed changes if the revised liquidation costs exceed 10 percent of the amount proposed in the liquidation plan approved by the Agency.

(2) If the Agency does not approve the lender's liquidation plan, the Agency will meet with the lender to resolve the concern(s). Until the concerns are resolved, the lender must take such actions that a reasonable lender would take without a guarantee and keep the Agency informed, in writing, of those actions. Once the revised liquidation plan is approved by the Agency, the lender must proceed in accordance with paragraphs (e)(1)(i) through (iii) of this section.

(f) *Acceleration.* The lender must proceed to accelerate the loan as expeditiously as possible when acceleration is necessary, including giving any notices and taking any other required legal actions. The guaranteed loan will be considered in liquidation once it has been accelerated and a demand for payment has been made upon the borrower.

(1) If the sole basis for acceleration is a non-monetary default, the lender must obtain concurrence from the Agency prior to accelerating the loan. In the case of monetary default, the lender may accelerate the loan without prior approval by the Agency, although Agency concurrence must still be given no later than the time the Agency approves the liquidation plan.

(2) The lender must provide the Agency a copy of the acceleration notice, or

other acceleration document sent to the borrower.

(g) *Estimated loss claim and payment.* If the lender is conducting the liquidation and owns any or all the guaranteed portion of the loan, the lender must file an estimated loss claim once a decision has been made to liquidate if the liquidation will exceed 90 calendar days. The Agency will process the estimated loss claim and will make final loss payments in accordance with § 5001.521.

(h) *Liquidation expenses.* (1) The guarantee will not cover liquidation expenses in excess of liquidation proceeds under any circumstances.

(2) When a liquidation is performed by the lender, the Agency must approve, in advance and in writing, the lender's estimated liquidation expenses of collateral.

(3) Liquidation expenses must be reasonable and customary and must provide a demonstrated economic benefit to the lender and the Agency. The lender and Agency will share liquidation expenses equally. To accomplish this, the lender must deduct 50 percent of the liquidation expenses from the collateral sale proceeds.

(i) *Accounting and reports.* The lender must account for funds during the period of liquidation and must provide the Agency with reports on the progress of liquidation including disposition of collateral and resulting costs. If in the course of implementing the approved liquidation plan the lender determines additional procedures are necessary for the successful completion of the liquidation or otherwise makes any other changes to or deviations from the approved liquidation plan, the lender must identify in the report such procedures, changes, and deviations.

(j) *Transmitting payments and proceeds to the Agency.* When the Agency is the holder of a portion of the guaranteed loan, the lender must transmit to the Agency within 14 calendar days the Agency's pro rata share of any payments received from the borrower, liquidation, or other proceeds using an Agency approved form.

(k) *Disposition of collateral.* (1) Disposition of collateral acquired by the lender must be approved, in writing, by the Agency when—

(i) The lender's cost to acquire the collateral of a borrower exceeds the potential recovery value of the security and the lender proposes abandoning the collateral in lieu of liquidation; or

(ii) The acquired collateral is to be sold to the borrower, affiliates or members of the borrower or to borrower's stockholders or officers, or the lender or lender's stockholders or officers.

(2) A recommendation by the lender for abandonment of collateral is considered a servicing action under 7 CFR 1970.8(e) and a separate NEPA review is not required.

(l) *Disposition of personal or corporate guarantees.* The lender must take action to maximize recovery from all personal and corporate guarantees, including seeking deficiency judgments when there is a reasonable chance of future collection.

(m) *Compromise settlement.* Compromise settlements must be approved by the lender and the Agency. The lender must provide complete current financial information on all parties obligated for the loan. At a minimum, the compromise settlement must be equivalent to the value and timeliness of that which would be received from attempting to collect on the guarantee. Any guarantor cannot be released from liability until the full amount of the compromise settlement has been received. In determining whether to approve a compromise settlement, the Agency will consider, among other things, whether the compromise is more financially advantageous than collecting on the guarantee.

(n) *Liquidation provisions selection.* (1) If a lender has made a loan guaranteed under one of the programs identified in § 5001.1 of this part, the lender has the option to liquidate the loan under the provisions of this part or under the entire provisions of applicable regulation at the time the loan was guaranteed by the Agency.

(2) The lender must notify the Agency in writing within 10 calendar days after its decision to liquidate as to which regulatory provisions it chooses to use. If the lender does not notify the

Agency in writing within these 10 calendar days, it must use the liquidation provisions in this part.

(o) *Agency liquidation.* The Agency will liquidate a guaranteed loan at its option only when it is a holder and there is reason to believe the lender is not likely to undertake liquidation efforts that will result in maximum recovery. When it conducts a liquidation, the Agency will apply proceeds derived from the sale of the collateral first to reasonable liquidation expenses and second to the guaranteed portion of the loan.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79728, Sept. 30, 2024]

§ 5001.518 [Reserved]

§ 5001.519 Bankruptcy.

(a) *Lender's responsibilities.* The lender is responsible for protecting the guaranteed loan and the collateral securing it in bankruptcy and any related appellate proceedings. These responsibilities include, but are not limited to, the following:

(1) Taking actions that result in greater recoveries and avoiding actions that are likely not to be cost-effective;

(2) Monitoring confirmed bankruptcy plans to determine borrower compliance, and, if the borrower fails to comply, pursuing appropriate relief, including seeking a dismissal of the bankruptcy plan;

(3) Requesting modifications of any proposed bankruptcy plan whenever it appears that the lender could obtain additional recoveries via plan modification;

(4) Filing a proof of claim, when necessary, and all the necessary papers and pleadings concerning the case;

(5) Attending and, when necessary, participating in meetings of the creditors and all court proceedings;

(6) Immediately seeking adequate protection of the collateral if it is subject to being used by the trustee in bankruptcy or the debtor in possession;

(7) When appropriate, seeking involuntary conversion of a pending chapter 11 case to a liquidation proceeding or seeking dismissal of the proceedings;

(8) Submitting a default status report within 15 calendar days after the date when the borrower defaults and every 30 calendar days thereafter until the default is resolved or a final loss claim is paid by the Agency; and

(9) Informing the Agency within 10 working days upon notification of the filing of a bankruptcy case and keeping the Agency adequately and regularly informed, in writing, of all aspects of the proceedings, at a minimum, on a bi-monthly basis.

(b) *Appraisals.* In a Chapter 9 or Chapter 11 reorganization, the lender must obtain an independent appraisal of the collateral if the Agency has determined that an independent appraisal is necessary. With written Agency consent, the lender and Agency will equally share the cost of any independent appraisal fee to protect the guaranteed loan in any bankruptcy proceedings.

(c) *Repurchase from the holder.* The Agency or the lender, with the approval of the Agency, can initiate the repurchase of the unpaid guaranteed portion of the loan from the holder. If the lender is the holder, an estimated loss payment may be filed at the initiation of a Chapter 7 proceeding or after a Chapter 9 or Chapter 11 proceeding becomes a liquidation proceeding. Any loss payment on loans in bankruptcy must be approved by the Agency.

(d) *Reports of loss during bankruptcy.* In bankruptcy proceedings, the lender must use the report of loss form for reporting all estimated and final loss determinations. Payment of loss claims will be made as provided in this section.

(1) *Estimated loss payments.* (i) If a borrower has filed for bankruptcy and all or a portion of the debt has been discharged, the lender must request an estimated loss payment of the guaranteed portion of the accrued interest and principal discharged by the court. Only one estimated loss payment is allowed during the bankruptcy and any related appellate proceedings. The Agency will treat all subsequent claims of the lender during bankruptcy and any related appellate proceedings as revisions to the initial estimated loss. At its option, the Agency may process a revised estimated loss payment in accordance with any court-approved changes in the bankruptcy plan. Once

the bankruptcy plan has been satisfactorily completed, the lender is responsible for submitting the documentation necessary for the Agency to review and adjust the estimated loss claim to reflect any actual discharge of principal and interest and to reimburse the lender for any court-ordered interest rate reduction under the terms of the bankruptcy plan.

(ii) The lender must use the report of loss to request an estimated loss payment and to revise any estimated loss payments during the bankruptcy plan. The estimated loss claim, as well as any revisions to this claim, must be accompanied by documentation to support the claim.

(iii) Upon completion of a bankruptcy plan, the lender must—

(A) Enter the data directly into the Agency's electronic system; and

(B) Provide the Agency with the documentation necessary to determine whether the estimated loss paid equals the actual loss sustained. Where the actual loss sustained is different than the estimated loss paid, the difference will be handled in accordance with § 5001.521(h).

(2) *Bankruptcy loss payments.* (i) The lender must request a bankruptcy loss payment of the guaranteed portion of the accrued interest and principal discharged by the court for all bankruptcies when all or a portion of the debt has been discharged. Unless a final court decree approves a subsequent change to the bankruptcy plan that is adverse to the lender, only one bankruptcy loss payment is allowed during the bankruptcy. Once a final court decree has discharged all or part of the guaranteed loan and any appeal period has run, the lender must submit the documentation necessary for the Agency to review and adjust the bankruptcy loss claim to reflect any actual discharge of principal and interest.

(ii) The lender must use the report of loss to request a bankruptcy loss payment and to revise any bankruptcy loss payments during the course of the bankruptcy. The lender must include with the bankruptcy loss claim documentation to support the claim, as well as any revisions to this claim.

(iii) Upon completion of a bankruptcy plan, restructure, or liquidation, the lender must enter the data directly into the Agency's electronic reporting system.

(iv) If an estimated loss claim is paid during a bankruptcy and the borrower repays in full the remaining balance without an additional loss sustained by the lender, a final report of loss will be filed to terminate the loan.

(3) *Interest losses as a result of bankruptcy reorganization.* Interest losses as a result of bankruptcy reorganization will be paid as described in paragraphs (e)(3)(i) and (ii) of this section, as applicable.

(i) For guaranteed loans closed for which the Agency has not issued an interest termination letter—

(A) The loss of interest income sustained during the period of the bankruptcy plan will be processed in accordance with paragraph (d)(1) of this section;

(B) The loss of interest income sustained after the bankruptcy plan is confirmed will be processed annually when the lender sustains a loss as a result of a permanent interest rate reduction that extends beyond the period of the bankruptcy plan; and

(C) If an estimated loss claim is paid during the operation of the bankruptcy plan and the borrower repays in full the remaining balance without an additional loss sustained by the lender, a final report of loss will be filed to terminate the loan.

(ii) For guaranteed loans closed for which the Agency has issued an interest termination letter, the Agency will not compensate the lender for any difference in the interest rate specified in the loan note guarantee and the rate of interest specified in the bankruptcy plan.

(4) *Final bankruptcy loss payments.* The Agency will process final bankruptcy loss payments when the loan is fully liquidated.

(5) *Application of loss claim payments.* The lender must apply estimated loss payments first to the principal balance of the guaranteed portion of the debt and then to the interest of the guaranteed portion of the debt. In the event a court attempts to direct the payments to be applied in a different manner, the lender must immediately notify the Agency in writing.

(6) *Protective advances.* If approved protective advances, as authorized by § 5001.516, were incurred in connection with the initiation of liquidation action and were required to protect the collateral as result of delays in the case or failure of the borrower to maintain the security prior to the borrower having filed bankruptcy, the protective advances together with accrued interest, as determined under § 5001.450(c) of this part, are payable under the guarantee in the final loss claim.

(e) *Liquidation expenses during bankruptcy proceedings.* (1) The liquidation expenses will be in compliance with § 5001.517(h).

(2) Reasonable and customary liquidation expenses in bankruptcy may be deducted from liquidation proceeds of collateral. In the case of Chapter 11 reorganizations or Chapters 11 or 7 liquidation, only expenses authorized by the court can be deducted from the collateral proceeds, unless the liquidation is by the lender.

(3) When a bankruptcy proceeding results in a liquidation of the borrower by a bankruptcy trustee appointed under 11 U.S.C. 701, 702, 703, or 1104, expenses will be handled as directed by the court, and the lender cannot claim liquidation expenses for the sale of the assets.

(4) If the property is abandoned by the bankruptcy trustee and any relief from the stay has been obtained, the lender will conduct the liquidation in accordance with § 5001.517.

(5) Proceeds received from partial sale of collateral during bankruptcy can be used by the lender to pay reasonable costs (*e.g.*, freight, labor, and sales commissions) associated with the partial sale. Reasonable use of proceeds for this purpose must be documented with the final loss claim request.

(6) Legal fees as a result of a bankruptcy are limited by the Agency to an amount not to exceed 3 percent of the current principal balance and are only recoverable from liquidation proceeds. Legal fees in excess of 3 percent of the current principal balance shall be borne by the lender and are not recoverable from liquidation proceeds or any loss claim by the lender.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79728, Sept. 30, 2024]

§ 5001.520 Litigation.

(a) In all litigation proceedings involving the borrower, the lender is responsible for protecting the rights of the lender and the Agency with respect to the loan and keeping the Agency adequately and regularly informed, in writing, of all aspects of the proceedings. If the Agency determines that the lender is not adequately protecting the rights of the lender or the Agency with respect to the loan, the Agency reserves the right to take any legal action the Agency determines necessary to protect the rights of the lender and Agency, on behalf of the lender or the Agency. If the Agency exercises this right, the lender must cooperate with the Agency. The Agency will assess against the lender any cost the Agency incurs with such action.

(b) Notwithstanding any other provision of this part, the Agency reserves the right to be represented by the U.S. Department of Justice in any litigation where the Agency is named as a party.

§ 5001.521 Loss calculations and payment.

Unless the Agency anticipates a future recovery, the Agency will make a final settlement with the lender after the collateral is liquidated or after settlement and compromise of all parties has been completed. The Agency has the right to recover losses paid under the guarantee from any party that may be liable.

(a) *Report of loss form.* The lender must use the report of loss form for all estimated and final loss claim requests.

(b) *Estimated loss claim.* The lender must submit to the Agency a completed report of loss form for all estimated loss claims. In calculating the estimated loss, the lender must use the estimated or current appraised liquidation value of the collateral.

(c) *Estimated loss payment.* The Agency will approve estimated loss payments only after it has approved the lender's liquidation plan. For a loan which has been approved by the Agency for a debt write-down (or debt restructure), the maximum amount of loss payment will not exceed the percent of guarantee multiplied by the difference between the outstanding principal and

interest balance of the loan before the write-down and the outstanding balance of the loan after the write-down.

(1) The amount of an estimated loss payment must be credited first as a deduction from the principal balance of the loan with any remaining balance to accrued interest.

(2) The estimated loss payment cannot be applied as a payment on the loan for purposes of reducing the unpaid balance owed by the borrower for status reporting or any debt collection actions against the borrower or any guarantors.

(d) *Reduction of loss claims payable.* (1) Negligent loan origination and negligent loan servicing will result in a reduction of loss claims payable under the guarantee to the lender if any losses have occurred as the result of such negligence. The Agency will assess against the lender any cost to the Agency associated with actions taken by the Agency necessary to protect the Agency's interests with respect to the loan where a lender is not in compliance with its origination and servicing responsibilities. The extent of the reduction, which could be a total reduction of the loss claims payable, will depend on the extent of the losses incurred as a result of the negligent loan origination or servicing.

(2) Non-compliance with the requirements of *§ 5001.205(a)* or *§ 5001.305(a)* will result in a reduction of loss claims payable. The Agency's review of the non-compliance could result in a total reduction of the loss claim payable. The Agency's review of the non-compliance could result in a total reduction of the loss claim payable. The lender must ensure during loan making and project development that the project is designed utilizing accepted architectural and engineering practices and conforms to applicable Federal requirements including the seismic requirements of Executive Order 12699 (55 FR 835, January 5, 1990), State and local codes and requirements, and facility plans or plans and specifications reviewed and approved by the applicable State regulatory agency. The lender must also ensure that the planned project will be completed within the available funds and once completed, will be suitable for the borrower's needs.

(3) Any delinquent fees, including any interest due thereon, will be deducted from any loss payment due the lender.

(e) *Final loss claim.* Except for certain unsecured personal or corporate guarantees as provided for in this section, the lender must submit a final report of loss to the Agency within 30 calendar days after liquidation of all collateral is completed. The Agency will not guarantee interest beyond the interest termination date or this 30-day period, other than for the period of time it takes the Agency to process the loss claim. The lender must apply the total amount of the loss payment remitted by the Agency to the guaranteed portion of the loan debt. At the time of final loss settlement, the lender must notify the borrower that the loss payment has been so applied. Such application does not release the borrower from liability. Once the lender receives a final loss payment from the Agency, the Agency will collect any outstanding debts owed to the government in accordance with part 3 of this title.

(1) *Loss.* In the event of a loss, the loan note guarantee will not cover—

(i) Interest to the lender accruing after the interest termination date;

(ii) Any interest accrued as the result of the borrower's default on the guaranteed loan over and above that which would have accrued at the Agency-approved promissory note rate on the guaranteed loan (*e.g.*, default interest rate); or

(iii) Any late fees, penalties, bond fees, interest rate swap charges, liquidation expenses, and other costs unless authorized under paragraph (e)(7) of this section.

(2) *Accounting of funds.* Before the Agency will approve a final report of loss, the lender must account for all funds during the period of liquidation, disposition of the collateral, all costs incurred, and any other information necessary for the successful completion of liquidation. The lender must document and show that all the collateral has been accounted for and properly liquidated, and that liquidation proceeds have been properly accounted for and applied correctly on the loan.

(3) *Audit.* Upon receipt of the final accounting and report of loss, the Agency may audit all applicable documentation to determine the final loss. The lender must make its records available to and otherwise assist the Agency in making any investigation or audit of the report of loss. The documentation accompanying the report of loss must support the amounts reported. The Agency must be satisfied that the lender has maximized the collections in conducting the liquidation.

(4) *Guarantees.* The lender must determine the collectability of unsecured personal and corporate guarantees required in accordance with § 5001.204 of this part. The lender must promptly collect or otherwise dispose of such guarantees prior to completion of the final loss report. However, if collection from the guarantors appears unlikely or will require a prolonged period of time, the lender must file the report of loss when all other collateral has been liquidated. Unsecured personal or corporate guarantees outstanding at the time of the submission of the final report of loss will be treated as a future recovery with the net proceeds to be shared on a pro rata basis by the lender and the Agency.

(5) *Federal debt.* Any amounts paid by the Agency on account of liabilities of a borrower constitute a Federal debt owed to the Agency by the borrower. In such case, the Agency can use all remedies available to it to collect the debt from the borrower, including offset in accordance with part 3 of this title.

(i) Any amounts paid by the Agency pursuant to a claim by a lender constitute a Federal debt owed to the Agency by a third-party guarantor of the guaranteed loan, to the extent of the amount of the third-party guarantee. In such case, the Agency can use all remedies available to it to collect the debt from the third-party guarantor including offset in accordance with part 3 of this title.

(ii) The Agency may consider a compromise settlement of a debt owed to the Agency after it has processed a final report of loss and issued a 60-day due process letter. Any funds collected by the Agency will not be shared with the lender.

(6) *Protective advances.* In those instances where the lender made authorized protective advances, the lender can claim recovery for the guaranteed portion of any loss of monies advanced as well as interest resulting from such protective advances. These claims must be included in the final report of loss. The lender must provide receipts and a breakdown of protective advances as to the payee, purpose of the expenditure, date paid, evidence that the amount expended was proper, and that the amount was actually paid.

(7) *Liquidation expenses.* As provided in § 5001.517(e), certain reasonable liquidation expenses are allowed during the liquidation process. The lender cannot claim any liquidation expenses in excess of liquidation proceeds.

(i) Liquidation expenses are recoverable only from liquidation proceeds. The Agency will deduct liquidation expenses from the liquidation proceeds of the collateral unless the costs have been previously determined by the lender (with Agency concurrence) to be protective advances. The lender must provide receipts and a breakdown of liquidation expenses as to the payee, purpose of the expenditure, date paid, evidence that the amount expended was proper, and that the amount was actually paid.

(ii) The Agency may approve legal fees as liquidation expenses provided that the fees are reasonable, require the assistance of attorneys, and cover legal issues pertaining to the liquidation that could not be properly handled by the lender, its employees or in-house counsel. Approved legal expenses are limited by the Agency to an amount not to exceed 3 percent of the current principal balance and will be shared by the lender and Agency equally. This includes those instances where the lender has incurred such expenses from a trustee conducting the liquidation of assets. Legal fees in excess of 3 percent of the current principal balance shall be borne by the lender and are not recoverable from liquidation proceeds or any loss claim by the lender.

(iii) The lender cannot claim the guarantee fee or the other Agency fees as authorized liquidation expenses, and

In-house expenses of the lender are not allowed.

(8) *Accrued interest.* If the lender holds all or a portion of the guaranteed loan, the Agency will guarantee accrued interest in accordance with § 5001.450(c) of this part.

(i) Accrued interest eligible for payment under the guarantee on a defaulted loan will be discontinued when the estimated loss is paid. Interest will not be paid beyond the interest termination date.

(ii) The lender must support accrued interest by documenting how the amount was accrued, including attaching a copy of both the promissory note and ledger. If the interest rate was a variable rate, the lender must include documentation of changes in both the selected base rate and the loan rate.

(iii) If a restructuring of a guaranteed loan includes the capitalization of interest, the guarantee will not cover the interest accrued on the capitalized interest.

(9) *Acquiring property titles.* If a lender acquires title to property, any loss will be based on the collateral value at the time the lender obtains title. Alternatively, the lender can calculate the final loss settlement using the net proceeds received at the time of the ultimate disposition of the property if—

(i) The lender has submitted to the Agency a written request to use this option within 15 calendar days of acquiring title; and

(ii) The Agency approves the request prior to the lender submitting any request for estimated loss payment.

(f) *Loss limit.* The amount payable by the Agency to the lender cannot exceed the limits contained in the loan note guarantee. If the lender conducts the liquidation, loss occasioned by accruing interest will be covered to the interest termination date, provided the lender proceeds expeditiously with the liquidation plan approved by the Agency. If the Agency conducts the liquidation, loss occasioned by accruing interest will be covered by the guarantee only to the date the Agency accepts this responsibility.

(g) *Rent.* The lender must apply any net rental or other income that it receives from the collateral to the guaranteed loan debt.

(h) *Final loss payment.* The Agency will make loss payments after it has reviewed the complete final report of loss, all collateral has been properly liquidated and accounted for, and the Agency has determined that liquidation expenses are reasonable and within approved limits.

(1) Any estimated loss payments made to the lender will be credited against the final loss payment on the guaranteed loan.

(2) Once the Agency approves the report of loss and supporting documents submitted by the lender—

(i) If the actual loss is greater than any estimated loss payment, the Agency will pay the additional amount owed by the Agency to the lender.

(ii) If the actual loss is less than the estimated loss payment, the lender must reimburse the Agency for the overpayment plus interest at the promissory note rate from the date of payment of the estimated loss.

(iii) If the Agency conducted the liquidation, it will provide an accounting to the lender and will pay the lender in accordance with the loan note guarantee.

[85 FR 42518, July 14, 2020, as amended at 89 FR 79728, Sept. 30, 2024]

§ 5001.522 Future recovery.

After a final loss claim has been paid, the lender must use reasonable efforts to collect from any party still liable for future recovery unless the Agency notifies the lender otherwise. Any net proceeds from future recovery will be split pro rata between the lender and the Agency based on the percent of the loan guarantee even if the loan note guarantee has been terminated. Once the Agency determines a debt is Federal debt and provides notice to the lender, that Federal debt is excluded from future recovery. The lender must cease all collection efforts against the borrower and any individual or corporate guarantors upon referral of the debts by the Agency for collection in accordance with part 3 of this title. The Agency will not share with the lender any collection of Federal debt made by the Federal Government from any liable party to the guaranteed loan.

§ 5001.523 Property acquired by the lender.

(a) *Collateral preservation.* When a lender acquires title to the collateral and the final loss claim is not paid until final disposition, the lender must proceed as quickly as possible to develop a plan to fully protect the collateral from deterioration (weather, vandalism, etc.). Hazard insurance in an amount necessary to cover the market value of the collateral must be maintained.

(b) *Collateral sale.* (1) Upon acquiring the collateral, the lender must prepare and submit without delay to the Agency a plan on the best method for the sale of the collateral, keeping in mind any prospective purchasers. The Agency must approve the plan in writing. If an existing approved liquidation plan addresses the disposition of acquired property, no further review is required unless modification of the plan is needed.

(2) Whenever the conversion of collateral to cash can reasonably be expected to result in a negative net recovery amount, the lender should consider abandonment of the collateral. If the lender seeks to abandon the collateral, the lender must obtain written Agency approval before abandoning the collateral.

(c) *Re-title collateral.* Any collateral accepted by the lender must not be titled in the Agency's name in whole or in part.

§ 5001.524 Termination of loan note guarantee.

Each loan note guarantee issued under this part or under one of the guaranteed loan programs identified in § 5001.1 of this part will terminate automatically when one of the events described in paragraphs (a) through (c) of this section occur. The lender will maintain its guaranteed loan files for at least three years after termination of the loan note guarantee.

(a) The guaranteed loan is paid in full;

(b) Full payment by the Agency of any loss claim or compromised settlement except for future recovery provisions; or

(c) Written request from the lender to the Agency to terminate the guarantee, which will be effective the date the Agency receives the request provided that the lender holds all the guaranteed portion of the loan.
